**Course Requirements**

**Pre-Education Introductory Courses: 16 quarter hours required**

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION

Choose one course from the following list:
- SCG 408 EDUCATION AND SOCIETY
- SCG 409 SOCIOLOGY OF EDUCATION
- SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES (Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Graduate Level Content Area Courses: 4 quarter hours required

One course in Chinese at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- CHN 300-600 level Chinese course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 095 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education Chinese majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: Chinese Content Area Test (test #126) – assesses knowledge of the Chinese language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of
"intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - French (MA)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school certification. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Certification

Type 10 Special – French (Kindergarten-grade 12) Illinois State Board of Education (ISBE) approved program
Admission Information

Students are conditionally admitted to the College of Education as a pre-education student. There are additional requirements to reach Advanced Standing in your program in the College of Education.

Admission Requirements for Pre-Education Status

- A completed College of Education graduate application
- A bachelor's degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of recommendation from professors or supervisors
- One official transcript from each college or university attended
- Statement of purpose (see application for details)
- Interview with faculty program advisor, upon request
- Evidence of adequate background for the program
- Resume

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
- Pass the COE basic computer competency assessment (EDU 25 registration required)
- Pass the minimum of 8 credit hours
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

Field Experiences

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.
Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

Fall Quarter - October 1st
Winter Quarter - January 15th
Spring Quarter - February 1st
Summer I Quarter - June 1st
Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply...
for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Certification**

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the certificate must contact ISBE directly for an evaluation request.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education French include:

Note: Effective for all individuals applying for certification beginning February 1, 2012, all coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Grammar & Composition I
- Advanced Grammar & Composition I
- Advanced Conversation I or II
- Intro to French Literature I
- Intro to French Literature II
- 20th Century French Literature
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Phonology & Phonetics
- Culture in the Classroom

**Course Requirements**

**Pre-Education Introductory Courses: 16 quarter hours required**

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION

Choose one course from the following list:
- SCG 408 EDUCATION AND SOCIETY
- SCG 409 SOCIOLOGY OF EDUCATION
- SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES—(Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Graduate Level Content Area Courses: 4 quarter hours required

One course in French at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- FCH 300-600 level French course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING(6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Master’s of Arts (M.A.) Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Recommended/Optional Course:

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education French majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: French Content Area Test (test #127) – assesses knowledge of the French language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that...
require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Certification**

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the certificate must contact ISBE directly for an evaluation request.

---

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Note: Effective for all individuals applying for certification beginning February 1, 2012, all coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Grammar & Composition I
- Advanced Grammar & Composition I
- Advanced Conversation I or II
- Intro to French Literature I
- Intro to French Literature II
- 20th Century French Literature
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Phonology & Phonetics
- Culture in the Classroom

**Course Requirements**

**Pre-Education Introductory Courses: 16 quarter hours required**

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
Choose one course from the following list:
- SCG 408 EDUCATION AND SOCIETY
- SCG 409 SOCIOLOGY OF EDUCATION
- SCG 411 PHILOSOPHY OF EDUCATION

**Advanced Standing Courses: 28 quarter hours required**
- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL
  or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES (Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

**Graduate Level Content Area Courses: 4 quarter hours required**
One course in French at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.
- FCH 300-600 level French course

**Student Teaching: 8 quarter hours required**
Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.
- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Recommended/Optional Course:**
SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.
- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Certification Tests**
All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education French majors must complete the following tests:
- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: French Content Area Test (test #127) – assesses knowledge of the French language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

**Field Experiences**
Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**
Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching.
You must earn a rating of "intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - German (MA)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school certification. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Certification

Type 10 Special – German (Kindergarten-grade 12) Illinois State Board of Education (ISBE) approved program
Admission Information

Students are conditionally admitted to the College of Education as a pre-education student. There are additional requirements to reach Advanced Standing in your program in the College of Education.

Admission Requirements for Pre-Education Status

- A completed College of Education graduate application
- A bachelor's degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of recommendation from professors or supervisors
- One official transcript from each college or university attended
- Statement of purpose (see application for details)
- Interview with faculty program advisor, upon request
- Evidence of adequate background for the program
- Resume

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
- Pass the COE basic computer competency assessment (EDU 25 registration required)
- Pass the minimum of 8 credit hours
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Certification Tests**

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

**Field Experiences**

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.
**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

- Fall Quarter - October 1st
- Winter Quarter - January 15th
- Spring Quarter - February 1st
- Summer I Quarter - June 1st
- Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply.
for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Certification**

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the certificate must contact ISBE directly for an evaluation request.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for World Language Education German**

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Grammar & Composition I
- Grammar & Composition I
- Advanced Conversation I
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Culture in the Classroom

**Course Requirement**

**Pre-Education Introductory Courses: 16 quarter hours required**

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
Choose one course from the following list:
- SCG 408 EDUCATION AND SOCIETY
- SCG 409 SOCIOLOGY OF EDUCATION
- SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required
- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL
  or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES (Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Graduate Level Content Area Courses: 4 quarter hours required

One course in German at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- GER 300-600 level German course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Master's of Arts (M.A.) Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Recommended/ Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education German majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: German Content Area Test (test #128) – assesses knowledge of the German language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience
hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

- Fall Quarter - October 1st
- Winter Quarter - January 15th
- Spring Quarter - February 1st
- Summer I Quarter - June 1st
- Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end
of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Certification

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the certificate must contact ISBE directly for an evaluation request.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education German

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Grammar & Composition I
- Grammar & Composition I
- Advanced Conversation I

Course Requirement

Pre-Education Introductory Courses: 16 quarter hours required
EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL
  or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES (Secondary)
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Graduate Level Content Area Courses: 4 quarter hours required

One course in German at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- GER 300-600 level German course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/ Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education German majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: German Content Area Test (test #128) – assesses knowledge of the German language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.
**Oral Proficiency Interview (OPI) Test**

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

**Teaching and Learning: World Language - Italian (MA)**

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school certification. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Certification**

Type 10 Special – Italian (Kindergarten-grade 12) Illinois State Board of Education (ISBE) approved program
Admission Information

Students are conditionally admitted to the College of Education as a pre-education student. There are additional requirements to reach Advanced Standing in your program in the College of Education.

Admission Requirements for Pre-Education Status

- A completed College of Education graduate application
- A bachelor's degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of recommendation from professors or supervisors
- One official transcript from each college or university attended
- Statement of purpose (see application for details)
- Interview with faculty program advisor, upon request
- Evidence of adequate background for the program
- Resume

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
— Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
- Pass the COE basic computer competency assessment (EDU 25 registration required)
- Pass the minimum of 8 credit hours
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Certification Tests**

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

**Field Experiences**

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.
Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

- Fall Quarter - October 1st
- Winter Quarter - January 15th
- Spring Quarter - February 1st
- Summer I Quarter - June 1st
- Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply...
for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Certification

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the certificate must contact ISBE directly for an evaluation request.

- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
- Pass the COE basic computer competency assessment (EDU 25 registration required)
- Pass the minimum of 8 credit hours
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

Field Experiences

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.
Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

- Fall Quarter - October 1st
- Winter Quarter - January 15th
- Spring Quarter - February 1st
- Summer I Quarter - June 1st
- Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply...
for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Certification**

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the certificate must contact ISBE directly for an evaluation request.

### Degree Requirements

#### Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Grammar & Composition I
- Grammar & Composition II
- Advanced Conversation I
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Culture in the Classroom

#### Course Requirements

**Pre-Education Introductory Courses: 16 quarter hours required**

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION
Advanced Standing Courses: 28 quarter hours required

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Graduate Level Content Area Courses: 4 quarter hours required

One course in Italian at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- ITA 300-600 level Italian course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours )
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education Italian majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: Italian Content Area Test (test #130) – assesses knowledge of the Italian language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.
Teaching and Learning: World Language - Japanese (MA)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school certification. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Certification

Type 10 Special – Japanese (Kindergarten-grade 12) Illinois State Board of Education (ISBE) approved program

Admission Information

Students are conditionally admitted to the College of Education as a pre-education student. There are additional requirements to reach Advanced Standing in your program in the College of Education.

Admission Requirements for Pre-Education Status

- A completed College of Education graduate application
- A bachelor's degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
• Pass the COE basic computer competency assessment (EDU 25 registration required)
• Pass the minimum of 8 credit hours
• Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

Field Experiences

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

• Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Cumulative GPA. of 2.75 or better in all education courses
• Meet all other program requirements (e.g., residency requirements)
Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

**Endorsements**

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

**Clinical Requirements:**
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

Fall Quarter - October 1st
Winter Quarter - January 15th
Spring Quarter - February 1st
Summer I Quarter - June 1st
Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERMENT. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Certification

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.
Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Japanese

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Japanese I
- Advanced Japanese II
- Advanced Japanese III
- Advanced Discussion & Reading I
- Advanced Discussion & Reading II
- Advanced Discussion & Reading III
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Culture in the Classroom

Course Requirements

Pre-Education Introductory Courses: 16 quarter hours required

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Graduate Level Content Area Courses: 4 quarter hours required
One course in Japanese at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- JPN 300-600 level Japanese course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours )
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Recommended/ Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Certification Tests**

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education Japanese majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: Japanese Content Area Test (test #131) – assesses knowledge of the Japanese language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) - assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

**Field Experiences**

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.
Teaching and Learning: World Language - Latin (MA)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school certification. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Certification

Type 10 Special – Latin (Kindergarten-grade 12) Illinois State Board of Education (ISBE) approved program

Admission Information

Students are conditionally admitted to the College of Education as a pre-education student. There are additional requirements to reach Advanced Standing in your program in the College of Education.

Admission Requirements for Pre-Education Status

- A completed College of Education graduate application
- A bachelor's degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of recommendation from professors or supervisors
- One official transcript from each college or university attended
- Statement of purpose (see application for details)
- Interview with faculty program advisor, upon request
Evidence of adequate background for the program
Resume

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
- Pass the COE basic computer competency assessment (EDU 25 registration required)
- Pass the minimum of 8 credit hours
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program.
There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Certification Tests**

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

**Field Experiences**

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

**Clinical Requirements:**
● Completion of all required field experiences
● Three satisfactory evaluations in field experiences
● Three satisfactory faculty recommendations
● Attendance at mandatory meeting for student teaching
● Application for student teaching, resume, transcripts, and writing sample (check deadlines)
● Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

● Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
● Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
● Academic requirements are due one quarter before expected quarter of student teaching.
● Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

Fall Quarter - October 1st
Winter Quarter - January 15th
Spring Quarter - February 1st
Summer I Quarter - June 1st
Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
- Pass the COE basic computer competency assessment (EDU 25 registration required)
- Pass the minimum of 8 credit hours
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program.
There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Certification Tests**

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

**Field Experiences**

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

*Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

**For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

**Clinical Requirements:**
● Completion of all required field experiences
● Three satisfactory evaluations in field experiences
● Three satisfactory faculty recommendations
● Attendance at mandatory meeting for student teaching
● Application for student teaching, resume, transcripts, and writing sample (check deadlines)
● Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

● Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
● Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
● Academic requirements are due one quarter before expected quarter of student teaching.
● Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

Fall Quarter - October 1st
Winter Quarter - January 15th
Spring Quarter - February 1st
Summer I Quarter - June 1st
Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Certification

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.
Individuals seeking additional endorsements after applying for the certificate must contact ISBE directly for an evaluation request.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

Course Requirements

Pre-Education Introductory Courses: 16 quarter hours required

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Graduate Level Content Area Courses: 4 quarter hours required

One course in Latin at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content
Area Advisor prior to registration and requires graduate level registration.

- LAT 300-600 level Latin course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Recommended/Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Certification Tests**

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education Latin majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: Latin Content Area Test (test #133) – assesses knowledge of the Latin language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

**Field Experiences**

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

**Teaching and Learning: World Language - Russian (MA)**

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective
teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school certification. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Certification**

Type 10 Special – Russian (Kindergarten-grade 12) Illinois State Board of Education (ISBE) approved program

---

**Admission Information**

Students are conditionally admitted to the College of Education as a pre-education student. There are additional requirements to reach Advanced Standing in your program in the College of Education.

**Admission Requirements for Pre-Education Status**

- A completed College of Education graduate application
- A bachelor's degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of recommendation from professors or supervisors
- One official transcript from each college or university attended
- Statement of purpose (see application for details)
- Interview with faculty program advisor, upon request
- Evidence of adequate background for the program
- Resume
College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
- Pass the COE basic computer competency assessment (EDU 25 registration required)
- Pass the minimum of 8 credit hours
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.
Field Experiences

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) or the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
Academic requirements are due one quarter before expected quarter of student teaching.
Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:
- Fall Quarter - October 1st
- Winter Quarter - January 15th
- Spring Quarter - February 1st
- Summer I Quarter - June 1st
- Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

**Graduate Level Content Area Courses: 4 quarter hours required**

One course in Russian at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- RUS 300-600 level Russian course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Master's of Arts (M.A.) Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master's thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education Russian majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: Russian Content Area Test (test #134) – assesses knowledge of the Russian language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Russian (MED)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
- Pass the COE basic computer competency assessment (EDU 25 registration required)
- Pass the minimum of 8 credit hours
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.
Field Experiences

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching. Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching. Academic requirements are due one quarter before expected quarter of student teaching. Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

- Fall Quarter - October 1st
- Winter Quarter - January 15th
- Spring Quarter - February 1st
- Summer I Quarter - June 1st
- Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Certification**

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the certificate must contact ISBE directly for an evaluation request.
Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Grammar & Composition I
- Grammar & Composition I
- Advanced Conversation I
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Literature/Culture Elective
- Culture in the Classroom

Course Requirements

Pre-Education Introductory Courses: 16 quarter hours required

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Graduate Level Content Area Courses: 4 quarter hours required

One course in Russian at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- RUS 300-600 level Russian course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
• T&L 593 WORLD LANGUAGES SEMINAR (2 hours)
• EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Recommended/Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

• SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

**Certification Tests**

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education Russian majors must complete the following tests:

- **Test of Academic Proficiency (TAP)** (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- **Foreign Language: Russian Content Area Test** (test #134) – assesses knowledge of the Russian language and culture. Test is required before Student Teaching (deadlines apply).
- **Assessment of Professional Teaching (APT)** (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

**Field Experiences**

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Oral Proficiency Interview (OPI) Test**

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

**Teaching and Learning: World Language - Spanish (MA)**

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a
minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school certification. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Certification**

Type 10 Special – Spanish (Kindergarten-grade 12) Illinois State Board of Education (ISBE) approved program

**Admission Information**

Students are conditionally admitted to the College of Education as a pre-education student. There are additional requirements to reach Advanced Standing in your program in the College of Education.

**Admission Requirements for Pre-Education Status**

- A completed College of Education graduate application
- A bachelor's degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of recommendation from professors or supervisors
- One official transcript from each college or university attended
- Statement of purpose (see application for details)
- Interview with faculty program advisor, upon request
- Evidence of adequate background for the program
- Resume

**College Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or
Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices

Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions

Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)

Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats

Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge

Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching

Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being

Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively

Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner

Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning

Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students

Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development

Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)

Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy

Balances self-confidence and assertiveness with respect for others' perspectives

Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Grammar & Composition I
- Grammar & Composition II
- Advanced Conversation I or II
- Intro to Literacy Analysis in Spanish
- 4 Literature/Culture Elective
- Phonology & Phonetics
- Culture in the Classroom
- Choose three of the following:
  - Spanish Lit: Middle Ages to Golden Ages Literature
  - Spanish Lit: Enlightenment to Present Literature
  - Latin American Lit: Origin to Romanticism Lit
  - Latin American Lit: Modern to Present Lit

Course Requirements

Pre-Education Introductory Courses: 16 quarter hours required

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL
  or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Graduate Level Content Area Courses: 4 quarter hours required

One course in Spanish at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- SPN 300-600 level Spanish course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 095 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours )
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Master’s of Arts (M.A.) Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

- T&L 589 THESIS RESEARCH IN TEACHING AND LEARNING
Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education Spanish majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: Spanish Content Area Test (test #135) – assesses knowledge of the Spanish language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Spanish (MED)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.
The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school certification. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Certification**

Type 10 Special – Spanish (Kindergarten-grade 12) Illinois State Board of Education (ISBE) approved program

---

**Admission Information**

Students are conditionally admitted to the College of Education as a pre-education student. There are additional requirements to reach Advanced Standing in your program in the College of Education.

**Admission Requirements for Pre-Education Status**

- A completed College of Education graduate application
- A bachelor's degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of recommendation from professors or supervisors
- One official transcript from each college or university attended
- Statement of purpose (see application for details)
- Interview with faculty program advisor, upon request
- Evidence of adequate background for the program
- Resume

---

**College Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse
consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul Graduate 3.00 GPA
- Pass the Illinois Certification Basic Skills Test or Test of Academic Proficiency (TAP)
- Pass the COE basic computer competency assessment (EDU 25 registration required)
- Pass the minimum of 8 credit hours
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Certification Tests**

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

**Field Experiences**

Each student seeking certification from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**
An endorsement is a subject area that you can qualify for to teach full time, in addition to your main certification area. Endorsements are issued at three levels: primary, middle school, and high school.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Qualifying for an endorsement at the middle school level requires 18 semester hours (27 quarter hours) in a teachable subject area and complete SCG 439. Some areas (like math) have specifically required courses. Courses must have a grade of C or better to qualify for endorsements and must be earned credit listed on a college transcript.

Consult with your advisor regarding endorsements. DePaul will only recommend individuals for endorsements in the following middle school areas: Arabic, art, biological science, Chinese, French, general science, German, Italian, Japanese, language arts, math, physical science, social science, and Spanish.

Endorsement requirements for the primary level are identical to the middle school requirements except that they do not require SCG 439. There are a limited number of areas available at the primary level.

Qualifying for most endorsements at the high school level requires 24 semester hours (48 quarter hours) in a teachable subject area* and passing the relevant content area test. DePaul will only recommend individuals for endorsements in the following high school areas: art, Arabic, Chinese, English, French, German, Italian, Japanese, math, Russian, science**, social science**, and Spanish.

* Exceptions to the basic requirements for high school level endorsements include the subject areas of foreign language, science, and social science. For foreign language, 32 semester hours (48 quarter hours) OR the content area test in the language is required.

** For science and social science, 32 semester hours (48 quarter hours) in the broad area of either science or social science, and 12 semester hours in the specific endorsement designation area, plus the content area test are required. To qualify for additional science and social science designations, individuals applying after February 1, 2012 need both the content test and 12 semester hours in the additional designation area.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Pre-Education, Advanced Standing, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois certification content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements.
Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer I and summer II).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

Application deadlines are as follows:

- Fall Quarter - October 1st
- Winter Quarter - January 15th
- Spring Quarter - February 1st
- Summer I Quarter - June 1st
- Summer II Quarter - July 15th

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Certification

Requirements for certification include completion of the full certification program and all certification tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the certificate. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the certificate must contact ISBE directly for an evaluation request.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of
Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Grammar & Composition I
- Grammar & Composition II
- Advanced Conversation I or II
- Intro to Literacy Analysis in Spanish
- 4 Literature/Culture Elective
- Phonology & Phonetics
- Culture in the Classroom
- Choose three of the following:
  - Spanish Lit: Middle Ages to Golden Ages Literature
  - Spanish Lit: Enlightenment to Present Literature
  - Latin American Lit: Origin to Romanticism Lit
  - Latin American Lit: Modern to Present Lit

**Course Requirements**

**Pre-Education Introductory Courses: 16 quarter hours required**

- EDU 25 BASIC TECHNOLOGY LITERACY
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

**Advanced Standing Courses: 28 quarter hours required**

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

**Graduate Level Content Area Courses: 4 quarter hours required**

One course in Spanish at the graduate level is required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing certification only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- SPN 300-600 level Spanish course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 095 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours )
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Recommended/Optional Course**

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION
Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education Spanish majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Foreign Language: Spanish Content Area Test (test #135) – assesses knowledge of the Spanish language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Wealth Management (MS)

The demand for comprehensive personal financial planning has never been greater. The uncertainties and anxieties created by volatile markets, threats to benefits and entitlements and unstable employment markets cause individuals to seek a more personalized integrated wealth management model along with a wider range of investment products.

At DePaul University's Kellstadt Graduate School of Business the Master of Science in Wealth Management program is designed to give students the knowledge, contextual experience and acumen to thrive in this growing field. Through rigorous coursework and real-world case analyses in all aspects of wealth management, encompassing financial planning, accounting, estate planning and the psychology of financial decision-making, graduates will be prepared to become competitive agents in today's growing market for professional wealth management.
Admission

Applicants must possess the equivalent of a bachelor’s degree from a regionally accredited institution. A prospective graduate student is expected to present a superior overall previous academic record and an above average total GMAT score (or GRE score where appropriate) including high achievement on the verbal, quantitative, and on the analytical writing assessment. The examination must have been taken no earlier than five years prior to the date of admission to the program.

Other factors, such as work experience and career progression, are also important and will be considered by the Admissions Committee. All applicants are required to submit two professional letters of recommendation as well as a current resume.

All prospective students are welcome to arrange a meeting with an admissions counselor. Please phone the graduate school office for an informal appointment. Interviews are not required as part of the admissions process for the part-time M.B.A. program, but may be requested by the Admissions Committee. Interviews for the full-time M.B.A. and weekend M.B.A. programs are on an invitation-only basis. Once a completed application has been received, a preliminary review is completed and selected candidates are invited to interview.

Each applicant is considered on an individual basis. The full-time and weekend M.B.A. programs do have limited enrollments, but for the other graduate business programs there currently is no predetermined limit to the number of students who can be admitted. Thus, for these programs, all students who are judged eligible by the Admissions Committee will be invited to matriculate.

Graduate Management Admission Test (GMAT)

To be considered for admission as a degree seeking student, an applicant will be required to submit a score from the Graduate Management Admission Test (GMAT). GMAT information including dates, a list of test centers, and applications for the exam may be obtained at www.mba.com or by contacting Pearsonvue at 1-800-717-4628. The GMAT score report must come directly from Pearsonvue. A test taken more than five years prior to the date of application is not considered valid for admission purposes and would have to be retaken. An exception may be made for individuals who hold a doctoral or other terminal degree awarded by an appropriately accredited institution. An exception may also be made for fully certified CPA’s applying to the Master of Science in Taxation program. Applicants to the Master of Science in Human Resources Management and the Master of Science in Economics and Policy Analysis may submit either a GMAT or GRE (Graduate Records Examinations) score. As with the GMAT, GRE scores are valid for five years.

Application Deadlines

For the day MBA program (Full-time):

Admission to the Day M.B.A. program is competitive and is limited to the Autumn Quarter. There are three application rounds, with deadlines of February 1, April 1 and July 1. Application review begins in January, and you are encouraged to apply as early as possible. Decisions are mailed on an ongoing basis beginning in January, and applicants should expect to receive an admission decision approximately 4 weeks after their application becomes complete.

Applicants who wish to be considered for scholarships and graduate assistantships should apply during the first two application rounds. These awards are generally not available to applicants who apply after April 1.

Late applications submitted after the final July 1 deadline may be considered if space remains available in the incoming class.

For the weekend MBA and MS in Economic Policy Analysis programs:

Applications must be submitted by July 1st. Applications received after July 1st will be considered on a space available basis.

For all other graduate business programs:

Applications must be submitted by:

- July 1st for the Autumn Quarter
- October 1st for the Winter Quarter
- February 1st for the Spring Quarter
- April 1st for the Summer Quarter
Applicants educated outside the United States must submit their applications one month prior to the above deadlines.

Transcripts

Degree seeking applicants must present official transcripts from each junior college, college, and university attended (even if only for one course) including DePaul University, if applicable. Credits transferred and posted on the record of a second school do not constitute an official transcript of the original school. Transcripts that are already on file as part of a student record in another College Office at DePaul may be required to remain there and in that case cannot be transferred to the Graduate School of Business Office.

Applicants should write to the Registrar of each school attended, requesting that an official transcript be sent to the student. Once all of the transcripts have been received applicants should submit them to the graduate school office in their original envelopes with the applicant's name, date of birth and program of interest noted on the envelope. We will then add the transcripts to the applicant's admission file.

An applicant who is still taking courses or completing a program at the time he/she submits an application to the Graduate School of Business will not receive full admission until a final and official transcript listing the degree awarded has been submitted to the Admissions Committee. Please see Conditional Admission and Non-degree Status for more information regarding admission prior to posting of an undergraduate degree.

Re-admission

A student previously admitted who has been absent from DePaul for one year or longer must complete the application form and submit a transcript of any courses taken elsewhere during his/her absence. A student must submit a written explanation of his/her absence from the program and an updated resume. A $30 application fee is required.

If the original application has been destroyed (after an absence of two years), the student may be required to complete a new application in full.

Special Instructions for International Applicants

Educational Credentials for International Students or Programs

Applicants must submit transcripts from all colleges and universities attended, including those attended but from which no credit was earned. Exceptions may be permitted for study-abroad credit when that credit is clearly defined and displayed on the home institution transcript. Applicants with non-U.S. educational credentials for Winter term 2012 and beyond are required to submit their official educational credentials (e.g., transcripts, mark sheets, degree certificates, graduation diplomas) and evaluation fee directly to one of the three evaluation companies below:

- Educational Credential Evaluators, Inc.
- Educational Perspectives
- One Earth International Credential Evaluation

These evaluators will then provide DePaul with a general evaluation of their studies and certified copies of their international educational credentials which will be used during admission review. Please direct any questions about required credentials to the evaluation company you have selected and not to the Kellstadt Graduate School of Business. DePaul will not accept evaluations from any other evaluation companies and will not accept any educational credentials without an evaluation from ECE, EP or One Earth.

English Proficiency

Non-native English speakers who have not completed a bachelor's or master's degree in the United States should submit scores from a recognized English proficiency test. The Kellstadt Graduate School of Business accepts results from TOEFL, IELTS and the Pearson Test of English (PTE).
Wealth Management (MS)

The Wealth Management Boot Camp (FIN 570) and 12 courses are required to complete the Master of Science in Wealth Management.

- FIN 570 WEALTH MANAGEMENT BOOT CAMP- Zero Credit Hours
- ACC 592 OVERVIEW OF FEDERAL INCOME TAX
- ACC 593 OVERVIEW OF TRANSFER PLANNING FOR WEALTH MANAGEMENT
- ACC 594 MULTIGENERATIONAL ADVANCED PLANNING STRUCTURES
- FIN 555 FINANCIAL MANAGEMENT
- FIN 501 ETHICS IN FINANCIAL MARKETS
- FIN 523 INVESTMENT ANALYSIS
- FIN 528 ALTERNATIVE INVESTMENTS
- FIN 564 RISK MANAGEMENT FOR INDIVIDUALS, FAMILIES AND ENTITIES
- FIN 581 THE PSYCHOLOGY OF FINANCIAL DECISION MAKING
- RE 530 REAL ESTATE INVESTMENT AND FINANCE
- FIN 572 FINANCIAL PLANNING, CAPSTONE I
- FIN 573 FINANCIAL PLANNING, CAPSTONE II

Women's and Gender Studies (MA)

The M.A. in Women's and Gender Studies offers a cutting edge curriculum that focuses on the interconnectedness of local, global, and transnational feminist theories, methodologies, research, public policies, and social movements; attends to interlocking systems of oppression and privilege—gender, race, sexuality, class, nation—to address issues of power, resistance, and social transformation; and connects feminist theories to activism and social justice; and engages communities through research, advocacy, and service.

Women's Studies and Gender Studies are complementary interdisciplinary fields whose research, scholarship, and creative activities examine women's lives, conditions, and contributions within their historical, social, cultural, national, and transnational contexts and explore how gender is constructed and negotiated within and across societies. Women's and men's identities and experiences are examined through the constructs of gender, race, class, sexuality, age, ability, culture, religion, nation etc. within broader historical, social, and global contexts, such as colonialism and globalization, among others. Through feminist and gender-based theories and methodologies, the Department of Women's and Gender Studies offers critical analyses, reflections, and contributions to knowledge regarding interlocking systems of oppression and privilege, thereby addressing issues of power, resistance and social transformation. In addition, the emphasis on critical theory and analysis allows for work that interrogates feminist discourses as well as those of other disciplines in the arts, humanities, social sciences, and natural sciences. By crossing the boundaries of traditional fields of study, the department seeks to create new, coherent understandings of human experiences. For more information, contact Dr. Laila Farah (lfarah@depaul.edu), Graduate Director.

The M.A. in Women's and Gender Studies requires completion of 48 credit hours. All Core, and many Elective courses, will be offered during the evening. The program requires five Core courses, five or six Elective courses organized around a focus tailored to the individual student's needs, and a Capstone consisting of either a two-course Thesis Option, a two-course Practical or Creative Project Option, or a one-course Portfolio option.

Course offerings are scheduled so that students will ordinarily complete the program in two years.
Admission Information

The M.A. in Women’s and Gender Studies is an interdisciplinary program that begins its sequence of classes in the Autumn quarter; we therefore only admit students to begin in the Autumn quarter of each year. Each cohort of students will take the core courses together, thus enabling a community of scholars to develop.

The annual application deadline is February 15. The online application is found on the DePaul University website.

Admission Procedure and Requirements

Official transcripts from all previous college course work. A bachelor’s degree (from regionally accredited institution), or equivalent, is required.

- Admission Essay (750 words) in which you discuss your background and interests, situate yourself in the field of Women’s and Gender Studies, and explain your interest in DePaul University’s graduate program.
- Two letters of recommendation, and at least one of the letters must be from a undergraduate professor.
- A writing sample (e.g., an upper level undergraduate paper from a relevant course that indicates your preparedness for graduate study in our program).
- Proof of English proficiency (required for students educated outside the U.S.). The minimum requirement is a TOEFL score of 80 (ibt) -- with all section scores at 17 or better - or a 6.5 on the IELTS. The English program prefers to see scores of 96 (ibt) with all sections scores at 22 or better - or a 7.5 on the IELTS. *

* International applicants should visit the international admission webpage for further details.

Supplemental admission materials may be attached to the online application or emailed to the Office of Graduate Admission at GradDePaul@depaul.edu (including official electronic transcripts). Please make sure your name is on all documents.

Transcript and other required credentials can also be mailed to:

The Office of Graduate Admission
College of Liberal Arts and Social Sciences
DePaul University
2400 N. Sheffield Avenue
Chicago, IL 60614

For more information, please contact the Office of Graduate Admission at graddpu@depaul.edu or (773) 325-7315 or visit the Department of Women’s and Gender Studies website.

Degree Requirements

Course Requirements

- WGS 400 FEMINIST THEORIES (CROSS-LISTED AS MLS 440)
- WGS 465 GLOBALIZATION, TRANSNATIONALISM, AND GENDER
- WGS 491 METHODS AND SCHOLARSHIP IN WOMEN’S & GENDER STUDIES
- WGS 485 WOMEN, GENDER, AGENCY, AND SOCIAL CHANGE
- WGS 415 CONTENTIONS IN FEMINIST AND GENDER THEORIZING: NEW DIRECTIONS
- Five or six electives, depending upon the Capstone Option selected
Elective courses will be chosen by the student in conjunction with her/his advisor in order to tailor a coherent program of study to the individual student’s particular academic and/or professional objectives while ensuring that the student sustains a strong interdisciplinary focus at the graduate level. Elective courses may be offered by Women’s and Gender Studies or by other departments/programs at DePaul, provided that such courses meet the criteria for inclusion within the Women’s and Gender Studies curriculum (with permission).

**Capstone Requirements**

All students must complete an M.A. Capstone, selecting one of the following options:

**Thesis**

This Capstone Option requires that the student plan, execute, and defend an independent, analytical research project. This research project must be grounded in interdisciplinary scholarship and feminist and/or gender theories, as well as reflect considerable engagement with literature and methods from the field. In addition, the thesis should demonstrate some unique contribution to the field. Students who select this option will complete, in addition to the core courses, a five-course elective focus, along with an additional two courses of independent study and research. They will make some sort of public presentation of the project to a determined audience. In addition, they will be required to present and defend the Thesis to a committee of three faculty members, at least one of whom must be appointed to the Department of Women’s and Gender Studies.

**Practical Project**

This Capstone Option requires that the student plan, execute, and defend a practical project that is grounded in interdisciplinary scholarship, feminist and/or gender theories, and directed independent study and/or internship that results in a contribution to community service. This project does not have to be tied to a particular organization, and yet depending on the project, we do encourage such community engagement. For example, a student may write a curriculum designed to educate high school students on relationship violence prevention, or prepare a proposal or policy study for an NGO or community-based organization. A portion of the paper should be devoted to an analysis of the theoretical and empirical underpinnings of your project. In this analysis, it will be important to demonstrate considerable engagement with literature in the field. The balance of the paper will present the project itself. Students who select this option will complete, in addition to the core courses, a five-course elective focus, along with an additional two courses of independent study and research. They will make some sort of public presentation of the project to a determined audience. In addition, they will be required to present and defend the Project to a committee of three faculty, at least one of whom must be appointed to the Department of Women’s and Gender Studies Faculty.

**Creative Project**

Alternatively a student might prepare an artistic or creative project—for example, a performance piece or art installation that is research-based and reflects some aspect of the interdisciplinary focus of Women’s and Gender Studies. The written portion of this project should be approximately 20 pages in length. This written portion of the work should be devoted to an analysis of the scholarly underpinnings of your project. In this analysis, it will be important to demonstrate considerable engagement with theoretical literature in the field. Students who select this option will organize some exhibition and/or public performance in a relevant venue and to a relevant audience. These students will complete, in addition to the core courses, a five-course elective focus, along with an additional two courses of independent study and research. In addition, they will be required to present and defend the Project to a committee of three faculty, at least one of whom must be appointed to the Department of Women’s and Gender Studies Faculty.

**Portfolio**

This Capstone option requires that the student conduct a comprehensive analysis of their learning in the Women’s and Gender Studies graduate program. As a point of departure for this analysis, students will prepare and submit a collection of seminar papers, practical or creative projects, and/or other research products that are the outcomes of core and elective focus courses, with one example chosen from at least six of the courses completed by the student. Then, building on this foundation, students completing the portfolio option will prepare a written critical analysis of the work submitted with the portfolio in which they reflect upon the scope and meaning of their graduate scholarship. To do this, students will synthesize their educational experience, situating themselves in the field, and in this context, will analyze central issues, themes, problems, and/or contentions that were most important in terms of their own development in the course of the M.A. Students who select this option will complete, in addition to the core courses, a six-course elective focus, along with an additional one course of independent study and research. Students will be required to present and defend the Portfolio/Critical Analysis to a committee of two faculty, both of whom must be appointed to the Department of Women’s and Gender Studies Faculty.
The Master of Arts in Writing and Publishing offers advanced training in the art and craft of writing poetry, fiction, and nonfiction. The program combines the practical experience of writing workshops and studies in language and style with course work in literary studies, pedagogy, editing, publishing, and other topics. The Master of Arts in Writing and Publishing attends to publishing as an integral part of the practice of the creative writer and affords interested students the opportunity to gain first-hand experience with various facets of the publishing industry.

The M.A. in Writing and Publishing seeks to meet the needs of a range of students, including the following:

- Students with interest and experience in creative writing, including fiction, poetry, and a variety of nonfiction genres.
- Professional writers, including freelance writers and staff writers for general and trade publications or the Internet.
- Feature writers for daily, weekly, or monthly newspapers.
- General and specialized editors employed by publishing houses, magazines, and corporations.
- Working professionals for whom high-quality writing is an essential component of their jobs.
- Current and prospective teachers of English and/or writing at the secondary or post-secondary level.
- Students seeking a master's-level foundation for further graduate work in creative writing, English, teaching, or related fields.

Courses in the Master of Arts in Writing and Publishing are offered at DePaul's Lincoln Park and Loop campuses. Students may complete their degree requirements with courses taken at either location.

Admission Information

Students with a bachelor's degree in any field will be considered for admission. For admission, a student must present:

- A completed application.
- Official transcripts detailing course work from all colleges and universities you have attended. If you send transcripts directly to DePaul, they must be in a sealed envelope with the official registrar's stamp across the envelope flap.
- A strong record of previous academic achievement.
- Relevant course work in creative writing or experience gained through endeavors such as publishing original work and/or participation in a writers' circle or group.
- A résumé that summarizes your education and relevant experience.
- A reflective essay, from 500 to 750 words long, describing your objectives in applying to DePaul's M.A. in Writing and Publishing program and your plans for the future. The admissions committee takes this statement seriously, so please be as specific as possible about how and why this program would help you reach your creative and personal goals.
- A portfolio (approximately 25 pages) of representative creative writing. You may submit creative nonfiction (including narrative journalism), fiction, poetry, or a combination. If you are submitting poetry, please ensure that at least half of your portfolio contains samples of your prose writing. [N.B. Portfolio documents should be stapled, not sent in bound or laminated form. Include your name at the top of each portfolio page.]
- An application fee of $40. Make checks payable to "DePaul University."
- Two letters of recommendation.
- Scores in the Graduate Record Exam are required for students applying for graduate assistantships.

We accept applications all year round, and students may begin their studies in any academic term. We strongly suggest that students submit their applications at least ten weeks prior to the quarter in which they wish to begin their studies (late June for fall entry, late October for winter entry, mid-January for spring entry). Those students who wish to apply for graduate assistantships should submit their application materials no later than January 15
prior to the academic year for which they wish to receive an assistantship. ALL application materials should be
sent to the following address: Liberal Arts and Social Sciences Graduate Admission, DePaul University, 2400 N.
Sheffield Ave., Chicago, IL 60614.

Degree Requirements

Course Requirements

Writing Workshops

- Choose five courses from the following list:
  - ENG 487 TRAVEL WRITING
  - ENG 489 SCREENWRITING
  - ENG 490 WRITING FOR MAGAZINES
  - ENG 491 SCIENCE WRITING
  - ENG 492 WRITING FICTION
  - ENG 493 WRITING POETRY
  - ENG 497 WRITING THE LITERATURE OF FACT
  - ENG 484 WRITING WORKSHOP TOPICS (May be repeated with different topics)

Studies in Language and Style

- Choose one course from the following list:
  - ENG 400 STRUCTURE OF MODERN ENGLISH [FORMERLY ENG 416]
  - ENG 402 HISTORY OF ENGLISH PROSE STYLE
  - ENG 407 LANGUAGE AND STYLE FOR WRITERS
  - ENG 408 STYLISTICS

Electives in Language, Literature, Publishing and Teaching

- Choose two from the following list:
  - ENG 401 HISTORY OF THE ENGLISH LANGUAGE
  - ENG 426 THE ESSAY: HISTORY, THEORY, PRACTICE (FORMERLY ENG 488)
  - ENG 473 TEACHING CREATIVE WRITING [FORMERLY ENG 485]
  - ENG 474 TEACHING LITERATURE
  - ENG 477 TOPICS IN PUBLISHING (Variable)
  - ENG 478 TOPICS IN TEACHING (Variable)
  - ENG 476 TOPICS IN GENRE AND FORM (Variable)
  - ENG 496 EDITING
  - Any courses in “Studies in Language and Style” category (above) if not used to satisfy the Language & Style category requirement.
  - Any graduate-level courses in literature offered by the English department (except ENG 471 Bibliography and Literary Research).
  - Courses from other programs may be substituted only with approval of program director.

Open Electives

- Choose four courses from the following list:
  - ENG 500 INDEPENDENT STUDY
  - ENG 501 THESIS RESEARCH
  - ENG 509 INTERNSHIP
  - Any graduate-level courses in writing, literature, criticism, publishing and teaching offered by the English department (except ENG 471)
  - Up to two graduate level courses offered by the Writing, Rhetoric, and Discourse Department.
  - Courses from other programs may be substituted only with approval of program director.
Writing, Rhetoric and Discourse (MA)

The M.A. in Writing, Rhetoric, and Discourse (WRD) combines a strong theoretical foundation in rhetoric and discourse with practical training in the areas of Teaching Writing & Language and Professional & Technical Writing. This particular mix of theory and practice prepares students to become future teachers of post-secondary writing, to work as professional and technical writers in corporate and non-profit sectors, and to study rhetorical theory and history, literate practices in contemporary culture, and language and style as it informs non-literary textual production. Our students go on to teach writing in post-secondary contexts; to work as writers in professional, technical, and other workplace contexts; and to continue their academic study in Ph.D. programs.

Admission Information

Students with a bachelor's degree in any field are eligible to apply to the M.A. in WRD program. Applications also require the following materials, submitted through the online application form at http://www.depaul.edu/admission-and-aid/types-of-admission/graduate-student/Pages/las.aspx

- A graduate application
- Official transcript(s) from all previous schools attended
- A 300-500 word personal statement, describing your objectives in the M.A. in WRD program and your plans for the future
- A current resume or CV
- 15 to 20 pages of your own written work and a paragraph providing context and describing how the samples represent your academic or professional writing, written communication skills, and fit within the program goals
- Two letters of recommendation

Students may apply at any time of the year; the program admits students in Autumn, Winter, and Spring Quarters. All application materials should be received eight weeks prior to the student's desired starting date.

TOEFL and IELTS

The M.A. in WRD welcomes international students to study in our program. The College of Liberal Arts and Social Sciences requires that students educated in a country where the native language is not recognized as English must submit proof of English proficiency. Students may demonstrate proficiency in one of the following ways:

- An official TOEFL score report: the minimum TOEFL requirements are: 96 (Internet version), 243 (computer version), or 590 (paper version)
- An official IELTS score report: 7.5 or higher

Please have your TOEFL or IELTS score report sent to DePaul from the testing agency (institution code: 1165).

Degree Requirements

Course Requirements

Students complete 12 courses (48 credits) to graduate from the M.A. in WRD program.
Required Courses (8 credits)

- WRD 500 PROSEMINAR (To be taken within the first 4 courses of the program)
- WRD 599 PORTFOLIO (To be taken within the final 4 courses of the program)

Rhetoric and Discourse Courses (12 credits)

- Choose three courses from the following list:
  - WRD 503 ANCIENT RHETORICS (FORMERLY ENG 403)
  - WRD 504 RENAISSANCE AND 18TH CENTURY RHETORICS (FORMERLY ENG 404)
  - WRD 505 CONTEMPORARY RHETORICS (FORMERLY ENG 405)
  - WRD 506 MULTICULTURAL RHETORICS (FORMERLY ENG 406)
  - WRD 507 GLOBAL ENGLISHES
  - WRD 508 DISCOURSE AND STYLE
  - WRD 509 GENRE THEORY AND PRACTICE
  - WRD 510 TOPICS IN RHETORICAL HISTORY
  - WRD 511 TOPICS IN COMMUNITY, CULTURE AND IDENTITY
  - WRD 512 TOPICS IN LANGUAGE
  - WRD 513 SEMIOTICS
  - WRD 514 SOCIOLINGUISTICS
  - WRD 515 THE ESSAY

Optional Concentrations (16 Credits)

Professional & Technical Writing

- Choose four courses from the following list:
  - WRD 520 COMPUTERS AND WRITING
  - WRD 521 TECHNICAL WRITING
  - WRD 522 WRITING IN THE PROFESSIONS (CROSS-LISTED AS MLS 459 AND MPS 508)
  - WRD 523 EDITING
  - WRD 524 DOCUMENT DESIGN
  - WRD 525 WRITING FOR THE WEB
  - WRD 526 GRANT AND REPORT WRITING
  - WRD 530 TOPICS IN PROFESSIONAL AND TECHNICAL WRITING
  - WRD 590 INTERNSHIP IN PROFESSIONAL/TECHNICAL WRITING

Teaching Writing & Language

- Choose four courses from the following list:
  - WRD 540 TEACHING WRITING
  - WRD 541 COMPOSITION THEORY
  - WRD 542 URBAN LITERACIES
  - WRD 543 TEACHING ESL WRITING
  - WRD 544 TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE
  - WRD 545 TEACHING WRITING ONLINE
  - WRD 546 PEDAGOGICAL GRAMMAR
  - WRD 547 AP INSTITUTE IN ENGLISH LANGUAGE AND COMPOSITION
  - WRD 582 WRITING CENTER THEORY AND PEDAGOGY (CROSS-LISTED AS WRD 395)
  - WRD 550 TOPICS IN TEACHING WRITING AND LANGUAGE
  - WRD 551 TEACHING APPRENTICESHIP PRACTICUM
  - WRD 591 INTERNSHIP IN TEACHING WRITING AND LANGUAGE

Electives (12 or 28 credits)

Students declaring a concentration

- Select an additional 3 courses (12 credits) from any area.

Students with no concentration

- Select an additional 7 courses (28 credits) from any area.

WRD 595 INDEPENDENT STUDY may also be taken as an elective in the program.

Up to 2 non-WRD courses may be taken upon approval by the Graduate Committee.
Student Handbook

Probation
To maintain good standing, students must complete at least two courses in WRD within twelve months of their admission to the program. Students must also maintain an overall grade-point average of at least 3.0 in their course work. Students whose cumulative GPA falls below 3.0 will be placed on probation and given two quarters to raise their average to the minimum 3.0 level. Students on probation are required to consult with the program director before registering for classes. Failure to meet these requirements constitutes grounds for dismissal.

Dismissal
A student may be dismissed from the program in any of the following cases: (1) failure to maintain a GPA above 3.0 for three consecutive quarters; (2) failure to meet with the program director before registering for classes while on academic probation; or (3) failure to complete at least two courses in WRD within sixteen months of their admission to the program.

Readmission
If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal application process.

Transfer Credit
Students may transfer up to 12 credits (or three courses) of coursework taken in another program. The exact number of credits and courses that transfer will be determined by the program director. Transfer grades from other institutions do not calculate into the DePaul grade point average.

Undergraduate Courses
Students may count one four-credit undergraduate-level course toward the graduate degree, if the grade received in that course was an A- or higher.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a total of 48 credit hours (12 courses) and a minimum GPA of 2.8.

Graduation with Distinction
To graduate with distinction, students must have a final GPA of 3.85 or higher.

Time Limit
Students must complete the program within six years of their start date. Students who fail to complete the program within this timeframe must re-apply to the program.

Non-WRD Courses
Students may take up to two non-WRD courses at DePaul to count toward their degree, upon approval by the graduate committee. Students who have completed six WRD courses may request approval to enroll in non-WRD courses through a proposal to the graduate committee. In exceptional cases (e.g., students completing Certificate programs that require non-WRD courses), students may be granted permission to take courses outside of the program earlier in their degree study. All non-WRD courses must be approved by the graduate committee prior to enrollment in the course. Students who have transferred in two or more courses from another institution (see Transfer Credit policy) must take all of their remaining courses in the WRD program.

Non-Degree-Seeking Students
All WRD graduate courses are open to non-degree-seeking students, with the exception of the following: WRD 500, 590, 591, 595, and 599.

**Partial Tuition Scholarships**

Partial Tuition Scholarships (PTS) are awarded quarterly to eligible students. Eligibility is based on GPA and financial need. Students whose tuition is being paid by DePaul or another organization or institution are not eligible for PTS awards. PTS awards can only be used toward the reimbursement of WRD courses.

**Independent Studies**

WRD 595 (Independent Study) is offered to allow students to explore specific interests for which a formal WRD course is not offered. In general, WRD 595 courses will count as electives in a student's degree program; WRD 595 can only fulfill area requirements (Rhetoric & Discourse or a concentration area) when these requirements cannot be filled through a formal course (for example, because such a course is not offered).

A WRD graduate faculty member must serve as the instructor of record for WRD 595. If a student wishes to complete a WRD 595 course with a non WRD graduate faculty member, a WRD graduate faculty member will serve as the instructor of record and will co-approve the course proposal and read any final deliverable produced for the course. Students wishing to pursue this option should speak with the Graduate Director to identify an appropriate instructor of record.

About

For nearly a century, the Driehaus College of Business has been committed to an urban and a metropolitan identification and the recognition that its past, present, and future are linked inextricably to the stability and vitality of the city of Chicago. For students in the college, this means studying and working in Chicago, one of the most dynamic business and financial centers in the world. For graduates of the Driehaus College of Business, this means abundant career choices and opportunities after leaving DePaul. In this way, DePaul has been the developer of Chicago's leaders in business for over nine decades.

In February 2012, Business alumnus and Life Trustee Richard H. Driehaus made the largest gift in DePaul history to support faculty excellence in graduate and undergraduate business programs. In recognition of Mr. Driehaus' $30 million commitment, generosity, and vision, the University renamed the college in his honor as part of its centennial celebrations.

Faculty

Approximately 316 men and women serve on the faculty of the college (144 full-time and 172 part-time). These individuals are committed to providing DePaul students with a challenging, high-quality classroom learning experience. This commitment has led nearly 86% of full-time faculty to earn doctoral degrees in their respective disciplines. Additionally, many members of the faculty have demonstrated their technical competence by earning professional certifications in their special fields.

Among the certifications held by members of the faculty are the following:

- Accredited Personnel Specialist (APS)
- Associate in Risk Management (ARM)
- Certificate in Data Processing (CDP)
- Certificate in Dispute Resolution (CDR)
- Certificate in Management Accounting (CMA)
- Certified Information Systems Auditor (CISA)
- Certified Internal Auditor (CIA)
- Certified Financial Planner (CFP)
- Certified Fraud Examiner (CFE)
- Certified Information Technology Professional (CITP)
- Certified Public Accountant (CPA)
- Certified Secure Programmer (CSP)
- Chartered Financial Analyst (CFA)
- Chartered Financial Consultant (ChFC)
- Chartered Property and Casualty Underwriter (CPCU)

Academics

Established in 1912, the Driehaus College of Business is the nation's tenth oldest business school. The Kellstadt Graduate School of Business was established in 1948 and is noted for its innovative programs for full-time and part-time graduate students.

The College is accredited by AACSB International, The Association to Advance Collegiate Schools of Business, a distinction held by a limited percentage of business schools around the world.

MBA Programs

The Master of Business Administration

The emphasis of the M.B.A. program is on decision making as the characteristic function of business administration. It is the purpose of the program to integrate the several functional areas of business and the contributions they make to the development of administrative competence.

The M.B.A. degree program is taught on three campuses in the Chicago region and is available in four formats: Full-time Day at Loop; Part-time Morning at Loop; Part-time Evening at the Loop, Naperville and O'Hare campuses; and the Weekend Cohort at the O'Hare Campus.

Day M.B.A. (Full-time Accelerated)

The Day M.B.A. Program fulfills the business world's demand for M.B.A. graduates with the ability to understand
and manage complex business processes. Students who choose this program option will take all of their foundation and core classes in a full-time, lock step format during the first three terms of the program. Upon completion of the prerequisite core courses, students may begin taking their concentration courses at their own pace. Students in the Day M.B.A. Program may choose to specialize in any of the generally available MBA concentrations offered by the Kellstadt Graduate School of Business. Admission is for fall quarter only.

Available concentrations include:

- Applied Economics (MBA)
- Banking (MBA)
- Behavioral Finance (MBA)
- Brand and Product Management (MBA)
- Business Strategy and Decision Making (MBA)
- E-Business (MBA)
- Economic Policy Analysis (MBA)
- Entrepreneurship (MBA)
- Finance (MBA)
- Financial Analysis (MBA)
- Financial Management and Control (MBA)
- Health Sector Management (MBA)
- Hospitality Leadership (MBA)
- Human Resource Management (MBA)
- International Business (MBA)
- Investment Management (MBA)
- IT Management (MBA)
- Leadership and Change Management (MBA)
- Management Accounting (MBA)
- Information Systems (MBA)
- Marketing Management (MBA)
- Consumer Insights (MBA)
- Marketing Strategy and Planning (MBA)
- Non-Profit Hospitality Leadership (MBA)
- Operations Management (MBA)
- Organizational Diversity (MBA)
- Real Estate Finance and Investment (MBA)
- Revenue Management (MBA)
- Sports Management (MBA)
- Strategic Global Marketing (MBA)
- Strategy, Execution and Valuation (MBA)

**Evening M.B.A.**

All of the core course requirements for the M.B.A. are offered at the Loop and the Naperville and O'Hare suburban campuses. Required core courses are offered every quarter at the Loop campus but variably at the suburban campuses. All requirements are offered at least once each year at each of these locations.

Three full concentrations are available at each of the suburban campuses. These are Finance, Marketing Management and General Business. Electives applicable to other concentrations will be offered variably at the suburban locations but it may be necessary to travel to Loop campus to complete concentrations other than these three.

**Weekend M.B.A. at O'Hare Campus**

The Weekend M.B.A. Program is a rigorous yet rewarding program designed for the self-directed manager with an interest in using technology to supplement traditional M.B.A. course work. The curriculum provides knowledge in each of the major business functions along with specialized courses in Management and Finance such that students may earn concentrations in Finance and/or Operations Management as part of the weekend program. Upon completion of the required core sequence of courses, students are able to select concentration courses from among the more than 35 concentrations available to part-time M.B.A. students. Please note that only the Finance and Operations Management concentrations are available in the weekend format.

Each course is taught as a blend of traditional lecture and distance learning formats. Classes meet on alternate Saturdays at the O'Hare Campus. Students will work via distance learning in the weeks between class meetings. Admitted students will proceed through the program as a cohort group. Admission to the program is for fall quarter only.
Specialized Masters Programs

These specialized Master’s degrees are designed for professionals with a specific and focused career path who are looking to enhance and expand their expertise.

- Master of Accountancy (M.ACC)
- Master of Science in Accountancy (M.S.A.)
- Master of Science in Computational Finance (M.S.C.F.)
- Master of Science in Entrepreneurship (M.S.E.)
- Master of Science in Economics and Policy Analysis (M.S.E.P.A.)
- Master of Science in Finance (M.S.F.)
- Master of Science in Hospitality Leadership and Operational Performance (M.S.H.L.O.P.)
- Master of Science in Human Resources (M.S.H.R.)
- Master of Science in Marketing (M.S.M.)
- Master of Science in Marketing Analysis (M.S.M.A.)
- Master of Science in Real Estate (M.S.R.E.)
- Master of Science in Taxation (M.S.T.)

Graduate Business Student Handbook

In addition to the DePaul University Graduate Student Handbook, the Kellstadt Graduate School of Business Student Handbook includes the rules, regulations and requirements for its graduate programs.

While every effort has been made to provide herein accurate and firm information, this handbook does not constitute a contract between the student and the University. The University reserves the right to revise the content of any of its handbooks and schedules and to change policies, programs, requirements, rules, regulations, procedures, calendars and schedule of tuition and fees; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; or to make any other necessary changes.

A student entering the Kellstadt Graduate School of Business should follow the catalog in effect at the time of entrance. A student who is readmitted or who changes his or her program or status is subject to the terms of the catalog in effect at the time of readmission or change.

All students are expected to adhere to the Student Code of Responsibility, to follow the policies, procedures and regulations of the University, and to fulfill any particular stipulations which the Kellstadt Graduate School of Business may have made in individual cases at the time of admission. Failure to do so may be grounds for dismissal from the program.

Grades

The university has an approved list of possible final grades students may receive for each attempted course. Faculty are limited to this list in the grades that they may assign each term. The method for evaluating each student's progress in a course is at the discretion of the instructor, provided the method is fair, uniformly applied and made known to the class at the start of the term. The university does not have an evaluation key or course grading system for the purpose of assigning final grades.
Evaluation Key

Following is the key to the system of evaluating the academic achievement by the student of the educational objectives specified by the instructor in the course syllabus. These definitions apply to the straight letter grade. A plus grade represents slightly higher achievement than the straight letter grade. A minus grade represents slightly lower achievement than the straight letter grade. Once assigned, university policy prohibits faculty from changing grades without the written permission of the college-based exceptions committee. Errors made in computation of the final grade (clerical error) and removal of an IN grade in accordance with university policy are exceptions to the grade change policy. Faculty may not assign or accept additional graded material in order to improve a student’s final grade.

A The instructor judged the student to have accomplished the stated objectives of the course in an EXCELLENT manner.
B The instructor judged the student to have accomplished the stated objectives of the course in a VERY GOOD manner.
C The instructor judged the student to have accomplished the stated objectives of the course in a SATISFACTORY manner.
D The instructor judged the student to have accomplished the stated objectives of the course in a POOR manner.
F The instructor judged the student NOT to have accomplished the stated objectives of the course.
IN Temporary grade indicating that the student has a satisfactory record in work completed, but for unusual or unforeseeable circumstances not encountered by other students in the class and acceptable to the instructor is prevented from completing the course requirements by the end of the term. An incomplete grade may not be assigned unless the student has formally requested it from the instructor and the instructor has agreed to work with the student to complete the course. Students must complete the remaining course work with the faculty who assigned the incomplete. Students may not be reassigned to a new course or class section for the purpose of completing course material to remove an IN grade.

IN A student is given a maximum of two consecutive terms, excluding summer sessions or inter-sessions, to complete the required work. The actual time allowed is at the discretion of the faculty and may be less than but not more than the maximum of two terms. At the end of the second quarter (excluding summer) following the term in which the incomplete grade was assigned, remaining incompletes will automatically convert to “F” grades.

Ordinarily no incomplete grade may be completed after the grace period has expired. Instructors may not change incomplete grades after the grace period without the permission of the college-based Exceptions Committee.

Permanent grade assigned to a degree recipient who chooses not to resolve a grade of “IN” awarded during the last two terms prior to graduation. The grade of “ING” (Incomplete, Graduated) is final, and cannot be changed or lapsed to “F” once the degree is posted.
R Student is making satisfactory progress in a course that extends beyond the end of the term or in a project extending more than one quarter.
RG Permanent grade assigned to a degree recipient who chooses not to resolve a grade of “R” awarded during the last two terms prior to graduation. The grade of “RG” (Research, Graduated) is final, and cannot be changed or lapsed to "F" once the degree is posted.
PA Passing achievement in a pass/fail course.
W Automatically recorded when the student files his withdrawal through the student’s home college or school on or before the date designated in the academic calendar for such withdrawal.
AU Auditor status, not for credit
M Final grade is missing (not submitted)
FX Unauthorized withdrawal
Minimum Grade Requirements

A cumulative average of C (2.0) is required for graduation for all programs. In addition, a 2.0 cumulative GPA is required for the concentration courses and any elective course work which is taken in the same area as the concentration. A 2.0 cumulative GPA is required in all concentrations if more than one concentration is chosen.

MBA students will receive credit for a concentration course in which they receive a C– or better. Any grade lower than C– in a concentration course does not count as credit toward the degree and the student must repeat the course or an approved substitute. Students must receive C– or better in any elective which is in the same area as the concentration(s).

Specialized masters programs follow the MBA concentration policy for minimum grades and grade point averages.

If an upper division undergraduate course is taken for graduate credit a final grade of B or better must be earned in order for the course to apply toward the degree. A student may receive graduate credit for one 300-level business course completed while a student in the graduate school of business with the specific, prior written approval of the department chairman of the student’s area of concentration.

Graduation with distinction is reserved for those students obtaining an overall grade point average of 3.6 or above for courses taken in the Kellstadt Graduate School of Business.

Graduation With Distinction

Graduation with distinction is reserved for those students obtaining a cumulative grade point average of 3.6, or above, for courses taken toward the applicable degree while in residence in the Kellstadt Graduate School of Business.

Probation and Dismissal

Two grades of F or FX will result in automatic dismissal from the program.

A student will be placed on probation as soon as his/her graduate G.P.A. falls below 2.0. In determining this average, grades from all courses taken while in the Kellstadt Graduate School of Business, including repeated courses, will be computed. The student will remain on probation until three more courses are taken, after which time another evaluation will be made. If at that time the student has failed to raise his/her cumulative G.P.A. to the required level of 2.0, the student will be dismissed from the program and prohibited from registering for additional graduate course work.

A student who has been dismissed from the program may, after a period of time not less than two quarters, petition for reinstatement, presenting conclusive evidence that his/her situation has changed in such a way as to make probable the successful completion of the program. Each case will be considered on an individual basis by the assistant dean, whose decision is final. Any student reinstated will re-enter the program on the terms and conditions set forth by the assistant dean.
Course Credit

Courses offered by the Kellstadt Graduate School of Business typically earn four quarter hours of credit (qhrs) upon successful completion. Exceptions include ACC 640 (5 qhrs) and special courses that are offered across multiple terms.

Most classes are offered over a ten-week period of instruction followed by an examination period in the eleventh week of the term and carry four quarter hours of credit. The unit of credit for quarter hours is defined as one hour granted for 45 minutes of classroom work per week in a ten week period of instruction. Exceptions include Accounting 640, which carries five quarter hours of credit, and special courses that are offered across multiple terms.

A student may receive graduate credit for one 300-level Commerce course completed while a student in the graduate school of business with the specific, prior written approval of the department chairman of the student’s area of concentration. If an upper-division or 300-level course is taken for graduate credit a final grade of B or better must be earned in order for the course to apply toward the degree.

Course credit is earned if a student receives any grade of A through D. Duplication of courses or course work is not permitted except where a student is advised to repeat a course for which an F or D was earned. Double credit is not given for duplicated courses. Students must repeat a course for which an F was earned if the course is taken as part of an MS program or Concentration.

For All Programs

Residency status in the Kellstadt Graduate School of Business commences with the first enrollment in one of its programs with degree seeking status.

A student entering the program with prior graduate-level coursework in business must submit a written request for acceptance of transfer credit. The number of courses actually transferable will be determined by the Kellstadt Graduate School of Business. A maximum of six courses may be accepted as transfer credit. The actual number of transfer courses accepted will vary with each student in accordance with the residency requirement policy and the course waiver policy. Students may not transfer courses after matriculation.

The written request for acceptance of transfer credit must contain a course description or syllabus. In addition, a bulletin, course catalog or statement of the school’s academic regulations may sometimes be required before a final decision of transferability can be made. In such cases the Kellstadt Graduate School of Business will specifically request the additional material or information required for a decision.

Courses with grades less than C will not be considered for transfer to the Kellstadt Graduate School of Business. Ordinarily, a course must carry at least four quarter hours of graduate credit to be acceptable for transfer. No more than two courses are acceptable for transfer in any one field without the written permission of the appropriate program director. Transfer credit is not calculated into the student’s cumulative grade point average. Transfer credit is subject to the same six-year limit for validity as courses taken in residence at DePaul.
For MBA Programs

For students with relevant previous credit a minimum of nine courses, or 36 quarter hours, must be taken in residence in the Kellstadt Graduate School of Business in order to qualify for the MBA degree. To qualify for the minimum residency requirement students must have a sufficient number of waived courses (see below) and appropriate non-duplicate transfer work (see Transfer of Graduate Credit) such that only nine course requirements remain for completion. At least two, and as many as three, remaining courses must be in an area of concentration. The number of concentration courses needed to meet the residency requirement is dependent upon the concentration selected.

Waiver and Substitution Policy (MBA Only)

MGT 500 and GSB 599 are required of all students and may not be waived or substituted. Business Foundation and Managerial Decision Area courses may be waived (excused without additional course work required) if the student has completed equivalent course work with a grade of C or better. Substitution decisions (i.e., permission to take an advanced course in place of a required course) are made by the appropriate department chair or faculty program director and only in unusual circumstances. The interpretation and evaluation of the student’s previous course work for course waiver decisions is the prerogative of the Kellstadt Graduate School of Business, which will make the final determination of the quality and pertinence of such work.

For Second Degrees or Concentrations

Students who wish to pursue a second concentration in the MBA, or a second graduate degree in business subsequent to the completion of any graduate degree, are subject to the residency requirement policy. In addition, not fewer than 50% of the requirements for a second degree must be completed as new material not applied to any previous degree or concentration and more than 50% of the requirements of a second concentration must be completed as new material not applied to any previous degree or concentration. Students may not receive two MBA degrees.

The course expiration rule may be extended or waived in some cases for students returning for second degrees or concentrations.

For Specialized Masters Programs

The minimum number of courses taken in residence in the Kellstadt Graduate School of Business may not be fewer than 50% of the maximum number of courses required for the degree. Actual residency requirements are determined by the faculty of the department sponsoring the degree and may be set higher than the 50% allowed by the college.
Returning to DePaul for an Additional MBA Concentration

After earning an MBA degree from DePaul University's Kellstadt Graduate School of Business, a student may return to complete (an) additional concentration(s). Students are subject to the academic policies and concentration requirements effective at the time of readmission. Successful completion of (an) additional concentration(s) shall be noted on the student’s official transcript with the completion date(s). However, the student's original grade point average at completion of the MBA degree remains frozen. Further, course work to add (an) additional concentration(s) does not affect the student's academic status or distinction earned at the time of the original degree conferral.

The course expiration rule does not apply to students who have completed the M.B.A. degree and are returning for the purpose of completing an additional concentration.

Auditor Status

Students may audit a course only with the permission of the appropriate academic director. When a student is permitted to audit a course, tuition and fees are charged at the regular scheduled rates and must be paid at time of registration, and are not refundable. Audit courses receive no credit.

Students may not change to auditor status or from auditor status after the third week of class. The final decision to continue regarding auditor status must be made with written notice to the college office by the end of the third week of class.

Course Expiration Rule

All degree requirements must be satisfied within six years commencing with the term of initial enrollment. A course taken more than six years prior to the last term of attendance before the degree date may be reinstated for graduate credit upon approval of the academic program director or the Kellstadt Graduate School of Business. Exceptions may be made for students who return for a second degree or post-MBA concentration.

Admission & Aid

To succeed in the study of business, students must possess a number of academic qualities. Specifically, students must be able to think analytically and reason to valid conclusions relying on both quantitative and qualitative information. Particular attention is therefore given to the mathematical and verbal abilities of candidates.

Undergraduate candidates interested in admission to the Driehaus College of Business should direct all inquiries to the Office of Admission, DePaul University, 1 E. Jackson Boulevard, Chicago, Illinois, 60604, admission@depaul.edu or (312) 362-8300.

Students interested in the Kellstadt Graduate School of Business should refer to the graduate admission section.
Graduate Admission

Applicants must possess the equivalent of a bachelor’s degree from a regionally accredited institution. A prospective graduate student is expected to present a superior overall previous academic record and an above average total GMAT score (or GRE score where appropriate) including high achievement on the verbal, quantitative, and on the analytical writing assessment. The examination must have been taken no earlier than five years prior to the date of admission to the program.

Other factors, such as work experience and career progression, are also important and will be considered by the Admissions Committee. All applicants are required to submit two professional letters of recommendation as well as a current resume.

All prospective students are welcome to arrange a meeting with an admissions counselor. Please phone the graduate school office for an informal appointment. Interviews are not required as part of the admissions process for the part-time M.B.A. program, but may be requested by the Admissions Committee. Interviews for the full-time M.B.A. and weekend M.B.A. programs are on an invitation-only basis. Once a completed application has been received, a preliminary review is completed and selected candidates are invited to interview.

Each applicant is considered on an individual basis. The full-time and weekend M.B.A. programs do have limited enrollments, but for the other graduate business programs there currently is no predetermined limit to the number of students who can be admitted. Thus, for these programs, all students who are judged eligible by the Admissions Committee will be invited to matriculate.

Graduate Management Admission Test (GMAT)

To be considered for admission as a degree seeking student, an applicant will be required to submit a score from the Graduate Management Admission Test (GMAT). GMAT information including dates, a list of test centers, and applications for the exam may be obtained at www.mba.com or by contacting Pearsonvue at 1-800-717-4628. The GMAT score report must come directly from Pearsonvue. A test taken more than five years prior to the date of application is not considered valid for admission purposes and would have to be retaken. An exception may be made for individuals who hold a doctoral or other terminal degree awarded by an appropriately accredited institution. An exception may also be made for fully certified CPA’s applying to the Master of Science in Taxation program. Applicants to the Master of Science in Human Resources Management and the Master of Science in Economics and Policy Analysis may submit either a GMAT or GRE (Graduate Records Examinations) score. As with the GMAT, GRE scores are valid for five years.

Application Deadlines

For the day MBA program (Full-time):

Admission to the Day M.B.A. program is competitive and is limited to the Autumn Quarter. There are three application rounds, with deadlines of February 1, April 1 and July 1. Application review begins in January, and you are encouraged to apply as early as possible. Decisions are mailed on an ongoing basis beginning in January, and applicants should expect to receive an admission decision approximately 4 weeks after their application becomes complete.

Applicants who wish to be considered for scholarships and graduate assistantships should apply during the first two application rounds. These awards are generally not available to applicants who apply after April 1.

Late applications submitted after the final July 1 deadline may be considered if space remains available in the incoming class.

For the weekend MBA and MS in Economic Policy Analysis programs:

Applications must be submitted by July 1st. Applications received after July 1st will be considered on a space
available basis.

For all other graduate business programs:

Applications must be submitted by:

- July 1st for the Autumn Quarter
- October 1st for the Winter Quarter
- February 1st for the Spring Quarter
- April 1st for the Summer Quarter

Applicants educated outside the United States must submit their applications one month prior to the above deadlines.

Transcripts

Degree seeking applicants must present official transcripts from each junior college, college, and university attended (even if only for one course) including DePaul University, if applicable. Credits transferred and posted on the record of a second school do not constitute an official transcript of the original school. Transcripts that are already on file as part of a student record in another College Office at DePaul may be required to remain there and in that case cannot be transferred to the Graduate School of Business Office.

Applicants should write to the Registrar of each school attended, requesting that an official transcript be sent to the student. Once all of the transcripts have been received applicants should submit them to the graduate school office in their original envelopes with the applicant's name, date of birth and program of interest noted on the envelope. We will then add the transcripts to the applicant's admission file.

An applicant who is still taking courses or completing a program at the time he/she submits an application to the Graduate School of Business will not receive full admission until a final and official transcript listing the degree awarded has been submitted to the Admissions Committee. Please see Conditional Admission and Non-degree Status for more information regarding admission prior to posting of an undergraduate degree.

Readmission

A student previously admitted who has been absent from DePaul for one year or longer must complete the application form and submit a transcript of any courses taken elsewhere during his/her absence. A student must submit a written explanation of his/her absence from the program and an updated resume. A $30 application fee is required.

If the original application has been destroyed (after an absence of two years), the student may be required to complete a new application in full.

Special Instructions for International Applicants

Educational Credentials For International Students or Programs

Applicants must submit transcripts from all colleges and universities attended, including those attended but from which no credit was earned. Exceptions may be permitted for study-abroad credit when that credit is clearly defined and displayed on the home institution transcript.

Applicants with non-U.S. educational credentials for Winter term 2012 and beyond are required to submit their official educational credentials (e.g., transcripts, mark sheets, degree certificates, graduation diplomas) and evaluation fee directly to one of the three evaluation companies below:

- Educational Credential Evaluators, Inc.
- Educational Perspectives
- One Earth International Credential Evaluation

These evaluators will then provide DePaul with a general evaluation of their studies and certified copies of their international educational credentials which will be used during admission review. Please direct any questions about required credentials to the evaluation company you have selected and not to the Kellstadt Graduate School of Business. DePaul will not accept evaluations from any other evaluation companies and will not accept any educational credentials without an evaluation from ECE, EP or One Earth.

English Proficiency

Non-native English speakers who have not completed a bachelor's or master's degree in the United States should submit scores from a recognized English proficiency test. The Kellstadt Graduate School of Business accepts
Scholarship Opportunities

Please refer to the individual departments for a listing of available scholarships.

Double Demon Scholarship

In addition, if you are an alumnus from any of DePaul's colleges, you qualify for the Double Demon Scholarship which covers 25% of the tuition for a master's degree in the College of Computing and Digital Media or the Kellstadt Graduate School of Business.

There is no application required for the Double Demon Scholarship. Alumni who are admitted into a master's degree program in the College of Computing and Digital Media or the Kellstadt Graduate School of Business for the Winter Quarter 2013 or a future quarter will automatically qualify for the scholarship.

If you have questions about master's degree programs or the Double Demon Scholarship, please contact one of the college admissions offices below.

College of Computing and Media
admission@cdm.depaul.edu

Financial Aid

Financial aid and alternative financing programs, as well as scholarships are available to students. Completing a current FAFSA (Free Application for Federal Student Aid) is the first step to determining your overall eligibility for financial aid.

Additional information is available on DePaul's Admission and Aid website.

Undergraduate Programs Office

The Undergraduate Programs office supports the mission of the Driehaus College of Business in a variety of ways:

- **Academic Advising**: Provides students with guidance on course selection, degree planning, and major and minor selection.
• **Records Auditing**: Assists students with determining degree progress and remaining requirements.

• **Degree Conferral**: Verifies students are eligible to receive their DePaul degree.

• **Declaration Processing**: Allows students to declare major and minor programs.

• **Orientation**: Introduces new business students to the college through Premiere DePaul, Transition DePaul, and Inter-College Transfer programs.

• **Special Programs**: Enhances the student experience through opportunities and events like Beta Gamma Sigma, Freshman Honors Convocation, and the annual Commencement Ceremony.

The Undergraduate Programs office is located in DePaul Center 5200 and may be contacted by telephone at (312) 362-5358.

---

### Academic Advising

All undergraduate degree seeking students in the Driehaus College of Business may receive academic advising in the Undergraduate Programs office.

Academic advisors are available to provide information concerning degree progress, curriculum, course selection, registration, academic regulations, and university policies and procedures. Academic advisors will also make appropriate referrals to help students in the use of college and university resources according to individual needs. Students are encouraged to consult their advisor periodically throughout the year.

In addition, faculty can assist in the selection of major electives and business electives which will best complement a student’s major and career orientation.

The Undergraduate Programs office is located in DePaul Center 5200 and may be contacted by telephone at (312) 362-5358.

About

Communication is the art and science of creating and sharing meaning. In the College of Communication, you'll develop a deeper understanding of the complex and challenging communication practices and processes that characterize our rapidly changing world; you'll master the techniques for crafting and delivering messages across a variety of social contexts and platforms: face to face, print, audio, video, Web and other social media. You'll learn from exceptional teachers - from professors who have many years of experience in some of the biggest media markets in the nation, and from scholars publishing in some of the top national and international journals. You'll gain hands-on experience in our state-of-the-art facilities, through our award-winning radio station and newspaper, and through a wide range of internships and community projects.

The creation of a College of Communication at DePaul has set the stage for enhanced quality, substantially enriched curricular and programmatic offerings, joint programming with other schools and colleges within the university, expanded opportunities for our students to engage in workplace experiential learning; increased regional and national visibility; and significant additional growth in undergraduate programs, graduate programs, and overall enrollments.

Candidates interested in admission to the College of Communication should direct all inquiries to the Office of Admission, DePaul University, 1 E. Jackson Boulevard, Chicago, Illinois, 60604, admission@depaul.edu, or (312) 362-8300.

Academics

The College of Communication is home to both Undergraduate and Graduate degree programs.

Graduate Programs

As our world is reshaped by technological, social, political and economic change and as the United States becomes more visibly a culture of many cultures, the challenges and opportunities for communication specialists increase. The College of Communication offers the following graduate degree programs:

- Health Communication (MA)
- Journalism (MA)
- Media and Cinema Studies (MA)
- Organizational and Multicultural Communication (MA)
- Public Relations and Advertising (MA)
- Relational Communication (MA)
Communication Graduate Academic Student Handbook

In addition to the DePaul University Graduate Student Handbook, the College of Communication Graduate Student Handbook includes requirements, rules and regulations for its graduate programs.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

As a graduate student you assume the responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook. This catalog does not constitute a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right to revise the content of its catalogs and schedules, and to change policies, programs, requirements, rules, regulations, procedures, calendars and schedule of tuition and fees; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; or to make any other necessary changes.

Courses and Credit

No one is permitted to attend a class for which he or she has not been properly registered. Credit is accumulated on the basis of quarter hours. Currently the College of Communication does not allow students to audit graduate coursework.

Students are not permitted to take graduate classes as pass/fail. They must earn a letter grade in all coursework. Grades of "D" and "F" are failing grades and will not count towards the completion of the degree. If a course is repeated, all of the grades are recorded on the academic record and calculated in the GPA.

Students enrolled for eight or more quarter hours of credit are considered full-time. Those enrolled for less are considered part-time. For students fully employed, registration for two courses in a term is the suggested maximum.

Credit Limitation

Coursework taken within six years of the student's first date of enrollment will be considered in awarding the final degree.

Transfer Credit

College of Communication graduate programs vary with regard to the number of transferred credit hours allowed. Students must have earned a B or better in courses in order for credit to be transferred. The courses must have been taken in the last five years.
Dismissal

Failure to Advance

All students are required to complete all requirements of their M.A. program within six years of first enrollment. Students failing to meet this requirement will be dismissed from the program. However, students can withdraw from the program and reapply later. If accepted, their previous coursework will count toward the degree if it meets the requirements of the program at the time of readmission, and the six year timeframe will include both spans of attendance, but not the time during which the student was not in the program.

Students who have not withdrawn from the program, but have been removed from the active status roster will need to complete a readmission form to resume the program and begin taking courses again or to be eligible for the master’s thesis defense or comprehensive exams. Once readmitted, the six-year clock will remain from the date of the original admission.

Failure to Pass Comprehensive Exams

Students have two attempts to pass their comprehensive examination in programs where such examinations exist. Failure of one or all of the exams after the second attempt will result in dismissal from the program.

Failure to Meet the Requirements of Conditional Acceptance

A failure to meet the requirements of Conditional Acceptances results in dismissal from the graduate program.

Special Circumstances

If a student has made good progress toward the degree and has a compelling explanation for the circumstances that caused the dismissal, he or she may petition the graduate board for reinstatement. The graduate board will decide if any exceptions to the dismissal policy are warranted, and the board’s decision requires approval by the Associate Dean of Graduate Programs.

Graduation Requirements

Degree Requirements

You must have successfully completed all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which you were admitted. Completed degree requirements can include the submitting of the dissertation or thesis or the research paper, examination scores, and, if necessary, grade changes. Students need to achieve a minimum grade point average of 3.000 to graduate. Students must complete all degree requirements within six years of the first term of enrollment.

Graduation with Distinction

In order to graduate with distinction, students must earn the following:

PRAD: 3.85 GPA or 3.75 GPA and pass comprehensive exam/thesis with distinction
OMC: 3.85 GPA and pass comprehensive exam/thesis with distinction
MCS: 3.85 GPA
JOUR: 3.85 GPA
HTHC: 3.85 GPA
RELC: 3.85 GPA

Probation

All students are required to maintain a 3.0 (B) average in their coursework. Please note that a grade of B- is a 2.7. If a student falls below this average, the relevant graduate director shall inform the student that s/he is on probation and has two quarters to attain the required minimum grade point average. Failure to meet the required GPA within that timeframe will result in dismissal from the program.

For specific information please see the “Grades” section in the University Graduate Handbook.

Readmission

Applicants are admitted to the College of Communication on the basis of their proven competencies measured by academic criteria, recommendations, and ability to complete programs of study and research prescribed for the MA programs.

Readmission Procedures

Applications for readmission to any of the Communication graduate programs after a dismissal will only be considered after one calendar year. If you were previously enrolled in a graduate program in the College of Communication but have not been in attendance for a period of one calendar year or longer, but not more than four calendar years, you must file a readmission application. (If more than four years have elapsed since you have been in attendance, you must file a new application.) The form must be submitted at least two weeks prior to the day of registration for the term in which you expect to resume your studies.

Official copies of transcripts recording scholastic work taken while not enrolled at DePaul University must be submitted. As a policy, students are held to the degree requirements that are in force at the time of readmission.

Reclassification Procedures

Should you desire to change programs or admission status, you must file a reclassification application.
Registration

Registration in Courses in Other Colleges or Schools

Graduate students may be permitted to register for courses offered in other colleges or schools of the University after appropriate consultation with either their graduate program director or academic advisor.

Residence Registration

Whether in residence or not, all admitted graduate students who will use the facilities of the University (library, laboratory, etc.) or who will consult with faculty members regarding theses, dissertations or examinations, must be registered in each quarter.

Admission & Aid

Candidates interested in admission to the College of Communication should direct all inquiries to the Office of Admission, DePaul University, 1 E. Jackson Boulevard, Chicago, Illinois, 60604, admission@depaul.edu, or (312) 362-8300.

Scholarship Opportunities

Undergraduate

DePaul awards a variety of scholarships to freshmen and transfer students.

Financial Aid

Students who plan to fund their education through federal loans should complete and submit the Free Application for Federal Student Aid (FAFSA). DePaul's Financial Aid Office will create a financial aid package based on your FAFSA information.
Graduate Admission

Classifications

DePaul Students and 5-year Programs

Undergraduate students in the College of Communication are eligible to apply for admission to the 5-year B.A./M.A. program. Admission is conditional until the bachelor’s degree is posted on the DePaul transcript. The M.A. programs in Journalism, Media and Cinema Studies, Organizational and Multicultural Communication, Health Communication, and Relational Communication offer an accelerated master's degree that begins in an undergraduate’s senior year and may be completed in one subsequent year. The combined degree programs are available to College of Communication undergraduates only. Further information about these 5-year B.A./M.A. programs can be found within specific program descriptions in this Catalog.

Reinstatement

In order for a student who has been dismissed to be reinstated into the program, the student must demonstrate a change in circumstances to an extent that would support successful completion. The student may petition for reinstatement after one calendar year following the dismissal. The Associate Dean of Graduate Programs must approve the petition.

Registration and Credit Hours

No one is permitted to attend a class for which he or she had not been properly registered. Credit is accumulated on the basis of quarter hours. The unit of credit is one quarter hour granted for 45 minutes of classroom work a week. The normal class extends over a ten-week period (or an accelerated five-week period in the summer, and accelerated three-week period in December). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted.

Full-time and Part-time Status

Students enrolled for eight or more quarter hours of credit are considered full-time. Those enrolled in 4 to 7 hours of credit are considered halftime. Those registered for less than 4 quarter hours of credit are considered less than half-time. For students fully employed, registration for two courses in a term is the suggested maximum.

Transfer Credit

For students who have taken graduate courses in another accredited university, DePaul allows for the transfer of up to three graduate courses (1/4 of the degree). The graduate program director determines whether any courses may transfer. Students requesting any course credit transfers should complete a Transfer of Credit Request Form and provide a copy of an official transcript showing the completed course and grade and a course syllabus. The graduate program director will review the courses and provide a determination, in writing, about whether they may be applied toward the MA degree. If so, which, if any, required courses they may replace. Applicants are encouraged to obtain all transfer approvals in writing before beginning the DePaul graduate program.

Special Programs

American Advertising Federation (AAF)

The DePaul Student Advertising Group is the official organization for students interested in advertising at DePaul University. Our purpose is to bring together students who share a passion for great advertising and
communication solutions. Our group helps prepare students for a career in advertising by facilitating an ongoing dialogue that covers the latest developments and trends in the ad industry. We do this through a mix of guest speakers and advertising industry presentations, student ad competitions, networking and career information sessions, visits to local Chicago area advertising/communication agencies, and social events.

**Debate**

The College of Communication promotes social and political discussion through debate. This activity develops presentation, reasoning and persuasive skills and offers students the opportunity to participate in a variety of formats. Debate also deepens students’ understanding of the issues which will shape the future.

**DePaul Communication Organization (DCO)**

Students who are interested in the field of Communication may join DCO, a student-run organization. DCO hosts a variety of activities, speaking events, and site visits throughout the year that allow students an opportunity to network with one another as well as professionals in the field. DCO is open to all DePaul students regardless of their major.

**Good Day DePaul (GDD)**

Good Day DePaul is a student run news magazine show that caters to DePaul students and college aged students in general. The program films one to two times a month and features DePaul news as well as current events. Students produce, direct, and anchor the program, as well as conduct in studio interviews.

**Internship College**

The College offers an internship program through which majors and minors can earn academic credit and gain practical experience in a professional setting. Students may be enrolled in CMN 394, Advanced Communication Internship, and/or CMN 395, Communication Internship Special Topics (topics vary), only after meeting college-established eligibility requirements. An individual student may participate in several internship experiences. A maximum of 16 quarter hours of internship and practicum credit can be applied to degree requirements. CMN 394 may be used to fulfill the Junior Year Experiential Learning Requirement in the Liberal Studies Program and/or as a major field requirement. If a second internship is taken, CMN 395 may count as a communication elective. A maximum of two graded internships can be used toward the major field requirements. Subsequent hours of internship credit are taken through different CMN 395 special topics courses and fulfill unrestricted electives. Communication minors may have one graded internship count towards completion of the minor.

**Public Relations Student Society of America (PRSSA)**

PRSSA is a student-run organization for those interested in a career in public relations. The DePaul chapter organizes a variety of activities throughout the academic year including visits to Chicago public relations agencies, career fairs, speaker events featuring industry professionals, as well as a mentoring program and young alumni outreach effort geared to connect members to recent graduates now in the field.

**Radio DePaul**

The College manages Radio DePaul, the campus radio station. Students may earn up to eight credit hours (four in the major) for radio production by enrolling with instructor’s permission in CMN 393, Communication Practicum.

**Society of Professional Journalists (SPJ)**

This is a student-run organization for students interested in careers in journalism. The DePaul chapter sponsors campus speakers, career information sessions, and journalism seminars/conferences. Student members are eligible to apply for SPJ-sponsored internships and student competitions.

**The DePaulia**

The DePaulia is the university’s student-run paper and web site, which is integrated into the Communication curriculum. Published weekly since 1922, the newspaper covers news, sports, features, and community-related events. Editors on the newspaper are eligible for four hours of credit under JOUR 393, Journalism Practicum.
About

DePaul's College of Computing and Digital Media (CDM) is organized into two schools: the School of Computing (SoC) and the School of Cinema and Interactive Media (CIM) featuring degree programs designed to keep pace with the latest developments in technology while remaining grounded in the liberal arts and sciences. As one of the largest IT programs in the nation, DePaul CDM has a reputation for offering an extraordinary selection of degree programs and courses from traditional computer science, information systems, and network technologies to game development, digital cinema, animation, and our newest undergraduate program in graphic design. At CDM, students will experience a dynamic interdisciplinary curriculum and the opportunity to explore their academic curiosity through 24 minor concentrations that reflect the diverse offerings of CDM's majors.

Administration

David Miller, Ph.D.
Dean

Lucia Dettori, Ph.D.
Associate Dean

Martin Kalin, Ph.D.
Associate Dean

JoAnne Zielinski
Associate Dean

Liz Friedman, Ph.D.
Assistant Dean of Student Services

Facilities

DePaul University maintains an extensive technological infrastructure which is available for students, faculty and staff. In addition, many schools and departments maintain their own resources dedicated for use by their own constituents.

The College of CDM itself operates specialized laboratories in the following:

- Requirements Engineering Lab
- Mobile Commerce Lab
- Solid Objects and Graphics Lab
- Animation Lab
- Network Security Lab
- Game Development Lab
- Console Gaming Lab
- Digital Cinema Advanced Editing Lab

Academics

The College of Computing and Digital Media offers both Undergraduate and Graduate degrees. An option to pursue a combined Bachelors/Masters degree is also available for academically gifted students.

Graduate Programs

- Animation (MA)
- Animation (MFA)
- Business Information Technology (MS)
- Cinema (MFA)
- Cinema Production (MS)
- Computational Finance (MS)
- Computer and Information Sciences (PhD)
- Computer Game Development (MS)
- Computer Science (MS)
- Computer, Information and Network Security (MS)
- E-Commerce Technology (MS)
- Human Computer Interaction (MS)
- Information Systems (MS)
- Information Technology Project Management (MS)
- Network Engineering and Management (MS)
- Predictive Analytics (MS)
- Screenwriting (MFA)
- Software Engineering (MS)
CDM Graduate Academic Student Handbook

In addition to the DePaul University Graduate Student Handbook, the College of Computing and Digital Media Graduate Student Handbook includes the rules and regulations for its graduate programs. Additional academic information and regulations applicable to our graduate programs appear in specific graduate program sections.

As a graduate student, you assume the responsibility to know and meet both the general and particular policies and deadlines outlined in this catalog and handbook.

Specific Graduate Program Information can be found on each program page.

Dismissal / Probation

Master’s Degree students are required to meet all GPA requirements for their declared program. Once a student’s cumulative GPA falls below 2.5 a student is allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to return to good academic standing. If at the conclusion of this time period, the cumulative GPA remains below 2.5, the student may be dismissed from the program.

Doctoral student progress will be evaluated annually. Students must maintain a GPA of 3.5 or better to remain in good standing in the program. Any course grade below B- is unsatisfactory and will not be counted toward degree requirements. The PhD committee will ask a student to withdraw from the doctoral program if the committee members judge that the student is not satisfactorily progressing toward the degree.

A student who has been dismissed may, after a period of time, apply for readmission. In addition to the application, the student should provide information that would demonstrate a change in the student’s circumstances to the extent that would support successful completion of the student’s degree program.

Evaluation and Credit / Limitations

Using Undergraduate Credit for Graduate Courses:

All courses numbered 100 through 399 are considered to be at the undergraduate level and are not accepted for graduate credit. Exceptions to this policy may include courses from the Institute for Professional Development (IPD) that are indicated as applicable for graduate credit, and as approved by the student’s faculty advisor.

Transfer Credit

Transfer credit is not widely accepted at the graduate level. However, in certain circumstances and with the approval of the student’s faculty advisor and the CDM dean’s office, it will be considered. In all instances, a maximum of two courses will be considered for transfer into any CDM graduate degree program. Course work that has already been applied toward a degree may not be applied as transfer credit. This transfer credit policy also applies to credit earned in certificate programs through the Institute of Professional Development.
Graduation Requirements

The minimum requirements to graduate with an MA or MS degree are as follows:

- 2.5 cumulative grade point average
- 52 credits (normally 13 courses) earned in graduate courses which have not been used to complete any previous degree

In addition, students must successfully complete all degree requirements as listed on the program pages of the catalog under which they were admitted. Students need to achieve the minimum grade point average indicated for their declared program of study to graduate. Specific graduation information for each program is listed on the program page.

MFA and PhD requirements may be different. Students should consult the appropriate page in the catalog for specific grade and credit requirements.

Grades, Repeating Classes

All grades from all graduate level courses are computed in the cumulative GPA. When a student repeats a graduate level course, both the old and new grades are calculated in the graduate GPA.

Graduation with Distinction

Master of Arts and Master of Science degrees will be awarded with distinction to students who earned a cumulative graduate GPA of 3.9 or higher.

Readmission

A student must complete the graduate program requirements in place at the time of the student's first enrollment in the graduate program. A student who changes graduate programs while his/her studies are in progress must complete the requirements in place at the time he or she enrolls in the new program. A student who changes graduate programs during a break between terms (e.g., winter, spring) follows the requirements in place for the term immediately following the break. A student who applies for readmission will be subject to the program and concentration requirements in place in the enrollment term of readmission.
Registration

Students are responsible for abiding by all registration policies as described in the DePaul Graduate Student Handbook.

Online learning students MUST register for the appropriate online course section. Failure to register for an online learning section prohibits the student from online learning services, including exam proctoring.

Special Note: Students are NOT allowed to attend a course or utilize online course technology if they are not on the class roster.

CDM does not allow enrollment in closed courses. Students wishing to enroll in a closed course may elect to add themselves to the course waitlist in campus connect. The waitlist allows students to be auto-enrolled in a class as seats become available. Auto-enrollment from the waitlist occurs hourly during the first week of enrollment and two times per day until the last day to add a class. Students are strongly encouraged to closely monitor their email accounts if they have any waitlisted courses. All waitlists expire after the last day to add a class each term.

Online Learning

Undergraduate

Many courses are available for review and playback via the CDM Course Online playback system (COL). If a course is COL-enabled, any student registered in the course has access to the course playback. Students are strongly encouraged to utilize the COL resource wherever available. Some undergraduate courses are offered online. However, CDM currently does not offer any undergraduate program completely online.

Graduate

DePaul CDM Online Learning programs are specifically designed to complement the busy lifestyle of working professionals. Our Course OnLine (COL) lecture playback system brings the unique experience of an on-campus DePaul CDM education to off-campus students, and gives them flexibility in how, when, and where they learn.

We offer 11 master's degree programs that can be completed entirely online, including:

- Applied Technology
- Computer Game Development
- Computer Science
- Computer, Information and Network Security
- E-Commerce Technology
- Human-Computer Interaction
- Information Systems
- IT Project Management
- Predictive Analytics
- Software Engineering
- Network Engineering and Management

Graduate students who wish to complete their degree through online learning do not register for a special online degree. Rather, they apply for one of our regular degree programs and then sign up for online learning courses. The degree earned by an online learning student is identical to the degree earned by an on-campus student.
Combined Degrees

Academically gifted students may choose to enroll in the combined degree program. This program allows students to combine many CDM bachelor's degree with CDM master's degree following the structure outlined below.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in this combined degree program will receive the bachelor's degree after meeting all graduation requirements including the standard 192 undergraduate credit hours.

To earn the master's degree, the student must earn 52 graduate credit hours (53 graduate credit hours required for MS Information Systems). Graduate courses taken during the undergraduate career will be substituted or waived for degree completion as applicable.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa at SNL for more information.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and Faculty Advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional BA/BS.

Graduate courses passed before dismissal will not be counted and may not be retaken. If the student pursues graduate study, other graduate courses must be substituted. To apply to a CDM graduate degree program, following dismissal from the combined degree, students must follow regular CDM Admission procedures, and will be required take 13 new graduate courses to earn a master's degree.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study may include which undergraduate classes to avoid taking in order to take the graduate version. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses
The student's advisor must email Associate Dean Lucia Dettori requesting enrollment in any graduate course. The following information should be included in the email: student's full name, DePaul ID, graduate course and section, and the undergraduate course to be substituted for. Student services will process the enrollment.

**Bachelor's Degree to Master's Degree Transition**

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. Learn more about master's degree admission requirements. Students will follow the master's degree program requirements for the term they are admitted to the master's degree program.

**About**

The School of Cinema and Interactive Media (CIM) houses CDM's creative degrees. With an emphasis on all aspects of production, students can earn degrees that prepare them for work in digital cinema, animation, computer game development, and interactive media.

Scholarship Opportunities

A limited number of funding opportunities are available for qualified CDM graduate students. Graduate assistantships are tuition and/or monetary awards based on academic merit, experience in the field, and recommendations. An assistantship typically requires the recipient to perform some service for CDM such as tutoring, grading or lab support. CDM awards two kinds of assistantships:

**Graduate Assistantships**

Graduate assistantships are intended for any degree-seeking (PhD, MS, MA and MFA) graduate student in CDM.

**Ph.D. Stipends**

Intended for full-time students pursuing a PhD at CDM.

**Double Demon Scholarship**

In addition, if you are an alumnus from any of DePaul’s colleges, you qualify for the Double Demon Scholarship which covers 25% of the tuition for a master's degree in the College of Computing and Digital Media or the Kellstadt Graduate School of Business.

There is no application required for the Double Demon Scholarship. Alumni who are admitted into a master’s degree program in the College of Computing and Digital Media or the Kellstadt Graduate School of Business for the Winter Quarter 2013 or a future quarter will automatically qualify for the scholarship.

If you have questions about master’s degree programs or the Double Demon Scholarship, please contact one of the college admissions offices below.

College of Computing and Media

Financial Aid

Completing a current FAFSA (Free Application for Federal Student Aid) is the first step to determining your overall eligibility for financial aid. Subsidized loans (based on financial need) and unsubsidized loans (non-need based) are available depending upon each student's unique financial status.

Graduate Admission

CDM master's degree students can choose from programs that span the computing and digital media spectrum. CDM accepts applications for the master's degree programs on a rolling admission basis. Domestic applications take about one month to process while international applications take a minimum of three months to review. More information about international admission requirements can be found on the CDM website.

Institute for Professional Development

The College of Computing and Digital Media established the Institute for Professional Development in 1985 to offer certificate programs designed to meet the needs of both individuals and businesses in the Chicagoland area. These non-degree offerings provide intensive training in a wide variety of areas, with each standalone certificate program addressing a different set of theoretical concepts and practical skills. Emphasis is placed on gaining practical experience through a combination of lectures and demonstrations complemented by laboratory exercises and homework assignments. Certificate programs are typically taught by a team of instructors, that includes both full-time faculty and part-time instructors from industry. The programs require a substantial commitment of time, as most meet two nights per week and in the morning on approximately half of the Saturdays during the program.

Current certificate program offerings include:

**IPD 352/ IPD 452 IPv6 PROGRAM**

A 10-week online program providing comprehensive coverage of IPv6 technologies and strategies for transitioning enterprise to IPv6.

**IPD 353 CLOUD COMPUTING WITH AMAZON WEB SERVICES PROGRAM**

A 5-week program covering cloud computing with the Amazon Web Services platform.

**IPD 354 CLOUD COMPUTING INFRASTRUCTURE AND OPERATIONS PROGRAM**

A 6-week program in the architectures, infrastructure, and operations of Cloud Computing
IPD 355 CLOUD COMPUTING FUNDAMENTALS PROGRAM
An 11-week program in the principles, methods, and technologies of Cloud Computing

IPD 356 WEB DEVELOPMENT WITH AJAX TECHNOLOGIES PROGRAM
A 8-week program covering Web development with Ajax technologies

IPD 357 WIRELESS LAN SECURITY PROGRAM
An 8-week program covering the latest solutions in wireless LAN security

IPD 358 SHAREPOINT DEVELOPER PROGRAM
A 10-week comprehensive program covering Microsoft SharePoint development

IPD 359 WEB DEVELOPMENT WITH PYTHON PROGRAM
A 5-week program covering Web development with the Python programming language.

IPD 360/460 SQL SERVER BUSINESS INTELLIGENCE PROGRAM
An 11-week in-depth program covering SQL Server analysis services, integration services, and reporting services

IPD 363 SQL SERVER DATABASE ADMINISTRATION PROGRAM
An 11-week in-depth program covering database administration using SQL Server

IPD 364 LIGHTWEIGHT JAVA WEB DEVELOPMENT PROGRAM
An 8-week comprehensive program covering open-source, lightweight Java enterprise Web development using POJOs (Plain Old Java Objects)

IPD 365 RUBY ON RAILS PROGRAM
A 8-week in-depth program covering Web development using Ruby on Rails

IPD 366 JAVA WEB SERVICES PROGRAM
A 7-week concentrated program covering service-oriented architecture and the development of Web services using Java

IPD 370 ADVANCED SQL PROGRAM
A 2-week program covering advanced Structured Query Language (SQL) features

IPD 380 IT PROJECT MANAGEMENT PROGRAM
A 10-week comprehensive program covering best practices in IT project management

IPD 382 JAVA DEVELOPER PROGRAM
A 10-week comprehensive program covering object-oriented applications development using Java

IPD 389 .NET DEVELOPER PROGRAM
A 10-week comprehensive program covering .NET technologies
Academic Advising

The College believes that academic advising is necessary for the vitality and success of the student's undergraduate education. Students are assigned a faculty advisor upon admission to the school. All students are encouraged to meet with their faculty advisor at least once each year for assistance in planning a course of study that best reflects their academic and career interests, skills, and lifestyle. Students are also assigned a staff advisor in the CDM Academic Success Center to assist with providing interpretations of university policy, academic success strategies and support services.

Advising Staff

John Glatz
Director of Advising
Becky Krochmal
Assistant Director of Advising
Jigbie Aguirre
Academic Advisor
Brooke Shannon
Academic Advisor

Student Ambassadors

When choosing an undergraduate or graduate program, it is important to get the student perspective. The CDM Student Ambassadors are a group of current students who have volunteered to serve as representatives of the College of Computing and Digital Media. Ambassadors are available to answer questions for prospective students about the College, the curriculum, clubs and activities and more importantly to share with you their own personal experience as a student at DePaul CDM.

About

DePaul University, founded on Judeo-Christian principles, continues to assert the relevance of these principles through higher education to our students. The University expresses these principles especially by passing on the heritage of St. Vincent DePaul: individual perfection manifested through purposeful involvement with other persons, communities and institutions. The College of Education manifests these principles in its purpose, and
through its programs.

As an urban institution, the College of Education is committed to improving primary and secondary education in the metropolitan area and, in particular, in the city of Chicago. Framed within a commitment to promote and support diversity, the College of Education prepares all of its students to be "Urban Professional Multicultural Educators" who:

- Promote positive transformation
- Consider multiple perspectives
- Integrate inquiry, theory, and practice
- Exhibit Vincentian personalism
- Function as life long learners.

Education Graduate Academic Student Handbook

In addition to the DePaul University Graduate Student Handbook, the College of Education Graduate Student Handbook includes the rules and regulations for its graduate programs. Additional academic information and regulations applicable to our graduate programs appears in the specific graduate section.

As a graduate student you assume the responsibility to know and meet both the general and particular policies, and deadlines outlined in this catalog and handbook.

Specific Graduate Program Information can be found on each program page.

Admission, Readmission, and Reclassification

Admission

Applicants to Master's degree programs must have a bachelor's degree from a regionally accredited college or university. Applicants to the doctoral program must have a Master's degree from a regionally accredited college or university. Please consult specific programs for admission requirements.

Readmission

Students who have not taken classes for one year or more must reapply for admission. Depending on the length of time the student has stopped out, repetition of courses or additional courses may be required by the department or program. In all cases, the student is bound by the program requirements in force at the time of
Reclassification

Graduate students may change from one concentration to another within a major, but only by applying for reclassification. Once students have decided to change their concentration, they should complete a Reclassification Application form, available online or from the College of Education Advising Office. Any administrative questions about changing concentrations should be directed to the College of Education Advising Office, Schmitt Academic Center 481, at 773-325-4409. Graduate students who are interested in changing majors should not complete the Reclassification Application form. Instead, graduate students wishing to change majors should submit a new graduate application. The student’s file will be reevaluated to determine if the admission guidelines for the major for which he/she is applying are met. Additional application materials may be required.

The College of Education presently has one doctoral program. If a student wishes to change concentration, he/she should send an email to the Ed.D. Program Director indicating this request and explaining why a change of concentration is in his/her best interest, and how such a change will affect his/her program of study. The student may want to meet with the Academic Advisor to have an audit done so that it is clear what implications such a change would have on the student’s course of study. The Program Director will decide whether a change of concentration will be permitted.

Certification Requirements

The College of Education offers approved programs for State of Illinois certification in ten areas of study. Students may be eligible for the following certificates upon completion of the respective programs:

- Type 03 Elementary (K-9) Teaching
- Type 04 Early Childhood Education
- Type 09 Secondary (6-12) Teaching
- Type 10 Special (K-12): Learning and Behavioral Specialist I
- Type 10 Special (K-12): Physical Education
- Type 10 Special (K-12): Reading Specialist
- Type 10 Special (K-12): World Language
- Type 73 School Service Personnel Certificate: School Counseling
- Type 75 Administrative Certificate: General Administrative Endorsement
- Type 75 Administrative Certificate: Superintendent Endorsement

Please note that state certificates include requirements beyond program requirements. For Type 03, 04, and 09 certificates three tests are required: a test of basic skills, a test of subject matter knowledge, and a test of professional teaching knowledge and skills. For Type 10, 73, and 75 certificates a test of content area knowledge is required. The tests are given by the State of Illinois at regularly scheduled times each year. Students are advised to confer with program faculty or the academic advisors for further information.

Certification is not automatic upon completion of a program. The student must apply. Forms and procedural information are available in the College of Education.

Timeliness is important. Ordinarily, only graduate work completed within the past ten years is acceptable for purposes of applying courses for certification requirements. If the degree was granted more than ten years past, the Assistant Dean in consultation with program faculty may grant a recommendation for certification upon the successful completion of appropriate courses and/or comprehensive examinations in the program. In all instances current certification requirements must be met.

All certification and endorsement requirements are subject to change based on Illinois State Board of Education modifications in requirements. All individuals must meet ISBE requirements in place at the time of application for the certificate.
Endorsement Evaluations

Students in Teacher Education Programs can submit an application to their academic advisor to request an endorsement evaluation. The COE can only evaluate transcripts for those programs or content areas that are offered in the COE. Any other programs or content areas will require an Illinois State Board of Education evaluation.

A doctoral candidate may apply for ISBE Superintendent's Endorsement when the following conditions are met:

- Successful completion of all doctoral coursework, including the Educational Leadership concentration, core and research courses.
- Successful completion of A&S 899 Superintendent Internship and all the related clinical experiences.
- Completion of candidacy paper requirements
- Current holder of a valid ISBE Type 75 certificate
- Two years of documented administrative experience while holding the Type 75 general administrative certificate.
- Successful pass score on the ISBE Superintendent's exam

Evaluation and Credit

Auditing Courses

Students cannot audit courses that are part of their degree or certification requirement. However, students may choose to audit other courses. Audited courses are not graded and students receive no credit for the course.

Cumulative GPA Requirement

No more than two C or C+ grades can be accepted for a course earning graduate credit toward the degree, and then only if there are corresponding grades of higher value to produce a cumulative GPA of 3.00.

Double Counting Courses

Under no circumstances can a course taken at DePaul University or at any other college or university fulfill degree requirements in more than one degree program. A course can only be counted as fulfilling the degree requirements of one degree program.

Eight-Year Limit on Courses

Courses taken at DePaul University or any other college or university that were completed more than 8 years ago can only be counted toward certification, degree, and/or content area requirements after a review of the student's transcripts. Transcripts will be evaluated based on the most-up-to-date certification, degree, and content area requirements. Courses will be evaluated at the discretion of a faculty advisor.

General Education Coursework (Content Area Prerequisites)

All State general education requirements must be completed prior to student teaching. A grade of C or better is required for all general education requirements. DePaul-approved CLEP tests may substitute for appropriate general education coursework. Remedial coursework cannot substitute for general education coursework.

Graduate Credit

Graduate students enrolled in 300 level courses will receive graduate credit for these classes and grades earned in these classes will contribute to the graduate GPA. Graduate students cannot receive credit for 100 or 200 level courses if they register as a graduate student. To receive graduate credit for a 300 level undergraduate course the student must be enrolled as a graduate student. Enrolling as an undergraduate student or receiving a grade of C-, D+, or D is unacceptable for graduate credit in this program. If a C- or lower is earned in a required course, the course must be repeated or substituted as directed by the department or program. Such grades
remain on the academic record and are calculated into the cumulative GPA.

Limit on Transfer Credit for Graduate Students

All COE graduate students can transfer up to 9-quarter hours (approximately 2 courses) from another college or university as credit toward their Master’s or Doctoral degree requirements. All other courses must be DePaul coursework.

Pass/ Fail Option

Students can take elective courses or courses not required for certification or degree fulfillment as pass/fail. Courses taken pass/fail are not factored into students’ GPA. Courses required for certification or degree cannot be taken pass/fail.

Program Completion

Timely completion of a program is important. Students in Master’s Programs are allowed seven years to complete the graduate degree. A petition in writing for a one-year extension may be approved by the department or program.

Students have ten years to complete the doctoral program, beginning with the first quarter of admission. (If students deferred admission, the first quarter of attendance starts the ten-year clock.) For additional information, refer to the Doctoral Handbook.

Teaching & Learning Induction Coursework

All T&L graduate students are required to complete their Teaching & Learning (T&L) induction coursework through the DePaul University College of Education. The only exception to this policy is demonstration of out-of-state residency.

Graduation Requirements

Students must meet all requirements listed below for graduation.

Degree Conferral Requirement

In order for a student’s degree to be conferred, the student must complete all degree coursework and requirements, have a minimum 3.00 GPA, and meet the degree conferral application deadline for the quarter in which he or she wants the degree to be conferred.

Doctorate Requirements to Participate in Graduation Ceremony

Upon successful completion of all requirements (courses, papers/dissertation), an Ed.D. degree is earned. In order to have your degree conferral (granting) process started, students must apply online to formally indicate their intention to graduate. DePaul confers degrees at multiple points during the year, always at the close of terms. Students apply for degree conferral through Campus Connection. Students must submit a separate application to participate in the June graduation ceremony.

To participate in the graduation ceremony in the spring, a doctoral student must complete all required degree coursework, including the successful defense of his or her thesis, by the end of the Spring quarter preceding the ceremony and have applied for graduation before the designated deadline.

Master’s Graduation Requirements

To participate in the graduation ceremony in the spring, a graduate student must complete all required degree coursework by the end of the spring quarter preceding the ceremony or have only one course outstanding, which must be completed prior to the end of the Fall quarter following the ceremony. The student must have also applied for graduation before the designated deadline.

Graduating with Distinction
Each COE program establishes its own criteria for graduating with distinction.

**Bilingual Bicultural Program**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

**Counseling Programs**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA

**Curriculum Studies Program**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

**Dual Certification Program**
- M.Ed. 4.0 GPA or possible revision based on T&L policy
- M.A. 4.0 GPA or possible revision based on T&L policy

**Educational Leadership Program**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

**Literacy and Specialized Instruction Program**
- M.Ed. 4.0 GPA or possible revision based on program policy
- M.A. 4.0 GPA or possible revision based on program policy

**Reading Specialist Program**
- M.Ed. 4.0 GPA or possible revision based on program policy
- M.A. 4.0 GPA or possible revision based on program policy

**Social and Cultural Foundations in Education Program**
- M.A. Distinction based on recommendation for distinction from the student’s thesis committee and approval from the Thesis Review Committee. Students graduating with an M.Ed. are not eligible for distinction.

**Teaching and Learning Program**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

**Doctoral Degree Program (Ed.D.)**

The successful completion of a dissertation distinguishes those students at this highest level of their educational careers. The doctoral program does not offer a formal distinction beyond this accomplishment.

**Honors at Commencement Ceremony**

Students must complete their degree program and all graduation requirements by the end of the Winter quarter subsequent to the Spring Commencement ceremony in order to be listed as graduating with honors and having his or her name announced as an honor student during the ceremony. However, the honors designation will be noted on student's transcripts and diploma regardless of degree completion date.

**Seven-Year Limit on Studies**

Graduate students have seven years from the date of matriculation to complete program degree requirements. Graduate students may apply for a one-year extension. If a graduate student does not complete his or her degree program requirements within eight years after matriculation, he or she will need to re-apply to the degree program, upon which he or she will have his or her coursework re-evaluated and be subject to any degree program changes or new program requirements.
Doctoral Program Ten-Year Limit on Studies

Students have ten years to complete the doctoral program, beginning with the first quarter of admission. (If students deferred admission, the first quarter of attendance starts the ten-year clock.) For example, for a student who begins in Fall 2012, the program must be completed by Spring 2022. For students approaching this time limit, an application for extension must be submitted to the program office. This should be done no later than the fall of the tenth year, although earlier is preferable. The extension application includes the Request for Extension form, a letter from the student explaining a rationale for his/her request, and a letter of support from his/her dissertation chair.

Probation and Dismissal

A student in a Master's Program whose GPA falls below a program's minimum GPA requirement will receive a registration hold and be unable to register for classes. The student must meet with his or her academic adviser and make an appointment with the Academic Success Center to develop a plan for returning to good academic standing. Students who remain on academic probation for 3 consecutive quarters will be dismissed from the COE. Master's students may appeal to the Chair of the Department in which their program is housed for re-admittance or may apply to another graduate program.

Doctoral students who are fully accepted into the program will be placed on probation if their grade point average falls below 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. The first assessment will occur at the end of 12 credit hours. Students will remain on probation until four additional courses are taken at which time a new evaluation is done. If the grade point average is not raised students may be subject to dismissal from the College of Education.

Program Requirements

Depending on degree and concentration, Master's programs require a minimum of 48-72 quarter hours of coursework. Some of the Master's of Arts programs require the completion of a thesis. In general some Master of Education programs require two masters papers related to coursework.

The doctoral program requires a minimum of 76 quarter hours of coursework. Completion of a dissertation and an oral defense before a committee of three faculty members are included in the requirements that lead to a Doctor of Education degree.

Please consult specific programs for complete degree requirements.

Student Teaching

Content Area Coursework

All content area coursework requirements, including graduate-level content area coursework, must be completed prior to student teaching. A grade of C or better is required for all content area coursework requirements. Remedial coursework and CLEP tests cannot substitute for content area coursework.
DEFER Student Teaching

If extenuating circumstances exist, you may request a deferral of your student teaching placement. Valid reasons would only include health-related issues, change in employment status or employment opportunity, personal hardship, or course related issues. DEADLINE: First day of student teaching.

Extend STUDENT TEACHING Clearance Deadline

Requests to extend the academic clearance deadline for student teaching may be submitted under extenuating circumstances. A valid request, for example, might occur when you have applied to student teach on time but failed a content area test prior to final clearance. If another testing opportunity exists prior to the start of student teaching, you may apply for an exception to complete the requirement and have your clearance re-evaluated. DEADLINE: The prior quarter’s last day to add classes deadline (e.g., for Fall Quarter, the deadline is the prior Spring Quarter’s last day to add classes deadline; Winter is Fall’s deadline; Spring is Winter’s deadline).

OUT-OF-STATE Student Teaching Placement Request

Requests for out-of-state student teaching placements are granted only on rare occasions and require a statement of hardship for consideration. Valid reasons for the request include health-related issues, change in employment status or employment opportunity, personal hardship, or course-related issues. Please note that to ensure proper supervision additional costs may be associated with out-of state-student teaching. DEADLINE: Same as student teaching application deadline.

Student Teaching in an Elementary, Middle School, or High School You Attended as a Student

Students cannot student teach in any school in which they were enrolled as a student within the last 10 years.

Student Teaching in YOUR OWN Classroom Request

In order to apply for this request, you must have at least two years of supervised classroom teaching experience. Attach a completed Application to Student Teach in Your Own Classroom form to the request for exception form. DEADLINE: Same as student teaching application deadline.

Student Teaching Requirements

All program coursework must be completed prior to student teaching. A grade of B- or better is required in student teaching to complete successfully student teaching.

Teaching & Learning Induction Coursework

All graduate students are required to complete their Teaching & Learning (T&L) induction coursework through the DePaul University College of Education. The only exception to this policy is demonstration of out-of-state residency.

Waiving Student Teaching Requirements

Requests to waive student teaching must follow the Illinois State Board of Education student teaching waiver policy.

Registration: Exception to Advanced Standing

Exceptions to advanced standing are only granted on a one-time only basis and must be approved by the Associate Dean or his or her designate.
Registration Withdrawal

Withdraw from Classes Due to Hardship

Students may request to withdraw from classes due to personal and/or medical hardships. Students should contact the University Dean of Students to a hardship withdrawal.

Withdrawal from the COE

To officially withdraw from any COE program, a student should contact his or her academic advisor and petition in writing his or her intent to withdraw.

Combined Bachelors/ Masters

The TEACH Program provides students the opportunity to complete in five years an undergraduate degree in a core arts and science major and a Master's of Education degree with State of Illinois secondary education teaching certification in a content area related to their major. As a combined degree program of the College of Liberal Arts and Social Sciences, the College of Science and Health, and the College of Education, the Program is collaboratively governed and coordinated by faculty from all 3 units.

The Program is designed to draw on the expertise of LAS and CSH faculty who teach in the majors of English, Mathematics, History, the Sciences, and Social Sciences to ensure strong content knowledge preparation of students and facilitate the transition from being learners of content to teachers of content to diverse adolescent populations. The Program also draws on the expertise of faculty in the COE's Secondary Education Program and Educational Policy Studies and Research Department to immerse students into essential issues and themes of education and theories and practices of teaching and learning. Such issues as educational inequality, politics of schooling, identity politics, social justice, identity development inside and beyond formal school settings, historical, cognitive, sociocultural, and sociopolitical nature of human development and society are integrated with issues of pedagogical content knowledge, critical pedagogy, constructivist teaching practices, theories of teaching and learning, curriculum development, and professional practice. Ensuring that students understand all these issues is integral to the Program design and delivery and to the preparation of teachers.

The measure of the academic quality of the Program relies on clearly articulated features of exemplary teacher-education programs. These include:

- a "common, clear vision of good teaching that permeates all coursework and clinical experiences...";
- a "well-defined standard of professional practice and performance...";
- a "strong core curriculum taught in the context of practice" and including understanding of human development and learning, social and cultural contexts, curriculum assessment, and subject-matter pedagogy;
- an "extended clinical experience" that supports ideas presented in coursework;
- an "extensive use of case methods, teacher research, performance assessments, and portfolio evaluation...";
- "explicit strategies" to help students confront their own beliefs and assumptions about learning and students and to learn about the experiences of diverse people; and
- "strong relationships, common knowledge, and shared beliefs among school- and university-based faculty."

Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Course TCH 320, Exploring Teaching in an Urban High School, and meet other application criteria prior to applying. The curriculum of the Program consists of three components:

- Courses necessary to satisfy requirements for a baccalaureate degree in the College of Liberal Arts and Social Sciences or College of Science and Health in one of the following state of Illinois secondary
Scholarship Opportunities

Please subscribe to the COE Advising weekly email to stay informed about COE scholarship opportunities that become available throughout the school year.

Any questions can be sent to coescholarships@depaul.edu.

For other DePaul University scholarships please visit the Admission & Aid section on the DePaul home page.

Financial Aid

For all information regarding Financial Aid, please visit the Financial Aid link under the Admission & Aid section on the DePaul home page.

Please also contact the DePaul Central (For help with Financial Aid, Student Accounts and Student Records) For quick answers regarding financial aid, payment processes and student records during business hours, (312) 362-8610 or e-mail them at dpcl@depaul.edu.

Counseling and Special Education

The vision of the Department of Counseling and Special Education is to advance knowledge, model effective practices, as well as promote advocacy both for our professions and for those whom we serve. We prepare professionals based on sound theory-guided and evidence-based practices to be socially responsible leaders who value the dignity and integrity of all people, particularly those who are historically under-served or under-represented.

The Department of Counseling and Special Education is a community of scholars who value the role of the practitioner in all roles of teaching, research and service. Faculty use student-focused methods to enhance engagement of future professionals in learning and applying their knowledge and skills in diverse settings. This commitment to theory-guided and evidence-based practices is also demonstrated through faculty’s teaching,
The Department is comprised of two programs from distinct yet related fields. Each program has the following distinct foci and needs:

**Counseling Program**

The program in Counseling provides professionals with theoretical frameworks and competencies that prepare them to provide counseling services. Within the Counseling Program, there are three degree programs. These are community counseling, school counseling, and college student development. The concentrations in community and school counseling integrate Illinois state requirements for licensure and certification and all concentrations meet national standards for professional practice. All programs are 72 credit hours and include a 100-hour practicum and two 300 credit hour internships. These clinical experiences are mandatory and for the school and community counseling concentrations are required by the state for certification and licensure. A degree from this program gives rise to career opportunities such as school counseling in elementary, middle, and high schools; counseling in community agencies; counseling in higher education; career counseling through the lifespan; counseling in hospitals or institutional-care settings; group counseling; couples and family counseling; or counseling in private practice. All of the programs emphasize and are designed to foster leadership, advocacy, and social justice.

**Special Education Program**

The Special Education program currently offers three concentrations all leading to either an M.A or an M.Ed. The Special Education for Teachers program prepares currently certified teachers to work in special education and results in a LBS-I certificate (Type 10 K-12). Students in the Special Education for Teachers program may work in a variety of settings as special education teachers. Combining the disciplines of Learning Disabilities and Reading Education, the Reading and Learning Disabilities concentration leads to a Reading Specialist Certificate (Type 10 K-12) and prepares students to work as reading specialists within school as well as professionals in clinics or private practice. A third concentration, the Dual Certification in Elementary Education and Special Education, is for individuals with a Bachelors Degree in an area other than education. This pre-service program leads to both a Type 10 LBS-I and a Type 03 Elementary Education certificate. Graduates of the Dual Certification program may teach in either general or special education settings.

The following graduate programs are offered at Lincoln Park:

- M.A or M.Ed. Counseling
- M.A or M.Ed. Literacy and Specialized Instruction

**Educational Policy Studies & Research**

The Department of Educational Policy Studies and Research (EPSR) studies the complex dynamic interplay between the individual, society, and sociocultural processes that unfold in multiple educational contexts. It offers courses examining educational theories, institutions, practices, policies, and human development across the lifespan, and issues in educational research. EPSR represents the foundational disciplines of history, philosophy, psychology, sociology and human development as they are related to the study of education. It also considers debates about investigative methodology in education, and the contribution of research to the understanding of educational and social problems. Accordingly, its courses examine questions of disciplined inquiry, theoretical discourse, educational and social development, inequality, economic and political change, and cultural identity in relation to formal and informal education, in schools and related settings. The study of these issues is informed by an ethical disposition that features a critical examination of assumptions regarding norms and standards, and the quest for social justice. The Department provides disciplinary and research course work for students in other programs of the College of Education, while also preparing students from EPSR for positions in, for example, government, service organizations, private foundations and institutes, adult education and training, cultural organizations, as well as for doctoral work in educational policy studies for a university teaching and research career.

The following graduate programs are offered at Lincoln Park:

- M.A in Social and Cultural Foundations in Education
- M.Ed. in Social and Cultural Foundations in Education
Leadership, Language & Curriculum

The Department of Leadership, Language and Curriculum is a multidisciplinary academic body that aims to fully prepare urban multicultural professional practitioners and leaders to work in a variety of educational and community settings. Practitioners who complete a course of study offered by our department will contribute to their respective fields, balance theory with practice, consider multiple points of view in decision making, promote positive transformations in the settings in which they are engaged, and continue to function as lifelong learners. The practitioner’s professional role is shaped by ongoing reflection and positive engagement with the individual, the community, and the larger sociopolitical realities. The preparation we offer practitioners demonstrates our commitment to social justice, critical pedagogy, and positive educational transformation. The disciplines in the Department address these themes from a variety of perspectives that include language and culture, curriculum theory and development, and educational leadership in administration and supervision.

The following graduate programs are offered at Lincoln Park:

- M.A or M.Ed. in Bilingual Bicultural Education
- M.A or M.Ed. in Curriculum Studies
- M.A or M.Ed. in Educational Leadership

Teacher Education

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching;
2. Multiculturalism is infused throughout the curriculum;
3. Field experiences are an integral part of the curriculum;
4. Students are exposed to a variety of educational theories;
5. The program includes a research component as a basis for further professional development.
Doctoral Program

The primary, though perhaps not the only audience for this Ed.D. program consists of educational professionals who wish to improve the quality of their work in their current roles or to prepare themselves for new roles. This Ed.D. program is uniquely designed to link theory with practice and is not based on traditional assumptions about the relationships of theory with practice or on conventional notions about the status of practitioners and theorists. To be a practitioner is to make decisions about what to do and to take action; but professional practitioners — in education as in other areas — make reasonable decisions and act responsibly and ethically in the light of theoretical and professional knowledge.

- Professional educators are leaders as well as managers; they are not limited to making decisions according to rule or "by the book." They must use discretion and judgment as they seek to find the most defensible course of action in specific, complicated, and perhaps idiosyncratic circumstances. These situations are not merely instances of abstract concepts.
- Although decisions are made in the light of theoretical knowledge, theoretical knowledge cannot be applied to practice in the same way as principles are applied to cases. No single theory is able to encompass the complexities of all aspects of learning or schooling. Professional educators understand the principles and terms that characterize and limit a variety of theories and can select amongst them in order to better understand the situations in which they are involved.
- Decisions also are made in the light of professional knowledge, learned on the job as well as from more formal sources. Professional educators can articulate the informal, often tacit knowledge that they develop from practice so that it engages with and modifies the more formal theories learned from other sources.
- Professional educators not only make decisions, they act upon them responsibly. They examine the value commitments implicit in their actions; they question the appropriateness of the ends that they seek; they connect their educational contexts to broader social contexts; and they assess the effects of their actions on the achievements, dispositions, and propensities of students, colleagues and community members.

The following graduate programs are offered at Lincoln Park:

- Ed.D. in Curriculum Studies
- Ed.D. in Educational Leadership
- Ed.D. in Early Childhood Education

Early Childhood Certificate

Course Requirements

Pre-Education Introductory Courses: 16 quarter hours required

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition, PA grade required)
- SCG 404 HUMAN DEVELOPMENT AND LEARNING: THE EARLY YEARS
- T&L 421 CHILD AND FAMILY IN THE MULTICULTURAL COMMUNITY
- T&L 423 UNDERSTANDING YOUNG CHILDREN'S BEHAVIOR
- T&L 431 EARLY LANGUAGE AND LITERACY DEVELOPMENT

Advanced Standing Courses: 32 quarter hours required

- T&L 410 CHILDREN'S LITERATURE AND FAMILY LITERACY
- T&L 411 ASSESSMENT IN EARLY CHILDHOOD SPECIAL EDUCATION
- T&L 420 MATH AND SCIENCE IN EARLY CHILDHOOD
- T&L 427 YOUNG EXCEPTIONAL CHILD
- T&L 432 EARLY CHILDHOOD CURRICULUM STRATEGIES AND PHILOSOPHY (BIRTH-8)
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- T&L 481 INTERNSHIP IN PRESCHOOL SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE) (2qh)
- T&L 482 INTERNSHIP IN PRIMARY SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE) (2qh)
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
Heath, Safety and Child Nutrition Requirement

Candidates should be prepared to document course or other experience that shows they meet the knowledge and skills to provide experiences for young, which appreciates the interrelationships among child, family and the areas of health, safety and nutrition. Candidates should demonstrate comprehension of the issues of health, safety and nutrition that affect young children from the ages of birth through age 8. In addition, candidates are expected to demonstrate understanding of cultural issues and special needs of children with health impairments. Finally candidates should be familiar with the knowledge and application of practices that promote good nutrition, dental health, physical, social and emotional well being of young children.

- Can be completed by ECE 298 CHILD HEALTH SAFETY AND NUTRITION, a transferred equivalent, or by individual competency experience with a full-time early childhood faculty member.

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 595 EARLY CHILDHOOD STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 596 EARLY CHILDHOOD STUDENT TEACHING SEMINAR (2 hours )
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. Early Childhood majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Early Childhood Content Area Test (test #107) – assesses knowledge of language and literacy development, learning across the curriculum, diversity, collaboration, and professionalism in the early childhood program. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended that it be taken before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of age levels (birth-age 8), multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. Four special field experience courses T&L 400, T&L 401, T&L 402, and T&L 403 are associated with theory courses and should be taken concurrently with the specified theory courses. FEDS entry of these clinical hours is not required. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Additional Requirements

Please also view the college core requirements under the MA or MED for Early Childhood for additional requirements.
Elementary Certificate

Content Area Prerequisites
Elementary Education teachers need to have an understanding of the subjects taught in classrooms at the Elementary level. DePaul's program requires that students in the Elementary program have a minimum of one course in the following areas: writing, fine arts or literature, mathematics*, science, social science, and either US history or American government. These courses may be taken at the undergraduate level and may have been included in the student's bachelor's degree program. Elementary Education students will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements are not prerequisites for admission, however coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

*DePaul alumni that have taken LSP 120 or ISP 120 can receive credit towards the math requirement.

Course Requirements

Pre-Education Introductory Courses: 17 quarter hours required

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition, PA grade required)
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- SCG 403 HUMAN DEVELOPMENT AND LEARNING: ELEMENTARY
- T&L 583 FIELD EXPERIENCE LAB
- T&L 418 LEARNING THROUGH THE ARTS (FORMERLY CDG 418)
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 31 quarter hours required

- T&L 412 EMERGING READING AND LANGUAGE ARTS
- T&L 416 TEACHING AND LEARNING ELEMENTARY SCHOOL MATHEMATICS
- T&L 583 FIELD EXPERIENCE LAB
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- T&L 413 READING/LANGUAGE ARTS IN THE MIDDLE GRADES
- T&L 583 FIELD EXPERIENCE LAB (public school setting required)
- T&L 415 TEACHING AND LEARNING ELEMENTARY SCHOOL SCIENCE
- T&L 419 CURRICULUM AND STRATEGIES: SOCIAL STUDIES
- T&L 584 PRE-STUDENT TEACHING FIELD EXPERIENCE
- T&L 422 CLASSROOM ASSESSMENT

Student Teaching : 8 quarter hours required
Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 25 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 585 ELEMENTARY STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 586 ELEMENTARY STUDENT TEACHING SEMINAR (2 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/ Optional Course:

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Certification Tests
All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. Elementary majors must complete the following tests:
Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate lab settings in conjunction with education courses. Students are required to register for one lab for designated paired course. For example, during the first quarter of the program students must register for T&L 404 and SCG 403 plus one field experience lab. During the quarter when students take T&L 413 and LSI 446, a public school that services students with special needs is required. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Additional Requirements

Please also view the college core requirements under the MA or MED for Elementary Education for additional requirements.

Special Education for Teachers (Learning and Behavior Specialist 1)

Certificate-Only Requirements (40 hours)

Special Education Core Courses: 32 hours required, grade of B+ or better required

- LSI 440 SURVEY OF EXCEPTIONAL LEARNERS: PSYCHOLOGY AND EDUCATION
- LSI 443 PSYCHOLOGICAL TESTS AND METHODS IN DIAGNOSIS
- LSI 458 TEACHING STUDENTS WITH HIGH INCIDENCE DISABILITIES I
- LSI 462 INSTRUCTIONAL STRATEGIES FOR STUDENTS WITH DISABILITIES I: ACCESSING GENERAL EDUCATION CURRICULUM
- LSI 467 TEACHING STUDENTS WITH HIGH INCIDENCE DISABILITIES II
- LSI 468 TEACHING STUDENTS WITH LOW INCIDENCE DISABILITIES I
- LSI 469 TEACHING STUDENTS WITH LOW INCIDENCE DISABILITIES II
- LSI 457 SEMINAR AND RESEARCH IN SPECIAL EDUCATION

Clinical Experience

The program requires two summer practicum experiences. Each practicum involves six full weeks of intensive supervised field experience in a cooperating school that operates an extended school year program. Candidates must apply for each practicum, and upon approval they are placed in appropriate summer practicum sites by the program. Practicum sites may also screen candidates prior to accepting them for placement. Candidates who will be admitted to the practicum will assume full teaching responsibility and will have weekly opportunities for feedback and discussion of issues and problems encountered. A grade of B+ or better is required for eligibility to participate in each summer practicum.

Practicum Courses: 8 hours required, grade of B+ or better required
Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

LBS1 Certification students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply)
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required for admission to Student Teaching.
- Assessment of Professional Teaching (APT) (test #104, grades K-12) – assesses knowledge of teaching practice and classroom scenarios.

Registration, testing schedules, and fees for ISBE certification tests are available on the ISBE website.

Principal Licensure

Licensure Only (Public School Strand)

The principal licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

The principal preparation program is a freestanding eleven-course program (44 quarter hours), which leads to the State of Illinois' principal licensure.

Educational Leadership Courses: 36 quarter hours required

- A&S 491 ADMINISTRATIVE THEORY AND BEHAVIOR
- A&S 492 THE PRINCIPALSHIP
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 494 SCHOOL FINANCE
- A&S 495 SCHOOL LAW
- A&S 496 HOME, SCHOOL, COMMUNITY RELATIONS
- A&S 498 PRINCIPLES AND PRACTICES OF SUPERVISION
- A&S 602 PRINCIPAL LICENSURE INTERNSHIP I
- A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP

Curriculum Studies Courses: 8 quarter hours required

- CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES
- CS 493 CURRICULUM DEVELOPMENT AND ASSESSMENT IN K-12 SCHOOLS

Specific requirements for entrance into the principal licensure program may be obtained from the office of graduate admissions or the LLC department office.

Individuals seeking the principal licensure must:

1. Complete and approved principal licensure program at an Illinois institution
2. Complete all state-mandated training and examinations
3. Have successfully completed the internship experiences
4. Hold a Master's degree

Upon successful completion of all principal licensure program requirements and any additional requirements,
Principal Licensure with a Concentration in Catholic Leadership

Licensure Only (Catholic School strand)

The principal licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

A twelve course program that prepares candidates for state licensure and specifically prepares candidates for the Principalship or Assistant Principalship in Catholic schools.

Educational Leadership Courses: 40 quarter hours required

- A&S 491 ADMINISTRATIVE THEORY AND BEHAVIOR
- A&S 493 DATA DRIVEN DECISION MAKING
- A&S 494 SCHOOL FINANCE
- A&S 495 SCHOOL LAW
- A&S 496 HOME, SCHOOL, COMMUNITY RELATIONS
- A&S 498 PRINCIPLES AND PRACTICES OF SUPERVISION
- A&S 570 HISTORICAL, PHILOSOPHICAL AND THEOLOGICAL FOUNDATIONS OF CATHOLIC SCHOOL LEADERSHIP
- A&S 571 SPIRITUAL AND ADMINISTRATIVE LEADERSHIP IN CATHOLIC SCHOOLS
- A&S 602 PRINCIPAL LICENSURE INTERNSHIP I
- A&S 608 CAPSTONE IN EDUCATIONAL LEADERSHIP

Curriculum Studies Courses: 8 quarter hours required

- CS 492 CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES
- CS 493 CURRICULUM DEVELOPMENT AND ASSESSMENT IN K-12 SCHOOLS

Specific requirements for entrance into the principal licensure program may be obtained from the office of graduate admissions or the LLC department office.

Individuals seeking the principal licensure must:

1. Complete and approved principal licensure program at an Illinois institution
2. Complete all state-mandated training and examination
3. Have successfully completed the internship experiences
4. Hold a Master's degree

Upon successful completion of all principal licensure program requirements and any additional requirements, students must apply for their license. Students are to work with the College of Education's certification officer when applying for the license.

Note: Courses in this program leading to the principal licensure are designed for practicing educators and are not open to students and any other program without the specific permission of the educational leadership program director.
Reading Specialist Certificate

The Reading Specialist Certificate requires a previously completed Masters degree.

Social and Cultural Studies Courses: 12 quarter hours required, grade of C or better required.

- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- One course from the following list:
  - SCG 401 ADVANCED DEVELOPMENTAL PSYCHOLOGY
  - SCG 402 PSYCHOLOGY OF LEARNING
  - SCG 403 HUMAN DEVELOPMENT AND LEARNING: ELEMENTARY
  - SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
  - SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Reading Specialist Core Courses: 28 quarter hours required, grade of C or better required.

- LSI 430 INTRODUCTION TO ASSESSMENT OF READING AND LEARNING DISABILITIES
- LSI 431 FOUNDATIONS OF LITERACY: ASSESSMENT AND INSTRUCTION I
- LSI 432 DEVELOPING LITERACY: ASSESSMENT AND INSTRUCTION II
- LSI 433 DIAGNOSIS AND INTERVENTION FOR READING AND LEARNING DISABILITIES
- LSI 435 CURRICULUM, COLLABORATION, ADMINISTRATION AND SUPERVISION OF READING PROGRAMS
- LSI 437 LEADERSHIP AND PROFESSIONAL DEVELOPMENT IN READING & LEARNING (prerequisite: All Reading Specialist core courses)
- LSI 438 READING COMPREHENSION FOR STRUGGLING READERS: LITERATURE-BASED AND CONTENT AREA INSTRUCTION

Clinical Experience

The program requires a minimum of 150 hours of clinical working with students with reading and learning disabilities. These hours are earned in the on-campus Family Lab in conjunction with LSI 542, LSI 543, and LSI 544. The Family Lab provides diagnostic and remedial services for children and adolescents with reading disabilities. Graduate students who are enrolled in advanced courses provide diagnostic and remedial services to children and adolescents in the Chicago area.

Practicum Courses: 12 quarter hours required, grade of C or better

*prerequisites: LSI 430, LSI 431, LSI 432, LSI 433, LSI 435, and LSI 438

- LSI 542 TESTING/DIAGNOSIS OF READING & LEARNING DISABILITIES: PRACTICUM I
- LSI 543 DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES: PRACTICUM II
- LSI 544 DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES: PRACTICUM III

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

Reading Specialist students must complete the following tests:

- Basic Skills (test #096) or TAP (tests #300, or #400) - assesses knowledge of reading comprehension, writing, and math. Test is required to qualify for Advanced Standing.
- Reading Specialist Content Area Test (test #176) – assesses knowledge of language, reading, and literacy.
- Assessment of Professional Teaching (APT) (test #104, grades K-12) – assesses knowledge of teaching practice and classroom scenarios.
Reading Specialist Certificate with LBS1 Endorsement

Students admitted to the Reading Specialist program may elect to pursue the LBS1 endorsement. This option is only available to students admitted to the Reading Specialist program.

Students must complete four courses in addition to the Reading Specialist program. These courses are:

- LSI 440 SURVEY OF EXCEPTIONAL LEARNERS: PSYCHOLOGY AND EDUCATION
- LSI 458 TEACHING STUDENTS WITH HIGH INCIDENCE DISABILITIES I
- LSI 468 TEACHING STUDENTS WITH LOW INCIDENCE DISABILITIES I
- LSI 469 TEACHING STUDENTS WITH LOW INCIDENCE DISABILITIES II

Students may take these courses concurrently with or at the end of the Reading Specialist program. Students must consult their Faculty Advisor if they elect to pursue the LBS1 option.

Certification Tests

Reading Specialist plus LBS1 students must complete the following tests (in addition to tests required for the Reading Specialist certificate):

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.

School Counselor Certificate

The Counseling program’s School Counseling concentration is an Illinois State Board of Education (ISBE) approved program for the School Service Personnel Type 73 certificate with the School Counselor endorsement. ISBE states the following guidelines:

Individuals seeking the Type 73 certificate with the School Counselor endorsement must:

1. complete an approved school counseling program at an Illinois institution
2. hold a Master’s degree in school counseling; counseling or a related field; or an educational field
3. pass the Basic Skills or Test of Academic Proficiency (TAP) and School Counselor content-area tests
4. hold or be qualified to hold a teaching certificate OR complete coursework addressing required knowledge as part of an approved program

Course Requirements

Counseling Courses: 52-56* quarter hours required, grade of C or better required

- CSL 451 LEGAL AND ETHICAL ISSUES IN COUNSELING
- CSL 452 INTRODUCTION TO THE COUNSELING PROFESSION
- CSL 458 GROUP COUNSELING
- CSL 461 TESTING AND APPRAISAL
- CSL 467 COUNSELING THEORIES
- CSL 475 CAREER COUNSELING FOR SCHOOL COUNSELORS
- CSL 489 PSYCHOPATHOLOGY
- CSL 501 COUNSELING SKILLS
- CSL 510 MULTICULTURAL COUNSELING
- CSL 514 CRISIS INTERVENTION FOR SCHOOL COUNSELING
- CSL 519 SPECIAL EDUCATION: LEGAL AND PROFESSIONAL ISSUES FOR SCHOOL COUNSELORS
- CSL 520 COUNSELING CHILDREN AND ADOLESCENTS
Clinical Experience

Students complete their Clinical Experience during the last year in the program. The Clinical Experience Courses include the Practicum, Internship in Counseling I, and Internship in Counseling II. Students are enrolled in the Practicum course Autumn Quarter; Internship in Counseling I Winter Quarter; Internship in Counseling II Spring Quarter. Students must complete a formal application process to participate in the Clinical Experience courses. This includes attending a clinical orientation a full year before beginning the Clinical Experience, submitting an initial application, and securing a placement site. Successful completion of the application requirements is noted as milestone courses on a student’s transcripts. Consult academic advisor for additional information on application and course enrollment process.

Clinical Experience Application Courses: non-credit, non-tuition

- CSL 95 CLINICAL ORIENTATION
- CSL 96 CLINICAL APPLICATION
- CSL 97 CLINICAL PLACEMENT

Clinical Experience Courses: 12 quarter hours required, grade of C or better required

Prerequisites: All courses with the exception of CSL 512 must be completed prior to being enrolled in the Practicum courses.

- CSL 552 PRACTICUM IN COUNSELING
- CSL 553 INTERNSHIP IN COUNSELING I (300 clock hours) (prerequisites: CSL 552)
- CSL 554 INTERNSHIP IN COUNSELING II (300 clock hours) (prerequisites: CSL 553)

Upon completion of the School Counseling concentration’s coursework and the additional State requirements, students must apply for their certificate. Students are to work with the College of Education’s Certification Officer when applying for the certificate.

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate.

School Counseling students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math.
- School Counseling Content Area (test #181) – assesses knowledge of student development, assessment, the school environment and the school counseling profession.

Secondary Education Certificate

Course Requirements

Pre-Education Introductory Courses: 16 quarter hours required

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition, PA grade required)
- T&L 424 INTRODUCTION TO SECONDARY EDUCATION
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- SCG 406 HUMAN DEVELOPMENT AND LEARNING:SECONDARY
- One course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION
Advanced Standing Courses: 12 quarter hours required

- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
- T&L 525 READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM

Special Methods Courses: 4-12 quarter hours required

Complete the course(s) listed that correspond to your content area

Biology
- T&L 439 METHODS OF SECONDARY SCIENCE EDUCATION

Chemistry
- T&L 439 METHODS OF SECONDARY SCIENCE EDUCATION

Environmental Science
- T&L 439 METHODS OF SECONDARY SCIENCE EDUCATION

English
- T&L 426 TEACHING WRITING
- T&L 428 TEACHING LITERATURE
- T&L 429 TEACHING YOUNG ADULT LITERATURE

History
- T&L 453 TEACHING HISTORY AND SOCIAL SCIENCE IN SECONDARY SCHOOLS
- T&L 455 READINGS IN AMERICAN HISTORY

Math
- T&L 436 TEACHING AND LEARNING SECONDARY SCHOOL MATHEMATICS

Physics
- T&L 439 METHODS OF SECONDARY SCIENCE EDUCATION

Social Science
- T&L 453 TEACHING HISTORY AND SOCIAL SCIENCE IN SECONDARY SCHOOLS
- T&L 455 READINGS IN AMERICAN HISTORY

Visual Arts
- T&L 465 ART AND PEDAGOGY
- T&L 466 TEACHER AS ARTIST
- T&L 595 EARLY CHILDHOOD STUDENT TEACHING

**Note: Students matriculating in 2012-2013 and currently enrolled students in Biology, Chemistry, Environmental Science, History, Math, Physics, or Social Science who have not taken their special methods course are advised to substitute TCH 472, TCH 473, or TCH 474 for this course (choose course that corresponds to area).

English students that have not taken T&L 426 and T&L 428 are advised to substitute TCH 471 and TCH 481.

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 590 SECONDARY STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 591 SECONDARY STUDENT TEACHING SEMINAR (2 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for Secondary Education Biology**

Note: Effective for all individuals applying for certification beginning February 1, 2012, all coursework in the content area must earn a grade of C or better.

- General Biology I
- General Biology II
- General Biology III
- Ecology
- Cell Biology
- Physiology
- Genetics
- Biology Elective
- Biology Elective
- Biology Elective
- Biology Elective (with lab)
- Biology Elective (with lab)
- College Algebra or Calculus I
- Trigonometry or Calculus II
- General Chemistry I
- General Chemistry II
- General Chemistry III
- General Physics I
- General Physics II

**Requirements for Secondary Education Chemistry**

Note: Effective for all individuals applying for certification beginning February 1, 2012, all coursework in the content area must earn a grade of C or better.

Chemistry Core: 36 quarter hours required, grade of C or better required

- General Chemistry I
- General Chemistry II
- General Chemistry III
- Organic Chemistry I
- Organic Chemistry II
- Analytical Chemistry
- Physical Chemistry I
- Physical Chemistry II
- Applied Probability and Statistics (2 qh)
- Chemistry Seminar (2qh)
- Calculus I
- Calculus II
- Calculus III
- General Physics I
- General Physics II
- General Physics III

Choose three of the following Chemistry courses: 12 quarter hours

- Organic Chemistry III
- Air Chemistry
- Solid Waste Chemistry
- Physical Chemistry III
- Intermediate Inorganic Chemistry
- Intermediate Organic Chemistry
- Biochemistry I
- Biochemistry II
- Biochemistry III
- Nuclear Chemistry
- Biophysical Chemistry
- Medicinal Chemistry
- Drugs and Toxicology
- Nutrition
- Applied Spectroscopy

**Requirements for Secondary Education English**
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Introduction to Literature
- Reading Poetry
- Shakespeare
- Literary Research and Writing/Reading Prose
- Linguistics/Grammar/History of the English Language
- 3 British Literature courses
- Romanticism in American Literature
- 2 American Literature courses
- 300 level Literature elective

**Requirements for Secondary Education Environmental Science**

All coursework in the content area must earn a grade of C or better.

- General Biology I
- General Biology II
- General Biology III
- General Chemistry I
- General Chemistry II
- General Chemistry III
- General Physics I
- General Physics II
- General Physics III
- Ecology
- Earth System Science
- Human Impacts on the Environment
- Environmental Rhetoric and Politics
- Environmental Data Analysis
- Environmental Science Seminar
- Environmental Impact Analysis
- Plus three courses on Environmental Sciences at the Graduate Level, as noted below in the Graduate Content Area

**Requirements for Secondary Education History**

All coursework in the content area must earn a grade of C or better.

- T&L 455 (also a required graduate class)
- US History I
- US History II
- US History – upper level
- US History – upper level
- World History I
- World History II
- Non-US, World History – upper level
- Non-US, World History – upper level
- Non-US, World History – upper level

Additional certification requirements: (one course in each area required)

- Geography
- Economics
- Political Science
- Sociology/Anthropology

**Requirements for Secondary Education Mathematics**

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning OR Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers or Abstract Algebra II
- Geometry I
- Geometry II or Real Analysis I
- Probability & Statistics
- History of Mathematics
Requirements for Secondary Education Physics

All coursework in the content area must earn a grade of C or better.

- Physics I
- Physics II
- Physics III
- Physics IV
- Meth of Computational & Theoretical Phys I
- Meth of Computational & Theoretical Phys II
- Physics Elective
- Physics Elective
- Physics Elective
- Physics Elective
- Physics Elective
- Mechanics
- Calculus I
- Calculus II
- Calculus III
- Multivariable Analysis & Linear Algebra I
- Multivariable Analysis & Linear Algebra II
- General Chemistry I
- General Chemistry II
- General Chemistry III

Requirements for Secondary Education Social Science

All coursework in the content area must earn a grade of C or better.

- US History I
- US History II
- US History – upper level
- US History – upper level
- World History I
- World History II
- Non-US, World History – upper level
- Non-US, World History – upper level
- Secondary Field (6 courses minimum): Choose single field from Anthropology, Economics, Geography, Political Science, Psychology, or Sociology.

Additional certification requirements

- One course in each area required
  - Geography
  - Economics
  - Political Science
  - Sociology/Anthropology

Requirements for Secondary Education Visual Arts

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Two Dimensional Foundation
- Three Dimensional Foundation
- Drawing
- Intermediate or Adv. Drawing
- Painting
- Sculpture
- Computer Graphics
- Printmaking
- Principles of Art History
- Photography
- Video
- Art & Design I
- Art & Design II

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. Secondary Education majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Content Area Test (test numbers below) – assesses knowledge of content area. Test is required before Student Teaching
Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended that it be taken before Student Teaching.

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Additional Requirements

Please also view the college core requirements under the MA or MED for Secondary Education for additional requirements.

Superintendent Certificate

The Doctoral program’s Educational Leadership concentration is an Illinois State Board of Education (ISBE) approved program for the Superintendent endorsement. Individuals must be admitted to the Doctoral program in the College of Education and complete requirements of the program to qualify for the Superintendent endorsement.

ISBE states the following guidelines:

Individuals seeking the Type 75 certificate with the Superintendent endorsement must:

1. complete an approved superintendent program at an Illinois institution
2. hold a Master’s degree
3. provide proof of 2 years of full-time administrative experience on a valid administrative certificate with the general administrative endorsement
4. pass the Basic Skills and Superintendent content-area tests

Upon completion of the Type 75 Superintendent program and the endorsement’s additional requirements, students must apply for their certificate. Students are to work with the College of Education’s Certification Officer when applying for the certificate.

Please view the Educational Leadership (EDD) Degree Requirement section for all courses needed to complete the degree and Superintendent Internship*.

The Superintendent endorsement requires an additional 4 quarter hours for the internship course.

*Superintendent Internship: 4 quarter hours required

- A&S 899 SUPERINTENDENT INTERNSHIP

*Students interested in the Superintendent Endorsement must complete the Superintendent Internship. This course is completed in addition to the required 76-credit hours for the Ed.D. degree.

---

World Language Education Certificate

Course Requirements

Pre-Education Introductory Courses: 16 quarter hours required

- EDU 25 BASIC TECHNOLOGY LITERACY (non-credit, non-tuition)
- SCG 406 HUMAN DEVELOPMENT AND LEARNING: SECONDARY
- T&L 404 INTRODUCTION TO ELEMENTARY EDUCATION
- T&L 425 CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION
- Choose one course from the following list:
  - SCG 408 EDUCATION AND SOCIETY
  - SCG 409 SOCIOLOGY OF EDUCATION
  - SCG 411 PHILOSOPHY OF EDUCATION

Advanced Standing Courses: 28 quarter hours required

- BBE 560 SECOND AND WORLD LANGUAGE ACQUISITION
- BBE 570 METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL
  - or T&L 430 TEACHING LITERACY K-12
- T&L 449 TEACHING MODERN LANGUAGES
- T&L 575 WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
- SCG 410 INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
- LSI 446 PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

- T&L 592 WORLD LANGUAGES STUDENT TEACHING (6 hours, grade of B- or better required)
- T&L 593 WORLD LANGUAGES SEMINAR (2 hours)
- EDU 95 (non-credit, non-tuition, PA grade required)

Recommended/Optional Course

SCG 439 is required for middle school endorsements but is not required for the degree. If taking SCG 439 for certification/endorsement purposes, a grade of C or better is required.

- SCG 439 PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. - Literature/Culture Elective
- Culture in the Classroom
Requirements for World Language Education Spanish include:

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Grammar & Composition I
- Grammar & Composition II
- Advanced Conversation I or II
- Intro to Literacy Analysis in Spanish
- 4 Literature/Culture Elective
- Phonology & Phonetics
- Culture in the Classroom
- Choose three of the following:
  - Spanish Lit: Middle Ages to Golden Ages Literature
  - Spanish Lit: Enlightenment to Present Literature
  - Latin American Lit: Origin to Romanticism Lit
  - Latin American Lit: Modern to Present Lit

Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. World Language Education majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing.
- Content Area Test (test numbers below) – assesses knowledge of the language and culture. Test is required before Student Teaching (deadlines apply).
- Assessment of Professional Teaching (APT) (test #103, grade 6-12) – assesses knowledge of teaching planning, delivery, assessment, professionalism, and technology. Test is required to be certified, recommended to take before Student Teaching.

Arabic
- Foreign Language: Arabic Content Area Test (test #137)

Chinese
- Foreign Language: Chinese(Mandarin) Content Area Test (test #126)

French
- Foreign Language: French Content Area Test (test #127)

German
- Foreign Language: German Content Area Test (test #128)

Italian
- Foreign Language: Italian Content Area Test (test #130)

Japanese
- Foreign Language: Japanese Content Area Test (test #131)

Latin
- Foreign Language: Latin Content Area Test (test #133)

Russian
- Foreign Language: Russian Content Area Test (test #134)

Spanish
- Foreign Language: Spanish Content Area Test (test #135)

Field Experiences

Each student seeking certification from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test
Pursuing certification in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

**Additional Requirements**

Please also view the college core requirements under the MA or MED for World Language Education for additional requirements.

---

**Bilingual Education (BE) Endorsement**

**Course Requirements**

28 quarter hours, grade of C or better required in all courses

Illinois target language proficiency (TLP) test required in addition to the coursework and field experience hours below:

- BBE 402 BILINGUAL-BICULTURAL PROGRAM DESIGN AND CURRICULUM DEVELOPMENT
- BBE 404 LANGUAGE, LITERACY AND CULTURE
- BBE 406 SOCIOCULTURAL AND HISTORICAL PERSPECTIVES IN BILINGUAL EDUCATION
- BBE 407 EQUITY ISSUES IN ASSESSMENT
- BBE 425 BILITERACY PRACTICES IN BILINGUAL EDUCATION AND ESL
- BBE 466 FIRST AND SECOND LANGUAGE ACQUISITION
- BBE 524 METHODS OF TEACHING ESL
- BBE 97 100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED (PA grade required)

**Certification Test**

Individuals seeking a bilingual endorsement must complete the Target Language Proficiency (TLP) test in the non-English language.

**Endorsement Application**

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework and certification tests. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

---

**Early Childhood Bilingual/ ESL Endorsement**

**Requirements for Primary Grades English as a Second Language Endorsement**

Persons seeking this endorsement must have a total of 18 semester hours of coursework required below and meet the other requirements:

- A valid Illinois teaching certificate.
- ESL clinical experience equal to 100 clock hours or three months teaching experience with ESL students.
- Credits totaling 18 semester hours distributed among the following course areas.
Requirements for Primary Grades Bilingual Endorsement

Persons seeking this endorsement must have a total of 18 semester hours of coursework required below and meet the other requirements:

- A valid Illinois teacher certificate.
- Bilingual clinical experience totaling 100 clock hours or three months teaching experience in bilingual programs.
- Successful completion of a language examination in the non-English language to be taught.
- Credits totaling 18 semester hours distributed among the following course areas:
  - Foundations of Bilingual Education
  - Assessment of Bilingual Students
  - Methods and Materials for Teaching Limited-English-Proficient Students in Bilingual Programs
  - Cross-Cultural Studies for Teaching Limited-English-Proficient Students
  - Methods and Materials for Teaching English as a Second Language

To receive a bilingual or ESL teacher endorsement, you may apply as part of the degree process or if you are not seeking a degree you must apply directly to ISBE.

Once admitted to the Bilingual/ESL Early Childhood endorsement program, students should follow the sequence of courses listed below, grade of C or better required in all courses:

- BBE 408 BILINGUAL EARLY CHILDHOOD DEVELOPMENT THEORETICAL FOUNDATIONS
- BBE 409 ENGLISH AS A SECOND LANGUAGE INSTRUCTIONAL FOUNDATIONS IN EARLY CHILDHOOD SETTINGS
- T&L 440 EARLY CHILDHOOD EDUCATION CROSS-CULTURAL STUDIES
- T&L 441 EARLY CHILDHOOD METHODS AND MATERIALS FOR ENGLISH LANGUAGE LEARNERS
- T&L 442 EARLY LITERACY DEVELOPMENT AND SECOND LANGUAGE ACQUISITION
- T&L 443 ASSESSING YOUNG BILINGUAL/ESL LEARNERS
- T&L 444 EARLY CHILDHOOD BILINGUAL/ESL PRACTICUM

Endorsement Application

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework and certification tests. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

Early Childhood LBS1 Endorsement

Students that have completed the DePaul Early Childhood program can elect to take these additional classes to qualify for a LBS1 endorsement on their Type 04 certificate. The ECE LBS1 endorsement program is only available to current students or alumni of the Early Childhood program.

Graduate Courses: grade of C or better required

- LSI 431 FOUNDATIONS OF LITERACY: ASSESSMENT AND INSTRUCTION I
- LSI 475 METHODS OF TEACHING EARLY CHILDHOOD STUDENTS WITH LOW INCIDENCE DISABILITIES
- LSI 476 SPECIAL EDUCATION CURRICULUM AND STRATEGIES FOR EARLY CHILDHOOD: HIGH INCIDENCE DISABILITIES
- LSI 597 EARLY CHILDHOOD EDUCATION SPECIAL EDUCATION PRACTICUM

Undergraduate Courses: grade of C or better required
Certification Test

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. LBS1 Endorsement students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.

Endorsement Application

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework and certification tests. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

English as a Second Language (ESL) Endorsement

Course Requirements

28 quarter hours, grade of C or better required

Must complete the coursework and field experience hours below:

- BBE 402 BILINGUAL-BICULTURAL PROGRAM DESIGN AND CURRICULUM DEVELOPMENT
- BBE 404 LANGUAGE, LITERACY AND CULTURE
- BBE 407 EQUITY ISSUES IN ASSESSMENT
- BBE 425 BILITERACY PRACTICES IN BILINGUAL EDUCATION AND ESL
- BBE 466 FIRST AND SECOND LANGUAGE ACQUISITION
- BBE 524 METHODS OF TEACHING ESL
- BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL
- BBE 97 100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED (non-credit)

Endorsement Application

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

LBS1 Endorsement

Special Education for Teachers (Learning and Behavior Specialist 1)

Endorsement-Only Requirements 24 hours required, grade of B+ or better required
Certification Tests

All individuals certified by the Illinois State Board of Education (ISBE) are required to complete certification tests specific to their teaching certificate. LBS1 Endorsement students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.

Endorsement Application

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework and certification tests. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

Reading Teacher Endorsement

The Illinois State Board of Education (ISBE) requirements for the Reading Teacher Endorsement include:

1. Hold a valid Early Childhood, Elementary, or Secondary teaching certificate
2. Complete 24 semester hours or 36 quarter hours, including a practicum, of reading and literacy courses in the following areas:
   a) Foundations of reading,
   b) Content area reading,
   c) Assessment and diagnosis of reading problems,
   d) Developmental and remedial reading instruction and support,
   e) Developmental and remedial materials and resources, and
   f) Literature appropriate to students across all grade ranges
3. Pass the Reading Teacher content test (#177)

Students can pursue the Reading Teacher Endorsement by either:

1. Completing courses that are a subset of the Reading Specialist concentration (see below), or
2. Applying for a Reading Teacher endorsement evaluation through ISBE. Once a statement of area deficiencies is received, the student will meet with an advisor to determine the required outstanding coursework.

Reading Teacher Endorsement Coursework: 36 quarter hours required, grade of C or better required

- LSI 430 INTRODUCTION TO ASSESSMENT OF READING AND LEARNING DISABILITIES
- LSI 431 FOUNDATIONS OF LITERACY: ASSESSMENT AND INSTRUCTION I
Practicum Courses

- LSI 542 TESTING/DIAGNOSIS OF READING & LEARNING DISABILITIES:PRACTICUM I
- LSI 543 DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES:PRACTICUM II
- LSI 544 DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES:PRACTICUM III

The practicum courses provide a clinical experience working with students with reading and learning disabilities. These hours are earned in the on-campus Family Lab in conjunction with the LSI 542, LSI 543, and LSI 544 courses. The Family Lab provides diagnostic and remedial services for children and adolescents with reading disabilities. Graduate students who are enrolled in advanced courses provide diagnostic and remedial services to children and adolescents in the Chicago area.

Licensed Professional Counselor

State Licensure Information

The State of Illinois requires that those who wish to work as a counselor have licensure as either a Licensed Professional Counselor (LPC) or an advanced Licensed Clinical Professional Counselor (LCPC). The Counseling program's Community Counseling concentration meets the educational requirements for the Licensed Clinical Professional Counselor. However, there are further requirements that must be met. For more information, contact the State of Illinois Department of Professional Regulation in Springfield, Illinois.

**About**

DePaul University takes its name from St. Vincent de Paul. The religious community founded by St. Vincent, commonly known as the "Vincentians," established the University and endowed it with a distinctive spirit premised upon a deep respect for the dignity of all persons and a dedication to the service of others. In each succeeding generation, the graduates of DePaul have pursued learning in the spirit of St. Vincent de Paul. DePaul University College of Law has educated and trained leaders in the legal profession for nearly a century. Our nationally acclaimed programs and institutes prepare students to practice law at a sophisticated level in an increasingly complex profession.

But studying law at DePaul involves more than mastering technical legal doctrine. You have now become, and for the rest of your life will remain, part of the College of Law family. Do not hesitate to call upon any of us, faculty, administrators or staff, to assist you in whatever way that we are able.

**Academics**

When you study the law at DePaul, tradition underlies everything: our deep roots, our enduring values and our commitment to service.

That commitment begins in our classroom community. Professors give you personal attention and support. Faculty and classmates treat you with respect. Cooperation and collaboration contribute to healthy competition. Opportunities abound for being of service to others. And diversity, in all its forms, is embraced.

Students consistently tell us that their academic experience is unlike anything they ever expected from a law school.

Law Academic Student Handbook

This Handbook does not constitute a contract between the student and the University. Regulations, courses and procedures are subject to change without notice. Notices of changes in administrative regulations and other matters are usually posted on the College of Law website or on the University website. Students are responsible for knowledge of and compliance with all regulations.

Juris Doctor Degree

Law School Full-Time and Part-Time Options

The College of Law has both a full-time and a part-time option. At the end of their first year, students may change from part-time to full-time or vice versa by filing a program change request form with the Office of Student Affairs. The form is available on the law school website: www.law.depaul.edu. Students may only change their status once while they are enrolled in law school.

Students are advised that a status change may affect their financial aid. For financial aid information, they should see a financial aid counselor in the Office of Financial Aid on the 9th floor of the DePaul Center.

Note that, after full-time students complete their first-year required courses and after part-time students complete their first three semesters of required courses, all classes are open to all students, irrespective of their status.

Credit Hour Requirements

Juris Doctor (JD) students must complete 86 credit hours in order to graduate from the College of Law. Full-time students are expected to complete the requirements for the JD degree in three years. Part-time students are expected to complete the JD degree in four years. The maximum time to complete the JD program, if a student takes a leave of absence, is five years.

Maximum Credit Hours

First-year full-time students take 14 or more credit hours per semester. First-year part-time students take 10 or more credit hours per semester.

Upper level full-time students may register for a maximum of 16 credit hours per semester. After their third
semester, part-time students may register for a maximum of 12 credit hours per semester.

**Minimum Credit Hours**

Full-time students must take a minimum of 12 credit hours per semester except that full-time graduating seniors in their final semester need only take the number of credit hours necessary for them to graduate. Part-time students must register for a minimum of nine credit hours per semester except that graduating seniors need only take the number of credit hours necessary for them to graduate.

**No Credit for Course Work Taken Prior to Matriculation in the JD Program**

The American Bar Association standards provide that no credit may be given toward the JD degree for credits earned before a student matriculates in a JD program.

**Required Courses**

The following courses must be completed in order to earn the J.D. degree: Civil Procedure, Constitutional Process, Contracts, Criminal Law, Legal Analysis, Research and Communication (LARC) I, II, and III, Legal Profession, Property, Torts, one professional skills course and one advanced writing course.

Professional skills courses that fulfill the graduation requirement include Advanced Meditation; Mediation; Anatomy of a Deal; Arbitration; Business Planning; Arbitration of Commercial Disputes; Dispute Resolution; Electronic Discovery; Moot Court; International Moot Court; Legal Clinic (any); Litigation Lab; Litigation Strategy; Negotiations; Trial Advocacy I; Trial Advocacy II.

Advanced writing courses that fulfill the graduation requirement include a Senior Seminar; Death Penalty Defense Practicum; Law & Climate Change; Legal Drafting and Independent Study.

All first-year students are assigned to specific sections and classes for the entire academic year and must complete their courses as assigned. Part-time students who change to full-time after one year must take their remaining required courses as assigned by the College of Law.

---

**Master of Laws (LLM) Degree**

**LLM in Health Law Program**

**Credit Hours and GPA Requirements**

An LLM in Health Law student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.5 in order to earn the degree. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters. A summer term is counted as a semester for this purpose. If a student does not meet the degree GPA requirement of 2.5, the student may still earn a Certificate in Health Law if the student completes 18 credit hours with a cumulative GPA of 2.0.

**Program Requirements**

Courses must be selected from the LLM in Health Law courses listed in the catalogue. Candidates must enroll in a minimum of seven health law courses in the College of Law. They also must complete the writing requirement by taking either the Masters Essay, a health law related Seminar or Independent Study. LLM students also may enroll in up to three designated courses in the Public Service Management Graduate Program. The LLM program may be completed on either a full- or part-time basis but must be completed within four years.

**No Credit for Course Work Prior to Admission to the LLM Program**

The American Bar Association mandates that no credit may be given for health law courses taken before a student is accepted into the LLM program. Credits earned as part of a JD program do not count toward the LLM.

**LLM in Taxation Program**

**Credit Hours and GPA Requirements**
An LLM in Taxation student must complete 24 semester hours of credit with a minimum cumulative GPA of 2.5 in order to earn the degree. A student is automatically dismissed if he or she has a cumulative GPA of below 2.0 for any three consecutive semesters. A summer term is counted as a semester for this purpose.

**Program Requirements for the LLM in Taxation**

Courses must be selected from the LLM in Taxation courses. Candidates must complete three required courses and five electives. The LLM program may be completed on either a full- or part-time basis but must be completed within five years.

**No Credit for Course Work Prior to Admission to the LLM in Taxation Program**

The American Bar Association mandates that no credit be given for taxation courses taken before a student is accepted into the LLM program. Credits earned as part of a JD program do not count toward the LLM.

**LLM in Intellectual Property Program**

**Credit Hours and GPA Requirements**

An LLM in Intellectual Property student must complete 24 semester hours of credit with a minimum cumulative GPA of 2.5 in order to earn the degree. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters. A summer term is counted as a semester for this purpose.

**Program Requirements for the LLM in Intellectual Property**

Courses must be selected from the LLM in Intellectual Property courses. Candidates must complete three required courses and five electives. The LLM program may be completed on either a full- or part-time basis but must be completed within five years.

**No Credit for Course Work Prior to Admission to the LLM in Intellectual Property Program**

The American Bar Association mandates that no credit be given for intellectual property courses taken before a student is accepted into the LLM program. Credits earned as part of a JD program do not count toward the LLM.

**LLM in International Law**

**Credit Hours and GPA Requirements**

An LLM in International Law student must complete 24 semester hours of credit with a minimum cumulative GPA of 2.5 in order to earn the degree. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters. A summer term is counted as a semester for this purpose.

**Program Requirements for the LLM in International Law**

Courses must be selected from the LLM in International Law courses listed in the catalogue. Candidates must complete three required courses and an additional five courses in their area of concentration. The LLM program may be completed on either a full- or part-time basis but must be completed within five years.

**Credit for Course Work Prior to Admission to the LLM in Intellectual Property Program**

At the discretion of the program director, students may receive credit for courses previously taken during the JD program or foreign equivalent.
Joint Degree Programs

DePaul University College of Law offers the following joint degree programs:

**Joint Degree Programs**

- JD/MBA
- JD/MA in International Studies
- JD/MS in Public Service Management
- JD/MS in Information Systems
- JD/MS in Computer Science
- JD/MS in Distributed Systems
- JD/MS in E-Commerce Tech
- JD/MS in Tele/Data Communications

**Certificate Programs**

- Business Law
- Criminal Law
- Family Law
- Health Law
- Intellectual Property: General
- Intellectual Property: Art and Museum Law
- Intellectual Property: Patents
- Intellectual Property: Information Technology
- International & Comparative Law
- Public Interest Law
- Taxation Law

**Graduate Programs**

- LLM in Health Law
- LLM in Intellectual Property
- LLM in International Law
- LLM in Taxation

For more information regarding programs and application procedures, students are advised to visit the College of Law web site, law.depaul.edu > Academic Programs.

**Study Abroad Programs**

DePaul University College of Law has several study abroad programs.

Associate Dean Steven Greenberger supervises all study abroad programs. Individual professors must give consent for students to enroll in the programs.

Study abroad programs currently are offered in Madrid, Spain; Chiapas, Mexico; Beijing, China; Costa Rica; Buenos Aires, Argentina; Prague, The Czech Republic; Vienna, Austria and Sorrento, Italy.
Procedures and Graduation Requirements

Student Responsibility for Fulfilling Requirements

Each student is solely responsible for ensuring that he or she fulfills all requirements for the degree being sought. Graduating seniors should undertake an independent review of their records before they register for their final semester by running a degree progress report or viewing an unofficial transcript from Campus Connection. If a prospective graduate has not fulfilled all degree requirements, he or she will not receive a degree and will not be certified for admission to the bar.

Note: Participation in the graduation ceremony does not establish entitlement to a degree. The actual degree award does not take place until the University completes its degree audit. Final certification of degrees is completed by the University Student Records Office and may take up to ten weeks after the commencement ceremony.

Application for Graduation and Certificates

JD, LLM, and JD joint degree seniors must apply for graduation on Campus Connection by the following deadlines:

- June 1 for a July graduation.
- October 1 for a December graduation.
- February 1 for a May graduation.

Applicants for the JD degree must also complete a Career Services survey, available on Symplicity at www.law.depaul.edu/jobs, click through Profile > Graduate Student Employment Survey. Complete the entire form and finalize your answers. A survey is required. If you have questions, contact your career advisor.

Applicants for the JD must fill out and submit a completed graduation application. Applicants for Certificates must complete and submit a certificate application with their graduation applications. The on-line degree conferral application is on Campus Connection, www.depaul.edu. The graduation and Certificate applications are available on the law school web site, www.law.depaul.edu.

Commencement

Commencement is held annually in May. If a student is short no more than three credits for a degree that will be completed in July, the student may attend the May commencement ceremony. However, the student will not be awarded the degree until the credits are completed. A degree completed in July will be posted in October.

Academic Records Final

Academic records are locked upon degree conferral. Under no circumstances will changes be made to a student’s academic record after a degree is conferred.

JD Graduation with Honors and Order of the Coif

Juris Doctor Honors

JD students whose cumulative grade point average (GPA) places them in the top five percent of their class are awarded their degree summa cum laude. JD students whose cumulative GPA places them in the next five percent of their class are awarded their degree magna cum laude. JD students whose cumulative GPA places them in the next 10 percent of their class are awarded their degree cum laude. The awards are given to the entire class that graduates in an academic year, full-time and part-time students combined. The awards are announced at the end of the academic year. Once the awards are announced and posted by the College of Law and the University Student Records Office, the awards are not affected by any subsequent grade changes.
Students who transfer to the College of Law after they complete first-year coursework at another law school are eligible for graduation honors. Grades earned at a transfer student's prior law school are included in the GPA computation for honors eligibility. Grades earned when students visit another law school after their first year are included in the GPA for honors eligibility if they take 12 or more credits at another law school.

**Order of the Coif**

JD graduates who rank in the top 10 percent of their class may be elected by the faculty to the Order of the Coif. Coif awards are announced in the summer at the end of the academic year. Once announced and posted by the University Student Records Office, the awards are not affected by any subsequent grade changes. The rules for honors awards for transfer students also apply to election to Order of the Coif.

---

**Eligibility for Law Review, Law Journals and Moot Court**

**Law Review**

The DePaul Law Review, published quarterly, is the College of Law's principal scholarly publication. Legal scholars, judges and practicing attorneys submit articles for publication that are selected and edited by a board of student editors. Members of the Law Review also contribute articles that discuss recent cases and developments in the law. Election to Law Review is one of the highest honors a student can achieve in his or her law school career. Students are invited to join the Law Review after their first year of law school based upon either their academic performance or their performance in a write-on competition. Transfer students may join the Law Review only via the write-on competition.

**Academic Achievement**

Students are invited to join the Law Review at the end of their first academic year if they rank in the top 10 percent of their class.

**Summer Write-On Competition**

The Intra-Journal Write-On Competition is administered by the editors of the Law Review and other Journals. Competition dates and requirements are announced in the summer. The Law Review Editorial Board selects which students, if any, will be invited to join based upon the competition.

Students who will not be on campus during the competition may still participate but must make specific arrangements with the Law Review as soon as the competition dates are announced.

**Credit for Law Review**

Editors of the Law Review must register for and receive course credit for the Law Review. The credits are graded pass/fail. A student may receive a maximum of six credits (three per semester) for Law Review editorial work. Editors also may receive tuition stipends based upon the nature of their service on the Law Review Editorial Board.

**Journal of Art, Technology & Intellectual Property Law**

The Journal of Art, Technology and Intellectual Property Law is published three times per year under the direction of a student Board of Editors and in cooperation with the non-profit organization Lawyers for the Creative Arts. The Journal includes articles by students and professionals that address current legal issues in the visual and performing arts.

**Eligibility**

Students who have completed their first year of law school in good academic standing are invited to join the Journal's staff based upon the Intra-Journal summer write-on competition. Journal staff members are expected to complete one article suitable for publication each semester. Students choose their own topics and format. Journal members are eligible for Editorial Board positions during their final year of law school.
Credit for the Journal

Editors of the Journal must register for and receive course credit for the Journal. The credits are graded pass/fail. A student may receive a maximum of four credits (two per semester) for Journal editorial work. Editors may also receive tuition stipends based upon the nature of their service on the Editorial Board.

Business & Commercial Law Journal

The Business & Commercial Law Journal is published three times per year under the direction of a student Board of Editors.

Eligibility

Students who have completed their first year of law school in good standing are invited to join the Journal staff based upon a write-on competition conducted in the summer semester. Students who have completed at least 28 credit hours are eligible to compete. Journal staff members do cite-checking and write a case note or comment.

Editorial Board

In the spring of each academic year, staff members may apply for an editorial position on the following year’s Editorial Board. Each Editorial Board chooses its own successors.

Credit for the Journal

Editors of the Journal must register for and receive credit for the Journal. Credits are graded pass/fail. Editors may earn a maximum of six credits (three per semester) for Journal editorial work. Editors also may receive tuition stipends based upon the nature of their service on the Editorial Board.

Journal of Health Care Law

The Journal of Health Care Law provides scholarly commentary on developments in the health law field. Health Law LLM and JD students who have completed their first year of law school in good academic standing are eligible.

Write-On Competition

The Journal participates in the Intra-Journal competition each summer to select its staff.

Journal Editors

Students may apply to become editors of the Journal after they complete the first year. Editors may receive tuition stipends based upon the nature of their service on the Editorial Board.

Credit for the Journal

Editors must register for and receive course credit for the Journal. Editors may earn a maximum of six credits (two per semester) for Journal editorial work. The credits are graded pass/fail. Editors are expected to agree to a four-semester commitment to the Journal, one of which is not for credit.

Journal for Social Justice

The Journal for Social Justice provides public interest practitioners and academics with a scholarly alternative to traditional law journal publications. Contributors to the Journal are encouraged to share the wisdom of their experiences as advocates.

Eligibility

Students who complete their first year of law school in good academic standing are invited to join the Journal’s staff based on either the Journal’s own write-on competition or the Intra-Journal summer write-on competition. Journal members are eligible to apply for Editorial Board positions during the Spring academic term.

Credit for the Journal

Editors of the Journal may register for and receive course credit for the Journal. The credits are graded pass/fail. A student may receive a maximum of four credits (two per semester) for Journal editorial work.

Journal of Sports Law and Contemporary Problems
The *Journal of Sports Law and Contemporary Problems* investigates the intersection between law and sports with a focus on today’s most important sports issues.

**Write-On Competition**

The Journal participates in the Intra-Journal competition each summer to select its staff.

**Journal Editors**

Students may apply to become editors of the Journal after one year.

**Credit for the Journal**

Editors may register for and receive course credit for the Journal. A student may earn a maximum of four credits (one or two credits per semester) for Journal editorial work. The credits are graded pass/fail.

**Moot Court Society**

The Moot Court Honor Society has three divisions: Appellate Advocacy, Trial Advocacy and Lawyering Skills. The Society sponsors and supports students participating in competitions that promote written and oral advocacy and lawyering skills.

**Credit for Moot Court Competition**

Upper-level students can earn three credit hours for participation on a national or international moot court appellate advocacy team or trial competition team. National team moot court credits are graded pass/fail; international moot court competition credits are graded in the normal manner. Students may earn a maximum of six credits for moot court competition.

In order to earn credit for moot court, students must:

1. Participate as a team member (competitor) in a sanctioned external moot court appellate or trial team competition. Appellate team members are selected by a Moot Court Executive Board Committee comprised of faculty and students. Trial team members are chosen by the trial team coaches in tryouts.
2. Meet all program requirements as outlined by the program directors and coaches including, but not limited to, the writing of briefs, attending mooting practice and training seminars and otherwise adhering to the coaches’ guidelines.

**Moot Court Appellate Team Executive Board**

The Appellate Team is managed by an Executive Board. The Executive Board is chosen by a committee comprised of faculty and students.

**Journal and Moot Court Credit**

Subject to the limitations set forth above, students may earn a maximum of 12 hours of Journal and Moot Court credit while enrolled in law school. In order to receive credit, students must obtain a permission slip, have it completed by the faculty adviser and turn the completed slip in to Lorraine Schulz in the Office of Student Affairs. Journal and Moot Court credit will not be awarded if the appropriate registration is not completed.

---

**Academic and Administrative Regulations for JD and LLM Students**

**Communications and E-Mail Addresses**

All students receive a DePaul student e-mail address when they enroll. However, they may use other e-mail addresses as long as they enter those addresses on Campus Connection > Demographic Portfolio. Students must insure that their e-mail address on Campus Connection is correct at all times. If your e-mail address is not...
correct on Campus Connection, you may not receive information necessary to pursue your law studies. Failure to provide a correct e-mail address will not excuse non-compliance with rules, regulations or requirements communicated by the law school via e-mail.

To update your e-mail address, go to the University web site, www.depaul.edu > log onto Campus Connection. On the left, click on "Demographic Portfolio." Update your email addresses. Be sure to check the one you plan to use as "Preferred." All law school notices will be sent to your "Preferred" e-mail address.

Many e-mail systems enforce filter software, which might block important messages. The College of Law uses numerous e-mail addresses to inform students of registration times, exams, schedules, events and important news. In order to receive e-mail from the law school, we recommend the following:

1. Please review your junk mail filter settings and select the appropriate level.
2. Please add sr.depaul.edu, dwhite@depaul.edu, sgreenbe@depaul.edu to your address book. Also add nhatchet@depaul.edu and lschulz@depaul.edu.

Employment Limitation for Full-Time JD Students

The American Bar Association rules permit College of Law full-time students to be employed for a maximum of 20 hours per week while school is in session. If a student must work more than 20 hours per week, the student must transfer to the part-time program. If full-time first-year students feel compelled to work, they should be careful to limit their hours so as not to interfere with their studies. Students are expected to arrange their work schedule around College of Law classes. Adjustments in the curriculum or final exams will not be made because of work conflicts.

Class Attendance Rules

Attendance is mandatory for all law school classes. Each instructor may establish penalties for lack of attendance. At his or her discretion, an instructor may give the student a grade of FX, lower the final grade or require the student to withdraw from the class. In the event of a mandatory withdrawal, tuition for the class will not be refunded.

Limited Enrollment Course Attendance

If a student registers for a limited enrollment course such as a senior research seminar, a litigation skills course or a practice skills course, and does not attend the first week of the class, the instructor may prohibit the student from taking the class. A student compelled to withdraw from a class will not receive a tuition refund if the official refund deadline has passed.

Class Attendance in Proper Section

Students are required to attend the section of a course for which they are registered. A student may not attend another section of the same course, even if taught by the same instructor.

Recording of Class Sessions

Classes may be recorded only with the permission of the instructor. Students with disabilities who must tape classes as an accommodation for their disability should make arrangements with the Assistant Dean for Student Affairs and with the University Office for Students with Disabilities.

Required Courses

Students must take all required courses at the time prescribed and in the sequence designated by the College of Law. First-year students may not drop required courses or take reduced class loads absent extraordinary extenuating circumstances. In order to do so, they must obtain the consent of the Assistant Dean of Student Affairs. Required courses must be taken at DePaul and cannot be taken at another law school.

Courses With Prerequisites

Some courses have mandatory prerequisites. Prerequisites must be completed before a student may enroll in those courses. Students may not take a course and its prerequisite course simultaneously.

Registration, Course Changes, Tuition Refunds and Deadlines

Registration
Registration takes place according to a schedule promulgated in advance by the University Student Records Office. Students are afforded registration priority based upon the number of credits they have accumulated. Registration for the summer and fall semesters takes place in the spring. Registration for the spring semester takes place in the fall. Once registration begins, it remains open until the close of the add/drop period. Registration is accomplished over the internet via Campus Connection. Registration instructions are emailed to students prior to the opening of registration each semester and are on the University Student Records web site, http://sr.depaul.edu

Deadlines and Tuition Refunds

The deadline to withdraw from any course and receive a tuition refund is the end of the second week of class in the fall and spring semesters. The tuition refund deadline for the summer semester is the end of the first week of class. The deadlines are published on the academic calendar on the College of Law web site. A student may withdraw from a class up until the last scheduled class day of a semester, i.e., before the reading and final examination period begins, but tuition will not be refunded if the withdrawal takes place after the refund deadline. Simply not attending a class is not a withdrawal. If a student does not withdraw from the class on Campus Connection, the student is responsible for the tuition charges.

Official Add/ Drop and Withdrawals

A course may only be officially added or dropped through the Campus Connection web registration site. Classes may not be added after the add/drop deadline. Classes may be dropped on Campus Connection until the sixth week of the semester. Thereafter, students who wish to drop a class must contact the Office of Student Affairs. For any course dropped after the add/drop deadline, a “WA,” for withdrawal will appear on the official DePaul transcript. The grade of "WA" does not affect a student's GPA. Students may not drop a class once the reading period and exams begin.

Pass/ Fail, Non-Classroom Credit Hours: 12 Credit Limit

The faculty has designated certain courses for pass/fail status. A student may not elect to take a course pass/fail that has not been so designated.

A JD student may earn a maximum of 12 credit hours for non-classroom courses, most of which are graded pass/fail. Courses that count toward the 12 credit non-classroom limit include: the Journal of Art, Technology and Intellectual Property Law Editorial Board; the Business & Commercial Law Journal Editorial Board; Field Placement; the Health Care Law Journal Editorial Board; the Law Review Editorial Board; The Journal Of Social Justice editorial board; The Journal of Sports Law and Contemporary Problems editorial board; National and International Moot Court Competitions; Guided Research; LARC TA’s and Independent Study. With the exception of Independent Study, all of the above courses are graded pass/fail.

Registration for the Field Placement Program

The Field Placement Program is designed to give upper-level students practical legal experience through an externship with a government agency, not-for-profit legal organization, member of the judiciary, private firm, or a corporation. Students first must complete 28 or more credits with a GPA of at least 2.00 to be eligible. Students may participate in a maximum of two one-semester field placements while in law school. Students earn either two or three credits per semester.

Associate Dean Howard Rubin is the Director of the Field Placement Program. To register, a student must submit an application to the Coordinator, Natalie Taylor. She then turns in a permission slip for registration for the approved students. LL.M. students should submit their permission slips to Virginia Knittle, the Assistant to Associate Dean. The registration must be completed by the end of the first week of classes. Additional information about the Field Placement Program is available on the College of Law web site and at the Field Placement Office (Room 312 Lewis Center).

Registration for Clinical Programs

Students desiring to take a Legal Clinic must obtain a registration permission slip from the supervising clinical professor and turn it in to Lorraine Schulz in the Office of Student Affairs. For more information, see the College of Law web site: Clinical Programs.

711 Licenses

Upon completing 52 credit hours, a student may obtain an Illinois Supreme Court Rule 711 License to practice law under the terms and conditions set forth in the Rule. Licenses are available only for students who perform legal services for government agencies or not-for-profit organizations.

A student may apply for the license at the end of the semester in which he or she completes the requisite
number of hours; however, the license cannot be processed until grades for those hours have been submitted, which occurs in mid-to-late June if the student completes the hours in the spring semester. A link to the Administrative Office of the Illinois Courts, which issues 711 licenses, is on the College of Law web site. Completed applications (including the supervising adviser's signature and the required photograph) should be turned in to Natasha Hatchett in the Office of Student Affairs. The application will be forwarded to the Administrative Office of the Illinois Courts, which issues the license and mails it to the student. Processing time is 3 -6 weeks.

Registration for Independent Study

Independent study permits a student to pursue an area of interest in-depth under the supervision of a full-time faculty member. To do an independent study, a student must have completed 28 credits and have a minimum 3.00 cumulative GPA. The student must make supervisory arrangements with a faculty member with expertise in the student’s area of interest. Independent study fulfills the JD advanced writing requirement.

An extensive research paper must be completed as part of an independent study. Independent study is a graded course for which three hours of credit are awarded. A student may enroll for a maximum of two independent studies during law school.

To register for an independent study, a student must obtain written approval from the supervising faculty member and the Assistant Dean for Student Affairs. Independent study forms are available on the College of Law web site. Completed forms should be turned in to the Office of Student Affairs.

LLM students interested in independent study should contact Gini Knittle, Assistant to the Associate Dean.

Registration for Guided Research

Students who wish to perform guided research must make supervisory arrangements with a faculty member. A student must have completed a minimum of 28 credit hours with a cumulative GPA of at least 2.0. A student may enroll in guided research for either one or two hours in a semester. Guided research does not fulfill the advanced writing requirement.

To register for guided research, a student must obtain written approval from the supervising faculty member and the Assistant Dean for Student Affairs. Guided research forms are available on the College of Law web site. Completed forms should be turned in to the Office of Student Affairs.

Auditing Classes

A JD or LLM student may audit a course only if the student registers to do so with the Office of Student Affairs. Audit requests must be filed by the following deadlines:

   Fall Semester: October 1
   Spring Semester: March 1
   Summer Semester: July 1

The following courses may not be audited: seminars, litigation skills, practice skills, clinics, externships, guided research, independent study and non-classroom pass/fail courses.

An auditor does not receive a grade in or credit for the course. Students may not convert from auditing to graded status or vice versa. A student who has audited a course may not thereafter take that course for credit. A person not enrolled as a student at the Law School may audit a course only with the permission of the Associate Dean.

To register to audit a course, JD students register for the class via Campus Connection and file a request form with Lorraine Schulz in the Office of Student Affairs. LLM and non-degree-seeking students must meet with Gini Knittle, Assistant to the Associate Dean.
Visiting at and Transferring Credits from Other Law Schools

Required Courses and Requirements to Visit Another Law School

Other than a summer study abroad visit at another law school, which is discouraged, a student will be permitted to receive credit for courses taken at another law school only if the student faces an unforeseen change of circumstances of an emergency nature that makes the student’s continued presence at DePaul an exceptional hardship. Such circumstances may include but are not limited to death or extreme illness in the student’s immediate family, which necessitates a move to another city in order to alleviate severe financial, medical or other such stress. A student must document his or her claim of extraordinary hardship to the Assistant Dean for Student Affairs. NOTE: Financial concerns or the need to accompany or join a spouse, without other significant factors, will not constitute an exceptional hardship; neither will a desire to work or study in another location constitute such a hardship.

In addition to demonstrating extraordinary hardship, a student who wishes to take courses at another law school must submit to the Assistant Dean for Student Affairs an academic release form requesting that a letter of good standing be sent to the other law school, copies of the course descriptions of the courses the student proposes to take and a copy of the other law school’s grading system. The form requesting a letter of good standing may be obtained from the Law School web site, www.law.depaul.edu. A $25 fee is charged for each letter of good standing. Credit for courses taken at another school will only be awarded if the school is American Bar Association accredited and permission has been granted before the student registers for the courses.

All required courses must be taken at DePaul. Students may not visit another law school in the semester before they graduate. A DePaul student who is permitted to visit at another law school must be enrolled full-time at the other law school and may not take any DePaul courses during the visit.

If a student wishes to receive DePaul loans to cover the tuition costs at the other law school, he or she must see an adviser in the Financial Aid Office. Scholarships will be canceled if the student is not enrolled at DePaul.

Once the student completes the course work at the other law school, the student must arrange to have an official transcript with final grades sent directly from the other law school to the Assistant Dean for Student Affairs. Credit will only be given for courses in which the student received a grade of C or higher. Grades from courses at other law schools will not be computed in the student's DePaul GPA, except for determining honors when the student graduates. A student may not take a course at another law school on a pass/fail basis.

Courses taken at another university or college that are not part of a regularly accredited law school curriculum will not be applied toward a law degree.

Study Abroad Programs Other Than DePaul Programs

Enrolling in a summer abroad program offered by a school other than DePaul is strongly discouraged. A student must have a minimum GPA of 2.50 to attend a summer abroad program sponsored by another law school.

If a student wishes to attend a program sponsored by another law school, Associate Dean Greenberger must approve the request. The student must submit a cover letter to the Associate Dean requesting permission to study abroad, together with copies of the course descriptions of the courses the student proposes to take and the number of credits each course is worth. The cover letter must explain why the student’s goals cannot be attained by studying in one of the DePaul programs. Differences in curricula or locales between the programs offered by DePaul and those of other schools will not, without more, justify participation in another school’s program.

If Dean Greenberger approves the request, the student must request a letter of good standing from the Assistant Dean for Student Affairs from the College of Law web site. The student will pay a nonrefundable $25 fee for each letter of good standing.

If a student's application for summer abroad at another institution is approved, the Financial Aid Office may be contacted to arrange a consortium agreement between DePaul and the other law school. Once a consortium agreement is entered into, loan funds granted by DePaul may be used to pay tuition charges for the summer abroad program.

After a student completes the program, he or she must order an official transcript from the other American law school (not the foreign school) and have it sent directly to the Assistant Dean for Student Affairs. The Assistant Dean will forward the transcript to the University Student Records Office so that the credits will be entered on the student’s transcript.

A maximum of seven credits may be earned during a summer program sponsored by another law school. Credits will only be awarded if the program is approved by the American Bar Association. Grades earned in another law school’s summer abroad program do not count toward a student’s DePaul GPA and do not satisfy
Grading System, Awards and Academic Records

Grading Scale

Grades can be viewed online via Campus Connection. Grades are assigned in accordance with the following definitions. A plus or minus grade represents a slight variance from the indicated definition.

Once a grade is assigned, university policy prohibits faculty from changing the grade unless the professor made a clerical error when calculating it. Removal of an incomplete grade in accordance with University policy is an exception to the grade change policy. Faculty may not assign or accept additional graded material in order to improve a student's final grade. They may not conduct a substantive reevaluation of the student's exam or coursework.

The College of Law awards the following grades:

A: The instructor judged the student to have accomplished the stated objectives of the course in an EXCELLENT manner.
B: The instructor judged the student to have accomplished the stated objectives of the course in a VERY GOOD manner.
C: The instructor judged the student to have accomplished the stated objectives of the course in a SATISFACTORY manner.
D: The instructor judged the student to have accomplished the stated objectives of the course in a POOR manner.
F: The instructor judged the student NOT to have accomplished the stated objectives of the course.
FX: Student stopped academic activity, was absent excessively, or failed to withdraw while registered. The FX will be factored into a student's GPA in the same way an F would be.
AU: Audit status; course does not earn credit.
M: Final grade not submitted by instructor.
PA: Passing achievement in a pass/fail course. (Grades A through D represent passing performance).
IN: Incomplete. Temporary grade indicating that, following a request by the student, the Assistant Dean for Student Affairs and the instructor have given permission for the student to receive an incomplete grade. In order to qualify, the student must have (a) a satisfactory record in the work already completed for the course and (b) encountered unusual or unforeseen circumstances, which prevent him or her from completing the course requirements before the end of the term.
W: Withdrawal from the course instituted by the student after the last day to drop with a refund and before the final withdrawal deadline.
WA: Withdrawal from the course initiated by an administrator at the student's request, usually outside of established deadlines. Administrative withdrawals may be granted under extraordinary circumstances and require documentation for support.

Grade Point Values

A: 4 times the number of credit hours assigned to the course
A-: 3.7 times the number of credit hours assigned to the course
B+: 3.3 times the number of credit hours assigned to the course
Grade Curve

Grade Curve for First-Year and Upper-Level Classes with 50 or More Students

The College of Law faculty adopted the following mandatory grade curve that applies to all first-year courses and upper-level classes with 50 or more students:

- **A** 12%-17%
- **A- and/or B+** 20%-30%
- **B** 20%-30%
- **B- and/or C+** 20%-30%
- **C or below** 10%-15%

In addition, the mean or average for all DePaul students in any course subject to this grade curve must be between 2.95 and 3.15. All LARC sections taught by the same instructor during the semester are aggregated into one course for purposes of this curve.

Upper-Level Grade Curve: Classes with 21 - 49 Students

The mean or average for all DePaul students in any upper-level course with an enrollment between 21 and 49 students, including LARC III, must be between 2.95 and 3.15.

Upper-Level Classes with 20 or Fewer Students

No mandatory curve applies to courses with enrollments of 20 or fewer students. However, any instructor submitting grades for DePaul students more than half of which are grades of A shall provide the Associate Dean with a brief explanation of the methodology that lead to this result.

Computation of GPA

GPAs are computed by dividing the total number of grade points earned by the total number of graded credit hours. Graded credit hours do not include courses graded WA, W, P, IN, M, R or AU, but do include courses graded F or FX.

Grade of W or WA (Withdraw)

If a student withdraws from a course before the tuition refund deadline announced in the academic calendar, no record of the withdrawal will appear on his or her transcript. However, if a student drops a class after the tuition refund deadline, the grade of W will appear on the transcript. A withdrawal has no effect on a student's GPA. If the student requests to be withdrawn after the online deadline passes, the student will receive a grade of WA (administrative withdrawal).

Grade of FX

The College of Law requires regular and punctual class attendance and proper class preparation. Irregular class attendance or inadequate preparation may result in a student being involuntarily withdrawn from the class. Students who are involuntarily withdrawn receive a grade of FX. Students who register for a class, do not complete the coursework or exam, and do not drop the class prior to the last regularly scheduled day of class also receive a grade of FX.
Grade of IN (Incomplete)

The grade of Incomplete (IN) is assigned when a student has been excused from taking the final examination on good cause shown or, with permission, has failed to complete all of the required coursework. To receive an incomplete, a student must receive written permission from the professor and the Assistant Dean for Student Affairs. All course work must be completed by the end of the following semester or the student will receive a permanent failing grade (F).

Pass/ Fail

Pass/Fail rules are described in Non-Classroom Credit Hours: 12-Credit Limit. Only designated courses may be taken pass/fail. Students may NOT elect to take graded courses pass/fail.

Repeat Policy

A student who receives a grade of F or FX may not retake a course to try to improve a grade. However, all JD students must pass Legal Profession in order to obtain their degree. Courses may not be repeated in order to obtain a higher grade.

Anonymous Grading

For most courses, the Law School uses an anonymous grading system. Students receive an anonymous number each semester. **Students Must Insure That Their E-Mail Addresses On Campus Connection Are Correct Or They Will Not Receive An Anonymous Exam Number.**

Disclosure of Grades

Once the University processes final course grades, students may obtain their final grades on Campus Connection. Grades will not be disclosed over the telephone or by email. Students must give written consent for grades to be disclosed to third parties.

Official and unofficial transcripts with grades and grade point averages are available on the University Campus Connection web site or from the University Student Records Office. For further information, go to Campus Connection or to http://sr.depaul.edu.

Grades also appear on Degree Progress Reports, available on the Campus Connection web site. A degree progress report charts the student's progress toward his or her degree.

Determination of Grades

Grades are determined solely on the basis of the academic performance of each student according to criteria established by the course instructor. During the first week of class, the instructor will advise the students of the factors that will be considered in determining the final grade (e.g., examinations, papers, class participation, attendance, etc.). The evaluation of academic performance is subject to the professional judgment and discretion of the instructor.

Once final grades are submitted to the Office of Student Affairs, they may be changed only in the event of a clerical or computational error. Grades cannot be changed because of a reassessment of an examination or course work or the submission of extra work.

Grade Challenges

For the complete grade challenge rules, go to http://www.depaul.edu > Graduate Student Handbook > Graduate Academic Policies. Students should understand that grade challenges are very rarely granted. Academic records will be locked upon degree conferral. Under no circumstances will changes be made to the academic record after degree conferral.

Deadlines to file a grade challenge:

- Fall semester grade: March 1 of the following spring semester
- Summer/spring semester grade: October 1 of the following fall semester

A student may appeal a grade only in unusual circumstances and only if a student establishes the following:
1. The methods or criteria for evaluating academic performance (provided in writing in the syllabus at the beginning of the course) were not actually applied in determining the grade; or
2. The grade was determined or influenced by criteria other than those explained by the instructor or by criteria not relevant to academic performance; or
3. The instructor applied predetermined criteria unfairly including, but not be limited to:
   1. The instructor's evaluation of academic performance so exceeded the reasonable limits of the instructor's discretion as not to be acceptable to the instructor's peers;
   2. Predetermined criteria were not explained at the beginning of the semester;
   3. The instructor unreasonably ignored the General Policies on Grading as described in the DePaul University Student Handbook or the guidelines for dealing with plagiarism as stated in the current Faculty Handbook.

Before filing a grade challenge, a student must first meet with the professor to discuss the grade. To initiate a challenge, the student must file five copies of a cover letter, petition and any supporting documents with the Assistant Dean for Student Affairs.

Academic records are locked upon degree conferral. Under no circumstances will changes be made to the academic record after a degree is conferred. Dismissed students may not file a grade challenge.

**Class Ranks**

JD students who have completed at least one semester at the College of Law are ranked by cumulative GPA. LLM students are not ranked. Students who transfer to DePaul are ranked once they receive DePaul grades. Transfer credits are not used to determine class ranks but are used to determine honors at graduation. Class ranks are posted in February and July on the College of Law web site.

Ranks are listed by percentile, in five percent increments, through the 50th percentile. The lower half of the class is ranked by quartile. Full-time and part-time students are ranked separately. Once released, class ranks are not affected by any subsequent grade changes or withdrawals. Numeric class ranks are not available.

In communicating with prospective employers or otherwise, a student must report his or her class rank precisely as listed on the Law School web site. Students may not round off their grade point averages to achieve a higher rank.

To verify a class rank, a student should order an unofficial transcript or official transcript from from Campus Connection, www.depaul.edu, or from the University Student Records Office, http://sr.depaul.edu. Students then should compare their cumulative GPA to the percentage class ranks on the Law School web site, law.depaul.edu. If an employer requests verification of class rank, the student should give the employer the unofficial or official transcript and a copy of the ranks from the Law School web site or refer the employer to the web site.

**Dean's List**

Students who rank in the upper 25 percent of their class based on one semester's grades qualify for the Dean's List. Dean's List notes appear on unofficial and official transcripts, available on Campus Connection.

To qualify for the Dean's List, a full-time student must be registered for at least twelve graded credits. A part-time student must be registered for at least nine graded credits. Once released, the Dean's List is not affected by any subsequent grade changes or withdrawals.

**JD Classifications for Class Ranks and the Dean's List**

For purposes of determining class ranks and the Dean's list, JD students are classified by the number of credit hours they have earned, including courses graded pass/fail:

**Full-Time**
- First-Year = 28 or fewer earned credit hours
- Second-Year = 29 to 59 earned credit hours
- Third-Year = 60 or more earned credit hours

**Part-Time**
- First-Year = 21 or fewer earned credit hours
- Second-Year = 22 to 43 earned credit hours
- Third-Year = 44 to 67 earned credit hours
- Fourth-Year = 68 or more earned credit hours

**CALI Excellence for the Future Award**

An outside company, Computer Assisted Legal Instruction (CALI), provides an award to the student who
receives the highest grade in each course. The award winners receive a certificate from CALI. CALI recipients may confirm their awards on http://www2.cali.org.

Official Transcripts

Students may request an official transcript of their Law School record by submitting a Transcript Request Form to the University Student Records Office, http://sr.depaul.edu or through Campus Connection > For Students > Records & Registration. Students cannot order transcripts for pickup at the Student Records Office. Student Records is the ONLY office that can issue transcripts. The College of Law cannot issue transcripts.

Students may choose electronic or mail delivery of transcripts. Transcripts may be sent either to the student or to a third party. Students may order up to 10 free transcripts per year. Express delivery is available for an extra fee.

Electronic Delivery: The official transcript can be sent to a third party recipient if the student specifies an email address. It is certified as official and is in PDF. If printed, it becomes unofficial.

Mail delivery: The official transcript becomes unofficial if the students makes a photocopy of the original.

Unofficial Transcripts: Unlimited copies may be made. No fee is charged. Most employers will accept an unofficial transcript in the initial stages of interviewing. Before making an offer, an employer may request an official transcript.

Examinations

General Information about Examinations

The method of evaluation of student performance in a course lies solely within the discretion of the instructor. In many courses, a student's grade is based primarily on one written examination given at the conclusion of the course. Some instructors also give a midterm examination or assign papers.

Fall examinations are in December of each year.
Spring examinations are in May of each year.
Summer examinations are in July of each year.

Anonymous Examination Numbers

Each student is randomly assigned an anonymous exam number each semester, and most exams are grade anonymously. Generally, upper-level seminars and skills courses are not anonymously graded.

The Assistant Dean for Student Affairs sends students their anonymous exam numbers by email each semester. STUDENTS MUST INSURE THAT THEIR E-MAIL ADDRESS IS CORRECT ON CAMPUS CONNECTION, OR THEY WILL NOT RECEIVE AN ANONYMOUS EXAM NUMBER.

A student must identify herself or himself only by assigned anonymous examination number. A student must not identify himself or herself by name, student identification number or any other designation or symbol anywhere on the examination questions or answers. A student should not disclose the examination number to the instructor, either directly or indirectly, until the instructor has submitted the final grades for the course. Failure to comply with these provisions may be a violation of the Honor Code.

Exam Schedule and Conflicts

The final examination schedule is published with the class schedule prior to registration each semester. Students should select their courses to avoid exam conflicts.

All students must take their examinations at the scheduled time. If two sections of a course are offered, students must take the exam at the time scheduled for the section in which they are enrolled.

Final exams will be rescheduled only in extraordinary circumstances. Exams will not be rescheduled because of
Wild Card Examinations

Under certain limited circumstances, students may shift one examination to a different day. This policy is known as the “Wild Card” option.

Eligibility

If a student has two in-class exams scheduled on the same day or on two consecutive days, the student may designate one of the exams as a wild card exam. The student must take the rescheduled exam within two weekdays of the original exam date. Options for wild card dates are listed on the law school web site. Wild card exams are scheduled from 10:00 a.m. to 1:00 p.m. on days that do not have first-year exams.

Students may only request one wild card exam per semester. Students must register for a wild card no later than the sixth week of classes. First-year students are not permitted to use wild cards. Wild cards are not available in the summer.

The wild card option does not apply to take-home exams unless the take-home exam is both distributed and due on the same date as an in-class exam. Wild card exams may not be typed.

Deadline to file for wild card:
Fall Semester: October 1
Spring Semester: March 1
Summer Semester and First-Year Exams: Wild cards are not available.

Missing an Examination

Students are expected to take examinations when scheduled, even though ill or inconvenienced. However, in the event of serious illness or for other extraordinary or compelling cause beyond a student’s control, the Assistant Dean for Student Affairs or the dean on duty may excuse a student from taking the exam at its scheduled time. Students will not be excused from an examination for job-related reasons, weddings, travel, graduations, vacations or for other personal reasons. Students are expected to adjust their outside commitments to conform to the law school examination schedule.

A student who must miss an exam must notify the Assistant Dean for Student Affairs at the earliest possible time. If prior notice is not possible, the student must contact the Assistant Dean as soon as the inability to take the exam becomes manifest. If a student does not notify the Assistant Dean at the first available opportunity, the student will receive a failing grade. To protect the anonymity of grading, students should never contact their professor if they need to reschedule an examination.

A student who is more than ten minutes late for an exam will not be permitted to take it unless authorized by the Assistant Dean for Student Affairs. A student who is less than ten minutes late may take the exam but will not be allotted additional time and may not type his or her exam.

Make-up Examinations

When a student is excused from an exam, the student must take the exam on the next scheduled exam day.

Student Conduct During Examinations

Student conduct during examinations is subject to the DePaul University College of Law Honor Code, which is set forth in §XIII of this Handbook. Cell phones, palm pilots, I-Pods, and pagers are not permitted in the exam room.

Examination Typing Option Using ExamSoft’s SofTest

The College of Law offers students the opportunity to take examinations on their own laptops using ExamSoft’s SofTest program. SofTest can be used on virtually any modern computer (i.e. purchased within the last 3-4 years).

Professors must opt-in for students to use SofTest. A list of courses available for SofTest is published on the law school SofTest web site each semester. Instructions are on http://examsoft.com/depaullaw.

Specific system requirements are noted below:
**PC Requirements**

- CPU = 1 GHz Pentium III or Industry Equivalent
- RAM = 1 GB
- Drives = 50 MB of free space
- Operating System = English 32-bit Versions of Windows XP, 32-bit and 64 bit Versions of Windows Vista or Windows 7. SofTest may not be used in virtual operating systems.
- Software = Internet Browser
- Internet Access for SofTest Installation, Exam Download and Upload
- Screen resolution must be 1024x768 or higher.

It is not possible to take secure exams through a virtual operating system such as Microsoft’s Virtual Machine, Parallels or VMware, VMware Fusion or any other virtual operating system environment. Although SofTest can be installed and registered on virtual platforms, it will only be enabled for non-secure Practice Exams.

**Mac Requirements**

- CPU = Intel processor
- RAM = 512 MB
- Drives = 50 MB or higher of free space
- Operating System = MAC OS X 10.5.08 or higher (Leopard or Snow Leopard)
- Software = Internet connection for downloading/uploading exams

**Exam Administration**

During all examinations, books, notes, cell phones, palm pilots, i-Pods, outlines, backpacks, briefcases, and other materials must be placed in the back of the room. For SofTest exams, the proctor will announce the start time and write the exam password on the board. SofTest will automatically shut down after the allotted time. For bluebook and scantron exams, the test proctor will advise the students of the time at which the exam will end and will write the ending time on the blackboard. When time has expired, the proctor will announce that the exam is over. Students must stop writing immediately and turn in their examinations. Failure to stop writing immediately is a violation of the Honor Code. Students are not permitted to leave their seats for any reason during the last half hour of an exam.

**Examination Accommodations**

Students who need to request accommodations on the basis of a disability should review Section IX of this Handbook.

Exam accommodations are not offered based upon a lack of proficiency in English.

---

**Students with Disabilities**

**General Information**

A student with a disability who needs to request accommodation should contact the College of Law Assistant Dean for Student Affairs as soon as the student enrolls in the autumn semester. Documentation of the disability is required as set forth below. Students who require exam accommodations must submit a written request to the Assistant Dean at least one month prior to the examination. The Assistant Dean will work as a liaison between the student and professors to provide accommodations.

**The Center for Students with Disabilities**

Services for students with disabilities are provided by the University Center for Students with Disabilities. To benefit from services, law students must register with this office before the beginning of each semester. Students must have been tested by a recognize specialist within the last three years prior to starting law school. The DePaul office also provides testing at a cost. If a student is approved and the disability is verified, the Center can
Verification of Physical Disability

A student with a non-obvious physical disability must provide professional verification of the disability by a licensed physician, psychologist, audiologist, speech pathologist, rehabilitation counselor, physical therapist, occupational therapist or other professional health care provider who is qualified in the diagnosis of the disability. The verification must reflect the student’s present level of functioning with respect to the major life activity affected by the disability. The cost of obtaining the professional verification is the responsibility of the student.

If the initial verification is incomplete or inadequate to determine the present extent of the disability and appropriate accommodations, the College of Law may require supplemental assessment. The cost of the supplemental assessment shall be borne by the student.

Verification of Learning Disability

A student with a learning disability must provide professional testing and evaluation results prepared within the last three years which reflect his or her present level of processing information and present achievement level. The cost of obtaining the professional verification is the responsibility of the student. Students are advised that, when they apply for admission to the Bar, their tests for accommodations must be performed within three years prior to the time they apply to the Bar.

The four criteria necessary to establish a student’s eligibility for learning disability adjustments or accommodations are:

1. Average or above-average intelligence as measured by a standardized intelligence test which includes assessment of verbal and non-verbal abilities;
2. The presence of a cognitive-achievement discrepancy or an intra-cognitive discrepancy indicated by a score on a standardized test of achievement, which is 1.5 standard deviations or more below the level corresponding to a student’s sub-scale or full-scale IQ;
3. The presence of disorders in cognitive or sensory processing, such as those related to memory, language or attention; and
4. An absence of other primary causal factors leading to achievement below expectations such as visual or auditory disabilities, emotional or behavioral disorders, a lack of opportunity to learn due to cultural or socio-economic circumstances or deficiencies in intellectual ability.

Documentation to verify the learning disability must:

1. Be prepared within the last three years by a professional qualified to diagnose a learning disability including, but not limited to, a licensed physician, learning disability specialist or psychologist;
2. Include the testing procedures followed, the instruments used to assess the disability, the test results and a written interpretation of the test results by the professional;
3. Reflect the individual’s present level of functioning in the achievement areas of reading comprehension, reading rate, written expression, writing mechanisms and vocabulary, writing, grammar and spelling; and
4. Reflect the individual’s present level of functioning in the areas of intelligence and processing skills.

The assessment must provide data that support the request for an academic adjustment. In the event that a student requests an academic adjustment or accommodation that is not supported by the data in the assessment, or if the initial verification is incomplete or inadequate to determine the extent of the disability, then it is incumbent upon the student to obtain supplemental testing or assessment at the student’s expense.

Verification of a Temporary Disability

A student who seeks accommodation on the basis of a temporary disability must provide documentation to the Assistant Dean for Student Affairs to verify the nature of the condition, stating its expected duration and describing the accommodations deemed necessary. Such verification must be provided by a professional health care provider who is qualified in the diagnosis of such conditions. The assessment or verification of disability must reflect the student’s current level of disability and shall be no older than 60 days. The cost of obtaining the professional verification shall be borne by the student.

If the initial verification is incomplete or inadequate to determine the extent of the disability and appropriate accommodations, the College of Law shall have the discretion to require a supplemental assessment. The cost of the supplemental assessment shall be borne by the student.
Withdrawal from and Re-entry to the Law School

Withdrawal or Transfer From the Law School While in Good Standing
To withdraw or transfer from the Law School in good standing (either during or between semesters), a student first must file a withdrawal request online on the University Campus Connection web site. In addition, the student must submit a letter or email to the Assistant Dean for Student Affairs to request a withdrawal. If the student seeks to withdraw during a semester, the student must see Lorraine Schulz in the Office of Student Affairs to drop all courses for which he or she is registered.

In the event that a student withdraws from the Law School before the end of his or her first semester, the student will be deemed a new applicant in the event that he or she wishes to return and will be required to comply with all the steps and procedures required of all new applicants to the Law School.

Withdrawal From the Law School While Not in Good Standing
A student may withdraw while not in good standing if the student submits a withdrawal request online to the University Campus Connection web site. However, if the student withdraws from classes while not in good standing, the student will be dismissed for academic deficiencies at the end of the academic year. If the student thereafter desires to return to the Law School, he or she must follow the readmission procedures.

Leaves of Absence and Reentry
A student must complete at least one semester in good standing in order to be eligible for a leave of absence. A leave of absence may last a maximum of two academic semesters. (A summer session is not considered an academic semester for this purpose.) To obtain a leave of absence, a student first must file a leave of absence request on the University Campus Connection web site. The student also must notify the Assistant Dean in writing when he or she intends to return.

If a student has been absent for more than two semesters, the student may re-enter only with the approval of the Admissions Committee and must comply with all the steps and procedures required of all new applicants to the Law School.

GPA Requirements, Academic Dismissal and Readmission after Academic Dismissal

Definition of In Good Standing
To be considered in good standing, a JD student must have a cumulative GPA of 2.0 at the end of each academic year at the end of the spring semester; an LLM student must have a cumulative GPA of 2.5 over three semesters.

Effect of Summer Session Grades on First Academic Year
Grades received in the summer session are not included in a student’s GPA for the prior academic year.

Dismissal From the Law School
College of Law students who are not in good standing are dismissed effective at the end of the academic year. However, formal dismissal letters typically are not issued until final grades are processed in June.

Students whose grade point averages are 2.2 or below after the fall semester are advised to meet with the Assistant Dean of Student Affairs to discuss their performance. They also may not register for the following summer session.
Readmission

Academic dismissals from the College of Law are typically final. However, under limited circumstances, students may seek readmission to the College of Law by filing a petition with the Readmissions Committee. The Readmissions Committee consists of five faculty members appointed by the Dean. All decisions by the Committee are final and are not subject to appeal.

Students seeking to be readmitted must submit a petition describing how they satisfy the readmissions criteria described below. Seven copies of the petition and supporting documentation must be submitted to the Office of the Assistant Dean for Student Affairs. Students should include all documentation they feel may be of assistance to the Committee.

A student dismissed at the end of the first year may not resume classes until passage of at least one calendar year after a dismissal. Students dismissed at the end of their first academic year cannot file a petition until January 15 of the year following their dismissal. Students dismissed at the end of the first academic year must file the readmission petition by March 1 of the year following their dismissal.

JD students dismissed after the second, third or fourth year may apply for readmission after they receive a dismissal letter.

Readmission Criteria

The Readmissions Committee applies the following criteria in passing on a petition for readmission:

1. The applicant's academic failure must have been caused by unforeseeable and uncontrollable circumstances with which the applicant could not reasonably cope. The applicant has the obligation to submit independent documentation verifying such circumstances.
2. Unless unreasonable to do so under the circumstances, the applicant must have promptly brought such unforeseeable circumstances to the attention of the appropriate College of Law officials.
3. In the Committee's judgment, the applicant can successfully perform in the College of Law if readmitted.
4. Except in extraordinary circumstances, all of the first three requirements must be satisfied. The conditions upon which readmission is predicated are individually determined.

Interviews with the Readmissions Committee

A first-time applicant for readmission may request a personal interview with the Readmissions Committee. Second-time applicants are not given an interview.

Readmissions Committee Meetings

The Readmissions Committee meets twice during the academic year. For students dismissed after their second, third or fourth year, the Committee will meet shortly before the beginning of the fall semester. For students dismissed after their first year, the Committee will meet towards the end of the spring semester of the year following dismissal to consider petitions for the following fall semester.

Limits on the Number of Readmissions Petitions

A student may not apply for readmission more than twice, irrespective of the Committee's decision. A student must apply for readmission within two years of the dismissal date.

Students Enrolled In Summer Session Before Notice of Dismissal

A student who is dismissed at the end of the first year and who is enrolled in a summer course will be withdrawn from the summer course. Tuition will not be refunded.

An upper-level student who is dismissed while enrolled in a summer course may either withdraw from the course (without a refund) or may finish the summer class. Should the student elect to remain in the class, credit will not be given unless the student's petition for readmission is granted.

American Bar Association Standard 505 and Readmissions

The American Bar Association Standard 505 applies to all ABA-accredited law schools, including DePaul University College of Law. The standard states:

A law school may admit or readmit a student who has been disqualified previously for academic reasons upon an affirmative showing that the student possesses the requisite ability and that the prior disqualification does not indicate a lack of capacity to complete the course of study at the admitting school. In the case of an admission to another law school, this showing shall normally be made by letters from the disqualifying school or, if two or more years have elapsed since that disqualification, by the nature of interim work, activity, or studies indicating a
stronger potential for law study. For every admission or readmission of a previously disqualified individual, a statement of the considerations that led to the decision shall be placed in the admittee's file.

Honor Code

Presumption of Knowledge of the Code

All students are conclusively presumed to know the provisions of the Honor Code. Lack of familiarity with the Code shall not constitute a defense to an alleged violation.

Standard of Responsibility

A student is responsible for an act or omission deemed to be a violation of this Code if the student knew or should have known that there was a high probability that the act or omission would be found to be a violation of this Code.

Unprofessional Conduct

A student violates this Code if the student engages in any conduct related to the student's academic career that is inconsistent with the standards of honesty expected of a member of the legal profession, as defined by the American Bar Association's Model Rules of Professional Conduct. Such conduct includes, but is not limited, to the following:

Application for Admission

It shall be a violation of the Code for any student to fail to disclose, or to make a false statement of, a material fact on his or her law school application. A fact is material if it would reasonably have been considered as a factor in the decision whether to admit the student. It shall also be a violation of the Code for a student to fail to update and amend his or her law school application to disclose material facts that arise from the date he or she applies to the College of Law through matriculation and graduation. The obligation of truthfulness and accuracy is a continuing obligation and extends beyond the filing of any application.

Examinations

With respect to examinations, students shall be presumed to know all applicable exam rules and it shall be a violation of this Code to do or attempt to do any of the following:

1. Obtain or receive unauthorized information concerning the content of an examination prior to the examination;
2. Seek or voluntarily receive unauthorized aid in any manner from any source with respect to any examination;
3. Bring into an examination room any unauthorized materials;
4. Give to another student solicited or unsolicited unauthorized aid on an examination;
5. Fail to comply strictly with designated time limits of an examination;
6. Use a false excuse to avoid taking an examination at its scheduled time;
7. Identify himself or herself on a exam that is graded anonymously; or
8. Engage any person to take an examination in the place of oneself or to take an examination for another.

Required Course Work, Assignments, and Other Academic Exercises

With respect to any work done in conjunction with and/or required by any course for academic credit, including Independent Study, Guided Research, Legal Writing, seminars, or any other academic exercise, the student shall be presumed to know all applicable rules governing an assignment and it shall be a violation of this Code to do any of the following:

1. Engage in any act prohibited by the instructions governing an assignment;
2. Submit as one's own, and without appropriate citation, writings or ideas of another, including those
prepared by another student;
3. Submit for credit work not originally prepared for the course for which it is submitted, without explicit permission of the instructor of the course obtained after the instructor has been advised of the origins of the work.

"Academic exercise" refers to any work constituting a basis upon which a student will be evaluated to earn credit or other Law School honors including, but not limited to, examinations, research papers (including topic proposals, outlines, and drafts), other writing assignments, oral presentations, work done for credit in clinical programs or on law journals and work performed in any moot court or other competition sponsored or conducted by the College of Law.

**Plagiarism**

The University Code of Student Responsibility defines plagiarism as a major form of academic dishonesty involving the presentation of the work of another as one's own. Plagiarism includes, but is not limited to, the following:

1. The direct copying of any material, computer files, recordings, video programs or musical scores, in whole or in part, whether published or unpublished, without proper acknowledgement that it is someone else's;
2. Copying of any source in whole or part with only minor changes in wording or syntax, even with acknowledgement;
3. Submitting as one's own work a report, examination paper, computer file, lab report or other assignment that has been prepared by someone else. This includes research papers purchased or acquired from another person or entity;
4. The paraphrasing of another's work or ideas without proper acknowledgement.

Plagiarism, like other forms of academic dishonesty, is always a serious matter. If an instructor finds that a student has plagiarized, the appropriate penalty is at the instructor's discretion. Actions taken by the instructor do not preclude the College of Law from taking further punitive action under the Honor Code.

**Theft and Unauthorized Use of Property**

It shall be a violation of this Code to do any of the following:

1. Damage, hide or otherwise exert unauthorized control over any library property or class-related materials including, but not limited to, all DePaul University library materials;
2. Damage, hide or otherwise exert unauthorized control over property belonging to another student, a faculty member or a student organization; or
3. Use for unauthorized purposes University equipment or services including, but not limited to, photocopying machines, mailroom facilities and computer research or word processing equipment.

**Conduct Relating to Career Services**

With respect to students seeking employment, whether permanent, part-time or as an extern, it shall be a violation of this Code to do any of the following:

1. Furnish to any person information known to be false which is related to the student's academic record or which concerns activities related to the Law School; or
2. Misrepresent another student's academic record or otherwise make comment known to be false about another interviewee to any prospective employer.

**Obstruction of Honor Code Proceedings**

With respect to any proceeding before the Academic Integrity Hearing Board, it shall be a violation of this Code to do any of the following:

1. Testify falsely;
2. Fail without just cause to appear at any hearing pursuant to a request issued by the Board;
3. Give false information to the presenter; or
4. Harass any person who provides information or testimony pertaining to a violation of this Code or who participates in the enforcement of this Code.

**Failure to Report Violations**

It shall be a violation of this Code for a student to fail to report any suspected violation of this Code where such student has reasonable grounds to believe that such a violation has occurred.

**Procedures for Dealing with Allegations of Honor Code Violations**
The procedures of the Honor Code shall be the sole means for dealing with allegations of violations as described in the Honor Code of DePaul University College of Law.

If a student is the subject of a pending Honor Code proceeding, that student shall not be granted a degree. Every reasonable attempt shall be made to expedite proceedings in the case of a student who has applied to graduate.

**Procedures for Obtaining Information**

**Non-Examination Violations**

Persons, other than examination proctors, who have information about a possible Honor Code violation of any kind by a law student shall, as soon as possible, notify the Office of the Dean and the Assistant Dean for Student Affairs in writing of the facts and circumstances. If the person possesses any materials that may become exhibits, the person should give those materials to the Dean and the Office of the Assistant Dean.

**Examination Violations**

1. **Procedures During Examinations**
   
   If an examination proctor witnesses conduct which the proctor believes to be a violation of the exam rules, the proctor shall immediately verbally notify a dean, exam coordinator, the professor of that class or the professor’s delegate. Once the proctor provides verbal notice of an alleged violation, the dean, professor or professor’s delegate may confiscate any improper materials and advise the student to discontinue talking or otherwise continue violating exam rules. Confiscated materials shall be transferred to the Office of the Assistant Dean for Student Affairs. Students who allegedly violate exam rules shall be permitted to finish the exam during the allocated time.

2. **Procedures After the Examination**
   
   As soon as possible after the proctor gives verbal notice to a dean, exam coordinator, professor or professor’s delegate, the proctor shall, in a signed report, describe the alleged violation. The report should include a physical description of the student or students alleged to be involved in the violation and of the acts that constitute the violation. If possible, the student’s anonymous number shall be given as soon as possible after the exam to one of the deans of the Law School. When a professor, the professor’s delegate or a dean is informed of the alleged violation, that person shall notify the Office of the Assistant Dean for Student Affairs forthwith in writing.

**Panel of Presenters**

**Term of Office**

For each academic year, the Dean of the Law School shall appoint, with the ratification by the faculty, a panel of three Presenters chosen from the full-time faculty.

**Appointments**

When the Dean receives notice of an alleged violation, the Dean shall appoint one member of the Panel of Presenters to investigate the alleged violation and, if necessary, present the matter to the Academic Integrity Hearing Board at the close of the presenter’s investigation. If the Dean determines that no one on the Panel is available to complete the investigation within a reasonable period of time, the Dean may appoint a substitute Presenter from the full-time faculty.

**Frivolous Matters**

If, after receiving the matter, the Presenter believes that the alleged violation is frivolous on its face, then the Presenter, with the agreement of one of the other Presenters, shall dismiss the matter. After a matter is dismissed as frivolous, all documents relating to the alleged violation shall be destroyed and no reference to the alleged violation shall be maintained in the student's file.

**Notice to Student Before Investigation**

If the Presenter determines that the alleged violation is not frivolous on its face, the Presenter shall send notice by certified mail to the student against whom a violation has been alleged. The notice shall be sent to the address last indicated in the student's file. Notification shall consist of a brief statement of the events and acts alleged to constitute a violation, but shall not include the identity of the student's accuser.

**Investigation**

After notice is given to the student, the Presenter may proceed with an investigation and may contact any person
who may have information about the alleged violation. The Presenter may individually interview persons whom the Presenter believes have information relevant to the matter. The Presenter shall preserve the confidentiality of all information given by persons who provide it. The Presenter ordinarily shall complete the investigation within 30 days.

**Student Representatives**

At any point after the student receives notice, the student shall have the right to be represented by any person the student chooses, at the student's expense. Students are encouraged to choose counsel who are not members of the College of Law faculty, but may select the representative of their choice.

**Written Statement and Interview**

During the investigation and after notice to the student, the student has the option of providing a written statement of his or her version of the alleged incident. The Presenter has the option to interview the student if the Presenter determines that an interview would aid the proceeding.

**Dismissal**

If, after investigation and with the approval of one of the other Presenters, the Presenter decides not to proceed, either because the charges are deemed unwarranted or because there is insufficient evidence to substantiate the alleged violation, then the Presenter may dismiss the charge. The Presenter shall notify the student of the dismissal by certified mail.

**Negotiated Findings and Penalties**

If the student admits the violation, the Presenter may recommend a negotiated finding and penalty in writing and by oral presentation to the Academic Integrity Hearing Board. The student and the student’s representative may appear before the Board at that time. The Board shall either ratify or reject the finding and penalty in writing. The Presenter shall notify the student of the Board’s decision by certified mail. The Presenter shall submit a written report to the Dean that summarizes the charge, the negotiated finding of a violation, the negotiated penalty and the Hearing Board’s written decision. The record shall become a permanent part of the student’s file and shall appear on the official transcript as an “academic integrity violation.”

**Request for a Hearing**

If the case is not dismissed, nor a finding and penalty negotiated and ratified by the Board then, upon the Presenter’s written request, the Academic Integrity Hearing Board, within a reasonable time, shall hold a hearing to consider the alleged violation. In the absence of extenuating circumstances, this period shall not exceed 60 days from the date of the Presenter's request.

**Academic Integrity Hearing Board**

**Appointments**

The Academic Integrity Hearing Board shall consist of two faculty members, chosen by the Dean from the full-time faculty and subsequently ratified by the faculty, and three students appointed by the governing board of the Student Bar Association. Members of the Panel of Presenters for a given year shall not be eligible to serve on the Hearing Board.

**Term of Office**

If possible, faculty members shall serve for at least a two-year period so that one faculty member of the Board will have served in the previous school year.

**Quorum**

The Hearing Board shall not proceed unless all five members are present. If it appears that the Board will not be able to meet within a reasonable time, the Dean shall appoint substitute members. If it is necessary to appoint a substitute student member, the Dean shall do so after consultation with one or more officers of the Student Bar Association, unless such consultation would unreasonably delay the proceedings.

**Hearing Procedures**

The hearing shall proceed as follows:

1. **Chairperson.** The Hearing Board shall elect a chairperson who shall preside over the hearing and who shall rule on the relevance of information presented.
2. Notice of Witnesses and Exhibits. Within a reasonable time prior to the hearing, but not later than five days before the hearing is scheduled to begin, the Presenter shall submit to the student alleged to have committed a violation, or the student’s representative, a list of the names of witnesses who will testify at the hearing and copies of any exhibits to be introduced at the hearing. However, if the Presenter receives any additional information thereafter, the information may be used at the hearing after reasonable notice to the student or the student’s representative.

3. Relevance Requirement. Except for the relevance requirement, the rules of evidence, including, but not limited to, the hearsay rule, need not be applied. Information relevant to prove or disprove the alleged violation and to mitigate a sanction shall be admissible.

4. Standard of Proof. The standard of proof shall be clear and convincing evidence.

5. Oath. An oath shall be administered to all persons who testify at the hearing.

6. Closed Hearings. The hearing shall be closed, and no information regarding the hearing shall be released until final resolution.

7. Student Testimony. The Presenter may call the student to testify and, if the student refuses, the Hearing Board may infer from the student’s failure to testify that the student committed the alleged violation.

8. Opening and Closing Statements. The student alleged to have committed a violation, or the student’s representative, and the Presenter shall be permitted to make brief opening and closing statements.

9. Witnesses. The student alleged to have committed a violation, or the student’s representative, and the Presenter shall be permitted to call witnesses and to cross-examine adverse witnesses.

10. Taped Proceedings. A tape recording of the proceedings before the Board shall be made. The student shall be entitled to a copy of the tape at the student’s expense. The student, at his or her request and expense, may employ a stenographer to make a transcript of the proceedings. The College of Law shall be entitled to a copy of any such transcript upon timely request and shall tender an amount equal to the cost of making the copy.

11. Finding of a Violation. A finding that the student violated this Code shall require the assent of at least four members of the Hearing Board.

12. Public Disclosure. If the Presenter negotiates a finding of a violation and a penalty that are ratified by the Hearing Board, or if the Hearing Board finds a violation occurred and imposes a penalty, it shall release information to the student body regarding the violation and the sanction imposed. However, the Board shall not disclose the names of the students involved. If the Hearing Board exonerates the student, no information shall be released to the student body.

13. Vote on Sanction. No separate hearing regarding sanction shall be held by the Hearing Board. Three members of the Hearing Board must assent regarding the appropriate sanction. The Board shall have broad discretion in determining a sanction. Sanctions may include, but are not limited to, expulsion, probation, suspension, reduction in grade and reprimand.

14. Notice to Student and Dean’s Office of Decision. The student alleged to have committed a violation shall be notified in writing of the Hearing Board’s decision within 10 days after it is rendered. The Dean’s Office shall also be given written notice of the Board’s decision.

15. Student Records. When a final resolution is reached by the Hearing Board, the records of the proceedings shall become a permanent part of the student’s file. All academic integrity violations shall be noted on the student’s official University transcript.

---

**Student Organizations**

**Registration Requirements for Student Organizations, Journals and Moot Court**

The University requires every student organization to register each fall with the University Office of Student Involvement.

Each organization must route its funding through the University Controller’s Office and consult with the Law School Business Manager. Student organizations are prohibited from having outside bank accounts.

Registration is accomplished by filing a Student Organization Registration Form with the University Office of Student Involvement, a division of the University Office of Student Affairs. A copy of the organization’s constitution, by-laws and officers must be attached to that form. Every organization must have a law faculty advisor. Organization officers must maintain a 2.50 GPA.

Organizations that are not registered will not receive funding, bulletin boards or office space.

An organization must have a minimum of eight members at all times and must be comprised entirely of current
Student Organizations

Student Bar Association. The Student Bar Association (SBA) is the Law School's largest student organization and acts as the student government. All JD students who are enrolled in the College of Law are automatically members of the SBA. The SBA represents the students and advocates for their interests. The SBA sponsors social, service, and educational events and assists with first-year orientation. The SBA Office is in Room 704; (312) 362-8025.

Art and Cultural Heritage Legal Society explores issues surrounding art and cultural heritage.

Asian Pacific American Law Student Association (APALSA) provides academic and social support to Asian law students.

Society for Asylum and Immigration Law explores how the law affects persons governed by the laws of immigration and asylum.

Black Law Students Association (BLSA) promotes the goals of African-American law students and provides mentoring for its members.

Business and Corporate Law Society focuses on legal matters that affect business and corporate law.

Decalogue Society of Lawyers is a professional bar association for Jewish lawyers that provides academic and social support for its members.

DePaul Animal League Defense Fund focuses on issues that affect the rights of animals under the law.

Entertainment Law Society focuses on legal issues in the entertainment field.

Environmental Law Society advocates environmental concerns generally and sponsors programs related to environmental issues and careers.

Evening Law Student Society represents the concerns and needs of students in the Law School's evening division.

Family and Child Law Society provides educational and networking opportunities for students interested in pursuing a career in family law, and sponsors panels, discussions and networking events.

Federalist Society supports individual liberty and limited government.

Hellenic Law Society represents the needs of students of Hellenic/Greek descent.

International Law Society explores international law issues through speaker programs and symposia.

Justinian Society of Lawyers, a professional bar organization for Italian-American lawyers, provides academic and social support for its members.

Latino Law Student Association (LLSA) promotes the goals of Latino law students and provides mentoring and study programs for its members.

Muslim Law Student Association (MLSA) facilitates international cohesion among law students of the Islamic faith, both intra and inter-scholastically, and between such law students and the legal community, concomitantly contributing to the College of Law's diverse student organizations.

National Lawyers Guild, DePaul Student Chapter, is an alternative professional bar organization that seeks to generate awareness about progressive responses to local and national economic and civil rights issues.

Outlaws is an organization that seeks to generate awareness about and sensitivity to lesbian, gay, bi-sexual and transgender issues among law school students, faculty and administrators.

Phi Alpha Delta is a fraternity of lawyers and law students that promotes professionalism, philanthropy and friendship among members of the legal community.

Phi Delta Phi is one of the oldest international legal fraternities, established to promote a higher standard of professional ethics among its members, and the legal community.

Public Interest Law Association advocates careers and pro bono work in public interest law.

Veteran's Assistance Service Organization works with veterans and advocates on their behalf as well as exploring how the law affects veterans.
Women's Bar Association of Illinois, DePaul Chapter, works to ensure the success of women attorneys through business and professional development and advocates for women's interests.

Women's Law Caucus provides a forum for the exchange of ideas and information on the role of women in the legal profession and the impact of law on women's rights.

Faculty Meetings and Committees

Schedule of Faculty Meetings
At the beginning of each semester, the Dean announces the schedule of faculty meetings for the semester. Meetings are held monthly while the law school is in session.

Student Representation
An elected SBA representative is invited to attend faculty meetings. The representative has a vote. Faculty meetings are closed to the general student body.

Publication of Minutes of Faculty Meetings
Minutes of faculty meetings are made available to the SBA.

Student Representation on Faculty Committees
Student representatives are appointed to various faculty committees that address matters of interest to students.

Dean's Advisory Council (DAC)
Students from each first-year section and upper level classes elect representatives to serve on DAC. DAC meets monthly with the Dean to discuss issues concerning the Law School.

Law Career Services

General Information
The Law Career Services Office provides career programming and advising for students and alumni. The office and its advisors offer a wide range of resources to facilitate students' career planning and search for employment.

Professionalism
The Law Career Services Office is committed to each student's ethical and professional growth and development during law school and into future career positions and endeavors. As such, each student is expected to adhere to certain rules and responsibilities that promote ethics and professionalism in the recruiting and job search process. Each student is required to read and acknowledge the Professionalism Agreement made available by the office before he/she is able to fully use Symplicity and office services.

Symplicity
Students and alumni are encouraged to visit Symplicity, the Law School's Career Services site at www.law.depaul.edu/jobs. Symplicity provides links to various resources, including information on drafting résumés and cover letters; employer recruiting and direct interviewing programs; directories on a wide variety of
employers and resources; and a wealth of additional information.

**Career Services Office**

The Law Career Services Office provides Internet and Intranet-accessible computers, a printer, a photocopier, a scanner and a fax machine for use by students and alumni. A library of periodicals, books and directories is also housed in the Law Career Services Office and many of these resources are available for student check-out.

**Communication**

Students are expected to keep their current contact information updated on their profiles in Symplicity as we use this information to regularly communicate upcoming job fairs, recruiting events, career-related programs and other relevant information. Students must update their contact information on Symplicity separately from any updates made on Campus Connect as the two systems do not feed into each other. Additionally, students are encouraged to regularly keep abreast of the information our office shares via our emailed newsletter, Twitter (@DePaulLawCareer), and our blog (depaul.law.typepad.com/depaul_law_career_service).

**Internet Job Postings**

More than 2,000 clerk and attorney job opportunities are received by the Law Career Services Office each year. DePaul offers students and alumni access to these employment opportunities in both on-line and print versions. On-line, the job postings are made available in Symplicity, a password-protected site, which can be accessed by logging onto www.law.depaul.edu/jobs. Students and alumni can obtain passwords by contacting or visiting the Office and can apply to any of these jobs after their résumés have been uploaded to Symplicity and, with respect to students’ résumés only, approved by their advisors. On average, more than 200 job opportunities are posted at any given time for both attorneys and law students.

**Job Fairs and Programs**

Each year, DePaul participates in a large number of job fairs throughout the country. The Law Career Services Office also offers a variety of programs, including mock interviews, skill-building seminars, and monthly alumni panel discussions. Current information on these programs can be found in the Law Career Services Office and in the event calendar on Symplicity. Students are strongly encouraged to regularly check the information available on-line and in the Office.

**Career Advising**

Career advisors provide career advice and guidance for students and alumni. During the first semester of law school, students are offered a comprehensive orientation regarding the job search process. Additionally, each student is assigned to an individual advisor in order to ensure that students have a constant resource available to them. However, per the National Association of Law Placement Standards, Law Career Services is not allowed to offer job search service or assistance to first semester first-year students prior to November 1.

**On Campus Interviewing (OCI) Program**

Every Fall, the Law Career Services Office invites employers to interview DePaul students for summer associate and postgraduate positions. While employers of all sizes are invited to participate, typically only the largest of employers in private practice, government and business participate in OCI. While many employers participate in OCI by coming on campus to conduct their interviews, many employers opt to participate as a résumé collect employer, whereby they invite selected students to interview at the employer’s office. Students should bear in mind that the employers who participate in OCI comprise only a small percentage of the overall employer pool.

Public interest and government employers typically participate in job fairs. In Chicago, an annual Public Interest and Government Employer Reception is held in the fall. All area law schools participate in hosting and coordinating this event. Job fair and reception dates and descriptions are posted on the Symplicity event calendar.
Anti-Discrimination Policies

As a member of the Association of American Law Schools (AALS) and in conformity with its by-laws, DePaul University College of Law provides equal opportunity in legal education for all persons without regard to race, color, religion, national origin, sex, age, disability or sexual orientation. The procedure for filing a grievance involving charges of discrimination is set forth in the University Graduate Student Handbook, copies of which are available on the University web site, www.depaul.edu.

University Policy on Sexual Harassment

DePaul University is committed to providing and maintaining a healthy learning and working environment for all students, staff, faculty and other members of the University community that is free of discrimination and all forms of sexual harassment. The University condemns any form of sexual harassment or assault and is committed to taking action to prevent and eliminate it. The University sexual harassment policy and the procedures for reporting harassment are set forth in the DePaul University Graduate Student Handbook, which is available on the University web site, www.depaul.edu.

College of Law Religious Liberty Policy

DePaul University College of Law is committed to safeguarding religious liberty.

Scheduling of Classes and Other College of Law Events

To the best of its ability, the College of Law attempts not to schedule classes on religious holidays, including the Sabbath. Where classes must be scheduled on religious holidays, the College attempts to offer alternative sections. College of Law events, such as Law Days, are scheduled on both Saturdays and Sundays.

Class Attendance and Participation

A student who misses class as a consequence of religious observance will not be penalized. For example, if a professor permits students to miss two classes in a semester and a student must miss three classes for reasons of religious observance, that student should be permitted to miss five classes in total.

Students who miss class for reasons of religious observance must be permitted to tape those classes. Students are responsible for making the taping arrangements. No student shall be required to take an examination or engage in any other evaluative endeavor on a religious holiday.

It is the obligation of the student to apprise faculty members of the necessity to miss class for reasons of religious observance and to apprise the Assistant Dean for Student Affairs about the need to reschedule an examination or other evaluative exercise.

Student Organizations

Student organizations that sponsor competitive events must accommodate the needs of students who cannot compete on a religious holiday. It is the obligation of the student to advise the student organization of the necessity for accommodation so that another opportunity to participate in the competition may be provided.

Students whose religious observances prevent them from attending the events of a student organization may not be barred from membership as a consequence thereof. Student organizations are encouraged to schedule events at a time other than Friday noon, Friday evening, Saturday and Sunday.
Admission to the Bar

Bar Examination Requirements

Many College of Law graduates apply for admission to the bar in Illinois, although they may later seek admission in other jurisdictions. Forms for the Illinois bar are available on the Illinois Board of Admissions web site, www.ILBarAdmissions.org. Forms for other jurisdictions are available through the National Conference of Bar Examiners web site, www.ncbex.org.

The Illinois Board of Admissions to the Bar permits law students to register with the bar examiners by March 1 of the first year of law school if they intend to take the Illinois Bar Exam. First-year registration is not mandatory, but is strongly recommended if the student has character and fitness issues in his or her background. Students receive a discounted fee if they apply by March 1 of the first year. Other states that offer first-year law student registration include Alabama, California, Florida, Iowa, Kentucky, Missouri, Montana, North Dakota, Ohio, Oklahoma and West Virginia. If a student is interested in practicing in one of those states, she or he should contact the Board of Admissions to the Bar in the jurisdiction where he or she plans to practice.

The Illinois Bar Exam is administered in February and July of each year. All DePaul graduates are automatically certified for admission to the Illinois Bar. Graduating seniors should file Character and Fitness forms and the application to sit for the bar examination by September 1 if they will graduate in December or by February 1 if they will graduate in May.

Students must also pass the Multi-state Professional Responsibility Exam (MPRE), which is given three times per year, in March, August and November. The MPRE may be taken after a student completes at least 2/3 of the credits required to graduate. In the case of DePaul students who need 86 credits to graduate, they must earn at least 58 credits before they sit for the MPRE. If the student takes the MPRE prior to earning 58 credits, the Illinois Board of Admissions to the Bar will disregard the score, and the student will have to take it again. The on-line application for the MPRE is on the National Conference of Bar Examiners’s website: www.ncbex.org.

Illinois does not require that students have taken any particular courses to sit for the Illinois Bar Exam. However, some states do require students to have taken specific courses. Students should obtain information as soon as possible after they begin law school about requirements for admission to the bar in the state(s) where they may seek admission.

The College of Law offers a bar review program. Students are strongly encouraged to participate. Students should also seriously consider taking a commercial bar preparation course.

Warning: Unfortunately, every year, some College of Law students fail the bar. Do not let this happen to you. The principal reason that students fail is that they do not take the bar exam seriously enough. Be sure to allocate sufficient time for study including, if possible, taking a vacation from work. The bar exam is difficult and requires your very best effort.

Bar Examinations in States Other Than Illinois: A graduating senior who intends to take the bar in a state other than Illinois must notify the Assistant Dean for Student Affairs at least two months prior to graduation. The student must provide the Assistant Dean with a Dean’s Certificate form and a cover letter stating the student’s name, student ID number, mailing address, e-mail address and telephone number and the deadline for submission of the form to the jurisdiction in which the student will be sitting for the bar. If the state to which the student applies requires an official transcript to verify the JD, the student must order the transcript from the University Student Records Office, http://sr.depaul.edu. The College of Law cannot order official transcripts because release of the transcripts requires the student’s written consent.

Character and Fitness Disclosures

The Illinois Board of Admissions to the Bar requires that the Dean of the law school certify that each student sitting for the bar has earned the JD degree. As part of that certification, the Dean must answer the following questions:

1. Do your records or other information show anything adverse concerning the applicant’s honesty, integrity, or general conduct?
2. Was the applicant ever involved in a disciplinary inquiry or proceeding while in attendance? If so, explain.
3. Are you aware of any matter or matters reflecting adversely upon the applicant’s reputation and character?
4. Please state any facts, not covered by the foregoing questions, unfavorable to the applicant, which you think the committee should know in connection with its duty to determine whether the applicant is worthy of the highest trust and confidence.

Most other states require similar certificates to be completed by the Dean before students may take the bar
Students are advised that they have a duty to supplement their law school files if any adverse criminal, civil, administrative or financial events occurred before or during law school. If any discrepancy exists between information disclosed on the original law school application and the bar application, the student may be asked to meet with bar admission staff or the Board of Law Admissions. Adverse information not disclosed may result in the denial of a license to practice law.

Students who do not fully disclose adverse information when they apply to DePaul University College of Law must do so at the earliest opportunity. If not, they may be cited for a violation of the College of Law Honor Code. Penalties, including letters of reprimand, suspension or expulsion, may be imposed for failure to make full or complete disclosure.

---

**Vincent G. Rinn Law Library**

**History and Mission**

The DePaul University College of Law Library occupies the 4th through 6th floors of the Lewis Center, located at 25 E. Jackson Blvd. The law library entrance is on the 5th floor. In October of 1998, the Law Library was dedicated to the memory of Vincent G. Rinn, a member of the College of Law’s class of 1931. The primary mission of the Rinn Law Library is to serve the research and study needs of the DePaul University community.

**Access and Hours**

As a participant in the Federal Depository Library Program, DePaul’s Rinn Law Library is open to the public. Anyone entering the Library must either swipe their DePaul ID for access, or ring the bell, present a current photo ID and sign in at the Circulation Desk.

**Law Library Hours**

For a schedule of the Library’s current hours, please telephone the circulation desk (312) 362-8121, or visit the library website.

http://www.law.depaul.edu/library/general_information/hours.asp

Generally, the Library is open as follows:

**Fall and Spring Semesters**

- Monday through Friday: 8:00 a.m. - 11:00 p.m.
- Saturday: 9:00 a.m. - 6:00 p.m.
- Sunday: 12:00 p.m. - 10:00 p.m.

**Summer Session**

- Monday through Friday: 8:00 a.m. - 10:00 p.m.
- Saturday: 9:00 a.m. - 6:00 p.m.
- Sunday: Closed

The Law Library is closed on New Year’s Day, Good Friday, Easter Sunday, Memorial Day, Independence Day, Labor Day, and Thanksgiving Day, and on all other days that the University is officially closed. Additionally, the Library is also closed on Sundays when the College of Law is not in regular academic session and during the summer.

**General Information and Policies**

- Personal belongings and valuables should not be left unattended. Please report any suspicious activity to the Circulation Desk staff.
- For security reasons, the Law Library has installed a system at the exit that causes an alarm to sound if a patron attempts to leave the library with material that has not been properly checked out. Occasionally,
certain briefcases, notebooks and other items containing metal may activate the alarm. If the alarm rings, please return to the circulation desk and comply with the requests of the attendant on duty.

- The library maintains a “Lost and Found” at the circulation desk. Items not claimed within 24 hours are forwarded to the University's Public Safety Office.
- Books should be re-shelved in their proper location or placed on a nearby book cart when no longer needed.
- Smoking, as well as carrying or consuming alcoholic beverages, is prohibited in all areas of the Law Library.
- Beverages (non-alcoholic only) must be in covered, spill-proof containers. Please limit consumable food to pre-packaged snacks, or small pieces of fruit. Smelly or greasy food, which can damage the books and furnishings, is prohibited. Please remember to place all trash or garbage in an appropriate receptacle.
- Stealing, hiding or damaging books, or any other Library material, is a violation of the DePaul College of Law Honor Code and of Illinois state law.
- Cell phones are not to be used in the Library. Ringers should be placed on silent, or vibrate, so as not to disturb other patrons. If you receive a call, please step outside of the Library to have your conversation. Law Library phones are not available for patron use.

**Noise**

The Law Library is a place for quiet study and research. Please keep conversations and unnecessary noise to a minimum.

**Computer Access**

The University provides wireless access within the Law Library. Additionally, The College of Law Computer Lab is located in room 513 in the Law Library. The lab is for the use of College of Law students, faculty and staff. The lab has networked workstations that provide access to Lexis and Westlaw, Computer-Assisted Legal Instruction (CALI) exercises, word processing software and the Internet. Please note that any unauthorized use of Lexis and Westlaw is a violation of the Honor Code.

Law students have access to several other University computer labs throughout the Loop Campus. For an up to date listing, please see the following:

http://www.is.depaul.edu/computers/labs/locations.asp#loop

**Network Printers**

For your convenience, DePaul University uses Intelliprint, a print monitoring system that utilizes student ID cards for initializing print jobs. Students pay for printing as needed through Demon Express on their ID cards. The system was designed to protect the environment and control excessive paper use, thereby reducing costs that can affect tuition prices. There are 3 Intelliprint stations in the Law Library and a Value Transfer Station (VTS) in room 402.

**Wireless Printing**

The ability to print wirelessly to the Intelliprint system using iPrint from Anywhere is currently available for students with compatible laptops. With iPrint from Anywhere you can print directly from your laptop without first having to transfer documents to DePaul's lab computers in order to print. Please visit the following IS web page for updates and details.

http://www.is.depaul.edu/intelliprint/index.asp

**Conference/Group Study Rooms**

There are fourteen conference rooms in the Law Library. These rooms are typically unlocked at the beginning of the day and are available on a first-come first serve basis. Law students are afforded priority in the use of these rooms. On occasion, library staff will reserve a room for official library business and will post a notice or sign on the door.

**Copy Machines**

The Law Library has four photocopiers, three of which have duplexers and a paper feeder attached. Copies are ten cents per page. The photocopiers do not accept cash. You must use a Demon Express copy card or DePaul ID. To purchase or add money to a copy card, use the DePaul Value Transfer Station located in Copy room 402. The Value Transfer Station machine accepts $1, $5, $10 and $20 bills. Alternatively, you can add money to your Demon Express account via Campus Connect using a credit card. Please report any photocopier problems to the circulation desk staff.

**Media Facilities**
There are two media rooms available for DePaul University College of Law students to use for video-taping, interactive video sessions and to view curriculum-related videotapes. These media rooms are located on the 5th floor. To reserve a room, please visit the circulation desk or telephone (312) 362-6892.

**Circulation Services (312) 362-6892**

The Circulation desk is located to the right of the entrance to the Law Library. Circulation desk staff is available whenever the Library is open. They assist students and other patrons in checking out and renewing general circulation materials, locating reserve materials, accepting reservations for library media rooms and research carrels and in answering general questions about the library.

**Circulation and Renewal Policies**

- **TREATISES** (i.e. books) circulate for 28 days (3 renewals possible)
- **JOURNALS** (bound and unbound) circulate for 24 hours (with 2 renewals possible)
- **RESERVE MATERIALS** (e.g. hornbooks, nutshells, IICLE handbooks, faculty course materials, old exams) circulate for 1, 3 or 24 hours. 1 and 3 hour items are not renewable; however 24-hour items can be renewed twice. Treatises can be renewed online using the DePaul/I-Share Catalog. All other items must be renewed by circulation desk staff, or by telephone (312) 362-6892.

**Fines**

Overdue charges are calculated based on the Law Library's fine policy. Borrowers will be charged the replacement cost of non-returned materials, a processing fee and any overdue fines. Delinquent borrowers are subject to having their borrowing privileges revoked. Additionally, registration for classes or graduation may be blocked.

**Electronic Reserves**

Selected faculty reserve materials and old law school examinations are available electronically at:

http://law.depaul.edu/library/student_services/reserve_materials.asp

This material is password protected. To obtain the password, please contact the circulation desk staff, at (312)362-6892.

**Research Carrels**

The Law Library maintains research carrels with lockable shelves for use by faculty research assistants and members of the Moot Court Society, DePaul Law Review and other DePaul journals. Carrels are available for one semester. To obtain a carrel, a student must provide the Circulation Manager with a letter from a College of Law faculty member, or a journal editor requesting a carrel assignment for the student. Selected materials can be checked out to an assigned carrel for sixteen weeks, but these materials may not be removed from the Library.

**Interlibrary Loans**

Interlibrary loan (ILL) service is available to College of Law students, faculty and staff. The Library staff will attempt to borrow books or obtain copies of journal articles for academic research purposes if a needed item is unavailable at any DePaul library; and cannot be requested directly by you. Information on making an ILL request is available at the following website:

http://www.law.depaul.edu/library/student_services/interlibrary_loan.asp

Borrowers are personally responsible for any charges assessed by the lending library and for any damage to or loss of ILL materials.

**Reference Services (312) 362-6894**

The Reference Desk is located to the left of the fifth floor entrance to the Law Library. Reference librarians are available to assist in the location and use of the Library's print and electronic resources.

During the academic year when the College of Law is in session reference desk service hours are:

- **Monday - Thursday** 9:00 a.m. - 9:00 p.m.
- **Friday** 9:00 a.m. - 5:00 p.m.
- **Saturday** 10:00 a.m. - 5:00 p.m.
- **Sunday** 12:00 p.m. - 7:00 p.m.

Reference assistance is also available by way of Instant Messaging; E-Chat; Email and Texting. For details, see the following Library website for information.
The Law Library Collection

The Law Library collection supports the instructional and research activities of the DePaul College of Law and the University in general. The print collection consists principally of materials relating to Anglo-American law, including the law of the United States; its individual states and territories; Canada and Great Britain.

The collection also includes a comprehensive collection of law school and bar journals and other major secondary sources such as treatises, legal encyclopedias and selected study aids. Substantively, the collection has strong subject concentrations in taxation, constitutional law, health law, and human rights law and church-state relations.

The collection is located on three floors:

- The fourth floor includes subject treatises, state materials, health law and foreign law.
- The fifth floor includes reference, reserve, and federal materials, including hearings of 30 selected Congressional Committees.
- The sixth floor includes law reviews and international and comparative law sources.

In addition to the print collection, the Library subscribes to or provides access to many online resources. Access to these databases is available through the Library web page.

Classification and Location of Materials in the Law Library

The Law Library uses the Library of Congress (LC) classification system, a subject arrangement, which consists of one or more letters of the alphabet, followed by a series of numbers. The following LC classifications are most common in the Law Library:

- H Economics, Sociology
- J Political Science
- J2 International Relations
- K1-30 Legal Periodicals
- KD Law of the United Kingdom
- KE Law of Canada
- KF1-127 Law of the United States - Federal
- KF131-9999 Law of the United States - By Subject
- KFA-KFX Law of Individual States and Cities
- KG-KZ Foreign and international Law
- PN-PZ Law and Literature
- R Medicine

Locating Material Using the DePaul Library Catalog

The online DePaul Library Catalog can be used to locate and/or requests books, journal articles and other library materials from DePaul and 75 other Illinois libraries. The Law Library has four public access terminals located near its reference desk. The DePaul Library catalog can also be accessed from any computer that has Internet access. For assistance using the Library catalog, contact a reference librarian.

Locating Journal Articles

The Index to Legal Periodicals and Books, Current Law Index and several other print journal indices are located on the 6th floor Index Table. Online journal indexes and selected full-text databases such as LegalTrac and HeinOnline are available through the Library’s web page.

Most of the Library’s print collection of law school journals is classified K1 to K30 and shelved alphabetically by title on the 6th floor. Subject journals are classified and shelved with other material on the same subject. Bound journals are shelved in the open stacks. Recent and unbound journal issues are kept behind the Circulation Desk. To determine if DePaul owns a specific title, use the DePaul / I-Share online catalog, or contact the reference desk.

Other DePaul libraries

All DePaul University Libraries are open to College of Law students and faculty. The College of Commerce (i.e., the “Loop”) Library is located on the tenth floor of the DePaul Center. A shuttle delivers materials between the Loop and Lincoln Park campus libraries on weekdays.
General Information

Required Courses and Course Descriptions

The courses required for the Juris Doctor degree and LL.M. degrees are listed under Degree Programs. Courses descriptions are published on Campus Connection.

Course Prerequisites

A student must complete the necessary prerequisite(s) before taking a course. A student who attempts to register for a course on Campus Connection without a necessary prerequisite will not be able to do so.

Class Materials

Materials reproduced by the Law School for class use are sold through the bookstore. Textbooks and course materials are located on the lower level.

Syllabi

First class assignments and syllabi are published on the Law School web site. If a syllabus does not appear for a particular course, it will be distributed to the students by the instructor.

Lockers

Lockers are allocated by the Student Life Office, located on the 11th floor of the DePaul Center. Lockers are allocated for a period of one academic year. If a student does not renew a locker rental, the University will empty the locker at the end of the academic year in June.

Official Transcripts

The University Student Records Office on the ninth floor of the DePaul Center issues official DePaul transcripts. The College of Law cannot issue transcripts. Official transcripts may be ordered on Campus Connection, www.depaul.edu or from the University Student Records web site, http://sr.depaul.edu. Students may order ten free official transcripts per year.

Changes of Addresses, Phone Numbers, Names and E-Mail Addresses

Students who change their names must bring legal proof of a name change to the Academic Resource Center (9th floor DePaul Center). Names on diplomas appear exactly as they appear on Campus Connection. Students may update all other demographic information on the University web site, www.depaul.edu, under "Campus Connection" and "Demographic Portfolio." Students have the option of listing three different addresses and phone numbers, including business, home and mailing addresses. Several e-mail addresses may be listed as well.

Students Must Insure That Their Preferred E-Mail Address On Campus Connection Is Correct At All Times. If Your E-Mail Address Is Not Correct On Campus Connection, You Will Not Receive Information Necessary To Pursue Your Law School Studies. Failure To Provide A Correct E-Mail Address Will Not Excuse Non-Compliance With Rules, Regulations Or Requirements Communicated By The Law School Via E-Mail.

Payment of Charges

Tuition and fees are payable in full at the time specified in the registration materials, unless a student enrolls in either DePepper (employer reimbursement) or DePupp (monthly payment plan). Information on those programs may be found at www.depaul.edu under the Student Financial Accounts Office. Generally, past-due tuition and fees must be paid in full before a student may register.

Financial Delinquency
Any student who fails to make timely payments as required by the Student Financial Accounts Office will be charged a $100.00 late penalty. Students with delinquent accounts are subject to suspension and exclusion from classes. They may be barred from receiving official transcripts, registering for a subsequent semester, receiving a degree or being certified for admission to the bar.

**Dishonored Checks**

A $25 fee is charged for each dishonored check.

**Tuition Refund Policy**

Tuition will be refunded only if a student withdraws before the end of the second week of classes in the fall and spring semesters and before the end of the first week of classes in the summer semester. A tuition refund is not available after those deadlines. Students who add courses after those deadlines will be charged extra for the added credits.

**Internet Services**

The College of Law's media and technology staff understands the important role technology plays in the learning experience and strives to identify and fulfill the technology needs of all College of Law faculty, staff and students.

**Wireless networking (Wi-F9)**

Registered students have wireless access throughout DePaul University campuses and must have a DePaul wireless card. For information about the card, see [http://wireless.depaul.edu/](http://wireless.depaul.edu/). The Lewis, O'Malley and Daley buildings provide wireless internet services 24/7, and law students have the ability to print directly from their laptops via "iPrint from Anywhere" without having to first transfer documents to DePaul's lab computers.

The University web site is [www.depaul.edu](http://www.depaul.edu). Student information is password protected and is available under Campus Connection. Campus Connection will give students access to:

- Demographic Profile – Update e-mail address, mailing or business address telephone numbers.
- Grades and Course Histories – Access grades and course histories (unofficial transcripts that include courses taken, credits earned and GPAs).
- Class Search – See what courses are open or closed, room assignments and professors.
- Student Course List – After you register, review your class schedule.
- Change PIN – Change your University assigned password.
- Web Registration – Allows registration for classes on the web.
- Student Accounts – Obtain a complete financial record.

The College of Law web site is [www.law.depaul.edu](http://www.law.depaul.edu). It contains Law Career Services information, Law Library information, course syllabi, course descriptions, class ranks, financial aid information, scholarship information and a listing of current events.

Passwords. The University Identification Services Office (9th floor DePaul Center) assigns all DePaul students user identifications and passwords to access Campus Connection on the University web site. Students are encouraged to change their password to a number or word they can easily remember.

E-Mail Accounts. All DePaul students are assigned free e-mail accounts by the Identification Services Office. E-mail addresses consist of the first letter of the person's first name and the first seven letters of their last name. University e-mail extensions are as follows: students use @students.depaul.edu; law faculty and administrative staff use @depaul.edu.

**Reservation of Rooms and Scheduling of Events**

The law school Events Coordinator maintains a schedule of room use. Anyone who wants to use a room for any purpose other than a regularly scheduled class must submit an on-line room reservation request through on the College of Law web site.

**Use of Facilities**

Only organizations associated with the Law School may use school facilities. However, groups not associated with the Law School may reserve rooms or tables in the DePaul Center Student Center or the University Conference Center (8th floor DePaul Center).
Most Loop buildings operate under a schedule that has them open and accessible Monday through Friday, from 7:00 a.m. through 10:00 p.m. Saturday and Sunday schedules will typically operate between the hours of 7:00 a.m. and 6:00 p.m. Access to buildings during off-hours (i.e., late evenings, weekends and holidays) may be obtained by contacting the University Public Safety Office, which will require a written request, in advance. The request should include name, department, building/floor/room number to be accessed, date, time and estimated duration of visit, and reason for access. All persons who attend will be required to present identification, and in some cases, sign-in when arriving on campus on the specified dates and times. Additionally, Faculty Operations will not alter the heating, ventilation or air conditioning service schedule to accommodate off-hours access.

**Lost and Found**

A lost and found service is located in the Public Safety Office (lower level of Lewis Center).

**Identification Cards**

Photo identification cards are issued by the University Identification Services Office. An ID card is necessary to enter the Law Library and computer labs. All students are also assigned a student identification number.

**Parking**

A special parking rate is available to students in nearby parking lots. Students must stamp their parking receipts in the machine by the security desk in the Lewis Center lobby or in the DePaul Center lobby.

**DePaul Campus Facilities**

College of Law students are welcome to use the recreational facilities on all of the DePaul campuses. Identification cards are required to use the facilities. Students are charged a membership fee to use athletic facilities.

**Personal Mail**

Students may not use the Law School address for personal mail. They may use the fax machines designated for student use.

**Emergency Cancellation of Classes/Closure of the University**

In the event it becomes necessary to close the University, the closure will be announced over local media and on the University web site.

**Alcoholic Beverages**

Alcoholic beverages may not be sold or consumed on school property unless an event is sponsored by an authorized student organization and faculty advisor. The University Associate Vice President must approve all requests to serve alcohol. Alcohol may not be served before 6:00 p.m., and non-alcoholic beverages and food must be available during the entire duration of the event. At least one Public Safety officer must be present. Advertising of the event shall not include pictures, images or depictions of the use of alcohol. For more information about the alcohol policy and the alcohol permission request form, see [www.law.depaul.edu > Current Students > Organizations & Journals](http://www.law.depaul.edu).

**Smoking Policy**

Smoking is not permitted in any DePaul buildings.

**Escort Service**

The DePaul University Public Safety Department provides an escort service for students, staff and faculty when circumstances require them to travel alone on campus, in isolated areas after dark or whenever there is otherwise a concern for their personal safety.

**Building Hours**

Building and Library hours are posted in the front lobby display cases in Lewis.
Health Insurance
The DePaul University Student Health Plan has been developed especially for DePaul University students and their eligible dependents. The Plan provides coverage for illnesses and injuries that occur on or off campus and includes special cost-saving features to keep the coverage as affordable as possible. The Plan is underwritten by Aetna Life Insurance Company. The Plan includes a Preferred Provider Organization through Aetna. If you obtain care from these preferred providers, you will reduce the cost of health care substantially. All DePaul students are eligible for the Student Health Insurance as long as they are taking classes in the current semester.

If you have any questions, please visit Aetna’s website or call the Chickering Claims Administrators Inc.’s Customer Service Department at (800) 878-1938 and reference DePaul’s policy number of 7111116. Alternately, contact the Student Affairs Office at (312) 362-5680.

The American Bar Association also offers student health insurance for members. Information is available on its web site.

Housing
General housing information can be found on the College of Law web site. The University has a housing service for all current and prospective members of the University community called the Housing Resource Center.

University Counseling Services
The University Counseling Service offers counseling to DePaul students. Services include individual, couple and group counseling. The Counseling office is located on the 11th floor of the DePaul Center. The telephone number is (773) 325-7779.

University Ministry
Campus Ministry is open and available to persons of all faiths. Thomas Judge is the College of Law chaplin (312/362-6699). The Campus Ministry offices are located in Room 11009 of the DePaul Center and on the second floor of the Stuart Center on the Lincoln Park campus. For information, call (312) 362-6910.

Office of Student Legal Services
The Office of Student Legal Services provides free or low-cost advice to DePaul students on wide range of common problems, including contract disputes, misdemeanor criminal offenses, routine traffic violations, landlord-tenant disputes and other minor legal problems. The Office is located on the Lincoln Park Campus, 990 West Fullerton Avenue, 1st Floor. The phone number is (773) 325-4959.

U-Pass (CTA Passes)
All DePaul University College of Law students who are currently taking 9 or more credits automatically qualify for a U-Pass good for use on Chicago Transportation Authority (CTA) trains and buses. Students who register for summer classes are also eligible for the U-Pass. Photo identification cards are required to obtain a U-Pass. Pictures are taken at the beginning of each academic semester both in the Law School student lounge and in the DePaul Center Student Union (11th floor). U-Pass cards are valid while classes are in session. They are not valid during DePaul class holidays.

Privacy Rights and Access to Educational Records
DePaul University College of Law respects the privacy of its students. The Family Educational and Privacy Act (FERPA) afford students certain rights with respect to their educational records:

1. The right to inspect and review records upon written request; and
2. The right to request and amend records that are inaccurate or misleading. Should students wish to have their records amended, they must write the Assistant Dean for Student Affairs and identify the part of the record that they want changed and specify why it is inaccurate or misleading. If the Assistant Dean decides not to amend the record as requested, she will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment.

The Law School will not disclose information from the educational records of a student without his or her prior written consent, except:

1. to school officials, including teachers, within the educational institution who have a legitimate educational interest in the records. A school official is defined as a person employed by the University or the Law School in an administrative, supervisory, academic, research, or support staff position, including law
enforcement personnel and health personnel; a person or company with whom the University has contracted to provide services; a student serving on an official committee, such as a disciplinary or grievance committee; or a person assisting another school official in performing his or her tasks;

2. to officials of another school in which the student seeks or intends to enroll;
3. to certain authorized representatives of the United States and state agencies who require such information to carry out lawful functions;
4. in connection with the student's application for, or receipt of, financial aid;
5. to organizations conducting studies for, or on behalf of, educational agencies or institutions if these studies are conducted in a manner that will not permit the personal identification of students and if the information will be destroyed when no longer needed;
6. to accrediting organizations in order to carry out their accrediting functions;
7. to comply with a judicial order or lawfully issued subpoena; or
8. to appropriate parties in health or safety emergencies.

Directory Information

If a student does not want his or her name, address, or phone number published, the student must block the release of that information through Campus Connection.

DePaul University College of Law reserves the right to release the following student information: name; date and place of birth; local address; telephone number; e-mail address; home address and phone number; enrollment status and dates of attendance; positions held; place of employment and phone number; memberships in officially recognized campus organizations and teams, degrees earned, special awards and recognition given; and information requested by the Illinois Board of Admissions to the Bar and bar exam officials of other states.

Tuition and Fees

For information on tuition and fees, see the University Student Accounts web site.

Proof of Immunization

DePaul University complies with Illinois law, which requires post-secondary institutions to submit an annual report on student immunization. All students born on or after January 1, 1957 and enrolled half-time must provide proof of immunization for the following: Tetanus/Diphtheria, Measles (Rubeola), Mumps and Rubells (German Measles). Submit records to the University Student Records Office. Information and forms are available on the Student Records website. Students who lack proof of immunization are blocked from registering.

Admission & Aid

Admission to DePaul University College of Law is very competitive. We consider numerous factors in evaluating each applicant, including undergraduate academic performance, Law School Admission Test (LSAT) scores, advanced degrees, professional work experience, writing ability, potential for leadership, professional and academic recommendations and the applicant's special talents, qualities, interests and socioeconomic and cultural background. No single factor is dispositive.

Personal qualities that demonstrate intellectual depth, high ideals and diligence also are considered, as are economic, societal or educational obstacles that have been successfully overcome. Diversity in background and experience among the members of each entering class is a continuing objective. Having a diverse student body allows us to encourage and foster the exchange of different ideas. In addition, a candidate's prior relations with the DePaul University community and her or his potential for furthering DePaul's institutional goals are considered.

Each year, more than 5,000 candidates apply for 240 seats in the full-time day program and 60 seats in the part-time program. Because applications are reviewed on a rolling basis, early application is highly recommended, especially for those who desire merit scholarship and financial aid consideration. For first-year applicants with no previous law school credit, admission is granted only for the fall semester. First-year applicants should ensure that their application and all necessary documents are on file in the Office of Law Admission prior to the suggested application deadline of March 1.

Prospective applicants who have received their baccalaureate degrees from accredited institutions or who have
received degrees prior to July of the year for which admission is sought are eligible to apply. In no event will anyone who has yet to receive a baccalaureate degree be permitted to enroll in the College of Law. No specific fields of study are prescribed at the baccalaureate level.

DePaul University has a nondiscriminatory admission policy; it does not discriminate on the basis of race, color, national origin, religion, sex, sexual orientation, age or disability.

**Application for Admission Instructions**

**Letter of Recommendation**

One letter of recommendation is required for all applicants, but additional letters are helpful. Letters from your college professors are particularly useful. Letters also may be written by employers or colleagues who are able to make critical and informed appraisals of your qualifications. Letters of recommendation can be submitted through either the Credential Assembly Service (LSDAS) or mailed directly to the Office of Law Admission.

**Personal Statement**

A personal statement is required and must be enclosed with or electronically attached to your application for admission. It should not exceed two pages, and may provide the Admission Committee with information regarding such matters as intellectual interests and pursuits; personal, family or educational background; experiences and talents of special interest; reasons for applying to law school as they may relate to personal goals and professional expectations; or any other factors that will assist the Committee's evaluation of your candidacy for admission. You also may describe, either within the personal statement or as an addendum, how your admission would contribute to the diversity of the College of Law.

**Resume**

A current resume is strongly recommended. It should not exceed two pages. It should include a complete employment record and identify honors, scholarships and commendations received; membership in any scholastic, honorary and professional associations; as well as community, volunteer and extracurricular activities. If applying electronically, use an electronic attachment for your resume.

**Law School Admission Test / Credential Assembly Service**

All applicants must take the LSAT. The LSAT must be taken within the prior four years. Older scores are not acceptable. In addition, all first-year and transfer applicants must register with Credential Assembly Service.

**Application Fee**

A $60 nonrefundable application processing fee is required and must be submitted with the application for admission. You may pay your application fee online or print the Certification Letter and send your payment to the Office of Law Admission with your Certification Letter.

**Special Information for Transfer Applicants**

DePaul University College of Law welcomes applications from students who will have completed, within the preceding two years, at least one year of study at another ABA-accredited law school. Transfer applicants may apply for admission to the day and evening programs for the fall and spring semesters, as well as the summer session. Transfer applicants admitted to the College of Law may receive up to 30 hours credit toward the Juris Doctor degree. The determination of applicable credit is made upon admission.

Transfer applicants should have their application and all necessary application documents on file with the Office of Law Admission at least one month prior to the semester in which they intend to enroll. Transfer applicants are required to submit all materials required of all first-time applicants: application, application fee, letter of recommendation (from a law school faculty member), resume, personal statement and current Credential Assembly Service report. In addition, transfer applicants must submit directly to the Office of Law Admission: (1) a letter of good standing from all previously attended law schools; and (2) official transcripts from all previously attended law schools. Law school transcripts must provide grades for all courses attempted.

**Special Information for International Applicants**

Applicants who have earned degrees or received diplomas from foreign institutions must submit all materials required of first-time Juris Doctor applicants. In addition, applicants who have completed coursework or earned degrees from foreign institutions should submit their foreign transcripts through the Credential Assembly Service. This service is included in the standard Credential Assembly Service fee. Foreign transcripts received will be sent to the American Association of Collegiate Registrars and Admissions Officers (AACRAO) where the transcript will be authenticated and analyzed. The data will be assembled into a foreign credential evaluation.
Applicants who were educated in foreign countries, or at institutions where English is not the primary language, must also register for the TOEFL. You must advise Educational Testing Service (ETS) to send your TOEFL score to LSAC (institution code number 00580).

LSAC will incorporate your foreign credential evaluation, TOEFL score and associated documents into the regular Credential Assembly Service report.

While the College of Law strongly encourages international applicants to submit their foreign transcripts to the Credential Assembly Service, we will also accept detailed evaluation reports from Educational Credential Evaluators (www.ece.org), World Educational Services (www.wes.org) or from any other member of the National Association of Credential Evaluation Services.

International applicants who have graduated from foreign law schools may receive up to 30 credit hours toward the Juris Doctor degree. The determination of applicable credit is made upon completion of the first year of law school.

**Optional Sections of Legal Analysis for First-Year, Full-Time Students**

For first-year, full-time day students only, the College of Law offers special sections of Legal Analysis, Research & Communication with a focus on Child & Family Law, Health Law, Intellectual Property Law (including traditional Intellectual Property, Information Technology and Cultural Property/Art Law) and Public Interest Law.

Admission to these special sections is competitive. Students must apply for a seat in the Child & Family Law, Health Law, Intellectual Property Law or Public Interest Law section of Legal Analysis, Research & Communication at the same time they apply for J D admission. Interested students must indicate their interest by checking the appropriate box on the application for admission. You may only apply to one section. You also must enclose with or electronically attach to this application a statement of no more than one page indicating your reason(s) for your interest in either Child & Family Law, Health Law, Intellectual Property Law, or Public Interest Law. Students will be informed of their acceptance into the desired section after they receive a letter of admission from the College of Law.

Qualified students in the Intellectual Property Law section of Legal Analysis, Research & Communication may also participate in the Intellectual Property Summer Job Program, in which intellectual property law faculty and staff assist students with career development and placement in a variety of firms and organizations.

**About**

The College of Liberal Arts and Social Sciences is committed to providing all of its students with an education that balances in-depth study in certain areas with a breadth of experience in the various disciplines that form the core of human knowledge. Its 28 degree-granting programs and disciplines share a commitment to the highest standards of academic quality, to a mode of study that nurtures critical thinking skills, to a self-conscious examination of questions of value and meaning, and to the development of those habits of the heart and mind intrinsic to a life-long and independent learner.

Our commitment is reflected in a faculty that is as strongly committed to teaching as it is to research. It is reflected in curricular practices that discourage students from concentrating in one subject area to the exclusion of all others. And it is reflected in the College’s encouragement of interdisciplinary areas of study that underline the connections and unities among the various areas of knowledge.

The College values and nurtures the Catholic, urban, and Vincentian mission of the University. The interactions among its faculty and between its faculty and its students are characterized by personalism. Significant portions of the curriculum speak to questions of social responsibility, ethical standards for behavior, and an active engagement with the people and the challenges of the Chicago community.

Academics

The College of Liberal Arts and Social Sciences offers a wide range of Undergraduate majors, Graduate programs and Certificates.

Graduate Programs

- English (MA)
- History (MA)
- Interdisciplinary Studies (MA)
- Interdisciplinary Studies (MS)
- International Public Service (MS)
- International Studies (MA)
- Leadership and Policy Studies (MS)
- Liberal Studies (MA)
- New Media Studies (MA)
- Nonprofit Leadership (MNM)
- Philosophy (MA)
- Philosophy (PhD)
- Public Administration (MPA)
- Public Health (MPH)
- Public Service Management (MS)
- Social Work (MSW)
- Sociology (MA)
- Women's and Gender Studies (MA)
- Writing and Publishing (MA)
- Writing, Rhetoric and Discourse (MA)

Master's Programs

For the master's degree, all programs involve one or more of the following: 1) credit hours, 2) thesis, 3) paper on approved topic, 4) integrating project, 5) final or comprehensive examination, and 6) program time limitation.

Credit Hours

For the master's degree, most programs for graduate students require 48 quarter hours of course work. When the program includes a thesis, no more than eight quarter hours of registration in Thesis Research will be counted toward the degree. Specific degree requirements are listed in the departmental and program sections of this Catalog.

Thesis

The University offers the master’s degree both with and without the thesis; however, the thesis is required by some departments. The thesis is limited to the student’s field of specialization and should offer satisfactory evidence of the candidate’s potential for scholarly research.

The student is advised to consult the College Office or its website
The student, after completing the thesis, will submit it to the director of his or her thesis committee for consideration. When the thesis is fully approved, purged of all errors, and in the correct format, the student must submit an electronic copy to the College Office. The College Office will arrange for the electronic archival of your thesis with the library and your department.

### Paper on Approved Topic

The type and length of the paper is determined by the department or program that lists it as a requirement for the master’s degree. The purpose of the paper is to give evidence of the student’s ability to find, select, organize and interpret material in a manner consistent with the standards and practices of the discipline involved.

### Integrating Project

Procedures for such a project are set in advance in each specific case through consultation between the student and the department or program advisor.

### Final or Comprehensive Examination

The type and the subject matter of the examination follow the regulations established in the various departments and programs. If the student does not pass the examination, the department or program may grant permission for another examination. The examination may not be repeated until after the next convocation nor may the examination be taken more than twice.

### Program Time Limitation

Graduate students in master’s programs are expected to complete their program degree requirements within a six-year period from the first registration date for a course in the program. When a graduate student fails to finish before the end of the sixth year, the department or program director may recommend, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

---

### Doctoral Programs

The Doctor of Philosophy, the highest academic degree that DePaul University confers, is offered in the department of Philosophy. The degree shows that the recipient has demonstrated proficiency in a broad area of learning, as well as the potential to explore and advance that field of knowledge by independent research.

Following are the minimum general requirements for all candidates for the Doctor of Philosophy degree in the areas of 1) academic achievement, 2) residence, 3) admission to candidacy, 4) dissertation, 5) final examination and 6) program time limitations. Additional requirements set by the departments are stated in the departmental sections of this Catalog.

#### Academic Achievement

A student will be advised to withdraw from the doctoral program when the department judges that he or she is not maintaining satisfactory progress toward the degree. Students are required to maintain at least a 3.0 average. A course grade below 2.0 is unsatisfactory and will not be counted toward completing degree requirements. The determination of satisfactory progress is not limited to grades and grade point average, but includes all factors in the student’s performance.

#### Residence

At least three consecutive quarters beyond the master’s level must be spent in full-time study at DePaul University. Full-time study is defined as registration for a minimum of eight quarter hours in a quarter. With prior approval of the department, the student may satisfy residency by course work, by participation in seminars, or by research performed off campus. To reflect the diversity of graduate study for the Ph.D. degree at stages
other than the residency stage, doctoral candidates are full-time students who are registered for Independent Study (four hours); for Dissertation Research (four hours); or for Candidacy Continuation (non-credit).

**Admission to Candidacy**

Admission to candidacy implies that the faculty is satisfied the doctoral candidate is sufficiently knowledgeable in his or her area of specialization and in the use of research tools to be able to prepare an acceptable dissertation.

For admission to candidacy the doctoral candidate shall have had the master's degree conferred and shall have completed three consecutive quarters of full-time study beyond the master's level. Other requirements may include a comprehensive examination, departmental language or allied field study, and/or a dissertation proposal.

The College Office will record the date of admission to candidacy. There is a time limit of four years between admission to the College of Liberal Arts and Social Sciences and admission to candidacy. Once admitted to candidacy, the doctoral candidate must maintain registration in the University in each of the quarters of the academic year until the degree requirements have been completed. Among other courses, the following are appropriate to maintain registration: Independent Study (four hours); Dissertation Research (four hours); or Candidacy Continuation (non-credit). Failure to comply with the policy governing registration in the University, in each of the quarters of the academic year until the degree requirements have been completed may result in dismissal from the doctoral program. Candidacy status may be reinstated only after the student has applied for readmission (see Readmission Procedures).

**Dissertation**

The doctoral candidate will prepare a dissertation based on his or her research. The purpose of the dissertation is to demonstrate one's ability to do scholarly work that contributes to the profession and the advancement of knowledge. The candidate will: 1) select a dissertation director; 2) have a topic of the dissertation approved; and 3) form a dissertation committee to help guide the production of the dissertation. Further details about the dissertation are available from the candidate's department. All doctoral dissertations are to be published through ProQuest and entered into DePaul University's institutional repository. After all requirements have been completed, the dissertation document has been fully approved, purged of all errors, and in the correct format, the student must submit an electronic PDF copy of the dissertation to the College Office. For more on dissertation requirements, accompanying forms, and associated fees, visit here: http://las.depaul.edu/CurrentStudents/GradStudentSupport/GraduationRequirements/DissertationRequirements.asp

**Final Examination**

The dissertation is the principal basis of the final examination. After completing the dissertation, and at least eight months after admission to candidacy, candidates should submit a petition for the final examination to their department. The department chairperson notifies the Graduate Office of the date, time and place of the examination and of the names of the members of the examining committee. After the examination, the chair of the committee sends a report of the results, signed by all committee members, to the graduate office. When these steps have been completed, the doctoral candidate becomes eligible for degree conferment at the next convocation.

**Program Time Limitations**

For graduate students in a doctoral program, the time limits to complete the requirements for the Doctor of Philosophy degree are 1) between admission to the doctoral program and admission to candidacy: not more than four years; and 2) between admission to candidacy and the final examination: not less than eight months, and not more than five years. When a graduate student fails to finish before the end of his or her fourth year prior to candidacy or his or her fifth year post candidacy, the department or program director may recommend, on receipt of the student's petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

**Liberal Arts & Social Sciences Graduate Academic Student Handbook**

In addition to the DePaul University Graduate Student Handbook, the Liberal Arts and Social Sciences Graduate
Student Handbook includes requirements, rules and regulations for its graduate programs. Additional academic information and regulations applicable to specific graduate programs can be found via the program links below.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

As a graduate student you assume the responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook. This catalog does not constitute a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right to revise the content of its catalogs and schedules, and to change policies, programs, requirements, rules, regulations, procedures, calendars and schedule of tuition and fees; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; or to make any other necessary changes.

Additionally, all students are expected to adhere to the Student Code of Responsibility found in the Student Handbook.

The following graduate programs have specific handbook policies:

- History
- Interdisciplinary Studies Program
- Liberal Studies
- New Media Studies
- Philosophy
- Public Health
- Public Service
- Social Work Program
- Writing, Rhetoric, and Discourse

---

**Academic Advising**

Academic advising is an essential component of student success. Faculty work with graduate students not only on course selection and to monitor progress toward degree, but, more importantly, to be mentors and advocates through students' programs of study and beyond.

Degree-seeking students can find the name of their academic advisor on Campus Connection. Non-degree seeking students and students-at-large should contact the LAS Graduate Student Services Office for advising and assistance with registration.

**Graduate Student Services Office**

990 West Fullerton Avenue  
Suite 1200  
Chicago, Illinois 60614  
773-325-4008 (p)  
773-325-2397 (f)  
LASGraduateOffice@depaul.edu  

http://las.depaul.edu/CurrentStudents/GradStudentSupport/index.asp
Courses and Credit

Students must be registered in order to attend and receive credit for courses. The typical class extends over a ten-week period (or an accelerated five-week period in the summer). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted.

For students who work full-time, eight credit hours per term is the suggested maximum.

Graduate courses are numbered 400 - 799. Courses numbered 300 through 399 are advanced undergraduate courses that may be accepted for graduate credit within the limitations stipulated by the specific departmental chair or program director.

Students who want to enroll in undergraduate courses for personal interest while pursuing a graduate degree must submit an online application for non-degree seeking undergraduate admission found on the DePaul website.

Up to twelve quarter hours of credit (or not more than one-quarter of a program's required coursework) may be transferred from another institution, with the approval of the program director. Please contact the Graduate Student Services Office for details.

Grades, Minimum Requirements

A grade of B– or higher must be earned to receive credit for any upper-level undergraduate course (300 level) that has been approved to count toward the graduate degree. A minimum grade point average of 2.500 is required to graduate. Some programs may have a higher minimum graduation grade point average. A grade of D+ or D is unacceptable for graduate credit, and if earned in a required course, the course must be repeated or substituted as directed by the director of the graduate program. D+ or D grades remain on the academic record and are calculated into the cumulative grade point average.

Graduation

Meeting Degree Requirements

You must successfully complete all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which you were admitted. All requirements must be completed by the grading deadline of the degree conferral quarter.

Earning Degrees with Distinction

Requirements for earning a degree with distinction vary by program. Unless otherwise indicated, the minimum cumulative grade point average for distinction is 3.75. Additional criteria need to be met in many programs, such as passing a comprehensive examination or writing a thesis with distinction. Refer to your program information for any differing or specific requirements on minimum grade point average or additional criteria.

Degree Conferral

Applying for degree conferral requires the anticipated completion by the stated deadline of all program requirements including completion of all course work plus any of the following that apply: program standards, field experiences, thesis and/or dissertation requirements, qualifying or comprehensive exams, language
proficiency, and the minimum GPA requirement for graduation. Submitting the on-line degree conferral application does not guarantee the conferral (granting) of a degree from DePaul University. Degree requirements are reviewed at the end of the expected completion term indicated.

In order to have your degree conferred, you may not have any outstanding incomplete grades, transfer credit, grade changes, substitutes, or waivers. All exams must be completed and graded, and theses/dissertations or other capstone projects must be graded and submitted. Failure to have these items complete by the end of degree conferral term will prompt the Graduate Office to deny degree conferral. If you wish to postpone your degree conferral or are ineligible to graduate, you must reapply.

If you meet all requirements, your degree will be conferred within 30 days of the end of the term. Diplomas are mailed to graduates without financial holds, by the Student Records Office, generally within 45-60 days after the end of the term.

DePaul reports degree information to the National Student Clearinghouse monthly. Many companies and agencies use this service to verify awarded degrees. Your degree will only be verified by the Clearinghouse if your privacy settings in Campus Connection indicate this as releasable information at the time your degree is conferred. Please verify your privacy settings before the end of your completion term.

**Commencement**

The graduation ceremony is symbolic. It is held in June of each year. June and August degree audits occur after the ceremony, therefore these candidates may not be accurately recognized as having earned a degree. Likewise, graduation with distinction may not be able to be announced at the ceremony, but will appear on the transcript and diploma.

**Deadlines for Degree Conferral and Commencement Participation**

The University confers graduate degrees four times per year, after the autumn, winter, spring, and summer terms. The deadlines for applying for degree conferral are October 1, January 15, and July 15 respectively. The deadline for applying for the June commencement ceremony is February 1 of that academic year. (There is only one commencement, i.e., graduation, ceremony per year, and all students whose degrees are earned in that academic year are encouraged to participate.)

**Probation and Dismissal**

Each program may have its own probation and dismissal policies. Please consult with your program first and if there are no program-specific policies then the following applies.

A student is subject to probation as soon as his/her graduate GPA falls below 2.500. The student remains on probation until four more courses are taken, at which time another evaluation is made. If, at that time, the student has failed to raise his/her GPA to the required level of 2.500 the student may be dismissed.

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the college, would provide information that would demonstrate a change in the student’s circumstances to an extent that would support successful completion of the student’s degree program. The dean’s decision, based upon the merits of the petition and the recommendation of the faculty of the student’s department, may, if favorable, stipulate conditions of reinstatement.
Registration Procedures

Degree-seeking students enrolled at any time during the previous calendar year are eligible to register and do so through Campus Connection. Non-degree seeking students need permission from the Graduate Student Services Office to register.

Registration in Courses in other Colleges or Schools

Graduate students may be permitted to register for courses offered in other colleges or schools of the University. Contact the Graduate Student Services Office for specifics.

Residence Registration

Whether in residence or not, all active graduate students, master’s and doctoral levels who will use the facilities of the University (library, laboratory, etc.) or who will consult with faculty members regarding theses, dissertations or examinations, must be registered in each quarter.

Admission & Aid

Candidates interested in admission to the College of Liberal Arts and Social Sciences should direct all inquiries to the Office of Admission, DePaul University, 1 E. Jackson Boulevard, Chicago, Illinois, 60604, admission@depaul.edu, or (312) 362-8300.

Application for admission begins with an online application, found in the Admission and Aid section of the DePaul University website.

Scholarship Opportunities

Information about the majority of scholarships for undergraduates is found at: http://www.depaul.edu/admission-and-aid/Pages/default.aspx

The College awards a handful of targeted, one-off, and relatively small ($500 - $3000) scholarships annually. Some academic departments have similar scholarships for their eligible majors. These opportunities will be posted at: http://las.depaul.edu/CurrentStudents/ScholarshipsOff/index.asp

Graduate students may be eligible for graduate assistantships, which package tuition waivers with a stipend, or full or partial tuition waivers. Contact Graduate Admission (GradDePaul@depaul.edu) or the graduate program of interest for more information about what opportunities exist.
Financial Aid

Information about financial aid is found at: http://www.depaul.edu/admission-and-aid/Pages/default.aspx

Graduate Admission

Applicants are admitted to the College of Liberal Arts and Social Sciences on the basis of their ability to complete programs of study and research prescribed for the master's and doctoral degrees. Specifically, admission qualifications are measured by academic criteria. In accord with these criteria, applicants are admitted in one of three major categories: degree-seeking, non-degree-seeking, and student-at-large.

The admission process begins with an online application, found at: http://www.depaul.edu/admission-and-aid/Pages/default.aspx

Degree-Seeking Students

Applicants are admitted as degree-seeking students in either of two ways: full or conditional.

Full Degree-Seeking Status

The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies satisfying all requirements for entering a specific graduate program.
- Submission of all required supporting credentials.
- Unconditional approval by the department or program director of the applicant’s proposed course of graduate study.

Please note these are minimum requirements for full admission. The departmental and program sections of this Catalog provide additional, more specific and selective, criteria for admission to specific programs.

Conditional Degree-Seeking Status

The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies indicating a capacity to pursue successfully a specific program of graduate study.
- Submission of all required supporting credentials.
- Conditional approval by the department or program director of the applicant’s proposed course of graduate study.

A conditionally admitted applicant is eligible for reclassification to full, degree-seeking status when the conditions of his or her admission have been satisfied.

Non-Degree Seeking Students

The dean may admit as students those applicants who do not wish to pursue an advanced degree. Non-degree-seeking students may, at some future date, make application to a graduate program, but they are not accorded special consideration for admission. Students should consult the intended degree program’s website for information about application requirements.

Non-Degree Seeking Status

The minimum requirements for this status are:
Bachelor's degree conferred by a regionally accredited institution
Academic achievement in undergraduate studies indicating a capacity to succeed in graduate course work (minimum of 2.50/4.00)
Submission of official transcript from bachelor's degree granting college or university
Approval by the director of graduate admission.

Students admitted as non-degree graduate students are eligible to enroll in graduate-level courses only.
When such students apply to a graduate program, the departmental or program director of their specific graduate course of study may recommend, in writing, to the dean that a maximum of three courses (12 quarter hours) completed by the student under the non-degree-seeking status be counted toward fulfillment of the advanced degree requirements.

**Student-at-Large Status**

The College of Liberal Arts and Social Sciences may admit as a student-at-large a graduate student currently enrolled in a graduate program in another accredited institution upon the recommendation, in writing, of his or her own graduate dean.

A student-at-large must submit a graduate application. The supporting credentials required are an official transcript from the bachelor's granting college or university and a letter from the dean of the graduate school where the student is in good standing. This letter should state in general terms the course or courses the student is authorized to take.

Under no circumstances does this classification constitute admission to a degree program at DePaul University.

**DePaul Students and Five-Year Programs**

Students in any of the undergraduate colleges or schools of DePaul University are eligible to apply for admission to the College of Liberal Arts and Social Sciences while completing their undergraduate program. Some programs of study offer an accelerated master's degree that can be started in an undergraduate's senior year and completed in a minimum of one additional year. Further information about these "5-year programs" can be found within specific program descriptions in this Catalog.

---

**About**

The purpose of the African & Black Diaspora Studies Program is to provide DePaul students with a systematic, interdisciplinary, and integrated course of study of Africa & the Black Diaspora. The Program provides students with an opportunity to earn a Bachelor of Arts degree in African & Black Diaspora Studies with a concentration in Africa, Black America, and/or Afro-Caribbean and Latin America. African & Black Diaspora Studies will also train students in comparative analysis of regions (e.g., peoples, religions, philosophies) through an incorporation of the study of history, power, identity, gender, and race. The Program’s offerings provide students with opportunities to learn about and develop expertise in the cultures, epistemologies, histories, sciences, and societies of Africans and peoples of African descent. The Program prepares students to pursue professions and careers that require a systematic knowledge of Africa and its Diaspora.

**Faculty**

Julie Moody-Freeman, Ph.D.,

University of Illinois at Chicago

Amor Kohli, Ph.D.,
About

American Studies courses are methodologically grounded in many different areas of cultural studies including historiography, media studies, material culture, visual literacy, critical race theory, and gender/sexuality studies. Students are expected to gain competency in American cultural studies by mastering the theoretical and intellectual frameworks of their concentration and by learning to interpret and analyze primary documents.

History
Anthropology is the comparative study of humanity, focusing on people in all places and throughout history and prehistory. Courses engage students in the analysis of beliefs, values, and practices from a perspective that understands societies on their own terms. This perspective includes comparing the similarities and differences among different groups and appreciating and valuing different ways of living. Students study other cultures in order to learn more about their own. This curriculum affords students the opportunity to see the interaction between "what we know" and "what we do" that lies at the heart of the study of humanity.

Our curriculum combines the best parts of a critical, creative, liberal arts education with practical, professional preparation. The major courses direct the student toward the subfields of cultural anthropology and archaeology, with a focus on applied research in these sub-fields. As part of the major, students engage in several research projects, including those that expose them to the application of anthropological knowledge for non-academic audiences, and to our archaeological field school. Out-of-class research projects in the City of Chicago are integral components of several courses. They graduate with an extensive knowledge of how anthropology is actually done. We bring students farther into this practical side of the discipline than any other B.A. program in the country.

Academic careers are attractive to some graduates, but more than half of all professional anthropologists work outside of academic institutions. Some of these careers include research for public and private organizations, administration and/or public policy on the local, regional, federal, or international level; research and work in museums; intercultural communication; advertising, marketing, and public relations; human resources, public health, health care, and law. They also contribute to non-governmental and international organizations. Within the context of administration or public policy, anthropologists are engaged in cultural resource management (CRM), monitoring the preservation of cultural resources for national parks, museums, and state or municipal cultural institutions (i.e., parks and historical societies). Anthropology enhances other career paths, such as modern languages, international studies, international relations, cultural studies, and international business. Students will have completed at least four ethnographic research projects and be certified in archaeological research skills by the time they graduate.

The extensive ethnographic research experience qualifies students with B.A. degrees to work in both non-profit (social service agencies) and for-profit (marketing, design, user-based) research settings. The archaeological certification opens avenues for careers in cultural resource management (CRM), and monitoring the preservation of cultural resources for national parks, museums, and state or municipal cultural institutions.

About

The Department of Art, Media, and Design (AMD) offers a general curriculum which identifies and promotes continuing contact with the enduring values of our artistic heritage and the application of these values to the future. The educational aim of the department is to provide, through individualized instruction, a broad foundation in art practice and art history. The curriculum emphasizes fundamental artistic concepts through problem solving and experimentation.

Students can take advantage of the small class sizes and personalized instruction from studio and media art faculty. Among area universities, the department now boasts two of the finest digital computer laboratories dedicated solely to studio and media arts. Our newly renovated facility features two darkrooms, two computer digital laboratories, a teaching exhibition space, wood and metal sculpture studios, and dedicated studios for video, photography, digital imaging, sculpture, printmaking, painting and drawing.

About

The Department of Catholic Studies is intellectual in focus and interdisciplinary in nature. Rigorous intellectual study, a deepened critical understanding and an appreciation of the Catholic contribution to human civilization are its main goals. The program explores Roman Catholicism as a religious and cultural reality that expresses and motivates multiple forms of human expression. All members of the university are invited to participate in the scholarly examination of Catholicism and the development of Catholic thought. True to DePaul’s tradition, no religious test is applied to either students or faculty participating in the department. In addition to the offerings of DePaul University, upper-level students in the program in Catholic Studies are able to take selected courses at the Catholic Theological Union at Chicago. The cooperative relationship between DePaul and CTU opens to students in the program the resources of the largest Catholic school of theology and ministry in North America. The Catholic Studies major is designed to give students with differing learning objectives and career goals maximum flexibility in the design of their Bachelor of Arts degree. In order to ensure intellectual coherence in their program, all students are expected to meet quarterly with their academic advisor to design a course of study, refine their learning goals, and select classes that meet their educational and professional objectives.

About

Community service is an integral part of American life. It is often equated with volunteerism of all sorts. However, engaging in service to communities raises complex issues that go beyond teaching a child to read, feeding the homeless, or tutoring English to a newly arrived immigrant. Issues of social justice, including race, class, language, socioeconomic standing, cultural sensitivity and privilege, pervade most activities we associate with community service. Community Service Studies is an interdisciplinary experiential learning program that offers students a context for critically reflecting upon and engaging in service and volunteerism.

About

The Comparative Literature minor is designed for students who combine the drive and the ability to master foreign languages with a strong commitment to theoretical and interdisciplinary approaches to literature. Students must do a substantial portion of their work in at least one foreign language.

Although students will take many of their courses in the departments of their elected literary fields, the program in comparative literature is distinguished from national literature departments by its comparative scope and by the requirement of seminars that focus on fundamental theoretical questions regarding the nature of literature and literary inquiry. The requirements for the minor are designed to allow each student to follow a course of study that combines intellectual rigor with the pursuit of personal interests.

Michael Naas, Ph.D.
   Professor (Philosophy)
Economics analyzes the manner in which scarce resources are utilized to satisfy the wants and needs of people and society. The Economics Department offers courses that formulate, interpret, and explore ideas concerning such topics as unemployment, inflation, production and distribution, economic growth, and international economic relations. Courses emphasize the need for accurate knowledge of business institutions and economic phenomena, for theories capable of explaining these phenomena, for estimating relationships among economic variables, and for testing explanations. This analysis then forms the foundation for policy applications and recommendations on a wide range of issues.

Students learn to analyze economic data to identify and address problems that arise in a changing national and global economy, while studying the broader historical and social context in which economic relationships occur and economic policies are applied. In addition to economic theory and quantitative methods, courses cover a range of topics such as international trade, urban economics, economic history, the role of the government in the economy, money and banking, economic development, labor markets, poverty, environmental economics, and gender.

The department prepares students for careers in business, financial institutions, government and public service, graduate work in economics, law and in other areas such as business administration.

DePaul offers Economics as both a major and minor field of study through both the College of Liberal Arts and Social Sciences and the College of Commerce. In addition, the Department of Economics offers the Accelerated Bachelor-Master of Science in Economics and Policy Analysis that leads to completion of both the undergraduate and graduate degrees in five years.

About

The study and practice of reading and writing literature are central to a liberal arts education and foster skills that are critical to success in virtually all professional and personal contexts. The English department at DePaul boasts an innovative and engaging curriculum, a faculty of vibrant and highly accomplished teacher-scholars, friendly and efficient staff, committed advisors, outstanding students, and exciting opportunities for internships and other co-curricular involvement.

The department's curriculum unites historical and theoretical perspectives in literary study with sustained practice in creative and analytical writing. It encourages critical and creative thought, fosters research and communication skills, and develops a student's ability to negotiate diverse perspectives and points of view.

The English undergraduate program--one of the largest in the College--offers two concentrations, Literary Studies and Creative Writing, as well as two minor programs, Literature and Creative Writing. Junior English majors interested in graduate study can apply to the combined bachelor's/master's program in English, and those interested in teaching high school English can apply to the TEACH Program, a combined bachelor's/master's program developed and taught with faculty in the College of Education. The department also houses two graduate programs, the Master's in English and the Master's in Writing and Publishing. Students in these two programs can elect to complete a certificate in Teaching English in Two Year Colleges.

Special Programs

Internships

English students can qualify for a variety of internships, receiving significant on-the-job experience in such areas as research, writing, editing, publishing, law, corporate communications, non-profit work, and library science. Sophomores, juniors, and seniors can receive as many as 4 hours of credit toward their major (junior-year experiential-learning credit is also possible). Students might locate an internship on their own or receive assistance from Chris Green, Director of Internships in Writing and Publishing. Quarterly Career Nights (featuring panels of professionals) and Career Workshops (emphasizing internship- and job-finding skills) will also enhance students' opportunities and experience.

About

Located in the Lincoln Park neighborhood on Chicago's north side, DePaul's Department of Geography was founded in 1948. Over the last sixty-five years, the Department has grown and developed to reflect changes in the geographic discipline, in technology, and the labor market. Today, the Department includes seven full-time faculty members and six contingent faculty instructors, teaching a wide variety of courses within several sub-disciplinary and topical areas. Geography offers courses in every Liberal Studies Program Learning Domain, making it an ideal program of study for students interested in double majoring, or adding a 6-course minor.

As the largest geography department in the Chicago metropolitan region, we are positioned extremely well to be the major provider of post-secondary and professional Geography degrees and certificates. With our commitment to critical human geography and to strong specializations in Urban Geography, Geotechnologies (Geographic Information Systems and Remote Sensing), Cultural, and Environmental Geography, we offer high quality programs that lead to careers in government, GIS, community and international development, environmental management, and intelligence, to name a few. Many Department of Geography alumni continue their studies at the graduate level in geography, planning, and other natural and social sciences. Recent graduates have joined M.A. or Ph.D. programs in geography, urban planning, urban studies, and international relations at universities such as Syracuse University, Rutgers University, University of Illinois at Chicago, the University of Chicago, UCLA, University of Kentucky and the University of Colorado at Boulder.

About

In 2005, faculty from the College of Liberal Arts and Social Sciences, Communications and the Law School and staff from the Office of Multicultural Student Affairs and students from DePaul's Asian Cultural Exchange (ACE) worked with the support of the Dean's Office of LAS to found the Asian American Studies minor program. Our first two minors graduated in the spring of 2008. The program name was changed in 2010 to "Global Asian Studies" to reflect the transnational and diasporic emphasis of our program and the field of Asian American Studies more generally and to reflect DePaul's existing strengths in Asian studies.

About

The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students’ academic and professional goals. The program gives students the opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs. Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service.

The program offers the following:

- Individual, self-designed graduate program of study that builds on specific academic and professional interests.
- Ability to combine various academic disciplines in chosen areas of study.
• Choice of courses in most colleges and schools.

About

For more detailed and up to date information, please visit the International Studies Department Website.

The Department of International Studies offers a Bachelor of Arts (B.A.) degree and a Master of Arts (M.A.) degree within the College of Liberal Arts and Social Sciences. Our programs are designed to equip students with the interdisciplinary approach, critical thinking skills, and international perspectives necessary to address real world challenges. Our faculty and affiliated faculty come from diverse academic backgrounds and share a commitment to fostering critical thinking through a rigorous interdisciplinary curriculum founded in critical social theory and international political economy.

The B.A. and M.A. curricula are unique within the Midwest and far beyond for their interdisciplinary approach to international studies and their commitment to placing the themes of power and inequality at the heart of academic inquiry. Unlike conventional programs that focus on international security and economy, our program addresses the economic in conjunction with the political and social. Moreover, all students are expected to develop and maintain proficiency in a language other than English. Students learn to think in more international and interdisciplinary contexts, to value social and cultural complexity, and to question conventional wisdom. As a result, our students often engage in activism and social justice work in Chicago, nationally, and internationally.

Faculty

The department houses six core faculty and two adjunct faculty whose research and teaching interests include postcolonial theory, Middle East politics, critical social theory, migration and diaspora studies, gender and sexuality, critical development studies, international law, international political economy, and social movements. As an interdisciplinary program, we involve faculty from across the university in teaching classes, hosting events, and advising students. Affiliated faculty come from Political Science, History, Geography, Modern Languages, Latin American and Latino Studies, Anthropology, African and Black Diaspora Studies, Religious Studies, Educational Policy Studies, Environmental Sciences, and Women's and Gender Studies. Despite the varied teaching and research interests, faculty members share a commitment to examining the world critically through an interdisciplinary and international lens.

University College, Dublin, Ireland
Ireland is a small island to the northwest of the European mainland. Yet it has a compelling history and has made a major impact on the world. Irish Americans, for example, have played a significant role in the development of the United States.

The history of Ireland is an extraordinary tale of conflict and accommodation. Ireland’s complex interaction with its neighboring island Britain has meant that the study of its history raises all kinds of important questions concerning the formation of national identities; the relationship between culture and language and politics; the interaction between religion and community experience; and the struggle of the state to gain legitimacy.
Irish literature is in the front rank of world literatures. Jonathan Swift, James Joyce, W.B. Yeats, George Bernard Shaw, Samuel Beckett and Seamus Heaney have excelled in fiction, poetry and drama. Irish artists and entertainers from U2's Bono to Liam Neeson and Colin Farrell are prominent on today's international scene.

Initiated in the autumn of 2005, the minor in Irish studies at DePaul is an interdisciplinary program within the College of Liberal Arts and Social Sciences. It takes six courses to meet the requirements for the minor. Students take courses relevant to Ireland in history and English literature and from subjects such as geography, women's studies, environmental science, religious studies and political science.

About

Our program grounds students in a study of Islam as a worldview/civilization and living reality. The program engages students in exploring primary texts, history, global Muslim communities and regional issues of the Islamic world. Three assumptions undergird the philosophy of this program: Islam is a religious tradition, an historical civilization and a living reality; it has interacted with all known forms of government and thus produced varied cultural expressions; and the religious core ties all of these cultural expressions together.

Students will not only investigate the history of Islam, major texts and ideas and sources in their coursework, but will also focus intensively on specific aspects of global Islamic experiences. Included in this coursework are the opportunities to take a closer look at the various histories of Islam in places such as the Middle East, Africa, South Asia, Central Asia, Europe and the Americas. Central to this project is a focus on specific contexts, local communities and individuals that continue to shape the legacies of Islam in their unique contexts.

This approach to the study of Islam is currently unmatched anywhere else in the United States and perhaps the world.

About

The Latin American and Latino Studies Program explores the cultural contributions of Latin Americans to the global community and highlights perspectives and traditions that have developed in the region. It analyzes the multicultural character of the peoples of Latin America by calling attention to the complex interplay among Indigenous, European, Semitic, Arab, Asian and African societies in the region. It explores the profound linkage that has emerged between Latin America and the United States, particularly through the construction of Latino communities in the U.S.

About

The LGBTQ Studies program posits sex and sexuality as central analytical categories within many different fields of inquiry. This emerging discipline scrutinizes the cultural production, dissemination, and vicissitudes of sexuality while attempting to decipher the meanings inscribed in the practices and discourses of sex. We may say that LGBTQ Studies does for sex and sexuality what women’s studies does for gender. It has grown out of women’s and gender studies, cultural studies, and the post-1969 discourse on the politics of sexuality both in the public sphere and the more limited arena of scholarly endeavor.

About

The Master of Arts in Liberal Studies (MALS) program offers a multidisciplinary approach to graduate education which emphasizes liberal education and enhanced intellectual skills that are valuable in a wide variety of careers. It is particularly designed for serious learners, or those who wish to become serious learners, from recent college graduates to men and women in later life.
The Master of Arts in Liberal Studies program draws on faculty from throughout the College of Liberal Arts and Social Sciences at DePaul. The following faculty represent those who have been active in the program in the current academic year.

David Brenders, Ph.D.
Associate Professor (Communication)
Purdue University

John Burton, Ph.D.
Associate Professor (American Studies)
College of William and Mary

Ada Shu-Ju Cheng, Ph.D.
Associate Professor (Sociology)
University of Texas at Austin

James Fairhall, Ph.D.
Associate Professor (English)
State University of New York at Stony Brook

Laila Farah, Ph.D.
Assistant Professor (Women's and Gender Studies)
Southern Illinois University

Frida Furman, Ph.D.
Professor (Religious Studies)
University of Southern California

Jonathan Gross, Ph.D.
Professor (English)

University of California at Los Angeles

Rose Spalding, Ph.D.

Professor (Political Science)
University of North Carolina

Charles R. Strain, Ph.D.

Professor (Religious Studies)
About

The Military Science Department offers students, as an adjunct to their major field of study, the opportunity to achieve commissions as Army officers in either the active Army, the U.S. Army Reserve, or National Guard through the Reserve Officers’ Training Corps (ROTC) program. The program develops leadership, managerial potential, and the qualities of self-discipline, confidence, personal integrity, and individual responsibility. Emphasis is on learning through doing. The department’s program prepares the student for a period of service as a commissioned officer in the United States Army, a service that can ultimately lead either to a military career or to a more responsible place in the civilian world. The curriculum is divided into two parts: Basic and Advanced. The Basic course normally encompasses the freshman and sophomore academic years. Basic-course students are under no obligation to enter into a contractual agreement with the U.S. Government. The advanced course encompasses juniors and seniors who have successfully completed the on-campus basic course. Students who have attended a special six-week summer training program, students who have previous Junior ROTC training, and qualified veterans may also be admitted into the advanced course. Upon enrollment in the Advanced Course, the student enters into a contractual agreement with the United States Government, whereby the student agrees to accept a commission in the United States Army for a period of active or reserve duty after his graduation. The government, in return, provides a monthly stipend of $300-500 for up to ten months of the school year.

Students may compete for ROTC two-year and three-year scholarships during their freshman or sophomore year. Scholarships can pay full tuition and fees, annual book allowance of $1,200, and $300-500 monthly during the remainder of the winner’s undergraduate education. A Leaders Training Course summer program is available to selected students who have been unable to complete the normal two-year progression of Military Science. Students attend a six-week program at Fort Knox, Kentucky. This program, in conjunction with the normal two-year advanced program of Military Science, is designed to prepare the student for a period of service as a commissioned officer in the United States Army. The program provides an introduction to a variety of military-related topics. It involves instruction in map reading, marksmanship, first aid, tactics, fundamentals of leadership, and basic military skills.

About

The programs in Modern Languages seek to develop a student's ability to speak, understand, read, and write another language and to foster an appreciation of its literature and civilization. The department regularly offers courses in American Sign Language, Arabic, Chinese, French, German, Ancient Greek, Italian, Japanese, Latin, Russian, and Spanish.

Major programs are available in Arabic Studies, Chinese Studies, French, German, Italian, Japanese Studies, and Spanish; these consist of advanced courses at the 200- and 300-levels. Students may begin their Modern Language major upon completion of elementary and intermediate courses (100-level courses) or successful placement testing. Minor programs are available for all languages.

All students are strongly encouraged to participate in DePaul's Study Abroad Programs in China, France, Germany, Greece, Italy, Japan, Mexico, Spain, Poland, and other locations. Consult the Study Abroad Office for current offerings.

About

New Media Studies is an interdisciplinary field that studies the processes and platforms through which digitally-encoded media (photographs, text, audio, film) operate and circulate. New media studies is also the study of how digitally-encoded media products are combined into “new” media forms, such as web sites, webcasts, interactive games, graphic designs, sales and technical information. The Master of Arts in New Media Studies combines critical interpretation and situated practical action in coursework to prepare its graduates to function as productive and responsible individuals in the evolving social contexts created by the new media.

Faculty

Antonio Ceraso, Ph.D.

About

The Peace, Justice, & Conflict Studies Program offers students a B.A. major curriculum that helps them reflect on the origins and causes of conflict, violence, and social injustice as well as the wide spectrum of conflict intervention, from armed conflict, through governmental and organizational peacebuilding, to local and interpersonal conflict resolution. The Program also introduces students to strategies for resolving interpersonal, communal and international conflicts peacefully, as well as tactics that promote the common good in a way that addresses the structural origins of violence. The Peace, Justice, and Conflict Studies Program addresses the need for a critical examination of the origins and root causes of violence and conflict. The Program includes frank debate about the efficacy of nonviolent in comparison with violent approaches to social change. The inclusion of conflict theory and intervention as part of this program is a distinctive aspect of this program; the arena of conflict resolution offers many potential career options. The Program emphasizes hands-on, experiential components in the introductory course, the final seminar/internship and the workshops which emphasize skill training.

Students and faculty in Peace, Justice, & Conflict Studies question what constitutes a just society and world, what peace and peacebuilding can accomplish in a world full of conflict, and how attitudes toward social justice, violence, and peace reflect and reveal American and other cultures' values, beliefs, prejudices, assumptions, and perceptions.

Students are expected to gain competency in dealing with situations of conflict and injustice by mastering the theoretical and intellectual frameworks related to peacebuilding, human rights advocacy, and justice development, by learning to interpret and analyze real life situations in their complexity, by understanding how to build strategies for negotiation, consensus-building, advocacy, partnership development, and other intervention tools, and by understanding various research methodologies and the use of media and creative outlets.

Students majoring in many social science, humanities, and other interdisciplinary programs will find it beneficial to double major or minor in Peace, Justice, & Conflict Studies. Students who pursue the major are well prepared for graduate work in the humanities or social sciences, and specifically in peace, justice, or conflict studies, as well as for professional training in law, public service, or business.

About

The Department of Philosophy serves the needs of the student who seeks an understanding of philosophical issues for personal enrichment, the student who desires a more fundamental appreciation of philosophy in support of law, medicine, business, and various academic disciplines, and the student who wishes to continue the study of philosophy at the graduate level.

Through its courses and programs, the department acquaints students with various philosophical approaches and with basic problems posed by diverse thinkers. Courses have been designed to highlight both the humanistic and technical features of philosophy.

The department also recognizes the important need for skills and training. Its courses in logic and analysis have been designed to help students become more perceptive in their experiences and more critical in their thinking.

Further, the department is aware that in our age of rapid change, society often tends to neglect the meaning and worth of the person. Courses are therefore offered which investigate and emphasize the dignity of the person; and by helping one understand the nature and grounds of ethical judgments, to promote an appreciation and ordering of human values.

The department has designed all of its course offerings with the aim of both ensuring that our Liberal Studies courses remain responsive to the needs of the student who does not plan to specialize in philosophy and offering the student who chooses to major or minor in philosophy a rich and diverse curriculum.

The department is particularly proud of its "Philosophy Circle," an undergraduate philosophy club which provides a forum for the exchange of ideas between faculty and students.

About

Political Science is the study of the organization and behavior of people, groups, and institutions which make up our government and the larger political system. The program is designed to introduce students to questions, perspectives, and arguments about the political forces that shape their lives. As such, the program has value for Liberal Studies students as well as for those who may choose the discipline as a major field of study. Students find the substance and the methods of the discipline useful in the legal, business, civic, communications, governmental, and academic professions, as well as any endeavors that draw them into public service.

About

The mission of the Master of Public Health Program is the preservation, enrichment, transmission, and application of interdisciplinary knowledge in public health that emphasizes social justice, service to vulnerable populations and excellence in public health practice.

The Master of Public Health Program is an interdisciplinary program in which students take classes based in a number of departments and programs throughout the University. These include: anthropology, applied statistics, biology, communication, environmental sciences, law, nursing, psychology, public services, social work and sociology. The interdisciplinary program has one focus--community health practice.

About

Public Policy Studies is a discipline that explores the role and impact of decision-making by governments. The discipline includes knowledge of both process and substance of a particular policy area. Thus, a student in public policy must have both generalist and specialist skills to apply to a particular public problem. In terms of political process, the study of public policy examines questions of how public policy is formulated, implemented, and evaluated over time. It also explores notions of agenda-setting and framing of issues that lead to a problem gaining the attention of the government. Public policy specialists and analysts are hired by all levels of government. During the past several years in addition to the government sector, the nonprofit and private sectors have sought public policy analysts for employment. Therefore, the curriculum prepares students for being public policy specialists in both the private and nonprofit sectors in addition to the public sector. The curriculum also is tailored to prepare students who would like to continue their education in graduate programs or law schools. The faculty members of the department work closely with students to place them in internships, and when possible, employment positions.

The Public Policy Studies Department (PPS) offers an undergraduate degree (B.A.) that allows majors the option to pursue concentrated work in the areas of Environmental or Urban Studies. Students take a common core of courses dealing with public policy theories, processes, methods of public policy analysis, and important environmental and urban policy issues. In addition, a data analysis course is required that the student selects from a list of approved courses. Microeconomics or statistics is strongly encouraged.

Beyond the core curriculum, students choose either the Environmental Studies or Urban Studies track, selecting from a group of courses within these specializations. A capstone course reconvenes the students at the end of their curriculum to study a public policy problem in-depth under the direction of a public policy professor. The capstone changes approximately every three years, to reflect a current issue on the public policy agenda.

A required orientation occurs before classes begin in the Autumn quarter where students are assigned an advisor for individual attention to the student's career path.

About

The Department of Religious Studies offers students the opportunity to engage in the academic study of religion. Because our era is characterized by a resurgence of religion in the public sphere, we see that religion has become central to contemporary culture, politics, identity, and conflict in every part of the globe. At the same time, our world is marked by an emerging pluralism, as globalization, migration, and technology bring diverse religious communities in closer proximity, and create new religious communities as well. Drawing on a host of academic disciplines, religious studies challenges students to encounter the traditions of the world in all their rich diversity, and also prepares them to facilitate the important conversations of our day. Further, students may find that the study of religions can help them respond not only to political, social and environmental challenges, but also to existential questions faced by all peoples.

A truly interdisciplinary field, the study of religion at DePaul develops broad cultural literacy and intellectual skills in the critical analysis of history, anthropology, literature, philosophy, sociology, theology, the visual arts, psychology, and gender studies. In this way, a religious studies major or minor is positioned to pursue a wide variety of careers, as well as to become a bridge between the specialist's perspectives on religion and the wider world that is often in need of these perspectives. In addition to academic careers, religious studies majors have worked in the fields of law, social work, regional and international business, governmental and non-governmental service, secondary school teaching, and service in religious communities.

Religious Studies at DePaul expresses the university's distinct identity, which respects engaged pluralistic inquiry in all religious issues and traditions. The department is committed to DePaul's Catholic, Vincentian and urban heritage, mission, and identity, and to its goal of establishing the university as a model of diversity. The department's course offerings reflect the diversity of the city of Chicago and of the students who attend DePaul.
In the Department of Religious Studies, students can not only study multiple religious traditions, but also explore a range of topics and questions related to these traditions in various parts of the world. Because of the interdisciplinary character of our department, and of the field in general, students can approach these traditions and questions from multiple methodological and disciplinary perspectives. The study of religion includes not only the traditional areas of sacred texts, myths, rituals, and doctrines, but also the ways in which political, social and economic forces shape these phenomena for religious communities.

The twenty-five full-time faculty constitute one of the largest and most diverse undergraduate departments of religious studies in the United States. This size and diversity enables us to offer courses in a wide range of geographical regions and historical periods. The research and teaching interests of the faculty include South and East Asia, Africa and the African diaspora, North and Meso-America, the Middle East and Europe, and focus on Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism, Shinto, as well as Native American, African American, and Latino/a religious traditions. The Department of Religious Studies sponsors the Center for Interreligious Engagement; it also has a close working relationship with the Catholic Studies and Islamic World Studies programs. Given the complexity of the subject matter, in their work the members of the department draw upon anthropology, art history, biblical studies, economics, environmental studies, ethics, gender studies, history, linguistics, literature, political science, philosophy, psychology, sociology, and theology. In addition to excellence in teaching, the faculty also maintain high standards for research, and are actively engaged in presenting at major academic conferences and publishing their work in high-ranking professional journals.

Beyond work with texts, students may also study religion through the media of film and video, music, the visual and dramatic arts, and the internet. The department emphasizes comprehensive learning in writing, synthetic and analytic thinking, and oral communication skills. Students can go beyond their course work with further learning opportunities, such as the senior thesis, independent study, study abroad and internships, and service learning, both locally and internationally.

The Department encourages students in all major concentrations and minors to engage various questions related to the study of religion, such as (but not limited to):

- What is religion?
- How do religious communities come into being and define themselves?
- How do religious communities form worldviews, doctrines, and practices, and how does the study of religion help us to understand their change over time?
- How do sacred texts come into being, and what do they communicate to us?
- How does religion shape culture, and how does the wider culture define religion?
- What is the role of religion in the contemporary world?
- How do religion or religious sensibilities help us to relate (or hinder us from relating) to each other?
- How can an informed student of religion evaluate the rival claims to truth and moral rightness of different religious and secular ideologies?
- How do religious traditions and texts treat issues of sexuality and gender, race and class?
- How have religious traditions interacted with each other in the past, and how do they continue to do so today?

About

We educate women and men to be effective public service leaders in the global community guided by the values of St. Vincent de Paul.

The School of Public Service promotes effective management of nonprofit organizations and government agencies, and fosters the development of sound public policies affecting the delivery of social services. Programs of instruction, research, and community involvement prepare adult learners to pursue administrative careers in a broad range of public service organizations. Following the tradition of St. Vincent de Paul, the School of Public Service devotes special attention to policies and practices that promote social equity through the delivery of affordable, quality services to those in greatest need.

While the knowledge and skills required to administer organizations in the public sector are becoming indistinguishable from the best practices used in the private and nonprofit sectors, the ultimate goals of these organizations provide a sharp distinction. The School of Public Service keeps this distinction firmly in view in its course offerings. Degree and certificate programs are interdisciplinary, drawing primarily upon the knowledge bases of sociology, economics, political science, law and the human-service professions. The curriculum carefully balances theoretical and applied approaches to contemporary challenges of administration and policy analysis.

The School emphasizes ethical leadership and seeks to be “international by design” in all aspects of its curriculum but especially by offering short-term, executive-style, study-abroad experiences for working professionals. Faculty encourage all students to take advantage of more than a dozen courses to developed and developing countries. Consistent with its mission, the School of Public Service purposefully strives to build an academic community that is racially, ethnically, religiously, and otherwise diverse. Part-time and full-time students are equally welcome.

About

The Master of Social Work (M.S.W.) degree program is designed to prepare students for advanced social work, with an emphasis on community practice. The M.S.W. degree prepares its graduates for work and leadership in broad and varied human service organizations which span child welfare, health and mental health, community planning, family services and the like.

About

The Department of Sociology consists of 20 full-time faculty, 350 undergraduate majors, and over 100 graduate students. Founded in 1922, the department has a long tradition of inspiring students to apply sociology to the world around them.

Sociology is the study of groups, social interaction, and social institutions. To study these, the department has developed a core curriculum centered on sociological methods (how we know) and sociological theory (how we explain). Beyond these core courses, faculty areas of interest are wide-ranging, which is reflected in the variety of courses and undergraduate concentrations we offer.

Our location in the Lincoln Park neighborhood in Chicago gives students access to a remarkable range of community service opportunities, field experiences, and internships. With its ethnic communities, economic development, and urban concerns, Chicago serves as a rich laboratory for research and observation.

About

Women's and Gender Studies is an interdisciplinary department offering an undergraduate major and a minor, a 5-year B.A./M.A., a Master of Arts (M.A.), and a 4-course Graduate Certificate. Women's and Gender Studies courses examine women’s lives, conditions, and contributions within their historical, social, cultural, national and transnational contexts and they explore how gender is constructed and negotiated within and across societies. Women's and men's identities and experiences are examined through the constructs of gender, race, class, age, ability, sexuality, culture, religion, nation, etc. within broader historical, social, and global contexts, such as colonialism, globalization, among others.

Through feminist and gender-based theories and methodologies, the Department of Women's and Gender Studies offers critical analyses, reflections, and contributions to knowledge regarding interlocking systems of oppression and privilege, thereby addressing issues of power, resistance and social transformation. In addition, the emphasis on critical theory and analysis allows for work that interrogates feminist discourses as well as those of other disciplines in the arts, humanities, social sciences, and natural sciences.

The interdisciplinary Women's and Gender Studies major and minor combine courses taken in the Department of Women's and Gender Studies with approved elective courses offered in other departments and programs around the university. Courses are offered regularly by many departments in the college of Liberal Arts and Social Sciences—in the social sciences, the humanities, philosophy, and religion—as well as by the College of Communication and the College of Education.

In addition, many students decide to combine a Women’s and Gender Studies major with a second major in another discipline. A double major is a rich educational experience and is actually easy to accomplish. To do so, you can double count courses that fulfill both Women's and Gender Studies and Liberal Studies requirements, and you can double count half of the courses that fulfill the requirements of both majors. And we now have a 5 Year B.A./M.A. Program that allows you to get both an undergraduate and graduate degree in five years.

Students must apply their junior year for the program.

A major, double major, minor, and/or M.A. in Women’s and Gender Studies prepares students for graduate study in many fields (law, social work, sociology, psychology, history, art and art history, communication, Latin American/Latino Studies, African and Black Diaspora Studies, International Studies, among many others) as well as for careers in the public and private sectors, including social services, social justice, public policy, education, media and popular culture, advocacy, creative arts, counseling, and more.

Students who would like to know more about the Department of Women’s and Gender Studies are invited to speak with the department chair, and other faculty members of the department (5th Floor of Schmitt Academic Center) and/or visit the Department of Women's and Gender Studies website.

About

The department of Writing, Rhetoric, and Discourse (WRD), one of the largest departments at DePaul, is dedicated to studying the history and theory of literate activity and helping students excel as writers in a wide range of academic, professional, and public settings. WRD is home to DePaul's First-Year Writing program; in addition, the department offers the Minor in Professional Writing and the major in WRD. At the graduate level, the Master of Arts in WRD addresses writing in professional and technical contexts, the preparation of postsecondary teacher-scholars in writing, and the study of language for writers. The Combined B.A./M.A. in
WRD allows undergraduates to begin taking graduate courses in their senior year. The department's Master of Arts in New Media Studies prepares graduates to function as productive and responsible individuals in social contexts created by new media through both critical interpretation and situated practical activity.

The act of writing in general and each student's writing in particular are of central concern in all WRD courses. Theories of language, rhetoric (how to make effective choices as writers), and discourse (the way writing structures human activity) develop students' understanding of how the individual act of writing is bound up in broader contexts of institution and culture.

WRD is made up of more than 70 faculty members, all of whom teach at the undergraduate level. The department's Graduate Faculty comprises nationally recognized researchers in rhetorical theory and practice, composition theory, writing pedagogy, applied linguistics, second language writing, professional and technical writing, and writing program administration.

Modern Language Option

The Modern Language Option (MLO) is available to any student in the Liberal Studies Program of any College major who studies a modern language beyond the level necessary to meet the College’s Modern Language Requirement (MLR). Students selecting the MLO may substitute two courses of a three-course language sequence for two Learning Domain requirements. For the first modern language the sequence must be at the intermediate level or higher; for a second modern language it can be at the beginning level. Students may use the MLO according to the following combinations of Learning Domains: Philosophical Inquiry OR Religious Dimensions; Understanding the Past OR Self, Society, and the Modern World; Arts and Literature OR Scientific Inquiry (cannot substitute for the lab science requirement.) Students should seek assistance from an academic advisor about proper initial modern language placement before discussing the MLR and MLO.

Pre-Law Study

The Association of American Law Schools does not consider it appropriate to prescribe certain undergraduate degree programs for students who are planning to study law at the professional level. The Association does, however, consider certain skills and knowledge essential for later success in law and appropriate for study on the undergraduate level.

Pre-law study in the College of Liberal Arts and Social Sciences entails advanced course work that further develops the capacities and skills essential for satisfactory performance in law school. Specifically, pre-law study sharpens: (1) the ability to use the English language skillfully and effectively in oral and written advocacy situations; (2) the power to think clearly, critically, and independently in situations requiring problem-solving ability and sound judgment; and (3) the ability to use and understand statistical calculations. Moreover, pre-law study is intended to promote an understanding of the psychological processes, economic systems, political organizations, and social structures essential to the study and practice of law. Students who are considering applying to law school should fulfill their open elective requirements with challenging, upper-level courses that expand the knowledge areas and skills mentioned above.

Admission to law school is based on scores achieved on the Law School Admissions Test (LSAT), collegiate performance, extracurricular activities, work experience, and letters of recommendation.

Students who want to prepare for law school should, whatever their academic major, consult with Dr. David Barnum (dbarnum@depaul.edu) in the Department of Political Science.

Study Abroad Program

A study abroad experience is an important part of a liberal education. The opportunity to live, study, and work with people from around the world provides students with a way to not only gain international competence and skills, but also helps them to more clearly understand their own identities and agency within a global context. Study Abroad programs are designed to emphasize social, political, historical, and cultural understanding through immersion in other cultures and societies.

Program lengths range from one year to one week. In traditional programs lasting one quarter or more, students live and take courses on site. Short-term programs are topic-focused tours led by DePaul faculty exploring specific aspects and issues of a country or society. These programs typically last 2-3 weeks and are offered during breaks between terms. First Year Abroad programs are for first-year students and combine on-
campus study of a location prior to a one-week trip to that area.

Program fees ordinarily cover local transportation associated with course excursions, accommodations, and some meals. Short-term program fees also cover round-trip airfare. In addition students pay regular DePaul tuition for the credit received while abroad.

Courses taken through the Study Abroad Program may be used to fulfill Liberal Studies domain requirements (including experiential learning), modern language requirements, major field requirements, or open electives.

Please visit the Study Abroad Program's website for current offerings: http://studioabroad.is.depaul.edu/

**TEACH Program**

This program provides students the opportunity to complete in five years an undergraduate degree in a core arts and sciences major and a Master’s of Education degree with State of Illinois secondary education teaching certification in a content area related to their major. As a combined degree program of the College of Liberal Arts and Social Sciences and the College of Education, the program is collaboratively developed, governed, and taught by faculty from both units.

Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Learning course TCH 320, Exploring Teaching in an Urban High School, and meet other application criteria prior to applying; these include completion of at least 16 hours at DePaul and a 3.0 GPA. During their Senior Year, students are required to complete a program capstone course and three 400-level courses that count toward both their undergraduate and graduate degrees. The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois Certification requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be certified to teach English, History, or Social Science at the 6th-12th grade levels.

A full description of the Program can be found in the College of Education graduate course catalog.

**Certificates**

A bachelor’s degree is required for admission to all of these certificate programs except for Geographic Information Systems.

**Community Development**

This program offers community development specialists skills in organization planning, leadership development, and program evaluation. The program allows established and emerging professionals to broaden their perspective on urban-development programs in an inter-disciplinary learning environment by including knowledge from psychology, public service, sociology, geography and liberal studies.

Students must successfully complete a minimum of 16-quarter hours of graduate credit. Each course carries
four-quarter hours. Students then must participate in a non-credit research colloquium. Each participant of the colloquium makes a presentation before a small group of students and faculty members. No more than two courses earned toward the certificate shall come from one department. Please note that the list of courses is subject to change.

Course Requirements

- MPS 571 METROPOLITAN PLANNING
- Select three (3) from the following:
  - GEO 441 GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT
  - MLS 404 THE CITY
  - MPS 526 LOCAL GOVERNMENT ADMINISTRATION
  - MPS 572 URBAN POVERTY SEMINAR
  - MPS 573 URBAN AND COMMUNITY DEVELOPMENT
  - PSY 654 COMMUNITY PSYCHOLOGY
  - PSY 680 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
  - SOC 426 URBAN DEVELOPMENT POLICIES
  - SOC 424 THE SOCIOLOGY OF HOUSING

Students may also enroll in the following elective courses, with permission of the program director and often the approval of the instructor. Generally, participants will be limited to one (1) of these courses:

- MPS 529 STRATEGIC MANAGEMENT AND PLANNING
- PSY 495 GRANT WRITING IN PSYCHOLOGY
- PSY 520 PRINCIPLES OF HUMAN DIVERSITY
- PSY 567 SPECIAL TOPICS IN COMMUNITY PSYCHOLOGY
- PSY 569 SEMINAR IN PROGRAM EVALUATION
- SOC 423 RESEARCH ON URBAN CULTURES
- SOC 360 SOCIAL SERVICES IN CONTEMPORARY SOCIETY (CROSS-LISTED AS SOC 432)
- SOC 444 POLICING INEQUALITY

Geographic Information Systems

The Certificate Program requires 20 hours of instruction. It provides sophisticated education in cartography/GIS and proper training for employment in the geotechnology industry. There are five required courses to complete the certificate:

- GEO 241 GEOGRAPHIC INFORMATION SYSTEMS I
- GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
- GEO 243 REMOTE SENSING (FORMERLY GEO 343)
- GEO 343 REMOTE SENSING II or GEO 344 GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY
- GEO 391 RESEARCH TECHNIQUES

GEO 241, 242 and 344 must be taken in sequence. GEO 241 is a pre-requisite for GEO 391. GEO 243 can be taken at any time. Please contact the Department if you are considering pursuing the GIS Certificate, even if you are a declared geography major.

In order to earn a certificate in GIS, a student must:

- Earn at least a grade of C- in each Certificate course.
- Earn at least a cumulative GPA of 2.0 for all courses applied to the Certificate.
- Earn a letter grade. The pass / fail option may not be selected for courses in the Certificate.
Metropolitan Planning and Development

This certificate program is designed for individuals who want to develop analytical skills and stay current on issues of regional land use, transportation, and economic development. It provides students with a perspective on the institutions of municipal and metropolitan planning and issues affecting the delivery of public services, and it explores innovative solutions to urban and suburban development problems. This certificate is offered in conjunction with The Chaddick Institute for Metropolitan Development. The Institute offers a variety of programs regarding land use, infrastructure and transportation in the region.

Course Requirements

- MPS 571 METROPOLITAN PLANNING
- Select two from the following:
  - MPS 526 LOCAL GOVERNMENT ADMINISTRATION
  - MPS 529 STRATEGIC MANAGEMENT AND PLANNING
  - MPS 541 ECONOMIC FOUNDATIONS OF PUBLIC SERVICE
  - MPS 543 POLICY IMPLEMENTATION IN A BUREAUCRATIC CONTEXT
  - MPS 546 ADVOCACY AND LOBBYING
  - MPS 573 URBAN AND COMMUNITY DEVELOPMENT

Teaching English in Two-Year Colleges

Students in the M.A. in WRD may complete the Certificate in Teaching English in Two-Year Colleges, an interdisciplinary program housed in the Department of English and taught by faculty in both English and the Department of Writing, Rhetoric, & Discourse. The program is designed to prepare prospective teachers of introductory classes in English, writing, and the humanities in city and community college settings. Participants in the Certificate Program will learn to teach critical and analytical reading, the processes and disciplines of writing, and other aspects of the arts, humanities, or communication curriculum in two-year colleges.

WRD students must complete at least six courses toward their master’s degrees before applying to the program. Applicants must submit the following to the director of the Certificate program:

- Cover letter describing interest in teaching in the two-year college
- Current CV (résumé)
- Undergraduate and graduate academic transcripts
- Sample of recent academic or professional writing
- Names of two faculty references

Course Requirements

- ENG 474 TEACHING LITERATURE
- WRD 540 TEACHING WRITING
- One course from the following list:
  - WRD 506 MULTICULTURAL RHETORICS (FORMERLY ENG 406)
  - WRD 550 TOPICS IN TEACHING WRITING AND LANGUAGE when the topic is appropriate (e.g., Teaching Writing Online; Teaching ESL)
  - ENG 475 TOPICS IN LITERATURE: Teaching Popular Literature and Popular Culture
  - ENG 475 TOPICS IN LITERATURE: Teaching Poetry
  - ENG 475 TOPICS IN LITERATURE: Teaching Women’s Literature
  - WRD 582 WRITING CENTER THEORY AND PEDAGOGY (CROSS-LISTED AS WRD 395)
  - Another course approved by the Program Director
- ENG 509 INTERNSHIP
Teaching English to Speakers of Other Languages

The WRD department offers a Graduate Certificate in TESOL, which may be completed by students in an existing DePaul graduate program or by students who wish to complete only the Certificate. Made up of courses in the programs of Writing, Rhetoric, & Discourse, Bilingual-Bicultural Education, and Modern Languages, the Certificate prepares students to teach English as a Second Language (ESL) to adult learners in the United States or abroad. The Certificate may also be attractive to faculty at non-U.S. institutions who wish to come to the U.S. for education in working with second language learners.

Course Requirements

- One Theory course from the following list:
  - BBE 526 THEORETICAL FOUNDATIONS OF TEACHING ESL
  - MOL 454 THEORETICAL FOUNDATIONS/CURRENT RESEARCH SECOND/FOREIGN LANGUAGE ACQUISITION
  - BBE 466 FIRST AND SECOND LANGUAGE ACQUISITION
  - BBE 510 SPECIAL TOPICS IN LANGUAGE EDUCATION (when topic is relevant)
  - WRD 512 TOPICS IN LANGUAGE (when topic is relevant)
- One Methods course from the following list:
  - WRD 543 TEACHING ESL WRITING
  - WRD 544 TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE
  - WRD 550 TOPICS IN TEACHING WRITING AND LANGUAGE (when topic is relevant)
- One Sociolinguistics course from the following list:
  - WRD 507 GLOBAL ENGLISHES
  - WRD 514 SOCIOLINGUISTICS
  - BBE 510 SPECIAL TOPICS IN LANGUAGE EDUCATION (when topic is relevant)
- One Language Structure course from the following list:
  - WRD 546 PEDAGOGICAL GRAMMAR
  - WRD 512 TOPICS IN LANGUAGE (when topic is relevant)
- 20 hours of field experience working with adult language learners. Field experience will be arranged individually with the Coordinator of the Certificate program.

Certificate students who are concurrently completing a graduate degree program at DePaul must work with the Graduate Director of their program’s department to determine whether courses taken for the TESOL Certificate may be counted toward their Master’s degree requirements.

Students completing the Master’s in Bilingual-Bicultural Education can complete the Certificate program by taking their Theory and Sociolinguistics courses in BBE and their Methods and Language Structure courses in WRD; they would need to complete all requirements for the BBE program to receive the Master’s degree.

Admission Requirements

Applications are accepted at any time, and students may begin the program at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor’s degree. To apply to the program, prospective students must submit the following materials:

- an LAS graduate admission on-line application [application fee is waived for current DePaul students]
- transcripts from all schools attended
- a personal statement of 300-500 words describing their interest in the program, prior experience in TESOL or related fields, and professional goals for pursuing the certificate
Women’s and Gender Studies

Graduate Certificate Program

The Women’s and Gender Studies Graduate Certificate Program at DePaul University is available both to non-degree seeking students and to students in other DePaul graduate degree programs.

The Program's requirements are

- WGS 400 FEMINIST THEORIES (CROSS-LISTED AS MLS 440) (offered Fall Quarter only)
- Three graduate-level elective courses

It is highly recommended that students take the foundational course, WGS 400, prior to the other required three WGS electives. The elective courses may be taken from the Women's and Gender Studies offerings and/or from courses in other departments and programs in the College of Liberal Arts and Social Sciences that have been approved by the Department of Women’s and Gender Studies.

To be considered for the certificate program, please follow the directions below.

Non-degree seeking students

Applications are accepted on an ongoing basis. Complete a DePaul University Liberal Arts and Social Sciences graduate admission online application; submit undergraduate and (if applicable) graduate transcripts and a personal statement of 300-500 words (describing your interest in Women’s and Gender Studies, any prior experience in the field, and personal or professional goals for pursuing the certificate).

Students enrolled in other DePaul graduate degree programs

Applications are accepted on an ongoing basis. Complete a DePaul University Liberal Arts and Social Sciences graduate admission online application. Submit undergraduate and (if applicable) graduate transcripts, a personal statement of 300-500 words (describing your interest in Women’s and Gender Studies, any prior experience in the field, and personal or professional goals for pursuing the certificate), and a letter from the Director of Graduate Studies in the degree granting department indicating whether interdisciplinary courses in Women’s and Gender Studies may be counted toward departmental degree requirements. Submit transcripts, personal statement and letter from the other graduate program.

Completed applications are reviewed by the Department of Women’s and Gender Studies. Admission decisions are based on the prospective student’s ability to complete the academic requirements of courses in the program. The Graduate Director may use the personal statement as a basis for advising certificate students on the selection of courses and on any academic skills development that would aid successful participation in and completion of WGS graduate courses.

Descriptions of courses offered through the Department of Women’s and Gender Studies can be found in Campus Connect through the "Search for Classes" function.

For more information please contact the Women’s and Gender Studies Graduate Program Director, Dr. Laila Farah (773-325-4464 or ifarah@depaul.edu), or visit the Department of Women's and Gender Studies website, http://las.depaul.edu/wms/
Academic Advising

Academic advising is an essential part of student success. The College is committed to helping each student form a unique and coherent academic plan from the three components of the undergraduate career: the Liberal Studies or General Honors program; the major field of study; and open electives.

Students declare majors, concentrations, and minors through Campus Connection.

Once a student has declared a major, a faculty member from that department is assigned to the student as an academic advisor. The faculty advisor helps the student understand the requirements of the major and how to choose non-major course work to meet the student's needs and interests. In addition, the faculty advisor may inform the student about internships, studying abroad, and preparing for graduate or professional school.

Faculty advisors work closely with staff professional advisors in the Undergraduate College Office and in the larger academic departments (see Advising Staff). Staff professional advisors also meet face-to-face with students.

Students can find the name and contact information for their academic advisor on Campus Connection.

Student Support

The Graduate Student Services Office assists graduate students throughout their academic careers. Providing administrative support to the academic programs, the Graduate Student Services Office facilitates orientations, transferring academic credit, awarding of assistantships and tuition waivers, registering for independent study, and completing graduation requirements.

In addition, the Coordinator of Graduate Student Services in the Graduate Office provides supplementary advising on administrative, policy, and procedural matters. Generally, the Coordinator may serve as a first point of contact for any questions students may have about life in the College of Liberal Arts and Social Sciences and at DePaul University.

Graduate students should become familiar with the resources on the Graduate Student Services Office webpages (see URL below) as well as the content of the Graduate Student Handbook (see left menu, Academics > Graduate).

About

The College of Science and Health provides students with innovative, science-based curricula with a strong liberal arts foundation. Our departments represent the natural sciences, mathematics, psychology, nursing, and health science, each of which is committed to providing the highest quality education. The College of Science and Health educates students with a strong Vincentian commitment to social justice and civic engagement. The college provides mathematical and scientific education/literacy for all undergraduate students within the University and participates in all aspects of DePaul’s distinctive Liberal Studies Program.
The College of Science and Health is dedicated to helping members of DePaul’s diverse student body reach their full academic and professional potential. The innovative curricula supported by the college encourages active participation in research, internships and other opportunities that further prepare students for successful careers and as lifelong learners. Faculty in the college embody the commitment to student academic and professional development through their quality instruction and by conducting meaningful, student accessible research.

Academics

Focusing on the fields of allied health technologies, biology, chemistry, environmental science, health sciences, mathematics, nursing, physics, psychology, and science education, the College of Science and Health's undergraduate and graduate programs prepare students to meet the demands of the growing fields of science and health.

The College of Science and Health offers undergraduate majors in seven departments and graduate programs in six departments and one school. Courses are offered in the day, evenings and on weekends, primarily on our Lincoln Park Campus.

Graduate

The graduate division of the College of Science and Health offers an exciting array of scholarly and professional programs. Many of the master's programs have earned distinguished reputations both nationally and in the Chicago area for the unique niches that they fill.

The College offers post-baccalaureate study through six departments and one school. These programs provide students with opportunities for advanced scholarly study and research, preparation for a specific career or profession, and personal enrichment. Graduate students in CSH have the opportunity to develop a broad and deep knowledge of their chosen discipline, practice the research methodology of the discipline, and acquire those competencies necessary for their personal advancement in scholarly, professional, or industry careers. Prospective graduate students are encouraged to visit individual department sites for more information on specific graduate programs.

Graduate Programs

- Advanced Practice Nursing (MS)
- Applied Mathematics (MS)
- Applied Statistics (MS)
- Biological Sciences (MA)
- Biological Sciences (MS)
C SH Graduate Academic Student Handbook

In addition to the DePaul University Graduate Student Handbook, the College of Science and Health (CSH) Graduate Academic Student Handbook includes requirements, policy and regulations for CSH graduate programs. Additional academic information and regulations applicable to a specific graduate program can be found in the individual Program's Graduate Academic Student Handbook.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the University Catalog in effect at the time of readmission or status change.

As a graduate student you assume the responsibility to know and meet the regulations, procedures, policies, and deadlines set forth in the University Catalog, CSH Graduate Academic Student Handbook, and your Program Graduate Academic Student Handbook. None of these resources constitutes a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right to revise the content of its catalogs, handbooks, and schedules, and to change policies, programs, requirements, regulations, procedures, calendars and schedule of tuition and fees; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; and to make any other necessary changes.

Additionally, all students are expected to adhere to the Student Code of Responsibility found in the DePaul University Graduate Student Handbook.

The following programs have their own specific Program Graduate Academic Student Handbook policies:

- Biological Sciences
- Chemistry
- Mathematical Sciences
- Nursing
- Physics
- Science Education

If a conflict exists between a particular Program Graduate Academic Student Handbook and the CSH Graduate Academic Student Handbook, then defer to the particular Program Graduate Academic Student Handbook. If a particular program does not have a graduate academic student handbook, then defer to the CSH Graduate Academic Student Handbook.
Academic Advising

Academic advising in the College of Science and Health helps to insure successful completion of graduate studies. If you are a degree-seeking student, contact your faculty advisor. If you are a non-degree seeking student, student-at-large, or combined degree seeking student; contact the graduate student services administrator in the College's Office of Advising and Student Services.

Grades, Minimum Requirements

A student must earn a grade of B– or higher to receive graduate credit for any upper-level undergraduate course (300 level) that has been accepted for graduate credit. A student must achieve a minimum grade point average of 2.500 to graduate. Some programs may have a higher minimum graduation grade point average. A grade of D+ or D is unacceptable for graduate credit, and if earned in a required course, the course must be repeated or substituted as directed by the chair of the area of concentration. D+ or D grades remain on the academic record and are calculated into the cumulative grade point average.

Probation and Dismissal

Each program in the College may have its own probation and dismissal policies. Please consult your Program Graduate Academic Student Handbook. If it does not contain - or if you program does not have a Program Graduate Academic Student Handbook - a probation and dismissal policy, then the following College policy applies.

A student is subject to probation as soon as his/her graduate GPA falls below 2.500. The student remains on probation until four more courses are taken, at which time another evaluation is made. If, at that time, the student has failed to raise his/her GPA to the required level of 2.500 the student may be dismissed for poor scholarship, and the student is prohibited from registering for additional course work.

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the College, would provide information that would demonstrate a change in the student's circumstances to an extent that would support successful completion of the student's degree program. The dean's decision, based upon the merits of the petition and the recommendation of the faculty of the student's department, may, if it's a favorable decision, stipulate conditions of reinstatement. The dean may also decide to deny the petition for reinstatement.

For more information about probation and dismissal, please contact the College's Office of Advising and Student Services.
Registration Procedures

Enrollment
Continuing students enrolled in the College at any time during the previous calendar year are eligible to register for courses. Continuing students register via Campus Connection.

Registration in Courses in Other Colleges or Schools
Graduate students may be permitted to register for courses offered in other Colleges or Schools at the University. Contact the College's Office of Advising and Student Services for more information.

Residence Registration
Whether in residence or not, all admitted graduate students, master's and doctoral levels who will use the facilities of the University (library, laboratory, etc.) or who will consult with faculty members regarding theses, dissertations or examinations, must be registered for coursework each quarter.

Courses and Credit
No one is permitted to attend a class for which he or she has not been properly registered. Credit is accumulated on the basis of quarter hours. The unit of credit is one quarter hour granted for 45 minutes of classroom work a week. The normal class extends over a ten-week period (or an accelerated five-week period in the summer). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted.

For students fully employed, registration for no more than eight credit hours in a term is the suggested maximum.

Courses numbered 300 through 399 are advanced undergraduate courses. If listed in this catalog, they may be accepted for graduate credit within the limitations stipulated by the specific departmental chair or program director.

Graduation

Meeting Degree Requirements
You must successfully complete all of the degree requirements as listed in the departmental or program sections of the University Catalog under which you were admitted. All requirements must be completed by the grading deadline of the degree conferral quarter.

Earning Degrees with Distinction
Requirements for earning a master degree with distinction vary by program. Unless otherwise indicated, the minimum cumulative grade point average for distinction for coursework applied toward a particular College graduate program is 3.75. Additional or other criteria might need to be met in many programs, such as passing a comprehensive examination or writing a thesis with distinction. Refer to your Program Academic Student Handbook for any differing or specific requirements on minimum grade point average or additional criteria.
Degree Conferral

Applying for degree conferral requires the anticipated completion by the stated degree conferral deadline of all program requirements including: a) completion of all coursework, b) possible field experiences, c) thesis or dissertation requirements, d) passing possible comprehensive exams, e) minimum number of credit hours to graduate, f) earning minimum cumulative GPA, and g) DePaul’s receipt of undergraduate transcript showing awarded degree.

Degree conferral candidates must apply for degree conferral online via Campus Connection. Submitting the online degree conferral application does not guarantee the conferral (granting) of a degree from DePaul University. Degree requirements are audited at the end of the expected completion term indicated.

In order to have your degree conferred, you cannot have any outstanding incomplete or research grades, transfer credit, grade changes, substitutions, or waivers. All exams must be completed and graded, and theses/dissertations or other capstone projects must be graded and submitted. Failure to have these items complete by the end of the degree conferral term will prompt the College's Office of Advising and Student Services to revoke degree conferral candidacy. If you wish to postpone your degree conferral or are ineligible to graduate, you must reapply online for a subsequent term.

If you meet all requirements, your degree will be conferred within 30 days of the end of the term. Diplomas are mailed to graduates without financial holds, by the Office of Student Records, generally within 45-60 days after the end of the term.

DePaul reports degree information to the National Student Clearinghouse on a monthly basis. Many companies, universities and colleges, and agencies use this service to verify awarded degrees. Your degree will only be verified by the Clearinghouse if your Privacy Settings in Campus Connection indicate this as releasable information at the time your degree is conferred. Please verify your Privacy Settings before the end of your completion term.

Commencement

Commencement is a symbolic celebration of your achievement. One ceremony is held in June of each year. June and August degree conferral audits occur after the ceremony. Due to the timing of your final cumulative GPA calculation, graduation with distinction for June and August candidates may not be announced at the ceremony, but it might appear on the transcript and diploma.

Deadlines for Degree Conferral and Commencement Participation

The University confers graduate degrees four times per year, after the autumn, winter, spring, and summer terms. The deadlines for applying for quarterly degree conferral are as follows:

- Autumn Term - apply by October 1st
- Winter Term - apply by January 15th
- Spring Term - apply by February 1st
- Summer Term - apply by July 15th.

One Commencement ceremony is held in June of each year. The deadline for applying (RSVPing) for June Commencement is February 1st.

Transfer Credit

A maximum of two semester-based courses or three quarter-based courses to not exceed the equivalent of twelve quarter hours may be accepted as transfer credit upon approval of the Program Director. Credit will only be transferred for courses that have equivalents in the DePaul curriculum as determined by the Program Director. Transfer credit can only be awarded for graduate level coursework which has not counted toward the completion of a degree at DePaul or any other institution.
Admission & Aid

Candidates interested in admission to the College of Science and Health should direct all inquiries to the Office of Admission, DePaul University, 1 E. Jackson Boulevard, Chicago, Illinois, 60604, admission@depaul.edu, or (312) 362-8300.
For general information on the types of admission, see University Information, Admission.

Financial Aid

Applicants interested in financial aid options should direct all inquiries to the Office of Financial Aid.

Graduate Admission

Applicants are admitted to the College of Science and Health on the basis of their ability to complete programs of study and research prescribed for the master’s and doctoral degrees. Specifically, admission qualifications are measured by academic criteria. In accord with these criteria, applicants are admitted in one of three major categories: degree-seeking, non-degree-seeking, and student-at-large.

Degree Seeking Students

Applicants are admitted as degree-seeking students in either of two ways: full or conditional.

Full Degree-Seeking Status

The minimum requirements for this status are:

- Bachelor's degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies satisfying all requirements for entering a specific graduate program.
- Submission of all required supporting credentials.
- Unconditional approval by the department or program director of the applicant's proposed course of graduate study.

Please note these are minimum requirements for full admission. The departmental and program sections of this Catalog provide additional, more specific and selective, criteria for admission to specific programs.

Conditional Degree-Seeking Status

The minimum requirements for this status are:

- Bachelor's degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies indicating a capacity to pursue successfully a specific program of graduate study.
- Submission of all required supporting credentials.
- Conditional approval by the department or program director of the applicant's proposed course of graduate
A conditionally admitted applicant is eligible for reclassification to full, degree-seeking status when the conditions of his or her admission have been satisfied.

**Non Degree-Seeking Students**

The dean may admit as students those applicants who do not wish to pursue an advanced degree. Non-degree-seeking students may, at some future date, make application to a graduate program, but they are not accorded special consideration for admission. Students should consult the intended degree program's website for information about application requirements.

**Non-Degree Seeking Status**

The minimum requirements for this status are:

- Bachelor's degree conferred by a regionally accredited institution
- Academic achievement in undergraduate studies indicating a capacity to succeed in graduate course work (minimum of 2.50/4.00)
- Submission of official transcript from bachelor's degree granting college or university
- Approval by the director of graduate admission.

Students admitted as non-degree graduate students are eligible to enroll in graduate-level courses only.

When such students apply to a graduate program, the departmental or program director of their specific graduate course of study may recommend, in writing, to the dean that a maximum of three courses (12 quarter hours) completed by the student under the non-degree-seeking status be counted toward fulfillment of the advanced degree requirements. The application of any or all recommended credit is at the discretion of the dean.

**Student-at-Large Status**

The College of Science and Health may admit as a student-at-large a graduate student currently enrolled in a graduate program in another accredited institution upon the recommendation, in writing, of his or her own graduate dean.

A student-at-large must submit a graduate application. The supporting credentials required are an official transcript from the bachelor's granting college or university and a letter from the dean of the graduate school where the student is in good standing. This letter should state in general terms the course or courses the student is authorized to take.

Under no circumstances does this classification constitute admission to a degree program at DePaul University.

**DePaul Students and Combined Programs**

Students in any of the undergraduate colleges or schools of DePaul University are eligible to apply for graduate admission to the College of Science and Health while completing their undergraduate program.

Some College of Science and Health programs offer accelerated master's degrees, known as combined programs. A combined program can be started in an undergraduate College of Science and Health student's senior year and be completed in a minimum of one additional year. Students would apply to a combined program in spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students in this program take a maximum of twelve graduate credit hours as three courses in their senior year; these graduate courses may apply toward both undergraduate and graduate degrees.
Departments

- Biological Sciences
- Chemistry
- Environmental Science and Studies
- Health Sciences
- Mathematical Sciences
- Physics
- Psychology
- School of Nursing
- Science Education

About

The Department of Biological Sciences provides courses for biology majors, minors, and non-majors from all areas. The department currently has more than 600 majors in its undergraduate program leading to a bachelors of science and offers a graduate program leading to a master of arts or master of science.

About

The Department of Chemistry has several fundamental responsibilities. They are (a) to train students to understand, to criticize meaningfully, and to carry out scientific investigations, (b) to provide instruction and laboratory experience for those who wish to make chemistry their livelihood and/or pursue advanced study in chemistry, (c) to provide instruction and laboratory experience for those who wish to use chemistry as a background in an allied profession, and (d) to provide students not majoring in chemistry with up-to-date instruction in the principles of chemistry and methods of scientific inquiry.

In meeting these responsibilities, the department offers four tracks of study, each of which lead to a Bachelor of Science that is certified by the American Chemical Society, the department’s accrediting body. The tracks include Standard Chemistry, Analytical and Physical Chemistry, Biochemistry and Medicinal Chemistry, and Synthetic Chemistry. The department also offers a Bachelor of Arts degree. This option allows students to get a firm educational foundation in chemistry along with the ability to develop specialization in another field not necessarily related to chemistry.

In addition to its baccalaureate degrees, the department offers several combined degree programs. Students may pursue a degree in chemistry and chemical engineering through a joint program with the Illinois Institute of Technology. The department has teamed with the College of Education to develop a combined B.S./M.Ed. program that allows students to earn an undergraduate degree in chemistry and a graduate degree in secondary education. Finally, the department hosts its own combined B.S./M.S. program. This option allows students to earn a B.S. and M.S. in chemistry.

Monica Richart, M.L.A.
Over the next ten to twenty years and beyond, our nation will require increasing numbers and varieties of health care professionals to meet the needs of a growing and aging population: doctors and nurses, nurse practitioners, physician assistants, nurse anesthetists, physical and occupational therapists, pathologist assistants, clinical psychologists, radiation technologists, pharmacists, podiatrists, and more. Likewise, the creation of policies and structures for health care delivery and education, and the day-to-day management of health care delivery, will require a host of public health officials, health educators, crisis management experts, case managers, and hospital administrators. None of these professionals work in isolation; teams of clinicians and technicians join forces with respect to each one’s appropriate role, and their work takes place in the context of policy, business, and research and within a variety of health care delivery settings. It has never been more
important for all health care professionals, no matter what their role, to understand the range of expertise involved in this enterprise, and to be able to work together to solve problems.

The Health Sciences major offers concentrations in BioScience and Health Care, Policy, and Practice that will enable future health care professionals to begin this cross-disciplinary conversation even earlier. In addition to General tracks, each concentration offers tracks that help students focus their interests and prepare for future careers. In BioScience students can choose from tracks in Medicine, Pre-nursing, or Laboratory Investigations; while in Health Care, Policy, and Practice, students can choose tracks in Health Education, Community and Public Health or Health Policy and Administration. This degree a) provides students interested in pursuing a career in one of many health-related professions with a common core of knowledge; b) provides a general track in each concentration but also articulates additional tracks that meet requirements for entry into graduate programs; c) provides enough flexibility to enable students to move among those tracks as their interests evolve, and d) brings students headed for multiple health-related professions into on-going conversation with each other. The curriculum is built on the principle that, in order to be effective, health care professionals need to understand both the factors that impact the health of individuals and the factors that impact the health of populations.

**About**

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics. Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences.

About

Physicists study and apply the laws of nature to answer fundamental questions about the evolution of the universe, the nature of light and matter, and the behavior of the natural world. The Physics department at DePaul offers a full, rich curriculum in undergraduate and graduate education. Currently the home to more than 10 full and part-time faculty and approximately 50 majors and minors, the department offers courses on the Lincoln Park Campus. In addition to its strong undergraduate program with concentrations in standard physics and computational physics, the department offers dual engineering degrees in conjunction with the Illinois Institute of Technology, and a Master's degree in Applied Physics.

The department also serves as the host department for CIRRUS, the Chicago Initiative for Research and Retention for Undergraduates in Science. This NSF funded program provides all science majors at DePaul information on careers, internships, graduate schools, professional schools, etc.

About

The Department of Psychology is committed to providing excellent teaching, mentoring and advising for undergraduates, masters, and doctoral students in our six undergraduate major concentrations, two masters programs and five doctoral programs. Moreover, the Department of Psychology is committed to making meaningful contributions to the science of psychology and encourages students to do likewise, and to serve our university, community, and profession so as to enact and realize the mission of DePaul.

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

Associate Professor
Special Programs

**Bachelor of Arts (BA) in Psychology - Online Degree Program**

The BA in Psychology can be completed online, by transfer students, if certain prerequisites and additional degree requirements are met. This online degree program is available for two concentrations within the psychology major: the Standard BA Concentration and the Human Development BA Concentration.

**Admission criteria for online programs**

In order to be eligible for the BA in Psychology online format, students must meet the following requirements:

- Be a transfer student with a minimum of 45 quarter hours/30 semester hours of transfer credit
- Have a minimum cumulative 2.0 GPA
- Be in good standing at the last school attended

**Prerequisites**

Transfer students are encouraged to complete writing courses equivalent to DePaul’s WRD 103 and WRD 104 Composition & Rhetoric I and II (i.e. English Composition 101, and 102) requirements prior to beginning the online courses. Additionally, students will need to complete college algebra equivalent to DePaul’s MAT 100 or
MAT 101 (or a higher math course) before enrolling in the online program. Students who have successfully completed Statistics and/or Calculus will not need to take the math placement test.

Students should plan to complete all, or almost all, of their psychology courses at DePaul. Some elective and liberal studies courses may be completed with transfer credits. Consult the Transfer Course List for transferrable courses that may apply to Liberal Studies Program (LSP) and elective course requirements.

**Bachelor of Arts Degree Requirements**

The following degree requirements will need to be fulfilled in addition to the online course offerings:

- Complete the lab science course requirement through transfer course work, or credit by exam (CLEP/AP/IB). (Students may earn college level credit through taking College Level Equivalency Exams (CLEP) to validate knowledge previously acquired.)
- Complete the Modern Language requirement through transfer course work, proficiency, or credit by exam. (Proficiency may be documented by a satisfactory rating in a language proficiency examination administered, or accepted, by DePaul University.)

Graduation requirements for the BA in Psychology online degree program are identical to those for all psychology majors in the Standard Psychology or Human Development concentrations (see the Degree Requirements). DePaul bachelor’s degrees require 192 quarter hours.

To complete the degree requirements online in a timely fashion, students will need to follow the recommended online degree plan. Degree plans are available through the Psychology department.

Transfer students should select the Psychology Online Degree Program as their major when submitting a transfer application for admission to DePaul.

**About**

The mission of the School of Nursing is the preservation, enrichment, and transmission of nursing science as a discipline and its application to promote the health and well being of individuals, families, and communities. The faculty pursues this mission through excellence in teaching as the primary focus of scholarship; and through research that has the potential to advance nursing knowledge, scientific inquiry, teaching, and health. The School maintains a commitment to serving persons with diverse talents, qualities, interests, and socio-economic backgrounds in its educational programs and professional practice. It seeks to provide accelerated, inquiry-based education that anticipates the rapid pace of change in health promotion and illness care.

**Accreditation**

- Commission on Collegiate Nursing Education
- Council on Accreditation of Nurse Anesthesia Educational Programs

**Certification and Licensing Eligibility**

- American Association of Nurse Anesthetists
- American Nurses’ Credentialing Center
  - Adult Nurse Practitioner
  - Family Nurse Practitioner
- Illinois Department of Professional Regulation (NCLEX-RN)

About
The Science, Technology, Engineering, and Mathematics (STEM) Studies Department offers innovative, interdisciplinary programs and courses spanning the sciences, mathematics, and technology at DePaul. The Department works in close collaboration with the DePaul STEM Center. The Department administers the Master of Science in Science Education, a program to prepare master teachers in science at the middle school level. The program addresses a great need for content-based graduate study to enhance the teaching of science at the middle school level. The program integrates content with pedagogy, is inquiry-based, and integrates mathematics and technology with science. The STEM Studies Department also offers innovative science courses and special programs for undergraduates to engage highly diverse audiences in rich, contemporary science content.

University of Colorado, Boulder

David C. Jabon, Ph.D.
Special Programs

Undergraduate College of Science and Health students may take advantage of pursuing a Modern Language Option to advance their language skills and, at the same time, apply the additional language coursework toward their Liberal Studies Program requirements.

Qualified undergraduate College of Science and Health students may pursue a combined program that would enable them to earn a bachelor degree and master degree within a shortened timeframe. Combined programs are offered through the College of Science and Health and through a partnership between the College of Science and Health and the College of Education's TEACH Program.

Modern Language Option Program

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College's language requirement and to B.S. students who wish to study a Modern Language at any level. Students selecting the option may substitute a three-course language sequence for two domain courses and one open elective. Students may use the Modern Language Option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the lab science requirement.) Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.
**TEACH Program**

This program provides students the opportunity to complete in five years an undergraduate degree in a core science major and a Master of Education degree with State of Illinois secondary education teaching certification in a content area related to their major. As a combined degree program of the College of Science and Health and the College of Education, the program is collaboratively developed, governed, and taught by faculty from both units.

Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Learning course TCH 320, Exploring Teaching in an Urban High School, and meet other application criteria prior to applying; these include completion of at least 16 hours of four courses at DePaul and a 3.0 GPA. During their Senior Year, students are required to complete a program capstone course and three 400-level courses at 12 quarter hours that count toward both their undergraduate and graduate degrees. The Master's year comprises teacher-preparation coursework that culminates with student teaching during the Spring quarter. Upon graduation and the fulfillment of State of Illinois Certification requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be certified to teach Math, Biology, Chemistry, Environmental Science, or Physics at the 6th-12th grade levels.

A full description of the Program can be found on the College of Education website and in the College of Education graduate course catalog. Students interested in the TEACH Program may consult with an associate dean in the College of Science and Health or an associate dean in the College of Education.

**Combined Programs**

The combined Bachelor/Master degree program allows students to complete a maximum of 12 graduate credit hours as three courses while still an undergraduate student. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

Students must formally apply to a combined program in spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students formally accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year. Students must formally apply for undergraduate degree conferral via Campus Connection and be awarded their bachelor's degree in anticipation of continuing with their master’s level coursework.

**Certificates**

The College of Science and Health (CSH) offers certificates programs through our Mathematical Sciences Department and School of Nursing.

The CSH also participates in an interdisciplinary program offered through the School of Public Service in the College of Liberal Arts and Social Sciences.
Post Masters Certificate Advanced Practice Nursing

Admission Requirements

- Graduate Application
- Registered Nurse in the state of Illinois
- Master's degree in nursing
- Professional Liability insurance
- Minimum GPA of 3.0/4.0
- Basic statistics course or equivalent
- Two letters of reference (one from a nursing faculty member and one from a current work supervisor)
- Goal statement (1 - 2 pages)
- Portfolio Evaluation
- Completion of advance physiology, pathophysiology, and epidemiology
- Online application and application fee

Course Requirements

Nurse Practitioner

Advanced Practice Core Courses (18 credits)

- NSG 422 APPLIED PATHOPHYSIOLOGY(4)
- NSG 424 PATHOPHYSIOLOGY FOR ADVANCED PRACTICE(4)
- NSG 464 ADVANCED HEALTH ASSESSMENT ACROSS THE LIFESPAN(6)
- NSG 484 PHARMOCOLOGY FOR ADVANCED NURSING PRACTICE(4)

Adult - Gerontology Nurse Practitioner Concentration Courses (23 credits)

- NSG 474 PRIMARY CARE OF THE ADULT AND OLDER ADULT(4)
- NSG 478 CLINICAL MANAGEMENT OF ACUTE AND CHRONIC ILLNESSES IN PRIMARY CARE(4)
- NSG 483 PRACTICUM IN POPULATON BASED NURSING PRACTICE I(3)
- NSG 487 PRACTICUM IN POPULATION-BASED NURSING PRACTICE II(4)
- NSG 488 PROFESSIONAL ISSUES & RESEARCH IN POPULATION-BASED ADVANCED PRACTICE NURSING(2)
- NSG 490 PRACTICUM IN POPULATION-BASED NURSING PRACTICE III(4)
- NSG 555 PHARMACOTHERAPEUTIC IMPLICATIONS FOR THE OLDER ADULT(2)
- Elective offering: NSG 479 MANAGEMENT OF GERIATRIC SYNDROMES(4)

Family Nurse Practitioner Concentration Courses (28 credits)

- NSG 473 PRIMARY CARE OF THE INFANT, CHILD, AND THE ADOLESCENT(4)
- NSG 474 PRIMARY CARE OF THE ADULT AND OLDER ADULT(4)
- NSG 475 CLINICAL MANAGEMENT OF PREGNANCY AND CHILDBIRTH(3)
- NSG 478 CLINICAL MANAGEMENT OF ACUTE AND CHRONIC ILLNESSES IN PRIMARY CARE(4)
- NSG 483 PRACTICUM IN POPULATON BASED NURSING PRACTICE I(3)
- NSG 487 PRACTICUM IN POPULATION-BASED NURSING PRACTICE II(4)
- NSG 488 PROFESSIONAL ISSUES & RESEARCH IN POPULATION-BASED ADVANCED PRACTICE NURSING(2)
- NSG 490 PRACTICUM IN POPULATION-BASED NURSING PRACTICE III(4)
Certificate in Applied Statistics

Course Requirements

The certificate program requires successful completion of six courses in Applied Statistics.

- MAT 441 APPLIED STATISTICS I
- MAT 442 APPLIED STATISTICS II
- MAT 443 APPLIED STATISTICS III
- Three courses selected from:
  - MAT 456 APPLIED REGRESSION ANALYSIS
  - MAT 457 NONPARAMETRIC STATISTICS
  - MAT 528 DESIGN AND ANALYSIS OF EXPERIMENTS
  - MAT 526 SAMPLING THEORY AND METHODS
  - MAT 458 STATISTICAL QUALITY CONTROL

Students in the Certificate in Applied Statistics program must apply for degree conferral via Campus Connection in advance of their final quarter in the program in order to have their coursework audited for the awarding of their certificate.

Certificate In Community Development

This program offers the opportunity to build community development specialist skills in organization planning, leadership development, and program evaluation. The program allows established and emerging professionals to broaden their perspective on urban-development programs in an interdisciplinary learning environment by including knowledge from psychology, public service, sociology, geography and liberal studies.

Students must successfully complete a minimum of 16 quarter hours of graduate credit. Each course carries four quarter hours. Students then must participate in a non-credit research colloquium. Each participant of the colloquium makes a presentation before a small group of students and faculty members. No more than two courses earned toward the certificate shall come from one department. Please note that the list of courses is subject to change. For course requirements and to learn how to apply, please contact the School of Public Service in the College of Liberal Arts and Social Sciences.

Student Resources

The College of Science and Health provides a broad range of advising and student services to help undergraduate and graduate students reach their academic and co-curricular goals and enhance their personal, intellectual and professional development.
Academic Advising

Academic advising is a valued component of the student experience within the College of Science and Health. It provides students with the opportunity to develop an academic plan that best fits their interests, strengths, and academic and career goals under the guidance of a knowledgeable and supportive advisor. Upon declaring a major field of study in the College, students are promptly assigned to either a faculty academic advisor or staff advisor in the corresponding department or program. Students who have declared a major should meet regularly with their assigned advisor within their program in order to complete their courses in a timely and efficient manner. Taking courses without consulting an advisor may lead to credits that will not satisfy College requirements for graduation. Those students who have not yet declared a major are highly encouraged to meet with either a staff advisor in the College's Office of Advising and Student Services or a staff advisor in the Office for Academic Advising Support prior to registering for classes each quarter.

Office of Advising and Student Services

The Office of Advising and Student Services partners with faculty and staff in the College to provide academic advising and student services to undergraduate and graduate College of Science and Health students. Advising and student services include, but are not limited to, guiding new and continuing students on course selection, providing consultation on academic policy interpretation, coordinating graduation, assisting with advising and course registration technology, and providing other forms of academic and extracurricular support.

About SNL

Why We’re Distinctive

The School for New Learning (SNL) provides a unique approach to learning for adults, with customized programs that build upon abilities and experiences, add knowledge, and develop skills to help achieve personal and professional goals.

A fundamental idea behind SNL is learning from experience. We believe mixing experiences and interpretations results in lasting knowledge.

SNL programs are designed to recognize and develop competence. Our students are assessed on their problem-solving knowledge.

SNL values individualized learning. Students move at their own pace with personalized guidance.
Mission

The School for New Learning, established in 1972 as one of the schools and colleges of DePaul University, exists to foster, develop and certify the knowledge and abilities of adults and to prepare them to be self-managed, lifelong learners as they pursue a vision of a better world. To this end, the school offers competence-based degree programs and learning experiences that emphasize the application of what is learned in ways that are meaningful to adults. Further, SNL practices continuous program evaluation and enhancement and scholarly investigation to ensure that its curricular programs meet the challenges of change in a contemporary society.

SNL Student Code

This Code incorporates and extends the Code of Student Responsibility within both the DePaul University Graduate Student Handbook and Undergraduate Student Handbook, and is in force and applicable for all matriculated School for New Learning students. The Code further incorporates and extends existing student responsibility and conduct codes currently in force for online students and graduate students at SNL.

On Being a Member of a Learning Community

All active DePaul University School for New Learning students have the right to participate as voluntary members of an academic community engaged in the pursuit of knowledge and skill critical to personhood, work and the professions, and human welfare. As voluntary members of DePaul University, a not-for-profit, private institution of higher education, all students accept the guiding authority of academic advisors and faculty members, and the policies and procedures supporting the degree programs in which they are enrolled.

Students have the right to speak with faculty and administration regarding specific policies, requirements, practices, or difficulties that may arise during their period of active study. When a student initiates clarifying dialogue around one or more of these items, she or he is responsible for conducting all communication in a respectful and professional manner. Email, voice, and face-to-face interaction must be precise, and focus on specific questions or complaints presented with supportive evidence and argument. All parties, including the student, will approach the problem in the spirit of dialogue and with a commitment to a fair, clear, and timely resolution.

Unprofessional and other forms of aggressive or uncongenial behavior and communication, in or out of the classroom, will not be tolerated in the learning community of the School. A student who willfully exhibits behavior inconsistent with this Code and related behavioral policies (see above) will be referred to an associate dean and/or the University Dean of Students Office.

Any active student with a question, comment, or grievance regarding his or her participation in the SNL learning community must contact the Associate Dean on Call for that term.
Academics

Founded in 1972, the undergraduate and graduate degree programs of the School for New Learning (SNL) are recognized internationally as leaders in education for adults.

Programs

- Applied Professional Studies (MA)
- Applied Technology (MS)
- Educating Adults (MA)

SNL Graduate Academic Student Handbook

All SNL graduate students assume responsibility to know and meet both the general and particular regulations, procedures, policies and deadlines set forth in these materials. In addition, all SNL graduate students are expected to adhere to the Student Code of Responsibility (available in the DePaul University Graduate Student Handbook), and the SNL Code of Student Rights and Responsibilities, to follow the policies, procedures and regulations of the University, and to fulfill any particular stipulations which the School for New Learning Graduate Programs may have made in individual cases at the time of admission or, subsequently, through official action. Failure to do so may be grounds for dismissal from the applicable graduate program.

Additional program information and regulations applicable to specific graduate programs can be found in each Program Guidebook and student resources on the SNL website.

Acceptable Grades

Grades of "A" through "C" are acceptable for registrations (courses or competencies) applied to SNL graduate programs. Grades of "C-" or lower require re-registering and re-completing course/competence. "Pass/No Pass" is only applicable to specified program components as explicitly designated within each graduate program's Curriculum Guidebook.

Continuing Activity Status

Students who need to interrupt their programs of study for any reason should register for "continuing activity status" (CAS) during the quarter(s) of interruption. This is a minimal registration (nominal fee) which enables the student to maintain his/her Active status during the interruption, and thereby maintain access to his/her Faculty Mentor, the DePaul libraries and computer labs.

Cumulative GPA

SNL graduate programs require a cumulative GPA of no less than 3.0 at the point of graduation in order to
complete the respective degree and enable degree conferral.

**Graduation Steps**

A detailed list of Graduation Steps is provided for all SNL graduating graduate students on the SNL website.

**Probation (Special Review) & Dismissal**

Students whose performance jeopardizes their satisfactory academic progress as outlined in program materials are subject to being placed on “special review status” (academic probation) by the Graduate Student Program Review Committee (GSPRC). In such cases, the student’s Faculty Mentor develops a draft of the concerns and conditions for review. Upon GSPRC deliberation and decision, the GSPRC Chair prepares and distributes the special-review letter outlining issues/concerns as well as conditions/deadlines that need to be met for Special Review Status to be lifted. The Faculty Mentor monitors the student’s progress in meeting the conditions of the special review/probation.

Failure to comply with any of the terms of “special review” will result in academic dismissal from the applicable graduate program. A student who has been dismissed for academic/special-review reasons may, after a period of time not less than two quarters, reapply for readmission.

**Six-Year Time Limit**

All graduate degree requirements must be satisfied within six years commencing with the term of initial enrollment. Students who fail to complete their graduate program/certificate requirements within the six-year limit must reapply and be readmitted. In such cases, readmission may require students to re-enroll and re-complete portions of their respective program/certificate in order to ensure currency of the knowledge-base/skill-base.

**Transfer Coursework**

Up to eight credit hours of graduate study may be “transferred” from other programs/universities in partial fulfillment of approved portions of SNL’s graduate programs’ requirements. Such coursework must have received a grade of "C" or better, been from an regionally-accredited university, and been completed no longer than six years prior to SNL graduate degree conferral.

**Admission**

The School for New Learning offers adults (age 24 and above) customized and accelerated undergraduate degrees and unique, individualized graduate programs.

**Undergraduate Admission**

Candidates interested in admission to the School for New Learning should direct all inquiries to the Office of Admission, DePaul University, 1 E. Jackson Boulevard, Chicago, Illinois, 60604, admission@depaul.edu, or (312) 362-8300.

Applicants must have a GPA of 2.0 from the last school attended. This requirement may be waived for a transcript more than three years old.
Graduate Admission

As indicated, the following process and components apply to all of the School for New Learning's (SNL) graduate programs and certificates.

Application Steps

Step 1: Basic Information.

Applicant becomes knowledgeable about a particular SNL graduate program/certificate. Various options are available for this purpose, e.g., materials, information sessions, advising appointments, etc. See the SNL website for details.

Step 2: Application and Required Materials.

Applicant submits required application materials including:

- a completed Application form and Application Fee* (*The application fee is waived for DePaul alumni);
- a current resume;
- an Application Essay* (writing sample) that addresses key questions pertinent to assessing the "fit" of the particular program to the student and vice versa (*Application Essay is waived for certificate applicants); and,
- official, sealed transcripts documenting all prior college/university coursework including demonstration of a completed undergraduate degree from a regionally accredited institution. An undergraduate cumulative GPA of 2.5 is required

NOTE: Standardized test scores are not required; however, applicants who have taken tests such as the GRE, GMAT, Miller Analogies, etc., within the previous three years are encouraged to submit their scores. International students are advised to consult the International Programs Office to learn of further University requirements that may apply.

Step 3: Interview.

Upon initial review of application materials, a representative of the SNL Graduate Admissions Committee invites qualified applicants to an admissions interview. The purpose of this interview is to enable both the particular program and the applicant to further ascertain the match or alignment between what the particular graduate program/certificate offers and what the applicant is seeking in terms of his/her graduate-learning or certificate-learning experience.

Step 4: Review.

Information gleaned from each applicant’s materials and interview is reviewed and assessed by the SNL Graduate Admissions Committee in accordance with the particular program’s admission considerations. See admissions considerations below.

Step 5: Decision.

An admission decision is rendered and communicated to the applicant in writing. As necessary, SNL Graduate Programs reserve the right to admit particular applicants conditionally. In such cases, the terms (conditions and timeline) of the conditional status are noted in the student’s acceptance letter. Failure to satisfactorily adhere to or fulfill these terms may result in academic dismissal/withdrawal from the particular program.

Admission Considerations

The following areas are considered in making admission decisions:
• applicant’s reasoning in selection of the particular graduate program or certificate (including investigation of other graduate programs/certificates);
• applicant’s understanding of the particular SNL graduate program/certificate;
• applicant’s professional background including, for graduate program applicants, his/her possession of at least three years of experience, or equivalent, relevant to the particular SNL graduate program/certificate under consideration;
• applicant’s possession of a practice-site (worksite or relevant application setting in which to apply learning from the particular SNL graduate/certificate program);
• applicant’s educational goals/objectives and the congruence between those goals and the graduate/certificate program under consideration;
• applicant’s motivation to increase competence and ability to sustain effort to achieve such;
• applicant’s learning values and skills (willingness and ability to conduct self-managed/independent learning; participate positively in peer-group learning; engage in self-assessment; engage in reflection to increase understanding and improve practice; and, organize areas of knowledge and skill into themes and describe evidence in support of such);
• applicant’s cognitive/intellectual values and skills (willingness and ability to investigate prior to making claims; engage in curiosity leading to focused and sustained attention (analysis/synthesis) regarding a point of inquiry; investigate various knowledge sources (libraries, data bases, etc.); broaden perception by exploring multiple context(s) in which knowledge exists; analyze underlying assumptions and tolerate/explore ambiguity; discriminate information from opinion; form and adapt commitments amid various contexts; reflect on the meaning of discovery; and, develop and engage a breadth of interest across multiple disciplines);
• applicant’s communication values and skills (willingness and ability to express oneself in written and oral forms including appropriately documenting sources; decipher verbal and nonverbal messages; and, respond effectively);
• applicant’s psychosocial values and skills (willingness and ability to understand and manage emotions; function with autonomy and interdependence; tolerate and appreciate differences; build and sustain positive interpersonal relationships; develop and engage a sense of self in a social, historical, and cultural contexts; and, function with moral and ethical integrity);
• applicant’s access to, and ability to use, e-mail, the Internet, and necessary computer-based software; and,
• applicant’s undergraduate cumulative GPA. (For MSAT applicants, the required minimal undergraduate cumulative GPA is 2.5.)

NOTE: The School for New Learning/DePaul University considers students on the basis of individual merit and without regard to race, color, religion, gender, sexual orientation, age, national or ethnic origin, handicap, or other factors irrelevant to participation in its programs.

Admission Status

Students are to matriculate in the quarter for which they are admitted. Students failing to do so (and who later wish to start) are responsible to update their admissions materials and, if necessary—depending on changes to those materials, reapply. The Graduate Programs Office maintains an admission file/status for one year from the date of admission.

Financial Aid

Information about applying for financial assistance is available on the SNL website.

Liberal Learning for Professionals

SNL awards a Certificate of Achievement in Liberal Learning for Professionals to graduate students who successfully complete the Liberal Learning portion (17-18 credit hours) per graduate program (MAAPS, MAEA, MSAT). This portion includes:

• AP 505 FINDING AND MANAGING INFORMATION
  or EA 527 FINDING AND MANAGING INFORMATION
• LLS 410 PERSONAL EFFECTIVENESS
• LLS 420 INTERPERSONAL EFFECTIVENESS
• LLS 430 ORGANIZATIONAL EFFECTIVENESS
• LLS 440 VALUES EFFECTIVENESS
Educating Adults

SNL awards a Certificate of Achievement in Educating Adults to graduate students or non-degree-seeking professionals who successfully complete three core courses (12 credit hours) that relate directly to the effective design, implementation and assessment of learning programs in any setting. The three courses include:

- EA 516 DESIGNING EDUCATIONAL OFFERINGS
- EA 517 FACILITATING ADULTS LEARNING
- EA 526 ASSESSING LEARNING AND EVALUATING PROGRAMS

About

The DePaul University School of Music prepares students to excel in a variety of professional careers. Located in one of the most vibrant musical cities in the world, the School of Music provides opportunities for students to study with working professionals who are committed to teaching excellence. In a supportive and collaborative atmosphere, students learn from distinguished faculty who are prominent conductors, composers, performers, recording engineers, teachers, and arts managers.

Through a highly selective admissions process, the School of Music selects undergraduate and graduate students for its seven undergraduate, four graduate programs, and two certificate programs. At DePaul, the faculty priority is on teaching, with a strong commitment to providing quality education. The School of Music embraces the diversity of Chicago's urban society, and draws upon the resources of the city in all its programs. In keeping with DePaul's Catholic and Vincentian heritage, the School of Music is committed to service of others. We seek to enrich the lives of the members of the DePaul community and Chicago area through musical performances and outreach activities.

Three basic tenets are central to the School of Music's mission: nurture, engage, and elevate. The School strives to nurture students in a healthy learning environment, engage students in meaningful learning experiences, and elevate students onto successful career paths.

Academics

The School of Music is home to Undergraduate, Graduate and Non-Degree Certificate programs.

Graduate Programs

- Composition (MM)
- Jazz Studies (MM)
- Music Education (MM)
- Music Performance (MM)

School of Music Graduate Student Handbook

In addition to the DePaul University Graduate Student Handbook, the School of Music Student Handbook includes rules and regulations for its graduate programs. Additional academic information and regulations applicable to our graduate programs appear in the School of Music Student Handbook.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

It is the responsibility of graduate students to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook.

Overview of Graduate Program

Masters of Music

DePaul University School of Music offers a Masters of Music degree in performance, composition, jazz studies, or music education. A minimum of 48 quarter hours are required for the degree, including courses in music history and theory, research, and the area of specialization. Graduate students are also required to pass a comprehensive examination and complete a final project, recital, or paper. Most students complete the program
in two years or six quarters; however, music education students who enroll part-time while teaching may take classes throughout three summers and two intervening academic years.

**Certificate in Performance**

The Certificate in Performance is a highly selective, intensive course of study for students who have already earned a master’s degree in performance. A minimum of 36 quarter hours must be completed over two years. Certificate students enroll in applied lessons, ensembles, and other supporting music courses.

**Performance Awards**

All students who receive performance awards must participate in ensembles as needed. Failure to do so may result in the forfeiture of performance award dollars. Graduate performance awards are provided for a maximum of 6 quarters. Only full-time students (6-8 credits per quarter) are eligible for performance awards. Questions about the performance awards may be directed to Mr. Ross Beacraft, Director of Admission.

Curricular ensemble requirements may differ from performance award requirements. A student on a performance awards may be required to participate in ensembles different than or beyond their major’s curricular requirements.

**Academic Probation**

Students who fail to make meaningful progress towards their degree may be placed on academic probation. Furthermore, students who do not maintain a 2.5 grade point average, may be placed on academic probation. Any student who is placed on probation will be notified in writing and should meet with the Associate Dean of Academic Affairs. Generally, students are not allowed to remain on probation for more than 2 quarters without additional academic sanctions being applied.

**Academic Dismissal**

Students who fail to meet the academic standards of the University or School of Music may be dismissed. If a student earns less than a 2.5 GPA for two consecutive quarters, and/or fails to make meaningful progress towards the degree, the student is subject to dismissal. Any student who is dismissed will be notified in writing and will meet with the Associate Dean of Academic Affairs. Appeals for dismissal should be submitted in writing to the School of Music Exceptions committee, clearly stating reasons for the academic problem and a plan to address the situation.
Withdrawal and Re-Application

Any student who wishes to withdraw from the School of Music should first meet with his or her advisor and then the Associate Dean of Academic Affairs. If the student is receiving a performance award, s/he should also meet with Mr. Ross Beacraft, Director of Admissions. A student must also submit a withdrawl/leave of absence form through Campus Connection, explaining the reasons for withdrawal. If a student withdraws in good standing, s/he may reapply within 3 quarters without re-auditioning or re-applying; if a student is away longer than 3 quarters, s/he must reapply and re-audition to the School of Music, and is subject to the requirements current at the time of their application.

Enrollment and Credits

No one is permitted to attend a class for which he or she has not been properly registered. Credit is accumulated on the basis of quarter hours. The unit of credit is one quarter hour granted for 45 minutes of classroom work a week. The normal class extends over a ten-week period (or an accelerated five-week period in the summer). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted.

Graduate music students enrolled for six or more quarter hours of credit are considered full-time. Those registered for less than 6 quarter hours of credit are considered less than half-time.

Graduate courses are numbered as 400 level courses. Graduate students must enroll for 400 level courses.

Transfer Credits

No transfer credits are accepted toward the Masters of Music or Certificate of Performance programs. All course work must be completed at DePaul University School of Music.

Graduation

Requirements

Students must have successfully completed all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which they were admitted. Completed degree requirements include passing the comprehensive examination and the submission of a final project, such as research paper, composition, or recital. Students need to achieve a minimum grade point average of 2.500 to graduate.

The University confers degrees at the end of the quarters, in November, March, June, or August; commencement ceremonies occur only in June. A student may participate in the June commencement ceremony if s/he completes the requirements in the winter or spring quarters preceding the ceremony, or the fall quarter of the following academic year. An application for degree completion must be filed online by the
appropriate deadline.

In addition to submitting a graduation application, all graduating students must meet with the Associate Dean of Academic Affairs for a pre-graduation check. Failure to do so may jeopardize the granting of a student's degree. Students will be listed in the commencement book based upon their applications—degrees will not be conferred until all requirements are complete.

At the conclusion of their last quarter, a review of the students' transcripts takes place; upon successful completion of the degree requirements, students' names are released to the Student Records with the appropriate honors designations. An additional review takes place to ensure that all financial obligations have been met. Once complete, transcripts with the degree posted are available through Student Records, and diplomas are mailed to students. To receive a diploma, it is essential that students update their addresses in Campus Connection. The distribution of diplomas or release of final transcripts will be withheld if money is owed to the University.

**Graduation with Distinction**

Graduation with distinction is awarded for students who earn 3.75 GPA or above.

---

**Career Services**

The School of Music Office of Career Services serves music students and alumni, providing assistance with resumes, cover letters, recommendations, correspondence, interviews, and career strategies. Job openings are posted electronically and on the bulletin boards. Students are encouraged to meet with Robert Krueger, Associate Dean for Administration, School of Music, Room 231, (773) 325-4355 or rkrueger@depaul.edu prior to graduation.

---

**Music Teacher Certification Program**

**Admissions**

Applicants to the DePaul music teacher certification program must meet the following standards:

- Undergraduate degree in music
- Grade Point Average of 2.75 or higher
- Recommendations from two individuals familiar with the candidate's potential as a teacher
- Music audition

**Program of Study**

All teacher certification students must meet the core requirements of the undergraduate students in music education. Teacher certification students take courses in four basic areas: music, liberal studies, music education, and education. A transcript review will be done by the music education department, to determine any deficiencies in any of these areas of study. Substitutions will be determined by the Associate Dean for Academic Affairs where appropriate.

Music courses:

- Applied music study (2 years)
- Musicianship/music theory and history (2 years)
- Aural training (2 years)
- Keyboard skills (2 years)
Conducting (1 course)
Music Traditions (world music and jazz)
Ensemble (4 years)

Liberal Studies:
- Writing (8 credits)
- Math (4)
- Science, lab or quantitative (4)
- American government (4)
- American history (4)

Music education (V=vocal specialization only, I=instrumental specialization only)
- MED 306, Introduction to Music Education (2 credits)
- MED 303, Elementary Vocal General Music Methods (4)
- MED 304 Middle School Vocal General Music Methods (2), V
- MED 300, Elementary Instrumental Music Methods (4)
- MED 305, Secondary Vocal Music Methods (2), V
- MED 308, Accompanying for the Music Educator (2), V
- MED 301, Secondary Instrumental Music Methods (2), I
- MED 310, Music for the Exceptional Child (4)
- MED 325, Conducting for the Music Educator (2)
- MED 340, Technology for the Music Educator (2)
- MED 121, Class Guitar (1)
- MED 196, Class Voice (1)
- Instrumental techniques classes (4 for V, 8 for I):
  - Instrumental Specialization
    - MED 101 Brass I, MED 102 Brass II, MED 103 Woodwinds I, MED 104 Woodwinds II, MED 109 Woodwinds III, MED 107 Percussion I, MED 105 Strings I, MED 106 Strings II
  - Voice Specialization
    - MED 101 Brass I or MED 102 Brass II
    - MED 103 Woodwinds I, MED 104 Woodwinds II, or MED 109 Woodwinds III
    - MED 105 Strings I
    - MED 107 Percussion I
- MED 313, Choral Literature (2), V
- MED electives (4 for V, 6 for I)
- MED 095 (0)
- MED 392, Student Teaching (12)
- MED 393, Student Teaching Seminar (0)

Professional education
- SCU 207, Social and Historical Foundations of Education (4)
- SCU 336 or PSY 303, Human Growth and Development (4)
- LSE 380, Philosophical Foundations of Education (4)

Certificate in Performance Program

Certificate In Performance

The purpose of the program is to provide an intensive post-master's degree performance experience for a small number of highly accomplished performers. Entry into the program is based on evidence of ability to be successful in post-graduate level performance study. Other criteria include:

- Completion of a Master of Music in performance degree or equivalent from an accredited institution.
- Three letters of recommendation.
- An entrance audition which demonstrates performance ability at the post-master’s level.
- Voice applicants must demonstrate competence in Italian, French and German diction by audition and written IPA exam.
There are two primary components to the certificate in performance program. First, applied music (private instruction), and second, related studies. Related study will often consist of participation in the appropriate ensembles and additional academic classes in the School of Music. The course requirements for the certificate in performance appear below:

- Applied Music (24 credits)
- Related Study (12 credits)
- Recital (0 credits)

### Admission and Aid

#### Undergraduate Admission

Admission as a degree-seeking student in the School of Music is contingent upon a superior high school record and successful completion of a performance audition. Entering freshman and transfer applicants are required to audition before March 4 for admission the following September. Transfer students are required to validate credits earned in musicianship studies (theory, music history and literature, aural skills, and keyboard) through a placement examination prior to initial registration.

All students are required to audition regardless of their intended major and are encouraged to schedule their dates and times after October 15 for auditions to be held from January 29 through March 3. For audition requirements and a list of scheduled audition dates, please visit our website at http://music.depaul.edu/Admissions/Auditions/AuditionsUndergraduate.asp, contact the Director of Admission, DePaul University School of Music, 804 West Belden Avenue, Chicago, IL 60614, or call (773) 325-7444.

### Scholarship Opportunities

#### Undergraduate

Incoming freshmen majoring in music are automatically considered for music performance awards at the time of their entrance audition. The number and amount of these music awards vary each year. Please contact the School of Music for further information.

### Financial Aid

Students may apply for financial assistance based on family need through the Office of Financial Aid, DePaul University.
Graduate Admission

Admission

The first charter of DePaul University included a statement on nondiscrimination, and the policy has been enforced vigorously for over 114 years. It is the policy of the School of Music to make admission decisions without regard to the race, color, religion, age, gender, sexual orientation, national origin or handicap of the candidate.

Procedures for Admission

Applicants for graduate admission should submit an application online at http://www.depaul.edu/. The application deadline is December 1. Applicants should submit official college transcripts and three letters of recommendation to support their application. Applicants to the master's degree program for performance and jazz studies must take an entrance audition, usually held in February of each year. Audition requirements are specified at the following website: http://music.depaul.edu/Admissions/Auditions/AuditionsGraduateCertificate.asp. Applicants to the master's degree program for music education must interview with the Music Education department. Applicants to the master's degree program for composition must submit a composition portfolio of three pieces. A nonrefundable application fee is required of every student applying for admission to the University as a degree-seeking student. When admission has been approved, the applicant will be notified of the diagnostic examination schedule and new student orientation, which usually take place before the start of the academic year.

Certificate in Performance

The School of Music also offers a program leading to the Certificate in Performance. The Certificate in Performance is a post-masters program for classical or jazz musicians who intend to pursue careers as professional performers. Applicants should submit an application online at http://www.depaul.edu/. The application deadline is December 1. Applicants should submit official college transcripts and three letters of recommendation to support their application. Applicants must take an entrance audition, usually held in February of each year. Audition requirements are specified at the following website: http://music.depaul.edu/Admissions/Auditions/AuditionsGraduateCertificate.asp

Non-Degree Seeking Students

DePaul School of Music does not normally admit applicants as non-degree seeking students. A student who has earned a bachelor's degree or its equivalent from an accredited institution and does not intend to work for a master's degree may, on the written recommendation of the Associate Dean of Academic Affairs, be admitted as a non-degree seeking student. Only the first 12 quarter hours earned as a non-degree-seeking student at DePaul may subsequently be applied toward a degree when the student is accepted as a degree-seeking student.

Student-At-Large

DePaul School of Music does not normally admit applicants as students-at-large. A student completing a graduate program at another accredited institution may, on the written recommendation of the Associate Dean of Academic Affairs, be admitted as a student-at-large.

International Students

All international students and any student who has been educated outside of the United States should complete the application requirements for their desired program (see above), submit their educational credentials to a third-party organization for evaluation, and demonstrate a proficiency in English. The application deadline is December 1. Please see the following website for further information on applying to DePaul School of Music as an international graduate student: http://music.depaul.edu/Admissions/ApplicationProcess/ApplicationProcessInternational.asp.

To demonstrate English proficiency, international graduate music students must pass a TOEFL examination with a written score of 550 or an internet-based score of 80, with no section lower than 17. If a student has met all other music admissions criteria and taken a TOEFL examination, but not yet achieved a passing score, they may be considered for admission to the joint English Language Academy-School of Music program. (For further information on this program, students should contact the School of Music Admissions Office.) Those who request student visas also must show evidence of adequate financial support. A formal letter of admission and/or form I-20 will be issued only after all admission requirements have been fulfilled.
Diagnostic Examinations

Students who have been admitted to the master’s degree program for composition, performance, and music education must take a diagnostic examination in musicianship studies. These examinations, taken during new student orientation, will be used to guide course placement and identify areas for additional studies.

Music Teacher Certification Program

Admission Requirements

Applicants to the DePaul music teacher certification program must meet the following standards:

- Undergraduate degree in music
- Grade Point Average of 2.75 or higher
- Recommendations from two individuals familiar with the candidate’s potential as a teacher
- Music audition

Program of Study

All certification students must meet the core requirements of the undergraduate students in music education. Certification students take courses in four basic areas: music, liberal studies, music education, and education. A transcript review will be done by the music education department, to determine any deficiencies in any of these areas of study. Substitutions will be determined by the Associate Dean of Academic Affairs where appropriate.

Music Courses

- Applied music study (2 years)
- Musicianship/music theory and history (2 years)
- Aural training (2 years)
- Keyboard skills (2 years)
- Conducting (1 course)
- Music Traditions (world music and jazz)
- Ensemble (4 years)

Liberal Studies

- Writing (8 credits)
- Math (4 credits)
- Science, lab or quantitative (4 credits)
- American government (4 credits)
- American history (4 credits)

Music Education (V=vocal specialization, I=instrumental specialization)

- MED 306 INTRODUCTION TO MUSIC EDUCATION
- MED 303 ELEMENTARY VOCAL-GENERAL METHODS & LAB
- MED 304 MIDDLE SCHOOL VOCAL METHODS AND LAB (V)
- MED 300 ELEMENTARY & MIDDLE SCHOOL INSTRUMENTAL METHODS & LAB
- MED 305 SECONDARY VOCAL METHODS AND LAB (V)
- MED 308 ACCOMPANYING FOR THE MUSIC EDUCATOR (V)
- MED 301 SECONDARY INSTRUMENTAL METHODS AND LAB (I)
- MED 310 MUSIC EDUCATION FOR THE EXCEPTIONAL CHILD
- MED 325 TECHNOLOGY FOR MUSIC EDUCATORS
- MED 340 CONDUCTING FOR THE MUSIC EDUCATOR
- MED 121 CLASS GUITAR
- MED 196 CLASS VOICE
- Instrumental techniques classes:
  - Vocal Specialization (4 credits)
- MED 101 BRASS I, or MED 102 BRASS II
- MED 103 WOODWINDS I or MED 104 WOODWINDS II
- MED 105 STRINGS I
- MED 107 PERCUSSION I
- Instrumental Specialization (8 credits from the list below)
  - MED 101 BRASS I
  - MED 102 BRASS II
  - MED 103 WOODWINDS I
  - MED 104 WOODWINDS II
  - MED 109 WOODWINDS III
  - MED 105 STRINGS I
  - MED 106 STRINGS II
  - MED 107 PERCUSSION I
  - MED 108 PERCUSSION II
- MED 313 CHORAL LITERATURE I (V)
- MED electives (4 for V, 6 for I)
- MED 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH
- MED 392 STUDENT TEACHING
- MED 393 STUDENT TEACHING SEMINAR

**Professional Education**

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT
  
or PSY 303 HUMAN DEVELOPMENT
- LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION

**Certificate In Performance**

The purpose of the certificate program is to provide an intensive post-master’s degree performance experience for highly accomplished classical and jazz musicians. The entrance criteria include:

- Completion of a Master of Music in performance degree or equivalent from an accredited institution.
- Three letters of recommendation.
- An entrance audition which demonstrates performance ability at the post-master’s level.
- Voice applicants must demonstrate competence in Italian, French and German diction by audition and written IPA exam.

The two-year certificate in performance program is comprised of applied lessons, ensembles, related studies, and a recital.

**About**

The Theatre School is the Midwest’s oldest theatre conservatory. Founded as the Goodman School of Drama in 1925, the school carries on an 87-year history as a leading drama school in the United States. The conservatory format provides for an intensive, highly disciplined training program. The central core of the program is an extensive production-oriented approach. The School produces more than 150 public performances each season for an audience of more than 50,000 people, featuring students in every aspect of the production. Programs of study are offered in acting, scene design, costume design, lighting design, sound design, theatre technology, costume technology, stage management, playwriting, dramaturgy/criticism, theatre management, and theatre arts. Graduate programs are offered in acting, directing and arts leadership. The objectives of the professional curricula are to prepare the student for creative participation in any form of theatre requiring a high level of technical competence, to provide the student with the aesthetic and cultural background requisite to an
understanding of his/her art and of the world in which he/she works, and to develop the specific skills and
disciplines necessary for competence in the student's area of specialization.

Each Theatre School course builds and expands upon its predecessor. When the program is complete, the
student will have been exposed to the necessary artistic tools and shown their proper usage in order to realize
his or her goals. In addition, liberal education requirements are incorporated into all of the school's programs so
that the student may practice his/her craft with an awareness of history, literature, philosophy, and current and
past cultural and social events.

Advanced students in the Theatre Studies and Design and Technical programs enhance their training experience
by completing internships at local and national organizations. Internships have been conducted at the Brooklyn
Academy of Music, Metropolitan Opera, Seattle Opera, Goodman Theatre, Guthrie Theatre, Arena Stage,
Playwrights Horizons, the David Letterman Show, Chicago Shakespeare Theater, Disney Theatricals, Alabama
Shakespeare Festival, Fox Theatricals, Oregon Shakespeare Festival, Berkshire Theatre Festival, The Second City,
and Steppenwolf Theatre Company, among numerous others.

Faculty and Staff

In keeping with the school's concept of the dual importance of theory and practice and of producing a superior
quality of instruction, The Theatre School's faculty and staff are highly qualified, both professionally and
academically. The faculty is regularly supplemented by accomplished working professionals.

In addition, visiting artists and professionals appear in our guest speaker series, CHICAGO LIVE: THE ARTS.
Among them have been playwright David Mamet; actresses Celeste Holm, Florence Henderson, and Julie Harris;
actors Rip Torn, Charles Durning, Ray Liotta, Jonathan Pryce, Brian Dennehy, and Laurence Fishburne; Chicago's
nationally known Steppenwolf Ensemble including John Malkovich, Jeff Perry, and Gary Sinise; the late comedian
Avery Schrieber; director JoAnne Akalaitis, Anne Bogart, Frank Galati, and Paul Sills; and alumni Gillian
Anderson, Joe Mantegna, John C. Reilly, and Kevin Anderson, among scores of others.

---

**The Theatre School Graduate Student Handbook**

In addition to the DePaul University Graduate Student Handbook, The Theatre School Graduate Student Handbook includes requirements, rules and regulations for its graduate programs.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the
As a graduate student you assume the responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook. This catalog does not constitute a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right to revise the content of its catalogs and schedules, and to change policies, programs, requirements, rules, regulations, procedures, calendars and schedule of tuition and fees; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; or to make any other necessary changes.

Registration and Enrollment

No one is permitted to attend a class for which he or she has not been properly registered. Credit is accumulated on the basis of quarter hours. The normal class extends over a ten-week period.

Students enrolled for eight or more quarter hours of credit are considered full-time. Those enrolled in four to 7 hours of credit are considered half-time. Those registered for less than 4 quarter hours of credit are considered less than half-time. Normally, students in Theatre School programs are required to be enrolled as full-time students.

Probation

Academic Probation

A student is subject to probation as soon as his/her graduate GPA falls below 2.500. The student remains on probation until the end of the subsequent quarter, at which time another evaluation is made. If, at that time, the student has failed to raise his/her GPA to the required level of 2.500 the student may be dismissed for poor scholarship, and prohibited from registering for additional course work. If the student has raised his/her GPA to the required level of 2.500, the student will be removed from academic probation.

Disciplinary Probation

The Theatre School’s Disciplinary Probation Policy is detailed in The Theatre School Student Handbook on the school’s website.

Professional Probation

The Theatre School’s Professional Probation Policy is detailed in The Theatre School Student Handbook on the school’s website.
**Invitation to Return & Evaluation Policies**

A grade of D+ or D is unacceptable for graduate credit. If earned in a required course, the course must be repeated.

A student must earn a grade of B- or higher to receive graduate credit for any upper level undergraduate course (300 or above) that has been accepted for graduate credit.

Please consult The Theatre School Student Handbook on the school's website for details on the following:

- MFA Acting Program Capacities and Invitations to Return
- MFA I Grading Procedures for the Acting Program
- MFA Directing Program Evaluation and Continuance Policies
- MFA Arts Leadership Evaluation and Continuance Policies
- Invitations to Return for all Programs
- Invitations to Return Appeal Process

**Readmission**

A student who was previously enrolled in a graduate program in The Theatre School but has not been in attendance since the end of a leave of absence, but not more than four calendar years, must file a Readmission Application. Normally, this application requires that the student take part in the annual interview and audition process and meet the annual application deadlines. Detailed information is available on the school's website. (If more than four years have elapsed since the student been in attendance, a new application is required.)

Official copies of transcripts recording scholastic work taken while not enrolled at DePaul University must be submitted. As a policy, students are held to the degree requirements that are in force at the time of readmission.

**Transfer Credit**

Normally graduate programs at The Theatre School do not accept credit transferred from another institution. Exceptions can only be granted by the specific departmental chair or program director.

**Undergraduate Courses**

Courses numbered 300 through 399 are advanced undergraduate courses. If listed in this Catalog, they may be accepted for graduate credit within the limitations stipulated by the specific departmental chair or program director.
Graduation Requirements

Students must have successfully completed all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which the student was admitted.

Completed degree requirements can include the submitting of the dissertation, thesis or research paper, examination scores, and, if necessary, grade changes. Students need to achieve a minimum grade point average of 2.500 to graduate.

Graduation with Distinction

Distinction is conferred upon a student who has maintained a 3.75 cumulative grade point average in the degree program, and passes with distinction the final oral or written examination or the master’s thesis or project where applicable.

Additional Policies

The Theatre School Student Handbook located on the Theatre School website details additional policies, including (but not limited to) policies related the productions, production assignments, casting, and rehearsal procedures.

Leaves of Absence

Students who find it necessary to interrupt their attendance at The Theatre School may apply for a leave of absence. For details about this policy, please consult The Theatre School Student Handbook on the school’s website.

Students applying for a leave should also complete the DePaul University Leave of Absence application on Campus Connect.

Admission

Candidates interested in admission to any of the undergraduate or graduate programs of The Theatre School should contact The Theatre School Admissions Office at (773) 325-7999 or (800) 4DEPAUL (Extension 7999). The office will provide each candidate with detailed instructions for the application and audition/interview process.

Theatre applicants are responsible for scheduling their own audition (for acting) or interview (for all other majors), which can be done on The Theatre School’s website. If, for any reason, an applicant is unable to reserve a slot online, he or she should contact The Theatre School Admissions Office directly.
The Theatre School only admits students for entry into Autumn quarter each year. Enrollment in each area of concentration is limited by strict capacities. In all of The Theatre School’s programs, students are evaluated annually by the faculty and formally invited to continue into the subsequent year. The evaluation, a professional and confidential process, is based on four key elements: discipline, collaboration, professional potential, and progress in the program. For more information about the School’s policies about admission, retention, evaluations of students, invitations to return, and related matters, please see The Theatre School website.
Course Descriptions

A&S 491
ADMINISTRATIVE THEORY AND BEHAVIOR
Graduate
This course concerns theoretical concepts and empirical research relating to administrative behavior in organizations with special reference to educational organizations. Concepts are examined within the typical decisional framework of supervisors, chief school business officers, principals, and superintendents, and similar positions in the helping professions. Assignments are individualized.

Status as an Advanced Masters Education student is a prerequisite for this class.

A&S 492
THE PRINCIPALSHIP
Graduate
An intensive study of factors involved in the administration and supervision of a school. Topics considered include the administration and supervision of student personnel, faculty, the instructional program, financial and physical resources, community relations and other basic needs in administering and supervising schools.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 493
DATA DRIVEN DECISION MAKING
Graduate
This course provides future administrators with the tools they need to critically examine demographic, financial, personnel and testing data and to use the insights gained in making well informed administrative decisions.

Status as an Advanced Masters Education student is a prerequisite for this class.

A&S 494
SCHOOL FINANCE
Graduate
Major consideration will be given to problems relating to the preparing of a school budget, procuring revenue, financial accounting, capital outlays, insurance on property, taking of inventory, and the social and political implications of how schools are financed.

Status as an Advanced Masters Education student is a prerequisite for this class.

A&S 495
SCHOOL LAW
Graduate
Authority, powers and liability of school personnel; rights and status of students; character of districts and school board control of curriculum, school property, finances. Special emphasis on recent state and federal court decisions as they affect Illinois and neighboring states.

Status as an Advanced Masters Education student is a prerequisite for this class.

A&S 496
HOME, SCHOOL, COMMUNITY RELATIONS
Graduate
This course will examine the formation of educational partnerships within the home, school, community for the general purpose of school improvement and more specifically to affect the improvement of student achievement within the context of school reform. Students will have the opportunity to critically examine their individual and collective roles as administrators and educators in the school reform movement and be reflective regarding actions taken and planned. Among the issues to be discussed and integrated into the administrative role are how groups form, school leadership, group relations, power relationships, communications/public relations, collaborations, shared decision making, needs identification, resource identification and individual and collective action.

Status as an Advanced Masters Education student is a prerequisite for this class.
A&S 498
INSTRUCTIONAL SUPERVISION AND SUPPORT
Graduate
Instructional Supervision is examined from the perspective of both student and teacher learning, dealing with issues such as motivation, responsibility and increased proficiency. This course deals with issues of teacher observation and evaluation; clinical supervision; and professional development programming.

Status as an Advanced Masters Education student is a prerequisite for this class.

A&S 499
CLINICAL SUPERVISION
Graduate
Develops competencies in a system of person-to-person supervision that will give supervisors reasonable hope of accomplishing significant improvements in the personnel performance.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 570
HISTORICAL, PHILOSOPHICAL AND THEOLOGICAL FOUNDATIONS OF CATHOLIC SCHOOL LEADERSHIP
Graduate
A survey of the history of Catholic K-12 education in the United States and the foundational documents of Catholic Education. Students will examine the history and philosophical/theological foundation of Catholic Schools in the United States and will be asked to reflect on the nature and mission of Catholic education in the multicultural, multiethnic milieu of Twenty-first Century America.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 571
SPIRITUAL AND ADMINISTRATIVE LEADERSHIP IN CATHOLIC SCHOOLS
Graduate
Students will be asked to conceptualize leadership from the Transformational and Servant Leadership perspectives. Using these principles, students will examine the spirituality if Catholic School leadership, and its implications for them in their role as ministers and coordinators of ministries in the school setting. Students will then examine the unique administrative and managerial factors that impact Catholic schools from a leadership framework that is imbued with the spirituality of Servant Leadership.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 590
ORGANIZATIONAL DEVELOPMENT
Graduate
A development approach used in combining theory, research, and applications for improving interpersonal effectiveness and to develop problem-solving capacity of the organization. The course is about change theory, people in organizations and the achievement of individual and organizational goals.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 591
RESEARCH SEMINAR IN EDUCATIONAL LEADERSHIP
Graduate
This course is designed to help graduate students in Educational Leadership through the process of planning, organizing, drafting, and revising their Master's papers. Students will be expected to complete a literature review and to develop a strong proposal for an integrative paper as a prelude to selecting an advisor for their Master's papers. For M.Ed. students only.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.
A&S 593
PRACTICUM IN EDUCATIONAL LEADERSHIP
Graduate
The practicum provides opportunities for advanced students in administration and supervision to participate in and complete a research project in selected systems on a full-time or part-time basis. The experiences are intended to provide, under professional direction and supervision for (1) study for major factions, policies, and problems for administration and supervision, and (2) intensive study of certain critical administrative and supervisory practices. PREREQUISITE(S): Advanced standing in administration and supervision and permission of faculty advisor.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 594
INTERNSHIP IN EDUCATIONAL LEADERSHIP
Graduate
The internship provides supervised experiences in selected organizations on a full-time or part-time basis. The student intern is cooperatively assigned to an organization under the immediate supervision of organizational personnel. The experiences provided are designed to enrich the student's theoretical background with practical opportunities of participating in (1) overall contact with personnel and with the major functions and problems of certain critical administrative and/or supervisory activities, and (2) a detailed study and analysis of a particular administrative and/or supervisory function or activity.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 595
WORKSHOP IN EDUCATIONAL LEADERSHIP
Graduate
Topics of particular interest and concern to administrators and supervisors will be presented in a high-involvement seminar format. Primary reliance will be on written materials; however, audio-visual and role-playing mechanisms may also be used. Participation in workshops is limited to advance students of administration and supervision.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 596
HUMAN RESOURCE MANAGEMENT
Graduate
Theory, practice and relevant research in modern personnel administration. Recruitment, staff-development, interviewing, collective bargaining, conflict resolution and employee evaluation are emphasized. Human resource administration, induction programs, and in-service opportunities are touched upon.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 597
POLITICS OF EDUCATION
Graduate
Policy development in education as a political process; community power, state and national politics in educational decision-making and the role of leadership and pressure groups in the shaping of educational policy at local, state and national levels.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 598
INDEPENDENT STUDY IN EDUCATIONAL LEADERSHIP
Graduate
Independent study

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.
A&S 599
THESIS SEMINAR IN EDUCATIONAL LEADERSHIP
Graduate
A student writing a thesis registers for this course for four quarter hours of credit. When the thesis research and the writing of the thesis itself are prolonged beyond the usual time, the program advisor may require the student to register for additional credit.

SCG 410, thesis, advanced Mast

A&S 600
REGISTERED STUDENT IN GOOD STANDING
Graduate
(0 credit) Registration in this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 606
REVIEW OF LITERATURE
Graduate
This paper will give students the opportunity to develop and demonstrate written competence in a subfield of their disciplines and to enhance life-long learning. Specifically, they will broaden their knowledge base and inform themselves about a topic, issue, theory, etc., reviewing and synthesizing existing literature. To do so, students will need a variety of bibliographic skills including searching databases. In other words, student will need to be able to ask and answer such question as "What is know about? What are major issues and themes?"

A&S 607
INTEGRATIVE PAPER
Graduate
Students will observe and/or participate in the reciprocal interaction of theory and practice, by investigating actual practice in the field as it relates to theory. This might take the form of investigating how a particular theory is applied in the field, developing a practical application of a theory, or, conversely, developing/refining a theory based on investigations made in the field. In other words, as graduates encounter new theories and practices they will need to be able to investigate and evaluate them, asking and answering questions about "how theories work."

A&S 608
CAPSTONE IN EDUCATIONAL LEADERSHIP
Graduate
Students who have completed the majority of the program will engage in an analysis of an urban school. Students will be given demographic, financial and testing data; a narrative of the school's history and recent past; photographs of the setting, and other pertinent data and artifacts. Using these artifacts, students will be asked to design their first year agenda as the chief administrator in the building. Using the ISLLC standards as a guideline, students will create a portfolio that clearly outlines, schedules, professional development plans, budgets, enrollment projections, and so forth.

A&S 625
CANDIDACY CULMINATING PROJECT
Graduate
(0 credit) Registration in this course is required of all students who are not enrolled in a course but are completing culminating projects for their program of study, including theses, papers, and final portfolios. It provides access to university facilities. Permission of advisor required. Registration limited to three terms. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

A&S 640
LEGAL ASPECTS OF SPECIAL EDUCATION FOR CLASSROOM TEACHERS
Graduate
The course will include a discussion of the legal rights of students with disabilities and the corresponding responsibilities and obligations of schools and educational personnel for meeting their educational needs. The course will include specific legal components inherent with the identification and education of students with disabilities including adaptations of classroom instructional methodology for students with disabilities in the regular education classroom.
A&S 645
THE ADMINISTRATION AND SUPERVISION OF SPECIAL EDUCATION
Graduate
This course will examine the role and function of special education; special services within the school and community, including special classes for the mentally and/or physically handicapped; and various services, such as school psychology, school social work, speech correction, learning disabilities specialist, and others. The course includes specific models for administration of special education programs and procedures for supervision and evaluation of special education personnel.

A&S 694
SCHOOL FINANCE
Graduate
Major consideration will be given to problems relating to the preparation of a school budget, procuring revenue, financial accounting, capital outlays, insurance on property, taking of inventory, and the social, political, and ethical implications of how schools are financed.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 695
SCHOOL LAW
Graduate
Authority, powers and liability of school personnel; rights and status of students; character of districts and school board control of curriculum, school property, finances. Special emphasis on recent state and federal court decisions as they affect Illinois and neighboring states.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 700
REGISTERED DOCTORAL STUDENT IN GOOD STANDING
Graduate
Non-credit. This registration is required of all doctoral students who are not enrolled in a doctoral course, but are completing course requirements and/or dissertation research. It provides access to University facilities. Academic advisor approval required. After the third enrollment, dissertation chair approval required.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 706
CANDIDACY PAPER
Graduate
(0 credit) Registration in this course is required of all students who are not enrolled in a course but are completing a dissertation. It provides access to university facilities. Permission of advisor required. This registration indicates that a student has successfully completed the candidacy paper as specified in the Doctoral Student Handbook. $50 per quarter.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 801
LEADERSHIP: THEORY AND PRACTICE
Graduate
This course examines leadership theories from various social, psychological and philosophical perspectives both historical and contemporary. The student will also be called upon to reflect upon contemporary practice in K-16 educational leadership settings and evaluate the efficacy of the theoretical frameworks in light of practice.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 803
SCHOOL PROGRAMS, PLANT AND HUMAN RESOURCES
Graduate
The development of school programs, based on current research and school laws and regulations, will be explored. The focus will be on the core curriculum, Education and Secondary Education Act (ESEA), State Chapter I, Bilingual and Special Education mandates and opportunities as well as on other discretionary school programs. Responsibilities in relation to plant operation and management, staffing formulas for all staff, developing job descriptions, recruitment, and staff selection and evaluation are included.

Status as an EDD-Educational Leadership student is a prerequisite for this class. Other EDD students may enroll with permission of instructor.
A&S 811
ASSESSMENT AND ACCOUNTABILITY
Graduate
This course addresses the key role of leaders in educational systems for the development, articulation, implementation, and supervision of an assessment process that provides accountability for all stakeholders—students, parents, teachers, legislators, relevant communities, and governing authorities. Issues of philosophy, standards, outcomes, curricula, instrumentation, technology, and the interconnected nature of these factors are identified as they influence the leadership role in accountability compliance. Factors related to ethical practice and social justice anchor the philosophical and political parameters of the course.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 823
COMMUNITY AND CONSENSUS BUILDING FOR SCHOOL IMPROVEMENT
Graduate
Students will examine inclusive models for consensus building among school/community members that engage membership in processes and decision making through data collection, self-analysis, mission/vision development, goal setting and program planning, implementation and evaluation that leads to school and community improvement. Attention will be given to establishing linkages with local municipal, state, and federal resources, business and industrial resources, community services, and other community resources.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 843
THE POLITICS OF SCHOOLING
Graduate
Students will engage in analyzing educational policy and the political processes related to problem identification, problem solving, decision making, the underlying political processes and their impact on the school/community, students, parents, educators, staff, and community members. The role of such entities as, school boards, unions, professional associations, businesses, university preparation programs, book and test publishers, and local, state, and national policy makers in the education political arena will be analyzed. Attention will be given to the means by which support for change is developed with special emphasis on collaborative dialogue and teamwork for political action. Strategies for coalition building, and individual and collective action will be informed by the use of theory from applied behavioral science and political science.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 849
SUPERVISED DISSERTATION PROPOSAL DEVELOPMENT
Graduate
Students register for this course for the quarter in which they defend their dissertation proposals. Permission of dissertation chair required.

A&S 859
INDEPENDENT DISSERTATION RESEARCH: EDUCATIONAL LEADERSHIP
Graduate
Students register for this course for the quarter in which they defend their dissertation proposals. Permission of dissertation chair required.

A&S 873
CURRENT TRENDS IN BUDGETING AND FINANCE
Graduate
This course focuses on the priorities of school funding. Financial decisions undergird instructional programs and administrative decision making. Relating these to available money and funding, setting priorities and maximizing the impact on student achievement will be studied.

A&S 494 or equivalent and status as an EDD student are a prerequisite of this class.
A&S 883
SCHOOL LAW
Graduate
This course examines the current legal requirements of schools and how changes impact schools. Administrators make decisions that respond to many realities, including the rules and regulations at the local, state, and national levels. The administrator works within a constantly changing system. The duties and liabilities of school administrators as determined by federal rules and regulations, state school codes, the policies of boards of education, and case law will be examined.

A&S 495 and status as an EDD student are prerequisites for this course.

A&S 894
INTERNSHIP IN EDUCATIONAL LEADERSHIP
Graduate
(4-8 qh) The internship provides supervised experiences in selected organizations on a full-time or part-time basis. The student intern is cooperatively assigned to an organization under the immediate supervision of organizational personnel. The experiences provided are designed to enrich the student's theoretical background with practical opportunities of participating in (1) overall contact with personnel and with the major functions and problems of certain critical administrative and/or supervisory activities, and (2) a detailed study and analysis of a particular administrative and/or supervisory function or activity.

Status as an EDD student with a declared concentration is a prerequisite for this class.

A&S 899
SUPERINTENDENT INTERNSHIP
Graduate
This course is intended for those seeking the Illinois State Board of Education (ISBE) Superintendent Endorsement. The experiences provided are designed to enrich the students' theoretical background with practical opportunities to participate in major functions and critical duties at the district, regional and/or central office level. The student will be cooperatively assigned to site(s) and be supervised by the on-site superintendent and a DePaul faculty member.

Status as an EDD student with a declared concentration is a prerequisite for this class.

A&S 602
PRINCIPAL LICENSURE INTERNSHIP I
Graduate
This internship experience immerses the student into the world of the instructional leader in the contemporary Pre K-8th school setting. The student is to complete at minimum 100 clock hours of instructional leadership experiences in The PreK-8 setting by participating and taking the lead in concrete sustained leadership experiences under the supervision of both the building's principal (mentor) and the faculty supervisor.

Status as an Advanced Masters Education student is a prerequisite for this class.

A&S 603
PRINCIPAL LICENSURE INTERNSHIP II
Graduate
This internship experience immerses the student into the world of the instructional leader in the contemporary 9-12 school setting. The student is to complete at minimum 100 clock hours of instructional leadership experiences in the 9-12 setting by participating and taking the lead in concrete sustained leadership experiences under the supervision of both the building's principal (mentor) and the faculty supervisor.

Status as an Advanced Masters Education student is a prerequisite for this class.

AAS 200
ASIAN AMERICAN HISTORY
Undergraduate
This course examines the creation of Asian America by first and second-generation Asian migrants to the Americans from the 1840s to World War II. The course provides a historical, legal, social and cultural framework for understanding the resurgence of Asian migration since the 1960s.
AAS 202
ASIAN AMERICAN LITERATURE
Undergraduate
This course will serve as an overview of Asian American literature in a socio-historical context. Special emphasis will be placed on tracing the various paradigms through which these works have been produced, from texts written prior to the movement towards self-determination during the 1960s; to works identified with the "cultural nationalism" promoted during the 1960s and 1970s; to the pluralism of the 1980s which explored how gender, sexual orientation, and class complicate earlier essentialist conceptions of racial identity; and finally to the transnational and diasporic interests of the 1990s. Texts covered will include primarily fiction (novels and short stories), but also critical essays, plays, movies, and poetry.

AAS 203
ASIAN AMERICAN ARTS AND CULTURE
Undergraduate
This course will examine Asian American arts and cultural productions in relation to the histories of people and groups with roots in Asia and the Pacific. The course will focus on contemporary visual arts from the emergence of Asian American movements in the 1960's and 1970's, to the multiculturalism of the 1980's and 1990's to our present transnational moment. Formerly AAS 201.

AAS 205
INTRODUCTION TO GLOBAL ASIAN STUDIES
Undergraduate
This course examines contemporary experiences of Asians in America and the diaspora. The historical focus is post-1965 and encompasses immigrant groups such as: Chinese, Japanese, Filipinos, Indians, Koreans, Pakistanis, Bangladeshis, and Southeast Asians. Formerly AAS 100.

AAS 210
PRINCIPLES OF ASIAN ART
Undergraduate
An introduction to major developments of art and architecture across Asian including South Asia, Southeast Asia, the Himalayas, and East Asia and their counterparts in America. This course examines not only painting, sculpture, and architecture, but also gardens, ceramics, and prints. Special emphasis will be places on religious arts of Buddhism and Hinduism, along with landscape and figural painting. Cross-listed with HAA 115.

AAS 211
BUDDHIST ART
Undergraduate
This course explores the traditional visual culture of the Buddhist world, examining art as a reflection of religious belief and practice. The works come from South Asia, Southeast Asia, East Asia, and America. An emphasis is placed on painting, sculpture, and architecture made for or related to Buddhist practice. Cross-listed with HAA 220.

AAS 220
AMERICAN BUDDHISM
Undergraduate
This course critically analyzes the origins Buddhism in the United States in order to fully understand how and why Buddhism has flourished in Asian and White American communities, and to understand the conflict and controversy surrounding the racial dynamics of religious choice. Cross-listed with AMS 220.

AAS 222
RELIGION AND POLITICAL CONFLICT: SOUTH ASIA
Undergraduate
An examination of the role of religions and religious movements in political conflicts. Particular sections will examine the relationship of religious violence and peacemaking in different areas of the world (in this case, South Asia).
AAS 223
TALES OF INDIA
Undergraduate
Before the modern nation-states of India and Pakistan came into being, the term "India" referred to the South Asian region, a region that has been and is the home of many cultures and societies. These cultures have also reached beyond the region to create rich and paradoxical diaspora experiences in Europe and the Americas. Tales of India will explore a variety of literatures, ancient and contemporary, that illuminate the worlds of South Asian peoples in their homelands and in the transnational life of the diaspora. Themes will include love, power, religious meaning/religious identity, and cultural difference.

AAS 224
HINDU THOUGHT AND CULTURE
Undergraduate
An exploration of Hinduism as a civilization whose key reference points are religious in the sense understood in the West (ritual and transcendence), yet which finds expression in a “high culture” of literary works, political and social theory, art and architecture, music and dance, and folk and popular stories, songs and plays. Cross-listed with REL 242.

AAS 225
RELIGION AND SOCIAL ENGAGEMENT: SOCIALLY ENGAGED BUDDHISM
Undergraduate
An investigation of the ways in which various religious traditions engage the social order. Traditions, persons and movements that form the focus of the course will vary from section to section (in this case the focus is on Buddhism). The course will integrate theory and practice in studying forms of religious engagement. All students will perform some service to a community or within a community organization or agency.

Sophomore standing is a prerequisite for this class.

AAS 226
ETHICAL WORLDS: MORAL ISSUES ACROSS CULTURES: ATOM BOMB DISCOURSE
Undergraduate
An exploration of religion and ethics from a comparative and international perspective. Ethical dimensions of diverse world traditions (in this case the development and use of atomic weaponry) will be investigated within their own particular historical and cultural contexts, and students will be asked to consider and evaluate their own ethical orientations in the light of these studies.

AAS 248
CHINESE CALLIGRAPHY
Undergraduate
An introduction to the art of Chinese calligraphy. Hands-on practice as well as history and theory of the art. This course is open to students with no background in Chinese calligraphy, language, literature, or culture. Cross-listed with MOL 248.

AAS 290
TOPICS IN ASIAN AMERICAN STUDIES
Undergraduate
This course, which varies from quarter to quarter, explores topics in Asian-American studies.

AAS 305
RELIGION AND CULTURE IN SOUTH ASIA
Undergraduate
This course examines the interplay between religion and society in pre-modern and contemporary South Asia. The course will use such materials as epic texts, poetry, novels, journalism, film, music and art to explore how religion, gender, social class and politics are experienced in the lives of people in India and Pakistan. Cross-listed with REL 305.

AAS 325
QUEER JAPAN
Undergraduate
This course surveys representations of same-sex sexuality from the 14th century to the present day in Japan. We will explore the intersection of history, politics, art, and culture through historiography, literature, film, photography, music, cartoons, and animation, examining "traditional" male-male sexuality, the emergence of the modern era of texts reflecting female-female sexuality, as well as the formation of new consciousness and subjectivities throughout the 20th century and into the 21st. Cross-listed with MOL 325.
AAS 337
ASIAN AMERICAN MEDIA REPRESENTATION
Undergraduate
This course examines the ways in which Americans of Asian descent are portrayed in popular media such as television, film, newspapers, and advertisement.

AAS 343
JAPANESE AMERICAN HISTORY IN THE US/ CHICAGO
Undergraduate
The second course in a sequence of three content-based courses designed for advanced high learners and native speakers of Japanese to discuss authentic cultural, historical, or literary materials. Topics vary with offering: see current schedule for details. Recommended for students who have completed JPN 201-202-203 and JPN 311-312-313, or have equivalent proficiency in Japanese.

AAS 350
ETHNIC MINORITY YOUTH: ADAPTATION, IDENTITY AND DEVELOPMENT
Undergraduate
Utilizing an ecological systems perspective, this course examines the challenges and resiliencies faced and acquired by ethnic minority youth. This course will closely examine developmental issues during adolescence that are complicated by being an ethnic minority, or child of immigrant parents. Issues examining the intersection of socio-political power dynamics, with acculturation/cultural adaptation, ethnic identity formation, and intergenerational family conflict will particularly be examined.

AAS 367
LITERATURE OF THE VIETNAM WAR
Undergraduate
This course examines novels, short stories, and essays on the Vietnam war and its aftermath, Vietnamese society, literature of the Vietnam Era.

AAS 395
INDEPENDENT STUDY IN ASIAN AMERICAN STUDIES
Undergraduate
Independent study. Variable credit.

ABD 100
INTRODUCTION TO AFRICAN AND THE BLACK DIASPORA STUDIES
Undergraduate
The objective of the course is two-fold: first, to introduce students to African and Black Diaspora Studies as a scholarly field rooted in a tripartite intellectual tradition (Africa, Pan-African, and African American Studies) and second, to ground the history of the field in the investigation of problems raised in African and Black diasporic public spheres. The course will show how the field formulates and investigates questions designed to critique existing knowledges and to expand knowledges in the interests of Black peoples.

ABD 144
AFRICAN RELIGIOUS EXPERIENCE (CROSS-LISTED AS REL 144)
Undergraduate
A survey of the varieties of African religious practice and thought. Cross-listed as REL 144.

ABD 200
AFRICA:PEOPLES, CULTURES, IDEAS AND MOVEMENTS
Undergraduate
This is an introductory survey course on African politics. The organizing topic and focus of the course will be Africa's experience with democratic governance, especially its continuing vigor and popular appeal on the continent despite its elusive character. Our goal in this course is to gain a deeper understanding and appreciation of Africa: its rich political tradition, incredible diversity, its contradictions, achievements and failings. The objective is to be able to ask better questions, and develop some insights about why democracy, self-sustaining economic growth, equity and social justice have been so difficult to accomplish and sustain in the region.
ABD 202
AFRICA, 1750-1900
Undergraduate
The Age of Conquest. The origins of Afro-European relations and the political, economic and military causes of the European partition and occupation of the continent. Cross-listed with HST 132.

ABD 203
AFRICA, 1900-PRESENT
Undergraduate
The workings of the colonial system, the rise and course of independence movements, and the history of individual African states since independence. Cross-listed with HST 133.

ABD 206
AFRO-CARIBBEAN AND AFRO-LATIN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS
Undergraduate
This course has two objectives. First, to introduce the student to the study of peoples of African descent in the Caribbean and Latin American through lenses of history, politics, and culture. Second, to introduce students to the methods and knowledges of the field of Latin America Studies to enable students to pursue further research.

ABD 208
AFRICAN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS
Undergraduate
The objective of the course is to introduce the student to the history of the field of African American Studies. The course will be organized around two inquiries central to the field. First, the study the nature and quality of the connections between Africans in the diaspora, particularly in the United States, with the cultures and histories of Africans on the continent. Second, to study the ways in African Americans have developed an specific consciousness of being of African descent. These two inquiries will be examined in their cultural, economic, geographical, historical, philosophical and political contexts. This course will also place the field of African American studies within the context o its formation. Although the pioneering programs and departments were incorporated into college and university curriculums in the late 1960's and early 1970's

ABD 210
AFRICA ON FILM
Undergraduate
Africa is a continent with a rich and growing repertoire of film. This course explores this repertoire, focusing primarily on films made about Africa by filmmakers of African descent. This class will feature fiction and non-fiction films (full-length and shorts) by well-known filmmakers of African descent. In addition to screenings, students will read essays that illuminate the background necessary to intelligently interpret and critique film. Topics for discussion include the funding, distribution, and presentation of African Films as well as modes of criticism appropriate to film made by Africans and the relation filmmaking to history. Film directors include Souleymane Cisse, Bassek ba Kobhio, Jean-Marie Teno, Djibril Dio Mambety, Mahamad Camara, and Ousmane Sembene.

ABD 211
AFRICA TO 1800: AGE OF EMPIRES
Undergraduate
A study of African history from earliest times, concentrating on the political, social and religious aspects of major African states and empires. Cross-listed with HST 131.

ABD 212
INTERCULTURAL COMMUNICATION
Undergraduate
Examines the role culture plays in interethnic and international communication. Explores differences and similarities in cultural values and communication behaviors between and among diverse cultures and develops cultural competence. Critiques stereotypes and increases cultural sensitivity.
ABD 214
ARCHEOLOGY OF THE AFRICAN DIASPORA
Undergraduate
Africans have been on the move since the dawn of humanity. Archaeology is one discipline that can inform us about the presence and influence of Africans throughout the world, beginning with our hominid ancestors and continuing through the 20th century. Prior experience with archaeology is not required. Topics include: the evolution and development of our species; migrations within the African continent and abroad; and the cultural insights to be gained from the rapidly-growing field of African-American archaeology.

ABD 215
THE AFRICAN AMERICAN RELIGIOUS EXPERIENCE
Undergraduate
This course will examine the religious experience of African Americans and its African precursors through historical and literary resources, reflecting African Americans' distinctive past and interaction with other elements of American culture.

ABD 218
AFRICAN AMERICAN POLITICS
Undergraduate
This course explores the evolution of African-American political participation from the mid-1800's to the present. Topical areas include black political leadership and involvement in social movements (including abolitionism, nationalism, civil rights and the black power movements), electoral politics, political parties, urban politics, public policies, political culture, and as elected officials. Special attention will also be given to the influence of laws and the courts on African-Americans' political participation.

ABD 220
BLACKS AND LOVE
Undergraduate
This course employs cultural criticism, race and ethnic studies, and women's and gender studies to examine the visual representations of blacks and love in art, film, and literature. The course begins by examining the construction of race in eighteenth, nineteenth, and early twentieth-century European and American philosophy and body politic and with an examination of art, art history, film, and literature. Section two explores the definition of love; it examines Christian definitions of love as well as secular definitions from black intellectuals, cultural critics, and scholars. Section three examines a range of genres in search of progressive, transformative, positive images that depict blacks in loving relationships, rediscovering what it means to love oneself and others in spite of/because of our human differences (in race/ethnicity, gender, class, sexuality).

ABD 231
PHILOSOPHY AND THE QUESTION OF RACE
Undergraduate
A philosophical inquiry into history of the concept of race.

ABD 233
SURVEY OF AFRICAN DIASPORIC INTELLECTUAL THOUGHT
Undergraduate
This survey course examines the philosophical and critical thought from African American, Caribbean, and African philosophers, feminists, political, and radical intellectuals. The thinkers to be studied include, but are not limited to, Du Bois, Garvey, James, Lamming, Williams, Senghor, Fanon, Hodge, Wynter, Lorde, Soyinka, hooks, Emecheta, and Conde.

ABD 234
SURVEY OF BLACK AESTHETIC THOUGHT
Undergraduate
This survey course examines the history of the aesthetic thought that has emerged from the minds of Black creative intellectuals in the United States and globally. Figures to be examined might include: Du Bois, Locke, Hughes, Johnson, Hurston, James, Baraka, Piper, hooks, Julien, Mercer, and Wallace.
ABD 235
HARLEM RENAISSANCE AND NEGRITUDE
Undergraduate
This interdisciplinary course will examine the diasporic literary and cultural movements known as the Harlem (or New Negro) Renaissance and the Negritude Movement in literature, music, and visual arts. Specific attention will be given to the historical, economic, and political aspects which helped to form these movements. Figures to be examined include: Du Bois, Hughes, Locke, Larsen, Douglas, Cullen, Cesaire, Damas and Senghor.

ABD 239
PHILOSOPHIES OF AFRICA (CROSS-LISTED WITH PHL 239)
Undergraduate
A study of the patterns of philosophical thinking form the African continent. Cross-listed with PHL 239.

ABD 241
RELIGIOUS DIMENSIONS OF THE AFRICAN DIASPORA
Undergraduate
This course explores the dynamics of African religions throughout the Diaspora and the Atlantic world. It will pay particular attention to the variety of historical experiences and sacred institutions of those of African descent. Questions of the course include: how were these religions and their communities created?; how have they survived?; and how are African-based traditions perpetuated through ritual, song, dance, drumming, and healing practices? Specific attention will be given to one or more of the following: Yoruba religion and its New World offspring, Santeria, Voodoo and Candomble; Africanisms in American religion; gospel music; Islam; urban religions; and/or Vodun and Voodoo.

ABD 244
AFRICAN WOMEN WRITERS
Undergraduate
This course examines fiction and criticism with the purpose of studying how African woman configure themselves in literature and how they (re)define feminist theory. Authors to be studied include include: El Saadawi, Emecheta, Alkali, Nzapa, Head, Ngcobo Lessing: Gordimer; Aidoo; Ba, and Joyce.

ABD 245
RACE AND ETHNICITY IN LITERARY STUDIES
Undergraduate
This course examines various ways in which race is constructed and, concurrently, how race as a "fiction" operates in literary studies. Literature presents and explores the ways in which the world is viewed and experienced by individuals in a particular society or social group. Since literature provides unique insights into different historical and cultural movements, studying how race is understood and deployed (explicitly and implicitly) in a text provides a powerful way to examine the fluidity of race and to compare how it is understood in different parts of the Black diaspora.

ABD 246
PRINCIPLES OF AFRICAN ART (CROSS-LISTED W/ HAA 101)
Undergraduate
This introductory-level course surveys the arts of select cultures from west and central Africa. The course will focus on the arts of royalty as a means by which to introduce basic concepts and larger issues within the field. The arts of groups who borrow from royal iconography, such as diviners, religious cults, societies of elders, and others, will also be investigated. Themes pertinent throughout the course include issues of gender, colonialism, cultural interaction, and historical change in both visual art and the nature of kingship. Cross-listed as HAA 101.

ABD 247
ANCIENT AFRICAN ART: PREHISTORIC TO THE EUROPEAN ENCOUNTER
Undergraduate
This course surveys a selection of artistic traditions from across the African continent beginning with the earliest attempts by humanity to visually represent complex thought until the Portuguese began trading along the coast of West Africa in the mid-fifteenth century. Emphasis is placed on demonstrating connectedness with a larger cultural environment, while also suggesting connections to future artistic traditions. Cross-listed with HAA 201.
ABD 248
MODERN AFRICAN ART: EUROPEAN ENCOUNTER TO INDEPENDENCE
Undergraduate
This course surveys a selection of artistic traditions from across the African continent beginning with the arrival of the Portuguese along the coast of West Africa in the mid-fifteenth century until the age of African independence in the 1960s. While the impact of a European presence helps define the boundaries of this course, artistic response to that presence is but one theme. Interactions between African cultures and the impact of Islam are equally important considerations. Cross-listed as HAA 202.

ABD 249
JAZZ AND THE DIASPORIC IMAGINATION
Undergraduate
This course will examine the role jazz has played in the cultural imaginations of peoples across the African Diaspora. What does jazz symbolize for authors and artists, and how have they adapted jazz to fit their own aesthetic, ideological, and political needs? How has it been used to influence poetry, drama, visual art, film, fiction, and dance? What are the different ways in which 'jazz' (itself a problematic and multifaceted term) has been manipulated? Figures to be examined might include: Amiri Baraka, Kamau Brathwaite, Sonia Sanchez, Romare Bearden, Allen Ginsberg, Albert Murray, Langston Hughes, Ralph Ellison, Nicholas Guillen and Bob Kaufman.

ABD 250
CARIBBEAN MUSIC AND IDENTITIES
Undergraduate
In the Caribbean, music is tied to national identity: Jamaican reggae, Puerto Rican bomba and plena, Haitian compass, Brazilian samba, Dominican merengue. But how did a Cuban rhythm derived from the Kongo become thought of as a Spanish habanera? How did a related Kongo-derived rhythm popularized by Cuban sailors become the Argentine tango? By exploring genres of Caribbean music, we will learn about human and cultural migrations in the Caribbean, and the tremendous influence of music in national identity. Focus will be on African-derived forms in Cuba.

ABD 251
WORLD REFUGEE CRISIS (CROSS-LISTED WITH HST 241)
Undergraduate
This is a survey of global refugee crisis and internal displacement between 1945 and the present. The course will focus on the following issues and challenges: human rights, definitions and causes of crisis, internal/external displacements, 'environmental' refugees, protection and integration, refugee children, and conflict resolutions in post-war societies.

ABD 252
CONTEMPORARY AFRICAN ART: INDEPENDENCE TO THE PRESENT
Undergraduate
This course surveys African art from the age of African independence in the 1960s until the present day. The meaning of the term contemporary as it applies to African art is questioned in this course. The position of the artist between African artistic tradition and the global art market is also of vital importance. Cross-listed with HAA 203.

ABD 254
AFRICAN POLITICS
Undergraduate
An introduction to African politics. The course will focus on the basic concepts, issues, and theoretical models used in studies of the dynamics of government and politics in Africa from the pre-colonial era to the contemporary period.

ABD 256
AFRICAN-AMERICAN HISTORY TO 1800
Undergraduate
West African culture, the middle passage, development of the Slave trade, introduction of slavery into the American colonies, African-Americans in the Revolutionary War and the Constitution. Cross-listed as HST 246.

ABD 257
AFRICAN-AMERICAN HISTORY, 1800-1900
Undergraduate
ABD 258
AFRICAN AMERICAN HISTORY, 1900 TO PRESENT
Undergraduate
W. E. B. Dubois and Booker T. Washington debates; Marcus Garvey and the Harlem Renaissance, the Great Migration, Civil Rights to Black Power. Cross-listed as HST 248.

ABD 260
DIMENSIONS OF BLACK FAMILY LIFE
Undergraduate
This course will introduce students to the study of Black family life in Africa and its Diaspora. Special attention will be given to the ways in which values and patterns of living and thought are communicated across generations (time) and transported across geography (space).

ABD 272
MUSLIM WOMEN IN TEXTS
Undergraduate
This course aims to examine texts written on Muslim women by themselves, by non-Muslim women and by Muslim men. Several questions are raised by the subject itself. One such question focuses on what is intrinsically Islamic with respect to ideas about women and gender. Another question centers on what is the model Muslim woman given the diversity of cultural manifestations of Islam. This course emerges from these questions and others exploring who is writing what about Muslim women, for what audience.

ABD 274
WOMEN IN AFRICAN RELIGION AND CULTURE
Undergraduate
A study of the role of religion and culture in the lives of women in Africa, introducing students to an “emic” (insider) interpretation of beliefs and practices of the triple religious heritage (Indigenous religions, Christianity and Islam), and critically evaluating their implications for women.

ABD 275
AFRICAN AMERICAN POPULAR CULTURE
Undergraduate
History, development, and social context of African American popular culture. Texts to be critiques come from music, television, fiction, games, humor, sport, and/or radio.

ABD 290
SPECIAL TOPICS
Undergraduate
This course, which varies from quarter to quarter, explores issues stemming from our being gendered and racialized subjects and examines the values underlying a variety of issues.

ABD 291
BLACK METROPOLIS I: 1890-1950
Undergraduate
This course is part of a longitudinal research project titled The Black Metropolis: The Last Half-Century. The Black Metropolis Project (BMP) is an effort to examine changes in the original “black belt” of Chicago since the publication of St. Clair Drake and Horace Caytons’ monumental study of the Black Metropolis (1945). The BMP is part of a yearlong course sequence that offers a platform of three interrelated chronological time periods: 1890-1945 Black Metropolis I, 1945-1975 Black Metropolis II, and the period 1975- to the present Black Metropolis III. Through historical and contemporary readings, class discussions, student exercises and training, field experiences and student cooperative service learning activities the course will examine key events, circumstances, and situations.

ABD 303
THEMES IN AFRICAN DIASPORA
Undergraduate
Where is Africa? In Spain, Africa is said to "begin in the Pyrenees"; in Italy, to begin in Naples. Recent scholarship argues that Africa is not limited to geography, but is found in the traditions and identities of many Caribbean peoples. After reviewing models of how Africa has been conceived of by Europeans from antiquity to the present, we will examine how Africans and their descendants have resisted these definitions, or used them, while struggling for self-determination. Topics include the cultural impact of Africans in Europe; ethnic identity of Africans in the Caribbean; organized resistance to American slavery; and Pan-Africanism.
ABD 305
PAN-AFRICANISM
Undergraduate
The upper level course will interrogate the often ambivalent place of Africa in the imaginations, cultures and politics of people in the African diaspora. We will examine the contributions of African, African-American and Caribbean intellectuals, including W.E.B. DuBois, C.L.R. James and Walter Rodney, in the formation of diasporic movements and Pan-African thought. We will ask, to what degree was the ideology of Pan-Africanism and the iconography of Africa employed to mobilize masses of black people around local and domestic issues? How important has a consciousness of Africa been to the construction of cultural identities in the diaspora, and how have class, gender, and race shaped or constrained those identities? Our goal is to develop further insights into the ways in which people of the African diaspora have continually reinvented and imagined the home of their ancestors, in turn reinventing and imaging themselves.

ABD 320
AFRICAN AMERICAN SCIENCE FICTION
Undergraduate
This course studies the science fiction by Black writers as well as critical responses to these novels and writers. The course explores the treatment of gender, oppression and empowerment, historical implications (past, present, future) of the middle passage, chattel slavery, and the struggle for freedom.

ABD 336
AFRICAN-AMERICAN POLITICAL THOUGHT (CROSS-LISTED WITH PSC 336)
Undergraduate
Considers black political thought through a variety of ideological, political, legal and historical perspectives. First explores early efforts by blacks to challenge the racialized limitations of America's core principles of liberty, equality and democracy in the contexts of abolitionism, the women's suffrage movements, Manifest Destiny, and American industrialism. Then concentrates on the evolution of contemporary black political thought, with an emphasis on both conceptual diversity and continuity over time. Cross-listed with PSC 336.

ABD 345
THE LITERATURE OF IDENTITY
Undergraduate
Cross-Cultural Study of self-discovery and identity as manifested in the literatures of self-awareness and self-definition. Authors to be studied include: Michael Anthony, Frantz Fanon, Jamaica Kincaid, George Lamming, V. S. Naipaul, and Jane Rhys.

ABD 348
RELIGIONS IN AFRICA AND THE DIASPORA
Undergraduate
An advanced examination of the indigenous religions of Africa as they encounter other religious traditions throughout the world. Cross-listed as REL 348.

ABD 351
RECONSTRUCTION AND THE RISE OF JIM CROW ((CROSS-LISTED WITH HST 379)
Undergraduate
Covers the problems of reunion between the North and the South after the Civil War, including the struggle for African-Americans' civil and political rights, the transition to a free labor economy in the South, and the eventual end of reconstruction and establishment of racial segregation in the South and the nation.

ABD 208 or consent of the instructor is a prerequisite for this course.

ABD 365
CONSTITUTIONAL HISTORY OF VOTING RIGHTS
Undergraduate
This course explores the struggles of African Americans and women, as individuals who were excluded from the franchise on the basis of their being an African American, a woman, or both, to gain access to the ballot. The relation of women and African Americans to the ballot is worthy of investigation for two reasons. First, with the exception of 18 year olds, women and Black Americans are the two groups who have required amendments to the Constitution to secure their right to vote. Second, they share a history, often contentious, of political struggle. In addition, the course will investigate what this history of political struggle can tell us about American law, politics, and society.
ABD 369
TOPICS IN PUBLIC LAW
Undergraduate
This course engages the research and analyses in the field of public law - how do political scientists, public policy analysts and others develop informed public policy and law. Topics vary from year to year.

ABD 370
FEMINIST THEOLOGIES
Undergraduate
An exploration of women's experience as a primary resource and norm for theology, focusing on themes of inclusion, exclusion, representation and liberation in particular social, political and historical contexts.

ABD 371
AFRICAN-AMERICAN FICTION (CROSS-LISTED WITH ENG 371)
Undergraduate
Selected novels and short fiction by twentieth-century African-American writers.

ABD 372
AFRICAN-AMERICAN DRAMA AND POETRY
Undergraduate
Survey of Black poetry and drama from 1865 to the present.

ABD 373
TOPICS IN AFRICAN-AMERICAN POETRY 1940-1960
Undergraduate
African-American Poetry 1940-1960

ABD 374
THE BLACK ARTS MOVEMENT
Undergraduate
This course looks at the intersection between political and artistic movements of the Black Power and Black Arts Movements. We will survey the aesthetic and political aspects of this era, including poetry, novels, drama, music, visual arts and film.

ABD 375
REPRESENTATION OF AFRICAN AMERICANS IN MEDIA
Undergraduate
A media analysis course that will analyze media coverage of African Americans from the 19th century to the present. Through lectures, guest speakers, readings and research, students will probe the ways in which the media has influenced and dictated the perceptions and destinies of African Americans, as well as its impact on America's ongoing challenge, as W.E. DuBois put it more than a century ago, to "conquer the color line."

ABD 379
BLACK FEMINIST THEORY
Undergraduate
This course engages with the multiple versions of woman-centered theory and practice developed in the writings; activism, and other creative work of Black, particularly African American women, from the mid-nineteenth century to the twenty-first. While not all of these theorists would use the word <<feminist>> all have in common the aim of empowering women's lives, advocating for women for equal economic, political, and cultural access.

ABD 380
TOPICS IN AMERICAN STUDIES
Undergraduate
Representative texts, artifacts, cultural values in African American historical and contemporary perspective.
ABD 386
BLACK WOMEN’S LIVES
Undergraduate
This course is a variable topics course directed to the examination of topics such as black women's cultural criticism, Black women in the arts, Black lesbian rights, Black women's participation in social movements, representation in the media, etc. Cross-listed with WGS 386.

ABD 390
TOPICS IN POPULAR CULTURE IN THE BLACK DIASPORA
Undergraduate
This course would explore various topics in popular culture studies through the lens of the Black Diaspora, including music, film, television, popular literature and subcultural practices.

ABD 391
CAPSTONE
Undergraduate
This senior seminar engages students in a synthesis of what they have learned through coursework. The capstone course will involve reading, writing, discussion, as well as the preparation by students of a substantive piece of work (e.g., a senior thesis, a research paper, or a creative work.)

ABD 399
INDEPENDENT STUDY
Undergraduate
Independent study. Variable credit.

ACC 100
PRINCIPLES OF ACCOUNTING LAB
Undergraduate
This course is a mandatory lab component of ACC 101- Introduction to Accounting I and emphasizes supplementary material to reinforce accounting principles concepts. This course is graded on an audit basis and carries no credit hours.

ACC 101 is a corequisite for this class.

ACC 101
INTRODUCTION TO ACCOUNTING I
Undergraduate
Introduction to Accounting I, provides an introduction to financial accounting as the means of recording, storing and summarizing economic events of the business enterprise to meet external reporting needs. Emphasis is placed on the preparation and analysis of financial statements and other financial reports to the public based on the accounting equation, accrual accounting concepts, and data gathering techniques. Topics include corporate accounting for current and long term assets and current liabilities, and the corporate income statement.

MAT 130 is a prerequisite for this class.

ACC 102
INTRODUCTION TO ACCOUNTING II
Undergraduate
Introduction to Accounting II, a companion and sequel course to Accounting 101, continues to explore basic accounting fundamentals and concepts. The course provides an introduction to managerial accounting and internal reporting. Topics include financial accounting for long-term liabilities, the components of stockholders equity, the statement of cash flows, financial statement analysis, budgeting and variance analysis, job costing for the service sector and cost analysis for decision-making.

ACC 101 is a prerequisite for this class.
ACC 250  
**CAREER MANAGEMENT FOR ACCOUNTANTS**  
Undergraduate  
This course is designed to explore and manage the professional expectations and career potential of an accountancy major. Students will participate in hands-on resume building activities, practice interviews and apply research and evaluation skills to execute job search and career management strategies. Students will learn about Career Center resources and internship opportunities as ways to prepare for successful job searches and to maximize their potential for long term professional growth.

ACC 303  
**MANAGERIAL ACCOUNTING**  
Undergraduate  
Managerial Accounting provides a thorough grounding in manufacturing accounting, cost allocation techniques, and the evaluation of management control systems. Students will examine manufacturing cost systems including job order costing, process costing, and activity-based costing. Tools for management control systems will be covered to enable the student to evaluate and compare various systems.

ACC 102 is a prerequisite for this class.

ACC 304  
**FINANCIAL REPORTING I**  
Undergraduate  
Financial Reporting I includes a study of U.S. and international accounting standards, the concepts of accounting and basic financial statements. Accounting for cash, receivables, inventories, depreciable assets and current liabilities will also be examined.

ACC 102 is a prerequisite for this class.

ACC 305  
**FINANCIAL REPORTING II**  
Undergraduate  
Financial Reporting II focuses on researching accounting issues, revenue recognition and financial statement analysis. The course also provides an understanding of complex issues such as accounting for investments, long term liabilities, derivatives, contributed capital, retained earnings and earnings per share.

ACC 304 or ACC 307 is a prerequisite for this class.

ACC 306  
**FINANCIAL REPORTING III**  
Undergraduate  
The third course in the financial accounting sequence, this course studies deferred taxes, pensions and other post-retirement benefits, leases, accounting changes and error analysis, statement of cashflows (advanced), and full disclosure, if time permits. Selected spreadsheet applications will be introduced through homework assignments.

ACC 305 or ACC 309 is a prerequisite for this class.

ACC 307  
**FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS**  
Undergraduate  
Financial Reporting I includes a study of U.S. and international accounting standards, the concepts of accounting and basic financial statements. Accounting for cash, receivables, inventories, depreciable assets and investments will also be examined. This course takes a user of financial statements, rather than a preparer of financial statements, point of view.

ACC 101, ACC 102 and status as a Finance Honors student are a prerequisite for this class.

ACC 308  
**ADVANCED FINANCIAL ACCOUNTING**  
Undergraduate  
Advanced Financial Accounting focuses on accounting for multi-corporate entities and acquisitions, accounting for state and local governments, accounting for non-profit organizations, foreign operations, partnership accounting, and segment reporting. Selected spreadsheet applications will be introduced through homework assignments.

MIS 140 and (ACC 305 or ACC 309) are a prerequisite for this class.
ACC 309
FINANCIAL REPORTING II FOR FINANCE HONORS STUDENTS
Undergraduate
Financial Reporting II focuses on researching accounting issues, revenue recognition and financial statement analysis. The course also provides an understanding of complex issues such as accounting for investments, long term liabilities, derivatives, contributed capital, retained earnings and earnings per share.

ACC 307 and status as a Finance Honors student are a prerequisite for this class.

ACC 350
INFORMATION FOR DECISION MAKING
Undergraduate
Information for Decision-Making is typically the final course in the curriculum in Accountancy. It is the course in the program that most emphasizes research using the FASB Accounting Standards Codification and documenting research results. There is also a focus on written and oral communication as well as teamwork. More specifically, the course addresses the standard setting process in financial accounting as well as the role that the Securities and Exchange Commission fills in that process. In addition, current financial accounting topics are covered including revenue recognition, fair value measurement and disclosures, and earnings quality. The course also provides an introduction to International Financial Reporting Standards.

(ACC 305 or ACC 309) and ACC 380 are a prerequisite for this class.

ACC 364
CPA REVIEW: REGULATION
Continuing Education
This section reviews knowledge of federal taxation, ethics, professional and legal responsibilities, and business law, and the skills needed to apply that knowledge in preparation for the Illinois CPA Examination. This course will also review the application process, tips for exam preparation, and a database simulation. This course is not degree applicable.

ACC 365
CPA REVIEW: AUDIT/ ATTESTATION
Continuing Education
This course reviews knowledge of International Standards on Auditing (ISAs), U.S. generally accepted auditing standards (GAAS), PCAOB standards, and other standards related to attest and non-attest engagements, and standards relating to professional responsibilities issued by various bodies. This course will also review the application process, tips for exam preparation, and a database simulation. This course is not degree applicable.

ACC 366
CPA REVIEW: FINANCIAL ACCOUNTING AND REPORTING
Continuing Education
This course reviews knowledge of International Financial Reporting Standards (IFRS) and U.S. generally accepted accounting principles (GAAP) for business enterprises, not-for-profit organizations, and governmental entities. This course will also review the application process, tips for exam preparation, and a database simulation. This course is not degree applicable.

ACC 367
CPA REVIEW: BUSINESS ENVIRONMENT AND CONCEPTS
Continuing Education
This section reviews knowledge of the general business environment and business concepts that candidates need to know in order to understand the underlying business reasons for and accounting implications of business transactions, and the skills needed to apply that knowledge in preparation for the Illinois CPA Examination. This course will also review the application process, tips for exam preparation, and a database simulation. This course is not degree applicable.

ACC 372
AUDITING I
Undergraduate
Auditing I provides a conceptual introduction to the nature and value of assurance services. The course examines the organization of the accounting profession, Generally Accepted Auditing Standards (GAAS), professional ethics, and legal responsibilities including U.S. Securities laws. It focuses on financial audits by external auditors, including planning and acceptance, internal control, evidence, and reporting.

ACC 305 or ACC 309 is a prerequisite for this class.
ACC 374
AUDITING II
Undergraduate
Auditing II, a companion and sequel to ACC 372, emphasizes the implementation and application of generally accepted auditing standards to transaction cycles and classes of transactions. It includes the study of sampling techniques used in tests of controls and tests of details, internal control in computer-based systems, and introduces the use of Computer Assisted Audit Tools and Techniques. The role of internal auditors is also covered.
ACC 372 is a prerequisite for this class.

ACC 375
FRAUD EXAMINATION & FORENSIC AUDITING
Undergraduate
This course covers various aspects of fraud prevention and detection, including elements of fraud, costs of fraud, use of controls to prevent fraud, and methods of fraud detection. Guest speakers with expertise in fraud examination/forensic auditing will share their knowledge and experiences with the class.
ACC 304 or ACC 307 is a prerequisite for this class.

ACC 376
INTERNAL AUDITING
Undergraduate
This course covers a risk-based, process and controls-focused internal audit approach. Topics include internal audit standards, internal control, corporate governance, risk assessment, evidence and documentation, fraud risks and auditing techniques including sampling and the use of systems-based audit techniques. Professional ethics, emerging issues are discussed.
ACC 102 is a prerequisite for this class.

ACC 380
TAX TREATMENT OF INDIVIDUALS AND PROPERTY
Undergraduate
Tax Treatment of Individuals and Property covers the basic provisions of the Internal Revenue Code as they relate to the taxation of individuals. It focuses on concepts of gross income, exclusions, deductions, exemptions, and credits, as well as property transactions. It also includes tax research.
ACC 304 or ACC 307 is a prerequisite for this class.

ACC 383
TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS
Undergraduate
Tax Treatment of Corporations and Partnerships is a continuation of Accounting 380. The course covers the tax aspects of corporations and partnerships, including formation, operations, and distributions, as well as specially taxed corporations, ethics in tax practice, and an introduction to estate and gift taxation.
ACC 360 or ACC 380 is a prerequisite for this class.

ACC 393
INTERNSHIP IN ACCOUNTANCY
Undergraduate
ACC 393 is designed for students who already have or will soon have a position in an accounting or accounting-related field. Internship in Accountancy provides students with academically supervised work experiences, improving linkages between classroom efforts and the business world. Students obtain valuable professional experience and begin the process of networking with area businesses and professionals.
ACC 102 is a prerequisite for this class.

ACC 398
SPECIAL TOPICS
Undergraduate
Special Topics courses provide in-depth study of current issues in accountancy. Content and format of this course are variable. Subject matter will be indicated in class schedule.
ACC 399
INDEPENDENT STUDY
Undergraduate
Independent Study is available to students of demonstrated capability for intensive independent work in accountancy.

ACC 500
FINANCIAL ACCOUNTING
Graduate
This introduction to financial accounting provides both a theoretical foundation and an opportunity to apply accounting logic in increasingly complex situations. The accounting model and information processing cycle are developed. The content of the income statement, balance sheet, and statement of cash flows are studied in detail and analyzed.

MS in Taxation students are restricted from registering for this class.

ACC 502
ADVANCED MANAGEMENT ACCOUNTING
Graduate
Interpretation, analysis and use by management of internal accounting information. Topics include cost management, activity-based costing, inventory management (including just-in-time), cost allocation, performance measurement, analysis and control of non-manufacturing costs, budgeting and financial planning, and capital budgeting. Students are familiarized with quantitative models and approaches used in management accounting. Computers will be used for problem-solving.

ACC 502 or ACC 555 is a prerequisite for this class.

ACC 503
ACCOUNTING INFORMATION SYSTEMS AND AUDITING
Graduate
Accounting systems design and the audit process, and how they interact to aid management in controlling business operations. This course will enable the student to interface with accounting systems, and to participate in their design and audit. Comparisons and contrasts between internal and external auditors are discussed at appropriate points.

ACC 500 is a prerequisite for this class.

ACC 535
ACCOUNTING SYSTEMS (CROSS-LISTED AS ACC 610)
Graduate
Today's business person requires a fundamental knowledge of computer-based information systems and their role in accounting functions and financial decision-making. This course will enable the student to interface with accounting systems, and to participate in their design and audit. It will focus on the nature and flows of accounting information in organizations, security and internal controls and the use of information technology in accounting information systems and decision-making.

ACC 500 is a prerequisite for this class.

ACC 536
INTERNAL AUDITING & CORPORATE GOVERNANCE
Graduate
This course addresses the overall role that internal audit plays as a critical part of an organization's control and governance structure. The content of the course includes a case that incorporates the complete internal audit process for a hypothetical company, including identification of risk, planning, execution of fieldwork and reporting using CCH TeamMate software. This course covers the strategic role and operations of an internal audit function from three key perspectives: the Chief Audit Executive, who is responsible for the functions, the chair of the audit committee, who oversees the function, and the CEO or CFO who is responsible for the function within the organization.
ACC 541
FINANCIAL ACCOUNTING THEORY & PRACTICE I
Graduate
Intermediate theory and preparation of financial statements; review of accounting concepts and development of accounting models; methods and problems in valuation and reporting; with emphasis on current assets and liabilities, property, plant and equipment, and intangibles, review of relevant authoritative literature.

ACC 500 is a prerequisite for this class.

ACC 542
COST AND MANAGERIAL ACCOUNTING I
Graduate
Introduction to cost and managerial concepts and techniques. Topics include cost accumulation (job, process, standard costing, and activity-based costing), cost behavior, breakeven analysis, budgeting, contribution approach to income measurement, joint and by-product costing, cost allocation methods, and their relevance for decision-making.

ACC 500 is a prerequisite for this class.

ACC 543
FINANCIAL ACCOUNTING THEORY & PRACTICE II
Graduate
Continuation of intermediate theory and financial statement preparation with emphasis on the components of stockholder's equity; special problems such as earnings per share, accounting changes, income taxes, derivatives, and statement of cash flows; review of relevant authoritative literature and interpretation of financial statements. NOTE: This is a M.S.A. course

ACC 541 is a prerequisite for this class.

ACC 545
ADVANCED TOPICS IN ACCOUNTING THEORY
Graduate
This course is designed to provide comprehensive coverage of the following: consolidations, partnership accounting, foreign operations and not-for-profit accounting. Coverage of the topics emphasizes both theory and practice. Mastery of the material is obtained through problem-solving situations. NOTE: This is a M.S.A. or M.ACC course.

ACC 543 is a prerequisite for this class.

ACC 547
AUDIT AND REGULATION OF CORPORATE FINANCIAL REPORTING
Graduate
This course covers the theory of the auditing function. Topics covered include generally accepted auditing standards; the profession's ethical and legal dimensions; audit planning; the internal control structure; audit evidence; and auditor's reports. The development of the professional judgment needed to apply generally accepted auditing standards is emphasized. NOTE: This is a M.S.A. course.

ACC 541 is a prerequisite for this class.

ACC 548
TAX TREATMENT OF INDIVIDUALS AND PROPERTY TRANSACTIONS
Graduate
This course provides detailed coverage of the federal income tax treatment of individual taxpayers. It includes coverage of inclusions, exclusions, deductions, credits, rates of taxation, special tax computations and the tax aspects of property transactions. It also includes tax research. This course is a prerequisite for students in the M.S.T. program not having the equivalent undergraduate coursework in taxation. NOTE: This is a M.S.A. or M.ACC course.

ACC 500 and ACC 541 are a prerequisite for this class.
ACC 550
ADVANCED TOPICS IN AUDITING (CROSS-LISTED AS ACC 620)
Graduate
Advanced Topics in Auditing, a companion and sequel to Accounting 547, emphasizes the implementation and application of generally accepted auditing standards to transaction cycles and classes of transactions. It includes the study of sampling techniques used in tests of controls and tests of details, internal control in computer-based systems, and introduces the use of Computer Assisted Audit Tools and Techniques. The role of internal auditors is also covered. NOTE: This is a M.S.A. course.

ACC 547 is a prerequisite for this class.

ACC 551
TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS
Graduate
This course covers the federal income tax treatment of corporations and partnerships. It includes ethics in tax practice and an exposure to estate and gift taxation. This course is a prerequisite for students in the M.S.T. program not having the equivalent undergraduate coursework in taxation. NOTE: This is a M.S.A. or M.ACC course.

ACC 548 is a prerequisite for this class.

ACC 552
LEGAL AND ETHICAL ENVIRONMENT OF ACCOUNTING PRACTICE
Graduate
This course covers the aspects of the legal environment of special concern to accounting practitioners, including: the ethical standards of accounting practice, legal liability of accountants, contract law, property law, tort law, commercial paper, the laws of agency, sales laws, banking, agency, partnerships, corporations, trusts and wills, suretyships, secured transactions, bankruptcy, employment law, securities regulation, antitrust, and public regulation and disclosure laws. NOTE: This course is a M.S.A. course.

MS in Taxation students are restricted from registering for this class.

ACC 555
MANAGEMENT ACCOUNTING FOR DECISION-MAKING
Graduate
This course addresses the financial, nonfinancial & ethical dimensions of decision- making. It provides students with a conceptual understanding of cost management and managerial accounting skills. Topics include cost behavior, cost-volume-profit analysis, cost systems, budgeting and control and decision-making. Emphasis is on the interpretation & use of accounting information rather than its creation & accumulation.

ACC 500 is a prerequisite for this class.

ACC 558
TAX RESEARCH
Graduate
Tax research methods are taught in the classroom. The course begins with a study of the history of the body of tax law. A 'walk through" technique is employed to give the student firsthand experience in the use of a tax research service. NOTE: This is a MST course.

ACC 559
TOPICS IN INDIVIDUAL AND CORPORATE TAXATION
Graduate
This course deals with a variety of topics which are important in tax practice, such a alternative minimum tax, passive losses, interest limitations, the at-risk rules, hobby losses, use of a home, net operating losses. Depreciation and capital recovery including related credits, unearned income of a minor child, uniform capitalization rules and time value of money concepts. NOTE: This is a M.S.T. course.

ACC 551 is a prerequisite for this class.
ACC 560
TAXATION OF CORPORATIONS AND SHAREHOLDERS
Graduate

Emphasis is on the federal income taxation of distributions to corporate shareholders, including nonliquidating distributions and distributions in connection with liquidations. Collapsible corporations and the tax consequences of transfers of property to a corporation are also covered. NOTE: This is a M.S.T. course.

ACC 558 is a prerequisite for this class.

ACC 561
CORPORATE REORGANIZATIONS
Graduate

Federal income tax implications of transfers of stock, securities and property in connection with corporate acquisitions, combinations and separations. This course is mainly concerned with the tax consequences to corporate parties, to reorganizations and to their shareholders. Emphasis is given to determining the taxability of transactions and asserting the availability of tax attributes to successors in interest. NOTE: This is a M.S.T. course.

ACC 558 and ACC 560 are a prerequisite for this class.

ACC 562
CONSOLIDATED RETURNS
Graduate

This course deals with the principles and mechanics of tax consolidations including eligibility, intercompany transactions, inventory adjustments, basis of property, net operating losses, earnings and profits and separate return limitations. NOTE: This is a M.S.T. course.

ACC 560 is a prerequisite for this class.

ACC 563
PARTNERSHIPS
Graduate

An in-depth analysis of the federal income tax rules governing partners and partnerships. This course includes study of the aggregate and entity theories, partnership distributions and liquidations, dispositions of partnership interests, transactions concerning unrealized receivables and substantially appreciated inventory items and special basis adjustments. NOTE: This is a M.S.T. course.

ACC 551 and ACC 558 are a prerequisite for this class.

ACC 564
TRANSACTIONS IN PROPERTY
Graduate

This course is concerned mainly with the federal income tax implications of gains and losses derived from sales and other dispositions of property. Emphasis will be given to the determination and recognition of gain or loss, character of gain or loss (capital or ordinary), basis and holding period. NOTE: This is a M.S.T. course.

ACC 551 and ACC 558 are a prerequisite for this class.

ACC 565
TAX ACCOUNTING, PERIODS, AND METHODS
Graduate

This course deals with federal income tax planning as to determination of the proper periods for reporting income and deductions, overall methods of tax accounting and special elections available to taxpayers. Topics include the installment method, accounting method changes, accrual method, cash method, FIFO, LIFO and accounting periods. NOTE: This is a M.S.T. course.

ACC 551 is a prerequisite for this class.
ACC 566  
**FEDERAL INCOME TAX PROCEDURES**  
**Graduate**  
A study of the procedures which must be followed when dealing with the Internal Revenue Service and possible alternative courses of action. Included are such topics as the organization of the Internal Revenue Service, filing requirements, refund claims, closing agreements, examination procedures, protests, assessment, payment and collection of tax, statute of limitations, interest and penalties. NOTE: This is a M.S.T. course.

ACC 551 is a prerequisite for this class.

ACC 567  
**INTERNATIONAL ASPECTS OF U.S. TAXATION**  
**Graduate**  
This course covers the federal income taxation of United States persons investing or doing business outside the United States and nonresident aliens and foreign corporations having nexus with the United States. Topics covered include, among others, the foreign tax credit, Subpart F income, controlled foreign corporations, sourcing rules and expatriate taxation. NOTE: This is a M.S.T. course.

ACC 551 and ACC 558 are a prerequisite for this class.

ACC 568  
**TAXATION OF CLOSELY HELD CORPORATIONS**  
**Graduate**  
This course deals with federal income tax planning in connection with the accumulated earnings tax, personal holding companies, S corporations, multiple corporations, transactions between related parties and small business corporation stock. NOTE: This is a M.S.T. course.

ACC 558 is a prerequisite for this class.

ACC 569  
**CONCEPTS OF DEFERRED COMPENSATION**  
**Graduate**  
The nature, purpose and operation of the various forms of deferred compensation are examined and evaluated: employee pension; profit sharing and stock bonus plans, stock options; executive compensation plans; retirement plans for self-employed individuals; other plans. NOTE: This is a M.S.T. course.

ACC 551 and ACC 558 are a prerequisite for this class.

ACC 570  
**STATE AND LOCAL INCOME AND FRANCHISE TAXATION**  
**Graduate**  
This course identifies and examines the types of income and capital stock taxes imposed on corporations and pass-through entities by state governments. Topics include nexus and the impact of P.L. 86-272, conformity to the Internal Revenue Code, business and nonbusiness income, methods of reporting, and allocation and apportionment. NOTE: This is a M.S.T. course.

ACC 551 and ACC 558 are a prerequisite for this class.

ACC 571  
**ESTATE AND GIFT TAXATION**  
**Graduate**  
This course consists of a detailed review of the federal estate and gift tax laws. In the area of estate taxation, assets included and deductions allowed are reviewed in detail by reference to law, regulations and cases. Recognition of gifts and gift tax deductions and exclusions are also covered. NOTE: This is a M.S.T. course.

ACC 551 and ACC 558 are a prerequisite for this class.
ACC 572
CONCEPTS OF STATE PROPERTY AND TRANSACTION TAXATION
Graduate
This course focuses on concepts of property and sales taxation, but will survey other state and local transaction taxes, including excise taxes, utility taxes, fuel taxes and escheat statutes. Property tax concepts include distinctions between real and personal property and valuation approaches. NOTE: This is a M.S.T. course.

ACC 558 is a prerequisite for this class.

ACC 573
INCOME TAXATION OF ESTATES, TRUSTS AND DECEDENTS
Graduate
This course deals with federal income taxation of estates, trusts and decedents with special emphasis on such concepts as income in respect of a decedent and estate and trust distributions. Also, included are such topics as the income and deductions included in the decedent's final return, death of a partnership member, the income and deductions of estate and trusts, the throwback rule, grantor trusts and the tax ramifications of the use of other special trusts. NOTE: This is a M.S.T. course.

ACC 548 and ACC 571 are a prerequisite for this class.

ACC 574
ESTATE PLANNING
Graduate
This course will deal primarily with how to avoid and minimize federal estate taxes and estate administration expenses upon the subsequent demise of the client. Therefore, the student must have taken the estate and gift taxation, the use of outright gifts, the use of trusts. Generation skipping transfers and charitable gifts will also be considered. NOTE: This is a M.S.T. course.

ACC 571 is a prerequisite for this class.

ACC 576
FEDERAL TAX VALUATION
Graduate
Fair market value is referenced hundreds of times in the Internal Revenue Code, and many more times in the Regulations. In the initial part of this course the procedures and methods applicable to tax valuation are reviewed to heighten practitioner awareness of the range of potential valuation outcomes, and the reasons therefore. Tax cases are used extensively to achieve this objective. In the second part of the course presentations and discussions address more specific topics such as built-in gains, determination of carryover of net operating losses, valuation aspects of charitable giving, conservation easements, ESOPs, family limited partnerships, reasonable compensation. S-corporations, special use properties, and transfer pricing.

ACC 580
ACCOUNTING FOR INCOME TAXES
Graduate
Covers the financial accounting and reporting standards for the effects of income taxes that result from corporate activities. Topics include computation of current and deferred tax expense or benefit, temporary differences, carry-forwards, computation of deferred tax assets and liabilities, valuation allowances, business combinations, investments in subsidiaries and equity method investments, tax allocations, presentation and disclosure, and implementation of accounting for uncertainty in income taxes under FIN 48. This class is open to non MST students with the instructor's permission.

Admission to the MST program is a prerequisite for this class.

ACC 581
TAXATION OF REAL ESTATE
Graduate
An in-depth study of federal income taxation as it relates to real estate, including current issues and planning possibilities. Topics include consequences of acquisition and disposition, real estate development, leasing, mortgages and other financing devices and forms of ownership of real estate. NOTE: This is a M.S.T. course.

ACC 583 is a prerequisite for this class.
ACC 582
ADVANCED CONCEPTS IN INTERNATIONAL TAXATION
Graduate
This advanced course is a companion offering to the introductory international taxation course (Accountancy 567). In this course, planning issues and tax savings opportunities are emphasized in complex areas, including source of income considerations, foreign tax credit matters, Subpart F issues and the tax matters of foreign corporations. In addition, tax treaty matters, international bribes and boycott sanctions and foreign currency translation issues are addressed. NOTE: This is a M.S.T. course.

ACC 584
INCOME TAX AND BUSINESS DECISIONS
Graduate
The study of the impact of federal income taxation on business decisions with emphasis on such areas as choice of business organization, acquisition planning, executive compensation & accounting for income taxes. This course is intended for students in the M.B.A. program and restricted to those who have not had undergraduate credit for ACC 548 or ACC 551 or their equivalents. (MSA students may not take this class)

MS in Taxation students are restricted from registering for this class.

ACC 591
TAX EXEMPT ORGANIZATIONS
Graduate
Tax treatment of public charities and private foundations. The way exempt status is secured and retained, qualified exemptions, unrelated business income, the loss of exemption, prohibited transactions, deductibility of contributions and required reporting and auditing.

ACC 584 is a prerequisite for this class.

ACC 592
OVERVIEW OF FEDERAL INCOME TAX
Graduate
This course introduces students to an overview of the Federal income tax system from a financial planning perspective. This course covers a review of the inclusions and exclusions from gross income, deductions therefrom in arriving at taxable income, and the characterization of transactions as capital or ordinary. The course will focus primarily on the taxation on individuals, with an emphasis on the impact of investments in the financial planning process.

ACC 500 is a prerequisite for this class.

ACC 593
OVERVIEW OF TRANSFER PLANNING FOR WEALTH MANAGEMENT
Graduate
This course introduces students to an overview of the transfer tax system from a financial planning perspective. The course will be divided into four areas of concentration: (1) transfer tax, (2) property law, (3) estate planning, and (4) insurance, charitable and retirement topics. The objective of the course is to analyze how each of the above areas of concentration impact the financial planning process. Student evaluations will be based primarily on a comprehensive planning problem at the end of the course (80%), with two minor exercises during the course.

ACC 500 is a prerequisite for this class.

ACC 594
MULTIGENERATIONAL ADVANCED PLANNING STRUCTURES
Graduate
This course will involve a survey of the planning and structuring issues that high net worth families address when managing wealth for multiple generations. The course will be facilitated by one or two instructors who will direct eight different expert guest lecturers in the wealth management field. The topics include: - Introduction and review of federal wealth transfer tax concepts - Generation-skipping transfer tax and structuring dynastic entities - Charitable gifts and foundations utilized in large families - Management and dispositions of family business and closely held entities - Asset protection planning: domestic and international - International estate planning: offshore trusts and entities - Creating and administering a family office - Family governance, wealth education and private trust companies

ACC 592 and ACC 593 is a prerequisite for this class.
ACC 598
SEMINAR ON CURRENT PROBLEMS IN TAXATION
Graduate
Covers recent significant developments in the future of legislation, regulations, administrative rulings and case law on federal income, estate and gift taxation. Emphasis is placed on specific tax planning in light of these current developments. Topics are discussed against background of leading Supreme Court cases. Recommended as final tax course in M.S.T. program. Required course for all candidates for Master of Science in Taxation degree.

ACC 558, ACC 560, ACC 565 and ACC 566 are a prerequisite for this class.

ACC 599
GRADUATE SEMINAR IN MANAGEMENT ACCOUNTING
Graduate
Capstone seminar for M.B.A. students with a concentration in Management Accounting. Attention is directed to the current developments in Management Accounting. Students learn to exercise judgement in the solution of accounting-related problems by drawing upon their integrated and comprehensive body of accounting and related knowledge. This seminar involves extensive reading and research in the literature of management accounting and related disciplines.

ACC 502 is a prerequisite for this class.

ACC 630
BUDGETING, FINANCIAL PLANNING & CONTROL
Graduate
The study of quantitative, organizational behavioral aspects of budgeting for management planning and control. Topics include strategic planning, long-range planning, budgeting, cost analysis, capital budgeting, transfer pricing and divisional performance measurement. Exposure given to special applications in nonprofit organizations. Emphasis is placed on the use of accounting information for effective planning and control.

ACC 542 is a prerequisite for this class.

ACC 640
ACCOUNTING THEORY AND POLICY FORMULATION
Graduate
A study of the process by which accounting policies are formulated. The students are asked to make critical evaluations of basic issues such as income determination and current issues such as FASB agenda items in light of their theoretical, empirical, practical and political aspects. Students are expected to demonstrate an ability to use the accounting research literature. Students should plan to take this capstone course at the end of their degree program. NOTE: This is a M.S.A. and a M.ACC course.

(ACC 542 and ACC 545 and ACC 550) or status as a Graduate Accountancy student are prerequisites for this course.

ACC 690
GRADUATE INTERNSHIP
Graduate
Technical knowledge acquired in the classroom is applied in an actual business environment through varied assignments under supervision in industry, government or public accounting. Offered variably.

ACC 798
SPECIAL TOPICS
Graduate
Content and format of this course are variable. An in-depth study of current issues in accountancy. Subject matter will be indicated in class schedule. Offered variably.

ACC 799
INDEPENDENT STUDY
Graduate
Available for graduate students of demonstrated capability for intensive independent work in accountancy.
ACC 645
FORENSIC AND INVESTIGATIVE ACCOUNTING
Graduate
This course focuses on skills used to investigate accounting-based fraud. Skills include fraud detection, analysis of financial statements both business and personal, and interpersonal skills such as interviewing, reading people and team building. The course gives hand-on experience and a case-based setting.

ACC 547 is a prerequisite for this class.

AHT 310
DIAGNOSTIC NUCLEAR IMAGING CLINICAL PRACTICUM I
Undergraduate
Supervised clinical education that gives the student the opportunity to perform a variety of patient procedures on both SPECT, SPECT/CT, PET and PET/CT imaging systems for all diagnostic, therapeutic, non-imaging in-vivo and in-vitro procedures. Clinical competencies developed in patient care, positioning techniques, analyzing images, and the selection of imaging parameters and collimators. Knowledge of integrated computer systems designed for use with clinical gamma cameras, Single Photon Emission Computed Tomography (SPECT), SPECT/CT, Positron Emission Tomography (PET), and PET/CT images. The clinical practicum is designed to promote independent critical thinking, balanced responsibility, organization and accountability in the student. Students will demonstrate competence in all procedures presented.
PREREQUISITE(S): permission required.

AHT 311
DIAGNOSTIC NUCLEAR IMAGING CLINICAL PRACTICUM II
Undergraduate
Supervised clinical education that gives the student the opportunity to perform a variety of patient procedures on both SPECT, SPECT/CT, PET and PET/CT imaging systems for all diagnostic, therapeutic, non-imaging in-vivo and in-vitro procedures. Clinical competencies developed in patient care, positioning techniques, analyzing images, and the selection of imaging parameters and collimators. Knowledge of integrated computer systems designed for use with clinical gamma cameras, Single Photon Emission Computed Tomography (SPECT), SPECT/CT, Positron Emission Tomography (PET), and PET/CT images. The clinical practicum is designed to promote independent critical thinking, balanced responsibility, organization and accountability in the student. Students will demonstrate competence in all procedures presented.
PREREQUISITE(S): permission required.

AHT 312
CLINICAL NUCLEAR MEDICINE PROCEDURES I
Undergraduate
Emphasis on theory and techniques of clinical procedures used in nuclear medicine imaging. Areas emphasized include patient care, developing acquisition parameters, imaging techniques, radionuclide identification, energies, half-lives, and principles of radionuclides in imaging and non-imaging procedures. Students will continue to develop an increased degree of competence in their performance of the skills related to critical thinking and problem solving. PREREQUISITES: permission required.

AHT 313
CLINICAL NUCLEAR MEDICINE PROCEDURES II
Undergraduate
Emphasis on theory and techniques of clinical procedures used in nuclear medicine imaging. Areas emphasized include patient care, developing acquisition parameters, imaging techniques, radionuclide identification, energies, half-lives, and principles of radionuclides in imaging and non-imaging procedures. Students will continue to develop an increased degree of competence in their performance of the skills related to critical thinking and problem solving. PREREQUISITE(S): permission required.

AHT 314
MANAGEMENT AND METHODS OF PATIENT CARE I
Undergraduate
Skills in problem solving, critical-thinking, and decision-making are developed as well as oral and written communication skills. Career skills are enhanced through the interview process, resume writing, and administrative duties including: budgeting, medical and legal considerations and political issues affecting health care. Special emphasis is placed on research methods, medical law and ethics, and scheduling guidelines. Focus on basic measures necessary to provide quality patient care. Basic principles of record keeping and maintaining confidentiality of information are explained. PREREQUISITE(S): permission required.
AHT 315
MANAGEMENT AND METHODS OF PATIENT CARE II
Undergraduate
Skills in problem solving, critical-thinking, and decision-making are developed as well as oral and written communication skills. Career skills are enhanced through the interview process, resume writing, and administrative duties including; budgeting, medical and legal considerations and political issues affecting health care. Special emphasis is placed on research methods, medical law and ethics, and scheduling guidelines. Focus on basic measures necessary to provide quality patient care. Basic principles of record keeping and maintaining confidentiality of information are explained. PREREQUISITE(S): permission required.

AHT 316
RADIATION BIOLOGY
Undergraduate
Knowledge of cell structure and function as a basis for understanding cellular and organ responses to the effects of ionizing radiation, radionuclides and radiation oncology. Understanding units of exposure, organ dose calculation and body distribution. PREREQUISITE(S): permission required.

AHT 317
MEDICAL TERMINOLOGY
Undergraduate
The medical terminology course consists of a study of root words, prefixes, and suffixes of medical vocabulary. Also included are medical abbreviations and applicable symbols. A combination of learning exercises and chapter quizzes are utilized. Emphasis is on application of terminology through the use of chapter objectives, learning exercises, and critical thinking exercises. As an independent study, students may choose to progress more rapidly than the assignment schedule outlines. PREREQUISITE(S): permission required.

AHT 321
MANAGEMENT AND METHODS PATIENT CARE
Undergraduate
Content is designed to provide the student with foundational concepts and competencies in assessment and evaluation of the patient for service delivery. Psychological and physical needs and factors affecting treatment outcome will be presented and examined. Students will also get a better understanding of how race, gender, physical ability, sexual orientation, spirituality, healing and dying, and age play a role in cultural competence. Routine and emergency care procedures will be presented. Course will also include an orientation to hyperthermia, chemotherapy, body mechanics, nutrition for cancer patients, and an overview of radiation therapy patient sided effects.

AHT 322
QUALITY MANAGEMENT
Undergraduate
Content is designed to focus on the evolution of quality management (QM) programs and continuing quality improvement in radiation oncology. Topics will include the need for quality assurance (QA) checks; QA of the clinical aspects and chart checks, film checks; the various types of evaluations and tests performed on simulators, megavoltage therapy equipment, and therapy planning units; the role of radiation therapists in quality management programs; legal and regulatory implications for maintaining appropriate guidelines; and the role computers and information systems serve within the radiation oncology department.

AHT 323
CLINICAL PRACTICUM
Undergraduate
The overall objective of this course is to aid the student in achieving basic level technical skills through supervised practice of radiation therapy procedures on actual patients. Students will be required to complete some ARRT required clinical competency examinations during this course.

AHT 324
CLINICAL PRACTICUM II
Undergraduate
The overall objective of this course is to aid the student in achieving basic level technical skills through supervised practice of radiation therapy procedures on actual patients. This is a continuation of Clinical Practicum I. Students will be required to complete all remaining ARRT required clinical competency examinations during this course.
AHT 325
INTRODUCTION TO RADIOLOGIC SCIENCES
Undergraduate
This course provides the student therapist with the technical aspects of radiography equipment. Discussion will include orientation to the function and operation of radiography equipment.

AHT 327
RADIATION SAFETY AND PROTECTION
Undergraduate
The purpose of this course is to educate students regarding institutional, state and federal regulations controlling the safe use and disposal of radiation-producing equipment and sources. Emphasis is placed on ALARA principles to define the health professional's legal and ethical responsibility to minimize radiation dose to co-workers and patients, and oneself.

AHT 329
PATHOLOGY
Undergraduate
This course introduces the student to the field of pathology with an emphasis on the oncologic disease processes. Topics range from discussion of pathology from the cellular level through various organ systems. Students are introduced to terminology related to the field of pathology as a whole and to the subspecialty of oncology specifically.

AHT 330
RADIATION SAFETY AND PROTECTION
Undergraduate
Supervised practice and procedures for the receipt, handling, transporting, storage, usage, record keeping, disposal and decontamination of radioactive materials. Emphasis on licensing and regulations set forth by local, state and federal agencies. Academic and clinical instruction to provide the student with radiation safety techniques to minimize exposure to themselves, the patient, public, fellow workers and themselves. Regulations regarding therapeutic dosages and follow-up procedures. Focus on practical mathematics in nuclear medicine including radiation unit conversion, dose conversion, dose calculation, determination of specific activity, decay, and half-life calculation, counting efficiency, and statistics. PREREQUISITE(S): permission required.

AHT 331
RADIATION DETECTION AND INSTRUMENTATION
Undergraduate
Evaluation, maintenance and function of instrumentation used in imaging and in the laboratory. Principles and theory of PET/CT and scintillation camera operation and performance. Radiation measurement, event counting activity, pulse height spectra, detection efficiency, resolving time and statistics. Flood field and bar phantom use for assessing camera uniformity, relative sensitivity, spatial linearity and resolution testing. Quality assurance procedures for the PET scanner include radial, tangential and axial resolution, sensitivity, linearity, uniformity, attenuation accuracy, scatter determination and dead time corrections. Knowledge of the operations and maintenance of computer hardware and software. Emphasis on data collection, analysis and processing used in clinical imaging. Application of computer devices and memory usage. Emphasis on SPECT, SPECT/CT, PET and PET/CT quality control procedures. PREREQUISITE(S): permission required.

AHT 332
RADIATION PHYSICS AND INSTRUMENTATION
Undergraduate
Theory and physical principles associated with atomic structure, nuclear and quantum physics related to radioactive decay. Properties of the elements and the production of characteristic x and gamma rays, anger electrons and Bremsstrahlung. Instruction on the modes of decay, radiation dosimetry, and interaction of ionizing radiation with matter. Basic physics, instrumentation, and radiochemistry of SPECT (Single Photon Emission Computed Tomography), SPECT/CT, Positron Emission Tomography (PET), and PET/CT. PREREQUISITE(S): permission required.

AHT 333
RADIONUCLIDE CHEMISTRY AND RADIOPHARMACY
Undergraduate
The chemical, physical and biological properties of radiopharmaceuticals used in diagnosis and therapy. Emphasis is given to the preparation, calculation, identification, administration, and disposal of radiopharmaceuticals. Performance of all radionuclide quality control and quality assurance procedures. Principles of decay and half-life, tissue localization, chemical impurities, generator systems, dose preparation and techniques of good laboratory practices and cell labeling. PREREQUISITE(S): permission required.
AHT 334
CLINICAL CORRELATION - PATHOLOGY
Undergraduate
Focus on the study of the structure and function of human cells, tissues, organs and systems. Clinical interpretation of organ systems with emphasis on immunology, and anatomy and physiology, which will provide a basis for understanding abnormal or pathological conditions as applied to nuclear medicine. Causes, symptoms, and treatments of disease are discussed as well as its effect on the images. In addition, the student is scheduled to observe the interpretation of images with the physician staff. PREREQUISITE(S): permission required.

AHT 335
COMPUTED TOMOGRAPHY AND CROSS-SECTIONAL ANATOMY
Undergraduate
Introduction to the fundamental concepts and principles of computed technology and its role in medical imaging. Specific topics include physics & instrumentation of CT scanning, image production, and cross-sectional anatomy of the head, neck, thorax, abdomen, and pelvis. Emphasis placed on patient considerations, patient safety, and radiation protection. PREREQUISITE(S): permission required.

AHT 341
RADIATION PHYSICS
Undergraduate
Students are introduced to the principles and practice of applying ionizing radiation to the human body. Topics include discussion of radiation therapy equipment, including treatment units and computer planning systems with an emphasis on how this equipment is used to produce proper treatment planning and dose calculations, according to the radiation oncologist's prescription. Topics also include fundamental concepts of general physics and radiation physics, including the production of x-rays interactions with matter.

AHT 342
RADIATION PHYSICS II
Undergraduate
Students are introduced to the principles and practice of applying ionizing radiation to the human body. Topics include discussion of radiation therapy equipment, including treatment units and computer planning systems with an emphasis on how this equipment is used to produce proper treatment planning and dose calculations, according to the radiation oncologist's prescription. Radiation protection and quality assurance will also be covered. This course is a continuation of Radiation Therapy Physics I.

AHT 343
MEDICAL IMAGING AND PROCESSING
Undergraduate
Procedure for imaging human structure and their relevance to radiation therapy; topographical anatomy, radiographic and cross sectional anatomy. Identification of anatomic structures as demonstrated through various imaging modalities.

AHT 344
OPERATION ISSUES IN RADIATION THERAPY
Undergraduate
Content is designed to focus on various allied health operational issues. Continuing Quality Improvement (CQI) project development, evaluation, and assessment techniques will be emphasized. Human resource issues and regulations impacting the radiation therapist will be examined. Accreditation agencies and the licensed practitioner's role in the accreditation process will be presented. Billing and reimbursement issues will be covered.

AHT 345
PRINCIPLES AND PRACTICE OF RADIATION THERAPY
Undergraduate
Content is designed to provide an overview of cancer and the specialty of radiation therapy. The medical, biological, and pathological aspect, as well as the physical and technical aspects, will be discussed. This course will also include content designed to provide the student with fundamental concepts, theories, and application of healthcare laws and ethical standards implemented and practiced in quality management for radiation therapy. Analysis of legal terminology, sources of law and the litigation process as applied to health professionals will be evaluated.
AHT 346
PRINCIPLE AND PRACTICE OF RADIATION THERAPY
Undergraduate
This course is a continuation of principles and practice of radiation therapy I. Critical thinking and the basics of ethical and clinical decision making are fostered in the student. The epidemiology, etiology, detection, diagnosis, patient condition, treatment, and prognosis of neoplastic disease will be presented, discussed, and evaluated in the relationship to histology, anatomical site, and patterns of spread. The radiation therapist's responsibility in the management of neoplastic disease will be examined and linked to the skills required to analyze complex issues and make informed decisions while appreciating the character of the profession.

AHT 347
TECHNICAL RADIATION ONCOLOGY
Undergraduate
This course provides the student therapist with the technical aspects of radiation therapy. Discussion will include orientation to the function and operation of radiation therapy equipment. The clinical lab component of this course provides a hands-on, sequential application, and clinical integration of concepts and theories in the radiation therapy clinic and the didactic portion of this course. Concepts of team practice, patient-centered and clinical practice will also be discussed.

AHT 348
TECHNICAL RADIATION ONCOLOGY
Undergraduate
This course is designed to focus on discussions of various treatment and simulation procedures of different pathologies. The lab component will continue to provide and hands-on, sequential application, and clinical integration of concepts and theories in the radiation therapy clinic.

AI 102
CORPORATIONS, RESPONSIBILITY, AND THE HOLIDAYS
Undergraduate
American corporations often promote large scale relief efforts for their communities around the time of the December holidays. What motivates these efforts? Who benefits? Are corporations really responsible for the communities in which they do business? How can individuals participate in these efforts? In this course, students will examine contemporary theories of social ethics, and will apply them to the corporations we create, staff, and support. Students will also consider the role their individual roles in community relief efforts. This course meets for five on campus sessions during the December term. Students may take this course for one of the following competences: A3X, H2X, FX. Faculty: Donna Steele

AI 103
LEADERSHIP AND APPLIED ETHICS
Undergraduate
This course explores a range of ethical issues that students will face in their ministries and the moral principles they can apply to those issues. It will examine the ethical responsibilities and challenges of good professional practice for those serving in ministry today. It will discuss ethical issues that arise in the leadership or management of congregations, communities and organizations. It will examine areas of social ethics that are particular relevant to their African context. In this course, students will study the distinctive assumptions, methods and applications of different ethical systems drawn from traditions such as Christianity, Islam, and African traditional religion. Each student will design and complete an independent learning project for their Focus Area in which they will address an ethical issue they are likely to face in their future ministry. Through this course, therefore, students will develop and demonstrate their competence to analyze a problem using two different ethical systems and to apply the skills of ethical analysis to ministry. (2 competencies) Competences: A4, FX.

AI 104
LEADERSHIP AND CREATIVITY
Undergraduate
Creative leaders recognize and express dimensions of the world and society that are often overlooked by others. They are able to respond effectively to new challenges and opportunities in their personal lives and in society. Artists, performers and creators have an essential vocation that enriches the whole community. In this course, students will expand their appreciation for the importance of creativity. They will look how the arts provide a unique way to understand and interact with culture. They will study the arts in an African context. They will engage in creative activity or performance and reflect on these experiences. They will also explore ways in which they can be more creative in their lives and ministries. Through this course, therefore, students will develop and demonstrate their competence to define and analyze a creative process and to create an original work of art, explore its relationship to artistic form, and reflect on the creative process. (2 competencies) Competences: A5, A2A
AI 105
VISUAL LITERACY AND CHICAGO'S MUSEUM OF CONTEMPORARY ART
Undergraduate
Have you ever been confused by the intentions of an artist or at a loss for words when trying to describe a work of art? How many times have you walked through a museum and while looking at a work of art said to yourself, “I could do that.” This course will introduce a series of skills ranging from simple identification to complex interpretation that will help us read both images and text and find meaning in a variety of contemporary art forms, from painting to sculpture, and photography to installation. The course will focus on the cultural, moral, and aesthetic value of art exhibited in Chicago’s Museum of Contemporary Art (MCA) present and past exhibitions. Art making activities will occur throughout the course to help us explore visual literacy through expressing thoughts and ideas in visual form. Throughout the course students will maintain a visual journal based upon some of the following activities: museum visits, classroom discussions, outside observations, and art making experiences. A culminating project will investigate a specific cultural, aesthetic, or moral topic that has been addressed by a contemporary artist. Competences: A1B, A2A, A5, H1X. Faculty: David McKoski

AI 106
THE RESISTERS: THE LATINA QUEST FOR JUSTICE
Undergraduate
This course will introduce students to the issues of violence, oppression and abuse in the lives of U.S. Latinas, here after referred to as Latinas, and in Latin American women’s lives with, for comparison purpose, consideration of the same issues as regards non-Latina women in the U.S. The course will look at the different types of violence, oppression and abuse these women experience as well as the factors that contribute to the situation, such as harmful traditions, discrimination, religion, politics, sexism and war. These factors will be reviewed and analyzed in order to have a better understanding of how they directly affect their lives and contribute to the violence, abuse and oppression they endure. Students will become familiar with the many ways of resistance expressed by Latinas and Latin American women. Because defiance has been demonstrated in various forms, students will therefore be introduced to Latina and Latin American female writers, journalists, artists and activist, who have resisted violence, abuse and oppression and, in their own way, have changed the culture that perpetrates the hostile behavior. Students will learn about women such as Guatemalan Noble Peace Prize winner Rigoberta Menchu, Mexican journalist Lydia Cacho, and Latina writers Gloria Anzadua and Cheri Moraga, just to name a few. Students will be introduced to local resisters, as well. Students will also be encouraged to draw connections between their own experiences and that of the women about whom they will be studying. Finally, students will have an opportunity to compare and contrast methods of resistance that exists between these women and women in the U.S. who do not identify as Latinas. Competences: A1X, H1X, H4, A3C. Faculty: Lourdes Rocha

AI 107
INTRODUCTION TO BUDDHIST MINDFULNESS MEDITATION
Undergraduate
In this 5 week (2 credit hour) course, you will be introduced to theories and practices of mindfulness meditation from the Buddhist tradition. We will explore in particular how mindfulness meditation can enhance creativity, address the ethical challenges of contemporary life, and foster collaborative learning. Class sessions will involve extensive practice in mindfulness meditation, listening and dialogue. You will be expected to maintain and reflect on a daily mindfulness meditation practice for the duration of the course. While the approach to mindfulness meditation we will use in this class is rooted in Buddhist philosophies of the mind, but it does not require religious or spiritual interpretations. You can register for only one of the following competencies: A-4, A-5, A-3-X, L-7. Faculty: Michael Skelley

AI 108
INTERNATIONAL RELATIONS: WEAPONS, WARS AND A WORLD IN TURMOIL
Undergraduate
Today, world politics is making an unpredictable turn and undergoing an historical transition. International relations in the 21st century are more complex and facing more pressing global challenges than the previous century. While the Western nations have enjoyed unparalleled prosperity in recent years, developing nations, mired in debt, burdened in poverty, riddled with diseases ranging from malaria to AIDS, plagued by wars and genocide, are struggling to overcome crisis. This course will examine the role of nation-states, international organizations like the United Nations, international law, international crimes court, treaties, and root causes and functions of war and peace in the making of foreign policies that have shaped and reshaped the relationships among nations. We will also focus on ethics in the context of a number of issues and practices in international relations ranging from global inequality, the promotion of human rights, foreign aid, immigration/forced deportation, humanitarian intervention, to terrorism, genocide, war crimes, and the use of torture. Truman Bridge Course. Can be taken for up to 3 competences. Competences: A4, H1C, H2E, H5, FX. Faculty: Anghesom Atsbaha and Dennis Skentzis

DePaul University Winter/Spring 2013
AI 109
THROUGH THE LOOKING GLASS: ADDRESSING DIFFERENCES THROUGH CONTEMPORARY LITERATURE
Undergraduate
Students will examine issues of discrimination and bias as we analyze several contemporary essays, speeches, short works of fiction, non-fiction, film, music and art. Among others, students will review some of the works of Martin Luther King, Jr., Abraham Lincoln, Cesar Chavez, Harvey Milk, Gloria Steinem, Malcolm X and Ernesto "Che" Guevara as a means to understand how certain people groups attain power over other groups and how/why inequalities and injustice begin and persist. Students will work on several small group and collaborative assignments that will help them explore their own biases, those of others, and propose solutions. In addition, this course will give students the opportunity to learn about and practice several types of writing including journals, essays and a short research paper. These assignments will also help students develop critical reading and analysis skills. This class assumes a basic understanding of grammar and composition. This class is an excellent gateway course for students who are new to the School for New Learning and for Wright students in general. Students will have the opportunity to learn and practice academic writing skills as well as work in a collaborative learning environment. The class can serve as a cornerstone for other SNL courses and college courses in general, providing a strong basis for continued and effective learning. SNL students may also be able to use the writing assignments in this course as part of their portfolio if they choose to satisfy the required L4 competency via the portfolio option. In addition, all students will be encouraged to apply what they are learning to their own educational and professional goals. In this course the following teaching and learning techniques are used: workshops, discussions, short lectures, small group work, film/play analysis, collaborative learning, creative projects, conferences, at home and in class assignments, critical reading, learning from others through peer editing, and lots of writing/revising. Students should expect to write and rewrite extensively. Competences: L7, A1X, H4, H2X. Can be taken for up to 3 competences. Faculty: Peggy St. John & Suzanne Sanders-Betzold

AI 110
WHOSE BLUES?
Undergraduate
Jeff Todd Titon states in Worlds of Music [Chapter 4: North America/Black America - Jeff Todd Titon, general editor] that the traditional musics of African Americans are perhaps the only contributions to the international music world from the United States. During this course, we will read about and listen to this musical heritage of Black Americans; this will include the origins of Blues in African music, the development of Blues in the US, and the fusion of Blues with various musics of Asia. We will hear musical examples from the text, as well as musical examples from the instructor's personal library which will enhance our understanding of the importance of Blues and its culture in our present society. Competences: A1X, H1X. Faculty: Rebecca Schwan Can only be taken for one competence. 5 week course.

AI 111
HEALTH CARE: RIGHT OR PRIVILEGE
Undergraduate
Nations across the globe provide their citizens with subsidized health care. In the contemporary political climate, many people are clamoring for the United States to do the same. What are the issues that define this decision? Does national health care work? Do we deserve subsidized health care? Who benefits? Who doesn't? What will it cost? In this course, students will examine the notions of providing health care from philosophical, financial and social perspectives. Learner should expect to walk away from this experience with facts, figures, and ideas that will help them make up their own minds about the American health care dilemma. Can only be taken for one competence. Competences: H2A, A4, FX. Faculty: Mark Enenbach

AI 112
EXPLORING CHINA: THE LANGUAGE, THE CULTURE, AND THE VISUAL AND MARTIAL ARTS
Undergraduate
This is a course of active learning that requires a student to speak basic Chinese, explore the origin of Chinese characters, paint with brushes, and meditate in motion through Tai Chi. It introduces the fundamental structure of Chinese pronunciation and explores methods and techniques for English speakers to memorize the sound of Chinese words. By introducing students to the pictographic nature of Chinese characters, it engages students in a process of learning through visualizing the "image" of Chinese characters. In addition to language and culture exploration, students will be introduced to the Chinese philosophy of Yin Yang balance and applies it through their practice of Tai Chi, an ancient form of Chinese martial art for strengthening and relaxation of both body and mind. Can only be taken for one competence. Competences: A1H, H1E. Faculty: Sharon Guan
AI 113
URBAN COMMUNITY ETHICS
Undergraduate
Course description: Community development is an issue that every city or state is concerned about, especially in fiscally tight economic times. How best can communities attract business, maintain diverse and well-maintained housing, keep streets safe from crime, and provide quality education and recreation for children and adults? How one approaches the development or redevelopment of a community is often determined by ethical position. City planners, politicians, residents, and community organizers approach these problems from dramatically different perspectives. What one group calls 'gentrification' another might call 'citizen removal'. The ethical dilemma which unfolds is: In urban community development, whose greatest good are we seeking? Students will explore the ethical choices made by individuals, institutions, and communities as they make crucial decisions about who is and is not included in the new communities resulting from urban development. Issues of race, age, gender, national origin, religion, social class and other power relations or forms of exclusion are explicit and implicit considerations in the community development planning process. Particular emphasis will be placed on the values and visions of persons living in urban neighborhoods and how their values compare to the values of government agencies or private firms involved in planning the fate and future of neighborhoods. Competences: A4, A3X, H1H. Faculty: Cynthia Millsap

AI 121
ART AND MEMORY: SCRAPBOOKING
Undergraduate
In homes all over America, dining room tables are filled with tiny metal hearts, pictures of adorable toddlers, bags of stickers, and 500 varieties of lettering. Scrapbooking is one of the nation's fastest growing leisure time activities. Millions of dollars are invested in this peculiar pastime that focuses on not only recording family events, but prettifying them as well. Most of us do not consider ourselves artists, but give us a pair of scissors and some fancy paper and we will create a masterpiece! Students in this experience will learn about the vast array of resources available to scrapbook artists and will begin the process of decoding the relationship between art and craft in this pursuit that is sweeping the nation. Topics will include the definition of scrapbooking and its history; the ways in which art and craft intersect in the scrapbook; how to get started with a scrapbook; the impact of creativity in scrapbooking; and the construction of meaningful works of art and craft. Learners should expect to surf the internet for scrapbooking sources and to visit local scrapbook emporia. This course will meet on campus and online via Blackboard. Competences: A2X, A5, A1X. Faculty: Betta LoSardo and Pamela Sandy

AI 142
IMAGES OF ETHNICITY: FAMILY HistORIES AND PUBLIC PERCEPTIONS
Undergraduate
Students will examine the history of their own family against the backdrop of their ethnic and social identities as they understand it and how those identities are viewed by others. To do this we will gather genealogical information, visual images (family photographs, newspaper or magazine articles, possibly drawings), oral history (interviews with family members) which reflect both the particulars of your family and the forces behind cultural preservation and the pressures to assimilate. Personal investigations will be integrated with original research from local ethnic museums and institutions, the Chicago History Museum and other web-based archives. Access to Ancestry.com's vast database will be included with this class. This research will provide context for your tribe's experiences in Chicago, called "the most ethnically aware city in America." Perhaps greatest benefits of this course will be to those from ethnic, social and cultural traditions other than Western European. These would include Persons of Color, African-American and Native-American, and those 2nd or 3rd generation Americans from Hispanic, Eastern European, African, Islamic or Asiatic traditions. Another transition, the adaptation from a rural to urban lifestyle, is shared by many of all backgrounds. The survival instinct and adaptation over generations can include persons from every social strata. Established families of the privileged are not exempt. Competences: A1B, A5, H1X, H3X, S3X. Faculty: Michael Boruch

AI 143
A POEM OF ONE'S OWN: READING AND WRITING POETRY
Undergraduate
Ever wondered why it is so hard to read poetry? Ever thought about what marketing, medicine, plumbing, and poetry have in common? Come to 'A Poem of One's Own' and find out. In this class we'll ponder the nature of creativity; we'll discuss and practice techniques for reading, analyzing, and enjoying a wide array of poetry; we'll think about how the poems we read connect to our life experience; and we'll write our own poems and revise and revise them again as we learn something about the process of poetic creation. The class will be a mix of discussion, workshop, audios, film and short lectures. The workshop will include small groups. Competencies: A1C, A2A, A1A, and A5. Faculty: Ann Stanford

AI 144
INTRODUCTION TO AMERICAN ART AND ARCHITECTURE
Undergraduate
This course will introduce students to the cultural heritage of a nation built on ethnic diversity. From its early European roots to a nation known as a leader in the contemporary art world, this course will examine significant works that have established themselves as representatives of the various periods in American art and culture. Selected works from the Colonial Period, Federal Period, Early Modernist and Postwar Modernist Periods will be introduced. Artists such as Samuel F.B. Morse, John Singleton Copley, John Singer Sargent and Jackson Pollock as well as architects such as Frank Lloyd Wright and Luis Sullivan will be introduced. Competencies: A1A, A1E, A1B, A1G. Faculty: Staff
AI 145
DOCUMENTARY FILM
Undergraduate
Since the invention of the camera, people have used it to document and preserve a moment in history, and to reveal the tragedies and delights of the world around us. Enthusiasm for documentaries has grown tremendously in recent years, achieving a relevancy and popularity that would have been hard to imagine not long ago. This course is intended as an introduction to the documentary form while exploring its relationship to society. Each class session consists of lecture, film screenings, and discussion. Works screened survey the history and range of documentary expression including the classics, as well as examples of challenging work by independent film and videomakers. Along with a consideration of their artistic style, structure and subject content, we will explore the social and political relevance of the films and attempt to assess their historical impact. This course challenges students to develop a critical eye, and to deepen their appreciation of the documentary vision. Competencies: A1E, A1H, H1B, H1E, H5, E1, E2, L10,11 (LEX). Faculty: Dr. Michael DeAngelis & Susan McGury

AI 146
IMAGISM AND POETIC VISION IN PLAYWRITING
Undergraduate
In this course, students will be inspired to write from within, from the depth of their core. The course will take students on a journey into a world where they will comprehend the incomprehensible, and hear the inaudible. Students will present their intellectual and emotional complexities through words. The result of the journey is a liberation from the limitations of time and space. Through introspective exercises, students will gain an aesthetic appreciation of life. The course will focus on the intensive writing and reading of plays. Competencies: A-2-A, A-5, H-3-F, S-4. Faculty: Ezzat Goushegir

AI 147
ETHICS: HOW GOOD PEOPLE MAKE TOUGH CHOICES
Undergraduate
Through life's many lessons, we have learned how to make a decision between what is the right thing to do and what is simply wrong. We can differentiate between good and evil, truth and lies, etc. However, most of our dilemmas do not stem from deciding the correct path, when we are faced with right and wrong decisions. What most often puts us into a quandary is deciding between what is right and what is right. In other words when good people are faced with tough choices, on what basis do they make their decisions? In an era of perceived ethical incertitude and moral skepticism, students will examine how decisions are made based on one of many ethical systems. Students will learn about various ethical systems, and ethicists, such as utilitarianism, deontology, Kant, Aristotle, and Gillian, just to name a few. By the end of the course students should be able to apply their knowledge of moral, ethical and social issues, and have a better understanding of how the tough decisions they make could impact others. Competencies: A4, A3C, A3X, FX. Faculty: Christine Hayda

AI 148
HOW TO BE A CULTURAL ACTIVIST
Undergraduate
Freedom of expression vs. censorship. The artist as agent of change or entertainer of the privileged. Intellectual property vs. freeware. The Slow Food movement vs. Globalization. Teaching evolution or creationism. Public education vs. home schooling. These are just a few of the controversies that swirl around the arena of American culture. There are many groups working to preserve the widest access to the arts, culture and means of expression. This course has a definite point of view: which is that creativity is an essential component of a vital democracy. If you believe that creativity should be a national value and national priority - then this course will show you several ways to translate your concern into meaningful action. During this course students will be given an introduction to community organizing strategies and tactics and will be exposed to a number of cultural policy controversies and the key players who are working to make a difference in those areas. We will hear firsthand from cultural activists and learn how to be effective organizers for cultural democracy. This class will combine readings, class exploration and an out-of-class research project where students will pick a cultural cause that is meaningful to them and organize a small event or action around that issue. Competencies: A3X, A5, H1I, H2X. Faculty: Thomas Tresser

AI 149
CHINA/TIBET: VANISHING CULTURES
Undergraduate
The world is a book, and those who do not travel read only one page. --St. Augustine. China is the world's fastest growing economy. While economic benefits of its rapid development are clear, what risks are involved in such rapid cultural change? What happens when ancient traditional cultures are devastated by hasty development? What is the human cost of such losses? This course asks students to consider these questions as they encounter regions in China that recent economic development has not yet completely altered from their traditional state. Students will gain valuable understandings of religion, art, history and culture by engaging with present day China while unraveling its rich and complex past. Through visits to cultural centers and interactions with local people, we will experience ethnic minorities in the Kunming area of Yunnan Province, attend a major cultural festival in Ulan Bator, Mongolia, and end the journey with a train ride on the Trans Siberian Railway across the Great Wall into Beijing. Travel: June 2009. Expenses will be approximately $3,500 plus tuition and international course fee of $150. You can register for up to three competencies. Competencies: A1E, A1H, H1B, H1E,H5, E1, E2, L10,11 (LEX). Faculty: Dr. Michael DeAngelis & Susan McGury
AI 150
**IRANIAN WOMEN WRITERS AND FILMMAKERS**
Undergraduate
In this course, students will read the fiction of Iranian women authors and watch films by women directors, who have confronted the censorship, by creating new ways of resistance. Students will respond to these works and research, discuss and reflect upon the social, political and gender context. They will be required to give an oral report on an author or a film of choice, or a written essay. Competences: A1E, A5, H1X, H3B. Faculty: Ezzat Goushegir

AI 151
**EXPERIMENTAL PLAYWRITING**
Undergraduate
The art of seeing has to be learned. In this course, students will explore the possibilities of looking at things differently. By the new way of seeing, they will have a chance to root and challenge BODY, DREAMS, and DEATH in order to find freedom, joy and life. The new language will be born by listening to the mysterious language and music of our body and dreams. The course will focus our body and our desires, and journeying into the origin of words, in order to challenge the old for the new. Students will write many exercises, read works by playwrights such as Helene Cixous and Marguerite Duras, and compose short dramatic pieces of their own. Competences: A2A, A5, H3F, S4. Faculty: Ezzat Goushegir

AI 152
**EXPLORING THE ART MUSEUM**
Undergraduate
This course is designed to introduce students to the art museum as a source of lifelong learning. The museum will be presented as a resource for studying art, first by discussing the purpose, organization and function of art museums and, second, by offering insight into their collections, based on a focus on famous paintings from their collections that have established themselves in western culture. Students will use both paper-based and internet resources to determine the process of selection of art works for their historical, iconographic and symbolic meanings and be able to place them in their historical and chronological context. Competences: A1A, A1B, A1C, A5. Faculty: Phyllis Kozlowski

AI 153
**FOLK ART: REFLECTIONS OF DIVERSE CULTURES AND TRADITIONS**
Undergraduate
This course is designed to acquaint students with works of folk art and to provide an approach to understanding and appreciation through knowledge of kinds of folk art, of its purposes, techniques, form, and content. The course is designed to sensitize the student to the variety of folk art and their importance in the time and culture in which they were created and their importance in contemporary civilization. The theory, history, and mechanics of folk art plus a survey of the major developments in the visual folk arts, and their respective aesthetic criteria are explored through reading and discussion. Visuals in museums, local collections, community-practicing artists, book visuals and visuals on line are used as resources. This course is NOT offered for A2A (requires the production of artwork). Competences: A1B, A1H, A1E, A1D, A1X. Faculty: Linda Hightower

AI 154
**BANKS AS PATRONS OF THE ARTS**
Undergraduate
In Banks as Patrons of the Arts, students will consider the larger role of banks and other corporation with respect to community, especially as provider, preserver, and procurator of the visual arts. Throughout history, banks have led the way in the commissioning, procurement, and dissemination of works of art. Money, power, spirituality and aesthetics have been important elements in the preservation of art in various cultures. The focus of this course is this dilemma. Who creates visual images? Who preserves them? How does the public come to know of them and appreciate them? Where does the corporation fit in this puzzle? How has this question been handled in history? Must commerce and aesthetics be opposed? Do powerful organizations such as banks have a responsibility to develop and protect our visual heritage? Is there a middle ground where beauty and profit can coexist? Competences: A1A, A1X, A2B. Faculty: Susan McGury

AI 155
**ANALYZING LEADERSHIP**
Undergraduate
This course provides a framework from which to identify and analyze 'leadership. Leadership occurs in all aspects of life, including: business, politics, sports, society, religion, family, education, and culture. But what is leadership? The Merriam-Webster on-line dictionary defines leadership as "the act or an instance of leading," which provides us with little insight. On further investigation, however, the dictionary defines "lead" as [guide] on a way especially by going in advance. Where there is a leader, then, someone or something must follow. This course first explores the interrelationship between a leader and his or her followers and looks at the effect they have on each other. "Good" leadership traits (i.e., effective) and "bad" leadership traits (i.e., ineffective) are then studied from the perspectives of the leaders, the followers, and outsiders. Finally, this course takes a look at leadership from an international perspective. Competences: H-1-C, H-5, A-3-X, F-X. Faculty: Elizabeth Bleakley
AI 156
FILM COMEDY, AMERICAN STYLE
Undergraduate
Since the beginning of cinema, movies have made audiences laugh, and comedy is still the most prevalent film genre around the world. What were the earliest movie comedies like, and has film comedy gotten more “sophisticated”? Is comedy universal (does everyone laugh at the same things)? What lies beneath laughter? What does it mean for something to be funny? What forms of comedy lend themselves particularly well to movies? Do great movie clowns (e.g. Charlie Chaplin, Mae West, and Jim Carrey) or great comedy directors have anything in common? This course investigates film comedy from these various perspectives, based on American films ranging historically over the 20th century, and on readings from film critics, psychologists, and philosophers. Students who complete this course will have a good working knowledge of American film comedy—its history, its status as a genre, its social and psychological functions, and some of its landmark films and creators. Through readings, writing assignments, and lecture-discussions, students will also become conversant in a few key theories of comedy, and begin to consider them in the context of films. Competencies: A-1-C, A-1-D, H-1-X, H-2-G. Faculty: Gary Fox

AI 157
CATHEDRALS OF ENGLAND: A PILGRIMAGE (TRAVEL COURSE)
Undergraduate
Cathedrals of England: A Pilgrimage (Travel Course) The inspiration and faith that combined to produce the magnificent cathedrals in Great Britain are worthy subjects for students of art, history, architecture and religion. Our journey of discovery will begin in London and move southward to St. Albans and Canterbury, then on to Gloucester, Lincoln, Durham, with an overnight stay at Holy Island (Lindesfarne) the site of an 8th century Abbey accessible via footpath by day and only by boat after the tide comes in. We will focus on exploring a sense of space as a place for spiritual awakening and renewal, and make connections to our readings and discussions. Competences: A1X, A2X, A3X, A5, E1, E2, H2X, L10, L11. Contact Dr. Susan McGury at smcgury@depaul.edu or 312-362-6736 for more information.

AI 158
DOCUMENTARY PHOTOGRAPHY AS HISTORICAL RECORD
Undergraduate
Can any photograph from the past be described as a document? The word “document,” like the photograph itself, implies “truth.” But information, written or visual, requires context and interpretation. What we take from photographs depends upon the things we bring to them... foremost being our personal and group perceptions of the world. Did photographer Mathew Brady shape his Civil War coverage for his Northern audience? How were these images seen differently through the eyes of the defeated? And what stories are they telling us and future audiences? Photographs can inform words. Words contextualize photographs. In this class we will examine this relationship and how interpretations of camera images have shaped our lives. Competences: A1E, A2D, H1A, S3A. Faculty: Michael Boruch

AI 159
UNDERSTANDING THE WORLD’S GREAT MOVIES
Undergraduate
Cinema is a communication mode that warrants our attention. Through examination of great international artists and their films, much can be learned about cultures with which we are not familiar. Since our experience of film is mediated by our own experience and by our own curiosity about its creator, during this course our attention will focus not only on film as an artistic expression, but on the experiences of the director, and the circumstances that caused her/his films to be created. Most class time will be spent on viewing and discussing a film; preparation for each class will necessitate background knowledge and film analysis by the learner. Throughout this course the learner will become familiar with internationally known film directors, their works, and the historical background that inspired them to produce their art. Competences: A1E, A3C, H1F, H5, A5. Faculty: Rebecca Schwan.

AI 160
IT’S ONLY ROCK AND ROLL: MAKING MUSIC THE OLD FASHIONED WAY
Undergraduate
For many, music is an integral part of everyday life. It is also deeply ingrained in most cultures. Music is used by individuals, businesses and societies to entertain, soothe, excite, and arouse. Music is basically a series or combination of pleasing sounds but how is music made? How do we know what is pleasing and what is not? The answers to these questions and others demonstrate that music is also a field where science and art meet. In this class, we will explore how sound is physically created and how specific sounds have been turned into music over the centuries. Through experimentation, we will examine the physical and mathematical properties of sound and musical instruments. We will also create simple musical instruments and share the experience of creating musical pieces. No musical experience is needed to take this class. This class is a hybrid course that will meet every two weeks for a total of 5 times. Students will be expected to attend every class meeting as well as regularly participate in the class using the Blackboard website. Competences: A-5, A-2-X, S-2-X, S-1-X, F-X. Faculty: John Hemmerling
AI 161
EXPLORING THE CULTURE OF ADOLESCENT MUSIC
Undergraduate
Adolescents have chosen their own music to listen to for many generations, and those decisions have affected their own children’s and grandchildren’s musical choices. Teenagers often listen to the same music as their peers, but why? And is this always the case? In this course we will explore, compare, and differentiate social and other factors that mold teenagers’ musical decisions. What are their thought processes when they choose music? Are they always trying to be rebellious toward their parents or society in general? Are they simply seeking individuality? Is 21st century adolescents’ music any more distasteful than adolescents’ music from earlier decades? How has technology and the social media impacted teenagers’ music choices and enabled greater musical autonomy? Through listening exercises, discussions, and readings, we will describe and analyze our own musical tastes in the context of our own adolescence in an attempt to better understand teenagers’ choices in music from various time periods and what choices might look like for future adolescents. We will develop a broader perspective on how and why various cultures appeal to adolescents. In a final project you will analyze and present on an aspect of adolescent music culture which will include a creative component such as a mix of audio samples illustrating your analysis. Competences: A1A, A2D, H3C, H2G

AI 162
THE GOSPEL OF LUKE
Undergraduate
What is the role of compassion and of justice in American society? How can the New Testament help Americans to interpret their responsibilities in an economy that is marked by increasing inequalities of reward and risk? During the Church Year that begins December 2012, hundreds of millions of Christians will hear readings from the Gospel of Luke when they go to church on Sundays. Other Christians will attempt individually and in small groups to relate Luke’s Gospel to the social, economic, political, and spiritual realities of their lives. This five-session course will provide conceptual tools for understanding this Gospel and for applying its message to today’s challenges. Competences: A1X, A3X, H1X. Can only be taken for one competence. Faculty: Kevin Buckley

AI 163
BEYOND THE PEARLY GATES: FACING DEATH IN THE MODERN WORLD
Undergraduate
As part of being an adult we encounter death all around us. It is one of the only guarantees in life after taxes. How to accept it or deny it is what this course will address. One view that we will explore is one which comes out of our religious belief systems. The other view we will look at comes out of our need, as humans living in an economy driven western world, to measure the cost benefits of choosing life over death. By exploring issues of great debate such as abortion, mercy killing, self defense, just war, and others, we will use the topic of death to identify and analyze how we make ethical decisions in life. Five session course. May only be taken for one competence. Competences: A3A, A4. Faculty: Christine Hayda

AI 164
CREATIVITY
Undergraduate
What is creativity? Where does it come from? Do we all have it? Can we cultivate it? These questions and more will be explored as we define the concept of creativity; identify, analyze, and describe the components of a creative process in varied fields; and, explain how engaging in a creative process affects our perception of the world. BA-1999 Competencies: A5.

AI 165
PRAIRIE CHRISTMAS
Undergraduate
This class will feature a participative look back at Christmas in America in the 19th century (primarily) in the Chicago area. Five three-block class hours will lead students through a discussion of 19th century Christmas tradition. The class will be channeled through some lecture and discussion, though the focus will be on making Christmas decorations and gifts of the period. The class will decorate a communal tree, create a Christmas annual and make small gifts. The annual will be comprised of short Christmas writings from class participants. The course will examine how traditions are changed over time. May be taken for only one competence. Competencies: A2X, A3X, A5, H1X.

AI 166
PRODUCING THE LIVE PERFORMING ARTS EVENT
Undergraduate
This class will transform itself into a mini-production unit and actually produce a live event for the general public. The class will learn the basics of producing a live event, including planning, casting, production logistics, publicity, sponsorship, and audience development. The class will choose what it wants to produce, and then it’s nine weeks to opening night! Competencies: L7, A1B, H2C, FX. Faculty: Tom Tresser.
AI 167
DIGITAL PHOTOGRAPHY
Undergraduate
Students learn in this course to take artistic digital photos. They will analyze photos they have taken prior to the course and discuss if they fulfill criteria to be seen as art. Several theories of artistic expression will be discussed. Rules of composition, light, exposure, colors, etc. will be reflected on. In a second step the students will develop the competence to alter their digital photos with a program like "Photoshop Elements". They will be able to change the expression of their photos, combine different shots, creating their personal piece of art. As a final product students, will create a portfolio with about 5 photos including detailed descriptions of their work. Competencies: A5, A1X, A2D, A2X. Faculty: Hartwig Stein

AI 168
CELTIC SPIRITUALITY
Undergraduate
Six Celtic lands (Ireland, Scotland, Wales, Cornwall, Brittany and the Isle of Man) shared related languages and cultures in the historic and prehistoric past. Part of that shared culture was a religion based in awareness of natural forces and the sacredness of the earth. This class introduces the spiritual traditions of Celtic lands and is designed to include the most famous Celtic holiday, celebrated in Ireland as Samhain, in Mexico as the Day of the Dead, and in other parts of the world as Halloween. Students will read ancient myths in translation and explore contemporary articulations of the Celtic spiritual tradition. Competences: A1H, A3E,A2X. Can only be taken for one competence. Faculty: Patricia Monaghan.

AI 169
ETHICS, LAW AND JUSTICE
Undergraduate
We will first assess and discuss two Platonic dialogues in a collective effort to familiarize ourselves with the interplay between reason and ethical questions. We will pay particular attention to Plato's method of reaching conclusions to questions raised in the dialogues, whether and how those conclusions are ethical in nature, and the relative success Plato has in supporting his conclusions. Concepts discussed include the attainment of virtue, whether virtue or knowledge is teachable, the use of persuasion, and statesmanship. We will then apply our familiarity with logical inquiry to a group of United States legal cases, and focus our attention on understanding the reasoning that underpins decisions encompassing Fourteenth Amendment due process and equal protection issues. We will look particularly at how our Supreme Court Justices employ reasoning to reach conclusions of law that many view as de facto moral issues. In addition, during the course of the class, we will assess a variety of historical, political, and literary readings with the hope that they may enhance our understanding of the concepts of liberty and equality. Competences: A3C, A3G, A4, H1X. Faculty: David Morris

AI 170
CREATIVITY AND ENTREPRENEURSHIP
Undergraduate
Successful entrepreneurs face many challenges, but the chief among them is to create ‘the new’. The process of imagining, conceptualizing and articulating this ‘new’ requires skills we often label ‘creative’. This class will explore the role of creativity in the development of entrepreneurial skills and the entrepreneurial personality. Creativity in this course will be seen both as a learned skills and as an exploration of our intuition. Topics will include the relationship between creativity and accountability, understanding creativity within the context: of self, teams, organizations, and society-at-large, and the role of risk in creative settings. Competences: A5, FX, L7. Faculty: Patrizia Acerra

AI 171
EXPLORATIONS IN INTERNATIONAL CINEMA: ISSUES OF CULTURE AND DIVERSITY
Undergraduate
This class offers students a chance to examine and critique outstanding films from a wide variety of cultures. The learning experience and critique will focus on acting, design and direction in addition to the cultural and social issues explored in the films. Students will be asked to enhance each other's knowledge about the artistic and technical aspects of the films as well as the themes in global culture they examine. BA-1999 Competencies: A1A, A1C, H1X, H5. Pre-1999 Competencies: AL1, AL3, HCF.

AI 172
MAKING POEMS: AN INTRODUCTION TO VERSE
Undergraduate
Making poems will be a creative writing offering that teaches metrics and verse forms, poetry the old-fashioned way. Topics will include metric feet, rhyme, lines, and verse forms. For example, students will learn about the iambic foot, write some iambic lines of various lengths, and finally use the iambic line to write a sonnet. Rap poetry with its structured rhythms and elaborate rhyming is another possibility. This “formalist” approach promotes a kind of creativity that is strongly infused with craft and discipline in contrast to the "spoken word" or confessional approaches to making poems. This class involves making audio recordings of your poems; students will be required to purchase a headset/microphone and download and install free software. Competences: A1C, A2A, A5. Faculty: Tom Sullivan
AI 173
WESTERN FILMS
Undergraduate
Interested in learning to write about film? The Western is a particularly creative and powerful medium for exploring dynamic social and cultural issues. It is particularly open to examining the nature of creative expression, social and historical contexts, and power relations among different groups. The Western provides wonderful and exciting topics for learning about the arts of analyzing and writing about film.
We are going to saddle up and ride out, approaching the Western from viewpoints of how one can write about film, exploring various rich issues of creativity, society, history and power. Possible examples of films are High Noon (1952), Shane (1953), Sergeant Rutledge (1960), Cheyenne Autumn (1964), Valdez is Coming (1971), Pale Horse, Pale Rider (1985), Unforgiven (1992). BA-1999 Competencies: A5, H4. Faculty: J. Warren Scheideman

AI 174
WORLD LITERATURE
Undergraduate
In this team-taught course, we will examine masterpieces of world literature, including principal works from selected literary periods and traditions. The first half of the course meets at Truman College and the second half at the Loop Campus and lasts a total of approximately 15 weeks. You may register for up to three competencies for this course. BA-1999 Competencies: A1B, A1C, A1D, A1E, A2X, A3G. Pre-1999 Competencies: AL3, ALC, ALF, ALH, ALI, ALR.

AI 175
SOCRATES AND THE GREEK MIND
Undergraduate
This seminar is devoted to the analysis of the great dialogues written by Socrates' famous student, Plato. In these works lie many of the keys to understanding the western world. They also illuminate much about ancient Greek culture. An appreciation for these great dialogues and their cultural significance is an essential part of higher education. The next time someone mentions Plato's Cave, you'll be in-the-know!
Competencies: H1E, H5I, A1E, A3G, A4, L7. Faculty: Corinne Benedetto

AI 176
CREATIVE WRITING
Undergraduate
Designed to help you explore the art of writing stories, either stories that are "made-up" or stories based on lived experience. You will be required to complete six fiction-writing exercises, and either one short story, one autobiographical story, or one story based on an oral history collected by you. In addition, you write a final essay in which you reflect on your learning and experience in the course. Competencies: A1C, A2A, A5, H1X, H3B. Faculty: Staff

AI 177
DREAMS DEFERRED: LAW AND SOCIAL JUSTICE IN AMERICAN THEATER
Undergraduate
Drama is an ideal vehicle for portraying conflict. And the courtroom is often the place where such conflicts come to a head. In this course, we will read various courtroom and law-related contemporary American plays and use them as a lens for exploring issues of law, justice, fairness and the distribution of power in American society (H4). We will also explore how the playwright's creative process makes these works exciting theatrical pieces and analyze how the various design elements (lights, set, costumes, music) bring each work to life (A5). Students who register for A2B will perform scenes and monologues from these plays. The class will attend various live theatrical performances in the Chicago area. Plays under consideration include: Twelve Angry Men, A Raisin in the Sun, The Laramie Project, The Execution of Justice, Permanent Collection, To Kill A Mockingbird, and Twilight, Los Angeles: 1992. Competencies: H4, A5, A2B, FX. Faculty: Fred Wellisch

AI 178
THE ART OF LIVING: ACHIEVING Fulfillment during life's transitions
Undergraduate
Achieving fulfillment during life's transitions can be a daunting task. This course is intended to help students understand, address and take advantage of planned and unplanned career and lifestyle changes and opportunities. Special attention is given to methods for achieving personal fulfillment goals. Students examine the views of philosophers, spiritual leaders, and artists, both historical and contemporary, including Blaise Lao-tzu, Cicero, Thoreau, Emerson, Shaw, Lewis, Peck, Angelou, Fulghum, Dychtwald, Sher, and Dyer. Students create their own mission statement for work and life. A primary objective of the course is to expose students to resources that can be used in their own self-discovery process. Multi-media activities include small and large group discussions and presentations, research, and report writing, video and audiotapes. Students are encouraged to use the Internet in their research. Competencies: A-1-D, A-3-D, F-X, L-7.
AI 179
LEADERSHIP LESSONS IN LITERATURE AND CREATIVE MEDIA
Undergraduate
In this course, students will examine issues of leadership and self-leadership as we analyze several short works of fiction and non-fiction, and other creative media including film, plays and music. Students will study authors of various genres along with contemporary political and 20th century historical figures who exhibit leadership qualities that are worth exemplifying. In so doing, students will learn the structure and concepts of the academic research paper. For the research paper, students will select a topic that is personally or professionally relevant. The course assumes a basic understanding of grammar and the structure of academic papers. Because students will practice writing and revising academic papers, the course can serve as a gateway to other college courses. During this course various teaching and learning strategies will be used such as: workshops, discussions, short lectures, small group work, movie/play analyses, creative projects, conferences, at home and in class assignments, critical reading, learning from others through peer editing, and lots of writing. Students should expect to write and rewrite extensively. Competences: A1X, A3G, H1X, H3X. Faculty: Peggy St. John & Suzanne Sanders-Betzold. Can be taken for up to 3 competences.

AI 180
BACK TO THE FUTURES: A BRIEF HISTORY OF FUTURES TRADING IN CHICAGO
Undergraduate
This class will examine the futures industry in Chicago from mid-19th century to the present. We will examine how the fledgling city provided fertile soil for the growth of futures trading and continues to support trading today. Commodity futures trading has a long history throughout the civilized world, with products from rice to wheat to tulips having been "forward priced" for centuries; however, it wasn't until the middle of the 19th century that futures or derivatives trading as we know it begin in Chicago. We will look at contemporary news accounts and literary portrayals of the marketplaces. In particular, we will read works by Frank Norris, an early critic of the industry and of late 19th century capitalism in general. The class will be organized around a schedule of lecture, discussion, and small group work. A series of readings will be assigned each week, and these will be discussed in detail. We will also see a few short films and have visits by guest speakers. Competences: A1E, A4, H1C, FX.

AI 181
CREATING ORIGINAL DIGITAL ART
Undergraduate
The course will focus on electronic visual art, and because of the amount of material to be covered, will not include audio or animation art. Student will look at what constitutes ?art?, then look at how original art could be created using technological tools, such as Microsoft Paint, Pixel-based art, such as Microsoft Graphics in PowerPoint; Digital Photography and PhotoShop; digital short-movies, and Digital Animation using Freeware GIF Animation software. Competences: A2B, A2D, A2X, FX. Faculty: Ruth Gannon-Cook

AI 182
TALKING BACK TO MEDICINE: WRITERS AND THE POLITICS OF HEALTH
Undergraduate
It is no secret that health care in the United States is in crisis. President Obama has pledged to work with the nation to rehabilitate our health care system. In this course, we will examine how fiction and non-fiction writers challenge such systems to rethink the notion of health as well as the politics of sickness. The writers we will study take on issues like access to health care, models of illness and healing, medicine and social justice, and others. In this online course, readings, podcasts, wikis, and discussion board posts will help us explore the responsibilities of medicine as well as those of the community in which medicine is practiced, for a socially just and comprehensive understanding of illness, health and healing in the United States. Competencies: H4, H3A, A1D, A1X, A1C. Faculty: Ann Stanford

AI 183
THE 60'S
Undergraduate
The decade of the 1960s was a watershed period in the social, cultural, and political history of the United States. This course will examine the era from a variety of viewpoints in order to promote student understanding and analysis of key movement, episodes and personalities. The course will include investigation of John F. Kennedy's "New Frontier", The Cold War, The Space Race, the Civil Rights and Women's Liberation movements, Lyndon Johnson's "Great Society", the Vietnam War, popular culture, literature, student unrest, and the realignment of traditional political voting blocks. In addition, the course will demonstrate how the decade's music mirrored the changing times. Competences: A1E, A3G, H1C, H2A, H4. Faculty: Chuck DiCola
AI 184
WORDPLAY: DEMYSTIFYING POETRY
Undergraduate
This course sets out to demystify most forms of poetry with particular concentration on poetry composed to be read aloud or performed on a stage, and to allow the student to actually enjoy poetry! The student will be exposed to a great deal of popular poetry and will, perhaps, be a little surprised to find poetry to be accessible. The Oral Tradition, Folk Poetry, Open Mike, performance poetry, poetry read or performed with music or poetry just read aloud, Slam Poetry, rap, song lyrics - all of these often overlapping categories of poetry could be grouped under the title of Spoken Word, and probably, all would be considered popular poetry. The students will be exposed to much of this poetry; Slam Poetry in the home of the National Poetry Slam, The Green Mill, and performance poetry at the Guild Complex and at the Higher Ground Poets. Students will engage in a poetry workshop that is at once sage, gentle, and generous. The workshop will take place in the classroom. Known and not-so-well-known poets will visit the class to read or perform their poetry and students will become poets and read their works in class. Competencies: A-1-X, A-2-X, A-5, F-X.

AI 185
THE BEATLES AND THE CREATIVE PROCESS
Undergraduate
The Beatles are significant in many ways: they were an unprecedented show business phenomenon; they were leaders of Sixties cultural rebellion; and they stand, for many, as a signal instance of popular entertainment attaining the status of high art. This course will examine the musical craftsmanship of the Beatles, focusing on their work as songwriters and record makers. Recent audio and print releases documenting the group's performing and recording history provide a unique and detailed glimpse of the Beatles' creative process. We will utilize these materials to closely trace the development of the group's work while using other resources to place it in a larger historical and cultural context. The goal is to shed critical light on this recent chapter in cultural history. That discussion will, in turn, highlight questions about creativity in a modern context where commerce vies with art, technology redefines performance and an emerging global village culture transforms concepts of originality and tradition. Competencies: A5, H2G, A1X, A3X, S3F. Faculty: John Kimsey.

AI 186
SOCIAL RELATIONSHIPS FROM AN AFRICAN-CENTERED PERSPECTIVE
Undergraduate
This course will utilize an African-centered framework to examine the nature of social interactions within the African-American community. The following topics will be emphasized: female-male relationships, parenting, teacher-student relationships and the role of elders in the family. Students will examine the role of traditional and contemporary culture, racism and oppression in the historical development of these social relationships. Strengths, tensions and possible solutions to alleviate tensions experienced within the examined relationships will be identified and discussed. Competences: H1B, H3H, H3B, A3A, A3F (can also be negotiated for competence in relevant focus areas). Faculty: Derise Tolliver Atta

AI 187
CAREERS IN THE HELPING PROFESSIONS
Undergraduate
This course will help you, the learner, identify which career path best fits your strengths, skills, and interests, as you pursue your desire "to help people" It will also better prepare you for graduate and/or professional training by familiarizing you with the admissions process for various schools in the helping professions (e.g. social work, psychology, counseling, etc.) Competence: FX. Faculty: Derise Tolliver

AI 188
MAKING DIFFICULT DECISIONS: MORAL LIFE IN A MODERN CULTURE
Undergraduate
"It's not illegal." Is this statement a sufficient basis for moral decision-making? Do people have one set of values for their "private life" and another set of values for getting by at work? Is there a "public" morality? If yes, what is its basis? "Making Difficult Decisions" provides a window into the ways that people make some of the most difficult choices in their lives (for example, having an abortion, volunteering for military service or declaring conscientious objection, requesting "Do Not Resuscitate" orders for an ill and aged parent, etc.). The course readings, written exercises, and classroom activities will provide students with a framework that will help them to better understand their own moral decision-making. This framework will also help students to better understand the decisions that other people make. A major focus of the course will be the different moral languages that influence the decision-making of most modern Americans, but which many of us are not able to sort out. The course will also emphasize the role that social institutions play in our decision-making processes. Competencies: A-3-F, A-4, H-3-G, FX. Faculty: Kevin Buckley
AI 189
SOCIAL CONFLICTS OF THE KENNEDY YEARS
Undergraduate
Popular images of the Sixties, think, say, of hippies, Black Panthers, soldiers fighting in Vietnam, protesters working en masse to stop the war--actually correspond to a span of years that stretches roughly from 1964 (when, for instance, the Beatles arrived in the US) to 1974 (when President Nixon resigned from office). This course will look closely at the lead-up to this period, concentrating on American political and cultural history from the late fifties moment through the assassination of President Kennedy in November 1963. We will examine selected events, movements and figures from this period who are key to understanding what came later. Topics to be studied include the Cold War, anti-communism and the atomic bomb; the Cuban revolution; the civil rights movement and Dr. Martin Luther King; the rise of protest singers and soul music; the administration and assassination of President Kennedy; and the beginnings of the USs full-fledged military incursion into Vietnam. We will read essays and excerpts by authors such as Howard Zinn, Frank Meyer, Dr. King, Bettie Friedan, and Barbara Ehrenreich. We will use a variety of learning tools, including lectures, discussions, journal reflections, and film screenings. Competences: H1X, H4 A1X, A3X. Faculty: John Kimsey

AI 190
AFRICAN AMERICANS IN THE ARTS
Undergraduate
The arts provide a lens through which we can more completely see, hear and understand the magic, mystery and challenge of the human experience. The story of African Americans in this country is one of perseverance and transformation. In this course, students will explore how the social, political, historical and cultural journey of African Americans is reflected in the production of art. African Americans have a specific perspective on the American national experience. Where would America be without the artistic contributions of the African American cultural community? Furthermore, how does art make our lives better? Does it? In this course, learners will research, analyze, and define African American art and arts and assess their impact on culture. Arts such as theatre, literature, music, and visual and media arts will be discussed. Students should expect to attend several cultural/artistic events throughout the term. These might include poetry readings, musical concerts, theatre, gallery visits, and other local events. Competences: A1X, H1X, H2X. Faculty: Emily Hooper-Lasana

AI 191
MEXICO 2010
Undergraduate
The year 2010 celebrates the bicentennial of Mexico's independence as well as the centennial of its revolution. In this class we will explore the complexity and diversity of Mexico's 32 states, examine the historical and cultural heritage of Mexico, discuss misunderstandings and stereotypes, and explore the Mexican legacy in the United States, especially in Chicago. The unique relationship as 'sister cities' that is shared by Mexico City and Chicago has resulted in a collaboration that will bring many exciting events to Chicago. Class activities will include visits to the Newberry Library, the National Museum of Mexican Art; Millennium Park for free concerts, the Art Institute, visits to Pilsen and Little Village and other cultural and artistic venues. See also this site (http://www.bicentenario.gob.mx/index.php?option=com_content&view=article&id=935) for more information about the Mexico in 2010 program. Competences: A1D, A1E, H1F, H1G, A5. Can be taken for up to 3 competences. Faculty: Emily Hooper-Lasana

AI 192
IMPROVISATION
Undergraduate
Students will learn the games that form a context with which, or from which, to improvise. Then they will improvise; they will play in their own and in each others' improvised sketches. They will learn to solve problems, find metaphors and examine improvisation as an excellent tool with which to monitor the process of learning. From the engagement in games and their analysis will come the most important outcome: the growth of confidence. Pre 1999 Competence: AL-2, AL-A. BA 1999 Competencies: A-2-B, A-5

AI 193
LANGUAGE AND POLITICS
Undergraduate
The language that individuals and groups use to tell their stories creates their identities. This multi-disciplinary course examines how post-modern language, especially language in media, frames national and global politics and its underlying power relationships. Issues addressed include the politicization of language in the U.S. immigration debate and the role that English as global lingua franca plays in spreading American culture as well as the subsequent effects on self-expression in English among native speakers via political correctness, forbidden speech and code words. Other topics include gender roles, intellectual property rights, and even the overall need for virtually ceaseless verbal stimulation in a media/image driven world. Students will utilize intercultural communication theories to reflect upon their self-identity and its role in defining their relationship to their communities and institutions and will expand outward to understand national and ethnic identities from a global perspective. Students examine current events in the media and the ethical implications language-related biases impose upon discourse while using the Internet to create their own presentation about the topic. Competences: A3C, H2G, H5, FX
AI 194
DOCUMENTARY PHOTOGRAPHY
Undergraduate
Documentary photography emerged in the middle of the 19th century as a means of defining, directing and/or transforming social opinion. From that time forward, photographs have been commissioned with the intention of building consensus for profound social change. Public and private agencies alike have used photographs to make the larger society aware of new thinking about problems such as immigration, poverty, war, political, ethnic or gender injustice. This course will examine the photographic images spawned by various social issues and movements that have affected American social thinking and guided social activism from the Civil War forward. Please note that no prior knowledge of the history of photography or of 19th or 20th century American history is expected nor is a working knowledge of any art-making discipline assumed. Competencies: E1, E2. Faculty: Alan Cohen

AI 195
GENDER AND SEXUALITY IN BUSINESS AND ORGANIZATIONS
Undergraduate
Sexuality, Gender, Power and Organizations: these concepts and their interrelationships are the general focus of this course. Gender and gender relations and their relationship to power have long been deemed to be absent or relatively unimportant with in the study of organizations. The gendered nature of organizations and their management has not been part of dominate mainstream traditions of theorizing on organizational and business activity. Focusing on issues that are well known in our everyday life and work this course deconstructs issues such as affirmative action, gender discrimination, sexual harassment and violence in the workplace and ancillary organizations. Competences: A3D, A4, H2X, FX. Faculty: Kevin Quinn

AI 196
WRITENOW: NATIONAL NOVEL WRITING MONTH
Undergraduate
November has been designated National Novel Writing Month, and over 200,000 participants each year challenge themselves to write a book-length project during this month. As part of this 5-week course, SNL students are invited to earn competence by accepting a similar challenge: Anne Lamott said that the most important ingredient for writing is the act of sitting. During five weeks in October/November, students will focus on this seemingly simple act of the creative process. The focus of the course is on the generation of written material - the quantity rather than the quality. As such, students choose their own fiction or nonfiction writing topic(s) and project for these five weeks, and may use the material they create in a later effort (ILP, AP, etc.) To kick off one session, a group of professional writer panelists will reflect on their own creative processes as they have developed their latest works. Competences: A5, A2X, FX. Can only be taken for one competence. Faculty: Steffanie Triller

AI 197
WHAT WAS GOD THINKING WHEN HE INVENTED THE UNIVERSE
Undergraduate
We are all made of star dust. Find out how and why in this course. The moon is made up fragments of earth. Learn how we depend on each other. All life has been wiped out at least 6 times on this planet. Find out if God really likes us. We humans have only been around for 100,000 years, but we are rearranging our planet big time. Figure out if we know what we are doing. Competences: A4, A3G, H5. Faculty: Staff

AI 198
GREAT AMERICAN SHORT FICTION
Undergraduate
The short story is often thought of as the novel's poor stepchild. Descriptions of the former typically allude to its brevity as proof of its lesser literary value. This course will try to prove that great fiction is not judged by the number of words it comprises, but by its effect on the reader. Evidence will come in the form of short stories selected according to author Richard Ford for their creators' ability to spell out so well for us where daring starts and where it leads, and exactly why it is the pure and indispensable and thrilling call that brings us all to stories. Competences: A1A, A1C, A1D, A5, FX. Faculty: Charles DiCola
Shakespeare changed the English language. So did Winston Churchill, Mickey Mouse, and Ice T. Radio and television have certainly contributed. Some of these changes took years; some materialized over night. The most recent changes in how we communicate, and perhaps the greatest have come from the internet. Email, emoticons, and texting have all influenced our ability to say what we mean, and to comprehend what others are trying to tell us. In this course, students will examine the ways in which these new technologies are provoking alterations in our day to day speech. Spelling is certainly changing. Remember when we wrote through instead of thru? And who writes letters anymore? Through critical analysis of internet speak, learners will acquire skills for assessing the impact of electronic communication on literature. Looking at creativity and creative uses of technology, students will learn how to use electronic means of producing their own written work. Furthermore, students will examine how electronic communication has influenced our ability to be heard in the workplace. This course is a hybrid. Students should expect to use internet sources to complete coursework and to communicate with the Instructor and with one another. Competences: A1X, A2X, A5, FX. Faculty: William Muller

**AI 200**
GUIDED INDEPENDENT STUDY: ARTS AND IDEAS
Undergraduate
Guided Independent Study: Arts and Ideas

LL 250 is a prerequisite for this class.

**AI 201**
IMMIGRATION, MEDITATION, CULTIVATION
Undergraduate
This four-day class (December 10-14) takes place at a Franciscan hermitage and meditation center in Columbus, New Mexico, where students will build a meditation garden for a historic chapel. Each day includes directed work in the garden, together with instruction in various techniques of meditation (yoga, taize prayer, sitting and walking meditation, etc). Evenings are devoted to lectures on immigration issues, culture, and the spirituality of the ancient desert hermits. In addition, students will participate in an interfaith service in honor of Our Lady of Guadalupe, patron saint of Mexico. One-competence class: H-2-H; A-3-G; A-1-B. Fee of $550 covers all expenses except airfare into El Paso, Texas and tuition. Contact instructor for details: pmonagha@depaul.edu.

**AI 202**
AFRICAN AMERICAN LITERATURE
Undergraduate
In this course, students will examine works of literature generated by the African American community. Students will analyze and write about literature using critical techniques requiring them to discern themes and ideas from various works of African American literature. Furthermore, learners will examine characters against the backdrop of community expectation and societal reality, particularly as it relates to the African-American experience. The four required works, notable for their focus on urban life, are as follows: Black Boy by Richard Wright; A Street in Bronzeville by Gwendolyn Brooks; Always Outnumbered, Always Outgunned by Walter Mosley; and Brown Girl, Brownstones by Paule Marshall (optional). Each work examines different social and historical issues, including the struggle and aspirations of African-Americans in a Southside Chicago community in the 1950's, major historical movements in African-American life, Civil Rights, migration, marginalization and the roles of American norms in African American culture. Competences: A1X, A2X, A5, H1X. Faculty: Tacuma Roeback

**AI 203**
DRAWING: LINE, SHAPE AND COLOR
Undergraduate
This class will concentrate on the continued development of the skills necessary to create a drawn composition. Color will be introduced to complement the study of line, space and form. Media will include ink, charcoal, pastel and various types of pencil, including color. Drawing will focus on the forms of nature, especially in plant and landscape scenes, and will allow students to develop rendering skills as well as their own unique means of expression. The learning experiences will include a day trip to the Botanic Gardens, and an intensive drawing seminar of one weekend on location. This time will allow students to use the ready access and solid tranquility of nature as their studio. The weekend will include one night and two days. Some past drawing experience is required: contact the instructor prior to registration via email at mlanterm@condor.depaul.edu or by phone at 773/ 929-7404. When this is a December Term class, you can register for up to 2 competencies. Pre-1999 Competencies: AL-2, AL-3, AL-9 and AL-10. BA-1999 Competencies: A-2-A, A-1-C, E-1, E-2. Faculty: Margaret Lanterman
AI 204
EXPRESSING INDIVIDUAL IDENTITY: POLITICS AND THE CREATIVE SELF
Undergraduate
An examination of personal identity and how it is imbedded in narrative. The course examines novels and non-fiction from a variety of sources to illustrate the formation of political identity. Students write about personal identity by using stories from one's own experience, stories derived from oral history, or stories transmitted from people with whom one has communicated. Students will use one or more of the various forms - short stories, journal, diaries, - to reconstruct stories of personal identity that constitute part of a larger narrative about how citizens understand and communicate the complexities of emotion and ideas connected to politics and political experiences in one's life. Competences: A2A, A3G, H1E, H3I, FX. Faculty: James Brask

AI 205
LEADERSHIP LESSONS IN LITERATURE AND CREATIVE MEDIA
Undergraduate
In this course students will examine issues of leadership and self-leadership as we analyze several short works of fiction and non-fiction, and other creative media including film, plays and music. Students will study authors or various genres along with contemporary political and 20th century historical figures who exhibit leadership qualities that are worth exemplifying. In so doing, students will learn the structure and concepts of the academic research paper. For the research paper students will select a topic that is personally or professionally relevant. The course assumes a basic understanding of grammar and the structure of academic papers. Because students will practice writing and revising academic papers, the course can serve as a gateway to other SNL courses. Competences: A1X, A3G, H1X, H3X. Faculty: Peggy St. John

AI 206
EXECUTIVE & MANAGERIAL ETHICS IN CORPORATE AMERICA
Undergraduate
This class will prepare students who are entering or enhance the skills of those already in the complicated and confusing world of corporate America. The course will look at some of the most historical ethical issues in the world of business (e.g. WorldCom, Enron) and provide students with the tools they will need to become an ethical and successful manager or executive. Competences: A3C, A4, H2A, H4, FX. Faculty: Michael Chachula

AI 207
BEHIND THE RAZOR WIRE: THE LITERATURE OF INCARCERATION
Undergraduate
The United States is the largest incarcerator in the world. Is this because we have more crime? More criminals? In this course we will explore questions about the prison industrial complex and the justice system through the words of incarcerated and formerly-incarcerated writers. We will be looking at poetry, short stories, essays, and memoirs. Employing a mix of discussion, guest speakers, film, class team reports, and close readings of the literary texts, this course will take us on an imaginative journey into a world most of us have few reasons to understand. We will explore questions about the prison industrial complex and the justice system through the words of incarcerated and formerly-incarcerated writers. Competences: A1A, A1D, H5. Faculty: Ann Stanford

AI 208
STORYTELLING: EXPLORING THE ORAL TRADITION IN OUR LIVES
Undergraduate
Everyday we use stories to communicate. This course provides students with an overview of the art and practice of storytelling. Throughout the learning experience, students are encouraged to nurture their voices as writers and storytellers. Students will create and adapt tales focusing on both personal experience and traditional folklore. Storytelling is an oral art form. Students will learn by actively participating in storytelling and critique of story performance. The creative experience in this course will enable students to further their skills in: Oral presentation, story construction, performance, artistic critique and analysis. Students will develop and perform stories from at least three distinct areas, including personal experience, folklore, and history. This class will enhance the work of business professionals, teachers, artists and anyone who is interested in how stories communicate ideas. Competencies: BA-1999, A1X, A2X, A5, H3E. Faculty: Emily Hooper Lansana

AI 209
ETHICS AFTER THE FALL OF ENRON
Undergraduate
The collapse of Enron, the billion-dollar corporate giant, was more than a scandal; it was a modern morality play that brought into sharp relief the competing ethical systems driving free market capitalism in America. This course is an introduction to moral philosophy which will cover the major schools of thought in the field of social ethics from Plato and Aristotle to the present. We will focus particularly on the challenge of Nietzsche's master vs. slave morality to the Protestant work ethic as it has played out in American business. Using the award-winning film by Peter Coyote, Enron: Smartest Guys in the Room, each student will be asked to reflect on the ethical assumptions being brought to the drama and these will then be traced back to their historical roots and examined. In this manner, we will be able to discern our inherited belief systems, and their contradictions, which have fueled the moral crisis and corporate eruptions of the last decade. Competences: H2X, A3X, A4, FX. Faculty: Dr. Rebecca Armstrong
AI 210
THE MINDSET OF INNOVATION: BUILDING YOUR CREATIVITY COMPETENCES
Undergraduate
More than ever we hear that creativity and innovation are essential: to save the U.S. economy, to adapt to a greater speed of change, to advance our own careers. In the 21st century we indeed need to raise a different IQ: Our Innovation Quotient. In this course we'll do just that by drawing water from three wells: 1. Psychological research on individual and collaborative creativity, 2. Organizational innovation case studies and practices, 3. Experiential challenges and personal creative development. Students will explore three key creativity competencies: fluency, flexibility and originality and gain insight into the mindset and practice of innovation required to take on the challenges and uncertainties facing us right now, both personally and professionally. Competences: H3X, L7, A5, FX

AI 211
MEN OF FORTUNE, WOMEN OF CENTS: ANALYZING PRIDE AND PREJUDICE AND THE FILMS IT HAS INSPIRED
Undergraduate
“It is a truth universally acknowledged, that a single man in possession of a good fortune, must be in want of a wife.” Jane Austen must have known something about universal truths. Her novel, Pride and Prejudice, which begins with the sentence quoted above, was first published in 1813. Still in print today, it has also been made into at least eleven movies, four of which were released since 2000, including a Mormon and a Bollywood version. In this class, we will read the novel in the context of the gender and class norms at the time Austen wrote her book and then consider how Austen's exploration of universal truths is reinterpreted in more contemporary film versions of this novel. In exploring Austen's creation and the many reinterpretations of her work, we will use both analytic and creative writing assignments as well as class discussion to examine how context informs creativity and how creativity informs analysis. You most definitely do not need to be a creative writer to take this class. Competencies: A1D, A1E, A1X, A5. Faculty: Staff

AI 212
GLOBALIZATION OF MODERN BRAZIL IN ART, LITERATURE AND MUSIC
Undergraduate
This course will study globalization in Modern Brazil through the representation of race, culture and religion in the arts of Brazil. Particular attention will be paid to indigenous cultures and the influence of Africa on Brazil. Can be taken for up to 3 competences. Competences: A1A, A1H, A5, H5. Faculty: Polly Hoover & Michael Reynolds.

AI 213
CULTURAL BRIDGES: ART BEYOND THE WEST
Undergraduate
“Cultural Bridges: Art Beyond the West” is intended to provide students with an overview of the visual arts and architecture of the people of China, Japan, Africa, India, the Americas and Oceania. Emphasis will not be placed on learning names, dates and titles, but instead, on understanding how each culture reflects the religious beliefs, myths and creative expressions of the people with the sole purpose of building bridges to cultural understanding. The course will include illustrated lectures, research, discussions and visits to museums and galleries in the Chicago area which house non European works of art. Competences: A1B, A1X, A5, H1E. Faculty: Phyllis Kozlowski

AI 214
ETHICS IN BUSINESS
Undergraduate
This course is about doing the "right thing." To some degree, laws dictate what is right or wrong. But you can perform an act that is perfectly legal, but is morally wrong. Does one out weigh the other? In this course the student will find the answer to the question, "Why should one be ethical?" We will focus on ethics from an organizational and personal perspective and discuss some of the common problems associated with both. We will discuss philosophical and psychological approaches to solving some of these problems. Competences: A3X, H3X, FX, A4. Faculty: Linzy Waters
AI 215
FILM NOIR
Undergraduate
The term ?film noir? refers to a group of Hollywood movies, most of them made in the late 40s and early 50s, which share some or all of the following features: a distinctive visual style emphasizing darkness, shadows, high contrast images, and off-kilter camera angles; a labyrinthine plot revolving around crime, usually murder; a set of character types including the hard-boiled male detective, the dazzling, predatory femme fatale, the remorseless criminal, the struggling victim, and the ordinary person who has -- through bad choices, a momentary slip or a simple twist of fate --? gotten in way over? his/her ?head?; relationships, often erotic, which are obsessive and beyond the bounds of propriety; a vision of the modern metropolis as a maze of ?mean streets,? dark alleys and glaring neon signs; and an attitude of resigned cynicism about a world of corruption where every move seems to spell doom. Despite this, noir films are also full of repartee that sparkles with wit, innuendo and hip-sounding slang. And of course, everybody smokes? all the time. In this course we will screen and discuss select noir films and develop skills of viewing and analyzing them closely. Highlighted topics will include the concept of genre in film; the relationship of genre codes to creativity; the dynamics of form and content; the tension between commerce and art; the auteur theory; psychologies of the divided self; representations of masculinity and femininity; and the question of what these films say about American society, post-World War II. Competencies: A1D, A5, A1X. (may be taken for only one competence). Faculty: John Kimsey

AI 216
PHOTOGRAPHY AS ART IN THE MODERNIST ERA
Undergraduate
Why is it that certain 20th century photographs from amateur, commercial, documentary or news sources are now studied and have become collectable as art? In most cases their makers did not see themselves artists. The ones who did often struggled to define what their machine-made picture medium uniquely had to contribute to a changing and increasingly mechanized secular world. Their answers and those of later arbiters reads like a chronicle of Modernist thought. Indeed this class might be termed a history of Modernism as expressed through five distinct periods (or themes) within 20th century art photography. Abstraction, a 20th century invention in the visual arts, does have a component in art photography. These we will study. But most photography we would call creative including those from the time period 1918-1977 is solidly connect to realistic presentations from life and provide their viewers a lens for societal interpretation. They will be our main area of study. Although primarily a study of 20th century Modernist photography, the class will also examine the logic of an earlier artistic model from the Pictorialist Era. Likewise in the final weeks, we will examine some recent works and re-readings of older photographs using criteria of Postmodernism. Two field trips will be scheduled: The Art Institute of Chicago and The Museum of Contemporary Photography (Columbia College). Competences: A1X, A2A, A3E, A5, S3E. Faculty: Michael Boruch

AI 217
MINDFULNESS MEDITATION
Undergraduate
Mindfulness meditation provides many different ways to broaden our awareness of the world around us, heighten our powers of concentration, deepen our understanding of our experience, and cultivate creative and transformative ways of being in the world. Many approaches to mindfulness meditation draw on ancient religious and spiritual traditions from around the world. So mindfulness meditation is compatible with and can enhance whatever religious or spiritual commitments you may have. But mindfulness meditation does not require religious or spiritual interpretations. It can be practiced as a very powerful path to becoming a creative, healthy and effective adult. In this course, you will learn what mindfulness meditation is and various ways in which it can be practiced. We will explore in particular how mindfulness meditation can enhance creativity, address the ethical challenges of contemporary life, and foster collaborative learning. Class sessions will involve extensive practice in mindfulness meditation, listening and dialogue. You will be expected to maintain and reflect on a daily mindfulness meditation practice for the duration of the course. Competences: A3X, A4, A5, L7. Faculty: Michael Skelley

AI 218
IMPACT OF NONGOVERNMENTAL ORGANIZATIONS LOCALLY AND GLOBALLY
Undergraduate
In a world characterized by polarization and fragmentation, how can solidarity be built? This course explores the role and impact of international nongovernmental organizations (NGOs) within different countries and across countries. Students will take a systemic approach in analyzing the country contexts within which NGOs operate, considering various factors – historical, political, ethical, social (cultural, religious), economic, and environmental. They will examine how effectively NGOs with their distinctive missions and values are able to operate within these country contexts and accomplish their mission. Students will investigate the local and global impact of one NGO in addressing a particular issue or problem in one or more countries. Competences: A1B, A3C, H5, H2B. Faculty: Barbara Kraemer, OSF
The course will examine the architecture and context of the sacred spaces of the ancient and medieval world. Different perspectives will be used to study the spaces, including art historical, historical, anthropological and religious. This class will look at how sacred spaces are affected by a variety of factors in each society. These include the religious and social beliefs of the society, the availability of materials, the technical skills of the artists and builders and the world view of the people. Students will also consider how these issues are manifested in our own culture and how they are seen and experienced in their individual lives. The class will use multimedia resources to experience the monuments more fully. Competences: A1E, A1G, H1F, H2E. Faculty: Catherine Zurybida

This course addresses the question, ?What is the role of thought and emotion in personal experience?? and attempts to answer it through a series of experiments in creative writing, observation and self-reflection. Drawing upon a wide range of controlled studies, like the ones described below that suggest the possibility of a causative function in emotions and their correlative belief systems, students will examine their own inner and outer worlds and find where they meet. Competences: L7, A2A, A5, S2D. Faculty: Rebecca Armstrong

This pioneering course will provide SNL students with the first opportunity to travel and study in South America. Cartagena, Colombia is the destination. Cartagena is one of the most visited cities in Colombia and a must see city in South America. Considered by many as one of the world's most beautiful, fascinating and romantic cities, Cartagena offers a rich sense of history, beautiful beaches, excellent food, cultural events, competitive sports, spectacular natural areas, and a vibrant nightlife. Its heterogeneous ethnic and racial make-up is unmatched in the world making it a perfect environment to study and experience leisure. You will be immerse in the culture, history, and leisure practices of Colombia enabling you to develop a greater understanding of the role of leisure in improving and protecting our global community. This is an excellent opportunity to earn academic credit while traveling to a warm climate during the Winter Intersession: November 30th thru December 13th. The competencies offered are A-3-D, H-5, S-1-X, L10, L11. For more information contact Dr. Dan Hibbler at dhibbler@depaul.edu or 312-362-5275

We are living in a world of constant change, a world in which change is often viewed as the only constant. When we think about change we typically are talking about incremental change. This course will explore a much more difficult change process: the process of deep change. The primary focus of this course will be to examine the values, goals, and operating methods of the internally-driven leaders engaged in the process of deep change: the transformational leaders. The course is designed to give students a practical understanding of the ways in which transformational leaders are having a lasting impact on a wide array of organizations ranging from major corporations, to nonprofits, to international institutions. In the process, students will learn leadership lessons that can contribute to their personal and professional growth and development. The principles of deep change can apply to people at every level of an organization regardless of its size. The class is interactive and will include case studies as well as movies portraying transformation leaders who have pursued the vision of deep change. Multimedia activities will include small and large group discussions and presentations, research, report writing, and video and audio tape presentations. Faculty: Greg Gilmore

The pen is mightier than the sword. Why do authors take the time to write down their objections to society's conflicting ideas about life? What impact can words, rather than arms, actually have? In this course, students will examine the work of various authors who have felt the need to express their opposition in writing. As well as the work of those who have emerged as leaders because of their historical opposition to the status quo. What has inspired resistance movements? Much has been written about independence movements of the early to middle Twentieth Century, their significance in providing both spark and fodder for resistance movements all over the globe, including the Black Power Movement and the Feminist/Womanist Movement here in the United States. Now that the 21st Century is here, what does resistance mean and how do people empower themselves for the current and pending moments when identity politics, poverty and racism are as prevalent as ever. This course will offer students the basic knowledge and tools to understand the historical contexts for many political, economic, and social justice issues affecting people, especially women in the Twenty-First Century. Students will be able to identify and distinguish various forms of political resistance and societal oppression, and will acquire the vocabulary to discuss these moments and their impact on contemporary politics. Competences: H5, A1X, H1X, A3X. Faculty: Emily Hooper-Lasana
WHAT IS JUST?
Undergraduate
Is it fair that our tax dollars support the uninsured? Should we punish those with limited capabilities who hurt us? Is it just that my colleague is rewarded for my work? Is the Iraq war a just war? In this class, we look at these questions (and more) of justice in ancient and modern literature and philosophy. Our readings will include: the Code of Hammurabi, The Bible, Aeschylus' Oresteia, Sophocles' Philoctetes, selections from Plato's Republic, Dostoevsky's Crime and Punishment, Euripides' Medea, Toni Morrison's Beloved, selections from Jonathan Swift's Gulliver's Travels, Margaret Atwood's The Handmaid's Tale and various handouts (Rawls, Kant and others) from the instructors. Competences: A1D, A1A, A3G, A4. Faculty: Polly Hoover. May be taken for a maximum of three (3) competencies.

GREAT MUSIC IN CHICAGO
Undergraduate
Welcome to "Great Music in Chicago"! You don't have to have any kind of background in music to take and enjoy this course. The course introduces people to three of the most exciting and rewarding institutions in Chicago music: the world-famous Chicago Symphony Orchestra at Symphony Center downtown; the fabulous training orchestra of the Chicago Symphony Orchestra, known as the Civic Orchestra, also downtown; and live top-name jazz at the Jazz Showcase. We learn the background of these institutions, the nature of the arts they perform, and the terms used to describe and appreciate those forms. Most importantly, we experience, in person, the great music that they play! Competencies: A-1-A, A-1-C, A-3-D, H-2-F. Faculty: Joseph Cunniff

ECOLOGY, THE GIFT ECONOMY, AND OUR SEARCH FOR A LIVABLE WORLD
Undergraduate
In this course we will focus on different economic, cultural, and ethical paradigms of `nature? and `economic relations.? We will place the notion of a `gift economy? at its center, comparing it with the predominant notion of the `exchange economy.? The logic of `gift giving? implies distributing goods and services according to needs, placing a high social value on carework and on the ethics of care. The logic of exchange transforms giving as a direct response to needs into giving in order to receive its equivalent in return. By exploring the many ways the `exchange paradigm? dominates our thinking, acting, and relating to each other and to the natural world, this course will investigate how the `gift paradigm? has been practiced by different populations and different cultures in the past, where it is still alive today, and what it teaches us about creating a livable world, one that is guided by an ethics of care and environmental justice. Competences: A3X, A4, H5, S3X

VALUES BASED LEADERSHIP
Undergraduate
Who are values based leaders? How can we differentiate who a values based leader is and who is not? How can we explore what our personal values are and how these values influence the leaders we are or can be? Values based leadership includes both process and outcomes. Although in this course we will study various historic and modern day leaders, such as Moses, Jesus, Gandhi, Martin Luther King, Evita, Richard Daley and others, the most important work we will do in this course is learn that it is people showing leadership in everyday tasks of everyday life that in the long run will make the world a better place to live. We will learn that moral values and leadership come from within, therefore if we want to make an impact on the environment that we live in we must have a better understanding of who we are and what we believe in. In this course we will use various texts, videos, engage in small and large group discussions and spend some time in self reflection in order to explore values based leadership and the leadership potential within all of us. Competences: A3A, FX, A4, H3X. Faculty: Christine Hayda

FOOD AND IDENTITY
Undergraduate
Food is a component of individual identity. In this course, students reflect on and research their personal food histories from multiple perspectives. Students explore the connection to family and the impact of ethnicity, nationality, race and socioeconomic status on food selection, preparation and consumption; the connection of foods to socialization, holidays and gender roles; and the connection between food trends such as shifting definitions of "healthy eating" and the influence of corporate agriculture with the choices individuals make to cultivate tradition or redefine their food legacy. As a result of participating in this course, students gain insight into their own food experiences and appreciation for those of people from different backgrounds; document a personal food history; and understand the influences on their own food choices. Competences: A3A, H1E, H3B. Faculty: Rebecca Russell
AI 229
CONFLICT, COLONIALISM AND COMMERCE: ENCOUNTERING THAILAND AND ITS NEIGHBORS
Undergraduate
Southeast Asia experienced enormous changes in the last century. Thailand is justifiably proud of its beautiful beaches and its status as the most popular tourist destination in Southeast Asia. It is also proud of being the only country in the region never colonized by foreign powers. This did not happen because of luck but due to a series of complex political negotiations a century ago, at a time when all of Southeast Asia was in turmoil. This course asks students to consider these and other questions as they encounter communities in Thailand which have remained virtually untouched by the developed world. Drawing on local resources, students will gain valuable understanding of some of the minority cultures in the region and their tenuous relationship to the dominant ‘host’ culture. By engaging with present-day Thailand, participants will also gain insight into its rich and complex past. Through visits to cultural centers and interactions with local people, participants will experience life among ethnic groups in the Chiang Mai province such as the Long-Necked sub-group of the Karen people, as well as in the border regions of Cambodia and Burma (Myanmar). These travels will be followed by a visit to Bangkok hosted by DePaul’s partner institution, Assumption University. In Bangkok, we will experience its modern and ancient faces culminating in cultural activities with DePaul alumni living in Thailand. Competences: A1X, A3X, H1X, H2X, H5, E1, E2, L10, L11. Contact Dr. Susan McGury at smcgury@depaul.edu or 312-362-6736 for more information.

AI 231
THE MEANING OF WORK
Undergraduate
What is work? Does our work alone give us happiness? How is creativity connected to our work? Why do we make things? How is our self-worth tied to our work and to the things we produce? This course examines these questions and the tensions between work and leisure activities, between craft and technology in modern times, between mass production and handmade articles, and between techniques and materials. It is a hands-on lab class that emphasizes techniques and materials which enrich our understanding of work and its production; it also focuses on creativity in the 21st century and the tensions between mass production and handmade materials. Can be taken for up to 3 competences. Competencies: A5, A1F, A1H, A2C, S3A. Faculty: Dan Galemb & Polly Hoover

AI 232
THEATER IMPROVISATION
Undergraduate
In this course we will play on the classroom stage as we might have played on the playground as kids. The difference between these forms of play is one of degree rather than one of kind. A theater game provides a structure in which we can play spontaneously. In other words, we improvise. Improvisation aids in the developing of public speaking skills and comfort and confidence as well as other social and theatrical skills. May be taken for only one competence. Competencies: A2A, A2X, A5. Faculty: John Starrs

AI 233
GAIA: THE EARTH MYTH
Undergraduate
Among the world’s great myths are many which embody cultural wisdom about the relationship of humanity to the planet it inhabits. This class examines a number of exemplary myths in order to compare and contrast visions of human/natural interaction. Myths from Japan, Ireland, Native America, Africa and classical Greece will be among those studied. Students will be asked to compare one to the foundational myth of their own culture. Competencies: A3E, A5, A2A, H1E. Faculty: Patricia Monaghan

AI 234
CHRISTIANS, MUSLIMS AND JEWS IN MEDIEVAL SPAIN
Undergraduate
This course will study “la convivencia” or how Muslims, Jews and Christians created a culture of tolerance in Medieval Spain. It will explore the contributions of each culture to the sciences, arts and literature that have had an impact in contemporary society. Finally, it will examine the reasons why this world tragically vanished and the lessons to be learned from this. Truman Bridge course. Can be taken for up to 3 competences. Competencies: A3E, A1X, H1A, A5. Faculty: Polly Hoover & Ella Lopez
AI 235
THE DRAMA OF THE COURTROOM
Undergraduate
Trials are often the apex of legal proceedings, the dramatic moment where justice and truth hopefully come together. They are also fraught with a significance that often goes beyond the facts of the particular case being decided and reflect the hopes, fears, dreams and divisions of the broader community involved. The Rodney King and O.J. Simpson trials are two such modern examples. We will begin by discussing the various meanings attributed to trials throughout history. However, the major focus of the course will be to read plays in which trials occupy a central place. Possible titles include ?Twelve Angry Men,? ?To Kill A Mockingbird? and ?The Crucible,? Depending on the competence for which you are registered, you will analyze and evaluate the system of justice portrayed in each play, the protection afforded the accused and the playwright?s creative process in bringing the particular trial to life. We will accomplish these tasks through essays, class discussions and reading scenes. We will also go to a couple of Chicago theaters, view some plays and discuss what we have seen in light of what we have studied in class. A1D, A5, H1D, FX. Faculty: Fred Wellisch

AI 236
ONE WORLD: GLOBALIZATION IN HISTORICAL, LITERARY, AND PHILOSOPHICAL PERSPECTIVE
Undergraduate
In this course we will review the history of the idea of a united, confederated, or culturally interconnected world-community - tracing it from its earliest beginnings in myth, prophecy, and imaginative literature to its current practical incarnation in the form of the world as we know it today (a world of free-trade treaties, international corporations, instant communication, increasing cultural homogeneity, rapid transportation, and an edgy, suspicious opposition between traditional cultures, each anxious about preserving its identity in the new global order.). The course will conclude with a modest attempt to glimpse and assess the likely future path and consequences of globalization while maintaining a primary focus on the moral, economic, and political issues at stake. Competences: H1X, H5, A1X, A3X, A4, S3X, FX. Faculty: David Simpson

AI 237
MULTICULTURAL DISCOURSE: THE RHETORIC OF OUR COMMUNITIES
Undergraduate
In this 10-week course, students will identify, analyze, compare, and write rhetorical works that demonstrate cultural values in different communities. The course will also have a foundation in community-based learning, wherein students will spend time outside of class working with a community partner to focus on cultural development, awareness, and support in Chicagoland. Competences: A1B, A2X, H1B. Faculty: Kathryn Wozniak

AI 238
THE RIGHT TO SPEAK: EFFECTIVE INTERACTION IN THE WORKPLACE AND IN THE WORLD
Undergraduate
In this class, the students will master skills for effective interaction in everyday communication as well as in public speaking. The skills of sound production, as well as the different formats of public speaking and the different communications needs they present, will be explored. This course will provide skills in strengthening the articulation muscles to produce clear and precise sounds. The skills thus obtained will allow you to explore effectively and take ownership of your voice. These skills are needed in ordinary everyday communication, and most importantly in your professional career, whether it is business, teaching, broadcasting, public relations, politics, human resource, customer service or sales. Competences: A2X, FX, H3E, L7. Faculty: Janet Louer

AI 239
TRANSPERSONAL PSYCHOLOGY: A WHOLISTIC APPROACH TO HEALING
Undergraduate
Transpersonal psychology differentiates from other schools of psychology by defining health as the full expression and integration of the physical, mental, emotional, spiritual, and social aspects of human beings. This course provides an introduction to the basic theory of this more expansive model of psychology, explores the meaning and implications of spirituality and health, and offers students an opportunity to assess their own level of wellness according to the transpersonal model. Learning methods will include lectures, group discussions, and assignments in selected course readings. Self-assessment exercises will include guided imagery, meditation, dream work, self-selective journaling, and other transpersonal methods. An integrative paper is required. Competencies: A-3-B, H-3-F, S-3-B. Faculty: Carol Friedman
AI 240
ITALIAN AMERICANS IN FILM AND LITERATURE
Undergraduate
This course will address the roles Italian Americans have played in the cultural development of the United States from the mass immigration of the end of last century to the present, and the subsequent friction between Italian American lifestyles and the values of the dominant American culture. Students will read and analyze fiction by Italian American writers from a range of materials including the well known works of Mario Puzo and Gay Talese, and the less commonly appreciated short stories of Helen Barolini. Films which deal with Italian American issues and modes of living will also be discussed. Film discussion topics include immigration, assimilation, religion and society, and the concept of home among Italians and Italian Americans. Students will examine how history shapes culture, and how ancient ideas influence our ability to analyze problems in the new world. Pre-'99 Competencies: AL-1, AL-H, HC-1, AL-3, HC-C. BA’99 Competencies: A-1-D, A-1-E, H-1-E, H-3-B. Faculty: Betta LoSardo

AI 241
WRITING MOJO
Undergraduate
Blending critical thinking with creative thinking is where the Mojo happens in writing. The goal of this class is to help students produce works of creative nonfiction that are academically sound as well as reflective and captivating. It integrates research, personal/social relevance, and creative expression. This course could be taken as a companion to Advanced Elective, Advanced Project, Externship or Research Seminar, since the final product can be designed to comprise all or part of the written component of those courses. Competences: A5, A1C, A1D, H1A. Faculty: Rita Leganski

AI 242
THE FILMS OF WOODY ALLEN
Undergraduate
This course uses the films of Woody Allen to explore the distinctive aspects of the filmmaker's world view, his attitudes about women, and his influence by and upon American popular culture since the 1970s. The class features weekly film screenings, discussion, and projects. Competences: A-1-D, A-5, H-2-G, H-3-B. Faculty: Michele Savage

AI 243
LAUGHING MATTERS
Undergraduate
Humor, Creative Positive Energy, and Wellness are prized and culture-wide, yet are rarely understood clearly or analyzed systematically. In this course, students will trace Early Humor Development; continue through the Ages along the Path of Humor, to the 7Street? and how it helps keep us Human. Via Case Studies, students will define and discuss several Humor types, effects and styles, and how they can enrich, strengthen, and heal. The Class will tentatively explore Chicago’s rich Improv-Comedy spaces (Compass Players, Second City, Green Mill Tavern, Andy’s on Hubbard, Kingston Mines, Comedy Clubs, Poetry Slams, and others). Students will concentrate on Basic Precepts of Humor, such as: Physical, Mental, Gender, Political, Social, Satire, Connections/Disconnections, Relevancy, Timing, Repetition, Unusual Mannerisms, Unusual Voices(s), Scale, and Volume. We will review various Humor concepts and models, including early instructional/educational, bio-psychological, birth order, special talents, and socio/community-based theories. We will also analyze Humor conditions in the artistic expressive domains of Art, Architecture, Music, Literature, Science, and Invention. We will profile various types and timing of identifiable Humorists (such as Billy Crystal, Bob Newhart, Steve Allen, Bernie Mac, Lucille Ball, Charley Chaplin, Richard Pryor, Lily Tomlin, Steve Martin, Chris Rock, David Letterman, Whoopie Goldberg, Carol Burnett, Jonathon Winters, Judi Drench and others). Humor will be reviewed over successive life stages and illness affecting the comedians, as well as others. As a result, students will find Humor through divergent thinking, insight and development strategies to incorporate Humor in their academic, occupational, and personal roles. Competences: A5, A1X, A2A, H3X. Faculty: Tim Hill

AI 244
CATHOLIC SOCIAL ETHICS
Undergraduate
Students in this course will learn about ethics by examining the shifts in Catholic ethics during the twentieth century and by comparing and contrasting Catholic social thought with conventional wisdom. Students will study what church leaders and theologians are saying today about human dignity and human rights, about the common good and our individual and collective moral responsibility and this will be contrasted with Catholic teaching a century ago as well as with the conventional order (the dominant ethical perspective on social issues today). We will consider the dynamics of power and justice in America from the critical perspective of the tradition of Catholic social justice, examining the tradition of Catholic social teaching emergent late in the 19th century and spanning the 20th century: labor rights (trade unions, just wages, safe working conditions), religious freedom, racism, a consistent ethic of life, liberation theology, war and peace, economic justice, sexism, ecology. We will discuss Catholic social teaching in the context of the religious pluralism and American public life. You may register for only one competence. Competencies: A-4, A-3-C, A-3-F, H-2-X. Faculty: Kevin Buckley
AI 245  
PERFECT WORLDS: UTOPIAS IN LIFE AND ART  
Undergraduate  
What would the world be like if you could do a full makeover? How would you like life to be for you personally and what would you like to see institutionally? How should the world be governed? Who should care for children? How should housing be arranged? How should work be structured and valued? What is the role of religion and spirituality? Utopias? are attempts to create in a unified vision the perfect answer to these questions. They have been written about and attempted for centuries. But no two have been the same. We will examine how others have envisioned a perfect world and reflect upon our own preferences. We will look first through the lens of Utopian literature commencing with Sir Thomas Mores? Utopia (1515) and then at the landscape of several Utopian experiments. We will discuss the merging of scientific and philosophical analysis in the 19th and 20th centuries that led to a revived and animated focus on the potential perfection of human societies from Saint Simon to Marx. And then we will look at the great Utopian experiments of the 19th Century, the Transcendentalists, Owenites, Mormons and Shakers. We will look at the concepts and pitfalls of Utopias as a set of philosophical questions about shaping the future of human societies. Utopian thought helps as to focus on the critical and often unarticulated issues at stake in social planning. It raises provocative questions for those involved in civic professions, as well as for armchair philosophers and futurists. 
Competences: A3X, A4, H1X, H2X. Faculty: John Starrs

AI 246  
CLOTHING, FLESH AND BONE: THE HUMAN BODY ABOVE AND BELOW THE SKIN  
Undergraduate  
This course examines the human body in all its aspects. Topics include: the religious body, the body in medicine and science, the cyber body and other technologies, the presentation of self/class/gender/culture/race through the body, the body as art and the images of the body in art. We devote 25% of the class to hands-on project work in the art studio and another 25% spent at the Art Institute, the Field Museum, and the Museum of Science and Industry. Competences:A1A, A1X, A2A, A5, S3A  Bridge course.

AI 247  
STAGE IMPROVISATION AND GAME PLAYING  
Undergraduate  
Improvisational comedy is social commentary or personal expression made immediate by spontaneous dramatization. Students will learn the games that form a context with which, or from which, to improvise. Then, they will improvise; they will play in their own and in each others’ improvised sketches. They will learn to solve problems, find metaphors and examine improvisation as an excellent tool with which to monitor the process of learning. Additionally, students will acquaint themselves with the history of this freest of forms. From the engagement in the games and their analysis will come the most important outcome: the growth of confidence. Competencies: A1X, A2A, A3D, A5 FX, H3E. Faculty: J ohn Starrs

AI 248  
BOB DYLAN’S BACK PAGES  
Undergraduate  
During the 1960s, Bob Dylan produced a body of work that has, for forty-odd years, been widely regarded as extraordinary. Dylan made his mark as a new kind of songwriter, one who eschewed Tin Pan Alley professionalism in favor of rootsy grit and rhapsodic versifying; as a singing star who made a virtue out of not having a ?good voice? or a pretty face; and as a performer who, in both live and studio settings, could charm, inspire and outrage audiences (sometimes all within the span of the same few minutes). In addition, Dylan’s sixties music was adopted by political activists and bohemian youth as the soundtrack of social change, such that, in the words of critic John Rockwell, ?his albums . . .defined a community?. Meanwhile, Dylan cheekily described himself as just ?a song and dance man? and soon traded the role of generational spokesperson for a series of enigmatic personae that called into question many of the assumptions informing popular, high and mass-media culture of the period. In this course we will examine Dylan’s sixties output closely and in cultural context. Moreover, we will use it as a lens to focus on questions such as: What is ?folk? music and can it exist in a consumer culture? When we call certain musical sounds, gestures or textures ?authentic?, what do we mean? Can popular music be a vehicle for politics? Are rock lyrics poetry? Can you tell the truth through a mask? Along the way, we will encounter thinkers, poets and pickers such as Woody Guthrie, Oscar Wilde, Hieronymus Bosch and Blind Lemon Jefferson. We have Bob Dylan to thank for making a syllabus like that possible. Competences: A1X; A3X; A5; H4. Faculty: John Kimsey

AI 249  
AFRO-AMERICAN CULTURAL HISTORY  
Undergraduate  
From the days of slavery to the present, the cultural contributions of the African-American in the areas of literature and folklore, music, art, and theatre have helped shape and define the American identity. The impact of their creativity on American Life has been, has been and continues to be, far-reaching. This course will illuminate the cultural history of the Afro-American. It will follow a lecture/discussion format, using slides, recordings, and selected readings. In addition, students will supplement their learning through individual research and documentation of approved topics.
AI 250
CHINA: CHANGING ROLES OF INDIVIDUALS
Undergraduate
For two millennia, the philosophy of Confucius (551-449 BCE) had provided the moral and intellectual basis for the roles of individuals and the educational system in Chinese society. In the formative years of the current Communist regime, a serious attempt was made to rid China of its cultural foundation, which was exemplified in Mao’s Cultural Revolution (1966-1976). With the recent economic development in modern China, the study of Confucius School is back in vogue, with the full backing of the current government. This course will introduce the students to the basic teachings of Confucius and evaluate how they define individuals and their roles in society for more than 2000 years. A flavor of the Chinese Cultural Revolution and how individuals were treated during that period of political persecution and chaos will be obtained through readings and video clippings. The course will also examine the comeback of Confucius ideology to the mainstream and compare the current Chinese educational system with our American system. Through class discussions, students are encouraged to explore the function of education in preparing the roles of individuals in society and how globalization today is changing them both in China and the U.S. Competences: A1D, A3F, H2E, H5, FX (with Faculty Mentor approval). Faculty: Jennifer Hou Kwong

AI 251
F.A.I.L.: FUNDAMENTALLY, ABSOLUTELY, INTEGRAL TO LEARNING
Undergraduate
Do you ever feel as though ?FAIL? is a four-letter word? Is ?FAIL? one of those bad words that you were taught never to say? Is it a word you dare not experience? Do you go through life trying to avoid this four-letter word at all costs? If so, is there a dream, a value or a vision for your life that your fear of failure has prevented you from achieving? If you answered yes to any of the above questions, then this is the course for you. In F.A.I.L. (Fundamentally, Absolutely, Integral to Learning), you will learn to develop a new, more effective relationship with failure. As John Maxwell notes in his book Failing Forward, we are not properly taught to effectively fail. In most circumstances the only thing we learn about failure is that it is something that must be avoided. And yet success, in most occasions, cannot be attained without experiencing failure along the way. FAILING FORWARD IS INTEGRAL TO SUCCESS. It is our fear/avoidance of failure, and thus our inability to learn from our failures, that prevents us from reaching our full growth and potential. Instead of offering more ways to avoid failure, in this class you will learn to see and use failure as a stepping stone, rather than a roadblock, to success. You will learn to fail effectively by defining and redifining failure, you will explore the most common ways people attempt to avoid failure, you will develop a new relationship with failure (failure as an ally), and finally you will practice failing forward. Learning to fail forward will help you become a more effective leader, will enable you to enhance your creativity, and it will ultimately allow you to fully pursue your values and dreams. Competences: A1D, A5, FX, H3X. Faculty: Michael Mecozzi

AI 252
ETHICS FOR TODAY’S SUCCESSFUL BUSINESS MANAGER
Undergraduate
This course will provide students with a foundation that will help them deal with ethical issues arising in business today. It will first provide an overview of where ethics fits within philosophy, examine some of the important ethical frameworks, and describe how to apply them. It will then describe ?best practices? for how companies and managers can excel in today’s business climate, and illustrate them via relevant corporate examples. All of this will provide students with the skills they need to deal with ethical issues as managers. Competences: A4, A3C, H4, FX. Faculty: Clifford Ratza

AI 253
SCULPTURE IN CHICAGO
Undergraduate
Chicago is a city resplendent with exciting and diverse sculptures. This class will visit and explore many of our world famous sculptures, and discuss them in terms of their ideas, history, and form. Through a walking tour of Chicago sculpture, students will learn the vocabulary of three-dimensional form. Lecture and class discussion will provide an overview of sculpture history and three-dimensional design concepts. Students will find that the sculptural processes are accessible and will have the opportunity to create their own sculpture. Competences: A-1-C, A-2-A, A-5.

AI 254
WRITING ABOUT NATURE/ECOLOGY
Undergraduate
Many Americans have sought to return to nature to attain inner harmony, to seek inspiration, or to discover the place of humankind in a larger context. These nature-lovers have produced a wealth of writing. Students will examine a wide range of American nature writing. They will also spend time in natural settings accessible to Chicago. Through a number of writing exercises, students will experiment with different forms and purposes of nature writing. These writings will be read and discussed in class, and class members will formulate their views on the return to nature and nature writing as meaningful leisure activities. Students will demonstrate proficiency in chosen competencies through oral and written reports. Pre-1999 Competencies: AL-2, AL-4, AL-C. BA-1999 Competencies: A-2-A, A-3-D, A-1-D. Faculty: Nancy Freehafer
AI 255
SELF EXPLORATION: INSIDE OURSELVES, OUTSIDE WITH OTHERS
Undergraduate
Exploring the self can be a very personal and satisfying experience, but can also provide clues as to how you interact with others, accomplish daily tasks and become a more happy, productive and respected individual. This course guides you through a self reflection process in a collaborative learning mode where you will learn about yourself, share the process with a learning partner and observe the trends and conclusions of the class. This course will operate in a unique blended format with three required meetings which will link students in the classroom to other students taking the course online in a synchronis chat format. You will have the option to attend either on campus or online for the scheduled meetings. Competences: L7, A3X, H3X, S3X. Faculty: Kenn Skorupa

AI 256
THEATRE AND SOCIETY
Undergraduate
"The plays the thing,” said Shakespeare’s Hamlet, and this is certainly true, for the drama--from Oedipus to A Raisin in the Sun, and works before, in between and beyond, has served as a lens through which we can see the myriad dimensions of the human experience and the values that we humans have embraced at different moments in time. This course will thematically explore changing views of society as it has been illuminated in the drama over centuries. Students should leave the course with a greater awareness of the complexities of the human experience, as well as an enhanced appreciation for the contributions of key figures in dramatic history. Through the examination of themes and ideas presented in assigned texts, students will examine form, content, and stylistic aspects of drama. Students will read and discuss plays, view films, and walk around selected scenes in class. In addition, students will present oral and written reports and/or research papers depending on their registered competence(s). attend at least one assigned live theatrical performance, as well as participate in large and small group discussions. Students should leave the course with a greater awareness of the complexities of the human experience, as well as an enhanced appreciation for the contributions of key figures in dramatic history. Pre-1999 Competencies: AL-3, AL-C, HC-2. No negotiated competencies please. Faculty: Deborah W. Holton

AI 257
IRELAND: ARTS, LAND, PEOPLE
Undergraduate
This travel-study course brings students to one of Ireland's most renowned arts festivals, to explore the ways in which cultural identity is expressed and supported by the arts, as well as how land and landscape impact culture and are expressed in the arts. This ten-day study tour introduces students to questions of globalization of culture vs. traditional/indigenous cultures; cultural tourism; roots of art in society; the role of the artist in society; community-based vs. elitist arts; landscape and its impact on arts; impact of arts in education; environmental issues in economy and the arts. Competences: L10,11 (Externship), E1, E2. Faculty: Patricia Monaghan

AI 258
GLOBAL MOVEMENTS IN THEATRE: MODERN, AVANT-GARDE, POSTMODERN AND CONTEMPORARY TRENDS
Undergraduate
From Broadway to Bombay, theatre is reaching millions of people. Be a part of this illustrious group and explore amazing theatre productions. Experience ethnic theatre, theatre for justice, grassroots theatre, and Broadway theatre, too. Investigate why plays are linked to socio-, cultural, and historic movements. This course explores theatre practice and theory from 1850 to the present. Topics include the rise of independent theatre, play censorship, popular entertainment, avant-garde theatre and contemporary theatre. Through readings of dramatic literature, viewing of video and attendance at live performances, this course examines eclectic forms of global theatre, linking current practice and theory with enduring theatre traditions. Reading and in class videos encompass a diverse selection of eastern and western plays. Included in this course are engaging field trips to local theatres to view live theatre performances. Get theatre in your life this term! This class is 75 percent face-to-face and 25 percent online. Meets at both Wright College and O'Hare Campus. Competences: A1X, A5, A3X, H1X. Can be taken for up to 3 competences. Faculty: Patrizia Acerra
AI 259
WORK IN THE FUTURE: HOW SCIENCE FICTION HAS PREDICTED OUR WORKING LIFE
Undergraduate
I have always enjoyed Science Fiction. I joined those aboard the Starship Enterprise as they visited new worlds and civilizations, boldly going where no one had gone before. Their world seemed to be a utopia in which all of the major conflicts we face in society had been resolved. I always used to wonder, however, what was going on back on earth while the Enterprise crew was encountering and cataloguing alien worlds. I assume that the denizens of the future were people going to work, paying their bills, feeding their families, governing themselves and making the day to day decisions that make life rich. Apart from combat with aliens, what does Science Fiction say about these, more mundane issues? Futurist author, Robert A. Heinlein defined science fiction as “realistic speculation about possible future events, based solidly on adequate knowledge of the real world, past and present and a thorough understanding of the nature and significance of the scientific method.” both agree and disagree. I believe that writing about the future requires scientific speculation, but also calls upon ideas related to the evolution of humans and of society as well. How will our society change in the future? What will our work life be like? What is the core of human social existence and how will technology change us and our workday reality? How will society evolve and will our views change as we learn more about technology and our world? In this course, we will explore what Science Fiction says about our world. We will cover how our futurists project human ethics, workplaces, economic issues, government, individuals, gender, race, environment, and technology. We will also ask ourselves what purpose the futurist writing serves and how various predictions made by past writers of Science Fiction have stood the test of time. In considering the future through the lens of literature, learners will draw analogies to today's workplace and world, and will consider how we might shape the future ourselves. After all, if science fiction is providing a snapshot of the future, should we be behaving differently today? Competences: A1X, H1X, H2X, FX Faculty: Bridgette Mahan

AI 260
THE SOULS OF BLACK FOLK: AFRI CAN AMERICAN HISTORY AND CULTURE
Undergraduate
The Souls of Black Folk is the title of W.E.B. DuBois's landmark work written almost a century ago. It also aptly describes this course which will illuminate the history and culture of the African American. Students will examine and analyze history through the multiple lenses of oppression and the African American response to it. And, will heighten their awareness and appreciation for African American cultural creativity—in folklore, language and music—as a means to both cope with and fight oppression. It will follow a lecture/discussion format, using films and videos, recordings, and select readings. In addition, students will supplement their learning through individual research and documentation of approved topics. This class meets first at Malcolm X College at 1900 W. Van Buren St., and then at the Loop campus. Pre-'99 Competencies: HC-1, HC-2, AL-2, AL-E. BA'99 Competencies: H-1-E, H-1-F, A-2-A, A-1-D. Faculty: Wellington Wilson, Deborah Woods Holton.

AI 261
PERMEABLE BORDERS: REPRESENTATIONS OF GENDER IN THE 20TH CENTURY
Undergraduate
In this course we will examine the ways depictions of gender in art and literature are indicative of changes in the way we perceive gender. We will explore these depictions through a combination of analytical and creative activities. Our readings will include Orlando by Virginia Woolf, selected poems and creative writings by Gertrude Stein, Langston Hughes, T. S. Eliot, Quentin Crisp. Our readings of creative work will be supplemented with readings of cultural theory and philosophy including excerpts from Lyotard's Libidinal Economies, Deleuze and Guattari? Anti-Oedipus and Judith Halberstam? In a Queer Time and Place. This course will give students the opportunity to practice several types of writing, including journals, essays, research papers and creative writing (including flash fiction and poetry.) The class assumes a basic understanding of English grammar and composition. Competences: H3B, A1A, A2A, A3X. Faculty: Nicholas Hayes. Wright Bridge Course. Students can register for up to 3 competences.

AI 262
GLOBALIZATION AND THE IMPACT OF TECHNOLOGY
Undergraduate
This course focuses on current affairs regarding globalization as a world system of operation in society. The course aims to clarify our notion and understanding of globalization by looking at the impact that technology has had in the way we conduct our lives. Throughout this course students are asked to read and reflect upon different technologies that we have seen affecting the way in which people communicate. The central idea to broaden our perspective about globalization is that one the most important and significant activities that we do as humans is to communicate. Therefore, our focus of study will be centered around communication technologies widely used in the world, potentially continuing to change our lives even more. Broadly speaking, technologies under study include the telephone, television, and computer networks (the Internet). Competences: H5, S3F, FX.
AI 263
THEIR EYES WERE WATCHING GOD: THE LIFE AND WORK OF ZORA NEALE HURSTON
Undergraduate
This is an Online Course and a Travel Course--a dynamic duo! Students will be required to attend three “live” class sessions in the Loop to supplement online course work. Students will also attend the 12th Annual Zora Neale Hurston Festival in historic Eatonville, Florida, the first incorporated Black town in the US, for a four-day immersion in Black culture. Estimated expenses include tuition, airfare, hotel, food, local transportation, and conference registration fees (approximately $1,200, plus tuition. “Zora Neale Hurston, outstanding novelist, journalist, folklorist, and critic, was, between 1920 and 1950, the most prolific black women writer in America. The intellectual and spiritual foremother of a generation of black women writers, Hurston believed in the beauty of black expressions and traditions and in the psychological wholeness of black life.” (I Love Myself When I Am Laughing: A Zora Neale Hurston Reader [Alice Walker, ed., Feminist Press, 1979], i). Zora Neale Hurston, adult learner, writer, folklorist, playwright, and storyteller, was an amazing gifted woman. Her novel, Their Eyes Were Watching God, is a recognized classic used in many college classrooms across the country. A legend in her own right who Alice Walker ranks with Bessie Smith and Billy Holiday, Zora Neale Hurston has been a beacon for students interested in learning about Black life and culture. Students in this class will immerse themselves in the literature by reading about Zora Neale Hurston and will create research projects that connect their learning with their own scholarly interests. Competencies: A1X, A5, H1X. Faculty: Deborah Holton

AI 264
PASSING ON TRADITIONS
Undergraduate
In this course, we will investigate our perceptions, understandings and feelings about the world. It will reveal connections to the past by emphasizing non-traditional ways of knowing and learning. Students will examine how traditions or collections of beliefs are passed on by researching an individual or groups of people from the past or present. Working individually or in groups, students will create an oral presentation and research paper. Source material can include diaries, journals, or historical books. This experience will help students to reflect on the traditions in their lives in order to come to terms with past and present realities.

AI 265
PHILOSOPHY AND ECONOMICS
Undergraduate
This course will provide an introduction to economics as it has developed in the 20th century. It will investigate how markets work and explain what macroeconomics means. These concepts will be discussed and the necessary vocabulary defined. The emphasis on the evolution of economics will generate thought provoking discussions including: the effect of the increasing number of industrialized countries on the United States economy; changes in streams of income and its effect on the middle class; the interrelationship of technological changes and economy. Pre-1999 Competencies: HC-3, AL-C, WW. BA-1999 Competencies: A-3-A, F-X, H-1-C. Faculty: Alan D. Cohen

AI 266
ETHICAL DECISION MAKING
Undergraduate
Ethical decisions are often difficult to make, not because there are no right choices, but because there may be several right choices. This course will go beyond WHAT is right or wrong to examine WHY we say something is right or wrong. In the first part of the course, students will gain the intellectual tools and insights to lay bare their own reasoning processes and those of others. In the second part of the course, students will apply these tools to a consideration of the ethical issues raised by the high technology of current health care. Pre-1999 Competencies: PW-B, AL-5. Faculty: John Minogue

AI 267
THE EXAMINED LIFE: A QUESTION OF PHILOSOPHY
Undergraduate
“The unexamined life is not worth living,” exclaimed the Greek philosopher Socrates, setting the tone for philosophical quests that have shaped out thought and civilizations. “Neither is the examined one,” retorted German philosopher Schopenhaurer 2,300 years later after surveying the prospects of the modern world. This course will outline the philosophical tradition of rational thought that stretches in between these thinkers. Students will focus on how the great thinkers and traditions East and West considered ethical, metaphysical, epistemological, political, and aesthetic problems. And they will engage in a philosophical examination of their own life and beliefs. Competencies: A-4, A-3-A, A-3-E. Faculty: R. Craig Sautter

AI 268
CHICAGO AUTHORS
Undergraduate
Chicago has earned a varied international reputation for its gangsters, architecture, railroads, political machines, stockyards and industries. But for many around the world, Chicago is best known for its writers and literature. By the turn of the 20th century, Chicago was heralded as the “literary capital of the United States” and it is still home for great writers. Students will read two novels or books of poetry to explore Chicago’s history, characters, problems, and images. The class will trace literary movements and explore elements of structure, character, plot and style in fiction and poetry. Competencies: A-1-C, A-1-E, A-3-G, H-1-H, A-5. Faculty: R. Craig Sautter
AI 269
MAKING THE SCENE
Undergraduate
This course is designed to engage students in the art of playwriting in order to discover the essential nature of drama on stage and in life. By reading and viewing plays, students will be encouraged to reflect on the apparent contradiction between "universal truth" and individual experience. In addition to appreciating the structure and method of drama, students will learn to identify the "why" behind any play and to use drama as a means of creating and telling stories. Pre-1999 Competencies: AL-1, AL-2, AL-C. BA-1999 Competencies: A-1-A, A-1-D, A-2-A. Faculty: Ewing Eugene Baldwin

AI 270
DESIGN FOR LIVING
Undergraduate
The purpose of this course is to develop an awareness, understanding and analysis of the Chicago-area built environment. Architectural, public art, urban design and urban planning elements, techniques and issues will be presented with downtown Chicago as the primary study area. Specific architectural and development plans will be analyzed from various perspectives, such as: historical, social, technical, functional, aesthetic and symbolic. The development of Chicago's commercial architecture, and its contribution to modern architectural theory and practice, will receive special emphasis. Competences: A1X, A2X, A5, H1I, FX. Faculty: Timothy Hill

AI 271
SHADOWS OUT OF TIME: MODERN HORROR FICTION
Undergraduate
"Very few authors can boast that they have inspired and encouraged a generation of writers. Fewe still can say they have inspired two or three such generations. H.P. Lovecraft is one of those select few who, even 63 years after his death, inspires, encourages and educates writers of weird fiction and horror the world over. This course will cover Lovecraft the man, his life and the times in which he lived. It will encompass Lovecraft's work, including his stories, poetry and the myth circle that he created and which authors enlarge upon even today. Finally, the course will examine the "Lovecraft Circle", the writers he personally encouraged and assisted as well as those who joined the club by contributing mythos tales of their own. Students will read selected works of Lovecraft, Robert Bloch, Ramsay Campbell, Stephen King and others. Pre-1999 Competencies: AL-1 AL-3 AL-E AL-F. BA-1999 Competencies: A-1-A, A-1-C, A-1-H, A-1-X.

AI 272
REVOLUTIONARY MOVEMENTS IN LATIN AMERICAN LITERATURE, ARTS AND MUSIC
Undergraduate
The content of this course will revolve around the topics of love, death, and magic in Hispanic literature. Students with the ability to read and speak Spanish will be given the option to read and discuss the selections in that language, while those who speak English will read and discuss the selections in English. Readings from such authors as Sor Juana, Neruda, Marquez, and others will be put in a historical and cultural context. References to other art forms will enrich the discussions. Included in this course will be field trips to the Mexican Fine Arts Museum and the Newberry Library as well as to appropriate concerts. This class meets the first part of the quarter at Truman College and then at the Loop campus. You may register for up to three competencies. Competences: A1A, A1C, A5, H1A, A3E Faculty: Staff

AI 273
JUSTICE AND POLITICS: THE TRADITIONS OF POLITICAL PHILOSOPHY
Undergraduate
Are politics ever just? Should they be? What is justice? Throughout the ages, philosophers and statesmen have provided different answers to these fundamental questions. This course will explore the role of justice in politics, using as a guide the best known works of two great thinkers in the tradition of political philosophy. Plato's Republic and Machiavelli's The Prince appear to offer two very different answers to the questions of justice, and politics. By exploring their works, students will grapple with these questions, probe Plato's and Machiavelli's differing approaches to the role of justice in politics, explore their own conceptions of these critical issues and wrestle with the role of justice in current political events. Students will also gain an introduction to the tradition of western political philosophy as reflected by two of its most influential thinkers. Competencies: A-3-F, A-4, H-3-A, F-X. Faculty: Robert E. Shapiro

AI 274
WRESTLING WITH THE ANGEL: GOD, SEX, AND THE GUILTY CONSCIENCE IN LITERATURE
Undergraduate
Humans have always had an impulse to worship a God (or Gods). Humans have always been irresistibly drawn to sexual self-expression. Pervasive throughout history is this fascinating paradox: the God whom we worship condemns the sex we crave. Guilt is our link between the sacred and the profane. The triangulation of religion, sexual desire, and guilt has long been the concern of artists and writers. This course examines this phenomenon in such literary masterpieces as Nathaniel Hawthorne's The Scarlet Letter, Tony Kushner's Angels in America (Parts 1 and 2), and William Shakespeare's Measure for Measure. We will also study poetry, literary criticism, and relevant excerpts from sociological, theological, and psychological texts. In addition to participating in class discussions and presentations, students will be required to submit a final paper and a ten-entry journal. BA-1999 Competencies: A1D, A1E, A3G, A5, H3X. Faculty: Peter Forster
**AI 275**  
**INTRODUCTION TO CREATION SPIRITUALITY**  
Undergraduate  
This course provides an overview of Creation Spirituality, a movement that draws on ancient spiritual traditions and contemporary science to awaken authentic mysticism, revitalize Christianity and Western culture, and promote social and ecological justice. Creation Spirituality teaches that God permeates all things and that humanity is an original blessing to the earth. In this paradigm, Christ is God’s liberating and reconciling energy, transforming individuals and society’s structures into conduits of compassion. As we embody God’s love, we become the Creation that God intends. Topics to be explored include differences with fall-redemption attitudes, relationships to post-modern world views, and applying insights to personal life and work dynamics. BA-1999 Competencies: A3B, A3X, A5, H4, FX. Pre-1999 Competencies: AL2, ALF, HCF, WW. Faculty: Richard Rossiter

**AI 276**  
**CREATIVE INK: THE ART OF WRITING**  
Undergraduate  
This course will carry students through a series of creative writing experiments aimed at stimulating their imaginations and discovering their literate voices. Students will be exposed to a variety of techniques for story writing, poetry, and avant garde experiments. The course will combine in-class group writing and critical sessions, and individual consultation with the instructor for personal development. Students will also learn how to find outlets for their completed creative work. Competencies: A-1-C, A-2-A, A-2-X, A-5. Faculty: R. Craig Sautter

**AI 277**  
**WRITING FROM THE INSIDE**  
Undergraduate  
A series of dovetailing activities and exercises expose students to an increasingly broadened range of experience with the foundational elements of the writing process. Thus students arrive at an understanding of the creative process in the art of writing through their own writing experiences, as well as through reading and discussion of the writings of others. The context for writing understood as an art will be an interdisciplinary one that will also involve drawing. The students' explorations will take advantage of an arena of peers all sharing the process of personal discovery, and reading and discussing their own work as well as the works of literature together. Students produce a finished writing product of their own in an artistic form which meets the criteria of "art" explored by the class, present the work to the class, and explain their process. They will also produce a written evaluation of one or more writings of their choice in terms of this same criteria. Pre-1999 Competencies: AL-1, AL-2, AL-4, AL-F  BA-1999 Competencies: A-1-A, A-1-X, A-2-A, A-3-D. Faculty: Ann Schultz

**AI 278**  
**THE LITERATURE OF INCARCERATION**  
Undergraduate  
The U.S. incarcerates well over 2 million people. Proportionally, no other democratic country in the world comes close to this level. Locked away, out of sight and hearing from most of us, this population of women and men is represented by the media in lurid, predatory images. The writing that has emerged from prisoners paints an altogether different picture, however. In this class, we will study several literary texts--short stories, essays, poems--written by women and men who have been or are currently incarcerated. The class will be offered for one competence only and will meet the first five weeks of the quarter. BA-1999 Competencies offered: A5, H4, A1E. Faculty: Ann Folwell

**AI 279**  
**EXPLORING WORLD LITERATURE: THE INTERNAL HISTORY OF HUMAN EXPERIENCE**  
Undergraduate  
This course is about exploration, about discovery, about meaning. Together we will explore remarkable stories of world literature, and together we will discover remarkable worlds that open our lives with meaning. By means of consummate storytelling and remarkable language, respected masters and new and emerging writers, chosen for their literary excellence, will transport us to South America and to the Caribbean - - to North America; Europe; and Russia - - to the African Diaspora to the South Pacific - - to Mexico, Central America and to the Middle East - - to Mississippi and to Harlem - - to South Asia and to East Asia. The course will also include short stories from acclaimed Native American writer, Sherman Alexie, who also wrote the screenplay for the academy award-winning movie, Smoke Signals. This course's chosen classic and contemporary masterpieces of short fiction will reflect thematic, aesthetic, and cultural variety: different styles, points of view, and rich diversity of cultural, historical, and gender perspectives. The stories draw us in by powerful images garnered not only from our own backyard, but from the many yards across the globe. Competencies: L7, A1X, A5, H3X, FX. Faculty: Susan F. Field
AI 280
TRADITIONS AND TRANSITIONS: PROFILES IN ADULT LEARNING
Undergraduate
This course is designed to assist learners in investigating the perceptions, understandings and feelings about their lives and the contexts in which they are lived. It will help to reveal connections to the past and conditions shaping the future with special emphasis on non-traditional ways of knowing and learning. Students will choose persons from the past or present and examine how a family and/or cultural tradition is passed on through time, including forces shaping its future form. Pre-1999 Competencies: AL-D, HC-2, AL-F, WW. BA-1999 Competencies: A-3-B, H-3-C, H-1-F, L-7, F-X.

AI 281
RITUAL AND EVERYDAY LIFE
Undergraduate
This class will delve into ritual as an experiential, expressive performance of self, culture, spirituality, and ethics. We will be reading, viewing and discussing various examples of ritual forms, both religious and secular, Euro-American and non-Western, and looking at works about ritual performance by anthropologists and performance theorists like Ronald Grimes, Richard Schechner, and Victor Turner. We will also be experimenting with the role of ritual in our daily lives, creating our own rituals and ritual performances. This process will highlight what it means to endow everyday objects and events with sacred significance, and how such an expression of self establishes an essential relationship with community. BA-1999 Competencies: A-1-H, A-2-A, A-5, H-1-E, H-3-I. Pre-1999 Competencies: AL-2, ALE, HC-1, HC-W. Instructor: Jason Winslade.

AI 282
LEISURE FOR WELL-BEING
Undergraduate
The pursuit of happiness for most people is an important aim in life. A personal feeling of well-being includes "emotional happiness" and the rational satisfaction with one's own life. In this course you will attempt to define the term "well-being" and discover its relationship with other concepts such as mental health and life satisfaction. How does physical exercise influence well-being? How do positive and negative life events influence well-being? Do good social relationships guarantee happiness? Do the expectations one has in life with regard to income influence well-being? Is it important to set goals to achieve a high level of well-being? These and other questions will be addressed in this course. You will try to define some of things a person can do to increase his or her level of well-being. Others' ideas serve as common course content, as presented in the material assigned to this course. You will be asked to participate actively and critically, to work individually and in study groups, using your own experience as a field of analysis and reflection. Active group participation will foster a harmonic, interactive environment, which might increase positive relationships among students and foster a feeling of well-being throughout this course. Competencies: H3F. Faculty: Staff.

AI 283
VISIONARIES OF PEACE
Undergraduate
Sacred scripture shares: "Without a vision, people perish." In our contemporary global reality, where talk of war and terrorism fills the air, and "peace" is a complicated notion, what does it mean to be a visionary of peace? To whom can we look for wisdom and guidance? In light of these questions, we will study the words and deeds of four persons whom many consider to be peace visionaries. We will question their motives and actions. We will ask one another if they are indeed worthy of being called visionaries of peace. We will ask ourselves and one another what they have to teach us. We will explore the foundational principles and practices which guide them, those of contemplation, nonviolent action and peacemaking. We will compare and contrast their approaches to peacemaking. We will examine what they have to say to us and to our world today. They are Peace Pilgrim, an American woman who walked over 25,000 miles for peace; Badshah Khan, known as "The Frontier Gandhi," of the Pathan region of the Pakistani-Afghani border; Thich Nhat Hanh, Vietnamese Buddhist monk and social activist; and Mairead Corrigan Maguire, Nobel Peace Prize winner from Northern Ireland. We will get to know these contemporary visionaries as "The Frontier Gandhi," of the Pathan region of the Pakistani-Afghani border; Thich Nhat Hanh, Vietnamese Buddhist monk and social activist; and Mairead Corrigan Maguire, Nobel Peace Prize winner from Northern Ireland. We will get to know these contemporary visionaries of peace. We will read their own words, read what others have to say about them, and discuss their relevance in light of our post September 11 reality. In light of their vision, we will work to create our own vision for peace in our hearts, our community and our world. BA-1999 Competencies: A-3-A, A-3-G, A-5, H-3-D, H-5. Pre-1999 Competencies: AL-R, AL-N, HC-B, HC-X. Faculty: Anthony Nicetera.

AI 284
THE BRAVE NEW WORLD OF MARKETING COMMUNICATIONS
Undergraduate
This course will help students understand and successfully navigate through the brave new world of marketing communications and advertising: a world of segmented audiences, fragmented media channels, technology and interactivity, online communities, and on-demand media, where brand building has emerged as a business imperative. Students will learn which principles of traditional marketing communications are in, which are out, and the new ones that have emerged. We will read books and articles and examine the internet, e-commerce, experiential marketing, consumer-generated content, branded entertainment, search, music and mobile channels. Through the process of creating marketing communications programs utilizing these channels, students will also gain skills in collaborative learning and creativity. Competencies Offered: A5, H2G, S3F, FX
AI 285
EUROPEAN ART CINEMA
Undergraduate
After World War II ended, American movie theaters began showing films from Europe that became popular among war veterans, college students, and graduates. Unlike most classical Hollywood films, the new "European Art Cinema" was less concerned with presenting stories with happy endings than with exploring social, political, and psychological themes through the use of film as an aesthetic form. This course introduces students to the art cinemas of Italy, France, Germany, and Sweden, concentrating equally upon the appreciation and analysis of individual films, the historical and cultural conditions of their production, and the relationship between Hollywood and the European film industries. In addition to reading film and cultural history, we will watch and discuss a full-length feature film each week in class. Screenings include Vittorio DeSica's Bicycle Thieves, Federico Fellini's Nights of Cabiria, Francois Truffaut's The 400 Blows, Alain Resnais' Hiroshima, Mon Amour, Michelangelo Antonioni's Red Desert, Jean-Marie Straub's Not Reconciled, Claude Chabrol's La Rupture, Ingmar Bergman's Persona, Rainer Werner Fassbinder's The Marriage of Maria Braun, and Jean-Luc Godard's First Name: Carmen. All students will be required to write a paper pertaining to the specific competencies chosen. Students registering for Integrative Learning competencies, capstone competencies, or advanced electives will be required to conduct and incorporate outside research for their final paper. In November 2000, please visit the course website for more information: http://www.depaul.edu/~mdeangel/artcinema/ Pre-1999 Competencies: AL-1, AL-3, HC-1, AL-9, AL-10, HC-9, HC-O BA. 1999 Competencies: A-I-A, A-I-C, H-I-E, E-I, E-2, 1-3, 1-4.

AI 286
NEW ORLEANS IN SONG, STORY & STRUGGLE
Undergraduate
The tapestry of New Orleans culture is tremendously rich and varied. This course will concentrate on two strands in that tapestry music from New Orleans and fiction about it. Students will learn about music forms which originated in the city or its environs and which have gone on to dazzle the world, including jazz, r&b, zydeco and funk. We will situate these art forms in social and historical context and examine the complex creative processes which have shaped them. We will become familiar with innovators and icons such as Louis Armstrong, Professor Longhair, Clifton Chenier, the Neville Brothers and Dr. John. We will also read works by literary artists who have a background in and/or fascination with New Orleans, including The Awakening by Kate Chopin; A Streetcar Named Desire by Tennessee Williams; and Mumbo Jumbo by Ishmael Reed. Moreover, we will consider the role played in American history and imagination by New Orleans as well as the role played by images and fantasies of New Orleans in struggles for social justice at the local and national level. Competencies: A-I-A, A-I-C, H-I-E, E-I, E-2, 1-3, 1-4.

AI 287
THE PRACTICE AND SPIRIT OF CREATIVE WRITING
Undergraduate
When I teach writing, I often interchange the word “writing” with the word “life.” Writing is life. But many have forgotten. Author Georgia Heard writes in her book Writing Toward Home, “There are many times when I’ve felt that I had nothing valuable to say. That real writers were other people. It has taken me a while to believe that the way I feel each day, and the way others speak when we’re least self-conscious, is where writing comes from. When we speak in a language that is ours and tell our own stories and truths -- this is where writing comes from.” Yet still many have forgotten. Poet Marge Piercy's words resonate to all of us when she writes: She must learn again to speak / starting with I / starting with We . . . There is an ancient Chinese proverb: A bird doesn't sing because it has an answer it sings because it has a song." Writing is natural, like a bird's song. But many have forgotten. When it comes to writing, it was American writer Robert Frost who believed that if one was open, one might even realize "with initial delight that you are expressing thoughts that you didn't know that you already knew." This course will involve the student in the practice and spirit of creative writing. Very importantly, it will involve through a re-awakening and a re-discovery of the creative potential that lies inside, waiting to speak again. Our course follow the lead from the great essayist E.B. White who defines writing “as communication, and creative writing as the self coming into the open.” Indeed, writes author Christina Baldwin in her essay on the writing life: “There comes a journey And there comes the urge to write it down, to bear witness to our experience, to share our questions and the insights that come from questioning.” In a supportive, sharing learning environment, each class session will be presented in an exploratory workshop format that integrates content and spontaneity. Students will be inspired to risk, to explore, to bring to consciousness, to nurture, to trust and to honor the originality of their own emerging personal voice. Students will also gain awareness of and understanding into the wonders of the creative process itself. The flexible course structure is intended to accommodate individual needs and writing exploration and to encourage individual creative writing development. Students are asked bring to class a few belongings as one writer suggests: A nugget of personal truth, still buried; a bit of history under the skin, ready to be transformed. And let me add that students bring some more belongings: an open mind with a dash of wonder; a pocketful of dreams; the courage (it may be shy) to create; and a heart filled with blind faith. Competencies: L-7, A-Z-A, A-5, F-X. Faculty: Susan F. Field.
POWER AND LEADERSHIP IN PUBLIC SPEAKING: MANAGERIAL COMMUNICATIONS
Undergraduate

When you are trying to sell an idea or product, your presentation must be specific and detailed, convincing and authoritative. This course will teach students to develop and deliver exciting and effective presentations. Through numerous individual short presentations and one final major presentation, students will learn how to overcome such speaking problems as nervousness, eye contact, understanding the audience and its culture, questions and answers, effective use of graphics, distractions, time control and how to handle troublemakers. Through the use of flip charts, overheads and computer-generated graphics and videos, students will learn to effectively organize their material to communicate their subject material to the audience. Students will need a basic understanding of computer software such as PowerPoint, database spreadsheets and access to the Internet for research. Students will develop an appreciation of the complexity of the communication process and the choices facing the communicator. Pre-’99 Competencies: AL-F, HC-S, WW. BA’99 Competencies: A-1-X, H-3-E, F-X. Faculty: Tom Strzycki

ACTION FILMS: HONG KONG AND HOLLYWOOD
Undergraduate

In this course students will compare and contrast action films completed in Hong Kong and Hollywood. Competencies: A1C, A5. Faculty: Michael DeAngelis

MEN AND MASCULINITY
Undergraduate

This class is an introduction to the history, roles, and social expectations of masculinity in the United States. Its starting point is the social construction of gender, and the origins of ideas about “masculine” and “feminine” behaviors. We look deeply into the social, economic, political and cultural forces that shape views of gender. The class draws upon a wide array of literature, poetry and perspectives on boys, men, social roles and masculinity. Just as the feminist movement showed girls and women the vast array of possibilities in a “feminine” world, so, too, does this course consider the possibilities of the “masculine” world. We will particularly explore research that addresses the experience of contemporary boys; their struggles and the painful issues they must face on their journey to manhood in American society. BA-1999 Competencies: A3A, A4, H2A, H3A, H3H, FX. Pre-1999 Competencies: ALN, HCA, HC4, HCV, WW. Faculty: James Frank

TRAINING DEVELOPMENT
Undergraduate

This five week course will address the development of instructional methods and materials consistent with the purpose, audience, and context of a specific training need. Students will learn how characteristics of adult learning and adult learners can converge with principles of instructional design to create effective and dynamic training materials. Students will demonstrate competence through the design of training methods and materials. * Successful completion of Training Design is required prior to registration. Students may register for only one competence.

EONS AND ARTS II: MANIFESTATIONS OF CULTURE
Undergraduate

This course will connect specific historical eras in Western culture with representative art forms so students can gain cultural insights. Particular attention will be paid to artifacts in the Chicago area. Students will analyze the relationship between popular art and movements in history through lecture, readings and discussion. We will also address contemporary cultural issues, including how later peoples will judge our values based on our arts. Pre-’99 Competencies: AL-1, AL-E, AL-I. BA’99 Competencies: A-1-A, A-1-B, A-1-H. Faculty: Jo Anne Gesiakowska

THE HORROR FILM
Undergraduate

The horror film has introduced and popularized many of the cinema’s most unique stylistic innovations, especially in the areas of camerawork, lighting, color, sound, point-of-view, and editing. The genre also helps us to understand how filmmakers construct surprise and suspense to maximize the viewer’s emotional involvement and response to film narratives. This course introduces students to the language of film analysis by studying a number of representative films in the horror genre. We will also examine the social and cultural dimensions of the “fear” response that horror films exploit so strategically. We will read exciting theoretical work discussing the reasons for the genre’s widespread appeal. Weekly in-class film screenings include the following: Psycho (Hitchcock version), The Texas Chainsaw Massacre, Halloween, Scream, The Cabinet of Dr. Caligari, and Suspiria. Students will give class presentations and write papers on topics tailored to their interest in the genre. Pre-’99 Competencies: HC-D, AL-1, AL-3, AL-9, AL-10. BA’99 Competencies: H-2-G, A-1-A, A-1-C, E-1, E-2. Faculty: Michael DeAngelis.
AI 294
THE PRACTICE OF PEACE
Undergraduate
Following the September 11, 2001 suicide attacks, President Bush has declared an open-ended war on terrorism. In the midst of this war, what does it mean to practice peace? How might you and I work to practice peace? We will explore some of the principles, practitioners and practices of nonviolent peacemaking, allowing for debate and discussion. We will explore personal, interpersonal and political peacemaking. We will examine power relationships and dynamics inherently at tension in the practice of peace. We will read the works of contemporary peacemakers, such as Maread Corrigan Maguire, Jodi Williams, and Thich Nhat Hanh, as well as seminal figures in the peace movement, such as Martin Luther King, Jr., Mahatma Gandhi and Dorothy Day. We will have guest lectures from local and international peace practitioners and discuss various ways of practicing peace on personal, local and global levels. BA-1999 Competencies: A3C, A4, H3D, H4, H5. Pre-1999 Competencies: ALG, ALP, ALS. Faculty: Anthony Nicotera, LSW, works in University Ministry at DePaul. He received his BA from Georgetown University, where he also studied Law. He received his MSW from Loyola University of Chicago where he also studied philosophy and theology. As a licensed social worker, he has worked extensively with disadvantaged youth. He has lived and worked in India, Latin America, and in a Catholic Worker community in New Jersey. In his work for peace and justice, he has been arrested a number of times for non-violent civil disobedience.

AI 295
SHADES OF GRAY: MORALITY AND ETHICS IN FILM
Undergraduate
In the early days of movies, people flocked to the theater to see the good guys (white hats) triumph over the bad guys (black hats). As the art of cinema evolved, the characters and the ethical issues they faced became more challenging and complex. Through in-class screenings and related readings, this course will examine films whose themes strongly concern the depiction of ethical and moral choice. We will discuss the ways in which the film makers create meaningful ethical dilemmas; how the characters' choices are portrayed; and how these portrayals may influence our own formulation of value systems and ethical choices. Competencies: A1A, A1D, A3C, A4. Faculty: Gary Fox

AI 296
STAGE PLAY(ING)
Undergraduate
The plays the thing... A play is action, play, conflict, resolution, motion, emotion, live now. A play is crafted for the stage, not for the page. What we find on the page is a script, a guide to the play, not the play itself. The course will explore the play (and playing) in as many of its dimensions as we can discover. Students will read about reading scripts, and then read them to see the play as it could come to be. We will put together scenes, sketches, stories, and/or short plays; as well as improvise, role play, and act in our own work as well as in the work of established playwrights. Students will take the study to the theater to see what works and what doesn't work on the stage. The class will work and play together and apart and let the creative imagination take us where it will. Competencies: A1X, A2X, A-5, H3E, FX. Faculty: John Starrs.

AI 297
WOMEN'S WISDOM AND THE POWER OF PERSUASION ON
Undergraduate
In this course of fulfilling our private and public lives, we draw on combinations of our knowledge and experience (wisdom) and capacities to be persuasive. The alliance of wisdom and persuasion goes back to early Greek philosophers who formulated them as subjects for men, but not for women. More contemporary perspectives suggest that men and women may bring differing palettes to the artistry which weaves persuasion and practical wisdom. This course will examine emerging theories on the stages of “knowing,” and their philosophical roots, and the application of this developing knowledge to many facets of professional and personal life. Students will utilize case studies, discussions, readings, self-explorations and other activities to analyze systems of thought regarding the development of values, knowledge, and persuasive skills with a particular emphasis on women’s perspective and experiences. The role of media shaping attitudes, motivation, and decision-making processes will be explored through the images and metaphors conveyed to and about women. The course will offer and opportunity for understanding the roots of many of our values and perspectives on women’s approaches to knowledge and persuasion.

AI 298
THE ITALIAN RENAISSANCE
Undergraduate
From the thirteenth to the sixteenth centuries, the Italian peninsula was the center of a new age of human discovery and expression. With the unfolding of ancient philosophies, the Catholic Church’s temporal and spiritual control over Western Europe faltered. This age changed the meaning of political power, art, literature, science, and religious life. New perspectives lifted the horizons of thought and artistic expression. What meaning and value do these issues have for the contemporary person? By exploring the richness of Renaissance culture, this course attempts to answer the following questions: What happened on the Italian peninsula during the Renaissance? Who were the principal players? How did this period influence western civilization, particularly with respect to learning? What does the Renaissance mean today? Why, indeed, does it play such a major role in contemporary consciousness of the arts, literature, politics, and science? While the general focus of the material is the Renaissance in the Italian city states, the course concentrates on the rise and fall of the Medici family in Florence. Cosimo, Lorenzo, Piero and Giovanni de’ Medici (Pope Leo X) were instrumental in the development of this spectacular age in Western Civilization. Learners will also confront our own time with respect to issues raised in the Italian Renaissance. Faculty: Betta LoSardo.
AI 299
ELEMENTS OF FILM AND TELEVISION: AN AESTHETIC APPROACH
Undergraduate
There's more going on in a film or TV show than the story! Understanding aesthetics principles allows both consumers and creators to experience film and television on deeper levels—both intellectual and emotional. While aesthetics classes in the philosophy department are concerned with the connection between “beauty” and “truth”, this course will be primarily concerned with basic visual language. Students will learn how to interpret the medium's aesthetic elements by decoding its visual language, thereby building strategies for their own creative visual thinking. By exploring a variety of genres--- narrative films, television dramas, documentaries, even commercials--- we will develop criteria to help us see beyond the obvious text. Working within the limitations of the medium, we will learn how to manipulate and exploit the aesthetic elements at our command to obtain desired effects. The course will culminate with each student producing an integrated project. Competencies: A-2-C, A-5, A-1-X. Faculty: Gary Fox

AI 313
RACE AND IDENTITY IN AMERICAN THEATER
Undergraduate
This course will explore issues of race and racial identity in American society through the medium of theater. Texts will include several of the following: "Blues for an Alabama Sky," a Civil War retelling of the Oedipus story; "Twilight, Los Angeles, 1992," Anna Deveare's performance piece based on the Rodney King riots; "The Story," Tracy Scott's play about the pressures on a young black journalist to climb the media ladder; "Spinning Into Butter," Rebecca Gilman's provocative play about racial harassment on a college campus; Lorraine Hansberry's classic "A Raisin in the Sun;" Thomas Gibbons' "Personal Collection," which deals with the issue of appropriation of cultural heritage; and one of the ten plays from August Wilson's epic cycle. The class will also view a play on these themes at a Chicago theater. Competences: A-1-A, A-1-D, A-5, H-4, F-X (for Law & Literature focus area students only) Faculty: Fred Wellisch

AI 314
ART: INSIGHTS FROM THE INSIDE
Undergraduate
Understanding art and artists is the result of gaining insight into the artist and his/her relationship to the society in which he/she lives, as well as the process of artistic creation itself. The production of contemporary Western art is the result of over three thousand years of evolution within a framework which can be traced to the ancient Greeks. This course will trace that evolution and engage the student in opportunities to experiment with various media to provide insights into artist's work. With the help of a series of videotapes, students will be taken on a "journey" from the earliest Greek monuments to the art of the present day to explore artistic styles, forms, and subjects as they have changed through the ages. Students will do hands-on creating with pen and ink, water colors, and clay as a means of experiencing the role of media and the decisions which artists have to face in the course of their work.

AI 315
CREATIVITY AND IMAGINATION
Undergraduate
Is there a specific mental procedure that gives rise to the making of new inventions, new scientific and mathematical discoveries, new philosophical systems, and new works of art? If so, it remains as mysterious today as a thousand years ago. In this course we will compare and critically evaluate a range of theories about human invention and creativity, both classic and modern - from ancient conceptions of divine inspiration and "creative madness" to recent hypotheses in the fields of evolutionary psychology, cognitive science, and artificial intelligence. We will test these theories by (a) applying them to our own past experience with creative endeavors and (b) by determining to what extent the theories can adequately explain the emergence of particular inventions, scientific or mathematical breakthroughs, or works of art. The course will introduce the thought of a range of important theorists on the creative process - from Plato to Freud - and also weigh the contributions and examples of prominent artists, scientists, and inventors, including Archimedes, Newton, Mozart, Milton, Poe, Van Gogh, Poincari, Edison, Einstein, and others. Competencies: A5, A3X, S3X, H3X. Faculty: David Simpson

AI 316
SPIRITUALITY AND HOMELESSNESS
Undergraduate
This course will examine the broad issue of homelessness by providing students the opportunity to reflect upon a service learning experience at a community-based organization that serves the homeless population in Chicago. Students will explore what can be learned about themselves as reflective practitioners, service learners, and spiritual human beings when reflecting upon this experiential learning process. Through the class discussions, assigned readings, invited speakers, and journal assignments, students will reflect on their own beliefs and perceptions of homelessness and analyze the history, causes, and policy associated with this societal problem. Competencies: L-10, L-11, Faculty: Karl Nass

LL 302 is a prerequisite for this class.
AI 317
EONS AND ARTS I: MANIFESTATIONS OF CULTURE
Undergraduate
This course will connect specific historical eras in Western culture with representative art forms so students can gain cultural insights. Particular attention will be paid to artifacts in the Chicago area. Students will analyze the relationship between popular art and movements in history through lecture, readings and discussions. We will also address contemporary cultural issues, including how later peoples will judge our values based on our arts. Pre-‘99 Competencies: AL-1, AL-E, AL-I. BA’99 Competencies: A-1-A, A-1-B, A-1-H. Faculty: Jo Ann Gesiakowska

AI 318
GRASSROOTS THEOLOGY
Undergraduate
This course offers students the tools needed for a critical reflection of their own assumptive world view of various churches and to probe methods of change which can be applied to these churches enabling them to better serve their people. We will not compare religions; the focus is on the theology behind religions. Once students examine their assumptive worldview, through theological reflection, they will compare values with other class members as well as those of various churches. Each student will choose a given church and engage in critical reflection to examine potential changes needed within that institution. Students will learn about theological reflection, explore skills needed to make changes within a community or church and engage in small group work. Students will also assess and critique themselves and each other. Pre-‘99 Competencies: AL-5, AL-D, HC-5. Faculty: Barbara Donnelley

AI 319
UNDERSTANDING SOCIAL RELATIONSHIPS FROM AN AFRICAN-CENTERED PERSPECTIVE
Undergraduate
This course will utilize an African-centered framework to examine the nature of social interactions within the African-American community, with a focus on female-male relationships, parenting, and the place of elders in the family. Students will examine the role of culture and racism in the historical development of these social relationships while identifying possible solutions to alleviate tensions experienced within the examined relationships. Guest lecturers, readings, discussions and written assignments, a learning journal, and individual paper or project will comprise the learning experience. Loop. Sat. Prerequisite: Psychology from an African-Centered Perspective, a course in African or African-American culture, or permission of instructor. Please call 312-362-8199. BA-1999 Competencies: H1B, H3I, A3A, A3E, A3F. Pre-1999 Competencies: ALN, ALQ, AL5, HCC, HCW. Faculty: Derise Tolliver

AI 320
NONFICTION WRITING: THE MEMOIR
Undergraduate
Your own memories and experiences can be the basis of the nonfiction memoir, but to be effective such writing must do more than just recite facts or label feelings. How do you create a vivid, exciting piece of writing from the events of your life? This class explores the nonfiction memoir, with special emphasis on the spiritual autobiography. Students will read selections from contemporary memoirs as well as a full-length book of their choosing; the final project is a short personal memoir. Pre-1999 Competence: AL-2. BA-1999 Competence: A-2-A.

AI 321
AMERICAN WRITERS AND TECHNOLOGY
Undergraduate
This course will examine American attitudes toward nature, industrialization, technology, our character as a people, and our national destiny, especially as reflected in recent films, science fiction, and classic literature like Walden and Leaves of Grass. In addition to the views of popular fiction writers (e.g. Twain and Vonnegut), students will also sample the responses of American poets and painters to a remarkable series of cultural innovations and technical breakthroughs - from the first railroad and telecommunications networks to the development of computers and nuclear arms. Pre-1999 Competencies: AL-H, AL-3, AL-4, PW-B. BA-1999 Competencies: A-1-E, A-1-C, S-3-A, A-3-D. Faculty: David Simpson

AI 322
PROBLEMS AND ISSUES IN CONTEMPORARY ETHICS
Undergraduate
An introduction to moral philosophy with emphasis on the conflict between "moral relativism" (or "subjective" ethics) on the one hand and "moral realism" (or "objective" ethics) on the other. During the course you will be introduced to classic theories and leading figures in the history of ethics, from Plato and Aristotle to Kant and Nietzsche. Course content will focus on issues (e.g., poverty, drug use, capital punishment, sexual behavior, euthanasia, biomedical research, animal rights, political violence) at the center of contemporary ethical debate in the United States and throughout the world. Competencies: A4, A-3-C, A-3-E, F-X. Faculty: Staff
ART AND PERSONAL TRANSFORMATION
Undergraduate
Adults often go through periods of profound transition. Many of us search for answers, models, or mentors to help us make sense of the changes. This course deals with ways in which art can be a means of personal transformation, a vehicle for helping us understand the deeper dimensions of our life journeys. Through exposure to artistic representations of significant turning points in human experience, and by studying perspectives on change drawn from various disciplines, we will explore ways in which art both mirrors and facilitates the process of transformation. Students will approach selected works of art (literature, music and visual art) to explore ways artists have represented themes of transformation. In addition to developing competence in art analysis, we will investigate whether our own personal values are reflected in the works studied, and what role art plays in our lives. Students will keep learning journals recording their impressions and reflections about class readings, discussion and multi-media presentations. Pre-1999 Competencies: AL-1, AL-3, AL-C, AL-D. BA-1999 Competencies: A-1-A, A-1-C, A-1-D, A-3-B. Faculty: Susan McGury

CREATORS AND CREATIVITY
Undergraduate
Creative energy, application and results are prized and sought in our culture, yet are rarely understood clearly or analyzed systematically. In this course, students will explore various creativity concepts and models, including early instructional and educational, bio-psychological and socio / community-based theories. We will analyze creativity conditions in the expressive domains of art, architecture, music, literature, science, and invention. We will profile identifiable creators such as Picasso, Frank Lloyd Wright, Mozart, Virginia Woolf and Einstein, along with contemporary geniuses such as novelist Toni Morrison, activist Barry Commoner, sculptor Nina Holton, playwright Arthur Miller, and astrophysicist Subrahmanyan Chandrasekhar, and review their creativity over successive life stages. As a result, students will gain creative insight and develop strategies to incorporate creativity in their academic, occupational, and personal lives. Competence: A-3-A, A-5. Faculty: Timothy W. Hill

"MAKE `EM LAUGH!": HOLLYWOOD FILM COMEDY
Undergraduate
This class delves deeply into the history of Hollywood comedy as well as theories of comedy, and is divided into two parts. Part one explores theories of comedy, both formal/aesthetic (the elements of artistic form) and socio-cultural (philosophical and psycho-social theories of comedy). The second part of the course explores historical developments in Hollywood comedy in terms of the development of artistic form (performance, verbal and visual gags, narrative structure, visual style), the film industry, and questions of socio-historical impact. Students can also opt to learn how to write a comedic screenplay. Films and artists to be discussed include the Marx Brothers, Mae West, Mel Brooks, Blazing Saddles, The Royal Tenenbaums, The Seven Year Itch, Charlie Chaplin, Buster Keaton, The Philadelphia Story, Hairspray, and There's Something About Mary. Competences: A1I, A3G, H2G, A2A. Faculty: Ken Feil

LIVING FROM THE INSIDE OUT
Undergraduate
Ben LeShahn says, “Everyone of us, even if we have nothing else . . . has this one thing: a wholly separate and individual self with individual dreams and passions, its unique landscape, unmapped and unexplored . . . peopled with shapes and forms unknown to others. And that private unknown self, where it has been realized well, has been of increasing value and wonder to others.” This class helps students design practices to create space in their busy lives through leisure, spirituality, and creativity. It helps the adult growth and development that occurs as people change throughout adulthood. This class makes time to think in order to experience how our outer and inner worlds interact to help us make meaning for our lives. Students will use a combination of reading, practices, small group work, guided imagery, journaling, and reflection papers to articulate and demonstrate understanding of the competences. Competences: A3B, A3D, A5, H3C. Faculty: Mary Jane Dix & Veronica Buckley

MYTHS, SIGNS AND SYMBOLS
Undergraduate
Students will be encouraged to understand their own relationship to myths, signs and symbols and to see how these have shaped their lives in the past and how they can be sources of empowerment for the future. Topics will include: archetypes and private symbols; language as symbolic action; myths of creation and fall; the hero's quest; myths of death and resurrection; myths and the process of individuation, that is, the integration of the self. Students will have assigned readings, keep a journal, and create a final project. Pre-1999 Competencies: AL-1, AL-2, AL-5. BA-1999 Competencies: A-1-A, A-1-D, A-2-A. Faculty: Elizabeth-Anne Stewart
AI 328
THE PERSONAL JOURNAL
Undergraduate
This course will provide participants the opportunity to experience and explore journal writing as a creative activity that contributes to the quality of one's life. While the primary model of expression for most journals is writing, participants will be encouraged to experiment with sketches and other media. Participants will choose topics and readings consistent with their registered competencies. Key approaches to understanding adult growth and development will provide a framework for much of the writing done in the course. Participant journals will be laboratories for examining the creative process, the contribution of leisure to quality of life, and various theories of adult development. Through keeping a personal journal intensively through the course, participants will gain insights into their own creative processes and their understanding of leisure as they compose their individual lives. Pre-1999 Competencies: AL-2, AL-4, AL-D. BA-1999 Competencies: H-3-C, A-2-A, A-3-D. Faculty: Phyllis A. Walden

AI 331
LEARNING TO LOOK THROUGH DRAWING AND DISCUSSION
Undergraduate
The purpose of the class is to connect the making of art with the study of art history, so that an understanding of the elements, concepts and vocabulary of art connect directly to the student's experience as he or she learns to draw. Students will learn basic skills of drawing and become familiar with a range of drawing media. They will gain an experiential understanding of the elements of line, form, value, color, and composition. Students will also examine drawings and paintings of artists working in France between 1800 and 1930, covering the art movements of Romanticism, Realism, Impressionism, Post-Impressionism, and Fauvism. Each student will choose two artists to research, and will write a paper comparing biographical and historical issues of those artists' work. Pre-'99 Competencies: AL-1, AL-2, AL-3, AL-C. BA'99 Competencies: A-1-A, A-2-A, A-1-C, A-1-D. Faculty: Patricia Pelletier

AI 333
ARTISTIC ISSUES IN INSTANT IMAGE PHOTOGRAPHY
Undergraduate
The aesthetic, cultural, intellectual, historical, and technical issues that animate contemporary photography will be explored through the use of Polaroid pictures created by class members using their own Polaroid cameras. Photographic ideas will be presented, discussed, and addressed in classroom critiques of the images created. Personal artistic visions will be explored, encouraged and revealed. Students will learn a language for discussing these pictures and develop the necessary personal and intellectual distance from their own artistic creations in order to critically analyze them. Competencies: A-1-C, A-1-H, A-2-A, A-5. Faculty: Alan B. Cohen.

AI 334
WORLD ART AND CULTURE: A MUSEUM BASED EXPLORATION
Undergraduate
Most people who visit the art museum gravitate to those galleries where the art is familiar and in some ways comfortable, like the Impressionists or the Renaissance. Yet, the art museum can be a repository for so much more, if only we knew where to look and what to look for. This course is designed to introduce students to the art and cultures of societies outside of western civilization using the resources of such institutions as The Art Institute of Chicago, the Field Museum, the Mexican Fine Arts Center Museum and others. Students will be introduced to objects from China, Japan, Africa, India and the Middle East, as well as Native America. In a world which continues to grow increasingly smaller because of technology, one of the best ways to understand it people is to study their art and their culture. Student will demonstrate competence through reading and writing assignments and are required to attend field trips. BA-1999 Competencies: A1B, A1C, A1G, A5. Pre-1999 Competencies: AL1, AL3, ALK, ALF. Faculty: Phyllis Kozlowski

AI 335
MIDSUMMER RITUALS: SCIENCE AND MYTH
Undergraduate
Using the language of cultural anthropology, this course explores the diverse myths, rituals and festivals of the ancient world that begin with the tilling of soil in early spring and end with the great harvest in late fall. Of particular interest will be the lingering manifestations of these old rites as they have endured into contemporary life and the meaning they still hold in the modern psyche. We will be looking very closely at the long history of metaphoric, personified depictions of the life-force of planet Earth, including its most recent incarnation from scientist James Lovelock in the guise of ?the Gaia Hypothesis.? The class will address itself to the following questions:1. In what ways does the natural world influence the narrative structure of meaning? 2. How does the scientific description of reality shift mythic metaphor? 3. How does scientific ?meaning? differ from religious ?meaning?? 4. What is the function of these seasonal celebrations the psychic maintenance and renewal of society? 5. What is the pedagogical and psychological function of these types of celebrations to the individual within society? 6. How has science impacted the ability of the community to sustain its mythic, religious and ethnic holiday traditions? Competences: A3X, H2X. Faculty: Rebecca Armstrong. Can only be taken for one competence.
AI 336
CONTEMPORARY MUSIC AND ART IN AMERICA
Undergraduate
The artist stands between the world in which she/he lives and the product of his/her work - while using a particular medium to grasp and communicate an image and vision of that world. This course will survey and compare seminal ideas and trends that have taken place in music and the visual arts during the past forty years. Emphasis will be on how these two art forms responded to the same set of social circumstances and how artists in different media realized both parallel and divergent concerns. Some of the artists that will be compared and John Cage and Robert Rauschenberg, Earle Brown and Alexander Calder, and Philip Glass and Donald Judd. Wherever possible illustrations will be drawn from film, literature, dance, and to other arts. Students will develop the tools and confidence to compare works in different media in order to gain insights into how artists, through similar formal concerns, arrive at results which are appropriate to their media. The course will try to develop the student's awareness of artist's social concerns primarily through their own perceptions and inferences and, secondarily, through reading artists' statements and writings.

AI 337
FROM REVERENCE TO RAPE: THE DEPICTION OF WOMEN IN AMERICAN FILM
Undergraduate
This film course will examine the portrayal of women in Hollywood films from early silent films to the present and will attempt to understand those roles against the norms of society at the time. It will begin with the virgins, vamps, and flappers of the silent era as played by Lilian Gish, Mary Pickford, Theda Bara, Gloria Swanson, Greta Garbo; transition to the strong roles of the 1930s and 1940s as played by Mae West, Bette Davis, Katherine Hepburn, Joan Crawford, and Barbara Stanwyck; continue with the 1950s and 60s contrast between sex kittens and external virgins; show the breakdown of the Production Code in the 1960s and 70s; and watch the resurgence of strong women in the 80s as exemplified by Sally Field, Jessica Lange, Jane Fonda, Meryl Streep. Close attention will be played to the conflict between box office and censorship and the struggle for women - actresses, writers, directors, and producers to gain control of the screen.

AI 338
RACE, RACE RELATIONS, RACISM: BREAKING BARRIERS AND BUILDING BRIDGES
Undergraduate
How do we as an ethnically and racially diverse country go about the business of understanding and healing the wounds of racism and building bridges that will allow the gift of diversity to flourish in the United States? Further, what are the connections among U.S. racism and other forms of racism such as ethnic cleansing and "pacification programs" aimed at indigenous people around the world? In this course, we will explore the historical, economic and political roots of racism globally and nationally. In addition, we will look at the changes brought about by the civil rights movement, and ongoing work in the nation and in Chicago aimed at bridging the gaps caused by racism. Through discussion, readings, films, debate, guest panels, and field excursions, students will study a variety of topics. Because the course will focus not only on analysis, but on building bridges, the instructors hope to enroll an ethnically and racially diverse class membership. Pre-99 Competencies: AL-9 & AL-10, HC-9 & HC-10, WW9 & WW10. BA’99 Competencies: E-1, E-2 Faculty: Anghesom Atsbaha; Ann Folwell Stanford

AI 339
A HISTORY OF PHOTOGRAPHY
Undergraduate
This course uses photography since its invention in 1839 to give form to the social and historical ideas that have shaped our time. By discussing large picture-making areas like portraiture, images of war, the natural or constructed landscapes, scientific documentation and personal expression, the class will examine those ideas and technologies that have shaped photography and, conversely, events shaped by their depiction as photographs. Students will study and actually enjoy the history of the medium via slide and textbook. The class, as a group, will visit gallery and/or museum exhibitions to enhance classroom work. The photographs will be linked to the social, political and intellectual currents of the time and place that surround the art to give that work added meaning and enhanced viewer understanding. Through the art seen in this course and the historical facts gained from the lecture and text, the student will refine and advance their understandings and interpretations of past and recent global history. No prior formal or academic knowledge of 19th or 20th century history, the history of photography or painting is necessary nor is a working knowledge of any art-making discipline assumed. Competencies: A-1-C, H-1-F, S-3-A. Faculty: Alan B. Cohen

AI 340
FROM SOUNDS TO SCIENCE: CLASSICAL MUSIC THROUGH THE AGES
Undergraduate
The history of music is a history of changing values and patterns. What values societies foster are directly correlated to perceivable uses of melody, rhythm, and timbre. This course will survey and compare major periods of Euro-American music, beginning with Gregorian Chant ad ending with John Cage. Historical documents and readings in aesthetics will supplement musical examples presented in class. This course will incorporate frequent listening to the radio program, "Adventures in Good Music," with Karl Haas, broadcast on WFMT. Students will be presented with a listener's guide to major works of the most prominent composers, as well as a bibliography for further reading. Students will also be informed of relevant concerts in the Chicago area. Through listening, background reading, and discussion, students will learn to "read" music. Pattern perception is a skill in its own right. Statement, variation, and contrast are means of structuring the physical, verbal, and temporal world around us. Students will develop pattern perception in music in order to translate this skill into life's other media.
AI 341
ETHICS AND ARGUMENTS
Undergraduate
This course introduces the main traditions in ethical thinking and provides students with moral reasoning skills to take and defend ethical positions on concrete issues. Students will examine various traditional bases for morality, among them virtue, duty, rights, contract, utility, and religion. They will learn to distinguish ethical from other values, and be able to justify the distinction. But in a world of action, merely knowing what is ethical is not enough. Students will select current ethical issues of personal interest, developing theory-based strategies for addressing those issues in a morally responsible way. If this course is offered as a five week section, it will be for only AL-5. Pre-1999 Competencies: AL-5, HC-4, WW. Faculty: Patrick J. Keleher, Jr.

AI 342
LEARNING ART HISTORY THROUGH THE ART INSTITUTE OF CHICAGO
Undergraduate
This course will examine great paintings in the museum from the Middle Ages up to contemporary works. Students will deepen their knowledge of art history and how to study a painting, develop an overall knowledge of major periods and trends, as well as gain insights into the lives of the artists. Students will also gain a knowledge of the museum itself as a starting off point for further studies. Class will meet at the Art Institute, Michigan and Adams, at the front information desk. Competencies: A1X, A3D, H2B. Faculty: Joseph Cunniff

AI 343
DISCOVERING THE CITY THROUGH DRAWING
Undergraduate
This course is designed for those wishing to learn basic drawing techniques while using the city as a resource. Students with little or no drawing ability are encouraged to take the course, which will build on observation and simple exercises to develop the skills necessary to capture all aspects of the urban landscape from nature to the built environment. A variety of drawing materials will be used including pencil, pen and ink, wash and conte crayon. Weather permitting, the class will meet on location in places such as Grant Park, the Monroe Street Harbor, the Chicago River, and the Magnificent Mile. Comfortable clothing is encouraged. A list of supplies will be provided on the first night of class. Competencies: A1B, A1X, A2A, A5

AI 344
VISUAL COMMUNICATION: DESIGN FOR SUCCESS
Undergraduate
This course engages students in the process of creative thinking, visual logic, and graphic communication. Whether students are interested in powerful and persuasive presentation, making a personally pleasing aesthetic decision, or setting a mood, the ability to direct and control visual cues is very important. Classes will be organized around a series of problems dealing with essential design concepts. Students will learn about and execute projects involving composition; line; space; color and mood; and deciphering the advertising world. Students will be required to purchase art supplies for this class. BA-1999 Competencies: A2A, A2C. Pre-1999 Competencies: AL2, ALB. Faculty: Margaret Lanterman

AI 345
EONS AND ARTS III
Undergraduate
This course will connect specific historical eras in Western culture with representative art forms so students can gain cultural insights. Particular attention will be paid to artifacts in the Chicago area. Students will analyze the relationship between popular art and movements in history through lecture, readings and discussion. We will also address contemporary cultural issues, including how later peoples will judge our values based on our arts. Pre-'99 Competencies: AL-1, AL-E, AL-I. BA'99 Competencies: A-1-A, A-1-B, A-1-H. Faculty: Jo Ann Gesiakowska

AMS 150
PERSPECTIVES ON AMERICA
Undergraduate
This course explores a variety of perspectives on what it means to be an American in the modern world, looking through polarities such as: urban and suburban life, localism and globalism, high culture and mass culture, corporate society and populism. Considerations of various media such as television, movies, and newspapers, as well as study of artifacts.
AMS 200
INTRODUCTION TO AMERICAN SOCIAL HISTORY AND CULTURE
Undergraduate
This course will provide an overview of American History designed to provide a one-quarter overview of American history and culture. It will provide an overview of the central themes of American History from the colonial period to the present with a focus on social, popular, and cultural history.

AMS 211
AMERICAN EXPERIENCE I: EARLY AMERICA TO 1860
Undergraduate
The first of the three-course sequence that forms the American Studies core. Like all the courses in the sequence, it focuses on how to do American Studies by using a variety of materials and projects that center on a particular historical period (in this case, early America before the Civil War). The course utilizes multiple methodologies, primary sources, a range of texts, and material and visual culture to examine the competing themes and diverse voices that form American experience during the era. Formerly AMS 201.

AMS 200 or HST 180 or HST 181 or HST 182 is a prerequisite for this class.

AMS 213
AMERICAN EXPERIENCE II: FROM 1860 TO 1941
Undergraduate
The second of the three-course sequence that forms the American Studies core. Like all the courses in the sequence, it focuses on how to do American Studies by using a variety of materials and projects that center on a particular historical period (in this case, from the Civil War to just before World War II). The course utilizes multiple methodologies, primary sources, a range of texts, and material and visual culture to examine the competing themes and diverse voices that form American experience during the era.

AMS 200 or HST 181 or HST 182 or HST 183 is a prerequisite for this class.

AMS 215
AMERICAN EXPERIENCE III: FROM 1941 TO PRESENT
Undergraduate
The third of the three-course sequence that forms the American Studies core. Like all the courses in the sequence, it focuses on how to do American Studies by using a variety of materials and projects that center on a particular historical period (in this case, World War II to the Present). The course utilizes multiple methodologies, primary sources, a range of texts, and material and visual culture to examine the competing themes and diverse voices that form American experience during the era. Formerly AMS 202.

AMS 200 or HST 181 or HST 182 or HST 183 is a prerequisite for this class.

AMS 220
AMERICAN BUDDHISMS: RACE AND RELIGIOUS DIVERSITY
Undergraduate
This course critically analyzes the origins Buddhism in the United States in order to fully understand how and why Buddhism has flourished in Asian and White American communities, and to understand the conflict and controversy surrounding the racial dynamics of religious choice.

AMS 230
ASIAN AMERICAN HISTORIES (CROSS-LISTED WITH AAS 200)
Undergraduate
This course introduces the pre-1965 comparative histories of people of Chinese, Japanese, Korean, Indian, Filipino, and Southeast Asian ancestry from their arrival in significant numbers in the United States beginning in the 19th century. Two questions orient this course: 1) whether there is an historical validity to the category of Asian American, and if so, the extent to which the category is relevant today in light of differences across gender, sexuality, class, ethnicity, and religion, among others; and 2) how the Asian Pacific American experience challenges and redefines American race relations to provide a more complex understanding of existing structures of power. Cross-listed with AAS 200.

AMS 250
IN THEIR OWN VOICES: AMERICAN AUTOBIOGRAPHY
Undergraduate
This course presents a range of American autobiographies, from different places and from times ranging from Colonial to modern. The selected authors represent varying backgrounds and races.
**AMS 261**  
**AMERICAN ETHNICITIES 1800-1945**  
Undergraduate  
This course will be an exploration of the development of American ethnic communities and identities in the 19th and early 20th centuries. Students will examine the American experience through the lens of ethnic groups and racialized ethnic populations and consider how ethnicity has shaped and influenced American history. We will study the experiences of American ethnic groups based on historical, social, and political factors such as immigration and citizenship, slavery and racialization, gender and patriarchy, religion and family, and the relationships between and among ethnic groups.

**AMS 265**  
**PACIFIC WORLD: NORTH AMERICA AND THE PACIFIC, 1776 - 1945**  
Undergraduate  
This course will examine the nature of American identity in the west. Hawai‘i and California represent the extreme edge of the American frontier. The focus will be on the shifting meanings of “native” and “stranger.” How did the status of indigenous peoples foster a sense of identity and place for migrants? How did immigrants understand their role in the political economy? How did racial discourses on the frontier shape the shifting definitions of citizenship? How did race effect America’s ambivalent approach to imperialism?

**AMS 275**  
**HISTORY OF SEX IN AMERICA 1: COLONIAL TO LATE NINETEENTH CENTURY**  
Undergraduate  
This course will provide an overview of the history of American sexuality from the colonial period to the late 19th century.

**AMS 276**  
**HISTORY OF SEX IN AMERICA 2: LATE VICTORIANS TO THE PRESENT**  
Undergraduate  
This course will provide an overview of the history of American sexuality from the late nineteenth century to the present.

**AMS 280**  
**POLITICS AND HISTORY OF THE VIETNAM WAR**  
Undergraduate  
This course examines both the history of American involvement in Vietnam and the lasting effect on American politics and culture.

**AMS 290**  
**AMERICAN VOICES I: TO 1860**  
Undergraduate  
Part one of a two course sequence, this course provides an integrated, multidisciplinary view of American culture and ideas, addressing the questions: “What is America? What does it mean to be an American?” The courses are focused on primary sources, mostly first person narratives and fiction, developing methods for analyzing and interpreting these sources. Students write a series of papers on the narratives; students taking the two course sequence substitute a research paper for some of the narratives papers in the second course, American Voices II.

**AMS 291**  
**AMERICAN VOICES II: FROM 1860**  
Undergraduate  
Part two of a two course sequence, this course continues the approach and method of American Voices I.

WRD 104 or HON 100 or HON 101 is a prerequisite for this class.

**AMS 295**  
**SPECIAL TOPICS IN AMERICAN STUDIES**  
Undergraduate  
Special Topics in American Studies. Consult schedule for topic.
AMS 300
DOMESTIC STUDIES
Undergraduate
Travel/study courses to various regions of the U.S., combining pre- and post-trip classroom sessions with 7-14 day excursions. Travel portion includes hands on and/or behind the scenes experiences and consideration of how Americans use and understand their national history.

AMS 301
SENIOR SEMINAR
Undergraduate
The Senior Seminar is an integrative, course conducted primarily as a colloquium. Emphasis will be placed on discussion and independent research and writing.

AMS 211, AMS 213 and AMS 215 are a prerequisite for this class.

AMS 340
AMERICAN POPULAR CULTURE
Undergraduate
This course will focus on the industrial developments, cultural significance and social effects of American Popular Culture institutions and products at the dawn of the 20th century, including the rise of corporate nationalism in live performances such as vaudeville and radio, as well as the development of mass media industries including sheet music, advertising, records, and film. Discussions will include attention to industrial practices, textual properties, and audience reception of these cultural products.

AMS 360
AMERICAN FILM
Undergraduate
Analyzes cultural and cinematic histories and film as a social practice circulating cultural values as well as critiquing ideologies. Students will gain understanding of major critical and theoretical approaches and engage in research, critical thinking, and writing on topic areas. Variable specific topics. e.g. assimilation narratives, war in film, sports in film, Asian American film.

AMS 370
THE MATERIAL CULTURE OF MODERN AMERICA
Undergraduate
AMS 370 combines historical archaeology and material culture studies to examine how material goods both shape and reflect American identity in the nineteenth and twentieth centuries

AMS 371
MATERIAL CULTURE OF EARLY AMERICA
Undergraduate
Combines historical archaeology and material culture studies to examine how material goods both shape and reflect American identity in the colonial period and early nineteenth century.

AMS 380
TELEVISION AND AMERICAN IDENTITY
Undergraduate
This course is about how television represents Americans and how Americans have responded to these representations. The course engages in close textual analysis of several television texts, to familiarize students with television industry narrative structures and strategies, examines several specific representational struggles, and surveys and discusses the many ways in which television viewers and fans engage with the text.

AMS 392
INTERNSHIP
Undergraduate
Internship. Majors and minors only. Variable credit.

An American Studies major or minor is a prerequisite for this class.
AMS 395
TOPICS IN AMERICAN STUDIES
Undergraduate
Topics in American Studies.

AMS 396
AMERICAN STUDIES COLLOQUIUM
Undergraduate
These courses are conferences or series on selected topics. Class participants attend and participate in events, keep a reflective journal connecting the events, do related readings, and a reflective summary on the colloquium as a whole. Variable credit.

AMS 398
STUDY TOUR
Undergraduate
An on-site overview of the historical, political, social and economic connections between the United States and a foreign country. Credit variable.

AMS 399
INDEPENDENT STUDY
Undergraduate
Independent Study. Majors only. Variable credit.

An American Studies Major is a prerequisite for this class.

ANI 101
ANIMATION FOR NON-MAJORS
Undergraduate
Course introduces a variety of basic animation techniques for cinema and gaming, such as hand-drawn, cutout, stop-motion and (very basic) 3D, with an emphasis on the use of computer technology. Examples of diverse animation genres and styles (experimental, cartoon, anime, special effects, computer games) from different cultures will be screened and discussed. Students will explore the unique qualities of the medium through a series of hands-on projects that can be adapted to their own personal interests. They will learn about professional animation process (storyboard and animatic) during the production of a final project that encourages them to consider the role and potential of animation in our society.

ANI 105
INTRO TO VISUAL DESIGN
Undergraduate
This course introduces the basic concepts of design for time-based digital media. Students study the principles of composition and color theory, and how these are affected by movement, duration and display. Vector and bitmap manipulation tools are explored in relation to game design, video and Internet production. PREREQUISITE(S): NONE.

ANI 150
AFTER EFFECTS WORKSHOP
Undergraduate
This class will introduce students to the fundamentals of After Effects, including key-framing, compositing and rendering. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. PREREQUISITE(S): None.

ANI 151
FLASH ANIMATION WORKSHOP
Undergraduate
This class will introduce students to the fundamentals of creating animation using Flash, including tweening and frame-by-frame drawn animation. This class does not cover Action Script programming. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. PREREQUISITE(S): None.
ANI 201
ANIMATION I
Undergraduate
This course is an introduction to the art and practice of animation. It is a studio-based class, which will emphasize learning through process, experimentation and creation. Students will explore the limitless possibilities of animated motion in the context of cinema, computer games and the Internet. All genres and styles are within the scope of this class, including Anime, cartoons, computer game art, experimental art and special effects. In addition to how?, we will also explore and discuss why?, and the role and potential of animation in our society, and its place in other cultures as well. This course is designed for the student who wishes to pursue further study in the field, and provides intensive practice of the basic skills and methods through production. PREREQUISITE(S): ANI 105 or GPH 211 or ART 105 or GD 105

ANI 206
HISTORY OF ANIMATION
Undergraduate
This course is an introduction to the history and development of the field of animation. We will explore this subject from various perspectives: by chronology, from its prehistory before the invention of film to the present day; by form, including method and medium; by culture, comparing the US to Japan, Russia, Europe and others; by subject; and by personality, concentrating on the figures who have shaped the art form and continue to influence it through their example. Students are expected to bring an enthusiastic interest in the medium, and to devote serious effort to reading about, viewing, researching and discussing animation and the artists who have created it.

ANI 207
ANIME HISTORY
Undergraduate
This course is an introduction to the history, development and cultural significance of Japanese animation. We will explore how historical and cultural concepts of Japan have translated to the screen, as well as the influence of economic forces and changing technology. Students will gain an insight into anime's origins and cultural influences through an examination of the World War II, post-war, mid- and late-twentieth-century historical periods of Japan. This class will analyze particular examples of anime and anime artists in their historical context, emphasizing the use of primary sources.

ANI 220
STORYBOARDING AND NARRATIVE DEVELOPMENT
Undergraduate
This class will focus primarily on storyboarding and the aesthetic and practical uses of research, treatments, drawings, and found images as tools in the production of animations, films and game cinematics. Students will complete a series of assignments that will utilize different methods of finding inspiration to make a cohesive, narrative work. Various methods used in both commercial and independent productions will be presented as examples, and pre-production work from both live action and animated films will be viewed throughout the quarter. Students will create several storyboards for short films, write treatments, and research design options. PREREQUISITE(S): ANI 101, ANI 201 or DC 110

ANI 222
ILLUSTRATION FOUNDATIONS
Undergraduate
This course will focus on improving the basic skills needed for creating concept art and storyboards for animation and games. Areas of focus include practical perspective, technical rendering, observational drawing and color theory. These skills will be applied in basic prototyping projects. PREREQUISITE(S): GD 105 or ANI 105

ANI 225
GRAPHIC NARRATIVE
Undergraduate
This course introduces students to the components of graphic narrative, including superhero and alternative comics, comic strips, manga, and graphic novels. Students will learn fundamental materials and techniques, including penciling and inking, digital painting and coloring, and publishing, and create their own graphic narratives. The course will also provide an overview of the history of comics and graphic storytelling, and their relation and importance to the art of animation. PREREQUISITE(S): ART 106
ANI 230
3D DESIGN & MODELING
Undergraduate
Students will use computer modeling to explore the principles of 3-dimensional design. Projects involving object, character and architectural modeling will emphasize the aesthetic concepts of spatial proportion (scale, angle and position), silhouette, negative space, rhythm, balance, light/shadow and texture. Students will emerge with the ability to create well designed 3D models, and be familiar with the basics of polygonal modeling, texturing, lighting and rendering for animation, computer games and cinema. This course has an additional fee. PREREQUISITE(S): None

ANI 231
3D ANIMATION
Undergraduate
This is an introductory course in 3D animation. It will emphasize traditional animation principles as applied to 3D animation. Topics will include: principles of animation, storyboarding, transformations and deformations of 3D objects, rigging, camera and light animation. This course has an additional fee. PREREQUISITE(S): ANI 230

ANI 240
ANIMATION PRODUCTION I
Undergraduate
This course will concentrate on facilitating the student's production of animation projects. The topics of idea generation, experimentation, problem solving, planning and time management, and the process of critical analysis will be applied to the student's work, with the choice of animation technique, content and form left to the individual. Students will learn the importance of bringing projects to completion. PREREQUISITE(S): ANI101 or ANI201 AND sophomore standing

ANI 260
MOTION GRAPHICS
Undergraduate
This course will introduce the student to effective communication using motion graphics, including its application in the areas of film titles, broadcast and commercial design, interactive media, and gaming. The combination of music, visuals and typography will be explored following the basic theories of kinetic composition and aesthetics. Students will study the history of the field, including the work of pioneers such as Norman McLaren, Saul Bass and Len Lye. PREREQUISITE(S): Sophomore Standing and one of the following: ANI 105, ANI 101, GD 105, ART 105, GPH 211, DC 205

ANI 300
3D CHARACTER ANIMATION
Undergraduate
This course applies traditional animation principles to creating stylized 3d characters. Topics will include: anatomy, character modeling, skeletons, skinning, kinematics, rigging, walk cycles, facial animation, and muscle deformations. PREREQUISITE(S): ANI 231 or GPH 338
This course has an additional fee.

ANI 301
ADVANCED 3D CHARACTER ANIMATION
Undergraduate
This course introduces advanced concepts in 3D character animation that are necessary for achieving professional quality results. Students will hone their skills through the study of advanced techniques for animating multiple characters, creating continuity, and building character through performance. An emphasis will be placed on the exploration of movement for developing personal style. This course has an additional fee. PREREQUISITE(S): ANI 300

ANI 310
MOTION CAPTURE
Undergraduate
This course is a workshop focusing on realistic character motion obtained through motion capture. Students will learn the motion capture pipeline, including character skinning and mapping, planning and directing motion capture sessions, applying motion to a character and motion editing. This course has an additional fee. PREREQUISITE(S): ANI 231 or GPH 338
ANI 315
AUDIO FOR ANIMATION
Undergraduate
This class will explore concepts and practical techniques students need in order to address many of the unique challenges associated with creating audio for animated films. Students will begin with an introduction to audio production before moving on to build practical skills for both field and studio recording. Lectures, readings, and hands on projects will give students a working knowledge of how to approach and create the immense range of styles of audio for animated films, from classic cartoon soundtracks to the live action style mixes of many of today's animated Hollywood blockbusters. Students will complete several audio projects including a multi-track mix for an animated short. PREREQUISITE(S): ANI 240

ANI 320
HAND-DRAWN ANIMATION
Undergraduate
This course is devoted to the complex aspects and techniques of classical drawn animation required to create convincing movement, frame to frame consistency, and character acting. Beginning with a review of the fundamentals and progressing to more complicated techniques, students will learn how to create unique and technically accomplished drawn animation as well as methods for its eventual clean-up, inking and coloring. Contemporary uses of digital technology to enhance production will be emphasized. PREREQUISITE(S): ANI 201 (or ANI 101) and ART 106

ANI 321
ANIMATION MECHANICS
Undergraduate
Students in this course will rigorously investigate the foundational aspects of animation through traditional and digital methods. Basic principles, including timing, spacing and the abstraction of movement, will be analyzed and questioned through experimentation. Students will experience how the process of making work can be used to generate emergent ideas, and be challenged to push the art form beyond the accepted conventions. PREREQUISITE(S): ANI 240

ANI 322
ANIMATION STYLES & TECHNIQUES
Undergraduate
The history of animation is explored with a focus on inspiring the students' own work. Students will be involved in an intense study of animation throughout history and around the world, and are required to view a large amount of work outside of class. Animations will be grouped by time period, theme, and/or technique. Through writing and group discussions they will examine the significance of the technique and subject matter. They will put this study into practice by creating short animated films based on their reactions to the films. PREREQUISITE(S): ANI 240

ANI 325
VISUAL STORYTELLING
Undergraduate
This class focuses on storyboarding and animatics as key pre-production tools for animation, film, and game development projects. Areas of focus include narrative development, drawing, performance, and editing. Students will apply these techniques to create an animatic: a comprehensive time-based draft for a short film. PREREQUISITE(S): ANI 240

ANI 330
3D CHARACTER MODELING
Undergraduate
This course will instruct students in the process of 3D polygonal based character modeling. Students will learn professional techniques for building quad-based polygon meshes with an extra emphasis on proper topology to help prepare their model for rigging. Students will learn complete UV unwrapping for the entire figure as well as effective techniques for advanced texturing. This course has an additional fee. PREREQUISITE(S): ANI 230 or GPH 250

ANI 332
3D RIGGING
Undergraduate
Students will study the processes and techniques for creating professional quality character rigs. Following a professional production workflow, students will create character skeletons, learn aesthetic and technical considerations for skinning, learn techniques for optimal parameterization, and learn to construct character animation controls. PREREQUISITE(S): ANI 231
ANI 336
3D MODELING STUDIO
Undergraduate
Students in this course will broaden and improve their overall skill set by learning a range of modeling techniques. Students will complete several smaller projects that cover topics including speed modeling, efficient low-poly modeling, hard surface modeling, projection texturing, and advanced UV unwrapping techniques. The course will culminate in a final project in which the student will propose and complete an advanced model of their own design. PREREQUISITE(S): ANI 230 or GPH 250

ANI 337
ENVIRONMENT MODELING
Undergraduate
This course covers the planning, production and implementation of environment models for games. The term "environment model" includes landscape, exterior architecture, interior architecture, and both organic and man-made props. Topics include visual art direction, setting mood, developing narrative and cinematic lighting strategies. After creating assets in a modeling program, students will implement them in a game engine editor to learn about game engine requirements, limitations and pipeline. Prerequisite: ANI 230

ANI 339
3D TEXTURING AND LIGHTING
Undergraduate
Students will study the processes and techniques for texturing and lighting in 3D. Procedures including preparing models for texturing, creating and manipulating shading networks, laying out UV?s, and painting textures will be explored. Topics in lighting will be approached from the foundation of traditional cinematography with a focus on driving both mood and story. Students will utilize complimentary skills in lighting and texturing to create high quality renders for both still and moving images. PREREQUISITE(S): ANI 230 or GPH 250

ANI 340
ANIMATION PRODUCTION II
Undergraduate
Students will build on the skills learned in Animation II, and produce more ambitious projects. They will be expected to exhibit sophisticated technique, storytelling and content, and work to develop as creative artists through self-critique. The successful planning and completion of projects on time is essential. PREREQUISITE(S): ANI 220 and ANI 240 and junior standing

ANI 344
VISUAL DESIGN FOR GAMES
Undergraduate
The stages of development in the visual direction of a video game will be identified and detailed, and students will participate in the creation of the visual art direction of a product, giving special attention to the design of 3D models and animation. Visual Design for Games topics include: creating visual direction, concepting, art bibles, art production, and post-production strategies. Students will create proposals, create concepts, iteratively create artwork, and analyze competitive products. PREREQUISITE(S): ANI 105, GD 105, GPH 211 or ART 105 (or equivalent 2D design experience)

ANI 345
CHARACTER DESIGN
Undergraduate
Students will be introduced to various methods of creating interesting and original character designs for animated films and games, and then put these approaches into practical use. Methods of creative concepting will include drawing, collage, sculpture and 3D mock-ups. Fundamental visual design and color principles will be stressed, along with the basics of caricature. Students will utilize their character designs in an animated short. PREREQUISITE(S): ANI 230

ANI 350
ANIMATION PRODUCTION STUDIO
Undergraduate
This course uses the animation studio model to create a group project from start to finish. Students learn about the division of labor needed to produce larger projects as they experience working with others on a team. PREREQUISITE(S): ANI 240
ANI 351
ADVANCED MOTION CAPTURE STUDIO
Undergraduate
This course will enable students with motion capture experience to advance their technical skills and gain experience with practical application in the motion capture studio. Emphasis will be placed on advanced skinning and mapping techniques as well as complex motion capture sessions involving sets, props, and multiple actors. Students will be required to plan, arrange, and direct their own sessions in the motion capture studio. PREREQUISITE(S): ANI 310 or ANI 450

ANI 352
3D SCRIPTING
Undergraduate
This is an introductory course in scripting for a 3D production environment. Students will learn and apply basic programming concepts in order to improve the productivity of animators and modelers. Using script, we will automate repetitive tasks, customize the interface, and create new tools. Students will gain a fundamental understanding of how a 3D animation package functions behind the interface. PREREQUISITE(S): ANI 230 and ANI 231

ANI 355
STOP MOTION ANIMATION
Undergraduate
The principles of stop motion character animation in real space are the emphasis of this intermediate level course. Students are introduced to basic armature building, lighting and scene composition, and the designing and fabrication of characters with a variety of materials. Contemporary uses of digital technology to enhance stop motion production will be explored. PREREQUISITE(S): ANI 201 (or ANI 101)

ANI 356
EXPERIMENTAL ANIMATION
Undergraduate
This course introduces strategies for an experimental approach to animation. Students will study how experimentation relates to both concept and technique, and examine the work of classic experimental animators. This is a production class that requires students to produce a series of short animations in a variety of processes and styles. PREREQUISITE(S): ANI 201 or ANI 101

ANI 360
ADVANCED MOTION GRAPHICS
Undergraduate
This course builds on motion graphics fundamentals covered in ANI 260 Motion Graphics. In Advanced Motion Graphics, students will work to develop a better understanding of how to develop a distinct visual style in both personal work and in work for clients. The course also focuses on gaining familiarity with contemporary styles and trends in professional motion graphics, and an awareness of Chicago-based motion graphics production. PREREQUISITE(S): ANI 260

ANI 365
CINEMA, ANIMATION, AND ART
Undergraduate
This seminar course focuses on animation and cinema from the standpoint of Modern and Contemporary art. Students study the major styles and themes of historical experimental film and video, and relate these topics to contemporary animation and independent cinema practices. Emphasis is placed on theory and criticism, and how it informs experimental work. Students are expected to discuss work and theory in a seminar setting, and to engage the class material in several research papers. PREREQUISITE(S): DC 233

ANI 366
3D MOVIE PRODUCTION
Undergraduate
This course provides an introduction to stereoscopy which is the creation of a 3D effect in still images and movies. The course covers the history of stereoscopy, the perceptual theories that make 3D images possible, and the technologies that can be used to create the effect of stereoscopic depth. Designed for both animators and live-action filmmakers, students taking this course will get hands-on experience producing stereoscopic images and movies using a variety of tools. PREREQUISITE(S): ANI 230 or DC 275
ANI 370
ACTING FOR ANIMATORS
Undergraduate
This is acting training designed specifically for the needs of animators, as opposed to stage actors. Utilizing lecture/discussion, examination/deconstruction of animated and live-action film clips, home assignments and a few simple in-class improvisations, this course provides the animator with the skills necessary to deliver dynamic animated character performance. Assessment measures include oral and written reflective analysis, short animated character sketches and class participation. PREREQUISITE(S): ANI 240

ANI 375
DEMO REEL AND PORTFOLIO WORKSHOP
Undergraduate
Students review previous course projects and prepare a final portfolio/demo reel and a resume in preparation for job interviews and/or graduate school. Students will also learn presentational techniques and methods for career development. PREREQUISITE(S): ANI 340 or DC 310 or GAM 392

ANI 378
3D DYNAMICS
Undergraduate
This course will provide an introduction to dynamic simulation and effects in 3D animation. Topics to be covered include hair & fur, fluid dynamics, smoke & fire, particles and cloth. An emphasis will be placed on how these effects can enhance an idea or narrative, establish mood, or even be used as a basis for experimental animation. Students will use traditional animation and visual design principles as a basis for creating several small projects. PREREQUISITE(S): ANI 230 and ANI 231

ANI 379
3D COMPOSITING
Undergraduate
This course is designed to allow advanced compositors and animators to merge the 2D, 3D and/or live-action video worlds, drawing from a combination of techniques such as motion tracking, compositing, rotoscoping, hand-drawn, cut-out and 3D animation. The goals are to go beyond simply achieving technical proficiency, as we will also focus on learning principles of good animation in preparation for both artistic and commercial endeavors. PREREQUISITE(S): ANI 231

ANI 390
TOPICS IN ANIMATION
Undergraduate
Advanced study in animation focusing on a specific area each quarter. May be repeated for credit. PREREQUISITE(S): ANI 101 or ANI 201 or consent of the instructor.

ANI 393
TOPICS IN 3D ANIMATION
Undergraduate
Advanced study in 3D animation focusing on a specific area each quarter. May be repeated for credit. This course has an additional fee. PREREQUISITE(S): ANI 230 or consent of the instructor.

ANI 394
ANIMATION PROJECT I
Undergraduate
This production-based course is the first half of a two-course sequence that provides the student with an Animation capstone experience. These courses connect the student's Animation coursework with their overall Liberal Studies coursework through three components: class lectures and discussions, independent analysis and reflection, and the creation of a significant animation project. Students will employ the knowledge they have learned and the skills they have acquired in all their Animation courses to date to produce a significant animation project. The course sequence is designed to be taken in two consecutive quarters. PREREQUISITE(S): ANI 340 and Senior standing
Continuation of ANI 394. This production-based course is the second half of a two-course sequence that provides the student with an Animation capstone experience. These courses connect the student's Animation coursework with their overall Liberal Studies coursework through three components: class lectures and discussions, independent analysis and reflection, and the creation of a significant animation project. Students will employ the knowledge they have learned and the skills they have acquired in all their Animation courses to date to produce a significant animation project. The course sequence is designed to be taken in two consecutive quarters. PREREQUISITE(S): ANI 394

Independent study form and consent of instructor required. PREREQUISITE(S): Consent of dean.

This course is intended as an intensive overview for graduate students with NO prior 3D experience. Topics include polygonal modeling tools, texturing, principles of 3D animation, basic rigging, camera, lighting and rendering. Animation graduate students: This requirement MAY BE WAIVED BY YOUR ADVISOR with proof of previous 3D experience. PREREQUISITE(S): none

This class will explore concepts and practical techniques students need in order to address many of the unique challenges associated with creating audio for animated films. Students will begin with an introduction to audio production before moving on to build practical skills for both field and studio recording. Lectures, readings, and hands on projects will give students a working knowledge of how to approach and create the immense range of styles of audio for animated films, from classic cartoon soundtracks to the live action style mixes of many of today's animated Hollywood blockbusters. Students will complete several audio projects including a multi-track mix for an animated short. PREREQUISITE: None

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

This course is devoted to the complex aspects and techniques of classical drawn animation required to create convincing movement, frame to frame consistency, and character acting. Beginning with a review of the fundamentals and progressing to more complicated techniques, students will learn how to create unique and technically accomplished drawn animation as well as methods for its eventual clean-up, inking and coloring. Contemporary uses of digital technology to enhance production will be emphasized. PREREQUISITE(S): ANI 201 (or ANI 101)

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

Students in this course will rigorously investigate the foundational aspects of animation through traditional and digital methods. Basic principles, including timing, spacing and the abstraction of movement, will be analyzed and questioned through experimentation. Students will experience how the process of making work can be used to generate emergent ideas, and be challenged to push the art form beyond the accepted conventions. PREREQUISITE(S): None

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.
ANI 422
ANIMATION STYLES & TECHNIQUES
Graduate
The history of animation is explored with a focus on inspiring the students' own work. Students will be involved in an intense study of animation throughout history and around the world, and are required to view a large amount of work outside of class. Animations will be grouped by time period, theme, and/or technique. Through writing and group discussions they will examine the significance of the technique and subject matter. They will put this study into practice by creating short animated films based on their reactions to the films. PREREQUISITE(S): ANI 421
CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 425
VISUAL STORYTELLING
Graduate
This class focuses on storyboarding and animatics as key pre-production tools for animation, film, and game development projects. Areas of focus include narrative development, drawing, performance, and editing. Students will apply these techniques to create an animatic: a comprehensive time-based draft for a short film. PREREQUISITE(S): None
CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 430
3D CHARACTER ANIMATION
Graduate
This course concentrates on the acting techniques of classical character animation as applied to 3D animation technology, both for cinema and game design. We will examine the history of the field in hand-drawn, stop-motion and 3D, focusing especially on the principles developed at the Disney and Warner Brothers studios. The student will explore the technical aspects of translating these ideas to 3D models, including basic modeling, skinning, bone systems, rigging and kinematics, but the main focus will be on creative performance. Exercises will cover communicating the illusion of intelligence, mood through movement, staging, acting basics, the feeling of weight, and progressing dialogue. This course has an additional fee. PREREQUISITE(S): ANI 231 or GPH 438.
CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 431
ADVANCED 3D CHARACTER ANIMATION
Graduate
This course introduces advanced concepts in 3D character animation that are necessary for achieving professional quality results. Students will hone their skills through the study of advanced techniques for animating multiple characters, creating continuity, and building character through performance. An emphasis will be placed on the exploration of movement for developing personal style. This course has an additional fee. PREREQUISITE(S): ANI 300 or ANI 430
CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 432
3D RIGGING
Graduate
Students will study the processes and techniques for creating professional quality character rigs. Following a professional production workflow, students will create character skeletons, learn aesthetic and technical considerations for skinning, learn techniques for optimal parametrization, and learn to construct character animation controls. PREREQUISITE(S): ANI 231
CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 433
ADVANCED 3D RIGGING
Graduate
This course will teach students to rig organic and inorganic objects. Students will learn to rig a "stretchy spine" along with a more detailed facial set up for a character. Other topics will include inorganic object rigging, quadruped rigging and the use of 3D scripting in rigging. PREREQUISITE(S): ANI 230 and ANI 231
CDM graduate students in the Prequisite Phase are restricted from registering for this class.
ANI 435
3D CHARACTER MODELING
Graduate
This course will instruct students in the process of 3D polygonal based character modeling. Students will learn professional techniques for building quad-based polygon meshes with an extra emphasis on proper topology to help prepare their model for rigging. Students will learn complete UV unwrapping for the entire figure as well as effective techniques for advanced texturing. This course has an additional fee. PREREQUISITE(S): ANI 230 or GPH 250

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 436
3D MODELING STUDIO
Graduate
Students in this course will broaden and improve their overall skill set by learning a range of modeling techniques. Students will complete several smaller projects that cover topics including speed modeling, efficient low-poly modeling, hard surface modeling, projection texturing, and advanced UV unwrapping techniques. The course will culminate in a final project in which the student will propose and complete an advanced model of their own design. PREREQUISITE(S): ANI 230 or GPH 250

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 437
ENVIRONMENT MODELING
Graduate
This course covers the planning, production and implementation of environment models for games. The term "environment model" includes landscape, exterior architecture, interior architecture, and both organic and man-made props. Topics include visual art direction, setting mood, developing narrative and cinematic lighting strategies. After creating assets in a modeling program, students will implement them in a game engine editor to learn about game engine requirements, limitations and pipeline. Prerequisite: ANI 230

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 438
3D ORGANIC MODELING
Graduate
In this course students learn a variety of modeling tools specially geared toward creating highly detailed and complex organic models for games or films. Various sculpting and texturing techniques available in organic modeling will be discussed as well as proper UV and polygon modeling methods. Students will also gain an understanding of how to build proper human anatomy structures. Students will learn how to create a proper art pipeline between modeling, sculpting, texturing and rendering software packages. PREREQUISITE(S): ANI 230

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 439
3D TEXTURING AND LIGHTING
Graduate
Students will study the processes and techniques for creating shaders and lighting setups for both cinematic and gaming environments. Techniques in UV mapping and projection mapping will be explored for both environments and character creation. Lighting will be approached from the foundation of traditional cinematography. Additional topics, including negative lighting and global illumination, will also be covered. This course has an additional fee. PREREQUISITE(S): ANI 230 or GPH 250

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ANI 440
COLLABORATIVE SHORT ANIMATED FILM
Graduate
Students will work in small groups to produce short animated films from concept to completion using the media of their choice. Emphasis is placed on a collaborative environment for pitching ideas, visual development and creative problem-solving during production. Different studio methodologies and techniques will be discussed. Each team will face various technical and aesthetic challenges to complete a finished film. PREREQUISITE(S): ANI 421 or ANI 453

CDM graduate students in the Prequisite Phase are restricted from registering for this class.
ANI 444
VISUAL DESIGN FOR GAMES
Graduate
The stages of development in the visual direction of a video game will be identified and detailed, and students will participate in the creation of the visual art direction of a product, giving special attention to the design of 3D models and animation. Visual Design for Games topics include: creating visual direction, concepting, art bibles, art production, and post-production strategies. Students will create proposals, create concepts, iteratively create artwork, and analyze competitive products. PREREQUISITE(S): ANI 446, ANI 425, ANI 105, GD 105, GPH 211 or ART 105 (or equivalent 2D design experience)

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

ANI 445
CHARACTER DESIGN
Graduate
Students will be introduced to various methods of creating interesting and original character designs for animated films and games, and then put these approaches into practical use. Methods of creative concepting will include drawing, collage, sculpture and 3D mock-ups. Fundamental visual design and color principles will be stressed, along with the basics of caricature. Students will utilize their character designs in an animated short. PREREQUISITE(S): ANI 230

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

ANI 446
GAME ART PIPELINE
Graduate
This course is an introduction to the game technical artist's job. Students learn how to design, engineer, and troubleshoot the game art production pipeline. They study good practices and successful strategies for streamlining at different stages of production process. Projects include analyzing problems and then spec'ing out solutions, creating a workflow for producing and exporting assets to several platforms/engines, and creating instructional documentation. PREREQUISITE(S): ANI 230 and ANI 231

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

ANI 450
MOTION CAPTURE
Graduate
This course is a workshop focusing on realistic character motion obtained through motion capture. Students will learn the motion capture pipeline, including character skinning and mapping, planning and directing motion capture sessions, applying motion to a character and motion editing. This course has an additional fee. PREREQUISITE(S): ANI 231 or GPH 438.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

ANI 451
ADVANCED MOTION CAPTURE STUDIO
Graduate
This course will enable students with motion capture experience to advance their technical skills and gain experience with practical application in the motion capture studio. Emphasis will be placed on advanced skinning and mapping techniques as well as complex motion capture sessions involving sets, props, and multiple actors. Students will be required to plan, arrange, and direct their own sessions in the motion capture studio. PREREQUISITE(S): ANI 310 or ANI 450

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

ANI 452
3D SCRIPTING
Graduate
This is an introductory course in scripting for a 3D production environment. Students will learn and apply basic programming concepts in order to improve the productivity of animators and modelers. Using script, we will automate repetitive tasks, customize the interface, and create new tools. Students will gain a fundamental understanding of how a 3D animation package functions behind the interface. PREREQUISITE(S): ANI 230 and ANI 231

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.
ANI 453
ADVANCED 3D SCRIPTING
Graduate
This is an intermediate course in scripting for a 3D production environment. Students will go beyond the introductory course to learn more advanced scripting techniques and practices. Students will learn how to assess a problem/ opportunity in the production pipeline, spec out tools, build an effective tool and produce simple interfaces. PREREQUISITE(S): ANI 452

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ANI 455
STOP MOTION ANIMATION
Graduate
The principles of stop motion character animation in real space are the emphasis of this intermediate level course. Students are introduced to basic armature building, lighting and scene composition, and the designing and fabrication of characters with a variety of materials. Contemporary uses of digital technology to enhance stop motion production will be explored. PREREQUISITE(S): ANI 201 (or ANI 101)

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ANI 456
EXPERIMENTAL ANIMATION
Graduate
This course introduces strategies for an experimental approach to animation. Students will study how experimentation relates to both concept and technique, and examine the work of classic experimental animators. This is a production class that requires students to produce a series of short animations in a variety of processes and styles. PREREQUISITE(S): ANI 201 or ANI 101

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ANI 460
ANIMATION GRADUATE SEMINAR
Graduate
This seminar will explore the animator's role in contemporary culture, including careers in entertainment, art, game development and education. A combination of guest speakers, critical readings, animation analysis and group discussion will help students lay a foundation for their graduate study in the field.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ANI 466
CINEMA, ANIMATION AND ART
Graduate
This seminar course focuses on animation and cinema from the standpoint of Modern and Contemporary art. Students study the major styles and themes of historical experimental film and video, and relate these topics to contemporary animation and independent cinema practices. Emphasis is placed on theory and criticism, and how it informs experimental work. Students are expected to discuss work and theory in a seminar setting, and to engage the class material in several research papers.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ANI 470
ACTING FOR ANIMATORS
Graduate
This is acting training designed specifically for the needs of animators, as opposed to stage actors. Utilizing lecture/discussion, examination/deconstruction of animated and live-action film clips, home assignments and a few simple in-class improvisations, this course provides the animator with the skills necessary to deliver dynamic animated character performance. Assessment measures include oral and written reflective analysis, short animated character sketches and class participation. PREREQUISITE(S): 421

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
ANI 478
3D DYNAMICS
Graduate
This course will provide an introduction to dynamic simulation and effects in 3D animation. Topics to be covered include hair and fur, fluid dynamics, smoke and fire, particles, and cloth. An emphasis will be placed on how these effects can enhance an idea or narrative, establish mood, or even be used as a basis for experimental animation. Students will use traditional animation and visual design principles as a basis for creating several small projects. PREREQUISITE(S): ANI 230 and ANI 231

CDM graduate students in the PreReq Phase are restricted from registering for this class.

ANI 479
3D COMPOSITING
Graduate
This course is designed to allow advanced compositors and animators to merge the 2D, 3D and/or live-action video worlds, drawing from a combination of techniques such as motion tracking, compositing, rotoscoping, hand-drawn, cut-out and 3D animation. The goals are to go beyond simply achieving technical proficiency, as we will also focus on learning principles of good animation in preparation for both artistic and commercial endeavors. PREREQUISITE(S): ANI 231

CDM graduate students in the PreReq Phase are restricted from registering for this class.

ANI 480
ANIMATION PRODUCTION
Graduate
Students study the traditional processes used for the production of animation for cinema and games. Topics include pre-production, sound, planning and scheduling, the division of labor, and post-production. Students will apply these methods to their own projects, using the medium of their choice. PREREQUISITE(S): ANI 101 or ANI 201

CDM graduate students in the PreReq Phase are restricted from registering for this class.

ANI 490
TOPICS IN ANIMATION
Graduate
Advanced study in animation focusing on a specific area each quarter. May be repeated for credit. PREREQUISITE(S): ANI 101 or ANI 201 or consent of the instructor.

CDM graduate students in the PreReq Phase are restricted from registering for this class.

ANI 493
TOPICS IN 3D ANIMATION
Graduate
Advanced study in 3D animation focusing on a specific area each quarter. May be repeated for credit. This course has an additional fee. PREREQUISITE(S): ANI 230 or consent of the instructor.

CDM graduate students in the PreReq Phase are restricted from registering for this class.

ANI 540
ANIMATED SHORT FILM PART I
Graduate
This course and its continuation, ANI 541, will concentrate on facilitating the graduate students’ production of a short, independently animated project. The topics of idea generation, experimentation, problem solving, planning and time management, and the process of critical analysis will be applied to the students work, with the choice of animation technique, content and form left to the individual. We will have technical demonstrations on an as-needed basis, depending on the nature of your animations. This course must be taken consecutively with ANI 541 Animated Short Film Part II. PREREQUISITE(S): ANI 440

CDM graduate students in the PreReq Phase are restricted from registering for this class.
ANI 541
ANIMATED SHORT FILM PART II
Graduate
This course is a continuation of ANI 540 Animated Short Film Part I. Throughout the quarter students will continue working on their films, meeting with the instructor for advising, and other students for group critiques. Students will also learn effective post-production strategies as they near completion of their first film. This course must be taken consecutively with ANI 540. PREREQUISITE(S): ANI 540

CDM graduate students in the Pre requisition Phase are restricted from registering for this class.

ANI 560
GRADUATE TEACHING SEMINAR
Graduate
This seminar exposes students to effective methods and professional practices of teaching undergraduate and graduate students. A variety of approaches to course materials and projects will be introduced and discussed in detail. In addition to work in class, students will work closely with a faculty member in order to gain first-hand knowledge, including class observation, of practical aspects of creative and academic instruction. PREREQUISITE(S): none

CDM graduate students in the Pre requisition Phase are restricted from registering for this class.

ANI 599
INDEPENDENT STUDY
Graduate
Independent study form. PREREQUISITE(S): Consent of dean and consent of instructor required.

CDM graduate students in the Pre requisition Phase are restricted from registering for this class.

ANI 639
MFA PRE-THESIS
Graduate
In this course the MFA student will develop the concept and pre-production of their thesis animation through workshops, critiques and assignments. Students will create inspiration and concept art, write a treatment, create a storyboard and animatic as well as research design options to be used on their final film project in ANI 640 MFA Thesis Animation. PREREQUISITE(S): ANI 442

CDM graduate students in the Pre requisition Phase are restricted from registering for this class.

ANI 640
MFA THESIS ANIMATION
Graduate
This course is a three quarter class that will concentrate on the graduate students' production, post-production and completion of their final thesis project. Students will have regular critique sessions with their three Thesis Advisors from the animation faculty. The student's project will be presented to the committee upon completion. PREREQUISITE(S): ANI 639

CDM graduate students in the Pre requisition Phase are restricted from registering for this class.

ANT 102
CULTURAL ANTHROPOLOGY
Undergraduate
An introduction to current anthropological theories and methods for understanding human cultures from a comparative perspective; includes an analysis of human institutions such as religion, politics, and kinship, and the forces that change them in a variety of societies, small and large scale.

ANT 103
ARCHAEOLOGY
Undergraduate
An exploration of the science of archaeology, the study of past human behavior through material remains. Examines the ways archaeologists gather data and the methods used to analyze and interpret these data to learn about the past and how human societies evolved.
ANT 104
INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY
Undergraduate
This course will examine the biological history of the human species culminating with an exploration of human biological variation in the modern world. Principles of evolutionary theory and genetics will first be presented to provide a framework for the study of human evolutionary biology. The fossil evidence for human evolution will then be considered using comparative data from nonhuman primate ecology to help reconstruct prehistoric lives. Finally, features of biological modernity will be discussed. Particular attention will be given to how human populations utilized biological and behavioral mechanisms to adapt to their environments throughout evolutionary history. The course includes labs.

ANT 105
ANTHROPOLOGY THROUGH FILM
Undergraduate
This course is an introduction to cultural anthropology, the sub-discipline of anthropology concerned with contemporary human cultures, through film. The aim is to convey the anthropological perspective on behaviors and systems that people create. The course will emphasize fundamental concepts, methods, and theories used to study culture.

ANT 106
LANGUAGE AND CULTURE
Undergraduate
Definitions and features of language and communication, and their relationship to thought and culture. Topics include the classification of languages, language acquisition, linguistic variation, language communities, multilingualism, performance, and variability of language use.

ANT 107
CULTURAL DIMENSION OF BUSINESS
Undergraduate
The focus of the course revolves around this question: What difference does it make when people who participate in different systems of meaning-making buy and sell goods and services to each other? We do not have to juxtapose buyers and sellers from the ends of the earth to see the implications of this question. Even within our own society there are cultural boundaries between buyers and sellers that we can observe. Through the readings and discussions, this course will explore these grey areas of business in cross-cultural environments.

ANT 109
FOOD AND CULTURE
Undergraduate
Explores the concept of culture by focusing on people's knowledge of food; it examines the local sameness and global peculiarity of people's food preferences, considering tastes and environmental impacts, health implications, dietary restrictions, and other social impacts.

ANT 120
SCIENCE OF ARCHAEOLOGY
Undergraduate
Archaeology spans the academic worlds of the physical sciences and the social sciences. In this course, the physical science qualities of the discipline are introduced. Students explore the various ways archaeologists use model building, statistical inference, and evidence analysis to reconstruct past human experiences. The course includes two hour of lab and two hours of lecture/discussion per week.

ANT 201
ETHNOGRAPHIC RESEARCH METHODS
Undergraduate
This course is designed to be the introductory anthropology course for majors. This focus is on practicing a selection data selection techniques used by qualitative researchers in the social sciences. Under the supervision of the instructor, students will design and implement a collaborative research project. The techniques to be used may include (but are not limited to) observation, structured and semi-structured interviewing, network analysis, and focused group interviewing. The experience gained in this course prepares students for research activities in future course work, graduate school and professional life. In addition to the practical hands-on training, the course also addresses issues of the relationship of theory to method, ethical concerns in research with human subjects, reflexivity and inter-subjectivity in qualitative research.
ANT 202
ARCHAEOLOGICAL FIELDS METHODS
Undergraduate
This course introduces students to the basic field and laboratory methods used in archaeological research through hands on experience. Students will receive intensive field training in archaeological field methods including excavation, survey, mapping, record keeping, and illustration. The course introduces basic laboratory techniques such as artifact processing, identification, and curation. The methodological training will be integrated through emphases on the place of data collection in the archaeological research process, and the relationship between archaeological data and questions of historical and anthropological importance. This course will provide students with the essential basic field training in archaeology required for both applied work in cultural resource management and continued graduate education in archaeology.

ANT 203
PROFESSIONALISM AND ETHICS IN ANTHROPOLOGY
Undergraduate
This class explores the many dimensions of what it means to be a professional anthropologist in both applied and academic areas. Students will learn about specialized resources for anthropologists (web resources, library resources, funding resources, career resources), and become familiar with the professional structure of the discipline. A large portion of the course will be devoted to the debate/discussion/exploration of ethical issues that challenge anthropologists through the use of real cases that have confronted researchers in the field, and through an evaluation of the ethical codes of conduct adopted by the primary professional organizations in anthropology.

ANT 204
LINEAGES OF CULTURE THEORY
Undergraduate
This course provides the student with a history of the culture concept tracing the lineages of thought about culture from the nineteenth century to the present. Readings and seminar discussions will present an explicit discussion of how ideas and understanding about culture have changed over time and will introduce students to the main branches of cultural theory, including the Naturalist School; the Utilitarian School, the Code School and the Praxis School. Students will develop the skills and confidence to work with the abstractions and concepts that underlie anthropological research.

ANT 206
WORLD PREHISTORY
Undergraduate
Placing an emphasis on both theory and the latest archaeological and multidisciplinary approaches this overview of world prehistory will look at a series of interesting problems and case studies that provide a taste of the richness of human creativity. Topics include the evolution from foraging lifestyles, through the increased control of nature by early farmers, to the rise of states and empires: this is an examination of the deep and tangled roots of today's societies.

ANT 210
AFRICAN CULTURES (FORMERLY SOC 300)
Undergraduate
Survey of the people and cultures of Africa. Analysis of beliefs, customs, and social organization of traditional African cultures, and the forces of sociocultural change that have affected traditional patterns of life and are necessary to understand contemporary African societies. Formerly SOC 300.

ANT 215
ARCHAEOLOGY OF AFRI CAN DIASPORAS
Undergraduate
Africans have been on the move since the dawn of humanity. Archaeology is one discipline that can inform us about the presence and influence of Africans throughout the world, beginning with our hominid ancestors and continuing through the 20th century. Prior experience with archaeology is not required. Topics include: the evolution and development of our species; migrations within the African continent and abroad; and the cultural insights to be gained from the rapidly-growing field of African-American archaeology.

ANT 220
CULTURES OF EUROPE
Undergraduate
Explores the cultural features of the European experience using ethnographic sources. Focuses on European life at the local level, examines the implications of European Community integration on peoples' lives in various countries, and explores causes of conflict within and between national boundaries. (formerly SOC 300 Regional Ethnology: Peoples of Europe).
ANT 226  
HEMISPHERIC ETHNOGRAPHY: PEOPLES IN THE AMERICAS  
Undergraduate  
This course attempts to understand the cultures that live and interact in our continent. We will look at the historical, economic, political, and social processes that integrate the hemisphere and how cultures and identities spread over many different countries. This will enable us to analyze how local realities can not only be understood in relation to larger historical contexts and transnational processes, but also in relation to ideologies and cultural understandings that shape common experiences.

ANT 230  
CULTURES OF THE PACIFIC  
Undergraduate  
Explores traditional and contemporary cultures of the Pacific. A survey of Oceanic cultures from Australia, Melanesia, Micronesia, and Polynesia; consideration of the geography and geology of Pacific islands; and analysis of the history of contact between Pacific island peoples with Westerners and the consequences for life in the contemporary Pacific. (formerly SOC 300 Regional Ethnology: The Pacific Islands).

ANT 240  
CULTURES OF THE MIDDLE EAST  
Undergraduate  
Explores the cultures and societies of the contemporary Middle East. Focuses on everyday life and practices, such as religion, social organization, art and popular culture. Uses ethnographic sources to examines the historical influence of various civilizations and religions on contemporary Middle Eastern societies from North Africa to Iran.

ANT 241  
WOMEN IN MIDDLE EASTERN SOCIETIES  
Undergraduate  
Explores the experience of women in the Middle East using ethnographic sources from North Africa, the Levant, Arabian Peninsula, Turkey, and Iran. Focuses on the cultural and historical influences on women's lives in this area, and the strategies Middle Eastern women use to negotiate and affect sociocultural change today.

ANT 250  
MATERIAL CULTURE OF MODERN AMERICA  
Undergraduate  
This course combines historical archaeology and material culture studies to examine how material goods both shape and reflect American identity. The course will take an historical approach beginning in the 17th century when most Americans wore homespun clothing and produced their own food, and continue to the 21st century and a time when Americans wear the national colors of Tommy Hilfiger and eat fast food lunches. Often such changes in material culture are characterized as the process of "modernization," and as such, the course will be centered on the relationship between material culture, American identity and conceptions of modernity. Cross-listed with AMS 370.

ANT 252  
MATERIAL CULTURE AND DOMESTIC LIFE  
Undergraduate  
This course explores the social, and economic dynamics of households through material culture. Specifically, this course looks at how material goods structure domestic life, reflect values surrounding family and kinship, and mediate the relationship between individual households and broader levels of social organization such as community, society, and culture.

ANT 254  
HISTORICAL ARCHAEOLOGY OF CHICAGO  
Undergraduate  
This course is a co-requisite for the archaeological field methods course. Students will be participating in an archaeological research project focusing on Chicago's past. The course will include an introduction to the concept of an archaeological research design. Students will engage in historical research using primary documents and analyze archaeological data to address specific research questions about Chicago's recent past.

ANT 202 is a prerequisite for this course.
ANT 256  
MATERIAL CULTURE OF THE OLD WORLD  
Undergraduate  
This course combines archaeology and material culture studies to examine how material goods both shape and reflect human experience in Asia, Africa and Europe. The course will be centered on the relationship between material culture, technology, subsistence patterns and societal complexity. The rise of cities and states in the old world will also be examined.

ANT 260  
HISTORY, MYTH AND RELIGION IN PRECONQUEST MESOAMERICA  
Undergraduate  
An exploration of the history of Mesoamerica before Columbus and the conquistadores from the perspectives of the indigenous peoples, their conquerors, and contemporary scholars, with special emphasis upon the religious and cultural dimensions of Mesoamerican civilization. Cross-listed with REL 360

ANT 270  
HUMAN EVOLUTION  
Undergraduate  
Principles of evolutionary theory and genetics will first be presented to provide a framework for the study of human evolutionary biology. Beginning with the earliest fossil evidence, the course will trace human evolution. Particular attention will be given to the forces of environment and sexual selection at work at various points in time. Data from nonhuman primate ecology will be used to help reconstruct prehistoric lives.

ANT 272  
INTRODUCTION TO MEDICAL ANTHROPOLOGY  
Undergraduate  
This course explores the interrelationships between culture and human health for the purposes of understanding the biosocial origins of disease, systems of treatment, and the global inequalities that shape disease patterns and access to health care resources.

ANT 274  
FORENSIC ANTHROPOLOGY  
Undergraduate  
This course separates fact from media fantasy in the application of anthropological knowledge to determining the cause of death. Specific case studies are presented that show the range of situations confronted by anthropologists who consult with law enforcement agencies.

ANT 280  
ARCHAEOLOGICAL FIELDWORK  
Undergraduate  
This course introduces students to the basic field and laboratory methods used in archaeological research through hands on experience. Students will receive intensive field training in archaeological field methods including excavation, survey, mapping, record keeping, and illustration. The course introduces basic laboratory techniques such as artifact processing, identification, and curation. The methodological training will be integrated through emphases on the place of data collection in the archaeological research process, and the relationship between archaeological data and questions of historical and anthropological importance. This course will provide students with the essential basic field training in archaeology required for both applied work in cultural resource management and continued graduate education in archaeology.

ANT 290  
SPECIAL TOPICS IN REGIONAL ETHNOLOGY  
Undergraduate  
Compares the patterns of sociocultural life in different societies within a particular geographic region in order to gain a general understanding of cultural themes, trends, and historical developments. Check current schedule of courses for specific topic. Course may be repeated for credit when title and content change.

ANT 314  
ANTHROPOLOGY OF GENDER  
Undergraduate  
This course examines women's lives cross-culturally using anthropological theories of gender construction to discuss the different meanings of womanhood.
**ANT 317**  
**LANGUAGE, POWER AND IDENTITY**  
**Undergraduate**  
Explores how communication patterns vary cross-culturally. Examines how the language people speak shapes their worldview and their ways of interacting with each other. Students learn basic techniques of analyzing conversations.

**ANT 320**  
**HUMAN VARIATION**  
**Undergraduate**  
Explores the interrelationships between culture and biology in the shaping of social life, including human evolution, sexual differences, "race," and other aspects of human variation.

**ANT 322**  
**COMMUNITY-BASED APPLIED PRACTICE**  
**Undergraduate**  
This laboratory course in the applied anthropology sequence introduces students to the range of anthropological practice in the public and not-for-profit sector. Students will learn about the ways that anthropology has been and can be applied to initiate practical change in communities. In addition to learning the professional and ethical responsibilities of practicing anthropologists, students will also gain a practical experience working on an applied project.

ANT 201, ANT 203 and senior standing are a prerequisite for this class.

**ANT 324**  
**COLONIALISM TO GLOBAL SOCIETY**  
**Undergraduate**  
This course examines long-term trends in the development of capitalist society in terms of both material and social organization from the 15th century to the present. Modeled on the core text, Europe and the People without History by Eric Wolfe, the course seeks to ground students in long-term processes of cultural development and change. These issues will be explored through a combination of archaeological and ethnographic perspectives and evidence.

**ANT 326**  
**TRANATIONAL CULTURES**  
**Undergraduate**  
This course examines the emergence of transnational culture in the modern world. The focus is on relationships and processes that link communities, such as trade, migration, and tourism, and the local experience of these global processes. While classroom discussion will be structured around critical readings of texts, self reflection and value consciousness will be encouraged. To this end, assignments will combine critical readings and guided experiential activities. Students will be tutored in techniques for giving professional style presentations. The course may vary according to faculty interest. Possible foci include labor migration, media, tourism, and/or global consumption.

**ANT 328**  
**INTERNATIONAL APPLIED PRACTICE**  
**Undergraduate**  
Examines various processes of sociocultural change, with emphasis on peoples undergoing or emerging from cultural, political, or economic oppression.

**ANT 330**  
**CLIENT-BASED APPLIED PRACTICE**  
**Undergraduate**  
This laboratory course introduces students to the use of anthropological methods and theories in the private, for-profit sector. Students will learn about the type of work anthropologists are performing in the corporate world such as design and marketing research, product usability studies, and cultural resource management. In addition to learning the professional and ethical responsibilities of practicing anthropologists, students will also gain a practical experience working on an applied project. Formerly ANT 316.

ANT 203 is a prerequisite for this course.
ANT 346
URBAN ANTHROPOLOGY
Undergraduate
Theories and methods of contemporary anthropology and other fields are used to analyze cities and urban life. Cross-culturally explores the processes of urbanization, urbanism (urban culture, subcultures, and ethnic lifestyles), and the notion of images of cities. Recommended for sophomore level or above.

ANT 348
INDIGENOUS POLITICAL STRUGGLES
Undergraduate
This course explores the struggles for social justice and the right to have rights by indigenous peoples. It emphasizes contemporary cases and the cultural contexts in which indigenous political strategies have developed and transformed. It uses historical data to understand the issues faced by indigenous peoples. Students conduct research on indigenous struggles and their connections to other social movements at the local, national, and international levels.

ANT 356
URBAN ETHNOGRAPHY
Undergraduate
Examines the city as a type of human settlement, focusing on the different forms, functions, images, and ideological perceptions of cities over time and across a number of different cultures. Formerly SOC 356.

ANT 358
ARCHAEOLOGY OF CITIES
Undergraduate
This class provides a general overview of the archaeology of urban settlements. We will begin by asking the question "What is a city?" and look at the different theories that address the nature and origins of early urban settlements. To further examine this question we will focus on Cahokia, the largest prehistoric settlement in North American north of Mexico, and the city of Chicago, a well established urban, industrial center. The second portion of the class will take an even broader comparative approach towards the archaeology of cities by applying the theories and insights gained in the first portion of the course to different world areas. Through these comparisons students will gain a deeper understanding of the diversity of urban forms across time and space, and consider the possibilities of cross-cultural similarities among prehistoric and early historic urban populations.

ANT 360
ISSUES IN GLOBAL HEALTH
Undergraduate
This course focuses on a specific health issue or set of issues in our world. The interrelationships between culture and health in this issue are examined.

ANT 372
CURRENT ISSUES IN ARCHAEOLOGY
Undergraduate
Expressions of culture and heritage are found in museums, public spaces, public events, and other activities such as public archaeology and history programs. This course examines the debates that surround recent developments in the elaboration of heritage as an industry and a practice. Explores issues relating to cultural heritage, Indigenous rights, ethics, museum and material culture studies.

ANT 374
ANTHROPOLOGY AND MUSEUMS
Undergraduate
The course examines the evolving relationships between anthropology and museums. From functional, historical, material and aesthetic perspectives, the relationships between the cultural contexts of objects and museums will be explored. Case studies, guest lectures and site visits (virtual and real) will be used to demonstrate evolving theory, practice, law and ethical implications of collecting objects. Many of the logistical aspects of the museum including the laws and mission statements will also be examined.
ANT 384
ARCHAEOLOGICAL ANALYSIS
Undergraduate
The course is an introduction to the analysis of archaeological data, the interplay between the knowledge people have of the world and the remains and traces of their actions in it; We review the relevant culture theory needed to draw distinctions between analytical stances. We examine how the rhetoric of the research report changes as different analytical stances are selected.

ANT 386
CULTURAL ANALYSIS
Undergraduate
Introduction to cultural analysis, the interplay between the knowledge people have of the world and their actions in it; explores the rudiments of culture theory needed to draw distinctions between analytical stances; examines how the rhetoric of the research report changes as different analytical stances are selected. Cross-listed with INT 204.

ANT 388
PROFESSIONAL RESEARCH TUTORIAL
Undergraduate
This course helps anthropology majors prepare for professional presentations at conferences, research exposition, publications and theses. It uses data collected in another class. The student focuses on developing the communication techniques necessary to meet a professional standard. Honors program students complete the honors program in anthropology with this course. The course is registered using the independent study procedure on Campus Connect. The course is taken normally for 2 credits. Students writing an honors program thesis can take the course for 4 credits.

ANT 390
SPECIAL TOPICS IN ANTHROPOLOGY
Undergraduate
Variable topics in anthropology intended for advanced students. Explores special aspects or areas of anthropology based on particular interests and expertise of the instructor; course content and title will vary with the instructor. Check current schedule of courses for specific topic. Course may be repeated for credit when title and content change.

ANT 395
SEMINAR IN ANTHROPOLOGY
Undergraduate
In-depth examination of selected topics in sociocultural anthropology, based either on a geographic area or theoretical theme. Check current schedule of courses for specific topic. Course may be repeated for credit when title and content change.

ANT 102 is a prerequisite for this course.

ANT 396
SENIOR CAPSTONE SEMINAR
Undergraduate
A course for senior anthropology majors, which satisfies the Senior Year Capstone requirement of the Liberal Studies Program. Objectives of the course are: to afford students the opportunity to reflect on the influences in their lives (both in and outside of academics) that directed them toward anthropology as a field of study; to formulate ideas regarding the affect anthropology has on their way of viewing themselves in the world around them; and to pursue research on an anthropologist or anthropological topic.

ANT 397
TRAVEL/STUDY
Undergraduate
Foreign study tours with lectures and research by special arrangement with sponsoring programs. May be taken for multiple credit when courses are not duplicated.

ANT 399
INDEPENDENT STUDY
Undergraduate
Independent Study.
Throughout the second quarter, students finalize their Learning Plans, convene their Academic Committees (comprised of themselves, their Professional Advisor, and their Faculty Mentor) to review their Learning Plans, and upon initial approval, submit their Learning Plans to the Mastery Review Committee (MRC) for approval.

This MAAPS/MSAT foundational course provides participants with skills in collecting, analyzing and synthesizing literature and resources in their respective area(s) of practice. Among these skills are: searching and accessing various sources; discerning credibility of sources; storing and retrieving information for oneself; constructing thematic literature reviews; and, citing sources using APA style.

This area addresses knowledge and understanding of theories, models and/or theoretical frameworks - including implications for practice - that are most relevant to the Focus Area.

This area addresses the systematic gathering of data and interpretation of findings as practiced within the Focus Area and/or related fields.

This session includes orientation of Professional Advisors, and provides opportunity to integrate and apply dynamics of reflective practice, self-assessment, liberal learning, and ongoing collaboration.

This area involves identifying skills that are particular to the profession and the context(s) in which these skills are applied. The emphasis is on actual demonstration of specialized skills used in practice.

This area involves facility with communication modes relevant to professional practice in the focus area. It requires an understanding of the relationship among key communication variables (the message, the method, the audience, and the context), a repertoire of communication strategies, and a dexterity or ease of access permitting the professional to adapt communication strategies to changing situations as necessary.

This session provides further opportunity to integrate and apply dynamics of reflective practice, self-assessment, liberal learning, and ongoing collaboration.

This area addresses the human and structural issues that professionals encounter within practice (work) environments, providing students with the opportunity to consider how their professional role affects and is affected by systems, technology, structure and other people within their practice settings.
AP 558
ASSESSMENT AND INTEGRATION SEMINAR 3
Graduate
This session provides further opportunity to integrate and apply dynamics of reflective practice, self-assessment, liberal learning, and ongoing collaboration.

AP 560
LARGER CONTEXTS
Graduate
This area addresses the issues and problems of the student's focus area within a context that includes at least one of the following: the historical development of the profession over time and its future direction (temporal); the relationship between the profession and the society within which it exists (social, multi-cultural); and/or, the nature of the profession globally (international).

AP 570
ETHICAL ISSUES
Graduate
This area addresses the relationship between beliefs and assumptions regarding humanity, good/evil, right/wrong, etc., and behavioral outcomes (including conflicts).

AP 574
REFLECTION ON PRACTICE
Graduate
This area addresses the interplay between thinking, doing and reflecting in the often-ambiguous and complex contexts of daily practice.

AP 578
ASSESSMENT AND INTEGRATION SEMINAR 4
Graduate
This session provides further opportunity to integrate and apply dynamics of reflective practice, self-assessment, and liberal learning, as well as planning for program progress.

AP 585
SUPPLEMENTAL COMPETENCE I
Graduate
Student selects a second area from among Theories, Research, Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues, and Reflection on Practice in which to develop and demonstrate competence.

AP 586
SUPPLEMENTAL COMPETENCE II
Graduate
As an option to the Integrating Project, student may elect to develop and demonstrate an additional four areas of professional competence from among Theories, Research, Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues, and Reflection on Practice.

AP 587
SUPPLEMENTAL COMPETENCE III
Graduate
As an option to the Integrating Project, student may elect to develop and demonstrate an additional four areas of professional competence from among Theories, Research, Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues, and Reflection on Practice.

AP 588
SUPPLEMENTAL COMPETENCE IV
Graduate
As an option to the Integrating Project, student may elect to develop and demonstrate an additional four areas of professional competence from among Theories, Research, Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues, and Reflection on Practice.
AP 589
SUPPLEMENTAL COMPETENCE V
Graduate
As an option to the Integrating Project, student may elect to develop and demonstrate an additional four areas of professional competence from among Theories, Research, Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues, and Reflection on Practice.

AP 591
INTEGRATING PROJECT PROPOSAL
Graduate
A concise, well-honed document that clearly delineates the student's readiness to engage in the Final Integrating Project as well as the project's nature and scope. The topic under investigation should be supported by relevant literature in the field and the use of appropriate methods of inquiry.

AP 592
FINAL INTEGRATING PROJECT
Graduate
The Integrating Project is an original, independently conducted project that incorporates elements of theory, practice, knowledge, and skill and demonstrates integration of the Liberal Learning Skills with the professional Focus Area. It serves as the culminating Learning Activity of the program and is intended to make an original contribution to the student's professional field. The topic of the Integrating Project is chosen by the student with the approval of the Professional Advisor and the Mastery Review Committee and typically involves a practice-based problem with an appropriate intervention.

AP 501
LEARNING PLAN RESEARCH AND DEVELOPMENT
Graduate
This course explores the aims of graduate education with particular focus on the program of study leading to the Master of Arts in Integrated Professional Studies: its purpose, scope, philosophy, key roles, and processes. Special emphasis is placed on developing a working draft of the Learning Plan for the individualized portion of the program (i.e., the Focus Area), attaining a fuller understanding of individual fields of professional study, and applying Liberal Learning Skills in professional practice. The process is initiated for establishing an academic committee consisting of the student, the Faculty Mentor, and a Professional Advisor (an established practitioner in the student's professional Focus Area).

Status as a MAAPS student or departmental permission is a prerequisite for this class.

APB 110
EUPHONIUM
Undergraduate
(2 or 4 credits) Open only to School of Music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All undergraduate music students may enroll in up to 48 quarter hours of applied study during their undergraduate career. No student may exceed the 48 quarter hour limit.

Status as an Undergraduate Music student is a prerequisite for this class.

APB 130
FRENCH HORN
Undergraduate
(2 or 4 credits) Open only to School of Music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All undergraduate music students may enroll in up to 48 quarter hours of applied study during their undergraduate career. No student may exceed the 48 quarter hour limit.

Status as an Undergraduate Music student is a prerequisite for this class.
Status as Undergraduate Music student is a prerequisite for this class.

Status as an Undergraduate Music student is a prerequisite for this class.

Status as Undergraduate Music student is a prerequisite for this class.

Status as a Graduate Music student is a prerequisite for this class.

Status as a Graduate Music student is a prerequisite for this class.

Status as a Graduate Music student is a prerequisite for this class.
APB 470
TRUMPET
Graduate
(2 or 4 credits) Open only to music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All graduate music students may enroll in up to 24 quarter hours of applied study during their graduate career. No student may exceed the 24 quarter hour limit.

Status as a Graduate Music student is a prerequisite for this class.

APB 475
TUBA
Graduate
(2 or 4 credits) Open only to music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All graduate music students may enroll in up to 24 quarter hours of applied study during their graduate career. No student may exceed the 24 quarter hour limit.

Status as a Graduate Music student is a prerequisite for this class.

APK 150
PIANO
Undergraduate
(2 or 4 credits) Open only to School of Music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All undergraduate music students may enroll in up to 48 quarter hours of applied study during their undergraduate career. No student may exceed the 48 quarter hour limit.

Status as an Undergraduate Music student is a prerequisite for this class.

APK 160
HARPSICHOORD
Undergraduate
(2 or 4 credits) Open only to School of Music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All undergraduate music students may enroll in up to 48 quarter hours of applied study during their undergraduate career. No student may exceed the 48 quarter hour limit.

Status as an Undergraduate Music student is a prerequisite for this class.

APK 450
PIANO
Graduate
(2 or 4 credits) Open only to music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All graduate music students may enroll in up to 24 quarter hours of applied study during their graduate career. No student may exceed the 24 quarter hour limit.

Status as a Graduate Music student is a prerequisite for this class.

APK 460
HARPSICHOORD
Graduate
(2 or 4 credits) Open only to music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All graduate music students may enroll in up to 24 quarter hours of applied study during their graduate career. No student may exceed the 24 quarter hour limit.

APM 125
ITALIAN DICTION I
Undergraduate
(0 credits) Beginning level Italian and English diction, international phonetic alphabet. CO-REQUISITE(S): Students must be enrolled in applied voice lessons simultaneously.

APV 100 or APV 400 is a corequisite for this class.
APM 126
GERMAN DICTION I
Undergraduate
(0 credit) Beginning level German diction. CO-REQUISITE: Students must be enrolled in applied voice lessons simultaneously.

APM 125 is a prerequisite and APV 100 or APV 400 is a co-requisite for this class.

APM 127
FRENCH DICTION I
Undergraduate
(0 credit) Beginning level French diction. CO-REQUISITE(S): Students must be enrolled in applied voice lessons simultaneously.

APM 126 is a prerequisite and APV 100 or APV 400 is a co-requisite for this class.

APM 160
LATIN ACCESSORIES TECHNIQUES
Undergraduate
(2 credits) Class playing techniques for cymbals, triangle, tambourine, and other Latin accessories.

Status as a Music student is a prerequisite for this class.

APM 170
PERCUSSION CONCERT ACCESSORIES TECHNIQUES CLASS
Undergraduate
(2 credits) Class playing technique for cymbals, triangle, tambourine, and other percussion accessories.

Status as a Music student is a prerequisite for this class.

APM 201
INTRODUCTION TO BRASS PLAYING
Undergraduate
(2 credits) This course is designed to introduce basic playing techniques for all brass instruments.

Status as an Undergraduate Music student is a prerequisite for this class.

APM 204
VOCAL COACHING I
Undergraduate
(1 credit) Develop musical and dramatic performance of the repertoire being studied (with special regard to recital material), integrating stylistic considerations, ornamentation, and cadenzas.

An undergraduate vocal performance major and a completed petition to major is a prerequisite for this class.

APM 205
JUNIOR RECITAL
Undergraduate
A short, 30-60 minute, public recital performance of solo and/or chamber repertoire to be completed in the Junior year. This recital is required as partial fulfillment of the degree of Bachelor of Music in Performance. COREQUISITE: Students must be registered for a total of 4 credits of applied lessons during the quarter the recital is presented.

A petition to major is a prerequisite for this class.

APM 225
ITALIAN DICTION II
Undergraduate
(1 credit) Intermediate level Italian diction.

APM 125 is a prerequisite for this class.
APM 226
GERMAN DICTION II
Undergraduate
(1 credit) Intermediate level German diction.
APM 126 is a prerequisite for this class.

APM 227
FRENCH DICTION II
Undergraduate
(1 credit) Intermediate level French diction.
APM 127 is a prerequisite for this class.

APM 242
ACCOMPANYING CLASS I
Undergraduate
(2 credits) Role of pianist as accompanist in the instrumental repertory. COREQUISITE(S): Must be enrolled in applied piano lessons simultaneously.
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.

APM 244
ACCOMPANYING CLASS II
Undergraduate
(2 credits each) Role of pianist as accompanist in the vocal repertory and introduction to vocal coaching skills. COREQUISITE(S): Must be enrolled in applied piano lessons simultaneously.
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.

APM 245
ACCOMPANYING CLASS III
Undergraduate
(2 credits) Role of pianist as accompanist in the operatic stage rehearsal and a continuation of vocal coaching skills. COREQUISITE(S): Must be enrolled in applied piano lessons simultaneously.
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.

APM 253
INTRODUCTION TO ACTING FOR SINGERS
Undergraduate
(2 credits) Serves as an elective before voice student petitions to major.
Status as an Undergraduate Music student is a prerequisite for this class.

APM 254
INTRODUCTION TO ACTING FOR SINGERS II
Undergraduate
(2 credits) This course is designed to increase basic knowledge of stage terms and methods of preparation for stage performance of music by singers.
Status as an Undergraduate Music student is a prerequisite for this class.
APM 300
ACCOMPANYING PRACTICUM FOR PIANISTS I: VOICE
Undergraduate
(I credit) The course is designed to give students an opportunity to learn different styles and practice accompanying vocalists in studio and performance format.

Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.

APM 301
ACCOMPANYING PRACTICUM FOR PIANISTS II: WINDS
Undergraduate
(I credit) This course is designed to give students an opportunity to learn different styles and practice accompanying wind instrumentalists in studio and performance format.

Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.

APM 302
ACCOMPANYING PRACTICUM FOR PIANISTS III: STRINGS
Undergraduate
(I credit) The course is designed to give students an opportunity to learn different styles and practice accompanying string instrumentalists in studio and performance format.

Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.

APM 303
MUSICAL COACHING FOR SINGERS
Undergraduate
(2 credits) Students meet in a masterclass format for musical and diction coaching in their current repertoire. COREQUISITE: Students must be enrolled in applied voice.

APV 100 or APV 400 is a corequisite for this class.

APM 304
VOCAL COACHING II
Undergraduate
(1 credit) Develop musical and dramatic performance of the repertoire being studied (with special regard to recital material), integrating stylistic considerations, ornamentation, and cadenzas.

An undergraduate vocal performance major and a completed petition to major is a prerequisite for this class.

APM 305
SENIOR RECITAL
Undergraduate
A full 60 minute, public recital performance of solo and/or chamber repertoire to be completed in the Senior year. This recital is required as partial fulfillment of the degree of Bachelor of Music in Performance. COREQUISITE: Students must be registered for a total of 4 credits of applied lessons during the quarter the recital is presented.

A petition to major is a prerequisite for this class.

APM 306
HARPSICHORD PERFORMANCE PRACTICE
Undergraduate
(2 credits) This course is designed to introduce the harpsichord to pianists so that they may gain basic knowledge and understanding, as well as practice, of the this predecessor of the piano.

Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.
APM 308
BAROQUE PERFORMANCE PRACTICE-INSTRUMENTAL
Undergraduate
This performance-oriented course focuses on the pedagogical stance and practice of interpreting and performing music of the baroque era, mainly 18th century. Open to all instrumentalists, this course is cumulative in its survey of the aspects of Baroque performance practice based on the treatises and various writings of the time as well as current scholarly research done by highly regarded early music specialists.

APM 309
AN ENTREPRENEURIAL APPROACH TO PRESENTING MUSIC IN TODAY’S MARKETPLACE
Undergraduate
Through opportunity creation, case study, discussion and peer evaluation, this course analyzes and simulates the professional performing arts marketplace, providing collaborative hands-on experience for performers and arts managers-in-training. In this course, performers will hone their musical point-of-view and create an original, self-produced performance opportunity in the DePaul community, with marketing materials and a business structure to support their project. Arts Management students will collaborate with performers on these projects, providing support to their colleagues in a way that models their future professional activities. Each student will also be responsible for analyzing a current successful model, identifying keys to success. This course is intended to bridge the transition from college to career, providing the artistic, career development and entrepreneurship training that have become essential in today’s professional environment. (2 CREDITS)

APM 311
WOODWIND PEDAGOGY
Undergraduate
(2 credits) This course is designed to provide students with an overview of the important aspects of woodwind pedagogy. Students will gain the necessary tools to teach woodwind students of all ages and ability levels.

Status as a Undergraduate Woodwind student who has passed the petition to major is a prerequisite for this class.

APM 315
THE BUSINESS OF MUSIC FROM THE PERFORMER’S PERSPECTIVE
Undergraduate
(2 credits) Explorations of the business aspects of the performing musician. Topics will include unions, networking, free-lancing, audition preparation, taxes, and ethics. Seminar format.

Status as a Music student is a prerequisite for this class.

APM 328
ORCHESTRAL REPERTOIRE FOR WOODWINDS I: LITERATURE PERFORMANCE
Undergraduate
(2 credits) Detailed study of significant woodwind orchestral literature, with special emphasis on improving ensemble skills. Each week will feature new repertoire to be performed and rehearsed during the class (Spring Quarter alternate years).

Status as a Undergraduate Woodwind student who has passed the petition to major is a prerequisite for this class.

APM 329
WOODWIND ORCHESTRAL REPERTOIRE II: AUDITION PREPARATION
Undergraduate
(2 CREDITS) an overview of orchestral ensemble skills, with special emphasis on audition preparation and experience. Students will take several auditions over the course of the quarter to improve their understanding of the audition experience. (Spring quarter, alternate years)

APM 331
THE ART OF THE PIANO
Undergraduate
The course is designed to introduce the art of piano playing as a part of broader spectrum of the world culture, and to guide the students in their search for the true mastery, where playing the instrument is identified as an artistic expression of spiritual freedom, and technical prowess is seen as a step to meaningful communication.

APK 150 is a corequisite for this class.
APM 332  
PIANO PEDAGOGY I  
Undergraduate 
(2 credits) History and mechanism of the piano, pedagogy involving tone, technique, pedal, style and ornamentation; critical evaluation of editions and various teaching materials.

Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.

APM 333  
PIANO PEDAGOGY II  
Undergraduate 
(2 credits) History and mechanism of the piano, pedagogy involving tone, technique, pedal, style and ornamentation; critical evaluation of editions and various teaching materials.

Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.

APM 336  
VOICE PEDAGOGY  
Undergraduate 
(2 credits) Study and analysis of fundamentals of vocal training, evidenced in various teaching approaches-scientific, mechanistic, empirical.

An undergraduate vocal performance major and a completed petition to major is a prerequisite for this class.

APM 337  
ALEXANDER TECHNIQUE  
Undergraduate 
(1 credit) Introduction to the Alexander Technique as applied to musical performance. A repeatable class; serves as an elective.

Status as a Music student is a prerequisite for this class.

APM 340  
ORCHESTRAL REPERTOIRE FOR STRINGS I  
Undergraduate 
(2 credits) Study of standard orchestral repertoire in homogeneous instrument classes: Baroque/Classical. A year-long sequence of courses.

Status as a Undergraduate String Performance student who has passed the petition to major is a prerequisite for this class.

APM 341  
ORCHESTRAL REPERTOIRE FOR STRINGS II  
Undergraduate 
(2 credits) Study of standard orchestral repertoire in homogeneous instrument classes: Romantic. A year-long sequence of courses.

Status as an Undergraduate String Performance Major and APM 340 are a prerequisite for this class.

APM 342  
ORCHESTRAL REPERTOIRE FOR STRINGS III  
Undergraduate 

Status as an Undergraduate String Performance Major and APM 341 are a prerequisite for this class.

APM 343  
ORCHESTRAL REPERTOIRE FOR STRING BASS  
Undergraduate 
(2 credits) Students will study, discuss, and perform orchestral excerpts for the string bass. This is a required course for all undergraduate string bass performance majors.
APM 346
PERCUSSION PEDAGOGY
Undergraduate

The Percussion Pedagogy Course presents teaching techniques of all the major percussion instruments, for students of beginning through advanced levels of proficiency. This includes exploring techniques for motivating young students. The course also includes an in-depth examination of pertinent published teaching materials, such as method books and collections.

A petition to major is a prerequisite for this class.

APM 347
ORCHESTRAL REPERTOIRE FOR PERCUSSION
Undergraduate

(2 credits) Study of standard orchestral repertoire.

An Undergraduate Percussion Performance major and a completed petition to major is a prerequisite for this class.

APM 350
INTERPRETATION OF VOCAL LITERATURE I
Undergraduate

(2 credits) Study and demonstration of performance practices (16th-century to present), language orientation in German; stress on performance demonstrated by students. A repeatable class.

Status as a Graduate Voice student or an Undergraduate Voice Performance major with a completed petition to major is a prerequisite for this class.

APM 351
INTERPRETATION OF VOCAL LITERATURE II
Undergraduate

(2 credits) Study and demonstration of performance practices (16th-century to present), language orientation in French; stress on performance demonstrated by students. A repeatable class.

A successful petition to major in Vocal Performance is a prerequisite for this class.

APM 352
INTERPRETATION OF VOCAL LITERATURE III
Undergraduate

Interpretation of Vocal Literature. (2 hrs. each.) Study and demonstration of performance practices (16th-century to present), language orientation in Italian and English; stress on performance demonstrated by students. A repeatable class.

Status as a Guitar Performance Major and APM 377 or permission of instructor are a prerequisite for this class.

APM 353
TECHNIQUES OF THE MUSIC STAGE I
Undergraduate

(2 credits) Study, coaching, rehearsal and performance of music drama and opera. A year-long sequence of courses.

An undergraduate vocal performance major and a completed petition to major is a prerequisite for this class.

APM 354
TECHNIQUES OF THE MUSIC STAGE II
Undergraduate

(2 credits) Study, coaching, rehearsal and performance of music drama and opera. A year-long sequence of courses.

Status as a Guitar Performance Major and APM 377 or permission of instructor are a prerequisite for this class.
APM 356
OPERA WORKSHOP
Undergraduate
(2 credits) This is a results oriented course for students who have completed basic acting/performing studies and are ready to engage those skills in work to be presented for public performance.

APM 353 and APM 354 are a prerequisite for this class.

APM 360
TOPICS IN PERFORMANCE
Undergraduate
(2-4 credits) In depth investigation of a topic in performance studies.

Status as a Music student is a prerequisite for this class.

APM 361
PIANO LITERATURE I: RENAISSANCE, BAROQUE & CLASSICAL
Undergraduate
(2 credits) The purpose of this course is to give piano majors an in-depth look at the role that the piano has played throughout history, not only as a solo instrument but also as a crucial element of any collaborative music making.

Status as a piano performance student who has passed the petition to major, a graduate keyboard student, or certificate student is a prerequisite for this class.

APM 362
PIANO LITERATURE II: ROMANTICISM
Undergraduate
(2 credits) The purpose of this course is to give piano majors an in-depth look at the role that the piano has played throughout history, not only as a solo instrument but also as a crucial element of any collaborative music making.

Status as a piano performance student who has passed the petition to major, a graduate keyboard student, or certificate student is a prerequisite for this class.

APM 363
PIANO LITERATURE III: LATE 19th - 21st CENTURY
Undergraduate
(2 credits) The purpose of this course is to give piano majors an in-depth look at the role that the piano has played throughout history, not only as a solo instrument but also as a crucial element of any collaborative music making.

Status as a piano performance student who has passed the petition to major, a graduate keyboard student, or certificate student is a prerequisite for this class.

APM 372
ORCHESTRAL REPERTOIRE FOR BRASS
Undergraduate
(2 credits) Study of standard orchestral repertoire.

An undergraduate brass performance major and a completed petition to major is a prerequisite for this class.

APM 373
BRASS CONCEPTS
Undergraduate
(2 credits) A study of brass literature, performance, pedagogy and crucial professional career responsibilities and opportunities.

An undergraduate brass performance major and a completed petition to major is a prerequisite for this class.
APM 374
BRASS INSTRUMENT PERFORMANCE STYLE
Undergraduate
(2 credits) Survey of solo and orchestral performance styles through the principal composers of the 19th and 20th centuries. Analysis of new demands placed on performers in the 21st century. Study of stylistic concepts based on historical, technical, national, and aesthetic considerations.

A petition to major is a prerequisite for this class.

APM 377
GUITAR HISTORY AND LITERATURE I
Undergraduate
(2 credits) Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses.

Status as a Undergraduate Guitar Performance student who has passed the petition to major is a prerequisite for this class.

APM 378
GUITAR HISTORY AND LITERATURE II
Undergraduate
Guitar History and Literature II (2 hrs.) Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses.

Status as a Guitar Performance Major and APM 377 or permission of instructor are a prerequisite for this class.

APM 379
GUITAR HISTORY AND LITERATURE III
Undergraduate
(2 credits) Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses.

Status as a Guitar Performance Major and APM 377 or permission of instructor are a prerequisite for this class.

APM 384
STRING PEDAGOGY I
Undergraduate
(2 credits) Traditional and Suzuki Pedagogy of private instruction for string majors; guitar majors enroll in a separate section. A year-long sequence of courses.

Status as a String Performance or Music Education Major is a prerequisite for this class.

APM 385
STRING PEDAGOGY II
Undergraduate
(2 credits) Traditional and Suzuki Pedagogy of private instruction for string majors; guitar majors enroll in a separate section. A year-long sequence of courses.

Status as a String Performance or Music Education major and APM 384 is a prerequisite for this class.

APM 386
STRING PEDAGOGY III
Undergraduate
(2 credits) Traditional and Suzuki Pedagogy of private instruction for string majors; guitar majors enroll in a separate section. A year-long sequence of courses.

Status as a String Performance or Music Education major and APM 38 is a prerequisite for this class.
APM 387
STUDIO TEACHING AS A PROFESSION
Undergraduate
(cross-listed as APM 384) Strategies and techniques for the professional studio teacher.

A petition to major is a prerequisite for this class.

APM 389
ADVANCED VOCAL DICTION (PREREQ: APM 125,126,127,225,226,227 OR INSTRUCTOR PERMISSION.)
Undergraduate
(2 credits) Advanced study of German, French, or Italian diction. Junior or senior status required. COREQUISITE(S): Students must be enrolled in applied voice lessons simultaneously.

APM 125, APM 126, APM 127, APM 225, APM 226 and APM 227 are a prerequisite for this class.

APM 397
INTERNSHIP
Undergraduate
Status as a Music student is a prerequisite for this class.

APM 398
INDEPENDENT STUDY
Undergraduate
Status as a Music student is a prerequisite for this class.

APM 400
OPERA WORKSHOP
Graduate
(2 credits) This is a results oriented course for students who have completed basic acting/performing studies and are ready to engage those skills in work to be presented for public performance.

Status as a Graduate Music student is a prerequisite for this class.

APM 403
MUSICAL COACHING FOR SINGERS
Graduate
(2 credits) Students meet in a masterclass format for musical and diction coaching in their current repertoire. COREQUISITE: Students must be enrolled in applied voice.

APV 100 or APV 400 is a corequisite for this class.

APM 405
GRADUATE RECITAL
Graduate
A full 60 minute, public recital performance of solo and/or chamber repertoire to be completed during the graduate residence. This recital is required as partial fulfillment of the degree of Master of Music in Performance and for the post-Masters Certificate in Performance. COREQUISITE: Students must be registered for a total of 4 credits of applied lessons during the quarter the recital is presented.

APM 405 is a prerequisite for this class.

APM 408
BAROQUE PERFORMANCE PRACTICE- INSTRUMENTAL
Graduate
This performance-oriented course focuses on the pedagogical stance and practice of interpreting and performing music of the baroque era, mainly 18th century. open to all instrumentalists, this course is cumulative in its survey of the aspects of Baroque performance practice based on the treatises and various writings of the time as well as current scholarly research done by highly regarded early music specialists.

Status as a Graduate Music student is a prerequisite for this class.
APM 409
AN ENTREPRENEURIAL APPROACH TO PRESENTING MUSIC IN TODAY'S MARKETPLACE
Graduate
Through opportunity creation, case study, discussion and peer evaluation, this course analyzes and simulates the professional performing arts marketplace, providing collaborative hands-on experience for performers and arts managers-in-training. In this course, performers will hone their musical point-of-view and create an original, self-produced performance opportunity in the DePaul community, with marketing materials and a business structure to support their project. Arts Management students will collaborate with performers on these projects, providing support to their colleagues in a way that models their future professional activities. Each student will also be responsible for analyzing a current successful model, identifying keys to success. This course is intended to bridge the transition from college to career, providing the artistic, career development and entrepreneurship training that have become essential in today's professional environment. (2 CREDITS)
Status as a Graduate Music student is a prerequisite for this class.

APM 411
WOODWIND PEDAGOGY
Graduate
(2 credits) This course is designed to provide students with an overview of the important aspects of woodwind pedagogy. Students will gain the necessary tools to teach woodwind students of all ages and ability levels.
Status as a Graduate Music student is a prerequisite for this class.

APM 414
THE BUSINESS OF MUSIC FROM THE PERFORMER'S PERSPECTIVE
Graduate
(2 credits) Explorations of the business aspects of the performing musician. Topics will include unions, networking, free-lancing, audition preparation, taxes, and ethics. Seminar format.
Status as a Graduate Music student is a prerequisite for this class.

APM 415
ITALIAN DICTION/ LANGUAGE LAB FOR GRADUATE STUDENTS
Graduate
This course is offered in conjunction with the first year of graduate vocal study. It focuses on the translation, pronunciation, grammatical understanding, and interpretation of Italian texts.
Status as a Graduate Voice Performance student is a prerequisite for this class.

APM 416
GERMAN DICTION/ LANGUAGE LAB FOR GRADUATE STUDENTS
Graduate
This course is offered in conjunction with the first year of graduate vocal study. It focuses on the translation, pronunciation, grammatical understanding, and interpretation of German texts.
Status as a Graduate Voice Performance student is a prerequisite for this class.

APM 417
FRENCH DICTION/ LANGUAGE LAB FOR GRADUATE STUDENTS
Graduate
This course is offered in conjunction with the first year of graduate vocal study. It focuses on the translation, pronunciation, grammatical understanding, and interpretation of French texts.
Status as a Graduate Voice Performance student is a prerequisite for this class.

APM 428
ORCHESTRAL REPERTOIRE FOR WOODWINDS I: LITERATURE PERFORMANCE
Graduate
(2 credits) Detailed study of significant woodwind orchestral literature, with special emphasis on improving ensemble skills. Each week will feature new repertoire to be performed and rehearsed during the class (Spring Quarter alternate years).
Status as a Graduate Music student is a prerequisite for this class.
APM 429
ORCHESTRAL REPERTOIRE FOR STRINGS
Graduate
(1 credit) Study of standard orchestral repertoire.
Status as a Graduate String Performance student is a prerequisite for this class.

APM 431
THE ART OF THE PIANO
Graduate
The course is designed to introduce the art of piano playing as a part of broader spectrum of the world culture, and to guide the graduate students in their search for the true mastery, where playing the instrument is identified as an artistic expression of spiritual freedom, and technical prowess is seen as a step to meaningful communication.
Status as a Graduate Piano student or Music Performance certificate student is a prerequisite for this class.

APM 432
ORCHESTRAL REPERTOIRE FOR STRING BASS
Graduate
(2 credits) Students will study, discuss, and perform orchestral excerpts for the string bass.
Status as a Graduate String Bass Performance student or Music Performance certificate student is a prerequisite for this class.

APM 433
WOODWIND ORCHESTRAL REPERTOIRE II: AUDITION PREPARATION
Graduate
(2 CREDITS) an overview of orchestral ensemble skills, with special emphasis on audition preparation and experience. Students will take several auditions over the course of the quarter to improve their understanding of the audition experience. (Spring quarter, alternate years)

APM 437
ALEXANDER TECHNIQUE
Graduate
(1 credit) Introduction to the Alexander Technique as applied to musical performance. A repeatable class; serves as an elective.
Status as a Graduate Music student is a prerequisite for this class.

APM 441
ACCOMPANYING PRACTICUM
Graduate
(1 credit) The course is designed to give students an opportunity to learn different styles and practice accompanying voice, wind, and string instrumentalists in studio and performance format.
Status as a Graduate Piano student or Music Performance certificate student is a prerequisite for this class.

APM 442
ACCOMPANYING CLASS
Graduate
(2 credits) Role of pianist as accompanist.
Status as a Graduate Piano student or Music Performance certificate student is a prerequisite for this class.

APM 443
CHAMBER MUSIC WORKSHOP
Graduate
Status as a Graduate Music student is a prerequisite for this class.
APM 446  
PERCUSSION PEDAGOGY  
Graduate  
(3 credits)  
Status as a Graduate Music student is a prerequisite for this class.

APM 447  
ORCHESTRAL REPERTOIRE: PERCUSSION  
Graduate  
Study of standard orchestral repertoire.  
Status as a Graduate Percussion student is a prerequisite for this class.

APM 451  
PIANO PEDAGOGY  
Graduate  
(3 credits)  Offered Fall Quarter only.  
Status as a Graduate Piano student or Music Performance certificate student is a prerequisite for this class.

APM 453  
ADVANCED TECHNIQUES OF THE MUSIC STAGE  
Graduate  
(2 credits)  
Status as a Graduate Voice Performance student is a prerequisite for this class.

APM 461  
PIANO LITERATURE  
Graduate  
(2 credits)  The purpose of this course is to give piano majors an in-depth look at the role that the piano has played throughout history, not only as a solo instrument but also as a crucial element of any collaborative music making.

APM 471  
BRASS CONCEPTS  
Graduate  
(2 credits)  
Status as a Graduate Brass student is a prerequisite for this class.

APM 472  
ORCHESTRAL REPERTOIRE FOR BRASS  
Graduate  
(1 credit)  Study of standard orchestral repertoire.  
Status as a Graduate Brass student is a prerequisite for this class.

APM 474  
BRASS INSTRUMENT PERFORMANCE STYLE  
Graduate  
(2 credits)  Survey of solo and orchestral performance styles through the principal composers of the 19th and 20th centuries. Analysis of new demands placed on performers in the 21st century. Study of stylistic concepts based on historical, technical, national, and aesthetic considerations.  
Status as a Graduate Music student is a prerequisite for this class.
APM 477
GUITAR HISTORY AND LITERATURE I
Graduate
(2 credits) Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses.

APM 478
GUITAR HISTORY AND LITERATURE II
Graduate
Guitar History and Literature II. Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses.

APM 477 or permission of instructor is a prerequisite for this class.

APM 479
GUITAR HISTORY AND LITERATURE III
Graduate
Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses.

APM 478 or permission of instructor is a prerequisite for this class.

APM 486
STRING PEDAGOGY
Graduate
(2 credits) Concepts and philosophies, teaching beginners to advancing students, and coaching chamber music.

Status as a Graduate String student is a prerequisite for this class.

APM 487
ADVANCED VOCAL DICTION
Graduate
(2 credits) Advanced study in Italian, French and German diction, phrasing and text translation.

Status as a Graduate Music student is a prerequisite for this class.

APM 488
STUDIO TEACHING AS A PROFESSION
Graduate
Strategies and techniques for the professional studio teacher. (2 credit)

Status as a Graduate Music student is a prerequisite for this class.

APM 496
VOICE PEDAGOGY
Graduate
(2 credits) Study and analysis of fundamentals of vocal training, evidenced in various teaching approaches-scientific, mechanistic, empirical.

Status as a Voice graduate student is a prerequisite for this class.

APM 498
INDEPENDENT STUDY
Graduate
INDEPENDENT STUDY

Status as a Graduate Music student is a prerequisite for this class.
APP 100
PERCUSSION
Undergraduate
(2 or 4 credits) Open only to School of Music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All undergraduate music students may enroll in up to 48 quarter hours of applied study during their undergraduate career. No student may exceed the 48 quarter hour limit.

Status as an Undergraduate Music student is a prerequisite for this class.

APP 400
PERCUSSION
Graduate
(2 or 4 credits) Open only to music students. Students may not enroll in applied lessons in excess of 4 quarter hours per quarter. All graduate music students may enroll in up to 24 quarter hours of applied study during their graduate career. No student may exceed the 24 quarter hour limit.

Status as a Graduate Music student is a prerequisite for this class.

ARB 101
BASIC ARABIC I
Undergraduate
Listening to, speaking, reading and writing Arabic in a cultural context for the beginning student.
ARB 102
BASIC ARABIC II
Undergraduate
Continued emphasis on the four skills in culturally authentic situations.

ARB 103
BASIC ARABIC III
Undergraduate
Further work on the basic elements of the Arabic language, spoken as well as written, with due regard to the cultural context of Arabic expression.

ARB 104
INTERMEDIATE ARABIC I
Undergraduate
Intensive practice in the use of Arabic through listening, speaking, reading and writing, and continued enhancement of the cultural awareness intrinsic to those skills.

ARB 105
INTERMEDIATE ARABIC II
Undergraduate
Continuing practice in spoken and written Arabic and further development of reading and listening abilities in an authentic cultural context.

ARB 106
INTERMEDIATE ARABIC III
Undergraduate
Developing more fluency in speaking, understanding, reading and writing Arabic with a concomitant heightened awareness of the cultural dimensions of the Arabic language.

ARB 197
SPECIAL TOPICS IN ARABIC
Undergraduate
See schedule for current offerings.

ARB 198
STUDY ABROAD
Undergraduate
Variable credit.

ARB 199
INDEPENDENT STUDY
Undergraduate
Variable credit.

ARB 201
ADVANCED ARABIC I
Undergraduate
Advanced reading and comprehension, with emphasis on recognizing and understanding the perspectives and patterns of Arabic culture.

ARB 202
ADVANCED ARABIC II
Undergraduate
Advanced practice in writing and composition, with emphasis on grammatical accuracy, text development skills, and vocabulary expansion.
ARB 203
ADVANCED ARABIC III
Undergraduate
Advanced practice of oral skills in both formal and informal usage, with emphasis on correct pronunciation, sentence structure, appropriate vocabulary, and cultural context.

ARB 297
SPECIAL TOPICS IN ARABIC
Undergraduate
See schedule for current offerings.

ARB 298
STUDY ABROAD
Undergraduate
Variable credit.

ARB 299
INDEPENDENT STUDY
Undergraduate
Variable credit.

ARB 300
ARABIC GRAMMAR
Undergraduate
A comprehensive review of Arabic grammar with focus on its application to the development of communicative competence.
ARB 106 is a prerequisite for this class.

ARB 301
ARAB BROADCAST MEDIA
Undergraduate
Intensive study of the vocabulary and expressions of Modern Standard Arabic as used in Arab broadcast media.

ARB 302
ARABIC PRINT MEDIA
Undergraduate
Development of vocabulary and terminology commonly used in Modern Standard Arabic media in order to comprehend oral and written media discourse.

ARB 311
ARABIC SHORT STORIES
Undergraduate
A survey of the history and development of short stories in Arabic literature from various Arab countries with focus on language, content analysis, forms, and cultural content relevant to major elements of Arab culture.
ARB 106 is a prerequisite for this class.

ARB 313
ARABIC FILM
Undergraduate
Survey of the development of Arabic films in the Arab world with examination of sample works from various periods that allow reflection on Arab culture and the social, political, and religious issues that define that culture.
ARB 106 is a prerequisite for this class.
ARB 320
BUSINESS ARABIC
Undergraduate
Content-based instruction with focus on business vocabulary, syntax, and basic linguistic skills necessary for functioning in an Arab business context.

ARB 106 is a prerequisite for this class.

ARB 330
ARABIC TRANSLATION
Undergraduate
Focuses on the thorough introduction to translation (including theory) as well as initiation to the latest technologies available to translators: web-based dictionaries, thesauruses, etc. Introduces students to various translation techniques and emphasizes the need for technical knowledge as required by specific fields. Three years of college Arabic recommended.

ARB 350
ARABIC LITERATURE
Undergraduate
Survey of Arabic literary forms, including the short story, novel, and poetry, selected to help students explore how these major literary forms shape what the writer perceives and express, and how the reader receives and interprets the text. Students will be expected to develop their critical skills (read, analyze, and appraise literary texts), to synthesize their observations, and to express their ideas clearly and persuasively orally and in writing.

ARB 397
SPECIAL TOPICS IN ARABIC
Undergraduate
See schedule for current offerings.

ART 101
DIGITAL TOOLS FOR VISUAL THINKERS
Undergraduate
As digital media become a requisite aspect of the artist and designer's professional preparation, this foundation level course focuses on building basic skills in the most common digital imaging tools. The course will cover two applications, one pixel-based imaging (Photoshop), and one vector-based imaging (Illustrator). It is designed to give students an introduction to how these applications can be used as ideational tools for exploring visual problems, possibilities and solutions, how they can be used to create digital images for output and how they can be integrated with traditional analog media and tools.
ART 104
CREATING ART
Undergraduate
A studio course that uses visual problems and critical discussions to develop creative and perceptual abilities; relates these abilities to the principles of art in cultural and historic contexts (non-art majors).

ART 105
TWO-DIMENSIONAL FOUNDATIONS
Undergraduate
Development of perceptual ability through the analysis of two dimensional concepts of line, shape, value, texture, color, space and organization. Materials Fee.

ART 106
BEGINNING DRAWING
Undergraduate
Introduction to composition, line and rendering in black and white drawing media. Basic techniques for descriptive and expressive use of drawing media. Materials Fee.

ART 107
THEATRE DRAWING I
Undergraduate
The first in a three quarter sequence of general drawing courses exclusively for students enrolled in the Theater School. Two credit hours. Open to Theatre students only.

Must be a student in the Theatre School.

ART 108
THEATRE DRAWING II
Undergraduate
ART 107 and a student in the Theatre School are prerequisites for this course.

ART 109
THEATRE DRAWING III
Undergraduate
Must be a student in the Theatre School.

ART 110
BEGINNING PAINTING
Undergraduate
An introduction to basic organizational and technical concepts in painting. The preparation and proper use of materials is also stressed.

ART 105 is a prerequisite for this class.

ART 113
THREE DIMENSIONAL FOUNDATIONS
Undergraduate
Development of perceptual ability through the analysis of three-dimensional concepts of line, shape, material, light, movement, and organization. Materials Fee.
ART 114
FOUR DIMENSIONAL FOUNDATIONS
Undergraduate
This course is an introduction to the shared elements and principles of time-based art forms. Course will examine those elements and principles on examples of three time-based mediums: performance (body art), video, and one of interactive art forms that uses Flash software. Students at the beginning of each three-week session will be introduced to one of three mediums with gradual project development and execution at the end of three-week period. Lectures, demonstrations, exercises, and in-class and home assignments and assigned readings about the process, form, and content specific to time-based art forms, will be main vehicles for delivering the course content to students.

ART 115
BEGINNING SCULPTURE
Undergraduate
An introduction to traditional and contemporary approaches to sculpture with an emphasis on clay modeling, plaster casting, and carving. Studio core course. Materials Fee.

ART 118
THINKING PHOTOGRAPHY
Undergraduate
This is a required course for Media Arts majors. It takes a critical and historical look at "the arts of mechanical reproduction" and lens-based image making. As a lecture class, it may include some very basic shooting exercises that could easily be carried out by "snapshot" or disposable cameras - either film or digital.

ART 200
ART & ARTISTS IN CONTEMPORARY CULTURE
Undergraduate
This course will use a mixed lecture/discussion format and thematic approach to consider works on art and design produced in the last 30 years as a means of contextualizing recent works of art. The primary approach to this material will be from the perspective of the artmaker (artist or designer), for whom art theory, criticism, and history are crucial tools for developing effective and meaningful work. For that reason, this class will be taught by studio faculty. The class will make extensive use of the city's contemporary museums, galleries, exhibitions and works of public art to emphasize the social, economic, and political context from which works of art and design emerge as indicators or signposts of contemporary cultural concerns. Students cannot receive credit for both ART 200 and ART 222.

ART 204
VISUAL COMMUNICATION
Undergraduate
A studio course applying visual principles of communication to written presentations using the most common PC graphics programs mostly Photoshop and Illustrator. (non-art majors and art majors).

ART 205
COLOR THEORY AND APPLICATION
Undergraduate
Explorations into the use of color in both paint and computer applications. Materials Fee.

ART 206
INTERMEDIATE DRAWING
Undergraduate
Continued development and exploration into the rendering of space with an introduction to a wider range of drawing media and contemporary art applications in drawing. Materials Fee.

ART 101 or instructor permission is a prerequisite for this course.
ART 210
INTERMEDIATE PAINTING I
Undergraduate
A development of skills and concepts beyond the basic level. Problems that stress advanced concepts of theme, color and spatial design are studied. Materials Fee.

ART 105 and 110 are a prerequisite for this class.

ART 211
INTERMEDIATE PAINTING II
Undergraduate
Intermediate Painting II. Materials fee.

ART 105, ART 106 and ART 110 are a prerequisite for this class.

ART 212
WATERCOLOR PAINTING
Undergraduate
The investigation of aqueous medium in thin transparent washes, using a variety of subjects. Spontaneity of medium is stressed in order capture the nuance of color and light. Materials Fee.

ART 105 or ART 106 or instructor permission is a prerequisite for this course.

ART 213
SPACE DESIGN
Undergraduate
Application of three-dimensional principles to basic issues of space and object design. Introduction to professional presentation techniques. Materials Fee.

ART 113 and ART 115 are a prerequisite for this class.

ART 214
CERAMIC SCULPTURE
Undergraduate
An exploration of ceramic techniques for constructing and firing expressive sculptural forms. Materials Fee.

ART 113 is a prerequisite for this class.

ART 215
INTERMEDIATE SCULPTURE
Undergraduate
Introduction to basic wood and metal working techniques for producing constructed sculpture. Focuses on modern and contemporary issues in sculpture. Materials Fee.

ART 115 is a prerequisite for this class.

ART 217
ADVANCED THREE-DIMENSIONAL DESIGN
Undergraduate
Advanced investigation of three dimensional design concepts. Course is a sequel to ART 213. Materials Fee.

ART 113, ART 115 and ART 213 are a prerequisite for this class.

ART 218
FIGURE DRAWING
Undergraduate
A study of the human figure through an exploration of anatomy combined with various drawing processes. Materials Fee.

ART 106 is a prerequisite for this class.
ART 219
BEGINNING FIGURE SCULPTURE
Undergraduate
This course provides opportunities for learning how to represent the dynamic human figure in three dimensions and welcomes students with no experience in figure studies as a first introduction to the figure. All class work will be done from a nude model. Home assignments will consist of figure drawings either from departmental Open Studio Figure Drawing sessions or from assigned figure drawings of great masters. Students will be taught basic technical and eye/hand coordination skills necessary to depict the human figure three dimensionally as well as basic understanding of the proportions of the human figure and ability to implement them. This course will also introduce to students the concept of the human figure as a dynamic three dimensional entity. Students will have an opportunity to work from a nude model for nine weeks, examining human anatomy, body proportions and different gesture poses.

ART 106 or ART 115 or instructor permission is a prerequisite for this course.

ART 223
LIGHT, COLOR, AND PHOTOGRAPHY
Undergraduate
Principles of image making with lenses, mirrors and photographic processes. Discusses the physical properties of light and color including those used in laser and holography.

LSP 120 or HON 180 or (MAT 130 or above) is a prerequisite for this course,

ART 224
BEGINNING DIGITAL PHOTOGRAPHY
Undergraduate
An introduction to digital photographic processes emphasizing photographing with digital cameras, image correction and modification and printing.

ART 225
BEGINNING PHOTOGRAPHY
Undergraduate
Introduction to the theoretical and technical foundations of photography with exploration of the medium's aesthetic, documentary and narrative purposes. Replaces 206 as a core course for the Media Arts. Materials Fee.

ART 226
VIDEO ART
Undergraduate
An introductory level course designed to familiarize students with the uses of video in a variety of artistic practices. These encompass non-narrative treatments in a multiple forms including single and multi-use of monitors and projection, installation, and performance. Hands-on skills will be developed and will be edited in Final Cut. HD cameras are available for check out at the art department.

ART 227
DIGITAL IMAGING FOR ART AND DESIGN
Undergraduate
Students will develop dexterity and finesse as digital illustrators and imagers using two of the most powerful and ubiquitous computer software tools available in contemporary design: Adobe Photoshop & Adobe Illustrator. Manual drawing and traditional photographic techniques will be applied to the development of digital images. The primary focus will be on analytic problem solving and developing students' abilities to create complex images, illustrations and icons that effectively convey content and create context.

ART 101 and ART 105 are a prerequisite for this class.

ART 228
COMPUTER APPLICATIONS FOR DESIGN II
Undergraduate
This course will introduce students to professional layout techniques including page templates, formatting and preparing files per industry-specific guidelines for spot and process color offset printing. Students will design complex, multi-page documents utilizing intermediary layout, typographic and illustration skills. A broad range of conceptual layout principles and additional procedural preparations and “pre-flighting” expectations will be examined. Adobe InDesign will be the layout software utilized. HIGHLY RECOMMENDED: ART 260.

ART 101, ART 105, ART 227, and ART 264 are a prerequisite for this class.
ART 229  
PRINTMAKING I  
Undergraduate
Training in the artistic possibilities of a variety of techniques, including wood-cut, intaglio and mono-print, used in the production of limited edition prints. Materials Fee.

ART 105 and ART 106 are a prerequisite for this class.

ART 230  
ISSUES IN ENVIRONMENTAL DESIGN  
Undergraduate
Issues in Environmental Design is an introductory course that will examine concepts, theories and practices across multiple scales of design, including graphic, product, architecture, landscape architecture and urban design. We will explore the history and practice of eco-design as well as sustainable design in modern cultures. The environmental impact of design will be examined in relation to everyday products, as well as the consumer culture that feeds their mass production. Examples of excellence will be explored through the examination of case studies; local demonstrations will illustrate the theme of ‘restorative design; and artists projects that address environmental issues will also be studied. The underlying theme is the connection between culture and nature, and how we much reduce our negative impact on systems that support all life while building positive systems that support all life.

ART 245  
MIXOLOGY: COMBINING 2D MEDIA AND PROCESSES  
Undergraduate
This is an intermediate course utilizing varied 2D media and processes including digital imaging. This will allow students to explore contemporary means and sensibilities through media that reflect a broader range of visual, material and conceptual interests. This will give students a larger repertoire to choose from when making images. Building on the knowledge of oil painting materials and techniques that students gain in the ART 110 Beginning Painting course, ART 245 will also utilize water-based painting materials such as watercolor, gouache, acrylic polymers and gel media. Students will explore techniques such as collage, frottage, stamping, stenciling, relief printing, found image transfer and digital print output in combination with painting and drawing media.

ART 105, ART 106 and ART 110 are a prerequisite for this class.

ART 260  
ART & DESIGN I: HISTORY, CONCEPT, STRUCTURE  
Undergraduate
This course introduces the world of graphic design in a social and historical context. The goals are to explore formal structures and research methods with emphasis on the role of analysis and conceptual thinking as the first tasks of the print and multi-media designer. The course includes basic instruction to typography.

(ART 101 and ART 105) or ANI 105 are a prerequisite for this class.

ART 264  
TYPOGRAPHY I  
Undergraduate
Study of the formal structures of letter forms and text. Exploration of typography to intend meaning, emphasizing the relationship between form and content.

(ART 101 and ART 105) or ANI 105 are a prerequisite for this class.
ART 283
INTEGRATING ART INTO THE CURRICULUM AND THE COMMUNITY
Undergraduate
This course brings DePaul students into a Chicago grade school to incorporate art into the curriculum. It is a hybrid course that involves some Independent Study in which the students organize their schedule in conjunction with a grade school classroom teacher, and some required classes that they must attend on campus at a prescribed time and day. Students are off campus for approximately 10 class sessions. At the start of the quarter, students are given a theoretical background in community-based art education, ethical issues, and social engagement. Working in teams, students will observe in the classrooms to gain a sense of the grade school community and the existing curriculum. DePaul students will then develop and teach a specific lesson plan in collaboration with the classroom teacher. The objective will be to produce a creative learning experience that co-mingles art and a core subject such as science or social studies. Teaching this art integrated lesson will be an essential aspect of the learning experience. Students will meet back at the DePaul classroom at designated intervals for information, reflection, and the analysis of their experience and their impact on the grade school community, in relations to the theoretical examples from the beginning of the course. These reflections take varied forms: discussion, role-playing exercise, presentation, and papers. Approved for JYEL and cbSL credit.

ART 289
EXPERIMENTAL VIDEO ART
Undergraduate
This course continues the exploration of video as a means of artistic expression with advanced, conceptual, experimental and creative uses of video and sound. Topics include sound art, editing, professional lighting techniques, as well as documentary, theory and history of avant-garde film/video. HD digital cameras will be provided by the art department. Hands-on skills will be developed and projects will be edited in Final Cut Express.

ART 226 or instructor permission is a prerequisite for this course.

ART 290
STUDIO WORKSHOP
Undergraduate
Off campus training in specific studio processes by noted Chicago artists in ceramics or wood working. May be repeated up to 8 hours credit.

ART 291
MURAL PAINTING
Undergraduate
This class has a central focus on the art of mural making. Students will have a hands on experience as they design and execute a mural at a predetermined site. The students will also learn the strategy and design factors of planning a mural piece of their own. This piece will be at a real venue, executed as a small scale illustration brd. piece. This will be done in the classroom in the last part of the qtr. The class functions as a studio class as it meets for 6 hrs. weekly. A minimum of 25 service hours is required. And having either drawing or painting experience on the collegiate level is recommended highly for this class. This class is certified for cbSL and JYEL credit.

ART 292
COMMUNITY VIDEO PRODUCTION
Undergraduate
The heavy emphasis on experiential learning of this course will combine classroom instruction on documentary video production with student fieldwork. Over the course of the term, students will plan, produce and substantially complete a videotape project for a community client. Through the production of a video project specifically designed for a community organization, students will be able to practice production techniques that they learn in the classroom while gaining insight about how video can bring attention to community needs and thus make an impact on communities (outside the classroom). Our goal for this course is to bring students to the point of understanding and mastering the technical elements of video production and understanding these processes within an experiential and service learning context, such that through working on documentary projects, students will come to a point of understanding the history and contemporary needs of a particular community group and how the creation of a finished video can address some of those needs. Students will work to produce projects that are thoughtful, important and technically polished. This class is certified for cbSL and JYEL credit.
ART 293
CHINA IN TRANSITION: SOCIAL PERSPECTIVES IN FILM & PHOTOGRAPHY IN CONTEMPORARY CHINA
Undergraduate
The course content will engage a wide range of issues such as the tension and history of the women's rights movement, the reconstruction of values in gender and sexuality, and the ever-changing urban infrastructures in the economically driven culture. Film and photography are the rising new media for documenting and responding to social issues by scholars, filmmakers and artists expressing the Chinese experience. The methodology of this class will deconstruct and decode three common cultural stereotypes: American representations of China, Chinese official representations of itself, and universal representations of one's experiences as a traveler. Through dialogue and cross-reading materials, we compare films, photography, sites/field trips, interviews and journalistic materials to search for the reality and social issues beneath the visual representation. This course emphasizes the aesthetic, the theory and the hands-on experience of using video and photography during the trip (including a brief lecture on composition, framing and digital photography and/or possible video shooting techniques). We will share finished assignments in group critiques and reading discussions - in both cases, they will be the primary means of evaluation in class. In a critique, students will present their work for response and analysis in relation to the given assignment through a class discussion. This dialogue is intended to be evaluative, to provide constructive criticism and to develop critical thinking skills. This course is open to non-art majors and no prerequisite is required.

ART 294
GENIUS LOCI: ROMAN ARCHETYPES OF PLACE IN VISUAL CULTURE
Undergraduate
This is a semester long study trip to Rome that offers a thematic studio/art history experience concerned with the role that Rome has played in shaping our understanding of place as expressed in visual culture. This course will include such topics as: the influence of Roman approaches to urban organization and development; the influence of national academies in Rome on Western developments in art and architecture, Piranesi and the articulation of utopic and dystopic models derived from Roman culture; the spatial collage of Roman architectural enveloping and fragmentation; illusion and perspective as perceptual puzzle and ideological signifier; and Pasquino and the expression of vox populi in public space. The unique circumstance of urban Rome, where 2500 years of building activity are embedded in the fabric of contemporary life, offers an opportunity to involve students in an interdisciplinary examination of how human needs and desires shape our built environment and are shaped by it.

ART 302
TOPICS IN THE HISTORY OF CINEMA
Undergraduate
Courses on the history of cinema that explore the form, content and historical significance of the media. Taught in the College of Communication with cross-list in Art.

ART 306
ADVANCED DRAWING
Undergraduate
An advanced approach into historical and contemporary approaches to issues and techniques of drawing. Materials Fee.

ART 106 and (ART 206 or ART 218) or instructor consent is a prerequisite for this class.

ART 309
DIGITAL SCULPTURE
Undergraduate
Creating computer models of sculpture and their execution using digital cutters. Materials Fee.

ART 113 and ART 115 are a prerequisite for this class.

ART 310
ADVANCED PAINTING I
Undergraduate
Development of advanced skills in painting with work in a more independent approach to concepts and techniques. Materials Fee.

ART 105, ART 106, ART 110 and ART 210 are a prerequisite for this class.
ART 311  
ADVANCED PAINTING II  
Undergraduate  
Advanced Painting II.

ART 105, ART 106, ART 110, ART 210 and ART 310 are a prerequisite for this class.

ART 312  
FIGURE PAINTING  
Undergraduate  
An introduction to the study of the painted figure in environmental settings. Light, color and spatial illusion are stressed. Materials Fee.

ART 105 and ART 106 is a prerequisite for this class.

ART 313  
PERFORMANCE/INSTALLATION ART  
Undergraduate  
In this upper level course students will utilize their previously acquired skills and background from their respective areas of specialty (painting, drawing, sculpture, photo, video, sound, web and computer application etc) in a new conceptual and spatial context by creating specific environments (installation) and using their bodies in those environments (performance). These hybrid art projects will be presented in a real space and live performance format. Additionally using video and photo documentation as sources, students will create another project in digital format. Students will have the option to concentrate on only one aspect of the course; either installation or performance using either digital or non digital (or combined) formats for their projects.

One 200-level studio course or instructor permission is a prerequisite for this course.

ART 315  
ADVANCED SCULPTURE  
Undergraduate  
Exploration of advanced sculptural themes and techniques determined by the student in consultation with the instructor.

ART 106, ART 113, ART 115 and ART 215 are a prerequisite for this class.

ART 316  
ADVANCED SCULPTURE II  
Undergraduate  
Sequel course to ART 315 to allow the completion of extensive projects. Materials Fee.

ART 106, ART 113, ART 115, ART 215 and ART 315 are a prerequisite for this class.

ART 317  
ADVANCED FIGURE SCULPTURE  
Undergraduate  
This course will provide an expansion and enrichment of skills in modeling the human figure for students with a basic background in the figure. All class work will be done from a nude model. Home assignments will consist of figure drawings either from departmental Open Studio Figure Drawing sessions or from assigned figure drawings of great masters. Students in this course will develop farther their technical and eye/hand coordination skills necessary to depict the human figure three dimensionally in a more professional manner as well as full understanding of the proportions of the human figure and the ability to implement them freely in a dynamic human figure. Course will also point towards the potential possibility of the exploration, conceptualizations and interpretations of the human figure within the contemporary art context or other applications related to the students' interests.

ART 215 or ART 218 or ART 219 or instructor permission is a prerequisite for this course.

ART 318  
ADVANCED FIGURE DRAWING  
Undergraduate  
Encourages the application of perceptual and media skills gained in figure drawing to more advanced and personal works on paper. Materials Fee.

ART 106 and ART 218 are a prerequisite for this class.
ART 321
INTERMEDIATE DIGITAL PHOTOGRAPHY
Undergraduate
This course is a project-based, conceptually oriented exploration of digital photography stressing the uses of the Digital Single Lenses Reflex camera as a tool for image capturing. Class content includes an intermediate to advanced level of digital photographic processes, manipulation, lighting and printing techniques. Central to the approach of the course is an emphasis on thoughtfully and critically considering digital processes as an outgrowth of historically established uses of the medium.
ART 224 or instructor permission is a prerequisite for this course.

ART 323
INTERMEDIATE PHOTOGRAPHY
Undergraduate
An extension of the skills acquired in Beginning Photography with and emphasis on additional photographic formats and documentary situations. Materials Fee.
ART 225 is a prerequisite for this class.

ART 324
PRINTMAKING II
Undergraduate
An advanced course designed for students who have had previous technical experience with the various printmaking media. The goal of this course is to enable students to investigate personal concerns and objectives through an ambitious and concentrated body of work. An emphasis is placed on the development of personal imagery and aesthetic goals.
ART 229 or instructor permission is a prerequisite for this course.

ART 325
ADVANCED PHOTOGRAPHY PROJECTS
Undergraduate
Project-centered course in which students may work with analog and/or digital processes. The goal of this course is to investigate more deeply and expand more broadly students’ familiarity with photography as an expressive medium. This course will further highlight the role of photography as a significant contemporary art form, looking at a number of ways that artists explore and present complex ideas through photography. Class time will be divided between lectures, presentations, discussions, class critiques and lab work.
Two photography courses, at least one of which at the 300 level or instructor permission are prerequisites for this course.

ART 326
SPECIAL TOPICS IN EXPERIMENTAL VIDEO ART
Undergraduate
Advanced explorations of video as a form of artistic expression. Each course will have a unique focus, such as installation art, video and performance, experimental narrative or experimental documentary. This course may be repeated for credit assuming a change in topic. HD Digital cameras will be provided by the art department. Hands-on skills will be developed and projects will be edited in Final Cut Express.
ART 226 or instructor permission is a prerequisite for this course.

ART 328
DOCUMENTARY PHOTOGRAPHY
Undergraduate
Exploration of photographic concepts and techniques used in artistic, journalistic and sociological documentation. Materials Fee.
ART 225 is a prerequisite for this class.

ART 329
ADVANCED DIGITAL PHOTOGRAPHY
Undergraduate
A computer-based exploration of photography employing digital cameras, digital scanning, photo-editing software and color printing. Materials Fee.
ART 225 and (ART 101 or ART 227) or consent of instructor are a prerequisite for this class.
ART 330
PRINTMAKING-ETCHING
Undergraduate
An introduction to the various methods and techniques in the century old process of etching, with an emphasis on both traditional and modern approaches. Materials Fee.

ART 105 and ART 106 is a prerequisite for this class.

ART 331
PRINTMAKING-SERIGRAPHY
Undergraduate
A beginning level course designed to teach the student the basic screen printing techniques, materials and equipment and their proper usage. Materials Fee.

ART 105 and ART 106 is a prerequisite for this class.

ART 332
TOPICS IN PHOTOGRAPHIC PRACTICE
Undergraduate
Focused investigations of specific aesthetic, technical or conceptual issues in the practice of photography. Materials Fee.

ART 224 or ART 225 or consent of instructor is a prerequisite for this class.

ART 333
COMPUTER APPLICATIONS FOR DESIGN: PRE-PRESS
Undergraduate
Builds on skills learned in ART 228. Explores specific areas of graphics and design focusing on pre-press, and exposes students to advanced software. It is highly recommended students take ART 358 before taking this class.

ART 227, ART 228, ART 260, and ART 264 are a prerequisite for this class.

ART 334
SENIOR DESIGN PORTFOLIO
Undergraduate
In this course senior students review previous course projects and prepare a final portfolio as well as their own design identity and a resume in preparation for job interviews and/or graduate school. Visiting design professionals will present their work to the class and share their experiences in the field. Students will also learn presentational techniques and methods for career development.

ART 227, ART 228, ART 260, ART 264, and ART 358 are a prerequisite for this class.

ART 345
ADVANCED MIXED MEDIA
Undergraduate
This course is the sequel to ART 245 Mixed Media Painting and as such is a content driven course with emphasis on understanding medium and material as symbol and idea. The course will offer students a more in-depth understanding of materials and techniques studied in ART 245 as well as prepare them for more conceptually advanced work in painting.

ART 105, ART 106, ART 110 and ART 245 are a prerequisite for this class.
ART 348
ART AND DESIGN III: CLIENT AND COMMUNITY
Undergraduate
This course enables students to research varied communities, complex information systems, processes, tools, and materials involved in the client-based component of visual communications. Students establish working relationships as individuals and in teams that utilize their skills to effectively evaluate the communication needs of an organization or business, develop design solutions that fulfill those needs, and negotiate the process between designers and clients. Objectives of the course include: improving student’s developing design skills to an advanced level, creating awareness of current design trends, supporting student’s development of independent working habits, utilizing integration of both hand-skills and the computer as design tools, and completing professional projects after staged client feedback and revisions. While it is preferably taken in the senior year, this course will still fulfill the Junior Year Experiential Learning requirement and is required for all Art & Design Majors.

ART 227, ART 260, ART 264, and ART 358 are a prerequisite for this class.

ART 358
ART AND DESIGN II: WORD AND IMAGE
Undergraduate
This course explores word and image “texts” within the realm of visual art and design, including analysis of meaning and structure, concrete design composition and communication to specific audiences. Readings, studio projects and discussion of existing design and communication theory in understanding and creating commercial and fine arts works comprises the content of the course.

ART 227, ART 260 and ART 264 are a prerequisite for this class.

ART 359
PUBLICATION DESIGN
Undergraduate
Design of magazines, catalogs, and annual reports. Emphasis placed on research methodology, conceptual approach and audience. Knowledge of computer applications and typography are assumed.

ART 227, ART 228, ART 260, and ART 264 are a prerequisite for this class.

ART 363
ADVERTISING DESIGN
Undergraduate
Explores the function and practice of design in advertising in both social and art historical contexts. It is highly recommended students take ART 358 before taking this class.

ART 227, ART 260 and ART 264 are a prerequisite for this class.

ART 364
COMPUTER APPLICATIONS IN ART
Undergraduate
Use of Photoshop and Illustrator in the design and execution of paintings, drawings, and prints. Materials Fee.

ART 101, ART 105, ART 106 and ART 110 are a prerequisite for this class.

ART 369
TYPOGRAPHY II
Undergraduate
Advanced investigation into typography and text for verbal and visual expression.

ART 227, ART 260, ART 264 and ART 358 are a prerequisite for this class.

ART 377
PHOTOJOURNALISM [CROSS-LISTED AS JOUR 276]
Undergraduate
Introduction to the theoretical and technical foundations of photography with exploration of the medium's aesthetic, documentary and narrative purposes within the context of photojournalism. Cross-listed as JOUR 276.
ART 383
SERVICE LEARNING IN THE ARTS INTERNSHIP
Undergraduate
This course seeks to expose the student to the workings of a professional artist in order for the student to both gain professional experience in the concentration area of their degree and to be of service to a community group that can use the student's help. Students will be assigned an internship in consultation with the instructor and meet several times during the quarter to reflect on their service experience with other interns.

ART 384
ART-RELATED INTERNSHIPS FOR FOR-PROFIT ORGANIZATIONS
Undergraduate
This is a four hour credit supervision class for any Art major or minor that has arranged for an internship with a For-Profit organization to do art-related activity. The class would be viewed as Independent Study, and the student do many of the same activities as in Art 383. the student could get JYEL credit for this class.

ART 385
WEB DESIGN I
Undergraduate
This course is designed to provide a studio-based investigation of web-based and networked art utilizing Logic Studio and Adobe Web Design programs, in combination with an introduction into basic HTML and Javascript. Students will learn the process as well as skills needed to develop conceptual and functional multimedia web pages using image, time, motion and sound.

ART 114 or ART 224 is a prerequisite for this class.

ART 386
WEB DESIGN II
Undergraduate
This course provides an in depth-exploration on web authoring. Students will explore advanced HTML and Javascript as well as creating interactive site using Adobe Flash.

ART 227, ART 228, ART 264 and ART 385 are a prerequisite for this class.

ART 390
ADVANCED STUDIO PROBLEMS
Undergraduate
Intensive studio experience for students who have completed the requirements in their media specialty.

Junior or Senior standing and status as an Art, Media and Design major or Art minor are a prerequisite for this class.

ART 392
SENIOR STUDIO SEMINAR
Undergraduate
An intensive capstone seminar of contemporary art theory and studio practice in the student's area of concentration. Required for graduation in Studio Art and in Media Arts. Materials Fee.

Senior standing and status as an Art, Media and Design major or Art Minor are a prerequisite for this class. Juniors may attend with instructor's consent.

ART 393
SENIOR DESIGN SEMINAR
Undergraduate
The goal of this capstone class are to research, discuss and critique contemporary design issues as the culmination of the liberal studies coursework with the emphasis on the concentration of art and design. Design methodology and analysis will be surveyed by examining key texts in the field. A different central question and/or project will organize the class each time it is offered. Each question and/or project will be geared towards grappling with communication to diverse audiences, contemporary historical and cultural trends that affect communication, and the use of digital technologies to communicate. This course aims to ensure a familiarity with the ethical, pragmatic, philosophical, theoretical and aesthetic issues that face designers as they enter the workforce and culture that will aid in their responsible participation in the field.

ART 227, ART 228, ART 260, ART 264, and ART 358 are a prerequisite for this class.
ART 394
PROFESSIONAL PRACTICE IN THE STUDIO
Undergraduate
An intensive capstone experience in the professional, business, and legal skills needed to manage a career in Studio Art or Media Arts. Required for graduation with a Studio Art or a Media Arts concentration.

Senior standing and status as an Art, Media and Design major or Art Minor are a prerequisite for this class. Juniors may attend with instructor's consent.

ART 395
SPECIAL TOPICS IN STUDIO PRACTICE
Undergraduate
Focuses on studio specialties and techniques not encompassed by the general art curriculum.

ART 396
INTERNSHIP
Undergraduate
Arranges fieldwork or employment in the student's field of study. Utilizes the extensive professional studios and art institutions of Chicago and other international art facilities as well. Up to 12 hours of credit.

Junior or Senior standing and status as an Art, Media and Design major or Art minor are a prerequisite for this class.

ART 399
INDEPENDENT STUDY
Undergraduate
Independent work in the student's field of study under faculty supervision. Available only to upper-level students with demonstrated capacity for self-motivated study.

ART 405
ADVANCED COLOR
Graduate
Advanced color applications in Studio Art and Media Arts.

ART 105 is a prerequisite for this class.

ART 427
DIGITAL ART
Graduate
Digital art applications in Studio Art and Media Arts

ART 101 and ART 105 are a prerequisite for this class.

ART 460
WEB ART AND DESIGN
Graduate
Web Art and Design study and explorations.

ART 101 and ART 105 are a prerequisite for this class.

ART 461
ART AND PHOTOGRAPHY
Graduate
Selected Topics in Art and Photography.
ART 489
VIDEO ART
Graduate
An advanced level course designed to introduce students to the uses of video within a variety of artistic practices including installation, projection and performance as well as linear, single-channel non-narrative, non-documentary pieces. This course will take a "theory/practice" approach. Instruction will combine a study of the historical uses of video in the art world as well as the theoretical and critical perspectives on the practices of a wide range of artists who use video. Hands-on application of these concepts will be applied to the students’ own work, culminating in a finished project by the end of the term which will be edited in the computer application Dreamweaver, Flash and Fireworks. Basic literacy with Macintosh platform is required. Graduate students will do extra work for this class.

ART 490
ADVANCED TOPICS IN STUDIO ART
Graduate
Intensive studio art experience in the student's media of choice. May be taken for variable credit (1-4).

ASL 101
AMERICAN SIGN LANGUAGE I
Undergraduate
Introduction to fundamentals of standard American Sign Language (ASL), for students with no prior experience in signing.

ASL 102
AMERICAN SIGN LANGUAGE II
Undergraduate
Introduction to fundamentals of standard American Sign Language (ASL), for students with no prior experience in signing. ASL 101 or equivalent, including placement test or permission of instructor, is recommended.

ASL 103
AMERICAN SIGN LANGUAGE III
Undergraduate
Introduction to fundamentals of standard American Sign Language (ASL), for students with no prior experience in signing. ASL 102 or equivalent, including placement test or permission of instructor, is recommended.

ASL 104
INTERMEDIATE AMERICAN SIGN LANGUAGE I
Undergraduate
Intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. ASL 103 or equivalent, including placement test or permission of instructor, is recommended.

ASL 105
INTERMEDIATE AMERICAN SIGN LANGUAGE II
Undergraduate
Intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. Continuation of ASL 104. ASL 104 or equivalent, including placement test or permission of instructor, is recommended.

ASL 106
INTERMEDIATE SIGN LANGUAGE III
Undergraduate
Intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. Continuation of ASL 105. ASL 105 or equivalent, including placement test or permission of instructor, is recommended.

ASL 199
INDEPENDENT STUDY
Undergraduate
Variable credit.
ASL 201
ADVANCED COMMUNICATION I
Undergraduate
Advanced level intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. ASL 106 or equivalent recommended.

ASL 202
ADVANCED COMMUNICATION II
Undergraduate
Advanced level intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. Continuation of ASL 201. ASL 106 or equivalent recommended.

ASL 203
ADVANCED COMMUNICATION III
Undergraduate
Advanced level intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. Continuation of ASL 202. ASL 106 or equivalent recommended.

ASL 299
INDEPENDENT STUDY
Undergraduate
Variable credit.

ASL 305
AMERICAN SIGN LANGUAGE LITERATURE
Undergraduate
This course will focus on selected ASL videotapes and films ranging from the early 1900's to the present. It shares similar elements and functions with any literature in any language. Students will study the historical background of deaf actors and actresses in silent films, analyze the content of stories, discuss grammatical features in ASL or ASL expressions signed by deaf people, and discuss the various signing registers and styles revealed in these contents. ASL 106 or equivalent and ASL 201-203 recommended.

ASL 310
DEAF CULTURE
Undergraduate
This course is an introduction to concepts and issues in Deaf culture and the Deaf community. Emphasizes the Deaf community as a linguistic and American cultural minority, and the importance of language, education of the deaf people, values, traditions, political activism and diversity in this group. ASL 106 or equivalent and ASL 201-203 recommended.

ASL 352
ASL LINGUISTICS
Undergraduate
This course provides an introductory overview and comparison of the major linguistic structures of American Sign Language. Includes: morphology, syntax, discourse structure and sociolinguistics.

ASL 106 is a prerequisite for this class.

ASL 399
INDEPENDENT STUDY
Undergraduate
Variable credit.

ASL 499
INDEPENDENT STUDY
Graduate
Variable credit.
ASM 101
Best Practices in Association Management

AT 519
MAIN THEORIES  
Graduate
This area addresses knowledge and understanding of theories, models and/or theoretical frameworks - including implications for practice - that are most relevant to the Focus Area.

AT 529
METHODS OF RESEARCH  
Graduate
This area addresses the systematic gathering of data and interpretation of findings as practiced within the Focus Area and/or related fields.

AT 539
SPECIALIZED SKILLS  
Graduate
This area involves identifying skills that are particular to the profession and the context(s) in which these skills are applied. The emphasis is on actual demonstration of specialized skills used in practice.

AT 549
COMMUNICATION MODES  
Graduate
This area involves facility with communication modes relevant to professional practice in the focus area. It requires an understanding of the relationship among key communication variables (the message, the method, the audience, and the context), a repertoire of communication strategies, and a dexterity or ease of access permitting the professional to adapt communication strategies to changing situations as necessary.

AT 559
ORGANIZATIONAL AND INTERPERSONAL DYNAMICS  
Graduate
This area addresses the human and structural issues that professionals encounter within practice (work) environments, providing students with the opportunity to consider how their professional role affects and is affected by systems, technology, structure and other people within their practice settings.

AT 569
LARGER CONTEXTS  
Graduate
This area addresses the issues and problems of the student's focus area within a context that includes at least one of the following: the historical development of the profession over time and its future direction (temporal); the relationship between the profession and the society within which it exists (social, multi-cultural); and/or, the nature of the profession globally (international).

AT 579
ETHICAL ISSUES  
Graduate
This area addresses the relationship between beliefs and assumptions regarding humanity, good/evil, right/wrong, etc., and behavioral outcomes (including conflicts).
AT 589
REFLECTION ON PRACTICE
Graduate
This area addresses the interplay between thinking, doing and reflecting in the often-ambiguous and complex contexts of daily practice.

AT 598
SPECIAL TOPICS
Graduate
Special Topics

BBE 97
100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED
Graduate
(non-credit) Required of all Bilingual Bicultural students. Observations and participatory experience with children and youth in a school or agency. The observation hours are a prerequisite for student teaching and related professional courses.

BBE 305
THEORETICAL FOUNDATIONS IN BILINGUAL EARLY CHILDHOOD DEVELOPMENT
Undergraduate
(4 credits) This course is designed to equip bilingual childhood teachers with the knowledge and philosophy to work effectively in the education of early childhood language minority students in the context of bilingual/ESL programs. The course will explore the historical, sociopolitical and legal foundations of bilingual education programs in the United States. It will examine different models of language education programs: immersion, ESL pullout, transitional bilingual education, maintenance bilingual, enrichment or dual language. It will also address psycholinguistic and sociolinguistic principles upon which they are based.

BBE 306
FOUNDATIONS OF ENGLISH AS SECOND LANGUAGE INSTRUCTION IN EARLY CHILDHOOD EDUCATION
Undergraduate
Candidates explore English as a Second Language (ESL), theory and practice as it applies to young children and their families. Candidates also study the sociocultural, pedagogical, linguistic, and political issues underlying current models of education for non-English speaking children, as well as models for ESL instruction in early childhood settings. Critical emphasis is placed upon theories that support young learners in second language acquisition.

BBE 330
LATINOS AND EDUCATION
Undergraduate
This course examines historical and current issues related to the education of Latinos in the US that includes PK-12 and higher education. The course explores the sociolinguistic, theoretical, historical, sociocultural, legal, and political contexts that shape the educational experience of Latinos in the US. Demographic trends and data are examined in light of the various characteristics that make up the diverse Latino population. The course also analyzes the theoretical, historical, and political constructs of bilingual schooling and the underlying assumptions and implications for Latino students. Current research conducted by prominent scholars in the field are presented and examined. The course considers factors that influence, positively or negatively, the educational attainment of Latino students. The readings and class discussions emphasize how power relations in the wider society influence patterns in Latino education outcomes and policy-making. The course also examines arguments, assumptions, and interpretations of current and past legislation in regards to the education of Latinos in the US.

BBE 402
BILINGUAL-BICULTURAL PROGRAM DESIGN AND CURRICULUM DEVELOPMENT
Graduate
(4 credits) Reviews theory and application of curriculum development to bilingual instructional programs, such as design, organizational patterns, materials and media, teacher training, parent and community involvement, and evaluation. Principal bilingual education program models are examined and analyzed. Includes a review of multiethic literature and literacy that advocates for students' self-concept, acceptance, and sense of identity (includes 15 clinical hour requirement).
BBE 404
LANGUAGE, LITERACY AND CULTURE
Graduate
(4 credits) Examines the interdisciplinary study of language and literacy in their cultural, social, and political contexts, with emphasis on linguistically diverse communities and the implications for human developmental processes. Explores the social and political conditions that endorse different language and literacy practices and doctrines and create anti-bilingual education ideologies in the U.S. Topics include language and literacy and ethnicity, identity, social class, and gender, among other related topics.

BBE 406
SOCIOCULTURAL AND HISTORICAL PERSPECTIVES IN BILINGUAL EDUCATION
Graduate
(4 credits) Presents theoretical constructs of bilingual schooling in the U.S. and other multilingual societies from historical, theoretical and sociocultural perspectives. Emphasizes issues in bilingual education related to the sociocultural and legal aspects of language policy and bilingual education in the U.S. The historical trajectory of language policy and bilingual education in the U.S. is discussed in reference to Native American languages and early European settlers' language schooling practices. The focus shifts to 20th and 21st century bilingual education and immigration policies that have influenced both the advocacy for and opposition to bilingual education as well as the movement to make English the official language in the U.S.

BBE 407
EQUITY ISSUES IN ASSESSMENT
Graduate
(4 credits) Examines assessment procedures, including standardized and performance-based, as well as ethical standards and practices used in the assessment of culturally and linguistically diverse students. Equity and legal issues related to assessment practices, research, first and second language acquisition, bilingualism, cultural and sociopolitical issues related to assessment are discussed. Emphasizes existing biases in assessment and non-discriminatory assessment practices and policies. National, state, and local assessment policies are examined (includes 15 clinical hour requirement).

BBE 408
BILINGUAL EARLY CHILDHOOD DEVELOPMENT THEORETICAL FOUNDATIONS
Graduate
This course is designed to equip bilingual and second language teachers with the knowledge and philosophy to work effectively in the education of early childhood language minority students in the context of bilingual/ESL programs. The course will explore the historical, political and legal foundations of bilingual education programs in the United States. It will examine different models of bilingual programs and the psycholinguistic and sociolinguistic principles upon which they are based.

BBE 409
ENGLISH AS A SECOND LANGUAGE INSTRUCTIONAL FOUNDATIONS IN EARLY CHILDHOOD SETTINGS
Graduate
Candidates explore English as a Second Language (ESL), theory, and practice as it applies to young children and their families. Candidates also study the socio-cultural, pedagogical, linguistic, and political issues underlying current models of education for non-English speaking children, as well as models for ESL instruction in early childhood settings. Critical emphasis is placed upon theories that support young learners in second language acquisition.

BBE 425
BILITERACY PRACTICES IN BILINGUAL EDUCATION AND ESL
Graduate
(4 credits) Analyzes and evaluates methods and materials used in bilingual education and ESL programs. Stresses effective instructional strategies and best practices in first and second language literacy development and content learning. Reviews language teaching approaches and cooperative models of learning relating to development of reading and writing in the first and second language. Presents the acquiring language through content learning versus learning language programs. Investigates appropriate first language usage in bilingual classrooms, focusing on the different content areas, appropriate terminology for native language instruction, and the study of language distribution issues (includes 15 clinical hour requirement).
BBE 466
FIRST AND SECOND LANGUAGE ACQUISITION
Graduate
(4 credits) Addresses the relationship between language development and use and social, emotional, cognitive, and physical development of children. Introduces the study of bilingualism by examining theoretical constructs and research in psycholinguistics, sociolinguistics, and applied linguistics. Includes an analysis of language contact phenomena, cross-linguistic transfer, language alteration, language shift and loss, and bilingualism (includes 15 clinical hour requirement).

BBE 474
READING AND ELLS
Graduate
(4 credits) This course examines current theories of second language acquisition, literacy teaching and learning for English language learners (ELLs), and explores the relationships between the first and second language as it relates to the approach to teaching for transfer with ELLs. This course links theory and practice by examining pedagogical approaches that most effectively promote ELLs reading and writing development. Multicultural and multilingual characteristics of ELLs are also discussed as they relate to their literacy development. Other factors that impact the academic achievement of ELLs in relation to literacy, such as include sociocultural, sociolinguistic, and sociopolitical dimensions of teaching ELLs. This course is designed to assist teachers with a specialization in reading to develop expanded understandings of theoretical and pedagogical perspectives related to the literacy and language processes of students learning English as a new language. In addition, literacy assessment in the first and second language represented by standardized testing as well as authentic performance-based evaluations are also presented.

BBE 476
BILITERACY PRACTICES: SECONDARY/ADULT
Graduate
(4 credits) Analyzes and evaluates current research and pedagogical approaches used in second language programs in relation to literacy instruction in the secondary and adult classroom settings. The course focuses on effective instructional strategies and best practices in first and second language literacy development. Special attention is given to content area learning in relation to acquiring literacy skills in a second language for secondary students. The course reviews language and literacy instructional approaches and cooperative models of learning related to the development of reading and writing in the first and second language. Discussions center on issues of acquiring language and literacy skills through content instruction as well authentic and performance-based assessment. Investigates appropriate first and second language development in bilingual, ESL and foreign language classrooms, focusing on the different aspects of literacy and subject matter learning (includes 15 clinical hour requirement).

BBE 490
MULTICULTURAL AND MULTILINGUAL CHILDREN’S LITERATURE
Graduate
(4 credits) This course will use multicultural and multilingual children's books to survey pluralism and linguistic diversity. Students will analyze folk and modern literature, including application of literary and culturally responsive criteria to these selections. Students will explore means of teaching using multicultural literature to encourage diverse learners and learning styles. Students will evaluate literature for its literary value as well as cultural acceptability. Students will read a broad variety of current multicultural literature for children and young adults. Students interested in specializing in one specific age group or grade level may focus their literature selections on literature appropriate for specific ages. Genres of children's and young adult literature will be examined and criteria for selection and renewing collections for school and public libraries will be discussed. Notable authors, poets, and illustrators of children and young adult literature will be studied with an emphasis on those who contribute to bilingual, multilingual, and multicultural, and multiethnic collections. The use of children's and young adult literature to develop literacy, particularly for ELLs will be studied and the use of children's and young adult literature in meeting national, state, and district standards will be discussed. Children's and young adult literature will be examined from diverse perspectives in particular literature reflecting African American, Asian, Latino, and Native American cultures. However, students will read literature from all cultural groups including traditional children's and young adult literature.

BBE 510
SPECIAL TOPICS IN LANGUAGE EDUCATION
Graduate
This course is designed to explore a specific area of study in the field of linguistics, such as sociolinguistics, psycholinguistics, applied linguistics, language planning and policy, and cognitive bilingualism, among other related topics. The particular focus of study will vary and change as the course is offered.
BBE 520
RESEARCH METHODS IN BILINGUAL & BICULTURAL STUDIES
Graduate
(4 credits) Introduces students to, and engages them in reading, research design within the context of bilingual-bicultural education and second language learning and instruction. Students will consider important linguistic and sociocultural issues in language education as examined with various research methods, including quantitative, qualitative, and mixed methods. Students will conduct and present a mini-action research project about their own learning and development, and will write a cogent review of literature about a personally meaningful topic, problem, or issue related to language and culture education. For many students, this paper forms the beginning stages of their BBE Masters thesis or M.Ed. paper. (includes 15 clinical hour requirement) PREREQUISITE(S): SCG 410 or SCG 610.

SCG 410 or SCG 610 is a prerequisite for this class.

BBE 524
METHODS OF TEACHING ESL
Graduate
(4 credits) Course examines the relationship of reading and writing development to second language acquisition in ESL contexts. Discusses various learning and teaching approaches that effectively extend English language learners' literacy and language skills. Explores the literacy progress of native and non-native speakers of English by examining the theoretical perspectives of language and literacy development (includes 15 clinical hour requirement).

BBE 526
THEORETICAL FOUNDATIONS OF TEACHING ESL
Graduate
(4 credits) Presents an introduction to the field of English as a second language, with attention to basic concepts of second language acquisition in various language learning contexts. Discusses interdisciplinary perspectives of second language acquisition and their application to classroom practices. The different factors influencing the acquisition of English as a second language are examined as well as current research in applied linguistics and different approaches to language teaching.

BBE 530
LATINOS AND EDUCATION
Graduate
This course examines historical and current issues related to the education of Latinos in the US that includes PK-12 and higher education. The course explores the sociolinguistic, theoretical, historical, sociocultural, legal, and political contexts that shape the educational experience of Latinos in the US. Demographic trends and data are examined in light of the various characteristics that make up the diverse Latino population. The course also analyses the theoretical, historical, and political constructs of bilingual schooling and the underlying assumptions and implications for Latino students. Current research conducted by prominent scholars in the field are presented and examined. The course considers factors that influence, positively or negatively, the educational attainment of Latino students. The readings and class discussions emphasize how power relations in the wider society influence patterns in Latino education outcomes and policy-making. The course also examines arguments, assumptions, and interpretations of current and past legislation in regards to the education of Latinos in the US.

BBE 554
METHODS OF TEACHING ESL: ELEMENTARY
Graduate
4 credits) The course provides an in-depth study of instructional approaches and curricular designs for the second language elementary classroom setting. Presents reviews and critiques specific methods and strategies for teaching second language learners, as well as comparative methods of learning the first and second language. Emphasizes methods for implementing constructivist strategies such as cooperative leaning, thematic approach, flexible grouping, and sheltered instruction. The course provides guidelines for planning effective lessons using both thematic units and content-based subject matter. A critical focus of this course is on teaching and learning ESL through the content areas for elementary students (includes 15 clinical hour requirement).

BBE 556
METHODS OF TEACHING ESL: SECONDARY/ADULT
Graduate
(4 credits) The course explores the theoretical underpinnings and the applications of second-language theories and cultural knowledge to ESL teaching methodology and curriculum design in secondary and adult classroom settings. In addition, various approaches to second language teaching and learning as well as methods for modifying lessons to suit the needs of second-language learners to enhance their acquisition and use of English are presented. Concentrates on assisting educators in the development of appropriate strategies for teaching speaking, listening, reading, writing, and grammar in ESL environments. A major focus of this course is on teaching and learning ESL through the content areas through effective lessons panning using both thematic units and content-based subject matter. The course explores constructivist approaches such as sheltered language instruction (includes 15 clinical hour requirement).
BBE 560  
SECOND AND WORLD LANGUAGE ACQUISITION  
Graduate  
(4 credits) This course is an introduction to the theoretical study of second or world language acquisition (SLA) from a generative and psycholinguistic perspective. The content of the class is founded on the major concepts and issues of language acquisition, including UG-access, L1-transfer, and age effects, and the acquisition of form vs. meaning. The course pays particular attention to empirical second and world language studies at the syntax/semantics interface. Course readings and discussion examine the complexities of the processes involved in acquiring a world language that includes the relation between first and SLA; contrastive and error analysis; interlanguage; the social and cultural influences on SLA; learner variability; learning strategies; and classroom interaction analysis. Issues surrounding second and world language acquisition are discussed and deliberated through university classroom experiences as well as required field experiences (15 hours, minimum; level 1).

BBE 570  
METHODS OF TEACHING INTEGRATED WORLD LANGUAGE K-12  
Graduate  
(4 credits) The purpose of this course is to provide the theoretical, research, and pedagogical foundations that underpin effective instructional practices for world language teaching and learning through the content areas. The central premise of the course is to reformulate world language instruction to integrate subject matter content into the curriculum, including science, social studies, math, fine arts, etc. This methods course is organized around the Standards for Foreign Language Learning, commonly referred to as the Five Cs: Communication, Cultures, Connections, Comparisons, and Communities. Students will learn about current theoretical bases for second-language acquisition and how theory informs classroom practice. Issues surrounding integrated instruction are discussed and deliberated through university classroom experiences as well as required field experiences (15 hours, minimum; level 2).

BBE 588  
INDEPENDENT STUDY IN BILINGUAL BICULTURAL EDUCATION  
Graduate  
Permission required.

BBE 589  
THESIS RESEARCH IN BILINGUAL-BICULTURAL EDUCATION  
Graduate  
(4 credits) A student writing a thesis registers for this course for four quarter hours of credit. When the thesis research and writing of the thesis are prolonged beyond the usual time, the program advisor may require the student to register for additional credit.

BBE 600  
REGISTERED STUDENT IN GOOD STANDING  
Graduate  
(0 credit) Registration in this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

BBE 608  
CAPSTONE IN BILINGUAL-BICULTURAL EDUCATION  
Graduate  
Culminating experience(s) that help(s) students acquire the qualities of professionalism and leadership needed to play a significant role in one's professional education community. Students are expected to situate and understand educational issues in a larger context; keep current in and be able to organize and present a body of research on an education-related question; connect research with practical, professional activity; demonstrate mastery of a sub-field of a discipline; write in a format that meets accepted scholarly criteria and participate in an ongoing professional conversation. A final product such as master's paper(s), comprehensive exam, or collection of professional work products is required.
BBE 625
CANDIDACY CULMINATING PROJECT (STUDENT IN GOOD STANDING)
Graduate
(0 credit) Registration in this course is required of all students who are not enrolled in a course but are completing culminating projects for their program of study, including theses, papers, and final portfolios. It provides access to university facilities. Permission of advisor required. Registration limited to three terms. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

BIO 115
INTRODUCTION TO BIOLOGY
Undergraduate
Deals with the scientific method, biological chemistry, structure, function, and heredity of cells and organisms, evolution and ecology. Cannot receive credit for both BIO 115 and BIO 155.

BIO 118
MARINE BIOLOGY
Undergraduate
Study of marine diversity, marine ecosystems, and connections between oceans and humans. Student cannot receive credit for both BIO 118 and 160.

BIO 120
THE SCIENCE AND ART OF VISION
Undergraduate
This course will provide an introduction to the form and function of the human visual system, including its evolutionary origins, the processes of visual development, and the way in which specific visual anomalies alter higher-order processing. In addition, it will consider how specific aspects of visual function have an impact on the creation and perception of the visual arts.

BIO 121
INFECTIOUS DISEASES AND IMMUNITY
Undergraduate
This course is designed to introduce students to the world of microorganisms, especially those which cause infectious diseases and to explain how the immune system protects the body against these organisms. Cannot receive credit for both BIO 121 and BIO 161.

BIO 122
INTRODUCTION TO PALEOBIOLOGY
Undergraduate
This course focuses on the concepts and practices of paleobiology, the scientific study of the biology of extinct organisms preserved as fossils.

BIO 123
INHERITANCE IN HUMANS
Undergraduate
An examination of genetics in the human species, including the inheritance of ordinary traits, genetic diseases, and those complex attributes to which inheritance contributes, such as behavior and intelligence. Formerly BIO 203.

BIO 124
VERTEBRATES: DIVERSITY AND EVOLUTION
Undergraduate
Examines vertebrate diversity and the interrelationships among vertebrate groups including humans. The quantitative component will include several data processing exercises that address: 1) how vertebrates are related and how those relationships are determined using phylogenetic trees, 2) species descriptions and analyzing morphological differences among species and 3) graphical interpretations. Formerly BIO 204.
BIO 126
BRAIN AND BEHAVIOR
Undergraduate
Examines basic concepts in neurobiology. Specifically how the brain is organized, how it sends messages throughout the body, and how these messages turn into daily activities such as seeing, eating, and walking. How these behaviors are altered due to disease or injury of the brain is also discussed. Cannot receive credit for both BIO 126 and BIO 162. Formerly BIO 206.

BIO 128
STRESS, HORMONES AND THE NERVOUS SYSTEM
Undergraduate
A study and discussion of the basic concepts of stress and stressors, and their effects on the functioning of the Nervous System, the Endocrine System and the Immune System; the feedback influence of hormones and neurochemicals on cerebral processing, and the relation of these phenomena to health and behavioral medicine. Formerly BIO 208.

BIO 132
MEDICAL TESTS AND TRIALS
Undergraduate
Is fiber good for you? Are cell phones bad? Participants in this course will learn how to analyze popular health claims and medical studies using a computer spreadsheet (Excel). Topics include: design of health studies, data collection, statistical analysis, common biases and errors, and sources of health data on the World Wide Web. Formerly BIO 212.

LSP 120 is a prerequisite for this class.

BIO 134
HOW THE HUMAN BODY WORKS
Undergraduate
Fundamentals of human body functions through an examination of organs and organ systems. The quantitative component of this course will explore the concepts of scientific discovery through structured out-of-class projects. Cannot receive credit for both BIO 202 and BIO 134. Formerly BIO 224.

BIO 155
INTRODUCTION TO BIOLOGY WITH LABORATORY
Undergraduate
This lecture-laboratory course deals with the scientific method, biological chemistry, structure and function of cells, organs, and organ systems, heredity, evolution and ecology. Course includes a laboratory experience involving biological concepts discussed in class. Cannot receive credit for both BIO 115 and BIO 155. Lab fee

BIO 156
FOOD, FUEL FOR LIFE
Undergraduate
Food from a biological perspective: defined at the chemical and biochemical level and as it fuels life through metabolism and nutrition. Other topics include improving foods by traditional breeding and new genetic engineering technology, food production, sustainable agriculture; food safety issues, and feeding world populations.

BIO 160
MARINE BIOLOGY WITH LAB
Undergraduate
Study of marine diversity; marine ecosystems; and connections between oceans, the atmosphere, and humans. Lecture-Laboratory. Cannot receive credit for both BIO 118 and BIO 160.

BIO 161
INFECTIOUS DISEASES AND IMMUNITY WITH LABORATORY
Undergraduate
This course is designed to introduce students to the world of microorganisms with particular emphasis on how microorganisms cause disease and the actions of the human body in fighting disease. This course includes a laboratory experience to reinforce concepts and introduce students to practical aspects of disease causing microorganisms. Cannot receive credit for both BIO 121 and BIO 161.
BIO 162
THE BRAIN: BIOLOGY AND BEHAVIOR
Undergraduate
Explores basic concepts in neurobiology, including the organization and evolution of the vertebrate system, how the nervous system sends messages through the body and how these messages are translated into the variety of human behaviors. Alterations in behavior due to brain disease or injury is also discussed. The laboratory elaborates on lecture material and provides insight into how scientific reasoning and testing can help to discover how the brain works. Lab fee. Cannot receive credit for both BIO 126 and BIO 162. Formerly BIO 239.

BIO 163
PRINCIPLES OF BIOLOGY
Undergraduate
The course is designed to introduce the student to several important principles of Biology, including aspects of cell biology, genetics, ecology, development, and evolution. The course will involve labs on each of these topics as they are addressed, requiring the student to accumulate and analyze data and to be involved in summarizing and presenting this data to the class. Lab fee. Formerly BIO 256.

BIO 164
AVIAN BIOLOGY
Undergraduate
A foundation in the study, knowledge, and appreciation of birds. Use of field techniques to monitor and measure free-ranging bird populations in an experiential learning situation. Contributes to understanding of interaction and interdependency of nature through study of avian life. Lab fee. Formerly BIO 257.

Junior or Senior standing is a prerequisite for this class.

BIO 166
INTRODUCTION TO PLANT BIOLOGY WITH LAB
Undergraduate
This course deals with the characteristic features of higher plants, plant products that are beneficial to humans, structure, physiology and ecology of cultivated plants, and modern horticultural and genetic approaches to the improvement of plants and plant productivity.

BIO 191
GENERAL BIOLOGY I FOR SCIENCE MAJORS
Undergraduate

MAT 130 is a prerequisite for this class.

BIO 192
GENERAL BIOLOGY II FOR SCIENCE MAJORS
Undergraduate
Introduction to evolution, ecology, organismal development and diversity. Lecture-laboratory. Lab fee. Formerly BIO 102.

MAT 130 and BIO 191 are a prerequisite for this class.

BIO 193
GENERAL BIOLOGY III FOR SCIENCE MAJORS
Undergraduate
Deals primarily with diversity and development within the plant and animal kingdoms including basic principles of physiology. Lecture-laboratory. Lab fee. Formerly BIO 103.

MAT 130 and BIO 192 are a prerequisite for this class.

BIO 201
MAMMALIAN ANATOMY
Undergraduate
Structure of the mammalian organism. Lecture-laboratory. Lecture emphasis on the human; laboratory emphasis on the feline. Lab fee.
BIO 202
MAMMALIAN PHYSIOLOGY
Undergraduate
Introduction to concepts and mechanisms of human organ system function including respiratory, cardiovascular, renal, muscular, nervous, endocrine and digestive systems. Lecture-laboratory. Lab fee. Cannot receive credit for both BIO 202 and BIO 134.

BIO 206
BIOSTATISTICS
Undergraduate
A survey of a variety of statistical methods used to analyze biological data.
BIO 193 or instructor consent is a prerequisite for this class.

BIO 209
PLANT BIOLOGY
Undergraduate
A study of plant evolution, diversity, reproduction, developmental plant anatomy, regulation of plant growth and development, and plant physiology. Lab fee.
BIO 193 is a prerequisite for this class.

BIO 210
MICROBIOLOGY
Undergraduate
Biology of microorganisms with emphasis on viruses, bacteria, fungi, and protozoa. Lecture-laboratory. Lab fee.
BIO 191 is a prerequisite for this class.

BIO 215
ECOLOGY
Undergraduate
Study of organismal interactions; responses of individuals, populations and natural communities to their external environment. Lecture-laboratory. Lab fee.
BIO 193 is a prerequisite for this class.

BIO 220
PRINCIPLES OF BIOTECHNOLOGY
Undergraduate
This course will address aspects of the research and methodologies used in Modern Biotechnology, and place the field in the context of current societal and ethical concerns.
BIO 191 is a prerequisite for this class.

BIO 230
EPIDEMIOLOGY
Undergraduate
This course will involve the study of the frequency and distribution of human disease. Students will learn how the health of a population is measured, and how medical interventions are quantitatively evaluated. Students will analyze data from historical and modern health studies, including population surveys, case-control studies, cohort studies, and clinical trials for prevention and treatment.
BIO 103 is a prerequisite for this class.
**BIO 235**  
**EVOLUTION**  
**Undergraduate**  
This lecture/laboratory course will examine basic selection, population genetics, development, speciation, extinction, systematics, and the history of evolution. In the lab, students will learn some of the modern research methods used in the study of evolution. Lab fee.

BIO 191, BIO 192 and BIO 193 are a prerequisite for this class.

**BIO 250**  
**CELL BIOLOGY**  
**Undergraduate**  
Fundamentals of cell form and function studied at the molecular and organelle level, including basic cellular biochemistry, ultrastructure and physiology. Lecture-laboratory. Lab fee.

BIO 193 and (CHE 134 or CHE 138) are a prerequisite for this class.

**BIO 260**  
**GENETICS**  
**Undergraduate**  
Transmission of heritable traits, nature of genetic material, manner of its expression, its mutability, and its significance with respect to organismal and species variation. Lecture-laboratory. Lab fee.

BIO 191 and BIO 193 are a prerequisite for this class.

**BIO 270**  
**COMPARATIVE VERTEBRATE ANATOMY**  
**Undergraduate**  
This lecture-laboratory course will provide students with an integrated study of the diversity, anatomy, and evolutionary history of vertebrates. The course will focus on the skeletal system and highlight the evolution of body plan in vertebrates, covering topics such as the geologic history of Earth, a survey of vertebrate groups, and the structures and functions of body parts, along with their evolutionary implications. The laboratory portion will include observation of various specimens of vertebrates.

BIO 193 is a prerequisite for this class.

**BIO 290**  
**TOPICS IN BIOLOGY**  
**Undergraduate**  
Occasional courses offered at intermediate levels. See the schedule of classes for current offerings. 2 or 4 quarter hours.

Sophomore standing is a prerequisite for this class.

**BIO 301**  
**ANIMAL BEHAVIOR**  
**Undergraduate**  
An exploration of the types of animal behavior and modifiers of behavior as based on neuroendocrine function, with special emphasis on Felids. Lecture - Field Studies. Laboratory required. Lab fee.

BIO 191, BIO 192 and BIO 193 are a prerequisite for this class.

**BIO 302**  
**STUDENT LABORATORY INSTRUCTION**  
**Undergraduate**  
Student Laboratory Instruction. Completion of course requires student to serve as teaching assistant for biology laboratory course.

**BIO 303**  
**INTRODUCTION TO SCIENTIFIC RESEARCH**  
**Undergraduate**  
Introduction to Scientific Research. Course requires that student has had (or currently having) experience in scientific research.
BIO 304
FIELD METHODS FOR BIOLOGISTS
Undergraduate
The course will focus on the methods needed to initiate and undertake observations on Midwest ecosystems. Students will learn methods and put into practice the tools required to begin a site inventory and to assess population characteristics. The data gathered by the class will be archived and used as a starting point for subsequent studies. Each student will have an original research project involving extensive field work in nature.

BIO 309
PLANT PHYSIOLOGY
Undergraduate
A study of the functional and developmental aspects of flowering plants. Lecture-laboratory. Lab fee.

BIO 250 or instructor consent is a prerequisite for this class.

BIO 310
VERTEBRATE PHYSIOLOGY
Undergraduate
Functions and regulatory mechanisms of vertebrate cells, organs and organ systems with special emphasis on mammals. Lecture-Laboratory. Lab fee.

BIO 250 or instructor consent is a prerequisite for this class.

BIO 311
HISTOLOGY
Undergraduate
A Lecture/Laboratory course covering the microscopic structure of the tissues that make up animal organs. The development of these tissues as well as their relationship to the principles of gross anatomy, physiology, cell biology and molecular biology is stressed. Lab fee.

BIO 250 is a prerequisite for this class.

BIO 315
TOPICS IN ECOLOGY
Undergraduate
The focus of this course is to read and critique classic papers in ecology and to connect their foundational ideas with modern research and understanding.

BIO 192, BIO 215 and Senior standing are a prerequisite for this class.

BIO 316
PHYCOLOGY
Undergraduate
Introduction to algae with emphasis on taxonomy, morphology, ultrastructure, physiology, life histories of freshwater and marine species. Lecture-laboratory. Lab fee. Cross-listed as BIO 416.

BIO 193 is a prerequisite for this class.

BIO 317
AQUATIC BIOLOGY
Undergraduate
The study of biological, physical and chemical phenomena in freshwater environments. Emphasis on organisms and their ecology. Lecture-laboratory. Lab fee.

BIO 192 and BIO 215 are a prerequisite for this class.
BIO 318
FIELD STUDIES IN MARINE AND ESTUARINE BIOLOGY
Undergraduate

This course is designed for science majors with an interest in marine and estuarine biology and will examine this subject from an ecological perspective. The primary objectives of the course are: 1) to explore the diversity of marine and estuarine life; 2) to understand the manner in which physical and biological factors influence biological diversity in marine systems; 3) to understand the role that humans play in shaping these dynamics; and 4) to develop professional connections and gain real-life experiences in marine science.

BIO 191, BIO 192, BIO 193 and (BIO 215 or BIO 235) or instructor consent are a prerequisite for this class.

BIO 320
MICROBIAL ECOLOGY
Undergraduate

This course will explore key roles that microorganisms play in life on earth. This course will also address how these microorganisms are being used in current areas of research in microbiology. This is a lab course, which will enable students to study processes used in the enrichment, isolation, and identification of microorganisms from various environments.

BIO 210 and Junior standing are a prerequisite for this class.

BIO 321
MOLECULAR METHODS IN ECOLOGY AND EVOLUTION
Undergraduate

This course will provide hands-on experience in methods of detecting and analyzing molecular variation in nature. By the end of the course, students should be competent employing molecular markers to answer a wide variety of basic questions in ecology and evolution.

BIO 215 or BIO 235 is a prerequisite for this class.

BIO 325
PALEOBIOLOGY
Undergraduate

This lecture/laboratory course will introduce students to various principles of paleobiology and to provide a broad survey of important taxonomic groups. This course will cover topics such as: the concept of geologic time, evolution, extinction, morphology, taxonomic classification, fossilization, paleoecology, biogeography, and biostratigraphy. The laboratory portion of the course will reinforce the lecture topics and offer an opportunity to examine fossil specimens and compare them with modern forms.

BIO 193 and BIO 335 are a prerequisite for this class.

BIO 330
DEVELOPMENTAL BIOLOGY
Undergraduate

A survey of developmental phenomena in animals from fertilization to sexual maturity. Students will gain a current understanding of the genetic, cellular, and environmental mechanisms that shape the body and its major organs. Special topics include birth defects, embryonic stem cells, tissue regeneration, reproductive technology and mammalian cloning. Lecture-laboratory. Lab Fee.

BIO 250 and BIO 260 are a prerequisite for this class.

BIO 331
TOPICS IN DEVELOPMENTAL BIOLOGY
Undergraduate

This seminar course examines the current embryological literature using both evolutionary and molecular perspectives. Previous student-led topics include: how early embryos are organized, the signals controlling left-right asymmetry, the evolutionary origin of feathers and the development of the retina.

BIO 330 or 360 is a prerequisite for this class.
BIO 333
MYCOLOGY
Undergraduate
This course provides an opportunity for students to integrate their knowledge of cell biology, genetics, ecology and physiology at the organismal level by focusing on fungi. Students will gain an appreciation of the biological diversity within the major groups of fungi and their role in the environment, research and biotechnology. Lecture-laboratory. Lab fee.

BIO 215, BIO 250, and BIO 260 are a prerequisite for this class.

BIO 335
CONCEPTS IN EVOLUTION
Undergraduate
Study of evolution and diversity in the living world. Lecture only.

BIO 235 or (BIO 215 and BIO 260) are a prerequisite for this class.

BIO 339
CELLULAR NEUROBIOLOGY (CROSS-LISTED AS BIO 439)
Undergraduate
A study of the cellular and molecular mechanisms of the nervous system and the role they play in neural signaling and neural development. Cross-listed as BIO 439.

BIO 250 or PSY 377 is a prerequisite for this class.

BIO 340
SYSTEMS NEUROBIOLOGY
Undergraduate
Explores the organization of the nervous system on a gross anatomical level and based on functional units. The emphasis is on understanding how individual behaviors are produced by different neural systems and how these individual behaviors integrate into the activities of whole organisms. Lab fee. Cross-listed as BIO 440.

BIO 250 or PSY 377 is a prerequisite for this class.

BIO 341
TOPICS IN NEUROBIOLOGY
Undergraduate
A seminar course examining current topics in neurobiology. Original readings will include both current review and classic neuroscience articles.

BIO 340 or BIO 399or PSY 377 is a prerequisite for this class.

BIO 342
COGNITIVE NEUROSCIENCE
Undergraduate
This course explores the neuroscience of human behaviors such as emotions, attention, executive function, language, learning, memory, and social interaction by exploring both the underlying biological mechanisms and the psychological theories behind these behaviors. Cognitive Neuroscience is an emerging field of study that attempts to help one gain an understanding of the interdisciplinary nature of the human mind.

BIO 345
TOPICS IN PALEOBIOLOGY (CROSS-LISTED AS BIO 445)
Undergraduate
A seminar course examining various topics in paleobiology (the study of ancient life) including morphological concepts, macroevolutionary processes, extinction events, phylogenetic systematics, paleoecology, paleoebiogeography, and the adequacy of the fossil record. Readings include classic and recent articles in the fields of paleobiology.
**BIO 347**  
**TOPICS IN MEDICAL BACTERIOLOGY**  
**Undergraduate**  
This course will address current topics of concern and research in medical bacteriology. Students participating in this course will explore key concepts used in bacterial pathogenesis and learn how to critically appraise recent research papers in the field.

BIO 210 and Junior/Senior Biology standing are prerequisites for this class.

**BIO 348**  
**THE BIOLOGY OF INFECTION**  
**Undergraduate**  
This course will provide students with detailed knowledge of medically important bacteria. The course will first examine common events in infections and the body’s responses to infection. We will highlight in these studies the changes in both hosts and pathogens as strategies of infection and immunity evolve relative to one another. Within this framework we will examine a spectrum of infectious diseases in detail.

BIO 210 and BIO 370 are a prerequisite for this class.

**BIO 350**  
**ANIMAL ADAPTATIONS**  
**Undergraduate**  
An introduction to the ecological concept of adaptation. Adaptation is defined and illustrated using specific animal examples. Discussion will focus on how these specializations in structure and function equip the animal for survival.

Junior or senior Biology standing or consent of instructor.

**BIO 352**  
**ADVANCED COMPARATIVE PHYSIOLOGY (CROSS-LISTED AS 452)**  
**Undergraduate**  
Comparative and environmental approach to the functions and mechanisms of vertebrate organ systems. Selected topics will be addressed using a lecture/discussion/seminar format. Cross-listed as BIO 452.

BIO 310 or instructor consent is a prerequisite for this class.

**BIO 354**  
**PROBLEMS IN CELL MOTILITY**  
**Undergraduate**  
Analysis of contemporary problems in cellular movements, with emphasis on the biochemistry, biophysics and regulation of cell and organelle movements. Lecture, seminar, discussion.

BIO 250, (PHY 152 or PHY 172 or PHY 156) and (MAT 149 or MAT 152 or MAT 162 or MAT 172) are a prerequisite for this class.

**BIO 355**  
**GENETIC TOXICOLOGY**  
**Undergraduate**  
This course will deal with the study of agents that damage the genome or alter the proper functioning of the genome that can lead to disease in humans. Topics covered will include basic spectrum of genetic damage and chromosomal effects, mechanisms of mutations, DNA repair, genetic assays used for evaluation of genetic toxicology, health consequences of genetic damage, including cancer and inheritable mutations, and the current position of US government and global regulatory agencies on the issues of genetic toxicology.

BIO 260 is a prerequisite for this class.

**BIO 360**  
**MOLECULAR BIOLOGY (CROSS-LISTED AS BIO 460)**  
**Undergraduate**  
Study of biology at the molecular level, focusing on the regulation of gene expression and the principles of genetic engineering, Lecture-laboratory. Lab fee.

BIO 250, BIO 260, and (CHE 234 or CHE 238) are a prerequisite for this class.
BIO 361
TOPICS IN MOLECULAR BIOLOGY
Undergraduate
Discussion and seminars in selected areas of molecular biology. Cross-listed as CHE 461.
BIO 360 is a prerequisite for this class.

BIO 362
BIOINFORMATICS FOR BENCH SCIENTISTS
Undergraduate
Study how high-throughput technologies like whole-genome sequencing have changed biological research, and learn to use computers in real research tasks such as primer design, DNA sequencing, homology searches, sequence alignment, and more. Cross-listed with BIO 462.
BIO 191, BIO 192, BIO 193 and BIO 260 are a prerequisite for this class.

BIO 365
PRINCIPLES OF TOXICOLOGY
Undergraduate
A study of the adverse effects of chemicals on living organisms, including the chemical natures, kinetics, dose-response relationships, metabolism, and mechanisms of action of various toxins and toxicants.
BIO 193 and (CHE 234 or CHE 238) are a prerequisite for this class.

BIO 370
IMMUNOBIOLOGY
Undergraduate
Basic factors governing immune phenomena and antigen-antibody reactions. Lecture-laboratory. Lab fee. Cross-listed as BIO 471.
BIO 250 and BIO 260 are a prerequisite for this class.

BIO 375
INTRODUCTION TO PHARMACOLOGY
Undergraduate
Introduction to Pharmacology will explore the relationships between an organism and its response to an administered drug. This will include: 1) How drugs are administered to the body 2) What is their fate once in the body, i.e. Pharmacokinetics 3) What their mechanisms actions are - i.e. Pharmacodynamics, and 4) Adverse reactions to drugs. We will explore these relationships in different physiological systems of the human body including (but not limited to) the nervous system, circulatory system, digestive system and endocrine system. Lastly, this course will provide an understanding of the pharmaceutical system by providing a framework to explore how drugs are discovered, produced, tested, and regulated.
BIO 250 and 310 or instructor consent is a prerequisite for this class.

BIO 380
CANCER BIOLOGY (CROSS-LISTED AS BIO 480)
Undergraduate
This course will explore the cellular and molecular aspects of cancer. Topics will include the pathology and epidemiology of cancer, the origin and spread of cancer, hereditary and familial cancers, cancer associated genes and strategies of cancer therapy.
BIO 250 and BIO 260 are a prerequisite for this class.

BIO 385
MAMMALIAN REPRODUCTION
Undergraduate
Molecular, cellular, physiological, and behavioral aspects of mammalian reproduction. Mechanisms and strategies used by mammals in reproductive processes including sexual differentiation, gamete production, puberty, reproductive hormone cyclicity, neuroendocrine control mechanisms, pregnancy, parturition, and reproductive behavior. Cross-listed with BIO 485.
BIO 250 and BIO 310 or instructor consent are a prerequisite for this class.
BIO 386
INTRODUCTION TO ENDOCRINOLOGY (CROSS-LISTED AS BIO 486)
Undergraduate
A study of hormones as chemical regulators of development, growth, metabolism, homeostasis, reproduction, response to stress, and behavior; as well as hormone synthesis, chemistry, mechanisms of action, and endocrine gland structure.

BIO 250, BIO 260 and BIO 310 are a prerequisite for this class.

BIO 390
SPECIAL TOPICS
Undergraduate
Occasional courses offered at an advanced level. See the schedule of classes for current offerings. Cross-listed as BIO 490.

Junior or Senior standing is a prerequisite for this class.

BIO 392
EXTRAMURAL INTERNSHIP
Undergraduate
An opportunity for students to integrate their academic experience with real-world work situations; supervision is provided by a member of the DePaul Faculty in the Biological Sciences and the private or public enterprise. 0-4 credit hours.

At least Sophomore standing, a declared Biological Sciences major, by arrangement with the Biology internship director and with department permission.

BIO 395
BIOLOGY CAPSTONE SEMINAR
Undergraduate
The aim of this course is to integrate current biological view(s) of humanity with the perspectives of the liberal studies curriculum. Students will develop and debate topics that demonstrate mastery of the biology core curriculum (cell biology, genetics, physiology and ecology) while touching on history, philosophy, ethics and the law.

BIO 399
INDEPENDENT STUDY
Undergraduate
Independent Study. 1-4 quarter hours.

BIO 400
DEVELOPMENT OF TOPICS FOR RESEARCH
Graduate
The purpose of this course is to help graduate students in formulating research questions and design methods while improving written expression and oral presentation skills. Students will, with the guidance of a faculty member, undertake a detailed investigation of a topic, formulate a potential research project in that area, and present their proposal orally to the faculty at the end of the quarter.

BIO 401
INDEPENDENT STUDY
Graduate
Two or four quarter hours. Experimental and/or Library study of selected topics in the life sciences. A-Cell Biology, B-Immunobiology, C-Developmental Biology, D-Physiology, E-Endocrinology, F-Genetics, G-Structural Biology, H-Ecology, I-Molecular Biology, J-Neurobiology. Offered in the Autumn, Winter, Spring and Summer quarters. Two or four quarter hours.

BIO 409
PLANT PHYSIOLOGY (CROSS-LISTED AS BIO 309)
Graduate
BIO 415
TOPICS IN ECOLOGY (CROSS-LISTED AS BIO 315)
Graduate
The focus of this course is to read and critique classic papers in ecology and to connect their foundational ideas with modern research and understanding.

BIO 416
PHYCOLOGY (CROSS-LISTED AS BIO 316) (LAB FEE)
Graduate
Introduction to algae with emphasis on taxonomy, morphology, ultrastructure, physiology, life histories of freshwater and marine species. Lecture-laboratory. Lab fee.

BIO 417
AQUATIC BIOLOGY (CROSS-LISTED AS BIO 317)
Graduate
The study of biological, physical and chemical phenomena in fresh water and marine environments. Emphasis on organisms and their interactions. Lecture-laboratory. Lab fee.

BIO 420
MICROBIAL ECOLOGY
Graduate
This course will explore key roles that microorganisms play in life on earth and how they are being used in biotechnology. This is a lab course, which will enable students to study processes used in the enrichment, isolation, and identification of microorganisms from various environments.

BIO 421
MOLECULAR METHODS IN ECOLOGY AND EVOLUTION
Graduate
This course will provide hands-on experience in methods of detecting and analyzing molecular variation in nature. By the end of the course, students should be competent employing molecular markers to answer a wide variety of basic questions in ecology and evolution. Cross-listed with BIO 321.

BIO 425
CELLULAR EVENTS IN THE IMMUNE RESPONSE
Graduate
Analysis of cellular and subcellular interactions in the immune response. Lecture, seminar, discussion. BIO 470 recommended.

BIO 430
DEVELOPMENTAL BIOLOGY
Graduate
A survey of developmental phenomena in animals from fertilization to sexual maturity. Topics include gametogenesis, early cell divisions, organ formation, metamorphosis, regeneration, birth defects, stem cells, reproductive technology and mammalian cloning. Lecture-laboratory. Lab Fee.

BIO 431
TOPICS IN DEVELOPMENTAL BIOLOGY (CROSS-LISTED AS BIO 331)
Graduate
This seminar course examines the current embryological literature using both evolutionary and molecular perspectives. Previous student-led topics include: how early embryos are organized, the signals controlling left-right asymmetry, the evolutionary origin of feathers and the development of the retina. BIO 430 or BIO 460 recommended.
BIO 433  
**MYCOLOGY (CROSS-LISTED AS BIO 333)**  
*Graduate*

This course provides an opportunity for students to integrate their knowledge of cell biology, genetics, ecology and physiology at the organismal level by focusing on fungi. Students will gain an appreciation of the biological diversity within the major groups of fungi and their role in the environment, research and biotechnology. Lecture-laboratory. Lab fee.

BIO 435  
**CONCEPTS IN EVOLUTION (CROSS-LISTED AS BIO 335)**  
*Graduate*

Study of evolution and diversity in the living world. Lecture only.

BIO 439  
**CELLULAR NEUROBIOLOGY (CROSS-LISTED AS BIO 339)**  
*Graduate*

A study of the cellular and molecular mechanisms of the nervous system and the role they play in neural signaling and neural development.

BIO 440  
**SYSTEMS NEUROBIOLOGY (CROSS-LISTED AS BIO 340)**  
*Graduate*

An examination of the ways in which neural systems underpin behavior with an emphasis on vertebrates. In this course, behavior is understood in its broadest sense, from the functioning of organs and organ systems to the activities of whole organisms. Lecture-Laboratory. Lab Fee.

BIO 441  
**TOPICS IN NEUROBIOLOGY**  
*Graduate*

A seminar course examining current topics in neurobiology. Original readings will include both current review and classic articles in the fields of neurobiology, neuroethology and the related neurosciences. BIO 439 or BIO 440 is recommended.

BIO 445  
**TOPICS IN PALEOBIOLOGY (CROSS-LISTED AS BIO 345)**  
*Graduate*

A seminar course examining various topics in paleobiology (the study of ancient life) including morphological concepts, macroevolutionary processes, extinction events, phylogenetic systematics, paleoecology, paleobiogeography, and the adequacy of the fossil record. Readings include classic and recent articles in the fields of paleobiology.

BIO 447  
**TOPICS IN MEDICAL BACTERIOLOGY**  
*Graduate*

This course will address current topics of concern and research in medical bacteriology. Students participating in this course will explore key concepts used in bacterial pathogenesis and learn how to critically appraise recent research papers in the field.

BIO 448  
**THE BIOLOGY OF INFECTION**  
*Graduate*

This course will provide students with detailed knowledge of medically important bacteria. The course will first examine common events in infections and the body's responses to infection. We will highlight in these studies the changes in both hosts and pathogens as strategies of infection and immunity evolve relative to one another. Within this framework we will examine a spectrum of infectious diseases in detail. BIO 470 is recommended.

BIO 450  
**PROBLEMS IN CELL MOTILITY**  
*Graduate*

Analysis of contemporary problems in cellular movements, with emphasis on the biochemistry, biophysics and regulation of cell and organelle movements. Lecture, seminar, discussion.
**BIO 452**
**ADVANCED COMPARATIVE PHYSIOLOGY (CROSS-LISTED AS BIO 352)**
*Graduate*

Comparative and environmental approach to the function and mechanisms of vertebrate organ systems. Selected topics in comparative physiology will be addressed using a lecture/discussion/seminar format.

**BIO 455**
**GENETIC TOXICOLOGY**
*Graduate*

This course will deal with the study of agents that damage the genome or alter the proper functioning of the genome that can lead to disease in humans. Topics covered will include basic spectrum of genetic damage and chromosomal effects, mechanisms of mutations, DNA repair, genetic assays used for evaluation of genetic toxicology, health consequences of genetic damage, including cancer and inheritable mutations, and the current position of US government and global regulatory agencies on the issues of genetic toxicology.

BIO 260 is a prerequisite for this class.

**BIO 460**
**MOLECULAR BIOLOGY (CROSS-LISTED AS BIO 360)**
*Graduate*

Study of biology at the molecular level, focusing on the regulation of gene expression and the principles of genetic engineering. Lecture-laboratory. Lab fee. Cross-listed as BIO 360.

**BIO 461**
**TOPICS IN MOLECULAR BIOLOGY (CROSS-LISTED AS BIO 361)**
*Graduate*

Discussion and seminars in selected areas of molecular biology.

**BIO 462**
**BIOINFORMATICS FOR BENCH SCIENTISTS**
*Graduate*

Study how high-throughput technologies like whole-genome sequencing have changed biological research, and learn to use computers in real research tasks such as primer design, DNA sequencing, homology searches, sequence alignment, and more. Cross-listed with BIO 362.

**BIO 465**
**PRINCIPLES OF TOXICOLOGY**
*Graduate*

A study of the adverse effects of chemicals on living organisms, including the chemical natures, kinetics, dose-response relationships, metabolism, and mechanisms of action of various toxins and toxicants.

**BIO 471**
**IMMUNOBIOLOGY (CROSS-LISTED AS BIO 370)**
*Graduate*

Basic factors governing immune phenomena and antigen antibody reactions. Lecture-laboratory. Lab fee.

**BIO 475**
**INTRODUCTION TO PHARMACOLOGY (CROSS-LISTED WITH BIO 375)**
*Graduate*

Introduction to Pharmacology will explore the relationships between an organism and its response to an administered drug. This will include: 1) How drugs are administered to the body 2) What is their fate once in the body, i.e. Pharmacokinetics 3) What their mechanisms actions are - i.e. Pharmacodynamics, and 4) Adverse reactions to drugs. We will explore these relationships in different physiological systems of the human body including (but not limited to) the nervous system, circulatory system, digestive system and endocrine system. Lastly, this course will provide an understanding of the pharmaceutical system by providing a framework to explore how drugs are discovered, produced, tested, and regulated. Cross-listed with BIO 375.
BIO 480
CANCER BIOLOGY (CROSS-LISTED AS BIO 380)
Graduate
This course will explore the cellular and molecular aspects of cancer. Topics will include the pathology and epidemiology of cancer, the origin and spread of cancer, hereditary and familial cancers, cancer associated genes and strategies of cancer therapy.

BIO 485
MAMMALIAN REPRODUCTION
Graduate
Molecular, cellular, physiological, and behavioral aspects of mammalian reproduction. Mechanisms and strategies used by mammals in reproductive processes including sexual differentiation, gamete production, puberty, reproductive hormone cyclicity, neuroendocrine control mechanisms, pregnancy, parturition, and reproductive behavior. Cross-listed with BIO 385.

BIO 486
INTRODUCTION TO ENDOCRINOLOGY (CROSS-LISTED AS BIO 386)
Graduate
A study of hormones as chemical regulators of development, growth, metabolism, homeostasis, reproduction, response to stress, and behavior; as well as hormone synthesis, chemistry, mechanisms of action, and endocrine gland structure.

BIO 488
ADVANCED ENDOCRINOLOGY
Graduate
Analysis of non-hypothalamic-hypophyseal pathways for hormonal regulation of the structure, function and biochemistry of hard tissues, calcium metabolism, and regulation of glucose metabolism. Lecture-seminar. BIO 486 is recommended.

BIO 490
SPECIAL TOPICS
Graduate
Occasional courses offered at the graduate level. See schedule for current offerings. Two or four quarter hours.

BIO 491
MASTER OF ARTS SEMINAR
Graduate
A seminar course dealing with current readings in the biological sciences. Students will evaluate and interpret these readings both orally and in writing.

BIO 495
INTRODUCTION TO GRADUATE STUDY
Graduate
Presents the biology faculty and facilities. Various research and teaching methods in biology will be explored. Consideration of such topics as laboratory safety, handling of radioactive chemicals, instrument and equipment use, handling living organisms, library and computer use, etc. Required of all graduate students. Autumn quarter only. Two quarter hours.

BIO 496
RESEARCH
Graduate
Experimental work in selected areas of biology. These studies do not necessarily relate to a thesis. Autumn, Winter, Spring, Summer. Laboratory. Two or four quarter hours. Lab fee.

BIO 498
RESEARCH FOR MASTER’S THESIS
Graduate
Original study of a specific biological problem leading to a thesis. Autumn, Winter, Spring, Summer. Laboratory. Two or four quarter hours. Lab fee.
BIO 500
SEMINAR
Graduate
Non-credit. Presentation, throughout the academic year, of their research by practicing scientists from a variety of institutions. Required of first year graduate students.

BIO 501
SEMINAR CONTINUATION
Graduate
Non-credit. Presentation, throughout the academic year, of their research by practicing scientists from a variety of institutions. Required of second year graduate students.

BIO 502
CANDIDACY CONTINUATION
Graduate
Students who have completed their coursework but who must take extra time to complete the requirements for the Master's thesis (MS), or final project (MA), must enroll in candidacy continuation each quarter of the academic year until the Master's requirement has been completed. This course carries part-time student status. Non-credit, fee per quarter.

BIO 503
CANDIDACY MAINTENANCE
Graduate
Placeholder course for students NOT actively working on their thesis. This course is meant only to maintain university student status, it will not give the student full- or part-time student status and will not permit deferment of student loans. Non-credit, fee per quarter.

BLW 201
LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
Undergraduate
Legal and Ethical Aspects in the Business Environment. Study of the nature and philosophy of law including ethical perspectives and fundamental concepts and legal principles of sales contracts, product liability, business organizations, and employment law including ethical and social responsibilities in the managerial process.

Sophomore standing is a prerequisite for this class.

BLW 202
COMMERCIAL PAPER AND SALES
Undergraduate
History of negotiable instruments and sales law from the days of the Law Merchant through Articles II and III of the Uniform Commercial Code; discussions of promissory notes, drafts, sales, bulk sales, and recent trends.

BLW 201 is a prerequisite for this class.

BLW 203
BUSINESS ORGANIZATIONS
Undergraduate
Types of business organizations; emphasis on Partnership and Corporation. Relations of parties to one another, and to third parties; comparisons between the two types and mechanics of forming and operating each.

BLW 201 is a prerequisite for this class.

BLW 398
SPECIAL TOPICS
Undergraduate
Content and format of this course are variable. An in-depth study of current issues in legal studies. Subject matter and prerequisites will be indicated in class schedule.

BLW 201 is a prerequisite for this class.
BLW 399
INDEPENDENT STUDY
Undergraduate
Independent Study. Available to students of demonstrated capability for intensive independent work in business law.

At least 88 cumulative units is a prerequisite for Business courses that require Junior standing.

BLW 500
LEGAL AND ETHICAL ENVIRONMENT
Graduate
This is an introduction to the nature and sources of law, including an analysis of ethical perspectives present in the judicial process. Students will learn how legal and ethical issues influence the decision-making process of managers. Students will explore the relationship between personal values and business decisions, and whether there exists a social responsibility of managers. This course will cover legal concepts relevant to business including basic concepts of public law (constitutional and administrative law) and private laws (sales and product liability). Students will examine business organizations and issues in employment law.

MS in Taxation students are restricted from registering for this class.

BLW 508
LEGAL ASPECTS OF BUSINESS-TOTAL PERSPECTIVE FOR THE EXECUTIVE
Graduate
Personal and professional legal liability of officers and directors has received considerable attention in recent years, thus highlighting the need for a view of the totality of his or her legal environment. It demands an integrated understanding and planning of the reciprocal aspects of his or her legal, social and ethical responsibilities and rights encountered in his or her office, outside and at home. From the end of the spectrum focusing on possible criminal and civil liabilities to the personal responsibilities of proper estate planning; the “socio-legal world of the executive” is presented. Successful completion of BLW 500 is recommended prior to registration for this course.

BLW 798
SPECIAL TOPICS
Graduate
Content and format of this course are variable. Subject matter will be indicated in class schedule.

BLW 799
INDEPENDENT STUDY
Graduate
Available to graduate students of demonstrated capability for intensive independent work in business law.

CHE 100
OUR CHEMICAL WORLD
Undergraduate
A course for non-science majors that develops the essential concepts of chemistry with some focus on applications of these methods and ideas toward a particular aspect of human activity or condition. Only one of series 100-102 may be taken for credit.

CHE 101
EXPLORING MATTER
Undergraduate
A course for non-science majors that develops the fundamental concepts of chemistry with experimental exploration to complement the methods and ideas encountered in reading and discussion in class. Only one of series 100-102 may be taken for credit. Lab fee.

CHE 102
ATOMS AND MOLECULES
Undergraduate
A course for non-science majors that develops the basic concepts of chemistry with discussion of some applications of chemical methods to the study of nature and the modification of the circumstances of human beings. The course will include a quantitative special project to enhance understanding of a particular application of chemistry. Only one of series 100-102 may be taken for credit.
CHE 103
ENVIRONMENTAL CHEMISTRY
Undergraduate
A discussion and laboratory exploration of the technological origins, effects, and control of environmental pollutants. Lab fee.

CHE 104
CHEMICALS, DRUGS AND LIVING SYSTEMS
Undergraduate
A discussion of the molecular basis of the interaction of specific chemical compounds (chiefly pharmaceuticals and drugs) with living organisms.

CHE 105
EXPLORING NUTRIENTS/SCIENCE OF NUTRITION
Undergraduate
A discussion and laboratory exploration of the chemical molecules which supply nutrients for living organisms. This course also includes a quantitative project, applicable to the individual student, to enhance the understanding of the principles of nutrition. Lab fee.

CHE 106
GEOCHEMISTRY
Undergraduate
This course for non-science majors that introduces students to basic chemical and geological concepts through a discussion of the chemical principles and scientific laws governing the composition and chemical transformation of the components making up the Earth. Major topics include the scientific method, reporting and treatment of quantitative data, introduction to the basic principles of matter, chemical reactivity, and radioactive decay.

CHE 107
PROTEINS AND THEIR GENES
Undergraduate
A discussion and laboratory introduction to many aspects of proteins: their chemical structures, biological functions, how genes store the information to make them, and how changes in genes can lead to changes in proteins, and to cancer and other diseases. Lab fee.

CHE 108
THE CONQUEST OF DISEASE AND ASSOCIATED PROBLEMS
Undergraduate
A discussion of how science and technology have extended life expectancy over the past two centuries in addition to a discussion of a multitude of problems such as the cost of health care, allocating scarce resources, safety and risk, etc.

CHE 109
FORENSIC CHEMISTRY
Undergraduate
Discussion and laboratory exploration of the application of modern science to problems in criminology, evidence, art, and archaeology.

CHE 110
NATIONAL SECURITY: SCIENCE & TECHNOLOGY
Undergraduate
A detailed discussion of the ways in which natural science and technology affect the nature of warfare, shape national security policy, and influence efforts to limit and control weapons.

CHE 128
BASIC CHEMICAL CONCEPTS
Undergraduate
This course develops the fundamental concepts of chemistry and basic quantitative reasoning. This course is suitable to prepare students to take General Chemistry I (CHE130). CO-REQUISITE(S): CHE129, MAT130 or higher. Formerly the lecture portion of CHE 101G.

CHE 129 and MAT 130 are a corequisite for this class.
CHE 129
BASIC CHEMICAL CONCEPTS LABORATORY
Undergraduate
Laboratory course to be taken in conjunction with CHE128. CO-REQUISITE(S): CHE128, MAT130 or higher. Formerly the lab portion of CHE 101G.

CHE 128 and MAT 130 are a corequisite for this class.

CHE 130
GENERAL CHEMISTRY I
Undergraduate
This introductory course for science majors emphasizes the composition of matter, atomic and molecular structure, bonding and chemical reactions. It is the first in the three-course sequence of General Chemistry. This course meets for three hours of lecture and one hour of discussion per week. Formerly CHE 111LEC. CO-REQUISITE(S): CHE 131.

MAT 130 or (CHE 128 and CHE 129) is a prerequisite for this class.

CHE 131
GENERAL CHEMISTRY I LABORATORY
Undergraduate
Laboratory course to be taken in conjunction with CHE 130. The course meets weekly for three hours. The experimental techniques provide hands-on experience with the course material in CHE130. Formerly CHE 111LAB. CO-REQUISITE(S): CHE130.

MAT 130 or (CHE 128 and CHE 129) is a prerequisite for this class.

CHE 132
GENERAL CHEMISTRY II
Undergraduate
Second course of three in the General Chemistry series. Topics discussed include: common states of matter, phase transitions, properties of solutions, kinetics and equilibrium. This course meets for three hours of lecture and one hour of discussion per week. Formerly CHE 113LEC. CO-REQUISITE(S): CHE133.

CHE 130 and CHE 131 are a prerequisite for this class.

CHE 133
GENERAL CHEMISTRY LABORATORY II
Undergraduate
Laboratory to be taken in conjunction with CHE 132. The Course meets weekly for three hours. The experimental techniques learned in lab provide hands-on experience with the course material in CHE132. Formerly CHE 113LAB. CO-REQUISITE(S): CHE 132.

CHE 130 and 131 are a prerequisite for this class.

CHE 134
GENERAL CHEMISTRY III
Undergraduate
Third of three courses in the General Chemistry sequence. Topics included in lecture: chemical equilibrium in aqueous solution (acids and bases, solubility, complex ion formation), Thermodynamics (entropy and free energy), electrochemistry, chemistry of d-block elements and descriptive chemistry. Formerly CHE 115LEC. CO-REQUISITE(S): CHE135.

CHE 132 and CHE 133 are a prerequisite for this class.

CHE 135
GENERAL CHEMISTRY LABORATORY III
Undergraduate
Laboratory to be taken in conjunction with CHE 134. The Course meets weekly for three hours. The experimental techniques provide hands-on experience with the course material in CHE134. Formerly CHE 115LAB. CO-REQUISITE(S): CHE 134.

CHE 132 and CHE 133 are a prerequisite for this class.
CHE 136
GENERAL CHEMISTRY I
Undergraduate
This course is a rigorous introductory course in general chemistry covering topics such as composition of matter, atomic and molecular structure, bonding and chemical reactions, common states of matter, properties of solutions, phase transitions. Formerly CHE 131LEC. CO-REQUISITE(S): CHE137.

MAT 130 or (CHE 128 and CHE 129) are a prerequisite for this class.

CHE 137
GENERAL CHEMISTRY I LABORATORY
Undergraduate
Laboratory course to be taken in conjunction with CHE136. This laboratory course introduces students to basic chemical laboratory techniques. Formerly CHE 131LAB. CO-REQUISITE(S): CHE 136.

MAT 130 or (CHE 128 and CHE 129) are a prerequisite for this class.

CHE 138
GENERAL CHEMISTRY II
Undergraduate
This course is a continuation of CHE136 covering topics including kinetics, chemical equilibrium in aqueous solution (acids and bases, solubility, complex ion formation), Thermodynamics (entropy and free energy), electrochemistry, chemistry of d-block elements and descriptive chemistry. Formerly CHE 133LEC. CO-REQUISITE(S): CHE 139.

CHE 139
GENERAL CHEMISTRY II LABORATORY
Undergraduate
This laboratory course is a continuation of CHE137, emphasizing additional quantitative and qualitative laboratory techniques to coincide with CHE138 content. Formerly CHE 133LAB. CO-REQUISITE(S): CHE 138.

CHE 202
APPLIED PROBABILITY AND STATISTICS
Undergraduate
This is a lecture course that introduces students to concepts related to the statistical analysis of experimental data, covering material from uncertainty, significant figures, and propagation of error through least squares fitting and descriptions and applications of several statistical distributions. CO-REQUISITE(S): CHE204.

(CHE 134 and CHE 135) or (CHE 138 and CHE 139) are a prerequisite and CHE 204 is a corequisite for this class.

CHE 204
ANALYTICAL CHEMISTRY
Undergraduate
Use of equilibrium chemistry to solve problems of chemical analysis in acid-base, solubility, metal-ligand complex, and electrochemical systems. Formerly CHE 205LEC. CO-REQUISITE(S): CHE 202 and CHE205.

(CHE 134 and CHE 135) or (CHE 138 and CHE 139) are prerequisites for this class.

CHE 205
ANALYTICAL CHEMISTRY LABORATORY
Undergraduate
Laboratory to be taken in conjunction with CHE205. Methods include wet chemistry and instrumental techniques of analysis. Formerly CHE 205LAB. CO-REQUISITE(S): CHE 204.

(CHE 134 and CHE 135) or (CHE 138 and CHE 139) are prerequisites for this class.
CHE 228
SURVEY OF ORGANIC CHEMISTRY
Undergraduate
This one-quarter course gives students an overview of the fundamentals of organic chemistry and its applications in health and environmental sciences. This is a survey course meant for students who do not need to learn a full year of organic chemistry. Emphasis is on the structure, function, and reactivity of the major classes of organic compounds. This course meets for six hours per week: three hours of traditional lecture and three hours of lab. The course is suitable for nursing and environmental science students; it does not substitute for any traditional organic chemistry course. Formerly CHE 169LEC. CO-REQUISITE(S): CHE 229.

(CHE132 and 133) or (138 and 139) are prerequisites for this course.

CHE 229
SURVEY OF ORGANIC CHEMISTRY LABORATORY
Undergraduate
Laboratory to be taken in conjunction with CHE 229. Formerly CHE 169LAB. CO-REQUISITE(S): CHE 228.

(CHE132 and 133) or (138 and 139) are prerequisites for this course.

CHE 230
ORGANIC CHEMISTRY I
Undergraduate
First in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecule and the language and fundamental concepts of organic chemistry, including: structure and bonding; acid-base reactions; functional groups; thermodynamics and kinetics of organic reactions; stereochemistry; substitution and elimination reactions of alkyl halides. Formerly CHE 171LEC. CO-REQUISITE(S): CHE 231.

(CHE 134 and CHE 135) or (CHE 138 and CHE 139) are prerequisites for this class.

CHE 231
ORGANIC CHEMISTRY LABORATORY I
Undergraduate
Laboratory to be taken in conjunction with CHE230. Formerly CHE 171LAB. CO-REQUISITE(S): CHE 230.

(CHE 134 and CHE 135) or (CHE 138 and CHE 139) are a prerequisite and CHE 230 is a corequisite for this class.

CHE 232
ORGANIC CHEMISTRY II
Undergraduate
Second in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecules. Specific topics investigated include the reactivity and synthesis of alcohols, ethers, epoxides, alkenes, alkynes, alkanes, conjugated, and aromatic compounds. Formerly CHE 173LEC. CO-REQUISITE(S): CHE 233

CHE 230 and CHE 231 are prerequisites for this class.

CHE 233
ORGANIC CHEMISTRY LABORATORY II
Undergraduate
Laboratory to be taken in conjunction with CHE232. Formerly CHE 173LAB. CO-REQUISITE(S): CHE 232

CHE 230 and CHE 231 are prerequisites for this class.

CHE 234
ORGANIC CHEMISTRY III
Undergraduate
Third in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecules. Specific topics investigated include the reactivity and synthesis of carbonyl compounds; amines; and bio-molecules. Formerly CHE 175LEC. CO-REQUISITE(S): CHE 235.

CHE 232 and CHE 233 are a prerequisite and CHE 235 is a corequisite for this class.
CHE 235
ORGANIC CHEMISTRY LABORATORY III
Undergraduate
Laboratory to be taken in conjunction with CHE234. Formerly CHE 175LAB. CO-REQUISITE(S): CHE 234.

CHE 236 and CHE 233 are a prerequisite and CHE 234 is a corequisite for this class.

CHE 236
ORGANIC CHEMISTRY I
Undergraduate
First in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecules, and the language and fundamental concepts of organic chemistry. Specific topics that are covered include the following: structure and bonding; acids and bases; functional groups; thermodynamics and kinetics of organic reactions; alkanes; stereochemistry; alkyl halides and nucleophilic substitution; elimination reactions; alcohols, ethers and epoxides; alkenes; alkynes; oxidation and reduction. Formerly CHE 177LEC. CO-REQUISITE(S): CHE 237.

(CHE 134 and CHE 135) or (CHE 138 and CHE 139) are a prerequisite and CHE 237 is a corequisite for this class.

CHE 237
ORGANIC CHEMISTRY I LABORATORY
Undergraduate
Laboratory to be taken in conjunction with CHE236. Formerly CHE 177LAB. CO-REQUISITE(S): CHE236.

(CHE 134 and CHE 135) or (CHE 138 and CHE 139) are a prerequisite and CHE 236 is a corequisite for this class.

CHE 238
ORGANIC CHEMISTRY II
Undergraduate
Second in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecules, and the language and fundamental concepts of organic chemistry. Specific topics that are covered include the following: conjugation, resonance, and dienes; benzene and aromatic compounds; electrophilic aromatic substitution; carboxylic acids; organometallic reagents; carbonyl substitution and addition reactions; aldehydes and ketones; carbonyl condensation reactions; amines; bio-molecules. Formerly CHE 179LEC. CO-REQUISITE(S): CHE239

CHE 236 and CHE 237 are prerequisites for this course.

CHE 239
ORGANIC CHEMISTRY II LABORATORY
Undergraduate
Laboratory to be taken in conjunction with CHE238. Formerly CHE 179LAB. CO-REQUISITE(S): CHE238

CHE 236 and CHE 237 are prerequisites for this course.

CHE 264
ATMOSPHERIC CHEMISTRY
Undergraduate
Atmospheric chemistry with a focus on physical and chemical processes in the troposphere and stratosphere. Formerly CHE 265LEC. CO-REQUISITE(S): CHE265.

CHE 204 and CHE 205 are prerequisites for this course.

CHE 265
ATMOSPHERIC CHEMISTRY LABORATORY
Undergraduate
Laboratory to be taken in conjunction with CHE 264, with emphasis placed on gas phase and particulate measurements. Formerly CHE 265LAB. CO-REQUISITE(S): CHE264.

CHE 205 is a prerequisite for this class.
CHE 268
SOLID WASTE CHEMISTRY
Undergraduate
Fundamental chemical processes involved in the processing of solid wastes. Offered in Spring quarters of odd-numbered years. Formerly CHE 269LEC. CO-REQUISITE(S): CHE269LAB.

CHE 204 and CHE 205 are prerequisites for this course.

CHE 269
SOLID WASTE CHEMISTRY LABORATORY
Undergraduate
Laboratory to be taken in conjunction with CHE 268, offered in spring of odd-numbered years. Formerly CHE 269LAB. CO-REQUISITE(S): CHE 268

CHE 204 and CHE 205 are prerequisites for this course.

CHE 302
QUANTUM CHEMISTRY
Undergraduate
Quantum mechanics. Formerly CHE 215LEC. CO-REQUISITE(S): CHE303

CHE 204 and CHE 205 and (MAT 149 or MAT 152 or MAT 162 or MAT 172) and PHY 172 are prerequisites and CHE 303 is a corequisite for this class.

CHE 303
EXPERIMENTAL PHYSICAL CHEMISTRY I
Undergraduate
Laboratory to be taken in conjunction with CHE302. Introduction to essential skills and techniques of experimental physical chemistry. Topics include the use of data analysis software, computational methods, basic spectroscopy, and technical writing. Formerly CHE 215LAB. CO-REQUISITE(S): CHE302.

CHE 204 and CHE 205 and (MAT 149 or MAT 152 or MAT 162 or MAT 172) and PHY 172 are prerequisites and CHE 302 is a corequisite for this course.

CHE 304
THERMOCHEMISTRY
Undergraduate
Thermochemistry. Formerly CHE 210. CO-REQUISITE(S): CHE305.

CHE 302 is a prerequisite for this class.

CHE 305
EXPERIMENTAL PHYSICAL CHEMISTRY II
Undergraduate
Laboratory to be taken in conjunction with CHE304. The goal of this laboratory course is to teach students essential skills and techniques of physical chemistry. Experimental work will focus on electronic spectroscopy and thermodynamics. CO-REQUISITE(S): CHE304.

CHE 303 is a prerequisite for this class.

CHE 306
KINETICS AND MOLECULAR DYNAMICS
Undergraduate

CHE 302 and CHE 303 are a prerequisite and CHE 307 is a corequisite for this class.
CHE 307  
**EXPERIMENTAL PHYSICAL CHEMISTRY III**  
Undergraduate  
Laboratory to be taken in conjunction with CHE306. The goal of this laboratory course is to teach students essential skills and techniques of physical chemistry. Experimental work will focus on thermodynamics at the outset and then kinetics for the final two experiments of the quarter. Formerly CHE 211LAB. CO-REQUISITE(S): CHE306.

CHE 302 and CHE 303 are a prerequisite and CHE 306 is a corequisite for this class.

CHE 310  
**NUCLEAR CHEMISTRY**  
Undergraduate  
This is a course for advanced undergraduates and graduate students in the M.S. program. The course emphasizes the theory of radioactive decay, nuclear properties, mass-energy systematics, and nuclear applications.

CHE 202 is a prerequisite for this course.

CHE 312  
**QUANTUM CHEMISTRY**  
Undergraduate  
Quantum chemistry, electronic structure of atoms and molecules, molecular spectroscopy. Offered in Spring of odd-numbered years. Cross-listed as CHE 412.

CHE 215 is a prerequisite for this class.

CHE 313  
**COMPUTATIONAL CHEMISTRY**  
Undergraduate  
Molecular modeling. Force field, semi-empirical quantum mechanical and ab initio quantum mechanical calculations by computer. Applications emphasized. Offered in Spring of even-numbered years.

CHE 215 is a prerequisite for this class.

CHE 318  
**BIOPHYSICAL CHEMISTRY**  
Undergraduate  
This course is designed for advanced undergraduate students with an interest in the interdisciplinary field of biophysics. The course will focus on several subfields of biophysical chemistry, including: fluorescence as a tool in biophysics; protein folding; biophysical applications of single molecule fluorescence, atomic force microscopy, X-ray crystallography, mass spectrometry, and NMR spectroscopy. Additional topics will be selected by students from a list of possible choices.

CHE304 or CHE342 is a prerequisite for this course.

CHE 320  
**INTERMEDIATE INORGANIC CHEMISTRY**  
Undergraduate  
Lecture course emphasizing synthesis, structure and reactions of metal ligand compounds of general and biological interest. Formerly CHE 321LEC. CO-REQUISITE(S): CHE321.

(CHE 234 and CHE 235) or (CHE 238 and CHE 239) are a prerequisite for this class.

CHE 321  
**INTERMEDIATE INORGANIC CHEMISTRY LABORATORY**  
Undergraduate  
Laboratory to be taken in conjunction with CHE 320. Formerly CHE 321LAB. CO-REQUISITE(S): CHE 320.

(CHE 234 and CHE 235) or (CHE 238 and CHE 239) are a prerequisite for this class.
This one-quarter course is designed to develop the chemical intuition necessary for advanced work in organic chemistry through a review of general organic chemistry, with emphasis on the following more advanced topics: reaction mechanisms and why reactions occur; heteraromatic chemistry; curved-arrow formalism and multi-step reactions; molecular orbitals and symmetry-controlled reactions; Hammett equation and structure-activity relationships; functional group interconversions; carbon-carbon bond-forming reactions; more advanced treatment of structure and mechanism; introduction to design and planning of synthesis of organic compounds. CO-REQUISITE(S): CHE327 (CHE234 and CHE235) or (CHE238 and CHE239) are prerequisites for this course.

Laboratory to be taken in conjunction with CHE326. This course is designed to provide the student with a thorough introduction to the experimental techniques utilized by practicing chemists in the synthesis, isolation, and characterization of organic compounds. CO-REQUISITE(S): CHE 326.

(CHE234 and CHE235) or (CHE238 and CHE239) are prerequisites for this course.

Capstone in the Physical Sciences. A course for graduating chemistry and physics majors to integrate physical science experience with non-scientific fields.

First in a three-course sequence, directed at those who wish an in-depth exploration of modern biochemistry. This course covers the structures and functions of the four major macromolecules, concentrating on enzyme kinetics and regulation. CO-REQUISITE(S): CHE341. The general biology sequence strongly recommended.

(CHE232 and 233) or (CHE238 and 239) are prerequisites for this course.

Laboratory to be taken in conjunction with CHE340. This course will introduce classic and modern techniques for isolating and characterizing biological molecules. Topics covered will include buffer preparation; amino acid analysis; detection, quantification, and purification of proteins; enzyme kinetics; purification, amplification, and analysis of DNA; protein stabilization; and molecular interaction analysis. Formerly CHE 341LAB. CO-REQUISITE(S): CHE 340.

CHE 340 is a corequisite for this class.

Second in a three-course sequence, directed at those who wish an in-depth exploration of modern biochemistry. This course covers energy metabolism and biosynthetic pathways, with emphasis on their coordinated regulation. CO-REQUISITE(S): CHE343.

CHE 340 and CHE 341are a prerequisite for this class.
CHE 343
EXPERIMENTAL BIOCHEMISTRY II
Undergraduate
Laboratory to be taken in conjunction with CHE 342. Applications of basic techniques from CHE 341: DNA cloning and transformation; protein expression, purification, and characterization; and advanced biophysical methods. Formerly CHE 343LAB. CO-REQUISITE(S): CHE342.

CHE 340 and CHE 341 are a prerequisite for this class.

CHE 344
BIOCHEMISTRY III
Undergraduate
Third in a three-course sequence, directed at those who wish an in-depth exploration of modern biochemistry. This course covers metabolism, nucleic acid structure and replication, transcription and translation. Also included are methods of biotechnology and an introduction to reading the primary literature. CO-REQUISITE(S): CHE345.

CHE 342 is a prerequisite for this class.

CHE 345
EXPERIMENTAL BIOCHEMISTRY III
Undergraduate
Laboratory to be taken in conjunction with CHE 344. This course will introduce students to bioinformatics methods including protein function prediction and structure analysis, DNA/protein sequence analysis and alignment, and special topics laboratory techniques. CO-REQUISITE(S): CHE344

CHE 343 is a prerequisite for this course.

CHE 346
SURVEY OF BIOCHEMISTRY
Undergraduate
An introduction to the chemistry of living systems, directed at those who want only a general survey of the main topics in biochemistry. The structures and functions of the four major macro-molecules, energy metabolism and biosynthesis, and the processes for making DNA, RNA and proteins will be discussed. Offered Spring of Odd-Numbered Years. Formerly CHE 240.

CHE 234 or CHE 238 is a prerequisite for this class.

CHE 348
CHEMICAL BIOLOGY
Undergraduate
This course introduces students to a new discipline spanning the fields of chemistry and biology in which chemical techniques and tools, often compounds produced through synthetic chemistry are used to study and manipulate biological systems in an effort to unravel biological problems and systems. The course will take a case study approach. Techniques encountered in the case study will be studied in depth. Primary literature will be used extensively in the in depth case study.

CHE 344 is a prerequisite for this course.

CHE 360
MEDICINAL CHEMISTRY
Undergraduate
This course emphasizes organic chemical principles and reactions vital to drug design and drug action in the human body. Medicinal chemists design molecules that alter phenomena operating at the overlap of chemistry, biochemistry, cell biology, and pharmacology. This course introduces the conceptual frameworks and methods employed in drug development using case histories and mechanisms of clinically important drugs as illustrative examples.

CHE 234 or CHE238 are prerequisites for this course.
CHE 362
DRUGS AND TOXICOLOGY
Undergraduate
This course covers the chemical and biological analysis of the metabolism and distribution of drugs, toxins and chemicals in animals and humans, and the mechanism by which they cause therapeutic and toxic responses. Metabolism and toxicity as a basis for drug development, metabolic polymorphisms and biomarkers of exposure are also covered.

CHE 360 is a prerequisite for this course.

CHE 364
NUTRITION
Undergraduate
This is a one-quarter course focused on the advanced chemical aspects of human nutrition. The topics include the nutritive and toxic content of foods and health effects, a review of basic metabolic processes, nutrient transport and storage systems, cell signaling and regulation, and hormonal regulation and fuel utilization.

CHE 234 or CHE 238 is a prerequisite for this class.

CHE 378
APPLIED SPECTROSCOPY
Undergraduate
Organic structure determination through the interpretation of spectral information. Formerly CHE 356.

CHE 235 or CHE 239 is a prerequisite for this course.

CHE 390
STATISTICAL ANALYSIS OF DATA
Undergraduate
This course introduces students to statistical methods that can be used in the error analysis of experimental data. Computers are used to apply concepts discussed in lecture to actual data sets. Familiarity with Excel or a modern programming language is required. Offered Winter of Even-Numbers Years.

CHE 215 and (MAT 149 or MAT 162) is a prerequisite for this class.

CHE 392
INTERNSHIP
Undergraduate
Experiential learning experience in a government agency, industrial firm, business, or non-profit organization.

CHE 394
SEMINAR
Undergraduate
This course is required for all chemistry majors. This course is designed to enhance your ability to: critically read and summarize scientific literature, thoughtfully listen to a scientific seminar, articulate questions regarding a scientific seminar, and orally present a scientific paper.

(CHE 234 and CHE 235 and at least Junior year standing) or instructor permission is a prerequisite for this course.

CHE 396
RESEARCH METHODS
Undergraduate
The student will use various forms of information technology (e.g., indexes and databases, journal, Internet, etc.), to write a research paper or a research proposal on a topic. A research proposal must summarize the rationale for conducting the research, the historical development of the project topic, the materials and methods that will be used to conduct the project, and a timeline for completing the project. Variable credit.
CHE 397
ADVANCED LABORATORY PROJECT
Undergraduate
This course is a comprehensive lab experience designed to introduce you to research methods through open-ended guided research projects. Throughout the course, students will learn to use analytical instrumentation to solve real problems in chemistry. This total four credit-hour course may be divided up according to the instructors consent. Some options may include taking all four credits in one quarter or dividing them into two quarters of two-credit hours each or into three quarters at one, one, and two credits. The student is expected to design and implement an individual research project using the methods learned in the structured portion of the course. However, the instructor of this course is free to choose any other focus in chemistry; for example, synthesis of organic compounds in one quarter followed by testing for medicinal activity in the second quarter. In another example, students could synthesize and perform measurements on the properties of chemical compounds in one quarter and perform detailed computational studies to support the measured data in the second quarter. For some cross-disciplinary projects, two instructors may choose to divide the responsibility of leading each quarter.

Junior standing is a prerequisite for this class.

CHE 398
CHEMISTRY THESIS
Undergraduate
This course requires faculty-guided experimental exploration of a research topic and both written (thesis) and oral (seminar and defense) presentation of results. This course is typically completed in two or three quarters (though it may be completed in one quarter at the discretion of the research advisor). The student is expected to gain skills in laboratory techniques and procedures in pursuing answers to a research project. The student will choose a faculty mentor and a project. The project may be based on lab or field research. The grade for the thesis will be based on the written document as well as on the oral seminar and defense presented to the Chemistry students and faculty and the student will graduate with honors from the department. This course may be taken more than one time for credit.

CHE 399
INDEPENDENT STUDY
Undergraduate
Independent study of chemistry on an informal basis by an individual in consultation with a department faculty member. Variable credit. Department consent required.

CHE 412
QUANTUM CHEMISTRY
Graduate
Quantum chemistry, electronic structure of atoms and molecules, molecular spectroscopy. Cross-listed as CHE 312.

CHE 215 is a prerequisite for this class.

CHE 422
ADVANCED INORGANIC CHEMISTRY I
Graduate
First of a two-quarter sequence of inorganic chemistry for advanced undergraduates and graduate students in the M.S. program. The course emphasis is variable and can include any topic(s) that fall under the broad umbrella of inorganic chemistry.

CHE 320 is a prerequisite for this class.

CHE 424
ADVANCED INORGANIC CHEMISTRY II
Graduate
Second of a two-quarter sequence of inorganic chemistry for advanced undergraduates and graduate students in the M.S. program. The course emphasis is variable and can include any topic(s) that fall under the broad umbrella of inorganic chemistry.

CHE 320 is a prerequisite for this class.

CHE 430
POLYMER SYNTHESIS
Graduate
This course focuses on the key synthetic organic chemistry methods for making polymers and coatings. A detailed consideration is given to the three types of polymerization reactions: step, chain, and ring-opening polymerizations. Practical application of polymer chemistry in society is a theme throughout the course. Offered: Spring of even-numbered years. Offered: Spring of even-numbered years.
The goal of this lab course is to expose students to experimental polymer chemistry. This course focuses on the key synthetic methods for making polymers and basic structural characterization techniques. Practical application of polymer chemistry in society is a theme throughout the course. Laboratory fee: $70.00. Offered: Spring of odd-numbered years. Formerly CHE 461.

This course looks at the broad subject of the physical chemistry of polymers and coatings. A detailed consideration is given to the role of molecular conformation and configuration in determining the physical behavior of polymers. Practical application of physical polymer chemistry in society is a theme throughout the course. Offered: Spring of odd-numbered years.

CHE 304 is a prerequisite for this class.

This course looks at the broad subject of polymer characterization. A detailed consideration is given to major methods of analysis of chemical structure, molecular weight, morphology, and rheology. Practical application of polymer characterization in society is a theme throughout the course. Offered: Autumn of even numbered years.

The goal of this lab course is to expose students to hands-on polymer characterization techniques. This course will focus on the basic characterization techniques for determining structure and physical properties of polymers. Practical application of polymer characterization is a theme throughout the course. Laboratory fee: $70.00. Offered: Autumn of odd-numbered years. Formerly CHE 463.

This course looks at the broad subject of the polymer and coatings technology. A detailed consideration is given to polymerization processes, and polymer and coatings processing. Practical application of polymer and coatings technology in society is a theme throughout the course. Offered: Spring of odd-numbered years. Formerly CHE 460.

This course looks at the broad subject of the materials science with emphasis on theory and applications of metals, ceramics, polymers, coatings and composites from atomic and macroscopic points of view. Practical application of materials science is a theme throughout the course. Offered Autumn of odd-numbered years. Formerly CHE 462.

Offered: Spring. Cross-listed as CHE 344

In-depth exploration of the structure/function relationship of biomolecules, especially proteins. Offered: Autumn of even-numbered years.
CHE 444
ADVANCED BIOCHEMISTRY II
Graduate
Discussion and seminars in selected areas. Offered: Winter of odd-numbered years.

CHE 344 is a prerequisite for this class.

CHE 450
ADVANCED ORGANIC CHEMISTRY I
Graduate
First of a two-quarter sequence of organic chemistry for advanced undergraduates and graduate students in the M.S. program. This course emphasizes physical organic chemistry and mechanisms.

CHE 234 or CHE 238 is a prerequisite for this class.

CHE 452
ADVANCED ORGANIC CHEMISTRY II
Graduate
Second of a two-quarter sequence of organic chemistry for advanced undergraduates and graduate students in the M.S. program. This course emphasizes classic and modern synthetic methods.

CHE 234 or CHE 238 is a prerequisite for this class.

CHE 470
ADVANCED PHYSICAL CHEMISTRY I
Graduate
Thermodynamics. Offered: Autumn of even-numbered years.

CHE 472
ADVANCED PHYSICAL CHEMISTRY II
Graduate
Advanced topics in physical chemistry drawn from the areas of thermodynamics, statistical mechanics, kinetics, and molecular dynamics.

CHE 474
ADVANCED QUANTUM MECHANICS
Graduate
Quantum chemistry, electronic structure of atoms and molecules, molecular spectroscopy.

CHE 476
COMPUTATIONAL CHEMISTRY
Graduate
This course is designed to provide an accessible and practical introduction to computational chemistry. The course provides an overview of different methods commonly used in the field ranging from classical to quantum mechanical ab initio and density functional methods. CO-REQUISITE(S): CHE477.

CHE 477
COMPUTATIONAL CHEMISTRY LABORATORY
Graduate
Laboratory to be taken in conjunction with CHE476. The laboratory experiments students will perform will reinforce material presented in lecture and allow students to explore lecture topics in more detail. The writing of laboratory reports will also offer students the opportunity to develop their scientific writing skills. CO-REQUISITE(S): CHE476.

CHE 480
SPECIAL TOPICS IN ANALYTICAL CHEMISTRY
Graduate
This course may be any topic related to chemical analysis, such as mass spectroscopy, electrochemical analysis, principles of chromatography, polymer properties, coatings, sampling methods, design of experiments, etc. This course may be repeated if the topics are different.

CHE 204 is a prerequisite for this class.
CHE 482
SPECIAL TOPICS IN BIOCHEMISTRY
Graduate
This course may cover any topic related to biochemistry or medicinal chemistry. This course may be repeated if the topics are different.

CHE 484
SPECIAL TOPICS IN INORGANIC CHEMISTRY
Graduate
This course may cover any topic related to inorganic chemistry. This course may be repeated if the topics are different.

CHE 486
SPECIAL TOPICS IN ORGANIC CHEMISTRY
Graduate
This course may cover any topic related to organic chemistry. This course may be repeated if the topics are different.

CHE 488
SPECIAL TOPICS IN PHYSICAL CHEMISTRY
Graduate
This course covers specific topics in the area of physical chemistry. Examples of topics include single molecule techniques, molecular electronic spectroscopy, interaction of electromagnetic radiation with particulate matter, and hydrogen bonding. This course may be repeated if the topics are different.

CHE 490
ADVANCED PROBABILITY AND STATISTICS
Graduate
This course introduces students to statistical methods that can be used in error analysis of experimental data. Computers are used to apply concepts discussed in lecture to actual data sets. Offered: Winter of even-numbered years. Familiarity with Excel or a modern programming language is strongly recommended.

CHE 497
RESEARCH
Graduate
This course requires independent experimental exploration under the supervision of a faculty member. Thesis students must write a thesis based on their research project and successfully complete a two-part oral exam. The first part of the examination consists of the thesis presentation and defense; the second part is an oral examination concerning the student's general knowledge of chemistry.

CHE 500
INDEPENDENT STUDY
Graduate
Variable credit. This course may be repeated as needed.

CHE 502
CANDIDACY CONTINUATION
Graduate
Required of all students who are not registered for regular courses but who occasionally utilize university facilities during completion of course requirements and/or research. This course carries no credit. Quarterly fee applies.

CHN 101
BASIC CHINESE I
Undergraduate
Listening to, speaking, reading and writing Chinese in a cultural context for the beginning student.
CHN 102
BASIC CHINESE II
Undergraduate
Continued emphasis on the four skills in culturally-authentic situations.

CHN 103
BASIC CHINESE III
Undergraduate
Further work on the basic elements of the Chinese language, spoken as well as written, with due regard to the cultural context of Chinese expression.

CHN 104
INTERMEDIATE CHINESE I
Undergraduate
Intensive practice in the use of Chinese through listening, speaking, reading and writing, and continued enhancement of the cultural awareness intrinsic to those skills.

CHN 105
INTERMEDIATE CHINESE II
Undergraduate
Continuing practice in spoken and written Chinese and further development of reading and listening abilities in an authentic cultural context.

CHN 106
INTERMEDIATE CHINESE III
Undergraduate
Developing more fluency in speaking, understanding, reading and writing Chinese with a concomitant heightened awareness of the cultural dimensions of the Chinese language.

CHN 110
INTENSIVE BASIC CHINESE I (FOR PARTICIPANTS IN DAAAO PROGRAM)
Undergraduate
An intensive introduction to reading, writing, and speaking Mandarin in a cultural context for the beginning student. For participants in the DAAAO Program.

CHN 111
INTENSIVE BASIC CHINESE II (FOR PARTICIPANTS IN DAAAO PROGRAM)
Undergraduate
An intensive introduction to reading, writing, and speaking Mandarin in a cultural context for the beginning student; continues CHN 110. For participants in the DAAAO Program.

CHN 117
INTENSIVE BASIC CHINESE I
Undergraduate
This is part I of a two-course sequence of hybrid Basic Chinese which is equivalent to the 1st-year sequence CHN101-102-103. The hybrid course is offered in two modules: Online Learning Module(OLM) in which you self-learn the online content on our course website and finish on-line assignments during the weekdays and the Face-to-Face Module(FtFM) in which you take tests and have conversational practices in a weekly face-to-face class meeting every Friday afternoon. The class will focus on developing students' basic conversational and literary proficiency in mandarin Chinese.
CHN 118
INTENSIVE BASIC CHINESE II
Undergraduate
This is part II of a two-course sequence of hybrid Basic Chinese which is equivalent to the 1st-year sequence CHN101-102-103. The hybrid course is offered in two modules: Online Learning Module(OLM) in which you self-learn the online content on our course website and finish on-line assignments during the weekdays and the Face-to-Face Module(FtFM) in which you take tests and have conversational practices in a weekly face-to-face class meeting every Friday afternoon. The class will focus on developing students' basic conversational and literary proficiency in mandarin Chinese. CHN 117 or equivalent, including placement test or permission of instructor, is recommended.

CHN 141
INTENSIVE CHINESE
Undergraduate
Intensive introduction to Chinese, with emphasis on practical speaking, listening, and reading skills.

CHN 197
SPECIAL TOPICS IN CHINESE
Undergraduate
See schedule for current offerings.

CHN 198
STUDY ABROAD
Undergraduate
Variable credit.

CHN 199
INDEPENDENT STUDY
Undergraduate
Variable credit.

CHN 201
ADVANCED CHINESE I
Undergraduate
Further work on grammatical principles as well as intensive reading and writing practice.

CHN 202
ADVANCED CHINESE II
Undergraduate
Continued emphasis on grammatical principles and further refinement of all four language skills.

CHN 203
ADVANCED CHINESE III
Undergraduate
Special emphasis on conversation within the context of all four skills.

CHN 211
LANGUAGE AND SOCIETY IN MODERN CHINA
Undergraduate
This course explores contemporary society and culture in China through readings and discussions. Topics include: the features and history of the languages spoken in Mainland China, Taiwan, and Hong Kong, the mutual influence between these languages and cultural traditions, the recent economic boom, the internet, and English. CHN 106 or equivalent and CHN 201-203 recommended.
CHN 252
INTRODUCTION TO COMMERCIAL CHINESE
Undergraduate
This course helps students develop basic interpretive, presentational, and interactive skills that are needed in business-related Chinese social contexts. You will learn pertinent vocabulary, idiomatic expressions, cultural information, and etiquette that are needed when doing business with Chinese businesspeople or in Chinese society. Mandarin Chinese is used for the majority of instruction, although English is also employed to explain certain cultural information and relevant business etiquette. CHN 106 or equivalent and CHN 201-203 recommended.

CHN 297
SPECIAL TOPICS IN CHINESE
Undergraduate
See schedule for current offerings.

CHN 298
STUDY ABROAD
Undergraduate
Variable credit.

CHN 299
INDEPENDENT STUDY
Undergraduate
Variable credit.

CHN 301
ADVANCED SPEAKING
Undergraduate
Advanced practice of speaking skills in Mandarin, focusing on expanding vocabulary and information needed for the discussion of topics to full capacity in the target language. CHN 106 or equivalent and CHN 201-203 recommended.

CHN 302
ADVANCED READING
Undergraduate
Advanced practice of reading skills in Mandarin, focusing on increase in vocabulary and reinforcement of their grammatical knowledge, using textual clues to find the meanings of unknown words. CHN 106 or equivalent and CHN 201-203 recommended.

CHN 303
ADVANCED WRITING
Undergraduate
Advanced practice of writing skills in Mandarin, focusing on standardized formal writing practices, ranging from the writing of letters to the writing of essays including both descriptive and expository styles. CHN 106 or equivalent and CHN 201-203 recommended.

CHN 370
CHINESE CULTURE THROUGH FILM
Undergraduate
Survey of major twentieth-century Chinese films illustrating the history, politics, society and economy of modern China, with special attention to the continuity between tradition and modernity. CHN 106 or equivalent and CHN 201-203 recommended.

CHN 397
SPECIAL TOPICS IN CHINESE
Undergraduate
See schedule for current offerings.
CHN 398
STUDY ABROAD
Undergraduate
Variable credit.

CHN 399
INDEPENDENT STUDY
Undergraduate
Variable credit.

CHN 401
ADVANCED SPEAKING
Graduate
Advanced practice of speaking skills in Mandarin, focusing on expanding vocabulary and information needed for the discussion of topics to full capacity in the target language. Three years of college study or equivalent knowledge recommended.

CHN 402
ADVANCED READING
Graduate
Advanced practice of reading skills in Mandarin, focusing on increase in vocabulary and reinforcement of their grammatical knowledge, using textual clues to find the meanings of unknown words. Cross-listed with CHN 302.

CHN 403
ADVANCED WRITING
Graduate
Advanced practice of writing skills in Mandarin, focusing on standardized formal writing practices, ranging from the writing of letters to the writing of essays including both descriptive and expository styles. Students in this course will develop vocabulary, expressions, peculiar reading and writing strategies through working with historical texts. They are also expected to develop deeper understanding of the content in the texts as well as the special historical and cultural contexts of the selected texts. All assignments will be submitted in mandarin Chinese. Cross-listed as CHN 303.

CHN 470
CHINESE CULTURE THROUGH FILM
Graduate
Survey of major twentieth-century Chinese films illustrating the history, politics, society and economy of modern China, with special attention to the continuity between tradition and modernity. Cross-listed with CHN 370.

CHN 497
SPECIAL TOPICS IN CHINESE
Graduate
See schedule for current offerings.

STUDY ABROAD
Graduate
Variable credit. Permission required.

CHN 499
INDEPENDENT STUDY
Graduate
Variable credit. Permission of chair and instructor required.
CMN 101
INTRODUCTION TO HUMAN COMMUNICATION
Undergraduate
This course provides an introduction to the field of relational, group and organizational communication. Students become acquainted with the basic terms, concepts and theoretical perspectives used to examine communication in dyadic, group and organizational contexts.

CMN 102
INTRODUCTION TO MASS COMMUNICATION (CROSS-LISTED WITH ART 179)
Undergraduate
This course offers students a broad overview of the mass media (print, film, video, recorded music, radio, television and the internet) with a particular focus on how these media impact our everyday lives. Students will develop critical frameworks for understanding how power operates across the media spheres of production, circulation, representation and reception. Attention is placed on how the social categories of race, class, gender, sexuality, ethnicity, age and nationality inform each of these media spheres. The course also considers how recent developments in digital technologies, media convergence and globalization have transformed our media culture.

CMN 103
INTERCULTURAL COMMUNICATION
Undergraduate
Examines the role culture plays in interethnic and international communication. Explores differences and similarities in cultural values and communication behaviors between and among diverse cultures and develops intercultural competence. Critiques stereotypes and increases cultural sensitivity.

CMN 394
ADVANCED COMMUNICATION INTERNSHIP
Undergraduate
This course is for communication majors and minors who meet eligibility requirements. Students will learn career planning skills, explore the organizations in which they work, gain an understanding of how they contributed to their organizations, and discuss societal and world issues, as they affect their workplaces. Students are required to work 10 hours per week while enrolled in the course. Students must complete the Communication Internship orientation workshop. Students registering for a hybrid section must also attend five 2-hour class meetings.

CMN 395
COMMUNICATION INTERNSHIP SPECIAL TOPICS
Undergraduate
This course is for students who wish to receive academic credit for a second or third internship. Must be a Communication major or minor who has completed CMN 394 or ISP250 and meets eligibility requirements. Must be taken concurrently with an internship. Topics include building and managing a communication career, effective networking, and leadership development.

CMN 396
CAPSTONE IN COMMUNICATION
Undergraduate
Making a difference: Communication Senior Capstone. Exploration of student skills, knowledge and interests, as well as how these might have a concrete contribution to contemporary society.

Senior Standing is a prerequisite for this class.

CMN 591
INTERNSHIP
Graduate
This graduate level course is designed to integrate the student's work experience at the internship site with a career-management curriculum that enhances internship success and increases employability.

CMNS 290
COMMUNICATION WORKSHOP (VARIABLE TOPICS)
Undergraduate
This course allows students to sample a range of hands on, practical offerings in communication that can enhance their knowledge and expertise. Topics offered include survey design and focus groups.
CMNS 291
RESEARCH METHODS
Undergraduate
This course is an introduction to the study of communication through the observation and analysis of empirical (i.e. aspects of the observable world) data. It will stress how to form appropriate questions from the theories (or hunches, dreams etc.) and rigorously test these propositions (quantitatively and qualitatively) to see how well they correspond to the world outside ourselves. An added benefit of the course will be to show how to be a more informed judge of the claims of others. The format of the course is lecture/discussion.

CMNS 305
PERFORMANCE STUDIES
Undergraduate
The course traces the shift from the field of Oral Interpretation to the emergence of Performance Studies, as a discipline, with particular attention to the primary theorists and practitioners that have set the foundation and scope of the field of Performance. Taking a historical approach to the development of the field, the course will explore performance epistemologies, performative methodologies, and performative theories, offering students the opportunity to study and engage contemporary approaches to performance research.

CMNS 306
TOPICS IN PRESENTATION
Undergraduate
Courses offer advanced analysis of presentational forms. Students will enact presentational theories in relational, small group, or public communication contexts.

CMNS 315
HEALTH COMMUNICATION
Undergraduate
This course overviews the theory and practice of communication in the health care setting. Topics include the dynamics of doctor-patient interaction and the cursory nature of health care campaigns. (Organizational, Relational)

CMNS 358
LEADERSHIP AND TEAM BUILDING
Undergraduate
This course will introduce the student to the theory and practice of self-managed work teams. This approach to group dynamics has many short term and long term benefits, such as solving problems across organizational boundaries or in changing the nature of work and supervision itself. (Group, Organizational)

CMNS 360
RELATIONAL, GROUP, AND ORGANIZATIONAL THEORY
Undergraduate
This course surveys relevant theoretical developments in the field of communication. While exploring the major theoretical paradigms that inform and guide the study of human communication, students receive insight into the significance and meaning of their own day-to-day communication activities and discover how theories provide complementary and viable explanations for analyzing as well as assessing the impact of communication in relational, group and organizational contexts.

CMNS 392
INDEPENDENT STUDY
Undergraduate
Independent Study.

CMNS 501
COMMUNICATION IN CULTURAL CONTEXTS
Graduate
Analyzes theories of the interaction between culture and communication. Investigates the facets of culture that influence communication in a variety of settings, ranging from corporate and educational realms to social and familial domains, particularly among people from different cultures. Examines how communication can serve to bridge gaps in a multicultural setting. Formerly CMN 501.

DePaul University Winter/Spring 2013 Page 1219 of 2244
CMNS 502
INTERCULTURAL COMMUNICATION THEORIES
Graduate
The course provides an overview of different theories of intercultural communication. The course also prepares students to conduct pure theoretical inquiry and theory-driven research into intercultural communication practices, processes, and patterns.

CMNS 504
LANGUAGE, THOUGHT AND CULTURE
Graduate
This course examines the interrelationship among language, thought, and culture. Reviews and critiques theories and research of how language or the use of symbols reflects culture and shapes reality for certain cultural/ethnic groups and organizations. Explores how language influences thought and action of the collective and of individuals in social, political and organizational settings.

CMNS 509
SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION
Graduate
Course covers a variety of topics that address theories about multicultural communication such as culture, gender, sexual orientation, race, and ethnicity.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 521
LANGUAGE AND POWER
Graduate
Reviews the role of language and representation as social power. Topics include rhetorical form as strategy, semiotic analysis of power relations, language and the construction of subjectivity, and discursive structures of empowerment.

CMNS 522
RHETORICAL CONSTRUCTIONS OF IDENTITY
Graduate
Focuses on the rhetorical theories and practices through which various cultural groups within the US. construct a sense of identity. The course examines different rhetorical forms and strategies through an analysis of the rhetorical situations, texts and artifacts of various cultural groups.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 523
GENDERED COMMUNICATION
Graduate
Examines research into the ways the various aspects of communication are affected by and affect the social construction of gender. Topics covered include language and language usage differences, interaction patterns and perceptions of the sexes generated through language and communication. (Cross-listed as MLS 445/WMS 440).

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 525
COMPARATIVE MANAGEMENT COMMUNICATION
Graduate
Examines and contrasts the management philosophies of different cultures around the world, paying special attention to how European and Asian organizational practices influence structure, culture and communication within American corporations.

Status as a Graduate Communication student is a prerequisite for this class.
CMNS 526
COMMUNICATION IN ORGANIZATIONAL ASSIMILATION
Graduate
This class introduces students to the processes by which individuals join, become a part of, and exit organizations. The course structure closely parallels the popular organizational assimilation stage model outlined below, but takes an explicit multicultural perspective throughout. Specifically, in addition to discussing the traditional body of work on this subject, which often ignores issues of diversity, this course examines the organizational assimilation experiences for women, gays/lesbians, and ethnic minorities in the United States. Revealed here are some of the subtle and not-so-subtle ways which employees can be discriminated against at different stages of the assimilation process.

CMNS 527
ASSESSMENT AND INTERVENTION IN ORGANIZATIONS
Graduate
Organizations are symbolic realities constructed by humans in communication. In other words, organizations are creations, and both organizational members and observers need to comprehend them as such. Communication 527 is devoted to preparing you to become communication professionals able to understand organizations through the analysis of organizational patterns of meanings and expectations. Communication professionals help organizations to improve communication by (1) identifying differences between actual and desired conditions of communication and (2) devising ways to close the gap between actual and desired states. The first function involves organizational communication evaluation (gathering, analyzing, and interpreting data about an organization’s communication processes). The second function is referred to as intervention (actions taken to improve organization communication). People who perform organizational communication evaluation and intervention may be members of the organization or outside agents brought in to perform specific projects. This class will on the role of the communication professional in the maintenance and change of organizational communication functions, structures, and the communication processes that occur at various systems levels, including dyads, groups, intercultural and multicultural relations, and organization-wide network processes.

CMNS 529
TOPICS IN ORGANIZATIONAL AND MULTICULTURAL COMMUNICATION
Graduate
The current historical moment increasingly defines itself through (for, against, and in multiple relations to) globalization. This course surveys interdisciplinary theories, discourses and practices of globalization with an emphasis on communication and culture. Through reading, writing, and attending to contemporary and historical moments of globalization we consider its productive force in its transnational relations and dynamics, relations of power and uneven flows, as well as resistances and collaborative imaginaries of social justice and sustainable practices.

CMNS 530
INSTRUCTIONAL DEVELOPMENT
Graduate
This course is designed to assist students in understanding the principles necessary for effective design, delivery and evaluation of instruction based on recognition of situational learning styles, instructional content, the educational venue, and measured outcomes. The point of view of the course is that the instructional development process is a dynamic, unique, significant, and challenging concept that demands the attention of instructors and faculty in all educational settings, both academic and corporate. This course will help students reflect upon issues related to instructional development by emphasizing the realms of interaction within and about educational setting and the components that are recognized as critical in the development, delivery, and assessment of quality instructional experiences.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 531
INSTRUCTIONAL DEVELOPMENT PRACTICUM
Graduate
After completing CMNS 530, students have the option of taking CMNS 531. The course allows students to apply concepts learned in Instructional Development as they partner as a teaching assistant with a College of Communication instructor to prepare assignments, conduct teaching sessions, and grade.

Status as a Graduate Communication student is a prerequisite for this class.
CMNS 532
INTRODUCTION TO TRAINING AND DEVELOPMENT
Graduate
This course provides an introduction to training and its relationship to organizational problem solving. Basic and advanced training strategies are taught within the context of developing organizations. Organizations often have in house training and development specialists that facilitate on-going organizational change processes. The functions of such human relations specials are explored and the kinds of communication knowledge, competencies and skills needed to enact such functions are examined.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 541
ORGANIZATIONAL COMMUNICATION AND CULTURE
Graduate
The central purpose of this course is to introduce students to the role communication plays in organizational life. Throughout the quarter, attention will be devoted to examining the various theoretical perspectives from which organizational communication can be viewed, and selectively surveying major content topics and current issues in the organizational communication literature.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 542
MULTICULTURAL COMMUNICATION IN THE WORKPLACE
Graduate
Multicultural issues affect the communication of organizational members on a day-to-day basis. This course examines multicultural issues in professional settings. It provides students with knowledge about co-cultural communication patterns, which will enhance their own ability to interact. Further, it demonstrates how multicultural communication can be an organizational asset.

CMNS 543
COMMUNICATION AND ORGANIZATIONAL CHANGE
Graduate
Change in an organization implies change in communicative processes at the individual, dyadic, group and systemic levels. Communication variables that define patterns of interaction within these organizational contexts will be examined as well as key issues that might cause communication difficulties.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 544
POLITICS AND POWER IN ORGANIZATIONS
Graduate
Examines political activities sanctioned and encouraged by organizations, subjective political activities initiated by individuals, bases of power within organizations (influence strategies), living and working with organizational politics (coping mechanisms).

CMNS 545
COMMUNICATION AND TECHNOLOGY
Graduate
Communication and Technology explores the process through which technological and social systems co-create or invent each other. As such, this course not only examines the role that new communication technologies play in shaping our social systems and the organizations within them, but also looks at how social, cultural, economic and legal contexts influence the development and emergence of these technologies.

CMNS 546
BUSINESS AND PROFESSIONAL COMMUNICATION
Graduate
Explores presentational skills, interviewing skills, bargaining and negotiating skills, and small group communication skills. Surveys topics critical to effective managerial communication in a corporate environment. (Cross-listed with PRAD 510).
CMNS 547
COMMUNICATION IN CUSTOMER SERVICE
Graduate
America's economy is currently driven by service industries. In this course we will explore the communicative dimensions of customer service. By reviewing the theory and research of customer service and exploring the research methods available for assessing service, students will be both better able to appreciate the service process and diagnose and change ineffective service systems.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 548
TEAMS AND LEADERSHIP
Graduate
Modern organizations are increasingly interested in shifting their organizational structures toward the goal of creating self-managed work teams. Therefore, the current communication graduate greatly benefits from knowledge and experience with two interdependent aspects of group dynamics: decision-making under conditions of uncertainty, and the philosophy and practice of developing groups into self-managed teams. The December quarter version of this course will combine a relatively brief period of lecture/discussion with a teamwork intensive action learning component towards the goal of making each student competent to either spearhead a change to self-managed work teams in their own organization (if called upon to do so), or to understand and weather this change in work mode without stress.

CMNS 549
SPECIAL TOPICS IN ORGANIZATIONAL COMMUNICATION
Graduate
Course covers a variety of topics that address theories about organizational communication such as group processes, conflict management, and leadership.

CMNS 550
ORGANIZATIONAL DIVERSITY & LEADERSHIP
Graduate
CMNS 552
STRATEGIC COMMUNICATION
Graduate
This course explores the process by which communicators attempt to accomplish their goals. In particular, this course covers theories of persuasion, strategic message design (creating messages that take into account multiple audiences and goals), and how the inferential process influences decision-making.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 553
COMMUNICATION AND DIVERSITY TRAINING FOR LEADERS
Graduate
Diversity translates into knowledge, competencies and skills in business contexts. Diversity training for leaders will include an examination of EEO (Equal Employment Opportunity) requirements, affirmative action, sexual harassment and the ADA (Americans with Disabilities Act). This course provides an overview of how knowledge of diversity should influence training, recruiting, retention and other key managerial functions of business leaders including application of managerial philosophy.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 554
TECHNOLOGY & COMMUNICATION TRAINING STRATEGIES
Graduate
This course explores how communication processes in training contexts may be improved via the effective use of technology. Because employees have limited time to participate in onsite training activities, online strategies for the presentation of information, relevant application, peer review of objective mastery as well as employee discussion and feedback will be explored. Special communication strategies are needed to animate employee interest in online education as well.

Status as a Graduate Communication student is a prerequisite for this class.
CMNS 555
ADULT LEARNING THEORIES AND STRATEGIES
Graduate
The relationship between effective communication in training contexts and principles of adult learning is explored. The adult learner wishes to function in an autonomous and self directed environment, and brings a foundation of life experience and professional knowledge to the classroom. Communication trainers must provide goal oriented instruction that is both relevant and practical to those with intellectual and professional resources from which to draw. Adaptation and adjustment on the part of the instructor to the adult audience necessitates familiarity with both appropriate instructional strategies and applications.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 556
INTERCULTURAL CONFLICT AND NEGOTIATION STRATEGIES
Graduate
This course focuses on the role of communication strategies in conflict negotiation, mediation, and resolution within a globalized society. Students will be introduced to core concepts in intercultural communication in order to understand differing value systems and communication strategies between cultures. The course will examine conflict situations in a variety of cross cultural contexts, e.g., conflict in interpersonal relationships between members of different cultural groups, conflict in multicultural organizations, and conflict at global political levels. Students will apply intercultural communication theories to various cross cultural conflict scenarios in order to obtain practical and theoretical understanding of conflict negotiation and resolution between cultures.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 557
SPECIAL TOPICS IN TRAINING AND DEVELOPMENT
Graduate
This course varies on topics related to issues in training and development.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 561
INTERNATIONAL MEDIA
Graduate
Examines the political economy of the global media, with attention to institutional, historical, and contemporary questions of ownership and program content, as well as representations by the U.S. commercial news media of the foreign other and the representation of Western culture and institutional life in non-Western contexts. Includes examination of issues in the mass media now debated within the international community, pursuing questions about the New World Information Order, the international marketplace of images, cultural imperialism and national culture, and types of programming aimed at an international audience.

CMNS 563
MULTICULTURAL MEDIA REPRESENTATIONS
Graduate
This course examines both representational practices and theories that are informed by multicultural perspectives. It explores ways in which scholars and media practitioners have dealt with the epistemological problem of "difference" The course may take up topics such as race, class, age, and sexual orientation as categories of difference that have informed and continue to inform academic inquiries. The course also looks at historical and/or contemporary media texts, and analyzes them through these methods.

CMNS 581
QUALITATIVE RESEARCH METHODS
Graduate
Introduction to qualitative approaches to research in communication. The course includes a systematic review and application of ethnography, unstructured interviewing, personal document analysis, historical research, and critical practice. Addresses the rationale, method, and theory of each qualitative approach to research in addition to placing emphasis upon data collection and interpretation.

Status as a Graduate Communication student is a prerequisite for this class.
CMNS 582
QUANTITATIVE RESEARCH METHODS
Graduate
Introduces students to quantitative approaches to research and basic statistics. Topics include research design and control, survey construction, measurement and other general research issues, nonparametric statistics, correlation, the t-test and analysis of variance.

CMNS 583
RESEARCH METHODS
Graduate
Focuses on developing an understanding of appropriate quantitative and qualitative research methodologies and relevant descriptive and inferential statistics for the investigation of both practical and theoretical problems in the study of communication. By considering the nature, concepts, and logic of the research enterprise, permits a critically informed assessment of published research, including data gathering and data analysis procedures.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 590
COMMUNICATION WORKSHOP (VARIABLE TOPICS)
Graduate
This course allows students to sample a range of hands on, practical offerings in communication that can enhance their knowledge and expertise. Topics offered include survey design and focus groups.

CMNS 592
INDEPENDENT STUDY
Graduate
Students will be guided in the development of a special project that furthers their collaboration with an instructor and produces a report that demonstrates their mastery of critical content and competencies. The independent study option is intended for students who have demonstrated a mastery of course content, who would benefit from a sustained, focused collaboration with a relevant faculty member.

CMNS 599
RESEARCH THESIS
Graduate
Enroll in 599 during the term you plan to defend your thesis or complete your final project. This is a graded, 4-credit hour course. Tuition is charged. You must have a scheduled defense/completion date to be approved for this class. Your thesis/project advisor needs to communicate this date to the Graduate Studies Director for your program, before you are allowed to enroll. Loan deferment is allowed to those registered for this class.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 601
ACTIVE DEGREE COMPLETION
Graduate
This is a 0-credit hour course that is available to students who are working actively toward the completion of a thesis or project. Enrollment in this course is limited to the two quarters prior to the defense of the thesis/project and requires graduate director approval and proof of work each quarter. No tuition is charged, only student fees (approx. $50), which allows you access to the library and other campus facilities. This course is graded as pass/fail. Eligible for loan deferment and student loans.

Status as a Graduate Communication student is a prerequisite for this class.

CMNS 602
CANDIDACY CONTINUATION
Graduate
This is a 0-credit hour course that requires permission from the graduate director. Students can enroll in 602 if they are finishing a course in which they received an incomplete (IN). If the student does not register for any regular courses in the quarter they plan to finish the incomplete, they can enroll in 602 and access the library and other campus facilities. No tuition is charged, only student fees (approx. $50). This course is graded as pass/fail. Not eligible for loan deferment or student loans.

Status as a Graduate Communication student is a prerequisite for this class.
CNS 228
LEGAL, ETHICAL AND SOCIAL ISSUES IN INFORMATION SECURITY (FORMERLY CNS 330)
Undergraduate
This course is designed to acquaint students with electronic privacy, security and ethics. Students will gain an understanding of information ethics, existing and emerging cyber-laws, organizational liability issues, and explore several Code of Ethics. Students will learn about real and potential security issues, steps that can be taken to create environments of trust, how to evaluate the strengths and weaknesses of a firm's information resource environment, and risk management and operation feasibility issues.

CNS 320
COMPUTER FORENSIC AND INCIDENT RESPONSE
Undergraduate
Introduction to the topics of computer forensic, computer crimes, response to security incidents, Cybercrime investigation and prosecution. Students will learn how an organization can setup a security response team, prepare for Security incidents and manage these incidents. PREREQUISITE(S): CSC 212 or CSC 262 or IT 232 or CSC 224 or CSC 309 or CSC 300

CNS 340
FUNDAMENTALS OF INFORMATION ASSURANCE (FORMERLY CSC390)
Undergraduate
This course is a survey of the fundamental elements of computer security and information assurance. Topics may include confidentiality, integrity, and availability; security policies; authentication; access control; risk management; threat and vulnerability assessment; common attack/defense methods; ethical issues.

CNS 355
PHYSICAL AND IT SECURITY CONVERGENCE
Undergraduate
This course introduces students to the fundamental processes associated with the Physical Security discipline. This course will present the convergence of IT Security and Corporate Physical Security, focusing on where convergence takes place - at the technology, process and function level. Students will look at real-world illustrations of implementation and analyze perceived efficiencies and cost-savings. This course is designed for students who desire to understand physical and IT security in the framework of Enterprise Risk Management.

CNS 366
CRITICAL INFRASTRUCTURE AND CONTROL SYSTEMS CYBERSECURITY
Undergraduate
This course is an introduction to the cybersecurity challenges for control systems present in industry, homes and traditional businesses such as manufacturing. Topics covered include the design and setup of Supervisory Control and Data Acquisition (SCADA) systems, Distributed Control Systems (DCS), and Programmable Logic Controller (PLC) systems. As these systems are typically designed without any intrinsic security mechanism, we will study the challenges of protecting them and how to employ a defense-in-depth methodology to secure them. This class will focus on the security risks of critical infrastructure systems (such as Electrical, Pipelines, Water/Wastewater and transportation) and methods to protect them. PREREQUISITE(S): CNS 340 or TDC 377 or IT 263

CNS 378
HOST BASED SECURITY
Undergraduate
Principles of host based security. Review of security methods used to ensure the confidentiality, integrity, and availability of the information stored on a host. The class will cover OS configuration, access control, anti-malware, public facing application security, host-based intrusion detection/prevention, host-based firewalls and audit & compliance. Course includes laboratory work with both the Linux and Windows operating systems. PREREQUISITE(S): CSC 374 or TDC 311

CNS 388
SECURITY TESTING AND ASSESSMENT
Undergraduate
Vulnerability assessment and ethical security testing; review of ethical concerns and legal issues associated with security testing activities; study and analysis of the defensive mechanisms used to mitigate such threats. There will be extensive hands-on laboratory exercises. PREREQUISITE(S): TDC 377
CNS 394
INFORMATION SYSTEMS SECURITY ENGINEERING I
Undergraduate
This course requires students to apply Information System Security Engineering methods and processes to design, document and implement comprehensive security infrastructures in realistic scenarios. Students will work in teams through the entire life cycle of a Security infrastructure project from needs discovery, threat assessment, architecture design, implementation, effectiveness assessment and auditing. The course is designed to span two quarters. In this first quarter, student will learn the Information Systems Security Engineering process and performs asset identification, threat assessment and system requirement specification. PREREQUISITE(S): CNS 378 (formerly IT 378) and TDC 377 and TDC 379.

CNS 395
INFORMATION SYSTEMS SECURITY ENGINEERING II
Undergraduate
This senior project capstone course requires students to apply Information System Security Engineering methods and processes to perform the design and implementation of Information Systems Security infrastructures. The human and sociological impacts of Information Security will be studied with a particular focus on privacy issues, ethical use of Security tools and cultural and legal difference that exist in a globally connected but diverse world. PREREQUISITE(S): CNS 394

CNS 397
TOPICS IN COMPUTER, INFORMATION AND NETWORK SECURITY
Undergraduate
May be repeated for credit.

CNS 399
INDEPENDENT STUDY
Undergraduate
Variable credit. PREREQUISITE(S): Consent of dean.

CNS 418
INTRODUCTION TO HOST SECURITY
Graduate
Principles of host based security. Review of security methods used to ensure the confidentiality, integrity, and availability of the information stored on a host. The class will cover OS configuration, access control, anti-malware, public facing application security, host-based intrusion detection/prevention, host-based firewalls and audit & compliance. Course includes laboratory work with both the Linux and Windows operating systems. PREREQUISITE(S): TDC 411

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CNS 450
COMPUTER FORENSICS
Graduate
This course focuses on the forensic analysis of data from computer systems. This course covers: preservation and interpretation of evidence; file systems, e.g., Ext3 and NTFS; storage behavior of applications; forensic tools; tool development and automation; indexing documents; reporting and testimony. Optional topics include: anti forensics; data mining; data recovery; intrusion detection; software forensics. PREREQUISITES: (CSC 212 or CSC 224 or CSC 300) and (CSC 301 or CSC 373 or CSC 383 or instructor consent)

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CNS 455
PHYSICAL AND IT SECURITY CONVERGENCE
Graduate
This course introduces students to the fundamental processes associated with the Physical Security discipline. This course will present the convergence of IT Security and Corporate Physical Security, focusing on where convergence takes place - at the technology, process and function level. Students will look at real-world illustrations of implementation and analyze perceived efficiencies and cost-savings. This course is designed for students who desire to understand physical and IT security in the framework of Enterprise Risk Management.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
CNS 466
CRITICAL INFRASTRUCTURE AND CONTROL SYSTEMS CYBERSECURITY
Graduate
This course is an introduction to the cybersecurity challenges for control systems present in industry, homes and traditional businesses such as manufacturing. Topics covered include the design and setup of Supervisory Control and Data Acquisition (SCADA) systems, Distributed Control Systems (DCS), and Programmable Logic Controller (PLC) systems. As these systems are typically designed without any intrinsic security mechanism, we will study the challenges of protecting them and how to employ a defense-in-depth methodology to secure them. This class will focus on the security risks of critical infrastructure systems (such as Electrical, Pipelines, Water/Wastewater and transportation) and methods to protect them. PREREQUISITE(S): CNS 340 or TDC 377 or IT 263 or IS 433 or TDC 477

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CNS 477
LEGAL ISSUES IN INFORMATION ASSURANCE
Graduate
This graduate course is a survey of legal issues arising under information security and control frameworks such as COBIT and IS017799. Topics include the basics of trademark, copyright, patent and trade secrets and protection strategies for each of them; software licensing issues; data privacy under state, federal and international law; evidence and digital forensic practices; ethics; the Computer Fraud and Abuse Act's boundaries for illegal access to computers; electronic surveillance and cyber traps; information security measures mandated by select federal statutes (HIPAA, Gramm-Leach-Bliley and Sarbanes-Oxley); and practical techniques on how to find and keep abreast of legal issues affecting information security. PREREQUISITE(S): IS 433

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CNS 488
SECURITY TESTING AND ASSESSMENT
Graduate
Methodologies and tools for performing vulnerability testing; management of security testing initiatives and activities; review of the different types of assessments, legal issues, ethical concerns. Defensive mechanisms to mitigate the risks illustrated by the assessment using Defense-In-Depth architectures. Concepts illustrated using hands-on lab exercises. PREREQUISITE(S): TDC 477

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CNS 594
COMPUTER INFORMATION AND NETWORK SECURITY CAPSTONE
Graduate
Design, setup and configuration of realistic enterprise computing and networking environments. Securing the infrastructure and integration of different services and technology in efficient, secured and redundant manners. Technologies will include: open-source and commercial products, firewalls, Virtual Private Networks (VPNs), authentication systems, Intrusion Detection Systems (IDS), advanced routing mechanisms (OSPF, BGP, IS-IS), highly redundant and robust networking. PREREQUISITE(S): TDC 477 or TDC 572

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CNS 599
TOPICS IN COMPUTER, INFORMATION AND NETWORK SECURITY
Graduate
Independent study form required. PREREQUISITE(S): Consent of instructor.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

COM 300
ORCHESTRATION I
Undergraduate
(4 credits) Ranges, sonorities and characteristics of woodwind, brass, percussion and string instruments; orchestral studies of representative works from various periods; arrangements for orchestral ensembles.

A petition to major and MUS 230 are a prerequisite for this class.
COM 301
16TH CENTURY COUNTERPOINT
Undergraduate
(4 credits) Species counterpoint; melodic, formal and "harmonic" practices in Renaissance polyphony; free composition in the style; analysis and in-class performances of Renaissance music and original student compositions.
A petition to major and MUS 230 are a prerequisite for this class.

COM 302
18TH CENTURY COUNTERPOINT
Undergraduate
(4 credits) Contrapuntal techniques of Bach and Handel; analysis, composition, and in-class performances of solo and ensemble works in the style.
A petition to major and COM 300 are a prerequisite for this class.

COM 303
20TH CENTURY COUNTERPOINT
Undergraduate
(4 credits) Exploration of contrapuntal techniques using 20th century vocabularies; analysis of selected compositions from the 20th-century, including works of Ives, Schonberg, Webern, Bartok, Hindemith and others as well as music of very recent times.
COM 326 is a prerequisite for this class.

COM 305
ANALYTICAL STUDIES
Undergraduate
(4 credits) Use of various analytical techniques for detailed studies of selected compositions.
MUS 230 is a prerequisite for this class.

COM 313
INTRODUCTION TO COMPOSITION
Undergraduate
(2 credits) Basic composition. Recommended as preparatory for COM 307. This course may be repeated for credit.
Status as a Music student is a prerequisite for this class.

COM 315
COMPOSITION
Undergraduate
Exploration of twentieth century techniques through creative projects and possible analytical assignments. Projects are designed to lead to the completion of compositions for a variety of performance media, culminating in the senior composition project.
A petition to major is a prerequisite for this class.

COM 320
ORCHESTRATION II
Undergraduate
A petition to major and COM 300 are a prerequisite for this class.
COM 326  
**ELECTRO-ACOUSTIC MUSIC I**  
*Undergraduate*  
(4 credits) Introduction to the history and literature of electro-acoustic music. Introduction to electronic tools and techniques, including MIDI sequencing, timbral manipulation, and digital sampling.  
Status as a Music student is a prerequisite for this class.

COM 327  
**ELECTRO-ACOUSTIC MUSIC II**  
*Undergraduate*  
(4 credits) Introduction to digital video and multimedia composition and delivery. Further study in the history, literature, and analysis of electro-acoustic music.  
COM 326 is a prerequisite for this class.

COM 398  
**INDEPENDENT STUDY**  
*Undergraduate*  
INDEPENDENT STUDY  
A petition to major is a prerequisite for this class.

COM 404  
**ANALYTICAL STUDIES**  
*Graduate*  
(4 credits) The study and practice of specific analytical techniques as related to specific works from the common practice period through the present day.  
Status as a Graduate Music student is a prerequisite for this class.

COM 405  
**GRADUATE ANALYTICAL STUDIES**  
*Graduate*  
(4 credits) The study and practice of specific analytical techniques as related to specific works from the common practice period through the present day.  
Status as a Graduate Music student is a prerequisite for this class.

COM 415  
**COMPOSITION**  
*Graduate*  
The study of advanced compositional issues at the graduate level which will culminate in a final composition project.  
Status as a Graduate Music student is a prerequisite for this class.

COM 416  
**COMPUTER ASSISTED COMPOSITION**  
*Graduate*  
(4 credits) The purpose of this course is to offer composition majors an introduction to the use of computers in the implementation of generative and formal strategies for music composition.
COM 441
COMPOSITION I
Graduate
(4 credits) This course series will focus on advanced compositional issues at the graduate level and culminate in a final composition project.
Status as a Graduate Music student is a prerequisite for this class.

COM 442
COMPOSITION II
Graduate
(4 credits) This course series will focus on advanced compositional issues at the graduate level and culminate in a final composition project.
Status as a Graduate Music student is a prerequisite for this class.

COM 443
COMPOSITION III
Graduate
(4 credits) This course series will focus on advanced compositional issues at the graduate level and culminate in a final composition project.
Status as a Graduate Music student is a prerequisite for this class.

COM 444
NOTATIONAL SEMINAR: NOTATION, COMPOSITION, & SOUND STRUCTURES
Graduate
(4 credits) A study of some of the most relevant notational issues that have emerged in western music since WWII.
Status as a Graduate Music student is a prerequisite for this class.

COM 445
TWENTIETH CENTURY MUSIC TOPICS
Graduate
(4 credits) A review of significant 20th century literature and techniques as partial preparation for the oral comprehensive exam.
Status as a Graduate Composition student is a prerequisite for this class.

COM 446
NEW MUSIC COMPOSITION SEMINAR
Graduate
Analysis of compositional and notation techniques as found in significant new works from the last twenty-thirty years for chamber ensembles or orchestral ensembles. Students will develop weekly presentations on specific works that will eventually be presented at the department's weekly meeting sessions and will also develop a minimum 10 page paper on one-two works.

COM 447
NON-WESTERN SOUND AND CONCEPT IN CONTEMPORARY MUSIC
Graduate
This class will consist of two major elements. Once is a survey of the non-western influences in question and the second is the application of non-western influences to actual composition. The final goal of the class is to produce a small scale composition, which demonstrates that application of any non-western music ideas-whether covered during the course of selected by individual choice.

COM 498
INDEPENDENT STUDY
Graduate
Status as a Graduate Music student is a prerequisite for this class.
COM 499
THESIS COMPOSITION
Graduate
Status as a Graduate Music student is a prerequisite for this class.

CPL 210
GREAT IDEAS, THE INDIVIDUAL AND SOCIETY I
Undergraduate
Classical Antiquity and the Middle Ages Representative works from the Bible, ancient Greek and Roman literature, and European literature of the Middle Ages. Emphasis on close reading of particular texts in different genres; all readings in English. Authors treated in this sequence may include: Homer, Sappho, Aeschylus, Sophocles, Euripides, Hippocrates, Aristophanes, Plato, Aristotle, Cicero, Lucretius, Ovid, Seneca, Plutarch, Augustine, Maimonides, Dante. Formerly ISP 210.

CPL 211
GREAT IDEAS, THE INDIVIDUAL AND SOCIETY II
Undergraduate
From Renaissance to Enlightenment Representative works of European literature from the Renaissance to the Enlightenment. Emphasis on close reading of particular texts in different genres; all readings in English. Authors treated in this sequence may include: Pico della Mirandola, Machiavelli, Erasmus, Rabelais, Bacon, Las Casas, Montaigne, Shakespeare, Descartes, Hobbes, Milton, Pascal, Locke, Defoe, Voltaire, Hume, Rousseau, Kant, Sade. Formerly ISP 211.

CPL 212
GREAT IDEAS, THE INDIVIDUAL AND SOCIETY III
Undergraduate
The Modern Era Representative works of European literature from the French Revolution to the modern period. Emphasis on close reading of particular texts in different genres; all readings in English. Authors treated in this sequence may include: Hegel, Kierkegaard, Marx, Melville, Flaubert, Nietzsche, Freud. Formerly ISP 212.

CPL 301
EPIC AND ROMANCE
Undergraduate
Study of examples of heroic literature from a variety of cultures, including Western and non-Western civilizations.

CPL 302
COMEDY
Undergraduate
Study of important examples of dramatic comedy; selections may range from ancient times to the present day with some attention to the relevant theories of comedy (Aristotle, Freud, Bergson, Frye, etc.).

CPL 303
TRAGEDY
Undergraduate
Study of important examples of dramatic tragedy; selections may range from ancient times to the present day with some attention to the relevant theories of tragedy.

CPL 304
THE NOVEL
Undergraduate
Study of the novel, any period or subgenre (historical, picaresque, romantic, realist etc.) from any given area or country with some attention to the literary theory of the particular novels in question.

CPL 305
AUTOBIOGRAPHICAL/CONFESSIONAL LITERATURE
Undergraduate
Study of autobiographical/confessional literature; selections may range from ancient times to the present day from any given area or country with some attention to the relevant theories of these genres.
CPL 306
UTOPIAN LITERATURE
Undergraduate
Study of utopian literature; selections range from the Renaissance to the present day. Readings are discussed within the context of relevant political and social theory.

CPL 311
REVOLUTIONARY LITERATURE
Undergraduate
Study of revolutionary literature in any of its manifestations and genres in specific areas and periods.

CPL 312
THE LITERATURE OF IDENTITY
Undergraduate
Cross-cultural study of self-discovery and identity as manifested in the literatures of self-awareness and self-definition (African-American, Hispanic, gay/lesbian, etc.).

CPL 313
FEMINIST LITERATURE
Undergraduate
Cross-cultural synchronic or diachronic study of feminist literature.

CPL 319
TOPICS IN COMPARATIVE LITERATURE
Undergraduate
Selected topics on any theme from comparative literature.

CPL 355
CONTEMPORARY CRITICISM
Undergraduate
An overview of contemporary criticism from Russian formalism to post-modernism.

CS 447
CURRICULUM DESIGN FOR THE MIDDLE GRADES
Graduate
This course is designed to provide students with a comprehensive understanding of the history of and rationale for middle level education as well as the curricular and pedagogical knowledge needed to meaningfully engage middle level students in learning within and across the content areas. Important considerations and strategies for disciplinary and interdisciplinary learning in the middle school classroom, as well as the importance of reading and writing across the curriculum with regard to these, will be addressed.

CS 460
LEARNING IN A TECHNOLOGY-SUPPORTED CLASSROOM
Graduate
An examination of current theories about instructional technology and of recent literature in the field. Students will become familiar with particular technology appropriate for their areas of interest and will learn to evaluate this software for a variety of instructional purposes. The course includes: frameworks for classifying educational uses of the technology; an analysis of selected research on educational technology; theories and practices of using technology in classrooms; and the advantages and disadvantages of distance learning. Emphasis throughout will be on why and how technology can be used to enhance the learning process. [Assumes a background equivalent to that provided by CS 420].
CS 461  
LITERACY PROCESSES AND PRACTICES  
Graduate

Foundational theoretical perspectives and practices for teaching and learning language and literacy in a diverse, changing, and political world. Background of knowledge in the area of learning and exposure to the controversies that surround the teaching of literacy will be used to develop an understanding of literacy learning in action. Students will be invited to participate in the current conversations around literacy learning and teaching in order to inform their everyday curricular decisions.

CS 463  
ASSESSMENT, DIAGNOSIS, DEVELOPMENTAL/REMEDIAL MATERIALS & RESOURCES: EMERGENT & DEVELOPING READING  
Graduate

Assessment, diagnosis and instructional planning for early and emergent learners. Building on a knowledge base of emergent reading processes and literacy practices, teachers will explore the ways in which young learners construct meaning and use language purposefully in their unique social worlds, even before beginning school. Participants in this course will learn to use performance based assessments as well as more formal standardized measures of achievement to support emerging and struggling readers with appropriate materials and theoretically sound instructional practices.

CS 461 is a prerequisite for this class.

CS 464  
ASSESSMENT, DIAGNOSIS, DEVELOPMENTAL/REMEDIAL MATERIALS & RESOURCES: MIDDLE SCHOOL/ADOLESCENT READING  
Graduate

Assessment, diagnosis and instructional planning for middle school students. Building on a knowledge base of reading processes and literacy practices, teachers will explore the ways in which students construct meaning and use language purposefully in their unique social worlds. Participants in this course will learn to use performance based assessments as well as more formal standardized measures of achievement to support middle school and adolescent readers with appropriate materials and theoretically sound instructional practices.

CS 461 is a prerequisite for this class.

CS 465  
TEACHING READING IN THE CONTENT AREAS  
Graduate

This course focuses on teaching reading in various subject (content) areas and emphasizes non-fiction reading process, strategies, and theories for grades K-9. The course, will examine what it means to be literate in the elementary content areas (e.g. science, math, social studies, arts). Emphasis will be placed on learning effective literacy strategies for different subject areas. There will also be a focus on how one uses reading and writing to think, act, speak question and apply the tools of each content/subject area in ways that are unique to that discipline. Additionally, as teachers it is important to remember that students will bring various literacies from their homes and communities. An important emphasis will be on creating learning environments that honor student diversity, and learning about multiple ways of knowing, acting, and communicating.

CS 461 is a prerequisite for this class.

CS 470  
TEACHERS AS LEADERS  
Graduate

Develops skills in designing and implementing collaborative and consultative approaches to instruction; enhances skills needed to communicate effectively with other educators, administrators, and parents. Explores shared decision-making, school restructuring, school-based management, and peer coaching and mentoring.

CS 471  
DIVERSITY IN THE CLASSROOM  
Graduate

Examines issues related to diversity that result when students from diverse socioeconomic, cultural, linguistic, and academic backgrounds are in the same classroom. Explores the impact of inclusion, ESL, bilingual, and bicultural programs on instruction. Emphasis on developing strategies to meet individual student needs within the regular classroom.
CS 472
ETHICS, CURRICULUM AND SOCIAL CHANGE
Graduate
Explores some major issues impacting curriculum, including cultural and socioeconomic factors, legal issues, conflicting values, pressures for assessment, and the push to include technology. Examines the historical development and current state of education in the U.S. as compared to education in other cultures. Emphasis on ways that educators can work as change agents within the competing demands of these forces.

CS 473
ASSESSMENT
Graduate
Explores current theory and practice regarding alternate forms of assessment, including formal, standardized, and informal tests and inventories; selection, evaluation, and interpretation of tests used in educational settings; portfolio assessment, video performances, and presentations; preparation and use of teacher-made tests; evaluating outcomes; and utilizing data to improve instruction. The critical examination of multiple perspectives of assessment theories, policies and practices center around the emphasis on developing strategies to evaluate student progress.

CS 481
THE STUDY OF TEACHERS AND TEACHING
Graduate
A selective survey and analysis of research on teachers and teaching. Particular emphasis will be placed on the assumptions which are built into various forms of research and the effect these assumptions have on how results should be interpreted and used in supervision and curriculum development. Each student will be expected to become familiar with alternative ways of studying teachers and the teaching process in his/her area of expertise. While many school settings will be utilized because of the many studies done in this area, research in non-school settings will be given a good deal of emphasis.

CS 482
THE HISTORY OF CURRICULUM PRACTICE
Graduate
A survey of trends and movements in curriculum practice. Particular emphasis will be placed on the recurrent nature of curriculum practices and the reasons for this. The underlying models of curriculum practice in their historical settings will be considered as possible methods for modern day needs and the assets and liabilities of those models will be used in viewing modern day practices.

CS 484
MULTIMEDIA MATERIALS PRODUCTION
Graduate
This course will analyze the role of multimedia materials in instruction. A variety of media will be explored (including software, the Internet, audio, video, slides and film). Students will be expected to manipulate a variety of images and produce sample materials for critique and analysis. The primary focus will be on enhancing learning in elementary and secondary schools.

CS 485
CURRICULUM/PROGRAM EVALUATION
Graduate
Evaluation is essential for curriculum/program development and implementation. Hence, understanding evaluation methods, technologies, and quality criteria is particularly relevant to educational leaders, curriculum/program designers, and technology specialists. In this course, students will critically examine a variety of current evaluation models, instruments, and resources. Students will also conduct a comprehensive analysis of a significant evaluation study relevant to their specific professional interest. Registration is restricted to students in Advanced Master's programs.

Status as an Advanced Masters Education student is a prerequisite for this class.

CS 487
INTRODUCTION TO CURRICULUM DELIBERATION
Graduate
An introduction to systematic and collaborative deliberation on curriculum problems. A pattern for deliberation (including situation analysis, problem discrimination and formulation, development of alternative courses of action, and anticipation of consequences) will be developed and exemplified. This pattern will be contrasted with other descriptions of curriculum planning. Each student will complete a project which describes his/her systematic formulation of a curriculum problem and a plan of action for resolving it.

Status as an Advanced Masters Education student is a prerequisite for this class.
CS 488
DESIGNING AND INTERPRETING CURRICULUM
Graduate
An examination of the underlying structures of diverse curricula and of the processes by which they are developed and implemented. Principles and methods for organizing subject matter will be analyzed. The translation of subject matter into curriculum will be examined with particular attention to the assumptions about subject matter built into texts and other curricular materials. Students will analyze curriculum guides and materials to uncover their underlying structures and their explicit and implicit assumptions about subject matter.

CS 489
CREATIVITY AND CRITICAL THINKING - VYGOTSKY, BAKHTIN, MAKIGUCHI, IKEDA
Graduate
Introduces students to the educational philosophies of Russian thinkers Lev Vygotsky (1896 - 1934) and Mikhail Bakhtin (1895 - 1975) and Japanese thinkers Tsunesaburo Makiguchi (1871 - 1944) and Daisaku Ikeda (1928 - ). Students will locate confluences in these thinkers' philosophies and apply them to current curriculum or curriculum theorizing in their chosen discipline(s) (e.g., mathematics, social studies, language education, etc.), context(s) (e.g., policy, gender, socioeconomics, identity, etc.) and K-12/adult level(s). Topics covered include, among others, cultural-historical theory, socially constructed meaning making, zone of proximal development, dialogism, carnival, value and value-creating pedagogy, humanitarian competition, and human revolution.

CS 492
CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES
Graduate
This course will provide the framework for the creation, development and sustainability of a professional learning community. Professional learning communities have at their core three guiding principles: 1) a focus on learning, 2) the creation of a collaborative culture and 3) a results-orientation. Within the professional learning community, members are committed to working collaboratively in an ongoing process of collective inquiry and action research in order to achieve better results for the students and community they serve. Professional Learning Communities operate under the assumption that the key to improved learning for students is continuous, job-embedded learning for educators.

CS 579
RESEARCH IN TEACHING READING: DEVELOPMENTAL & REMEDIAL READING INSTRUCTION & SUPPORT: BEST PRACTICES
Graduate
In this course, students will explore and analyze current literacy research through the critical lenses of educational practitioners. Students will: identify meaningful questions about literacy practices in their classrooms and schools; create a plan for addressing the identified research question(s); collect and analyze data relevant to the research question(s); and organize and present the research findings. This inquiry project, or an extension of it, may subsequently become the basis for the student's Master's paper or thesis.

CS 461 is a prerequisite for this class.

CS 580
RESEARCH SEMINAR IN CURRICULUM STUDIES
Graduate
This course is designed to help graduate students in Curriculum Studies through the difficult process of planning, organizing, drafting, and revising their Master's papers. Students will be expected to complete a literature review and to develop a strong proposal for an integrative paper as a prelude to selecting an advisor for their Master's papers. For M.Ed. students only.

SCG 410, 6 additional graduate courses and status as an Advanced Masters student is a prerequisite for this class.

CS 582
PRACTICUM IN CURRICULUM STUDIES: READING
Graduate
This course provides directed experiences in decision-making for curriculum, participation, and leadership in the planning and management of reading curricula. Students will: assess students' reading capabilities; make informed curricular choices to address students' needs; identify and implement short and long-term learning goals for students; manage instructional materials needed to guide students; develop curriculum based on assessments of the needs of students. It is designed to offer students an opportunity to put into practice, in a summer school classroom, previous learning about the teaching of reading, especially their beliefs and understandings regarding literacy as social practice. Provides students with multiple opportunities to share their thinking with each other in a supportive community of learners.

CS 461 is a prerequisite for this class.
CS 588
INDEPENDENT STUDY IN CURRICULUM STUDIES
Graduate
Independent Study in Curriculum Studies.

CS 589
THESIS RESEARCH IN CURRICULUM STUDIES
Graduate
A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself are prolonged beyond the usual time, the program advisor may require the student to register for additional credit.

SCG 410 and CS 580 are prerequisites for this class.

CS 591
CURRICULUM THEORIZING: MULTIPLE LENSES
Graduate
This course examines diverse curriculum discourses, historical as well as contemporary, within a broader context of issues related to education and schooling. It is designed to engage students critically in the study of curricular frameworks, their assumptions, values, and implications for education, schooling, teaching and learning. Major topics include frameworks for defining and conceptualizing curriculum and curricular visions; social, political, and historical contexts of curriculum construction; issues of gender, race, class, and the media; and the curriculum as socially constructed and historically contextualized discourse(s) about what is and what should be taught. Particular content areas will be used as examples.

CS 600
REGISTERED STUDENT IN GOOD STANDING
Graduate
(0 credit) Registration is this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

CS 606
REVIEW OF LITERATURE
Graduate
Review of Literature. This paper will give students the opportunity to develop and demonstrate written competence in a subfield of their disciplines and to enhance life-long learning. Specifically, they will broaden their knowledge base and inform themselves about a topic, issue, theory, etc., reviewing and synthesizing existing literature. To do so, students will need a variety of bibliographic skills including searching data bases. (See the student handbook for additional information about completing Master's papers.)

CS 607
INTEGRATIVE PAPER
Graduate
Integrative Paper. Non-credit. Students will observe and/or participate in the reciprocal interaction of theory and practice, by investigating actual practice in the field as it relates to theory. This might take the form of investigating how a particular theory is applied in the field, developing a practical application of a theory, or, conversely, developing/refining a theory based on investigations made in the field. (See the student handbook for additional information about completing Master's papers.)

CS 608
CAPSTONE IN CURRICULUM STUDIES
Graduate
Culminating experience(s) that help(s) students acquire the qualities of professionalism and leadership needed to play a significant role in one's professional education community. Students are expected to situate and understand educational issues in a larger context; keep current in and be able to organize and present a body of research on an education-related question; connect research with practical, professional activity; demonstrate mastery of a sub-field of a discipline; write in a format that meets accepted scholarly criteria and participate in an ongoing professional conversation. A final product such as master's paper(s), comprehensive exam, or collection of professional work products is required.
**CS 625**
**CANDIDACY CULMINATING PROJECT (STUDENT IN GOOD STANDING)**
**Graduate**
(0 credit) Registration in this course is required of all students who are not enrolled in a course but are completing culminating projects for their program of study, including theses, papers, and final portfolios. It provides access to university facilities. Permission of advisor required. Registration limited to three terms. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

**CS 700**
**REGISTERED DOCTORAL STUDENT IN GOOD STANDING**
**Graduate**
Non-credit. This registration is required of all doctoral students who are not enrolled in a doctoral course, but are completing course requirements and/or dissertation research. It provides access to University facilities. Academic advisor approval required. After the third enrollment, dissertation chair approval required.

Status as an EDD student with a declared concentration is a prerequisite for this class.

**CS 704**
**CURRICULUM DISCOURSES/PERSPECTIVES OVER TIME**
**Graduate**
This course focuses on the examination of the ways in which curriculum as a field has developed over time: attention to changes in terms of how it has been defined, conceptualized; theoretical and philosophical issues; assumptions and values; as well as implications for teaching and learning. These topics will be addressed within different historical and social contexts. Readings will include primary texts by major theorists as well as secondary material including commentary and critique. A primary goal of the course is to provide students with an overview of major movements in curriculum history as a foundation for further study. This course will serve as a prerequisite for all other curriculum courses in the doctoral program.

Status as an EDD student with a declared concentration is a prerequisite for this class.

**CS 706**
**CANDIDACY PAPER**
**Graduate**
(0 credit) Registration in this course is required of all students who are not enrolled in a course but are completing a dissertation. It provides access to university facilities. Permission of advisor required. This registration indicates that a student has successfully completed the candidacy paper as specified in the Doctoral Student Handbook. $50 per quarter.

Status as an EDD student with a declared concentration is a prerequisite for this class.

**CS 751**
**CURRICULUM FOR HUMAN AND COMMUNITY DEVELOPMENT**
**Graduate**
This course examines theories and practices aimed at: (a) fostering personal integrity and meaningful learning in each individual; (b) promoting productive communications and relations between diverse individuals and communities; (c) constructing environments that are responsive to human needs at the individual, dyadic, group, and systemic levels, and (d) transforming social contexts in ways that promote a greater sense of equity and justice. Topics covered include: the influence of culture, context and experience on interaction patterns, interactions between human and community development, organizational climate, and communication processes such as community building, conflict resolution, and negotiation. Students will engage in self-reflection, story telling, narrative interpretation, and an analysis of instructional and communication processes aimed at promoting individual and community development within and across social organizations. Curriculum programs -- such as those developed from the ideas of James Comer, Seymour Sarason, or John Goodlad -- will be studied as case examples of the impact that fostering development and communication can have on building a learning community.

Status as an EDD student with a declared concentration is a prerequisite for this class.
CURRICULUM THEORIZING: MULTIPLE LENSES
Graduate
Curriculum Theorizing: Multiple Lenses. This course examines diverse curriculum discourses, historical as well as contemporary, within a broader context of issues related to education and schooling. It is designed to engage students critically in the study of curricular frameworks, their assumptions, values, and implications for education, schooling, teaching and learning. Major topics include: frameworks for defining and conceptualizing curriculum and curricular visions; social, political, and historical contexts of curriculum construction; issues of gender, race, class, ability, and the media; the curriculum as socially constructed, and historically contextualized discourse(s) about what is and what should be taught. Particular content areas will be used as examples.
Status as a EDD student with a declared concentration is a prerequisite for this class.

ASSESSING SCHOOL CURRICULUM
Graduate
This course develops a framework for assessing the content, characteristics, and outcomes of the curriculum in a school. The framework will include the collection, organization and analysis of both quantitative and qualitative measures of effective instruction. Particular attention will be given to local, state, and national standards for content, teaching and outcomes. Attention will also be given to the qualities of the lived experiences of students in school and thus to the unintended as well as intended outcomes of schooling. Each student will be expected to begin assessing the curriculum in his or her school and to outline a proposal for a more complete assessment of the school's curriculum.
Status as a EDD student with a declared concentration is a prerequisite for this class.

YOUTH DEVELOPMENT, IDEOLOGY, CULTURE, AND SOCIETY
Graduate
This course examines the ideological significance of "youth" in societies characterized by structural inequalities of power based on class, race, ethnic capability, sexual and/or gender relations of domination and subordination. Texts from a range of academic disciplines -- psychology, sociology, cultural studies, social work -- will be studied to show the influence these texts have had in shaping discourse about youth and youth development. The concept of 'youth' will be looked at as a system of statements that produce arguments about young people and that, through these arguments, represent young people as deviant, deficient, perverted or resistant. These metaphors for dealing with crisis in society will be critically analyzed. The course will aim at critical self reflection; students will be challenged to examine their own assumptions about youth.
Status as a EDD student with a declared concentration is a prerequisite for this class.

ENGAGING IN CURRICULUM DELIBERATION
Graduate
This course engages students in systematic and collaborative deliberation on curriculum problems. A pattern for deliberation -- including situation analysis, problem discrimination and formulation, development of alternative courses of action, and anticipation of consequences -- will be developed, exemplified, and contrasted with other descriptions of curriculum development. The importance and role of alternative conceptions of learners, of situation, and of knowledge structures within disciplines will be emphasized. After engaging in stimulated deliberations, each student will be asked to examine the intellectual commitments underlying this approach to curriculum change, to reconsider his or her role as a curriculum leader in a school or other educational setting, and to develop realistic plans for engaging a particular school community in collaborative curriculum deliberation.
Status as a EDD student with a declared concentration is a prerequisite for this class.

CURRICULUM AND PROGRAM DESIGN
Graduate
This course studies principles underlying the design of effective, coherent, and comprehensive instructional programs. Topics include: the design and organization of core courses of study and related curricular components; the associated staff development program; and alignment with local, state, and national mandates. Particular attention will be given to planning for diversity, including differences in learning styles, special needs, culture and language.
Status as a EDD student with a declared concentration is a prerequisite for this class.
CS 794
SPECIAL TOPICS IN CURRICULUM
Graduate
In order to assure that the program remains flexible, responsive to the needs of students, and inclusive of the areas of interest of both faculty and students, this variable topics course will provide an opportunity for critical examination of compelling topical issues related to education. Topics could include: issues in educational reform; special education; controversies in curricular discourse; current issues such as the education of homeless children; or legal and constitutional issues in education and schooling. The course will be conducted in a seminar format.

Status as a EDD student with a declared concentration is a prerequisite for this class.

CS 849
SUPERVISED DISSERTATION PROPOSAL DEVELOPMENT
Graduate
Students register for this course for the quarter in which they defend their dissertation proposals. Permission of dissertation chair required.

CS 859
INDEPENDENT DISSERTATION RESEARCH: CURRICULUM STUDIES
Graduate
Students register for this course for the quarter in which they defend their dissertations. Permission of dissertation chair required.

CS 493
CURRICULUM DEVELOPMENT AND ASSESSMENT IN K-12 SCHOOLS
Graduate
This course prepares future school leaders with knowledge; understanding; and application of planning, assessment, and instructional leadership for roles in the K-12 school setting at the supervisory or administrative level. The emphasis of the course will be planning, implementation, and refinement of standards-based curriculum aligned with instruction, assessment, and instructional decisions as they affect the teaching and learning environment of the school with diverse cultural, ethnic, linguistic, and special needs populations.

CSC 200
SURVEY OF COMPUTING
Undergraduate
An introduction of various careers in the field of information technology are explored. A hands-on component will deal with state of the art personal computer operating systems, applications, database systems, Internet, email, and basic web site construction. The structure of the course utilizes both classroom lectures and computer classroom labs. This course is geared towards the non-major and assumes no prior knowledge or experience in Computer Science.

CSC 202
DISCRETE STRUCTURES FOR COMPUTER SCIENCE
Undergraduate
This course introduces basic mathematical tools essential for solving problems in computer science. The mathematical topics are presented through their applications in computer science: logic and set theory in the context of relational databases, arithmetic, number theory, and algebra through cryptography; graph theory and discrete structures through puzzles and games. Optional subjects include fractals (recursion and rewriting systems), computer graphics (linear algebra), and Artificial Intelligence (first-order logic).

CSC 208
ETHICS IN TECHNOLOGY
Undergraduate
Information Technology and the rapid pace in which it has advanced have had a tremendous impact on our lives. Changes have been swift and the human capacity to deal with them is limited. It has been said that our technology has outpaced our humanity. This course will research the new responsibilities technology presents and our ability to deal with these changes in an ethical manner. Students will employ ethical frameworks, which integrate computer science and ethics, to develop the skills required to examine different sets of assumptions and question them. Case studies will provide a historical perspective for analysis.
CSC 211
PROGRAMMING IN JAVA I
Undergraduate
Introduction to programming in Java and problem solving. Variables, data types, input/output, using objects and methods from the standard classes (such as String and Scanner), control structures, writing methods, arrays. Solving problems with algorithms and implementing algorithms in Java.

CSC 212
PROGRAMMING IN JAVA II
Undergraduate

CSC 223
THE IMPACT OF COMPUTING TECHNOLOGY ON OUR LIVES
Undergraduate
This course will introduce students to an overview of social analysis techniques and the theories of social change. These tools will be used to explore social impact issues of computing technology. Counts for Liberal Studies SSMW credit.

CSC 224
JAVA FOR PROGRAMMERS
Undergraduate
Object-oriented programming using Java for students that already know how to program. Students will learn how to design, code and test multi-class Java programs. Topics covered include: Variables, Operators, Arrays, Classes, Inheritance, Abstract classes, Interfaces, Inner classes, Exception Handling, File I/O, User Interfaces, and Event Handling. PREREQUISITE(S): Experience in at least one high-level programming language.

CSC 231
BASIC COMPUTATION FOR BIOLOGY
Undergraduate
This course is an introduction to the art of computational modeling of biological phenomena. It is primarily concerned with teaching basic skills needed to model a well-defined subset of our Universe. Modeling software like Matlab and spreadsheets will be the primary tools and no programming experience will be needed. (Other specialized software may be introduced and used as is economically feasible.) An important component of this course will be field trips to modern science and computational labs to ground students' knowledge in the phenomena being modeled and the art of modeling. PREREQUISITE(S): One quarter of Calculus or Graduate standing

CSC 233
CODES AND CIPHERS
Undergraduate
This course is an introduction to the science and history of secret writing (cryptography) and how codes and ciphers can be broken (cryptanalysis). In historical settings we will encounter the main ideas and methods devised to secure communication channels. Possible topics include: substitution ciphers, transposition ciphers, the Vigenere cipher, statistical methods in cryptanalysis, public-key cryptography, and quantum cryptography. PREREQUISITE: LSP 120.

CSC 235
PROBLEM SOLVING
Undergraduate
How do you solve a problem? In this course we discuss different problem solving techniques and strategies such as modeling, establishing subgoals, and searching and pruning. The techniques will be presented as part of a theoretical framework, but there will be significant emphasis on solving problems in familiar domains such as games, newspaper articles, philosophy, and simple geometry and logic. At the end of the course, students will have built a repertoire of problem solving tools that will allow them to make an informed choice of approach towards new problems.
CSC 239
PERSONAL COMPUTING
Undergraduate
Students will learn how to develop Excel workbooks for computing elementary statistics and compute simple statistical inference (confidence intervals, hypothesis testing and linear regression models) using the data analysis toolkit. A variety of statistical, mathematical, logical, and text functions in Excel as well as the Excel Chart and Data features will be presented. Further, students will gain an introduction to web publishing, as the world wide web currently offers fast access to a huge audience for the presentation of research results. PREREQUISITE(S): Students are assumed to be familiar with Windows. MAT 130 or equivalent

CSC 241
INTRODUCTION TO COMPUTER SCIENCE I
Undergraduate
An introduction to problem solving, algorithms and structured programming using a higher-level programming language. The course will focus on skills for developing algorithms, and for writing and debugging programs. Students will learn how and when to use loops, conditionals, and functional abstractions in the context of problems motivated by real world applications. PREREQUISITE(S): MAT 130 or Mathematics Diagnostic Test placement into MAT 140.

CSC 242
INTRODUCTION TO COMPUTER SCIENCE II
Undergraduate
An intermediate course in problem solving, algorithms and programming. Programming skills are further strengthened through more complex and larger programming assignments. The assignments will also be used to introduce different Computer Science areas (e.g. a Client/Server application for the Distributed Systems area). Classes and object oriented programming are motivated and introduced. PREREQUISITE(S): CSC241

CSC 243
INTRODUCTION TO PROGRAMMING
Undergraduate
An introduction to programming with a focus on problem solving, structured programming, and algorithm design with a gentle introduction to efficiency. Concepts covered include data types, expressions, variables, assignments, conditional and iterative structures, functions, file input/output, exceptions, namespaces, and recursion. Prerequisite(s): Graduate standing

CSC 250
COMPUTERS AND HUMAN INTELLIGENCE
Undergraduate
Students taking this course will study human problem-solving and its simulation by computers. Artificial intelligence, pattern recognition and learning programs will be discussed. PREREQUISITE(S): Familiarity with basic computer productivity tools and the Web.

CSC 261
PROGRAMMING IN C++ I
Undergraduate
This is an introductory course in computer programming covering basic data types, variables, flow of control, functions, and parameter passing, pointers and pass by reference, arrays, c strings and the C string library, basic input/output and structures. Examples in this course will concentrate on basic procedural algorithms for manipulating data.

CSC 262
PROGRAMMING IN C++ II
Undergraduate
This is an intermediate programming course in C++, intended as a follow-up course to CSC 261. Topics include object-oriented programming, user-defined classes and objects, constructors, C++ memory management including pointers and dynamic allocation, copy constructors, destructors, and operator overloading. The course will also cover inheritance and polymorphism. Optional topics, as time allows, will include templates and the C++ Standard Template Library. PREREQUISITE(S): CSC 261
CSC 270  
FROM FIREFLIES TO FACEBOOK: THE SCIENCE OF NETWORKS  
Undergraduate  
This course explores complex systems both natural and man-made, characterized by the relationships between interacting entities. Network structures can be found in the Internet and its many applications, but also in social relationships, marketplaces, ecosystems, even cells. We will examine a wide range of networks including technological, social, and natural. Students will learn basic concepts from graph theory, algorithms and network analysis, apply tools for extracting, analyzing and visualizing network properties, using data sets drawn from a variety of areas. PREREQUISITE(S): LSP 120

CSC 298  
INTERNSHIP  
Undergraduate  
In cooperation with local employers, this course offers students the opportunity to integrate their academic experience with on-the-job training in computer related work areas. Admission to the program requires consent of internship course instructor. Current work experience plus classroom time is required. Supervisor evaluation will contribute to the final grade. This course satisfies the junior year experiential learning requirement.

CSC 299  
SOPHOMORE LAB IN APPLIED COMPUTING  
Undergraduate  
In this course, students investigate a particular application of computing. Students learn tools, methodologies, and formalisms used in particular computing area, and apply them to develop working systems. Courses stress student initiative in investigating the application context, learning new tools (including languages and APIs), studying algorithms and code examples, and working on projects. Topics will vary by the faculty member’s interest and perspective. PREREQUISITE(S): CSC 242

CSC 300  
DATA STRUCTURES IN JAVA I  
Undergraduate  
This is the first course in a two-course sequence on data structures using Java. The course introduces basic Java programming, reviews recursion, introduces asymptotic notations, and focuses mainly on linear data structures including arrays, linked lists and their variants, stacks and queues. The implementation of the basic operations on each data structure are discussed and analyzed in terms of their efficiency. The applications covered highlight and exploit the unique characteristics of the data structures, and emphasize problem solving and recursive thinking. Prerequisite(s): CSC 242 or CSC 243

CSC 301  
DATA STRUCTURES IN JAVA II  
Undergraduate  
This is the second course in a two-course sequence on data structures using Java. The course focuses mainly on the following data structures, their analysis, and their applications: trees (search trees, balanced search trees), heaps, data structures supporting disjoint-set operations, associative arrays, hash tables, and data structures for representing graphs. The implementation of the basic operations on each data structure are discussed and analyzed in terms of their efficiency. The applications discussed highlight and exploit the unique characteristics of the different data structures, and emphasize problem solving and recursive thinking. Prerequisite(s): CSC 300

CSC 308  
FRAMEWORKS FOR WEB APPLICATION DEVELOPMENT  
Undergraduate  
This course introduces concepts, techniques, technologies and APIs for web application development. The main focus of the course is on the Model-View-Controller design pattern employed by modern full-stack web frameworks. Concepts and techniques covered include client/server programming, database abstraction APIs, and asynchronous JavaScript. Examples of full-stack MVC frameworks include Ruby-on-Rails (written in Ruby), Django and TurboGears (written in Python). PREREQUISITE(S): CSC 374

CSC 309  
C++ FOR PROGRAMMERS  
Undergraduate  
This course covers the essentials of C and C++ programming, focusing primarily on the topics of memory management and object-oriented programming. Topics include pointers and dynamic allocation, operator overloading, copy constructors and destructors, inheritance and polymorphism. PREREQUISITE(S): CSC 242 or CSC 243 or CSC 224 or proficiency in another programming language.
CSC 321
DESIGN AND ANALYSIS OF ALGORITHMS
Undergraduate
Techniques for designing algorithms including: analyzing algorithms (big-O, recurrence relations) and divide-and-conquer (quicksort, mergesort). Additional topics chosen from: the greedy method, dynamic programming, backtracking, branch-and-bound and string matching. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and MAT140. MAT141 Recommended.

CSC 324
DATA ANALYSIS & STATISTICAL SOFTWARE II
Undergraduate
Continuation of IT223. Multiple regression and correlation, residual analysis, analysis of variance, and robustness. PREREQUISITE(S): IT 223 or MAT 351.

CSC 325
TIME SERIES ANALYSIS AND FORECASTING
Undergraduate
The course introduces students to statistical models for time series analysis and forecasting. The course topics include: autocorrelated data analysis, Box-Jenkins models (autoregressive, moving average, and autoregressive moving average models), analysis of seasonality, volatility models (GARCH-type, GARCH-M type, etc.), forecasting evaluation and diagnostics checking. The course will emphasize applications to financial data, volatility modeling and risk management. Real examples will be used throughout the course. PREREQUISITE(S): (CSC 212 or CSC 224 CSC 262 or CSC 390) and (CSC324 or MAT356) or consent of instructor.

CSC 327
PROBLEM SOLVING FOR CONTESTS
Undergraduate
This course prepares students to compete in programming contests. More broadly, it covers problem solving techniques in an informal, fun, and hands-on setting. This course will improve your analytical and programming skills and is thus recommended for all students and not just the competitors among us. This course can be taken for credit twice. PREREQUISITE(S): CSC 301 or CSC 383

CSC 328
DATA ANALYSIS FOR EXPERIMENTERS
Undergraduate
The use of statistical software in conducting an analysis of variance in a variety of settings and the interpretation of generated results. Analysis of variance for completely randomized, randomized block, and Latin square designs; for factorial experiments; for incomplete block designs; with missing data; for fixed-effects, random-effects, and mixed-effects models; and for experiments with repeated measures. The analysis of covariance. PREREQUISITE(S): CSC324 or MAT 353.

CSC 331
SCIENTIFIC COMPUTING
Undergraduate
This course presents fundamental numerical algorithms for solving problems in scientific computing and computational finance. Areas covered include: error analysis, computer arithmetic, linear algebra, optimization problems, numerical integration (solvers), ordinary differential equations (ODE). The emphasis of the course is on the design of the algorithms, and their analysis. Algorithms will be implemented using mathematical software. PREREQUISITE(S): (CSC 212 or CSC 262 or CSC 224 or CSC 300) , and 2 course calculus sequence or instructor's permission.

CSC 333
CRYPTOLOGY
Undergraduate
Introduction to the methods of cryptography and cryptanalysis. Topics include classical cryptography (codes, substitution ciphers, transposition ciphers), block and stream ciphers (Feistel networks, DES), and public key cryptography (RSA, Key agreement, signature schemes). Optional topics include zero-knowledge protocols, quantum cryptography, and history. PREREQUISITE(S): (CSC 211 or CSC 241) and MAT 140
CSC 334
ADVANCED DATA ANALYSIS
Undergraduate
The course will teach advanced statistical techniques to discover information from large sets of data. The course topics include visualization techniques to summarize and display high dimensional data, dimensional reduction techniques such as principal component analysis and factor analysis, clustering techniques for discovering patterns from large datasets, and classification techniques for decision making. The methods will be implemented using standard computer packages. PREREQUISITE(S): CSC 324 or consent of instructor.

CSC 343
INTRODUCTION TO OPERATING SYSTEMS
Undergraduate
An advanced course on operating system design and implementation. Process management and scheduling, memory management, file systems, device drivers, access control, and virtualization will be covered. The emphasis of the course will be on implementing components of a functional operating system. PREREQUISITE(S): CSC373 and CSC374

CSC 344
AUTOMATA THEORY AND FORMAL GRAMMARS
Undergraduate
An introduction to the most important abstract models of computation and their applications: finite state machines and pushdown automata. Explores the relationship between regular expressions and formal grammars and automata. PREREQUISITE(S): (CSC 301 or CSC 383) and MAT 141

CSC 347
CONCEPTS OF PROGRAMMING LANGUAGES
Undergraduate
Syntax of programming languages: regular expressions, finite automata, context-free grammars, parsing. Scoping, binding, parameter passing, exception handling. Declarative programming languages. Typing, polymorphism. Runtime systems: dynamic loading, byte-code verification, security managers, garbage collection, versioning. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374.

CSC 348
INTRODUCTION TO COMPILER DESIGN
Undergraduate
An overview of the design of a compiler for a general purpose programming language; tools for designing the components of the compiler; implementing the compiler; run time environments. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 373

CSC 351
DATABASE DESIGN
Undergraduate
Requirement analysis, conceptual design, logical design and implementation of relational databases. Emphasis will be on E-R modeling and E-R mapping, along with basic normalization and SQL for database implementation. PREREQUISITE(S): IT240

CSC 352
DATABASE PROGRAMMING
Undergraduate
Programming in large-scale relational database environment using host languages. Design and implementation of on-line applications. Topics covered in this course include: database programming using open architectures, embedded query languages, dynamic query language, procedural extension of query languages, stored procedures, transaction management, and introduction to extensible markup data definition and retrieval languages. PREREQUISITE(S): IT240 and (CSC 212 or CSC 242 or CSC 262 or CSC 224 or CSC 300 or CSC 309).

CSC 353
ADVANCED DATABASE CONCEPTS
Undergraduate
An introduction to advanced selected topics in databases. Possible topics include: object-oriented databases, distributed databases, intelligent and deductive databases, temporal databases, multimedia databases, spatial and geographic databases, fuzzy databases, mobile databases, data mining and data warehousing, as well as emerging issues and concepts in database design, implementation and management. PREREQUISITE(S): IT 240.
CSC 355
DATABASE SYSTEMS
Undergraduate
An introduction to modern database systems; the course covers the traditional concepts and techniques of database systems including the relational model, SQL indexes and normalization as well as a selection of advanced topics such as constraints and triggers, transactions, database programming, semi-structured data, and recursive SQL. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 373

CSC 357
EXPERT SYSTEMS
Undergraduate
A study of the development of expert systems. Students will use commercial packages to develop standalone and embedded expert systems. Topics will include rule-based systems, decision trees, forward and backward chaining, inference, reasoning with uncertainty, and intelligent agents. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393.

CSC 358
SYMBOLIC PROGRAMMING
Undergraduate
Concepts of symbolic programming as embodied in the language LISP. Basic data and control structures of LISP: symbolic expressions, the interpreter, functions, recursion, iteration. Techniques for prototyping and building conceptually advanced systems in an environment that encourages procedural and data abstraction. Advanced topics may include Prolog, intelligent tutoring systems, intelligent agents, and natural language processing. Assignments will focus on basic AI techniques, but the class is intended for anyone who will need to rapidly develop large complex systems. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393.

CSC 360
USER INTERFACE ARCHITECTURE AND DEVELOPMENT
Undergraduate
Fundamentals of design and implementation for graphical user interfaces (GUIs). Students design a GUI-based application following the user-centered design process and implement it using the Model-View-Controller architecture. Topics include usability engineering, event dispatching, multi-threaded programming, GUI widget toolkits, frameworks and customization. PREREQUISITE(S): SE 350

CSC 367
INTRODUCTION TO DATA MINING
Undergraduate
The course is an introduction to the Data Mining (DM) stages and its methodologies. The course provides students with an overview of the relationship between data warehousing and DM, and also covers the differences between database query tools and DM. Possible DM methodologies to be covered in the course include: multiple linear regression, clustering, k-nearest neighbor, decision trees, and multidimensional scaling. These methodologies will be augmented with real world examples from different domains such as marketing, e-commerce, and information systems. If time permits, additional topics may include privacy and security issues in data mining. The emphasis of this course is on methodologies and applications, not on their mathematical foundations. PREREQUISITE(S): IT 223

CSC 371
MOBILE APPLICATION DEVELOPMENT
Undergraduate
In this course we introduce the core issues associated with development for mobile devices. Students will learn a platform?s IDE, frameworks, view, menus, controllers, graphics audio and more. Understanding the device's taps, touch, multi-touch, gestures, and accelerometers are just few of the interactions the class will cover. This course is design to be prerequisite for advanced mobile development classes. Every offering of the course will be explicitly targeting a specific device platform, (i.e. iPhone, Android, Windows Phone). PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374

CSC 373
COMPUTER SYSTEMS I
Undergraduate
A course on computer systems topics, focusing on machine-level programming and architecture and their relevance for application programming. Information representations, assembly language and debuggers, processor architecture, program optimization, memory hierarchy and caching. PREREQUISITE: ((CSC 383 or CSC 393 or CSC 301) and Math 140) or (CSC 224 or CSC 261 or CSC 309 ) and graduate standing.)
CSC 374
COMPUTER SYSTEMS II
Undergraduate
A course on computer systems topics, focusing on operating systems components and their relevance for application programming. Linking, processes, virtual memory, dynamic memory allocation, system level I/O, networking and network programming, concurrent servers and web services. PREREQUISITE: CSC373

CSC 375
INTRODUCTION TO ROBOTICS
Undergraduate
An introduction to the field of Robotics. Topics include history of robotics, kinematics, control theory, and sensor theory. A large portion of class time will be lab based, building and programming robots using the Lego Mindstorms NXT Robotics Kit. The programming will be using a C derivative and knowledge of C and general systems concepts is required. This course has an additional fee. PREREQUISITE(S): CSC 373 and CSC 374

CSC 376
DISTRIBUTED SYSTEMS
Undergraduate
An introduction to distributed systems. Topics may include: architecture of distributed systems; networking; datagram-oriented and stream-oriented protocols; network programming (for example, the sockets API); remote procedure call and remote method invocation; processes and threads; code migration; software agents; naming of non-mobile and mobile entities; cryptography and security. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374.

CSC 378
SOFTWARE PROJECTS FOR COMMUNITY CLIENTS
Undergraduate
This is the first course in a two-quarter sequence (winter/spring) for CTI students that satisfies both the Senior Year Capstone requirement and the Junior Year Experiential Learning requirement. The second quarter will be a special section of CSC 399. You will earn four quarter hours of credit for each quarter for a total of eight quarter hours of credit. You must complete both quarters to receive any credit. We work with a community service organization, chosen with help of the Steans Center for Community-based Service Learning. As a community-based service learning course, students will have the opportunity to assess urban community needs in technology, and use problem-solving methods and strategies to make a substantial difference in an inner-city community group, usually by developing an application or a web site.

CSC 379
TECHNOLOGY PARTNERSHIPS IN URBAN SCHOOLS
Undergraduate
Students in this course will have the opportunity to assess urban community needs in the technology arena and develop skills in assisting and developing methods for "bridging the digital divide" that exists. As a result, the student will be able to make a substantial difference in an underprivileged academic community group. This course is a CDM-sponsored community-based service learning course. Any student enrolled in this course can also satisfy the junior year experiential learning requirement.

CSC 380
FOUNDATIONS OF ARTIFICIAL INTELLIGENCE
Undergraduate
An in-depth survey of important concepts, problems, and techniques in artificial intelligence, including search, knowledge representation, logical reasoning, and reasoning with uncertainty. A particular focus and a unifying theme of the course will be the concept of intelligent agents. No prior knowledge of AI is required. The course is particularly suitable for graduate and advanced undergraduate students who want to gain the technical background necessary to build intelligent systems, or who want to prepare for more advanced work in AI. The concepts and techniques learned in this course will be directly applicable to many other areas of computer science including software design, distributed systems, databases, and information management and retrieval. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393.

CSC 381
INTRODUCTION TO DIGITAL IMAGE PROCESSING
Undergraduate
Components of an image processing system and its applications, elements of visual perception, sampling and quantization, image enhancement by histogram equalization, color spaces and transformations, introduction to segmentation (edge detection algorithms), and morphological image processing. PREREQUISITE(S): Calculus or Linear Algebra
CSC 382
APPLIED IMAGE ANALYSIS
Undergraduate
Fundamentals of computational image analysis will be explored in terms of its two most important components, image information extraction and modeling of image patterns. These components will be studied in the context of image representation, segmentation, classification, retrieval and recognition. The course will be useful for students interested in image analysis related to areas such as image databases, multimedia management, animation, GIS, computer graphics, medical imaging, remote sensing and robotics. Specific topics include, but are not limited to segmentation, multi-scale representation, shape analysis, texture analysis, Fourier analysis, wavelets, Gabor and fractal analysis, template matching, and object recognition. PREREQUISITE(S): CSC 381

CSC 383
DATA STRUCTURES AND ALGORITHMS IN JAVA
Undergraduate
Design, implementation, application, and analysis of algorithms on a variety of data structures, including stacks, queues, lists, trees, binary heaps, hash tables, and graphs. Algorithmic analysis includes computation of running times and asymptotic analysis. PREREQUISITE(S): CSC 212 or CSC 224 or CSC 300

CSC 387
OPERATIONS RESEARCH I: LINEAR PROGRAMMING
Undergraduate
The Linear Programming problem and its dual; the simplex method; transportation and warehouse problems; computer algorithms and applications to various fields. PREREQUISITE(S): MAT 220 and any introductory programming course.

CSC 389
THEORY OF COMPUTATION
Undergraduate
Advanced topics in the mathematical foundations of computation. Topics may include random access and Turing machines, recursive functions, algorithms, computability and computational complexity, intractable problems, NP-complete problems. PREREQUISITE(S): CS321 or CS344.

CSC 393
DATA STRUCTURES IN C++
Undergraduate
This course covers the design, implementation, application and analysis of algorithms on a variety of data structures, including lists, stacks, queues, trees, heaps, hash tables and graphs. Implementation is done in C++, in particular with the use of templates and the C++ standard template library (STL). PREREQUISITE(S): CSC 262 or CSC 309

CSC 394
SOFTWARE PROJECTS
Undergraduate
Students will be provided with experience in team design, implementation and testing of a large software project. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393 or IM 360

CSC 396
PROGRAMMING IN JAVA I AND II (AVAILABLE TO GRADUATE STUDENTS ONLY)
Graduate
An intensive eight-credit-hour course in Java programming. Covers the same material as CSC 211 and CSC 212 together, with two class meetings each week. PREREQUISITE(S): Graduate standing required.

Status as a Graduate student is a prerequisite for this class.

CSC 397
TOPICS IN COMPUTER SCIENCE
Undergraduate
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit. PREREQUISITE(S): Consult the instructor
CSC 398
INTERNSHIP
Undergraduate
In cooperation with local employers the computer science program offers students the opportunity to integrate their academic experience with on-the-job training in computer related work areas. Academic credit is variable and admission to the program requires consent of internship advisor. Supervisor evaluation will contribute to the final grade.

CSC 399
INDEPENDENT STUDY
Undergraduate
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit. PREREQUISITE(S): None.

CSC 400
DISCRETE STRUCTURES FOR COMPUTER SCIENCE
Graduate
This course covers the basic mathematical tools essential for solving problems in computer science. The mathematical topics are presented with emphasis on their applications in computer science. The topics covered include: logic and set theory, relations, functions, graphs, and counting and probability.

CSC 401
INTRODUCTION TO PROGRAMMING
Graduate
An introduction to programming with a focus on problem solving, structured programming, and algorithm design with a gentle introduction to efficiency. Concepts covered include data types, expressions, variables, assignments, conditional and iterative structures, functions, file input/output, exceptions, namespaces, and recursion. PREREQUISITE(S): None

CDM graduate students in the Pre requisit ePhase are restricted from registering for this class.

CSC 402
DATA STRUCTURES I
Graduate
A first course on data structures in Java for graduate students. The course introduces Java programming from within the context of data structures. The course covers arrays, linked lists, stacks and queues, and discusses recursion and performance analysis. The implementation of the basic operations on each data structure are discussed and analyzed in terms of their efficiency. PREREQUISITE(S): CSC 401

CSC 403
DATA STRUCTURES II
Graduate
This is the second course on data structures in Java for graduate students. The course covers trees, heaps, data structures supporting disjoint-set operations, associative arrays, hash tables, and data structures for representing graphs. The implementation of the basic operations on each data structure are discussed and analyzed in terms of their efficiency. PREREQUISITE(S): CSC 402

CDM graduate students in the Pre requisit ePhase are restricted from registering for this class.

CSC 404
ACCELERATED C++
Graduate
This introductory graduate course covers the essentials of C++ programming. Topics include encapsulation, inheritance, polymorphism, dynamic memory allocation, casting, pointer arithmetic, operator overloading, templates, and teh Standard Template Libraries. PREREQUISITE(S): None

CDM graduate students in the Pre requisit ePhase are restricted from registering for this class.
CSC 406  
SYSTEMS I  
Graduate  
An introductory graduate course on computer systems topics, focusing on machine-level programming and architecture and their relevance for application programming. Information representations, assembly language and debuggers, processor architecture, program optimization, memory hierarchy and caching. Students are recommended to finish CSC 400 before enrolling in this course. PREREQUISITE(S): CSC 401 or CSC 243

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 407  
SYSTEMS II  
Graduate  
An introductory graduate course on computer systems topics, focusing on operating systems components and their relevance for application programming. Linking, processes, virtual memory, dynamic memory allocation, system level I/O, networking and network programming, concurrent servers and web services. PREREQUISITE(S): CSC 406

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 412  
TOOLS AND TECHNIQUES FOR COMPUTATIONAL ANALYSIS  
Graduate  
Use of mathematical software to explore basic concepts in linear algebra and calculus. Scripting for symbolic and computational processing. Emphasis is on applications in computer science, finance, data mining, and computer vision. PREREQUISITE(S): None

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 421  
APPLIED ALGORITHMS AND STRUCTURES  
Graduate  
This course covers techniques for designing and analyzing algorithms and structures in the context of computer application development. Examples will come from Internet, WWW, database, and computer system applications. Fundamental topics such as running-time analysis, searching and sorting within various structures, divide-and-conquer and dynamic programming will be covered. PREREQUISITE(S): CSC 202 and (CSC 301 or CSC 383 or CSC 393)

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 423  
DATA ANALYSIS AND REGRESSION  
Graduate  
Multiple regression and correlation, residual analysis, analysis of variance, and robustness. These topics will be studied from a data analytic perspective, supported by an investigation of available statistical software. PREREQUISITE(S): IT223.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 424  
ADVANCED DATA ANALYSIS  
Graduate  
The course will teach advanced statistical techniques to discover information from large sets of data. The course topics include visualization techniques to summarize and display high dimensional data, dimensional reduction techniques such as principal component analysis and factor analysis, clustering techniques for discovering patterns from large datasets, and classification techniques for decision making. The methods will be implemented using standard computer packages. PREREQUISITE(S): CSC 423 or consent of instructor.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.
CSC 425
TIME SERIES ANALYSIS AND FORECASTING
Graduate
The course introduces students to statistical models for time series analysis and forecasting. The course topics include: autocorrelated data analysis, Box-Jenkins models (autoregressive, moving average, and autoregressive moving average models), analysis of seasonality, volatility models (GARCH-type, GARCH-M type, etc.), forecasting evaluation and diagnostics checking. The course will emphasize applications to financial data, volatility modeling and risk management. Real examples will be used throughout the course. PREREQUISITE(S): (CSC423 or MAT456) or consent of instructor.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 426
VALUES AND COMPUTER TECHNOLOGY
Graduate
The impact of computerized technologies on society with particular attention paid to the ethical issues raised by these social effects. The course will require all of Ph.D. students research leading to a paper of publishable quality. Techniques for this type of research and writing will be discussed. An oral presentation of the research of that paper will also be required. PREREQUISITE(S): Ph.D. status or consent of instructor.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 428
DATA ANALYSIS FOR EXPERIMENTERS
Graduate
The analysis of experiments in the computing science with special emphasis on the use of statistical software and interpretation of generated output. PREREQUISITE(S): CSC 423.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 431
SCIENTIFIC COMPUTING
Graduate
This course presents fundamental numerical algorithms for solving problems in scientific computing and computational finance. Areas covered include: error analysis, computer arithmetic, linear algebra, optimization problems, numerical integration (solvers), ordinary differential equations (ODE). The emphasis of the course is on the design of the algorithms, and their analysis. Algorithms will be implemented using mathematical software. PREREQUISITE(S): CSC 212 or CSC 262 or CSC 242 or CSC 300, and 2 course calculus sequence or instructor's permission.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 433
SCRIPTING FOR DATA ANALYSIS
Graduate
Data access and transformation with modern statistical software such as SAS and R. Report writing, data graphing and visualization, writing macros and functions to automate tasks and statistical analyses. PREREQUISITE(S): IT 403 and CSC 401 or IT 411.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 435
DISTRIBUTED SYSTEMS I (FORMERLY SE 435)
Graduate
An introduction to distributed systems. Topics may include: architecture of distributed systems; networking; datagram-oriented and stream-oriented protocols; network programming (for example, the sockets API); remote procedure call and remote method invocation; processes and threads; code migration; software agents; naming of non-mobile and mobile entities; cryptography and security. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.
CSC 436
WEB APPLICATIONS
Graduate
This course covers the design and development of modern web applications and their interaction with web services. The primary focus is on client-side web applications using AJAX-techniques to access web services. Topics include: JavaScript; programming and security models for browsers; client-side web applications with local storage; offline clients; data synchronization; designing for mobile devices; HTTP, proxies, and caching; RESTful web services. PREREQUISITE(S): CSC 435 and SE 450

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 438
FRAMEWORK FOR WEB APPLICATION DEVELOPMENT
Graduate
This course introduces concepts, techniques, technologies and APIs for web application development. The main focus of the course is on the Model-View-Controller design pattern employed by modern full-stack web frameworks. Concepts and techniques covered include client/server programming, database abstraction APIs, and asynchronous javascript. Examples of full-stack MVC frameworks include Ruby-on-Rails (written in Ruby), Django and TurboGears (written in Python). PREREQUISITE: CSC 374

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 439
COMPUTER SECURITY
Graduate
This course covers core principles of computer security. Topics include: user authentication; access control (discretionary, mandatory, role-based); security auditing; database security; software security, common vulnerabilities, and secure coding practices; malicious software; and operating system security. Prerequisite(s): CSC 374

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 440
CRYPTOLOGY
Graduate
Introduction to the methods of cryptography and cryptanalysis. Topics include classical cryptography (codes, monoalphabetic and polyalphabetic substitution ciphers, transposition ciphers), modern block ciphers (such as DES, AES), and public key cryptography (such as RSA). Optional topics include zero-knowledge protocols, information theory, coding theory, error-correcting codes, steganography, stream ciphers, hashing algorithms, quantum cryptography, elliptic curve cryptography, and history. PREREQUISITES: CSC 301 or CSC 383 or CSC 393

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 443
INTRODUCTION TO OPERATING SYSTEMS
Graduate
An advanced course on operating system design and implementation. Process management and scheduling, memory management, file systems, device drivers, access control, and virtualization will be covered. The emphasis of the course will be on implementing components of a functional operating system. PREREQUISITE: CSC373 and CSC374

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 444
AUTOMATA THEORY AND FORMAL GRAMMARS
Graduate
An introduction to the most important abstract models of computation and their applications: finite state machines and pushdown automata. Explores the relationship between regular expressions and formal expressions and automata. PREREQUISITE(S): (CSC 301 or CSC 383) and CSC 202

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.
CSC 447
CONCEPTS OF PROGRAMMING LANGUAGES
Graduate
Programming paradigms and language concepts: functional programming; comparison of object-oriented languages; type systems for functional and object-oriented languages; runtime systems for functional and object-oriented languages. A variety of programming languages will be used to illustrate concepts, e.g., JavaScript, Ruby, Scala, Scheme. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 448
COMPILER DESIGN
Graduate
Design and structure of high level languages. Lexical scan, top down and bottom up syntactic analysis. Syntax directed translation and LR(k) grammars. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 373

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 451
DATABASE DESIGN
Graduate
Requirement analysis, conceptual design, logical design and implementation of relational databases. Emphasis will be on E-R modeling and E-R mapping, along with basic normalization and SQL for database implementation. PREREQUISITE(S): Graduate Standing.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 452
DATABASE PROGRAMMING
Graduate
Programming in large-scale relational database environment using host languages. Design and implementation of on-line applications. Topics covered in this course include: database programming using open architectures, embedded query languages, dynamic query language, procedural extension of query languages, stored procedures, transaction management, and introduction to extensible markup data definition and retrieval languages. PREREQUISITE(S): (CSC 453 or CSC 451) and (CSC 212 or CSC262 or CSC 224 or CSC 300 or CSC 309).

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 453
DATABASE TECHNOLOGIES
Graduate
A core graduate course in database design and implementation. Topics include database implementation and queries in SQL, logical design or relational databases, storage and indexes, database programming, and emerging database models. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 454
DATABASE ADMINISTRATION AND MANAGEMENT
Graduate
This course is designed to give students a comprehensive foundation in database administration and management. The course provides a conceptual understanding of the database architecture and how its components work and interact with one another. Topics covered in this course include: database architecture, capacity planning, installation and maintenance, network configuration, security management, utilities and tools, industry standards and guidelines, database management techniques and practices. PREREQUISITE(S): CSC 453 or CSC 451.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.
CSC 457  
**EXPERT SYSTEMS**  
Graduate  
A study of the development of expert systems. Students will use commercial packages to develop standalone and embedded expert systems. Topics will include rule-based systems, decision trees, forward and backward chaining, inference, reasoning with uncertainty, and intelligent agents. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393.  
CDM graduate students in the Prerequirement Phase are restricted from registering for this class.

CSC 458  
**SYMBOLIC PROGRAMMING**  
Graduate  
Concepts of symbolic programming as embodied in the language LISP. Basic data and control structures of LISP: symbolic expressions, the interpreter, functions, recursion, iteration. Techniques for prototyping and building conceptually advanced systems in an environment that encourages procedural and data abstraction. Advanced topics may include Prolog, intelligent tutoring systems, intelligent agents, and natural language processing. Assignments will focus on basic AI techniques, but the class is intended for anyone who will need to rapidly develop large complex systems. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393.  
CDM graduate students in the Prerequirement Phase are restricted from registering for this class.

CSC 471  
**MOBILE APPLICATION DEVELOPMENT**  
Graduate  
In this course we introduce the core issues associated with development for mobile devices. Students will learn a platform’s IDE, frameworks, view, menus, controllers, graphics audio and more. Understanding the device’s taps, touch, multi-touch, gestures, and accelerometers are just a few of the interactions the class will cover. This course is designed to be prerequisite for advanced mobile development classes. Every offering of the course will be explicitly targeting a specific device platform, (i.e. iPhone, Android, Windows Phone). PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374  
CDM graduate students in the Prerequirement Phase are restricted from registering for this class.

CSC 475  
**INTRODUCTION TO ROBOTICS**  
Graduate  
An introduction to the field of Robotics. Topics include history of robotics, kinematics, control theory, and sensor theory. A large portion of class time will be lab based, building and programming robots using the Lego Mindstorms NXT Robotics Kit. The programming will be using a C derivative and knowledge of C and general systems concepts is required. This course has an additional fee. PREREQUISITES: CSC 373 AND CSC 374.  
CDM graduate students in the Prerequirement Phase are restricted from registering for this class.

CSC 478  
**PROGRAMMING DATA MINING APPLICATIONS**  
Graduate  
The course will focus on the implementations of various data mining and machine learning techniques using a high-level programming language. Students will develop hands on experience developing both supervised and unsupervised machine learning algorithms and will learn how to employ these techniques in the context of popular applications including automatic personalization, recommender systems, searching and ranking, text mining, group and community discovery, and social media analytics. PREREQUISITE(S): IT 403 and CSC 401  
CDM graduate students in the Prerequirement Phase are restricted from registering for this class.
CSC 480
ARTIFICIAL INTELLIGENCE I
Graduate
An in-depth survey of important concepts, problems, and techniques in artificial intelligence, including search, knowledge representation, logical reasoning, and reasoning with uncertainty. A particular focus and a unifying theme of the course will be the concept of intelligent agents. No prior knowledge of AI is required. The course is particularly suitable for graduate and advanced undergraduate students who want to gain the technical background necessary to build intelligent systems, or who want to prepare for more advanced work in AI. The concepts and techniques learned in this course will be directly applicable to many other areas of computer science including software design, distributed systems, databases, and information management and retrieval. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393.

CMC graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 481
INTRODUCTION TO IMAGE PROCESSING
Graduate
The course is a prerequisite for more advanced Visual Computing (VC) courses and the students will be challenged to implement VC algorithms for real world applications. The topics covered in the course include: components of an image processing system and its applications, elements of visual perception, sampling and quantization, image enhancement by histogram equalization, color spaces and transformations, introduction to segmentation (Edge detection), and morphological image processing. PREREQUISITE(S): Calculus or Linear Algebra.

CMC graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 482
APPLIED IMAGE ANALYSIS
Graduate
Fundamentals of computational image analysis will be explored in terms of its two most important components, image information extraction and modeling of image patterns. These components will be studied in the context of image representation, segmentation, classification, retrieval and recognition. The course will be useful for students interested in image analysis related to areas such as image databases, multimedia management, animation, GIS, computer graphics, medical imaging, remote sensing and robotics. Specific topics include, but are not limited to segmentation, multi-scale representation, shape analysis, texture analysis, Fourier analysis, wavelets, Gabor and fractal analysis, template matching, and object recognition. PREREQUISITE(S) CSC 481

CMC graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 485
NUMERICAL ANALYSIS
Graduate

CMC graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 487
OPERATIONS RESEARCH I: LINEAR PROGRAMMING
Graduate
Linear Programming. The Linear Programming problem and its dual; the simplex method; transportation and warehouse problems; computer algorithms and applications to various fields. This course has an additional fee. PREREQUISITE(S): MAT 220 and any introductory programming course.

CMC graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 489
THEORY OF COMPUTATION
Graduate
Advanced topics in the mathematical foundations of computation. Topics may include random access and Turing machines, recursive functions, algorithms, computability and computational complexity, intractable problems, NP-complete problems. PREREQUISITE(S): CSC 444 or CSC 421.

CMC graduate students in the Pre-requisite Phase are restricted from registering for this class.
CSC 495
SOCIAL NETWORK ANALYSIS
Graduate
This course is an introduction to the concepts and methods of social network analysis. Students will learn to extract and manage data about network structure and dynamics, and to analyze, model and visualize such data. Students will use software tools to model and visualize network structure and dynamics. Specific network applications to be discussed include online social networks, collaboration networks, and communication networks. PREREQUISITE(S): CSC 423 or CSC 202

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 500
RESEARCH COLLOQUIUM
Graduate
The research colloquium consists of weekly talks by a variety of speakers including faculty, students, and guests from the academic and business communities. The lectures feature new creative and scholarly work that encompasses the disciplines and areas of interest of the school of computing. Student evaluation is based on attendance as well as an online journal with reflections on each of the presentations. The educational objectives are to expose students to creative and scholarly research at DePaul and elsewhere, and to engage students in the thought process of identifying and solving challenging research problem. PREREQUISITE(S): None

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 503
PARALLEL ALGORITHMS
Graduate
Development, implementation, and applications of parallel algorithms. Models of parallel computation. Parallel sorting, searching and graph algorithms, as well as other parallel algorithms, will be studied and implemented on both simulated and actual parallel machines. PREREQUISITE(S): CSC 421.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 521
MONTE CARLO ALGORITHMS
Graduate
A course about the use of random numbers for numerical computation with particular emphasis on implementation issues and applications in science and finance. Covered topics include: pseudo random number generators, the inversion method, the accept-reject method, discrete event simulations, multi-dimensional integration, the Metropolis and the Bootstrap algorithms. Prerequisites: CSC 262, CSC 212, CSC 301 or CSC 309, or CSC 224 and CSC 423 or instructor's permission

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 525
COMBINATORIAL OPTIMIZATION
Graduate
This course defines and introduces the concepts and techniques needed to formulate and model optimization problems. A set of fundamental problems in combinatorial optimization will be covered together with their applications. The emphasis will be on the design and analysis of algorithms for such problems. The computational complexity of this set of problems (easy/hard to solve/approximate) will be discussed, and techniques for coping with intractable problems will be introduced. PREREQUISITE(S): CSC 421.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.
CSC 528
COMPUTER VISION
Graduate
Computer Vision techniques for analysis of patterns in visual images and videos of 2D and 3D scenes will be explored with the goal of interpreting, understanding, and reconstructing 3D scenes. Topics to be covered include image formation and representation, 2D and 3D feature extraction, camera calibration, reconstruction of depth based on stereo, shading, focus, texture, and geometry, object detection and tracking, motion analysis, analytical performance characterization, and 3D recognition of objects and scenes using statistical and model-based techniques. The course will be useful for students interested in computer vision related areas such as robotics, remote sensing, and medical imaging. A significant part of the course will be dedicated to the discussion of articles recently published in the literature.
PREREQUISITE(S): CSC 381 or CSC 481

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 529
ADVANCED DATA MINING
Graduate
The course is for students with prior background in data mining or machine learning techniques, and cover more advanced modeling techniques, including ensemble learning, extended linear models such as support vector machines, probabilistic graphical models, mixture and latent variable models, matrix factorization and link analysis. Application of the models will be presented in popular domains such as Web and social media analytics, text mining, crime analysis, community discovery, and health informatics. PREREQUISITE(S): CSC 424 and (at least one of IS 567, ECT 584, CSC 578, CSC 412)

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 531
INTRODUCTION TO BIOINFORMATICS
Graduate
An introduction to the field of Bioinformatics, which is computational modeling of biological and biochemical processes. Some programming in Java will be involved. Little biological knowledge will be assumed: any required will be taught in the course. Topics will include genomics, biological databases, sequence alignment (longest common subsequence), phylogenetic trees, and protein folding. Prerequisites: CSC 421 and SE 450

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 534
SOFTWARE DEVELOPMENT FOR LIMITED AND EMBEDDED DEVICES (Formerly 542)
Graduate
This course will focus on the unique aspects, tools, and techniques of developing software applications for limited and embedded devices, such as set-top boxes and smart cards. PREREQUISITE(S): SE 450.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 535
FORMAL SEMANTICS OF PROGRAMMING LANGUAGES
Graduate

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

CSC 536
DISTRIBUTED SYSTEMS II (FORMERLY SE 536)
Graduate
An intermediate course on distributed systems. Topics may include: clock synchronization; mutual exclusion; distributed transactions; consistency models; distribution and consistency protocols; failure models; achieving fault tolerance; distributed object-based systems; distributed file systems. PREREQUISITE(S): CSC 435 and CSC 309.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.
CSC 538  
VISION SYSTEMS  
Graduate

Visions Systems will cover the geometry of computer vision as well as a survey of working vision systems to include 1) Content-based Image Retrieval Systems; 2) Object Detection and Tracking Systems; 3) Medical Visual Systems; 4) Robotic Navigation Systems. PREREQUISITE(S): CSC 528

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 540  
MOBILE APPLICATION DEVELOPMENT II  
Graduate

This course will cover advanced topics in mobile and wireless application development. The topics covered will be made explicit by the course instructor when the course is offered. PREREQUISITE(S): CSC 471

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 541  
INTRODUCTION TO PROTEOMICS  
Graduate

Catalog description: An introduction to the field of Proteomics, continuing in more depth and detail from the prerequisite course Introduction to Bioinformatics. Proteomics is computational modeling of biological and biochemical processes related to the Proteome. The Proteome is the set of proteins expressed by a cell in a specific tissue at a specific point in its life. Some programming in Java will be involved. The only biological knowledge required is that taught in the prerequisite course. Topics will include mass spectrometry analysis of proteins, protein folding, and proteomic databases PREREQUISITE(S): CSC531

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 542  
RESEARCH PRACTICUM IN COMPUTATIONAL BIOLOGY  
Graduate

Catalog description: An advanced course in Bioinformatics that draws on and enhances the information learned in CSC 531 Introduction to Bioinformatics, CSC 541 Introduction to Proteomics, and on all computer science classes. The student will spend 15 hours each week during the quarter in the laboratory of a biological or biochemical research scientist at a suitable research laboratory determined by the instructor. The student will work in the biology research group performing the computational components. The student will be able to take this course several times, working in different types of laboratories. The course title in the transcript will reflect the work performed, and will be different each time this course is taken. PREREQUISITE(S): CSC531, CSC 541 AND permission of instructor

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 543  
SPATIAL DATABASES & GEOGRAPHIC INFORMATION SYSTEMS  
Graduate

This course considers how spatial databases work within a GIS, how data is structured, stored, indexed, retrieved, and displayed. Other topics may include fuzzy spatial databases, temporal spatial databases, and multiple criteria spatial decision making. The class will consist of hands-on work with commercial products, as well as investigating the state-of-the-art research in the field. Prerequisites: CSC 453.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 546  
OPERATING SYSTEMS DESIGN  
Graduate

A project/seminar oriented course examining the details of the design of operating systems. The ideas from CSC 446 will be extended and incorporated into the design details. PREREQUISITE(S): CSC443.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
CSC 547  
**ADVANCED TOPICS IN PROGRAM LANGUAGES**  
*Graduate*

A project-based course on advanced topics related to programming languages and programming environments. The course does not have any formal exams or homework assignments, but participants are expected to read papers on current research, actively participate in discussions, and complete a significant course project. **PREREQUISITE(S):** Permission of the instructor.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

---

CSC 548  
**ADVANCED COMPILER DESIGN**  
*Graduate*

Emphasis on practical problems in implementing compilers, data flow analysis, code optimization, error analysis. Discussion of compiler generators. As a class project, students will write a compiler. **PREREQUISITE(S):** CSC 448.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

---

CSC 549  
**DATABASE SYSTEM IMPLEMENTATION**  
*Graduate*

This is an advanced database course that covers issues in DBMS implementation. Topics covered in this course include: physical data organizations, indexing and hashing, query processing and optimization, database recovery techniques, transaction management, concurrency control, and security. **PREREQUISITE(S):** CSC 453

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

---

CSC 550  
**OBJECT-ORIENTED DATABASES**  
*Graduate*

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

---

CSC 551  
**DISTRIBUTED DATABASE SYSTEMS**  
*Graduate*

Distributed database architecture, distributed database design, distributed query processing, query decomposition and optimization of distributed queries, distributed transaction management and concurrency control, distributed DBMS reliability, distributed database operating systems. Distributed multibase systems. Client/Server database systems. **PREREQUISITE(S):** CSC 453 and (CSC 435 or TDC 425 or TDC 463)

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

---

CSC 552  
**CONCURRENT SOFTWARE DEVELOPMENT (Formerly SE 552)**  
*Graduate*

Fundamentals and techniques of developing concurrent object-oriented applications, using a patterns-based approach. Concepts covered include: threads, synchronization and object locking, thread blocking and deadlock, safety and liveness, state-dependent action and concurrency control. **PREREQUISITE(S):** SE 450 and CSC 374.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
CSC 553  
**ADVANCED DATABASE CONCEPTS**  
*Graduate*

An introduction to advanced selected topics in databases. The topics include: intelligent and deductive databases, temporal databases, multimedia databases, spatial and geographic databases, fuzzy databases, mobile databases, data mining and data warehousing, as well as emerging issues and concepts in database design, implementation and management. **PREREQUISITE(S): CSC 453.**

CDM graduate students in the Prerequisite Phase are restricted from registering for this class.

CSC 554  
**ADVANCED DATABASE MANAGEMENT**  
*Graduate*

In this class, we will discuss concepts, technologies, guiding principles, processes and best practices in managing database environment to meet high availability, scalability, and compliance needs. Organizations with business critical applications must reduce their risk of downtime, manage database environment efficiently and ensure data meets compliance requirements effectively. IT now has additional responsibilities to secure and manage information in alignment with legal, records management and regulations. This class explores methods and techniques to achieve the availability needs and also focuses on how to protect the database against disasters by maintaining multiple copies of the databases in separate locations, synchronized in real-time. Students learn to design and manage key business resumption functions including disaster recovery plans and business continuity plans. Data governance challenges will be discussed along with solutions including data life cycle management, preservation, retention, and disposition. **Prerequisite(s): CSC 453 or CSC 454**

CDM graduate students in the Prerequisite Phase are restricted from registering for this class.

CSC 555  
**MINING BIG DATA**  
*Graduate*

Introduction to fundamentals of distributed file systems and map-reduce technology (e.g., Hadoop); tuning map-reduce performance in a distributed network. Algorithms and tools for mining massive data sets and discussion of current challenges. Applications in clustering, similarity search, classification, data warehousing (e.g., Hive), machine learning (e.g., Mahout). **PREREQUISITE(S): (CSC 451 or CSC 453) and (IS 567 or ECT 584)**

CDM graduate students in the Prerequisite Phase are restricted from registering for this class.

CSC 557  
**FOUNDATIONS OF COMPUTER SECURITY (Formerly SE 547)**  
*Graduate*

This course provides an overview of foundational techniques in the specification and verification of computer systems in the presence of malicious attackers. Topics may include: formal models of interaction, attacker models, robust safety properties such as confidentiality and authenticity, information flow properties such as noninterference, and tools such as model checkers, type checkers and theorem provers. **PREREQUISITE(S): CSC 390 and CSC 416.**

CDM graduate students in the Prerequisite Phase are restricted from registering for this class.

CSC 559  
**SOFTWARE ENGINEERING FOR FINANCIAL MARKETS**  
*Graduate*

This course focuses on software engineering issues in creating a financial engine that drives automation and execution in a financial market. The course will cover different types of financial engines from back-office to front-office, exchange matching engines, data gathering engines, trading engines and straight through processing. The emphasis will be on the engines themselves rather than the financial models beneath them. Students will be required to work individually and/or in teams and create a financial engine. This is a project course and it will put students in the role of a domain architect who will need the skills required to communicate with financial traders and software engineers at the same time. **PREREQUISITE(S): (CSC309 or CSC262) and (CSC431 or CSC521 or CSC425)**

CDM graduate students in the Prerequisite Phase are restricted from registering for this class.
CSC 575  
INTELLIGENT INFORMATION RETRIEVAL  
Graduate
Examination of the design, implementation, and evaluation of information retrieval systems. The focus is on the underlying retrieval models, algorithms, and system implementations. Also examined is how an effective information search and retrieval is interrelated with the organization and description of information to be retrieved. Topics include: automatic indexing; thesaurus generation; Boolean, vector-space, and probabilistic models; clustering and classification; information filtering; distributed IR on the WWW; intelligent information agents; IR system evaluation; information visualization; and natural language processing in IR. Throughout the course, current literature from the viewpoints of both research and practical retrieval technologies both on and off the World Wide Web will be examined. PREREQUISITE(S): (CSC 301 or CSC 383) and CSC 374 OR Permission of Instructor.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 578  
NEURAL NETWORKS AND MACHINE LEARNING  
Graduate
A study of the basic structure of neural networks and how machines may learn. This will include analyses of decision trees, Bayesian learning, genetic algorithms, PAC, analytical and reinforcement learning. Neural networks to be studied include Hopfield, backpropagation, Kohonen, ART, and Neuro-Fuzzy. Students will explore current applications and design several learning systems. No prior background in artificial intelligence is assumed. PREREQUISITE(S): MAT 220 or MAT 262 or MAT 151.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 580  
DESIGN OF OBJECT-ORIENTED LANGUAGES (Formerly SE 580)  
Graduate
This course covers issues in the design and specification of object-oriented programming languages. Sample topics include the use of patterns in program representation, static and dynamic semantics, subject reduction, subtyping, inheritance, polymorphism, genericity and concurrency. PREREQUISITE(S): SE 450.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 582  
MACHINE LEARNING  
Graduate

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 583  
ARTIFICIAL INTELLIGENCE II  
Graduate
The course provides an in-depth coverage of advanced topics in Artificial Intelligence, including planning, reasoning with uncertainty, decision theoretic agents, constraint satisfaction and optimization problems, as well as selected topics of interest in knowledge representation, machine learning, and natural language processing. These topics are discussed in the context of design and implementaton of real-world intelligent agents. This course is suitable for advanced students with interest in further study in artificial intelligence and related topics, as well as those interested in the application of AI techniques in bulding systems with intelligent components. PREREQUISITE(S): CSC 480.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

CSC 587  
COGNITIVE SCIENCE  
Graduate
A study of the relationships between our knowledge of human and computer intelligence. Levels of analysis of intelligent system, examples of cognitive models, and exposure to current publications, with an emphasis on those related to human computer interaction. Students will participate in the design and testing of models of human intelligence, bother experimentally and using computer models. PREREQUISITE(S): CSC 301 or CSC 383 or HCI 460.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.
CSC 589
TOPICS IN DATABASE
Graduate
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit.
PREREQUISITE(S): Consult with the course instructor

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 590
TOPICS IN USER INTERFACES
Graduate
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit.
PREREQUISITE(S): Consult with the course instructor

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 591
TOPICS IN ALGORITHMS
Graduate
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit.
PREREQUISITE(S): Consult with the course instructor

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 592
TOPICS IN COMPUTER VISION AND PATTERN RECOGNITION
Graduate
This is an independent study course. May be repeated for credit. PREREQUISITE(S): Completion of the corresponding visual computing core sequence or consent of instructor.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 594
TOPICS IN ARTIFICIAL INTELLIGENCE
Graduate
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit.
PREREQUISITE(S): Consult with the course instructor

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 595
TOPICS IN COMPUTER SCIENCE
Graduate
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit.
PREREQUISITE(S): Consult with the course instructor

CSC 597
COMPUTER SCIENCE CAPSTONE
Graduate
In this class students will synthesize knowledge from previous courses to design, build, test, and demonstrate a sophisticated software project as members of a project team. Topics introduced or reviewed, and used in completing the project, will include software engineering (including requirements analysis and negotiation), planning, design, rapid prototyping, project management (and PM tools), implementation, system documentation, security, testing, and web presence. Other topics include reasoning about uncertain futures, negotiation, online meeting techniques, and group dynamics.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
CSC 598
TOPICS IN DATA ANALYSIS
Graduate
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit.
PREREQUISITE(S): Consult with the course instructor

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 599
INDEPENDENT STUDY
Graduate
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit.
PREREQUISITE(S): None.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 601
MASTER'S RESEARCH CONTINUATION
Graduate
Non-credit. This course is intended for master's degree students who have completed all course registration requirements and who are regularly using the facilities of the University for study and research, thesis or project completion. These students are required to be registered in this course each quarter of the academic year until all requirements have been completed. PREREQUISITE(S): Completion of required courses. Independent Study form required.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 672
DATA ANALYSIS WORKSHOP
Graduate
Statistical background needed for graduate study complemented with experience in data analysis using SAS. PREREQUISITE(S): CSC 671 or equivalent.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 690
RESEARCH SEMINAR
Graduate
Readings and discussion on current research topics. PREREQUISITE(S): Consent of the instructor.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

CSC 695
MASTER'S INDEPENDENT STUDY (1 - 4 CREDITS)
Graduate
Students interested in a more in-depth study of a particular area will register for this course and work with a faculty member (not necessarily their academic advisor) on a research project. The work involved may include system development, empirical studies, or theoretical work. 4 credit-hours of CSC695 replace one 500-level CS elective course in the MS in CS program and can be taken for up to 8 credit-hours.
PREREQUISITE(S): Consent of research advisor. Independent study form required. Students must successfully complete the Core Knowledge Phase courses prior to their first enrollment in CSC 695.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
A student who has made a significant contribution to a research project, through work done in two quarters of CSC 695 (8 credit-hours), may choose to complete the Master's Research option. At the end of the two quarters, the student must submit a technical report detailing the results of the research project. This report must be approved by the student's research supervisor and the faculty advisor, at which point it will be made available to the public as a CDM Departmental Master's Research Technical Report. In that case, the student will be allowed to register for this course. The transcript will show the Research project title as the course topic. PREREQUISITE(S): CSC 695 taken twice and approval of report by student's research supervisor and faculty advisor.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

In cooperation with local employers, the graduate program offers students the opportunity to integrate their academic experience with on-the-job training in computer related work areas. This course is offered for one credit and admission to the program requires consent of a Student Services Advisor. International students may complete curricular practical training through this class.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

A student who has made an original contribution to the area (through work done in CSC 695 typically but not necessarily) may choose to complete a Master's Thesis. The student and the student's research advisor should form a Master's Thesis Committee of 3 faculty. The student will need submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis. In that case, the student will be allowed to register for this course and the transcript will show the thesis title as the course topic. The thesis will be made available to the public as a CDM Departmental Master's Thesis Technical Report. PREREQUISITE(S): Successful defense of a Master's Thesis.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

PREREQUISITE(S): One to 12 hours per quarter. A total of 12 hours is required.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

Non-credit. Students admitted to candidacy for the doctoral degree who have completed all course and dissertation registration requirements and who are regularly using the facilities of the University for study and research are required to be registered each quarter of the academic year until the dissertation and final examination have been completed. PREREQUISITE(S): Admission to Candidacy. Independent Study form required.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

Non-credit. This registration provides for doctoral candidates who have been admitted to candidacy who are not in residence and need only occasional use of University facilities, including the libraries. PREREQUISITE(S): Admission to Candidacy. Independent Study form required.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
CSL 95  
CLINICAL ORIENTATION  
Graduate  
Students will be oriented to the expectations and requirements of the practicum and internship experiences in Human Services and Counseling.

CSL 96  
CLINICAL APPLICATION  
Graduate  
This milestone course ensures that all students have met the requirements clinical placement.

CSL 97  
CLINICAL PLACEMENT  
Graduate  
This milestone course ensures that students have secured a clinical placement that fulfills all requirements for Human Services and Counseling Program.

CSL 200  
LEADERSHIP AND SOCIAL CHANGE  
Undergraduate  
This is an advanced course exploring how leadership theory interacts with organizational structures, advocacy, and social justice. The class is structured to expand from the individual to the group/organization/school level to the societal macro view of leadership. The topics of leadership development and leadership education in P-16 settings will be included. Contemporary topics in leadership will be addressed to coincide with social change and leadership. (Cross listed with CSL 200 & 500)

CSL 451  
LEGAL AND ETHICAL ISSUES IN COUNSELING  
Graduate  
Professional counseling involves an interplay of ethics, personal values and legal implications of practice. This course initially attempts to focus on personal values and allows for the student to reflect upon his/her personal value systems. Several ethical codes related to the profession are studied so that the students will have the knowledge of professional ethical practice. An examination of local and federal laws regarding the interplay of these three components will be examined. The students, in the course, will engage in small groups, value clarification exercises, role-playing with lectures, video technology and guest speakers.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

CSL 452  
INTRODUCTION TO THE COUNSELING PROFESSION  
Graduate  
Upon completion of this course each student will be able to: 1) analyze human service organizations in terms of their mission, vision, beliefs, currents goals and strategies, organizational culture, organizational structures and leadership; 2) utilize visionary, strategic and operational planning processes to develop and organize a human services organization; 3) design various assessments of service outcomes of human services organizations; and 4) judge his or her effectiveness as a member of both a learning community and planning team.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

CSL 454  
CAREER COUNSELING  
Graduate  
Ways to assist the individual to choose, prepare for and progress in a career. Vocational testing, sources for occupational information are described. Computer guidance programs designed for career exploration will be studied. Also, the study of vocational behavior in relation to career patterns with special attention to the analysis of empirical data and theories pertaining to vocational choice will be considered.

CSL 501 and status as an Advanced Masters Education student are a prerequisite for this class.
CSL 458  
GROUP COUNSELING  
Graduate  
Study and ethics of group process, group theories, problems such as conflict resolution, leadership and membership styles re-examined. The class engages in a regular group experience. Opportunity to observe and participate in group work is provided. Criteria and formulation for conducting workshops with group process is considered.

CSL 451, CSL 452, CSL 467, CSL 501, CSL 510 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 461  
TESTING AND APPRAISAL  
Graduate  
Detailed analysis of intelligence, aptitude, personality, and achievement tests used with groups and individuals. The course is intended to familiarize students with various appraisal procedures and their utilization. Attention is given to the development of the institutional testing program.

SCG 410 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 466  
ASSESSMENT AND TREATMENT OF CHEMICAL DEPENDENCY  
Graduate  
This course seeks to develop skills and understandings relevant to the assessment and treatment of chemical dependency. The major alternative assessment approaches and treatment interventions for chemical dependency are surveyed and analyzed.

CSL 451, CSL 452, CSL 467, CSL 501, CSL 510 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 467  
COUNSELING THEORIES  
Graduate  
The purpose of this course is to review counseling theories from affective, non-directive approaches to cognitive and behavioral approaches. The humanistic and existential frameworks in counseling will be reviewed. Techniques and process derived from these various counseling frameworks will be used in classroom laboratory experiences with use of follow-up videotaping assignments. Models of normalcy as well as knowledge and use of the DSM IV-R (2000) and review of psychopathology, highlighting neurotic personality disorders will be considered. In counseling children, play and art therapy processes will be applied.

CSL 451, CSL 452 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 475  
CAREER COUNSELING FOR SCHOOL COUNSELORS  
Graduate  
This course will provide an introduction to career counseling in a school context. Focus will be on increasing students' knowledge of the world of work, career theories, and related life influences. The ASCA model for K-12 programs and interventions will be integrated throughout this course.

CSL 501 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 489  
PSYCHOPATHOLOGY  
Graduate  
This course will focus on a continuum of mental health with an emphasis on neurotic and psychotic deviations. Specific models and methods for assessing mental status, identification of abnormal, deviant or psychopathological behavior will be presented. The use of DSMIV-R (2000) ad Zero to Three Diagnostic Classification with its diagnostic categories will be utilized for assessment methodology. Specific attention will be given to diverse cultural perspectives in diagnosis and assessment.

CSL 510 and status as an Advanced Masters Education student are a prerequisite for this class.
CSL 490
FOUNDATIONS OF STUDENT AFFAIRS
Graduate
The course examines historical and philosophical elements relative to the role of student affairs in higher education as well as the impact of changing demographics on current trends pertinent to the management of student affairs. The course also provides students with theoretical and practical knowledge about organization structure, services, and faculty/staff/administrative functions in student affairs.

CSL 451 and CSL 452 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 491
CONTEXTUAL DIMENSIONS OF COLLEGE STUDENT DEVELOPMENT
Graduate
This course will examine the impact of institution mission and state and national policies on access, retention and graduation rates. Organizational change, decision making and conflict resolution strategies will be explored within the context of strategic planning, organizational structure and leadership styles and management. Personnel selection, management theories and performance evaluations will also be studied. Various assessment practices will be reviewed and analyzed. Within this framework, student demographics, campus culture and student development theory (traditional and contemporary) will be examined.

CSL 490 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 492
PROGRAM DEVELOPMENT IN STUDENT AFFAIRS
Graduate
This course will explore models for designing, managing, and evaluating student affairs programs, including the use of technological applications. Students will become familiar with models and methodologies of program development and implementation in higher education and will understand how to use professional standards and other resources for program development.

CSL 491 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 500
LEADERSHIP AND SOCIAL CHANGE
Graduate
This is an advanced course exploring how leadership theory interacts with organizational structures, advocacy, and social justice. The class is structured to expand from the individual to the group/organization/school level to the societal macro view of leadership. The topics of leadership development and leadership education in P-16 settings will be included. Contemporary topics in leadership will be addressed to coincide with social change and leadership. (Cross listed with CSL 200 & 500)

CSL 501
COUNSELING SKILLS
Graduate
This course examines oral communication skills as a dynamic in human relations. Through videotapes, role-playing and a variety of activities and experiences, students will explore ways to improve their own communication and counseling skills using the Ivey intentional interviewing approach. Feedback is given to the students, both in laboratory classroom exercises and in viewing videotape sessions. Skills emphasized include perception, verbal and nonverbal language, accurate and empathetic listening skills, focusing, thematizations, confrontation, conflict resolution and a process of directionality for change.

CSL 451, CSL 452 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 510
MULTICULTURAL COUNSELING
Graduate
This course will assist students in understanding the need for formulating and implementing counselor/consultant roles with diverse communities. Attention will be on the students' integration of awareness, knowledge, attitudes, insights, and cultural identities. Moreover, students will develop the skills and expertise necessary for effective counseling and collaboration in a multicultural milieu.

CSL 452 and status as an Advanced Masters Education student are a prerequisite for this class.
CSL 511
SUPERVISION
Graduate
This course will be an introduction to the theory and practice of supervision in the counseling profession. There will be a focus on the basic skills necessary for effective supervision of counselors.

CSL 458 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 512
CRISIS INTERVENTION
Graduate
This course will provide students with an understanding of the individual in crisis. Focus will be on the common characteristics and manifestations of crisis and address methods and techniques of crisis intervention.

CSL 451, CSL 452, CSL 467, CSL 501 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 513
CONSULTATION FOR COUNSELORS
Graduate
This course will focus on the theory, techniques, practice and skill development needed to effectively provide consultation in communities and schools. Emphasis will be on the application of consultation and the role of the consultant.

CSL 458 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 514
CRISIS INTERVENTION FOR SCHOOL COUNSELING
Graduate
This course will provide students with an understanding of principles of crisis intervention and crisis management with a focus on the school setting. Working with individuals and groups in crisis is significantly different than typical counseling situations, both in the characteristics of the clients and in the types of intervention strategies employed. Graduates working in community, school, and higher education settings will encounter many situations where crisis intervention skills are necessary. This training will increase their knowledge and skills of crisis intervention strategies.

CSL 451, CSL 452, CSL 467 and CSL 501 and status as an Advanced Masters Education students are a prerequisite for this class.

CSL 519
SPECIAL EDUCATION: LEGAL AND PROFESSIONAL ISSUES FOR SCHOOL COUNSELORS
Graduate
This course will introduce students to special education law including relevant statutes, cases, and regulations. Students will also learn about the development, monitoring, and implementation of IEPs. In addition, this course will address the student counselor's potential role in the evaluation, referral, monitoring, and consultation of student with special needs.

CSL 451, CSL 452 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 520
COUNSELING CHILDREN AND ADOLESCENTS
Graduate
This course will consider the theoretical foundations of working with children and adolescents. It will address developmentally appropriate counseling perspectives and interventions. Emphasis will be on the child/adolescent in various systemic contexts, family as consultant and collaborator, multicultural factors, specific child/adolescent problems, and resiliency. In addition, professional issues will be addressed.

CSL 458 and status as an Advanced Masters Education student are a prerequisite for this class.
CSL 521
CONTEXTUAL DIMENSIONS OF SCHOOL COUNSELING
Graduate
This course will address the role of the school counselor and provide an understanding of the coordination of counseling program components as they relate to the school and the wider communities. Students will explore the various roles of the school counselor as advocate, coordinator, teacher, programmer, consultant, information and referral agent, and counselor. The ASCA developmental approach to school counseling will be introduced and integrated throughout.

CSL 451 and CSL 452 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 522
DELIVERY OF COMPREHENSIVE DEVELOPMENTAL SCHOOL COUNSELING PROGRAMS
Graduate
This course will focus on the comprehensive development, delivery, and evaluation of school counseling programs based on the "Best Practices" model of the state and the three ASCA model domains: academic development, career development, and personal/social development. Students will learn strategies to integrate school counseling programs into the total school curriculum, to promote the use of counseling activities and programs, to plan for and present school counseling-related educational programs, and to gain knowledge of prevention and crisis intervention strategies.

CSL 521 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 523
LEARNING AND CLASSROOM MANAGEMENT FOR SCHOOL COUNSELORS
Graduate
This course will explore learning frameworks in education such as constructivist approaches, social-cultural learning, and the zone of proximal development as well as behavioral learning contracts. The history of learning approaches will be covered particularly in the 19th and 20th centuries to assist the school counselor in relationship to educators in the school community. Classroom management models and theories of inner discipline and consistency management will be discussed so that the school counselor will be able to assist educators and parents in home-school management of youth.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

CSL 552
PRACTICUM IN COUNSELING
Graduate
The practicum course is the initial clinical experience for the CSL student. The student begins to see her- or himself as a counselor-in-training in an actual counseling setting and will develop and continue to work on mastery of counseling skills in a clinical setting. The practicum requires a minimum of 100 clock hours during the quarter.

CSL 553
INTERNSHIP IN COUNSELING I
Graduate
After the completion of fifteen courses, and consultation with one's advisor, the student-intern is assigned to an early childhood setting including schools, agencies, centers for young children. The student-intern functions under the joint supervision of a professionally qualified setting supervisor and a University clinical experience director for 150-300 clock hours of internship experience. A structured contract will include structured experiences expected of the student from both the setting and the University, signed by all parties, and used as an evaluative tool for the internship. During the internship the student-intern will complete a thesis/research project as part of the requirement for the Master of Arts degree. The thesis/research project is approved jointly by the internship supervisor and clinical experiences director. Ongoing reflective seminars will be part of the internship experience related to early childhood topics and counseling skills and processes.

CSL 552 and status as an Advanced Masters Education student are a prerequisite for this class.

CSL 554
INTERNSHIP IN COUNSELING II
Graduate
This course is a continuation of Internship I. The student-intern continues with 150-300 clock hours experience under supervision of the setting supervisor and University clinical experience director using a structured contract. The thesis/research project using action-oriented research processes is completed and orals are required for the student seeking an M.A. degree.

CSL 553 and status as an Advanced Masters Education student are a prerequisite for this class.
CSL 556
COUPLES AND FAMILY COUNSELING
Graduate
This course focuses on providing theoretical formulations and practical illustrations applicable to the practice of marriage and family counseling. Students engage in role-playing, case study, and observation of counseling techniques. Skills expected in this course include understanding the process of marriage and family counseling and understanding the role of the counselor in the marriage and family setting. Students will learn to develop effective marriage and family strategies, and to conduct complete case analysis.

CSL 451, CSL 452, CSL 467, CSL 501, CSL 510 and status as an Advanced Masters Education student are a prerequisite for that class.

CSL 558
INDEPENDENT STUDY IN COUNSELING
Graduate
Permission of instructor, department chair and associate dean required.

CSL 559
THESIS RESEARCH IN COUNSELING
Graduate
A student writing a thesis registers for this non-credit course. Where the thesis research and the writing of the thesis itself are prolonged beyond the usual time, the program advisor may require the student to register for additional credit.

SCG 410, thesis, advanced Mast

CSL 600
REGISTERED STUDENT IN GOOD STANDING
Graduate
(0 credit) Registration is this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

CSL 625
CANDIDACY CULMINATING PROJECT (STUDENT IN GOOD STANDING)
Graduate
(0 credit) Registration in this course is required of all students who are not enrolled in a course but are completing culminating projects for their program of study, including theses, papers, and final portfolios. It provides access to university facilities. Permission of advisor required. Registration limited to three terms. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

CSS 101
CATHOLIC SOCIAL TEACHING AND REFLECTION
Undergraduate
CSS 101 is a mandatory year-long course sequence for all students serving as tutors at San Miguel schools and Visitation Catholic Elementary through the Stean’s Center Catholic Schools Initiative. Utilizing the pastoral cycle of “See, Judge, and Act” within the Catholic Social tradition, students will critically reflect on their tutoring experience as it relates to local economic, cultural and political issues surrounding the Englewood and Back of the Yards neighborhoods. In addition they will explore a variety of domestic and global justice issues through the lens of Catholic Social Teaching. Through this hermeneutic, they will gain a familiarity with terms and concepts to more thoroughly analyze and critique social systems. The students will also learn more about the Dominican and LaSallian charism towards marginalized populations and reflect on their own personal responsibility as members of a community bound to their religious mission. As a service-enhanced course, students will actively engage in critical reflection and dialogue on their tutoring experience through the use of readings, videos, guest speakers, group projects/presentations, and designated field trips to related organizations. Variable credit.

CSS 201
PERSPECTIVES ON COMMUNITY SERVICE
Undergraduate
This course explores the relationship between social justice movements and non-profit organizations in the U.S. by providing a structure within which students can learn about issues and theory and the organizational settings in which they are serving.
CSS 300
INTRODUCTION TO NON-PROFIT MANAGEMENT
Undergraduate
This course provides students with an understanding of the functioning of the organizations that conduct the vital work of the non-profit sector. Students will complete the course with the knowledge base to be effective program managers and board members in these organizations.

CSS 310
RESTORATIVE JUSTICE: ENGAGEMENT WITH THE PRISON
Undergraduate
This course will provide an opportunity for students to 1.) reflect deeply on the meaning of justice, 2.) examine institutionalized forms of justice, and, above all, 3.) explore alternative models of justice. Using a dialectic process, students will actively scrutinize theories of justice and investigate issues and movements of social justice. Additionally, they will be asked to consider how each of these areas informs the other, since theories often influence as well as emerge from issues and movements. Assumptions about crime and justice will be considered by comparing and contrasting retributive and restorative paradigms. The role of offender, victim and community will be analyzed in the context of crime and justice. Students will also look into programs in restorative justice to discern their outcome effectiveness.

CSS 320
COMMUNITY FOOD SYSTEMS
Undergraduate
This course offers a critical analysis of the concept of community food systems as it has been employed as an alternative to the global agro-food system. Readings, lectures, films, guest speakers, site visits, and field projects will provide students with an overview of emerging community-driven efforts at producing, distributing and consuming food. Emphasis will be placed on (1) local, community-based food projects within urban contexts in North America; (2) whether or not these projects constitute more environmentally, socially, and economically sustainable approaches to provisioning households, neighborhoods, towns and cities; and (3) the degree to which such projects enhance the control over, accessibility to, and healthiness of food. Students will gain an understanding of the current global food system in relation to producing, processing, packaging, transporting, marketing, eventually discarding of food. Comparisons will be drawn with emerging local production, distribution and procurement processes driven by the interests of community groups and organizations concerned with health and nutrition, the environment and social justice. There will be a specific focus on the application of community food systems in urban sectors where access to fresh food is challenged, for example, as a result of historical patterns of racial segregation and social exclusion. Students will gain an understanding of such challenges through engaging in field projects in support of local food production and distribution within Chicago communities.

CSS 390
SPECIAL TOPICS IN COMMUNITY SERVICE STUDIES
Undergraduate
Special topics in Community Service Studies are designed to cover emerging or specialized issues in community service, development, nonprofit management, and/or social and global responsibility.

CSS 395
COMMUNITY INTERNSHIP
Undergraduate
Community Internship exposes students to career potentials in non-profit and government agencies through an intensive internship experience in a community organization.

CSS 399
INDEPENDENT STUDY
Undergraduate
Independent study. Enrollment by instructor and/or with approval by program director. Variable credit.

CTH 110
THE CHRISTIAN EXPERIENCE
Undergraduate
An introductory course surveying the range of traditions that have emerged within the Christian movement, and offering an historical perspective on the life and thought of Christian communities, and their prospects for the future. Cross-listed as REL 110.
CTH 180
INTRODUCTION TO CATHOLICISM
Undergraduate
An examination of the breadth of the Catholic experience from a 1st-century Jewish religious movement to a 21st-century global religion.

CTH 182
THE LATINO RELIGIOUS EXPERIENCE IN THE UNITED STATES [CROSS-LISTED WITH REL 113]
Undergraduate
An examination of the diverse nature of Latino religion, from its indigenous roots to its institutional forms, within the social and political context of American culture. Cross-listed with REL 113.

CTH 183
THEMES IN CATHOLIC SOCIAL THOUGHT (CROSS-LISTED AS REL 183)
Undergraduate
An initial, systematic examination of major themes in modern Catholic social thought. Cross-listed as REL 183.

CTH 190
CATHOLICISM AND BIBLICAL INTERPRETATION (FORMERLY CTH 225)
Undergraduate
An historical and theological study of the ways in which the Scripture have been interpreted in the Catholic Tradition. In addition to the historical survey, the interpretation of particular texts (creation, resurrection, miracle stories, moral discourses, etc.) will be examined. Formerly CTH 225.

CTH 201
THE EXPERIENCE OF CATHOLICISM IN CHICAGO
Undergraduate
An experience-centered introduction to the Catholic Church in Chicago. Includes site visits.

CTH 202
GOOD NEWS: CATHOLICISM AND SCRIPTURE
Undergraduate
This course serves as an introduction to the content of the Old and New Testaments and to Catholic ways of reading Scripture in relation to the history of the early Church. The course will cover, for example, passages from Genesis, Exodus, the historical writings, the prophets, the Gospels, and the letters of Paul. The course will also treat questions of canon, interpretation, and the relation of Scripture to tradition.

CTH 203
A FAITH TO DIE FOR: CATHOLIC BELIEF
Undergraduate
This course will cover the basic elements of Catholic belief, following the pattern of the Nicene Creed. The course will deal with God, Jesus Christ, salvation, the Holy Spirit, the Church, sacraments, and the afterlife, as these ideas have been discussed and debated in classical, modern, and contemporary periods.

CTH 205
CATHOLICISM IN WORLD HISTORY I: JESUS TO 1500 (CROSS-LISTED AS REL 213)
Undergraduate
A study of the development of the Catholic Church from the time of Jesus to the Renaissance. Religious movements, piety and art as well as theology and ecclesiastical history will be examined.

CTH 206
CATHOLICISM IN WORLD HISTORY II: MODERN & POST-MODERN TIMES
Undergraduate
A study of the development of Catholicism since 1500 exploring the Catholic Reformation, Catholicism's encounter with the Enlightenment, the missionary movement and the Catholic Church in the United States.
DePaul University  Winter/Spring 2013  Page 1273 of 2244

CTH 209
THEORIES OF THE CHURCH: CONCEPTS AND CONTROVERSIES (CROSS-LISTED AS PSC 335)
Undergraduate
Introduction to several ecclesiologies that co-exist in Catholicism. Both historical and contemporary ecclesiologies will be considered. Cross-listed as PSC 335.

CTH 210
CATHOLIC SOCIAL TEACHING
Undergraduate
This course will introduce students both to the development of Catholic Social Teaching (CST) and the lived witness of social engagement by a variety of Catholics in varied contexts. The course will cover essential passages from Scripture (e.g., the Beatitudes, key sections of the Hebrew Bible), as well as the ongoing development of Catholic thought and practice in modern papal encyclicals and the Second Vatican Council. Witnesses who embody, challenge and contribute to Catholic Social Teaching will be explored; these may include, for example, Catherine of Siena, Bartolome de las Casas, Vincent DePaul, Louise DeMarillac, Dorothy Day, and Oscar Romero.

CTH 212
ANCIENT ISRAEL: HISTORY, LITERATURE AND RELIGION (CROSS-LISTED AS REL 232)
Undergraduate
The development of Judaism from Moses to the Rabbinic era with special attention to social and historical questions. Cross-listed with REL 232.

CTH 213
THE NEW TESTAMENT (CROSS-LISTED AS REL 233)
Undergraduate
A critical investigation of the New Testament. Topics include the earliest Christian writings (letters of Paul), the production of "gospels" about Jesus, and the development of early churches in the context of ancient history and society. Cross-listed with REL 233.

CTH 214
THE HISTORICAL JESUS (FORMERLY CTH 311, CROSS-LISTED AS REL 238)
Undergraduate
An investigation of the early Christian Gospels and other sources for reconstructing the life of Jesus of Nazareth. The relation of historical reconstruction and religious interpretation, and the significance of conflicting interpretations of Jesus, will also be considered. Cross-listed as REL 238.

CTH 215
VARIETIES OF EARLY CHRISTIANITY (CROSS-LISTED AS REL 234)
Undergraduate
An examination of multicultural diversity in early Christianity through a study of materials excluded from the New Testament canon; Christian apologists defending the church against pagan intellectuals and Roman imperial magistrates; comparisons of early Christian fiction and ancient Greek novels; and an examination of Gnostic writings. Cross-listed as REL 234.

CTH 216
PAUL AND HIS INFLUENCE IN EARLY CHRISTIANITY (CROSS-LISTED AS REL 235)
Undergraduate
A critical study of Paul's literary remains as primary sources for reconstructing the development of the Christian movement, focusing on Paul's communities, ethics and theology. Early interpretations and assessments of Paul will also be considered. Cross-listed as REL 235.

CTH 220
CATHOLIC EXPERIENCE I: EARLY CHURCH - 1200
Undergraduate
This course is an introduction to the history of the Catholic Church and the evolution of Christian thought and practices, from the early Church to the thirteenth century. The course will not include only institutional history but also ecclesiastical, cultural, and social history of Catholicism in relation to foundational theological and spiritual texts written in this period. Main topics: The Early Church; Councils and Heresies; Missions in Northern Europe; Charlemagne, Carolingians and a new Roman Empire; Monasticism; Eastern Orthodoxy; Christianity and Islam (the Age of the Crusades); the Mystical Tradition; the Investiture Controversy.
CATHOLIC EXPERIENCE II: 1200 - FRENCH REVOLUTION
Undergraduate
This course provides an overview of the history of Catholicism and its interactions with institutional, political, and social history from 1200 to the French Revolution. The main topics of the class are the origin of the Universities and Scholasticism; Mendicant Orders and their impact on the Medieval Society; the Challenges to Papal Monarchy; Humanism and Erasmus; the impact of the Age of the Reformation; the Council of Trent; the geographic discoveries and the New Worlds; the Enlightenment and the Scientific Revolution; the Catholic Church and the French Revolution.

CATHOLIC EXPERIENCE III: FRENCH REVOLUTION - PRESENT
Undergraduate
This course will offer a survey of the political, cultural and intellectual history of the Catholic Church from 1789 through the early twenty-first century. It will include discussions of the Catholic Church in relation to the French Revolution; the Catholic Church and the formation of modern nation-states (including, inter alia, the unification of Italy and the German Kulturkampf); the relation between the Church and Liberalism; intellectual movements like theological Modernism and ressourcement theology; the First Vatican Council; the Church, Fascism and Communism; the Second Vatican Council; the Emergence of a Global Church, Latin American Liberation Theology, and more.

THE SECOND VATICAN COUNCIL
Undergraduate
A detailed exploration of the history, issues, personalities, theologies and results of Vatican II studied against the backdrop of modernity and post-modernity.

CHRISTIAN PREACHING AS COMMUNICATION (CROSS-LISTED AS CMN 221)
Undergraduate
Rooted in Catholic tradition but inclusive of the call for all Christians to proclaim the Good News. This class explores preaching as a graced communication and, in addition to transactional and theological communication theory, examines the preacher's: call, spiritual formation, present mandates and future potentials, scripture study fundamentals and presentational approaches. The course provides opportunities for in-class, on-campus, and off-campus preaching and observation experiences as well as listener feedback and diversity education.

ROMAN CATHOLIC SPIRITUAL LITERATURE (CROSS-LISTED AS REL 282)
Undergraduate
A study of the foundational religious experiences that underlie the Roman Catholic tradition, of the narratives they generate, and of their representations in various media such as poetry, music, myths, sacred legends and apologetic stories. Cross-listed with REL 282.

MEDIEVAL MYSTICS IN EUROPE: 1000-1600 A.D. (CROSS-LISTED AS HST 213)
Undergraduate
The evolution of theories and experiences of human union with God, and of varied Christian spiritual paths and practices as described in mystical literature, saint's lives, religious art and music. Emphasis on the monastic, urban and courtly institutional context of the documents. Cross-listed with HST 213.

CATHOLICISM AS A SPIRITUAL PATH (CROSS-LISTED AS REL 284)
Undergraduate
An experience-centered study of the relationship between contemplation and action, prayer and service, liturgy and social justice, personal religious experience and the wider experience of Catholics. Both historical as well as contemporary spiritualities will be explored. Cross-listed as REL 284.
This course centers on the question of the relationship between reason and faith, between as it were thinking and God. According to the Catholic tradition, reason's search for wisdom initiated by such classical thinkers as Plato and Aristotle is fulfilled in Christian faith. As such, it regards philosophy as a mode of reflection that holds God as the source of all being and action and brings multiple disciplines together into a lived synthesis. (Vision Statement, Department of Catholic Studies). This holistic vision entails theses regarding the character of reason as open to theology and faith as an extension of reason. It entails the Christian doctrines of the Logos, the Trinity, revelation, and sin. It requires careful considerations of the human person's powers of intellect and will. It extends to considerations of the relationship between the theological virtues of faith, hope, and charity that in turn extend to all of the moral life. And it must offer an account of reasonableness that begins to answer the challenges of Nominalism, the Reformation, the Enlightenment, and postmodernity. Possible topics of a more interdisciplinary nature include the public/private distinction, the compatibility of science and religion, and the validity of truth claims in a pluralistic world.

CTH 231
ROMAN CATHOLIC LITURGY (CROSS-LISTED AS REL 281)
Undergraduate
A study of the emergence, meaning and dynamics of community, and of the interaction between community and ritual in the Roman Catholic tradition. Cross-listed as REL 281.

CTH 232
INTRODUCTION TO LITURGY
Undergraduate
Basic issues and elements of Christian liturgy with special attention given to the liturgical documents of the Roman Catholic Church. Required lab sessions on dates announced at the beginning of the quarter. Taught at Catholic Theological Union.

CTH 233
LA MORENITA DE CHICAGO: FAITH, CULTURE AND IDENTITY IN MEXICAN CATHOLICISM
Undergraduate
The course will enable the students to "read" the image of Our Lady of Guadalupe in distinct contexts, especially in the light of the struggle of the Mexican Catholic community in Chicago and will allow them to think and write about the image of la Morenita de Chicago (an affectionate term used by Mexican-Americans to refer to the image that literally translates as "the brown-skinned woman of Chicago"). The learning process will lead to an integration of varied personal experiences, guided theological reflection, and the common study of history, art, culture, and politics.

CTH 238
ANCIENT PHILOSOPHY
Undergraduate
A study of selected thinkers and issues from ancient Greece. Cross-listed with PHL 293.

CTH 239
MEDIEVAL PHILOSOPHY (CROSS-LISTED AS PHL 294)
Undergraduate
A study of selected thinkers and issues from the Medieval period. Cross-listed as PHL 294.

CTH 240
TOPICS IN CATHOLIC THOUGHT
Undergraduate
A study of selected topics and controversies.

CTH 241
ROMAN CATHOLIC MORAL TRADITIONS (CROSS-LISTED AS REL 287)
Undergraduate
This course examines various moral topics within a Roman Catholic framework. Papal pronouncements, Magisterial statements, Episcopal texts, the works of influential theologians, and critical voices both within and beyond the Church will be critically examined. Special attention will be paid to the method of moral argumentation. Cross-listed as REL 287.
CTH 242
PHILOSOPHICAL THEOLOGY (CROSS-LISTED AS PHL 244)
Undergraduate
A survey of the interaction between philosophy and Christian theology.

CTH 243
ROMAN CATHOLIC THEOLOGICAL THINKING
Undergraduate
A study of the Roman Catholic tradition of “faith seeking understanding” examining the content and the process of emergence of Catholic beliefs about such matters as God, sin, Jesus Christ, revelation, the church and eschatology. Cross-listed with REL 280.

CTH 244
DEBATES ABOUT GOD
Undergraduate
A study of classical and contemporary arguments regarding the existence and meaning of "God" as developed in a variety of theistic traditions. Cross-listed as REL 200.

CTH 245
INTRODUCTION TO THEOLOGY
Undergraduate
A consideration of the nature, sources and methods of theology from a study of several case histories. Special emphasis on historical revelation in Christianity and the developing awareness of faith in relation to shifting horizons. Taught at Catholic Theological Union.

CTH 246
INTRODUCTION TO CHRISTIAN ETHICS
Undergraduate
This course is an introductory study of the basic themes of Christian ethics. Particular attention will be paid to the Roman Catholic moral tradition, including such topics as the virtues, the natural law, moral decision-making and narrative.

CTH 247
ROMAN CATHOLIC SOCIAL THOUGHT IN CONTEXT (CROSS-LISTED WITH REL 283)-
Undergraduate
A study of Roman Catholicism's understanding of its relation to the social world, including such matters as the relation between Church and state, and the moral authority of the Church, and of its teaching on such issues as social ethics, politics and economics.

CTH 248
CONTEMPORARY MORAL ISSUES
Undergraduate
A study of the relations between religious beliefs and moral action to be carried out through an examination of the ethical and moral response of Catholicism to selected moral issues such as war and peace, sexual behavior, etc.

CTH 249
NATURE, COSMOS AND GOD: CATHOLICISM AND SCIENCE
Undergraduate
A constructive correlation of Catholic thought and contemporary scientific theory about the origins and development of the universe. Modern and contemporary cosmologies will be put into dialogue with Christology, Trinity and Incarnation. A particular concern will be today’s environmental crisis and an authentically Christian response.

CTH 250
ART IN THE SPANISH AMERICAN EMPIRE (CROSS-LISTED W/ HAA 246)
Undergraduate
This course offers a critical survey of the art of colonial Latin America (circa 1520s-1820s), from the Caribbean to Mexico, Central America, and South America. Framed by the Spanish Conquest of the 16th century and Independence in the early 19th century, lectures will survey state-sanctioned arts of the Iberian colonizers, including the foundations of the Catholic Church across the “New World” landscape. Race will be a frequent issue of discussion as we consider both indigenous American and African participation in social realities and artistic practice in this colonial context. Cross-listed with HAA 246.
**CTH 251**  
**CATHOLIC THEMES IN CONTEMPORARY CINEMA**  
**Undergraduate**
This course will explore and examine the interaction of Catholic themes, symbols, and images through Hollywood and foreign films. Students are required to analyze films outside of class, give oral presentations, and compose papers on selected films.

**CTH 252**  
**BYZANTINE ART (CROSS-LISTED WITH HAA 234)**  
**Undergraduate**
This course will explore the art of the Byzantine Empire from the founding of Constantinople in A.D. 330 to the fall of the city to the Ottomans in 1453. Lectures and readings will primarily focus on how contemporaries understood and interacted with a diverse group of monuments and objects now classified as Byzantine art. Significant attention will be devoted to how works of art functioned in the service of imperial and ecclesiastical ideology. Discussions will analyze how Byzantine art was appreciated and appropriated in both the medieval Mediterranean and in modern scholarship. Cross-listed with HAA 234.

**CTH 253**  
**EARLY MEDIEVAL ART (CROSS-LISTED AS HAA 231)**  
**Undergraduate**
This course explores the art of the Medieval period from a broad range of cultures: Early Christian, Byzantine, Islamic, Carolingian, and Ottonian. We will discuss major stylistic trends and explore the relationship between art, culture, and religion. Works of art will be evaluated in terms of their social functions in the societies that produced them and our analysis will incorporate the perspectives of both the producers (patrons, artists) and consumers of art. Cross-listed as HAA 231.

**CTH 254**  
**LATE MEDIEVAL ART**  
**Undergraduate**
This course will explore the art of the late Medieval period from a broad range of cultures and styles: Byzantine, Romanesque, Gothic, and Islamic. We will discuss major stylistic trends and explore the relationship between art, culture, and religion. Works of art will be evaluated in terms of their social functions in the societies that produced them and our analysis will incorporate the perspectives of both the producers (patrons, artists) and consumers of art. Cross-listed as HAA 232.

**CTH 255**  
**ANCIENT AND MEDIEVAL ART (CROSS-LISTED AS ART 235)**  
**Undergraduate**
A survey of the principal works of architecture, sculpture, painting and the industrial arts created in the Mediterranean basin and in Europe from the Byzantine through the Gothic age.

**CTH 256**  
**ITALIAN RENAISSANCE ART (CROSS-LISTED AS HAA 237)**  
**Undergraduate**
This course provides an overview of the history of Italian Renaissance art and architecture in Italy's primary centers of artistic production. Cross-listed as HAA 237.

**CTH 257**  
**BAROQUE ART (CROSS-LISTED AS HAA 238)**  
**Undergraduate**
Starting in 1600, from the vantage point of the Counter-Reformation and the rise of modern European states, Baroque Art covers the principal works of art & architecture; artists and patrons; and a wide sweep of social, religious, and political, conditions that impacted cultural thinking and production in the 17th century. Attention is focused on the most prominent artistic centers in Italy, the Spanish Netherlands, England, Spain, the Dutch Republic, and France. The in-class lectures with discussion are accompanied by field work to the Baroque collections of the Art Institute of Chicago. Cross-listed as HAA 238.
CTH 258
NORTHERN RENAISSANCE ART (CROSS-LISTED AS HAA 236)
Undergraduate
This course features the most significant works of art, their artists & patrons, the social & economic aspects of artistic production, and the dominant cultural issues that flowed brilliantly in Northern Europe - above all, in France, the Netherlands, Bohemia, and German-speaking lands - between 1300 and 1600, that is, during the volatile period of the Renaissance & outbreak of the Protestant Reformation. And although Flemish oil painting offers the most evident legacy of the Northern Renaissance to the casual museum visitor, this course also introduces the most important outputs in printmaking; sculpture; and the industrial arts, as in tapestry weaving and the fabrication of luxury articles in metalwork.

CTH 259
THE ART AND ARCHITECTURE OF CATHOLICISM IN CHICAGO
Undergraduate
An experience-centered study of Catholic art and architecture. The history, ethnic origins and theology of the pieces will be considered.

HAA 130 is a prerequisite for this course.

CTH 260
ART, LITURGY AND LIFE
Undergraduate
This class examines how beauty and its antithesis, ugliness, permeate Catholic life and thought. Students will be introduced to the topic by considering examples from a variety of media, including ritual, painting, sculpture, architecture, crafts, and mural art. The students will learn not only how works of art accompany the performance and celebration of worship but also how Christians have learned to discern the living presence of the incarnate form of the divine Word within both art and liturgy. This course will demonstrate with concrete examples how art in Catholicism is the nexus that joins spirituality and liturgy. Theoretical orientation can be gleaned from the Christian theological tradition (St. Augustine, Hans Urs von Balthasar), Christian aesthetic theory (Jacques Maritain, Flannery O'Connor, Walker Percy, or Alejandro Garcia Rivera), liturgical reformers (Odo Cassel, Louis Bouyer, or Virgil Michel), or the document of Vatican II on liturgy, namely, Sacrosanctum Concilium.

CTH 261
CATHOLIC FAITH AND MUSICAL EXPRESSION
Undergraduate
An investigation of the relationship between Catholic life and music. The development of Catholic service music (masses, canticles, hymns, motets, etc.) as well as religious choral works may be studied.

CTH 264
CATHOLICISM AND LITERATURE
Undergraduate
This course will offer a broad introduction to some of the most important works of Catholic literature over an expansive temporal and geographic ambit. The course introduces poetry, fiction and essays by men and women from diverse cultural, political, linguistic and social points of departure. The students will think through the various ways in which Catholicism has engaged the creative faculties of diverse artists - most of whom are Catholic, but some of whom (e.g., Dostoevsky, Fermor) are not, even as they write extensively about Catholicism. As a result of the course, the students will be able to think about diverse literary genres and traditions in relation to Catholic faith, history and practice. They will also be given instruction in the terminology and techniques most useful for the textual analysis of literature, from the terms used to describe prosody to learning about the various novelistic genres presented in the course.

CTH 265
LITERATURE AND THE SACRED
Undergraduate
How human beings across cultures express their intimations of ultimate meaning in a variety of genres ranging from aphorisms and autobiographies to mythic and fictional narratives.

CTH 270
JESUS ACROSS CULTURES (CROSS-LISTED AS REL 273)
Undergraduate
A study of the multiple and diverse (primarily theological, but also literary, artistic and philosophical) historical and contemporary images of Jesus, as a way of understanding the diversity of the Christian tradition and its impacts on society, and of understanding the issue of plurality or diversity itself in religious traditions. Cross-listed with REL 273
CTH 271
ROMAN CATHOLICISM'S ENCOUNTER WITH OTHER RELIGIONS
Undergraduate
A study of how Roman Catholicism understands and responds to other religious traditions, other ways of being religious, and how the encounter with those other traditions affects Roman Catholicism's understanding of itself and its teachings. Cross-listed with REL 285.

CTH 273
Undergraduate
This course traces the developments of the Catholic Church from the missionary enterprise to the position of a major social, political and economic institution. The course will examine the manner in which the hierarchical institution of the Catholic Church has related to the Liberal ideal of American Democracy. Cross-listed with HST 243.

CTH 274
IRELAND: RELIGION AND THE CONTEMPORARY "TROUBLES"
Undergraduate
An examination of the role of two Christian denominations (Protestant and Roman Catholic) in the more recent "Troubles" in the north of Ireland. Attempts to discover the contributions of religious differences in fueling and resolving the animosities between the Unionist and Republican sides; studies the social-historical dimension of the troubles and the Protestant and Catholic religious activities and official responses to them.

CTH 275
MEDIEVAL PEOPLE: 400 TO 1400 A.D. (CROSS-LISTED AS HST 210)
Undergraduate
The important components of European society during the Middle Ages, including rulers, knights, and peasants, churchmen and nuns, urban merchants, intellectuals, and artisans. Who were these Medieval people, what differentiated them, how did they interact with each other, and how and why did these interactions change over time?

CTH 276
CATHOLICISM IN AFRICA
Undergraduate
An exploration of issues regarding the inculturation of Catholicism in Africa. Theological (Christology, authority, gender, the nature of marriage) and pastoral (style of worship, education, sacramental theology) issues may be examined.

CTH 279
CATHOLICISM AND THE FAMILY
Undergraduate
An historical and theological study of the family in Catholic life and thought. Images of family life in contemporary film and literature will be given special consideration.

CTH 280
RELIGION AND EDUCATION IN WESTERN CULTURE (CROSS-LISTED AS LSE 250)
Undergraduate
A study of the relationship between Catholicism and education in Western culture. The historical relationship between Catholic faith and educational institutions will be studied. A major part of the course will explore the theological meaning of education with special attention to the issues of freedom and indoctrination, moral education, authorities in education and issues of the modern Western university.

CTH 282
GOD, JUSTICE AND REDEMTIVE ACTION
Undergraduate
A practicum and seminar combining student participation in social outreach programs with an examination of the theological and ethical issues raised therein. Students will volunteer at a field site for the quarter.
CTH 285
THE SOCIAL ECONOMY OF CATHOLICISM
Undergraduate
An examination of selected economic and sociological aspects of Catholics and Catholic institutions. Problems in the sociological definition of Catholicism will be explored as a prerequisite to the study of Catholic demographics, patterns of financial contributions, the economic impact of Catholic schools and other institutions, international economic development and other social and economic issues.

CTH 288
IRELAND, 1450-1800, CONQUEST, COLONIZATION & REBELLION
Undergraduate
This course offers a survey of Irish history from the end of the middle ages to the union of Ireland and Great Britain in 1800. It traces the ways in which Ireland was brought under great English (later British) control through processes of agreement, conquest and colonization; and the ways in which various groups within Ireland sought to resist such developments.

CTH 289
IRELAND, 1800 - 2000
Undergraduate
Survey of Irish history from 1800 to 2000. Examines the course of Irish history from the Act of Union (creating the United Kingdom), through the struggles and reforms of the 19th century (Catholic Emancipation, the Famine and Irish diaspora, Fenianism, Land Reform and Home Rule), to the creation of the modern nation-state of the 20th century (the Easter Rising, partition and civil war, the role of Eamon deValera, the Republic, and the Troubles). Topics include the contributions of Irish culture and its influence in Europe and the world.

CTH 290
THE LIFE AND TIMES OF VINCENT DE PAUL
Undergraduate
A study of Vincent de Paul in his cultural and religious context.

CTH 292
WOMEN AND SAINT VINCENT DE PAUL
Undergraduate
The changing roles of women in 17th century France, the importance of women in Vincent de Paul's life, the key relationships of Vincent with Madame de Gondi, Jane de Chantel and Louise de Marillac will be studied in depth. The flowering of Vincent's new conception of possibilities for women in the Ladies of Charity, the Daughters of Charity and other groups of women will be explored.

CTH 293
THE DAUGHTERS OF CHARITY
Undergraduate
An historical study of the Daughters of Charity from their foundation to the present.

CTH 295
THE VINCINTIANS IN AMERICA
Undergraduate
An examination of the history of the Congregation of the Mission from 1816 to the present.

CTH 312
THE GOSPEL ACCORDING TO MATTHEW
Undergraduate
A study of the context, structure and major motifs of the Gospel of Matthew. Particular attention will be given to the evangelist's role as an interpreter of tradition and history for a community in transition. (Taught at Catholic Theological Union.)

CTH 313
THE GOSPEL ACCORDING TO MARK
Undergraduate
A study of the Gospel of Mark with attention to its structure, major themes and key (Taught at Catholic Theological Union.)
CTH 314
THE GOSPEL ACCORDING TO LUKE
Undergraduate
A study of the Third Gospel and its major theological themes. Particular focus on Luke's Christology and portrayal of discipleship for women and men followers of "the Way". (Taught at Catholic Theological Union.)

CTH 315
THE GOSPEL ACCORDING TO JOHN
Undergraduate
A study of the Gospel of John with attention to its distinctive style and theology, its overall structure and content. Key sections will be used to highlight such major Johannine motifs as religious symbolism, sacraments, community and spirituality. (Taught at Catholic Theological Union.)

CTH 325
SPECIAL TOPICS IN SCRIPTURES, COUNCILS AND CREEDS
Undergraduate
SPECIAL TOPICS IN SCRIPTURES, COUNCILS AND CREEDS

CTH 326
INTRODUCTION TO THE CHRISTIAN SPIRITUAL LIFE
Undergraduate
A survey of traditional and contemporary practices of prayer, community, service, discernment and spiritual guidance, with the aim of assisting development of an integrated vision of the Christian spiritual life. (Taught at Catholic Theological Union.)

CTH 327
THEOLOGY AND PRACTICE OF PRAYER
Undergraduate
A survey of traditional and contemporary Christian prayer styles, the development of a life of prayer and the role of prayer in individual and ecclesial life. (Taught at Catholic Theological Union.)

CTH 328
RELIGIOUS EXPERIENCE AND THE LIFE CYCLE
Undergraduate
Using Erikson's eight stages of the life cycle as a framework, explores aspects of psychological development undergirding the experience of religion. Aspects covered include faith, symbolism, ritual, conscience, commitment, humility and mysticism. (Taught at Catholic Theological Union.)

CTH 329
SPIRITUAL CLASSICS OF THE EARLY CHURCH
Undergraduate
Study of selections from the most influential spiritual writings of the second to the sixth centuries: Ignatius of Antioch, Origen, Gregory of Nyssa, Athanasius, Desert Fathers and Mothers, Benedict, Augustine, Pseudo-Dionysius and others. (Taught at Catholic Theological Union.)

CTH 335
SPECIAL TOPICS IN RELIGIOUS EXPERIENCE, PRAYER AND LITURGY
Undergraduate
SPECIAL TOPICS IN RELIGIOUS EXPERIENCE, PRAYER AND LITURGY

CTH 336
THEORIES OF INTERPRETATION
Undergraduate
Philosophical hermeneutics and biblical interpretation. Cross-listed with PHL 355.
CTH 337
GREEK AND MEDIEVAL THOUGHT (CROSS-LISTED AS PHL 310)
Undergraduate
A study of selected thinkers and issues from the ancient Greek and Medieval periods. Cross-listed as PHL 310.

CTH 338
EARLY MODERN PHILOSOPHY
Undergraduate
A study of some of the main philosophers and philosophical movements from the 17th to the 19th centuries. Cross-listed as PHL 295.

CTH 339
PHILOSOPHY SINCE KANT
Undergraduate
A study of some of the most influential thinkers of the last 150 years.

PHL 100 is a prerequisite for this course.

CTH 340
ISSUES IN CONTEMPORARY THEOLOGY
Undergraduate
A study of methods, issues and movements in 20th-century theology. Specific topics vary and are noted in the current schedule.

CTH 341
LIBERATION THEOLOGY: THEORY AND PRACTICE (CROSS-LISTED AS REL 351)
Undergraduate
Focuses upon the ideas and practices of a radical movement for the transformation of Christianity and for social justice that originated in the "Basic Christian Communities" of Latin America and spread from there to North America and the Third World. Cross-listed as REL 351.

CTH 346
THE PROBLEM OF GOD IN CONTEMPORARY SOCIETY
Undergraduate
Analysis of why God has become problematic for contemporary society is followed by a critical review of representative Christian attempts to respond. The course helps students evaluate their experience and respond intelligently to the modern problem of God. (Taught at Catholic Theological Union.)

CTH 347
ORIGINS AND ESCHATOLOGY
Undergraduate
A study of the notion of myth, mythic consciousness and the way myths are used in the Bible and in various cultures to express the origin of the world and humankind, the origin of evil and the individual and collective end. (Taught at Catholic Theological Union.)

CTH 348
CHRISTOLOGY
Undergraduate
A study of the foundational questions of Christology in the light of the critical, historical study of the Scriptures and theological tradition. (Taught at Catholic Theological Union.)

CTH 349
CHRISTOLOGY AND CULTURES
Undergraduate
A study of how the confession of Jesus Christ interacts with cultural processes. Special attention is given to the New Testament and patristic periods and also to contemporary movements in the world Church today. (Taught at Catholic Theological Union.)
CTH 351
NATURAL LAW AND CHRISTIAN ETHICS
Undergraduate
A study of the relevance of some Western and non-Western Natural Law traditions in view of arriving at a vision of a universal common good that can generate a Christian ethical discourse capable of intercultural and interreligious communication. (Taught at Catholic Theological Union.)

CTH 352
THE ETHICS OF THOMAS AQUINAS
Undergraduate
This course is a study in the moral theology of Aquinas. Particular attention is given to his treatment of happiness, charity, the passions, the virtues and the gifts of the Spirit. (Taught at Catholic Theological Union.)

CTH 354
SPECIAL TOPICS IN CATHOLIC THOUGHT
Undergraduate
Special topics in Catholic Thought; see schedule for current offerings.

CTH 355
THEOLOGICAL IDEAS AND ARTISTIC EXPRESSION
Undergraduate
An advanced study of various theological ideas (creation, martyrdom, death, resurrection, love, eschatology, etc.) as expressed in the arts.

CTH 369
SPECIAL TOPICS IN THE ART, MUSIC AND LITERATURE OF CATHOLICISM
Undergraduate
Special topics in the Art, Music and Literature of Catholicism; see schedule for current offerings.

CTH 370
THE CULTURES OF EARLY CHRISTIANITY (CROSS-LISTED AS HST 323)
Undergraduate
Late Antique and early Medieval intellectual history in social context. Focus on Patristic theology and hagiography in the eastern and western Mediterranean, German oral epic, monastic exegesis and history and the Carolingian Renaissance. Cross-listed with HST 323.

CTH 376
GOD, SELF, AND SOCIETY IN MEDIEVAL CULTURE (CROSS-LISTED AS HST 316)
Undergraduate
The roots of Western thought in medieval education, literature, philosophy, and science. The interactions between high theology, mysticism, and popular culture. History and autobiography. Cross-listed with HST 316.

CTH 377
INDIVIDUAL AND SOCIETY IN RENAISSANCE ITALY (CROSS-LISTED AS HST 317)
Undergraduate
The flowering of culture, humanism and the arts in fourteenth and fifteenth-century Italy. Renaissance politics, patronage and diplomacy. Religion and the Papacy. Cross-listed with HST 317.

CTH 378
THE AGE OF REFORMATIONS (CROSS-LISTED AS HST 318)
Undergraduate
Late medieval religion and society; the Reformations of Luther and Calvin, and the Catholic reform movements. Nationalism and the state in sixteenth-century Europe. The expanding world. Cross-listed with HST 318.
CTH 384
THE CULTURE OF AMERICAN CATHOLICS (CROSS-LISTED AS REL 384 AND MLS 464)
Undergraduate
A sociological and historical investigation of the culture of American Catholics, with special attention to the literary works of contemporary American Catholic writers including Flannery O'Connor, Mary Gordon and Walker Percy. Cross-listed with REL 384 and MLS 464.

CTH 386
THE CATHOLIC CHURCH IN WORLD POLITICS (CROSS-LISTED AS PSC 345)
Undergraduate
Catholicism as it affects (and is affected by) world politics. Various topics might include war and peace, global economy, immigration, nationalism, etc. Cross-listed with PSC 345.

CTH 388
FOREIGN STUDY IN RELIGION
Undergraduate
Under this number, students taking courses in religion or theology as part of a DePaul-sponsored program of study abroad may receive Catholic Studies credit when approved in advance by the Director of the Foreign Study Program and the Director of the Program in Catholic Studies.

INTRODUCTION TO CINEMA: THE ART OF MAKING MOVIES
Undergraduate
This lecture-based course will introduce students to the art of cinema, from the point of view of the filmmaker. Through screenings of contemporary and classic films, students will gain an appreciation of the various crafts involved in the making of movies, such as: acting, directing, producing, screenwriting, cinematography, production design, editing, sound, or visual effects. This course is not intended for students who intend to major or minor in Digital Cinema. PREREQUISITE(S): None

DC 101
SCREENWRITING FOR MAJORS
Undergraduate
This course introduces digital cinema majors to dramatic writing for motion pictures. The topics covered include theme, plot, story structure, character, and dialogue. Emphasis is placed on telling a story in visual terms. Students are expected to develop and write a short screenplay. PREREQUISITE(S): None

DC 105
DIGITAL MEDIA LITERACIES
Undergraduate
This course is designed to help students develop an informed, critical and practical understanding of new communication media, including ways to read, write and produce in a digital environment. We will explore implications of these technologies and their uses in schools, communities, and workplaces. The course also focuses on practices involving current and future technologies that hold promise for the creation and distribution of all media. This course has an additional fee.

DC 110
FOUNDATIONS OF CINEMA FOR MAJORS
Undergraduate
This course deals with visualization and cinema literacy skills. Drawing heavily on a wide array of historical examples, the course will examine the many expressive strategies potentially usable in the creation of moving image art forms: image construction and manipulation, editing, composition, sound, narrative, and performance. An emphasis will be placed on story and storytelling. In addition to analyzing the works of others, students will also produce their own projects - putting theory into practice. This course has an additional fee. Prerequisite(s): None

DC 111
VIDEO FOR SOCIAL MEDIA
Undergraduate
An introduction to video production for social media. Students learn how to produce videos with consumer-grade equipment (including cell phones). The course covers the basic principles of shooting, editing and uploading to social media sites. The course offers students an opportunity to create media specifically targeted for social websites such as: Facebook, MySpace, Twitter, etc. Students will learn the production process from idea execution to distribution. PREREQUISITE(S): None

DC 113
AUDIO FOR PODCASTS AND OTHER MEDIA
Undergraduate
This course is an introduction to the uses and practical applications of sound for multimedia. Students will study various uses of sound and music on the Internet from creative to professional websites. Using free or inexpensive hardware and software, students will learn to create and edit podcasts and attach audio files to programs and web pages such as Facebook, Itunes, Keynote, PowerPoint and other sites. The course will cover both Mac and PC applications so all students will be able to work on projects from their home computers. The course will also cover current legalities of digital media. PREREQUISITES: NONE

DC 120
VIDEO EDITING
Undergraduate
Students analyze and assemble dramatic scenes under a variety of conditions and narrative strategies. Editing theories, techniques and procedures, issues of continuity, effects, movement and sound are examined as they relate to the fundamentals of cinematic montage and visual storytelling. This class presents a variety of topics and experiences that are designed to broaden the student's understanding of the art of cinematic storytelling and montage. Work on more advanced projects is integrated into the class as a means to an understanding of advanced editing tools and techniques. This course has an additional fee. PREREQUISITE(S): NONE
DC 121
THE ART OF PRODUCTION DESIGN
Undergraduate
This course explores production design and art direction as a narrative art form in cinema and examines the collaborative relationship between director, production designer and cinematographer. Using films, observational readings, screenplays, lectures, research, and discussion, students will study the fundamentals of a production designer's approach towards visualizing and conceptualizing story. Students will also gain a historical perspective of how the role of production design has evolved and how advances in technology have influenced the various crafts.

DC 125
DIGITAL STILL PHOTOGRAPHY FOR NON-MAJORS
Undergraduate
This course is an introduction to the history and aesthetics of still photography and to the concept of photography as a descriptive and interpretive artistic medium. Students studying photographs in this context will discover relationships between individual photographers choices and their own understanding of meaning. The role these artistic choices play in conveying meaning in still photography. Discussions of the photos' cultural contexts and meanings will deepen their understanding of the role of still photography as a conduit for cultural values. Students will learn the fundamental concepts necessary to shoot, edit, manipulate, and print digital still photographs. Also, students will acquire the knowledge needed to analyze and critique existing work. Students will be required to use their own digital still cameras for this course. This course has an additional fee.

DC 200
MEDIA LITERACIES
Undergraduate
This course is designed to help students develop an informed, critical and practical understanding of new communication media, including ways to read, write and produce in a digital environment. We will explore implications of these technologies and their uses in schools, communities, and workplaces. The course also focuses on practices involving current and future technologies that hold promise for the creation and distribution of all media. This course has an additional fee. Prerequisites: None

DC 201
INTRODUCTION TO SCREENWRITING
Undergraduate
This course is an introduction to and overview of the elements of theme, plot, character, and dialogue in dramatic writing for cinema. Emphasis is placed on telling a story in terms of action and the reality of characters. The difference between the literary and visual medium is explored through individual writing projects and group analysis. Development of synopsis and treatment for a short theatrical screen play: theme, plot, character, mise-en-scene and utilization of cinematic elements. PREREQUISITE(S): None.

DC 202
HISTORY OF MOTION PICTURE EDITING
Undergraduate
This course studies the origins and rise of film editing as an art form, an industry, a set of technological practices ranging from analog film to digital video. The course examines critical historical events that impacted film editing: the emergence of the studio system, the coming of sound, narrative, experimental and documentary film, MTV, and audience shifts. For many, editing is the unique source of the art of filmmaking. This course addresses this question. PREREQUISITE(S): NONE

DC 203
HISTORY OF MOTION PICTURE SOUND
Undergraduate
From William Dickson's 1895 experimental sound film to THX and Dolby 3D sound, this course studies the origins and rise of film sound as an art form, an industry, a set of technological practices. The course examines critical historical events that impacted film sound: early Edison experiments, faster film stock, quieter and more mobile camera systems, The Jazz Singer, MTV, Lucasfilm, video games and beyond. PREREQUISITE(S): NONE.

DC 204
HISTORY OF DOCUMENTARY
Undergraduate
Course explores the variety of styles and concerns that shape documentaries. Content covers the first outdoor films made at the beginning of film history, the lyrical documentaries of Robert Flaherty, and the institutional documentaries inspired by John Grierson. Course also examines the broad range of developments of the post-World War II era, including the television documentary, cinema verite movement, collective and personal documentaries of anti-war and women's movements, role and impact of video in the '80s and '90s, and recent trend to incorporate narrative techniques. PREREQUISITE(S): NONE
DC 205
FOUNDATIONS OF CINEMA
Undergraduate
This course will examine the craft, technology, and aesthetic principles of media production. Drawing heavily on a wide array of historical examples, the course will examine the many expressive strategies potentially usable in the creation of moving image art forms: the importance of story and controlling ideas, storytelling with images, the basics of composition and editing, and an examination of narrative, documentary, and experimental approaches. In addition to analyzing the works of others, students will also produce their own projects thus, putting theory into practice. This course has an additional fee.

DC 206
HISTORY OF CINEMA PRODUCTION
Undergraduate
This course studies the origins and rise of cinema production from the perspective of a filmmaker. The course examines critical historical events that impacted the industry and the craft of filmmaking; the emergence of the studio system, the coming of sound, audience shifts, emergence of other media and the rise of digital technology. PREREQUISITE(S): NONE.

DC 207
HISTORY OF CINEMA I, 1890-1945
Undergraduate
This course examines the history of cinema as one of the most influential cultural forms of the 20th Century. We will study the aesthetic and technological developments of cinema during its first 50 years, as well as examine the social and economic factors shaping its history. Initially influenced by other art forms (theater, literature, painting) filmmaking quickly acquired its own formal system, language, and traditions. We will trace the changing styles, techniques, content, and methods of filmmaking as an art form, as popular culture, and as an industry. We will consider how cinema is bound to its social context via audience relations, economics, technology, and ideology. The limited scope of this course will cover primarily feature-length, narratives films as the dominant mode of filmmaking, although we will also look at the development of documentary and experimental filmmaking. The class will consist of lectures, screenings, and discussions.

DC 208
HISTORY OF AMERICAN CINEMA, 1946-1975
Undergraduate
From Film Noir to Hitchcock, an examination of post war Hollywood, film noir, wide screen and epic films, the development of the star system, the director as auteur, and the influence of international film movements and directors. Screenings, lecture, and discussion. PREREQUISITE(S):NONE

DC 209
HISTORY OF CINEMA III, 1975-PRESENT
Undergraduate
This final course in the film history sequence is designed to introduce students to a sense of modern film history and the multiple permutations of cinema around the modern film history and the multiple permutations of cinema around the globe. It presents film history from a global perspective, concentrating primarily on the development of new national and transnational cinemas. The course continues to chart the development of the American studios since the mid-1970s while examining the effects of media consolidation and convergence. Moreover, the course seeks to examine how global cinemas have reacted to and dealt with the formal influence and economic domination of Hollywood filmmaking on international audiences. Class lectures, screenings, and discussions will consider how cinema has changed from a primarily national phenomenon to a transnational form of communication in the 21st century.

DC 210
DIGITAL CINEMA PRODUCTION I
Undergraduate
This course is a beginning workshop in narrative film production. The course provides an introduction to the fundamentals of cinema, including camera and lens technology, composition, lighting, directing and sound recording. Utilizing digital technology, students will produce several films with an emphasis on visual storytelling and personal expression. This course has an additional fee. PREREQUISITE(S): DC 220

DC 214
INTRODUCTORY PRO TOOLS WORKSHOP
Undergraduate
This workshop course offers introductory training on Pro Tools software. Topics include recording, editing, mixing, and processing functions. No experience necessary. PREREQUISITE(S): None
INTRODUCTION TO SOUND DESIGN
Undergraduate
This course is an introduction to sound editing and sound design. The course examines the place of sound in cinema, both artistic and technological. The course will cover the basics of sound, microphones, and analogue-to-digital conversion. Lectures, readings, and film clips will be used to illustrate the language of film sound, as practiced by film directors, sound designers, and editors. Students will learn to edit sound assignments with Pro Tools and current technologies. This course has an additional fee. PREREQUISITE(S): None

EDITING I
Undergraduate
Students analyze and assemble dramatic scenes under a variety of conditions and narrative strategies. Editing theories, techniques and procedures, issues of continuity, effects, movement and sound are examined as they relate to the fundamentals of cinematic montage and visual storytelling. This course has an additional fee. PREREQUISITE(S): NONE.

CLASSIC HOLLYWOOD FILM STRUCTURE
Undergraduate
Critical analysis of successful Hollywood films and their narrative structures. Films of various genres and eras will be examined. Students will learn how to recognize classical three-act structure in finished films and scripts. Students will develop a cinematic language with which to discuss films as well as a toolbox of techniques to use when making films. Key story concepts to be discussed include: protagonist, antagonist, want versus need, elements of the future, poetic justice, planting and payoff, catalyst, climax, and Aristotelian terminology. PREREQUISITE(S): NONE

SCRIPT TO SCREEN
Undergraduate
This analytical course examines the screenplay's evolution to the screen from a writer's perspective. Students will read feature length scripts of varying genres and then perform a critical analysis and comparison of the text to the final produced versions of the films. Storytelling conventions such as structure, character development, theme, and the creation of tension will be used to uncover alterations and how these adjustments ultimately impacted the film's reception.

DIGITAL STILL PHOTOGRAPHY
Undergraduate
This course is an introduction to the history and aesthetics of still photography and to the concept of photography as a descriptive and interpretive artistic medium. Students will learn the fundamental concepts necessary to shoot, edit, manipulate, and print digital still photographs. Students will learn to scan, capture, correct and enhance digital images and prepare files for output on black and white and color printing devices. Introduces students to theories, terminology, and applications of digital imaging technologies. Students will acquire the knowledge needed to analyze and critique existing work. In addition, students will involve themselves in hands-on exercises with digital still photography, manipulation and printing. Demonstrations will facilitate learning software techniques and systems of working. Use of Adobe Photoshop will be extensively covered in this course. This course has an additional fee.

FILM PHILOSOPHY
Undergraduate
This course is a seminar on the philosophical analysis of film art, with an emphasis on the ways in which it creates meaning through techniques that define a formal structure. There is a particular focus on aesthetic problems about appearance and reality, literacy and visual effects, communication and alienation through film technology.
Societies function based on normative ethics utilizing commons sense to distinguish between ethical and unethical behavior. Most of us are not aware of the underlying theories when arriving at ethical judgments about right and wrong. However, the fast pace of progress in information technologies and digital entertainment creates an environment, in which ethical challenges are particularly complex. In the eyes of many, games and movies are violent, offensive and immoral. This course will concentrate on analyzing the impact of digital entertainment on an individual and society. Implications of certain values embedded games and movies will be discussed. Elements of the ethical code of conduct for a game or movie creator will be formulated. The issue of balancing individual creativity vs. cultural impact particularly on children will be discussed.

This course explores cinema that is created with the primary intention of effecting social, cultural or political change. Forms as varied as propaganda, documentary, narrative feature films, and music video will be discussed. In conjunction with this study, students will make a film or animation with the primary intention of effecting some measure of social change.

This course will provide an overview of avant-garde film, video, animation and installation, and the relationship of these cinematic forms to Modern and Contemporary art. Students will be introduced to the major styles and themes of alternative and experimental moving image work from the past hundred years. Cinema & Art places emphasis on moving image work that is not usually included in a survey of mainstream cinema or film history. A major concern for the class is first-hand exposure to these original sources, and an examination of the relationship of these works to mainstream cinema and other types of popular culture. Topics covered in the class include the avant-garde and kitsch, Surrealism, experimental film, abstract animation, video art, camp, and video installation. In addition to lectures by visiting artists and viewing films, videos, and installation work, students will produce a short creative work in the style of their choice that responds to the work studied during the quarter.

This course explores contemporary cinematic adaptations of literature and how recent re-workings in film open viewers up to critical analysis of the cultural practices surrounding the promotion and reception of these narratives. What issues have an impact upon the borrowing and reinterpretation of narratives of film? How, when, and where can we identify such borrowings and reinterpretations in multiple contemporary iterations of the same narrative? PREREQUISITE(S): NONE

The purpose of this class is to provide a forum for students to examine various religions and how they are portrayed in the movies. Students will have the opportunity to learn about multiple religions, as well as the opportunity to study the different ways each religion is represented in film. Different genres of films will be used to facilitate discussions about various dimensions of and issues in religion. PREREQUISITE(S): None

The purpose of this class is to provide a forum for students to examine various interpretations and portrayals of a "God" figured in contemporary cinema. Students will reflect upon the way that cinematic depictions of "God" have changed, challenged, or helped shape their own personal perception of a "God" figure, or whether film/media has shaped their beliefs on the existence of (or lack of) a "God". PREREQUISITE(S): None
DC 250
THE ART OF SCREEN ACTING
Undergraduate
This course will examine the role of acting, actors, and actor-director collaboration in the development of narrative cinema. The screen demanded a new approach to acting which differed markedly from the theatrical traditions which proceeded it. Seminal practitioners of actor training such as Constantin Stanislavski and his American interpreters Lee Strasberg, Sanford Meisner, and Stella Adler and their students (such as Brando, Pacino, DeNiro, Hoffman, and Duvall) have had an incalculable influence on how screen actors prepare for a role and work with directors. This course will survey the major acting techniques and approaches, examine major films as case studies, and explore contemporary approaches to screen acting and actor-director collaboration in the cinema.

DC 251
ACTING FOR THE CAMERA
Undergraduate
This course is designed for acting and directing students who want to develop skills and gain experience in acting and directing for the camera. Course sessions include lecture, practical exercises and preparation for analyzing and blocking a scene and working on a set. Students will screen select film clips to evaluate performances, explore methods to prepare for an audition, discuss the actor/director relationship and examine the professional requirements or relating to a crew. The final project will include directing or acting a short dialogue scene for analysis and critique. Prerequisites: DC 250 and DC 310 or PRF 313

DC 261
FIRST FILMS
Undergraduate
This course will explore the first feature films of contemporary filmmakers, studying the roots of their respective styles of filmmaking, the obstacles they faced in making their first films and their respective filmmaking styles that have evolved in later films. Prerequisites: none

DC 270
TOPICS IN DIGITAL CINEMA
Undergraduate
Advanced study in cinema focusing on a specific genre each quarter such as: Science Fiction, Film Noir, Comedy, Action-Adventure, Nonfiction, etc. Please check the CTI website for description of specific quarter offering.

DC 271
INTRODUCTION TO TELEVISION PRODUCTION
Undergraduate
An introduction to the basic principles, procedures, and techniques of television production. The course heavily utilizes Digital Cinema's TV studio. Students are organized in teams and create various TV broadcasts. Students learn how to operate TV switchers, TV cameras, sound, and graphic equipment. The course covers the fundamentals of producing, scripting, directing, and editing for television. This course has an additional fee.

DC 272
INTRODUCTION TO TELEVISION WRITING
Undergraduate
The primary objective of this course is to learn how to write for television, for both network and cable, focusing on fiction and non-fiction TV programs including news, talk, documentaries, dramas and comedies. The course will assist students in improving their writing skills as well as help them understand the basic approaches and techniques in writing for television. Prerequisites: DC 201

DC 273
FILM/VIDEO AESTHETICS I
Undergraduate
Course covers basic concepts and terminology of film and video as forms of art and mass culture. This course covers the aesthetic systems that constitute film and video: plot structures, sets, costumes and makeup, acting, lighting, cinematography, editing, and sound. We consider how the interaction of these elements produces meaning in film and video. We also examine how these concepts are practiced in film production. After mastering the aesthetic concepts, students also examine their use in three different modes of film communications: fiction, documentary, and the avant-garde. PREREQUISITE(S): NONE
DC 274
IMAGE, OPTICS AND CINEMATIC MOTION
Undergraduate
Cinematography is the scientifically grounded discipline of making lighting and camera choices in order to record moving images. This course deals with the basic mathematics, physics, and photochemistry that underlies cinematography and that motivate camera design and construction. A student who masters the foundations of cinematography through a mixture of lectures, readings, exercises, and labs will be able to evaluate and understand how motion based recording choices affect perception of moving images they see every day. This course has an additional fee.

DC 275
CINEMATOGRAPHY
Undergraduate
This course is an intensive exploration of the craft, technologies and aesthetic principles of cinematography and lighting techniques. Lectures and in-class demonstrations will cover film and video formats, film stocks, film and digital cameras, exposure, lenses and optics, lighting units, lighting placement, lighting control, camera support, and camera movement. Class sessions will consist of lectures, demonstrations, hands on with cameras and lighting units, exercises, and screenings of selected film clips which demonstrate specific cinematography and lighting techniques. This course has an additional fee. PREREQUISITES: DC 210, DC 220

DC 280
STORYTELLING WITH MACHINIMA
Undergraduate
The course will focus on two areas: the craft and technology of Machinima filmmaking and the use of Machinima in storytelling. Within the context of learning the craft of Machinima, students will explore character and character development, production design, and the fundamentals of visual storytelling.

DC 298
INTERNSHIP IN MEDIA PRODUCTION/POST-PRODUCTION
Undergraduate
This course offers students the opportunity to reflect on an internship while gaining professional experience, industry contact, and referrals while still in school. The class fulfills the Junior Year Experiential Learning credit and must be taken concurrently with an approved internship. Opportunities in post-production, motion picture production, advertising, television, animation, game design, graphic design, motion graphics and interactive media can qualify for the course. Classroom time is required. Admission to the program requires consent of internship course instructor after the verification of the student's internship. Prerequisites: Internship

DC 299
INDEPENDENT STUDY/ MEDIA AND DESIGN INTERNSHIP
Undergraduate
This course is an internship/independent study course for students who have already fulfilled their JYEL credit. This course offers students the opportunity to reflect on an internship while gaining professional experience, industry contact and referrals while still in school. Opportunities in post-production, motion picture production, advertising, television, animation, game design, graphic design, motion graphics and interactive media can all qualify for this course. Students will work independently on class assignments. Assignments will be determined by the instructor and based on the number of credits in which the student is enrolled. Admission to the program requires consent of the internship course instructor after verification of the student's internship. PREREQUISITE(S): Internship

DC 301
ADVANCED SCREENWRITING I
Undergraduate
In this course, students study, analyze and produced motion picture scripts. This course emphasizes the use of traditional storytelling, classic mythology and how these devices apply to contemporary screenplays. Students will move from concept/treatment to a completed first act of a feature length screenplay of their own. This script will be completed, revised, and polished in DC 302 and DC 303. PREREQUISITE(S): NONE

DC 302
ADVANCED SCREENWRITING II
Undergraduate
This course focuses on the writing of the second and third acts of feature length screenplays. Students finish and begin revising the first draft of the script started in DC 301. Emphasis is placed on proper character development, effective use of conflict, and adherence to the three act structure. PREREQUISITE(S): DC 301
DC 303
ADVANCED SCREENWRITING III
Undergraduate
This class focuses on practical ways to approach the rewriting process for feature film screenplays. Through group workshops and assignments, students isolate issues with plot, character development, dialogue and pacing in their script and work on addressing them in a full draft rewrite. Student must posses a complete feature length script in order to enroll in the course. PREREQUISITE(S): DC 302

DC 304
TOPICS IN SCREENWRITING
Undergraduate
Advanced study in screenwriting focusing on a specific genre each quarter such as: Science Fiction, Film Noir, Comedy, Action-Adventure, Nonfiction, etc. May be repeated for credit. PREREQUISITES: DC 101, DC 201 or by consent of the instructor

DC 305
PITCHING SEMINAR
Undergraduate
Students will learn about various forms of pitching, including pitching existing spec scripts, new ideas, and developing takes on existing properties. They will learn tips and techniques for having successful meetings, including how to prepare and how to read the dynamics of a room. They will write, practice, and workshop their own pitches. PREREQUISITE(S): DC 101 or DC 201

DC 306
WRITING THE SITCOM
Undergraduate
This course focuses on the fundamentals of writing the half-hour situational comedy. Creating comedic characters, situations, and developing multiple storylines are covered. Students will create an original sitcom pilot. PREREQUISITE(S): DC 272

DC 307
WRITING THE EPISODIC DRAMA
Undergraduate
This course examines the storytelling techniques necessary to write an hour long television dramatic series with an emphasis on characterization and structure. Students will create an original hour long pilot. PREREQUISITE(S): DC 272

DC 308
WRITING ON ASSIGNMENT
Undergraduate
Modeled after professional writing assignments, this advanced course challenges students to complete a feature length screenplay in ten weeks. Lectures and strict weekly page submission deadlines provide a practical framework on how to write quickly without sacrificing quality. Constructive analysis will be used in discussing produced scripts, weekly assignments and group workshops to reveal the writer's unique voice and perspective. It is imperative students possess a viable concept and outline before enrolling. PREREQUISITE(S): DC 301

DC 309
FEATURE DEVELOPMENT
Undergraduate
This course offers a practical approach to the screenwriter's role in the development of a feature film. Emphasis will be placed on obtaining a greater understanding of narrative conventions, script analysis and the film market. From agents to studio executives, we will examine the varying points of view that comprise the development process. Constructive analysis will be used to break down feature length produced screenplays and student work. The assignments and class discussions are designed to expose the inner working of Hollywood and provide a framework of what it takes to succeed in the entertainment industry. PREREQUISITE(S): DC 101 or DC 201

DC 310
DIGITAL CINEMA PRODUCTION II
Undergraduate
This course expands on topics covered in DC 210 Production I. Students will refine their skills in the areas of line-producing, pre-production, cinematography, lighting, sound recording, post production work flow. This course has an additional fee. PREREQUISITES: DC 210, DC 220, DC 275
DC 311
MUSIC VIDEO PRODUCTION
Undergraduate
In this course, we will analyze ways in which artists combine visual imagery with music as with MTV-style music videos. The music business and how it relates/effects music videos. Each student will develop his or her own music video project from script to final edit with a local band of their choice, through their own scheduling process. This course has an additional fee. PREREQUISITE(S): DC 210, DC 220

DC 312
SCORING FOR FILM AND VIDEO
Undergraduate
Students are introduced to elements of music and ways in which these elements may be used to create a musical style that enhances the visual statement. Course emphasizes understanding the function of the score and how it relates to texture, color, and drama in music. Students explore their creativity using the tools available, work on projects of increasing complexity, and complete a score for their own film or video as a final project. Listening skills, music vocabulary, and business and legal aspects of the profession are also studied. This course has an additional fee. PREREQUISITE(S): DC 215

DC 313
PRODUCTION SOUND
Undergraduate
This workshop based course offers production recording and mixing techniques. Subjects include microphone selection, basic acoustics, boom techniques, dual system recording practices, and mixing. Several projects will be completed throughout the quarter. PREREQUISITE(S): DC 215

DC 314
ADVANCED PRO TOOLS WORKSHOP
Undergraduate
This workshop course offers advanced training on Pro Tools software. Topics include advanced recording, editing, mixing, and processing functions. This course is appropriate for undergraduate and graduate students who have taken a sound class but need a refresher on Pro Tools before taking DC 315/415, DC 317/417, DC 318/418, or DC 319/419. PREREQUISITE(S): Some Pro Tools or other digital audio workstation experience necessary.

DC 315
POST-PRODUCTION SOUND DESIGN
Undergraduate
This course expands on topics covered in DC 215. Emphasis will be on mixing and editing techniques for music and sound effects. Coursework also includes the recording of natural sounds and special effects to reinforce images and the story. The course is intended for advanced students who wish to develop their skills and gain more experience in preparing and mixing sound tracks for traditional as well as interactive narratives. This course has an additional fee. PREREQUISITE(S): DC 215

DC 316
TOPICS IN POST-PRODUCTION SOUND
Undergraduate
Advanced study in post-production sound focusing on a specific area each quarter such as: A.D.R., Foley, Scoring, Sound Effects, Mixing, etc. May be repeated for credit. This course has an additional fee. PREREQUISITES: DC 215 or by consent of the instructor.

DC 317
ADVANCED SOUND MIXING
Undergraduate
This workshop based course offers advanced mixing techniques for Stereo and Surround Sound. Subjects include mixing philosophies, techniques, advanced digital signal processing, and monitoring. A history of Surround Sound and contemporary surround techniques will be covered. Several projects will be completed throughout the quarter. PREREQUISITE(S): DC 315

DC 318
ADVANCED DIALOGUE EDITING
Undergraduate
This workshop based course offers dialogue recording and editing techniques. Subjects include voice processing, basic acoustics, room tone matching, proximity processing, frequency analysis and dialogue mixing. Several projects will be completed throughout the quarter. PREREQUISITE(S): DC 315
DC 319
ADVANCED SOUND EFFECTS RECORDING AND EDITING
Undergraduate
This workshop based course offers sound effects recording and editing techniques. Subjects include hard effects, backgrounds, room tone, Foley, basic acoustics, sound processing, layering and mixing. Several projects will be completed throughout the quarter. PREREQUISITE(S): DC 315

DC 320
EDITING II
Undergraduate
This course expands on topics covered in DC 220. Emphasis is on developing the student's understanding of the art of cinematic storytelling and montage. Work on more advanced projects is integrated into the class as a means of mastering advanced editing tools and techniques. This course has an additional fee. PREREQUISITE(S): DC 220

DC 321
PRODUCTION DESIGN
Undergraduate
Analysis of production design and art direction in motion pictures. Students will work to design and create sets, props and other art department elements for student and professional motion pictures. PREREQUISITE(S): None

DC 322
EDITING STYLES AND TECHNIQUES
Undergraduate
This course is designed for editors looking for innovative ways to tell stories, by exploring how editing techniques have been pushed by artists working in the margins. Cutting edge editing techniques are a co-opting of historical and experimental styles, repackaged and used in a narrative context. A series of practical exercises and a freeform final project using found footage allow editors to explore the array of editing techniques adopted from experimental work while discovering their personal style as editors and storytellers. Editors will consider how form affects content and will reinvent techniques in ways to surprise modern audiences. PREREQUISITE(S): DC 220

DC 323
PRE-PRODUCTION FOR CINEMA
Undergraduate
This course will cover the pre-production phase of short and feature-length filmmaking, including fundraising, breaking down scripts, scheduling, budgeting and pre-visualizing. Professional scheduling, budgeting and pre-visualization software will be utilized. Additionally, the rules of the creative producer, line producer and assistant director will be examined. Prerequisite(s): DC 210

DC 324
LOGIC PRO MIDI SEQUENCING WORKSHOP
Undergraduate
This course offers training on all aspects of MIDI sequencing in Logic Pro software. All aspects of MIDI will be covered including recording, programming, editing, mixing and processing functions. PREREQUISITE(S): None

DC 325
COLOR CORRECTION
Undergraduate
Students acquire a working knowledge of the aesthetics and technical aspects of the post-production phase of color correction. Content addresses theory and application of color correction, image control, and manipulation techniques. Principles of color theory and the tools available to filmmakers engaged in the processes of electronic media and image manipulation are explored through lecture, interactive computer exercises, and hands-on experience with professional color correction software. PREREQUISITE(S): DC 320
DC 326
ADVANCED COLOR CORRECTION
Undergraduate
This class expands on topics covered in DC 325. Students will refine their skills in the areas of Primary, Secondary and Color FX room advanced grading techniques used by professional colorists. This class will explore more in detail colorist strategies, grading workflows, aesthetics and technical aspects of color correction for the digital cinema. Students will explore color correcting trends that are popular in feature films and national television commercials. Through a series of three short projects and a final project, students will practice using the techniques they study in class. PREREQUISITE(S): DC 325

DC 333
CINEMATIC SPACE
Undergraduate
This seminar mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Beginning with an introduction to the fundamental differences between montage and mise-en-scene, the course will teach students the art and craft of designing, blocking and executing plan sequences, starting with static camera shots and ending in complex 3D camera moves. PREREQUISITE(S), DC 210 and DC 275

DC 340
EDITING III
Undergraduate
This course provides an advanced workshop for students to edit their own narrative or documentary projects. Students will be expected to bring in their own footage, and will take their projects from logging, through rough cut, to picture lock. Post-production workflow, and basic sound design and color correction for picture editors will also be emphasized. PREREQUISITE(S): DC 320

DC 341
STORYTELLING FOR VIDEO GAMES
Undergraduate
This course examines the writer's role in the game development process and how storytelling conventions like character, conflict, and plot are utilized to enhance gameplay. Emphasis will be placed on building an understanding of game narratives, interactivity, and working with design teams. Students will develop a design document highlighting characters, locations, dialogue scripting, and overall gameplay for an original video game idea. PREREQUISITE(S): DC 101 or DC 201

DC 344
ADVANCED SCREENWRITING LAB
Undergraduate
This advanced course is designed to take existing writing projects (including but not limited to features, pilots, television specs, web series, short scripts) at various stages of development and provide the practical means to move forward through constructive workshop sessions. Stories will be broken down to examine concept viability and the overall execution of the narrative. Instructor and peer critiques will challenge the writer to enhance their voice on the page with the goal of creating work that is unique, engaging, and commercial. PREREQUISITE(S): DC 101 or DC 201

DC 345
EXPERIMENTAL FILMMAKING
Undergraduate
This production-based course explores breaking the boundaries of conventional cinema through experimental formal approaches, techniques and content. Students will create projects in the modes of key figures form the history of experimental and avant-garde film and video, such as Kenneth Anger, Stan Brakhage, Luis Bunuel, Maya Deren, Dana Hodgdon, David Lynch, Bill Viola, or Andy Warhol. Additionally, students will be encouraged to capture, edit and process material through non-traditional means, and to explore unconventional content. Screenings of experimental works may be tailored to the specific interests of students as projects develop. The influences of experimental cinema on conventional media such as Hollywood movies, commercials, and music video will also be analyzed. PREREQUISITE(S): DC 220 and DC 210

DC 349
ACTING FOR FILMMAKERS
Undergraduate
This course is designed to provide students who plan to work with actors in any aspect of cinema or interactive media, with a foundation in the actor's craft. This will be a hands-on, practical class in which all students will be required to participate fully in the exercises and scene work. Topics to be covered include: relaxation, concentration, trust, listening, sensory work, physical actions, improvisation, imagination, needs, circumstances, objectives, obstacles, scene analysis and scene work. The course will culminate in a staged scene to be presented in class. PREREQUISITE(S): None
DC 350
MODES OF DIGITAL DISTRIBUTION
Undergraduate
This course deals with the process of creating video for multiple modes of distribution, i.e.: DVD authoring, compression and streaming. It also covers the various outlets available for content distribution. Students will learn content creation, authoring, capture, encoding and serving with an emphasis on video compression and encoding. Students will also come to have a working understanding of codecs, DVD chapters, Easter eggs, region coding, and be able to create a working web page with embedded streaming content. PREREQUISITE: DC 320

DC 360
3D MOVIE PRODUCTION
Undergraduate
This course provides an introduction to stereoscopy which is the creation of a 3D effect in still images and movies. The course covers the history of stereoscopy, the perceptual theories that make 3D images possible, and the technologies that can be used to create the effect of stereoscopic depth. Designed for both animators and live-action filmmakers, students taking this course will get hands-on experience producing stereoscopic images and movies using a variety of tools. PREREQUISITE(S): ANI 230 or DC 275

DC 370
ADVANCED TOPICS IN CINEMA
Undergraduate
This class will be an in-depth examination of a filmmaker, film genre, or film movement that has had a significant influence on the development of cinematic storytelling and expression. Through lectures, screenings, readings, discussions, and critical writing assignments, students will analyze the distinctive traits of the selected topic within the broader context of cinema history and culture. Specific topics will be selected by the instructor and will vary with each quarter. PREREQUISITE(S): None

DC 371
DOCUMENTARY PRODUCTION
Undergraduate
This course covers all phases of documentary filmmaking including interview techniques, storytelling with interviews and B roll, and documentary cinematography. For the final project each student will produce a completed documentary film. This course has an additional fee. PREREQUISITE(S): DC 210, DC 220

DC 372
TOPICS IN TV PRODUCTION
Undergraduate
This course is a hands-on experience in television production of news and public affairs programs. Students learn through theory and practice the role TV Producers and their teams play in creating various TV programs. This course has an additional fee.

DC 373
ADVANCED DOCUMENTARY PRODUCTION
Undergraduate
This advanced course in documentary production is designed for students who already have experience with making documentaries. In this course, each student will direct and produce a substantial short subject documentary and serve as a crew member on at least one other student project. Topics covered will include choice of subject matter, filmmaker’s POV, dramatic structure, proposal writing, and a variety of technical, aesthetic, practical, and ethical concerns related to producing professional documentary projects. PREREQUISITE(S): DC 371/471

DC 375
ADVANCED CINEMATOGRAPHY
Undergraduate
This class explores the emerging HDTV/HDV technologies along with advanced production techniques of camera movement, lighting, rigging, camera filtration and shot composition. Students will be given hands on training in the use of the latest High Definition Video cameras and then create a short script which they will shoot and edit in High Definition. This course has an additional fee. PREREQUISITE(S): DC 275
**DC 376**  
**VISUAL DESIGN**  
**Undergraduate**  
Definition, analysis, and structure of visual components that cinema employs to support and emphasize the story. Theory of visual design will be applied through student still photos, as well as an original, visually-oriented, narrative or documentary short film, animation or game design. **PREREQUISITES:** DC 220

**DC 377**  
**ADVANCED LIGHTING AND CAMERA MOTION**  
**Undergraduate**  
This class centers on lighting/camera movement in storytelling and explores advanced lighting/cinematography techniques for both studio and field. Students will operate light meters, determine set and lighting needs, set lights, operate a jib and/or dollies, block scenes, and become familiar with topics including filmspace, continuity, lenses, color, filters, and camera control. Over the course of the quarter, students will work together to produce a number of short stories in both field and studio environments. Besides the aesthetic component of the class, students will also learn set electrical breakdown, lighting control tools, basic grip equipment and procedures to use them safely and effectively. **Prerequisites:** DC275

**DC 379**  
**PRE-PRODUCTION WORKSHOP**  
**Undergraduate**  
This two-credit course will provide valuable pre-production work on targeted productions, such as Project Bluelight (faculty or student-led), large-scale class projects, faculty creative projects, or independent and/or professional productions. Professional scheduling, budgeting and pre-visualization software may be utilized. **PREREQUISITE(S):** By instructor permission only.

**DC 380**  
**PROJECT BLUELIGHT**  
**Undergraduate**  
Production of a feature-length digital motion picture written by students or faculty within the Digital Cinema program. Students will work as crew under supervision of faculty members heading each of the various production areas. Goal is to produce a completed digital motion picture suitable for festivals or distribution. This course has an additional fee.

**DC 381**  
**DISTRIBUTION AND EXHIBITION**  
**Undergraduate**  
This course explores the commercial and economic structure of the contemporary film industry. Topics to be covered include: the development of "Hollywood" as a distribution mechanism; the subsequent emergence of an independent commercial sector; the revenue stream from "box office" and ancillary markets, through distributors and to producers; the history and current state of theatrical exhibition; and emerging modes of content delivery.

**DC 382**  
**POST-PRODUCTION WORKSHOP**  
**Undergraduate**  
This two-credit course will provide an opportunity for students to apply their post-production skills and work collaboratively on projects happening during the academic year. These projects can be Project Bluelight (faculty or student-led), large-scale class projects, faculty creative projects, or independent and/or professional productions. Students will work under faculty supervision and gain valuable experience collaborating as part of post-production team. Professional post-production applications, equipment, and facilities will be utilized. **PREREQUISITE(S):** By instructor permission only.

**DC 385**  
**PRODUCING**  
**Undergraduate**  
This course focuses on the role of the producer from idea origination and script development to financing and physical production and, finally, to distribution and exhibition. Students master the concepts of revenue streams, constructing deals (gross and net point participation), copyright, marketing, and box office analysis. Production management and line producing are also covered. From script breakdown and production preparation to post-production supervision and delivery, the physical production process is defined. **PREREQUISITE(S):** None
DC 387
HOLLYWOOD HISTORY
Undergraduate
Students will gain a deep understanding of the history and foundation of the film industry through behind-the-scenes access to working studios, historical readings and discussions of the material, and the unique opportunity to have access to the Warner Brothers Archives, the largest single studio collection in the world, housing all of the WB materials from 1918 (the release of the studio's first feature film) through 1968 (when the studio was sold to Seven Arts. Note: Students must be participating in the DePaul LA program to be eligible to enroll.

DC 388
FILMMAKERS SEMINAR
Undergraduate
Each week, students will be given the rare opportunity to speak directly with some of the industry's biggest players. Hollywood directors, writers, cinematographers, editors, producers, agents, managers, entertainment lawyers, development executives and others will come to class, discuss their journeys, offer advice, and answer questions. The class will culminate with an industry mixer, where these professionals, along with dozens more, will join the students for a relaxed evening of networking. This is an invaluable opportunity for students to begin to form meaningful relationships that can help them as they transition from student to filmmaker. Note: Students must be participating in the DePaul LA program to be eligible to enroll.

DC 389
THE BIG PICTURE: THE ENTERTAINMENT INDUSTRY
Undergraduate
This course introduces students to vital information about the industry in which they will work. Students will learn industrial analysis of production, distribution, and exhibition sectors, including mastering concepts of revenue streams, constructing deals (gross points and net point participation), copyright, marketing, and box office analysis. Students will also study the structure of organizations and groups crucial to the entertainment industry: studios, talent, agents, exhibition (markets: theatrical, virtual and ancillary), professional organizations including guilds like ASC, and media licensing firms like ASCAP and BMI. There will be an emphasis on global industry. Prerequisite: DC 205

DC 390
TOPICS IN DIRECTING
Undergraduate
This is a course in directing motion pictures. Topics include casting, rehearsals, the basic relationship between the director, actor, and script, script breakdown, camera placement, and shooting for continuity editing. Each student will produce and direct a scene study and a short narrative film. This course has an additional fee. PREREQUISITE(S): DC 220, DC 310

DC 393
FILM FESTIVALS WORKSHOP
Undergraduate
An introduction to film festivals and their role in independent cinema and the Hollywood studio system. The global proliferation of film festivals will be examined from the perspectives of both film studies scholars and film making professionals. Students will research the history of major festivals, develop festival strategies for student or independent films, and attend film festival screenings, panels, and/or networking events. PREREQUISITE(S): None

DC 395
TOPICS IN PRODUCTION
Undergraduate
This course allows advanced students to work in close conjunction with a faculty member to develop a digital media project. Topics focus on a specific genre or medium each quarter such as: traditional movie production (horror, comedy, action/adventure, documentary, experimental, etc.), animation (narrative, non-narrative, web-based, cinematic, etc.), and advanced digital game design (story, strategy, graphics, etc.). Students work to produce a five to ten minute project. This course has an additional fee. PREREQUISITE(S): DC 310, DC 315 AND DC 320

DC 398
DIGITAL CINEMA CAPSTONE
Undergraduate
This course provides a Digital Cinema-specific capstone experience for the student. Students must have completed at least one of the three Topics in Production courses before they enroll in this course. The capstone course will connect the students' Digital Cinema course work with the University courses s/he has taken through three components: student-generated production packages, class/instructor discussions, and the actual creation/production of the student's proposal. The production piece is the primary focus of this course. PREREQUISITE(S): DC 303 OR DC 310 OR ANI 350
DC 399
INDEPENDENT STUDY
Undergraduate
Variable credit. PREREQUISITE(S): Consent of dean.

DC 400
WRITING THE TELEVISION SPEC SCRIPT
Graduate
In this class, students will learn the basic teleplay structures for both half-hour and hour-long television shows. Students will choose an existing show and write a spec episode, practicing the skills of matching character voice, structure, and tone. PREREQUISITE(S): DC 101, DC 201, or DC 501

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 401
WRITING THE SHORT MOTION PICTURE
Graduate
The essential elements and conventions for writing the short film including, character, plot structure, sub-plots, surprise, inevitability, and resolution. Students will complete a screenplay for a 30-minute film.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 402
WRITING THE FEATURE I
Graduate
In this course, students study and analyze produced motion picture scripts. This course emphasizes the use of traditional storytelling, classical mythology and how these devices apply to contemporary screenplays. Students will move from concept/treatment to a completed first act of a feature length screenplay of their own. This script will be completed, revised, and polished in DC 403 and DC 404. PREREQUISITE(S): DC 201

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 403
WRITING THE FEATURE II
Graduate
This course focuses on the writing of the second and third acts of feature length screenplays. Students finish and begin revising the first draft of the script started in DC 402. Emphasis is placed on proper character development, effective use of conflict, and adherence to the three act structure. PREREQUISITE(S): DC 402

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 404
WRITING THE FEATURE FILM III
Graduate
This class focuses on practical ways to approach the rewriting process for feature film screenplays. Through group workshops and assignments, students isolate issues with plot, character development, dialogue and pacing in their script and work on addressing them in a full draft rewrite. Student must possess a complete feature length script in order to enroll in the course. PREREQUISITE(S): DC 403

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 405
TOPICS IN SCREENWRITING
Graduate
Advanced study in screenwriting focusing on a specific genre each quarter such as: Science Fiction, Film Noir, Comedy, Action-Adventure, Nonfiction, etc. May be repeated for credit. PREREQUISITE(S): DC 201

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
DC 406
WRITING THE SITCOM
Graduate
In this course, students analyze half hour situational comedy teleplays. The course will feature a specific focus on story-telling styles and techniques of successful sitcom predecessors, various formats of sitcom teleplays, and methods for pushing original projects out into the world. Students will create an original sitcom pilot. PREREQUISITE(S): DC 400

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 407
WRITING THE EPISodic DRAMA
Graduate
In this course, students analyze hour-long dramatic teleplays. This course features a specific focus on story-telling styles and techniques of successful dramatic predecessors, various formats of hour-long drama teleplays, and the definition and significance of "show bibles". Students will create an original hour long pilot. PREREQUISITE(S): DC 400

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 408
WRITING ON ASSIGNMENT
Graduate
Modeled after professional writing assignments, this advanced course challenges students to write a feature length screenplay in ten weeks. Lectures and strict weekly page submission deadlines provide a practical framework on how to write quickly without sacrificing quality. Constructive analysis will be used in discussing produced scripts, weekly assignments and group workshops to reveal the writer's unique voice and perspective. It is imperative students possess a viable concept and outline before enrolling. PREREQUISITE(S): DC 403

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 409
FEATURE FILM DEVELOPMENT
Graduate
This course offers a practical approach to the screenwriter's role in the development of a feature film. Emphasis will be placed on obtaining a greater understanding of narrative conventions, script analysis and the film market. From agents to studio executives, we will examine the varying points of view that comprise the development process. Constructive analysis will be used to break down feature length produced screenplays and student work. The assignments and classroom discussions are designed to expose the inner working of Hollywood and provide a framework of what it takes to succeed in the entertainment industry. PREREQUISITE(S): DC 201

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 410
DIGITAL CINEMA PRODUCTION II
Graduate
This course expands on topics covered in DC 210 Production I. Students will refine their skills in the areas of line-producing, pre-production, cinematography, lighting, sound recording, post production work flow. PREREQUISITES: DC 210, DC 220, DC 275

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 411
MUSIC VIDEO PRODUCTION
Graduate
In this course, we will analyze ways in which artists combine visual imagery with music as with MTV-style music videos. The music business and how it relates/effects music videos. Each student will develop his or her own music video project from script to final edit with a local band of their choice, through their own scheduling process. PREREQUISITE(S): DC 210, DC 220

CDM graduate students in the Prequisite Phase are restricted from registering for this class.
DC 412
**SCORING FOR FILM AND VIDEO**
Graduate

Students are introduced to elements of music and ways in which these elements may be used to create a musical style that enhances the visual statement. Course emphasizes understanding the function of the score and how it relates to texture, color, and drama in music. Students explore their creativity using the tools available, work on projects of increasing complexity, and complete a score of their own film or video as a final project. Listening skills, music vocabulary, and business and legal aspects of the profession are also studied. PREREQUISITE(S): DC 215

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

DC 413
**PRODUCTION SOUND**
Graduate

This workshop based course offers production recording and mixing techniques. Subjects include microphone selection, basic acoustics, boom techniques, dual system recording practices, and mixing. Several projects will be completed throughout the quarter. PREREQUISITE(S): DC 215

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

DC 415
**POST-PRODUCTION SOUND DESIGN**
Graduate

This course expands on topics covered in DC 215. Emphasis will be on mixing and editing techniques for music and sound effects. Coursework also includes the recording of natural sounds and special effects to reinforce images and the story. The course is intended for advanced students who wish to develop their skills and gain more experience in preparing and mixing sound tracks for traditional as well as interactive narratives. PREREQUISITE(S): DC 215

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

DC 417
**ADVANCED SOUND MIXING**
Graduate

This workshop based course offers advanced mixing techniques for Stereo and Surround Sound. Subjects include mixing philosophies, techniques, advanced digital signal processing, and monitoring. A history of Surround Sound and contemporary surround techniques will be covered. Several projects will be completed throughout the quarter. PREREQUISITE(S): DC 315

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

DC 418
**ADVANCED DIALOGUE EDITING**
Graduate

This workshop based course offers dialogue recording and editing techniques. Subjects include voice processing, basic acoustics, room tone matching, proximity processing, frequency analysis and dialogue mixing. Several projects will be completed throughout the quarter. PREREQUISITE(S): DC 315

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

DC 419
**ADVANCED SOUND EFFECTS RECORDING AND EDITING**
Graduate

This workshop based course offers sound effects recording and editing techniques. Subjects include hard effects, backgrounds, room tone, Foley, basic acoustics, sound processing, layering and mixing. Several projects will be completed throughout the quarter. PREREQUISITE(S): DC 315

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.
DC 420  
EDITING II  
Graduate  
This course expands on topics covered in DC 220. Emphasis is on developing the student's understanding of the art of cinematic storytelling and montage. Work on more advanced projects is integrated into the class as a means of mastering advanced editing tools and techniques. PREREQUISITE(S): DC 220

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 421  
PRODUCTION DESIGN  
Graduate  
Analysis of production design and art direction in motion pictures.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 422  
EDITING STYLES AND TECHNIQUES  
Graduate  
This course is designed for editors looking for innovative ways to tell stories, by exploring how editing techniques have been pushed by artists working in the margins. Cutting edge editing techniques are a co-opting of historical and experimental styles, repackaged and used in a narrative context. A series of practical exercises and a freeform final project using found footage allow editors to explore the array of editing techniques adopted from experimental work while discovering their personal style as editors and storytellers. Editors will consider how form affects content and will reinvent techniques in ways to surprise modern audiences. PREREQUISITE(S): DC 220

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 423  
PRE-PRODUCTION FOR CINEMA  
Graduate  
This course will cover the pre-production phase of short and feature-length filmmaking, including fundraising, breaking down scripts, scheduling, budgeting and pre-visualizing. Professional scheduling, budgeting and pre-visualization software will be utilized. Additionally, the rules of the creative producer, line producer and assistant director will be examined. Prerequisite(s): DC 210

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 424  
SCRIPT TO SCREEN FILM ANALYSIS  
Graduate  
This analytical course examines the evolution of a story from screenplay to final film. Students will read screenplays of varying genres and perform a critical analysis and comparison to the produced versions of the films. Storytelling conventions such as structure, character development, theme, and the creation of tension will be used to examine alterations and how these adjustments ultimately impacted the film's reception both critically and at the box office.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 425  
COLOR CORRECTION  
Graduate  
Students acquire a working knowledge of the aesthetics and technical aspects of the post-production phase of color correction. Content addresses theory and application of color correction, image control, and manipulation techniques. Principles of color theory and the tools available to filmmakers engaged in the processes of electronic media and image manipulation are explored through lecture, interactive computer exercises, and hands-on experience with professional color correction software. PREREQUISITE(S): DC 420

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
DC 426
ADVANCED COLOR CORRECTION
Graduate
This class expands on topics covered in DC 425. Students will refine their skills in the areas of Primary, Secondary and Color FX room advanced grading techniques used by professional colorists. This class will explore more in detail colorist strategies, grading workflows, aesthetics and technical aspects of color correction for the digital cinema. Students will explore color correcting trends that are popular in feature films and national television commercials. Through a series of three short projects and a final project, students will practice using the techniques they study in class. PREREQUISITE(S): DC 425

DC 430
VISUAL EFFECTS
Graduate
Exploration of the expanding field of visual effects. Students explore contemporary concepts and approaches to production in the current stage of film and video effects work. Digital and traditional methodologies will be covered, with a concentration on digital exercises illustrating modern techniques.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

DC 431
CINEMA MOVEMENTS AND MANIFESTOS
Graduate
A study of film movements or periods that have articulated their own theoretical origins, and then implemented or investigated these theories through cinema praxis. Movements as diverse as Soviet montage, neo-realism, French New Wave, feminist film, Dogme 95 and punk cinema will be explored. In the same mode of these historical movements, students will make a film or animation rooted in one of these theoretical frameworks.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

DC 433
CINEMATIC SPACE
Graduate
This seminar mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Beginning with an introduction to the fundamental differences between montage and mise-en-scene, the course will teach students the art and craft of designing, blocking and executing plan sequences, starting with static camera shots and ending in complex 3D camera moves. PREREQUISITE(S), DC 460

DC 440
EDITING III
Graduate
This course provides an advanced workshop for students to edit their own narrative or documentary projects. Students will be expected to bring in their own footage, and will take their projects from logging, through rough cut, to picture lock. Post-production workflow, and basic sound design and color correction for picture editors will also be emphasized. PREREQUISITE(S): DC 320

DC 441
STORYTELLING FOR VIDEO GAMES
Graduate
This course examines the writer's role in the game development process and how storytelling conventions like character, conflict, and plot are utilized to enhance gameplay. Emphasis will be placed on building an understanding of game narratives, interactivity, and working with design teams. Students will develop a design document highlighting characters, locations, dialogue scripting, and overall gameplay for an original video game idea.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.
DC 444
ADVANCED SCREENWRITING LAB
Graduate
This advanced course is designed to take existing writing projects (including but not limited to features, pilots, television specs, web series, short scripts) at various stages of development and provide the practical means to move forward through constructive workshop sessions. Stories will be broken down to examine concept viability and the overall execution of the narrative. Instructor and peer critiques will challenge the writer to enhance their voice on the page with the goal of creating work that is unique, engaging, and commercial. PREREQUISITE(S): DC 101 or DC 201

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 449
ACTING FOR FILMMAKERS
Graduate
This course is designed to provide students who plan to work with actors in any aspect of cinema or interactive media, with a foundation in the actor's craft. This will be a hands-on, practical class in which all students will be required to participate fully in the exercises and scene work. Topics to be covered include: relaxation, concentration, trust, listening, sensory work, physical actions, improvisation, imagination, needs, circumstances, objectives, obstacles, scene analysis and scene work. The course will culminate in a staged scene to be presented in class. PREREQUISITE(S): None

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 450
DIRECTING ACTORS FOR THE CAMERA
Graduate
This course will consist of scene studies emphasizing the actor/director relationship, the relationship between the camera and performer, casting, blocking for the camera, and scene analysis. Each week students will shoot and edit short dialogue scenes. The scenes will be analyzed for the quality of the performance and effectiveness of direction. Students will work toward the creation of a final, polished short film. Digital Cinema students are expected to enter the class with a shoot-able five to ten minute script they can use as their final project. Prerequisites: DC 460, DC 461, DC 462

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 451
MODES OF DIGITAL DISTRIBUTION
Graduate
This course deals with the process of creating video for multiple modes of distribution, i.e.: DVD authoring, compression and streaming. It also covers the various outlets available for content distribution. Students will learn content creation, authoring, capture, encoding and serving with an emphasis on video compression and encoding. Students will also come to have a working understanding of codecs, DVD chapters, Easter eggs, region coding, and be able to create a working web page with embedded streaming content. PREREQUISITE(S): DC 320 or DC 420

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 455
WORKING WITH ACTORS
Graduate
This course is an introduction and examination of the collaborative process between the actor and director. The class will examine the fundamentals of the craft of acting, provide students with a basic understanding of acting terminology, script analysis, the creative process, and explore effective ways to communicate with the actor. Methods of study include lecture, discussion, assignments, and in-class acting exercises. PREREQUISITE(S): None

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 460
DIGITAL CINEMA PROSEMINAR
Graduate
In this course, students develop basic proficiency in the areas of cinematography, editing, and sound. This course is intended for all incoming graduate students in cinema.
**DC 461**
**PRODUCTION WORKSHOP**
**Graduate**
Students work in teams to produce a completed project every two weeks. Each team will be assigned a specific genre or medium of cinema/media production. Students will be exposed to every aspect of media production from live action shooting to visual effects. Students will also learn how to work well in a team environment and be forced to adhere to deadlines, time constraints and medium limitations.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

**DC 462**
**DIRECTING WORKSHOP**
**Graduate**
Emphasis on directing actors, with production skills such as camera, lighting, editing and sound used in service of the performance. Topics covered include objectives, beats, script analysis, casting, rehearsal, and actor/director relationships. Students will cast working actors or actors from the Theatre School, in short films from adapted screenplays, and produce sample reel material for both actors and directors.

PREREQUISITE(S): DC 461

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

**DC 470**
**ADVANCED TOPICS IN CINEMA**
**Graduate**
This class will be an in-depth examination of a filmmaker, film genre, or film movement that has had a significant influence on the development of cinematic storytelling and expression. Through lectures, screenings, readings, discussions, and critical writing assignments, students will analyze the distinctive traits of the selected topic within the broader context of cinema history and culture. Specific topics will be selected by the instructor and will vary with each quarter. PREREQUISITE(S): None

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

**DC 471**
**DOCUMENTARY PRODUCTION**
**Graduate**
This course covers all phases of documentary filmmaking including interview techniques, storytelling with interviews and B roll, and documentary cinematography. For the final project each student will produce a completed documentary film. PREREQUISITE(S): DC 210, DC 220

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

**DC 472**
**TOPICS IN TELEVISION PRODUCTION**
**Graduate**
This course is a hands-on experience in television production of news and public affairs programs. Students learn through theory and practice the role TV Producers and their teams play in creating various TV programs.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

**DC 473**
**ADVANCED DOCUMENTARY PRODUCTION**
**Graduate**
This advanced course in documentary production is designed for students who already have experience with making documentaries. In this course, each student will direct and produce a substantial short subject documentary and serve as a crew member on at least one other student project. Topics covered will include choice of subject matter, filmmaker's POV, dramatic structure, proposal writing, and a variety of technical, aesthetic, practical, and ethical concerns related to producing professional documentary projects. PREREQUISITE(S): DC 371/471

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
DC 475
ADVANCED CINEMATOGRAPHY
Graduate
This course explores the emerging HDTV/HDV technologies along with advanced production techniques of camera movement, lighting, rigging, camera filtration and shot composition. Students will be given hands on training in the use of the latest High Definition Video cameras and then create a short script which they will shoot and edit in High Definition. PREREQUISITE(S): DC 275

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 476
VISUAL DESIGN
Graduate
Definition, analysis, and structure of visual components that cinema employs to support and emphasize the story. Theory of visual design will be applied through student still photos, as well as an original, visually-oriented, narrative or documentary short film, animation or game design. PREREQUISITE(S): DC 460 or Permission of Instructor

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 477
ADVANCED LIGHTING AND CAMERA MOTION
Graduate
This class centers on lighting/camera movement in storytelling and explores advanced lighting/cinematography techniques for both studio and field. Students will operate light meters, determine set and lighting needs, set lights, operate a jib and/or dollies, block scenes, and become familiar with topics including filmspace, continuity, lenses, color, filters, and camera control. Over the course of the quarter, students will work together to produce a number of short stories in both field and studio environments. Besides the aesthetic component of the class, students will also learn set electrical breakdown, lighting control tools, basic grip equipment and procedures to use them safely and effectively. Prerequisites: DC275

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 478
SPECIAL EFFECTS AND COMPOSITING
Graduate
Special effects for motion pictures including stop motion, motion control, green screen, and compositing.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 479
PRE-PRODUCTION WORKSHOP
Graduate
This two-credit course will provide valuable pre-production work on targeted productions, such as Project Bluelight (faculty or student-led), large-scale class projects, faculty creative projects, or independent and/or professional productions. Professional scheduling, budgeting and pre-visualization software may be utilized. PREREQUISITE(S): By instructor permission only.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 480
PROJECT BLUELIGHT
Graduate
Production of a feature-length digital motion picture written by students or faculty within the Digital Cinema program. Students will work as crew under supervision of faculty members heading each of the various production areas. Goal is to produce a completed digital motion picture suitable for festivals or distribution. In addition to production work, graduate students are required will write a 7-10 page paper which analyzes the experience and how it relates to their MS/MFA course of study.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
DC 481
DISTRIBUTION AND EXHIBITION
Graduate
Conventional and emerging modes of motion picture distribution with special emphasis on digital streaming and exhibition.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 482
POST-PRODUCTION WORKSHOP
Graduate
This two-credit course will provide an opportunity for students to apply their post-production skills and work collaboratively on projects happening during the academic year. These projects can be Project Bluelight (faculty or student-led), large-scale class projects, faculty creative projects, or independent and/or professional productions. Students will work under faculty supervision and gain valuable experience collaborating as part of post-production team. Professional post-production applications, equipment, and facilities will be utilized.

PREREQUISITE(S): By instructor permission only.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 485
PRODUCING
Graduate
This course focuses on the role of the contemporary producer from idea origination and script development to financing and physical production and, finally, to distribution and exhibition. Students master the concepts of revenue streams, constructing deals (gross and net point participation), copyright, marketing, and box office analysis. Production management and line producing are also covered. From script breakdown and production preparation to post-production supervision and delivery, the physical production process is defined.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 487
HOLLYWOOD HISTORY
Graduate
Students will gain a deep understanding of the history and foundation of the film industry through behind-the-scenes access to working studios, historical readings and discussions of the material, and the unique opportunity to have access to the Warner Brothers Archives, the largest single studio collection in the world, housing all of the WB materials from 1918 (the release of the studio's first feature film) through 1968 (when the studio was sold to Seven Arts. Note: Students must be participating in the DePaul LA program to be eligible to enroll.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 488
FI LMMAKERS SEMINAR
Graduate
Each week, students will be given the rare opportunity to speak directly with some of the industry's biggest players. Hollywood directors, writers, cinematographers, editors, producers, agents, managers, entertainment lawyers, development executives and others will come to class, discuss their journeys, offer advice, and answer questions. The class will culminate with an industry mixer, where these professionals, along with dozens more, will join the students for a relaxed evening of networking. This is an invaluable opportunity for students to begin to form meaningful relationships that can help them as they transition from student to filmmaker. Note: Students must be participating in the DePaul LA program to be eligible to enroll.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

DC 489
THE BIG PICTURE: THE ENTERTAINMENT INDUSTRY
Graduate
This course introduces students to vital information about the industry in which they will work. Students will learn industrial analysis of production, distribution, and exhibition sectors, including mastering concepts of revenue streams, constructing deals (gross points and net point participation), copyright, marketing, and box office analysis. Students will also study the structure of organizations and groups crucial to the entertainment industry: studios, talent, agents, exhibition (markets: theatrical, virtual and ancillary), professional organizations including guilds like ASC, and media licensing firms like ASCAP and BMI. There will be an emphasis on global industry.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.
DC 490
DIRECTING
Graduate
This is a course in directing motion pictures. Topics include casting, rehearsals, the basic relationship between the director, actor, and script, script breakdown, camera placement, and shooting for continuity editing. Each student will produce and direct a scene study and a short narrative film. PREREQUISITE(S): DC 220, DC 310

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 493
FILM FESTIVALS WORKSHOP
Graduate
An introduction to film festivals and their role in independent cinema and the Hollywood studio system. The global proliferation of film festivals will be examined from the perspectives of both film studies scholars and film making professionals. Students will research the history of major festivals, develop festival strategies for student or independent films, and attend film festival screenings, panels, and/or networking events. PREREQUISITE(S): None

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 495
DIRECTING THE SHORT MOTION PICTURE
Graduate
Blocking for the camera, the action axis, 180-degree principle, moving the camera, directing actors, working with crew, and delegating responsibilities.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 499
INDEPENDENT STUDY/ MEDIA AND DESIGN INTERNSHIP
Graduate
This is an internship/independent study course for graduate students, which offers the opportunity to reflect on an internship while gaining professional experience, industry contact and referrals while still in school. Opportunities in post-production, motion picture production, advertising, television, animation, game design, graphic design, motion graphics and interactive media can all qualify for the course. Students will work independently on class assignments. Assignments will be determined by the instructor and based on the number of credits in which the student is enrolled. Admission to the program requires consent of the internship course instructor after verification of the student's internship. PREREQUISITE(S): Internship

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 501
STORYTELLING FOR THE SCREENWRITER
Graduate
Students begin their screenwriting journey with a strong foundation in the basic building blocks of solid, engaging storytelling. Students will mine their own lives in order to create memorable stories, characters, and settings. Additionally, students will learn basic screenwriting skills such as character development, constructing atmosphere, and the fundamental components of a scene. PREREQUISITE(S): None

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 502
STORY STRUCTURES
Graduate
Advanced critical analysis of multiple film structures beginning with a solid understanding of classically structured linear narratives told in three acts and ultimately exploring non-traditional feature film structures including but not limited to: ensemble, multiple protagonist, non-linear and episodic. Films will range from classic Hollywood films to contemporary independent films. Students will learn various theorists’ approaches to terminology (which may include Snyder, Field, Campbell, and Howard) in order to develop a language with which to discuss scripts and finished films, both other people's work as well as in developing their own. PREREQUISITE(S): None

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
DC 503
FEATURE FILM DEVELOPMENT
Graduate
This advanced course examines the development process that enables the screenplay's journey from draft to screen. By crafting professional coverage and development notes, the class will deconstruct feature length scripts and student work in an effort to forge them into cinematically viable properties. The assignments and class discussions are designed to expose the inner workings of Hollywood and provide a framework for what it takes to succeed in the entertainment industry. Enrollment is only open to MFA students. PREREQUISITE(S): None

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 504
REWRITING YOUR FEATURE OR TV SCRIPT
Graduate
This class will focus on rewriting one completed feature film script, or rewriting one television pilot plus an additional future episode. Students will walk away from this class with a polished writing sample ready to be shown to agents, managers, and producers as they enter the professional screenwriting world. PREREQUISITE(S): DC 402, DC 403, DC 408

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 505
INDUSTRY SEMINAR
Graduate
Students will hear from guest speakers representing the wide spectrum of roles in the business of making movies. Speakers may include agents, managers, entertainment lawyers, producers, writers, directors, and development executives. Students will learn valuable industry skills and will prepare, practice, and perfect their own pitches. PREREQUISITE(S): DC 101, DC 201, or DC 501

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 525
DIGITAL MEDIA PRACTICUM Digital Media Practicum
Graduate
This practicum provides all students with a foundation in digital media practices. Students work with still images, moving images and sound using integrated digital media applications. Students learn how to use different media forms to express creativity and ideas across interactive media settings. The course focuses on the technical, social and cultural competencies required to traverse media in online convergence environments.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 561
THESIS I
Graduate
In this class, students complete a feature length outline and first act of their thesis script. Extensive feedback from in-class workshops and thesis advisors provide a viable framework for the completion of the project, which is completed in Thesis II and III. PREREQUISITE(S): Instructor permission

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 562
THESIS II
Graduate
In this class, students complete the second and third acts of their thesis script. Extensive feedback from in-class workshops and thesis advisors provide a viable framework for the completion of the project, which is completed in Thesis III. PREREQUISITE(S): DC 561

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
DC 563  
**THESIS III**  
*Graduate*

In this class, students complete a polish of their thesis script. Extensive feedback from in-class workshops and thesis advisors provide a viable framework for the completion of the project. **PREREQUISITE(S):** DC 562

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 565  
**THESIS DEVELOPMENT**  
*Graduate*

In this class, students work intensively on a thesis project proposal based on responses from the instructor, their classmates, and from graduate faculty readers. For narrative work, the goal is to generate a well-developed dramatic treatment and then a 1st draft script of the thesis project (20mins) and secure 2 thesis advisers from the DC faculty with producing experience.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 566  
**THESIS PRODUCTION**  
*Graduate*

The production of the finalized thesis project proposal. Students will have 2 thesis advisors from the DC faculty with significant production experience.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 567  
**THESIS POST-PRODUCTION**  
*Graduate*

The post-production of the finalized thesis project proposal. Students will have 2 thesis advisors from the DC faculty with significant post-production experience.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 599  
**INDEPENDENT STUDY**  
*Graduate*

Independent study form required. **PREREQUISITE(S):** Consent of instructor.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 701  
**THESIS CONTINUATION**  
*Graduate*

Non-credit. Students admitted to MFA program who have completed all the required coursework and who are regularly using the facilities of the University for thesis production and/or post-production are required to be registered each quarter of the academic year until the thesis and defense have been completed. **Prerequisite(s):** Completion of DC 565, DC 566, and DC 567

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

DC 378  
**COMPOSITING AND SPECIAL EFFECTS**  
*Undergraduate*

Layering of live action and rendered 3D graphics to produce special effects. Includes such techniques as layered texturing / rendering, depth-based effects, motion tracking, and camera matching. This course has an additional fee. **Prerequisite:** DC 210
DCM 301
EFFECTIVE LEADERSHIP IN A CHANGING PROFESSIONAL ENVIRONMENT
Undergraduate
In this leadership course, students will use the text, behavior/trait surveys, and case studies to understand leadership theories and models. Participants will learn to create, establish, and reinforce cultural rules of engagement designed to increase communication effectiveness and get the most out the current human dynamic in their respective environments. Understanding these various leadership models allows students to reflect on their own style in today’s culturally changing environments.

DCM 302
PROJECT MANAGEMENT: DESIGN AND ASSESSMENT
Undergraduate
Project Management is an important discipline that can benefit students in their careers as well as personal life. This course will explore project management methodologies, their common steps and tools. The course translates Project Management theory into a practical and effective methodology, starting with working definitions of Project and Project Management, the course examines project initiation, evaluation and organization using analytic techniques such as discounted cash flow and PERT/CPM. In addition, the course examines project execution and control, along with the documentation and communications skills needed to keep a project on track. The course concludes with an overview of project management applied to computer information systems development.

DCM 303
LEADERSHIP MODELS FOR STRONG ORGANIZATIONS
Undergraduate
This course is designed to explore the research, practices, purposes and scope of leadership as a tool to develop leadership skills that will influence and inspire others. Both individual and organizational aspects will be presented and will include such areas as behaviors, ethics, communications, cultures and current practices. Emphasis will be on application of leadership theories and skill building through self-assessment exercises and cases.

DCM 304
EVALUATING PROFESSIONAL ETHICS
Undergraduate
Evolving Professional Ethics analyzes and weighs ethical issues in the professions in relationship to pressing values of social responsibility and quality of life seen through lenses of moral philosophers and incisive thinkers. It places business ethics and moral philosophy in juxtaposition. In a time of tumultuous choices, the pursuit of self interest is questioned in the light of changing, evolving awareness of values in humanity, community, environment, including race and gender, as they influence business context and holistic awareness of professional ethics.

DCM 305
ENTREPRENEURSHIP BASICS
Undergraduate
Entrepreneurship is a powerful force that stimulates economic growth, promotes employment, and allows for self expression by turning ideas into tangible reality. Entrepreneurial thinking can be developed as can be the skills needed to successfully start and manage new enterprises. But entrepreneurship is not without risk and every person must assess risk in light of their own personality and life situation. This course leads students through a realistic understanding of entrepreneurship as an economic force and a way of life, its impact on involved persons and practices most likely to promote success. Learning is accomplished through a combination of lecture, discussion, reading and homework. Students are encouraged to bring their own personal experiences to class for discussion.

DCM 306
PRODUCTIVE APPLICATIONS OF WORK BASED INFORMATION TECHNOLOGY
Undergraduate
In this course, students will learn about work-based information technology by exploring Windows PC and Mac operating systems. Students will be introduced to common work-based applications software in MS Office 2003: Word, Excel, Power Point, Access and Outlook. Students will learn the basics, intermediate, and advanced level of MS Word, Excel, and Power Point. Students will explore the use and security of Internet applications for both Windows and Mac operating systems. Students will also be introduced to MS office 2007 applications and learn its features.
DCM 307
ANALYZING HUMAN BEHAVIOR
Undergraduate
This course targets the link between the physical environment and social behavior. Every physical space is also a social space; its organization contains a "code" of responsive behavior for people to understand. We focus on these "codes," and examine the ways they provoke conformity and deviance from individuals and groups. Students are expected to enter the social environment and gather publicly-observable data for analysis in the classroom setting. The ethics of social research, and of an observer's interaction with the environment, are key points of inquiry during the quarter. Students in this course work at a "pre-ethnography" level, and are primed by its conclusion to enter and analyze any social group and its physical surround.

DCM 308
INTRODUCTION TO STATISTICS
Undergraduate
This course will teach students the basic concepts of statistics. As a group, we will investigate topics in descriptive statistics, correlation, normal distributions, probability, sampling distributions and hypothesis testing. By the end of this course, students will able to complete a statistical analysis of datasets using Microsoft Excel as the primary tool. We will also devote considerable time to discussing how statistics are used and abused. Competences: S2X, FX

DCM 309
APPLIED RESEARCH
Undergraduate
This course allows the student to develop competence in the process of systematic, academic inquiry. The Applied Research course requirements focus on key aspects of inquiry. Students create a research proposal responding to a purpose, problem, and question each chooses to target (but do not actually carry out the data collection or analysis during this particular quarter). Students will explore research methodologies "quantitative and qualitative" and create a research design proposal based on a literature review and carefully constructed question, hypothesis, and methodology.

A major in Leadership Studies, Applied Behavioral Sciences or Professional Communication is a prerequisite for this class.

DCM 310
THINKING CRITICALLY
Undergraduate
This course strengthens students' analytical thinking ability through practice in the skills and strategies of critical thinking and reading, and in the construction and evaluation of logical arguments. In pursuing these goals, we encounter principles of logic, strategies of persuasion, and techniques of propaganda. The course presents a variety of readings, exercises, and projects designed to help students develop learning and skill in the following areas: identifying assumptions, connecting assertions to evidence, stating generalizations, analyzing arguments, and bringing multiple perspectives to bear on complex issues and questions.

A major in Leadership Studies, Applied Behavioral Sciences or Professional Communication is a prerequisite for this class.

DCM 311
CONFLICT MANAGEMENT AND NEGOTIATION
Undergraduate
This course will examine several aspects of communication. We will examine perception, assumption, language and sensitivity in the workplace and beyond, applying strategies drawn from theory to actual work-place situations. Successful collaboration and teamwork are the result of clear interpersonal communication. Done well, collaborative problem solving stimulates new ideas and more sophisticated approaches. To this end, we will consider the issues of empathy and personal style in the workplace and beyond. The question of conflict will be examined from several angles, and defined in several practical ways. We will analyze the differences and similarities between (among others) status-based, ego-based and issue-based conflicts in the workplace and beyond, and apply the theory of principled negotiation to identify and resolve these conflicts.

DCM 313
LEARNING FROM EXPERIENCE AND SELF-ASSESSMENT
Undergraduate
Students will explore the nature of learning from experience and self-assessment. They will develop a reflective learning autobiography and read about theories of adult learning. Students will also be introduced to the DePaul Library, taking the online library tutorial. Time management issues and tools, as well as life stages and learning interests will also be explored.

A major in Leadership Studies, Applied Behavioral Sciences or Professional Communication is a prerequisite for this class.
DCM 314
LEARNING AND TRANSFORMATION
Undergraduate
Building on last quarter’s seminar, student will look closely at the notion of transformative learning. Additionally, using learning style inventories, they will reflect on ways to exercise various learning styles in their work, and capitalize on their strengths.

A major in Leadership Studies, Applied Behavioral Sciences or Professional Communication is a prerequisite for this class.

DCM 315
EXPLORING THE FIELD
Undergraduate
Students will work on professional goal setting and action plans by conducting research on their chosen field, exploring trends, ethical issues, controversies, best preparation strategies, and other salient matters. In addition, the concept of “good work” and what that means for one’s own career will be debated and discussed.

A major in Leadership Studies, Applied Behavioral Sciences or Professional Communication is a prerequisite for this class.

DCM 316
WORK IN A GLOBAL ENVIRONMENT
Undergraduate
Globalization of the world’s economy has dramatically changed the interactions of people from different cultures. As a result, the importance of understanding cultural difference has increased significantly. This seminar will introduce students to the challenges and opportunities associated with living, working and learning in a global environment. This will be done through discussion, reading, case studies, films and exercises to increase cultural self awareness as well as cross-cultural sensitivity.

A major in Leadership Studies, Applied Behavioral Sciences or Professional Communication is a prerequisite for this class.

DCM 317
ETHICS IN THE PROFESSIONS
Undergraduate
Students will explore various approaches to determining right, morally acceptable, behavior. Epistemology and several ethical frameworks will be examined. Students will write, discuss, and debate case studies from their workplaces or field.

DCM 318
SOCIAL JUSTICE IN THE PROFESSIONS
Undergraduate
Students will look at the nature of social justice, creating a working definition of the widely used term. Readings will guide examination of issues of social justice in students' fields or disciplines.

DCM 319
CREATIVITY AND INNOVATIVE THINKING
Undergraduate
Connections among such varied disciplines as physics, politics, and poetry will be examined and investigated within students’ own discipline/profession. Using a variety of approaches to integrative and innovative thinking, students will explore interconnectedness, expanding possibilities, creativity, and decision-making.

DCM 320
PROFESSIONAL PORTFOLIO DEVELOPMENT
Undergraduate
In this class, students will study the concept and use of professional portfolios and create criteria by which they will choose work to include in their own portfolios. They will assess and evaluate their professional goals using the portfolio as a tool in that assessment. Networking and sharing of information and experience will be emphasized.
DEPUL UNIVERSITY WINTER/SPRING 2013

DCM 321
CAPSTONE PLANNING
Undergraduate

Students will begin the research for their capstone project, one that is directly related to the major and meant to be the final entry in the professional portfolio. Project ideas and topics will be discussed, refined, and formally proposed. Students will complete a review of the appropriate literature and construct a methodology by which they will carry out the capstone project in the final quarter.

A major in Leadership Studies, Applied Behavioral Sciences or Professional Communication is a prerequisite for this class.

DCM 322
CAPSTONE PROJECT/PORTFOLIO REVIEW
Undergraduate

Students complete the capstone project in this course and also will review their learning portfolio selections thus far and make strategic choices for their (1) professional and (2) learning portfolios. In addition, this quarter will provide students the opportunity to wrap-up and reflect on their learning overall. (NOTE: This seminar is a 3-credit course.)

A major in Leadership Studies, Applied Behavioral Sciences or Professional Communication is a prerequisite for this class.

DCM 323
THE PSYCHOLOGY OF AGING AND THE AGED
Undergraduate

This course provides an overview of the current theories, themes and issues of adult development and aging. In addition to understanding these theories and issues, students will explore questions such as: Does wisdom come with increasing age? Do people really change over time? What are the keys to positive aging?

DCM 324
EFFECTIVE GROUP AND PERSONAL DYNAMICS
Undergraduate

This course design unifies two levels of human behavior and motivation: group and personal. Processes leading to decision-making and other actions rest in articulate patterns on both corporate and individual dimensions. We seek, in this educational arena, to activate and analyze this set of motives and to apprehend, and perhaps predict, this bi-lateral source of human motivation. In so doing, the group-level patterns leading to appreciable action and those emanating from each individual will more easily be understood, and their root patterns put to beneficial use.

DCM 325
WORK & SOCIETY
Undergraduate

We will consider work from the perspective of our needs and values, but also from the perspective of the needs of society. We will also consider the value that society assigns to different types of work (and the impact of that valuation on us as individuals and as members of various social groups). Other topics will include how work affects our family and social lives, the impact of modern values on how we view our work, and the role of technology in how we do our work and in how we view our work.

DCM 326
LEADERSHIP LESSONS FROM LITERATURE
Undergraduate

This Structured Independent Study provides a critical analysis of ancient literature, writers and thinkers. Examining leaders and leadership situations from these early writings, students will compare and contrast contemporary leadership approaches. Through reading, reflection, and written exercises students will uncover relationships and insights to their current leadership practices and situations. A variety of knowledge and ideas focused on acting ethically, thinking independently, listening closely, taking responsibility, and finding balance are among the tools that students will develop in this course. Close reading of Sophocles and Aeschylus along with various articles about these famous ancient playwrights will allow students to bring the works of these early thinkers to their current leadership situations. This study will also include a research component.
DCM 328  
PLAN & DELIVER: IMPLEMENTING TRAINING PROGRAMS  
Undergraduate  
In this Structured Independent Study, students will learn about the strategic process of effectively implementing a corporate training program based on business drivers. It requires a broad understanding of the business in the context of corporate goals and initiatives that influence an organization’s success. In other words, training programs must consider what is important to the organization. This process includes defining requirements and success criteria, designing the process, implementing and powerfully communicating the program to the learners, and then understanding how to measure the success of the program. Using methodology and models that have been successful in numerous global and domestic companies, students in this course will create their own plan for implementation, communication, and measurement to ensure success in their future training program implementations. The focus for this study will be to identify organizational problems that can be addressed through training and will discover the importance of a “learning organization” in this process.

DCM 329  
GETTING THE WORD OUT: HOW TO IMPLEMENT TRAINING PROGRAMS  
Undergraduate  
In this Structured Independent Study, students will learn about the strategic process of effectively implementing and communicating a corporate training program based on business drivers. It requires a broad understanding of the business in the context of corporate goals and initiatives that influence an organization’s success. In other words, training programs must consider what is important to the organization and then communicating it powerfully. This process includes defining requirements and success criteria, designing the process, implementing and effectively communicating the program to the learners. Students will be introduced to understanding how to measure the success of the program. Using methodology and models that have been successful in numerous global and domestic companies, students in this course will create their own plan for implementation and communication to ensure success in their future training program implementations. The focus for this study will be to create and design a functional process and communication tools to deliver a training program into a corporate business community environment.

DCM 330  
PROFESSIONAL WRITING  
Undergraduate  
This 10-week course consists of 10 modules and provides an overview of the fundamentals of professional writing. Through engaging in and reflecting upon a variety of professional writing tasks, you will learn the rhetorical theory and practice necessary for effective written communication in professional contexts.

DCM 331  
LEARNING HOW TO LEARN  
Undergraduate  
Learning is something we begin as soon as we are born. We usually think about what we learn more than how we learn, however. In this course, you’ll engage in hands-on activities to help you explore yourself as a learner. Additionally, you’ll be exploring time-management, your motivation as a learner, keeping a learning journal, and strategies for applying your learning to assignments. Research and experience tell us that adult learners tend not to finish their degree programs in higher numbers than traditional-aged students. There are many reasons, among them the complications of adult life with jobs, families, and life changes. This course exists to help adult learners understand themselves better as learners and to map out strategies of support and resources to help them achieve graduation.

DCM 332  
APPLIED STATISTICS  
Undergraduate  
In this class, students will look at how numerical knowledge is created and interpreted, and how these processes give us tools to critical analyze ideas, policies, and scientific conclusions. Some knowledge of mathematics is essential to understanding statistics. Thus, completion of a standard course in quantitative reasoning or college algebra will be of great help in succeeding in this course of study. Competences: S2X, FX

DCM 333  
ADDICTIONS AND RECOVERY  
Undergraduate  
This course seeks to explore and understand alcohol and drug addiction from a biological, psychological, and social approach. Students will learn about the different causes of addiction, understanding addiction as both a disease and a behavioral phenomenon. In addition, the societal effects of addiction will be explored, highlighting in particular the impact on mental health centers, hospitals and prison systems. Students will then study the most common drugs of addiction. Finally, a variety of treatments for drug addiction will be explored, and the class will culminate with students developing a treatment plan for a hypothetical case study.
DES 141
PRINCIPLES OF DESIGN
Undergraduate
Principles of Design (4 quarter hours). First course of a 3-quarter sequence of courses for the appreciation and experience of design as an aesthetic distinct from the other arts, and awareness of design considerations as manifested in theatrical productions.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 142
PRINCIPLES OF DESIGN
Undergraduate
Second course of a 3-quarter sequence of courses for the appreciation and experience of design as an aesthetic distinct from the other arts, and awareness of design considerations as manifested in theatrical productions.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 143
PRINCIPLES OF DESIGN
Undergraduate
Third course of a 3-quarter sequence of courses for the appreciation and experience of design as an aesthetic distinct from the other arts, and awareness of design considerations as manifested in theatrical productions.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 208
SOUND DESIGN I
Undergraduate
First course in a 3 course sequence. This is an introduction class to the artistry of sound design through understanding the physics behind sound and the tools by which you will manipulate it. The students will also learn basic ideas behind how to approach placing sound to a visual theatrical element.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 209
SOUND DESIGN I
Undergraduate
Second course in a 3 course sequence. In this class the students will learn the history of sound design, as well as how music and the recording of sound has changed throughout the years. Students will also learn how to approach a script and apply sound design to it.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 210
SOUND DESIGN I
Undergraduate
Third course in a 3 course sequence. This class goes more into depth with the process of sound design. In this class the students will learn how to approach a specific play, and design it within the process that you will come to learn as The Theatre School's standard production practice.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 240
LIGHTING TECHNOLOGY
Undergraduate
Lighting Technology (2 quarter hours) Technical and mechanical aspects of lighting. A detailed study of standard equipment, lamps, connectors, control systems, hanging positions, procedures and practices for the lighting designer.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 241
SCENE DESIGN I
Undergraduate
First of a 3-course sequence. An introduction to the methods of scenic design, with exposure to both historical and contemporary practice. Students become familiar with the mechanical aspects of scenery and stages, and assimilate the principles of design and the technical requirements of a script into a fully developed scene design.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 242
SCENE DESIGN I
Undergraduate
Second of a 3-course sequence. An introduction to the methods of scenic design, with exposure to both historical and contemporary practice. Students become familiar with the mechanical aspects of scenery and stages, and assimilate the principles of design and the technical requirements of a script into a fully developed scene design.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 243
SCENE DESIGN I
Undergraduate
Third of a 3-course sequence. An introduction to the methods of scenic design, with exposure to both historical and contemporary practice. Students become familiar with the mechanical aspects of scenery and stages, and assimilate the principles of design and the technical requirements of a script into a fully developed scene design.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 244
COSTUME DESIGN I
Undergraduate
First of a 3-course sequence. An introduction to costume. Students will explore the design process, costume silhouette and detail, and scripts and character analysis within the context of historical theatrical costuming. CO-REQUISITE: THE 382.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 245
COSTUME DESIGN I
Undergraduate
Second of a 3-course sequence. An introduction to costume. Students will explore the design process, costume silhouette and detail, and scripts and character analysis within the context of historical theatrical costuming. CO-REQUISITE: THE 382.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 246
COSTUME DESIGN I
Undergraduate
Third of a 3-course sequence. An introduction to costume. Students will explore the design process, costume silhouette and detail, and scripts and character analysis within the context of historical theatrical costuming. CO-REQUISITE: THE 382.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 247
LIGHTING DESIGN I
Undergraduate
First course in a 3 course sequence. The development and communication of lighting ideas. Script analysis, images, visual research, lighting concepts. The observation of light, and the development of oral, written and visual communication of lighting ideas.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 248
LIGHTING DESIGN I
Undergraduate
Second course in a 3 course sequence. The development and communication of lighting ideas. Script analysis, images, visual research, lighting concepts. The observation of light, and the development of oral, written and visual communication of lighting ideas.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 249
LIGHTING DESIGN I
Undergraduate
Third course in a 3 course sequence. The development and communication of lighting ideas. Script analysis, images, visual research, lighting concepts. The observation of light, and the development of oral, written and visual communication of lighting ideas.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 250
MATERIALS AND PROCESSES
Undergraduate
The objective of this course is to familiarize the student set designer with the architectural and construction conventions that impact scene design. Students study a variety of standard stage environments, as well as the specialized vocabulary and equipment commonly used in theatrical production spaces. Students will also be introduced to the most common scenic construction materials, their strengths, their limitations, and the tools used to manipulate these materials. Whenever possible, a hands-on approach will be used to acquaint the student with the machinery, materials, hardware, and tools regularly used in theatrical production.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 252
SCENOGRAPHIC DRAFTING
Undergraduate
Second course in a 3 course sequence. With an emphasis on practical work in substantial projects, students learn the organization of the technical documentation of scenery. Scenic drafting conventions are studied and applied to the comprehensive communication of a design.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 253
SCENOGRAPHIC DRAFTING
Undergraduate
Third course in a 3 course sequence. With an emphasis on practical work in substantial projects, students learn the organization of the technical documentation of scenery. Scenic drafting conventions are studied and applied to the comprehensive communication of a design.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 271
DESIGN PRODUCTION PRACTICE I
Undergraduate
First course in a 3 course sequence. Design students do practical work on planning, constructing, rigging, painting, crewing, and running of productions. Areas may include scenery, costumes, lighting, or sound.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 272
DESIGN PRODUCTION PRACTICE I
Undergraduate
Second course in a 3 course sequence. Design students do practical work on planning, constructing, rigging, painting, crewing, and running of productions. Areas may include scenery, costumes, lighting, or sound.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 273
DESIGN PRODUCTION PRACTICE I
Undergraduate
Third course in a 3 course sequence. Design students do practical work on planning, constructing, rigging, painting, crewing, and running of productions. Areas may include scenery, costumes, lighting, or sound.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 284
MODEL BUILDING
Undergraduate
The course focuses on creating professional quality scale models of stage scenery. Students will learn to work with a variety of materials (foamcore, board, paper, wood, and metal, and appropriate glues), will find sources for scale furnishings, and will learn a variety of techniques such as soldering and casting.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 285
MEDIA FOR DESIGNERS
Undergraduate
Students will gain experience with a variety of color media that will be useful in illustrating and rendering their designs for the stage. Media covered will include watercolor, acrylics, oil pastel, colored pencil, and others.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 286
LIFE DRAWING
Undergraduate
By creating drawings from live models, students will learn about body structure and musculature, and will develop their skills in figure drawing, and 'drawing what you see'.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 308
SOUND DESIGN II
Undergraduate
First course in a 3 course sequence. Students will learn both simple and advanced methods of music composition using MIDI, hardware and software samplers and keyboards. Students will create several pieces of composed music including scores for theatre and film and integrate other learned skills to create sound designs for both published and new plays.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 309
SOUND DESIGN II
Undergraduate
Second course in a 3 course sequence. Students will learn both simple and advanced methods of music composition using MIDI, hardware and software samplers and keyboards. Students will create several pieces of composed music including scores for theatre and film and integrate other learned skills to create sound designs for both published and new plays.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 310
SOUND DESIGN II
Undergraduate
Third course in a 3 course sequence. This is a more in depth look at sound design and the actual programming and tech process. Students will learn how to quickly adapt and manipulate sound cues as if they are in a technical rehearsal. This class will help aid the student in their collaboration and communication skills.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 320
ADVANCED MAKEUP
Undergraduate
Advanced Makeup is one quarter course with a pre-requisite of 2 quarters of Beginning Makeup. In this course students will design a character makeup involving both facial prosthetics and ventilated hair. Three types of facial prosthetics are produced: silicone, foamed latex and slush molded latex. Face casting, clay sculpting and mold making are taught as steps to creating the final prosthetic. A ventilated hair piece is produced with attention to techniques of pattern making, hair processing, ventilating and hair dressing. Painting techniques are reviewed as final makeup is put together. Each year the class will choose one "extra" technique to pursue. Past pursuits have been: Kabuki Makeup with Kabuki master Shozo Sato, Tooth casting and stage teeth.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 341
SCENE DESIGN II
Undergraduate
First course in a 3 course sequence. Basic techniques are incorporated into a comprehensive approach to scene design with the emphasis on aesthetics. The analysis of scripts in visual terms, visual research methods, style in the theater, and the development of a design concept, are studied through projects in contrasting styles of stage designs.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 342
SCENE DESIGN II
Undergraduate
Second course in a 3 course sequence. Basic techniques are incorporated into a comprehensive approach to scene design with the emphasis on aesthetics. The analysis of scripts in visual terms, visual research methods, style in the theater, and the development of a design concept, are studied through projects in contrasting styles of stage designs.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 343
SCENE DESIGN II
Undergraduate
Third course in a 3 course sequence. Basic techniques are incorporated into a comprehensive approach to scene design with the emphasis on aesthetics. The analysis of scripts in visual terms, visual research methods, style in the theater, and the development of a design concept, are studied through projects in contrasting styles of stage designs.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 344
COSTUME DESIGN II
Undergraduate
First course in a 3 course sequence. Lectures and projects in costume design for the modern drama, specifically from realism through the 20th century styles. Design projects include script interpretation, rendering techniques, budgets, and fabric selections.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 345
COSTUME DESIGN II
Undergraduate
Second course in a 3 course sequence. Lectures and projects in costume design for the modern drama, specifically from realism through the 20th century styles. Design projects include script interpretation, rendering techniques, budgets, and fabric selections.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 346  
COSTUME DESIGN II  
Undergraduate  
Third course in a 3 course sequence. Lectures and projects in costume design for the modern drama, specifically from realism through the 20th century styles. Design projects include script interpretation, rendering techniques, budgets, and fabric selections.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 347  
LIGHTING DESIGN II  
Undergraduate  
First course in a 3 course sequence. The implementation of lighting ideas. Practice in the translation of lighting ideas into actual designs. Light pads, lighting paperwork, Vectorworks, the use of equipment and the exploration of realistic lighting styles.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 348  
LIGHTING DESIGN II  
Undergraduate  
Second course in a 3 course sequence. The implementation of lighting ideas. Practice in the translation of lighting ideas into actual designs. Light pads, lighting paperwork, Vectorworks, the use of equipment and the exploration of realistic lighting styles.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 349  
LIGHTING DESIGN II  
Undergraduate  
Third course in a 3 course sequence. The implementation of lighting ideas. Practice in the translation of lighting ideas into actual designs. Light pads, lighting paperwork, Vectorworks, the use of equipment and the exploration of realistic lighting styles.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 361  
THEATRICAL COLLABORATION  
Undergraduate  
An investigation, through research and discussion, of the conceptual problems of physically mounting specific, assigned scripts from the classic and modern theatre, covering a broad stylistic range. Students will submit proposals for designs and justify their ideas through literary and pictorial research. The directorial and collaborative problems of arriving at a production concept, up to, but not including fully-realized design documentation, is emphasized through a series of projects.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 362  
THEATRICAL COLLABORATION  
Undergraduate  
An investigation, through research and discussion, of the conceptual problems of physically mounting specific, assigned scripts from the classic and modern theatre, covering a broad stylistic range. Students will submit proposals for designs and justify their ideas through literary and pictorial research. The directorial and collaborative problems of arriving at a production concept, up to, but not including fully-realized design documentation, is emphasized through a series of projects.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 371  
DESIGN PRODUCTION PRACTICE II  
Undergraduate  
First course in a 3 course sequence. For all design students. Through demonstration, discussion, lecture, and projects, students explore assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 372
DESIGN PRODUCTION PRACTICE II
Undergraduate
Second course in a 3 course sequence. For all design students. Through demonstration, discussion, lecture, and projects, students explore assignments will be commensurate with ability and experience.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 373
DESIGN PRODUCTION PRACTICE II
Undergraduate
Third course in a 3 course sequence. For all design students. Demonstration, discussion, lecture, and projects. Assignments will be commensurate with ability and experience.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 384
RENDERING FOR DESIGNERS I
Undergraduate
First course in a 3 course sequence. The course consists of exercises, studies and renderings using values of gray to achieve the illusion of 3-dimensional form. With a variety of drawing and painting materials, students work from gradually more complex still-life set ups, under controlled lighting, and form a clipping file of research which they compile.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 385
RENDERING FOR DESIGNERS II
Undergraduate
Second course in a 3 course sequence. The course consists of exercises, studies and renderings using values of gray to achieve the illusion of 3-dimensional form. With a variety of drawing and painting materials, students work from gradually more complex still-life set ups, under controlled lighting, and form a clipping file of research which they compile.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 386
RENDERING FOR DESIGNERS III
Undergraduate
Third course in a 3 course sequence. The course consists of exercises, studies and renderings using values of gray to achieve the illusion of 3-dimensional form. With a variety of drawing and painting materials, students work from gradually more complex still-life set ups, under controlled lighting, and form a clipping file of research which they compile.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 387
SCENE PAINTING
Undergraduate
First course in a 3 course sequence. Discussion of the formulation and handling of scene paints and dyes, brushes and tools, and techniques. Practical laboratory work in problems of the realistic representation of a variety of textures and materials at scenic scale leads to fully developed illusionistic and pictorial stage scenery.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 388
SCENE PAINTING
Undergraduate
Second course in a 3 course sequence. Discussion of the formulation and handling of scene paints and dyes, brushes and tools, and techniques. Practical laboratory work in problems of the realistic representation of a variety of textures and materials at scenic scale leads to fully developed illusionistic and pictorial stage scenery.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 389
SCENE PAINTING
Undergraduate
Third course in a 3 course sequence. Discussion of the formulation and handling of scene paints and dyes, brushes and tools, and techniques. Practical laboratory work in problems of the realistic representation of a variety of textures and materials at scenic scale leads to fully developed illusionistic and pictorial stage scenery.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 399
INDEPENDENT STUDY
Undergraduate
Independent Study

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 408
SOUND DESIGN III
Graduate
This course incorporates the full design of a show using the students' own compositions. The students will complete an entire play start to finish without using any found music.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 409
SOUND DESIGN III
Undergraduate
This class will help the student prepare their own specific branding for their freelance career so that they will have a complete packaging of their artwork. In addition they will be working on 2 plays simultaneously in order to jump-start into the multi-tasking that is involved in Sound Design.

Status as Graduate Theatre student is a prerequisite for this class.

DES 410
SOUND DESIGN III
Undergraduate
Each week will be an introduction to different careers that are possible within the field of Sound Design. This class will contain guest lectures from the professional designers who specialize in each field. This will help the student narrow their focus to what they wish to achieve after they graduate. In addition, the students will be working on 3 plays simultaneously to continue their multi-tasking ability.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 441
SCENE DESIGN III
Undergraduate
First course in a 3 course sequence. Students complete assignments in the conceptual analysis and fulfillment of projects covering a wide variety of genres, including designs for the classical and modern drama, opera, and the ballet. As a corollary, portfolios of a professional caliber are developed. PREREQUISITE(S): DES 343.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 442
SCENE DESIGN III
Undergraduate
Second course in a 3 course sequence. Students complete assignments in the conceptual analysis and fulfillment of projects covering a wide variety of genres, including designs for the classical and modern drama, opera, and the ballet. As a corollary, portfolios of a professional caliber are developed.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 443
SCENE DESIGN III
Undergraduate
Third course in a 3 course sequence. Students complete assignments in the conceptual analysis and fulfillment of projects covering a wide variety of genres, including designs for the classical and modern drama, opera, and the ballet. As a corollary, portfolios of a professional caliber are developed. PREREQUISITE(S): DES 442.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 444
COSTUME DESIGN III
Undergraduate
First course in a 3 course sequence. Costume design for the diverse styles of the pre-modern drama evolving through lecture and project work. Projects will include script interpretation, developing a professional portfolio, discussions on career planning, and the exploration of costume design within the areas of musical theater, opera, dance, film, television and commercials.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 445
COSTUME DESIGN III
Undergraduate
Second course in a 3 course sequence. Costume design for the diverse styles of the pre-modern drama evolving through lecture and project work. Projects will include script interpretation, developing a professional portfolio, discussions on career planning, and the exploration of costume design within the areas of musical theater, opera, dance, film, television and commercials.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 446
COSTUME DESIGN III
Undergraduate
Third course in a 3 course sequence. Costume design for the diverse styles of the pre-modern drama evolving through lecture and project work. Projects will include script interpretation, developing a professional portfolio, discussions on career planning, and the exploration of costume design within the areas of musical theater, opera, dance, film, television and commercials.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 447
LIGHTING DESIGN III
Undergraduate
First course in a 3 course sequence. Complete lighting design projects in a variety of styles and methods of presentation including unit set, multi-set, musicals, operas. Cuing, scenery and backdrop design will also be covered.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 448
LIGHTING DESIGN III
Undergraduate
Second course in a 3 course sequence. Complete lighting design projects in a variety of styles and methods of presentation including unit set, multi-set, musicals, operas. Cuing, scenery and backdrop design will also be covered.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 449
LIGHTING DESIGN III
Undergraduate
Third course in a 3 course sequence. Complete lighting design projects in a variety of styles and methods of presentation including unit set, multi-set, musicals, operas. Cuing, scenery and backdrop design will also be covered.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 471
DESIGN PRODUCTION PRACTICE III
Undergraduate
For all design students. Assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 472
DESIGN PRODUCTION PRACTICE III
Undergraduate
For all design students. Assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 473
DESIGN PRODUCTION PRACTICE III
Undergraduate
For all design students. Assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 484
PHOTOSHOP FOR DESIGNERS
Undergraduate
This class will take students through the process of creating professional renderings of stage scenery, costumes, and lighting, by using Photoshop to manipulate and transform their original sketches. Through this process, the students will master the tools available in Photoshop, and will create portfolio-ready rendering works.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 485
PROJECT DESIGN
Undergraduate
This is a one quarter course that provides students with basic design concepts, techniques and skills in the use of projection design for theatre. The classes combine lecture-discussion and studio work, and are project based to apply learned skills to the projection design process. The course focuses on conceiving motion and still images for projection, communicating those ideas to the design team through story boards, and realizing those ideas through the use of Isadora® video control software. The instructor will work with students individually to focus on techniques that support each student?s specific design discipline. Every effort will be made to bring students into working theaters to see professional theatre productions using projections. No pre-requisite; a working knowledge of Adobe Photoshop® is recommended.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 486
PORTFOLIO PREPARATION
Undergraduate
Students will work on developing a professional portfolio that showcases their design work to best advantage. Students will develop a consistent presentation style and will rework projects as necessary to increase the quality of their portfolio.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 490
DESIGN INTERNSHIP
Undergraduate
The internship provides the student with an opportunity to learn by working with experienced professionals in an area related to his/her area of study at The Theatre School.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 641
THEATRICAL COLLABORATION
Graduate

An investigation, through research and discussion, of the conceptual problems of physically mounting specific, assigned scripts from the classic and modern theatre, covering a broad stylistic range. Students will submit proposals for designs and justify their ideas through literary and pictorial research. The directorial and collaborative problems of arriving at a production concept, up to, but not including fully-realized design documentation, is emphasized through a series of projects.

Status as Graduate Theatre student is a prerequisite for this class.

DES 642
THEATRICAL COLLABORATION
Graduate

An investigation, through research and discussion, of the conceptual problems of physically mounting specific, assigned scripts from the classic and modern theatre, covering a broad stylistic range. Students will submit proposals for designs and justify their ideas through literary and pictorial research. The directorial and collaborative problems of arriving at a production concept, up to, but not including fully-realized design documentation, is emphasized through a series of projects.

Status as Graduate Theatre student is a prerequisite for this class.

DS 591
DISTRIBUTED ALGORITHMS
Graduate

Design and analysis of algorithms for solving problems arising in distributed computing, such as resource allocation, distributed agreement, and management of shared data. Distributed computation models and their relationships: synchronous vs. asynchronous vs. partially synchronous, shared memory vs. network models. Algorithms for leader election, graph problems, mutual exclusion, and synchronization in reliable and unreliable networks will be covered. PREREQUISITE(S): CSC 491.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

EA 505
APPLIED INQUIRY PROJECT PROPOSAL I
Graduate

Each student will design his/her SNL 628 Applied Inquiry Project, in consultation with the faculty mentor and a project Advisor. Proposal I emphasizes selecting a project topic/focus and conducting a literature review.

EA 506
APPLIED INQUIRY PROJECT PROPOSAL II
Graduate

Each student will design his/her SNL 628 Applied Inquiry Project, in consultation with the faculty mentor and a project Advisor. Proposal II emphasizes the purpose and design of the inquiry project, and audience(s) for dissemination.

EA 515
DEVELOPING PROFESSIONAL IDENTITY
Graduate

Practitioners in the field of formal and informal adult education, start the program with an examination of their professional interests, experiences and work environments. Within the context of the body of knowledge within adult education, learners will explore questions about competencies, expectations, beliefs, and assumptions that will guide them to analyze the various historical, cultural, philosophical, theoretical, and social contexts.

EA 516
DESIGNING EDUCATIONAL OFFERINGS
Graduate

This course builds competencies in designing educational offerings. It emphasizes pre-design assessment models and practices to prepare practitioners for designing a variety of education events and processes with the learner's needs in mind.
EA 517
FACILITATING ADULTS LEARNING
Graduate
The intersection of design, learning outcomes, and assessment processes passes through the medium of facilitation in educational settings. This course expands the practitioners' repertoire of effective delivery of facilitation/instruction strategies and techniques, and integrating the use of technology in instruction (including Internet-based teaching).

EA 518
ENHANCING PRACTICE WITH THEORY
Graduate
This course aims to ground practitioners' experiences and praxis within relevant adult learning theories and developmental theories. Students will connect researching to the creation and/or application of best practices in their respective niche of adult education.

EA 525
PRACTICE-BASED INQUIRY
Graduate
This course lays the groundwork for the applied inquiry project (SNL 627). Students will learn to connect their professional and personal interests to one or more forms of research: traditional, innovative, theoretical, applied, and/or evaluative.

EA 526
ASSESSING LEARNING AND EVALUATING PROGRAMS
Graduate
This course presents approaches for selecting and applying assessment and evaluation models and strategies. It focuses on assessing individuals' learning in the context of evaluating programs and actions intended to meet learners' needs. Participants will gain skills in evaluation instrument design, selection of assessment methods and instruments, assessment of short-term effects, and report writing.

EA 527
FINDING AND MANAGING INFORMATION
Graduate
This MAEA foundational course provides participants with skills in collecting, analyzing and synthesizing literature and resources in their respective area(s) of practice. Among these skills are: searching and accessing various sources; discerning credibility of sources; storing and retrieving information for oneself; constructing thematic literature reviews; and, citing sources using APA style.

EA 528
APPLIED INQUIRY PROJECT
Graduate
Students will be able to inquire into particular areas of their professional interest within the field of adult learning/adult education. This course is individualized and supported by mentors.

EA 536
REFLECTIVE PRACTICE SEMINAR II
Graduate
After the third quarter, students come together for group reflection and analysis and review of their progress in the program. This seminar assists students in focusing their capstone inquiry project.

EA 537
REFLECTIVE PRACTICE SEMINAR III
Graduate
After the fifth quarter, this seminar offers an opportunity for program review and collaborative review of capstone project process.

EA 538
REFLECTIVE PRACTICE SEMINAR IV
Graduate
At the end of the program, students join in a summit to review their program, engage in discussion on their next steps, and review their credo of adult education. It is also a preliminary graduation review to ensure that any "loose ends" are recognized and appropriate action is clarified for students.
EA 535
REFLECTIVE PRACTICE SEMINAR I
Graduate
This is a faculty-guided session, which includes the admission process. Students design their course of study, identify course and independent study options, sketch out a potential research agenda, and develop a rudimentary credo and statement of purpose.

Status as an MAEA student or departmental permission is a prerequisite for this class.

ECE 91
CLINICAL EXPERIENCES WITH INFANTS AND TODDLERS
Undergraduate
(1 credit) Candidates will observe and interact with infants and toddlers (25 clock hours) and attend a weekly seminar in which they will be required to reflect on their experiences in relation to the development and learning processes in infants and toddlers. Appropriate early childhood assessment and intervention methodologies will be emphasized. COREQUISITE: ECE 290.

ECE 92
CLINICAL EXPERIENCES WITH YOUNG CHILDREN AND FAMILIES
Undergraduate
(1 credit) Candidates will observe and interact with young children and their families in family training programs, family conferences and home visits will be included in the options.(25 clock hours). COREQUISITE: ECE 302.

ECE 93
CLINICAL EXPERIENCES WITH PRESCHOOLERS
Undergraduate
(1 credit) Candidates will observe and interact with preschool age children (25 clock hours) and attend a weekly seminar in which they will be required to reflect on their experiences in relation to the development and learning processes in preschool age children. Appropriate early childhood assessment and instructional methodologies will be emphasized. COREQUISITE: ECE 310.

Advanced Teacher Candidate Standing is a prerequisite for this class.

ECE 94
CLINICAL EXPERIENCES IN PRIMARY GRADES
Undergraduate
(1 credit) Candidates will observe and interact with primary age children (25 clock hours) and attend a weekly seminar in which they are required to reflect on their experiences in relation to the development and learning processes in the primary years. Appropriate assessment and instructional methodologies for children in the primary grades will be emphasized. COREQUISITE: ECE 311.

Advanced Teacher Candidate Standing is a prerequisite for this class.

ECE 286
ART, MUSIC, AND MOVEMENT FOR THE YOUNG CHILD
Undergraduate
This course will focus on the theory, research, methods, and activities of art, music, and movement for young children birth through age 8. Emphasis will be on the integration of developmental domains, creative and critical thinking as developmental domains are integrated.

ECE 290
CHILD GROWTH AND DEVELOPMENT
Undergraduate
This course examines human growth and development of the child from pregnancy through age eight, including cognitive, physical, social, spiritual, creative, and emotional development. Theories of the young child including those of Piaget, Erikson, Vygotsky, Gardner, Montessori and others are explored. COREQUISITE: ECE 091.
ECE 298
CHILD HEALTH SAFETY AND NUTRITION
Undergraduate
This course focuses on the interrelationships among child, family and the areas of health, safety and nutrition. Special emphasis will be placed upon the issues of health, safety and nutrition that affect young children from the ages of birth through age 8. Understanding cultural issues and special needs of individual children are addressed, as are aspects of health and safety. Central to this course is the acquisition of knowledge and application of practices that promote good nutrition, dental health, and the physical, social and emotional well being of young children. The course includes information on common diseases and health problems.

ECE 302
CHILD AND FAMILY IN THE URBAN ENVIRONMENT
Undergraduate
This course will focus on understanding the diversity of children and families in approaches to development, learning, and disability. It will examine how teachers may provide a curriculum and environments within the context of family and community that honor the families' and communities' beliefs, values, and practices. In addition, ways to develop and maintain productive and collaborative relationships between professionals and families, communities and other professionals across the range of systems are examined.

ECE 092 is a prerequisite for this class.

ECE 303
HISTORY AND PHILOSOPHY OF EARLY CHILDHOOD EDUCATION
Undergraduate
Historical, sociological, philosophical and psychological foundations of early childhood education are explored. Review of key theories and research informs the development of early childhood education goals and practices including administration, ethics and program models. Personal reflections are applied to the field and course readings.

ECE 306
UNDERSTANDING YOUNG CHILDREN'S BEHAVIOR
Undergraduate
This course focuses on understanding children's observable behaviors and environmental and biological factors that affect young children's behaviors (ages birth through 8). The course will provide candidates with techniques to identify and effectively address negative behaviors in young children by using principles of Applied Behavior Analysis and Functional Behavior Assessment. General classroom management techniques will also be examined. Completing 15 hours of field experience in an early childhood special education setting is part of the requirements for this course.

Advanced Teacher Candidate Standing is a prerequisite for this class.

ECE 307
SPEECH AND LANGUAGE DEVELOPMENT OF THE YOUNG CHILD
Undergraduate
This course examines the development of speech and language in young children. The course will explore assessing children's language development as well as providing techniques for supporting and enhancing language growth. Attention will be given to dialectal issues as these apply to growth and development of linguistic competencies through the early childhood years.

ECE 290 and Advanced Teacher Candidate Standing are a prerequisite for this class.

ECE 309
YOUNG EXCEPTIONAL CHILD
Undergraduate
This course introduces candidates to the field of early childhood special education including the Early Intervention System. Characteristics of infants, toddlers and young children with special needs are examined. Methods of working with different disabilities during the early years will be explored. Strengths and needs of families of young children with disabilities and collaboration with family members will be emphasized in this course. Completing 15 hours of field experience in an early childhood special education setting is a part of the requirements for this course.

ECE 290 is a prerequisite for this class.
ECE 310
PREPARY PROGRAMS: CURRICULUM AND STRATEGY
Undergraduate
Candidates will plan, implement and evaluate activities that promote the physical, emotional, social, spiritual, cognitive, and creative
development of preschool children from diverse cultural and socioeconomic backgrounds. Emphasis will be placed on creating learning
environments that facilitate children?s learning through play. Developmentally appropriate practices, with a particular emphasis on social
studies; use of technology; and learning centers will be thoroughly investigated. COREQUISITE: ECE 093.
ECE 290 and Advanced Teacher Candidate Standing are a prerequisite for this class.

ECE 311
CURRICULUM AND INSTRUCTION IN PRIMARY GRADES
Undergraduate
This course provides an examination of the objectives, content methods and materials used in the primary grades of elementary schools. A
variety of teaching methods and classroom management strategies will be discussed and illustrated, including teacher-led and student-
centered instruction. Candidates will be encouraged to reflect upon their own emerging educational philosophies and teaching styles as they
take part in laboratory and clinical experiences. Many opportunities for planning, using and evaluating a variety of teaching methods will be
offered. Each student will develop at least one teaching unit on a primary social studies theme. COREQUISITE: ECE 094.
Advanced Teacher Candidate Standing is a prerequisite for this class.

ECE 312
BILINGUAL THEORY IN EARLY CHILDHOOD DEVELOPMENT
Undergraduate
This course is designed to equip bilingual and second language teachers with the knowledge and philosophy to work effectively in the
education of early childhood language minority students in the context of bilingual/ESL programs. The course will explore the historical,
political and legal foundations of bilingual education programs in the United States. It will examine different models of bilingual programs and
the psycholinguistic and sociolinguistic principles upon which they are based.

ECE 313
CROSS CULTURAL STUDIES IN EARLY CHILDHOOD EDUCATION
Undergraduate
The course will discuss the historical, philosophical and cultural foundations of education of young children in a multicultural society,
emphasizing the role of ethnicity and cultural variables in development of young children within the context of families, childcare centers, and
educational systems. Topics include: history of immigration and predictions for the future; the effects of population shifts on the education of
English Language Learners and their families; the impact of laws, litigation and executive orders on bilingual/English-as-a-Second-Language
education; understanding cultural and linguistic differences regarding locating and using educational resources.

ECE 314
METHODS AND MATERIALS FOR ENGLISH LANGUAGE LEARNERS IN EARLY CHILDHOOD EDUCATION
Undergraduate
This course will discuss best practices in teaching and learning in English Language Learning and bilingual early childhood classroom contexts,
from birth through age 8. Candidates will demonstrate competencies with different approaches and methodologies currently used to support
the development of listening, speaking, reading and writing in social and academic contexts in learners' first and second language. Curriculum
based assessment; cultural awareness and self-reflective practice will also be addressed.

ECE 325
SECOND LANGUAGE ACQUISITION AND EARLY LITERACY DEVELOPMENT
Undergraduate
This course will examine the process of learning and using a second language. Research in second language acquisition (SLA) is multi-
disciplinary in nature, reflecting the complexity of language learning and use. Linguistic, psychological and social processes that underlie
language(s) learning and use will be introduced and applied to the understanding of this learning in young children. Language acquisition
theory concerning relationships between early literacy and oral language development in first and subsequent languages will be explored.
Understanding developed through this exploration will then be applied to the classroom in the form of strategies and literacy development
activities.
ECE 326
PRINCIPLES AND STRATEGIES FOR FAMILY ADVOCACY AND ACTION IN EARLY CHILDHOOD
Undergraduate
This course develops knowledge and skills to assist families of young children who face the stress of living in poverty. The focus will be on developing empathetic relationships with families so that family service and education can be optimized. Candidates will be assisted in learning to identify community resources and ways to support families in accessing resources. A focal point will be on ways to empower families, recognizing family strengths and respect for cultural variables, as they apply.

ECE 302 is a prerequisite for this class.

ECE 327
IMPACT OF PUBLIC POLICY ON FAMILIES OF YOUNG CHILDREN
Undergraduate
This course is grounded in social justice practice and designed to promote an understanding of the ethical principles, legal issues, policies, and law influencing the well being of families, including those families of young children with disabilities and those who are English Language Learners. A particular focus will be on how federal childcare and education policy affects and shapes early childhood practice and service delivery to families. This course explores historical development of laws and public policy affecting families. Ethics and ethical implications of social change will be explored.

ECE 328
WORKING WITH FAMILIES OF CHILDREN WITH DISABILITIES AND CHRONIC ILLNESS
Undergraduate
This course will strengthen the knowledge and skills of early childhood educators and other professionals working with young children in cultural competency (at the individual and institutional level), family-centered care, family-professional partnerships, family-directed practices, and family empowerment. Candidates will develop best practices to assure the health and well being of children and their families and to honor the strengths, cultures, traditions and expertise that everyone brings to this relationship.

ECE 329
YOUNG CHILDREN’S LITERATURE AND FAMILY LITERACY
Undergraduate
This class explores the joys of reading and provide strategies for candidates to awaken and encourage the joy of reading in the children and families with whom they work. It focuses on how early childhood educators are uniquely positioned to foster literacy in children and their families through thoughtful, theoretically based programming and activities.

ECE 331
BEGINNING MATH AND SCIENCE INSTRUCTION
Undergraduate
This course explores activities, materials, methods, and theoretical principles for teaching mathematics and science in the preschool and primary grades. Twenty hours of clinical practice are required for this course.

ECE 290 and Advanced Teacher Candidate Standing are a prerequisite for this class for registration.

ECE 375
EARLY CHILDHOOD ASSESSMENT
Undergraduate
Students will study, use and evaluate early childhood assessment methods and tools that are appropriate for use with young children with diverse cultural and socioeconomic experiences. Ways of involving families in early childhood assessment will be stressed. How to observe and assess children individually, in groups and in their family systems and networking with community services will be explored.

ECE 290 and Advanced Teacher Candidate Standing are a prerequisite for this class.

ECE 377
ASSESSMENT OF YOUNG BILINGUAL/ ESL STUDENTS
Undergraduate
This course will focus on the discussion of basic principles and current approaches to assessment of language learning students in ESL and bilingual early childhood and early elementary educational settings. Candidates will learn about the different purposes of process and product assessment tools, authentic and curriculum-based forms of assessment, issues in the assessment of English Language Learners (ELLs), and assessment in academic areas for early elementary ELLs. Research on language and literacy acquisition in multilingual learners vis a vis instruction and assessment will be discussed. Candidates will have opportunities to critically examine and learn how to administer assessment tools used in current practice.
ECE 381
INTERNSHIP IN PRESCHOOL SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE)
Undergraduate
Candidates conduct 75 hours of intense supervised field work in preschool during the winter quarter. The internship is designed for advanced ECE candidates to be taken before student teaching. Candidates taking this internship have either taken ECE 310: Preprimary Programs: Curriculum and Strategy (at the undergraduate level), and T&L 432: ECE Curriculum Strategies and Philosophy (at the graduate level) in a previous quarter, or they are taking these courses as co-requisites with this internship.

ECE 382
INTERNSHIP IN PRIMARY SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE)
Undergraduate
Candidates conduct 75 hours of intense supervised field work in a primary grade (K-3) during the spring quarter. The internship is designed for advanced ECE candidates to be taken before student teaching. Candidates taking this internship have either taken ECE 311: Curriculum and Instruction in Primary Grades (at the undergraduate level), and T&L 432: ECE Curriculum Strategies and Philosophy (at the graduate level) in a previous quarter, or they are taking these courses as co-requisites with this internship.

ECE 383
LINGUISTIC PRACTICUM IN EARLY CHILDHOOD EDUCATION (150 CLOCK HOURS)
Undergraduate
This course will focus on application of the theories of effective teaching practices and assessment procedures appropriate for young English Language learners. It will emphasize an application of knowledge gained from previous ESL/ELL courses and demonstration of skills necessary to work collaboratively and effectively with families of young English Language Learners. Professional behaviors that respect, value, and support all children's native language and culture will be reinforced.

ECE 384
EARLY CHILDHOOD EDUCATION CAPSTONE
Undergraduate
The senior capstone course is designed to help Candidates integrate the central emphases of their liberal learning studies curriculum with their professional behavior. It will provide prospective early childhood educators with opportunities to engage in activities requiring them to be reflective, to consider value commitments, to use critical and creative thinking, and to examine their practice from a multicultural perspective as they discuss issues specific to early childhood education. Candidates will develop a professional portfolio that reflects the standards of the various guiding professional organizations. The course is grounded in the School of Education’s framework for an Urban Professional Multicultural Educator, which also reflects the goals of the Liberal Studies program. This course is taken before student teaching.

ECE 385
EARLY CHILDHOOD STUDENT TEACHING
Undergraduate
(12 credits) This course requires students to participate in supervised teaching at a cooperating school, five full days per week, for an academic quarter. Part of the teaching will be in a preprimary setting and part will be in a primary setting. Feedback and discussion of issues encountered in student teaching as well as new materials and techniques of student teaching will be included. Application and approval are required. Open only to DePaul students.

ECE 399
INDEPENDENT STUDY IN EARLY CHILDHOOD EDUCATION
Undergraduate
(1-4 Credits) PREREQUISITE(S): Permission from instructor, program chair and associate dean.
The focus of the seminar is to introduce the doctoral students to major research questions and issues in child development. The doctoral students will lead discussions on the most current and seminal research in the field of child development. In addition, the students will participate in analyses of existing US Policies in regards to child development. The seminar will have the following objectives: 1) Examination, analysis, and evaluation of the seminal and contemporary research and research methodologies in child development. 2) Examination and analysis of major theories of child development through a study of the original literature. 3) Examination and analysis of contemporary issues regarding maternal health and early development. 4) Examination, analysis, and evaluation of US policy approaches to maternal health and early child development and education.

Status as a EDD student with a declared concentration is a prerequisite for this class.

This seminar will examine the concept of risk and its influence on child development within various frameworks such as environment, genetics and neurobiology, psychopathology, family, public policy and education. An issue of interest will be development of children who are at-risk due to environment factors. The U.S. policies in addressing this population will be examined. The seminar will have the following objectives: 1) In-depth analysis of the Concepts of risk and resilience through examination of the original research literature. 2) Examination and analysis of various Risk factors (e.g.: genetics, biology, poverty, family, socio political influences)- attention will be given to neurobiological risk factors, including disabilities. 3) Examination and analysis of factors of resilience (including implications for intervention and early childhood education). 4) Examination and analysis of U.S. Policies in relationship to promotion of resilience via early childhood intervention and education programs.

Status as a EDD student with a declared concentration is a prerequisite for this class.

This seminar will examine issues related to curriculum in early childhood education and intervention, including assessment and other related contemporary issues. An in-depth analysis of various theoretical approaches to early childhood education will be conducted. Field observations of model programs in the city will be a part of this seminar. The seminar will have the following objectives: 1) Examination of theoretical approaches to child and family intervention. 2) Examination and analysis of contemporary curricular and assessment issues in early childhood education. 3) Observation and analysis of model early childhood programs. 4) Exploration of other contemporary Early Childhood Education issues.

Status as a EDD student with a declared concentration is a prerequisite for this class.

Doctoral students will examine the design and goals of various early childhood nationally funded early childhood programs. These programs will be examined from their philosophical and policy perspectives. Doctoral students will devote the major part of this seminar to conducting a research evaluation of one selected national early childhood program as a class team project. The research may require utilizing field research methodologies of one or more centers belonging to the selected program. When feasible the students will present their research findings in a local or national conference. The seminar will have the following objectives: 1) Understanding program design. 2) Developing program evaluation to match questions and address stakeholder needs. 3) Acquiring a hands-on experience conducting a program evaluation on a selected early childhood program. 4) Written and oral dissemination of study.

Status as a EDD student with a declared concentration is a prerequisite for this class.

This seminar will focus on examining the influences of culture and language in development and education of children. Current cross-cultural, cross-lingual educational research will be examined in detail.

Status as a EDD student with a declared concentration is a prerequisite for this class.
ECE 759
TEACHING INTERNSHIP IN EARLY CHILDHOOD EDUCATION
Graduate
This teaching internship, which spans across two quarters, is designed to respond to the growing need for training high quality teaching professionals in the field. The doctoral students acquire a hands-on experience in the field of college level teaching in early childhood education. The doctoral candidates will take on teaching two college level early childhood education courses for the duration of two quarters under the supervision of an early childhood program faculty. The courses to be taught are recommended by the supervising faculty. The major objectives of this internship are: 1) Demonstrating mastery of content. 2) Demonstrating abilities and skills in teaching university level students and pre-service early childhood professionals from diverse backgrounds.

Status as an EDD student with a declared concentration is a prerequisite for this class.

ECE 769
RESEARCH INTERNSHIP IN EARLY CHILDHOOD EDUCATION
Graduate
This research internship, which spans across two quarters, is designed to provide a hands-on experience for doctoral students in the field of research in early childhood education. With the approval of the ECE program faculty, the candidates will work either with a faculty from the College of Education, from another college at the DePaul University, or from a research associate or scientist at DePaul or in another institution to work and assist on a research project in one of the following areas: child development, early childhood education, child and family studies, psychological or another closely related field. The research internship will take place for the duration of two quarters (Fall through winter quarter, or spring through summer quarter). The student's progress will be followed up by an early childhood advising faculty. The internship has the following objectives: 1) Understanding the DePaul's IRB protocol and application process to acquire a certification for conducting research. 2) Acquiring a first-hand experience while assisting a research faculty in conducting various phases of research. 3) Collecting, analyzing, and interpreting data under supervision. 4) Understanding various methodologies employed in the field of early childhood education.

Status as an EDD student with a declared concentration is a prerequisite for this class.

ECE 332
EARLY LITERACY AND ASSESSMENT FOR YOUNG CHILDREN WITH DISABILITIES
Undergraduate
This course focuses on the nature of the reading process, current literacy theory and practices, and research-based instructional strategies to develop literacy skills in emergent and developing readers and young children with reading/learning disabilities. Emphasis is placed on understanding the reading process, analyzing and applying research-based instructional practices, administering, analyzing, and interpreting formal and informal reading assessments, and making informed instructional decisions to meet the unique needs of individual readers. Differences in reading abilities will be examined in light of providing appropriate, effective, and meaningful literacy instruction for young children with disabilities.

ECE 333
EARLY CHILDHOOD EDUCATION FOR LOW INCIDENCE DISABILITIES
Undergraduate
This course focuses on an examination of the developmental and learning characteristics of young children with low incidence disabilities. A specific focus is on educating early childhood students with Autism Spectrum Disorders and those with Intellectual Disabilities. A primary goal of this course is to understand the learning needs of these children, and to examine and evaluate various educational and therapeutic methods of working with them. A major part of this course is devoted specifically to the characteristics associated with and interventions for children with Autism Spectrum Disorders.

ECE 334
SPECIAL EDUCATION CURRICULUM AND STRATEGIES FOR YOUNG CHILDREN
Undergraduate
Study of the theoretical and practical approaches to instruction for young children with high incidence disabilities. Emphasis placed on the development of supportive learning environments, using special curricular and behavioral management strategies for all early childhood settings; application of collaborative practices with multiple service providers and families to meet the needs of diverse learners with high incidence disabilities. Strategies and materials for improving the social, emotional, and academic adjustment and functioning of young children with high incidence disabilities are examined. Includes teaching social and emotional curricula; implementing functional behavioral assessment; and monitoring growth and development in targeted areas. Strategies to increase the young child are self-awareness; self-management, self-control, self-reliance, and self-esteem are considered. Application of diagnostic information into teaching strategies and implementation of an instructional plan (IEP) is a central tenet of the course. It is recommended for students to take ECE 290 and ECE 309 and 25 clock hours for Level II Experience prior to taking this class.
ECE 380
EARLY CHILDHOOD SPECIAL EDUCATION PRACTICUM
Undergraduate
Supervised teaching in a cooperating school serving young children with disabilities for one hundred fifty clock hours; arranged in collaboration with supervising faculty member and the Field Experience Office. Candidates will reflect upon their teaching experiences with young children with disabilities; collaborate with colleagues and instructor to identify alternative strategies for problematic situations. Application and approval required prior to registration. Open only to DePaul students.

ECO 101
INTRODUCTION TO ECONOMIC ISSUES
Undergraduate
This course will introduce students to basic concepts from both micro- and macroeconomics. The goal is for students to gain an appreciation of how economics can be used to understand the world. Students will enhance their analytical skills by using basic economic concepts to examine current domestic and international issues. Students will improve their oral communication skills during class discussions and debates. This course is intended for non-Commerce students and cannot be counted toward a major or minor in economics.

LSP121 or MAT 130 is a prerequisite for this class.

ECO 105
PRINCIPLES OF MICROECONOMICS
Undergraduate
Principles of Microeconomics. Basic theories of micro (or individual) economic units; the theory of consumer demand, the firm, and distribution; pricing and production in competitive, monopolistic and oligopolistic industries.

MAT 130 or equivalent is a prerequisite for this class.

ECO 106
PRINCIPLES OF MACROECONOMICS
Undergraduate
Principles of Macroeconomics. Fundamental theories of macro (or aggregate) economics: supply and demand, national income accounting and analysis, and international trade. Analysis of unemployment, and inflation, and policies designed to combat these and other current problems.

MAT 130 or equivalent is a prerequisite for this class.

ECO 305
INTERMEDIATE MICROECONOMICS
Undergraduate
Continuation of topics treated in Economics 105, especially consumption and production theory. Marginal analysis and indifference curves are major tools used in discussion of demand for products, pricing output, wages, and distribution of output.

ECO 105 and MAT 135 or equivalent are a prerequisite for this class.

ECO 306
INTERMEDIATE MACROECONOMICS
Undergraduate
The purpose of this course is to develop macroeconomic models that assist in understanding the myriad economic problems facing us today, both domestic and foreign, and in evaluating proposed solutions. These static and dynamic models are used to understand interactions in the macroeconomy, and will serve as a tool in predicting the level of GDP, inflation, unemployment and interest rates. Models included are: traditional short-run Keynesian analysis; the New Classical market-clearing approach; and the recent work in Neo-Keynesian thought.

ECO 105, ECO 106 and MAT 135 or equivalent are a prerequisite for this class.

ECO 307
MANAGERIAL ECONOMICS
Undergraduate
The application of economic theory to the problems of the firm. Examples of topics are demand analysis, sales forecasting, criteria for investment, production, and cost analysis. Not to be taken by Economics majors.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.
ECO 310
URBAN ECONOMICS
Undergraduate
This course discusses the economic rationale for the existence of cities and urban areas. Location decision-making by both firms and households is analyzed with attention given to the resulting land values, land rents, population density gradients, and urban land use patterns. We study models of the supply and demand for housing, the measurement and determination of house value, and the corresponding problems of segregation, housing abandonment, property taxation, and public housing. Other urban problems such as poverty, crime, and transportation are also discussed.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 311
BUSINESS AND ECONOMIC FORECASTING
Undergraduate
Students will learn forecasting tools for microeconomic variables such as sales and profits and macroeconomic variables such as interest rates and GDP growth rates.

ECO 375 is a prerequisite for this class.

ECO 312
THE CHICAGO ECONOMY
Undergraduate
The first part of this course will focus on changes in the Chicago metropolitan economy over time. Topics to be covered will include the development of the Chicago economy in the 19th Century, modern economic development, land use, and suburbanization. The second part of the course will focus on selected policy issues including poverty, housing, pollution, crime, education, transportation, and taxes.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 313
ECONOMICS OF REGULATION & ANTI TRUST LAWS
Undergraduate
Social Control of Business. Relationships between government, business and society. Both the institutional and theoretical aspects of governmental intervention in economic life examined.

ECO 305 is a prerequisite for this course.

ECO 314
ECONOMICS OF THE PUBLIC SECTOR
Undergraduate
This course discusses market failures and the economic role of government. Topics covered will include: government interventions that correct market failures, the efficiency of government policies, collective decision-making and voting, as well as the theory of optimal taxation and the incentive effects of taxes. Specific government programs such as Social Security and welfare programs are also analyzed. The emphasis is on the revenues, expenditures and policies of the federal government.

ECO 305 is a prerequisite for this course.

ECO 315
INTRODUCTION TO MONEY AND BANKING
Undergraduate
Introduction to Money and Banking. The structure of the American banking system; role of the Federal Reserve System; private financial markets and institutions; the effectiveness of monetary policy, and international finance.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.
ECO 316
EUROPEAN ECONOMIC HISTORY
Undergraduate
European Economic History. Major factors and institutions which have influenced the economic development of European nations. Impact of these nations on U.S. development is also discussed.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 317
AMERICAN ECONOMIC HISTORY
Undergraduate
This course addresses the major factors and institutions which have influenced the economic development of the United States, including differences in regional development, slavery, transportation improvements, western expansion, the rise of large scale business, and government policy responses.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 318
LABOR ECONOMICS AND ORGANIZATION
Undergraduate
Historical and theoretical analysis of labor groups and labor market problems (including wage determination, unemployment and discrimination), with particular reference to the dynamic economy of the United States.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 319
ECONOMICS AND GENDER
Undergraduate
This course covers economic trends concerning women in the economy and examines economic analyses of gender issues, with special emphasis on gender issues in the workplace. The increase in the number of women in the workplace has been a major change in labor markets, affecting workers, employers and families. Different economic perspectives are examined to give students an understanding of the range of contributions by economists to this field. The course also examines feminist economics which raises concerns about economic analysis in general and as it is applied to this field.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 320
ECONOMICS OF RELIGION
Undergraduate
This course examines selected economic and sociological aspects of religion in society. Some of the topics that are covered include marriage and divorce, fertility and population growth, schooling, church contributions and work.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 321
LAW & ECONOMICS
Undergraduate
The overall goal of this course will be to demonstrate how businesses and government interact by surveying the economic and legal aspects of this relationship. This course is designed to prepare students to engage in methods of formal inquiry. The students will examine the American historical aspects of this relationship from the industrial revolution to the present. All topics are discussed with an emphasis on real-world applications and will include: a review of microeconomic theory pertaining to market structures with an emphasis on oligopolies; the history of antitrust; a review of the US legal and political framework; government regulation and key judicial decisions affecting businesses and industries concentrating on the legal and economic logic of these decisions. Class will begin with a discussion of current events once a week and it is expected that each student will attempt to participate and be knowledgeable of what is occurring locally, nationally and internationally.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.
ECO 325
THE ECONOMICS OF POVERTY
Undergraduate
This class addresses society's view of poverty. It begins with an introduction to theories of economic justice for perspective. The introduction is followed by empirical issues related to the measurement of poverty and identification of its causes. An assessment of programs designed to ameliorate the effects of poverty also is covered.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 330
THE ECONOMICS OF SOCIALISM
Undergraduate
The origin of socialist economic theory and its relationship to modern economic analysis. Socialist critiques of capitalist economies and capitalist economic theory are developed and related to the theoretical basis for socialism in modern economic theory.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 333
TOPICS IN GLOBAL ECONOMIES
Undergraduate
This course provides an introduction to the major changes in the global economy in the twentieth century. It will devote particular attention to comparative analysis of national economic institutions and performance and business conditions, as well as prominent international institutions such as the International Monetary Fund, World Bank, and World Trade Organization. Knowledge of microeconomic and macroeconomic analysis (Economics 105 and 106) will be presumed and applied to global economic flows and national institutions. Selection of countries and case studies from advanced and developing countries will vary according to recent economic developments.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 334
UNDERSTANDING CHINA'S ECONOMY
Undergraduate
The expansion of relations between China and foreign enterprises continues to entwine China's economy with those of the world. This course will analyze China's continuing evolution into a global market economy. We will examine China's impact to the world economy and the problems that must be overcome for China to continue its dynamic growth. We will further discuss the characteristics of China's evolution and how they can be extrapolated to other nations undergoing similar transitions.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 335
ENERGY AND ENVIRONMENTAL ECONOMICS
Undergraduate
The fundamental problems of resource depletion and environmental deterioration. Alternative methods to achieve an optimal ecological system. Methods of economic analysis include cost-benefit techniques, the role of effluent fees, government subsidies, and legislative action.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 340
DEVELOPMENT OF ECONOMIC THOUGHT
Undergraduate
A study of the most influential contributions to our understanding of political economy broadly understood. An historical examination of the development of economic theories with special emphasis placed upon their relevance to present economic and political issues.

(ECO 105 or ECO 106), ECO 306 and (MAT 130 or equivalent) are a prerequisite for this class.
ECO 342  
STATISTICS FOR ECONOMICS  
Undergraduate  
Fundamental knowledge of applied statistics. Descriptive statistics, statistical inference, analysis of variance and regression analysis are applied to economic problems.  
ECO 105, (MAT 135 or equivalent) and (MAT 136 or equivalent) are a prerequisite for this class.

ECO 360  
ECONOMICS OF LOW-INCOME COUNTRIES  
Undergraduate  
This course analyzes economic development issues in low-income countries. Attention is given to several key issues including agricultural and rural development, population growth, human capital, international trade, foreign resource flows, the role of the public sector, and environmental quality.  
ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 361  
INTERNATIONAL TRADE  
Undergraduate  
This course deals primarily with the trade side of international economic relations, the gains from trade and barriers to trade. The main objective is the development of analytical tools required for an understanding of the gains from trade and barriers to trade. Particular emphasis is placed on currently pressing issues including the impact of trade on domestic employment and income, international trade tensions, and the rise of regional trade blocks.  
ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 362  
INTERNATIONAL MONETARY ECONOMICS  
Undergraduate  
How do fiscal and monetary policy choices change as a country's economy opens more and more to international trade and capital flows? This question and others of international importance will be analyzed with an open-economy, macroeconomic framework. Topics to be explored will include: the foreign exchange market under both fixed and floating exchange rate regimes; the balance of payments, output, prices, and income in an open economy; the international monetary system; and the macro issues of economic development and transition.  
ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 375  
INTRODUCTION TO ECONOMETRICS  
Undergraduate  
Techniques of estimation and testing of economic relationships. Probability theory, probability distributions, least squares estimation and correlation.  
ECO 105, ECO 106 and (MAT 137 or equivalents) are a prerequisite for this class.

ECO 380  
MATHEMATICAL ECONOMICS  
Undergraduate  
Review of various mathematical functions useful in formulating economic theories followed by elements of Matrix algebra and its application to concepts of micro and macro economic equilibria. Particular emphasis will be placed on differential calculus, including the use of partial derivatives. These mathematical tools will be applied to optimization problems in micro and macro economic theory.  
ECO 105, (MAT 135 or equivalent) and (MAT 136 or equivalent) are a prerequisite for this class.
ECO 385
ADVANCED MICROECONOMICS
Undergraduate
An advanced course in microeconomic theory. This course will present a systematic and rigorous analysis of price determination and the allocation of specific resources to particular uses.

ECO 305 and ECO 306 are a prerequisite for this class.

ECO 386
MICROECONOMICS OF MARKET ORGANIZATION
Undergraduate
This class introduces major topics in the economics of imperfectly competitive industries, antitrust policy, and the economics of information. The main goal is to understand basic models of the behavior of firms, how these firms interact in industries, and the policy issues associated with these behaviors and interactions. To accomplish this, we will draw on microeconomic theory, game theory, as well as empirical evidence and case studies.

ECO 305 and ECO 306 are a prerequisite for this class.

ECO 387
RESEARCH METHODS FOR POLICY ANALYSIS I
Undergraduate
This course is designed to prepare the student to undertake econometric studies of policy issues. It is assumed that previous course work in economics has been satisfactorily completed, and the student has a basic understanding of both basic regression analysis and economic theory. Extensive computer work will be required in order to complete the homework and the term paper.

ECO 305 and ECO 306 are a prerequisite for this class.

ECO 389
CAPSTONE SEMINAR IN ECONOMICS
Undergraduate
A seminar in which students explore how the discipline of economics addresses issues from a different perspective than other disciplines within and beyond the social sciences. This course is the Liberal Studies Capstone Requirement for the LA&S Economics major and is restricted to LA&S economics majors with senior standing.

ECO 305, ECO 306 and status as an LAS Economics major with Senior standing is a prerequisite for this class.

ECO 398
SPECIAL TOPICS
Undergraduate
Special Topics. Content and format of this course are variable. All topics will include an in-depth study of current issues in Economics. Subject matter will be indicated in class schedule.

ECO 105, ECO 106 and (MAT 130 or equivalent) are a prerequisite for this class.

ECO 399
INDEPENDENT STUDY
Undergraduate
An Independent Study may be available to students of demonstrated capability for intensive independent work in economics. Written permission of supervising faculty member, chair, and director of undergraduate programs is required prior to registration.

ECO 423
ENVIRONMENTAL ECONOMICS AND PUBLIC POLICY
Graduate
This course is designed to give the student an understanding of economic theory as it applies to the environment and how we use natural resources. We will look at situations where self interest, government regulation, and market conditions affect our decisions as it relates to environmental conditions and issues. Remember, economics is a discipline of understanding choices and how different incentives affect those choices, and that remains true when dealing with the environment and natural resources.
ECO 424
MICROECONOMIC THEORY
Graduate
This course further develops the basic theories of individual economic agents— the consumer and the firm. However, unlike ECO 105, this course will place a lot of emphasis on algebra and calculus.

ECO 425
PUBLIC ECONOMICS
Graduate
In this course we will apply the tools of microeconomics to analyze the economic functions of government, including expenditure and tax policies. We will devote considerable time to understanding the role of government in market economics. In particular the tradeoff between efficiency and equity is analyzed in various contexts. You have already learned what markets can do in your ECO 105 course. In this course we will learn what markets cannot do and where governments must step in.

ECO 435
REAL ANALYSIS I
Graduate
This course covers real number system, completeness, supremum, and infimum, sequences and their limits, lim inf, lim sup, limits of functions, continuity.

(MAT 149 or MAT 152 or MAT 162 or MAT 172) and (MAT 141 or MAT 215) are a prerequisite for this class.

ECO 436
REAL ANALYSIS II
Graduate
This course follows ECO 435 and covers properties of continuous functions, uniform continuity, sequences of functions, differentiation, integration.

ECO 500
MONEY AND FINANCIAL SYSTEMS
Graduate
This course examines both the role of money in the economy from a functional and macroeconomic perspective as well as the structure and function of the most important financial institutions and financial markets. Topics covered include the role of the Federal Reserve as monetary policymaker, interest rate and exchange rate determination, the relationship between money and economic activity, and the organization and importance of money markets, capital markets, markets for derivative securities, commercial banks and other intermediaries in a well-functioning financial system.

MS in Taxation students are restricted from registering for this class.

ECO 501
CONCEPTS OF MICRO AND MACRO ECONOMICS
Graduate
This course investigates the basic elements of the economic way of thinking. Students will begin with models of the consumer and the producer, looking specifically at demand and supply, elasticity, measures of efficiency, production and cost theory, and the determination of price and quantity under different market structures. The remainder of the course is devoted to analyzing the economy as a whole, focusing on the determination of Gross Domestic Product, the role of money and monetary policy, labor markets and unemployment, price stability, and short-run fluctuations in output.

ECO 505
ADVANCED MICROECONOMICS
Graduate
An advanced course in microeconomic theory. This course will present a systematic and rigorous analysis of price determination and the allocation of specific resources to particular uses.

ECO 555 or admission to the MS-EPA program is a prerequisite for this class.
ECO 506
ADVANCED MACROECONOMICS
Graduate
An advanced course in macroeconomic theory that examines the determination of income, employment, and prices, and their interrelations. Covers traditional Keynesian as well as alternative models of output, consumption, investment, money demand, inflation and unemployment. The dynamic character of income determination is emphasized, along with effects of government policy, economic institutions, and social goals.
ECO 509 or admission to the MS-EPA program is a prerequisite for this class.

ECO 507
RESEARCH METHODS FOR POLICY ANALYSIS I
Graduate
This course focuses on the tools and techniques used to statistically analyze economic data. We will focus on both theoretical understanding (why do we use such tools and how do they work) and applied understanding (the ability to carry on a research project using these tools). Students will learn Stata, which is the most widely used statistical analysis programming language in Economics. Students will learn the practical skills of how to choose the right tools for the analysis, how to prepare and inspect the data, and how to run an analysis that is robust, can be replicated, and can be understood and used by others - all extremely valuable qualities in real life work.
ECO 555 or 505

ECO 508
RESEARCH METHODS FOR POLICY ANALYSIS II
Graduate
This course focuses on advanced techniques used to statistically analyze economic data. We will focus on both theoretical understanding (why do we use such tools and how do they work) and applied understanding (the ability to carry on a research project using these tools). Topics to be covered include the analysis of time series and panel data, discrete choice models, simultaneous equations, forecasting and experimental methods. Students will learn statistical Stata commands that apply to the advanced topics covered.
ECO 555 or 505

ECO 509
BUSINESS CONDITIONS ANALYSIS
Graduate
This course teaches students how to use available economic data to assess business conditions. This is done by: (1) evaluating the sources and usefulness of data periodically released by government and private sources and (2) developing a macroeconomic framework that the student can use to analyze business conditions. Completion of this course will allow students to understand economic news and relate it to their business or job.
MS in Taxation students are restricted from registering for this class.

ECO 510
ECONOMETRIC METHODS FOR BUSINESS ANALYSIS
Graduate
This course is designed to provide the student with more advanced methods in quantitative analysis. Topics covered include hypothesis testing, probability, correlation analysis and multiple regression. This course will be offered every Winter quarter.
ECO 555 or equivalent is a prerequisite for this class.

ECO 511
BUSINESS AND ECONOMIC FORECASTING
Graduate
This course surveys a number of quantitative techniques commonly used to forecast business and economic variables. Emphasis will be on techniques, their relative strengths and weaknesses and real-world economic applications. Topics include smoothing techniques, regression and econometric analysis and Box-Jenkins time series.
GSB 420 or ECO 375 or equivalent is a prerequisite for this class.
ECO 512
APPLIED TIME SERIES FORECASTING (CROSS-LISTED AS MATH 512/ MATH 358)
Graduate
Theory and computer implementation of the Box-Jenkins Techniques with emphasis on forecasting business and industrial activity. Crosslisted as MAT 512.

ECO 509 and ECO 510 are a prerequisite for this class.

ECO 514
INDUSTRIAL ORGANIZATION
Graduate
This course is concerned with how the market system directs production decisions under varying deviations from the competitive environment. The links between market structure, conduct and performance are examined. Topics include determinants of market structure, various theories of imperfect competition, price discrimination, predatory pricing, and antitrust policy.

ECO 555 or 505

ECO 515
MICROECONOMICS OF MARKET ORGANIZATION
Graduate
Imperfectly competitive markets are more common than perfectly competitive markets. This course is about the effects of imperfectly competitive market structure on the organization, pricing, product choice, and entry of firms. We will study the acquisition and use of market power, strategic competition across firms, private sector sources of market failure, and the role of government competition policy. Factor markets will also be discussed.

ECO 505 or ECO 555 is a prerequisite for this class.

ECO 516
ECONOMICS OF THE PUBLIC SECTOR I
Graduate
Application of microeconomic analysis to the role of government in society. The theoretical foundation for the design of an efficient and equitable tax and expenditure program is presented and the impact of such a program on the economy is explored through general equilibrium analysis. Students must have a solid foundation in basic calculus.

ECO 555 or 505

ECO 517
THE PUBLIC POLICY, BUSINESS, AND ETHICAL ENVIRONMENT OF GOVERNMENT
Graduate
Businesses are becoming more involved in deal making both in the public and private sector. Individuals now sit on the boards of public and private companies and are being asked to provide business analysis and networking skills. Moreover, many firms have established PACS and have set-up governmental practice sections. These firms are also becoming more dependent on the government for business opportunities and are more involved in fundraising on behalf of public officials in order to gain access and to influence the regulatory and legislative process. In fact many business people have raised money for both political parties with the hope of leveraging their contributions for future work or political appointments.

ECO 555 or equivalent is a prerequisite for this class.

ECO 518
LABOR ECONOMICS AND LABOR RELATIONS (CROSS-LISTED AS MGT 518)
Graduate
A study of the American labor force: measurement, characteristics and behavior under changing income, employment and technology. An examination of recent labor market developments provides the basis for a critical analysis and appraisal of contemporary wage theory. Topics include changes in the labor force, unemployment, wage determination, the minimum wage, internal labor markets, productivity, discrimination, unions and collective bargaining. Cross-listed as MGT 518.

ECO 555 or 505
ECO 520
ECONOMICS OF THE PUBLIC SECTOR II
Graduate
This course covers public finance and is the second course in a two course sequence on public Economics. Its focus is on the role of government in public expenditure and taxation. It is assumed that previous course work in economics has been satisfactorily completed, and the student has a basic understanding of basic microeconomic theory.

ECO 516 is a prerequisite for this class.

ECO 521
POLICY & REGULATION IN FINANCIAL MARKETS
Graduate
This course focuses on the economic rationale and consequences of U.S. financial regulation. We will emphasize the implications of regulation for future public policy. We will approach this topic by giving a rationale for financial regulation and then go into regulation associated with particular financial institutions. We concentrate on commercial banks and investment banks, although we will touch on insurance and life assurance companies, stock markets, bond markets and hedge funds. Because of systemic risk (the main focus of financial regulation) associated with commercial banking, we spend most of the course dealing with banking regulation.

ECO 505 or ECO 555 is a prerequisite for this class.

ECO 522
CURRENT POLICY ISSUES
Graduate
This course focuses on current policy issues in the United States. Specific topics depend on current legislative issues facing the country and bills being debated in Congress. There will typically be detailed coverage of two main policy issues. The analysis will include an economics analysis as well as extensive reading of political and legal documents.

ECO 505 or ECO 555 is a prerequisite for this class.

ECO 525
STRATEGIC DECISION MAKING AND GAME THEORY
Graduate
The goal of this course is to introduce students to game-theoretic way of thinking and show its usefulness in understanding various problems arising in business, economics, as well as many other disciplines and every day life. The tools used in game theory are analytical in nature, and hence the building blocks of the course will necessarily draw on analytics. The instructor's job will be to make these analytics accessible to students without using too much mathematics. Once students grasp these tools, a variety of applications will be presented, discussed, and illustrated using experiments. These applications will be mainly in the fields of business and economics, but will often span to other areas like law, politics, biology, and ethics. In this way, students will get a broad perspective of the multiple applications of game-theoretic reasoning.

ECO 555 or 505

ECO 526
BUSINESS STRATEGY
Graduate
This class deals with firms' business plans and policies and how they change in response to various incentives and stimuli. We will discuss frameworks used to analyze and formulate business strategies. We will introduce tools and techniques for diagnosing a firm's competitive position, identifying managerial and organizational issues, evaluating plans of action, and anticipating the consequences of alternative decisions.

ECO 555 or 505

ECO 527
BUSINESS REGULATION AND ANTITRUST
Graduate
This course examines the rationale for and efficiency of government regulation of business in the United States. Various forms of government regulation are evaluated to determine their effectiveness in promoting market efficiency. We will emphasize the importance of market structure and industrial performance, including the strategic interaction of firms. We will examine the behavior of individual markets in some detail, focusing on cost analysis, the determinants of market demand, investment behavior, market power, and the implications of government regulatory behavior.

ECO 555 or 505
ECO 530
HISTORY OF ECONOMIC THOUGHT
Graduate
A study of the evolution of the science of economics. Emphasis is on the important contributions made to the field by the great thinkers, starting with the Physiocrats and extending to the work of contemporary institutional and post-Keynesian economists.

ECO 555 or 505

ECO 550
REGIONAL AND URBAN ECONOMICS
Graduate
The course investigates the spatial character of an economic system. The first part of the course is concerned with theories in regional economics, including business and household location theory, urbanization, and regional development. The latter part of the course deals with urban economics, a specialized area concerned with the economic forces behind many urban problems. Topics include the economics of housing, transportation, poverty, crime and urban public finance.

ECO 555 or 505

ECO 555
ECONOMICS FOR DECISION-MAKING
Graduate
This course provides students with an opportunity to apply microeconomic principles to managerial decision-making. These principles include those underlying the theories of consumer choice, production and cost as they relate to decisions made by firms and households. Specific topics include consumer demand analysis and estimation; elasticity; production theory; cost structure and estimation; profit maximization; and the effect of market structure on pricing, output and profit.

GSB 420 is a prerequisite for this class.

ECO 557
INTERNATIONAL TRADE THEORY & POLICY (CROSS-LISTED WITH IB 520)
Graduate
Modern theories of international trade: classical theory of comparative advantage, factor proportions theory, factor price equalization, application of welfare economics to international trade, including regional economic integration, commercial policy and tariff problems. Cross-listed with IB 520.

ECO 555 or 505

ECO 558
INTERNATIONAL MACROECONOMICS (CROSS-LISTED AS IB 521)
Graduate
Analyzes traditional macroeconomic issues in a framework that allows for international trade and capital flows. Cross-listed as IB 521.

ECO 506 or ECO 509 is a prerequisite for this class.

ECO 560
DEVELOPMENT OF THE AMERICAN ECONOMY
Graduate
This course describes the economic development of the United States by examining topics such as: colonial settlement patterns, the impact of the railroad, the development of the financial system and the Great Depression.

(ECO 505 or ECO 555) and (ECO 506 or ECO 509) are a prerequisite for this class.

ECO 561
ECONOMICS OF DEVELOPING COUNTRIES (CROSS-LISTED WITH IB 525)
Graduate
Introduction to the economist's analytical skills applied to problems of developing and newly industrialized countries. Studies economic theory of development, development policy, and decision-making in the developing world; several case studies are examined.

ECO 555 or 505
The fundamental problems in the application of statistical procedures to econometric estimation will be studied: multicollinearity, identification, serial correlation, and nonhomogeneity of error variance. In addition, more sophisticated estimation techniques will be studied, e.g., reduced-form and multiple-stage regression techniques.

ECO 510 or (ECO 507 and ECO 508) are a prerequisite for this class.
ECT 359  
E-COMMERCE TECHNOLOGY SENIOR PROJECT
Undergraduate
Students will build complex web information systems using both client-side and server-side technology. Project teams will apply web engineering methodology to produce the final project with deliverables including strategy and requirement statement, site information architecture, interface design, prototyping, testing, promotion and measurement, feasibility study, and final presentation of team project. PREREQUISITE(S): ECT 355 AND IT 215.

ECT 360  
INTRODUCTION TO XML
Undergraduate
An introduction to Extensible Markup Language (XML) and XML transformations. XML syntax, processing and validation. Namespaces. Transformations using XSLT and XPath. XML applications such as XHTML, RDF, SVG, XSL. PREREQUISITE(S): CSC 211 or CSC 241 or CSC 261.

ECT 365  
WEB SERVER OPERATIONS
Undergraduate
This course will provide students with basic web server management and implementation skills, covering both the technologies fundamental to web servers operations and how these technologies impact the planning, installation, operations and management of web servers. Internet protocols, naming and routing. Site and service planning for different types of service offerings. Server configuration, maintenance and log analysis. Advanced management topics such as server farms, application servers, proxy and edge servers. PREREQUISITE(S): IT 230 (Cross-listed with IS 372)

ECT 372  
SOFTWARE PROJECT DEVELOPMENT AND MANAGEMENT
Undergraduate
(Cross-listed with IS 372) In-depth study of the development and implementation process for both traditional and e-commerce software projects of all sizes. Project structuring, tools and techniques for scheduling and control, including project management software. Emphasis upon working within an organizational context. PREREQUISITE(S): IT 215

ECT 410  
DEVELOPMENT OF WEB-BASED BUSINESS APPLICATIONS
Graduate
Development of web-based business solutions using client-side and server-side technologies. Major topics include analysis and design of web projects for a business, web application design patterns, server-side programming, and access to databases. PREREQUISITE(S): CSC 401 or IT 411

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ECT 423  
INTERNET MULTIMEDIA
Graduate

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ECT 424  
ENTERPRISE INFRASTRUCTURE
Graduate
Introduction to modern infrastructure and the evolving technology environment. Major topics include: computer networks, Internet infrastructure, Web 2.0, Enterprise 2.0, social media and networking, software as a service, content management systems, cloud computing, and portal.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
ECT 425  
**TECHNICAL FUNDAMENTALS OF DISTRIBUTED INFORMATION SYSTEMS**  
Graduate  
The course is an introduction to distributed information systems, including architecture of distributed information systems, networking, communication protocols, operating system support, remote method invocation, web service, and security in distributed information systems.  
PREREQUISITE(S): CSC212  

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ECT 433  
**SURVEY OF WEB PROGRAMMING TECHNOLOGIES**  
Graduate  
Survey of server-side scripting technology with emphasis on information search in a Web site. Projects include development of product catalogs and information search system of a Web site. For non-ECT and non-IS major only. PREREQUISITE(S): HCI 430 for HCI majors; Completion of Prerequisite phase for other majors.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ECT 435  
**SURVEY OF E-COMMERCE STRATEGIES AND TECHNOLOGY**  
Graduate  
A survey of business models, value propositions, and e-commerce value chains for consumer-oriented, business-to-business, and collaborative e-commerce applications. Marketing, security, digital money, e-business infrastructure, basics of Web site engineering process, e-commerce technology and tools. This is a service course. Students with server-side programming skills should take ECT 455. Prerequisites: ECT 250 and IS 421.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ECT 436  
**SOCIAL MARKETING AND SOCIAL NETWORKING APPLICATIONS**  
Graduate  
Online social media and culture, online social marketing concepts, online social networking applications and their design/development. Student develop dynamic web sites and applications on social networking platforms using server-side programming technology to meet strategic marketing goals. PREREQUISITE(S): None

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ECT 441  
**USABILITY ISSUES FOR ELECTRONIC COMMERCE**  
Graduate  
(Cross-listed with HCI 441) Design, prototyping and evaluation of e-commerce web sites. Context of usability in the project development life cycle. User/task analysis with emphasis on the first time and the infrequent user. Content organization. User testing with low fidelity prototypes. Issues of perceived privacy and security. Student's projects involve design and/or evaluation of actual electronic commerce sites. PREREQUISITE(S): ECT 455.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ECT 455  
**E-COMMERCE WEB SITE ENGINEERING**  
Graduate  
(Formerly ECT 555, cross-listed with HCI 513) An introduction to Web site engineering methods and processes to support e-commerce development. Web site engineering life cycle and user-centered design, including site goals, business models, value propositions, user analysis, information architecture, interface and navigation design, usability guidelines, database, testing, hosting strategies, usage metrics, and collaborative development. Technologies for e-commerce, shopping cart, digital payments, promotion strategies, and security issues. Students will build fully functional Web sites using database and client- and server-side technologies. Prerequisites: ECT 310 or HCI 430 or proficiency in programming.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
ECT 480
INTRANETS AND PORTALS
Graduate
Intranet development methodology. Data warehousing concept and On-Line analytic processing (OLAP) for information management. Enterprise information portals (EIP). Transforming information into knowledge. Major applications involve: decision support, customer applications and content personalization for intranet. Students will conduct case studies and projects. PREREQUISITE(S): ECT 424

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ECT 481
INTERNET SUPPLY CHAIN MANAGEMENT
Graduate
This course examines system architectures, technologies, approaches, and infrastructure requirements in the context of supply chain systems. The focus is on the design, development and implementation of systems that facilitate the collaboration of an enterprise with its buyers and suppliers. Topics include development of messaging-based collaboration framework with web services. Students will design and implement a collaborative extranet system component in team projects. PREREQUISITE(S): ECT 310

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ECT 556
ENTERPRISE ARCHITECTURE AND DESIGN
Graduate
This is an advanced course on the design and planning of enterprise architecture that enables intra-/multi-enterprise collaboration and interoperability. The emphasis is on the alignment between IT and organizational objectives through the integration of business architectures, data and information architecture, application architecture, technology architecture, interfaces and infrastructure. Topics include: frameworks, tools, and methodologies for enterprise architecture design; data and process modeling, application integration, implementation fundamentals, adaptability to changing organizational needs, and managing costs of implementation. Students will conduct case studies and develop architecture plans. Prerequisites: ECT 424, SE 450 or consent.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ECT 557
PEER-TO-PEER TECHNOLOGY
Graduate
Peer-to-Peer (P2P) e-commerce is a paradigm for programming distributed e-commerce systems characterized by an increasing decentralization and autonomy of components. This course reviews the technical and business issues regarding P2P e-commerce. Topics include: P2P architecture and interoperability; P2P systems in use today; P2P content management issues; P2P collaboration applications: chat, white boards, file sharing, games, and synchronization; and P2P security and monitoring. Also addressed are: P2P application and business models for business to business and consumer e-commerce; supply chain and collaborative planning, forecasting and replenishment; intellectual property concerns, management issues, and programming P2P applications. Prerequisites: ECT 424, ECT 480, and ECT 481.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ECT 565
MOBILE ENTERPRISE
Graduate
Mobile enterprise information systems are becoming increasingly complex and consist of existing systems with enabling middleware to achieve end-to-end enterprise mobile solutions. Mobile infrastructure performs content adaptation, data synchronization, bridging corporate and mobile messaging systems and support mobile information portals. The course will discuss web services oriented component architecture and system integration with Adaptive Application Architecture (AAA) with Wireless application gateway (WAG) and Multi-channel Access Gateways (MAG) supporting mobile and wireless access for heterogeneous devices. Such concepts as content distribution, connectivity and security, scalability and load balancing, device management will be discussed. Additional topics include Location-aware applications supporting mobile knowledge workers, business process for value contribution, and investment decisions on mobile technologies. Students will become familiar with mobile enterprise tool suites, mobile messaging delivery platforms, wireless Web portals. Students will be implementing mobile enterprise solution components. PREREQUISITE(S): Completed foundation phase.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.
ECT 582
SECURE ELECTRONIC COMMERCE
Graduate
This course studies security requirements, threat modeling, and appropriate safeguards for e-commerce systems. Major topics include web application security, web service security, and web server security. PREREQUISITE(S): ECT 424

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ECT 583
ADVANCED SCRIPTING TECHNOLOGIES
Graduate
This course focuses on applying advanced scripting technologies in the design and development of large Web applications. Major topics include tiered application design, transacted Web applications, components, and Web services. Prerequisites: Proficiency in programming.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ECT 584
WEB DATA MINING FOR BUSINESS INTELLIGENCE
Graduate
An in-depth study of the knowledge discovery process and its applications in Web mining, Web analytics and business intelligence. The course provides coverage of various aspects of data collection and preprocessing, as well as basic data mining techniques for segmentation, classification, predictive modeling, association analysis, and sequential pattern discovery. The primary focus of the course is the application of these techniques to Web analytics, user behavior modeling, e-metrics for business intelligence, Web personalization and recommender systems. Also addressed are privacy and ethical issues related to Web data mining. Students can choose from three types of final course projects: implementation projects, research papers, or data analysis projects. Throughout the course, the students will learn and use a variety of data mining tools to analyze sample data sets as part of class assignments. PREREQUISITE(S): (IT 223 or CSC 301 or CSC 383 and (CSC 451 or CSC 453)

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ECT 585
LEGAL ASPECTS OF E-COMMERCE
Graduate
This course is focused on how the law affects e-commerce. Topics include: electronic contracts, privacy issues associated with the use of the Internet, security issues including digital signatures, encryption and biometrics, intellectual property issues including trademark/domain name conflicts, copyrights, patents for business methods, taxation of internet transactions. Students will also gain an understanding of the issues involved in taking a company public (IPO), what information venture capitalists (VC) require in order to make decisions regarding financing startup companies. Prerequisite: ECT 455.

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

ECT 586
CUSTOMER RELATIONSHIP MANAGEMENT TECHNOLOGIES
Graduate
An in-depth study of customer relationship management (CRM) technologies and applications. The special focus will be on the application of CRM technologies for managing the customer lifecycle across Internet and offline channels. Topics include customer identification, data integration, personalization technologies, web and email interaction techniques; sales force automation applications; call centers, field service and logistics applications; customer self-service and customer knowledge management technologies. Students will review and compare specific eCRM technologies and develop an Internet customer interaction system to support an eCRM strategy in group project. PREREQUISITE(S): ECT 424

CDM graduate students in the Prequisite Phase are restricted from registering for this class.
ECT 587
MOBILE COMMERCE TECHNOLOGY
Graduate
This course examines leading wireless and mobile technologies for consumer and enterprise mobile commerce. Topics include wireless standards and technologies, the impact of bandwidth, platforms, form factors, mobile data services, security and transaction models. Wireless Web development issues concern Web synchronization, server-side content management, Wireless Application Protocol (WAP), Wireless Markup Language (WML), Handheld Device Markup Language (HDML), wireless user interface design, and wireless Web development tools. Mobile commerce applications include personalization, customer relationship management, mobile portals, and wireless enterprise solutions for business process and workflow. Students will develop mobile commerce applications. (PREREQUISITE(S): ECT 455).

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

ECT 588
E-MARKETPLACE TECHNOLOGY
Graduate
This course concentrates on system development for online trading applications supporting complex interactions and transactions. Theoretical models of online information exchanges supporting negotiations such as: auctions, brokerages and exchanges/marketplaces will be discussed. Server/client side applications utilizing the models and distributed data access will be developed. Assignments will include system design as well as application development projects using Java. PREREQUISITE(S): ECT 424.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

ECT 589
E-BUSINESS STRATEGIES
Graduate
Designed for ECT majors and IS majors in ECT concentration, this course focuses on the deployment of Internet and enterprise technologies to support organization's e-business initiatives and collaborative commerce. Conducted in the format of seminar, case analysis, and dialogue with industry practitioners, this course requires students to actively participate in the study of models and approaches for e-business technology implementation and transformation. Topics include: the impact of Internet on industry structure and organizational transformation, enterprise application architecture, planning and implementation of technology and process to support an increasingly collaborative and integrated environment for e-commerce. Students have to complete an organization case study of e-business technology implementation to fulfill the requirement of this capstone course. This course should be taken at the conclusion of the ECT program. PREREQUISITE(S): Completion of all other required courses.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

ECT 590
E-BUSINESS TECHNOLOGY PRACTICUM
Graduate
This practicum course is aiming at exposing e-commerce students to distributed multi-platform, multi-language, multi-tier application development. Besides the heavy programming emphasis, the students will analyze design and implementation issues in such an environment. The course content involves design and development of an e-commerce system that includes business to business, customer facing, and information portal applications. Students will work on projects using different platforms and different programming languages in a lab environment. Topics include design of e-commerce systems, distributed database development, multi-web server environment development, application of distributed object technologies. This course fulfills the capstone/practicum requirement for ECT majors and should be taken at the conclusion of the program. Prerequisites: ECT 480 or ECT 481 or consent.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.

ECT 596
TOPICS IN E-COMMERCE TECHNOLOGY
Graduate
Independent study form required. PREREQUISITE(S): Consent of instructor.

CDM graduate students in the Pre-requisite Phase are restricted from registering for this class.
ECT 690
RESEARCH SEMINAR
Graduate
Readings and discussion on current research topics. Students may register for this course no more than twice. PREREQUISITE(S): Consent of the instructor.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ECT 696
MASTER’S PROJECT
Graduate
Four credit hours. Students may register for this course only after their advisor has approved a written proposal for their project. Independent study form required. PREREQUISITE(S): Consent of advisor.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

ECT 698
MASTER’S THESIS
Graduate
(2 credit hours) Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. Independent study form required. PREREQUISITE(S): Consent of advisor.

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.

EDU 25
BASIC TECHNOLOGY LITERACY
Undergraduate
(0 Credit) This online course provides students with a knowledge about assembling, using, and troubleshooting basic technology hardware and software. In this course, students demonstrate understanding of basic computer setup and the use of peripheral devices such as printers, speakers, flash drives, scanners, digital cameras, videos, and computer software.

EDU 95
CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH
Undergraduate
(no credit) Required of all students. Observations and participatory experience with children and youth in a school or agency. This course is a prerequisite for student teaching and related professional courses.

EDU 100
INTEGRATIVE KNOWLEDGE E-PORTFOLIO
Undergraduate
This course provides an introduction to the Digication e-portfolio platform and the development of integrative knowledge e-portfolios. Prerequisite: Permission of instructor.

EDU 499
LANGUAGE AND LITERACY PRACTICES ACROSS THE ACADEMY
Graduate
This course addresses issues related to the use of English in the Academy, particularly (1) in classrooms where English is not the native language of the instructor or students but is the language of instruction and/or (2) in scholarship written in English by non-native speakers of English. Topics include but are not limited to academic writing, curriculum development, classroom pedagogy, content pedagogical knowledge, globalization and international education, 21st century technologies, and English as a medium of instruction. Registration with permission of instructor only.
EE 281
INTRODUCTION TO EDUCATIONAL PRACTICE
Undergraduate
This is the first in a sequence of theory and practice courses that serves to familiarize teaching candidates with the world of elementary and middle schools. Through observation and participation in schools, self-reflection, independently created assignments, cooperative learning assignments and classroom discussion, candidates will acquire familiarity with schools and classrooms including: social/cultural context, classroom climate, classroom management, curricular coherence, standards-based instruction, and teacher professional beliefs and practices. Written critical reflections and papers serve as initial foundation for the development of teaching philosophies. Required field experiences are integrated into this course.

EE 317
PHYSICAL EDUCATION AND CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL
Undergraduate
The course is designed to promote an understanding of the contribution that Physical Education makes to the elementary school curriculum and the development of the whole child. Lesson planning, instructional delivery, and classroom management will be focused as students engage in 15-20 hours of supervised field experience teaching WHOLE classes of children in local schools.

EE 281 and status as an Advanced Teacher Candidate is a prerequisite for this class.

EE 324
READING/LANGUAGE ARTS IN THE EARLY YEARS
Undergraduate
This course focuses on the curriculum content and sequence, instructional and assessment strategies as well as considerations integral to the creation of authentic, effective emergent literacy environments and engagements for pre-kindergarten through third grade. Theory and practice principles are woven into course assignments and required field experiences designed to observe, teach, and reflect upon instructional decisions made for individual as well as groups of children. Prevailing curricular and instructional models (e.g., code-based, meaning-oriented, balanced) and their histories are compared and contrasted. The influences of development, home language(s) and dialect(s) (especially those of U.S. metropolitan areas), and educational settings are studied and applied to candidate instructional planning and teaching. Case studies and lesson planning facilitate the application of course content.

(EE 281 or ECE 290) and status as an Advanced Teacher Candidate is a prerequisite for this class.

EE 326
READING/LANGUAGE ARTS IN INTERMEDIATE AND MIDDLE GRADES
Undergraduate
This course extends Emerging Reading and Language Arts to facilitate increased independence in students as strategic readers and competent writers. It focuses on the further development of reading comprehension and writing abilities in the intermediate grades and middle school. Emphasis is placed on the complex nature of literacy addressing issues such as content-area literacies, learning in and across languages, and critically consuming and producing a wide variety of texts (including online, multimedia and print based). Application of course material is facilitated through the design, teaching, and reflection on literacy lesson(s) for intermediate learners in required field experiences.

EE 324 and EE 281 and status as an Advanced Masters Education student are a prerequisite for this class.

EE 333
TEACHING AND LEARNING ELEMENTARY SCHOOL MATHEMATICS
Undergraduate
This course is an introduction to materials, processes for developing, and strategies for mathematical literacy in grades K-8. Particular attention will be given to the theoretical views about how children learn mathematics, the proper use of manipulative materials, the development of mathematical thinking, e.g., skills in estimation, pattern recognition, or spatial perception; the use of technology, and ways to assess student progress. Daytime clinical hours are required. Note: MAT 111 may be taken as a prerequisite OR it may be taken concurrently with EE 333.

MAT 110 and EE 281 and Advanced Teacher Candidate Standing are a prerequisite for this class.
EE 334
ELEMENTARY SCIENCE INQUIRY TEACHING STRATEGIES
Undergraduate
This course is an introduction to instructional strategies for helping students in grades K-8 become science literate: i.e., to understand the
type of science and its impact on the world. Particular attention will be given to theoretical views about how children learn science and
develop scientific process skills, e.g., skills in observing, classifying, collecting and interpreting data and questioning strategies, and ways to
assess student progress. Daytime clinical hours are required. PREREQUISITE(S): EE 281.

EE 281 and status as an Advanced Teacher Candidate is a prerequisite for this class.

EE 335
PSYCHOLOGY OF BILINGUALISM
Undergraduate
This course will focus on psychological factors that affect learning such as attitudes towards language learning, self-esteem, cognitive style,
identity and motivation.

EE 344
ART AND MUSIC IN THE ELEMENTARY SCHOOL
Undergraduate
This course focuses on the arts (visual art, music, drama and dance) as an integral component of teaching and learning in the elementary
school curriculum. Students will explore a variety of art forms and disciplines to develop a critical aesthetic and artistic vocabulary.
Students learn to help children utilize artistic media in the exploration and expression of thoughts and feelings. Emphasis is placed on
design, construction, and implementation, and assessment of authentic conceptual classroom arts activities that integrate the arts with other
classroom curricula. Daytime clinical hours (10) are required during this course.

EE 281 and status as an Advanced Teacher Candidate is a prerequisite for this class.

EE 347
CHILDREN'S LITERATURE
Undergraduate
This course familiarizes students with quality children's literature for infancy through young adulthood. Students will select, discuss, critique,
and share books appropriate for this age span, focusing primarily on ages 5-14 years. The influences of child development, culture,
technology, and education stakeholders (i.e., parents, students, teachers, administrators, and their community) on literature selection are
emphasized. Students will develop skills in evaluating books, responding to books, and using literature across the curriculum.

EE 355
METHODS: CONTEMPORARY TEACHING OF SOCIAL STUDIES
Undergraduate
This course is an introduction to an integrated view of social studies for engaged citizenship. Through the study of strategies (such as
concept formation, historical inquiry, role-play, etc), materials (such as primary sources) teacher candidates will apply principles of curricular
integration to create curriculum/units that engage elementary learners in the exploration of issues, ideas, and perspectives that impact our
world. Daytime clinical hours are required.

EE 281 and status as an Advanced Teacher Candidate is a prerequisite for this class.

EE 356
ASSESSMENT IN THE ELEMENTARY CLASSROOMS
Undergraduate
This course focuses on study, use, and evaluation of assessment practices in diverse, K-8 contexts. Assessment is addressed as part of
instructional systems, attending to issues including: the appropriate use of standardized measures, formal and informal classroom assessment,
portfolio development, as well as reporting to all stakeholders. This course also emphasizes ways of involving students and parents in
assessment processes, how to observe and assess children individually and in classroom settings, and the use of numerous technologies as
components of a classroom assessment system.

EE 281, SCU 337 and (EE 324, EE 333, EE 334 or EE 355) and status as an Advanced Teacher Candidate is a prerequisite for this class.
EE 384
CAPSTONE IN ELEMENTARY EDUCATION
Undergraduate
The senior capstone course is designed to help students integrate the central emphases of their liberal learning studies curriculum into their professional behavior. It will provide prospective elementary educators with opportunities to engage in activities requiring them to be reflective, to consider value commitments, to engage in critical and creative thinking, and to examine their practice from a multicultural perspective as they discuss issues specific to elementary education. The course is grounded in the School of Education's framework for an Urban Professional Multicultural Educator, which also reflects the goals of the Liberal Studies Program. COREQUISITE(S): EE 385.

EE 385
ELEMENTARY STUDENT TEACHING
Undergraduate
(12 credits) Five school days a week in supervised teaching in a cooperating school for a full academic quarter. Feedback and discussion of problems encountered in student teaching as well as new materials and techniques of student teaching. Application and approval required. Open only to DePaul students.

EE 399
INDEPENDENT STUDY IN ELEMENTARY EDUCATION
Undergraduate
(1 to 4 credits) Permission of program chair required.

ELA A030
ADVANCED WRITING AND WORD PROCESSING
Continuing Education
An advanced-level course in English-as-a-second-language writing. Students learn to write 3-to-5 page compositions including a research paper.

ELA A031
ADVANCED READING AND VOCABULARY DEVELOPMENT
Continuing Education
An advanced-level course in English-as-a-second-language reading. Students build on their reading skills by identifying intended audience, source and tone of a reading, acquire more literary terms, read longer newspaper articles, editorials, plays, and novels.

ELA A032
ADVANCED GRAMMAR
Continuing Education
An advanced-level course in English-as-a-second-language grammar. Students build on the work from previous levels with the future perfect and future perfect progressive tenses, negative and past forms of modals, passive voice, causative verbs, conditionals, and gerunds and infinitives.

ELA A033
ADVANCED SPOKEN ENGLISH AND LISTENING
Continuing Education
An advanced-level course in English-as-a-second-language spoken English. Among other skills, students learn to manage small group discussions, defend positions, speak persuasively, deliver a formal presentation, draw inferences from authentic speech, and takes notes from short lectures.

ELA B040
UNIVERSITY BRIDGE WRITING: SERVICE, RESEARCH AND WRITING
Continuing Education
A university bridge-level course in English-as-a-second-language writing. Students learn to write first-person narrative and a research essay through participation in community service.
ELA B041
UNIVERSITY BRIDGE READING AND VOCABULARY DEVELOPMENT
Continuing Education
A university bridge-level course in English-as-a-second-language reading. Students build on their reading skills by comparing points of view, paraphrasing and outlining ideas, acquiring higher-level literary terms, and read more complex articles, novels, plays, or several short stories.

ELA B042
UNIVERSITY BRIDGE GRAMMAR
Continuing Education
A university bridge-level course in English-as-a-second-language grammar. Students build on the work from previous levels with more complex uses of such structures as auxiliary verbs, noun modifiers, adjective and adverb clauses, and unreal conditionals.

ELA B043
UNIVERSITY BRIDGE SPOKEN ENGLISH AND LISTENING
Continuing Education
A university bridge-level course in English-as-a-second-language spoken English. Students master previous functions at the highest level, such as persuading, negotiating, and debating; deliver formal presentations; demonstrate skill at note taking and comprehending regional dialects.

ELA CP050
UNIVERSITY EXPERIENCE RESEARCH AND WRITING
Continuing Education
University Experience Research and Writing provides non-native speaking students authentic experiences preparing and writing papers using American academic standards and styles. This course teaches students to select and effectively evaluate scholarly sources appropriate to their discipline, to organize their research and to present a thesis logically using American academic styles. Ideally, the course is taken in conjunction with CP052 University Experience Reading or other similar academic English reading course.

ELA CP051
UNIVERSITY EXPERIENCE READING AND SURVEY OF TEXTS
Continuing Education
University Experience Reading & Survey of Texts provides university level reading instruction and prepares non-native speaking students to evaluate and categorize university level texts within their chosen discipline. The course focuses on using reading strategies that maximize reading efficiency and comprehension and is designed specifically for students who are preparing to enroll in university degree programs. The course is an ideal complement to CP050 University Experience Research and Writing.

ELA CP053
UNIVERSITY EXPERIENCE ACADEMIC AND CLASSROOM CULTURE
Continuing Education
University Experience Academic and Classroom Culture prepares non-native speaking students for success in American university classrooms. The course focuses on becoming an effective oral communicator in university environments. Instruction helps students develop effective strategies for note taking, classroom participation, and successful interaction with other students and instructors in a variety of teaching modes that are common in American universities.

ELA CP054
UNIVERSITY EXPERIENCE ADVANCED ENGLISH PRACTICE
Continuing Education
University Experience Advanced English Practice offers students a selection of options that allows them to address individual English language development needs from pronunciation to interviewing skills to advanced topics within their proposed discipline of study. The exact structure of this module is determined by individual student needs and each student works with an ELA advisor to select options that will provide maximum individual language growth. The individual student plan requires approval of the ELA director.

ELA F000
FOUNDATIONS WRITING AND WORD PROCESSING
Continuing Education
A beginning-level course in English-as-a-second-language writing. Students learn basic paragraph structure, topic sentences and how to support them. (Students should have an active vocabulary of 200-400 words in English.)
ELA F001
FOUNDATIONS READING AND VOCABULARY DEVELOPMENT
Continuing Education
A beginning-level course in English-as-a-second-language reading. Students practice various reading skills, such as locating the main idea; study vocabulary acquisition; and read ESL specific readings and newspaper articles. (Students should have an active vocabulary of 200-400 words in English.)

ELA F002
FOUNDATIONS GRAMMAR
Continuing Education
A beginning-level course in English-as-a-second-language grammar. Students work on basic grammar, such as simple tenses, modals, and articles, as well as nouns, pronouns, adjectives and adverbs. (Students should have an active vocabulary of 200-400 words in English.)

ELA F003
FOUNDATIONS SPOKEN ENGLISH AND LISTENING
Continuing Education
A beginning-level course in English-as-a-second-language spoken English. Students learn many basic practical functions, such as asking for and giving opinions and leaving a simple message. (Students should have an active vocabulary of 200-400 words in English.)

ELA H020
HIGH INTERMEDIATE WRITING AND WORD PROCESSING
Continuing Education
A high intermediate-level course in English-as-a-second-language writing. Students learn to write academic compositions using specific organizational patterns.

ELA H021
HIGH INTERMEDIATE READING AND VOCABULARY DEVELOPMENT
Continuing Education
A high intermediate-level course in English-as-a-second-language reading. Students build on their reading skills by learning the difference between fact and opinion, understanding inferences, acquiring more literary terms, reading newspaper articles, short stories and novels.

ELA H022
HIGH INTERMEDIATE GRAMMAR
Continuing Education
A high intermediate-level course in English-as-a-second-language grammar. Students build on the work from previous levels with perfect progressive tenses, adjective clauses, reflexive pronouns, and more advanced modals, adjectives and adverbs.

ELA H023
HIGH INTERMEDIATE SPOKEN ENGLISH AND LISTENING
Continuing Education
A high intermediate-level course in English-as-a-second-language spoken English. Students practice such functions as supporting opinions, expressing empathy and compromise, reporting and summarizing; make a presentation; and listen effectively to authentic speech.

ELA I010
INTERMEDIATE WRITING AND WORD PROCESSING
Continuing Education
An intermediate-level course in English-as-a-second-language writing. Students begin connecting paragraphs into longer essays.

ELA I011
INTERMEDIATE READING AND VOCABULARY DEVELOPMENT
Continuing Education
An intermediate-level course in English-as-a-second-language reading. Students build on the work in the Foundations level and learn to restate the author's point of view, acquire literary terms, and read stories.
ELA I012
INTERMEDIATE GRAMMAR
Continuing Education
An intermediate-level course in English-as-a-second-language grammar. Students build on the work in Foundations grammar and learn progressive and past tenses, question formation, noun clauses, and comparative and superlative forms of adjectives and adverbs.

ELA I013
INTERMEDIATE SPOKEN ENGLISH AND LISTENING
Continuing Education
An intermediate-level course in English-as-a-second-language spoken English. Students practice such functions as giving advice, apologizing, complaining, asking for explanations and make a simple presentation.
