PURPOSES

The College of Liberal Arts and Sciences is committed to providing all of its students with a liberal education that balances in-depth study in certain areas with a breadth of experience in the various disciplines that form the core of human knowledge. Its 35 degree-granting programs and disciplines share a commitment to the highest standards of academic quality, to a mode of study that nurtures critical thinking skills, to a self-conscious examination of questions of value and meaning, and to the development of those habits of the heart and mind intrinsic to a life-long and independent learner.

The commitment to liberal education is reflected in a faculty that is as strongly committed to teaching as it is to research. It is reflected in curricular practices that discourage students from concentrating in one subject area to the exclusion of all others. And it is reflected in the College’s encouragement of interdisciplinary areas of study that underline the connections and unities among the various areas of knowledge.

The College values and nurtures the urban and Vincentian mission of the University. The interactions among its faculty and between its faculty and its students are characterized by personalism. Significant portions of the curriculum speak to questions of social responsibility, ethical standards for behavior, and an active engagement with the people and the challenges of the Chicago community.

LIBRARIES, FACILITIES, FACULTY

The College of Liberal Arts and Sciences offers programs of study during both the day and the evening on the Lincoln Park and Loop campuses. LA&S students may take classes during the day and evening at any of DePaul’s campuses. However, please be aware that some programs are available only during the day and/or only at the Lincoln Park campus.

The College offers the student a coherent curriculum and a well-prepared and dedicated faculty. All students have the opportunity to work closely with faculty and staff in their major field. Although students must make their own judgments concerning their personal values and career goals, faculty, through the advisement process, will assist students in reaching academic decisions commensurate with a high quality education.

In support of the faculty and curriculum, the University offers many advantages of location and facility, which enrich the educational experiences of the student. The University is centrally located and draws upon the cultural wealth of metropolitan Chicago. It also offers students extensive libraries on each campus as well as the use of the libraries of other associated universities in the area.

ADMISSION

Candidates interested in admission to the College should direct all inquiries to the Office of Admission, DePaul University, 1 E. Jackson Boulevard, Chicago, Illinois, 60604. Telephone (312) 362-8300. A nonrefundable application fee of $25.00 is required of each applicant.

COMPETENCE IN MODERN LANGUAGE

Students who intend to graduate with the Bachelor of Art Degree will be required to demonstrate competence in a modern language. Such competence may be demonstrated in one or several ways: by successful completion of two years of high school course work in a modern language, by achieving a score of 3 or higher on the Advance Placement test, by a satisfactory score as determined by the Modern Language Department on the CLEP examination, or by taking appropriate course work. Note that CLEP scores may be used only to meet the College requirement. Credit is not awarded in Modern Language on the basis of CLEP scores. Students who are required to do course work must demonstrate Modern Language competence equivalent to a complete introductory sequence (101-102-103). Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three course introductory sequence. B.A. students who meet the College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level.
The College of Liberal Arts and Sciences offers programs of study leading to the Bachelor of Arts and Bachelor of Science degrees. In addition, some departments offer departmental Honors Programs for their majors.

The following departments and programs offer degree programs in the College:

- African and Black Diaspora Studies
- American Studies
- Anthropology
- Art and Art History
- Biological Science
- Catholic Studies
- Chemistry
- Clinical Laboratory Science
- Communication
- Economics
- English
- Environmental Science
- Geography
- History
- International Studies
- Latin American and Latino Studies
- Mathematical Sciences
- Modern Languages
- (French, German, Italian)
- Japanese Studies and Spanish
- Nursing
- Philosophy
- Physics
- Political Science
- Psychology
- Public Policy Studies
- Religious Studies
- Scientific Data and Visualization
- Sociology
- Women’s Studies

Pre-professional training for careers in medicine, dentistry, law and engineering are additional features of the curriculum. Some departments have structured five-year programs in which qualified students may earn both the Bachelor’s and Master’s degrees. For specific information on the various degree requirements in the College, consult the departmental and program entries which follow.

The curriculum is designed to allow each student to proceed at a pace consistent with his or her ability and at a level governed by the student’s background, interest, and willingness to accept challenge. Many departments provide opportunities for enrichment through Honors courses, internships and independent study and research courses. Permission to pursue these options must be obtained from department chairs.

Generally, the College operates under the expectation that students will engage in at least two hours of study outside class for every hour of class time.

STUDY IN THE MAJOR FIELD

The student’s course of study in the College consists of three parts: the major field, the Liberal Studies Program and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The student’s course of study in the major field in turn consists of two parts: a program of major field courses and a number of supporting or allied fields requirements. The major field program generally is built upon a set of core courses and a specialized “concentration” designed for career preparation. The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation from closely allied departments, students are required to pursue a number of courses in supporting fields. For the most part, the major and supporting field requirements can be augmented by electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration. Students should also go to the LA&S office for their official graduation check early in their Senior year.
MINOR
Most departments offer minor concentrations of study. Students may elect a minor to provide overall breadth to their collegiate program or to enrich their experiences in disciplines allied with their major field. Generally, a minor consists of a set of courses introductory to the field plus another set of more specialized courses. Most minors require six courses, some of which may also be counted for Liberal Studies program credit. Minors are open to students in all Colleges and departments; however, students may not minor in the same department in which they major.

The following minors are offered by departments in the College of Liberal Arts and Sciences. For further information contact either the department that offers the minor or your College office.

MINORS IN THE COLLEGE OF COMMERCE
Students enrolled in the College of Liberal Arts and Sciences may obtain a minor in Accounting, Business Administration, E-Business, Economics, Management, MIS, Marketing, and Pre-MBA. Please see the College of Commerce Section for additional information.

MINORS IN THE SCHOOL OF COMPUTER SCIENCE, TELECOMMUNICATIONS AND INFORMATION SYSTEMS
Students enrolled in the College on Liberal Arts and Sciences may obtain a minor in Computer Science, Computer Graphics, Data Analysis, E-Commerce Technology, Human Computer Interaction, Information Systems or Network Technologies. The prerequisite to all Computer Science, Telecommunications and Information Systems (CTI) minor filed courses is pre-calculus. If you would like to discuss these minors, please call (312) 362-8714 to schedule an appointment with a CTI advisor. Please see the School of Computer Science, Telecommunications and Information Systems Section for additional information.

LIBERAL STUDIES PROGRAM
The student’s course of study in the Liberal Studies Program is part of the undergraduate program devoted exclusively to liberal education. The program seeks to balance and, when necessary, augment the student’s course of study in the major field. For this reason the number and distribution of courses vary according to the major field. In general, students may not take courses in their major for Liberal Studies credit. Exceptions to this policy are the junior year experiential learning requirement and the senior year capstone requirement. In some cases, allied field courses required by the student’s major program may be taken for Liberal Studies credits. (The student should consult the departmental entries for the Liberal Studies requirements of his or her major. See Course reduction below.) For additional information, please visit http://condor.depaul.edu/~lstudies/

In addition to the 32 quarter hours required in the Liberal Studies core, all students in the College are required to complete 52 quarter hours distributed through 6 learning domains in departments or schools designated by the Liberal Studies Program. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required; 20 quarter hours in the First Year Program (4 quarter hours in Discover Chicago or Explore Chicago, 4 quarter hours in Focal Point Seminars, 8 quarter hours in Composition and Rhetoric, 4 quarter hours in Quantitative Reasoning, 4 quarter hour Sophomore Seminar on Multiculturalism in the United States, 4 quarter hour Junior Year Experiential Learning requirement, and 4 quarter hour Senior Capstone requirement.

Learning Domains
Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.

Philosophical Inquiry: 8 quarter hours required.
Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component; 4 quarter with a quantitative component, and 4 quarter hours scientific inquiry elective. Students may use the full year-long sequences in biology (BIO 101, 102, and 103), chemistry (CHE 111, 113, and 115 OR CHE 171, 173, or 175), or physics (PHY 150, 151, and 152 OR PHY 155 and 156) to fulfill this requirement. Otherwise, at most 2 courses can come from the same department or program.

Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from the same department or program.

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe, and 5) Intercontinental or Comparative.

MODERN LANGUAGE OPTION
The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College’s language requirement and to B.S.
students who wish to study a Modern Language at any level. Students selecting the option may substitute a three-course language sequence for two domain courses and one open elective. Students may use the Modern Language option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; Arts and Literature or Scientific Inquiry (cannot substitute for the lab science requirement.) Please see your advisor for additional information about modern language course placement.

HONORS PROGRAM OPTION

Students seeking a more challenging Liberal Studies experience should consider applying for the College’s Honors Program. This program, designed for the well prepared student, incorporates a structured series of specifically designed courses taken in sequence throughout the student’s four years at DePaul. Students who complete the Honors Program will be exceptionally well prepared for graduate and professional study.

COURSE REDUCTION

While the equivalent of 23 courses is listed in the Liberal Studies section, only 21 are required because students will reduce, by two, the number of courses in the division in which their major field falls. For example, a Political Science major must take one rather than three courses in Self, Society and the Modern World. In addition, students who place into calculus on the placement exam or those students whose program of study requires calculus on the placement exam or those students whose program of study requires calculus are exempt from the quantitative reasoning requirement.

Students who have declared their major field should consult the departmental entry for a description of the Liberal Studies requirements of the major field. The departmental entry describes in detail the course reduction as applied to the student’s major field. Since Liberal Studies requirements vary from one major field to another, the student should not assume that courses which satisfy the Liberal Studies requirements for one major field satisfy the requirements for another. The student should be certain to consult an academic advisor before taking courses in the Liberal Studies Program. Academic advisement is an integral part of the Liberal Studies Program and necessary for integrating the program with the requirements of the student’s major field.

ACADEMIC ADVISEMENT

The College believes that academic advisement is necessary for the vitality and success of the student’s undergraduate education. The purposes of Liberal education require that the education of the student forms a coherent whole. Therefore, the requirements of the Liberal Studies Program and to a degree the major field are determined by the individual student’s intellectual interests, needs, and abilities.

Academic approval of a course of study is required of all students in the College. Students who have not declared a major field must consult their academic advisor in the College before registering for courses. Students who have declared their major field must consult the faculty advisor assigned by their department.

Once a student has declared a major field, the faculty advisor in the department has principal responsibility for the academic program of the student. The student should not expect that courses selected without the advice and consent of an academic advisor will satisfy the requirements of the College.

DECLARATION OF MAJOR

All students in the College are required to declare a major field prior to beginning their junior year. To declare a major field, the student should fill out a Declaration of Major form and submit it to the College office. The student will then be assigned a faculty advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, the student must repeat the procedure described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College.
**PRELAW STUDY**
The Association of American Law Schools does not consider it appropriate to prescribe certain undergraduate degree programs for students who are planning to study Law at the professional level. The Association does, however, consider certain skills and knowledge essential for later success in Law and appropriate for study on the undergraduate level.

Prelaw study in the College of Liberal Arts and Science is intended for those students who, in addition to satisfying the requirements of an academic field of specialization, also want to develop those capacities and skills essential for satisfactory performance in law school. Specifically, Prelaw Study is intended to develop the following skills: (1) the ability to use the English language skillfully and effectively in oral and written advocacy situations, (2) the power to think clearly, critically, and independently in situations requiring problem-solving ability and sound judgment, and (3) the ability to use and understand statistical calculations. Moreover, Prelaw Study is intended to promote an understanding of the psychological processes, economic systems, political organizations, and social structures essential to the study and practice of law.

Admission to the College of Law, DePaul University is based on collegiate performance, scores achieved on the Law School Admissions Test (LSAT), extracurricular activities, work experience and letters of recommendation. The legal program offered through the College of Law leads to the degree of Juris Doctor (J.D.). Students who want to prepare for Law School should, whatever their academic major, consult with any of the following members of the faculty to design a coherent program from the courses listed below: Dr. Bannan (Sociology), Dr. Barnum (Political Science), Dr. Tracy (Psychology), Dr. Mockaitis (History), Dr. Fahrenbach (English), and Dr. Larrabee (Philosophy).

**PREMED STUDY**
Medical schools recognize the importance of broadly educated individuals. Prospective applicants should therefore possess a strong foundation in the natural sciences (biology, chemistry, physics, and mathematics), demonstrated communication skills, and a firm background in the humanities and social sciences.

The minimum requirements in the natural sciences for application to most medical schools include a year of biology, two years of chemistry and a year of physics. These should be rigorous courses intended for the science major, and each should have strong laboratory component. At DePaul, these requirements are fulfilled with the following courses: General Biology-BIO 101, 102 and 103; General Chemistry-CHE 111, 113 and 115; Organic Chemistry-CHE 171, 173 and 175; and General Physics-PHY 150, 151 and 152. While pre-med students are not required to major in the sciences, the non-science major is encouraged to take additional courses in biology, biochemistry and mathematics. For additional information, contact Dr. Leigh A. Maginniss (Biology).

**STUDY ABROAD PROGRAM**
A study abroad experience is an important part of a liberal education. The opportunity to live, study, and work with people from around the world provides students with a way to not only gain international competence and skills, but also helps them to more clearly understand their own identities and agency within a global context. The College of Liberal Arts and Sciences has developed a series of programs that facilitate these types of opportunities. Study Abroad Programs are designed to emphasize social, political, historical and cultural understanding through a total immersion into the cultures and societies of another country. Short-term programs are topic-focused tours led by DePaul faculty exploring specific aspects and issues of a country or society. These programs typically last 2-3 weeks and are offered during breaks between terms. Students are encouraged to participate in the Study Abroad Program during their College career, ideally during their sophomore or junior year. Study Abroad Programs offered during most years include:

**QUARTER, WINTER/SPRING SEMESTER, AND FULL YEAR PROGRAMS**

- **ATHENS, GREECE (WINTER/SPRING OR FULL YEAR)**
- **BONN, GERMANY (SPRING)**
- **BUDAPEST, HUNGARY (AUTUMN OR FULL YEAR)**
- **DUBLIN, IRELAND (AUTUMN OR WINTER/SPRING)**
- **ROME, ITALY (AUTUMN)**
- **HONG KONG, CHINA (WINTER/SPRING)**
- **KRAKOW, POLAND (AUTUMN)**
LEUVEN, BELGIUM (AUTUMN)
MADRID, SPAIN (AUTUMN)
MERIDA, MEXICO (WINTER)
OSAKA, JAPAN (AUTUMN OR FULL YEAR)
PARIS, FRANCE (SPRING OR FULL YEAR)
SHEFFIELD, ENGLAND (WINTER/SPRING OR FULL YEAR)

SHORT-TERM PROGRAMS

COMPARATIVE URBAN DEVELOPMENT IN AMSTERDAM, BRUSSELS AND BARCELONA (DECEMBER)
CUBA: CUBAN REALITIES IN A CHANGING WORLD [DECEMBER]
GENDER AND POLITICS IN SCOTLAND (DECEMBER)
HISTORY AND CONSERVATION IN THE BAHAMAS (DECEMBER)
HISTORY, CULTURE AND SPIRITUALITY IN GHANA (DECEMBER)
ISTANBUL: HISTORY, LITERATURE, ARCHITECTURE [DECEMBER]
EL SALVADOR: SERVICE AND JUSTICE (DECEMBER)
MODERN BRITISH THEATRE IN LONDON (DECEMBER)
SOCIAL JUSTICE IN NOGALES, MEXICO (DECEMBER)
STANDING STONES AND SACRED CIRCLES IN MALTA AND IRELAND (DECEMBER)

Courses taken through the Study Abroad Program may be used to fulfill international perspectives requirements, Liberal Studies requirements (including experimental learning), modern language requirements or elective credits in various departments. Program fees ordinarily cover round trip airfare from Chicago, local transportation associated with course excursions, books, lodging and some meals. In addition students pay regular DePaul tuition for the credit they received while abroad.

Additional information, application forms and deadlines, final costs and program prerequisites can be obtained at the Study Abroad Program Office, SAC 530, on the Lincoln Park Campus, at the Study Abroad Program web site www.depaul.edu/~abroad/index.html, or by calling (773) 325-7450.
The purpose of the African and Black Diaspora Studies Program is to provide DePaul students with a systematic, interdisciplinary, and integrated course of study of Africa and the Black Diaspora. The Program provides students with an opportunity to earn a Bachelor of Arts degree in African and Black Diaspora Studies with a concentration in Africa, Black America, and/or Afro-Caribbean and Latin America. African and Black Diaspora Studies will also train students in comparative analysis of regions (e.g., peoples, religions, philosophies) through an incorporation of the study of history, power, identity, gender, and race. The Program's offerings provide students with opportunities to learn about and develop expertise in the cultures, epistemologies, histories, sciences, and societies of Africans and peoples of African descent. The Program prepares students to pursue professions and careers that require a systematic knowledge of Africa and its Diaspora.

**PROGRAM DEGREE REQUIREMENTS**

**LIBERAL STUDIES PROGRAM**

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in African & Black Diaspora studies. The number and distribution of courses in each of the areas are as follows:
Core: 32 quarter hours required

First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

Senior Capstone: (4 quarter hours required) African & Black Diaspora Studies requires students majoring in African & Black Diaspora Studies to complete the senior capstone in African & Black Diaspora Studies, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

Liberal Studies: 52 hours required

Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.

Philosophical Inquiry: 8 quarter hours required.

Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.

Self, Society and the Modern World: 4 quarter hours required

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although the study of African & Black Diaspora Studies contributes to a student’s liberal education, courses offered by the Program are not applied toward liberal studies requirements for the major. Exceptions to the rule are the junior experiential learning and the senior capstone seminar.

In addition to the courses required in the liberal studies core distributed across six learning domains, with a two course (eight quarter hours) reduction in the Self, Society and the Modern World learning domain, students are required to complete 13 courses (52-quarter hours) as part of their Bachelor of Arts degree in African & Black Diaspora Studies. The number and distribution of courses in each of the areas is as follows:

Core Courses

Students are required to complete four core courses (16-quarter hours). The core courses are designed to accomplish three goals: to introduce students to the goals of the Program; to emphasize the Vincentian tenet that questions of human value undergird scholarly inquiry; and to strengthen an understanding of the interrelationships and dynamics among and between Africa, the Caribbean and Latin America, and the United States.

The four courses that all students must take regardless of field of concentration are as follows:

ABD 100: Introduction to African and the Black Diaspora Studies
ABD 204: Africa: Peoples, Cultures, Ideas & Movements
ABD 206: Afro-Caribbean and Afro-Latin America: Peoples, Cultures, Ideas & Movements
ABD 208: African America: Peoples, Cultures, Ideas & Movements

Courses in an Area of Concentration

For this requirement, students must take six courses (24-quarter hours) at the 300 level which should focus on one region of the Black World: Africa, the Caribbean and Latin America, or the United States and its respective relation to other regions of the world. These six concentration courses are designed to provide students with a body of knowledge about a particular region of study. Students who wish to take a 200 level course in partial fulfillment of this requirement must petition the African and Black Diaspora Studies Program Steering
Committee for approval. These courses build upon the general foundation of knowledge provided by the core courses and serve to augment and extend student knowledge about a particular region of Africa or the Black Diaspora and its relationship to other areas of the Program, and other regions of the world. The concentration courses elaborate on the ways in which the sites of inquiry (culture, gender, history, power, and race) impact a specific region. These courses incorporate an explicit discussion of at least two of the five sites of inquiry into the syllabus.

The framework below outlines the kinds of courses that students will be required to take. To insure that students are exposed to a variety of methodological approaches and knowledge’s, students will be required to take three courses in the social and behavioral sciences (anthropology, geography, history, international studies, psychology, political science, and sociology) and humanities (e.g., American studies, art and art history, literature, Latin American & Latino studies, modern languages, music, philosophy, religious studies, and theatre). Each student, in consultation with his or her advisor, which is mandatory, will design a concentration that is attentive to comparative analysis.

The student in consultation with her or his advisor will decide the appropriate concentration and the specific ways in which an individual student can meet his or her educational goals as well as meet the requirements of the major or minor.

**Electives**

Students in the Program will be able to take two courses as major field electives (eight-quarter hours). Such courses are designed to provide students with an opportunity to take related to their field of concentration in African and Black Diaspora Studies and at the same time extend their academic preparation through coursework in allied fields. The selection of electives will be done in consultation with the student’s academic advisor.

**Capstone (ABD 391)**

This senior seminar (four quarter hours) engages students in a synthesis of what they have learned through coursework. The capstone course will involve reading, writing, discussion, as well as the preparation by students a substantive piece of work (e.g., a senior thesis, a research paper, or a creative work).

**ADDITIONAL ELEMENTS OF THE PROGRAM**

**Double Major**

Students who major in African and Black Diaspora Studies will have the option to pursue a second major in a related field. Students considering a double major shall confer with their academic advisor to assure that they choose their courses appropriately to meet this objective.

**Minor**

Minor concentration for non-majors will provide that students have at least a general knowledge about Africa and its Diaspora. For a minor in African & Black Diaspora Studies, a minimum of six courses is required: (a) two of the core courses (Introduction to African & Black Diaspora Studies and an additional core course); (b) a course (at the 300 level) in an area of concentration; (c) either an approved field elective or the capstone course; and (d) two electives.

**COURSES**

Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Course Descriptions you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
American Studies is an inter- and multi-disciplinary field that asks the question: “What does it mean to be an American?” To answer that question, students examine the values, patterns, and institutions that inform American culture and experience. American Studies brings together courses from throughout DePaul’s curriculum under a well-defined, yet flexible, structure to examine the complexities of the American world. The Program integrates the study of American art, culture, economics, geography, history, literature, music, philosophy, politics, religion, and society.

Because American Studies emphasizes reading, writing, research, discussion, and critical thinking, it is an excellent major or double major for students continuing to graduate or professional schools or seeking careers throughout the private and public sectors. Graduates have gone on to work in community development, computer science, education, human and social services, international development, law, libraries, politics, and public service.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, all students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in American Studies. The number and distribution of courses in each of the areas are as follows:

**Core:** 32 quarter hours required.

**First Year Program:** (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

**Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States.

**Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

**Senior Capstone:** (4 quarter hours required) American Studies requires that all students majoring in American Studies complete the senior capstone in American Studies. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

**Learning Domains:** 52 quarter hours required. At most 2 courses from the same department or program.

**Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.

**Philosophical Inquiry:** 8 quarter hours required.

**Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

**Scientific Inquiry:** 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective. At most 2 courses from the same department or program.

**Self, Society and the Modern World:** 8 quarter hours required. At most 2 courses from the same department or program.

**Understanding the Past:** 4 quarter hours required. Course must be from an area outside of the United States.

Although study in American Studies contributes to a student’s liberal education, courses offered by the department of American Studies are not applied towards liberal studies requirements for the American Studies major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

Double majors may also be able to count some courses in the second major toward liberal studies requirements. It is especially important for students who are double majoring to meet with an advisor regularly to determine the best application of courses for liberal studies requirements. Students who take a sequence of three language courses beyond the College of Liberal Arts and Sciences modern language requirement can reduce their Liberal Studies requirements by two domain electives.

PROGRAM REQUIREMENTS

FOUNDATION REQUIREMENTS

Prerequisites: At least one course in U.S. History (AMS 200 or one course from the HST 280/281/282 sequence) is prerequisite to the core courses in the American Studies Program. Submission of AP U.S. History credit or SAT II U.S. History scores of 650 or higher will satisfy this requirement. In some cases, students will be allowed to enroll in U.S. History and AMS 201 concurrently. Students are encouraged to take more than one course in U.S. History and to take U.S. History in the fall quarter as soon as they determine on an American Studies major. Core Courses: AMS 201 and 202 are the pair of required, linked courses at the foundation of the program and should be completed in the sophomore or junior year, ideally in sequence in the
same academic year. In addition, all majors are required to take either AMS 300, Domestic Studies (travel/study courses), or AMS 392, Internship, for a minimum of 4 quarter hours credit.

CONCENTRATIONS
Students choose from among the following six concentrations: Cultural History and Literature; Nature, Environment and Culture; Politics, Institutions and Values; Popular Culture; Race and Ethnicity; and Work, Technology, Society. Students are required to take six courses within the concentration. Throughout the concentration courses, students are required to maintain a “portfolio” which combines reflections on the courses with collections of course materials (syllabi, completed written course work, collections of visuals, e.g., photo essays—whatever is appropriate to the six courses chosen for the concentration). The reflections on each course and then on the concentration overall should include responses to questions such as “What were the course’s most valuable lessons in research, analysis, writing and communication? How did this course, taken together with the other courses you have chosen for your concentration, influence/develop your understanding of the area of American culture on which you are focusing?” Students turn in their portfolio on the concentration, along with a proposal for the senior seminar project, the quarter before enrolling in the senior seminar. Specific directions for the portfolio can be obtained from your American Studies advisor, from the American Studies Program office, or from the American Studies Program Director.

ELECTIVES AND DISTRIBUTION REQUIREMENTS
In consultation with an advisor, students will select three additional courses from outside of the concentration. For the concentration and the electives, courses must be distributed among at least three departments.

SENIOR SEMINAR
During the senior year, students should take 301 Senior Seminar. The quarter before enrolling in the senior seminar, majors must submit their portfolio with collected course materials and reflections on the concentration courses and a proposal for a senior seminar project. Each major will be assigned to an American Studies Program Committee faculty member who will be responsible for reviewing the portfolio.

SPECIAL PROGRAMS

MINOR
For the American Studies minor, students must complete the two course core (AMS 201 & 202), plus four US topic courses (American Studies electives) which must include one US History course and may include AMS 300 (Domestic Studies), AMS 301 (Senior Seminar), and/or AMS 392 (Internship). The US History course should be taken before enrolling in AMS 201. The American Studies minor is an especially viable option when combined with a major in the humanities, social sciences, fine arts, natural sciences, business, or secondary education.

DOUBLE MAJOR
For the American Studies double major, students complete the major requirements. Double majors may often “double count” some American Studies electives. Double majors with English, History, Political Science, Psychology, Sociology are the most common; the American Studies double major is valuable experience and excellent preparation for graduate or professional school or for immediate employment.

INTERNSHIPS
Internships (for variable credit) in local agencies will be available for interested students. Such
agencies might include the Newberry Library, the Chicago Historical Society, the NAACP, art galleries, museums, civic organizations, government agencies, archives, ethnic and religious organizations, law firms and corporate employers as well as internships at DePaul.

**COURSES**

Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
Anthropology is the comprehensive study of humanity. It seeks to understand the experience of people in all communities and through all times. Anthropology is a reflexive course of study; we study other cultures in order to learn more about our own culture. Anthropology courses engage students in the analysis of beliefs, values, and behaviors from a perspective that is holistic and comparative. This perspective affords students the opportunity to define and describe the complexity of the interaction of knowledge and action that lies at the heart of the concept of culture. It can also anchor the discussion on the real and imagined differences between people, and guide the process of recognizing the many commonalities between people. The emphasis in the major is directed toward the subfields of cultural anthropology and archaeology, with a focus on applied research in these sub-fields. Observations research projects and excavations in Chicago’s communities are integral components of many courses. The major promotes proficiency in a language other than English. Besides the major, the department offers a minor that enhances many undergraduate degrees, providing a strong supplement to history, behavioral and physical science majors, majors in the arts, humanities, business, and foreign language.

Careers that benefit from a background in anthropology include: administration and/or public policy; research and work in museums; advertising, marketing, and public relations; human resources, health care, and law. The anthropology major prepares students to make immediate use of the degree in public service and/or administration, or some other form of applied work. It also thoroughly prepares them to pursue graduate work in anthropology (and other related fields). Student will have completed at least four ethnographic research projects and be certified in archaeological research skills by the time they graduate. The extensive ethnographic research experience qualifies students to work in both non-profit (social service agencies) and for-profit (marketing, design, user-based) research settings. The archaeological certification opens avenues for careers in cultural resource management (CRM), and monitoring the preservation of cultural resources for national parks, museums, and state or municipal cultural institutions.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in political science. The number and distribution of courses in each of the areas are as follows:

- **Core:** 32 quarter hours required
  - **First Year Program:** (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.
  - **Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
  - **Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
  - **Senior Capstone:** (4 quarter hours required) Anthropology requires that all students majoring in Anthropology complete the senior capstone in Anthropology. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

- **Learning Domains:** 52 quarter hours required
  - **Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.
  - **Philosophical Inquiry:** 8 quarter hours required.
  - **Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
  - **Scientific Inquiry:** 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.
  - **Self, Society and the Modern World:** 4 quarter hours required
  - **Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in Anthropology contributes to a student’s liberal education, courses offered by the department of Anthropology are not applied towards liberal studies requirements for the Anthropology. Exceptions to this rule are the junior experiential learning and the senior capstone requirements. In addition, courses offered by the Department of Psychology may not be applied to liberal studies requirements for anthropology majors. Exceptions to this rule include sophomore seminar and experiential learning courses.

Program Requirements in Anthropology

**B.A. in Anthropology**

- **Core Sequence:** All of the following courses: (16 quarter hours) ANT 201 Ethnographic Research Methods, ANT 202 Archaeological Methods, ANT 203 Professionalism and Ethics in Anthropology, and ANT 204 Lineages of Culture Theory

- **Disciplinary Studies:** All of the following courses: (16 quarter hours) ANT 317 Language, Identity and Power, ANT 320 Anthropology of Race and Gender, ANT 324 Colonialism to Global Society, and ANT 326 Transnational Cultures

- **Applied Practice:** Two of the three courses in applied practice (8 quarter hours) ANT 322 Community-based Applied Practice, ANT 328 International Applied Practice, and/or ANT 330 Client-based Applied Practice. These courses have prerequisites.
Topical Courses: One course from each of these four categories (16 quarter hours) Urban Culture, Material Culture, Contemporary Cultural Research and World Ethnography. The courses that fulfill these categories are listed under the department’s course descriptions.

Capstone: ANT 396 (4 quarter hours) Senior Seminar: The Anthropological Life

Allied Field requirements: Anthropological research makes extensive use of language skills. Students are encouraged to study at least one language to the point of functional fluency, including participation in a study abroad program, if they wish to become professional anthropologists. The minimum requirement for the major is completion of study of a language through the end of the second year. Depending on previous course work, students may place out of the requirement entirely by scoring high on the university’s placement exam. Heritage speakers of a language other than English must also take the university’s test, if one is available in their language. For heritage speakers of languages for which no test is available, consult the chair of the department. Some proof of competence in the written form of the heritage language will be required. Even when the minimum of the language requirement is met, all majors are strongly encouraged to participate in a study abroad program that allows them to live in a community where English is not spoken.

MINOR IN ANTHROPOLOGY

The minor concentration provides the non-major with an overview of the discipline. Students are required to take the introductory courses in cultural anthropology (102) and archaeology (103); Anthropology of Race and Gender (320); Language, Identity, and Power (317); and two electives in anthropology. These electives can be drawn from any anthropology course for which the student has the prerequisites.

Urban Archaeological Summer Program

The department offers a five-week summer program in urban community archaeology every summer. This program offers eight credits, including fulfillment of the archaeological methods course (ANT 202) in the core sequence and the Historical Archaeology of Chicago (ANT 254) course in the Material Culture category of topical courses. All majors are encouraged to fulfill these requirements in the summer school. For those who are not able to attend the summer school, the archaeological methods must be made up independently.

COURSES

Please visit Campus Connection at https://campusconnect.depaul.edu for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The Department of Art offers a general curriculum which identifies and promotes continuing contact with the enduring values of our artistic heritage and the application of these values to the future.

The educational aim of the department is to provide, through individualized instruction, a broad foundation in art practice and art history. The curriculum emphasizes fundamental artistic concepts through problem solving and experimentation in studio courses and through research and analysis in art history.

Four areas of concentration are offered: 1) a history of art concentration designed to develop proficiency in the historical analysis and theory of art, 2) a concentration in design to develop concepts, design principles and production skills for print and multimedia, 3) a fine arts concentration designed to develop artistic skills and abilities in painting, drawing, sculpture and printmaking, and 4) a media arts concentration designed to develop artistic skills in photography, video and computer graphics.

In addition, the department offers a minor in all fine arts disciplines, art history, design, and media arts for students majoring in other fields. Through individualized counseling and a choice of electives, students are aided in planning for graduate school or a diverse group of art-related careers.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in art. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required

First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

Senior Capstone: (4 quarter hours required) Art requires that all students majoring in Art complete the senior capstone in Art. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

Learning Domains: 52 quarter hours required

Arts and Literature: 4 quarter hours required.

Philosophical Inquiry: 8 quarter hours required.

Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective. At most 2 courses from the same department or program.

Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from the same department or program.

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in art contributes to a student’s liberal education, courses offered by the Department of art are not applied towards liberal studies requirements for the art major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL PROGRAM REQUIREMENTS

FOUNDATIONS PROGRAM

Art 101 Electronic Toolbox: Digital Imaging for Visual Thinkers; Art 105 Two-Dimensional Foundations; Art 106 Beginning Drawing; Art 113 Three-Dimensional Foundations; Art 200 Art and Artists in Contemporary Culture; One of the following: Art 242 Survey of Asian Art; Art 243 Survey of Latin American Art; Art 246 Survey of African Art; One of the Following: Art 232 Ancient Art; Art 240 Early Medieval European Art; Art 244 Late Medieval European Art; One of the Following: Art 236 Northern Renaissance Art; Art 238 19th Century Art; Art 239 20th Century Art; Art 241 Italian Renaissance Art.

I. ART HISTORY CONCENTRATION

Foundation courses plus one studio core course: Art 110 Beginning Painting; Art 115 Beginning Sculpture or any other studio course at the 100 or 200 level (pre-requisites apply). Plus an additional 200 level Art History course, five 300 level art history courses and one Special Topics Seminar in art history (Art 397). Art majors following the art history concentration take Art 380 Art History Theory and Methodology as their Senior Liberal Arts capstone requirement.
II. ART AND DESIGN CONCENTRATION
Foundation courses plus two from the following three core courses: Art 110 Beginning Painting, Art 115 Beginning Sculpture, Art 225 Beginning Photography. Plus all of the following seven courses: Art 305 Advanced Color Design, a 300 level art history course, Art 260 Art and Design I, Art 227 Computer Applications for Design I, Art 264 Beginning Typography, Art 261 Graphic Design II, Art 228 Computer Applications for Design II. It is recommended that art and design students take these courses in the sequence in which they are here listed. In addition, art and design students take one from the following three courses: Art 359 Publication Design, Art 363 Advertising Design, Art 369 Advanced Typography. Art 393 Senior Design Seminar is the required liberal arts capstone course for senior art majors in the Art and Design concentration.

III. FINE ARTS CONCENTRATION
Foundation courses plus five core courses: Art 110 Beginning Painting, Art 115 Beginning Sculpture, Art 206 Intermediate Drawing or Art 218 Figure Drawing; Art 305 Advanced Color Design and Art 322 Contemporary Art. Plus two of the following three: Art 229 Intro to Printmaking, Art 210 Intermediate Painting, Art 215 Intermediate Sculpture. In addition, fine arts students take two 300 level Advanced Studio courses and Art 394 Professional Practices. Art 392 Senior Studio Seminar is the required liberal arts capstone course for senior art majors in the fine arts concentration.

IV. MEDIA ARTS CONCENTRATION

MINORS

MINOR IN STUDIO ART
A general Studio minor allows students to choose from their own selection of studio courses. However, students may elect to specialize in one of the seven media areas below. A total of six courses are required, 102 Principles of Art History or 104 Creating Art, Art 105: Two-Dimensional Foundations or Art: 113 Three-Dimensional Foundations and four courses in the specific media area. Media specialties: Painting: 106, 110, 210 or 245, 310 or 345; or Drawing 106, 206, 218, 306; or Sculpture 113, 115, 215, 315 or 290; or Printmaking 106, 229, 330 and 331; or Photography 225, 323, 325, plus one of the following: 328, 329, 332; or Art and Design 260, 227, 264, 261; or Computer Graphics 227, 228, 333 and 329.

MINOR IN ART HISTORY
Six courses are required for a minor in Art History, 102 Principles of Art History or Art 104 Creating Art, a 200 level non-western European art history survey course: 242, 243 or 246 and four additional 200 or 300 level Art History courses. Minors wishing to group their courses around a specialty should confer with the Art History professor in that specialty. Specialties are Architecture, Asian, African, Latin American, Modern and Contemporary.

MINOR IN COMMUNICATION
The minor in Communication is specifically designed for students majoring in Art and Design and Media Arts. Six courses are required: Please see the Communication listing for additional information. All courses should be chosen in consultation with an advisor and augmented to
individual career plans. Junior level academic and study skills are required for this minor.

**GRACE AND WALTER BYRON SMITH SCHOLARSHIPS**
The Department of Art and Art History, in a Partnership Program with The School of The Art Institute of Chicago, participates in awarding Grace and Walter Byron Smith Scholarships to DePaul students. These scholarships provide for study in programs conducted by The School of The Art Institute of Chicago. Applications take place two or three times per year. Contact the chair of the Department of Art and Art History for information and procedures.

**COURSES**
Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department. Student interested in learning more about the Department of Art and Art History's B.A. degree program and its faculty are encouraged to visit the department's website at [condor.depaul.edu/~art](http://condor.depaul.edu/~art).
The Department of Biological Sciences provides programs for both biology majors and non-majors. For its majors, the department provides a core program consisting of seven lecture/laboratory courses. Beyond the core program, the department offers a number of courses that permit a moderate degree of specialization in any one of several areas. It also provides a number of opportunities for learning outside the classroom, including a program of seminars, internships and opportunities for research with, or under the direction of, a member of the faculty.

Typically, students who intend to enter medicine or a wide range of other health-related professions such as dentistry, veterinary medicine, physical therapy, pharmacy, or optometry find it most appropriate to major in biology, and follow the Standard Biological Sciences concentration. The department provides specialized academic advising and counseling for students pursuing any one of these pre-professional options. The Department of Biological Sciences also provides a strong background to those students interested in other areas of biology, by offering a number of advanced level elective and seminar courses that allow students to concentrate studies in their areas of interest. Electives support a wide range of student interests in areas such as neurobiology, ecology, paleobiology, microbiology, or molecular biology. Students interested in pursuing careers in biotechnology can take a concentration in the area, taking intermediate and upper-level courses in the biological sciences and chemistry that provide a strong background in the biochemical and molecular aspects of biology.

Students interested in the more technological side of modern biosciences can follow the Biotechnology concentration. This concentration is similar to the standard concentration, but allows the students to pursue a more focused course of study in those areas most relevant to Biotechnology. Besides the introductory course in biology, students in the Biotechnology option take a core course in Principles of Biotechnology, as well as courses in Biochemistry, Molecular Biology, Microbiology, and Immunobiology.

In addition, the School of Education and the Department of Biological Sciences offer a program that prepares students for a career in teaching biology at the secondary school level. The Biology/Education concentration culminates in certification by the State of Illinois. The departmental course requirements in the Standard Biological Sciences concentration and in the Biology/Education concentration are listed below.

The Department of Biological Sciences also administers a Clinical Laboratory Sciences (Medical Technology) program similar to the Standard Biological Sciences concentration. The department provides specialized academic advising for students in this program. Upon completing the requirements for the baccalaureate, the student enrolls in a hospital associated with DePaul for a year of specialized study.

Finally, the department provides courses for the life science components of non-biology majors (e.g. nursing, physical education, chemistry, environmental science, psychology) as well as prerequisite courses for those who intend to later apply for entrance elsewhere into specialized programs such as Physical Therapy, Occupational Therapy, Pharmacy, and Dietetics. The Department of Biological Sciences provides those students with both academic and career counseling during their years at DePaul University.

**FACULTY**

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 28 quarter hours required in the liberal studies core, students are required to complete 48 quarter hours distributed through five learning domains as part of their Bachelor of Science degree in biological sciences. The number and distribution of courses in each of the areas are as follows:

Core: 28 quarter hours required

First Year Program: (16 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, and Composition and Rhetoric I and II.

Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
Senior Capstone: (4 quarter hours required) Biological Sciences requires students majoring in Biological Sciences to complete the senior capstone in Biological Sciences, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

Learning Domains: 48 quarter hours required

Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.

Philosophical Inquiry: 8 quarter hours required.

Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: not required.

Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from the same department or program.

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in the Biological Sciences contributes to a student’s liberal education, courses offered by the Department of Biological Sciences are not applied towards liberal studies requirements for the biological sciences major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL PROGRAM REQUIREMENTS

I. STANDARD CONCENTRATION

Biological Sciences: 101 General Biology I; 102 General Biology II; 103 General Biology III; 215 Ecology; 250 Cell Biology; 260 Genetics; 309 Plant Physiology or 310 Vertebrate Physiology; and five additional Biology courses, at least two of which must include a laboratory. Biology courses that fulfill the Scientific Inquiry Domain requirements, other than the General Biology sequence, do not generate credit toward the major.

Chemistry: 111 General and Analytical Chemistry I; 113 General and Analytical Chemistry II; 115 General and Analytical Chemistry III; (or 131 General Chemistry I and 133 General Chemistry II); 171 Organic Chemistry I; 173 Organic Chemistry II; 175 Organic Chemistry III. (Unless special permission is granted by the Biology Department, students are expected to take the firstyear chemistry courses simultaneously with Biology 101, 102, and 103.)

Physics: 150 General Physics I; 151 General Physics II; and 152 General Physics III.

Note: In place of the above-specified Chemistry and Physics courses, students may take comparable sequences of courses designed for Chemistry and Physics majors, respectively. Also, in lieu of Physics 150, 151 and 152, students may take Physics 155 and 156, offered summers only.

Mathematics/Statistics: Mathematics: 150 Calculus I; 151 Calculus II; and 152 Calculus III (or Math 147, 148 and 149 or Math 160, 161 and 162); and one statistics course: Biology: 305 Biometry, or Environmental Science: 260 Environmental Data Analysis, or Scientific Data Analysis and Visualization: 360 Scientific Data Analysis I. Students may be advised on the basis of their performance on the Mathematics Diagnostic Test to take one or more pre-calculus courses.

II. BIOTECHNOLOGY CONCENTRATION

Biological Sciences: 101 General Biology I; 102 General Biology II; 103 General Biology III; 220 Principles of Biotechnology; 250 Cell Biology; 260 Genetics; 210 Microbiology; 360 Molecular Biology; 370 Immunobiology; and one additional Biology course. Biology courses that fulfill the Scientific Inquiry Domain requirements, other than the General Biology sequence, do not generate credit toward the major.

Chemistry: 111 General and Analytical Chemistry I; 113 General and Analytical
Chemistry II; 115 General and Analytical Chemistry III; (or 131 General Chemistry I and 133 General Chemistry II); 171 Organic Chemistry I; 173 Organic Chemistry II; 175 Organic Chemistry III; 340 Biochemistry I; 341 Biochemistry I Laboratory; 342 Biochemistry II. (Unless special permission is granted by the Biology Department, students are expected to take the first year chemistry courses concurrently or prior to taking Biology 101, 102, and 103.)

Physics: 150 General Physics I; 151 General Physics II; and 152 General Physics III.

Note: In place of the above-specified Chemistry and Physics courses, students may take comparable sequences of courses designed for Chemistry and Physics majors, respectively. Also, in lieu of Physics 150, 151 and 152, students may take Physics 155 and 156, offered summers only.

Mathematics/Statistics: Mathematics: 150 Calculus I; 151 Calculus II; and 152 Calculus III (or Math 147, 148 and 149 or Math 160, 161 and 162); and one statistics course: Biology: 305 Biometry, or Environmental Science: 260 Environmental Data Analysis, or Scientific Data Analysis and Visualization: 360 Scientific Data Analysis I. Students may be advised on the basis of their performance on the Mathematics Diagnostic Test to take one or more pre-calculus courses.

III. TEACHER OF BIOLOGY SECONDARY LEVEL

In cooperation with the School of Education, the Department of Biological Sciences offers a concentration of study which combines most of the requirements for a major in Biology with certification for teaching biology at the middle junior high, and senior high school levels. A student electing such a program should consult the School of Education counselor as soon as possible after entering DePaul.

SPECIAL PROGRAMS

BIOLOGY MINOR

A student wishing to obtain a minor in Biology must take six courses designed primarily for the major, including Biology 101, 102, and 103. Three additional courses (generally lab-based) will be recommended by the Department on the basis of the student's interests.

CLINICAL LABORATORY SCIENCE (MEDICAL TECHNOLOGY)

A student wishing to enter a career in Clinical Laboratory Science takes a program of study almost identical to the major in Biological Sciences, except that Biology 210, 310 and 370 are also required. Upon completion of the requirements for the baccalaureate, the student enters one year of internship in a hospital associated with DePaul University.

MASTER OF SCIENCE DEGREE PROGRAM

Certain graduate level courses, including 401 (Independent Study) are open to qualified advanced undergraduate students with the approval of the chair of the department. See the Graduate School Bulletin for course offerings. Students planning to complete a graduate program at DePaul University should inquire of their academic advisor how they, as juniors or seniors may initiate studies in the Graduate School which become applicable toward our master's degree (see below).

COMBINED BACHELOR'S AND MASTER'S DEGREE IN BIOLOGY

The Department of Biological Sciences offers a special option to students with a potential for graduate study and an interest in pursuing a master's degree at DePaul. Following consultation with the student's advisor, and with prior permission from the department, a student may enter the Graduate Program prior to completion of the bachelor's degree. The student may take graduate level courses as an undergraduate and have up to three of them count
towards the undergraduate degree as well. These students will earn a bachelor’s degree during their fourth year and at the same time be considered graduate students with all of the perquisites that apply to that status. Those perquisites include, but are not limited to, eligibility for assistantships, attending graduate-only courses, graduate level mentoring, and initiation of master’s level research.

SEQUENCING

Since programs in the Biological Sciences tend to be structured, it is useful for students to take courses in sequence. Students should begin with the General Biology and Chemistry sequences. These are prerequisite to Ecology, Cell Biology, Genetics, and Organic Chemistry, which should preferably be taken in the sophomore year. Since calculus is required, students should also begin their study of mathematics as soon as possible, preferably prior to their junior year, so that they can be adequately prepared for the General Physics sequence, best taken in the junior year. Because of this highly structured sequence, students are strongly encouraged to work with their Departmental advisor in order to plan their course schedules and plan alternatives if necessary. Such planning is particularly important for transfer students, as the sequence presented above is highly recommended and most likely to be completed in a timely fashion.

The predominance of chemistry and biology sequences in the freshman and sophomore years generally dictates that, with the exception of the Liberal Studies Core courses, the majority of the Liberal Studies courses may be postponed until the junior and senior years. Students may therefore take fewer Liberal Studies courses in the first two years, concentrating instead on major field requirements, which are prerequisites to upper division courses.

The Program in Catholic Studies is intellectual in focus and interdisciplinary in nature. Rigorous intellectual study, a deepened critical understanding and an appreciation of the Catholic contribution to human civilization are its main goals. The program explores Catholicism as a religious and cultural reality that expresses and motivates multiple forms of human expression. All members of the university are invited to participate in the scholarly examination of Catholicism and the development of Catholic thought. True to DePaul’s tradition, no religious test is applied to either students or faculty participating in the program. In addition to the offerings of DePaul University, upper-level students in the program in Catholic Studies are able to take selected courses at the Catholic Theological Union at Chicago. The cooperative relationship between DePaul and CTU opens to students in the program the resources of the largest Catholic school of theology and ministry in North America. The program is designed to give students with differing learning objectives and career goals maximum flexibility in the design of their Bachelor of Arts degree. In order to ensure intellectual coherence in their program, all students are to meet quarterly with their academic advisor to design a course of study, refine their learning goals, and select classes that meet their educational and professional objectives.

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in Catholic Studies. The number and distribution of courses in each of the areas are as follows:

**Core:** 32 quarter hours required

**First Year Program:** (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

**Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

**Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

**Senior Capstone:** (4 quarter hours required) Catholic Studies requires students majoring in Catholic Studies to complete the senior capstone in Catholic Studies, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

**Learning Domains:** 52 quarter hours required

**Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.

**Philosophical Inquiry:** 8 quarter hours required.

**Religious Dimensions:** 4 quarter hours required.

**Scientific Inquiry:** 12 quarter hours required; 4 quarter hours with lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.

**Self, Society and the Modern World:** 12 quarter hours required. At most 2 courses from the same department or program.

**Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative. Students majoring in Catholic Studies should consult with the director of the program in Catholic Studies to determine the remaining liberal studies course reduction. Although study in Catholic Studies contributes to a student’s liberal education,
courses offered by the program in Catholic Studies are not applied towards liberal studies requirements for the Catholic Studies major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

PROGRAM IN CATHOLIC STUDIES REQUIREMENTS
52 hours (13 courses) from the program in Catholic Studies distributed as follows:

Core: 16 hours (4 courses) including 200 or 201, 205, 206 and 209.
Areas: 16 hours (4 courses) over four of the areas. One of the areas must be Scriptures, Councils and Creeds.
Electives: 16 hours (4 courses) in the program in Catholic Studies. Three of these must be at the 300 level.
Senior Capstone: 4 hours (1 course).

ELECTIVES
56 hours (14 courses) of electives, chosen with the approval of one’s academic advisor and appropriate to one’s educational and/or professional goals.

MINOR IN CATHOLIC STUDIES
The minor in Catholic Studies consists of six courses: the four course core, one course from Scriptures, Councils and Creeds, and one elective.

COURSES
Please visit Campus Connection at https://campusconnect.depaul.edu for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The Department of Chemistry has several fundamental responsibilities. They are (a) to train students to understand, to criticize meaningfully and to carry out scientific investigations, (b) to provide instruction and laboratory experience for those who wish to make chemistry their livelihood and/or pursue advanced study in chemistry, (c) to provide instruction and laboratory experience for those who wish to use chemistry as a background in an allied profession, and (d) to provide students not majoring in chemistry with up-to-date instruction in the principles of chemistry and methods of scientific inquiry.

In meeting these responsibilities, the department offers both B.A. and B.S. degrees in standard concentrations in the discipline and administers and contributes to interdisciplinary concentrations in Biochemistry, Environmental Chemistry, and Chemical Engineering. Students can also complete a chemistry or biochemistry concentration accredited by the American Chemical Society. Many students who continue their studies in chemistry toward advanced degrees choose one of these accredited concentrations. A Chemistry/Education program is also offered in cooperation with the School of Education to prepare students for a career in teaching science (including chemistry in junior high and secondary schools.)

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 28 quarter hours required in the liberal studies core, students are required to complete 48 quarter hours distributed through five learning domains as part of their Bachelor of Science degree in Chemistry. The number and distribution of courses in each of the areas are as follows:

- **Core:** 28 quarter hours required
- **First Year Program:** (16 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, and Composition and Rhetoric I and II.
- **Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
- **Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
- **Senior Capstone:** (4 quarter hours required) Chemistry requires students majoring in Chemistry to complete the senior capstone in Chemistry, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

**Learning Domains:** 48 quarter hours required

- **Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.
- **Philosophical Inquiry:** 8 quarter hours required.
- **Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
- **Scientific Inquiry:** not required.
- **Self, Society and the Modern World:** 12 quarter hours required. At most 2 courses from the same department or program.

- **Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.
Although study in chemistry contributes to a student’s liberal education, courses offered by the department of chemistry are not applied towards liberal studies requirements for the chemistry major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

In addition, the department of chemistry recommends that students who are seeking accreditation by the American Chemical Society fulfill the Modern Language Option by completing a three course language sequence. The three-course language sequence may substitute for two domain courses and one open elective. The option reduces their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature.

**DEPARTMENTAL PROGRAM REQUIREMENTS**

**BACHELOR OF SCIENCE**

**COMMON CORE**

Chemistry: 111 General and Analytical Chemistry I; 113 General and Analytical Chemistry II; 115 General and Analytical Chemistry III (131 General Chemistry I and 133 General Chemistry II may be substituted for 111-113-115.); 127 Quantitative Analysis (or 147 Analytical Techniques); 171 Mechanistic Organic Chemistry I; 173 Mechanistic Organic Chemistry II; 175 Mechanistic Organic Chemistry III; 192 Mathematical Methods of Chemistry; 210 Physical Chemistry I; 211 Physical Chemistry II.

Physics: 170 University Physics I; 171 University Physics II; 172 University Physics III. (PHY 150-152 General Physics I-III may substitute for PHY 170-172.)

Mathematics: 160 Calculus for Mathematics and Science Majors I; 161 Calculus for Mathematics and Science Majors II; 162 Calculus for Mathematics and Science Major III. (Either MAT 147-149 Calculus with Integrated Precalculus I-III or MAT 150-152 Calculus I-III may substitute for MAT 160-162.) MAT 260 and 261, Multivariable Calculus I and II, are strongly recommended. (MAT 260 is required for some B.S. chemistry options.)

**B.S., STANDARD CONCENTRATION**

Common Core in Chemistry, Physics, and Mathematics plus: 215 Physical Chemistry III; 261 Instrumental Analysis; 321 Intermediate Inorganic Chemistry; one course from among the following 265 Air Chemistry, 267 Water Chemistry of Natural Systems, or 269 Solid Waste Chemistry.

**AMERICAN CHEMICAL SOCIETY, STANDARD ACCREDITATION**

For the standard chemistry concentration to be accredited by the American Chemical Society, they must complete the following additional requirements: Chemistry: 240 Introductory Biochemistry or 340 Biochemistry I, 312 Intermediate Organic Chemistry I, 313 Computational Chemistry; 356 Spectral Interpretation, and one other 4 quarter hour chemistry course numbered above 300. Mathematics/Physics: Mathematics 260 Multivariable Calculus I; and any two courses from Mathematics 261 Multivariable Calculus II; Physics 270 University Physics IV, Physics 300 Methods of Computational and Theoretical Physics I, and Physics 301 Methods of Computational and Theoretical Physics II. In addition, the American Chemical Society recommends that students take one year of German or other modern language and/or establish proficiency in computer programming. Students who wish to do this should take the following courses: German: 101 Basic German; 102 Basic German; and 103 Basic German or equivalent courses in another modern language. (Students are placed within the language sequence on the basis of their high school language background. See the Modern Languages section of this Bulletin for the placement guide.) Students can receive Liberal Studies credit for these courses. Computer Science: 215 Introduction to Structured Programming Using C++.
B.S., BIOCHEMISTRY CONCENTRATION

Common Core in Chemistry and Mathematics plus: 215 Physical Chemistry III; 261 Instrumental Analysis; 340 Biochemistry I; 342 Biochemistry II; 344 Biochemistry III; 341 Experimental Biochemistry I.

Biology: Three 4-quarter hour courses selected in consultation with the Biochemistry advisor.

Physics: Either the sequence of core courses 170, 171, and 172 or 150, 151, and 152.

AMERICAN CHEMICAL SOCIETY, BIOCHEMISTRY ACCREDITATION

For the standard biochemistry concentration to be accredited by the American Chemical Society and for the students to be eligible to receive a Certificate of Merit, they must complete the following additional requirements:

Mathematics: 260 Multivariable Calculus I.

Biology: one course from 210 Microbiology, 215 Ecology, 250 Cell Biology, or 260 Genetics and two courses from 310 Vertebrate Physiology, 330 Developmental Biology, 340 Neurobiology, 360 Molecular Biology, and 370 Immunobiology.

In addition the American Chemical Society recommends that students take one year of German or other modern language and/or establish a proficiency in computer programming as outlined above in regular chemistry accreditation section.

B.S., ENVIRONMENTAL CONCENTRATION

Common Core in Chemistry, Physics and Mathematics plus: 215 Physical Chemistry III; 261 Instrumental Analysis; 265 Air Chemistry; 267 Water Chemistry of Natural Systems; 268 Toxicological Chemical Hazards (or Biology 365 Principles of Toxicology); and 269 Solid Waste Chemistry.

Geography: 225 Weather, Climate, and Man, or 242 Geographical Information Systems or equivalent.

Computer Science: 110 Elements of Computer Science and Information Systems, or 215 Introduction to Structured Programming Using C++, or 240 Personal Computing for Programmers.

B.S., TEACHER OF CHEMISTRY: SECONDARY LEVEL

In cooperation with the School of Education, the Department of Chemistry offers a concentration of study which combines the requirements for a major in Chemistry with certification for teaching chemistry at the junior high, middle, and senior high school levels. A student electing such a program should consult the Chemistry Education Advisor and the School of Education counselor as soon as possible after entering DePaul.

DEPARTMENTAL PROGRAM REQUIREMENTS

BACHELOR OF ARTS

B.A., STANDARD CONCENTRATION

Common Core in Chemistry, Physics, and Mathematics.
In addition, the student must demonstrate competence in a Modern Language (see Liberal Arts section of Bulletin for definition).

Note that this degree permits students to develop a number of different minors. The following concentrations do not represent all the programs that could be developed around this degree. Also note that a student may not combine a Bachelor of Arts in Chemistry with a Bachelor of Science in another discipline.

**B.A., HEALTH-RELATED SCIENCES CONCENTRATION**

Common Core in Chemistry, Physics, and Mathematics plus: 340 Biochemistry I; 341 Experimental Biochemistry I; 342 Biochemistry II.

Biology: 101 General Biology I; 102 General Biology II; 103 General Biology III.

Electives: Biology courses listed under the ACS Biochemistry degree would be particularly appropriate.

**B.A., BUSINESS CONCENTRATION**

Common Core in Chemistry, Physics, and Mathematics plus the following College of Commerce classes:

Accounting: 101 Principles of Accounting I; 102 Principles of Accounting II.

Economics: 105 Principles of Microeconomics; 106 Principles of Macroeconomics

Management: 300 Managerial Concepts and Practices I; 301 Managerial Concepts and Practices II.

**PRE-MBA MINOR**

Please consult the Commerce of Commerce section for additional information regarding the pre-MBA minor.

**MARKETING MINOR**

Please consult the Commerce of Commerce section for additional information regarding the marketing minor.

**MANAGEMENT MINOR**

Please consult the Commerce of Commerce section for additional information regarding the management minor.

**B.A. COMPUTATIONAL CHEMISTRY CONCENTRATION WITH EMPHASIS IN COMPUTER SCIENCE**

Common Core in Chemistry, Physics, and Mathematics.

Chemistry: 313 Computational Chemistry.

Mathematics: 140 Discrete Mathematics I.

Please consult the School of Computer Science, Telecommunications and Information Systems section for additional information regarding computer science minors.
SPECIAL PROGRAMS

PRE-ENGINEERING CURRICULUM IN CHEMICAL ENGINEERING

The Chemical Engineering option is offered in conjunction with Illinois Institute of Technology (IIT). In the five-year program, students simultaneously earn a B.S. in chemistry from DePaul University and a Chemical Engineering (Ch.E.) degree from IIT. Students complete the B.S. in chemistry (Standard Concentration) at DePaul University. Students supplement their DePaul B.S. with twenty additional chemical engineering and related courses taken at IIT. It is recommended that interested students contact the Chemistry Engineering Advisor as soon as possible if interested in this program.

MASTER OF SCIENCE DEGREE PROGRAM

Students planning to integrate a B.S. and M.S. degree program at DePaul University should inquire of the chair of the Department of Chemistry as undergraduate juniors whether they can begin studies in the Graduate School that are applicable toward a master's degree.

CHEMISTRY MINOR

A student wishing to obtain a minor in Chemistry normally must take seven courses in the department from among the following: Chemistry 111, 113, and 115 (131 and 133 may be substituted for 111-113-115.), 127 (or 147), 171, 173, and any one of 210, 240, 265, 267, 269, or 340.

SEQUENCING AND PREREQUISITES

Students should begin their General Chemistry, Physics, and Calculus sequences in their freshman year, provided they have an adequate mathematics background. The Organic Chemistry sequence and Quantitative Analysis should be taken in the sophomore year and the Physical Chemistry sequence in the junior year. Students not yet prepared for calculus should take the prerequisite courses in the first year and take Calculus and General Physics one year later than suggested above. Advanced courses in Chemistry may be taken as soon as students have met the appropriate prerequisites.

Students in Biochemistry should take General Biology (Bio. 101, 102, 103) in their freshman or sophomore years and Biochemistry after they have completed both the General Biology and Organic Chemistry sequences (Chemistry 175 or 125).

Since the Common Core in Chemistry, Calculus, and Physics is particularly demanding in the first two years, students should take the majority of their Liberal Studies courses in their junior and senior years. This is necessary so that students have the necessary prerequisites for advanced courses.

COURSE LISTING BY CATEGORY

General Topics
CHE 100 Our Chemical World
CHE 101 Exploring Matter
CHE 102 Atoms and Molecules

General and inorganic Chemistry
CHE 111 General and Analytical Chemistry I
CHE 113 General and Analytical Chemistry II

A

ministered through the Department of Biological Sciences, the Clinical Laboratory Science (CLS) program is nearly identical to the standard Biological Sciences concentration, except that Biology 210, 310 and 370 are also required. The student takes 12 courses in the Biological Sciences, two years of Chemistry, a year of Physics, a year of Calculus, and courses in Computer Science and Statistics. Upon completing the requirements for the baccalaureate, the student spends one year in an internship at a hospital associated with DePaul University (currently Evanston Hospital). Upon completion of a clinical laboratory science program, graduates are eligible for national certification as a clinical laboratory scientist, CLS, by exams offered by the National Credentialing Agency for Laboratory Personnel (NCA). Students interested in the technological aspects of biosciences may also consider the Biotechnology concentration in the Department of Biological Sciences program.

University of Hawaii

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 28 quarter hours required in the liberal studies core, students are required to complete 48 quarter hours distributed through five learning domains as part of their Bachelor of Science degree in Clinical Laboratory Science. The number and distribution of courses in each of the areas are as follows:

Core: 28 quarter hours required
First Year Program: (16 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, and Composition and Rhetoric I and II.
Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
Senior Capstone: (4 quarter hours required) Clinical Laboratory Sciences requires students majoring in Clinical Laboratory Sciences to complete the senior capstone in Clinical Laboratory Sciences, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.
Learning Domains: 48 quarter hours required
Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.
Philosophical Inquiry: 8 quarter hours required.
Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
Scientific Inquiry: not required.
Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from
the same department or program.

**Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

**PROGRAM REQUIREMENTS**

**I. STANDARD CONCENTRATION**

Biological Sciences: 101 General Biology I; 102 General Biology II; 103 General Biology III; 210 Microbiology; 215 Ecology; 250 Cell Biology; 260 Genetics; 310 Vertebrate Physiology; 370 Immunobiology; and three additional Biology courses, one of which must include a laboratory. Biology courses that fulfill the Scientific Inquiry Domain requirements, other than the General Biology sequence, do not generate credit toward the major.

Chemistry: 111 General and Analytical Chemistry I; 113 General and Analytical Chemistry II; 115 General and Analytical Chemistry III (or 131 General Chemistry I and 133 General Chemistry II); 171 Organic Chemistry I; 173 Organic Chemistry II; 175 Organic Chemistry III. (First-year chemistry courses should be taken simultaneously with Biology 101, 102, and 103.)

Physics: 150 General Physics I; 151 General Physics II; and 152 General Physics III.

Note: In place of the above-specified Chemistry and Physics courses, students may take comparable sequences of courses designed for Chemistry and Physics majors, respectively. Also in lieu of Physics 150, 151 and 152, students may take Physics 155 and 156, offered summers only.

Mathematics/Statistics: Mathematics 150 Calculus I; Mathematics 151 Calculus II; Mathematics 152 Calculus III (or Mathematics 147, 148 and 149; or Mathematics 160, 161, and 162; or Mathematics 170, 171 and 172.); and one statistics course: Biology: 305 Biometry, or Environmental Science: 260 Environmental Data Analysis, or Scientific Data Analysis and Visualization: 360 Scientific Data Analysis I.

Students may be advised on the basis of their performance on the Mathematics Diagnostic test to take one or more pre-calculus courses.

**SEQUENCING**

Since programs in the Biological Sciences tend to be structured, it is useful for students to take courses in sequence. Students should begin with the General Biology and Chemistry sequences. These are prerequisite to Cell Biology, Genetics, and Organic Chemistry, which should preferably be taken in the sophomore year. Since calculus is required, students should also begin their study of mathematics as soon as possible, preferably prior to their junior year, so that they can be adequately prepared for the General Physics sequence, best taken in the junior year. Because of this highly structured sequence, students are strongly encouraged to work with their Departmental advisor in order to plan their course schedules and plan alternatives if necessary. Such planning is particularly important for transfer students, as the sequence presented above is highly recommended and most likely to be completed in a timely fashion.

The predominance of chemistry and biology sequences in the freshman and sophomore years generally dictates that, with the exception of the Liberal Studies Core courses, the majority of the Liberal Studies courses may be postponed until the junior and senior years. Students may therefore take fewer Liberal Studies courses in the first two years, concentrating instead on major field requirements, which are prerequisites to upper division courses. Students will complete their post-graduate (fifth year) internship at an associated hospital.

**COURSES**

Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The Communication Department offers a variety of courses, within five areas of study, leading to a Bachelor of Arts in Communication. The program explores effective communication in interpersonal, small group, public, organizational, intercultural, performative, and media contexts. Through a blend of theory and practice, students are encouraged to think, speak, and write clearly; to develop confidence and ability as ethical communicators; to view communication events from multiple perspectives; to understand the multicultural character of communication in contemporary society; to analyze and evaluate variables operating in verbal transactions; to probe the basic problems of human communication in order to understand self, others, and events; and to recognize the connections between communication studies and other disciplines.

The Communication Department serves students whose professional goals are in mass communication and media studies including journalism, radio, television, film, and public communication including public relations and advertising. Students whose professional goals are in the public, private, or non-profit sectors, such as government, corporations, training and human resources, and social and human services are well served by relational, group, and organizational communication and communication and culture courses in linguistics, performance studies, and rhetoric. In addition, the BA in Communication trains students who want to continue their education in academic or professional post-graduate programs.

The Department provides both an introduction to the broad field of communication and allows students to specialize in one of five tracks: Communication and Culture (COC), Journalism (JOU), Public Communication (PC), Radio, Television and Film (RTF), and Relational, Group, and Organizational Communication (RGO). The department also offers a variety of minors in all the tracks except Public Communication. The Department offers internships through which majors and minors can gain experience in both the public and private sector, commercial and not-for-profit organizations. Department faculty members also sponsor the university's radio station (WRDP) and supervise the student newspaper, The DePaulia. We encourage students interested in journalism and radio to participate in these organizations.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM
In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in communication. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required
First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.
Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
Junior Year Experiential Learning: (4 quarter hours required) The experiential learning requirement engages students in the first-hand discovery of knowledge through observation and participation in activities, most often in field-based settings outside the classroom. Internships, Service Learning, and Study Abroad are three ways to fulfill this requirement.
Senior Capstone: (4 quarter hours required) All students are required to take a Senior Capstone Seminar. Unless you are a double major, students majoring in Communication will complete the Senior Capstone in Communication, CMN 396. If you are a double major and/or in the Honors Program, you must follow the Senior Capstone guidelines for that area when the capstone is required. If the capstone is optional in the other major/area, you can elect which capstone to complete.

Learning Domains: 52 hours required.
Arts and Literature: 8 quarter hours required; one course from two different departments or programs.
Philosophical Inquiry: 8 quarter hours required.
Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective; at most, two courses from the same department or program.
Self, Society and the Modern World: 8 quarter hours required;
Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in communication contributes to a student’s liberal education; courses offered by the department of communication are not applied towards liberal studies requirements for the communication major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

JUNIOR EXPERIENTIAL AND SENIOR CAPSTONE REQUIREMENTS

COMMUNICATION MAJOR
The major consists of a three-course core, seven or eight courses in the track area, and two or three electives in Communication. All communication majors must complete a declaration of major form, which is available either from a departmental or LA&$S$ advisor.
COMMON CORE

Three core courses are required in Communication: 101, Introduction to Human Communication, 203, Intercultural Communication, and 346, Culture and Media. Students are encouraged to complete all three prior to taking additional coursework in the major.

I. Communication and Culture

The three common core courses are required plus one track requirement: either CMN 220, Public Speaking, or CMN 230, Performance of Literature. Students select six additional courses from 202, Introduction to Linguistics; 302, Grammar and Usage; 304, Multicultural CMN in the USA; 305, Language and Society; 307, Topics in Political and Social Discourse; 308, Topics in Cultural Discourse; CMN 309, International /Global Communication; 310, Discourse Analysis; 321 Cultural and Symbolic Criticism; 323, Social Movements; 324, Culture of Consumption; 327, Argumentation and Debate; 328, History of Rhetoric and Communication; 329, Persuasion; 330, Topics in Performance; 361, Gender and Communication; 391, Special Topics (when topic relates to the track); 394, Advanced Communication Internship (when placement relates to the track). Also students take three electives from other Communication offerings.

II. Journalism

The three common core courses are required plus one track requirement: CMN 275, Introduction to Journalism. Students select six additional courses from 240, Broadcast Journalism; 245, Editing; 276, Photojournalism; 279, Feature Writing; 309, International, Global Communication; 334, Ethics in Public Communication; 343, Journalism and the American Experience; 374, Community Journalism; 377, Topics in Journalism; 378, Advanced Reporting; 391, Special Topics (when topic relates to the track); 393, Communication Practicum; and 394, Advanced Communication Internship (when placement relates to the track). Also students take three electives from other Communication offerings.

III. Public Communication

The three common core courses are required plus four track requirements: CMN 255, Public Relations; 256, Writing for Public Communication; CMN 291, Research Methods; and either 334, Ethics in Public Communication or 335, Public Relations, Advertising, and Society. Students select three additional courses from 244, Principles of Advertising; 251, Organizational Communication; 304, Multicultural Communication in the USA; 309, International/Global Communication; 329, Persuasion; 334, Ethics in Public Communication; 335, Public Relations, Advertising, and Society; 337, Public Communication Cases; 338, Health and Public Relations; 352, Communication and Corporate Culture; 375, Communication Law; 391, Special Topics (when topic relates to the track); 393, Communication Practicum; and 394, Advanced Communication Internship (when placement relates to the track). Also students take three electives from other Communication offerings.

IV. Radio, Television, and Film

The three common core courses are required plus one track requirement: CMN 271, Introduction to Radio, TV, and Film. Students select seven additional courses. At least two in History, choose from 206, Introduction to Film History; 309, International/Global Communication; 342, History of Broadcasting; 349, Topics in Film/TV History. At least two in Criticism, choose from 272, Concepts in Media Design; 273, Film/Video Aesthetics I; 347, Mass Media Criticism; 348, Film/TV Genres. At least two in Production, choose from 274, Screenwriting; 339, Radio Production; 341, Topics in Radio; 371, Film/Video Production I; 372, Film/Video Production II; 373, Documentary Production; 391, Special Topics (when topic relates to the track); 393, Communication Practicum; and 394, Advanced Communication Internship (when placement relates to the track). Also students take two electives from other Communication offerings.

V. Relational, Group, and Organizational Communication

The three common core courses are required plus two track requirements: CMN 291, Research Methods, and 360, Relational, Group, and Organizational Theory. Students select six additional courses from 211, Interpersonal Communication; 212, Small Group Communication; 251, Organizational Communication; 311, Topics in Relational Communication; 313, Nonverbal
Communication; 314, Family Communication; 315, Health Communication; 318, Close Relationships; 329, Persuasion; 350, Communication and Socialization to Work; 352, Communication and Corporate Culture; 353, Communication and Organizational Change; 354, Interviewing; 391, Special Topics (when topic relates to the track); and 394, Advanced Communication Internship (when placement relates to the track). Also students take two electives from other Communication offerings.

**MINORS AND ALLIED FIELDS FOR COMMUNICATION MAJORS**

All Communication majors must take a unified, SIX-course sequence in an auxiliary, complementary field of study outside the major. This requirement can be met through:

1. A minor within Liberal Arts & Sciences as specified in the Undergraduate Bulletin.
2. A minor within another college or school at DePaul as specified in the Undergraduate Bulletin.
3. Allied Fields

   Each student must complete a “Declaration of Minor or Allied Field Form for Communication Majors,” which is available either from a departmental or LA&S advisor. While students can change their course of study by completing a new form, the declaration ensures correct transcript evaluation prior to graduation and formalizes student-advisor understandings as the student progresses.

   Allied Fields is a sequence of six courses outside the major with a thematic unity chosen in consultation with a departmental advisor. These courses often relate to career, disciplinary, or personal interests. The courses also may prepare students for graduate school admissions or other post-baccalaureate opportunities. Students may choose courses from within or across departments or even across colleges; however, if a student plans to take one or more classes from another college, the student must meet the pre-requisites of that college or course.

   The Allied Fields option allows students to shape a unified, individualized sequence of classes in an area complementary to their goals and major. For example, students preparing for law school can choose courses in the pre-law program. Students interested in Advertising can choose appropriate courses from Art, English, and/or Marketing. Students planning to teach at the elementary or secondary level should contact the School of Education for the certification requirements operative in the city, township, district, or state in which they wish to work. Courses should be chosen with specific certification criteria in mind.

**Unrestricted Electives**

Students complete the Bachelor’s degree by taking an additional 32 quarter hours selected from any course offered by DePaul University.

**SPECIAL PROGRAMS OR REQUIREMENTS**

**INTERNSHIP CREDIT**

The department offers an internship program through which students can earn academic credit and gain practical experience in a professional setting. Students may enroll in CMN 294, Communication Internship, and/or CMN 394, Advanced Communication Internship, only after meeting departmental eligibility requirements. An individual student may participate in several internship experiences. A maximum of 16 quarter hours of internship and practicum credit can be applied to degree requirements. Four quarter hours of internship credit (taken for a grade) may apply toward fulfillment of requirements in the major, within a track or as an elective. In addition, four quarter hours of internship credit (also taken for a grade) may fulfill the liberal studies junior year experiential learning requirement. Subsequent hours of internship credit are taken on a pass/fail basis and fulfill unrestricted electives. Internship credit may not be applied to allied field requirements.

**MINOR IN COMMUNICATION**

A variety of minors are offered by four of the five tracks in Communication: **Communication and Culture** offers two minors. All minors must take CMN 203, Intercultural Communication and either CMN 220, Public Speaking or CMN 230, Performance of Literature.
Student may complete a minor in *Intercultural Communication* by taking four more courses from: CMN 304, 305, 309, 310, 321, 324, or 361 and cultural topics in 307 and 308. Students may complete a minor in *Rhetoric* by taking four from 310, 321, 323, 324, 326, 327, 328 and rhetoric topics in 307 and 308.

Students may complete a minor in *Journalism* by taking CMN 275, Introduction to Journalism, and five additional courses from the Journalism Track. Students may complete a minor in *Radio, TV, Film* by taking CMN 271, Introduction to RTF, and five other courses distributed through the three areas: history, criticism, and production, taking one or two courses in each.

*Relational, Group, and Organizational Communication* offers two minors. In both minors, students must take the two track requirements, CMN 291, Research Methods, and CMN 360, Relational, Group, and Organizational Theory, and then take four more classes from 200 and 300 level offerings in the track *distributed* across the three areas or take four more 200 and 300 level offerings in one *specific* area of the track.

**RADIO**
The department manages WRDP, the campus radio station. Students may earn up to eight credit hours (four in the major) for radio production by enrolling with instructor’s permission in CMN 393, Communication Practicum.

**THE DEPAULIA**
*The DePaulia* is the university’s student-run newspaper, which is integrated in the Communication curriculum. Published weekly since 1922, the newspaper covers news, sports, features, and community-related events. Editors on the newspaper are eligible for four hours of credit under CMN, 393, Communication Practicum.

**PUBLIC DEBATE**
The Communication Department hosts public forums and provides students interested in debate the opportunity to create and lead debates on current issues in the news and at DePaul. Up to four credits can be earned for consistent participation in the public debate program, in CMN 393, Communication Practicum.

**COURSE DESCRIPTIONS**
All courses carry 4 quarter hours credit except CMN 393, Communication Practicum, which may be taken for two credits.

**COURSES**
Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
Community service is an integral part of American life. It is often equated with volunteerism of all sorts. However, engaging in service to communities raises complex issues that go beyond the acts of teaching a child to read, feeding the homeless, or tutoring English to a newly arrived immigrant. Issues of social justice, including race, class, language, socioeconomic standing, cultural sensitivity and privilege, pervade most activities we associate with community service.

Community Service Studies is an interdisciplinary experiential learning program that offers students a context for critically reflecting upon and engaging in service and volunteerism.

The Community Service Studies Minor combines courses from several disciplines that provide a framework for viewing community service from the perspectives of theory, ethics and group dynamics. The curriculum relies heavily upon community-based service learning courses. This form of experiential learning is designed for students interested in developing a deeper understanding and practice of community service either as a prelude to a career after graduation or to enhance their personal sense of social justice as they enter the world of work. In this way, students are provided with the opportunity to integrate progressively deeper and more challenging forms of service and social engagement with more challenging intellectual reflection.

COMMUNITY SERVICE STUDIES MINOR

The minor requires the completion of six courses (24 credit hours): three of which are mandatory, and four of which must be community-based service learning (CbSL) courses. (note: CbSL courses are those which incorporate a minimum of 25 hours of community service into the course requirements.) Course numbers and titles in italics below are community-based service learning courses.

All undergraduate students are eligible to complete a Minor in Community Service Studies. Course selection beyond the three mandatory courses must be done in consultation with the Director of the Community Service Studies Program.

Minor requirements. All students must complete the three foundations courses. Students must choose the additional three courses from Theoretical Frameworks, Ethical Approaches and Group Dynamics. One course must come from each of these three categories. For more information about courses offered during current academic year, go to cbsl.depaul.edu.

Foundations - Community Service Minor

Community Service Studies

CSS 201 Perspectives on Community Service explores the relationship between social justice movements and non-profit organizations in the U.S. by providing a structure within which students can learn about issues and theory and the organizational settings in which they are serving.

CSS 300 Introduction to Non-Profit Management This course provides students with an understanding of how organizations that conduct the vital work of the non-profit sector function. Students will complete the course with the knowledge base to be effective program managers and board members in these organizations.

CSS 395 Community Internship exposes students to career potentials in non-profit and
government agencies through an intensive internship experience in a community organization.

**Theoretical Frameworks.** Courses in this category emphasize historic and systemic analyses of social and economic inequality and theories of society and/or social change or of justice/injustice.

**Catholic Studies:** CTH 247 Introduction to Social Ethics; CTH 341 Liberation Theology; CTH 354 Special Topics in Catholic Thought; CTH 389 Special Topics in the Social Dimension of Catholicism

**Communications:** CMN 361 Gender and Communication; CMN 391 Special Topics: Communication, Culture and Community

**Latin American/Latino Studies:** LST 202 Multiculturalism in the United States: The Construction of Latino Communities; LST 307 Growing up Latina/Latino in the U.S.

**Political Science:** PSC 218 African-American Politics; PSC 223 Urban Politics; PSC 232 Legal Theory and Social Justice; PSC 286 Campaigns and Social Engagement; PSC 320 Dynamics of Public Policy; PSC 381 Theory and Practice of Public Policy

**Religious Studies:** REL 206 Social Ethics; REL 351 Liberation Theology

**Sociology:** SOC 105 Social Problems; SOC 203 Race Relations; SOC 209 Sociology of Women; SOC 212 Community and Society; SOC 231 Urban Ethnicity; SOC 250 Group Diversity; SOC 311 Sociology of Latino Culture

**Women’s Studies:** WMS 300 Feminist Theories; WMS 391 Methods and Scholarship in Women’s Studies

**Ethical Approaches.** Courses in this category examine alternative ethical theories and their application as they relate to issues of justice/injustice and social change.

**Catholic Studies:** CTH 247 Introduction to Social Ethics; CTH 248 Contemporary Moral Issues; CTH 282 God, Justice and Redemptive Action; CTH 283 Ethics and Society in the Roman Catholic Tradition; CTH 386 The Catholic Church in World Politics; CTH 344 Social Ethics and Civil Law; CTH 351 Natural Law and Christian Ethics

**Communications:** CMN 323 Communication of Resistance and Oppression

**Political Science:** PSC 213 Political Socialization; PSC 282 Political Action and Social Justice; PSC 324 Inequality in American Society; PSC 345 The Catholic Church in World Politics; PSC 347 Ethics in World Politics; PSC 362 Criminal Justice System

**Religious Studies:** REL 222 Religious Traditions and Contemporary Moral Issues; REL 259 Religion and Social Engagement; REL 283 Catholic Social Thought; REL 286 Papal Teaching on Social and Economic Justice; REL 322 Feminist Ethics

**Sociology:** SOC 200 Social Work and Social Welfare; SOC 248 White Racism; SOC 250 Group Diversity; SOC 340 Social Inequality

**Group Dynamics.** Courses in this category examine the interpersonal and small groups dynamics of social change and traits of effective community organizations, communication and leadership.

**Catholic Studies:** CTH 201 The Experience of Catholicism in Chicago; CTH 389 Special Topics in Catholicism and Society
**Communication:** CMN 212 Small Group Communications

**English:** ENG 377 Writing and Social Engagement

**Latin American/Latino Studies:** LST 306 Latino Communities in Chicago; LST 308 Motherhood Latino Communities

**Political Science:** PSC 214 Multiculturalism and Democracy; PSC 325 Latino Political Empowerment

**Religious Studies:** REL 204 Religions of Chicago

**Sociology:** SOC 200 Social Work and Social Welfare; SOC 392 Sociology Internship; 394 Sociology and Society

**Women’s Studies:** WMS 303 Women and Violence Women’s Studies;

**Study Abroad:** WMS 303 Women and Violence Study Abroad Courses. One of two study abroad trips, El Salvador or Nogales, Sonora, Mexico, may be used to fulfill one or more course requirements for the Minor. Approval of these trips for the Minor must be obtained in consultation with the Director.

**Director:** Alexandra Murphy, Ph.D. Assistant Professor, Communications.

The Comparative Literature minor is designed to present a diversity of literatures under the same heading and thus allow access in translation to the artistic creations of non-English-speaking civilizations. The minor seeks to promote a multicultural perspective of literary endeavor. In order to provide a framework for literary interpretations, a course on contemporary criticism comprises an essential component of this minor. To minor in comparative literature the following sequence of courses totaling 24 hours is required: Comparative Literature/Modern Language 355 (Contemporary Criticism) plus five Comparative Literature offerings or four Comparative Literature offerings plus one 300 level literature offering from Modern Languages in a language other than English (French, German, Italian, Spanish) or one 300 Level literature offering in English.

Economics analyzes the manner in which scarce resources are utilized to satisfy the wants and needs of people and society. The Economics Department offers courses that formulate, interpret, and explore ideas concerning such topics as unemployment, inflation, production and distribution, economic growth, and international economic relations. Courses emphasize the need for accurate knowledge of business institutions and economic phenomena, for theories capable of explaining these phenomena, for estimating relationships among economic variables, and for testing explanations. This analysis then forms the foundation for policy applications and recommendations on a wide range of issues.

Students learn to analyze economic data to identify and address problems that arise in a changing national and global economy, while studying the broader historical and social context in which economic relationships occur and economic policies are applied. In addition to economic theory and quantitative methods, courses cover a range of topics such as international trade, urban economics, economic history, the role of the government in the economy, money and banking, economic development, labor markets, poverty, environmental economics, and gender. The department prepares students for careers in business, financial institutions, government and public service, graduate work in economics, law and in other areas such as business administration.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in economics. The number and distribution of courses in each of the areas are as follows:

    Core: 28 quarter hours required

    First Year Program: (16 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, and Composition and Rhetoric I and II.

    Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

    Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the
modern language option for this requirement.

**Senior Capstone:** (4 quarter hours required) Economics requires students majoring in Economics to complete the senior capstone in Economics, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

**Learning Domains:** 52 quarter hours required

**Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.

**Philosophical Inquiry:** 8 quarter hours required.

**Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

**Scientific Inquiry:** 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.

**Self, Society and the Modern World:** 4 quarter hours required.

**Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in economics contributes to a student's liberal education, courses offered by the department of economics are not applied towards liberal studies requirements for the economics major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

**DEPARTMENTAL PROGRAM REQUIREMENTS**

**Economics:** 105 Principles of Microeconomics; 106 Principles of Macroeconomics; 342 Statistics for Economics or its equivalent; 305 Intermediate Microeconomics; 306 Intermediate Macroeconomics; and six additional Economics courses.

**Social and Behavioral Sciences:** The student will take a minimum of seven courses in Geography, Political Science, Psychology, and Sociology. The specific courses will be worked out by the student and his or her counselor in the Department of Economics. The counselor must approve the program.

**Mathematics:** 130 College Algebra and Precalculus; 131 Trigonometry and Precalculus and 150 Calculus I. (125 Business Calculus I, and 126 Calculus II may be substituted for Math. 130, 131, and 150.)

**CAREER ORIENTATIONS**

The student may be interested in taking the following Economics courses to prepare for a particular career:

**Professional Economist:** For the prospective student who wants to pursue a graduate degree in economics, the following courses are strongly recommended: Economics 361 International Trade; 375 Introduction to Econometrics; 380 Mathematical Economics and Mathematics 151 Calculus II; 152 Calculus III; 220 Linear Algebra with Applications I.

**Law:** 313 Social Control of Business; 315 Introduction to Money and Banking; 318 Labor Economics and Organization; 335 Energy and Environment Economics; 375 Introduction to Econometrics.

**International:** 316 European Economic History; 333 Topics in Global Economics; 359 The Theory of Economic Development; 360 Economics of Underdeveloped Countries; 361 International Trade; 362 International Monetary Economics; 375 Introduction to Econometrics; 380 Mathematical Economics.

**Urban:** 318 Labor Economics and Organization; 310 Urban Economics; 335 Energy and Environmental Economics; 375 Introduction to Econometrics; 395 Seminar in Selected Economic topics.

**Business Economics:** 313 Social Control of Business; 317 American Economic History; 318 Labor Economics and Organization; 333 Topics in Global Economics; 335 Energy and Environmental Economics; 375 Introduction to Econometrics.

**Quantitative Economics:** 375 Introduction to Econometrics; 380 Mathematical Economics.
Labor: 318 Labor Economics and Organization; 310 Economics of the Urban Environment; 317 American Economic History; 319 Economics and Gender; 375 Introduction to Econometrics.

Government: 310 Urban Economics; 317 American Economic History; 333 Topics in Global Economics; 335 Energy and Environmental Economics; 375 Introduction to Econometrics

SPECIAL PROGRAMS

ECONOMICS MINOR

The student must take Economics 105 and 106 and additional courses to bring the total credits in Economics to a minimum of 24 credit hours (6 courses). Courses taken to complete the minor in Economics must be selected in consultation with an appropriate departmental advisor.

COURSES

Please visit Campus Connection at https://campusconnect.depaul.edu for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
For students whose primary interests are in literature and language, the Department of English offers a major based on a broad familiarity with literature in English, a firm grasp of historical and critical principles, and skill in using the written word. The department also offers a wide range of courses in literature and in writing to students majoring in other disciplines.

The educational goals of the program in English are central to the ideals of a liberal education: to understand works of literature in their historical and cultural contexts, and to examine the values expressed in literature as a means of expanding insight, compassion, and an awareness of the human condition across the divisions of culture, race, gender, and class; to develop powers of textual analysis and a precise critical vocabulary; to acquire a familiarity with research methods and a written style that is clear, accurate and graceful; to examine the structure of language; and to place the study of literature in relation to other fields of learning.

To achieve these goals, the department offers courses in the English language, in the genres, historical periods, and major authors of British and American literature, and in expository, professional, and creative writing. In cooperation with the School of Education, the department also offers a program to prepare students interested in teaching English at the secondary level. Finally, the department offers minors in literature, in creative writing, and in professional writing for students majoring in other disciplines.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through 6 learning domains as part of their Bachelor of Arts degree in English. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required

First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete. Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

Senior Capstone: (4 quarter hours required) English requires students majoring in English to complete the senior capstone in English, unless you are a double major and/or in the Honors Program (in which cases you should consult with your advisor).

Learning Domains: 52 quarter hours required

Arts and Literature: 4 quarter hours required.

Philosophical Inquiry: 8 quarter hours required.

Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.

Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from the same department or program.

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Students majoring in English may not apply courses offered by the Department of English to liberal studies requirements. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.
DEPARTMENTAL PROGRAM REQUIREMENTS

I. STANDARD ENGLISH CONCENTRATION

Fifty-six quarter hours distributed as follows:

Core Courses: 220 Reading Poetry and 270 Literary Research and Writing. **Successful completion of English 220 and English 270 constitutes Advanced Standing in English.**

Studies in American Literature (Advanced Standing in English required): **Two** courses chosen from 360 Early American Literature, 361 Romanticism in American Literature, 362 Realism and Naturalism in American Literature.

Electives: One 200- or 300-level elective in English and four 300-level electives in English. English majors also complete the liberal studies senior capstone course in English.

Allied Fields: **Six** additional courses, approved by the student's department advisor and appropriate to his or her career or educational goals.

II. TEACHER OF ENGLISH: SECONDARY LEVEL

In cooperation with the School of Education, the English Department offers a concentration that satisfies the requirements for certification for teaching English at the junior high and secondary school levels. The student electing this program should consult with the School of Education immediately upon entering DePaul.

Core courses: 220 Reading Poetry and 270 Literary Research and Writing. **Successful completion of English 220 and English 270 constitutes Advanced Standing in English.**

Studies in Language: **One** course chosen from 370 History of the English Language, 203 Grammar and Style for Writers, CMN 202 Introduction to Linguistics, CMN 302 Grammar and Usage.

Studies in American Literature (Advanced Standing in English required): 361 Romanticism in American Literature and **two** additional 300-level courses in American literature.

Teaching Methods: 391 Teaching English.

Electives: **Three** 300-level electives in English. With the approval of his or her departmental advisor, a student may substitute one ENG or CMN course in writing, speech, or journalism for one of these electives.

Allied Fields: Students should consult their advisors in the School of Education to select courses in Education towards certification for teaching.

SPECIAL PROGRAMS OR REQUIREMENTS

**INTERNSHIPS**

A limited number of internships are available to qualified students who wish to acquire significant on-the-job experience in researching, writing, and editing.

**MINOR IN LITERATURE**

**Six** courses: 220 Reading Poetry and **five** 300-level courses in literature. (No more than two from 360, 361, 362, 364, 365, 367, 369, 371, 372, 373, 374.) **Note:** Advanced Standing in English is required for some courses.
MINOR IN CREATIVE WRITING

Six courses: CMN 345; three courses chosen from 291, 292, 307, 308; one course chosen from 300, 376; and one course chosen from 350, 359, 365, 366, 375.

MINOR IN PROFESSIONAL WRITING

Six courses: 206, 301; and four courses chosen from 203, 204, 208, 300, 306, 309, 370, 376, 395.

COMBINED DEGREE PROGRAM IN ENGLISH

The English Department offers a special option to majors with a potential for graduate work: a five-year program in which the student receives the B.A. after four years and the M.A. in English after a fifth year of course work. Students in this program begin taking graduate courses in their senior year. Majors interested in this program must apply during their junior year.

SEQUENCING

All English majors should plan to take English 220 and English 270 early in their college programs. Both courses are prerequisite to British-literature surveys (310, 320, 330, 340, 350) Shakespeare (328), and American-literature surveys (360, 361, 362); ideally, students should take these surveys in chronological order. Either English 120 or a 200-level course in literature (or equivalent) is prerequisite to all other 300-level courses in English. The allied fields requirements may be begun at any time; the modern language requirement should be completed by the end of the sophomore year.

COURSE LISTING BY CATEGORY

ENG 101 Basic Writing I
ENG 102 Basic Writing II
ENG 103 Composition and Rhetoric I
ENG 104 Composition and Rhetoric II
ENG 201 Creative Writing
ENG 202 Professional Writing For Business
ENG 203 Grammar and Style For Writers
ENG 204 Technical Writing
ENG 206 Introduction to Professional Writing
ENG 208 Introduction to Reasoned Discourse
ENG 270 Literary Research and Writing
ENG 291 Intermediate Fiction Writing
ENG 292 Intermediate Poetry Writing
ENG 300 Composition and Style
ENG 301 Writing in the Professions
ENG 306 Rhetoric
ENG 307 Advanced Fiction Writing
ENG 308 Advanced Poetry Writing
ENG 309 Topics in Writing
ENG 370 History of the English Language
ENG 376 Stylistics
ENG 377 Writing and Social Engagement

Literature

ENG 120 Reading Literature
ENG 220 Reading Poetry
ENG 222 Introduction to American Culture
ENG 228 Introducing Shakespeare
ENG 245 The British Novel
ENG 265 The American Novel
ENG 272 Literature and Identity
ENG 275 Literature and Film
ENG 280  World Literature to 1500
ENG 281  World Literature Since 1500
ENG 284  The Bible As Literature
ENG 286  Popular Literature
ENG 288  Autobiography and Biography
ENG 303  Semiotics
ENG 310  English Literature to 1500
ENG 311  Chaucer
ENG 319  Topics in Medieval Literature
ENG 320  English Renaissance Literature
ENG 324  Shakespeare and Music
ENG 327  Milton
ENG 328  Shakespeare
ENG 329  Topics in Renaissance Literature
ENG 330  Restoration and 18th Century Literature
ENG 339  Topics in Restoration and 18th Century English Literature
ENG 340  Nineteenth Century English Literature
ENG 349  Topics in Nineteenth Century English Literature
ENG 350  Modern British Literature
ENG 357  Topics in Irish Studies
ENG 359  Topics in Modern British Literature
ENG 360  Early American Literature
ENG 361  Romanticism in American Literature
ENG 362  Realism and Naturalism in American Literature
ENG 364  American Genre Studies
ENG 365  Modern American Fiction
ENG 366  Modern Poetry
ENG 367  Topics in American Studies
ENG 369  Topics in American Literature ENG 370 African-American Fiction
ENG 372  African-American Poetry and Drama
ENG 373  Multiethnic Literature of the U.S.
ENG 374  American- Indian Literature
ENG 375  Studies in Short Fiction
ENG 376  Literature and Social Engagement
ENG 379  Topics in Literature
ENG 380  Masterpieces of World Literature
ENG 382  Major Authors
ENG 383  Women and Literature
ENG 385  Mythology and the Dramatic Arts
ENG 386  Popular Literature
ENG 389  Topics in Comparative Literature
ENG 390  Senior Seminar in Literature
ENG 391  Teaching English
ENG 392  Internship
ENG 395  Writing Center theory and Pedagogy
ENG 397  Newberry Library Seminar
ENG 398  Literary and Cultural Heritage
ENG 399  Independent Study

The Bachelor of Science program in Environmental Science is a broad, science-based curriculum designed to prepare students for a variety of environmentally-related technical careers, as well as for graduate programs in allied fields. The mission of the program includes: broadening the scientific literacy of Environmental Science majors and increasing their understanding of the scientific context of environmental problems and solutions to enable them to become informed participants and leaders in the current and future debates on the state of the environment. The program also seeks to provide a supportive environment, which stimulates analytical thinking and encourages a broad perspective in learning for our majors and those taking our courses, challenging them to get the maximum benefit from their talents and skills.

The Program requires 192 credit hours and draws upon the faculty and resources of the Program and several other departments. Majors take a core of Biology, Chemistry, Environmental Science, Mathematics, Physics and other courses, four courses in an Area of Emphasis, two electives related to Environmental Science, and three University-wide electives. The Area of Emphasis enables the student to take a concentration in the area of environmental science most interesting to them, most suited to their talents, and most appropriate for their career goals.

FACULTY PROGRAM COMMITTEE

THOMAS J. MURPHY, PH.D.,
Professor and Director (Chemistry)
Iowa State University

NANCY J. CLUM, PH. D.,

University College Dublin

ULRICH KAMP, Jr., PH. D.
Assistant Professor (Geography and Environmental Science)
Technical University of Berlin, Germany

JAMES A. MONTGOMERY, PH.D.,
Associate Professor (Environmental Science)
Washington State University

KENSHU SHIMADA, PH. D.
Assistant Professor (Environmental Science and Biology)
University of Illinois at Chicago

JOHN V. DEAN, PH.D.,
Associate Professor (Biology)
University of Illinois
LIBERAL STUDIES PROGRAM

In addition to the 28 quarter hours required in the liberal studies core, students are required to complete 48 quarter hours distributed through five learning domains as part of their Bachelor of Science degree in environmental science. The number and distribution of courses in each of the areas are as follows:

Core: 28 quarter hours required

First Year Program: (16 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, and Composition and Rhetoric I and II.

Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

Senior Capstone: (4 quarter hours required) Environmental Sciences requires that all students majoring in Environmental Sciences complete the senior capstone in Environmental Sciences. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

Learning Domains: 48 quarter hours required

Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.

Philosophical Inquiry: 8 quarter hours required.

Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: not required.

Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from the same department or program.

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Courses offered by the Environmental Sciences Program are not applied towards liberal studies requirements for the Environmental Science major. Exceptions to this rule can be the junior experiential learning and the senior capstone requirements.
DEPARTMENTAL PROGRAM REQUIREMENTS

CORE
Students must take the following 23 courses (81 quarter hours):
Biology: Biology 101, 102 and 103 General Biology I, II and III; and 215 Ecology.
Chemistry: Chemistry 111, 113 and 115 General and Analytical Chemistry I, II and III;
171, 173 and 175 Organic Chemistry I, II and III.
Environmental Sciences: 216 Earth System Science; 217 Human Impacts on the
Environment; 260 Environmental Data Analysis; 294 Second Year Seminar; 360 Research
Methods; 362 Senior Thesis; and 394 Environmental Seminar.
Mathematics: 150, 151 and 152 Calculus I, II and III.
Physics: 150, 151 and 152 General Physics I, II and III.

ADDITIONAL COURSES
Students must take two courses from the following, but not courses from the student’s
chosen area of emphasis:
Biology 365 Toxicology; Economics 105 Principles of Microeconomics; Public Policy
Studies 202 Public Policy and Environmental Issues; Chemistry 240 Introduction to
Biochemistry; Geography 242 Geographic Information Systems; English 204 Technical Writing

AREAS OF EMPHASIS
Students must take four courses from one of the following Areas of Emphasis.
Biology: 210 Microbiology; 250 Cell Biology; 260 Genetics; 309 Plant Physiology; 317*
Aquatic Biology; 365 Toxicology; Environment Science 320* Conservation Biology.
Chemistry: 127 or 147 Quantitative Analysis; 210 Physical Chemistry I; 240 Introduction
to Biochemistry; 261 Instrumental Analysis; 265 Air Chemistry; 267 Water Chemistry; 269 Solid
Waste Chemistry.
Earth Science: Physics 201 The Atmosphere and the Oceans, or Geography 225 Weather and Climate;
Environmental Science 115 Environmental Geology or 220 Soil Science; Environmental Science 224
Environment of the Chicago River; 330 Field Methods; Geography 242 Geographic Information
Systems; or 243 Remote Sensing.
Ecology and Conservation Biology: Environmental Science 250 Applied Ecology; 270
Tropical Biology and Conservation; Biology 317* Aquatic Biology; Environmental Science 320
Conservation Biology*; 330 Field Methods.
Geography: Geography 210 Environmental Conservation; 225 Weather & Climate; 241
Computer Cartography; 242 Geographic Information Systems; 243 Remote Sensing;
Environmental Science 200 Cities and the Environment; 230 Climate Change and the
Environment.
Public Policy: Public Policy 201 Public Policy and Urban Issues; 202 Public Policy and
Environmental Issues; 320 Public Policy in Production and Use of Energy and Pollution Control;
324 Public Policy and Natural Resources.
Urban Forestry: Environmental Science 250 Applied Ecology; 320 Conservation Biology;
322* Ecosystem Ecology; 330 Field Methods; 340* Issues in Urban Forestry; 342 Natural History
of Forests; Biology 309 Plant Physiology.

SENIOR THESIS
Students need to write a thesis as part of their degree requirements in Environmental
Science.

ENVIRONMENTAL SCIENCE MINOR
To qualify for an environmental science minor, the student will need to take five
environmental science courses. This should include the ENV 102 course, one of the 300-level
courses, and three other ENV classes chosen from among the following: ENV 115, 116, 200, 202, 220, 224, 250, 270, 322, 340, 342 and 350. In addition to the ENV 102, the chosen classes should include at least one with a laboratory.

**COURSE LISTING BY CATEGORY**

### General
- **ENV 102** Introduction to Environmental Science
- **ENV 115** Environmental Geology (with Lab)
- **ENV 116** Geology of the Environment
- **ENV 200** Cities and the Environment
- **ENV 202** Resources, Population and the Environment
- **ENV 224** Environment of the Chicago River
- **ENV 250** Applied Ecology
- **ENV 270** Tropical Biology and Conservation

### Majors
- **ENV 216** Earth System Science
- **ENV 217** Human Impacts on the Environment
- **ENV 220** Environmental Soil Science
- **ENV 230** Climate and the Environment
- **ENV 260** Environmental Data Analysis
- **ENV 262** Environmental Modeling
- **ENV 294** Environmental Seminar

### Advanced
- **ENV 320** Conservation Biology
- **ENV 322** Ecosystem Ecology
- **ENV 330** Field Methods
- **ENV 334** Ecosystem Methods and Research
- **ENV 340** Urban Forestry
- **ENV 342** Natural History of Forests
- **ENV 350** Environmental Impact Analysis
- **ENV 360** Research Methods
- **ENV 362** Senior Thesis
- **ENV 390** Special Topics in Environmental Science
- **ENV 394** Environmental Seminar
- **ENV 395** Internship
- **ENV 397** Research
- **ENV 398** Travel/Study Abroad
- **ENV 399** Independant Study

**COURSES**

Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
Geography’s unique spatial perspective encompasses both the social disciplines and earth sciences. It addresses both “human” and “physical” domains of knowledge as well as the interactions between them. Geographers apply methods such as observation, visualization, analysis, and modeling to explain the spatial organization of human and physical environments. Geographical perspectives foster graphica, the visual-spatial component of human intelligence, as well as literacy, numeracy, and articulacy. The Department of Geography prepares students to reason spatially by applying geographic techniques and information technologies. In so doing it helps students produce sophisticated understandings of the world, its people, and cultures.

Geographers analyze the physical environment, society-environment interactions, the spatial organization of industries, cities, and economies at global, regional and local scales, and the centrality of place, space, and landscape in cultural production. DePaul's Geography Department offers courses and programs which prepare students for careers in such varied fields as domestic and international development, environmental monitoring and management, intelligence and diplomacy, the geodemographic, marketing, and real estate industries, urban and regional planning, geographic education, and the information technology sector involved in the design and production of maps and spatial databases. The Department offers a BA program with three concentrations, two minors, and a certificate program in Cartography and Geographic Information Systems. More information on Geography and our programs at DePaul can be found at the department website: [http://gis.depaul.edu](http://gis.depaul.edu)

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through 6 learning domains as part of their Bachelor of Arts degree in geography. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required

First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

Senior Capstone: (4 quarter hours required) Geography requires that all students majoring in Geography complete the senior capstone in Geography. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

Learning Domains: 52 quarter hours required

Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.

Philosophical Inquiry: 8 quarter hours required.

Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: 12 quarter hours required; 4 quarter hours with lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.

Self, Society and the Modern World: 4 quarter hours required.

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe, and 5) intercontinental or comparative.

Although study in geography contributes to a student’s liberal education, courses offered by the department of geography are not applied towards liberal studies requirements for the geography major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL PROGRAM REQUIREMENTS

FOUNDATION

Geography: 101 or 102 Earth’s Physical Landscape; 110 Earth’s Cultural Landscape
I. STANDARD GEOGRAPHY PROGRAM

Geography Foundation plus Thematic Surveys (4 courses with consent of advisor):
Geography:
133 Urban Geography; 266 The World Economy; 255 Critical Tourism; 201 Geopolitics; 210 Environmental Conservation; 240 Maps!; 310 Land-Use Ethics; 225 Weather and Climate; 233 Comparative Urbanism; 333 Urban Planning and Problems; 376 Population Geography.

Methods and Techniques: (3 courses with consent of advisor): Geography: 241 Computer Cartography; 242 GIS; 243 Remote Sensing or 391 Research Techniques, or equivalent (e.g. Soc. 379: Research Methods in Sociology I).

Regional Geographic Surveys: (any 2 courses listed as Regional Analyses).
Supporting Fields: Five courses selected from course offerings in Anthropology, Economics, Environmental Sciences, History, International Studies, Political Science, Public Policy Studies, Sociology, and any other discipline or program selected in consultation with the student’s advisor.

II. THE METROPOLITAN DEVELOPMENT AND LAND-USE CONCENTRATION

Geography Foundation plus Thematic Surveys (3 courses): Geography: 133 Urban Geography; 233 Comparative Urbanism; 333 Urban Planning and Problems.

Methods and Techniques (4 courses): Geography: 241 Computer Cartography; 242 GIS; 243 Remote Sensing; 391 Research Techniques, or equivalent e.g. Soc. 379: Research Methods in Sociology I.

Additional Systematic Surveys (2 courses): Geography: 266 The World Economy (required); 376 Population Geography, 321 Chicago: Spatial Anatomy of a Metropolis or any course listed under Regional Analyses.

Supporting Fields: Econ. 105 Principles of Microeconomics; Econ. 106 Principles of Macroeconomics; plus three urban-related courses selected from course offerings in Art, Anthropology, Environmental Science, History, Political Science, Public Policy Studies, and Sociology.

III. CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS CONCENTRATION

Geography Foundation plus Thematic Core (5 courses): Geography: 241 Computer Cartography; 242 GIS; 243 Remote Sensing; or 376 Population Geography; 391 Research Techniques, or equivalent e.g. Soc. 379: Research Methods in Sociology I.

Systematic Surveys (2 courses): Geography: 266 The World Economy (required); 133 Urban Geography; 120 Justic, Inequity, and the Urban Environment; 233 Comparative Urbanism; 333 City Planning and Problems, or 310 Land-Use Ethics; or any course in consultation with the student’s advisor.

Additional Geography Courses (2 courses): Geography: any two courses.

Supporting Fields: Econ. 105 Principles of Microeconomics; Econ. 106 Principles of Macroeconomics; plus three courses selected from course offerings in Art, Anthropology Environmental Sciences, History, International Studies, Political Science, Public Policy Studies, Sociology, and any other discipline or program selected in consultation with the student’s advisor.

CAPSTONE

Geography (one course): 395 Seminar on Special Topics; 399 Independent Study; an internship; domestic or foreign field study (Foreign Study Program). Consent of advisor and Chair required. In all cases, an appropriately complex and integrative final exercise (i.e. senior thesis analytical journal, field project) will need to be presented by the student to the University community).
SPECIAL PROGRAMS

GEOGRAPHY MINOR

Two minors requiring a minimum of 24 hours of course work are currently offered through the department: Generalist Geography, and Urban Geography and Planning. All minors need to register their status with the Department and be assigned a faculty advisor.

I. GENERALIST GEOGRAPHY

Three Foundation courses are required: Geography: 100 Nature of Geography; 101 Earth’s Physical Landscape; and 110 Earth’s Cultural Landscape. Additionally, two courses selected from the 100 or 200 level, and two courses from the 300 level are required. The latter four are to be selected with the approval of the student’s geography faculty advisor.

II. URBAN GEOGRAPHY AND PLANNING

Two Foundation courses are required: Geography: 100 Nature of Geography; 110 Earth’s Cultural Landscape. Additionally, minors should take Geography: 133 Urban Geography; 233 Comparative Urbanism; 333 Urban Planning and Problems; and either 241 Computer Cartography, or 242 GIS.

CERTIFICATE PROGRAM IN CARTOGRAPHY/GEOGRAPHIC INFORMATION SYSTEMS

The Certificate Program requires 20 hours of instruction. It provides sophisticated education in cartography/GIS and proper training for employment in related industries and consulting. Certificate candidates should take Geography: 241 Computer Cartography, 242 GIS, 243 Remote Sensing. Additionally, they should take 391 Research Techniques, or equivalent e.g. Soc. 379: Research Methods in Sociology I. The final course will be selected in consultation with the student’s advisor. This course, taken at the completion of the program, will provide an opportunity for the student to demonstrate their mastery of the techniques and technologies taught in the three core courses (241, 242, and 243) in an independent setting.

COURSE LISTING BY CATEGORY

Foundation
GEO 100 The Nature of Geography

A history major gives students a broad base of knowledge and skills applicable in a variety of careers. While secondary education and law continue to absorb a significant number of history graduates, businesses, government agencies, and not-for-profit organizations find that history majors have the critical thinking and communications skills desirable in these fields as well.

The history program at DePaul combines a global perspective with the opportunity to develop a regional focus. Instruction emphasizes the humanities as well as the social sciences dimension of the field. Two-hundred-level courses survey Asian, African, European, Latin American, United States and Intercontinental/Comparative History, while teaching students how to evaluate primary sources. Three-hundred-level courses concentrate on historical debates within specific fields. All courses stress development of research, writing and oral communications skills. Allied field requirements are to be determined in consultation with the major advisor; these add to the flexibility of the program, allowing students to pursue their own interests.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM
In addition to the 32 quarter hours required in the Liberal Studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in history. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required
First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.
Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a Liberal Studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
Senior Capstone: (4 quarter hours required) History requires that all students majoring in History complete the Coordinating Seminar in History. This course should be taken during the senior year. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

Learning Domains: 52 quarter hours required
Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.
Philosophical Inquiry: 8 quarter hours required.
Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.
Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from the same department or program.
Understanding the Past: not required.

Although study in history contributes to a student’s liberal education, courses offered by the History Department are not applied towards Liberal Studies requirements for the history major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL PROGRAM REQUIREMENTS
200 level courses will count toward the fulfillment of the major and toward Understanding the Past Liberal Studies requirements. The courses at this level will emphasize critical reading skills, global perspectives, and essay writing. The work load at this level will entail an average of between 50 to 100 pages of reading per week.

300 level courses will have as a prerequisite completion of History 199 - Historical Concepts and Methods (or the consent of the instructor). The courses at this level will promote the ability to engage in historical research, demonstrate the understanding of historiographic interpretation and argument, and develop the skill to present historical information orally. Written expectations will involve a historiographical essay or major research paper as part of the expected outcome of the student experience in these courses. Reading for these courses will entail an average of 100 to 200 pages per week.

I. STANDARD CONCENTRATION:

Common core: two courses
History 199: Historical Concepts and Methods.
History 397: Coordinating Seminar (Liberal Studies capstone course for history). This course should be taken during the senior year.
200 Level Courses: *six* courses. One from each of the following categories: United States; Europe; Latin America; Africa; Asia; Intercontinental/Comparative.

300 Level Courses: *four* courses. Majors are required to take these courses from at least two distinct geographic areas.

History Electives: *four* additional courses at either the 200 or 300 level.

History majors will work with their faculty advisor to select courses which will enhance their historical knowledge. *Six* of these courses must have the faculty adviser's approval.

II. PRELAW CONCENTRATION

History: 199 Historical Concepts and Methods (should be taken before junior year); 220 World History III; 292 History of England to 1688; 385 United States Constitutional History to 1865; 386 United States Constitutional History Since 1865; 388 The Court and the Bill of Rights; 395 Nuremberg to Iraq: Sources and Evidence; 397 Coordinating Seminar (which should be taken during the senior year); *three* 200 level courses, one from each of the following areas: Latin America, Asia, Africa; *three* 300 level courses from at least two distinct geographical areas; and *two* history electives at the 200 or 300 level.

Supporting Fields: *Two* courses from the following: English 208 Introduction to Reasoned Discourse, English 300 Composition and Style, English 306 Rhetoric; *one* course from the following: Philosophy 301 Basic Logic, Philosophy 304 Symbolic Logic, Philosophy 303 Critical Thinking; *one* course from the following: Political Science 260 Law and the Political System or Political Science 362 The Criminal Justice System. In addition, *twelve* courses are to be chosen in consultation with the student’s departmental advisor in fields other than history.

III. TEACHER OF HISTORY: SECONDARY LEVEL

In cooperation with the School of Education, the History Department offers a concentration of study which combines the requirements for a major in History with certification for teaching history at the junior high, middle, and senior high school levels. A student electing such a program should consult the School of Education counselor as soon as possible after entering DePaul.

The History course requirements for the Secondary Education History major are:

*Two* core courses: 199 Historical Concepts and Methods (should be taken before senior year), and 397 Coordinating Seminar (should be taken in the senior year).

*Eight* courses, distributed as follows: *four* in United States History, *one* in Intercontinental/Comparative History, and *three* Non-U.S., World History (African, Asian, European, or Latin American History). At least *three* of these courses must be taken at the 300 level.

*Three* additional History courses.

SPECIAL PROGRAMS

HISTORY MINOR

*Six* history courses, distributed as follows: 199 Historical Concepts and Methods; *three* 200 level courses chosen from three distinct areas; *two* 300 level courses.

The College of Liberal Arts and Sciences Honors Program offers a challenging alternative to the Liberal Studies Program for well-prepared, serious students majoring in any discipline within the College. Like the Liberal Studies Program, the Honors Program seeks to widen students’ perspectives beyond their academic majors and foster critical thinking, self-reflection, and an examination of values. In addition, the Honors Program works to foster active, participatory learning; promote interdisciplinary and cross-cultural studies; encourage students to develop facility in a second language beyond the minimum LAS requirements; develop the skills necessary for pursuing independent research; help students see themselves as members of larger communities in which they can be leaders; and assist interested students in thinking about and preparing for post-graduate education. The Honors program curriculum provides students opportunities to develop proficiency in the University’s Ten Learning Goals through a series of courses specifically designed for Honors Students.

In order to meet these goals, the program offers small classes organized in a seminar format and taught by faculty committed to realizing the program’s goals; emphasizes cross-cultural and interdisciplinary perspectives in all core courses; advances students’ skills in writing and research, reading and analysis through carefully structured exercises; requires experiential learning and intensive language training; encourages self-directed learning through third year courses which require extensive research, and the fourth-year seminar or thesis; offers lecture and film series, study abroad programs, field trips, and opportunities for public service; and provides information and counseling regarding admission to graduate schools and applications for fellowships.

Students are invited to join the Honors Program at the beginning of their first year at DePaul. Invitations are issued on the basis of a student’s written application, high school record, entrance examination scores, and personal interview. In some cases, DePaul students and transfer students may be considered for the Honors Program through the first quarter of their sophomore year. To graduate from the Honors Program, students must have attained a 3.2 cumulative grade point average by the last quarter of their senior year.

REQUIREMENTS

Like the Liberal Studies Program, the Honors Program consists of twenty courses representing 80 quarter hours. These include an eleven course core, a three-course science sequence, a three-course modern language sequence beyond the College requirement, a Junior seminar, two approved Junior-level courses, one open 300-level elective and a Senior Thesis or Senior Seminar. In general, AP and IB credit will count as general elective credit for Honors Students. Please see the Honors Website for further information.

The Honors Program core consists of the following courses: HON 101, 102, 103, 104, 105, 201, 202, 203, 204, 350 or 351.

HON 101: World Literature
HON 102: Individual and Community in the Pre-Modern World should be followed immediately by
HON 103: Tradition and Modernity Since 1500.
HON 104: Religious Worlds and Worldviews
HON 105: Philosophical Inquiry
HON 202: Art, Artist and Audience I should be followed immediately by HON 203: Art, Artist and Audience II.

Science: Honors students majoring in areas other than Biological Sciences, Chemistry, Physics or Environmental Science must take at least one lab course, and one quantitative course as part of this three-course science requirement. In addition, honors students who do not place into calculus or who will not take calculus as part of their program, must complete Quantitative Reasoning (Interdisciplinary Studies 120) before completing the science requirements. Mathematics majors may not take one of the Mathematics sequences to satisfy this requirement.

Honors students majoring in Biological Sciences, Chemistry, Physics or Environmental Sciences satisfy the science requirement by taking Interdisciplinary Sciences 220, 221, 222.

Modern Language: Students must complete one year of modern-language study in addition to the College of Liberal Arts and Sciences requirement. Placement will be based on
placement test results or Modern Language Department consultation. Students who have taken two years of a language in high school but do not place out of the beginning level of the language may not count the beginning level of that same language at DePaul towards the Honors Program requirement. Students may, instead, begin a new language at DePaul, which will count towards the Honors Program requirement. Honors students majoring in a modern language must complete a year of study in a second language.

Junior Approved Courses: BA Students select two courses outside their majors from an approved list of offerings to fulfill this requirement.

Junior Seminars and Electives: Students take one HON 300: Junior Seminar. Students also have one free elective, which may be satisfied by taking any 300-level course in the College, preferable outside their majors. (Discover Chicago counts as this elective.)

Junior Year Requirements: BS Candidates are required to take one Honors 300 Junior seminar as described above, one Junior Approved Course, and one 300 –level elective (or Discover Chicago).” Science majors who have taken Discover Chicago take one 300-level seminar.

Senior Year: Students may choose one Senior Seminar to complete the Honors Program: Honors 350: Lifelong Learning, or Honors 351: Altruism and Activism. They may, instead, choose to write a Senior Thesis. Students who choose to do a thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must first contact the Director or Assistant Director for pre-approval, complete an application, including a project proposal, signed by two advisors from different disciplines. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside boundaries normally associated with one particular discipline. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Assistant Director for an application.

Study Abroad: The Study Abroad Program of the College of Liberal Arts and Sciences offers many programs for either one or two quarters. Such an experience is particularly appropriate for students in the Honors Program and, though not required, is strongly recommended. Honors students interested in Study Abroad should plan this for their junior year and should make certain that they have fulfilled appropriate modern language requirements before that point in their undergraduate careers. They should meet with the Director or Assistant Director prior to their departure to approve course requirements.

MODEL CURRICULA

Whenever possible, we strongly encourage students to take as many of their 100-level Honors Program courses during their first year. These students should follow Model Honors Program Curriculum I. However, students whose schedules permit only one Honors Course at a time may delay some of their courses until their second year. These students should follow Model Honors Program Curriculum II. Keep in mind that these model curricula are offered as guides, not as strict instructions.

Most courses are offered during two quarters; moreover, some students may decide to postpone their science courses to the junior year or their Junior seminar until their senior year. If you have questions, see the program Director. Finally, note that these models reflect only Honors Program requirements. Additional courses are designated by “X”. For help in planning the rest of their programs, students should consult their major field advisors.

Interdisciplinary studies courses address concepts and employ methods from several disciplines. The courses 101, 102, 103, 120 and 200 are part of the core of the Liberal Studies program; they introduce students to active learning, university-level inquiry, quantitative reasoning, student-success skills, Chicago as a site of learning, and multiculturalism in the context of the United States. Other courses on this list earn general education credit in various categories. Check Campus Connect for information on specific courses.

**COURSES**
Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
sing an interdisciplinary framework, the International Studies Program explores the interactions among peoples and nations that are separated by cultural and geopolitical boundaries. This field draws on the insights and finding of the social sciences (political science, economics, sociology, geography and anthropology) as well as history, literature and the arts. Students in this area master information about the origins and development of different peoples and nations, the patterns of conflict and cooperation that have shaped the relationships between nations, and issues and problems that affect the future global order. This program is designed to equip students with perspectives and skills to successfully meet challenges of any international career, including law, diplomacy, business, communication, education, public service, and research. The International Studies Program offers students the opportunity to work with their advisors to create individualized areas of concentrated study within the major.

MEREDITH WEISS, Ph.D.,
Assistant Professor and Director of Graduate Studies (International Studies)
Yale University

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in international studies. The number and distribution of courses in each of the areas are as follows:

   **Core:** 32 quarter hours required

   **First Year Program:** (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

   **Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

   **Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

   **Senior Capstone:** (4 quarter hours required) International Studies requires that all students majoring in International Studies complete the senior capstone in International Studies. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

   **Learning Domains:** 52 quarter hours required

   **Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.

   **Philosophical Inquiry:** 8 quarter hours required.

   **Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

   **Scientific Inquiry:** 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry
elective.

**Self, Society and the Modern World:** 8 quarter hours required. Students must register for ECO 105 Microeconomics and PSC 150 Political Systems of the World.

**Understanding the Past:** 4 quarter hours required; course must focus the time period before 1800 from a category outside the student’s area of specialization.

Courses offered by the department of international studies are not applied towards liberal studies requirements for the international studies major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements. The program offers students an experiential learning course, INT 389 International Social Engagement, to all students. This course can be used in the Liberal Studies Program or the major, but not both. The senior seminar, INT 301, is the liberal studies capstone for international studies majors. It is required as part of the major field requirements. All students completing the international studies major must complete the capstone offered by the International Studies Program. Majors in the Honors Program must complete INT 301 and the honors senior capstone. Double-majors must complete INT 301 and the capstone in their second major, if that major requires them to do so. Double majors who are also in the Honor Program must complete INT 301, the honors senior capstone, and the capstone in their second major, if that major requires them to do so.

In addition, the language sequence requirement (see below) of the international studies major may substitute for two domain courses and one open elective. The option reduces the requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; Arts and Literature or Scientific Inquiry (cannot substitute for the lab science requirement). International studies majors have an additional elective in the liberal studies program in place of the senior capstone. It is recommended that students use this line for the third term of their language requirement for the major.

**PROGRAM REQUIREMENTS**

In the first year at DePaul, students are encouraged to take a year of a language and as many liberal studies courses as possible. In their second year, students take INT 201 Emergence of the Modern Nation State, 202 International Conflict and Cooperation, and 203 International Movements of the 20th and 21st Centuries, as a sequence, in addition to language and liberal studies courses. Honors students should complete all two course sequences by the end of the second year. In the third year, they take INT 204 International Political Economy, 205 Cultural Analysis, and 206 Boundaries and Identities. During the last year at DePaul, students take INT 301 Senior Seminar.

Students take courses in the following allied fields, preferably before the end of their second year. These courses can be taken to fulfill Liberal Studies learning domains within the limits established by the College of Liberal Arts and Sciences.

**Economics:** 105 Microeconomics and 106 Macroeconomics. The program recommends that students whose math assessment indicates that they should take MAT 101 and MAT 130 before taking science courses should also put off taking economics courses until those math courses are completed.

**Political Science:** PSC 150 Political Systems of the World or HON 201 State, Markets and Societies.

**FOREIGN LANGUAGE REQUIREMENT**

The minimum requirement is course work through the intermediate (106) level in a language of the student’s choice. However, international studies students are expected to gain fluency in the language and to continue studying it beyond the intermediate level. Students are strongly urged to continue their work in a language through a study abroad program. In exceptional cases, students may petition the director to demonstrate foreign language proficiency by examination.

**INDIVIDUALIZED CONCENTRATION**

In consultation and with the approval of their advisors, all international studies students devise a five-course concentrated area of study. This concentration should provide students with a depth of knowledge in an area that is meaningful to them. In the past, students have often chosen to focus on studies of various regions (e.g., European studies, Latin American studies), topical
studies (e.g., international political economy, war and peace), and integrated studies (e.g., emerging societies, trading blocs, global environmental issues). Students are urged to select their concentration courses after they have completed the INT 201-206 sequence. Constructing the concentration is an important intellectual exercise in its own right, and helps students get the most from the program. The student's advisor must certify the student's concentration courses to the College of Liberal Arts and Sciences prior to graduation.

It is possible to complete the geography department’s certificate in cartography and geographic information systems (GIS) while completing a concentration in spatial justice within the international studies major. Students pursuing this concentration take INT 368 Topics in Global Culture: Spatial Justice; GEO 241 Computer Cartography; GEO 242 Geographic Information Systems; GEO 243 Remote Sensing; and an elective that will allow the student to complete a project using these technologies while incorporating a spatial justice theme. Students wishing to pursue the spatial justice concentration should request to be assigned Dr. Nast as an advisor.

SPECIAL PROGRAMS

MINOR

The minor in International Studies provides the non-major with an overview of the origins and development of peoples and their nations, patterns of conflict and cooperation that have shaped relations between peoples, and problems that affect the future global order. The following sequence of six courses totaling twenty-four credit hours is required.

International Studies: 201 The Evolution of the Modern Nation State; 202 International Conflict and Cooperation; 203 International Movements of the 20th and 21st Centuries; 204 Cultural Analysis; 205 International Political Economy; 206 Boundaries and Identities. (Note that Economics 105 and 106 are prerequisites for INT 205).

STUDY ABROAD PROGRAMS

All International Studies majors are encouraged, but not required, to participate in Study Abroad programs. No internship can better prepare you for international work than study abroad. The undergraduate years are the appropriate time to undertake this immersion in another culture. DePaul University’s Study Abroad program works closely with the International Studies Program in formulating opportunities for students that are intellectually rigorous and linguistically appropriate. Currently, ten- to fifteen-week programs are offered annually in France, Spain, Italy, Germany, England, Hungary, Poland, Mexico, Japan and Zimbabwe. The programs in Europe and Japan can often be extended to a full year.

EUROPEAN COMMUNITY RESEARCH INTERNSHIP

Seniors who show a strong commitment to European studies can apply to participate in the program’s research internship in the European Community Commission’s offices in Brussels. This four-month intensive research experience is organized through the Irish Institute of European Affairs at the Catholic University of Leuven and is the only one of its kind for U.S. students. It is especially appropriate for students going to graduate school in some aspect of European Studies.

Other internationally-oriented internships are available abroad, in Washington and in the Chicago area.

The Latin American and Latino Studies Program explores the broad dynamics shaping Latin American and Latino experiences and cultural contributions. This interdisciplinary program draws courses and insights from the fields of history, geography, political science, religious studies, sociology, anthropology, modern languages, and international studies. Students interested in a wide range of work requiring multicultural skills, like education, law, social work, community organizing, and business, would benefit from course work in this program. The Latin American and Latino Studies Program also serves to deepen Latino students’ awareness of their cultural heritage.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM
In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in Latin American and Latino Studies. The number and distribution of courses in each of the areas are as follows:

**Core:** 32 quarter hours required

**First Year Program:** (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

**Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

**Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

**Senior Capstone:** (4 quarter hours required) Latin American and Latino Studies requires that all students majoring in Latin American and Latino Studies complete the senior capstone in Latin American and Latino Studies. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

**Learning Domains:** 52 quarter hours required

**Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.

**Philosophical Inquiry:** 8 quarter hours required.

**Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

**Scientific Inquiry:** 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.

**Self, Society and the Modern World:** 8 quarter hours required. At most 2 courses from the same department or program.

**Understanding the Past:** 4 quarter hours required; course must focus on a category outside of Latin America.

Although study in Latin American and Latino Studies contributes to a student’s liberal education, courses offered by the department of Latin American Studies are not applied towards liberal studies requirements for the Latin American and Latino Studies major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

In addition, students who need to complete the three-course intermediate Spanish language sequence prerequisite (see below) for the Latin American and Latino Studies major may substitute the sequence for two domain courses and one open elective. The option reduces the requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; Arts and Literature or Scientific Inquiry (cannot substitute for the lab science requirement).
PROGRAM REQUIREMENTS

STANDARD CONCENTRATION
During the sophomore year, students in this major should take the following three courses: LST 200 Founding Myths and Cultural Conquest in Latin America; LST 201 Social Diversity in Latin America; LST 202 The Construction of Latino Communities. In the senior year, students in this major should take LST 390 Senior Seminar.

SPANISH LANGUAGE REQUIREMENT
Majors must complete at least two 200-level Spanish courses. For majors whose Spanish language skills place them beyond the 200-level, a minimum of two 300-level Spanish courses is required. Students who need to complete the three-course intermediate Spanish language sequence prerequisite for the major may substitute the sequence for two Liberal Studies domain courses and one open elective.

ELECTIVES
In addition to the core courses and Spanish requirement, majors choose another six elective courses. In selecting courses, students are encouraged to concentrate in one of four areas: Latin American History, Contemporary Issues in Latin America, the US Latino Community, and Latin American Cultural Expression. Students should choose their six elective courses in consultation with an adviser.

Elective courses approved for the major include any of the remaining courses offered by the Latin American and Latino Studies Program plus the following courses in other fields:

- Art 336 Mexican Art
- Comparative Literature 312 Literature of Identity: Hispanic Women Writers; 312
- Literature of Identity: Border Cultures; 313 Feminist Literature: Hispanic/Latina Women Writers
- Education 258 Education and Social Justice: Latinos in Education
- English 369 Topics in American Literature: Latina/Latino Literature
- Geography 326 Mexico, Central America and the Caribbean: Physical, Economic and Cultural Contrasts; 327 South America: Physical, Economic and Cultural Contrasts
- History 118 Introduction to the History of Latin America; 204 Film and Latin American History; 262 Themes in Latin American History; 304 Ethnohistory; 305 Exploration and Conquest of the Americas; 306 Colonial Latin America: Power and Development of a Multiracial Society; 307 Independence and Nationalism: The Making of Modern Latin America; 309 Mexico: Evolution and Revolution; 310 Inter-American Affairs; 311 From Columbus to Castro: The History of the Caribbean; 312 Latinos in the United States; 314 The Cuban Revolution; 329 Special Topics in History: Latin American History; 377 Caribbean Migrations to the United States
- International Studies 203 International Movements in the 20th Century (Spanish Version); 350 Latin American Area Studies I; 351 Latin American Area Studies II; 364 Topics in International Political Economy: Latin American Survey
- Political Science 244 Latin American-United States Relations; 252 Latin American Politics; 325 Latino Political Empowerment; 328 Topics in American Politics: Ethnic and Foreign Policy; 339 Topics in Political Thought: Latin American Political Thought
- Religious Studies 202 Ethical Worlds: War and Justice in El Salvador; 351 Liberation Theology; 360 History, Myth and Religion in Preconquest Mesoamerica
- Sociology 311 Sociology of Latino Cultures; 344 Political Sociology: Revolutions and Peasant Rebellion
- Spanish 303 Latin American Literature and Culture I; 304 Latin American Literature and Culture II; 305 Latin American Novel; 306 Hispanic Literature of the Caribbean; 315 Pop Culture in Mexican Literature; 318 20th Century Theater: Latin American Drama; 320 Advanced Commercial Spanish; 321 Hispanic Writers of the United States; 323 Revolution in Latin American Literature; 325 Translation and Interpretation; 330 Latin American and Spanish Cinema; 331 Film as a Subversive Art; 333 Hispanic Women Writers (in English); 370 Latin American Civilization

Students may petition the Director for the inclusion of other courses that focus on the Latin American or Latino experience.
SPECIAL PROGRAMS

MINOR

A minor in Latin American and Latino Studies offers the non-major a solid, interdisciplinary introduction to the Latin American region and the U.S. Latino communities.

The minor is composed of six courses. From the core courses, minors may choose either LST 200 Founding Myths and Cultural Conquest in Latin America; or 201 Social Diversity in Latin America. LST 202 The Construction of Latino Communities is required of all minors. The remaining four courses may be chosen from among the courses approved for Latin American and Latino Studies credit. Minors are encouraged to take LST 390 Senior Seminar.

STUDY ABROAD EXPERIENCE

Students are strongly encouraged to participate in DePaul’s quarter abroad program in Merida, Mexico or one of the university’s other short-term study abroad programs in Latin America.

INTERNSHIP EXPERIENCE

Students are strongly encouraged to include an internship as part of their academic experience. Internships may be arranged with either a Latino community organization, a US-based organization that focuses on Latin America, or, as part of a study abroad experience, with a public service organization in a Latin American country.

COURSES

Please visit Campus Connection at https://campusconnect.depaul.edu for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The Department of Mathematical Sciences offers programs in pure and applied mathematics to assist students in the pursuit of intellectual, academic, and career goals. The aim of the department is to provide the student with the sound mathematical foundation required for many areas of study and to provide advanced programs in pure and applied mathematics for students specializing in the mathematical sciences. Mathematics majors may choose one of six areas of concentration: (1) pure mathematics, (2) quantitative analysis and operations research, (3) statistics, (4) actuarial science, (5) teaching of mathematics, and (6) mathematical computer studies. A concentration in financial mathematics is under development. Students may also select a program of courses according to their interests.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM
In addition to the 28 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts or Sciences degree in mathematical sciences. The number and distribution of courses in each of the areas are as follows:

- **Core:** 28 quarter hours required
- **First Year Program:** (16 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, and Composition and Rhetoric I and II.
- **Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
- **Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
- **Senior Capstone:** (4 quarter hours required) Mathematical Sciences requires students majoring in Mathematical Sciences to complete the senior capstone in Mathematical Sciences, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

Learning Domains: 52 quarter hours required
- **Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.
- **Philosophical Inquiry:** 8 quarter hours required.
- **Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
- **Scientific Inquiry:** 4 quarter hours required which must include a lab component.
- **Self, Society and the Modern World:** 12 quarter hours required. At most 2 courses from the same department or program.
- **Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in the mathematical sciences contributes to a student’s liberal education Courses offered by the Department of Mathematical Sciences are not applied towards liberal studies requirements for the mathematical sciences major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL PROGRAM REQUIREMENTS
The Department of Mathematical Sciences enforces all course prerequisites including course placement by the Mathematics Diagnostic Test. Mathematics majors must complete mathematics course prerequisites with a grade of C- or better. This requirement may be waived only with the consent of the chair of the department.

COMMON CORE
Mathematics: 160, 161, 162 Calculus for Mathematics and Science Majors I, II, III or 150, 151, 152 Calculus I, II, III; or MAT 147-148-149 Calculus with Integrated Precalculus; 260, 261 Multivariable Calculus I and II; 262 Linear Algebra; either 215 Introduction to Mathematical Reasoning or the combination of 140 and 141 Discrete Mathematics I and II.

Computer Science: A course in any programming language (such as CSC 211 or CSC 240). In planning schedules, students should expect that the sequences 310-311-312, and 351-352-353 will usually be offered once every year, beginning in the fall quarter. Day and evening sections of the 260-261 sequence will begin in the fall quarter. Mathematics 215 is only offered in the spring quarter.

A number of the other 300-level courses may be offered in alternate years only. Students should consult closely with their advisors to develop a complete program in one of the concentrations.
I. CONCENTRATION IN PURE MATHEMATICS

Common Core: at least three courses from among 310, 311 (Abstract Algebra I, II) and 335, 336 (Real Analysis I, II); and three additional mathematics courses from among the following: any from Algebra and Number Theory, Combinatorics, Geometry and Topology, History, Mathematical Analysis; 351, 352, 353 Probability and Statistics I, II, III, 348 Applied Statistical Methods I.

Students interested in graduate study in mathematics are encouraged to take both sequences 310-311-312 and 335-336-337. Students interested in graduate study in economics or finance are encouraged to take 351-352-353 and 335-336.

II. QUANTITATIVE ANALYSIS AND OPERATIONS RESEARCH CONCENTRATION

Recommended Courses:
- Accountancy: 101 Principles of Accounting I; 102 Principles of Accounting II.
- Computer Science: 215 Introduction to Structured Programming with C++, or 240 Personal Computing for Programmers.
- Finance: 310 Financial Management I; 330 Investments; Securities and Markets; 335 Portfolio Management.
- Management: 300 Management and Organization Principles and Practice; 301 Operations Management I.

III. STATISTICS CONCENTRATION

Strongly recommended additional mathematics course: MAT 341 Statistical Methods Using SAS

Recommended courses in Computer Science: 215 Introduction to Structured Programming with C++, or 240 Personal Computing for Programmers.

Recommended courses in Mathematics: 326 Sample Survey Methods; 328 Design of Experiments; 335, 336 Real Analysis I, II; 337 Complex Analysis; 355 Stochastic Processes; 354 Multivariate Statistics; 357 Nonparametric Statistics; 386 Advanced Numerical Analysis. Mathematics 335, 336, and 337 are recommended for students preparing for graduate study in mathematical statistics.

IV. ACTUARIAL SCIENCE CONCENTRATION

Common Core plus 351, 352, 353 Probability and Statistics I, II, III; 361 Actuarial Science I; 362 Actuarial Science II; 363 Actuarial Science III.

V. TEACHER OF MATHEMATICS: SECONDARY LEVEL.

In cooperation with the School of Education, the Department of Mathematics offers concentrations of study which combine the requirements for a major in Mathematics with certification for teaching mathematics at the junior high, middle, and senior high levels. A student electing such a program should consult the School of Education Counselor as soon as possible after entering DePaul.

Common Core plus: 301 History of Mathematics; 348 Applied Statistical Methods or 351 Probability and Statistics I; 309 Teaching and Learning Secondary School Mathematics; either
303 Number Theory and 310 Abstract Algebra I, or 310 and 311 Abstract Algebra I and II; and either 320 and 321 Geometry I and II, or 320 Geometry I and 335 Real Analysis I.

VI. MATHEMATICAL COMPUTER STUDIES CONCENTRATION

Common Core in Mathematics plus four courses chosen from among the following, 303 Number Theory; 302 Combinatorics; 310, 311, 312 Abstract Algebra I, II, and III; 370 Advanced Linear Algebra; 351, 352, 353 Probability and Statistics I, II, and III or 348, 349 Applied Statistical Methods I and II; Mathematics/Computer Science 387, 388 Operations Research I and II; 335, 336 Real Analysis I and II; 337 Complex Analysis; 338 Differential Equations; Mathematics/Computer Science 385, 386 Numerical Analysis I and II; 359 Simulation Models and the Monte Carlo Method. Note: To satisfy the Common Core in Mathematics requirement, students in this concentration may substitute an additional course from the preceding list in place of 261 Multivariable Calculus II. They may also substitute 220 in place of 262.

Students intending to concentrate in mathematical computer studies are strongly encouraged to consult with advisors both in mathematics and in computer science to plan their programs.

VII. INDIVIDUALIZED CONCENTRATION

Students may consult with a mathematics faculty advisor and the department chair to create an individualized program of study leading to a degree in mathematics. Such a program will normally consist of the Common Core in Mathematics plus six mathematics courses chosen from those included in concentrations I-VI above and approved by the department chair. A formalized concentration in financial mathematics is under development.

SPECIAL PROGRAMS

BACHELOR OF SCIENCE DEGREE

For a B.S. degree in Mathematics, in addition to fulfilling the requirements for one of the concentrations above, students must earn at least 16 quarter hours in the natural or computer sciences.

DOUBLE MAJOR

A mathematics major may double major in another department such as economics or physics. Various mathematics courses are cross-listed as courses in other departments. A double major must complete the requirements for both departments.

MATHEMATICS MINOR

Students in other departments may earn a minor in mathematics.

Mathematics minor: 160, 161, 162 (147, 148, 149 or 150, 151, 152; or BMS 125 and 126 and either MAT 152 or MAT 162 or MAT 149); either 215 or the combination of 140 and 141 and two courses chosen from any 200 or 300-level course admissible for credit as part of one of the concentrations in mathematics.
STATISTICS MINOR
Students in their departments may earn a minor in statistics.
Statistics minor: 160, 161, 162 (or 147, 148, 149; or 150, 151, 152; or BMS 125 and 126 and
either MAT 152 or MAT 162 or MAT 149; 348 or MAT/CSC 323 or BMS 142); and two courses
chosen from among 324, 326, 328, 357, and 358.

BACHELOR OF SCIENCE IN MATHEMATICS AND COMPUTER SCIENCE

Common Core: MAT 150-151-152 Calculus I, II, & III, or MAT 160-161-162 Calculus for
Mathematics and Science Majors I, II, III; or MAT 147-148-149 Calculus with Integrated
Precalculus; MAT 140-141 Discrete Mathematics I & II; MAT 260 Multivariable Calculus I; MAT
262 Linear Algebra; CSC 211-212 Programming in Java I & II; CSC 313 Data Structures in Java
(theory concentration), or CSC 309 C++ (computational methods and graphics concentrations);
CSC 321 Design and Analysis of Algorithms; CSC 347 Concepts of Programming Languages
(theory concentration), or CSC 343 Introduction to Operating Systems (computational methods
and graphics concentrations)

Capstone Course: The graphics concentration requires GPH 395. Students in the other
concentrations may take either the mathematics capstone course MAT 398 or the computer
science capstone course CSC 394. Note that students choosing CSC 394 need to take the
prerequisite courses CSC 315 and CSC 319 as two of their open electives.

I. Theory Concentration
MAT 303 Number Theory; MAT 310 Abstract Algebra I; MAT 351 Probability and
Statistics I, One of the following four courses: MAT 302 Combinatorics, MAT 311 Abstract
Algebra II, MAT 370 Advanced Linear Algebra, MAT 372 Logic and Set Theory.
CSC 333 Automata Theory and Formal Grammars; CSC 358 Symbolic Programming;
Two advanced courses in computer science or mathematics chosen in consultation with an
advisor. Possible classes include CSC 389 (CSC 544) Theory of Computation, CSC 348
Compiler Design, CSC 387/MAT 387 Operations Research I, MAT 399 or CSC 399
Independent Study, or any course listed above that is not already included in the
student’s program.

II. Computational Methods Concentration
MAT 261 Multivariable Calculus II; MAT 351-353 Probability & Statistics I, II, & III; CSC
385/MAT 385 Numerical Analysis I
Two courses chosen from one of the following two sub-concentrations. Students in the
Artificial Intelligence concentration are recommended to take CSC 313 as an open
elective.
Artificial Intelligence: CSC 380 Artificial Intelligence; CSC 357 Expert Systems; CSC
358 Symbolic Programming
Data Analysis: CSC 328 Data Analysis for Experimenters; CSC 334 Advanced Data
Analysis (or MAT 354 Multivariate Statistics); CSC 332 Simulation and Modeling (or MAT
359 Simulation Models & Monte Carlo Methods); CSC 481 Pattern Recognition and Image
Processing; MAT 370 Advanced Linear Algebra; MAT 356 Applied Regression Analysis
One advanced course in computer science or mathematics chosen in consultation with an
advisor. This course may be chosen from those listed above that are not already included
in a student’s program, or it may come from a broader selection. Possible courses for the
artificial intelligence sub-concentration include CSC 456 Foundations of Intelligent
Databases and CSC 481 Pattern Recognition and Image Processing. Possible courses for the
data analysis sub-concentration include SE 467 Software Reliability and SE 468
Software Measurement. Possible courses for either sub-concentration include
CSC/MAT 386 Numerical Analysis II, CSC/MAT 387-388 Operations Research I & II,

III. Graphics Concentration
MAT 261 Multivariable Calculus II; MAT 370 Advanced Linear Algebra;
One of the following courses: MAT 385 Numerical Analysis I or MAT 337 Complex Analysis
One of the following two courses: GPH 339 Advanced Rendering Techniques, GPH 336 Advanced Modeling Techniques

IV. Individualized Concentration
This concentration is intended for students who wish to combine advanced study of mathematics and computer science but whose particular area of interest is not exactly satisfied by one of the other three concentrations. Students wishing to create an individualized program of study leading to a joint major in mathematics and computer science should consult with both mathematics and CTI faculty advisors.

The individualized concentration consists of the core of 12 courses plus an additional 8 mathematics and computer science courses designed to provide a coherent program. At least three of these courses must be in mathematics and at least three must be in computer science. An individualized program of study must be approved by the chair of the mathematical sciences department and the dean of CTI.

BACHELOR OF SCIENCE/MASTER OF SCIENCE IN APPLIED MATHEMATICS
BACHELOR OF SCIENCE/MASTER OF SCIENCE IN APPLIED STATISTICS
The combined B.S./M.S. Degree in Applied Mathematics and the combined B.S./M.S. Degree in Applied Statistics allow students to earn both a B.S. in Mathematics and either an M.S. in Applied Mathematics or an M.S. in Applied Statistics. The program in Applied Mathematics is designed for undergraduate mathematics students in one of the following concentrations: Statistics or Actuarial Science. The program in Applied Statistics is intended for undergraduate students who seek a more specialized focus on Statistical applications. It is expected that students will complete the Common Core in Mathematics by the end of the sophomore year, will begin taking graduate-level courses during the senior year, and will complete the requirements for the Master of Science in Applied Mathematics or the Master of Science in Applied Statistics approximately one year after satisfying the requirements for the B.S. degree. To be admitted to this program, students must apply to either the chair of the department or to the program director no later than the beginning of the junior year. Careful planning of course sequencing in these programs is essential. A maximum of 12 quarter hours with grade of B or better may be double counted toward the M.S. degree provided they are taken at the 400-level.

DEPARTMENTAL PROGRAM REQUIREMENTS
Common Core (see requirements on previous page).
Advanced Linear Algebra, 484 Mathematical Modeling, 485 Numerical Analysis I and four graduate electives.

I. STATISTICS CONCENTRATION
Undergraduate: same as those listed for the B.A.
Graduate: 456 Applied Regression Analysis, 512 Applied Time Series and Forecasting or, 455 Stochastic Processes, 459 Simulation Models, and five graduate electives.

II. ACTUARIAL SCIENCE CONCENTRATION
Undergraduate: same as those listed for the B.A.

To fulfill the undergraduate requirements in the chosen concentration, at least three of the courses should be taken at the 400/500 level.

The graduate electives will be chosen from those mathematics courses related to the student’s concentration. Approval of the student’s graduate advisor is required for all electives. With the approval of the advisor, students may take up to two electives from related disciplines such as physics, computer science, and commerce. Students are expected to fulfill all requirements for the Master of Science in Applied Mathematics, and Applied Statistics, including the comprehensive examinations.

**COURSES**

Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The Military Science Department offers students, as an adjunct to their major field of study, the opportunity to achieve commissions as Army officers in either the active Army, the U.S. Army Reserve, or National Guard through the Reserve Officers’ Training Corps (ROTC) program. The program develops leadership, managerial potential, and the qualities of self-discipline, confidence, personal integrity, and individual responsibility. Emphasis is on learning through doing. The department’s program prepares the student for a period of service as a commissioned officer in the United States Army, a service that can ultimately lead either to a military career or to a more responsible place in the civilian world.

The curriculum is divided into two parts: Basic and Advanced. The Basic course normally encompasses the freshman and sophomore academic years. Basic-course students are under no obligation to enter into a contractual agreement with the U.S. Government. The advanced course encompasses juniors and seniors who have successfully completed the on-campus basic course. Students who have attended a special six-week summer training program, students who have previous Junior ROTC training, and qualified veterans may also be admitted into the Advanced course. Upon enrollment in the Advanced Course, the student enters into a contractual agreement with the United States Government, whereby the student agrees to accept a commission in the United States Army for a period of active or reserve duty after his graduation. The government, in return, provides a monthly stipend of $250-400 for up to ten months of the school year.

Students may compete for ROTC two-year and three-year scholarships during their freshman or sophomore year. Scholarships can pay up to $17,000, annual book allowance of $600, and $250-400 monthly during the remainder of the winner's undergraduate education. A Leaders Training Course summer program is available to selected students who have been unable to complete the normal two-year progression of Military Science. Students attend a six-week program at Fort Knox, Kentucky. This program, in conjunction with the normal two-year advanced program of Military Science is designed to prepare the student for a period of service as a commissioned officer in the United States Army. The program provides an introduction to a variety of military-related topics. It involves instruction in map reading, marksmanship, first aid, tactics, fundamentals of leadership, and basic military skills.

**FACULTY**

LIEUTENANT COLONEL
LACHANCE, MICHAEL
*Professor and Chair*
University Illinois At Chicago

MAJOR
VEGA, ANTONIO D.
*Assistant Professor*
DePaul University

SERGEANT FIRST CLASS
DENNISON, ANDREW
*Assistant Professor*
DePaul University

**PROGRAM DEGREE REQUIREMENTS**

In order to be commissioned an officer in the United States Army, students are required to complete the following: 101, 102 and 151 (freshman year); 201, 202 and 252 (sophomore year); 301, 302 and 352 (junior year); and 311, 312 and 362 (senior year). Advance-course students can expect to participate in weekly physical fitness training, and periodic weekend training exercises each quarter. Students must successfully complete a six-week advanced camp
prior to being commissioned.

Credits earned through the Military Science Department are counted toward degree requirements at DePaul. Classroom instruction is offered at the University of Illinois at Chicago, Illinois Institute of Technology or Loyola University. Students contact the professor to arrange for the most convenient location to attend class. Further information may be obtained from the Department of Military Science at University of Illinois at Chicago, (312) 413-2357.

**COURSES**

Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The purposes of the programs in French, German, Italian, and Spanish are to develop the student’s ability to speak, understand, read, and write the languages and to stimulate an appreciation of their major authors and the civilizations of the countries. The 100-level courses aim to provide the student with a working knowledge of a foreign language.

The department areas of concentration are two: a standard program in French, German, Italian, or Spanish, which provides a student with a strong liberal arts background, and a modern language education program, offered in cooperation with the School of Education, which qualifies the student to teach language at the junior high or secondary level. The department offers majors in French, German, Italian, and Spanish, which consist of class work beginning at the 200- and 300-levels. This does not include the basic and intermediate (101-106) sequences which must be taken if the student’s prior linguistic training is inadequate to start with advanced courses. Lower division courses, however, do not count towards the major.

The department offers a general minor (20 hours/5 courses) in French, German, Italian, Japanese or Spanish, and a commercial language minor (20 hours/5 courses) in French and Spanish. Students wishing to apply their language skills in business should select the commercial language minor.

The department also offers varying levels of instruction in Arabic, Chinese, Classical and Modern Greek, Modern Hebrew, Latin, Polish and Russian. Students are encouraged to participate in DePaul’s Foreign Study Programs in China, France, Germany, Greece, Italy, Japan, Mexico, Spain, Poland and other locations. Consult the Study Abroad Office for current offerings. In addition, the department offers a major and a minor in Japanese Studies and a minor in Chinese Studies; these programs have different requirements than the other programs listed above. They combine study of the language with supporting course work taught in English in a variety of different disciplines.

**PLACEMENT GUIDE**

Language majors, students using language as a supporting field, and those students who are intending to study only the more elementary courses should begin their studies in accordance with the following guide:

Two years of high school language: begin with 104.
Two to three years of high school language: begin with 105 or 106 (or 109 for native speakers) on approval of Language Department chair.

Four years of high school language or a more extensive background: begin with 106 (or 109 for native speakers), 200- or 300-level courses chosen in consultation with departmental chair. Placement tests or consultation with the chair can result in an adjustment of this guide (either forward or backward) to reflect the individual competencies of the student.

**PROGRAM DEGREE REQUIREMENTS**

**LIBERAL STUDIES PROGRAM**

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in a modern language. The number and distribution of courses in each of the areas are as follows:

- **Core:** 32 quarter hours required
- **First Year Program:** (20 quarter hours required) Discover Chicago or Explore Chicago Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.
- **Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
- **Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
- **Senior Capstone:** (4 quarter hours required) German and Italian require that all students majoring in the language complete the senior capstone in the language. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area. French, Japanese Studies and Spanish require students majoring in those languages to complete the senior capstone in the language, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

**Learning Domains:** 52 quarter hours required

- **Arts and Literature:** 4 quarter hours required.
- **Philosophical Inquiry:** 8 quarter hours required.
- **Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
- **Scientific Inquiry:** 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.
- **Self, Society and the Modern World:** 12 quarter hours required. At most 2 courses from the same department or program.
- **Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in a modern language contributes to a student’s liberal education, courses offered by the department of modern languages are not applied towards liberal studies requirements for a modern language major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements. In addition, the modern language option does not apply to students majoring in a modern language.

**DEPARTMENTAL PROGRAM REQUIREMENTS**

I. **STANDARD CONCENTRATION**

All students are required to enroll in one of the following sequences.

French: 201 Advanced Communication I; 202 Advanced Communication II; 203 or 204 Advanced Communication III or IV; 341 Introduction to French Literature I; 342 Introduction to French Literature II; 350 French Phonetics and Phonology; one 20th century literature course and five more 300-level courses. French majors must also take the MOL 396 capstone course in Modern Languages (except if they are in the Honors program or if they take another capstone course from another program in which they are also majoring).

German: 201 Advanced Communication I; 202 Advanced Communication II; 203
Advanced Communication III; MOL 396 capstone in modern languages; and eight 300-level courses.

Italian: 201 Advanced Communication I; 202 Advanced Communication II; 203 Advanced Communication III; MOL 396 capstone in modern languages; and eight 300-level courses.

Spanish: 201 Advanced Grammar and Communication; 202 Advanced Composition and Communication; 203 or 204 Advanced Conversation; 352 Spanish Phonetics and Phonology; 220 Introduction to Literary Analysis in Spanish; plus three more literature courses, one from three of the following areas: 1) Spanish Literature from Middle Ages through Golden Age, 2) Spanish Literature from Enlightenment to present, 3) Latin American Literature from origins through Romanticism, 4) Latin American Literature from Modernism to present; and finally, four 300-level courses. Spanish majors are also required to take the Modern Languages capstone (MOL 396 Language, Literature and Culture), except if they are in the Honors program or if they take another capstone course from a program in which they are also majoring. Contemporary Criticism (MOL 355) may be taken as a free elective for majors in French, German, Italian, and Spanish. Education majors are required to take MOL 357 and MOL 349. Spanish 205 Grammar/Composition for the Hispanic I, 206 Grammar/Composition for the Hispanic II and 207 Advanced Conversation for the Hispanic are strongly recommended to students of Hispanic background. These courses may be substituted for Spanish 201, 202, 203-204.

II. TEACHER OF MODERN LANGUAGES: SECONDARY LEVEL

In cooperation with the School of Education, the Department of Modern Languages offers a concentration of study which combines the requirements for a major in Modern Languages with certification for teaching modern languages at the junior high, middle, and senior high school levels. A student electing such a program should consult the School of Education Counselor as soon as possible after entering DePaul.

Modern Languages: The student must complete the same program as departmental majors, with the following exception: MOL 357 and MOL 349 (or the cross listed number of this course with the School of Education) are also required.

SPECIAL PROGRAMS

MINOR IN FRENCH, GERMAN, ITALIAN, JAPANESE, OR SPANISH

An individualized program can be developed for a minor after consultation with the chair or a counselor from the Modern Languages faculty. The minor will consist of a total of 5 courses in the language chosen. Courses will be taken beginning at the 200/300-level. For the standard minor, a student may choose a mix of 200- and 300-level courses. However, no more than three 200-level courses will count towards the standard minor, which must be completed by at least two 300-level courses. On the other hand, a student may elect to take as many as five 300-level courses towards the standard minor.

MOL 349, MOL 355, MOL 357, and MOL 396 do not count as part of a foreign language minor.

THE COMMERCIAL LANGUAGE PROGRAM IN FRENCH OR SPANISH

Only 200- and 300-level courses may be applied to the completion of the commercial minor. Students starting their language studies at a less-advanced level of language should consider the following sequence: Stage One (French 101, 102, 103 or Spanish 101, 102, 103) for the beginning language student; Stage Two (French 104, 105, 106 or Spanish 104, 105, 106) for the intermediate language student. The minor itself will consist of French/Spanish 320 Advanced Commercial French/Spanish plus any configuration of French/Spanish 200- and 300-level courses of the student’s choosing. The department, however, recommends that those seeking a commercial language minor take the following courses: French 201, 202, 203 or 204 and 321 or one civilization course; Spanish 201, 202, 203 or 204, and 325. Hispanic students are encouraged to substitute Spanish 205, 206 and 207 for Spanish 201, 202, 203 or 204.

Students successfully completing the commercial language minor will be encouraged to take the business language certification exams given by the French and Spanish governments through their respective chambers of commerce.
THE CHINESE STUDIES MINOR

The Chinese Studies minor consists of one year of college-level Chinese language (101-102-103 or equivalent) and five additional courses focusing on China chosen from at least two different disciplines in consultation with an advisor from the approved Chinese Studies minor course list (available in the Department of Modern Languages). Currently there are offerings in Art, Communications, Geography, History, International Studies, Political Science, Religious Studies, etc.

THE JAPANESE STUDIES MAJOR AND MINOR

A major in Japanese Studies will require the completion of twelve Japanese-related courses. The core will be formed by six to eight courses that will be taken at the 200- and 300-level in the areas of language, linguistics, culture, or literature through the Department of Modern Languages. Japanese 201, 202, and 203 (or equivalent) are required, as well as at least two of the following 300-level classes: 311, 312, 313. Japanese Studies majors are urged to take all six of these classes in order to increase their language proficiency. Japanese 330 is a strongly suggested elective for all Japanese Studies majors. Four to six classes focusing on Japan will be taken in at least two other departments or programs such as Art, History, Religious Studies, Geography, International Studies, Political Science, etc. Consult the current approved Japanese Studies course list available in the Department of Modern Languages.

Japanese Studies majors must also take the MOL 396 capstone course in Modern Languages except if they are in the Honors program or if they take another capstone course from another program in which they are also majoring.

Students who declare this major will be assigned an advisor to help plan a detailed individualized study program.

The minor in Japanese Studies consists of one year of college-level Japanese language study (101-102-103 or equivalent) and five additional courses chosen from at least two different disciplines in consultation with an advisor from the above-mentioned approved course list. The Japanese Studies minor is distinct from and should not be confused with the Japanese Language minor listed above.

SEQUENCING

Students should begin at their appropriate level (elementary, intermediate, or advanced) determined in consultation with an advisor. The proper sequence at the beginning level is 101-102-103 (with the 100 "Practicum" required with each course—some courses have the "practicum" built into the course contact hours; this is indicated with a code in the course schedule). The proper sequencing at the intermediate level is 104-105-106 (or 109 sometimes offered in Spanish). Completion of 106/109 is a prerequisite for all 200- and 300-level courses, except those offered in the Liberal Studies program. Thereafter, the choice of 200- and 300-level courses should be made according to the following criteria: a) availability of offerings, b) the particular needs of the student, i.e., language reinforcement or literary skills, c) the requirements of the specific language program.

COURSES

Please visit Campus Connection at https://campusconnect.depaul.edu for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.

All courses carry 4 quarter hours credit. Courses marked with an asterisk may be repeated for credit when topics vary; check current schedule of classes for specific topics. Many Modern Language courses are eligible for Liberal Studies credit. Interested students should contact their advisors or their college office.

The first six courses in all languages are structured to be taken sequentially. Students who have not successfully completed the previous course in the beginning (101-102-103) and intermediate (104-105-106/109) sequences (or equivalent) may not register for more advanced courses in that sequence. After taking 106 (or 109), students may register for any advanced course at the 200- or 300-level (but most students would profit by taking some 200-level courses before beginning work at the 300-level).
All Independent Study courses require prior approval by the course instructor and the chair.

COURSES
Please visit Campus Connection at https://campusconnect.depaul.edu for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
T he mission of the Department of Nursing is the preservation, enrichment and transmission of nursing science as a discipline and its application to improve the health and well being of individuals, families, and communities. The faculty pursues this mission through excellence in teaching as a primary focus of scholarship; and research that has the potential to improve nursing knowledge, scientific inquiry, teaching and health. The Department maintains a commitment to serving persons with diverse talents, qualities, interests, and socio-economic backgrounds in its educational programs and professional practice. It seeks to provide accelerated, inquiry-based education that anticipates the rapid pace of change in health promotion and illness care.

The purposes of the undergraduate program are to:
1) Prepare registered nurses for: professional practice and leadership roles in health promotion and illness care, collaboration with others to meet present and future health needs of society, community service to vulnerable populations, and continuing academic and clinical education at the graduate level. 2) Provide a liberal education that fosters a broad personal and professional perspective as a basis for human service in society. 3) Provide a foundation for graduate study in nursing and the health sciences.

ACCREDITATION
Commission on Collegiate Nursing Education

POLICIES AND PROCEDURES
A complete list of policies specific to the nursing programs of study is contained in the Nursing Student Handbook that is updated regularly on the department web site www.depaul.edu/~nursing. The student is responsible for all department policies in addition to those of the university at large. Students are responsible for maintaining current demographic information with the university on www.campusconnect.depaul.edu.

ADMISSIONS
Students who wish to fulfill degree requirements are accepted on the basis of academic record (minimum GPA of 2.5 on a 4.0 scale). Registered nurses will be admitted to clinical courses and companion theory courses based on available space and on date of acceptance into the nursing program. After students are admitted to the University, they are required to meet with advisors in the Department of Nursing to plan the course of study. Failure to receive such advice may result in delays in the student's progress. Registered nurses must be licensed to practice professional nursing in Illinois.

FACULTY

Rush University
PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM
In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Science degree in nursing. The numbers and distribution of courses in each of the areas are as follows:

- **Core:** 32 quarter hours required
  - **First Year Program:** (20 quarter hours required) Quantitative Reasoning, and Composition and Rhetoric I and II. 2 domain electives replace Discover/Explore Chicago and the Focal Point Seminar.
  - **Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
  - **Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
  - **Senior Capstone:** (4 quarter hours required) Nursing requires students majoring in Nursing to complete the senior capstone in Nursing, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

- **Learning Domains:** 52 quarter hours required
  - **Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.
  - **Philosophical Inquiry:** 8 quarter hours required.
  - **Religious Dimensions:** 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
  - **Scientific Inquiry:** 4 quarter hours required which must be Che 111 General and Analytic Chemistry.
  - **Self, Society and the Modern World:** 12 quarter hours required. 2 courses must be Ant 102 Cultural Anthropology and Psy 303 Human Development.
  - **Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history post-1800. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative. Since study in nursing contributes to a student’s liberal education, courses offered by the department of nursing are not applied towards liberal studies requirements for the nursing major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

PRE-NURSING PROGRAM REQUIREMENTS
Students who are interested in becoming a professional registered nurse first must complete a bachelor’s degree. Admission to the Master’sEntry to Nursing Practice program in nursing also will require completion of Organic and inorganic chemistry (1 year), Biology (1 year - Anatomy,
Physiology, and Microbiology recommended), and Physics (recommended). Course prerequisites at the graduate level include abnormal psychology, medical sociology, statistics, business economics or finance, and a broad distribution of courses in the natural, social, and behavioral sciences. Nursing courses in the graduate major may be taken as undergraduate electives only with Departmental permission.

**REGISTERED NURSE-B.S. COMPLETION PROGRAM REQUIREMENTS**

**ADVANCED PLACEMENT**

Registered nurse students who have graduated from NLN- or CCNE-accredited programs within the last ten years are eligible for advanced placement in the BS-completion program. Students meeting the eligibility requirement upon successful completion of N-376 and N-377 will be awarded 32 quarter hours of credit for prior nursing study. Students who do not meet these eligibility requirements can obtain 32 quarter hours of credit for prior learning by passing specific tests from Excelsior College, formerly the American College Testing Proficiency Examination Program (ACT-PEP).

Students have the opportunity to repeat each ACT-PEP test once. In the event of a second failure, the student will be required to enroll in selected nursing courses or complete alternative course work.

**ACCELERATED RN-MS PROGRAM**

This is an accelerated program available to registered nurses. Minimum GPA for the previous college work is 3.0/4.0. The applicant will also need to provide evidence of college credit for the prerequisite nursing, natural and social science courses with a minimum of 3.0/4.0 GPA for those courses.

Students selecting this option will take three master’s level courses in place of three undergraduate courses; these three courses will be counted toward both the B.S. and the M.S. degree requirements. The Bachelor's degree will be awarded after successfully completing a total of 192 credit hours including a minimum of 56 credits at DePaul University and 32 upper division nursing credits. Students may not take more than 3 graduate courses as undergraduate students. Application to the graduate program must be made in the academic term prior to enrolling in the 4th graduate course.

**ALLIED FIELD REQUIREMENTS**

The following courses are considered foundational to the upper division major and must be completed prior to beginning clinical courses. Course requirements may be met through transfer credit, credit by examination, or completion at DePaul. Behavioral and natural science courses must be taken outside the nursing major.

Anatomy; Physiology; Microbiology; Organic and Inorganic Chemistry with lab (see Liberal Studies electives above); Human Development (see Liberal Studies requirements above); Cultural Anthropology (see Liberal Studies requirements above); Nursing 260 (or Statistics); Nursing 261 (or Finance and Accounting); Fundamentals of Nursing (transfer credit or ACT-PEP test); Adult Health Nursing (transfer credit or ACT-PEP test); Maternal-Child Health Nursing (transfer credit or ACT-PEP test); Psychiatric-Mental Health Nursing (transfer credit or ACT-PEP test).

**NURSING REQUIREMENTS**

The following nine courses (32 credits) are required for the major in nursing:

Nursing: 330 Foundations of Professional Nursing; 332 Physical and Psychosocial Assessment Strategies; 340 Introduction to Nursing Research; 360: Teaching and Learning for Health Promotion; 376: The Professional Nurse as Community Case Manager; 377: Practicum: Professional Nursing as Community Case Manager (see Liberal Studies Requirement above); 380 Undergraduate Synthesis (see Liberal Studies Requirement above); 400: Nursing Theories; 430:
Legal-Political Issues in Nursing; 433: Nursing & Biomedical Ethics--; 453: Case Management and the Managed Care Environment; Nursing Elective (1); and General Electives (4).

**SCHOLASTIC REQUIREMENTS**

A Bachelor of Science degree with a major in nursing requires a minimum of 192 quarter hours. Courses in the nursing major are arranged by levels (junior and senior) and consist of increasingly complex experiences. Because of the ordered sequences of learning in the nursing program, students who do not achieve a C grade in a nursing course must repeat the course successfully before proceeding to the next level. Students must have at least a cumulative grade point average of 2.5 on a 4.0 scale before starting junior-and senior-level nursing courses. Because nursing is a professional curriculum, students who receive a total of two unsatisfactory grades in nursing courses (C- or less) are not permitted to continue in the program. Students will have only one opportunity to repeat a nursing course for which an unsatisfactory grade has been received. Students must maintain an overall grade point average of 2.5 to remain in the program.

Students who drop or withdraw from a nursing course are required to see the chair of the department the quarter prior to registering to repeat the course so that placement can be planned. Students who are out of the program for one year or more will need to see a faculty advisor within the Department of Nursing prior to resuming the nursing sequence.

**FEES AND RESPONSIBILITIES**

A physical examination, selected laboratory tests, certification as a basic rescuer in cardiopulmonary resuscitation, and malpractice insurance are required before registered nurse students can enter clinical courses. Transportation to cooperating agencies is the responsibility of the student. Laboratory fees are required for Nursing 332.

**COURSES**

Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The Department of Philosophy serves the needs of the student who seeks an understanding of philosophical issues for personal enrichment, the student who desires a more fundamental appreciation of philosophy in support of law, medicine, business, and various academic disciplines, and the student who wishes to continue the study of philosophy at the graduate level.

Through its courses and programs, the department acquaints students with various philosophical systems and with basic problems posed by diverse thinkers. Courses have been designed to highlight both the humanistic and technical features of philosophy.

The department also recognizes the important need for skills and training. Its courses in logic and analysis have been designed to help students become more perceptive in their experiences and more critical in their thinking.

Further, the department is aware that in our age of rapid change, society often tends to neglect the meaning and worth of the person. Courses are therefore offered which investigate and emphasize the dignity of the person; and by helping one understand the nature and grounds of ethical judgments, to promote an appreciation and ordering of human values.

The department has recently completed a thorough revamping of its entire undergraduate program. Our purpose has been (1) to ensure that our Liberal Studies courses remain responsive to the needs of the student who does not plan to specialize in philosophy; (2) to expand and enrich our offerings for philosophy majors.

The department is particularly proud of its “Philosophy Forum,” an undergraduate philosophy club organized and run by our spirited and energetic students!

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in philosophy. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required

First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States.

Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

Senior Capstone: (4 quarter hours required) Philosophy requires that all students majoring in Philosophy complete the senior capstone in Philosophy. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

Learning Domains: 52 quarter hours required

Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.

Philosophical Inquiry: not required.

Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.

Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from the same department or program.

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in philosophy contributes to a student’s liberal education, courses offered by the department of philosophy are not applied towards liberal studies requirements for the philosophy major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL DEGREE REQUIREMENTS

STANDARD CONCENTRATION

Philosophy: 56 quarter hours in philosophy (or their equivalent) distributed as follows:

Basic prerequisite: 100 Philosophy and Its Issues. Cognitive Skills: one course which must be 301 Basic Logic or 304 Symbolic Logic. History Sequence: three courses, one of which must be 310: 310 Ancient Greek, 311 Medieval and Renaissance, 312 Early Modern, 313 Kant and 19th Century. Figures and Texts: two courses. Philosophical Themes: three courses, one of which must be 320 Metaphysics or 321 Epistemology or 327 Topics in Ethics or 328 Topics in Economic, Social, and Political Philosophy. Students must also take the Capstone Seminar for Philosophy Majors. The remaining eight quarter hours may be taken from any of the offerings.

The student must elect 52 quarter hours of additional coursework, at least 24 quarter hours of which must be taken outside Philosophy. Students should regularly discuss their choice
of electives with their advisors.

The regular program of courses is supplemented by philosophical symposia and mini-courses featuring prominent philosophers and by departmental colloquia. Each student is expected to consult with his or her departmental advisor on course selection. With departmental permission, a senior may take one course selected from the graduate offerings in philosophy. He or she may take this course on a pass/fail basis. Certain courses in other departments are acceptable equivalents for philosophy credit. Seniors who have a superior record in philosophy may petition to do a Senior Thesis.

SPECIAL PROGRAMS

PHILOSOPHY MINOR

The minor program is designed to complement the majors of other departments. It is designed also for those who, while not wishing to specialize in philosophy, nonetheless seek to pursue enduring questions, appraise contemporary values, and discuss critically topics of general human concern. (If you wish to use this program as an academic minor, check with your department for permission and with the Philosophy department for sample programs.)

The 24 quarter hours which are required for a minor in philosophy are to be distributed as follows: History sequence: three courses, one of which must be 310 (310, 311, 312, and 313); Figures and Texts: one course; Philosophical Themes: one course. (One of the courses Philosophy 314 or 315 may be substituted for the Philosophical Themes course.) The remaining course may be taken from any of those offered at the undergraduate level by the department, except 100 Philosophy and Its Issues. With permission a student may take the Capstone Seminar for Philosophy Majors as part of his or her minor. Transfer credit may be recognized. (Please note that 100 Philosophy and Its Issues is the prerequisite for all 300-level philosophy courses except those listed under Cognitive Skills, i.e. 301, 303, 304.)

The Department of Physics offers courses to meet a broad spectrum of student needs. The Standard Physics concentration (I) provides a curriculum based in the traditional areas of theoretical and experimental physics. The Applied Computational Physics concentration (II) provides a hands-on curriculum in computational and experimental physics with an emphasis on applications in modern applied physics. In both concentrations student participation in faculty research is an important component of the program that prepares students for independent work in graduate school or industry. Both concentrations also prepare students for graduate study, either in physics or in applied sciences such as optics, photonics, scientific computing, engineering or computer science.

The Physics Department also offers a concentration in Engineering Physics (III). In this concentration, students take courses in physics at DePaul and engineering courses at another university, leading to degrees in both Physics and Engineering. Through a joint program with the Illinois Institute of Technology, students can complete a five-year dual-degree program while remaining full-time DePaul students. Additionally, the Department administers a Pre-engineering program that provides students with the scientific basis to successfully complete an engineering program at another institution.

Finally, the Department of Physics offers a less mathematical curriculum for students who require familiarity with the concepts, methodology, and instrumentation of physics as part of their preparation for careers in fields such as health, law, journalism, etc. A program in secondary-teacher education is also available.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 28 quarter hours required in the liberal studies core, students are required to complete 48 quarter hours distributed through five learning domains as part of their Bachelor of Science degree in physics. The number and distribution of courses in each of the areas are as follows:

Core: 28 quarter hours required

First Year Program: (16 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, and Composition and Rhetoric I and II.

Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

Senior Capstone: (4 quarter hours required) Physics requires students majoring in Physics to complete the senior capstone in Physics, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

Learning Domains: 48 quarter hours required

Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.

Philosophical Inquiry: 8 quarter hours required.

Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: not required.

Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from the same department or program.

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.
Although study in physics contributes to a student’s liberal education, courses offered by the department of physics are not applied towards liberal studies requirements for the physics major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

**DEPARTMENTAL PROGRAM REQUIREMENTS**

**COMMON CORE**
Physics: 170, 171, 172, 270.
Mathematics: 160, 161, 162 or 170, 171, 172.

**I. STANDARD CONCENTRATION AFTER COMMON CORE:**

Physics: 300 Methods of Computational and Theoretical Physics I; 301 Methods of Computational and Theoretical Physics II; 310 Mechanics I; 311 Mechanics II; 320 Electricity and Magnetism I; 321 Electricity and Magnetism II; 340 Thermal Physics; 350 Optics; 360 Modern Physics I; 361 Modern Physics II; 370 Electronics; 380 Experimental Physics I.

Mathematics: 260 Multivariable Calculus I; 261 Multivariable Calculus II.

**II. APPLIED COMPUTATIONAL PHYSICS AFTER COMMON CORE:**

Mathematics: 260 Multivariable Calculus I and 261 Multivariable Calculus II.

Supporting Fields: Three courses in Mathematics or Computer Science as approved by departmental advisor.

**III. ENGINEERING PHYSICS**

DePaul University offers a joint program with the Illinois Institute of Technology (IIT) in physics and engineering. This programs allows students to enroll in courses at IIT while remaining full-time DePaul students. Students will receive a degree in Physics from DePaul University and a degree in Mechanical Engineering from IIT upon completion of the five-year program. Students can also choose a four-year joint program that leads to a degree only from DePaul or can choose to complete their engineering requirements at another university. Students interested in Engineering Physics or the joint program should promptly consult with a Physics Department advisor for information about scheduling, requirements, and admission to the joint program.

**AFTER COMMON CORE:**

Physics: 300 Methods of Computational and Theoretical Physics I, 301 Methods of Computational and Theoretical Physics II, 370 Electronics. Either 320 and 321 Electromagnetism or 360 and 361 Modern Physics. Two additional physics courses at the 300 or 400 level as approved by advisor. Mathematics: 260 Multivariable Calculus I and 261 Multivariable Calculus

IV. DESCRIPTIVE PHYSICS AFTER COMMON CORE:

Physics: Six additional courses approved by a departmental advisor.
Supporting Fields: Seven courses which must include General Chemistry 111 and 113.
Note: Physics 170, 171, and 172 may be replaced by Physics 150, 151, and 152. Mathematics 160, 161, and 162, may be replaced by Mathematics 150, 151, and 152.

V. TEACHER OF PHYSICS: SECONDARY LEVEL

The Department of Physics offers a concentration of study which combines the requirements for a major in Physics with certification for teaching physics at the junior high, middle, and senior high school levels. A student electing such a program should consult the School of Education counselor as well as the Physics counselor as soon as possible after entering DePaul.

AFTER COMMON CORE:

Standard program: 300 Methods of Computational and Theoretical Physics I, 301 Methods of Computational and Theoretical Physics II, 310 Mechanics I, and five additional Physics courses, chosen from Concentration I or III; Chemistry 111 General and Analytical Chemistry I, 113 General and Analytical Chemistry II, and 115 General and Analytical Chemistry III; Education 339 Teaching Science in the Secondary School; Mathematics 260 Multivariable Calculus I and 261 Multivariable Calculus II.

SEQUENCING

It is extremely important that students interested in majoring in Physics begin the Calculus sequence in the first year of study so that they can complete the degree requirements in four years. Two options are available. The student may place directly into the Calculus sequence (Mathematics 160, 161, 162), or the student may place into Mathematics 131 (Trigonometry and Pre-calculus). Those students that place into Mathematics 160 should enroll in that course in their first quarter at DePaul. Students that place into Mathematics 131 are strongly advised to take Mathematics 147, 148, 149 (Calculus with Integrated Precalculus I, II and III) during their first year at DePaul. Another option for these students would be to take Mathematics 131 and Mathematics 160 concurrently in the Autumn Quarter.

Students interested in University Physics (Physics 170, 171, 172) during their first year. This sequence, along with the Calculus courses discussed above, are prerequisites to Physics 270, Physics 300, Physics 301, and Physics 370, which should be taken in the sophomore year along with Mathematics 260 and 261, Multivariable Calculus. All remaining courses are determined by the requirements of the concentration.

Students interested in Engineering Physics or Pre-engineering are urged to consult with a Physics Department advisor as soon as practicable.

The predominance of Physics, Mathematics, and Chemistry sequences in the freshman and sophomore years requires that the majority of Liberal Studies courses be postponed until the junior and senior years. Students should therefore take fewer Liberal Studies courses in the first two years, concentrating instead on major field requirements which are prerequisite to upper division courses.
SPECIAL PROGRAMS

PRE-ENGINEERING
The Pre-engineering Program is an important component of the Physics Department curriculum. It is an alternative to the Engineering Physics concentration and is designed to provide students that wish to attend DePaul University for one or two years with the scientific background necessary to complete a degree program in engineering at another institution. Under this program, DePaul University does not grant a degree but students benefit from the high faculty-to-student ratio in courses and the opportunity to work in faculty research labs.

MASTER OF SCIENCE DEGREE
Students intending to pursue a graduate Physics program should complete as many of the required courses as possible by the end of the junior year and should take additional graduate courses during their senior year. Following this plan, a student should be able to complete the B.S. and M.S. in five years. All departmental majors are encouraged to participate in research.

DOUBLE MAJOR
Students interested in a double major such as Mathematics and Physics, may elect a sufficient number of advanced mathematical science courses (generally six to eight) to satisfy the requirements of the concentration of their choice.

PHYSICS MINOR
A student majoring in another field of study may obtain a minor in Physics by taking six courses in Physics. For a standard Physics minor, three of these courses must be either 150, 151, 152 or 170, 171, 172. For a Microelectronics minor, three of these courses must be 110, 232 and 312 with three additional courses chosen from 150, 151, 152, 170, 171, 172, 206, 231, 331. Note for Computer Science majors: A Microelectronics minor may be obtained by taking either the 150 or 170 course sequence and 110, 232 and 312. A computational physics minor may be obtained by taking the core curriculum and 300, 301. Note for Recording Sound Technology majors in the School of Music: A Microelectronics minor may be obtained by taking one additional course.

RESEARCH AT ARGONNE NATIONAL LABORATORY
College juniors and seniors with a minimum GPA 3.0/4.0 who are U.S. citizens or permanent residents may apply for the Science and Engineering Research Semester (SERS) at Argonne. The SERS program pays a stipend, plus housing and travel. For more details write to: Science and Engineering Research Semester, Division of Educational Programs, Argonne National Laboratory, Argonne, IL 60439-4845 and contact the Physics Department chair.

**COURSES**

Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.

Unless otherwise specified, all courses carry 4 quarter hours credit. Courses 150 through 156 are offered primarily for students (such as those in programs in the biological and medical sciences) whose requirements call for a one-year course (with laboratory) in General Physics without calculus.
Political Science is the study of the organization and behavior of people, groups, and institutions which make up our government and the larger political system. The program offered by the department is designed to expose the serious student to questions, perspectives, and arguments about the political forces that shape his or her life. As such, it has value for Liberal Studies students as well as for those who may choose the discipline as a major field of study. Students find the substance and the methods of the discipline useful in the legal, business, civic, communications, governmental, and academic professions as well as any endeavor that draws them into public service.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM
In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in political science. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required
First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.
Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
Senior Capstone: (4 quarter hours required) Political Science requires students majoring in Political Science to complete the senior capstone in Political Science, unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.
Learning Domains: 52 quarter hours required
Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.
Philosophical Inquiry: 8 quarter hours required.
Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.
Self, Society and the Modern World: 4 quarter hours required
Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in political science contributes to a student’s liberal education, courses offered by the department of political science are not applied towards liberal studies requirements for the political science major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL PROGRAM REQUIREMENTS

I. STANDARD CONCENTRATION

• All majors are required to take PSC 200 Political Inquiry.
• At least one 4-credit 200-level course is required from each of the following sections of the curriculum: American Politics, Political Cultures, Political Thought, International Relations, and Comparative Politics. At least four 300-level courses are required and must be selected from three different sections.
• Twelve additional quarter hours are required in political science. However, no more than one course from among 120 The American Political System, 140 Conflict and Cooperation Among Nations, and 150 Political Systems of the World, may be included among the 52 quarter hours required for the B.A. in Political Science. None of these 100-level courses may be taken in the senior year.

SPECIAL PROGRAMS

INTERNATIONAL POLITICS MINOR

The minor in international politics is designed to provide the non-major with an opportunity to develop a specialty in the domestic and international politics of regions outside the United States. The following sequence of courses totaling 24 quarter hours is required:

  Political Science: 140 Conflict and Cooperation Among Nations and 150 Political Systems of the World; Two courses from the following: 242 American Foreign Policy, 243 Russian Foreign Policy; 244 Latin American-United States Relations; 250 West European Politics; 251 Russian Politics; 252 Latin American Politics; 253 Asian Politics; 254 African Politics; 255 Middle East Politics; 256 Southeast Asian Politics; Two of the following 300-level courses: 342 Arms, Security, and War, 343 Russian-American Relations, 344 World Political Economy, 345 Catholic Church in World Politics; 346 UN and World Problems; 347 Ethnic and US Foreign Policy; 349 Topics in World Politics; 351 Revolution; 352 Authoritarian Regimes; 354 Political Representation in Comparative Perspective; 355 State and Nation Building; 356 Ethnic Conflict in the Third World; 357 Eastern Europe in Transition; 358 Global Gender Issues; 359 Topics in Comparative Politics; and 361 International Law.

AMERICAN POLITICS MINOR

The minor in American Politics provides the non-major with a survey of American political institutions and behavior. The following sequence of courses totaling 24 quarter hours is required:

  120 The American Political System. Three courses from the following: 213 Political Socialization; 214 Multiculturalism and Democracy; 216 American Political Culture; 217 Women and Politics; 218 African-American Politics; 220 The American Presidency; 221 Congress and the Legislative Process; 222 Political Parties and Elections; 223 Urban Politics; 224 Public
Administration; 225 State Politics; 260 Law and the Political System; 286 Campaigns and Social Engagement. Two additional courses are to be selected from the following: 320 Dynamics of Public Policy; 321 Public Opinion and Mass Media; 322 Urban Policymaking; 324 Inequality in American Society; 325 Latino Political Empowerment; 326 Agenda Setting and Public Policy; 328 Topics in American Politics; 329 Topics in Public Policy; 330 American Political Thought; 362 The Criminal Justice System; 369 Topics in Public Law; 381 Theory and Practice of Public Policy.

**HONORS SEQUENCE**

Selected juniors majoring in Political Science may take the Honors Seminar, Political Science 393. Seniors with a minimum GPA of 3.3 may enroll for Senior Thesis, Political Science 394, under the supervision of one of the department faculty members.

COURSES
Please visit Campus Connection at https://campusconnect.depaul.edu for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology. The primary means of attaining this goal is classroom instruction. Some of our courses include laboratories consisting of experimental and statistical work; others afford the opportunity for the development of original research studies involving only library work or involving both library work and data collection. Further learning opportunities are made available through field work, Honors Program, Independent Study, and internships. Our internship program consists of supervised work placements in human services and industrial settings for which students earn academic credit.

The department offers six concentrations. The B.S. concentration is appropriate for students interested in psychology as a scientific endeavor, and/or for students planning to pursue graduate work in psychology. The five B.A. concentrations (Standard, Human Development, Human Services, Industrial/Organizational and Comprehensive Evening Program) provide alternative programs for students with a variety of interests. A combined B.A./M.S. program in Industrial/Organizational Psychology is also available. Selection of the appropriate program should be made in consultation with an advisor, taking into account the student’s specific interests and needs.

After completing any of the programs, a student should be able to read and understand behavioral science data, should be able to design and conduct rudimentary psychological research studies, and should be able to apply research findings to everyday situations. Further, the student should have a broad grasp of psychology as a behavioral science in both its research and applied aspects.

Psychology as a major provides excellent opportunities for students planning to go to graduate or professional school. Our B.S. concentration can provide preparation for the medical and dental fields, and our Human Services concentration can be very compatible with a prelaw curriculum. The Industrial/Organizational concentration is directly related to careers in business and fits well with M.B.A. programs.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts or Science degree in psychology. The number and distribution of courses in each of the areas are as follows:

- **Core**: 32 quarter hours required; 20 quarter hours in the First Year Program (4 quarter hours in Discover Chicago or Explore Chicago, 4 quarter hours in Focal Point Seminars, 8 quarter hours in Composition and Rhetoric, 4 quarter hours in Quantitative Reasoning), 4 quarter hour sophomore seminar on Multiculturalism in the United States, 4 quarter hour junior year experiential learning requirement, and 4 quarter hour senior capstone requirement.

- **Learning Domains**: 52 quarter hours required
  - **Arts and Literature**: 12 quarter hours required. At most 2 courses from the same department or program.
  - **Philosophical Inquiry**: 8 quarter hours required.
  - **Religious Dimensions**: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.
  - **Scientific Inquiry**: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.
  - **Self, Society and the Modern World**: 4 quarter hours required.
  - **Understanding the Past**: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in psychology contributes to a student’s liberal education, courses offered by the department of psychology are not applied towards liberal studies requirements for the psychology major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.
DEPARTMENTAL PROGRAM REQUIREMENTS

COMMON CORE

Psychology: 105 Introductory Psychology I; 106 Introductory Psychology II; 240 Statistics I; 241 Methods of Psychological Inquiry; and 242 (formerly 275) Experimental Psychology I. Psychology 105 and 106 are not sequential, i.e., one is not a prerequisite for the other. They may be taken in either order. However, 240, 241 and 242 must be taken sequentially.

I. STANDARD CONCENTRATION

Psychology: Common Core plus 342 Experimental Psychology II (formerly 276); 347 Social Psychology; 351 Theories of Personality; 361 History and Systems of Psychology; and four additional Psychology courses.

Supporting Fields: To be chosen by the student in consultation with departmental advisor.

II. HUMAN DEVELOPMENT CONCENTRATION

Psychology: Common Core plus 333 Child Psychology; 334 Adolescent Psychology; 347 Social Psychology; and five additional Psychology courses

Supporting Fields: To be chosen by the student in consultation with departmental advisor.

III. HUMAN SERVICES CONCENTRATION

Psychology: Common Core plus 333 Child Psychology; 347 Social Psychology; 353 Abnormal Psychology; 357 Applied Psychology I; 358 Applied Psychology II; and 395 Field Work/Internship which is taken three times in the student's senior year.

Supporting Fields: To be chosen by the student in consultation with departmental advisor.

IV. INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY CONCENTRATION

Psychology: Common Core plus 380 Industrial/Organizational Psychology; two courses from 355 Small Groups and Leadership, 381 Personnel Selection, 382 Organizational Behavior, 383 Psychology of Design, 384 Consumer Behavior and Advertising, and 385 Training and Development in Organizations; either 343 (formerly 356) Introduction to Psychological Measurement or 340 (formerly 390) Statistics II; and four additional Psychology courses.

Supporting Fields: To be chosen by the student in consultation with departmental advisor.

V. COMPREHENSIVE EVENING PROGRAM

Psychology: Common Core plus two courses from 355 Small Groups and Leadership, 380 Industrial and Organizational Psychology, 381 Personnel Selection, 382 Organizational Behavior and 385 Training and Development in Organizations; two courses from 302 Personal Adjustment and Mental Health, 351 Theories of Personality, and 353 Abnormal Psychology; two courses from 303 Human Development, 347 Social Psychology, and 360 Theories of Learning and Cognition; and two electives from the remaining above courses.

HONORS PROGRAM IN PSYCHOLOGY

Students who are eligible may apply to be admitted to the Honors Program in Psychology. A formal application must be submitted to the Departmental Honors Committee. This application is available in the Psychology Department Office. An honors research project will be completed during the student’s senior year in order to graduate with a Psychology Honors degree. Students accepted into the program must enroll in Psychology 396–Honors in Psychology (4 hours). In
order to enroll, approval must be received from the Departmental Honors Committee. The course consists of a supervised research project, which is completed during the student's senior year. The student works directly with a faculty sponsor on the research and attends monthly seminars throughout the year with other students in the Honors Program. Students must be registered for Psychology 396 in each quarter of their senior year. Students must also enroll in 340 Statistics II or 341 Quantitative Methods and in either 342 Experimental II or 343 Measurement.

CRITERIA
1. Minimum Psychology average: 3.6.
2. Minimum overall GPA: 3.3.
3. Letter from faculty sponsor.
4. Understanding of area and research ability of questions (from application).
5. Psychology 240 and 242 must be completed with no less than one A and one B in the courses.

BACHELOR OF ARTS/MASTER OF SCIENCE FIVE YEAR

PROGRAM IN INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY

The B.A./M.S. Program in Industrial/Organizational Psychology is a five-year program in which the student can earn both a B.A. and an M.S. in Psychology. The student will begin taking graduate level courses in the senior year and complete requirements for an M.S. in Psychology during the fifth year of study. Students should meet with an I/O area advisor as soon as possible — ideally, no later than the end of the sophomore year. Applications for admission to the M.S. portion of the program are available from the I/O Area Director and must be received along with supporting transcripts and Graduate Record Exam scores by June 1 of the junior year. The Liberal Studies requirements and the common core in Psychology must be completed. An overall GPA of 3.2 or better is required to be considered for the program.

Undergraduate courses: The same courses as the B.A. Industrial/Organizational Concentration (see page 242); however, additional undergraduate psychology electives are substituted for two undergraduate courses in Industrial/Organizational beyond 380. Graduate courses: 404 Learning Processes; 430 Advanced Social Psychology; 410 and 411 Advanced Statistics I and II; 420 Advanced Research Methodology; and 597 Master's Thesis Research. A total of five graduate-level Industrial/Organizational courses are selected in consultation with a program advisor.

Note: Please see the Graduate Bulletin for course descriptions.

BACHELOR OF SCIENCE DEGREE PROGRAM

LIBERAL STUDIES PROGRAM (SEE REQUIREMENTS ABOVE) DEPARTMENTAL PROGRAM REQUIREMENTS

Psychology: 105 Introductory Psychology I; 106 Introductory Psychology II; 240 Statistics I; 244 Methods of Psychological Inquiry; 242 Experimental Psychology I; 342 Experimental Psychology II; 343 Introduction to Psychological Measurement or 340 Statistics II; 360 Theories of Learning and Cognition; 361 History and Systems of Psychology; 377 Physiological Psychology; and three additional psychology courses.

Supporting Fields: Twenty quarter hours in biology or mathematics, or divided between biology and mathematics, are required. This requirement is to be developed in consultation with the departmental advisor. The student is urged to devote most, if not all, elective hours to courses in disciplines other than his/her major.

NOTE: An exceptional student who has completed the required courses in Experimental Psychology may, upon consent of his advisor and the chairman, be admitted in the senior year to certain 400-level courses described in the Graduate School Bulletin.
For students who are majoring in another department, the Psychology Department offers three minors, each requiring six courses in Psychology: the Experimental minor in Psychology (105, 106, at least two courses in Experimental/Biological foundations, and the remaining courses selected in consultation with the advisor); Industrial/Organizational minor (105, 106, at least two courses in Industrial/Organizational Psychology, and the remaining courses selected in consultation with the advisor); and an Applied minor (105, 106, at least two courses in Social and Personality or Applied Psychology and the remaining courses selected in consultation with the advisor). Self, Society, and the Modern World courses (except for 105 and 106) cannot be applied toward a psychology minor.

Public policies—which may involve government, corporations, or non-profit agencies—affect the life of every citizen. For example, governmental tax collection has a major effect on the geography of metropolitan development, the quality of local schools, and patterns of social inequality. Recent trends in U.S. politics and governmental practice also have placed public policy issues at a decisive crossroad. In the United States and other economically advanced nations there is an influential group of commentators advocating a systematic rethinking of governmental, and as such, public policy practices. In place of public bureaucratic systems for delivering services and regulating economic relations, many analysts presently contend that nongovernmental, market arrangements offer decided advantages. Similarly, in the United States and elsewhere the decentralization of governmental action has, in the last generation, become a significant policy trend.

Public Policy Studies is an interdisciplinary program offering majors the option to pursue concentrated work in the areas of Environmental Studies and Urban Studies. Students take a common core of six courses dealing with public policy processes, methods of public policy analysis, and important environmental and urban policy issues. Beyond this core curriculum, students choose either the Environmental Studies or Urban Studies track, selecting a group of courses from a focused curriculum drawn primarily from the several disciplinary departments participating in the Public Policy Program. A capstone senior seminar reconvenes the students from each concentration.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM
In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in public policy. The number and distribution of courses in each of the areas are as follows:

**Core:** 32 quarter hours required
- **First Year Program:** (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.
- **Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
- **Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
- **Senior Capstone:** (4 quarter hours required) Public Policy requires that all students majoring in Public Policy complete the senior capstone Public Policy. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

**Learning Domains:** 52 quarter hours required
- **Arts and Literature:** 12 quarter hours required; at most 2 courses from the same department or program.
- **Philosophical Inquiry:** 8 quarter hours required.
- **Religious Dimensions:** 8 quarter hours required; with 4 quarter hours in patterns and problems and 4 quarter hours in traditions in context.
- **Scientific Inquiry:** 12 quarter hours required; including 4 quarter hours lab component and 4 quarter hours quantitative component.
- **Self, Society, and Modern World:** 4 quarter hours.
- **Understanding the Past:** 8 quarter hours required; including 4 quarter hours of pre-1800 history and 4 quarter hours primarily between 1800-1945. In addition, courses must be drawn from two categories: (1) Africa, (2) Asia, (3) Latin America, (4) North America, and (5) intercontinental or comparative.

Although study in public policy contributes to a student’s liberal education, courses offered by the public policy studies program do not apply to majors’ liberal studies requirements. There are two exceptions: the experiential learning and capstone requirements.

All Public Policy majors take the six courses constituting the core curriculum. Each student also takes six courses from either the Environmental Studies or Urban Studies track. Students should complete PPS 201, 202, and 203 before enrolling in their environmental Studies or Urban Studies “track” courses. Each Student also enrolls in one “capstone” course.

**CORE REQUIREMENTS**

For concentrators in Environmental Studies, one course in Data Analysis (Mat 242, Psy 240 or Soc 279). For concentrators in Urban Studies, one course in Data Analysis (Mat 242, Psy 240 or Soc 279), or Cartography (Geo 241, Geo 242 or Geo 243).
THE CONCENTRATIONS

ENVIRONMENTAL STUDIES
Students taking the Environmental Studies concentration must take Public Policy 320 Public Policy in Production and Use of Energy and Pollution Control and 324 Public Policy and Natural Resources, as well as four additional courses:

No more than two courses from the following group:
  With the following courses also available for fulfilling the Environmental Studies concentration:
    Economics: 335 Energy and Environmental Economics
    Environmental Science: 340 Issues in Urban Forestry; 342 Natural History of Forests; 350 Environmental Impact Analysis
    Geography: 310 Land Use Ethics
    Physics: 201 The Atmosphere and the Oceans
  Public Policy: 358 Internship in Environmental Studies; 359 Topics in Environmental Studies

URBAN STUDIES
Students pursuing the Urban Studies concentration must choose six courses. Three courses will come from the following 200-level courses:
  Geography: 230 Transportation Issues and development; 233 Comparative Urbanism.
  Political Science: 223 Urban Politics.
  Public Policy: 250 Issues in Neighborhood Development; 251 Urban Poverty; 252 Urban Policy in Comparative and Historical Perspective; 253 The Cinematic City.
  Sociology: 214 Police and the Urban Community.

Three courses will come from the following 300-level courses:
  Economics: 310 Economics of the Urban Environment.
  Geography: 333 City Problems and Planning.
  Political Science: 322 Urban Policymaking.
  Sociology: 348 City of the Future.

CAPSTONE EXPERIENCES
Senior Public Policy majors will earn 4 credits through either a Senior Project or Senior Seminar.

SENIOR PROJECT
During their final year of study, students may conduct an independent research project or participate in a group research project. Students in the Environmental Studies concentration will enroll in Public Policy 395 Senior Project in Environmental Studies; those following the Urban Studies concentration will take Public Policy 396 Senior Project in Urban Studies.

SENIOR SEMINAR
Students from either concentration may participate in Public Policy 398 Senior Seminar which examines an emerging environmental or urban policy issue. The seminar's topic and instructor will vary from year to year.
COURSES
Please visit Campus Connection at https://campusconnect.depaul.edu for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The Department of Religious Studies offers students the opportunity to explore the religious dimensions of life and culture. These dimensions are found in the culturally embedded narratives, beliefs and practices of particular religions as well as encounters with realities perceived to be ultimate or sacred. Through myth, symbol, ritual and doctrine, these religions not only provide order and meaning, they also carry capacities to challenge and transform individuals and societies. Intellectual and social maturity requires understanding the unique contributions, both positive and negative, of the religious traditions of the world to culture and consciousness. It also requires coming to terms with questions of ultimacy. The department offers courses with a comparative, thematic, or ethical focus, as well as courses in specific traditions.

The department is committed to DePaul's Catholic, Vincentian heritage, and invites all its majors to take advantage of the unique opportunity to explore the history, culture and thought of the Roman Catholic tradition. Departmental majors will find a deeper understanding of Catholic Christian worldviews in courses offered by the department as well as those in the Catholic Studies Program. The Vincentian and Catholic background of DePaul University are expressed in a distinct institutional identity, which respects engaged pluralistic inquiry toward all religious traditions. The department is committed to offering a wide range of courses investigating various world religious traditions, great and small, as well as the international, urban character of Chicago itself. The department makes its multicultural commitments evident through rich offerings in the Roman Catholic tradition, other monotheistic systems, and religions of Africa, Asia, and the Americas.

The Department of Religious Studies has 18 full-time members trained in South and East Asian, African, Native Meso- and North American, Islamic and Jewish Studies; American, African American, and Latino Religious History; Christian History, Biblical Studies, Theology and Ethics. Various instructors also are trained in History, Sociology, Psychology, Anthropology, Business, Women's Studies, Literature, Art History and Studio Art. Instructors employ a diverse range of methods and materials from written texts, to film, slides, theater productions, studio art projects, and music. Most instructors employ group work along with a variety of individual written and field oriented assignments. Further learning opportunities are made available through the Senior Thesis, Independent Study and Internships. While the range of resources and pedagogical styles is creatively broad, traditional goals are not forgotten. Writing, synthetic and analytic thinking, and oral communication skills are emphasized in teaching.

The major has three concentrations. The Standard Concentration exposes all students to a variety of religious traditions, elements and issues. Additional work within the concentration allows the student to continue exploring a broad range of topics or to concentrate in one area. The second concentration, Cultural Studies in Religion, explores the relationship between religions and cultures. Specialization in a particular area (Asia, the Americas, Europe and the Middle East, or Africa and the African Diaspora) is complemented by work in a variety of cross-cultural issues such as religious expressions in literature and the arts, in sociopolitical realities, ethics, and ritual. The third concentration, Religion, Ethics and Social Justice, encourage students to develop an understanding of both Western and non-Western reflections on ethics and social justice, to examine value commitments of self and others and develop a personal ethical stance regarding current socio-cultural issues, and to link traditional classroom learning with experiential and service opportunities. The minor has five concentrations: 1) the Standard minor, which exposes students to a variety of religious traditions, elements and issues while allowing for a focus that complements the student’s major; 2) Cultural Studies in Religion, which explores the relationship between religions and cultures with a focus on a particular cultural area; 3) Religion, Ethics and Social Justice, which explores social justice and other ethical concerns in Western and non-Western religious traditions, 4) Women, Religion, and Spirituality, which studies religion with a special focus on issues, concerns and perspectives of women, including analysis of feminist scholarship; and 5) the Specialized minor, which allows...
students, in consultation with a departmental advisor, to propose a specialized concentration of six courses which complement the student’s major or career interests.

More information about the Department of Religious Studies, including career opportunities, graduate schools, and current activities of faculty, students and recent graduates may be found at the department’s web site, http://www.depaul.edu/~religion.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM
In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in religious studies. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required
   First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.
   Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States
   Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.
   Senior Capstone: (4 quarter hours required) Religious Studies requires that all students majoring in Religious Studies complete the senior capstone in Religious Studies. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

   Learning Domains: 52 quarter hours required
   Arts and Literature: 12 quarter hours required. At most 2 courses from the same department or program.
   Philosophical Inquiry: 8 quarter hours required.
   Religious Dimensions: not required.
   Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.
   Self, Society and the Modern World: 12 quarter hours required. At most 2 courses from the same department or program.
   Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in religious studies contributes to a student’s liberal education, courses offered by the department of religious studies are not applied towards liberal studies requirements for the religious studies major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL PROGRAM REQUIREMENTS

I. STANDARD CONCENTRATION
   56 hours in Religious Studies (60 with the Senior Thesis option). Exposes all students to a variety of religious traditions, elements and issues. Additional work within the concentration allows the student to continue exploring a broad range of topics or to concentrate in one area.
   Foundations: 208.
   Traditions and Cultures: Four courses distributed as follows. One of the following: 209 or 210; and one of the following: 211, 215, 261, or 290; and one of the following: 241, 242, 243, 244 or 245; and one of the following: 216, 217 or 263.
   Eight courses distributed as follows. One from each of the four headings: Religious Ethics, Religious Thought, Religious Texts and Religion and Culture. The student will elect four additional courses in Religious Studies. Of these eight courses, at least three must be 300 level.
II. CULTURAL STUDIES IN RELIGION CONCENTRATION

52 hours in Religious Studies (56 with the Senior Thesis option) and 12 hours in Allied Fields. Explores the relationship between religions and cultures. Specialization in a particular area (Asia, the Americas, Europe and the Middle East, or Africa and the African Diaspora) is complemented by work in a variety of cross-cultural issues such as religious expressions in literature and the arts, in socio-political realities, ethics, and ritual.

Foundations: 208.
Two of the following: 202, 220, 221, 223, 224, 225, 264, 324.
One of the following: 203, 204, 254, 256, 257, 273, 283, 285, 372.
Four courses in one particular cultural area, at least one of which must be 300 level:
Religions of North and South America: 209, 211, 261, 264, 266, 268, 290, 291, 342, 351, 360, 384; when applicable, 320, 340, 392.
Religions of Africa and the African Diaspora: 215, 244, 264, 266, 272, 274, 351; when applicable, 320, 340, 392.
One Independent Study.
Two Religious Studies electives, at least one of which must be 300 level.
Advanced Study: 390, or both 397 and 398.

Allied Field requirements: Three courses distributed as follows. Anthropology 102; and two additional courses outside of Religious Studies that directly focus on the cultural area being pursued.

III. RELIGION, ETHICS AND SOCIAL JUSTICE CONCENTRATION

52 hours in Religious Studies (56 with the Senior Thesis Option) plus 4 hours in an allied field. Explores social justice and other ethical concerns in Western and non-Western religious traditions in both theoretical and practical expressions. Traditional academic learning is complemented by experiential and service learning in courses focused on communities and societies beyond the university.

201, 202, 205, 206, and 208.
One of the following: 204, 225, 351.
One of the following: 227, 228, 229, 326.
One of the following: 222, 254, 267, 283, 286, 343, 320 (when applicable).
Two of the following: 258, 259, 392 (when applicable), 393.
Two Religious Studies electives.
Advanced Study: 390 or both 397 and 398.
Allied Field requirement: CSS 201 Perspectives in Community Service.
Students must take a minimum of three 300-level courses.

RELIGIOUS STUDIES MINOR

I. STANDARD MINOR

24 hours in Religious Studies. Exposes students to a variety of religious traditions, elements and issues while allowing for a focus that complements the student’s major.
Foundations: 208.
Traditions and Cultures: Two courses distributed as follows. One of the following: 209, 210, 211, 215, 261, or 290; and one of the following: 216, 217, 241, 242, 243, 244, 245, or 263.
Three courses distributed as follows. One each from three of the following headings: Religious Ethics, Religious Thought, Religious Texts, Religion and Culture, Advanced Study.

II. CULTURAL STUDIES IN RELIGION MINOR

24 hours in Religious Studies. Explores the relationship between religions and cultures
with a focus on a particular cultural area.

One of the following: 202, 220, 221, 223, 224, 225, 264, 324.

Four courses in one particular cultural area, at least one of which must be 300 level:

### III. RELIGION, ETHICS AND SOCIAL JUSTICE MINOR

24 hours in Religious Studies. Explores social justice and other ethical concerns in Western and non-Western traditions in both theoretical and practical expressions.

202 or 206.

One of the following: 264, 322, or 351.

One of the following: 227, 228, 229, or 326.

One of the following: 201, 205, 222, 267, 283, 286, 343, or 320 (when applicable)

One of the following: 258, 259, 392 (when applicable), or 393.

Allied Field: CSS 201, Perspectives in Community Service

### IV. WOMEN, RELIGION AND SPIRITUALITY MINOR

24 hours in Religious Studies. Explores religion with a special focus on issues, concerns and perspectives of women, including analysis of feminist scholarship. 278.

Five of the following, at least one of which must be 300 level: 237, 270, 272, 274, 322, 332, 370, 372.

### V. SPECIALIZED MINOR

24 hours in Religious Studies.

Allows students, in consultation with a departmental advisor, to propose a specialized concentration of six courses, which complement the student’s major or career interests.

**COURSES**

Please visit Campus Connection at [https://campusconnect.depaul.edu](https://campusconnect.depaul.edu) for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
The Bachelor of Science program in Scientific Data Analysis and Visualization is an interdisciplinary science, mathematics, and computer science curriculum designed to prepare students for technical careers in scientific research teams, for graduate study in science and computer science, or for the pursuit of professional degrees in business, medicine, and law. The program focuses on data analysis, modeling, visualization tools used by scientists in highly data intensive areas of research and development such as medical imaging, epidemiology, the Human Genome Project, satellite and astronomical image processing, digital terrain models, and the three-dimensional imaging of molecules. These areas and others require the processing of very large data sets and the use of many two- and three-dimensional imaging techniques. Communication skills and the ability to work in teams are emphasized in order to prepare students for work in highly complex, interdisciplinary research.

The Program requires 192 credit hours and draws upon the faculty and resources of the Program and several other departments. Majors take twelve science courses, three mathematics courses, four computer science courses, and six courses specifically in the program. The twelve science courses must represent at least two different sciences in some depth in order for develop fluency in more than one science. The mathematics-related courses emphasize calculus, modeling, statistics, and datamining. The computer science courses focus on programming and two- and three-dimensional graphics. The Scientific Data Analysis and Visualization courses focus on the analysis and visualization of actual scientific data, including a final applied project in the senior capstone courses.

The program provides a supportive environment for all students, including members of groups traditionally underrepresented in science, which encourages a broad perspective on science and its continuing important role in our society.

FACULTY PROGRAM COMMITTEE

DAVID C. JABON, PH.D.,
Associate Professor and Director
University of Chicago

BERNHARD BECK-WINCHATZ, PH.D.,
Assistant Professor
University of Washington

ULRICH KAMP, PH.D.,
Assistant Professor (Geography and Environmental Science)
Technical University Berlin

JOHN MCDONALD, PH.D.,
Assistant Professor (Computer Science)
Northwestern University

CAROLYN NARASIMHAN, PH.D.,
Associate Professor (Mathematical Sciences)
Northwestern University

JESÚS PANDO, PH.D.,
Assistant Professor (Physics)
University of Arizona

RUBEN D. PARRA, PH.D.
Assistant Professor (Chemistry)
University of Nebraska-Lincoln
ENVIRONMENTAL SCIENCE PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

Students are required to complete the Liberal Studies Program which consists of a core of 6 courses (First Year Program, Sophomore Seminar, Junior Year Experiential Learning) and 12 courses distributed through five learning domains as part of their Bachelor of Science degree in Scientific Data Analysis and Visualization. All courses carry four credit hours.

Core (6 courses in total)

First Year Program: (4 courses)
- ISP 103 Discover Chicago or ISP 102 Explore Chicago
- ISP 101 Focal Point Seminar
- ENG 103 Composition and Rhetoric I
- ENG 104 Composition and Rhetoric II

Sophomore Seminar on Multiculturalism in the United States (1 course)

Junior Year Experiential Learning (1 course)

Learning Domains: 48 quarter hours required

Arts and Literature: (3 courses) A student may take at most 2 courses from the same department or program.

Philosophical Inquiry: (2 courses)

Religious Dimensions: (2 courses) 1 course in patterns and problems, and one course in traditions in context.

Scientific Inquiry: not required.

Self, Society and the Modern World: (3 courses) A student may take at most 2 courses from the same department or program.

Understanding the Past: (2 courses); one course of history pre-1800 and one course of history primarily between 1800 and 1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Courses offered by the Scientific Data Analysis and Visualization Program are not applied towards liberal studies requirements for a Scientific Data Analysis and Visualization major.

Note regarding Senior Capstone requirement of the Liberal Studies Program The Senior Capstone requirement of the Liberal Studies Program is fulfilled by SDV 390 below, a course required in the departmental program.

DEPARTMENTAL PROGRAM REQUIREMENTS

Students must take the following 24 courses. All courses below are four credit hours.

1. Mathematics Courses (3):
- MAT 150, Calculus I
- MAT 151, Calculus II
- MAT 220, Linear Algebra

2. Computer Science Courses (3)
- CSC 211 Programming in Java I
- CSC 212 Programming in Java II
- GPH 371 Survey of Computer Graphics

3. Scientific Data Analysis and Visualization Core (6 courses)
Please note that while SDV 390 is required as part of the Departmental Program, it also applies to the Liberal Studies Program.

4. Science Courses (12)

Students will take 12 science courses from the list below, two sets of five along with two others that can chosen according to the guidelines. Each set of five has a theme. In cases where the two sets contain the same courses, students will substitute courses that have been approved by their advisor.

COURSE LISTING BY CATEGORY

Biotechnology
BIO 101 Intro Biology
BIO 220 Biotechnology
BIO 250 Cell Biology
BIO 260 Genetics
BIO 360 Molecular Biology

Ecology/Evolution
BIO 102 Plant Biology
BIO 103 Animal Biology
BIO 215 Ecology
BIO 335 Concepts in Evolution
BIO 315 Topics in Ecology

Foundations of Chemistry
CHE 111-113-115 General Analytical Chemistry or
CHE 131-133 General Chemistry
CHE 171 Mechanistic Organic Chemistry
CHE 127 Quantitative Analysis or CHE 147 Analytical Techniques

Foundations of Physics
PHY 150 General Physics I or PHY 170 University Physics I (not both)
PHY 151 General Physics II or University Physics II 171 (not both)
PHY 152 General Physics III or University Physics III 172 (not both)
PHY 270 University Physics IV
One accepted elective from list below

Foundations of Chemistry
CHE 111-113-115 General Analytical Chemistry or
CHE 131-133 General Chemistry
CHE 171 Mechanistic Organic Chemistry
CHE 127 Quantitative Analysis or CHE 147 Analytical Techniques
Environmental Science
BIO 102 Plant Biology
BIO 215 Ecology
ENV 216 Earth Systems
ENV 217 Environmental Impacts
ENV 322 Ecosystem Ecology

Geospatial Analysis
GEO 241 Computer Cartography
GEO 242 Geographic Information Systems
GEO 243 Remote Sensing
GEO 244 Advanced GIS
GEO 391 Spatial Analysis

Applied Physics
PHY 104 The Sun and Its Planets
PHY 204 Frontiers of the Universe
PHY 206 Sound and Acoustics
PHY 225 Intro. to Weather and Climate (crosslisted as GEO 225 Weather and Climate)
One accepted elective from list below

The 2 additional science courses must be chosen from the following list:

Biology:
BIO 250, 215

Chemistry
If 6 or 7 courses, CHE 210, 211, 265, 267, 268, 269, 240, 340, or 342
If 1 course, any SI Lab or Quantitative course
If 2 courses, one SI Lab and one SI Quantitative course

Physics
PHY 104, 110, 150, 151, 152, 170, 171, 172, 200, 204, 206, 225, 232, 270, 300

Geography
GEO 211, 225, 241, 242, 243

Environmental Science
ENV 216, 250

5. Electives (6 courses, unless prerequisite writing or mathematics courses are needed)

COURSES

Sociology is the study of groups, social concerns, social processes, and institutions. To study these the department provides a program that includes information (what we know), methodology (how we know) and theory (how we explain). The curriculum aims to provide students with a basis for understanding and participation in their own communities and enables the pursuit of careers and occupations in professions related to sociological knowledge and training. For majors interested in culture and society, the department offers a concentration in Cultural Studies that focuses on institutions such as media, popular culture, sports, the arts, and religion, as well as cultural diversity in post-industrial society.

For majors interested in careers in social work, health-related fields, education and counseling, the department offers a concentration in Health and Human Services focusing on the impact of social structures, institutions and groups on the individual.

For majors wanting to pursue a career in the areas of law enforcement and services to youth, the department offers a concentration in Juvenile Justice. In addition, the department offers a concentration in Law and Society relevant to pre-legal training and careers in the criminal justice system. For majors planning careers in such areas as urban planning and development, social and community relations and government, the department offers a concentration in Urban Studies, which provides knowledge and understanding of contemporary trends and processes in urban areas. For students who are majoring in another department, a series of courses may be organized as a minor field. Students who wish to learn more about the sociology program are invited to talk with the chair and members of the department.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in sociology. The number and distribution of courses in each of the areas are as follows: **Core:** 32 quarter hours required

**First Year Program:** (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

**Sophomore Seminar:** (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

**Junior Year Experiential Learning:** (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

**Senior Capstone:** (4 quarter hours required) Sociology requires students majoring in Sociology to complete the senior capstone in Sociology (SOC 395), unless you are a double major and/or in the Honors program. If you are a double major and/or in the Honors Program you must follow the capstone guidelines for that area if the capstone is required. If the capstone is optional in the other areas, you can elect which capstone to complete.

**Learning Domains:** 52 quarter hours required

**Arts and Literature:** 12 quarter hours required. At most 2 courses from the same department or program.

**Philosophical Inquiry:** 8 quarter hours required.

**Religious Dimensions:** 8 quarter hours required: 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

**Scientific Inquiry:** 12 quarter hours required: 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.

**Self, Society and the Modern World:** 4 quarter hours required.

**Understanding the Past:** 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in sociology contributes to a student's liberal education, courses offered by the department of sociology are not applied towards liberal studies requirements for the sociology major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL PROGRAM REQUIREMENTS

SOCIOLOGY MAJOR

The major consists of a five-course core program and eight additional department courses. A student may select the eight courses from one concentration or may choose from several areas to form a standard concentration. Five of the eight selected courses should be at the 300 level. The course 395 Capstone in Sociology is not included in the 13 courses required for the major. In addition; 14 supporting elective courses are to be selected in consultation with the student's academic advisor.

SOCIOLOGY MINOR

For students who are majoring in another department, the Department of Sociology offers a minor composed of five (5) courses. Students must take either Soc. 101 or Soc. 105. Students may wish to select their courses from one of the following concentrations: Cultural Studies, Health and Human Services, Juvenile Justice, Law and Society, and Urban Sociology; or the Standard Concentration. Courses from the research methods sequence are recommended but not required.
FIVE-YEAR MASTER’S DEGREE IN SOCIOLOGY

The Sociology Department offers a special option to majors with a potential for graduate work: a five-year program in which the student receives a B.A. after four years and an M.A. at the end of the fifth year. This represents a savings of about a year over the conventional M.A. degree and a reduction in courses taken during the fifth (M.A.) year. It provides a strong background for students wishing to enter professional programs (law, MBA or Ph.D.). A student in this program can begin to take graduate courses during the senior year. Majors should apply for this option no later than the last quarter of their junior year.

COMMON CORE PROGRAM IN MAJOR

Majors are required to take five core courses: 101 Introduction to Sociology or 105 Social Problems; 331 Sociological Theory; and a three-course methods sequence consisting of 379 Introductory Statistics for the Social Sciences, 380 Research Methods I and 381 Research Methods II.

I. STANDARD CONCENTRATION

The Standard Concentration consists of the common core plus eight departmental courses, five of which must be 300-level courses. Students should select these courses in consultation with their advisor.

II. CULTURAL STUDIES

The Cultural Studies Concentration consists of the common core plus:
- Two 200-level courses from: 207 Youth and Society; 213 Black American Music; 233 Sociology of Sport; 280 Mass Media and Culture; 281 Sociology of Rock Music; 282 Rock Journalism; and 290 Special Topics in Cultural Studies.
- Three 300-level courses from: 311 Sociology of Latino Culture; 318 Social Change in the Developing World; 382 Qualitative Methods; 383 Visual Sociology; 385 The Social Significance of Black Music and Entertainment; 386 Popular Culture and the Arts; and 390 Special Topics in Cultural Studies.

And three additional electives in Sociology, which may include those course listed above.

Five of the eight courses beyond the core program must be 300-level courses.

III. HEALTH AND HUMAN SERVICES

The Health and Human Services Concentration consists of the common core plus:
- Two 200-level courses from: Sociology 200 Social Work and Social Welfare; 221 Health and Society; and 222 Health and International Health Care Systems.
- Three 300-level courses from: Sociology 306 Families; 321 Health and Human Service Organizations; 323 Social Welfare Institutions; 326 Life Cycle: Middle Age and Aging; 352 Sociology of Health and Illness; 353 Sociology of Mental Illness; 360 Social Services in Contemporary Societies; 361 Techniques and Problems in Social Work Practice; and 390 Special Topics in Health and Human Services.

Five of the eight courses beyond the core program must be 300-level courses.

IV. JUVENILE JUSTICE

The Juvenile Justice Concentration consists of the common core plus:
- Three 300-level courses from Sociology 301 The Juvenile Court System: Its Operation; 306 Families; 316 Street Gangs; 322 The Treatment and Prevention of Delinquency; 353 The Sociology of Mental Illness; 361 Techniques and Problems in Social Work Practice; and 390 Special Topics in Juvenile Justice.

And three additional electives in Sociology, which may include those course listed above.

Five of the eight course beyond the core program must be 300-level courses.
V. LAW AND SOCIETY

The Law and Society Concentration consists of the common core plus:
Two 200-level courses from: Sociology 208 Law and Society; 214 Police and the Urban community; and 220 Theories of Crime and Delinquency.

Three 300-level courses from: Sociology 301 The Juvenile Court: Its Operations; 304 Social Deviation; 305 Institutional Responses to Deviation; 310 Criminal Justice: The Courts and Corrections; 315 Sociology of Law; 322 The Treatment and Prevention of Delinquency; 344 Political Sociology; 354 Comparative Politics; and 390 Special Topics in Law and Society.

And three additional electives in Sociology, which may include those course listed above. Five of the eight course beyond the core program must be 300-level courses.

VI. URBAN SOCIOLOGY

The Urban Sociology Concentration consists of the common core plus:
Two 200-level course from: 206 Work and Society; 212 Community and Society; 231 Urban Ethnicity; 232 Urbanism and Society; and 270 Sociology of the Built Environment.

Three 300-level course from: Sociology 345 Urban Sociology; 346 Urban Ethnography; 347 Urban Structure and Decision Making; 348 The City in the Future; 351 Urban Demography 354 Comparative Community Politics; 355 Chicago as a Social System; 356 The City in Cross-Cultural Perspectives; and 390 Seminar in Urban Sociology.

And three additional electives in Sociology, which may include those course listed above. Five of the eight course beyond the core program must be 300-level courses.

COURSES

Please visit Campus Connection at https://campusconnect.depaul.edu for current course information. If you do not have a password for Campus Connection you may log on as a guest. Once you are on Campus Connection please select Course Descriptions followed by the department.
Women’s and Gender Studies is an interdisciplinary program offering a major and minor. Women’s and Gender Studies courses focus on women's accomplishments, conditions, and contributions within their cultural and cross-cultural contexts, thus illuminating the values implicit in women's place in society. The theoretical constructs of Women's and Gender Studies look to the social, cultural, and historical constructions of gender, considering the distinction between concepts of gender and biological sex differences. Looking at gender as a determinant across and through disciplines, Women’s and Gender Studies crosses the boundaries of traditional fields of study, offering fresh views of their subject matter and creating a new coherent way of understanding human experience. The theory-building of Women’s and Gender Studies, now generally known as Feminist Theories, works both within and across disciplines to analyze the origins and effects of power, dominance, and gender. The major and minor combine Women’s and Gender Studies Program interdisciplinary courses with departmental courses developed specifically for the Women’s and Gender Studies Program. Courses are offered regularly by twelve departments in the college—in the social sciences, the humanities, philosophy, and religion—as well as by the School of Education. A major or double major in Women’s and Gender Studies prepares students for graduate study and for careers in the public and private sectors, including social services, public policy, education, advocacy, creative arts, counseling, advertising and marketing. A minor in Women’s and Gender Studies strengthens preparation for many areas of graduate study, as well for a range of career opportunities in both traditional fields and in occupational areas which have opened as a result of the women’s movement. Students who would like to know more about the Women’s and Gender Studies Program are invited to speak with the director and the other faculty members of the program.

PROGRAM DEGREE REQUIREMENTS

LIBERAL STUDIES PROGRAM

In addition to the 32 quarter hours required in the liberal studies core, students are required to complete 52 quarter hours distributed through six learning domains as part of their Bachelor of Arts degree in Women's and Gender Studies. The number and distribution of courses in each of the areas are as follows:

Core: 32 quarter hours required

First Year Program: (20 quarter hours required) Discover Chicago or Explore Chicago, Focal Point Seminar, Quantitative Reasoning, and Composition and Rhetoric I and II.

Sophomore Seminar: (4 quarter hours required) Sophomore Seminar on Multiculturalism in the United States

Junior Year Experiential Learning: (4 quarter hours required) If your junior year experiential learning requirement also fulfills a major field requirement, you may substitute a liberal studies domain elective (from outside your major field area) or the third course in the modern language option for this requirement.

Senior Capstone: (4 quarter hours required) Women's and Gender Studies requires that all students majoring in Women's and Gender Studies complete the senior capstone in Women's and Gender Studies. If you are double majoring and/or in the Honors program you must also follow the capstone guidelines for that area.

Learning Domains: 52 quarter hours required

Arts and Literature: 8 quarter hours required. At most 2 courses from the same department or program.

Philosophical Inquiry: 8 quarter hours required.

Religious Dimensions: 8 quarter hours required; 4 quarter hours in patterns and problems, and 4 quarter hours in traditions in context.

Scientific Inquiry: 12 quarter hours required; 4 quarter hours with a lab component, 4 quarter hours with a quantitative component, and 4 quarter hours scientific inquiry elective.

Self, Society and the Modern World: 8 quarter hours required. At most 2 courses from the same department or program.

Understanding the Past: 8 quarter hours required; 4 quarter hours of history pre-1800 and 4 quarter hours of history primarily between 1800-1945. In addition, courses must be from two different categories: 1) Asia, 2) Latin America, 3) Africa, 4) North America or Europe and 5) intercontinental or comparative.

Although study in Women's and Gender Studies contributes to a student’s liberal education, courses offered by the department of Women's and Gender Studies are not applied towards liberal studies requirements for the Women's and Gender Studies major. Exceptions to this rule are the junior experiential learning and the senior capstone requirements.

DEPARTMENTAL PROGRAM REQUIREMENTS

WOMEN'S STUDIES MAJOR

A thirteen-course major is offered, consisting of a six-course common core, four courses in one concentration area, and three electives. All Women's Studies majors must complete a declaration of major form, which is available either from a departmental or LA&S advisor.

COMMON CORE

Six core courses are required in Women's Studies.
