## **City Colleges of Chicago AS in Computer Science & DePaul University BS in Computer Science Transfer Pathway**

Program without the additional electives yields only 189 quarter hours; either one of the additional elective options will suffice to bring the total to the 192 quarter hours needed for the BS in Computer Science.

Students may complete an additional elective at the City Colleges of Chicago or additional elective(s) at DePaul to reach the needed quarter hours total, depending on their particular situation. Since the undergraduate tuition package at DePaul covers up to 18 quarter hours per quarter, students may take an additional two-quarter-hour elective course for at least one quarter at DePaul to satisfy the credit hour deficit without paying additional tuition.

\* Fulfills one of DePaul's Philosophical Inquiry courses (PI)

\*\*Human Diversity

^^ One is recommended to be an approved Ethics course, except if PHIL course at CCC is an ethics course. Can replace one Religious Dimensions course with any LSP domain course. Philosophical Inquiry course can be replaced with any LSP domain course if PHIL course taken at CCC.
