THE DOWNTOWN CENTER

Administrative offices, faculty offices, and classrooms for the College of Commerce, College of Law, DePaul College, the School of Education, the Graduate School, the College of Liberal Arts and Sciences, the School of Music, and the School for New Learning.

Executive offices: President, Vice President, Chancellor, Development, Public Relations, Admissions, Registrar, Financial Aids and Placement, Data Processing Center.

General and law libraries, chapel, bookstore, lounges and cafeteria.
ACCREDITATION

*DePaul University is accredited by:*
The North Central Association of Colleges and Secondary Schools
The National Council for Accreditation of Teacher Education
The National Association of Schools of Music
The American Chemical Society
The Association of American Law Schools
The American Association of Collegiate Schools of Business

*DePaul University is on the approved list of:*
The American Bar Association
The State Approval Agency for Veterans Training
The Illinois State Department of Education

*DePaul University is a member of:*
The Council of Graduate Schools in the United States
CALENDAR
OF THE GRADUATE SCHOOL
1973-1974

AUTUMN QUARTER

AUGUST 6-18     Monday-Saturday. Mail registration. Consult schedules for detailed instructions.
SEPTEMBER 6-7   Thursday-Friday. In-person registration for the Autumn Quarter.
SEPTEMBER 17    Monday. Autumn Quarter begins.
SEPTEMBER 17-18 Monday. Late registration and program changes.
SEPTEMBER 27    Thursday. Feast of St. Vincent DePaul. Special liturgical services on both campuses. Holiday celebration, October 8.
OCTOBER 6       Saturday. Final date for filing for February Convocation.
OCTOBER 8       Monday. St. Vincent Day celebration—no classes.
OCTOBER 13      Saturday. Last day to withdraw with an automatic "W" grade.
OCTOBER 15-20   Monday-Saturday. Mid-term examinations.
NOVEMBER 1      Thursday. Feast of All Saints, Holy Day. Special liturgical services on both campuses.
NOVEMBER 3      Saturday. Last day to withdraw from class.
NOVEMBER 9      Friday. Foreign language examination.
NOVEMBER 12-24  Monday-Saturday. Mail registration for the Winter Quarter.
NOVEMBER 22-24  Thursday-Saturday. Thanksgiving Holidays.
NOVEMBER 26    December 1
DECEMBER 1     Monday-Saturday. Final examinations for Autumn Quarter.
DECEMBER 1     Saturday. Autumn Quarter ends.

WINTER QUARTER

DECEMBER 10-11 Monday-Tuesday. In-person registration for the Winter Quarter.
JANUARY 3       Thursday. Winter Quarter begins.
JANUARY 3       Thursday. Late registration and program changes.
January 26  Saturday. Last day to withdraw with an automatic “W” grade.
January 31
February 6  Thursday-Wednesday. Mid-term examinations.
February 3  Sunday. Mid-year Convocation.
February 11-23  Monday-Saturday. Mail registration for the Spring Quarter.
February 16  Saturday. Last day to withdraw from class.
February 23  Saturday. Final date for filing for June Convocation.
March 11-16  Monday-Saturday. Final examinations for the Winter Quarter.
March 16  Saturday. Winter Quarter ends.

Spring Quarter
March 18-19  Monday-Tuesday. In-person registration for the Spring Quarter.
March 25  Monday. Spring Quarter begins.
March 25  Monday. Late registration and program changes.
April 11  Thursday. Easter Holidays begin after last class. Classes resume April 15.
April 20  Saturday. Last day to withdraw with an automatic “W” grade.
April 22-27  Monday-Saturday. Mid-term examinations.
May 11  Saturday. Last date to withdraw from class.
May 6-25  Monday-Saturday. Mail registration for 1st/2nd Summer Sessions.
May 23  Thursday. Feast of the Ascension, Holy Day. Special liturgical services on both campuses.
May 27  Monday. Memorial Day—No classes.
May 28
June 3  Tuesday-Monday. Final examinations for Spring Quarter.
June 3  Monday. Spring Quarter Ends.
June 9  Sunday. Convocation.
General Information about DePaul University

PURPOSE

DePaul University is founded on Judaic-Christian principles and continues to assert the contemporaneous relevance of these principles to higher education and the modern world. The University will express these principles especially by passing on the heritage of St. Vincent de Paul, which has as its purpose the perfection of the individual person through purposeful involvement with other persons, communities, and institutions.

The faculty, students, and administrators are mutually committed to the examination of truth for its intrinsic value, for the meaningful direction it provides for the person, and for its force in the continuum of civilization.

AIMS

1. To acquire, disseminate, and advance knowledge; to develop scholarly habits of mind; to foster greater understanding of the interrelationships of knowledge.

2. To pursue and direct learning that provides for a moral and aesthetic life, for a dedication to the service of other persons, and for responsible involvement in various communities and other institutions.

3. To engage in liberal and professional studies, and through cooperation with other agencies and persons, to marshal its resources so as to assist persons and the community in the life-long educational endeavors that are in harmony with the purpose and dignity of human living.
Administrative Officers and Staff

BOARD OF TRUSTEES

The Board of Trustees is the corporate head of DePaul University charged under its Charter to control and manage educational, fiscal, and all other affairs of the corporation. The President heads the General Administration of the University.

Buildings and Facilities

THE LINCOLN PARK CAMPUS

The Lincoln Park Campus of DePaul University is located in a residential area on the Near North Side of Chicago, approximately four miles from the Chicago Loop. Located here are the College of Liberal Arts and Sciences, the School of Education (day division), the DePaul College, and some divisions of the Graduate School. The principal buildings on this campus:

Alumni Hall (1956), a tri-level structure seating 5,240, providing a site for varsity athletics, graduation exercises, assemblies, lectures, concerts, social functions, and other extracurricular activities. Alumni Hall contains a gymnasium, exercise rooms, a swimming pool, handball courts and other athletic facilities, and houses classrooms and offices of the Department of Physical Education.

Arthur J. Schmitt Academic Center (1967), a five-story structure housing a library, classrooms, lecture halls, and faculty and administrative offices.

Liberal Arts Building (1925), a four-story building accommodating administrative offices, classrooms, a speech room, and a language laboratory.
THE GRADUATE SCHOOL

EDUCATION AND PSYCHOLOGY BUILDING, a four-story building housing activities of the School of Education and the Department of Psychology.

SCIENCE HALL EAST (1938), a three-story structure occupied by classrooms, laboratories, and offices of the Department of Biological Sciences and the Department of Chemistry.

SCIENCE HALL WEST, occupied by the Department of Physics and the experimental laboratories of the Department of Psychology.

MAIN RESIDENCE HALL (1970), a six-story structure accommodating single and double dormitory rooms, lounges, and study rooms. The residence hall houses male and female graduate and undergraduate students.

UNIVERSITY CENTER (1971), a three-story structure housing a cafeteria, rathskeller, faculty dining room, recreation facilities, bookstore, student organization offices, religious service area, lounges, conference rooms, art and crafts areas, and a president's dining room.

Other buildings on this campus include the University Church of St. Vincent de Paul, a faculty residence, the student publications and student activities building, the Lyceum Building, and the College Theatre.

THE DOWNTOWN CENTER

The Frank J. Lewis Center is a 17-story building conveniently located in Chicago's Loop on the southwest corner of Jackson Boulevard and Wabash Avenue. It houses the general administrative offices of the University, classrooms, libraries, a chapel, a 500-seat theatre, a cafeteria, and lounges. The College of Law, the College of Commerce, the School of Music, the School of Education (evening and graduate divisions), and the Graduate School are located in the Lewis Center.

23 East Jackson Boulevard is a 15-story Gothic structure connected to the Frank J. Lewis Center. Recently acquired, this building houses classrooms, faculty and administrative offices, and the Legal Clinic.

THE UNIVERSITY LIBRARIES

The combined library facilities of DePaul University include over 300,000 volumes, over 1800 periodical subscriptions, and extensive microcard and microfilm collections. Among the outstanding holdings are the Napoleonic and Irish collections, the Farthing Collection of Illinois Sessions and Statutes, and the antiquarian treasury of St. Thomas More's works.

The Lewis Center's second and third floors contain the Robert R. McCormick Memorial Library Collection, which is especially designed to serve the undergraduate and graduate programs using the Lewis Center campus. The Lower Arcade houses the current and bound periodical collections. Also in the Lewis Center is the Law Library, whose collections of legal works, current judicial reports, statutes, and professional journals occupy the seventh floor.

On the Lincoln Park Campus, the reserve reading room is situated on the second floor of the Schmidt Academic Center. The third floor houses the humanities and social sciences collections, and the fourth floor the natural sciences and periodical materials.

Supplementing the University collections are such scholarly and special libraries as the Newberry, John C. Heinz, Chicago Historical Society, International Relations, Municipal Reference, Art Institute, and many others. Information concerning their use may be obtained from the University Library staff.
Student Services

FINANCIAL AID FOR GRADUATE STUDENTS

GENERAL PROCEDURES

Graduate students seeking scholarships should apply directly to the Dean of the Graduate School, DePaul University, 25 East Jackson Blvd., Chicago, Illinois 60604. Applicants for loan programs or for employment other than teaching should contact the Office of Financial Aids and Placement, DePaul University, 25 East Jackson Blvd., Chicago, Illinois 60604. Students seeking any other form of financial aid (e.g. fellowships, assistantships, traineeships) should make preliminary application by letter to the chairman of their proposed major department, who will advise them on what further procedures must be followed.

Students applying for financial aid are advised that all credentials for admission to the Graduate School must be submitted to the Dean's office by February 15 prior to Autumn Quarter admission. Announcement of fellowship and scholarship awards will be made by April 1; the awards must be accepted or declined by April 15. Appointment to graduate assistantships may be made at any time, but applicants must again accept or decline by April 15.

Recipients of fellowships and scholarships are required to meet the conditions of full-time study as described elsewhere in this Bulletin. There are no duties of teaching or assisting expected in return for a fellowship, except in those departments where such requirements are established for all graduate students.

It is the policy of DePaul University to make financial aid award decisions without regard to race, creed, color, national origin, or sex.

FELLOWSHIPS

DePaul University Fellowships. Each year DePaul University awards several University Fellowships on the basis of high scholarly promise or achievement. The DePaul University Fellowship is a tax-exempt gift that provides a cash stipend ranging from $2000 to $2500 and a tuition scholarship. The award is for an academic year, renewable by re-application if the Fellow shows satisfactory progress in his graduate work. A DePaul University Fellowship does not entail a teaching or assisting requirement except as noted above.

DePaul University Tutorial Fellowships. A limited number of these appointments are available to doctoral students and provide a cash stipend as well as a tuition scholarship. Tutorial Fellows are given the opportunity to assist in teaching at the collegiate
THE GRADUATE SCHOOL

level in areas which will most benefit them as they prepare for a career in college or university teaching.

Arthur J. Schmitt Fellowships are of two types. The first is a one-year fellowship available to students who have graduated from DePaul University, awarded to full-time graduate students working for the doctorate in any academic field. A stipend of up to $3500 is granted. There is no service requirement under the fellowship. Recipients of this type of fellowship pay their own tuition and fees.

The second type is awarded to exceptionally promising new graduate assistants, in lieu of their assistantship. The fellow's stipend and duties are substantially the same as under a graduate assistantship. This type of fellowship includes a tuition waiver.

Federal Fellowships. The National Science Foundation and the National Institutes of Health award a number of fellowships upon direct application to the appropriate office. National Science Foundation Fellowships are available in physical sciences, biological sciences, geography, non-clinical psychology, sociology, economics, political science, and interdisciplinary scientific areas. Application for an NSF Predoctoral Fellowship must be made directly to the National Science Research Council, Washington, D.C. 20025, before December for students seeking a fellowship for the following academic year.

For NIH fellowships, in the fields of medical and allied health sciences (biological sciences, chemistry, psychology), students must apply directly to the Career Development Review Branch, National Institutes of Health, Division of Research Grants, Bethesda, Maryland 20014. Applications are reviewed three times a year; awards are made for a one-year period and are usually renewed upon satisfactory performance of work toward the doctorate.

Stipends for both these fellowships are graduated from the first year to the terminal year, averaging approximately $2500. The NSF and NIH fellowships also include tuition costs.

Predoctoral Thesis Awards. These awards are available for support usually during the dissertation year. Contact Associate Vice President, Sponsored Programs and Projects, 2325 North Seminary Avenue, Chicago, Illinois 60611.

Howard V. Phalin Fellowship. This fellowship is a tax-exempt gift of $5,000 made by the Howard V. Phalin Foundation for Graduate Study for support during the dissertation year. The fellow pays his own tuition and fees, and is expected to devote full time to research on his dissertation during the fellowship year.

SCHOLARSHIPS

University Scholarships. DePaul University annually awards a number of scholarships through a special fund granted to the Dean of the Graduate School. These scholarships cover the full or partial cost of tuition. Students under scholarships are expected to pay registration, laboratory, dissertation, and other fees. University Scholarships are granted to qualified students and are administered by the Student Assistance Committee of the Graduate Council. Scholarships are awarded each year and may be renewed annually by students showing satisfactory progress in graduate work. These scholarships are for citizens of the United States and for qualified foreign students.

Sidney R. Hepburn Scholarship in Biology. This scholarship has been established by the Blue M Electric Company and is available to assist students in extra-University Academic endeavors.

Price-Waterhouse Foundation Award. This award is a tax-exempt gift of $1000 to a student or students interested in the teaching of Accountancy at the collegiate level. The faculty of the Department of Accountancy selects the recipient.

ASSISTANTSHIPS, TRAINEESHIPS, AND OTHER AID FOR GRADUATE STUDY

Graduate Teaching Assistantships. The University provides a number of graduate teaching assistantships offering a cash stipend and a tuition waiver. Application for an
DE PAUL UNIVERSITY

assistantship should be made directly to the chairman of the department in which the student plans graduate study.

Traineeships. The University has a number of traineeships which are available in many departments. These are supported by the National Science Foundation, the National Institutes of Health, the National Defense Education Act, and the Social Rehabilitation Administration. They are as follows:

The Department of Psychology makes available to graduate students a number of traineeships in its program in Rehabilitation Counseling. These traineeships are funded under the Social Rehabilitation Administration through a grant awarded to the University. Graduate students on SRA traineeships must be full-time students and may accept no other appointment or employment. The trainee receives a stipend of approximately $2000 for the academic year, plus cost of tuition and fees. Apply to Chairman, Department of Psychology.

School Psychology. Students interested in school psychology may apply to the Department of Psychology for a Fellowship in School Psychology. A limited number of such fellowships are provided by the Illinois State Department of Special Education. These fellowships provide a stipend of approximately $2000 for the academic year plus cost of tuition and fees.

Students in clinical psychology are eligible to apply to the Department of Psychology for a Mental Health Traineeship. These traineeships are awarded to students who have completed at least two quarters of graduate work and pay a stipend of approximately $2700 for the academic year plus the cost of tuition. Trainees are assigned to the University Mental Health Clinic on a half-time basis.

The Department of Management makes available to graduate students a limited number of traineeships in its program in the Management of Rehabilitation Services. These traineeships are funded under SRA through a grant awarded to the University. Graduate students appointed as trainees may accept no other appointment or employment. A trainee receives a stipend of approximately $400 per month (plus a monthly allowance for each dependent) for the academic year, plus cost of tuition and fees. Apply to Chairman, Department of Management.

The Department of Nursing offers a number of Public Health Service Traineeships. These provide monthly stipends and a tuition allowance for each quarter registered. Applicants should apply to the Chairman of the Department of Nursing. Special federal scholarships, which do not require any specific academic standing, are available to full-time students who can show exceptional financial need. Maximum awards are $1500. Applicants for traineeships should apply to the Department of Nursing and for the federal scholarships to the Office of Financial Aids & Placement.

U. S. Army Corps of Engineers, Graduate Associates. Through a cooperative program with the Corps of Engineers, graduate students whose research is in the area of the aquatic sciences, economics, sociology, and mathematics may carry on their thesis or dissertation research with support from the Corps of Engineers through the Graduate Associate Program. These appointments, in general, provide support during the last year of graduate study; research is under the direction of a DePaul University faculty member. The student incurs no commitment to the Corps of Engineers subsequent to the year of research support. Students must be citizens of the United States to be eligible for this program. Apply to Associate Vice President, Sponsored Programs and Projects.

Research Assistantships. Research assistantships are available in the natural sciences and psychology. Remuneration for these appointments ranges from about $1600 to about $2000 and the work undertaken is usually in the student's research area. Inquiries concerning such assistantships should be made directly to the individual department in which the student is studying. These awards include a tuition scholarship.
GRANTS

Law Enforcement Educational Grants. These grants are awarded to full-time officers of local, State, or Federal law enforcement agencies to encourage them to upgrade their educational levels and to enhance their skills and capabilities for effective law enforcement service. Payments are not to exceed $200 per academic quarter for tuition and fees only. No proof of financial need is required.

Part-time and full-time students at both the Undergraduate and Graduate levels are eligible.

The grants are not to be repaid unless the recipient fails to abide by an agreement to remain in the service of his employing law enforcement agency for two years after completing any course funded by the program. If the agreement is not fulfilled, any and all grants are automatically converted to a loan repaid at the rate of 7 percent simple interest per annum on the unpaid balance in regular quarterly payments at a minimum of $50 per month.

STUDENT LOANS

National Direct Student Loans. This program is co-sponsored by the Federal Government and DePaul University. A graduate student, either full or half-time, may borrow up to a total not exceeding $10,000 for both the undergraduate and graduate years. The exact amount depends upon an evaluation of financial need and the availability of funds. The repayment period (up to 10 years) and the interest (8%) do not begin until nine months after the student is enrolled at least half-time. The minimum amount repayable is at a rate of $30 monthly and is payable quarterly.

A borrower may receive partial cancellations for each completed year of service described below:

(a) as a full-time teacher in a public or other non-profit elementary or secondary school located in an area officially designated as a poverty area.
(b) as a full-time staff member in a preschool program popularly known as "Head Start."
(c) as a full-time teacher of handicapped children in a public or other non-profit elementary school or secondary school.
(d) as a member of the Armed Forces of the United States providing the person qualified for special pay because of service in an officially designated combat area.

The percent of the loan plus interest which shall be cancelled varies according to the type of service rendered and ranges from 12½% per year to 30% per year.

Nursing Student Loan Program. Students, either full or half-time, who are pursuing a course of study in Nursing are required to borrow under this program rather than the National Direct Student Loan. Loans up to a maximum of $2,500 per year, depending on need and funds available, may be granted for any academic year. The maximum amount for all years of study is $10,000. Repayment of loans begins 9 months after the borrower ceases to be a half-time student and are payable over a 10 year period. The rate of interest is 8%.

Deferment of payments may be obtained for up to three years for active duty in the armed forces or as a volunteer in the Peace Corps. Deferment may also be granted for a period of up to 5 years for further study on at least a half-time basis.

Cancellation of parts of the loan plus interest may be obtained for each year of completed employment as a professional nurse in any public or non-profit private agency, institution, or organization (including neighborhood health centers) at the rate of 15 percent a year for the first three years and 20 percent for the next two years up to a maximum of 85% of the loan plus interest.
DE PAUL UNIVERSITY

Nurses who enter practice in an officially approved area where there is a shortage of nurses may receive cancellations of all educational loans plus interest at the rate of 30 percent a year for the first two years and 25 percent for the third year. This allows a cancellation maximum of 85%.

Illinois State Guaranteed Loan. Students who are legal residents of Illinois may be considered for a loan under this program through a commercial lender.

Amounts to be loaned are based upon the financial need of the student after consideration of: (1) the student's educational expenses and (2) all resources available to the student to offset these expenses including other financial aid awards.

Maximum loans are $2500 per year for graduate study at 7% simple interest. Combined loans for undergraduate & graduate study may not exceed $10,000.

Payments of interest by the federal government while the student is in school are available to students who demonstrate financial need. Students who do not qualify for this benefit may obtain a loan from the program but would be responsible for the accumulating interest even while a full-time student. A Financial Aid Counselor may be consulted for details.

Repayment of the loan at the rate of $30 per month minimum begins 9 months after cessation of full-time study. The entire loan must be repaid within 10 years from this date. However, deferment of payment is granted for service in the Armed Forces, Peace Corps, or Vista, or if the borrower returns to an officially approved status as a full-time student.

Federally Insured Loans. Students who are legal residents of States other than Illinois may borrow under the terms of a federally insured loan program in their own State. Inquiry should be made of their own State government or of their family bank or savings and loan association if the latter participate in the program as lenders. Provisions and terms are essentially the same as for the Illinois State Guaranteed Loan Program. However, each State has the authority to make some modification. If a student for some reason cannot obtain a loan under any State program, application may be made directly to the federal government in exceptional cases.

EMPLOYMENT OPPORTUNITIES

College Work Study Program. Full-time and half-time graduate students who can demonstrate financial need may apply for part-time and/or summer employment under this program, which is co-sponsored by the Federal Government and DePaul University. Students may work (mostly on campus) up to 15 hours weekly while attending classes and up to 40 hours weekly when no classes are scheduled. The basic pay range is from $2.00 to $3.50 per hour for Graduate School students depending upon the job classification. The student's earnings cannot exceed his need. Application should be made to the Office of Financial Aids and Placement.

Other Part-Time Employment. Part-time and summer jobs both on and off campus are available for student through the services of the Office of Financial Aids and Placement. Rates of pay for graduate students are from $2.50 to $3.00 or more per hour. The location of the University in a metropolitan area contributes greatly to the number and variety of opportunities for employment. In addition, the University itself can offer posi-
tions to students. After students have registered for their classes, the Office of Financial Aids and Placement will assist them in finding jobs. No proof of need is necessary to qualify for this service.

**HEALTH INSURANCE**

Accident and health group insurance is offered on a voluntary basis to full-time graduate students under 30 years of age. The application forms may be secured from the offices of the Student Health Service on the Lincoln Park Campus or in the Lewis Center.

**PLACEMENT SERVICES**

The University has two offices offering placement services to students and graduates of the Graduate School. Those seeking either part-time or full-time employment in business or government should apply to the Office of Financial Aids and Placement in Room 1730 of the Lewis Center. Those who wish employment in teaching and other positions in education should apply to the Teacher Placement Office in Rooms 575-576 of the Schmitt Academic Center. Both offices sponsor on-campus interview programs and also provide service for alumni.

**HOUSING**

The University offers on-campus housing for graduate and undergraduate men and women. A new multi-story residence hall offers single and double occupancy rooms attractively furnished. The residence hall is conveniently located near the Schmitt Academic Center classroom and library building. Food service is available in the nearby University Center. Housing applications should be directed to the Director of Housing, DePaul University, 2312 North Clifton, Chicago, Illinois 60614. A list of available off-campus apartments and rooms may also be examined in the office of the Director of Housing.

*Residence Hall*
The coat of arms of DePaul University has the following symbolic significance:

The main section of the field, consisting of a series of nine check panes (a distinctly French charge), forms one of the hundreds of heraldic crosses and is used in this instance as a representation of the cross of the Catholic faith. In the center pane is the heart, symbolic of charity for St. Vincent de Paul, the titular of the University. By his heroic lifetime of service to God and humanity and his establishment of the Congregation of the Mission (the Vincentian Fathers who administer DePaul) and the Daughters of Charity, St. Vincent de Paul has become the international symbol of charity. The pane above the heart is charged with a crescent, the symbol of Mary under the title of the Immaculate Conception, under which she is patroness of the United States.

The chief (upper compartment) is devoted to the coat of arms of Modern France, the country of St. Vincent de Paul, with its three fleurs-de-lis honoring the Triune God. The embattled lines of partition at the base of the chief, the heraldic equivalent of a fosse, betoken Fort Dearborn, established by the United States on the site of Chicago—just a short distance from the present downtown DePaul center. The phoenix on the crest, the symbol of immortality of the Resurrection, is derived from the seal of the Archdiocese of Chicago, wherein it betokens the resurrection of Chicago after the great fire.

The motto of DePaul University, "Viam Sapientiae Monstrobo Tibi" (Proverbs iv. II), is translated "I will show you the way of wisdom."

The Graduate School

PURPOSE

The purpose of the Graduate School is the advancement of scholarship through the discovery and transmission of knowledge.

The direct educational task of the Graduate School is to refine in its faculty, and to foster in its students, those habits of scholarliness that are consequent to advanced studies and research. For faculty to be engaged in advanced studies and research stimulates their professional growth and elevates the level of their expectations. For students, the Graduate School offers opportunity to continue their studies at advanced levels in structured programs. Programs for graduate degrees are designed to develop in graduate students a broad and deep knowledge of their chosen discipline, the discipline's research methodology; or to educate them to the skills and competencies necessary for advancement in their professional careers.

In addition to the faculty and student centered purposes of the Graduate School are its University and community service objectives. The Graduate School augments the strength of the undergraduate colleges and most noticeably because the faculty enrichment the Graduate School occasions necessarily redounds to the advantage of the undergraduate students. Through the steady flow of its graduates into the community the Graduate School helps to meet contemporary society's acknowledged need for the kind of advanced scholarliness, the knowledges, the skills and the competencies that are the fruit of graduate study and research.
THE GRADUATE SCHOOL

OFFICE

The Office of the Graduate School is on the ninth floor of the Frank J. Lewis Center, 25 East Jackson Boulevard, Chicago, Illinois 60604. Phone: WE 9-3525, Ext. 361/362. All business in regard to graduate study in arts and sciences or professional education, as well as business in regard to graduate study in the School of Music, is transacted through this office. The office is open from 9:00 a.m.-7:30 p.m. Monday through Friday, and 9:00 a.m.-12:45 p.m. on Saturday, during the regular academic year.

STUDENT RESPONSIBILITY

This section includes information relative to admission policies and procedures, and degree requirements applicable generally to all graduate degree programs. In the following departmental and divisional sections of this bulletin, additional and particular criteria established by the departments are stated. (There are separate bulletins and application forms for degree programs in business, law, and music.) The student assumes the responsibility to know and meet both the general and the particular regulations and procedures set forth in this bulletin.

QUALIFICATIONS FOR ADMISSION TO THE GRADUATE SCHOOL

The first charter of DePaul University included a statement regarding nondiscrimination. This policy, enunciated approximately 75 years ago, has been enforced vigorously over the years. Students, faculty, and the public are entitled to equal treatment regardless of race, creed, or color. It is the policy of the Graduate Council to make admissions decisions without reference to the race, color, religion, national origin, or sex of the candidate.

Students are admitted upon providing evidence of the ability to complete the programs of study and research prescribed for the advanced degrees the University confers. The Graduate School offers programs of study leading to the Ph.D. in biological sciences, philosophy, and psychology, as well as a wide variety of master's degree programs in arts and sciences, professional education, business, and music.

Applicants with less than 135 quarter hours (or 90 semester hours) in academic subjects are not eligible for full admission to graduate programs.

Evidence of the potential to engage in graduate studies is the sum of many factors: educational, personal, motivational, and others. The Graduate Council establishes only the broad criteria to qualify for admission.

In accord with these qualifications and circumstances students are admitted to the Graduate School in one of the three following categories.

For FULL ADMISSION the criteria are
1) To have received the bachelor's degree conferred by an accredited institution;
2) Scholastic achievement in one's undergraduate studies indicating a capacity to pursue successfully a program of graduate study.

These are minimum requirements for full admission to graduate programs. See the departmental sections of this bulletin for additional, more specific, and more selective admission criteria.

UNCLASSIFIED STUDENTS. The Graduate Council authorizes the Dean of the Graduate School, at his discretion, to admit as UNCLASSIFIED students those applicants who do not clearly meet the requirements for full admission. Students admitted as unclassified students are eligible for classification to full admission when requirements for full admission are satisfied. The department of the student's major may recommend that courses completed by an unclassified student be counted toward fulfillment of degree requirements.

STUDENT-AT-LARGE. The Graduate School admits as a Student-at-large a graduate student completing a graduate program in an accredited institution upon the recommendation in writing of his own graduate dean.
Seniors in any of the undergraduate colleges of De Paul University are eligible for full admission upon the recommendation of the faculty of the department and certification by the undergraduate dean of completed and uncompleted requirements for the bachelor's degree.

The Graduate Council does not, as a matter of policy, require Graduate Record or other national examination scores as conditions for admission to the Graduate School. It does recommend that such scores be submitted if available. Applicants for admission should note that the submission of Graduate Record or other national examination scores is often a departmental requirement for admission to the graduate programs of that department.

PROCEDURES FOR APPLICATION FOR ADMISSION TO THE GRADUATE SCHOOL

Students interested in advanced study beyond the bachelor's degree are invited to write the Director of Graduate Admissions, DePaul University, Room 924, 25 E. Jackson Blvd., Chicago, Illinois 60604, to secure application forms. Since the composition of the "application packet" varies from department to department, please include your proposed major field of study in the letter.

The complete application form and all supporting credentials shall be submitted to the Director of Graduate Admissions at least eight weeks prior to the first enrollment for a doctoral program; and at least four weeks prior to the first enrollment for a master's program. If the applicant intends to apply for financial aid, the application and all supporting credentials shall be submitted to the Director of Graduate Admissions before February 1. Announcement of most awards is made by April 1. In accord with the policy of the Council of Graduate Schools of the United States, a recipient must accept or decline the award prior to April 15 at his discretion.

Since there is frequently a delay in the forwarding of transcripts, applicants are well advised to initiate the application procedures as early as possible.

A non-refundable fee of $15.00 (check or money order payable to De Paul University) must be included with the application form when it is submitted.

Applicants for admission to the Graduate School shall submit, IN DUPLICATE, OFFICIAL transcripts of their academic records at ALL colleges and universities attended. Applicants should advise the registrar's office to forward these official transcripts to the Director of Graduate Admissions, Graduate School, De Paul University, 25 East Jackson Boulevard, Chicago, Illinois 60604. The application for admission cannot be reviewed until all transcripts have been received in the Graduate School Office.

Some departments require the submission of Graduate Record Scores (or the scores of other national examinations) and/or letters of recommendation. See the specific admission requirements in the departmental sections of this bulletin.

Students-at-large shall complete the form for admission to the Graduate School. The supporting credential is a letter from the Dean of the Graduate School where the student is in good standing. This letter should state at least in general terms what course or courses the student-at-large is authorized to take.

A senior in any of the undergraduate colleges of De Paul University shall complete the form for admission to the Graduate School. He should request the Registrar to forward his transcript to the Director of Graduate Admissions. The supporting credentials are a statement from his Dean of completed and uncompleted degree requirements and a recommendation from the faculty of his major department.

De Paul University is an approved institute for veteran training. Veterans who wish to avail themselves of the benefit provided by various public laws upon admission should consult the Registrar.

The Dean of the Graduate School notifies by letter each applicant of his admission to the Graduate School. This letter of admission will include a statement of any conditions
that may have been recommended. Admission is granted for a specific term and year. If
the student does not enroll in that term, admission is canceled, and he must apply on
the appropriate form for re-admission to a later term. An applicant admitted to a Ph.D.
program is required to pay a non-refundable deposit of $25.00 applicable to his account
in the term to which he has been admitted.

It is the policy of the Graduate School that no student be allowed to register for
courses until his admission to the Graduate School is authenticated by the letter of ad-
imission from the Dean of the Graduate School. The Dean of the Graduate School is au-
thorized to waive this requirement when, in his judgment, circumstances warrant the
exception.

READMISSION

Any student previously enrolled in the Graduate School who has not been in at-
tendance for a period of four consecutive quarters or longer shall secure an appli-
cation for readmission from the Office of the Director of Graduate Admissions. At least
three weeks prior to the day of registration for the quarter in which the student expects
to resume his studies, this form should be completed and returned to the Office of the
Director of Graduate Admissions. A transcript recording any scholastic work taken while
not enrolled at De Paul University should be included. As a general rule students are
held to degree requirements that obtain at the time of re-admission.

New students are admitted for a specified quarter in the calendar year. An applicant
who does not enroll in that quarter shall secure an application for readmission from the
Director of Graduate Admissions. At least three weeks prior to the day of registration for
the quarter in which he expects to enroll, this form should be completed and returned to
the Office of the Director of Graduate Admissions.

ADMISSION PROCEDURE FOR INTERNATIONAL STUDENTS

All foreign students and any student who has been educated outside of the 50 United
States should call or write for application materials and general admission information to:

International Adviser
DePaul University
25 E. Jackson
Chicago, Illinois 60604

The application deadlines for all students with foreign education are: for the Autumn
quarter, June 1; Winter, October 1; Spring, January 1; and Summer, April 1. In order to
be admitted all students will have to meet certain academic requirements. Those who wish
to obtain or are holding student visas, will have to demonstrate English proficiency
through examination and submit affidavits of support. Students with permanent resident
or immigrant visas will also have to demonstrate English proficiency. A formal letter of
admission and/or the form I-20 will be issued only after all admission requirements are
fulfilled.

ADMISSION TO CANDIDACY FOR A DEGREE

Admission to study in the Graduate School is distinct from admission to candidacy
for a degree. See the statement on admission to candidacy in this bulletin in the section
on the Ph.D., and also in departmental sections.

ACADEMIC COUNSELING

Graduate study differs significantly from undergraduate study in the amount of in-
dividual attention faculty give to students. Paradoxically, this frequent consultation of
faculty with student enables the student to exercise considerable initiative and to engage
in a large measure of independent study. As a result, the purposes of his graduate studies
are more closely adapted to his personal capacities and needs. The individualized, skillful
direction of faculty makes the graduate program more challenging.
Graduate students are encouraged to seek out this opportunity for individualized attention. Faculty members establish their office hours for student consultation and students are expected to make appointments with their professors to ensure that they receive individual attention in an orderly and unhurried manner.

REGISTRATION FOR COURSES

1) The forms for registration for courses are available in the Office of the Graduate School. Registration dates for every quarter are listed in the calendar. Students will follow the alphabetical schedule noted in the calendar. Graduate students may register by mail during the period so designated in the calendar.

2) Schedules of the courses to be offered, together with the day and time of class meetings are published at least four weeks before a registration date. From this schedule the student plans the program of studies for which he intends to register. To facilitate pre-registration counseling with faculty advisors, students are encouraged to secure the registration forms at least two weeks prior to registration.

3) The Office of the Graduate School will not accept a registration form that has not been approved and signed by a faculty advisor. Unclassified students who have no assigned faculty advisors will have the registration form signed by a faculty member of the department in which they plan to register.

4) While a graduate student is able to register for courses offered in other Colleges of the University, he always returns his registration to the Office of the Graduate School.

5) Whether in residence or not, all regular graduate students who will use the facilities (e.g., library, laboratory, etc.) of the University, or who will consult with faculty regarding theses or examinations shall be registered in each quarter. Graduate students completing a master's degree with thesis, register in the departmental thesis research course for a total of eight quarter hours applicable to the degree.

6) A doctoral candidate who has been admitted to candidacy for the Ph.D. must maintain his registration in the University in every quarter of the academic year until the degree requirements have been completed. DCC 698, Resident Candidacy Continuation, 0 hours credit, provides for all doctoral candidates who have completed all course and dissertation research registration requirements, but who are regularly using the facilities of the University for study and research. A fee of $192.00 per quarter is charged for this registration. Students in this category retain full-time status. Laboratory fees, where applicable, will also be assessed. DCC 699, Non-Resident Candidacy Continuation, 0 hours credit, provides for those who are not in residence and need only occasional use of University facilities including the libraries. A fee of $25.00 per quarter is charged for this registration.

7) Graduate students are advised to undertake no more employment than is reasonably compatible with their proposed graduate studies in any given quarter. For students fully employed registration for two courses in a quarter is generally the maximum.

8) No one is permitted to attend a class for which he has not been properly registered. Registration is not complete until financial arrangements are completed.

9) The right is reserved to cancel any course, revise subject matter content, or alter schedules.

GRADUATION

Attendance at graduation exercises is required of all students eligible for a degree, unless they are excused by the Dean. In seeking permission to graduate in absentia, the student must present valid reasons for his absence in a letter to the Dean at least three weeks previous to the convocation. The student who fails to obtain the necessary permission must wait for the next convocation to receive his degree. Those with permission to graduate in absentia should make arrangements for the mailing of their diplomas.
INTER-AND/OR CROSS DISCIPLINARY STUDIES

Increasingly in the years ahead, the Graduate Council anticipates the need to offer graduate students the opportunity to participate in graduate programs which are cross-disciplinary. Research on problems identified as environmental problems, pollution problems, social problems, etc., requires specialists from several domains of knowledge to work together as a team. The Graduate Council wishes to stimulate graduate students in groups or even singly to propose programs that will combine two or more of the traditional disciplines. Faculty advisors are prepared to explore with prospective graduate students the opportunities available for cross-disciplinary programs.

THE MASTER'S DEGREE

For the Master's degree most programs of graduate studies require forty-eight quarter hours. Where the program includes a thesis, up to a maximum of eight quarter hours of registration in Thesis Research will be counted as credit toward the degree. It is the policy of the Graduate Council to allow no credit by transfer in degree programs leading to the Master's degree. The Council authorizes the Dean of the Graduate School to make exceptions to this policy when, in the judgment of the circumstances, the student has justified exceptional. The student will receive a statement of the specific degree requirements in the departmental sections of this bulletin.

The Graduate Council encourages students to complete graduate study within a six-year period or less. In those cases where a student fails to finish before the end of the sixth year, the Department may recommend an extension of time with or without additional courses, examinations, or other conditions.

COURSES, CREDIT AND GRADERS

The courses numbered 300 to 399 inclusive are advanced undergraduate courses which are normally taken in the junior and senior year. If they are listed in this bulletin, they may be accepted for graduate credit within the limitation stipulated by the departments of the Graduate School. Courses numbered 400 and over are graduate courses.

All courses carry four quarter hours credit unless otherwise indicated.

Graduate students are expected to maintain a higher level of academic achievement than undergraduate students. A grade of B or C grade, will be acceptable in no more than half the graduate courses, those numbered 400 and over, completed in the major and minor sequence. Advanced graduate courses, those numbered 300 to 399, must have a grade of A or B if they are to receive graduate credit.

A grade indicates exceptional achievement.

B grade indicates superior achievement, the minimum expected of graduate students in advanced undergraduate courses.

C grade indicates basic achievement.

D grade indicates achievement unacceptable for graduate credit.

F grade indicates failure.

FX grade indicates excessive absences or unauthorized withdrawal.

Inc grade indicates the student has not completed all the requirements for a given course by the end of the term. An incomplete may be removed and credit given for the course.

P grade indicates pass. Given in courses taken on a pass/fail basis.

W grade indicates withdrawal from a course at a time in which the student was doing passing work, or before the quality of the work could be determined. If the student was doing unacceptable work at the time of withdrawal, F is given.

R grade indicates thesis research not completed at the end of the term.

DEGREE CANDIDACY

The Master's degree program of some departments of the Graduate School includes admission to candidacy. See the departmental sections of this bulletin regarding this requirement.
LANGUAGE REQUIREMENTS

Each department, with the approval of the Graduate Council, makes such language or allied requirements as the student's program and research may demand. Such requirements are stated in the departmental sections of this bulletin.

MASTER'S THESIS

DePaul offers the master's degree both with and without the thesis. A thesis is always required for the Master of Arts degree offered through the following departments: education, philosophy, psychology, sociology, and theology. The following departments offer the master's degree with the thesis but allow the student to substitute in its place some additional work, additional courses and often a paper: economics, education, English, history, music, and physics. A thesis is never required for the degree Master of Business Administration. In English and music the student may substitute a creative composition for the thesis. A thesis is always required for the M.S. in Biology.

The thesis topic is limited to the student's field of specialization and should offer satisfactory evidence of having scholarly research possibilities. After degree candidacy has been granted and graduate research courses completed, the student must present the topic to the graduate committee of his department of specialization for approval. At the time of presentation the student should have a clear concept of the nature of the thesis problem, the possibilities for making the investigation, and the technique to be used. The graduate committee may require the student to make some preliminary investigation to test the availability of sources.

The student is advised to consult the office of the Graduate School for information regarding the required form and type of paper to be used for the thesis. Responsibility for fulfilling these requirements lies with the student, not the typist.

When completed, the thesis is submitted to the director for consideration. Whatever changes or additions are necessary must be made by the final date of acceptance, or the student will not be permitted to graduate until a subsequent convocation. The thesis having been found satisfactory, three typed copies of it must be filed in the office of the Graduate School by a given date. These final copies will not be accepted until a week before the dates indicated below.

</tr>
</tbody>
</table>

PAPER ON APPROVED TOPIC

The type and length of the paper is determined by the departments that list this as a requirement for certain master's degrees. The purpose of the paper is to give evidence of the student's ability to find, select, interpret, and organize material in an acceptable manner.

The student's choice of a paper topic is to be approved by his department. The paper is to follow the form approved for thesis, and must be submitted within two months after the approval of the topic. Only one copy of the paper need be presented to
the student's major department in a quarter previous to the quarter of the student's graduation.

COMPREHENSIVE EXAMINATIONS

A student is eligible for his final comprehensive examinations only after all the other degree requirements have been completed. The type and subject matter of these examinations follow the regulations established in the various departments of the Graduate School.

The student makes application for this examination through the Graduate office no later than October 1 for the February Convocation and February 1 for the June Convocation. If the student does not pass the examination, the Dean may grant permission for another examination on the recommendation of the department of the student's major field. This examination may not be repeated until after the next convocation, nor may the examination be taken more than twice.

GRADUATION

The Master's degree "with distinction" is conferred upon candidates who have achieved exceptional scholastic proficiency in course requirements, research, and final written or oral comprehensive examinations.

THE DOCTOR OF PHILOSOPHY DEGREE

The Doctor of Philosophy is the highest academic degree that DePaul University confers. It symbolizes that the recipient has demonstrated objectively his proficiency in some broad area of learning as well as his potential to explore and advance that field of knowledge by independent scholarly research. To the extent that diversity of educational experience rather than uniformity fosters growth in scholarliness, statements of degree requirements are inherently minimal and approximate. The Graduate Council approves the following requirements which reflect the Council's intent both to maintain quality and to preclude arbitrariness. The requirements stated below are the minimum requirements for all candidates for the Doctor of Philosophy degree. Additional requirements are set by the departments. They are stated in the announcements in the departmental sections of this bulletin. Any department may, with the approval of the Graduate Council, make further regulations which are not inconsistent with the general rules.

For the Ph.D. degree the graduate student will complete a minimum of 108 quarter hours of post-baccalaureate credit of which a maximum of 36 quarter hours of credit is applicable to the dissertation. Graduate students working toward the Ph.D. degree may count, without petition, as partial fulfillment of degree credit, up to 48 quarter hours of graduate credit earned at an accredited institution.

The program of graduate studies chosen for the Doctor's degree will usually include study in related fields as determined by the student in consultation with his Graduate Advisory Committee.

A student will be advised to withdraw from the Ph.D. program when his Graduate Advisory Committee judges that he is not maintaining satisfactory progress toward the degree. Students are required to maintain at least a "B" average. A course grade below "C" is unsatisfactory and will not be counted toward degree requirements. Generally, when an advanced undergraduate course is to be counted for graduate credit, the grade therein may not be below "B." The determination of satisfactory progress is, however, not limited to the grades and grade point average. It includes all factors in the student's performance.

RESIDENCE

Full-time study for residency is defined as registration for a minimum of 10 quarter hours in a quarter. At least three consecutive quarters beyond the master's level must be spent in full-time study at DePaul University. With prior approval of the Graduate Ad-
visory Committee, residency may be satisfied by course work, by participation in seminars, or by research performed off campus.

To reflect the diversity of graduate study for the Ph.D. at stages other than the residency stage, doctoral candidates who are registered for Reading and Research, four quarter hours; Thesis Research, four quarter hours; or for minimum university registration, 0 hours credit, are full-time students.

LANGUAGE REQUIREMENTS

Each department, with the approval of the Graduate Council, makes such language or allied requirements as the student’s program and research may demand. Such requirements are stated in the departmental sections of this bulletin.

EXAMINATIONS

It is the policy of the Graduate Council to set two examinations for all doctoral candidates: the comprehensive or doctoral candidacy examination; and the final examination on the dissertation. A department may, in addition, require an initial or preliminary examination.

Toward the end of his year of residency, and when language or allied requirements are satisfied, the doctoral candidate petitions for his comprehensive or doctoral candidacy examination on a form to be obtained from the Office of the Graduate School. The doctoral candidate’s Graduate Advisory Committee will endorse the petition before it is returned to the Dean of the Graduate School, whereupon the Dean notifies the faculty of the department to prepare and administer, in accord with its established procedures, the doctoral candidacy examination and to submit the results thereof, properly certified by the examining committee, to the Dean of the Graduate School. The comprehensive or doctoral candidacy examination may be written and/or oral. A student will be allowed to take the doctoral candidacy examination not more than twice.

The Final Examination is on the doctoral dissertation. The doctoral candidate petitions for his Final Examination on a form to be obtained from the Office of the Graduate School. A doctoral candidate may not petition his Final Examination before eight months after admission to candidacy. This form is returnable to the Dean of the Graduate School by the dissertation advisor endorsed by him and the readers. Two copies of a draft of the dissertation shall be submitted to the Office of the Graduate School. The Dean of the Graduate School appoints the Final Examination Committee of five members of the faculty. Other members of the faculty may attend. The Dean arranges a date for the Final Examination, usually about ten days after the form, together with two copies of the dissertation, have been returned properly endorsed to his office. It is the responsibility of the Chairman of the Final Examination Committee to prepare a report of the results of the Final Examination to be signed by all members thereof and to return this report to the Dean of the Graduate School. The Dean notifies by letter the doctoral candidate whether he has passed his Final Examination.

ADMISSION TO CANDIDACY

A distinctive stage in the doctoral candidate’s progress to the Ph.D. degree is admission to candidacy. It implies that the faculty is satisfied the doctoral candidate is competently knowledgeable both as to breadth and as to depth in his area of specialization and versatile in the use of research tools so as to prepare an acceptable dissertation. There is a time limit of four years between admission to the Graduate School and admission to candidacy. Once admitted to candidacy, the doctoral candidate must maintain his registration in the University in each of the quarters of the academic year until the degree requirements have been completed. Among other courses, the following are appropriate to maintain registration: Independent Study, four quarter hours; DCC 699-90-001, Resident Candidacy Continuation, 0 hours credit; DCC 699-90-002, Non-Resident Candid-
Continuation, 0 hours credit. Failure to comply with this requirement invalidates the candidacy.

For Admission to Candidacy the doctoral candidate shall complete:
   a) three consecutive quarters of full time study beyond the Master's level;
   b) the departmental language or allied requirements;
   c) the doctoral candidacy or comprehensive examination.

The Dean of the Graduate School shall issue to each doctoral candidate a certificate to authenticate admission to candidacy. Admission to Candidacy will be entered on the doctoral candidate's scholastic record.

Dissertation

The doctoral candidate shall prepare a doctoral thesis or dissertation based on his research. The purpose of the dissertation is to evidence both one's scholarship and the ability to carry on such independent research as definitely contributes to the advancement of knowledge. While the doctoral candidate may, and often does, begin the preparation of his dissertation informally prior to admission to candidacy, he is expected to comply with certain regulations regarding the dissertation. The topic of the dissertation should be submitted to the head of the department of specialization who will appoint a dissertation committee to approve the topic and to assist the doctoral candidate through all stages in the preparation of the dissertation. The chairman of this committee is the dissertation director.

The dissertation is the basis of the Final Examination. When the doctoral candidate files his petition for the final examination he shall submit to the Office of the Graduate School two or three copies of the doctoral dissertation.

All doctoral dissertations are to be microfilmed. The doctoral candidate submits to the Office of the Graduate School two typewritten, unbound, final copies (the first copy in satisfactory condition for microfilming) of his dissertation. He prepares and submits also a 600 word abstract of the dissertation. The abstract will be published in Dissertation Abstracts and will include announcement that the dissertation is available in film form. One microfilm copy will be deposited in the University Library and will be available for inter-library loan.

To defray the costs of microfilming and publication, a dissertation fee of $40.00 is assessed.

Microfilming is considered by the University to be a form of publication. Publication by microfilm, however, does not preclude the printing of the dissertation in whole or in part in a journal or monograph.

When these steps have been completed the doctoral candidate becomes eligible for degree conferment at the next convocation.

Time limits to complete the requirements for the Doctor of Philosophy degree:
   1) between admission to the doctoral program and admission to candidacy: not more than four years
   2) between admission to candidacy and the final examination: not less than eight months, and not more than five years.

Tuition

Tuition and fees listed here are for the year 1973-74.

Graduate Student tuition per quarter hour:

Courses in the 100-200 series ................................. $37.00 a
Courses in the 300-600 series .................................. 50.00 a

a. Applicable to Graduate Students only
SERVICE FEES

Graduate Application Fee (all applicants and non-refundable) ............... $15.00
Deferred Payment Fee ....................................................................... 5.00
Deferred Payment Delinquency Fee ................................................... 3.00
Registration Fee .............................................................................. 5.00
Late Graduate Registration Fee (non-refundable) .............................. 5.00a
Change of registration made by the student ....................................... 5.00b
Materials fee, see individual course description
Biology Laboratory Fee: Each Undergraduate course with laboratory ...... 15.00
Biology Laboratory Fee: Each Graduate course with laboratory ......... 20.00
   Biology 401. With Lab., Lab. Fee, per hr. of credit ....................... 12.00
   Biology 490. Lab. Fee, per hr. of credit ....................................... 12.00
   Biology 498. Lab. Fee, per hr. of credit ....................................... 12.00
   Biology 590. Lab. Fee, per hr. of credit ....................................... 12.00
   Biology 598. Lab. Fee ................................................................. 50.00
Chemistry Laboratory Fee: Each course with laboratory .................. 15.00
Physics Laboratory Fee:
   Each course numbered under 370, with laboratory ...................... 7.50
   Each course numbered 370 or over, with laboratory, per credit hour ... 5.00c
Chemistry breakage deposit for each laboratory course .................... 7.50
Deferred examination fee on designated days .................................... 10.00
Deferred examination fee on days not designated ............................ 20.00
Language Laboratory Fee ................................................................. 5.00
Second Language Examination ....................................................... 5.00
Second Comprehensive Examination .............................................. 5.00
Reinstatement examination fee per course ...................................... 10.00
Dissertation Fee (for Ph.D. candidates) ............................................ 40.00
Thesis binding fee ......................................................................... 10.00
Graduation fee .............................................................................. 50.00
Fee for each transcript of credits .................................................... 1.00

  a. In addition to the regular registration fee.
  b. The change of registration fee is charged each time a student adds
     a class, or drops a class and adds another class. Before the change
     can be issued, the student must secure approval from the Dean,
     and then present a special cashier receipt showing that the fee has
     been paid. No fee is charged for simply withdrawing from a class.
  c. Physics 488 — Thesis Research. This fee is NOT charged when
     DePaul laboratory facilities are NOT used.

When a student is permitted to audit a course, tuition and fees are charged at
the regular scheduled rates and must be paid at time of registration, and are not refundable.

Religious and clergy in full-time graduate programs who request financial assistance
may merit aid through competitive selection. All religious, regardless of the level of study,
will be granted a 30% tuition discount during summer sessions.

No transfers of academic credit will be made unless the student’s account is paid in
full. Registration cannot be accepted from a student with an unpaid balance from a prior
term. Registration attempted under these circumstances will be cancelled.

DEFERRED PAYMENT PLAN

Normally, the University expects all tuition and fees to be paid either at registration,
or at or before the end of the first week of school.
THE GRADUATE SCHOOL

For students unable to meet this requirement, the University does offer, on payment of $5.00 Deferred Payment fee, the following plan:

Payment of 1/2 of tuition and fees at or before the end of the first week of school.

Payment of 1/2 of tuition and fees at or before the end of the third week of school.

Payment of the final 1/2 tuition and fees at or before the end of the sixth week of school.

Students failing to make payments on or before the scheduled date will be assessed an additional $5.00 for each and every delinquency.

CHANGE OF REGISTRATION AND WITHDRAWALS

A student wishing to withdraw from a class or classes must report to the academic office immediately and fill out a withdrawal slip, or notify the Graduate School by letter stating the reasons which make withdrawal necessary. Failure to notify the academic office (within the current term) of such withdrawal, renders the student ineligible for refund. Students may not withdraw from a class during the last ten calendar days of any term. No adjustment of tuition charges will be made in the case of an unapproved or unauthorized withdrawal. Upon approval of the withdrawal request by the Dean of the Graduate School, tuition charges will be adjusted in accordance with the following schedule.

<table>
<thead>
<tr>
<th>Period of attendance from opening date of each quarter</th>
<th>Percentage of tuition to be charged</th>
</tr>
</thead>
<tbody>
<tr>
<td>Two weeks</td>
<td>25%</td>
</tr>
<tr>
<td>Three weeks</td>
<td>50%</td>
</tr>
<tr>
<td>Four weeks</td>
<td>75%</td>
</tr>
<tr>
<td>Over four weeks</td>
<td>100%</td>
</tr>
</tbody>
</table>

Exceptions: For Autumn-Winter courses which run for 24 weeks with one class meeting a week, the period of attendance will be divided by two before applying the percentage charge.

If a student must withdraw for failure to meet scholastic requirements during a previous term and the academic office has been unable to notify him of this failure prior to the beginning of the current term, no tuition or fees will be charged for this cancelled registration.

All withdrawals will be dated as the end of the week in which the last class was attended. No tuition charge will be assessed for attendance during the first week of a term.

REFUNDS

Tuition refunds will be made by the Student Finance Office only upon receipt of approved withdrawal slip and specific request for refund by the student concerned. Refundable credits must be claimed within one calendar year of the beginning of the term in which the credit accrued. In no case will tuition be refunded for failure to complete an audited course, and fees other than tuition are not refundable.

THE GRADUATE STUDENT AND SELECTIVE SERVICE

It is the policy of the Graduate School to accord humane and flexible consideration to the situation of graduate students in good standing who withdraw from a program of study because of the draft or for voluntary service.

Whenever such a student is required to, and does properly withdraw to enter the armed forces before completing at least three quarters of any course, a refund of tuition will be made according to the schedule published in the bulletin and he shall be given a grade of "W."

Should such a student register at some future time, he will receive financial credit for the amount of tuition not already refunded, even if he completes three quarters of the course but elects not to take academic credit.
In the case when the student has completed three quarters of a course, provision will be made to receive credit for the course. A student who receives full academic credit for the course will receive no financial credit.

When the tenure of a graduate student to whom some form of financial support has been awarded is interrupted by voluntary or involuntary induction into the military service of the United States, every effort will be made to reinstate the award. Application for reinstatement should be made to the Graduate School within three months of discharge from military service.

GENERAL GRADUATE SCHOOL COURSES

698-90-001 RESIDENT CANDIDACY CONTINUATION
(0 hours credit, for Biological Science only)

698-90-003 RESIDENT CANDIDACY CONTINUATION
(0 hours credit, for Philosophy only)

698-90-005 RESIDENT CANDIDACY CONTINUATION
(0 hours credit, for Psychology only)

Students admitted to candidacy for the doctoral degree who have completed all course and dissertation registration requirements but who are regularly using the facilities of the University for study and research are required to be registered each quarter of the academic year until the dissertation and final examination have been completed. $192.00 per quarter.

699-90-002 NON RESIDENT CANDIDACY CONTINUATION
(0 hours credit, for Biological Science only)

699-90-004 NON RESIDENT CANDIDACY CONTINUATION
(0 hrs. credit, for Philosophy only)

699-90-006 NON RESIDENT CANDIDACY CONTINUATION
(0 hrs. credit, for Psychology only)

This registration provides for doctoral candidates who have been admitted to candidacy who are not in residence and need only occasional use of University facilities, including the libraries, $25.00 per quarter.

GOAL

The principal goal of the Department is to provide programs of advanced study which will enable qualified students to earn degrees at the master's and doctoral levels.

AIMS

To provide assistants in planning a specific program or sub-program of studies which will enable the student to advance toward earning the degree being sought and with respect to his/her career goal.

To provide a series of interrelated lecture and seminar courses appropriate to the specific degree programs offered.

To provide laboratory experiences appropriate to the degree programs in question.

To provide opportunities for research leading to the thesis and dissertation in accord with the student's degree program and the faculty's research interests and competencies.

To provide continuing opportunities for interaction between faculty and students through formal and informal learning situations in order to promote further the existence of a scholarly environment.

LEARNING OBJECTIVES

Acquisition and understanding of knowledge to an extent (both scope and depth) beyond that characteristic of those holding the baccalaureate degree.

Improvement in one's ability to interrelate, synthesize, interpret and conceptualize biological information and phenomena to an extent considerably beyond that expected of undergraduates.

Attainment and development of laboratory skills and methodologies, as well as an understanding of the principles of investigation, to an extent that enables the student to uniformly acquire, independently, new knowledge relating to life and principles of living systems.

Achievement of the ability to communicate biological knowledge effectively to others in both oral and written fashion.

Achievement of the habit of objective observation and evaluation as well as those attitudinal values in keeping with the expectations of Science and Professional Biologists.

GRADUATE PROGRAMS

The Graduate School requirements for degrees must be met by all candidates. The specific Departmental requirements are given below.

For full admission to graduate studies, students must have a baccalaureate degree with a major in the biological sciences and a minor consisting of a minimum of 24 quarter hours (≈16 semester hours) from not more than two of the following related fields: Chemistry (including Organic), Mathematics, Physics and Psychology. Based upon the
level of scholastic achievement in one's undergraduate studies and on Graduate Record scores, as well as letters (3) of recommendation, the Departmental Committee on Admissions and Awards will determine whether an applicant is qualified for admission. Those students lacking one year of college physics and at least one course in Calculus upon acceptance into a degree program, shall be required to complete these during the first year of graduate study.

At some time during graduate study every student must participate in undergraduate laboratory instruction for a minimum of three courses and/or two quarters.

Master of Science Degree. Programs of study leading to the Master of Science in Biology are designed for students who (1) have a desire to increase their scope and understanding of the life sciences; (2) plan additional education at the master's level for increased proficiency in teaching and/or research; or (3) plan to continue study to the Ph.D. degree. Students pursuing study for the Master of Science degree will develop a program in consultation with their Graduate Advisor. Areas of specialization offered are: (1) Cellular Biology; (2) Environmental Biology; and (3) Comparative Endocrinology. In addition, a program may be planned which will serve the individual seeking a broad education in biology.

Requirements for the Degree:
1) A minimum of 44 quarter hours.
2) A minimum of two seminars.
3) A maximum of 8 quarter hours of research may be applied toward the degree requirements, of which at least 4 hours must be in Master's Thesis Research.
4) Advancement to candidacy by the Dean of the Graduate School—contingent upon the successful completion of the Candidacy Examination.
5) A thesis.
6) A final examination over all areas of graduate study, including coursework, basic biological concepts and thesis research.

Doctor of Philosophy Degree. Doctoral programs are intended for mature persons who have clearly defined objectives and who possess the background necessary for a concentrated program of research and independent study. Emphasis is placed on critical evaluation of literature, originality in research and competence in the written and oral presentation of data and their interpretation. Areas of specialization offered are: (1) Cellular Biology; (2) Environmental Biology; (3) Comparative Endocrinology; and (4) Comparative Physiology.

Requirements for the Degree:
1) A minimum of 108 quarter hours of study above the baccalaureate degree; students holding the Master's Degree shall have 44 quarter hours applied to this requirement.
2) Each student who plans to become a Candidate for the Doctor of Philosophy Degree must develop a graduate program in consultation with his Graduate Committee upon admission to the Graduate School.
3) The Department requires that the student pass a preliminary comprehensive examination before admission to the Doctoral Candidacy Examination. In special cases, this requirement may be waived for students who have successfully completed a final oral examination for the Master of Science Degree. The preliminary examination must be taken during the first year of graduate study beyond the Master's Degree or its equivalent.
4) A Doctoral Candidacy Examination must be successfully completed for admission to candidacy for the degree not later than one year prior to the student's expected date of Convocation. This examination will be written and oral.
5) The student must demonstrate an ability to read and understand one modern language selected from German, French, Russian or Spanish; or present evidence that a minimum of two years of a modern language has been completed at a satisfactory level.

6) A dissertation which results from an original investigation; and which is acceptable for publication as judged by the student's Graduate Committee.

7) The Final Examination on the dissertation and relevant allied materials.

During study for the Doctoral Degree the student is urged to study for at least one quarter at a biological station or other research institute to be selected in consultation with his/her Graduate Committee.

All courses are offered in Science Hall East, Lincoln Park Campus (1030 Belden Avenue). Courses that include laboratory are so designated. The academic term in which a course is to be offered is specified.

Courses for Advanced Undergraduate and Graduate Students

A maximum of five 300-level courses may be applied toward the degree requirements. Of these, no more than three may be lecture courses.

302—CELL BIOLOGY. Fundamentals of cell form and function studied at the molecular and organelle level, including basic cellular biochemistry, microstructure and physiology. Lecture and Laboratory.

307—MAMMALIAN PHYSIOLOGY. Function of the vertebrate organ systems emphasizing the mammal. Lecture and Laboratory.

308—PLANT ANATOMY. Structure of cells, tissues and tissue systems; comparative anatomy of plant organs, with emphasis on gymnosperms and angiosperms. Lecture and Laboratory.

309—PLANT PHYSIOLOGY. Functional and developmental aspects of plants, especially of vascular autotrophs. Lecture and Laboratory.

312—PRINCIPLES OF EXPERIMENTAL BIOLOGY. Laboratory.

315—ECOLOGY. An intensive study of the structural and functional relationships inherent at the community level of biological organization. Lecture and Laboratory. Commutation Fee $10.00.

317—AQUATIC BIOLOGY. Physical, chemical, and biological phenomena in freshwater and marine environments. Experience in field collections; work from research vessels. Lecture and Laboratory.

321—MICROBIOLOGY. Biology of microorganisms, with special emphasis on bacteria. Lecture and Laboratory.

325—GENETICS. The nature of genetic material and the manner of its expression; its mutability; and its significance with respect to organismal and species variation. Lecture and Laboratory.

328—INVERTEBRATE BIOLOGY. Comparative biology of non-chordate animals. Lecture and Laboratory.

330—DEVELOPMENTAL BIOLOGY. Developmental phenomena of animals, including gametogenesis, fertilization, cleavage, organogenesis, metamorphosis and regeneration. Lecture and Laboratory.

342—INVESTIGATIONS IN REGULATORY BIOLOGY. Laboratory.

342—INVESTIGATIONS IN GENETICS. Laboratory.

352—INVESTIGATIONS IN ENVIRONMENTAL BIOLOGY. Laboratory.

362—INVESTIGATIONS IN CELL BIOLOGY—BIOCHEMISTRY. Laboratory.
DE PAUL UNIVERSITY

368—CELL PHYSIOLOGY: METABOLISM. Analysis of organelle enzyme systems, unit structures, and physiology relating to cellular metabolism, transport, and energy conversion processes. Lecture and Laboratory.

370—INTRODUCTION TO IMMUNOLOGY AND SEROLOGY. Basic factors governing immune phenomena and antigen-antibody reactions. Lecture and Laboratory.

ADVANCED COURSES

Courses primarily for Graduate Students

400—DISCUSSIONS OF SELECTED TOPICS IN BIOLOGY. Required of all first-year graduate students. (0). Autumn, Winter.

418—CYTOGENETICS. A study of chromosomes and (prokaryotic) genophores as chemically, morphologically, functionally and evolutionarily dynamic genetic elements concerned with cell and organismal heredity. (3)

420—CELL PHYSIOLOGY: INTERACTIONS. Analysis of organelle interactions governing cellular growth, division, differentiation and energy conversion processes during the cell cycle. (3).

421—CELL PHYSIOLOGY: INTERACTIONS. Laboratory. (2).

425—CELLULAR EVENTS IN IMMUNE RESPONSE. Analysis of cellular and subcellular interactions in the immune response. (3).

426—EXPERIMENTAL IMMUNOLOGY. Laboratory. (2).

435—COMPARATIVE ANIMAL PHYSIOLOGY. Study of physiological processes, their evolutionary base and adaptational role. (3).

436—COMPARATIVE ANIMAL PHYSIOLOGY. Laboratory. (2).

440—PHYSIOLOGY OF THE ENDOCRINE SYSTEM. The regulatory role of hormones in vertebrates. (3).

441—PHYSIOLOGY OF THE ENDOCRINE SYSTEM. Laboratory. (2).

444—ENDOCRINOLOGY OF REPRODUCTION. Comparative study of neuroendocrine mechanisms in vertebrate reproduction. (3).

445—ENDOCRINOLOGY OF REPRODUCTION. Laboratory. (2).

447—COMPARATIVE ENDOCRINOLOGY. Comparative and phylogenetic aspects of regulatory mechanisms in the animal kingdom. (3).

449—PLANT HORMONES. A study of the chemical structure, biosynthesis and transport as well as developmental and physiological significance of auxins, gibberellins, cytokinins, abscisic acid (dormin), ethylene and hormonal antagonists. (3).

SEMINARS FOR GRADUATE STUDENTS

459—PROBLEMS IN CELL BIOLOGY. Critical analysis of basic contemporary problems in cellular morphology and physiology, with emphasis on the regulation of cell cycle processes by organelle interactions. (4).

460—COMPARATIVE ANIMAL PHYSIOLOGY. Current problems in physiological mechanisms. (4).

464—HORMONAL REGULATORY MECHANISMS. Hormonal action at the cellular and subcellular level. (4).

466—REPRODUCTIVE ENDOCRINOLOGY. Aspects of neuroendocrine regulation of reproduction in vertebrates. (4).
468—ENDOCRINE MECHANISMS IN EMBRYONIC SYSTEMS. Development of endocrine correlation in vertebrate embryos. (4).

480—HORMONAL REGULATION OF MINERAL METABOLISM. Influence of the hormonal environment on the structure and biochemistry of mineral and non-mineral skeletal elements. (4).

482—PROBLEMS IN IMMUNOLOGY. Critical evaluation of current experiments on regulation of the immune response: a) cell interactions, and b) immunoglobulin synthesis. (4).

Special Course for Graduate Laboratory Teaching Assistants

495—PRACTICUM IN TEACHING BIOLOGY. Open only to graduate student laboratory assistants. One registration may be applied to the M.S. and/or Ph.D. Degree. (2, Autumn.

RESEARCH REGISTRATIONS

496—RESEARCH. Experimental work in selected areas of biology. These studies do not necessarily relate to a thesis or dissertation. (2, 4). (Prerequisite: Approval of the Department). Laboratory. Autumn, Winter, Spring, Summer.

498—RESEARCH FOR MASTER’S THESIS. Original study of a specific biological problem leading to a thesis. (2, 4) (Prerequisite: Approval of the Department). Laboratory. Autumn, Winter, Spring, Summer.

598—RESEARCH FOR DOCTORAL DISSERTATION. Original investigation of a specific biological research problem leading to the dissertation. (2, 4 or 6). (Prerequisite: Approval of the Departmental Graduate Committee). Laboratory. Autumn, Winter, Spring, Summer.

599—DOCTORAL CANDIDATE RESEARCH. Open to doctoral candidates who have fulfilled language and residency requirements for the degree and who are devoting full time to dissertation research and study. (No credit, tuition equal to one 4-hour course). (Prerequisite: Approval of the Department Graduate Committee and the Dean of the Graduate School). Laboratory. Autumn, Winter, Spring, Summer.
GRADUATE SCHOOL OF BUSINESS

Gus L. Economos, Director
John E. Eber, Assistant Director

The Graduate School of Business offers both part-time and full-time programs of study leading to the degrees of Master of Business Administration (M.B.A.) and Master of Science in Taxation.

Application for admission and additional information may be obtained directly from the Graduate School of Business Office, Room 1207.

The curricular patterns of these programs are designed for both business and non-business undergraduate majors. Students who possess an undergraduate degree in a non-business area are required to take a maximum of five foundation courses in addition to the regular programs.

The M.B.A. Curriculum* (15 courses)

The emphasis of the M.B.A. program is on decision-making as the characteristic function of business administration. It is the purpose of the program to integrate the several functional areas of business and the contributions they make to the development of administrative competence.

Concepts and methods (3 courses)
Statistical Analysis for Decision Making GSB 501
Mathematical Analysis for Decision Making GSB 502
Behavior, Motivation and Decision Making GSB 503

Decision Area Core (take 4 of 5)
Problems and Current Issues in Accounting GSB 511
Economics for Decision Making GSB 512
Financial Management GSB 513
Functions of the Administrator GSB 514
Decisions in Marketing Management GSB 515

Major Field (4 courses)
Four courses to be selected with the approval of the Department Chairman. Majors include: Accountancy, Business Economics, Finance, International Business, Personnel Administration, Industrial Management, Systems and Marketing.

Electives (2 courses)

M.S. in Taxation Curriculum* (12 courses)

The Master of Science in Taxation program emphasizes planning and decision-making as the role of the professional in the field of taxation.

Major Field (8 courses)
Taxation of Corporate Shareholders 560T
Corporate Reorganizations 561T
Procedural Problems in Taxation 566T
Seminar in Current Problems in Taxation 598T

4 Tax Electives

Related Areas (4 courses)
Economics For Decision Making GSB 522
Financial Management GSB 513
Management Elective (or) GSB 514
Non-Tax Elective

*For detailed information about these programs, consult the Bulletin of the Graduate School of Business.
STUDENT AT LARGE

A student presently working on an advanced degree from an accredited institution or one who already possesses a masters degree and would like to update his business knowledge will be permitted to register for graduate courses as a student at large.

BUSINESS AS A MINOR FIELD

Courses in commerce may be used as a minor field in combination with education. A student should register in the Graduate School after he has selected courses with the aid of the Chairman of his department of specialization and has the written approval of the Chairman of the minor department in the College of Commerce.
DEPARTMENT OF CHEMISTRY

DEGREE OF MASTER OF SCIENCE

FRED W. BREITBEIL, III, Ph.D., Chairman, Assoc. Prof.
JURGIS G. A. ANYSAS, Ph.D., Asst. Prof.
AYRON A. BLUMBERG, Ph.D., Assoc. Prof.
SANAT K. DURAI, Ph.D., Assoc. Prof.
EDWIN F. MEYER, Ph.D., Assoc. Prof.
SARA STECK MELFORD, Ph.D., Asst. Prof.

THOMAS J. MURPHY, Ph.D., Asst. Prof.
ROBERT L. NOVAK, Ph.D., Assoc. Prof.
WILLIAM R. PASTERECZKY, Ph.D., Professor
FRANKLIN S. PROFIT, Ph.D., Assoc. Prof.

PURPOSE

The degree of Master of Science in Chemistry is designed to prepare students for advanced work in the profession of Chemistry and for further graduate study.

PREREQUISITES

Applicants for the degree of Master of Science in Chemistry must have satisfactorily completed the minimum requirements for the degree of Bachelor of Science in Chemistry which includes one year of calculus, one year of college physics with laboratory and one each of the following branches of chemistry: general chemistry, quantitative analysis (including one course in instrumental analysis), organic chemistry and physical chemistry.

REQUIREMENTS

The Master of Science degree requires a minimum of 44 quarter hours including a thesis based on original research.

1. Basic Courses.
   (a) For organic, inorganic, and physical chemistry majors the degree program requires satisfactory credit in seven of the following courses (at least two courses from each category are required):
      350, 352, 450—Advanced Organic Chemistry
      322, 324, 420—Advanced Inorganic Chemistry
      370, 372, 460—Advanced Physical Chemistry
   (b) For biochemistry majors the degree program requires satisfactory credit in the following courses:
      322—Advanced Inorganic Chemistry
      350, 352—Advanced Organic Chemistry
      370, 372—Advanced Physical Chemistry
      340, 341, 342, 343—Biochemistry

2. Seminar courses 394 and 498.

3. Research courses: a minimum of six quarter hours in research courses 497 and/or 498. Students must be registered in a research course while engaged in research.

4. Advanced courses: the student must complete the remaining of the total required 44 quarter hours in courses numbered 300 or higher. These may be courses in Chemistry or in a minor field.

5. The student's progress is reviewed by a committee of four faculty members sometime during the spring quarter of his first year of study and at least one more time before the student's final quarter of study.

7. Oral Examination. This is in two parts. The first part is the thesis presentation and defense and the second part is an oral examination concerning the candidates general knowledge of chemistry.
CHEMISTRY

CHEMISTRY AS A MINOR FIELD

Prerequisites

Six quarters of chemistry, three quarters each of physics and calculus must be completed before a minor sequence can be started. The 300 level courses listed below can be used for graduate credit only by chemistry majors.

All of the following courses are held in Science Hall East, 1086 West Belden Avenue or the Schmidt Academic Center on the Lincoln Park Campus. Courses with laboratory are odd numbered. All courses carry four quarter hours of credit unless otherwise noted.

211—PHYSICAL CHEMISTRY II. Prerequisite: Course 196. Offered Spring quarter.

212—PHYSICAL CHEMISTRY III. Prerequisite: Course 211. Offered Autumn quarter.

215—PHYSICAL CHEMISTRY IV. Prerequisite: Course 211. Offered Winter quarter.

261—INSTRUMENTAL ANALYSIS. Prerequisite: Course 215. Offered Spring quarter.

265—CHEMISTRY OF AIR POLLUTANTS. Prerequisite: Course 127 or 203. Offered in the Spring quarter of even-numbered years.

267—AQUEOUS CHEMISTRY. Prerequisite: Course 127 or 203. Offered in the Autumn quarter of odd-numbered years.

321—INTERMEDIATE INORGANIC CHEMISTRY. Prerequisite: Course 125 or 175. Offered Autumn quarter.

322—ADVANCED INORGANIC CHEMISTRY I. Prerequisite: Course 212. Offered Winter quarter.

324—ADVANCED INORGANIC CHEMISTRY II. Prerequisite: Course 322. Offered Spring quarter.

325—SOLID WASTE CHEMISTRY. Prerequisite: Course 196. Offered in the Winter quarter of odd-numbered years.

330—SYNTHETIC ORGANIC REACTIONS. Prerequisite: Course 125 or 175. Offered Spring quarter.

340—BIOCHEMISTRY I. Prerequisite: Course 125 or 175. Offered Autumn quarter.

341—EXPERIMENTAL BIOCHEMISTRY I. Two quarter hours. Corequisite: Course 340. Offered Autumn quarter.

342—BIOCHEMISTRY II. Prerequisite: Course 340. Offered Winter quarter.

343—EXPERIMENTAL BIOCHEMISTRY II. Two quarter hours. Prerequisite: Course 341. Offered Winter quarter.

350—ADVANCED ORGANIC CHEMISTRY I. Courses 175 and 196. Offered Autumn quarter.

352—ADVANCED ORGANIC CHEMISTRY II. Prerequisite: Course 350. Offered Winter quarter.

356—SPECTRAL INTERPRETATION. Prerequisite: Course 350. Offered Winter quarter.

370—ADVANCED PHYSICAL CHEMISTRY I. Prerequisite: Course 125 or 175. Offered Winter quarter.

372—ADVANCED PHYSICAL CHEMISTRY II. Prerequisite: Course 370. Offered Winter quarter.

374—SELECTED TOPIC IN PHYSICAL CHEMISTRY. Two quarter hours. This course may be any topic in the field of polymer, solutions, statistical mechanics, surfaces, transport phenomena, etc. Prerequisite: Permission of instructor. Offered by arrangement. (This course may be repeated for credit.)

376—POLYMER CHEMISTRY. Two quarter hours. Prerequisite: Course 372. Offered by arrangement.
DEPAUL UNIVERSITY

578--ENVIRONMENTAL CHEMISTRY. Two quarter hours. Prerequisite: Course 125, 175 or consent. Offered in the Spring quarter.

585--ADVANCED CHEMICAL TECHNIQUES. Two quarter hours. This is a laboratory course which may be in the fields of analytical, biochemistry, inorganic, organic or physical chemistry. This course may be repeated for credit if topic is different. Prerequisite: Permission of chairman. Offered by arrangement.

594--SEMINAR. One quarter hour. Prerequisite: Course 215. Offered every quarter. (This course may be repeated for credit.)

420--ADVANCED INORGANIC CHEMISTRY III. Prerequisite: Course 324. Offered Spring quarter.

424--BIOTINORGANIC CHEMISTRY. Prerequisite: Course 322. Offered in Spring quarter of even-numbered years.

440--BIOCHEMISTRY III. Prerequisite: Course 342. Offered Spring quarter.

450--ADVANCED ORGANIC CHEMISTRY III. Prerequisite: Course 352. Offered Spring quarter.

460--ADVANCED PHYSICAL CHEMISTRY III. Prerequisite: Course 372. Offered Spring quarter.

480--SPECIAL TOPIC IN CHEMISTRY. This course may be in any special topic in the fields of inorganic, organic, analytical, biochemistry, physical chemistry, etc. This course may be repeated for credit if topics are different. Prerequisite: Permission of chairman. Offered by arrangement.

497--RESEARCH. One quarter hour. Prerequisite: Permission of advisor. Offered every quarter. (This course may be repeated for credit.)

498--SEMINAR. One quarter hour. Prerequisite: Permission of advisor. Offered every quarter. (This course may be repeated for credit.)

499--RESEARCH. Two quarter hours. Prerequisite: Permission of advisor. Offered every quarter. (This course may be repeated for credit.)

500--INDEPENDENT STUDY. Two quarter hours. Prerequisite: Permission of chairman. (This course may be repeated for credit.) Offered by arrangement.

502--INDEPENDENT STUDY. Prerequisite: Permission of chairman. (This course may be repeated for credit.) Offered by arrangement.
DEPARTMENT OF ECONOMICS

ROBERT W. FAULHABER, Ph.D., Professor, Chairman
FRANCIS J. BROWN, Ph.D., Professor
JAMES J. DIAMOND, Ph.D., Professor
WILLIAM A. HAYES, Ph.D., Professor
WILLIAM R. WATER, Ph.D., Professor
JAMES E. CHECKA, Ph.D., Assi. Professor
ATHENA F. KOTTIS, Ph.D., Assi. Professor
ADOLPH E. MARK, Ph.D., Asst. Professor
ANTHONY C. PETTO, Ph.D., Asst. Professor
DONALD W. RAMEY, M.A., Asst. Professor
H. WOODS BOWMAN, Ph.D., Lecturer
JOSEPH S. GIANNTI, Ph.D., Lecturer

PURPOSE

The purpose of the graduate program of the Economics Department is to provide extensive knowledge and intensive analysis of economic theories and institutions. It provides wide acquaintance with the basic sources in the field and initiates the student to habits of economic research.

DEGREE OF MASTER OF ARTS

PREREQUISITES

Applicants for the degree of Master of Arts must have satisfactorily completed 11 courses in the social sciences, of which at least nine must be in economics or finance, including Economics 505 and 506 or their equivalents. The remaining two courses may be in political science, sociology, psychology, statistics, history, or geography.

REQUIREMENTS — THESIS PROGRAM

1. Completion of nine courses.
   a) At least six courses must be taken at the 500 level, and these six must include Advanced Price and Distribution Theory, Advanced Income Theory, History of Economic Thought, and either Topics in Quantitative Economics or Seminar in Economics.
   b) Students who have completed 11 courses in economics or finance as undergraduates have the option of selecting two courses in a minor field for which they have completed the required prerequisites.
   c) Students who have completed less than 11 undergraduate courses in economics are not permitted to choose a minor field.

2. A thesis is required. The student must register for Economics 600, Thesis Research, for which eight quarter hours of credit are given.

3. An oral comprehensive examination covering the completed thesis is required. This examination will be taken after submission of an approved final draft of the thesis.

REQUIREMENTS — NON-THESIS PROGRAM

1. Completion of 11 courses.
   a) At least seven courses must be taken at the 500 level and these seven must include Advanced Price and Distribution Theory, Advanced Income Theory, History of Economic Thought, and either Topics in Quantitative Economics or Seminar in Economics.
   b) Students who have completed 11 courses in economics or finance as undergraduates may have the option of selecting two courses in a minor field for which they have completed the required prerequisites.
   c) Students who have completed less than 11 undergraduate courses in economics and finance are not permitted to choose a minor field.

2. An oral or written comprehensive examination in the field of graduate study. The choice between an oral and a written examination is at the option of the student.
The examinations are given in the last week of November and the last week of April. Students must notify the chairman in the first week of November or April of their intention to sit for the exam.

ECONOMICS AS A MINOR FIELD

Prerequisites

Economics may be combined as a minor field only with those departments whose chairmen permit such a minor. The undergraduate prerequisites for taking graduate level economics courses consist of eight courses in the social sciences. Six of these must be in economics or finance; the remaining two courses may be in political science, sociology, history, or geography.

Advanced Undergraduate Courses

305—PRICING AND DISTRIBUTION ANALYSIS. A detailed analysis of micro-economic theory. Both marginal analysis and indifference curve analysis are treated. The basic principles of production and pricing are examined. Emphasis is placed on pricing under various forms of imperfect competition, and the results of theory are constantly appraised in the light of economic realities. The implications of oligopolistic pricing for public policy are investigated. (Prerequisite: Economics 104).

306—NATIONAL INCOME ANALYSIS. A study of economic aggregates. The determinants and statistical measurement of total income, output, and employment are explained. The analytical tools of Keynesian theory are critically examined and current controversies are investigated. The relationship of fiscal and monetary policy to economic stability is studied and appropriate forms of public policy are examined. (Prerequisite: Economics 101).

318—LABOR ECONOMICS AND ORGANIZATION. This course examines historically and theoretically the principal problems confronting labor groups, with particular reference to the dynamic economy of the United States. (Prerequisite: Economics 104).

320—ECONOMICS AND THE COMMON GOOD. Economic theories, systems, and problems will be studied and analyzed in reference to the economic common good as defined in key modern documents, particularly the social encyclicals. Stress will be placed on both theory and practice. (Prerequisite: Economics 104).

325—THE ECONOMICS OF POVERTY. Material and cultural, absolute and relative forms of poverty will be investigated so far as they derive systematically, directly and indirectly, from the American economy. Taking elimination of poverty as an appropriate objective, existing private, institutional and governmental activities will be analyzed, including economic activity itself. Personal, social, demographic, technological, and political background factors will also be brought to bear in the consideration of more successful anti-poverty economic programs and policy. (Prerequisite: Economics 104).

330—THE ECONOMICS OF SOCIALISM. This course aims at an understanding of fundamental economic relationships as they exist under socialist forms of organization. The pure theory of socialism is examined, as well as the practical organization of the economies in the various socialist nations. Attention is paid to the economic problems of deciding what goods will be produced, how resources will be allocated, and the uses to which economic goods are put. The question of the economic efficiency of the socialist economies will be examined. (Prerequisite: Econ. 104).

350—THE THEORY OF ECONOMIC DEPENDENCY. A balanced coverage of the major aspects of the theory of economic development. The course includes an introduction to the more important theories of economic growth, as well as explanations of the role of land, capital, labor, and technology in the development process. (Prerequisite: Economics 104).
360—ECONOMICS OF UNDER-DEVELOPED COUNTRIES. An introduction to the analytic skills of the economist applied to the special problems of under-developed countries. The view that development requires authoritarian control by the state is contrasted with the position that it may be accomplished by private economic decision-making. (Prerequisite: Economics 104).

361—INTERNATIONAL TRADE. A study of international trade theory and policy. It examines the fundamental basis for trade and the questions of equilibrium and disequilibrium in the world economy. It includes analyses of the Balance of Payments, international investment flows, and the position of the dollar in foreign exchange transactions. Modern international institutions are studied. (Prerequisite: Economics 104).

375—INTRODUCTION TO ECONOMETRICS I. This course introduces the student to the application of statistical methods to empirical testing of theoretical models of economic behavior. It proceeds from a discussion of mathematical models to probability theory and the methodology of statistical inference relevant to econometric work. Simple and multiple regression and correlation analysis will be emphasized along with a brief consideration of some problems raised by these methods of estimation. (Prerequisite: Economics 104 and one course in statistics.)

376—INTRODUCTION TO ECONOMETRICS II. The existence of various fundamental problems in the application of statistical procedures to econometric estimation will be studied: multicollinearity, identification, serial correlation, and nonhomogeneity of error variance. In addition, more sophisticated estimation techniques will be studied, e.g., reduced form and multiple-stage regression techniques. (Prerequisite: Economics 375).

380—MATHEMATICS FOR ECONOMICS AND BUSINESS I. This and the succeeding course are designed to provide a basic competency in the use of mathematics in Economics and Business. More and more, traditional as well as new concepts are discussed in the language of mathematics. In addition, successful study in the area of quantitative methods is greatly facilitated if the student has prior knowledge of the required mathematical tools. This first course consists of a general and elementary survey of three areas: the nature of a mathematical model, matrix algebra, and an introduction to calculus. All tools will be developed within the framework of problems common to Economics and Business. The student is assumed to have only a high school algebra background. (Prerequisite: Economics 104).

381—MATHEMATICS FOR ECONOMICS AND BUSINESS II. This course is a continuation of Economics 380. Areas of concentration will include: a survey of the relevant aspects of both differential and integral calculus, differential equations, and the mathematics of statistical inference. (Prerequisite: Economics 380).

Courses for Graduate Students Only

500—ECONOMIC ANALYSIS. This course develops some of the more sophisticated tools of analysis in the fields of both macro and micro-economics. In the area of aggregate economics, the applications of economic theory to current problems are stressed; in the area of pricing, emphasis is on those situations which are characteristic of the actual market—where an admixture of the competitive and monopolistic elements is the rule, rather than the exception. M.B.A. candidates only. (Prerequisite: Econ. 400 or equivalent).

505—ADVANCED PRICE AND DISTRIBUTION THEORY. An advanced course in micro-economic theory. Extensive reading in the field is required and recent developments are examined. Emphasis is on those modern contributions which have made
economic theory more realistic and applicable to the world of business. (Prerequisite: Graduate Standing).

506—ADVANCED INCOME THEORY. A macro-economic analysis which examines the determinants of income, employment, and prices and their interrelations aiming at the construction of a general theory. The dynamic character of income determination will be emphasized as well as the effects of government policy, economic institutions, and social goals. (Prerequisite: Graduate Standing).

510—MANAGERIAL ECONOMICS. This course studies the application of economic theory to the decision-making problems of the firm. Topics include: demand analysis and sales forecasting; production and cost analysis; business criteria for investment; forecasting economic activity; pricing; and output and marketing decisions. (Prerequisite: Graduate Standing).

511—BUSINESS AND ECONOMIC FORECASTING. This course will be primarily concerned with macroeconomic data, variables, and predictions. Emphasis will be on the need for accurate predictions of economic activity and the importance of accurate predictions in implementing national economic policy and in making intelligent business decisions. (Prerequisite: Graduate Standing).

514—INDUSTRIAL ORGANIZATION AND PRICES. A course designed to investigate the structure and behavior of modern industrial markets. In addition to a survey of modern theories of pricing in oligopolistic markets and the forms and effectiveness of competition in selected industries, the nature and rationale of certain institutions and practices will be studied, e.g., problems of entry, excess capacity, vertical and horizontal integration, mergers and the problem of conglomerates, patents and cross-licensing, the economics of advertising, and concentration in industry. (Prerequisite: Graduate Standing).

515—BUSINESS AND PUBLIC POLICY. A critical examination of the relationship between government and private enterprise in modern economic life. Norms for establishing spheres of government activity are evaluated. The role of government in promoting competition, in regulating business practices, and in promoting economic stability is examined, as well as the effects of such activities on the private enterprise system. (Prerequisite: Graduate Standing).

518—LABOR FORCE ANALYSIS AND WAGE THEORY. A study of the American labor force: measurement, characteristics, behavior under changing income, employment, and technology. An examination of recent trends in real and money earnings and the distribution of the national income provides the basis for a critical economic analysis and appraisal of contemporary wage theory. (Prerequisite: Graduate Standing).

530—HISTORY OF ECONOMIC THOUGHT. A study of the evolution of the science of economics. Emphasis is on the important contributions made to the field by the great thinkers, starting with the Physiocrats and extending to the work of contemporary economists. (Prerequisite: Graduate Standing).

539—MODERN ECONOMIC SYSTEMS. A study of the theory and practice of modern economic systems. Attention will be devoted to the United States, the Soviet Union and other major nations. (Prerequisite: Graduate Standing).

550—REGIONAL AND URBAN ECONOMICS. This course is composed of two parts. First, an analysis and evaluation of the following methods of regional science will be made: economic base studies, regional multipliers, input-output analysis, industrial location measures, shift and share analysis, and gravity migration models. The second part of the course inquires into the problems of regional income inequality, planning, system of cities, and cost-benefit analysis to social problems of the cities.
560—DEVELOPMENT OF THE AMERICAN ECONOMY. This course describes the economic development of the United States by tracing the effects of the significant innovations. Consideration is divided among the various American metropolitan economies. (Prerequisite: Graduate Standing).

580—TOPICS IN QUANTITATIVE ECONOMICS. This course is designed to acquaint students with certain areas of quantitative and mathematical economics. To a great extent the content of the course will depend upon the individual instructor. Topics generally included in this course are activity analysis, linear programming, game theory, input-output analysis, growth theory, and inventory and portfolio analysis. (Prerequisites: Graduate Standing, Economics 305 and 306, and elementary knowledge of differential calculus, matrix algebra, and statistics).

599—SEMINAR IN ECONOMICS. This course seeks to integrate and unify economic theory and history and empirical economics. The logical structure of economic theory, the interpretation and the testing are emphasized. Students are expected to read, analyze, and discuss articles and books throughout the course.

600—THESIS RESEARCH. The student writing his thesis for the Master of Arts degree must register for this course. He will pursue his research under the direction and guidance of a member of the graduate faculty. Eight quarter hours of credit is given upon the successful completion of the thesis. (Prerequisite: Permission of the Department Chairman).
SCHOOL OF EDUCATION

AUSTIN FLANN, Ph.D., Dean

The School of Education, through its graduate programs, endeavors to help the professional educator further his understanding of the discipline of education; foster increased mastery of professional skills; prepare people for professional leadership and service; and encourage research on problems in the field of education.

The School of Education provides graduate programs which meet the needs of professional educators who desire to prepare themselves through graduate study for positions of leadership in teaching, curriculum development, supervision of instruction, school administration, school guidance and counseling, and specialization in reading disabilities and other learning disabilities.

In addition to degree programs, the School of Education offers the professional educator opportunity for continued professional growth through a variety of non-degree programs. These include workshops, seminars, conferences, courses and related in-service programs.

Programs are designed so that the student has an opportunity to study with the professional education faculty and with faculty in other disciplines. Professional study is closely integrated with course work taken in academic departments of the University.

The School of Education maintains research and school service programs as important adjuncts of graduate study.

ADMISSION TO PROGRAMS

The student desiring admission to a graduate program in professional education must meet the requirements for admission to the Graduate School, as they are described elsewhere in this bulletin. In addition to these requirements, all candidates for admission to programs in the School of Education must meet the following standards:

1. Possession of an undergraduate degree in professional education or an acceptable amount of preparation in professional education and in liberal arts and sciences for the program of specialization to which the student is seeking admission.

2. A superior undergraduate record.

3. Approval by the School of Education Committee on Graduate Admissions.

4. During the quarter preceding the one in which the student wishes to commence his studies, he has:
   a. filed his admission application for graduate study.
   b. filed an official transcript of undergraduate study.

In addition to these admission requirements which are common to all graduate programs in the School of Education, the student is advised that a particular program may have requirements unique to its area of professional specialization. Such requirements are described in appropriate sections of this bulletin.

The School of Education maintains a Graduate Program Office in the Lewis Center, R-1912. Information about graduate programs and related information can be obtained upon request from this office.

STUDENT CLASSIFICATION

1. Regular Student
   Student has met all requirements and has been admitted to a degree program in the School of Education.

2. Unclassified Student
   a. Student is interested in a degree program and is admitted provisionally until the requirements for regular student status have been completed.
   b. Student wants to pursue graduate study, but not a degree program.
REQUIREMENTS FOR A MASTER’S DEGREE

All graduate programs in professional education have the following degree requirements:

1. Completion of a minimum of forty-eight (48) quarter hours of course work.
2. Completion of a master’s thesis for the Master of Arts degree or a master’s paper for the Master of Education degree.
3. Completion of all required examinations.
   a. Written comprehensive examination for the Master of Education degree.
   b. Oral examination on the thesis for the Master of Arts degree.
4. Student is recommended for the degree by the program advisor.

ADMISSION TO CANDIDACY FOR THE MASTER’S DEGREE

All students enrolled in a graduate program as regular students must apply for admission to candidacy for a degree. The student is admitted to candidacy for a degree upon his successful completion of the following requirements:

1. Student is enrolled as a regular student in a graduate program.
2. Student has taken Graduate Record Examination.
3. Student has completed a minimum of 16 but no more than 24 quarter hours with an acceptable grade-point average.
4. Student has outlined his study plan for the completion of his program in consultation with his advisor.
5. Student is recommended for candidacy by his program advisor.

Applications for admission to candidacy for the Master’s Degree are available in the School of Education, Graduate Programs Office.

REGISTRATION FOR GRADUATE COURSES IN EDUCATION

1. No student may register for a graduate course in education without being enrolled in the Graduate School and obtaining approval from a School of Education advisor.
2. The student who is employed full-time should register for an appropriate course load for which he is granted permission by his program advisor.
3. Students beginning their graduate programs normally register for Education 400 and additional courses approved by their advisors.

PROGRAMS OF STUDY

Programs for advanced degrees and for in-service professional growth are offered through three departments of the School of Education. These are the Departments of Curriculum and Instruction, Educational Psychology and Guidance and Counseling, and School Administration.

The School of Education also participates in the preparation of school psychologists in cooperation with the Department of Psychology.

DEPARTMENT OF CURRICULUM AND INSTRUCTION

ALFRED L. PAPILLON, PH.D., Chairman

DON JESTER, PH.D., Program Director, Business Education

ALFRED L. PAPILLON, PH.D., Program Director, Curriculum Development; Elementary and Secondary Education

PAUL CATES, PH.D., Program Director, Reading and Other Learning Disabilities

The Department of Curriculum and Instruction offers professional work at the graduate level in a variety of instructional fields. These include Business Education, Curri-
 Programs for the Master of Arts or 
Master of Education Degree in Business Education

ADMISSION TO PROGRAM

In addition to the general requirements for admission to graduate programs in the School of Education, applicants for the Master's Degree in Business Education must meet the following requirements:

(a) Typewriting (9 quarter hours or the advanced courses in the sequence)
(b) Office Machines (3 quarter hours)
(c) Three of the following areas:

Accountancy (8 quarter hours)
Economics (8 quarter hours)
Finance (4 quarter hours)
Management (4 quarter hours)
Marketing (4 quarter hours)

When, in the judgment of the faculty advisor, an applicant does not satisfactorily meet these specific requirements, he will not be permitted to apply for admission to candidacy until he has remedied the deficiencies through course work. In no case will credit earned in course work to remove deficiencies be applicable to the degree.

Course Requirements

A. Foundations of Education (12 quarter hours)
   Research Methodology—Ed. 400
   Social Foundations—Ed. 408
   Psychological Foundations—Ed. 401 or 402 or 403

B. Business Education (20 quarter hours)
   Ed. 435, 440, and 531 or 539
   Two courses selected from: Ed. 436, 437, 438, 439, or 636

C. Electives (16 quarter hours)
   Business Administration (12 quarter hours) 3 courses
   Secondary Education (4 quarter hours) 1 course
   (Electives selected under advisement with the student's program advisor)

Program for the Master of Arts or 
Master of Education Degree in Curriculum Development

The graduate program for the preparation of curriculum leaders is planned to develop the special competencies needed by the professional educator to give leadership to curriculum development and instructional improvement programs. The program is approved by the Illinois State Certification Board to confer the Administrative Certificate with the general supervisory endorsement.
ADMISSION TO THE PROGRAM

In addition to the general requirements for admission to degree programs in the School of Education, the applicant for the program in Curriculum Development must fulfill the following requirements:

1. Be a certified teacher.
2. Show evidence of at least two years of successful teaching experience.
3. Submit two recommendations by administrative or supervisory personnel where he is employed.

Course Requirements

A. Foundations of Education (8 quarter hours)
   Psychological Foundations—Ed. 402
   Social Foundations—Ed. 408
B. Curriculum Development (16 quarter hours)
   Principles of Curriculum Development—Ed. 497
   Problems and Current Developments in Curriculum—Ed. 488 or 411 or 421
   Administration of Curriculum Planning—Ed. 490
   Practicum in Curriculum Development—Ed. 582
C. Courses Related to Curriculum Development (12 quarter hours)
   Research Methodology and Statistics—Ed. 400
   Foundations of Educational Administration—Ed. 491
   Education 580 or 589
D. Cognate Courses (12 quarter hours)
   Three electives. The student is counseled into courses in disciplines which relate to curriculum development and to the student’s professional needs (e.g., sociology, psychology, anthropology, economics, and allied fields).

Programs for the Master of Arts Degree or the Master of Education Degree in Elementary Education

Course Requirements

A. Foundations of Education (12 quarter hours)
   Research Methodology—Ed. 400
   Psychological Foundations—Ed. 401 or 402 or 403
B. Elementary Education (20 quarter hours)
   Ed. 411 or 412 and 511 or 519
   Three elective courses in elementary education selected under advisement with the student's program advisor.
C. Cognate Courses (16 quarter hours)
   Electives—Four courses (16 quarter hours) in disciplines other than that of education. (Student elects an area of study closely related to his teaching interests.)

Programs for the Master of Arts Degree or the Master of Education Degree in Secondary Education

Course Requirements

A. Foundations of Education (12 quarter hours)
   Research Methodology—Ed. 400
   Psychological Foundations—Ed. 401 or 402 or 403
   Social Foundations—Ed. 408
DE PAUL UNIVERSITY

B. Secondary Education (8 quarter hours)
   Education 421
   Ed. 521 or 529

C. Cognate Courses (28 quarter hours)

Electives—Seven courses (28 quarter hours) in disciplines other than that of education, representing the student’s teaching major (approved by program advisor).

Programs for the Master of Arts Degree or Master of Education Degree in Reading Disabilities and Other Learning Disabilities

The objective of the Master’s Degree Program in Diagnosis and Remediation of Reading Disabilities and Other Learning Disabilities is the preparation of professional personnel at the master’s degree level for schools and clinics. It is intended to prepare specialists in diagnosing and planning for the remediation of students who have specific learning problems. A Master of Arts or a Master of Education Degree is awarded upon successful completion of the program requirements. The successful candidate also becomes eligible for State of Illinois certification in the area of learning disabilities. Two years of teaching experience on the certificate are required in Illinois before supervising in Learning Disabilities.

ADMISSION TO THE PROGRAM

In addition to the general requirements for admission to degree programs in the School of Education, the applicant for the program must fulfill the following prerequisites:

1. Be a certified teacher in elementary or secondary education.
2. Three recommendations from administrative or supervisory personnel.
3. A personal interview with the Program Director.

Course Requirements

A. Foundations of Education (12 quarter hours)
   Research Methodology - Ed. 400
   Psychological Foundations - Ed. 401
   Social Foundations - Ed. 408

B. Reading and Other Learning Disabilities (32 quarter hours)
   Ed. 411
   Ed. 412
   Ed. 413
   Ed. 414
   Ed. 415
   Ed. 512
   Ed. 513
   Ed. 541 or Ed. 549

C. Elective Course (4 quarter hours)
   One course selected from the following with approval of advisor.
   Ed. 402 - 548 - 646 - 647 - 648
   English 302 - Psychology 409
DEPARTMENT OF EDUCATIONAL PSYCHOLOGY,
GUIDANCE AND COUNSELING

EDWARD IGNAS, Ed.D., Chairman
B. EVERARD BLANCHARD, M.A.
DON DINKMEYER, Ph.D.
URBAN H. FLEEGE, Ph.D.

WILLIAM E. GORMAN, Ed.D.
IRMA T. HALFYER, Ph.D.
JOHN TACCARINO, Ph.D.

Graduate programs in guidance and counseling are designed to prepare professional personnel to serve as student personnel and guidance specialists in elementary and in secondary schools. Programs offered lead to the Master of Arts or Master of Education degree.

The department offers a variety of non-degree programs that serve the needs of professional educators working in student personnel and guidance programs.

ADMISSION TO PROGRAMS

In addition to the general requirements listed for admission to degree programs in the School of Education, students seeking admission to programs in guidance and counseling must meet the following requirements:

1. The applicant typically would have two years of successful teaching experience.
2. The applicant must have a recommendation from a principal or other supervisory personnel.

PROGRAMS IN SECONDARY SCHOOL GUIDANCE

Course Requirements

A. Foundations of Education (12 quarter hours)
   Research Methodology—Ed. 400
   Psychological Foundations—Ed. 402
   Social Foundations—Ed. 408

B. Guidance and Counseling (32 quarter hours)
   Ed. 461 or Psych. 471
   Ed. 456
   Ed. 456 or 462 or Psych. 472
   Ed. 451
   Ed. 453
   Ed. 459
   Ed. 552
   Ed. 551 or 559

C. Cognate Courses (4.8 quarter hours)
   Elective—one to two courses selected under advisement (4.8 quarter hours) in
disciplines which relate to the work of the counselor (e.g., Psychology, Sociology,
and allied fields).
DE PAUL UNIVERSITY

PROGRAMS IN ELEMENTARY SCHOOL GUIDANCE

DR. DON DINKMEYER

Course Requirements

A. Foundations of Education (12 quarter hours)
   Research Methodology—Ed. 400
   Psychological Foundations—Ed. 401
   Social Foundations—Ed. 408

B. Guidance and Counseling (32-36 quarter hours)
   Ed. 453
   Ed. 461 or Psych. 471
   Ed. 460
   Ed. 462 or Psych. 472
   Ed. 458
   Ed. 458
   Ed. 464
   Ed. 562
   Ed. 551 or 559

C. Cognate Courses (4 quarter hours)
   Elective—one course selected under advisement (4 quarter hours) in disciplines
   which relate to the work of the counselor (e.g., Psychology, Sociology, and allied
   fields).

DEPARTMENT OF SCHOOL ADMINISTRATION

JOHN C. LYNCH, PH.D., Chairman
RITA M. JENNINGS, ED.D.

Programs in School Administration are designed for both prospective and practicing
school administrators and for professional educators serving in an administrative and
supervisory capacity. The experiences are planned to provide professional preparation,
leadership, and in-service enrichment for elementary and secondary principals, supervisors,
curriculum coordinators and community coordinators. In the fulfillment of the objectives
programs offered lead to the Master of Arts or Master of Education degree, and also serve
the needs of administrative personnel who desire to further their professional preparation.

ADMISSION TO PROGRAMS

In addition to the general requirements listed for admission to degree programs in
the School of Education, students seeking admission to programs in School Administration
must meet the following requirements:

The Candidate:
I. Seeking to become a certified school administrator.
   a. Must be a qualified teacher.
   b. Must have a certified record of at least two years of successful teaching upon
      completion of the program.
   c. Must be recommended by a principal or other supervisory personnel where he
      is employed.
II. Not seeking certification as certified administrator.
   a. Must be recommended.

Programs for the Master of Arts or
Master of Education Degree in School Administration or Supervision

Successful candidates for a degree in the Department of School Administration can
qualify for leadership positions in school administration and supervision.
Course Requirements

A. Foundations of Education (8 quarter hours)
   Psychological Foundations—Ed. 401 or 402 or 403
   Social Foundations—Ed. 408

B. School Administration and Supervision (12 to 15 quarter hours)
   Ed. 491
   Ed. 495
   Ed. 498
   (or approved substitute courses)

C. Courses related to School Administration and Supervision (16-20 quarter hours)
   Research Methodology—Ed. 400
   Ed. 491 or an approved substitute course
   Ed. 591 of 592 or 599
   Elective—three to four courses (4-8 quarter hours) selected under advisement

D. Courses in Cognate Disciplines (8-12 quarter hours)
   Student selects courses with advisor’s approval in disciplines which relate to administrative competence (e.g., Sociology, Psychology, Anthropology, Economics, and allied fields) Two to three.

DEPARTMENT OF EDUCATIONAL FOUNDATIONS—SOCIAL, HISTORICAL AND PHILOSOPHICAL

ANDREW T. KOPAN, M.A., Chairman
HANS A. SCHIESER, Ph.D.

Graduate courses are offered by this department which are an integral part of all graduate degree programs. The intent of these courses is to expose students to the social forces and value systems that underlie and impinge upon the education enterprise and contribute to educational ferment.

Courses Offered

Education 408—Contemporary Issues in Education (4 quarter hours)
Education 606—Philosophy of Education (4 quarter hours)
Education 607—Great Books in Education (4 quarter hours)
Education 608—Human Relations in Education (4 quarter hours)

COURSES OFFERED FOR GRADUATE CREDIT
(Courses below 400 not applicable toward graduate degree requirements)

342—TEACHING ART IN THE ELEMENTARY SCHOOL. Emphasis on program planning, objectives for art education, methods of instruction in elementary education, and the selection and use of instructional materials. (Material Fee: $5.00. 4 quarter hours.)

344—WORKSHOP IN ART EDUCATION. An intensive experience provided in the selection and use of art education methods and instructional materials. (Material Fee: $7.50. 4 quarter hours.)

348—EDUCATIONAL PROGRAMS FOR THE YOUNG CHILD, PRESCHOOL AND KINDERGARTEN. Study of the philosophy, objectives, programs, instructional materials and facilities for programs suitable for the young child. (4 quarter hours)

350—EDUCATIONAL PROGRAMS FOR THE PRIMARY SCHOOL. Curriculum organization, program objectives, philosophy of primary education, and instructional materials and facilities needed for the primary school are given major consideration in this course. (4 quarter hours.)
DE PAUL UNIVERSITY

352—EDUCATIONAL PROGRAMS FOR THE MIDDLE SCHOOL, OLDER CHILDREN. Course deals with the educational programs most appropriate for the upper elementary school child. Special attention is given to emerging trends and recent developments in curriculum organization, program planning, and instruction. (4 quarter hours)

353—TEACHING SCIENCE IN THE ELEMENTARY SCHOOL. Major emphasis given to the role of science education in childhood education, program planning and methods and materials of instruction. (Material Fee: $5.00. 4 quarter hours)

354—GEOGRAPHY FOR TEACHERS. Analyzes the role of geography as the unique subject in the school curriculum providing an integrated understanding of man and his natural environment. Emphasizes skills, understandings and attitudes imparted when teaching geography in elementary and secondary schools. (May be taken for education or geography credit.) (No prerequisites)

358—TEACHING MODERN MATHEMATICS IN THE ELEMENTARY SCHOOL. Instructional methods and materials, and program planning are major emphasis of this course. (Prerequisite: College Mathematics. 4 quarter hours.) Autumn, Spring, Summer Quarters.

359—TEACHING READING IN THE SECONDARY SCHOOL. Development of reading skills in the secondary school, improving reading skills in different content areas and the secondary teacher's role in a reading program. (4 quarter hours.) Winter and Summer Quarters.

362—TEACHING SOCIAL STUDIES IN THE ELEMENTARY SCHOOL. Study is made of social studies education in the elementary school. Special attention is given to recent research and curriculum organization. (4 quarter hours.) Winter Quarter.

370—INTRODUCTION TO LIBRARY SCIENCE FOR TEACHERS. Basic principles; methods for the most effective use of important reference sources; the card catalog; and the aids used in the evaluation and selection of library materials. Special attention is given to the application of knowledge and skills to meet the needs of the classroom teacher with respect to the direction and guidance of children's library experiences. (4 quarter hours.) Winter and Summer Quarters.

371—SEMINAR IN READING PROBLEMS IN THE SECONDARY SCHOOL. Deals with the identification of students with reading problems in the secondary school, and with developing remedial programs to meet their needs. Problems of teaching reading in subject matter fields are considered. (4 quarter hours.)

397—ASTRONOMY FOR TEACHERS. A four quarter hour course designed to meet the needs of elementary and secondary school teachers with no previous experience in this area. The concepts of the celestial sphere, solar system, galaxy and cosmology will be presented and illustrated with the aid of the Zeiss Planetarium machine of the Adler Planetarium. (Prerequisite: Permission. 4 quarter hours.) Autumn and Spring.

GRADUATE COURSES

400—RESEARCH METHODOLOGY AND STATISTICS. Content of the course includes principles of research design, bibliographical skills and statistical procedures for the interpretation of educational data. (Prerequisite: Graduate standing. 4 quarter hours.)

401—ADVANCED DEVELOPMENTAL PSYCHOLOGY. Current research and theories in child development relating to the elementary school child and secondarily to motivation, personality, learning and socialization. Case studies and an analysis of various developmental problems. (Prerequisite: Ed. 332 or 333. 4 quarter hours.)
402—PSYCHOLOGY OF LEARNING. Learning activity is considered along with the coordinates of learning: the person, human capacities, learning materials, concept formation and motivation. (4 quarter hours)

403—SOCIAL PSYCHOLOGY. Study of the influence of group life on behavior and personality development. With emphasis on the group setting, this course considers the different ways in which feelings, attitudes, beliefs, and personality are formed through inter-personal and inter-group stimulation, including an analysis of culture and social control. Various forms of collective behavior, public opinion, the behavior of interest groups, social unrest, and social movements are studied. (Prerequisite: Psych. 105. Offered under Psychology as Psychology 305. 4 quarter hours.)

404—PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD. Identification, characteristics, differences, programs, schools, curricular variations, techniques for securing maximal development. (4 quarter hours.)

408—CONTEMPORARY ISSUES IN EDUCATION. An analysis of selected issues, in their political, social, economic, religious, and cultural dimensions. (4 quarter hours.)

411—THE CURRICULUM IN THE ELEMENTARY SCHOOL. A study of basic concepts of design, organization, and implementation of the elementary school curriculum. Attention is also given to the problems of curriculum change and improvement. (4 quarter hours.)

413—PROBLEMS AND RESEARCH IN TEACHING SCIENCE. The function of science in the elementary school program; recent trends in instructional procedures and materials; and contemporary studies are given consideration. (4 quarter hours.)

415—PROBLEMS AND RESEARCH IN TEACHING SOCIAL STUDIES. This course deals with basic concepts such as social education, social studies, and social learning. Study is also made of instructional materials, current research and contemporary programs. (4 quarter hours.)

416—PROBLEMS AND RESEARCH IN TEACHING MATHEMATICS. The function of mathematics in the elementary school program; recent trends in instructional procedures and materials; and contemporary studies are given consideration. (4 quarter hours.)

418—PROBLEMS AND RESEARCH IN EARLY CHILDHOOD EDUCATION. Basic concepts of pre-school, kindergarten, and primary school programs are analyzed and evaluated. Current trends and issues are an integral part of the course. (4 quarter hours.)

419—SUPERVISING LABORATORY EXPERIENCES IN PROFESSIONAL PROGRAMS FOR TEACHERS. A course designed for teachers and administrators interested in professional teacher education. Focus is on the function of student teaching as a professional laboratory experience. The supervision of student teachers via the case study method is a vital part of the course. (4 quarter hours.)

421—CURRICULUM IN THE SECONDARY SCHOOL. This course develops the main viewpoints in: curriculum theory as applied to the secondary school, relationships between curriculum and instruction, functions of the teacher in the curriculum, approaches for research and evaluation of the curriculum, and trends and problems in the subject-matter fields. Emphasis is placed upon the structure and process of knowledge as the bases for the secondary school curriculum. (Prerequisite: Graduate standing. 4 quarter hours.)

429—ORGANIZING AND TEACHING COOPERATIVE OFFICE EDUCATION. Organization and administration of cooperative programs in vocational office occupations and effective instructional techniques. Meets part of the professional requirements for teacher-coordinators in Illinois. (4 quarter hours.)
430—EXECUTIVE USES OF ACCOUNTING. Use and interpretation of accounting information. (4 quarter hours.)

431—FUNCTIONS OF THE ADMINISTRATOR. An advanced treatment of the fundamentals underlying executive leadership. The course examines the bases of effective thinking that condition the formulation of executive decisions, and outlines the development of the philosophy of professional management. (4 quarter hours.)

432—MARKETING DECISION MAKING. Students are provided with an overview of the marketing process. The orientation is toward the kinds of decisions which marketing managers must make within the limits prescribed by consumers, by government, and by competition. Tools available to marketing managers to facilitate decision making are emphasized. (4 quarter hours.)

433—ECONOMIC ANALYSIS. This course develops some of the more sophisticated tools of analysis in the fields of both macro and micro-economics. In the area of aggregate economics, the applications of economic theory to current problems are stressed; in the area of pricing, emphasis is on those situations which are characteristic of the actual market. (4 quarter hours.)

434—FINANCIAL INTEGRATION. The subject matter is comprised of the financial problems, both historical and current in the functional, public and private sectors of the economy. A critical examination is made of monetary, fiscal and corporate financial policies in both the domestic as well as the international fields, with special emphasis upon the interrelationship of the financial markets. (4 quarter hours.)

435—CURRENT PROBLEMS IN BUSINESS EDUCATION. An analysis of current problems, trends, and recent developments: curriculum, changing objectives, new teaching media, automation, and vocational education. (4 quarter hours.)

436—TEACHING BASIC BUSINESS SUBJECTS. Course content and teaching methodology in economic education. (4 quarter hours.)

437—IMPROVING INSTRUCTION IN TYPEWRITING. New approaches to the teaching of typewriting with emphasis on objectives, multi-media instruction, new materials, and the changing technology in the office. (4 quarter hours.)

438—IMPROVING INSTRUCTION IN SHORTHAND. New approaches in the teaching of shorthand and transcription with emphasis on updated instructional techniques and the use of multiple-channel equipment. (4 quarter hours.)

439—IMPROVING INSTRUCTION IN BOOKKEEPING AND ACCOUNTING. Materials, teaching aims, instructional methods, and analysis of current literature. (4 quarter hours.)

440—FOUNDATIONS IN BUSINESS EDUCATION. Reviews the origin of economic theory and basic business concepts. (4 quarter hours.)

441—THE PSYCHOLOGY OF READING. Psychological principles underlying the reading act; the development of perceptual and linguistic skills; factors of interest and experience; the origins of reading disability. (4 quarter hours.)

442—PSYCHOLOGICAL TESTS AND METHODS IN DIAGNOSIS. Administration and interpretation of diagnostic tests including tests of intelligence, reading language, motor ability and perception appropriate to differential diagnosis. Case study approach. (Prerequisite: Ed. 441. 4 quarter hours.) Materials Fee $5.

443—DIAGNOSIS OF READING AND LEARNING DISABILITIES. Analysis of problems in Reading and Learning Disabilities to determine the factors involved in order to plan a program of Remediation. The course will include the remedial program at all age and grade levels. Students evaluate, study, and employ a wide variety of diagnostic instruments and remedial materials, including the Illinois Test of Psycholinguistic abilities. (Material fees: $4.00) (Prerequisite: Ed. 441. 4 quarter hours.)
444—Remediation of Reading and Learning Disabilities. Analysis of methods and materials for remediation of Reading and Learning Disabilities. (Prerequisite: Ed 413. 4 quarter hours.)

445—Characteristics of the Exceptional Learner—Psycho-social and educational aspects, as well as a consideration of various therapies appropriate to children with learning disabilities. (Prerequisite: Permission. 4 quarter hours)

450—The Dynamics of African-American Culture. This course is intended for teachers in order that they may examine the contributions of the black man to American culture; gain a functional understanding of the social, economic and political development of the black man in America; gain an insight into problems created in America because of non-acceptance relationships; gain an understanding of the intensity of the impact of the black man on American culture. (4 quarter hours)

452—Pupil Personnel Services. This course deals with the principles and current practices used in the development and organization of a student personnel program. Administrative problems, integration of guidance services, community relations and evaluation procedures will be studied. (4 quarter hours)

453—Educational and Occupational Information. This course deals with the results of studies in educational and occupational opportunities. The following areas will be discussed: occupational trends, sources of information, techniques for conducting local occupational surveys, scholarship information, and classroom use of educational and occupational information. (4 quarter hours)

454—Vocational Guidance. This course includes ways in which counselors assist the individual to choose, prepare for, and progress in an occupation. Vocational testing, sources of occupational information, qualifications of the vocational counselor and scientific evaluation of vocational guidance will be stressed. (4 quarter hours)

455—The Administration of Guidance Programs. Designed for school administrators, supervisors and counselors. Critical examination of the organization and administration of guidance programs in large and small schools, both public and parochial. Also included will be the development of guidance programs for the schools represented by the class membership. (4 quarter hours)

456—Counseling the College-Bound Student. A course designed to assist school counselors in formulating a deeper perspective of the college counseling process. The use of profiles, types of colleges and admissions procedures, testing, scholarships, advance placement, the preparing of the school report and many other items will be included in the instruction. The workshop approach will be used in the final two weeks of the course to put into practice the facts learned earlier. (4 quarter hours)

458—Group Processes in Guidance. The student makes a study of group process, its theory, procedures, and problems as they relate to group counseling and group guidance. The class engages in a regular group experience. Opportunity to observe and participate in group work is provided. (4 quarter hours.) (Prerequisite: 462. Permission of Instructor.)

459—Clinical Studies in Guidance. This course deals with the study of normal children with educational problems. The nature, synthesis and use of case studies for guidance purposes will be stressed. The interrelationship among the various guidance techniques will be demonstrated. (4 quarter hours)

460—Guidance in the Elementary School. A study of the philosophy, concepts and rationale which undergird elementary school guidance. Principles and practices as they relate to the guidance program are presented. The student is acquainted with the role of the counselor and is introduced to the various facets of
the elementary school program. Attention is given to the development of guidance techniques in the classroom and group guidance. (4 quarter hours)

461--USE OF TESTS IN APPRAISAL AND DEVELOPMENT. Detailed analysis of intelligence, aptitude, personality, and achievement tests used with groups and individuals. The course is intended to familiarize students with various appraisal procedures and their utilization in guidance and counseling. Attention is given to the development of the school testing program. (4 quarter hours)

462--SCHOOL COUNSELING THEORY AND PRACTICE. This course seeks to develop an understanding of the major counseling theories and their application to school counseling. Each student investigates counseling theory through wide reading and has an opportunity to see the implications of the theory in demonstration and practice. The basic theoretical considerations underlying school counseling are stressed. Students are expected to develop a personal theory of counseling. (4 quarter hours)

463--TECHNIQUES OF GUIDANCE AND COUNSELING IN ELEMENTARY AND JUNIOR HIGH SCHOOL. A thorough study of the counseling relationship and counseling process. Students are introduced to specific techniques in counseling. The course is designed to help the student acquire the necessary counseling skills such as the establishment of a relationship, reflection, summarization, tentative analysis, and encouragement. The student evaluates and analyzes tapes, develops listening skills to facilitate communication, engages in role playing, and has limited contact with the counselor. The relationship of counseling and consultation and the skills necessary to conduct the total elementary guidance program are considered. (4 quarter hours) (Prerequisites: Education 460 and 462)

464--GUIDANCE CONSULTING. This course focuses on the utilization of a human behavior rationale in consultation work with teachers and parents. Students are engaged in case study, role playing, and observation of the consultant role. (4 quarter hours)

488--CURRENT PROBLEMS AND ISSUES IN CURRICULUM DEVELOPMENT. The purpose of this course is to make the student knowledgeable about the curriculum in terms of current research and theory. Significant topics include: new theoretical models for curriculum; providing for disadvantaged, underachieving, and gifted students; nongraded and special schools; television and programmed instruction; research activities—large-scale projects, associations, regional laboratories, ERIC, curriculum centers. (Prerequisite: Education 497. 4 quarter hours)

490--THE ADMINISTRATION OF CURRICULUM PLANNING. The course explores the issues and new developments in curriculum planning on the state, the district, and the federal level; effective leadership of teachers, students, the public, and parents in curriculum development; the organization and functioning of curriculum workshops, laboratories, libraries, and study centers; research and curriculum evaluation; financing of curriculum planning; and relationships between school administration and curriculum planning. (5 quarter hours. Prerequisite: Education 497)

491--FOUNDATIONS IN EDUCATIONAL ADMINISTRATION AND SUPERVISION—ELEMENTARY AND SECONDARY SCHOOLS. This course is designed both as an introductory course in educational administration and supervision for teachers and potential school administrators and as a functional informative course for those in administrative and supervisory positions. Basic competencies in organization and structure include a preview of federal, state, and local agencies and services. In addition the course previews basic knowledge in staff and pupil personnel, boards of education, instruction and curriculum development, the school plant, school finance and business management, and home-school-community relations. (Prerequisite: Graduate standing. 4 quarter hours)
492—ELEMENTARY SCHOOL ADMINISTRATION AND SUPERVISION. This course deals with the administration and supervision of pupils; classification and promotion procedures; the program of studies; special problems associated with kindergarten, primary, intermediate, and upper grade levels; direction and supervision of classroom teaching; and methods of evaluating pupil progress. Economic and effective methods of administering and supervising attendance, the school library, books, supplies, school records and the educational plant receive particular attention. (Prerequisite: Educ. 491 or permission of advisor. 4 quarter hours.)

493—SECONDARY SCHOOL ADMINISTRATION AND SUPERVISION. An intensive study of factors involved in the administration and supervision of a secondary school. Topics considered include the administration and supervision of student personnel, faculty, lay and professional officers, class scheduling, co-curricular program, promotion policies, instructional materials, properties and finance, community relations and other basic needs in administering and supervising a secondary school. (Prerequisite: Educ. 491 or permission of advisor. 4 quarter hours.)

494—SCHOOL FINANCE AND SCHOOL BUILDINGS. Major consideration will be given to problems relating to the preparing of a school budget, procuring revenue, financial accounting, architectural service, capital outlays, use of buildings, maintenance of the plant, insurance on property, taking the inventory. Problems and policies of the school plant, such as population studies, educational planning, school building standards. Materials and uses will be reviewed and tentative solutions found. (Prerequisite: Ed. 491, 492, or 493 or permission of advisor. 4 quarter hours.)

495—SCHOOL LAW FOR TEACHERS AND ADMINISTRATORS. This course is intended to acquaint teachers and administrators with the basic principles and applications of school law. Special emphasis will be placed on the School Laws of Illinois. (Prerequisite: Ed. 491 or permission of advisor. 4 quarter hours.)

496—HUMAN RELATIONS: HOME, SCHOOL, COMMUNITY. Home-school-community relations is taught with full recognition of the equity of the church, the home, the community and the school in the education of our boys and girls. The students will critically analyze the force of public opinion as well as the devices employed in shaping public opinion. Consideration will be given to the various means employed by gaining the support of the many cooperating agencies in the community. (Prerequisite: Ed. 491. 4 quarter hours.)

497—PRINCIPLES OF CURRICULUM DEVELOPMENT. Purpose of course: to prepare the student for special role of reorganizing and administering the curriculum. Course treats relationships of the curriculum to the social order, principles of content selection and sequence, patterns of curriculum organization, personnel and organization required for curriculum revision. (4 quarter hours)

498—PRINCIPLES AND PRACTICES OF SUPERVISION. Fundamental phases of supervision and the relationship of the supervisor to the administrator and to the classroom teacher. Illustrations will be made of techniques for the improvement of learning through the improvement of teaching, through satisfactory supervisory procedures. Emphasis is on basic principles. (Prerequisite: Ed. 491 or permission of advisor. 4 quarter hours.)

499—PROBLEMS IN SCHOOL SUPERVISION. Special problems in supervision as they affect the interrelation of teaching and learning will be discussed. A detailed study of various techniques which lead to cooperative effort of supervisor, teacher, and learner in the improving of the learning situation will be made. Problems presented by members of the class will be studied cooperatively and tentative solutions will be planned. (Prerequisite: Ed. 491, 498. 4 quarter hours.)

500—ADMINISTRATION AND SUPERVISION OF SCHOOLS IN TRANSIENT AREAS. Problems facing schools with children who have been disadvantaged through circum-
stances beyond their control. The problems faced by the children, the teachers and the administrators are discussed and tentative solutions proposed. (Prerequisite: Ed. 491. 4 quarter hours.)

511—RESEARCH SEMINAR IN ELEMENTARY EDUCATION. Opportunity is provided for individual research and study of problems in elementary education. A seminar research paper is a major requirement of the course. (4 quarter hours.)

512—TEACHING INTERNSHIP IN ELEMENTARY EDUCATION. An internship involving teaching in a school. Student is supervised by personnel from the school and from DePaul University. This course includes a weekly seminar. (10 quarter hours.)

518—INDEPENDENT STUDY IN ELEMENTARY EDUCATION. (Prerequisite: Permission of program director. 2-4 quarter hours.)

519—THESIS RESEARCH IN ELEMENTARY EDUCATION. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program director may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours.)

521—RESEARCH SEMINAR IN SECONDARY EDUCATION. Opportunity is provided for individual research and study of problems in secondary education. A seminar research paper is a major requirement of the course. (4 quarter hours.)

525—TEACHING INTERNSHIP IN SECONDARY EDUCATION. An internship involving teaching in a secondary school. Student is supervised by personnel from the school and from DePaul University. This course includes a weekly seminar. (10 quarter hours.)

528—INDEPENDENT STUDY IN SECONDARY EDUCATION. (Prerequisite: Permission of program director. 2-4 quarter hours.)

529—THESIS RESEARCH IN SECONDARY EDUCATION. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program director may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours.)

531—RESEARCH SEMINAR IN BUSINESS EDUCATION. Opportunity is provided in this seminar for Master of Education candidates to write their 5,000 word paper. Individual research and study of problems in business education form the basis for this class. (4 quarter hours.)

538—INDEPENDENT STUDY IN BUSINESS EDUCATION. (Prerequisite: Permission of director. 2-4 quarter hours.)

539—THESIS RESEARCH IN BUSINESS EDUCATION. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program director may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours.)

541—SEMINAR ON THE PSYCHOPATHOLOGY OF LEARNING. A review of interdisciplinary theories and research applicable to the atypical learner. Opportunity is provided in this seminar for the Master of Education candidate to write his masters paper. (4 quarter hours)

542—DIAGNOSIS AND REMEDIATION OF READING DISABILITIES PRACTICUM I. The practicum will afford student the opportunity to diagnose the reading difficulties of youngsters as well as to set up an intelligent plan for the remediation of the problem. Practicum students will employ case study techniques and will meet with the professor in staff meetings after the diagnostic data have been obtained. (Prerequisites: Ed. 441, 442, 443, 444, 445 and permission of instructor. 4 quarter hours)
545—DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES, PRACTICUM II. Observation and practical application of diagnostic-remedial process in schools and clinical settings of cases with specific learning disabilities. (Prerequisite: Ed. 542. 4 quarter hours)

544—TESTING AND DIAGNOSIS OF READING AND LEARNING DISABILITIES, PRACTICUM III. Students are directed in experiences in the use of tests in diagnosing reading and learning disabilities of children. (Prerequisites: Ed. 542 and 545. 4 quarter hours)

548—INDEPENDENT STUDY IN READING AND OTHER LEARNING DISABILITIES. (Prerequisite: Permission of program director. 2-4 quarter hours.)

549—THESIS RESEARCH IN READING AND OTHER LEARNING DISABILITIES. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program director may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours.)

551—RESEARCH SEMINAR IN GUIDANCE. Opportunity is provided in this seminar for Master of Education candidates to write their 5,000 word paper. Individual research and study of problems in guidance form the basis of this class. (4 quarter hours.)

552—PRACTICUM IN COUNSELING. This course consists of selected and directed experiences provided to qualify students to serve in the secondary schools as student personnel and guidance staff members. Prerequisite: Open to students in degree program only by advisement. (4 quarter hours.)

553—INTERNSHIP IN COUNSELING. Intern is assigned to one or more cooperating schools for one, and preferably two, quarters, where he, under the joint supervision of the counseling services, administrator and the University supervisor, gains practical experience in various aspects of counseling materials, functions, procedures and services. Intern completes a jointly approved research project related to counseling in the cooperating school or school district. (4-8 quarter hours.)

558—INDEPENDENT STUDY IN EDUCATIONAL PSYCHOLOGY AND GUIDANCE AND COUNSELING. (Prerequisite: Permission of program advisor. 2-4 quarter hours.)

559—THESIS RESEARCH IN EDUCATIONAL PSYCHOLOGY AND GUIDANCE AND COUNSELING. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program advisor may require the student to register for additional credit. (Prerequisite: Graduate standing and thesis topic and outline approved. 4 quarter hours.)

562—PRACTICUM IN COUNSELING. This course consists of selected and directed experiences provided to qualify students to serve in the elementary schools as student personnel and guidance staff members. Prerequisite: Open to students in degree program only by advisement. (4 quarter hours.)

580—RESEARCH SEMINAR IN CURRICULUM DEVELOPMENT. Students in the Master of Education program in curriculum development complete a bibliographical research study of issues and problems in curriculum development. Students who currently hold positions in curriculum may complete an action research project for this seminar (Prerequisite: Education 400, 497. 4 quarter hours.)

582—PRACTICUM IN CURRICULUM DEVELOPMENT. The student is provided directed experiences in decision-making for curriculum, participation and leadership in curriculum committee activities, planning and management of learning resource
centers, and representative other aspects of administration of curriculum development in schools and school systems. (Prerequisite: Advisement by program director. 4 quarter hours.)

588—INDEPENDENT STUDY IN CURRICULUM DEVELOPMENT. (Prerequisite: Permission of the program director. 2-4 quarter hours.)

589—THESIS RESEARCH IN CURRICULUM DEVELOPMENT. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program advisor may require the student to register for additional credit. (Prerequisite: Admission to candidacy and thesis topic outline approved. 4 quarter hours.)

591—RESEARCH SEMINAR IN ADMINISTRATION. For graduate students who hold administrative positions or who are majoring in and have completed their pre-course in educational administration. Critical evaluation of recent research in field; investigation and discussion of pertinent problems. Seminar culminates in a published report or work undertaken. (Prerequisite: Ed. 491, 492 or 493 or permission of advisor. 4-8 quarter hours.)

592—RESEARCH SEMINAR IN SUPERVISION. Designed for students majoring in supervision and administration. A general review of the literature in the field; critical evaluation of recent studies in supervision. Student undertakes a special project in the area of his major interests in supervision and receives practice in cooperative leadership. (Prerequisite: Ed. 400. 4 quarter hours.)

593—PRACTICUM IN SCHOOL ADMINISTRATION AND/OR SUPERVISION. The practicum provides opportunities for advanced students in school administration and/or supervision to participate in and complete a research project in selected school systems on a full-time or part-time basis. The experiences are intended to provide, under professional direction and supervision, for (1) study of major factions policies, and problems of school administration and/or supervision and (2) intensive study of certain critical administrative and/or supervisory practices. (Prerequisite: Advanced students in administration or supervision and permission of department chairman. 4-8 quarter hours.)

594—INTERNSHIP IN SCHOOL ADMINISTRATION AND/OR SUPERVISION. The Internship provides supervised experiences in selected school systems on a full-time or part-time basis. The student intern is cooperatively assigned to a school system under the immediate supervision of a superintendent and/or principal. The experiences provided are designed to enrich the students' theoretical background with practical opportunities of participating in (1) overall contact with the student personnel and with the major functions and problems of certain critical administrative and/or supervisory activities and (2) a detailed study and analysis of a particular administrative and/or supervisory function or activity. (Prerequisite: Advanced students in administration or supervision and permission of department chairman. 4-8 quarter hours.)

595—WORKSHOP IN SCHOOL ADMINISTRATION AND/OR SUPERVISION. Participation in the workshop is limited to advanced students in school administration and supervision. Students' participation is enhanced by opportunities provided in interpreting and evaluating school surveys. Surveys are edited and prepared for publication. (Prerequisite: Permission of Chairman. 4 to 8 quarter hours.)

596—SCHOOL SURVEYS. Advanced students in school administration receive experience in participating in limited and comprehensive surveys. These surveys are completed in both public and private parochial schools and the results published. They provide students with functional applications of administrative and supervisory theory. (Prerequisites: Advanced student in school administration and consent of Department Chairman. 4 to 8 quarter hours.)
EDUCATION

598—INDEPENDENT STUDY IN SCHOOL ADMINISTRATION AND SUPERVISION. (Prerequisite: Permission of program advisor. 2-4 quarter hours.)

599—THESIS RESEARCH IN SCHOOL ADMINISTRATION AND SUPERVISION. A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself is prolonged beyond the usual time, the program advisor may require the student to register for additional credit. (Prerequisite: Graduate standing and thesis topic and outline approved. 4 quarter hours.)

606—PHILOSOPHY OF EDUCATION. An analysis and evaluation of the major philosophies of education. (Prerequisite: Education 580. 4 quarter hours.)

607—GREAT BOOKS ON EDUCATION. Perennial problems of education as seen in historical works on education. (4 quarter hours.)

608—HUMAN RELATIONS IN EDUCATION. Analysis of problems arising in the school with the presence of pupils and teachers of diverse racial, religious, socioeconomic and ethnic backgrounds. (4 quarter hours.)

626—JUNIOR HIGH SCHOOL. This course emphasizes psychological insights and characteristics of the upper grade—junior high school pupil; aims and content of junior high school curriculum; organization and administration of programs peculiar to the junior high school. (4 quarter hours.)

635—WORKSHOP IN CONSUMER PROBLEMS. The teaching of installment purchasing, budgeting, comparison of prices, and other topics to comply with the recent legislation requiring such instruction in grades 8 through 12. Meets the certification requirements for teachers of consumer economics in Illinois. (4 quarter hours.)

636—WORKSHOP FOR TEACHERS OF OFFICE EDUCATION. New concepts in office education, teaching procedures, and course content. (4 quarter hours.)

637—WORKSHOP IN DATA PROCESSING. The teaching of unit-record equipment at elementary and post-secondary levels. (4 quarter hours.)

645—TEACHING READING TO THE MATURE READER. This course is designed for the reading teacher who will work with good teachers at the high school or adult level who want to develop optimum reading skills. Emphasis will be placed on reading speed and effective study skills in reading. (4 quarter hours.)

646—TEACHING READING TO THE DISADVANTAGED. This course emphasizes the special skills, techniques and insights necessary to instruct effectively the child from an inner city environment. The range for this course will be from the pre-school level through the senior high school. (4 quarter hours.)

647—CHILDREN'S LITERATURE. Sources of literature for children and youth, Criteria for selection and evaluation. Intensive review and analysis of both poetry and prose. (4 quarter hours)

648—CORRECTIVE READING PROBLEMS. Methods and materials appropriate to the diagnosis and remediation of corrective reading problems. Organization of corrective reading programs in the classroom setting. (4 quarter hours.)

658—GUIDANCE IN BASIC ADULT EDUCATION. This course is intended for educators who are actively engaged in work with disadvantaged adults. Emphasis is placed on personnel services in basic education centers for adults. (6 quarter hours.)

659—COUNSELING IN BASIC ADULT EDUCATION. This course is intended for educators who are actively engaged in work with disadvantaged adults. Emphasis is placed on counseling in basic education centers for adults. (6 quarter hours.)

691—Illinois School Law for Teachers and Administrators. This course in Illinois School Law is based principally on the students acquiring a workable knowledge of the Illinois School Code as well as a facility in checking the various laws in the School Code in Chapter 122 of the Smith-Hurd Illinois Annotated Statutes. Special emphasis is placed on the laws dealing with school boards, school administration, employment of teachers, instruction, and the children. Prerequisites: Education 491, 495, or permission of advisor.
DEPARTMENT OF ENGLISH

PATRICIA EVERS, Ph.D., Chairman
BERNARD A. BRUNNER, Ph.D.  MARGARET M. NEVILLE, Ph.D.
WILLIAM J. FEENEY, Ph.D.  JOHN PRICE, Ph.D.
ELLIN M. KELLY, Ph.D.  LAVON RASCO, Ph.D.
REV. JAMES F. LARKIN, S.S.V., Ph.D.  FRANK SHERMAN, Ph.D.
REV. JEREMIAH LEHANE, C.M., Ph.D.  FREDERICK I. TETZE, Ph.D.
JOHN MASTERS, Ph.D.  PHILIP VITALE, Ph.D.

PURPOSE
To broaden the general foundations of knowledge and to prepare for professional advancement, the English Department offers graduate techniques in the ordering and establishing of scholarly evidence, training in linguistic history, work in the critical process, and the opportunity for specialization in a variety of studies allied with English and American Literature.

In line with these objectives, the Department offers three programs leading to the Master of Arts degree—a thesis program and two non-thesis programs.

The Department is offering special courses for college teachers, or for those preparing to teach in college. These courses may be taken as part of a Master’s program, or as special courses beyond the Master’s degree.

PREREQUISITES
For all programs leading to the Master's degree, the prerequisites in English are normally 12 quarter courses (48 quarter hours or 32 semester hours). The following courses are recommended:

1. Composition beyond the freshman level.
2. Introduction to Literature.
3. Shakespeare
4. Period surveys in English Literature (at least three periods).
5. Period surveys in American Literature (at least two periods).
6. Other advanced undergraduate courses to complete 32 semester hours, or 48 quarter hours.

DEGREE OF MASTER OF ARTS PROGRAM I: THESIS

1. Completion of ten courses, normally all 10 in English. These courses must include the following:
   a) 400 - Bibliography and Literary Research
      401 - History of the English Language
      470 - Studies in Literary Criticism
   b) Five other courses from the 400 level
   c) Two other courses from the 400 and/or 500 level
2. A thesis, or creative writing project in fiction, drama or poetry.
3. A comprehensive written examination.

DEGREE OF MASTER OF ARTS PROGRAM II: NON-THESIS

1. Completion of 12 courses. At least nine of the twelve must be in the English Department. The remaining three courses may be taken, with the written consent of the chairman of the department, as a minor in history, philosophy, or education, provided the student has the necessary undergraduate prerequisites for such a minor. The student may, however, take all twelve courses in English. The courses must include the following:
   a) 400 - Bibliography and Literary Research
      401 - History of the English Language
      470 - Studies in Literary Criticism

b) five other courses from the 400 level in English.
c) four other courses, including one English course, from the 400 and/or 300 level.
2. A comprehensive written examination.

DEGREE OF MASTER OF ARTS PROGRAM III: FOR PROSPECTIVE COLLEGE TEACHERS

1. Completion of twelve courses. At least nine of the twelve must be in the English Department; up to three courses may be taken in the School of Education, provided that the student has the necessary prerequisites in Education. The courses must include the following:
   a) 400 - Bibliography and Literary Research
   401 - History of the English Language
   470 - Studies in Literary Criticism
   475 - Studies in Literary Analysis
   b) a choice of either 403 - The Twentieth Century English Language, or 405 - The Process of Composition.
   c) four other courses in literature, three of which must be 400 level.
   d) three other courses in Education and/or English.
2. A comprehensive written examination.

ENGLISH AS A MINOR FIELD

English literature may be combined as a minor field with education, history, Latin, or philosophy. The undergraduate preparation should consist of twelve semester hours, or eighteen quarter hours, in English beyond the freshman level. Two-thirds of this undergraduate work should be in literature; the remaining third may be in advanced composition or linguistics.

ENGLISH DEPARTMENT HANDBOOK

Every student should obtain a copy of the English Department Handbook from the Department office at the beginning of his graduate study. This Handbook offers further explanation of the three programs offered.

COURSE OFFERINGS

Courses numbered on the 300 level are advanced undergraduate courses in which graduate students may earn graduate credit. Courses numbered 400 and above are usually limited to graduate students.

Required Graduate Courses for All Programs

400 - BIBLIOGRAPHY AND LITERARY RESEARCH. A general course for the guidance of students in methods of literary research.
401 - HISTORY OF THE ENGLISH LANGUAGE. A systematic study of the nature, history, and usage of the English language. The course traces the language from its origin to its present status in England and America.
470 - STUDIES IN LITERARY CRITICISM. The major texts in literary criticism.

ADVANCED COMPOSITION AND LINGUISTICS

300 - ADVANCED COMPOSITION
301 - ADVANCED THEORY AND PRACTICE OF COMPOSITION (Especially for prospective high school English teachers.)
302 - GRAMMAR AND COMPOSITION IN AMERICAN ENGLISH
303 - LANGUAGE STUDIES FOR THE ELEMENTARY TEACHER (For Elementary Education majors only)
305 - CREATIVE WRITING: PROSE AND POETRY
401 - HISTORY OF THE ENGLISH LANGUAGE
DE PAUL UNIVERSITY

403—THE TWENTIETH CENTURY ENGLISH LANGUAGE: GRAMMATICAL APPROACHES AND PROBLEMS.
405—THE PROCESS OF COMPOSITION: A THEORY AND PRACTICE COURSE FOR COLLEGE TEACHERS

MEDIEVAL PERIOD

310—ENGLISH LITERATURE TO 1350
311—CHAUCER AND LANGLAND
319—STUDIES IN SELECTED MEDIEVAL WORKS (Check current schedule for specific listing.)
*410—STUDIES IN ENGLISH LITERATURE BEFORE CHAUCER (Check current schedule for specific topics.)
411—STUDIES IN CHAUCER

RENAISSANCE PERIOD

320—ENGLISH RENAISSANCE LITERATURE
329—STUDIES IN RENAISSANCE LITERATURE (Check current schedule for specific listing.)
420—STUDIES IN ENGLISH RENAISSANCE LITERATURE
428—STUDIES IN SHAKESPEARE
*429—STUDIES IN SPECIAL TOPICS OR AUTHORS OF THE RENAISSANCE (Check current schedule for specific listing.)

RESTORATION AND EIGHTEENTH CENTURY

330—ENGLISH LITERATURE: RESTORATION AND EIGHTEENTH CENTURY
339—STUDIES IN RESTORATION AND EIGHTEENTH CENTURY LITERATURE
(Check current schedule for specific listing.)
430—STUDIES IN EIGHTEENTH CENTURY ENGLISH LITERATURE.
*439—STUDIES IN SPECIAL TOPICS OR AUTHORS OF THE RESTORATION AND EIGHTEENTH CENTURY
(Check current schedule for specific listing.)

NINETEENTH CENTURY PERIOD

340—NINETEENTH CENTURY ENGLISH LITERATURE
342—THE ENGLISH ROMANTIC MOVEMENT
343—THE VICTORIAN AGE IN ENGLISH LITERATURE
442—STUDIES IN THE ENGLISH ROMANTIC WRITERS
445—STUDIES IN THE VICTORIAN WRITERS
445—STUDIES IN NINETEENTH CENTURY BRITISH FICTION

MODERN PERIOD

350—MODERN ENGLISH LITERATURE
355—MODERN ENGLISH AND IRISH DRAMA
451—STUDIES IN THE MODERN BRITISH NOVEL
452—STUDIES IN MODERN BRITISH POETRY

AMERICAN LITERATURE

360—AMERICAN LITERATURE TO 1880
361—AMERICAN LITERATURE: 1830-1890
362—AMERICAN LITERATURE: 1890 TO THE PRESENT
364—DEVELOPMENT OF THE AMERICAN NOVEL
365—MODERN AMERICAN NOVEL
366—TWENTIETH CENTURY AMERICAN POETRY

*Courses marked *, such as English 410, 420, 439 and 460 may be taken more than once for graduate credit provided the sub-title of the course as given in the quarterly schedules shows different subject matter.
ENGLISH

368—AFRO-AMERICAN LITERATURE
369—STUDIES IN SELECTED AMERICAN AUTHORS AND TOPICS (Check current schedule for specific listing)
460—STUDIES IN AMERICAN LITERATURE: BEGINNINGS TO 1830
461—STUDIES IN AMERICAN LITERATURE: 1830-1890
463—STUDIES IN AMERICAN LITERATURE: 1890-1940
465—STUDIES IN THE MODERN AMERICAN NOVEL
466—STUDIES IN MODERN AMERICAN POETRY
467—STUDIES IN AMERICAN DRAMA
*469—SPECIAL STUDIES IN SELECTED AMERICAN AUTHORS OR TOPICS. (Check current schedule for specific listing.

LITERARY CRITICISM

370—CONTEMPORARY LITERARY CRITICISM
375—STUDIES IN LITERARY CRITICISM. The major texts in literary criticism.
479—STUDIES IN LITERARY ANALYSIS. A THEORY AND PRACTICE COURSE FOR COLLEGE TEACHERS

COMPARATIVE LITERATURE

380—MASTERPIECES OF WORLD LITERATURE
382—MODERN EUROPEAN FICTION
386—COMPARATIVE DRAMA (exclusive of English and Irish)
389—STUDIES IN COMPARATIVE LITERATURE (Check current schedule for specific listing)
481—STUDIES IN COMPARATIVE LITERATURE: ANCIENT
483—STUDIES IN COMPARATIVE LITERATURE: MEDIEVAL
485—STUDIES IN COMPARATIVE LITERATURE: MODERN

SPECIAL STUDIES AND INDIVIDUAL STUDY

490—SEMINAR IN COMPOSITION, LANGUAGE, OR CRITICISM FOR COLLEGE TEACHERS (Check current schedule for specific listing)
498—INDEPENDENT STUDY. Independent study is conducted with the permission of the chairman of the department and under the guidance of a member of the graduate faculty. Such study should not duplicate an existing course, and is allowed only to those graduate students who have completed half their required course work.
499—THESIS RESEARCH. A four quarter hour course. Guidance by a member of the English faculty required in the preparation of the master's thesis. The student will register for this course after consultation with the department chairman.
DEPARTMENT OF GEOGRAPHY
Richard J. Houk, Ph.D., Chairman
Lorin R. Contescu, Ph.D. Vernon R. Prinzinger, M.A.
Pierre R. de Vise, M.A. Jane E. Ratcliffe, Ph.D.
Donald R. Dewey, Ph.D. Gerald W. Kopra, M.A.
Albert J. Larson, Ph.D.

PREREQUISITES AS A MINOR FIELD

Geography as a minor field may be taken in connection with economics, education, history, or sociology. The prerequisites are 20 quarter hours in geography courses equivalent to Geography 100, 101, 106 or 107 or 110, 341, and 395. Students minorin in geography must confer with the chairman of the department, who will propose an individual program of study based on previous training, interests, and needs.

391—INTRODUCTION TO OCEANOGRAPHY

Concerned with the formation and exploration of the oceans and their political and economic significance.

Courses from 311 through 327 are detailed regional appraisals of the geographic phenomena within the area considered. Stressed is the complex of cultural and physical features—their nature, distribution and interrelationship significant to the population. Global interest in and concern with the various countries is developed through analyses of their principal problems, including population density and composition, economic development, and international relationships.

311—PATTERNS OF THE PACIFIC
312—ARAB AFRICA AND THE MIDDLE EAST
313—BLACK AFRICA, A CONTINENT IN TRANSITION
314—INDIA, PAKISTAN, AND SOUTHEAST ASIA
316—PHYSICAL, ECONOMIC AND CULTURAL CONTRASTS IN WESTERN EUROPE
317—PHYSICAL, ECONOMIC AND CULTURAL CONTRASTS IN EASTERN EUROPE AND THE USSR.
321—THE CHICAGO METROPOLITAN AREA

Extensive field trips make possible on-the-spot study of local phenomena of major importance in analyzing Chicago's urban geography. (Transportation fee required.)

322—EASTERN UNITED STATES AND CANADA
323—WESTERN UNITED STATES AND CANADA
326—MAN AND LAND IN THE CARIBBEAN
327—MAN AND LAND IN SOUTH AMERICA
333—THE CITY: PROBLEMS AND PLANNING

Analyzes the development of cities as geographic forms and the role of City Planning in preventing or solving urban problems.

335—POLITICAL GEOGRAPHY

Investigates the basic factors influencing man's political organization of space.

340—MAPS AND MAN

Stresses the preparation and interpretation of maps, charts and globes and explains their vital importance in the modern world.

341—CARTOGRAPHY AND COMPUTER GRAPHICS. Practical instruction in the use of computers and traditional hand techniques in the construction of maps.

354—CONTEMPORARY METHODS IN THE TEACHING OF GEOGRAPHY

Analyzes the unique role of geography for teachers in elementary and secondary schools. (May be taken for education credit as Education 354.)
370—RECREATIONAL GEOGRAPHY
The changing use and management of recreation facilities in the rural and urban landscape. Stresses principles of recreation location via fieldwork.

395—SEMINAR IN SELECTED GEOGRAPHIC TOPICS
An upper-division seminar concerned with the study of selected geographic problems. (Prerequisite: Geography 100 and/or consent of the instructor.)

398—INDEPENDENT READING AND RESEARCH
Permits intensive study of a topic of special interest. Private conferences permit discussion with instructor of supervised reading and research.
DEPARTMENT OF HISTORY

ROBERT F. FRIES, PH.D., Chairman

DONALD ABRAMOSKE, PH.D.
ALBERT EBEBACHER, PH.D.
ROBERT CAFIELD, PH.D.
JOSEPH H. LEHMANN, PH.D.
MARTIN J. LOWERY, PH.D.
RALPH J. MAILIARD, PH.D.

BEENARDINE PIRZASZEK, PH.D.
SHOLOM SINGER, PH.D.
CORNELIUS SIEPEL, PH.D.
HARRY THOMSON, PH.D.
ARTHUR THURNER, PH.D.

PURPOSE

The purpose of all courses offered by the Department of History is to provide a broad and critical acquaintance with the past experience of human society. Graduate courses involve wide contact with historical literature, including source materials; some practice in collecting, interpreting, and presenting data according to acceptable standards of method and style; and intensive discussion of the nature and problems of the discipline.

The degree program is intended to prepare the student for further advanced study, as well as to give him a disciplinary background adequate for the professions, such as secondary school teaching, in which a master's degree is ordinarily considered adequate.

PREREQUISITES

Applicants for admission to the Master of Arts degree program must have satisfactorily completed 48 quarter hours (32 semester hours) in the social sciences, of which at least 36 quarter hours (24 semester hours) must be in history. These 36 quarter hours should include both European and United States history. The remaining 12 quarter hours may be in history, economics, political science, sociology, geography, history of music, history of education, or history of philosophy.

DEGREE OF MASTER OF ARTS

Requirements

1. Completion of 48 quarter hours.
   a) Course 401, Historical Method and Bibliography, is required. The remaining courses must include: 16 quarter hours in 300-level courses; 16 quarter hours in 400-level courses; and eight quarter hours in two 500-level research seminars. The remaining four quarter hours may be earned by writing an acceptable thesis (History 499, Thesis Research), or by taking another course approved by a departmental advisor.
   b) The research seminar credit must be earned in two successive quarters with the same professor. Exceptions may be made by the chairman in unusual circumstances.
   c) Students who have earned at least 48 quarter hours (32 semester hours) in history before entering the Graduate School may have the option of earning eight of the required 48 quarter hours in a related field of study, for which they must also have completed the required preparation. The department strongly recommends political science as a related field of study. Other recommended fields are: economics, geography, philosophy, sociology, and literature.

2. Reading knowledge of one foreign language, preferably French, German, or Spanish. The department will accept as evidence of reading knowledge of a foreign language 18 quarter hours (12 semester hours) of college study satisfactorily completed, or two years of high school study. Students who have earned less than 18 quarter hours or the equivalent in the study of a single foreign language must have evidence of reading knowledge by passing an examination set by the department. Examinations are available only in languages taught at the University.
3. A written or oral comprehensive examination covering two of the fields of history listed below. The student may elect either the written or the oral examination.

**Medieval Europe, 400-1500**
- Great Britain since 1700

**Modern Europe to 1850**
- Latin America

**Modern Europe since 1850**
- United States to 1860

**England to 1700**
- United States since 1860

**HISTORY AS A MINOR FIELD**

History may be combined as a minor with education, English, economics, geography, and philosophy. The prerequisites in history are 24 quarter hours, of which at least four must be in United States and four in European history.

**Courses for Advanced Undergraduate and Graduate Students**

**304—TOPICS IN AFRICAN HISTORY.** In-depth studies in the political, religious, cultural, and economic aspects of African history.

**320—EARLY MEDIEVAL HISTORY, 284-1000.** Breakup of the Roman Empire, growth of Christianity, Byzantium, spread and achievements of Islam, the Teutonic Kingdoms, papal state, collapse of Carolingian Empire, the Slavic world, feudalism, and the establishment of the feudal states.

**321—LATER MEDIEVAL HISTORY, 1000-1450.** The investiture controversy, the crusades, 12th century renaissance, the politics of the feudal states, the medieval papacy, states of eastern Europe, rise of urban life, transition to the modern age, decline of the influence of the Church.

**328—ENGLISH CONSTITUTIONAL HISTORY TO 1485.** A study of Anglo-Saxon institutions; feudalism after the Norman Conquest; growth of the Common law; foundations of Parliament; and the development of central administrative systems.

**329—THE RENAISSANCE, 1400-1650.** A detailed discussion of the significant political, economic, intellectual and artistic developments of the early modern period. Religious developments are considered in their relationships to other phases of societal change, but they are not treated in breadth or depth.

**330—THE PROTESTANT REFORMATION, 1459-1650.** A detailed consideration of the main currents of religious thought and change.

**331—THE OLD REGIME IN EUROPE, 1648-1789.** A general study of the principal developments of the period with emphasis upon the growth of political institutions and their relationship to religious and cultural change.

**332—FRENCH REVOLUTION AND NAPOLEON, 1789-1815.** Political and economic failure of the Old Regime, influence of the philosophes, the rise and fall of revolutionary idealism, the spread of revolutionary principles, the development of imperialism and dictatorship under Napoleon, and the settlement of Europe at the Congress of Vienna.

**333—HISTORY OF EUROPE FROM METTERNICH TO BISMARCK, 1815-1870.** The decline of the aristocratic-clerical order, the emergence of capitalism, the appearance of liberal states, and the rise of nationalism in Italy and Germany.

**334—HISTORY OF EUROPE IN THE AGE OF GERMAN ASCENDANCY, 1870-1914.** Continental culture, development of imperial rivalries, failure of internationalism, and the coming of World War I.

**335—HISTORY OF EUROPE SINCE 1914.** A study of the main currents of international affairs during the period, and domestic problems of the leading states, with emphasis upon the dynamics of power politics.

**345—ENGLAND UNDER THE TUDORS 1485-1603.** The development of England from organic feudalism to Tudor absolutism, Church and State during the period of bourgeois-Monarchy alliance. An analysis of English social, spiritual, political, and
DE PAUL UNIVERSITY

economic values during the periods of the Henrician Reformation and the Elizabethan Renaissance; the heritage of the Stuart dynasty.

346—MODERN BRITAIN SINCE 1870. An analysis of English political parties and the development of the labor movement along with a close study of English foreign and domestic policies in the period of the two World Wars.

355—HISTORY OF RUSSIA TO 1905. A study of Kievan period, the Mongol invasions, Ivan the Terrible, the emergence of modern Russia under Peter the Great and Catherine, 19th century autocracy and the formation of the radical tradition.

356—HISTORY OF RUSSIA SINCE 1905. A study of Bolshevik Revolution, the rise of Stalin to power, the Five Year Plans, the Second World War and Russia's place in the modern world.

358—HISTORY OF EASTERN EUROPE SINCE 1900. A study of the northern half of the Eastern European states concentrating on the establishment of independent nation states and their changing social, economic, and political forms in the 20th century.

359—HISTORY OF THE BALKAN PENINSULA SINCE 1900. An area analysis of the Balkan peninsula in the 20th century, emphasizing liberation from the Turkish yoke, the establishment of nation states, and subsequent conflicts and development.

361—COLONIAL INSTITUTIONS IN LATIN AMERICA. A thorough analysis of Spanish and Portuguese colonizing techniques and comparative development of institutions under the Hapsburgs and Bourbons.

362—REVOLUTIONARY PERIOD IN LATIN AMERICA. A study of the enlightenment and the various causes behind the revolt of the Spanish and Portuguese colonies from the mother country. The analysis will include foreign intervention, evaluation of revolutionary leaders, their ideals and effectiveness.

363—REPUBLICS OF LATIN AMERICA. An analysis of the major domestic and foreign problems confronting the new republics, including a study of liberalism, conservatism, federalism, socialism and communism.

364—DICTATORS AND CAUDILLISMO IN LATIN AMERICA. A study of the causes, characteristics and effects of dictatorship in Latin America, emphasizing the role of the military.

361—HISTORY OF MEXICO. A study of the conquest, colonization, colonial institutions, wars of independence, empire and early republic, Revolution of 1910 and the emergence of Modern Mexico.

366—INTER-AMERICAN COOPERATION. The development of the Pan-American concept from the Congress of Panama in 1826 up to the Alliance for Progress and the Organization of American States. A study of the unity of the Western Hemisphere as an effective block to European and Asian power struggles will be emphasized.

367—THE UNITED STATES AND THE CARIBBEAN. The history of the Caribbean from colonial times to the present, with special emphasis upon the role of the United States in the development of this region.
370—UNITED STATES: COLONIAL FOUNDATIONS TO 1760. The discovery, exploration, and settlement of the eastern seaboard, with discussion of significant political, economic, and social consequences.

371—UNITED STATES: BIRTH OF THE REPUBLIC, 1760-1800. The establishment of American independence, adoption of the constitution, the first years of the republic considered in analytical detail.

372—UNITED STATES: EARLY NATIONAL PERIOD, 1800-1860. The historical forces that shaped the early growth and development of the republic.

373—UNITED STATES: CIVIL WAR AND RECONSTRUCTION, 1860-1877. The course of the war, its development, and major problems of the peace.

374—UNITED STATES: EMERGENCE OF MODERN AMERICA, 1877-1914. New culture patterns, political party battles, growth of big business and organized labor, Populism and the Progressive period.

375—UNITED STATES: THE MODERN AGE, 1914-1945. A consideration of World War I, the Twenties, the Great Depression, the New Deal, World War II.

376—UNITED STATES SINCE 1945. Significant developments in American life during the period after World War II.

377—UNITED STATES SOCIAL AND INTELLECTUAL HISTORY TO 1800. A study of the social development of the American people and of patterns of thought, religion and art.

378—UNITED STATES SOCIAL AND INTELLECTUAL HISTORY IN THE 19TH CENTURY. Continues course 377.

379—UNITED STATES SOCIAL AND INTELLECTUAL HISTORY IN THE 20TH CENTURY. Continues course 378.

380—U.S. CONSTITUTIONAL HISTORY TO 1815. This course examines the English colonial charters and colonial governments in the 17th and 18th centuries, the constitutional aspects of the American Revolution, the new state constitutions drafted in the 1770’s, the Articles of Confederation, the federal Constitution, and the early history of the new government. (May also be taken for Political Science credit. See Political Science 389)

381—U.S. CONSTITUTIONAL HISTORY, 1815-1920. This course continues the history covered in 380. It explores the concepts of federalism and separation of powers in some detail and with reference to major Supreme Court decisions. The constitutional aspects of the Civil War and Reconstruction are given close attention, followed by the problems of industrial regulation. (May also be taken for Political Science credit. See Political Science 381)

382—U.S. CONSTITUTIONAL HISTORY SINCE 1920. This course continues the history covered in 381. It deals with problems of civil liberties in the post-World War I era, the constitutional issues of the New Deal period, and the great variety of constitutional controversies that arose during and after World War II, including the major decisions of the Warren Court. (May also be taken for Political Science credit. See Political Science 382)

383—UNITED STATES FOREIGN RELATIONS, 1783-1860. The development of basic American foreign policies during the formative period from the Confederation to the Civil War.

384—UNITED STATES FOREIGN RELATIONS, 1860-1914. A study and analysis of the diplomacy of the Civil War, of the genesis of American imperialism, and of the new position of the United States in world affairs in the opening of the twentieth century.
DE PAUL UNIVERSITY

385—UNITED STATES FOREIGN RELATIONS SINCE 1914. A study and analysis of the
diplomacy of the United States in World War I, the period between the wars,
World War II, and the contemporary era.

390—HISTORY OF IMMIGRATION AND MINORITIES IN THE UNITED STATES.
A study of immigration and problems of ethnic and racial groups, 1840-1940.

391—HISTORY OF AMERICAN POLITICAL PARTIES. A study of the party system
in operation as an historical study of major and minor parties to the Civil War.

COURSES FOR GRADUATE STUDENTS ONLY

401—HISTORICAL METHOD AND BIBLIOGRAPHY. The techniques of research and
historical writing, guides to the materials of history, representative historians and
their work. (Prerequisite: Graduate standing.)

420—STUDIES IN EARLY MEDIEVAL HISTORY, 284-1000. (Prerequisite: Course 320
or consent of instructor.)

421—STUDIES IN LATER MEDIEVAL HISTORY, 1000-1450. (Prerequisite: Course 321
or consent of instructor.)

428—STUDIES IN ENGLISH CONSTITUTIONAL HISTORY TO 1603. (Prerequisite:
Course 328 or consent of instructor.)

429—STUDIES IN THE RENAISSANCE, 1400-1650. (Prerequisite: Course 428 or con-
sent of instructor.)

430—STUDIES IN THE PROTESTANT REFORMATION, 1450-1550. (Prerequisite:
Course 350 or consent of instructor.)

451—STUDIES IN EUROPEAN HISTORY, 1648-1789. (Prerequisite: Course 331 or con-
sent of instructor.)

452—STUDIES IN THE FRENCH REVOLUTION AND NAPOLEON. (Prerequisite:
Course 332 or consent of instructor.)

453—STUDIES IN EUROPEAN HISTORY, 1815-1870. (Prerequisite: Course 333 or con-
sent of instructor.)

454—STUDIES IN EUROPEAN HISTORY, 1870-1914. (Prerequisite: Course 334 or con-
sent of instructor.)

455—STUDIES IN EUROPEAN HISTORY SINCE 1914. (Prerequisite: Course 335 or con-
sent of instructor.)

443—STUDIES IN ENGLISH HISTORY, 1485-1603. (Prerequisite: Course 343 or con-
sent of instructor.)

444—STUDIES IN ENGLISH HISTORY, 1603-1714. (Prerequisite: Course 344 or con-
sent of instructor.)

445—STUDIES IN BRITISH HISTORY, 1714-1870. (Prerequisite: Course 345 or con-
sent of instructor.)

446—STUDIES IN BRITISH HISTORY SINCE 1870. (Prerequisite: Course 346 or con-
sent of instructor.)

455—STUDIES IN RUSSIAN HISTORY TO 1905. (Prerequisite: Course 355 or consent
of instructor.)

456—STUDIES IN RUSSIAN HISTORY SINCE 1905. (Prerequisite: Course 356 or con-
sent of instructor.)

461—STUDIES IN LATIN AMERICAN HISTORY: COLONIAL PERIOD UP TO 1825.
(Prerequisite: Course 361 or consent of instructor.)

462—STUDIES IN LATIN AMERICAN HISTORY: NATIONAL PERIOD, 1825-1914.
(Prerequisite: Course 362 or consent of instructor.)

463—STUDIES IN LATIN AMERICAN HISTORY SINCE 1914. (Prerequisite: Course
363 or consent of instructor.)
464—STUDIES IN LATIN AMERICAN DICTATORSHIPS. (Prerequisite: Course 364 or consent of instructor.)

465—STUDIES IN THE HISTORY OF MEXICO. (Prerequisite: Course 365 or consent of instructor.)

466—STUDIES IN INTERNATIONAL RELATIONS IN THE AMERICAS. (Prerequisite: Course 316 or consent of instructor.)

470—STUDIES IN UNITED STATES COLONIAL HISTORY. (Prerequisite: Course 370 or consent of instructor.)

471—STUDIES IN UNITED STATES HISTORY, 1760-1800. (Prerequisite: Course 371 or consent of instructor.)

472—STUDIES IN UNITED STATES HISTORY, 1800-1860. (Prerequisite: Course 372 or consent of instructor.)

473—STUDIES IN UNITED STATES HISTORY, 1860-1877. (Prerequisite: Course 373 or consent of instructor.)

474—STUDIES IN UNITED STATES HISTORY, 1877-1914. (Prerequisite: Course 374 or consent of instructor.)

475—STUDIES IN UNITED STATES HISTORY, 1914-1945. (Prerequisite: Course 375 or consent of instructor.)

476—STUDIES IN UNITED STATES HISTORY SINCE 1945. (Prerequisite: Course 376 or consent of instructor.)

477—STUDIES IN AMERICAN SOCIAL AND INTELLECTUAL HISTORY TO 1800. (Prerequisite: Course 377 or consent of instructor.)

478—STUDIES IN AMERICAN SOCIAL AND INTELLECTUAL HISTORY IN THE 19TH CENTURY. (Prerequisite: Course 378 or consent of instructor.)

479—STUDIES IN AMERICAN SOCIAL AND INTELLECTUAL HISTORY IN THE 20TH CENTURY. (Prerequisite: Course 379 or consent of instructor.)

483—STUDIES IN UNITED STATES FOREIGN RELATIONS, 1783-1866. (Prerequisite: Course 383 or consent of instructor.)

484—STUDIES IN UNITED STATES FOREIGN RELATIONS, 1860-1914. (Prerequisite: Course 384 or consent of instructor.)

485—STUDIES IN UNITED STATES FOREIGN RELATIONS SINCE 1914. (Prerequisite: Course 385 or consent of instructor.)

491—STUDIES IN AMERICAN POLITICAL PARTIES, 1789-1860. (Prerequisite: Course 391 or consent of instructor.)

492—STUDIES IN AMERICAN POLITICAL PARTIES SINCE 1860. (Prerequisite: Course 392 or consent of instructor.)

499—THESIS RESEARCH. (Prerequisite: Approval of thesis topic.) 4 quarter hours.

RESEARCH SEMINARS

Research seminars are open only to graduate students majoring in history. Consent of the chairman and the professor is a prerequisite. Research seminars carry 4 quarter hours of credit each; 8 quarter hours of credit is earned by registration for the same research seminar in each of two quarters. 520—MEDIEVAL EUROPE, 400-1500. 530—MODERN EUROPE TO 1850. 535—MODERN EUROPE SINCE 1850. 540—ENGLAND TO 1700. 545—GREAT BRITAIN SINCE 1700. 560—LATIN AMERICA. 570—UNITED STATES TO 1860. 575—UNITED STATES SINCE 1860.

JERRY GOLDMAN, PH.D., Chairman

J. MARSHALL ASH, PH.D.
SUSANNA EPP, PH.D.
CONSTANTINE GEORGAKIS, PH.D.
LAWRENCE GLICK, PH.D.
SIGRUN GOES, PH.D.
GLENN LANCASTER, PH.D.
ROBERT GIDLEN, PH.D.
WALTER PrANGER, PH.D.
JACOB TOWER, PH.D.
STEPHEN VAGI, PH.D.
MICHAEL WICHMAN, PH.D.
Y. F. WONG, PH.D.

PURPOSE

The Department of Mathematics seeks to provide a sound mathematical background for a variety of career interests in mathematics including teaching, applied mathematics, further study and research, and to meet the needs of students in the physical, biological, and behavioral sciences. To accommodate the interests of individual students, the programs of study are designed with the greatest possible flexibility.

DEGREE OF MASTER OF SCIENCE IN MATHEMATICS

The department offers graduate and advanced undergraduate courses at the new Schmidt Academic Center, 2323 North Seminary. The library which has a sizable collection of mathematical books and journals is located in the same building. There are a number of assistantships available to students interested in full-time study. Seminars, colloquia, and an unusually close degree of contact with the faculty are available to full-time students.

PREREQUISITES

Applicants for admission to the program leading to the Master of Science degree in mathematics must have a strong undergraduate major in mathematics which includes at least forty-four quarter hours of mathematics. Undergraduate preparation required to do graduate work should include Math 220, 310, 311, 339, 365, and 366 or their equivalent. This criterion is not applied inflexibly, however; promising applicants, even though they have less preparation, may be admitted.

REQUIREMENTS

1. Forty-eight quarter hours of graduate level work are required. All students must complete six basic courses: Math 400, 401, 410, 416, 411, 413, and six elective courses. The six elective courses normally would be taken as two three-course sequences.

2. Passing of a comprehensive written examination based on the contents of the six basic courses listed above.

GRADUATE COURSES

(No. 300-level course may count for both undergraduate and graduate credit.)

320—GEOMETRY I. Incidence and separation properties of plane; congruence; parallel postulate; area theory; ruler and compass construction. (Prerequisite: 220)

321—GEOMETRY II. Riemannian and hyperbolic geometry; metric axioms; triangles and angle sums; consistency of hyperbolic postulates. (Prerequisite: 320)

344—ASSEMBLY LANGUAGE. Symbolic coding and introduction to assembly language; subroutines and coroutines; simulation of one assembly language in another; input and output; linked lists. (Prerequisite: 340) Computer lab fee: $15.00.

345—DATA STRUCTURES. Topics include the study of strings, dequeues, queues, lists, stacks, and trees. (Prerequisite: 344) Computer lab fee: $15.00.

346—ADVANCED NUMERICAL ANALYSIS. Topics include solution of ordinary differential equations: Runge-Kutta methods, multistep methods, predictor-corrector meth-
Mathematics

Solutions, and numerical solution of boundary value problems; solution of partial differential equations: finite difference methods, determination of grids, and derivation of difference equations. (Prerequisite: 341) Computer lab. fee: $15.00.

351—PROBABILITY AND STATISTICS I. Probability spaces, random variables and distributions; Chebyshev's inequality; law of large numbers; Poisson distributions; gamma and normal distributions. (Prerequisite: 152)

352—PROBABILITY AND STATISTICS II. Random multivariate; sampling distributions; theory of estimation. (Corequisite: 351 and Math 210 or 330)

353—PROBABILITY AND STATISTICS III. Testing of hypothesis; regression; selected topics such as analysis of variance, order statistics, Markov processes. (Prerequisite: 352)

354—STATISTICS IN THE COMPUTER AGE. Descriptive statistics; statistical inferences; statistics and the computer; Monte Carlo methods, time series—theory and numerical treatment. (Prerequisites: 340 and 351) Computer lab. fee: $15.00.

355—STOCHASTIC PROCESSES. Markov chains, branching processes; Poisson process, queuing theory, and telephone traffic problems; Brownian motion. (Prerequisite: 351)

380—INTRODUCTION TO TOPOLOGY. Topological spaces; continuous mapping; separation axioms; product and quotient topologies; connectedness and compactness; metric spaces. (Prerequisite: 365 or 330)

393—LEBESGUE MEASURE THEORY. Historical development and applications. The origin of Lebesgue's theory of measure on the real line; discussion of classical counterexamples; applications of the subject to Fourier series and probability theory. (Prerequisite: 365, with 366 and 351 recommended)

400—ALGEBRA I. Linear algebra. (Prerequisite: 311 or its equivalent)

401—ALGEBRA II. Linear algebra; group theory. (Prerequisite: 400)

402—ALGEBRA III. Rings and fields. (Prerequisite: 401)

410—REAL ANALYSIS I. Real numbers; continuous functions on metric spaces; convergence of infinite series and differentiation. (Prerequisite: 365 or its equivalent)

411—REAL ANALYSIS II. Sequences of functions; interchange of limits with differentiation and integration; improper integrals. Functions of several variables. (Prerequisite: 410)

412—MEASURE AND INTEGRATION. Lebesgue's theory of measure and integration; convergence theorems and differentiation; product measure and Fubini's theorem. (Prerequisite: 410)

413—ADVANCED COMPLEX ANALYSIS. Complex integration and calculus of residues, maximum modulus principle; analytic continuation and the monodromy theorem; conformal mapping. (Prerequisite: 411 and 366 or consent)

451—METHODS OF APPLIED MATHEMATICS I. (Prerequisite: Graduate Standing)

452—METHODS OF APPLIED MATHEMATICS II. (Prerequisite: 451)

453—METHODS OF APPLIED MATHEMATICS III. (Prerequisite: 452)

461—ANALYSIS OF LINEAR SYSTEMS I. (Prerequisite: 411 and 413)

462—ANALYSIS OF LINEAR SYSTEMS II. (Prerequisite: 461)

463—ANALYSIS OF LINEAR SYSTEMS III. (Prerequisite: 462)

471—METHODS OF APPLIED ALGEBRA I. (Prerequisite: 402)

472—METHODS OF APPLIED ALGEBRA II. (Prerequisite: 471)

473—METHODS OF APPLIED ALGEBRA III. (Prerequisite: 472)

481—APPLIED FOURIER ANALYSIS AND SPECIAL FUNCTIONS I. (Prerequisite: Graduate Standing)

482—APPLIED FOURIER ANALYSIS AND SPECIAL FUNCTIONS II. (Prerequisite: 481)
DE PAUL UNIVERSITY

483—APPLIED FOURIER ANALYSIS AND SPECIAL FUNCTIONS III. (Prerequisite: 482)

504—TOPICS IN ALGEBRA. (Prerequisite: Consent)

515—TOPICS IN REAL ANALYSIS. (Prerequisite: Consent)

516—TOPICS IN COMPLEX ANALYSIS. (Prerequisite: Consent)

522—TOPICS IN GEOMETRY. (Prerequisite: Consent)

599—INDEPENDENT STUDY

ADDITIONAL UNDERGRADUATE COURSES

(No graduate credit)

220—LINEAR ALGEBRA. Vectors in space; equations of lines and planes; matrices; linear independence; linear transformations; determinants. (Prerequisite: 152)

242—ELEMENTS OF STATISTICS. Basic programming; descriptive statistics; finite probability; binomial and large sample hypothesis testing; linear regression; correlation coefficient; prediction theory. (Prerequisite: two years of high school math)

310—ALGEBRA I. Prime number, binary operations; equivalence relation; congruences. (Prerequisite: 152 or consent)

311—ALGEBRA II. Group; isomorphism; theorems of Lagrange and Cayley; homomorphism; kernel. (Prerequisite: 310)

312—ALGEBRA III. Rings, ideals; fields and quotient fields; extension fields. (Prerequisite: 311)

330—ADVANCED CALCULUS I. Vector functions; tangent vectors; curvature and normal vectors; gradient and directional derivative; extrema of functions of several variables. (Prerequisite: 220)

331—ADVANCED CALCULUS II. Multiple integration and applications; line and surface integrals; Green's and Stoke's theorems; derivatives of complex functions. (Prerequisite: 330)

340—INTRODUCTORY COMPUTER SCIENCE. Programming language; concept of algorithm; relation between programming and formulation of problems; emphasis on problem-solving. (Prerequisite: 152) Computer lab fee: $15.00.

341—NUMERICAL METHODS IN ALGEBRA. Solutions of linear equations; inverting matrices; computing rank of matrix, bases for dual spaces, orthogonal complements and determinants. (Prerequisites: 340 and 220) Computer lab fee: $15.00.

342—NUMERICAL METHODS IN ANALYSIS. Conceptual aspects of approximation; computation of integrals and derivatives; interpolation; solving ordinary differential equations. (Prerequisites: 340 and either 211 or 330) Computer lab fee: $15.00.

345—COMBINATORIAL COMPUTING. Computations within discrete mathematical structures; enumeration and counting; searching; graph algorithms; sorting. (Prerequisite: 152 and 149 or consent)

365—INTRODUCTORY ANALYSIS. Construction of real numbers by Dedekind cuts; least upper bounds; topology of line and plane; continuity. (Prerequisite: 152)

566—COMPLEX ANALYSIS. Complex functions; complex differentiation and integration; series and sequences of complex functions. (Prerequisite: 330 and 465)

570—APPLIED LINEAR ALGEBRA. Spectral theorem for self-adjoint operators in finite-dimensional inner product spaces; techniques for computation of eigenvalues and their applications to physics, statistics, and other fields. (Prerequisite: 220)
DEPARTMENT OF NURSING

GRACE G. PETEBSO. M.N.A., Chairman
ANN C. CLARK, M.S.N.
VIRGINIA FORD, Ph.D.

PATRICIA A. WAGNER, M.S.N.

PURPOSE

The purpose of the graduate program in nursing is to prepare qualified nurses for leadership roles by enabling them to explore and test theories of nursing and related disciplines. Preparation for functioning as a teacher or administrator is also provided through selected courses and experiences.

PREREQUISITES

1. Eligibility for admission to the Graduate School.
2. Completion of a baccalaureate degree program accredited by the National League for Nursing. Human physiology and basic statistics are required. (Applicants who have completed other curricula, or who have deficiencies, will be considered individually and may be required to enroll in specified prerequisite undergraduate courses beyond the minimum requirements for the graduate degree in nursing.)
3. Recommendations as requested by the Department of Nursing.
4. Applicants who desire to select the functional area of administration are required to have a minimum of two years of acceptable administrative experience in supervision or in a position of comparable responsibility.
5. Credentials of international students are reviewed by a special committee of the Department of Nursing.

DEGREE OF MASTER OF SCIENCE IN NURSING

REQUIREMENTS

1. Completion of a minimum of 56 quarter hours. Directed experience in clinical and functional area is an integral part of the program. Professional liability insurance must be carried during all clinical activities.
2. An oral comprehensive examination.

CURRICULUM

Content which is typical is described below. However, the individual abilities and goals of each student are carefully considered and adjustment in content is made on the basis of background and needs.

Required Courses: Nursing 400, 435, 436, 437, 438
Nursing 475
KSA 588
Psychology 390
Sociology 302
Selected Cognate Courses

(Teaching) Nursing 455, 458, 459
(Administration) Nursing 451, 452, 457

GRADUATE COURSE OFFERINGS

400—RESEARCH IN NURSING. An exploration of the research process with special emphasis on research in nursing. Selected nursing research will be reviewed and evaluated. Autumn Quarter.

435—THEORETICAL COMPONENTS IN NURSING. An investigation of the nature, development, and components of theories. Selected theories in nursing and related fields will be explored. Autumn Quarter.

436—ADVANCED CLINICAL NURSING I. Application and testing of selected theories from the biological and behavioral sciences relative to the nursing process. The
selected theories serve as a framework for the systematic investigation of a nursing problem utilizing research techniques. Development of a research proposal and initial data collection. 6 quarter hours. Winter Quarter.

457—ADVANCED CLINICAL NURSING II. Completion of Advanced Clinical Nursing I. Completion of data collection; analysis and interpretation of the data; writing of the research study. Critical analysis of completed research studies. 6 quarter hours. Spring Quarter.

458—PERSPECTIVES IN NURSING. Emphasis is placed on major current issues confronting professional nursing. The leadership role of the nurse as innovator and activator in the health and welfare structure. Exploration of new concepts relating to community health programs. Cooperative and collaborative participation of the nurse in task forces, research, and community education. Spring Quarter.

451—NURSING SERVICE ADMINISTRATION I. Basic theoretical and philosophical concepts fundamental to administration of nursing service. Functions of administration with special reference to hospital department of nursing service. Autumn Quarter.

452—NURSING SERVICE ADMINISTRATION II. Components of the role of director of nursing service. Aspects of nursing service including disaster planning, staff development, professional standards board; research and its utilization; management by objectives; unions. Winter Quarter.

455—CURRICULUM CONSTRUCTION. Theoretical basis of curriculum construction. Principles and methods of curriculum construction; principles involved in formulating objectives to be achieved; selecting and organizing learning activities; evaluating effectiveness of content and method. Autumn Quarter.

457—PRACTICUM IN NURSING SERVICE ADMINISTRATION. Guided experience and observation in an on-going hospital department of nursing service with emphasis on the activities of the director and assistant director of nursing service. Prerequisite: Nursing 451 and concurrent registration in Nursing 452. 8 quarter hours. Winter Quarter.

458—DYNAMICS OF TEACHING. Theories, principles, and methods of teaching and learning for application in schools of nursing. Fall Quarter.

459—PRACTICUM IN TEACHING. Observation and application of theory, principles, and methods of teaching and learning in nursing in institutions of higher learning under faculty guidance within the classroom and clinical area. 8 quarter hours. Winter and Spring Quarters.

Fritz-Joachim von Rintelen, Visiting Professor

PURPOSE

The purpose of the Department of Philosophy of the Graduate School is to prepare those for teaching and research, who have the scholarly competence to pursue academic work which culminates in the Master's or Doctor's degree.

In keeping with the intercontinental interests of its faculty, and serving the needs of philosophical relevance, the department focuses its attention on phenomenology, life philosophy, philosophies of existence, and the historical sources of these movements.

IMPLEMENTATION

The department offers directed research, courses, seminars, symposia, and colloquia that should guide and stimulate the student in an intensive investigation of various philosophies and philosophical problems. It also stresses faculty counseling so that the program of each student can be tailored to his particular needs. It envisages a greater degree of inter-institutional cooperation that will provide the student with further means of academic enrichment.

At some time during graduate study every student must participate in undergraduate instruction for a minimum of three courses and/or two quarters.

THE MICHAEL LITTLER LECTURESHIP

Through the generosity of Dr. Michael Littner, this special lectureship has been established in the department. The purpose of the Michael Littner Lectureship is to assist the department each year in sponsoring a distinguished visiting professor. The lectureship explicitly encourages the selection of philosophers from various traditions who emphasize the relevance of philosophy to contemporary issues.

Courses or seminars of the visiting professor may be part of the regular curriculum or extraordinary in nature.

DEGREE OF MASTER OF ARTS

The department offers both a thesis and a non-thesis program leading to this degree. Students advancing directly to the doctorate are strongly advised to enter the thesis program. Those who look immediately to teaching might more profitably enter the non-thesis program. Both programs are described below.

PREREQUISITES

Applicants for the Master of Arts program must have completed satisfactorily a major sequence (or its equivalent) in philosophy. This sequence comprises a minimum of forty-four quarter hours (or its equivalent).

REQUIREMENTS

1. Thesis Program
   1. Completion of forty-four quarter hours of graduate study, of which up to eight quarter hours may be applied to the thesis.
      a) Twenty-eight quarter hours will normally be selected from philosophy offerings numbered 400 and over.
b) Up to twelve quarter hours may be selected from philosophy offerings numbered 300 and over, or, if the necessary prerequisites are met and with the consent of the faculty, twelve quarter hours in related fields.

c) A thesis. Students will register for Philosophy 699 for eight quarter hours credit.

2. One foreign language. Evidence of the candidate's possessing a reading knowledge of philosophical literature in German, French, Latin, Greek, or with special permission, any other language in which the thesis research would be conducted. (Application for this examination must be made before the completion of sixteen quarter hours in course work, or by the end of the second quarter of full-time residency, whichever is later.) A grade of Pass in course 554 or 594 may be substituted for this requirement.

3. A five hour written comprehensive examination in the field of philosophy.

II. Non-Thesis Program.

1. Completion of forty-four quarter hours of graduate philosophy offerings.

   a) Thirty-two quarter hours will normally be selected from philosophy offerings numbered 400 and over.

   b) Requirements the same as in Thesis Program under 1.b above.

2. One foreign language. Requirements the same as in Thesis Program under 2. above.

3. Requirements the same as in Thesis Program under 3. above.

DEGREE OF DOCTOR OF PHILOSOPHY

PREREQUISITES

Applicants for the Doctor of Philosophy program must have completed satisfactorily all requirements for a Master of Arts degree in philosophy. Such work must be substantially equivalent to the same degree given at DePaul and must present clear evidence of the ability of the applicant to pursue successfully the doctoral program.

REQUIREMENTS

The following are the minimal requirements. Additional study may be demanded depending on the student's academic background and his achievement in the DePaul program.

1. Successful performance in a preliminary examination (qualifying examination) before the end of the second quarter of residence. This examination which is similar to the comprehensive examination for the Master's Degree, may be waived at the discretion of a department committee.

2. Three consecutive quarters of full-time residence. (Full-time study demands registration for a minimum of 10 quarter hours.)

3. Completion of forty-eight quarter hours in offerings numbered 400 and over. These must include courses, seminars and independent study. Each student must register once for 685, Seminar on Teaching.

4. Two foreign languages. Evidence of a reading knowledge in philosophical literature in German and French, or in either of these and a classical language; or with departmental permission, a language in which the student's principal research will be conducted. Unless a language skill has been previously demonstrated to the satisfaction of the department, a test for one of the languages must be taken prior to the end of the second quarter of residence; the second language test must be passed before application is made for the doctoral candidacy or comprehensive examination. A grade of Pass in Course 554 or 594 may be substituted for one of the language requirements. Language requirements must be met before taking the comprehensives.

*5. A comprehensive examination, administered on three successive days, allowing
PHILOSOPHY

three hours for each part. This examination may not be taken prior to the completion of three consecutive quarters of full-time residence. Parts of this examination may be given orally.

6. Admission to candidacy. This is achieved when the student has completed requirements 1 through 5 above.

7. A dissertation. (Committee approval of the topic and outline will not be given prior to completion of requirement 5).

8. An oral examination constituting a “defense of the dissertation,” or a public lecture.

10. The student is reminded that he must be registered in resident or non-resident candidacy continuation (CE, Page 39) each quarter between his achievement of candidacy and his graduation.

*Detailed information on these points is listed in a separate departmental brochure which may be obtained from the chairman.

COURSE OFFERINGS

The following courses listed under the 300 series are background, general orientation, courses intended for the advanced student in undergraduate philosophy or beginning students in graduate philosophy.

300—PHENOMENOLOGY AND SCIENCE. An exposition and critical evaluation of the major contemporary philosophies of science, and more especially phenomenology and science.

302—SYMBOLIC LOGIC. A study of the methods and techniques of appraising arguments involving compound statements, relations, and propositional functions. This course will also examine the nature of deductive systems, a propositional calculus, and alternative systems and notations.

304—PHILOSOPHY OF COMMUNISM. This course has a twofold purpose: first, to present an account of Communist Philosophy (remembering the words of Lenin: “No materialism can endure without a solid philosophical basis.”); secondly, to make an objective evaluation of this Philosophy and its methods and implications.

307—SYSTEMS OF METAPHYSICS. Investigates various theories concerning the nature of reality.

309—EPISTEMOLOGY. A study of the origins, types and validity of human knowledge.

312—HISTORY OF MODERN PHILOSOPHY. The philosophies of the Renaissance, English Empiricism, Continental Rationalism, German Idealism, Positivism, and contemporary trends in philosophy.

313—CONTEMPORARY PHILOSOPHY. An analysis of the Twentieth Century schools of philosophy, such as Logical Positivism, Pragmatism, Phenomenology and Existentialism.

325—BASIC CONCEPTS OF PHENOMENOLOGY. This course emphasizes the principal themes of Husserl and touches on developments in both German and French phenomenology.

333—PHENOMENOLOGY OF LOVE.

342—THE THOUGHT OF TEILHARD DE CHARDIN. (May be applied to theology credit.) An exposition of the major themes of Teilhard’s thought and an evaluation of these in the light of their implicit philosophy and theology.
358—THE PHILOSOPHY OF DANTE. A survey of the philosophical mentality and ideas of the great poet of Christendom, as found in the "Banquet," the "Monarchy" and the "Divine Comedy."

355—CONTEMPORARY THOMISM. An appraisal of the philosophy of St. Thomas as it continues to develop in our times.

358—EXISTENTIALISM. A study of the main contemporary men commonly associated with this movement: Kierkegaard, Jaspers, Marcel, Sartre, and Heidegger.

360—EXISTENTIAL THINKING. An original attempt to rethink the nature of philosophy as related to the human condition. Topics such as knowledge, love, value, meaning, etc. will be covered.

361—NINETEENTH CENTURY PHILOSOPHY. A study of the major themes in philosophers of this period.

365—PHENOMENOLOGY OF RELIGION. In general, this course will investigate the significance of religion and religious phenomena for philosophy. In particular, it will treat the following topics: the origin and nature of religion, the relationship of faith and reason, the anthropological-philosophical validity of various ideas of God, the implications of religious misunderstandings of man, and the relationship of Christianity to other religions.

367—SOCIOLOGY AND PHILOSOPHY: A discussion of the philosophical implications of sociological theory and the societal background of philosophical development.

369—AMERICAN PHILOSOPHICAL THOUGHT. A study of the major philosophical influences in American thought, including such movements as the "Theologism" of the colonial period, the American Age of Enlightenment, Transcendentalism, Evolutionism, and varieties of Idealism, Pragmatism, Realism, and Naturalism. Emphasis will be given to the classic American philosophers of the post-Civil War period, such as Pierce, James, Royce, Perry, Santayana, Dewey, Lewis, and Cohen.

376—PHENOMENOLOGY OF THE BODY. A critical survey on the phenomenon of the human body in modern and contemporary philosophy.

373—PHILOSOPHY OF PLAY. An examination of the meaning, classification, and values of various human activities conventionally classified as "playful." Game theory will be discussed and an attempt will be made to isolate the distinctive qualities and values of diversion, amusement, pastime, recreation, entertainment, sport, athletics, etc.

375—PHILOSOPHY OF ATHEISM.

376—PHENOMENOLOGY AND LANGUAGE. The course treats the following interpretations of language: language as a means of communication, as a repository of proper thinking, as a manifestation of the mind's organization, as a disclosure of reality, and as a metaphysical power. Discussion will include the following positions and topics: Logical Positivism, Ordinary Language Philosophy, Generative (Transformational) Grammar, theory of literature, and metaphysics of language.

379—PHENOMENOLOGY OF RESENTMENT.

380—INTRODUCTION TO ANALYTIC PHILOSOPHY.

382—PHILOSOPHICAL BIBLIOGRAPHY AND METHODOLOGY. Introduction to materials and techniques needed for pursuing philosophical research.

385—POLITICAL PHILOSOPHY. Discussion of philosophical problems connected with government and society. Readings from Plato to Dewey.

388—SITUATION ETHICS. A phenomenological investigation of the main tenets of contemporary situation ethics. A comparison with traditional objectivist and subjectivist trends in ethical theory.

The courses under the 400-500 series are intended to be specific, dealing with individual philosophers, their background and subsequent influences. They are meant to be detailed both analytically and critically. Normally they are open only to students with graduate academic standing.
TRADITIONAL AND ANGLO-AMERICAN PHILOSOPHERS

Section A: Traditional Philosophers

410—PHILOSOPHY OF PLATO I: A study of Plato's life and early dialogues.
411—PHILOSOPHY OF PLATO II: A study of the middle and later dialogues.
420—PHILOSOPHY OF AUGUSTINE: A study of Augustine's philosophy through an examination of his major writings.
425—PHILOSOPHY OF AQUINAS I: A study of the factors that gave rise to the culmination of Scholasticism and the birth of Thomism: characteristics of the Thomistic revolution: his critical spirit, interpretation of previous thinkers, and organization of materials; the relation between philosophy and theology.
426—PHILOSOPHY OF AQUINAS II: A study of Aquinas' natural philosophy, philosophical anthropology, metaphysics, ethics, and esthetics.
430—PHILOSOPHY OF CUSA: A study of the principal philosophical and theological themes in this controversial thinker who bridges the gap between medieval and modern thought.
435—PHILOSOPHY OF DESCARTES: An examination of Descartes' role as the father of modern philosophy; a study of the Regulae, the Discours, and the Meditationes.
440—PHILOSOPHY OF SPINOZA: A study of the Ethics and/or the Theologico-Political Treatise.

Section B: Anglo-American Philosophers

450—THE PHILOSOPHY OF JAMES: A study of William James' Pragmatism and Radical Empiricism with special attention to the writings of James that interest the contemporary phenomenologist.
453—THE PHILOSOPHY OF PEIRCE: An examination of the development of Peirce's thought from his concern with scientific method, through his development of the theory of thirds, to Peirce's own particular pragmatism.
457—THE PHILOSOPHY OF ROYCE: An examination of the thought of Josiah Royce with emphasis on his early psychology and epistemology, the metaphysics of The World and the Individual, the moral teaching of The Philosophy of Loyalty, and the philosophy of the community in The Problem of Christianity.
459—THE PHILOSOPHY OF SANTAYANA: A study of his major works such as Skepticism and Animal Faith, The Life of Reason, and The Sense of Beauty.
465—PHILOSOPHY OF RUSSELL: An examination of Russell's philosophical development and influence; a study of selected essays (e.g., Logic and Knowledge) and/or a major work (e.g., An Inquiry into Meaning and Truth).
470—PHILOSOPHY OF WITTGENSTEIN I: A study of Wittgenstein's earlier works, particularly the Tractatus Logico-Philosophicus.
471—PHILOSOPHY OF WITTGENSTEIN II: A study of Wittgenstein's later works, particularly the Philosophical Investigations.
475—PHILOSOPHY OF CARNAP: A study of selected articles and/or a major work such as Der logische Aufbau der Welt.
DE PAUL UNIVERSITY

480—PHILOSOPHY OF QUINE: A study of Quine's philosophical views as these are presented in From a Logical Point of View, Word and Object, and Ontological Relativity.

490—PHILOSOPHY OF CHOMSKY: A study of transformational generative grammar and its relevance to philosophical issues through reference to such works as Cartesian Linguistics, Aspects of the Theory of Syntax, and Language and Mind.

495—ADVANCED SYMBOLIC LOGIC: A study of modal logic, multi-valued logics, logical antimonies, the logic of relations, and the philosophical presuppositions of logical systems. (Prerequisite: Philosophy 302, Symbolic Logic or equivalent).

CONTINENTAL PHILOSOPHERS

Section A: German Philosophers

THE PHILOSOPHY OF KANT: A critical study of Kant's thought and evaluation of his influence in subsequent philosophies by a textual study of:

510—KANT I. Critique of Pure Reason.
511—KANT II. Critique of Practical Reason.
512—KANT III. Critique of the Faculty of Judgment.

THE PHILOSOPHY OF HEGEL: A study of Hegel's thought in his milieu and influence through a textual study of:

515—HEGEL I. Phenomenology of Spirit.
518—HEGEL II. Science of Logic.
517—HEGEL III. Philosophy of Right.

THE PHILOSOPHY OF MARX: A critical study of the man and the movement

520—MARX I. Basic writings of Marx and Engels Revisionist contemporaries of Marx, such as Lasalle, Bernstein and Kautsky will also be studied.
521—MARX II: An investigation into some major writings of Russian and Chinese Marxist leaders such as Lenin, Trotsky, Stalin, Mao Tse-Tung. Also touched upon will be philosophers such as Plekhanov, Bakunin, Bogdanov, etc.
522—MARX III: Contemporary developments in Marxism (1956 to date). East and West representatives will be studied. These include Bloch, Lukaces, Marcuse, Fromm, Hook, etc.

523—NIETZSCHE I. The reversal of values and criticism of morality.
526—NIETZSCHE II. The conceptions of Eternal Recurrence, Will to Power, Overman, Nihilism and Justice. One of the following themes will also be incorporated: art, space, perspectivism or Christianity.

THE PHILOSOPHY OF KARL JASPERS: An investigation of the Philosophy of Existent as distinguished from Existentialism, by focusing on:

531—JASPERS II. Thoughts on History, Truth and Philosophical Faith.

THE PHILOSOPHY OF HUSSELI: Representative Problems.

535—HUSSELI I. Phenomenology of Consciousness. An investigation of basic constitutitional problems of acts and objectivities of consciousness and eidetic and transcendential reductions.
536—HUSSELI II. Time Consciousness. A study of the temporalization of consciousness of world with special attention to the absolute flux, primal sensation, retention and protention, and the structure of the Now.
PHILOSOPHY

537—Husserl III. Phenomenology of the Life-World. An investigation of its structure, its function in transcendental phenomenology. Transcendental intersubjective problems such as time, space, alter-ego, constitution of the Divine, All-Humanity and culture will also be treated.

THE PHILOSOPHY OF SCHELER: A critical study of his thought by focusing on areas such as:

541—Scheeler II. Phenomenology of Sociology.

542—Scheeler III. Philosophical Anthropology and Metaphysics.

545—The Philosophy of Nicolai Hartmann: An investigation of Hartmann's Ethics and Ontology, together with an analysis of his relationship to the phenomenological movement.

THE PHILOSOPHY OF HEIDEGGER: A critical study of Heidegger's thought by focusing on:

550—Heidegger I. Thoughts from Being and Time to the Essence of Truth.

551—Heidegger II. Thoughts from Comments on Holderlin to Time and Being.

552—Heidegger III. Presocratic thought.

554—Tutorial in Reading Philosophical German. (2 quarter hours of credit). Prerequisite: a basic knowledge of German vocabulary and grammar. Taken on a pass/non-pass basis.

Section B: French Philosophers

560—The Philosophy of Gabriel Marcel: A study of Marcel's philosophy of existence with special attention given to his major work, The Mystery of Being.

565—The Philosophy of Merleau-Ponty: A study of the Phenomenology of Perception with consideration of Merleau-Ponty's place and influence in contemporary philosophy.

The Philosophy of Sartre

570—Sartre I. A study of Being and Nothingness with attention given to Sartre's early phenomenological studies as background and to some of his literary works as illustrations of his ontology, such as Nausea and Saint-Genet.

571—Sartre II. The Social Thought of Jean-Paul Sartre. A study of A Critique of Dialectic Reason along with appropriate literary works and more recent political writings.

575—The French Spiritualist Tradition: A study of the "philosophers of the spirit," beginning with Maine de Biran and ending with a study of Louis Lalouë's work, Dialectic of the Eternal Present, as particularly representative of this philosophic tradition.

580—The Philosophy of Henri Bergson: A study of the Two Sources of Morality and Religion as a means of considering the whole life-philosophy of Bergson.

585—The Philosophy of Paul Ricoeur: A study of Ricoeur's philosophy and phenomenology of the will with stress on its background and its place in contemporary French phenomenology.

594—Tutorial in Reading Philosophical French. (2 quarter hours credit). Prerequisite: a basic knowledge of French vocabulary and grammar. Taken on a pass/non-pass basis.

The courses under the 600 series are problem-oriented seminars. They are structured for full participation by each student in the seminar in terms of research, presentation and critical reflection. The number of participants is limited to allow for the effectiveness of the seminar.

91
SEMINARS (1973-1975)

605—SEMINAR ON CONTEMPORARY THOMISM: A study of (a) traditional Thomism as represented by J. Maritain, E. Gilson, and the former River Forest group; (b) transcendental Thomism as represented by Merechal, Rahner and Lonergan; (c) developmental Thomism.

608—SCHELER: Phenomenology of Consciousness of God.

610—SEMINAR ON THE PHILOSOPHY OF HISTORY: Reflections on history as a phenomenon, and history as a science with reference to thinkers such as Augustine, Hegel, Marx, Spengler, Heidegger, etc.

615—SEMINAR ON HEIDEGGER AND THE FRAGMENTS OF HERACLITUS.

616—SEMINAR ON THE LATER HEIDEGGER: A critical study of a selected topic from the later development of Heidegger's thought.

620—SEMINAR ON BERDAEV'S THOUGHT ON FREEDOM AND ANARCHY: A study of the beginnings of Russian Existentialism and Phenomenology.

622—EXISTENTIAL PHENOMENOLOGY.

625—SEMINAR ON THE EXISTENTIAL ANALYSIS OF THE HUMAN PERSONALITY: A critical study of modern personality theories in the light of phenomenology and existentialism. A study in depth of the genesis meaning and structure of the mature and authentic personality.

628—SEMINAR ON CONTEMPORARY PROBLEMS: Provides the student with experience in applied phenomenology. Topics such as phenomenology of death, phenomenology of shame, phenomenology of resentment, etc., will be treated at various times. (This may be taken twice when different topics are offered.)

630—SEMINAR ON PROBLEMS OF INTERPRETATION: A study of the hermeneutical problems in Dilthey, Heidegger, Gadamer, and Ricoeur.

640—PROBLEMS IN ETHICS. A reappraisal of American ethical values and problems made in view of the present moral and cultural revolution taking place in the nation.

641—SEMINAR IN ETHICS AND INTERNATIONAL RELATIONS.

642—SEMINAR ON VALUES IN EUROPEAN THOUGHT: (Fall 1973, Von Rentelen, Visiting Professor.)

643—SEMINAR ON NICOLAI HARTMANN: An ontological investigation into the stratification of reality.

645—SEMINAR ON THE LOGIC OF RELIGIOUS LANGUAGE.

650—SEMINAR ON WHITEHEAD.

653—SEMINAR IN THE SYSTEMATIC THOUGHT OF PAUL TILLICH. (Cross listed with Theology 461)

655—SEMINAR ON AMERICAN SOCIAL PHILOSOPHY.

657—SEMINAR ON EARLY AMERICAN PHILOSOPHY: An investigation of the philosophy implicit in Puritanism and Colonial Political Thought.

660—SEMINAR ON GABRIEL MARCEL: A study of Marcel's philosophy in relation to his literary works and a consideration of the journal as a philosophical style.

664—SEMINAR ON THE PROBLEM OF THE TRANSCENDENT IN CONTEMPORARY FRENCH PHILOSOPHY: Special consideration of Emmanuel Levinas' Totality and Infinity.

668—SEMINAR ON MAURICE MERLEAU-PONTY: A consideration of Merleau-Ponty's later work, especially The Visible and the Invisible, as it relates to his earlier writings and the problematic of being.
SEMINAR ON PAUL RICOEUR: A study of the linguistic and hermeneutical problems in Ricoeur's recent writings, *Le conflit des Interpreteions.*

SEMINAR ON STRUCTURALISM IN CONTEMPORARY FRENCH THOUGHT: The focus will be on structuralism in its relevance as theory and method to philosophy: Foucault—Levi-Strauss—Derrida—Lacan—Althusser—Barthes.

SEMINAR ON LOGICAL ATOMISM. A study of the metaphysics of logical atomism, with emphasis on the writings of Wittgenstein, Russell, and G. Bergmann.

SEMINAR ON TEACHING PHILOSOPHY.

SEMINAR ON PHENOMENOLOGY OF ART AND BEAUTY.

SEMINAR ON TEXTUAL EXERCISES: A study into the historical development of basic philosophical concepts such as substance, space, freedom, being and their different uses in various epochs in the texts of thinkers from Plato to Megel.

THESIS RESEARCH: Independent investigation of a philosophical problem for the thesis-dissertation. This problem is assigned by the Chairman or his designate after consultation with the student. Overall direction and advisement is given by the thesis director.

INDEPENDENT STUDY.
DEPARTMENT OF PHYSICS

THOMAS G. STINGCOMB, Ph.D., Chairman – Nuclear Radiation Physics
JULIUS J. HUPERT, Ph.D., Chairman, Graduate Committee – Electrophysics

MARY L. BOAS, Ph.D.

DONALD O. VAN OSTENBURG, Ph.D.
Solid State Physics

JAMES J. VASA, M.S.
General Physics

PON-NYONG YI, Ph.D.
Molecular Physics

PURPOSE

The objective of the Department of Physics in the Graduate School is to develop in its students professional competence in the science so that they may pursue successful careers in research or teaching or continue their studies toward the doctorate. To fulfill this purpose, the University offers the Master of Science (in Physics) degree and the degree of Master of Science in the Teaching of Physics. The latter degree provides instruction in the fundamentals of physics for those students interested in secondary school teaching.

As a public service to the educational, scientific and technological communities of the Chicago area, the department offers graduate and advanced undergraduate courses in the evenings for industrial scientists and engineers, and for teachers. The evening program emphasizes the physics and mathematical skills so necessary for successful mastery of sophisticated and rapidly changing technologies such as electronics. Both the Master of Science degree and the degree of Master of Science in the Teaching of Physics may be earned in the evening program.

DEGREE OF MASTER OF SCIENCE

PREREQUISITES

An applicant for admission as a regular graduate student for the degree of Master of Science in Physics must have satisfactorily completed a suitable program in advanced physics beyond a General Physics course and possess working knowledge of mathematics at least equivalent to the contents of the course 395.

Candidates with a less extensive background may be accepted as regular students upon the satisfactory result of scrutiny of their past scholastic record. They will, however, be expected to remove their deficiencies by a suitable choice of background courses. The precise program of background study will in each individual case be determined by the chairman of the Graduate Committee on behalf of the Committee and in consultation with the candidate.

REQUIREMENTS

1. Completion of a minimum of eleven courses, as specified below. The credit for each course is four quarter hours.
   (a) The courses required of all students are:
       The three "primary core" courses: 410, 420, 460.
       Three out of the following six "secondary core" courses:
       411, 421, 445, 461, 465, 491.
   (b) The five remaining courses may be selected as follows:
       (l) Thesis research, Physics 480.
           As a rule, one course effort should be applied to the thesis research. An addi-
tional course credit for thesis research may be allowed at the suggestion of the Faculty Adviser. Approval of the Graduate Committee is needed, however, in every case before the second credit may be counted towards the degree requirement. In no case will more than two thesis research course registrations be applied to the M.Sc. degree.

(2) Three courses which may be selected from physics courses or from biological sciences, chemistry, mathematics or another approved minor field. Up to two "300" level courses in physics may be selected from the list "B" of background courses included in this bulletin. Any other courses in physics numbered over 410 are acceptable. Courses elected from other departments must be approved by the Student's Faculty Advisor in consultation with the department concerned. They must be of "300" level or above.

Where two courses are allowed for thesis (see (1) above) only two courses covered by this section are required.

2. Degree Candidacy, which will be decided on the basis of performance in graduate courses and an oral, comprehensive examination.

3. A thesis based on independent research in theoretical or experimental physics.

Current research interests of the Faculty include:
Nuclear physics, involving low energy nuclear physics (Dr. Hof, Dr. Lietz), studies of nuclear structure (Dr. Greenwood), and the physics of nuclear radiation, including possible biological and medical applications (Dr. Stinchcomb);
Electrophysics, including electromagnetic theory, circuit and signal theory, electronics and solid state physics as related to electronic circuits and devices (Dr. Huperti);
Mathematical physics, special theory of relativity (Dr. Bous);
Research in solid state physics, including also studies related to molecules important in biological applications. Dr. Van Ostenburg and Dr. Yi conduct research in this field and in other fields of solid state physics. Dr. El Saffar specializes in applications of techniques of nuclear magnetic resonance to the study of ferroelectric and magnetic materials.

DEGREE OF MASTER OF SCIENCE IN THE TEACHING OF PHYSICS

Prerequisites

An applicant for the status of a regular student towards the degree of Master of Science in the Teaching of Physics must have satisfactorily completed a complete sequence of courses in General Physics and in mathematics up to and including Integral Calculus.

Requirements

1. Completion of eleven courses (44 quarter hours) in physics. It is expected that there will be considerable variation in the backgrounds of applicants. Consequently every individual program will be planned in consultation with a staff member.

2. Degree Candidacy.

3. A scholarly paper, written with the guidance of a staff member.

4. An oral examination in the field of graduate study.

5. A student must plan his program in consultation with a staff member.

Other Degree Programs

As a part of the University's program for interdisciplinary degrees of Master of Science, the Physics Department, in cooperation with the Departments of Mathematics, Biological Sciences, and Chemistry offers programs in Electrophysics, Mathematical Physics, Medical Physics, and Chemistry and Physics of Materials. Other interdisciplinary master's degree programs involving physics may be evolved to meet the goals of capable students. For details consult the Chairman of the Graduate Committee.
COURSES FOR ADVANCED UNDERGRADUATE AND GRADUATE STUDENTS

LIST A: Undergraduate courses offered primarily for the Master of Science in the Teaching of Physics Program. Courses carry 4 quarter hours credit.

316—MECHANICS.
324—ELECTRICITY AND MAGNETISM.
335—ELECTRIC CIRCUITS.
337—ELECTRONIC CIRCUITS. Lab. fee.
340—THERMAL PHYSICS.
354—OPTICS.
365—ATOMIC PHYSICS.
366—NUCLEAR AND HIGH ENERGY PHYSICS.
380—ADVANCED LABORATORY. Variable credit. Lab. fee.
391—METHODS OF THEORETICAL PHYSICS.
397—ASTRONOMY FOR TEACHERS.

LIST B: Undergraduate courses offered primarily for graduate students. The courses listed below may be followed either in the form of organized lecture sequences or on the basis of a careful and detailed outline of individual study. A typical program of individual study involves: a) lists of required reading material; b) assignments for exercise between tests; c) schedule of supervised tests. Consent of the faculty member in charge of each course is a prerequisite. For initial planning and information contact the Chairman of the Graduate Committee. No laboratory fees. Courses carry four quarter hours credit.

317—MECHANICS I.
320—ELECTRICITY AND MAGNETISM I.
345—THERMAL PHYSICS.
364—MODERN PHYSICS II.
368—QUANTUM MECHANICS.
395—METHODS OF THEORETICAL PHYSICS III.
399—INDEPENDENT STUDY.

Other "300" level courses listed in the undergraduate catalog as admissible for graduate credit will also be accepted as background courses, although they are not explicitly offered for the benefit of the graduate students.

GRADUATE COURSES

All graduate courses carry as a rule 4 quarter hours of credit. When a deviation from this rule is justified, the applicable number of credit hours is shown in the specific schedule applicable to the academic quarter in question. Scheduling of courses is announced quarterly.

401—FOUNDATIONS OF CLASSICAL PHYSICS. The motion of charged and uncharged particles in gravitational and electromagnetic fields, special relativity and introduction to wave mechanics.

402—FOUNDATIONS OF MODERN PHYSICS. The particles of modern physics, their interactions in atoms and nuclei, and high-energy physics.

403—SEMINAR IN HIGH SCHOOL PHYSICS TEACHING. A critical review of new programs designed for high school physics, with emphasis on phenomenological physics.

409—PHYSICS AND MATHEMATICS OF COMMUNICATIONS. Subjects in electromagnetic, circuit, signal, and information theories, selected to provide an understanding of the physical principles of modern communications. (Prerequisite: consent.

410—THEORETICAL MECHANICS I. Variational principles; Lagrangian mechanics; two-body collisions; the two-body central force problem; rigid body dynamics and special relativity theory.
411—THEORETICAL MECHANICS II. Hamilton's equations of motion; canonical transformations; Hamilton-Jacobi Theory; small oscillations; and introduction to the Lagrangian and Hamiltonian formulations for continuous systems and fields. (Prerequisite: Physics 410.)

420—ELECTRODYNAMICS I. Concise review of Maxwell's equations and basic theory of electromagnetic fields in motion; theory of bounded structures and of guided waves; theory of electromagnetic radiation, including multiple radiations and radiation from systems of radiators.

421—ELECTRODYNAMICS II. More involved problems in radiation, concentrating on the use of spectral theory and of Green's functions. Charged particle radiations, phenomena of bremsstrahlung and of Cerenkov radiation. Special theory of relativity and four-vectors as applied to electromagnetic phenomena; field invariants. (Prerequisite: 420.)

445—STATISTICAL MECHANICS. Basic principles of statistical mechanics; applications to weakly interacting systems, such as classical plasma and Fermi gas; strongly interacting systems; transport theory; fluctuations and irreversible processes, phase transitions. (Prerequisites: 545, 410, 460.)

460—QUANTUM MECHANICS I. Systematic development of the basic principles of quantum mechanics. Experimental and historical background; wave packets; the Schrödinger equation; eigenfunctions and eigenvalues; statistical interpretation. The formalism of quantum mechanics: vector spaces; linear operators; observables; commutators; projectors; representations.

461—QUANTUM MECHANICS II. Scattering theory: cross sections; scattering by a central potential; phase shift analysis; scattering resonances; Born approximation. Angular momentum; rotations; spin; addition of angular momenta. Systems of identical particles. Invariance. Methods of approximation. (Prerequisite: 460.)

465—NUCLEAR PHYSICS. Theoretical and phenomenological approaches to nuclear structure and strong, electromagnetic, and weak interactions of nuclei. Topics of study include the theory of scattering and decay of nuclei, resonances, nuclear models. (Prerequisite: 968.)

491—SOLID STATE PHYSICS I. Periodicity and classification of crystal structure—the theory of X-ray diffraction is explained early as an introduction to the concept of the reciprocal lattice. The other principal topics of this course are: phenomenology of crystal binding, phonons, the Debye theory of heat capacity, inelastic scattering of neutrons and of intense coherent light, anharmonic interactions and thermal conductivity, the free-electron gas model, the energy band theory. (Prerequisites: Courses 346, 368.)

478—SEMINAR IN TOPICS OF THEORETICAL PHYSICS.
This course number is reserved for:
(a) All theoretical independent study at a graduate level.
(b) Special seminars organized from time to time to accommodate the needs of groups of students in specialized theoretical subjects of topical interest.

480—THESIS RESEARCH. This course number designates research performed to gather thesis material. Up to two registrations are allowed. Consent of the Graduate Committee is required before two courses are allowed for the degree credit.

GRADUATE SEMINAR COURSES
Courses described as "seminars" in their titles may contain different subjects each time the course is offered. Thus multiple credit may be granted for these courses subject to departmental approval. When advisable these courses may also be offered as controlled individual study courses. Consent of the Faculty advisor is a prerequisite for every graduate seminar course.
522—SEMINAR IN ELECTRODYNAMICS. Advanced problems of electrodynamics such as: theory of dispersive media, scattering problems, magneto-hydrodynamics, wave propagation in anisotropic media. (Prerequisites: 420, 421.)

525—SEMINAR IN ADVANCED THEORY OF ELECTRIC CIRCUITS. A seminar with special emphasis on circuits using thermionic tubes and semi-conductor devices. Advances in this field will be studied on the basis of recent periodical literature. Examples of applications and problems will be undertaken to demonstrate the efficiency of advanced mathematical methods.

524—SEMINAR IN MICROWAVES. A study of specialized topics in the general field of microwaves. The nature of the seminar will change from year to year. The topics to be covered in successive schedulings are a) field theory of microwaves, b) theory of distributed circuits, and c) theory of microwave devices.

530—SEMINAR IN MATHEMATICAL PHYSICS I. A selection of topics in advanced mathematics chosen from the following list, together with physical applications to various branches of physics as appropriate.
Functional analysis (linear spaces, operators, distributions); applications to boundary value problems (Sturm-Liouville theory, Green's functions, spectral theory). (Prerequisite Course 395.)

531—SEMINAR IN MATHEMATICAL PHYSICS II. Topics from the following list (see preface to course 530):
Integral equations; variational methods; advanced complex variable theory and integral transforms. (Prerequisite: 530.)

532—SEMINAR IN MATHEMATICAL PHYSICS III. Topics from the following list (see preface to course 530):
Group theory (general theory, crystallographic groups, group representations); tensor analysis. (Prerequisite: 530.)

533—SEMINAR IN GENERAL THEORY OF RELATIVITY. Tensor analysis and Riemannian geometry; the gravitational field equations and their solutions in special cases.

546—SEMINAR IN THEORIES OF MANY PARTICLE SYSTEMS. Topics of this seminar are heavily drawn from the theory of elementary excitations in solid state physics: lattice dynamics; Bose and Fermi liquids, nuclear matter, electron correlations and plasma oscillations; spin wave theory and ferromagnetism; quasi spin-wave model of ferroelectricity; the BCS theory of superconductivity, superfluidity. (Prerequisite: 491, 445.)

562—SEMINAR IN QUANTUM MECHANICS. Relativistic single particle wave equations: Klein-Gordon, Dirac and Maxwell equations. Relativistic spin $\frac{1}{2}$ (Dirac) particle interacting with the electromagnetic field: hydrogen atom, charge conjugation, hole theory. Lagrangians for relativistic fields: construction of field invariants from symmetries of the Lagrangian (Noether's theorem). Second quantization of free fields and its equivalence to the many particle theory of identical particles. Interaction of quantised fields: s-matrix and perturbation theory. Feynman graphical technique. (Prerequisite: Course 461.)

565—SEMINAR IN ELEMENTARY PARTICLES. Introduction to particle physics including relativistic kinematics, scattering, production and decay of particles and resonances; symmetries, conservation laws and possible dynamical symmetry classification schemes for strongly interacting particles and resonances. (Prerequisites: Physics 490, 461.)

570—SEMINAR IN NUCLEAR PHYSICS. A seminar with special emphasis on current topics in nuclear physics. Both experimental methods and their theoretical interpretations are studied with the emphasis on the latter.
592—SEMINAR IN THEORETICAL SOLID STATE PHYSICS. The principal topics of this course are electrophysics of intrinsic and impure semiconductors; studies of band structure of n- and p-type semiconductors; transport properties of charge carriers; dielectric and optical behavior of ions and of electron gas; ferroelectricity, dia- and para-magnetism, ferromagnetism, anti-ferromagnetism, superconductivity. (Prerequisite: 491.)

593—SEMINAR IN EXPERIMENTAL TECHNIQUES OF SOLID STATE PHYSICS. This seminar involves an introduction to several techniques employed in studying solids. These techniques may include X-ray, electron and neutron diffraction, Mössbauer, ultraviolet, visible, IR, ESR, NQR and NMR spectroscopy. For each technique a theoretical introduction is given followed by a brief description of the used equipment and a detailed discussion of the measured parameters and of the information obtained from the measurements. (Prerequisites: 491, 592.)
Prerequisites as a Minor Field

Political science as a minor field may be taken in connection with economics, education, history, and philosophy. Five courses in political science form the prerequisite undergraduate preparation.

300—RESEARCH AND METHODOLOGY IN POLITICAL SCIENCE. This course deals with library research in political science materials. It considers the critical appraisal and the classification of research materials, as well as the techniques of research.

301—SCOPE AND METHOD. An examination of the areas covered by political science, the various schools of thought in the field, and the various methods of normative and empirical research.

302—SURVEY RESEARCH. A study of the research techniques employed in examining political behavior and attitudes.

305—COMPARATIVE GOVERNMENT — EUROPE. An introduction to the principles of comparative government and their application to a survey of the governments of four major European powers — Great Britain, France, West Germany, and the Soviet Union.

306—COMPARATIVE GOVERNMENT — ASIA. An introduction to the principles of comparative government and their application to a survey of the governments of India, China, and Japan.

307—GOVERNMENT AND POLITICS OF DEVELOPING NATIONS. This course compares the political institutions and processes of selected new nations of Africa, the Middle East, and Far East.

308—GOVERNMENT AND POLITICS OF SOUTHEAST ASIA. This course focuses attention on the countries of Southeast Asia and studies their political institutions and problems.

310—NATIONAL DEFENSE POLICIES. A critical examination of U.S. defense policies with special emphasis on the constitutional framework, the organization of the military departments, the economic impact of defense expenditures, weapons technology, selective service, and alliances.

311—ARMS LIMITATION AND DISARMAMENT. Technical political, and economic problems involved in the limitations of armaments.

315—PUBLIC ADMINISTRATION. A preliminary survey of the field of public administration, stressing the role of administration and bureaucracy in modern democracy, its relation to other branches of the government, problems of organization and relations among administrative levels, personnel, control, regulation, and other problems.

316—PUBLIC PERSONNEL ADMINISTRATION. Closely related to 315, this course deals with problems and procedures in government employment at the local, state and national level.

321—AFRICA POLITICAL. An exploration of the political life of some of the newly-independent nations of Africa.

321—AFRO-AMERICAN POLITICS. An analysis, largely historical, of the efforts of black citizens in the United States to organize and express themselves politically.

322—GHETTO POLITICS IN AMERICA. An analysis of the impact of the ghetto on local, state, and national political systems.
330—WORLD POLITICS. A survey of the factors bearing on international politics, with emphasis on such problems as imperialism, balance of power, collective security, and international organization.

335—INTERNATIONAL LAW. A study of the principles and practices of international law, giving special consideration to such problems as sources and sanctions of the law of nations, recognition and succession of states, intervention, jurisdiction, nationality and protection of citizens, diplomatic and consular practice, and treaty interpretation.

340—ANCIENT AND MEDIEVAL POLITICAL THOUGHT. A study of the political theories of major political philosophers from Aristotle to Machiavelli, with emphasis on the historical setting and the long-range influence of each thinker.

341—HISTORY OF MODERN POLITICAL THOUGHT. A study of the political theories of the major political philosophers since Machiavelli, with emphasis on consideration of the historical setting and the development of thought in modern times.

350—VOTING BEHAVIOR. A study of attitudes, issues and candidates as factors that influence the act of voting.

370—SENIOR SEMINAR, WORLD POLITICS.

371—SENIOR SEMINAR, RUSSO-AMERICAN RELATIONS.

372—SENIOR SEMINAR, NATIONAL SECURITY POLICIES.

373—SENIOR SEMINAR, CONSTITUTIONAL LAW.

374—SENIOR SEMINAR, COMPARATIVE GOVERNMENT.

375—SENIOR SEMINAR, MODERN POLITICAL THOUGHT.

376—SENIOR SEMINAR, CONTEMPORARY AMERICAN POLITICS.

Note: These seminars are open only to advanced students with superior academic records.

380—U.S. CONSTITUTIONAL HISTORY TO 1815. This course examines the English colonial charters and colonial governments in the 17th and 18th centuries, the constitutional aspects of the American Revolution, the new state constitutions drafted in the 1770's, the Articles of Confederation, the federal Constitution, and the early history of the new government. (May also be taken for History credit. See History 380)

381—U.S. CONSTITUTIONAL HISTORY, 1815-1920. This course continues the history covered in 380. It explores the concepts of federalism and separation of powers in some detail and with reference to major Supreme Court decisions. The constitutional aspects of the Civil War and Reconstruction are given close attention, followed by the problems of industrial regulation. (May also be taken for History credit. See History 381)

382—U.S. CONSTITUTIONAL HISTORY SINCE 1920. This course continues the history covered in 381. It deals with problems of civil liberties in the post-World War I era, the constitutional issues of the New Deal period, and the great variety of constitutional controversies that arose during and after World War II, including the major decisions of the Warren court. (May also be taken for History credit. See History 382)

383—UNITED STATES FOREIGN RELATIONS, 1783-1860. See History 383.

384—UNITED STATES FOREIGN RELATIONS, 1860-1914. See History 384.

385—UNITED STATES FOREIGN RELATIONS SINCE 1914. See History 385.

387—THE LEGISLATIVE PROCESS. A study of the policy-making process in Congress, involving problems of legislative organization and procedures, leadership, and presidential-legislative relationship; these concepts are examined primarily by the case method and by individual research on selected pieces of recent legislation.
391—POLITICAL PARTIES. An analysis of the functions and organizations of political parties in the United States and in other countries.

393—U.S. CONSTITUTIONAL LAW — FEDERALISM. An intensive study of important cases in U.S. Constitutional law to illustrate the basic principles and problems of the federal system.

394—U.S. CONSTITUTIONAL LAW — CIVIL LIBERTIES. An intensive study of important cases in U.S. Constitutional law in the realm of civil liberties.

395—SELECTED PROBLEMS IN CONTEMPORARY AMERICAN DIPLOMACY. Analytical study of U.S. participation in regional and global political and military agreements.

396—PROPAGANDA TECHNIQUES. An analysis of the meaning and importance of propaganda in a political context, and of types of propaganda employed in modern states.

399—INDEPENDENT STUDY. Individual students make arrangement for independent reading and research under the supervision of a faculty member.

Assistant Professor

The Department of Psychology offers graduate work leading to the degrees of Master of Arts, Master of Science, and Doctor of Philosophy. Available programs leading to these degrees are as follows:

Master of Arts
General Experimental Psychology
Clinical Community Psychology
School Psychology

Master of Science
Clinical Community Psychology
School Psychology

Doctor of Philosophy
General Experimental Psychology
Clinical Community Psychology

The objective of the graduate programs in psychology is to provide qualified students with the opportunity to become thoroughly acquainted with the methodology and content of scientific psychology and trained in the quantitative methods and scientific rigor necessary for the understanding of human behavior and personality. At the Master's level, the preparation of students is directed toward further study for the doctoral degree (in the case of Master of Arts programs), or toward employment in one of the applied fields of psychological services (in the case of Master of Science programs).

ADMISSION

The Department accepts as graduate students only those who show definite promise for completing the requirements for advanced degrees. Meeting the minimum admission standards or having extensive undergraduate course work in psychology does not guarantee acceptance, since the number of applicants who can be admitted is limited.

The applicant for graduate study in psychology must present a satisfactory undergraduate scholastic average with a minimum of twenty-one semester hours or thirty-two quarter hours in Psychology. Three of the hours must represent a course in Elementary Statistics.

Preference is given to those applicants who have a well-balanced background of psychology courses, and some background in another science and mathematics. However, students who do not have an undergraduate major in psychology but who are able to demonstrate a high level of undergraduate achievement are encouraged to apply.

The Departmental Graduate Admissions Committee will determine, on the basis of a consideration of each student's proposed program of graduate study, whether the minimum of twelve quarter hours in Psychology is sufficient for advanced study. The student
judged to be deficient in prerequisites or other respects will be required to take, without graduate credit, such courses as necessary to remedy any deficiencies upon entering Graduate School.

In addition to the admission requirements of the Graduate School, the Department of Psychology requires all applicants to submit the following before their application for admission will be considered complete: (a) Departmental Information Schedule, (b) the results of the Verbal and Quantitative tests and the Advanced Test in the field of undergraduate major of the Graduate Record Examination, and (c) three letters of recommendation. For and detailed information may be obtained from the chairman of the department. It is desirable, but not mandatory, that the results of the Miller Analogies Test, if taken, also be submitted at the same time.

MASTER'S PROGRAMS AND DEGREE REQUIREMENTS

All Master's programs have in common a central series of academic courses, known as the core sequence, which are intended to develop the student's fundamental understanding of psychology. These courses are relevant to all areas of psychology because they deal with basic processes and methodologies relevant to all areas. The following courses constitute the core sequence: Psychology 402 (Perceptual Processes), Psychology 404 (Learning Processes), Psychology 406 (Physiological Processes), Psychology 430 (Advanced Social Psychology), Psychology 437 (Advanced Personality), and Psychology 439 (Advanced Developmental Psychology). In certain of the Master of Science programs, Psychology 402 is waived and replaced by an appropriate elective. Master of Science programs also require one advanced course in statistics; either Psychology 409 or Psychology 410. Master of Arts programs require three courses in statistics: Psychology 410, Psychology 411, and Psychology 412.

All students are required to maintain a grade point average of "B" or higher and to carry a course load of a minimum of 12 quarter hours per quarter.

Degree requirements for the various Master's programs are as follows:

1. Master of Arts in General Experimental Psychology: a minimum of 44 quarter-hours, including 4 hours thesis credit.

2. Master of Arts in Clinical Community Psychology, and School Psychology: a minimum of 72 quarter-hours including 4 hours thesis credit, but not including credit for pre-practicum or practicum courses.

3. Master of Science in Clinical Community Psychology, and School Psychology: a minimum of 72 quarter-hours including 4 hours credit for the Master's paper, but not including credit for pre-practicum or practicum courses.

In addition to the quarter-hour requirements noted above, all Master of Arts programs require that the student complete a research thesis on a topic approved by the Department. Students enrolled in the Master of Science programs are required to complete a Master's paper of approximately 5,000 words on an approved topic.

Upon completing at least half of the graduate course requirements, each student is evaluated for acceptance as a candidate for a Master's degree. Only those who have given evidence of satisfactory academic performance as graduate students will be advanced to candidacy. The Department reserves the right to require the student to take special written or oral examinations in fulfilling this requirement. Students whose application for advancement to candidacy is denied will be advised to strengthen areas of scholastic weakness or to withdraw from the Graduate School.

All students enrolled in Master's programs are also required to undertake a comprehensive examination, either written or oral, in the field of graduate study. This examination may be but is not necessarily limited to a defense of the student's thesis or Master's paper.
PH.D. PROGRAMS AND DEGREE REQUIREMENTS

Doctoral programs in General Experimental Psychology and Clinical Community Psychology are offered by the Department. Within the General Experimental Program the student may specialize in learning, physiological psychology, or social psychology. All doctoral programs include a strong emphasis on research.

Students holding bachelor's degrees are not admitted directly into doctoral programs; they are required first to obtain a Master of Arts degree at DePaul University. Students who have already obtained a Master's degree in psychology from another institution and who present evidence of the level of scholarship necessary to successful completion of the doctoral program may be admitted into the program.

All students are required to complete a core sequence of courses during the first two years of graduate study. Before the end of the second quarter of residence at the Ph.D. level, the student must pass a preliminary examination, which may be written or oral. This examination, which is similar to the Master's comprehensive examination, may be waived upon recommendation of the committee representing the student's area of specialization.

In order to be admitted to candidacy for the Ph.D., the student must successfully pass the Doctoral Candidacy Examination. This written examination is designed to assess the student's competence in psychology as a whole and in his area of specialization. The examination is given in three sections. The first two sections cover the areas of learning, perception, physiological psychology, personality, developmental psychology and social psychology. The third section consists of an eight hour examination in the student's area of specialization. These examinations are administered over a period of one week. In addition to their academic programs, all doctoral level students are also required to participate in the Teaching of Psychology Program, in which they function as assistant instructors or instructors in undergraduate psychology courses. This important teaching experience must be preceded by participation in a Seminar in Teaching Psychology. Students enrolled in the Clinical Community Psychology Program are also required to complete a one-year internship in a facility approved by the Department as a requirement for the Ph.D.

Each student must demonstrate his ability to conduct independent research by the presentation of an acceptable dissertation. Research for the dissertation should normally be completed during the fourth year at the University by students in the General-Experimental Program. However, as the third year is usually the year of internship for students in Clinical Community Psychology, the dissertation normally will be completed during the fifth year by students in this program. At the final oral examination a student is required to defend his dissertation and to show his competence in the general field of psychology and in his area of specialization.

General requirements for the Doctor of Philosophy degree are:
1. A minimum of 108 quarter-hours beyond the bachelor's degree, exclusive of thesis and dissertation credit and credit for practicum and practicum courses.
2. Admission to doctoral candidacy, as noted above.
3. A dissertation on a topic approved and accepted by the Department.

ADDITIONAL INFORMATION

Additional information concerning graduate programs and admission to graduate programs may be obtained by writing to the Chairman of the Graduate Admissions Committee of the Department of Psychology.

PSYCHOLOGY AS A MINOR

Psychology may be combined as a minor with Biology, Mathematics or Philosophy. Students taking a minor in psychology may elect courses on the advanced level only after
completion of certain other requirements, to be determined by the chairman of the department of psychology and chairman of the department of the student's major field.

COURSES FOR ADVANCED UNDERGRADUATE AND GRADUATE STUDENTS

301—TESTS AND MEASUREMENTS. A survey of psychological testing with emphasis on test construction and interpretation of scores. (Prerequisite: Psychology 105) (Materials fee: $5.00). May be taken for credit only by majors in the Human Development sequence and by non-majors. May not be taken for credit if Psychology 356 has been successfully completed (passed with a grade of C or better).

302—PERSONAL ADJUSTMENT AND MENTAL HEALTH. Introduction to psychological principles involved in personality and interpersonal adjustments. (Prerequisite: Psychology 105)

305—SOCIAL PSYCHOLOGY. The study of the influence of group life on behavior and personality development. (Prerequisite: Psychology 105). May be taken for Sociology credit.

312—INDUSTRIAL PSYCHOLOGY. The application of the psychological principles of learning, perception, and adjustment to industry. (Prerequisite: Psychology 105)

333—DEVELOPMENTAL PSYCHOLOGY I: INFANCY AND CHILDHOOD. Description and evaluation of principles and theories of development from conception through childhood. (Prerequisite: Psychology 106)

334—DEVELOPMENTAL PSYCHOLOGY II: ADOLESCENCE THROUGH MATURITY. Continuation of 333 covering development, personality organization, and adjustment. (Prerequisite: 333)

336—HUMAN DEVELOPMENT. A survey of principles of development from conception through maturity. (Prerequisite: Psychology 105). May not be taken for credit by psychology majors.

351—THEORIES OF PERSONALITY. Survey of theories of personality, emphasizing distinction between clinical and scientific theories. (Prerequisite: Psychology 106)

352—THE PSYCHOLOGY OF PREJUDICE. (Prerequisite: Psychology 106)

353—ABNORMAL PSYCHOLOGY. Description of the nature, symptoms, and etiology of psychological disorders. (Prerequisite: Psychology 106)

354—ECOSYSTEMS AND BEHAVIOR. (Prerequisite: 305)

355—SMALL GROUPS AND LEADERSHIP. (Prerequisite: 305)

356—INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT. Measurement in psychology; emphasis on standardization, reliability, validity; test and scale development. (Prerequisites: 106 and 242). (Materials fee: $5.00)

357—PSYCHOLOGY OF SOCIAL DEVIANCE. (Prerequisite: 305)

360—THEORIES OF LEARNING. A survey of the classical and modern theories of learning. (Prerequisite: 276 or consent)

361—HISTORY AND SYSTEMS OF PSYCHOLOGY. Historical analysis of basic concepts in psychology. (Prerequisite: 275 or consent)

362—COGNITIVE PROCESSES. Processes by which stimulus input is transformed, stored, recovered, and used; abstraction processes. (Prerequisite: 106)

366—BEHAVIOR PROBLEMS OF CHILDREN. (Prerequisite: 333)

367—PSYCHOLOGY OF EXCEPTIONAL CHILDREN. (Prerequisite: 333)

368—COMPUTER PROGRAMMING. Development of FORTRAN programs for computing statistics. (Prerequisite: Psychology 242 or consent). (Laboratory fee $15.00)

370—RESEARCH METHODS IN DEVELOPMENTAL PSYCHOLOGY. (Prerequisite: 334)
372—RESEARCH METHODS IN SOCIAL PSYCHOLOGY. (Prerequisite: 275.) (Laboratory fee: $5.00)
375—PERCEPTION. Environmental and stimulus control of behavior: chemical control of perception. (Prerequisite: 277.)
377—PHYSIOLOGICAL PSYCHOLOGY. The nervous system and endocrine functions as related to behavior. (Prerequisite: 275.)
378—COMPARATIVE PSYCHOLOGY. Patterns of behavior shown by various animal species. (Prerequisite: 106.)
390—STATISTICS FOR THE BEHAVIORAL SCIENCES. Applied inferential statistics. (Prerequisite: 242.)
392—PSYCHOLOGY OF ALIENATION. Causes of individual and group alienation, and the resultant behavior. (Prerequisites: 305 and 351.)
395—PSYCHOLOGY OF LANGUAGE. Development of language in children, and effects of language on thinking. (Prerequisite: 360.)
394—ADVANCED TOPICS IN PSYCHOLOGY. (Prerequisite: Senior standing and consent of Chairman.)
395—FIELD WORK AND STUDY. Supervised experience in selected off-campus settings and associated readings. (Prerequisite: Junior standing and consent of Chairman.)
398—READING AND RESEARCH. (Prerequisite: Senior standing and consent of Chairman.)

COURSES FOR GRADUATE STUDENTS ONLY
402—PERCEPTUAL PROCESSES. Analysis of the variables involved in the determination of perception with particular attention to the problems of space, motion, distance, size, form, the after effects and the constancies. (Prerequisite: Twelve hours in psychology.)
404—LEARNING PROCESSES. Basic concepts and research in acquisition, extinction, generalization, discrimination, transfer, retention in both animals and humans. (Prerequisite: Twelve hours in psychology.)
406—PHYSIOLOGICAL PROCESSES. The functional role of neural systems important for the processes of motivation, emotion, sleep, memory, and cognition. (Prerequisite: Psychology 377 or equivalent.)
409—STATISTICS FOR THE BEHAVIORAL SCIENCES. Applied inferential statistics. (Prerequisite: 242)
416—ADVANCED STATISTICS I. An introduction to sample spaces, random variables, distributions and parametric statistics. Sampling, the concept of sampling distributions of statistics. (Prerequisite: Psychology 242 or equivalent.)
411—ADVANCED STATISTICS II. Point estimation procedures are developed for a variety of parameters. Interval estimation and hypothesis testing are compared. Linear regression, correlation, and analysis of variance. (Prerequisite: Psychology 410.)
412—ADVANCED STATISTICS III Complex analysis of variance and covariance; planned and post-hoc contrast; orthogonal polynomials. (Prerequisite: Psychology 411.)
416—METHODS IN BEHAVIORAL RESEARCH. Principles and techniques of research design in behavioral, social and clinical research; questionnaires, interview schedules, rating scales involving multivariable analysis. Application of parametric and non-parametric tests. Application of research findings to professional practice. (Prerequisite: Psychology 411.)
418—MULTIVARIATE ANALYSIS. Theory and statistical techniques underlying the analysis of multiple measurements. (Prerequisite: Psychology 411.)
419—FACTOR ANALYSIS. Theoretical foundations, methods of analysis, and comparison of various factor analytic models. (Prerequisite: Psychology 418) (4 credits.)

420—ADVANCED EXPERIMENTAL PSYCHOLOGY. Design, analysis, and execution of psychological research. Includes philosophy of science and the role of theory in psychology.

421—INSTRUMENTATION. Design, construction and use of instrumentation in the behavioral sciences. (1 to 4 credits.)

424—THEORIES OF MOTIVATION. An analysis of the psychology of motivation in terms of instinct and psychodynamic theories, biological and acquired drives and motives. (Prerequisite: Psychology 404.)

425—COGNITIVE PROCESSES. Theories and methods in the study of concept formation, problem solving, thinking, verbal learning, psycholinguistics. (Prerequisite: Psychology 404.)

427—SENSORY PROCESSES. Receptor system processes and their relations to psychological phenomena, with attention to similarities and differences among sensory systems and to general principles of sensory integration and orientatation. (Prerequisites: Psychology 402 and 406.)

430—ADVANCED SOCIAL PSYCHOLOGY. Contemporary theory and research in social behavior, emphasizing the behavior of the individual in a social context. (Prerequisite: Psychology 305.)

431—GROUP DYNAMICS. Theory, research and practice relating to group behavior, the psychological structure of the group, group leadership, group dynamics and personality dynamics. Role playing. (Prerequisite: Psychology 305 or equivalent.)

432—ATTITUDE ANALYSIS. Theory and research in attitude formation and organization, communication and persuasion, resistance to persuasion, and measurement techniques. (Prerequisite: Psychology 430.)

433—SOCIAL JUDGMENT. Theory and research in judgment of social stimuli, perceiving and evaluating persons, and social comparison processes. (Prerequisite: Psychology 430.)

434—SMALL GROUP BEHAVIOR. Theory and research in goal formation, conformity, power and communication structures, cohesion, and task performance. The emphasis is on the behavior of persons within groups. (Prerequisite: Psychology 430.)

436—THEORIES OF PERSONALITY. Intensive analysis of personality theories; typological approaches; conflict and anxiety; introduction to principles of behavior dynamics. (Prerequisite: Psychology 351.)

437—ADVANCED PERSONALITY. Critical analysis of research in personality with emphasis on the development and testability of major constructs in contemporary research. (Prerequisite: Psychology 351.)

439—ADVANCED DEVELOPMENTAL PSYCHOLOGY. Current research and theories in child development relating to the preschool child, elementary school child, and adolescent. Emphasis on the dynamics of motivation, personality, learning and socialization. Case studies and analysis of various developmental problems. (Prerequisites: Psychology or Education 333 or 334.)

442—PSYCHOLOGICAL FACTORS IN DISABILITY. Psychological principles and problems in the major mental and physical disabilities, and prolonged infirmities of children and adults; somatopsychology; psychological assessment and counseling; re-education and retraining; psychological rehabilitation and adjustment including attitudes and adjustment. (Prerequisite: Nine hours in psychology or consent of instructor.)
450—PSYCHOLOGICAL MEASUREMENT. Logical and mathematical principles underlying test construction with emphasis on evaluating the reliability and validity of scores. (Prerequisite: Psychology 411 and 418.) (4 credits)

454—BEHAVIOR MODIFICATION. Analysis of principles, practices, and research related to the modification of human behavior. (Prerequisite: Psychology 404.)

471—PSYCHOLOGICAL ASSESSMENT. Theory and construction of tests of ability, achievement, interests, and special aptitudes. Objective tests of personality. Emphasis on the interpretation of test data and process of communication of test results to clients and agencies. (Prerequisite: Psychology 410 or Education 400.) (Materials fee: $6.00)

472—PRINCIPLES OF COUNSELING. Philosophies underlying the counseling process. Processes of psychological counseling, and the dynamics of the client-counselor relationship. The use of test scores and vocational-educational information in the counseling session. Utilization of role-playing and recorded counseling sessions to illustrate lecture materials. (Prerequisite: Psychology 356 or 471.)

474—THEORIES OF COUNSELING. Comparative study and analysis of the major conceptual orientations to counseling practice. The current literature and research in counseling. (Prerequisite: Psychology 472.)

476—RESEARCH ISSUES IN ASSESSMENT. Analysis of research and current issues concerning intellectual and personality assessment. (1 credit)

480—INTRODUCTION TO CLINICAL PSYCHOLOGY. Intensive survey of clinical psychology: the case-study method, importance of historical data and the process of diagnostic inference in assessment. The observation and analysis of the dyadic relationship with patients. (Prerequisites: Psychology 356 and 353 or equivalent.)

481—INDIVIDUAL INTELLIGENCE TESTING I. Theories of intelligence and cognitive development. Introduction to the administration of verbal and various non-verbal tests and the Stanford Binet. (Prerequisite: Psychology 356.) (Materials fee: $10.00)

482—INDIVIDUAL INTELLIGENCE TESTING II. The administration and interpretation of the Stanford Binet, Wechsler Intelligence Scale for Children and Wechsler Adult Intelligence Scale and the clinical use of these instruments. (Prerequisites: Psychology 481 and 482 must be taken consecutively.) (Materials fee: $10.00)

484—PROJECTIVE TECHNIQUES. The theory of projection. Administration and scoring of the Rorschach and Thematic Apperception Test and other projective tests. Evaluation of projective tests and needed areas of research and development. (Prerequisites: Psychology 356 and 353 or equivalent.) (Materials fee: $3.00)

485—ADVANCED PSYCHODIAGNOSTICS. Advanced study of projective techniques and other personality assessment methods, with emphasis on analysis, interpretation and integration of all pertinent clinical data. (Prerequisite: Psychology 484.) (Materials fee: $3.00)

486—ADVANCED PSYCHOPATHOLOGY. Review of the major neurotic, psychotic, psychosomatic and somatopsychic syndromes and etiological interpretations. Mechanisms of defense and behavior dynamics. Current issues in psychopathology and evaluation of treatment methods. (Prerequisite: Psychology 353 or equivalent.)

487—PSYCHOPATHOLOGY OF THE CHILD. Deviant behavior in children: infancy through puberty. Emphasis on differential diagnosis, etiology, family dynamics, prevention and treatment. Analysis of current theories and research. (Prerequisite: Psychology 353 and 351 or consent of instructor.)

488—PRINCIPLES OF PSYCHOTHERAPY. Analysis of theoretical approaches to psychotherapy. (Prerequisite: Psychology 436.)

109
DE PAUL UNIVERSITY

489—GROUP PSYCHOTHERAPY. Principles, theories and techniques of in-group psychotherapy. Problems of selection of group members and evaluation of progress. (Prerequisite: Psychology 436.) (2 credits)

490—EGO PSYCHOLOGY. Analysis of the formulations of the major ego psychologists with emphasis on ego development and adaptation. (Prerequisite: Psychology 436) (2 credits)

492—PRINCIPLES OF CONSULTATION. The principles and dynamics involved in the various types of consultative relationships. Techniques of consultation with parents, teachers, agencies, physicians and others in regard to problems and deviancy, methods of management and treatment. (Prerequisites: Psychology 390 and 486 or consent.) (2 credits)

493—COMMUNITY MENTAL HEALTH. The historical antecedents, philosophy and dimensions of community mental health; theory, practice, and research. Analysis of current problems and future directions. (Prerequisite: Graduate standing.)

550—SEMINAR IN TEACHING PSYCHOLOGY. (2 credits)

551—SEMINAR IN EXPERIMENTAL PSYCHOLOGY. (1 to 4 credits)

552—SEMINAR IN NEUROPSYCHOLOGY. (1 to 4 credits)

553—SEMINAR IN PERSONALITY RESEARCH. (2 credits)

554—SEMINAR IN BEHAVIOR GENETICS. (2 credits)

555—SEMINAR IN DEVELOPMENTAL PSYCHOLOGY. (2 credits)

556—SEMINAR IN SOCIAL PSYCHOLOGY. (2 credits)

563—SEMINAR IN PSYCHOTHERAPY. (2 credits)

564—SEMINAR IN CLINICAL RESEARCH. (2 or 4 credits)

565—SEMINAR IN CLINICAL ASSESSMENT. Analysis of special problems and methods in diagnosis and evaluation. (2 credits)

566—SEMINAR IN PSYCHOPATHOLOGY. (2 credits)

567—SEMINAR IN DEViant BEHAVIOR OF CHILDREN. (2 credits)

568—SEMINAR IN COMMUNITY PSYCHOLOGY. Analysis of theories of community and human behaviors from the standpoint of general systems principles. (2 credits)

569—SEMINAR IN COMMUNITY PSYCHOLOGY RESEARCH. Analysis of major research programs dealing with social and mental health problems with emphasis on epidemiological and socio-clinical research methods. (2 or 4 credits)

574—PRACTICUM IN CLINICAL PSYCHOLOGY. (1 credit)

575—PRACTICUM IN SCHOOL PSYCHOLOGY. Supervised experience in the diagnosis and management of problems impeding adequate functioning of the child in the school. Interviewing, assessment and consultation with parents and teachers. Minimum of 8 clock hours per week. (By arrangement with Chairman.)

577—PRACTICUM IN CLINICAL ASSESSMENT. Supervised experience in intake interviewing, psychological evaluation and case conference presentation in a clinic, hospital or community agency setting. Minimum of 8 clock hours per week. (By arrangement with Chairman.)

578—PRACTICUM IN CLINICAL PSYCHOLOGY. Supervised experience in diagnostic assessment, intervention planning, psychotherapy and report writing through varied assignments to campus or community agencies. (Minimum of two days per week.) (By arrangement with Chairman.)

579—PRACTICUM IN CHILD CLINICAL PROCEDURES. Supervised practice in the diagnosis and treatment process of the problems of children and adolescents. May be repeated for a maximum credit of 8 hours. (By arrangement with Chairman.)

110
580—PRACTICUM IN COUNSELING. Intensively supervised experience in counseling with a variety of clients. Group and individual supervision of all counseling sessions. Report writing. (Prerequisite: Psychology 472 and consent of instructor.)

582—ADVANCED PRACTICUM IN CLINICAL PSYCHOLOGY.

583—PRACTICUM IN COMMUNITY MENTAL HEALTH.

590—THESIS SEMINAR. (1 credit)

594—PSYCHOLOGICAL RESEARCH. A course involving intensive readings in contemporary psychological literature or individual research projects. (Arranged by prior consultation with the Chairman.)

595—COLLOQUIUM. Required of all graduate students. Lectures by visiting psychologists and members of the staff. (No credit.)

596—INTERNSHIP. (No credit.)

597—MASTER'S THESIS RESEARCH. Original investigation of a specific research problem. (3 or 4 credits.)

598—MASTER'S CANDIDATE RESEARCH. Open to Master's candidates who have fulfilled all requirements for the degree and who are devoting full time to thesis research and study. (0 credits; tuition equal to one four-hour course.) (Prerequisite: 597.)

599—DISSERTATION RESEARCH. (4 to 12 credits per quarter.)
DEPARTMENT OF SOCIOLOGY

JOHN KVAL, PH.D., Chairman
ROBERTA ASH, PH.D.,
ROSEMARY BANNAN, PH.D.,
KENNETH FUEL, PH.D.,
HELMUT LOHRANDL, PH.D.

OAKIA RAYMOND, PH.D.,
CHARLES SUCHAR, PH.D.,
JOYCE SWEN, PH.D.,
DEENA WEINSTEIN, PH.D.,
JUDITH WILLIAMS, PH.D.

PURPOSE

Through its graduate program, the department expects students to learn the constructs and logic that comprise sociological theory; skills for careers demanding interpretation of group and institutional behavior and the methodologies of sociological research.

Increasingly, training in sociology is becoming invaluable to the professions of public service, law enforcement, business management, public administration, teaching, and school administration.

Several sequences in applied sociological studies, each forming an area of specialization, are described in the departmental brochure.

PREREQUISITES

Applicants proposing to major in sociology at the graduate level are expected to have completed the following prerequisites or their equivalents: Sociology 281, Systematic Sociology; 292, Elementary Statistics; 33, Sociological Theory; and 380 and 381, Research Methods in Sociology I and II. If any be lacking, the applicant may be admitted as an unclassified student to complete the prerequisites specified. Thereupon one is eligible to be reclassified a regular graduate sociology major.

DEGREE OF MASTER OF ARTS

Requirements

1. Completion of a minimum of eleven courses (44 quarter hours), toward which Thesis Research counts for two courses (8 quarter hours). Sociology 401 and 402 are core courses to be completed by every degree student. The graduate student selects other courses in his program, but always with the approval of his advisor. Under advisement, the student may choose some courses from fields closely allied with sociology to count toward degree requirements; such courses require the permission of the department chairman in the allied field.

2. Thesis. The student discusses with his advisor the choice of a thesis topic. Approval of a thesis topic is made on the appropriate form to be signed by the designated thesis director and endorsed by two faculty members. Credit for the thesis is obtained through registration for Sociology 499, Thesis Research. This registration is repeated in the next quarter for a total credit in Thesis Research of eight quarter hours. A student who fails to complete his thesis in two quarters may be required to register in Thesis Research until the thesis is completed.

Courses for Advanced Undergraduate Students

(Credit earned in 300-level courses is not applicable toward the M.A. in sociology.)

302—CULTURAL ANTHROPOLOGY. A comparative study of modes of human life under the cultures of a variety of societies ranging from the primitive to the industrial. The material and ideational culture traits of the different societies are analyzed in order to discover both unique and common features. Special attention is given to the roles of invention and diffusion in the process of cultural change.

304—SOCIAL DEVIATION. The course attempts an analysis of the various theoretical positions in the sociology of deviant behavior, with emphasis upon such topics as the labeling of deviants and the multiple social consequences of that labeling, the analysis of deviant careers and deviant patterns of socialization, the roles of agents
or agencies of social control, etc., as well as an analysis of the research implications of these theoretical issues.

305—SOCIAL PSYCHOLOGY. The study of the influence of group life on the personality development and social behavior of humans. Emphasis is placed on the interpersonal and intra-group origins of feelings, beliefs, attitudes, social controls, social roles, and social movements. (This course may be taken for Psychology credit.)

320—CRIMINOLOGY. A review and evaluation of theories regarding the causes of crime: biological, economic, associational, social psychological, and psychiatric. Consideration is given to both the actual amount of crime and the reported amount as influenced by community tolerance and the accuracy of police statistics. The problem of equality before the law, occasioned by importance of wealth, status, and influence in avoiding arrest and conviction is also treated. Moreover, the distinction between professional and non-professional criminals is clarified. Although crime is a serious problem, the purpose of the course is to show it in perspective as part of the broader problem of social disorganization.

321—THE TREATMENT OF DELINQUENTS: PUBLIC AGENCIES. There will be one late afternoon weekly class meeting at the Frank J. Lewis Downtown Center. An average of two hours a week must be reserved for visits and field trips to institutions. This course is designed to acquaint the student with public services and public programs available for the treatment of delinquents and the prevention of delinquency; law-enforcement agencies, custodial institutions, special schools, probation and parole systems, and youth commissions. Particular attention will be given to the assumptions, techniques, and procedures of these facilities.

325—SOCIALIZATION. This course attempts to synthesize relevant psychological and sociological perspectives concerning the process whereby neophytes acquire the values, beliefs, role expectations, etc. of a group, or a life style, into which they are being initiated.

330—HISTORY OF SOCIAL THOUGHT. Introduction to early social philosophers and "classical sociologists" concerned with man and society. Emphasis on non-Christian sources.

331—SOCIOLOGICAL THEORY. A critical survey of the attempts of various schools of sociological thinkers and individual sociologists to construct a theoretical framework that would organize sociological knowledge into an integrated scheme. The strengths and weaknesses of sociological theories patterned after those of physics, biology, and other sciences are especially considered.

368—COMPUTER PROGRAMMING. Principles of programming for large-scale digital computers including program planning, writing and debugging of programs in compiler and symbolic assembly languages. Emphasis on scientific applications; examples and problems will be adapted to the University's computer. (Equivalent to Mathematics 200.)

380—RESEARCH METHODS IN SOCIOLOGY I: A study of major pieces of research in several fields of sociology in order to gain understanding of the processes of selecting and formulating research problems, designing research plans, and collecting and interpreting relevant data. Attention will be given to the use of computers. Research is stressed as a creative process and as the principal means of expanding sociological knowledge. The student begins a project to be completed in Sociology 381.

381—RESEARCH METHODS IN SOCIOLOGY II: A continuation of Soc. 380.

390—SPECIAL TOPICS IN SOCIOLOGY. The intensive study of a selected specialized area in sociology, designed for a group of mature students. (Prerequisite: consent of Chairman.)

392—PRACTICUM IN DELINQUENCY PREVENTION. Observations of and active participation in the structuring and evaluating of community programs to prevent and
reduce delinquency and crime. This is done under the guidance of experienced sociologists. Arrangements will be made with the heads of agencies. While weekly reports will be required, the end product must be a high-grade overall written report and analysis.

Courses for Graduate Students Only

401—ADVANCED SOCIAL RESEARCH METHODS. The relationship between social research and social theory. This is a detailed consideration of the methods, designs, and techniques appropriate to the study of sociological problems. Emphasis will be placed on the advanced methods of collection, treatment, and analysis of data.

402—CONTEMPORARY SOCIOLOGICAL THEORY. A study of the major theoretical issues in current sociology. Consideration will be given to systematic questions and topics with special emphasis on the most influential recent theorists.

403—AMERICAN AND EUROPEAN SOCIOLOGY. A study of the contrasts and similarities in theories, methods, and goals of American and European schools of sociology.

405—CRIME AND ADMINISTRATION OF JUSTICE. Study of major criminological theories with application to research problems of criminal behavior, criminal law, and penology. Role of the courts in the light of sociological problems.

406—DELINQUENCY CONTROL: THEORY AND RESEARCH. The rationale of the course is that a theory of control implies a theory of causation of delinquency. A review of theories of causation comprises the first part of the course, followed by a discussion of systems of control. Visits to correctional institutions and a research paper are required.

407—SOCIOLOGY OF LAW. A comparative study of the legal systems of several societies and the social values they attempt to preserve and at times initiate.

410—ADVANCED STATISTICS I. An introduction to sample spaces, random variables, distributions, and parametric statistics and sampling. (Same as Psychology 410.) (Prerequisite: 242 or equivalent.)

411—ADVANCED STATISTICS II. Point estimation procedures are developed for a variety of parameters. Interval estimation and hypothesis testing are compared. Linear regression, correlation, and analysis of variance are studied. (Same as Psychology 411.) (Prerequisite: 410.)

413—SOCIOLOGY OF EDUCATION.

417—SOCIOLOGY OF RELIGION.

418—SOCIOLOGY OF MEDICINE. An analysis of the social system of health care: practitioners, organizations, patients, and their multiple inter-relationships. Particular attention is given to Medicine as a profession: medical ideologies, role-inter-relationships, among health professionals, the socialization of health practitioners and health care decision-making. The course also emphasizes the many facets of the practitioner-patient relationship and focuses upon such topics as the utilization of health services, and lay attitudes toward health problems and health services.

421—ADVANCED SOCIAL RESEARCH METHODS II. Continuation of 401, which is a prerequisite.

422—SOCIOLOGY OF YOUTH. A review and critical analysis of selected theoretical statements and empirical findings dealing with high school and college-age youth. The concepts of "generation," "subculture," and "counterculture" are central.
emphasis is on American youth, though some comparative material is included. While research on delinquents is outside the scope of the course, that on alienated, radical, and conforming types is not.

423—THEORY AND RESEARCH IN SOCIAL STRATIFICATION. A critical analysis of economic, political, and sociopsychological theories of social class.

424—SOCIAL AGENCIES. Designed primarily for prospective school psychologists, vocational and rehabilitation counselors, and community mental health personnel. Structure, functions, and programs of child welfare, family services, public health, special education, and social work facilities, medical and psychiatric services. Principles and methods of community organization, planning, and action. 2 quarter hours.

425—INTERGROUP RELATIONS. The nature of minority groups and their problems.

426—COLLECTIVE BEHAVIOR. Crowds, mobs, riots and social movements.

430—POPULATION TRENDS. The determinants and consequences of population growth. Special attention will be given to theories of population increase and evidence of overpopulation.

431—URBAN SOCIOLOGY. The historical and contemporary patterns in the structure and growth of cities. Emphasis will be placed on the relation between world urbanism and social change.

432—URBAN ANALYSIS. An in-depth quantitative and qualitative study of selected aspects of urban life.

439—CONTEMPORARY DATA ANALYSIS TECHNIQUES.

440—URBAN CULTURE AREAS. The city as a composite of areas occupied by population groups of diverse ethnic origin. Variations in values and goals. Field work to detect problems of cross-acculturation and adaptation to urban living.

441—PHILOSOPHY OF CULTURE. Stresses the normative and ideational rather than the material aspect of culture. Selected primitive, folk, and industrial societies are compared for their systems and world views and the relation or lack of relation of these to socio-economic and political circumstances. (May be taken for Philosophy credit).

449—SOCIOLOGY OF PHILOSOPHY. A study of the socio-economic and political conditions associated with the rises and declines of major philosophical systems.

450—FORMAL ORGANIZATION. A consideration of important current problems faced in organizations and of selected theoretical and empirical studies related to them. Relevant literature in sociology, psychology, anthropology, and works by leading organizational theorists will be examined intensively. Organizational problems will be approached through case materials and reports of current research.

490—SEMINAR IN CURRENT SOCIOLOGICAL PROBLEMS. Topic varies. Student may repeat course for credit.

498—INTERNSHIP. Graduate students who choose an internship experience are placed with agencies where they will have the opportunity to assist in typical sociological research functions. The intent of the internship experience is to motivate theoretical study in the context of methodological applications. Credit will vary but generally is four quarter hours per registration and may be repeated subject to the limit of eight quarter hours toward degree requirements. The student contracts with his faculty advisor for evaluation as in independent study.

499—THESIS RESEARCH.

REV. PATRICK O’Brien, C.M.                          REV. JOHN P. WEISSENROFF

PURPOSE

The Department of Theology endeavors to continue the academic work of persons of scholarly competence toward the Master's degree in preparation for a teaching or research career.

IMPLEMENTATION

The department offers directed research, courses, seminars, symposia, and colloquia to guide and stimulate students in an investigation of different theological traditions and in a correlation of religious thought with other areas of human thought, such as sociology, philosophy, and psychology. It also stresses faculty counseling so that the program of each student can be tailored to his particular needs. It has begun cooperative effort with other centers of theological learning in the Chicago area (among them McCormick Theological Seminary and the Spertus College of Judaica) to provide the student with further resources for academic enrichment.

PREREQUISITES

Applicants for the Master of Arts program must have completed satisfactorily a major sequence in theology (or its equivalent). This sequence comprises a minimum of forty-eight quarter hours in theology courses. The chairman of the department will determine if a student has fulfilled the equivalent.

REQUIREMENTS

1. Completion of forty-eight quarter hours of graduate study, of which up to eight quarter hours may be applied to the thesis.
   a) Eight quarter hours (2 courses) must be taken in the area of Scripture; four quarter hours (1 course) in doctrinal history or systematic theology; four quarter hours (1 course) in religious ethics.
   b) In the allied fields the student must take two of the following courses: Sociology 302 (Cultural Anthropology), Philosophy 365 (Phenomenology of Religion), or Theology 310 (Culture and Religion). He must also choose a seminar in the philosophy department on some philosopher pertinent to religious thought.
   c) Thesis. Students will register for Theology 499 for eight quarter hours credit.

2. One foreign language. Evidence of the candidate's reading knowledge of theological literature in German, French, Latin, Greek, Hebrew, or with special permission, any other language in which the thesis research will be conducted. (Application for this examination must be made before the completion of twenty quarter hours in course work, or by the end of the second quarter of full-time residency, whichever is later).

3. An oral or written Integrating Critique or Examination as opted by the student with the agreement of the chairman. (Procedures for the examination will be set in advance in each specific case through consultation between the student and department and following the timetable of the Graduate School as noted on Page 28.)

4. A one hour oral examination constituting a "defense of the thesis.

116
301—THE THEOLOGY OF HISTORY. Representative Christian and non-Christian concepts of history and the interrelation of Christianity and history.

302—THE PARABLES OF JESUS. An investigation of the original meaning of that section of teaching most decidedly pertaining to the historical Jesus. The modification of the teaching by the primitive Christian communities and its normative value. (Prerequisite: Course 203).

304—URBAN THEOLOGY. An investigation of the modes of the divine presence in the modern American city.

305—NON-CHRISTIAN RELIGIOUS. A study of the classic and contemporary expression of various living religions which do not have common theological origins with Christianity.

306—THE MORALITY OF MODERN EDUCATIONAL PROCESSES. The possibilities for human growth in traditional, reform, and counter-culture education, and their values for the individual and society.

310—CULTURE AND RELIGION. Meaning of culture and the relationship of religion to the building up of man's life-world.

312—THE THOUGHT OF TEILHARD DE CHARDIN. Major themes of Teilhard's thought evaluated. (Cross-listed with Philosophy 342).

313—THE PROBLEM OF THE HISTORICAL JESUS. The modern formulation of the Christological problem from Reimarus to Bultmann and the post-Bultmannians. (Prerequisite: Course 203).

320—OLD TESTAMENT PROBLEMS. (Prerequisite: Course 202).*

330—NEW TESTAMENT PROBLEMS. (Prerequisite: Course 203).*

340—THE GOD QUESTION. Meaning of God past and present in Christianity and other religions.

350—STUDIES IN PROTESTANT THEOLOGY.*

351—THEOLOGICAL ISSUES IN EASTERN CHRISTIANITY. Crucial theological themes in non-Latin Christianity following the separation of East and West.

359—STUDIES IN THE THOUGHT OF GREAT THEOLOGIANS.*

360—PROBLEMS IN CHRISTIAN ETHICS.*

390—INDEPENDENT STUDY.

401—GENESIS AND THE THEOLOGY OF HISTORY. Genesis is used as the principal outline for a study of the theology of history of the major Pentateuch sources (excluding the Deuteronomic history).

402—DEUTERONOMIC THEOLOGY. The origins and emphasis of the Deuteronomic theology as reflected in the Deuteronomic history and editing of other Old Testament material.

403—ISRAELITE HISTORY BEFORE THE MONARCHY. The rise of the covenantal amphiacyron and its theological implications in the context of its history.

404—FOUNDATIONS OF THE ISRAELITE MONARCHY. The historical and theological roots of Israel's coming to nationhood with a sacrificial monarchy.

405—SOCIAL JUSTICE AND PRE-EXILIC PROPHECY. A study of the prophecies of Amos, Hosea, Micah, Isaiah, and Jeremiah (selected passages), with emphasis on their social message and contemporary relevance. Questions of general prophetic theology and historical development are incorporated.

406—POST-EXILIC PROPHECY AND APOCALYPTIC LITERATURE. Apocalypticism and apocalyptic thought in the background of post-exilic history and prophecy.

407—PROBLEMS IN WISDOM BOOKS. Selected writings from the wisdom literature of the Old Testament and a study of the resultant contrasts and issues.

408—THEOLOGY OF THE PSAUTER. Some of the more important theological themes that emerge from an historical and literary critical study of selected Psalms.

*Check the current schedule of classes for specific listing of the subject matter to be treated.
411—SEMINAR IN PROBLEMS IN LUKE-ACTS.
412—SEMINAR IN PROBLEMS IN MATTHEW’S GOSPEL.
414—THE RESURRECTION OF JESUS. By concentrating on the terminal chapters of the gospels, the opening chapters of Acts, and the ecstatic experiences of Paul and others in the primitive communities, the genesis of Easter faith is investigated and its meaning clarified for then and for now.
415—THE STRUCTURE AND THEOLOGY OF MARK. An analysis of the meaning and intention of Mark’s gospel using the methods of reaction criticism. The theological vision of the evangelist is thus differentiated from the tradition.
416—CHRIST IN THE THEOLOGY OF ST. PAUL. Consideration of the names of Jesus in St. Paul; the work of Jesus according to Paul in his earthly lifetime, in the church, and at the parousia.
417—PRE-PAULINE CHRISTOLOGY. A study of the earliest Christological formulations recoverable from the tradition together with the use and adaptation made of them by Paul and other canonical writers.
418—JOHANNINE PROBLEMS. Some chief areas of concern in the study of the history and theology of the Fourth Gospel.
420—ANALOGY AND THE RECENT QUEST FOR THE HISTORICAL JESUS. The “quest” examined particularly in the light of the theological and epistemological presuppositions of the seekers.
421—NATURAL KNOWLEDGE OF GOD AND ROM. I. A chapter in the histories of biblical interpretation and Christology.
422—THE SACRAMENTAL ENCOUNTER. A study of the psychological, sociological and theological elements of a sacramental system.
425—FAITH: SITUATION OR PSYCHOLOGICAL ATTITUDE? A re-examination of the meaning of faith as understood in ancient and contemporary times.
424—DYNAMICS OF DOCTRINAL CHANGE. A study of theories of doctrinal development.
425—THEOLOGY OF ESCHATOLOGY. Consideration of the questions involved in the ultimate reality, death, judgement, reward and punishment.
426—THE PROBLEM OF DEATH. The problem of death will be studied in a number of aspects and from several standpoints in order to ferret out significant theological structures, Biblical, historical, and contemporary views along with their relation to cultural contexts.
427—THEOLOGICAL ANTHROPOLOGY. Some differing theological views of man will be studied in order to highlight leading themes and crucial areas such as imago dei, fall and original sin, body-soul language, etc.
430—METHODOLOGY OF RELIGIOUS ETHICS. The “doing” of ethics from a religious or theological viewpoint involves problem not encountered in other methods of arriving at, defending and explaining moral judgments. It is these peculiarly religious difficulties—primarily of an epistemological and philosophical character—as they evidence themselves in both traditional and emerging styles of theological ethics which will be studied in this course.
431—RECENT DEVELOPMENT IN ROMAN CATHOLIC AND PROTESTANT ETHICS. As indicated by the title, this course will deal with what currently appear to be the most significant developments in recent Roman Catholic and Protestant ethics.
432—THEOLOGICAL ETHICS AND CONTEMPORARY PROBLEMS. The goal of this course will be the examination of the ways in which theological ethics have been and might be applied to some selected moral problems currently facing Christians in modern society.

448—SOCIOLOGICAL DIMENSION OF WISDOM IN BIBLICAL AND NON-BIBLICAL RELIGIONS. The "wisdom" tradition common to biblical and non-biblical religions studied as a sociological phenomenon.

449—FAITH. A re-examination of its meaning in the Christian tradition, with special regard to rather limited periodic emphases such as those on acceptance of dogmatic propositions, confidence, and personal encounter.

450—REVOLT AND REACTION IN THIRTEENTH CENTURY THEOLOGY. Theological change viewed in the context of thirteenth-century urbanization, cultural revolution, the influx of new scientific thought following the Spanish reconquista, etc.

451—THE CONSTANTINIAN ECCLESIOLOGY. Study of the impact on the structure of the church in practice and theory by its "emergence from the catacombs."

456—THE THEOLOGY OF THE EASTERN CHURCH. A study of the Eastern theological tradition before and after the division between Rome and Constantinople.

457—ISSUES IN REFORMATION THEOLOGY. An investigation of the theological elements leading to the Reformation and resulting from the Catholic-Protestant polemic.

461—SEMINAR IN THE SYSTEMATIC THOUGHT OF PAUL TILLICH.

462—SEMINAR IN THE THOUGHT OF ALFRED NORTH WHITEHEAD AND PROCESS THEOLOGY.

463—SEMINAR IN THE THOUGHT OF A CLASSICAL THEOLOGIAN.*

464—SEMINAR IN THE THOUGHT OF KARL BARTH.

468—SEMINAR IN THE THOUGHT OF KARL RAHNER.

469—SEMINAR IN THE THOUGHT OF A CONTEMPORARY THEOLOGIAN.*

499—THESIS RESEARCH (8 quarter hours).

*Check the current schedule of classes for specific listing of the subject matter to be treated.

Note: As part of the DePaul-McCormick cooperative effort, all 400 and selected 300-level courses are taught on the McCormick campus. In turn, DePaul students may register for selected 600 and 700-level McCormick courses which, with the consent of the Department Chairman will substitute for the stated DePaul courses in the degree program. The following McCormick faculty are accredited as Adjunct Professors in the DePaul Graduate School:

Dr. Robert G. Boling
Dr. John F. Burkhardt
Dr. Edward F. Campbell
Dr. Robert A. Evans
Mr. Lyle E. Franzen
Dr. Earl Hiltbert
Dr. Thomas D. Parker
Dr. Marcus J. Priester

Dr. David C. Reeves
Dr. V. Bruce Rigdon
Dr. Thomas A. Schafer
Dr. John W. Sennett
Dr. Jack L. Stotts
Mr. James D. Weimer
Dr. Robert C. Worley
