Operations Manager
PHYLLIS BAILEY, B.S.,
Assistant Academic Advisor
The College of Liberal Arts and Sciences is committed to providing all of its students with a liberal education that balances in-depth study in certain areas with a breadth of experience in the various disciplines that form the core of human knowledge. Its 33 degree-granting programs and disciplines share a commitment to the highest standards of academic quality, to a mode of study that nurtures critical thinking skills, to a self-conscious examination of questions of value and meaning, and to the development of those habits of the heart and mind intrinsic to a life-long and independent learner.

The commitment to liberal education is reflected in a faculty that is as strongly committed to teaching as it is to research. It is reflected in curricular practices that discourage students from concentrating in one subject area to the exclusion of all others. And it is reflected in the college’s encouragement of interdisciplinary areas of study that underline the connections and unities among the various areas of knowledge.

The college values and nurtures the urban and Vincentian mission of the University. The interactions among its faculty and between its faculty and its students are characterized by personalism. Significant portions of the curriculum speak to questions of social responsibility, ethical standards for behavior, and an active engagement with the people and the challenges of the Chicago community.
LIBRARIES, FACILITIES, FACULTY

The College of Liberal Arts and Sciences offers programs of study during both the day and the evening on the Lincoln Park and Loop campuses. LA&S students may take classes during the day or evening at any of DePaul’s campuses. However, please be aware that some programs are available only during the day and/or only at the Lincoln Park campus.

The college offers the student a coherent curriculum and a well-prepared and dedicated faculty. All students have the opportunity to work closely with faculty and staff in their major field. Although students must make their own judgments concerning their personal values and career goals, faculty, through the advisement process, will assist students in reaching academic decisions commensurate with a high quality education.

In support of the faculty and curriculum, the university offers many advantages of location and facility which enrich the educational experiences of the student. The University is centrally located and draws upon the cultural wealth of metropolitan Chicago. It also offers the student extensive libraries on each campus as well as the use of the libraries of other associated universities in the area. For further information on the location, facilities, and libraries of the University, consult page 432 of the Bulletin.

ADMISSION

Candidates interested in admission to the college should direct all inquiries to the Office of Admission, DePaul University, 1 E. Jackson Boulevard, Chicago, Illinois, 60604. Telephone: (312) 362-8300. The Office of Admission will provide each candidate with the required forms and instructions for filing the application or you may visit the website at www.depaul.edu and fill out an on-line application. A nonrefundable application fee of $25.00 is required of each applicant. For further information on the regulations and procedures governing admission, consult page 441 of the Bulletin.

COMPETENCE IN MODERN LANGUAGE

Students who intend to graduate with the Bachelor of Arts degree will be required to demonstrate competence in a modern language. Such competence may be demonstrated in one of several ways: by successful completion of two years of high school course work in a modern language, by achieving a score of 3 or higher on the Advanced Placement test, by a satisfactory score as determined by the Modern Language Department on the CLEP examination, or by taking appropriate course work. Note that CLEP scores may be used only to meet the College requirement. Credit is not awarded in modern languages on the basis of CLEP scores. Students who are required to do course work must demonstrate modern language competence equivalent to a complete introductory sequence (101-102-103). Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three course introductory sequence. B.A. students who meet the college requirement and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. (See p. 8 for further details.)
The College of Liberal Arts and Sciences offers programs of study leading to the Bachelor of Arts and Bachelor of Science degrees. If these programs are pursued through the Honors Program, “Honors Degrees” are awarded. For more information on the Honors Program, the student should consult page 189 of the Bulletin. In addition, several departments offer departmental Honors Programs for their majors.

The following departments and programs offer degree programs in the College:

- American Studies
- Anthropology
- Art and Art History
- Biological Sciences
- Catholic Studies
- Chemistry
- Clinical Laboratory Science
- Communication
- Economics
- English
- Environmental Science
- Geography
- History
- International Studies
- Latin American and Latino Studies
- Mathematical Sciences
- Modern Languages
- (French, German, Italian)
- Japanese Studies and Spanish
- Nursing
- Philosophy
- Physics
- Political Science
- Psychology
- Public Policy Studies
- Religious Studies
- Sociology
- Women’s Studies

Pre-professional training for careers in medicine, dentistry, law and engineering are additional features of the curriculum. Some departments have structured five-year programs in which qualified students may earn both the Bachelor’s and Master’s degrees. For specific information on the various degree requirements in the college, consult the departmental and program entries which follow.

The curriculum is designed to allow each student to proceed at a pace consistent with his or her ability and at a level governed by the student’s background, interest, and willingness to accept challenge. Many departments provide opportunities for enrichment through honors courses, internships, and independent study and research courses. Permission to pursue these options must be obtained from department chairs.

Generally, the college operates on an optional attendance plan; that is, students bear the responsibility for allocating their time for class study, library work, and other preparation. They assume the responsibility of meeting all the course requirements. However, there are some courses in which attendance is required.

STUDY IN THE MAJOR FIELD

The student's course of study in the college consists of two parts: the major field and the Liberal Studies Program. Together these two parts contribute to the liberal education of the student which is the common purpose of all study in the college. By “liberal education” the college understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural sciences, and mathematics.

The student’s course of study in the major field in turn consists of two parts: a program of major field courses and a number of supporting or allied fields requirements. The major field program generally is built upon a set of core courses and a specialized “concentration” designed for career preparation. The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.
Because no academic major program is built in isolation from closely allied departments, students are required to pursue a number of courses in supporting fields. For the most part, the major and supporting fields requirements can be augmented by electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

MINOR
Most departments offer minor concentrations of study. Students may elect a minor to provide overall breadth to their collegiate program or to enrich their experiences in disciplines allied with their major field. Generally, a minor consists of a set of courses introductory to the field plus another set of more specialized courses. Most minors require six courses, some of which may also be counted for Liberal Studies Program credit. Minors are open to students in all colleges and departments; however, students may not minor in the same department in which they major.

The following minors are offered by departments in the College of Liberal Arts and Sciences. The page number following the minor indicates where further details may be found. For further information contact either the department that offers the minor or your college office.

**American Studies** (p. 92)
**Anthropology** (p. 94)
**Art and Art History** (p. 99)
  - Studio Art
  - Art History
  - Graphic Design
  - Media Arts
**Biological Sciences** (p. 111)
**Catholic Studies** (p. 118)
**Chemistry** (p. 130)
**Communication** (p. 140)
  - General Communication
  - Journalism
  - Language and Culture
  - Communication Studies
  - Media Studies
**Community Service Studies** (p. XXX)
**Comparative Literature** (p. 146)
**Economics** (p. 151)
**English** (p. 158)
  - Literature
  - Creative Writing
  - Professional Writing
**Geography** (p. 170)
  - Generalist Geography
  - Urban Geography and Planning
**History** (p. 178)
**International Studies** (p. 201)
**Latin American and Latino Studies** (p. 210)
**Mathematics** (p. 215)
  - General Mathematics
  - Statistics
**Modern Languages** (p. 230)
  - Chinese Studies
  - Commercial French
  - Commercial Spanish
  - French
  - German
  - Italian
  - Japanese
  - Japanese Studies
  - Spanish
**Philosophy** (p. 254)
**Physics** (p. 261)
  - General
  - Microelectronics
**Political Science** (p. 268)
  - American Politics
  - International Politics
**Psychology** (p. 280)
  - Experimental
  - Industrial/Organizational
  - Applied
**Religious Studies** (p. 294)
  - Cultural Studies in Religion
  - General Religious Studies
  - Religion, Ethics and Social Justice
  - Women, Religion and Spirituality
  - Specialized
**Sociology** (p. 305)
  - Cultural Studies
  - General Sociology
  - Health and Human Services
  - Juvenile Justice
  - Law and Society
  - Urban Sociology
**Women’s Studies** (p. 316)
MINORS IN THE COLLEGE OF COMMERCE

Students enrolled in the College of Liberal Arts and Sciences may obtain a minor in pre-MBA, Accounting, Economics, Finance, Management, Management Information Systems or Marketing. The prerequisite to all commerce minor field courses is pre-calculus. In order to officially declare a commerce minor, you must complete a Commerce Declaration of Minor form available in the LA&S Undergraduate Office (SAC 481) or in the College of Commerce Undergraduate Office (Suite 8500 DePaul Center). If you would like to discuss the commerce minors, please call (312) 362-5358 to schedule an appointment with a commerce advisor.

PRE-MBA

ACCOUNTING
Prerequisite: course equivalency of pre-calculus and statistics.

ACC 101 Principles of Accounting I; ACC 102 Principles of Accounting II; ACC 200 Business Processes, Information Systems and Control; ACC 204 Financial Reporting I; ACC 360 Taxation; and one elective chosen from: ACC 203 Cost and Managerial Accounting; 206 Financial Reporting II; 372 Audit and Other Assurance Services I, or ACC 395 Internal and External Accounting.

ECONOMICS
ECO 105 Principles of Microeconomics; ECO 106 Principles of Macroeconomics; 4 Economic electives or ICS 200 Introduction to Business and 3 Economics electives.

FINANCE
A non-College of Commerce student must receive a grade of at least a C- in Finance 310 in order to declare a minor in Finance. In order to enroll in Finance 310, the student must (1) have a cumulative GPA of 2.5; and (2) have received a minimum grade of C- in the following courses: BMS 125, 126, and 142 (or their equivalent), Accountancy 101, and Economics 105 and have a cumulative GPA of not less than 2.0 in these courses. Upon meeting these requirements, the student may declare a minor in Finance by completing a declaration of minor form which can be obtained in the College of Commerce Undergraduate Office. To complete a minor in Finance, a non-College of Commerce student must: (1) complete Finance 311, Finance 320, Finance 330 and two Finance elective courses; and (2) have a cumulative GPA of not less than 2.0 in all Finance courses.

MANAGEMENT
Prerequisite: course equivalency of pre-calculus and statistics.

MGT 300 Managerial Concepts and Practices I; MGT 301 Managerial Concepts and Practices II; Students should select four from the following: MGT 302 Organizational Behavior; MGT 307 Human Resources Management; MGT 322 The Management and Measurement of Quality; and one advanced Management course or BLW 201 Legal Environment of Business; or ICS 200 Introduction to Business.

MANAGEMENT INFORMATION SYSTEMS
CSC 260 Client Interface Programming; CSC 319 Database Technologies; MIS 360 Systems Analysis or CSC 315 Systems Analysis and Design; CSC 361 Basic Communication Systems or CSC 362 Principles of Data Communications; MIS 362 IS Project Management or IS 372 Foun-
dations of Software Project Management; MIS 364 Knowledge Management or MIS 366 Internet Technologies in Business or IS 373 Introduction to Large System Implementation.

MARKETING
Prerequisite: course equivalency of pre-calculus and statistics and ICS 200.
ICS 200 Introduction to Business; MKT 301 Principles of Marketing; MKT 310 Consumer Behavior; MKT 305 Introduction to Marketing Research; MKT 315 Strategic Tools for Marketers; 1 Marketing elective.

MINORS IN THE SCHOOL OF COMPUTER SCIENCE, TELECOMMUNICATIONS, AND INFORMATION SYSTEMS
Students enrolled in the College of Liberal Arts and Sciences may obtain a minor in Computer Science, Computer Graphics, Data Analysis, E-Commerce Technology Human Computer Interaction, Information Systems or Network Technologies. The prerequisite to all Computer Science, Telecommunications and Information Systems (CTI) minor field courses is pre-calculus. If you would like to discuss these minors, please call (312) 362-8714 to schedule an appointment with a CTI advisor.

COMPUTER SCIENCE MINOR
E-Commerce Technology: 250 Survey of E-Commerce Technology; 270 Client Side Web Application Development.
Computer Science: 211 Programming in Java I; 212 Programming in Java II; 319 Database Technology; and either 309 Object-Oriented Programming in C++ or 313 Data Structures in Java.
Mathematics: 140 Discrete Mathematics I; and either 141 Discrete Mathematics II or 150 Calculus I.

COMPUTER GRAPHICS MINOR
Computer Science: 211 Programming in Java I.
Either GPH Digital Modeling or HCI 310 Introduction to Human-Computer Interaction.

DATA ANALYSIS MINOR
Computer Science: 200 Survey of Computer Technology; 211 Programming in Java I; 212 Programming in Java II; 319 Database Technology; 323 Data Analysis and Statistical Software I; 324 Data Analysis and Statistical Software II; and either 328 Data Analysis for Experimenters or 334 Advanced Data Analysis.

E-COMMERCE TECHNOLOGY MINOR
Computer Science: 211 Programming in Java I; 255 Information Structures and Representation.
Human-Computer Interaction: 310 Introduction to Human-Computer Interaction.

HUMAN-COMPUTER INTERACTION MINOR
Computer Graphics and Animation: 211 Perceptual Principles for Digital Environments I.
Psychology: 105 Introduction to Psychology I.
HCI 332 User-Centered Web Development; HCI 350 Usability in Computer Systems.

INFORMATION SYSTEMS MINOR
Computer Science: 211 Programming in Java I; 255 Information Structures and Representation; 319 Database Technology.
E-Commerce Technology: 250 Survey of E-Commerce Technology.
Human-Computer Interaction: 310 Introduction to Human-Computer Interaction.

NETWORK TECHNOLOGIES MINOR
Computer Science: 211 Programming in Java I; 212 Programming in Java II.
E-Commerce Technology; 250 Survey of E-Commerce Technology.
Telecommunications Systems: 361 Basic Communication Systems; 362 Principles of Data Communications; 363 Introduction to Area Networks.
One 300-level CTI course.

LIBERAL STUDIES PROGRAM
The student's course of study in the Liberal Studies Program is part of the undergraduate program devoted exclusively to liberal education. The program seeks to balance and, when necessary, augment the student's course of study in the major field. For this reason the number and distribution of courses vary according to the major field. In general, students may not take courses in their major for liberal studies credit. Exceptions to this policy are the junior year experiential learning requirement and the senior year capstone requirement. In some cases, allied field courses required by the student's major program may be taken for Liberal Studies credits. (The student should consult the departmental entries for the liberal studies requirements of his or her major. See course reduction below.)

In addition to the 32 quarter hours required in the liberal studies core, all students in the college are required to complete 52 quarter hours distributed through 6 learning domains in departments or schools designated by the Liberal Studies Program. For information concerning the purposes and curriculum of the Liberal Studies Program, consult page 6 of the Bulletin. The number and distribution of courses in each of the areas are as follows:

**Core:** 32 quarter hours required; 20 quarter hours in the First Year Program (4 quarter hours in Discover Chicago or Explore Chicago, 4 quarter hours in Focal Point Seminars, 8 quarter hours in Composition and Rhetoric, 4 quarter hours in Quantitative Reasoning), 4 quarter hour sophomore seminar on Multiculturalism in the United States, 4 quarter hour junior year experiential learning requirement, and 4 quarter hour senior capstone requirement.

**Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.

**Philosophical Inquiry:** 8 quarter hours required.

**Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

**Scientific Inquiry:** 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective. At most 2 courses from the same department or program.

**Self, Society and the Modern World:** 12 quarter hours required. At most 2 courses from the same department or program.

**Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.
MODERN LANGUAGE OPTION

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the college's language requirement and to B.S. students who wish to study a modern language at any level. Students selecting the option may substitute a three-course language sequence for two domain courses and one open elective. Students may use the Modern Language option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; Arts and Literature or Scientific Inquiry (cannot substitute for the lab science requirement). Consult the Liberal Studies section of this Bulletin (page 8) for more information. Please see your advisor for additional information about modern language course placement.

HONORS PROGRAM OPTION

Students seeking a more challenging Liberal Studies experience should consider applying for the college's Honors Program. The Program, designed for the well prepared student, incorporates a structured series of specifically designed courses taken in sequence throughout the student's four years at DePaul. Students who complete the Honors Program will be exceptionally well prepared for graduate and professional study. For more details on the Honors Program see page 189 of the Bulletin.

COURSE REDUCTION

While the equivalent of 23 courses is listed in the Liberal Studies section, only 21 are required because students must reduce, by two, the number of courses in the division in which their major field falls. For example, a Political Science major must take one rather than three courses in Self, Society and the Modern World. In addition, students who place into calculus on the placement exam or those students whose program of study requires calculus are exempt from the quantitative reasoning requirement.

Students who have declared their major field should consult the departmental entry for a description of the Liberal Studies requirements of the major field. The departmental entry describes in detail the course reduction as applied to the student's major field. Since Liberal Studies requirements vary from one major field to another, the student should not assume that courses which satisfy the liberal studies requirements for one major field satisfy the requirements for another. The student should be certain to consult an academic advisor before taking courses in the Liberal Studies Program. Academic advisement is an integral part of the Liberal Studies Program and necessary for integrating the program with the requirements of the student's major field.

ACADEMIC ADVISEMENT

The college believes that academic advisement is necessary for the vitality and success of the student's undergraduate education. The purposes of liberal education require that the education of the student form a coherent whole. Therefore, the requirements of the Liberal Studies Program and to a degree the major field are determined by the individual student's intellectual interests, needs, and abilities.

Academic approval of a course of study is required of all students in the college. Students who have not declared a major field must consult their academic advisor in the college before registering for courses. Students who have declared their major field must consult the faculty advisor assigned by their department. Once a student has declared a major field, the faculty advisor in the department has principal responsibility for the academic program of the student. The student should not expect that courses selected without the advice and consent of an academic advisor will satisfy the requirements of the college.
DELAATION OF MAJOR

All students in the college are required to declare a major field prior to beginning their junior year. To declare a major field, the student should apply to the department through the college for permission to enter a degree program. At that time an interview will be arranged with the department chair, and the student's previous work in the college will be reviewed and evaluated. If it is found acceptable, the student will be formally accepted into the degree program and assigned a faculty advisor. If it is not acceptable, the student either will be asked to improve his or her academic record or will be denied admission.

To change major fields, the student must repeat the procedure described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the college.

PRELAW STUDY

The Association of American Law Schools does not consider it appropriate to prescribe certain undergraduate degree programs for students who are planning to study law at the professional level. The Association does, however, consider certain skills and knowledge essential for later success in law and appropriate for study on the undergraduate level.

Prelaw study in the College of Liberal Arts and Sciences is intended for those students who, in addition to satisfying the requirements of an academic field of specialization, also want to develop those capacities and skills essential for satisfactory performance in law school. Specifically, prelaw study is intended to develop the following skills: (1) the ability to use the English language skillfully and effectively in oral and written advocacy situations, (2) the power to think clearly, critically, and independently in situations requiring problem-solving ability and sound judgment, and (3) the ability to use and understand statistical calculations. Moreover, prelaw study is intended to promote an understanding of the psychological processes, economic systems, political organizations, and social structures essential to the study and practice of law.

Admission to the College of Law, DePaul University, is based on collegiate performance, scores achieved on the Law School Admissions Test (LSAT), extracurricular activities, work experience, and letters of recommendation. The legal program offered through the College of Law leads to the degree of Juris Doctor (J.D.).

Students who want to prepare for law school should, whatever their academic major, consult with any of the following members of the faculty to design a coherent program from the courses listed below: Dr. Bannan (Sociology), Dr. Barnum (Political Science), Dr. Tracy (Psychology), Dr. Mockaitis (History), Dr. Kozlowski (History), Dr. Fahrenbach (English), and Dr. Larrabee (Philosophy).

PREMED STUDY

Medical schools recognize the importance of broadly educated individuals. Prospective applicants should therefore possess a strong foundation in the natural sciences (biology, chemistry, physics and mathematics), demonstrated communication skills, and a firm background in the humanities and social sciences.

The minimum requirements in the natural sciences for application to most medical schools include a year of biology, two years of chemistry and a year of physics. These should be rigorous courses intended for the science major, and each should have a strong laboratory component. At DePaul, these requirements are fulfilled with the following courses: General Biology - Bio 101, 102 and 103; General Chemistry - Che 111, 113 and 115; Organic Chemistry - Che 171, 173 and 175; and General Physics - Phy 150, 151 and 152. While pre-med students are not required to major in the sciences, the non-science major is encouraged to take additional courses in biology, biochemistry and mathematics. For additional information, contact Dr. Leigh A. Maginniss (Biology).
STUDY ABROAD PROGRAM

A study abroad experience is an important part of a liberal education. The opportunity to live, study and work with people from around the world provides students with a way to not only gain international competence and skills, but also helps them to more clearly understand their own identities and agency within a global context. The College of Liberal Arts and Sciences has developed a series of programs that facilitate these types of opportunities. Study Abroad Programs are designed to emphasize social, political, historical and cultural understanding through a total immersion into the cultures and societies of another country. Short-term programs are topic-focused tours led by DePaul faculty exploring specific aspects and issues of a country or society. These programs typically last 2-3 weeks and are offered during breaks between terms. Students are encouraged to participate in the Study Abroad Program during their college career, ideally during their sophomore or junior year. Foreign Study Programs offered during most years include:

QUARTER, WINTER SPRING SEMESTER, AND FULL YEAR PROGRAMS

ATHENS, GREECE (WINTER SPRING OR FULL YEAR)
BONN, GERMANY (SPRING)
BUDAPEST, HUNGARY (AUTUMN OR FULL YEAR)
DUBLIN, IRELAND (AUTUMN)
FLORENCE, ITALY (AUTUMN)
HARARE, ZIMBABWE (WINTER SPRING)
HONG KONG, CHINA (WINTER SPRING)
KRAKOW, POLAND (AUTUMN)
LEUVEN, BELGIUM (AUTUMN)
MADRID, SPAIN (AUTUMN)
MERIDA, MEXICO (WINTER)
OSAKA, JAPAN (AUTUMN OR FULL YEAR)
PARIS, FRANCE (SPRING)
SHEFFIELD, ENGLAND (WINTER SPRING OR FULL YEAR)

SHORT-TERM PROGRAMS

COMPARATIVE URBAN DEVELOPMENT IN AMSTERDAM, ROTTERDAM AND BRUSSELS (DECEMBER)
GENDER AND POLITICS IN SCOTLAND (DECEMBER)
HISTORY AND CONSERVATION IN THE BAHAMAS (DECEMBER)
HISTORY, CULTURE AND SPIRITUALITY IN GHANA (DECEMBER)
JUSTICE IN EL SALVADOR (DECEMBER)
MODERN BRITISH THEATRE IN LONDON (DECEMBER)
SOCIAL JUSTICE IN NOGALES, MEXICO (DECEMBER)
STANDING STONES AND SACRED CIRCLES IN MALTA AND IRELAND (DECEMBER)

Courses taken through the Study Abroad Program may be used to fulfill international perspectives requirements, liberal studies requirements (including experiential learning), modern language requirements or elective credits in various departments. Program fees ordinarily cover round trip airfare from Chicago, local transportation associated with course excursions, books, lodging and some meals. In addition students pay regular DePaul tuition for the credit they receive while abroad.

Additional information, application forms and deadlines, final costs and program pre-requisites can be obtained at the Study Abroad Program Office, SAC 530 on the Lincoln Park Campus, at the Study Abroad Program web site: www.depaul.edu/~forstudy, or by calling (773) 325.7450.
