GENERAL INFORMATION

DePaul University, founded on Judeo-Christian principles, continues to assert the relevance of these principles through higher education to our students. The University expresses these principles especially by passing on the heritage of St. Vincent DePaul: individual perfection manifested through purposeful involvement with other persons, communities and institutions. The School of Education manifests these principles in its purpose, and through its programs.

As an urban institution, the School of Education is committed to improving primary and secondary education in the metropolitan area and, in particular, in the city of Chicago. Framed within a commitment to promote and support diversity, the School of Education prepares all of its students to be "Urban Professional Multicultural Educators" who:

- Promote positive transformation
- Consider multiple perspectives
- Integrate inquiry, theory, and practice
- Exhibit Vincentian personalism
- Function as life long learners.

The Department of Leadership in Education, Language and Human Services is a multidisciplinary academic body that aims to fully prepare urban multicultural professional practitioners and leaders to work in a variety of educational and community settings. Practitioners who complete a course of study offered by our department will contribute to their respective fields, balance theory with practice, consider multiple points of view in decision making, promote positive transformations in the settings in which they are engaged, and continue to function as lifelong learners. The practitioner’s professional role is shaped by ongoing reflection and positive engagement with the individual, the community, and the larger sociopolitical realities. The preparation we offer practitioners demonstrates our commitment to social justice, critical pedagogy, and positive educational transformation. The disciplines in the Department address these themes from a variety of perspectives that include language and culture, curriculum theory and development, special education and other specialized instruction, human services and counseling, and educational leadership in administration and supervision.

The following graduate programs are offered at Lincoln Park:
- M.A or M.Ed. in Bilingual Bicultural Education
- M.A or M.Ed. in Curriculum Studies
- M.A or M.Ed. in Educational Leadership
- M.A or M.Ed. in Human Services and Counseling
- M.A or M.Ed. Language, Literacy, and Specialized Instruction

A doctoral program, Ed.D. degree, with concentrations in Curriculum Studies and Educational Leadership is offered by the School of Education and administered jointly across departments.

The Department of Educational Policy Studies and Research (EPSR) studies the complex dynamic interplay between the individual, society, and sociocultural processes that unfold in multiple educational contexts. It offers courses examining educational theories, institutions, practices, policies, and human development across the life span, and issues in education research. EPSR represents the foundational disciplines of history, philosophy, psychology, sociology, and human development as they are related to the study of education. It also considers debates about investigative methodology in education, and the contribution of research to the understanding of educational and social problems. Accordingly, its courses examine questions of disciplined inquiry, theoretical discourse, educational and social development, inequality, economic and political change, and cultural identity in relation to formal and informal education, in schools and related settings. The study of these issues is informed by an ethical disposition that features a critical examination of assumptions regarding norms and standards, and the quest for social justice. The Department provides disciplinary and research course work for students in other programs of the School, while also preparing students from EPSR for positions in, for example, government, service organizations, private foundations and institutes, adult education and training, cultural organizations, as well as for doctoral work in educational policy studies for a university teaching and research career.

The Department is the home of the School of Education’s DePaul Institute for Teacher Development and Research, directed by EPSR faculty. The Institute’s focus is the quality of teacher’s work life, professionalism, the impact of high stakes testing and standards on teaching and learning, the social context of urban schools, and issues of equity and social justice. The Institute focuses on these issues with the goal of contributing to teacher development, research, and policy to improve urban schools. A defining feature of the Institute is its partnership with community-based organizations and organizations of teachers whose perspectives are generally excluded from policy-making decisions about urban schools. Three interrelated core activities
define the Institute’s work: continuing professional development, research, and policy.

In addition, the following graduate program is offered at Lincoln Park:
• M.A in Social and Cultural Foundations in Education

DEPARTMENT OF TEACHER EDUCATION - Lincoln Park (and Naperville)

The Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Professional Development Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

The following programs are offered at the Lincoln Park campus:
• M.A or M.Ed. in Early Childhood Education
• M.A or M.Ed. in Elementary Education (also offered at the Naperville campus)
• M.A or M.Ed. in Secondary Education: Biology, Chemistry, Computer Science, English, Geography, History, Mathematics, Modern Languages, Social Science, Physics and Visual Arts.

DEPARTMENT OF TEACHER EDUCATION - Barat (Lake Forest) Campus

The Teacher Education Department on the Barat Campus prepares Urban Professional Multicultural Educators through integrated theory and practice programs of courses and field experiences. Programs offered are designed for the preparation of future educators as well to provide for the professional development needs of today's educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. The practitioners and teacher candidates are engaged in critical reflection upon their practice throughout the program. We foster engagement in schools through our experience-based collaboration with public and private schools and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

The following programs are offered at the Barat campus:
• M.A or M.Ed. in Elementary Education
• M.A or M.Ed. in Secondary Education
• M.A or M.Ed. in Curriculum Studies
• M.A or M.Ed. in Educational Leadership

ADMISSION REQUIREMENTS

Applicants to master’s degree programs must have a bachelor's degree from an accredited college or university. Applicants to the doctoral program must have a master's degree from an accredited college or university. Please consult specific programs for admission requirements.
PROGRAM REQUIREMENTS

Master's programs require at minimum of 52 quarter hours of coursework, depending on degree and concentration. Completion of a thesis and an oral defense before a committee of three faculty members leads to a Master of Arts degree. The Master of Education degree requires two 20-25 page papers related to coursework; one reviews literature in an area of interest and the other is an integrative paper relating theory and practice. Both papers are supervised by a faculty member. Consult Thesis and Masters Papers Handbook. The Teaching and Learning program requires no additional research for a Master of Education degree.

The doctoral program requires a minimum of 68 quarter hours of coursework. Completion of a dissertation and an oral defense before a committee of three faculty members leads to a Doctor of Education degree. Consult Ed.D. handbook for additional details.

CERTIFICATION

The School of Education offers approved programs for State of Illinois certification in six areas of study. This means students may be eligible for the following certificates upon completion of the respective programs:

<table>
<thead>
<tr>
<th>Type</th>
<th>Certification</th>

<tbody>
<tr>
<td>03</td>
<td>Elementary (K-9) Teaching</td>
</tr>
<tr>

</tr>
<tr>
<td>75</td>
<td>Administrative Certificate: General Administrative Endorsement</td>
</tr>
<tr>
<td>75</td>
<td>Administrative Certificate: Superintendent Endorsement</td>
</tr>
</tbody>
</table>

Please note that state certificates include requirements beyond program requirements. For Type 03, 04, and 09 certificates three are required: a test of basic skills, a test of subject matter knowledge, and a test of professional teaching knowledge and skills. For Type 10, 73, and 75 certificates a test of content area knowledge is required. The tests are given by the State of Illinois at regularly scheduled times each year. Students are advised to confer with program faculty or the academic advisors for further information.

Certification is not automatic upon completion of a program. The student must apply. Forms and procedural information are available in the School of Education.

Timeliness is important. Ordinarily, only graduate work completed within the past ten years is acceptable for purposes of applying courses for certification requirements. If the degree was granted more than ten years past, the Assistant Dean in consultation with program faculty may grant a recommendation for certification upon the successful completion of appropriate courses and/or comprehensive examinations in the program. In all instances current certification requirements must be met.

PROBATION AND DISMISSAL

Students who are accepted unconditionally into the program are subject to probation if their GPA falls below 3.0. The student remains on probation until four additional courses are taken at which time a new evaluation is done. If at that time the GPA is raised to 3.0 the probationary status will be removed. If, however, the GPA is not raised to 3.0 the student will be dismissed for poor scholarship and prohibited from registering for additional coursework.

A student who has been dismissed may, after a period of time, petition the Dean of the School of Education for reinstatement. The petition must provide information that would demonstrate a change in the student's circumstances that would support the reasonable possibility for successful completion of the program. The Dean's decision, after consultation with the faculty in the student's program, if favorable, may stipulate conditions of reinstatement.
**READMISSION AND PROGRAM COMPLETION**

Students who have not taken classes for one year or more must reapply for admission. Depending on the length of time the student has stopped out, repetition of courses or additional courses may be required by the department or program. In all cases, the student is bound by the program requirements in force at the time of readmission.

Timely completion of a program is important. Students are allowed seven years to complete the graduate degree. A petition in writing for a one-year extension may be approved by the department or program.

**GRADUATION REQUIREMENTS**

Students must meet all requirements listed below for graduation. For master’s programs, all work, including M.A. thesis or M.Ed. papers and induction courses must be completed before the student may participate in the commencement exercises. For the doctoral programs, all work, including the dissertation, must be completed before the student may participate in the commencement exercises.

- Completion of all required coursework
- Completion of M.A. thesis, M.Ed. papers, or doctoral dissertation
- Cumulative GPA for coursework of 3.0. (No more than two grades of C can be accepted, and then only if there are corresponding grades of higher value to produce a GPA of 3.0.)

**GRADUATION WITH DISTINCTION**

Advanced Master’s Degree Programs
- Completion of all coursework with a cumulative GPA of 3.75 and no grade below a B-, and
- Completion of M.A. thesis or M.Ed. papers “with distinction.”

Teaching and Learning Program
- Completion of all coursework with a cumulative GPA of 4.0

Please refer to Handbook for Graduate Studies in the Graduate Bulletin for additional university requirements and deadlines.

**PROGRAM DEGREE REQUIREMENTS**

**DEPARTMENT OF LEADERSHIP IN EDUCATION, LANGUAGE, AND HUMAN SERVICES**

**BILINGUAL BICULTURAL EDUCATION PROGRAM**

The Bilingual/Bicultural Education program offers a comprehensive and in-depth examination of the linguistic, academic, social, and cultural needs of English language learners by addressing second language acquisition and bilingual/ESL educational theory, research, and practice. The foundation of the program rests on the sociopolitical, linguistic, and cultural implications of approaches to language education and language policies. The program offers two concentrations for state endorsement, bilingual education and English as a second language (ESL).

CURRICULUM STUDIES PROGRAM

The Curriculum Studies program is designed to enhance professional practice in teaching, curriculum development, or the administration of a department or educational program. It aims to equip leaders in a variety of educational settings with the skills necessary to develop, justify, evaluate, and modify curricula so that the needs of students, especially those in urban environments, will be better served.

The program includes a set of carefully chosen electives to support a student’s career goals. These courses may be individually selected in consultation with an advisor or an approved sequence which has been designed to meet identified needs. Approved career emphasis sequences are available in bilingual education, early childhood education, ESL, multicultural education, reading, and supervision. Other sequences are being designed to meet emerging needs. See a faculty advisor for additional information.

EDUCATIONAL LEADERSHIP PROGRAM
The purpose of this program is to prepare educational personnel for administrative and
supervisory positions in schools, business, and a variety of human services agencies. This
discipline-based program includes concepts, research findings, and models of inquiry in
social sciences. The program is also theory and problem-based in that it addresses the relevant
theories of organization, leadership, and curriculum and contemporary issues likely to confront
administrators and supervisors. Finally, the program is career-based given that it focuses on the
examination of administrative and supervisory functions and objectives within a variety of
settings and for different purposes.

School Counseling Certification

Type 73 School Service Personnel--School Counseling

The State of Illinois requires that a person who wishes the school counseling endorsement must have or be eligible for a valid teaching certificate. If a person has two or more years of teaching experience, the school counseling internship requirement is 300 clock hours. If a person has less than two years of teaching experience, then, she or he would need to take a 600 hour school guidance internship.
Persons having earned a Master’s Degree in Counseling within the last ten years and seeking the Type 73 will be evaluated for the School Counseling Endorsement on an individual basis.

**State Licensure**
Individuals holding a Type 73, School Service Personnel—School Counseling certificate are eligible for licensure in Illinois as a Licensed Professional Counselor (LPC). However, for advanced licensure, that is, Licensed Clinical Professional Counselor (LCPC), and national certification, it is recommended that the students complete the additional four courses listed below:

- **HSC 451** Legal and Ethical Issues in Human Services
- **HSC 454** Human Services and Counseling for Career Development
- **HSC 466** Assessment and Treatment of Chemical Dependency
- **HSC 489** Advanced Psychopathology

These additional courses meet the educational requirements for the Licensed Clinical Professional Counselor. However, there are further requirements that must be met. For more information, contact the State of Illinois Department of Professional Regulation in Springfield, Illinois. Their requirements are also listed on their web page at http://www.state.il.us/dpr/.

**State Licensure**

The State of Illinois requires that those who wish to work as a counselor have licensure as either a Licensed Professional Counselor (LPC) or an **advanced** Licensed Clinical Professional Counselor (LCPC). The course sequence above meets the *educational* requirements for the Licensed Clinical Professional Counselor. However, there are further requirements that must be met. For more information, contact the State of Illinois Department of Professional Regulation in Springfield, Illinois. Their requirements are also listed on their web page at [http://www.state.il.us/dpr/](http://www.state.il.us/dpr/).

**Grade Requirements for All Concentrations**

- To receive graduate credit for an upper-level undergraduate course a grade of B- or better must be attained.
- A grade of C-, D+, or D is unacceptable for graduate credit in this program, and if earned in a required course must be repeated or substituted as directed by the department or program. Such grades remain on the academic record and are calculated into the cumulative GPA.

**LANGUAGE, LITERACY, AND SPECIALIZED INSTRUCTION PROGRAM**

The program in Language, Literacy, and Specialized Instruction fosters leadership in two areas of specialized instruction: Special Education (combined with elementary education) and Reading and Learning Disabilities. The Dual Certification concentration in Special Education (Special K-12) and Elementary Education (K-9) prepares candidates to teach both special and regular education and leads to initial teacher certification in two areas. Coursework focuses on a theoretical understanding of both regular education and special education as well as on strategies for working with children in a wide variety of classroom settings. The Reading and Learning Disabilities concentration combines the disciplines of Learning Disabilities and Reading Education (Developmental and Remedial Reading) and leads to a Reading Specialist Certificate (Special K-12) and prepares students to work primarily as reading specialists and as professionals in clinics or private practice. Coursework focuses on a theoretical understanding of reading problems and learning disabilities in individuals of all ages.

**Degree Programs**

- Master of Arts or Master of Education: Language, Literacy, and Specialized Instruction

**Campus Location**

- Lincoln Park

**Concentrations**

- Dual Certification (special education and elementary education)
- Reading and Learning Disabilities

**Certification**

DEPARTMENT OF EDUCATIONAL POLICY STUDIES AND RESEARCH

SOCIAL AND CULTURAL FOUNDATIONS IN EDUCATION PROGRAM

The Social and Cultural Foundations Program in committed to inquiry that examines the relationship of schooling, education, and education policy to social justice and cultural democracy. The program is an interdisciplinary one, designed to appeal to students seeking alternatives to more specialized or technical programs of study in education. This program is designed to attract teachers, administrators, and individuals with bachelors degrees who have broad interests in educational policy and who may not be professional educators. This program anticipates that students pursuing this degree will come from a variety of professional backgrounds involving different forms of educational work such as media, foundations, museums, community organizations, labor unions, higher education, K-12 schools, and other forms of educational work. Reasons for pursuing a Master of Arts in Social and Cultural Foundations in Education include personal and professional enhancement, research for private foundations, adult education and training, preparation for doctoral work for university teaching, careers in higher education, and others.

The program provides students the opportunity to study education, not only as schooling, but broadly as a dynamic cultural and political force that unfolds in a wide range of shifting and overlapping sites of learning. Students will consider education as a dynamic process that shapes social identities and social life as well as the learning of values and beliefs, all of which are central to how people make cognitive and emotional investments and act in the world. As such, education is a significant force in creating, maintaining, and challenging assumptions of neutrality and hierarchies of race, ethnicity, gender, class, and sexual difference. From this perspective, education is an indispensable tool for creating conditions for social justice and democratic life. In this context, students investigate the pedagogical and cultural conditions necessary for supporting the flourishing of human agency and the redefinition of human engagement in social life.

The EPSR faculty bring expertise from a variety of disciplines and fields within educational policy studies: the sociology of education, the history of education, the psychology of education and human development, critical pedagogy, cultural studies, feminist studies, urban studies, critical race studies, research methods and more. The faculty also has a diverse range of interests in areas such as globalization, social theory and social construction of knowledge, the role of education in the production of inequalities of race, gender, class, sexuality, and language, socially situated theories of learning and teaching, and the role of education in the construction of culture and social identities.

Given the interdisciplinary approach to the study of education of this degree program, students have the opportunity with the approval of their faculty advisor to take 24 hours of elective courses outside of the Social and Cultural Foundations in Education Program as well as the School of Education. Choices of electives include, but are not limited to, courses in departments and programs such as Communication, Philosophy, Women’s Studies, American Studies, International Studies, Public Policy and Sociology

Degree Program
- Master of Arts: Social and Cultural Foundations of Education

Campus Location
- Lincoln Park
Admission Requirements
Students entering the program must be able and willing to commit themselves to a program that requires time and intense work. Students must show strong promise to do rigorous, critical, and creative intellectual work, be critically self-reflective about their ideas, attitudes, and values, and be committed to the academic goals of the program.

- A completed School of Education Graduate Application Form.

Elective Courses (24 hours)
School of Education Electives (12 hours)
Non-School of Education Electives (12 hours)

Thesis and Oral Examination (4 hours)
Master of Arts: The master's thesis (40-45 pp.) is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- SCG 636 Thesis Research in Social and Cultural Foundations of Education

Grade Requirements
- To receive graduate credit for an upper-level undergraduate course a grade of B- or better must be attained.
- A grade of C-, D+, or D is unacceptable for graduate credit in this program, and if earned in a required course must be repeated or substituted as directed by the department or program. Such grades remain on the academic record and are calculated into the cumulative GPA.
DEPARTMENT OF TEACHER EDUCATION

TEACHING AND LEARNING PROGRAM

The Teaching and Learning graduate program prepares individuals for teaching careers in Early Childhood Education (Birth to grade 3), elementary (grades K-9) or secondary (grades 6-12) schools. The program is designed for college graduates with a Bachelor’s degree in a field other than education who now wish to become teachers. Students may seek secondary certification (6-12) in the following areas: computer science, English, geography, history, social science, mathematics, modern languages (French, German, or Spanish), or science (biology, chemistry, or physics).

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime clinical experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features: 1) Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching. 2) Multiculturalism is infused throughout the curriculum. 3) Clinical experiences are an integral part of the curriculum. 4) Students are exposed to a variety of educational theories. 5) The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in general education necessary for Illinois State Certification will have to complete those requirements. An academic advisor will guide candidates in planning their completion.

Degree Program
- Master of Arts or Master of Education: Teaching And Learning

Concentrations
- Early Childhood Concentration
- Elementary Concentration
- Secondary Concentration

Campus Locations
- Barat (Elementary, Secondary)

- Two letters of recommendation from professors or supervisors.
- Two official transcripts from each college or university attended.
- Statement of purpose.
- Interview with program advisor upon request.
- Evidence of adequate background for the program.

Students who meet the above requirements are conditionally admitted to the School of Education. There are additional requirements to be fully accepted into the School of Education/Professional
Education Unit. A separate application (petition) process is required.

Additional requirements are:
- Maintain a 3.0 GPA
- Pass the Illinois Basic Skills Test
- Pass the SOE basic computer competency assessment
- Pass ISP 120 (Quantitative Reasoning), document the math/science exemption, or pass the exam for this course
- Submit one satisfactory evaluation of content area knowledge (For secondary education candidates, this content area evaluation must be from a faculty member in the subject matter that you plan to teach.)
- Submit one satisfactory evaluation related to the skills and attitudes of Urban, Professional, Multicultural Educators

There is no time limit to meet these criteria and apply for full admission to the School of Education/Professional Education Unit; however, students may take only a limited number of graduate education classes (4) until you have done so. Students may continue to take courses needed to remove deficiencies in general education or content area requirements.

### DePaul/Glenview Clinical Model Teacher Preparation Program

The Clinical Model Program is a collaboration between DePaul University and Glenview District 34 that provides a three-year sequence in which candidates earn an elementary teaching certificate and a master's degree in Teaching and Learning. Candidates participate in the Glenview Public School District as an intern for the first year and as a resident teacher for the following two years. Participants enroll in summer courses and evening courses during the school year. Tuition is paid by the Glenview School District, and participants receive a stipend of approximately $10,000 during the internship year, and approximately $20,000 respectively, during resident 1 and resident 2 year. Candidates must be accepted to DePaul's Graduate School of Education prior to applying to this program. Clinical Model information may be obtained by calling Roxanne Owens (773-325-4329). Program begins annually in June. See website or call for deadline dates (generally late February).

Grade Requirements for All Concentrations
- To receive graduate credit for an upper-level undergraduate course a grade of B- or better must be attained.
- A grade of C-, D+, or D is unacceptable for graduate credit in this program, and if earned in a required course must be repeated or substituted as directed by the department or program. Such grades remain on the academic record and are calculated into the cumulative GPA.

Requirements for Student Teaching
All graduate students in teacher preparation programs must provide evidence of the following requirements for academic approval to student teach:
- Completion of all general education requirements.
- Completion of all education courses with no more than 2 Cs.
- Cumulative G.P.A. of 3.0 or better
- Meet designated program standards
• Pass the relevant Illinois Content Area (Subject Matter) Test
  Once a student has received academic approval for student teaching, the following additional evidence is required.
• Completion of all required field experiences (minimum of 100 hrs of supervised contact with students)
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations

State Test Requirements
The Illinois State Board of Education requires that a candidate for certification pass three tests:
• Test of Basic Skills
• Test of Content Area Knowledge
• Assessment of Professional Teaching
Passage of the basic skills test is also a requirement for admission into the School of Education. Passage of the content area knowledge test is also a requirement for admission into student teaching. The Assessment of Professional Teaching is required for state certification.

Middle School Endorsement Requirements
According to State of Illinois certification guidelines, both Elementary and Secondary education students who wish to teach in a departmentalized middle school setting (grades 5-8) must meet three criteria:
• Complete at least 18 semester hours in a content area that is taught in middle grades. All secondary education majors have at least one content area based on their secondary education requirements. Most elementary education majors will have at least one content area based on their concentration requirements. We strongly recommend that you speak with your advisor about possible endorsement areas at your initial advising appointment.
• Complete at least 3 semester hours in middle school methodology. All students have met this requirement through the DePaul education courses. No additional course work is needed to meet this requirement.
• Complete a course in middle school philosophy and/or psychology. This course, SCG 439, Philosophy & Psychology of Middle Level Education, is an additional course in the program. If SCG 439 is added, it is strongly recommended that it be completed prior to student teaching.

Middle school endorsements are only applicable to Elementary and Secondary Education students. Students who do not choose to earn a middle school endorsement will generally be restricted in the grade levels they can teach. Elementary education majors will normally be eligible to teach in K to 4 only; Secondary education majors will be eligible to teach in grades 9 to 12 only.

DOCTOR OF EDUCATION PROGRAM

The primary, though perhaps not the only audience for this Ed.D. program consists of educational professionals who wish to improve the quality of their work in their current roles or to prepare themselves for new roles. This Ed.D. program is uniquely designed to link theory with practice and is not based on traditional assumptions about the relationships of theory with practice or on conventional notions about the status of practitioners and theorists. To be a practitioner is to make decisions about what to do and to take action; but professional practitioners — in education as in other areas — make reasonable decisions and act responsibly and ethically in the light of theoretical and professional knowledge.
• Professional educators are leaders as well as managers; they are not limited to making decisions according to rule or “by the book.” They must use discretion and judgment as they seek to find the most defensible course of action in specific, complicated, and perhaps idiosyncratic circumstances. These situations are not merely instances of abstract concepts.
• Although decisions are made in the light of theoretical knowledge, theoretical knowledge cannot be applied to practice in the same way as principles are applied to cases. No single theory is able to encompass the complexities of all aspects of learning or schooling. Professional educators understand the principles and terms that characterize and limit a
variety of theories and can select amongst them in order to better understand the situations in which they are involved.

- Decisions also are made in the light of professional knowledge, learned on the job as well as from more formal sources. Professional educators can articulate the informal, often tacit knowledge that they develop from practice so that it engages with and modifies the more formal theories learned from other sources.
- Professional educators not only make decisions, they act upon them responsibly. They examine the value commitments implicit in their actions; they question the appropriateness of the ends that they seek; they connect their educational contexts to broader social contexts; and they assess the effects of their actions on the achievements, dispositions, and propensities of students, colleagues and community members.

Degree Program
- Doctor of Education (Ed.D.)

Concentrations
- Curriculum Studies
- Educational Leadership

Certification
- Type 75-Superintendent Endorsement (available in the Educational Leadership Concentration)

Admission Requirements
Candidates must provide evidence that they:
- possess a Master’s Degree from an accredited college or university
- have experience in an educational role;
- have demonstrated leadership or leadership potential;
- be willing and able to make the necessary commitment of time to the program;
- be likely to be successful in a challenging doctoral program;
- welcome the opportunity to interact with university faculty, peers, and colleagues in a search for effective answers to troubling problems in education.

Admission Process
The admission process reflects and enacts the principles and values of the program regarding engagement, reflection, the exercise of agency, working for change, and a commitment to professional development and learning. The admissions process includes the following components.

- Attend an orientation session as part of the application process. This session covers the philosophical framework of the program, values, and expectations. Other activities to help potential applicants make an informed decision about applying include a dialog with current students and program faculty.
- Submit a written piece (approximately 3 pages), in the form of a personal statement, discussing why the applicant is interested in further study and articulating an issue or problem of interest or concern.
- Applicants invited for an interview will be asked to present a 2-3 page reflective response to an article given to the applicant at the time the interview is scheduled. Articles are selected by the Curriculum Studies, Educational Leadership, and Social and Cultural Studies Programs.
- Dialogue with two or three faculty members of the Ed.D. program — a conversation that will provide an opportunity for candidates to become familiar with the program and the faculty, as well as an opportunity for faculty members to get to know prospective candidates. Applicants living outside the Chicago area will engage in appropriate, reciprocal substitute for this dialogue.
- Submit three letters of recommendation: one personal from someone outside of the immediate workplace, and two additional letters from colleagues, administrators, or supervisors
• Submit all transcripts of undergraduate and graduate work to document the nature of
previous educational experiences, course work, and areas of specialization.

Students will be selected from the pool of qualified applicants by the Ed.D. Admissions
Committee.
