Professional Licensure General Disclosure Ph.D. in Clinical Psychology

The Consumer Information Disclosures are required by the US Department of Education. The clinical program at DePaul University has used the documentation provided by the Association of State and Provincial Psychology Boards that will be added to their website.

The doctoral program in clinical psychology at DePaul University is accredited by the American Psychological Association. For most states, this accredited status is sufficient for licensure, but state licensure requirements can change at any time. More information about licensure requirements by state are available here:

<https://www.apaservices.org/practice/ce/state/state-info>

Students who are interested in getting licensed in those states would need to select additional courses and/or training at the pre-licensure level to ensure that they are meeting the specific curricular requirements of those states. Students are encouraged to consult with the program's Director of Clinical Training for advising on how to meet state licensure requirements for these states.

- California additional coursework
 - human sexuality
 - alcoholism/chemical dependency detection and treatment
 - child abuse assessment
 - spousal/partner abuse, detection and intervention strategies
 - aging and long-term care
- Michigan additional coursework
 - identifying victims of human trafficking
- New Jersey additional coursework
 - personality theory and human development theory
- New York
 - biological bases of behavior
 - cognitive-affective bases of behavior
 - social bases of behavior
 - individual differences
 - psychometrics
