Accountancy (MS)

Program Description

The nationally ranked Master of Science (MS) in Accountancy is designed to prepare you for a successful career in accounting. Through the program’s challenging integrated sequence of courses, students become proficient in topics that are tested on the CPA exam and which are relevant to the work of a professional accountant. This program is designed for students who do not have an undergraduate accounting degree. Students will take courses in:

- Financial accounting theory and practice
- Taxation of individuals and corporations
- Business law
- Audit and regulation
- Accounting information systems
- Government and non-profit accounting
- Managerial accounting
- Accounting policy formulation

Program Features

Faculty expertise and experience. DePaul’s accounting faculty members are internationally known scholars with extensive experience in accounting graduate education and accounting practice, bringing a wealth of experiences into the classroom.

Location. DePaul’s location in the heart of Chicago’s financial and business community gives students access to employers at top companies, including international accounting and consulting firms.

Strong alumni network. The alumni of DePaul’s accounting programs form one of the largest accounting and tax networks in Chicagoland—giving students unparalleled access to career opportunities and networking.

Online learning. Although all classes are offered in a face to face format, the program also can be completed partially or entirely online. The online classes allows students complete access to the program’s comprehensive accounting curriculum.

Career Outlook

Graduates continue to achieve some of the strong internship and job placement opportunities during, and immediately following, degree completion. More than 91 percent of students are in an accounting, tax or audit-related career track at the time of graduation. Graduates have gone on to work at major accounting firms such as KPMG, Deloitte, PwC, EY, Grant Thornton and RSM; as well as industry, corporate accounting, non-profit accounting and government positions.

Accounting Course Requirements

<table>
<thead>
<tr>
<th>Business Course Requirements (varies with prior coursework)</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required (maximum)</td>
<td>48-58 hours</td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will:

- Have a sophisticated understanding of internal auditing, corporate governance, and internal control.
- Be familiar with Data Analysis.
- Understand the flow of accounting information in organizations and security and internal controls and the role of information technology in accounting information systems and decision-making.
- Recognize and apply relevant ethical standards in the context of fraud and internal auditing.
- Communicate effectively both orally and in writing.
- Demonstrate an understanding of audit and fraud issues from an international perspective.

Degree Requirements

Course Requirements

The Master of Science in Accountancy requires a minimum of 12 courses.

Accountancy Courses (12 required accounting courses)

- ACC 500 FINANCIAL ACCOUNTING
- ACC 535 PRINCIPLES OF ACCOUNTING INFORMATION SYSTEMS
- ACC 541 FINANCIAL ACCOUNTING THEORY & PRACTICE I
- ACC 542 COST AND MANAGERIAL ACCOUNTING
- ACC 543 FINANCIAL ACCOUNTING THEORY & PRACTICE II
- ACC 545 ADVANCED TOPICS IN ACCOUNTING THEORY
- ACC 547 AUDITING I
- ACC 548 TAX TREATMENT OF INDIVIDUALS AND PROPERTY TRANSACTIONS
- ACC 550 AUDITING II
- ACC 551 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS
- ACC 552 BUSINESS LAW FOR ACCOUNTANTS
- ACC 640 ACCOUNTING THEORY AND POLICY FORMULATION

Business Courses

In addition, students are required to complete the following courses:

- ECO 502 SELECTED TOPICS IN MACROECONOMICS
- FIN 455 PRINCIPLES OF FINANCIAL MANAGEMENT
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT
- ACC 505 LANGUAGE AND BUSINESS CULTURE *

ECO 502, FIN 455, and MGT 504 may be waived for students with a prior business degree or equivalent course work. ACC 505 * is required for international students and may be waived for those students with a prior U.S. degree.

Degree Requirements

1. Satisfactory completion of the twelve required Accountancy Courses and the four Business Courses, or equivalent courses, as outlined above.
2. Satisfactory completion of at least 45 earned graduate credit hours applicable to the degree (waived courses are not considered earned hours).
3. Satisfactory completion of the college residency requirement.
4. All courses for credit toward the degree must be completed with satisfactory grades within six calendar
Accountancy (MBA)

The Accountancy MBA concentration provides you with coursework that is critical to decision-making in the accounting profession. The program includes theory and concepts, technical knowledge, practical skills and familiarization with the tools and methodologies used by an accountant or a manager making accounting decisions. You will develop skills in critical thinking, problem-solving and financial management. You will gain business acumen to understand financial transactions within a company. The curriculum covers all of the accounting course areas to prepare you to sit for the CPA exam.

**Highlights**

You will graduate with a set of varied competencies, all of which are highly sought after in the accounting field. The structure of the concentration will provide you with:

- A comprehensive curriculum covering all important sectors of the field identified by top-ranking members of the auditing and accounting profession, including big data analysis, internal audit, fraud and forensic accounting and information systems.
- Opportunities to work with audit systems used by accounting professionals.
- Experience learning from nationally and internationally recognized faculty.
- Access to a large and active alumni group called Ledger & Quill, which supports students with scholarship opportunities, mentorship and annual networking events.
- Several accounting-related student organizations, allowing for interaction with peers, alumni and working professionals.

**Career Outlook**

The Accountancy MBA concentration prepares you for careers in firms of all sizes in corporate and industry accounting, as well as consulting practices, nonprofits and government offices. DePaul’s strong ties to the Chicago financial and business community create unique job opportunities for students.

<table>

</tr>
</thead>
<tbody>
<tr>
<td>Concentration Requirements (varies with admission term)</td>
<td>24-36 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>48-72 hours</strong></td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations,
and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kelstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.
Concentration Requirements

Students select an individualized set of courses using the content areas below as a guide. Students may focus on one area of courses or combine courses from multiple areas depending on what matches their career aspirations. This concentration requires completion of four graduate-level accounting courses.

Auditing

- ACC 635 PRINCIPLES OF FORENSIC ACCOUNTING
- ACC 636 INTERNAL AUDITING, CORPORATE GOVERNANCE AND INTERNAL CONTROL
- ACC 637 DATA MINING AND ANALYTICS
- ACC 683 ADVANCED IT AUDITING
- ACC 645 FORENSIC AND INVESTIGATIVE ACCOUNTING
- ACC 646 FORENSIC ACCOUNTING AND VALUATION

Taxation

- ACC 548 TAX TREATMENT OF INDIVIDUALS AND PROPERTY TRANSACTIONS
- ACC 551 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS
- ACC 558 TAX RESEARCH
- ACC 566 FEDERAL INCOME TAX PROCEDURES
- ACC 567 INTERNATIONAL ASPECTS OF U.S. TAXATION
- ACC 569 CONCEPTS OF DEFERRED COMPENSATION
- ACC 580 ACCOUNTING FOR INCOME TAXES
- ACC 798 SPECIAL TOPICS: Transfer Pricing
- ACC 798 SPECIAL TOPICS: Structuring Real Estate Transaction
- ACC 798 SPECIAL TOPICS: Comparative Tax Systems

Controllership

- ACC 535 PRINCIPLES OF ACCOUNTING INFORMATION SYSTEMS
- ACC 557 GLOBAL STRATEGIC FINANCIAL ANALYSIS
- ACC 580 ACCOUNTING FOR INCOME TAXES
- ACC 798 SPECIAL TOPICS: Strategic Performance Measurement and Risk Management
- FIN 523 INVESTMENT ANALYSIS
- FIN 524 FINANCIAL STATEMENT ANALYSIS
- SEV 621 STRATEGY EXECUTION

CPA

In addition to ACC 500 and ACC 555 or ACC 554, a minimum of 6 graduate courses from below are required to meet the Illinois CPA educational requirements. The asterisked courses are required. Students are strongly advised to complete all courses below to become fully prepared to pass the exam.

- ACC 541 FINANCIAL ACCOUNTING THEORY & PRACTICE I *
- ACC 543 FINANCIAL ACCOUNTING THEORY & PRACTICE II *
- ACC 545 ADVANCED TOPICS IN ACCOUNTING THEORY
- ACC 547 AUDITING I *
- ACC 548 TAX TREATMENT OF INDIVIDUALS AND PROPERTY TRANSACTIONS *
- ACC 550 AUDITING II
- ACC 551 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS
- ACC 552 BUSINESS LAW FOR ACCOUNTANTS
- ACC 640 ACCOUNTING THEORY AND POLICY FORMULATION *
Acting (MFA)

The Theatre School’s Master of Fine Arts (MFA) degree in Acting is a highly truthful, yet expressive, physical acting program informed by our Chicago roots that prepares actors to work on stage and screen all over the world. The first year experience is about expanding the size and specificity of the actor’s skill, imagination, and drive. The next year intensifies scenic study of a diverse spectrum of dramatic literature, with a strong path of ensemble creation and student-generated work. The final year puts the work in the context of the profession, connects the student to artistic and industry leaders while refining the actor’s entrepreneurial spirit through company created works and independent cinema experience.

<table>
<thead>
<tr>

<th>148 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>148 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works and artistic approaches from antiquity to the present, encompassing a broad range of periods, cultures, and styles.
- Synthesize and apply elements of their education and training in classes, rehearsals, and productions.
- Participate in theatrical production in a professional manner, with discipline, respect, and maturity.
- Demonstrate the role of the theatre practitioner as an active member of society and of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Demonstrate the mastery of acting truthfully from moment-to-moment in a variety of theatrical works, periods, and styles.
- Demonstrate the mastery of creating a role within the action of the assignment or production through text analysis, personalization, and imagination.
- Demonstrate an advanced personal practice of improving vocal and physical expressiveness as an actor.
- Create unique, insightful, and compelling work that impacts those who witness it.
- Apply the training to professional opportunities.
- Be entrepreneurial and create original theatrical work.

Degree Requirements

Course Requirements

First Year
• Acting I Sequence
  o PRF 511 GRADUATE ACTING I
  o PRF 512 GRADUATE ACTING I
  o PRF 513 GRADUATE ACTING I

• Voice Sequence I
  o PRF 531 GRADUATE VOICE AND SPEECH I
  o PRF 532 GRADUATE VOICE AND SPEECH I
  o PRF 533 GRADUATE VOICE AND SPEECH I

• Speech Sequence
  o PRF 530 MFA I SPEECH
  o PRF 540 GRAD SPEECH I: ADVANCED NOTATION

• Movement Sequence I
  o PRF 521 GRADUATE MOVEMENT I
  o PRF 522 GRADUATE MOVEMENT I
  o PRF 523 GRADUATE MOVEMENT I
  o PRF 524 GRADUATE MOVEMENT I: FELDENKRAIS
  o PRF 525 GRAD MOVEMENT I: FELDENKRAIS

• PRF 551 MFA I IMPROVISATION

• Acting, Meisner Technique Sequence
  o PRF 552 MFA I MEISNER
  o PRF 553 MFA I MEISNER

• PRF 563 REHEARSAL AND PERFORMANCE I

• MFA Workshop I, Actor as Entrepreneur Sequence
  o PRF 571 MFA WORKSHOP I: ACTOR AS ENTREPRENEUR
  o PRF 572 MFA WORKSHOP I: ACTOR AS ENTREPRENEUR
  o PRF 573 MFA WORKSHOP I: ACTOR AS ENTREPRENEUR

• Graduate Seminar Sequence
  o THE 601 GRADUATE SEMINAR
  o THE 602 GRADUATE SEMINAR
  o THE 603 GRADUATE SEMINAR

Second Year

• PRF 580 STAGE COMBAT

• Acting II, Classical Sequence
  o PRF 611 GRADUATE ACTING II: CLASSICAL
  o PRF 612 GRADUATE ACTING II: CLASSICAL
  o PRF 613 GRADUATE ACTING II: CLASSICAL

• Movement II Sequence
  o PRF 621 GRADUATE MOVEMENT II
  o PRF 622 GRADUATE MOVEMENT II
  o PRF 623 GRADUATE MOVEMENT II

• Voice and Speech II Sequence
  o PRF 631 GRADUATE VOICE AND SPEECH II
  o PRF 632 GRADUATE VOICE AND SPEECH II
  o PRF 633 GRADUATE VOICE AND SPEECH II

• Acting II, Contemporary Sequence
  o PRF 641 GRADUATE ACTING II: MYTH, FABLE, & FOLKLORE IN DRAMA
  o PRF 642 GRADUATE ACTING II: TRAGIC FOCUS FROM 1700 TO 1950
  o PRF 643 GRADUATE ACTING II: COMIC FOCUS FROM 1700 TO 1950

• Rehearsal and Performance Sequence
  o PRF 661 REHEARSAL AND PERFORMANCE II
  o PRF 662 REHEARSAL AND PERFORMANCE II
  o PRF 663 REHEARSAL AND PERFORMANCE II

• MFA Workshop II, Actor as Entrepreneur Sequence
  o PRF 671 MFA WORKSHOP II: ACTOR AS ENTREPRENEUR
  o PRF 673 MFA WORKSHOP II: ACTOR AS ENTREPRENEUR

Third Year

• PRF 711 GRADUATE ACTING III: COMPANY CREATION
• PRF 712 GRADUATE ACTING III: PROFESSIONAL PREPARATION
• PRF 713 GRADUATE ACTING III: ADVANCED IMPROVISATION
• PRF 714 AUDITION
• PRF 716 GRADUATE SHOWCASE
• Movement III Sequence
  o PRF 721 GRADUATE MOVEMENT III
  o PRF 722 GRADUATE MOVEMENT III
  o PRF 723 PRF 724 GRADUATE MOVEMENT III: PILATES
Terminal Requirements for the Master of Fine Arts Degree

In addition to completing the graduate requirements of the major program, each student must complete two or three terminal requirements:

- Three analytical/reflective papers, each a minimum of 10 pages in length, that in total comprise the graduate thesis.

Animation (MA)

The MA in Animation provides a combination of artistic and technical training that prepares students for a future in 3D character animation, computer game art, or visual effects.

Concentrations

Animator Concentration

The MA in Animation - Animator Concentration is for students who are interested in deepening their knowledge of 3D modeling and animation, with an eye towards a production career in 3D character animation, computer game art, or visual effects. Students in this concentration will receive intense and rigorous training in the history, critical artistic issues, and fundamental principles that are necessary for animation artists. MA in Animation - Animator students take many of the same courses as the MFA in Animation students, with the main difference being the absence of the year-long thesis film. Graduates will be prepared for the many varied career options available to animators, including storyboard artists, visual development artists, modelers, layout artists, character animators, effects animators, character riggers, motion capture artists, lighting artists, commercial animators, motion graphics artists, game artists, environment modelers and effects artists. This concentration is intended for those with undergraduate degrees in animation, film, game development, art, graphic design, illustration, architecture, industrial design and other related areas.

Technical Artist Concentration

The MA in Animation - Technical Artist Concentration prepares students for a range of roles, from the complex jobs of riggers, next generation modelers and motion capture artists to the hybrid specialization of the Technical Artist.

A game industry Technical Artist is an art department member who serves as a bridge between art and engineering. The art pipeline is the workflow of creating the art assets of the game: from concept to model to texturing to rigging to input into the game engine. The TA’s objective is to make the pipeline streamlined, efficient and documented. The TA diagnoses and debugs the technology used by artists. The TA specs tools that will help make the art department more productive, sometimes scripting the tools in the software and sometimes working with programmers to tackle more complex operations. The TA needs to understand the language of both art and engineering and act as a translator between the areas.

In the film and television CGI animation and VFX industries the Technical Artist is more commonly referred to as
a Technical Director or Technical Animator. The TA in these fields shares many of the core responsibilities (pipeline, troubleshooting) and animation technical skills as the game TA.

The Technical Artist concentration is not solely for the person who wants to be a TA, since these disciplines are constantly evolving. It also prepares the student interested in technically demanding areas such as rigging, modeling and motion capture.

Technical Artists come from both art and programming backgrounds. It is recommended that someone entering the TA concentration have an undergraduate degree in one of the following areas: art, animation, game art, graphic design, illustration, game design, game programming, computer graphics, computer science, or interactive media.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52 hours</td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Examine the historical foundations of animation, and analyze the relationships between animation and other arts.
- Utilize critical and historical analysis to inform their specific area of study.
- Apply essential concepts and utilize tools necessary for 3D production including modeling, lighting, texturing and rendering.
- Demonstrate a high level of competence in 2D or 3D animation technique.
- Implement the use of storyboarding, animatics, and essential pre-production techniques to develop a film concept.
- Produce animated films both collaboratively and as solo ventures.

### Degree Requirements

#### Course Requirements

Course requirements are determined by the concentration selected.

No Introductory Course may be substituted for any other course at any level.

#### Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in the designated program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-
listed courses, which are considered to be the same course but offered under different subjects.

- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook in the Course Catalog.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Technical Artist
- Animator

## Technical Artist Concentration

### Course Requirements

#### Core Requirements

- ANI 423 3D ANIMATION SURVEY*
- ANI 446 GAME ART PIPELINE
- ANI 452 3D SCRIPTING
- ANI 453 ADVANCED 3D SCRIPTING
- ANI 444 VISUAL DESIGN FOR GAMES
- ANI 440 COLLABORATIVE SHORT ANIMATED FILM
  - or Game Development Studio Sequence (2 courses)
    - GAM 690 GAME DEVELOPMENT STUDIO I
    - GAM 691 GAME DEVELOPMENT STUDIO II **
- Four (4) Technical Artist Electives
- Three (3) CDM Open Electives

*Students with 3D animation experience can have the ANI 423 requirement waived by their Faculty Advisor, and replace it with an Animation Elective.

**Students who take GAM 690 to fulfill their Core Requirements must take GAM 691 as one of their Technical Artist Electives requirements.

#### Technical Artist Electives

Students must take at least four (4) courses out of the following choices. Students may take these courses before completing their Core Requirements courses. It is recommended that students choose their Technical Artist Elective courses in one of the following areas of focus: Rigging, Animation, Modeling, or Effects.

**Rigging Focus Area**

- ANI 430 3D CHARACTER ANIMATION
- ANI 432 3D RIGGING
- ANI 433 ADVANCED 3D RIGGING
- ANI 435 3D CHARACTER MODELING
- ANI 450 MOTION CAPTURE

**Animation Focus Area**

- ANI 430 3D CHARACTER ANIMATION
- ANI 431 ADVANCED 3D CHARACTER ANIMATION
- ANI 432 3D RIGGING
- ANI 442 3D ANIMATION PRODUCTION
- ANI 450 MOTION CAPTURE
- ANI 451 ADVANCED MOTION CAPTURE STUDIO

**Modeling Focus Area**

- ANI 435 3D CHARACTER MODELING
- ANI 436 3D MODELING STUDIO
- ANI 437 ENVIRONMENT MODELING
- ANI 438 3D ORGANIC MODELING
- ANI 439 3D TEXTURING AND LIGHTING
- ANI 447 ART FOR GAME MODS

**Effects Focus Area**

- ANI 478 3D DYNAMICS
- ANI 479 3D COMPOSITING
- VFX 474 DIGITAL COMPOSITING I
- VFX 478 DIGITAL COMPOSITING II

**Other Available Technical Artist Electives**

- GAM 690 GAME DEVELOPMENT STUDIO I
- GAM 691 GAME DEVELOPMENT STUDIO II

**CDM Open Electives**

Students must complete any three (3) graduate courses from the College of Computing and Digital Media.

---

**Animator Concentration**

**Course Requirements**

- ANI 423 3D ANIMATION SURVEY *
- ANI 421 ANIMATION MECHANICS
- ANI 422 ANIMATION HISTORY & PRACTICE
- ANI 425 VISUAL STORYTELLING
- ANI 440 COLLABORATIVE SHORT ANIMATED FILM
- ANI 460 ANIMATION GRADUATE SEMINAR
- ANI 466 CINEMA, ANIMATION AND ART **
  - or ANI 444 VISUAL DESIGN FOR GAMES**
- ANI 540 ANIMATED SHORT FILM PART I (2 credit hours)
- ANI 541 ANIMATED SHORT FILM PART II (2 credit hours)
- Two (2) Animation Electives
- Three (3) Animation Focus Area Electives

*Students with 3D animation experience can have the ANI 423 requirement waived by their Faculty Advisor, and replace it with an Animation Elective.

**Students who plan to apply for the Animation MFA program during their first year should take ANI 466 rather than ANI 444.
Animation Electives

Students in the Animator concentration must take two (2) Animation electives. Animation electives include any graduate level ANI, DC, GAM, GD, GPH, HCI or VFX courses.

Animation Focus Area Electives

Students in the Animator concentration must take three (3) Focus Area Elective courses. Students are encouraged, but not required, to select their Focus Area courses from one of the below groups.

3D Animation Focus Area

- ANI 430 3D CHARACTER ANIMATION
- ANI 431 ADVANCED 3D CHARACTER ANIMATION
- ANI 432 3D RIGGING
- ANI 433 ADVANCED 3D RIGGING
- ANI 435 3D CHARACTER MODELING
- ANI 436 3D MODELING STUDIO
- ANI 438 3D ORGANIC MODELING
- ANI 439 3D TEXTURING AND LIGHTING
- ANI 442 3D ANIMATION PRODUCTION
- ANI 445 CHARACTER DESIGN
- ANI 450 MOTION CAPTURE
- ANI 451 ADVANCED MOTION CAPTURE STUDIO
- ANI 452 3D SCRIPTING
- ANI 453 ADVANCED 3D SCRIPTING
- ANI 478 3D DYNAMICS

Traditional Animation Focus Area

- ANI 420 HAND-DRAWN ANIMATION
- ANI 427 HAND-DRAWN CHARACTER ANIMATION
- ANI 445 CHARACTER DESIGN
- ANI 455 STOP MOTION ANIMATION
- ANI 456 EXPERIMENTAL ANIMATION
- ANI 457 HYBRID ANIMATION
- ANI 470 ACTING FOR ANIMATORS
- ANI 490 TOPICS IN ANIMATION

Sample Schedule

The representation of these course requirements on a year-by-year basis is just a suggestion. Students are free to take these courses in any order they choose, provided they have mastered the course-specific prerequisites.

Animator Concentration

First Year

Fall Quarter

- ANI 423 3D ANIMATION SURVEY
- ANI 460 ANIMATION GRADUATE SEMINAR
- ANI 421 ANIMATION MECHANICS

Winter Quarter

- ANI 425 VISUAL STORYTELLING
- ANI 422 ANIMATION HISTORY & PRACTICE
- 1 Animation Focus Area Elective
Spring Quarter

- ANI 440 COLLABORATIVE SHORT ANIMATED FILM
- ANI 466 CINEMA, ANIMATION AND ART
  or ANI 444 VISUAL DESIGN FOR GAMES
- 1 Animation Focus Area Elective

Second Year

Fall Quarter

- ANI 540 ANIMATED SHORT FILM PART I (2 credit hours)
- 1 Animation Focus Area Elective
- 1 Animation Elective

Winter Quarter

- ANI 541 ANIMATED SHORT FILM PART II (2 credit hours)
- 1 Animation Elective

Animation (MFA)

This degree is for students who are interested in creating original animated films and artwork as their main vocation. Students in the MFA in Animation degree will receive intense and rigorous training in the history, critical artistic issues, and fundamental principles that are necessary for animation artists.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>79 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>79 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Examine the historical foundations of animation, and analyze the relationships between animation and other arts.
- Utilize critical and historical analysis to inform their specific area of study and develop personal voice.
- Demonstrate skills necessary for the creation of animation in game development, 3D and 2D animated films, television or effects animation.
- Produce animated films both collaboratively and as solo ventures.
- Acquire and utilize contemporary and professional practices in animation education.
- Demonstrate their abilities as contributing artists in the field of animation by the completion of an animated thesis film.
Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

- ANI 421 ANIMATION MECHANICS
- ANI 422 ANIMATION HISTORY & PRACTICE
- ANI 423 3D ANIMATION SURVEY
- ANI 425 VISUAL STORYTELLING
- ANI 440 COLLABORATIVE SHORT ANIMATED FILM
- ANI 460 ANIMATION GRADUATE SEMINAR
- ANI 466 CINEMA, ANIMATION AND ART
- ANI 481 AUDIO FOR ANIMATION
- ANI 540 ANIMATED SHORT FILM PART I (2 credit hours)
- ANI 541 ANIMATED SHORT FILM PART II (2 credit hours)
- ANI 560 GRADUATE TEACHING SEMINAR
- ANI 639 MFA PRE-THESIS
- ANI 640 MFA THESIS ANIMATION (1 credit hour)
  *ANI 640 must be taken at least 3 times.
- 8 Animation Electives

Animation Electives

Animation electives include any graduate level ANI, DC, GAM, GD, GPH, HCI or VFX courses.

MFA Thesis

The MFA Thesis Animation is the culmination of graduate study in the MFA. Students work on an animated film for the three quarters of their third year, and meet periodically for critiques with peers and faculty. Students also produce a written analysis of their work. Students must complete their thesis project and the degree within a total of five years from their first quarter in the program.

Student's MFA Advisor Committee and Thesis Timeline

During the fall quarter of their second year, all MFA students must form an MFA Advisor Committee. The committee is comprised of three full-time DePaul faculty members, and at least two of the three must be members of the Animation MFA Committee. Students must consult with their Advisor Committee throughout the Thesis project, including during ANI 639 MFA Pre-Thesis. During the final quarter of their Thesis project, the MFA candidate must schedule a meeting with their Advisor Committee to screen the work, and defend the project and thesis paper before the committee. The MFA Advisor Committee decides whether the MFA candidate should be awarded the degree, and if not, what must be done in order for them to receive it.

MFA Thesis Screening

At the end of the third year students present their thesis exhibition in an appropriate venue (a theater or gallery).

MFA Thesis Defense

In order to receive their MFA degree, students must defend the thesis project and the written analysis of their work before their MFA Advisor Committee.

Degree Requirements

Students in the MFA in Animation degree program must meet the following requirements:

- Complete a minimum of 79 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Satisfactorily complete the MFA thesis as determined by the student's MFA Advisor Committee.
- Students cannot count credit earned towards a previously awarded master's or MFA degree toward the completion of this MFA program.
Sample Schedule

First Year

Fall Quarter

- ANI 423 3D ANIMATION SURVEY
- ANI 460 ANIMATION GRADUATE SEMINAR
- ANI 421 ANIMATION MECHANICS

Winter Quarter

- ANI 425 VISUAL STORYTELLING
- ANI 422 ANIMATION HISTORY & PRACTICE
- 1 Animation Elective

Spring Quarter

- ANI 440 COLLABORATIVE SHORT ANIMATED FILM
- ANI 466 CINEMA, ANIMATION AND ART
- 1 Animation Elective

Second Year

Fall Quarter

- ANI 540 ANIMATED SHORT FILM PART I (2 credit hours)
- ANI 481 AUDIO FOR ANIMATION
- 1 Animation Elective

Winter Quarter

- ANI 541 ANIMATED SHORT FILM PART II (2 credit hours)
- ANI 560 GRADUATE TEACHING SEMINAR
- 1 Animation Elective

Spring Quarter

- ANI 639 MFA PRE-THESIS
- 2 Animation Electives

Third Year

Fall Quarter

- ANI 640 MFA THESIS ANIMATION (1 credit hour)
- 1 Animation Elective

Winter Quarter

- ANI 640 MFA THESIS ANIMATION (1 credit hour)
- 1 Animation Elective

Spring Quarter

- ANI 640 MFA THESIS ANIMATION (1 credit hour)
**Applied Economics (MBA)**

DePaul’s MBA concentration in Applied Economics gives students a deeper understanding of the fundamentals that govern economic activity. Students study the forces that drive markets and the economics of the decision-making processes of business and consumers in a market system. This concentration is particularly ideal for analytically focused, logically minded students who want to hone their problem-solving abilities.

**Highlights**

In this concentration, you will gain the knowledge, competencies and skills to:

- Help businesses and organizations adapt to the ever-changing economic environment.
- Relate the domestic and global economic outlooks to your business’s or organization’s markets, as well as advanced applications for bridging strategic analysis to financial forecasts and valuation.
- Prepare and interpret forecasts for businesses regarding optimal pricing, sales and advertising, marketing policies, purchasing, industrial relations and investment and portfolio decisions.
- Conduct empirical analyses of business and consumer decision-making.
- Apply evidence based methodology to inform decisions and policy.

**Career Outlook**

With the explosion of available data, corporations are constantly looking for professionals with a deeper understanding and skill set to be able to analyze consumer behavior and turn it into actionable plans. Possessing skills that are applicable to almost any industry, alumni can seek employment in fields such as manufacturing, communications, banking, insurance, retailing, finance, investing, transportation, utilities and consulting, and well as positions in various departments of federal, state and local governments. Job mobility can be high with business economists moving among business firms, government and nonprofits.

</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>48-72 hours</strong></td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

*ANI 640 must be taken at least 3 times.*
MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.
Concentration Requirements

Course Requirements

To complete this concentration, students are required to take three graduate-level Economics courses. ECO 502, ECO 509 and ECO 555 (if taken to satisfy core requirements) are not approved for use as MBA concentration electives.

Depending on the student's specific interests, this concentration offers two possible tracks; Applied Microeconomics and Policy Analysis; and The Economic Environment. Students can take classes from either track (or a mix from both) in meeting the three-course concentration requirement.

Applied Microeconomics and Policy Analysis

- ECO 507 RESEARCH METHODS FOR POLICY ANALYSIS I
- ECO 516 ECONOMICS OF THE PUBLIC SECTOR I
- ECO 517 THE PUBLIC POLICY, BUSINESS, AND ETHICAL ENVIRONMENT OF GOVERNMENT
- ECO 518 LABOR ECONOMICS AND LABOR RELATIONS
- ECO 521 POLICY & REGULATION IN FINANCIAL MARKETS
- ECO 529 COMPETITION, STRATEGY AND POLICY
- ECO 557 INTERNATIONAL TRADE THEORY & POLICY
- ECO 798 SPECIAL TOPICS: Business Models and Innovation Strategy
- ECO 798 SPECIAL TOPICS: Health Economics
- ECO 798 SPECIAL TOPICS: Congressional Research Fellowship

The Economic Environment

- ECO 500 MONEY AND FINANCIAL SYSTEMS
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 513 DEMYSTIFYING THE FEDERAL RESERVE BANK
- ECO 521 POLICY & REGULATION IN FINANCIAL MARKETS
- ECO 529 COMPETITION, STRATEGY AND POLICY
- ECO 558 INTERNATIONAL MACROECONOMICS

Applied Mathematics (MS)

This degree is designed to provide students with the necessary quantitative background for employment in business, industry, or government and to provide a solid foundation for students interested in pursuing a Ph.D. degree in mathematics. Courses in this program are offered at the Lincoln Park campus. Some may also be taken at the O'Hare campus.

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Concentration Requirements</td>
<td>24</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>48</strong></td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

- Know the fundamentals of probability and statistics necessary for them to develop and implement models as needed to satisfy the requests of their employers.
- Use new and current technology involving SAS, R and SQL.
- Utilize topics covered in their computational computing classes such as Monte Carlo Simulation Techniques and Stochastic processes.
- Communicate statistical ideas clearly in both oral and written form using appropriate statistical terminology.
- Present project presentations and results to all levels of their audience including those less proficient in the subject matter.
- Generate reports that show statistical expertise in writing and model implementation.

Degree Requirements

Course Requirements

Candidates for the degree must complete at least 48 quarter hours of graduate level work in applied mathematics and pass two sets of comprehensive examinations. Comprehensive examinations are offered twice a year, in the autumn and spring quarters. At the beginning of the quarter when students plan to take the comprehensive examinations, they notify the program director to register for the exams.

Concentration Requirement

Computer Usage

The department places strong emphasis on computation and is well supported with equipment and software necessary for research. The computer is used for data analysis and to find solutions to problems that arise in numerical analysis, simulations, and mathematical modeling. The computer packages used in these courses are likely to play an important role in the solution of the problems students will encounter in their places of employment.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. Students may declare at most two concentrations for their MS, provided they successfully complete at least 14 courses as 56 credit hours required for their degree.

In addition to any degree requirements, students are required to choose one of the following:

- Actuarial Science Concentration
- Applied and Computational Mathematics Concentration
Mathematical Finance Concentration

Statistics Concentration

Actuarial Science Concentration

Course Requirements

Core Courses - All 9 courses / 24 credit hours:

- MAT 451 PROBABILITY AND STATISTICS I
- MAT 452 PROBABILITY AND STATISTICS II
- MAT 453 PROBABILITY AND STATISTICS III
- MAT 448 STATISTICAL METHODS USING SAS
- MAT 456 APPLIED REGRESSION ANALYSIS
- MAT 459 SIMULATION MODELS AND MONTE CARLO METHOD
- MAT 461 ACTUARIAL SCIENCE I: THEORY OF INTEREST
- MAT 462 ACTUARIAL SCIENCE II: BASIC CONTINGENCIES
- MAT 463 ACTUARIAL SCIENCE III: ADVANCED CONTINGENCIES

Electives - 3 courses / 12 credit hours:

At least three elective courses must be from the following list:
- MAT 455 STOCHASTIC PROCESSES
- MAT 460 TOPICS IN STATISTICS
- MAT 464 STOCHASTIC RISK MODELS
- MAT 465 STOCHASTIC SURVIVAL MODELS
- MAT 468 MAT 468 MATHEMATICS FOR FINANCE
- MAT 470 ADVANCED LINEAR ALGEBRA
- MAT 485 NUMERICAL ANALYSIS I
- MAT 512 APPLIED TIME SERIES AND FORECASTING

Applied and Computational Mathematics Concentration

Course Requirements

Core Courses - All 8 courses / 32 credit hours:

- MAT 451 PROBABILITY AND STATISTICS I
- MAT 485 NUMERICAL ANALYSIS I
- MAT 486 NUMERICAL ANALYSIS II
- MAT 437 COMPLEX ANALYSIS
- MAT 484 MATHEMATICAL MODELING
- MAT 470 ADVANCED LINEAR ALGEBRA
- MAT 482 PARTIAL DIFFERENTIAL EQUATIONS
- MAT 494 GRAPH THEORY

Electives - Any 4 courses / 16 credit hours:
Mathematical Finance Concentration

Course Requirements

Core Courses - All 10 courses / 40 credit hours:

- MAT 451 PROBABILITY AND STATISTICS I
- MAT 452 PROBABILITY AND STATISTICS II
- MAT 453 PROBABILITY AND STATISTICS III
- MAT 455 STOCHASTIC PROCESSES
- MAT 456 APPLIED REGRESSION ANALYSIS
- MAT 461 ACTUARIAL SCIENCE I: THEORY OF INTEREST
- MAT 468 MATHEMATICS FOR FINANCE
- MAT 469 STOCHASTIC CALCULUS
- MAT 512 APPLIED TIME SERIES AND FORECASTING
- MAT 515 FINANCIAL MODELING

Electives - Any 2 courses / 8 credit hours:

- MAT 448 STATISTICAL METHODS USING SAS
- MAT 457 NONPARAMETRIC STATISTICS
- MAT 459 SIMULATION MODELS AND MONTE CARLO METHOD
- MAT 467 CREDIBILITY THEORY

Statistics Concentration

Core Courses - All 6 courses / 24 credit hours:

- MAT 448 STATISTICAL METHODS USING SAS
Program Graduate Academic Student Handbook

Academic Probation
A student will be placed on academic probation at the time when his/her cumulative GPA falls below 2.70.

Academic Dismissal
A graduate student may be academically dismissed under one or more of the following violations of satisfactory progress: his/her cumulative GPA remains below 2.70 after one year of being on academic probation, lack of progress toward degree completion, or failing the comprehensive examinations twice.

Conditional Admission
Students whose undergraduate degrees were in majors other than mathematics or related fields may be conditionally admitted provided they complete the following minimum prerequisites as conditions: two years of calculus [the equivalent of MAT-150-152], multivariable calculus and linear algebra [the equivalent of MAT-260-262], and a course in statistics. Additionally, a course in computer programming is required.

Readmission
The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit
No more than two graduate courses (8 quarter credit hours or its semester equivalent) may be transferred from another DePaul program or institution provided that they are equivalent to courses offered in DePaul's graduate program, and they did not count toward another degree either at DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

Undergraduate Courses
No undergraduate courses shall count toward the graduate degree.

Graduation Requirements
Requirements include, but are not limited to, twelve graduate courses (48 credit hours) at a minimum cumulative GPA of 2.70, and passing of Part-I and Part-II comprehensive examinations.
Graduation with Distinction

A minimum GPA of 3.70 for coursework applied toward the applied mathematics degree and high performance - as determined by the Mathematical Sciences department - on the comprehensive examinations are required for graduation with distinction.

Time Limitation

The degree is expected to be completed in a maximum of six years.

Applied Professional Studies (MA)

The Master of Arts Program in Applied Professional Studies (MAAPS), founded in 1984, serves adults who wish to design and execute their graduate study in a personally-relevant area that is otherwise not served by typical course-based, already-structured programs. These “entrepreneurial learners” come with a personal/professional area of study they want to pursue, a desire to build and manage their own learning processes, and a goal to both learn and shape their learning into contributions that make a difference.

Key Features

1. You design your own area of study (an area of professional contribution in a particular setting) guided by a graduate framework. Your idea; your design.
2. You learn to think in terms of learning for both intentional outcomes and timely applications.
3. You build a plan for learning that incorporates an array of learning strategies (not just classes!)—strategies that fit your sought outcomes and learning preferences and result in products you can use.
4. You manage the pace, place and process of implementing your plan.
5. You receive assistance from a team of advisors from the University as well as your own particular professional community.
6. You engage in a brief/intensive series of “liberal learning” seminars designed to rekindle and/or deepen your practice in key domains of applied effectiveness (personal, interpersonal, organizational, values and inquiry).
7. You accomplish your goal of graduate study—focusing on an area of importance to you and earning an accredited graduate degree with competencies endorsed by the University.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Develop knowledge, skills, habits and perspectives critical to understanding and contributing at advanced levels with respect to their individualized areas of study.
- Develop as reflective practitioners who are able to affirm, adjust and/or expand what they know and do in executing their individualized areas of study.
- Apply traditions and methods of inquiry to affect ongoing improvement in their individualized areas of study.
- Enhance employability in the diverse arenas related to their individualized areas of study.
- Prepare for advanced academic study if/as they desire to pursue such.
Degree Requirements

Course Requirements
Students are required to complete a minimum of 52 graduate credit hours with a cumulative GPA of not less than 3.0. Students are also required to develop and complete a narrative transcript.

Planning & Integration
- AP 501 LEARNING PLAN RESEARCH AND DEVELOPMENT SEMINAR
- AP 502 LEARNING PLAN REVIEW
- AP 528 ASSESSMENT AND INTEGRATION I
- AP 548 ASSESSMENT AND INTEGRATION SEMINAR II
- AP 558 ASSESSMENT AND INTEGRATION SEMINAR III
- AP 578 ASSESSMENT AND INTEGRATION SEMINAR IV

Liberal Learning
- LLS 410 PERSONAL EFFECTIVENESS
- LLS 420 INTERPERSONAL EFFECTIVENESS
- LLS 430 ORGANIZATIONAL EFFECTIVENESS
- LLS 440 VALUES EFFECTIVENESS
- LLS 450 INQUIRY EFFECTIVENESS

Individualized Areas of Focus
Students design and implement learning strategies for enhancing their understanding and competence development in each of the following aspects of their individualized areas of focus.
- AP 510 MAIN THEORIES AND IDEAS
- AP 520 METHODS OF RESEARCH
- AP 530 SPECIALIZED SKILLS
- AP 540 COMMUNICATION MODES
- AP 550 ORGANIZATIONAL AND/OR INTERPERSONAL DYNAMICS
- AP 560 CHALLENGES FROM LARGER CONTEXTS
- AP 570 ETHICAL ISSUES
- AP 574 REFLECTION IN/ON PRACTICE
- AP 585 SUPPLEMENTAL COMPETENCE I

Individualized Program Culmination
Students culminate their graduate study through either four supplemental competencies or an integrating project (proposal and final artifact). Upon completion of all degree requirements (and prerequisite to degree conferral), each student prepares and submits for approval a comprehensive narrative transcript of her/his program of study.
- Supplementals (Electives)
  - AP 586 SUPPLEMENTAL COMPETENCE II
  - AP 587 SUPPLEMENTAL COMPETENCE III
  - AP 588 SUPPLEMENTAL COMPETENCE IV
  - AP 589 SUPPLEMENTAL COMPETENCE V
Applied Statistics (MS)

The department offers a program of study leading to the Master of Science degree in applied statistics. The program is designed to provide students with the necessary quantitative background for employment in business, industry, or government and to provide a solid foundation for students interested in pursuing a Ph.D. degree in applied statistics. Courses in this program are offered at the Lincoln Park Campus. Some may also be taken at the O'Hare campus.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>28 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Concentration Requirements</td>
<td>20 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td>48 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Know the fundamentals of probability and statistics necessary for them to develop and implement statistical models as needed to satisfy the requests of their employers.
- Use new and current technology involving SAS, R and SQL.
- Communicate statistical ideas clearly in both oral and written form using appropriate statistical terminology.
- Present project presentations and relate results to all levels of his audience including those less proficient in the subject matter.
- Recognize the need for involvement and participation in national and local ASA chapter workshops and meetings.
- Generate reports that show statistical expertise in writing and model implementation.

Degree Requirements

Course Requirements

Core - All 7 courses / 28 credit hours:
- MAT 441 APPLIED STATISTICS I
- MAT 442 APPLIED STATISTICS II
- MAT 443 APPLIED STATISTICS III
- MAT 451 PROBABILITY AND STATISTICS I
- MAT 452 PROBABILITY AND STATISTICS II
- MAT 453 PROBABILITY AND STATISTICS III
Candidates for the degree must complete at least 48 quarter hours of graduate level work in applied statistics and pass two sets of comprehensive examinations. Comprehensive examinations are offered twice a year, in the autumn and spring quarters. At the beginning of the quarter when students plan to take the comprehensive examinations, they notify the program director to register for the exams.

**Concentration Requirement**

Applied Statistics students must choose one concentration: Biostatistics, Data Science, or General Applied Statistics.

**Computer Usage**

The department places strong emphasis on computation and is well supported with equipment and software necessary for research. The computer is used for data analysis and to find solutions to problems that arise in numerical analysis, simulations, and mathematical modeling. The computer packages used in these courses are likely to play an important role in the solution of the problems students will encounter in their places of employment.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the degree. Students may declare at most two concentrations for their MS, provided they successfully complete at least 14 courses as 56 credit hours required for their degree.

In addition to any degree requirements, students are required to choose one of the following:

- Biostatistics Concentration
- Data Science Concentration
- General Applied Statistics Concentration

**Biostatistics Concentration**

**Concentration Requirements - All 3 courses / 12 credit hours:**

- MAT 421 BASIC BIOSTATISTICS
- MAT 424 ADVANCED BIOSTATISTICS
- MAT 425 SURVIVAL ANALYSIS

**Electives - Any 2 courses / 8 credit hours:**

- MAT 454 MULTIVARIATE STATISTICS
- MAT 455 STOCHASTIC PROCESSES
- MAT 457 NONPARAMETRIC STATISTICS
- MAT 459 SIMULATION MODELS AND MONTE CARLO METHOD
- MAT 465 STOCHASTIC SURVIVAL MODELS
- MAT 512 APPLIED TIME SERIES AND FORECASTING
- MAT 526 SAMPLING THEORY AND METHODS
Data Science Concentration

Concentration Requirements - All 4 courses / 16 credit hours:

- MAT 449 STATISTICAL DATA MANAGEMENT
- MAT 450 ADVANCED STATISTICAL COMPUTING
- MAT 491 DATA MINING
- CSC 555 MINING BIG DATA

Elective - Any 1 course / 4 credit hours:

- MAT 454 MULTIVARIATE STATISTICS
- MAT 455 STOCHASTIC PROCESSES
- MAT 457 NONPARAMETRIC STATISTICS
- MAT 459 SIMULATION MODELS AND MONTE CARLO METHOD
- MAT 488 OPERATIONS RESEARCH I: OPTIMIZATION THEORY
- MAT 512 APPLIED TIME SERIES AND FORECASTING
- CSC 465 DATA VISUALIZATION
- CSC 478 PROGRAMMING MACHINE LEARNING APPLICATIONS
- CSC 495 SOCIAL NETWORK ANALYSIS
- CSC 575 INTELLIGENT INFORMATION RETRIEVAL

General Applied Statistics Concentration

Concentration Requirements - All 3 courses / 12 credit hours:

- MAT 512 APPLIED TIME SERIES AND FORECASTING
- MAT 526 SAMPLING THEORY AND METHODS
- MAT 528 DESIGN AND ANALYSIS OF EXPERIMENTS

Electives - Any 2 courses / 8 credit hours:

- MAT 450 ADVANCED STATISTICAL COMPUTING
- MAT 454 MULTIVARIATE STATISTICS
- MAT 455 STOCHASTIC PROCESSES
- MAT 457 NONPARAMETRIC STATISTICS
- MAT 458 STATISTICAL QUALITY CONTROL
- MAT 459 SIMULATION MODELS AND MONTE CARLO METHOD
- MAT 460 TOPICS IN STATISTICS
- MAT 489 QUEUING THEORY WITH APPLICATIONS
- MAT 598 ADVANCED PROBLEM SOLVING IN ALGEBRA AND ANALYSIS
- MAT 599 INDEPENDENT STUDY
Program Graduate Academic Student Handbook

**Academic Probation**
A student will be placed on probation at the time when his/her cumulative GPA falls below 2.70.

**Academic Dismissal**
A graduate student may be academically dismissed under one or more of the following violations of satisfactory progress: his/her cumulative GPA remains below 2.70 after one year of being on academic probation, lack of progress toward degree completion, or failing the comprehensive examinations twice.

**Conditional Admission**
Students whose undergraduate degrees were in majors other than mathematics or related fields may be conditionally admitted provided they complete the following minimum prerequisites as conditions: two years of calculus (the equivalent of MAT-150-152), multivariable calculus and linear algebra (the equivalent of MAT-260-262), and a course in statistics.

**Readmission**
The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

**Transfer Credit**
No more than two graduate courses (8 quarter hours or its semester equivalent) may be transferred from another program or institution provided that they are equivalent to courses offered in DePaul's graduate program, and they did not count toward another degree at DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

**Undergraduate Courses**
No undergraduate courses shall count toward the graduate degree.

**Graduation Requirements**
Requirements include, but are not limited to, twelve graduate courses (48 credit hours) at a minimum cumulative GPA of 2.70, and passing of Part-I and Part-II comprehensive examinations.

**Graduation with Distinction**
A minimum GPA of 3.70 for coursework applied toward the applied statistics degree and high performance - as determined by the mathematical sciences department - on the comprehensive examinations are required for graduation with distinction.

**Time Limitation**
The degree is expected to be completed in a maximum of six years.
Applied Technology (MS)

The Master of Science Program in Applied Technology (MSAT), founded in 1999, is designed for people who want to deepen their understanding and use of technology while enhancing their skills and knowledge for improving the interface between technology and humanity in organizational systems.

Key Features

- You draw on the combined strengths of two of DePaul University's colleges—the School for New Learning and the College of Computing and Digital Media.
- You develop advanced and applied capabilities in one of the following areas of "applied technology" specialization:
  - Applied Information Systems
  - Applied Network Technology
  - Applied IT Project Management
  - Applied Information Technology
  - Applied Human Computer Interaction
- You customize portions of your study by combining coursework with on-the-job applied learning projects.
- You receive assistance from a team of advisors from the University and professional community who provide coaching and mentoring to ensure your success.
- You engage in a brief/intensive series of "liberal learning" seminars designed to rekindle and/or deepen your practice in key domains of applied effectiveness (personal, interpersonal, organizational, values and inquiry).
- You accomplish your goal of graduate study—enhancing your expertise in applying technology and earning an accredited graduate degree with competencies endorsed by the University.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Develop knowledge, skills, habits and perspectives critical to applying technology to organizational problem-solving and decision-making.
- Develop as reflective practitioners who are able to affirm, adjust and/or expand what they now and do in support of applying technology.
- Apply traditions and methods of inquiry to affect ongoing improvement in applying technology in practice.
- Enhance employability in the diverse arenas where technology is applied.
- Prepare for advanced academic study if/as they desire to pursue such.
Degree Requirements

Course Requirements
Students must complete a minimum of 52 graduate credit hours with a cumulative GPA of not less than 3.0.

Planning & Integration
- AT 580 INTRODUCTION TO APPLIED TECHNOLOGY

Liberal Learning
- LLS 410 PERSONAL EFFECTIVENESS
- LLS 420 INTERPERSONAL EFFECTIVENESS
- LLS 430 ORGANIZATIONAL EFFECTIVENESS
- LLS 440 VALUES EFFECTIVENESS
- LLS 450 INQUIRY EFFECTIVENESS

Professional Specialization
The Professional Specialization includes one of five career-related 'tracks' of core courses offered by the College of Computing and Digital Media.
- Applied Information Systems
- Applied Network Technology
- Applied IT Project Management
- Applied Information Technology
- Applied Human-Computer Interaction

Culmination
- AT 587 INDEPENDENT WORK-BASED PROJECT
- AT 589 INDEPENDENT REFLECTIVE PRACTICE PROJECT

Applied Human-Computer Interaction Specialization
This area of specialization within the MS in Applied Technology program prepares students to design, implement, and evaluate computer interfaces so that they are accessible and easy for people to use. This interdisciplinary specialization integrates concepts and methods from computer science, graphic design and the social sciences to provide a comprehensive understanding of the user-centered design process. The combination of coursework, liberal learning seminars, and independent workplace-based projects advance students’ capabilities to influence organizations and apply a repertoire of strategies and techniques to the user-centered design process, including usability assessment and testing, user task and preference analysis, information architecture, and construction of dynamic and function-driven web sites and other applications.

Introductory Courses
Introductory courses may be waived for any of the following conditions:
- The student has the appropriate coursework to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- The student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.
- HCI 402 FOUNDATIONS OF DIGITAL DESIGN
Foundation Courses

- HCI 406 WEB SITE DESIGN FOR HCI
- IT 403 STATISTICS AND DATA ANALYSIS
- IT 411 SCRIPTING FOR INTERACTIVE SYSTEMS

Advanced Courses

Three courses chosen from the following:

- HCI 430 PROTOTYPING AND IMPLEMENTATION
- HCI 450 FOUNDATIONS OF HUMAN-COMPUTER INTERACTION
- HCI 460 USABILITY EVALUATION METHODS
- HCI 470 DIGITAL DESIGN
- HCI 511 ACCESSIBILITY AND DESIGN FOR DIVERSE USERS

Applied Information Systems Specialization

The Applied Information Systems specialization focuses on integrating business and technology with an emphasis on the development, management and planning of information systems. This focus provides students with a strong foundation in business and systems analysis, project management and database and enterprise infrastructure. Students completing this specialization possess a broad range of skills and understandings in support of organizations gaining strategic and tactical competitive advantage.

Foundation Courses

- IS 421 SYSTEMS ANALYSIS
- IS 422 SYSTEM DESIGN, IMPLEMENTATION, AND MAINTENANCE
- CSC 451 DATABASE DESIGN

Advanced Courses

- ECT 424 ENTERPRISE INFRASTRUCTURE
- IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
- Complete one course from the following:
  - CNS 440 INFORMATION SECURITY MANAGEMENT
  - IS 435 ORGANIZATIONAL MODELING
  - IS 483 INFORMATION SERVICES AND OPERATIONS
  - IS 485 REQUIREMENTS ELICITATION, ANALYSIS, AND SPECIFICATION
  - IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES
  - IS 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
  - IS 560 ENTERPRISE SYSTEMS
  - IS 565 IT OUTSOURCING
Applied Information Technology Specialization

This area of specialization within the MS in Applied Technology program addresses contemporary needs for understanding and applying the core principles of technology to solve problems, improve effectiveness and increase efficiencies in corporations, health care institutions, and government agencies. With the combination of coursework, workplace-based projects, and liberal learning seminars, students advance their technological, organizational, and personal capacities. Individuals who serve or are moving into positions of serving as liaisons between the Information Technology department and a functional business unit are likely to benefit from this graduate program. The program also serves those who work within departments that are information dependent, rely heavily on information technology, and/or seeking to advance their careers through project management or information technology management positions.

Foundations Courses
- PM 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
  or IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
- IS 483 INFORMATION SERVICES AND OPERATIONS
- ECT 424 ENTERPRISE INFRASTRUCTURE

Advanced Courses
- CNS 440 INFORMATION SECURITY MANAGEMENT
- IS 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
- CSC 451 DATABASE DESIGN

Applied IT Project Management Specialization

This area of specialization within the MS in Applied Technology program is designed to advance the capabilities of working professionals to fill the growing need for IT project managers. The combination of coursework, liberal learning seminars, and independent workplace-based projects advance students’ technological, organizational, and personal capacities to lead and manage IT project teams. Students focus on developing and leveraging knowledge and skills in project and risk management, investment financial analysis, organizational and ethical decision-making, and technologies to promote both collaboration and management controls. These and other capabilities reflect the skills to build leadership practices that enable quality work.

Foundation Courses
- PM 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
  or IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
- PM 556 ENTERPRISE PROJECT MANAGEMENT
  or IS 556 ENTERPRISE PROJECT MANAGEMENT
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
  or IS 500 INFORMATION TECHNOLOGY LEADERSHIP

Advanced Courses
- PM 440 COLLABORATIVE TECHNOLOGIES FOR LEADING PROJECTS
  or IS 440 COLLABORATIVE TECHNOLOGIES FOR LEADING PROJECTS
- PM 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
  or IS 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
- PM 570 ENTERPRISE SYSTEM IMPLEMENTATION
  or IS 570 ENTERPRISE SYSTEM IMPLEMENTATION
Applied Network Technology Specialization

This area of specialization trains professionals to mediate industry demands for innovative network designs, new network applications and services, and the interactions between business enterprises and the network providers that serve them. The combination of coursework, liberal learning seminars, and independent workplace-based projects advance students’ capabilities at both the theoretical and applied levels of design, configuration and management of converged communication networks. Students may pursue paths in technical areas such as network protocols, analysis, management or network and information security in wired and wireless contexts.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- The student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

TDC 405 VOICE AND DATA NETWORK FUNDAMENTALS
TDC 411 INTRODUCTION TO COMPUTER AND NETWORK SYSTEMS
TDC 413 INTRODUCTION TO LAN AND WAN

Foundation Courses

- TDC 460 FOUNDATIONS OF NETWORK TECHNOLOGIES
- TDC 463 COMPUTER NETWORKS AND DATA SYSTEMS
- TDC 464 CONVERGED MULTIMEDIA NETWORKS

Advanced Courses

- Three additional Applied Telecommunications or Applied Network and Information Security courses chosen with advisor approval.

Arabic (MA)

DePaul’s innovative new MA program in Arabic provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multiethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, businesspeople, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Arabic may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Arabic + Digital Humanities Certificate
- Arabic + Teaching English to Speakers of Other Languages (TESOL) Certificate
Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements

The curriculum of the MA in Arabic will consist of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of four courses (16 quarter credit hours) required of all students, and
2. Eight courses (32 quarter credit hours) in the language area, which must include an approved “cluster” of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest.

Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes ARB). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight “language area” courses in the student’s program.

Core Curriculum

The core curriculum consists of the following four courses:

- MOL 401 PROFESSIONAL FOUNDATIONS
- MOL 402 LANGUAGE, SELF AND SOCIETY
- MOL 403 COMMUNITIES OF PRACTICE
- MOL 496 MAMOL CAPSTONE

In addition, all three-hundred level courses in the respective languages are offered simultaneously as 400-level electives to complete the MA program. These 400-level courses carry different requirements than the lower-level courses.
Additional Requirements

Additional requirements include:

- ACTFL Oral Proficiency Interview
- Portfolio Project

All students must attain a rating of at least "Advanced Low" from the standardized Oral Proficiency Interview (OPI) of the American Council on Teaching Foreign Languages (ACTFL).

The service learning experience will involve work within an environment where the student can apply her or his linguistic expertise, as a volunteer, contributor, intern, or employee. This environment might be a community group; a social service or agency; a professional association; or an artistic organization. This experience should ideally contribute to the student's portfolio project.

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program or a final project with written critical assessment. Final projects may include a community service experience, internship, performance and creative work, thesis, or translation.

Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework. The thesis should address the area of interest of the candidate’s course “cluster.”

Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “intermediate high” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction
Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

**Arts Leadership (MFA)**

The Theatre School’s graduate Arts Leadership Fellowship is a two-year master of fine arts (MFA) program that combines full-time employment at Chicago Shakespeare Theater with full-time coursework at DePaul University. This rigorous program, distinct among competitive programs, is designed to prepare students to become highly skilled leaders in the complex and sophisticated world of the arts.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>96 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>96 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

**Core Outcomes**

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works and artistic approaches from antiquity to the present, encompassing a broad range of periods, cultures, and styles.
- Synthesize and apply elements of their education and training in classes, rehearsals, and productions.
- Participate in theatrical production in a professional manner, with discipline, respect, and maturity.
- Demonstrate the role of the theatre practitioner as an active member of society and of the cultural and social impact of the arts.

**Program Specific Outcomes:**

Students will be able to:

- Work within an organizational vision.
- Communicate, both verbally and in writing, at a superior level.
- Master the nature and dynamics of collaborative practice between and among artists, boards, personnel, and audience.
- Develop and master the skills of strategic planning.
- Develop and master the dynamics of personal and human interaction.
- Master the basic principles of finance, including budgeting and financial management.
- Develop a workable knowledge of law and legal procedures as they relate to the ethics of business practice, governance, and contracts.
- Develop specific proficiencies in marketing strategies as they relate to overall artistic programming and specific events.
- Understand and the dynamics that exist between Human Resources and employment relationships.
- Understand the specifics of facility management and resource allocation.
- Develop a practical knowledge of relevant labor relations and issues.
- Develop a practical knowledge of organizational hierarchy and organizational growth.
- Understand both the history of the organization and its advancement.
- Master the organization's definitions related to marketing and promotion, institutional branding, and creative thinking, implementation, and evaluation through practical experience.
Degree Requirements

Course Requirements

First Year

- MPS 500 INTRODUCTION TO PUBLIC SERVICE MANAGEMENT
- WRD 522 WRITING IN THE PROFESSIONS
- MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
- MGT 530 LEADERSHIP IN ORGANIZATIONS
- MPS 519 RESOURCE DEVELOPMENT
- Synthesis Seminar
  - THE 521 ARTS LEADERSHIP SYNTHESIS SEMINAR
  - THE 522 ARTS LEADERSHIP SYNTHESIS SEMINAR
  - THE 523 ARTS LEADERSHIP SYNTHESIS SEMINAR
- Graduate Management Practicum
  - THE 511 GRADUATE MANAGEMENT PRACTICUM
  - THE 512 GRADUATE MANAGEMENT PRACTICUM
  - THE 513 GRADUATE MANAGEMENT PRACTICUM
- One 500 Level CMNS Course Chosen in Consultation with the Arts Leadership Department Head.

Second Year

- MPS 525 WORKING WITH NONPROFIT BOARDS
- MPS 561 LAW AND NONPROFIT ORGANIZATIONS
- AP 550 ORGANIZATIONAL AND/OR INTERPERSONAL DYNAMICS
- Synthesis Seminar
  - THE 521 ARTS LEADERSHIP SYNTHESIS SEMINAR
  - THE 522 ARTS LEADERSHIP SYNTHESIS SEMINAR
- Graduate Management Practicum
  - THE 511 GRADUATE MANAGEMENT PRACTICUM
  - THE 512 GRADUATE MANAGEMENT PRACTICUM
  - THE 513 GRADUATE MANAGEMENT PRACTICUM
- THE 681 ARTS LEADERSHIP THESIS PROJECT
- Elective Courses – eight credits total, as approved by advisor

Audit and Advisory Services (MSAA)

Program Description

The Master of Science in Audit and Advisory Services (MSAA) prepares students to succeed as accountants by gaining advanced training in audit. The skills taught in the MSAA apply to both public accounting firms and corporate internal audit departments. Students are trained using hands-on experience with audit and internal audit tools, visualization techniques, and data analytics. The program also uses forensic accounting to prepare students to understand what questions to ask of financial data and how to interpret the findings. Students graduate with a set of integrated competencies that are highly valued by the accounting profession.

The program’s faculty include nationally and internationally known scholars and professors, and its alumni form one of the largest accounting networks in Chicago.
The program is intended for students with a prior degree in accounting. It offers a unique opportunity to earn a graduate degree while also fulfilling the extra credit hours needed to qualify for the CPA exam.

**Program Features**

**Comprehensive curriculum.** The program’s integrated curriculum focuses on areas that are in high demand throughout all sectors of the accounting profession—internal audit, data analytics, fraud and forensic accounting, and information systems.

**Case-based coursework.** Students gain advanced, practical skills for workplace application by learning in a case-based setting and working with audit systems used by accounting professionals.

**Professional input.** The program’s core competencies are based on insights from top-ranking members of the auditing and accounting profession. Students are prepared with skills that are highly regarded by firms and corporations.

**Recognized as a top school.** DePaul’s accounting program is recognized by the Institute of Internal Auditors Internal Auditing Education Partnership (IAEP) Program as a comprehensive-level school for internal audit education—making DePaul one of only 15 schools in the United States recognized with this distinction.

MSAA graduates have gone on to work for, or earn promotions in, large, medium and small accounting firms; corporate accounting; consulting firms, non-profit organizations, and government offices.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will:

- Have a sophisticated understanding of internal auditing, corporate governance, and internal control.
- Be familiar with Data Analysis.
- Understand the flow of accounting information in organizations and security and internal controls and the role of information technology in accounting information systems and decision-making.
- Recognize and apply relevant ethical standards in the context of fraud and internal auditing.
- Communicate effectively both orally and in writing.
- Demonstrate an understanding of audit and fraud issues from an international perspective.

**Degree Requirements**

**Course Requirements**

Twelve courses are required to complete the Master of Science in Audit and Advisory Services (MSAA) degree. Of the twelve required courses, nine are required and three are selected from among business electives. Students may not repeat at the graduate level course material that was completed as part of their undergraduate degree. Please consult with an academic advisor for clarification.

Students must complete the following nine required courses (36 hrs):
In addition, students must complete three open business electives (12 hrs).

The following classes may not be taken for elective credit: ACC 500, ACC 505, ACC 541, ACC 542, ACC 543, ACC 545, ACC 547, ACC 548, ACC 550, ACC 551, ACC 554, ACC 555, ACC 590, ECO 502, FIN 455, MGT 502 or MGT 504.

ACC 545, ACC 550 and ACC 551 are approved for credit in the combined Bachelor's/Master's program.

Degree Requirements

1. Satisfactory completion of the nine required courses and three required electives as approved by the faculty program director.
2. A minimum of 48 earned graduate credit hours applicable to the MSAA degree (waived credits are not considered earned hours).
3. Satisfactory completion of the college residency requirement.
4. All courses taken for credit toward the degree must be completed with satisfactory grades within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the permission of the faculty program director or the Kellstadt Graduate School of Business.

Bilingual-Bicultural Education (MA or MEd)

The Bilingual Bicultural Education program offers a comprehensive and in-depth examination of the linguistic, academic, social, and cultural needs of English language learners by addressing second language acquisition and bilingual/ESL educational theory, research, policy, and practice. The foundation of the program rests on the sociopolitical, linguistic, and cultural implications of approaches to language education and language policies. The program offers two concentrations for Illinois State endorsement: Bilingual Education (BE) and English as a Second Language (ESL).

Licensure Option

Students seeking the Master's degree in Bilingual Bicultural Education have the option to also pursue an Illinois initial or subsequent teaching license. Please consult your academic advisor as an additional program application may be required.

Endorsements

- Bilingual Education (BE): Requires an Illinois target language proficiency (TLP) test in addition to the required coursework and field experience hours.
- English as a Second Language (ESL): Must complete the required coursework and field experience hours (does not require a language proficiency test).

Endorsement Application

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework and licensure tests. All individuals must meet ISBE requirements at the
Requirements are subject to change per the discretion of ISBE. All licensure guidelines, rules, and requirements can be found on the ISBE website.

### Learning Outcomes

Student will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Demonstrates a positive attitude and commitment to the profession
• Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Degree Requirements

Course Requirements

Social and Cultural Foundations Courses:  8 quarter hours required, grade of C or better required
• SCG 408 EDUCATION AND SOCIETY
• SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Bilingual Bicultural Courses:  36 quarter hours required, grade of C or better required
• BBE 402 BILINGUAL-BICULTURAL PROGRAM DESIGN AND CURRICULUM DEVELOPMENT
• BBE 404 LANGUAGE, LITERACY AND CULTURE
Education Elective Course: 4 quarter hours are required, grade of C or better required.

- Choose one course from the following list:
  - BBE 530 LATINOS AND EDUCATION
  - BBE 555 HOW ENGLISH WORKS: ENGLISH SYNTAX FOR ESL AND BILINGUAL EDUCATION TEACHERS
  - CS 489 CREATIVITY AND CRITICAL THINKING - VYGOTSKY, BAKHTIN, MAKIGUCHI, IKEDA
  - Other elective course approved by BBE Program Director

100 Field Experience Hours: Non-credit, non-tuition, PA grade required

- BBE 97 100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED

Choose one: Thesis (M.A.) or Capstone (M.Ed.):

- Master of Arts (M.A.) Degree Requirements: 4 quarter hours, grade of C or better required
  - BBE 589 THESIS RESEARCH IN BILINGUAL-BICULTURAL EDUCATION (4 quarter hours)

The Master's Thesis is completed in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the M.A. Thesis Handbook for additional information.

- Master of Education (M.Ed.) Degree Requirements: 4 quarter hours, grade of C or better required
  - BBE 510 SPECIAL TOPICS IN LANGUAGE EDUCATION AND CULTURE (4 quarter hours, M.Ed. degree only)
  - BBE 608 CAPSTONE IN BILINGUAL-BICULTURAL EDUCATION (non-credit, non-tuition, PA grade required)

Capstone project completed in conjunction with faculty advisement.

Biological Sciences (MA)

A program of study leading to the Master of Arts degree in Biology is designed for students who:

- Have a strong desire to increase their understanding of the life sciences.
- Plan additional education at the master's level for increased proficiency in teaching. This program is not intended for those students pursuing technical and/or laboratory research-related careers, or planning to continue study towards the Ph.D. degree.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>50 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>50 hours</td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

- Describe multiple fields and approaches within Biology
- Demonstrate mastery of the principles and approaches of a particular subfield in Biology
- Demonstrate the ability to critically analyze and evaluate scientific findings
- Design a study to test an original hypothesis using the scientific method.
- Effectively communicate scientific information in both oral and written formats.
- Describe how a mastery of biology content and methods of inquiry will enable them to contribute to society and pursue various career paths.

Degree Requirements

Course Requirements

50 hours of graduate credit including:

- BIO 402 INTRODUCTION TO GRADUATE STUDIES
- BIO 403 DEVELOPMENT OF TOPICS FOR RESEARCH
- BIO 494 COMMUNICATING SCIENCE
- Three courses from the Ecology, Evolution and Population Biology core area
- Three courses from the Genetics, Cell and Molecular Biology core area
- Three courses from the Physiology and Neurobiology core area
- Four credit hours of BIO 496 RESEARCH

Core Areas of Study

Ecology, Evolution, and Population Biology

- BIO 406 RESEARCH METHODS & APPLIED BIOSTATISTICS
- BIO 415 TOPICS IN ECOLOGY
- BIO 417 AQUATIC BIOLOGY
- BIO 421 MOLECULAR METHODS IN ECOLOGY AND EVOLUTION
- BIO 435 CONCEPTS IN EVOLUTION
- BIO 445 TOPICS IN PALEOBIOLOGY
- BIO 489 RESEARCH IN FIELD BIOLOGY

Genetics, Cell and Molecular Biology

- BIO 406 RESEARCH METHODS & APPLIED BIOSTATISTICS
- BIO 409 PLANT PHYSIOLOGY
- BIO 420 ADVANCED MICROBIOLOGY
- BIO 421 MOLECULAR METHODS IN ECOLOGY AND EVOLUTION
- BIO 425 CELLULAR EVENTS IN THE IMMUNE RESPONSE
- BIO 430 DEVELOPMENTAL BIOLOGY
- BIO 439 CELLULAR NEUROBIOLOGY
- BIO 445 TOPICS IN MEDICAL BACTERIOLOGY
- BIO 448 THE BIOLOGY OF INFECTION
- BIO 449 TOPICS IN MICROBIOLOGY AND BIOTECHNOLOGY
- BIO 450 PROBLEMS IN CELL MOTILITY
- BIO 455 GENETIC TOXICOLOGY
- BIO 460 MOLECULAR BIOLOGY
BIO 461 TOPICS IN MOLECULAR BIOLOGY
BIO 462 BIOINFORMATICS FOR BENCH SCIENTISTS
BIO 471 IMMUNOBIOLOGY
BIO 475 INTRODUCTION TO PHARMACOLOGY
BIO 480 CANCER BIOLOGY
BIO 481 TOPICS IN CANCER
BIO 486 INTRODUCTION TO ENDOCRINOLOGY

Physiology and Neurobiology

- BIO 406 RESEARCH METHODS & APPLIED BIOSTATISTICS
- BIO 409 PLANT PHYSIOLOGY
- BIO 412 TOPICS IN EXERCISE PHYSIOLOGY
- BIO 439 CELLULAR NEUROBIOLOGY
- BIO 440 BEHAVIORAL NEUROSCIENCE
- BIO 441 TOPICS IN NEUROBIOLOGY
- BIO 442 COGNITIVE NEUROSCIENCE
- BIO 452 ADVANCED COMPARATIVE PHYSIOLOGY
- BIO 465 PRINCIPLES OF TOXICOLOGY
- BIO 475 INTRODUCTION TO PHARMACOLOGY
- BIO 485 MAMMALIAN REPRODUCTION
- BIO 486 INTRODUCTION TO ENDOCRINOLOGY
- BIO 489 RESEARCH IN FIELD BIOLOGY

BIO 490 - Special Topics, as appropriate, may also be approved in one of the three core areas.

Advancement to Candidacy

Based upon results of a qualifying examination taken near the end of the third quarter of the student's first full year of course work.

Final Project Requirement

Based upon an independent library research project under the supervision of a faculty member. Up to four credit hours of BIO 496 RESEARCH may be taken to complete the Final Project.

Program Graduate Academic Student Handbook

Probation

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.00. If a student's cumulative GPA goes below this minimum the student will be put on probation and will have one quarter to bring their cumulative GPA up to at least a 3.00 or face dismissal from the program. If the student's cumulative GPA goes below the minimum a second time, they will be dismissed from the program.

Dismissal

Students may be dismissed for breaches of academic integrity, breaches of the code of student responsibility, or violations of satisfactory progress, including but not limited to, failing a retake of the oral qualifying exam, not maintaining at least a 3.00 cumulative GPA, or lack of progress towards degree completion. Students who have completed their coursework, but who are still working on their final project (MA) must be enrolled in candidacy continuation during the three quarters of the academic school year. Failure to enroll in candidacy continuation will result in dismissal from the program.

Readmission

If a student leaves the program for any reason they must reapply to the program unless prior agreement for readmission has been granted by the Director of Graduate Studies in Biology (hereafter, Program Director).
specific timeline for readmission must be specified and agreed to by the Program Director prior to the student leaving the program.

Transfer Credit

Two semester courses or three quarter courses from another institution or program may be accepted as transfer credit upon approval of the Program Director and Associate Dean for Graduate Studies. Credit will only be transferred for courses that have equivalents in the DePaul curriculum as determined by the Program Director. Transfer credit can only be awarded for graduate level coursework which has not counted toward the completion of a degree at DePaul or any other institution.

Undergraduate Courses

No undergraduate courses will be counted towards the graduate degree.

Graduation Requirements

In order to graduate, students must satisfy the degree requirements as specified in the course catalog for MA degrees, including but not limited to maintaining a minimum cumulative GPA of 3.00.

Graduation with Distinction

The criteria for graduating with distinction are earning a minimum 3.50 cumulative grade point average in graduate level biology courses and the recommendation of the final project/thesis committee.

A final project committee needs to be established by Nov 1 of the student's second year of study. The Advisor and two committee members (typically DePaul faculty members) will read and evaluate the final project.

The responsibility of the final project committee is to assess whether the candidate has achieved the following:

- While conducting his/her research the candidate has become an independent thinker and researcher. They have demonstrated problem solving abilities, have been self-motivated, and have shown determination in accomplishing his/her research goals.
- In presenting his/her research the candidate has done a comprehensive review and effectively communicated the key issues associated with their topic. They demonstrate their understanding of the field by effectively answering questions during the final project presentation.
- Has an in depth understanding of the field and synthesized it in a way which points in new/creative experimental and/or analytical directions that have the potential to contribute to new approaches in better understanding the research area.

Time Limitation

Students pursuing a master's degree must complete all requirements for the master's degree within a maximum of six years from their first term of enrollment in the program.

Biological Sciences (MS)

A program of study leading to the Master of Science degree in Biology designed for students who:

- Have a strong desire to increase their understanding of the life sciences.
- Plan additional education at the master's level for increased proficiency in teaching and/or research.
- Plan to continue study toward the Ph.D. degree.

The master's program provides lecture, laboratory and seminar courses—along with learning experiences in research and undergraduate laboratory assisting, to aid students in achieving their stated goals. Students develop a particular concentration of studies in consultation with their faculty advisor.

| Degree Requirements | 50 hours |

DePaul University Autumn 2017-2018
Learning Outcomes

Students will be able to:

- Describe multiple fields and approaches within Biology
- Demonstrate mastery of the principles and approaches of a particular subfield in Biology
- Demonstrate the ability to critically analyze and evaluate scientific findings
- Design a study to test an original hypothesis using the scientific method.
- Effectively communicate scientific information in both oral and written formats.
- Describe how a mastery of biology content and methods of inquiry will enable them to contribute to society and pursue various career paths.
- Conduct a novel research study using the scientific method, analyze their data using qualitative and or quantitative methods, and to explain its relevance and contribution to science.

Degree Requirements

Course Requirements

50 hours of graduate credit including:

- BIO 402 INTRODUCTION TO GRADUATE STUDIES
- BIO 403 DEVELOPMENT OF TOPICS FOR RESEARCH
- BIO 494 COMMUNICATING SCIENCE
- Twenty quarter hours of BIO 499 THESIS RESEARCH
- At least one course from the Ecology, Evolution, and Population biology core area
- At least one course from the Genetics, Cell and Molecular biology core area
- At least one course from the Physiology and Neurobiology core area
- Two additional course from any of the core areas

Graduate students are also required to attend all of the seminars presented in the department’s Seminar Series.

Core Areas of Study

Ecology, Evolution, and Population Biology

- BIO 406 RESEARCH METHODS & APPLIED BIOSTATISTICS
- BIO 415 TOPICS IN ECOLOGY
- BIO 417 AQUATIC BIOLOGY
- BIO 421 MOLECULAR METHODS IN ECOLOGY AND EVOLUTION
- BIO 435 CONCEPTS IN EVOLUTION
- BIO 445 TOPICS IN PALEOBIOLOGY
- BIO 489 RESEARCH IN FIELD BIOLOGY

Genetics, Cell and Molecular Biology
Advancement to Candidacy

Based upon the results of a qualifying examination taken near the end of the third quarter of the student’s first full year and earning grades of B or better on graduate courses taken during the first year. Participation in undergraduate laboratory instruction is strongly encouraged.

Thesis Requirement

Results based upon an independent laboratory investigation.

Final Examination Requirement

An oral examination, including presentation of a seminar based on the M.S. thesis research, and a period of questioning on the thesis, the area of research which the thesis addresses, and basic biology as it relates to the thesis area.
Program Graduate Academic Student Handbook

Probation

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.00. If a student's cumulative GPA goes below this minimum, the student will be put on probation and will have one quarter to bring their cumulative GPA up to at least 3.00 or face dismissal from the program. If the student's cumulative GPA goes below the minimum a second time, they will be dismissed from the program.

Dismissal

Students may be dismissed for breaches of academic integrity, breaches of the code of student responsibility, or violations of satisfactory progress, including but not limited to, failing a retake of the oral qualifying exam, not maintaining at least a 3.00 cumulative GPA, or lack of progress towards degree completion. Students who have completed their coursework, but who are still working on their thesis (MS) must be enrolled in candidacy continuation during the three quarters of the academic school year. Failure to enroll in candidacy continuation will result in dismissal from the program.

Readmission

If a student leaves the program for any reason they must reapply to the program unless prior agreement for readmission has been granted by the Director of Graduate Studies in Biology (hereafter, Program Director). A specific timeline for readmission must be specified and agreed to by the Program Director prior to the student leaving the program.

Transfer Credit

Two semester courses or three quarter courses from another institution or program may be accepted as transfer credit upon approval of the Program Director and Associate Dean for Graduate Studies. Credit will only be transferred for courses that have equivalents in the DePaul curriculum as determined by the Program Director. Transfer credit can only be awarded for graduate level coursework which has not counted toward the completion of a degree at DePaul or any other institution.

Undergraduate Courses

No undergraduate courses will be counted towards the graduate degree.

Graduation Requirements

In order to graduate, students must satisfy the degree requirements as specified in the course catalog for MS degrees, including but not limited to maintaining a minimum cumulative GPA of 3.00.

Graduation with Distinction

The criteria for graduating with distinction are a minimum 3.50 cumulative GPA in graduate level biology courses and the recommendation of the thesis committee.

In order for the thesis committee members to have sufficient input into the development of the thesis research and to be able to properly assess the candidate's abilities and effort, the thesis committee must be formed and have met once by November 1 of the candidate's second year of graduate study. The thesis committee will consist of the Thesis Advisor and two additional members (typically DePaul biology faculty).

The responsibility of the thesis committee is to assess whether the candidate has achieved the following:

- While conducting his/her research the candidate has become an independent thinker and researcher. They have demonstrated problem solving abilities, have been self-motivated, and have shown determination in accomplishing his/her research goals.
- In presenting his/her research the candidate can interpret their results, understand the limitations of their work, effectively communicate their work, and put their work into the larger context of their field.
- The completed thesis/final project represents a significant contribution, which is clearly above average.

Time Limitation

Students pursuing a master's degree must complete all requirements for the master's degree within a maximum of six years from their first term of enrollment in the program.
Business Information Technology (MS)

The MS in Business Information Technology is a joint degree between CDM and The Kellstadt Graduate School of Business that addresses today's need for individuals who understand the core principles of both business and technology in corporations, health care institutions, and government agencies.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

CDM Required Courses

- IS 421 SYSTEMS ANALYSIS
- PM 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
- CNS 440 INFORMATION SECURITY MANAGEMENT
- ECT 424 ENTERPRISE INFRASTRUCTURE
- HCI 440 INTRODUCTION TO USER-CENTERED DESIGN

Kellstadt Required Courses

- ACC 500 FINANCIAL ACCOUNTING
Open Elective Courses

Students must complete two Open Elective Courses. Open Elective Courses are in the range of 421-699 and must be chosen among CNS, CSC, ECT, GAM, GPH, HCI, HIT, IPD, IS, IT, PM, SE, TDC, and Kellstadt courses.

Capstone

- IS 577 INFORMATION SYSTEMS POLICIES AND STRATEGIES
  - or PM 577 IT PORTFOLIO MANAGEMENT AND STRATEGIES
  - or ECT 589 E-BUSINESS STRATEGIES

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Business Strategy and Decision Making (MBA)

DePaul's MBA concentration in Business Strategy and Decision Making will give you the framework for making business decisions in a disciplined and strategic way. In this concentration you will learn how to diagnose strategic positions, evaluate alternative courses of action and make the best possible decisions based on your objectives. You will accomplish this through extensive class discussions, case-study analysis and hands-on exercises.

Highlights

In this concentration, you will gain knowledge and abilities to:

- Create value for customers.
- Correctly diagnose a problem or position, make the best decisions to improve upon this position and sustain the improvement.
- Apply price and other strategies to gain a competitive edge and to enter or block entry to market.
- Capture value in various market settings by positioning and differentiating products for profitability.
- Innovate and reformulate entire business models based on networks, platforms and eco-systems.
- Develop negotiation skills that are important in the economic and business world, as well as in day-to-day life.

Career Outlook
This program is a fast-track career development option for managers who want the skills and abilities to make strategic economic decisions in a business environment. Graduates possess skills that are applicable to almost any industry and can seek employment in fields such as banking, manufacturing, communications, insurance, retailing, finance, investing, transportation, utilities and consulting.

</table>

**Learning Outcomes**

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

**MBA Core Requirements**

**Course Requirements for the Flexible and Evening Cohort MBA Programs**

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

**Concentrations and Electives**

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.
Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.

Concentration Requirements

Course Requirements

The Business Strategy and Decision-Making concentration introduces students to a variety of frameworks for making decisions in business and other related disciplines. In this concentration, you will learn how to diagnose strategic positions, evaluate alternative courses of action, and make the best possible decisions based on your objectives. You will accomplish this through extensive class discussions, case study analysis, and hands-on exercises.

The concentration consists of two required core classes: ECO 525, Strategic Decision-Making and Game Theory, which provides a general framework for strategic thinking; ECO 526, Business Strategy, which lays out the economic foundations of strategy; and one elective course that best matches your personal and professional objectives.

Required

- ECO 525 STRATEGIC DECISION MAKING AND GAME THEORY
- ECO 526 BUSINESS STRATEGY
- Choose one of the following:
  - ECO 528 STRATEGIES AND PROCESSES OF NEGOTIATIONS
  - ECO 529 COMPETITION, STRATEGY AND POLICY
  - ECO 798 SPECIAL TOPICS : Business Models and Innovation Strategy
Chemistry (MS)

The Master of Science in chemistry program provides students with rigorous training and preparation for advanced work in the profession of chemistry (analytical, physical, organic and inorganic), biochemistry, chemical biology and medicinal chemistry.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Perform statistical calculations related to analytical techniques.
- Use discipline specific computer tools such as ChemDraw.
- Use primary literature databases to research a topic in any of the sub-disciplines of chemistry, specifically to:
  - Choose relevant and higher impact published work on a topic.
  - Critically evaluate and extract the major findings of a paper.
  - Summarize the major findings and conclusions of selected papers concisely, accurately and effectively in written form.
  - Effectively present the summary orally.

Concentration Specific Outcomes

Thesis

Students will be able to:

- Provide context that explains/describes how the boundaries of knowledge are advanced through research.
- Explain the limitations of the research undertaken and suggest ways of overcoming these in future research.
- Disseminate the research results in publishable work such as a thesis of a standard which satisfies peer review.

Degree Requirements

Course Requirements

Graduate Common Core (9 courses/ 32 credit hours) :

- Six out of eight common core courses (6 courses/24 credit hours)
  - CHE 422 INORGANIC STRUCTURE AND REACTIVITY
  - CHE 424 GROUP THEORY
  - CHE 442 PROTEIN STRUCTURE AND FUNCTION
  - CHE 444 ADVANCED TOPICS IN PROTEIN BIOCHEMISTRY
  - CHE 450 ADVANCED MECHANISTIC ORGANIC CHEMISTRY
Track Requirements

In addition to the 9 courses at 32 credit hours in the Graduate Common Core, Chemistry students must complete the requirements within their chosen track: Thesis Track or Non-Thesis Track.

Thesis Track

- CHE 497 RESEARCH (minimum of 12 credit hours)
- One additional 4 credit-hour course at the 400-level (excluding CHE 497 RESEARCH)
- In addition, M.S. thesis students must write a thesis based on their research project and successfully pass a two-part oral exam. The first part of the examination consists of the thesis presentation and defense; the second part is an oral examination concerning the student's general knowledge of chemistry.

Non-Thesis Track

Standard Track (Non-Thesis)

- Any 12 credit hours from options listed for the other tracks.
- One additional 4 credit-hour course at the 400-level (excluding CHE 497 RESEARCH)
- No more than three 300-level four-credit-hour courses may be taken for graduate credit toward M.S.

Analytical/ Physical Chemistry Track (Non-Thesis)

- Any three courses from the following list for a total of 12 credit hours:
  - CHE 310 NUCLEAR CHEMISTRY
  - CHE 318 BIOPHYSICAL CHEMISTRY
  - CHE 474 ADVANCED QUANTUM CHEMISTRY
  - CHE 376 COMPUTATIONAL CHEMISTRY
- One additional 4 credit-hour course at the 400-level (excluding CHE 497 RESEARCH)
- No more than three 300-level four-credit-hour courses may be taken for graduate credit toward M.S.

Biochemistry/ Medicinal Chemistry Track (Non-Thesis)

- Any three courses from the following list for a total of 12 credit hours:
  - CHE 318 BIOPHYSICAL CHEMISTRY
  - CHE 348 CHEMICAL BIOLOGY
  - CHE 360 MEDICINAL CHEMISTRY
  - CHE 362 DRUGS AND TOXICOLOGY
  - CHE 474 ADVANCED QUANTUM CHEMISTRY
  - CHE 376 COMPUTATIONAL CHEMISTRY
- One additional 4 credit-hour course at the 400-level (excluding CHE 497 RESEARCH)
- No more than three 300-level four-credit-hour courses may be taken for graduate credit toward M.S.

Synthetic Chemistry Track (Non-Thesis)

- Any three courses from the following list for a total of 12 credit hours:
- CHE 320 INTERMEDIATE INORGANIC CHEMISTRY / CHE 321 INTERMEDIATE INORGANIC CHEMISTRY LABORATORY
- CHE 326 ORGANOMETALLIC CHEMISTRY / CHE 327 ORGANOMETALLIC CHEMISTRY LABORATORY
- CHE 332 POLYMER SCIENCE
- CHE 360 MEDICINAL CHEMISTRY
- CHE 378 APPLIED SPECTROSCOPY
- CHE 430 POLYMER SYNTHESIS
- CHE 431 POLYMER SYNTHESIS LABORATORY
- CHE 434 POLYMER CHARACTERIZATION
- CHE 435 POLYMER CHARACTERIZATION LABORATORY

- One additional 4 credit-hour course at the 400-level (excluding CHE 497 RESEARCH)
- No more than three 300-level four-credit-hour courses may be taken for graduate credit toward M.S.

---

Program Graduate Academic Student Handbook

**Probation**

Students must maintain a minimum cumulative GPA of 2.75 to remain in good standing. A student whose cumulative GPA falls below 2.75 will be placed on academic probation.

**Dismissal**

Students on probation have at most one academic quarter to raise their cumulative GPA to at least a 2.75. If a student does not, then he/she may be dismissed for a violation of satisfactory progress.

All students are expected to adhere to the Code of Student Responsibility as outlined in the Graduate Student Handbook. Any violation of the Code of Student Responsibility is considered very serious and is grounds for probation or dismissal at the discretion of the Chemistry Graduate Committee or Dean of Students.

**Conditional Admission**

An applicant may be admitted conditionally to the program at the discretion of the Chemistry Graduate Committee for one or more of the following reasons:

- Undergraduate GPA is less than 2.75 but the student has shown considerable promise in other areas (such as research).
- The applicant is missing one or two of the required courses but otherwise has met all of the criteria for admission; the applicant will be required to complete the missing coursework either at DePaul or comparable institution as a condition prior to taking graduate courses for which the missing course(s) is(are) prerequisite.

The Chemistry Graduate Committee will consider other circumstances not included in the above list on an individual basis.

**Transfer Credit**

Up to 12 quarter hours (or semester equivalent) of coursework may be accepted as transfer credit towards the M.S. degree for courses taken at another institution or through another DePaul program that articulate with current courses in the chemistry graduate program. Credits applied toward the completion of a degree at DePaul or another institution will not be accepted as transfer credit. Written approval must come from graduate program director and associate dean for graduate studies.

**Graduation with Distinction**

Students may graduate "with distinction" by earning a minimum cumulative GPA of 3.75 for coursework applied toward the chemistry graduate program, or on the recommendation of the thesis defense committee.

**Time Limitation**

Students pursuing a master's degree must complete all requirements for the master's degree within a maximum
of six years from the first term of enrollment in the program.

Chinese (MA)

DePaul's innovative new MA program in Chinese provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the "global village" of today's world or in multiethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, businesspeople, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Chinese may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Chinese + Digital Humanities Certificate
- Chinese + Teaching English to Speakers of Other Languages (TESOL) Certificate

<table>

<td>48 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).
Degree Requirements

Course Requirements

The curriculum of the MA in Chinese consists of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of four courses (16 quarter credit hours) required of all students, and
2. Eight courses (32 quarter credit hours) in the language area, which must include an approved “cluster” of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest. Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes CHN). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight “language area” courses in the student’s program.

Core Curriculum

The core curriculum consists of the following four courses:

- MOL 401 PROFESSIONAL FOUNDATIONS
- MOL 402 LANGUAGE, SELF AND SOCIETY
- MOL 403 COMMUNITIES OF PRACTICE
- MOL 496 MAMOL CAPSTONE

In addition, all three-hundred level courses in the respective languages are offered simultaneously as 400-level electives to complete the MA program. These 400-level courses carry different requirements than the lower-level courses.

Additional Requirements

Additional requirements include:

- ACTFL Oral Proficiency Interview
- Portfolio Project

All students must attain a rating of at least “Advanced Low” from the standardized Oral Proficiency Interview (OPI) of the American Council on Teaching Foreign Languages (ACTFL).

The service learning experience will involve work within an environment where the student can apply her or his linguistic expertise, as a volunteer, contributor, intern, or employee. This environment might be a community group; a social service or agency; a professional association; or an artistic organization. This experience should ideally contribute to the student’s portfolio project.

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program or a final project with written critical assessment. Final projects may include a community service experience, internship, performance and creative work, thesis, or translation.

Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework. The thesis should address the area of interest of the candidate’s course “cluster.”
Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “intermediate high” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply “transfer” credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Psychology - Clinical MA/PhD

The Clinical Psychology Program, which includes both clinical-child and clinical-community tracks, is one of four MA/PhD programs in the Department of Psychology at DePaul University. The American Psychological Association (APA) first accredited the Clinical Program in 1976, and it has held continuous APA accreditation since then. The Clinical Program trains students within the scientist-practitioner model, providing training in both research and practice.

The Clinical Program has four broad program goals:

- To educate students generally about psychology and instill a commitment to life-long learning
- To prepare graduates with knowledge and skills to engage in and shape research and scholarship
- To prepare graduates for diverse leadership career paths in the practice of clinical psychology and more in-depth preparation in child and/or community applications and policy
- To prepare graduates to work in the public sector, in an urban environment, with diverse ethnic and socioeconomic populations, and with those who have been traditionally underserved by psychology

Program objectives are for students to acquire understanding and competence in psychological theory, research and practice, with particular attention to developmental psychopathology, community psychology, evidence-based treatments, dissemination, and program evaluation with children, adolescents, and families of diverse
backgrounds. Our program's focus on diversity is intended to promote students' understanding about the societal and systemic/ecological forces that have contributed to current manifestations of inequality for many diverse groups such as for poor, urban, and ethnically diverse populations and on how these conditions influence mental health, family/community processes, and access to mental health services.

### Learning Outcomes

Students will be able to:

- Identify major theoretical concepts in psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how the field of psychology currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Develop testable research questions, identify the strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature.
- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.
- Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals.
- Develop strategies for planning and engaging in professional development to acquire new skills and refresh and consolidate knowledge in accord with department, university and APA standards of professionalism.

### MA/PhD Degree Requirements

The Clinical Psychology MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

#### MA Course Requirements

The MA portion of the combined degree program requires a minimum of 74 quarter hours beyond the completion of a bachelor's degree, including four quarter hours of thesis research.

**Core Courses**

- **PSY 406 PHYSIOLOGICAL PROCESSES**
- One of the following courses:
  - **PSY 404 PERCEPTION AND COGNITION**
  - **PSY 426 LANGUAGE AND COGNITION**
  - **PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION- MAKING**
- One of the following courses:
  - **PSY 430 SOCIAL PSYCHOLOGY OF THE SELF**
  - **PSY 556 PREJUDICE AND INTERGROUP RELATIONS**
  - **PSY 560 SOCIAL COGNITION**
- One of the following courses:
  - **PSY 439 COGNITIVE DEVELOPMENT**
Statistics and Methodology Courses

- PSY 410 ADVANCED STATISTICS I
- PSY 411 ADVANCED STATISTICS II
- One of the following courses:
  - PSY 418 MULTIVARIATE STATISTICAL ANALYSIS
  - PSY 419 FACTOR ANALYSIS AND PATH MODELING
- One of the following courses:
  - PSY 416 METHODS IN QUALITATIVE RESEARCH
  - PSY 420 QUANTITATIVE RESEARCH DESIGN
  - PSY 495 GRANT WRITING IN PSYCHOLOGY
  - PSY 570 SEMINAR IN PSYCHOTHERAPY RESEARCH

Additional Courses

- PSY 481 CHILD ASSESSMENT
- PSY 482 ADULT ASSESSMENT
- PSY 486 ADVANCED PSYCHOPATHOLOGY
- PSY 488 PRINCIPLES OF PSYCHOTHERAPY AND BEHAVIOR MODIFICATION
- PSY 493 ADVANCED COMMUNITY PSYCHOLOGY
- PSY 500 PROFESSIONAL ETHICS (2 credit hours)
- PSY 520 PRINCIPLES OF HUMAN DIVERSITY
- PSY 565 PROFESSIONAL DEVELOPMENT SEMINAR (3 quarters, 0 credit hours)
- PSY 590 THESIS RESEARCH SEMINAR (0 credit hours)
- Three additional four-credit courses

Clinical Practicum

Three quarters of clinical practicum need to be successfully completed. The Director of Clinical Training must approve the practicum placement in advance. All practicum courses are zero credit hours.

During year two, students should enroll in the following practicum courses:

- PSY 577 PRACTICUM IN CLINICAL ASSESSMENT (autumn quarter)
- PSY 578 PRACTICUM IN CLINICAL PSYCHOLOGY (winter quarter)
- PSY 579 PRACTICUM IN CHILD CLINICAL PROCEDURES (spring quarter)

Research Course

- PSY 597 MASTER'S THESIS RESEARCH

Master's Research Thesis

Complete a thesis on a topic approved by the department.

Master's Thesis Examination

The examination may be, but is not necessarily limited to, a defense of the student's thesis.

PhD Course Requirements

The PhD portion of the combined degree program requires a minimum of 20 quarter hours beyond the completion of the master’s degree, including four quarter hours of dissertation research. The following requirements must be completed to confer the PhD.

Core Courses

- PSY 461 ETHICS & HISTORY OF PSYCHOLOGY SEMINAR
- PSY 565 PROFESSIONAL DEVELOPMENT SEMINAR (3 quarters, 0 credit hours; students are required to complete a total of 6 quarters of PSY 565 for the MA/PhD requirements)
- PSY 596 INTERNSHIP IN CLINICAL PSYCHOLOGY (5 quarters, 0 credit hours)
- PSY 598 DISSERTATION RESEARCH SEMINAR (0 credit hours)

Area of Emphasis
At least three additional courses consistent with an area of emphasis are required to reach minimum number of hours required for the PhD.

**Additional Required Courses for Clinical-Child (may be used as electives for Clinical-Community)**

- PSY 491 TREATMENT METHODS WITH CHILDREN
- PSY 562 SEMINAR IN FAMILY THERAPY
- PSY 570 SEMINAR IN PSYCHOTHERAPY RESEARCH

**Additional Required Courses for Clinical-Community (may be used as electives for Clinical-Child)**

- PSY 492 PRINCIPLES OF CONSULTATION
- PSY 495 GRANT WRITING IN PSYCHOLOGY
- PSY 568 SEMINAR IN PREVENTION AND INTERVENTION
- PSY 569 SEMINAR IN PROGRAM EVALUATION
- PSY 585 FIELDWORK IN COMMUNITY SETTINGS

**General Electives**

- PSY 416 METHODS IN QUALITATIVE RESEARCH
- PSY 420 QUANTITATIVE RESEARCH DESIGN
- PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING
- PSY 483 ADVANCED ASSESSMENT
- PSY 489 GROUP PSYCHOTHERAPY
- PSY 511 HEALTH PSYCHOLOGY
- PSY 550 SEMINAR IN TEACHING PSYCHOLOGY (0 credit hours)
- PSY 561 ADVANCED PSYCHOLOGY OF WOMEN AND GENDER
- PSY 567 SPECIAL TOPICS IN COMMUNITY PSYCHOLOGY

**Clinical Practicum**

Six quarters of clinical practicum need to be successfully completed. The Director of Clinical Training must approve the practicum placement in advance. All practicum courses are zero credit hours.

During year three, students should enroll in the following practicum courses:

- PSY 582 ADVANCED PRACTICUM-CLINICAL PSYCHOLOGY (autumn quarter)
- PSY 583 PRACTICUM IN COMMUNITY MENTAL HEALTH (winter quarter)
- PSY 584 ADVANCED PRACTICUM IN EVIDENCE-BASED PRACTICE IN PSYCHOLOGY (spring quarter)

During year four, students should enroll in the following practicum courses:

- PSY 574 PRACTICUM IN SPECIAL AREAS IN PSYCHOLOGY (autumn quarter)
- PSY 575 PRACTICUM IN SPECIAL AREAS IN PSYCHOLOGY (winter quarter)
- PSY 576 PRACTICUM IN SPECIAL AREAS IN PSYCHOLOGY (spring quarter)

**Research Course**

- PSY 599 DOCTORAL DISSERTATION RESEARCH

**Doctoral Candidacy Examination (Comprehensive Examination or Review Paper)**

Designed to assess the student’s general knowledge of clinical psychology and the student’s area of emphasis (clinical-child or clinical-community). The examination is given in two sections. One section consists of an examination in the areas represented by the required courses in clinical psychology. A second section consists of an examination in the student’s area of emphasis – clinical-child or clinical-community psychology. An alternative to the Doctoral Candidacy Examination is to complete a major comprehensive review paper based on the literature within an area relevant to the field of clinical psychology. This paper must be submitted for publication in a peer-reviewed clinical psychology journal.

**Admission to Doctoral Candidacy**

Formally given to the student with satisfactory coursework performance who has successfully completed the master’s thesis and passed the Doctoral Candidacy Examination; the candidate has no more than five years from this date to complete the PhD requirements or dismissal from the program will ensue.
Students denied candidacy will be required to withdraw from the program or withdraw after completion of the MA.

**Internship**

One-year supervised internship in an approved doctoral training site. Students typically intern during the fifth or sixth year in the program.

**Dissertation**

Departmental committee approval and acceptance of topic and outline of dissertation given only after admission to doctoral candidacy.

**Oral Examination**

Student to defend his or her dissertation and to show competence in the general field of psychology and in the area of specialization of the dissertation.

**Residency Requirement**

The clinical psychology program requires a minimum of three full-time academic years of graduate coursework and residency, a master's thesis and dissertation, comprehensive exam/project, and completion of an internship prior to awarding the doctoral degree. The program's residency requirement is addressed through the requirement that students complete their coursework (in all courses, but one) in face-to-face classes during the first three years in the program, and complete their required graduate assistantship and teaching assistantship roles. Students are required to complete the internship before the degree is awarded.

**Time Limitations**

- No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
- No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.

**Program Graduate Academic Student Handbook**

**Minimum Grades**

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.
2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.
3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student's record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student's advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.
4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty
outside the student's program to hear the appeal. Depending on the student's academic record and any
mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be
permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees)
without a successful appeal.

**Probation**

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.20. If a student's
cumulative GPA falls below this minimum, the student will be put on probation and will have one quarter to
raise their cumulative GPA to at least a 3.20 or face dismissal from the program. If the student raises his/her
cumulative GPA to at least a 3.20, but it falls below the minimum a second time, he or she will be dismissed
from the program.

**Dismissal**

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing
the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA,
students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility
articulated in the DePaul University Student Handbook.

**Time Limitations**

Students must complete their MA degree requirements prior to completing their requirements for admission to
doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program
(i.e., successful completion of the doctoral candidacy examination/project), and no less than eight months and
no more than five years may pass between admission to candidacy and the final examination (i.e., the oral
dissertation defense).

Students are required to meet the timelines specified by the program even if the timeline is more stringent than
the College timeline. Failure to do so could result in dismissal.

Extensions on these timelines must be requested in writing to both the department (Program Director) and the
college (to the Dean) and must be approved at both levels. Students must complete all requirements for the
degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in
the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.

**Graduation with Distinction for MA**

The criteria for graduating "with distinction" are a minimum cumulative GPA of 3.75 and the recommendation of
"with distinction" by the thesis committee.

---

**Communication and Media (MA)**

The Master of Arts in Communication and Media offers an interdisciplinary program in which students can explore the impact of
communication and media in a variety of contexts (e.g., popular culture, corporate world, interpersonal relationships, new media)
and communication modes (e.g., digital media, film and television, performance, verbal and nonverbal). Flexible curriculum allows
students to fulfill their unique academic and professional goals. The curriculum places heavy emphasis on the connection between
theory and practice, through which students learn tools and frameworks to critically examine and resolve real-life issues around
them.

By offering four distinct areas of concentration—media and cinema studies, organizational communication,
multicultural communication and relational communication—the program is uniquely designed to harbor the
underlying connections across multiple areas and simultaneously develop mastery in a specific concentration
area. Students must declare a primary area of concentration and have the option to declare a secondary area.
Degree Requirements

Total hours required

48 hours

Learning Outcomes

Students will be able to:

- demonstrate knowledge of relevant conceptual and theoretical vocabulary with the concentration(s) of interest.
- identify and produce communicative messages to solve problems, address or explain industrial or cultural issues, or create changes in relational, organizational, intercultural, or mediated spheres.
- critically analyze communication-related problems and products through a variety of theoretical, methodological, and stylistic lenses.

Degree Requirements

Course Requirements

Specific course requirements are determined by the concentration chosen. Please see each concentration page for detailed information.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 48 graduate credit hours and a degree completion option.
- Complete all graduate courses and requirements listed in the designated degree program.
- Maintain a cumulative GPA of 3.00 or higher.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Media and Cinema Studies
- Multicultural Communication
- Organizational Communication
- Relational Communication
Media and Cinema Studies

Course Requirements

The Media and Cinema Studies concentration requires 12 courses (48 credit hours) and a completion requirement. Students must complete: three core courses, four media and cinema studies electives, and five communication and media electives. Each course taken can only count towards one program requirement. Students must take at least one, but no more than two, production courses as part of their electives.

Core Courses

Students take a total of 3 core courses (12 credit hours).

- Students are required to take the following (4 credits):
  - CMNS 500 FOUNDATIONS IN GRADUATE COMMUNICATION STUDIES
- Students must choose two from the following, at least one of which must be an MCS course (8 credits):
  - CMNS 501 COMMUNICATION IN CULTURAL CONTEXTS
  - CMNS 541 ORGANIZATIONAL COMMUNICATION AND CULTURE
  - MCS 501 FILM AND MEDIA THEORY
  - MCS 502 MEDIA AND CULTURAL STUDIES
  - MCS 504 HISTORIOGRAPHY AND RESEARCH
  - RELC 500 RELATIONAL COMMUNICATION THEORIES

Elective Courses

Students take a total of 9 electives (36 credit hours). Topics courses can be taken multiple times for credit as long as the specific topic differs each time. At least one (but no more than two electives) must be a production course*.

- Students must choose four media and cinema studies electives (16 credits):
  - MCS 501 FILM AND MEDIA THEORY
  - MCS 502 MEDIA AND CULTURAL STUDIES
  - MCS 504 HISTORIOGRAPHY AND RESEARCH
  - MCS 520 TOPICS IN MEDIA STUDIES
  - MCS 521 TOPICS IN CINEMA STUDIES
  - MCS 522 TOPICS IN CINEMA/MEDIA HISTORY
  - MCS 523 TOPICS IN GLOBAL FILM & MEDIA
  - MCS 530 NEW MEDIA AND CULTURE
  - MCS 533 LATIN AMERICAN CINEMA/MEDIA
  - MCS 534 DOCUMENTARY STUDIES
  - MCS 541 AUDIO DOCUMENTARY*
  - MCS 542 TOPICS IN PRODUCTION*
  - MCS 544 TOPICS IN DOCUMENTARY STUDIES
  - MCS 550 FANDOM AND ACTIVE AUDIENCES
  - MCS 575 DIGITAL MEDIA ETHICS
- Students must choose five communication & media electives (20 credits)**:
  - CMNS 501 COMMUNICATION IN CULTURAL CONTEXTS
  - CMNS 504 LANGUAGE, THOUGHT AND CULTURE
  - CMNS 509 SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION
  - CMNS 522 COMMUNICATING IDENTITY
  - CMNS 523 GENDERED COMMUNICATION
  - CMNS 525 COMPARATIVE MANAGEMENT COMMUNICATION
  - CMNS 527 ASSESSMENT AND INTERVENTION IN ORGANIZATIONS
  - CMNS 529 TOPICS IN ORGANIZATIONAL AND MULTICULTURAL COMMUNICATION
  - CMNS 530 INSTRUCTIONAL DEVELOPMENT
  - CMNS 531 INSTRUCTIONAL DEVELOPMENT PRACTICUM
  - CMNS 532 INTRODUCTION TO TRAINING AND DEVELOPMENT
  - CMNS 541 ORGANIZATIONAL COMMUNICATION AND CULTURE
  - CMNS 542 MULTICULTURAL COMMUNICATION IN THE WORKPLACE
  - CMNS 543 COMMUNICATION AND ORGANIZATIONAL CHANGE
Second Concentration Option

Students who are interested in declaring a secondary concentration area (in Multicultural Communication, Organizational Communication, or Relational Communication) must meet with the graduate advisor regarding requirements and declaration. Students declaring a second concentration in one of the above areas must complete the corresponding core class to the concentration, a communication studies methods requirement, and four elective courses from the corresponding concentration area.

Completion Requirement

Comprehensive Final Exam or Project/Thesis

Students in the Master of Arts in Communication and Media complete their degree requirements by passing a comprehensive final exam. Students who attain a 3.75 GPA or higher and obtain prior approval from the graduate program director have the option to complete a culminating project or thesis instead of the
comprehensive final exam. Students completing a project or thesis will enroll in MCS 599 as their 12th and final course in the quarter they defend their project/thesis.

Students who are pursuing two concentrations must pass a comprehensive final exam and do not have the option of the project or thesis.

**Grade Requirements**

Students must maintain a minimum cumulative GPA of 3.00 in their graduate courses to remain in good academic standing. Students who do not meet this minimum cumulative requirement will be placed on academic probation and will be expected to attain the minimum cumulative requirement within two quarters. Failure to do so may result in dismissal from the program.

---

**Multicultural Communication**

**Course Requirements**

The Multicultural Communication concentration requires 12 courses (48 credit hours) and a completion requirement. Students must complete: three core courses, four multicultural communication electives, one methods elective, and four communication and media electives. Each course taken can only count towards one program requirement.

**Core Courses**

Students take a total of 3 core courses (12 credit hours).

- Students are required to take the following (8 credits):
  - CMNS 500 FOUNDATIONS IN GRADUATE COMMUNICATION STUDIES
  - CMNS 501 COMMUNICATION IN CULTURAL CONTEXTS
- Students must choose one from the following (4 credits):
  - CMNS 541 ORGANIZATIONAL COMMUNICATION AND CULTURE
  - MCS 501 FILM AND MEDIA THEORY
  - MCS 502 MEDIA AND CULTURAL STUDIES
  - MCS 504 HISTORIOGRAPHY AND RESEARCH
  - RELC 500 RELATIONAL COMMUNICATION THEORIES

**Elective Courses**

Students take a total of 9 electives (36 credit hours). Topics courses can be taken multiple times for credit as long as the specific topic differs each time.

- Students must choose four multicultural communication electives (16 credits):
  - CMNS 504 LANGUAGE, THOUGHT AND CULTURE
  - CMNS 509 SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION
  - CMNS 522 COMMUNICATING IDENTITY
  - CMNS 523 GENDERED COMMUNICATION
  - CMNS 527 COMPARATIVE MANAGEMENT COMMUNICATION
  - CMNS 529 TOPICS IN ORGANIZATIONAL AND MULTICULTURAL COMMUNICATION
  - CMNS 530 INSTRUCTIONAL DEVELOPMENT
  - CMNS 531 INSTRUCTIONAL DEVELOPMENT PRACTICUM
  - CMNS 542 MULTICULTURAL COMMUNICATION IN THE WORKPLACE
  - CMNS 550 ORGANIZATIONAL DIVERSITY & LEADERSHIP
  - CMNS 561 INTERNATIONAL MEDIA
  - CMNS 563 MULTICULTURAL MEDIA REPRESENTATIONS
- Students must choose one methods elective (4 credits):
  - CMNS 581 QUALITATIVE RESEARCH METHODS
Students must choose four communication & media electives (16 credits)*:  
- CMNS 504 LANGUAGE, THOUGHT AND CULTURE  
- CMNS 509 SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION  
- CMNS 522 COMMUNICATING IDENTITY  
- CMNS 523 GENDERED COMMUNICATION  
- CMNS 525 COMPARATIVE MANAGEMENT COMMUNICATION  
- CMNS 527 ASSESSMENT AND INTERVENTION IN ORGANIZATIONS  
- CMNS 529 TOPICS IN ORGANIZATIONAL AND MULTICULTURAL COMMUNICATION  
- CMNS 530 INSTRUCTIONAL DEVELOPMENT  
- CMNS 531 INSTRUCTIONAL DEVELOPMENT PRACTICUM  
- CMNS 532 INTRODUCTION TO TRAINING AND DEVELOPMENT  
- CMNS 541 ORGANIZATIONAL COMMUNICATION AND CULTURE  
- CMNS 542 MULTICULTURAL COMMUNICATION IN THE WORKPLACE  
- CMNS 543 COMMUNICATION AND ORGANIZATIONAL CHANGE  
- CMNS 544 POLITICS AND POWER IN ORGANIZATIONS  
- CMNS 545 COMMUNICATION AND TECHNOLOGY  
- CMNS 547 COMMUNICATION IN CUSTOMER SERVICE  
- CMNS 548 TEAMS AND LEADERSHIP  
- CMNS 549 SPECIAL TOPICS IN ORGANIZATIONAL COMMUNICATION  
- CMNS 550 ORGANIZATIONAL DIVERSITY & LEADERSHIP  
- CMNS 552 STRATEGIC COMMUNICATION  
- CMNS 557 SPECIAL TOPICS IN TRAINING AND DEVELOPMENT  
- CMNS 561 INTERNATIONAL MEDIA  
- CMNS 563 MULTICULTURAL MEDIA REPRESENTATIONS  
- CMNS 581 QUALITATIVE RESEARCH METHODS  
- CMNS 582 QUANTITATIVE RESEARCH METHODS  
- CMNS 584 METHODOLOGICAL TOPICS  
- CMNS 590 COMMUNICATION WORKSHOP (VARIABLE TOPICS)  
- CMNS 592 INDEPENDENT STUDY  
- CMNS 599 RESEARCH THESIS  
- MCS 501 FILM AND MEDIA THEORY  
- MCS 502 MEDIA AND CULTURAL STUDIES  
- MCS 504 HISTORIOGRAPHY AND RESEARCH  
- MCS 520 TOPICS IN MEDIA STUDIES  
- MCS 521 TOPICS IN CINEMA STUDIES  
- MCS 522 TOPICS IN CINEMA/MEDIA HISTORY  
- MCS 523 TOPICS IN GLOBAL FILM & MEDIA  
- MCS 530 NEW MEDIA AND CULTURE  
- MCS 533 LATIN AMERICAN CINEMA/MEDIA  
- MCS 534 DOCUMENTARY STUDIES  
- MCS 541 AUDIO DOCUMENTARY

- RELC 500 RELATIONAL COMMUNICATION THEORIES  
- RELC 502 ATTACHMENT & RELATIONAL COMMUNICATION  
- RELC 504 RELATIONAL COMMUNICATION AND ENTREPRENEURSHIP  
- RELC 511 TOPICS IN INTERPERSONAL COMMUNICATION  
- RELC 513 NONVERBAL COMMUNICATION  
- RELC 540 COMMUNICATION AND CONTEMPORARY COURTSHIP DYNAMICS  
- CMN 591 INTERNSHIP  
- CMN 598 STUDY ABROAD

* With approval of the graduate program director or graduate advisor, students can take up to two relevant elective courses from other College of Communication graduate programs or relevant elective courses from other graduate departments/programs outside of the College of Communication.

**Second Concentration Option**

Students who are interested in declaring a secondary concentration area (in Media and Cinema Studies, Organizational Communication, or Relational Communication) must meet with the graduate advisor regarding requirements and declaration. Students declaring a second concentration in one of the above areas must complete the corresponding core class to the concentration, and four elective courses from the corresponding concentration area.

DePaul University  Autumn 2017-2018  Page 101 of 2468
**Completion Requirement**

**Comprehensive Final Exam or Project/Thesis**

Students in the Master of Arts in Communication and Media complete their degree requirements by passing a comprehensive final exam. Students who attain a 3.75 GPA or higher and obtain prior approval from the graduate program director have the option to complete a culminating project or thesis instead of the comprehensive final exam. Students completing a project or thesis will enroll in CMNS 599 as their 12th and final course in the quarter they defend their project/thesis.

Students who are pursuing two concentrations must pass a comprehensive final exam and do not have the option of the project or thesis.

**Grade Requirements**

Students must maintain a minimum cumulative GPA of 3.000 in their graduate courses to remain in good academic standing. Students who do not meet this minimum cumulative requirement will be placed on academic probation and will be expected to attain the minimum cumulative requirement within two quarters. Failure to do so may result in dismissal from the program.

**Organizational Communication**

**Course Requirements**

The Organizational Communication concentration requires 12 courses (48 credit hours) and a completion requirement. Students must complete: three core courses, four organizational communication electives, one methods elective, and four communication and media electives. Each course taken can only count towards one program requirement.

**Core Courses**

Students take a total of 3 core courses (12 credit hours).

- Students are required to take the following (8 credits):
  - CMNS 500 FOUNDATIONS IN GRADUATE COMMUNICATION STUDIES
  - CMNS 541 ORGANIZATIONAL COMMUNICATION AND CULTURE
- Students must choose one from the following (4 credits):
  - CMNS 501 COMMUNICATION IN CULTURAL CONTEXTS
  - MCS 501 FILM AND MEDIA THEORY
  - MCS 502 MEDIA AND CULTURAL STUDIES
  - MCS 504 HISTORIOGRAPHY AND RESEARCH
  - RELC 500 RELATIONAL COMMUNICATION THEORIES

**Elective Courses**

Students take a total of 9 electives (36 credit hours). Topics courses can be taken multiple times for credit as long as the specific topic differs each time.

- Students must choose four organizational communication electives (16 credits):
  - CMNS 525 COMPARATIVE MANAGEMENT COMMUNICATION
CMNS 527 ASSESSMENT AND INTERVENTION IN ORGANIZATIONS
CMNS 529 TOPICS IN ORGANIZATIONAL AND MULTICULTURAL COMMUNICATION
CMNS 530 INSTRUCTIONAL DEVELOPMENT
CMNS 531 INSTRUCTIONAL DEVELOPMENT PRACTICUM
CMNS 532 INTRODUCTION TO TRAINING AND DEVELOPMENT
CMNS 542 MULTICULTURAL COMMUNICATION IN THE WORKPLACE
CMNS 543 COMMUNICATION AND ORGANIZATIONAL CHANGE
CMNS 544 POLITICS AND POWER IN ORGANIZATIONS
CMNS 545 COMMUNICATION AND TECHNOLOGY
CMNS 547 COMMUNICATION IN CUSTOMER SERVICE
CMNS 548 TEAMS AND LEADERSHIP
CMNS 549 SPECIAL TOPICS IN ORGANIZATIONAL COMMUNICATION
CMNS 550 ORGANIZATIONAL DIVERSITY & LEADERSHIP
CMNS 552 STRATEGIC COMMUNICATION
CMNS 557 SPECIAL TOPICS IN TRAINING AND DEVELOPMENT

*Students must choose one methods elective (4 credits):
- CMNS 581 QUALITATIVE RESEARCH METHODS
- CMNS 582 QUANTITATIVE RESEARCH METHODS
- CMNS 584 METHODOLOGICAL TOPICS

*Students must choose four communication & media electives (16 credits)*:
- CMNS 501 COMMUNICATION IN CULTURAL CONTEXTS
- CMNS 504 LANGUAGE, THOUGHT AND CULTURE
- CMNS 509 SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION
- CMNS 522 COMMUNICATING IDENTITY
- CMNS 523 GENDERED COMMUNICATION
- CMNS 525 COMPARATIVE MANAGEMENT COMMUNICATION
- CMNS 527 ASSESSMENT AND INTERVENTION IN ORGANIZATIONS
- CMNS 529 TOPICS IN ORGANIZATIONAL AND MULTICULTURAL COMMUNICATION
- CMNS 530 INSTRUCTIONAL DEVELOPMENT
- CMNS 531 INSTRUCTIONAL DEVELOPMENT PRACTICUM
- CMNS 532 INTRODUCTION TO TRAINING AND DEVELOPMENT
- CMNS 542 MULTICULTURAL COMMUNICATION IN THE WORKPLACE
- CMNS 543 COMMUNICATION AND ORGANIZATIONAL CHANGE
- CMNS 544 POLITICS AND POWER IN ORGANIZATIONS
- CMNS 545 COMMUNICATION AND TECHNOLOGY
- CMNS 547 COMMUNICATION IN CUSTOMER SERVICE
- CMNS 548 TEAMS AND LEADERSHIP
- CMNS 549 SPECIAL TOPICS IN ORGANIZATIONAL COMMUNICATION
- CMNS 550 ORGANIZATIONAL DIVERSITY & LEADERSHIP
- CMNS 552 STRATEGIC COMMUNICATION
- CMNS 557 SPECIAL TOPICS IN TRAINING AND DEVELOPMENT
- CMNS 561 INTERNATIONAL MEDIA
- CMNS 563 MULTICULTURAL MEDIA REPRESENTATIONS
- CMNS 581 QUALITATIVE RESEARCH METHODS
- CMNS 582 QUANTITATIVE RESEARCH METHODS
- CMNS 584 METHODOLOGICAL TOPICS
- CMNS 590 COMMUNICATION WORKSHOP (VARIABLE TOPICS)
- CMNS 592 INDEPENDENT STUDY
- CMNS 599 RESEARCH THESIS
- MCS 501 FILM AND MEDIA THEORY
- MCS 502 MEDIA AND CULTURAL STUDIES
- MCS 504 HISTORIOGRAPHY AND RESEARCH
- MCS 520 TOPICS IN MEDIA STUDIES
- MCS 521 TOPICS IN CINEMA STUDIES
- MCS 522 TOPICS IN CINEMA/MEDIA HISTORY
- MCS 523 TOPICS IN GLOBAL FILM & MEDIA
- MCS 530 NEW MEDIA AND CULTURE
- MCS 533 LATIN AMERICAN CINEMA/MEDIA
- MCS 534 DOCUMENTARY STUDIES
- MCS 541 AUDIO DOCUMENTARY
- MCS 542 TOPICS IN PRODUCTION
- MCS 544 TOPICS IN DOCUMENTARY STUDIES
- MCS 550 FANDOM AND ACTIVE AUDIENCES
- MCS 575 DIGITAL MEDIA ETHICS
- MCS 590 MEDIA & CINEMA STUDIES WORKSHOP (VARIABLE TOPICS)
- MCS 592 INDEPENDENT STUDY
- RELC 500 RELATIONAL COMMUNICATION THEORIES
- RELC 502 ATTACHMENT & RELATIONAL COMMUNICATION
- RELC 504 RELATIONAL COMMUNICATION AND ENTREPRENEURSHIP
* With approval of the graduate program director or graduate advisor, students can take up to two relevant elective courses from other College of Communication graduate programs or relevant elective courses from other graduate departments/programs outside of the College of Communication.

**Second Concentration Option**

Students who are interested in declaring a secondary concentration area (in Media and Cinema Studies, Multicultural Communication, or Relational Communication) must meet with the graduate advisor regarding requirements and declaration. Students declaring a second concentration in one of the above areas must complete the corresponding core class to the concentration, and four elective courses from the corresponding concentration area.

**Completion Requirement**

**Comprehensive Final Exam or Project/Thesis**

Students in the Master of Arts in Communication and Media complete their degree requirements by passing a comprehensive final exam. Students who attain a 3.75 GPA or higher and obtain prior approval from the graduate program director have the option to complete a culminating project or thesis instead of the comprehensive final exam. Students completing a project or thesis will enroll in CMNS 599 as their 12th and final course in the quarter they defend their project/thesis.

Students who are pursuing two concentrations must pass a comprehensive final exam and do not have the option of the project or thesis.

**Grade Requirements**

Students must maintain a minimum cumulative GPA of 3.000 in their graduate courses to remain in good academic standing. Students who do not meet this minimum cumulative requirement will be placed on academic probation and will be expected to attain the minimum cumulative requirement within two quarters. Failure to do so may result in dismissal from the program.

---

**Relational Communication**

**Course Requirements**

The Relational Communication concentration requires 12 courses (48 credit hours) and a completion requirement. Students must complete: three core courses, four relational communication electives, one methods elective, and four communication and media electives. Each course taken can only count towards one program requirement.

**Core Courses**

Students take a total of 3 core courses (12 credit hours).

- Students are required to take the following (8 credits):
  - CMNS 500 FOUNDATIONS IN GRADUATE COMMUNICATION STUDIES
  - RELC 500 RELATIONAL COMMUNICATION THEORIES
- Students must choose one from the following (4 credits):
Elective Courses

Students take a total of 9 electives (36 credit hours). Topics courses can be taken multiple times for credit as long as the specific topic differs each time.

- Students must choose four relational communication electives (16 credits):
  - RELC 502 ATTACHMENT & RELATIONAL COMMUNICATION
  - RELC 504 RELATIONAL COMMUNICATION AND ENTREPRENEURSHIP
  - RELC 511 TOPICS IN INTERPERSONAL COMMUNICATION
  - RELC 513 NONVERBAL COMMUNICATION
  - RELC 540 COMMUNICATION AND CONTEMPORARY COURTSHIP DYNAMICS
  - CMNS 523 GENDERED COMMUNICATION
  - CMNS 529 TOPICS IN ORGANIZATIONAL AND MULTICULTURAL COMMUNICATION
  - CMNS 530 INSTRUCTIONAL DEVELOPMENT
  - CMNS 547 COMMUNICATION IN CUSTOMER SERVICE
  - CMNS 552 STRATEGIC COMMUNICATION
  - HTHC 525 NARRATIVES IN HEALTH CARE

- Students must choose one methods elective (4 credits):
  - CMNS 581 QUALITATIVE RESEARCH METHODS
  - CMNS 582 QUANTITATIVE RESEARCH METHODS
  - CMNS 584 METHODOLOGICAL TOPICS

- Students must choose four communication & media electives (16 credits)*:
  - CMNS 501 COMMUNICATION IN CULTURAL CONTEXTS
  - CMNS 504 LANGUAGE, THOUGHT AND CULTURE
  - CMNS 509 SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION
  - CMNS 522 COMMUNICATING IDENTITY
  - CMNS 523 GENDERED COMMUNICATION
  - CMNS 525 COMPARATIVE MANAGEMENT COMMUNICATION
  - CMNS 527 ASSESSMENT AND INTERVENTION IN ORGANIZATIONS
  - CMNS 529 TOPICS IN ORGANIZATIONAL AND MULTICULTURAL COMMUNICATION
  - CMNS 530 INSTRUCTIONAL DEVELOPMENT

  - MCS 530 NEW MEDIA AND CULTURE
  - MCS 533 LATIN AMERICAN CINEMA/MEDIA
  - MCS 534 DOCUMENTARY STUDIES
  - MCS 541 AUDIO DOCUMENTARY
  - MCS 542 TOPICS IN PRODUCTION
Second Concentration Option

Students who are interested in declaring a secondary concentration area (in Media and Cinema Studies, Multicultural Communication, or Organizational Communication) must meet with the graduate advisor regarding requirements and declaration. Students declaring a second concentration in one of the above areas must complete the corresponding core class to the concentration, and four elective courses from the corresponding concentration area.

Completion Requirement

Comprehensive Final Exam or Project/Thesis

Students in the Master of Arts in Communication and Media complete their degree requirements by passing a comprehensive final exam. Students who attain a 3.75 GPA or higher and obtain prior approval from the graduate program director have the option to complete a culminating project or thesis instead of the comprehensive final exam. Students completing a project or thesis will enroll in RELC 599 as their 12th and final course in the quarter they defend their project/thesis.

Students who are pursuing two concentrations must pass a comprehensive final exam and do not have the option of the project or thesis.

Grade Requirements

Students must maintain a minimum cumulative GPA of 3.000 in their graduate courses to remain in good academic standing. Students who do not meet this minimum cumulative requirement will be placed on academic probation and will be expected to attain the minimum cumulative requirement within two quarters. Failure to do so may result in dismissal from the program.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/Communication and Media (MA)

Admission

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, have successfully completed any two communication courses from the corresponding concentration area of interest.
Applicants must submit the following to Office of Graduate Admission no later than 6 weeks prior to the start of their senior year (i.e., prior to the start of their final three undergraduate quarters): Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication or professors in the major.

Program Standards

Students accepted into the combined degree program complete 12 graduate credit hours of Communication and Media coursework which will fulfill undergraduate communication electives (for communication majors) and/or open electives. Students are strongly encouraged to take CMNS 500 and two other program requirements during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet this requirement, they will not be allowed to continue as a graduate student in the program.

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their undergraduate degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Psychology - Community (MA/PhD)

The Community Psychology Program is one of four combined MA/PhD programs in the Department of Psychology at DePaul University. The program prepares students to become excellent researchers, intervention specialists, consultants, and program evaluators who have a firm grounding in the theory, research and practice of Community Psychology.

Our training program has a special focus on working with underserved, minority populations (e.g., low-income urban children, adolescents, families and adults) and community-based organizations. We invite you to explore our website so that you can find out more about our program.

We believe there is a need to equip students with psychological skills that are targeted toward non-individually oriented topics, such as community and organizational change, and evaluators of social policy. Students in the Community Psychology Program will be trained in research methodologies to be applied to social and community interventions. These students will gain an understanding of social-community change from a public health perspective rather than a traditional individual-counseling orientation and will be collaborating with community agencies, not-for-profit groups or grass-roots organizations. Their principle roles are in research, evaluation, program development and other non-clinical activities.

The Community Program utilizes a unique approach toward training graduate students. The program will stress training community professionals who work in the public or private sector with diverse gender, ethnic, racial and sexual orientation populations. This program exemplifies the mission of DePaul University through its strong emphasis on service to others. An objective of training will be to provide graduate students with educational and practical skills for scientific and leadership development as community advocates of social justice and empowerment. The community faculty and supervisors have both an intra- and interdisciplinary orientation, including but not limited to, social, experimental, and feminist psychology, plus sociology and public service.

The Community Program seeks to achieve four inter-related goals in training, specifically:

1. Provide students with a breadth of knowledge in the content of community psychology.
2. Provide statistical and methodological foundations in general psychology to demonstrate competence in core areas within the discipline.
3. Provide the means to contribute to new developments in the field of community psychology and the social basis of behavior.
4. Provide for the specific needs of the students and the communities they will serve.
Since the Community Program has an ecological-community orientation that emphasizes a public health model rather than a clinical or medical model, those who have no specific interest in this area would be better served by another program. In particular, those having interests in traditional clinical work would not find the Community Program a good fit. Students accepted in the Community Program are ineligible to transfer into the Clinical Program.

Using a research-in-action training model, our program focuses on providing students with the theory, knowledge, skills and experience to work effectively with underserved communities to promote positive change, to examine the interaction between the individual and the environment, and to understand how contextual issues affect individuals and communities.

Specifically, the Community Program trains students to do the following:

- Develop, implement and evaluate preventive interventions
- Conduct action research that will help us to better understand and address social problems
- Evaluate community-based programs to help them gather information that will lead to better service provision to disadvantaged populations
- Consult with non-profit social service organizations to build organizational capacity
- Teach and conduct community research in college and university settings

### MA Degree Requirements

</tr>
<tr>
<td>Additional PhD Degree Requirements</td>
<td>28</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>76</strong></td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Conduct evaluations of community- and/or school-based programs.
- Demonstrate competence in writing competitive grant applications.
- Provide consultation and work collaboratively with community-based organizations.

### MA/PhD Degree Requirements

The Community Psychology MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

### MA Course Requirements

The MA portion of the combined degree program requires a minimum of 48 quarter hours beyond the completion of a bachelor's degree, including four quarter hours of thesis research.

### Core Courses

- PSY 492 PRINCIPLES OF CONSULTATION
- PSY 493 ADVANCED COMMUNITY PSYCHOLOGY
- PSY 520 PRINCIPLES OF HUMAN DIVERSITY
- PSY 569 SEMINAR IN PROGRAM EVALUATION
- PSY 590 THESIS RESEARCH SEMINAR (3 quarters, 0 credit hours)
- One of the following courses:
Statistics and Methodology Courses

- PSY 410 ADVANCED STATISTICS I
- PSY 411 ADVANCED STATISTICS II
- PSY 420 QUANTITATIVE RESEARCH DESIGN
- One of the following courses:
  - PSY 418 MULTIVARIATE STATISTICAL ANALYSIS
  - PSY 419 FACTOR ANALYSIS AND PATH MODELING
  - PSY 558 SEMINAR IN ADVANCED STATISTICS

Elective Courses

Two elective courses required. Electives can be any graduate-level psychology course, or any graduate-level non-psychology course, with permission from the faculty advisor or program director.

Research Course

- PSY 597 MASTER'S THESIS RESEARCH

Master’s Thesis Research

Complete a thesis on a topic approved by the department. It is expected that the student’s proposal for the master's thesis will be approved by November 15 of the second year in the program. The student's final thesis is due by February 1 of third year in program.

Master’s Thesis Examination

The examination may be, but is not necessarily limited to, a defense of the student’s thesis.

Doctoral Candidacy Examination (Comprehensive Examination or Project)

Although an applicant is accepted into the Community Psychology MA/PhD Program, formal acceptance and admission to doctoral candidacy depends upon the student's satisfactory progress in meeting the various demands of graduate education and professional training.

The student is expected to take doctoral comprehensive examinations in the area of community psychology in the spring of the third year in the program. These examinations cannot be taken until the student has successfully completed and defended the master's thesis. Another option is to conduct a comprehensive project rather than take an exam. The project involves the submission of an empirical paper, review paper, or grant application. The project proposal is due by May 1 of the third year (or within three months of completing the master's thesis). The final comprehensive project is due by May 1 of the fourth year (or within one year of proposal acceptance).

Admission to Doctoral Candidacy

Formally given to the student with satisfactory coursework performance who has successfully completed the master's thesis and passed the Doctoral Candidacy Examination; the candidate has no more than five years from this date to complete the PhD requirements or dismissal from the program will ensue.

Students denied candidacy will be required to withdraw from the program or withdraw after completion of the MA.

PhD Course Requirements

The PhD portion of the combined degree requires a minimum of 28 quarter hours beyond the completion of the master's degree, including four quarter hours of dissertation research. The following requirements must be completed to confer the PhD.
Core Courses

- One of the following courses:
  - PSY 568 SEMINAR IN PREVENTION AND INTERVENTION
  - PSY 495 GRANT WRITING IN PSYCHOLOGY
- PSY 567 SPECIAL TOPICS IN COMMUNITY PSYCHOLOGY (students may enroll in this course during their second or third year, prior to conferral of their MA)
- PSY 585 FIELDWORK IN COMMUNITY SETTINGS (6 quarters, 0 credit hours)
- PSY 654 COMMUNITY PSYCHOLOGY (0 credit hours)

Statistics and Methodology

- One of the following courses, which must be different from the Stats and Methodology course completed for the MA requirements:
  - PSY 416 METHODS IN QUALITATIVE RESEARCH
  - PSY 418 MULTIVARIATE STATISTICAL ANALYSIS
  - PSY 419 FACTOR ANALYSIS AND PATH MODELING
  - PSY 450 PSYCHOLOGICAL MEASUREMENT
  - PSY 558 SEMINAR IN ADVANCED STATISTICS
  - GEO 441 GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT

Elective Courses

Two elective courses required to complete the minimum number of credit hours. Electives can be any graduate-level psychology course, or any graduate-level non-psychology course, with permission from the faculty advisor or program director.

Additional Courses

- PSY 565 PROFESSIONAL DEVELOPMENT SEMINAR (9 quarters, 0 credit hours)
- PSY 550 SEMINAR IN TEACHING PSYCHOLOGY (3 quarters, 0 credit hours)
- Any four-credit psychology course (e.g., social, developmental, health) not in the community psychology or statistics/methods curriculum.

Research Course

- PSY 599 DOCTORAL DISSERTATION RESEARCH

Field Work and Practicum

All students develop two applied community-based fieldwork projects. They develop relationships with community organizations, design a project based on mutual interests, and receive individual and group supervision to implement the project they design. Metropolitan Chicago has a large population of community sites to draw upon as resources for assisting in placing students in practica and job-related sites.

Dissertation

The student should form a dissertation committee and begin work on the dissertation proposal during the third or fourth year. The dissertation proposal should be accepted by November 15 of the fifth year. The final dissertation defense should be completed by May 1 of the sixth year in program.

Oral Examination

Student is to defend his or her dissertation and to show competence in the general field of psychology and in the area of specialization.

Time Limitation

- No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
- No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.
Program Graduate Academic Student Handbook

Minimum Grades

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.

2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.

4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student’s program to hear the appeal. Depending on the student’s academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

Probation

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.20. If a student’s cumulative GPA falls below this minimum, the student will be put on probation and will have one quarter to raise their cumulative GPA to at least a 3.20 or face dismissal from the program. If the student raises his/her cumulative GPA to at least a 3.20, but it falls below the minimum a second time, he or she will be dismissed from the program.

Dismissal

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

Time Limitations

Students must complete their MA degree requirements prior to completing their requirements for admission to doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program (i.e., successful completion of the doctoral candidacy examination/project), and no less than eight months and no more than five years may pass between admission to candidacy and the final examination (i.e., the oral dissertation defense).

Students are required to meet the timelines specified by the program even if the timeline is more stringent than the College timeline. Failure to do so could result in dismissal.

Extensions on these timelines must be requested in writing to both the department (Program Director) and the college (to the Dean) and must be approved at both levels. Students must complete all requirements for the degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.

Graduation with Distinction for MA

The criteria for graduating "with distinction" are a minimum cumulative GPA of 3.75 and the recommendation of "with distinction" by the thesis committee.
Composition (MM)

The Master of Music in composition program offers students one-on-one instruction with DePaul's distinguished faculty of active composers, as well as seminars with guest composers and performers from Chicago and across the country. Graduate composition majors have their compositions performed at DePaul Composers Forum, a quarterly student composition concert, and second-year students may have a composition read through and recorded by the DePaul Chamber Orchestra. Graduate student compositions may also be performed by other DePaul ensembles, including Ensemble 20+, the Contemporary Music Ensemble. DePaul also offers two assistantships to graduate composition students. The Master of Music in composition is a two-year program.

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and analyze the elements of music in a given piece, and demonstrate an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Demonstrate basic music research techniques and knowledge of standard reference tools and bibliographic sources, including the use of online databases.
- Develop effective writing skills for use in program notes, liner notes, abstracts, essays, or research papers.
- Develop an expanded global awareness and cultural understanding through musical study.
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

Program Specific Outcomes

Students will be able to:

- Compose consistently throughout the two years of the degree program.
- Develop an individual compositional voice or style that reflects an awareness of prevalent musical styles and techniques of the 20th and 21st centuries.
- Perform on the student composer concerts known as Composers Forum.
- Analyze music of the common practice period as well as music of the 20th and 21st centuries.
- Demonstrate a fundamental knowledge of instrumentation.
  - Apply this knowledge by writing for a variety of ensembles.
  - Know techniques used to create electro-acoustic and computer-generated music.
  - Use these techniques to compose.
- Know select works of the last 100 years that are an important part of the development of new sonorities and techniques.
Degree Requirements

Course Requirements

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master’s degree students, and courses in the specialization.

Composition Core Requirements (16 credits)

- MUS 408 ANALYTICAL TECHNIQUES
  or COM 405 GRADUATE ANALYTICAL STUDIES
- Music History: Two courses from the list below
  - JZZ 405 JAZZ HISTORY
  - JZZ 406 JAZZ STYLE AND ANALYSIS
  - MUS 420 HISTORY OF THE ORATORIO
  - MUS 435 18th & 19th WIND HISTORY AND LITERATURE
  - MUS 436 20th CENTURY WIND HISTORY AND LITERATURE
  - MUS 475 MEDIEVAL MUSIC
  - MUS 478 RENAISSANCE MUSIC
  - MUS 479 BAROQUE MUSIC
  - MUS 481 HISTORY OF OPERA
  - MUS 482 WORLD MUSIC CULTURES
  - MUS 484 CLASSICAL MUSIC
  - MUS 485 ROMANTIC MUSIC
  - MUS 486 MUSIC SINCE WORLD WAR II
  - MUS 487 20TH CENTURY MUSIC BEFORE WWII
- MUS 400 MUSIC RESEARCH

Composition Specialization Requirements (28 credits)

- COM 447 NON-WESTERN SOUND AND CONCEPT IN CONTEMPORARY MUSIC
- COM 445 TWENTIETH CENTURY MUSIC TOPICS
- COM 416 COMPUTER ASSISTED COMPOSITION
- COM 415 COMPOSITION
- COM 446 NEW MUSIC COMPOSITION SEMINAR

Composition Electives (4 credits)

- Electives

Terminal Requirements

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- The completion of an original work.

While preparation of the terminal requirement in the major may take place within some course or activity for which a student is registered for credit, additional academic credit is not granted for the project itself.

Residency Requirements

All courses for the master’s degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

A full-time graduate student must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master’s degree program has been granted.
Computational Finance (MS)

The Master of Science in Computational Finance is a joint-degree program of the College of Computing and Digital Media and the Kellstadt Graduate School of Business that combines financial course work with computer programming. The program is designed to meet the industry-wide need for financial professionals with exceptional programming skills, as well as in-depth understanding of financial concepts and business language. The MS in Computational Finance is for the student who has earned a bachelor’s degree, or who has earned or is earning an MBA.

Highlights

Taught by faculty members with both industry and academic expertise, this degree will help you to develop skills to:

- Build a trading engine.
- Implement financial concepts into computer programs.
- Develop and use numerical algorithms and analytical techniques.
- Explore pricing of derivative securities.
- Understand and analyze simulation of financial systems.

Career Outlook

This unique program will prepare you for a career in finance, specifically in portfolio management, risk management and financial engineering.

STEM Designation

DePaul’s Master of Science in Computational Finance is a Department of Homeland Security STEM-designated program. STEM designation is granted to programs that produce graduates educated in science, technology, engineering and/or math who help support U.S. economic competitiveness and growth. International students who earn degrees from STEM-designated programs can qualify to extend their post-graduation stay in the United States for Optional Practical Training (OPT). OPT provides an opportunity for international students to develop their careers while also helping meet the demand for STEM-educated professionals in the U.S. workforce. To find out more, contact the Kellstadt Graduate School of Business at kgsb@depaul.edu or (312) 362-8810.

Degree Requirements

Course Requirements

The Master of Science in Computational Finance is a joint degree with the College of Computing and Digital Media, CDM. The degree is structured to develop financial management knowledge and proficiency. The GMAT test is required for admission for students admitted via the College of Business. Students admitted via the College of Computing and Digital Media may submit either GMAT or GRE test results. The TOEFL test is required for international students. Calculus I and Calculus II with at least a B- average. Business Calculus is not sufficient for the Calculus requirement.

Students complete the degree by taking 13 required courses; 7 from KGSB and 5 from CDM and 1 elective.

Introductory Courses

- CSC 401 INTRODUCTION TO PROGRAMMING
- CSC 404 ACCELERATED C++
- CSC 412 TOOLS AND TECHNIQUES FOR COMPUTATIONAL ANALYSIS
- IT 403 STATISTICS AND DATA ANALYSIS

The introductory courses may be waived for any of the following conditions:

- The student has appropriate course work to satisfy an introductory course.
- The student has appropriate and verified professional experience to satisfy an introductory course.
- The student passes a graduate assessment examination (GAE) to demonstrate competence in an introductory course equivalent.

KGSB Courses (7 courses)

- ACC 500 FINANCIAL ACCOUNTING
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- FIN 523 INVESTMENT ANALYSIS
- FIN 525 PORTFOLIO MANAGEMENT
- FIN 562 RISK MANAGEMENT
- FIN 662 DERIVATIVES VALUATION

CDM Courses (5 courses)

- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 425 TIME SERIES ANALYSIS AND FORECASTING
- CSC 431 SCIENTIFIC COMPUTING
  or CSC 485 NUMERICAL ANALYSIS
- CSC 521 MONTE CARLO ALGORITHMS
- Plus one course from the among the following:
  - CSC 695 MASTER’S RESEARCH
  - CSC 697 GRADUATE INTERNSHIP
  - CSC 559 SOFTWARE ENGINEERING FOR FINANCIAL MARKETS

Major Elective Course (1 course)

Students must take one 500-level course in CDM, Kellstadt, or the Department of Mathematics.

Degree Requirements

1. Satisfactory completion of the college residency requirement.
2. Satisfactory completion of the 13 required and elective courses.
3. All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program or the Kellstadt Graduate School of Business.

Computational Finance (MS)

The MS in Computational Finance is a joint degree between CDM and the Kellstadt Graduate School of Business, offering students the skills to approach financial models through a quantitative framework. The program prepares students for careers in the field of quantitative financial analysis in areas including portfolio management, risk management, and financial engineering.

Learning Outcomes

Students will be able to:

- Acquire knowledge and skills that are broad, deep, and necessary to fulfill their professional goals.
- Use analytical and decision-making skills to solve problems encountered by business and investors.
- Apply financial theory to solve a variety of problems in investment, management, risk management, and in corporate finance.
- Know the differences among global economies, institutions, and cultures
  - Understand the implications these have on global management.

Degree Requirements

Course Requirements

No Introductory course may be substituted for any other course at any level.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.
CSC 401 INTRODUCTION TO PROGRAMMING
CSC 404 ACCELERATED C++
IT 403 STATISTICS AND DATA ANALYSIS
CSC 412 TOOLS AND TECHNIQUES FOR COMPUTATIONAL ANALYSIS

CDM Foundation Courses

- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 425 TIME SERIES ANALYSIS AND FORECASTING
- CSC 431 SCIENTIFIC COMPUTING
  or CSC 485 NUMERICAL ANALYSIS
- CSC 521 MONTE CARLO ALGORITHMS

Kellstadt Foundation Courses

- ACC 500 FINANCIAL ACCOUNTING
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- FIN 523 INVESTMENT ANALYSIS
- FIN 525 PORTFOLIO MANAGEMENT
- FIN 562 RISK MANAGEMENT
- FIN 662 DERIVATIVES VALUATION

Advanced Courses

- Choose one of the following:
  - CSC 695 MASTER'S RESEARCH (1 - 4 Credits)
  - CSC 697 GRADUATE INTERNSHIP
  - CSC 559 SOFTWARE ENGINEERING FOR FINANCIAL MARKETS

Major Elective Courses

Students must take 1 500-level course at CDM, Kellstadt, or the Department of Math.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of B- or better in each introductory course of the designated degree program.
- Earn a grade of C- or better in all courses beyond the introductory courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.
Computer and Information Sciences (PhD)

The Ph.D. in Computer and Information Sciences offers an opportunity for exceptional students to pursue substantial research in the computer sciences and related areas. To earn a Ph.D. degree, a student must demonstrate breadth of knowledge in at least two research areas and significant depth in a chosen dissertation area. In addition, the student must conceive, write and defend a Ph.D. dissertation representing a significant and original contribution to current academic research as demonstrated by a public dissertation defense and publication in established peer-reviewed academic conferences and/or journals.

The Ph.D. in Computer and Information Sciences has two tracks: the Computing Track and the Information Systems and HCI track. Students pursuing PhD topics in typical computer science areas such as algorithms, artificial intelligence, databases, data mining, programming languages, software engineering, etc. follow the Computing Track. The Information Systems and HCI Track is for students whose topics fall under the category of information systems or Human Computer Interaction. Students must choose whether to enter the Computing or Information Systems and HCI Track at admission.

Learning Outcomes

Students will be able to:

- Propose a research problem and novel solutions that make significant and unique contributions to advance knowledge.
- Understand research methodologies and experimental designs.
  - Select and apply appropriate methods within the selected research area.
- Demonstrate knowledge of core concepts, theories, and seminal work in the general field of Computer Science (c-track) or Information Systems (i-track).
- Effectively communicate research results through:
  - Academic publications, including a clear motivation and problem statement.
  - A rigorous survey of related work.
  - A clear explanation and analysis of work performed.
  - A summary of the novel research contributions.
- Orally communicate complex and novel research concepts.
- Demonstrate an understanding of the ethical issues associated with:
  - Conducting research in the selected area of study, including working with human subjects.
  - Conducting and reporting research in an ethical way.
- Evaluate the novelty, correctness, and rigor of research papers describing research in areas related to the selected research.
Degree Requirements

Most of the courses that PhD students will take will be geared toward preparing the student for the Breadth exams and for whatever other preparation the advisor deems necessary. Specific requirements for courses follow.

Students must take at least 60 credits in the CDM 420 - CDM 699 range, including at least 12 credits of CSC 699: Research (or equivalent as approved by advisor). Non-CDM courses may be substituted with permission of the advisor.

Students must take CSC 426: Research Methods and Practice in Computing in their first two years. Students must take at least two quarters (4 credits) of CSC 500: Research Colloquium in their first two years.

Students who do not have a master's degree are considered "conditionally admitted" students. These students must complete an additional 52 credits (typically 13 courses) of graduate coursework, including 36 credits (9 courses) of CDM courses in the range of 420 - 598. No courses under CSC 420 shall count for PhD degree. Non-CDM courses may be substituted with permission of the advisor.

Students must maintain a grade point average of 3.5 or better to remain in good standing in the program. Any course grade below B- is unsatisfactory and will not be counted towards degree requirements.

Students must remain continuously enrolled in CSC 701 or CSC 702 (0 credits) if they are not taking any other courses.

Exams

Students must pass two Breadth Exams. If an exam is unsuccessful, the student is required to retake the Breadth Exam in that same area. Students may attempt a Breadth Exam twice. If a student fails a Breadth Exam twice, he or she will be dismissed from the program.

Students must complete a Depth examination in their chosen area of research. The Depth Exam must be completed before the Proposal Defense.

The Dissertation

After the exams have been passed, the student must propose a significant original research project and successfully defend that proposal to the student's Dissertation Committee. Once the research has been completed, the student must hold a public defense to demonstrate to the Dissertation Committee that the work has been completed satisfactorily.

Time limits

Full-time Students

- Year 1 (a) Pass at least 1 breadth exam or (b) show concrete evidence of initial research, such as a literature review, technical report, poster presentation at a conference, etc.
- Year 2 (a) Pass both breadth exams and (b) show evidence of continuing research, such as a publication or conference presentation.
- Years 3 to 5 Continue to demonstrate progress in research; submit additional publication(s) to reputable journals or conferences; and pass Proposal Defense.
- No less than six months and no more than three years between Proposal Defense and the Dissertation Defense.

Conditionally admitted students will have an extra year to achieve these milestones.

Part-time Students

- No more than three years between enrollment in the doctoral program and completion of Breadth Examinations.
- No more than five years between completion of Breadth Examinations and Proposal Defense.
- No less than eight months and no more than five years between Proposal Defense and the Dissertation Defense.
Computer Science (MS)

The MS in Computer Science exposes students to the complete life-cycle of computer application development including abstraction, modeling and algorithm development, leveraging computer systems, programming languages and development frameworks, and software development techniques and processes. It prepares students for a professional career in Software Development or Computer Science Research.

| Introductory Courses | 0-24 hours |
| Degree Requirements  | 52 hours   |
| Total hours required | 52-76 hours|

Learning Outcomes

Students will be able to:

- Analytically determine the running time of a program and validate the analysis experimentally.
  - Solve a specific problem by selecting appropriate data structures and algorithms and customize them to the problem.
- Design a solution to a given problem using one or more design patterns and implement the design in a programming language.
- Criticize a program on the basis of its maintainability and suggest improvements.
  - Interpret new APIs and use them in developing computer applications.
- Implement systems that run across several distributed computers.
- Write programs that interact with databases.
- Decompose problems using techniques from functional and object-oriented programming.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

- CSC 400 DISCRETE STRUCTURES FOR COMPUTER SCIENCE
- CSC 401 INTRODUCTION TO PROGRAMMING
- CSC 402 DATA STRUCTURES I
- CSC 403 DATA STRUCTURES II
- CSC 406 SYSTEMS I
- CSC 407 SYSTEMS II

**Foundation Courses**

- CSC 421 APPLIED ALGORITHMS AND STRUCTURES
- CSC 435 DISTRIBUTED SYSTEMS I
- CSC 447 CONCEPTS OF PROGRAMMING LANGUAGES
- CSC 453 DATABASE TECHNOLOGIES
- SE 450 OBJECT-ORIENTED SOFTWARE DEVELOPMENT

**Major Electives**

Graduates of the MS in Computer Science program must be proficient in at least one broad area of Computer Science listed below. For this reason students will take the remaining 8 elective courses as follows:

- Four (4) courses from one area
- Four (4) additional courses from any area. Including the option to take the 2-course SE Studio sequence, the 2-course GAM studio sequence, the 1-course CS capstone, the Research Colloquium course, or write an MS Thesis, or develop an MS Research Project.

The courses in each area are listed below. The Independent Study courses (CSC 695) may be taken for up to 8 credits and at most 4 credit hours of CSC 695 can count towards the chosen area.

**Areas**

**Software and System Development area**

- CSC 436 WEB APPLICATIONS
- CSC 438 FRAMEWORK FOR WEB APPLICATION DEVELOPMENT
- CSC 439 COMPUTER SECURITY
- CSC 443 INTRODUCTION TO OPERATING SYSTEMS
- CSC 448 COMPILER DESIGN
- CSC 461 OPTIMIZED C++
- CSC 462 C++ MULTITHREADING
- CSC 471 MOBILE APPLICATION DEVELOPMENT FOR IOS
- CSC 472 MOBILE APPLICATION DEVELOPMENT FOR ANDROID
- CSC 475 INTRODUCTION TO ROBOTICS
- CSC 534 SOFTWARE DEVELOPMENT FOR LIMITED AND EMBEDDED DEVICES
- CSC 536 DISTRIBUTED SYSTEMS II
- CSC 540 MOBILE APPLICATION DEVELOPMENT II
- CSC 548 ADVANCED COMPILER DESIGN
- CSC 549 DATABASE SYSTEM IMPLEMENTATION
- CSC 551 DISTRIBUTED DATABASE SYSTEMS
- CSC 552 CONCURRENT SOFTWARE DEVELOPMENT
- CSC 553 ADVANCED DATABASE CONCEPTS
- CSC 595 TOPICS IN COMPUTER SCIENCE

As part of their electives, students have the option of signing up for the Research Colloquium, or completing a Research Project, or writing a Master Thesis, or participating in a Graduate Internship.

Research Colloquium

The research colloquium consists of weekly talks by a variety of speakers including faculty, students, and guests from the academic and business communities. The lectures feature new creative and scholarly work that encompasses the disciplines and areas of interest of the School of Computing. Students interested in attending the colloquium and receiving credit should sign up for the CSC 500 Research Colloquium course (NOTE: this course carries only 2 credits; it may be taken twice for credit.) Student evaluation is based on attendance as well as an online journal with reflections on each of the presentations. The educational objectives are to expose students to creative and scholarly research at DePaul and elsewhere, and to engage students in the thought process of identifying and solving challenging research problems.

Master's Research

Students interested in a more in-depth study of a particular area can choose to work with a faculty member (not necessarily their academic advisor) on an independent study or research project. The work involved may include system development, empirical studies, or theoretical work. The student will register for up to 4 credit hours of CSC 695 MASTER'S RESEARCH. 4 credit hours of CSC 695 replaces one 500 level major elective course in the M.S. in Computer Science program. CSC 695 can be taken multiple times for up to 8 credit hours. Students must successfully complete the Foundation courses prior to their first enrollment in CSC 695. Students interested in the Master's Thesis option will typically take 8 credits of CSC 695.

Master's Thesis

A student who has made an original contribution to the area (typically, through work done by CSC 695) may choose to complete a Master's Thesis. The student and the student's research advisor should form a Master's Thesis Committee of 3 faculty. The student will need to submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis. In that case, the student will be allowed to register for the 0 credit course CSC 698 MASTER'S THESIS and the transcript will show the thesis title as the course topic.

Graduate Internship

In cooperation with local employers, the graduate program offers students the opportunity to integrate their academic experience with on-the-job training in computer related work areas. Students may take CSC 697 GRADUATE INTERNSHIP for up to four credits. Admission to the internship program requires consent of the instructor and a student services advisor. International students may complete curricular practical training (CPT) through this class provided they first obtain CPT authorization from the Office for International Students and Scholars (OISS) before beginning the internship.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.
Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

## Counseling (MA or MEd)

The Counseling Program provides professionals with theoretical frameworks and competencies that prepare them to provide counseling services. There are three degree concentrations within the program: clinical mental health counseling, college student development, and school counseling. The concentrations in clinical mental health counseling and school counseling integrate Illinois state requirements for licensure, and all concentrations meet national standards for professional practice. School counseling and college student development programs are 72 credit hours, and the clinical mental health counseling program is 90 credit hours. All concentrations include a 100 hour practicum and 600 hour internship. These clinical experiences are mandatory, and for the school counseling and clinical mental health counseling concentrations, they are required by the state for licensure. A degree from this program prepares students for career opportunities such as school counseling in elementary, middle, and high schools; counseling in community agencies; counseling in higher education; career counseling through the lifespan; counseling in hospitals or institutional-care settings; group counseling; couples and family counseling; or counseling in private practice, depending upon the chosen concentration. All of the concentrations emphasize and are designed to foster leadership, advocacy, and social justice.

The MA degree in Counseling requires the successful completion of a Thesis.

### Concentrations

The Counseling program has three concentrations:

- Concentration in Clinical Mental Health Counseling
- Concentration in College Student Development
- Concentration in School Counseling

### School Counseling Licensure Option

The Counseling program's School Counseling concentration is an Illinois State Board of Education (ISBE) approved program for the Illinois Professional Educator License with an endorsement in School Counseling.

### LPC Licensure Information

The State of Illinois requires that those who wish to work as a counselor have licensure as either a Licensed Professional Counselor (LPC) or an advanced Licensed Clinical Professional Counselor (LCPC). The Counseling program’s Clinical Mental Health Counseling concentration meets the educational requirements for the Licensed Clinical Professional Counselor. However, there are further requirements that must be met according to state regulations. For more information, contact the State of Illinois Department of Financial and Professional Regulation in Springfield, Illinois.

Learning Outcomes

Student will be able to:

- Understand the learning process and the academic environment and develop programs and interventions that promote achievement of all students.
- Know about the world of work, career theories, and related life processes and develop programs and interventions to promote the career development of all students.
- Understand the developmental needs of the school age population and develop programs and interventions that promote optimum personal and social development.
- Understand instructional planning and design developmental counseling curriculum based upon knowledge of the student, the community, and the overall educational program.
- Understand and implement appropriate responses to crises, and uses a variety of intervention strategies for students, families, and communities facing emergency situations.
- Understand and use a variety of individual counseling strategies and provides appropriate referral services.
- Understand and implement principles of group work in the school setting.
- Understand and use a variety of strategies to encourage students development of academic, personal/social, and career competencies.
- Enable students to learn about and to use technology, as appropriate for the discipline.
- Understand and use technology to enhance student advisement and professional productivity.
- Undertake independent inquiry and use technology as one tool to assist him or her in the overall inquiry process.
- Understand and actively participate within the profession.
- Know current legal issues and the ethical guidelines of the profession and acts accordingly.
- Complete a practicum with a school-aged population under qualified supervision and demonstrate basic counseling skills.
- Complete an internship under qualified supervision and perform a variety of counseling activities.
- Understand and use organizational and management tools needed to implement an effective developmental program.
- Know and implement prevention education programs.
- Understand basic, concepts, technology, and implications of various assessment and evaluative instruments.
- Understand the statistical and research design tools needed for program evaluation.
- Understand the importance of and engage in program evaluation research.
- Understand the history and current trends and issues of the profession and include this knowledge when establishing comprehensive developmental counseling programs.
- Have the knowledge and skills to establish appropriate helping relationships as a professional school counselor in a school setting.
- Learn about and to use technology, as appropriate for the discipline.
- Understand and use technology to enhance student advisement and professional productivity.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to supervisor and faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Takes initiative in all learning experiences and responsibility for his or her own professional growth and development

- Is committed to clear oral and written communication, both in traditional and in new and emerging digital formats
- Is open to new ideas and engagement in learning
- Appreciates diversity and demonstrates awareness of personal biases
- Respects and considers cultural contexts in order to determine how to be responsive to students and clients and to proactively promote social justice
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Communicates and cooperates effectively with others
- Is committed to collaboration with students/clients, colleagues, families, and communities in order to promote growth and development
- Demonstrates consistent professional behavior across all settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Degree Requirements**

**Professional Practice**

Students complete their Professional Practice courses towards the end of the program. The Professional Practice courses include a Practicum in Counseling, Internship in Counseling I, Internship in Counseling II, and Internship in Counseling III (CMH students only). Students must have taken the concentration's prerequisite courses and must complete a formal application process to participate in the Professional Practice experience. This includes attending a clinical orientation a full year before submitting an initial placement site application, securing a placement, and beginning the Professional Practice experience. Students should consult an advisor for additional information on the application and the course enrollment process.

**Professional Practice Courses: 12 quarter hours required, grade of B or better required**

- CSL 552 PRACTICUM IN COUNSELING
- CSL 553 INTERNSHIP IN COUNSELING I
- CSL 554 INTERNSHIP IN COUNSELING II
Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Clinical Mental Health Counseling (MA or MEd)
- College Student Development (MA or MEd)
- School Counseling (MA or MEd)

College Student Development Concentration (MA or MEd)

This Master's degree prepares Counseling professionals to work in various offices within student affairs such as in career centers, offices of residence life, and college counseling centers. It provides the Counseling Professional with the skills and processes to provide individual and group counseling and to serve as a leader and advocate for students, universities, and the profession.

Course Requirements

Social and Cultural Studies Courses: 8 quarter hours required, grade of B- or better required

- SCG 401 ADVANCED LIFESPAN DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES

Counseling Courses: 52 quarter hours required, grade of B- or better required

- CSL 451 LEGAL AND ETHICAL ISSUES IN COUNSELING
- CSL 452 INTRODUCTION TO THE COUNSELING PROFESSION
- CSL 454 CAREER COUNSELING
- CSL 458 GROUP COUNSELING
- CSL 461 TESTING AND APPRAISAL
- CSL 467 COUNSELING THEORIES
- CSL 490 FOUNDATIONS OF STUDENT AFFAIRS
- CSL 491 CONTEXTUAL DIMENSIONS OF COLLEGE STUDENT DEVELOPMENT
- CSL 492 PROGRAM DEVELOPMENT IN STUDENT AFFAIRS
- CSL 501 COUNSELING SKILLS
- CSL 510 MULTICULTURAL COUNSELING
- CSL 511 SUPERVISION (1qh)
- CSL 512 CRISIS INTERVENTION (2qh)
- CSL 513 CONSULTATION FOR COUNSELORS (1qh)
- Counseling Elective (4-credit hour course per faculty advisor approval)

Practicum and Internship: 3 courses, 12 hours; grade of B or better is required

- CSL 552 PRACTICUM IN COUNSELING
- CSL 553 INTERNSHIP IN COUNSELING I
- CSL 554 INTERNSHIP IN COUNSELING II

Choose one: Thesis (M.A.) or Capstone (M.Ed):
• **Master of Arts (M.A.) Degree Requirements:** Non-credit, non-tuition, grade of B- or better required
  
  o **CSL 559 THESIS RESEARCH IN COUNSELING** 

  The Master’s Thesis is written in conjunction with CSL 553 and CSL 554 and with faculty advisement. Enrollment in CSL 559 and an oral examination are required. Consult the M.A. Thesis Handbook for additional information.

• **Master of Education (M.Ed.) Degree Requirements**

  Capstone project with faculty supervision written in conjunction with CSL 552, CSL 553, and CSL 554. Does not require additional course enrollment.

---

**School Counseling Concentration (MA or MEd)**

This Master's degree allows the student to become licensed as a professional school counselor through the Illinois State Board of Education. The concentration sequence prepares students to work with students, staff and families in public and private K-12 school systems. Courses and professional practice experiences in the field provide students the skills and knowledge to deliver a comprehensive, data-driven school counseling program based on national standards and best practice, and to serve as leaders and advocates for students, schools, and the profession.

**Course Requirements**

**Social and Cultural Studies Courses:** 8 quarter hours required, grade of B- or better required

- SCG 401 ADVANCED LIFESPAN DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES

**Counseling Courses:** 52-56* quarter hours required, grade of B- or better required

- CSL 451 LEGAL AND ETHICAL ISSUES IN COUNSELING
- CSL 452 INTRODUCTION TO THE COUNSELING PROFESSION
- CSL 458 GROUP COUNSELING
- CSL 461 TESTING AND APPRAISAL
- CSL 467 COUNSELING THEORIES
- CSL 475 COLLEGE AND CAREER READINESS COUNSELING FOR SCHOOL COUNSELORS
- CSL 489 PSYCHOPATHOLOGY
- CSL 501 COUNSELING SKILLS
- CSL 510 MULTICULTURAL COUNSELING
- CSL 514 CRISIS INTERVENTION FOR SCHOOL COUNSELING (2qh)
- CSL 519 SPECIAL EDUCATION: LEGAL AND PROFESSIONAL ISSUES FOR SCHOOL COUNSELORS (2qh)
- CSL 520 COUNSELING CHILDREN AND ADOLESCENTS
- CSL 521 CONTEXTUAL DIMENSIONS OF SCHOOL COUNSELING
- CSL 522 DELIVERY OF COMPREHENSIVE DEVELOPMENTAL SCHOOL COUNSELING PROGRAMS
- CSL 523 LEARNING AND CLASSROOM MANAGEMENT FOR SCHOOL COUNSELORS *(required only for students without a teaching license)*

**Practicum and Internship:** 3 courses, 12 hours; grade of B or better is required

- CSL 552 PRACTICUM IN COUNSELING
- CSL 553 INTERNSHIP IN COUNSELING I
- CSL 554 INTERNSHIP IN COUNSELING II

**Choose one: Thesis (M.A.) or Capstone (M.Ed):**
**Clinical Mental Health Counseling Concentration (MA or MEd)**

The Clinical Mental Health Counseling (CMHC) concentration is a practitioner-oriented program that is designed to prepare students to enter the professional field of clinical mental health counseling. Our program integrates counseling knowledge, skills, and clinical field experiences based on current research and best practices to help students develop their professional identities as clinical mental health counselors. With a sound foundation in counseling and mental health training, graduates will be able to work within a variety of clinical settings such as community mental health centers, day treatment and in-patient hospital settings, employee assistance plans, correctional facilities, foster care agencies, group homes, youth mentoring programs, colleges and universities, and private practice settings. Within these settings our graduates are equipped to address and resolve personal, familial, and social concerns that interfere with clients’ abilities to lead healthy and productive lives.

Unique to the Counseling program at DePaul University are opportunities for our students to learn in our state-of-the-art training facility (Education and Counseling Center), and a rigorous education in multiculturalism and social justice. The program’s focus is on training students to become culturally competent practitioners who can serve as advocates and leaders for clients, communities, and the profession. Graduates of our program have become counselors and leaders serving culturally and linguistically diverse populations (e.g., clients who are LGBTQ, of varied racial and ethnic backgrounds, and economically disenfranchised).

Graduates of this concentration are also competitive for admission into doctoral programs in counseling psychology, counselor education, and other mental health fields as long as they design their coursework and experiences during the program with this focus in mind. Students choosing to further their research knowledge and skills to better prepare for advanced degree programs often complete a master’s thesis or complete research with a faculty advisor.

**Program Requirements**

The CMHC concentration is a 90-quarter hour program that requires at least three years to complete. Coursework plus an on-site practicum experience generally make up the first two years of the program, followed by a year of specialty coursework and professional practice in the field.

The course sequence below meets the educational requirements for both the Licensed Professional Counselor (LPC) and Licensed Clinical Professional Counselor (LCPC) as set by the State of Illinois Department of Financial...
and Professional Regulation (IDFPR). The CMHC concentration program of study generally meets the licensure requirements for other states; however, certain states have different requirements. It is the responsibility of the student to check with the state licensure board to verify the necessary requirements to be eligible for licensure and to plan on meeting those requirements. State licensure board contact information can be obtained through the American Counseling Association http://www.counseling.org/knowledge-center/licensure-requirements.

**Course Requirements**

**Social and Cultural Foundations Courses: 2 courses, 8 quarter hours required, grade of B- or better required**

- SCG 401 ADVANCED LIFESPAN DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES

**Counseling Courses: 17 courses, 62 quarter hours required, grade of B- or better required**

- CSL 451 LEGAL AND ETHICAL ISSUES IN COUNSELING
- CSL 452 INTRODUCTION TO THE COUNSELING PROFESSION
- CSL 454 CAREER COUNSELING
- CSL 458 GROUP COUNSELING
- CSL 461 TESTING AND APPRAISAL
- CSL 466 ASSESSMENT AND TREATMENT OF CHEMICAL DEPENDENCY
- CSL 467 COUNSELING THEORIES
- CSL 483 COUNSELING INTERVENTIONS AND TREATMENT PLANNING
- CSL 484 ISSUES IN CLINICAL MENTAL HEALTH COUNSELING
- CSL 485 SEXUALITY COUNSELING
- CSL 489 PSYCHOPATHOLOGY
- CSL 501 COUNSELING SKILLS
- CSL 510 MULTICULTURAL COUNSELING
- CSL 511 SUPERVISION (1qh)
- CSL 513 CONSULTATION FOR COUNSELORS (1qh)
- CSL 515 CRISIS INTERVENTION AND TRAUMA COUNSELING
- CSL 556 COUPLES AND FAMILY COUNSELING

**Elective Courses: 8 quarter hours required, grade of B- or better required**

- CSL 480 SPECIAL TOPICS IN COUNSELING (1qh)
- CSL 481 SPECIAL TOPICS IN COUNSELING: (2qh)
- CSL 482 SPECIAL TOPICS IN COUNSELING: (4qh)

Students may also take elective courses in another program approved by an advisor.

**Practicum and Internship: 3 courses, 12 hours; grade of B or better is required**

- CSL 552 PRACTICUM IN COUNSELING
- CSL 553 INTERNSHIP IN COUNSELING I
- CSL 554 INTERNSHIP IN COUNSELING II

**Choose one: Thesis (M.A.) or Capstone (M.Ed):**

- **Master of Arts (M.A.) Degree Requirements: Non-credit, non-tuition, grade of B- or better required**
  - CSL 559 THESIS RESEARCH IN COUNSELING

  The Master's Thesis is written in conjunction with CSL 553 and CSL 554 and with faculty advisement. Enrollment in CSL 559 and an oral defense of the thesis are required. Consult the M.A. Thesis Handbook for additional information.

- **Master of Education (M.Ed.) Degree Requirements**

  Capstone project with faculty supervision written in conjunction with CSL 552, CSL 553, and CSL 554. Does not require additional course enrollment.
Creative Producing (MFA)

The MFA in Creative Producing is a joint degree between the School of Cinematic Arts in the College of Computing and Digital Media and the Kellstadt Graduate School of Business in the Driehaus College of Business. This unique partnership offers an unparalleled curriculum that prepares students to become innovative leaders in the evolving world of digital entertainment.

The courses offer a specialized education in leadership, marketing, deal-making, development, and line producing for film and TV, culminating in a thesis project that involves either producing a festival quality short film or creating a professional package for a film or television project. Graduates will be well equipped for a number of careers, including talent agents and managers, studio executives, television showrunners, and traditional film and TV producing roles.

| Total hours required | 64 hours |

Learning Outcomes

Students will be able to:

- Develop creative producing skills in the areas of script development, pre-production, distribution, and prepare schedules and budgets.
- Perform the key steps involved in putting a film together in the areas of rights acquisitions, finance, creative packages, prep, production, and distribution.
- Develop business skills in the areas of negotiations, entrepreneurship, accounting, entertainment law, and marketing.
- Demonstrate an understanding of the key business skills needed to succeed in the entertainment business as a decision maker.
- Physically produce content in the form of film shorts and creating a professional film or television package.

Sample Schedule

First Year

Fall Quarter

- DC 461 PRODUCTION WORKSHOP
- DC 489 THE MOTION PICTURE INDUSTRY
- MGT 563 NEGOTIATION SKILLS

Winter Quarter

DePaul University Autumn 2017-2018
Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

- ACC 798 SPECIAL TOPICS
- DC 423 PRODUCING: PRE-PRODUCTION
- DC 463 PRODUCTION WORKSHOP
- DC 464 ENTERTAINMENT LAW FOR PRODUCERS
- DC 481 DISTRIBUTION AND EXHIBITION
- DC 485 PRODUCING THE FEATURE FILM
- DC 489 THE MOTION PICTURE INDUSTRY
- DC 503 STUDIO DEVELOPMENT
- DC 511 CREATIVE PRODUCING THESIS I
- DC 512 CREATIVE PRODUCING THESIS II
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 credit hours)
- MGT 554 MANAGING HUMAN CAPITAL (2 credit hours)
- MGT 563 NEGOTIATION SKILLS
- MGT 570 ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT
- MKT 555 DECISIONS IN MARKETING MANAGEMENT
- DC 499 INTERNSHIPS IN MEDIA AND DESIGN*
  - or One (1) 400-level or above DC course
- DC 505 INDUSTRY AND PITCHING SEMINAR*
  - or One (1) 400-level or above DC course

*Optional Los Angeles Quarter
Students may apply to participate in the Los Angeles Quarter Program for the spring of their second year. The LA Quarter program offers a unique opportunity for students to experience the inner workings of Hollywood first hand. This ten-week immersion program is structured around living in Los Angeles, taking classes on a historic studio lot, and interning at high profile companies that align with students' professional aspirations. Through this experience, students learn how to navigate the studio system and build a network of professional contacts that will help them leave an indomitable mark on the entertainment industry. If selected to participate in the LA program, MFA Creative Producing students would take DC 505 and DC 499 in Los Angeles.

**MFA Thesis**

Students will be required to complete a final thesis project that involves producing a festival quality short film or creating a professional package for a feature film or television project. Both the short film and professional package project will entail optioning and developing source material such as a book, script, or magazine article. The ultimate goal for the thesis projects is for the students to have a viable project upon graduation that they can set up at a major entertainment company like a studio or produce on their own independently.

**Degree Requirements**

Students in the MFA Creative Producing degree must meet the following requirements:

- Complete a minimum of 64 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Satisfactorily complete the MFA thesis as determined by the student's MFA Advisor Committee.
- Students cannot count credit earned towards a previously awarded master's or MFA degree toward the completion of this MFA program.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook in the Course Catalog.

---

**Critical Ethnic Studies (MA)**

The Critical Ethnic Studies Master of Arts prepares students for advanced analysis of race and ethnicity in an urban and global context. It provides an interdisciplinary approach to the studies of systematic marginalization of racialized minorities. It also looks at how racialized groups respond to and counter these forces through art, culture, political organization and other forms of social citizenship.

This program uses an interdisciplinary social justice perspective to critique global and local configurations of power. We emphasize social justice and transformation while focusing on U.S. ethno-racial populations through an intersectional, transnational, and urban framework. Students apply critical theories to complex social and cultural issues. The program consists of a combination of core courses and electives and a final project or internship. Launched in the Fall of 2015, CES is the first of its kind in the nation. Admission is accepted on a rolling basis.

**Certificate Options:**

The MA in Critical Ethnic Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Critical Ethnic Studies + Digital Humanities Certificate
- Critical Ethnic Studies + Global Health Certificate
- Critical Ethnic Studies + Public Health Certificate
- Critical Ethnic Studies + Social and Cultural Foundations in Education
- Critical Ethnic Studies + Social Research Certificate
- Critical Ethnic Studies + Women's and Gender Studies Certificate
Learning Outcomes

Students will be able to:

- Demonstrate knowledge of critical approaches to ethnic studies through the study of the diverse racial and ethnic groups in the city of Chicago and the U.S. within a global context.
- Integrate diverse methodologies and approaches to the study of race and ethnicity in writing.
- Apply theories of racialization and ethnic formation to cultural, social and political issues and contexts.
- Create an ethical framework and strong sense of social responsibility by engaging normative questions and engaging in public service experiences.

Degree Requirements

Course Requirements

Core Courses

- CES 401 CRITICAL ETHNIC STUDIES
- CES 402 MOBILITY AND THE STATE
- CES 403 CITIES AND RACIAL FORMATION
- CES 404 BORDERS AND MIGRATION
- or INT 404 MIGRATION AND FORCED MIGRATION
- CES 405 RACE AND THE MEDIA
- or CMNS 563 MULTICULTURAL MEDIA REPRESENTATIONS

Choose One Theory/ Social Movements Course:

- INT 401 CRITICAL SOCIAL THEORY
- or SOC 466 SOCIAL MOVEMENTS
- or WGS 400 FEMINIST THEORIES
- or elective (with CES director permission)

Choose One Research Methods Course:

- CMNS 581 QUALITATIVE RESEARCH METHODS
- or HST 422 SEMINAR IN PRIMARY SOURCE ANALYSIS
- or SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- or SOC 411 SOCIAL RESEARCH
- or SOC 413 QUALITATIVE METHODS
- or WGS 491 METHODS AND SCHOLARSHIP IN WOMEN’S & GENDER STUDIES

Concentration Electives
Students must choose four elective courses in an area of concentration. Electives are defined as either 400-level courses or up to two 300-level courses in departments including but not limited to African and Black Diaspora Studies, English, Global Asian Studies, History, International Studies, Islamic World Studies, Latin American and Latino/a Studies, LGBTQ Studies, Sociology, Women's and Gender Studies, and courses in the College of Communication. These courses should be chosen in consultation with the CES director or final project advisor.

Final Project Requirements

CES 412 FINAL PROJECT INDEPENDENT RESEARCH

Students are asked to complete a final project, one that will represent a culmination of the student’s work in the program. All projects will consist of a rigorous piece of writing, either reflective, analytical, or expository. This piece of writing will draw upon the writing intensive skills developed in all their coursework. Final project options are as follows:

1. An original research thesis of up to 50–80 pages on a topic agreed upon by the student’s committee. The thesis may be comparative or focus on a single ethnic or racialized group through the use of intersectional methodologies.

2. A portfolio of three high-quality essays completed during the program, which are curated and linked together by a 20-page narrative setting out the intellectual rationale for their compilation.

3. A completed internship with a community organization in order to gain practical experience and a 20-page essay reflecting on the links between the student’s intellectual work and practical work experience.

4. An original creative project and a 15-20 page framing paper, in which the student describes, critically frames, and reflects on the creative project.

Combined Bachelor’s/ Master’s Degree

The combined Bachelor’s/Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

African and Black Diaspora Studies (BA)/ Critical Ethnic Studies (MA)

and

Latin American and Latino Studies (BA)/ Critical Ethnic Studies (MA)

Students apply to this program in spring of their junior year; interested students should contact the Critical Ethnic Studies (CES) graduate director. Students in this program take twelve graduate credit hours in their senior year; these graduate courses apply toward both undergraduate African and Black Diaspora Studies OR Latin American/Latino Studies and graduate Critical Ethnic Studies requirements.

In the senior year students complete:
CES 401 CRITICAL ETHNIC STUDIES

Two courses from:

- CES 402 MOBILITY AND THE STATE
- CES 403 CITIES AND RACIAL FORMATION
- CES 404 BORDERS AND MIGRATION
  or INT 404 MIGRATION AND FORCED MIGRATION
- CES 405 RACE AND THE MEDIA
  or CMNS 563 MULTICULTURAL MEDIA REPRESENTATIONS

Once the student has graduated with their undergraduate BA in African and Black Diaspora Studies or Latin American/Latino Studies, they will matriculate into the MA Program. As MA Students, the students take the remaining nine courses toward the MA degree – usually students will take three graduate courses per quarter in order to complete the MA in the one additional year. Students may also wish to take one of these courses during the summer. See MA degree requirements.

Curriculum Studies (EdD)

The Curriculum Studies Education Doctoral Program encourages educators to reflect on and strengthen their own practice and to challenge themselves and their colleagues to work effectively for social justice and educational excellence. Students use critical reflection to improve practice, engage in rigorous theoretical inquiry, and identify, address, and build coalitions around opportunities and problems in education.

Curriculum decision-making is a theoretically informed, practical, and dialogic activity. We encourage educators to seek the most defensible course of action in specific circumstances; this requires a thorough understanding of the sociocultural and political context and the analytical ability to think critically about broader purposes and consequences. We consider educators to be teachers not only in the classroom, but also in a variety of settings where they interact (including in higher education, community organizations, etc.). Educational environments, especially those in urban settings, are complex; creating viable options within them requires a rich knowledge base and the ability to think conceptually. Our program provides educators with a variety of theoretical perspectives to use in analyzing educational phenomena.

Graduates of the program may enter a new career or strengthen their current position in schools, universities or community organizations. They may assume faculty positions in higher education, take leadership positions in local and state education agencies, assume curriculum positions in school or community learning environments, or become leaders in educational policy.

Licensures and Endorsements

Superintendent Endorsement Option

Students pursuing a doctoral degree in Curriculum Studies are also eligible for the Superintendent Endorsement program, which requires additional coursework, along with four quarter hours for the superintendent internship course. ISBE states the following guidelines:

Individuals seeking the Superintendent endorsement must possess:

- a Master's degree with a GPA of 3.0 or better on a 4.0 scale
- proof of two years of teaching experience on a valid Illinois teaching license
- proof of two years of full-time administrative experience on a valid administrative license with the general administrative endorsement
- proof of passing the Basic Skills/TAP and Superintendent content-area tests.

Upon completion of the Superintendent program and the endorsement's additional requirements, students must apply for the endorsement. Students are to work with the College of Education's Licensure Officer when applying for the endorsement.

Teacher Leader Endorsement Option
Students pursuing a doctoral degree in Curriculum Studies are also eligible for the Teacher Leader Endorsement option, which requires additional coursework. To be eligible for the Teacher Leader endorsement program, students must possess:

- a bachelor's degree and master's degree from an accredited college or university,
- a valid teaching license
- at least two years of teaching experience
- proof of passing the Basic Skills or Test of Academic Proficiency.

**Principal Licensure**

Students pursuing a doctoral degree in Curriculum Studies are also eligible for the Principal Licensure program, which requires additional coursework. The Principal Licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

To be eligible for the Principal Licensure program, students possess:

- a master's degree from an accredited college or university with a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level.
- a valid Illinois teaching license
- at least two years of full-time successful teaching experience
- proof of passing the basic skills or test of academic proficiency.

**Concentrations**

- Curriculum Studies (degree only)
- Curriculum Studies plus Superintendent Endorsement
- Curriculum Studies plus Teacher Leader Endorsement
- Curriculum Studies plus Principal Licensure

<tbody>
<tr>
<td><strong>Total hours required</strong></td>
<td>76 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

**Students will be able to:**

- Understand major movements and discourses in curriculum history and connect these to current educational controversies and practices.
- Understand the strengths and weaknesses of a variety of assessment processes and design an assessment of a curriculum.
- Understand and select diverse theories and connect them to educational practices.
- Understand that any subject matter uses a variety of organizing principles and discursive structures and that the choices arising from this diversity are an important curricular resource.
- Undertake independent inquiry and use technology as one tool to assist him or her in the overall inquiry process.
- Evaluate how choices and actions affect students, parents and other professionals in the learning community to foster relationships with school colleagues, parents and agencies in the larger community.
- Understand curriculum as a profession, maintain standards of professional conduct, and provide leadership to improve curriculum, as well as students' learning and well-being.
- Understand and use technology effectively in curriculum and program design.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.
Degree Requirements

Students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of "C." Upon receiving a third grade of "C," students must retake the class in which the grade was received. Grades of "D" and "F" require that the course be retaken.

Course Requirements

Core Courses: 24 quarter hours required

- A&S 801 LEADERSHIP: THEORY AND PRACTICE
- CS 704 CURRICULUM DISCOURSES/PERSPECTIVES OVER TIME
- CS 751 CURRICULUM FOR HUMAN AND COMMUNITY DEVELOPMENT
- SCG 701 PHILOSOPHY OF ETHICS IN EDUCATION
- SCG 711 CULTURE, POWER AND EDUCATION
- SCG 721 HUMAN DEVELOPMENT AND THE EDUCATIONAL PROCESS

Research Courses: 20 quarter hours required

These courses are sequenced and must be taken in the following order:

- SCG 775 SEMINAR: FRAMEWORKS OF INQUIRY IN EDUCATIONAL RESEARCH I
- SCG 785 SEMINAR: FRAMEWORKS OF INQUIRY IN EDUCATIONAL RESEARCH II
- SCG 735 QUANTITATIVE RESEARCH METHODS I
- SCG 745 QUALITATIVE RESEARCH METHODS I
- Choose one subsequent research course from the following list:
  - SCG 755 QUANTITATIVE RESEARCH METHODS II
  - SCG 765 QUALITATIVE RESEARCH METHODS II

Elective Requirement: 4 quarter hours required

- One elective (4 quarter hours) from the following list:
  - Any doctoral course (700 or above) for which the student qualifies
  - SCG 527 GLOBAL ISSUES IN EDUCATION SEMINAR
  - SCG 611 PHILOSOPHICAL STUDIES IN EDUCATION, CULTURE AND ETHICS SEMINAR
  - CS 489 CREATIVITY AND CRITICAL THINKING - VYGOTSKY, BAKHTIN, MAKIGUCHI, IKEDA
  - CS 588 INDEPENDENT STUDY IN CURRICULUM STUDIES
  - A&S 598 INDEPENDENT STUDY IN EDUCATIONAL LEADERSHIP
  - BBE 404 LANGUAGE, LITERACY AND CULTURE
  - BBE 466 FIRST AND SECOND LANGUAGE ACQUISITION
  - BBE 406 SOCIOCULTURAL AND HISTORICAL PERSPECTIVES IN BILINGUAL EDUCATION
  - BBE 510 SPECIAL TOPICS IN LANGUAGE EDUCATION AND CULTURE
  - BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
  - BBE 530 LATINOS AND EDUCATION
  - Other options need to be approved by the Ed.D. Program

Concentration Courses: 20 quarter hours required

- Choose five courses from the following list:
  - CS 754 CURRICULUM THEORIZING: MULTIPLE LENSES
  - CS 761 ASSESSING SCHOOL CURRICULUM
  - CS 764 YOUTH DEVELOPMENT, IDEOLOGY, CULTURE, AND SOCIETY
  - CS 774 ENGAGING IN CURRICULUM DELIBERATION
  - CS 784 CURRICULUM AND PROGRAM DESIGN
  - CS 794 SPECIAL TOPICS IN CURRICULUM

Candidacy Course: non-credit, non-tuition

- CS 706 CANDIDACY PAPER

Dissertation Courses: 8 quarter hours required

- CS 849 SUPERVISED DISSERTATION PROPOSAL DEVELOPMENT
Principal Preparation Option

This Illinois State Board of Education approved program, is designed for licensed teachers who already hold a master's degree in education and are seeking principal licensure. The program offers a powerful, discipline-based curriculum with a problem-solving orientation that prepares effective and principled decision-makers. Graduates from the program are prepared to assume school and district administrative and supervisory roles.

Additional Program Requirements

An additional 44 quarter hours:

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 492 THE PRINCIPALSHIP
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 602 PRINCIPAL LICENSURE INTERNSHIP I (2 quarter hours)
- A&S 603 PRINCIPAL LICENSURE INTERNSHIP II (2 quarter hours)
- A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP
- A&S 694 SCHOOL FINANCE
- A&S 695 SCHOOL LAW
- CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES
- CS 493 CURRICULUM DEVELOPMENT AND ASSESSMENT IN K-12 SCHOOLS

Superintendent Option

Education doctoral students can pursue the Superintendent Endorsement, which is approved by the Illinois State Board of Education. Students must be admitted to the doctoral program in the College of Education and complete requirements of the program to qualify for the Superintendent Endorsement.

Additional Program Requirements

Curriculum Studies doctoral students must also complete the following courses along with the superintendent internship:

- A&S 803 SCHOOL PROGRAMS, PLANT AND HUMAN RESOURCES
- A&S 811 ASSESSMENT AND ACCOUNTABILITY
- A&S 823 COMMUNITY AND CONSENSUS BUILDING FOR SCHOOL IMPROVEMENT
- A&S 843 THE POLITICS OF SCHOOLING
- A&S 873 CURRENT TRENDS IN BUDGETING AND FINANCE
- A&S 883 SCHOOL LAW

Superintendent Internship Requirement:

- A&S 899 SUPERINTENDENT INTERNSHIP
Teacher Leader Option

This program is ideal for students who are educators in K-12 environments and are seeking leadership roles, excluding principalship. Such roles include, but are not limited to: curriculum specialists, coaches, mentor teachers, department chair or lead teachers, content specialists, teacher leaders charged with supervisor roles, and program leaders. The program meets the standards set forth by the state of Illinois for the endorsement of Teacher Leader.

Additional Program Requirements

Teacher Leader Core Courses: (10 courses, 40 quarter hours)

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 499 PLANNING FOR PROFESSIONAL DEVELOPMENT
- BBE 599 LEADERSHIP IN EDUCATING LINGUISTICALLY DIVERSE LEARNERS
- CS 470 TEACHERS AS LEADERS
- CS 473 ASSESSMENT
- CS 482 THE HISTORY OF CURRICULUM PRACTICE
- CS 488 CURRICULUM DESIGN

Curriculum Studies (EdS)

The Curriculum Studies Education Specialist Program encourages educators to reflect on and strengthen their own practice and to challenge themselves and their colleagues to work effectively for social justice and educational excellence. Students use critical reflection to improve practice, engage in rigorous theoretical inquiry, and identify, address, and build coalitions around opportunities and problems in education.

The EdS is situated between our existing master’s and doctoral degrees. It allows students wishing to continue their professional development to pursue classwork toward an advanced degree without the additional requirement of extensive, specialized training in research design and methods. Unlike almost all doctoral degrees, specialist degrees do not typically require a dissertation. Therefore, EdS students are not expected to engage in the in-depth research, analysis, and extensive conceptual and empirical framing required to research, write, and defend a dissertation.

Graduates of the EdS Program may enter a new career or strengthen their current position in schools, universities or community organizations. Potential professional opportunities for Education Specialists include adjunct and part-time faculty in higher education; curriculum specialists, directors of assessment, directors of instruction, and curriculum directors; P-12 teachers and teacher leaders, coaches, and mentors; and deans, administrators, and principals.

Licensures and Endorsements

Superintendent Endorsement Option

Students pursuing an EdS degree in Curriculum Studies are also eligible for the Superintendent Endorsement program, which requires additional coursework, along with four quarter hours for the superintendent internship course. ISBE states the following guidelines:

Individuals seeking the Superintendent endorsement must possess:
• a Master's degree with a GPA of 3.0 or better on a 4.0 scale
• proof of two years of teaching experience on a valid Illinois teaching license
• proof of two years of full-time administrative experience on a valid administrative license with the general administrative endorsement
• proof of passing the Basic Skills/TAP and Superintendent content-area tests.

Upon completion of the Superintendent program and the endorsement's additional requirements, students must apply for the endorsement. Students are to work with the College of Education's Licensure Officer when applying for the endorsement.

**Teacher Leader Endorsement Option**

Students pursuing a doctoral degree in Curriculum Studies are also eligible for the Teacher Leader Endorsement option, which requires additional coursework. To be eligible for the Teacher Leader endorsement program, students must possess:

• a bachelor's degree and master's degree from an accredited college or university,
• a valid teaching license
• at least two years of teaching experience
• proof of passing the Basic Skills or Test of Academic Proficiency.

**Principal Licensure**

Students pursuing a doctoral degree in Curriculum Studies are also eligible for the Principal Licensure program, which requires additional coursework. The Principal Licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

To be eligible for the Principal Licensure program, students must possess:

• a master's degree from an accredited college or university with a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level.
• a valid Illinois teaching license
• at least two years of full-time successful teaching experience
• proof of passing the basic skills or test of academic proficiency.

**Concentrations**

• Curriculum Studies (degree only)
• Curriculum Studies plus Superintendent Endorsement
• Curriculum Studies plus Teacher Leader Endorsement
• Curriculum Studies plus Principal Licensure

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>60 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>60 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

• Describe in writing and orally the complex, dynamic, and idiosyncratic problems and opportunities in education.
• Discuss the historical, psychological, and political constructs that shape relationships in schools and other educational contexts.
• Read, interpret, and synthesize scholarship in education as well as in Curriculum Studies.
Reflect upon course readings and apply theoretical models to strengthen their own practice.
Integrate interdisciplinary perspectives to inform their decisions and to help them shape the nature and improve the quality of educational institutions.
Apply program concepts to enhance their leadership, capacity for collaboration, and critical examination of society, educational institutions, and the learning process.
Understand curriculum as a profession, maintain standards of professional conduct, and provide leadership to improve curriculum, as well as students' learning and well-being.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on one's own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of the safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must complete all required classes and fulfill all expectations described in the appropriate degree requirements page of the Graduate Catalog to be cleared for the EdS degree. Students must submit a graduation application for the quarter in which they are completing the final course.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connect. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On-screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order.

Additional information about degree conferral and graduation can be found on the College of Education website.
Degree Requirements

Students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of "C." Upon receiving a third grade of "C," students must retake the class in which the grade was received. Grades of "D" and "F" require that the course be retaken.

Course Requirements

Core Courses: 24 quarter hours required

- A&S 801 LEADERSHIP: THEORY AND PRACTICE
- CS 704 CURRICULUM DISCOURSES/PERSPECTIVES OVER TIME
- CS 751 CURRICULUM FOR HUMAN AND COMMUNITY DEVELOPMENT
- SCG 701 PHILOSOPHY OF ETHICS IN EDUCATION
- SCG 711 CULTURE, POWER AND EDUCATION
- SCG 721 HUMAN DEVELOPMENT AND THE EDUCATIONAL PROCESS

Research Courses: 12 quarter hours required

These courses are sequenced and must be taken in the following order:

- SCG 775 SEMINAR: FRAMEWORKS OF INQUIRY IN EDUCATIONAL RESEARCH I
- Then choose two subsequent research courses from the following:
  - SCG 735 QUANTITATIVE RESEARCH METHODS I
  - SCG 745 QUALITATIVE RESEARCH METHODS I
  - SCG 755 QUANTITATIVE RESEARCH METHODS II
  - SCG 765 QUALITATIVE RESEARCH METHODS II

Elective Requirement: 4 quarter hours required

- One elective (4 quarter hours) from the following list:
  - Any doctoral course (700 or above) for which the student qualifies
  - SCG 527 GLOBAL ISSUES IN EDUCATION SEMINAR
  - SCG 611 PHILOSOPHICAL STUDIES IN EDUCATION, CULTURE AND ETHICS SEMINAR
  - CS 470 TEACHERS AS LEADERS
  - CS 472 ETHICS, CURRICULUM AND SOCIAL CHANGE
  - CS 473 ASSESSMENT
  - CS 481 THE STUDY OF TEACHERS AND TEACHING
  - CS 482 THE HISTORY OF CURRICULUM PRACTICE
  - CS 485 CURRICULUM/PROGRAM EVALUATION
  - CS 488 CURRICULUM DESIGN
  - CS 591 CURRICULUM THEORIZING: MULTIPLE LENSES
  - CS 489 CREATIVITY AND CRITICAL THINKING - VYGOTSKY, BAKHTIN, MAKIGUCHI, IKEDA
  - CS 588 INDEPENDENT STUDY IN CURRICULUM STUDIES
  - A&S 598 INDEPENDENT STUDY IN EDUCATIONAL LEADERSHIP
  - BBE 404 LANGUAGE, LITERACY AND CULTURE
  - BBE 466 FIRST AND SECOND LANGUAGE ACQUISITION
  - BBE 406 SOCIOCULTURAL AND HISTORICAL PERSPECTIVES IN BILINGUAL EDUCATION
  - BBE 510 SPECIAL TOPICS IN LANGUAGE EDUCATION AND CULTURE
  - BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
  - BBE 530 LATINOS AND EDUCATION
  - Other options need to be approved by the EdS Program

Concentration Courses: 20 quarter hours required

- Choose five courses from the following list:
  - CS 754 CURRICULUM THEORIZING: MULTIPLE LENSES
  - CS 761 ASSESSING SCHOOL CURRICULUM
  - CS 764 YOUTH DEVELOPMENT,IDEOLOGY, CULTURE, AND SOCIETY
  - CS 774 ENGAGING IN CURRICULUM DELIBERATION
Additional Options

- Principal Preparation
- Superintendent
- Teacher Leader

Principal Preparation Option

This Illinois State Board of Education approved program, is designed for licensed teachers who already hold a master's degree in education and are seeking principal licensure. The program offers a powerful, discipline-based curriculum with a problem-solving orientation that prepares effective and principled decision-makers. Graduates from the program are prepared to assume school and district administrative and supervisory roles.

Additional Program Requirements

An additional 44 quarter hours:

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 492 THE PRINCIPALSHIP
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 602 PRINCIPAL LICENSURE INTERNSHIP I (2 quarter hours)
- A&S 603 PRINCIPAL LICENSURE INTERNSHIP II (2 quarter hours)
- A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP
- A&S 694 SCHOOL FINANCE
- A&S 695 SCHOOL LAW
- CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES
- CS 493 CURRICULUM DEVELOPMENT AND ASSESSMENT IN K-12 SCHOOLS

Superintendent Option

Education EdS students can pursue the Superintendent Endorsement, which is approved by the Illinois State Board of Education. Students must be admitted to the doctoral program in the College of Education and complete requirements of the program to qualify for the Superintendent Endorsement.
Additional Program Requirements

Curriculum Studies EdS students must also complete the following courses along with the superintendent internship:

- A&S 803 SCHOOL PROGRAMS, PLANT AND HUMAN RESOURCES
- A&S 811 ASSESSMENT AND ACCOUNTABILITY
- A&S 823 COMMUNITY AND CONSENSUS BUILDING FOR SCHOOL IMPROVEMENT
- A&S 843 THE POLITICS OF SCHOOLING
- A&S 873 CURRENT TRENDS IN BUDGETING AND FINANCE
- A&S 883 SCHOOL LAW

Superintendent Internship Requirement:

- A&S 899 SUPERINTENDENT INTERNSHIP

Teacher Leader Option

This program is ideal for students who are educators in K-12 environments and are seeking leadership roles, excluding principalship. Such roles include, but are not limited to: curriculum specialists, coaches, mentor teachers, department chair or lead teachers, content specialists, teacher leaders charged with supervisor roles, and program leaders. The program meets the standards set forth by the state of Illinois for the endorsement of Teacher Leader.

Additional Program Requirements

Teacher Leader Core Courses: (10 courses, 40 quarter hours)

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 499 PLANNING FOR PROFESSIONAL DEVELOPMENT
- BBE 599 LEADERSHIP IN EDUCATING LINGUISTICALLY DIVERSE LEARNERS
- CS 470 TEACHERS AS LEADERS
- CS 473 ASSESSMENT
- CS 482 THE HISTORY OF CURRICULUM PRACTICE
- CS 488 CURRICULUM DESIGN

Curriculum Studies (MA or MEd)

Curriculum Studies programs at DePaul share a commitment to social justice, democracy, and critical engagement with issues affecting urban and marginalized students. Our programs assist educators in reflecting on and strengthening their own practice and challenging themselves and their colleagues to work effectively for justice and educational excellence. Students use critical reflection to improve practice, engage in rigorous theoretical inquiry, and identify, address, and build coalitions around opportunities and problems in education. The Curriculum Studies program is designed for educators who wish to enhance their skills in teaching, curriculum development, or the administration of a department or educational program. It aims to equip leaders in a variety of educational settings with the skills necessary to develop, justify, evaluate, and modify curricula to better serve the needs of students, especially urban and marginalized students.
MA Degree

Students who are interested in doctoral studies often pursue a Master of Arts degree to further hone their skills in research and scholarly writing.

A Master of Arts degree is distinguished by the preparation of a master's thesis. The master's thesis provides the culminating experience for students and allows them to explore the relationship between theory, educational practice, and educational inquiry.

The general purposes of the master's thesis are to demonstrate an ability to engage in research, critically analyze and explicate, in a well-documented, organized and coherent manner, an (educational) issue, problem(s) or question(s); to demonstrate knowledge in a substantive area in the field; and to prepare to conduct further independent research.

MEd Degree/ Endorsement Options

Within this framework, the Curriculum Studies Program offers two degree programs to meet students' professional goals. These concentrations include a set of core classes with the opportunity for electives. Approved degree programs are MEd-Curriculum Specialist and MEd-Curriculum Studies with Teacher Leader Endorsement.

In addition, Curriculum Studies offers an option for students seeking the Teacher Leader Endorsement only (for students who already hold a master's degree).

MEd-Curriculum Specialist

This degree program allows teacher/practitioners to take the full range of curriculum studies courses. It is designed for those who wish to develop their understanding of curriculum history, theory, development, evaluation, the relationship between theory and practice, and the intersection of teaching and curriculum. This concentration serves as a solid foundation for those wishing to enhance their professional knowledge-base and their teaching, teachers interested in serving as curricular and instructional leaders, and those working within other educational programs where a knowledge of curriculum history, theory, practice, design, and evaluation are central to their work. (See specific concentration requirements)

MEd-Curriculum Studies with Teacher Leader Endorsement

This degree program is a cross-disciplinary program, housed in the Department of Leadership, Language and Curriculum (LLC) and run jointly by Curriculum Studies and Educational Leadership. It provides practicing teachers who desire to take on the myriad leadership roles in the local school community with the knowledge base of leadership and curriculum that will allow them to be effective and competent leaders. The program meets the standards set forth by the State of Illinois for the Endorsement of "Teacher Leader."

Teacher Leader Endorsement Only

This non-degree program allows students who already have a master's degree to obtain an ISBE Teacher Leader Endorsement. Please review the curriculum and requirements under the College of Education Licensure section of this catalog.

Learning Outcomes

Students will be able to:

- Understand pedagogy as a project aimed at helping to realize the greatest range of possibilities for all youth irrespective of difference.
- Understand and select diverse theories and connect them to educational practices.
- Understand that the subject matter he or she teaches uses a variety of organizing principles and discursive structures and that the choices arising from this diversity are an important curricular resource.
- Undertake independent inquiry and use technology as one tool to assist him or her in the overall inquiry process.
- Evaluate how choices and actions affect students, parents and other professionals in the learning community to foster relationships with school colleagues, parents and agencies in the larger community.
- Understand teaching as a profession, maintain standards of professional conduct, and provide leadership to improve curriculum, as well as students' learning and well-being.
- Understand and use technology effectively in teaching and curricular design.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then
Degree Requirements

Course Requirements

Core Curriculum Courses: 32 quarter hours (8 courses) required, grade of C or better required

- CS 470 TEACHERS AS LEADERS (Offered every year)
- CS 472 ETHICS, CURRICULUM AND SOCIAL CHANGE (Offered every other year)
- CS 473 ASSESSMENT (Offered every other year)
- CS 481 THE STUDY OF TEACHERS AND TEACHING (Offered every Fall, required during 1st year)
- CS 482 THE HISTORY OF CURRICULUM PRACTICE (Offered every other year)
- CS 485 CURRICULUM/PROGRAM EVALUATION (Offered every other year)
- CS 488 CURRICULUM DESIGN (Offered every other year)
- CS 489 CREATIVITY AND CRITICAL THINKING - VYGOTSKY, BAKHTIN, MAKIGUCHI, IKEDA (Offered every other year)
- CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES (Offered every other year)
- CS 591 CURRICULUM THEORIZING: MULTIPLE LENSES (Offered every year)

Electives: 8 quarter hours (2 courses) required, grade of C or better required

- 2 Master’s-level courses, chosen in consultation with CS faculty advisor

Social and Cultural Studies Courses: 8 quarter hours (2 courses) required, grade of C or better required

- SCG 610 INTRODUCTION TO RESEARCH METHODS (preferred)
  or SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES (only if SCG 610 not offered or full)
- Choose one course from the following list:
  - SCG 604 IDENTITY: CONSTRUCTIONS AND NEGOTIATIONS SEMINAR (preferred) or SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY (only if SCG 604 not offered or full)
  - SCG 608 IDEOLOGY, POWER AND POLITICS SEMINAR (preferred)
    or SCG 408 EDUCATION AND SOCIETY (only if SCG 608 not offered or full)
  - SCG 603 CULTURE AND EDUCATION SEMINAR (preferred)
    or SCG 409 SOCIOLOGY OF EDUCATION (only if SCG 603 not offered or full)
  - SCG 611 PHILOSOPHICAL STUDIES IN EDUCATION, CULTURE AND ETHICS SEMINAR (preferred)
    or SCG 411 PHILOSOPHY OF EDUCATION (only if SCG 611 not offered or full)

Choose one: Thesis (M.A.) or Capstone (M.Ed):

- Master of Arts (M.A.) Degree Requirements: 4 quarter hours, grade of C or better required
  - CS 589 THESIS RESEARCH IN CURRICULUM STUDIES (4 quarter hours)
The Master's Thesis is completed in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the M.A. Thesis Handbook for additional information.

- **Master of Education (M.Ed.) Degree Requirements: 4 quarter hours, grade of C or better required**
  - CS 580 RESEARCH SEMINAR IN CURRICULUM STUDIES (4 quarter hours, M.Ed. degree only)
  - CS 606 REVIEW OF LITERATURE (non-credit, non-tuition, PA grade required)
  - CS 607 INTEGRATIVE PAPER (non-credit, non-tuition, PA grade required)

Review of Literature and Integrative Paper completed in conjunction with faculty advisement.

**Academic Standards**

Students must maintain a 3.0 average or higher to continue in the program. Any grade below a C will not count for credit toward completion of the program.

**Curriculum Studies with Teacher Leader Endorsement**

**Course Requirements (13 courses, 52 qh)**

**Core Teacher Leader Core Courses: 40 quarter hours (10 courses) required, grade of C or better required**

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 499 PLANNING FOR PROFESSIONAL DEVELOPMENT
- CS 470 TEACHERS AS LEADERS
- CS 473 ASSESSMENT
- CS 482 THE HISTORY OF CURRICULUM PRACTICE
- CS 488 CURRICULUM DESIGN
- BBE 599 LEADERSHIP IN EDUCATING LINGUISTICALLY DIVERSE LEARNERS

**Sub-Specialization (2 courses)**

Elective Course Sequence: 8 quarter hours, choose 2 courses beyond the core coursework, students will be allowed to elect a sub-specialization from among the following graduate program areas:

**Administrative Concentration Option**

- A&S 495 SCHOOL LAW
- A&S 496 STAKEHOLDER RELATIONSHIPS

**Curriculum Studies Concentration Option**

- CS 481 THE STUDY OF TEACHERS AND TEACHING
- CS 591 CURRICULUM THEORIZING: MULTIPLE LENSES

**Bilingual Bicultural Concentration Option**

- BBE 404 LANGUAGE, LITERACY AND CULTURE
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE

**Foundations Concentration (SCG) Option**

- Two advanced standing courses to be determined by the program faculty.

*Strongly encouraged for CS master’s students

**Capstone Course Requirement (1 course)**

Students are required to take the 4qh Capstone Course below. This site-based practicum combined with classroom based instruction support students as they demonstrate and put into practice their leadership skills in an educational setting.
Custom MBA (MBA)

The Custom MBA concentration provides you with the flexibility to create your own MBA focus based on your unique career goals. This degree is ideal if you want to combine a set of electives that are tailored to the precise skill set you need to advance in your career, or if you have multiple interests that you would like to combine. If you do not declare a specific concentration at the beginning of the program, you will be assigned the Custom MBA concentration.

Highlights

In this concentration:

- You have the freedom to choose any fourkelstadt elective courses to earn the Custom MBA concentration after completing your core MBA courses.
- Electives are available in a wide range of subjects and disciplines, from accountancy, finance, economics and real estate, to management, marketing and hospitality leadership.
- Academic advisors are available to help you design your course of study to meet your career goals.

Career Outlook

Recruiter surveys indicate a positive career outlook for MBA graduates. Nine in 10 companies that intend to hire MBA candidates said they will hire as many or more in 2015 than they did the year before, according to a survey of employers conducted by the Graduate Management Admission Council.

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.
MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.
Concentration Requirements

Students complete the concentration in Custom MBA by completing any four elective courses offered by the Kellstadt Graduate School of Business.

With this option the student is free to choose elective courses from among the different areas of study within the graduate school of business without concern for whether these courses satisfy the requirements of a specific concentration.

If a student does not declare a specific concentration, the student will be assigned the Custom MBA concentration at the beginning of the program.

Cybersecurity (MS)

The MS in Cybersecurity is intended for students who wish to specialize in the security aspects of Information Technology. Students will learn how to design, implement and maintain software systems designed to support security policy and network architecture consistent with mitigating risk and preventing hostile attacks.

Concentrations

Computer Security Concentration

The Computer Security concentration focuses on fundamental security topics that arise in the design, analysis, and implementation of distributed systems. This concentration provides in-depth coverage of the theory and application of identity, authentication, access control, auditing, assessment & prevention of software vulnerabilities, and cryptography, in the context of modern enterprise-scale & web-based systems.

Networking and Infrastructure Concentration

The Networking and Infrastructure concentration focuses on the network infrastructure and network security management aspects of information security. This concentration will provide in-depth coverage of network security infrastructure technologies such as firewalls, Virtual Private Networks (VPN), Intrusion Detection and Prevention Systems (IDS/IPS), vulnerability assessment tools, as well as overall security infrastructure engineering and design.

Governance, Risk Management and Compliance Concentration

The Governance, Risk, and Compliance concentration focuses on enterprise-level information security risk management, IT audit, and regulatory compliance. This cross-disciplinary concentration focuses on how to develop an information security program; assess security risk in business processes; identify and implement a system of controls for security governance and regulatory compliance; plan and conduct IT audits; and develop business continuity and disaster recovery plans.

</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

- List and briefly describe security risks and mitigation strategies for an organization that is about to connect its network to the Internet and communicate with other companies via email.
- Explain the differences between the three major goals of information security:
  - Confidentiality
  - Integrity
  - Availability
- List and explain one technique for ensuring each
- Provide three examples of security awareness media and list target audiences for each medium.
- Explain how public key cryptography can be used to ensure the identity of the sender of an encrypted message.
- Describe the significant differences between security considerations for email over a public network and encrypted traffic over a wireless local area network.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

The Introductory, Foundation, Advanced and Major Elective course selections are determined by the concentration chosen.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Foundation Courses

Students must achieve an average GPA of 3.0 or better in the five Foundation Courses. Students who do not meet the Foundation Courses' GPA requirement must retake the course with the lowest grade. If a number of such courses exist, it is up to the student to choose which class to retake. Only the higher grade will count toward the average grade for the purpose of completing the GPA Requirement. Students who do not meet the GPA requirements are encouraged to talk to their faculty advisor to discuss their options. To progress to the Advanced Courses of the degree, a student must complete the Introductory and Foundation Courses.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Achieve a GPA of 3.0 or better among the five foundation courses.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was
already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.

- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Computer Security
- Governance, Risk Management and Compliance
- Networking and Infrastructure

**Networking and Infrastructure Concentration**

**Introductory Courses**

- TDC 411 INTRODUCTION TO COMPUTER AND NETWORK SYSTEMS
- TDC 413 INTRODUCTION TO LAN AND WAN
- TDC 405 VOICE AND DATA NETWORK FUNDAMENTALS
- CNS 418 INTRODUCTION TO HOST SECURITY

**Foundation Courses**

- CNS 450 DIGITAL FORENSIC TECHNIQUES
- TDC 463 COMPUTER NETWORKS AND DATA SYSTEMS
- TDC 477 NETWORK SECURITY
- CNS 440 INFORMATION SECURITY MANAGEMENT
- CNS 477 GOVERNANCE POLICIES IN INFORMATION ASSURANCE

**Advanced Courses**

A maximum of four Advanced Courses can be taken before completing the Foundation Courses and fulfilling the GPA Requirement.

- CNS 488 SECURITY TESTING AND ASSESSMENT
- CNS 533 ENTERPRISE SECURITY INFRASTRUCTURE CONTROLS AND REGULATORY COMPLIANCE
- TDC 577 NETWORK SECURITY II

Choose 2 of the following courses:

- Any 400 or 500-level CNS course that is not already a requirement in the degree.
- IS 444 IT AUDITING
- IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES
- IS 506 BUSINESS CONTINUITY/DISASTER RECOVERY MANAGEMENT AND TACTICS
- TDC 563 PROTOCOLS AND TECHNIQUES FOR DATA NETWORKS

**Major Elective Courses**

Students must complete 1 CNS course in the range of 420 or higher or a course from the list of courses.
below. That course cannot be used to fulfill a student's CINS Concentration Area or Foundation Courses requirements.

- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 424 ADVANCED DATA ANALYSIS
- CSC 433 SCRIPTING FOR DATA ANALYSIS
- CSC 436 WEB APPLICATIONS
- CSC 438 FRAMEWORK FOR WEB APPLICATION DEVELOPMENT
- CSC 439 COMPUTER SECURITY
- CSC 440 CRYPTOLOGY
- CSC 465 DATA VISUALIZATION
- CSC 478 PROGRAMMING MACHINE LEARNING APPLICATIONS
- CSC 536 DISTRIBUTED SYSTEMS II
- CSC 557 FOUNDATIONS OF COMPUTER SECURITY
- ECT 582 SECURE ELECTRONIC COMMERCE
- IS 444 IT AUDITING
- IS 467 FUNDAMENTALS OF DATA SCIENCE
- IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES
- IS 506 BUSINESS CONTINUITY/DISASTER RECOVERY MANAGEMENT AND TACTICS
- SE 433 SOFTWARE TESTING AND QUALITY ASSURANCE
- SE 441 CONTINUOUS DELIVERY AND DEVOPS
- SE 452 OBJECT-ORIENTED ENTERPRISE COMPUTING
- SE 482 REQUIREMENTS ENGINEERING
- SE 525 SOFTWARE SECURITY ARCHITECTURE
- SE 526 SOFTWARE SECURITY ASSESSMENT
- SE 529 SOFTWARE RISK MANAGEMENT
- TDC 460 FOUNDATIONS OF NETWORK TECHNOLOGIES
- TDC 511 TELECOMMUNICATIONS PRACTICUM
- TDC 560 ADVANCED NETWORK TECHNOLOGIES AND DESIGN
- TDC 562 COMPUTER-COMMUNICATION NETWORK DESIGN & ANALYSIS
- TDC 563 PROTOCOLS AND TECHNIQUES FOR DATA NETWORKS
- TDC 567 TELECOMMUNICATION SYSTEMS DESIGN AND MANAGEMENT
- TDC 568 NETWORK MANAGEMENT
- TDC 577 NETWORK SECURITY II

CDM Open Elective Courses

Students must complete 1 CDM open electives. Elective courses must be within the range of 421-699 and must be chosen among CSC, CNS, TDC, SE, IS, ECT, IT, PM, IPD, HIT, HCI, and GAM courses.

Capstone Options

Students have the option of completing the Information Security Governance course (4 credit hours) or the Computer, Information and Network Security Capstone course (4 credit hours) or completing a Master's Research Project (up to 8 credit hours) to fulfill their Capstone requirement. If a student chooses to complete a Master's Research project for 8 credit hours, 4 credit hours of CSC 695 replace one major or open elective course in the M.S. in Computer, Information, and Network Security program. A student who completes a Master's Research project also has the option of completing a Master's Thesis.

Information Security Governance Course

- CNS 587 INFORMATION SECURITY GOVERNANCE

Computer Information and Network Security Capstone Course

- CNS 594 COMPUTER INFORMATION AND NETWORK SECURITY CAPSTONE

Master's Research

- Students interested in a more-in-depth study of a particular area can choose to work with a faculty member (not necessarily their academic advisor) on an independent study or research project. The student will register for up to 8 credit hours of CSC 695 MASTER'S RESEARCH. If a student chooses to complete a Master's Research project for 8 credit hours, 4 credit hours of CSC 695 replace one more or open elective course in the M.S. in Computer, Information and Network Security program.

Master's Thesis

- A student who has made an original contribution to the area (typically, through work done by CSC 695 MASTER'S RESEARCH) may choose to complete a Master's Thesis. The student and the student's research
Advisor should form a Master's Thesis Committee of 3 faculty. The student will need to submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis. In that case, the student will be allowed to register for the 0 credit course CSC 698 MASTER'S THESIS and the transcript will show the thesis title as the course topic.

Governance, Risk Management and Compliance Concentration

Introductory Courses

- IT 403 STATISTICS AND DATA ANALYSIS
- TDC 411 INTRODUCTION TO COMPUTER AND NETWORK SYSTEMS
- CNS 418 INTRODUCTION TO HOST SECURITY

Foundation Courses

- CNS 450 DIGITAL FORENSIC TECHNIQUES
- CNS 440 INFORMATION SECURITY MANAGEMENT
- CNS 477 GOVERNANCE POLICIES IN INFORMATION ASSURANCE
- IS 444 IT AUDITING
- IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES

Advanced Courses

A maximum of four (4) Advanced Courses can be taken before completing the Foundation Courses and fulfilling the GPA Requirement.

- CNS 533 ENTERPRISE SECURITY INFRASTRUCTURE CONTROLS AND REGULATORY COMPLIANCE
- IS 560 ENTERPRISE SYSTEMS
- Choose one (1) of the following courses:
  - CNS 490 INFORMATION SECURITY RISK ASSESSMENT FOR NON-PROFIT ORGANIZATIONS
  - IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
  - IS 483 INFORMATION SERVICES AND OPERATIONS

Major Elective Courses

Students must complete three (3) CNS courses in the range of 420 or higher or courses from the list of courses below. Those courses cannot be used to fulfill a student's CINS Concentration Area or Foundation Courses requirements.

- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 424 ADVANCED DATA ANALYSIS
- CSC 433 SCRIPTING FOR DATA ANALYSIS
- CSC 436 WEB APPLICATIONS
- CSC 438 FRAMEWORK FOR WEB APPLICATION DEVELOPMENT
- CSC 439 COMPUTER SECURITY
- CSC 440 CRYPTOLOGY
- CSC 465 DATA VISUALIZATION
- CSC 478 PROGRAMMING MACHINE LEARNING APPLICATIONS
- CSC 536 DISTRIBUTED SYSTEMS II
- CSC 557 FOUNDATIONS OF COMPUTER SECURITY
- ECT 582 SECURE ELECTRONIC COMMERCE
- IS 444 IT AUDITING
- IS 467 FUNDAMENTALS OF DATA SCIENCE
- IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES
- IS 506 BUSINESS CONTINUITY/DISASTER RECOVERY MANAGEMENT AND TACTICS
- SE 433 SOFTWARE TESTING AND QUALITY ASSURANCE
- SE 441 CONTINUOUS DELIVERY AND DEVOPS
- SE 452 OBJECT-ORIENTED ENTERPRISE COMPUTING
- SE 482 REQUIREMENTS ENGINEERING
- SE 525 SOFTWARE SECURITY ARCHITECTURE
- SE 526 SOFTWARE SECURITY ASSESSMENT
Computer Security Concentration

Course Requirements

Introductory Courses

- CSC 400 DISCRETE STRUCTURES FOR COMPUTER SCIENCE
- CSC 401 INTRODUCTION TO PROGRAMMING
- CSC 402 DATA STRUCTURES I
- CSC 403 DATA STRUCTURES II
- CSC 406 SYSTEMS I
- CSC 407 SYSTEMS II

Foundation Courses

- CSC 435 DISTRIBUTED SYSTEMS I
- SE 450 OBJECT-ORIENTED SOFTWARE DEVELOPMENT
- TDC 477 NETWORK SECURITY
- CNS 440 INFORMATION SECURITY MANAGEMENT
- CNS 450 DIGITAL FORENSIC TECHNIQUES

Advanced Courses

- CSC 439 COMPUTER SECURITY
- Choose two of the following:
  - CSC 440 CRYPTOLOGY
  - SE 525 SOFTWARE SECURITY ARCHITECTURE
  - SE 526 SOFTWARE SECURITY ASSESSMENT
  - TDC 577 NETWORK SECURITY II
- Choose 1 of the following courses (not counting courses taken to satisfy the requirements above):
  - CNS 477 GOVERNANCE POLICIES IN INFORMATION ASSURANCE
  - CSC 440 CRYPTOLOGY
  - SE 482 REQUIREMENTS ENGINEERING
  - SE 525 SOFTWARE SECURITY ARCHITECTURE
Major Elective Courses

Students must complete **1 CINS course in the range of 420 or higher or** a course from the list of courses below. That course cannot be used to fulfill a student's CINS Concentration Area or Foundation Course requirements.

- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 424 ADVANCED DATA ANALYSIS
- CSC 433 SCRIPTING FOR DATA ANALYSIS
- CSC 436 WEB APPLICATIONS
- CSC 438 FRAMEWORK FOR WEB APPLICATION DEVELOPMENT
- CSC 439 COMPUTER SECURITY
- CSC 440 CRYPTOLOGY
- CSC 465 DATA VISUALIZATION
- CSC 478 PROGRAMMING MACHINE LEARNING APPLICATIONS
- CSC 536 DISTRIBUTED SYSTEMS II
- CSC 557 FOUNDATIONS OF COMPUTER SECURITY
- ECT 582 SECURE ELECTRONIC COMMERCE
- IS 444 IT AUDITING
- IS 467 FUNDAMENTALS OF DATA SCIENCE
- IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES

- SE 529 SOFTWARE RISK MANAGEMENT
- TDC 460 FOUNDATIONS OF NETWORK TECHNOLOGIES
- TDC 511 TELECOMMUNICATIONS PRACTICUM
- TDC 560 ADVANCED NETWORK TECHNOLOGIES AND DESIGN
- TDC 562 COMPUTER-COMMUNICATION NETWORK DESIGN & ANALYSIS
- TDC 563 PROTOCOLS AND TECHNIQUES FOR DATA NETWORKS
- TDC 567 TELECOMMUNICATION SYSTEMS DESIGN AND MANAGEMENT
- TDC 568 NETWORK MANAGEMENT
- TDC 577 NETWORK SECURITY II

CDM Open Elective Courses

Students must complete 2 CDM open electives. Elective courses must be within the range of 421-699 and must be chosen among CSC, CNS, TDC, SE, IS, ECT, IT, PM, IPD, HIT, HCI, and GAM courses.

Capstone Options

Students have the option of completing the Information Security Governance course (4 credit hours) or the Computer, Information and Network Security Capstone course (4 credit hours) or completing a Master's Research Project (up to 8 credit hours) to fulfill their Capstone requirement. If a student chooses to complete a Master's Research project for 8 credit hours, 4 credit hours of CSC 695 replace one major or open elective course in the M.S. in Computer, Information, and Network Security program. A student who completes a Master's Research project also has the option of completing a Master's Thesis.

Information Security Governance Course
Computer, Information and Network Security Capstone Course

- CNS 587 INFORMATION SECURITY GOVERNANCE
- CNS 594 COMPUTER INFORMATION AND NETWORK SECURITY CAPSTONE

Master's Research

- Students interested in a more-in-depth study of a particular area can choose to work with a faculty member (not necessarily their academic advisor) on an independent study or research project. The student will register for up to 8 credit hours of CSC 695 MASTER'S RESEARCH. If a student chooses to complete a Master's Research project for 8 credit hours, 4 credit hours of CSC 695 replace one more or open elective course in the M.S. in Computer, Information and Network Security program.

Master's Thesis

- A student who has made an original contribution to the area (typically, through work done by CSC 695 MASTER'S RESEARCH) may choose to complete a Master's Thesis. The student and the student's research advisor should form a Master's Thesis Committee of 3 faculty. The student will need to submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis. In that case, the student will be allowed to register for the 0 credit course CSC 698 MASTER'S THESIS and the transcript will show the thesis title as the course topic.

Digital Communication and Media Arts (MA)

The Digital Communication and Media Arts program will teach students how digital technology has affected communication and artistic practices, and how to effect change in communication and artistic practices through the integration of digital technology. The learning goals for the MA in Digital Communication and Media Arts are grounded in both practice and theory. By taking advantage of the wealth of courses that focus on digital communication and digital technology in the College of Communication and the College of Computing and Digital Media, the degree program provides students an opportunity to experience and apply digital technology in multiple professions.

The Master of Arts in Digital Communication and Media Arts integrates multiple topics all centered on the way contemporary technology is changing communication practices, for a truly interdisciplinary degree program. This is a practical degree, in that it teaches students skills utilizing technology, while giving them the critical tools to become better communicators in a digital environment.

Students choose between two tracks: The Digital Communication track is offered through the College of Communication, while the Media Arts track is offered through the College of Computing and Digital Media.

</tbody>
</table>
Learning Outcomes

Students will be able to:

- Explain how digital technology has affected communication practices across a range of subjects and disciplines.
- Compare new technological practices and evaluate changes in technological practices across a range of communication subjects.
- Demonstrate key competencies in video production, audio production, graphic design, and other technologies within digital media arts.
- Identify the underlying ethical issues that the advent of digital technology has brought to contemporary society.
- Develop professional-level communication and technological practices in digital environments.

Degree Requirements

Course Requirements

No Introductory course may be substituted for any other course at any level. Foundation, Advanced, and Elective course selections are determined by the concentration chosen.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area, if such an examination is available.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.
Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Media Arts
- Digital Communication

Digital Communication and Media Arts (MA)

The Digital Communication and Media Arts program will teach students how digital technology has affected communication and artistic practices, and how to effect change in communication and artistic practices through the integration of digital technology. The learning goals for the MA in Digital Communication and Media Arts are grounded in both practice and theory. By taking advantage of the wealth of courses that focus on digital communication and digital technology in the College of Communication and the College of Computing and Digital Media, the degree program provides students an opportunity to experience and apply digital technology in multiple professions.

The Master of Arts in Digital Communication and Media Arts integrates multiple topics all centered on the way contemporary technology is changing communication practices, for a truly interdisciplinary degree program. - Demonstrate key competencies in video production, audio production, graphic design, and other technologies within digital media arts.
- Identify the underlying ethical issues that the advent of digital technology has brought to contemporary society.
- Develop professional-level communication and technological practices in digital environments.
Degree Requirements

Course Requirements
Specific course requirements are determined by the concentration chosen. Please see each concentration page for detailed information.

Degree Requirements
Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required competency courses of the designated concentration.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 3.00 or higher.

Digital Communication Concentration

Course Requirements
The Digital Communication track requires an Introductory Competency course (4 credit hours) plus 13 courses (52 credit hours): four core courses and nine elective courses and a degree completion option.

Introductory Competency Course*
Students choose one course:

- DMA 402 INTRO TO VISUAL COMMUNICATIONS
- DMA 405 INTRO TO INTERACTIVE MEDIA DESIGN

*Evaluation of the Introductory Competency course will follow standard CDM practice. All or part of the Introductory Competency course may be waived if a student has the equivalent academic background, or can demonstrate core technology competency.

Students may take an additional competency course as a Media Arts elective.

Core Courses
Students are required to take all of the following:

- CMNS 570 INTRODUCTION TO DIGITAL CMN
- DMA 527 CREATIVE PROCESS AND STRATEGY
Digital Elective Courses

Students are required to take at least one elective course that focuses on digital technology from each area: MCS, JOUR, and PRAD. Students must take two media arts electives (from the College of Computing and Digital Media). Students must also take four additional courses (two if student chooses the Master’s Project degree completion option, taking DMA 695 and MCS 599), either from another College of Communication graduate program, the College of Computing and Digital Media, the pre-approved outside electives, or in another department/college at DePaul. Outside electives must be approved by graduate advisor or program director.

Example Communication Electives (with digital technology focus)

- JOUR 502 NEWS NOW: JOURNALISM IN THE INFORMATION AGE
- JOUR 503 REPORTING FOR CONVERGED NEWSROOMS
- JOUR 504 MULTIMEDIA NEWS PRODUCTION
- JOUR 507 VISUAL COMMUNICATION
- JOUR 520 DATA JOURNALISM
- JOUR 523 ONLINE SPORTS REPORTING
- JOUR 529 ONLINE NEWS BUREAU
- JOUR 531 JOURNALISM BY NUMBERS
- JOUR 536 SPORTS BLOGGING
- JOUR 537 FROM FRANKLIN TO THE INTERNET: A HISTORY OF AMERICAN JOURNALISM
- JOUR 538 MASS COMMUNICATION IN THE DIGITAL AGE
- JOUR 540 THE INTERNET, TECHNOLOGY, AND POLITICS
- JOUR 542 SOCIAL MEDIA AND THE NEWS
- JOUR 544 ENTREPRENEURIAL JOURNALISM
- JOUR 588 REPORTING FOR 14 EAST MAGAZINE
- MCS 520 TOPICS IN MEDIA STUDIES *
- MCS 530 NEW MEDIA AND CULTURE
- MCS 541 AUDIO DOCUMENTARY
- MCS 550 FANDOM AND ACTIVE AUDIENCES
- PRAD 521 PUBLIC RELATIONS MEASUREMENT AND DATA ANALYTICS
- PRAD 562 MEDIA RELATIONS
- PRAD 595 SPECIAL TOPICS IN PUBLIC RELATIONS & ADVERTISING **

* Topics must be approved by graduate program director. Some examples of topics include: Alternate Reality Gaming, Communication and Technology, Complex Narratives, Creativity in Practice, Digital Media Campaigns, Mass Communication in the Digital Age, Race, Class, & Gender In the Digital Age, Teaching Media Literacy.

** Topics must be approved by graduate program director. Some examples of topics include: Brand and Business Impact of Digital Media, Content Strategy for PR and Advertising, Creating Effective Social Media, Creative and Critical Thinking, Data Driven Marketing (Big Data), Digital Media Campaigns, Digital and Social Media for PR, Social Media and Culture.

Example Media Arts Electives

- DMA 410 DESIGN WORKSHOP
- DMA 415 AUDIO WORKSHOP
- DMA 425 STILL IMAGE WORKSHOP
- DMA 475 MOVING IMAGE WORKSHOP
- DMA 480 WEB/MEDIA DELIVERY WORKSHOP
- DMA 490 PORTFOLIO

Pre-Approved Outside Electives

Students will have the option to take pre-approved elective courses in either Writing, Rhetoric and Discourse (WRD) or Art, Media, and Design (AMD) as part of their additional electives, allowing students to develop an enriched focus.

Writing, Rhetoric and Discourse

- WRD 524 DOCUMENT DESIGN
- WRD 525 WRITING FOR THE WEB
- WRD 530 TOPICS IN PROFESSIONAL AND DIGITAL WRITING
- WRD 531 DIGITAL STORYTELLING
- WRD 532 CONTENT STRATEGY
- WRD 533 WRITING ACROSS MEDIA
Art, Media, and Design

- ART 405 ADVANCED ART STUDIO
- ART 427 DIGITAL ART
- ART 460 WEB ART AND DESIGN
- ART 461 PHOTOGRAPHY AND MEDIA ART
- ART 489 VIDEO ART
- ART 490 ADVANCED TOPICS IN ART, MEDIA AND DESIGN (topic approval required)

Students who want to switch between DCMA tracks should be aware that some completed courses in one track may not count towards the requirements of the other. If a student is considering switching tracks, they should consult their advisor and graduate director for assistance.

Completion Options

**Comprehensive Exam**

Students complete a three-part comprehensive exam based on questions derived from a minimum of one College of Communication core course (CMNS 570 or MCS 575) and two additional courses pulled from either the other core course and/or from the College of Communication elective courses.

**Graduate Scholarly Paper/Project**

In consultation with a faculty member in the College of Communication (a professor with whom the student has had a class), the student should choose a paper or project they did for that professor's course. This paper/project should be something to which the student wishes to expand upon or devote more time. This option is available to students holding a 3.5 GPA or higher and who have completed at least 10 courses (40 credit hours) in their program.

**Master's Project**

Two project courses (DMA 695 and MCS 599) replace two additional elective classes. Students will enroll in MCS 599 in the quarter they defend their project. The student will create an original project (i.e., web- or film-based projects, or projects related to professional or educational organizations) and a 30- to 40-page accompanying written report/analysis. This option is available to students holding a 3.7 GPA or higher and who have completed at least 6 courses (24 credit hours) in their program.

**Grade Requirements**

Students must maintain a minimum cumulative GPA of 3.000 in their graduate courses to remain in good academic standing. Students who do not meet this minimum cumulative requirement will be placed on academic probation and will be expected to attain the minimum cumulative requirement within two quarters. Failure to do so may result in dismissal from the program.

---

**Media Arts Concentration**

**Course Requirements**

**Introductory Courses**

- DMA 402 INTRO TO VISUAL COMMUNICATIONS
- DMA 405 INTRO TO INTERACTIVE MEDIA DESIGN

**Foundation Courses**

- CMNS 570 INTRODUCTION TO DIGITAL CMN
- DMA 527 CREATIVE PROCESS AND STRATEGY
Advanced Courses

- DMA 525 FOUNDATION OF DIGITAL MEDIA
- MCS 575 DIGITAL MEDIA ETHICS

Students should also complete 2 of the following workshop classes:
- DC 414 FUNDAMENTALS OF CINEMA PRODUCTION
- DMA 410 DESIGN WORKSHOP
- DMA 415 AUDIO WORKSHOP
- DMA 425 STILL IMAGE WORKSHOP
- DMA 475 MOVING IMAGE WORKSHOP
- DMA 480 WEB/MEDIA DELIVERY WORKSHOP
- DMA 490 PORTFOLIO
- EXP 440 PLAY AND EXPERIENCE DESIGN
- EXP 442 INTERFACE AND EXPERIENCE DESIGN
- HCD 421 DESIGN AND HUMAN EXPERIENCE

Major Elective Courses

Students are required to take 4 Major Elective Courses according to the following criteria:

- Students should choose 2 graduate level elective courses from a College of Communication program.
- Students should choose 2 additional graduate level elective courses from a College of Communication program or another College of Computing and Digital Media program or another college/department at DePaul University.

Students do not have to follow a particular sequence for their elective course requirements. However, students may focus their electives in an Enriched Allied Field Area of Art, Media and Design or New Media Studies. Some classes in the Enriched Allied Field Areas of Art, Media and Design and New Media Studies have been pre-approved for students and do not require the permission of an advisor. Other classes may require an advisor's permission. Pre-approved Enriched Allied Field courses are listed below.

Allied Field Area - New Media Studies

- NMS 502 NEW MEDIA, OLD MEDIA
- NMS 504 TEXT AND IMAGE
- NMS 508 DESIGN RHETORICS
- NMS 509 SPECIAL TOPICS IN NEW MEDIA STUDIES
- NMS 520 WEB DESIGN I
- NMS 521 WEB DESIGN II

Allied Field Area - Art, Media and Design

- ART 405 ADVANCED ART STUDIO
- ART 427 DIGITAL ART
- ART 460 WEB ART AND DESIGN
- ART 461 PHOTOGRAPHY AND MEDIA ART
- ART 489 VIDEO ART
- ART 490 ADVANCED TOPICS IN ART, MEDIA AND DESIGN

Master's Thesis Project

Students must complete a Master's Thesis Project as part of the degree requirements. Students have two options for how to complete the Master's Thesis Project.

- Individual - The student will create an original project and a 20-30 page accompanying written research documentation and report/analysis.
- Collaborative - Students work in teams of 2-4 students to complete an original project and a 40-60 page accompanying written research documentation and report/analysis.

Students must have completed the necessary prerequisite classes and at least 8 courses (32 credit hours) in the DCMA program toward their 52 required credit hours (credits earned from Introductory Courses do not count toward the required total credits). Students should schedule a meeting with a faculty member to discuss the requirements.

Thesis milestones:
Digital Communication and Media Arts (MA)

The Digital Communication and Media Arts program will teach students how digital technology has affected communication and artistic practices, and how to effect change in communication and artistic practices through the integration of digital technology. The learning goals for the MA in Digital Communication and Media Arts are grounded in both practice and theory. By taking advantage of the wealth of courses that focus on digital communication and digital technology in the College of Communication and the College of Computing and Digital Media, the degree program provides students an opportunity to experience and apply digital technology in multiple professions.

The Master of Arts in Digital Communication and Media Arts integrates multiple topics all centered on the way contemporary technology is changing communication practices, for a truly interdisciplinary degree program. This is a practical degree, in that it teaches students skills utilizing technology, while giving them the critical tools to become better communicators in a digital environment.

Students choose between two tracks: The Digital Communication track is offered through the College of Communication, while the Media Arts track is offered through the College of Computing and Digital Media.

<table>
<thead>
<tr>
<th>Introductory Courses</th>
<th>0-8 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>52 hours</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52-60 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Explain how digital technology has affected communication practices across a range of subjects and disciplines.
- Compare new technological practices and evaluate changes in technological practices across a range of communication subjects.
- Demonstrate key competencies in video production, audio production, graphic design, and other technologies within digital media arts.
- Identify the underlying ethical issues that the advent of digital technology has brought to contemporary society.
- Develop professional-level communication and technological practices in digital environments.
Degree Requirements

Course Requirements

No Introductory course may be substituted for any other course at any level. Foundation, Advanced, and Elective course selections are determined by the concentration chosen.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area, if such an examination is available.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Media Arts
- Digital Communication
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/Digital Communication and Media Arts (MA)

Admission

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, and have successfully completed any 300-level communication course are eligible to apply to the program. Please note that this program is only for students interested in the Digital Communication track.

Applicants must submit the following to Office of Graduate Admission no later than 6 weeks prior to the start of their senior year (i.e. prior to the start of their final three undergraduate quarters): Combined Degree Program Application, official undergraduate transcript, statement of purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication or professors in the major.

Program Standards

Students accepted into the combined degree program complete 12 graduate credit hours of Digital Communication and Media Arts coursework which will fulfill undergraduate communication electives (for communication majors) and/or open electives. Students are strongly encouraged to take three of the four core courses during their senior year (CMNS 570, MCS 575, DMA 525, DMA 527). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet this requirement, they will not be allowed to continue as a graduate student in the program.

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their undergraduate degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Directing (MFA)

The Theatre School's Master of Fine Art (MFA) degree in Directing is a three-year program that allows directors to develop and explore their artistic vision and then apply their ideas through constant collaboration with other artists – actors, designers, and dramaturgs. Coursework is focused on preparation – research, theory and analysis – as well as practical application through scene study, workshops and quarterly full-length directing assignments.

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works and artistic approaches from antiquity to the present, encompassing a broad range of periods, cultures, and styles.
- Synthesize and apply elements of their education and training in classes, rehearsals, and productions.
- Participate in theatrical production in a professional manner, with discipline, respect, and maturity.
- Demonstrate the role of the theatre practitioner as an active member of society and of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Identify and create dramatic action through text analysis, personalization, and imagination.
- Articulate the intent of the play and the director’s point of view.
- Lead organized and creative collaborations with designers, technicians, and actors.
- Tell the story of the play clearly and dynamically in space and time.
- Articulate a personal aesthetic vision and demonstrate intent to impact the field.
- Demonstrate fluent knowledge of the history of directing and the major directorial thinkers of Western theatre.

- Rehearsal and Performance Sequence
  - PRF 661 REHEARSAL AND PERFORMANCE II
  - PRF 662 REHEARSAL AND PERFORMANCE II
  - PRF 663 REHEARSAL AND PERFORMANCE II

**Third Year**

- Thesis Project
  - PRF 781 THESIS PROJECT IN DIRECTING
  - PRF 782 THESIS PROJECT IN DIRECTING
  - PRF 783 THESIS PROJECT IN DIRECTING
- Directing Seminar
  - PRF 691 DIRECTING SEMINAR
  - PRF 692 DIRECTING SEMINAR
  - PRF 693 DIRECTING SEMINAR
- Choose two of the following:
  - PRF 761 REHEARSAL AND PERFORMANCE III
  - PRF 762 REHEARSAL AND PERFORMANCE III
  - PRF 763 REHEARSAL AND PERFORMANCE III
- PRF 690 INTERNSHIP

**Additional Course Requirement**

- In either the second or third year Directing majors must also take:
  - PRF 619 THE DIRECTOR AND THE NEW PLAY DEVELOPMENT PROCESS

**Doctorate in Business Administration (DBA)**

The Doctorate in Business Administration (DBA) is designed for seasoned executives who seek to take their career to the highest level. The three-year, part-time program is designed for working professionals with a previous master degree in a business or business-related discipline. The ideal candidate will enter the program with significant business acumen gained through eight to 10 years of managerial or consultative experience. Candidates for the DBA will learn to frame complex business problems in a manner that enables an applied, evidence-based analysis of all available data and rigorous evaluation of potential solutions. Graduates of the...
program also will gain advanced insights into the latest research on organizational change and behavior to enhance their abilities to implement desired solutions and motivate action within an organizational setting.

A fundamental component of the DBA experience is the personal working relationship with the research-active faculty of the Driehaus College of Business and Kellstadt Graduate School of Business. These ongoing mentor-student relationships support the doctoral candidates’ professional development in the tools and methods of data analysis and business intelligence. In addition, DBA candidates will advance through their program as members of a cohort of about 20 students. The program's small group format is designed to build a strong network of like-minded, high-potential professionals to support each other both during the program and after graduation.

Each year of the program candidates will participate in ten three-day residencies led by Kellstadt faculty (meeting approximately once per month). The program begins with a strong emphasis on research methodology and disciplinary coursework that features the most current developments from both academia and professional practice. In the second year DBA candidates will work as part of a small research team, with a faculty mentor, to frame and analyze a live business problem. By the end of the second year candidates will be expected to have framed and formally proposed their dissertation research. In the third year of the program candidates will be personally supervised by one of Kellstadt’s most-active researchers as they pursue their dissertation research. Throughout the program, DBA candidates are exposed to emerging industry and disciplinary developments through a series of doctoral seminars on current topics in business.

**Learning Outcomes**

Students will be able to:

- Design, conduct and analyze research.
- Communicate and disseminate knowledge for internal and external constituencies.
- Understand and apply relevant organizational theory to contemporary organizational problems.
- Demonstrate awareness of ethical issues when conducting or disseminating research.
- Critically evaluate research quality and approaches to organizational decision-making.
- Understand how multicultural perspectives influence knowledge creation and dissemination.

**Degree Requirements**

**Course Requirements**

**Research Methodology Courses**

- GSB 800 INTRODUCTION TO RESEARCH METHODS
- GSB 801 DESIGNING AND CONDUCTING EMPIRICAL RESEARCH STUDIES
- GSB 802 STATISTICS IN BUSINESS RESEARCH
- GSB 803 APPLIED MULTIVARIATE STATISTICS
- GSB 804 FORECASTING AND PREDICTION
- GSB 805 ANALYSIS OF BIG DATA
- GSB 806 INSTITUTIONAL AND ACADEMIC RESEARCH DISSEMINATION
- GSB 898 SPECIAL TOPICS IN RESEARCH METHODS: QUALITATIVE RESEARCH

**Disciplinary Courses**
Research Labs

- GSB 840 GROUP RESEARCH LAB I
- GSB 841 GROUP RESEARCH LAB II
- GSB 843-1 DISSERTATION LAB
- GSB 843-2 DISSERTATION LAB

Degree Requirements

Students in the DBA degree program must meet the following requirements:

- Complete all designated doctoral courses, topical seminars and research requirements.
- Earn a grade of C or better in all designated courses and doctoral seminars.
- Earn a designation of low pass or higher on all research requirements.

Student Handbook

Doctorate in Business Administration

DePaul’s Doctorate in Business Administration (DBA) is for experienced executives looking to take their careers to the next level.

About the DBA

The DBA is a three-year program designed for high-potential working professionals. Doctoral candidates are trained to frame complex business issues (both opportunities and threats), analyze responsive options and implement change. The program empowers graduates to transform their organizations through a mastery of sophisticated research and analytical skills for decision-making. It also can provide experienced business executives with the credentials to transition to academic careers.

Candidates take seven research methodology and seven business discipline-specific courses. Each course is delivered in three-hour modules resulting in five different courses during a given residency, and courses are staggered throughout the year to offer deep engagement in each topic.

Course Requirements (48 Credit Hours)

Research Methodology Courses

- GSB 800 INTRODUCTION TO RESEARCH METHODS
- GSB 801 DESIGNING AND CONDUCTING EMPIRICAL RESEARCH STUDIES
- GSB 802 STATISTICS IN BUSINESS RESEARCH
- GSB 803 APPLIED MULTIVARIATE STATISTICS
- GSB 804 FORECASTING AND PREDICTION
- GSB 805 ANALYSIS OF BIG DATA
- GSB 806 INSTITUTIONAL AND ACADEMIC RESEARCH DISSEMINATION
Disciplinary Courses
GSB 820-1 LEADING THROUGH PEOPLE
GSB 820-2 LEADING THROUGH PEOPLE
GSB 821 INCENTIVES AND CONTRACTS
GSB 822 MARKETS AND BUSINESS STRATEGY
GSB 823 LEADING ORGANIZATIONAL DEVELOPMENT AND CHANGE
GSB 824 BEHAVIORAL DECISION THEORY
GSB 825 BUSINESS ETHICS AND SOCIAL RESPONSIBILITY
GSB 826 SEMINARS ON CURRENT TOPICS IN BUSINESS I
GSB 827 SEMINARS ON CURRENT TOPICS IN BUSINESS II
GSB 828 SEMINARS ON CURRENT TOPICS IN BUSINESS III

Research Labs
GSB 840 GROUP RESEARCH LAB I
GSB 841 GROUP RESEARCH LAB II
GSB 842-1 DISSERTATION LAB
GSB 842-2 DISSERTATION LAB

Degree Requirements
Students in the DBA degree program must meet the following requirements:

- Complete all designated doctoral courses, topical seminars and research requirements.
- Earn a grade of C or better in all designated courses and doctoral seminars.
- Earn a designation of low pass or higher on all research requirements.

Academic Calendar
The DBA Academic Calendar deviates from the University Academic Calendar in the following way:

- No Penalty Date (Tuition Refund): Each quarter the no penalty date for withdrawal from courses is the first Monday after the first two class meetings.

Leave of Absence

- Students who need to interrupt their DBA studies for personal, health or other reasons may request a leave of absence for up to one full year from the date of approval. The Program Director and the Assistant Dean of the program should be notified.
- Students who wish to return to the DBA program following a leave of absence will need to submit a written request for resuming coursework to the Program Director and Assistant Dean of the program. This request for reinstatement must be made no less than 4 weeks prior to resuming the cohort course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Students who become "out of sequence students" due to dismissal, withdrawal, or military/medical family leave of absence will resume course work based upon roster space availability in required courses offered at that time.
- Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their re-application will then be considered with all other qualified applicants applying for admission to DBA program.

Computer Equipment
Each student will receive a computer with installed software for use over the three year program. Please refer to the Equipment Loan Agreement for details regarding return and damage policies.

Class Materials
Class materials, including textbooks, are provided by the program.

Dismissal
Students who receive a C- or below in DBA courses or who fail to make sufficient progress towards degree requirements will be subject to dismissal from the program.
Graduation

- Completion of the DBA degree requires a completion of a minimum of 72 quarter hours.
- All students must maintain an overall grade point average (GPA) of at least 2.00 (on a 4.0 scale) to remain in good standing in the DBA program and the university.

Grades

- Letter Grades - Grades of A through C are acceptable within the DBA programs.
- Pass/ Fail Grade - "Pass/ Fail" is assigned to specified program components upon their completion.
- Research-in-Progress (R) - "R" may be assigned to indicate that a student is making satisfactory progress in a course that extends beyond the end of the term or in a project.

Documentary (MFA)

The MFA in Documentary intends to provide aspiring documentary filmmakers with a demanding program that integrates knowledge of documentary history, styles and traditions, an affinity to research and development, varied approaches to storytelling and production, with the technological aspects that develop strong production values, effective post-production, and finally the ability to take creative work to its audiences.

- DC 486 DOCUMENTARY PRODUCING
- DC 565 CINEMA THESIS I
- DC 566 CINEMA THESIS II
- MCS 544 TOPICS IN DOCUMENTARY STUDIES

Major Electives

Students will choose among the following:

- DC 470 ADVANCED TOPICS IN CINEMA
- DC 474 ADVANCED TOPICS IN DOCUMENTARY
MFA Thesis

The most important form that program assessment will take is the MFA thesis project. This project is the culmination of the eight quarters of study and practice. We expect the thesis projects to find funding, screen at film festivals, create an impact in their respective communities, with their anticipated audiences, and find wide avenues of outreach and distribution. Specific requirements include:

- Documentary film under 30 minutes in length is required.
- Complete final proposal.
- Complete Rough Cut.
- Prepare for Public Screening after the thesis defense.

MFA Thesis Committee

Students will be assigned a faculty advisor upon acceptance into the MFA program. The advisor will monitor the student’s work and progress at the end of each quarter during their first year. Students will form a thesis committee at the beginning of their second year. During this second and third year, the thesis committee will evaluate the student's work, making sure that each student is progressing at the pace with the quality required to earn the degree upon completion of their courses and thesis project. The MFA in Documentary allows students to nominate the chair of their thesis advisor committee in conjunction with the following rules:

- The committee must include three faculty advisors.
- One advisor must be assigned to the MFA Documentary Committee.
- Two advisors will be nominated by the student.
- Of the three advisors, at least two should be fulltime faculty members. One advisor may be an adjunct faculty member.

MFA Thesis Screening

A major component of the MFA degree is the public screening of the MFA thesis. It is the student's responsibility to organize, schedule, promote and publicize this event.

MFA Thesis Defense

A minimum of thirty days prior to the public screening, the student will schedule a thesis defense with his/her MFA Thesis Committee. At this defense the student's MFA Thesis Committee will discuss, evaluate, and critique the thesis and make a determination on the awarding of the MFA degree.

MFA Thesis Timeline

Students will have a maximum of five years from the first enrollment in the program to complete, defend, and screen their MFA Thesis. Time spent in the MS program will count toward this limit. Students may petition their MFA Thesis Committees for a one-time extension.

DC 701 Thesis Continuation

This zero-credit course is for students actively working to finish their thesis projects. A student's MFA Thesis Committee Chair may enroll a student in 701 a maximum of eight times. Enrolling in 701 requires students to declare goals for the quarter with regard to finishing their thesis. Students who do not meet these goals may not be eligible to enroll in another 701 until those goals are met.

Degree Requirements

Students in the MFA Documentary degree program must meet the following requirements:

- Complete a minimum of 64 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in a graduate courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Satisfactorily complete the MFA thesis as determined by the student's MFA Advisor Committee.
- Students cannot count credit earned towards a previously awarded master's or MFA degree toward the
Sample Schedule

Winter Quarter

- DC 467 DOCUMENTARY LAW AND ETHICS (2 credit hours)
- DC 482 POST-PRODUCTION WORKSHOP (2 credit hours)

Spring Quarter

- DC 566 CINEMA THESIS II
Learning Outcomes

Students will be able to:

- Research and identify various forms and modes of documentary storytelling and:
  - Define the aesthetics and creative styles of various documentary genres.
  - Analyze structure, content and form.
  - Apply this understanding to their own work.
- Analyze the ethical and moral dimensions inherent in representing the other (individuals, cultures, lifestyles...).
- Evaluate factors in determining a documentary's narrative and aesthetic effectiveness.
- Give and receive feedback on their creative work, synthesizing theory and practice.
- Incorporate knowledge from their undergraduate studies and life experience and communicate their vision to a team of collaborators.
- Prepare, produce and initiate production on their own non-fiction creative projects by employing key concepts from each specialized area of documentary, including:
  - Research, develop, and write a professional level non-fiction proposal.
  - Prepare a fundraising plan and write grants.
  - Design a marketing, exhibition and distribution plan.
  - Assess potential ethical and legal considerations in their work.
- Demonstrate the technical expertise to create and complete major non-fiction projects.
  - Apply key concepts in areas of documentary media production (Producing, Directing, Cinematography, Sound Editing).
- Engage with diverse communities in substantive ways in order to tell stories that are grounded in a spectrum of real life circumstances.
- Collaborate and create impactful media on relevant issues and reach out to diverse communities to engage audiences.
- Develop business plans to exhibit, market and distribute their films.
- Evaluate ethical and legal considerations regarding content and characters, present in their work, whether domestically or abroad.
- Practice innovative and emerging styles and techniques of transmedia and interactive documentaries.

Early Childhood Education (EdD)

The Early Childhood Education concentration in DePaul's Ed.D. program recognizes the current shortage of highly trained early childhood professionals for colleges and universities at the national level. The program focuses not only on analyzing theory and practice in early childhood education today, but also on the policy issues influencing the field of early childhood education.

All the coursework in this program is designed based on best practice guidelines from a variety of leading national early childhood education professional and research organizations, such as National Association of Education of Young Children, Council for Exceptional Children and Zero to Three. The program is rooted in applied child development as well as curricular theory that embraces the notion of learner self-efficacy, inquiry-based curricula, and partnerships with families.

Recognizing the need for hands-on training in research and higher academic teaching, part of the focus of this program is on mentoring doctoral candidates in acquiring these skills through two research and teaching internships prior to their dissertation work. The program is designed to prepare early childhood professionals who might come from a variety of backgrounds such as teachers, leaders or administrators, professionals working in the early childhood or related fields, or instructors at the college level.

Licensures/ Endorsements
Superintendent Endorsement Option

Students pursuing a doctoral degree in Early Childhood Education are also eligible for the Superintendent Endorsement program, which requires additional coursework, along with four quarter hours for the superintendent internship course. ISBE states the following guidelines:

Individuals seeking the Superintendent endorsement must possess:

- a Master's degree with a GPA of 3.0 or better on a 4.0 scale
- proof of two years of teaching experience on a valid Illinois teaching license
- proof of two years of full-time administrative experience on a valid administrative license with the general administrative endorsement
- proof of passing the Basic Skills/TAP and Superintendent content-area tests.

Upon completion of the Superintendent program and the endorsement's additional requirements, students must apply for the endorsement. Students are to work with the College of Education's Licensure Officer when applying for the endorsement.

Teacher Leader Endorsement Option

To be eligible for the Teacher Leader endorsement program, students must possess:

- a bachelor's degree and master's degree from an accredited college or university,
- a valid teaching license
- at least two years of teaching experience
- proof of passing the Basic Skills or Test of Academic Proficiency.

Principal Licensure

The principal licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

To be eligible for the Principal Licensure program, students must possess:

- a master's degree from an accredited college or university with a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level.
- a valid Illinois teaching license
- at least two years of full-time successful teaching experience
- proof of passing the basic skills or test of academic proficiency.

Concentrations

- Early Childhood Education (degree only)
- Early Childhood Education plus Superintendent Endorsement
- Early Childhood Education plus Teacher Leader Endorsement
- Early Childhood Education plus Principal Licensure

Learning Outcomes

Students will be able to:

- Apply knowledge of diverse developmental characteristics and abilities to implement best practices in educating young children in various settings, e.g.: child-care, preschool, and primary grades.
- Use pedagogical knowledge of developmentally appropriate content areas to create meaningful learning experiences for each child based on best practices.
- Design lessons and differentiating instructions based on their knowledge of content areas and their knowledge of children's diverse developmental level, special needs characteristics (e.g.; children with disabilities), and diverse cultural and linguistic characteristics (e.g.; English Learners).
Structure and manage safe and healthy learning environments, which are culturally and linguistically responsive; facilitate emotional well-being and positive relationships among children and between children and professionals; and facilitate children’s active engagement, academic risk taking, and self-motivation.

Plan and implement developmentally appropriate curricula, and differentiate/modify instruction according to the child’s developmental and learning characteristics through use of a wide variety of learning materials and technologies.

Competently address children’s reading, writing, and oral communication needs to facilitate learning in all content areas.

Implement various forms of assessment (summative and formative) to determine children’s developmental, behavioral, and learning needs; monitor and measure children’s developmental, behavioral and learning progress; and evaluate child outcome.

Collaborate with families of young children from diverse backgrounds; form and maintaining positive relationships with and among children, and work as team members with other professionals.

Exhibit professional conduct, including providing leadership, and advocate for children and families.

---

**College Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

---

**Degree Conferral and Graduation**
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Students must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

---

**Degree Requirements**

Students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of "C." Upon receiving a third grade of "C," students must retake the class in which the grade was received. Grades of "D" and "F" require that the course be retaken.

**Course Requirements**

**Core Courses: 28 quarter hours required**

- A&S 801 LEADERSHIP: THEORY AND PRACTICE
- A&S 811 ASSESSMENT AND ACCOUNTABILITY
- CS 704 CURRICULUM DISCOURSES/PERSPECTIVES OVER TIME
- CS 751 CURRICULUM FOR HUMAN AND COMMUNITY DEVELOPMENT
- SCG 701 PHILOSOPHY OF ETHICS IN EDUCATION
- SCG 711 CULTURE, POWER AND EDUCATION
- SCG 721 HUMAN DEVELOPMENT AND THE EDUCATIONAL PROCESS

**Research Courses: 20 quarter hours required**

The research courses are sequenced and must be taken in the following order:

- SCG 775 SEMINAR: FRAMEWORKS OF INQUIRY IN EDUCATIONAL RESEARCH I
- SCG 785 SEMINAR: FRAMEWORKS OF INQUIRY IN EDUCATIONAL RESEARCH II
- SCG 735 QUANTITATIVE RESEARCH METHODS I
- SCG 745 QUALITATIVE RESEARCH METHODS I
- SCG 755 QUANTITATIVE RESEARCH METHODS II
  or SCG 765 QUALITATIVE RESEARCH METHODS II

**Elective Requirement: 4 quarter hours required**

- One elective (4 quarter hours) from the following list
  - Any doctoral course (700 or above) for which the student qualifies
  - SCG 527 GLOBAL ISSUES IN EDUCATION SEMINAR
  - SCG 611 PHILOSOPHICAL STUDIES IN EDUCATION, CULTURE AND ETHICS SEMINAR
  - CS 489 CREATIVITY AND CRITICAL THINKING - VYGOTSKY, BAKHTIN, MAKIGUCHI, IKEDA
Concentration Courses: 28 quarter hours

- ECE 704 SEMINAR IN RESEARCH IN CHILD DEVELOPMENT
- ECE 714 SEMINAR IN DEVELOPMENT, RISK, AND RESILIENCE
- ECE 724 SEMINAR IN CURRICULAR APPROACHES IN EARLY CHILDHOOD EDUCATION
- ECE 734 SEMINAR IN EARLY CHILDHOOD PROGRAM DESIGN AND EVALUATION
- ECE 744 SEMINAR IN CULTURE, LANGUAGE AND LEARNING
- ECE 759 TEACHING INTERNSHIP IN EARLY CHILDHOOD EDUCATION
- ECE 769 RESEARCH INTERNSHIP IN EARLY CHILDHOOD EDUCATION

Candidacy Course: non-credit, non-tuition

- ECE 706 CANDIDACY PAPER

Dissertation Courses: 8 quarter hours required

- ECE 849 SUPERVISED DISSERTATION PROPOSAL DEVELOPMENT
- ECE 859 INDEPENDENT DISSERTATION RESEARCH: EARLY CHILDHOOD EDUCATION

Principal Preparation Option

This Illinois State Board of Education approved program, is designed for licensed teachers who already hold a master's degree in education and are seeking principal licensure. The program offers a powerful, discipline-based curriculum with a problem-solving orientation that prepares effective and principled decision-makers. Graduates from the program are prepared to assume school and district administrative and supervisory roles.

Additional Program Requirements

An additional 44 quarter hours:

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 492 THE PRINCIPALSHIP
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 494 SCHOOL FINANCE
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 602 PRINCIPAL LICENSURE INTERNSHIP I (2 quarter hours)
- A&S 603 PRINCIPAL LICENSURE INTERNSHIP II (2 quarter hours)
- A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP
- A&S 695 SCHOOL LAW
- CS 492 CREATEING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES
- CS 493 CURRICULUM DEVELOPMENT AND ASSESSMENT IN K-12 SCHOOLS
Superintendent Option

Education doctoral students can pursue the Superintendent Endorsement, which is approved by the Illinois State Board of Education. Students must be admitted to the doctoral program in the College of Education and complete requirements of the program to qualify for the Superintendent Endorsement.

Additional Program Requirements

Early Childhood Education doctoral students must also complete the following courses along with the superintendent internship:

- A&S 803 SCHOOL PROGRAMS, PLANT AND HUMAN RESOURCES
- A&S 823 COMMUNITY AND CONSENSUS BUILDING FOR SCHOOL IMPROVEMENT
- A&S 843 THE POLITICS OF SCHOOLING
- A&S 873 CURRENT TRENDS IN BUDGETING AND FINANCE
- A&S 883 SCHOOL LAW

Superintendent Internship Requirement

- A&S 899 SUPERINTENDENT INTERNSHIP

Teacher Leader Option

This program is ideal for students who are educators in K-12 environments and are seeking leadership roles, excluding principalship. Such roles include, but are not limited to: curriculum specialists, coaches, mentor teachers, department chair or lead teachers, content specialists, teacher leaders charged with supervisor roles, and program leaders. The program meets the standards set forth by the state of Illinois for the endorsement of Teacher Leader.

Additional Program Requirements

Teacher Leader Core Courses (10 courses, 40 quarter hours):

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 499 PLANNING FOR PROFESSIONAL DEVELOPMENT
- BBE 599 LEADERSHIP IN EDUCATING LINGUISTICALLY DIVERSE LEARNERS
- CS 470 TEACHERS AS LEADERS
- CS 473 ASSESSMENT
- CS 488 CURRICULUM DESIGN
- CS 482 THE HISTORY OF CURRICULUM PRACTICE
E-Commerce Technology (MS)

The MS in E-Commerce Technology is designed for those who want to specialize in e-business systems development and management. The program provides flexible, modularized advanced training in e-business systems as well as competencies in Internet application development, advanced Internet technologies, and wireless applications.

| Introductory Courses | 0-16 hours |
| Degree Requirements  | 52 hours   |
| Total hours required  | 52-68 hours|

Learning Outcomes

Shared Content

Students will be able to:

- Design and implement an e-commerce application with a shopping cart.
- Integrate the waterfall model in the development of e-commerce applications.
- Integrate user-centered design guidelines in developing user-friendly websites.
- Evaluate the bullwhip effect in a supply chain, analyze the causes, and recommend possible solutions.
- Analyze different types of portal technologies and deployment methodologies commonly used in the industry.
- Analyze the effectiveness of network computing and cloud computing policies in a multi-location organization.
- Analyze real business cases regarding their e-business strategies and transformation processes and choices.
- Integrate theoretical frameworks with business strategies.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

- CSC 401 INTRODUCTION TO PROGRAMMING
- CSC 402 DATA STRUCTURES I
- CSC 403 DATA STRUCTURES II
ECT 410 DEVELOPMENT OF WEB-BASED BUSINESS APPLICATIONS

Foundation Courses

- ECT 424 ENTERPRISE INFRASTRUCTURE
- ECT 455 E-COMMERCE WEB SITE ENGINEERING
- CSC 453 DATABASE TECHNOLOGIES
- SE 430 OBJECT ORIENTED MODELING

Students in the Foundation Courses may register for a maximum of four Advanced Courses.

Advanced Courses

- ECT 480 INTRANETS AND PORTALS
- ECT 481 INTERNET SUPPLY CHAIN MANAGEMENT
- ECT 582 SECURE ELECTRONIC COMMERCE

Major Elective Courses

Students must take 5 elective courses from the list below. A minimum of 2 courses must be taken at the 500-level.

- ECT 436 SOCIAL MARKETING AND SOCIAL NETWORKING APPLICATIONS
- ECT 556 ENTERPRISE ARCHITECTURE AND DESIGN
- ECT 565 MOBILE ENTERPRISE
- ECT 583 ADVANCED SCRIPTING TECHNOLOGIES
- ECT 584 WEB DATA MINING
- ECT 586 CUSTOMER RELATIONSHIP MANAGEMENT TECHNOLOGIES
- ECT 587 MOBILE COMMERCE TECHNOLOGY
- HCI 440 INTRODUCTION TO USER-CENTERED DESIGN
- HCI 421 DESIGNING FOR CONTENT MANAGEMENT SYSTEMS
- IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
- IS 431 DIGITAL PRODUCT MANAGEMENT
- IS 485 REQUIREMENTS ELICITATION, ANALYSIS, AND SPECIFICATION
- IS 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
- IS 560 ENTERPRISE SYSTEMS
- IS 570 ENTERPRISE SYSTEM IMPLEMENTATION
- CSC 452 DATABASE PROGRAMMING
- CSC 454 DATABASE ADMINISTRATION AND MANAGEMENT
- CSC 495 SOCIAL NETWORK ANALYSIS
- CSC 543 SPATIAL DATABASES & GEOGRAPHIC INFORMATION SYSTEMS
- CSC 554 ADVANCED DATABASE MANAGEMENT
- SE 452 OBJECT-ORIENTED ENTERPRISE COMPUTING
- SE 457 SERVICE-ORIENTED ARCHITECTURE
- SE 511 PRACTICES OF GLOBAL SOFTWARE DEVELOPMENT
- SE 554 ENTERPRISE COMPONENT ARCHITECTURE
- SE 560 STRUCTURED DOCUMENT INTERCHANGE AND PROCESSING

Capstone

- ECT 589 E-BUSINESS STRATEGIES

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.
Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Economics and Policy Analysis (MS)

The Master of Science in Economics and Policy Analysis program focuses on economic theory as it applies to real-world business and policy, econometric skills and the ability to analyze data to propose policies and solutions.

The program is designed for the student who has earned a bachelor's degree, or who has earned or is earning an MBA.

Highlights

Through the MS in Economics and Policy Analysis program, you will develop skills and knowledge in:

- Applied economic theory.
- Demonstrating research findings through written analyses for audiences that include business professionals, economists, policymakers and the public.
- Conducting econometric research.
- The relationship between economics and politics.

Research and Fellowship Opportunities

The curriculum includes a heavy emphasis on research. You will work closely with a faculty member on research projects, enhancing your research, writing and presentation skills. Upon meeting certain requirements, you will also be eligible to participate in a research fellowship, allowing you to work full-time for 12 to 16 weeks. You may complete the fellowship in Chicago or spend your time in another city, such as Washington D.C.

Career Outlook

This degree prepares students to pursue careers in a variety of fields, including:

- Consulting
- Governmental relations
- Federal and state governmental agency work
- Trade association and lobbying work
- Nonprofit agency work

Recent program alumni are employed in a wide variety of government, financial and corporate institutions.

STEM Designation

DePaul’s Master of Science in Economics and Policy Analysis is a Department of Homeland Security STEM-designated program. STEM designation is granted to programs that produce graduates educated in science, technology, engineering and/or math who help support U.S. economic competitiveness and growth.

International students who earn degrees from STEM-designated programs can qualify to extend their post-graduation stay in the United States for Optional Practical Training (OPT). OPT provides an opportunity for international students to develop their careers while also helping meet the demand for STEM-educated professionals in the U.S. workforce. To find out more, contact the Kellstadt Graduate School of Business at kgsb@depaul.edu or (312) 362-8810.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

- Apply modern economic theory, use analytical and evaluative skills to solve a variety of policy problems and make recommendations and decisions.
- Employ existing econometric software programs to solve complex problems in policy analysis.
- Understand the main theories of international trade and apply them to relevant international trade policy issues.
- Create clear and coherent written work that is geared towards different audiences including economists, non-economists, policy makers and general public.

Degree Requirements

Prerequisite Requirements

Students must have completed one course in Principles of Microeconomics and one in Principles of Macroeconomics as well as differential calculus prior to admission to the MSEPA program.

Course Requirements

Students in the MSEPA program complete 12 courses (48 credit hours). The degree consists of seven required core courses plus five elective courses. Students may apply for a two-course equivalent Research Fellowship, or in lieu of the fellowship students may take two elective courses. New students will be admitted each fall.

Students may enroll in the program on a full-time or part-time basis. Classes are generally offered during the evening. The typical full-time student will finish the program in five quarters. Students will be advised to take no more than three courses per term. Students attending the program part-time will typically take two evening courses per quarter and finish the program in six quarters.

Core Courses (7 required courses)

- ECO 505 ADVANCED MICROECONOMICS
- ECO 506 ADVANCED MACROECONOMICS
- ECO 507 RESEARCH METHODS FOR POLICY ANALYSIS I
- ECO 508 RESEARCH METHODS FOR POLICY ANALYSIS II
- ECO 515 MICROECONOMICS OF MARKET ORGANIZATION
- ECO 516 ECONOMICS OF THE PUBLIC SECTOR I
- ECO 558 INTERNATIONAL MACROECONOMICS

Elective Courses (5 courses required)

- ECO 435 REAL ANALYSIS I
- ECO 436 REAL ANALYSIS II
- ECO 511 BUSINESS AND ECONOMIC FORECASTING
- ECO 513 DEMYSTIFYING THE FEDERAL RESERVE BANK
- ECO 517 THE PUBLIC POLICY, BUSINESS, AND ETHICAL ENVIRONMENT OF GOVERNMENT
- ECO 518 LABOR ECONOMICS AND LABOR RELATIONS
- ECO 521 POLICY & REGULATION IN FINANCIAL MARKETS
- ECO 525 STRATEGIC DECISION MAKING AND GAME THEORY
Research Fellowship

The research fellowship allows students to work full-time on Capitol Hill or some other executive branch, independent agency or nonprofit in Washington D.C. or elsewhere for 12-16 weeks. Students will be immersed in analysis, research and policy making. Students will also have a unique opportunity to develop an extensive network.

In order to be eligible for the fellowship, students must have earned a course grade of B or better in ECO 505, ECO 506 and ECO 507. In addition to the academic requirements, students must also have departmental approval.

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the 12 required and elective courses.
- All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program or the Kellstadt Graduate School of Business.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree /Economics and Policy Analysis (MS)

The MS in Economics and Policy Analysis gives students a distinguished and marketable set of skills in economic theory as it applies to business and policy analysis. Students learn how to conduct statistical and econometric research grounded in sound economic models using data from multiple sources on different issues. In addition, students will be able to explain their results and policy recommendations not only to economists, but also to politicians and the general public.

MS in EPA graduates can find employment in the private sector working for corporations in governmental relations departments, in federal and state governmental agencies, in trade associations or lobbying firms, or in the not-for-profit sector.

All undergraduate students who are interested in applying during their junior year must complete the following prerequisites requirements before admission to the combined program: ECO 105, ECO 106, ECO 305, MAT 150 or MAT 135, MAT 151 or MAT 136, and MAT 137 or equivalent.

Undergraduate students will typically take the following three graduate level courses during their senior year:

- ECO 505 ADVANCED MICROECONOMICS
- ECO 515 MICROECONOMICS OF MARKET ORGANIZATION
- ECO 516 ECONOMICS OF THE PUBLIC SECTOR I

These three courses will count towards completion of the Bachelors degree and will also count towards completion of the MS-EPA. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS-EPA will be awarded upon completion of the remaining graduate level work.
Educating Adults (MA)

The Master of Arts Program in Educating Adults (MAEA), founded in 2006, is designed for people who, working formally or informally in diverse settings, support the process and practice of adults’ learning. Grounded in key theories, current research and best practices in adult education and learning, the program provides a learning laboratory for learners to build and deepen their knowledge and skills in assessment, design, facilitation, evaluation and ongoing research to improve practice.

Focus Areas

MAEA students may choose a focus area within Educating Adults:

Community-Engaged Learning
This focus area is designed to help adults effect change and growth within their local contexts. Students electing this focus area work with others to facilitate positive change for individuals, groups, and/or communities. Related areas include community development, community engagement, empowerment, social change, social impact, and social justice.

Learning and Development
This focus area is designed to help adults develop their growth and performance potential in the workplace. Students electing this focus area center their work on assessment and evaluation, curriculum/program development, delivery/facilitation, and/or curriculum design. Related areas include employee engagement, human resources, instructional design, performance improvement, talent development, and training.

Technology-Enhanced Learning
This focus area is designed to help adults learn using technology in various ways and for various purposes. Students electing this focus area use a range of platforms, strategies and tools for designing and delivering learning in on-line, on-ground, and/or hybrid environments. Related areas include E-learning, gamification, and social media.

Individualized
This focus area is to-be-developed by the individual student in the event that none of the three designated areas (above) reflects the student’s interests and career aspirations. (If proposing one’s own individualized focus area, students are advised to consider the perspectives of external audiences such as employers and graduate schools.)

Key Features

- You expand your knowledge of key theories and best practices in adult learning—including the latest in instructional technology, course design, learning facilitation, internet-based practices and emerging trends.
- You further develop competencies as an adult educator and expand your repertoire of core and cutting-edge knowledge and skills.
- You study with other adult educators in a collaborative learning environment.
- You customize portions of your study to match your individual learning needs and goals and carry out an applied project that contributes to adults’ learning in your particular area of practice.
- You receive assistance from a team of advisors from the University who provide coaching and mentoring to ensure your success.
- You engage in a brief/intensive series of “liberal learning” seminars designed to rekindle and/or deepen your practice in key domains of applied effectiveness (personal, interpersonal, organizational, values and inquiry).
- You accomplish your goal of graduate study—enhancing your contribution as an educator of adults and earning an accredited graduate degree with competencies endorsed by the University.

Learning Outcomes

Program Specific Outcomes

Students will be able to:

- Develop knowledge, skills, habits and perspectives critical to designing, assessing and facilitating adult learning in various settings.
- Develop as reflective practitioners who are able to affirm, adjust and/or expand what they know and do in support of adults’ learning.
- Apply traditions and methods of inquiry to affect ongoing improvement in their areas of practice and/or in the field of adult education.
- Enhance employability in the diverse arenas related to educating adults.
- Prepare for advanced academic study if/as they desire to pursue such.

Degree Requirements

Course Requirements

Students must complete a minimum of 57 graduate credit hours with a cumulative GPA of not less than 3.0.

Professional Core

- EA 515 DEVELOPING PROFESSIONAL IDENTITY
- EA 517 FACILITATING ADULT LEARNING
- EA 516 DESIGNING EDUCATIONAL OFFERINGS
- EA 526 ASSESSING LEARNING AND EVALUATING PROGRAMS
- EA 518 ENHANCING PRACTICE WITH THEORY IN ADULT LEARNING
- EA 525 CONDUCTING PRACTICE-BASED INQUIRY
- 8 credit hours of electives

Liberal Learning

- LLS 410 PERSONAL EFFECTIVENESS
- LLS 420 INTERPERSONAL EFFECTIVENESS
- LLS 430 ORGANIZATIONAL EFFECTIVENESS
- LLS 440 VALUES EFFECTIVENESS
- LLS 450 INQUIRY EFFECTIVENESS

Reflective Practice

- EA 535 REFLECTIVE PRACTICE SEMINAR I
- EA 536 REFLECTIVE PRACTICE SEMINAR II
- EA 537 REFLECTIVE PRACTICE SEMINAR III
- EA 538 REFLECTIVE PRACTICE SEMINAR IV

Program Culmination

- EA 505 APPLIED INQUIRY PROJECT PROPOSAL I
- EA 506 APPLIED INQUIRY PROJECT PROPOSAL II
- EA 528 APPLIED INQUIRY PROJECT
Educational Leadership (EdD)

The Educational Leadership Doctoral Program provides a rich knowledge base to analyze administrative practices and promote socially just leadership of schools and organizations with an educational purpose. This program is uniquely designed to link theory with practice and is not based on traditional assumptions about the relationships of theory with practice or on conventional notions about the status of practitioners and theorists.

The program's schedule is flexible, allowing students to attend full-time or part-time as their professional and personal schedules allow. Graduates of the program may wish to enter a new career or strengthen their current position. They may assume faculty positions in higher education, take leadership positions in local and state education agencies, or become leaders in educational policy and advocacy in organizations and institutions.

Licensures and Endorsements

Superintendent Endorsement

The Doctoral program's Educational Leadership concentration is an Illinois State Board of Education (ISBE) approved program for the Superintendent endorsement. The Superintendent endorsement requires an additional four quarter hours for the internship course. ISBE states the following guidelines:

Individuals seeking the Superintendent endorsement must possess:

- a Master's degree with a GPA of 3.0 or better on a 4.0 scale
- proof of two years of teaching experience on a valid Illinois teaching license
- proof of two years of full-time administrative experience on a valid administrative license with the general administrative endorsement
- proof of passing the Basic Skills/TAP and Superintendent content-area tests.

Upon completion of the Superintendent program and the endorsement's additional requirements, students must apply for the endorsement. Students are to work with the College of Education's Licensure Officer when applying for the endorsement.

Teacher Leader Endorsement

To be eligible for the Teacher Leader endorsement program, students must possess:

- a bachelor's degree and master's degree from an accredited college or university,
- a valid teaching license
- at least two years of teaching experience
- proof of passing the Basic Skills or Test of Academic Proficiency.

Principal Licensure

The principal licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

To be eligible for the Principal Licensure program, students must possess:

- a master's degree from an accredited college or university with a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level.
- a valid Illinois teaching license
- at least two years of full-time successful teaching experience
- proof of passing the basic skills or test of academic proficiency.

Concentrations

- Educational Leadership (degree only)
- Educational Leadership plus Superintendent Endorsement
- Educational Leadership plus Teacher Leader Endorsement
- Educational Leadership plus Principal Licensure
Learning Outcomes

Students will be able to:

- Promote the success of all students by:
  - Facilitating the development, articulation, implementation, and stewardship of a district vision of learning.
    - Facilitating a vision of learning that is shared and supported by the district community.
    - Advocating, nurturing, and sustaining a positive district culture.
    - Advocating, nurturing, and sustaining effective instructional programs.
    - Applying best practice to student learning.
    - Designing comprehensive professional growth plans for staff.
    - Ensuring management of the organization managing the organization, of a district in a way that promotes a safe, efficient, and effective learning environment.
    - Ensuring management of managing the operations, and resources of a district in a way that promotes a safe, efficient, and effective learning environment.
    - Understanding and using technology to enhance curriculum and student learning.
    - Understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.
    - Collaborating with families and community members, responding to diverse community interests and needs, and mobilizing community resources.
    - Acting with integrity, and fairness.
    - Acting in an ethical manner.
  - Undertake independent inquiry and use technology as one tool to assist him or her in the overall inquiry process.
  - Understand and use technology to enhance his/her own professional practice and school operations.
  - Utilize their internship experience to apply knowledge, and practice and develop skills, through substantial, sustained, standards-based work in real settings.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
Demonstrates concern for and protection of safety and well-being of others

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Degree Requirements**

Students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of "C." Upon receiving a third grade of "C," students must retake the class in which the grade was received. Grades of "D" and "F" require that the course be retaken.

**Course Requirements**

**Core Courses: 24 quarter hours required**

- A&S 801 LEADERSHIP: THEORY AND PRACTICE
- A&S 811 ASSESSMENT AND ACCOUNTABILITY
- CS 704 CURRICULUM DISCOURSES/PERSPECTIVES OVER TIME
- CS 751 CURRICULUM FOR HUMAN AND COMMUNITY DEVELOPMENT
- SCG 701 PHILOSOPHY OF ETHICS IN EDUCATION
- SCG 711 CULTURE, POWER AND EDUCATION

**Research Courses: 20 quarter hours required**

The research courses are sequenced and must be taken in the following order:

- SCG 775 SEMINAR: FRAMEWORKS OF INQUIRY IN EDUCATIONAL RESEARCH I
- SCG 775 SEMINAR: FRAMEWORKS OF INQUIRY IN EDUCATIONAL RESEARCH II
- SCG 735 QUANTITATIVE RESEARCH METHODS I
- SCG 745 QUALITATIVE RESEARCH METHODS I
- SCG 755 QUANTITATIVE RESEARCH METHODS II
**Elective Requirement (4 quarter hours required)**

- One elective (4 quarter hours) from the following list
  - Any doctoral course (700 or above) for which the student qualifies
  - SCG 527 GLOBAL ISSUES IN EDUCATION SEMINAR
  - SCG 611 PHILOSOPHICAL STUDIES IN EDUCATION, CULTURE AND ETHICS SEMINAR
  - CS 489 CREATIVITY AND CRITICAL THINKING - VYGOTSKY, BAKHTIN, MAKIGUCHI, IKEDA
  - CS 588 INDEPENDENT STUDY IN CURRICULUM STUDIES
  - A&S 595 WORKSHOP IN EDUCATIONAL LEADERSHIP
  - A&S 598 INDEPENDENT STUDY IN EDUCATIONAL LEADERSHIP
  - A&S 688 SERVICE LEARNING FOR HIGHER EDUCATION
  - BBE 404 LANGUAGE, LITERACY AND CULTURE
  - BBE 466 FIRST AND SECOND LANGUAGE ACQUISITION
  - BBE 406 SOCIOCULTURAL AND HISTORICAL PERSPECTIVES IN BILINGUAL EDUCATION
  - BBE 510 SPECIAL TOPICS IN LANGUAGE EDUCATION AND CULTURE
  - BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
  - BBE 530 LATINOS AND EDUCATION
  - Other options need to be approved by the Ed.D. Program.

**Concentration Courses: 20 quarter hours required**

- A&S 803 SCHOOL PROGRAMS, PLANT AND HUMAN RESOURCES
- A&S 823 COMMUNITY AND CONSENSUS BUILDING FOR SCHOOL IMPROVEMENT
- A&S 843 THE POLITICS OF SCHOOLING
- A&S 873 CURRENT TRENDS IN BUDGETING AND FINANCE
- A&S 883 SCHOOL LAW

**Candidacy Course: non-credit, non-tuition**

- A&S 706 CANDIDACY PAPER

**Dissertation Courses: 8 quarter hours required**

- A&S 849 SUPERVISED DISSERTATION PROPOSAL DEVELOPMENT
- A&S 859 INDEPENDENT DISSERTATION RESEARCH: EDUCATIONAL LEADERSHIP

**Superintendent Internship*: 4 quarter hours required**

- A&S 899 SUPERINTENDENT INTERNSHIP

*Students interested in the Superintendent Endorsement must complete the Superintendent Internship. This course is completed in addition to the required 76-credit hours for the Ed.D. degree.

---

**Principal Preparation Option**

This Illinois State Board of Education approved program, is designed for licensed teachers who already hold a master's degree in education and are seeking principal licensure. The program offers a powerful, discipline-based curriculum with a problem-solving orientation that prepares effective and principled decision-makers. Graduates from the program are prepared to assume school and district administrative and supervisory roles.

**Additional Program Requirements**

An additional 44 quarter hours:

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 492 THE PRINCIPALSHIP
Superintendent Option

Education doctoral students can pursue the Superintendent Endorsement, which is approved by the Illinois State Board of Education. Students must be admitted to the doctoral program in the College of Education and complete the requirements of the program to qualify for the Superintendent Endorsement.

Additional Program Requirements

Educational Leadership doctoral students must also complete the superintendent internship:

- A&S 899 SUPERINTENDENT INTERNSHIP (4 quarter hours)

Teacher Leader Option

This program is ideal for students who are educators in K-12 environments and are seeking leadership roles, excluding principalship. Such roles include, but are not limited to: curriculum specialists, coaches, mentor teachers, department chair or lead teachers, content specialists, teacher leaders charged with supervisor roles, and program leaders. The program meets the standards set forth by the state of Illinois for the endorsement of Teacher Leader.

Additional Program Requirements

Teacher Leader Core Courses (10 courses, 40 quarter hours):

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 499 PLANNING FOR PROFESSIONAL DEVELOPMENT
- BBE 599 LEADERSHIP IN EDUCATING LINGUISTICALLY DIVERSE LEARNERS
- CS 470 TEACHERS AS LEADERS
- CS 473 ASSESSMENT
- CS 482 THE HISTORY OF CURRICULUM PRACTICE
- CS 488 CURRICULUM DESIGN
Educational Leadership (MA or MEd)

The purpose of this program is to prepare educational personnel for administrative and supervisory positions in schools, business, and a variety of human services agencies. This discipline-based program includes concepts, research findings, and models of inquiry in social sciences. The program is also theory and problem-based in that it addresses the relevant theories of organization, leadership, and curriculum and contemporary issues likely to confront administrators and supervisors, and other educational leaders. Finally, the program is career-based given that it focuses on the examination of administrative and supervisory functions and objectives within a variety of settings and for different purposes.

MA Concentrations

The Educational Leadership MA program has four concentrations:

- General Concentration (degree only)
- Concentration in Catholic Leadership
- Concentration in Physical Education
- Concentration in Higher Education (degree only)

Licensure

The Educational Leadership Master's of Education program is an Illinois State Board of Education (ISBE) approved program for Principal Licensure and Teacher Leader Endorsement on the Professional Educator License. ISBE states the following guidelines:

Individuals seeking the Principal Licensure must:

- complete an approved principal endorsement program at an Illinois institution
- hold a Master's degree
- At the end of the program, in order to obtain licensure, students must have accrued 4 years of full-time teaching on a valid teaching license
- pass the Basic Skills or Test of Academic Proficiency (TAP) and two Principal content-area tests

Individuals seeking the Teacher Leader Endorsement must:

- complete an approved teacher leader program at an Illinois institution
- hold a Bachelor's degree
- have 2 years of full-time teaching accrued on a valid teaching or school service personal endorsement
- pass the Basic Skills or Test of Academic Proficiency (TAP) and Teacher Leader content-area tests

Upon completion of the Principal Preparation program or the Teacher Leader Endorsement Program, and the additional requirements, students must apply for licensure or endorsement. Students are to work with the College of Education's Licensure Officer when applying for endorsement.

Note: Courses in this program leading to the Principal Licensure and Teacher Leader Endorsement are designed for practicing educators and are not open to students seeking an initial teaching license (Teaching and Learning).

MEd Concentrations

The Educational Leadership MEd program has several concentrations:

- General Concentration (degree only)
- Concentration in Catholic Leadership (degree only)
- Concentration in Principal License
- Concentration in Principal License (Catholic)
- Concentration in Physical Education (degree only)
- Concentration in Higher Education
- Concentration in Teacher Leader Endorsement
- Concentration in Teacher Leader Endorsement (Catholic)

Degree Requirements (MA) | 52 hours
## Learning Outcomes

Students will be able to:

- Promote the success of all students by:
  - Facilitating the development, articulation, implementation, and stewardship of a vision of learning.
  - Facilitating a vision of learning that is shared and supported by the school community
  - Advocating, nurturing, and sustaining a school culture
  - Advocating, nurturing, and sustaining an instructional program conducive to student learning.
  - Supporting and sustaining programs based on best practices that promote student learning.
  - Advocating, nurturing, and sustaining staff professional growth.
  - Ensuring management of the organization for a safe, efficient, and effective learning environment.
  - Ensuring management of operations and resources for a safe, efficient, and effective learning environment.
  - Understanding and using technology to enhance curriculum and student learning.
  - Understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.
  - Collaborating with families and community members, responding to diverse community interests and needs, and mobilizing community resources.
  - Acting with integrity, and fairness.
  - Acting in an ethical manner.

- Understand and use technology to enhance his/her own professional practice and school operations.
- Undertake independent inquiry and use technology as one tool to assist him or her in the overall inquiry process.
- Utilize their internship experience to apply knowledge, and practice and develop skills, through substantial, sustained, standards-based work in real settings.

## College Requirements

### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students'
Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Students must submit the graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Degree Requirements

MA Degree Requirements

Specific degree requirements are determined according to the Concentration chosen by the student. Master’s of Arts (MA) concentrations are available in General Concentration, Catholic Leadership Concentration, Physical Education and Higher Education.

Please review the concentration requirements pages for more information.

Please note: A Master’s Thesis is completed for all MA Concentrations in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the M.A. Thesis Handbook for additional information.

MEd Degree Requirements

Specific degree requirements are determined according to the Concentration chosen by the student. Master’s of Education (MEd) concentrations are available in General Educational Leadership (degree only), Catholic Leadership (degree only), Higher Education (degree only), Physical Education, Principal License, Principal License (Catholic), Teacher Leader Endorsement, Teacher Leader Endorsement (Catholic).

Please review the concentration requirements pages for more information.

Please note: A Capstone project is completed for all MEd Concentrations in conjunction with faculty advisement, and students are required to take A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP to complete the Capstone project.

Academic Standards
Students must maintain a 3.0 average or higher to continue in the program. Any grade below a C will not count for credit toward completion of the program.

## Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Teacher Leader (Catholic) (MEd)
- Catholic Leadership (MA or MEd)
- General (MA or MEd)
- Teacher Leader (MEd)
- Principal License (Catholic) (MEd)
- Principal License (MEd)
- Physical Education (MA or MEd)
- Higher Education (MA or MEd)

## General Concentration (MA or MEd)

### Course Requirements

**Social and Cultural Foundations Courses: 8 quarter hours required, grade of C or better required**

- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- Choose one of the following:
  - SCG 401 ADVANCED LIFESPAN DEVELOPMENT
  - SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY

**Curriculum Studies Course: 4 quarter hours required, grade of C or better required**

- Choose one of the following:
  - CS 485 CURRICULUM/PROGRAM EVALUATION
  - CS 488 CURRICULUM DESIGN
  - CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES

**Educational Leadership Core Courses: 24 quarter hours required, grade of C or better required**

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 495 SCHOOL LAW
- A&S 496 STAKEHOLDER RELATIONSHIPS
- Choose one of the following:
  - A&S 494 SCHOOL FINANCE
  - MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
- Choose one of the following:
  - A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
  - A&S 596 HUMAN RESOURCE MANAGEMENT

**Electives: 8 quarter hours required, grade of C or better required**
Choose two of the following:
  - A&S 588 SERVICE LEARNING FOR HIGHER EDUCATION
  - A&S 590 ORGANIZATIONAL DEVELOPMENT
  - A&S 595 WORKSHOP IN EDUCATIONAL LEADERSHIP
  - A&S 597 POLITICS OF EDUCATION
  - CSL 490 FOUNDATIONS OF STUDENT AFFAIRS
  - CSL 491 CONTEXTUAL DIMENSIONS OF COLLEGE STUDENT DEVELOPMENT
  - CSL 492 PROGRAM DEVELOPMENT IN STUDENT AFFAIRS

Clinical Experience: 4 quarter hours required, grade of C or better required
Students must complete all of the Administration and Supervision core courses prior to completing the Clinical Experience course.
  - A&S 594 INTERNSHIP IN EDUCATIONAL LEADERSHIP

Choose one: Thesis (M.A.) or Capstone (M.Ed):
  - Master of Arts (M.A.) Degree Requirements: 4 quarter hours, grade of C or better required
    - A&S 599 THESIS SEMINAR IN EDUCATIONAL LEADERSHIP
The Master’s Thesis is completed in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the M.A. Thesis Handbook for additional information.
  - Research Course: 4 quarter hours required, grade of C or better required
    - A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP

**Note: For other requirements please view the Degree Requirements section.

Catholic Leadership Concentration (MA or MEd)

Course Requirements

Social and Cultural Foundations Courses: 8 quarter hours required, grade of C or better required
  - SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
  - Choose one of the following:
    - SCG 401 ADVANCED LIFESPAN DEVELOPMENT
    - SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY

Curriculum Studies Course: 4 quarter hours required, grade of C or better required
  - Choose one of the following:
    - CS 485 CURRICULUM/PROGRAM EVALUATION
    - CS 488 CURRICULUM DESIGN
    - CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES

Educational Leadership Core Courses: 24 quarter hours required, grade of C or better required
Electives: 8 quarter hours required, grade of C or better required

- A&S 570 HISTORICAL, PHILOSOPHICAL AND THEOLOGICAL FOUNDATIONS OF CATHOLIC SCHOOL LEADERSHIP
- A&S 571 SPIRITUAL AND ADMINISTRATIVE LEADERSHIP IN CATHOLIC SCHOOLS

Clinical Experience: 4 quarter hours required, grade of C or better required

Students must complete all of the Administration and Supervision core courses prior to completing the Clinical Experience course.

- A&S 594 INTERNSHIP IN EDUCATIONAL LEADERSHIP

Choose one: Thesis (M.A.) or Capstone (M.Ed):

- **Master of Arts (M.A.) Degree Requirements: 4 quarter hours, grade of C or better required**
  - A&S 599 THESIS SEMINAR IN EDUCATIONAL LEADERSHIP

  The Master’s Thesis is completed in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the M.A. Thesis Handbook for additional information.

- **Research Course: 4 quarter hours required, grade of C or better required**
  - A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP

**Note: For other requirements please view the Degree Requirements section.

Higher Education Concentration (MA or MEd)

Course Requirements

Social and Cultural Foundations Courses: 8 quarter hours required, grade of C or better required

- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- Choose one of the following:
  - SCG 401 ADVANCED LIFESPAN DEVELOPMENT
  - SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY

Curriculum Studies Course: 4 quarter hours required, grade of C or better required

- Choose one of the following:
  - CS 485 CURRICULUM/PROGRAM EVALUATION
  - CS 488 CURRICULUM DESIGN
  - CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES
Educational Leadership Core Courses: 24 quarter hours required, grade of C or better required

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 495 SCHOOL LAW
- A&S 496 STAKEHOLDER RELATIONSHIPS
- Choose one of the following:
  - A&S 494 SCHOOL FINANCE
  - MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
- Choose one of the following:
  - A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
  - A&S 596 HUMAN RESOURCE MANAGEMENT

Electives: 8 quarter hours required, grade of C or better required

- Choose two of the following:
  - A&S 588 SERVICE LEARNING FOR HIGHER EDUCATION
  - A&S 590 ORGANIZATIONAL DEVELOPMENT
  - A&S 595 WORKSHOP IN EDUCATIONAL LEADERSHIP
  - A&S 597 POLITICS OF EDUCATION
  - CSL 490 FOUNDATIONS OF STUDENT AFFAIRS
  - CSL 491 CONTEXTUAL DIMENSIONS OF COLLEGE STUDENT DEVELOPMENT
  - CSL 492 PROGRAM DEVELOPMENT IN STUDENT AFFAIRS

Clinical Experience: 4 quarter hours required, grade of C or better required

Students must complete all of the Administration and Supervision core courses prior to completing the Clinical Experience course.

- A&S 594 INTERNSHIP IN EDUCATIONAL LEADERSHIP

Choose one: Thesis (M.A.) or Capstone (M.Ed):

- Master of Arts (M.A.) Degree Requirements: 4 quarter hours, grade of C or better required
  - A&S 599 THESIS SEMINAR IN EDUCATIONAL LEADERSHIP

The Master's Thesis is completed in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the M.A. Thesis Handbook for additional information.

- Research Course: 4 quarter hours required, grade of C or better required
  - A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP

**Note: For other requirements please view the Degree Requirements section.

Physical Education Concentration (MA or MEd)

Social and Cultural Foundations Courses: 12 quarter hours required, grade of C or better required

- SCG 401 ADVANCED LIFESPAN DEVELOPMENT
- SCG 408 EDUCATION AND SOCIETY
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
Physical Education Courses: 16 quarter hours, grade of C or better required

- PE 450 PSYCHOLOGY OF SPORT BEHAVIOR AND ATHLETIC PERFORMANCE *
- PE 460 ETHICS AND DIVERSITY IN SPORT, FITNESS AND RECREATION
- PE 452 EXERCISE SCIENCE AND SPORT *
- Choose one from the list:
  - PE 430 ADVANCED HEALTH AND SCIENCE CONCEPTS IN SPORT, FITNESS AND RECREATION
  - PE 435 ADVANCED CARE OF THE ATHLETE
  - PE 555 RESEARCH IN SPORT, FITNESS AND RECREATION

*Required for Athletic Coaching Endorsement

Educational Leadership Core Courses: 16 quarter hours required, grade of C or better required

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 495 SCHOOL LAW
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT

Elective Requirement: 4 quarter hours required, grade of C or better required

- Choose one from the list:
  - A&S 493 DATA DRIVEN DECISION MAKING
  - A&S 588 SERVICE LEARNING FOR HIGHER EDUCATION
  - A&S 590 ORGANIZATIONAL DEVELOPMENT
  - A&S 595 WORKSHOP IN EDUCATIONAL LEADERSHIP
  - A&S 596 HUMAN RESOURCE MANAGEMENT
  - PE 430 ADVANCED HEALTH AND SCIENCE CONCEPTS IN SPORT, FITNESS AND RECREATION
  - PE 435 ADVANCED CARE OF THE ATHLETE
  - PE 555 RESEARCH IN SPORT, FITNESS AND RECREATION

Choose one: Thesis (M.A.) or Paper (M.Ed) or Capstone (M.Ed):

- **Master of Arts (M.A.) Degree Requirements: 4 quarter hours, grade of C or better required**
  - A&S 599 THESIS SEMINAR IN EDUCATIONAL LEADERSHIP

The Master’s Thesis is completed in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the M.A. Thesis Handbook for additional information.

- **Master of Education (M.Ed.) Degree Requirements**
  - Paper Option
    - A&S 606 REVIEW OF LITERATURE
    - A&S 607 INTEGRATIVE PAPER
  - Capstone Option
    - A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP (4 quarter hours, grade of C or better required)

Review of Literature and Integrative Paper or Capstone project completed in conjunction with faculty advisement

Students who complete A&S 608 in replacement of A&S 606 and A&S 607 will complete an additional 4 quarter hours and will complete a total of 52 quarter hours for the MEd degree.

**Note: For other requirements please view the Degree Requirements section.**
Teacher Leader Concentration

Course Requirements

Educational Leadership Courses: 20 quarter hours required, grade of C or better required

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 499 PLANNING FOR PROFESSIONAL DEVELOPMENT

Curriculum Studies Courses Required: 16 quarter hours required, grade of C or better required

- CS 470 TEACHERS AS LEADERS
- CS 473 ASSESSMENT
- CS 482 THE HISTORY OF CURRICULUM PRACTICE
- CS 488 CURRICULUM DESIGN

Bilingual/Bicultural Education Courses Required: 4 quarter hours required, grade of C or better required

- BBE 599 LEADERSHIP IN EDUCATING LINGUISTICALLY DIVERSE LEARNERS

Elective Course Sequence: 8 quarter hours, grade of C or better required

Choose 2 courses from one of the concentrations below:

- Administrative Concentration
  - A&S 495 SCHOOL LAW
  - A&S 596 HUMAN RESOURCE MANAGEMENT
- Curriculum Studies Concentration:
  - CS 481 THE STUDY OF TEACHERS AND TEACHING
  - CS 591 CURRICULUM THEORIZING: MULTIPLE LENSES
- Bilingual Bicultural Concentration
  - BBE 404 LANGUAGE, LITERACY AND CULTURE
  - BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
- Foundations Concentration
  - Choose from two 600 level courses in consultation with faculty

Capstone Course Requirement, 4 quarter hours required, grade of C or better required

Students are required to take a capstone course to expand their knowledge in areas critical to school success.

- A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP

Principal License Concentration

Curriculum Studies Courses: 8 quarter hours required, grade of C or better required

- CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES
Educational Leadership Core Courses: 28 quarter hours required, grade of C or better required

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 492 THE PRINCIPALSHIP
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 494 SCHOOL FINANCE
- A&S 495 SCHOOL LAW
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT

Elective: 8 quarter hours required, grade of C or better required

- Choose two of the following:
  - SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
  - SCG 408 EDUCATION AND SOCIETY
  - Graduate course with permission of faculty advisor or program director

Internship: 4 quarter hours required, grade of C or better required

- A&S 601 INTRODUCTION TO THE INTERNSHIP (non-credit, non-tuition, PA grade required)
- A&S 602 PRINCIPAL LICENSURE INTERNSHIP I (2 quarter hours)
- A&S 603 PRINCIPAL LICENSURE INTERNSHIP II (2 quarter hours)

Capstone: 4 quarter hours required, grade of C or better required

- A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP

Capstone project completed in conjunction with faculty advisement

**Note: For other requirements please view the Degree Requirements section.

Principal License (Catholic) Concentration

Curriculum Course: 8 quarter hours required, grade of C or better required

- CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES
- CS 493 CURRICULUM DEVELOPMENT AND ASSESSMENT IN K-12 SCHOOLS

Educational Leadership Core Courses: 32 quarter hours required, grade of C or better required

- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 494 SCHOOL FINANCE
- A&S 495 SCHOOL LAW
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 570 HISTORICAL, PHILOSOPHICAL AND THEOLOGICAL FOUNDATIONS OF CATHOLIC SCHOOL LEADERSHIP
- A&S 571 SPIRITUAL AND ADMINISTRATIVE LEADERSHIP IN CATHOLIC SCHOOLS

Elective: 4 quarter hours required, grade of C or better required

- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES

Internship: 4 quarter hours required, grade of C or better required
Teacher Leader (Catholic) Concentration

Educational Leadership Core Courses: 20 quarter hours required, grade of C or better required
- A&S 491 EFFECTIVE LEADERSHIP OF SCHOOLS
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 496 STAKEHOLDER RELATIONSHIPS
- A&S 498 INSTRUCTIONAL SUPERVISION AND SUPPORT
- A&S 499 PLANNING FOR PROFESSIONAL DEVELOPMENT

Curriculum Studies Courses Required: 16 quarter hours required, grade of C or better required
- CS 470 TEACHERS AS LEADERS
- CS 473 ASSESSMENT
- CS 482 THE HISTORY OF CURRICULUM PRACTICE
- CS 488 CURRICULUM DESIGN

Bilingual/ Bicultural Education Courses Required: 4 quarter hours required, grade of C or better required
- BBE 599 LEADERSHIP IN EDUCATING LINGUISTICALLY DIVERSE LEARNERS

Electives: 8 quarter hours required, grade of C or better required
- Catholic Concentration:
  - A&S 570 HISTORICAL, PHILOSOPHICAL AND THEOLOGICAL FOUNDATIONS OF CATHOLIC SCHOOL LEADERSHIP
  - A&S 571 SPIRITUAL AND ADMINISTRATIVE LEADERSHIP IN CATHOLIC SCHOOLS

Research Course: 4 quarter hours required, grade of C or better required
- A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP

**Note: For other requirements please view the Degree Requirements section.
English (MA)

The Master of Arts in English program offers graduate courses in all periods of English and American literature as well as electives in language, teaching, and writing. The program requires a Capstone Portfolio or Thesis at the end of a student's course work, and provides options for independent study, internships, and thesis research.

Elective courses in the MA in English may be used for graduate certificate programs, such as the Certificate in Teaching English in the Two-Year Colleges. With planning, combined MA/certificate programs may require no additional coursework to fulfill all requirements.

The MA in English may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- English + Digital Humanities Certificate
- English + Teaching English to Speakers of Other Languages (TESOL) Certificate
- English + Teaching English in Two-Year Colleges Certificate
- English + Women’s and Gender Studies Certificate
- English + Publishing Certificate

Learning Outcomes

Students will be able to:

- Demonstrate a working knowledge of the major movements, authors, and canons of literature in English from the medieval period through the present.
- Identify and describe the conventions of the major literary genres in the English tradition: poetry, short fiction, the novel, drama, and literary nonfiction.
- Comprehend and assess the foundational assumptions of major schools of modern and contemporary critical theory.
- Apply a range of methods of literary criticism in order to produce coherently and adequately-supported interpretive analyses of literary works.
- Complete effective research papers that:
  - Survey and evaluate previous efforts in literary criticism.
  - Offer an original contribution to scholarship on the topic at hand.
  - Defend this argument with appropriate exposition and textual support.
  - Document primary and secondary sources accurately.
- Analyze and reflect on the meanings and values inherent in the terms "literature" and "literacy studies" in a diverse and changing world.
- Apply knowledge, vocabulary, and tools of literary study in professional contexts and genres, such as classroom teaching, conference papers, new media writing and academic webpage development, editing, course plans and syllabi, and/or oral presentations.
Degree Requirements

Course Requirements

48 hours of graduate credit in English

- Three core courses:
  - ENG 471 BOOK AND MEDIA HISTORY
  - ENG 472 LITERARY THEORY
  - One course in language chosen from among the following:
    - ENG 400 STRUCTURE OF MODERN ENGLISH
    - ENG 401 HISTORY OF THE ENGLISH LANGUAGE
    - ENG 402 HISTORY OF ENGLISH PROSE STYLE
    - ENG 407 LANGUAGE AND STYLE FOR WRITERS
    - ENG 408 STYLISTICS
- Five courses in Topics, Authors, and Genres in English, one each from these periods:
  - Medieval Literature
  - Renaissance Literature
  - Restoration/Eighteenth-Century British and/or Early American Literature
  - Nineteenth-Century British (Romantic and Victorian) and/or Nineteenth-Century American Literature
  - Twentieth/Twenty-first century British and/or American Literature
- Four electives drawn from English and American period courses, Language and Rhetoric, Studies in Literature, Studies in Writing, Independent Study (maximum of four hours), Internship (maximum of four hours), or Thesis Research (maximum of four hours; available for students exercising the thesis option).
- A passing grade on the Capstone Portfolio. In the final quarter of coursework, or soon after completion of all other degree requirements, a student will turn in a Capstone Portfolio to be evaluated by a faculty committee. A Portfolio that does not initially earn a score of “pass” must be revised until it does so.
- Instead of submitting a Capstone Portfolio, students may choose the Thesis Option (see below) as a Final Requirement for the MA in English.

Good Standing

To achieve good standing in the program, students must:

1. complete at least three courses within twelve months of their admission to the program (one of these courses must be ENG 471), and
2. maintain an overall grade-point average of at least 3.0 in their course work. Students whose cumulative GPA falls below 3.0 will be placed on probation and given two quarters to raise their average to the minimum 3.0 level. Students on probation are required to consult with the program director before registering for classes. Failure to meet these requirements constitutes grounds for dismissal.

Thesis Option

A thesis option is available to students who have a promising idea for a scholarly or creative project. Proposals must earn the approval of an English Department graduate faculty member, who will serve as project director, and of the Program Director. Credit is earned through ENG 501 THESIS RESEARCH. Students who choose to write a thesis need not submit a Capstone Portfolio, but can if they want. Please see the Program Director for more information on this option.
Enterprise Risk Management (MS)

The Master of Science in Enterprise Risk Management degree will provide you with the skills necessary to identify and manage the strategic, operational, cyber and financial risks facing firms today. This program is designed for experienced managers who seek to take on greater responsibilities in risk management, and for senior managers, corporate board members, c-suite executives and others with risk oversight responsibility. Graduates of the program emerge well-equipped for strategic planning roles that require proactive decisions to manage risks and protect the value of the enterprise for stakeholders.

Highlights

This multidisciplinary program incorporates required courses and electives from DePaul’s management, finance and real estate departments, School of Accountancy, Center for Strategy, Execution and Valuation and College of Computing and Digital Media. This rich curriculum will allow you to tailor your program to your career goals.

In the program, you will gain the knowledge and skills to:

- Define and manage various exposures that constitute the overall risk faced by a firm or enterprise.
- Organize, model and quantify the exposures and risks faced by your organization.
- Understand how insurance can be employed to avoid risk and protect your organization, and how the insurance market is structured and regulated.
- Calculate the effects of risks and exposures on the value of the firm or enterprise.
- Analyze how corporate governance structures relate to risk management processes.

Career Outlook

Job opportunities for risk officers are growing as organizations become increasingly concerned about the potential impact that strategic, operational, financial and cyber risks can have on the enterprise in today’s uncertain world. Board members of DePaul’s Arditti Center for Risk Management review the program’s curriculum regularly to ensure that it reflects the skills and knowledge sought in industry and provide students with access to career opportunities.

STEM Designation

DePaul’s Master of Science in Enterprise Risk Management is a Department of Homeland Security STEM-designated program. STEM designation is granted to programs that produce graduates educated in science, technology, engineering and/or math who help support U.S. economic competitiveness and growth. International students who earn degrees from STEM-designated programs can qualify to extend their post-graduation stay in the United States for Optional Practical Training (OPT). OPT provides an opportunity for international students to develop their careers while also helping meet the demand for STEM-educated professionals in the U.S. workforce. To find out more, contact the Kellstadt Graduate School of Business at kgsb@depaul.edu or (312) 362-8810.

Degree Requirements

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Define the exposures that constitute the overall risk faced by a firm or enterprise.
- Discuss the process of managing the various exposures that affect the firm or enterprise.
- Explain how insurance can be employed to avoid risk and protect the firm or enterprise.
- Explain how the insurance market is structured and regulated.
- Organize, model, and quantify the exposures and risks faced by the firm or enterprise.
- Calculate the effects of the risks and exposures on the value of the firm or enterprise.
• Analyze how a firm’s corporate governance structure relates to the risk management process.

Degree Requirements

The MS Enterprise Risk Management program (MSERM) will consist of 12 courses (48 credit hours), distributed amongst the four areas of risk management: strategic, operational, cyber, and financial. Students entering the Master of Science in Enterprise Risk Management (MSERM) program are expected to have the level of knowledge in accounting, economics and quantitative analysis that is equivalent to ACC 500, GSB 420, and ECO 555, respectively.

Based on previous course experience as an undergraduate or graduate student and in consultation with the Chair of the Department of Finance, these prerequisites can be waived for entering students.

Core Courses (9 required courses)

- FIN 555 FINANCIAL MANAGEMENT
- FIN 501 ETHICS IN FINANCIAL MARKETS
- FIN 523 INVESTMENT ANALYSIS
- FIN 540 CORPORATE GOVERNANCE
- FIN 562 RISK MANAGEMENT
- FIN 565 PRINCIPLES OF RISK AND INSURANCE
- FIN 566 RISK MANAGEMENT MODELING
- FIN 676 CASES IN RISK MANAGEMENT
- CNS 440 INFORMATION SECURITY MANAGEMENT

*FIN 500 is required for international students and may be waived for those students with a prior U.S. degree.

Elective Courses (3 courses)

Please choose any three elective courses from the following:

Computer Information and Network Security

- CNS 477 GOVERNANCE POLICIES IN INFORMATION ASSURANCE
- IS 444 IT AUDITING
- CNS 533 ENTERPRISE SECURITY INFRASTRUCTURE CONTROLS AND REGULATORY COMPLIANCE

Predictive Analytics*

- CSC 423 DATA ANALYSIS AND REGRESSION
- IS 467 FUNDAMENTALS OF DATA SCIENCE
- CSC 424 ADVANCED DATA ANALYSIS
- CSC 425 TIME SERIES ANALYSIS AND FORECASTING*

*It is recommended that CSC 425 be taken as a 13th course to complete Predictive Analytics.

Actuarial Science

- MAT 461 ACTUARIAL SCIENCE I: THEORY OF INTEREST
- MAT 462 ACTUARIAL SCIENCE II: BASIC CONTINGENCIES
- MAT 463 ACTUARIAL SCIENCE III: ADVANCED CONTINGENCIES

Portfolio Risk Management

- FIN 525 PORTFOLIO MANAGEMENT
- FIN 526 ADVANCED TOPICS IN INVESTMENTS
- FIN 662 DERIVATIVES VALUATION

Forensic Accounting

- ACC 635 PRINCIPLES OF FORENSIC ACCOUNTING
- ACC 645 FORENSIC AND INVESTIGATIVE ACCOUNTING
- ACC 646 FORENSIC ACCOUNTING AND VALUATION
Strategy, Execution and Valuation

- SEV 611 RETURN DRIVEN STRATEGY
- SEV 621 STRATEGY EXECUTION
- SEV 641 STRATEGIC VALUATION

Other electives that may be chosen are:

- ACC 636 INTERNAL AUDITING, CORPORATE GOVERNANCE AND INTERNAL CONTROL
- ACC 638 ADVANCED IT AUDITING
- FIN 500 UNIVERSITY EXPERIENCE: ACADEMIC AND BUSINESS CULTURE
- FIN 528 ALTERNATIVE INVESTMENTS
- FIN 553 ADVANCED CORPORATE FINANCE
- FIN 558 MERGERS AND ACQUISITIONS
- FIN 559 SUSTAINABLE VALUE CREATION
- MGT 501 STRATEGIC SUPPLY CHAIN MANAGEMENT
- MGT 502 OPERATIONS MANAGEMENT
- RE 530 REAL ESTATE INVESTMENT AND FINANCE
- RE 531 REAL ESTATE CAPITAL MARKETS AND FINANCE
- RE 535 INSTITUTIONAL REAL ESTATE INVESTMENT

**Degree Requirements**

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the nine required course and three elective courses.
- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction or degree requirements and is not applicable to the degree without the written approval of the director of the program or the Kellstadt Graduate School of Business.

**Combined Bachelor's/ Master's Degree**

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

**DePaul Undergraduate Degree/Enterprise Risk Management (MS)**

The Master of Science in Enterprise Risk Management degree will provide you with the skills necessary to identify and manage the strategic, operational, cyber and financial risks facing firms today. Graduates of the program emerge well-equipped for strategic planning roles that require proactive decisions to manage risks and protect the value of the enterprise for stakeholders.

**Admission**

This program is available to all DePaul Undergraduates who have met the prerequisites for admission. For admission to the combined program, applicants will need to provide:

- A completed application submitted to the Finance Department (application fee will be waived),
- A current resume/curriculum vitae summarizing their work experience and educational background, no more than 2 pages in length, and
- A personal statement outlining their personal goals in pursuing the MS degree program, no more than 2 pages in length.

Students must complete FIN 310 and all of its prerequisites with no course grade lower than B- to be considered for admission to the combined degree program. In addition, it is strongly recommended that students complete FIN 393: FINANCE INTERNSHIP, or provide evidence of equivalent work experience prior to their graduation quarter. The admissions committee may require applicants to participate in a personal interview.
Upon admission to the program students will take the following three courses while still enrolled as undergraduate students:

- FIN 555 FINANCIAL MANAGEMENT
- FIN 562 RISK MANAGEMENT
- FIN 565 PRINCIPLES OF RISK AND INSURANCE

Upon successful completion of the undergraduate degree and the three courses above, students complete the Master of Science in Enterprise Risk Management by taking 36 additional credit hours, including 24 hours of required courses and 12 hours of elective courses.

**Entrepreneurship (MBA)**

DePaul’s nationally ranked Entrepreneurship program will prepare you to start and grow your own business or to manage innovative processes in established firms. In the Entrepreneurship concentration, you will focus on the life-cycle issues of firms—from pre-venture and start-up to growth and maturity—as well as venture spin-offs and team and leadership issues.

The interrelated courses and learning experiences will teach you to master complex and ill-defined management issues across functional business areas. All courses are based on real-life entrepreneur issues and live case studies.

**Highlights**

You will gain the skills and abilities to:

- Think creatively and generate new business ideas.
- Develop your business idea through market analysis.
- Write a business plan.
- Assess your entrepreneurial leadership skills.
- Implement successful growth strategies.
- Build an entrepreneurial spirit within established firms.
- Consult for local businesses.
- Interact directly with entrepreneurs and innovators.

Students and alumni have access to DePaul’s highly respected Coleman Entrepreneurship Center and Center for Innovation, as well as 1871, Chicago’s premier business incubator, through DePaul’s 1871 membership. The Coleman Entrepreneurship Center offers practical guidance and professional connections for launching and growing businesses through workshops, guest speakers and new venture competitions that engage DePaul with the Chicago entrepreneurial and venture capital community. The Center for Innovation fosters innovative strategies and tools for breakthrough thinking. Named one of the Top 10 innovation programs by Fortune Small Business, the center offers programs and workshops including the annual Student Innovation Awards Competition. The center’s Innovation Lab offers Design Thinking projects for students and businesses and 3D printing services.

**Career Outlook**

The Entrepreneurship MBA concentration prepares students for career tracks that include business owner, business consultant, research or development consultant, innovation manager, new product development manager, market research analyst, product manager and business analyst. Alumni of DePaul’s graduate entrepreneurship programs have started more than 100 companies and raised millions of dollars in funding in recent years.

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.

Concentration Requirements

The Entrepreneurship MBA concentration requires students to complete any four of the graduate-level entrepreneurship-related courses. To help guide your class selections, below are examples of courses you could choose by career interests, with highly recommended courses for these career paths indicated with *.

New Venture Management

- MGT 530 LEADERSHIP IN ORGANIZATIONS
- MGT 563 NEGOTIATION SKILLS
- MGT 569 LEGAL ASPECTS OF ENTREPRENEURSHIP
- MGT 570 ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT*
- MGT 571 FINANCING NEW VENTURES
- MGT 573 CREATIVITY & INNOVATION IN BUSINESS
- MGT 798 SPECIAL TOPICS: FAMILY BUSINESS ENTERPRISES
- MKT 529 PRECISION MARKETING

Social Enterprise

- MGT 515 SUSTAINABLE MANAGEMENT
- MGT 569 LEGAL ASPECTS OF ENTREPRENEURSHIP
- MGT 570 ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT*
- MGT 595 SOCIAL ENTERPRISE
- MGT 793 MANAGEMENT INTERNSHIP
- MGT 799 INDEPENDENT STUDY

Innovation and Change

- MGT 535 CHANGE MANAGEMENT AND CONSULTING
- MGT 570 ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT
- MGT 573 CREATIVITY & INNOVATION IN BUSINESS*
- MGT 589 EXECUTIVE COACHING ? LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT
- MGT 590 MANAGEMENT OF INNOVATION AND TECHNOLOGICAL CHANGE
- MGT 798 SPECIAL TOPICS: PRODUCT DESIGN AND PROTOTYPING
Entrepreneurship (MS)

The Master of Science (MS) in Entrepreneurship is designed for students who have a passion for innovation and business. In this nationally recognized program, not only will you learn business principles and management techniques, but also you will be given the opportunity to develop and launch your own business venture under the guidance of DePaul faculty and mentors. The MS in Entrepreneurship is designed for students with bachelor’s degrees who are seeking opportunities to reach their enterprising goals faster.

Students who have earned or are earning MBA degrees also may be admitted to the program.

Highlights

Through the MS in Entrepreneurship program, you will gain knowledge in:

- Business development
- Developing and applying new innovations to existing business processes
- Product development strategies
- Investment strategies and techniques
- Social entrepreneurship

You also will have extensive networking opportunities with DePaul’s strong alumni network and business contacts. Many students enter the program with a business idea or ideas in mind or already developed. The college offers entrepreneurship competitions, guidance and networking opportunities through its entrepreneurship and innovation centers to help students develop their business plans. Students who have earned or are earning an MBA also may be admitted to the program.

Career Outlook

This degree prepares students to launch and grow their own businesses or for roles as business owners, consultants or analysts. Alumni of DePaul’s graduate entrepreneurship programs have started more than 100 companies and raised millions of dollars in funding in recent years.

<table>

Learning Outcomes

Students will be able to:

- Explain the unique nature of entrepreneurship.
- Explain the entrepreneurial process.
- Demonstrate skills inquiry, critical thinking, problem solving, and strategic analysis.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
Degree Requirements

Course Requirements

The MS in Entrepreneurship program requires 12 courses by taking eight core courses and four elective courses.

Core Courses (8 required courses)

- ACC 500 FINANCIAL ACCOUNTING
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 569 LEGAL ASPECTS OF ENTREPRENEURSHIP
- MGT 570 ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT
- MGT 571 FINANCING NEW VENTURES
- MGT 573 CREATIVITY & INNOVATION IN BUSINESS
- MGT 590 MANAGEMENT OF INNOVATION AND TECHNOLOGICAL CHANGE
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Elective Requirements (4 courses)

- MGT 557 INTERNATIONAL MANAGEMENT
- MGT 572 CORPORATE VENTURES AND MANAGEMENT
- MGT 595 SOCIAL ENTERPRISE
- MGT 793 MANAGEMENT INTERNSHIP
- MKT 529 PRECISION MARKETING
- MKT 537 NEW PRODUCT MANAGEMENT

Degree Requirements

1. Satisfactory completion of the college residency requirement.
2. Satisfactory completion of the 12 required courses, or their substitutes as approved by the Chair of the Management Department.
3. All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/ Entrepreneurship (MS)

The Master of Science in Entrepreneurship is designed for students who are interested in turning good opportunities into thriving businesses. Students gain the proficiency necessary to take on a variety of entrepreneurial opportunities, such as starting a new business, developing corporate innovation, cultivating new product development strategies, or becoming involved on the funding side with angel investment and venture capital firms. The program culminates in the new venture applied lab class where students are given the opportunity to launch and grow their entrepreneurial endeavor with the help of DePaul expert mentors.

DePaul degree-seeking undergraduate students interested in earning a Master of Science degree in Entrepreneurship may apply to the Bachelor's degree/Entrepreneurship (MS) combined program. Students may
be able to obtain both degrees in an expedited period, typically in five years.

**Admission**

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Upon identifying themselves as a combined degree applicant, the GMAT/GRE requirement will be waived. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take the following three graduate level courses during their senior year:

- ACC 500 FINANCIAL ACCOUNTING
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR (replaces MGT 302; prerequisite MGT 300)
- MGT 570 ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSE will be awarded upon completion of the remaining graduate level work.

---

**Experience Design (MA)**

The MA in Experience Design is an interdisciplinary program that prepares future experience designers by providing a foundation in design methods, critical thinking, collaboration, reflective practice and making, supplemented by skills and techniques to communicate and produce designed products and experiences in a range of media.

**Degree Requirements**

**Course Requirements**

No Introductory Course may be substituted for any other course at any level.

**Foundation Courses**

- HCD 421 DESIGN AND HUMAN EXPERIENCE
- HCD 450 THEORIES AND FRAMEWORKS IN HUMAN-CENTERED DESIGN
- MCS 502 MEDIA AND CULTURAL STUDIES

**Core Courses**

Choose two (2) courses from the following:

- EXP 440 PLAY AND EXPERIENCE DESIGN
- EXP 441 LEARNING AND EXPERIENCE DESIGN
- EXP 442 INTERFACE AND EXPERIENCE DESIGN
Design and Production Courses
Choose three (3) courses from the following:

- DC 413 PRODUCTION SOUND
- DC 441 STORYTELLING FOR VIDEO GAMES
- DC 468 INTERACTIVE DOCUMENTARY
- DMA 425 STILL IMAGE WORKSHOP
- DMA 475 MOVING IMAGE WORKSHOP
- DMA 480 WEB/MEDIA DELIVERY WORKSHOP
- GAM 424 GAME DESIGN WORKSHOP
- GAM 690 GAME DEVELOPMENT STUDIO I
- GAM 691 GAME DEVELOPMENT STUDIO II
- HCI 445 INQUIRY METHODS AND USE ANALYSIS
- HCI 460 USABILITY EVALUATION METHODS
- HCI 470 DIGITAL DESIGN
- HCI 515 DESIGN ETHNOGRAPHY
- HCI 530 MOBILE DESIGN
- JOUR 504 MULTIMEDIA NEWS PRODUCTION
- JOUR 507 VISUAL COMMUNICATION
- MCS 541 AUDIO DOCUMENTARY
- MCS 542 TOPICS IN PRODUCTION

Topic Area Electives
Choose two (2) courses from the following:

- HCI 553 SOCIAL INTERACTION DESIGN
- GAM 597 TOPICS IN GAME DESIGN
- HCI 520 LEARNER-CENTERED DESIGN
- MCS 501 FILM AND MEDIA THEORY
- MCS 520 TOPICS IN MEDIA STUDIES
- MCS 530 NEW MEDIA AND CULTURE
- JOUR 538 MASS COMMUNICATION IN THE DIGITAL AGE
- CMNS 501 COMMUNICATION IN CULTURAL CONTEXTS
- CMNS 545 COMMUNICATION AND TECHNOLOGY
- CMNS 552 STRATEGIC COMMUNICATION
- CMNS 570 INTRODUCTION TO DIGITAL CMN
- NMS 508 DESIGN RHETORICS
- NMS 510 WRITING DIGITAL CONTENT
- WRD 511 TOPICS IN COMMUNITY, CULTURE AND IDENTITY
- RELC 500 RELATIONAL COMMUNICATION THEORIES
- RELC 504 RELATIONAL COMMUNICATION AND ENTREPRENEURSHIP

Collaboration Practicum
Students must take the collaboration studio class three (3) times. These classes provide the opportunity for students to work in teams and to take on real-world challenges linked to community-based organizations and groups.

- EXP 480 COLLABORATION STUDIO

Optional Portfolio Workshop
Students have the option of taking a Portfolio Workshop courses focused on developing their professional identity, creating a portfolio, and preparing for their next career steps. This workshop course is optional and does NOT count toward the MA in Experience Design degree requirements.

- EXP 450 PORTFOLIO WORKSHOP

Degree Requirements
Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in the designated program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that
applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.

- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook in the Course Catalog.

---

**Learning Outcomes**

Students will be able to:

- Systematically access, analyze and evaluate information and ideas from multiple sources in order to identify underlying assumptions, and formulate conclusions.
- Create and support arguments using a variety of approaches.
- Communicate clearly in speech and writing.
- Use existing knowledge to generate and synthesize ideas in original ways.
- Design, develop and execute significant intellectual projects.
- Build a portfolio of work tied to a specific professional area of practice.
- Set priorities and allocate resources.
- Work towards goals independently and in collaboration with others.

---

**Film and Television (MFA)**

This degree is the highest level of training in digital filmmaking. The MFA in Film and Television program is a highly selective program that culminates in the successful completion of the MFA thesis project, a public presentation of the thesis project, and a defense of the thesis to the student’s MFA committee.

<table>

**Learning Outcomes**

**Concentration Specific Outcomes**

**Directing**
Students will be able to:

- Apply the principles of screenplay narrative conventions.
- Create a work that exhibits a cohesive visual style.
- Demonstrate a mastery of the pre-production process from a director’s perspective.
- Perform all basic tasks of all crew positions.
- Perform all the functions of a director as they relate to a crew and talent on location.
- Show a mastery of visual composition, cinematic exposure standards and basic semiotics.
- Show a mastery of visual storytelling through editing of picture and sound.
- Demonstrate an understanding of post-production workflow.

**Producing**

Students will be able to:

- Evaluate a screenplay’s merit.
- Perform the duties of a producer during pre-production.
- Employ creative producing techniques.
- Perform the duties of a line producer.
- Work with a director on location.
- Produce a film exhibiting mastery of visual storytelling through editing of picture and sound.
- Demonstrate a thorough understanding of the various means of distribution and exhibition.
- Demonstrate a thorough understanding of film promotion.

**Degree Requirements**

**Course Requirements**

No Introductory Course in any other program may be substituted for any other course at any level.

**Introductory Courses**

- DC 414 FUNDAMENTALS OF CINEMA PRODUCTION

Note: Students required to take must take the course during the Fall quarter of their first year and consult their advisor about their course sequence for their first year in the program.

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

**Required Courses**

- DC 401 WRITING THE SHORT MOTION PICTURE
- DC 402 WRITING THE FEATURE I
- DC 415 POST-PRODUCTION SOUND DESIGN
- DC 420 EDITING
- DC 423 PRODUCING: PRE-PRODUCTION
- DC 447 EXPERIMENTAL FILMMAKING I
- DC 461 PRODUCTION WORKSHOP
- DC 462 DIRECTING ACTORS
- DC 471 DOCUMENTARY PRODUCTION
- DC 475 CINEMATOGRAPHY
DC 476 VISUAL DESIGN
DC 490 DIRECTING THE PRODUCTION
DC 491 POST-PRODUCTION SEMINAR
DC 495 DIRECTING THE SHORT MOTION PICTURE
DC 460 FUNDAMENTALS OF SHORT FILM
DC 501 FOUNDATIONS OF SCREENWRITING
DC 520 FILM HISTORY FROM THE FILMMAKER'S PERSPECTIVE
DC 571 ADVANCED PRE-PRODUCTION FOR THESIS
DC 572 ADVANCED EDITING FOR THESIS
DC 573 ADVANCED SOUND WORKSHOP FOR THESIS (2 credit hours)
DC 574 ADVANCED FINISHING WORKSHOP FOR THESIS (2 credit hours)
DC 523 PRODUCING FOR DIRECTORS: PITCHING, PACKAGING, AND DISTRIBUTION
DC 403 WRITING THE FEATURE II
  o or DC 450 DIRECTING ACTORS FOR THE CAMERA
  o or DC 465 DIRECTING THE WEB SERIES
DC 499 INTERNSHIPS IN MEDIA AND DESIGN*
DC 488 FILMMAKERS SEMINAR*
  o or One (1) Major Elective

Major Electives

Students must choose any graduate level DC, ANI, TV, or VFX courses or MCS 502 MEDIA AND CULTURAL STUDIES.

*Optional Los Angeles Quarter

Students may apply to participate in the Los Angeles Quarter Program for the spring of their third year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and videogame world. If selected to participate in the LA program, MFA in Film and Television students would take DC 488 and DC 499 in Los Angeles.

MFA in Film and Television students who are not selected to participate in the LA program, would take DC 499 in Chicago and one (1) Major Elective.

MFA Thesis

The MFA Thesis should be a significant work that demonstrates a mastery of cinematic storytelling technique to convey the filmmaker's unique voice and vision. This project may be a short film or television/web series pilot. Feature films may be permitted with approval from the student's thesis committee.

Thesis Committee

Students will be asked to submit five preferences for full-time faculty members to serve on their thesis committees. Two committee members and one thesis chair will be assigned to each student by the Production-MFA Committee. During the thesis phase, the thesis committee supervises a student's project. Approval to proceed to the thesis classes is at the sole discretion of the thesis committee. If the thesis committee denies approval, students may appeal to the Production-MFA Committee. If appeals are denied, students are dismissed from the MFA program. Students in good academic standing may choose to complete an MS in Film and Television.

Thesis Classes

There are four crucial milestones a student must pass in order to proceed with thesis classes:

1) Script Approval

The thesis committee must approve a student's thesis screenplay before admission will be granted to DC 571 Advanced Pre-Production for Thesis. The thesis committees will notify the instructor of DC 571 of approved students.

2) Principal Photography

MFA students should complete principal photography prior to taking DC 572 Advanced Editing for Thesis. Only instructor approval (not thesis committee approval) is necessary to register for this class. If the instructor deems the student not ready to register for DC 572, the student must wait until the class is offered again, and must
again seek instructor approval to register.

3) Picture Lock
MFA students must edit and picture lock their films prior to taking DC 573 Advanced Sound Workshop for Thesis and DC 574 Advanced Finishing Workshop for Thesis. Thesis committees will notify the instructors of DC 573 and DC 574 of approved students, and the instructors will grant approval to register. If the thesis committee deems the student not ready to register for DC 573 and DC 574, the student must wait until the classes are offered again, and must again seek committee approval to register.

4) Final Thesis Delivery, Screening and Defense
MFA students will deliver their finished projects their thesis committees for exhibition at a culminating screening of all thesis films. After the screening, students will schedule a formal defense of their thesis films. If the film passes and upon completion of the required 96/100 credits of coursework, the student will be awarded an MFA. If the film does not pass, the student may revise it and re-defend. If the film does not pass again, the student will be dismissed from the MFA program. Students in good academic standing may choose to complete an MS in Film and Television.

DC 701 Thesis Continuation

This zero-credit course is for students who do not continue with the thesis classes as scheduled. A student's MFA thesis committee chair may enroll a student in DC 701 a maximum of six times. Failure to enroll in a course for three straight quarters will lead to a student becoming inactive at the university, and will require the student to reapply to the program should they wish to finish their degree. Re-admission cannot be guaranteed, and the student will be subject to follow the curriculum in place when they return.

Time Limit to Finish Degree

Students must complete all required coursework and defend their finished thesis projects in no more than five years from their first enrollment in the program. If the student does not complete the above requirements in the required five years, the student will be dismissed from the MFA program. As per University policy, during their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term. Such withdrawals do not count towards the time limit to finish the degree.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 96 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 3.0 or higher.
- Satisfactorily complete the MFA thesis as determined by the student's MFA Advisor Committee.
- Students cannot count credit earned towards a previously awarded master's or MFA degree toward the completion of this MFA program.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Sample Schedule

The representation of these course requirements on a year-by-year basis is just a suggestion. Students are free to take these courses in any order they choose, provided they have mastered the course-specific prerequisites.

First Year

Fall Quarter
DC 461 PRODUCTION WORKSHOP
DC 501 FOUNDATIONS OF SCREENWRITING
DC 460 FUNDAMENTALS OF SHORT FILM

Note: Students required to take DC 414 must take the course during the Fall quarter of their first year and consult their advisor about their course sequence for their first year in the program.

Winter Quarter

- DC 462 DIRECTING ACTORS
- DC 475 CINEMATOGRAPHY
- DC 420 EDITING

Spring Quarter

- DC 401 WRITING THE SHORT MOTION PICTURE
- DC 471 DOCUMENTARY PRODUCTION
- DC 415 POST-PRODUCTION SOUND DESIGN

Second Year

Fall Quarter

- DC 476 VISUAL DESIGN
- DC 423 PRODUCING: PRE-PRODUCTION
- DC 490 DIRECTING THE PRODUCTION

Winter Quarter

- DC 495 DIRECTING THE SHORT MOTION PICTURE
- DC 402 WRITING THE FEATURE I
- DC 520 FILM HISTORY FROM THE FILMMAKER'S PERSPECTIVE

Spring Quarter

- DC 491 POST-PRODUCTION SEMINAR
- DC 571 ADVANCED PRE-PRODUCTION FOR THESIS
- DC 447 EXPERIMENTAL FILMMAKING I

Third Year

Fall Quarter

- DC 572 ADVANCED EDITING FOR THESIS
- DC 523 PRODUCING FOR DIRECTORS: PITCHING, PACKAGING, AND DISTRIBUTION

Winter Quarter

- DC 573 ADVANCED SOUND WORKSHOP FOR THESIS (2 credit hours)
- DC 574 ADVANCED FINISHING WORKSHOP FOR THESIS (2 credit hours)
- DC 450 DIRECTING ACTORS FOR THE CAMERA
  - or DC 403 WRITING THE FEATURE II
  - or DC 465 DIRECTING THE WEB SERIES

Spring Quarter

- DC 499 INTERNSHIPS IN MEDIA AND DESIGN and DC 488 FILMMAKERS SEMINAR
  - or DC 499 INTERNSHIPS IN MEDIA AND DESIGN and one (1) Major Elective
Film and Television (MS)

The MS in Film and Television emphasizes the technical and technology-based topics and practices of digital cinema. Such topics and practices include post-production editing of video and audio, the integration of video and audio, special effects and computer-generated imaging, and modes of digital distribution.

Concentrations

Cinematography Concentration

Students develop a foundation in production for film, TV and the Web, while specializing in camera and lighting.

Post-Production Concentration

With advanced courses in editing, digital compositing, and color correction, students acquire the skills needed to work in all facets of cinema post-production.

Sound Concentration

Students develop the skills necessary to work in sound for cinema. Coursework includes advanced classes in location sound recording, dialogue editing, sound mixing, and scoring.

Degree Requirements

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Core Outcomes

Students will be able to:

- Create a work that exhibits a cohesive visual style.
- Demonstrate an understanding of the pre-production process.
- Perform all basic tasks of all crew positions.
- Direct a crew and talent on location.
- Show a mastery of visual composition, cinematic exposure standards and basic semiotics.
- Show a mastery of the principles of invisible editing and montage.

Concentration Specific Outcomes

Production

Students will be able to:

- Demonstrate an understanding of post-production workflow.
- Demonstrate an understanding of all basic tasks of the post-production sound process.

Post Production

Students will be able to:

- Integrate all elements of post-production to produce a finished work.
- Demonstrate an understanding of all basic tasks of the post-production sound process.
- Generate a work that utilizes advanced compositing techniques.
- Utilize color correction processes in finishing a film.
Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Course requirements are determined by the concentration chosen.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses in the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Cinematography
- Post-Production
- Sound
Cinematography Concentration

Course Requirements

- DC 414 FUNDAMENTALS OF CINEMA PRODUCTION
- DC 420 EDITING
- DC 425 COLOR CORRECTION
- DC 433 CINEMATIC SPACE
- DC 471 DOCUMENTARY PRODUCTION
- DC 475 CINEMATOGRAPHY
- DC 476 VISUAL DESIGN
- DC 477 LIGHTING I
- DC 484 LIGHTING FOR CINEMA II
- DC 494 ADVANCED CINEMATOGRAPHY
- DC 501 FOUNDATIONS OF SCREENWRITING
- DC 499 INTERNSHIPS IN MEDIA AND DESIGN*
- DC 426 ADVANCED COLOR CORRECTION
  - or DC 447 EXPERIMENTAL FILMMAKING I
  - or DC 488 FILMMAKERS SEMINAR*

*Optional Los Angeles Quarter

Students may apply to participate in the Los Angeles Quarter Program for the spring of their second year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and videogame world. If selected to participate in the LA program, MS in Film and Television - Cinematography students would take DC 488 and DC 499 in Los Angeles.

MS in Film and Television - Cinematography students who are not selected to participate in the LA program, would take DC 499 in Chicago and DC 426 or DC 447.

Post-Production Concentration

Course Requirements

- DC 414 FUNDAMENTALS OF CINEMA PRODUCTION
- DC 415 POST-PRODUCTION SOUND DESIGN
- DC 420 EDITING
- DC 422 EDITING STYLES AND TECHNIQUES
- DC 425 COLOR CORRECTION
- DC 440 ADVANCED EDITING
- DC 463 TITLES FOR CINEMA AND ANIMATION
- DC 475 CINEMATOGRAPHY
- DC 491 POST-PRODUCTION SEMINAR
- DC 501 FOUNDATIONS OF SCREENWRITING
- VFX 474 DIGITAL COMPOSITING I

Students must choose one (1) of the following options:
  - Option 1:
    - DC 499 INTERNSHIPS IN MEDIA AND DESIGN*
    - DC 488 FILMMAKERS SEMINAR*
  - Option 2:
    - DC 499 INTERNSHIPS IN MEDIA AND DESIGN
    - One (1) Major Elective
  - Option 3:
    - Two (2) Major Electives
**Major Elective Courses**

Major Elective courses must be chosen from the following:

- DC 426 ADVANCED COLOR CORRECTION
- VFX 478 DIGITAL COMPOSITING II
- VFX 490 ADVANCED TOPICS IN VISUAL EFFECTS

**Optional Los Angeles Quarter**

Students may apply to participate in the Los Angeles Quarter Program for the spring of their second year; they will spend twelve weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and videogame world. If selected to participate in the LA program, MS in Film and Television - Post-Production students would take DC 488 and DC 499 in Los Angeles.

MS in Film and Television - Post-Production students who are not selected to participate in the LA program, would take DC 499 in Chicago and one (1) Major Elective. Alternatively, students can instead take two (2) Major Electives.

---

**Sound Concentration**

**Course Requirements**

- DC 412 SCORING FOR FILM AND VIDEO
- DC 413 PRODUCTION SOUND
- DC 414 FUNDAMENTALS OF CINEMA PRODUCTION
- DC 415 POST-PRODUCTION SOUND DESIGN
- DC 416 TOPICS IN POST-PRODUCTION SOUND
- DC 417 SOUND MIXING I
- DC 418 SOUND MIXING II
- DC 419 ADVANCED SOUND RECORDING AND EDITING
- DC 420 EDITING
- DC 491 POST-PRODUCTION SEMINAR
- DC 501 FOUNDATIONS OF SCREENWRITING
- DC 499 INTERNSHIPS IN MEDIA AND DESIGN (Chicago) or one (1) Major Elective
- One (1) Major Elective

**Major Elective Courses**

Major Elective courses must be chosen from the following:

- DC 435 INTERACTIVE AUDIO AND VIDEO
- GAM 426 GAME SOUND DESIGN 2
- GAM 427 SCORING FOR GAMES
- GAM 451 EXPRESSIVE AUDIO SCRIPTING FOR GAMES
Sample Schedule

- Cinematography Concentration
- Post-Production Concentration
- Sound Concentration

The representation of these course requirements on a year-by-year basis is just a suggestion. Students are free to take these courses in any order they choose, provided they have mastered the course-specific prerequisites.

Finance (MBA)

The Finance MBA concentration provides you with in-depth, applied learning that will enable you to successfully understand, analyze and navigate today’s increasingly sophisticated global financial markets. Go beyond textbooks into the real world of stocks, investments, capitalization and banking while learning to use the latest high-tech financial software and market tools. You will receive a solid base of knowledge about various financial...
sectors and broaden your understanding of the issues that are inherent to finance decision-making, while focusing on the impact these decisions have on the public and private sectors of the global economy.

You have the choice of specializing in a particular area of finance—such as corporate finance, investments, derivatives or banking—or you may take a broad array of courses.

**Highlights**

In this program, you will gain the skills and knowledge to:

- Understand stock market analyses, institutional investing and portfolio management in domestic and global markets.
- Correctly valuate companies and markets through access to cutting-edge market research technology.
- Recognize and grasp the role and function of central banks in our economy and how their interactions with asset markets affect the larger economy.
- Develop risk management strategies.
- Apply what you learn in DePaul's Virtual Trading Room, a state-of-the-art finance lab replete with the latest in financial analysis software.

Students and alumni have access to DePaul’s finance industry-related centers, including the Arditti Center for Risk Management, Center for Financial Services and Driehaus Center for Behavioral Finance. These centers provide guidance, professional networking opportunities and real-world education through conferences that feature nationally and internationally known speakers, including executives from the Federal Reserve Bank of Chicago, Chicago Mercantile Exchange and Federal Deposit Insurance Corporation, among other financial institutions.

**Career Outlook**

The Finance MBA concentration provide a pathway to many different positions in the corporate, financial and public policy sectors, including roles such as chief financial officer, investment banker, risk management officer and senior financial analyst. Graduates have access to DePaul’s extensive finance alumni network that includes executives at some of the nation's largest institutions.

<tbody>
<tr>
<td>Concentration and Elective Requirements (varies with admission term)</td>
<td>24-36 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>48-72 hours</strong></td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.
MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.
Concentration Requirements

This concentration requires completion of four graduate-level Finance courses including one required course and three electives. RE 530 may be taken as one of the elective courses to satisfy the four course requirement.

Course Requirements

- FIN 523 INVESTMENT ANALYSIS
- Three electives in finance which may include RE 530 but not FIN 555

Students may design a specialization such as Corporate Finance, Investments, Derivatives, Banking, or they may take a broad array of courses. Those students interested in specializing in a particular aspect of Finance, can use the following to guide their course selection decisions.

Banking Courses

- FIN 512 COMMERCIAL BANKING
- FIN 513 MONEY AND CAPITAL MARKETS
- FIN 557 INTERNATIONAL FINANCE
- FIN 562 RISK MANAGEMENT

Behavioral Finance Courses

- FIN 581 THE PSYCHOLOGY OF FINANCIAL DECISION MAKING
- FIN 582 THE PSYCHOLOGY OF FINANCIAL MARKETS
- FIN 583 BEHAVIORAL ASPECTS OF CORPORATE FINANCE

Corporate Finance Courses

- FIN 551 PROBLEMS IN CORPORATE FINANCIAL POLICY
- FIN 553 ADVANCED CORPORATE FINANCE
- FIN 557 INTERNATIONAL FINANCE
- FIN 558 MERGERS AND ACQUISITIONS
- FIN 562 RISK MANAGEMENT

Investments Courses

- FIN 524 FINANCIAL STATEMENT ANALYSIS
- FIN 525 PORTFOLIO MANAGEMENT
- FIN 526 ADVANCED TOPICS IN INVESTMENTS
- FIN 581 THE PSYCHOLOGY OF FINANCIAL DECISION MAKING

Risk Management Courses

- FIN 557 INTERNATIONAL FINANCE
- FIN 562 RISK MANAGEMENT
- FIN 617 QUANTITATIVE METHODS
- FIN 662 DERIVATIVES VALUATION
- FIN 675 CASES IN INVESTMENTS AND FINANCIAL ENGINEERING

Finance (MSF)

The Master of Science in Finance program will provide you with the skills necessary to succeed as a financial management professional. You will develop a detailed understanding of modern financial markets and the instruments and tools used in the industry.
The curriculum covers complex, real-world topics, giving you the foundation you need to work in the financial industry. Courses delve into corporate finance, derivatives valuation, ethics, financial management, investment analysis, quantitative methods and risk management.

This degree is designed for the student who has earned a bachelor’s degree, or who has earned or is earning an MBA.

**Highlights**

Through the MS in Finance program, you will develop skills in:

- Financial decision-making techniques and strategies.
- Creating and developing solutions to complex financial problems.
- Designing, using and evaluating financial tools and instruments.
- Developing proposals for profitability and productivity.
- Outlining and identifying strategic financial objectives.
- Risk analysis.

The MS in Finance program is offered at DePaul’s Loop Campus, in the heart of Chicago’s financial district, allowing you to learn in the setting in which you will be working. You will be encouraged to complete an internship and participate in extracurricular activities and seminars around Chicago.

**Career Outlook**

Major firms, including Enova, Morningstar, EY and Deloitte, routinely recruit students from this program. More than 90 percent of recent graduates from Kellstadt were employed within six months of graduation.

| Introductory Requirements (waived with applicable prior credit) | 12 hours |
| Degree Requirements | 48 hours |
| **Total hours required** | **48-60 hours** |

**Learning Outcomes**

Students will be able to:

- Acquire both knowledge and skills that are broad, deep, and necessary to fulfill their professional goals.
- Use analytical and decision-making skills to solve problems encountered by business and investors.
- Apply financial theory to solve a variety of problems in investment management, risk management, and in corporate finance.
- Produce a coherent written statement of the analysis of a complex business issue.
- Understand and solve problems encountered by a multinational business.
- Develop the foundation to think about and address ethical issues in the context of financial markets and institutions.
Degree Requirements

Course Requirements

Each candidate is expected to demonstrate competency in principles of financial accounting, principles of microeconomics, principles of macroeconomics, business calculus and statistics prior to enrollment in the program. Students who have not demonstrated these competencies through previous course work are required to achieve competency prior to registration for the core courses.

Students complete the Master of Science in Finance by taking nine core courses and three elective courses in addition to the program prerequisites. At least two of these electives must be taken in finance and the third elective may be taken in the fields of accounting, economics or real estate as stated below.

Core Courses

- FIN 555 FINANCIAL MANAGEMENT
- FIN 523 INVESTMENT ANALYSIS
- FIN 524 FINANCIAL STATEMENT ANALYSIS
- FIN 553 ADVANCED CORPORATE FINANCE
- FIN 513 MONEY AND CAPITAL MARKETS
  or FIN 512 COMMERCIAL BANKING
- FIN 617 QUANTITATIVE METHODS
- FIN 662 DERIVATIVES VALUATION
- FIN 675 CASES IN INVESTMENTS AND FINANCIAL ENGINEERING
- FIN 501 ETHICS IN FINANCIAL MARKETS

Elective Requirement

Three elective courses are required. At least two of these required electives must be Finance courses that are not Special Topics courses (designated by FIN 798). One of the three required elective courses is considered an open elective and may be satisfied in one of the following ways:

- another finance course.
- a graduate course in Accounting, Economics, or Real Estate (other disciplines may be considered but require the permission of the faculty program director).
- a Special Topics course (designated by FIN 798).
- FIN 500 UNIVERSITY EXPERIENCE: ACADEMIC AND BUSINESS CULTURE is required for international students and may be waived for those students with a prior U.S. degree.

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the nine required courses and three elective courses.
- All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program or the Kellstadt Graduate School of Business.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Undergraduate DePaul Degree/Finance (MSF)
The Master of Science in Finance program will provide you with the skills necessary to succeed as a financial management professional. You will develop a detailed understanding of modern financial markets and the instruments and tools used in the industry. Courses in the program develop expertise in corporate finance, derivatives valuation, ethics, financial management, investment analysis, quantitative methods and risk management.

**Admission**

This program is available to all DePaul Undergraduates who have met the prerequisites for admission. For admission to the combined program, applicants will need to provide:

- A completed application submitted to the Finance Department (application fee will be waived),
- A current resume/curriculum vitae summarizing their work experience and educational background, no more than 2 pages in length, and
- A personal statement outlining their personal goals in pursuing the MS degree program, no more than 2 pages in length.

Students must complete FIN 310 and all of its prerequisites with no course grade lower than B- to be considered for admission to the combined degree program. In addition, it is strongly recommended that students complete FIN 393: FINANCE INTERNSHIP, or provide evidence of equivalent work experience prior to their graduation quarter. The admissions committee may require applicants to participate in a personal interview.

Upon admission to the program students will take the following three courses while still enrolled as undergraduate students:

- FIN 555 FINANCIAL MANAGEMENT
- FIN 524 FINANCIAL STATEMENT ANALYSIS
- FIN 617 QUANTITATIVE METHODS

Upon successful completion of the undergraduate degree and the three courses above, students complete the Master of Science in Finance by taking 36 additional credit hours at the graduate level.

---

**French (MA)**

DePaul's innovative new MA program in French provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multiethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, businesspeople, or certified K-12 teachers) whose careers require this applied expertise.

The MA in French may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- French + Digital Humanities Certificate
- French + Teaching English to Speakers of Other Languages (TESOL) Certificate
Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements

The curriculum of the MA in French will consist of twelve courses (48 quarter credit hours), divided into two parts:

- A core curriculum of four courses (16 quarter credit hours) required of all students, and
- Eight courses (32 quarter credit hours) in the language area, which must include an approved “cluster” of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest.

Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student's program (i.e. courses with prefixes FCH). In exceptional cases, with the approval of the student's advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight “language area” courses in the student's program.

Core Curriculum

The core curriculum consists of the following four courses:

- MOL 401 PROFESSIONAL FOUNDATIONS
- MOL 402 LANGUAGE, SELF AND SOCIETY
- MOL 403 COMMUNITIES OF PRACTICE
- MOL 496 MAMOL CAPSTONE

In addition, all three-hundred level courses in the respective languages are offered simultaneously as 400-level electives to complete the MA program. These 400-level courses carry different requirements than the lower-level courses.

Additional Requirements

Additional requirements include:

- ACTFL Oral Proficiency Interview
Portfolio Project

All students must attain a rating of at least “Advanced Low” from the standardized Oral Proficiency Interview (OPI) of the American Council on Teaching Foreign Languages (ACTFL).

The service learning experience will involve work within an environment where the student can apply her or his linguistic expertise, as a volunteer, contributor, intern, or employee. This environment might be a community group; a social service or agency; a professional association; or an artistic organization. This experience should ideally contribute to the student’s portfolio project.

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program or a final project with written critical assessment. Final projects may include a community service experience, internship, performance and creative work, thesis, or translation.

Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.00.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework. The thesis should address the area of interest of the candidate’s course “cluster.”

Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “intermediate high” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply “transfer” credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.
Game Design (MFA)

This degree is for creative visionaries intent on producing socially, culturally, and emotionally substantial work. The degree prepares students to advance the frontier of games by exploring emerging theories and applying them to practice. The games students create throughout their degree will be challenged by peers and faculty in critiques. Graduates of the program will be equipped to define and realize their authentic, thriving professional lives. An MFA is also a terminal degree that opens opportunities to teach at the university level and enter an academic tenure-track career.

| Total hours required | 64 hours |

Learning Outcomes

Students will be able to:

- Define the medium of games in terms of its technical, sensual, and conventional affordances as well as describe its history.
- Critique any game from a variety of perspectives including historical, aesthetic, and social.
- Brainstorm original visions for games that are in scope with available resources.
- Leverage the affordances of games to intentionally evoke specific emotions and experiences, purposefully communicate ideas as well as have the desired social impact.
- Situate their creative practice within historical, aesthetic, and social contexts; design and develop games that are significant in those contexts.
- Build a portfolio of publicly shown work tied to a specific area of professional practice.
- Iteratively build projects up from simple prototypes to increasingly complex systems.
- Work toward goals independently and in collaboration with others.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

- GAM 420 CREATIVE COMPUTATION
- GAM 424 GAME DESIGN WORKSHOP
- GAM 430 ART GAMES BOOTCAMP
- GAM 440 GAMES WITH A PURPOSE BOOTCAMP
- GAM 520 GAME DESIGN PROSEMINAR
- GAM 530 GAMES STUDIES PROSEMINAR
- GAM 540 GAME DEVELOPMENT PRACTICUM
- GAM 550 INCUBATION STUDIO
- Five (5) Focus Area Electives
  - Focus Area Electives include any graduate level GAM, ANI, DC, GD, EXP, ISM, GPH, or VFX courses.
Students should work with their faculty advisor to select a grouping of Focus Area Electives that will best serve the student's professional trajectory.

- **GAM 600 THESIS STUDIO**
  - Students must take GAM 600 three (3) times, over three consecutive quarters.

### MFA Thesis Proposal and Development

In parallel to taking Incubation Studio in Winter quarter of their second year to prepare their Thesis proposal, students must solicit a Thesis committee consisting of 2-3 members. At the end of the Incubation Studio each student's Thesis committee assesses their progress and provides feedback and guidance on the Thesis proposal. By the beginning of Spring quarter the Thesis committee will have given feedback and students will have had the opportunity to revise their Thesis proposal. With their Thesis committee's approval candidates can enter Thesis Studio Spring quarter to begin their Thesis project. Candidates continue Thesis development through Thesis Studio courses taken in the Fall and Winter quarters of their third year. In addition to work completed in the Thesis Studio courses students are required to provide quarterly evidence of progress, iteration, and refinement to their Thesis committee in the form of playable prototypes, proof of concept papers, or other appropriate means. The forum to present progress is in an end-of-quarter critique with the entire third-year cohort and all Thesis committee faculty in attendance.

### MFA Thesis Showcase and Defense

Candidates will turn in a final draft of their completed Thesis project by the end of the Winter quarter of the third year and be required to publicly show their work in the annual MFA showcase or exhibit their work in a juried venue. The candidate will defend the Thesis before the Thesis committee who will review the Thesis project to decide whether the candidate should be awarded the degree. If the committee does not deem the project ready for approval, the student will be given notes and asked to resubmit their project. Students may resubmit up to three times. If a student's project is not deemed passable after the fourth time, the student will not receive the MFA. Students have eighteen months from the submission of their first draft to obtain the committee's approval or the degree will not be awarded.

### Sample Schedule

#### First Year

**Fall Quarter**

- GAM 420 CREATIVE COMPUTATION
- GAM 424 GAME DESIGN WORKSHOP

**Winter Quarter**

- GAM 430 ART GAMES BOOTCAMP
- GAM 520 GAME DESIGN PROSEMINAR

**Spring Quarter**

- GAM 440 GAMES WITH A PURPOSE BOOTCAMP
- One (1) Focus Area Elective

#### Second Year

**Fall Quarter**

- GAM 540 GAME DEVELOPMENT PRACTICUM
- GAM 530 GAMES STUDIES PROSEMINAR

**Winter Quarter**
Game Programming (MS)

The MS in Game Programming is designed for those interested in game development programming at the highest level, including computer science and computer graphics professionals retooling for the game industry.

<table>
<thead>
<tr>
<th>Introductory Courses</th>
<th>0-24 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>52 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td>52-76 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Demonstrate proficiency with real-time C++ programming language.
- Design and implement real-time networking for games.
- Create and design software architecture systems using Design Patterns technique.
- Apply real-time polygonal video graphics and rendering systems to solve graphics and simulation problems.
- Design and implement a real-time Game Engine.
- Manage software projects in a local and global environment.
Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

- CSC 400 DISCRETE STRUCTURES FOR COMPUTER SCIENCE
- CSC 401 INTRODUCTION TO PROGRAMMING
- CSC 402 DATA STRUCTURES I
- CSC 403 DATA STRUCTURES II
- CSC 406 SYSTEMS I
- CSC 407 SYSTEMS II

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Foundation Courses

- GAM 425 APPLIED 3D GEOMETRY
- CSC 461 OPTIMIZED C++
- SE 456 ARCHITECTURE OF REAL-TIME SYSTEMS
- GPH 469 COMPUTER GRAPHICS DEVELOPMENT
  - or GAM 470 RENDERING AND GRAPHICS PROGRAMMING

Advanced Courses

- CSC 486 REAL-TIME NETWORKING
- GAM 475 GAME ENGINE PROGRAMMING I
- GAM 575 GAME ENGINE PROGRAMMING II
- GAM 476 ARTIFICIAL INTELLIGENCE FOR COMPUTER GAMES
  - or GAM 450 PHYSICS FOR GAME DEVELOPERS

Major Elective Courses

Students must complete a total of three (3) graduate level elective courses. Students must choose two classes from the list below. The third course can be from the list below or any GAM courses in the 421-699 range.

Computer Science Systems Electives

- CSC 421 APPLIED ALGORITHMS AND STRUCTURES
- CSC 443 INTRODUCTION TO OPERATING SYSTEMS
- CSC 447 CONCEPTS OF PROGRAMMING LANGUAGES
- CSC 448 COMPILER DESIGN
- CSC 451 DATABASE DESIGN
- CSC 462 C++ MULTITHREADING

Artificial Intelligence Electives

- GAM 476 ARTIFICIAL INTELLIGENCE FOR COMPUTER GAMES
- CSC 480 ARTIFICIAL INTELLIGENCE I
- CSC 578 NEURAL NETWORKS AND DEEP LEARNING
- CSC 583 ARTIFICIAL INTELLIGENCE II

Networking Electives

- CSC 435 DISTRIBUTED SYSTEMS I
- CSC 536 DISTRIBUTED SYSTEMS II
Project Management Electives

- SE 433 SOFTWARE TESTING AND QUALITY ASSURANCE
- SE 459 AGILE SOFTWARE DEVELOPMENT
- SE 475 MANAGING GLOBALLY DISTRIBUTED SOFTWARE DEVELOPMENT
- SE 477 SOFTWARE AND SYSTEMS PROJECT MANAGEMENT

Graphics Electives

- GPH 438 COMPUTER ANIMATION SURVEY
- GPH 448 COMPUTER GRAPHICS SCRIPTING
- GPH 539 ADVANCED RENDERING TECHNIQUES
- GPH 570 VISUALIZATION
- GPH 572 PRINCIPLES OF COMPUTER ANIMATION
- GPH 580 HARDWARE SHADING TECHNIQUES
- GPH 436 FUNDAMENTALS OF COMPUTER GRAPHICS
- CSC 465 DATA VISUALIZATION

Object Oriented Design Electives

- SE 430 OBJECT ORIENTED MODELING
- SE 433 SOFTWARE TESTING AND QUALITY ASSURANCE
- SE 450 OBJECT-ORIENTED SOFTWARE DEVELOPMENT
- CSC 552 CONCURRENT SOFTWARE DEVELOPMENT

Game Specialties Electives

- GAM 450 PHYSICS FOR GAME DEVELOPERS
- GAM 453 TOOL PROGRAMMING FOR GAME DEVELOPMENT
- GAM 576 GAME ENGINE PROGRAMMING III

Mobile Games Electives

- CSC 471 MOBILE APPLICATION DEVELOPMENT FOR IOS
- CSC 472 MOBILE APPLICATION DEVELOPMENT FOR ANDROID
- CSC 491 MOBILE APPLICATION DEVELOPMENT FOR IOS II
- CSC 492 MOBILE APPLICATION DEVELOPMENT FOR ANDROID II
- CSC 540 MOBILE APPLICATION DEVELOPMENT II
- GAM 486 GAME PROGRAMMING FOR MOBILE DEVICES

Capstone

Students must complete the following courses:

- GAM 695 MASTER'S GAME RESEARCH STUDY and CSC 588 REAL-TIME MULTITHREADED ARCHITECTURE
  - or GAM 690 GAME DEVELOPMENT STUDIO I and GAM 691 GAME DEVELOPMENT STUDIO II

Note: Students must register for GAM 690 and GAM 691 in consecutive quarters. A grade will not be assigned for GAM 690 until GAM 691 has been completed.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.
Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Generalist Nursing (MS)

Designed for the college graduate who wants to become a registered nurse, the Master's Entry to Nursing Practice (MENP) program provides the advanced education for general professional nursing practice and eligibility for the RN licensure examination (NCLEX-RN).

Program Goals and Learning Outcomes

The purpose of the graduate generalist program in nursing is to prepare qualified individuals for:

- Licensure by examination (NCLEX-RN) required for entry into professional nursing practice
- Advanced professional practice and leadership in health promotion and illness care
- Collaboration and scholarship with others to meet the present and future health needs of society
- Community service for vulnerable populations in the Vincentian tradition
- Continuing academic and clinical education at the post-graduate and doctoral levels

The graduate of the program will:

- Analyze nursing concepts, theories, and research to design, implement, and evaluate family-centered and community-based models of professional nursing
- Develop a personal philosophy of professional nursing in the context of extant philosophies, nursing's history, and its evolution as a discipline
- Enhance the diversity and harmony of each unitary human being in mutual process with the environment
- Contribute to excellence in patient care and advances in nursing knowledge across the lifespan through advanced health assessment, evidence-based professional practice, systematic inquiry, planned innovation, and dissemination of information to consumer and professional audiences
- Assume a leadership role within the health team and the profession for safe, effective and affordable health care with individuals, families, and communities
- Demonstrate autonomy, integrity, and social justice in professional nursing practice
- Analyze professional codes and standards as a basis for professional nursing practice and service to a multicultural society
- Use an analytical framework to evaluate information systems and technology in health care

care with individuals, families, and communities.

- Demonstrate autonomy, integrity and social justice in professional nursing practice.
- Analyze professional codes and standards as a basis for professional nursing practice and service to a multicultural society.
- Use an analytical framework to evaluate information systems and technology in health care.

Degree Requirements

Course Requirements

Level I (Basic Graduate Generic) - 35 credits

- NSG 301 INTRODUCTION TO THE ART AND SCIENCE OF NURSING I (5)
- NSG 302 INTRODUCTION TO THE ART & SCIENCE OF NURSING II (8)
- NSG 303 INTRODUCTION TO THE ART & SCIENCE OF NURSING III (8)
- NSG 307 ART AND SCIENCE OF NURSING IV: PSYCHIATRIC MENTAL HEALTH (6)
- NSG 322 BASIC PATHOPHYSIOLOGY AND PHARMACOLOGY (4)
- NSG 332 HEALTH ASSESSMENT (4)

Level II (Advanced Graduate Generic) – 40 credits

- NSG 431 HEALTH PROMOTION FOR FAMILIES AND COMMUNITIES (4) *
- NSG 440 MATERNAL HEALTH NURSING (6)
- NSG 441 INFANT, CHILD AND ADOLESCENT NURSING (6)
- NSG 442 COMMUNITY HEALTH NURSING (6)
- NSG 443 CLINICAL IMMERSION AND INTERNSHIP (6)
- NSG 445 NURSING PROFESSIONALISM, ADVOCACY, AND LEADERSHIP (4)
- NSG 472 CRITICAL CARE NURSING (8)

Level III (Graduate Core Courses) – 20 credits

- NSG 400 THEORETICAL COMPONENTS OF NURSING (4)
- NSG 401 NURSING RESEARCH I (4)
- NSG 481 BIOSTATISTICS AND EPIDEMIOLOGY (4)
- NSG 540 CULTURE, ETHICS, AND POLICY ANALYSIS (4)
- NSG 598 GRADUATE RESEARCH SYNTHESIS (4)
  or NSG 599 THESIS RESEARCH (4)

Level IV (Advanced Practice Core Courses) - 12 credits

- NSG 422 APPLIED PATHOPHYSIOLOGY (4)
- NSG 426 PHARMACOLOGY II (4)
- NSG 460 ADVANCED PHYSICAL ASSESSMENT ACROSS THE LIFESPAN (4)

** DePaul students who complete NSG 431 as DePaul undergraduates and who subsequently enroll in and complete the MENP program are not required to complete 4 additional quarter hours of coursework. They are considered to have completed all requirements of the MENP program and the requirement to take 4 additional quarter hours is waived for these students.
Program Graduate Academic Student Handbook

A complete list of policies specific to the nursing programs of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing.

Retention Policies

1. Students must maintain a cumulative GPA of 3.0 or greater to remain in good standing. A student will be placed on academic probation if the cumulative GPA dips below 3.0. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the cumulative GPA is raised to at least 3.0 by the end of the next academic quarter, the student is no longer on probation. If the cumulative GPA has not risen to 3.0 by the end of the next academic quarter, the student will be dismissed from the program.

2. If a student earns a C or C- in any course, the student is placed on probation. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the student is able to earn grades in all courses that are C+ or above and earn a cumulative GPA of 3.0 or greater by the end of the next academic quarter, the student is no longer on probation. If this does not occur, the student will be dismissed from the program.

3. A student who earns a D or lower in any course will be dismissed from the program.

4. A student may be placed on probation a maximum of two times during his/her program, with no more than one placement on probation per academic year. Placement on probation two times within one academic year is grounds for dismissal. Likewise, an occurrence of an earned grade of C or C- or a cumulative GPA below 3.0 a third time during the student's time in the program is grounds for dismissal.

5. Clinical courses may not be re-taken to raise an unsatisfactory grade.

6. In accordance with the nursing licensing regulations, students found to be convicted of serious crimes (felonies, substance abuse) will be reviewed by the Admissions, Progression, and Retention Committee and may be suspended or dismissed from the program.

7. The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University.

8. Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (Appendix B in the Student Handbook). Appropriate student conduct includes but is not limited to: being punctual for all classes; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; maintaining academic integrity, avoiding leaving the classroom/clinical area other than during designated breaks and only with the permission of the responsible faculty member; fostering a positive learning environment by respecting the ideas and opinions of others; not talking during class or engaging in activities that distract the attention of others, including keeping cell phones and pagers set on silent mode; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others; and remaining emotionally calm without inappropriate outbursts.

9. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with a written copy of the incident placed in the student’s file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Associate Director of the Program, and the Admissions, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. (For additional information, please see both the University Student Handbook-available online, as well as the "Student Misconduct Process" outlined below.)

Progression Policies

1. All students must attend an orientation session before beginning the nursing program of studies.

2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year. The student is responsible to sign the coversheet of the Student Handbook and give this to his/her advisor at the time of their initial meeting.

3. Students must meet with their academic advisor at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Advisors are not generally available during the months of July and August.

4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.

5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.

6. All required health records, evidence of CPR certification, criminal background checks, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual
student’s responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date at the beginning of each course will result in inability to attend the clinical component of the course.

7. Leave of Absence:

1. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Associate Director of the program and the Coordinator of Clinical Placements and Admission, Progression and Retention Committee should be notified. Depending on circumstances and estimated length of absence, the Associate Director or student’s academic advisor may recommend additional action to complete the request process.

2. Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student’s responsibility to send a copy of such request to the Director of the School of Nursing, the student’s faculty advisor, the Associate Director of the Program, and the Coordinator of Clinical Placements. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the DePaul Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become “out of sequence students” due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. “Out of sequence students” cannot displace in-sequence students from a clinical spot.

8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.

9. A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with both the Director of the School of Nursing and the Associate Director of the Program and the course faculty.

10. A student who withdraws from a core nursing course who is ‘not in good standing’ (with a grade of “C” or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty and the Associate Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11. A student may withdraw from a core nursing course ‘not in good standing’ (with a grade of “C” or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.

12. All out of sequence students will be placed in clinical on a space/faculty available basis. Priority will be given to students who are out of sequence for military service, severe illness, or family leave rather than for failure or withdrawal ‘not in good standing’.

13. A student who has a grade of B- (86% or less) at mid-quarter may be placed on contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.

**Academic Integrity Policy**

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students' own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found at [http://offices.depaul.edu/oaa/faculty-resources/teaching/academic-integrity/for-students/Pages/default.aspx](http://offices.depaul.edu/oaa/faculty-resources/teaching/academic-integrity/for-students/Pages/default.aspx)

**Academic Integrity Policy Extension for Clinical and Service Settings**

DePaul University  Autumn 2017-2018  Page 248 of 2468
DePaul University is committed to education that engages its students, faculty and staff in work within Chicago's institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well. See also The School of Nursing Professional Development Guidelines (Appendix B in the Student Handbook).

**HESI Exam Policy**

MENP students are required to take all proctored HESI exams as part of the clinical courses in the MENP program. Each clinical course will allocate 5% of the total 100% available for the final course grade to the HESI exam. Students with a score of 775 or above on the first attempt will receive 5%. Students who score below 775 on the first attempt will earn 0% at that time, but will be able to earn some course credit through mandatory remediation and retake of the exam as outlined in the succeeding paragraphs.

The Critical Thinking HESI exam is an exception to this policy. This exam will be used to evaluate critical thinking across the program. The exam will be administered once during both the first and final quarters of the MENP program. There is no required passing score for this exam.

**Remediation**

Students who fail to pass the HESI exam in a clinical course on the first attempt will be required to complete 4 hours of remediation before retaking the exam. This will consist of reviewing the individualized HESI Remediation Plan with the course director, completing assigned case studies, and doing NCLEX style practice questions from Silvestri, L.A., & Silvestri, A. (2016) Saunders 2016-2017 Strategies for Success: Passing Nursing School and the NCLEX Exam (4th Ed.) St. Louis, MO: Elsevier. Once remediation has been completed as determined by the course director, the student will earn 2%.

Students will be required to wait a minimum of 1 week between the initial HESI exam and the retake. If the retake has not been completed by the time final course grades are submitted, the student will receive an incomplete in the course until this requirement has been satisfied. If a student retakes the HESI exam and achieves a score of 775 or above, the student will receive 2%. This will give the student a total of 4% of the available 5% of the total course grade allocated to the HESI exam (2% for successfully completing the remediation work and 2% for passing the HESI exam on the second attempt). If a student fails to pass the HESI exam on the second attempt, the student will receive a total of 2% of the available 5% of the total course grade allocated for the HESI exam for having successfully completed the remediation work.

**Comprehensive HESI Exit Exam**

Students taking the Comprehensive HESI Exit Exam are required to achieve a score of 850 or above to pass. Students who fail to pass on the first attempt will be required to complete remediation and retake the exam no sooner than 7 days after taking the initial exam. The remediation will consist of reviewing the individualized HESI Remediation Plan with your course director, completing assigned case studies, and doing NCLEX style practice questions from Silvestri, L.A., & Silvestri, A. (2016) Saunders 2016-2017 Strategies for Success: Passing Nursing School and the NCLEX Exam (4th Ed.) St. Louis, MO: Elsevier. Because the HESI exit exam is taken in NSG 443, a Pass/No Pass course, no additional course credit is earned for remediation or passing on the second attempt. If the student fails to pass on the second attempt, the student will pass the course but will be required to meet with the MENP program director to review areas for further study to encourage preparedness for NCLEX.

**Clinical Guidelines**

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her instructor in the event that the student encounters problems with his/her supervisor, preceptor, or staff at the site.

Students are required to:

1. Attend ALL scheduled learning activities including orientation, lectures, exams, seminars, laboratories, simulation activities, observations, clinical practicums, evaluation conferences, and other comparable activities. If any scheduled learning activities are missed, the student will need to make-up these learning activities or withdraw from the course. Students are advised that opportunities for making up learning activities are subject to clinical faculty, site and laboratory availability.

Students are responsible for notifying the appropriate faculty member when an absence from a scheduled learning activity cannot be completed. Notification of faculty prior to an absence is expected, and when not possible, the student is responsible for notifying the faculty as soon as possible. An excused absence is
defined as an absence for illness or other special circumstance, in which the faculty has been notified prior to the absence. Unexcused absence is defined as an absence for i.e., vacation, or other activities, which result in an absence, and have not been pre-approved by faculty. Students are responsible for resolving any conflicts that may arise. Failure to notify an instructor or preceptor of absence or tardiness is grounds for dismissal from the program.

The decision regarding the make-up of learning activities or consequent withdrawal from a course resides with the course director and/or clinical instructor as specified in the course syllabus and as practical to the missed activity and class/clinical setting. Any absence may result in a lower grade. Absences of more than 15% of the total course hours may result in failure of the course.

Arrive on time, prepared for all scheduled learning activities. This includes but is not limited to: appropriate dress, knowledge of medications, development of an appropriate plan of care, completion of all written and motor tests on skills that are necessary to a particular clinical rotation/setting. Refer to Dress Code Policy.

2. Students deemed unprepared or tardy may be asked to leave the clinical setting, receiving an "Unexcused" absence for the day. An "Unexcused" absence in clinical may result in failure of the course.
3. Purchase a watch with a second hand or digital second reading capability, a stethoscope with both a diaphragm and bell (dual head), a penlight, bandage scissors, student uniform(s) and lab coat with DePaul Nursing patches, name pin/badge, black ball point ink pen.
4. Provide own transportation to clinical sites and pay for own parking as needed. Students are not allowed to transport clients or client families at any time.
5. Know and follow individual clinical agency policies and procedures. This information is available through each individual agency.
6. Use his/her legal signature in charting. The initials NS are to follow the legal signature.
7. Be knowledgeable about the legal implications of giving narcotics and act accordingly.
8. Comply with additional requirements of the clinical setting including but not limited to drug screening.
9. Bring reference books and materials to the clinical setting as needed to provide safe care
10. Pass a medication dosage calculation quiz at 100% prior to the start of each clinical practicum
11. Full-time students are expected to direct their major energy to their program of study. Thus the School of Nursing recommends that students limit their outside employment to 16 hours per week during periods when classes are in session. Previous experience demonstrates that students who work in excess of this recommendation endanger their scholastic standing and place themselves "at risk" for academic failure. Neither the university nor the School of Nursing has or assumes responsibilities for the nursing care of patients rendered by the student working as a nursing assistant since the student is employed by the nursing service and during such employment is not under the supervision of DePaul University.
12. Students are not to be assigned to the same clinical units in a hospital where they are concurrently employed.
13. The student uniform, nor any part of it, is not to be worn in or around the student's place of employment.

The following activities are prohibited in the clinical setting. Nursing students will:

1. NOT serve as witnesses of operating and diagnostic permits, wills, or other legal documents.
2. NOT take verbal orders or telephone orders from a physician.
3. NOT sign off blood products, or administer chemotherapeutic agents. Students may NOT administer IV push medications nor work with central lines, unless directly supervised by their clinical instructor.

Medication Safety Exam Policy

The ability to calculate medication dosages is vital to the patient's safety. To ensure that students can demonstrate competence in dose calculation, a medication safety exam (MSE) will be given in each clinical course (generally during the first week of class) prior to the student being allowed to pass medications in that clinical. Increasing levels of competency will be assessed with each subsequent clinical course (i.e. the math exam in NSG 301 will be less difficult than the exam given in NSG 472). Students must pass each exam at 93%. Students are expected to purchase a drug calculation book (Olsen, Giangrasso & Shripton, Medical Dosage Calculations: A Dimensional Analysis Approach, 11th edition), and to review the online math modules that pertain to that course until they are confident in their ability. If the student is having difficulty mastering the concepts, the student should seek help from either/both the course faculty and Student Support Services.

The student will have two attempts to pass the exam at 93% proficiency. Students who fail on the first attempt must attend a mandatory remediation session. Nursing 301 students will get three attempts to pass. Should they pass on the third attempt, they will be placed on academic probation for two quarters, the current one they are in and the next quarter, during which time if they pass the MSE within two attempts, they will be removed from probation. Should the person not pass on the third attempt the student will be dismissed from the program.

The MSE will be given in the first week of the quarter to ensure that if the student does not pass on the second (or third for NSG 301) they will have sufficient time to withdraw without penalty. Should the student not pass the medication safety exam on the second attempt, the student will be assessed as not competent to safely pass medication in the clinical setting. The student must then withdraw from the course(s) and complete the ATI
Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient. Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.
20. Failure to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failure to comply with DePaul's Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
23. Failure to know proper vital sign ranges as well as failure to notify instructor or patient's nurse of critical vital sign value.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Associate Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical instructor’s clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical instructor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The instructor will follow institutional guidelines as appropriate.
2. Contact the course coordinator and the Associate Director of the Program.
3. Submit a written report of the incident to the Associate Director's office within one working day. The Associate Director will contact the Registrar to put a hold on the student’s grade; the student will not be allowed to withdraw from the course at this time. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student's dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Associate Director takes place.
5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Associate Director of the Program. The student may have his or her advisor present at the meeting. A decision regarding the student's continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student's progress in the program. A decision is made at the meeting and communicated to the student.

6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.

7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify the clinical instructor and course coordinator and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the clinical setting. This must occur as soon as possible and prior to attendance at clinical. The final decision as to whether the student is allowed in the clinical setting rests with the clinical agency. If the student is unable to attend the clinical, he or she will need to withdraw and meet with the course coordinator and Associate Director of the program to explore options. Students who are pregnant are advised that clinical sites have individual policies and requirements related to pregnant students that may impact the student's ability to attend or complete a clinical rotation.

Clinical Probation/Remediation

A student requires a clinical contract when one or more clinical course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as an instructor and/or course coordinator recognizes that a student's performance or behavior may jeopardize the successful completion of a course. The clinical contract can be initiated at any time during the quarter.

The clinical contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course coordinator and clinical instructor. The course coordinator and clinical instructor will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student's academic advisor will be notified as will the Associate Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student's remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course. Once the contract requirements have been met, the instructor should document this on the form and both student and instructor should sign the form. A completed copy can be given to the student; another copy is send to the Coordinator of Data Management for tracking purposes; another copy is placed in the student's file.

Clinical Failure

In the event that a student does not receive a passing grade in the clinical component of a course, the student's grade for that course will automatically become an F.

Student Dress Code

1. The student is to be well groomed at all times presenting a professional image. The rationale behind this and the following requirements comes from the belief that it is the client who is the focus of the nurse-client relationship.
2. Hair must be kept off the face and above the collar or pulled back and secured. Natural hair tones only. Sideburns, mustaches, and beards must be neatly trimmed. Make-up, if worn, must be minimal and conservative. Personal care products may only be lightly scented. Other fragrances are not to be worn.
3. Nails may not extend beyond the tip of the finger. NO artificial nails or nail polish is permissible.
4. The ONLY acceptable accessories are: One single or pair of stud earrings—one on each lobe; one plain ring/ring set on one finger; a wristwatch. NO other body jewelry or accessories is acceptable. Note: in some clinical areas all jewelry must be removed.
5. Tattoos are to be covered.
6. The navy nursing uniform for men and women is: a scrub shirt and scrub pants by Dickies. Department name pins must be worn with the uniform when in the clinical setting. Department patches must be attached permanently to the left uniform and lab coat sleeves. Uniforms are to be clean and wrinkle free. Underwear must be worn. White or neutral hosiery or white socks must be worn. No bare feet. A plain
white under-shirt or navy Dickies cardigan may be worn in cooler weather.

7. Shoes are to be plain white (no colored design/logo) with white laces, closed toe, low heel, clean and in good repair. No high-tops or sandals.

8. When not giving direct patient care, but engaged in learning activities at an agency or clinical site, students must wear their white lab coat with DePaul School of Nursing patch, their department name pin, and professional dress consisting of a shirt, sweater, and/or blouse with pants or a skirt, closed toe shoes in good repair with a low heel and in neutral color, with neutral hosiery or socks.

9. Inappropriate clothing would include: sweatshirts; sweat pants; tight or sleeveless tops; shirts with lettering, pictures or hoods; stirrup pants; leggings; Capri pants; shorts; blue jeans; tight or revealing clothing; visibly worn, torn, or faded clothing; midriff tops; low necklines; open-backed clothing; cleavage or undergarment showing; or flip-flops.

10. These guidelines are subject to modification by the clinical instructor, based on the instructor’s judgment, individual student religious or cultural practices, the sensibilities of the population, and the dress code of the particular clinical unit/agency or event where the student is in attendance or practicing.

11. Students in the Public Health and Psychiatric Mental Health Nursing rotations may receive additional guidelines from their clinical instructors.

Confidentiality

Patient/Client Privacy

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient’s Bill of Rights.

2. Confidentiality is the protection of a client’s privacy through careful use of oral and written communications. The client’s right to privacy is safeguarded by judicious protection of confidential information. The student should adhere to the School of Nursing Social Media policy (Appendix C in the Student Handbook) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.

3. A client’s chart is a legal document. Information from the client and chart is confidential and cannot be disclosed to those not caring for the client. All entries must be accurate and legible. No part of the client’s Medical record can leave the hospital. Students are not allowed to access the records of patients for whom they are not providing direct care.

4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.

5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client’s privacy.

6. Students should use only the initials of the client when filling out history forms, care plans, and any other documents which are a part of their educational experience.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan:
http://csh.depaul.edu/departments/nursing/student-resources/Pages/Bloodborne-Pathogens-Exposure-Control-Plan.aspx

Exposure at DePaul University

Any student who incurs an exposure incident at DPU should obtain confidential post-exposure evaluation and follow-up.

Lincoln Park site students who would like to obtain this confidential post-exposure evaluation and follow-up from Advocate Illinois Masonic Medical Center may contact DePaul Public Safety, who will facilitate transportation to Advocate Illinois Masonic Medical Center. RFUMS site students will be referred to Lake Forest Hospital for follow-up care.

The post exposure evaluations and follow-up, should include at least, the following elements:

- Documentation of the route(s) and circumstances of the exposure;
- The results of the source individual’s blood testing, if available; and
- All medical records relevant to the appropriate treatment of the student, including vaccination status, the Safety Officer or his/her designee will maintain these records.

Collection and testing of blood for HBV and HIV serological status will comply with the following:

- The exposed student’s blood shall be collected as soon as feasible and tested after consent is obtained;
- The student may have his/her blood collected for testing of the student’s HIV/HBV serological status. The blood sample will be preserved for up to 90 days to provide time for the student to decide if the blood
should be tested for HIV serological status.

The student is responsible for costs associated with the medical evaluation.

**Exposure at Outside Facility while Performing Duties within Student Role**

Any student incurring such an exposure should follow both DPU's post exposure policy as well as the institution's policy where the exposure occurred. All student exposure incidents, whether they occur at DPU or off-campus while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual's blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

**Student Injury and Incident Policy**

In the event that a student is injured (or involved in an untoward incident*) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety is notified, that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found at [http://mehs.depaul.edu/MasterPage/Form.html](http://mehs.depaul.edu/MasterPage/Form.html), is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident. When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

**Student Clinical Requirements**

It is mandatory that all students have all of their clinical requirements completed and uploaded to their Student Immunization Tracker through Castle Branch by prior to attending clinical. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Students who are non-compliant with clinical requirements will not be permitted to attend clinical. Non-attendance of clinical due to non-compliance with clinical requirements will be treated as an unexcused absence that may not be made up. This may put the student at risk for failing the course.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. **Tuberculosis Screening:**

   All students that will provide patient care in the clinical setting are required to submit proof of not having active tuberculosis prior to the first day of the clinical rotation. Documentation must be uploaded into Castle Branch and approved to fulfill this requirement. This can be done by completing one of the following:
   
   1. Two-step Tuberculin Skin Test. The student will be required to have two separate tuberculin skin tests placed 1-3 weeks apart. The results of both tests must be uploaded into Castle Branch.
2. Quantiferon Gold Test. The student will be required to have this blood test drawn and upload the results into Castle Branch. Please note: some clinical sites will only accept this as proof of not having active tuberculosis.

3. Students with Positive TB Results: Students with a history of having positive TB results or have received the BCG vaccination prior to admission into the nursing program at DePaul University must complete the following:
Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.

AND
Submit a negative chest X-ray from the time of the initial positive TB results. In the event that a chest X-Ray was not completed, the faculty member will be required to obtain one prior to the first day of the clinical rotation.

OR
Complete a Quantiferon Gold test.

AND
Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.

4. Students found to have positive TB results while completing pre-clinical screening requirements for DePaul University must complete the following prior to the first day of the clinical rotation:
Obtain a chest x-ray and submit the results.

Submit certification from a healthcare provider that the student is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. If the student shows signs and symptoms of active tuberculosis during the provider evaluation, the student may not begin the clinical rotation until documentation of a completed course of prophylactic therapy and certification of currently being free of the signs and symptoms of active tuberculosis has been completed.

2. Titer for Rubeola, Mumps, Rubella, Varicella. A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titers are as follows:
1. Rubeola IgG
2. Mumps IgG
3. Rubella IgG
4. Varicella IgG

If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Follow-up titers will need to be drawn after re-immunization for both MMR and Varicella.

Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

3. Proof of immunity to Hepatitis B must be confirmed through bloodwork. Immunity may be achieved through vaccination or previous exposure*. You may submit test results and documentation of immunity from your provider in lieu of receiving vaccination. The following documents will be accepted as proof of immunity:
1. Positive Hepatitis B surface antibody (anti-HBs) indicates immunity from previous vaccination.
2. Positive anti-HBs and positive Hepatitis core antibody (anti-HBc) indicate immunity due to infection; a negative Hepatitis B surface antigen (HBsAG) is needed to determine whether acute or chronic infection exists, and the student will need to follow up with his or her health care provider.

If immunity is not documented, the student must receive the Hepatitis B immunization series and post-vaccination bloodwork as outlined below.

If the series has been started but has not been completed prior to beginning clinical attendance, it is the student's responsibility to supply documentation of the vaccine dates and the date when the final Anti-HBs bloodwork is drawn. The student must have completed a minimum of one of the series of three vaccines prior to the first clinical day and upload documentation for this to Castle Branch.

If bloodwork following completion of the series of three vaccines does not show immunity, further vaccination is necessary. If, after completion of a second series, no immunity is detected, the student must sign a waiver. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

* The Centers for Disease Control (CDC) recommend that persons who fall into either of the following categories for increased risk for Hepatitis B infection should see their health care provider...
and request a blood test for Hepatitis B surface antigen (HBsAg) and Hepatitis B surface antibody (Anti-HBs) as you may not need the vaccination if the results are positive.

CDC Categories of Persons at Increased Risk for Hepatitis B Infection
1. Persons born to mothers in or from countries in which Hepatitis B is endemic.
2. Sexually active men who have sex with men.

4. Tetanus-Diphtheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form of a signed immunization card or statement from your healthcare provider or health department that documents the date the tetanus booster or Tdap were administered. Please note that a tetanus booster alone is not adequate and you must demonstrate immunization for diphtheria and pertussis within past 10 years.

5. Yearly influenza vaccine is required. Incoming MENP students will receive Standard Precautions/Universal Precautions Training as part of their initial coursework.

6. Current CPR Certification: Current American Heart Association (AHA) certification in Basic Life Support (BLS) for Healthcare Provider is required for all entering and current students. Only the AHA certification will be accepted.

Content covered in AHA BLS class:
Critical concepts of high-quality CPR
The American Heart Association Chain of Survival
1-Rescuer CPR and AED for adult, child and infant
2-Rescuer CPR and AED for adult, child and infant
Differences between adult, child and infant rescue techniques
Bag-mask techniques for adult, child and infant
Rescue breathing for adult, child and infant
Relief of choking for adult, child and infant
CPR with an advanced airway

7. Professional Liability Insurance: Each MENP and BSN completion student must obtain their own student nursing professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually.

8. Evidence of Current Health Insurance: All nursing students must submit proof of continuous comprehensive health insurance on a yearly basis. Please note that the name on the health insurance must match the student’s name.

9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter. This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp.

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless: a.) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. Some institutions may require a new drug screen each year. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a release to have the results sent to School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

Drug Use and Testing:

In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’ requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student’s drug test is positive, secondary or confirmatory testing will be performed and the student will be
expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete the requirements of the program.

Access to Student Records

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.
2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

Graduation

DePaul University awards the Master of Science degree with a major in nursing to students who successfully completed the MENP program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Bulletin.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice. Part-time students and students who do not enroll in classes for one or more quarters will the program under which they were admitted.

Upon successful completion of graduation requirements, generic students are eligible to make application to take the National Council of Licensing Examination (NCLEX). (See Legal Limitations below.)

The Illinois Department of Financial and Professional Regulation requires that graduating MENP students submit to a fingerprinting processing from the Illinois Department of State Police or its designated agent.

Licensure by the IDFPR will require a separate complete background check with fingerprinting prior to being given permission to sit for NCLEX. If criminal activity is noted, such activity MAY BE grounds for the student to not be given permission to take the NCLEX exam.

Legal Limitations for Licensure

Completion of the nursing education program does not guarantee eligibility to write the NCLEX. The Illinois Department of Financial and Professional Regulation - Board of Nursing may refuse to issue a license for one or more causes stated in that section of the Nursing Practice Act.

Requirements for licensure vary from state to state. Those students wishing to take the NCLEX outside Illinois are advised to check with their state's licensure requirements early in the academic program.

German (MA)

DePaul’s innovative new MA program in German provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multiethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult
professionals (government employees, social workers, healthcare providers, businesspeople, or certified K-12 teachers) whose careers require this applied expertise.

The MA in German may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- German + Digital Humanities Certificate
- German + Teaching English to Speakers of Other Languages (TESOL) Certificate

Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements

The curriculum of the M.A. in German will consist of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of four courses (16 quarter credit hours) required of all students, and
2. Eight courses (32 quarter credit hours) in the language area, which must include an approved “cluster” of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest.

Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes GER). In exceptional cases, with the approval of the student's advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight “language area” courses in the student’s program.
Core Curriculum

The core curriculum consists of the following four courses:

- MOL 401 PROFESSIONAL FOUNDATIONS
- MOL 402 LANGUAGE, SELF AND SOCIETY
- MOL 403 COMMUNITIES OF PRACTICE
- MOL 496 MAMOL CAPSTONE

In addition, all three-hundred level courses in the respective languages are offered simultaneously as 400-level electives to complete the M.A. program. These 400-level courses carry different requirements than the lower-level courses.

Additional Requirements

Additional requirements include:

- ACTFL Oral Proficiency Interview
- Portfolio Project

All students must attain a rating of at least “Advanced Low” from the standardized Oral Proficiency Interview (OPI) of the American Council on Teaching Foreign Languages (ACTFL).

The service learning experience will involve work within an environment where the student can apply her or his linguistic expertise, as a volunteer, contributor, intern, or employee. This environment might be a community group; a social service or agency; a professional association; or an artistic organization. This experience should ideally contribute to the student’s portfolio project.

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program or a final project with written critical assessment. Final projects may include a community service experience, internship, performance and creative work, thesis, or translation.

Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework. The thesis should address the area of interest of the candidate’s course “cluster.”

Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “intermediate high” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).
**Transfer Credit**

Students may apply ("transfer") toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

**Graduation with Distinction**

Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

**Health Communication (MA)**

The M.A. in Health Communication prepares students to apply knowledge of communication in health care settings. The program includes critical and theoretical courses as well as highly applied courses in a range of health communication topics including cultural awareness and health disparities, healthcare systems and policy, training and development, provider communication, and health education and promotion.

Graduates of the program will:

- Recognize health care disparities
- Identify the social and multicultural dimensions of health care delivery
- Describe the relationship between effective communication and the quality of care that patients receive
- Enhance health literacy across diverse audiences
- Design and deliver health communication campaigns that provide knowledge to individuals hoping to understand contemporary health care issues
- Implement and evaluate health service delivery programs

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Apply theory in order to address problems or make improvements to communication in the health care environment.
- Critique current health communication practices as they impact health across the population, including contributing to health disparities.
- Create messages that demonstrate effective application of communication principles in the health care environment.
- Interpret and critique current health communication research published in scholarly journals.
Degree Requirements

Course Requirements

The Master of Arts in Health Communication requires 12 courses (48-credit hours) — three core courses, one methods course, six Health Communication electives, and two graduate electives inside or outside the program.

Core Courses

Students are required to take all of the following:

- CMNS 500 FOUNDATIONS IN GRADUATE COMMUNICATION STUDIES
- HTHC 515 INTRO TO HEALTH COMMUNICATION
- HTHC 517 COMMUNICATION, HEALTH DISPARITIES, AND CULTURE

Methods Requirement

Students are required to take the following:

- HTHC 516 RESEARCH METHODS FOR HEALTH CARE PRACTITIONERS

Elective Courses

Choose eight courses from the following list*:

- HTHC 519 ASSESSMENT AND INTERVENTION FOR HEALTH CARE ADMINISTRATORS
- HTHC 520 HEALTH CARE CAMPAIGNS AND COMMUNITY ACTION
- HTHC 521 HEALTH AND FAMILY COMMUNICATION
- HTHC 523 TOPICS IN HEALTH COMMUNICATION
- HTHC 524 HEALTH CARE TEAMS & LEADERSHIP
- HTHC 525 NARRATIVES IN HEALTH CARE
- HTHC 526 SOCIAL CONSTRUCTION OF HEALTH AND ILLNESS
- PRAD 515 PUBLIC RELATIONS WRITING
- PRAD 535 PUBLIC RELATIONS IN HEALTH CARE
- PRAD 540 CRISIS COMMUNICATION MANAGEMENT
- CMN 591 INTERNSHIP
- CMN 598 STUDY ABROAD
- HTHC 592 INDEPENDENT STUDY
- CMNS 590 COMMUNICATION WORKSHOP (VARIABLE TOPICS)

* With approval of the graduate program director, students can take up to two relevant elective courses from other College of Communication graduate programs or relevant elective courses from other graduate departments/programs outside of the College of Communication.

Comprehensive Final Examination

Students in the Master of Arts in Health Communication complete their degree requirements by passing a comprehensive final examination.

Grade Requirements

Students must maintain a minimum cumulative GPA of 3.00 in their graduate courses to remain in good academic standing. Students who do not meet this minimum cumulative requirement will be placed on academic probation and will be expected to attain the minimum cumulative requirement within two quarters. Failure to do so may result in dismissal from the program.
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/Health Communication (MA)

Admission

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, and who have successfully completed any three 300-level courses in their major are eligible to apply to the program.

Applicants must submit the following to Office of Graduate Admission no later than 6 weeks prior to the start of their senior year (i.e. prior to the start of their final three undergraduate quarters): Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication or professors in the major.

Program Standards

Students accepted into the combined degree program complete 12 graduate credit hours of Health Communication coursework which will fulfill undergraduate communication electives (for communication majors) and/or open electives. Students are strongly encouraged to take HTHC 515 and two HTHC electives during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet this requirement, they will not be allowed to continue as a graduate student in the program.

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their undergraduate degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Health Communication (MA/ MBA in Health Sector Management)

Our Master of Business Administration/Master of Arts in Health Communication degree develops students’ managerial acumen and their expertise as communicators.

The joint degree prepares students for leadership roles in a range of areas within healthcare, including advertising, public relations, crisis communication, quality/patient safety, strategic planning/marketing, corporate communication, and community/population health.

The Kellstadt Graduate School of Business and the College of Communication offer a unique joint degree program. This 96-credit MBA/MA in Health Communication provides you with the opportunity to earn advanced degrees in two highly complementary fields—business and health communication. Success in today's competitive, global economy requires both an in-depth understanding of the dynamics of the world of business and the ability to communicate effectively using various media under highly diverse conditions.

The Master of Business Administration/Masters of Arts in Health Communication program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive or consulting positions in healthcare communications, leadership, advertising, public relations, diversity management, quality/safety, and community/population health. To enter this program, prospective students must complete admissions
applications and be accepted for both the M.B.A. and the M.A. in Health Communication.

The Master of Business Administration/Masters of Arts in Health Communication is offered as a joint degree, administered jointly by the Kellstadt Graduate School of Business and the College of Communication. The joint degree is designed for committed and enterprising students who want to take advantage of the growing emphasis on communication in the design and delivery of high quality, safe, and patient-centered healthcare.

**Capstone Requirement**
MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.
MBA Concentration Requirements

Course Requirements

To complete the Health Sector Management concentration and business course requirements, students are required to take four courses from the list below:

Two required courses:
- MGT 559 HEALTH SECTOR MANAGEMENT
- MGT 566 HEALTH INSURANCE & BENEFITS

Choose two courses from the following:
- MGT 508 QUALITY MANAGEMENT SYSTEMS
- MGT 510 TECHNOLOGY, QUALITY & HEALTH INFORMATICS
- MGT 545 MANAGING SERVICE OPERATIONS
- MGT 564 STREETS OF CHICAGO: HEALTHCARE MANAGEMENT

Business Electives (2 courses)

- MGT 573 CREATIVITY & INNOVATION IN BUSINESS
  or MGT 545 MANAGING SERVICE OPERATIONS
- MGT 563 NEGOTIATION SKILLS
  or MGT 562 RESOLVING CONFLICT IN ORGANIZATIONS
- MGT 508 QUALITY MANAGEMENT SYSTEMS
  or MGT 545 MANAGING SERVICE OPERATIONS

Health Informatics (MS)

The Master degree program will provide students with the necessary skills and knowledge needed to implement and support information technology solutions for health sector organizations. Graduates will obtain technical knowledge and management skills for the design and support of IT systems and will develop a deep understanding of health IT processes to support health care delivery and management. Graduate will also gain knowledge in areas of health information management including health information processing and exchange, health care analytics, enterprise management and information storage and security management.

</tbody>
</table>
Learning Outcomes

Students will be able to:

- Describe healthcare information systems in the context of software applications and clinical decision support systems.
- Analyze Electronic Health Records (EHR) systems for data integration, interoperability, security and privacy.
- Apply Porter's Five Forces Model to analyze and manage the various industries within the health sector.
- Distinguish the financial implications for third party payment, Medicare and Medicaid.
- Create an Entity Relationship Diagram (ERD) for a system in the health sector.
- Analyze and design a complex information system using data and process modeling.
- Analyze the effectiveness of a security policy, citing strengths and making recommendations for improvement.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

- IT 403 STATISTICS AND DATA ANALYSIS

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Foundation Courses

- HIT 421 HEALTH INFORMATICS
- MGT 559 HEALTH SECTOR MANAGEMENT
- HIT 451 ACCOUNTING AND FINANCIAL MANAGEMENT IN HEALTHCARE
- CSC 451 DATABASE DESIGN
- IS 421 SYSTEMS ANALYSIS
- HIT 422 SYSTEM DESIGN FOR HEALTH CARE
- HIT 440 HEALTH INFORMATION EXCHANGE AND NETWORKING

Major Elective Courses

Students must take six (6) courses selected among a list of selected graduate area elective lists that is included below. There is no restriction on the number of areas from which electives may be selected. Students may choose to take the four (4) advanced elective courses from a single area or from multiple areas, depending on their career interests.

Database Processing

- CSC 455 DATABASE PROCESSING FOR LARGE-SCALE ANALYTICS*
- CSC 452 DATABASE PROGRAMMING*
- IS 549 DATA WAREHOUSING
- IPD 451 BIG DATA AND NOSQL PROGRAM

*Note: Courses require programming experience with Python.
Analytics

- CSC 423 DATA ANALYSIS AND REGRESSION
- IS 467 FUNDAMENTALS OF DATA SCIENCE
- CSC 575 INTELLIGENT INFORMATION RETRIEVAL
- CSC 424 ADVANCED DATA ANALYSIS
- CSC 495 SOCIAL NETWORK ANALYSIS
- MKT 798 SPECIAL TOPICS (Health Care Data Analysis Topic)*
- CSC 465 DATA VISUALIZATION
- MGT 798 SPECIAL TOPICS (Service Design & Patient Experience Topic)**

*Note: Student must take only sections of MKT 798 with the topics specified above.

**Note: Student must take only sections of MGT 798 with the topic specified above.

Enterprise Management

- IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
- IS 560 ENTERPRISE SYSTEMS
- IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES
- ECT 424 ENTERPRISE INFRASTRUCTURE
- TDC 478 INFORMATION STORAGE AND MANAGEMENT
- MGT 798 SPECIAL TOPICS (Managerial & Marketing Epidemiology)*
- HTHC 515 INTRO TO HEALTH COMMUNICATION
- HIT 511 HEALTHCARE MANAGEMENT IN NON-HOSPITAL SETTINGS

*Note: Student must take only sections of MGT 798 with the topic specified above.

Innovations in Health Care

- MGT 590 MANAGEMENT OF INNOVATION AND TECHNOLOGICAL CHANGE
- HCI 440 INTRODUCTION TO USER-CENTERED DESIGN
- HCI 512 INFORMATION VISUALIZATION AND INFOGRAPHICS
- HIT 430 ELECTRONIC HEALTH RECORDS

Practicum Courses

- CSC 599 INDEPENDENT STUDY *
- CSC 697 GRADUATE INTERNSHIP

*Note: CSC 599 should be taken in two consecutive quarters, 2 credit hours each quarter.

Security Management

- HIT 515 HEALTHCARE LAW
- IS 433 INFORMATION SECURITY MANAGEMENT
- CNS 440 INFORMATION SECURITY MANAGEMENT

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.
Health Sector Management (MBA)

DePaul’s MBA concentration in Health Sector Management will position you to take advantage of the growing demand for health sector leaders, which has been fueled by dynamic changes in health care delivery today. Whether you are seeking to advance your career within a health organization or transition to health sector management, the multidisciplinary curriculum will provide you with a solid foundation to succeed through a combination of courses in management and other business disciplines, public services and law.

**Highlights**

In this concentration, you will:

- Expand your knowledge of complex health sector markets.
- Analyze situations and data to gain strategic insights.
- Gain skills for leading strategies and projects that advance organizational goals.
- Connect with a faculty of scholars and practitioners and network with students, alumni and program partners from a wide variety of health sector organizations.
- Learn from hands-on team projects, internships and fellowships that tackle real-world health sector issues

**Career Outlook**

This concentration puts students on the career track for positions that include hospital executive, managed care executive, healthcare agency director, physician practice manager and pharmaceutical sales director. Students and alumni of this program are employed in a wide variety of organizations, including Abbott, Baxter, Northwestern Hospital, Humana, the American Medical Association, the Joint Commission and University of Chicago Medicine, among others. The Bureau of Labor Statistics projects employment of medical and health services managers to grow by 23 percent by 2022, much faster than the average for all occupations.

**Learning Outcomes**

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

Health Sector Management (MBA/ MPH in Public Health)

Health Sector Management (MBA/ MPH in Community Health Practice)

Our Master of Business Administration/Master of Public Health (MBA/MPH) degree develops students’ managerial acumen and their expertise as public health professionals.

Jointly offered by the Kellstadt Graduate School of Business and the College of Liberal Arts and Social Sciences, 84-credit MBA/MPH provides you with the opportunity to earn advanced degrees in two highly complementary fields--business and public health. The landscape for healthcare managers is radically changing with advances in technology, shifts in demographics, and the aging of the population. Success in this highly competitive field not only requires skills in finance and operations, but also an in-depth understanding of disease prevention and health promotion at the organizational and community level. The joint degree is designed for committed and enterprising students who want to take advantage of the growing emphasis on public health and population health in the design and delivery of healthcare.

The MBA/MPH program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive, or consulting positions in community/population health. To enter this program, prospective students must complete admissions applications and be accepted for both the MBA and the MPH programs.

The MBA/MPH is offered as a joint degree, administered jointly by the Kellstadt Graduate School of Business and the College of Liberal Arts and Social Sciences. The joint degree is designed for committed and enterprising students who want to take advantage of the growing emphasis on public health and
population health in the design and delivery of healthcare

</table>

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

MBA Core Requirements

Course Requirements for the Flexible MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 APPLIED QUANTITATIVE ANALYSIS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.
Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 APPLIED QUANTITATIVE ANALYSIS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.

MBA Concentration Requirements

Course Requirements

Two required courses:

- MGT 559 HEALTH SECTOR MANAGEMENT
- MGT 566 HEALTH INSURANCE & BENEFITS

Choose two courses from the following list:

- MGT 508 QUALITY MANAGEMENT SYSTEMS
- MGT 510 TECHNOLOGY, QUALITY & HEALTH INFORMATICS
- MGT 545 MANAGING SERVICE OPERATIONS
- MGT 564 STREETS OF CHICAGO: HEALTHCARE MANAGEMENT

MPH Requirements

Required Courses

- MPH 501 INTRODUCTION TO PUBLIC HEALTH
- MPH 502 INTRODUCTION TO EPIDEMIOLOGY
Culminating Experience Requirements

In addition to successfully completing coursework, students also must complete a practicum experience that culminates in the writing of a capstone thesis. Students complete their practicum field experience during their last year in the program. Students are required to commit to 8-10 hours per week to their practicum site, for a total of 250-300 hours over the course of the nine-month placement. It is required to be physically onsite at the agency for the majority of these hours.

History (MA)

The MA in History offers students the opportunity to explore the breadth and depth of the Historical Discipline. Students take a total of 12 courses, with all students taking History 421 “The Historical Discipline.” Students may enter the program in Autumn, Winter, or Spring.

The MA in History may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- History + Digital Humanities Certificate
- History + Women’s and Gender Studies Certificate

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Evaluate the breadth and complexity of the discipline of history.
- Compare and differentiate the range of topics historians explore.
- Apply and interpret the variety of methodologies historians employ.
- Identify, analyze, and evaluate historical arguments effectively.
- Communicate, in writing and orally, complex historical, historiographical, and methodological issues effectively.
Degree Requirements

Course Requirements

The Core

- HST 421 THE HISTORICAL DISCIPLINE

The Graduate Colloquia

All graduate students need to complete 12 courses (48 hours) of graduate work in order to complete the MA. HST 421 THE HISTORICAL DISCIPLINE is required for all students. For those students who were conditionally admitted, HST 421 is a prerequisite for all 400-level history courses. In addition, students take eleven courses from the list of graduate colloquia. These colloquia share the programmatic emphasis of the curriculum with their emphasis on the historiographical aspects of their respective topic. Note that that every colloquium, when offered, has a subtitle which identifies the specific sub-topic to be addressed that particular quarter. (For example: HST 431 COLLOQUIUM IN AMERICAN HISTORY: The New Deal.) As long as the topics (as reflected in the subtitle) of any colloquium are different, students may take more than one of any of the above courses. In order to ensure that students realize the curricular goals of breadth of exposure to the historical discipline, however, in no case is a student to take more than four colloquia bearing the same number. Thus, at the minimum, students will take courses in at least three different areas (as defined by colloquia titles).

- HST 422 SEMINAR IN PRIMARY SOURCE ANALYSIS
- HST 431 COLLOQUIUM IN AMERICAN HISTORY
- HST 432 COLLOQUIUM IN LATIN AMERICAN HISTORY
- HST 433 COLLOQUIUM IN AFRICAN HISTORY
- HST 434 COLLOQUIUM IN ASIAN HISTORY
- HST 435 COLLOQUIUM IN EUROPEAN HISTORY
- HST 436 COLLOQUIUM IN ISLAMIC HISTORY
- HST 437 COLLOQUIUM IN WORLD HISTORY
- HST 438 COLLOQUIUM: SPECIAL TOPICS IN HISTORY

With the permission of the Graduate Director, students may substitute up to eight quarter hours of Independent Study or Graduate Internship for two colloquia.

- HST 492 GRADUATE INTERNSHIP
- HST 497 INDEPENDENT STUDY

In addition, upon consultation with the Graduate Director and with his/her approval, students may count up to eight quarter hours from another DePaul graduate program toward their MA. Such courses would reduce the number of required colloquia by two.

Student Handbook

Probation and Dismissal

A graduate student goes on probation when his/her graduate GPA falls below 3.0. If the GPA goes under 3.0, the student will have one quarter in which to raise it. At the end of this quarter, if the student has failed to bring his/her GPA back up to 3.0, the student may be dismissed and prohibited from registering for additional coursework.

Conduct

Faculty retain the right to define and enforce appropriate etiquette for the promotion of collegiality and civility. Instructors have the right to remove any offender(s) from the classroom. In cases of serious or repeated misconduct, the program director in consultation with the instructor and the chairperson may remove the student(s) from a course and/or the graduate program.
**Conditional Admission**

In some cases, strong candidates who have not completed the REQUIRED undergraduate credit hours in history and/or students who have not yet demonstrated their strengths in the field may be considered for conditional admission. Students admitted in this category may only take one course (HST 421) during the Autumn quarter. A student who passes HST 421 with a grade of B or above may then continue in the program but must receive grades of B or above in the next two graduate colloquia that he or she attempts. If the student does NOT receive a B or above in EACH of these three classes, he or she must leave the program.

**Readmission**

If a student is dismissed from the program, he or she may be reapply through the formal application process. All students considering applying for readmission are strongly encouraged to contact the Graduate Director.

**Transfer Credit**

Upon consultation with the Graduate Director and with his or her approval, students may request that up to 12 units (three courses) of graduate credit earned in other DePaul departments or at other graduate degree-granting institutions be counted toward the MA degree. The Graduate Director will handle such requests on a case-by-case basis. In no circumstances will graduate credit be given for undergraduate coursework or for courses that have been applied toward fulfillment of another degree. Transfer grades from other institutions do not count in the calculation of the DePaul grade point average.

**Undergraduate Courses**

Undergraduate courses are not applicable toward the degree, but it is sometimes possible (at the discretion of the graduate director) for students to apply foreign language courses toward degree requirements. Students interested in taking foreign language courses that complement their historical studies should contact the graduate instructor prior to enrolling in any foreign language courses.

**Graduation Requirements**

In order to graduate from the program, students must complete all program requirements satisfactorily. Note that the coursework must be completed with a minimum cumulative GPA of 3.0.

**Graduation with Distinction**

Distinction is based on two criteria: (1) A record of consistent excellence in graduate coursework, generally interpreted as a cumulative GPA of 3.75 or higher; and (2) Exemplary work on the final paper produced within the capstone seminar as judged by the course instructor and the department's graduate committee, or (for thesis students), exemplary work on the thesis as judged by the thesis director and the department's graduate committee.

**Program Time Limitation**

Students in an MA program are expected to complete degree requirements within a six-year period from the first registration date for a course in the program. For students who do not, the department or program director may recommend, on receipt of the student's petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

---

**Hospitality Leadership (MBA)**

The Hospitality Leadership MBA concentration will help you develop skills to become a successful leader in the business of hospitality and tourism. You'll gain skills to take a leadership role within hospitality operations in the context of guest experience and quality assurance. This concentration is ideal if you are a hospitality industry professional with a strong desire to enhance your knowledge and business skills or if you are looking to change your career and want to join the business side of hospitality operations.

**Highlights**
In this concentration, you will:

- Develop advanced hospitality leadership practices within the various industry segments (lodging, food and beverage, events, private clubs, etc.).
- Understand current trends in the industry and acquire the necessary skill set involving customer relationship management and service delivery.
- Learn management, marketing and hospitality strategies to enhance the business.
- Engage with fellow hospitality students who will become important career contacts.
- Have access to a world-class metropolitan environment in Chicago, allowing you to supplement knowledge from the classroom with real-world skills gained from learning and working within a vibrant hospitality scene.

**Career Outlook**

The Hospitality Management MBA concentration can lead you into many different careers in the hospitality industry including executive management and revenue management, or operating your own event planning firm or restaurant. Forbes reports that travel and tourism make up 9 percent of global GDP and, as big as the industry is, it has the potential to be a lot bigger. Within the next decade, it is anticipated that this industry will create an additional 75 million jobs. It is a great time to become a part of an industry that distinguished itself as the art and science of serving and pleasing.

**Learning Outcomes**

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

**MBA Core Requirements**

**Course Requirements for the Flexible and Evening Cohort MBA Programs**

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.

Concentration Requirements

Course Requirements

The Hospitality Leadership concentration requires four courses. Please select four courses from the following list:

- HSP 502 MANAGING THE GUEST/EMPLOYEE EXPERIENCE
- HSP 503 ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE
- HSP 505 SERVICE TECHNOLOGY & INNOVATION IN THE HOSPITALITY ENVIRONMENT
- HSP 506 HOSPITALITY STRATEGY & OPERATIONAL PERFORMANCE
- HSP 561 REVENUE MANAGEMENT
- HSP 562 HOSPITALITY DISTRIBUTION CHANNELS
Hospitality Leadership and Operational Performance (MS)

The Master of Science in Hospitality Leadership and Operational Performance combines critical business theories and skills with innovative hospitality leadership practices. The unique curriculum addresses current trends in the industry, providing you with a necessary skill set focusing on customer relationship management and service delivery.

This degree program is designed for:

- Career-changers seeking entry into the hospitality industry.
- Industry professionals with a strong desire to enhance their knowledge and skills.
- Students who have earned or are earning an MBA.

**Highlights**

Through the MS in Hospitality Leadership and Operational Performance program, you will be exposed to:

- Business courses and concepts that specifically apply to the hospitality industry, including finance, marketing and management strategies
- Cutting-edge hospitality technologies
- Data analysis and financial metrics concepts
- A service leadership foundation and how it relates to the guest experience

The MS in Hospitality Leadership and Operational Performance program is located in downtown Chicago, in the heart of the city's business district. You will have access to a world-class metropolitan environment, allowing you to supplement knowledge from the classroom with practical skills gained from learning and working in a vibrant hospitality scene

**Career Outlook**

Career opportunities are growing worldwide in the hospitality industry. Forbes reports that travel and tourism make up nine percent of global GDP and, as big as the industry is, it has the potential to be a lot bigger.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

- Develop an understanding of key hospitality operational performance metrics found in the hospitality industry and apply them to various service delivery and financial return components.
- Apply hospitality principles of service leadership and innovation in the guest experience through a conceptual understanding of operational policies/procedures, financial benchmarks, and service delivery.
- Evaluate and comprehend hospitality technology systems and articulate complex service system framework and financial data collection processes commonly used in the industry.
- Acquire business, employee relations and hospitality specific skills that are broad, deep and necessary to fulfill their professional goals.

Degree Requirements

Course Requirements

Students complete the MS in Hospitality Leadership and Operational Performance by taking the following 12 courses for a total of 48 credits:

- HSP 502 MANAGING THE GUEST/EMPLOYEE EXPERIENCE
- HSP 503 ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE
- HSP 505 SERVICE TECHNOLOGY & INNOVATION IN THE HOSPITALITY ENVIRONMENT
- HSP 506 HOSPITALITY STRATEGY & OPERATIONAL PERFORMANCE
- HSP 561 REVENUE MANAGEMENT
- HSP 562 HOSPITALITY DISTRIBUTION CHANNELS
- HSP 563 HOSPITALITY DATA ANALYSIS & FINANCIAL METRICS
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Elective requirements (3 courses)

Choose any graduate course in Economics, Management and Marketing and any 700 to 799 course in Hospitality Leadership and Operational Performance.

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the 12 required courses, or their substitutes as approved by the Director of the School of Hospitality Leadership.
- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.
Combined Bachelor's/Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/Hospitality Leadership and Operational Performance (MS)

The MS degree in Hospitality Leadership and Operational Performance is a unique program that integrates critical business theory and skills with cutting-edge hospitality leadership practices. Designed for career-changers interested in the hospitality industry as well as for current industry professionals who want to enhance their skills, the program focuses on developing leadership skills and operational capabilities in a broad array of hospitality service enterprises.

DePaul degree-seeking undergraduate students interested in earning a Master of Science degree in Hospitality Leadership and Operational Performance may apply to the Bachelor's degree/Hospitality Leadership and Operational Performance (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission

Students must formally apply and be admitted to the School of Hospitality Leadership before beginning their graduate coursework. Upon identifying themselves as a combined degree applicant, the GMAT/GRE requirement will be waived. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 2.50

Students participating in this program will typically take the following three graduate level courses during their senior year:

- HSP 502 MANAGING THE GUEST/EMPLOYEE EXPERIENCE
- HSP 503 ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE
- HSP 505 SERVICE TECHNOLOGY & INNOVATION IN THE HOSPITALITY ENVIRONMENT

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS degree in Hospitality Leadership and Operational Performance will be awarded upon completion of the remaining graduate level work.

For students pursuing their BSB-Hospitality, these three courses replace their Specialization requirements.

Human Computer Interaction (MS)

The MS in Human Computer Interaction focuses on the design, implementation, and evaluation of computer interfaces that are accessible and easy for people to use.

<table>
<thead>

</tbody>
</table>
Learning Outcomes

Students will be able to:

- Conduct user studies using common HCI methods, including observation, participatory design, and interviews.
- Communicate findings through written reports and common HCI summations, including personas and scenarios.
- Design and conduct usability tests for a product or service.
- Create, justify, and critique interface designs by referencing design principles, design patterns, and theoretical frameworks.
- Create prototypes that demonstrate the interactivity of user interfaces, web applications and other interactive systems.
- Create design documents, such as wireframes, user flow models, and site maps.

Degree Requirements

Course Requirements

No Introductory course (a course numbered 400 through 419) may be substituted for any other course at any level.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- The student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

- IT 411 SCRIPTING FOR INTERACTIVE SYSTEMS
- HCI 406 WEB SITE DESIGN FOR HCI
- HCI 402 FOUNDATIONS OF DIGITAL DESIGN
- IT 403 STATISTICS AND DATA ANALYSIS

Foundation Courses

The following Foundation Courses are listed in the suggested sequence for the program.

- HCI 440 INTRODUCTION TO USER-CENTERED DESIGN
  or HCI 441 INTRODUCTION TO USER-CENTERED DEVELOPMENT
- HCI 450 FOUNDATIONS OF HUMAN-COMPUTER INTERACTION
- HCI 430 PROTOTYPING AND IMPLEMENTATION

Students currently taking Foundation Courses may also register for Major Elective Courses if they have successfully completed the prerequisites for those courses.

Advanced Courses

The following Advanced Courses are listed in the suggested sequence for the program.

- HCI 445 INQUIRY METHODS AND USE ANALYSIS
- HCI 454 INTERACTION DESIGN AND INFORMATION ARCHITECTURE
- HCI 460 USABILITY EVALUATION METHODS
- HCI 470 DIGITAL DESIGN

At least one of the following major electives is also required:
Major Elective Courses

Students must complete three (3) elective courses from the lists below:

**HCI Electives**
- HCI 421 DESIGNING FOR CONTENT MANAGEMENT SYSTEMS
- HCI 422 MULTIMEDIA
- HCI 512 INFORMATION VISUALIZATION AND INFOGRAPHICS
- HCI 520 LEARNER-CENTERED DESIGN
- HCI 522 UX STRATEGY AND WEB ANALYTICS
- HCI 530 MOBILE DESIGN
- HCI 553 SOCIAL INTERACTION DESIGN
- HCI 580 USER EXPERIENCE DESIGN PRACTICUM
- HCI 590 TOPICS IN HUMAN-COMPUTER INTERACTION

**Non-HCI Electives open to all HCI students**
- CNS 440 INFORMATION SECURITY MANAGEMENT
- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 424 ADVANCED DATA ANALYSIS
- CSC 451 DATABASE DESIGN
- CSC 465 DATA VISUALIZATION
- CSC 587 COGNITIVE SCIENCE
- ECT 455 E-COMMERCE WEB SITE ENGINEERING
- ECT 480 INTRANETS AND PORTALS
- ECT 586 CUSTOMER RELATIONSHIP MANAGEMENT TECHNOLOGIES
- GAM 424 GAME DESIGN WORKSHOP
- IS 485 REQUIREMENTS ELICITATION, ANALYSIS, AND SPECIFICATION
- IS 511 SOCIAL ISSUES OF COMPUTING
- IS 570 ENTERPRISE SYSTEM IMPLEMENTATION
- IT 432 WEB ARCHITECTURE
- IT 590 TOPICS IN INFORMATION TECHNOLOGY
- MKT 555 DECISIONS IN MARKETING MANAGEMENT
- PM 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
- PSY 404 PERCEPTION AND COGNITION
- PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING
- PSY 680 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
- SE 430 OBJECT ORIENTED MODELING
- SE 482 REQUIREMENTS ENGINEERING

**CDM Open Electives**

Students must complete one (1) advisor-approved CDM elective. Elective courses are in the range of 421-699 and must be from the College of CDM.

**Capstone**

- HCI 594 HUMAN-COMPUTER INTERACTION CAPSTONE

**Degree Requirements**

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of B- or better in each introductory course of the designated degree program.
- Earn a grade of C- or better in all courses beyond the introductory courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that...
applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.

- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

---

**Human Resources (MS)**

The Master of Science (MS) in Human Resources degree will prepare you to manage the modern organizational workforce. You will develop skills necessary to succeed in specific areas of human resources, such as benefits, compensation, labor relations, recruitment and workforce training programs. You'll gain a real-world education in HR management in a stimulating program that combines high-quality teaching with evidence-based recommendations from leading scholars in the field.

Faculty members have won numerous teaching awards and bring many years of professional experience in a range of management-related fields into the classroom, which will help you see the connection between science and practice. Industry guest speakers, business cases, simulations and internships will enhance your practical understanding of the HR field. The program leverages DePaul’s wide-ranging network of alumni and HR business leaders to create opportunities for students to engage in professional activities and community outreach via service learning.

The MS in Human Resources curriculum is aligned with the Society for Human Resource Management’s (SHRM) HR Curriculum Guidebook and Templates, which are part of SHRM’s Academic Initiative to define the highest HR education standards taught in university business schools and help universities develop degree programs that follow these standards. The MS in HR Advisory Board, comprised of HR professionals and graduates of DePaul, provides another point of contact for the program and its students in the industry.

**Highlights**

In this program, you will develop the skills to manage core HR functions, including workforce planning, staffing, performance management, total rewards, talent management, and training and development. You’ll address current topics encountered by human resource professionals, such as:

- Change management, downsizing/rightsizing and mergers and acquisitions
- Internal consulting and organizational development
- Employment law, ethics, and employee and labor relations
- Globalization, outsourcing and managing a diverse workforce
- Metrics, data analytics and human resource information systems
- Organizational succession planning and personal career growth and development

**Career Outlook**

The MS in Human Resources will prepare you for career paths that include compensation and benefits consultant, HR analyst, recruiter and labor relations director.

MSHR alumni have earned full-time employment at organizations that include AbbVie, AonHewitt, Aramark, Baxter, CarMax, Hays Companies, Huron Consulting Group, IDEX Corp., JLL, National Institutes of Health and Paylocity.

MSHR students have landed internships at a variety of organizations, including the Archdiocese of Chicago, Blue Cross Blue Shield, B96 Radio, BMO Harris, Chase Bank, Chicago Cubs, Discover Financial, Menards, Niagara, Nordstrom, Pandora, PAWS Chicago, Rainbow Hospice, Sherwin Williams, Siemens, The Standard Club, United Airlines and the University of Chicago Medical Center.
Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Be knowledgeable about the differences among global economies, institutions, and cultures and will understand the implications these have on global management.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Exhibit sophisticated knowledge of HR/business management practices leading to applicable skills in relevant areas (e.g., selection, training, compensation, and performance management) that leads to professional HR career-related success.

Degree Requirements

Course Requirements

Students complete the MS in Human Resources by taking 12 courses across three groups: 1) five core Human Resource courses, 2) four Human Resource electives, and 3) three Business electives.

Required Core Human Resource Courses (5 courses)

- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 523 RECRUITMENT AND SELECTION
- MGT 525 TRAINING AND CAREER DEVELOPMENT
- MGT 526 COMPENSATION AND BENEFITS
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES

Human Resource Electives (4 courses)

Students choose four HR-related courses from the following areas at DePaul University.

- ECO 518 LABOR ECONOMICS AND LABOR RELATIONS
- MGT 529 LIFE AND CAREER COACHING
- MGT 530 LEADERSHIP IN ORGANIZATIONS
  or MPS 521 LEADERSHIP AND MANAGEMENT
- MGT 535 CHANGE MANAGEMENT AND CONSULTING
- MGT 551 GLOBAL WORKFORCE MANAGEMENT
- MGT 552 MANAGING CULTURAL DIFFERENCES FOR GLOBAL SUCCESS
- MGT 562 RESOLVING CONFLICT IN ORGANIZATIONS
- MGT 563 NEGOTIATION SKILLS
- MGT 565 EMPLOYMENT LAW
- MGT 566 HEALTH INSURANCE & BENEFITS
- MGT 589 EXECUTIVE COACHING ? LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND
AMBIGUOUS BUSINESS ENVIRONMENT
- MGT 793 MANAGEMENT INTERNSHIP: Strongly recommended for students without HR experience
- MGT 798 SPECIAL TOPICS: When related to human resources (approval required)
- MGT 799 INDEPENDENT STUDY
- MPS 601 INTERNSHIP
- WRD 522 WRITING IN THE PROFESSIONS

Business Electives (3 courses)
Students will choose three electives from a specified list of general business courses at the Kellstadt Graduate School of Business (may substitute an HR elective if an equivalent course was taken elsewhere).

- ACC 500 FINANCIAL ACCOUNTING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING**
- FIN 555 FINANCIAL MANAGEMENT **
- GSB 420 APPLIED QUANTITATIVE ANALYSIS
- MGT 502 OPERATIONS MANAGEMENT**
- MGT 515 SUSTAINABLE MANAGEMENT
- MGT 557 INTERNATIONAL MANAGEMENT
- MGT 598 PROJECT MANAGEMENT
- MIS 555 MANAGEMENT OF INFORMATION TECHNOLOGY
  or MPS 516 MANAGEMENT OF INFORMATION TECHNOLOGY
- MKT 555 DECISIONS IN MARKETING MANAGEMENT
- MPS 500 INTRODUCTION TO PUBLIC SERVICE MANAGEMENT
- MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
- MPS 529 STRATEGIC MANAGEMENT AND PLANNING

**GSB 420 is a prerequisite. If you are interested in an HR career that specializes in compensation and benefits, please consider taking the following courses: ACC 500, FIN 555, and MGT 566.

Degree Requirements
- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 12 courses (five HR core courses, four HR related electives, and three Business electives).
- All courses for credit toward the degree must be completed with satisfactory grades within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Combined Bachelor's/ Master's Degree
The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/Human Resources (MS)
The Master of Science in Human Resources addresses the need for strategic and business-minded professionals to manage today's organizational workforce issues. Students gain proficiency in a wide range of human resources areas including employee attraction and retention, diversity, the global economy, employee training, career development, new technology, incentives, total rewards and performance management.

The program prepares students for careers such as compensation consultant, benefits consultant, trainer, HR analyst, recruiter, labor relations representative and HR director.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Human Resources may apply to the Bachelor's degree/Human Resources (MS) combined program. Students may be able to obtain
both degrees in an expedited period, typically in five years.

**Admission**

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Upon identifying themselves as a combined degree applicants, the GMAT/GRE requirement will be waived. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take the following three graduate level courses during their senior year:

- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR (replaces MGT 302; prerequisite MGT 300)
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES (replaces MGT 307; prerequisite junior standing, at least 88.0 credits)
- One of the following courses:
  - MGT 523 RECRUITMENT AND SELECTION (replaces MGT 330; prerequisite MGT 307)
  - MGT 525 TRAINING AND CAREER DEVELOPMENT (replaces MGT 320; prerequisite MGT 307)
  - MGT 526 COMPENSATION AND BENEFITS (replaces MGT 335; prerequisite MGT 307)

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSHR will be awarded upon completion of the remaining graduate level work.

**Human-Centered Design (PhD)**

The Ph.D. in Human-Centered Design prepares students to become interdisciplinary scholars who can apply a variety of methodological approaches at the intersection of technology, human behavior, and design. Students will be able to explore the use of technologies in the context of complex problems through empirical studies and apply results to the design of innovative technologies, strategies, and practices. By working with world renowned faculty, students will be trained to advance the field of human-centered design through participation in research relevant to both academic and practitioner communities. Students will be prepared for careers in academic institutions, industry research labs, and government and civic organizations.

**Learning Outcomes**

Students will be able to:
Degree Requirements

The Ph.D. in Human-Centered Design prepares students to advance the field of digital technology and media design by taking a transdisciplinary and collaborative approach that blends theory with practice. The program embraces a broad diversity of scholarly traditions and creative practices that include design, learning sciences, computer science, human-computer interaction, game design and development, and psychology.

Overview

The Foundation Phase

Students entering the program will begin by completing the necessary foundation courses and participating in small-scale research projects led by their faculty advisors. The purpose of the foundation phase is to ensure that students have the appropriate breadth and depth of knowledge necessary to formulate relevant research questions as well as develop skills for conducting research.

- HCD 421 DESIGN AND HUMAN EXPERIENCE
- HCD 450 THEORIES AND FRAMEWORKS IN HUMAN-CENTERED DESIGN
- HCD 510 RESEARCH METHODS AND PRACTICE OF SCHOLARSHIP
- Students will select two (2) core studio courses from the following:
  - EXP 442 INTERFACE AND EXPERIENCE DESIGN
  - EXP 440 PLAY AND EXPERIENCE DESIGN
  - EXP 441 LEARNING AND EXPERIENCE DESIGN
- Students must also select one (1) additional research methods course:
  - CMNS 582 QUANTITATIVE RESEARCH METHODS
  - HCI 445 INQUIRY METHODS AND USE ANALYSIS
  - PSY 420 QUANTITATIVE RESEARCH DESIGN (with instructor approval)

Students can waive out of any course (except methods courses which can only be substituted) for which they can prove equivalent course experience. Waivers are defined as when students do not take the course (up to 12 hours; all other courses must be substituted); substitutions are the replacement of one (1) course for another. To request a waiver or substitution, students should present evidence of the equivalent course taken (with a minimum of B-) to their faculty advisor, who will then request approval from the School of Design Human-Centered Design Ph.D. Committee. In rare cases, students may request a waiver due to extensive work experience. To request a waiver, students must present evidence (e.g., work portfolio) to their faculty advisor, who will then make the request from the School of Design Ph.D. Committee. In both cases, the School of Design Ph.D. Committee will make the final decision on whether a course can be waived or substituted because of course equivalency or work experience.

Design and Production Phase

During this phase, there is one (1) required course and students will work with their advisors to select at least eight (8) specialized courses to develop their design and production skills. Additional electives not listed below may be selected after students receive written approval from both their faculty advisor and the School of Design Ph.D. Committee.

- CMNS 545 COMMUNICATION AND TECHNOLOGY
- Students will select at least eight (8) courses from the following:
  - CSC 500 RESEARCH COLLOQUIUM (2 quarters)
  - CMNS 570 INTRODUCTION TO DIGITAL CMN
  - DMA 415 AUDIO WORKSHOP
  - DMA 425 STILL IMAGE WORKSHOP
  - DMA 475 MOVING IMAGE WORKSHOP
  - DMA 480 WEB/MEDIA DELIVERY WORKSHOP
  - GAM 424 GAME DESIGN WORKSHOP
  - HCI 430 PROTOTYPING AND IMPLEMENTATION
  - HCI 440 INTRODUCTION TO USER-CENTERED DESIGN
  - HCI 450 FOUNDATIONS OF HUMAN-COMPUTER INTERACTION
  - HCI 460 USABILITY EVALUATION METHODS
  - HCI 470 DIGITAL DESIGN
  - HCI 511 ACCESSIBILITY AND DESIGN FOR DIVERSE USERS
  - HCI 515 DESIGN ETHNOGRAPHY
  - HCI 520 LEARNER-CENTERED DESIGN
  - HCI 530 MOBILE DESIGN
  - HCI 553 SOCIAL INTERACTION DESIGN
Research Phase

During the research phase, students will focus on completing their qualifying examinations, candidacy, and dissertation.

- **Breadth Examination:** By the end of the second year in the program, students will take the breadth examination to assess their knowledge of core concepts and principles.
- **Depth Examination:** Under the supervision of their faculty advisor and assisted by two additional faculty members, students will lead a small research project from inception to publication of the results in one of the following areas: human-centered design, learning sciences, game design and development, or interactive media.
- **Candidacy Phase:** This phase begins with successful defense of the dissertation proposal based on a focused research project. Students will enroll in HCD 699 RESEARCH until complete.
- **Dissertation Phase:** All students must complete a dissertation that provides a significant contribution to the student's intended area of expertise. Students will enroll in HCD 701 CANDIDACY DISSERTATION RESEARCH until complete. The doctoral dissertation must demonstrate the student's ability to engage in significant research that is recognized by an academic community as exhibited by:
  - Relevant and significant research question(s) to a technology-based field
  - In-depth literature review of relevant research
  - A conceptual framework that serves as the foundation for the research
  - Significant research findings and contribution

The designated courses for the research phase are:

- HCD 599 INDEPENDENT STUDY
- HCD 699 RESEARCH
- HCD 701 CANDIDACY DISSERTATION RESEARCH

Course Requirements

Ph.D. students are expected to complete at least 60 credits of graduate-level courses. The length of time students spend in the program will vary depending on the student's background. We anticipate that students will finish on average in 4-5 years.

Psychology - Industrial/ Organizational (MA)/(PhD)

The Industrial/Organizational (I/O) Psychology Program is one of four combined MA/PhD programs in the Department of Psychology at DePaul University. The program prepares students for careers in industry, government and university settings and focuses on the theory and techniques of selecting, evaluating, and developing individuals within an organization. Topics include personnel selection, performance appraisal, training and development, employee attitudes, motivation, leadership, and organizational theory. The program also allows considerable flexibility for the advanced student to pursue related disciplines such as management, information systems and marketing. The MA in I/O Psychology is a non-terminal degree. For a terminal master's degree in I/O Psychology please visit our Combined Degree Programs page. Please note that the combined BA/MS degree is for current DePaul undergraduate students only.

The curriculum is based on the scientist/practitioner model of graduate education and follows two basic principles:
The I/O psychologist must have a solid foundation in general psychological theory, research methodology and philosophy of science, in addition to knowledge in the content area of I/O psychology. The I/O psychologist must be aware of the contributions of other disciplines to the study of organizations and must have practical experience in working with formal organizations as a psychologist.

To develop the "practitioner" aspect of this model, the DePaul I/O Psychology Program encourages students to work in I/O settings within the Chicago area. The Chicago metropolitan area offers a rich environment for research and practice in I/O psychology; it includes more than 34,000 retail businesses, 14,000 wholesalers, 40,000 service organizations, 13,000 manufacturers and many other types of organizations. Adjunct and part-time faculty from these organizations can provide students with unique training and experience. The "scientist" aspect is addressed by encouraging students to participate fully in the research and publication process. We do not believe that students should be trained to be either academics or practitioners, but rather to have both sets of skills.

With its great Chicago location, DePaul University offers its I/O psychology graduate students unique opportunities for their education, research and applied experiences. Our strong faculty and alumni base enables current students to connect with the I/O community and to establish new relationships.

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Identify major theoretical concepts in psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how the field of psychology currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Develop testable research questions, identify the strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature.
- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.
- Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals.
- Develop strategies for planning and engaging in professional development to acquire new skills and refresh and consolidate knowledge in accord with department, university and APA standards of professionalism.

MA/PhD Degree Requirements

The Industrial/Organizational (I/O) MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

MA Course Requirements

The MA portion of the combined degree requires a minimum of 72 quarter hours beyond the completion of a bachelor's degree, including four quarter hours of thesis research.
Statistics and Methodology Courses

- PSY 410 ADVANCED STATISTICS I
- PSY 411 ADVANCED STATISTICS II
- One of the following:
  - PSY 418 MULTIVARIATE STATISTICAL ANALYSIS
  - PSY 419 FACTOR ANALYSIS AND PATH MODELING
- PSY 420 QUANTITATIVE RESEARCH DESIGN

Psychology Core Courses

- One of the following:
  - PSY 404 PERCEPTION AND COGNITION
  - PSY 426 LANGUAGE AND COGNITION
  - PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING
- Choose one of the following courses:
  - PSY 430 SOCIAL PSYCHOLOGY OF THE SELF
  - PSY 435 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIPS
  - PSY 556 PREJUDICE AND INTERGROUP RELATIONS
  - PSY 560 SOCIAL COGNITION

I/O Psychology Core Courses

- PSY 559 SEMINAR IN INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY (8 credits total, 4 credits during MA, 4 credits during PhD)
- Five of the following courses:
  - PSY 440 PSYCHOLOGY OF WORK AND MOTIVATION
  - PSY 441 PSYCHOLOGY OF LEADERSHIP
  - PSY 442 PERSONNEL PSYCHOLOGY
  - PSY 444 PERFORMANCE APPRAISAL
  - PSY 445 ADVANCED TRAINING AND DEVELOPMENT IN ORGANIZATIONS
  - PSY 446 PSYCHOLOGICAL THEORIES OF ORGANIZATIONS
  - PSY 447 ORGANIZATIONAL CONSULTATION
  - PSY 448 CONCEPTS, METHODS, AND ETHICS FOR INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY

Research Course

- PSY 597 MASTER’S THESIS RESEARCH

Additional Courses

Additional coursework of at least 20 quarter hours are required to attain the minimum of 72 quarter hours. These courses must be taken with the consent of the student’s faculty advisor.

Master’s Thesis Research

Complete a thesis on a topic approved by the department.

Master’s Thesis Examination

Either written or oral, the examination may be, but is not necessarily limited to, a defense of the student’s thesis.

PhD Course Requirements

The PhD portion of the combined degree requires a minimum of 24 quarter hours beyond the completion of the master’s degree, including four quarter hours of dissertation research. The following requirements must be completed in order to confer the PhD.

Statistics Course

- PSY 450 PSYCHOLOGICAL MEASUREMENT
- One of the following:
  - PSY 418 MULTIVARIATE STATISTICAL ANALYSIS
  - PSY 419 FACTOR ANALYSIS AND PATH MODELING

I/O Psychology Core Courses
Choose two additional courses from the following list which were not taken during the MA program.

- PSY 440 PSYCHOLOGY OF WORK AND MOTIVATION
- PSY 441 PSYCHOLOGY OF LEADERSHIP
- PSY 442 PERSONNEL PSYCHOLOGY
- PSY 444 PERFORMANCE APPRAISAL
- PSY 445 ADVANCED TRAINING AND DEVELOPMENT IN ORGANIZATIONS
- PSY 446 PSYCHOLOGICAL THEORIES OF ORGANIZATIONS
- PSY 447 ORGANIZATIONAL CONSULTATION
- PSY 448 CONCEPTS, METHODS, AND ETHICS FOR INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY

Electives

Choose four additional graduate-level courses from either the psychology department or another department at DePaul with the consent of a faculty advisor to earn at least 16 quarter hours to attain the required minimum number of quarter hours.

Research Course

- PSY 599 DOCTORAL DISSERTATION RESEARCH

Doctoral Candidacy Examination (Comprehensive Examinations)

Designed to assess the student's knowledge of psychology and the student's area of specialization. The examination is given in two sections. The first section consists of a written examination related to I/O psychology. The second section is an oral examination in the area of I/O psychology.

Admission to Doctoral Candidacy

Formally given to the student with satisfactory coursework performance who has successfully completed the master's thesis proposal and passed the Doctoral Candidacy Examination; the candidate has no more than five years from the date of admission to doctoral candidacy to complete the PhD requirements or dismissal from the program will ensue.

Students denied candidacy will be required to withdraw from the program or withdraw after completion of the MA.

Dissertation

Departmental committee approval and acceptance of topic and outline of dissertation given only after admission to candidacy. Dissertation research should be completed during the student's fourth year in the program.

Oral Examination

Student to defend his or her dissertation and to show competence in the general field of psychology and in the area of specialization.

Time Limitation

- No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
- No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.
Program Graduate Academic Student Handbook

Minimum Grades

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.

2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student's record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student's advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.

4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student's program to hear the appeal. Depending on the student's academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master's degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

Probation

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.20. If a student's cumulative GPA falls below this minimum, the student will be put on probation and will have one quarter to raise their cumulative GPA to at least a 3.20 or face dismissal from the program. If the student raises his/her cumulative GPA to at least a 3.20, but it falls below the minimum a second time, he or she will be dismissed from the program.

Dismissal

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

Time Limitations

Students must complete their MA degree requirements prior to completing their requirements for admission to doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program (i.e., successful completion of the doctoral candidacy examination/project), and no less than eight months and no more than five years may pass between admission to candidacy and the final examination (i.e., the oral dissertation defense).

Students are required to meet the timelines specified by the program even if the timeline is more stringent than the College timeline. Failure to do so could result in dismissal.

Extensions on these timelines must be requested in writing to both the department (Program Director) and the college (to the Dean) and must be approved at both levels. Students must complete all requirements for the degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.

Graduation with Distinction for MA

The criteria for graduating "with distinction" are a minimum cumulative GPA of 3.75 and the recommendation of "with distinction" by the thesis committee.
Information Systems (MS)

The MS in Information Systems program focuses on providing competencies and skillsets to equip our graduates with a broad solid grounding in current IT practices. From here, students are invited to focus their studies in order to develop expertise in one particular area of Information Systems. We offer several Concentrations, each designed around particular competencies and IT career paths. We also offer a "standard concentration" that permits students to either [a] acquire a broad base of IS competencies and skills, instead of the focused depth in one area; or [b] create a customized concentration by selected coursework from two or more areas. Students desiring a customized concentration are strongly encouraged to design that plan in communication with a faculty advisor.

Concentrations

- Standard Concentration
- Business Analysis/Systems Analysis Concentration
- Business Intelligence Concentration
- Database Administration Concentration
- IT Enterprise Management Concentration

<table>
<thead>
<tr>
<th>Introductory Courses</th>
<th>0-8 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>52 hours</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52-60 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Describe and analyze the potential impact of selected major IT trends on IS careers.
- Analyze and design a complex information system using data and process modeling.
- Develop an E-R diagram from a set of business rules, and map the diagram to a set of tables in a relational database.
- Design the architecture, components, interfaces, and data for a computerized information system.
- Create a project charter or plan for the development of an information system.
- Analyze the effectiveness of network computing and cloud computing policies in a multi-location organization.
- Construct a strategic plan for a specific IT functional unit.
Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory, Foundation, Advanced and Elective course selections are determined by the concentration chosen.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applies toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Business Analysis/Systems Analysis
- Business Intelligence
- Database Administration
- IT Enterprise Management
- Standard
Standard Concentration

Course Requirements

Foundation Courses

- IS 421 SYSTEMS ANALYSIS
- CSC 451 DATABASE DESIGN
- IS 422 SYSTEM DESIGN, IMPLEMENTATION, AND MAINTENANCE
- IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT

Major Elective Courses

Students must take seven (7) IS or PM courses as Major Electives. All Major Elective Courses must be graduate level courses in the range of 421-699. Three (3) courses must be in the 500-level range.

Note: Students may choose a maximum of two of their master's-level course requirements with credit earned in a certificate program.

CDM Open Elective Courses

Students must complete one (1) CDM Open Elective Course chosen from either IS concentration courses from any IS concentration or other courses meeting the following rules:

- Any CNS, CSC, ECT, GAM, GPH, HCL, HIT, IS, IT, PM, SE, or TDC course in the 421-699 range qualifies.
- Credit for courses taken outside of CDM will only be given if approved by a faculty advisor.

Capstone

- IS 577 INFORMATION SYSTEMS POLICIES AND STRATEGIES

Business Analysis/Systems Analysis Concentration

Course Requirements

Foundation Courses

- IS 421 SYSTEMS ANALYSIS
- CSC 451 DATABASE DESIGN
- IS 422 SYSTEM DESIGN, IMPLEMENTATION, AND MAINTENANCE
- IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT

Advanced Courses

- CNS 440 INFORMATION SECURITY MANAGEMENT
- IS 435 ORGANIZATIONAL MODELING
- IS 485 REQUIREMENTS ELICITATION, ANALYSIS, AND SPECIFICATION
- IS 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
- IS 560 ENTERPRISE SYSTEMS

Major Elective Courses

- Choose two (2) courses from the list below:
  - IS 431 DIGITAL PRODUCT MANAGEMENT
  - IS 440 COLLABORATIVE TECHNOLOGIES FOR LEADING PROJECTS
Note: Students may choose a maximum of two (2) of their master's-level course requirements with credit earned in a certificate program.

CDM Open Elective Courses

Students must complete one (1) CDM Open Elective Course chosen from either IS concentration courses from any IS concentration or other courses meeting the following rules:

- Any CNS, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or TDC course in the 421-699 range qualifies.
- Credit for courses taken outside of CDM will only be given if approved by a faculty advisor.

Capstone

- IS 577 INFORMATION SYSTEMS POLICIES AND STRATEGIES

Business Intelligence Concentration

Course Requirements

Introductory Courses

Introductory course requirements for this concentration should be completed before pursuing advanced courses.

- IT 411 SCRIPTING FOR INTERACTIVE SYSTEMS
  - or CSC 401 INTRODUCTION TO PROGRAMMING
  - IT 403 STATISTICS AND DATA ANALYSIS

Foundation Courses

- IS 421 SYSTEMS ANALYSIS
- CSC 451 DATABASE DESIGN
- IS 422 SYSTEM DESIGN, IMPLEMENTATION, AND MAINTENANCE
- IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT

Advanced Courses

- IS 574 BUSINESS INTELLIGENCE
- CSC 423 DATA ANALYSIS AND REGRESSION
- IS 467 FUNDAMENTALS OF DATA SCIENCE
- IS 549 DATA WAREHOUSING

Major Elective Courses

- Choose three (3) courses from the list below.
  - CSC 424 ADVANCED DATA ANALYSIS
  - CSC 465 DATA VISUALIZATION
  - CSC 495 SOCIAL NETWORK ANALYSIS
  - CSC 575 INTELLIGENT INFORMATION RETRIEVAL
  - ECT 584 WEB DATA MINING
  - GEO 441 GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT
CDM Open Elective Courses

Students must complete one (1) CDM Open Elective Course chosen from either IS concentration courses from any IS concentration or other courses meeting the following rules:

- Any CNS, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or TDC course in the 421-699 range qualifies.
- Credit for courses taken outside of CDM will only be given if approved by a faculty advisor.

Capstone

- IS 577 INFORMATION SYSTEMS POLICIES AND STRATEGIES

Database Administration Concentration

Course Requirements

Introductory Courses

Introductory course requirements for this concentration should be completed before pursuing advanced courses.

- IT 411 SCRIPTING FOR INTERACTIVE SYSTEMS
  - or CSC 401 INTRODUCTION TO PROGRAMMING

Foundation Courses

- IS 421 SYSTEMS ANALYSIS
- CSC 451 DATABASE DESIGN
- IS 422 SYSTEM DESIGN, IMPLEMENTATION, AND MAINTENANCE
- IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT

Advanced Courses

- IS 549 DATA WAREHOUSING
- CSC 454 DATABASE ADMINISTRATION AND MANAGEMENT
- CSC 452 DATABASE PROGRAMMING
- CSC 554 ADVANCED DATABASE MANAGEMENT

Major Elective Courses

Students must take three (3) courses from the list below:

- CNS 440 INFORMATION SECURITY MANAGEMENT
- IPD 447 BIG DATA USING HADOOP PROGRAM
- IPD 451 BIG DATA AND NOSQL PROGRAM
- IPD 460 SQL SERVER BUSINESS INTELLIGENCE PROGRAM
- IPD 463 SQL SERVER DATABASE ADMINISTRATION PROGRAM
- IS 452 BIG DATA & THE INTERNET OF THINGS (IoT)
- IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES
Note: Students may choose a maximum of two (2) of their master's-level course requirements with credit earned in a certificate program.

CDM Open Elective Courses

Students must complete one (1) CDM Open Elective Course chosen from either IS concentration courses from any IS concentration or other courses meeting the following rules:

- Any CNS, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or TDC course in the 421-699 range qualifies.
- Credit for courses taken outside of CDM will only be given if approved by a faculty advisor.

Capstone

- IS 577 INFORMATION SYSTEMS POLICIES AND STRATEGIES

- IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT

Advanced Courses

- ECT 424 ENTERPRISE INFRASTRUCTURE
- IS 556 ENTERPRISE PROJECT MANAGEMENT
- IS 570 ENTERPRISE SYSTEM IMPLEMENTATION
- IS 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS

Major Elective Courses

Students must take three (3) courses from the list of courses below:

- CNS 440 INFORMATION SECURITY MANAGEMENT
- ECT 556 ENTERPRISE ARCHITECTURE AND DESIGN
- IS 440 COLLABORATIVE TECHNOLOGIES FOR LEADING PROJECTS
- IS 444 IT AUDITING
- IS 482 LEGAL RESPONSIBILITIES IN INFORMATION TECHNOLOGY
- IS 483 INFORMATION SERVICES AND OPERATIONS
- IS 500 INFORMATION TECHNOLOGY LEADERSHIP
- or MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES
- IS 506 BUSINESS CONTINUITY/DISASTER RECOVERY MANAGEMENT AND TACTICS
- IS 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
- IS 536 ENTERPRISE CLOUD COMPUTING
- IS 540 GLOBAL INFORMATION TECHNOLOGY
- IS 550 ENTERPRISE DATA MANAGEMENT
- IS 560 ENTERPRISE SYSTEMS
- IS 565 IT OUTSOURCING
- IS 579 VIRTUAL SOFTWARE TEAMS MANAGEMENT
- IS 580 TECHNOLOGY ENTREPRENEURSHIP

Note: Students may choose a maximum of two (2) of their master's-level course requirements with credit earned
in a certificate program.

**CDM Open Elective Courses**

Students must complete one (1) CDM Open Elective Course chosen from either IS concentration courses from any IS concentration or other courses meeting the following rules:

- Any CNS, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or TDC course in the 421-699 range qualifies.
- Credit for courses taken outside of CDM will only be given if approved by a faculty advisor.

**Capstone**

- IS 577 INFORMATION SYSTEMS POLICIES AND STRATEGIES

---

**Information Technology Project Management (MS)**

The MS in Information Technology Project Management is intended for graduate students who wish to prepare for careers leading and managing IT project teams. The program provides students with in-depth knowledge of project management skills, including risk management, procurement and contract management, time and cost estimating, IT testing, quality assurance, and control.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Propose an effective post-project evaluation process for an IT development project.
- Analyze and construct a charter for a complex IT program.
- Analyze and construct a charter for a global IT Project Management Office.
- Compare and contrast two different IT Project Manage Office charters.
- Create the charter for a mid-sized corporation’s IT Strategic Portfolio Management function.
- Design the IT risk management plan for a large scale IT application development at three different spending levels.
- Analyze the effectiveness of Agile application development methodology for a new global IT application utilizing COTS software.

**Degree Requirements**

**Course Requirements**

No Introductory Course may be substituted for any other course at any level.
Foundation Courses

- PM 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT
- PM 440 COLLABORATIVE TECHNOLOGIES FOR LEADING PROJECTS
- PM 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
- PM 556 ENTERPRISE PROJECT MANAGEMENT
- PM 570 ENTERPRISE SYSTEM IMPLEMENTATION
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
  or IS 500 INFORMATION TECHNOLOGY LEADERSHIP

Note: The PM courses listed above are offered in cross-listed sections of same-number IS courses. Students are not allowed to take both IS 500 and MGT 500 to satisfy Foundation Courses requirements.

Advanced Courses

Students must complete twenty-four (24) quarter hours (generally six (6) courses) from the list below. A minimum of twelve (12) quarter hours (generally three (3) courses) must be taken from CDM. These electives cover a broad range of technical, managerial, and information systems topics. Students should work closely with their advisor to identify and select courses most directly associated with their career plans.

CDM Elective Courses

- CNS 533 ENTERPRISE SECURITY INFRASTRUCTURE CONTROLS AND REGULATORY COMPLIANCE
- IS 433 INFORMATION SECURITY MANAGEMENT
- IS 435 ORGANIZATIONAL MODELING
- IS 456 KNOWLEDGE MANAGEMENT SYSTEMS
- IS 483 INFORMATION SERVICES AND OPERATIONS
- IS 485 REQUIREMENTS ELICITATION, ANALYSIS, AND SPECIFICATION
- IS 500 INFORMATION TECHNOLOGY LEADERSHIP
- IS 505 BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES
- IS 536 ENTERPRISE CLOUD COMPUTING
- IS 540 GLOBAL INFORMATION TECHNOLOGY
- IS 560 ENTERPRISE SYSTEMS
- IS 565 IT OUTSOURCING
- IS 578 INFORMATION TECHNOLOGY CONSULTING
- IS 579 VIRTUAL SOFTWARE TEAMS MANAGEMENT
- SE 430 OBJECT ORIENTED MODELING
- SE 468 SOFTWARE MEASUREMENT/PROJECT ESTIMATION
- SE 482 REQUIREMENTS ENGINEERING
- SE 529 SOFTWARE RISK MANAGEMENT

* SE 430 requires two courses of object-oriented coding, or consent of the instructor.

Kellstadt Elective Courses

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- MGT 530 LEADERSHIP IN ORGANIZATIONS
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MGT 562 RESOLVING CONFLICT IN ORGANIZATIONS
- MGT 563 NEGOTIATION SKILLS
- MGT 565 EMPLOYMENT LAW

Capstone

- PM 577 IT PORTFOLIO MANAGEMENT AND STRATEGIES

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-
listed courses, which are considered to be the same course but offered under different subjects.

- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

**Interdisciplinary Studies (MA)**

The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students’ academic and professional goals. The program gives students the opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs. Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service. The IDS Program is jointly administered with the Master of Arts in Liberal Studies Program (MALS); IDS students are welcome to enroll in MALS Core Courses and cross-lists.

The program offers the following:

- Individual, self-designed graduate program of study that builds on specific academic and professional interests.
- Ability to combine various academic disciplines in chosen areas of study.
- Choice of courses in most colleges and schools.

The MA in Interdisciplinary Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Interdisciplinary Studies + Community Development Certificate
- Interdisciplinary Studies + Digital Humanities Certificate
- Interdisciplinary Studies + Global Health Certificate
- Interdisciplinary Studies + Metro Planning and Development Certificate
- Interdisciplinary Studies + Public Health Certificate
- Interdisciplinary Studies + Social Research Certificate
- Interdisciplinary Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Interdisciplinary Studies + Women’s and Gender Studies Certificate

Learning Outcomes

Students will be able to:

- analyze and interpret discourse and media in a variety of academic, literary, professional and popular genres.
- use multi-disciplinary and inter-disciplinary approaches to knowledge.
  - analyze the social and/or historical context of phenomena.
- analyze value systems.
- write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc., culminating in an extended capstone.
- make effective oral presentation of ideas, and engage in thoughtful oral exchange of ideas.
- incorporate, analyze and properly cite a variety of academic and professional resources, including scholarly books, journal articles and vetted web resources, in conducting research.
- use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic writing projects.
- utilize current technology appropriate to their academic or career paths.

Degree Requirements

Portfolio

All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At the culminating point there will be work from a total of at least six courses in the portfolio.

Midpoint Essay

After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student's intellectual growth, and suggests directions for the second half of the student's program.

Culminating Point Essay

All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

Course Work

- Completion of 48 or 52 quarter hours of graduate credit, depending on the completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Maximum of 8 quarter hours of credit in approved 300-level courses, and remainder of credit hours from 400/500/600-level courses.
- No more than five courses may be taken in the Kellstadt Graduate School of Business (KGSB), including courses which are cross-listed in other programs and courses transferred from other institutions which are business courses. Registration for courses in the KGSB must be done through the IDS office.
- No more than six courses may be taken in any single discipline within the College of Liberal Arts and Social Sciences, no more than six courses may be taken in the College of Education, and no more than six
courses may be taken in the College of Computing and Digital Media (CDM). Special permission must be sought for courses taken in the School for New Learning. Only non-performance courses may be taken in School of Music or the Theatre School.

- Prerequisites within Departments and Schools apply.
- Certain individual courses may be not be open to IDS students.
- To support the student's program plan, the IDS advisor may require that the student take certain courses in areas such as writing, statistics, disciplinary methodologies, foreign languages, etc., when appropriate.

**Program Completion (Capstone) Steps**

All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio or exit course). This application will include the student's portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498 INDEPENDENT STUDY: THESIS if they require an additional quarter of research and other preparation for MLS 499.

Both 498 and 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the MALS/IDS director sign a Culminating Project Completion Form.

**Program Completion (Capstone) Options**

The IDS program may be completed in one of four ways:

**Thesis Option (12 courses)**

In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master's Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis.

- Ordinarily taken as MLS 499 CAPSTONE the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal and approval of committee.

**Practicum Option (12 courses)**

In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project.

- Ordinarily taken as MLS 499 CAPSTONE, the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal, and approval of committee.

**Enhanced Portfolio Option (13 courses)**

In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student's own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

- Ordinarily taken as MLS 499 CAPSTONE, the student's 13th and final course.
- Requires formal proposal and approval of committee.

**Exit Course Option (13 courses)**

In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above the original 12 courses. This course should be chosen as an "exit course," in that it brings together a number of areas of interest that the student has pursued over the course of the program. By
arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall IDS Program. The instructor will grade the paper, and another reader suggested by the IDS program will also review and comment on the paper.

- Requires formal proposal and approval of committee.

**Determination of Degree**

If the majority of courses completed for the master's degree are drawn from programs that award the Master of Arts degree, then the student will earn the MA. If the number is equal the student can choose the MA or the MS.

---

**Student Handbook**

**Probation**

Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student's GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of "Conditional Admission" he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the MALS and IDS D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student's grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

**Dismissal**

In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete Core Courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS or ISP 502) during the three quarters of the academic school year. After three consecutive terms of Candidacy Continuation, students should enroll in Active Status (MLS or ISP 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in dismissal from the program if the student has not formally withdrawn from the program.

**Readmission**

When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LASS Graduate website.
Transfer Credit

A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student's overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

Undergraduate Courses

Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances: (1) The course is necessary as a part of the student's overall interdisciplinary program. (2) The department does not offer courses in the same area on the graduate level. (3) The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course. Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

Graduation Requirements

In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 2.5, a midpoint and culminating point essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. A full description of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the MALS and IDS D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

Graduation with Distinction

In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of "distinction" on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at a MALS/IDS event within three academic quarters of completion. Students in MALS and IDS completing their programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

Time Limit

Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed here.

Interdisciplinary Studies (MS)

The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students' academic and professional goals. The program gives students the opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs. Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service. The IDS Program is jointly administered with the Master of Arts in Liberal Studies Program (MALS); IDS students are welcome to enroll in MALS Core Courses and cross-lists.

The program offers the following:
Individual, self-designed graduate program of study that builds on specific academic and professional interests.

Ability to combine various academic disciplines in chosen areas of study.

Choice of courses in most colleges and schools.

The MS in Interdisciplinary Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Interdisciplinary Studies + Community Development Certificate
- Interdisciplinary Studies + Digital Humanities Certificate
- Interdisciplinary Studies + Global Health Certificate
- Interdisciplinary Studies + Metro Planning and Development Certificate
- Interdisciplinary Studies + Public Health Certificate
- Interdisciplinary Studies + Social Research Certificate
- Interdisciplinary Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Interdisciplinary Studies + Women's and Gender Studies Certificate

- Certain individual courses may be not be open to IDS students.
- To support the student's program plan, the IDS advisor may require that the student take certain courses in areas such as writing, statistics, disciplinary methodologies, foreign languages, etc., when appropriate.

**Program Completion (Capstone) Steps**

All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio or exit course). This application will include the student's portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498 INDEPENDENT STUDY: THESIS if they require an additional quarter of research and other preparation for MLS 499.

Both 498 and 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the MALS/IDS director sign a Culminating Project Completion Form.

**Program Completion (Capstone) Options**

The IDS program may be completed in one of four ways:

**Thesis Option (12 courses)**

In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master's Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis.

- Ordinarily taken as MLS 499 CAPSTONE the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal and approval of committee.

**Practicum Option (12 courses)**
In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project.

- Ordinarily taken as MLS 499 CAPSTONE, the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal, and approval of committee.

Enhanced Portfolio Option (13 courses)

In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student's own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

- Ordinarily taken as MLS 499 CAPSTONE, the student's 13th and final course.
- Requires formal proposal and approval of committee.

Exit Course Option (13 courses)

In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above the original 12 courses. This course should be chosen as an "exit course," in that it brings together a number of areas of interest that the student has pursued over the course of the program. By arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall IDS Program. The instructor will grade the paper, and another reader suggested by the IDS program will also review and comment on the paper.

- Requires formal proposal and approval of committee.

Determination of Degree

If the majority of courses completed for the master's degree are drawn from programs that award the Master of Science degree, then the student will earn the MS. If the number is equal the student can choose the MS or the MA.

Student Handbook

Probation

Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student's GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of "Conditional Admission" he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.
IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the MALS and IDS D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student’s grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

**Dismissal**

In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete Core Courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS or ISP 502) during the three quarters of the academic school year. After three consecutive terms of Candidacy Continuation, students should enroll in Active Status (MLS or ISP 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in dismissal from the program if the student has not formally withdrawn from the program.

**Readmission**

When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LASS Graduate website.

**Transfer Credit**

A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student’s overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

**Undergraduate Courses**

Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances: (1) The course is necessary as a part of the student’s overall interdisciplinary program. (2) The department does not offer courses in the same area on the graduate level. (3) The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course. Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

**Graduation Requirements**

In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 2.5, a midpoint and culminating point essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. Full description of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the MALS and IDS D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

**Graduation with Distinction**

In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of “distinction” on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at a MALS/IDS event within three academic quarters of completion. Students in MALS and IDS completing their programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

**Time Limit**

Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three
consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed on the LASS Graduate website.

International Business (MBA)

The International Business concentration will prepare you to navigate effectively as a manager in a complex and ever-changing global business environment. With the increasing interdependence of national economies and the growth of global enterprises, understanding international business frameworks and issues is vital to decision-makers. Through a multidisciplinary curriculum that includes accounting, economics, finance, management and marketing courses, you will have a chance to explore how businesses can manage the development of international commerce. Students taking this concentration must fulfill a foreign language requirement and have some international exposure outside of the classroom.

Highlights

This program provides:

- A global approach to macroeconomics and microeconomic topics, including trade theory, international financial policy and emerging markets, as well as insight into the global business environment.
- An understanding of the international economic and socio-cultural issues vital to decision-makers.
- Basic theory and knowledge of the current issues in international economics, accounting, finance, marketing and management.
- The opportunity to gain international exposure outside of the classroom through a study abroad business seminar. This seminar provides an excellent opportunity to expand your knowledge beyond the classroom and gain exposure to other cultures. Seminars are typically one-to-three weeks long and are scheduled to coincide with breaks between quarters in the academic calendar.

Career Outlook

The program is designed for students with an interest in entering or advancing careers in business at the international level. An MBA with an international business focus can give you an advantage in the job market as business becomes more globalized.

<table>

<th>24-48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Concentration and Elective Requirements (varies with admission term)</td>
<td>24-36 hours</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48-72 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellogg Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.
Concentration Requirements

Course Requirements

To complete this concentration, students must complete four courses from the following:

- ACC 557 GLOBAL STRATEGIC FINANCIAL ANALYSIS
- ECO 503 GLOBAL ECONOMY
- ECO 557 INTERNATIONAL TRADE THEORY & POLICY
- ECO 558 INTERNATIONAL MACROECONOMICS
- FIN 557 INTERNATIONAL FINANCE
- IB 750 INTERNATIONAL BUSINESS SEMINAR I
- MGT 557 INTERNATIONAL MANAGEMENT
- MKT 557 INTERNATIONAL MARKETING
- MKT 558 MARKETING ACROSS CULTURES: A GLOBAL PERSPECTIVE
- MKT 559 EMERGING MARKETS

International Public Service (MS)

The Master of Science in International Public Service (IPS) degree educates professionals to the field of international development and global humanitarian affairs. It provides the essential competencies and skills for managing international projects and leading international nongovernmental organizations. The curriculum offers a balanced education in international leadership (ethical, theoretical and practical), project management (for organizations, sectors, institutions) and evaluation (assessment, monitoring and impact analysis). Through study abroad programs, international internships and applied research projects with nongovernmental and intergovernmental organizations, the IPS degree is required for a professional career in international development.

This degree is accredited by National Association of Schools of Public Affairs and Administration (NASPAA).

Mission Statement

The Master of Science in International Public Service educates ethical leaders to work in international organizations in the US and abroad and emphasizes understanding cross-sector relations. We believe that leaders need practical skills and first-hand experiences in solving global problems. We are committed to strengthening local communities and reducing disparities throughout the world, by building capacity through sustainable development. We promote compassion for marginalized communities and service to all people with sensitivity, professionalism, accountability, transparency and justice.

The MS in International Public Service may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- International Public Service + Community Development Certificate
- International Public Service + Global Health Certificate
- International Public Service + Metro Planning and Development Certificate
- International Public Service + Teaching English to Speakers of Other Languages (TESOL) Certificate
- International Public Service + Social Research Certificate
- International Public Service + Women’s and Gender Studies Certificate

<table>

DePaul University  Autumn 2017-2018  Page 315 of 2468
Learning Outcomes

Students will be able to:

- Develop communication competencies within diverse, intercultural, and international organizational contexts.
- Apply ethical decision making and the values of global citizenship to professional practice.
- Demonstrate understanding of the role that NGOs play in the public, private, and civil society sectors.
- Apply managerial skills and leadership characteristics in an international and cross-cultural context in areas such as human rights, fair trade, policy advocacy, and community development.
- Apply research strategies in evaluating international initiatives relating to sustainable development.

Degree Requirements

Course Requirements

Students are required to complete a total of 13 courses (52 credit hours): eleven core courses (44 credit hours), two elective courses (8 credit hours).

Core Courses

- MPS 500 INTRODUCTION TO PUBLIC SERVICE MANAGEMENT
- MPS 510 INTERNATIONAL DIMENSIONS OF PUBLIC SERVICE
- MPS 511 SUSTAINABLE INTERNATIONAL DEVELOPMENT
- MPS 533 APPLIED STATISTICS FOR PUBLIC SERVICE
- MPS 583 RESEARCH METHODS FOR PUBLIC SERVICE
- MPS 593 INTEGRATIVE SEMINAR
- MPS 594 ETHICAL LEADERSHIP IN PUBLIC SERVICE
- MPS 610 INTERNATIONAL PROFESSIONAL INTERNSHIP
- MPS 611 MANAGEMENT OF INTERNATIONAL NGOs
- MPS 612 INTERNATIONAL POLITICAL ECONOMY
- MPS 616 INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT

Elective Courses

- Choose two of the following:
  - MPS 513 VOLUNTEERISM
  - MPS 514 GOVERNMENT FINANCIAL ADMINISTRATION
  - MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
  - MPS 516 MANAGEMENT OF INFORMATION TECHNOLOGY
  - MPS 519 RESOURCE DEVELOPMENT
  - MPS 521 LEADERSHIP AND MANAGEMENT
  - MPS 522 FUNDAMENTALS OF HUMAN RESOURCE MANAGEMENT
  - MPS 524 MARKETING FOR SERVICE ORGANIZATIONS
  - MPS 525 WORKING WITH NONPROFIT BOARDS
  - MPS 529 STRATEGIC MANAGEMENT AND PLANNING
  - MPS 535 HEALTH CARE POLICY
Thesis Option

Students with a cumulative GPA of 3.5 or above may choose the thesis option and replace MPS 593 with MPS 598 THESIS.

Study Abroad Requirement

Students are required to take at least ONE course abroad. These one-two week study abroad trips allow both full-time and part-time students to participate.

International Work/Internship Requirement

Students must complete substantial professional experience in an international or intercultural setting. Students with such experience may request a waiver by submitting a letter describing the extent of their work in international or cross-cultural countries and organizations. In this case, students choose an alternative four-credit hour course with the director's approval. Students without such experience enroll in MPS 610 while completing an internship with an appropriate organization.

Foreign Language Proficiency

Students are not required to demonstrate proficiency in a foreign language as a graduation requirement. However, please note that a second language is critical to helping a resume stand out and for constructing an effective career in international public service. Therefore all students are strongly encouraged to build and demonstrate proficiency in at least one other language appropriate to their field or geographical interests.

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.
**Academic Probation**

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

**Dismissal**

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

**Readmission**

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

**Graduation Requirements**

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

**Non-Degree Seeking Students**

While MPS courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

---

**International Studies (MA)**

The Master of Arts in International Studies is an academically rigorous, thesis-driven, two-year program focused on social analysis and justice issues. Students today are confronted by complex world events such as the long "war on terror", global climate change, transitions to capitalism among post-communist societies, recurrent economic crises, and the exclusions effected through stigma, symbolic violence, and systematic misrecognition. Traditional economics and international relations theory has failed to offer insightful analyses or solutions for many of these developments. The interdisciplinary field of international studies is uniquely situated to analyze this increasingly complex world, challenge conventional wisdom, and train students to find creative solutions.

The curriculum allows the flexibility of integrating multiple disciplines with training in critical theory and a rigorous thesis-driven program. Students investigate the underlying assumptions and histories of contemporary issues and analyze scholarship using approaches from critical social and cultural theory, and international political economy.

**Program Features**

**Interdisciplinary Curriculum**

Our curriculum includes content from many areas, including international economics, political science, world history, geography, area studies, sociology and anthropology. While our program has full-time faculty dedicated to international studies, we also draw on faculty members from other departments to provide students with a rich, varied, and robust curriculum.

**Thesis-driven**

Our program has been carefully structured to provide our students with the best possible preparation for thesis research.
research during the second year of study, an opportunity becoming increasingly rare in masters programs. As they progress through the program, students develop a tutorial relationship with an individual faculty member who will serve as the student’s thesis advisor. For self-driven students with interests in a particular question, or who plan to apply to a PhD program, the thesis requirement is a major asset of the program.

**Orientation Towards Social Justice**

Our coursework challenges students to analyze the multiple ways in which inequality and oppression work and to strategize for social change in a way that bridges theory and practice. As the program progresses, students are expected to develop socially responsible ethical frameworks that are informed by historical consciousness of transnational contexts; these, in turn inform their research.

**Post-graduate Opportunities**

Because the program encompasses such a broad range of disciplines, the employment opportunities associated with the program are diverse and far-reaching. Many students go on to PhD work, well-prepared for research and writing at the doctoral level. Other graduates find jobs within nonprofits, international non-governmental organizations, and a range of international diplomatic entities.

The MA in International Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- International Studies + Global Health Certificate
- International Studies + Metropolitan Planning and Development
- International Studies + Community Development
- International Studies + Social Research Certificate
- International Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- International Studies + Women’s and Gender Studies Certificate
- International Studies + Social and Cultural Foundations in Education Certificate

<table>

<td>48 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Analyze the multiple ways in which inequality and oppression work and strategize for social change.
- Work with different partners in order to produce collaborative intellectual work.
- Be socially responsible ethical frameworks that are informed by historical consciousness of transnational contexts.
- Examine the linkages between theory and practice, scholarship and activism, research and public policy in the field of International Studies.

**Degree Requirements**

**Course Requirements**
Foundation Courses

- INT 401 CRITICAL SOCIAL THEORY
- INT 402 INTERNATIONAL POLITICAL ECONOMY
- or INT 403 ADVANCED TOPICS IN INTERNATIONAL POLITICAL ECONOMY

Students with no previous coursework in International Political Economy enroll in INT 402. Students who enter the program with some background in International Political Economy take a placement exam which will either place them in INT 402 or INT 403.

Core Courses (16 hours)

Choose four from the following:

- INT 404 MIGRATION AND FORCED MIGRATION
- INT 405 CULTURE AND INEQUALITY
- INT 406 GLOBAL EMPIRES
- INT 407 RACE, SEX AND DIFFERENCE
- INT 408 NATURE, SOCIETY, AND POWER
- INT 409 CRITICAL DEVELOPMENT THEORY
- INT 410 INTERNATIONAL LAW

Thesis Colloquia (12 hours)

- INT 590 RESEARCH METHODS: EXTENDED CASE STUDY
- INT 591 THESIS RESEARCH I
- INT 592 THESIS RESEARCH II: THESIS WRITING

Elective Courses (12 credit hours)

Students are free to select three elective courses in support of their thesis. The electives should be selected in consultation with the thesis advisor. Permission of the advisor must be obtained before taking courses outside of the International Studies Department.

Graduate Certificate Options

The MA in International Studies may also be expanded to include one of the following graduate certificate programs. The combined MA/certificate program requires careful selection of elective courses to fulfill all requirements. A separate application process is required. Students who are interested in the combined MA/certificate program should contact the program office for additional information.

- Certificate in Women and Gender Studies
- Certificate in Teaching English to Speakers of Other Languages (TESOL)
- Certificate in Global Health
- Certificate in Social Research
- Certificate in Social and Cultural Foundations in Education
- Certificate in Community Development
- Certificate in Metropolitan Planning and Development

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/ International Studies (MA)

Students in any undergraduate major at DePaul University (including International Studies majors) are invited to
apply to the combined degree program in order to complete the MA in International Studies in an additional year at DePaul. Applications are due by April 15th of the student's junior year. Applicants must have an overall GPA of 3.5 or above.

Students in this program will take INT 401 and two other INT 400-level courses in their senior year. These three graduate-level courses will count as undergraduate electives as well as requirements in the MA degree. Students are also required to take INT 301 in their senior year in order to begin their thesis research.

Students interested in applying to the BA/MA program in International Studies should contact the INT academic advisor, Mallory Warner, at mallory.warner@depaul.edu.

**Italian (MA)**

DePaul's innovative new MA program in Italian provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today's world or in multiethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, businesspeople, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Italian may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Italian + Digital Humanities Certificate
- Italian + Teaching English to Speakers of Other Languages (TESOL) Certificate

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>48 hours</strong></td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).
Course Requirements

The curriculum of the M.A. in Italian will consist of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of four courses (16 quarter credit hours) required of all students, and
2. Eight courses (32 quarter credit hours) in the language area, which must include an approved “cluster” of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest.

Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student's program (i.e. courses with prefixes ITA). In exceptional cases, with the approval of the student's advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight "language area" courses in the student's program.

Core Curriculum

The core curriculum consists of the following four courses:

- MOL 401 PROFESSIONAL FOUNDATIONS
- MOL 402 LANGUAGE, SELF AND SOCIETY
- MOL 403 COMMUNITIES OF PRACTICE
- MOL 496 MAMOL CAPSTONE

In addition, all three-hundred level courses in the respective languages are offered simultaneously as 400-level electives to complete the M.A. program. These 400-level courses carry different requirements than the lower-level courses.

Additional Requirements

Additional requirements include:

- ACTFL Oral Proficiency Interview
- Portfolio Project

All students must attain a rating of at least "Advanced Low" from the standardized Oral Proficiency Interview (OPI) of the American Council on Teaching Foreign Languages (ACTFL).

The service learning experience will involve work within an environment where the student can apply her or his linguistic expertise, as a volunteer, contributor, intern, or employee. This environment might be a community group; a social service or agency; a professional association; or an artistic organization. This experience should ideally contribute to the student's portfolio project.

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program or a final project with written critical assessment. Final projects may include a community service experience, internship, performance and creative work, thesis, or translation.

Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework. The thesis should address the area of interest of the candidate's course "cluster."
Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “intermediate high” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply “transfer” credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Japanese (MA)

DePaul's innovative new MA program in Japanese provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multiethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, businesspeople, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Japanese may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.
Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.
Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

**Graduation with Distinction**

Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

**Jazz Studies (MM)**

The graduate jazz studies program provides students a comprehensive education in jazz, allowing students to specialize in either performance or composition. Drawing upon the resources of the Chicago jazz scene, faculty members are highly celebrated performers, teachers, composers, and arrangers. In addition to applied jazz lessons, jazz ensembles, and jazz combos, Master of Music students enroll in courses such as jazz theory, history, pedagogy, improvisation, composing, and/or arranging. Throughout the program, jazz students have multiple opportunities to record performances and compositions in professional recording studios. The Master of Music degree is a two-year program.

**Learning Outcomes**

**Program Specific Outcomes**

Students will be able to:

- Perform and improvise on an instrument as a soloist or in an ensemble, with technical proficiency, e.g., tone production, intonation, articulation, technical facility, and rhythmic conception, and musicality at the level of an advanced student or higher.
- Read and sight-read music, with correct musical interpretation.
- Demonstrate an understanding of jazz theory and harmony; possess a vocabulary of jazz figures applicable to improvisation.
- Demonstrate growing maturity in musical concepts
  - Use tools of performance to create artistic products.
- Work independently by fulfilling weekly musical assignments in applicable courses, applied lessons, and ensembles.
- Teach jazz principles and techniques on one's major instrument.
- Understand the historical context of music from significant periods of jazz history.
- Compose and arrange music for small and large jazz ensembles.
- Perform in large ensembles and jazz chamber groups
  - Collaborate, blend, and balance within an ensemble.
- Find, choose, and research repertoire.

**Concentration Specific Outcomes**

**Jazz Performance**

- Plan and perform a graduate recital, and be able to collaborate with other musicians.
Jazz Composition

- Create a final composition/arranging project.

Degree Requirements

Course Requirements

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master's degree students, and courses in the specialization. Prior to the conclusion of each degree program, graduate students must pass a written comprehensive examination, administered by each department/program.

Jazz Studies Core (16 credits)

- JZZ 406 JAZZ STYLE AND ANALYSIS
- Music History: Two courses from the following list
  - JZZ 405 JAZZ HISTORY
  - MUS 420 HISTORY OF THE ORATORIO
  - MUS 435 18th & 19th WIND HISTORY AND LITERATURE
  - MUS 436 20th CENTURY WIND HISTORY AND LITERATURE
  - MUS 475 MEDIEVAL MUSIC
  - MUS 478 RENAISSANCE MUSIC
  - MUS 479 BAROQUE MUSIC
  - MUS 481 HISTORY OF OPERA
  - MUS 482 WORLD MUSIC CULTURES
  - MUS 484 CLASSICAL MUSIC
  - MUS 485 ROMANTIC MUSIC
  - MUS 486 MUSIC SINCE WORLD WAR II
  - MUS 487 20TH CENTURY MUSIC BEFORE WWII
- MUS 400 MUSIC RESEARCH

Specializations

Students must choose one of the following specializations:

Performance Specialization

- Applied Jazz Lessons (12 credits required)
  - JZZ 412 APPLIED JAZZ IMPROVISATION
  - JZZ 413 JAZZ GUITAR
  - JZZ 414 JAZZ PERCUSSION
  - JZZ 415 JAZZ PIANO
  - JZZ 416 JAZZ SAXOPHONE
  - JZZ 417 JAZZ STRING BASS
  - JZZ 418 JAZZ TROMBONE
  - JZZ 419 JAZZ TRUMPET
- JZZ 411 JAZZ PEDAGOGY
- JZZ 425 JAZZ RHYTHM SECTION TECHNIQUES
- Electives (4 credits)
- Ensemble Participation (12 credits)
  - JZZ 400 JAZZ ENSEMBLE
  - JZZ 401 JAZZ CHAMBER ENSEMBLE
- JZZ 407 JAZZ GRADUATE RECITAL (0 credits)

Composition Specialization

- Advanced Jazz Composition Sequence
JZZ 402 ADVANCED JAZZ COMPOSITION I
- JZZ 404 ADVANCED JAZZ COMPOSITION II
- Applied Jazz Lessons (6 credits)
- JZZ 413 JAZZ GUITAR
- JZZ 414 JAZZ PERCUSSION
- JZZ 415 JAZZ PIANO
- JZZ 416 JAZZ SAXOPHONE
- JZZ 417 JAZZ STRING BASS
- JZZ 418 JAZZ TROMBONE
- JZZ 419 JAZZ TRUMPET
- JZZ 403 ADVANCED JAZZ ARRANGING AND ORCHESTRATION
- JZZ 411 JAZZ PEDAGOGY
- JZZ 425 JAZZ RHYTHM SECTION TECHNIQUES
- Electives (4 credits)
- Ensemble Participation (6 credits)
  - JZZ 400 JAZZ ENSEMBLE
  - JZZ 401 JAZZ CHAMBER ENSEMBLE

**Terminal Requirements**

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- Performance track, the presentation of a public recital; composition track, the completion of a final writing project.

While preparation of the terminal requirement in the major may take place within some course or activity for which a student is registered for credit, additional academic credit is not granted for the project itself.

**Residency Requirements**

All courses for the master's degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

A full-time graduate student must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master's degree program has been granted.

---

**Journalism (MA)**

The MA in Journalism Program at DePaul prepares graduates for careers as multimedia news producers and visual storytellers in journalism's new digital landscape. Our graduates are now content producers at more than 400 sites in the webbed universe. Concentrations in Multimedia Reporting; Reporting Metro Chicago; Sports Journalism; and Data Journalism helped establish their brands as socially responsible reporters, editors, and producers.

DePaul's program brings Chicago into the classroom and moves the classroom out into the third largest media market in the country. Internships and experiential learning opportunities enable students to develop the networks and e-portfolios that advance their careers. Our award-winning team of journalism professionals partners with students in producing first rate news stories across platforms, aided by DePaul's downtown Media Center and Green Screen Studio.

<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

- Understand the social responsibility of journalists to serve citizens with news worth knowing.
- Use digital story-telling techniques to be competitive in the new journalism marketplace.
- Experiment in how to best handle and present the news of the day.

Degree Requirements

Course Requirements

The Master of Arts in Journalism requires 12 courses (48-credit hours) — three core courses, a minimum of six elective courses in Journalism, and a maximum of three outside electives.

Core Courses

Students are required to take all of the following:

- JOUR 501 THE SOCIAL RESPONSIBILITY OF JOURNALISM
- JOUR 502 NEWS NOW: JOURNALISM IN THE INFORMATION AGE
- JOUR 503 REPORTING FOR CONVERGED NEWSROOMS

Journalism Electives

Students select a minimum of six courses from the following list (students who wish to earn one of the three concentrations should see "Concentration Requirements" page to help guide their elective course choices):

- JOUR 504 MULTIMEDIA NEWS PRODUCTION (formerly Backpack Reporting)
- JOUR 505 TELEVISION NEWS REPORTING
- JOUR 506 NEWSCAST PRODUCING
- JOUR 507 VISUAL COMMUNICATION
- JOUR 509 JOURNALISM LAW AND ETHICS
- JOUR 510 SPORTS REPORTING
- JOUR 511 ARTS & ENTERTAINMENT REPORTING
- JOUR 512 BUSINESS WRITING AND REPORTING
- JOUR 513 POLITICAL REPORTING
- JOUR 514 OPINION AND COLUMN WRITING
- JOUR 515 SPECIAL TOPICS IN JOURNALISM
- JOUR 517 EXPERIENTIAL LEARNING IN JOURNALISM
- JOUR 518 WRITING AND REPORTING
- JOUR 519 INTERNATIONAL REPORTING
- JOUR 520 DATA JOURNALISM
- JOUR 521 SPORTS PRODUCING
- JOUR 522 MULTI-PLATFORM NEWS EDITING
- JOUR 523 ONLINE SPORTS REPORTING
- JOUR 524 WRITING FOR THE DEPAULIA
- JOUR 525 URBAN AFFAIRS REPORTING
- JOUR 526 POLITICAL COMMUNICATION
- JOUR 527 LIFESTYLE REPORTING
- JOUR 528 REPORTING FOR GOOD DAY DEPAUL
- JOUR 529 ONLINE NEWS BUREAU
- JOUR 530 RADIO NEWS
Outside Electives

With approval from the graduate program director, students can take up to three relevant elective courses from other Communication graduate programs, or relevant graduate elective courses from outside of Communication. Examples of courses students have taken previously are:

- CMNS 545 COMMUNICATION AND TECHNOLOGY
- CMNS 552 STRATEGIC COMMUNICATION
- CMNS 561 INTERNATIONAL MEDIA
- CMNS 563 MULTICULTURAL MEDIA REPRESENTATIONS
- DC 415 POST-PRODUCTION SOUND DESIGN
- DC 420 EDITING
- DC 430 VISUAL EFFECTS
- DC 471 DOCUMENTARY PRODUCTION
- MCS 530 NEW MEDIA AND CULTURE
- MCS 534 DOCUMENTARY STUDIES
- MCS 541 AUDIO DOCUMENTARY
- NMS 502 NEW MEDIA, OLD MEDIA
- NMS 520 WEB DESIGN I
- NMS 521 WEB DESIGN II
- PRAD 535 PUBLIC RELATIONS IN HEALTH CARE
- PRAD 562 MEDIA RELATIONS
- PRAD 575 COMMUNICATION ETHICS AND LAW

Grade Requirements

Students must maintain a minimum cumulative GPA of 3.000 in their graduate courses to remain in good academic standing. Students who do not meet this minimum cumulative requirement will be placed on academic probation and will be expected to attain the minimum cumulative requirement within two quarters. Failure to do so may result in dismissal from the program.
Concentration Requirements

Students pursuing a graduate Journalism degree can select specific elective classes to earn a concentration.

- Data Journalism
- Multimedia Journalism
- Reporting Metro Chicago
- Sports Journalism

Data Journalism Concentration

The concentration in Data Journalism at DePaul focuses on reporting stories through data and non-linear storytelling. It enables students to cover many of our major social problems---crime, poverty, access to health care, homelessness, and various forms of abuse---through social science reporting, data mining and visualization. The concentration's objectives are to find and report important stories by integrating classic journalistic values of fairness, balance and impartiality with the values of digitalization and open-source culture. Graduates will be prepared to find jobs in the rapidly growing marketplace of publications that combine journalism and cutting-edge technology.

Core Courses

Students are required to take both of the following:

- JOUR 520 DATA JOURNALISM
- JOUR 531 JOURNALISM BY NUMBERS

Elective Courses

Choose two from the following list:

- GEO 440 PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS
- GEO 441 GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT
- GEO 442 GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT
- JOUR 504 MULTIMEDIA NEWS PRODUCTION
- JOUR 522 MULTI-PLATFORM NEWS EDITING
- JOUR 529 ONLINE NEWS BUREAU
- JOUR 533 JOURNALISM & FREEDOM OF INFORMATION
- JOUR 542 SOCIAL MEDIA AND THE NEWS
- CSC 401 INTRODUCTION TO PROGRAMMING
- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 455 DATABASE PROCESSING FOR LARGE-SCALE ANALYTICS
- CSC 465 DATA VISUALIZATION
- CSC 495 SOCIAL NETWORK ANALYSIS
- IT 403 STATISTICS AND DATA ANALYSIS
Multimedia Journalism

Multimedia Journalism is a concentration that focuses on the multimedia storytelling and narrative strategies used to engage a wide readership. Course work shows students how to combine text, photographs, video clips, audio, and graphics that encourage interactivity. Students will learn the strategies for multimedia storyboarding, planning, and delivery systems that successfully integrate mobile, tablet and desktop platforms. The concentration guides students into a better understanding of the evolving media landscape and its digital communities in helping students produce professional-grade multimedia stories.

Core Courses

Students will take the following courses as part of their major program requirements:

- JOUR 502 NEWS NOW: JOURNALISM IN THE INFORMATION AGE
- JOUR 503 REPORTING FOR CONVERGED NEWSROOMS

Elective Courses

Students then choose two courses from the following:

- JOUR 504 MULTIMEDIA NEWS PRODUCTION
- JOUR 517 EXPERIENTIAL LEARNING IN JOURNALISM
- JOUR 522 MULTI-PLATFORM NEWS EDITING
- JOUR 523 ONLINE SPORTS REPORTING
- JOUR 529 ONLINE NEWS BUREAU
- JOUR 533 JOURNALISM & FREEDOM OF INFORMATION
- JOUR 539 CURRENT ISSUES IN THE JOURNALISM INDUSTRY
- JOUR 542 SOCIAL MEDIA AND THE NEWS
- JOUR 588 REPORTING FOR 14 EAST MAGAZINE

Reporting Metro Chicago Concentration

Course Requirements

The graduate concentration in Reporting Metro Chicago prepares students for work in urban reporting by introducing them to the communities, institutions, and decision-makers that impact citizens across the metro area. Students will learn how to cover critical urban issues through a variety of print and online platforms that serve citizens with fascinating stories drawn from across the city.

Core Courses

Students are required to take one of the following:

- JOUR 513 POLITICAL REPORTING
- JOUR 525 URBAN AFFAIRS REPORTING

Elective Courses

Choose three courses from the following list:

- JOUR 509 JOURNALISM LAW AND ETHICS
- JOUR 512 BUSINESS WRITING AND REPORTING
- JOUR 514 OPINION AND COLUMN WRITING
Sports Journalism Concentration

Course Requirements

The graduate concentration in Sports Journalism trains students to write, report, and produce multimedia sports packages while giving them an understanding of the unique role of sports in American life. Experiential learning opportunities are emphasized in game coverage, sports blogging, and building sports communities through print, broadcast, and social media. Students will learn the perspective and context that makes for truly exceptional work in sports journalism.

Core Courses

Students are required to take one of the following:

- JOUR 510 SPORTS REPORTING
- JOUR 523 ONLINE SPORTS REPORTING

Elective Courses

Choose three courses from the following list:

- JOUR 510 SPORTS REPORTING
- JOUR 514 OPINION AND COLUMN WRITING
- JOUR 515 SPECIAL TOPICS IN JOURNALISM
- JOUR 517 EXPERIENTIAL LEARNING IN JOURNALISM
- JOUR 521 SPORTS PRODUCING
- JOUR 523 ONLINE SPORTS REPORTING
- JOUR 524 WRITING FOR THE DEPAULIA
- JOUR 528 REPORTING FOR GOOD DAY DEPAUL
- JOUR 529 ONLINE NEWS BUREAU
- JOUR 535 RADIO DEPAUL
- JOUR 536 SPORTS BLOGGING
- CMN 591 INTERNSHIP
Combined Bachelor's/Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/Journalism (MA)

Admission

Students with junior status who have earned a 3.5 GPA in their major courses and have a 3.0 cumulative GPA are eligible to apply to the program.

Applicants must submit the following to Office of Graduate Admission no later than 6 weeks prior to the start of their senior year (i.e. prior to the start of their final three undergraduate quarters): Combined Degree Program Application, official undergraduate transcript, statement of purpose (750 words) explaining why the student is seeking admission to the program, writing sample or project that demonstrates the applicant's ability/interest in journalism, and two letters of recommendation from professors in the College of Communication or professors in the major.

Program Standards

Students accepted into the combined degree program complete 12 graduate credit hours of Journalism coursework which will fulfill undergraduate journalism electives (for journalism majors), communication electives (for communication majors) and/or open electives. Students are strongly encouraged to take two of the three core courses (JOUR 501, JOUR 503) and one JOUR elective during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet this requirement, they will not be allowed to continue as a graduate student in the program.

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their undergraduate degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Liberal Studies (MA)

The Master of Arts in Liberal Studies (MALS) program is a multidisciplinary approach to graduate education which emphasizes liberal education and enhanced intellectual skills that are valuable in a wide variety of careers. It is particularly designed for serious learners, or those who wish to become serious learners, from recent college graduates to men and women in later life.

The MALS program is grounded in a set of team-designed core courses. These courses establish the aims and themes of the program, orient the student to a multidisciplinary approach to graduate education, and develop in the student advanced learning skills. These are designed to foster academic rigor, intellectual adventure, and cultural breadth.

The other components of the program are electives and a variety of options for a culminating project. Electives are usually graduate and upper-level courses chosen from departmental offerings in the College of Liberal Arts and Sciences. Students select these courses with the aid of an advisor to build a program of study tailored to individual goals and interests. Included under electives are MALS special topics courses, which are especially well-suited to the needs of MALS students.

By about the midpoint of their studies (24-32 credit hours earned), students should begin discussing possible
culminating project ideas with the director, associate director, or faculty advisor. The culminating project gives MALS students the opportunity to demonstrate the intellectual and creative powers that they have developed over the course of graduate study. MALS students may choose from four options for program completion, allowing greater flexibility for students to pursue their studies. These four options may take the form of a thesis, a community-based or media project, an enhanced portfolio, or a specially selected exit course and paper.

The MALS program offers a number of concentrations, including: Standard, Executive/Leadership, and Women's Studies. The Standard Concentration is based on a four-course core requirement, and may be tailored to the student's interests. The Executive/Leadership and Women's Studies Concentrations are based on a five-course core requirement and stipulate policies for elective selection. Program advising is available to help students choose a concentration. Each of the concentrations may be pursued with any of the four program completion options. The MALS program is jointly administered with the Master of Arts/Master of Science in Interdisciplinary Studies program.

The MA in Liberal Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- MALS + Digital Humanities Certificate
- MALS + Social Research Certificate
- MALS + Women's and Gender Studies Certificate

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48-52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Total hours required</strong></td>
<td>48-52 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- analyze and interpret discourse and media in a variety of academic, literary, professional and popular genres.
- use multi-disciplinary and inter-disciplinary approaches to knowledge.
- analyze the social and/or historical context of phenomena.
- analyze value systems.
- write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc., culminating in an extended capstone.
- make effective oral presentation of ideas, and engage in thoughtful oral exchange of ideas.
- incorporate, analyze and properly cite a variety of academic and professional resources, including scholarly books, journal articles and vetted web resources, in conducting research.
- use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic writing projects.
- utilize current technology appropriate to their academic or career paths.
Degree Requirements

Portfolio
All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At least two of the three pieces in the midpoint portfolio will be from the core courses. The third will be from an elective representing the student's best work. At the culminating point there will be work from at least six courses represented in the portfolio, two pieces from the core courses and four from the electives, representing the student's best work.

Midpoint Essay
After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student's intellectual growth, and suggests directions for the second half of the student's program.

Culminating Point Essay
All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

Course Work

- Completion of 48 or 52 quarter hours of graduate credit, depending on the concentration and completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Cumulative grade-point average of 2.5 in the core courses: Students who have not achieved a 2.5 in the core will be warned that they will probably have serious difficulties in the elective portion of the program, and may be advised to withdraw.
- Elective courses must be selected from at least two different departments in order to preserve the multidisciplinary character of the program.
- MALS students ordinarily take no more than two approved 300-level courses for MALS degree credit unless they have sought the approval of a MALS program advisor.

Program Completion (Capstone) Steps
All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio, or exit course). This application will include the student's portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MALS 498 INDEPENDENT STUDY: THESIS if they require an additional quarter of research and other preparation for MLS 499.

Both 498 and 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the MALS director sign a Culminating Project Completion Form, which can be found on the program's D2L site.

Program Completion (Capstone) Options

Thesis Option
In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master's Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis.

- Ordinarily taken as MLS 499 CAPSTONE, the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal, and approval of committee.
Practicum Option

In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project.

- Ordinarily taken as MLS 499 CAPSTONE, the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory” on the Midpoint Portfolio, formal proposal, and approval of committee.

Enhanced Portfolio Option

In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student's own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

- Ordinarily taken as MLS 499 CAPSTONE, the student's 13th and final course.
- Requires formal proposal and approval of committee

Exit Course Option

In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above the original 12 courses. This course should be chosen as an "exit course," in that it brings together a number of areas of interest that the student has pursued over the course of the program. By arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall MALS or IDS Program. The instructor will grade the paper, and another reader suggested by the MALS or IDS program will also review and comment on the paper.

- Requires formal proposal and approval of committee.

International Summer Programs at the University of Cambridge

DePaul's Master of Arts in Liberal Studies program has established an arrangement with the University of Cambridge, England, for students who wish to include study abroad in their programs of study. Summer programs vary in length from three to six weeks. Variable graduate credit is offered up to a maximum of eight hours. Students make their own arrangements with the University of Cambridge and apply for transfer of credit after completing the courses. Students must make sure to follow the Cambridge procedures for "Evaluation and Credit" if they wish to transfer credit to the DePaul MALS Program.

Program Time Limitation

The MALS program is essentially self-paced. However, the university has set a four year limit for the completion of degree requirements. Extensions may be granted by the Dean in unusual circumstances upon the recommendation of the program's director. Students must petition for such an extension in writing.

Concentration Requirements

Standard Concentration

- MLS 401 VISIONS OF THE SELF
- One course from the following list:
  - MLS 402 PERCEPTIONS OF REALITY
  - MLS 405 REPRESENTATIONS OF THE BODY
  - MLS 409 ENVIRONMENT AND SOCIETY
- MLS 403 THE AMERICAN EXPERIENCE
Executive/ Leadership Concentration

- MLS 401 VISIONS OF THE SELF
- One course from the following list:
  - MLS 402 PERCEPTIONS OF REALITY
  - MLS 405 REPRESENTATIONS OF THE BODY
  - MLS 409 ENVIRONMENT AND SOCIETY
- MLS 403 THE AMERICAN EXPERIENCE
  - MLS 404 THE CITY
- MLS 406 EXPLORING OTHER CULTURES
  - or another graduate-level course dealing with a single non-Western culture
- MLS 442 ETHICS AND THE ECONOMY
- MLS 452 BUSINESS, SOCIETY AND SUSTAINABLE DEVELOPMENT

Six or seven elective courses, depending on program completion option. Choose from MALS special topics courses or graduate and upper-level courses with the aid of the student's advisor. At least two electives should relate to business, the economy, or leadership in the non-profit sector.

- MLS 499 CAPSTONE (or a designated exit course, if the Exit Course Option is chosen). The topic and content of the culminating project must deal with some aspect of leadership or an issue relating to business, government, or the non-profit sector.

In lieu of 442 and 452 students may select, with the permission of the director, two other graduate-level courses dealing with leadership issues.

Women's and Gender Studies Concentration

- MLS 401 VISIONS OF THE SELF
- MLS 405 REPRESENTATIONS OF THE BODY
- MLS 403 THE AMERICAN EXPERIENCE
  - or MLS 404 THE CITY
- MLS 440 FEMINIST THEORIES
- MLS 441 WOMEN ACROSS CULTURES

Six or seven elective courses, depending on program completion option. Choose from MALS special topics or graduate or upper-level courses with the aid of the student's advisor. Three of the six courses must meet the criteria of the Women's and Gender Studies concentration; that is, the topic, content, and approach to the course must be focused upon the study of women or gender relations. For example, MLS 445, MLS 467, MLS 474, MLS 477 and MLS 478 meet these criteria.

- MLS 499 CAPSTONE (or a designated exit course, if the Exit Course Option is chosen). The topic, content, and approach of the integrating project must be focused on the study of women or gender. A Women's Studies faculty member must advise the student throughout the project's development.

Student Handbook

Probation

Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student's GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.
When a student is admitted to the MALS or IDS Program under the category of “Conditional Admission” he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the MALS and IDS D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student's grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advise from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

Dismissal

In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete core courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS 502) during the three quarters of the academic school year. After three consecutive terms of candidacy continuation, students should enroll in Active Status (MLS 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in dismissal from the program if the student has not formally withdrawn from the program.

Readmission

When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LASS Graduate website.

Transfer Credit

A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student's overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

Undergraduate Courses

Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances: (1) The course is necessary as a part of the student's overall interdisciplinary program. (2) The department does not offer courses in the same area on the graduate level. (3) The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course. Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

Graduation Requirements

In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 2.5, a Midpoint and Culminating Point Essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. Full descriptions of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the MALS and IDS D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

Graduation with Distinction

In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of “distinction” on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at a MALS/IDS event within three academic quarters of completion. Students in MALS and IDS completing their
programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

**Time Limit**

Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed on the LASS Graduate website.

---

**Management (MBA)**

The MBA concentration in management provides you with in-depth, applied learning that will enable you to successfully organize, lead and direct others in the workplace. The program will prepare you for professional opportunities across industries, with a focus on self-awareness, leadership development, teamwork, project management and managing others.

**Highlights**

You have the flexibility to choose any four graduate-level management courses to fulfill your concentration after completing core MBA requirements. Depending on your goals, you could choose courses that prepare you for the following career paths:

- **Coaching and Talent Development**: Gain management coaching competencies to help others achieve change and performance improvement, and improve your individual leadership effectiveness and personal growth.
- **Consulting**: Master the process to consult with clients, including contracting, problem diagnosis, data analysis, and client feedback and evaluation.
- **Leadership and Change Management**: Learn the systematic process to design and lead change efforts that encompass diagnosing opportunities, creating change visions and developing readiness for change to improve organizational effectiveness.
- **Managing Human Capital**: Develop skills for strategically managing human resources to advance organizational goals, improve workforce performance and enhance employee satisfaction.
- **Supply Chain Management**: Increase your ability to critically evaluate supply chain design and model complex supply chain phenomena.

**Career Outlook**

The MBA concentration in management offers you a path to various positions within management. Depending on the courses you choose and your career goals, sample job titles include general manager, human resource manager, senior manager, organization development consultant, director of change management or organizational effectiveness, program director, project manager and operations manager, among others. Students who have completed this concentration have gone on to leadership roles at firms such as Grainger, Deloitte, JLL, 3M and Northern Trust, among many other organizations.

DePaul University   Autumn 2017-2018   Page 340 of 2468
Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT
Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.

Concentration Requirements

The management MBA concentration (16 hours) requires students to complete any four graduate-level management courses. To help guide your class selections, below are examples of courses you could choose based on career goals.

Coaching and Talent Development

- MGT 525 TRAINING AND CAREER DEVELOPMENT
- MGT 529 LIFE AND CAREER COACHING
- MGT 530 LEADERSHIP IN ORGANIZATIONS
- MGT 589 EXECUTIVE COACHING: LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT

Consulting

- MGT 535 CHANGE MANAGEMENT AND CONSULTING
- MGT 562 RESOLVING CONFLICT IN ORGANIZATIONS
- MGT 563 NEGOTIATION SKILLS
- MGT 584 CONSULTING SKILLS
- MGT 598 PROJECT MANAGEMENT

Leadership and Change Management

- MGT 508 QUALITY MANAGEMENT SYSTEMS
- MGT 530 LEADERSHIP IN ORGANIZATIONS
- MGT 535 CHANGE MANAGEMENT AND CONSULTING
- MGT 556 ETHICS AND LEADERSHIP
- MGT 572 CORPORATE VENTURES AND MANAGEMENT
- MGT 573 CREATIVITY & INNOVATION IN BUSINESS
- MGT 589 EXECUTIVE COACHING: LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT
- MGT 590 MANAGEMENT OF INNOVATION AND TECHNOLOGICAL CHANGE

Managing Human Capital

- MGT 523 RECRUITMENT AND SELECTION*
- MGT 525 TRAINING AND CAREER DEVELOPMENT*
- MGT 526 COMPENSATION AND BENEFITS*
- MGT 529 LIFE AND CAREER COACHING
- MGT 551 GLOBAL WORKFORCE MANAGEMENT
- MGT 552 MANAGING CULTURAL DIFFERENCES FOR GLOBAL SUCCESS
- MGT 562 RESOLVING CONFLICT IN ORGANIZATIONS
- MGT 563 NEGOTIATION SKILLS*
Management (MS)

In the Master of Science in Management program, you will gain the fundamental knowledge necessary to develop managerial skills. This degree is designed for early career professionals from non-business backgrounds in liberal arts, engineering, mathematics, technology and other fields.

Most MS degrees can be completed in four quarters of full-time study or eight quarters of part-time study. The MS in Management degree offers the added benefit of providing 24 credits toward an MBA should you decide to pursue one in the future.

Highlights

In this program, you will acquire leadership skills, methods and tools to:

- Manage projects, strategy, innovation and people effectively in a variety of organizational settings.
- Think critically, analyze a wide range of information and initiate creative solutions to business challenges.
- Use current sustainable management and ethical decision-making frameworks in your role as a manager.
- Understand business fundamentals, including operations management, financial accounting and economic conditions analysis.

Students in the program have the opportunity to pursue focus areas such as project management, human resources, marketing and sales.

Career Outlook

Corporate demand is growing for graduates with MS in Management degrees, according to national recruiter surveys conducted by The Graduate Management Admission Council. For individuals with non-business undergraduate degrees and modest professional experience, and/or career changers, an MS in Management provides a well-respected credential for pursuing entry- to mid-level management positions.

</tbody>
</table>
Degree Requirements

Students in the MS-Management program complete 13 courses (48 credit hours).

- ACC 500 FINANCIAL ACCOUNTING
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 credit hours)
- MGT 515 SUSTAINABLE MANAGEMENT
- MGT 530 LEADERSHIP IN ORGANIZATIONS
- MGT 554 MANAGING HUMAN CAPITAL (2 credit hours)
- MGT 556 ETHICS AND LEADERSHIP
- MGT 584 CONSULTING SKILLS
- MGT 598 PROJECT MANAGEMENT
- 4 Kellstadt electives

1. Satisfactory completion of the college residency requirement.
2. Satisfactory completion of the 13 required courses, or their substitutes as approved by the Chair of the Management Department.
3. All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Combined Bachelor's/Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/ Management (MS)

The Master of Science in Management is designed for early career professionals interested in general management of the firm.

Solutions to management problems require the ability to think critically about a wide variety of information and to integrate ideas in creative ways. Managers are called upon to perform in a variety settings with a variety of decision-making models. Students in the Master of Science in Management will develop competencies in managing decision-making processes, managing strategy and innovation, managing human capital, and managing the task environment.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Management may apply to the Bachelor's degree/Management (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Upon identifying themselves as a combined degree applicant, the GMAT/GRE requirement will be waived. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
• A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take the following three graduate level courses during their senior year:

- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR (replaces MGT 302; prerequisite MGT 300)
- ACC 500 FINANCIAL ACCOUNTING
- ECO 509 BUSINESS CONDITIONS ANALYSIS

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS-Management will be awarded upon completion of the remaining graduate level work.

Management Information Systems (MBA)

The Management Information Systems concentration teaches you how to analyze and define information systems requirements in various business situations and, much like an architect, guide others to build to these requirements. You will learn how to evaluate emerging disruptive technologies, how to align information technology with business strategy and how to address information systems needs from a business perspective. This degree will prepare you for professional roles involving IT planning and strategy. The program is ideal for business-minded, technically proficient students who may not have previous coursework or experience with information systems.

**Highlights**

In this concentration, you will gain:

- Project management experience involving a variety of information technologies and their utilization applicable to private and governmental organizations.
- Knowledge of the information systems life cycle and the nature of related phases and tasks, from initial study through post-implementation support.
- A thorough understanding of system requirements elicitation, analysis, documentation, validation and management.
- Techniques for working with users and builders of information systems.
- Tools for developing prototypes that use visual programming technology.
- Experience with identifying organizational data to design and manipulate databases.
- Integrated technical knowledge and understanding of business operations.

**Career Outlook**

This concentration covers essential information systems concepts and methods to prepare you for positions such as business systems analyst or management information technology manager. DePaul’s ties to the Chicago business community help connect students with prominent corporate executives and top-performing companies in various industries.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.

Concentration Requirements

To complete the Management Information Systems concentration, students must complete four courses from the following list.

- MIS 555 MANAGEMENT OF INFORMATION TECHNOLOGY
- MIS 673 DATA MANAGEMENT
- MIS 674 SYSTEMS ANALYSIS AND DESIGN
- MIS 683 INFORMATION TECHNOLOGY STRATEGY AND ARCHITECTURE
- ACC 637 DATA MINING AND ANALYTICS
- MGT 598 PROJECT MANAGEMENT

Marketing (MBA)

The Marketing MBA will help you sharpen your skills in four key areas: market research, category management, business development and digital marketing. You can specialize in one area or combine areas to further enhance your skill set. The program will provide you with the knowledge and skills necessary to identify and develop programs and products that meet customer needs, and it will prepare you for assuming and successfully discharging managerial responsibilities in marketing or marketing-related positions.

Highlights

In this program you can choose to focus on a variety of practical advanced marketing skills, including the ability to:

- Develop and conduct targeted market research, which will boost your interviewing and survey creation skills while you use advanced statistics to analyzing small data sets.
- Coordinate syndicated data from various sources and use it to develop marketing plans for your business or industry.
- Translate research data into real-world business decisions.
- Thoroughly understand category management and how it helps to make better purchasing and pricing decisions.
- Develop marketing plans that work in a multicultural market to support global new business development and expansion.
- Advance key skills in digital marketing and online consumer research.
Career Outlook

The Marketing MBA concentration offers you a path to various positions within the expansive field of marketing, such as category marketing manager, account manager, digital marketing manager, director of research or senior research analyst. Students with this concentration have gone on to leadership roles at firms such as Leo Burnett, DDB Needham, Deloitte, Grainger, Walgreens and Wrigley, among many others.

**Concentrations and Electives**

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.

**Concentration Requirements**

**Course Requirements**

The concentration in Marketing requires the following four courses:

- MKT 535 MARKETING STRATEGIES AND PLANNING
- A minimum of three additional graduate-level marketing courses not including MKT 555.

Students may take 5 additional graduate-level marketing courses as electives and are encouraged to consult with department faculty for course recommendations.

You can focus on one area of interest or take a broad array of classes to enhance your skills.

Here are some suggested courses for specific areas of interest. If you have some other topics in mind, a faculty member or advisor can help you choose the best courses to match your interests.

**Brand Management**

- MKT 541 BRAND MANAGEMENT
- MKT 542 BRAND CULTURE
- MKT 545 CONSUMER BEHAVIOR
- MKT 575 ADVERTISING AND SALES PROMOTION
- MKT 582 CATEGORY MANAGEMENT
- MKT 583 MONETIZING MARKETING STRATEGY
Business Development

- MKT 550 BUSINESS TO BUSINESS MARKETING
- MKT 577 LEADING BUSINESS DEVELOPMENT
- MKT 578 SALES STRATEGY & TECHNOLOGY
- MKT 582 CATEGORY MANAGEMENT
- MKT 583 MONETIZING MARKETING STRATEGY

Consumer Insights

- MKT 525 MARKET RESEARCH
- MKT 526 ADVANCED MARKET RESEARCH
- MKT 529 PRECISION MARKETING
- MKT 534 ANALYTICAL TOOLS FOR MARKETERS
- MKT 545 CONSUMER BEHAVIOR
- MKT 798 SPECIAL TOPICS: Predicting Choice Behavior

Digital Marketing

- MKT 595 INTERNET AND INTERACTIVE MARKETING
- MKT 798 SPECIAL TOPICS: Social Media Marketing
- MKT 798 SPECIAL TOPICS: Multi-Channel Marketing

Global Marketing

- MKT 557 INTERNATIONAL MARKETING
- MKT 558 MARKETING ACROSS CULTURES: A GLOBAL PERSPECTIVE
- MKT 559 EMERGING MARKETS
- IB 750 INTERNATIONAL BUSINESS SEMINAR I

Marketing (MS)

The Master of Science in Marketing prepares students with the knowledge and skills required to identify and develop products and services that meet customer needs. Taught by scholars and business leaders who bring the real world of marketing into the classroom, course work emphasizes proficiency in analysis, conceptual ability, planning and control of market activity. Upon graduating, students will be prepared for the challenges of a marketing career in an ever-changing and fast paced business environment.

Students who have earned or are currently pursuing an MBA may have up to six of their MBA courses count toward the requirements of the MS in Marketing degree depending upon the specific content of the course work and how recently it was completed. Students without demonstrated competency in statistics at admission may be required to complete additional course work for the degree.

Highlights

The MS in Marketing program curriculum includes a wide range of courses that will provide you with a solid foundation in market analysis, evaluating market activity and management strategies, including:

- Analytical tools for marketing
- Business conditions analysis
- Decisions in marketing management
- Effective business communication
- Ethics
- Financial accounting
- Market research
- Marketing strategies and planning
Career Outlook

Employment of marketing managers and related occupations is projected to grow 12 percent through 2022, according to the U.S. Bureau of Labor statistics.

Learning Outcomes

Students will be able to:

- Appropriately apply relevant concepts and knowledge to applied business problems.
- Use analytical and reflective skills in making decisions.
- Communicate effectively in writing and in oral presentations.
- Recognize and analyze ethical problems within applied business situations, choose a resolution, and justify that ethical choice.

Degree Requirements

Course Requirements

The MS in Marketing program involves two stages: KGSB Core Courses and Marketing Required Courses. Please note that this program assumes that students are admitted with prior coursework in statistics. Students without prior coursework in statistics must complete GSB 420 prior to registering for MKT 525.

**KGSB Core Courses (4 courses)**

- MKT 555 DECISIONS IN MARKETING MANAGEMENT
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ACC 500 FINANCIAL ACCOUNTING
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR

**Marketing Required Courses (8 courses)**

- MKT 525 MARKET RESEARCH
- MKT 534 ANALYTICAL TOOLS FOR MARKETERS
- MKT 535 MARKETING STRATEGIES AND PLANNING
- MKT 545 CONSUMER BEHAVIOR
- MKT 576 EFFECTIVE BUSINESS COMMUNICATION
- MKT 583 MONETIZING MARKETING STRATEGY
- 2 Marketing electives

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the four KGSB Core Courses and eight Marketing Required Courses.
- All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is
expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Marketing Analysis (MS)

The Master of Science (MS) in Marketing Analysis program focuses on the quantitative approaches and aspects to marketing, specifically:

- Analytical tools
- Analyzing, interpreting and applying data
- Market research
- Marketing strategies and planning
- Statistics

This program is designed for the student with a bachelor’s degree, or who has earned or is earning an MBA.

Highlights

The MS in Marketing Analysis program will provide you with the skills and knowledge to make you a highly sought after candidate for many companies and organizations. Through the program, you will develop an in-depth understanding of:

- The role of data in customer and market analysis
- Data analysis to detect trends, exceptions and business opportunities
- The latest marketing analytic tools
- Decision-making strategies
- How to create marketing strategies based on data collection and interpretation

In addition, you will have access to extensive networking opportunities through DePaul’s strong alumni association in Chicago.

Career Outlook

A wide range of organizations routinely recruit marketing analysis graduates for positions in consulting, research, digital marketing, analytics and strategic insight.

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Recognize and analyze ethical problems within applied business situations, choose a resolution, and justify that ethical choice.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
Degree Requirements

Course Requirements

Students should have sufficient knowledge in calculus, statistics, and mathematical sciences to enter the program. If students need to acquire these skills one or more of the following courses will be required: GSB 420; MAT 135; MAT 137.

Students complete the MS in Marketing Analysis by taking seven required courses and five elective courses for a total of 12 courses.

Core Courses (7 courses)

- MKT 525 MARKET RESEARCH
- MKT 526 ADVANCED MARKET RESEARCH
- MKT 534 ANALYTICAL TOOLS FOR MARKETERS
- MKT 535 MARKETING STRATEGIES AND PLANNING
- MKT 545 CONSUMER BEHAVIOR
- MKT 555 DECISIONS IN MARKETING MANAGEMENT
- MKT 576 EFFECTIVE BUSINESS COMMUNICATION

Elective Courses (5 courses)

Students are to select two additional courses from marketing electives and three courses from the Analytical Group for a total of five courses from the following list of approved electives. Please note that approved electives may have prerequisites that are not part of the MSMA curriculum and will not be waived.

Marketing Electives

- Choose two from the following:
  - MKT 529 PRECISION MARKETING
  - MKT 530 CUSTOMER RELATIONSHIP MANAGEMENT
  - MKT 578 SALES STRATEGY & TECHNOLOGY
  - MKT 595 INTERNET AND INTERACTIVE MARKETING
  - MKT 793 MARKETING INTERNSHIP
  - MKT 798 SPECIAL TOPICS (as approved by the Department Chair)

The Analytical Group

- Choose three from the following:
  - CSC 423 DATA ANALYSIS AND REGRESSION
  - CSC 424 ADVANCED DATA ANALYSIS
  - CSC 425 TIME SERIES ANALYSIS AND FORECASTING
  - ECT 584 WEB DATA MINING
  - IS 549 DATA WAREHOUSING
  - IS 467 FUNDAMENTALS OF DATA SCIENCE
  - MKT 798 SPECIAL TOPICS : Predicting Choice Behavior

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 12 courses (seven required courses and five elective courses: two from marketing electives and three are from the analytical group).
- All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.
Marketing Strategy and Planning (MBA)

The Marketing Strategy and Planning MBA concentration puts you on track for upper-level management positions as it prepares you to master the art and science of business development and marketing. The program prepares you to find and evaluate new market opportunities, build strong customer relationships and design sustainable market strategies, as well as to understand organizational structure, competitive pricing and advantage, and external factors that affect marketing.

Highlights

In this concentration, you will gain knowledge and abilities to:

- Manage customers, product lines and new product development.
- Understand the design and sustainability of innovative business models.
- Develop plans and systematic strategies to achieve firm objectives.
- Analyze consumer behavior and translate your findings into sound business decisions.

Career Outlook

The Marketing Strategy and Planning MBA concentration will put you on a career track for senior marketing positions, including chief marketing officer, creative director, senior brand manager and senior product manager. Graduates of the program have advanced to senior and executive marketing positions in both retail and media industries.

<tr>
<td>Concentration Requirements (varies with admission term)</td>
<td>24-36 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>48-72 hours</strong></td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.
MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.
Concentration Requirements

Course Requirements

The concentration in Marketing Strategy and Planning requires the following four courses:

- MKT 535 MARKETING STRATEGIES AND PLANNING
- MKT 536 PRICING STRATEGY
- MKT 540 STRATEGIC PLANNING: DEVELOPING SUSTAINABLE BUSINESS MODELS
- MKT 583 MONETIZING MARKETING STRATEGY

Students are encouraged to consult with department faculty for related elective courses.

Mathematics Education (MA)

The purpose of the program leading to the degree of Master of Arts in Mathematics Education is to improve the quality of mathematics instruction in schools within the greater-Chicago area and to offer a response to the shortage of secondary school mathematics teachers. This six-quarter degree program is offered on an accelerated basis during intensive weekend sessions and may be taken while in-service at the rate of two courses per quarter. However, students may proceed through the program at a slower pace depending upon their individual needs. The emphasis in the program is on mathematical content, but significant amounts of time are spent on methods of incorporating new teaching strategies and technologies in the classroom. The program is directly tied to secondary curriculum needs and is directed toward previously or currently certified teachers with degrees in non-mathematics fields, to teachers with bachelor’s degrees in mathematics who wish to upgrade their command of the field, and to bachelor’s degree holders in other fields who wish to enter teaching.

Admissions Information

This program is administered by the Department of Mathematical Sciences through the College of Science and Health. Details regarding admission requirements, course schedules, and so forth, can be found by contacting the Program Director in the Department of Mathematical Sciences. Registration for Master of Arts in Mathematics Education courses is open only to students formally admitted in the program or to those students who have the written authorization from the Program Director.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Solve problems using algebraic, quantitative, and graphical approaches.
- Recognize incorrect mathematical arguments and then use multiple approaches to explain, in both verbal and written form, how to correct these arguments.
- Apply mathematics to solve problems in the real world and in other academic areas.
- Use ideas and techniques from different areas of mathematics (such as algebra, geometry, trigonometry, calculus, abstract and linear algebra, probability, statistics, and logic) to solve problems and explain the
solutions.
- Use proper mathematical terminology, notation, and reasoning to clearly communicate mathematical ideas both in verbal and written form.
- Use technology to not only solve problems but also to explore and explain mathematical ideas.

## Degree Requirements

### Course Requirements

M.A.M.Ed. students are required to take twelve of the seventeen courses listed below.

- MAT 610 CALCULUS I
- MAT 611 CALCULUS II
- MAT 612 CALCULUS III
- MAT 618 TOPICS IN CALCULUS AND DIFFERENTIAL EQUATIONS
- MAT 620 GEOMETRY
- MAT 631 HISTORY OF MATHEMATICS THROUGH PROBLEM SOLVING
- MAT 640 MULTIVARIABLE CALCULUS I
- MAT 642 MULTIVARIABLE CALCULUS II
- MAT 644 DIFFERENTIAL EQUATIONS
- MAT 660 DISCRETE MATHEMATICS
- MAT 670 ABSTRACT ALGEBRA I
- MAT 671 ABSTRACT ALGEBRA II
- MAT 672 LINEAR ALGEBRA
- MAT 680 REAL ANALYSIS
- MAT 451 PROBABILITY AND STATISTICS I
- MAT 452 PROBABILITY AND STATISTICS II
- MAT 470 ADVANCED LINEAR ALGEBRA

*Typically, M.A.M.Ed. students will take 610, 611, 612, 618, 620, 631, 640, 642, 660, 670, 680 and either 671 or 672.*

### Undergraduate Courses

No undergraduate courses shall count towards the M.A.M.Ed. degree.

### Graduation Requirements

Requirements include, but are not limited to, twelve graduate courses (48 credit hours) with a cumulative GPA of at least 2.50.

## Program Graduate Academic Student Handbook

### Probation

A student will be placed on academic probation if his/her cumulative GPA falls below 2.50 after completing at least eight credit hours.

### Dismissal
A student may be academically dismissed under one or more of the following violations of satisfactory progress:

- student's GPA only for the first twelve completed credit hours after being placed on academic probation is below 2.50.
- student's cumulative GPA after completing the first 24 credit hours after being placed on academic probation is below 2.50.
- lack of timely progress toward degree completion.

Readmission

The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit

No more than two graduate courses (8 quarter credit hours or its semester equivalent) may be transferred from another DePaul program or institution provided that they are equivalent to courses offered in DePaul's graduate program, and they did not count toward another degree either at DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

Undergraduate Courses

No undergraduate courses shall count toward the graduate degree.

Graduation Requirements

Requirements include, but are not limited to, twelve graduate courses (48 credit hours) at a minimum cumulative GPA of 2.50.

Graduation with Distinction

A minimum GPA of 3.75 for coursework applied toward the MAMEd degree is required for graduation with distinction.

Time Limitation

The degree is expected to be completed in a maximum of five years.

Mathematics for Teaching (MS)

The purpose of the program leading to the degree of Master of Science in Mathematics for Teaching is to improve the quality of mathematics instruction and to offer a response to the shortage of community college mathematics teachers. This degree program is offered on an accelerated basis primarily during intensive weekend sessions and may be taken at the rate of two courses per quarter. However, students may proceed through the program at a slower pace depending upon their individual needs. The emphasis in the program is on mathematical content, but significant amounts of time are spent on methods of incorporating new teaching strategies and technologies in the classroom. The program is directly tied to community college curriculum needs and is directed toward bachelor's degree holders in other fields who wish to enter teaching.

Admissions Information
This program is administered by the Department of Mathematical Sciences through the College of Science and Health. Details regarding admission requirements, course schedules, and so forth, can be found by contacting the Program Director in the Department of Mathematical Sciences. Registration for M.S. in Mathematics for Teaching program courses is open only to students formally admitted in the program or to those students who have the written authorization from the Program Director.

- Use proper mathematical terminology, notation, and reasoning to clearly communicate mathematical ideas both in verbal and written form.
- Use technology to not only solve problems but also to explore and explain mathematical ideas.

Degree Requirements

Course Requirements

All seventeen courses from the following list.

- MAT 451 PROBABILITY AND STATISTICS I
- MAT 452 PROBABILITY AND STATISTICS II
- MAT 470 ADVANCED LINEAR ALGEBRA
- MAT 610 CALCULUS I
- MAT 611 CALCULUS II
- MAT 612 CALCULUS III
- MAT 618 TOPICS IN CALCULUS AND DIFFERENTIAL EQUATIONS
- MAT 620 GEOMETRY
- MAT 631 HISTORY OF MATHEMATICS THROUGH PROBLEM SOLVING
- MAT 640 MULTIVARIABLE CALCULUS I
- MAT 642 MULTIVARIABLE CALCULUS II
- MAT 644 DIFFERENTIAL EQUATIONS
- MAT 660 DISCRETE MATHEMATICS
- MAT 670 ABSTRACT ALGEBRA I
- MAT 671 ABSTRACT ALGEBRA II
- MAT 672 LINEAR ALGEBRA
- MAT 680 REAL ANALYSIS

Certain modifications may be made in consultation with and subject to the approval of the Program Director.

Undergraduate Courses
No undergraduate courses shall count towards the M.S.M.T. degree.

**Graduation Requirements**

Requirements include, but are not limited to, eighteen graduate courses (68 credit hours) with a cumulative GPA of at least 2.50.

---

**Program Graduate Academic Student Handbook**

**Probation**

A student will be placed on academic probation if his/her cumulative GPA falls below 2.50 after completing at least eight credit hours.

**Dismissal**

A student may be academically dismissed under one or more of the following violations of satisfactory progress:

- student's GPA only for the first twelve completed credit hours after being placed on academic probation is below 2.50.
- student's cumulative GPA after completing the first 24 credit hours after being placed on academic probation is below 2.50.
- lack of timely progress toward degree completion.

No more than two graduate courses (8 quarter credit hours or the semester equivalent) may be transferred from another DePaul program or institution provided that they are equivalent to courses offered in DePaul's graduate program, and they did not count toward another degree from DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

**Undergraduate Courses**

No undergraduate courses shall count toward the graduate degree.

**Graduation Requirements**

Requirements include, but are not limited to, 18 graduate courses (68 credit hours) with a cumulative GPA of at least 2.50.

**Graduation with Distinction**

A minimum cumulative GPA of 3.75 for coursework applied toward the MSMT is required for graduation with distinction.

**Time Limitation**

The degree is expected to be completed in a maximum of five years.
Middle Grades Education (MEd)

The Master in Education program in Middle Grades Education prepares teachers for eligibility for a teaching license and two IL endorsements in grades 5-8 (ie., Math & Science; Language Arts and Social Science).

The mission of the DePaul University College of Education's Middle Grades Teacher Education Program is to prepare educators who have passion for, understanding of, and commitment to working with young adolescents. We prepare educators who foster equitable, intellectually rich, socially just, and compassionate learning environments for diverse middle level youth. To accomplish this goal, our program is designed to cultivate in teacher candidates the pedagogical skills, subject area understandings, and social conscience necessary to enact thoughtful teaching practice. We aim to prepare critical, creative educators who continually reflect on and inquire into their practices in order to further their own and their students' learning. Our teacher candidates develop a broad understanding of the contextual factors that impact the teaching, learning and growth of middle grade learners, including the ways in which society shapes our views of middle grades learners and the social, emotional, cognitive, spiritual, and physical dimensions of healthy adolescence. Through the integration of course work and field experiences, candidates learn about and apply interdisciplinary theories and practices that enable them to promote the intellectual curiosity, personal and academic excellence, and social and self-awareness of diverse middle level youth.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

Licensure

Illinois Professional Educator License with endorsement in Middle Grades Education (grades 5 - 8), an Illinois State Board of Education (ISBE) approved program.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>56 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>56 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Justify and communicate instructional strategies based on the unique needs of middle level learners.
- Differentiate, critique, articulate, and communicate conceptual and practical understandings of the relationship amongst youth development, pedagogical approaches, curricular content, and the role of the educator across varied school contexts and communities.
- Articulate, analyze, interpret, theorize, and communicate adolescent development within historical scholarly traditions and in the context of school and society.
- Articulate, analyze, interpret, theorize, and communicate an informed philosophy of middle level education and its relevance to adolescence.
- Articulate and communicate an informed philosophy about the value and purpose of specialized middle level education.
- Identify and locate materials, resources and practices that resonate with diverse social, cultural, and economic lives of adolescents.
- Articulate, justify, and demonstrate the value of literacy as it relates to identity and positive social contribution.
- Question and critique the ways adolescence is socially viewed and constructed, and articulate the implications of this for middle level education.
- Develop and express the intent to pursue professional development opportunities surrounding issues and advances in middle level education.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.
Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferment and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).
It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Content Area Prerequisites

Middle Grades Education teachers need to have a deep understanding of the two content areas they will teach in the middle grades. DePaul's program requires that students in the Middle Grades program have a minimum of 32 hours in each of their two designated content areas. Students should meet with their designated Content
Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for First Content Area: 32 quarter hours required, grade of C or better required**

A content area is a single area of study in language arts, math, science, or social science (cannot include coursework in Education).

- Eight content courses:
  - Any level language arts, math, science, or social science course 1
  - Any level language arts, math, science, or social science course 2
  - Any level language arts, math, science, or social science course 3
  - Any level language arts, math, science, or social science course 4
  - Upper level language arts, math, science, or social science course 5
  - Upper level language arts, math, science, or social science course 6
  - Upper level language arts, math, science, or social science course 7
  - Upper level language arts, math, science, or social science course 8

- For science, content coursework must include one course each in:
  - physical sciences;
  - life sciences; and
  - Earth and space sciences.

- For social sciences, coursework must include one course each in:
  - history;
  - geography;
  - civics and government; and
  - economics

**Requirements for Second Content Area: 32 hours required, grade of C or better required**

A content area is a single area of study in language arts, math, science, or social science. The second content area must be a different area than the one chosen as the primary content area (cannot include coursework in Education).

- Eight content courses:
  - Any level language arts, math, science, or social science course 1
  - Any level language arts, math, science, or social science course 2
  - Any level language arts, math, science, or social science course 3
  - Any level language arts, math, science, or social science course 4
  - Upper level language arts, math, science, or social science course 5
  - Upper level language arts, math, science, or social science course 6
  - Upper level language arts, math, science, or social science course 7
  - Upper level language arts, math, science, or social science course 8

- For science, content coursework must include one course each in:
  - physical sciences;
  - life sciences; and
  - Earth and space sciences.

- For social sciences, coursework must include one course each in:
  - history;
  - geography;
  - civics and government; and
  - economics

**Pre-Education Core: 26 quarter hours required, grade of C or better required**

- MGE 400 INTRODUCTION TO MIDDLE GRADES EDUCATION
- SCG 435 YOUNG ADOLESCENT DEVELOPMENT IN CONTEXT
- MGE 401 LITERACY IN THE MIDDLE GRADES CONTENT AREAS I
- BBE 450 ENGLISH LANGUAGE LEARNERS IN THE MIDDLE GRADES
- MGE 411 SUPERVISED FIELD EXPERIENCE (1qh)
- MGE 421 THE WHOLE CHILD: CONCEPTIONS OF HEALTHY YOUNG ADOLESCENCE
- MGE 431 SUPERVISED FIELD EXPERIENCE (1qh)
- LSI 487 FOUNDATIONS OF LITERACY AND SPECIAL EDUCATION FOR THE MIDDLE GRADES
Advanced Standing Education Courses: 22 quarter hours required, grade of C or better required

- MGE 441 CURRICULAR LITERACY IN THE MIDDLE GRADES CONTENT AREAS II
- CSL 477 SOCIAL EMOTIONAL LEARNING IN THE MIDDLE GRADES
- MGE 451 ASSESSMENT PRACTICES IN THE MIDDLE GRADES
- MGE 461 SUPERVISED FIELD EXPERIENCE (1qh)
- Choose two of the following courses (based on content concentrations):
  - MGE 471 THE TEACHING OF MATHEMATICS IN THE MIDDLE GRADES
  - MGE 472 THE TEACHING OF LANGUAGE ARTS IN THE MIDDLE GRADES
  - MGE 473 THE TEACHING OF SOCIAL STUDIES IN THE MIDDLE GRADES
  - MGE 474 THE TEACHING OF SCIENCE IN THE MIDDLE GRADES
- MGE 481 SUPERVISED FIELD EXPERIENCE (1qh)

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- MGE 590 STUDENT TEACHING (6 credit hours, grade of B- or better required)
- MGE 591 STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Middle Grades Education majors must complete the following tests:

- Basic Skills (test #096) or TAP (test #300, or #400) - assesses knowledge of reading comprehension, language arts, and math. Test is required to qualify for Advanced Standing.
- Content Area Test: Two tests are required before Student Teaching (deadlines apply). Test details will be forthcoming.
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. All field experiences must be completed prior to final approval for student teaching. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Middle School Mathematics Education (MS)

The Middle School Mathematics Education (MSME) program strengthens teachers' knowledge, understanding, skills, and judgment in order to increase student access to high quality mathematics instruction. The program will provide teachers with the deep knowledge and tools necessary to implement the Common Core State Standards in Mathematics in their teaching. The Department of Mathematical Sciences in the College of Science and Health and the College of Education offer the program jointly.

This program was designed collaboratively with practicing K - 8 teachers, mathematicians, and mathematics educators and therefore addresses fundamental questions in both math content and pedagogy. The courses are taught by faculty with extensive experience in teacher preparation as well the implementation of the CCSS-M. The goal of the program is that students taught by the program's graduates will be successful learners of mathematics, will value mathematics as a subject, and will achieve the learning goals of the CCSS-M. The
program includes the courses required for the Algebra Initiative Program of CPS.

</table>

## Learning Outcomes

Students will be able to:

- Deliver rigorous mathematics education in the middle school.
- Articulately communicate ideas, both in writing and in oral presentations.
- Work toward accomplishing goals both independently and cooperatively.
- Identify and recognize the value of different approaches and perspectives.
- Implement an ethical framework for mathematics teaching and learning.
- Apply critical and creative thinking.
- Use visual, analytical, numerical, and verbal perspectives in the different content areas of mathematics.
- Appreciate the role of reflection in the learning of mathematics.

## College Requirements

### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students'
learning and development
Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
Balances self-confidence and assertiveness with respect for others' perspectives
Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Degree Requirements

Our twelve-course (48 quarter-hour) program is designed for teachers licensed in grades K-8. The program will allow participants to meet the requirements for an endorsement in middle school mathematics. This is a cohort program with groups of teachers taking the same courses together in the same order. All courses are 4 credit hours and twelve courses are required.

Course Requirements

Required Courses: 48 quarter hours, grade of C or better required

- MAT 600 EXPERIMENTATION, CONJECTURE, AND REASONING WITH NUMBERS
- MMT 401 FOUNDATIONS OF MATHEMATICAL THINKING AND LEARNING IN THE MIDDLE SCHOOL
- MAT 605 GEOMETRY FOR MIDDLE SCHOOL TEACHERS
- MMT 410 THE DEVELOPMENT OF MIDDLE SCHOOL MATHEMATICS LEARNERS
- MAT 622 ALGEBRA FOR MIDDLE SCHOOL TEACHERS I
- MAT 623 ALGEBRA FOR MIDDLE SCHOOL TEACHERS II
- MAT 624 FUNCTIONS AND MODELING
- MMT 430 APPLIED PROJECT IN MATHEMATICS EDUCATION
- MMT 420 TEACHING, LEARNING, AND ASSESSMENT OF MIDDLE SCHOOL MATHEMATICS
- MAT 649 DATA ANALYSIS AND PROBABILITY
Music Education (MM)

The graduate music education program offers certified music teachers the opportunity to earn a master's degree in a little over two years with courses in the evenings and summers. Educational theory and practice merge throughout course work, and students have the flexibility to select elective areas of study. The program culminates with a final paper or project, allowing students to research an area of special interest.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and analyze the elements of music in a given piece, and demonstrate an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Demonstrate basic music research techniques and knowledge of standard reference tools and bibliographic sources, including the use of online databases.
- Develop effective writing skills for use in program notes, liner notes, abstracts, essays, or research papers.
- Develop an expanded global awareness and cultural understanding through musical study.
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

Concentration Specific Outcomes

Students will be able to:

- Understand current music education issues and their impact on music teaching and learning grades K-12.
- Understand historical perspectives and contexts of music education practice.
- Demonstrate acceptable musicianship knowledge and skills, including performance, music history and theory.
- Teach instrumental music, vocal/choral music, and general music, with more specialized knowledge in one or more of these areas.
- Know research procedures and practices, and be able to express her or his ideas in writing.
- Reflect on individual practice as a teacher and articulate a philosophy of music education.
- Apply pedagogical knowledge and skills appropriate to the teaching of music addressing the needs of diverse, special needs, and urban populations.
- Synthesize various types of knowledge related to music, such as a variety of cultures and historical periods and their impact on society.
Degree Requirements

Course Requirements
A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master’s degree students, and courses in the specialization.

Music Education Core (16 credits)
- MUS 408 ANALYTICAL TECHNIQUES
  or COM 405 GRADUATE ANALYTICAL STUDIES
- Music History: Two courses from the following list
  - JZZ 405 JAZZ HISTORY
  - JZZ 406 JAZZ STYLE AND ANALYSIS
  - MUS 420 HISTORY OF THE ORATORIO
  - MUS 435 18th & 19th WIND HISTORY AND LITERATURE
  - MUS 436 20th CENTURY WIND HISTORY AND LITERATURE
  - MUS 475 MEDIEVAL MUSIC
  - MUS 478 RENAISSANCE MUSIC
  - MUS 479 BAROQUE MUSIC
  - MUS 481 HISTORY OF OPERA
  - MUS 482 WORLD MUSIC CULTURES
  - MUS 484 CLASSICAL MUSIC
  - MUS 485 ROMANTIC MUSIC
  - MUS 486 MUSIC SINCE WORLD WAR II
  - MUS 487 20TH CENTURY MUSIC BEFORE WWII
- MUS 400 MUSIC RESEARCH

Music Education Specialization (20 credits)
- Music Education Seminars (Three courses)
  - MED 401 SEMINAR IN MUSIC EDUCATION I: PHILOSOPHY OF MUSIC EDUCATION
  - MED 402 SEMINAR IN MUSIC EDUCATION II: PSYCHOLOGY OF MUSIC TEACHING & LEARNING
  - MED 403 SEMINAR IN MUSIC EDUCATION III: CURRICULUM DEVELOPMENT IN MUSIC EDUCATION
- MED 404 HISTORY OF MUSIC EDUCATION IN THE UNITED STATES
- MED 498 MASTERS CANDIDATE RESEARCH
- MED 492 TECHNIQUES OF RESEARCH IN MUSIC EDUCATION

Music Education Electives (12 credits)
- Students may take any 400 level courses within the School of Music, selected in consultation with their advisors.

Terminal Requirements
Two terminal requirements are required of all students:
- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- The completion of a final project.

Residency Requirements
All courses for the master’s degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.
The music education graduate program is designed to accommodate the schedule of working teachers, and students typically enroll part time for three summers and two intervening academic years. To earn full-time status, graduate students must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master's degree program has been granted.

Music Performance (MM)

The Master of Music in performance degree prepares students for professional music careers in a supportive, collegial environment. Graduate students study with highly celebrated performers, who are committed to teaching excellence. The graduate performance program consists of applied lessons, ensembles, core studies in music theory/history and research, and related studies. The Master of Music degree is a two year program.

<table>
<thead>

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and analyze the elements of music in a given piece, and demonstrate an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Demonstrate basic music research techniques and knowledge of standard reference tools and bibliographic sources, including the use of online databases.
- Develop effective writing skills for use in program notes, liner notes, abstracts, essays, or research papers.
- Develop an expanded global awareness and cultural understanding through musical study.
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

Concentration Specific Outcomes

String and Percussion Performance

Students will be able to:

- Perform at the level of an advanced student, young professional or higher, demonstrating competence in technical aspects of performance, i.e., tone quality, articulation, pitch consistency, dynamic control, technical agility, and accurate rhythmic concepts.
- Demonstrate growing maturity in musical concepts—using tools of performance to create artistic products.
- Demonstrate increasing competence as an ensemble performer through participation in orchestras, wind ensemble, wind symphony, contemporary music ensemble, and/or chamber music groups.
- Work independently and with peers through unsupervised rehearsals.
- Use pedagogical methods and materials to teach one's major instrument.
- Demonstrate competence in performance and knowledge of the orchestral repertoire through successful fulfillment of orchestral repertoire courses.
- Plan and perform a graduate recital, and provide well-written program notes; collaborate with an accompanist or other musicians.

Vocal Performance

DePaul University Autumn 2017-2018
Students will be able to:

- Demonstrate a sound vocal technique and an understanding of the vocal mechanism and vocal pedagogy.
- Demonstrate proficiency in Italian, German, and French diction, and use language in an expressive manner.
  - Demonstrate competency in the International Phonetic Alphabet (IPA)
- Demonstrate integration of emotional and physical movement into artistic performance of operatic scenes and arias, including character development and subtext.
- Demonstrate the ability to find, research, and choose appropriate repertoire.
- Plan and perform at least one full recital with well-written program notes.
- Perform at least two chamber works.
- Demonstrate the ability to collaborate with a pianist and other instrumentalists, as well as participate in a professional manner in choral ensembles and other groups.
- Possess a basic knowledge of song repertoire and performance practice (style)
- Perform in periods from the Baroque to 21st century
- Demonstrate a basic knowledge of opera repertoire, history, and style.

**Piano Performance**

Students will be able to:

- Possess a strong mastery of the technique and musicianship necessary to perform as both soloist and within an ensemble at an advanced, pre-professional level.
- Possess a fundamental knowledge of piano repertoire and history, including its most important exponents and performers of the last two centuries.
- Demonstrate a strong grasp of musical and professional skills necessary to function and succeed as a chamber/orchestral musician and vocal/instrumental accompanist.
- Demonstrate a high level of professionalism, maturity, and respect for themselves and fellow colleagues essential for continued success as a working musician.
- Possess a basic understanding of the essentials of piano pedagogy.
- Perform a full recital that demonstrates their command of large-scale repertoire from all styles ranging from the Baroque period through the 21st century, provide well-written program notes.
  - Demonstrate the organizational skills necessary to plan a successful and compelling program, both individually and with collaborators.

**Degree Requirements**

**Course Requirements**

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master's degree students, and courses in the specialization.

**Music Performance Core (16 credits)**

- MUS 408 ANALYTICAL TECHNIQUES
  - or COM 405 GRADUATE ANALYTICAL STUDIES
- Music History: Two courses from the list below
  - JZZ 405 JAZZ HISTORY
  - JZZ 406 JAZZ STYLE AND ANALYSIS
  - MUS 420 HISTORY OF THE ORATORIO
  - MUS 435 18th & 19th WIND HISTORY AND LITERATURE
  - MUS 436 20th CENTURY WIND HISTORY AND LITERATURE
  - MUS 475 MEDIEVAL MUSIC
  - MUS 478 RENAISSANCE MUSIC
  - MUS 479 BAROQUE MUSIC
  - MUS 481 HISTORY OF OPERA
  - MUS 482 WORLD MUSIC CULTURES
  - MUS 484 CLASSICAL MUSIC
Specializations

Brass Specialization (30 credits)

- Applied Brass Lessons
- APM 471 BRASS CONCEPTS
- APM 414 THE BUSINESS OF MUSIC FROM THE PERFORMER'S PERSPECTIVE
- APM 474 BRASS INSTRUMENT PERFORMANCE STYLE
- APM 472 ORCHESTRAL REPETTOIRE FOR BRASS
- Brass Electives
- Brass Ensemble Requirement
  - 6 Quarters of Large Ensemble
  - 6 Quarters of Chamber Music
- APM 405 GRADUATE RECITAL

Guitar Specialization (28 credits)

- Applied Guitar Lessons
- APM 486 STRING PEDAGOGY
- Guitar History and Literature
- APM 477 GUITAR HISTORY AND LITERATURE I
  - OR APM 478 GUITAR HISTORY AND LITERATURE II
  - OR APM 479 GUITAR HISTORY AND LITERATURE III
- Guitar Electives
- Guitar Ensemble Requirement
  - 6 Quarters of Guitar Ensemble
- APM 405 GRADUATE RECITAL

Percussion Specialization (26 credits)

- Applied Percussion Lessons
- APM 446 PERCUSSION PEDAGOGY
- Percussion Electives
- Percussion Ensemble Requirement
  - 3 Quarters of Large Ensemble
  - 3 Quarters of Percussion Ensemble
- APM 405 GRADUATE RECITAL

Piano Specialization (28 credits)

- Applied Piano Lessons
- APM 461 PIANO LITERATURE
- APM 442 ACCOMPANYING CLASS
- Piano Electives
- Piano Ensemble Requirement
  - 6 Quarters of Large Ensemble or Chamber Music
- APM 405 GRADUATE RECITAL

Strings Specialization (28 credits)

- Applied Strings Lessons
- APM 429 ORCHESTRAL REPETTOIRE FOR STRINGS
- APM 486 STRING PEDAGOGY
- Strings Electives
- Strings Ensemble Requirement
  - 6 Quarters of Large Ensemble
  - 6 Quarters of Chamber Music
- APM 405 GRADUATE RECITAL

String Bass Specialization (28 credits)

- Applied String Bass Lessons
- APM 429 ORCHESTRAL REPETTOIRE FOR STRINGS
Voice Specialization (30 credits)

- Applied Voice Lessons
- APM 400 OPERA WORKSHOP
- APM 453 ADVANCED TECHNIQUES OF THE MUSIC STAGE
- APM 496 VOICE PEDAGOGY
- Diction Proficiencies/Language Lab
  - APM 415 ITALIAN DICTION/LANGUAGE LAB
  - APM 416 GERMAN DICTION/LANGUAGE LAB FOR GRADUATE STUDENTS
  - APM 417 FRENCH DICTION/LANGUAGE LAB FOR GRADUATE STUDENTS
- Voice Electives
- Voice Ensemble Requirement
  - 3 Quarters of Large Ensemble
  - 2 Quarters of Chamber Music
- APM 405 GRADUATE RECITAL

Woodwinds Specialization (30 credits)

- Applied Woodwinds Lessons
- APM 428 ORCHESTRAL REPERTOIRE FOR WOODWINDS I: LITERATURE PERFORMANCE
- APM 433 WOODWIND ORCHESTRAL REPERTOIRE II: AUDITION PREPARATION
- APM 411 WOODWIND PEDAGOGY
- Woodwinds Electives
- Woodwinds Ensemble Requirement
  - 6 Quarters of Large Ensemble
  - 3 Quarters of Chamber Music
- APM 405 GRADUATE RECITAL

Terminal Requirements

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- The presentation of a public recital.

While preparation of the terminal requirement in the major may take place within some course or activity for which a student is registered for credit, additional academic credit is not granted for the project itself.

Residency Requirements

All courses for the master’s degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

To retain full-time status, a graduate student must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master’s degree program has been granted.
Network Engineering and Security (MS)

The MS in Network Engineering and Security trains professionals who meet current industry demands for innovative network designs, and the development of new network applications and services for business enterprises and the network providers that serve them. This program offers theoretical and applied study of the design, configuration and management of converged communication networks.

### Introductory Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>52 hours</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52-64 hours</td>
</tr>
</tbody>
</table>

### Degree Requirements

#### Learning Outcomes

Students will be able to:

- List all TCP and IP header fields and describe the purpose of each including their use in packet reception, IP prefix lookup, packet forwarding including layer 2 header generation, flow control, error control and congestion control.
- Write clear definitions of ARP, ICMP, DNS, RIP, OSPF, BGP and MPLS protocols and illustrate their use in protocol diagrams, including packet flows for each protocol.
- Connect devices (given a set of network devices, a network design and packet forwarding specification), configure IPv4 or IPv6 addressing and configure packet switching routing using appropriate commands in Windows, MacOS, Linux and Cisco IOS operating systems.
- Write a clear definition of Quality-of-Service routing, including a clear description of the technologies (IP precedence, MPLS, RSVP) used to provide differentiated quality of service in IP networks.
- Clearly define and address network security threats and methods for ensuring confidentiality, integrity and availability, including security policies, encryption, authentication, access control, risk management, common defense methods.

#### Degree Requirements

**Course Requirements**

No Introductory Course may be substituted for any other course at any level.

**Introductory Courses**

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

- TDC 405 VOICE AND DATA NETWORK FUNDAMENTALS
- TDC 411 INTRODUCTION TO COMPUTER AND NETWORK SYSTEMS
- TDC 413 INTRODUCTION TO LAN AND WAN
Foundation Courses

- TDC 460 FOUNDATIONS OF NETWORK TECHNOLOGIES
- TDC 463 COMPUTER NETWORKS AND DATA SYSTEMS
- TDC 464 CONVERGED MULTIMEDIA NETWORKS
- TDC 477 NETWORK SECURITY
- TDC 511 TELECOMMUNICATIONS PRACTICUM

Students must achieve an average GPA of 3.0 or better in the five (5) Foundation Courses. Students who do not meet the Foundation Courses' GPA requirement must retake the course with the lowest grade. If a number of such courses exist, it is up to the student to choose which class to retake. Only the higher grade will count toward the average grade for the purpose of completing the GPA Requirement.

Students who have not completed the Foundation Course and grade requirements can register for a maximum of four (4) Advanced Courses.

Advanced Courses

- TDC 560 ADVANCED NETWORK TECHNOLOGIES AND DESIGN
- TDC 563 PROTOCOLS AND TECHNIQUES FOR DATA NETWORKS
- TDC 577 NETWORK SECURITY II

Major Elective Courses

Students must complete three (3) Major Elective Courses. Major Elective Courses must be in the range of 420-599 and must be chosen from TDC or CNS courses. A minimum of two (2) courses must be 500-level.

CDM Open Elective Courses

Students must complete one (1) CDM Open Elective Course. This Open Elective Course must be in the range of 420-699 and must be chosen from CSC, CNS, TDC, SE, IS, ECT, IT, PM, IPD, HIT, HCI, or GAM courses. Open Elective Courses must not have been otherwise used to satisfy degree requirements. Credit for courses taken outside of the school will only be given if approved by a faculty advisor. Any course required for the student's concentration but taken as part of the requirements of another degree earned by the student may be waived, but cannot be used for Open Elective credit.

Capstone

- TDC 594 NETWORK CAPSTONE

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn an average GPA of 3.0 or better in the five Foundation Courses.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same courses, but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.
Nonprofit Management (MNM)

The Master of Nonprofit Management (MNM) at DePaul University builds competencies in leadership, management, ethics and advocacy, reflecting the areas of study important to today's nonprofit professional.

Integrating best practices in nonprofit management with DePaul's rich, globally focused curriculum, the MNM degree was designed specifically to correspond with the curriculum goals of the Nonprofit Academic Centers Council.

The Master of Nonprofit Management may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined NMN/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Nonprofit Management + Community Development Certificate
- Nonprofit Management + Metro Planning and Development Certificate
- Nonprofit Management + Global Health Certificate
- Nonprofit Management + Social Research Certificate
- Nonprofit Management + Women's and Gender Studies Certificate

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Support orally or in writing the characteristics of a well-functioning nonprofit organization.
- Critique a choice a decision maker actually made or, if the student is the decision maker, evaluate his/her decision options and justify the decision on ethical grounds.
- Analyze each of the three sectors and show how the strengths of one compensate for the weaknesses of the others.
- Apply theories of nonprofit leadership in solving a real problem in a specific nonprofit organization.
- Frame a research question and collect appropriate qualitative and quantitative data to answer it.

Degree Requirements

Course Requirements

Students complete 13 courses (52 credit hours). Ten courses (40 credit hours) of core course work and three courses (12 credit hours) of electives are required.

Required Courses

- MPS 500 INTRODUCTION TO PUBLIC SERVICE MANAGEMENT
- MPS 508 INTRODUCTION TO NONPROFIT MANAGEMENT
Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.
Graduation Requirements

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students

While MPS courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Nursing Practice (DNP)

The Doctor of Nursing Practice (DNP) is a program of doctoral study for the professional nurse seeking specialty preparation in advanced practice nursing. The DNP program prepares nurse anesthetists, nurse practitioners, clinical nurse specialists, and nurse midwives to be advanced practice nurse leaders who work to improve systems of care, patient outcomes, quality, and safety for vulnerable populations in the Vincentian tradition.

Program Goals

The purposes of the graduate tracks in the doctor of nursing practice program are to prepare advanced practice nurses for leadership roles in the practice setting:

1. Integrate nursing science and knowledge with the knowledge of other disciplines and implement this knowledge in order to improve healthcare.
2. Evaluate and translate evidence-based practices to improve health and healthcare outcomes at the patient, family, population, clinical unit, system, and/or community level.
3. Demonstrate collaborative and leadership skills on intra-professional and inter-professional teams to foster effective communication, enhance patient outcomes, and create change in complex health care delivery systems.
4. Contribute to the specialty of advanced practice nursing through participation in systemic inquiry and other scholarly endeavors.
5. Use information systems and technology to improve patient care outcomes in advanced practice nursing.
6. Incorporate a philosophy of social caring based upon respect for the whole person, embodied in professional practice and service activities within a multicultural society.
7. Assume a leadership role in influencing the direction of healthcare at the local and national level.
8. Advanced nursing practice within a defined specialty.

Expected Competencies

1. Demonstrate safe, effective, and efficient professional practice, in a defined area of advanced nursing practice.
2. Develop the ability to work independently, accepting responsibility and accountability for one's own advance practice as an Advanced Practice Nurse.
3. Demonstrate responsibility to society by establishing an Advanced Practice Nurse practice that is based upon professional standards as well as ethical and moral principles.
4. Demonstrate the ability to develop public speaking skills through the use of presentations and dissemination of personal research findings.
5. Demonstrate collaborative and leadership skills on intra-professional and inter-professional teams to foster effective communication, enhance patient outcomes, and create change in complex healthcare delivery systems.
6. Assume a leadership role in influencing the direction of healthcare at the local and national level.
7. Evaluate and translate evidence-based practices to improve health and healthcare outcomes at the patient, family, population, clinical unit, system and/or community level.
8. Contribute to the specialty of advanced practice nursing through participation in systemic inquiry and other scholarly endeavors.
10. Using existing and new databases, analyze data to critically appraise the literature and develop best practices in healthcare.
11. Use information systems and technology to improve patient care outcomes in advanced practice nursing.
12. Use an analytical framework to evaluate information systems and technology in healthcare.
13. Incorporate a philosophy of social caring based on respect for the whole person, embodied in professional practice and service activities within a multicultural society.
14. Analyze major factors and policy triggers that influence health policy-making in order to influence policy, educate others about health disparities, cultural sensitivity and access to quality care, and advocate for social justice, equity, and ethical issues in all healthcare arenas.
15. Reflect on educational experiences and life lessons to gain insight into the development of a personal philosophy of healthcare, and to align their own nursing practice and personal decisions with ethical choices.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Practice as an advanced practice clinician who demonstrates knowledge of population health issues, prevention strategies, and culturally relevant approaches to improve health.
- Provide organizational leadership through systems of care that utilize interdisciplinary collaboration and consultation to deliver safe, effective, and efficient patient-centered care, which influences policy.
- Design, implement, evaluate, and promote evidence-based care in complex situations through continuous quality improvement and clinical scholarship.
- Develop, implement, and evaluate transformational patient care technologies and analytical methods focused on safety and quality standards.
- Demonstrate an awareness of global health disparities, and in the Vincentian mission of the university, advocate for social justice, equity, and ethical policies that impact the overall health of individuals and communities.

**Degree Requirements**

**Course Requirements**

**Doctoral Core (38 credit hours)**

- NSG 522 FINANCE AND COSTING IN HEALTH CARE (4)
- NSG 540 CULTURE, ETHICS, AND POLICY ANALYSIS (4)
- NSG 550 HEALTHCARE ECONOMICS (4)
- NSG 551 LEADERSHIP AND ORGANIZATIONAL BEHAVIOR (4)
- NSG 552 PROGRAM EVALUATION (4)
- NSG 554 INFORMATICS AND TECHNOLOGY APPLICATIONS (4)
- NSG 580 BIOSTATISTICS & RESEARCH METHODS FOR ADVANCED PRACTICE (4)
Concentration Requirements

In addition to the Doctoral Core requirements, students must complete the track requirements for their one designated concentration track.

Other Requirements

DNP Project

Students will be required to complete a DNP Project which represents the cumulating work for their DNP program. The project is expected to be a tangible academic product that reflects the student’s educational experiences and should be evaluated by an academic committee. The DNP Project for the DePaul DNP students (NSG 600, NSG 601, and NSG 602) will include: 1) a needs assessment of an aggregate population, APN practice setting, healthcare institution policies, or healthcare delivery models using an Evidence Based Practice approach; 2) development and implementation of a research project to improve the health of a population, change practice, influence health policy, or revise healthcare delivery models; 3) evaluation of the program; and 4) a publishable quality manuscript and a formal oral presentation will be presented to the student's DNP Committee for approval. A poster representing the DNP Project will be produced by the student for presentation at the Grace Peterson Research Colloquium.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Adult-Gerontological Nurse Practitioner
- DNP Completion - Advanced Practice: Nurse Anesthetist
- DNP Completion - Advanced Practice: Nurse Practitioner, Clinical Nurse Specialist, Nurse Midwife
- Family Nurse Practitioner
- Nurse Anesthetist

Nurse Anesthetist Track

Track Requirements

Advanced Practice Core (64 credit hours)

- NSG 400 THEORETICAL COMPONENTS OF NURSING (4)
- NSG 500 CHEMISTRY AND PHYSICS OF ANESTHESIA (6)
- NSG 501 ANATOMY AND PHYSIOLOGY I (6)
- NSG 502 ANATOMY AND PHYSIOLOGY II (6)
- NSG 503 PATHOPHYSIOLOGY (6)
- NSG 504 PRINCIPLES OF ANESTHESIA PRACTICE I (4)
- NSG 507 ANESTHETIC PHARMACOLOGY (6)
Family Nurse Practitioner Track

Track Requirements

Advanced Practice Core (54 credit hours)

- NSG 400 THEORETICAL COMPONENTS OF NURSING (4)
- NSG 428 PATHOPHYSIOLOGY FOR ADVANCED PRACTICE (4)
- NSG 464 HEALTH ASSESSMENT FOR ADVANCED PRACTICE (6)
- NSG 473 PRIMARY CARE OF THE INFANT, CHILD, AND THE ADOLESCENT (4)
- NSG 474 PRIMARY CARE OF THE ADULT AND OLDER ADULT (4)
- NSG 475 WOMEN'S REPRODUCTIVE HEALTH AND GYNECOLOGY (4)
- NSG 478 CLINICAL MANAGEMENT OF ACUTE AND CHRONIC ILLNESSES IN PRIMARY CARE (4)
- NSG 483 PRACTICUM IN POPULATON-BASED NURSING PRACTICE I (4)
- NSG 484 PHARMACOLOGY FOR ADVANCED PRACTICE (4)
- NSG 487 PRACTICUM IN POPULATION-BASED NURSING PRACTICE II (4)
- NSG 488 PROFESSIONAL ISSUES & RESEARCH IN POPULATION-BASED ADVANCED PRACTICE NURSING (4)
- NSG 490 PRACTICUM IN POPULATION-BASED NURSING PRACTICE III (4)
- NSG 553 POPULATION HEALTH QUALITY AND SAFETY (4)

Doctoral Specialty (8 credit hours)

- NSG 700 ADVANCED PRACTICUM FOR NURSE PRACTITIONERS I (4)
- NSG 701 ADVANCED PRACTICUM FOR NURSE PRACTITIONERS II (4)

DNP Completion - Advanced Practice: Nurse Practitioner, Clinical Nurse Specialist, Nurse Midwife

Track Requirements

Doctoral Specialty (8 credit hours)
DNP Completion - Advanced Practice: Nurse Anesthetist Track

Track Requirements

Doctoral Specialty (8 credit hours)

- NSG 615 ADVANCED ANESTHESIA PRACTICUM III (4)
- NSG 616 ADVANCED ANESTHESIA PRACTICUM IV (4)

Adult-Gerontological Nurse Practitioner Track

Track Requirements

Advanced Practice Core (52 quarter hours)

- NSG 400 THEORETICAL COMPONENTS OF NURSING (4)
- NSG 428 PATHOPHYSIOLOGY FOR ADVANCED PRACTICE (4)
- NSG 464 HEALTH ASSESSMENT FOR ADVANCED PRACTICE (6)
- NSG 474 PRIMARY CARE OF THE ADULT AND OLDER ADULT (4)
- NSG 478 CLINICAL MANAGEMENT OF ACUTE AND CHRONIC ILLNESSES IN PRIMARY CARE (4)
- NSG 479 ADVANCED GERONTOLOGICAL NURSING (4)
- NSG 483 PRACTICUM IN POPULATION-BASED NURSING PRACTICE I (4)
- NSG 484 PHARMACOLOGY FOR ADVANCED PRACTICE (4)
- NSG 487 PRACTICUM IN POPULATION-BASED NURSING PRACTICE II (4)
- NSG 488 PROFESSIONAL ISSUES & RESEARCH IN POPULATION-BASED ADVANCED PRACTICE NURSING (4)
- NSG 490 PRACTICUM IN POPULATION-BASED NURSING PRACTICE III (4)
- NSG 553 POPULATION HEALTH QUALITY AND SAFETY (4)
- NSG 555 PHARMACOTHERAPEUTIC IMPLICATIONS FOR THE OLDER ADULT (2)

Doctoral Specialty (8 quarter hours)

- NSG 700 ADVANCED PRACTICUM FOR NURSE PRACTITIONERS I (4)
- NSG 701 ADVANCED PRACTICUM FOR NURSE PRACTITIONERS II (4)
Program Graduate Academic Student Handbook

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing.

Retention Policies

1. Graduate students must maintain a cumulative grade point average of at least 3.0 in all academic work at the University.
2. Students must earn a grade of B- or better to receive graduate credit for any 400-600 level courses.
3. Graduate students who receive < B- grade in any required nursing course will be dismissed from the program.
4. Clinical courses may not be re-taken to raise an unsatisfactory grade.
5. Students who drop below the required cumulative GPA of 3.0 will be placed on probationary status. Students who have less than the required cumulative GPA for two quarters will be dismissed from the program.
6. Students in the DNP Completion track must complete their degree requirements within a five-year period from the first registration date for a course in the program. All other students must complete their degree requirements within six years.
7. In accordance with the nursing licensing regulations, students found to be convicted of serious crimes (felonies, substance abuse) will be reviewed by the Admissions, Progression, and Retention Committee and may be suspended or dismissed from the program.
8. The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University.
9. Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (Appendix B in the Student Handbook). Appropriate student conduct includes, but is not limited to: being punctual for all classes; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; maintaining academic integrity, avoiding leaving the classroom/clinical area other than during designated breaks and only with the permission of the responsible faculty member; fostering a positive learning environment by respecting the ideas and opinions of others; not talking during class or engaging in activities that distract the attention of others, including keeping cell phones and pagers set on silent mode; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others; and remaining emotionally calm without inappropriate outbursts.
10. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with a written copy of the incident being placed in the student's file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Associate Director of the Program, and the Admissions, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. (For additional information, please see both the University Student Handbook-available on line, as well as the "Student Misconduct Process "outlined below.)
11. Students are required to immediately notify the School of Nursing (SON) of any arrests or convictions during the program of study. The SON may elect to suspend the student until the criminal charge has been resolved. The SON may elect to dismiss the student for a criminal conviction.

Progression Policies

1. All students must attend an orientation session before beginning the nursing program of studies.
2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year. The student is responsible to sign the coversheet of the Student Handbook and give this to his/her advisor at the time of their initial meeting.
3. Students must meet with their academic advisor at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Advisors may not be available during the months of July and August.
4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.
5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.
6. All required health records, evidence of CPR certification, criminal background checks, licensure, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual student's responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date before the start of each course will result in inability to attend the clinical component of the course.
7. Leave of Absence:
   1. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year from the date of approval. The request to the faculty adviser, Associate Director of the program and the Admission, Progression and Retention Committee all should be notified. An on-line Leave of Absence Request form found on Campus Connect under search Academics: needs to be filled out and submitted.
   2. Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student's responsibility to send a copy of such request to the Director of the School of Nursing, the student's faculty advisor and the Associate Director of the Program. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the DePaul Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student back into the nursing program.

8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their re-application will then be considered with all other qualified applicants applying for admission to DNP program.

9. A student who withdraws from any nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with either the Director of the School of Nursing or Associate Director of the Program and the course faculty.

10. A student who withdraws from any nursing course who is ‘not in good standing’ (with a grade of “C” or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty and the Associate Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11. A student may withdraw from any nursing courses ‘in good standing’ (with a grade of “B-” or higher) only twice during their program of study. A third such withdrawal will result in dismissal from the program.

12. All out of sequence students will be placed in courses on a space/faculty available basis. Priority will be given to students who are out of sequence for military service, severe illness, or family leave rather than for failure or withdrawal ‘not in good standing’.

13. A student who has a grade of B- (86% or less) at mid-quarter will be notified by the instructor. The student must satisfactorily fulfill all course requirements by the end of the quarter in order to receive a course grade.

**Academic Integrity Policy**

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students' own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found at: [http://offices.depaul.edu/oaa/faculty-resources/teaching/academic-integrity/for-students/Pages/default.aspx](http://offices.depaul.edu/oaa/faculty-resources/teaching/academic-integrity/for-students/Pages/default.aspx)

**Academic Integrity Policy Extension for Clinical and Service Settings**

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago's institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well.

**Student Advising/ Program of Study**
1. A faculty advisor will be assigned to each student upon acceptance to the program. The advisor will assist in developing an appropriate program of studies according to the student’s preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following.

2. Classes are scheduled so that a full-time student can complete the typical program of studies in the designated time frame. Part-time students or students taking courses out-of-sequence, may experience delay in obtaining necessary courses for timely progression in the program.

3. Students who need to change to part-time status must follow the steps below and need to be aware that they may experience delay in obtaining necessary courses for timely progression in the program. To request a change from full- to part-time status, the student must:
   1. Meet with his/her academic advisor and the Associate Director of the Program.
   2. Upon approval of change in status, the Associate Director of the Program will become the student’s academic advisor.
   3. The Associate Director and student will develop an adjusted program of study that the student will follow.

4. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

5. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.

6. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Associate Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program of studies. The Admissions, Progression, and Retention Committee, will be notified by the faculty advisor of the proposed interruption.

7. The student is responsible for meeting all prerequisites to courses for which the student is registering.

8. The student is responsible for scheduling periodic student-advisor, and student-instructor conferences.

9. The student may not register for any DNP course until all conditions of admission are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

**Clinical Guidelines**

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her clinical instructor in the event that the student encounters problems with his/her mentor, preceptor, or staff at the site or at the site generally. DNP students are expected to find clinical preceptors and/or mentors at clinical sites in which DePaul University has an affiliation contract with.

If none exists then a request for a clinical affiliation contract must be secured and signed by both institutions. Once an affiliation contract is in place, a student can start clinical. Additionally a request for a clinical preceptor agreement must be submitted using a Request for Letter of Agreement form along with the preceptor’s CV or Preceptor Profile and copy of verification of licensure in the state.

Students are required to:

1. Attend ALL scheduled learning activities including orientation, lectures, exams, seminars, laboratories, simulation activities, observations, clinical practicums, evaluation conferences, and other comparable activities. If any scheduled learning activities are missed, the student will need to make-up these learning activities or withdraw from the course. Students are advised that opportunities for making up learning activities are subject to clinical faculty, site and laboratory availability.

Students are responsible for notifying the appropriate faculty member when an absence from a scheduled learning activity cannot be completed. Notification of faculty prior to an absence is expected, and when not possible, the student is responsible for notifying the faculty as soon as possible. An excused absence is defined as an absence for illness or other special circumstance, in which the faculty has been notified prior to the absence. Unexcused absence is defined as an absence for i.e., vacation, or other activities, which result in an absence, and have not been pre-approved by faculty. Students are responsible for resolving any conflicts that may arise. Failure to notify an instructor or preceptor of absence or tardiness is grounds for dismissal from the program.

The decision regarding the make-up of learning activities or consequent withdrawal from a course resides with the course director and/or clinical instructor as specified in the course syllabus and as practical to the missed activity and class/clinical setting. Any absence may result in a lower grade. Absences of more than 15% of the total course hours may result in failure of the course.
Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

2. Arrive on time, prepared for all scheduled learning activities. This includes but is not limited to:
   appropriate dress, knowledge of medications, development of an appropriate plan of care, completion of
   all written and motor tests on skills that are necessary to a particular clinical rotation/setting. Refer to Dress
   Code Policy.
3. Students deemed unprepared or tardy may be asked to leave the clinical setting by the preceptor, receiving
   an "Unexcused" absence for the day. An "Unexcused" absence in clinical may result in failure of the course.
4. Required clinical equipment and dress a watch with a second hand or digital second reading capability, a
   stethoscope with both a diaphragm and bell (dual head), a penlight, and lab coat with DePaul Nursing
   patches, name pin/badge, black ball point ink pen.
5. Provide own transportation to clinical sites and pay for own parking as needed. Students are not allowed
   to transport clients or client families at any time.
6. Know and follow individual clinical agency policies and procedures. This information is available through
   each individual agency.
7. Use his/her legal signature in charting. The initials RN/ SNP/SRNA or NP/CRNA are to follow the legal
   signature.
8. Be knowledgeable about indications for, contraindications, warnings/precautions, interactions, adverse
   reactions and proper dosing when prescribing medications under the supervision of the clinical preceptor.
9. Comply with additional requirements of the clinical setting including but not limited to drug screening.
10. Bring reference books and materials to the clinical setting as needed to provide safe care.
11. Full-time students are expected to direct their major energy to their program of study. Thus the School of
    Nursing recommends that students limit their outside employment hours per week during periods when
    classes are in session. Previous experience demonstrates that students who work in excess endanger their
    scholastic standing and place themselves "at risk" for academic failure. Neither the university nor the School
    of Nursing has or assumes responsibilities for the nursing care of patients rendered by the student working
    as an RN since the student is employed by a nursing service and during such employment is not under the
    supervision of DePaul University.
12. Students can use the same clinics or work settings where they are concurrently employed only if working
    with a preceptor or mentor different than their current supervisor as a student in an unpaid NP student
    clinical role.
13. The students lab coat with DePaul Nursing patches, name pin/badge nor any part of it, is not to be worn in
    or around the student’s place of employment.

Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe
behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or
dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm
to a patient.

Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from
   the clinical preceptor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications,
   without first discussing such with the clinical preceptor.
8. Performing any procedure without previous knowledge or training on a patient without preceptor guidance
   and supervision.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable
diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failing to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of
    providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care
    for a patient.
19. Willfully or intentionally causing physical or emotional harm to a patient.
20. Failing to report an error in assessment, treatment, or medication or failure to report an unusual
    occurrence or an adverse reaction.
21. Failing to comply with DePaul’s Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Associate Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical preceptor's clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical preceptor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The preceptor will follow institutional guidelines as appropriate.
2. Contact the course instructor and the Associate Director of the Program.
3. Submit a written report of the incident to the clinical instructor and Associate Director's office within one working day. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student's dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Associate Director takes place. The Director of the School of Nursing may also be involved in the meeting.
5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Associate Director of the Program and Director of School of Nursing. The student may have his or her advisor present at the meeting. A decision regarding the student's continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student's progression in the program. A decision is made at the meeting and communicated to the student.
6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.
7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify the clinical instructor and course coordinator and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the clinical setting. This must occur as soon as possible and prior to attendance at clinical. The final decision as to whether the student is allowed in the clinical setting rests with the clinical agency.

Clinical Probation/Remediation

A student requires a clinical contract when one or more clinical course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as an instructor and/or course coordinator recognizes that a student's performance or behavior may jeopardize the successful completion of a course. The clinical contract can be initiated at any time during the quarter.

The clinical contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course coordinator and clinical instructor. The course coordinator and clinical instructor will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student's academic advisor will be notified as will the Associate Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student's remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course.

Clinical Failure

In the event that a student does not receive a passing grade in the clinical component of a course, the student's grade for that course will automatically become an F.

Student Dress Code
1. The student is to be well groomed at all times presenting a professional image. The rationale behind this and the following requirements comes from the belief that it is the client who is the focus of the nurse-client relationship.

2. Hair must be kept off the face and above the collar or pulled back and secured. Natural hair tones only. Sideburns, moustaches, and beards must be neatly trimmed. Make-up, if worn, must be minimal and conservative. Personal care products may only be lightly scented. Other fragrances are not to be worn.

3. Nails may not extend beyond the tip of the finger. NO artificial nails or nail polish is permissible.

4. The ONLY acceptable accessories are: One single or pair of stud earring(s) one on each lobe; one plain ring/ring set on one finger; NO other body jewelry or accessories is acceptable. Note: in some clinical areas all jewelry must be removed.

5. Tattoos are to be covered.

6. When giving direct patient care, in the office or clinic setting, students must wear their white lab coat with DePaul School of Nursing patch, their SON student name pin, and professional dress consisting of a shirt, sweater, and/or blouse with pants or a skirt, closed toe shoes in good repair with a low heel and in neutral color, with neutral hosiery or socks. No high tops or bare foot sandals.

7. Inappropriate clothing would include: sweatshirts; sweat pants; tight or sleeveless tops; shirts with lettering, pictures or hoods; stirrup pants; leggings; Capri pants; shorts; blue jeans; tight or revealing clothing; visibly worn, torn, or faded clothing; midriff tops; low necklines; open-backed clothing; cleavage or underwear showing; or flip-flops.

8. These guidelines are subject to modification by the clinical instructor, based on the instructor's judgment, individual student religious or cultural practices, the sensibilities of the population, and the dress code of the particular office or clinic setting or event where the student is in attendance or practicing.

Confidentiality

Patient/Client Privacy

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient’s Bill of Rights.

2. Confidentiality is the protection of a client's privacy through careful use of oral and written communications. The client's right to privacy is safeguarded by judicious protection of confidential information. The student should adhere to the School of Nursing Social Media policy (Appendix C in the Student Handbook) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.

3. A client's chart is a legal document. Information from the client and chart is confidential and cannot be disclosed to those not caring for the client. All entries must be accurate and legible. No part of the client's Medical record can leave the office or clinic setting.

4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.

5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client's privacy.

6. Students should use only the initials of the client when filling out history & physical exam forms, SOAP notes and any other documents which are a part of their educational experience.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan http://csh.depaul.edu/departments/nursing/student-resources/Pages/Bloodborne-Pathogens-Exposure-Control-Plan.aspx

Exposure at DePaul University

Any student who incurs an exposure incident at DPU should obtain confidential post-exposure evaluation and follow-up.

Students who would like to obtain this confidential post-exposure evaluation and follow-up from Advocate Illinois Masonic Medical Center may contact DePaul Public Safety, who will facilitate transportation to Advocate Illinois Masonic Medical Center.

The post exposure evaluations and follow-up should include at least, the following elements:

- Documentation of the route(s) and circumstances of the exposure;
- The results of the source individual's blood testing, if available; and
- All medical records relevant to the appropriate treatment of the student, including vaccination status, the Safety Officer or his/her designee will maintain these records.
Collection and testing of blood for HBV and HIV serological status will comply with the following:

- The exposed student's blood shall be collected as soon as feasible and tested after consent is obtained;
- The student may have his/her blood collected for testing of the student's HIV/HBV serological status. The blood sample will be preserved for up to 90 days to provide time for the student to decide if the blood should be tested for HIV serological status.

The student is responsible for costs associated with the medical evaluation.

**Exposure at an Outside Facility while Performing Duties within Student Role**

Any student incurring such an exposure should follow both DPU's post-exposure policy as well as the institution's policy where the exposure occurred. All student exposure incidents, whether they occur at DPU or off-campus while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual's blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

**Student Clinical Requirements**

It is mandatory that all students have all of their clinical requirements completed and a copy in their Castle Branch account by August 1st for Fall Quarter. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Non-compliance with clinical requirements will result in the student's withdrawal from their clinical course and subsequent delay progression in their program of study.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. A complete physical examination signed by a licensed primary care provider (MD, DO, NP, PA).
2. A Non-Reactive TWO-STEP Tuberculin Skin Test or Quantiferon Gold TB Blood Test. The Two-Step TB Skin Test requires that you receive two separate Mantoux skin tests at least one week apart AND no longer than 3 weeks apart. This test must be renewed YEARLY with a single step TB skin test or a Quantiferon Gold TB Blood Test. If previously positive, a student must submit a chest x-ray and/or TB symptom assessment statement that verifies the student is free from Tuberculosis signed by a licensed primary care provider (see above). .
3. A Mantoux test or Quantiferon Gold test must be taken and results uploaded to Castle Branch every 12 months following the initial TB test.
4. Titers for Rubeola, Mumps, Rubella, Varicella, and Hepatitis B. A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titers are as follows:
   1. Rubeola IgG
   2. Mumps IgG
   3. Rubella IgG
   4. Varicella IgG
   5. Hepatitis B surface antibody (quantitative).

   If the Hepatitis B immunization series has not been completed prior to beginning clinical attendance, the first of the three must be received prior to the first clinical day. It is the student's responsibility to supply documentation of the vaccine dates and the date when the final Hepatitis B surface antigen/antibody (quantitative) will be drawn. It is also the student's responsibility to upload this final documentation to their Castle Branch file as soon as it becomes available. If a titer does not demonstrate immunity, further vaccination is necessary.

   If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Titers will need to be drawn after re-immunization with the MMR. No follow-up titer is required for Varicella.

   Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

5. Tetanus-Diphtheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form
of a signed immunization card or statement from your healthcare provider or health department that
documentsthe date of the tetanus booster or Tdap were administered.
6. We require a yearly influenza vaccine. Most of our clinical agencies require influenza vaccines for all personnel
providing patient care.
7. Standard Precautions/Universal Precautions Training: Incoming MENP students will receive this as part of
their initial coursework.
8. Current CPR Certification: Exact month/day/year MUST be recorded on card. American Heart Association
Healthcare Provider (BLS)-Must be RENEWED EVERY 2 YEARS. (Note: AHA BLS certification is the ONLY
CPR certification acceptable.)
9. Professional Liability Insurance: Each DNP NP student must obtain their own student nurse practitioner
professional liability insurance policy against claims arising from real or alleged errors or omissions. Their
policy must have minimal limits of coverage of$1,000,000 PER claim and $5,000,000 aggregate. This
insurance must be renewed annually. Professional Liability Insurance for DNP NA student is provided by
NorthShore. The NP or NA DNP completion student must provide evidence of Professional Liability
insurance: if providing direct patient care during their clinical residency hours.
10. Evidence of Current Health Insurance: All nursing students must submit proof of health insurance yearly.
The health insurance photocopy of membership card or the paper it is written on should show the dates of
coverage or the date the copy is uploaded to the student's Castle Branch file.
11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle
Branch prior to their initial clinical experience. Criminal background checks must be completed by August
1st for Fall Quarter and will remain in effect unless: a) a clinical agency determines it necessary to require
more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of
study for one quarter or longer. In the above cases, it is mandatory for the student to have another
criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings
on the criminal background check. As a result, a student will not be able to complete the requirements of
the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical
institutions. The test may be obtained from any health care agency, or from Castle Branch through Quest
Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a
release to have the results sent to the School of Nursing Coordinator of Clinical Placements. See below for
the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings
on the drug screen. As a result, a student will not be able to complete the requirements of the program.

Drug Use and Testing

In accordance with DePaul University policies, the School of Nursing will impose disciplinary sanctions upon any
student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of
drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’
requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student's drug test is positive, secondary or confirmatory testing will be performed and the student will be
expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether
there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful
drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming,
clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure
to qualify for placement and/or successful completion of the program. Students with confirmed positive tests
and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the DePaul University
School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete
the requirements of the program.

DNP Residency

The DNP residency is a key component of the DNP program. The essential components of residency are
scholarly activities that support the implementation and completion of a DNP Project. These may include time
spent with a preceptor/mentor in a professional institution, clinic or community based organization which
provide care to an underserved/disadvantaged patient population due to lack of access or socioeconomic
reasons. Continuing education conferences and workshops that expand/support the DNP Project may also be
used. A minimum of 300 hours is required for the DNP NP Track residency; the student is required to maintain
a record log of the scholarly activities that includes a reflection analysis of each experience. The reflection journal
will be incorporated in the ePortfolio. The academic advisor/course director is responsible for supervision of the
DNP residency.
• Baccalaureate & Post-Masters entry Registered Nurse DNP NP Track student - the DNP residency occurs after 600 hours of preceptor clinical in the nurse practitioner track have been completed in NSG 483, 487 & 490. A minimum of 300 Residency clinical hours occur in NSG 700 and 701.
• Post masters Nurse Practitioner, Clinical Nurse Specialist and Nurse Midwife DNP Completion Student –the DNP residency is 300 hours of clinical or less based upon the number of documented preceptor clinical hours in their master's nurse practitioner program verified by transcript or letter from the director of the program. Residency hours occur in NSG 700 and 701. Post masters Nurse Anesthesia DNP Student –the DNP residency is 100 hours of clinical in NSG 615 and 616.

Professional Portfolio

During their program of studies, the DNP student is required to develop a professional electronic portfolio, a digitalized, purposeful collection of their selected work (documents, images, or videos), that provides evidence of their scholarly and professional development and achievement of the program's learning outcomes. The ePortfolio is started at the beginning of the program in NSG 554 Informatics & Technology Application course and continues to be added to throughout their DNP Program of study being completed in NSG 602. The DNP student will develop their portfolio on Digication, the ePortfolio system at DePaul. The student will have access to their portfolio after they graduate and can continue to highlight selected personal and professional accomplishments and experiences. Throughout their enrollment, students have unlimited access to the Writing Center for one-on-one Digication training and ePortfolio development support.

DNP Project

DNP students are required to complete an evidence-based DNP Project related to their area of advanced nurse practitioner practice. The DNP Project is a culmination of the knowledge gained in the DNP courses and provides an opportunity to demonstrate an analytical approach to programmatic, administrative, policy or practice issues in a format that supports the synthesis, transfer and utilization of knowledge. The intent is to demonstrate identification and resolution of a practice problem through the scholarship of application/integration. The project is expected to contribute to a practice or educational arena, examples include: an evaluation of a program or intervention, an analysis of a health care policy, developing a practice training program, quality improvement or safety program, a comprehensive systematic review for determination of best practice, or a strategic plan for the delivery of healthcare.

The DNP Project proposal will be developed in NSG 600: Evidence-Based Practice Research I. The student will identify a DNP Project Committee with a two member minimum: one being a DePaul or North Shore faculty member as the Committee Chair & a second committee member (content expert/mentor) with a master's or higher degree (from the School of Nursing/North Shore School of Nurse Anesthesia faculty and/or from an outside institution). In NSG 601: Evidence Based Practice Research II, the students will obtain approval from the DePaul University IRB and prepare to implement their projects. Continuation of the project will occur in NSG 602 in which 100 DNP Project hours are required of all DNP students. A formal oral presentation and a publishable manuscript will be presented to the student's DNP Committee for approval at the end of the program.

Group Projects: Student wishing to do a DNP project as a group of two must show evidence and a rubric of division of labor that there is enough content and work for both students. The work distribution must be equitable (see guidelines below from the AACN Task Force White Paper published on August 2015). This will be effective for Classes of 2017, 2018, and later.

Group/Team Projects can be a valuable experience, helping to prepare graduates to function in interprofessional teams in the future, but often present challenges, particularly for student evaluation and grading. Group projects are acceptable when appropriate to the students’ area of practice and goals, and the project aims are consistent with the focus of the program. Guidelines for the entire project as well as for individual contributions to the project and a rubric used for each individual’s evaluation should be developed and shared with students prior to the initiation of the project. Each member of the group must meet all expectations of planning, implementation, and evaluation of the project, and be evaluated accordingly. Each student must have a leadership role in at least one component of the project and be held accountable for a deliverable. The following serve as illustrative examples:

1. The student serves as a vital member of an interprofessional team, implementing and evaluating a component of a larger project.
2. Students work on the same project, for example improving hand washing, across multiple units within the same organization or across multiple organizations.
3. Students focus on different aspects of improving diabetic outcomes of care by meeting criteria for guidelines for diabetes care such as eye exams, time frames for Hg A1-c screening, and foot care.
4. Students analyze and implement changes in state immunization policies to improve access to immunizations and increase immunization rates.

Integrative and Systematic Reviews: Contrary to the DNP Essentials, the AACN Task Force believes that an integrative and systematic review alone is not considered a DNP project and does not provide opportunities for students to develop and integrate scholarships into their practice. Therefore, these types of study do not meet
the DNP degree requirement.

ePortfolio: A student's ePortfolio is not considered a DNP project, but rather a tool to document and evaluate professional development and learning or synthesis of student's development and learning.

**Access to Student Records**

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.

2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

**Graduation**

DePaul University awards the Doctor of Nursing Practice degree to students who successfully completed the DNP program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Bulletin.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice. Part-time students and students who do not enroll in classes for one or more quarters will follow their original program of study.

**Legal Limitations for Licensure**

Requirements for certification licensure may vary from state to state. Those students wishing to take their certification exam outside of Illinois are advised to check with that state’s licensure requirements early in the academic program. Baccalaureate entry DNP students will be eligible to take their national certification exam upon completion of their DNP degree program. Post-masters entry DNP students will be eligible to take their national certification exam upon completion of the NP courses and clinical.

**Nursing RN to MS (MS)**

The RN to MS curriculum provides for seamless progression for the Registered Nurse (RN) with an associate degree in nursing (ADN) to the master’s degree (MS) in nursing, whether or not the student also holds a BA/BS in another field. Students who hold a BSN may proceed directly to pursuing the MS. Students who hold a BA/BS in a different field will be required to complete a number of prerequisite courses before pursuing the MS.

The RN to MS program will be offered online except for the clinical component. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local professional mentors. The master’s component of the program prepares practicing nurses to meet the core expectations of a master’s education in nursing and to assume the role of a nurse educator or nurse administrator. The student will earn a certificate either in Health Professions Education or in Health Administration from Rosalind Franklin University of Medicine and Science (RFUMS) and the MS in Nursing from DePaul University. The certificate programs focus on interprofessional collaboration and are interdisciplinary in nature.

The master's program will culminate in a graduate practicum in which the interprofessional competencies will be supplemented by nursing-specific competencies as delineated by the American Organization of Nurse Executives and the National League for Nursing. In anticipation of earning the MS, students must apply for degree conferral.
Learning Outcomes

Students will be able to:

- Develop an advanced level of patient care management competency focused on a culture of safety and quality that prevents harm.
- Use nursing concepts, theories and research to design, conduct and evaluate scholarly inquiry in nursing science, with a focus on translational science.
- Comparatively evaluate health care systems in regard to the use of information systems technology, quality improvement, culturally relevant care models and tracking of performance outcomes.
- Critically evaluate antecedents of professional nursing practice ethics in light of Vincentian heritage and values and other influences and value systems.
- Use evidence for family focused interdisciplinary population health care to establish future health care needs.
- Distinguish between levels of the roles of autonomy, integrity and social justice in a professional leader's career.

Degree Requirements

Course Requirements

- NSG 429 PATHOPHYSIOLOGY & APPLIED PHARMACOLOGY (4 QH)
- NSG 481 BIOSTATISTICS AND EPIDEMIOLOGY (4 QH)
- NSG 554 INFORMATICS AND TECHNOLOGY APPLICATIONS (4 QH)
- NSG 598 GRADUATE RESEARCH SYNTHESIS (4 QH)

Courses Double-Counted as Undergraduate and Graduate Credit

- NSG 400 THEORETICAL COMPONENTS OF NURSING (4 QH)
- NSG 401 NURSING RESEARCH I (4 QH)
- NSG 431 HEALTH PROMOTION FOR FAMILIES AND COMMUNITIES (4 QH)
- NSG 445 NURSING PROFESSIONALISM, ADVOCACY, AND LEADERSHIP (4 QH)
- NSG 460 ADVANCED PHYSICAL ASSESSMENT ACROSS THE LIFESPAN (4 QH)
- NSG 540 CULTURE, ETHICS, AND POLICY ANALYSIS (4 QH)

The non-nursing baccalaureate ADN student does not need to complete the BS in nursing but takes three undergraduate bridge courses to meet AACN Essentials of the Baccalaureate prepared Nurse before progressing to the graduate degree portion of the program. The BSN prepared nurse immediately begins in the graduate portion of the program.

Undergraduate Requirements

Where applicable, students must also complete the BS requirements, including any Liberal Studies requirements not already met.
Track Requirements

As part of the master’s component of the RN to MS program, students will choose to specialize in one of two tracks:

- Nursing Education
- Nursing Administration

Each track requires several courses plus a capstone experience requiring a 200-hour practicum. The specific required coursework for each track can be found by navigating to the respective page. Following completion of the specialty, a graduate certificate in either Health Professions Education or Health Administration is conferred by Rosalind Franklin University of Medicine and Science.

Nursing Administration Track

The Nursing Administration track is designed to prepare a manager and leader in nursing and healthcare with advanced knowledge and applicable skills in communication and relationship building, healthcare environment, leadership, professionalism, and business management. The graduate will be able to pursue national certification as a nurse executive and a career in nursing administration. Contained within the coursework for the MS degree are four interprofessional health administration courses taught by Rosalind Franklin University of Medicine and Science which confers a graduate certificate in health administration. The degree program culminates in a capstone experience in nursing administration including a 200-hour practicum.

- NSG 561 EVIDENCE BASED MANAGEMENT (3 QH) *
- NSG 564 ORGANIZATIONAL BEHAVIOR AND HUMAN RESOURCES (3 QH) *
- NSG 565 STRATEGIC PLANNING AND LEADERSHIP IN HEALTHCARE (3 QH) *
- NSG 569 TOPICS IN HEALTHCARE ADMINISTRATION (3 QH) *
- NSG 596 CAPSTONE IN NURSING ADMINISTRATION (6 QH)

*This course is offered through a consortium agreement with Rosalind Franklin University and follows the Rosalind Franklin calendar.
Nursing Education Track

The Nursing Education track is designed to prepare a clinical expert with skills in nursing curriculum development, course design, instruction, and evaluation. The graduate will be able to pursue national nurse educator certification and teach in undergraduate nursing programs and/or in-service education. Contained within the coursework for the MS degree are four interprofessional health professions education courses taught by Rosalind Franklin University of Medicine and Science which confers a graduate certificate in health professions education. The degree program culminates in a capstone experience in nursing which includes a 200-hour practice/education practicum.

- NSG 570 LEARNING THEORIES (3 QH) *
- NSG 574 CLASSROOM ASSESSMENT (4 QH) *
- NSG 575 COURSE DEVELOPMENT (4 QH) *
- NSG 579 EVALUATING CLINICAL COMPETENCE (3 QH) *
- NSG 585 PORTFOLIO PRESENTATION (1 QH) *
- NSG 597 CAPSTONE IN NURSING EDUCATION (6 QH)

*This course is offered through a consortium agreement with Rosalind Franklin University and follows the Rosalind Franklin calendar.

Program Graduate Academic Student Handbook

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing.

Retention Policies

Undergraduate Student Academic Policy

Any student who fails to maintain a 2.00 cumulative grade point average (C average) is on academic probation. A student is removed from academic probation when the cumulative grade point average reaches the required minimum of 2.00. A student's academic status is reviewed after any Autumn, Winter, Spring and Summer quarters in which the student was enrolled in at least 1 credit hour. A probationary student may be limited to 12 credit hours per quarter until a cumulative GPA of 2.00 is reached. A student who remains on probation for three sequential quarters of enrollment may be dismissed.

A student dismissed for academic reasons is not eligible for readmission to DePaul University for a period of two quarters. The readmission decision is made by the Office of Admission in consultation with the college or school.

A dismissed student may be required to demonstrate acceptable academic achievement at another regionally accredited college or university before readmission is approved. Courses to be taken elsewhere must be approved by the college advising office and a grade of C or better must be earned in all such coursework.

Credits and grades earned during previous enrollment at DePaul will remain a part of the student's records.

Graduate Student Academic Policy

Students must maintain a cumulative GPA of 3.00 or greater to remain in good standing for all graduate level courses. A student will be placed on academic probation if the cumulative GPA dips below 3.00. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the cumulative GPA is raised to at least 3.00 at the end of the next academic quarter, the student is no longer on probation. If the cumulative GPA has not risen to 3.00 at the end of the next academic quarter, the student will be dismissed from the program.

If a student earns a C or C- in any graduate level course, the student is placed on probation. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the student is able to earn grades in all courses that are C+ or above AND earn a cumulative GPA of 3.00 or greater in the next academic quarter, the student is no longer on probation. If this does not occur, the student will be dismissed from the program.
A student who earns a D or lower in any graduate level course will be dismissed from the program.

Policy Regarding Encumbered Registered Nurse (RN) Licensure

1. If a student experiences an encumbered license (such as a RN license with stipulations or restrictions) during their graduate studies, he/she must notify the Assistant Director for the Program immediately upon receipt of the encumbrance.
2. The student will provide the appropriate Assistant Director with a copy of the Agreed Order.
3. Students may be allowed to take non-clinical courses with an encumbered license.
4. Students will not be allowed to take clinical courses with an encumbered license.
5. The student will notify the Assistant Director of the Program when the student’s license becomes unencumbered and provide a copy of the Board of Nursing’s notification letter.
6. Failure to notify the Assistant Director of the Program of an encumbered RN license will be considered academic misconduct and be treated as such.

Progression Policies

1. All students must complete the orientation session before enrolling in the nursing program of studies.
2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year.
3. Students must meet with their academic advisor at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Advisors are not generally available during the months of July and August.
4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.
5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.
6. All required health records, evidence of CPR certification, criminal background checks, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual student’s responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date at the beginning of each course will result in inability to attend the clinical component of the course.
7. Leave of Absence:
   1. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Assistant Director of the program and the Admission, Progression and Retention Committee should be notified. Depending on circumstances and estimated length of absence, the Assistant Director or student’s academic advisor may recommend additional action to complete the request process.
   2. Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progress, and Retention Committee. It is the student’s responsibility to send a copy of such request to the Director of the School of Nursing, the student’s faculty advisor, and the Assistant Director of the Program. This written request should demonstrate the student’s readiness and willingness to meet the requirements of the program. The request for reinstatement must be approved by the Assistant Director of the Program. The student will provide the appropriate Assistant Director with a copy of the Agreed Order.
8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.
9. A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with the Director of the School of Nursing and the Assistant Director of the Program and the course faculty.
10. A student who withdraws from a core nursing course who is 'not in good standing' (with a grade of “C” or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet...
with the course faculty and the Assistant Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11. A student may withdraw from a core nursing course 'not in good standing' (with a grade of "C" or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.

12. A student who has a grade of B- (86% or less) at mid-quarter may be placed on contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.

Academic Virtual Environment Policy

The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective virtual learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University. Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (Appendix B in the Student Handbook). Appropriate student conduct includes but is not limited to: being present on the discussion board; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; fostering a positive learning environment by respecting the ideas and opinions of others; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others on the discussion board.

Students displaying inappropriate conduct on the discussion board will be required to talk with their Academic advisor and may be placed on a performance contract. Inappropriate conduct will be documented with a written copy of the incident placed in the student's file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Assistant Director of the Program, and the Admissions, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. (For additional information, please see both the University Student Handbook-available on line, as well as the “Student Misconduct Process” outlined below.)

Academic Integrity Policy

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students' own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found at http://offices.depaul.edu/oaa/faculty-resources/teaching/academic-integrity/for-students/Pages/default.aspx

Academic Integrity Policy Extension for Clinical and Service Settings

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago's institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom.

The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well. See also The School of Nursing Professional Development Guidelines (Appendix B in the Student Handbook).

Student Advising/Program of Study

1. A graduate student services administrator (GSSA) from the College of Health Office of Advising and Student Services (OASS) will be assigned as the primary advisor for students while they are pursuing the BS degree portion of the program. The GSSA will work closely with the RN to MS Program faculty, who will be assigned in Campus Connection, as the students' secondary advisor during this phase. The advisor will assist in developing an appropriate program of studies according to the student's preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following.
Students are encouraged to review the student handbook prior to meeting with their advisor. Students should bring the Student Handbook Agreement Statement to the meeting. Once it is signed by student and advisor, it should be uploaded to Castle Branch.

2. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

3. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.

4. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Assistant Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program of studies.

5. The student is responsible for meeting all prerequisites to courses for which the student is registering.

6. The student is responsible for scheduling periodic student-advisor, and student-instructor conferences.

7. The student may not register for any clinical course until all conditions of admission, undergraduate nursing prerequisites, and liberal arts and science requirements are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

Clinical Guidelines

Clinical learning activity is defined as a planned activity occurring in a health care agency when the student is identified as a DePaul University student. The clinical learning activity may or may not include contact with patients.

In order for students to be eligible for clinical placement, they must complete the following:

1. All School of Nursing graduate clinical requirements
2. All School of Nursing graduate health requirements
3. Approval of clinical mentor/agency by the course faculty of record
4. Establish clinical affiliation agreements between the DePaul University School of Nursing and both the mentor and agency in which a student plans to complete clinical or practicum hours. Students will receive an email at the beginning of each term reminding them to start the process of procuring a clinical site and clinical mentor. Students can follow the procedure at http://csh.depaul.edu/academics/nursing/student-resources/Pages/Preceptor-Mentor-Request.aspx.

Failure to meet health requirements will prohibit students from practice learning activities and may result in cancellation of course registration. Any practicum hours completed by a student without completion of the above requirements will not be counted toward the requirement for the course.

All practice requirements should be identified in NSG 376 and submitted to course faculty of record by the end of NSG 376.

All health requirements should be uploaded to Castle Branch the quarter prior to a student beginning a clinical/practicum course.

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her supervisor, preceptor, or staff at the site.

Mentor Selection for Graduate Students

Students are responsible for selecting a mentor for practice experience courses. Criteria for graduate mentors include:

1. Unencumbered professional license and/or national certification
2. Documented current practice in the field
3. Educational experience: BSN, MSN preferred for NSG 377 and MSN practicing in chosen specialty track for graduate capstone course.
4. Commitment to high professional standards
5. Previous mentor experience is preferred
6. Interest in working with students with desire to foster student learning.

Process for Establishing a Mentor
1. The student identifies an appropriate mentor for practice experience activities according to criteria and has a discussion with the mentor about their current standing in the program and practice experience needs. The student shall only put forward the names of mentors who agree to the experience.
2. The student submits a preceptor/mentor request form along with a curriculum vitae of the mentor. The Assistant Director of the program will review the resume for established criteria and the agency clinical affiliation agreement.
3. The School of Nursing will process the agency affiliation agreement and mentor letter.
4. The student uploads evidence of compliance with all health requirements.
5. The School of Nursing will notify the student and the course faculty member when all requirements have been met. Practice experience hours cannot be started until such time.
6. The course faculty member will advise the student when to begin the mentor hours.

Students are required to:

1. Identify the practice experience site and mentor they wish to complete their practice hours in NSG 376, NSG 596 or NSG 597.
2. Notify NSG 376 course faculty of record of the practice experience site and mentor. Students in NSG 567 or NSG 597 will notify their academic advisor of their practice setting the term before starting the course.
3. Comply with additional requirements of the clinical setting including but not limited to drug screening.
4. Students may choose their place of employment as their practice experience site as long as the SON has a clinical affiliation agreement with the facility.

Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient. Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.
20. Failure to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failure to comply with DePaul’s Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
23. Failure to know proper vital sign ranges as well as failure to notify instructor or patient’s nurse of critical vital sign value.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the
If, in the clinical instructor’s clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical instructor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The instructor will follow institutional guidelines as appropriate.
2. Contact the course coordinator and the Assistant Director of the Program.
3. Submit a written report of the incident to the Assistant Director's office within one working day. The Assistant Director will contact the Registrar to put a hold on the student’s grade; the student will not be allowed to withdraw from the course at this time. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student’s dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Assistant Director takes place.
5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Assistant Director of the Program. The student may have his or her advisor present at the meeting. A decision regarding the student's continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student’s progression in the program. A decision is made at the meeting and communicated to the student.
6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.
7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify course faculty and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the practice experience setting. This must occur as soon as possible and prior to attendance at practice setting.

The final decision as to whether the student is allowed in the practice setting rests with the agency. If the student is unable to attend the practice experience, he or she will need to withdraw and meet with the Assistant Director of the program to explore options.

Students who are pregnant are advised that practice sites have individual policies and requirements related to pregnant students that may impact the student’s ability to attend or complete the experience.

Clinical Probation/Remediation

A student requires a contract when one or more course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as course faculty recognizes that a student's performance or behavior may jeopardize the successful completion of a course. The contract can be initiated at any time during the quarter.

The contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course faculty. The faculty will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student’s academic advisor will be notified as will the Assistant Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student’s remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course. Once the contract requirements have been met, the instructor should document this on the form and both student and instructor should sign the form. A completed copy can be given to the student; another copy is send to the Coordinator of Data Management for tracking purposes; another copy is placed in the student’s file.

Practice Experience

In the event that a student does not receive a passing grade in the practice experience component of a course, the student's grade for that course will automatically become an F.
Confidentiality

Patient/Client Privacy

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient's Bill of Rights.
2. Confidentiality is the protection of a client's privacy through careful use of oral and written communications. The client's right to privacy is safeguarded by judicious protection of confidential information. The student should adhere to the School of Nursing Social Media policy (Appendix C in the Student Handbook) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.
3. A client's chart is a legal document. Information from the client and chart is confidential and cannot be disclosed to those not caring for the client. All entries must be accurate and legible. No part of the client's Medical record can leave the hospital. Students are not allowed to access the records of patients for whom they are not providing direct care.
4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.
5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client's privacy.
6. Students should use only the initials of the client when filling out history forms, care plans, and any other documents which are a part of their educational experience.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan: http://csh.depaul.edu/departments/nursing/student-resources/Pages/Bloodborne-Pathogens-Exposure-Control-Plan.aspx

Exposure at Outside Facility while Performing Duties within Student Role

Any student incurring such an exposure should follow both DPU's post exposure policy as well as the institution's policy where the exposure occurred. All student exposure incidents while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual's blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

Student Injury and Incident Policy

In the event that a student is injured (or involved in an untoward incident*) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety is notified, that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found at http://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx, is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident. When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or
emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

**Student Clinical Requirements**

It is mandatory that all students have all of their clinical requirements completed and uploaded to their Student Immunization Tracker through Castle Branch prior to attending clinical. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Students who are non-compliant with clinical requirements will not be permitted to attend clinical. Non-attendance of clinical due to non-compliance with clinical requirements will be treated as an unexcused absence that may not be made up. This may put the student at risk for failing the course.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. **Tuberculosis Screening:**

   All students that will provide patient care in the clinical setting are required to submit proof of not having active tuberculosis prior to the first day of the clinical rotation. Documentation must be uploaded into Castle Branch and approved to fulfill this requirement. This can be done by completing one of the following:
   1. **Two-step Tuberculin Skin Test.**
      The student will be required to have two separate tuberculin skin tests placed 1-3 weeks apart. The results of both tests must be uploaded into Castle Branch.
   2. **Quantiferon Gold Test**
      The student will be required to have this blood test drawn and upload the results into Castle Branch. Please note: some clinical sites will only accept this as proof of not having active tuberculosis.
   3. **Students With Positive TB Results:**
      Students with a history of having positive TB results or has received the BCG vaccination prior to admission into the nursing program at DePaul University must complete the following:
      Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.
      AND
      Submit a negative chest X-ray from the time of the initial positive TB results. In the event that a chest X-Ray was not completed, the faculty member will be required to obtain one prior to the first day of the clinical rotation.
      OR
      Complete a Quantiferon Gold test.
      AND
      Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.

   Students found to have positive TB results while completing pre-clinical screening requirements for DePaul University must complete the following prior to the first day of the clinical rotation:
   
   Obtain a chest x-ray and submit the results.

   Submit certification from a healthcare provider that the student is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. If the student shows signs and symptoms of active tuberculosis during the provider evaluation, the student may not begin the clinical rotation until documentation of a completed course of prophylactic therapy and certification of currently being free of the signs and symptoms of active tuberculosis has been completed.

2. **Titers for Rubeola, Mumps, Rubella, Varicella.** A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titers are as follows:
   1. Rubeola IgG
   2. Mumps IgG
   3. Rubella IgG
   4. Varicella IgG
If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Follow-up titers will need to be drawn after re-immunization for both MMR and Varicella.

Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

3. Proof of immunity to Hepatitis B must be confirmed through bloodwork. Immunity may be achieved through vaccination or previous exposure*. You may submit test results and documentation of immunity from your provider in lieu of receiving vaccination. The following documents will be accepted as proof of immunity:
   1. Positive Hepatitis B surface antibody (anti-HBs) indicates immunity from previous vaccination.
   2. Positive anti-HBs and positive Hepatitis core antibody (anti-HBc) indicate immunity due to infection; a negative Hepatitis B surface antigen (HBsAG) is needed to determine whether acute or chronic infection exists, and the student will need to follow up with his or her health care provider.

   If immunity is not documented, the student must receive the Hepatitis B immunization series and post-vaccination bloodwork as outlined below.

   If the series has been started but has not been completed prior to beginning clinical attendance, it is the student’s responsibility to supply documentation of the vaccine dates and the date when the final Anti-HBs bloodwork is drawn. The student must have completed a minimum of one of the series of three vaccines prior to the first clinical day and upload documentation for this to Castle Branch.

   If bloodwork following completion of the series of three vaccines does not show immunity, further vaccination is necessary. If, after completion of a second series, no immunity is detected, the student must sign a waiver. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

   * The Centers for Disease Control (CDC) recommend that persons who fall into either of the following categories for increased risk for Hepatitis B infection should see their health care provider and request a blood test for Hepatitis B surface antigen (HBsAg) and Hepatitis B surface antibody (Anti-HBs) as you may not need the vaccination if the results are positive.

   CDC Categories of Persons at Increased Risk for Hepatitis B Infection
   1. Persons born to mothers in or from countries in which Hepatitis B is endemic.
   2. Sexually active men who have sex with men.
   4. Tetanus-Diptheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form of a signed immunization card or statement from your healthcare provider or health department that documents the date the tetanus booster or Tdap were administered. Please note that a tetanus booster alone is not adequate and you must demonstrate immunization for diphtheria and pertussis within past 10 years.
   5. Yearly influenza vaccine is required. Incoming MENP students will receive Standard Precautions/Universal Precautions Training as part of their initial coursework.
   6. Current CPR Certification: Current American Heart Association (AHA) certification in Basic Life Support (BLS) for Healthcare Provider is required for all entering and current students. Only the AHA certification will be accepted.

Content covered in AHA BLS class:
   1. Critical concepts of high-quality CPR
   2. The American Heart Association Chain of Survival
   3. 1-Rescuer CPR and AED for adult, child and infant
   4. 2-Rescuer CPR and AED for adult, child and infant
   5. Differences between adult, child and infant rescue techniques
   6. Bag-mask techniques for adult, child and infant
   7. Rescue breathing for adult, child and infant
   8. Relief of choking for adult, child and infant
   9. CPR with an advanced airway

7. Professional Liability Insurance: Each MENP and BSN completion student must obtain their own student nursing professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually.

8. Evidence of Current Health Insurance: All nursing students must submit proof of continuous comprehensive health insurance on a yearly basis. Please note that the name on the health insurance must match the student’s name.

9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter.
This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp.

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless: a) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. Some institutions may require a new drug screen each year. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a "Chain-of-custody" procedure. The student should sign a release to have the results sent to School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

**Drug Use and Testing**

In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’ requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student’s drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete the requirements of the program.

**Access to Student Records**

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.

2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

**Graduation**

DePaul University awards the both the Bachelor of Science and Master of Science degree with a major in nursing to students who successfully complete RN to MS program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Bulletin.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice.
Philosophy (MA)

The department offers two distinct Master's degrees. The majority of students pursue the Master's as a step on the way to attaining a PhD. These students apply directly into the MA/PhD. The department also offers a terminal Master's degree that is intended only for students who do not plan on pursuing a doctorate. Requirements are the same for the two programs.

Learning Outcomes

Students will be able to:

- Critically discuss philosophical issues (via well-grounded arguments) and questions from the perspectives of multiple methods, traditions, and historical contexts.
- Evaluate philosophical issues, questions, and problems critically and analytically.
- Write an articulate and well-ordered essay presenting philosophical positions in a way that addresses philosophical issues and questions.
- Formulate and evaluate their own understanding of a diverse range of philosophical problems, in both writing and discussion.
- Integrate a critical understanding of central philosophical ideas from the history of philosophy, broadly construed to include more than the Western tradition.
- Read and integrate into their research relevant primary and secondary texts from the history of philosophy in their original language.

Degree Requirements

Course Requirements

Of the 48 quarter hours of graduate philosophy courses numbered 400 and over (12 courses) required for the M.A. degree, 16 quarter hours (4 courses) must be taken in accordance with the following distribution requirements:

- Two History of Western Philosophy Courses
  - One in Ancient or Medieval: 4 quarter hours
  - One in Modern or Nineteenth Century: 4 quarter hours
- One Contemporary European Philosophy Course: 4 quarter hours
- One Normative Philosophy Course: 4 quarter hours

Course Distribution List
History of Western Philosophy - Ancient or Medieval

- PHL 400 SPECIAL TOPICS IN TRADITIONAL PHILOSOPHERS
- PHL 410 PLATO I
- PHL 411 PLATO II
- PHL 415 ARISTOTLE I
- PHL 416 ARISTOTLE II
- PHL 420 AUGUSTINE
- PHL 425 AQUINAS
- PHL 500 SPECIAL TOPICS IN THE HISTORY OF PHILOSOPHY

History of Western Philosophy - Modern or Nineteenth Century

- PHL 400 SPECIAL TOPICS IN TRADITIONAL PHILOSOPHERS
- PHL 434 HOBBES
- PHL 435 DESCARTES
- PHL 437 LOCKE
- PHL 438 LEIBNIZ
- PHL 440 SPINOZA
- PHL 441 ROUSSEAU
- PHL 445 HUME
- PHL 500 SPECIAL TOPICS IN THE HISTORY OF PHILOSOPHY
- PHL 510 KANT I
- PHL 511 KANT II
- PHL 512 KANT III
- PHL 515 HEGEL I
- PHL 516 HEGEL II
- PHL 517 HOLDERLIN
- PHL 518 SCHELLING
- PHL 520 MARX I
- PHL 521 MARX II
- PHL 525 NIETZSCHE

Contemporary European Philosophy

- PHL 470 PHILOSOPHY OF WITTGENSTEIN
- PHL 535 HUSSERL I
- PHL 536 HUSSERL II
- PHL 550 HEIDEGGER I
- PHL 551 HEIDEGGER II
- PHL 552 HEIDEGGER III
- PHL 557 TOPICS IN CONTINENTAL PHILOSOPHY
- PHL 559 FOUCAULT
- PHL 560 THE PHILOSOPHY OF GABRIEL MARCEL
- PHL 561 LYOTARD
- PHL 565 MERLEAU-PONTY I
- PHL 566 MERLEAU-PONTY II
- PHL 570 SARTRE I
- PHL 571 SARTRE II
- PHL 577 DERRIDA I
- PHL 578 DERRIDA II
- PHL 585 RICOEUR
- PHL 586 METAPHOR AND POETIC LANGUAGE
- PHL 587 READING LEVINAS I
- PHL 588 READING LEVINAS II
- PHL 589 PHILOSOPHY, LITERATURE, COMMUNITY
- PHL 590 TRENDS IN CONTEMPORARY FRENCH PHILOSOPHY

Normative Philosophy

- PHL 443 MEDICAL LEGAL ETHICS
- PHL 522 SOCIAL AND POLITICAL PHILOSOPHY
- PHL 527 PHILOSOPHY, ETHICS, AND ECONOMICS
- PHL 591 CRITICAL RACE THEORY
- PHL 601 SEMINAR ON AESTHETICS
- PHL 629 SEMINAR ON CONTEMPORARY PROBLEMS
- PHL 640 PROBLEMS IN ETHICS
- PHL 641 SEMINAR ON THE CONTINENTAL TRADITION IN ETHICS
- PHL 651 TOPICS IN BUSINESS ETHICS
File Paper Requirement

Each year the full-time student will submit two file papers which will be kept in the student's ongoing portfolio. These papers will be read by a second member of the faculty who will judge whether the paper meets the standards of the graduate program. The Graduate Affairs Committee will review every student's progress toward the degree once a year, normally at the beginning of the spring quarter. Students deemed not to be making satisfactory progress may be placed on probation or required to leave the program.

Foreign Language Requirement

By the time of the conferral of the MA, students are expected to make satisfactory progress toward competency in a language of research. 'Satisfactory progress' here may mean taking and passing one of the Language Proficiency Exams organized and offered by the Department of Philosophy faculty, or it may mean participating in and passing language courses at DePaul during the school year or during the summer, or it may mean some other steps taken toward competence. The student will report his or her progress when submitting materials for the annual review. Most often, the language of research is Greek, Latin, German, or French, though students can petition to have any other language count.

Student Handbook

Probation and Dismissal

The Graduate Affairs Committee will review every student's progress toward the degree once a year, normally at the beginning of the spring quarter. Students deemed not to be making satisfactory progress may be placed on probation or required to leave the program.

Readmission

Students can petition the Graduate Affairs Committee in the Department of Philosophy for readmission. Petitions should be sent to the Director of Graduate Studies.

Transfer Credit

Ph.D. students may request to transfer up to 12 quarter hours either from courses taken while a non-degree-seeking student at DePaul or from other universities if they have already done graduate study elsewhere. M.A. students may request to transfer up to 8 quarter hours. These credits must not have been counted toward any other degree the student has received. In exceptional cases, the Graduate Affairs Committee may recommend to the Graduate School that more hours of transfer credit be allowed, but in no case more than 25% of the hours required for the DePaul degree.

Non-Curricular Courses

Terminal MA students cannot typically get credit for non-curricular courses, but they can petition the Graduate Affairs Committee to have such a course count. Ph.D. students may take up to three courses during their studies outside of the graduate offerings in Philosophy for credit towards Ph.D. course requirements (12 credit hours) and these courses may come before or after the student has receive his or her MA. These non-curricular courses may include graduate courses at other universities or graduate courses at DePaul in other fields relevant for student research. On rare occasions students may take independent studies with faculty members on topics that would not otherwise be offered as graduate courses. All such non-curricular courses must be approved by the Director of Graduate Studies.

Time Limitations
For the M.A., from entrance into the program to completion of the degree, no more than six years.

**Philosophy (MA/ PhD) and (PhD)**

The department offers courses, seminars, and dissertation direction culminating in the award of an MA/PhD or a PhD in philosophy. While the program touches diverse areas of philosophy, its chief orientation is toward Continental Philosophy, with many members of the department concentrating on issues in ethics and values studies within this tradition or in relation to the broader philosophical tradition.

The MA/PhD and PhD in Philosophy may be expanded to include a graduate certificate program in Women's and Gender Studies or Business Ethics. The combined certificate program requires the careful selection of elective courses to fulfill all requirements. A separate application process is required. Students who are interested in the combined certificate programs should contact the graduate program director for additional information.

<table>
<thead>
<tr>
<th>Core Requirements</th>
<th>112 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>112 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Critically discuss philosophical issues (via well-grounded arguments) and questions from the perspectives of multiple methods, traditions, and historical contexts.
- Evaluate philosophical issues, questions, and problems critically and analytically.
- Write an articulate and well-ordered essay presenting philosophical positions in a way that addresses philosophical issues and questions.
- Formulate and evaluate their own understanding of a diverse range of philosophical problems, in both writing and discussion.
- Integrate a critical understanding of central philosophical ideas from the history of philosophy, broadly construed to include more than the Western tradition.
- Read and integrate into their research relevant primary and secondary texts from the history of philosophy in their original language.
- Produce a substantial piece of research (thesis or dissertation) that makes an original contribution to the field of philosophy and/or exhibits a comprehensive grasp of the relevant scholarship on a given question, text, or figure.

**Degree Requirements**

The following are the minimal degree requirements. Additional study may be required depending on the student's academic background and his or her achievement in the program.

**Course Requirements**

A minimum of 112 quarter hours of post-baccalaureate credit, including
- For students who completed an M.A. in Philosophy at DePaul
  - 64 quarter hours in addition to the 48 quarter hours of course work required for the M.A. at DePaul,
    to be comprised of:
    - 56 quarter hours of course work
    - 4 quarter hours PHL 697 GRADUATE TEACHING PRACTICUM
    - 4 quarter hours PHL 699 DISSERTATION RESEARCH
- For those given credit for an M.A. in philosophy from another institution
  - 76 quarter hours, to be comprised of:
    - 68 quarter hours of course work
    - 4 quarter hours PHL 697 GRADUATE TEACHING PRACTICUM
    - 4 quarter hours PHL 699 DISSERTATION RESEARCH

Of the 64 quarter hours (16 courses) required for the Ph.D., 16 quarter-hours (4 courses) must be taken in accordance with the following distribution requirements:

- Two History of Western Philosophy Courses
  - One in Ancient or Medieval: 4 quarter hours
  - One in Modern or Nineteenth Century: 4 quarter hours
- One Contemporary European Philosophy Course: 4 quarter hours
- One Normative Philosophy Course: 4 quarter hours

**Course Distribution List**

**History of Western Philosophy - Ancient or Medieval**

- PHL 400 SPECIAL TOPICS IN TRADITIONAL PHILOSOPHERS
- PHL 410 PLATO I
- PHL 411 PLATO II
- PHL 415 ARISTOTLE I
- PHL 416 ARISTOTLE II
- PHL 420 AUGUSTINE
- PHL 425 AQUINAS
- PHL 500 SPECIAL TOPICS IN THE HISTORY OF PHILOSOPHY

**History of Western Philosophy - Modern or Nineteenth Century**

- PHL 400 SPECIAL TOPICS IN TRADITIONAL PHILOSOPHERS
- PHL 434 HOBES
- PHL 435 DESCARTES
- PHL 437 LOCKE
- PHL 438 LEIBNIZ
- PHL 440 SPINOZA
- PHL 441 ROUSSEAU
- PHL 445 HUME
- PHL 500 SPECIAL TOPICS IN THE HISTORY OF PHILOSOPHY
- PHL 510 KANT I
- PHL 511 KANT II
- PHL 512 KANT III
- PHL 515 HEGEL I
- PHL 516 HEGEL II
- PHL 517 HOLDERLIN
- PHL 518 SCHELLING
- PHL 520 MARX I
- PHL 521 MARX II
- PHL 525 NIETZSCHE

**Contemporary European Philosophy**

- PHL 470 PHILOSOPHY OF WITTGENSTEIN
- PHL 535 HUSSERL I
- PHL 536 HUSSERL II
- PHL 550 HEIDEGGER I
- PHL 551 HEIDEGGER II
- PHL 552 HEIDEGGER III
- PHL 557 TOPICS IN CONTINENTAL PHILOSOPHY
- PHL 559 FOUCAULT
- PHL 560 THE PHILOSOPHY OF GABRIEL MARCEL
- PHL 561 LYOTARD
- PHL 565 MERLEAU-PONTY I
Normative Philosophy

- PHL 443 MEDICAL LEGAL ETHICS
- PHL 522 SOCIAL AND POLITICAL PHILOSOPHY
- PHL 527 PHILOSOPHY, ETHICS, AND ECONOMICS
- PHL 591 CRITICAL RACE THEORY
- PHL 601 SEMINAR ON AESTHETICS
- PHL 629 SEMINAR ON CONTEMPORARY PROBLEMS
- PHL 640 PROBLEMS IN ETHICS
- PHL 641 SEMINAR ON THE CONTINENTAL TRADITION IN ETHICS
- PHL 651 TOPICS IN BUSINESS ETHICS
- PHL 656 SEMINAR ON SOCIAL AND POLITICAL THOUGHT
- PHL 657 TOPICS IN SOCIAL AND POLITICAL THOUGHT
- PHL 660 SEMINAR IN FEMINIST ETHICS
- PHL 661 TOPICS IN FEMINIST THEORY

Additional Requirements

File Paper Requirements

Until all course work is completed, students will be required to submit two file papers per year. These papers will be read by a second member of the faculty who will judge whether the papers meet the standards of the graduate program. The Graduate Affairs Committee will review every student's progress toward the degree once a year, normally at the beginning of the Spring quarter. Students deemed not to be making satisfactory progress may be placed on probation or required to leave the program.

Foreign Language Requirements

Competence in two of French, German, Latin, or Greek are required. On approval of the Graduate Affairs Committee, competence in other languages may be used to fulfill the language requirements if deemed appropriate to the research undertaken.

Dissertation

Completion of the doctoral dissertation, ordinarily of 200-275 pages including scholarly apparatus, and a public oral defense of this work before the dissertation committee.

Graduate Certificate in Business Ethics

The Graduate Certificate in Business Ethics is an option for doctoral students in Philosophy who want to gain a competency in business ethics, qualifying them to teach undergraduate and MBA courses in that subject. This Certificate does not require a dissertation in applied ethics. Rather it is designed to give students, regardless of their area of specialization, a strong background in business ethics so that they will be competent and competitive in the academic market, as well as comfortable teaching business ethics both at DePaul and in their academic careers.

A minimum of 16 quarter hours including:

- PHL 527 PHILOSOPHY, ETHICS, AND ECONOMICS
  or PHL 640 PROBLEMS IN ETHICS
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR (or another graduate level course in Commerce approved by the Certificate Chair)
- PHL 641 SEMINAR ON THE CONTINENTAL TRADITION IN ETHICS
- 1 other approved elective course within the DePaul Philosophy Department's graduate offerings. The elective can be selected from the following courses:
  - PHL 437 LOCKE
Other Requirements

- Students will be required to teach 2 Business Ethics courses (this could be in the Department of Philosophy, the Religious Studies Department or in a Management Department at DePaul or in other area universities.) Given that many Ph.D. students in Philosophy are required to teach, this is not always an additional teaching requirement.
- Attend and participate in at least one professional conference or complete an internship in applied ethics. In terms of Conferences, students will have to present a paper at the annual meeting of the Society for Business Ethics or the annual Vincentian conference on Business Ethics. (Expenses will be covered by the Institute for Business and Professional Ethics.) A publishable paper would be the optimal goal. In terms of internships, such opportunities will have to be directly related to Business Ethics, Sustainability or Societal Justice. This will be approved by the Certificate Chair in consultation with the Director of Graduate Studies.

Applicants can apply by sending a letter of intent to the Certificate Chair and the Director of Graduate Studies. Applicants must have at least a B average and will agree to make the above required courses as part of their program of study for the Ph.D.

Student Handbook

Probation and Dismissal

The Graduate Affairs Committee will review every student’s progress toward the degree once a year, normally at the beginning of the Spring quarter. Students deemed not to be making satisfactory progress may be placed on probation or required to leave the program.

Readmission

Students can petition the Graduate Affairs Committee in the Department of Philosophy for readmission. Petitions should be sent to the Director of Graduate Studies.

Transfer Credit

PhD students may request to transfer up to 12 quarter hours either from courses taken while a non-degree-seeking student at DePaul or from other universities if they have already done graduate study elsewhere. MA students may request to transfer up to 8 quarter hours. These credits must not have been counted toward any other degree the student has received. In exceptional cases, the Graduate Affairs Committee may recommend to the Graduate School that more hours of transfer credit be allowed, but in no case more than 25% of the hours required for the DePaul degree.

Non-Curricular Courses

PhD students may take up to three courses during their studies outside of the graduate offerings in Philosophy for credit towards PhD course requirements (12 credit hours), and these courses may come before or after the student has received his or her MA. These non-curricular courses may include graduate courses at other universities or graduate courses at DePaul in other fields relevant for student research. On rare occasions students may take independent studies with faculty members on topics that would not otherwise be offered as graduate courses. All such non-curricular courses must be approved by the Director of Graduate Studies.

Language Courses

PhD students may also take up to three courses aimed at language acquisition in the Department of Modern Languages at DePaul for credit towards PhD course requirements (12 credit hours). (These courses must be at the graduate level, 400 or higher, in order to count toward a graduate degree.)
Residency Requirement
Three consecutive quarters of full-time residence, i.e., registration for eight credit hours each quarter.

Admission to Doctoral Candidacy
A student will be recommended to the graduate school for admission to doctoral candidacy when he or she has:
1) completed the residency requirement; 2) completed all course requirements (excluding PHL 699 DISSERTATION RESEARCH) and the submission of required file papers (which shall count as fulfilling the University’s qualifying examination requirement); 3) completed the foreign language requirements; 4) submitted a dissertation proposal (approximately 10-15 pages in length, including critical bibliography); and 5) successfully defended the dissertation proposal during a public oral defense before the dissertation committee.

Candidacy Continuation
Registration for PHL 701 Candidacy Continuation is required each quarter of the regular academic year between admission to candidacy and graduation. Permission of the dissertation director is required once each academic year for registration for Candidacy Continuation. The Dissertation Research course shall also count toward meeting this requirement. Completion of the doctoral dissertation, ordinarily of 200-275 pages, including scholarly apparatus, and a public oral defense of this work before the dissertation committee.

The dissertation committee will consist minimally of three members, including a director and two readers, all of whom must be permanent, full-time members of the DePaul's Department of Philosophy. Other members of DePaul faculties, or philosophers and scholars from outside the University, whose expertise is pertinent to the topic of the dissertation, may serve as extra readers upon the consent of the dissertation director and the Director of Graduate Studies.

In the event that a faculty member leaves the department, that faculty member may continue to serve on any already constituted and officially proposed dissertation committees as a director, a co-director, or an internal reader for up to one year. If the dissertation is not defended in the course of that year, the faculty member can continue to serve on the committee only as an external reader. It may be advisable, in the case of a departing faculty member continuing to serve as a dissertation director, to name a department member as a co-director.

Submission of a dissertation abstract of up to 350 words and filing of the completed final version of the dissertation with the Graduate Division by the required date prior to graduation.

Time Limitations
Students who come in without an MA in Philosophy and who will work as Teaching Fellows from their third year on are considered to be making satisfactory progress through the program if they complete all requirements for the MA before the start of their third year, including applying to have the degree conferred. PhD students, both those who have completed their MA at DePaul and those who entered with an MA, should defend their Dissertation Proposals and become ABD by the end of their fourth year, but no later than the end of their sixth year. Students should submit and successfully defend their dissertations by the end of their sixth year, but no later than the end of their tenth year after entering the program. Exceptions will be granted on a case-by-case basis.

Physics (MS)
The Graduate Physics program is intended to serve the needs of students who wish to enhance their preparation for a doctoral degree in physics or applied science, students who wish to obtain a terminal masters degree in order to work in a physics or engineering related industry, and students who wish to enhance their teaching of physics at the secondary level. To fulfill these purposes, the department offers a degree program: Master of Science in Physics.

The M.S. in Physics program is built around a core of five graduate courses and a selection of applied courses in the faculty's areas of expertise that are designed to tie into current areas of research and interest within both academia and industry.

In order to maximize the availability of our offerings, graduate courses in our program are taught in the evening.

| Core Requirements | 20 hours |

DePaul University  Autumn 2017-2018  Page 413 of 2468
### Learning Outcomes

Students will be able to:

- Solve a selected set of standard problems in Classical Mechanics, Quantum Mechanics, and Electrodynamics.
- Apply general principles, such as conservation of energy and momentum, to complex systems that require the use of more than one branch.
- Give oral presentations of problem solutions or research projects that combine formal mathematical material with computer generated graphics and verbal explanations in a manner that makes the topic accessible to their peers.
- Write research reports that effectively integrate text, data analysis, and graphics into a document that adequately explains the procedures and supports the stated conclusions.
- Chart out and successfully execute the solution to complex (graduate-level) problems that require a multi-step process to solve.
- Choose and utilize appropriate formal mathematical techniques in solving problems in physics. For example:
  - Use Poisson brackets to examine the time evolution of a dynamical variable
  - Identify constants of motion based on the commutation with the Hamiltonian of a system.
- Develop experimental techniques and numerical algorithms for their projects (depending on the area of their chosen thesis topic) with limited guidance
  - Troubleshoot these techniques and algorithms when problems arise.
- Produce a written thesis that effectively integrates formal mathematical analysis, graphics, and text into a document that is accessible to their peers. The document should introduce the topic, set the context, and explain the significance of the work as well as describe the particulars of the project.
- Give an oral presentation that explains and summarizes the major aspects of their research project to an audience of peers. The presentation should make effective use of computer graphics, text, and verbal explanations and be well organized.

### Concentration Specific Outcomes

**Experimental Physics**

Students will be able to:

- Execute advanced laboratory techniques that are standard in their area of research and estimate the accuracy and precision of their resulting measurements using appropriate data analysis techniques.

**Observational Astronomy**

Students will be able to:

- Handle telescope data (in their wavelength of study), including applying advanced computational techniques to analyze and interpret those data.

**Theoretical/ Computational Physics**

Students will be able to:

- Apply the defined norms for their areas of research to an understanding of the implications, accuracy, and precision of their results.
Degree Requirements

Course Requirements

Core Requirements

- PHY 411 ELECTRODYNAMICS I
- PHY 412 QUANTUM MECHANICS I
- PHY 420 ELECTRODYNAMICS II
- PHY 440 CLASSICAL MECHANICS
- PHY 460 QUANTUM MECHANICS II

Thesis Requirement

- PHY 480 THESIS RESEARCH

Six Electives

- Any physics courses with a number equal to or higher than PHY 410 CHAOS IN PHYSICAL SYSTEMS. A second PHY 480 THESIS RESEARCH is allowed as one of these six electives.
- Courses at the 300 or 400 level in biology, chemistry, mathematics, physics, computer science or other related fields can be substituted for up to two of these six elective courses with the written approval of the departmental graduate committee. Please contact the Program Director for details.

Thesis Requirement

A thesis based on independent research in theoretical or experimental physics is generally required. However, a review thesis reflecting study of a broad subject or development of an interdisciplinary, historical or educational theme is also acceptable with permission from the Graduate Committee.

As a rule, one course credit of 4 quarter-hours in PHY 480 THESIS RESEARCH is applicable to the thesis research. An additional PHY 480 THESIS RESEARCH course (4 credit hours) may be allowed with the written approval of the student's faculty advisor. While students are permitted to register for more than two 4-credit sections of PHY 480 THESIS RESEARCH, in no case will more than two PHY 480 THESIS RESEARCH courses (4 credit hours each) be applied toward the Master of Science degree.

Students are advanced to candidacy upon the written approval of their thesis proposal by the graduate committee, subject to the rules and conditions given below. An oral examination on the thesis is required, eligibility and rules are given below.

Thesis Procedures and Timelines

1. A committee with the advisor as Chair and two other members of the DePaul Physics department must be constituted three months prior to the M.S. Thesis Defense. Committee members (from outside the Physics Department, or outside DePaul) are allowed by permission of the Graduate Director, but cannot function as Committee Chairs.

2. A written report on the thesis project must be furnished to the Committee three months prior to the planned M.S. Thesis Defense. The written report should include: Title of the thesis project, abstract of the research, a 1-page update on what work has been accomplished so far, and what work remains to be done. The committee members reserve the right to meet with the student and seek clarification and information orally at this time.

3. Following submission of the written report described in (2) above, the committee members will sign the College of Science and Health’s (CSH) Approval of Proposal for Final Project form found on the website for the CSH’s Office of Advising and Student Services. A signature on this form does not constitute permission to defend in another three months, nor does it make any judgment in this regard. Instead, the signatures attest to the fact that the committee has been constituted, and that the committee members have received a written report on the thesis project described in (2) above from the student.

4. The signed CSH Approval of Proposal for Final Project form found on the website for the CSH’s Office of Advising and Student Services will then be submitted to the Program Director who will, upon receipt of this form, make known to the thesis advisor and student the earliest date on which they are eligible to schedule a thesis defense if (5) and (6) below are satisfactorily fulfilled.

5. A written version of the thesis that is in reasonably final form must be furnished to all the three members of the committee by the student two weeks prior to the planned M.S. Thesis Defense. No exceptions will
be granted on this rule.

6. Within a week of having received the thesis mentioned in (5) above, that is, one week prior to the planned thesis defense, all committee members must sign the Physics Department Approval of Scheduling of Thesis Defense form giving the student permission to proceed with the thesis defense. A signature on this form does not reflect a judgment on, or acceptance of, the thesis; it constitutes only an approval for the date of the defense. If the committee members feel that the student is not ready to defend, based on their reading of the thesis (which case may be either because the thesis is not written in a satisfactory manner, or because they feel more work needs to be done on the project), they can choose to withhold their signature; the committee member(s) withholding his/her signature(s) must provide a written explanation of why they did not sign, and what changes and corrections, if any, would be required to obtain their signature. This will automatically mean that the student cannot defend during the next week. In such a case, the cycle will start from (5) again, whenever the advisor and student feel they have addressed satisfactorily the concerns of their committee member(s).

7. The signed Physic Department Approval of Scheduling of Thesis Defense form will then be submitted to the Program Director who will, upon receipt of this form, make known to the thesis advisor and student the earliest date on which they are eligible to schedule a thesis defense.

8. Following the thesis defense, the committee members will render a decision as to the outcome of the defense in one of the two following ways:
   1. If they believe the student has satisfactorily defended his/her thesis and the thesis requires no modifications or only minor modifications, meaning that they wish to pass the student immediately, they will sign the CSH’s Final Requirements Report form found on the website for the CSH’s Office of Advising and Student Services.
   2. In all other cases, they will sign the Physics Department Interim Thesis Defense Report form. Further action will be determined by the actions recommended in this form.

9. The signed form (CSH Final Requirements Report or Physics Department Interim Thesis Defense Report) should be forwarded to the Program Director, the former for forwarding to the CSH’s Office of Advising and Student Services, the latter for student file purposes.

10. If, at any time during this period, the student and/or advisor reconstitute a committee by changing the committee members, the process will restart from (1) above. The only exception to this rule will be if a committee member (but not the Committee Chair) takes an emergency leave of absence or is otherwise unable to discharge their duties, in which case the process may be allowed to restart from (5) above with permission from the Graduate Committee.

---

**Program Graduate Academic Student Handbook**

**Probation**

A graduate student in the Physics department is subject to probation as soon as his/her cumulative graduate GPA falls below 2.75. The student remains on probation until four more courses are taken, at which time another evaluation is made. If, at that time, the student has failed to raise his/her cumulative GPA to the required level of 2.75 the student may be dismissed for poor scholarship, and prohibited from registering for additional course work.

**Dismissal**

A graduate student who is not making satisfactory progress toward the degree may be dismissed upon the recommendation of the Graduate Committee of the Physics Department. Instances of not making satisfactory progress toward the degree include being placed on probation for more than two consecutive quarters or taking four courses, whichever is later, failing grades in two or more graduate courses, or any other situation that has been deemed by a majority of the Graduate Committee to constitute an instance of not making satisfactory progress toward the degree.

**Readmission**

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the Dean of the College of Science and Health, would provide information that would demonstrate a change in the student’s circumstances to an extent that would support successful completion of the student’s degree program. The Dean’s decision, based upon the merits of the petition and the recommendation of the Graduate Committee of the Physics department, may, if favorable, stipulate conditions of reinstatement. The Dean has the discretion to reject the recommendation for reinstatement.
Transfer Credit

A maximum of three courses (12 quarter credit hours or the semester equivalent) may be transferred from another university or DePaul program, subject to the following: The determination of whether or not a particular course is deemed suitable for transfer will be made by the Program Director who may, at his/her discretion, consult the Graduate Committee for assistance in making this decision. Upon successful support, the request would be made to the Associate Dean for Graduate Studies for approval. Transfer credit can only be awarded for graduate level coursework which has not counted toward the completion of a degree at DePaul or any other institution.

Undergraduate Courses

Students who are deemed to have inadequate undergraduate preparation in physics may be required to take undergraduate courses in Physics. Such courses will be specified by the Program Director in consultation with the Graduate Committee. A maximum of two such courses as eight credit hours may be counted toward the graduate degree, but undergraduate courses cannot substitute for any required (core) courses in the graduate program.

Graduation Requirements

Requirements include, but are not limited to, earning a minimum cumulative GPA of 2.75, completing a minimum of 48 quarter hours as twelve graduate courses, and completing and defending a thesis.

Thesis

A thesis based on independent research in theoretical or experimental physics is generally required. An oral examination on the thesis is also required. The thesis and the defense will be evaluated by a committee consisting of three faculty members from the Physics department at DePaul, who may judge the thesis and/or oral examination to be satisfactory or may require the student to submit changes to the thesis, and go through more cycles of oral examination. Committee members from outside the Physics department (whether DePaul faculty, or external to DePaul) are allowed only by consent of the Program Director.

Thesis Proposal

A proposal (minimum one page) stating the broad outlines of the project, and signed by both the thesis advisor (deemed Thesis Committee Chair) and the student must be completed per the schedule below. A copy of this signed proposal, together with a copy of the Approval of Proposal for Final Project must be kept on file in the Physics department for reference. The thesis advisor may, at his/her discretion, prepare a longer, more comprehensive proposal.

Student plans oral defense of thesis no earlier than:  
Student must submit Thesis Proposal no later than:

Spring/Summer term of immediately following calendar year  
Autumn term

Winter term of immediately following calendar year  
Summer term

Autumn term of immediately following calendar year  
Winter term

The thesis proposal is a document that records the broad outline of the project only. The determination of when a student has completed the necessary work to be able to finish and defend the thesis will rest solely with the thesis advisor, and the thesis proposal cannot be used as a basis for determining the same. Changes to the thesis proposal may be carried out at the discretion of the thesis advisor. Changes proposed by the student will only be allowed if the thesis advisor agrees to make those changes.

Graduation with distinction

Graduating students will be deemed to have graduated with distinction if they earn a minimum cumulative GPA of 3.50 in coursework applied toward their graduate physics program and their thesis committee declares their project to have been completed with distinction (as evidenced by their signature on the Final Requirements Report form).

Time Limitation

Students pursuing a master's degree must complete all requirements for the master's degree within a maximum of six years from their first term of enrollment in the program.
Polymer and Coatings Science (MS)

The Master of Science in Polymer and Coatings Science is offered through the Department of Chemistry. The program requires 48 quarter hours.

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Program Specific Outcomes

Students will be able to:

- Perform statistical calculations related to analytical techniques.
- Use discipline specific computer tools such as ChemDraw.
- Use primary literature databases to research a topic in any of the sub-disciplines of chemistry, specifically to:
  - Choose relevant and higher impact published work on a topic.
  - Critically evaluate and extract the major findings of a paper.
  - Summarize the major findings and conclusions of selected papers concisely, accurately and effectively in written form.
  - Effectively present the summary orally.

Concentration Specific Outcomes

Thesis

Students will be able to:

- Provide context that explains/describes how the boundaries of knowledge are advanced through research.
- Explain the limitations of the research undertaken and suggest ways of overcoming these in future research.
- Disseminate the research results in publishable work such as a thesis of a standard which satisfies peer review.

Degree Requirements

Course Requirements

Core Courses (16 credit hours):

- CHE 422 INORGANIC STRUCTURE AND REACTIVITY
• CHE 450 ADVANCED MECHANISTIC ORGANIC CHEMISTRY
• CHE 452 ADVANCED SYNTHETIC ORGANIC CHEMISTRY
• Two 2-credit-hour special topics courses from the following list (2 courses/4 credit hours):
  o CHE 480 SPECIAL TOPICS IN ANALYTICAL CHEMISTRY
  o CHE 484 SPECIAL TOPICS IN INORGANIC CHEMISTRY
  o CHE 486 SPECIAL TOPICS IN ORGANIC CHEMISTRY
  o CHE 488 SPECIAL TOPICS IN PHYSICAL CHEMISTRY

Special topics courses may be repeated as long as the topic of the course is different.

**Non-Thesis Option: (32 credit hours):**

• CHE 430 POLYMER SYNTHESIS and CHE 431 POLYMER SYNTHESIS LABORATORY
• CHE 432 PHYSICAL CHEMISTRY OF POLYMERS
• CHE 434 POLYMER CHARACTERIZATION and CHE 435 POLYMER CHARACTERIZATION LABORATORY
• CHE 436 POLYMER TECHNOLOGY
• CHE 438 MATERIAL SCIENCE
• CHE 464 COATINGS SCIENCE AND TECHNOLOGY
• CHE 466 COATINGS PROPERTIES AND APPLICATIONS

**Thesis Option: (32 credit hours):**

Students interested in pursuing the Thesis Option would select any course combination from the **Non-Thesis Option** for 20 credit hours and the following:

• CHE 497 RESEARCH (12 credit hours)
• M.S. thesis students must write a thesis based on their research project and successfully defend their thesis.

---

**Student Handbook**

**Probation**

Students must maintain a minimum cumulative GPA of 2.75 to remain in good standing. A student whose cumulative GPA falls below 2.75 will be placed on academic probation.

**Dismissal**

Students on probation have at most one academic quarter to raise their cumulative GPA to at least a 2.75. If a student does not, then he/she may be dismissed for a violation of satisfactory progress.

All students are expected to adhere to the Code of Student Responsibility as outlined in the Graduate Student Handbook. Any violation of the Code of Student Responsibility is considered very serious and is grounds for probation or dismissal at the discretion of the Chemistry Graduate Committee or Dean of Students.

**Conditional Admission**

An applicant may be admitted conditionally to the program at the discretion of the Chemistry Graduate Committee for one or more of the following reasons:

• Undergraduate GPA is less than 2.75 but the student has shown considerable promise in other areas (such as research).
• The applicant is missing one or two of the required courses but otherwise has met all of the criteria for admission; the applicant will be required to complete the missing coursework either at DePaul or comparable institution as a condition prior to taking graduate courses for which the missing course(s) is(are) prerequisite.

The Chemistry Graduate Committee will consider other circumstances not included in the above list on an individual basis.

**Transfer Credit**
Up to 12 quarter hours (or semester equivalent) of coursework may be accepted as transfer credit towards the M.S. degree for courses taken at another institution or through another DePaul program that articulate with current courses in the chemistry graduate program. Credits applied toward the completion of a degree at DePaul or another institution will not be accepted as transfer credit. Written approval must come from graduate program director and associate dean for graduate studies.

**Graduation with Distinction**

Students may graduate "with distinction" by earning a minimum cumulative GPA of 3.75 for coursework applied toward the chemistry graduate program, or on the recommendation of the thesis defense committee.

**Time Limitation**

Students pursuing a master's degree must complete all requirements for the master's degree within a maximum of six years from their first term of enrollment in the program.

---

**Predictive Analytics (MS)**

Graduates of this program will obtain a variety of skills required for a career in predictive analytics, including the ability to analyze large datasets and to develop modeling solutions to support decision making, a good understanding of the fundamental principles of marketing and customer relationship management, and communication skills to present results effectively to a non-technical business audience. The program aims to prepare students with the required qualifications to become “data mining analysts/engineers" or predictive modelers”.

**Concentrations**

**Computational Methods Concentration**

The MS in Predictive Analytics - Computational Methods Concentration provides students with the knowledge and skills necessary to become successful professionals in the field of predictive analytics. The degree prepares students for a career as a data scientist, data miner or predictive modeler, a profession that is in high-demand and that offers many career opportunities. Graduates obtain the technical skills and the statistical and quantitative knowledge needed to manage and extract information from massive amounts of data. Students learn the newest tools and techniques to mine big data, and to help companies make sense of their data. Students gain practical experience in analytics by working on real data analysis projects sponsored by companies or as part of research projects, under the supervision of DePaul faculty. This concentration is recommended for students with programming experience.

**Health Care Concentration**

The Health Care concentration addresses the increasing need of data scientists responsible for gathering, integrating, analyzing and presenting health care data. Students will learn analytics methods to support clinical decision systems, to improve patients’ outcomes and patients’ experience, and to improve clinical care and costs.

**Hospitality Concentration**

The hospitality concentration addresses the increasing demand of data scientists that combine the computational skills to extract information from massive amounts of data with the competency in hospitality revenue analytics and optimization. The focus of this concentration is to teach students the analytics needs and challenges of the hospitality and tourism industry.

**Marketing Concentration**

The MS in Predictive Analytics - Marketing Concentration provides students with the quantitative knowledge and analytical skills necessary to become successful professionals in the field of predictive analytics. Students take courses in multivariate statistics, advanced data mining and machine learning together with courses in marketing analytics and customer relationship management to gain a deep understanding of the challenges and goals of business applications. The program teaches students the analytic skills that are needed to extract information from large amounts of data, to develop modeling solutions to support business decision making, and to present
results effectively to a non-technical business audience. Students gain practical experience in analytics by working on real data analysis projects sponsored by companies or as part of research projects under the supervision of DePaul faculty. The degree prepares students for a career as a data scientist, data miner or predictive modeler.

## Learning Outcomes

### Program Outcomes

Students will be able to:

- Write advanced SQL queries and stored procedures to preprocess data (using integration, cleaning and transformation) for visualization, modeling and interpretation.
- Identify appropriate database technologies to meet a set of requirements and to recommend possible solutions.
- Create predictive models using statistical, data mining and machine learning techniques, and evaluate and interpret such models to support fact-based decision making.
- Work both independently and in a team to solve large data analysis projects.
- Clearly communicate and present complex analytics results to business clients, using practical and simple business terms that can be understood by a general non-technical audience.
- Identify and evaluate appropriate data analytics techniques to be used depending on the specific information needs of the project.
- Use data visualization tools to communicate data mining results in an effective way.

### Concentration Specific Outcomes

#### Marketing Concentration

Students will be able to:

- Describe the business processes involved in marketing and customer relationship management and explain the role of analytical and predictive tools in these processes.

#### Computation Method Concentration

Students will be able to:

- Implement data mining and machine learning techniques using a high-level programming.

#### Hospitality Concentration

Students will be able to:

- Understand revenue management strategies and principles and develop hospitality analytics to support revenue optimization and decision making within the hospitality industry.

#### Health Care Concentration

Students will be able to:

- Understand principles of health information management, including private and government based models.
- Use analytics to inform health care strategies, policies, and clinical decisions.
Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory, Foundation, Advanced, and Elective course selections are determined by the concentration chosen.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Computational Methods
- Health Care
- Hospitality
- Marketing
Marketing Concentration

Course Requirements

Introductory Courses

- IT 403 STATISTICS AND DATA ANALYSIS
- CSC 412 TOOLS AND TECHNIQUES FOR COMPUTATIONAL ANALYSIS
- CSC 401 INTRODUCTION TO PROGRAMMING

Foundation Courses

- CSC 455 DATABASE PROCESSING FOR LARGE-SCALE ANALYTICS
- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 424 ADVANCED DATA ANALYSIS
- IS 467 FUNDAMENTALS OF DATA SCIENCE (Formerly IS 567)
- Choose one (1) course in applied analytics from among:
  - CSC 465 DATA VISUALIZATION
  - CSC 495 SOCIAL NETWORK ANALYSIS
  - ECT 584 WEB DATA MINING
  - CSC 575 INTELLIGENT INFORMATION RETRIEVAL

Advanced Courses

- MKT 555 DECISIONS IN MARKETING MANAGEMENT
- MKT 530 CUSTOMER RELATIONSHIP MANAGEMENT
- MKT 534 ANALYTICAL TOOLS FOR MARKETERS
- Choose one (1) course among the following:
  - MKT 529 PRECISION MARKETING
  - MKT 595 INTERNET AND INTERACTIVE MARKETING
  - MKT 798 SPECIAL TOPICS **Note MKT 798 must be approved by program coordinator.

Elective Courses

Students must take three (3) graduate level elective courses in the areas of statistical modeling, data mining or database technologies. Students must choose electives from the following list of courses:

- CSC 425 TIME SERIES ANALYSIS AND FORECASTING
- CSC 433 SCRIPTING FOR DATA ANALYSIS
- CSC 452 DATABASE PROGRAMMING
- CSC 465 DATA VISUALIZATION
- CSC 478 PROGRAMMING MACHINE LEARNING APPLICATIONS
- CSC 481 INTRODUCTION TO IMAGE PROCESSING
- CSC 482 APPLIED IMAGE ANALYSIS
- CSC 495 SOCIAL NETWORK ANALYSIS
- CSC 521 MONTE CARLO ALGORITHMS
- CSC 528 COMPUTER VISION
- CSC 529 ADVANCED DATA MINING
- CSC 543 SPATIAL DATABASES & GEOGRAPHIC INFORMATION SYSTEMS
- CSC 555 MINING BIG DATA
- CSC 575 INTELLIGENT INFORMATION RETRIEVAL
- CSC 576 COMPUTATIONAL ADVERTISING
- CSC 578 NEURAL NETWORKS AND DEEP LEARNING
- CSC 594 TOPICS IN ARTIFICIAL INTELLIGENCE
- CSC 598 TOPICS IN DATA ANALYSIS
- DSC 430 PYTHON PROGRAMMING
- ECT 584 WEB DATA MINING
- GEO 441 GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT
- GEO 442 GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT
- GPH 565 DESIGNING FOR VISUALIZATION
- HCI 512 INFORMATION VISUALIZATION AND INFOGRAPHICS
- IPD 451 BIG DATA AND NOSQL PROGRAM
- IS 549 DATA WAREHOUSING
- IS 574 BUSINESS INTELLIGENCE
Capstone Options

Students have the option of completing a real world Data Analytics Project, or completing the Predictive Analytics Capstone course, or participating in a Data Analytics Internship or completing a Master's Thesis to fulfill their Capstone requirement.

- Data Analytics Project
  - The real data analytics project is for students who are interested in working in a small team on a research project under the supervision of a CDM faculty. A list of available projects is published on the dampa center website (http://dampa.cdm.depaul.edu). Students who are interested in proposing their own data analytics project are encouraged to contact a CDM faculty member teaching analytics courses as soon as possible. Students must enroll in CSC 695 MASTER'S RESEARCH for a total of 4 credit hours taken in two consecutive quarters (2 credit hours for 2 quarters) to satisfy the capstone requirement. The faculty who supervises the project will initiate enrollment in the CSC 695 course.

- Predictive Analytics Capstone course
  - CSC 672 PREDICTIVE ANALYTICS CAPSTONE course offers the opportunity of working on an analytics project in a more structured class format. Students enrolled in the courses will be working in teams on a data analytics project under the supervision of the course instructor.

- Analytics Internship
  - An internship offers students the opportunity to integrate their academic experience with on-the-job training in an analytics related field. Students must enroll in CSC 697 GRADUATE INTERNSHIP for 4 credit hours to satisfy the practicum requirement. These are the steps: 1) Secure an internship with focus in analytics. 2) International Students must obtain the appropriate practical training form and meet with an advisor in the CDM Academic Center for approval. (http://oiss.depaul.edu/Requests/Forms/index.asp) 3) Login to MyCDM and click the "MyInternships" link on the left to start the course enrollment process.

- Master's Thesis
  - A student who has made an original contribution to the area (typically, through work done by CSC 695 MASTER’S RESEARCH) may choose to complete a Master's Thesis. The student and the student's research advisor should form a Master's Thesis Committee of 3 faculty. The student will need to submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis. In that case, the student will be allowed to register for the 0 credit hour course CSC 698 MASTER'S THESIS and the transcript will show the thesis title as the course topic.

Hospitality Concentration

Computational Methods Concentration

Course Requirements

Introductory Courses

- IT 403 STATISTICS AND DATA ANALYSIS
- CSC 412 TOOLS AND TECHNIQUES FOR COMPUTATIONAL ANALYSIS
- CSC 401 INTRODUCTION TO PROGRAMMING

Foundation Courses

- CSC 455 DATABASE PROCESSING FOR LARGE-SCALE ANALYTICS
- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 424 ADVANCED DATA ANALYSIS
Choose one (1) course in applied analytics from among the following:
- CSC 465 DATA VISUALIZATION
- CSC 495 SOCIAL NETWORK ANALYSIS
- ECT 584 WEB DATA MINING
- CSC 575 INTELLIGENT INFORMATION RETRIEVAL

**Advanced Courses**

- CSC 478 PROGRAMMING MACHINE LEARNING APPLICATIONS
- CSC 555 MINING BIG DATA
- CSC 529 ADVANCED DATA MINING

Choose one (1) course among the following:
- CSC 521 MONTE CARLO ALGORITHMS
- CSC 575 INTELLIGENT INFORMATION RETRIEVAL
- CSC 578 NEURAL NETWORKS AND DEEP LEARNING

**Elective Courses**

Students must take two (2) graduate-level elective courses in the areas of statistical modeling, data mining or database technologies. Students must choose electives from the following list of courses:

- CSC 425 TIME SERIES ANALYSIS AND FORECASTING
- CSC 433 SCRIPTING FOR DATA ANALYSIS
- CSC 452 DATABASE PROGRAMMING
- CSC 465 DATA VISUALIZATION
- CSC 478 PROGRAMMING MACHINE LEARNING APPLICATIONS
- CSC 481 INTRODUCTION TO IMAGE PROCESSING
- CSC 482 APPLIED IMAGE ANALYSIS
- CSC 495 SOCIAL NETWORK ANALYSIS
- CSC 521 MONTE CARLO ALGORITHMS
- CSC 528 COMPUTER VISION
- CSC 529 ADVANCED DATA MINING
- CSC 543 SPATIAL DATABASES & GEOGRAPHIC INFORMATION SYSTEMS
- CSC 555 MINING BIG DATA
- CSC 575 INTELLIGENT INFORMATION RETRIEVAL
- CSC 576 COMPUTATIONAL ADVERTISING
- CSC 577 RECOMMENDER SYSTEMS
- CSC 578 NEURAL NETWORKS AND DEEP LEARNING
- CSC 594 TOPICS IN ARTIFICIAL INTELLIGENCE
- CSC 598 TOPICS IN DATA ANALYSIS
- ECT 584 WEB DATA MINING
- GEO 441 GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT
- GEO 442 GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT
- GPH 565 DESIGNING FOR VISUALIZATION
- HCI 512 INFORMATION VISUALIZATION AND INFOGRAPHICS
- IPD 451 BIG DATA AND NOSQL PROGRAM
- IS 549 DATA WAREHOUSING
- IS 574 BUSINESS INTELLIGENCE
- IS 578 INFORMATION TECHNOLOGY CONSULTING
- MGT 559 HEALTH SECTOR MANAGEMENT
- MGT 798 SPECIAL TOPICS: MANAGERIAL & MARKETING EPIDEMIOLOGY
- MKT 555 DECISIONS IN MARKETING MANAGEMENT
- MKT 530 CUSTOMER RELATIONSHIP MANAGEMENT
- MKT 534 ANALYTICAL TOOLS FOR MARKETERS
- MKT 595 INTERNET AND INTERACTIVE MARKETING
- MKT 798 SPECIAL TOPICS: SERVICE DESIGN & PATIENT EXPERIENCE
- MKT 798 SPECIAL TOPICS: HEALTH CARE DATA ANALYSIS

**Capstone Options**

Students have the option of completing a real world Data Analytics Project, or completing the Predictive Analytics Capstone course, or participating in a Data Analytics Internship or completing a Master's Thesis to fulfill their Capstone requirement.

- Data Analytics Project
  - The real data analytics project is for students who are interested in working in a small team on a research project under the supervision of a CDM faculty. A list of available projects is published on
the dampa center website (http://dampa.cdm.depaul.edu). Students who are interested in proposing their own data analytics project are encouraged to contact a CDM faculty member teaching analytics courses as soon as possible. Students must enroll in CSC 695 MASTER’S RESEARCH for a total of 4 credit hours taken in two consecutive quarters (2 credit hours for 2 quarters) to satisfy the capstone requirement. The faculty who supervises the project will initiate enrollment in the CSC 695 course.

- Predictive Analytics Capstone course
  - CSC 672 PREDICTIVE ANALYTICS CAPSTONE course offers the opportunity of working on an analytics project in a more structured class format. Students enrolled in the courses will be working in teams on a data analytics project under the supervision of the course instructor.

- Master's Thesis
  - A student who has made an original contribution to the area (typically, through work done by CSC 695 MASTER’S RESEARCH) may choose to complete a Master's Thesis. The student and the student's research advisor should form a Master's Thesis Committee of 3 faculty. The student will need to submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis. In that case, the student will be allowed to register for the 0 credit hour course CSC 698 MASTER’S THESIS and the transcript will show the thesis title as the course topic.

**Psychological Science (MA)/(PhD)**

The Psychological Science Program is one of four MA/PhD programs in the Department of Psychology at DePaul University. The program prepares students for future employment in a wide variety of scientific, academic and applied settings. The psychological science faculty consists of members who conduct research in cognition, cognitive neuroscience, developmental psychology (infant, child, adolescent, and lifespan), social cognition, and social psychology.

Research experience is an integral part of the training and begins in the first year under the guidance of a faculty advisor. During their first two years, students plan and conduct research toward their master's thesis. Research for the dissertation usually begins during the third year. The program incorporates skills within the major content areas in psychology, and thereby qualifies students to work in a broad range of academic, research and business settings. Students are supported with competitive stipend levels.

</tr>
</thead>
<tbody>
<tr>
<td>Additional PhD Degree Requirements</td>
<td>28 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>76 hours</strong></td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Identify major theoretical concepts in psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how the field of psychology currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Develop testable research questions, identify the strengths and limitations of research designs and data.
analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature.

- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.
- Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals.
- Develop strategies for planning and engaging in professional development to acquire new skills and refresh and consolidate knowledge in accord with department, university and APA standards of professionalism.

MA/ PhD Degree Requirements

The Psychological Science MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

MA Course Requirements

The MA portion of the combined degree program requires a minimum of 48 quarter hours beyond the completion of a bachelor's degree.

Fundamental Courses

- PSY 406 PHYSIOLOGICAL PROCESSES
- PSY 410 ADVANCED STATISTICS I
- PSY 411 ADVANCED STATISTICS II
- PSY 420 QUANTITATIVE RESEARCH DESIGN
- Two of the following courses:
  - PSY 418 MULTIVARIATE STATISTICAL ANALYSIS
  - PSY 419 FACTOR ANALYSIS AND PATH MODELING
  - PSY 450 PSYCHOLOGICAL MEASUREMENT

Cognitive Seminar Courses

- One of the following courses:
  - PSY 404 PERCEPTION AND COGNITION
  - PSY 426 LANGUAGE AND COGNITION
  - PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING

Developmental Seminar Courses

- One of the following courses:
  - PSY 439 COGNITIVE DEVELOPMENT
  - PSY 554 EMOTIONAL DEVELOPMENT
  - PSY 555 SOCIAL DEVELOPMENT

Social Seminar Courses

- One of the following courses:
  - PSY 430 SOCIAL PSYCHOLOGY OF THE SELF
  - PSY 556 PREJUDICE AND INTERGROUP RELATIONS
  - PSY 560 SOCIAL COGNITION

Elective Course

One elective course required, taken during any quarter. The elective can be any graduate-level psychology course, or any graduate-level non-psychology course, with permission from the faculty advisor or program director.

Recommended:
PSY 418 MULTIVARIATE STATISTICAL ANALYSIS, PSY 419 FACTOR ANALYSIS AND PATH MODELING, or PSY 450 PSYCHOLOGICAL MEASUREMENT (cannot count towards core requirements listed above if taken as an elective)

PSY 435 PSYCHOLOGY OF INTERPERSONAL RELATIONS
PSY 592 DIRECTED RESEARCH (Independent Study)
PSY 594 DIRECTED READINGS IN PSYCHOLOGY (Independent Study)

Professional Development

PSY 588 TOPICS IN PSYCHOLOGICAL SCIENCE I (0 credit hours)
PSY 589 TOPICS IN PSYCHOLOGICAL SCIENCE II

Research Course

PSY 597 MASTER'S THESIS RESEARCH

Master's Research Thesis

Students must complete a thesis on a topic approved by the department. Research experience is considered an integral part of the training and will begin in the first year. Students are expected to begin directed research during their first year under the supervision of an advisor. During their second year, students are expected to conduct research and complete their master’s thesis. Research experience during the third year might involve a continuation of the line of research initiated in the thesis project.

Master's Thesis Examination

An oral examination may be, but is not necessarily limited to, a defense of the student’s thesis.

PhD Course Requirements

The PhD portion of the combined degree program requires a minimum of 28 quarter hours beyond the completion of the master’s degree, including four quarter hours of dissertation research. The following requirements must be completed to confer the PhD.

Cognitive Seminar Courses

- Two of the following courses (not taken towards the MA):
  - PSY 404 PERCEPTION AND COGNITION
  - PSY 426 LANGUAGE AND COGNITION
  - PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING

Developmental Seminar Courses

- Two of the following courses (not taken towards the MA):
  - PSY 439 COGNITIVE DEVELOPMENT
  - PSY 554 EMOTIONAL DEVELOPMENT
  - PSY 555 SOCIAL DEVELOPMENT

Social Seminar Courses

- Two of the following courses (not taken towards the MA):
  - PSY 430 SOCIAL PSYCHOLOGY OF THE SELF
  - PSY 556 PREJUDICE AND INTERGROUP RELATIONS
  - PSY 560 SOCIAL COGNITION

Professional Development

- Optional: PSY 550 SEMINAR IN TEACHING PSYCHOLOGY (3 quarters, 0 credit hours; beginning winter quarter after successful defense of master's thesis)

Research Course

- PSY 599 DOCTORAL DISSERTATION RESEARCH
Areas of Specialization

The psychological science faculty consists of members from each of the following major experimental areas: cognition, cognitive neuroscience, developmental psychology (infant, child, adolescent, and lifespan), social cognition, and social psychology. Students may specialize in an area in which a faculty member has expertise.

Doctoral Candidacy Examination (Comprehensive Examination or Alternative Project)

This requirement is completed after the student has defended the master's thesis and before defense of the dissertation proposal.

Admission to Doctoral Candidacy

Formally given to the student with satisfactory coursework performance who has successfully completed the master’s thesis and passed the Doctoral Candidacy Examination. The candidate has no more than five years from the date of admission to doctoral candidacy to complete the PhD requirements or dismissal from the program will ensue.

Students denied candidacy will be required to withdraw from the program or withdraw after completion of the MA.

Dissertation

Departmental committee approval and acceptance of topic and outline of dissertation given only after admission to doctoral candidacy. Research for the dissertation should normally be completed during the student's fourth year in the program.

Oral Examination

Student to defend his or her dissertation and to show competence in the general field of psychology and in the area of specialization.

Time Limitations

- No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
- No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.

Program Graduate Academic Student Handbook

Minimum Grades

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.
2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.
3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.
4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student’s program to hear the appeal. Depending on the student’s academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

Probation

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.20. If a student’s cumulative GPA falls below this minimum, the student will be put on probation and will have one quarter to raise their cumulative GPA to at least a 3.20 or face dismissal from the program. If the student raises his/her cumulative GPA to at least a 3.20, but it falls below the minimum a second time, he or she will be dismissed from the program.

Dismissal

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

Time Limitations

Students must complete their MA degree requirements prior to completing their requirements for admission to doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program (i.e., successful completion of the doctoral candidacy examination/project), and no less than eight months and no more than five years may pass between admission to candidacy and the final examination (i.e., the oral dissertation defense).

Students are required to meet the timelines specified by the program even if the timeline is more stringent than the College timeline. Failure to do so could result in dismissal.

Extensions on these timelines must be requested in writing to both the department (Program Director) and the college (to the Dean) and must be approved at both levels. Students must complete all requirements for the degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.

Graduation with Distinction for MA

The criteria for graduating “with distinction” are a minimum cumulative GPA of 3.75 and the recommendation of “with distinction” by the thesis committee.

Psychology (MS) - Terminal

This program offers a terminal Master of Science degree which prepares the student for a range of occupations in business, government, and human services, but excludes the provision of clinical services. In addition, it provides the student with the basic knowledge and skills appropriate for a graduate education which may serve as a foundation for programs offering doctoral training.

The Master’s program has two goals. The first is to provide the student with sufficient breadth in the methodology and content of psychology to demonstrate competence in two major areas: (1) Core areas of the discipline of psychology; and (2) Methods of the discipline of psychology. A second goal of the program is to provide the student with sufficient information and skills to apply the knowledge of the discipline competently in
their daily lives and careers. This includes course work in the theory and techniques of the application of psychological principles, and also includes a thorough grounding in ethical and professional standards of psychologists. Although the program builds upon a core of basic courses, it provides some flexibility for students (with the approval of their advisors) to shape their course of study to fit special interests and needs.

</tr>
</thead>
<tbody>
<tr>
<td>Elective Requirements</td>
<td>8 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td>48 hours</td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Identify major theoretical concepts in psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how the field of psychology currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Develop testable research questions, identify the strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature.
- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.
- Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals.
- Develop strategies for planning and engaging in professional development to acquire new skills and refresh and consolidate knowledge in accord with department, university and APA standards of professionalism.

### MS Degree Requirements

#### Course Requirements

Students must complete at least 48 quarter hours and maintain a cumulative GPA of at least 3.20.

#### Core Courses

- PSY 406 PHYSIOLOGICAL PROCESSES
- PSY 410 ADVANCED STATISTICS I
- PSY 411 ADVANCED STATISTICS II
- PSY 420 QUANTITATIVE RESEARCH DESIGN
- Choose one course from the following list:
  - PSY 439 COGNITIVE DEVELOPMENT
  - PSY 554 EMOTIONAL DEVELOPMENT
  - PSY 555 SOCIAL DEVELOPMENT
- Choose one course from the following list:
  - PSY 404 PERCEPTION AND COGNITION
  - PSY 426 LANGUAGE AND COGNITION
  - PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING
- Choose one course from the following list:
  - PSY 430 SOCIAL PSYCHOLOGY OF THE SELF
  - PSY 556 PREJUDICE AND INTERGROUP RELATIONS
  - PSY 560 SOCIAL COGNITION
Diversity Core Courses

- Choose one course from the following list:
  - PSY 520 PRINCIPLES OF HUMAN DIVERSITY
  - PSY 521 PSYCHOLOGY OF THE AFRICAN-AMERICAN CHILD
  - PSY 561 ADVANCED PSYCHOLOGY OF WOMEN AND GENDER
  - PSY 554 EMOTIONAL DEVELOPMENT
  - PSY 555 SOCIAL DEVELOPMENT
  - PSY 556 PREJUDICE AND INTERGROUP RELATIONS

Graduate Capstone

- PSY 597 MASTER’S THESIS RESEARCH: empirical only
  or PSY 592 DIRECTED RESEARCH: empirical only

Sample Psychology Elective Courses

- Choose three courses from the following list:
  - PSY 416 METHODS IN QUALITATIVE RESEARCH
  - PSY 418 MULTIVARIATE STATISTICAL ANALYSIS
  - PSY 419 FACTOR ANALYSIS AND PATH MODELING
  - PSY 422 COMPUTING FOR THE BEHAVIORAL SCIENTIST
  - PSY 435 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIPS
  - PSY 440 PSYCHOLOGY OF WORK AND MOTIVATION
  - PSY 441 PSYCHOLOGY OF LEADERSHIP
  - PSY 442 PERSONNEL PSYCHOLOGY
  - PSY 444 PERFORMANCE APPRAISAL
  - PSY 446 PSYCHOLOGICAL THEORIES OF ORGANIZATIONS
  - PSY 448 CONCEPTS, METHODS, AND ETHICS FOR INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY
  - PSY 450 PSYCHOLOGICAL MEASUREMENT
  - PSY 461 ETHICS & HISTORY OF PSYCHOLOGY SEMINAR
  - PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING
  - PSY 486 ADVANCED PSYCHOPATHOLOGY
  - PSY 487 PSYCHOPATHOLOGY OF THE CHILD
  - PSY 491 TREATMENT METHODS WITH CHILDREN
  - PSY 492 PRINCIPLES OF CONSULTATION
  - PSY 493 ADVANCED COMMUNITY PSYCHOLOGY
  - PSY 511 HEALTH PSYCHOLOGY
  - PSY 554 EMOTIONAL DEVELOPMENT
  - PSY 555 SOCIAL DEVELOPMENT
  - PSY 556 PREJUDICE AND INTERGROUP RELATIONS
  - PSY 558 SEMINAR IN ADVANCED STATISTICS
  - PSY 559 SEMINAR IN INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY
  - PSY 560 SOCIAL COGNITION
  - PSY 680 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY

With the permission of the Program Director, students may be able to substitute other psychology or non-psychology courses for the diversity and elective requirements detailed above.

Additional Requirements

In addition, program requirements include two options for demonstrating successful completion of the program: 1) a traditional master’s thesis involving an empirical study; or 2) a research study or program evaluation “Capstone” project based on the student's internship or employment experience. Upon completion of coursework, students are required to maintain active student registration status until graduation.

Time Limitation

All degree requirements must be successfully completed within a maximum period of five years.
Program Graduate Academic Student Handbook

Minimum Grades

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.

2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student's record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student's advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.

4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student's program to hear the appeal. Depending on the student's academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master's degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

Probation

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.20. If a student's cumulative GPA falls below this minimum, the student will be put on probation and will have one quarter to raise their cumulative GPA to at least a 3.20 or face dismissal from the program. If the student raises his/her cumulative GPA to at least a 3.20, but it falls below the minimum a second time, he or she will be dismissed from the program.

Dismissal

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

Graduation with Distinction for MS

The criteria for graduating "with distinction" are a minimum cumulative GPA of 3.75 and the recommendation of "with distinction" by the thesis committee.

Time Limitation

Students must complete their degree requirements within a five-year period from the first registration date for a course in the program.
Public Administration (MPA)

The Master of Public Administration (MPA) at DePaul University is designed for current government professionals or individuals seeking to pursue a career in the public sector. The degree equips students with a broad public administration knowledge in government—local, state, federal and international.

The MPA program offers three specializations: public management; international public management; and metropolitan planning and urban affairs. The specializations are offered completely online as well as on-site.

This degree is accredited by Network of Schools of Public Policy, Affairs and Administration (NASPAA).

The Master of Public Administration may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MPA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Public Administration + Community Development Certificate
- Public Administration + Metro Planning and Development Certificate
- Public Administration + Global Health Certificate
- Public Administration + Social Research Certificate
- Public Administration + Women's and Gender Studies Certificate

Mission Statement

The Master in Public Administration educates ethical leaders to work in local, state and federal government. Through our cross-sectorial approach to learning, research, and service we help government leaders to connect domestic and global issues, alleviate poverty, and build responsive government. We promote compassion for marginalized communities and service to all people with accountability, justice, professionalism, sensitivity, and transparency.

<table>

</tr>
</thead>
<tbody>
<tr>
<td>Concentration Requirements</td>
<td>12 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>52 hours</strong></td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Clearly explain to stakeholders key public issues both orally and in writing and detail their impact on the public at large.
- Use an ethical framework to analyze an ethical dilemma within the political context of a government institution.
- Distinguish the interactive roles that government organizations play in the business and non-profit sectors in planning and delivering public services.
- Apply leadership theories and techniques in managing and governing a public organization.
- Develop a research question regarding a governmental issue, collect relevant data, and resolve the question.
Degree Requirements

Course Requirements

Students complete a total of 13 courses (52 credit hours). Ten courses (40 credit hours) of core course work and three courses (12 credit hours) in a specialization are required.

Core Courses

- MPS 500 INTRODUCTION TO PUBLIC SERVICE MANAGEMENT
- MPS 501 CROSS-SECTOR ANALYSIS
- MPS 514 GOVERNMENT FINANCIAL ADMINISTRATION
- MPS 522 FUNDAMENTALS OF HUMAN RESOURCE MANAGEMENT
- MPS 533 APPLIED STATISTICS FOR PUBLIC SERVICE
- MPS 541 ECONOMIC FOUNDATIONS OF PUBLIC SERVICE
- MPS 542 POLICY DESIGN AND ANALYSIS
- MPS 583 RESEARCH METHODS FOR PUBLIC SERVICE
- MPS 593 INTEGRATIVE SEMINAR
- MPS 594 ETHICAL LEADERSHIP IN PUBLIC SERVICE

Specialization

Students in this program are required to choose a specialization: Emergency Management, Metropolitan Planning and Urban Affairs, International Public Management, and Public Management. Students interested in pursuing the online degree may choose between the Metropolitan Planning and Urban Affairs, International Public Management, or Public Management specializations.

Thesis Option

Students with a cumulative GPR of 3.5 or above may choose the thesis option and replace MPS 593 with MPS 598 THESIS

Internship Requirement

Students are required to complete substantial professional experience in a government setting. Students with such experience, or have professional or economic constraints, may request a waiver by submitting a letter describing their circumstances. Otherwise, students will be required to complete an internship.

Specialization Requirements

Emergency Management Specialization

Emergency Management is a critical concern for the public, private and non-profit sectors. Both the conceptual
and practical implementation sides of homeland security and emergency preparedness rest at the intersection of national defense, law enforcement, and emergency preparedness. This specialization will provide students with both theoretical and practical knowledge that will prepare them for private or public sector employment in the area of emergency preparedness for both security and non-security related incidents.

- **MPS 554 PRINCIPLES OF EMERGENCY MANAGEMENT AND PLANNING**
- **MPS 564 PUBLIC SAFETY ADMINISTRATION AND PLANNING**
- One elective chosen from the following list:
  - MPS 532 GRANTS AND CONTRACTS IN PUBLIC MANAGEMENT
  - MPS 552 GIS FOR COMMUNITY DEVELOPMENT
  - PRAD 540 CRISIS COMMUNICATION MANAGEMENT

**International Public Management Specialization**

Students intending to work in international organizations require a special understanding of how public and non-profit institutional structures and managerial processes vary around the world. This concentration emphasizes the interdependence of government and non-government organizations (NGOs), while addressing a variety of management, ethics, and policy issues.

- **MPS 612 INTERNATIONAL POLITICAL ECONOMY**
- **MPS 616 INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT**
- One elective chosen from the following list:
  - MPS 511 SUSTAINABLE INTERNATIONAL DEVELOPMENT
  - MPS 516 MANAGEMENT OF INFORMATION TECHNOLOGY
  - MPS 552 GIS FOR COMMUNITY DEVELOPMENT
  - MPS 573 HOUSING AND COMMUNITY DEVELOPMENT
  - MPS 575 SEMINAR IN ADMINISTRATION/BRUSSELS
  - MPS 597 PUBLIC SERVICE FELLOWS SEMINAR
  - MPS 611 MANAGEMENT OF INTERNATIONAL NGOs
  - MPS 615 MANAGEMENT OF INTERCULTURAL DIVERSITY

**Metropolitan Planning and Urban Affairs Specialization**

This specialization is for students wanting to work in land use, transportation, economic development, zoning, housing, and other areas of community development. Coursework emphasizes the technical skills of public administration and the tools of analyses and development as applied in a broad public setting. Students study best practices to illustrate the effectiveness of alternative designs and models.

- **MPS 571 METROPOLITAN PLANNING**
- **MPS 573 HOUSING AND COMMUNITY DEVELOPMENT**
- One elective chosen from the following list:
  - MPS 516 MANAGEMENT OF INFORMATION TECHNOLOGY
  - MPS 526 LOCAL GOVERNMENT ADMINISTRATION
  - MPS 552 GIS FOR COMMUNITY DEVELOPMENT
  - MPS 560 ADMINISTRATIVE LAW
  - MPS 572 POVERTY, INEQUALITY AND PUBLIC POLICY
  - MPS 575 SEMINAR IN ADMINISTRATION/BRUSSELS
  - MPS 597 PUBLIC SERVICE FELLOWS SEMINAR
  - MPS 604 SPECIAL TOPICS

**Public Management Specialization**

For those who aspire to become city managers, chief administrative officers, department directors, and senior project managers, this specialization focuses on the roles, requirements, challenges, and processes of running a public organization. Students gain the knowledge and skills needed to work successfully with professional staff, an elected governing board, consultants, and the public in the implementation of broad policy decisions. Legal issues of interest to public managers are also included.

- **MPS 526 LOCAL GOVERNMENT ADMINISTRATION**
- **MPS 560 ADMINISTRATIVE LAW**
- One elective chosen from the following list:
  - MPS 516 MANAGEMENT OF INFORMATION TECHNOLOGY
  - MPS 520 VALUES-CENTERED LEADERSHIP
  - MPS 529 STRATEGIC MANAGEMENT AND PLANNING
  - MPS 543 POLICY IMPLEMENTATION
  - MPS 546 ADVOCACY AND LOBBYING
  - MPS 552 GIS FOR COMMUNITY DEVELOPMENT
**Student Handbook**

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

**Academic Probation**

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

**Dismissal**

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

**Readmission**

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

**Graduation Requirements**

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

**Non-Degree Seeking Students**

While MPS courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

**Master of Public Health (MPH)**

The Master of Public Health (MPH) program prepares public health leaders to work collaboratively with diverse communities to prevent disease and ill-health, prioritize and investigate health concerns, achieve lasting social change, and foster health equity to promote the health and well-being of all people. The MPH program has one
focus, community health practice, and students will master the breadth of public health subject matter necessary for practice in this field. It is fully accredited by the Council on Education for Public Health, and 56 credit hours are required for program completion.

One of the program's distinctive aspects is its community-based practicum and corresponding capstone course sequence which is completed during the students' final year of the program. The practicum constitutes nine months of professional community health-focused practice and provides students with a structured, comprehensive, and integrated application of their MPH course work. This experience culminates in the creation of a capstone thesis, a capstone product, and a formal presentation through a three-course capstone sequence.

Additional features unique to DePaul's MPH program include: a cohort-based learning model (including admitting students once per year); small class sizes; integrated field work and classroom learning in the practicum and capstone course sequence; ideal for working professionals--courses are offered in the evening; students can complete the degree in two, three, or four years; and a multidisciplinary perspective that prepares students to address the complexities of community health.

The Master of Public Health may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MPH/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in the following combination programs should contact the Graduate Student Services Office for additional information.

- Public Health + Global Health Certificate

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>56 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>56 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Utilize data to understand public health problems
- Apply public health methods and concepts to describe the occurrence and distribution of health outcomes
- Design, implement, and evaluate public health initiatives designed to bring about improved health
- Analyze multiple determinants of health outcomes
- Apply scientific tools and methods to the practice of public health
- Apply ethical approaches to public health practice
- Understand the organizational context of public health service delivery
- Work in a culturally and contextually responsive manner with diverse populations
- Identify strategies to develop sustainable partnerships
- Translate public health findings into policy and advocacy recommendations

Degree Requirements

Students must complete 56 quarter hours consisting of 14 required courses and two elective courses. All MPH courses are offered during the evening. The program uses a cohort-based model in that students are admitted once per academic year and move through courses together as a single group. Students can complete their degree in two, three, or four years. Students complete the practicum field experience and capstone course sequence in their last year.
Course Requirements

- MPH 501 INTRODUCTION TO PUBLIC HEALTH
- MPH 502 INTRODUCTION TO EPIDEMIOLOGY
- MPH 503 INTRODUCTION TO ENVIRONMENTAL HEALTH
- MPH 511 HEALTH AND BEHAVIOR THEORY
- MPH 512 RESEARCH METHODS
- MPH 513 PUBLIC HEALTH ADMINISTRATION
- MPH 522 PROGRAM DEVELOPMENT AND GRANT WRITING
- MPH 525 PROGRAM EVALUATION
- MPH 541 BIOSTATISTICS
- MPH 602 COMMUNITY HEALTH ASSESSMENT
- MPH 603 COMMUNITY HEALTH PROJECT DESIGN
- MPH 604 CAPSTONE SEMINAR IN COMMUNITY PUBLIC HEALTH
- MPH 600 PREPARATION FOR PUBLIC HEALTH PRACTICE (0 credit course)
- MPH 699 COMMUNITY HEALTH PRACTICUM (0 credit course)

Elective Courses

Two elective courses, comprising eight credit hours, are required. Students are encouraged to select elective courses that align with their public health interests and career objectives. In addition to the MPH elective courses listed below, students should consider other graduate-level courses at DePaul. A student who chooses to take a course outside of MPH for elective credit must produce a brief rationale for the choice, discussing its relevance to the field of public health and the student's course of study. Students must receive approval from the Program Director before enrolling in elective courses outside the MPH program.

- MPH 551 GLOBAL HEALTH INEQUITIES
- MPH 552 MATERNAL AND CHILD HEALTH
- MPH 553 PUBLIC HEALTH AND FORCED MIGRATION
- MPH 554 GLOBAL PUBLIC HEALTH PRACTICE
- MPH 556 WOMEN'S HEALTH
- MPH 557 ENVIRONMENTAL EPIDEMIOLOGY
- MPH 595 SPECIAL TOPICS IN PUBLIC HEALTH
- MPH 599 INDEPENDENT STUDY IN PUBLIC HEALTH

Practicum Requirements

Students complete their practicum field experience during their last year in the program. Students are required to commit to 8-10 hours per week to their practicum site, for a total of 250-300 hours over the course of the nine-month placement. Students are required to be physically onsite at the agency for the majority of these hours.

Student Handbook

Mission Statement

The mission of the Master of Public Health Program at DePaul University is to prepare public health leaders to work collaboratively with diverse communities to prioritize and investigate health concerns, achieve lasting social change, and foster health equity to promote the health and well-being of all people.

Admissions

Please see the Admissions Requirements on the MPH webpage.

Advising
MPH students receive three levels of advising through the Technical Advisor, Practicum Advisor, and Professional Advisor as described below:

- **Technical Advisor**: MPH students are assigned a technical advisor upon entering the program and are required to meet with him/her each quarter. The technical advisor assists students with curriculum planning, selecting electives, navigating the University, and providing overall assistance to ensure student success.
- **Practicum Advisor**: The practicum advisor is the Director of Community Partnerships. MPH students work with the practicum advisor regarding their practicum, capstone product, and capstone poster.
- **Professional Advisor**: The professional advisor is a faculty member identified by the student as being able to offer valuable advice on professional development and career planning.

**Transfer Credit**

We do not accept prior academic credit towards the completion of an MPH degree. All students are required to complete the 56 credit hours at DePaul.

**Graduation with Distinction**

In order to graduate with distinction from the MPH program, students must earn both a 3.75 cumulative GPA and a grade of distinction on their capstone thesis.

**Degree Timeline**

Upon matriculation, students meet with the technical advisor to create their course plan based on anticipated graduation date (2, 3, or 4 years). Continual assessment of completion date is encouraged, and any changes will be discussed and implemented through the technical advisor. The technical advisor also assists with elective selection and enrollment.

**Credit Hours and Enrollment Requirements**

Students are required to take a total of 56 quarter credit hours to complete the MPH program. Full-time study is at least eight (8) quarter hours plus practicum during the final year. Most courses earn four (4) credit hours each.

In order to take a full course load in the Autumn quarter of any year, students must have no more than one incomplete grade in formal coursework from the previous academic year. For each incomplete over one, the student must reduce his/her course load by one course. The student will have such a reduced course load for each subsequent quarter until no more than one incomplete remains. MPH students with two or more incompletes are prohibited from taking more than one course per quarter until the incompletes are resolved. The University policy, applicable to all MPH students, regarding incompletes states the following:

"Undergraduate and graduate students have at most two quarters to complete an incomplete. At the end of the second quarter (excluding summer) following the term in which the incomplete grade was assigned, the incomplete will automatically convert to an F grade."

**Academic Standing**

Students must maintain a GPA of 3.0 or better to remain in good standing with the program. Any course grade below B- is unsatisfactory and will not be counted toward degree requirements. Students who are not in good academic standing—including but not limited to students with IN (incomplete) or R (ongoing research) grades in any courses and students on academic probation—are prohibited from starting practicum-related activities. Degree conferral will be delayed as a result of any issues in beginning or completing the practicum.

**MPH Requirements for Degree Conferral**

In order to be eligible for MPH degree conferral, students must:

- Submit all required paperwork to LAS by the College's deadlines
- Submit all required paperwork to MPH by the Program's deadlines
- Successfully complete the required 56 credit hours in 2, 3, or 4 years
- Have a cumulative GPA of 3.0 or higher
- Achieve a grade of B- or higher in all courses
- Have a grade of Pass for MPH 600 and MPH 699
- Earn a grade of Pass on the MPH Capstone Thesis
- Present a poster at the MPH Graduate Public Health Forum
- Complete a minimum of 250-300 hours in practicum

**Leave of Absence from the MPH Program**

A leave of absence may be granted when a student wants to withdraw temporarily from the program because of illness or special circumstances beyond the student's control. A “Request for Leave of Absence” form must be received prior to the beginning of the quarter for which the leave is desired. The appropriate forms to request a leave of absence can be found and completed in Campus Connect. If an extension is needed, it must also be requested in writing. Time spent on a leave of absence approved by the program and the College is not counted toward the degree timeline limit.

**Withdrawal from the MPH Program**

Students who wish to discontinue studies, permanently or for some indefinite period of time, and are in good standing should complete the appropriate process. Withdrawal from or dropping courses may have financial implications. All related information is found here. A student who has withdrawn and subsequently wishes to resume studies must reapply to the program. Readmission is not guaranteed. If a student wishes to gain readmission less than a year from the initial withdrawal date, a readmission form may be completed through the Office of Graduate Admissions. For students wishing to be readmitted more than a year after the initial withdrawal date, a new application for admittance must be submitted through the Office of Graduate Admissions.

**Discipline and Discontinuance**

Violation of University or MPH Program regulations and policies can result in disciplinary action ranging from restrictions on registration to termination of the student's graduate status. Restriction on registration may simply mean that the student is not allowed to register for a full load of courses until he/she has resolved the issue. Other forms of disciplinary action can include lowered grades in coursework, or, in extreme cases, recommendation for termination from the program. The action taken is based on stated policies of the University and the MPH Program, the magnitude and scope of student behavior, and current/prior evaluations of student performance.

**Dismissal from the MPH Program**

Dismissal from the program may occur under any of the following circumstances (but is not limited to this list). Additionally, students should note that degree conferral may be delayed under any of these conditions.

- Fails to meet what the Program, the College, or the University deems to be satisfactory progress toward a graduate degree
- Fails to pass the capstone thesis review
- Violates the University standards as specified by the Program and College, including Academic Integrity policies
- Fails to meet the MPH requirement of maintaining a 3.0 GPA and/or fails to raise his/her GPA to the required level in the next quarter following the student's probation
- Fails to meet the MPH requirement of achieving a B- in all coursework on the first or second attempt at the course
- Fails to resolve an incomplete grade in any course for more than two quarters

Students subject to disciplinary action by the MPH Program are also subject to the University procedures as described in the Graduate Academic Policies.

**MPH Criteria for Academic Probation**

If a student's cumulative GPA is below 3.0 (on a 4.0 scale) after any academic quarter, the student is placed on probationary status. The student will receive a warning letter stating the specific conditions of probation. Students on probation are required to meet with the Program Director and technical advisor to establish an action plan for addressing the academic probation. **Students on probation have one academic quarter to**
address the specific probation conditions or face dismissal from the program.

Repeating Required MPH Courses

Students who fail to earn a B- or higher in any course are required to repeat that course to earn a grade acceptable to the MPH Program and are placed on academic probation. No course may be repeated more than one time. In addition, practicum placement and/or degree conferral will be delayed in the event that a course must be repeated. Both grades for the course will appear on the student's transcript and be used to calculate GPA.

MPH Academic Integrity

Due to the serious nature of academic integrity violations, students found to have engaged in such actions jeopardize their status with the MPH Program and the University. The MPH Program will consider the student's behavior with regard to the ethical and professional standards of public health and may recommend procedures up to and including permanent dismissal from the program.

MPH Grievance Policy

The MPH Program realizes that students may have concerns throughout their academic career that will require the intervention of the University, or that will require a University response. The University has a number of established policies and procedures for responding to specific concerns. The MPH Program further acknowledges that students may have concerns not addressed by University policies, which may require further attention. These include concerns about coursework or working relationships with faculty and/or other students.

Students are always encouraged to try and address concerns through direct communication with involved parties. However, there may be time where such attempts at resolution are not successful, or where the assistance of another party may be helpful. In these instances, the MPH Program and University have several resources available to students. If requested, all inquiries will be treated confidentially to the extent possible.

Master of Public Health (MPH/ MBA in Health Sector Management)

The Master of Business Administration/Master of Public Health (MBA/MPH) joint degree develops students’ managerial acumen and their expertise as public health professionals. The landscape for healthcare managers is radically changing due to advances in technology, shifts in demographics, and aging of the population. Success in this highly competitive field not only requires traditional business skills in finance and operations, but also an in-depth understanding of disease prevention and health promotion at the organizational and community level.

Offered jointly by the Kellstadt Graduate School of Business and the College of Liberal Arts and Social Sciences, this unique 88-credit MBA/MPH provides students with the opportunity to earn advanced degrees in two highly complementary fields—business and public health. Focusing on Healthcare Sector Management and Community Health Practice, respectively, the MBA/MPH program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive, or consulting positions in community/population health. Acceptance into the joint degree program requires applicants to meet the admissions requirements of both the MBA and MPH program.

| MPH Requirements                          | 36 hours |
| MBA Core Requirements                    | 36 hours |
| MBA Concentration Requirements           | 16 hours |
| **Total hours required**                 | **88 hours** |
Learning Outcomes

Students will be able to:

- Utilize data to understand public health problems
- Apply public health methods and concepts to describe the occurrence and distribution of health outcomes
- Design, implement, and evaluate public health initiatives designed to bring about improved health
- Analyze multiple determinants of health outcomes
- Apply scientific tools and methods to the practice of public health
- Apply ethical approaches to public health practice
- Understand the organizational context of public health service delivery
- Work in a culturally and contextually responsive manner with diverse populations
- Identify strategies to develop sustainable partnerships
- Translate public health findings into policy and advocacy recommendations

MPH Requirements

Required Courses

- MPH 501 INTRODUCTION TO PUBLIC HEALTH
- MPH 502 INTRODUCTION TO EPIDEMIOLOGY
- MPH 503 INTRODUCTION TO ENVIRONMENTAL HEALTH
- MPH 511 HEALTH AND BEHAVIOR THEORY
- MPH 512 RESEARCH METHODS
- MPH 522 PROGRAM DEVELOPMENT AND GRANT WRITING
- MPH 602 COMMUNITY HEALTH ASSESSMENT
- MPH 603 COMMUNITY HEALTH PROJECT DESIGN
- MPH 604 CAPSTONE SEMINAR IN COMMUNITY PUBLIC HEALTH
- MPH 600 PREPARATION FOR PUBLIC HEALTH PRACTICE (0 credit course)
- MPH 699 COMMUNITY HEALTH PRACTICUM (0 credit course)

Culminating Experience Requirements

In addition to successfully completing coursework, students also must complete a practicum experience that culminates in the writing of a capstone thesis. Students complete their practicum field experience during their last year in the program. Students are required to commit to 8-10 hours per week to their practicum site, for a total of 250-300 hours over the course of the nine-month placement. It is required to be physically onsite at the agency for the majority of these hours.
MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.
MBA Concentration Requirements

Course Requirements for Health Sector Management Concentration

Required Courses

- MGT 559 HEALTH SECTOR MANAGEMENT
- MGT 566 HEALTH INSURANCE & BENEFITS

Electives (Students must choose two of the four below)

- MGT 508 QUALITY MANAGEMENT SYSTEMS
- MGT 510 TECHNOLOGY, QUALITY & HEALTH INFORMATICS
- MGT 545 MANAGING SERVICE OPERATIONS
- MGT 564 STREETS OF CHICAGO: HEALTHCARE MANAGEMENT

Public Policy (MPP)

The Master of Public Policy (MPP) emphasizes field-based learning in public service to develop effective leaders in nonprofit and government professions. Students will develop public policy and leadership skills in the community through the School of Public Service curriculum—every course in the degree program integrates field study. MPP stresses ethics, problem-solving and research skills, and the ability to implement public policy.

The MPP may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MPP/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Leadership and Policy Studies + Community Development Certificate
- Leadership and Policy Studies + Metro Planning and Development Certificate
- Leadership and Policy Studies + Social Research Certificate
- Leadership and Policy Studies + Women's and Gender Studies Certificate

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52 hours</td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

- Explain relevant public policies issues to target audiences in the appropriate written and oral formats.
- Apply an ethical framework in making an organizational decision on a current moral dilemma.
- Develop skills in creative problem solving and capacity building within their communities of interest that involves the public, private, and nonprofit sectors.
- Demonstrate their leadership abilities in developing a significant community change agenda.
- Effectively evaluate the economic, political, psychological, and social/cultural contexts in the design and analysis of policy alternatives.

Degree Requirements

Course Requirements

Students complete a total of 13 courses (52 credit hours). Ten course (40 credit hours) of core coursework and three courses (12 credit hours) of electives are required.

Core Courses

- MPS 500 INTRODUCTION TO PUBLIC SERVICE MANAGEMENT
- MPS 533 APPLIED STATISTICS FOR PUBLIC SERVICE
- MPS 541 ECONOMIC FOUNDATIONS OF PUBLIC SERVICE
- MPS 542 POLICY DESIGN AND ANALYSIS
- MPS 543 POLICY IMPLEMENTATION
- MPS 546 ADVOCACY AND LOBBYING
- MPS 563 LAW AND PUBLIC POLICY
- MPS 583 RESEARCH METHODS FOR PUBLIC SERVICE
- MPS 593 INTEGRATIVE SEMINAR
- MPS 594 ETHICAL LEADERSHIP IN PUBLIC SERVICE

Elective Courses

- Choose three courses from the following list:
  - MPS 501 CROSS-SECTOR ANALYSIS
  - MPS 511 SUSTAINABLE INTERNATIONAL DEVELOPMENT
  - MPS 552 GIS FOR COMMUNITY DEVELOPMENT
  - MPS 572 POVERTY, INEQUALITY AND PUBLIC POLICY
  - MPS 573 HOUSING AND COMMUNITY DEVELOPMENT
  - MPS 575 SEMINAR IN ADMINISTRATION/BRUSSELS
  - MPS 604 SPECIAL TOPICS (department consent required)
  - Student choice with department consent

Electronic Portfolio Requirement

Students are required to assemble an electronic portfolio that features notable papers and projects prepared in both required and elective courses. These portfolios, reviewed by a member of the faculty, provide an opportunity for the student to demonstrate expertise in a particular area of study while also supporting career goals. Student choice with department consent

Study Abroad Requirement

Students in the MPP program are required to take at least ONE course abroad. These unique one to two week study abroad trips allow both full-time and part-time students to participate.
**Thesis Option**

Students with a grade point average of 3.5 or above may choose the thesis option and replace MPS 593 with MPS 598 THESIS.

**Student Handbook**

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

**Academic Probation**

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

**Dismissal**

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

**Readmission**

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

**Graduation Requirements**

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

**Non-Degree Seeking Students**

While MPS courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.
Public Relations and Advertising (MA)

The M.A. in Public Relations and Advertising equips students with the expertise and skills necessary to strategically manage an organization’s communication with its publics. The Public Relations component stresses counseling and relationship management, while Advertising combines the management and creative aspects of persuasive communication.

The development, implementation and evaluation of research-based programs and campaigns are emphasized throughout the curriculum. Students who complete this course of study gain an understanding of the key principles and theories of public relations and advertising and an appreciation for the ethical requirements of responsible practice in these media-related fields.

The program offers skills-based training in such areas as speechwriting, media relations, crisis management and creative strategies. Most graduates of this program are industry-bound for successful careers in business, government, non-profit organizations and/or associations.

<table>
<thead>
<tr>
<th>Core Requirements</th>
<th>16 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elective Requirements</td>
<td>32 hours</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Identify, explain and apply conceptual and historical foundations of public communication disciplines as they relate to informational, relational, and persuasion theories, concepts and models.
- Construct and analyze audience research, media research, and environmental scanning.
- Apply measurement and evaluation techniques to products, projects and programs.
- Develop and demonstrate strategic plans and planning methods, issues management techniques, and message development practices in a variety of settings and applications.
- Classify and analyze the elements of ethical decision making to hypothetical and real world settings, as well as articulating the ethical, legal and social responsibilities of public communications professionals.
- Demonstrate facility with writing, speaking and production of media materials to inform, persuade, build relationships, and problem solve.

Degree Requirements

Course Requirements

The Master of Arts in Public Relations and Advertising (PRAD) requires 12 courses (48-credit hours)—four core courses, six PRAD elective courses and two graduate electives inside or outside of the program.

Core Courses

Students are required to take all of the following:

- PRAD 553 ADVERTISING FOUNDATIONS
- PRAD 555 PUBLIC RELATIONS FOUNDATIONS
Elective Courses

Choose eight courses from the following*:

- PRAD 505 CRITICAL PERSPECTIVES ON PUBLIC RELATIONS AND ADVERTISING
- PRAD 511 CONSUMER INSIGHTS FOR LATINO MARKETS
- PRAD 512 LATINO INTEGRATED MARKETING COMMUNICATION
- PRAD 514 CONTEMPORARY ISSUES IN PUBLIC RELATIONS AND ADVERTISING
- PRAD 515 PUBLIC RELATIONS WRITING
- PRAD 521 PUBLIC RELATIONS MEASUREMENT AND DATA ANALYTICS
- PRAD 530 PR/AD AGENCY ROLES & RESPONSIBILITIES
- PRAD 535 PUBLIC RELATIONS IN HEALTH CARE
- PRAD 540 CRISIS COMMUNICATION MANAGEMENT
- PRAD 550 INTEGRATED COMMUNICATION CAMPAIGNS
- PRAD 551 ADVERTISING AND COPYWRITING
- PRAD 554 CREATIVE PROCESSES
- PRAD 556 STRATEGIC PLANNING IN PUBLIC RELATIONS
- PRAD 557 ADVERTISING COMMUNICATION STRATEGY
- PRAD 558 CONSUMER PROMOTION
- PRAD 561 MEDIA RELATIONS
- PRAD 562 MEDIA RELATIONS
- PRAD 563 MEDIA PLANNING
- PRAD 564 BUSINESS SKILLS FOR STRATEGIC COMMUNICATORS
- PRAD 565 INTERNATIONAL PUBLIC RELATIONS
- PRAD 586 ACCOUNT PLANNING
- PRAD 590 PUBLIC RELATION & ADVERTISING WORKSHOP
- PRAD 592 INDEPENDENT STUDY
  - PRAD 595 SPECIAL TOPICS IN PUBLIC RELATIONS & ADVERTISING
- PRAD 599 RESEARCH THESIS
- CMN 591 INTERNSHIP
- CMN 598 STUDY ABROAD

* With approval of the graduate program director, students can take up to two relevant elective courses from other College of Communication graduate programs or relevant elective courses from other graduate departments/programs outside of the College of Communication.

ePortfolio

Students in the Master of Arts in Public Relations and Advertising program complete their degree requirements by submitting a comprehensive ePortfolio. Students present their ePortfolios and network with industry professionals at the annual ePortfolio Showcase.

Master's Thesis

Students who attain a 3.7 GPA or higher and obtain prior approval from the graduate program director have the option to complete a thesis instead of the ePortfolio. Approved students completing a thesis need to start the process at least 9-12 months prior to graduation and will enroll in PRAD 599 as their 12th and final course in the quarter they defend their thesis.

Grade Requirements

Students must maintain a minimum cumulative GPA of 3.000 in their graduate courses to remain in good academic standing. Students who do not meet this minimum cumulative requirement will be placed on academic probation and will be expected to attain the minimum cumulative requirement within two quarters. Failure to do so may result in dismissal from the program.
Combined Bachelor's/Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/Public Relations and Advertising (MA)

Admission

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, have successfully completed any two courses from either the communication core or from the PRAD major, and have completed or are currently holding one or more PRAD internships or jobs are eligible to apply to the program.

In addition to the above minimum requirements, there is a strong preference that a student is an active member of a PRAD co-curricular organization (e.g., PRSSA, AAF, Bateman, or Adventors) or college media (e.g., The DePaulia, Radio DePaul).

Applicants must submit the following to Office of Graduate admission no later than 6 weeks prior to the start of their senior year (i.e. prior to the start of their final three undergraduate quarters): Combined Degree Program Application, official undergraduate transcript, answers to essay questions, 1-2 writing samples that demonstrate the applicant's ability to communicate clearly and concisely with a variety of audiences, resume or curriculum vitae, one letter of recommendation from a PRAD professor or a professor in the major, and one letter of recommendation from a supervisor at a PRAD-related internship or job.

Program Standards

Students accepted into the combined degree program complete 12 graduate credit hours of Public Relations and Advertising coursework which will fulfill undergraduate communication electives (for communication majors) and/or open electives. Students are strongly encouraged to take three of the four core courses during their senior year (PRAD 553, PRAD 555, PRAD 575, PRAD 585). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet this requirement, they will not be allowed to continue as a graduate student in the program.

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their undergraduate degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Public Service Management (MS)

The Master of Science in Public Service Management at DePaul University offers students a broad-based education with which they can pursue careers in fund raising and philanthropy, health care administration, higher education administration, metropolitan planning and urban affairs, nonprofit administration and public policy.

The degree offers four concentrations: health care administration, higher education administration, and metropolitan planning and urban affairs. Students also can pursue a standard concentration. The standard concentration of this degree can be completed entirely online as well as on-site.
Mission Statement

The MS in Public Service Management degree educates leaders to work in public, private, and nonprofit organizations. Through our cross-sectoral approach to learning, research, and service we prepare leaders to connect domestic and global issues, alleviate poverty, and build responsive and responsible service organizations. We promote compassion for marginalized communities and service to all people with accountability, justice, professionalism, sensitivity, and transparency.

The MS in Public Service Management may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Public Service Management + Community Development Certificate
- Public Service Management + Metro Planning and Development Certificate
- Public Service Management + Global Health Certificate
- Public Service Management + Social Research Certificate
- Public Service Management + Women’s and Gender Studies Certificate

Learning Outcomes

Students will be able to:

- Explain relevant public service issues to target audiences in the appropriate written and oral formats.
- Apply an ethical framework in making an organizational decision on a current moral dilemma.
- Determine the interactive roles of the business, government, and nonprofit sectors in securing the public welfare.
- Analyze the leadership skills essential to managing public service organizations.
- Demonstrate their research competencies in a capstone project through a multi-step self-assessment process.

Degree Requirements

Course Requirements

Students complete 13 courses (52 credit hours) for the Master of Science in Public Service Management program. Eight courses (32 credit hours) of core course work and five courses (20 credit hours) of declared concentration work.

Core Courses

- MPS 500 INTRODUCTION TO PUBLIC SERVICE MANAGEMENT
- MPS 501 CROSS-SECTOR ANALYSIS
- MPS 522 FUNDAMENTALS OF HUMAN RESOURCE MANAGEMENT
Concentration Requirements

Students may choose concentrations in a variety of public service fields. Concentrations are available for students in the Master of Science in Public Service Management degree with specialized interests and careers. The concentrations are: Emergency Management, Health Care Administration, Higher Education Administration, and Metropolitan Planning and Urban Affairs. Students who choose not to pursue a specialized concentration will declare the Standard concentration. See the concentration pages for further course information.

Thesis Option

Students with a grade point average of 3.5 or above may choose the thesis option and replace MPS 593 with MPS 598 THESIS.

Concentration Requirements

Concentrations provide focus to the degree. In addition to the degree requirements, students are required to choose one of the following:

- Emergency Management
- Standard
- Metropolitan Planning and Urban Affairs
- Higher Education Administration
- Health Care Administration

Standard Concentration

Required Concentration Course

Choose one course from the following list:

- MPS 514 GOVERNMENT FINANCIAL ADMINISTRATION
- MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
- MPS 541 ECONOMIC FOUNDATIONS OF PUBLIC SERVICE

Elective Courses

Four courses (16 quarter hours) chosen from more than 60 courses based on a student's professional goals and personal interests. If warranted by special needs or interests, students may take up to two elective courses in other departments of the university. Permission of the director is required before registration for such courses.
Emergency Management Concentration

Emergency Management is a critical concern for the public, private and non-profit sectors. Both the conceptual and practical implementation sides of homeland security and emergency preparedness rest at the intersection of national defense, law enforcement, and emergency preparedness. This concentration will provide students with both theoretical and practical knowledge that will prepare them for private or public sector employment in the area of emergency preparedness for both security and non-security related incidents.

Required Concentration Courses

- MPS 514 GOVERNMENT FINANCIAL ADMINISTRATION
  or MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
- MPS 554 PRINCIPLES OF EMERGENCY MANAGEMENT AND PLANNING
- MPS 564 PUBLIC SAFETY ADMINISTRATION AND PLANNING

Elective Courses

- Choose two courses from the following list:
  - MPS 516 MANAGEMENT OF INFORMATION TECHNOLOGY
  - MPS 526 LOCAL GOVERNMENT ADMINISTRATION
  - MPS 529 STRATEGIC MANAGEMENT AND PLANNING
  - MPS 546 ADVOCACY AND LOBBYING
  - MPS 552 GIS FOR COMMUNITY DEVELOPMENT
  - MPS 560 ADMINISTRATIVE LAW
  - MPS 571 METROPOLITAN PLANNING
  - MPS 572 POVERTY, INEQUALITY AND PUBLIC POLICY
  - MPS 573 HOUSING AND COMMUNITY DEVELOPMENT
  - MPS 600 INDEPENDENT STUDY
  - MPS 601 INTERNSHIP
  - MPS 604 SPECIAL TOPICS (department consent required)

Health Care Administration Concentration

The Health Care Administration concentration provides students with the managerial and analytical skills necessary to understand and influence the processes through which hospitals, associated health care organizations, and public and private agencies provide health care opportunities to explore the roles of specific nonprofit and governmental health care providers and regulatory agencies.

Required Concentration Courses

- MPS 514 GOVERNMENT FINANCIAL ADMINISTRATION
  or MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
- MPS 531 HEALTH CARE ADMINISTRATION
- MPS 537 COMPARATIVE HEALTHCARE SYSTEMS

Elective Courses

- Choose two courses from the following list:
  - MPS 513 VOLUNTEERISM
Higher Education Administration Concentration

For managers in post-secondary institutions of learning, this concentration teaches necessary analytical and managerial skills. The coursework helps students develop an understanding of management principles, policy analysis, and research within higher education. Electives provide opportunities to explore leadership, governance, strategic planning, budgeting, finance, law, diversity, enrollment management, marketing, student affairs, and politics in higher education.

**Required Concentration Courses**

- MPS 514 GOVERNMENT FINANCIAL ADMINISTRATION
- or MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
- MPS 606 LEADERSHIP IN HIGHER EDUCATION ADMINISTRATION
- MPS 608 SEMINAR IN HIGHER EDUCATION ADMINISTRATION

**Elective Courses**

- Choose two courses from the following list:
  - MPS 516 MANAGEMENT OF INFORMATION TECHNOLOGY
  - MPS 519 RESOURCE DEVELOPMENT
  - MPS 520 VALUES-CENTERED LEADERSHIP
  - MPS 521 LEADERSHIP AND MANAGEMENT
  - MPS 524 MARKETING FOR SERVICE ORGANIZATIONS
  - MPS 529 STRATEGIC MANAGEMENT AND PLANNING
  - MPS 546 ADVOCACY AND LOBBYING
  - MPS 561 LAW AND NONPROFIT ORGANIZATIONS
  - MPS 600 INDEPENDENT STUDY
  - MPS 601 INTERNSHIP
  - MPS 607 SPECIAL TOPICS IN HIGHER EDUCATION ADMINISTRATION
  - CSL 490 FOUNDATIONS OF STUDENT AFFAIRS (department consent required)

Metropolitan Planning and Urban Affairs Concentration

The Metropolitan Planning and Urban Affairs concentration provides students with a broad perspective on the issues relating to land use, transportation, housing, economic development, and related social problems. It instills an understanding of the institutional and analytical issues affecting units of government, planning agencies, and other urban public service institutions.

**Required Concentration Courses**

- MPS 541 ECONOMIC FOUNDATIONS OF PUBLIC SERVICE
- MPS 571 METROPOLITAN PLANNING
- MPS 526 LOCAL GOVERNMENT ADMINISTRATION
Elective Courses

Choose two courses from the following list:

- MPS 514 GOVERNMENT FINANCIAL ADMINISTRATION
- MPS 516 MANAGEMENT OF INFORMATION TECHNOLOGY
- MPS 526 LOCAL GOVERNMENT ADMINISTRATION
- MPS 529 STRATEGIC MANAGEMENT AND PLANNING
- MPS 552 GIS FOR COMMUNITY DEVELOPMENT
- MPS 560 ADMINISTRATIVE LAW
- MPS 572 POVERTY, INEQUALITY AND PUBLIC POLICY
- MPS 573 HOUSING AND COMMUNITY DEVELOPMENT
- MPS 575 SEMINAR IN ADMINISTRATION/BRUSSELS
- MPS 600 INDEPENDENT STUDY
- MPS 601 INTERNSHIP
- MPS 604 SPECIAL TOPICS (approved topics)

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students

While MPS courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.
Pure Mathematics (MS)

The Department of Mathematical Sciences offers a program of study leading to the Master of Science degree in Pure Mathematics. The program provides students with rigorous training in Pure Mathematics as well as a solid foundation for pursuing a Ph.D. degree in Mathematics or teaching Mathematics at the college level. This is an evening program offered at the Lincoln Park campus. The program can be completed in two academic years by taking two classes per quarter or in four quarters by taking three classes per quarter.

<table>

</tr>
</thead>
<tbody>
<tr>
<td>Concentration Requirements</td>
<td>16 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>48 hours</strong></td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Construct correct logical arguments and understand and critique the reasoning of others.
- Identify, formulate, abstract, and solve problems in pure mathematics using tools from a variety of mathematical areas including linear algebra, abstract algebra, topology, and analysis.
- Communicate mathematical ideas clearly, in oral or written form, by using appropriate mathematical terminology and notation.
- Comprehend and summarize research level mathematical writing.
- Use discipline specific computer tools such as LaTeX, Maple, Mathematica, or Matlab.

### Degree Requirements

#### Course Requirements

At least 48 quarter hours of graduate level work in mathematics and passing two comprehensive examinations in Algebra and Analysis.

**Core Courses**

- MAT 470 ADVANCED LINEAR ALGEBRA
- MAT 471 GROUP THEORY
- MAT 472 FIELDS AND GALOIS THEORY
- MAT 473 RINGS AND MODULES
- MAT 434 TOPOLOGY
- MAT 435 MEASURE THEORY
- MAT 436 FUNCTIONAL ANALYSIS
- MAT 437 COMPLEX ANALYSIS

**Elective Classes**
Choose sixteen quarter hours from the following list:
- MAT 451 PROBABILITY AND STATISTICS I
- MAT 452 PROBABILITY AND STATISTICS II
- MAT 453 PROBABILITY AND STATISTICS III
- MAT 481 FOURIER ANALYSIS AND SPECIAL FUNCTIONS
- MAT 482 PARTIAL DIFFERENTIAL EQUATIONS
- MAT 484 MATHEMATICAL MODELING
- MAT 485 NUMERICAL ANALYSIS I
- MAT 486 NUMERICAL ANALYSIS II
- MAT 494 GRAPH THEORY
- MAT 498 PROBLEM SOLVING IN MATHEMATICS
- MAT 596 ADVANCED TOPICS IN ALGEBRA
- MAT 597 ADVANCED TOPICS IN ANALYSIS
- MAT 598 ADVANCED PROBLEM SOLVING IN ALGEBRA AND ANALYSIS
- MAT 595 GRADUATE THESIS RESEARCH (may be repeated up to a maximum of 8 credit hours total)

With program director's written approval two of the elective courses can be substituted with graduate courses in other areas, such as Computer Science, Physics, or Mathematical Education.

Program Graduate Academic Student Handbook

Probation

A student will be placed on academic probation at the time when his/her cumulative GPA falls below 2.50.

Dismissal

A graduate student may be academically dismissed under one or more of the following violations of satisfactory progress: his/her cumulative GPA remains below a 2.50 after twelve more credit hours are completed while on academic probation, his/her cumulative GPA remains below 2.50 after one year of being on academic probation, lack of progress toward degree completion, or failing the comprehensive examinations twice.

Conditional Admission

Applicants who have not yet completed one or more of the listed prerequisites may be admitted on a conditional basis while they complete the prerequisites at DePaul as undergraduate non-degree seeking students.

Readmission

The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit

A maximum of two semester-based courses or three quarter-based courses to not exceed the equivalent of twelve quarter hours may be accepted as transfer credit upon approval of the student's program director and the associate dean for graduate studies. Credit will only be transferred for courses that have equivalents to courses offered in DePaul's graduate program as determined by the program director and provided they did not count toward the completion of another degree at DePaul or another institution.

Undergraduate Courses

No undergraduate courses shall count toward the graduate degree.

Graduation Requirements

Requirements include, but are not limited to, twelve graduate courses (48 credit hours) at a minimum cumulative GPA of 2.50, and passing two comprehensive examinations in Algebra and Analysis.
Graduation with Distinction

A minimum GPA of 3.70 for coursework applied toward the pure mathematics degree and high performance on the comprehensive examinations - as determined by the Mathematical Sciences department - are required for graduation with distinction.

Time Limitation

The degree is expected to be completed in a maximum of six years.

Reading Specialist (MA or MEd)

The Reading Specialist program combines developmental and remedial reading content with course work in understanding individuals who exhibit learning challenges and those with identified disabilities. It provides candidates with a well-rounded and in-depth understanding of issues related to teaching literacy to a wide variety of students, with a particular focus on students in urban environments. The program also prepares candidates to assume leadership roles within schools, including the coordination of school-wide assessment, instructional coaching, and professional development.

Licensure

Students who hold an Illinois professional educator license are eligible for a Reading Specialist endorsement (K-12) upon completion of the Reading Specialist Master's program, the required licensure tests, and the required employment experience (2-years of full-time teaching experience on an Illinois professional educator license or comparable out-of-state license). Endorsement only options are available for individuals who already hold a Master's degree. Note: Courses in the Reading Specialist program are designed for practicing educators and are not open to students seeking a first teaching license (Teaching and Learning).

Learning Outcomes

Students will be able to:

- Analyze and critique the psychological, sociological, linguistic, and anthropological foundations of reading and writing processes and instruction.
  - Recount developments in the history of reading.
- Access and summarize seminal reading studies and articulate how these studies impacted reading instruction.
- Know and analyze:
  - The theories and research in the field of oral language development and the variations related to culture and linguistic diversity.
  - The theories, research, and course of reading development and the variations related to culture...
Understand the major components of reading.

- Determine if students are appropriately integrating the components in fluent reading.
- Use appropriate instructional grouping options to promote acquisition of literacy.
- Use a wide range of instructional practices and supports to promote the integration of literacy across the curriculum.
- Plan and use appropriate, effective instructional practices.
- Evaluate, select, secure and manage instructional resources.
- Assist teachers/paraprofessionals to understand and use research-based practices and materials for effective literacy instruction.
- Provide leadership in literacy curriculum design and implementation.

- Communicate with wider audiences for instructional and accountability purposes.
- Know, administer, and interpret a wide range of assessment tools.
- Conduct literacy assessments and determine individual proficiencies and difficulties, locating students on a developmental continuum.
- Interpret and use assessment information to plan, evaluate, and revise instruction.
- Effectively communicate results of assessment to students, parents, and colleagues.
- Assist teachers/paraprofessionals to administer, interpret, and use assessments to plan instruction.
- Use student interests and backgrounds as a foundation for engagement in reading and writing.
- Select appropriate print and non-print materials for reading that represent multiple levels, interests, and backgrounds.
- Model reading and writing enthusiastically.
- Use and model methods and materials that motivate all students to read.
- Support teachers to use best practices and resources as they develop literate environments for students.
- Learn about and use technology, as appropriate for the discipline.
  - Understand and use technology to enhance instruction and professional productivity.
- Display dispositions related to supporting all children in literacy development.
  - Articulate theories related to the connections between teacher dispositions and student achievement.
  - Plan steps for on-going professional development.
  - Conduct study groups for school personnel.
  - Assist teachers/paraprofessionals to implement professional development plans.
- Work with colleagues to observe, evaluate, and provide constructive feedback on each other’s practice and assist teachers/paraprofessionals as they strive to improve practice.
- Exhibit leadership skills in professional development at the grade, school, or district level as they plan, implement and evaluate professional development efforts.
- Communicate and work with the community, administrators, and policy makers to promote effective literacy education.

Admission Information

Admission Requirements

- A completed College of Education graduate application
- A bachelor’s degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of reference, one of which must be from persons familiar with your academic work
- One official transcript from each college or university attended
- Personal statement (see application for details)
- Resume
- Interview
- Valid Illinois professional educator License
- While teaching experiences prior to program entry is preferred, candidates may enter the program without prior experience. However, in order to be eligible to receive the Reading Specialist K-12 Endorsement, candidates must have at least two years of teaching experience on an Illinois professional educator license in an Illinois school.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.
Degree Requirements

Course Requirements

Social and Cultural Studies Courses: 12 quarter hours required, grade of C or better required

- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- Choose one of the following:
  - SCG 401 ADVANCED LIFESPAN DEVELOPMENT
  - SCG 402 PSYCHOLOGY OF LEARNING
  - SCG 403 HUMAN DEVELOPMENT AND LEARNING: ELEMENTARY
  - SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
  - SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION
- Choose one of the following:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Reading Specialist Core Courses: 20 quarter hours required, grade of C or better required

- LSI 430 INTRODUCTION TO READING ASSESSMENT
- LSI 431 FOUNDATIONS OF LITERACY: ASSESSMENT AND INSTRUCTION I
- LSI 432 DEVELOPING LITERACY: ASSESSMENT AND INSTRUCTION II
- LSI 433 ASSESSMENT AND DIAGNOSTIC TEACHING OF READING
- LSI 438 LITERATURE-BASED AND CONTENT AREA LITERACY INSTRUCTION

Leadership Courses: 8 quarter hours required, grade of C or better required

- LSI 435 LITERACY PROGRAMS: CURRICULUM AND COLLABORATION
- LSI 437 LEADERSHIP AND PROFESSIONAL DEVELOPMENT IN LITERACY

Practicum Courses: 12 quarter hours required, grade of C or better required

- LSI 542 PRACTICUM IN LITERACY ASSESSMENT
- LSI 543 PRACTICUM IN LITERACY INSTRUCTION AND ASSESSMENT
- LSI 544 PRACTICUM IN LITERACY INSTRUCTION, ASSESSMENT, AND COLLABORATION

Choose one: Thesis (M.A.) or Capstone (M.Ed):

- Master of Arts (M.A.) Degree Requirements: 4 quarter hours, grade of C or better required
  - LSI 549 THESIS RESEARCH IN SPECIALIZED INSTRUCTION (4 quarter hours)

The Master's Thesis is completed in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the M.A. Thesis Handbook for additional information.

- Master's of Education (M.Ed.) Degree Requirement:
  - LSI 608 CAPSTONE IN SPECIALIZED INSTRUCTION (non-credit, non-tuition, PA grade required)

Clinical Experience:

The practicum courses provide an opportunity to apply knowledge from course work to teaching struggling learners and those with disabilities. In these courses, students provide diagnostic and remedial services to children and adolescents from the Chicago area under the supervision of program faculty. Theses courses are offered in an on-campus facility.
Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Reading Specialist students must complete the following tests:

- Reading Specialist Content Area Test (test #176) – assesses knowledge of language, reading, and literacy.
- Test of Basic Skills (one of the following):
  - Test of Academic Proficiency (TAP 400)
  - ACT: Prior to 9/1/15-Composite score of 22 with combined English/Writing score of 19 OR 9/1/15 and later-Composite score of 22 with Writing score of 16
  - SAT: Composite score of 1030 (mathematics and critical writing) with a minimum writing score of 450
  - Out-of-state test of basic skills that led to licensure in another state

Real Estate (MS)

In the Master of Science (MS) in Real Estate program, you will learn concepts and practices in real estate investment analysis and finance through a multidisciplinary curriculum that incorporates courses in real estate, marketing, law, public policy, geography and economics.

Whether you are a professional in real estate field looking to further your knowledge and skills in this industry, or are seeking a transition to the real estate field from another area, this degree will provide you with a strong foundation to prepare you for real estate industry leadership.

The MS in Real Estate program is designed for the student who has a bachelor’s degree, or who is has earned or is earning an MBA.

Highlights

The MS in Real Estate curriculum encompasses a wide range of courses that incorporate casework and teamwork, which will help you develop your communication and leadership skills. You will develop detailed knowledge and skills in:

- Real estate investment
- Real estate finance
- Real estate capital market and analysis
- Real estate development
- Real estate and market analysis
- Real estate taxation

Career Outlook

The MS in Real Estate program provides mentorship, internship and networking opportunities that promote career-advancing engagement between students and the real estate industry. You will be paired with a senior Chicago real estate executive with whom you will meet monthly. This relationship will allow you to obtain an inside look at various aspects of the real estate industry from a seasoned professional. You also will be encouraged to complete an internship and take part in activities and seminars outside the classroom, such as the Real Estate Center’s continuing education courses and events. These experiences provide students with industry contacts and knowledge that make them competitive in the real estate job market.

</tr>
</thead>
<tbody>
<tr>
<td>Elective Courses</td>
<td>24 hours</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>48 hours</strong></td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

- Understand the historical development of real estate markets and the impact on future risk and valuation in Chicago, nationwide and globally.
- Use analytical, computational, and evaluative skills in financial and quantitative real-estate decisions.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Be knowledgeable about the differences among global economies, institutions, and cultures.
  - Understand the implications these have on global management.
- Understand the legal and regulatory standards within the real estate context.

Degree Requirements

Course Requirements

Students complete the MS in Real Estate by taking a minimum of 48 credit hours, normally 12 courses. Depending on the path selected for completing the quantitative requirement, several prerequisites may be required. Students may take either RE 798 SPECIAL TOPICS: Quantitative Methods and Analysis or FIN 555 to meet the program’s quantitative requirement. The prerequisite for RE 798 SPECIAL TOPICS: QUANTITATIVE METHODS and ANALYSIS is admission to the program. However, students who wish to take FIN 555 must meet its prerequisites prior to enrollment, which include ACC 500, GSB 420 and ECO 555, or courses equivalent to these.

Required Courses (6 required courses)

- RE 798 SPECIAL TOPICS: Quantitative Methods and Analysis or FIN 555 FINANCIAL MANAGEMENT
- RE 521 LEGAL ISSUES IN REAL ESTATE
- RE 530 REAL ESTATE INVESTMENT AND FINANCE
- RE 531 REAL ESTATE CAPITAL MARKETS AND FINANCE
- RE 533 REAL ESTATE MARKET ANALYSIS AND VALUATION or RE 574 MULTIFAMILY HOUSING POLICY AND FINANCE
- RE 535 INSTITUTIONAL REAL ESTATE INVESTMENT

Elective Courses (6 elective courses)

Approved electives may have prerequisites that are not part of the MSRE curriculum. Such prerequisites will not be waived or substituted for approved electives. Students may select multiple special topics for elective credit since each topic is a separate course. Please choose six courses from the following:

From the Kellstadt Graduate School of Business

- RE 520 URBAN PLANNING AND PUBLIC POLICY
- RE 525 PROJECT MANAGEMENT: DESIGN AND CONSTRUCTION
- RE 533 REAL ESTATE MARKET ANALYSIS AND VALUATION
- RE 570 ADVANCED REAL ESTATE ANALYSIS WITH ARGUS
- RE 574 MULTIFAMILY HOUSING POLICY AND FINANCE
- RE 576 REAL ESTATE DEVELOPMENT
- RE 798 SPECIAL TOPICS: Structuring Real Estate Transactions
- RE 798 SPECIAL TOPICS: Sustainability and the Built Environment
- ECO 550 REGIONAL AND URBAN ECONOMICS
- MKT 529 PRECISION MARKETING
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/Real Estate (MS)

The Master of Science in Real Estate offers students a focused degree program of specialized courses in real estate analysis, development, finance, valuation, investment, planning and public policy. Courses are taught both by academics and professionals and are frequently team taught by a combination of the two. Casework and teamwork are hallmarks of the program, providing opportunities to develop communication and leadership skills.

Students emerge from the program with strong exposure to real estate content, concepts and practices as well as a solid array of skills that can be adapted to the evolving and inherently multi-disciplinary real estate industry.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Real Estate may apply to the Bachelor's degree/Real Estate (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission

Students must formally apply and be admitted to the Department of Real Estate before beginning their graduate coursework. Upon identifying themselves as a combined degree applicant, the GMAT/GRE requirement will be waived. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take the following three graduate level courses during their senior year:

- RE 520 URBAN PLANNING AND PUBLIC POLICY
- RE 521 LEGAL ISSUES IN REAL ESTATE
- RE 525 PROJECT MANAGEMENT: DESIGN AND CONSTRUCTION

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate
degree will be awarded at the completion of all undergraduate work while the MSRE will be awarded upon completion of the remaining graduate level work.

Real Estate Finance and Investment (MBA)

DePaul's MBA concentration in Real Estate Finance and Investment is a multidisciplinary program that will prepare you for leadership roles in the rapidly changing world of global real estate finance and investment. Through a combination of management, marketing, finance and investment courses you will acquire the skills necessary to navigate this diverse industry. You will gain proficiency in a wide range of commercial real estate transactions, urban planning, financing and operations.

Highlights

In this concentration, you can choose from a diverse set of competencies and skills, which encompass how to:

- Manage complex real estate transactions by learning all aspects of these transactions, including finance and real estate investing, taxation, development, investment sales and capital market analysis.
- Manage urban planning initiatives and public sector enterprises.
- Facilitate financial and investment transactions.

In addition to the core curriculum, this concentration provides an exclusive opportunity to be paired with a senior real estate executive to learn first-hand the skills necessary to succeed in this industry.

Career Outlook

This MBA concentration will put you on the career track for leadership positions that include senior real estate analyst, acquisitions officer, asset and portfolio manager, real estate developer, real estate finance manager and urban planning manager.

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.
MBA Core Requirements

Course Requirements for the Flexible and Evening Cohort MBA Programs

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.

Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.
Concentration Requirements

Course Requirements
The Real Estate concentration is composed of four courses.

- RE 530 REAL ESTATE INVESTMENT AND FINANCE
- RE 531 REAL ESTATE CAPITAL MARKETS AND FINANCE
- RE 535 INSTITUTIONAL REAL ESTATE INVESTMENT
- Choose one from the following:
  - RE 533 REAL ESTATE MARKET ANALYSIS AND VALUATION
  - RE 570 ADVANCED REAL ESTATE ANALYSIS WITH ARGUS
  - RE 576 REAL ESTATE DEVELOPMENT

Refugee and Forced Migration Studies (MS)

The MS in Refugee and Forced Migration Studies is the first program of its kind in the United States. It offers students the chance to study the causes and consequences of forced migration and gives them hands-on experience of working with area organizations like Refugee One and the Heartland Alliance. Forced migrants – including refugees, internally displaced people and climate refugees – are growing in numbers; the UNHCR estimates that there are 45.2 million people displaced all over the world. Syria, Colombia, Pakistan, Turkey, Uganda, Somalia, Afghanistan – these are all familiar news stories. But how do you move beyond the statistics to actually making a difference? This degree places forced migration and refugee studies in concrete historical, global and human contexts and seeks durable responses to the protracted and harrowing crises of forced migration.

The MS in Refugee and Forced Migration Studies aims to train committed individuals in academic and practical skills relevant to a career related to refugee and forced migration. The degree will be enable you to work at on-field refugee organizations, government and non-governmental institutions, pursue further research, or engage with community development, social justice, immigration issues, trauma and health providers, among many others.

We aim to help students:

- Develop rigorous understanding of the causes and consequences aspects of refugees and forced migration;
- Apply conceptual methodologies and legal frameworks for analyses and application of refugee protection regimes and human rights law;
- Carefully understand health issues related to refugees and other forced migrants;
- Acquire skills to work for and manage non-governmental agencies;
- Pursue further research

The MS in Refugee and Forced Migration Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Refugee and Forced Migration Studies + Global Health Certificate
- Refugee and Forced Migration Studies + Public Health Certificate
- Refugee and Forced Migration Studies + Social Research Certificate
- Refugee and Forced Migration Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Refugee and Forced Migration Studies + Women’s and Gender Studies Certificate
Learning Outcomes

Students will be able to:

- Access, analyze and evaluate information and ideas from multiple sources to identify underlying conditions, and formulate conclusions.
- Solve quantitative problems.
- Create and support arguments using a variety of approaches, from a variety of regions, dealing with a variety of peoples.
- Develop quick, flexible and innovative solutions from existing knowledge to generate and synthesize ideas in original ways.
  - Do so quickly as human lives are at stake in the circumstances that lead to refugees and other displaced peoples.
- Communicate clearly in speech and writing, and across international, multilingual, multicultural contexts.
- Articulate their own beliefs and convictions, as well as consider others’ beliefs, about global human conditions to create a just society.
- Articulate what is entailed in becoming a self-directed ethical decision-maker and live a life of personal integrity.
- Evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
- Benefit communities through socially responsible engagement and leadership.
- Respect and learn from the perspectives of others different from themselves.
- Be knowledgeable of global interconnectedness, interdependencies, and vulnerabilities.
- Become a steward of global resources for a sustainable future.
- Apply basic knowledge of public health and historical knowledge to deal with people in a sensitive and aware manner.
- Relate their learning to multiple fields and realms of experience given the wide ambit of refugee and forced migration studies.
- Make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
- Design, develop, and execute a significant intellectual project.
- Set goals for future work that are the result of realistic self-appraisal and reflection.
- Articulate their skills and knowledge and represent themselves to external audiences.
- Work toward goals independently and in collaboration with others.
- Employ technology to create, communicate, and synthesize ideas.
- Set priorities and allocate resources.
- Apply strategies for a practice of life-long learning.

Degree Requirements

Course Requirements

Students will gain both academic and practical skills. In their first year, students will acquire conceptual methodologies and legal frameworks for critical analyses of refugee protection regimes and human rights law. They will also be introduced to health issues in refugee and forced migration studies. In the second year, the two research methods courses, together with the core practicum and internships, will enable students to assess,
evaluate and apply theoretical knowledge as practitioners.

- FMS 401 ASYLUM AND REFUGEE LAW AND POLICY/LAW 517 ASYLUM AND REFUGEE LAW AND POLICY
- FMS 402 PRO-SEMINAR IN THE HISTORY OF FORCED MIGRATION
- FMS 403 HUMAN RIGHTS LAW
- FMS 411 RESEARCH METHODS FOR PUBLIC SERVICE/MPS 583 RESEARCH METHODS FOR PUBLIC SERVICE
- FMS 417 NONPROFIT FINANCIAL ADMINISTRATION/MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
- FMS 404 INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT
- FMS 405 PUBLIC HEALTH AND FORCED MIGRATION/MPH 553 PUBLIC HEALTH AND FORCED MIGRATION
- FMS 413 MANAGEMENT OF INTERNATIONAL NGOs/MPS 611 MANAGEMENT OF INTERNATIONAL NGOs
- FMS 490 INTERNSHIP II (Practicum)
- Two open electives

Science Education (MS)

The Master of Science in Science Education (MSSE) program provides a broad content-based science curriculum for the preparation of master teachers of science. The program is focused on contemporary, inquiry based science content and integrates the most current research findings on how students learn science. It encourages and models the skills of scientific inquiry, as well as the curiosity, openness to new ideas, and skepticism that characterize science. Some of the unique features of the program include a strong emphasis on contemporary science content; the use of inquiry-based learning; the integration of mathematics and technology; and the incorporation of the Next Generation Science Standards.

The Program requires 12 courses (48 credit hours) and draws upon faculty in both the College of Science and Health and the College of Education.

Support of the program is managed through DePaul University's STEM Center.

The program provides a supportive environment for all teachers, including members of groups traditionally underrepresented in science, and encourages a broad perspective on science and its continuing important role in our society.

Learning Outcomes

Students will be able to:

- Know, use, and interpret scientific explanations of the natural world that are relevant to teaching science in the middle schools.
- Generate and evaluate scientific evidence and explanations.
- Explain how scientific knowledge is based on the study of natural phenomena, provides explanations, and makes testable predictions that are consistent with known evidence.
- Advance in their skills in quantitative reasoning and quantitative applications for understanding natural phenomena.
- Enhance skills in a broad array of technology, including computers, and have effective techniques for implementing them in the classroom.
Degree Requirements

Course Requirements

Core Courses

- STEM 405 ECOLOGY FOR TEACHERS
- STEM 412 FOUNDATIONS OF PHYSICAL SCIENCE II
- STEM 490 SCIENCE TEACHING CAPSTONE

Additional Courses

- Nine courses chosen from the following list:
  - STEM 409 MATHEMATICAL METHODS FOR MIDDLE SCHOOL SCIENCE TEACHERS
  - STEM 410 TOPICS FOR TEACHERS
  - STEM 411 FOUNDATIONS OF PHYSICAL SCIENCE I
  - STEM 413 LIGHT AND WAVES
  - STEM 420 CHEMISTRY FOR TEACHERS
  - STEM 421 CELL BIOLOGY FOR TEACHERS
  - STEM 422 EVOLUTION AND DIVERSITY FOR TEACHERS
  - STEM 423 PLANT AND ANIMAL BIOLOGY FOR TEACHERS
  - STEM 425 TOPICS IN LIFE SCIENCES FOR TEACHERS
  - STEM 430 ASTROBIOLOGY FOR TEACHERS
  - STEM 431 ASTRONOMY FOR TEACHERS
  - STEM 432 GEOLGY AND PLANETARY SCIENCE FOR TEACHERS
  - STEM 440 HEAT AND ENERGY FOR TEACHERS
  - STEM 441 WEATHER AND CLIMATE FOR TEACHERS
  - STEM 442 ENVIRONMENTAL SCIENCE FOR TEACHERS
  - STEM 698 TOPICS FOR MATHEMATICS AND SCIENCE TEACHERS
  - STEM 699 INDEPENDENT STUDY

Program Graduate Academic Student Handbook

Probation

A student is subject to probation as soon as his/her graduate cumulative GPA falls below 2.500.

Dismissal

The student remains on probation until four more courses are taken, at which time another evaluation is made. If at that time the student has failed to raise his/her cumulative GPA to the required level of 2.500, it is a violation of satisfactory progress. The student may be dismissed for poor scholarship and be prohibited from registering for additional course work.

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition,
addressed to the dean of the college, would provide information that would demonstrate a change in the
student’s circumstances to an extent that would support successful completion of the student’s degree program.
The dean’s decision, based upon the merits of the petition and the recommendation of program director, may, if
favorable, stipulate conditions of reinstatement. The dean has the discretion to reject the recommendation for
reinstatement.

**Readmission**

If you were previously enrolled in a graduate program in the College of Science and Health but have not been in
attendance for a period of one calendar year or longer, but not more than four calendar years, you must
complete a readmission application with the Office of Graduate Admission. (If more than four calendars years
have elapsed since you have been in attendance, you must file a new standard application.) The application must
be submitted at least two weeks prior to the day of registration for the term in which you expect to resume your
studies. Official copies of transcripts recording scholastic work taken while not enrolled at DePaul University must
be submitted. As a policy, students are held to the degree requirements that are in force at the time of
readmission.

**Transfer Credit**

In general, it is not encouraged that students seek to transfer in credit for the Master of Science in Science
Education (MSSE) program. In exceptional cases, a maximum of eight quarter hours (or six semester system
hours) may be transferred from another institution or program to count toward the graduate degree. Requests to
transfer courses must be approved by the program director and associate dean for graduate studies. Transfer
credit can only be awarded for graduate level coursework which has not counted toward the completion of a
degree at DePaul or any other institution. Students may not substitute any other course for the capstone
requirement.

**Undergraduate Courses**

No undergraduate-level courses or credit may count toward MSSE graduate course requirements.

**Graduation Requirements**

You must have successfully completed all of the degree requirements as listed in the catalog under which you
were admitted. Students need to achieve a minimum cumulative grade point average of 2.500 to graduate.

**Graduation with Distinction**

To graduate with distinction from the MSSE program, students must have earned a cumulative 3.75 GPA or
higher for coursework applied toward the MSSE degree.

**Time Limitation**

Graduate students in MSSE program is expected to complete their program degree requirements within a six-
year period from the first registration date for a course in the program. When a graduate student fails to finish
before the end of the sixth year, the department or program director may recommend, on receipt of the
student’s petition, in writing, an extension of time with or without additional courses, examinations, or other
conditions.

**Screenwriting (MFA)**

The MFA in Screenwriting is the terminal degree in writing for film and television. The program culminates in the
successful completion of the MFA thesis screenplay or teleplay.

<table>
<thead>
<tr>
<th>Total hours required</th>
<th>68 hours</th>
</tr>
</thead>
</table>

DePaul University  Autumn 2017-2018  Page 474 of 2468
Learning Outcomes

Students will be able to:

- Recognize and identify the basic components of classic three-act screenplay structure.
- Compare and discuss the various formats for scripted television shows.
- Examine existing screenplays and teleplays and analyze the changes that happened when the literature was produced into a final product.
- Formulate outlines and practice various organizational techniques as they discover the unique process that is best suited the writing and rewriting of their portfolio items.
- Construct a minimum of two feature length screenplays, employing techniques and styles that they have studied in their analysis courses.
- Compose a minimum of one spec television script and one original television pilot focusing on developing rich characters and devising plot points that create tension which can be sustained over the course of multiple episodes.
- Evaluate and compare different agencies, literary managers, and producers in order to develop strategies to market themselves and their writing.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

- DC 400 WRITING THE TELEVISION SPEC SCRIPT
- DC 402 WRITING THE FEATURE I
- DC 403 WRITING THE FEATURE II
- DC 406 WRITING THE SITCOM
  or DC 407 WRITING THE EPISODIC DRAMA
- DC 429 TELEVISION GENRES AND ANALYSIS
- DC 434 DEVELOPING THE PITCH
- DC 445 THE ART OF SCENE WRITING
- DC 497 WRITING FOR TV THESIS DEVELOPMENT
  or DC 498 WRITING FOR FILM THESIS DEVELOPMENT
- DC 501 FOUNDATIONS OF SCREENWRITING
- DC 502 STORY STRUCTURES
- DC 503 STUDIO DEVELOPMENT
- DC 506 WRITING FOR FILM THESIS I
  or DC 508 WRITING FOR TV THESIS I
- DC 507 WRITING FOR FILM THESIS II
  or DC 509 WRITING FOR TV THESIS II

Choose one (1) of the following courses:

- DC 405 TOPICS IN SCREENWRITING
- DC 428 WRITING THE WEB SERIES
- DC 441 STORYTELLING FOR VIDEO GAMES
- DC 446 SCREEN ADAPTATION
- DC 483 COMEDY, JOKE, AND SKETCH WRITING

Choose one (1) of the following courses:

- DC 405 TOPICS IN SCREENWRITING
- DC 408 ADVANCED WRITING ON ASSIGNMENT
- DC 442 ADVANCED WRITERS ROOM: DEVELOPING THE HOUR LONG DRAMA
- DC 443 ADVANCED WRITERS ROOM: DEVELOPING THE HALF HOUR COMEDY
- DC 505 INDUSTRY AND PITCHING SEMINAR *
- DC 404 REWRITING THE FEATURE
  or DC 432 REWRITING THE ORIGINAL TELEVISION PILOT
  or DC 499 INTERNSHIPS IN MEDIA AND DESIGN *
*See information about Optional Los Angeles Quarter below.

**Optional Los Angeles Quarter**

Students may apply to participate in the Los Angeles Quarter Program for the spring of their second year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and videogame world. If selected to participate in the LA program, MFA Screenwriting students would take DC 505 and DC 499 in Los Angeles.

**MFA Thesis**

Students in the MFA in Screenwriting program must complete a MFA Thesis project which consists of either a feature length screenplay or an original television pilot plus a "show bible" and outlines for six future episodes. We expect the thesis projects to be at a level of quality that would warrant representation by literary agents and managers. Satisfactory completion of the MFA Thesis project is determined by the MFA Advisor Committee (see below).

**Student's MFA Advisor Committee**

In the spring quarter of their first year, all MFA candidates will be assigned two thesis committee members plus their thesis instructor; these three faculty members will be the MFA Advisor Committee. The MFA Advisor Committee will offer suggestions and feedback on the student's work and help guide the student during the thesis phase of the program. They will ultimately judge the final thesis project as pass or fail.

**MFA Thesis Timeline: Year One**

Students will enroll in DC 497 Writing for TV Thesis Development or DC 498 Writing for Film Thesis Development, in which they will begin to develop their thesis project. This course will conclude with students pitching their stories to their individual MFA Advisor Committee for feedback.

**MFA Thesis Timeline: Year Two**

The first draft of the thesis project must be submitted to the Advisor Committee on the last day of final exams for the fall quarter. Writers will get notes from their committee at the start of the winter quarter. The final draft of the thesis script will be sent to the committee on the last day of final exams for the winter quarter. The committees will meet during the spring quarter to evaluate thesis projects. Thesis chairs will notify each student as to whether they received "distinction," a "pass," or a "rewrite" decision. If a student passes, they must then complete their coursework in order to graduate. If a student does not pass, the writer must resubmit his or her thesis by an assigned due date determined by the thesis instructor. The re-defense will take place no later than Friday of week 10 of the spring quarter. If the student passes, he or she can move on to graduation assuming all courses are complete. If the student has a second non-pass, he or she must enroll in DC 701 Thesis Continuation (a zero credit hour and zero cost class) to remain enrolled for the summer session after completion of the year two coursework. The rewritten script is due by the last day of final exams for Summer I. The defense will take place before the end of the Summer II session. If the student passes, he or she may apply for the next round of graduation. If the student does not pass, he or she may elect to speak with the advising office about applying his or her course credit hours to an M.S. in Cinema Production degree.

**Degree Requirements**

Students in the MFA in Animation degree program must meet the following requirements:

- Complete a minimum of 68 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 3.0 or higher.
- Satisfactorily complete the MFA thesis as determined by the student's MFA Advisor Committee.
- Students cannot count credit earned towards a previously awarded master's or MFA degree toward the completion of this MFA program.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.
Sample Schedule

Students who wish to complete this degree on a part-time basis should contact the program coordinator or advisor to create a customized three or four year course plan.

First Year

Fall Quarter

- DC 429 TELEVISION GENRES AND ANALYSIS
- DC 501 FOUNDATIONS OF SCREENWRITING
- DC 502 STORY STRUCTURES

Winter Quarter

- DC 400 WRITING THE TELEVISION SPEC SCRIPT
- DC 402 WRITING THE FEATURE I
- DC 434 DEVELOPING THE PITCH

Spring Quarter

- DC 403 WRITING THE FEATURE II
- DC 406 WRITING THE SITCOM
  - or DC 407 WRITING THE EPISODIC DRAMA
- DC 497 WRITING FOR TV THESIS DEVELOPMENT
  - or DC 498 WRITING FOR FILM THESIS DEVELOPMENT

Second Year

Fall Quarter

- DC 503 STUDIO DEVELOPMENT
- DC 506 WRITING FOR FILM THESIS I
  - or DC 508 WRITING FOR TV THESIS I
- Choose one (1) of the following courses:
  - DC 405 TOPICS IN SCREENWRITING
  - DC 428 WRITING THE WEB SERIES
  - DC 441 STORYTELLING FOR VIDEO GAMES
  - DC 446 SCREEN ADAPTATION
  - DC 483 COMEDY, JOKE, AND SKETCH WRITING

Winter Quarter

- DC 445 THE ART OF SCENE WRITING
- DC 507 WRITING FOR FILM THESIS II
  - or DC 509 WRITING FOR TV THESIS II
- Choose one (1) of the following courses:
  - DC 405 TOPICS IN SCREENWRITING
  - DC 408 ADVANCED WRITING ON ASSIGNMENT
  - DC 442 ADVANCED WRITERS ROOM: DEVELOPING THE HOUR LONG DRAMA
  - DC 443 ADVANCED WRITERS ROOM: DEVELOPING THE HALF HOUR COMEDY

Spring Quarter

- DC 505 INDUSTRY AND PITCHING SEMINAR
- DC 404 REWRITING THE FEATURE
  - or DC 432 REWRITING THE ORIGINAL TELEVISION PILOT
  - or DC 499 INTERNSHIPS IN MEDIA AND DESIGN
Social and Cultural Foundations in Education (MA or MEd)

The Social and Cultural Foundations Program is committed to inquiry that examines the relationship of schooling, education, and educational policy to social justice and cultural democracy. The program is an interdisciplinary one, designed to appeal to students seeking alternatives to more specialized or technical programs of study in education. This program is designed to attract educators, leaders, and individuals with bachelor’s degrees who have broad interests in education but who may not be professional educators. This program anticipates that students pursuing this degree will come from a variety of educational and professional backgrounds involving different forms of educational work such as media, private foundations, museums, community organizations, labor unions, higher education, K-12 schools, and others. Students are attracted to this program for personal and professional enhancement, research for private foundations, adult education and training, or to prepare for doctoral work, careers in higher education, and other related areas.

The program provides students the opportunity to study education, not only as schooling, but also more broadly as a dynamic cultural and political force that unfolds in a wide range of shifting and overlapping sites of learning. Students will consider education as a dynamic process that shapes social identities and social life as well as the learning of values and beliefs, all of which are central to how people make cognitive and emotional investments and act in the world. As such, education is a significant force in creating, maintaining, and challenging assumptions of neutrality and hierarchies of race, ethnicity, gender, class, and sexual difference. From this perspective, education is an indispensable tool for creating conditions for social justice and democratic life. In this context, students investigate the pedagogical and cultural conditions necessary for supporting the flourishing of human agency and the redefinition of human engagement in social life.

Faculty teaching in the SCFE program bring expertise from a variety of disciplines and fields within educational policy studies: the sociology of education, the philosophy of education, the history of education, the psychology of education and human development, critical pedagogy, cultural studies, feminist studies, urban studies, critical race studies, research methods and more. The faculty also has a diverse range of interests in areas such as globalization, peace and human rights education, social theory and social construction of knowledge; the role of education in the production of inequalities of race, gender, class, sexuality, and language; socially situated theories of learning and teaching; and the role of education in the construction of culture and social identities.

Given the interdisciplinary approach to the study of education of this degree program, students have the opportunity with the approval of their faculty advisor to take at least 20 hours of elective courses outside of the Social and Cultural Foundations in Education Program as well as the College of Education. Choices of electives include, but are not limited to, courses in departments and programs such as Communication, Philosophy, Women’s Studies, American Studies, International Studies, Public Policy, and Sociology.

Licensure Option
Students seeking the Master’s degree in Social and Cultural Foundations in Education have the option to also pursue an Illinois teaching license or endorsement. Please consult your academic advisor as an additional program application may be required.

<table>

<td>52 hours</td>
</tr>
</tbody>
</table>

## Learning Outcomes

Students will be able to:

- Apply theories within the humanities, social sciences, and psychological sciences within the disciplinary foundations of education to their understanding of educational phenomenon.
- Design and conduct a research project that employs methodologies appropriate to the discipline of educational foundations.
- Analyze human development as a socio-cultural process that takes place over the lifespan and over historical time.
- Communicate, verbally and in writing, their understanding of the inter-relationship between identities and social relations of race, ethnicity, class, gender, sexual orientation, etc. and use this information to examine issues of power, resistance, and social change.

## College Requirements

### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Values and is committed to a critical orientation toward understanding key theories and concepts in the foundations of education
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Understands the importance of and is committed to clear oral and written communication, both in traditional and in new and emerging digital formats
- Demonstrates a willingness to engage course texts and requirements
- Demonstrates sensitivity to and respect for diverse identities, cultures, and lived experiences
- Demonstrates and advocates social justice principles in the classroom with students and colleagues and in clinical settings
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy in relationships with student colleagues and faculty

### Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).
It is your responsibility to initiate the degree confferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree confferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree confferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree confferral and graduation can be found on the College of Education website.

Degree Requirements

Course Requirements

Theoretical Core Courses: 20 quarter hours required, grade of C or better required

- SCG 527 GLOBAL ISSUES IN EDUCATION SEMINAR
- SCG 603 CULTURE AND EDUCATION SEMINAR
- SCG 604 IDENTITY: CONSTRUCTIONS AND NEGOTIATIONS SEMINAR
- SCG 608 IDEOLOGY, POWER AND POLITICS SEMINAR
- SCG 611 PHILOSOPHICAL STUDIES IN EDUCATION, CULTURE AND ETHICS SEMINAR

Research Inquiry Core Courses: 8 quarter hours required, grade of C or better required

- SCG 610 INTRODUCTION TO RESEARCH METHODS
- SCG 635 ADVANCED QUALITATIVE RESEARCH METHODOLOGIES

Five Elective Courses with Faculty Advisor Approval: 20 quarter hours required, grade of C or better required

- College of Education Electives (8 quarter hours)
- Non-College of Education Electives (12 quarter hours)

Choose one: Thesis (MA) or Capstone (MEd):

- Master of Arts (MA) Degree Requirement Thesis Course: 4 quarter hours, grade of C or better required
  - SCG 636 THESIS RESEARCH (4 quarter hours)

The student prepares a thesis, which is a report of the results of an original investigation. The student must first obtain approval of the subject and general plan from their Thesis Advisor, and have a research proposal approved by his/her thesis committee. The Thesis Advisor must be an EPSR faculty member (but not necessarily
the originally assigned Faculty Advisor). The College of Education Thesis Handbook outlines the policies and procedures needed to successfully satisfy the thesis requirement. The College of Education Thesis Handbook can be obtained from the Department of Educational Policy Studies and Research office or on the College of Education website.

- **Masters of Education (MEd) Degree Requirement Capstone Course: 4 quarter hours, PA grade required**
  - SCG 637 CAPSTONE: SOCIAL AND CULTURAL FOUNDATIONS IN EDUCATION

Upon completion of all course work the student will work with a Capstone Advisor to discuss possible paper topics. The Capstone Advisor must be an EPSR faculty member (and not necessarily the originally assigned Faculty Advisor). The paper will generally consist of library-based research and will typically be 20-25 pages in length.

**Course Registration**

Registration for SCFE Master's degree core courses is different from regular registration. The SCFE students are granted access to registration for SCFE core courses. If a student has special circumstances and cannot register for all cores offered in a term, this must be discussed with and approved by that student's SCFE faculty advisor prior to the start of the term. Course registration for electives is the same as for all College of Education students.

**Social Work (MSW)**

The Master of Social Work (MSW) degree program is designed to prepare students for advanced social work, with an emphasis on community practice. The MSW degree prepares its graduates for work and leadership in broad and varied human service organizations which span child welfare, health and mental health, community planning, family services and the like.

All students are required to complete 88 quarter hour credits; this includes 24 hours of field education. The program can be completed in either a full-time (two years) or part-time (four years) basis. The curriculum consists of foundation (beginning) and concentration (or advanced) content ranging from professional writing, human behavior, social welfare policy, social work research, program evaluation, fund development, and beginning and advanced community practice.

The MSW degree may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MSW/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- MSW + Global Health Certificate
- MSW + Public Health Certificate
- MSW + Social Research Certificate

DePaul University  | Autumn 2017-2018  | Page 481 of 2468
Learning Outcomes

Students will be able to:

- Be knowledgeable of the profession’s ethics and value base and practice accordingly.
- Practice within the context of striving for justice and will therefore practice antidiscrimination, especially with respect to clients from historically oppressed groups including women, children, the poor, people of color, people with disabilities, the aged, gay, lesbian, and trans-gendered people, people from various ethno-cultural backgrounds, people with diverse religious beliefs, recently-arrived immigrants, and people for whom English is a second language.
- Apply select advocacy and social change strategies while working for justice.
- Apply the knowledge and skills of a generalist professional perspective to practice with client systems of all sizes.
- Apply select theoretical frameworks to understand human development and behaviors across the lifespan and interactions among and between individuals, families, groups, communities, organizations and institutions.
- Analyze and influence social policies and their impacts.
- Critically assess research, apply research findings to practice, and evaluate their own practice.
- Communicate effectively with multiple audiences, using various media.
- Use supervision effectively and accept constructive feedback regarding their practice interventions.
- Operate effectively within organizations and work to change organizations in the quest for justice.
- Apply select theoretical frameworks and constructs from community practice to analyze, intervene, and evaluate interventions with client systems of all sizes.
- Work collaboratively with professionals (including those from other disciplines) and autonomously.
- Be lifelong learners and be knowledgeable of licensure, continuing education, and on-going professional learning demands.

Degree Requirements

Course Requirements

All candidates for the MSW degree enrolled in the 2-year or the 4-year program must complete 88 credit hours of course work, detailed below:

- MSW 401 PROFESSIONAL WRITING AND DEVELOPMENT
- MSW 411 HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT I
- MSW 412 HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT II
- MSW 421 INTRODUCTION TO SOCIAL WORK RESEARCH
- MSW 431 SOCIAL WELFARE POLICY I
- MSW 432 ADVANCED SOCIAL WELFARE POLICY II
- MSW 481 FOUNDATION PRACTICE I
- MSW 491 FOUNDATION FIELD EDUCATION I
- MSW 482 FOUNDATION PRACTICE II
- MSW 492 FOUNDATION FIELD EDUCATION II
- MSW 483 FOUNDATION PRACTICE III
- MSW 493 FOUNDATION FIELD EDUCATION III
- MSW 501 PROGRAM EVALUATION
- MSW 521 FUND DEVELOPMENT AND MANAGEMENT
- MSW 581 COMMUNITY PRACTICE I
- MSW 591 ADVANCED FIELD EDUCATION I
- MSW 582 COMMUNITY PRACTICE II
- MSW 592 ADVANCED FIELD EDUCATION II
- MSW 583 COMMUNITY PRACTICE III
- MSW 593 ADVANCED FIELD EDUCATION III
- 8 credit hours of graduate level study (400 and above) as electives. Special topics courses (MSW 450 SPECIAL TOPICS IN SOCIAL WORK) are included as possible electives.
**Notice for Graduates of CSWE-Accredited Baccalaureate Programs**

Every candidate for the MSW degree has to demonstrate competencies in the professional foundation of social work. For graduates of CSWE-accredited baccalaureate programs, up to 12 credit hours of eligible coursework can be waived if applicants received a grade of ‘B’ or better in corresponding undergraduate courses. These courses are limited to the following:

- MSW 411 (Human Behavior and the Social Environment I)
- MSW 421 (Introduction to Social Work Research)
- MSW 431 (Social Welfare Policy I)

Applicants are assessed at the time of admission. The waivers will not count as graduate credits earned and all students granted course waivers status must meet all other requirements of the program, including a minimum of 76 earned graduate credit hours for degree completion.

---

**Student Handbook**

**Mission Statement**

The DePaul University Master of Social Work extends the university's global Vincentian mission of service to marginalized groups, particularly those in the Chicago urban community. The program offers rigorous, personalized, and responsive education, through collaboration with university and community partners in pursuit of social and economic justice. The DePaul University Master of Social Work Program is designed to foster excellence in community-based practice with an emphasis on ethics, leadership, and scholarship. Below are terms and/or academic designations which support the admissions, academic, and matriculation components.

**Probation**

Students enrolled in the MSW degree program will be placed on probation when their grade point average (GPA) falls below a 2.0, or when a student receives a rating of inadequate in one or more areas of the program's professional comportment matrix. All students placed on probation will be required to take part in a continuance review to consider their plans for remediation and (possible) continuation in the MSW degree program. Students placed on probation will not be allowed to re-enroll in the program until the student has met all of the academic and professional conditions set forth in a formal continuance hearing. Students who elect not to participate in continuance reviews will be subject to dismissal from the program. Students who are dismissed can make a formal petition for reconsideration which should be addressed to the Dean of the College of Liberal Arts and Social Sciences or their representative.

**Dismissal**

Students who fail to acquire a professional field placement after a minimum of three attempts by the program to facilitate internship arrangements, who receive failing grades in either practice (MSW 480 and MSW 580 courses) or field education (MSW 490 and MSW 590 courses), who are dismissed from field due to poor performance, or who fail to make sufficient progress towards degree completion, who are found to be inadequate in one or more areas of the program's professional comportment matrix, and/or who are found in violation with one or more of the National Association of Social Worker's Code of Ethics, may be dismissed from the MSW degree program upon the completion of a continuance review. Students who elect not to participate in continuance reviews will be subject to dismissal from the program. Students who are dismissed can make a formal petition for reconsideration which should be addressed to the Dean of the College of Liberal Arts and Social Sciences or their representative.

**Readmission**

Students requesting readmission into the program after probation and/or dismissal must make their request in writing, based on criteria set forth in the University's Graduate Student Handbook, the MSW Student Handbook, and/or the conditions set forth in the letter of termination or dismissal from the program. In order to be readmitted to the program, students must be able to secure an approved professional internship placement.
under the auspices of the MSW program’s Office of Field Education.

Transfer Credit

Students who are accepted for admission into the MSW degree program can request that graduate course work done in other accredited institutions (or other graduate degree programs at DePaul University) be considered for academic credit in the MSW Program. The Transfer of Credit Request Form must be completed by students and can be found in the appendix of the MSW Student Handbook. Students may not apply for transfer credit if those courses were counted toward a previous, completed degree.

Students should make their request (in writing) either at the time of admission or before the end of their first academic quarter of enrollment. Students can apply transfer credits for up to twelve (12) hours of academic study in the MSW degree program. Student requests must be based on completed work and must be substantiated by transcripts (indicating grades earned) and other supporting documentation, including course syllabi, graded assignments, etc. (in addition to the form). Students must have received a grade of B or better in courses being considered for transfer credit.

Students will not be granted credit for field education, practice or concentration courses in the MSW degree program (MSW 481, 482, 483, 491, 492, 493 or 500-level MSW course). Students may not apply for transfer credit if those courses were counted towards a previous, completed degree. Requests submitted after the conclusion of the student's first quarter of enrollment in the MSW program may not be reviewed. Students will be notified (in writing) of the program's decision regarding their transfer request.

Undergraduate Courses

The program does not currently accept any undergraduate level courses for credit in the graduate curriculum.

Graduation Requirements

Completion of the MSW degree requires a completion of a minimum of 88 quarter hours which can be met on a full-time or part-time basis and include two (academic) year-long, professional internships. All students must maintain an overall grade point average (GPA) of at least 2.75 (on a 4.0 scale) to remain in good standing in the MSW program and the university. While the minimum, overall GPA required to graduate from the program and university is 2.75, DePaul MSW students should note that other programs in social work generally carry the 3.0 GPA as a minimum and upon graduation, DePaul University MSW students are likely to be compared to graduates from programs that have higher grade point expectations. It is the value of the MSW program to provide all students with frequent and proactive feedback regarding their performance(s) in classes and field placement(s). To that end, faculty and staff are committed to ongoing communications regarding student performance to ascertain whether there are certain trends or preventable situations which may impede student learning and professional performance.

Graduation with Distinction

The MSW degree program requires an overall GPA of at least 3.9 (on a 4.0 scale) for the designation of graduation with distinction.

Time Limits

Graduate students must complete their degree requirements within six years of the date of matriculation in the program. In rare circumstances, the Program Director may grant extensions based on student's written requests, which must be submitted before the end of the final year of enrollment eligibility.

Social Work (MSW/ MA Women's and Gender Studies)

The joint MSW/MA in Women’s and Gender Studies offers a unique and cutting edge graduate program with a focus on gender, community, and social justice. Both programs share a synchronicity of mission and focus on social justice efforts at the community level and together they would provide an excellent foundation for developing a women's and gender studies-based social work career trajectory.

The joint program is designed to give students the opportunity and flexibility to draw from the strengths of both programs as they build a foundation for their chosen work. The program offers both a broad understanding of social work, with a particular focus on community, and a substantive foundation in the theories and scholarship
within women’s and gender studies, with a particular focus on social justice. Students will have the opportunity to deepen their knowledge in the field of women’s and gender studies directly applicable to their interests in social work and build their knowledge-based skills in social work while obtaining the necessary credential for not only securing employment, but the ability to advance their leadership in the profession.

**Sociology (MA)**

The graduate program in Sociology enables students to study sociological principles, methods of inquiry, and analysis of sociological findings in areas of current interest. Training at the master’s level in sociology is applicable to employment in such areas as urban planning, public and private administration, marketing, research, health and welfare services, youth services, law enforcement, corrections services, community organizations, and education. The MA in Sociology can also serve as preparation for entry into PhD programs and further professional training.

A limited number of assistantships are available to graduate students. Additional information is available upon written or e-mail request to the chair or graduate program director of the Department of Sociology.

The MA in Sociology may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Sociology + Global Health Certificate
- Sociology + Public Health Certificate
- Sociology + Social Research Certificate
- Sociology + Women’s and Gender Studies Certificate

<td><strong>48 hours</strong></td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Read research and theoretical articles in peer-reviewed scholarly journals, with critical understanding of both quantitative and qualitative work.
- Prepare and write a literature review of current research and theory in an area of sociology (as a stand-alone piece of writing or as a section within a research paper or thesis).
- Use theories in formulating research questions and designing a research project.
- Identify theoretical concepts in sociology, trace their historical development, and discuss how they are used, operationalized, and interpreted in current research.
- Write a proposal for a research project, identifying research questions and selecting a design and method appropriate for answering the research questions.
- Understand the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects.
Degree Requirements

Course Requirements

- SOC 404 CLASSICAL AND MODERN THEORY
- SOC 405 SOCIOLOGICAL PERSPECTIVES
- SOC 411 SOCIAL RESEARCH
- SOC 412 DATA ANALYSIS
  or SOC 413 QUALITATIVE METHODS
- One of the following courses:
  - SOC 414 LITERATURE REVIEW WRITING PROJECT
  - SOC 415 WRITING A RESEARCH PAPER
  - SOC 500 THESIS RESEARCH
- Seven Sociology electives

Students entering without an undergraduate course in introductory statistics with a grade of B- or better are required to take SOC 402 STATISTICS FOR THE SOCIAL SCIENCES. SOC 402 carries graduate credit and can be counted among the 12 courses for the degree.

Students receiving more than two incompletes will not be allowed to register for courses until the incompletes are resolved.

The Writing Project

Master of Arts in Sociology with Thesis

The design for the thesis project may be developed in SOC 411SOCAL RESEARCH and SOC 412 DATA ANALYSIS or SOC 413 QUALITATIVE METHODS. A student selects a faculty mentor and together they set up a committee with two additional faculty members. A thesis proposal hearing is required at the start of the project and an oral presentation at its completion. Those students desiring to complete the Thesis Option are required to take SOC 500 THESIS RESEARCH.

Master of Arts in Sociology with Research Project

Students design and carry out a research project and prepare a final research report. The student selects a faculty mentor and a second reader. This project can be based on research begun in SOC 412 DATA ANALYSIS, SOC 413 QUALITATIVE METHODS, or a substantive course. Those students desiring to complete the Research Project are required to take SOC 415 WRITING A RESEARCH PAPER.

Master of Arts in Sociology with Literature Review or Analytical Essay

The student prepares a literature review or analytical essay indicating mastery of a body of literature. It is often
started in conjunction with one of the specialized courses. The student selects a faculty mentor and a second reader. It is recommended that those students desiring to complete the Literature Review take SOC 414 LITERATURE REVIEW WRITING PROJECT.

**Master of Arts in Sociology with Organizational Case Study**

The student will prepare a comprehensive case study that analyzes an organization that they will select. Students will use scholarly literature and other reading materials to inform the organizational theory upon which their analysis will be based. The student selects a faculty mentor and a second faculty member who has some familiarity with the sector in which the organization is located. Those students desiring to complete the Organizational Case Study are required to take SOC 495 SPECIAL TOPICS IN SOCIOLOGY.

**Software Engineering (MS)**

The MS in Software Engineering provides students with marketable skills in methodologies, techniques, and tools of software engineering. The program encompasses the entire life-cycle of software development including requirements, analysis, design, construction, testing, and project management. Emphasis is placed on current and emerging technologies for engineering large and complex distributed software systems. According to the US Bureau of Labor Statistics, software engineer has been among the fastest growing IT professions in the US.

**Concentrations**

**Software Development Concentration**

This concentration addresses the foundations, methodologies, and tools for developing high quality large-scale software systems, with an emphasis on the technical issues of software development.

**Software Architecture Concentration**

This concentration addresses the management and design of large-scale software systems.

**Real-Time Game Systems Concentration**

This concentration addresses the foundations, methodologies, and tools for developing large-scale computer games and entertainment software systems.

**Entrepreneurship and Technology Leadership Concentration**

In the current IT environment, software development projects are increasingly treated as business propositions in which the product under development must deliver real and measurable value to the organization. As such, Software Engineers often need increasingly sophisticated knowledge of the business environment in order to advance in their careers beyond the purely technical track. This concentration will bridge the areas of software engineering and business, by equipping students to understand the financial, marketing, management, and entrepreneurial context in which most software development projects are executed.

The concentration will include course offerings from both CDM and Kellstadt Graduate School of Business. It offers the Software Engineering students the opportunities of immersing themselves in a classroom setting in which the focus is purely business oriented, as opposed to technology oriented. This concentration aims to prepare Software Engineering students for career paths in software technology focused entrepreneurship or senior technology leadership positions (CIO’s, CTO’s) in businesses.

Learning Outcomes

Students will be able to:

- Model the structure and behavior of a software system using UML class diagrams and state diagrams.
- Design a solution to a given problem using one or more design patterns and implement the design in a programming language.
- Apply software testing and quality assurance techniques at the module level, and understand these techniques at the system and organization level.
- Understand common lifecycle processes including waterfall (linear), incremental approaches (such as Unified process), and agile approaches.
- Work collaboratively in a small team environment to develop a moderate-sized software system from conceptualization to completion, including requirements elicitation, system modeling, system design, implementation, unit and system testing, integration, source code management, configuration management, and release management.
- Prepare technical documents and make presentations on various aspects of a software development project, including the technical aspects (architecture, design, quality assurance) as well as the managerial aspects (planning, scheduling, and delivery).
- Use electronic communication tools to effectively collaborate with team members in different countries with different cultural backgrounds.

Concentration Specific Outcomes

Software Development

Students will be able to:

- Design and implement both the server and client components of a client-server application, such as a web-based application.

Software Architecture

Students will be able to:

- Know commonly used architectural patterns, styles, and tactics.
  - Identify their impact upon various quality concerns such as scalability, performance, and reliability.

Project Management

Students will be able to:

- Give examples of the primary project management activities associated with each major software engineering activity including requirements elicitation, analysis and specification; analysis and design; implementation; testing; deployment; maintenance; and version control.

Gaming & Entertainment Technologies

Students will be able to:

- Apply the principles and techniques of software engineering in the architectural design, detail design, and implementation of computer games or other entertainment focused software applications.

Entrepreneurship & Technology Leadership

Students will be able to:

- Develop a business plan for a start-up software business to be presented to a venture capitalist.
Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory, Foundation, Advanced, and Elective course selections are determined by the concentration chosen.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.

Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.

- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Entrepreneurship and Technology Leadership
- Real-Time Game Systems
- Software Architecture
- Software Development
Software Development Concentration

Course Requirements

Introductory Courses

- CSC 400 DISCRETE STRUCTURES FOR COMPUTER SCIENCE
- CSC 401 INTRODUCTION TO PROGRAMMING
- CSC 402 DATA STRUCTURES I
- CSC 403 DATA STRUCTURES II
- CSC 406 SYSTEMS I
- CSC 407 SYSTEMS II

Foundation Courses

- SE 430 OBJECT ORIENTED MODELING
  or SE 441 CONTINUOUS DELIVERY AND DEVOPS
- SE 433 SOFTWARE TESTING AND QUALITY ASSURANCE
- SE 450 OBJECT-ORIENTED SOFTWARE DEVELOPMENT
- SE 475 MANAGING GLOBALLY DISTRIBUTED SOFTWARE DEVELOPMENT
  or SE 477 SOFTWARE AND SYSTEMS PROJECT MANAGEMENT

Advanced Courses

- CSC 435 DISTRIBUTED SYSTEMS I
- SE 459 AGILE SOFTWARE DEVELOPMENT
- SE 480 SOFTWARE ARCHITECTURE I

Major Elective Courses

SE courses in the 421-699 range and courses from the list below qualify as Major Elective Courses. Students must take three (3) major elective courses.

Software Development

- SE 452 OBJECT-ORIENTED ENTERPRISE COMPUTING
- SE 453 ARCHITECTURE AND FRAMEWORKS FOR DEVELOPING CLIENT APPLICATIONS
- SE 459 AGILE SOFTWARE DEVELOPMENT
- SE 482 REQUIREMENTS ENGINEERING
- SE 533 SOFTWARE VALIDATION AND VERIFICATION
- SE 560 STRUCTURED DOCUMENT INTERCHANGE AND PROCESSING
- CSC 438 FRAMEWORK FOR WEB APPLICATION DEVELOPMENT
- CSC 453 DATABASE TECHNOLOGIES
- CSC 461 OPTIMIZED C++
- CSC 462 C++ MULTITHREADING
- CSC 471 MOBILE APPLICATION DEVELOPMENT FOR IOS
- CSC 472 MOBILE APPLICATION DEVELOPMENT FOR ANDROID
- CSC 552 CONCURRENT SOFTWARE DEVELOPMENT

Software Architecture

- SE 457 SERVICE-ORIENTED ARCHITECTURE
- SE 480 SOFTWARE ARCHITECTURE I
- SE 456 ARCHITECTURE OF REAL-TIME SYSTEMS
- SE 549 MODEL-DRIVEN SOFTWARE DEVELOPMENT
- SE 554 ENTERPRISE COMPONENT ARCHITECTURE
- SE 581 SOFTWARE ARCHITECTURE II

Computer Security

- CNS 450 DIGITAL FORENSIC TECHNIQUES
- SE 525 SOFTWARE SECURITY ARCHITECTURE
- SE 526 SOFTWARE SECURITY ASSESSMENT
- CSC 439 COMPUTER SECURITY
Data Science

- CSC 423 DATA ANALYSIS AND REGRESSION
- CSC 424 ADVANCED DATA ANALYSIS
- CSC 425 TIME SERIES ANALYSIS AND FORECASTING
- CSC 453 DATABASE TECHNOLOGIES
- CSC 465 DATA VISUALIZATION
- CSC 478 PROGRAMMING MACHINE LEARNING APPLICATIONS
- CSC 529 ADVANCED DATA MINING
- CSC 555 MINING BIG DATA
- CSC 575 INTELLIGENT INFORMATION RETRIEVAL
- IS 467 FUNDAMENTALS OF DATA SCIENCE

Distributed Systems

- CSC 435 DISTRIBUTED SYSTEMS I
- CSC 536 DISTRIBUTED SYSTEMS II
- CSC 552 CONCURRENT SOFTWARE DEVELOPMENT

Project Management

- CNS 533 ENTERPRISE SECURITY INFRASTRUCTURE CONTROLS AND REGULATORY COMPLIANCE
- SE 475 MANAGING GLOBALLY DISTRIBUTED SOFTWARE DEVELOPMENT
- SE 529 SOFTWARE RISK MANAGEMENT
- SE 579 ANALYTICS AND DATA MINING IN SOFTWARE ENGINEERING
- IS 556 ENTERPRISE PROJECT MANAGEMENT
- IS 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
- IS 565 IT OUTSOURCING
- IS 560 ENTERPRISE SYSTEMS

User Centered Development

- HCI 430 PROTOTYPING AND IMPLEMENTATION
- HCI 440 INTRODUCTION TO USER-CENTERED DESIGN
  - or HCI 441 INTRODUCTION TO USER-CENTERED DEVELOPMENT
- SE 453 ARCHITECTURE AND FRAMEWORKS FOR DEVELOPING CLIENT APPLICATIONS
- SE 546 SOFTWARE ARCHITECTURE AND DESIGN FOR DESKTOP APPLICATIONS

Programming Languages and Compiler

- SE 533 SOFTWARE VALIDATION AND VERIFICATION
- CSC 447 CONCEPTS OF PROGRAMMING LANGUAGES
- CSC 448 COMPILER DESIGN
- CSC 548 ADVANCED COMPILER DESIGN
- CSC 553 FORMAL SEMANTICS OF PROGRAMMING LANGUAGES

Gaming and Entertainment Technology

- SE 456 ARCHITECTURE OF REAL-TIME SYSTEMS
- GAM 453 TOOL PROGRAMMING FOR GAME DEVELOPMENT
- GAM 475 GAME ENGINE PROGRAMMING I
- CSC 486 REAL-TIME NETWORKING
- GAM 575 GAME ENGINE PROGRAMMING II

Software Engineering Research

- SE 695 MASTER'S RESEARCH (4 credits) and SE 696 MASTER'S PROJECT (4 credits)
  - or SE 695 MASTER'S RESEARCH (8 credits) and SE 698 MASTER'S THESIS (0 credits)

The Master's Project or Thesis must represent an original contribution to the area, and may include system development, empirical studies, or theoretical work. The scope and the details of the research project will be determined by the research supervisor, and must be approved by the student's academic advisor.

CDM Open Electives

Students must complete one (1) CDM Open Elective. Any CNS, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or TDC course in the 421-699 range qualifies. Credit for courses taken outside of the school will only be given if
approved by a faculty advisor.

**Capstone**

Students must complete the following courses as a sequence in consecutive quarters.

- SE 491 SOFTWARE ENGINEERING STUDIO
- SE 591 SOFTWARE ENGINEERING STUDIO II

**Studio Sequence Substitution Policy**

Software Engineering (SE) Studio sequence is a requirement for MS SE students. It can only be substituted for students who have had industrial experience in team software development projects. For those students with sufficient experience, they must complete a MS project or thesis in lieu of SE Studio.

Substitution of SE Studio must be approved in advance. Student should seek such approval no later than the second quarter after starting the Foundation phase of the program. The request for substitution should be submitted to Software Engineering Program Committee (SE-PC) and the decision will be made by the SE-PC in consultation with the student's advisor.

Each applicant should provide supporting materials of his/her experience in software development, including resume, and letter(s) from the project manager describing the applicant's role in the projects.

All approvals of substitution will be contingent upon the applicant's completion of a MS project or thesis for 8 credit hours. Any deviation from that must be approved by the SE-PC as well.

Software Engineering Research
- SE 695 MASTER’S RESEARCH (4 credits) and SE 696 MASTER’S PROJECT (4 credits)
  or SE 695 MASTER’S RESEARCH (8 credits) and SE 698 MASTER’S THESIS (0 credits)

The Master's Project or Thesis must represent an original contribution to the area, and may include system development, empirical studies, or theoretical work. The scope and the details of the research project will be determined by the research supervisor, and must be approved by the student's academic advisor.

CDM Open Elective Courses

Students must complete one (1) CDM Open Elective. Any CNS, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or TDC course in the 421-699 range qualifies. Credit for courses taken outside of the school will only be given if approved by a faculty advisor.
Capstone

Students must complete the following courses as a sequence in consecutive quarters.

- GAM 695 MASTER'S GAME RESEARCH STUDY and CSC 588 REAL-TIME MULTITHREADED ARCHITECTURE
- or SE 491 SOFTWARE ENGINEERING STUDIO and SE 591 SOFTWARE ENGINEERING STUDIO II
- or GAM 690 GAME DEVELOPMENT STUDIO I and GAM 691 GAME DEVELOPMENT STUDIO II

Studio Sequence Substitution Policy

Software Engineering (SE) Studio sequence is a requirement for MS SE students. It can only be substituted for students who have had industrial experience in team software development projects. For those students with sufficient experience, they must complete a MS project or thesis in lieu of SE Studio.

Substitution of SE Studio must be approved in advance. Student should seek such approval no later than the second quarter after starting the Foundation phase of the program. The request for substitution should be submitted to Software Engineering Program Committee (SE-PC) and the decision will be made by the SE-PC in consultation with the student's advisor.

Each applicant should provide supporting materials of his/her experience in software development, including resume, and letter(s) from the project manager describing the applicant's role in the projects.

All approvals of substitution will be contingent upon the applicant's completion of a MS project or thesis for 8 credit hours. Any deviation from that must be approved by the SE-PC as well.

Entrepreneurship and Technology Leadership Concentration

Course Requirements

Introductory Courses

- CSC 400 DISCRETE STRUCTURES FOR COMPUTER SCIENCE
- CSC 401 INTRODUCTION TO PROGRAMMING
- CSC 402 DATA STRUCTURES I
- CSC 403 DATA STRUCTURES II
- CSC 406 SYSTEMS I
- CSC 407 SYSTEMS II

CDM Foundation Courses

- SE 430 OBJECT ORIENTED MODELING
- SE 450 OBJECT-ORIENTED SOFTWARE DEVELOPMENT
- SE 477 SOFTWARE AND SYSTEMS PROJECT MANAGEMENT

Business (Kellstadt) Foundation Courses

- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 570 ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT

Major Elective Courses

Students must take three (3) courses from the list of CDM electives below and two (2) courses from the list of Kellstadt courses listed below.

CDM Electives

Students may select any SE elective or the following courses:

- CSC 453 DATABASE TECHNOLOGIES
The following courses are recommended:

- SE 433 SOFTWARE TESTING AND QUALITY ASSURANCE
- SE 452 OBJECT-ORIENTED ENTERPRISE COMPUTING
- SE 482 REQUIREMENTS ENGINEERING
- SE 475 MANAGING GLOBALLY DISTRIBUTED SOFTWARE DEVELOPMENT
- SE 529 SOFTWARE RISK MANAGEMENT
- SE 554 ENTERPRISE COMPONENT ARCHITECTURE
- SE 579 ANALYTICS AND DATA MINING IN SOFTWARE ENGINEERING

Students also have an option of pursuing Master's research projects to fulfill their CDM elective requirements.

- SE 695 MASTER'S RESEARCH (4 credits) and SE 696 MASTER'S PROJECT (4 credits)
- or SE 695 MASTER'S RESEARCH (8 credits) and SE 698 MASTER'S THESIS (0 credits)

The Master's Project or Thesis must represent an original contribution to the area, and may include system development, empirical studies, or theoretical work. The scope and the details of the research project will be determined by the research supervisor, and must be approved by the student's academic advisor.

**Business (Kellstadt) Elective Courses**

- MGT 502 OPERATIONS MANAGEMENT
- MGT 530 LEADERSHIP IN ORGANIZATIONS
- MGT 535 CHANGE MANAGEMENT AND CONSULTING
- MKT 555 DECISIONS IN MARKETING MANAGEMENT
- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- IS 535 INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
- IS 570 ENTERPRISE SYSTEM IMPLEMENTATION

**CDM Open Elective Courses**

Students must complete one (1) CDM Open Elective Course. Any CNS, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or TDC course in the 421-699 range qualifies. Credit for courses taken outside of the school will only be given if approved by a faculty advisor.

**Capstone**

Students must complete the following courses as a sequence in consecutive quarters.

- SE 491 SOFTWARE ENGINEERING STUDIO
- SE 591 SOFTWARE ENGINEERING STUDIO II

**Studio Sequence Substitution Policy**

Software Engineering (SE) Studio sequence is a requirement for MS SE students. It can only be substituted for students who have had industrial experience in team software development projects. For those students with sufficient experience, they must complete a MS project or thesis in lieu of SE Studio.

Substitution of SE Studio must be approved in advance. Student should seek such approval no later than the second quarter after starting the Foundation phase of the program. The request for substitution should be submitted to Software Engineering Program Committee (SE-PC) and the decision will be made by the SE-PC in consultation with the student's advisor.

Each applicant should provide supporting materials of his/her experience in software development, including resume, and letter(s) from the project manager describing the applicant's role in the projects.

All approvals of substitution will be contingent upon the applicant's completion of a MS project or thesis for 8 credit hours. Any deviation from that must be approved by the SE-PC as well.
DePaul's innovative new MA program in Spanish provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the "global village" of today's world or in multiethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, businesspeople, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Spanish may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Spanish + Digital Humanities Certificate
- Spanish + Teaching English to Speakers of Other Languages (TESOL) Certificate

### Degree Requirements

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>48 hours</strong></td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

### Degree Requirements

#### Course Requirements

The curriculum of the MA in Spanish will consist of twelve courses (48 quarter credit hours), divided into two parts:
1. A core curriculum of four courses (16 quarter credit hours) required of all students, and
2. Eight courses (32 quarter credit hours) in the language area, which must include an approved “cluster” of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest.

Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes SPN). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight “language area” courses in the student’s program.

**Core Curriculum**

The core curriculum consists of the following four courses:

- MOL 401 PROFESSIONAL FOUNDATIONS
- MOL 402 LANGUAGE, SELF AND SOCIETY
- MOL 403 COMMUNITIES OF PRACTICE
- MOL 496 MAMOL CAPSTONE

In addition, all three-hundred level courses in the respective languages are offered simultaneously as 400-level electives to complete the MA program. These 400-level courses carry different requirements than the lower-level courses.

**Additional Requirements**

Additional requirements include:

- ACTFL Oral Proficiency Interview
- Portfolio Project

All students must attain a rating of at least “Advanced Low” from the standardized Oral Proficiency Interview (OPI) of the American Council on Teaching Foreign Languages (ACTFL).

The service learning experience will involve work within an environment where the student can apply her or his linguistic expertise, as a volunteer, contributor, intern, or employee. This environment might be a community group; a social service or agency; a professional association; or an artistic organization. This experience should ideally contribute to the student’s portfolio project.

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program or a final project with written critical assessment. Final projects may include a community service experience, internship, performance and creative work, thesis, or translation.

**Thesis Option**

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework. The thesis should address the area of interest of the candidate’s course “cluster.”

**Graduation Grade Point Average Requirement**

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

---

**Student Handbook**

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

**Language Proficiency for Admission**
In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “intermediate high” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT)

**Transfer Credit**

Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply “transfer” credit toward their MA programs in Modern Languages must complete the college transfer request form.

**Graduation with Distinction**

Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

**Special Education (MEd)**

The Master of Education in Special Education will prepare you to teach students with exceptionalities in kindergarten through 12th grade in a variety of urban and suburban educational settings, including public and private schools. By completing the Special Education program, you will be eligible for the Illinois Learning and Behavior Specialist I (LBS1) license, provided you complete additional state requirements.

The program contains three concentrations:

1. Pre-service Special Education (PSE) for candidates seeking an initial Illinois licensure.
2. Special Education for Teachers (SET) for candidates who already hold a current and valid Illinois Professional Educator License (PEL).
3. Special and Elementary Education (SEE) for candidates seeking an initial Illinois licensure with endorsements in special education and elementary.

The PSE concentration has two tracks, a 6-quarter general program and a one-year residency program. The residency track is offered in collaboration with the Academy for Urban School Leadership (AUSL).

**Licensure**

Pre-service Special Education (PSE) candidates are eligible for Illinois licensure with an LBS1 endorsement (preK-age 21) upon completion of the Master's program, and any additional Illinois State Board of Education requirements (e.g., licensure tests, edTPA, etc.).

Special Education for Teachers (SET) candidates pursuing a Master's are eligible for an LBS1 endorsement (preK-age 21) upon completion of the program and any additional Illinois State Board of Education requirements (e.g., licensure tests). Endorsement-only options (without a Master's degree) for either preK-age 21 or for the grade band of the initial PEL are also available. Note: Courses in the SET concentration are designed for practicing educators and are not open to students seeking an initial Illinois teaching license.

Special and Elementary Education (SEE) candidates are eligible for Illinois licensure with an LBS1 endorsement (preK-age 21) and an Elementary Education Endorsement (1-6).
Learning Outcomes

Students will be able to:

- Understand the philosophies, theories, laws, diverse and historical points of view, and human issues related to special education and how they influence assessment, planning, implementation, and program evaluation, as well as families, cultures, schools, special education services, school systems, and agencies.
- Understand characteristics of typical and atypical children and how exceptional learning needs interact with human development, social and academic learning, life skills, family, and community.
  - Respond to the abilities and behaviors of children with learning disabilities, cognitive disabilities, or physical and multiple disabilities.
- Understand characteristics of typical and atypical children and how exceptional learning needs interact with human development, social and academic learning, life skills, family, and community.
- Understand characteristics of typical and atypical children and how exceptional learning needs interact with human development, social and academic learning, life skills, family, and community.
- Understand characteristics of typical and atypical children and how exceptional learning needs interact with human development, social and academic learning, life skills, family, and community.
- Understand the effects of exceptional conditions on learning. Students should understand the interrelationships of beliefs, traditions, language, and cultures with students, families, schools and the student's exceptional condition and apply these understandings when providing meaningful and challenging learning experiences.
- Demonstrate proficiency in the use of mathematics.
  - Understand, communicate, and connect the major concepts, procedures, and reasoning processes of mathematics.
  - Promote students' mathematical thinking skills.
- Have a general understanding of reading and reading instruction and know how to assess, teach, and support the literacy education of students with disabilities.
- Understand the fundamental concepts and principles related to the natural and social sciences and know how to assess, teach, and support the science and social science education of students with disabilities.
- Use a repertoire of strategies to individualize instruction, promote development and positive learning results, and modify learning environments for students accessing the general curriculum.
  - Promote students' learning and generalization of critical thinking, problem solving, and performance skills and increase self-awareness, -management, -control, -reliance, and -esteem.
- Use a repertoire of strategies to individualize instruction, promote development and positive learning results, and modify learning environments for students accessing an independence curriculum. Students should promote students’ learning and generalization of critical thinking, problem solving, and performance skills and increase self-awareness, -management, -control, -reliance, and -esteem.
- Create learning environments that foster active engagement in learning, cultural understanding, safety, positive social interactions, independence, self-motivation, -direction, -advocacy, and personal empowerment. Students should intervene and teach students to respond to current expectations. Students should help regular educators, paraprofessionals, and volunteers sustain positive learning environments.
- Understand language development and use strategies and assistive technologies to teach and support students’ communication skills. Students should be able to use an effective language model and match communication methods and resources to students’ proficiency, primary language, and culture.
- Work in collaboration with students, families, and other professionals, create, monitor, and modify appropriate and effective individualized educational plans for students accessing a general curriculum, that include challenging yet achievable goals/objectives, powerful instructional strategies, appropriate materials,
transition plans, and appropriate technologies.

- Work in collaboration with students, families, and other professionals, create, monitor, and modify appropriate and effective individualized educational plans for students accessing an independence curriculum, that include challenging yet achievable goals/objectives, powerful instructional strategies, appropriate materials, transition plans, and appropriate technologies.
- Use assessment results to identify needs, make wise educational decisions, and to plan, implement, and adjust instruction. Students should understand legal, technical, and technological aspects of assessment.
  - Collaborate with educators, families and professionals to conduct appropriate, multifaceted assessments and monitor progress.
- Enable students with disabilities to learn about and to use assistive technology.
- Undertake independent inquiry and use technology as one tool to assist him or her in the overall inquiry process.
- Be aware of the multiple roles of special educators, the need for sensitivity to the many aspects of diversity and exceptionality, and the serious, complex, legal and ethical issues involved in special education.
  - Engage in on-going reflection and professional development and adjust practice appropriately.
- Effectively collaborate with families, educators, and other professionals in culturally responsive ways to address student educational needs, advocate for students, plan effective transitions, and serve as a resource to colleagues and community.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural context to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional, ethical, and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Degree Requirements

Concentrations are available in Pre-service Special Education (PSE), Special and Elementary Education (SEE), and Special Education for Teachers (SET).

Specific degree requirements are determined according to the Concentration chosen by the student. Please review the concentration requirements pages for more information.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Special and Elementary Education (SEE)
- Pre-Service Special Education (PSE)
- Special Education for Teachers (SET)

Pre-Service Special Education Concentration

Content Area Prerequisites

A transcript evaluation will be completed upon admission to the program. If deficiencies exist, they must be completed prior to student teaching.

- College coursework in Writing
- College coursework in Fine Arts or Literature
- College coursework in Mathematics
- College coursework in Science
- College coursework in American Government or U.S. History
- College coursework in Social Science
Advanced Standing

All College of Education students have a two-stage admission process. Upon admission, students begin as Pre-Education Teacher Candidates and are allowed to take only a limited number of courses. The following requirements must be met to continue in the program and take courses in the Advanced Standing category:

- Pass the Illinois Test of Academic Proficiency (TAP) or have an ACT + Writing Composite score of 22 (with 19 on Writing), or an SAT (critical reading and mathematics) composite score of 1030 (with 450 on Writing)
- Achieve a cumulative GPA of 3.00
- Complete a minimum of 8 quarter hours at DePaul University
- Submit the Advanced Standing Application

Course Requirements

Courses requirements: 48 quarter hours required, grade of C or better required.

- LSI 402 INSTRUCTION AND DIFFERENTIATION IN SPECIAL EDUCATION
- LSI 403 CLASSROOM AND BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION
- LSI 405 TEACHING LITERACY TO EXCEPTIONAL LEARNERS
- LSI 409 TEACHING STUDENTS WITH SIGNIFICANT DISABILITIES
- LSI 410 TEACHING MATHEMATICS TO EXCEPTIONAL LEARNERS
- LSI 416 PRACTICUM IN SPECIAL EDUCATION I (2 quarter hours)
- LSI 417 PRACTICUM IN SPECIAL EDUCATION II (2 quarter hours)
- LSI 418 PRACTICUM IN SPECIAL EDUCATION III (2 quarter hours)
- LSI 419 TEACHING LITERACY LAB (2 quarter hours)
- LSI 421 FORMAL ASSESSMENT IN SPECIAL EDUCATION
- LSI 440 SURVEY OF EXCEPTIONAL LEARNERS: PSYCHOLOGY AND EDUCATION
- BBE 411 FUNDAMENTALS OF ENGLISH LANGUAGE LEARNER EDUCATION
- SCG 401 ADVANCED LIFESPAN DEVELOPMENT
- Choose one from the following:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements

- Completion of all Content Area Prerequisites, Pre-Education, and Advanced Standing courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area tests (see below)

Clinical Requirements

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education.
- Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.

Academic requirements (above) due one quarter before expected quarter of student teaching.
Clinical requirements (above) are completed as course requirements.
Individual school districts may have additional requirements (application, training, background check, etc.)
Student Teaching: 10 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section.

- LSI 470 STUDENT TEACHING IN SPECIAL EDUCATION (6 credit hours, grade of B- or better required)
- LSI 471 STUDENT TEACHING IN SPECIAL EDUCATION SEMINAR (4 credit hours, grade of C or better required)

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Special Education students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply).
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Special Education for Teachers Concentration

Course Requirements

Course Requirements: 44 hours required, grade of C or better required

- LSI 402 INSTRUCTION AND DIFFERENTIATION IN SPECIAL EDUCATION
- LSI 403 CLASSROOM AND BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION
- LSI 405 TEACHING LITERACY TO EXCEPTIONAL LEARNERS
- LSI 409 TEACHING STUDENTS WITH SIGNIFICANT DISABILITIES
- LSI 410 TEACHING MATHEMATICS TO EXCEPTIONAL LEARNERS
- LSI 421 FORMAL ASSESSMENT IN SPECIAL EDUCATION
- LSI 440 SURVEY OF EXCEPTIONAL LEARNERS: PSYCHOLOGY AND EDUCATION
- LSI 457 SEMINAR AND RESEARCH IN SPECIAL EDUCATION
- BBE 411 FUNDAMENTALS OF ENGLISH LANGUAGE LEARNER EDUCATION
- Choose one of the following:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION
- Choose one of the following:
  - SCG 401 ADVANCED LIFESPAN DEVELOPMENT
  - SCG 402 PSYCHOLOGY OF LEARNING
  - SCG 403 HUMAN DEVELOPMENT AND LEARNING; ELEMENTARY
  - SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
  - SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Practicum Courses: 8 hours required, grade of B+ or better required
The program requires two summer practicum experiences. Each practicum involves six full weeks of intensive supervised field experience in a cooperating school that operates an extended school year program. Candidates must apply for each practicum, and upon approval they are placed in appropriate summer practicum sites by the program. Practicum sites may also screen candidates prior to accepting them for placement. Candidates will assume full teaching responsibility and will have weekly opportunities for feedback and discussion of issues and problems encountered. A grade of B+ or better is required to participate in each summer practicum.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Special Education Master’s students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science.

Candidates who are conditionally admitted with an out-of-state (OOS) teaching license they required to transfer their license into Illinois, and therefore may also be required to take additional licensure tests. Students should work directly with ISBE to fulfill outstanding test requirements. These additional licensure tests may include the following:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math.
- EdTPA – an electronic portfolio that includes video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Usually completed during pre-service student teaching experience.

**Special and Elementary Education Concentration**

**Content Area Prerequisites**

A transcript evaluation will be completed upon admission to the program. If deficiencies exist, they must be completed prior to student teaching. Students in the Special & Elementary Education (SEE) program must complete general education content area coursework in the following ten areas:

- Physical Education or Health
- Fine Arts or Literature
- Mathematics
- 3 Science courses, one completed in each of the following areas:
  - Physical Science
  - Life Science
  - Earth/Space
- 4 Social Science courses, one completed in at least 4 of the following areas:
  - History
  - Political Science
  - Economics
  - Psychology
  - Sociology
  - Anthropology
  - Geography
Advanced Standing

All College of Education students have a two-stage admission process. Upon admission, students begin as Pre-Education Teacher Candidates and are allowed to take only a limited number of courses. The following requirements must be met to continue in the program and take courses in the Advanced Standing category:

- Pass the Illinois Test of Academic Proficiency (TAP) or meet the ISBE's requirements for a test waiver
- Achieve a cumulative GPA of 3.00
- Complete a minimum of 8 quarter hours at DePaul University
- Submit the Advanced Standing Application

Course Requirements

Teacher Candidate Courses requirements: 24 quarter hours required, grade of C or better required.

- LSI 442 SURVEY AND CHARACTERISTICS OF THE EXCEPTIONAL LEARNER
- LSI 402 INSTRUCTION AND DIFFERENTIATION IN SPECIAL EDUCATION
- T&L 409 PROFESSIONAL PRACTICE IN ELEMENTARY SCHOOLS
- SCG 401 ADVANCED LIFESPAN DEVELOPMENT
- SCG 408 EDUCATION AND SOCIETY
- BBE 411 FUNDAMENTALS OF ENGLISH LANGUAGE LEARNER EDUCATION

Advance Standing Courses requirements: 42 quarter hours required, grade of C or better required.

- LSI 403 CLASSROOM AND BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION
- LSI 405 TEACHING LITERACY TO EXCEPTIONAL LEARNERS
- LSI 409 TEACHING STUDENTS WITH SIGNIFICANT DISABILITIES
- LSI 410 TEACHING MATHEMATICS TO EXCEPTIONAL LEARNERS
- LSI 419 TEACHING LITERACY LAB (2 quarter hours)
- LSI 421 FORMAL ASSESSMENT IN SPECIAL EDUCATION
- LSI 461 COLLABORATIVE PRACTICE AND SPECIAL EDUCATION
- T&L 413 READING/LANGUAGE ARTS IN THE INTERMEDIATE GRADES
- T&L 415 TEACHING AND LEARNING ELEMENTARY SCHOOL SCIENCE
- T&L 416 TEACHING AND LEARNING ELEMENTARY SCHOOL MATHEMATICS
- T&L 418 LEARNING THROUGH THE ARTS

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements

- Completion of all Content Area Prerequisites, Pre-Education, and Advanced Standing courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area tests (see below)

Clinical Requirements

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education.
- Student Teaching Timeline and Deadlines
Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching. Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.

Academic requirements (above) due one quarter before expected quarter of student teaching. Clinical requirements (above) are completed as course requirements. Individual school districts may have additional requirements (application, training, background check, etc.)

Student Teaching: 14 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section.

- LSI 465 INDUCTION INTO THE FIELD OF EDUCATION (6 credit hours, grade of B- or better required)
- LSI 585 STUDENT TEACHING AND SEMINAR IN SPECIAL EDUCATION-ELEMENTARY EDUCATION (8 credit hours, grade of C or better required)

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Special Education students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply).
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required before Student Teaching (deadlines apply).
- Elementary Education Content Area Test, grades 1-6 (tests #197-200)
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Sport, Fitness and Recreation Leadership (MS) Online

The Sport, Fitness and Recreation Leadership program at DePaul seeks to provide a rich online learning environment that will facilitate the development of leaders in the areas of sport, fitness and recreation. Increasing content knowledge and developing leadership skills are essential outcomes of a graduate program. However, this program is based on a commitment to social justice, democracy, and critical engagement with ethical issues affecting students, clients and athletes. Our program assists current professionals in reflecting on and strengthening their own practice and challenging themselves and their colleagues to work effectively for justice and professional excellence.

Students use critical reflection to improve practice, engage in rigorous theoretical inquiry, and identify, address, and build coalitions around opportunities and problems in sport, fitness and recreation. The Sport, Fitness and Recreation Leadership program is designed for current kinesiology professionals specifically working in sport, fitness or recreation environments such as university athletics departments, health clubs, recreation and fitness centers, high schools and athletics clubs or leagues.

Students will enhance their skills, leadership, and professionalism, have an increased awareness of current events...
and issues, build a professional network, create a personal ethics code specific to their professional goals and complete research specific to their field.

Current professionals in the sport, fitness, and recreation settings have demanding and unconventional schedules that routinely include evening and weekend commitments. Therefore, all coursework in this program will be offered online. Attendance at two on-campus summer seminars is required, ideally face-to-face but accommodations for virtual attendance may be made if necessary.

## Learning Outcomes

Students will be able to:

- Provide leadership in their field in a professional manner.
- Demonstrate advanced content knowledge in kinesiology and administration related to sport, fitness and recreation programs.
- Demonstrate advanced content knowledge in marketing and communication.
- Acquire advanced content knowledge in areas related to health, wellness and care of athletes.
- Apply knowledge specific to their field and professional goals in research activity.
- Develop a thorough understanding of legal issues related to their area of expertise in kinesiology.
- Select resources to respond to current events and ethical issues in the area of sport, fitness and recreation.
- Build a professional network.
- Create a personal ethics code.
  - Versatile yet specific to their professional settings and goals, consistent with DePaul’s Vincentian principle, values and mission.

## College Requirements

### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language,
preparedness, attendance, punctuality, etc.)

- Demonstrates concern for and protection of safety and well-being of others

### Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

### Degree Requirements

#### Content Area Prerequisites

Sport, Fitness and Recreation Leadership students need to have an understanding that DePaul’s program requires students to enroll into a cohort. This model requires students to take two courses each quarter (online), with the plan to complete the program in two years. The cohort program also requires 2 on-campus (or virtual attendance if accommodations cannot be made) summer seminars between the first and second year, and after completion of second year coursework.

#### Course Requirements

**Core Curriculum Courses: 48 credit hours required**

- PE 400 INTRODUCTION TO THE SPORT, FITNESS AND RECREATION LEADERSHIP PROGRAM
- PE 410 ORGANIZATIONAL LEADERSHIP AND MANAGEMENT IN SPORT, FITNESS AND RECREATION
- PE 420 FACILITY AND RISK MANAGEMENT IN SPORT, FITNESS AND RECREATION
- PE 440 STRATEGIC COMMUNICATION AND MARKETING IN SPORT, FITNESS AND RECREATION
- PE 445 PROGRAM AND SPECIAL EVENTS MANAGEMENT IN SPORT, FITNESS AND RECREATION LEADERSHIP
- PE 450 PSYCHOLOGY OF SPORT BEHAVIOR AND ATHLETIC PERFORMANCE
- PE 460 ETHICS AND DIVERSITY IN SPORT, FITNESS AND RECREATION
- PE 430 ADVANCED HEALTH AND SCIENCE CONCEPTS IN SPORT, FITNESS AND RECREATION
- PE 435 ADVANCED CARE OF THE ATHLETE
- PE 470 LEGAL ISSUES IN SPORT, FITNESS AND RECREATION
- PE 480 FINANCE AND REVENUE GENERATION IN SPORT AND FITNESS
- A&S 493 DATA DRIVEN DECISION MAKING
On-Campus Summer Seminar: 4 credit hours required

There are 2 summer seminars required as the only face-to-face obligation of the program. Students will be required to attend a 3-day seminar after completion of the first year of the program, and again after completion of the second year. The seminar will consist of an on-campus colloquium that will provide students with the opportunity to connect and network with their peers, as well as current employers and leaders in various MSFRL fields from the Chicagoland area. It will also include an opportunity to learn, as we will invite local professionals within the field to present to the students. The last day of the seminar will be for the graduating students to present their research papers or projects. First year students will be required to observe these presentations as an example for their own research projects in the upcoming year. Therefore, each student will technically attend this seminar twice, first the summer after their 1st year, and then again the summer after their 2nd year. The difference will be the first year they will watch the graduate capstone/research presentations, and the second year they will present their own. Each year the local area professional lectures will change, so they will be able to attend new seminars each year.

- PE 442 ON-CAMPUS SEMINAR (2 qh)
- PE 490 ON-CAMPUS SEMINAR (2 qh)

Culminating Thesis or Research Project: 6 credit hours required

Students will be required to complete an individualized project upon completion of coursework for the degree. Each project will be specific to respective career choices and will be developed in the second year spring quarter. Projects will be presented during summer seminar.

- PE 555 RESEARCH IN SPORT, FITNESS AND RECREATION (2qh)
- PE 500 CAPSTONE IN SPORT, FITNESS AND RECREATION LEADERSHIP (2qh)

Academic Standards

Students must maintain a 3.0 average or higher to continue in the program. Any grade below a C will not count for credit toward completion of the program.

Strategy, Execution and Valuation (MBA)

The Strategy, Execution and Valuation (SEV) MBA concentration is a unique and innovative program for students seeking high level positions in corporate management, management consulting, investment banking, private equity and entrepreneurship. In this program, you will study the strategy, strategy execution and valuation of real companies in real time and learn to master the latest strategy frameworks, tools and valuation methods used by leading organizations. Graduates of the program emerge with highly marketable strategic-thinking skills and a deep understanding of the seamless connection between business strategy, execution, value creation and valuation.

Courses are presented in an executive seminar format and led by a team of top professors, executives and thought leaders. In these courses, you’ll create high-quality professional strategic analysis briefing reports and presentations on high performance companies, which will help you develop strategic analysis skills useful now and throughout your career. This concentration can be a valuable primary focus of your MBA studies or a secondary concentration that complements MBA concentrations in finance, entrepreneurship or other fields.

Highlights

In this concentration, you will learn:

- How to make a significant impact on the future of your organization and career by developing your strategic-thinking skills.
- How to evaluate and execute business strategies.
- Leading practices in strategic valuation and practical methods for driving valuations from strategic analysis by using the state-of-the-art tools of investment banks and research analysts.
- How to use strategy and valuation frameworks in real time to study and understand the performance of innovative high-performing companies.

Career Outlook
This concentration will prepare students for careers in all areas of corporate management, management consulting, investment banking, equity research, as well as prepare entrepreneurs. Graduates of the program have advanced to upper level management positions in many different industries.

| Core Requirements (varies with admission term and prior coursework) | 24-48 hours |
| Concentration Requirements (varies with admission term) | 24-36 hours |
| **Total hours required** | **48-72 hours** |

**Learning Outcomes**

Students will be able to:

- Use analytical and problem-solving skills in decision making.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

**MBA Core Requirements**

**Course Requirements for the Flexible and Evening Cohort MBA Programs**

- ACC 500 FINANCIAL ACCOUNTING
- ACC 554 MANAGEMENT ACCOUNTING AND CONTROL (2 HRS)
- ECO 502 SELECTED TOPICS IN MACROECONOMICS (2 HRS)
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 504 FUNDAMENTAL OPERATIONS MANAGEMENT (2 HRS)
- MGT 554 MANAGING HUMAN CAPITAL (2 HRS)
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

**Concentrations and Electives**

In addition to the required core courses, students in the Flexible MBA program have nine electives (36 credit hours) they can use to take courses in a specific area of interest. These electives are typically used by students to select one or more concentrations in the area(s) that offer the knowledge, skills, and abilities that best fit the student’s educational needs and interests. Students with an undergraduate degree in a business subject area may have fewer required electives.

Students in the Evening Cohort MBA program have nine required electives (36 credit hours) that offer knowledge in the areas of Management as well as Economics, Finance and Marketing.
Course Requirements for the Full-time Cohort MBA Program

- ACC 500 FINANCIAL ACCOUNTING
- ACC 555 MANAGEMENT ACCOUNTING FOR DECISION-MAKING
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 555 ECONOMICS FOR DECISION-MAKING
- FIN 555 FINANCIAL MANAGEMENT
- GSB 420 BUSINESS ANALYTICS TOOLS
- GSB 599 STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MKT 555 DECISIONS IN MARKETING MANAGEMENT

Concentrations and Electives

In addition to the required core courses, students in the Full-time Cohort MBA program will have seven electives (28 credit hours). Two of the required electives (MGT 584 and MGT 598) will be dedicated to a Vincentian service project. The five remaining electives can be used to take courses in a specific area of concentration or interest that offer the knowledge, skills, and abilities that best fit the student's educational needs and interests.

Core Courses may be waived, i.e., excused without additional course work required, if the student has previously completed equivalent course work with a grade of C or better. Professional experience may not be considered in meeting academic requirements. The interpretation, evaluation and final decision of course waivers are the prerogative of the Kellstadt Graduate School of Business.

If a student does not indicate a specific concentration of interest in the application for admission, the student will be assigned to the Custom MBA concentration.

Concentration Requirements

Course Requirements

The SEV concentration is comprised of three advanced courses, focused on practical application:

- SEV 611 RETURN DRIVEN STRATEGY
- SEV 621 STRATEGY EXECUTION
- SEV 641 STRATEGIC VALUATION

Supply Chain Management (MS)

In DePaul's MS in Supply Chain Management degree program, you will gain the leadership and technical skills necessary to manage supply chains. The program will provide you with a broad-based knowledge of sourcing, procurement, transportation, warehousing, production and distribution. You will have the flexibility to choose a focus, such as operations management, marketing, strategy, or risk and decision making involving supply chains. Professionals in the supply chain industry who aspire to leadership roles will especially benefit from this
Highlights

In this degree program, you will learn to:

- Critically evaluate supply chain design and potential improvements.
- Use qualitative and quantitative techniques to model complex supply chain phenomena.
- Deliver meaningful analyses and solutions that can be understood easily by a variety of audiences.
- Recognize global practices and identify regional differences, as well as understand the interconnectedness and interdependencies of global supply chain management.
- Make socially conscious supply chain decisions that consider the global availability of resources.

The program also leverages its location in Chicago, a major transportation and distribution hub, and the business school’s connections to supply chain management organizations to provide students with practical learning experiences and career connections.

Career Outlook

Graduates of the MS in Supply Chain Management will be on the career track for positions that include operations manager, purchasing manager, transportation manager, transportation planner, storage and distribution manager, purchasing agent, logistician, logistics analyst and risk management specialists, among others. Supply chain manager is listed by the Department of Labor as a “Bright Outlook” occupation that is “expected to grow rapidly in the next several years, will need large numbers of new job openings, or are new and emerging occupations.”

STEM Designation

DePaul’s Master of Science in Supply Chain Management is a Department of Homeland Security STEM-designated program. STEM designation is granted to programs that produce graduates educated in science, technology, engineering and/or math who help support U.S. economic competitiveness and growth. International students who earn degrees from STEM-designated programs can qualify to extend their post-graduation stay in the United States for Optional Practical Training (OPT). OPT provides an opportunity for international students to develop their careers while also helping meet the demand for STEM-educated professionals in the U.S. workforce. To find out more, contact the Kellstadt Graduate School of Business at kgsb@depaul.edu or (312) 362-8810.

Degree Requirements

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>48 hours</th>
</tr>
</thead>
<tbody>
<tr>

<td>48 hours</td>
</tr>
</tbody>
</table>

Course Requirements

The MS in Supply and Chain Management (MSSCM) program requires 12 courses by taking nine core courses and three elective courses in addition to the program prerequisites. Students without prior coursework in calculus and statistics must complete GSB 420 prior to registering for MGT 501.

Core Courses (9 Required courses)

- MGT 501 STRATEGIC SUPPLY CHAIN MANAGEMENT
- MGT 507 GLOBAL SOURCING AND PROCUREMENT
- MGT 508 QUALITY MANAGEMENT SYSTEMS
- MGT 509 PRODUCTION AND INVENTORY MANAGEMENT
- MGT 511 TRANSPORTATION AND LOGISTICS
- MGT 518 EMERGING ETHICAL ISSUES & TECHNOLOGY IN SUPPLY CHAIN MANAGEMENT
- MGT 545 MANAGING SERVICE OPERATIONS
- MGT 563 NEGOTIATION SKILLS
Elective Requirements (3 Courses)

- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 506 DECISION MAKING FOR MANAGERS
- MGT 515 SUSTAINABLE MANAGEMENT
- MGT 520 HUMANITARIAN SUPPLY CHAIN
- MGT 555 STRATEGIC MANAGEMENT OF HUMAN RESOURCES
- MGT 556 ETHICS AND LEADERSHIP
- MGT 557 INTERNATIONAL MANAGEMENT
- MGT 579 MANAGEMENT INTERNSHIP
- ECO 509 BUSINESS CONDITIONS ANALYSIS
- ECO 511 BUSINESS AND ECONOMIC FORECASTING
- ECO 525 STRATEGIC DECISION MAKING AND GAME THEORY
- ECO 555 ECONOMICS FOR DECISION-MAKING
- ECO 558 INTERNATIONAL MACROECONOMICS
- FIN 555 FINANCIAL MANAGEMENT
- FIN 562 RISK MANAGEMENT
- MIS 555 MANAGEMENT OF INFORMATION TECHNOLOGY
- MKT 550 BUSINESS TO BUSINESS MARKETING
- MKT 555 DECISIONS IN MARKETING MANAGEMENT
- MKT 559 EMERGING MARKETS
- MKT 576 EFFECTIVE BUSINESS COMMUNICATION

Degree Requirements

- Satisfactory completion of the college residency requirements.
- Satisfactory completion of the nine required courses and three elective courses.
- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program or the Kellstadt Graduate School of Business.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/ Supply Chain Management (MS)

The Master of Science in Supply Chain Management is designed for early career professionals to gain the leadership and technical skills necessary to manage supply chains. The program will provide you with a broad-based knowledge of sourcing, procurement, transportation, warehousing, production and distribution.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Supply Chain Management may apply to the Supply Chain Management (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Upon identifying themselves as a combined degree applicant, the GMAT/GRE requirement will be waived. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20
Students participating in this program will typically take the following three graduate level courses during their senior year:

- MGT 501 STRATEGIC SUPPLY CHAIN MANAGEMENT
- MGT 545 MANAGING SERVICE OPERATIONS
- MGT 563 NEGOTIATION SKILLS

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS in Supply Chain Management will be awarded upon completion of the remaining graduate level work.

**Sustainable Management (MS)**

The Master of Science (MS) in Sustainable Management program combines courses from the College of Science and Health, College of Communication and Kellstadt Graduate School of Business, providing you with a broad base of knowledge and skills for implementing sustainable strategies in today’s marketplace.

The program is designed for students with bachelor’s degrees, or students who have earned or are earning MBAs.

**Highlights**

DePaul’s MS in Sustainable Management program has a unique curriculum that will enable you to develop:

- The ability to assess, challenge and reframe traditional practices of management.
- Decision-making abilities based on organizational strategies.
- Analytical skills focusing on how societies and organizations value resources required to deliver goods and services.
- Technical skills to analyze and measure the economic, social and environmental impacts of organizational decisions.

**Career Outlook**

The U.S. Bureau of Labor projects growing professional opportunities for sustainability managers in a wide range of sectors, from services—including finance and health care—to manufacturing and construction.

**STEM Designation**

DePaul’s Master of Science in Sustainable Management is a Department of Homeland Security STEM-designated program. STEM designation is granted to programs that produce graduates educated in science, technology, engineering and/or math who help support U.S. economic competitiveness and growth. International students who earn degrees from STEM-designated programs can qualify to extend their post-graduation stay in the United States for Optional Practical Training (OPT). OPT provides an opportunity for international students to develop their careers while also helping meet the demand for STEM-educated professionals in the U.S. workforce. To find out more, contact the Kellstadt Graduate School of Business at kgsb@depaul.edu or (312) 362-8810.

DePaul University  
Autumn 2017-2018  
Page 517 of 2468
Learning Outcomes

Students will be able to:

- Recognize and evaluate assumptions, major alternative points of view and related theories, principles, and ideas relevant to the question, issue, and/or problem.
- Acquire both knowledge and skills that are broad, deep, and necessary to fulfill their professional goals.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Be knowledgeable about the differences among global economies, institutions, and cultures and will understand the implications these have on global management.

Degree Requirements

Course Requirements

To complete the Master of Science in Sustainable Management students must complete a total of 12 courses. Five courses are required core courses, four are selected from the list of business foundation electives and three are selected from the list of interdisciplinary electives.

Required Core Courses (5 courses)

- ACC 500 FINANCIAL ACCOUNTING
- ENV 506 EARTH RESOURCES AND HUMAN SOCIETY
- FIN 559 SUSTAINABLE VALUE CREATION
- GSB 595 DEVELOPING SUSTAINABLE STRATEGIES: PRACTICUM
- MGT 515 SUSTAINABLE MANAGEMENT

Business Foundation Electives (4 courses)

- ECO 509 BUSINESS CONDITIONS ANALYSIS
- GSB 420 APPLIED QUANTITATIVE ANALYSIS
- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 502 OPERATIONS MANAGEMENT
- MGT 508 QUALITY MANAGEMENT SYSTEMS
- MGT 535 CHANGE MANAGEMENT AND CONSULTING
- MGT 556 ETHICS AND LEADERSHIP
- MGT 595 SOCIAL ENTERPRISE
- MKT 559 EMERGING MARKETS

Interdisciplinary Electives (3 courses)

- ECO 423 ENVIRONMENTAL ECONOMICS AND PUBLIC POLICY
- ECO 424 MICROECONOMIC THEORY
- ECO 425 PUBLIC ECONOMICS
- GEO 441 GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT
- GSB 650 RELIGIOUS ETHICS AND ECONOMICS
- MLS 409 ENVIRONMENT AND SOCIETY
- MLS 452 BUSINESS, SOCIETY AND SUSTAINABLE DEVELOPMENT
- MLS 462 TOPICS IN BUSINESS ETHICS
- MPS 511 SUSTAINABLE INTERNATIONAL DEVELOPMENT
- MPS 604 SPECIAL TOPICS: Environmental policy/Sustainable Source Reduction
- MPS 611 MANAGEMENT OF INTERNATIONAL NGOs
- RE 798 SPECIAL TOPICS: Sustainable Building and Real Estate
Degree Requirements

1. Satisfactory completion of the college residency requirement.
2. Satisfactory completion of the 12 required courses, or their substitutes as approved by the Chair of the Management Department.
3. All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Undergraduate DePaul Degree/Sustainable Management (MS)

The Master of Science in Sustainable Management provides students with advanced knowledge of business systems and practices, focusing on sustainability, to create leaders for business, government and civic organizations.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Upon identifying themselves as a combined degree applicants, the GMAT/GRE requirement will be waived. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200

Students participating in this program will typically take the following three graduate level courses during their senior year:

- MGT 500 MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
- MGT 515 SUSTAINABLE MANAGEMENT
- MGT 535 CHANGE MANAGEMENT AND CONSULTING

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSHR will be awarded upon completion of the remaining graduate level work.
Sustainable Urban Development (MA)

Chicago faces many questions about its urban future:

- How can urban communities be made more sustainable?
- What should the city do with its old industrial sites?
- Can Chicago's transportation networks modernize?
- Where should the city invest its economic development dollars?
- What is the role for community organizations in these debates?

These questions are at the center of the Master of Arts in Sustainable Urban Development (MASUD). With classes in Chicago’s Loop and Lincoln Park campuses, this 13-course (52 credit hour) interdisciplinary graduate program integrates academics with practical learning. Instructors draw on the city’s resources and incorporate expert guest speakers, site visits, and industry-standard Geographic Information Systems (GIS) digital mapping and spatial analysis technology. A genuinely interdisciplinary program that incorporates perspectives from fields such as Urban Planning, Public Policy, Geography, Sociology, Public Service Management, Environmental Studies and Real Estate, the MASUD introduces students to sustainable urban development policy, data collection and analysis, planning processes, strategies for implementation, modes of communication, and evaluation mechanisms. The first year of study provides a theoretical background as well as an introduction to the technologies used in urban development and planning. The second year of the curriculum is dedicated to teaching advanced courses and completing a required internship and a capstone/portfolio component.

The MA in Sustainable Urban Development may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Sustainable Urban Development + Community Development Certificate
- Sustainable Urban Development + Global Health Certificate
- Sustainable Urban Development + Metro Planning and Development Certificate
- Sustainable Urban Development + Public Health Certificate
- Sustainable Urban Development + Social Research Certificate

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Identify and describe the practical and theoretical links between sustainable urban development and issues of economic development, community development, social justice and the environment.
- Define and discuss interdisciplinary perspectives from subject areas including, but not limited to, geography, sociology, public policy studies, anthropology, and urban planning.
- Practice and apply critical insights associated with local urban development issues.
- Articulate details about strategies being used to transform U.S. urban areas to make them more environmentally, economically and socially sustainable.
- Define and describe contemporary urban issues and debates by citing and critiquing contemporary scholars and through employing either qualitative or quantitative methodologies.
- Formulate a cogent research question about the character of an urban, socio-cultural, or environment-society phenomenon and express that question in the form of a research plan or proposal.
- Identify, collect and assess data from either primary (including field work), or secondary sources.
- Articulate and present publicly an assessment of critical social, environmental and economic issues facing contemporary U.S. cities.
- Explain and analyze the structure of urban processes through case study analysis.
- Recognize the significant urban challenges posed by problems relating to brownfields, land use, neighborhood decline, and transportation, and offer solutions drawing on literature and/or primary data collection.
• Use with competence geographical information systems and/or other technology to assess and analyze sustainable urban development and design.
• Exhibit a range of practical and communication skills, including but not limited to:
  ■ Conducting independent research and writing.
  ■ Conducting research and writing as part of a team.
  ■ Conducting research and analysis for a community client or other third party.
  ■ Engaging in critical and analytical thinking.
  ■ Creating and delivering a presentation.
  ■ Writing a 10-page research paper or compiling a scholarly poster.

Degree Requirements

Course Requirements
Students complete 13 courses (52 credit hours).

Required Core (6 courses)

• SUD 401 SUSTAINABLE URBAN DEVELOPMENT I: PLANNING, POLICY & COMMUNITY DEVELOPMENT
• SUD 402 SUSTAINABLE URBAN DEVELOPMENT II: GREEN INFRASTRUCTURE & THE ENVIRONMENT
• SUD 403 BROWNFIELDS REDEVELOPMENT: PRACTICE AND IMPLEMENTATION
• SUD 404 URBAN DESIGN LABORATORY
• SUD 501 PROFESSIONAL INTERNSHIP
• SUD 502 CAPSTONE - PROFESSIONAL PORTFOLIO

Interdisciplinary Requirements (5 courses)

Geography

• GEO 441 GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT
• GEO 442 GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT

Public Service (choose 2)

• MPS 511 SUSTAINABLE INTERNATIONAL DEVELOPMENT
• MPS 526 LOCAL GOVERNMENT ADMINISTRATION
• MPS 541 ECONOMIC FOUNDATIONS OF PUBLIC SERVICE
• MPS 571 METROPOLITAN PLANNING
• MPS 572 POVERTY, INEQUALITY AND PUBLIC POLICY
• MPS 573 HOUSING AND COMMUNITY DEVELOPMENT

Statistics (choose 1)

• SOC 402 STATISTICS FOR THE SOCIAL SCIENCES or SOC 412 DATA ANALYSIS
• MPS 533 APPLIED STATISTICS FOR PUBLIC SERVICE
• IT 403 STATISTICS AND DATA ANALYSIS
• MAT 448 STATISTICAL METHODS USING SAS

Electives (select 2 courses)

• ENV 506 EARTH RESOURCES AND HUMAN SOCIETY
• GEO 445 PROGRAMMING IN PYTHON FOR GIS
• GEO 491 STATISTICAL DATA ANALYSIS FOR GIS
• GSB 595 DEVELOPING SUSTAINABLE STRATEGIES: PRACTICUM
• INT 408 NATURE, SOCIETY, AND POWER
• MLS 404 THE CITY
• MPH 557 ENVIRONMENTAL EPIDEMIOLOGY
• MPS 511 SUSTAINABLE INTERNATIONAL DEVELOPMENT (if not taken as an Interdisciplinary Requirement)
• MPS 526 LOCAL GOVERNMENT ADMINISTRATION (if not taken as an Interdisciplinary Requirement)
• MPS 541 ECONOMIC FOUNDATIONS OF PUBLIC SERVICE (if not taken as an Interdisciplinary Requirement)
Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree/Sustainable Urban Development (MA)

Students completing any undergraduate degree at DePaul are eligible to apply for the Bachelors/Masters in Sustainable Urban Development in their Junior year if they meet the following criteria:

They have achieved Junior status;

They have completed at least 88.0 credit hours of their undergraduate degree;

They have a GPA of 3.0 or higher.

If accepted to the Bacherlors/Masters Degree in Sustainable Urban Development, in their senior year, the student will take the following courses:

- **Fall**: SUD 401 SUSTAINABLE URBAN DEVELOPMENT I: PLANNING, POLICY & COMMUNITY DEVELOPMENT
- **Winter**: SUD 402 SUSTAINABLE URBAN DEVELOPMENT II: GREEN INFRASTRUCTURE & THE ENVIRONMENT
- **Spring**: SUD 404 URBAN DESIGN LABORATORY

These three courses will serve as electives in an undergraduate program, unless a student's adviser makes an exception and allows them to apply to a declared major or minor.

The combined degree program allows three graduate-level courses (12.0 credit hours) to count towards both the undergraduate degree and the graduate degree. The student will be awarded their Bachelor's degree upon the completion of their undergraduate degree requirements. The Master's degree will be awarded upon completion of the graduate degree requirements.

Click here for more information about the MA in Sustainable Urban Development

Non-Credit Courses

- SUD 600 CANDIDACY CONTINUATION
- SUD 601 CANDIDACY MAINTENANCE
Taxation (MS)

Program Description

The Master of Science (MS) in taxation is an integrated program of study that provides the foundation for exceptional performance and leadership in the field of taxation.

One of the first MS in taxation programs in the United States, DePaul’s program is specifically structured for working professionals to enhance understanding and analysis of complex tax statutes, tax regulations, related cases and rulings, and the Internal Revenue Code.

Students admitted to the program seek to attain the highest levels of responsibility in their firms, businesses; and organizations by adding value through technical competencies; analytical, communications and interpretive skills; and leadership to their clients or organizations.

Program Features

**Faculty expertise.** Program faculty bring top academic and professional qualifications into the classroom—they are experts in the specific topics they teach. Faculty include a broad range of highly ranked individuals working in tax firms and government, including professionals from RSM, the Internal Revenue Service, Deloitte, PwC, EY, Grant Thornton and KPMG, among others.

**Top-ranking program.** The program has been ranked among the top five tax programs in the nation, based on a survey of employers conducted by TaxTalent, the largest online network of tax professionals. The survey provides a valuable index of which accounting schools are consistently held in high regard by both alumni and those who hire tax professionals.

**Flexibility.** The flexible pace of the program allows students to tailor their school schedule to their work schedule. Most students take one to two classes each quarter, completing the program within two to three years, and students often take a quarter off during busy periods such as the winter tax season. The program can also be completed in one year for those students who desire to attend full time.

**Online learning.** The program also can be completed partially or entirely online – an invaluable benefit for students wanting a flexible schedule or for those not living in the area. The online classes allow students to access to the program’s comprehensive tax curriculum.

Career Outlook

Following graduation, alumni of DePaul’s taxation program continue to achieve some of the highest career advancement opportunities. Students in the taxation program are consistently recruited by some of Chicago’s major firms and organizations, including, Deloitte, KPMG, PwC, EY, Grant Thornton, BDO and RSM, among others.

| Introductory Courses (varies with prior coursework) | 0-8 hours |
| Degree Requirements (varies with admission term and course selection) | 45 hours |
| **Total hours required** | **45-53 hours** |
Learning Outcomes

Students will be able to:

- Exhibit sophisticated knowledge related to tax accounting rules and regulations and analyze and resolve tax problems.
- Identify, define, and resolve tax issues through their understanding, knowledge, and application of research methods and databases.
- Recognize and apply relevant ethical standards as required in tax practice.
- Write and deliver skillful tax communications.
- Demonstrate an understanding of tax issues from an international perspective.

Degree Requirements

Course Requirements

Students complete the MS in Taxation degree by completing a minimum of 45 credits, normally 12 courses. Seven courses are required with additional courses chosen from a list of tax electives. Students may also choose up to 16 credits in business electives with program director approval.

Prerequisite Courses

Students are expected to have completed principles of accounting ACC 500 and one introductory tax course ACC 548 prior to beginning the program.

Required Courses

The following seven courses are required:

- ACC 551 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS
- ACC 558 TAX RESEARCH
- ACC 560 TAXATION OF CORPORATIONS AND SHAREHOLDERS
- ACC 565 TAX ACCOUNTING, PERIODS, AND METHODS
- ACC 566 FEDERAL INCOME TAX PROCEDURES
- ACC 598 SEMINAR ON CURRENT PROBLEMS IN TAXATION
- One international tax course:
  - ACC 567 INTERNATIONAL ASPECTS OF U.S. TAXATION
  - ACC 582 ADVANCED CONCEPTS IN INTERNATIONAL TAXATION
  - ACC 798 SPECIAL TOPICS: Expatriate Taxation
  - ACC 798 SPECIAL TOPICS: Comparative Tax Systems
  - ACC 798 SPECIAL TOPICS: Fundamentals of Transfer Pricing

Tax Electives

Choose from among the following tax courses to reach 45 credits total to complete the program:

- ACC 561 CORPORATE REORGANIZATIONS
- ACC 562 CONSOLIDATED RETURNS
- ACC 563 PARTNERSHIPS
- ACC 564 TRANSACTIONS IN PROPERTY
- ACC 567 INTERNATIONAL ASPECTS OF U.S. TAXATION
- ACC 568 TAXATION OF CLOSELY HELD CORPORATIONS
- ACC 569 CONCEPTS OF DEFERRED COMPENSATION
- ACC 570 STATE AND LOCAL INCOME AND FRANCHISE TAXATION
- ACC 571 ESTATE AND GIFT TAXATION
- ACC 572 CONCEPTS OF STATE PROPERTY AND TRANSACTION TAXATION
- ACC 573 INCOME TAXATION OF ESTATES, TRUSTS AND DECEDENTS
Open Electives

Optionally, students may choose up to 12 credits of non-tax courses. Permission from the program director is required for any non-tax courses.

Students may not Take the following classes toward open electives: ACC 500, ACC 505, ACC 541, ACC 542, ACC 543, ACC 545, ACC 547, ACC 548, ACC 550, ACC 551, ACC 552, ACC 554, ACC 555, ACC 584, ACC 690, BLW 500, ECO 500, ECO 502, ECO 509, FIN 455, MGT 500, MGT 502, MGT 504, or MGT 529. These courses are expected to have been completed during a student’s undergraduate business degree.

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 45 credit hours applicable to the degree.
- All courses for credit toward the degree must be completed with satisfactory grades within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written permission of the faculty program director or the Kellstadt Graduate School of Business.

Secondary Education Biology (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Biology major or some other disciplinary major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Biology Certification.

The Program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year Master’s level coursework builds on students' undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and Master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The Program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to
preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the Program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Science-Biology (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

<table>
<thead>

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.
Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.
Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Course Requirements**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior
to admission to the 5th Year Master’s Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

All coursework in the content area must earn a grade of C or better.

- General Biology I
- General Biology II
- General Biology III
- Ecology
- Cell Biology
- Physiology
- Genetics
- Biology Elective
- Biology Elective
- Biology Elective
- Biology Elective (with lab)
- Biology Elective (with lab)
- College Algebra or Calculus I
- Trigonometry or Calculus II
- General Chemistry I
- General Chemistry II
- General Chemistry III
- General Physics I
- General Physics II
- General Physics III

**Junior Year Coursework : 4 undergraduate quarter hours required**

- TCH 320 EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills undergraduate Junior Year Experiential Course requirement)

**Senior Year Coursework : 4 quarter hours required**

- TCH 390 CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)

**Undergraduate/ Graduate Double-Counted Courses: 12 undergraduate/ graduate quarter hours required, grade of C or better required.**

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 414 THE NATURE OF SCIENCE
- TCH 424 INQUIRY & APPLICATION IN DEVELOPING SECONDARY SCIENCE PEDAGOGY

**5th Year Master’s Year Coursework, excluding Student Teaching : 32 graduate quarter hours required, grade of C or better required.**

- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- TCH 454 RESEARCH METHODS & DISCIPLINARY INQUIRY: SCIENCE (Taken in conjunction with TCH 484)
- TCH 474 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- TCH 484 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

**Student Teaching: 8 graduate quarter hours required.**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

- TCH 590 STUDENT TEACHING (6 credit hours, grade of B- or better required)
- TCH 591 STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)
Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Biology students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Science: Biology Content Area Test (test #105) – assesses knowledge of biological and physical science. Test is required before Student Teaching (deadlines apply)
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Secondary Education Chemistry (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Chemistry major or some other disciplinary major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and chemistry endorsement in the State of Illinois.

The Program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year Master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and Master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The Program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.
Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the Program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Science-Chemistry (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul’s Vincentian Mission and the COE’s Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).
After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Course Requirements

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master's Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.
Content Area Requirements for Secondary Chemistry Education:

All coursework in the content area must earn a grade of C or better.

- General Chemistry I
- General Chemistry II
- General Chemistry III
- Organic Chemistry I
- Organic Chemistry II
- Analytical Chemistry
- Physical Chemistry I
- Physical Chemistry II
- Applied Probability and Statistics (2 qh)
- Chemistry Seminar (2qh)
- Calculus I
- Calculus II
- Calculus III
- General Physics I
- General Physics II
- General Physics III

Choose three of the following Chemistry courses: 12 quarter hours

- Organic Chemistry III
- Air Chemistry
- Solid Waste Chemistry
- Physical Chemistry III
- Intermediate Inorganic Chemistry
- Intermediate Organic Chemistry
- Biochemistry I
- Biochemistry II
- Biochemistry III
- Nuclear Chemistry
- Biophysical Chemistry
- Medicinal Chemistry
- Drugs and Toxicology
- Nutrition
- Applied Spectroscopy

Junior Year Coursework : 4 undergraduate quarter hours required

- TCH 320 EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills undergraduate Junior Year Experiential Course requirement)

Senior Year Coursework : 4 quarter hours required

- TCH 390 CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)

Undergraduate/ Graduate Double-Counted Courses: 12 undergraduate/ graduate quarter hours required, grade of C or better required.

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 414 THE NATURE OF SCIENCE
- TCH 424 INQUIRY & APPLICATION IN DEVELOPING SECONDARY SCIENCE PEDAGOGY

5th Year Master’s Year Coursework, excluding Student Teaching : 32 graduate quarter hours required, grade of C or better required.

- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- TCH 454 RESEARCH METHODS & DISCIPLINARY INQUIRY: SCIENCE (Taken in conjunction with TCH 484)
- TCH 474 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- TCH 484 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM
**Student Teaching : 8 graduate quarter hours required.**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

- TCH 590 STUDENT TEACHING (6 credit hours, grade of B- or better required)
- TCH 591 STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Chemistry students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Science: Chemistry Content Area Test (test #106) – assesses knowledge of both geological and chemical science as well as general biological and physical sciences. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Secondary Education English (MEd)**

The TEACH Program combines a College of Liberal Arts and Social Sciences (LAS) undergraduate English major or some other disciplinary major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and English endorsement in the State of Illinois.

The Program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year Master's level coursework builds on students' undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students' fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and Master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The Program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program,
teacher candidates measure themselves against the values of the COE conceptual framework through the
development of professional portfolios. Values that are part of this framework include: commitment to social
justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism
that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to
preparing students with a global mindset, teacher candidates will also complete the requirements to gain a
certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in
Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher
candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning
expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and
reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field
experiences in schools and community sites. These field experience hours are completed in conjunction with
coursework and are integral to successful completion of the Program. As students will be completing
requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International
Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student
teaching in a designated middle or high school.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education English (grades 9-12 or grades 6-12), an Illinois
State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy
  of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical
  content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates
  cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and
  collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking,
  divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical,
  creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and
  academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly
  traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream
  English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and
  outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content
  knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as
  language, learning, and socio-emotional and behavioral differences, diverse types of student performance
  data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening,
  and cognitive development theories and related pedagogies that are grounded in sociocultural theories of
  literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic,
  and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for
  promoting student learning and self-assessment, identifying student needs, monitoring student progress,
  measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians,
  school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and
  academic development and promotes human and environmental empathy, social justice, and democratic
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses
until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.
Degree Requirements

Course Requirements

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the LAS undergraduate degree program. Prior to admission to the 5th Year Master's Year, students must meet with their LAS academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

Content Area Requirements for Secondary English Education

All coursework in the content area must earn a grade of C or better, and a minimum of 18 quarter hours must be coursework at an undergraduate upper level or graduate level.

- Introduction to Literature course
- Reading Poetry course
- Shakespeare course
- Literary Research and Writing/Reading Prose course
- Linguistics/Grammar/History of the English Language course
- 3 British Literature courses
- Romanticism in American Literature course
- 2 American Literature courses
- 2 300-level Literature elective courses

Junior Year Coursework: 4 undergraduate quarter hours required

- TCH 320 EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills undergraduate Junior Year Experiential Course requirement)

Senior Year Coursework: 4 quarter hours required

- TCH 390 CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 411 THE NATURE OF ENGLISH
- TCH 421 INQUIRY & APPLICATION IN DEVELOPING SECONDARY ENGLISH PEDAGOGY

5th Year Master's Year Coursework, excluding Student Teaching: 32 graduate quarter hours required, grade of C or better required.

- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- TCH 451 RESEARCH METHODS & DISCIPLINARY INQUIRY: ENGLISH (Taken in conjunction with TCH 481)
- TCH 471 TEACHING ENGLISH IN THE HIGH SCHOOL 1
- TCH 481 TEACHING ENGLISH IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Student Teaching: 8 graduate quarter hours required.

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

- TCH 590 STUDENT TEACHING (6 credit hours, grade of B- or better required)
Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education English students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- English Language Arts Content Area Test (test #111) – assesses reading, writing and research, speaking and listening, and literature. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Secondary Education Environmental Science (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Environmental Science major or some other disciplinary major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and environmental science endorsement in the State of Illinois.

The Program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year Master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and Master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The Program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a
The IB Certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the Program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

**Licensure**

Illinois Professional Educator License with endorsement in Secondary Education Science-Environmental Science (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.
College Requirements

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing
Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.
Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction
courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (edTPA), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Degree Requirements**

**Course Requirements**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master's Year, students must meet with their CSH academic advisor to complete an
undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

All coursework in the content area must earn a grade of C or better.

- General Biology I
- General Biology II
- General Biology III
- General Chemistry I
- General Chemistry II
- General Chemistry III
- General Physics I
- General Physics II
- General Physics III
- Ecology
- Earth System Science
- Human Impacts on the Environment
- Environmental Rhetoric and Politics
- Environmental Data Analysis
- Environmental Science Seminar
- Environmental Impact Analysis

**Junior Year Coursework: 4 undergraduate quarter hours required**

- TCH 320 EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills undergraduate Junior Year Experiential Course requirement)

**Senior Year Coursework: 4 quarter hours required**

- TCH 390 CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)

**Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.**

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 414 THE NATURE OF SCIENCE
- TCH 424 INQUIRY & APPLICATION IN DEVELOPING SECONDARY SCIENCE PEDAGOGY

**5th Year Master’s Year Coursework, excluding Student Teaching: 32 graduate quarter hours required, grade of C or better required.**

- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- TCH 454 RESEARCH METHODS & DISCIPLINARY INQUIRY: SCIENCE (Taken in conjunction with TCH 484)
- TCH 474 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- TCH 484 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

**Student Teaching: 8 graduate quarter hours required.**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

- TCH 590 STUDENT TEACHING (6 credit hours, grade of B- or better required)
- TCH 591 STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Environmental Science students must complete the
following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Science: Environmental Science Content Area Test (test #112) – assesses knowledge life science, physical science, and the living environment. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Secondary Education History (MEd)

The TEACH Program combines a College of Liberal Arts and Social Sciences (LAS) undergraduate History major or some other disciplinary major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and history endorsement in the State of Illinois.

The Program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year Master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and Master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The Program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.
Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the Program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

**Licensure**

Illinois Professional Educator License with endorsement in Secondary Education Social Science-History (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies, including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).
After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Degree Requirements**

**Course Requirements**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the LAS undergraduate degree program. Prior to admission to the 5th Year Master's Year, students must meet with their LAS academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.
Content Area Requirements for Secondary History Education

All coursework in the content area must earn a grade of C or better.

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS (serves as prerequisite for HST 299)
- HST 299 CRAFT OF HISTORY (serves as prerequisite for upper division History courses)
- 4 US History courses
- 4 Non-US History courses
  *A minimum of four History courses must be at the upper division level (300-level) with at least one of those courses in non-US History.
- Additional licensure requirements (minimum of one course in each discipline required):
  - GEO 101 ENVIRONMENTAL GEOGRAPHY
  - ECO 106 PRINCIPLES OF MACROECONOMICS
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - SOC 101 INTRODUCTION TO SOCIOLOGY
  - ANT 102 CULTURAL ANTHROPOLOGY
  - PSY 105 INTRODUCTORY PSYCHOLOGY

Junior Year Coursework: 4 undergraduate quarter hours required

- TCH 320 EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills undergraduate Junior Year Experiential Course requirement)

Senior Year Coursework: 4 quarter hours required

- TCH 390 CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 412 THE NATURE OF HISTORY AND THE SOCIAL SCIENCES
- TCH 422 INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY

5th Year Master’s Year Coursework, excluding Student Teaching: 32 graduate quarter hours required, grade of C or better required.

- SCG 406 HUMAN DEVELOPMENT AND LEARNING-SECONDARY
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- TCH 452 RESEARCH METHODS & DISCIPLINARY INQUIRY: HISTORY AND THE SOCIAL SCIENCES (Taken in conjunction with TCH 482)
- TCH 472 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 1
- TCH 482 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Student Teaching: 8 graduate quarter hours required.

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

- TCH 590 STUDENT TEACHING (6 credit hours, grade of B- or better required)
- TCH 591 STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. 160; Secondary Education History students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language
Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Secondary Education Mathematics (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Mathematics major or some other disciplinary major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and math endorsement in the State of Illinois.

The Program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year Master's level coursework builds on students' undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students' fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and Master's level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The Program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the Program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.
Licure

Illinois Professional Educator License with endorsement in Secondary Education Mathematics (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Degree Requirements | 40 hours

Total hours required | 40 hours

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or
College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the

license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not
announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Course Requirements

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

Content Area Requirements for Secondary Mathematics Education:

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning
  or Discrete Math I and Discrete Math II
• Multivariable Calculus I
• Multivariable Calculus II
• Linear Algebra
• Programming Language
• Abstract Algebra I
• Theory of Numbers I
  or Abstract Algebra II
• Geometry I
• Geometry II
  or Real Analysis I
• Probability & Statistics
• History of Mathematics

**Junior Year Coursework: 4 undergraduate quarter hours required**

• TCH 320 EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills undergraduate Junior Year Experiential Course requirement)

**Senior Year Coursework: 4 quarter hours required**

• TCH 390 CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone course requirement; major area may require a separate Capstone course)

**Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.**

• TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
• TCH 413 THE NATURE OF MATHEMATICS
• TCH 423 INQUIRY & APPLICATION IN DEVELOPING SECONDARY MATHEMATICS PEDAGOGY

**5th Year Master’s Year Coursework, excluding Student Teaching: 32 graduate quarter hours required, grade of C or better required.**

• SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
• LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
• BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
• TCH 453 RESEARCH METHODS & DISCIPLINARY INQUIRY: MATHEMATICS (Taken in conjunction with TCH 483)
• TCH 473 TEACHING MATHEMATICS IN THE HIGH SCHOOL 1
• TCH 483 TEACHING MATHEMATICS IN THE HIGH SCHOOL 2
• TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
• T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

**Student Teaching: 8 graduate quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

• TCH 590 STUDENT TEACHING (6 credit hours, grade of B- or better required)
• TCH 591 STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
• EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Math students must complete the following tests:

• Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
• Mathematics Content Area Test (test #115) – assesses knowledge of processes and applications of mathematics. Test is required before Student Teaching (deadlines apply).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by
Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Secondary Education Physics (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Physics major or some other disciplinary major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and physics endorsement in the State of Illinois.

The Program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year Master's level coursework builds on students' undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students' fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and Master's level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The Program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the Program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Science-Physics (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

DePaul University Autumn 2017-2018
Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
• Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement
requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Students must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Degree Requirements**

**Course Requirements**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

All coursework in the content area must earn a grade of C or better.

- Physics I
- Physics II
- Physics III
- Physics IV
- Meth of Computational & Theoretical Physics I
- Meth of Computational & Theoretical Physics II
- 5 Physics Electives
- Mechanics
- Calculus I
- Calculus II
- Calculus III
- Multivariable Calculus I
- Multivariable Calculus II
- General Chemistry I
Junior Year Coursework: 4 undergraduate quarter hours required

- TCH 320 EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills undergraduate Junior Year Experiential Course requirement)

Senior Year Coursework: 4 quarter hours required

- TCH 390 CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 414 THE NATURE OF SCIENCE
- TCH 424 INQUIRY & APPLICATION IN DEVELOPING SECONDARY SCIENCE PEDAGOGY

5th Year Master’s Year Coursework, excluding Student Teaching: 32 graduate quarter hours required, grade of C or better required.

- SCG 406 HUMAN DEVELOPMENT AND LEARNING SECONDARY
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- TCH 454 RESEARCH METHODS & DISCIPLINARY INQUIRY: SCIENCE (Taken in conjunction with TCH 484)
- TCH 474 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- TCH 484 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Student Teaching: 8 graduate quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

- TCH 590 STUDENT TEACHING (6 credit hours, grade of B- or better required)
- TCH 591 STUDENT TEACHING SEMINAR (2 credit hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education History students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Science: Physics Content Area Test (test #116) – assesses knowledge of life and physical science, including Earth systems, technology, and the universe. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require
Secondary Education Social Science (MEd)

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, Political Science, Psychology, or Sociology) or some other disciplinary major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BA or BS in their LAS disciplinary major and a MEd in Education with a Professional Educator License and social science-history endorsement in the State of Illinois.

The Program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year Master's level coursework builds on students' undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students' fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and Master's level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The Program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the Program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Social Science-History (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul’s Vincentian Mission and the COE’s Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
• Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others' perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

• Maintain a DePaul Graduate 3.00 GPA
• Pass the Illinois Test of Academic Proficiency (TAP)
• Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher
preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application
form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Course Requirements**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the LAS undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their LAS academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

**Content Area Requirements for Secondary History Education:**

All coursework in the content area must earn a grade of C or better.

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS
- HST 299 CRAFT OF HISTORY
- 3 US History courses
- 2 Non-US History courses
- Secondary Field (6 courses minimum): Choose single field from Anthropology, Economics, Geography, Political Science, Psychology, or Sociology.
- Additional licensure requirements: (one course in each area required)
  - GEO 101 ENVIRONMENTAL GEOGRAPHY
  - ECO 106 PRINCIPLES OF MACROECONOMICS
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - SOC 101 INTRODUCTION TO SOCIOLOGY
  - ANT 102 CULTURAL ANTHROPOLOGY
  - PSY 105 INTRODUCTORY PSYCHOLOGY I

**Junior Year Coursework: 4 undergraduate quarter hours required**

- TCH 320 EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills undergraduate Junior Year
Senior Year Coursework: 4 quarter hours required

- TCH 390 CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 412 THE NATURE OF HISTORY AND THE SOCIAL SCIENCES
- TCH 422 INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY

5th Year Master’s Year Coursework, excluding Student Teaching: 32 graduate quarter hours required, grade of C or better required.

- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- TCH 452 RESEARCH METHODS & DISCIPLINARY INQUIRY: HISTORY AND THE SOCIAL SCIENCES (Taken in conjunction with TCH 482)
- TCH 472 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 1
- TCH 482 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Student Teaching: 8 graduate quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

- TCH 590 STUDENT TEACHING (6 credit hours, grade of B- or better required)
- TCH 591 STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education History students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Social Science History Test (test #114) – assesses core knowledge of history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.
Teaching and Learning: Early Childhood Education (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 165 hours of daytime internships/field experiences in early childhood programs and schools. These school-based internships. Two internships (TL 481, T&L 482) are aligned with curriculum and instruction theory courses, and require students to be in the field during the day time for 75 hours in a preschool classroom setting, and 75 hours in a primary grade (K-2nd grade) classroom setting. Students are also required to compete 15 hours of field experience in an infant-toddler classroom, and 15 hours in an early childhood special education classroom setting. In addition, students must spend a minimum of 12 weeks in full-time student teaching.

The program in early childhood education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary schools and early childhood education centers. Graduates earn the Master of Arts or Master of Education degree and are entitled to apply for the Illinois Professional Educator License. In addition, teacher candidates meet IL Approval for Teaching Young Children with Special Needs, ages 3-6. All of these elements are built into the required curriculum.

In additions, students have options of acquiring the following endorsements and credentials:

- Early Childhood Bilingual/ESL endorsement
- Early Childhood Learning Behavior Specialist (special education) endorsement
- Courses toward acquiring credentials in Developmental Therapy

Licensure

Illinois Professional Educator License with endorsement in Early Childhood Education (birth-grade 2) and Early Childhood Special Education Approval for Preschool (ages 3-6), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Student will be able to:

- Apply knowledge of diverse developmental characteristics and abilities to implement best practices in educating young children in various settings, e.g.: child-care, preschool, and primary grades.
- Use pedagogical knowledge of developmentally appropriate content areas to create meaningful learning experiences for each child based on best practices.
- Design lessons and differentiating instructions based on their knowledge of content areas and their knowledge of children's diverse developmental level, special needs characteristics (e.g.; children with disabilities), and diverse cultural and linguistic characteristics (e.g.; English Learners).
- Structure and manage safe and healthy learning environments, which are culturally and linguistically responsive; facilitate emotional well-being and positive relationships among children and between children and professionals; and facilitate children's active engagement, academic risk taking, and self-motivation.
- Plan and implement developmentally appropriate curricula, and differentiate /modify instruction according to the child's developmental and learning characteristics through use of a wide variety of learning materials and technologies.
- Competently address children's reading, writing, and oral communication needs to facilitate learning in all content areas.
- Implement various forms of assessment (summative and formative) to determine children's developmental, behavioral, and learning needs; monitor and measure children's developmental, behavioral and learning progress; and evaluate child outcome.
- Collaborate with families of young children from diverse backgrounds; form and maintaining positive relationships with and among children, and work as team members with other professionals.
- Exhibit professional conduct, including providing leadership, and advocate for children and families

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to
proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test
Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in
the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

The requirements below are those approved by the Illinois State Board of Education in April 2016.

Content Area Prerequisites

Following the requirements set forth by the Illinois State Board of Education in spring of 2016, DePaul’s Early Childhood Education program requires that students in the early childhood education program have courses in each of the following areas:

- mathematics*
- physical science
- life science
- earth and space science
- history
- geography
- political science/civics
- economics

These courses may be taken at the undergraduate level and may have been included in the student’s bachelor’s degree program. Early childhood education students’ transcripts will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements is not a prerequisite for admission; however, coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

- DePaul alumni that have taken LSP 120 or ISP 120 can receive credit towards the math requirement.

Health, Safety and Child Nutrition Requirement

Students must provide documentation of successful course completion that shows they possess the requisite knowledge and skills to provide appropriate content and experiences for young children from birth through age 8 that reflect the interrelationships among health, safety, and nutrition. In addition, students are expected to demonstrate an understanding of cultural influences on young children’s health, safety, and nutrition, and how to work with special needs children affected by health impairments. Finally, students also must demonstrate their familiarity with practices that promote good nutrition, dental health, and the physical, social, and emotional well-being of young children.

This requirement can be met by completing T&L 615 Special Topic in Teaching and Learning: CHILD HEALTH SAFETY & NUTRITION, or an equivalent course taken at the undergraduate or graduate level outside of DePaul. Consult a faculty advisor to determine whether a prior course fulfills this content requirement.
Course Requirements

Pre-Education Introductory Courses: 12 quarter hours required, grade of B- or better required.

- SCG 404 CHILD GROWTH AND DEVELOPMENT
- T&L 406 LANGUAGE DEVELOPMENT IN EARLY CHILDHOOD (BIRTH TO 8)
- T&L 421 CHILD AND FAMILY IN THE URBAN COMMUNITY

Advanced Standing Courses: 40 quarter hours required, grade of B- or better required.

- T&L 407 PREPRIMARY PROGRAMS: CURRICULUM AND STRATEGY
- T&L 408 CURRICULUM AND INSTRUCTION IN PRIMARY GRADES
- T&L 411 ASSESSMENT IN EARLY CHILDHOOD INCLUSIVE SETTINGS
- T&L 420 MATH AND SCIENCE IN EARLY CHILDHOOD
- T&L 423 FUNCTIONAL BEHAVIOR ASSESSMENT: INTERVENTION AND SUPPORT IN EARLY CHILDHOOD
- T&L 427 YOUNG EXCEPTIONAL CHILD: METHODS AND CHARACTERISTICS
- T&L 434 LITERACY, LITERATURE, & THE YOUNG CHILD
- T&L 481 INTERNSHIP IN PRESCHOOL SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE) (2 credit hours) (T&L 407 may be taken concurrently)
- T&L 482 INTERNSHIP IN PRIMARY SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE) (2 credit hours) (T&L 408 may be taken concurrently)
- BBE 451 TEACHING DUAL LANGUAGE LEARNERS IN EARLY CHILDHOOD: THEORY, POLICY AND PRACTICE
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section.

- T&L 595 EARLY CHILDHOOD STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 596 EARLY CHILDHOOD STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)

Recommended/Optional Courses

T&L 480 provides experience with a population for whom highly qualified educators are in increased demand.

- T&L 480 INTERNSHIP WITH INFANTS AND TODDLERS (2 credit hours)

Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required

A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Bilingual/ESL Endorsement Courses

Teacher candidates seeking an endorsement in Bilingual or ESL can add the credential to the Professional Educator License (PEL) by taking additional courses. Requirements are listed in the Endorsements section of the Course Catalog and are in addition to degree requirements.

Learning Behavior Specialist Special Education Endorsement Courses

Individuals seeking an endorsement in Special Education (called LBS1-Learning Behavior Specialist) can add the credential to the Professional Educator License (PEL) by taking additional courses. Courses are: LSI 431, LSI 475, LSI 476, LSI 597. Requirements are listed in the Endorsements section of the Course Catalog and are in
addition to degree requirements.

**Special Education Approval Courses**

All students in ECE program will take 5 courses that are required for the degree. These courses will make ECE students who are seeking a PEL eligible to receive a letter of approval in early childhood special education. An approval in early childhood special education makes graduating ECE license holders eligible to work in preschool special education settings. Five special education courses are: T&L 406, T&L 411, T&L 421, T&L 423, T&L 427.

**Licensure Tests**

Students seeking licensure by the Illinois State Board of Education (ISBE) are required to successfully complete a set of tests specific to the Early Childhood professional field:

- **Test of Academic Proficiency (TAP)** (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- **Early Childhood Content Area Test** (test #107) – assesses knowledge of language and literacy development, learning across the curriculum, diversity, collaboration, and professionalism in the early childhood program. Test is required before Student Teaching (deadlines apply).
- **EdTPA** - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Internships & Other Field Experiences**

Each student seeking licensure from the College of Education must complete supervised Internships in appropriate settings in conjunction with education courses. In addition, there are some courses, which might require certain hours of field experience to be completed, and/or have field assignments, which students are required to complete. Two internship-type field-based courses (T&L 481, T&L 482) are aligned with curriculum and instruction theory courses across the program. Each internship course requires completing 75 hours of field experience in its relevant grade level classroom. T&L 481 is taken concurrently with T&L 407. T&L 482 is taken concurrently with T&L 408. Since these internship courses are scheduled only once per academic year, be sure to work with your advisor in carefully mapping out when you will take them. For details on requirements, expectations, documentation, & courses in your program that require fieldwork hours, visit the College of Education website.

**Non-Licensure Option**

Individuals that do not desire a license or are not eligible for a license can seek to earn the degree without meeting licensure requirements. In seeking this option, individuals understand that the following stipulations apply:

- Confirmation must be given in writing that they seek this option and agree to the stipulations.
- A notation is placed on the transcript indicating that “completion of degree requirements did not lead to eligibility for licensure.”
- Individuals have the option to return to the ECE program within 1-2 years after earning the graduate degree to complete student teaching and other licensure requirements (including ISBE-mandated tests) and become eligible for the license. The non-licensure notation will remain on the original transcript for the graduate degree. Additional coursework may also be required.
- Coursework is chosen in consultation with a faculty advisor and is tailored to individual’s prior coursework, experience, and professional interests.
- All coursework must be taken at DePaul; no transfer credit is allowed from other institutions.
- Individuals must complete the specified coursework within 2 years or be subject to re-evaluation.
- A minimum of 2 courses (8 credit hours) are required to substitute for the student teaching experience. Coursework must be 400 level and receive a grade of B- or better.

**Developmental Therapy Option**

These course, listed below, will prepare early childhood teacher candidates for a career requiring expertise in early intervention for infants and toddlers (e.g., from birth to age three) with special needs and their families. The coursework can be taken in additional to degree requirements, or if seeking the non-licensure option, can be taken to replace student teaching. After taking the required courses and earning the degree, individuals will be required to take a training workshop on the State of Illinois system of Early Intervention and apply directly to Provider Connections to receive their Developmental Therapy credentials after submitting their transcripts.
- ECE 490 DEVELOPMENTAL THERAPY STRATEGIES FOR INFANTS AND TODDLERS IN EARLY INTERVENTION (4 credit hours)
- ECE 491 ASSESSMENT OF INFANT AND TODDLERS (4 credit hours)
- ECE 492 WORKING WITH FAMILIES OF INFANTS AND TODDLERS: PARTNERSHIP AND COLLABORATION IN EARLY INTERVENTION (4 credit hours)
- ECE 493 INTERNSHIP EXPERIENCES WITH INFANTS, TODDLERS AND TWOS WITH SPECIAL NEEDS (2 credit hours) (optional)

### Infant Toddler Courses

Two infant toddler courses are available for special population or as elective for early childhood education students who seek additional specialty in infant/toddler education.

- T&L 495 DESIGNING CURRICULUM FOR INFANTS AND TODDLERS (4 credit hours)
- T&L 615 SPECIAL TOPICS IN TEACHING AND LEARNING (4 credit hours—credit hours may vary for special population).

### Teaching and Learning: Elementary Education (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

The program includes four distinctive features: 1) Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching; 2) Multiculturalism is infused throughout the curriculum; 3) Field experiences are an integral part of the curriculum; 4) Students are exposed to a variety of educational theories.

The program in elementary education prepares students to teach children in a variety of educational settings, including urban and suburban communities and public and private elementary schools. Students follow a suggested course of study with corresponding field experiences. Graduates earn the Master of Arts or Master of Education degree and are qualified for elementary school teacher licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in elementary education work in diverse settings such as museums, corporations, media and the arts.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 106 hours of daytime field experiences in schools. These school-based clinical experiences are completed in conjunction with methodology courses that require students to spend regular periods of time in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

### Licensure

Illinois Professional Educator License with endorsement in Elementary Education (self-contained general education) (grades 1-6), an Illinois State Board of Education (ISBE) approved program

Learning Outcomes

Students will be able to:

- Apply knowledge of diverse developmental characteristics and abilities to implement best practices in educating young children in various settings, e.g.: child-care, preschool, and primary grades.
- Use pedagogical knowledge of developmentally appropriate content areas to create meaningful learning experiences for each child based on best practices.
- Design lessons and differentiating instructions based on their knowledge of content areas and their knowledge of children's diverse developmental level, special needs characteristics (e.g.; children with disabilities), and diverse cultural and linguistic characteristics (e.g.; English Learners).
- Structure and manage safe and healthy learning environments, which are culturally and linguistically responsive; facilitate emotional well-being and positive relationships among children and between children and professionals; and facilitate children's active engagement, academic risk taking, and self-motivation.
- Plan and implement developmentally appropriate curricula, and differentiate /modify instruction according to the child's developmental and learning characteristics through use of a wide variety of learning materials and technologies.
- Competently address children's reading, writing, and oral communication needs to facilitate learning in all content areas.
- Implement various forms of assessment (summative and formative) to determine children's developmental, behavioral, and learning needs; monitor and measure children's developmental, behavioral and learning progress; and evaluate child outcome.
- Collaborate with families of young children from diverse backgrounds; form and maintaining positive relationships with and among children, and work as team members with other professionals.
- Exhibit professional conduct, including providing leadership, and advocate for children and families.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the
professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

• Maintain a DePaul Graduate 3.00 GPA
• Pass the Illinois Test of Academic Proficiency (TAP)
• Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of
requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Degree Requirements**

The requirements below are those approved by the Illinois State Board of Education December 2015.

**Content Area Prerequisites**

Elementary education teachers need to have an understanding of the subjects taught in elementary school classrooms. Following the requirements set forth by the Illinois State Board of Education, DePaul's program requires that students in the elementary program have courses in each of the following areas:

- mathematics*
- physical science
- life science
- earth and space science
- history
- geography
- political science/civics
- economics

These courses may be taken at the undergraduate level and may have been included in the student's bachelor's degree program. Elementary education students' transcripts will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements is not a prerequisite for admission; however coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

*DePaul alumni that have taken LSP 120 or ISP 120 can receive credit towards the math requirement.

**Course Requirements:**

Pre-Education Introductory Courses: 17 quarter hours required, grade of C or better required.
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- SCG 403 HUMAN DEVELOPMENT AND LEARNING: ELEMENTARY
- T&L 583 FIELD EXPERIENCE LAB (1 credit hour)
- T&L 418 LEARNING THROUGH THE ARTS
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

**Advanced Standing Courses: 35 quarter hours required, grade of C or better required.**

- T&L 412 EMERGING READING AND LANGUAGE ARTS
- T&L 416 TEACHING AND LEARNING ELEMENTARY SCHOOL MATHEMATICS
- T&L 583 FIELD EXPERIENCE LAB (1 credit hour)
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- T&L 413 READING/LANGUAGE ARTS IN THE INTERMEDIATE GRADES
- T&L 583 FIELD EXPERIENCE LAB (1 credit hour, public school setting required)
- T&L 415 TEACHING AND LEARNING ELEMENTARY SCHOOL SCIENCE
- T&L 419 CURRICULUM AND STRATEGIES: SOCIAL STUDIES
- T&L 584 PRE-STUDENT TEACHING FIELD EXPERIENCE (1 credit hour)
- T&L 422 CLASSROOM ASSESSMENT
- BBE 400 TEACHING ELEMENTARY ENGLISH LANGUAGE LEARNERS: THEORY, POLICY AND PRACTICE

**Student Teaching : 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 585 ELEMENTARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 586 ELEMENTARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required**

A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Elementary majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Elementary Education Content Test (test #197-200) – assesses knowledge of language arts and literacy, mathematics, science, social sciences, the arts, health, and physical education. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate lab settings in conjunction with education courses. Students are required to register for one lab for designated paired course. For example, during the first quarter of the program students must register for T&L 404 and SCG 403 plus one field experience lab. During the quarter when students take LSI 446, a public school that services students with special needs is required. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching.
Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Biology (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Science-Biology (grades 9-12 or
Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or
College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the
license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not
announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Degree Requirements**

**Course Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for Secondary Education Biology**

Note: Effective for all individuals applying for licensure after February 1, 2012, all coursework in the content area must earn a grade of C or better.

- College Biology I
- College Biology II
- Ecology
Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better required.

- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required, grade of C or better required.

- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- SCG 451 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with TCH 484)
- TCH 474 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- TCH 484 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required

Two courses in Biology at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- BIO 300 or 400 level biology course 1
- BIO 300 or 400 level biology course 2

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 590 SECONDARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING
Licensure Tests

All individuals licensure by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Biology majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Science: Biology Content Area Test (test #105) – assesses knowledge of both biological science and physical science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Chemistry (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:
1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching.
2. Multiculturalism is infused throughout the curriculum.
3. Field experiences are an integral part of the curriculum.
4. Students are exposed to a variety of educational theories.
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Secondary Education Science-Chemistry (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- Articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul’s Vincentian Mission and the COE’s Conceptual Framework.
- Define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- Identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- Articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- Plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- Articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- Articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- Plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- Identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and...
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program.
There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).
**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.
Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Chemistry

Note: Effective for all individuals applying for licensure after February 1, 2012, all coursework in the content area must earn a grade of C or better.

- General Chemistry I
- General Chemistry II
- Organic Chemistry I
- Organic Chemistry II
- Analytical Chemistry
- Physical Chemistry I
- Biochemistry
- Inorganic Chemistry
- Chemistry Elective I
- Chemistry Elective (with lab)
- Chemistry Elective (with lab)
- Calculus I
- Applied Probability and Statistics or Calculus II
- College Physics
- College Biology
- College Environmental Science or Earth and Space Science or Astronomy

Course Requirements

Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better required.

- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required, grade of C or better required.

- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- SCG 451 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with TCH 484)
- TCH 474 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- TCH 484 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required.

Two courses in Chemistry at the graduate level are required. Courses must be taken before student teaching if...
pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your 
Content Area Advisor prior to registration and requires graduate level registration.

- CHE 300 or 400 level chemistry course 1
- CHE 300 or 400 level chemistry course 2

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core 
section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 590 SECONDARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade 
required)

**Recommended/Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for 
endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required**

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this 
course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests 
specific to their teaching license. Secondary Education Chemistry majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language 
arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor 
about qualifying for a waiver with acceptable ACT or SAT test scores.
- Science: Chemistry Content Area Test (test #106) – assesses knowledge of both geological and chemical 
science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, 
lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will 
submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by 
that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete 
supervised field experiences in appropriate settings in conjunction with education courses. The field experiences 
must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education 
settings. All field experiences must be completed prior to final approval for student teaching. Field experience 
hours should be entered by the student into the FEDS system when completing courses with field experience 
requirements. For details on requirements, expectations, documentation, & courses in your program that require 
hours, visit the College of Education website.
Teaching and Learning: Secondary Education - English (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education English Language Arts (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul’s Vincentian Mission and the COE’s Conceptual Framework.
- Define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- Identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- Articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- Plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- Articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- Articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- Plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- Identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- Articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the
professional field, including pedagogical content knowledge

- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of
requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Course**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for Secondary Education English**

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level (300-level) or graduate level. Content area advisors can make course substitutions based on an analysis of student’s transcripts.

- 1 Reading Poetry course
- 1 Shakespeare course
- 1 Literary Research and Writing/Reading Prose course
- 2 British Literature courses
- 1 Romanticism in American Literature course
- 2 American Literature courses
- 3 Writing and Oral Language courses
- 1 Grammar or Language and Style course

**Course Requirements**

**Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better.**

- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
• One course from the following list:
  o SCG 408 EDUCATION AND SOCIETY
  o SCG 409 SOCIOLOGY OF EDUCATION
  o SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required, grade of C or better.

• LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
• BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
• SCG 451 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with TCH 481)
• TCH 471 TEACHING ENGLISH IN THE HIGH SCHOOL 1
• TCH 481 TEACHING ENGLISH IN THE HIGH SCHOOL 2
• TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
• T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Graduate Level Content Area Course: 8 quarter hours required, grade of C or better required.

Two courses in English at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and require graduate level registration.

• ENG 300 or 400 level English course
• ENG 300 or 400 level English course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

• T&L 590 SECONDARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
• T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
• EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

• SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

• T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education English majors must complete the following tests:

• Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
• English Language Arts Content Area Test (test #111) assesses reading, writing and research, speaking and listening, and literature. Test is required before Student Teaching (deadlines apply).
• EdTPTA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Environmental Science (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school license. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure
Illinois Professional Educator License with endorsement in Secondary Education Science-Environmental Science (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and
professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply...
for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for Secondary Education Environmental Science**

All coursework in the content area must earn a grade of C or better.

- College Chemistry
- College Biology
- College Physics
- Environmental Science I
- Environmental Science II
Course Requirements

Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better required.

- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required, grade of C or better required.

- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- SCG 451 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with TCH 484)
- TCH 474 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- TCH 484 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required.

Two courses in Environmental Science at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- ENV 300 or 400 level environmental science course 1
- ENV 300 or 400 level environmental science course 2

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 590 SECONDARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/ Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this
course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Environmental Science majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Science: Environmental Science Content Area Test (test #112) – assesses knowledge of life science, physical science, and the living environment. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - History (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.
The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for
promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.

- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
• Pass the Illinois Test of Academic Proficiency (TAP)
• Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

• Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

**Clinical Requirements:**

• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.
Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.
Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. The Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy of this evaluation to their academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education History

All coursework in the content area must earn a grade of C or better.

- Two US History courses (any level)
- Two Non-US History courses (any level)
- One additional History course (any level)
- One Economics course
- One Geography course
- One Political Science course focused on American Government
- One Anthropology, Sociology, or Psychology course
- Three additional courses in any social science area (Anthropology, Economics, Geography, History, Political Science, Sociology, or Psychology)

Course Requirements

Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better required.

- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required, grade of C or better required.

- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- SCG 451 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with TCH 482)
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM
- TCH 472 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 1
- TCH 482 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required.

Two courses in History or the Social Sciences at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- HST 300 or 400 level history or social science course 1
- T&L 455 READINGS IN AMERICAN HISTORY

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core.
section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 590 SECONDARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Recommended/Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required**

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education History majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Social Science: History Content Area Test (test #114) – assesses and measures the candidate’s core knowledge across history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Teaching and Learning: Secondary Education - Mathematics (MA or MEd)**

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and
positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Secondary Education Mathematics (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul’s Vincentian Mission and the COE’s Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical,
creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.

- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students'
learning and development

- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
Three satisfactory faculty recommendations
Attendance at mandatory meeting for student teaching
Application for student teaching, resume, transcripts, and writing sample (check deadlines)
Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these
components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Mathematics

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning OR Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers or Abstract Algebra II
- Geometry I
- Geometry II or Real Analysis I
- Probability & Statistics
- History of Mathematics

Course Requirements

Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better required.

- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required, grade of C or better required.

- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
Graduate Level Content Area Course: 8 quarter hours required, grade of C or better required, grade of C or better required.

Two courses in Mathematics at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- MAT 300 or 400 level math course 1
- MAT 300 or 400 level math course 2

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 590 SECONDARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/ Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Mathematics majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Mathematics Content Area Test (test #115) – assesses knowledge of both the processes and applications of mathematics. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.
Teaching and Learning: Secondary Education - Physics (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Science-Physics (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence
of critical thinking through discussion and writing (e.g., journals, response to prompts)

- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when
applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Physics

All coursework in the content area must earn a grade of C or better.

- College Physics I
- College Physics II
- Classical Mechanics
- Electricity and Magnetism
- Thermal Physics
- Computational and Theoretical Physics
- Quantum Physics
- Physics Elective
- Physics Elective (with lab)
- Physics Elective (with lab)
- Calculus I
- Calculus II or Multivariable Analysis & Linear Algebra I
- College Chemistry I
Course requirements

Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better required.

- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required, grade of C or better required.

- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- SCG 451 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with TCH 484)
- TCH 474 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- TCH 484 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required

Two courses in Physics at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- PHY 300 or 400 level physics course 1
- PHY 300 or 400 level physics course 2

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 590 SECONDARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Physics majors must complete the following tests:
Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.

Science: Physics Content Area Test (test #116) – assesses knowledge of both life and physical science, including Earth systems, technology, and the universe. Test is required before Student Teaching (deadlines apply).

EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Social Science (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.
Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Social Science-History (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul’s Vincentian Mission and the COE’s Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests.
Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.
Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. The Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written
content evaluation and provide a copy of this evaluation to their academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Social Science

All coursework in the content area must earn a grade of C or better.

- Two US History courses (any level)
- Two Non-US History courses (any level)
- One additional History course (any level)
- One Economics course
- One Geography course
- One Political Science course focused on American Government
- One Anthropology, Sociology, or Psychology course
- Three additional courses in any social science area (Anthropology, Economics, Geography, History, Political Science, Sociology, or Psychology)

Course Requirements

Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better required.

- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required, grade of C or better required.

- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- SCG 451 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with TCH 482)
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM
- TCH 472 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 1
- TCH 482 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 2
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required.

Two courses in History or the Social Sciences at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- HST 300 or 400 level history or social science course 1
- T&L 455 READINGS IN AMERICAN HISTORY

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 590 SECONDARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.
Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Social Science majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Social Science: History Content Area Test (test #114) – assesses and measures the candidate's core knowledge across history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Visual Arts (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a
minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are
completed in conjunction with methodology courses that require students to spend daytime hours in schools. As
students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be
completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks
in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of
teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete
those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide
candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban
educational settings, including public and private middle and high schools. Students follow a general pattern of
study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.
The program combines theoretical principles of education and field work with the student's choice of major.
Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school
licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary
education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Visual Arts (grades 9-12 or
grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy
  of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical
  content knowledge research, and DePaul’s Vincentian Mission and the COE’s Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates
  cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and
  collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking,
  divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical,
  creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and
  academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly
  traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream
  English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and
  outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content
  knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as
  language, learning, and socio-emotional and behavioral differences, diverse types of student performance
  data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening,
  and cognitive development theories and related pedagogies that are grounded in sociocultural theories of
literacy and reflect an understanding of multiple literacy theory and practice.
• articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
• plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
• identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
• articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the
major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the
Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.
Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Visual Arts

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Two Dimensional Foundation
- Three Dimensional Foundation
- Drawing
- Intermediate or Adv. Drawing
- Painting
- Sculpture
- Computer Graphics
- Printmaking
- Principles of Art History
- Photography
- Video
- Art & Design I
- Art & Design II

Course Requirements

Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better required.

- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required, grade of C or better required.

- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- BBE 501 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM
- SCG 451 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with T&L 466)
- T&L 465 ART AND PEDAGOGY
- T&L 466 TEACHER AS ARTIST
- TCH 495 ASSESSMENT ISSUES IN SECONDARY EDUCATION

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required.

Two courses in Visual Art at the graduate level are required. Courses must be taken before student teaching if
pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- T&L 565 INDEPENDENT STUDIO TOPICS
- ART 300 or 400 level art course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 590 SECONDARY STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Recommended/Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required. Visual Art candidates are required to take this course.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required**

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Visual Arts majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Visual Arts Content Area Test (test #145) – assesses knowledge of elements, principles, and expressive features of visual arts. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Teaching and Learning: World Language - Arabic (MA or MEd)**

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective
teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language – Arabic (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.
Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.
Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written
content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for World Language Education Arabic**

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Arabic I
- Advanced Arabic II
- Advanced Arabic III
- Advanced High Arabic I
- Advanced High Arabic II
- Advanced High Arabic III
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective

**Course Requirements**

**Education Courses: 40 quarter hours required, grade of C or better required.**

- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION
- BBE 560 SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION K-12
- BBE 570 SECOND & WORLD LANGUAGE LITERACIES AND CULTURES
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
- T&L 449 STANDARD AND CONTENT-BASED METHODS OF TEACHING WORLD LANGUAGES K-12 (Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- BBE 407 EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

**Education Elective Course: 4 quarter hours are required, grade of C or better required.**

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

**Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.**

Either a course in Arabic at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- ARB 300-600 level Arabic course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)
Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Recommended/ Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching licensed. World Language Education Arabic majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. It is recommended to be taken during the first or second quarter in the program. Test is required before Student Teaching (deadlines apply). *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Foreign Language: Arabic Content Area Test (test #137) – assesses knowledge of the Arabic language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Chinese (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective
teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Foreign Language Chinese (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program.
There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).
**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.
Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Chinese

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Chinese I
- Advanced Chinese II
- Advanced Chinese III
- Advanced High Chinese I
- Advanced High Chinese II
- Advanced High Chinese III
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective

Course Requirements

Education Courses: 40 quarter hours required, grade of C or better required.

- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION
- BBE 560 SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION K-12
- BBE 570 SECOND & WORLD LANGUAGE LITERACIES AND CULTURES
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
- T&L 449 STANDARD AND CONTENT-BASED METHODS OF TEACHING WORLD LANGUAGES K-12 (Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- BBE 407 EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Education Elective Course: 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.

Either a course in Chinese at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.
Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Chinese majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. It is recommended to be taken during the first or second quarter in the program. Test is required before Student Teaching (deadlines apply). *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Foreign Language: Chinese Content Area Test (test #126) – assesses knowledge of the Chinese language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.
Teaching and Learning: World Language - French (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
Evaluate history and policies of language education and how historical and policy context affect the education of language learners.

Analyse various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program.
There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).
**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems.

DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.
Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education French

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced French I
- Advanced French II
- Advanced French III
- Advanced High French I
- Advanced High French II
- Advanced High French III
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective

Course Requirements

Education Courses: 40 quarter hours required, grade of C or better required.

- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION
- BBE 560 SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION K-12
- BBE 570 SECOND & WORLD LANGUAGE LITERACIES AND CULTURES
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
- T&L 449 STANDARD AND CONTENT-BASED METHODS OF TEACHING WORLD LANGUAGES K-12 (Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- BBE 407 EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Education Elective Course: 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.

Either a course in French at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals
pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- FCH 300-600 level French course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required**

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

**Recommended/Optional Course:**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education French majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. It is recommended to be taken during the first or second quarter in the program. Test is required before Student Teaching (deadlines apply). *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Foreign Language: French Content Area Test (test #127) – assesses knowledge of the French language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.
Teaching and Learning: World Language - German (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language German (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing
Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.
Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Course Requirement

Education Courses: 40 quarter hours required, grade of C or better required.

- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION
- BBE 560 SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION K-12
- BBE 570 SECOND & WORLD LANGUAGE LITERACIES AND CULTURES
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
- T&L 449 STANDARD AND CONTENT-BASED METHODS OF TEACHING WORLD LANGUAGES K-12 (Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- BBE 407 EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Education Elective Course: 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

Graduate Level Content Area Courses: 4 quarter hours required, grade of C or
Either a course in German at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- GER 300-600 level German course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required**

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

**Recommended/Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Licensure Tests**

All individuals licensure by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education German majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. It is recommended to be taken during the first or second quarter in the program. Test is required before Student Teaching (deadlines apply). *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.*
- Foreign Language: German Content Area Test (test #128) – assesses knowledge of the German language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of
Teaching and Learning: World Language - Italian (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Italian (kindergarten-grade 12), Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing
Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.
Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Italian include:

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Italian I
- Advanced Italian II
- Advanced Italian III
- Advanced High Italian I
- Advanced High Italian II
- Advanced High Italian III
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective

Course Requirements

Education Courses: 40 quarter hours required, grade of C or better required.

- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION
  - BBE 560 SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION K-12
  - BBE 570 SECOND & WORLD LANGUAGE LITERACIES AND CULTURES
  - BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
  - T&L 449 STANDARD AND CONTENT-BASED METHODS OF TEACHING WORLD LANGUAGES K-12 (Secondary)
  - T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
  - BBE 407 EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS
  - LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Education Elective Course: 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.
Either a course in Italian at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- ITA 300-600 level Italian course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required**

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

**Recommended/ Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Italian majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. It is recommended to be taken during the first or second quarter in the program. Test is required before Student Teaching (deadlines apply). *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Foreign Language: Italian Content Area Test (test #130) – assesses knowledge of the Italian language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "Intermediate high" or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.
Teaching and Learning: World Language - Japanese (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

- BBE 407 EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Education Elective Course: 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.
Either a course in Japanese at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- JPN 300-600 level Japanese course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 credit hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 credit hours, grade of C or better required)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Master of Arts (M.A.) Option Degree Requirements: 4 quarter hours required**

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

**Recommended/Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Japanese majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. It is recommended to be taken during the first or second quarter in the program. Test is required before Student Teaching (deadlines apply). *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Foreign Language: Japanese Content Area Test (test #131) – assesses knowledge of the Japanese language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.
Teaching and Learning: World Language - Latin (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Latin (kindergarten-grade 12), Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing
Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**
