DePaul University is accredited by:
The North Central Association of Colleges and Secondary Schools
The National Council for Accreditation of Teacher Education
The National Association of Schools of Music
The American Chemical Society
The Association of American Law Schools
The American Association of Collegiate Schools of Business

DePaul University is on the approved list of:
The American Bar Association
The State Approval Agency for Veterans Training
The Illinois State Department of Education

DePaul University is a member of:
The Council of Graduate Schools in the United States
## Calendar of the Graduate School 1971-1972

### Autumn Quarter

- **September 8**: Wednesday. Registration, A.M.
- **September 9**: Thursday. Registration, N-Z.
- **September 20**: Monday. Autumn Quarter classes begin.
- **September 20, 21**: Monday, Tuesday. Late registration and program changes, 3:00-7:00 p.m.
- **October 8**: Friday. Last day to apply for graduation, February 1972 Convocation.
- **November 12**: Friday. Foreign language and make-up examinations.
- **November 15-27**: Mail registration, Winter Quarter.
- **November 25-28**: Thanksgiving holidays.
- **November 29 - December 4**: Final examinations.
- **December 4**: Saturday. Autumn Quarter classes end.

### Winter Quarter

- **December 13**: Monday. Winter Quarter classes begin. Late registration and program changes, 3:00-7:00 p.m.
- **December 14**: Tuesday. Registration, A-M.
- **January 3**: Monday. Winter Quarter classes begin. Late registration and program changes, 3:00-7:00 p.m.
- **January 31**: Monday. Last day to apply for graduation, June Convocation.
- **February 6**: Sunday. Mid-Year Convocation.
- **February 14-23**: Mail registration, Spring Quarter.
- **February 25**: Friday. Foreign language and make-up examinations.
- **March 6-11**: Final examinations.
- **March 11**: Saturday. Winter Quarter classes end.
SPRING QUARTER

Regular registration hours: 11:00 a.m. - 2:00 p.m. and 4:00-7:00 p.m.

MARCH 2
Thursday. Registration, A-M.

MARCH 3
Friday. Registration, N-Z.

MARCH 20
Monday. Spring Quarter classes begin. Late registration and program changes, 3:00-7:00 p.m.

MARCH 30
Thursday. Easter holidays begin after last class.

APRIL 3
Monday. Classes resume.

APRIL 8, 15

APRIL 11
Tuesday. Comprehensive examinations, History and Education, June Convocation.

MAY 12
Friday. Foreign language and make-up examinations.

MAY 22
Monday. Final examinations for double-period Monday classes.

MAY 26-
June 3
Final examinations.

MAY 29
Monday. Memorial Day holiday - no classes.

JUNE 3
Saturday. Spring Quarter classes end.

JUNE 11
Sunday. Convocation.
General Information about DePaul University

PURPOSE

DePaul University is founded on Judaic-Christian principles and continues to assert the contemporaneous relevance of these principles to higher education and the modern world. The University will express these principles especially by passing on the heritage of St. Vincent de Paul, which has as its purpose the perfection of the individual person through purposeful involvement with other persons, communities, and institutions.

The faculty, students, and administrators are mutually committed to the examination of truth for its intrinsic value, for the meaningful direction it provides for the person, and for its force in the continuum of civilization.

AIMS

1. To acquire, disseminate, and advance knowledge; to develop scholarly habits of mind; to foster greater understanding of the interrelationships of knowledge.
2. To pursue and direct learning that provides for a moral and aesthetic life, for a dedication to the service of other persons, and for responsible involvement in various communities and other institutions.
3. To engage in liberal and professional studies, and through cooperation with other agencies and persons, to marshal its resources so as to assist persons and the community in the life-long educational endeavors that are in harmony with the purpose and dignity of human living.
Entrance, St. Vincent de Paul Church

Administrative Officers and Staff

BOARD OF TRUSTEES

The Board of Trustees is the corporate head of DePaul University charged under its Charter to control and manage educational, fiscal, and all other affairs of the corporation. The President heads the General Administration of the University.

Buildings and Facilities

THE LINCOLN PARK CAMPUS

The Lincoln Park Campus of DePaul University is located in a residential area on the Near North Side of Chicago, approximately four miles from the Chicago Loop. Located here are the College of Liberal Arts and Sciences, the School of Education (day division), the DePaul College, and some divisions of the Graduate School. The principal buildings on this campus:

ALUMNI HALL (1956), a tri-level structure seating 5,240, providing a site for varsity athletics, graduation exercises, assemblies, lectures, concerts, social functions, and other extracurricular activities. Alumni Hall contains a gymnasium, exercise rooms, a swimming pool, handball courts and other athletic facilities, and houses classrooms and offices of the Department of Physical Education.

ARTHUR J. SCHMITT ACADEMIC CENTER (1967), a five-story structure housing a library, classrooms, lecture halls, and faculty and administrative offices.

LIBERAL ARTS BUILDING (1923), a four-story building accommodating administrative offices, classrooms, a speech room, and a language laboratory.

SCIENCE HALL EAST (1958), a three-story structure occupied by classrooms, laboratories, and offices of the Department of Biological Sciences and the Department of Chemistry.

SCIENCE HALL WEST, occupied by the Department of Physics and the experimental laboratories of the Department of Psychology.

MAIN RESIDENCE HALL (1970), a six-story structure accommodating single and double dormitory rooms, lounges, and study rooms. The residence hall houses male and female graduate and undergraduate students.

UNIVERSITY CENTER (1971), a three-story structure housing a cafeteria, rathskeller, faculty dining room, recreation facilities, bookstore, student organization offices, religious service area, lounges, conference rooms, arts and crafts areas, and a president's dining room.

Other buildings on this campus include the University Church of St. Vincent dePaul, a faculty residence, the student publications and student activities buildings, the Lyceum Building, and the College Theatre.

The Lincoln Park Campus is the chief target of the University's plan for physical development. The "Program for Greatness," scheduled for completion in the year of the
University's 75th Anniversary, 1973, provides for construction of a fine arts building and a science research center. The Schmitt Academic Center, the Main Residence Hall, and the University Center have been completed under this program.

THE FRANK J. LEWIS DOWNTOWN CENTER

The Frank J. Lewis Center is a 17-story building conveniently located in Chicago's Loop on the southwest corner of Jackson Boulevard and Wabash Avenue. It houses the general administrative offices of the University, classrooms, libraries, a chapel, a 500-seat theatre, a cafeteria, and lounges. The College of Law, the College of Commerce, the School of Music, the School of Education (evening and graduate divisions), and the Graduate School are located in the Lewis Center.

THE UNIVERSITY LIBRARIES

The combined library facilities of DePaul University include over a quarter of a million volumes, over 1,600 periodical subscriptions, and extensive microcard and microfilm collections. Among the outstanding holdings are the Napoleonic and Irish collections, the Farthing Collection of Illinois Sessions and Statutes, and the antiquarian treasury of St. Thomas More's works.

The Lewis Center's second and third floors contain the Robert R. McCormick Memorial Library collection, which is especially designed to serve the undergraduate and graduate programs using the Lewis Center campus. The Lower Arcade houses the current and bound periodical collections. Also in the Lewis Center is the Law Library, whose collections of legal works, current judicial reports, statutes, and professional journals occupy the seventh floor.

On the Lincoln Park Campus, the reserve reading room is situated on the second floor of the Schmitt Academic Center. The third floor houses the humanities and social sciences collections, and the fourth floor the natural sciences and periodical materials.

Supplementing the University collections are such scholarly and special libraries as the Newberry, John Crerar, Chicago Historical Society, International Relations, Municipal Reference, Art Institute, and many others. Information concerning their use may be obtained from the University library staff.
Student Services

FINANCIAL AID FOR GRADUATE STUDENTS

GENERAL PROCEDURES

Graduate students seeking scholarships should apply directly to the Dean of the Graduate School, DePaul University, 25 East Jackson Blvd., Chicago, Illinois 60604. Applicants for loan programs or for employment other than teaching should contact the Office of Financial Aids and Placement, DePaul University, 25 East Jackson Blvd., Chicago, Illinois 60604. Students seeking any other form of financial aid (e.g. fellowships, assistantships, traineeships) should make preliminary application by letter to the chairman of their proposed major department, who will advise them on what further procedures must be followed.

Students applying for financial aid are advised that all credentials for admission to the Graduate School must be submitted to the Dean’s office by February 15 prior to Autumn Quarter admission. Announcement of fellowship and scholarship awards will be made by April 1; the awards must be accepted or declined by April 15. Appointment to graduate assistantships may be made at any time, but applicants must again accept or decline by April 15.

Recipients of fellowships and scholarships are required to meet the conditions of full-time study as described elsewhere in this Bulletin. There are no duties of teaching or assisting expected in return for a fellowship, except in those departments where such requirements are established for all graduate students.

It is the policy of DePaul University to make financial aid award decisions without regard to race, creed, color, national origin, or sex.

FELLOWSHIPS

DePaul University Fellowships. Each year DePaul University awards several University Fellowships on the basis of high scholarly promise or achievement. The DePaul University Fellowship is a tax-exempt gift that provides a cash stipend ranging from $2000 to $2500 and a tuition scholarship. The award is for an academic year, renewable by re-application if the Fellow shows satisfactory progress in his graduate work. A DePaul University Fellowship does not entail a teaching or assisting requirement except as noted above.

DePaul University Tutorial Fellowships. A limited number of these appointments are available to doctoral students and provide a cash stipend as well as a tuition scholarship. Tutorial Fellows are given the opportunity to assist in teaching at the collegiate
level in areas which will most benefit them as they prepare for a career in college or university teaching.

Arthur J. Schmitt Fellowships are of two types. The first is a one-year fellowship available to students who have graduated from DePaul University, awarded to full-time graduate students working for the doctorate in any academic field. A stipend of up to $5500 is granted. There is no service requirement under the fellowship. Recipients of this type of fellowship pay their own tuition and fees.

The second type is awarded to exceptionally promising new graduate assistants, in lieu of their assistantship. The fellow’s stipend and duties are substantially the same as under a graduate assistantship. This type of fellowship includes a tuition waiver.

Federal Fellowships. The National Science Foundation and the National Institutes of Health award a number of fellowships upon direct application to the appropriate office. National Science Foundation Fellowships are available in physical sciences, biological sciences, geography, non-clinical psychology, sociology, economics, political science, and interdisciplinary scientific areas. Application for an NSF Predoctoral Fellowship must be made directly to the National Science Research Council, Washington, D.C. 20025, before December for students seeking a fellowship for the following academic year.

For NIH fellowships, in the fields of medical and allied health sciences (biological sciences, chemistry, psychology), students must apply directly to the Career Development Review Branch, National Institutes of Health, Division of Research Grants, Bethesda, Maryland 20014. Applications are reviewed three times a year; awards are made for a one-year period and are usually renewed upon satisfactory performance of work toward the doctorate.

Stipends for both these fellowships are graduated from the first year to the terminal year, averaging approximately $3600. The NSF and NIH fellowships also include tuition costs.

Predoctoral Thesis Awards. These awards are available for support usually during the dissertation year. Contact Associate Vice President, Sponsored Programs and Projects, 2223 North Seminary Avenue, Chicago, Illinois 60614.

Howard V. Phalin Fellowship. This fellowship is a tax-exempt gift of $5,000 made by the Howard V. Phalin Foundation for Graduate Study for support during the dissertation year. The fellow pays his own tuition and fees, and is expected to devote full time to research on his dissertation during the fellowship year.

SCHOLARSHIPS

University Scholarships. DePaul University annually awards a number of scholarships through a special fund granted to the Dean of the Graduate School. These scholarships cover the full or partial cost of tuition. Students under scholarships are expected to pay registration, laboratory, dissertation, and other fees. University Scholarships are granted to qualified students and are administered by the Student Assistance Committee of the Graduate Council. Scholarships are awarded each year and may be renewed annually by students showing satisfactory progress in graduate work. These scholarships are for citizens of the United States and for qualified foreign students.

Sidney R. Hepburn Scholarship in Biology. This scholarship has been established by the Blue M. Electric Company and is available for a student in the Biological Sciences. The stipend helps to defray expenses of a student who wishes to study for a summer or one term at a marine, aquatic, or other approved laboratory. This scholarship is not renewable.

Price-Waterhouse Foundation Award. This award is a tax-exempt gift of $1000 to a student or students interested in the teaching of Accountancy at the collegiate level. The faculty of the Department of Accountancy selects the recipient.
DE PAUL UNIVERSITY

ASSISTANTSHIPS, TRAINEESHIPS, AND OTHER AID FOR GRADUATE STUDY

Graduate Teaching Assistantships. The University provides a number of graduate teaching assistantships offering a cash stipend and a tuition waiver. Application for an assistantship should be made directly to the chairman of the department in which the student plans graduate study.

Traineeships. The University has a number of traineeships which are available in many departments. These are supported by the National Science Foundation, the National Institutes of Health, the National Defense Education Act, and the Social Rehabilitation Administration. They are as follows:

The Department of Psychology makes available to graduate students a number of traineeships in its program in Rehabilitation Counseling. These traineeships are funded under the Social Rehabilitation Administration through a grant awarded to the University. Graduate students on SRA traineeships must be full-time students and may accept no other appointment or employment. The trainee receives a stipend of approximately $2000 for the academic year, plus cost of tuition and fees. Apply to Chairman, Department of Psychology.

School Psychology. Students interested in school psychology may apply to the Department of Psychology for a Fellowship in School Psychology. A limited number of such fellowships are provided by the Illinois State Department of Special Education. These fellowships provide a stipend of approximately $2000 for the academic year plus cost of tuition and fees.

Students in clinical psychology are eligible to apply to the Department of Psychology for a Mental Health Traineeship. These traineeships are awarded to students who have completed at least two quarters of graduate work and pay a stipend of approximately $2700 for the academic year plus the cost of tuition. Trainees are assigned to the University Mental Health Clinic on a half-time basis.

The Department of Management makes available to graduate students a limited number of traineeships in its program in the Management of Rehabilitation Services. These traineeships are funded under SRA through a grant awarded to the University. Graduate students appointed as trainees may accept no other appointment or employment. A trainee receives a stipend of approximately $400 per month (plus a monthly allowance for each dependent) for the academic year, plus cost of tuition and fees. Apply to Chairman, Department of Management.

The Department of Nursing offers a number of Public Health Service Traineeships. These provide monthly stipends and a tuition allowance for each quarter registered. Applicants should apply to the Chairman of the Department of Nursing. Special federal scholarships, which do not require any specific academic standing, are available to full-time students who can show exceptional financial need. Maximum awards are $1500. Applicants for traineeships should apply to the Department of Nursing and for the federal scholarships to the Office of Financial Aids & Placement.

U. S. Army Corps of Engineers, Graduate Associates. Through a cooperative program with the Corps of Engineers, graduate students whose research is in the area of the aquatic sciences, economics, sociology, and mathematics may carry on their thesis or dissertation research with support from the Corps of Engineers through the Graduate Associate Program. These appointments, in general, provide support during the last year of graduate study; research is under the direction of a DePaul University faculty member. The student incurs no commitment to the Corps of Engineers subsequent to the year of research support. Students must be citizens of the United States to be eligible for this program. Apply to Associate Vice President, Sponsored Programs and Projects.

Research Assistantships. Research assistantships are available in the natural sciences and psychology. Remuneration for these appointments ranges from about $1600 to
about $3000 and the work undertaken is usually in the student's research area. Inquiries concerning such assistantships should be made directly to the individual department in which the student is studying. These awards include a tuition scholarship.

GRANTS

Law Enforcement Grants. A special grant program has been established for officers of any publicly funded law enforcement agency who wish to obtain an undergraduate or graduate degree in certain curricula (consult Financial Aid counselor for eligible fields of study). Part-time as well as full-time students may apply to the Office of Financial Aids & Placement. Grants may be awarded up to a maximum of $2000 per quarter.

STUDENT LOANS

National Defense Student Loans. This program is co-sponsored by the Federal Government and DePaul University. A graduate student may borrow up to $2500 each academic year to a total not exceeding $10,000 for both his undergraduate and graduate years. The exact amount depends upon an evaluation of financial need. The repayment period (up to 10 years) and the interest (5.5%) do not begin until nine months after the student is enrolled at least half-time. If a borrower becomes a full-time teacher (or school administrator) in an elementary or secondary school or in an institution of higher education, a substantial part of the loan may be forgiven at a rate of 10-15% for each year of service, the higher rate being reserved for those who are located at schools in officially approved poverty areas. The 15% rate also applies, commencing with experience gained in the 1967-68 academic year, to full-time teachers of handicapped children who by reason thereof require special education.

Nurses Student Loan Program. Students pursuing a course of study in Nursing who desire loans are required to borrow under this program. The provisions and requirements are essentially the same as the National Defense Student Loan program except that the maximum award is $1500 per year and the total amount which can be borrowed for all years is $6000.

Illinois State Guaranteed Loan Program. This is essentially a program for full-time students from middle and upper income families who wish to defray payment of college expenses over a period of time. They must be bona fide residents of Illinois. Graduate School students may borrow a minimum of $300 to a maximum of $1500 each year depending on their college expenses. The rate of interest is 7%. However, the Federal Government will pay the interest until the repayment period begins provided the adjusted gross income of the family is less than $15,000 per year. Payments of $30 minimum begin 9 months after cessation of full-time study and the entire loan must be repaid within six years from this date.

EMPLOYMENT OPPORTUNITIES

College Work Study Program. Full-time graduate students who can demonstrate financial need may apply for part-time and/or summer employment under this program, which is co-sponsored by the Federal Government and DePaul University. Students may work (mostly on campus) up to 15 hours weekly while attending classes and up to 40 hours weekly when no classes are scheduled. The basic pay range is from $2.50 to $3.50 per hour for Graduate School students depending upon the job classification. The student's earnings cannot exceed his need. Application should be made to the Office of Financial Aids & Placement.

Other Part-Time Employment. Part-time and summer jobs both on and off campus are available for students through the services of the Office of Financial Aids and Placement. Rates of pay for graduate students are from $2.50 to $3 or more per hour. The location of the University in a metropolitan area contributes greatly to the number and
DE PAUL UNIVERSITY

variety of opportunities for employment. In addition, the University itself can offer positions to students. After students have registered for their classes, the Office of Financial Aids and Placement will assist them in finding jobs. No proof of need is necessary to qualify for this service.

HEALTH INSURANCE

Accident and health group insurance is offered on a voluntary basis to full-time graduate students under 30 years of age. The application forms may be secured from the offices of the Student Health Service on the Lincoln Park Campus or in the Lewis Center.

PLACEMENT SERVICES

The University has two offices offering placement services to students and graduates of the Graduate School. Those seeking either part-time or full-time employment in business or government should apply to the Office of Financial Aids and Placement in Room 1750 of the Lewis Center. Those who wish employment in teaching and other positions in education should apply to the Teacher Placement Office in Rooms 375-376 of the Schmitt Academic Center. Both offices sponsor on-campus interview programs and also provide service for alumni.

HOUSING

The University offers on-campus housing for graduate and undergraduate men and women. A new multi-story residence hall offers single and double occupancy rooms attractively furnished. The residence hall is conveniently located near the Schmitt Academic Center classroom and library building. Food service is available in the nearby University Center. Housing applications should be directed to the Director of Housing, DePaul University, 2312 North Clifton, Chicago, Illinois 60614. A list of available off-campus apartments and rooms may also be examined in the office of the Director of Housing.
The coat of arms of DePaul University has the following symbolic significance:

The main section of the field, consisting of a series of nine checky panes (a distinctly French charge), forms one of the hundreds of heraldic crosses and is used in this instance as a representation of the cross of the Catholic faith. In the center pane is the heart, symbolic of charity for St. Vincent de Paul, the titular of the University. By his heroic lifetime of service to God and humanity and his establishment of the Congregation of the Mission (the Vincentian Fathers who administer DePaul) and the Daughters of Charity, St. Vincent de Paul has become the International symbol of charity. The pane above the heart is charged with a crescent, the symbol of Mary under the title of the Immaculate Conception, under which she is patroness of the United States.

The chief (upper compartment) is devoted to the coat of arms of Modern France, the country of St. Vincent de Paul, with its three fleurs-de-lys honoring the Trinity God. The embattled lines of partition at the base of the chief, the heraldic equivalent of a fort, betoken Fort Dearborn, established by the United States on the site of Chicago — just a short distance from the present downtown DePaul center. The phoenix on the crest, the symbol of immortality of the Resurrection, is derived from the seal of the Archdiocese of Chicago, whereon it betokens the resurrection of Chicago after the great fire.

The motto of DePaul University, "Viam Sapientiae Monstrabo Tibi" (Proverbs iv. 11), is translated "I will show you the way of wisdom."

The Graduate School

PURPOSE

The purpose of the Graduate School is the advancement of scholarship through the discovery and transmission of knowledge.

The direct educational task of the Graduate School is to refine in its faculty, and to foster in its students, those habits of scholarliness that are consequent to advanced studies and research. For faculty to be engaged in advanced studies and research stimulates their professional growth and elevates the level of their expectations. For students, the Graduate School offers opportunity to continue their studies at advanced levels in structured programs. Programs for graduate degrees are designed to develop in graduate students a broad and deep knowledge of their chosen discipline, the discipline's research methodology; or to educate them to the skills and competencies necessary for advancement in their professional careers.

In addition to the faculty and student centered purposes of the Graduate School are its University and community service objectives. The Graduate School augments the strength of the undergraduate colleges and most noticeably because the faculty enrichment the Graduate School occasions necessarily redounds to the advantage of the undergraduate students. Through the steady flow of its graduates into the community the Graduate School helps to meet contemporary society's acknowledged need for the kind of advanced scholarliness, the knowledges, the skills and the competencies that are the fruit of graduate study and research.
DE PAUL UNIVERSITY

OFFICE
The Office of the Graduate School is on the ninth floor of the Frank J. Lewis Center, 25 East Jackson Boulevard, Chicago, Illinois 60604. Phone: WE 9-3525, ext. 361/362. All business in regard to graduate study in arts and sciences or professional education may be transacted through this office. The office is open from 9:00 a.m. - 7:50 p.m. Monday through Friday, and 9:00 a.m. - 1:00 p.m. on Saturday.

STUDENT RESPONSIBILITY
This section includes information relative to admission policies and procedures, and degree requirements applicable generally to all graduate degree programs. In the following departmental and divisional sections of this bulletin, additional and particular criteria established by the departments are stated. (There are separate bulletins and application forms for degree programs in business, law, and music.) The student assumes the responsibility to know and meet both the general and the particular regulations and procedures set forth in this bulletin.

QUALIFICATIONS FOR ADMISSION TO THE GRADUATE SCHOOL
The first charter of DePaul University included a statement regarding non-discrimination. This policy, enunciated approximately 75 years ago, has been enforced vigorously over the years. Students, faculty, and the public are entitled to equal treatment regardless of race, creed, or color. It is the policy of the Graduate Council to make admissions decisions without reference to the race, color, religion, national origin, or sex of the candidate.

Students are admitted upon providing evidence of the ability to complete the programs of study and research prescribed for the advanced degrees the University confers. The Graduate School offers programs of study leading to the Ph.D. in biological sciences, philosophy, and psychology, as well as a wide variety of master's degree programs in arts and sciences, professional education, business, and music.

Applicants with less than 36 quarter hours (or 90 semester hours) in academic subjects are not eligible for full admission to graduate programs.

Evidence of the potential to engage in graduate studies is the sum of many factors: educational, personal, motivational, and others. The Graduate Council establishes only the broad criteria to qualify for admission.

In accord with these qualifications and circumstances students are admitted to the Graduate School in one of the three following categories.

For FULL ADMISSION the criteria are
1) To have received the bachelor's degree conferred by an accredited institution;
2) Scholastic achievement in one's undergraduate studies indicating a capacity to pursue successfully a program of graduate study.

These are minimum requirements for full admission to graduate programs. See the departmental sections of this bulletin for additional, more specific, and more selective admission criteria.

UNCLASSIFIED STUDENTS. The Graduate Council authorizes the Dean of the Graduate School, at his discretion, to admit as UNCLASSIFIED students those applicants who do not clearly meet the requirements for full admission. Students admitted as unclassified students are eligible for classification to full admission when requirements for full admission are satisfied. The department of the student's major may recommend that courses completed by an unclassified student be counted toward fulfillment of degree requirements.

STUDENT-AT-LARGE. The Graduate School admits as a Student-at-large a graduate student completing a graduate program in an accredited institution upon the recommendation in writing of his own graduate dean.
THE GRADUATE SCHOOL

Seniors in any of the undergraduate colleges of De Paul University are eligible for full admission upon the recommendation of the faculty of the department and certification by the undergraduate dean of completed and uncompleted requirements for the bachelor's degree.

The Graduate Council does not, as a matter of policy, require Graduate Record or other national examination scores as conditions for admission to the Graduate School. It does recommend that such scores be submitted if available. Applicants for admission should note that the submission of Graduate Record or other national examination scores is often a departmental requirement for admission to the graduate programs of that department.

PROCEDURES FOR APPLICATION FOR ADMISSION TO THE GRADUATE SCHOOL

Students interested in advanced study beyond the bachelor's degree are invited to write the Director of Graduate Admissions, DePaul University, Room 924, 25 E. Jackson Blvd., Chicago, Illinois 60604, to secure application forms. Since the composition of the "application packet" varies from department to department, please include your proposed major field of study in the letter.

The completed application form and all supporting credentials shall be submitted to the Director of Graduate Admissions at least eight weeks prior to the first enrollment for a doctoral program; and at least four weeks prior to the first enrollment for a master's program. If the applicant intends to apply for financial aid, the application and all supporting credentials shall be submitted to the Director of Graduate Admissions before February 1. Announcement of most awards is made by April 1. In accord with the policy of the Council of Graduate Schools of the United States, a recipient must accept or decline the award prior to April 15 at his discretion.

Since there is frequently a delay in the forwarding of transcripts, applicants are well advised to initiate the application procedures as early as possible.

A non-refundable fee of $15.00 (check or money order payable to De Paul University) must be included with the application form when it is submitted.

Applicants for admission to the Graduate School shall submit, IN DUPLICATE, OFFICIAL transcripts of their academic records at ALL colleges and universities attended. Applicants should advise the registrars to forward these official transcripts to the Director of Graduate Admissions, Graduate School, De Paul University, 25 East Jackson Boulevard, Chicago, Illinois 60604. The application for admission cannot be reviewed until all transcripts have been received in the Graduate School Office.

Some departments require the submission of Graduate Record Scores (or the scores of other national examinations) and/or letters of recommendation. See the specific admission requirements in the departmental sections of this bulletin.

Students-at-large shall complete the form for admission to the Graduate School. The supporting credential is a letter from the Dean of the Graduate School where the student is in good standing. This letter should state at least in general terms what course or courses the student-at-large is authorized to take.

A senior in any of the undergraduate colleges of De Paul University shall complete the form for admission to the Graduate School. He should request the Registrar to forward his transcript to the Director of Graduate Admissions. The supporting credentials are a statement from his Dean of completed and uncompleted degree requirements and a recommendation from the faculty of his major department.

De Paul University is an approved institute for veteran training. Veterans who wish to avail themselves of the benefit provided by various public laws upon admission should consult the Registrar.

The Dean of the Graduate School notifies by letter each applicant of his admission to the Graduate School. This letter of admission will include a statement of any conditions that may have been recommended. Admission is granted for a specific term and year. If
DE PAUL UNIVERSITY

the student does not enroll in that term, admission is cancelled, and he must apply on the appropriate form for re-admission to a later term. An applicant admitted to a Ph.D. program is required to pay a non-refundable deposit of $25.00 applicable to his account in the term to which he has been admitted.

It is the policy of the Graduate School that no student be allowed to register for courses until his admission to the Graduate School is authenticated by the letter of admission from the Dean of the Graduate School. The Dean of the Graduate School is authorized to waive this requirement when, in his judgment, circumstances warrant the exception.

READMISION

Any student previously enrolled in the Graduate School who has not been in attendance for a period of four consecutive quarters or longer shall secure an application for re-admission from the Office of the Director of Graduate Admissions. At least three weeks prior to the day of registration for the quarter in which the student expects to resume his studies, this form should be completed and returned to the Office of the Director of Graduate Admissions. A transcript recording any scholastic work taken while not enrolled at De Paul University should be included. As a general rule students are held to degree requirements that obtain at the time of re-admission.

New students are admitted for a specified quarter in the calendar year. An applicant who does not enroll in that quarter shall secure an application for re-admission from the Director of Graduate Admissions. At least three weeks prior to the day of registration for the quarter in which he expects to enroll, this form should be completed and returned to the Office of the Director of Graduate Admissions.

INTERNATIONAL STUDENTS

Students who are not citizens or permanent residents of the United States are advised to apply for admission at least six months, but not less than two months, prior to the quarter in which they plan to enroll. The International Application Form should be requested from the Foreign Student Adviser, DePaul University, Room 1617, 25 East Jackson Boulevard, Chicago, Illinois 60604. The application form should be accompanied by either official transcripts and diplomas or copies certified by the school from which they are issued; if these documents are not in English, they must be accompanied by an official translation. The transcripts should include secondary school, college, university, and professional institutions of learning.

In addition to the admission requirements listed above, all foreign applicants whose native language is not English must demonstrate proficiency in the English language by taking the Test of English as a Foreign Language. Information on how to take this test may be obtained by writing to TOEFL, Educational Testing Service, Princeton, New Jersey 08540. An affidavit of support indicating adequate financial resources for a minimum of one academic year must also be submitted. No notification of admission will be sent to an applicant, nor will an I-20 form be issued, until all these requirements have been met.

Upon arrival in the United States, the foreign student will contact the Foreign Student Adviser, who will assist the student with personal counseling, immigration advice, and information concerning housing, health services, and general University procedures. If admitted, all foreign graduate students must register for a minimum of eight quarter hours during each quarter in which they are enrolled.

ADMISSION TO CANDIDACY FOR A DEGREE

Admission to study in the Graduate School is distinct from admission to candidacy for a degree. See the statement on admission to candidacy in this bulletin in the section on the Ph.D., and also in departmental sections.

ACADEMIC COUNSELING

Graduate study differs significantly from undergraduate study in the amount of individual attention faculty give to students. Paradoxically, this frequent consultation of
faculty with student enables the student to exercise considerable initiative and to engage in a large measure of independent study. As a result, the purposes of his graduate studies are more closely adapted to his personal capacities and needs. The individualized, skillful direction of faculty makes the graduate program more challenging.

Graduate students are encouraged to seek out this opportunity for individualized attention. Faculty members establish their office hours for student consultation and students are expected to make appointments with their professors to insure that they receive individual attention in an orderly and unhurried manner.

REGISTRATION FOR COURSES

1) The forms for registration for courses are available in the Office of the Graduate School. Registration dates for every quarter are listed in the calendar. Students will follow the alphabetical schedule noted in the calendar. Graduate students may register by mail during the period so designated in the calendar.

2) Schedules of the courses to be offered, together with the day and time of class meetings are published at least four weeks before a registration date. From this schedule the student plans the program of studies for which he intends to register. To facilitate pre-registration counseling with faculty advisors, students are encouraged to secure the registration forms at least two weeks prior to registration.

3) The Office of the Graduate School will not accept a registration form that has not been approved and signed by a faculty advisor. Unclassified students who have no assigned faculty advisors will have the registration form signed by a faculty member of the department in which they plan to register.

4) While a graduate student is able to register for courses offered in other Colleges of the University, he always returns his registration to the Office of the Graduate School.

5) Whether in residence or not, all regular graduate students who will use the facilities (e.g., library, laboratory, etc.) of the University, or who will consult with faculty regarding theses or examinations shall be registered in each quarter. Graduate students completing a master's degree with thesis, register in the departmental thesis research course for a total of eight quarter hours applicable to the degree.

6) A doctoral candidate who has been admitted to candidacy for the Ph.D. must maintain his registration in the University in every quarter of the academic year until the degree requirements have been completed. DCC 688-90-001, Resident Candidacy Continuation, 0 hours credit, provides for all doctoral candidates who have completed all course and dissertation research registration requirements, but who are regularly using the facilities of the University for study and research. A fee of $12.00 per quarter is charged for this registration. Students in this category retain full-time status. Laboratory fees, where applicable, will also be assessed. DCC 699-90-002, Non-Resident Candidacy Continuation, 0 hours credit, provides for those who are not in residence and need only occasional use of University facilities including the libraries. A fee of $25.00 per quarter is charged for this registration.

7) Graduate students are advised to undertake no more employment than is reasonably compatible with their proposed graduate studies in any given quarter. For students fully employed registration for two courses in a quarter is generally the maximum.

8) No one is permitted to attend a class for which he has not been properly registered. Registration is not complete until financial arrangements are completed.

9) The right is reserved to cancel any course, revise subject matter content, or alter schedules.

GRADUATION

Attendance at graduation exercises is required of all students eligible for a degree, unless they are excused by the Dean. In seeking permission to graduate in absentia, the student must present valid reasons for his absence in a letter to the Dean at least three weeks previous to the convocation. The student who fails to obtain the necessary permission must wait for the next convocation to receive his degree. Those with permission to graduate in absentia should make arrangements for the mailing of their diplomas.
THE MASTER'S DEGREE

For the Master's degree most programs of graduate studies require forty-eight quarter hours. Where the program includes a thesis, up to a maximum of eight quarter hours of registration in Thesis Research will be counted as credit toward the degree. It is the policy of the Graduate Council to allow no credit by transfer in degree programs leading to the Master's degree. The Council authorizes the Dean of the Graduate School to make exceptions to this policy when, in his judgment, the circumstances justify exception. The student will find a statement of the specific degree requirements in the departmental sections of this bulletin.

The maximum time limit to complete all the degree requirements for the Master's degree is six calendar years from the date of admission. Students are strongly encouraged to complete their program of graduate study within a three year period. The Graduate School presumes that after six years a course may no longer be counted toward degree requirements because of obsolescence. Only two courses may be reinstated by examination.

A maximum of twelve quarter hours of graduate credit earned in workshops may be applied toward a Master's degree.

Though course requirements are an essential part of a degree program, satisfactory course grades alone are not sufficiently indicative of the academic achievement required for an advanced degree.

COURSES, CREDIT AND GRADES

The courses numbered 300 to 399 inclusive are advanced undergraduate courses which are normally taken in the junior and senior year. If they are listed in this bulletin they may be accepted for graduate credit within the limitation stipulated by the departments of the Graduate School. Courses numbered 400 and over are graduate courses.

All courses carry four quarter hours unless otherwise indicated.

Graduate students are expected to maintain a higher level of academic achievement than undergraduate students. A basic, or C grade, will be acceptable in no more than half the graduate courses; those numbered 400 and above, completed in the major and minor sequence. Advanced undergraduate courses, those numbered 300 to 399, must have a grade of at least B if they are to receive graduate credit.

A—indicates exceptional achievement.
B—indicates superior achievement, the minimum expected of graduate students in advanced undergraduate courses.
C—indicates basic achievement.
D—indicates achievement unacceptable for graduate credit.
F—indicates failure.
FX—indicates excessive absences or unauthorized withdrawal.
Inc.—indicates the student has not completed all the requirements for a given course by the end of the term. An incomplete may be removed and credit given for the course.
P—indicates pass. Given in courses taken on a pass/fail basis.
W—indicates withdrawal from a course at a time in which the student was doing passing work, or before the quality of the work could be determined. If the student was doing unacceptable work at the time of withdrawal, F is given.
R—indicates thesis research not completed at the end of the term.

Graduate students admitted to degree programs as regular students who have completed twenty-four semester hours in course work eligible for degree credit (not prerequisites) before September, 1967 will be allowed the equivalent of not more than ten courses or forty quarter hours toward completion of the degree programs under the new statement of degree requirements in terms of courses in quarter hour units.

For regular graduate students completing Master's programs who have less than twenty-four semester hours of earned graduate credit, the following table of equivalencies is normative. This table does not apply to transfer credit.

DEGREE CANDIDACY

The Master's degree program of some departments of the Graduate School includes admission to candidacy. See the departmental sections of this bulletin regarding this requirement.

LANGUAGE REQUIREMENTS

Each department, with the approval of the Graduate Council, makes such language or allied requirements as the student's program and research may demand. Such requirements are stated in the departmental sections of this bulletin.

MASTER'S THESIS

DePaul offers the master's degree both with and without the thesis. A thesis is always required for the Master of Arts degree offered through the following departments: education, philosophy, psychology, sociology, and theology. The following departments offer the master's degree with the thesis but allow the student to substitute in its place some additional work, additional courses and often a paper; economics, education, English, history, music, and physics. A thesis is never required for the degree Master of Business Administration. In English and music the student may substitute a creative composition for the thesis.

The thesis topic is limited to the student's field of specialization and should offer satisfactory evidence of having scholarly research possibilities. After degree candidacy has been granted and graduate research courses completed, the student must present the topic to the graduate committee of his department of specialization for approval. At the time of presentation the student should have a clear concept of the nature of the thesis problem, the possibilities for making the investigation, and the technique to be used. The graduate committee may require the student to make some preliminary investigation to test the availability of sources.

The student is advised to consult the office of the Graduate School for information regarding the required form and type of paper to be used for the thesis. Responsibility for fulfilling these requirements lies with the student, not the typist.

When completed, the thesis is submitted to the director for consideration. Whatever changes or additions are necessary must be made by the final date of acceptance, or the student will not be permitted to graduate until a subsequent convocation. The thesis having been found satisfactory, three type-written copies of it must be filed in the office of the Graduate School by a given date. These final copies will not be accepted until a week before the dates indicated below.

DE PAUL UNIVERSITY

PAPER ON APPROVED TOPIC

The type and length of the paper is determined by the departments that list this as a requirement for certain master's degrees. The purpose of the paper is to give evidence of the student's ability to find, select, interpret, and organize material in an acceptable manner.

The student's choice of a paper topic is to be approved by his department. The paper is to follow the form approved for thesis, and must be submitted within two months after the approval of the topic. Only one copy of the paper need be presented to the student's major department in a quarter previous to the quarter of the student's graduation.

COMPREHENSIVE EXAMINATIONS

A student is eligible for his final comprehensive examinations only after all the other degree requirements have been completed. The type and subject matter of these examinations follow the regulations established in the various departments of the Graduate School.

The student makes application for this examination through the Graduate Office no later than October 1 for the February Convocation and February 1 for the June Convocation. If the student does not pass the examination, the Dean may grant permission for another examination on the recommendation of the department of the student's major field. This examination may not be repeated until after the next convocation, nor may the examination be taken more than twice.

GRADUATION

The Master's degree "with distinction" is conferred upon candidates who have achieved exceptional scholastic proficiency in course requirements, research, and final written or oral comprehensive examinations.

THE DOCTOR OF PHILOSOPHY DEGREE

The Doctor of Philosophy is the highest academic degree that De Paul University confers. It symbolizes that the recipient has demonstrated objectively his proficiency in some broad area of learning as well as his potential to explore and advance that field of knowledge by independent scholarly research. To the extent that diversity of educational experience rather than uniformity fosters growth in scholarliness, statements of degree requirements are inherently minimal and approximate. The Graduate Council approves the following requirements which reflect the Council's intent both to maintain quality and to preclude arbitrariness. The requirements stated below are the minimum requirements for all candidates for the Doctor of Philosophy degree. Additional requirements are set by the departments. They are stated in the announcements in the departmental sections of this bulletin. Any department may, with the approval of the Graduate Council, make further regulations which are not inconsistent with the general rules.

For the Ph.D. degree the graduate student will complete a minimum of 108 quarter hours of post-baccalaureate credit of which a maximum of 56 quarter hours of credit is applicable to the dissertation. Graduate students working toward the Ph.D. degree may count, without petition, as partial fulfillment of degree credit, up to 48 quarter hours of graduate credit earned at an accredited institution.

The program of graduate studies chosen for the Doctor's degree will usually include study in related fields as determined by the student in consultation with his Graduate Advisory Committee.

A student will be advised to withdraw from the Ph.D. program when his Graduate Advisory Committee judges that he is not maintaining satisfactory progress toward the degree. Students are required to maintain at least a "B" average. A course grade below "C" is unsatisfactory and will not be counted toward degree requirements. Generally, when an advanced undergraduate course is to be counted for graduate credit, the grade therein may not be below "B." The determination of satisfactory progress is, however, not limited to the grades and grade point average. It includes all factors in the student's performance.
THE GRADUATE SCHOOL

RESIDENCE

Full-time study for residency is defined as registration for a minimum of 10 quarter hours in a quarter. At least three consecutive quarters beyond the master's level must be spent in full-time study at De Paul University. With prior approval of the Graduate Advisory Committee, residency may be satisfied by course work, by participation in seminars, or by research performed off campus.

To reflect the diversity of graduate study for the Ph.D. at stages other than the residency stage, doctoral candidates who are registered for Reading and Research, four quarter hours; Thesis Research, four quarter hours; or for minimum university registration, 0 hours credit, are full-time students.

LANGUAGE REQUIREMENTS

Each department, with the approval of the Graduate Council, makes such language or allied requirements as the student's program and research may demand. Such requirements are stated in the departmental sections of this bulletin.

EXAMINATIONS

It is the policy of the Graduate Council to set two examinations for all doctoral candidates: the comprehensive or doctoral candidacy examination; and the final examination on the dissertation. A department may, in addition, require an initial or preliminary examination.

Toward the end of his year of residency, and when language or allied requirements are satisfied, the doctoral candidate petitions for his comprehensive or doctoral candidacy examination on a form to be obtained from the Office of the Graduate School. The doctoral candidate's Graduate Advisory Committee will endorse the petition before it is returned to the Dean of the Graduate School, whereupon the Dean notifies the faculty of the department to prepare and administer, in accord with its established procedures, the doctoral candidacy examination and to submit the results thereof, properly certified by the examining committee, to the Dean of the Graduate School. The comprehensive or doctoral candidacy examination may be written and/or oral. A student will be allowed to take the doctoral candidacy examination not more than twice.

The Final Examination is on the doctoral dissertation. The doctoral candidate petitions for his Final Examination on a form to be obtained from the Office of the Graduate School. A doctoral candidate may not petition his Final Examination before eight months after admission to candidacy. This form is returnable to the Dean of the Graduate School by the dissertation advisor endorsed by him and the readers. Two copies of a draft of the dissertation shall be submitted to the Office of the Graduate School. The Dean of the Graduate School appoints the Final Examination Committee of five members of the faculty. Other members of the faculty may attend. The Dean arranges a date for the Final Examination, usually about ten days after the form, together with two copies of the dissertation, have been returned properly endorsed to his office. It is the responsibility of the Chairman of the Final Examination Committee to prepare a report of the results of the Final Examination to be signed by all members thereof and to return this report to the Dean of the Graduate School. The Dean notifies by letter the doctoral candidate whether he has passed his Final Examination.

ADMISSION TO CANDIDACY

A distinctive stage in the doctoral candidate's progress to the Ph.D. degree is admission to candidacy. It implies that the faculty is satisfied the doctoral candidate is competently knowledgeable both as to breadth and as to depth in his area of specialization and versatile in the use of research tools so as to prepare an acceptable dissertation. There is a time limit of four years between admission to the Graduate School and admission to candidacy. Once admitted to candidacy, the doctoral candidate must maintain his registration in the University in each of the quarters of the academic year until the
DE PAUL UNIVERSITY

degree requirements have been completed. Among other courses, the following are appropriate to maintain registration: Independent Study, four quarter hours; DCC 699-90-001, Resident Candidacy Continuation, 0 hours credit; DCC 699-90-002, Non-Resident Candidacy Continuation, 0 hours credit. Failure to comply with this requirement invalidates the candidacy.

For Admission to Candidacy the doctoral candidate shall complete:
   a) three consecutive quarters of full time study beyond the Master's level;
   b) the departmental language or allied requirements;
   c) the doctoral candidacy or comprehensive examination.

The Dean of the Graduate School shall issue to each doctoral candidate a certification to authenticate admission to candidacy. Admission to Candidacy will be entered on the doctoral candidate's scholastic record.

DISSERTATION

The doctoral candidate shall prepare a doctoral thesis or dissertation based on his research. The purpose of the dissertation is to evidence both one's scholarship and the ability to carry on such independent research as definitely contributes to the advancement of knowledge. While the doctoral candidate may, and often does, begin the preparation of his dissertation informally prior to admission to candidacy, he is expected to comply with certain regulations regarding the dissertation. The topic of the dissertation should be submitted to the head of the department of specialization who will appoint a dissertation committee to approve the topic and to assist the doctoral candidate through all stages in the preparation of the dissertation. The chairman of this committee is the dissertation director.

The dissertation is the basis of the Final Examination. When the doctoral candidate files his petition for the final examination he shall submit to the Office of the Graduate School two or three copies of the doctoral dissertation.

All doctoral dissertations are to be microfilmed. The doctoral candidate submits to the Office of the Graduate School two typewritten, unbound, final copies (the first copy in satisfactory condition for microfilming) of his dissertation. He prepares and submits also a 600 word abstract of the dissertation. The abstract will be published in Dissertation Abstracts and will include announcement that the dissertation is available in film form. One microfilm copy will be deposited in the University Library and will be available for inter-library loan.

To defray the costs of microfilming and publication, a dissertation fee of $40.00 is assessed. An extra fee is charged if the dissertation is to be copyrighted.

Microfilming is considered by the University to be a form of publication. Publication by microfilm, however, does not preclude the printing of the dissertation in whole or in part in a journal or monograph.

When these steps have been completed the doctoral candidate becomes eligible for degree conferment at the next convocation.

Time limits to complete the requirements for the Doctor of Philosophy degree:
   1) between admission to the doctoral program and admission to candidacy: not more than four years
   2) between admission to candidacy and the final examination: not less than eight months, and not more than five years.

TUITION

Tuition and fees listed here are for the year 1971-72.

Graduate Student tuition-per quarter hour:

Courses in the 100-200 series ................................................. $35.00a
Courses in the 300-600 series ................................................. 48.00a

a. Applicable to Graduate Students only

a. In addition to the regular registration fee.

b. The change of registration fee is charged each time a student adds a class, or drops a class and adds another class. Before the change can be issued, the student must secure approval from the Dean, and then present a special cashier receipt showing that the fee has been paid. No fee is charged for simply withdrawing from a class.

c. Physics 480 — Thesis Research. This fee is NOT charged when DePaul laboratory facilities are NOT used.

When a student is permitted to audit a course, tuition and fees are charged at the regular scheduled rates and must be paid at time of registration, and are not refundable.

Religious and clergy in full-time graduate programs who request financial assistance may merit aid through competitive selection. All religious, regardless of the level of study, will be granted a 30% tuition discount during summer sessions beginning with the summer of 1971.

No transfers of academic credit will be made unless the student's account is paid in full. Registration cannot be accepted from a student with an unpaid balance from a prior term. Registration attempted under these circumstances will be cancelled.
DEPAUL UNIVERSITY

DEFERRED PAYMENT PLAN

Normally, the University expects all tuition and fees to be paid either at registration, or at or before the end of the first week of school.

For students unable to meet this requirement, the University does offer, on payment of $3.00 Deferred Payment fee, the following plan:

- Payment of $\frac{1}{8}$ of tuition and fees at or before the end of the first week of school.
- Payment of $\frac{1}{2}$ of tuition and fees at or before the end of the third week of school.
- Payment of the final $\frac{1}{2}$ tuition and fees at or before the end of the sixth week of school.

Students failing to make payments on or before the scheduled date will be assessed an additional $1.00 for each and every delinquency.

CHANGE OF REGISTRATION AND WITHDRAWALS

A student wishing to withdraw from a class or classes must report to the academic office immediately and fill out a withdrawal slip, or notify the Graduate School by letter stating the reasons which make withdrawal necessary. Failure to notify the academic office (within the current term) of such withdrawal, renders the student ineligible for refund. Students may not withdraw from a class during the last ten calendar days of any term. No adjustment of tuition charges will be made in the case of an unapproved or unauthorized withdrawal. Upon approval of the withdrawal request by the Dean of the Graduate School, tuition charges will be adjusted in accordance with the following schedule.

<table>
<thead>
<tr>
<th>Period of attendance from opening date of each quarter.</th>
<th>Percentage of tuition to be charged.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Two weeks</td>
<td>25%</td>
</tr>
<tr>
<td>Three weeks</td>
<td>50%</td>
</tr>
<tr>
<td>Four weeks</td>
<td>75%</td>
</tr>
<tr>
<td>Over four weeks</td>
<td>100%</td>
</tr>
</tbody>
</table>

Exceptions: For Autumn-Winter courses which run for 24 weeks with one class meeting a week, the period of attendance will be divided by two before applying the percentage charge.

If a student must withdraw for failure to meet scholastic requirements during a previous term and the academic office has been unable to notify him of this failure prior to the beginning of the current term, no tuition or fees will be charged for this cancelled registration.

All withdrawals will be dated as the end of the week in which the last class was attended. No tuition charge will be assessed for attendance during the first week of a term.

REFUNDS

Tuition refunds will be made by the Student Finance Office only upon receipt of approved withdrawal slip and specific request for refund by the student concerned. Refundable credits must be claimed within one calendar year of the beginning of the term in which the credit accrued. In no case will tuition be refunded for failure to complete an audited course, and fees other than tuition are not refundable.

THE GRADUATE STUDENT AND SELECTIVE SERVICE

It is the policy of the Graduate School to accord humane and flexible consideration to the situation of graduate students in good standing who withdraw from a program of study because of the draft or for voluntary service.

Whenever such a student is required to, and does properly withdraw to enter the armed forces before completing at least three quarters of any course, a refund of tuition

32
THE GRADUATE SCHOOL

will be made according to the schedule published in the bulletin and he shall be given a grade of "W."

Should such a student register at some future time, he will receive financial credit for the amount of tuition not already refunded, even if he completes three quarters of the course but elects not to take academic credit.

In the case when the student has completed three quarters of a course, provision will be made to receive credit for the course. A student who receives full academic credit for the course will receive no financial credit.

When the tenure of a graduate student to whom some form of financial support has been awarded is interrupted by voluntary or involuntary induction into the military service of the United States, every effort will be made to reinstate the award. Application for reinstatement should be made to the Graduate School within three months of discharge from military service.

GENERAL GRADUATE SCHOOL COURSES

698-90-001 RESIDENT CANDIDACY CONTINUATION (0 hours credit). Students admitted to candidacy for the doctoral degree who have completed all course and dissertation registration requirements but who are regularly using the facilities of the University for study and research are required to be registered each quarter of the academic year until the dissertation and final examination have been completed. $192.00 per quarter.

699-90-002 NON RESIDENT CANDIDACY CONTINUATION (0 hours credit). This registration provides for doctoral candidates who have been admitted to candidacy who are not in residence and need only occasional use of University facilities, including the libraries. $25.00 per quarter.

PURPOSES

The purpose of the Department in the Graduate School is to provide programs of advanced study which will enable qualified students to earn degrees at the master's and doctoral levels and pursue careers related to the biological sciences.

AIMS

To provide instruction in basic biological principles related to specific degree programs and career goals of the student.

To provide laboratory experience which will enable students to refine and enhance their abilities in the use of methods employed in the biological sciences as a means of acquiring, interrelating and synthesizing knowledge about life and living principles.

To provide opportunities for research related to the student's degree program or to a faculty member's research.

To provide assistance to the student in the planning of a program of studies which will enable him to earn a degree and advance in his career goals.

To provide opportunities for interaction between faculty and students through formal and informal learning situations in order to promote an academic environment for an "association of scholars."

GRADUATE PROGRAMS

The Graduate School requirements for degrees must be met by all candidates. The specific Departmental requirements are given below.

Students entering graduate study must have a baccalaureate degree with a major in the biological sciences and a minimum of 24 hours (= 16 semester hours) from not more than two of the following related fields: chemistry (including organic), mathematics, physics and psychology. The Departmental Committee on Admissions and Awards will determine if the courses in the student's undergraduate program are adequate for admission to advanced work. In consultation with the Departmental Chairman, students will be advised to remove deficiencies early in graduate study. It is strongly recommended that the Graduate Record Examination score also be submitted at this time.

At some time during graduate study every student must participate in undergraduate instruction for a minimum of three courses and/or two quarters.

Master of Science Degree. Programs of study leading to the Master of Science in Biology are designed for students who (1) have a desire to increase their scope and understanding of the life sciences; (2) plan additional education at the master's level for increased proficiency in teaching and/or research; or (3) plan to continue study to the Ph.D. degree. Students pursuing study for the Master of Science will develop a program in consultation with their Graduate Advisor. Areas of specialization offered are: (1) Cellular Biology; (2) Environmental Biology; and (3) Comparative Endocrinology. In addition, a
BIOLOGICAL SCIENCES

program may be planned which will serve the individual seeking a broad education in biology.

Requirements for the Degree:

1) A minimum of 44 quarter hours.
2) A minimum of two seminars and 4 quarter hours in Research (496). A maximum of 8 quarter hours in course 496 may be applied to the degree requirements.
3) Advancement to candidacy by the Dean of the Graduate School.
4) A final examination taken in all areas of graduate study and basic biological concepts.
5) A student may elect to write a master's thesis after approval by the major advisor and the chairman of the department.

Doctor of Philosophy Degree. Doctoral programs are intended for mature persons who have clearly defined objectives and who possess the background necessary for a concentrated program of research and independent study. Emphasis is placed on critical evaluation of literature, originality in research and competence in the written and oral presentation of data and their interpretation. Areas of specialization offered are: (1) Cellular Biology; (2) Environmental Biology; and (3) Comparative Endocrinology.

Requirements for the Degree:

1) The Department requires that the student pass a preliminary comprehensive examination before admission to the Doctoral Candidacy Examination. In special cases, this requirement may be waived for students who have successfully completed a final oral examination for the Master of Science Degree. The preliminary examination must be taken during the first year of graduate study after completion of the Master's Degree or its equivalent;
2) Each student who plans to become a Candidate for the Doctor of Philosophy Degree must develop a graduate program in consultation with his Graduate Committee upon admission to the Graduate School;
3) A minimum of 108 quarter hours of study above the baccalaureate degree; students holding the Master's Degree shall have 44 quarter hours applied to this requirement;
4) Demonstration of an ability to read and understand one modern language selected from German, French, Russian or Spanish, or presentation of evidence that a minimum of two years of a modern language has been completed at a satisfactory level;
5) A Doctoral Candidacy Examination must be successfully completed for admission to candidacy for the degree not later than one year prior to the student's expected date of Convocation. This examination will be written and oral.
6) A dissertation which results from an original investigation and is acceptable for publication as judged by the student's Graduate Committee;
7) The Final Examination on the dissertation and relevant allied materials.

During study for the Doctoral Degree the student is urged to study for at least one quarter at a biological station or other research institute to be selected in consultation with his Graduate Committee.

All courses are offered in Science Hall East, Lincoln Park Campus at 1056 Belden Avenue. Courses including laboratory work are so designated. Academic term during which courses are offered is stated in the course description where applicable. Courses carry four quarter hours credit except where otherwise stated.

COURSES

Upper Division Courses

302—CELL BIOLOGY. Fundamentals of cell structure and function. Laboratory. Spring.
DE PAUL UNIVERSITY

505—MAMMALIAN ANATOMY. Structural organization of the mammalian vertebrate. Laboratory. Autumn.

507—MAMMALIAN PHYSIOLOGY. Function of the vertebrate organ systems emphasizing the mammal. Laboratory. Winter.

508—PLANT ANATOMY. Structure of cells, tissues, and tissue systems; comparative anatomy of plant organs, with emphasis on gymnosperms and angiosperms. Laboratory. Winter.

509—PLANT PHYSIOLOGY. Physiology of vascular plants. Laboratory. Spring.

515—ECOLOGY. The community approach to biological organization. Laboratory. Commutation Fee $10.00. Spring.

516—INSECT BIOLOGY. Introduction to the taxonomy, morphology, and physiology of insects. Laboratory.

517—AQUATIC BIOLOGY. Physical, chemical, and biological phenomena in freshwater and marine environments. Experience in field collections; work from research vessels. Laboratory.

521—MICROBIOLOGY. The biology of microorganisms with emphasis on bacteria. Laboratory. Spring.

525—GENETICS. Factors regulating species fixation and variation. Laboratory. Autumn.

528—INVERTEBRATE BIOLOGY. Comparative biology of non-chordate animals. Laboratory. Winter.

530—EMBRYOLOGY. Developmental phenomena of animals with emphasis on organogenesis. Laboratory.

568—CELLULAR PHYSIOLOGY AND METABOLISM. Physiochemical bases of cell structure and function. Laboratory. Winter.

570—INTRODUCTION TO IMMUNOLOGY AND SEROLOGY. Basic factors governing immune phenomena and antigen-antibody reactions. Laboratory. Autumn.

590—INDEPENDENT STUDY. Experimental and/or Library study of selected topics in the life sciences. A-Cellular Biology, B-Regulatory Biology, C-Developmental Biology, D-Physiology, E-Environmental Biology, F-Heredity, G-Structural Biology and Evolution. Autumn, Winter, Spring, Summer.

ADVANCED COURSES
Courses primarily for Graduate Students

420—CELL ORGANELLE PHYSIOLOGY. Organelle interactions during the cell cycle. (3).

421—CELL ORGANELLE PHYSIOLOGY. Laboratory. (2).

425—PRINCIPLES OF IMMUNOLOGY. Analysis of fundamental principles of immunity including cellular and subcellular regulation of immunoglobulin synthesis. (Prerequisite: Biology 570 or its equivalent). (5). Winter.

426—PRINCIPLES OF IMMUNOLOGY. Laboratory. (2). Winter.

435—COMPARATIVE ANIMAL PHYSIOLOGY. Study of physiological processes, their evolutionary base and adaptational role. (3). Autumn.

436—COMPARATIVE ANIMAL PHYSIOLOGY. Laboratory. (2). Autumn.

440—PHYSIOLOGY OF THE ENDOCRINE SYSTEM. The regulatory role of hormones in vertebrates. (3).

441—PHYSIOLOGY OF THE ENDOCRINE SYSTEM. Laboratory. (2).

444—ENDOCRINOLOGY OF REPRODUCTION. Comparative study of neuroendocrine mechanisms in vertebrate reproduction. (3).

445—ENDOCRINOLOGY OF REPRODUCTION. Laboratory. (2).
447—COMPARATIVE ENDOCRINOLOGY. Comparative and phylogenetic aspects of regulatory mechanisms in the animal kingdom. (5). No laboratory.

449—PLANT HORMONES. A study of the chemical structure, biosynthesis and transport as well as developmental and physiological significance of auxins, gibberellins, cytokinins, abscisic acid (dormin) and ethylene. Hormonal antagonists and synthetic growth regulators shall likewise be discussed. (5). No laboratory. Spring.

SEMINARS FOR GRADUATE STUDENTS

No Laboratory

450—CELLULAR BIOLOGY. Selected topics in organelle structure and function. (2).

458—ARTHROPODAN HORMONES. A study of neuroendocrine systems and mechanisms as found in the arthropods. (2).

460—COMPARATIVE ANIMAL PHYSIOLOGY. Current problems in physiological mechanisms. (2).

462—BIOLOGICAL RHYTHMS. Considerations of biological responses to predictable rhythmic fluctuations of the physical environment. (2).

464—HORMONAL REGULATORY MECHANISMS. Hormonal action at the cellular and subcellular level. (2).

465—REPRODUCTIVE ENDOCRINOLOGY. Aspects of neuroendocrine regulation of reproduction in vertebrates. (2).

468—ENDOCRINE MECHANISMS IN EMBRYONIC SYSTEMS. Development of endocrine correlation in vertebrate embryos. (2). Winter.

480—HORMONAL REGULATION OF MINERAL METABOLISM. Influence of the hormonal environment on the structure and biochemistry of mineral and nonmineral skeletal elements. (2). Autumn.

482—CURRENT PROBLEMS IN IMMUNOLOGY. A critical evaluation of experiments on cellular interrelationships in immune phenomena; the role of antigen in antibody synthesis; nucleic acid regulation of the immune response. (2). Spring.

495—PRACTICUM IN TEACHING BIOLOGY. (2). Open to graduate student teaching assistants. No more than three registrations may be applied to the M.S. and/or Ph.D. Degree. Autumn, Winter, Spring.

RESEARCH REGISTRATIONS

496—RESEARCH. Experimental work in selected areas of biology. These studies do not necessarily relate to a thesis or dissertation. (2, 4). (Prerequisite: Approval of the Department). Laboratory. Autumn, Winter, Spring, Summer.

508—RESEARCH FOR DOCTORAL DISSERTATION. Original investigation of a specific biological research problem leading to the dissertation. (2, 4, or 6). (Prerequisite: Approval of the Departmental Graduate Committee). Laboratory. Autumn, Winter, Spring, Summer.

599—DOCTORAL CANDIDATE RESEARCH. Open to doctoral candidates who have fulfilled language and residency requirements for the degree and who are devoting full time to dissertation research and study. (No credit; tuition equal to one 4-hour course). (Prerequisite: Approval of the Departmental Graduate Committee and the Dean of the Graduate School). Laboratory. Autumn, Winter, Spring, Summer.
DE PAUL UNIVERSITY

DEPARTMENT OF CHEMISTRY
DEGREE OF MASTER OF SCIENCE

FRED W. BREITBREI, III, Ph.D., Chairman, Associate Professor
WILLIAM R. FASTERGJUR, Ph.D., Professor
AVROM A. BLUMBERG, Ph.D., Associate Professor
SANAT K. DHAR, Ph.D., Associate Professor
FRANKLIN S. FRONTAL, Ph.D., Associate Professor
JURGIS A. ANYSAS, Ph.D., Assistant Professor
EDWIN F. MEYER, Ph.D., Assistant Professor
THOMAS J. MURPHY, Ph.D., Assistant Professor
ROBERT L. NOVAK, Ph.D., Assistant Professor
SARA J. STECK, Ph.D., Assistant Professor

PURPOSE

The degree of Master of Science in Chemistry is designed to prepare students for advanced work in the profession of chemistry and for further graduate study.

PREREQUISITES

Applicants for the degree of Master of Science in Chemistry must have satisfactorily completed the minimum requirements for the degree of Bachelor of Science in Chemistry which includes one year of calculus, one year of college physics with laboratory and one year each of the following branches of chemistry: general chemistry, quantitative analysis (including one course in instrumental analysis), organic chemistry and physical chemistry.

REQUIREMENTS

The Master of Science degree requires a minimum of 44 quarter hours including a thesis based on original research.

1. Basic Courses.
   (a) For organic, inorganic, and physical chemistry majors the degree program requires satisfactory credit in seven of the following courses (at least two courses from each category are required):
       350, 352, 450 — Advanced Organic Chemistry
       320, 322, 420 — Advanced Inorganic Chemistry
       370, 372, 460 — Advanced Physical Chemistry
   (b) For biochemistry majors the degree program requires satisfactory credit in the following courses:
       320 — Advanced Inorganic Chemistry
       350, 352 — Advanced Organic Chemistry
       370, 372 — Advanced Physical Chemistry
       340, 341, 342, 343 — Biochemistry

2. Seminar courses 394 and 498.

3. Research courses: a minimum of six quarter hours in research courses 497 and/or 499. Students must be registered in a research course while engaged in research.

4. Advanced courses: the student must complete the remaining of the total required 44 quarter hours in courses numbered 300 or higher. These may be courses in chemistry or in a minor field.

5. Degree Candidacy. The student must make application for degree candidacy some-
time during the quarter after he has satisfactorily completed 18 quarter hours of study. A research course (497 or 499) must be included in the 18 quarter hours.

7. Oral Examination. This examination is based on the thesis topic.

CHEMISTRY AS A MINOR FIELD

**Prerequisites**

Six quarters of chemistry, three quarters each of physics and calculus must be completed before a minor sequence can be started. The 200 level courses listed below can be used for graduate credit only by chemistry minors.

All the following course are held in the Hall of Science, 1036 West Belden Avenue, on the Lincoln Park Campus. All courses with laboratory are numbered by odd numbers.

210—PHYSICAL CHEMISTRY II. Four quarter hours. Prerequisite: Course 196. Offered Autumn quarter.

213—PHYSICAL CHEMISTRY III. Four quarter hours. Prerequisite: Course 210. Offered Winter quarter.

215—PHYSICAL CHEMISTRY IV. Four quarter hours. Prerequisite: Course 212. Offered Spring quarter.

261—INSTRUMENTAL ANALYSIS. Four quarter hours. Prerequisite: Course 215. Offered Winter quarter.

280—ADVANCED INORGANIC CHEMISTRY I. Four quarter hours. Prerequisite: Course 210. Offered Autumn quarter.

281—INORGANIC PREPARATIONS. Two quarter hours. Prerequisite: Permission of adviser. Offered Spring quarter.

282—ADVANCED INORGANIC CHEMISTRY II. Four quarter hours. Prerequisite: Course 280. Offered Winter quarter.

283—SYNTHETIC ORGANIC REACTIONS. Four quarter hours. Prerequisite: Course 125 or 175. Offered Spring quarter.

340—BIOCHEMISTRY I. Four quarter hours. Prerequisite: Course 125 or 175. Offered Autumn quarter.

341—EXPERIMENTAL BIOCHEMISTRY I. Two quarter hours. Prerequisite: Course 340. Offered Autumn quarter.

342—BIOCHEMISTRY II. Four quarter hours. Prerequisite: Course 340. Offered Winter quarter.

343—EXPERIMENTAL BIOCHEMISTRY II. Two quarter hours. Prerequisite: Course 341. Offered Winter quarter.

350—ADVANCED ORGANIC CHEMISTRY I. Four quarter hours. Prerequisite: Courses 175 and 196. Offered Autumn quarter.

352—ADVANCED ORGANIC CHEMISTRY II. Four quarter hours. Prerequisite: Course 350. Offered Winter quarter.

356—SPECTRAL INTERPRETATION. Four quarter hours. Prerequisite: Course 125 or 175. Offered Winter quarter.

370—ADVANCED PHYSICAL CHEMISTRY I. Four quarter hours. Prerequisite: Course 214. Offered Autumn quarter.

372—ADVANCED PHYSICAL CHEMISTRY II. Four quarter hours. Prerequisite: Course 370. Offered Winter quarter.
DE PAUL UNIVERSITY

374—SELECTED TOPIC IN PHYSICAL CHEMISTRY. Two quarter hours. This course may be any topic in the field of polymer, solutions, statistical mechanics, surfaces, transport phenomena, etc. Prerequisite: Permission of instructor. Offered by arrangement. (This course may be repeated for credit.)

376—POLYMER CHEMISTRY. Four quarter hours. Prerequisite: Course 372. Offered by arrangement.

385—ADVANCED CHEMICAL TECHNIQUES. This is a laboratory course which may be in the fields of analytical, biochemistry, inorganic, organic or physical chemistry. This course may be repeated for credit if topic is different. Two quarter hours. Prerequisite: Permission of chairman. Offered by arrangement.

394—SEMINAR. One quarter hour. Prerequisite: Course 214. Offered every quarter. (This course may be repeated for credit.)

420—ADVANCED INORGANIC CHEMISTRY III. Four quarter hours. Prerequisite: Course 322. Offered Spring quarter.

422—ELUCIDATION OF STRUCTURE OF INORGANIC COMPOUNDS. Four quarter hours. Prerequisite: Course 322. Offered by arrangement.

440—BIOCHEMISTRY III. Four quarter hours. Prerequisite: Course 342. Offered Spring quarter.

450—ADVANCED ORGANIC CHEMISTRY III. Four quarter hours. Prerequisite: Course 352. Offered Spring quarter.

460—ADVANCED PHYSICAL CHEMISTRY III. Four quarter hours. Prerequisite: Course 372. Offered Spring quarter.

474—ADVANCED SELECTED TOPIC IN PHYSICAL CHEMISTRY. Four quarter hours. Prerequisite: Permission of instructor. Offered by arrangement. (This course may be repeated for credit.)

480—SPECIAL TOPIC IN CHEMISTRY. Four quarter hours. This course may be in any special topic in the fields of inorganic, organic, analytical, biochemistry, physical chemistry, etc. This course may be repeated for credit if topics are different. Prerequisite: Permission of chairman. Offered by arrangement.

497—RESEARCH. One quarter hour. Prerequisite: Permission of advisor. Offered every quarter. (This course may be repeated for credit.)

498—SEMINAR. One quarter hour. Prerequisite: Permission of advisor. Offered every quarter. (This course may be repeated for credit.)

499—RESEARCH. Two quarter hours. Prerequisite: Permission of advisor. Offered every quarter. (This course may be repeated for credit.)

500—INDEPENDENT STUDY. Two quarter hours. Prerequisite: Permission of chairman. (This course may be repeated for credit.) Offered by arrangement.

502—INDEPENDENT STUDY. Four quarter hours. Prerequisite: Permission of chairman. (This course may be repeated for credit.) Offered by arrangement.
COLLEGE OF COMMERCE
GRADUATE SCHOOL OF BUSINESS

The Graduate School confers the degrees Master of Business Administration and Master of Science in Taxation upon students who satisfactorily complete all of the requirements for these degrees.

**Master of Business Administration Degree**

A candidate for this degree must complete a minimum of 52 quarter hours of graduate study and must designate a field of concentration in one of the following programs of study: Accountancy, Business Economics, Finance, Industrial Management, Personnel Administration, Systems, or Marketing.

Students who possess an undergraduate degree in an area other than business may be required to take additional background courses in business, up to a maximum of 36 quarter hours. This will be determined by an evaluation of undergraduate transcripts.

The following courses comprise the requirements for this degree:

13 Courses — 52 Quarter Hours

* For business undergraduates, the "500" core course in their major graduate field is not taken.

**Master of Science in Taxation Degree**

Candidates for this degree must complete a minimum of 48 quarter hours of graduate study.

Students for the degree who possess an undergraduate degree in an area other than business may be required to take additional courses as prerequisites. Such prerequisite courses will be specified by the Chairman of the Department of Accountancy. This degree is offered in the evening under the direction of the Department of Accountancy.

The following courses comprise the requirements for this degree:

12 Courses — 48 Quarter Hours

Plus four additional tax courses to be selected with the approval of the department chairman.

**STUDENT AT LARGE**

A student presently working on an advanced degree from an accredited institution or one who already possesses a masters degree and would like to update his business knowledge will be permitted to register for graduate courses as a student at large.

**BUSINESS AS A MINOR FIELD**

Courses in commerce may be used as a minor field in combination with education.

A student should register in the Graduate School after he has selected courses with the aid of the Chairman of his department of specialization and has the written approval of the Chairman of the minor department in the College of Commerce.

* For detailed information about these programs, consult the Bulletin of the Graduate School of Business.

PURPOSE

The purpose of the graduate program of the Economics Department is to provide extensive knowledge and intensive analysis of economic theories and institutions. It provides wide acquaintance with the basic sources in the field and initiates the student to habits of economic research.

DEGREE OF MASTER OF ARTS

PREREQUISITES

Applicants for the degree of Master of Arts must have satisfactorily completed 11 courses in the social sciences, of which at least nine must be in economics or finance, including Economics 505 and 506 or their equivalents. The remaining two courses may be in political science, sociology, psychology, statistics, history, or geography.

REQUIREMENTS — THESIS PROGRAM

1. Completion of nine courses.
   a) At least six courses must be taken at the 500 level, and these six must include Advanced Price and Distribution Theory, History of Economic Thought, Advanced Income Theory, and either Topics in Quantitative Economics or Seminar in Economics.
   b) Students who have completed 11 courses in economics or finance as prerequisites have the option of selecting two courses in a minor field for which they have completed the required prerequisites.
   c) Students who have completed less than 11 courses in economics and finance are not permitted to choose a minor field.

2. A thesis is required. The student must register for Economics 600, Thesis Research, for which eight quarter hours of credit are given.

3. An oral or written comprehensive examination covering the field of graduate study and the thesis. The choice between an oral and a written examination is at the option of the student. This examination will be taken after submission of an approved final draft of the thesis.

REQUIREMENTS — NON-THESIS PROGRAM

1. Completion of 11 courses.
   a) At least seven courses must be taken at the 500 level and these seven must include Advanced Price and Distribution Theory, History of Economic Thought, Advanced Income Theory, and either Topics in Quantitative Economics or Seminar in Economics.
   b) Students who have completed 11 courses in economics or finance as prerequisites may have the option of selecting two courses in a minor field for which they have completed the required prerequisites.
   c) Students who have completed less than 11 courses in economics and finance are not permitted to choose a minor field.

42
2. An oral or written comprehensive examination in the field of graduate study. The choice between an oral and a written examination is at the option of the student. This examination will be taken during the final quarter in the program.

**ECONOMICS AS A MINOR FIELD**

**Prerequisites**

Economics may be combined as a minor field only with those departments whose chairmen permit such a minor. The undergraduate prerequisites consist of eight courses in the social sciences. Six of these must be in economics or finance; the remaining two courses may be in political science, sociology, history, or geography.

**Advanced Undergraduate Courses**

305—PRICING AND DISTRIBUTION ANALYSIS. A detailed analysis of micro-economic theory. Both marginal analysis and indifference curve analysis are treated. The basic principles of production and pricing are examined. Emphasis is placed on pricing under various forms of imperfect competition, and the results of theory are constantly appraised in the light of economic realities. The implications of oligopolistic pricing for public policy are investigated. (Prerequisite: Economics 104).

306—NATIONAL INCOME ANALYSIS. A study of economic aggregates. The determinants and statistical measurement of total income, output, and employment are explained. The analytical tools of Keynesian theory are critically examined and current controversies are investigated. The relationship of fiscal and monetary policy to economic stability is studied and appropriate forms of public policy are examined. (Prerequisite: Economics 104).

318—LABOR ECONOMICS AND ORGANIZATION. This course examines historically and theoretically the principal problems confronting labor groups, with particular reference to the dynamic economy of the United States. (Prerequisite: Economics 104).

320—ECONOMIC TEACHINGS OF THE ENCYCLICALS. A study of those teachings in the modern social encyclicals which have direct application to modern economic theories, systems, and problems. Particular attention is given to the encyclicals On the Condition of Workers, On Reconstructing the Social Order, On Atheistic Communism, Christianity and Social Progress, Peace on Earth, and On the Development of Peoples. (Prerequisite: Econ. 104).

325—THE ECONOMICS OF POVERTY. Material and cultural, absolute and relative forms of poverty will be investigated insofar as they derive systematically, directly and indirectly, from the American economy. Taking elimination of poverty as an appropriate objective, existing private, institutional and governmental activities will be analyzed, including economic activity itself. Personal, social, demographic, technological, and political background factors will also be brought to bear in the consideration of more successful antipoverty economic programs and policy. (Prerequisite: Economics 104).

330—THE ECONOMICS OF SOCIALISM. This course aims at an understanding of fundamental economic relationships as they exist under socialist forms of organization. The pure theory of socialism is examined, as well as the practical organization of the economies in the various socialist nations. Attention is paid to the economic problems of deciding what goods will be produced, how resources will be allocated, and the uses to which economic goods are put. The question of the economic efficiency of the socialist economies will be examined. (Prerequisite: Econ. 104).

385—THE THEORY OF ECONOMIC DEVELOPMENT. A balanced coverage of the major aspects of the theory of economic development. The course includes an introduction to the more important theories of economic growth, as well as explanations of the role of land, capital, labor, and technology in the development process. (Prerequisite: Economics 104).
DE PAUL UNIVERSITY

350—ECONOMICS OF UNDER-DEVELOPED COUNTRIES. An introduction to the analytic skills of the economist applied to the special problems of under-developed countries. The view that development requires authoritarian control by the state is contrasted with the position that it may be accomplished by private economic decision-making. (Prerequisite: Economics 104).

361—INTERNATIONAL TRADE. A study of international trade theory and policy. It examines the fundamental basis for trade and the questions of equilibrium and disequilibrium in the world economy. It includes analyses of the Balance of Payments, international investment flows, and the position of the dollar in foreign exchange transactions. Modern international institutions are studied. (Prerequisite: Economics 104).

375—INTRODUCTION TO ECONOMETRICS I. This course introduces the student to the application of statistical methods to empirical testing of theoretical models of economic behavior. It proceeds from a discussion of mathematical models to probability theory and the methodology of statistical inference relevant to econometric work. Simple and multiple regression and correlation analysis will be emphasized along with a brief consideration of some problems raised by these methods of estimation. (Prerequisite: Economics 104 and one course in statistics.)

376—INTRODUCTION TO ECONOMETRICS II. The existence of various fundamental problems in the application of statistical procedures to econometric estimation will be studied: multicollinearity, identification, serial correlation, and nonhomogeneity of error variance. In addition, more sophisticated estimation techniques will be studied, e.g. reduced form and multiple-stage regression techniques. (Prerequisite: Economics 375).

380—MATHEMATICS FOR ECONOMICS AND BUSINESS I. This and the preceding course are designed to provide a basic competency in the use of mathematics in Economics and Business. More and more, traditional as well as new concepts are discussed in the language of mathematics. In addition, successful study in the area of quantitative methods is greatly facilitated if the student has prior knowledge of the required mathematical tools. This first course consists of a general and elementary survey of three areas: the nature of a mathematical model, matrix algebra, and an introduction to the calculus. All tools will be developed within the framework of problems common to Economics and Business. The student is assumed to have only a high school algebra background. (Prerequisite: Economics 104).

381—MATHEMATICS FOR ECONOMICS AND BUSINESS II. This course is a continuation of Economics 380. Areas of concentration will include: a survey of the relevant concepts of both differential and integral calculus, differential equations, difference equations, and the mathematics of statistical inference. (Prerequisite: Economics 380).

COURSES FOR GRADUATE STUDENTS ONLY

509—ECONOMIC ANALYSIS. This course develops some of the more sophisticated tools of analysis in the fields of both macro and micro-economics. In the area of aggregate economics, the applications of economic theory to current problems are stressed; in the area of pricing, emphasis is on those situations which are characteristic of the actual market—where an admixture of the competitive and monopolistic elements is the rule, rather than the exception. M.B.A. candidates only. (Prerequisite: Econ. 400 or equivalent).

505—ADVANCED PRICE AND DISTRIBUTION THEORY. An advanced course in micro-economic theory. Extensive reading in the field is required and recent developments are examined. Emphasis is on those modern contributions which have made economic theory more realistic and applicable to the world of business. (Prerequisite: Graduate Standing).
506—ADVANCED INCOME THEORY. A macro-economic analysis which examines the determinants of income, employment, and prices and their interrelations aiming at the construction of a general theory. The dynamic character of income determination will be emphasized as well as the effects of government policy, economic institutions, and social goals. (Prerequisite: Graduate Standing).

510—MANAGERIAL ECONOMICS. This course studies the application of economic theory to the decision-making problems of the firm. Topics include: demand analysis and sales forecasting; production and cost analysis; business criteria for investment; forecasting economic activity; pricing; and output and marketing decisions. (Prerequisite: Graduate Standing).

514—INDUSTRIAL ORGANIZATION AND PRICES. A course designed to investigate the structure and behavior of modern industrial markets. In addition to a survey of modern theories of pricing in oligopolistic markets and the forms and effectiveness of competition in selected industries, the nature and rationale of certain institutions and practices will be studied e.g. problems of entry, excess capacity, vertical and horizontal integration, mergers and the problem of conglomerates, patents and cross-licensing, the economics of advertising, and concentration in industry. (Prerequisite: Graduate Standing).

515—BUSINESS AND PUBLIC POLICY. A critical examination of the relationship between government and private enterprise in modern economic life. Norms for establishing spheres of government activity are evaluated. The role of government in promoting competition, in regulating business practices, and in promoting economic stability is examined, as well as the effects of such activities on the private enterprise system. (Prerequisite: Graduate Standing).

518—LABOR FORCE ANALYSIS AND WAGE THEORY. A study of the American labor force: measurement, characteristics, behavior under changing income, employment, and technology. An examination of recent trends in real and money earnings and the distribution of the national income provides the basis for a critical economic analysis and appraisal of contemporary wage theory. (Prerequisite: Graduate Standing).

530—HISTORY OF ECONOMIC THOUGHT. A study of the evolution of the science of economics. Emphasis is on the important contributions made to the field by the great thinkers, starting with the Physiocrats and extending to the work of contemporary economists. (Prerequisite: Graduate Standing).

539—MODERN ECONOMIC SYSTEMS. A study of the theory and practice of modern economic systems. Attention will be devoted to the United States, the Soviet Union and other major nations. (Prerequisite: Graduate Standing).

550—REGIONAL AND URBAN ECONOMICS. This course is composed of two parts. First, an analysis and evaluation of the following methods of regional science will be made: economic base studies, regional multipliers, input-output analysis, industrial location measures, shift and share analysis, and gravity migration models. The second part of the course inquires into the problems of regional income inequality, planning, system of cities, and cost-benefit analysis to social problems of the cities.

560—DEVELOPMENT OF THE AMERICAN ECONOMY. This course describes the economic development of the United States by tracing the effects of the significant innovations. Consideration is divided among the various American metropolitan economies. (Prerequisite: Graduate Standing).

580—TOPICS IN QUANTITATIVE ECONOMICS. This course is designed to acquaint students with certain areas of quantitative and mathematical economics. To a great extent the content of the course will depend upon the individual instructor. Topics generally included in this course are activity analysis, linear programming, game theory, input-output analysis, growth theory, and inventory and portfolio analysis.
DE PAUL UNIVERSITY

(Prerequisites: Graduate Standing, Economics 305 and 306, and elementary knowledge of differential calculus, matrix algebra, and statistics).

599—SEMINAR IN ECONOMICS. The seminar proposes to develop familiarity with the bibliography of economics and a thorough grounding in the techniques of research. In addition, extensive reading in, and the discussion of, important recent works of major contemporary economists are required. (Prerequisite: Graduate Standing).

600—THESIS RESEARCH. The student writing his thesis for the Master of Arts degree must register for this course. He will pursue his research under the direction and guidance of a member of the graduate faculty. Eight quarter hours of credit is given upon the successful completion of the thesis. (Prerequisite: Permission of the Department Chairman).
SCHOOL OF EDUCATION

AUSTIN FLYNN, Acting Dean

The School of Education, through its graduate programs, endeavors to help the professional educator further his understanding of the discipline of education; foster increased mastery of professional skills; prepare people for professional leadership and service; and encourage research on problems in the field of education.

The School of Education provides graduate programs which meet the needs of professional educators who desire to prepare themselves through graduate study for positions of leadership in teaching, curriculum development, supervision of instruction, school administration, school guidance and counseling, and specialization in reading disabilities and other learning disabilities.

In addition to degree programs, the School of Education offers the professional educator opportunity for continued professional growth through a variety of non-degree programs. These include workshops, seminars, conferences, courses and related in-service programs.

Programs are designed so that the student has an opportunity to study with the professional education faculty and with faculty in other disciplines. Professional study is closely integrated with course work taken in academic departments of the University.

The School of Education maintains research and school service programs as important adjuncts of graduate study.

ADMISSION TO PROGRAMS

The student desiring admission to a graduate program in professional education must meet the requirements for admission to the Graduate School, as they are described elsewhere in this bulletin. In addition to these requirements, all candidates for admission to programs in the School of Education must meet the following standards:

1. Possession of an undergraduate degree in professional education or an acceptable amount of preparation in professional education and in liberal arts and sciences for the program of specialization to which the student is seeking admission.

2. A superior undergraduate record.

3. Approval by the School of Education Committee on Graduate Admissions.

4. During the quarter preceding the one in which the student wishes to commence his studies, he has:
   (a) filed his admission application for graduate study.
   (b) filed an official transcript of undergraduate study.

In addition to these admission requirements which are common to all graduate programs in the School of Education, the student is advised that a particular program may have requirements unique to its area of professional specialization. Such requirements are described in appropriate sections of this bulletin.

The School of Education maintains a Graduate Program Office in the Lewis Center, R-1612. Information about graduate programs and related information can be obtained upon request from this office.

STUDENT CLASSIFICATION

1. Regular Student
   Student has met all requirements and has been admitted to a degree program in the School of Education.
DE PAUL UNIVERSITY

2. Unclassified Student
   a. Student is interested in a degree program and is admitted provisionally until
      the requirements for regular student status have been completed.
   b. Student wants to pursue graduate study, but not a degree program.

REQUIREMENTS FOR A MASTER'S DEGREE

All graduate programs in professional education have the following degree requirements:
1. Completion of a minimum of forty-eight (48) quarter hours of course work.
2. Completion of a master's thesis for the Master of Arts degree or a master's paper
   for the Master of Education degree.
3. Completion of all required examinations.
   a. Written comprehensive examination for the Master of Education degree.
   b. Oral examination on the thesis for the Master of Arts degree.
4. Student is recommended for the degree by the program advisor.

ADMISSION TO CANDIDACY FOR THE MASTER'S DEGREE

All students enrolled in a graduate program as regular students must apply for admission to candidacy for a degree. The student is admitted to candidacy for a degree upon his successful completion of the following requirements:
1. Student is enrolled as a regular student in a graduate program.
2. Student has taken Graduate Record Examination.
3. Student has completed a minimum of 16 but no more than 24 quarter hours with
   an acceptable grade-point average.
4. Student has outlined his study plan for the completion of his program in consultation with his advisor.
5. Student is recommended for candidacy by his program advisor.

Applications for admission to candidacy for the Master's Degree are available in the
School of Education, Graduate Programs Office.

REGISTRATION FOR GRADUATE COURSES IN EDUCATION

1. No student may register for a graduate course in education without being enrolled
   in the Graduate School and obtaining approval from a School of Education advisor.
2. The student who is employed full-time should register for an appropriate course
   load for which he is granted permission by his program advisor.
3. Students beginning their graduate programs normally register for Education 400
   and additional courses approved by their advisors.

PROGRAMS OF STUDY

Programs for advanced degrees and for in-service professional growth are offered through three departments of the School of Education. These are the Departments of Curriculum and Instruction, Educational Psychology and Guidance and Counseling, and School Administration.

The School of Education also participates in the preparation of school psychologists in cooperation with the Department of Psychology.

DEPARTMENT OF CURRICULUM AND INSTRUCTION

ALFRED L. PAPILLON, Chairman

DON JESTER, Program Director, Business Education

ALFRED L. PAPILLON, Program Director, Curriculum Development;
Elementary and Secondary Education
The Department of Curriculum and Instruction offers professional work at the graduate level in a variety of instructional fields. These include Business Education, Curriculum Development, Secondary Education, Elementary Education, and Diagnosis and Remediation of Reading Disabilities and Other Learning Disabilities. The student interested in a particular area of study is advised to consult with the appropriate program director.

Programs for the Master of Arts or Master of Education Degree in Business Education

Admission to Program

In addition to the general requirements for admission to graduate programs in the School of Education, applicants for the Master’s Degree in Business Education must meet the following requirements:

(a) Typewriting (9 quarter hours or the advanced courses in the sequence)
(b) Office Machines (3 quarter hours)
(c) Three of the following areas:
   - Accountancy (8 quarter hours)
   - Economics (8 quarter hours)
   - Finance (4 quarter hours)
   - Management (4 quarter hours)
   - Marketing (4 quarter hours)

When, in the judgment of the faculty advisor, an applicant does not satisfactorily meet these specific requirements, he will not be permitted to apply for admission to candidacy until he has remedied the deficiencies through course work. In no case will credit earned in course work to remove deficiencies be applicable to the degree.

Course Requirements

A. Foundations of Education (12 quarter hours)
   - Research Methodology — Ed. 400
   - Social Foundations — Ed. 408
   - Psychological Foundations — Ed. 401 or 402 or 403

B. Business Education (20 quarter hours)
   - Ed. 435, 440, and 531 or 539
   - Two courses selected from: Ed. 436, 437, 438, 439, or 636

C. Electives (16 quarter hours)
   - Business Administration (12 quarter hours) 3 courses
   - Secondary Education (4 quarter hours) 1 course
   (Electives selected under advisement with the student's program advisor)

Program for the Master of Arts or Master of Education Degree in Curriculum Development

The graduate program for the preparation of curriculum leaders is planned to develop the special competencies needed by the professional educator to give leadership to curriculum development and instructional improvement programs. The program is approved by the Illinois State Certification Board to confer the Administrative Certificate with the general supervisory endorsement.

Admission to the Program

In addition to the general requirements for admission to degree programs in the School of Education, the applicant for the program in Curriculum Development must fulfill the following requirements:

1. Be a certified teacher.
2. Show evidence of at least two years of successful teaching experience.
3. Submit two recommendations by administrative or supervisory personnel where he is employed.
DE PAUL UNIVERSITY

Course Requirements
A. Foundations of Education (8 quarter hours)
   Psychological Foundations — Ed. 402
   Social Foundations — Ed. 408
B. Curriculum Development (16 quarter hours)
   Principles of Curriculum Development — Ed. 497
   Problems and Current Developments in Curriculum — Ed. 488 or 411 or 421
   Administration of Curriculum Planning — Ed. 490
   Practicum in Curriculum Development — Ed. 592
C. Courses Related to Curriculum Development (12 quarter hours)
   Research Methodology and Statistics — Ed. 400
   Foundations of Educational Administration — Ed. 491
   Education 580 or 589
D. Cognate Courses (12 quarter hours)
   Three electives. The student is counseled into courses in disciplines which
   relate to curriculum development and to the student's professional needs
   (e.g., sociology, psychology, anthropology, economics, and allied fields).

Programs for the Master of Arts Degree or
the Master of Education Degree in Elementary Education

Course Requirements
A. Foundations of Education (12 quarter hours)
   Research Methodology — Ed. 400
   Social Foundations — Ed. 408
   Psychological Foundations — Ed. 401 or 402 or 403
B. Elementary Education (20 quarter hours)
   Ed. 411 or 412 and 511 or 519
   Three elective courses in elementary education selected under advisement with
   the student's program advisor.
C. Cognate Courses (16 quarter hours)
   Electives — Four courses (16 quarter hours) in disciplines other than that of edu-
   cation. (Student elects an area of study closely related to his teaching
   interests.)

Programs for the Master of Arts Degree or
the Master of Education Degree in Secondary Education

Course Requirements
A. Foundations of Education (12 quarter hours)
   Research Methodology — Ed. 400
   Psychological Foundations — Ed. 401 or 402 or 403
   Social Foundations — Ed. 408
B. Secondary Education (8 quarter hours)
   Education 421
   Ed. 521 or 529
C. Cognate Courses (28 quarter hours)
   Electives — Seven courses (28 quarter hours) in disciplines other than that of edu-
   cation, representing the student's teaching major (approved by pro-
   gram advisor).
Programs for the Master of Arts Degree or Master of Education Degree in Reading Disabilities and Other Learning Disabilities

The objective of the Master’s Degree Program in Diagnosis and Remediation of Reading Disabilities and Other Learning Disabilities is the preparation of professional personnel at the master’s degree level for schools and clinics. It is intended to prepare specialists in diagnosing and planning for the remediation of students who have specific learning problems. A Master of Arts or a Master of Education Degree is awarded upon successful completion of the program requirements. The successful candidate also becomes eligible for State of Illinois certification in the area of learning disabilities.

Admission to the Program

In addition to the general requirements for admission to degree programs in the School of Education, the applicant for the program must fulfill the following prerequisites:

1. Be a certified teacher in elementary or secondary education.
2. Minimum of three years of successful teaching experience.
3. Three recommendations from administrative or supervisory personnel.
4. A personal interview with the Program Director.

Course Requirements

A. Foundations of Education (12 quarter hours)
   Research Methodology - Ed. 400
   Psychological Foundations - Ed. 401
   Social Foundations - Ed. 408

B. Reading and Other Learning Disabilities (32 quarter hours)

   Ed. 443
   Ed. 444
   Ed. 445
   Ed. 542
   Ed. 543
   Ed. 541 or Ed. 549

C. Elective Course (4 quarter hours)
   One course selected from the following with approval of advisor.
   Ed. 402 - 548 - 646 - 647 - 648
   English 302 - Psychology 409

DEPARTMENT OF EDUCATIONAL PSYCHOLOGY, GUIDANCE AND COUNSELING

WILLIAM E. GORMAN, Ed.D., Chairman
B. EVERARD BLANCHARD, M.A.  IRMA T. HALFTER, Ph.D.
DON DINEMEYER, Ph.D.  EDWARD IGNAS, Ed.D.
URBAN H. FLEGE, Ph.D.  JOHN TACCARINO, Ph.D.

Graduate programs in guidance and counseling are designed to prepare professional personnel to serve as student personnel and guidance specialists in elementary and in secondary schools. Programs offered lead to the Master of Arts or Master of Education degree.

The department offers a variety of non-degree programs that serve the needs of professional educators working in student personnel and guidance programs.

Admission to Programs

In addition to the general requirements listed for admission to degree programs in
DE PAUL UNIVERSITY

the School of Education, students seeking admission to programs in guidance and counseling must meet the following requirements:

1. The applicant must have two years of successful teaching experience.
2. The applicant must have a recommendation from a principal or other supervisory personnel.

PROGRAMS FOR THE MASTER OF ARTS OR
MASTER OF EDUCATION DEGREE IN
GUIDANCE AND COUNSELING
DR. WILLIAM GORMAN

Programs in Secondary School Guidance

Course Requirements

A. Foundations of Education (12 quarter hours)
   Research Methodology — Ed. 400
   Psychological Foundations — Ed. 402
   Social Foundations — Ed. 408

B. Guidance and Counseling (32 quarter hours)
   Ed. 461 or Psych. 471
   Ed. 458
   Ed. 456 or 462 or Psych. 472

Programs in Elementary School Guidance
DR. DON DINKMEYER

Course Requirements

A. Foundations of Education (12 quarter hours)
   Research Methodology — Ed. 400
   Psychological Foundations — Ed. 401
   Social Foundations — Ed. 408

B. Guidance and Counseling (32-36 quarter hours)
   Ed. 453
   Ed. 461 or Psych. 471
   Ed. 460
   Ed. 462 or Psych. 472
   Ed. 463
C. Cognate Courses (4 quarter hours)

Elective — one course selected under advisement (4 quarter hours) in disciplines which relate to the work of the counselor (e.g., Psychology, Sociology, and allied fields).

DEPARTMENT OF SCHOOL ADMINISTRATION

JOHN C. LYNCH, PH.D., Chairman

RITA M. JENNINGS, ED.D.

Programs in school administration are designed for both prospective and practicing school administrators and for professional educators serving in an administration and supervisory capacity. The experiences are planned to provide professional preparation, leadership, and in-service enrichment for elementary and secondary principals, supervisors, curriculum coordinators and community coordinators. In the fulfillment of these objectives, programs offered lead to the Master of Arts or Master of Education degree, and also serve the needs of administrative personnel who desire to further their professional preparation.

Admission to Programs

In addition to the general requirements listed for admission to degree programs in the School of Education, students seeking admission to programs in school administration must meet the following requirements:

The candidate:

(a) must be a qualified teacher,
(b) must have a record of at least two years of successful teaching,
(c) must be recommended by a principal or other supervisory personnel where he is employed.

PROGRAMS FOR THE MASTER OF ARTS OR MASTER OF EDUCATION DEGREE IN SCHOOL ADMINISTRATION OR SUPERVISION

Successful candidates for a degree in the Department of School Administration can qualify for leadership positions in school administration and supervision.

Course Requirements

A. Foundations of Education (8 quarter hours)
   Psychological Foundations — Ed. 401 or 402 or 403
   Social Foundations — Ed. 408

B. School Administration and Supervision (12 quarter hours)
   Ed. 491
DE PAUL UNIVERSITY

Ed. 495
Ed. 498
(or approved substitute courses)

C. Courses related to School Administration and Supervision (16-20 quarter hours)
Research Methodology — Ed. 400
Ed. 407 or an approved substitute course
Ed. 591 or 592 or 599
Elective — one to two courses (4-8 quarter hours) selected under advisement.

D. Courses in Cognate Disciplines (12 quarter hours)
Student selects courses with advisor's approval in disciplines which relate to administrative competence (e.g., Sociology, Psychology, Anthropology, Economics, and allied fields).

DEPARTMENT OF EDUCATIONAL FOUNDATIONS —
SOCIAL, HISTORICAL AND PHILOSOPHICAL

ANDREW T. KOPAN, Chairman
HANS A. SCHIEBET, PH.D.

This department offers graduate courses which are an integral part of all graduate degree programs in the School of Education.

Courses Offered
Education 408 — Contemporary Issues in Education (4 quarter hours)
Education 606 — Philosophy of Education (4 quarter hours)
Education 607 — Great Books on Education (4 quarter hours)
Education 608 — Human Relations in Education (4 quarter hours)

COURSES OFFERED FOR GRADUATE CREDIT
(Courses below 400 not applicable toward graduate degree requirements)

342—TEACHING ART IN THE ELEMENTARY SCHOOL. Emphasis on program planning, objectives for art education, methods of instruction in elementary education, and the selection and use of instructional materials. (Material Fee: $5.00, 4 quarter hours.)

344—WORKSHOP IN ART EDUCATION. An intensive experience provided in the selection and use of art education methods and instructional materials. (Material Fee: $7.50, 4 quarter hours.)

348—EDUCATIONAL PROGRAMS FOR THE YOUNG CHILD, PRE-SCHOOL AND KINDERGARTEN. Study of the philosophy, objectives, programs, instructional materials and facilities for programs suitable for the young child. (4 quarter hours.)

350—EDUCATIONAL PROGRAMS FOR THE PRIMARY SCHOOL. Curriculum organization, program objectives, philosophy of primary education, and instructional materials and facilities needed for the primary school are given major consideration in this course. (4 quarter hours.)

352—EDUCATIONAL PROGRAMS FOR THE MIDDLE SCHOOL, OLDER CHILDREN. Course deals with the educational programs most appropriate for the upper elementary school child. Special attention is given to emerging trends and recent developments in curriculum organization, program planning, and instruction. (4 quarter hours.)

54
EDUCATION

353—TEACHING SCIENCE IN THE ELEMENTARY SCHOOL. Major emphasis given to the role of science education in childhood education, program planning and methods and materials of instruction. (Material Fee: $5.00. 4 quarter hours.)

354—GEOGRAPHY FOR TEACHERS. Analyzes the role of geography as the unique subject in the school curriculum providing an integrated understanding of man and his natural environment. Emphasizes skills, understandings and attitudes imparted when teaching geography in elementary and secondary schools. (May be taken for education or geography credit.) (No prerequisites)

358—TEACHING MODERN MATHEMATICS IN THE ELEMENTARY SCHOOL. Instructional methods and materials, and program planning are major emphasis of this course: (Prerequisite: College Mathematics. 4 quarter hours.) Autumn, Spring, Summer Quarters.

399—TEACHING READING IN THE SECONDARY SCHOOL. Development of reading skills in the secondary school, improving reading skills in different content areas and the secondary teacher's role in a reading program. (4 quarter hours) Winter and Summer Quarters.

562—TEACHING SOCIAL STUDIES IN THE ELEMENTARY SCHOOL. Study is made of social studies education in the elementary school. Special attention is given to recent research and curriculum organization. (4 quarter hours.) Winter Quarter.

570—INTRODUCTION TO LIBRARY SCIENCE FOR TEACHERS. Basic principles; methods for the most effective use of important reference sources; the card catalog; and the aids used in the evaluation and selection of library materials. Special attention is given to the application of knowledge and skills to meet the needs of the classroom teacher with respect to the direction and guidance of children's library experiences. (4 quarter hours) Winter and Summer Quarters.

571—SEMINAR IN READING PROBLEMS IN THE SECONDARY SCHOOL. Deals with the identification of students with reading problems in the secondary school, and with developing remedial programs to meet their needs. Problems of teaching reading in subject matter fields are considered. (4 quarter hours.)

397—ASTRONOMY FOR TEACHERS. A four quarter hour course designed to meet the needs of elementary and secondary school teachers with no previous experience in this area. The concepts of the celestial sphere, solar system, galaxy and cosmology will be presented and illustrated with the aid of the Zeiss Planetarium machine of the Adler Planetarium. (Prerequisite: Permission. 4 quarter hours. Autumn and Spring)

GRADUATE COURSES

400—RESEARCH METHODOLOGY AND STATISTICS. Content of the course includes principles of research design, bibliographical skills and statistical procedures for the interpretation of educational data. (Prerequisite: Graduate standing. 4 quarter hours.)

401—ADVANCED DEVELOPMENTAL PSYCHOLOGY. Current research and theories in child development relating to the elementary school child and secondarily to motivation, personality, learning and socialization. Case studies and an analysis of various developmental problems. (Prerequisite: Ed. 532 or 533. 4 quarter hours.)

402—PSYCHOLOGY OF LEARNING. Learning activity is considered along with the coordinates of learning; the person, human capacities, learning materials, concept formation and motivation. (4 quarter hours.)

405—SOCIAL PSYCHOLOGY. Study of the influence of group life on behavior and personality development. With emphasis on the group setting, this course considers the different ways in which feelings, attitudes, beliefs, and personality are formed through inter-personal and inter-group stimulation, including an analysis of culture and social control. Various forms of collective behavior, public opinion, the behavior of interest
DE PAUL UNIVERSITY

groups, social unrest, and social movements are studied. (Prerequisite: Psych. 105. Offered under Psychology as Psychology 305. 4 quarter hours.)

404—PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD. Identification, characteristics, differences, programs, schools, curricular variations, techniques for securing maximal development. (4 quarter hours.)

408—CONTEMPORARY ISSUES IN EDUCATION. An analysis of selected issues, in their political, social, economic, religious, and cultural dimensions. (4 quarter hours.)

411—THE CURRICULUM IN THE ELEMENTARY SCHOOL. A study of basic concepts of design, organization, and implementation of the elementary school curriculum. Attention is also given to the problems of curriculum change and improvement. (4 quarter hours.)

415—PROBLEMS AND RESEARCH IN TEACHING SCIENCE. The function of science in the elementary school program; recent trends in instructional procedures and materials; and contemporary studies are given consideration. (4 quarter hours.)

415—PROBLEMS AND RESEARCH IN TEACHING SOCIAL STUDIES. This course deals with basic concepts such as social education, social studies, and social learning. Study is also made of instructional materials, current research and contemporary programs. (4 quarter hours.)

416—PROBLEMS AND RESEARCH IN TEACHING MATHEMATICS. The function of mathematics in the elementary school program; recent trends in instructional procedures and materials; and contemporary studies are given consideration. (4 quarter hours.)

418—PROBLEMS AND RESEARCH IN EARLY CHILDHOOD EDUCATION. Basic concepts of pre-school, kindergarten, and primary school programs are analyzed and evaluated. Current trends and issues are an integral part of the course. (4 quarter hours.)

419—SUPERVISING LABORATORY EXPERIENCES IN PROFESSIONAL PROGRAMS FOR TEACHERS. A course designed for teachers and administrators interested in professional teacher education. Focus is on the function of student teaching as a professional laboratory experience. The supervision of student teachers via the case study method is a vital part of the course. (4 quarter hours.)

421—CURRICULUM IN THE SECONDARY SCHOOL. This course develops the main viewpoints in: curriculum theory as applied to the secondary school, relationships between curriculum and instruction, functions of the teacher in the curriculum, approaches for research and evaluation of the curriculum, and trends and problems in the subject-matter fields. Emphasis is placed upon the structure and process of knowledge as the bases for the secondary school curriculum. (Prerequisite: Graduate standing. 4 quarter hours.)

429—ORGANIZING AND TEACHING COOPERATIVE OFFICE EDUCATION. Organization and administration of cooperative programs in vocational office occupations and effective instructional techniques. Meets part of the professional requirements for teacher-coordinators in Illinois. (4 quarter hours.)

430—EXECUTIVE USES OF ACCOUNTING. Use and interpretation of accounting information. (4 quarter hours.)

431—FUNCTIONS OF THE ADMINISTRATOR. An advanced treatment of the fundamentals underlying executive leadership. The course examines the bases of effective thinking that condition the formulation of executive decisions, and outlines the development of the philosophy of professional management. (4 quarter hours.)

432—MARKETING DECISION MAKING. Students are provided with an overview of the marketing process. The orientation is toward the kinds of decisions which mar-
education

...ket managers must make within the limits prescribed by consumers, by government, and by competition. Tools available to marketing managers to facilitate decision making are emphasized. (4 quarter hours.)

433—ECONOMIC ANALYSIS. This course develops some of the more sophisticated tools of analysis in the fields of both macro and micro-economics. In the area of aggregate economics, the applications of economic theory to current problems are stressed; in the area of pricing, emphasis is on those situation which are characteristic of the actual market. (4 quarter hours.)

434—FINANCIAL INTEGRATION. The subject matter is comprised of the financial problems, both historical and current in the functional, public and private sectors of the economy. A critical examination is made of monetary, fiscal and corporate financial policies in both the domestic as well as the international fields, with special emphasis upon the interrelationship of the financial markets. (4 quarter hours.)

435—CURRENT PROBLEMS IN BUSINESS EDUCATION. An analysis of current problems, trends, and recent developments: curriculum, changing objectives, new teaching media, automation, and vocational education. (4 quarter hours.)

436—TEACHING BASIC BUSINESS SUBJECTS. Course content and teaching methodology in economic education. (4 quarter hours.)

437—IMPROVING INSTRUCTION IN TYPEWRITING. New approaches to the teaching of typewriting with emphasis on objectives, multi-media instruction, new materials, and the changing technology in the office. (4 quarter hours.)

438—IMPROVING INSTRUCTION IN SHORTHAND. New approaches in the teaching of shorthand and transcription with emphasis on updated instructional techniques and the use of multiple-channel equipment. (4 quarter hours.)

439—IMPROVING INSTRUCTION IN BOOKKEEPING AND ACCOUNTING. Materials, teaching aims, instructional methods, and analysis of current literature. (4 quarter hours.)

440—FOUNDATIONS IN BUSINESS EDUCATION. This course reviews the origin of economic theory and basic business concepts. (4 quarter hours.)

441—THE PSYCHOLOGY OF READING. Psychological principles underlying the reading act; the development of perceptual and linguistic skills; factors of interest and experience; the origins of reading disability. (4 quarter hours.)

442—PSYCHOLOGICAL TESTS AND METHODS IN DIAGNOSIS. Administration and interpretation of diagnostic tests including tests of intelligence, reading, language, motor ability and perception appropriate to differential diagnosis. Case study approach. (Prerequisite: Ed. 441. 4 quarter hours.) Materials Fee $5.

443—APPROACHES, METHODS AND MATERIALS IN REMEDIATION. An analysis of problems in reading to determine the nature of reading disability and retardation and to develop methods and materials of instruction for the improvement of reading. The course will include the remedial program at all age and grade levels. (Material fee: $1.00) (Prerequisite: Ed. 441. 4 quarter hours)

444—DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES. Treats the diagnostic-remedial process as one entity. Course work divided among theory, research, and supervised experience in school and clinical settings. Students evaluate, study, and employ a wide variety of diagnostic instruments and remedial materials, including the Illinois Test of Psycholinguistic Abilities. (Prerequisite: Ed. 445. 4 quarter hours.)

445—CHARACTERISTICS OF THE EXCEPTIONAL LEARNER—Psycho-social and educational aspects, as well as a consideration of various therapies appropriate to children with learning disabilities. (Prerequisite: Permission, 4 quarter hours)

450—THE DYNAMICS OF AFRICAN-AMERICAN CULTURE. This course is intended for teachers in order that they may examine the contributions of the black man to
American culture; gain a functional understanding of the social, economic and political development of the black man in America; gain an insight into problems created in America because of non-acceptance relationships; gain an understanding of the intensity of the impact of the black man on American culture. (4 quarter hours.)

452—PUPIL PERSONNEL SERVICES. This course deals with the principles and current practices used in the development and organization of a student personnel program. Administrative problems, integration of guidance services, community relations and evaluation procedures will be studied. (4 quarter hours.)

453—EDUCATIONAL AND OCCUPATIONAL INFORMATION. This course deals with the results of studies in educational and occupational opportunities. The following areas will be discussed: occupational trends, sources of information, techniques for conducting local occupational surveys, scholarship information, and classroom use of educational and occupational information. (4 quarter hours.)

454—VOCATIONAL GUIDANCE. This course includes ways in which counselors assist the individual to choose, prepare for, and progress in an occupation. Vocational testing, sources of occupational information, qualifications of the vocational counselor and scientific evaluation of vocational guidance will be stressed. (4 quarter hours.)

455—THE ADMINISTRATION OF GUIDANCE PROGRAMS. Designed for school administrators, supervisors and counselors. Critical examination of the organization and administration of guidance programs in large and small schools, both public and parochial. Also included will be the development of guidance programs for the schools represented by the class membership. (4 quarter hours.)

456—COUNSELING THE COLLEGE-BOUND STUDENT. A course designed to assist school counselors in formulating a deeper perspective of the college counseling process. The use of profiles, types of colleges and admissions procedures, testing, scholarships, advance placement, the preparing of the school report and many other items will be included in the instruction. The workshop approach will be used in the final two weeks of the course to put into practice the facts learned earlier. (4 quarter hours.)

458—GROUP PROCESSES IN GUIDANCE. The student makes a study of group process, its theory, procedures, and problems as they relate to group counseling and group guidance. The class engages in a regular group experience. Opportunity to observe and participate in group work is provided. (4 quarter hours.) (Prerequisite: 462. Permission of Instructor.)

459—CLINICAL STUDIES IN GUIDANCE. This course deals with the study of normal children with educational problems. The nature, synthesis and use of case studies for guidance purposes will be stressed. The interrelationship among the various guidance techniques will be demonstrated. (4 quarter hours.)

460—GUIDANCE IN THE ELEMENTARY SCHOOL. A study of the philosophy, concepts and rationale which undergird elementary school guidance. Principles and practices as they relate to the guidance program are presented. The student is acquainted with the role of the counselor and is introduced to the various facets of the elementary school program. Attention is given to the development of guidance techniques in the classroom and group guidance. (4 quarter hours.)

461—USE OF TESTS IN APPRAISAL AND DEVELOPMENT. Detailed analysis of intelligence, aptitude, personality, and achievement tests used with groups and individuals. The course is intended to familiarize students with various appraisal procedures and their utilization in guidance and counseling. Attention is given to the development of the school testing program. (4 quarter hours.)

462—SCHOOL COUNSELING THEORY AND PRACTICE. This course seeks to develop an understanding of the major counseling theories and their application to school
counseling. Each student investigates counseling theory through wide reading and has an opportunity to see the implications of the theory in demonstration and practice. The basic theoretical considerations underlying school counseling are stressed. Students are expected to develop a personal theory of counseling. (4 quarter hours.)

463—TECHNIQUES OF GUIDANCE AND COUNSELING IN ELEMENTARY AND JUNIOR HIGH SCHOOL. A thorough study of the counseling relationship and counseling process. Students are introduced to specific techniques in counseling. The course is designed to help the student acquire the necessary counseling skills such as the establishment of a relationship, reflection, summarization, tentative analysis, and encouragement. The student evaluates and analyzes tapes, develops listening skills to facilitate communication, engages in role playing, and has limited contact with the counselee. The relationship of counseling and consultation and the skills necessary to conduct the total elementary guidance program are considered. (4 quarter hours.) (Prerequisites: Education 460 and 462.)

464—GUIDANCE CONSULTING. This course focuses on the utilization of a human behavior rationale in consultation work with teachers and pupils. Students are engaged in case study, role playing, and observation of the consultant role. (4 quarter hours.)

488—CURRENT PROBLEMS AND ISSUES IN CURRICULUM DEVELOPMENT. The purpose of this course is to make the student knowledgeable about the curriculum in terms of current research and theory. Significant topics include: new theoretical models for curriculum; providing for disadvantaged, underachieving, and gifted students; nongraded and special schools; television and programmed instruction; research activities — large-scale projects, associations, regional laboratories, ERIC, curriculum centers. (Prerequisite: Education 497. 4 quarter hours.)

490—THE ADMINISTRATION OF CURRICULUM PLANNING. The course explores the issues and new developments in curriculum planning on the state, the district, and the federal level; effective leadership of teachers, students, the public, and parents in curriculum development; the organization and functioning of curriculum workshops, laboratories, libraries, and study centers; research and curriculum evaluation; financing of curriculum planning; and relationships between school administration and curriculum planning. (4 quarter hours. Prerequisite: Education 497.)

491—FOUNDATIONS IN EDUCATIONAL ADMINISTRATION AND SUPERVISION—ELEMENTARY AND SECONDARY SCHOOLS. This course is designed both as an introductory course in educational administration and supervision for teachers and potential school administrators and as a functional informative course for those in administrative and supervisory positions. Basic competencies in organization and structure include a preview of federal, state, and local agencies and services. In addition, the course previews basic knowledge in staff and pupil personnel, boards of education, instruction and curriculum development, the school plant, school finance and business management, and home-school-community relations. (Prerequisite: Graduate standing. 4 quarter hours.)

492—ELEMENTARY SCHOOL ADMINISTRATION AND SUPERVISION. This course deals with the administration and supervision of pupils; classification and promotion procedures; the program of studies; special problems associated with kindergarten, primary, intermediate, and upper grade levels; direction and supervision of classroom teaching; and methods of evaluating pupil progress. Economic and effective methods of administering and supervising attendance, the school library, books, supplies, school records and the educational plant receive particular attention. (Prerequisite: Educ. 491 or permission of advisor. 4 quarter hours.)

493—SECONDARY SCHOOL ADMINISTRATION AND SUPERVISION. An intensive study of factors involved in the administration and supervision of a secondary school. Topics considered include the administration and supervision of student personnel, faculty, lay and professional officers, class scheduling, co-curricular program, promo-
DE PAUL UNIVERSITY

...tion policies, instructional materials, properties and finance, community relations and other basic needs in administering and supervising a secondary school. (Prerequisite: Educ. 491 or permission of advisor. 4 quarter hours.)

494—SCHOOL FINANCE AND SCHOOL BUILDINGS. Major consideration will be given to: problems relating to the preparing of a school budget, procuring revenue, financial accounting, architectural service, capital outlays, use of buildings, maintenance of the plant, insurance on property, taking the inventory. Problems and policies of the school plant, such as population studies, educational planning, school building standards. Materials and uses will be reviewed and tentative solutions found. (Prerequisite: Ed. 491, 492, or 493 or permission of advisor. 4 quarter hours.)

495—SCHOOL LAW FOR TEACHERS AND ADMINISTRATORS. This course is intended to acquaint teachers and administrators with the basic principles and applications of school law. Special emphasis will be placed on the School Laws of Illinois. (Prerequisite: Ed. 491 or permission of advisor. 4 quarter hours.)

496—HOME-SCHOOL-COMMUNITY RELATIONS. Home-school-community relations is taught with full recognition of the equity of the church, the home, the community and the school in the education of our boys and girls. The students will critically analyze the force of public opinion as well as the devices employed in shaping public opinion. Consideration will be given to the various means employed by gaining the support of the many cooperating agencies in the community. (Prerequisite: Ed. 491. 4 quarter hours.)

497—PRINCIPLES OF CURRICULUM DEVELOPMENT. Purpose of course: to prepare the student for special role of reorganizing and administering the curriculum. Course treats relationships of the curriculum to the social order, principles of content selection and sequence, patterns of curriculum organization, personnel and organization required for curriculum revision. (4 quarter hours.)

498—PRINCIPLES AND PRACTICES OF SUPERVISION. Fundamental phases of supervision and the relationship of the supervisor to the administrator and to the classroom teacher. Illustrations will be made of techniques for the improvement of learning through the improvement of teaching, through satisfactory supervisory procedures. Emphasis is on basic principles. (Prerequisite: Ed. 491 or permission of advisor. 4 quarter hours.)

499—PROBLEMS IN SCHOOL SUPERVISION. Special problems in supervision as they affect the interrelation of teaching and learning will be discussed. A detailed study of various techniques which lead to cooperative effort of supervisor, teacher, and learner in the improving of the learning situation will be made. Problems presented by members of the class will be studied cooperatively and tentative solutions will be planned. (Prerequisite: Ed. 491, 498. 4 quarter hours.)

500—ADMINISTRATION AND SUPERVISION OF SCHOOLS IN TRANSIENT AREAS. Problems facing schools with children who have been disadvantaged through circumstances beyond their control. The problems faced by the children, the teachers and the administrators are discussed and tentative solutions proposed. (Prerequisite: Ed. 491. 4 quarter hours.)

511—RESEARCH SEMINAR IN ELEMENTARY EDUCATION. Opportunity is provided for individual research and study of problems in elementary education. A seminar paper is a major requirement of the course. (4 quarter hours.)

512—TEACHING INTERNSHIP IN ELEMENTARY EDUCATION. An internship involving teaching in a school. Student is supervised by personnel from the school and from DePaul University. This course includes a weekly seminar. (10 quarter hours.)

518—INDEPENDENT STUDY IN ELEMENTARY EDUCATION. (Prerequisite: Permission of program director. 2-4 quarter hours.)

519—THESIS RESEARCH IN ELEMENTARY EDUCATION. A student writing a thesis
EDUCATION

registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program director may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours.)

521—RESEARCH SEMINAR IN SECONDARY EDUCATION. Opportunity is provided for individual research and study of problems in secondary education. A seminar research paper is a major requirement of the course. (4 quarter hours.)

525—TEACHING INTERNSHIP IN SECONDARY EDUCATION. An internship involving teaching in a secondary school. Student is supervised by personnel from the school and from DePaul University. This course includes a weekly seminar. (10 quarter hours.)

528—INDEPENDENT STUDY IN SECONDARY EDUCATION. (Prerequisite: Permission of program director. 2-4 quarter hours.)

529—THESIS RESEARCH IN SECONDARY EDUCATION. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program director may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours.)

531—RESEARCH SEMINAR IN BUSINESS EDUCATION. Opportunity is provided in this seminar for Master of Education candidates to write their 5,000 word paper. Individual research and study of problems in business education form the basis for this class. (4 quarter hours.)

538—INDEPENDENT STUDY IN BUSINESS EDUCATION. (Prerequisite: Permission of director. 2-4 quarter hours.)

539—THESIS RESEARCH IN BUSINESS EDUCATION. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program director may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours.)

541—SEMINAR ON THE PSYCHOPATHOLOGY OF LEARNING. A review of interdisciplinary theories and research applicable to the atypical learner. Opportunity is provided in this seminar for the Master of Education candidate to write his masters paper. (4 quarter hours)

542—DIAGNOSIS AND REMEDIATION OF READING DISABILITIES PRACTICUM I. The practicum will afford student the opportunity to diagnose the reading difficulties of youngsters as well as to set up an intelligent plan for the remediation of the problem. Practicum students will employ case study techniques and will meet with the professor in staff meetings after the diagnostic data have been obtained. (Prerequisites: Ed. 441, 442, 443, 444, 445 and permission of instructor. 4 quarter hours)

545—DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES. PRACTICUM II. Observation and practical application of diagnostic-remedial process in schools and clinical settings of cases with specific learning disabilities. (Prerequisite: Ed. 542. 4 quarter hours)

548—INDEPENDENT STUDY IN READING AND OTHER LEARNING DISABILITIES. (Prerequisite: Permission of program director. 2-4 quarter hours.)

549—THESIS RESEARCH IN READING AND OTHER LEARNING DISABILITIES. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program director may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours.)

551—RESEARCH SEMINAR IN GUIDANCE. Opportunity is provided in this seminar
for Master of Education candidates to write their 5,000 word paper. Individual research and study of problems in guidance form the basis of this class. (4 quarter hours)

552—PRACTICUM IN COUNSELING. This course consists of selected and directed experiences provided to qualify students to serve in the secondary schools as student personnel and guidance staff members. Prerequisite: Open to students in degree program only by advisement. (4 quarter hours)

553—INTERNSHIP IN COUNSELING. Intern is assigned to one or more cooperating schools for one, and preferably two, quarters, where he, under the joint supervision of the counseling services, administrator and the University supervisor, gains practical experience in various aspects of counseling materials, functions, procedures and services. Intern completes a jointly approved research project related to counseling in the cooperating school or school district. (4-8 quarter hours)

558—INDEPENDENT STUDY IN EDUCATIONAL PSYCHOLOGY AND GUIDANCE AND COUNSELING. (Prerequisite: Permission of program advisor. 2-4 quarter hours)

559—THESIS RESEARCH IN EDUCATIONAL PSYCHOLOGY AND GUIDANCE AND COUNSELING. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program advisor may require the student to register for additional credit. (Prerequisite: Graduate standing and thesis topic and outline approved. 4 quarter hours)

562—PRACTICUM IN COUNSELING. This course consists of selected and directed experiences provided to qualify students to serve in the elementary schools as student personnel and guidance staff members. Prerequisite: Open to students in degree program only by advisement. (4 quarter hours)

580—RESEARCH SEMINAR IN CURRICULUM DEVELOPMENT. Students in the Master of Education program in curriculum development complete a bibliographical research study of issues and problems in curriculum development. Students who currently hold positions in curriculum may complete an action research project for this seminar. (Prerequisites: Education 400, 497. 4 quarter hours)

582—PRACTICUM IN CURRICULUM DEVELOPMENT. The student is provided directed experiences in decision-making for curriculum, participation and leadership in curriculum committee activities, planning and management of learning resource centers, and representative other aspects of administration of curriculum development in schools and school systems. (Prerequisite: Advisement by program director. 4 quarter hours)

588—INDEPENDENT STUDY IN CURRICULUM DEVELOPMENT. (Prerequisite: Permission of the program director. 2-4 quarter hours)

589—THESIS RESEARCH IN CURRICULUM DEVELOPMENT. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program advisor may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours)

591—RESEARCH SEMINAR IN ADMINISTRATION. For graduate students who hold administrative positions or who are majoring in and have completed their pre-courses in educational administration. Critical evaluation of recent research in field; investigation and discussion of pertinent problems. Seminar culminates in a published report or work undertaken. (Prerequisite: Ed. 491, 492 or 493 or permission of advisor. 4-8 quarter hours)

592—RESEARCH SEMINAR IN SUPERVISION. Designed for students majoring in supervision and administration. A general review of the literature in the field; critical
evaluation of recent studies in supervision. Student undertakes a special project in
the area of his major interests in supervision and receives practice in cooperative
leadership. (Prerequisite: Ed. 400. 4 quarter hours.)

593—PRACTICUM IN SCHOOL ADMINISTRATION AND/OR SUPERVISION. The
practicum provides opportunities for advanced students in school administration
and/or supervision to participate in and complete a research project in selected
school systems on a full-time or part-time basis. The experiences are intended to
provide, under professional direction and supervision, for (1) study of major faction
policies, and problems of school administration and/or supervision and (2) intensive
study of certain critical administrative and/or supervisory practices. (Prerequisite:
Advanced students in administration or supervision and permission of department
chairman. 4-8 quarter hours.)

594—INTERNSHIP IN SCHOOL ADMINISTRATION AND/OR SUPERVISION. The
Internship provides supervised experiences in selected school systems on a full-time
or part-time basis. The student intern is cooperatively assigned to a school system
under the immediate supervision of a superintendent and/or principal. The experi-
ences provided are designed to enrich the students' theoretical background with prac-
tical opportunities of participating in (1) overall contact with the student personnel
and with the major functions and problems of certain critical administrative and/or
supervisory activities and (2) a detailed study and analysis of a particular adminis-
trative and/or supervisory function or activity. (Prerequisite: Advanced students in
administration or supervision and permission of department chairman. 4-8 quarter
hours.)

595—WORKSHOP IN SCHOOL ADMINISTRATION AND/OR SUPERVISION. Par-
ticipation in the workshop is limited to advanced students in school administration
and supervision. Students' participation is enhanced by opportunities provided in in-
terpreting and evaluating school surveys. Surveys are edited and prepared for pub-
lication. (Prerequisite: Permission of Chairman. 4 to 8 quarter hours.)

596—SCHOOL SURVEYS. Advanced students in school administration receive experience
in participating in limited and comprehensive surveys. These surveys are completed
in both public and private parochial schools and the results published. They provide
students with functional applications of administrative and supervisory theory. (Pre-
requisite: Advanced student in school administration and consent of Department
Chairman. 4 to 8 quarter hours.)

598—INDEPENDENT STUDY IN SCHOOL ADMINISTRATION AND SUPERVISION.
(Prerequisite: Permission of program advisor. 2-4 quarter hours.)

599—THESIS RESEARCH SCHOOL ADMINISTRATION AND SUPERVISION. A stu-
dent writing a thesis registers for this course for four quarter hours of credit. Where
the thesis research and the writing of the thesis itself is prolonged beyond the usual
time, the program advisor may require the student to register for additional credit.
(Prerequisite: Graduate standing and thesis topic and outline approved. 4 quarter
hours.)

606—PHILOSOPHY OF EDUCATION. An analysis and evaluation of the major philos-
ophies of education. (Prerequisite: Education 380. 4 quarter hours.)

607—GREAT BOOKS ON EDUCATION. Perennial problems of education as seen in the
classic works on education. (4 quarter hours.)

608—HUMAN RELATIONS IN EDUCATION. Analysis of problems arising in the school
with the presence of pupils and teachers of diverse racial, religious, socio-economic
and ethnic backgrounds. (4 quarter hours.)

626—JUNIOR HIGH SCHOOL. This course emphasizes psychological insights and char-
acteristics of the upper grade-junior high school pupil; aims and content of junior
high school curriculum; organization and administration of programs; problems pecu-
inlar to the junior high school. (4 quarter hours)
635—WORKSHOP IN CONSUMER PROBLEMS. The teaching of installment purchas-
ing, budgeting, comparison of prices, and other topics to comply with the recent legis-
lation requiring such instruction in grades 8 through 12. Meets the certification re-
quirements for teachers of consumer economics in Illinois. (5 quarter hours.)
636—WORKSHOP FOR TEACHERS OF OFFICE EDUCATION. New concepts in office 
education, teaching procedures, and course content. (4 quarter hours.)
645—TEACHING READING TO THE MATURE READER. This course is designed for 
the reading teacher who will work with good readers at the high school or adult 
level who want to develop optimum reading skills. Emphasis will be placed on read-
ing speed and effective study skills in reading. (4 quarter hours.)
646—TEACHING READING TO THE DISADVANTAGED. This course emphasizes the 
special skills, techniques and insights necessary to instruct effectively the child from 
an inner city environment. The range for this course will be from the pre-school level 
through the senior high school. (4 quarter hours.)
647—CHILDREN'S LITERATURE. Sources of literature for children and youth. Criteria 
for selection and evaluation. Intensive review and analysis of both poetry and prose. 
(4 quarter hours)
648—CORRECTIVE READING PROBLEMS. Methods and materials appropriate to the 
diagnosis and remediation of corrective reading problems. Organization of corrective 
reading programs in the classroom setting. (4 quarter hours.)
658—GUIDANCE IN BASIC ADULT EDUCATION. This course is intended for educa-
tors who are actively engaged in work with disadvantaged adults. Emphasis is placed 
on personnel services in basic education centers for adults. (6 quarter hours.)
659—COUNSELING IN BASIC ADULT EDUCATION. This course is intended for educa-
tors who are actively engaged in work with disadvantaged adults. Emphasis is 
placed on counseling in basic education centers for adults. (6 quarter hours.)

PURPOSE

To broaden the general foundations of knowledge and to prepare for professional advancement, the English Department offers graduate techniques in the ordering and establishing of scholarly evidence, training in linguistic history, work in the critical process, and the opportunity for specialization in a variety of studies allied with English and American Literature.

In line with these objectives, the Department offers two programs leading to the Master of Arts degree—a thesis program and a non-thesis program.

Beginning in the summer of 1971, the Department will offer special courses for college teachers, or for those preparing to teach in college. These courses may be taken as part of a Master's program, or as special courses beyond the Master's degree.

PREREQUISITES

For all programs leading to the Master's degree, the prerequisites in English are normally 12 quarter courses (48 quarter hours or 32 semester hours). The following courses are recommended:

1. Composition beyond the freshman level.
2. Introduction to Literature.
4. Period surveys in English Literature (at least three periods).
5. Period surveys in American Literature (at least two periods).
6. Other advanced undergraduate courses to complete 32 semester hours, or 48 quarter hours.

DEGREE OF MASTER OF ARTS PROGRAM I: THESIS

1. Completion of ten courses, normally all 10 in English. These courses must include the following:
   a) 400 - Bibliography and Literary Research
   b) 401 - History of the English Language
   c) 470 - Studies in Literary Criticism
   b) Five other courses from the 400 level
   c) Two other courses from the 400 and/or 500 level
2. A thesis, or creative writing project in fiction, drama or poetry.
3. Completion of the foreign language requirement by examination or by offering evidence of undergraduate foreign language study for a minimum of 12 quarter hours.
4. A comprehensive written examination.

DEGREE OF MASTER OF ARTS PROGRAM II: NON-THESIS

1. Completion of 12 courses. At least nine of the twelve must be in the English Department. The remaining three courses may be taken, with the written consent of the chairman of the department, as a minor in history, philosophy, or education, provided the student has the necessary undergraduate prerequisites for such a minor. The student may, however, take all twelve courses in English. The courses must include the following:
DE PAUL UNIVERSITY

a) 400 - Bibliography and Literary Research
   401 - History of the English Language
   470 - Studies in Literary Criticism
b) five other courses from the 400 level in English
c) four other courses, including at least one English course, from the 400 and/or 300 level

2. Successful completion of the foreign language requirement by examination or by offering evidence of undergraduate foreign language study for a minimum of 12 quarter hours.

3. A comprehensive written examination.

ENGLISH AS A MINOR FIELD

English literature may be combined as a minor field with education, history, Latin, or philosophy. The undergraduate preparation should consist of twelve semester hours, or eighteen quarter hours in English beyond the freshman level. Two thirds of this undergraduate work should be in literature; the remaining third may be in advanced composition or linguistics.

ENGLISH DEPARTMENT HANDBOOK

Every student should obtain a copy of the English Department Handbook from the department office at the beginning of his graduate study.

COURSE OFFERINGS

Courses numbered on the 300 level are advanced undergraduate courses in which graduate students may earn graduate credit. Courses numbered 400 and above are limited to graduate students.

Required Graduate Courses For Programs I and II

400—BIBLIOGRAPHY AND LITERARY RESEARCH. A general course for the guidance of students in methods of literary research.

401—HISTORY OF THE ENGLISH LANGUAGE. A systematic study of the nature, history, and usage of the English language. The course traces the language from its origin to its present status in England and America.

470—STUDIES IN LITERARY CRITICISM. The analysis, interpretation, and application of the most important theories of literary criticism from ancient times to the present.

ADVANCED COMPOSITION AND LINGUISTICS

500—ADVANCED COMPOSITION
501—ADVANCED THEORY AND PRACTICE OF COMPOSITION (For prospective high school teachers)
502—LINGUISTICS AND THE GRAMMAR OF MODERN ENGLISH
505—CREATIVE WRITING: PROSE AND POETRY
401—HISTORY OF THE ENGLISH LANGUAGE
402—ANGLO-SAXON
403—THE 20TH CENTURY ENGLISH LANGUAGE: GRAMMATICAL APPROACHES AND PROBLEMS
405—THE PROCESS OF COMPOSITION: A THEORY AND PRACTICE COURSE FOR COLLEGE TEACHERS
406—ADVANCED STUDIES IN THE ENGLISH LANGUAGE

MEDIEVAL PERIOD

510—ENGLISH LITERATURE TO 1350
511—CHAUCER AND HIS AGE
516—MEDIEVAL DRAMA

65
319—STUDIES IN SELECTED MEDIEVAL WORKS (Check current schedule for specific listing.)
410—STUDIES IN ENGLISH LITERATURE BEFORE CHAUCER
411—STUDIES IN CHAUCER

RENAISSANCE PERIOD
320—ENGLISH RENAISSANCE LITERATURE
326—ELIZABETHAN AND JACOBEAN DRAMA
328—SHAKESPEARE: REPRESENTATIVE COMEDIES, TRAGEDIES, HISTORIES
329—STUDIES IN RENAISSANCE LITERATURE (Check current schedule for specific listing.)
420—STUDIES IN ENGLISH RENAISSANCE POETRY
421—STUDIES IN ENGLISH RENAISSANCE PROSE
426—STUDIES IN ELIZABETHAN DRAMA
427—STUDIES IN MILTON
428—STUDIES IN SHAKESPEARE

RESTORATION AND EIGHTEENTH CENTURY PERIODS
330—ENGLISH LITERATURE: RESTORATION AND EIGHTEENTH CENTURY
336—ENGLISH DRAMA: RESTORATION AND EIGHTEENTH CENTURY
339—STUDIES IN RESTORATION AND EIGHTEENTH CENTURY LITERATURE
   (Check current schedule for specific listing.)
430—STUDIES IN THE AGE OF DRYDEN
431—STUDIES IN THE AUGUSTAN AGE
432—STUDIES IN THE 18th CENTURY BRITISH NOVELISTS
433—STUDIES IN THE JOHNSON CIRCLE
436—STUDIES IN RESTORATION AND EIGHTEENTH CENTURY DRAMA

NINETEENTH CENTURY PERIOD
340—NINETEENTH CENTURY ENGLISH LITERATURE
342—THE ENGLISH ROMANTIC MOVEMENT
343—THE VICTORIAN AGE IN ENGLISH LITERATURE
345—NINETEENTH CENTURY ENGLISH NOVEL
442—STUDIES IN THE ENGLISH ROMANTIC WRITERS
443—STUDIES IN THE VICTORIAN WRITERS
444—STUDIES IN THE NINETEENTH CENTURY BRITISH CRITICS
445—STUDIES IN NINETEENTH CENTURY BRITISH FICTION

MODERN PERIOD
351—MODERN ENGLISH POETRY
355—MODERN ENGLISH FICTION
356—MODERN ENGLISH AND IRISH DRAMA
450—STUDIES IN THE EDWARDIAN NOVEL
451—STUDIES IN THE CONTEMPORARY BRITISH NOVEL
452—STUDIES IN CONTEMPORARY BRITISH POETRY

AMERICAN LITERATURE
360—AMERICAN LITERATURE TO 1830
361—AMERICAN LITERATURE: 1830-1890
363—AMERICAN LITERATURE: 1890 TO THE PRESENT (Major emphasis before 1930.)
365—MODERN AMERICAN NOVEL
366—TWENTIETH CENTURY AMERICAN POETRY
388—STUDIES IN SELECTED AFRO-AMERICAN AUTHORS

67
DE PAUL UNIVERSITY

369—STUDIES IN SELECTED AMERICAN AUTHORS (Check current schedule for specific listing.)
460—STUDIES IN AMERICAN LITERATURE: BEGINNINGS TO 1780
461—STUDIES IN AMERICAN LITERATURE: 1780-1840
462—STUDIES IN AMERICAN LITERATURE: 1840-1880
463—STUDIES IN AMERICAN LITERATURE: 1880-1920
465—STUDIES IN THE MODERN AMERICAN NOVEL
466—STUDIES IN MODERN AMERICAN POETRY
467—STUDIES IN AMERICAN DRAMA
469—SPECIAL STUDIES IN SELECTED AMERICAN AUTHORS (Check current schedule for specific listing.)

LITERARY CRITICISM

370—CONTEMPORARY LITERARY CRITICISM
470—STUDIES IN LITERARY CRITICISM. Analysis, interpretation, and application of the most important theories of literary criticism from ancient times to the present.
475—STUDIES IN LITERARY ANALYSIS. A THEORY AND PRACTICE COURSE FOR COLLEGE TEACHERS

COMPARATIVE LITERATURE

380—MASTERPIECES OF WORLD LITERATURE I: BEGINNINGS TO 1600
381—MASTERPIECES OF WORLD LITERATURE II: 1600 TO THE PRESENT
385—MODERN EUROPEAN FICTION
386—COMPARATIVE DRAMA I: EUROPEAN DRAMA BEFORE 1900 (Excluding English)
387—COMPARATIVE DRAMA II: WORLD DRAMA SINCE 1900 (Excluding British and Irish)
389—STUDIES IN COMPARATIVE LITERATURE (Check current schedule for specific listing)

481—STUDIES IN COMPARATIVE LITERATURE: ANCIENT
483—STUDIES IN COMPARATIVE LITERATURE: MEDIEVAL
485—STUDIES IN COMPARATIVE LITERATURE: MODERN

SPECIAL SEMINARS AND INDIVIDUAL STUDY

490—SEMINAR IN COMPOSITION, LANGUAGE, OR CRITICISM FOR COLLEGE TEACHERS (Check current schedule for specific topic in a given quarter.)
498—INDEPENDENT STUDY. Independent Study is conducted with the permission of the chairman of the department and under the guidance of a member of the graduate faculty. Such study should not duplicate an existing course and is allowed only to those graduate students who have completed half their required course work.
499—THESIS RESEARCH. A four quarter hour course. Guidance by a member of the English faculty required in the preparation of the Master's thesis. The student will register for this course after consultation with the department chairman.
DEPARTMENT OF GEOGRAPHY

RICHARD J. HOUH, Chairman

JOANN BRAY
PIERRE R. DEVIEE
DONALD R. DEWEY
ALBERT J. LARSON

VERNON R. PRINZING
JANE E. RATCLIFFE
GERALD W. ROPEA

PREREQUISITES AS A MINOR FIELD

Geography as a minor field may be taken in connection with economics, education, history, or sociology. The prerequisites are 20 quarter hours in geography courses equivalent to Geography 100, 101, 106 or 107 or 110, 340, and 395. Students minor in geography must confer with the chairman of the department, who will propose an individual program of study based on previous training, interests, and needs.

301—INTRODUCTION TO OCEANOGRAPHY
Concerned with the formation and exploration of the oceans and their political and economic significance.

Courses from 311 through 327 are detailed regional appraisals of the geographic phenomena within the area considered. Stressed is the complex of cultural and physical features — their nature, distribution and interrelationship significant to the population. Global interest in and concern with the various countries is developed through analyses of their principal problems, including population density and composition, economic development, and international relationships.

311—PATTERNS OF THE PACIFIC
312—ARAB AFRICA AND THE MIDDLE EAST
313—BLACK AFRICA, A CONTINENT IN TRANSITION
314—INDIA, PAKISTAN, AND SOUTHEAST ASIA
315—THE FAR EAST
316—WESTERN EUROPE
317—EASTERN EUROPE AND THE SOVIET UNION
321—THE CHICAGO METROPOLITAN AREA
Extensive field trips make possible on-the-spot study of local phenomena of major importance in analyzing Chicago's urban geography. (Transportation fee required.

322—EASTERN UNITED STATES AND CANADA
323—WESTERN UNITED STATES AND CANADA
326—MAN AND LAND IN THE CARIBBEAN
327—MAN AND LAND IN SOUTH AMERICA
333—THE CITY: PROBLEMS AND PLANNING
Analyzes the development of cities as geographic forms and the role of City Planning in preventing or solving urban problems.

335—POLITICAL GEOGRAPHY
Investigates the basic factors influencing man’s political organization of space.

340—MAPS AND MAN
Stresses the preparation and interpretation of maps, charts and globes and explains their vital importance in the modern world.

354—CONTEMPORARY METHODS IN THE TEACHING OF GEOGRAPHY
Analyzes the unique role of geography for teachers in elementary and secondary schools. (May be taken for education credit as Education 354.)
DE PAUL UNIVERSITY

370—RECREATIONAL GEOGRAPHY
   The changing use and management of recreation facilities in the rural and urban
   landscape. Stresses principles of recreation location via fieldwork.

395—SEMINAR IN SELECTED GEOGRAPHIC TOPICS
   An upper-division seminar concerned with the study of selected geographic problems.
   (Prerequisite: Geography 100 and/or consent of the instructor.)

396—INDEPENDENT READING AND RESEARCH
   Permits intensive study of a topic of special interest. Private conferences permit dis-
   cussion with instructor of supervised reading and research.

JOSEPH VENTICH

PURPOSE

The purpose of all courses offered by the Department of History is to provide a broad and critical acquaintance with the past experience of human society. Graduate courses involve wide contact with historical literature, including source materials; some practice in collecting, interpreting, and presenting data according to acceptable standards of method and style; and intensive discussion of the nature and problems of the discipline.

The degree program is intended to prepare the student for further advanced study, as well as to give him a disciplinary background adequate for the professions, such as secondary school teaching, in which a master’s degree is ordinarily considered adequate.

PREREQUISITES

Applicants for admission to the Master of Arts degree program must have satisfactorily completed 48 quarter hours (32 semester hours) in the social sciences, of which at least 36 quarter hours (24 semester hours) must be in history. These 36 quarter hours should include both European and United States history. The remaining 12 quarter hours may be in history, economics, political science, sociology, geography, history of music, history of education, or history of philosophy.

DEGREE OF MASTER OF ARTS

REQUIREMENTS

1. Completion of 48 quarter hours.
   a) Course 401, Historical Method and Bibliography, is required. The remaining courses must include: 16 quarter hours in 300-level courses; 16 quarter hours in 400-level courses; and eight quarter hours in two 500-level research seminars. The remaining four quarter hours may be earned by writing an acceptable thesis (History 499, Thesis Research), or by taking another course approved by a departmental advisor.
   b) The research seminar credit must be earned in two successive quarters with the same professor. Exceptions may be made by the chairman in unusual circumstances.
   c) Students who have earned at least 48 quarter hours (32 semester hours) in history before entering the Graduate School may have the option of earning eight of the required 48 quarter hours in a related field of study, for which they must also have completed the required preparation. The department strongly recommends political science as a related field of study. Other recommended fields are: economics, geography, philosophy, sociology, and literature.

2. Reading knowledge of one foreign language, preferably French, German, or Spanish. The department will accept as evidence of reading knowledge of a foreign language 18 quarter hours (12 semester hours) of college study satisfactorily completed, or two years of high school study. Students who have earned less than 18 quarter hours or the equivalent in the study of a single foreign language must give evidence of reading knowledge by passing an examination set by the department. Examinations are available only in languages taught at the University.

71
DE PAUL UNIVERSITY

3. A written or oral comprehensive examination covering two of the fields of history listed below. The student may elect either the written or the oral examination.

<table>

HISTORY AS A MINOR FIELD

History may be combined as a minor with education, English, economics, geography, and philosophy. The prerequisites in history are 24 quarter hours, of which at least four must be in United States and four in European history.

Courses for Advanced Undergraduate and Graduate Students

304—TOPICS IN AFRICAN HISTORY. In-depth studies in the political, religious, cultural, and economic aspects of African history.

320—EARLY MEDIEVAL HISTORY, 284-1000. Breakup of the Roman Empire, growth of Christianity, Byzantium, spread and achievements of Islam, the Teutonic Kingdoms, papal state, collapse of Carolingian Empire, the Slavic world, feudalism and the establishment of the feudal states.

321—LATER MEDIEVAL HISTORY, 1000-1450. The investiture controversy, the crusades, 12th century renaissance, the politics of the feudal states, the medieval papacy, states of eastern Europe, rise of urban life, transition to the modern age, decline of the influence of the Church.

328—ENGLISH CONSTITUTIONAL HISTORY TO 1485. A study of Anglo-Saxon institutions; feudalism after the Norman conquest; growth of the common law; foundations of Parliament; and the development of central administrative systems.

329—THE RENAISSANCE, 1400-1650. A detailed discussion of the significant political, economic, intellectual and artistic developments of the early modern period. Religious developments are considered in their relationships to other phases of societal change, but they are not treated in breadth or depth.

330—THE PROTESTANT REFORMATION, 1450-1650. A detailed consideration of the main currents of religious thought and change.

331—THE OLD REGIME IN EUROPE, 1648-1789. A general study of the principal developments of the period with emphasis upon the growth of political institutions and their relationship to religious and cultural change.

332—FRENCH REVOLUTION AND NAPOLEON, 1789-1815. Political and economic failure of the Old Regime, influence of the philosophers, the rise and fall of revolutionary idealism, the spread of revolutionary principles, the development of imperialism and dictatorship under Napoleon, and the settlement of Europe at the Congress of Vienna.

333—HISTORY OF EUROPE FROM METTERNICH TO BISMARCK, 1815-1870. The decline of the aristocratic-clerical order, the emergence of capitalism, the appearance of liberal states, and the rise of nationalism in Italy and Germany.

335—HISTORY OF EUROPE SINCE 1914. A study of the main currents of international affairs during the period, and domestic problems of the leading states, with emphasis upon the dynamics of power politics.

345—ENGLAND UNDER THE TUDORS, 1485-1603. The development of England from organic Feudalism to Tudor Absolutism. Church and State during the period of bourgeoisie-Monarchy alliance. An analysis of English social, spiritual, political, and
economic values during the periods of the Henrician Reformation and the Elizabethan Renaissance; the heritage of the Stuart dynasty.

346—MODERN BRITAIN SINCE 1870. An analysis of English political parties and the development of the labor movement along with a close study of English foreign and domestic policies in the period of the two World Wars.

355—HISTORY OF RUSSIA TO 1905. A study of Kievan period, the Mongol invasions, Ivan the Terrible, the emergence of modern Russia under Peter the Great and Catherine, 19th century autocracy and the formation of the radical tradition.

356—HISTORY OF RUSSIA SINCE 1905. A study of Bolshevik Revolution, the rise of Stalin to power, the Five Year Plans, the Second World War and Russia's place in the modern world.

358—HISTORY OF EASTERN EUROPE SINCE 1900. A study of the northern half of the Eastern European states concentrating on the establishment of independent nation states and their changing social, economic, and political forms in the 20th century.

359—HISTORY OF THE BALKAN PENINSULA SINCE 1900. An area analysis of the Balkan peninsula in the 20th century, emphasizing liberation from the Turkish yoke, the establishment of nation states, and subsequent conflicts and development.

361—COLONIAL INSTITUTIONS IN LATIN AMERICA. A thorough analysis of Spanish and Portuguese colonizing techniques and comparative development of institutions under the Hapsburgs and Bourbons.

362—REVOLUTIONARY PERIOD IN LATIN AMERICA. A study of the enlightenment and the various causes behind the revolt of the Spanish and Portuguese colonies from the mother country. The analysis will include foreign intervention, evaluation of revolutionary leaders, their ideals and effectiveness.

363—REPUBLICS OF LATIN AMERICA. An analysis of the major domestic and foreign problems confronting the new republics, including a study of liberalism, conservatism, federalism, socialism and communism.

364—DICTATORS AND CAUDILLISMO IN LATIN AMERICA. A study of the causes, characteristics and effects of dictatorship in Latin America, emphasizing the role of the military.

366—INTER-AMERICAN COOPERATION. The development of the Pan-American concept from the Congress of Panama in 1826 up to the Alliance for Progress and the Organization of American States. A study of the unity of the Western Hemisphere as an effective block to European and Asian power struggles will be emphasized.

367—THE UNITED STATES AND THE CARIBBEAN. The history of the Caribbean from colonial times to the present, with special emphasis upon the role of the United States in the development of this region.

370—UNITED STATES: COLONIAL FOUNDATIONS TO 1760. The discovery, explo-
ration, and settlement of the eastern seaboard, with discussion of significant political, economic, and social consequences.

371—UNITED STATES: BIRTH OF THE REPUBLIC, 1760-1800. The establishment of American independence, adoption of the constitution, and first years of the republic considered in analytical detail.

372—UNITED STATES: EARLY NATIONAL PERIOD, 1800-1860. The historical forces that shaped the early growth and development of the republic.

373—UNITED STATES: CIVIL WAR AND RECONSTRUCTION, 1860-1877. The cause of the war, its development, and major problems of the peace.

374—UNITED STATES: EMERGENCE OF MODERN AMERICA, 1877-1914. New culture patterns, political party battles, growth of big business and organized labor, Populism and the Progressive period.

375—UNITED STATES: THE MODERN AGE, 1914-1945. A consideration of World War I, the Twenties, the Great Depression, the New Deal, World War II.

376—UNITED STATES SINCE 1945. Significant developments in American life during the period after World War II.

377—UNITED STATES SOCIAL AND INTELLECTUAL HISTORY TO 1800. A study of the social development of the American people and of patterns of thought, religion and art.

378—UNITED STATES SOCIAL AND INTELLECTUAL HISTORY IN THE 19TH CENTURY. Continues course 377.

379—UNITED STATES SOCIAL AND INTELLECTUAL HISTORY IN THE 20TH CENTURY. Continues course 378.

380—U.S. CONSTITUTIONAL HISTORY TO 1815. This course examines the English colonial charters and colonial governments in the 17th and 18th centuries, the constitutional aspects of the American Revolution, the new state constitutions drafted in the 1770's, the Articles of Confederation, the federal Constitution, and the early history of the new government. (May also be taken for Political Science credit. See Political Science 380)

381—U.S. CONSTITUTIONAL HISTORY, 1815-1920. This course continues the history covered in 380. It explores the concepts of federalism and separation of powers in some detail and with reference to major Supreme Court decisions. The constitutional aspects of the Civil War and Reconstruction are given close attention, followed by the problems of industrial regulation. (May also be taken for Political Science credit. See Political Science 381)

382—U.S. CONSTITUTIONAL HISTORY SINCE 1920. This course continues the history covered in 381. It deals with problems of civil liberties in the post-World War I era, the constitutional issues of the New Deal period, and the great variety of constitutional controversies that arose during and after World War II, including the major decisions of the Warren court. (May also be taken for Political Science credit. See Political Science 382)

383—UNITED STATES FOREIGN RELATIONS, 1783-1860. The development of basic American foreign policies during the formative period from the Confederation to the Civil War.

384—UNITED STATES FOREIGN RELATIONS, 1860-1914. A study and analysis of the diplomacy of the Civil War, of the genesis of American imperialism, and of the new position of the United States in world affairs in the opening of the twentieth century.

385—UNITED STATES FOREIGN RELATIONS SINCE 1914. A study and analysis of the diplomacy of the United States in World War I, the period between the wars, World War II, and the contemporary era.

390—HISTORY OF IMMIGRATION AND MINORITIES IN THE UNITED STATES. A study of immigration and problems of ethnic and racial groups, 1840-1940.
HISTORY

391—HISTORY OF AMERICAN POLITICAL PARTIES. A study of the party system in operation as an historical study of major and minor parties to the Civil War.

COURSES FOR GRADUATE STUDENTS ONLY

401—HISTORICAL METHOD AND BIBLIOGRAPHY. The techniques of research and historical writing; guides to the materials of history, representative historians and their work. (Prerequisite: Graduate standing.)

420—STUDIES IN EARLY MEDIEVAL HISTORY, 284-1000. (Prerequisite: Course 320 or consent of instructor.)

421—STUDIES IN LATER MEDIEVAL HISTORY, 1000-1450. (Prerequisite: Course 321 or consent of instructor.)

428—STUDIES IN ENGLISH CONSTITUTIONAL HISTORY TO 1603. (Prerequisite: Course 328 or consent of instructor.)

429—STUDIES IN THE RENAISSANCE, 1400-1650. (Prerequisite: Course 428 or consent of instructor.)

430—STUDIES IN THE PROTESTANT REFORMATION, 1450-1660. (Prerequisite: Course 330 or consent of instructor.)

431—STUDIES IN EUROPEAN HISTORY, 1648-1789. (Prerequisite: Course 331 or consent of instructor.)

432—STUDIES IN THE FRENCH REVOLUTION AND NAPOLEON. (Prerequisite: Course 332 or consent of instructor.)

433—STUDIES IN EUROPEAN HISTORY, 1815-1870. (Prerequisite: Course 333 or consent of instructor.)

434—STUDIES IN EUROPEAN HISTORY, 1870-1914. (Prerequisite: Course 334 or consent of instructor.)

435—STUDIES IN EUROPEAN HISTORY SINCE 1914. (Prerequisite: Course 335 or consent of instructor.)

443—STUDIES IN ENGLISH HISTORY, 1485-1603. (Prerequisite: Course 343 or consent of instructor.)

444—STUDIES IN ENGLISH HISTORY, 1603-1714. (Prerequisite: Course 344 or consent of instructor.)

445—STUDIES IN BRITISH HISTORY, 1714-1870. (Prerequisite: Course 345 or consent of instructor.)

446—STUDIES IN BRITISH HISTORY SINCE 1870. (Prerequisite: Course 346 or consent of instructor.)

455—STUDIES IN RUSSIAN HISTORY TO 1905. (Prerequisite: Course 355 or consent of instructor.)

456—STUDIES IN RUSSIAN HISTORY SINCE 1905. (Prerequisite: Course 356 or consent of instructor.)

461—STUDIES IN LATIN AMERICAN HISTORY: COLONIAL PERIOD UP TO 1825. (Prerequisite: Course 361 or consent of instructor.)

462—STUDIES IN LATIN AMERICAN HISTORY: NATIONAL PERIOD, 1825-1914. (Prerequisite: Course 362 or consent of instructor.)

463—STUDIES IN LATIN AMERICAN HISTORY SINCE 1914. (Prerequisite: Course 363 or consent of instructor.)

464—STUDIES IN LATIN AMERICAN DICTATORSHIPS. (Prerequisite: Course 364 or consent of instructor.)

465—STUDIES IN THE HISTORY OF MEXICO. (Prerequisite: Course 365 or consent of instructor.)
DE PAUL UNIVERSITY

466—STUDIES IN INTERNATIONAL RELATIONS IN THE AMERICAS. (Prerequisite: Course 366 or consent of instructor.)

470—STUDIES IN UNITED STATES COLONIAL HISTORY. (Prerequisite: Course 370 or consent of instructor.)

471—STUDIES IN UNITED STATES HISTORY, 1760-1800. (Prerequisite: Course 371 or consent of instructor.)

472—STUDIES IN UNITED STATES HISTORY, 1800-1860. (Prerequisite: Course 372 or consent of instructor.)

473—STUDIES IN UNITED STATES HISTORY, 1860-1877. (Prerequisite: Course 373 or consent of instructor.)

474—STUDIES IN UNITED STATES HISTORY, 1877-1914. (Prerequisite: Course 374 or consent of instructor.)

475—STUDIES IN UNITED STATES HISTORY, 1914-1945. (Prerequisite: Course 375 or consent of instructor.)

476—STUDIES IN UNITED STATES HISTORY SINCE 1945. (Prerequisite: Course 376 or consent of instructor.)

477—STUDIES IN AMERICAN SOCIAL AND INTELLECTUAL HISTORY TO 1800. (Prerequisite: Course 377 or consent of instructor.)

478—STUDIES IN AMERICAN SOCIAL AND INTELLECTUAL HISTORY IN THE 19TH CENTURY. (Prerequisite: Course 378 or consent of instructor.)

479—STUDIES IN AMERICAN SOCIAL AND INTELLECTUAL HISTORY IN THE 20TH CENTURY. (Prerequisite: Course 379 or consent of instructor.)

483—STUDIES IN UNITED STATES FOREIGN RELATIONS, 1783-1860. (Prerequisite: Course 383 or consent of instructor.)

484—STUDIES IN UNITED STATES FOREIGN RELATIONS, 1860-1914. (Prerequisite: Course 384 or consent of instructor.)

485—STUDIES IN UNITED STATES FOREIGN RELATIONS SINCE 1914. (Prerequisite: Course 385 or consent of instructor.)

491—STUDIES IN AMERICAN POLITICAL PARTIES, 1789-1860. (Prerequisite: Course 391 or consent of instructor.)

492—STUDIES IN AMERICAN POLITICAL PARTIES SINCE 1860. (Prerequisite: Course 391 or consent of instructor.)

499—THESIS RESEARCH. (Prerequisite: Approval of thesis topic.) 4 quarter hours.

RESEARCH SEMINARS

Research seminars are open only to graduate students majoring in history. Consent of the chairman and the professor is a prerequisite. Research seminars carry 4 quarter hours of credit each; 8 quarter hours of credit is earned by registration for the same research seminar in each of two quarters.

520—MEDIEVAL EUROPE, 400-1500.

530—MODERN EUROPE TO 1850.

555—MODERN EUROPE SINCE 1850.

540—ENGLAND TO 1700.

545—GREAT BRITAIN SINCE 1700.

560—LATIN AMERICA.

570—UNITED STATES TO 1860.

575—UNITED STATES SINCE 1860.
DEPARTMENT OF MATHEMATICS

PURPOSE

The Department of Mathematics endeavors to provide a sound mathematical background for a variety of career interests in mathematics including teaching, further study and research, applied mathematics, and to meet the needs of students in the physical, biological and behavioral sciences.

DEGREE OF MASTER OF SCIENCE IN MATHEMATICS

The department offers graduate and advanced undergraduate courses at the new Schnitt Academic Center, 2323 North Seminary. There are a number of assistantships available to students interested in full-time study. Seminars, colloquia, and an unusually close degree of contact with the faculty are available to full-time students.

PREREQUISITES

Applicants for admission to the program leading to the Master of Science degree in Mathematics must have a strong undergraduate major in mathematics which includes at least forty-four quarter hours of mathematics. Undergraduate preparation required to do graduate work should include Math 220, 310, 311, 320, 365, and 366 or their equivalent. This criterion is not applied inflexibly, however; promising applicants, even though they have less preparation, may be admitted.

REQUIREMENTS

1. Forty-four quarter hours of graduate level work are required. All students must complete Math 400, 401, 402, 410, 411, 412, 413, 420, and three elective courses normally at the 500-level.
2. Passing of a written comprehensive examination based on the contents of the required courses listed above.

GRADUATE COURSES

All 400-level courses are offered every year.

400—ADVANCED ALGEBRA I. Groups and Rings. (Prerequisite: 311 or its equivalent.)
401—ADVANCED ALGEBRA II. Rings, Fields and Vector Spaces. (Prerequisite: 400.)
402—ADVANCED ALGEBRA III. Linear Transformations and modules. (Prerequisite: 401.)
410—REAL ANALYSIS I. Real numbers; continuous functions on metric spaces; convergence of infinite series and differentiation. (Prerequisite: 365 or its equivalent.)
411—REAL ANALYSIS II. Riemann-Stieljes integration and functions of bounded variation; sequences of functions and uniform convergence; functions of several variables. (Prerequisite: 410.)
412—MEASURE AND INTEGRATION. Lebesgue's theory of measure and integration; convergence theorems and differentiation; product measure and Fubini's theorem. (Prerequisite: 410.)
415—ADVANCED COMPLEX ANALYSIS. Complex integration and calculus of residues,
maximum modulus principle; analytic continuation and the monodromy theorem; conformal mapping. (Prerequisite: 411 and 566 or consent.)

420—POINT SET TOPOLOGY. Topological Spaces; continuous mapping; separation axioms; product and quotient topologies; connectedness and compactness; metric spaces. (Prerequisite: 265 and consent.)

451—METHODS OF APPLIED MATHEMATICS I. (Prerequisite: Graduate Standing).
452—METHODS OF APPLIED MATHEMATICS II. (Prerequisite: 451).
453—METHODS OF APPLIED MATHEMATICS III. (Prerequisite: 452).

At least three of the following courses are offered each year.

501—THEORY OF GROUPS. Isomorphism theorems; permutation groups; products; composition series and Sylow theorems. (Prerequisite: 401.)

502—THEORY OF RINGS. Rings with minimum conditions and structure theorems; Noetherian rings; Dedekind domains. (Prerequisite: 401.)

503—THEORY OF FIELDS. Field extensions and Galois theory. (Prerequisite: 401.)

504—TOPICS IN ALGEBRA. (Prerequisite: 401 and consent.)

510—CALCULUS OF SEVERAL VARIABLES. Differentiable mappings and Jacobians; the implicit function theorem; differential forms; Stokes’ theorem. (Prerequisite: 411.)

511—FOURIER ANALYSIS. Convergence and summability of Fourier series; Parseval’s Formula; Fourier integrals; $L^1$ and $L^2$ Theory. (Prerequisite: 412.)

512—FUNCTIONAL ANALYSIS. Introduction to Hilbert, Banach Spaces and linear operators. (Prerequisite: 412.)

513—PROBABILITY THEORY. Abstract probability spaces; expectations of random variables (Lebesgue integral); laws of large numbers and the central limit theorem; conditional expectation and Stochastic processes. (Prerequisite: 402 and 412.)

514—APPROXIMATION THEORY. Theorems of Weierstrass, Chebyshev and Markoff on the approximation of functions of a real variable; interpolation and quadrature formulas; orthogonal polynomials. (Prerequisite: 411.)

515—TOPICS IN REAL ANALYSIS
516—TOPICS IN COMPLEX ANALYSIS

520—INTRODUCTION TO ALGEBRAIC TOPOLOGY. Definition of singular and simplicial homology groups; homotopy theorems; excision theorem; exact homology sequences; other topics. (Prerequisite: 420.)

521—DIFFERENTIAL GEOMETRY. The geometry of curves and surfaces; Serret-Frenet formulas; intrinsic equations of a curve; first and second fundamental forms of a surface.

522—TOPICS IN GEOMETRY
599—INDEPENDENT STUDY

In addition to the courses listed above, the Department of Mathematics offers from time to time courses specially designed for teachers. Some of these courses offered in the past with support of the National Science Foundation include:

621—MODERN GEOMETRY FOR TEACHERS I. 3 hours
622—MODERN GEOMETRY FOR TEACHERS II. 3 hours
623—MODERN GEOMETRY FOR TEACHERS III. 3 hours
641—TOPICS IN ALGEBRA I. 3 hours
642—TOPICS IN ALGEBRA II. 3 hours
643—TOPICS IN ALGEBRA III. 3 hours
651—ANALYSIS FOR TEACHERS I. 5 hours
652—ANALYSIS FOR TEACHERS II. 3 hours
M A T H E M A T I C S

653—ANALYSIS FOR TEACHERS III. 3 hours
660—NUMBER THEORY. 4 hours
670—CONCEPTS OF MATHEMATICS. 4 hours
681—GEOMETRY AND TRANSFORMATION GROUPS I. 3 hours
682—GEOMETRY AND TRANSFORMATION GROUPS II. 3 hours
683—GEOMETRY AND TRANSFORMATION GROUPS III. 3 hours

COURSES SCHEDULED

681—COMPUTER SCIENCE & NUMERICAL ANALYSIS I (3 qtr. hrs.)
682—COMPUTER SCIENCE & NUMERICAL ANALYSIS II (3 qtr. hrs.)
683—COMPUTER SCIENCE & NUMERICAL ANALYSIS III (3 qtr. hrs.)

ADVANCED UNDERGRADUATE COURSES

220—LINEAR ALGEBRA. Vectors in space; equations of lines and planes; matrices; linear independence; linear transformations; determinants. (Prerequisite: 152)

310—ALGEBRA I. Prime number, binary operations; equivalence relation; congruences. (Prerequisite: 152 or consent of Department)

311—ALGEBRA II. Group; isomorphism; theorems of Lagrange and Cayley; homomorphism; kernel. (Prerequisite: 310)

312—ALGEBRA III. Rings; ideals; fields and quotient fields; extension fields. (Prerequisite: 311)

320—GEOMETRY I. Incidence and separation properties of plane; congruence; parallel postulate; area theory; rules and compass construction. (Prerequisite: 220)

321—GEOMETRY II. Riemannian and hyperbolic geometry; metric axioms; triangles and angle sums; consistency of hyperbolic postulates. (Prerequisite: 320)

330—ADVANCED CALCULUS I. Vector functions; tangent vectors; curvature and normal vectors; gradient and directional derivative; extrema of functions of several variables; Fourier series. (Prerequisite: 220)

331—ADVANCED CALCULUS II. Multiple integration and applications; line and surface integrals; Green's and Stoke's theorems; derivatives of complex functions. (Prerequisite: 330)

340—INTRODUCTORY COMPUTER SCIENCE. Programming language; concept of algorithm; relation between programming and formulation of problems. (Prerequisite: 152) (Lab. fee: $15.00) This course makes use of computers.

341—NUMERICAL METHODS IN ANALYSIS. Conceptual aspects of approximation; computation of integrals and derivatives; interpolation; solving ordinary differential equations. (Prerequisite: 340 and either 211 or 350) (Lab. fee: $15.00) This course makes use of computers.

342—NUMERICAL METHODS IN ALGEBRA. Solutions of linear equations; inverting matrices; computing rank of matrix, bases for dual spaces, orthogonal complements and determinants. (Prerequisite: 340 and 220) (Lab. fee: $15.00) This course makes use of computers.

343—TOPICS IN NUMERICAL ANALYSIS. Iteration techniques for solution of equations; polynomial approximation; initial value problems for ordinary differential equations. (Prerequisite: 310)

344—SYSTEM PROGRAMMING. Introduction to IBM 360/65 assembly language; linkage of FORTRAN programs to assembly language subroutine; multi-precision arithmetic; linked lists. (Prerequisite: 340) This course makes use of computers.

345—DATA STRUCTURES. Topics include the study of strings, decks, queues, lists, stacks, and trees. (Prerequisite: 344) This course makes use of computers.
DE PAUL UNIVERSITY

546—ADVANCED NUMERICAL ANALYSIS. Topics include solution of ordinary differential equations: Runge-Kutta methods, multistep methods, predictor-corrector methods, and numerical solution of boundary value problems; solution of partial differential equations: finite difference methods, determination of grids, and derivation of difference equations. (Prerequisite: 541) This course makes use of computers.

551—PROBABILITY AND STATISTICS I. Probability spaces, random variables and distributions; Chebyshev's inequality; law of large numbers; Poisson distributions; gamma and normal distributions. (Prerequisite: 152)

552—PROBABILITY AND STATISTICS II. Random multivariate; sampling distributions; theory of estimation. (Corequisite: 351 and Math 210 or 330)

553—PROBABILITY AND STATISTICS III. Testing of hypothesis; regression; selected topics such as analysis of variance, order statistics, Markov processes. (Prerequisite: 552)

554—STATISTICS IN THE COMPUTER AGE. Descriptive statistics; statistical inference; statistics and the computer; Monte Carlo methods; time series — theory and numerical treatment. (Prerequisite: 340 and 351) (Lab. fee: $15.00) This course makes use of computers.

555—STOCHASTIC PROCESSES. Markov chains; branching processes; Poisson process, queuing theory, and telephone traffic problems; Brownian motion. (Prerequisite: 551)

565—INTRODUCTORY ANALYSIS. Construction of real numbers by Dedekind cuts; least upper bounds; topology of line and plane; continuity. (Prerequisite: 152)

566—COMPLEX ANALYSIS. Complex functions; complex differentiation and integration; series and sequences of complex functions. (Prerequisite: 330 and 365)

370—APPLIED LINEAR ALGEBRA. Spectral theorem for self-adjoint operators in finite-dimensional inner product spaces; techniques for computation of eigenvalues and their applications to physics, statistics, and other fields. (Prerequisite: 220)
DEPARTMENT OF NURSING

Florence E. Finette, Chairman
Virginia Ford
Grace G. Peterson
Patricia Wagner

PURPOSE
The purpose of the graduate program in nursing is to prepare qualified nurses for leadership roles by enabling them to explore and test theories of nursing and related disciplines. Preparation for functioning as a teacher or administrator is also provided through selected courses and experiences.

PREREQUISITES
1. Eligibility for admission to the Graduate School.
2. Completion of a baccalaureate degree program accredited by the National League for Nursing. (Applicants who have completed other curricula, or who have deficiencies, will be considered individually and may be required to enroll in specified prerequisite undergraduate courses beyond the minimum requirements for the graduate degree in nursing.)
3. Recommendations as requested by the Department of Nursing.
4. Applicants who desire to select the functional area of administration are required to have a minimum of two years of acceptable administrative experience in supervision or in a position of comparable responsibility.
5. Credentials of international students are reviewed by a special committee of the Department of Nursing.

DEGREE OF MASTER OF SCIENCE IN NURSING

REQUIREMENTS
1. Completion of a minimum of 56 quarter hours. Directed experience in clinical and functional areas is an integral part of the program. Professional liability insurance must be carried during all clinical field activities.
2. An oral comprehensive examination.

CURRICULUM
Content which is typical is described below. However, the individual abilities and goals of each student are carefully considered and adjustment in content is made on the basis of background and needs.

Required Courses: Nursing 400, 425, 426, 437, 458
RSA 588
Psychology 390
Selected Cognate Course
(Teaching) Nursing 455, 458, 469
(Administration) Nursing 451, 452, 457

GRADUATE COURSE OFFERINGS
400—RESEARCH IN NURSING. An exploration of the research process with special emphasis on research in nursing. Selected nursing research will be reviewed and evaluated. Autumn and Spring Quarters.
455—THEORETICAL COMPONENTS IN NURSING. An investigation of the nature, development, and components of theories. Selected theories in nursing and related fields will be explored. Autumn and Spring Quarters.
DE PAUL UNIVERSITY

436—ADVANCED CLINICAL NURSING I. This course is designed to enable the student to apply selected theories from the biological and behavioral sciences to the nursing process. Concepts of homeostasis and stress-adaptation serve as the theoretical framework for investigating nursing care problems in the institutional setting. 8 quarter hours. By Arrangement.

437—ADVANCED CLINICAL NURSING II. This course is designed to enable the student to apply selected theories from education and the behavioral sciences to the nursing process in the community setting. Selected activities will analyze nursing intervention in relation to attainment, improvement, or maintenance of health. Focus is on the life role of the person with a health problem and the nurse's role in his adaptation. 8 quarter hours. By Arrangement.

438—PERSPECTIVES IN NURSING. Emphasis is placed on major current issues confronting professional nursing. The leadership role of the nurse as innovator and activator in the health and welfare structure. Exploration of new concepts relating to community health programs. Cooperative and collaborative participation of the nurse in task forces, research, and community education. Winter Quarter.

451—NURSING SERVICE ADMINISTRATION I. Functioning of a nursing service with emphasis on philosophy and objectives of nursing service and the administrative components of planning, organizing, staffing, and budgeting. Not offered in 1971-72.

455—CURRICULUM CONSTRUCTION. Principles and methods of curriculum construction; principles involved in formulating objectives to be achieved; selecting and organizing learning activities; evaluating effectiveness of content and method. Autumn Quarter.

457—PRACTICUM IN NURSING SERVICE ADMINISTRATION. Guided experience and observations in administration of nursing service under the supervision of the faculty. Prerequisite: Nursing 451 and concurrent registration in Nursing 452. 9 quarter hours. By Arrangement.

458—DYNAMICS OF TEACHING. Theories, principles, and methods of teaching and learning for application in schools of nursing. Winter Quarter.

459—PRACTICUM IN TEACHING. Observation and application of theory, principles, and methods of teaching and learning in nursing. In institutions of higher learning under faculty guidance within the classroom and clinical area. 9 quarter hours. By Arrangement.

PHILOSOPHY

DEPARTMENT OF PHILOSOPHY

GERALD F. KREYCHE, Chairman

L. EDWARD ALLEMAND
REV. JOHN BATTLE, C.M.
BERNARD J. BOOLEN
REV. THOMAS CONNOLLY, C.M.
REV. JOSEPH DELLA PENTA, O.P.
WILHELM DUPRÉ (on leave)
PARVIS EMAD
REV. FRANCIS H. ETEROVICH, O.P.
MANFRED S. FRINGS

PHILIP KALIN
JAMES KEATING
ROBERT LECHNER, C.PP.S.
REV. THOMAS MUNSON (on leave)
REV. BRUNO SWITALSKI
Visiting Professors:
WILHELM LUIJFEN, O.S.A.,
SUMMER, 1971
LUDWIG LANDGREBE, Fall, 1971

PURPOSE

The purpose of the Department of Philosophy of the Graduate School is to prepare those for teaching and research, who have the scholarly competence to pursue academic work which culminates in the Master's or Doctor's degree.

In keeping with the intercontinental interests of its faculty, and serving the needs of philosophical relevance, the department focuses its attention on phenomenology, life philosophy, philosophies of existence, and the historical sources of these movements.

IMPLEMENTATION

The department offers directed research, courses, seminars, symposia, and colloquia that should guide and stimulate the student in an intensive investigation of various philosophies and philosophical problems. It also stresses faculty counselling so that the program of each student can be tailored to his particular needs. It envisages a greater degree of inter-institutional cooperation that will provide the student with further means of academic enrichment. Each year, through the Michael Littner Lectureship program, the department sponsors a distinguished visiting professor. His courses or seminars may be part of the regular curriculum or extraordinary in nature.

At some time during graduate study every student must participate in undergraduate instruction for a minimum of three courses and/or two quarters.

DEGREE OF MASTER OF ARTS

The department offers both a thesis and a non-thesis program leading to this degree. Students advancing directly to the doctorate are strongly advised to enter the thesis program. Those who look immediately to teaching might more profitably enter the non-thesis program. Both programs are described below.

PREREQUISITES

Applicants for the Master of Arts program must have completed satisfactorily a major sequence (or its equivalent) in philosophy. This sequence comprises a minimum of forty-four quarter hours (or its equivalent).

REQUIREMENTS

1. Thesis Program

   1. Completion of forty-four quarter hours of graduate study, of which up to eight quarter hours may be applied to the thesis.

      a) Twenty-eight quarter hours will normally be selected from philosophy offerings numbered 400 and over.

      b) Up to twelve quarter hours may be selected from philosophy offerings numbered 300 and over, or, if the necessary prerequisites are met and with the consent of the faculty, twelve quarter hours in related fields.

      c) A thesis: Students will register for Philosophy 499 for eight quarter hours credit.
DEPAUL UNIVERSITY

2. One foreign language. Evidence of the candidate's possessing a reading knowledge of philosophical literature in German, French, Latin, Greek, or with special permission, any other language in which the thesis research would be conducted. (Application for this examination must be made before the completion of sixteen quarter hours in course work, or by the end of the second quarter of full-time residency, whichever is later.) A grade of Pass in course 554 or 594 may be substituted for this requirement.

3. A five hour written comprehensive examination in the field of philosophy.

II. Non-Thesis Program.

1. Completion of forty-four quarter hours of graduate philosophy offerings.
   a) Thirty-two quarter hours will normally be selected from philosophy offerings numbered 400 and over.
   b) Requirements the same as in Thesis Program under 1.b above.

2. One foreign language. Requirements the same as in Thesis Program under 2. above.

3. Requirements the same as in Thesis Program under 3. above.

DEGREE OF DOCTOR OF PHILOSOPHY

PREREQUISITES

Applicants for the Doctor of Philosophy program must have completed satisfactorily all requirements for a Master of Arts degree in philosophy. Such work must be substantially equivalent to the same degree given at DePaul and must present clear evidence of the ability of the applicant to pursue successfully the doctoral program.

REQUIREMENTS

The following are the minimal requirements. Additional study may be demanded depending on the student's academic background and his achievement in the DePaul program.

1. Successful performance in a preliminary examination (qualifying examination) before the end of the second quarter of residence. This examination which is similar to the comprehensive examination for the Master's Degree, may be waived at the discretion of a department committee.

2. Three consecutive quarters of full-time residence. (Full-time study demands registration for a minimum of 10 quarter hours.)

3. Completion of forty-eight quarter hours in offerings numbered 400 and over. These must include courses, seminars and independent study. Each student must register once for 683, Seminar on Teaching.

4. Two foreign languages. Evidence of a reading knowledge in philosophical literature in German and French, or in either of these and a classical language; or with departmental permission, a language in which the student's principal research will be conducted. Unless a language skill has been previously demonstrated to the satisfaction of the department, a test for one of the languages must be taken prior to the end of the second quarter of residence; the second language test must be passed before application is made for the doctoral candidacy or comprehensive examination. A grade of Pass in Course 554 or 594 may be substituted for one of the language requirements. Language requirements must be met before taking the comprehensives.

*5. A six-part comprehensive examination, administered on three successive days, allowing three hours for each part. This examination may not be taken prior to the completion of three consecutive quarters of full-time residence. Parts of this examination may be given orally.

6. Admission to candidacy. This is achieved when the student has completed requirements 1 through 5 above.
PHILOSOPHY

7. A dissertation. (Committee approval of the topic and outline will not be given prior to completion of requirement 5).
8. An oral examination constituting a “defense of the dissertation,” or a public lecture.
   * Detailed information on these points is listed in a separate departmental brochure which may be obtained from the chairman.

COURSE OFFERINGS

The following courses listed under the 300 series are background, general orientation, courses intended for the advanced student in undergraduate philosophy or beginning students in graduate philosophy.

300—PHENOMENOLOGY AND SCIENCE. An exposition and critical evaluation of the major contemporary philosophies of science, and more especially phenomenology and science.

302—SYMBOLIC LOGIC. A study of the methods and techniques of appraising arguments involving compound statements, relations, and propositional functions. This course will also examine the nature of deductive systems, a propositional calculus, and alternative systems and notations.

304—PHILOSOPHY OF COMMUNISM. This course has a twofold purpose: first, to present an account of Communistic Philosophy (remembering the words of Lenin: “No materialism can endure without a solid philosophical basis”); secondly, to make an objective evaluation of this Philosophy and its methods and implications.

307—AGE OF ENLIGHTENMENT. Taught only in French and taken on a pass/non-pass basis.

309—EPISTEMOLOGY. A study of the origins, types and validity of human knowledge.

312—HISTORY OF MODERN PHILOSOPHY. The philosophies of the Renaissance, English Empiricism, Continental Rationalism, German Idealism, Positivism, and contemporary trends in philosophy.

315—CONTEMPORANEOUS PHILOSOPHY. An analysis of the Twentieth century schools of philosophy, such as Logical Positivism, Pragmatism, Phenomenology and Existentialism.

325—BASIC CONCEPTS OF PHENOMENOLOGY. This course emphasizes the principal themes of Husserl and touches on developments in both German and French phenomenology.

333—PHENOMENOLOGY OF LOVE.

340—THE THOUGHT OF TEILHARD DE CHARDIN. (May be applied to theology credit.) An exposition of the major themes of Teilhard’s thought and an evaluation of these in the light of their implicit philosophy and theology.

350—THE PHILOSOPHY OF DANTE. A survey of the philosophical mentality and ideas of the great poet of Christendom, as found in the “Banquet,” the “Monarchy” and the “Divine Comedy.”

355—CONTEMPORARY THOMISM. An appraisal of the philosophy of St. Thomas as it continues to develop in our times.

358—EXISTENTIALISM. A study of the main contemporary men commonly associated with this movement: Kierkegaard, Jaspers, Marcel, Sartre, and Heidegger.
DE PAUL UNIVERSITY

360—EXISTENTIAL THINKING. An original attempt to rethink the nature of philosophy as related to the human condition. Topics such as knowledge, love, value, meaning, etc. will be covered.

361—NINETEENTH CENTURY PHILOSOPHY. A study of the major themes in philosophers of this period.

365—PHENOMENOLOGY OF RELIGION. In general, this course will investigate the significance of religion and religious phenomena for philosophy. In particular, it will treat the following topics: the origin and nature of religion, the relationship of faith and reason, the anthropological-philosophical validity of various ideas of God, the implications of religious misunderstandings of man, and the relationship of Christianity to other religions.

369—AMERICAN PHILOSOPHICAL THOUGHT. A study of the major philosophical influences in American thought, including such movements as the “Theologism” of the colonial period, the American Age of Enlightenment, Transcendentalism, Evolutionism, and varieties of Idealism, Pragmatism, Realism, and Naturalism. Emphasis will be given to the classic American philosophers of the post-Civil-War period, such as Pierce, James, Royce, Perry, Santayana, Dewey, Lewis, and Cohen.

370—PHENOMENOLOGY OF THE BODY. A critical survey on the phenomenon of the human body in modern and contemporary philosophy.

375—PHILOSOPHY OF PLAY. An examination of the meaning, classification, and values of various human activities conventionally classified as “playful.” Game theory will be discussed and an attempt will be made to isolate the distinctive qualities and values of diversion, amusement, pastime, recreation, entertainment, sport, athletics, etc.

375—PHILOSOPHY OF ATHEISM.

376—PHENOMENOLOGY AND LANGUAGE. The course treats the following interpretations of language: language as a means of communication, as a repository of proper thinking, as a manifestation of the mind’s organization, as a disclosure of reality, and as a metaphysical power. Discussion will include the following positions and topics: Logical Positivism, Ordinary Language Philosophy, Generative (Transformational) Grammar, theory of literature, and metaphysics of language.

379—PHENOMENOLOGY OF RESENTMENT.

380—INTRODUCTION TO ANALYTIC PHILOSOPHY.

382—PHILOSOPHICAL BIBLIOGRAPHY AND METHODOLOGY. Introduction to materials and techniques needed for pursuing philosophical research.

385—POLITICAL PHILOSOPHY. Discussion of philosophical problems connected with government and society. Readings from Plato to Dewey.

388—SITUATION ETHICS. A phenomenological investigation of the main tenets of contemporary situation ethics. A comparison with traditional objectivistic and subjunctivistic trends in ethical theory.

The courses under the 400-500 series are intended to be specific, dealing with individual philosophers, their background and subsequent influences. They are meant to be detailed both analytically and critically. Normally they are open only to students with graduate academic standing.

TRADITIONAL AND ANGLO-AMERICAN PHILOSOPHERS

Section A: Traditional Philosophers

410—PHILOSOPHY OF PLATO I: A study of Plato’s life and early dialogues.

411—PHILOSOPHY OF PLATO II: A study of the middle and later dialogues.

416—PHILOSOPHY OF ARISTOTLE II: A study of Aristotle’s practical and productive philosophy: Ethics, Politics, Rhetoric, and Poetics.

420—PHILOSOPHY OF AUGUSTINE: A study of Augustine’s philosophy through an examination of his major writings.
425—PHILOSOPHY OF AQUINAS I: A study of the factors that gave rise to the culmination of Scholasticism and the birth of Thomism; characteristics of the Thomistic revolution: his critical spirit, interpretation of previous thinkers, and organization of materials; the relation between philosophy and theology.

426—PHILOSOPHY OF AQUINAS II: A study of Aquinas' natural philosophy, philosophical anthropology, metaphysics, ethics, and aesthetics.

430—PHILOSOPHY OF CUSA: A study of the principal philosophical and theological themes in this germinal thinker who bridges the gap between medieval and modern thought.

435—PHILOSOPHY OF DESCARTES: An examination of Descartes' role as the father of modern philosophy; a study of the Regulae, the Discours, and the Meditationes.

440—PHILOSOPHY OF SPINOZA: A study of the Ethics and/or the Theologico-Political Treatise.

Section B: Anglo-American Philosophers

451—THE PHILOSOPHY OF JAMES: A study of William James' Pragmatism and Radical Empiricism with special attention to the writings of James that interest the contemporary phenomenologist.

453—THE PHILOSOPHY OF PEIRCE: An examination of the development of Peirce's thought from his concern with scientific method, through his development of the theory of thirds, to Peirce's own particular pragmatism.

457—THE PHILOSOPHY OF ROYCE: An examination of the thought of Josiah Royce with emphasis on his early psychology and epistemology, the metaphysics of The World and the Individual, the moral teaching of The Philosophy of Loyalty, and the philosophy of the community in The Problem of Christianity.

459—THE PHILOSOPHY OF SANTAYANA: A study of his major works such as Skepticism and Animal Faith, The Life of Reason, and The Sense of Beauty.

465—PHILOSOPHY OF RUSSELL: An examination of Russell's philosophical development and influence; a study of selected essays (e.g., Logic and Knowledge) and/or a major work (e.g., An Inquiry into Meaning and Truth).

470—PHILOSOPHY OF WITTGENSTEIN I: A study of Wittgenstein's earlier works, particularly the Tractatus Logico-Philosophicus.

471—PHILOSOPHY OF WITTGENSTEIN II: A study of Wittgenstein's later works, particularly the Philosophical Investigations.

475—PHILOSOPHY OF CARNAP: A study of selected articles and/or a major work such as Der logische Aufbau der Welt.

480—PHILOSOPHY OF QUINE: A study of Quine's philosophical views as these are presented in From a Logical Point of View, Word and Object, and Ontological Relativity.

490—PHILOSOPHY OF CHOMSKY: A study of transformational generative grammar and its relevance to philosophical issues through reference to such works as Cartesian Linguistics, Aspects of the Theory of Syntax, and Language and Mind.

495—ADVANCED SYMBOLIC LOGIC: A study of modal logic, multi-valued logics, logical antimonies, the logic of relations, and the philosophical presuppositions of logical systems. (Prerequisite: Philosophy 302, Symbolic Logic or equivalent).
CONTINENTAL PHILOSOPHERS

Section A: German Philosophers

THE PHILOSOPHY OF KANT: A critical study of Kant's thought and evaluation of his influence in subsequent philosophies by a textual study of:

510—KANT I. Critique of Pure Reason.
511—KANT II. Critique of Practical Reason.
512—KANT III. Critique of the Faculty of Judgment.

THE PHILOSOPHY OF HEGEL: A study of Hegel's thought in his milieu and influence through a textual study of:

515—HEGEL I. Phenomenology of Spirit.
516—HEGEL II. Science of Logic.
517—HEGEL III. Philosophy of Right.

520—THE PHILOSOPHY OF MARX: An intensive study of the teachings of Karl Marx together with a critical appraisal of his associates and interpreter such as Engels, Lenin and Stalin.

THE PHILOSOPHY OF NIETZSCHE: An investigation of his thought by focusing on:

525—NIETZSCHE I. The reversal of values and criticism of morality.
526—NIETZSCHE II. The conceptions of Eternal Recurrence, Will to Power, Overman, Nihilism and Justice. One of the following themes will also be incorporated: art, space, perspectivism or Christianity.

THE PHILOSOPHY OF KARL JASPER: An investigation of the Philosophy of Existenz as distinguished from Existentialism, by focusing on:

530—JASPER I. Psychology of the World-Views, and Philosophy.
531—JASPER II. Thoughts on History, Truth and Philosophical Faith.

THE PHILOSOPHY OF HUSSERL: Representative Problems.

535—HUSSERL I. Phenomenology of Consciousness-of. An investigation of basic constitutional problems of acts and objectivities of consciousness and eidetic and transcendental reductions.

536—HUSSERL II. Time Consciousness. A study of the temporalization of consciousness-of and world with special attention to the absolute flux, primal sensation, retention and protention' and the structure of the Now.

537—HUSSERL III. Phenomenology of the Life-World. An investigation of its structure, its function in transcendental phenomenology. Transcendental intersubjective problems such as time, space, alter-ego, constitution of the Divine, All-Humanity and culture will also be treated.

THE PHILOSOPHY OF SCHELER: A critical study of his thought by focusing on areas such as:

541—SCHELER II. Phenomenology of Sociology.
542—SCHELER III. Philosophical Anthropology and Metaphysics.

545—THE PHILOSOPHY OF NICOLAI HARTMANN: An investigation of Hartmann's Ethics and Ontology, together with an analysis of his relationship to the phenomenological movement.

THE PHILOSOPHY OF HEIDEGGER: A critical study of Heidegger's thought by focusing on:

550—HEIDEGGER I. Thoughts from Being and Time to the Essence of Truth.
551—HEIDEGGER II. Thoughts from Comments on Holderlin to Time and Being.
555—HEIDEGGER III. Presocratic thought.

554—TUTORIAL IN READING PHILOSOPHICAL GERMAN. (2 quarter hours of credit). Prerequisite: a basic knowledge of German vocabulary and grammar. Taken on a pass/non-pass basis.
Section B: French Philosophers

560—THE PHILOSOPHY OF GABRIEL MARCEL: A study of Marcel’s philosophy of existence with special attention given to his major work, The Mystery of Being.

565—THE PHILOSOPHY OF MERLEAU-PONTY: A study of the Phenomenology of Perception with consideration of Merleau-Ponty’s place and influence in contemporary philosophy.

THE PHILOSOPHY OF SARTRE

570—SARTRE I: A study of Being and Nothingness with attention given to Sartre’s early phenomenological studies as background and to some of his literary works as illustrations of his ontology, such as Nausea and Saint-Genet.

571—SARTRE II: The Social Thought of Jean-Paul Sartre. A study of A Critique of Dialectic Reason along with appropriate literary works and more recent political writings.

575—THE FRENCH SPIRITUALIST TRADITION: A study of the “philosophers of the spirit,” beginning with Maine de Biran and ending with a study of Louis Lavelle’s work, Dialectic of the Eternal Present, as particularly representative of this philosophic tradition.

580—THE PHILOSOPHY OF HENRI BERGSON: A study of the Two Sources of Morality and Religion as a means of considering the whole life-philosophy of Bergson.

585—THE PHILOSOPHY OF PAUL RICOEUR: A study of Ricoeur’s philosophy and phenomenology of the will with stress on its background and its place in contemporary French phenomenology.

594—TUTORIAL IN READING PHILOSOPHICAL FRENCH. (2 quarter hours credit). Prerequisite: a basic knowledge of French vocabulary and grammar. Taken on a pass/non-pass basis.

The courses under the 600 series are problem-orientated seminars. They are structured for full participation by each student in the seminar in terms of research, presentation and critical reflection. The number of participants is limited to allow for the effectiveness of the seminar.

SEMINARS (1971-1973)

605—SEMINAR ON CONTEMPORARY THOMISM: A study of (a) traditional Thomism as represented by J. Martiain, K. Gilson, and the former River Forest group; (b) transcendental Thomism as represented by Marechal, Rahner and Lonergan; (c) developmental Thomism.

610—SEMINAR ON THE PHILOSOPHY OF HISTORY: A study of the various philosophical appraisals of History in thinkers such as Augustine, Kant, Hegel, Burchhart, Marx, Spengler, Scheler, Jaspers and Lowith.

611—SEMINAR ON THE MAIN PROBLEMS IN THE PHILOSOPHY OF HISTORY*.

613—SEMINAR ON THE PHENOMENOLOGICAL ANALYSIS OF THE CRISIS OF WESTERN CULTURE*.

615—SEMINAR ON HEIDEGGER AND THE FRAGMENTS OF HERACLITUS.

616—SEMINAR ON THE LATER HEIDEGGER: A critical study of a selected topic from the later development of Heidegger’s thought.

620—SEMINAR ON BERDAYEV’S THOUGHT ON FREEDOM AND ANARCHY: A study of the beginnings of Russian Existentialism and Phenomenology.

622—EXISTENTIAL PHENOMENOLOGY**.

628—SEMINAR ON CONTEMPORARY PROBLEMS: Phenomenology of death.

630—SEMINAR ON PROBLEMS OF INTERPRETATION: A study of the hermeneutical problems in Dilthey, Heidegger, Gadamer, and Ricoeur.
DE PAUL UNIVERSITY

640—PROBLEMS IN ETHICS.
641—SEMINAR IN ETHICS AND INTERNATIONAL RELATIONS.
650—SEMINAR ON WHITEHEAD.
655—SEMINAR ON AMERICAN SOCIAL PHILOSOPHY.
660—SEMINAR ON GABRIEL MARCEL: A study of Marcel’s philosophy in relation to his literary works and a consideration of the journal as a philosophical style.
664—SEMINAR ON THE PROBLEM OF THE TRANSCENDENT IN CONTEMPORARY FRENCH PHILOSOPHY: Special consideration of Emmanuel Levinas’ Totality and Infinity.
668—SEMINAR ON MAURICE MERLEAU-PONTY: A consideration of Merleau-Ponty’s later work, especially The Visible and the Invisible, as it relates to his earlier writings and the problematics of being.
672—SEMINAR ON PAUL RICOEUR: A study of the linguistic and hermeneutical problems in Ricoeur’s recent writings, Le conflit des Interpretations.
680—SEMINAR ON LOGICAL ATOMICISM: A study of the metaphysics of logical atomism, with emphasis on the writings of Wittgenstein, Russell, and G. Bergmann.
683—SEMINAR ON TEACHING PHILOSOPHY.
699—THESIS RESEARCH: Independent investigation of a philosophical problem for the thesis-dissertation. This problem is assigned by the Chairman or his designate after consultation with the student. Overall direction and advisement is given by the thesis director.
700—INDEPENDENT STUDY.

*Professor Landgrebe, of Germany, will teach these seminars in Fall, 1971.
**Professor Luijpen, of the Netherlands, will teach this seminar in Summer, 1971.

PURPOSE

The objective of the Department of Physics in the Graduate School is to develop in its students professional competence in the science so that they may pursue successful careers in research or teaching or continue their studies toward the doctorate. To fulfill this purpose, the University offers the Master of Science (in Physics) degree and the degree of Master of Science in the Teaching of Physics. The latter degree provides instruction in the fundamentals of physics for those students interested in secondary school teaching.

As a public service to the scientific and technological community of the Chicago area, the department offers graduate and advanced undergraduate courses in the evenings for industrial scientists and engineers. The evening program emphasizes the physics and mathematical skills so necessary for successful mastery of sophisticated and rapidly changing technologies such as electronics. The Master of Science degree may be earned in the evening program.

DEGREE OF MASTER OF SCIENCE

PREREQUISITES

An applicant for admission as a regular graduate student for the degree of Master of Science in Physics must have satisfactorily completed a suitable program in advanced physics beyond a General Physics course and possess working knowledge of mathematics at least equivalent to the contents of the course 355.

Candidates with a less extensive background may be accepted as regular students upon satisfactory result of scrutiny of their past scholastic record. They will, however, be expected to remove their deficiencies by a suitable choice of background courses. The precise program of background study will in each individual case be determined by the chairman of the Graduate Committee on behalf of the Committee and in consultation with the candidate.

REQUIREMENTS

1. Completion of a minimum of 44 quarter hours.
   a) The courses required of all students are 410, 420, 411 or 421, 460, 461 or 491; at least one of the following: 462, 465, 466, 492; thesis research: 480.
   b) Two courses in a minor, which may be selected from biological sciences, chemistry, education, mathematics or physics. If physics is selected, the two courses must be chosen from courses numbered 300 or over.

2. Degree Candidacy, which will be decided on the basis of performance in graduate courses and an oral, comprehensive examination.
DE PAUL UNIVERSITY

5. A thesis based on independent research in theoretical or experimental physics.
   Current research interests of the Faculty include:
   Nuclear physics, including low energy nuclear physics (Dr. Behof, Dr. Lietz, Dr. Piewowaty, Dr. Stautberg) and the physics of nuclear radiation (Dr. Stinchcomb);
   Electrophysics, including electromagnetic theory, circuit and signal theory, electronics and solid state physics as related to electronic circuits and devices (Dr. Hupert);
   Mathematical physics, special theory of relativity (Dr. Boas).
   Solid state physics - theoretical (Dr. Yi) and experimental (Dr. El Saffar, Dr. van Ostenburg). Problems investigated currently pertain to theoretical studies of phenomena in the paraelectric and the ferroelectric phases of ferroelectrics (Dr. Yi) and nuclear magnetic resonance applications in ferroelectric materials and magnetic materials (Dr. El Saffar).

DEGREE OF MASTER OF SCIENCE IN THE TEACHING OF PHYSICS

Prerequisites
An applicant for the status of a regular student towards the degree of Master of Science in the Teaching of Physics must have satisfactorily completed a complete sequence of courses in General Physics and in mathematics up to and including Integral Calculus.

Requirements
1. Completion of 44 quarter hours in Physics. It is expected that there will be great variation in the backgrounds of the applicants. Consequently each program will be individually planned in consultation with a staff member.
2. Degree Candidacy.
3. A scholarly paper, written with the guidance of a staff member.
4. An oral examination in the field of graduate study.
5. A student must plan his program in consultation with a staff member.

PHYSICS AS A MINOR FIELD

Requirements
Physics as a minor field may be taken in conjunction with biological sciences, chemistry, education or mathematics. The prerequisites are 20 quarter hours in physics and training in mathematics through calculus.

Courses for Advanced Undergraduate and Graduate Students

List A: Undergraduate courses offered primarily for the Master of Science in the Teaching of Physics Program. Courses carry 4 quarter hours credit.
516—MECHANICS.
324—ELECTRICITY AND MAGNETISM.
335—ELECTRIC CIRCUITS.
337—ELECTRONIC CIRCUITS. Lab. fee.
340—THERMAL PHYSICS.
354—OPTICS.
365—ATOMIC PHYSICS.
366—NUCLEAR AND HIGH ENERGY PHYSICS.
380—ADVANCED LABORATORY. Variable credit. Lab. fee.
391—METHODS OF THEORETICAL PHYSICS.
392—TECHNIQUES OF TEACHING PHYSICS IN SECONDARY SCHOOLS.

List B: Undergraduate courses offered primarily for graduate students. The courses listed below may be followed either in the form of organized lecture sequences
or on the basis of a careful and detailed outline of independent study. A typical program of individual study involves: a) lists of required reading material; b) assignments for exercise between tests; c) schedule of supervised tests. Consent of the faculty member in charge of each course is a prerequisite. For initial planning and information contact the Chairman of the Graduate Committee. No laboratory fees. Courses carry four quarter hours credit.

§18—MECHANICS II.
§21—ELECTRICITY AND MAGNETISM II.
§46—THERMAL PHYSICS II.
§67—MODERN PHYSICS.
§68—QUANTUM MECHANICS.
§95—METHODS OF THEORETICAL PHYSICS III.
§99—INDEPENDENT STUDY.

GRADUATE COURSES

All graduate courses carry as a rule 4 quarter hours of credit. When a deviation from this rule is justified, the applicable number of credit hours is shown in the specific schedule applicable to the academic quarter in question. Scheduling of courses is announced quarterly.

401—FOUNDATIONS OF CLASSICAL PHYSICS. The motion of charged and uncharged particles in gravitational and electromagnetic fields, special relativity and introduction to wave mechanics.

402—FOUNDATIONS OF MODERN PHYSICS. The particles of modern physics, their interactions in atoms and nuclei, and high-energy physics.

403—SEMINAR IN HIGH SCHOOL PHYSICS TEACHING. A critical review of new programs designed for high school physics, with emphasis on phenomenological physics.

409—PHYSICS AND MATHEMATICS OF COMMUNICATIONS. Intended for high school teachers and other professionals of sufficient maturity for graduate study but not specialized in the subject matter of this course. Selected subjects in electromagnetic theory, circuit and signal theory, and information theory are arranged with the aim of providing an overall understanding of the physical principles of modern communications. Mathematical subjects and suitable exercises are interwoven into the syllabus in a manner emphasizing their applicability to the problems of communications.

410—THEORETICAL MECHANICS I. Variational principles and Lagrange's equations; the two-body central force problem; rigid body motion; and Special Relativity.

411—THEORETICAL MECHANICS II. Hamilton's equations of motion; canonical transformations; Hamilton-Jacobi theory; small oscillations; and introduction to the Lagrangian and Hamiltonian formulations for continuous systems and fields. (Prerequisite: Physics 410.)

420—ELECTRODYNAMICS I. Concise review of Maxwell's equations and basic theory of electromagnetic fields in motion; theory of bounded structures and of guided waves; theory of electromagnetic radiation, including multipole radiations and radiation from systems of radiators.

421—ELECTRODYNAMICS II. More involved problems in radiation, concentrating on the use of spectral theory and of Green's functions. Charged particle radiations, phenomena of bremsstrahlung and of Cerenkov radiation. Special theory of rela-
tivity and four-vectors as applied to electrodynamic phenomena; field invariants. (Prerequisite: 420.)

422—ELECTRODYNAMICS III. Advanced problems of electrodynamics such as: theory of dispersive media, scattering problems, magneto-hydrodynamics, wave propagation in anisotropic media. (Prerequisites: 420, 421.)

430—MATHEMATICAL PHYSICS I. A selection of topics in advanced mathematics chosen from the following list, together with physical applications to various branches of physics as appropriate.
Functional analysis (linear spaces, operators, distributions); applications to boundary value problems (Sturm-Liouville theory, Green's functions, spectral theory). (Prerequisite Course 395.)

431—MATHEMATICAL PHYSICS II. Topics from the following list (see preface to course 430):
Integral equations; variational methods; advanced complex variable theory and integral transforms. (Prerequisite: 430.)

432—MATHEMATICAL PHYSICS III. Topics from the following list (see preface to course 430):
Group theory (general theory, crystallographic groups, group representations); tensor analysis.

445—STATISTICAL MECHANICS. Basic principles of statistical mechanics; applications to weakly interacting systems, such as classical plasma and Fermi gas; strongly interacting systems; transport theory; fluctuations and irreversible processes, phase transitions. (Prerequisites: 346, 410, 460.)

460—QUANTUM MECHANICS I. Systematic development of the basic principles of quantum mechanics. Experimental and historical background; wave packets; the Schrödinger equation; eigenfunctions and eigenvalues; statistical interpretation. The formalism of quantum mechanics; vector spaces; linear operators; observables; commutators; projectors; representations.

461—QUANTUM MECHANICS II. Scattering theory: cross sections; scattering by a central potential; phase shift analysis; scattering resonances; Born approximation. Angular momentum; eigenvalues and eigenfunctions; rotations; spin; addition of angular momenta. Systems of identical particles. Invariance. Methods of approximation. (Prerequisite: 460.)

462—QUANTUM MECHANICS III. Relativistic single particle wave equations: Klein-Gordon, Dirac and Maxwell equations. Relativistic spin 1/2 (Dirac) particle interacting with the electromagnetic field; hydrogen atom, charge conjugation, hole theory. Lagrangians for relativistic fields; construction of field invariants from symmetries of the Lagrangian (Noether's theorem). Second quantization of free fields and its equivalence to the many particle theory of identical particles. Interaction of quantised fields; s-matrix and perturbation theory. Feynman graphical technique. (Prerequisite: Course 461.)

465—NUCLEAR PHYSICS. Theoretical and phenomenological approaches to nuclear structure and strong, electromagnetic, and weak interactions of nuclei. Topics of study include the theory of scattering and decay of nuclei, resonances, nuclear models. (Prerequisite: 568.)

466—ELEMENTARY PARTICLES. Introduction to particle physics including relativistic kinematics, scattering, production and decay of particles and resonances; symmetries, conservation laws and possible dynamical symmetry classification schemes
for strongly interacting particles and resonances. (Prerequisites: Physics 460, 461.)

480—THESIS RESEARCH. Research on a problem for the thesis. The number of credit hours is variable and the consent of the thesis advisor is a prerequisite. Lab. fee only if applicable.

491—SOLID STATE PHYSICS I. Periodicity and classification of crystal structure—the theory of X-ray diffraction is explained early as an introduction to the concept of the reciprocal lattice. The other principal topics of this course are: phenomenology of crystal binding, phonons, the Debye theory of heat capacity, inelastic scattering of neutrons and of intense coherent light, anharmonic interactions and thermal conductivity, the free-electron gas model, the energy band theory. (Prerequisites: Courses 346, 368.)

492—SOLID STATE PHYSICS II. The principal topics of this course are electrophysics of intrinsic and impure semiconductors; studies of band structure of n- and p-type semiconductors; transport properties of charge carriers; dielectric and optical behavior of ions and of electron gas; ferro-electricity, dia- and para-magnetism, ferromagnetism, anti-ferromagnetism, superconductivity. (Prerequisite: 491.)

GRADUATE SEMINAR COURSES

Courses described as “seminars” in their titles may contain different subjects each time the course is offered. Thus multiple credit may be granted for these courses subject to departmental approval. When advisable these courses may also be offered as controlled independent study courses. Consent of the Faculty advisor is a prerequisite for every graduate seminar course.

470—SEMINAR IN NUCLEAR PHYSICS. A seminar with special emphasis on current topics in nuclear physics. Both experimental methods and their theoretical interpretations are studied with the emphasis on the latter.

471—SEMINAR IN GENERAL THEORY OF RELATIVITY. Tensor analysis and Riemannian geometry; the gravitational field equations and their solutions in special cases.

472—SEMINAR IN ADVANCED THEORY OF ELECTRIC CIRCUITS. A seminar with special emphasis on circuits using thermionic tubes and semiconductor devices. Advances in this field will be studied on the basis of recent periodical literature. Examples of applications and problems will be undertaken to demonstrate the efficiency of advanced mathematical methods.

475—SEMINAR IN MICROWAVES. A study of specialized topics in the general field of microwaves. The nature of the seminar will change from year to year. The topics to be covered in successive scheduling are a) field theory of microwaves, b) theory of distributed circuits, and c) theory of microwave devices.

476—SEMINAR IN EXPERIMENTAL TECHNIQUES OF SOLID STATE PHYSICS. This seminar involves an introduction to several techniques employed in studying solids. These techniques may include X-ray, electron and neutron diffraction, Mössbauer, ultraviolet, visible, IR, ESR, NQR and NMR spectroscopy. For each technique a theoretical introduction is given followed by a brief description of the used equipment and a detailed discussion of the measured parameters and of the information obtained from the measurements. (Prerequisites: 491, 492.)

477—SEMINAR IN THEORIES OF MANY PARTICLE SYSTEMS. Topics of this seminar are heavily drawn from the theory of elementary excitations in solid state physics: lattice dynamics; Bose and Fermi liquids, nuclear matter, electron correlations and plasma oscillations; spin wave theory and ferromagnetism; quasi spin-wave model of ferroelectricity; the BCS theory of superconductivity, superfluidity. (Prerequisites: 492, 445.)

478—SEMINAR IN TOPICS OF THEORETICAL PHYSICS. A study of advanced work in theoretical physics.
DE PAUL UNIVERSITY

DEPARTMENT OF POLITICAL SCIENCE

HARRY C. THOMSON, Chairman
BASHIR AHMAD, M.A.
MIN KYU CHO, M.A.
ROOSEVELT FERGUSON, M.A.
STANLEY S. JADOES, PH.D.
RAYMOND SCHEELE, M.A.

Prerequisites as a Minor Field
Political science as a minor field may be taken in connection with economics, education, history, and philosophy. Five courses in political science form the prerequisite undergraduate preparation.

300—RESEARCH AND METHODOLOGY IN POLITICAL SCIENCE. This course deals with library research in political science materials. It considers the critical appraisal and the classification of research materials, as well as the techniques of research.

301—SCOPE AND METHOD. An examination of the areas covered by political science, the various schools of thought in the field, and the various methods of normative and empirical research.

302—SURVEY RESEARCH. A study of the research techniques employed in examining political behavior and attitudes.

305—COMPARATIVE GOVERNMENT—EUROPE. An introduction to the principles of comparative government and their application to a survey of the governments of four major European powers—Great Britain, France, West Germany, and the Soviet Union.

306—COMPARATIVE GOVERNMENT—ASIA. An introduction to the principles of comparative government and their application to a survey of the governments of India, China, and Japan.

307—GOVERNMENT AND POLITICS OF DEVELOPING NATIONS. This course compares the political institutions and processes of selected new nations of Africa, the Middle East, and Far East.

308—GOVERNMENT AND POLITICS OF SOUTHEAST ASIA. This course focuses attention on the countries of Southeast Asia and studies their political institutions and problems.

310—NATIONAL DEFENSE POLICIES. A critical examination of U.S. defense policies with special emphasis on the constitutional framework, the organization of the military departments, the economic impact of defense expenditures, weapons technology, selective service, and alliances.

315—PUBLIC ADMINISTRATION. A preliminary survey of the field of public administration, stressing the role of administration and bureaucracy in modern democracy, its relation to other branches of the government, problems of organization and relations among administrative levels, personnel, control, regulation, and other problems.

316—PUBLIC PERSONNEL ADMINISTRATION. Closely related to 315, this course deals with problems and procedures in government employment at the local, state and national level.

320—AFRICAN POLITICS. An exploration of the political life of some of the newly-independent nations of Africa.

321—AFRO-AMERICAN POLITICS. An analysis, largely historical, of the efforts of black citizens in the United States to organize and express themselves politically.

328—ENGLISH CONSTITUTIONAL HISTORY TO 1485. See History 328.

330—WORLD POLITICS. A survey of the factors bearing on international politics, with
emphasized on such problems as imperialism, balance of power, collective security, and international organization.

335—INTERNATIONAL LAW. A study of the principles and practices of international law, giving special consideration to such problems as sources and sanctions of the law of nations, recognition and succession of states, intervention, jurisdiction, nationality and protection of citizens, diplomatic and consular practice, and treaty interpretation.

340—ANCIENT AND MEDIEVAL POLITICAL THOUGHT. A study of the political theories of major political philosophers from Aristotle to Machiavelli, with emphasis on the historical setting and the long-range influence of each thinker.

341—HISTORY OF MODERN POLITICAL THOUGHT. A study of the political theories of the major political philosophers since Machiavelli, with emphasis on consideration of the historical setting and the development of thought in modern times.

370—SENIOR SEMINAR, WORLD POLITICS.
371—SENIOR SEMINAR, RUSSO-AMERICAN RELATIONS.
372—SENIOR SEMINAR, NATIONAL SECURITY POLICIES.
373—SENIOR SEMINAR, CONSTITUTIONAL LAW.
374—SENIOR SEMINAR, COMPARATIVE GOVERNMENT.
375—SENIOR SEMINAR, MODERN POLITICAL THOUGHT.

Note: These seminars are open only to advanced students with superior academic records.

380—U.S. CONSTITUTIONAL HISTORY TO 1815. This course examines the English colonial charters and colonial governments in the 17th and 18th centuries, the constitutional aspects of the American Revolution, the new state constitutions drafted in the 1770's, the Articles of Confederation, the federal Constitution, and the early history of the new government. (May also be taken for History credit. See History 380)

381—U.S. CONSTITUTIONAL HISTORY, 1815-1920. This course continues the history covered in 380. It explores the concepts of federalism and separation of powers in some detail and with reference to major Supreme Court decisions. The constitutional aspects of the Civil War and Reconstruction are given close attention, followed by the problems of industrial regulation. (May also be taken for History credit. See History 381)

382—U.S. CONSTITUTIONAL HISTORY SINCE 1920. This course continues the history covered in 381. It deals with problems of civil liberties in the post-World War I era, the constitutional issues of the New Deal period, and the great variety of constitutional controversies that arose during and after World War II, including the major decisions of the Warren court. (May also be taken for History credit. See History 382)

383—UNITED STATES FOREIGN RELATIONS, 1783-1860. See History 383.
384—UNITED STATES FOREIGN RELATIONS, 1860-1914. See History 384.
385—UNITED STATES FOREIGN RELATIONS SINCE 1914. See History 385.

387—THE LEGISLATIVE PROCESS. A study of the policy-making process in Congress, involving problems of legislative organization and procedures, leadership, and presidential-legislative relationship; these concepts are examined primarily by the case method and by individual research on selected pieces of recent legislation.

391—POLITICAL PARTIES. An analysis of the functions and organizations of political parties in the United States and in other countries.

393—U.S. CONSTITUTIONAL LAW—FEDERALISM. An intensive study of important cases in U.S. Constitutional law to illustrate the basic principles and problems of the federal system.
DE PAUL UNIVERSITY

594—U.S. CONSTITUTIONAL LAW — CIVIL LIBERTIES. An intensive study of important cases in U.S. Constitutional law in the realm of civil liberties.

595—SELECTED PROBLEMS IN CONTEMPORARY AMERICAN DIPLOMACY. Analytical study of U.S. participation in regional and global political and military agreements.

596—PROPAGANDA TECHNIQUES. An analysis of the meaning and importance of propaganda in a political context, and of types of propaganda employed in modern states.

599—INDEPENDENT STUDY. Individual students make arrangement for independent reading and research under the supervision of a faculty member.
DEPARTMENT OF PSYCHOLOGY

EDWIN S. ZOLIK, PH.D., Professor and Chairman

ROBERT E. BREWER, PH.D., Associate Professor
THOMAS S. BROWN, PH.D., Associate Professor
CONRAD CHIVATOS, PH.D., Associate Professor

WESLEY LAMB, PH.D., Assistant Professor
ROBERT J. TRACY, PH.D., Assistant Professor

The Department of Psychology offers graduate work leading to the degrees of Master of Arts, Master of Science, and Doctor of Philosophy.

The objective of the graduate programs in psychology is to provide qualified students with the opportunity to become thoroughly acquainted with the methodology and content of scientific psychology and trained in the quantitative methods and scientific rigor necessary for the understanding of human behavior and personality. At the Masters level the preparation of students is directed toward future study for the doctoral degree, or for employment in one of the applied fields of psychological services.

Ph.D. programs are offered in clinical and general-experimental psychology. The program in clinical psychology has a community mental health orientation.

Masters programs are offered in general-experimental, clinical, counseling, school psychology and rehabilitation counseling. All programs are planned individually through consultation with the Chairman and departmental staff on the basis of the student’s background and needs. The program in school psychology involves specialization in child-clinical psychology with a minor in education.

ADMISSION

The Department accepts as graduate students only those who show definite promise for completing the requirements for advanced degrees. Meeting the minimum admission standards or having extensive undergraduate course work in psychology does not guarantee acceptance, since the number of applicants admitted is limited.

The applicant for graduate study in psychology must present a satisfactory undergraduate scholastic average with a minimum of nine semester hours or twelve quarter hours in Psychology. Three of the hours must represent a course in Elementary Statistics.

Preference is given to those applicants who have a well-balanced background of psychology courses, and some background in another science and mathematics. However, students who do not have an undergraduate major in psychology but who are able to demonstrate a high level of undergraduate achievement are encouraged to apply.

The Departmental Graduate Admissions Committee will determine, on the basis of a consideration of each student’s proposed program of graduate study, whether the minimum of twelve quarter hours in Psychology is sufficient for advanced study. The student judged to be deficient in prerequisites or other respects will be required to take, without graduate credit, such courses as necessary to remedy any deficiencies upon entering Graduate School.
DE PAUL UNIVERSITY

In addition to the admission requirements of the Graduate School, the Department of Psychology requires all applicants to submit the following before their application for admission will be considered complete: (a) Departmental Information Schedule, (b) the results of the Verbal and Quantitative tests and the Advanced Test in the field of undergraduate major of the Graduate Record Examination, and (c) three letters of recommendation. Forms and detailed information may be obtained from the chairman of the department. It is desirable, but not mandatory, that the results of the Miller Analogies Test, if taken, also be submitted at the same time.

Masters Programs

The Department offers degree programs leading to a Master of Arts or a Master of Science. Students who plan to enter a doctoral program directly upon completion of their Master's program or desire a terminal Masters in general-experimental psychology should enroll in the Master of Arts program. The Master of Science program is intended for those students who are seeking a terminal Master's degree in one of the areas of applied psychology: clinical counseling, rehabilitation counseling, or school psychology. Master of Science candidates pursue a two year program. All students are expected to maintain a grade point average of B or higher and to carry a course load of a minimum of 12 quarter hours per quarter.

Master of Arts Degree Requirements
1. A minimum of 44 quarter hours including four quarter hours credit for thesis research is required of all candidates for a degree.
2. At least seven courses (excluding 597) must be at the 400 level. (Courses below the 350 level do not carry graduate credit for graduate students in psychology.)
3. Advancement to candidacy. Upon completing at least half of the graduate course requirements, the student shall make application to the Department Chairman for acceptance as a candidate for a Master's degree. Only those who have given evidence of satisfactory academic performance as graduate students will be advanced to candidacy. The Department reserves the right to require the student to take special written or oral examinations in fulfilling this requirement. Students whose application for advancement to candidacy is denied will be advised to strengthen areas of scholastic weakness or to withdraw from the Graduate School.
5. A comprehensive examination, either oral or written, in the field of graduate study.

Master of Science Degree Requirements

Although the M.S. program is intended for those students who are seeking a terminal Master's degree in one of the areas of applied psychology, the M.S. sequence is also appropriate for students who intend to continue to a Ph.D. degree in the areas of clinical or counseling psychology. Students interested in continuing to the Ph.D. in clinical or counseling psychology are encouraged to take the M.S. sequence and do a thesis rather than write the 5,000 word paper required for the M.S. degree.

The requirements for the M.S. degree are:
1. A minimum of seventy-two quarter hours including four quarter hours credit for thesis research (597) or for a written report of research (594), but excluding practicum courses.
2. Advancement to candidacy.
3. A thesis or a paper of at least 5,000 words on a topic approved and accepted by the Department.
4. A comprehensive examination, either oral or written, in the field of graduate study.

Doctor of Philosophy Degree Requirements

Programs of study leading to the Ph.D. degree are offered in clinical and general-experimental psychology. A student with a B.S. or a B.A. will be required to obtain a
M.A. or M.S. degree at DePaul before being admitted to the Ph.D. program. Students who have obtained the Master's degree in psychology at another institution and who present evidence of the level of scholarship necessary to successfully complete the doctoral program may be accepted for the Ph.D. program.

All students are required to complete a core sequence of courses during the first two years of graduate study. Before the end of the second quarter of residence at the Ph.D. level, the student must pass a preliminary examination, which may be written or oral. This examination, which is similar to the Master's comprehensive examination may be waived upon recommendation of the committee representing the student's area of specialization.

In order to be admitted to candidacy for the Ph.D. the student must successfully pass the Doctoral Candidacy Examination. This written examination is designed to assess the student's competence in psychology as a whole and in his area of specialization. The examination is given in three sections. Two four-hour examinations cover the areas of learning, perception, physiological psychology, personality, developmental psychology and social psychology. The third section consists of a six hour examination in the student's area of specialization.

Every graduate student in the general-experimental sequence must take part in the Teaching of Psychology Program as a requirement for the Ph.D. degree and register for a minimum of two quarters in the Seminar in Teaching Psychology. Students in the clinical and counseling programs must complete a one year internship in a facility approved by the Department as a requirement for the Ph.D.

Each student must demonstrate his ability to conduct independent research by the presentation of an acceptable dissertation. Research for the dissertation should normally be completed during the fourth year at the University by students in the general-experimental program. However, as the third year is usually the year of internship for students in clinical and counseling psychology, the dissertation normally will be completed during the fifth year by students in these programs. At the final oral examination a student is required to defend his dissertation and to show his competence in the general field of psychology and in his area of specialization.

PSYCHOLOGY AS A MINOR
Psychology may be combined as a minor with Biology, Mathematics or Philosophy. Students taking a minor in psychology may elect courses on the advanced level only after completion of certain other requirements, to be determined by the chairman of the department of psychology and chairman of the department of the student's major field.

COURSES FOR ADVANCED UNDERGRADUATE AND GRADUATE STUDENTS

301—TESTS AND MEASUREMENTS. A survey of psychological testing with emphasis on test construction and interpretation of scores. (Prerequisite: Psychology 105) (Materials fee: $5.00). May be taken for credit only by majors in the Human Development sequence and by non-majors. May not be taken for credit if Psychology 356 has been successfully completed (passed with a grade of C or better).

302—PERSONAL ADJUSTMENT AND MENTAL HEALTH. Introduction to psychological principles involved in personality and interpersonal adjustments. (Prerequisite: Psychology 105)

305—SOCIAL PSYCHOLOGY. The study of the influence of group life on behavior and personality development. (Prerequisite: Psychology 106). May be taken for Sociology credit.

312—INDUSTRIAL PSYCHOLOGY. The application of the psychological principles of learning, perception, and adjustment to industry. (Prerequisite: Psychology 106)

333—DEVELOPMENTAL PSYCHOLOGY I: INFANCY AND CHILDHOOD.
DE PAUL UNIVERSITY

...tion and evaluation of principles and theories of development from conception through childhood. (Prerequisite: Psychology 106.)

334—DEVELOPMENTAL PSYCHOLOGY II: ADOLESCENCE THROUGH MATURITY. Continuation of 333 covering development, personality organization, and adjustment. (Prerequisite: 333.)

336—HUMAN DEVELOPMENT. A survey of principles of development from conception through maturity. (Prerequisite: Psychology 105). May not be taken for credit by psychology majors.

351—THEORIES OF PERSONALITY. Survey of theories of personality, emphasizing distinction between clinical and scientific theories. (Prerequisite: Psychology 106.)

352—THE PSYCHOLOGY OF PREJUDICE. (Prerequisite: Psychology 106.)

353—ABNORMAL PSYCHOLOGY. Description of the nature, symptoms, and etiology of psychological disorders. (Prerequisite: Psychology 106.)

354—ECOSYSTEMS AND BEHAVIOR. (Prerequisite: 305.)

355—SMALL GROUPS AND LEADERSHIP. (Prerequisite: 305.)

356—INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT. Measurement in psychology; emphasis on standardization, reliability, validity; test and scale development. (Prerequisites: 106 and 242). (Material fee: $3.00.)

357—SOCIAL DEVIANCE. (Prerequisite: 305.)

360—THEORIES OF LEARNING. A survey of the classical and modern theories of learning. (Prerequisite: 275 or consent.)

361—HISTORY AND SYSTEMS OF PSYCHOLOGY. Historical analysis of basic concepts in psychology. (Prerequisite: 275 or consent.)

362—COGNITIVE PROCESSES. Processes by which stimulus input is transformed, stored, recovered, and used; abstraction processes. (Prerequisite: 360.)

366—BEHAVIOR PROBLEMS OF CHILDREN. (Prerequisite: 333.)

367—PSYCHOLOGY OF EXCEPTIONAL CHILDREN. (Prerequisite: 333.)

368—COMPUTER PROGRAMMING. Development of FORTRAN programs for computing statistics. (Prerequisite: Psychology 242 or consent). (Laboratory fee $10.00.)

370—RESEARCH METHODS IN DEVELOPMENTAL PSYCHOLOGY. (Prerequisite: 354.)

372—RESEARCH METHODS IN SOCIAL PSYCHOLOGY. (Prerequisite: 275.)

375—PERCEPTION. Environmental and stimulus control of behavior; chemical control of perception. (Prerequisite: 277.)

377—PHYSIOLOGICAL PSYCHOLOGY. The nervous system and endocrine functions as related to behavior. (Prerequisite: 275.)

378—COMPARATIVE PSYCHOLOGY. Patterns of behavior shown by various animal species. (Prerequisite: 106.)

390—STATISTICS FOR THE BEHAVIORAL SCIENCES. Applied inferential statistics. (Prerequisite: 242.)

392—PSYCHOLOGY OF ALIENATION. Causes of individual and group alienation, and the resultant behavior. (Prerequisites: 305 and 351.)

393—PSYCHOLOGY OF LANGUAGE. Development of language in children, and effects of language on thinking. (Prerequisite: 305.)

394—ADVANCED TOPICS IN PSYCHOLOGY. (Prerequisite: Senior standing and consent of Chairman.)

395—FIELD WORK AND STUDY. Supervised experience in selected off-campus settings and associated readings. (Prerequisite: Junior standing and consent of Chairman.)

102
398—READING AND RESEARCH. (Prerequisite: Senior standing and consent of Chairman).

COURSES FOR GRADUATE STUDENTS ONLY

402—PERCEPTUAL PROCESSES. Analysis of the variables involved in the determination of perception with particular attention to the problems of space, motion, distance, size, form, the after effects and the constancies. (Prerequisite: Twelve hours of psychology.)

404—LEARNING PROCESSES. Basic concepts and research in acquisition, extinction, generalization, discrimination, transfer, retention in both animals and humans. (Prerequisite: Twelve hours in psychology.)

406—PHYSIOLOGICAL PROCESSES. The functional role of neural systems important for the processes of motivation, emotion, sleep, memory, and cognition. (Prerequisite: Psychology 377 or equivalent.)

410—ADVANCED STATISTICS I. An introduction to sample spaces, random variables, distributions and parametric statistics. Sampling, the concept of sampling distributions of statistics. (Prerequisite: Psychology 242 or equivalent.)

411—ADVANCED STATISTICS II. Point estimation procedures are developed for a variety of parameters. Interval estimation and hypothesis testing are compared. Linear regression, correlation, and analysis of variance. (Prerequisite: Psychology 410.)

412—ADVANCED STATISTICS III. Complex analysis of variance and covariance; planned and post-hoc contrasts; orthogonal polynomials. (Prerequisite: Psychology 411.)

416—METHODS IN BEHAVIORAL RESEARCH. Principles and techniques of research design in behavioral, social and clinical research; questionnaires, interview schedules, rating scales involving multivariable analysis. Application of parametric and nonparametric tests. Application of research findings to professional practice. (Prerequisite: Psychology 411.)

418—MULTIVARIATE ANALYSIS. Theory and statistical techniques underlying the analysis of multiple measurements. (Prerequisite: Psychology 411.)

419—FACTOR ANALYSIS. Theoretical foundations, methods of analysis, and comparison of various factor analytic models. (Prerequisite: Psychology 418) (2 credits.)

420—ADVANCED EXPERIMENTAL PSYCHOLOGY. Analysis of problems and a critical review of the literature in specified areas of experimental psychology, with emphasis on training for independent research. (Prerequisites: Psychology 276 and 411.)

422—THEORIES IN CONTEMPORARY PSYCHOLOGY. The philosophy of science as an overview of scientific method. Special emphasis on theory construction in psychology including deductive, inductive and functional approaches and the use of models. Problems of definition and quantification in relation to theory construction. (Prerequisite: Psychology 411.)

424—THEORIES OF MOTIVATION. An analysis of the psychology of motivation in terms of instinct and psychodynamic theories, biological and acquired drives and motives. (Prerequisite: Psychology 404.)

425—COGNITIVE PROCESSES. Theories and methods in the study of concept formation, problem solving, thinking, verbal learning, psycholinguistics. (Prerequisite: Psychology 404.)

426—CONTEMPORARY BEHAVIOR THEORY. Critical evaluation of modern theories with special emphasis on attempts to formulate scientific theories of learning. (Prerequisite: Psychology 404.)

427—SENSORY PROCESSES. Receptor system processes and their relations to psychological phenomena, with attention to similarities and differences among sensory sys-
428—THEORIES OF PERCEPTION. Systematic analysis of the literature in human perception with the goal of evaluating theories. (Prerequisite: Psychology 402.)

429—PSYCHOPHYSICS AND SCALING. Theory and methods of measurement in perception, social and individual differences. (3 credits.) Prerequisites: 402 and 411.

430—ADVANCED SOCIAL PSYCHOLOGY. Contemporary theory and research in social behavior, emphasizing the behavior of the individual in a social context. (Prerequisite: Psychology 302.)

431—GROUP DYNAMICS. Theory, research and practice relating to group behavior. The psychological structure of the group; group leadership; group dynamics and personality dynamics. Role playing. (Prerequisite: Psychology 305 or equivalent.)

432—ATTITUDE ANALYSIS. Theory and research in attitude formation and organization, communication and persuasion, resistance to persuasion, and measurement techniques. (Prerequisite: Psychology 430.)

433—SOCIAL JUDGMENT. Theory and research in judgment of social stimuli, perceiving and evaluating persons, and social comparison processes. (Prerequisite: Psychology 430.)

434—SMALL GROUP BEHAVIOR. Theory and research in goal formation, conformity, power and communication structures, cohesion, and task performance. The emphasis is on the behavior of persons within groups. (Prerequisite: Psychology 430.)

435—THEORIES OF PERSONALITY. Intensive analysis of personality theories; typological approaches; conflict and anxiety; introduction to principles of behavior dynamics. (Prerequisite: Psychology 351.)

437—ADVANCED PERSONALITY. Critical analysis of research in personality with emphasis on the development and testability of major constructs in contemporary research. (Prerequisite: Psychology 351.)

439—ADVANCED DEVELOPMENTAL PSYCHOLOGY. Current research and theories in child development relating to the preschool child, elementary school child, and adolescent. Emphasis on the dynamics of motivation, personality, learning and socialization. Case studies and analysis of various developmental problems. (Prerequisite: Psychology or Education 333 or 334.)

440—REHABILITATION SERVICES AND COMMUNITY ORGANIZATION. The history of rehabilitation in the United States. Philosophies of rehabilitation services. Survey of social welfare legislation. Functions and interrelationships of agencies involved in rehabilitation, mental health, and other services to individuals and groups. (Prerequisite: Graduate standing.)

441—MEDICAL ASPECTS OF DISABILITY. A survey of the major physical conditions likely to lead to disability, including approaches to treatment. Limitations to employment and daily living caused by these conditions. Case studies in physical and emotional disability. (Prerequisite: Graduate standing.)

442—PSYCHOLOGICAL FACTORS IN DISABILITY. Psychological principles and problems in the major mental and physical disabilities, and prolonged infirmities of children and adults; somatopsychology; psychological assessment and counseling; re-education and retraining; psychological rehabilitation and adjustment including attitudes and adjustment. (Prerequisite: Nine hours in psychology or consent of instructor.)

443—SOCIAL AGENCIES. Designed primarily for prospective school psychologists, vocational and rehabilitation counselors, and community mental health personnel. Structure, functions and programs of child welfare, family services, public health, special educational and social work facilities, medical and psychiatric services. Principles and methods of community organization, planning and action. (Two quarter hours)
450—PSYCHOLOGICAL MEASUREMENT. Logical and mathematical principles underlying test construction with emphasis on evaluating the reliability and validity of scores. (Prerequisites: Psychology 411 and 418.) (3 credits)

452—COMPUTER SIMULATION OF BEHAVIOR. Analysis of research in the digital computer simulation of living organisms. Development of computer models. (Prerequisites: Psychology 368 and 428.) (3 credits)

454—BEHAVIOR MODIFICATION. Analysis of principles, practices, and research related to the modification of human behavior. (Prerequisite: Psychology 404.)

456—THEORIES OF CONFLICT. Theories and research dealing with the important elements of choice behavior. (Prerequisite: Psychology 430 and 437.)

470—OCCUPATIONAL DEVELOPMENT AND PLACEMENT. Theories and conceptualizations of occupational development and career choice: Sources of occupational and educational information. The process of occupational placement. Contemporary changes in the world of work. Includes case studies, field trips to placement agencies, and job analysis in selected industrial plants. (Prerequisite: Graduate standing.)

471—PSYCHOLOGICAL ASSESSMENT. Theory and construction of tests of ability, achievement, interests, and special aptitudes. Objective tests of personality. Emphasis on the interpretation of test data and process of communication of test results to clients and agencies. (Prerequisite: Psychology 410 or Education 400.) (Materials fee: $6.00.)

472—PRINCIPLES OF COUNSELING. Philosophies underlying the counseling process. Processes of psychological counseling, and the dynamics of the client-counselor relationship. The use of test scores and vocational-educational information in the counseling session. Utilization of role-playing and recorded counseling sessions to illustrate lecture materials. (Prerequisite: Psychology 356 or 471.)

474—THEORIES OF COUNSELING. Comparative study and analysis of the major conceptual orientations to counseling practice. The current literature and research in counseling. (Prerequisite: Psychology 472.)

480—INTRODUCTION TO CLINICAL PSYCHOLOGY. Intensive survey of clinical psychology; the case-study method, importance of historical data and the process of diagnostic inference in assessment. The observation and analysis of the dyadic relationship with patients. (Prerequisites: Psychology 356 and 353 or equivalent.)

481—INDIVIDUAL INTELLIGENCE TESTING I. Theories of intelligence and cognitive development. The classification of intelligence measures. Introduction to the administration of verbal and various non-verbal tests and the Stanford Binet. (Prerequisite: Psychology 358.) (Materials fee: $10.00.)

482—INDIVIDUAL INTELLIGENCE TESTING II. The administration and interpretation of the Stanford Binet, Wechsler Intelligence Scale for Children and Wechsler Adult Intelligence Scale. The clinical use of these instruments with various groups. (Prerequisites: Psychology 481 and 482 must be taken consecutively.) (Materials fee: $10.00.)

484—PROJECTIVE TECHNIQUES. The theory of projection. Administration and scoring of the Rorschach and Thematic Apperception Test and other projective tests. Evaluation of projective tests and needed areas of research and development. (Prerequisites: Psychology 356 and 353 or equivalent.) (Materials fee: $7.50.)

485—ADVANCED PSYCHODIAGNOSTICS. Advanced study of projective techniques and other personality assessment methods, with emphasis on analysis, interpretation and integration of all pertinent clinical data. (Prerequisite: Psychology 484.) (Materials fee: $7.50.)

486—ADVANCED PSYCHOPATHOLOGY. Review of the major neurotic, psychotic, psychosomatic and somatopsychic syndromes and etiological interpretations. Mecha-
nisms of defense and behavior dynamics. Current issues in psychopathology and evaluation of treatment methods. (Prerequisite: Psychology 355 or equivalent.)

488—PRINCIPLES OF PSYCHOTHERAPY. Analysis of theoretical approaches to psychotherapy. (Prerequisite: Psychology 436.)

489—GROUP PSYCHOTHERAPY. Principles, theories and techniques of in-group psychotherapy. Problems of selection of group members and evaluation of progress. (Prerequisite: Psychology 436.) (3 credits)

490—EGO PSYCHOLOGY. Analysis of the formulations of the major ego psychologists with emphasis on ego development and adaptation. (Prerequisite: Psychology 436.) (3 credits)

492—PRINCIPLES OF CONSULTATION. The principles and dynamics involved in the various types of consultative relationships. Techniques of consultation with parents, teachers, agencies, physicians and others in regard to problems and deviancy, methods of management and treatment. (Prerequisites: Psychology 430 and 486 or consent.) (3 credits)

493—COMMUNITY MENTAL HEALTH. The historical antecedents, philosophy and dimensions of community mental health; theory, practice, and research. Analysis of current problems and future directions. (Prerequisite: Graduate standing.)

550—SEMINAR IN TEACHING PSYCHOLOGY. (3 credits.)

551—SEMINAR IN EXPERIMENTAL PSYCHOLOGY. (4 credits.)

552—SEMINAR IN NEUROPSYCHOLOGY. (2 credits.)

553—SEMINAR IN PERSONALITY RESEARCH. (3 credits.)

554—SEMINAR IN BEHAVIOR GENETICS. (2 credits.)

555—SEMINAR IN DEVELOPMENTAL PSYCHOLOGY. (2 credits.)

556—SEMINAR IN SOCIAL PSYCHOLOGY. (2 credits.)

560—SEMINAR IN COUNSELING PSYCHOLOGY. (3 credits.)

561—SEMINAR IN COUNSELING RESEARCH. (3 credits.)

563—SEMINAR IN PSYCHOTHERAPY. (2 credits.)

564—SEMINAR IN CLINICAL RESEARCH. (3 credits.)

565—SEMINAR IN CLINICAL ASSESSMENT. Analysis of special problems and methods in diagnosis and evaluation. (2 credits.)

566—SEMINAR IN PSYCHOPATHOLOGY. (2 credits.)

567—SEMINAR IN DEVIAN'T BEHAVIOR OF CHILDREN. (2 credits.)

568—SEMINAR IN COMMUNITY PSYCHOLOGY. Analysis of theories of community and human behaviors from the standpoint of general systems principles. (3 credits.)

569—SEMINAR IN COMMUNITY PSYCHOLOGY RESEARCH. Analysis of major research programs dealing with social and mental health problems with emphasis on epidemiological and socio-clinical research methods. (3 credits.)

575—PRE-PRACTICUM IN CLINICAL PSYCHOLOGY. (2 credits.)

576—PRACTICUM IN REHABILITATION SERVICES. Observing and participating in the work of rehabilitation agencies such as a mental hospital, state rehabilitation office, or private rehabilitation center. Emphasis on the organization and function of the agency, and on contact with, and understanding of, the client and population served. A different agency is studied during each of three quarters. (Prerequisite: Consent of instructor.)
PSYCHOLOGY

577—PRACTICUM IN CLINICAL ASSESSMENT. Supervised experience in intake interviewing, psychological evaluation and case conference presentation in a clinic, hospital or community agency setting. Minimum of 8 clock hours per week. (By arrangement with Chairman.)

578—PRACTICUM IN CLINICAL PSYCHOLOGY. Supervised experience in diagnostic assessment, intervention planning, psychotherapy and report writing through varied assignments to campus or community agencies. (Minimum of two days per week.) (By arrangement with Chairman.)

579—PRACTICUM IN CHILD CLINICAL PROCEDURES. Supervised practice in the diagnosis and treatment process of the problems of children and adolescents. May be repeated for a maximum of credit of 8 hours. (By arrangement with Chairman.)

580—PRACTICUM IN COUNSELING. Intensively supervised experience in counseling with a variety of clients. Group and individual supervision of all counseling sessions. Report writing. (Prerequisite: Psychology 472 and consent of instructor.)

581—ADVANCED PRACTICUM IN COUNSELING PSYCHOLOGY.

582—ADVANCED PRACTICUM IN CLINICAL PSYCHOLOGY.

583—PRACTICUM IN COMMUNITY MENTAL HEALTH.

590—THESIS SEMINAR. (1 credit.)

592—DIRECTED RESEARCH. A-Experimental, B-Learning, C-Social, D-Physiological, E-Personality, F-Psychopathology, G-Counseling, H-Rehabilitation, I-Community Mental Health, J-Perception, K-Psychotherapy. The course involves individual projects (non-thesis research) under the supervision of a faculty member. (Arranged by consultation with the Chairman.)

594—PSYCHOLOGICAL RESEARCH. A course involving intensive readings in contemporary psychological literature or individual research projects. (Arranged by prior consultation with the Chairman.)

595—COLLOQUIUM. Required of all graduate students. Lectures by visiting psychologists and members of the staff. (No credit.)

596—INTERNSHIP. (No credit.)

597—MASTERS THESIS RESEARCH. Original investigation of a specific research problem. (4 hours.)

598—MASTER’S CANDIDATE RESEARCH. Open to Master’s candidates who have fulfilled all requirements for the degree and who are devoting full time to thesis research and study. (0 credits; tuition equal to one four-hour course.) (Prerequisite: 597.)

599—DISSERTATION RESEARCH. (4 to 12 credits per quarter.)
DEPAUL UNIVERSITY
DEPARTMENT OF SOCIOLOGY

FACULTY COMMITTEE
ROBERTA ASH, PH.D.
ROSEMARY BANNAN, PH.D.
HELMUT LOISKANDL, PH.D.

LAVINIA RAYMOND, PH.D.
CHARLES SUCHAR, PH.D.
JUDITH WILLIAMS, PH.D.

PURPOSE
Through its graduate program, the department expects students to learn the constructs and logic that comprise sociological theory; to interpret group and institutional behavior; and the methodologies of sociological research.

Increasingly, training in sociology is becoming invaluable to the professions of public service, law enforcement, business management, public administration, teaching, and school administration.

PREREQUISITES
Applicants proposing to major in sociology at the graduate level are expected to have completed the following prerequisites or their equivalents: Sociology 201, Systematic Sociology; 242, Elementary Statistics; 331, Sociological Theory; and 390 and 391, Research Methods in Sociology I and II. If any be lacking, the applicant may be admitted provisionally to complete the prerequisites specified.

DEGREE OF MASTER OF ARTS

REQUIREMENTS
1. Completion of a minimum of eleven courses (44 quarter hours), toward which Thesis Research counts for two courses (8 quarter hours). Sociology 401 and 402 are core courses to be completed by every degree student. The graduate student selects other courses in his program, but always with the approval of his advisor. Under advisement, the student may choose some courses from fields closely allied with sociology to count toward degree requirements; such courses require the permission of the department chairman in the allied field.

2. Thesis. The student discusses with his advisor the choice of a thesis topic. Approval of a thesis topic is made on the appropriate form to be signed by the designated thesis director and endorsed by two faculty members. Credit for the thesis is obtained through registration for Sociology 499, Thesis Research. This registration is repeated in the next quarter for a total credit in Thesis Research of eight quarter hours. A student who fails to complete his thesis in two quarters may be required to register in Thesis Research until the thesis is completed.

Courses for Advanced Undergraduate Students
(Credit earned in 300-level courses is not applicable toward the M.A. in sociology.)

302—CULTURAL ANTHROPOLOGY. A comparative study of modes of human life under the cultures of a variety of societies ranging from the primitive to the industrial. The material and ideological culture traits of the different societies are analyzed in order to discover both unique and common features. Special attention is given to the roles of invention and diffusion in the process of cultural change.

304—SOCIAL DEVIATION. The course attempts an analysis of the various theoretical positions in the sociology of deviant behavior, with emphasis upon such topics as the labeling of deviants and the multiple social consequences of that labeling, the analysis of deviant careers and deviant patterns of socialization, the roles of agents or agencies of social control, etc., as well as an analysis of the research implications of these theoretical issues.
SOCIology

305—SOCIAL PSYCHOLOGY. The study of the influence of group life on the personality development and social behavior of humans. Emphasis is placed on the interpersonal and intra-group origins of feelings, beliefs, attitudes, social controls, social roles, and social movements. (This course may be taken for Psychology credit.)

320—CRIMINOLOGY. A review and evaluation of theories regarding the causes of crime: biological, economic, associational, social psychological, and psychiatric. Consideration is given to both the actual amount of crime and the reported amount as influenced by community tolerance and the accuracy of police statistics. The problem of equality before the law, occasioned by importance of wealth, status, and influence in avoiding arrest and conviction is also treated. Moreover, the distinction between professional and non-professional criminals is clarified. Although crime is a serious problem, the purpose of the course is to show it in perspective as part of the broader problem of social disorganization.

321—THE TREATMENT OF DELINQUENTS: PUBLIC AGENCIES. There will be one late afternoon weekly class meeting at the Frank J. Lewis Downtown Center. An average of two hours a week must be reserved for visits and field trips to institutions. This course is designed to acquaint the student with public services and public programs available for the treatment of delinquents and the prevention of delinquency; law-enforcement agencies, custodial institutions, special schools, probation and parole systems, and youth commissions. Particular attention will be given to the assumptions, techniques, and procedures of these facilities.

325—SOCIALIZATION. This course attempts to synthesize relevant psychological and sociological perspectives concerning the process whereby neophytes acquire the values, beliefs, role expectations, etc. of a group, or a life style, into which they are being initiated.

330—HISTORY OF SOCIAL THOUGHT. Introduction to early social philosophers and "classical sociologists" concerned with man and society. Emphasis on non-Christian sources.

351—SOCIOLOGICAL THEORY. A critical survey of the attempts of various schools of sociological thinkers and individual sociologists to construct a theoretical framework that would organize sociological knowledge into an integrated scheme. The strengths and weaknesses of sociological theories patterned after those of physics, biology, and other sciences are especially considered.

368—COMPUTER PROGRAMMING. Principles of programming for large-scale digital computers including program planning, writing and debugging of programs in compiler and symbolic assembly languages. Emphasis on scientific applications; examples and problems will be adapted to the University's computer. (Equivalent to Mathematics 290.)

380—RESEARCH METHODS IN SOCIOLOGY I: A study of major pieces of research in several fields of sociology in order to gain understanding of the processes of selecting and formulating research problems, designing research plans, and collecting and interpreting relevant data. Attention will be given to the use of computers. Research is stressed as a creative process and as the principal means of expanding sociological knowledge. The student begins a project to be completed in Sociology 381.

381—RESEARCH METHODS IN SOCIOLOGY II: A continuation of Soc. 380.

390—SPECIAL TOPICS IN SOCIOLOGY. The intensive study of a selected specialized area in sociology, designed for a group of mature students. (Prerequisite: consent of Chairman.)

392—PRACTICUM IN DELINQUENCY PREVENTION. Observations of and active participation in the structuring and evaluating of community programs to prevent and reduce delinquency and crime. This is done under the guidance of experienced sociologists. Arrangements will be made with the heads of agencies. While weekly reports
will be required, the end product must be a high-grade overall written report and analysis.

COURSES FOR GRADUATE STUDENTS ONLY

401—ADVANCED SOCIAL RESEARCH METHODS. The relationship between social research and social theory. This is a detailed consideration of the methods, designs, and techniques appropriate to the study of sociological problems. Emphasis will be placed on the advanced methods of collection, treatment, and analysis of data.

402—CONTEMPORARY SOCIOLOGICAL THEORY. A study of the major theoretical issues in current sociology. Consideration will be given to systematic questions and topics with special emphasis on the most influential recent theorists.

405—CRIMINOLOGICAL THEORY. A study of the major theoretical problems and their application to research problems relating to criminal behavior, criminal law, and penology.

406—DELIQUENCY CONTROL: THEORY AND RESEARCH. The rationale of the course is that a theory of control implies a theory of causation of delinquency. A review of theories of causation comprises the first part of the course, followed by a discussion of systems of control. Visits to correctional institutions and a research paper are required.

407—SOCIOLOGY OF LAW. A comparative study of the legal systems of several societies and the social values they attempt to preserve and at times initiate.

408—SOCIAL DEVIANCY. The study of ideal and practical norms, patterns of norm-violating behavior, internal and external controls on deviation, and causal theories of deviance.

410—ADVANCED STATISTICS I. An introduction to sample spaces, random variables, distributions, and parametric statistics and sampling. (Same as Psychology 410.) (Prerequisite: 242 or equivalent.)

411—ADVANCED STATISTICS II. Point estimation procedures are developed for a variety of parameters. Interval estimation and hypothesis testing are compared. Linear regression, correlation, and analysis of variance are studied. (Same as Psychology 411.) (Prerequisite 410.)

413—SOCIOLOGY OF EDUCATION.

417—SOCIOLOGY OF RELIGION.

421—ADVANCED SOCIAL RESEARCH METHODS II. Continuation of 401, which is a prerequisite.

422—SOCIOLOGY OF YOUTH. A review and critical analysis of selected theoretical statements and empirical findings dealing with high school and college-age youth. The concepts of “generation,” “subculture,” and “counterculture” are central. The emphasis is on American youth, though some comparative material is included. While research on delinquents is outside the scope of the course, that on alienated, radical, and conforming types is not.

423—THEORY AND RESEARCH IN SOCIAL STRATIFICATION. A critical analysis of economic, political, and sociopsychological theories of social class.

424—SOCIAL AGENCIES. Designed primarily for prospective school psychologists, vocational and rehabilitation counselors, and community mental health personnel. Structure, functions, and programs of child welfare, family services, public health, special education, and social work facilities, medical and psychiatric services. Principles and methods of community organization, planning and action. 2 quarter hours.

425—INTERGROUP RELATIONS. The nature of minority groups and their problems.
Consideration will be given to the social and economic adjustments of racial, ethnic, and religious groups and to current proposals for the reduction of intergroup tensions.

426—DEVELOPMENT OF SOCIAL PHILOSOPHY. The study of the relation of thought about the nature of man and society to both conservative and revolutionary social movements. Selected ancient, medieval and modern social movements will be examined in terms of their social and political backgrounds and guiding ideas. (May be taken for Philosophy credit).

430—POPULATION TRENDS. The determinants and consequences of population growth. Special attention will be given to theories of population increase and evidences of overpopulation.

431—URBAN ANALYSIS. The historical and contemporary patterns in the structure and growth of cities. Emphasis will be placed on the relation between world urbanism and social change.

440—SPECIAL PROBLEMS IN CULTURAL ANTHROPOLOGY. Anthropology theories and their roles in the understanding of the structures of personalities, cultures and societies.

441—PHILOSOPHY OF CULTURE. Stresses the normative and ideational rather than the material aspect of culture. Selected primitive, folk, and industrial societies are compared for their systems and world views and the relation or lack of relation of these to socio-economic and political circumstances. (May be taken for Philosophy credit).

449—SOCIOLoGY OF PHILOSOPHY. A study of the socio-economic and political conditions associated with the rises and declines of major philosophical systems.

450—FORMAL ORGANIZATION. A consideration of important current problems faced in organizations and of selected theoretical and empirical studies related to them. Relevant literature in sociology, psychology, anthropology, and works by leading organizational theorists will be examined intensively. Organizational problems will be approached through case materials and reports of current research.

499—THESIS RESEARCH.

REV. JOHN P. WEISENGOFF

PURPOSE

The Department of Theology endeavors to continue the academic work of persons of scholarly competence toward the Master's degree in preparation for a teaching or research career.

IMPLEMENTATION

The department offers directed research, courses, seminars, symposia, and colloquia to guide and stimulate students in an investigation of different theological traditions and in a correlation of religious thought with other areas of human thought, such as sociology, philosophy and psychology. It also stresses faculty counseling so that the program of each student can be tailored to his particular needs. It has begun cooperative effort with other centers of theological learning in the Chicago area to provide the student with further resources for academic enrichment.

PREREQUISITES

Applicants for the Master of Arts program must have completed satisfactorily a major sequence in theology (or its equivalent). This sequence comprises a minimum of forty-eight quarter hours in theology courses. The chairman of the department will determine if a student has fulfilled the equivalent.

REQUIREMENTS

1. Completion of forty-eight quarter hours of graduate study, of which up to eight quarter hours may be applied to the thesis.
   a) Eight quarter hours (2 courses) must be taken in the area of Scripture; four quarter hours (1 course) in doctrinal history or systematic theology; four quarter hours (1 course) in religious ethics.
   b) In the allied field the student must take two of the following courses: Sociology 302 (Cultural Anthropology), Philosophy 365 (Philosophy of Religion), or Theology 345 (Social Dimension of Religion). He must also choose a seminar in the philosophy department on some philosopher pertinent to religious thought.
   c) Thesis. Students will register for Theology 499 for eight quarter hours credit.

2. One foreign language. Evidence of the candidate's reading knowledge of theological literature in German, French, Latin, Greek, Hebrew, or with special permission, any other language in which the thesis research will be conducted. (Application for this examination must be made before the completion of twenty quarter hours in course work, or by the end of the second quarter of full-time residency, whichever is later.)

3. A two part written comprehensive examination in the field of biblical studies, doctrinal history, systematic theology and religious ethics, each part taken for three hours.

4. A one hour oral examination constituting a "defense of the thesis."

510—MYTH AND WISDOM IN ANCIENT ISRAEL. An examination of the nature and function of myth as an understanding of reality with a survey of the principal myths of the ancient Near East. The presence of mythical mentality, mythical patterns
and myths in the Old Testament is discussed. In the second part the course studies the origin and nature of "wisdom," its object and literary forms. The characteristics and main topics of Israel's sapiential literature are studied. (Prerequisite: Theology 210.)

311—PROPHETS OF ANCIENT ISRAEL. An examination of the nature, forms, and function of Hebrew prophetism, taking into account the psychological data and theological validity of prophetic inspiration. The great personalities and the major themes of the prophetic movement such as monotheism, election of Israel, messianism, salvation, social justice, morality, and interpretation of history will be covered. (Prerequisite: Theology 210.)

315—THEOLOGICAL DIMENSIONS OF GENESIS. A study of the principal theological themes of the book of Genesis, chiefly of the first eleven chapters. Attention is given to the source material of the book, its relation to historical religion and its Christian relevance. (Prerequisite: Theology 210.)

323—MORALITY AND CHRISTIAN ECUMENISM. Through an examination of the sources of the ethical thought of the Roman Catholic and the Protestant churches (e.g. New Testament, St. Thomas, Luther and/or Calvin) and the study of contemporary literature such as the social encyclicals and Bonhoeffer, etc., this course will assist the student in finding the areas of agreement and disagreement between the two communities in understanding the theological bases for their respective stances and in assessing the possibilities of rapprochement between the two in this area.

325—PROBLEMS IN CHRISTIAN ETHICS. This course will involve the study of one or two concrete moral or ethical problems in an attempt to understand them and consider various solutions to them from the standpoint of Christian ethics. Problems to be considered will be selected from the following: Political participation and involvement; violence and Christian love; war; Christian economic responsibility; honesty and truth-telling; various aspects of sexuality.

326—SITUATION ETHICS: ITS PROMISE AND PROBLEMS. The theological and cultural roots of situation ethics, its successes and failures, and its prospects for the future.

330—THE GOD QUESTION. The meaning of "God" past and present, in Christianity and in other religions.

331—THE MYSTERY OF CHRIST. This course considers the mystery of Jesus as adumbrated in the messianic passages of the Old Testament and as proposed in the theological writings of the New Testament. An examination of the ante-Nicene thought is followed by the fifth and sixth century Christological controversies. The course closes with an assessment of the rationalist, liberal, historicist and form-critic attempts at a definitive Christology.

341—CULTURE AND RELIGION. An analysis of the meaning of culture and the relationship of religion to the building up of man's life-world. Themes: culture and man; myth and philosophy/theology; religion in existential and structural relations; urban religion.

342—THE THOUGHT OF TEILHARD DE CHARDIN. (May be applied to philosophy credit.) An expose of the major themes of Teilhard's thought and an evaluation of these in the light of their implicit philosophy and theology.

343—THE SOCIAL DIMENSION OF RELIGION. A study of the religious phenomena seen through the methodology of sociology.

344—MYTHS IN RELIGION AND POLITICS. Political science in a theological perspective.

345—THE THEOLOGY OF HISTORY. A study of representative viewpoints in the
DE PAUL UNIVERSITY

theology of history from ancient, medieval and modern times. An attempt is made to construct a theology of history consistent with the Biblical view of the God who acts supernaturally and redemptively in and through human society.

346—NINETEENTH CENTURY PROTESTANT THOUGHT. Selected Protestant religious thinkers analyzed and criticized in the context of their times.

347—TWENTIETH CENTURY PROTESTANT THOUGHT. Several leading figures in Protestant thought since World War I are studied, compared and contrasted, and criticized.

348—URBAN THEOLOGY. An investigation of the modes of the divine presence in the modern American city.

349—REFORMATION THEOLOGY. An investigation of the chief controversial points of 16th Century theology. The thought of Luther, Calvin, and Zwingli up to the beginnings of Protestant orthodoxy.

358—NEW TESTAMENT PROBLEMS. A study of the major problems associated with exegesis of the New Testament. (Prerequisite: Theology 211.)

369—OLD TESTAMENT PROBLEMS. A course designed to give the student a serious knowledge of the theory and practice of exegetical method. After learning the methodology of the Old Testament, traditions of early Israel, messianism, typology, etc., the student will be well prepared to work out critically similar problems alone or with little guidance. (Prerequisite: Theology 210.)

371—THEOLOGY AND PRAGMATISM. A study of the mutual influence between pragmatic philosophy and American religion.

401—GENESIS AND THE THEOLOGY OF HISTORY. Genesis is used as the principal outline for a study of the theology of history of the major Pentateuch sources (excluding the Deuteronomistic history).

402—DEUTERONOMIC THEOLOGY. The origins and emphasis of the Deuteronomistic theology as reflected in the Deuteronomistic history and editing of other Old Testament material.

403—ISRAELITE HISTORY BEFORE THE MONARCHY. The rise of the covenantal amphictyony and its theological implications in the context of its history.

404—FOUNDATIONS OF THE ISRAELITE MONARCHY. The historical and theological roots of Israel's coming to nationhood with a sacral monarchy.

405—SOCIAL JUSTICE AND PRE-EXILIC PROPHECY. A study of the prophesies of Amos, Hosea, Micah, Isaiah, and Jeremiah (selected passages), with emphasis on their social message and contemporary relevance. Questions of general prophetic theology and historical development are incorporated.

406—POST-EXILIC PROPHECY AND APOCALYPTIC LITERATURE. Apocalypticism and apocalyptic thought in the background of post-exilic history and prophetism.

407—PROBLEMS IN WISDOM BOOKS. Selected writings from the wisdom literature of the Old Testament and a study of the resultant contrasts and issues.

408—THEOLOGY OF THE PSALTER. Some of the more important theological themes that emerge from an historical and literary critical study of selected Psalms.

411—SEMINAR IN PROBLEMS IN MARK'S GOSPEL.

412—SEMINAR IN PROBLEMS IN MATTHEW'S GOSPEL.

413—THE PARABLES OF JESUS. An investigation of the original meaning of that section of teaching most decidedly pertaining to the historical Jesus. The modification of the teaching by the primitive Christian communities and its normative value.
THEOLOGY

414—THE RESURRECTION OF JESUS. By concentrating on the terminal chapters of the gospels, the opening chapters of Acts, and the ecstatic experiences of Paul and others in the primitive communities, the genesis of Easter faith is investigated and its meaning clarified for then and for now.

415—THE STRUCTURE AND THEOLOGY OF MARK. An analysis of the meaning and intention of Mark's gospel using the methods of redactional criticism. The theological vision of the evangelist is thus differentiated from the tradition.

416—CHRIST IN THE THEOLOGY OF ST. PAUL. Consideration of the names of Jesus in St. Paul; the work of Jesus according to Paul in his earthly lifetime, in the church, and at the parousia.

417—PRE-PAULINE CHRISTOLOGY. A study of the earliest Christological formulations recoverable from the tradition together with the use and adaptation made of them by Paul and other canonical writers.

418—JOHANNINE PROBLEMS. Some chief areas of concern in the study of the history and theology of the Fourth Gospel.

420—ANALOGY AND THE RECENT QUEST FOR THE HISTORICAL JESUS. The "quest" examined particularly in the light of the theological and epistemological presuppositions of the seekers.

422—THE SACRAMENTAL ENCOUNTER. A study of the psychological, sociological and theological elements of a sacramental system.

423—IMMANENCE AND TRANSCENDENCE. An examination of the two poles of theistic thought as seen in the Bible and in the history of Christian thought.

424—DYNAMICS OF DOCTRINAL CHANGE. A study of theories of doctrinal development.

425—THEOLOGY OF ESCHATOLOGY. Consideration of the questions involved in the ultimate reality, death, judgement, reward, and punishment.

426—THE PROBLEM OF DEATH. The problem of death will be studied in a number of its aspects and from several standpoints in order to ferret out significant theological structures, Biblical, historical, and contemporary views along with their relation to cultural contexts.

430—METHODOLOGY OF RELIGIOUS ETHICS. The "doing" of ethics from a religious or theological viewpoint involves problems not encountered in other methods of arriving at, defending and explaining moral judgments. It is these peculiarly religious difficulties — primarily of an epistemological and philosophical character — as they evidence themselves in both traditional and emerging styles of theological ethics which will be studied in this course.

431—RECENT DEVELOPMENT IN ROMAN CATHOLIC AND PROTESTANT ETHICS. As indicated by the title, this course will deal with what currently appear to be the most significant developments in recent Roman Catholic and Protestant ethics.

432—THEOLOGICAL ETHICS AND CONTEMPORARY PROBLEMS. The goal of this course will be the examination of the ways in which theological ethics have been and might be applied to some selected moral problems currently facing Christians in modern society.

115
DE PAUL UNIVERSITY

435—FAITH: SITUATION OR PSYCHOLOGICAL ATTITUDE? A re-examination of the meaning of faith as understood in ancient and contemporary times.

438—REVOLT AND REACTION IN THIRTEENTH CENTURY THEOLOGY. Theological change viewed in the context of thirteenth-century urbanization, cultural revolution, the influx of new scientific thought following the Spanish reconquista, etc.

441—THEOLOGICAL ANTHROPOLOGY. Some differing theological views of man will be studied in order to highlight leading themes and crucial areas such as imago dei, fall and original sin, body-soul language, etc.

448—SOCIOCRITICAL DIMENSION OF WISDOM IN BIBLICAL AND NON-BIBLICAL RELIGIONS. The "wisdom" tradition common to biblical and non-biblical religions studied as a sociological phenomenon.

451—THE CONSTANTINIAN ECCLESIOLOGY. Study of the impact on the structure of the church in practice and theory by its "emergence from the catacombs."

456—THE THEOLOGY OF THE EASTERN CHURCH. A study of the Eastern theological tradition before and after the division between Rome and Constantinople.

457—ISSUES IN REFORMATION THEOLOGY. An investigation of the theological elements leading to the Reformation and resulting from the Catholic-Protestant polemic.

461—SEMINAR IN THE SYSTEMATIC THOUGHT OF PAUL TILLICH.

462—SEMINAR IN THE THOUGHT OF ALFRED NORTH WHITEHEAD AND PROCESS THEOLOGY.

464—SEMINAR IN THE THOUGHT OF KARL BARTH.

468—SEMINAR IN THE THOUGHT OF KARL RAHNER.

499—THESIS RESEARCH (8 quarter hours).
