FINANCIAL PLANNING, CAPSTONE II
Graduate
This course serves as a capstone course for the multifaceted task of providing wealth management services to high net worth families. Wealth management encompasses assessing the changing financial needs of a family over time, providing financial services to help them achieve their goals, assisting in the implementation of the plans, the monitoring of the changing environment and family circumstances, and the periodic review of the financial plan. The course will review the general principles of financial planning, address the need for wealth management services, the objectives of the planning process and the analysis of personal financial statements. In addition, the marketing of wealth management services will be woven into the course, since knowledge of the subject matter is most valuable when it can be applied to actual families. Development of a strategy, utilizing the tools and techniques for managing risk, requires the use of many different components, which must be considered on a consolidated basis. The basic components can be broken down into: 1. General Principles of Financial Planning 2. Insurance Planning and Risk Management 3. Employee Benefits Planning 4. Investment Planning 5. Income Tax Planning 6. Retirement Planning 7. Estate Planning
The course will emphasize the ethical and legal issues involved in maintaining and growing a wealth management services business. The course will be focused on a case study, in which financial plans, marketing plans, and revisions to those plans will be developed based on the changing needs of the family. Both written and oral presentations will be required. Can only be taken during the last quarter of study.

FIN 581
THE PSYCHOLOGY OF FINANCIAL DECISION MAKING
Graduate
This course studies the various behavioral strategies that people rely upon to make financial decisions. The course starts with a review of psychological research on intuitive judgment, belief formation, learning, memory, utility theory, risk attitudes, and choice over time. The course introduces concepts such as framing, heuristics, self-control, and conformity. These ideas are illustrated with practical applications to saving decisions, entrepreneurship, trust between financial advisors and their clients, and decision-making in groups. Class discussions are based on academic research. Prerequisite: At least one graduate level finance course.

FIN 582
THE PSYCHOLOGY OF FINANCIAL MARKETS
Graduate
This course examines the structure and dynamics of asset prices in world financial markets from the perspectives of research in behavioral finance, portfolio management, and macroeconomic policy. Some prior learning in finance (preferably investments), economics and statistics, and a broad interest in the social sciences (psychology; sociology; history) are required. The course has use for investors and their advisors, as well as for anyone interested in financial history. Class discussions are based on academic research and accepted wisdom. Prerequisite: At least one graduate level finance course.

FIN 572 is a prerequisite for this class.

FIN 581 is a prerequisite for this class

FIN 582 is a prerequisite for this class
**FIN 583**  
**BEHAVIORAL ASPECTS OF CORPORATE FINANCE**  
**Graduate**  
This course examines selected aspects of investment and financing decisions made in corporations as well as some questions of corporate governance and organizational architecture. The course places special emphasis on corporate decision processes, i.e., on the psychological, sociological and organizational determinants of behavior (e.g., bureaucracy, management fads, or executive hubris). Class discussions are based on academic research. **Prerequisite:** At least one graduate level finance course.

**FIN 595**  
**INVESTMENT SEMINAR**  
**Graduate**  
Construction and management of an actual portfolio fund in a nine month seminar setting. Registration requires approval of the seminar director based on applications due in the Spring quarter.

**FIN 617**  
**QUANTITATIVE METHODS**  
**Graduate**  
This course provides the student with a comprehensive introduction to the mathematics of finance. The course will focus on applying mathematical concepts, quantitative tools, and modeling techniques to practical problems encountered in finance. **Prerequisite:** GSB 420, ACC 500, ECO 555, FIN 555

**FIN 660**  
**IPOs AND VENTURE CAPITAL**  
**Graduate**  
In IPOs and Venture Capital, we will explore equity financing alternatives for private companies, including their final funding step as a private company ? their initial public offering or IPO, when they go public. Unlike many finance classes, this is not primarily a quantitative course. While there are some quantitative elements, the focus will typically be on the analytics ? on contract design, optimal regulation, balancing various risks and objectives, and structuring a deal to minimize conflicts of interest and optimize incentives. Our focus will be largely on the U.S., but we will also cover fund-raising methods and options in other countries. We will work in part from Harvard Business School Case Studies. This course should be useful for those interested in investment banking, venture capital, private equity, or securities law, or those that hope to have a start-up of their own someday.

**FIN 662**  
**DERIVATIVES VALUATION**  
**Graduate**  
This course focuses on the theory and practice of the valuation of derivative securities such as forward contracts, futures contracts, swaps, and options. The course also examines the underlying properties of each of these instruments and their use in managing the various risks faced by market participants. **Prerequisite:** FIN 523

**FIN 675**  
**CASES IN INVESTMENTS AND FINANCIAL ENGINEERING**  
**Graduate**  
This course primarily uses case studies to illustrate the application of concepts learned in Fin 523 (Investment Analysis) and in Fin 662 (Derivatives Valuation). The topics covered in the course include the term structure of interest rates; portfolio management, asset pricing, and market efficiency; portfolio performance evaluation; option pricing; management of interest-rate risk, credit risk, foreign-exchange risk, and liquidity and basis risk with options, forwards, futures, and swaps; and enterprise risk management. The course will hone the student's analytical and writing skills through group analyses of case studies and preparation of (case) write-ups. **Prerequisite:** FIN 523, FIN 617, and FIN 662

**GSB 420, FIN 555, FIN 523, FIN 617 and FIN 662** are prerequisites for this class.
FIN 793  INTERNSHIP
Graduate
Knowledge acquired in the classroom is applied in an actual business environment through varied theoretical and basic assignments under supervision in industry, government or public finance.

FIN 798  SPECIAL TOPICS
Graduate
Content and format of this course are variable. In-depth study of current issues in finance. Subject matter will be indicated in class schedule. Offered variably.

FIN 799  INDEPENDENT STUDY
Graduate
Available to graduate students of demonstrated capability for intensive independent work in finance.

FIN 455  PRINCIPLES OF FINANCIAL MANAGEMENT
Graduate
This course provides an introduction to finance. The goal of the course is to provide students with the basic tools and the background necessary to understand and analyze the corporate financial decision-making process. The course is designed to familiarize accounting students with tools necessary for making sound financial decisions at the enterprise level. Topics covered include concepts in time value of money and their application to stock and bond valuation, capital budgeting, portfolio management, firm's capital structure, dividend policy, and derivative instruments.

GAM 200  PLAY
Undergraduate
Exploring the concept of "play" from a variety of disciplinary perspectives including sociology, anthropology, psychology, literary and theater studies and the arts, this course discusses "play" as a central force in cultural, social, artistic and personal development. It intends to raise awareness for the ways in which "play" can promote creativity, mental and emotional health, problem solving as well as personal and social change. It analyzes the role of "play" as an element of negotiation and reconciliation between disparate forces within the individual and with others.

GAM 201  HISTORY OF VIDEOGAMES
Undergraduate
This course provides an overview of the history of modern interactive entertainment starting with the early developments of the late 1940s up until the present day. The course covers five longitudinal perspectives, or themes. For each theme students will become familiar with notable game titles, events, people, technologies, game mechanics and genres. PREREQUISITE(S): None

GAM 205  EVOLUTION OF GAMES
Undergraduate
This lecture course introduces students to the evolving forms, uses, and design of games. Topics covered include the relationship between game design and play, the role of games in fueling the technological imagination, the changing contexts in which game are designed and played (art, social impact, health, education), and the rise of the independent games sector. Students will produce weekly written responses to course material, lead a seminar discussion in small teams, and produce a final written or multimedia paper. PREREQUISITE(S): None
GAM 206
HISTORY OF GAMES
Undergraduate
From "The Royal Game of Ur" (2500+ BCE) to "World of Warcraft" (2004), games have been a constant in human history. The forms of games, their experiential qualities, and their cultural significance have varied enormously from era to era and place to place. This class will examine particular games and game genres in their historical context using a case study format. We will focus on "indoor" games, those of chance and skill, as opposed to physical games and sports. The examples will be chosen (i) to have global scope and historic diversity, (ii) to relate to games that students will find familiar, and (iii) to raise particular issues in historical interpretation, the use of primary sources and changing concepts of leisure activity. PREQUISITE(S): NONE.

GAM 208
VIRTUAL WORLDS AND ONLINE COMMUNITIES
Undergraduate
Environments such as social networking sites, multiplayer online games and other online communities are becoming an increasingly large part of how we work, play, and learn. This course introduces the fundamentals for the interdisciplinary study of cyberculture and online social behavior. By examining core scholarship in this area, together with analyzing an existing virtual world, game, or online community, students will learn to research and understand new technologically-enabled social forms as they are emerging. PREREQUISITE(S) WRD 104

GAM 224
GAME DESIGN FOR NON-MAJORS
Undergraduate
This course approaches the study of computer games from three directions angles: first, as examples of media that can be analyzed and critiqued for their thematic elements, formal structure, plot and interactive appreciation; second, as complex software artifacts subject to technological constraints and the product of a labor-intensive design and implementation process; and three as a cultural artifact with behaviors and associations comparable in import to other popular art forms. Student will study the principles of game design and use them both to analyze existing games and to develop their own original game ideas. Students will also learn about the process of game development, starting from the game's narrative concept and moving to consideration of a game's components: the representation of the player, of artifacts, the virtual world that contains them and the interaction between them and the player. PREREQUISITE(S): NONE.

GAM 226
FUNDAMENTALS OF GAME DESIGN
Undergraduate
This course provides students a practical foundation in game design with a focus on concept development, design decomposition, and prototyping. Using game design theory, analysis, physical prototyping, playtesting, and iteration students learn how to translate game ideas, themes, and metaphors into gameplay, game pitches, and design documents. Students will analyze and recognize play that exists in important games, stories, and other media.

GAM 228
ETHICS IN COMPUTER GAMES AND CINEMA
Undergraduate
Societies function based on normative ethics utilizing commons sense to distinguish between ethical and unethical behavior. Most of us are not aware of the underlying theories when arriving at ethical judgments about right and wrong. However, the fast pace of progress in information technologies and digital entertainment creates an environment, in which ethical challenges are particularly complex. In the eyes of many, games and movies are violent, offensive and immoral. This course will concentrate on analyzing the impact of digital entertainment on an individual and society. Implications of certain values embedded games and movies will be discussed. Elements of the ethical code of conduct for a game or movie creator will be formulated. The issue of balancing individual creativity vs. cultural impact particularly on children will be discussed.

GAM 229
DESIGN WRITING AND PRESENTATION
Undergraduate
This lecture course focuses on effective communication throughout the development process from writing game design documents to playtesting reports and postmortems. Special attention will be paid to the critical and analytical components of design writing and the clarity of articulation. A further emphasis is put on the preparation and delivery of engaging presentations, particularly game pitches. PREREQUISITE(S): GAM 226 and WRD 104
GAM 230
INTRO TO GAME PRODUCTION
Undergraduate
Game development is a big business, and production teams can now exceed one hundred people. This course is an introduction to the production methods used in the game industry, and to the demanding role of the Producer on the game development team. Students will work to develop skills in team building, project presentation, organization, and dealing with people. Subjects covered include scheduling tools, collaborative software, project management, vendor relations, inter-departmental relations, and quality assurance. PREREQUISITE(S): none

GAM 240
PLAYGRAMMING
Undergraduate
This workshop introduces computer programming to artists and game designers. Programming is an art, but before students can create masterpieces they first need to explore, play, and sketch with code. Students learn basic concepts and techniques of computation and apply these to craft gameplay experiences, improvisational experiments, and software toys. Students will author code from scratch and remix code to complete their weekly projects. No prior programming experience or knowledge is required. PREREQUISITE(S): None

GAM 244
GAME DEVELOPMENT I
Undergraduate
This course provides students additional theory and practice with an emphasis on game design and storytelling for games. Students continue learning about game development processes and techniques and how to apply advanced game design principles to create components of a 2D game.

GAM 245
GAME DEVELOPMENT II
Undergraduate
This course emphasizes 3D game production. Students apply advanced 3D game design development principles to create deliverables for 3D games. Students will work with an existing game engine and content pipeline. The focus of the class will be on the creation and use of different types of content, key development issues, process management, and professional practices. PREREQUISITE(S): GAM 244 or CSC 241 or CSC 243

GAM 250
DIGITAL SOUND FOR COMPUTER GAMES
Undergraduate
Acquisition and computer representation of sound. Sound standards, lossy and lossless compression. Synthesis and processing of acoustic signals. Acquisitions of physical acoustic signals. Microphone geometries. Introduction to Foley editing. Game specific topics include: game audio design patterns, interactive processing pipeline for digital audio, music sequencers for games, sound APIs.

GAM 312
GAME USABILITY AND PLAYTESTING
Undergraduate
The goal of game user research (GUR), which includes game usability and playtesting, is to collect unbiased game play data that will help design/development teams make better games. There are multiple GUR methods that work best at different points in the development cycle and it is the game user researcher's job to understand how and when to effectively use them. In this course students will learn a variety of methods for evaluating games, where in the development cycle they are applied, and perform common GUR evaluations including competitive reviews, heuristic evaluations, usability tests and playtesting. PREREQUISITE(S): GAM 244

GAM 329
PHYSICAL PROTOTYPING FOR GAMES
Undergraduate
This course will approach the study of Game Design with a focus on breaking designs into manageable elements and prototyping those elements in order to refine play. Students will learn how to develop game ideas and game systems with a focus on play procedures, rules, and designing for various types of possible players. Prototyping will involve various real world media in addition to paper write-ups and layouts. Students will engage in brainstorming exercises, develop game ideas and systems, and review and repurpose existing game mechanics. This course will help students find the balance between hard (planned logical) design and soft (more organic/emergent) design in order to develop compelling gameplay. PREREQUISITE(S): GAM 224
GAM 330
ADVANCED GAME PRODUCTION
Undergraduate
This course builds on the fundamentals covered in earlier courses (GAM 230 or IS 372/ECT 372) by providing a practical, hands-on context in which students can learn the tools and techniques game producers use to manage and organize assets, workflows, tasks, bugs, resources, and personnel. In this course, students combine classroom lectures and lab time to learn production theory, tools, and techniques fundamental to successful game development. Through this experience, students learn the skills and knowledge needed to have an immediate, positive impact on game development. Topics include: the process to refine ideas for game concepts, gameplay, and narrative; quality assurance of subjective elements including gameplay and art; design and art outsourcing pipelines; and feedback strategies and community management. PREREQUISITE(S): GAM 230, IS 372 or ECT 372

GAM 333
THE BUSINESS OF GAMES
Undergraduate
This course gives an introduction to the business aspects of the game development industry, including development, publishing, distribution and marketing. Subjects covered include game development contracts, milestone-based development, management techniques, marketing, customer and community support, personnel, budgeting, outsourcing, pipelines, and external partnerships. PREREQUISITE(S): GAM 224 or GAM 226

GAM 340
PRACTICAL SCRIPTING FOR GAMES
Undergraduate
This workshop introduces game scripting to artists and game designers. A game script is a short list of commands that control something in a game, such as how a character moves, or an enemy's behavior. Students will learn to read, modify, and author scripts that generate and affect a variety of game elements over the course of weekly projects. PREREQUISITE(S): GAM 240 or CSC 241 or CSC 243

GAM 341
INTRODUCTION TO LEVEL DESIGN
Undergraduate
Level design is the art of creating believable environments, stages and missions for video games. This course explores topics including architecture, flow, pacing and puzzles. Using a 3D level editor, students will investigate technical design issues including the construction, texturing, lighting and scripting of modern game levels. The roles, duties and challenges of the level designer will also be discussed. PREREQUISITE(S): (GAM 224 or GAM 226) and GAM 245

GAM 342
ADVANCED LEVEL DESIGN
Undergraduate
This class builds on topics covered in earlier courses, with a focus on creating believable worlds for videogames. This course emphasizes designing large exterior environments, advanced mission scripting, and integrated storytelling. Using a 3D level editor and formal level design process, students create fun, polished, memorable virtual worlds. PREREQUISITE(S): GAM 341 or GAM 392

GAM 350
PHYSICS FOR GAME DEVELOPERS
Undergraduate
The course concentrates on Newton's Laws of Motion, kinematics and kinetics. This theory will be applied to problems that a game programmer must understand e.g. collisions between objects, projectiles and their trajectories, real-time simulation of motion. Special objects such as cars, aircraft and ships will be discussed. Students will apply and implement laws of physics. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and MAT 150

GAM 353
TOOL PROGRAMMING FOR GAME DEVELOPMENT
Undergraduate
Today's games are built with large amounts of data. The stability, usability, efficiency, and flexibility of the tools that process game data plays an enabling and critical role in game development. Topics include the content pipeline, processing or standard file formats, integration of external tools, file format design, command line and graphical user interfaces, and procedural content generation. PREREQUISITE(S): CSC 373
GAM 362
MAKING DEEP GAMES
Undergraduate
This workshop investigates the process of designing games about the human condition. It specifically focuses on the potential of game to
tackle profound and abstract ideas (e.g. loyalty, dignity, courage and trust) by ways of metaphor and analogy. Assignments will explore
metaphorical games, games for persuasion and games for self-expression. Special emphasis is placed on the analysis of personal experiences
and how they can be translated systematically into game designs that generate non-typical gameplay content. PREREQUISITE(S): GAM 226
or GAM 224

GAM 365
ADVANCED GAME DESIGN
Undergraduate
This is a studio course in which students work in teams to design and develop slices of polished small-scale gameplay experiences. The focus
is on developing team-based creative and technical processes to produce innovative, engaging, and playable games. Teams will iteratively
design and develop two distinct gameplay experiences or "vertical slices." Each slice will demonstrate an understanding of the role of game
mechanics, game art, audio, and technology platform in creating a cohesive and compelling gameplay. PREREQUISITE(S): GAM 341

GAM 368
AUGMENTED REALITY GAME DESIGN AND DEVELOPMENT
Undergraduate
In this workshop students cultivate the skills to design, program and develop augmented reality (AR) games. Students learn about the unique
affordances and design opportunities inherent to the platform. Based on the studio model, each student adopts a role on the development
team, such as programmer, designer, and artist, and each is responsible for contributing professional work consistently each week. Because
the platform of AR games presents unique challenges to developers (players often feel disoriented or over-tasked) teams first create a dozen
AR toys, and build up the most promising experiences into games. Class time consists of lectures, workshops, workdays, playtests, critiques,
and class discussions. PREREQUISITE(S): GAM 245

GAM 371
OPTIMIZED C++
Undergraduate
This game programming class will focus on developing software to efficiently use the fixed CPU power and resources that are round in today's
console and mobile devices. This course will use real-world game examples that demonstrate performance and optimization issues that
software architects face in game development. These problems include: performance enhancements through extended matrix instruction set,
dynamic memory usages, performance related to increasing run-time systems to very large scale, C++ language enhancements and
extensions, algorithms, streaming and profiling. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374

GAM 372
OBJECT-ORIENTED GAME DEVELOPMENT
Undergraduate
Students will learn principles and techniques needed to build robust and efficient large scale game software systems. Principles of object-
oriented modeling, design, implementation, and testing of large-scale game systems will be emphasized. Topics include design patterns,
application frameworks, architectural design, and the applications in the software development process to improve the extensibility,
maintainability, and reliability of software systems. PREREQUISITE(S): CSC 393

GAM 374
FUNDAMENTALS OF GAME PROGRAMMING I
Undergraduate
Fundamental concepts of game programming using C/C++ and OpenGL. Students will learn how to implement simple 3D action games: 3D
rendering operations including texture mapping, physical interactions including collisions, input / output management including game UI,
analog controllers, and sound. Emphasis will be placed on the development of the coding skills needed for robust, efficient, and portable
implementation. PREREQUISITE(S): (CSC 393 or (CSC 309 and CSC 301)) and GPH 321
GAM 376
ARTIFICIAL INTELLIGENCE FOR COMPUTER GAMES
Undergraduate
Artificial Intelligence (AI) is one of the essential components of a computer game. The course introduces basic concepts of AI. Emphasis will be place on applications of AI in various genres of computer games. In the implementation component of this course students will be exposed to the existing AI game engines (middleware), which contain implemented AI algorithms that are ready to be applied into game code. These algorithms include: decision trees, pathfinding, neural networks, script-driven game object behaviors. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393

GAM 377
FUNDAMENTALS OF GAME PROGRAMMING II
Undergraduate
The class moves beyond the basics of game programming and into advanced programming, architecture, and integration techniques. Topics include working with a production-quality content pipeline, integration of external digital content creation tools, scalability, complex animations, shaders, environment construction, gameplay techniques, controllers, camera theory, and collisions. PREREQUISITE(S): GAM 374

GAM 378
STRATEGY GAMES PROGRAMMING
Undergraduate
Turn-based and real-time strategy games. Abstract strategy games such as chess, backgammon, and bridge. Game themes and presentation of fantasy, historical and futuristic gaming scenarios. Ethically responsible content and social impact of different cultures, ethnicities, genders on the game play and game audience will be addressed. Game-player resource management. Implementation of strategy engines, 2D presentation and isometric projection. PREREQUISITE(S): GAM 376

GAM 380
CONSOLE GAME DEVELOPMENT ENVIRONMENTS
Undergraduate
Specialized computers for games with high-end graphics and sound capabilities and other specialized input output devices form one of the largest game markets. In this advanced programming course students will gain hands-on experience writing and porting code for game consoles. PREREQUISITE(S): CSC 393 and CSC 374.

GAM 382
SERIOUS GAMES
Undergraduate
Explores the role of computer games and simulations for education and training. Topics include: overview of the science of learning, analysis of games for different purposes and types of content, assessment of learning, and learning through game creation. Students will design, implement, and evaluate a serious game. Development of socially responsible and ethical behaviors will be a primary objective. PREREQUISITES(S): GAM 245

GAM 386
GAME PROGRAMMING FOR MOBILE DEVICES
Undergraduate
In this course we introduce major mobile hardware platforms and their operating systems. Issues related to game design for handheld devices will be presented. The strong technical component of this course includes game programming for a handheld device with a wireless internet connection enabling multiplayer game architecture. Such concepts as: building a custom game library, multiplayer game programming, infrared, wireless and socket communication between devices will be discussed. PREREQUISITE(S): CSC 371

GAM 390
MULTIPLAYER GAME DEVELOPMENT
Undergraduate
Multiplayer games were made possible by the advances in networking technology, increases in processor speed and data storage. Today, the majority of successful game titles are equipped with a multiplayer capability. This technical course discusses the fundamental aspects of multiplayer game development such as: design techniques, architectures, client and server side implementation, databases. PREREQUISITE(S): GAM 374
GAM 391
GAME PERFORMANCE OPTIMIZATION
Undergraduate
This game programming class will focus on developing software to efficiently use the fixed CPU power and resources that are found in today's console and mobile devices. This course will use real-world game examples that demonstrate performance and optimization issues that software architects face in game development. These problems include: performance enhancements through extended matrix instruction set, dynamic memory usages, performance related to increasing run-time systems to very large scale, C++ language enhancements and extensions, algorithms, streaming and profiling. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374

GAM 392
GAME MODIFICATION WORKSHOP
Undergraduate
In this course, students will develop skills in game design and development through the construction of a "mod" of an existing game. Emphasis will be placed on the game development life cycle from concept through release, on productivity in a team environment, and on effective project management practices. Prerequisite: GAM 245

GAM 394
GAME DEVELOPMENT PROJECT I
Undergraduate
Students work in teams to design and develop a videogame that demonstrates their mastery of game design and development. Additionally, students will reflect on ethical decision making and professional ethics in the game industry. This course and its continuation, GAM 395, must be taken consecutively. PREREQUISITE(S): GAM 374 or GAM 392

GAM 395
GAME DEVELOPMENT PROJECT II
Undergraduate
Continuation of GAM 394. PREREQUISITE(S): GAM 394

GAM 397
TOPICS IN GAME DESIGN
Undergraduate
Specific topics will be selected by the instructor and will vary with each quarter. PREREQUISITE(S): See syllabus

GAM 398
TOPICS IN GAME PROGRAMMING
Undergraduate
Specific topics will be selected by the instructor and will vary with each quarter. PREREQUISITE(S): See syllabus

GAM 399
INDEPENDENT STUDY
Undergraduate
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable credit. PREREQUISITE(S): None

GAM 424
GAME DESIGN WORKSHOP
Graduate
This course is an introduction to both the theory and practice of game design. Students will explore fundamental elements of game design and put these concepts to work in designing, prototyping, playtesting, and developing both physical and computer games. The course will cover formal elements of games, game dynamics, game narratives, and the dramatic components of games. Students will study the game design process including brainstorming, conceptualization, creation of design documentation, and play-testing. PREREQUISITE(S): none
GAM 450
PHYSICS FOR GAME DEVELOPERS
Graduate
The course concentrates on Newton's Laws of Motion, kinematics and kinetics. This theory will be applied to problems that a game programmer must understand e.g. collisions between objects, projectiles and their trajectories, real-time simulation of motion. Special objects such as cars, aircraft and ships will be discussed. Students will apply and implement laws of physics. PREREQUISITE(S): CSC 403 and GAM 471 and GAME MATH

GAM 453
TOOL PROGRAMMING FOR GAME DEVELOPMENT
Graduate
Today's games are built with large amounts of data. The stability, usability, efficiency, and flexibility of the tools that process game data plays an enabling and critical role in game development. Topics include the content pipeline, processing or standard file formats, integration of external tools, file format design, command line and graphical user interfaces, and procedural content generation. PREREQUISITE(S): CSC 403 and CSC 407 and GAM 471

GAM 471
OPTIMIZED C++
Graduate
This game programming class will focus on developing software to efficiently use the fixed CPU power and resources that are found in today's console and mobile devices. This course will use real-world game examples that demonstrate performance and optimization issues that software architects face in game development. These problems include: performance enhancements through extended matrix instruction set, dynamic memory usages, performance related to increasing run-time systems to very large scale, C++ language enhancements and extensions, algorithms, streaming and profiling. PREREQUISITE(S): CSC 400 and CSC 403 and CSC 407

GAM 474
FUNDAMENTALS OF GAME PROGRAMMING I
Graduate
Many computer games are based on physical interactions between game objects e.g. collisions, evasions, pursuit, etc. Design and implementation of these actions is not an easy problem. Concept and character development, storyboarding, prototyping, testing and implementation will be discussed. Students will gain hands on experience in game programming using a low level graphical library. PREREQUISITE(S): CSC 403 AND GAM 471

GAM 475
GAME ENGINE PROGRAMMING I
Graduate
Game engines provide an integrated programming platform for today's high performance games. This class explores C/C++ game engine programming, data structures, and practices. Topics include memory management, input devices, video rendering, file access, debugging, and application interface development. PREREQUISITE(S): CSC 403 and CSC 407

GAM 476
ARTIFICIAL INTELLIGENCE FOR COMPUTER GAMES
Graduate
Artificial Intelligence (AI) is one of the essential components of a computer game. The course introduces basic concepts of AI. Emphasis will be place on applications of AI in various genres of computer games. In the implementation component of this course students will be exposed to the existing AI game engines (middleware), which contain implemented AI algorithms that are ready to be applied into game code. These algorithms include: decision trees, pathfinding, neural networks, script-driven game object behaviors. PREREQUISITE(S): CSC 403 and GAM 471

GAM 477
FUNDAMENTALS OF GAME PROGRAMMING II
Graduate
The class moves beyond the basics of game programming and into advanced programming, architecture, and integration techniques. Topics include working with a production-quality content pipeline, integration of external digital content creation tools, scalability, complex animations, shaders, environment construction, gameplay techniques, controllers, camera theory, and collisions. PREREQUISITE(S): GAM 474 or SE 456
GAM 486
GAME PROGRAMMING FOR MOBILE DEVICES
Graduate
In this course we introduce major mobile hardware platforms and their operating systems. Issues related to game design for handheld devices will be presented. The strong technical component of this course includes game programming for a handheld device with a wireless internet connection enabling multiplayer game architecture. Such concepts as: building a custom game library, multiplayer game programming, infrared, wireless and socket communication between devices will be discussed. PREREQUISITE(S): CSC 471

GAM 490
MULTIPLAYER GAME DEVELOPMENT
Graduate
Multiplayer games were made possible by the advances in networking technology, increases in processor speed and data storage. Today, the majority of successful game titles are equipped with a multiplayer capability. This technical course discusses the fundamental aspects of multiplayer game development such as: design techniques, architectures, client and server side implementation, databases. PREREQUISITE(S): (GAM 474 or SE 456) and CSC 407

GAM 491
GAME PERFORMANCE OPTIMIZATION
Graduate
This game programming class will focus on developing software to efficiently use the fixed CPU power and resources that are found in today's console and mobile devices. This course will use real-world game examples that demonstrate performance and optimization issues that software architects face in game development. These problems include: performance enhancements through extended matrix instruction set, dynamic memory usages, performance related to increasing run-time systems to very large scale, C++ language enhancements and extensions, algorithms, streaming and profiling. PREREQUISITE(S): CSC 400 and CSC 403 and CSC 407

GAM 499
TOPICS IN COMPUTER GAME DESIGN AND DEVELOPMENT
Graduate
Variable topics course in computer game design and development. May be repeated for credit. PREREQUISITE(S): Permission of instructor

GAM 575
GAME ENGINE PROGRAMMING II
Graduate
This class continues to explore C/C++ game engine programming, data structures, and practices. Topics include audio, network access, threads and multi-processor systems, profiling, scripting, content libraries, animation, and a survey of game engines. Prerequisite(s): GAM 475

GAM 594
GAMING AND ENTERTAINMENT TECHNOLOGY CAPSTONE
Graduate
This class continues to explore C/C++ game engine programming, data structures, and practices. Topics include audio, network access, threads and multi-processor systems, profiling, scripting, content libraries, animation, and a survey of game engines. Prerequisite(s): GAM 475

GAM 597
TOPICS IN GAME DESIGN
Graduate
Specific topics will be selected by the instructor and will vary with each quarter. PREREQUISITE(S): For specific prerequisites, see syllabus or consult course instructor.

GAM 598
TOPICS IN GAME PROGRAMMING
Graduate
Specific topics will be selected by the instructor and will vary with each quarter. PREREQUISITE(S): For specific prerequisites, see syllabus or consult course instructor.
GAM 599
INDEPENDENT STUDY
Graduate
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable credit.
PREREQUISITE(S): None

GAM 690
GAME DEVELOPMENT STUDIO I
Graduate
In this course and its continuation GAM 691, students will work in small teams to design and implement a computer game. The courses must be taken consecutively. PREREQUISITE: GAM 475 or SE 456

GAM 691
GAME DEVELOPMENT STUDIO II
Graduate
Continuation of GAM 690. PREREQUISITE: GAM 474 or SE 456

GD 105
INTRO TO VISUAL DESIGN
Undergraduate
This course introduces the basic concepts of design for time-based digital media. Students study the principles of composition and color theory, and how these are affected by movement, duration and display. Vector and bitmap manipulation tools are explored in relation to game design, video and Internet production. PREREQUISITE(S): None

GD 110
WEB DESIGN
Undergraduate
Students will use current industry standard design applications such as Photoshop and Illustrator, and beginning hand-coding in HTML, CSS for introductory web design. An introduction to visual design fundamentals will include composition, typography, web color, and digital imaging. Informational navigation, structure, front-end design, and implementation will be studied. PREREQUISITE(S): None

GD 150
ILLUSTRATOR WORKSHOP
Undergraduate
This class will introduce students to the syntax, tools and methods of vector-based drawing using Adobe Illustrator. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. PREREQUISITE(S): None

GD 151
PHOTOSHOP WORKSHOP
Undergraduate
This class will introduce students to the syntax, tools and methods of raster based graphics and image editing/manipulation by using Adobe Photoshop. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. PREREQUISITE(S): None

GD 152
INDESIGN WORKSHOP
Undergraduate
This class will cover fundamental typographic design and layout skills by using page layout software Adobe InDesign. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. PREREQUISITE(S): None

GD 153
TYPEFACE DESIGN WORKSHOP
Undergraduate
This is an introductory course covering principles of digital typeface design. Students will render a typeface design over the course of the class using an industry standard computer application such as Fontographer.
GD 154
CSS WORKSHOP
Undergraduate
This is a hands-on course in designing web pages using CSS. In this course students will learn layout and how to style pages with CSS using text editors. The course will include weekly mixtures of lessons and exercises. This course can be taken concurrently with the HTML5 Workshop. PREREQUISITE(S): Previous experience with HTML highly recommended

GD 155
HTML5 WORKSHOP
Undergraduate
This is a hands-on course in developing web pages and content using HTML5. In this course students will learn to create and edit web pages, applications, and/or games with HTML5 using text editors. The course will include weekly mixtures of lessons and exercises. This course can be taken concurrently with the HTML5 Workshop. PREREQUISITE(S): Previous experience with HTML highly recommended

GD 200
GRAPHIC DESIGN I
Undergraduate
This course introduces the world of graphic design in a social and historical context. The goals are to explore formal structures and research methods with emphasis on the role of analysis and conceptual thinking as the first tasks of the print and multi-media designer. The course includes basic instruction in typography, color, problem-solving in print and on screen. PREREQUISITE(S): GD 105, ART 105, ANI 105 or GPH 211

GD 210
DIGITAL ILLUSTRATION I
Undergraduate
Introduction to illustration development in image, line and photography, combining computer applications and hand-rendered approaches. PREREQUISITE(S): GD 105, ART 105, ANI 105 or GPH 211

GD 211
INTERMEDIATE DIGITAL ILLUSTRATION
Undergraduate
Intermediate practice for illustration development in image, line and photography, combining computer applications and hand-rendered approaches, will be studied. PREREQUISITE(S): GD 105 or ANI 105 or ART 106

GD 215
WEB DESIGN FOR COMMERCIAL PROJECTS
Undergraduate
This is a design-focused web class on intermediate concepts and techniques in the visual design, development and implementation of websites for commercial purposes. Students will use industry standard web design applications and some hand coding in HTML and CSS. PREREQUISITE(S): GD 110 or IT 130 or HCI 201 or AMD 385

GD 216
WEB DESIGN FOR ARTISTS
Undergraduate
A design-focused web class that focuses on intermediate concepts and techniques in the visual design, development and implementation of websites for personal expression and artistic experimentation. Students will use industry standard design applications and some hand coding in HTML and CSS. PREREQUISITE(S): GD 110 or IT 130 or HCI 201 or AMD 385

GD 220
HISTORY OF DESIGN I
Undergraduate
The history of graphic design is an evolution in aesthetics, technology, style and visual communication. The class will encompass a survey of the major movements in the field of print design, notable designers and design materials. The nature of changing methods, materials, technologies and values are examined in the context of the social and political realities that shape communication. The course will include the historical shift from print to multimedia design methodologies. PREREQUISITE(S): None
GD 221
TRENDS IN CONTEMPORARY GRAPHIC DESIGN
Undergraduate
World movements in design and contemporary practice in print, web and experiential design. PREREQUISITE(S): None but GD 220 recommended

GD 230
TYPOGRAPHY
Undergraduate
Study of the formal structures of letterforms and text. Exploration of typography to create and extend meaning, emphasizing the relationship between form and content. PREREQUISITE(S): GD 105, ART 105, ANI 105 or GPH 211

GD 231
TYPOGRAPHY IN MOTION
Undergraduate
Students explore different ways of transforming static form to moving, dynamic and dimensional form. Using both storytelling and abstraction, students will create typography sequences with intention, humor, and emotion. Students will work with appropriate software to create innovative and informative typographic design. PREREQUISITE(S): GD 230

GD 250
DESIGN STUDIO FIELD TRIP
Undergraduate
This 2-credit workshop offers field trips to design studios, allied fields workplace visits and relevant museums and gallery exhibitions. Students will research and study design studios in the Chicago area and attend networking events. Appropriate for Graphic Design, Interactive Media, Communication, and all other students interested in design and allied field. Students will write a reflective paper after each trip. Be aware that there will be travel time before and after the class. PREREQUISITE(S): None

GD 260
MOTION GRAPHICS
Undergraduate
This course will introduce the student to effective communication using motion graphics, including its application in the areas of film titles, broadcast and commercial design, interactive media, and gaming. The combination of music, visuals and typography will be explored following the basic theories of kinetic composition and aesthetics. Students will study the history of the field, including the work of pioneers such as Norman McLaren, Saul Bass and Len Lye. PREREQUISITE(S): Sophomore Standing and one of the following: ANI 105, ANI 101, GD 105, ART 105, GPH 211, DC 205

GD 270
SEMIOTICS AND VISUAL DESIGN
Undergraduate
Design and designed products can be interpreted as signs that are the result of human needs and desires. This course examines theoretical issues in how design of a message or product influences the user's decision to read it, use it or buy it. Semiotics theory examines these concepts as well as design value and criteria for evaluation in contemporary culture. PREREQUISITE(S): None

GD 300
GRAPHIC DESIGN II
Undergraduate
This course explores design problems in visual communication through word (text) and image (digital, photographic, collage, video) primarily based on the student's own research and writing. Historical word/image art models including dada, surrealism, futurism and contemporary communication and design art are studied as models for the generation of projects. This intermediate level course requires previous mastery of basic design concepts and typography as well as both hands-on and basic computer design skills. PREREQUISITE(S): GD 200 and GD 230

GD 315
WEB DESIGN: ADVANCED PROJECTS
Undergraduate
This course will emphasize interactivity and professional presentation for advanced multimedia web sites for artistic and commercial projects. Advanced concepts and techniques in the visual design and implementation of web pages. Students will use industry standard web design applications and some hand coding in HTML and CSS. PREREQUISITE(S): GD 215 or GD 216
GD 330
ADVANCED TYPOGRAPHY
Undergraduate
Advanced investigation into typography and text for verbal and visual expression for both print and multimedia. PREREQUISITE(S): GD 230

GD 340
PUBLICATION DESIGN
Undergraduate
Design of multiple page documents: magazines, catalogs, and annual reports. Emphasis placed on research methodology, conceptual approach and audience. Knowledge of computer applications and typography are assumed. PREREQUISITE(S): GD 200 and GD 230

GD 341
BOOK MAKING AND BINDING WORKSHOP
Undergraduate
This is an introductory course covering the basic principles of hand bookbinding including theories of book structure, review of paper information and bookbinding materials. The class will be a mixture of demonstrations and practical exercises, and each student will produce a variety of books and structures. PREREQUISITE(S): GD 105

GD 350
PORTFOLIO WORKSHOP
Undergraduate
Students review previous course projects and prepare a final portfolio as well as their own design identity and a resume in preparation for job interviews and/or graduate school. Visiting design professionals will present their work to the class and share their experiences in the field. Students will also learn presentational techniques and methods for career development. PREREQUISITE(S): GD 200, GD 210 and GD 230

GD 360
ADVERTISING DESIGN
Undergraduate
Explores the function and practice of design in advertising in both social and art historical contexts. This course engages practical real life projects as well as projects that explore cultural and artistic practices. PREREQUISITE(S): GD 200 and GD 230

GD 365
ADVANCED MOTION GRAPHICS
Undergraduate
This course builds on motion graphics fundamentals covered in ANI260 Motion Graphics. In Advanced Motion Graphics, students will work to develop a better understanding of how to develop a distinct visual style in both personal work and in work for clients. The course also focuses on gaining familiarity with contemporary styles and trends in professional motion graphics, and an awareness of Chicago-based motion graphics production. PREREQUISITE(S): ANI260

GD 380
DESIGN FOR CLIENT AND COMMUNITY
Undergraduate
This course enables students to work from start to finish on client-based graphic design and projects. Students establish working relationships as individuals and in teams that utilize their skills to effectively evaluate the communication needs of an organization or business, develop design solutions that fulfill those needs, and negotiate the process between designers and clients. Objectives of the course include: improving student's developing design skills to an advanced level, creating awareness of current design trends, supporting student's development of independent working habits, utilizing integration of both hand-skills and the computer as design tools, and completing professional projects after staged client feedback and revisions. PREREQUISITE(S): GD 200 and GD 230

GD 394
CAPSTONE PROJECT I
Undergraduate
This two course sequence provide a Graphic Design-specific capstone experience for the student. The capstone course will connect the students' Graphic Design course work with the University courses s/he has taken through three components: student-generated design proposals, class/instructor discussions, and the actual creation/production of the student's proposal. The production piece is the primary focus of this course that takes place over two quarters. PREREQUISITE(S): GD 200 and GD 230
GD 395
CAPSTONE PROJECT II
Undergraduate
This two course sequence provide a Graphic Design-specific capstone experience for the student. The capstone course will connect the students' Graphic Design course work with the University courses s/he has taken through three components: student-generated design proposals, class/instructor discussions, and the actual creation/production of the student's proposal. The production piece is the primary focus of this course that takes place over two quarters. PREREQUISITE(S): GD 200 and GD 230

GD 399
INDEPENDENT STUDY
Undergraduate
Independent course of study supervised by an instructor based on an agreed upon proposal. Study form and consent of instructor required. Prerequisite: Consent of dean.

GEO 101
PHYSICAL GEOGRAPHY
Undergraduate
An introduction to the spatial aspects of the Geosystem consisting of the inter-related systems of the Atmosphere (air), Lithosphere (solid earth), Hydrosphere (water), and the Biosphere (living organisms).

GEO 103
URBANIZATION
Undergraduate
The course explores the evolution of urban forms and structures in the United States from the perspective of geography. In addition to studying the historic emergence of the American urban system, the course covers processes and phenomena associated with the spatial organization of housing, transportation, commercial and industrial land-use planning, as well as urban poverty, local governance, and issues of race, gender and sexuality.

GEO 133
URBAN GEOGRAPHY - EXPERIENTIAL LEARNING
Undergraduate
The course provides an in depth analysis of a Chicago neighborhood, connecting this to wider U.S. trends in urbanization and urban development. Students conduct a research project, through archival study and field work.

GEO 170
EARTH'S CULTURAL LANDSCAPE
Undergraduate
An examination of how people, through their cultural processes, change the earth's landscapes and how places look. Students are challenged to think critically about culture, space and place. They are introduced to the ways cultural geographers explore a diverse range of topics such as colonialism, commodification, production and consumption of places, diasporas, and constructions of race, class, gender, sexuality, and nationality. Topics span local to global locales.

GEO 172
CULTURAL GEOGRAPHY
Undergraduate
How do artists depict different locations? How do television portrayals of New York City compare and contrast between situation comedies and drama series? How do lyrics and music portray a sense of place and local identity? This course will analyze how places are represented and understood through arts, music and literature. Students will develop the theoretical skills to examine the cultural geography both of the United States and elsewhere.

GEO 200
SUSTAINABLE URBANISM
Undergraduate
This course focuses on the application and meaning of 'sustainability' to our discussion and understanding of cities, urban communities, and the urbanization process. The course conceptualizes sustainability as residing at the intersection of political, economic, social, and ecological thinking and examines its utility and flexibility towards urban form and function. The course pursues the topic of urban sustainability through the lenses of scale (e.g., local vs. global), justice (e.g., social vs. ecological), and diversity (e.g., cultural vs. biotic).
GEO 201
GEOPOLITICS
Undergraduate
A survey of theories of geopolitics and international relations, the course explores issues of international security and organization, regional integration, and nationalism, state formation and conflict. Historic geopolitical cases from Europe (Northern Ireland, EU, Balkans), the Middle East and North Africa, and the Russian realm, provide opportunities to assess theoretical approaches and profile the security and foreign policy concerns of the U.S. in the new millennium.

GEO 204
RELIGIOUS GEOGRAPHY
Undergraduate
Religion and geography are fundamentally intertwined. From the establishment of theocratic states that control territory, to the sprawl of US suburbia that has led to megachurches, the role of religion in shaping the earth’s cultural landscape is undeniable. Religious beliefs shape geographies - there are places that, through faith, become sacred; elsewhere religious individuals and groups struggle to claim places in the name of their beliefs. This course will examine case studies from around the world to explore the intersection of geography and religion.

GEO 205
JUSTICE, INEQUALITY AND THE URBAN ENVIRONMENT
Undergraduate
A theoretical and applied investigation of the social, political, and economic processes influencing the spatial distribution of environmental amenities and harms across the U.S. urban landscape, with particular focus on urban structure and the role of environmental justice struggles in shaping urban policy and the urban landscape.

GEO 206
BOUNDARIES AND IDENTITIES
Undergraduate
A critical survey of the manner in which social, political, ethnic, gender and racial identities are being constructed by modernity and post-modernity. Cross-listed as INT 206. Recommended for GEO majors when taught by Professor Nast.

GEO 210
ENVIRONMENTAL CONSERVATION
Undergraduate
This course explores society-environment relations in case studies drawn from around the world. The course focuses on forces destructive to habitat and biospheres, species loss, global warming, and the tension between “modernization” and environmental sustainability.

GEO 211
BIOGEOGRAPHY
Undergraduate
Biogeography is the study of the distribution of plants and animals on the earth's surface, and the historical and ecological factors and human activities responsible. It asks questions such as: Why were placental mammals absent from (pre-European) Australia, while marsupials were abundant? How are current plant species' distributions different from those of the past, and what implications does this have for their ability to respond to global changes? Why have islands sustained so many extinctions compared to mainlands? Why are there so many insect species in the tropics and so few at high latitudes? How are humans changing the distribution and abundances of plant and animals? This course explores these and other such questions. The goal is to understand biodiversity patterns and processes across earth, and how this knowledge can help maintain biological communities in human-dominated, 21st century landscapes.

GEO 215
INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY
Undergraduate
This course charts the political, social and economic transformation of the developing countries, (Africa, Asia, Latin America, Caribbean, Pacific Islands) into a global economy dominated by the ‘developed’ countries (North America, Europe and Japan). This process, termed 'GLOBALIZATION', results from the operation of the global market mechanism; the activities of Transnational Corporations (TNCs) and the programs of the International Financial Institutions (IFIs).
GEO 218
SPAIN AND PORTUGAL
Undergraduate
A geographical exploration of Spain and Portugal’s history, culture, politics and society. This course focuses on critical periods, events, and socio-political forces that substantially influenced these countries and demonstrate their role as one of Europe's key links to Latin America and Africa.

GEO 220
THE DYNAMIC OCEAN
Undergraduate
Develops the concepts of physical oceanography. Topics include the chemical and physical properties of seawater, the dynamics of ocean currents and circulations, the physics of water waves and tides, the interaction of the ocean with the atmosphere, the formation of coastlines, and the effects of pollution on the ocean. Cross-listed with PHY 220.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

GEO 225
WEATHER AND CLIMATE
Undergraduate
The dynamic atmospheric processes which control day-to-day weather and the longer term processes which determine prevailing climatic conditions are the two principal foci of this course. Special topics include weather systems, climate change, global warming, and human impacts on climate. Cross-listed with PHY 225.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

GEO 230
TRANSPORTATION GEOGRAPHY
Undergraduate
The course is an introduction to the subfield of transportation geography. Studying transportation and transportation-related phenomena from a spatial-analytic perspective, the course builds upon theories and methods of transportation geography. Systematic study of select case studies at the local and regional level provide opportunities for application of principles.

GEO 233
COMPARATIVE URBANISM
Undergraduate
An exploration of non-U.S. urban and planning traditions, through the urban morphological and comparative study of the foundation, and social-political forces that shaped cities such as Paris, St. Petersburg, Istanbul, Bombay-Mumbai, Hong Kong, and Mexico City.

GEO 240
HISTORY OF CARTOGRAPHY
Undergraduate
The course explores the history of mapmaking as a dimension and expression of the intellectual, scientific, technological, and political transformation of society. Focusing primarily on Europe and North America, the course covers the prevailing schools of thought and practitioners, and the structures and forces that shaped them. The course includes hands-on study of archival quality maps in DePaul's Special Collections and other regional institutions. Short field trip to the Newberry Library required.

GEO 241
GEOGRAPHIC INFORMATION SYSTEMS I
Undergraduate
An introductory-level course covering the fundamentals of GIS. Topics include GPS, remote sensing, data models (vector and raster), coordinate systems, and map design. Instruction is accomplished through lectures and hands-on computer lab exercises using ArcGIS.

LSP 120 or HON 180 or (MAT 130 or above) or instructor permission is a prerequisite for this course,
GEO 242
GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
Undergraduate
An intermediate-level course. Students conduct real-world GIS projects for community organizations in Chicagoland. Topics include data capture, manipulation, database design, data quality, and spatial analysis. Students will complete projects following best practices of GIS project management. Instruction is accomplished through lectures and hands-on computer lab exercises using ArcGIS.

GEO 241 or PSC 201 is a prerequisite for this class.

GEO 243
REMOTE SENSING
Undergraduate
An introduction to the fundamentals of remote sensing, the analysis of the earth through air or space borne sensors. Special topics include image interpretation, image processing, urban change analysis, environmental monitoring, and photogrammetry. Instruction is accomplished through lectures and hands-on lab exercises using ArcGIS Desktop. A comprehensive final project using techniques learned from your work completes the course.

LSP 120 or HON 180 or (MAT 130 or above) or instructor permission is a prerequisite for this course.

GEO 260
GLOBALIZATION AND RESOURCES
Undergraduate
An exploration of globalization and the politics and flow of natural resources between the developed and developing world, especially since World War II. Using case studies from around the world, the course introduces students to competing paradigms of environmental and resource destruction and to the complexities and contingencies of social and environmental change in the "new" global economy.

GEO 266
THE WORLD ECONOMY
Undergraduate
A study of the spatial effects of globalization. Topics include the geography of industrialization, spatial divisions of labor, global commodity chains, and industrial development in peripheral economies.

GEO 269
POLITICAL ECOLOGY
Undergraduate
The course introduces students to the theoretical foundations and evolution of critical Political Ecology and its assessment of environmental change and social vulnerability in the developing world. The course traces the history of the discipline to its early roots in geography, anthropology, and ecology and tracks its emergence as a theoretically sophisticated critique of the global spread of economic development and environmental policy.

GEO 299
THE NATURE OF GEOGRAPHY
Undergraduate
An exploration of the social construction of knowledge through the historic evolution of geographic thought.

GEO 300
GEOGRAPHICAL INQUIRY
Undergraduate
An in depth exploration of modern debates within geography. Students prepare their own geographic research project and participate at a regional conference.

GEO 310
GREEN INFRASTRUCTURE
Undergraduate
Green Infrastructure (GI) goes beyond the conventional conservation efforts of creating and maintaining national and state parks and wildlife refuges. Instead, GI promotes conservation that takes place at different spatial scales to create a network of open spaces out of existing open spaces and green corridors as well as offering strategies for constructing green spaces out of abandoned urban spaces.
GEO 312
THE MIDDLE EAST AND NORTH AFRICA
Undergraduate
A basic survey of the physical, cultural, economic, and political geography of the countries of northern Africa and Western Asia. The course traces the human geographical impacts of Arabic, Turkish, and Persian civilizations, as well as the manner in which Islam, nationalism, statehood, and global politics are shaping the region today.

GEO 313
AFRICA: A CONTINENT IN TRANSITION
Undergraduate
A geographic survey of the fifty countries of Sub-Saharan Africa, with special emphasis on current aspects of their ethnic, economic, and geopolitical differences.

GEO 314
SOUTH AND SOUTHEAST ASIA
Undergraduate
Key characteristics of the physical, cultural, economic and political geography, and international relations of India, Pakistan, Thailand, the Philippines, and other countries in the region.

GEO 315
ASIA'S PACIFIC RIM
Undergraduate
A survey course focused upon key geographical factors contributing to the emergence of Japan as an international economic leader, and the rapid development of the People's Republic of China, Taiwan, Hong Kong, and South Korea, among others, as global economic players.

GEO 316
THE EUROPEAN UNION
Undergraduate
An integration of political geographic and international relations perspectives on European integration: Special emphases on political philosophies and theories of integration, the geopolitics of block formation and enlargement, institutional structure, the evolution of policies, and the future directions of the European Union. Cross-listed with PSC 340.

GEO 317
POST SOVIET EASTERN EUROPE AND THE RUSSIAN REALM
Undergraduate
A regional geographic survey of the Russian realm spanning the imperial, Soviet, and republican eras: Special emphases on the political, cultural, and economic geographies of the vast Eurasian region dominated historically by Russia.

GEO 326
LATIN AMERICA AND THE CARIBBEAN
Undergraduate
An analysis of the social, environmental, cultural, economic, and political factors affecting this vast region.

GEO 327
SOUTH AMERICA
Undergraduate
An analysis of the physical, cultural, economic, and political factors affecting the geography of that continent's regions and countries.

GEO 331
CHICAGO: SPATIAL ANATOMY OF A METROPOLIS
Undergraduate
An advanced exploration of Chicago's urban geography, focusing in detail on topics such as historical geography, industrial change, community development, housing, architecture, transportation and Chicago's status as a "global city."
GEO 333
URBAN PLANNING
Undergraduate
A seminar on the intellectual history and theories of urban planning and design, and their application in urban settings in the U.S. and abroad. Systematic study of case studies leads to the investigation of current urban planning issues in Chicago.

GEO 339
TOPICS IN ARCHITECTURE AND URBANISM
Undergraduate
Cities are changing dramatically as a result of the accelerated circulation of finance capital worldwide, the emergence of new information and data visualization technologies, the expansion of credit, the ceaseless retrenchment of population groups inside and around cities, and the emergence of new architectural and planning paradigms. The course explores and researches aspects of these transformative processes and their impacts on race, class, economic prosperity, and the contingencies of quality of urban life. A significant research and writing project is required in this specialist high-level course.

GEO 342
PROGRAMMING IN PYTHON FOR GIS
Undergraduate
Knowledge of a scripting language is a valuable skill for GIS analysts. Students will learn the basics of Python (a programming language), including script writing and implementation. By completing this course, students should be able to manipulate GIS data, automate GIS workflows, and develop customized GIS tools by writing script in Python in ArcGIS. The class is largely conducted through hands-on activities in a GIS laboratory.

GEO 343
REMOTE SENSING II
Undergraduate
This course presents intermediate to advanced techniques in remote sensing, analysis of the earth through air or space borne sensors. Remote Sensing II provides 2nd level depth to some of the more advanced techniques of remote sensing and image interpretation. There is a special focus on urban/environmental applications of remote sensing, i.e. the detection, delineation, identification, and quantification of processes occurring in and around cities which affect the environment. Remote sensing technologies have, to an increasing extent, become integrated and deployed through geographic information systems (GIS) technology. Students learn to integrate techniques from this course to produce information products that are useful in the support of public and private decision-making. Techniques covered include advanced classification, georeferencing, LIDAR, and hyperspectral data analysis. The course will be taught through integrated hands-on activities, lectures and a comprehensive final project.

GEO 344
GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY
Undergraduate
An advanced-level course. Students conduct spatial analysis of sustainability issues of their interests. Topics include pattern point analysis, network analysis, spatial interpolation, and hydrologic modeling with GIS. Instruction is accomplished through lectures and hands-on computer lab exercises using ArcGIS. Formerly GEO 244.

GEO 350
WORLD OF WINE
Undergraduate
An analysis of the geographical factors that influence the global production and distribution of wine. Material fee required, payable on the first day of class. Students must be 21 years of age or older.
GEO 351
GEOGRAPHY, FOOD AND JUSTICE
Undergraduate
While the need for food is universal, geographies of food production, distribution and consumption are anything but even. This leads to multiple issues of food injustice at a variety of scales. This course critically examines the contemporary global food system with the goal of providing students with skills and knowledge to engage in food justice activism. Students study the development of food systems and how inequalities have emerged in production, distribution and consumption. The course then explores food justice movements including the emergence of alternative food networks in the U.S and internationally. Assignments may engage students in local food projects and or/advocacy campaigns.

GEO 370
ADVANCED TOPICS IN CULTURAL GEOGRAPHY
Undergraduate
This course will engage with contemporary scholarly research in Cultural Geography. Each class will be centered around a seminar discussion of required readings, selected from recent scholarship. The instructor of this class will focus on areas of her or his own expertise, including geographies of landscape, feminist geography, geographies of race and ethnicity, geographies of nationalism and post-colonialism.

GEO 391
RESEARCH TECHNIQUES
Undergraduate
An overview of research techniques in geography with a focus on a statistical approach. Students will get versed in quantitative reasoning by learning how statistical concepts and techniques are applied to geographic problems. Topics include research concepts, research design, descriptive statistics, and inferential statistics geared toward understanding geographic phenomena. Instruction is accomplished through lectures and hands-on exercises using calculators, SPSS and ArcGIS.

GEO 395
SEMINAR IN SELECTED TOPICS
Undergraduate
Upper-division seminar exploring selected geographical issues.

GEO 398
INTERNSHIP
Undergraduate
The course combines academic study with practical experience obtained through work in an extramural internship setting. The internship course requires academic output in the form of a research journal, paper, or other.

GEO 399
INDEPENDENT STUDY
Undergraduate
Intensive study of a topic of special interest. Private conferences with instructor of supervised reading and research. Variable credit.

Junior or Senior standing and department consent are a prerequisite for this class.

GEO 441
GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT
Graduate
This course will focus on applications of Geographic Information Systems (GIS) to community studies and community development. As an amalgam of information technologies (e.g. database management, Web 2.0) and earth measurement technologies (e.g. global positioning systems, remote sensing), GIS is rapidly entering the realm of community development. The course will explain how GIS works; enable students to learn techniques including mapping, spatial analysis, and data management; and provide students with the opportunity to apply GIS to community development.
GEO 442
GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT
Graduate
This course will examine how GIS has been used to monitor, and evaluate efforts advancing sustainability in urban areas. Students will learn geospatial techniques in support of sustainable practices, including promoting energy efficiency, managing water resources, promoting sustainable options of transportation, improving access to local healthy foods, and responding to climate change. This is accomplished through hands-on lab activities and a case study conducted in collaboration with a non-profit organization engaged in promotion of sustainable practices in Chicago.

GEO 441 or successful completion of the GIS certificate is a prerequisite for this course.

GEO 499
INDEPENDENT STUDY [GRADUATE]
Graduate
Intensive study of a topic of special interest. Private conferences with instructor of supervised reading and research. Variable credit. Instructor consent required.

GER 101
BASIC GERMAN I
Undergraduate
Listening to, speaking, reading and writing German in a cultural context for the beginning student.

GER 102
BASIC GERMAN II
Undergraduate
Continued emphasis on the four skills in culturally authentic situations.

GER 103
BASIC GERMAN III
Undergraduate
Completion of the basic elements of the German language, spoken as well as written, with due regard to the cultural context of German expression.

GER 104
INTERMEDIATE GERMAN I
Undergraduate
Intensive practice in the use of German through listening, speaking, reading and writing, and continued enhancement of the cultural awareness intrinsic to those skills.

GER 105
INTERMEDIATE GERMAN II
Undergraduate
Continuing practice in spoken and written German and further development of reading and listening abilities in an authentic cultural context.

GER 106
INTERMEDIATE GERMAN III
Undergraduate
Developing more fluency in speaking, understanding, reading and writing German with a concomitant heightened awareness of the cultural dimensions of the German language.

GER 197
SPECIAL TOPICS IN GERMAN
Undergraduate
See schedule for current offerings.
GER 198
STUDY ABROAD
Undergraduate
Variable credit.

GER 199
INDEPENDENT STUDY
Undergraduate
Variable credit.

GER 201
ADVANCED COMMUNICATION I
Undergraduate
Developing culturally appropriate speech and writing through the study of speech acts and written documents within the context of a systematic study and review of grammar.

GER 202
ADVANCED COMMUNICATION II
Undergraduate
Focus on the differences between speech and writing with an emphasis on the latter as expressed in compositions, editing and other writing activities.

GER 203
ADVANCED COMMUNICATION III
Undergraduate
Developing a sophisticated spoken fluency using authentic oral texts as models for elaborated discourse. Written texts and writing exercises reinforce oral expression.

GER 277
FIN-DE-SIECLE VIENNA
Undergraduate
Vienna of the late-nineteenth and early-twentieth centuries was a place where geography, culture, and intellect intersected. Figures such as Sigmund Freud, Gustav Klimt, Arthur Schnitzler, Ludwig Wittgenstein, and Gustav Mahler mingled, discussed, and shaped the arts, philosophy, and sciences of the nascent twentieth century.

GER 297
SPECIAL TOPICS IN GERMAN
Undergraduate
See schedule for current offerings.

GER 298
STUDY ABROAD
Undergraduate
Variable credit.

GER 299
INDEPENDENT STUDY
Undergraduate
Variable credit.

GER 301
INTRODUCTION TO GERMAN LITERATURE I : FROM ORIGINS TO 1600
Undergraduate
From origins to 1600.
GER 302
INTRODUCTION TO GERMAN LITERATURE II: FROM 1600-1850
Undergraduate
From 1600-1850.

GER 303
INTRODUCTION TO GERMAN LITERATURE III: FROM 1850 TO PRESENT
Undergraduate
From 1850 to present.

GER 304
GERMAN DRAMA
Undergraduate
Topics include: the classical period; drama of the 19th century; drama of the 20th century.

GER 305
GERMAN PROSE
Undergraduate
Topics include: prose from 1600 to Goethe; from the Romantic to the Realistic periods; prose of the 20th century.

GER 306
THE NOVELLE
Undergraduate
From Goethe to Grass.

GER 307
GERMAN POETRY
Undergraduate
Topics include: from the Baroque to Holderin; from Romanticism to the present.

GER 308
GOETHE'S FAUST
Undergraduate
Part I and selected passages from Part II.

GER 309
GERMAN CIVILIZATION I
Undergraduate
The rise and fall of the "Holy Roman Empire": Social, intellectual and artistic background of Germany from its origins to 1871.

GER 310
GERMAN CIVILIZATION II
Undergraduate
Social, intellectual and artistic developments in Germany from unification in 1871 to reunification in 1990.

GER 311
GERMAN CIVILIZATION III
Undergraduate
Contemporary Germany.
GER 312
GERMAN INTELLECTUAL HISTORY
Undergraduate
Marx, Nietzsche, Freud; their decisive influence on the twentieth century.

GER 313
TURN OF THE CENTURY VIENNA
Undergraduate

GER 314
BERLIN AND THE GOLDEN TWENTIES
Undergraduate
Expressionist film, Bauhaus, Dada, Brecht, Thomas Mann.

GER 315
LITERATURE AFTER 1945 (EAST AND WEST)
Undergraduate
Reconstruction of German literature and coming to terms with the past: "Gruppe 47", Grass, Boell, Enzensberger.

GER 316
LITERATURE OF THE WEIMAR YEARS
Undergraduate
Mann, Hesse, Kafka, Brecht.

GER 317
WOMEN WRITERS OF GERMAN EXPRESSION
Undergraduate
Studies in literature and social issues from all periods of German, Austrian and Swiss history.

GER 319
MULTICULTURAL CONTEMPORARY WRITERS
Undergraduate
Focus on the critical bicultural awareness of immigrant writers of German expression whose original language is not German.

GER 320
ADVANCED COMMERCIAL GERMAN
Undergraduate
Advanced preparation for the use of German in the business world.

GER 321
TRANSLATION
Undergraduate
Fundamental principles of translation and acquisition of practical skills involved in translating original literary and other texts from German into English and vice versa. Three years of college German is recommended.

GER 329
THE GERMAN FILM
Undergraduate
Topics from all periods.
GER 351
GERMAN PHONOLOGY AND PHONETICS
Undergraduate
An in-depth study of the language's sound system and intensive pronunciation practice.

GER 397
SPECIAL TOPICS IN GERMAN
Undergraduate
See schedule for current offerings.

GER 398
STUDY ABROAD
Undergraduate
Variable credit.

GER 399
INDEPENDENT STUDY
Undergraduate
Variable credit.

GER 401
INTRODUCTION TO GERMAN LITERATURE I: FROM ORIGINS TO 1600
Graduate
From origins to 1600. Cross-listed with GER 301.

GER 402
INTRODUCTION TO GERMAN LITERATURE II: FROM 1600 - 1850
Graduate
From 1600-1850. Cross-listed with GER 302.

GER 403
INTRODUCTION TO GERMAN LITERATURE III: FROM 1850 TO PRESENT
Graduate
From 1850 to present. Cross-listed with GER 303.

GER 404
GERMAN DRAMA
Graduate
Topics include: the classical period; drama of the 19th century; drama of the 20th century. Cross-listed with GER 304.

GER 405
GERMAN PROSE
Graduate
Topics include: prose from 1600 to Goethe; from the Romantic to the Realistic periods; prose of the 20th century. Cross-listed with GER 305.

GER 406
THE NOVELLE
Graduate
From Goethe to Grass. Cross-listed with GER 306.
GER 407
GERMAN POETRY
Graduate
Topics include: from the Baroque to Holderin; from Romanticism to the present. Cross-listed with GER 307.

GER 408
GOETHE'S FAUST
Graduate
Part I and selected passages from Part II. Cross-listed with GER 308.

GER 409
GERMAN CIVILIZATION I
Graduate
The rise and fall of the "Holy Roman Empire": Social, intellectual and artistic background of Germany from its origins to 1871. Cross-listed with GER 309.

GER 410
GERMAN CIVILIZATION II
Graduate
Social, intellectual and artistic developments in Germany from unification in 1871 to reunification in 1990. Cross-listed with GER 310.

GER 411
GERMAN CIVILIZATION III
Graduate
Contemporary Germany. Cross-listed with GER 311.

GER 412
GERMAN INTELLECTUAL HISTORY
Graduate

GER 413
TURN OF THE CENTURY VIENNA
Graduate

GER 414
BERLIN AND THE GOLDEN TWENTIES
Graduate
Expressionist film, Bauhaus, Dada, Brecht, Thomas Mann. Cross-listed with GER 314.

GER 415
LITERATURE AFTER 1945 (EAST AND WEST)
Graduate
Reconstruction of German literature and coming to terms with the past: "Gruppe 47", Grass, Boell, Enzensberger. Cross-listed with GER 315.

GER 416
LITERATURE OF THE WEIMAR YEARS
Graduate
Mann, Hesse, Kafka, Brecht. Cross-listed with GER 316.
GER 417
WOMEN WRITERS OF GERMAN EXPRESSION
Graduate
Studies in literature and social issues from all periods of German, Austrian and Swiss history. Cross-listed with GER 317.

GER 419
MULTICULTURAL CONTEMPORARY WRITERS
Graduate
Focus on the critical bicultural awareness of immigrant writers of German expression whose original language is not German. Cross-listed with GER 319.

GER 420
ADVANCED COMMERCIAL GERMAN
Graduate
Advanced preparation for the use of German in the business world. Cross-listed with GER 320.

GER 421
TRANSLATION
Graduate
Fundamental principles of translation and acquisition of practical skills involved in translating original literary and other texts from German into English and vice versa. Cross-listed with GER 321.

GER 429
THE GERMAN FILM
Graduate
Topics from all periods. Cross-listed with GER 329.

GER 451
GERMAN PHONOLOGY AND PHONETICS
Graduate
An in-depth study of the language's sound system and intensive pronunciation practice. Cross listed with GER 351.

GER 497
SPECIAL TOPICS IN GERMAN
Graduate
See schedule for current offerings.

GER 498
STUDY ABROAD
Graduate
Variable credit. Permission required.

GER 499
INDEPENDENT STUDY
Graduate
Variable credit. Permission of chair and instructor required.

GPH 205
HISTORICAL FOUNDATIONS OF VISUAL TECHNOLOGY
Undergraduate
This course is a survey of the development, application and meaning of visual technologies in a wide range of world cultures from pre-history to the present. It traces the unique intersection of mathematics and physical culture that marks design science, as it has been realized in a variety of human societies. The course includes works of art that emphasize those mathematical and geometric elements that are antecedent to contemporary graphic technology.
GPH 211
PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS I
Undergraduate
An introduction to the visual, non-verbal principles incorporated in the effective presentation of on-screen environments. This course emphasizes the use of two-dimensional elements and their organization.

GPH 212
PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS II
Undergraduate
Further experience with the visual, non-verbal principles incorporated in effective presentation of on-screen environments. This course emphasizes the use of three-dimensional elements, spaces and their organization. PREREQUISITE(S): ART 105, GD 105, GPH 211 or HCI 402.

GPH 213
PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS III
Undergraduate
An introduction to the visual and communication principles for the structure and organization of time-based digital environments. Introduction to standard 2D animation software applications. PREREQUISITE(S): GPH 211 or GD 105 or equivalent

GPH 250
DIGITAL MODELING I
Undergraduate
Introduction to 3D object modeling with an emphasis on visual applications and prototype design. Students will work with basic spatial operations in surface modeling and CAD interfaces and will produce an original object from pattern with computer-aided manufacture. Prerequisite: GPH 212

GPH 255
HAND PROTOTYPING FOR GRAPHIC VISUALIZATION
Undergraduate
Paper prototyping techniques for pre-screen image design including form rendering, rapid visualization, descriptive geometry, and iconographic diagramming. Students will work from initial sketch versions through client presentation. PREREQUISITE(S): ART 106 and (GPH 211 or GD 105)

GPH 259
DESIGN GEOMETRY
Undergraduate
An historical and practical introduction to the visual applications of geometry. This CAD-based survey covers constructive geometry, surface symmetry, projective geometry, polyhedrons and spheroids through the discussion of historical precedents and practicum exercises.

GPH 269
GRAPHIC GEOMETRIES
Undergraduate
An historical and practical introduction to the visual applications of geometry. This CAD-based survey covers constructive geometry, surface symmetry, projective geometry, polyhedrons and spheroids through the discussion of historical precedents and practicum exercises. Graduate standing is a prerequisite for this class.

GPH 279
SCIENCE AND DESIGN OF SUNDIALS
Undergraduate
This course explores ancient and early modern understanding of the cosmos and how this was successfully modeled into the sundial. About half of the course lectures are historical, while others explain the astronomy, geography and geometry used to design the dial. During lab sessions students design and create their own sundials. PREREQUISITE(S): None
GPH 321  
**COMPUTER GRAPHICS DEVELOPMENT I**  
*Undergraduate*  
This course presents the fundamental mathematical foundations of graphics including an introduction to the basic geometric constructions of points, vectors, transformations, matrices and homogeneous coordinates. The course will explore applications of these mathematical techniques to rendering 3D scenes and lighting and shading surfaces in 3D. Advanced topics will include several key techniques from computational geometry such as the computation of object intersections and applications to rendering 3D scenes and object collisions. The focus of this course is on building the software from scratch rather than using a graphics application programming interface (API) so that students will gain a deeper understanding of the techniques they will be using in later courses through an API such as OpenGL or Direct3D.  
**PREREQUISITE(S):** CSC 300 or CSC 383 or CSC 393

GPH 325  
**SURVEY OF COMPUTER GRAPHICS**  
*Undergraduate*  
(Formerly GPH 371) A survey of basic 3D techniques, including interaction of light and color. The relationship between visual effect and geometry. Visual effects of rendering, texturing and lighting algorithms. Procedurally based modeling and an introduction to procedural animation techniques.  
**PREREQUISITE(S):** CSC 212 or CSC 262 or IM 330

GPH 329  
**COMPUTER GRAPHICS DEVELOPMENT II**  
*Undergraduate*  
(Formerly CSC 329) Basic graphics architecture. Coordinate systems. Three-dimensional representations and transformations. Simple visible-surface algorithms. Introduction to illumination. Gouraud and Phong shading. Antialiasing. Texture mapping and elements of animation. Students create a graphics package using a high-level graphics API such as OpenGL.  
**PREREQUISITE(S):** GPH 321 or (CSC 393 and either MAT 220 or MAT 262)

GPH 336  
**SMOOTH SURFACE MODELING FOR GRAPHICS AND ANIMATION**  
*Undergraduate*  
**PREREQUISITE(S):** GPH 329

GPH 338  
**SURVEY OF 3-D ANIMATION**  
*Undergraduate*  
(Formerly titled Computer Animation Survey). Use of a commercially-based animation package for the purpose of communicating a narrative or visual information. Animation of transformations, deformations, cameras, and lights. Forward / inverse kinematics for character rigging.  
**Prerequisites:** ANI 201 and either GPH 325 or GPH 250.

GPH 339  
**ADVANCED RENDERING TECHNIQUES**  
*Undergraduate*  
An introduction to shading techniques for highly realistic computer generated imagery. Texturing basics. Design, acquisition and application of layered textures to produce realistic dirt and aged surfaces. Turntables. Basic illumination and reflectance models. Elements of procedural texturing for organic surface materials such as wood and marble. The course includes an introduction to an industry standard shading language that is a powerful prototyping tool for both offline and real-time rendering environments. Students work in teams to produce convincingly organic environments.  
**PREREQUISITE(S):** GPH 325 or GPH 321 or (ANI 339 and GPH 355)

GPH 340  
**PROCEDURAL SHADING**  
*Undergraduate*  
Procedural pattern generation, creating patterns such as marble and wood with noise, moving beyond the Phong Illumination model. Gaussian distributions and the Ward anisotropic model, BRDFs. Non-photorealistic rendering techniques such as "toon" shading and painterly techniques.  
**PREREQUISITE(S):** GPH 339
GPH 341  
ADVANCED LIGHTING TECHNIQUES  
Undergraduate  
Simple local models such as Phong, extensions to Phong (HDRI), ray-traced lighting and shadows, soft shadow generation using shadow maps, radiosity for producing ambient lighting and photon mapping for calculating realistic refracted light. Theory, lighting features supported, efficiency, and practical considerations for choosing the model in production. PREREQUISITE(S): GPH 339

GPH 345  
DIGITAL SURFACE MODELING  
Undergraduate  
This course is an upper level exploration of digital modeling in NURBS environments. Students will learn to creatively apply analytic methods of form production and scenic presentation suitable for application to design and engineering, medical and forensic visualization, and testing. In general this course will prepare students for 3-D graphic applications outside of the entertainment industry while rounding out their modeling skills for that industry, too. PREREQUISITE(S): GPH 212 or GPH 259 or ANI 230.

GPH 346  
SMOOTH SURFACE MODELING FOR GRAPHICS AND ANIMATION  
Undergraduate  

GPH 348  
RIGGING FOR ANIMATION  
Undergraduate  
Readying 3D characters and other models for animation. Skeleton chains, joint orientations, and degrees of freedom. IK solvers, including single chains, rotation and splines. Methods for computing weights for skinning body and face, including semi-automated approaches. Considerations for mechanical objects, animals and low-polygon models. PREREQUISITE(S): GPH 338 or ANI 201

GPH 350  
DIGITAL MODELING II  
Undergraduate  
Advanced experience in object modeling and prototype design. Students will work with more sophisticated form relationships, reverse engineering and textures, and will produce an original object from slicing with computer-aided manufacture. PREREQUISITE(S): GPH 250.

GPH 355  
3D SCRIPTING FOR ANIMATORS  
Undergraduate  
This is an introductory course in scripting for a 3D production environment. Students will learn and apply basic programming concepts in order to improve the productivity of animators and modelers. Using script, we will automate repetitive tasks, customize the interface, and create new tools. Students will gain a fundamental understanding of how a 3D animation package functions behind the interface. Prerequisites: ANI 230 or GPH 338

GPH 358  
COMPUTER GRAPHICS AUTOMATION  
Undergraduate  
Covers the use of scripting and other automation techniques to generate computer graphics and animation. Emphasis on the benefits and differences of scripting languages compared to conventional graphics programming. Using commercially available scripting environments, students will generate rich, interesting graphics and animations that would not be possible with the conventional user interface. PREREQUISITE(S): IM 330 or CSC 212 or CSC 262 or GPH 355 or CSC 242.

GPH 360  
MODELING SPACES  
Undergraduate  
The digital design and modeling of environmental spaces with attention to human use parameters. PREREQUISITE(S): GPH 250.
GPH 372
PRINCIPLES OF COMPUTER ANIMATION
Undergraduate
(Formerly CSC 372)  This course will cover a range of topics in introductory 3D Computer Animation. Topics covered will include key framing, interpolation, hierarchies, inverse kinematics, particle systems, and the basics of physically based simulation and modeling. PREREQUISITE(S): GPH329.

GPH 374
COMPUTER GAMES
Undergraduate
(Formerly CSC 374) (Cross-listed with CSC 574)  Concept and character development, storyboarding, prototyping, testing and implementation. Interaction techniques. Optimization of lighting and texturing. Discussion of relevant hardware and peripherals. PREREQUISITE(S): GPH 329.

GPH 375
ADVANCED GRAPHICS DEVELOPMENT
Undergraduate
(Formerly CSC 375)  Survey of standards and current modular technology for 2D and 3D graphics software development. Use of software development toolkits to create "plug-ins" and other modularly organized functionality enhancements for selected commercially available graphics packages. PREREQUISITE(S): GPH 329 or permission of instructor.

GPH 376
ARTIFICIAL INTELLIGENCE IN COMPUTER GAMES
Undergraduate
The course introduces Artificial Intelligence (AI) topics applied to computer games. No previous knowledge of AI will be assumed. The course concentrates on development of applications that guide game objects in 2D (3D) space. Basic AI architectures and techniques are introduced. Implementation of a game AI engine will be discussed. PREREQUISITE(S): GPH 374.

GPH 380
VISUALIZATION
Undergraduate
An in depth introduction to a wide range of visualization techniques focusing on medical and scientific applications. Introduction to programming using a visualization package, use of color for feature extraction and enhancement, false color mapping techniques, reconstruction techniques, iso surface generation, stream lines and ribbons, spatial set operations and projections of higher-dimensional data sets. Prerequisite(s): GPH 325

GPH 387
FORENSIC ANIMATION
Undergraduate
Techniques and issues in forensic animation. Application of modeling and rendering to the recreation of time-based events for legal purposes. Survey of research and interview techniques. Demonstrative recreation and physically-based recreation. Issues of accuracy, verification, certification and ethics. Students research and recreate an event with forensic value. Possible project areas include motor vehicle incidents, aviation events, product liability, medicine, and trademark infringement. Prerequisites: GPH 338 or ANI 231

GPH 388
PRODUCTION PIPELINE TECHNIQUES
Undergraduate
An essential aspect of CGI is the skill to effectively manage data for an entire show, and to know how to monitor renders and image processes with the end result of assembling the finished animation. Students taking this course will gain hands-on experience in render queue management, automated file/image processing and manipulation, disk resource management, data archiving, conversion of outside vendor media and scripting tools to automatic common tasks and improve workflow. Students will work in teams to complete large-scale asset management and rendering projects. Prerequisites: CSC 212 or CSC 262
GPH 389
REAL-TIME GRAPHICS TECHNIQUES
Undergraduate
This course will cover the basic algorithms and techniques used in today's real-time graphics systems. Topics will include the following: an introduction to computational geometry including computation with polygonal meshes. Alternate scene representations for efficient geometry culling, including BSP trees and oct-trees. Bounding volume hierarchies, box-trees and R-trees, and application to geometry culling. Programmable graphics hardware and its applications to geometric deformations and surface rendering. PREREQUISITE(S): GPH 329

GPH 390
TOPICS IN GRAPHICS
Undergraduate
Description: May be repeated for credit. PREREQUISITE(S): Permission of Instructor

GPH 395
COMPUTER GRAPHICS SENIOR PROJECT
Undergraduate
A group project involving analysis, design, creation, implementation and testing of a large project such as an animation, an interactive multimedia presentation or a video game. Portfolio creation and critique. Discussion of strategies for graduate school and the job market. PREREQUISITE(S): GPH 338 or GPH 372.

GPH 399
INDEPENDENT STUDY
Undergraduate
Variable credit. PREREQUISITE(S): Consent of dean.

GPH 425
SURVEY OF COMPUTER GRAPHICS
Graduate
Expression of visual intent through geometry and procedure. A survey of basic 3D techniques, including interaction of light and color. Visual effects of rendering, texturing, and lighting algorithms. Procedural modeling techniques and an introduction to procedurally-based texturing and animation. PREREQUISITE(S): CSC 212 or CSC 262.

GPH 436
FUNDAMENTALS OF COMPUTER GRAPHICS
Graduate
An accelerated introduction to the graphics development environments and to graphical programming. Provides an in depth discussion of the basic mathematical language of computer graphics: vectors, transformations, homogeneous coordinates and their associated data structures. Advanced topics will include sampling theory and interpolation. Also provides a basic introduction to industry standards in graphics development, including specifying transformations and viewing parameters. PREREQUISITE(S): CSC 393 and MAT 150.

GPH 438
COMPUTER ANIMATION SURVEY
Graduate
Survey of methods used in computer animation. This course uses commercially available software packages to teach techniques for animation and digital video production. The techniques covered include storyboarding, key frame animation, audio and video editing. PREREQUISITE(S): GPH 425 or GPH 469.

GPH 448
COMPUTER GRAPHICS SCRIPTING
Graduate
Covers the use of scripting to generate computer graphics and animation. Emphasis on the benefits and differences of scripting languages compared to conventional graphics programming. Using commercially available scripting environments, students will generate complex graphics and animations that would not be possible with the conventional user interface. PREREQUISITE(S): GPH 438.
GPH 450  
DIGITAL MODELING I  
Graduate  
Introduction to 3D object modeling with an emphasis on visual applications and prototype design. Students will work with basic spatial operations in surface modeling and CAD interfaces and will produce an original object from pattern with computer-aided manufacture.  
PREREQUISITE(S): HCI 470

GPH 465  
SURVEY OF VISUALIZATION APPLICATIONS  
Graduate  
An in-depth introduction to a wide range of visualization techniques focusing on medical and scientific and engineering applications. Introduction to programming using a visualization package, use of color for feature extraction and enhancement, false color mapping techniques, reconstruction techniques, isosurface generation, stream lines and ribbons, spatial set operations, volumetric techniques and projections of higher-dimensional datasets.  
PREREQUISITE(S): GPH 425 or IT 403

GPH 469  
COMPUTER GRAPHICS DEVELOPMENT  
Graduate  
Basic graphics architecture. Coordinate systems. Three-dimensional representations and transformations. Simple visible-surface algorithms. Introduction to illumination. Gouraud and Phong shading. Antialiasing. Texture mapping and elements of animation. Students create a graphics package using a high-level graphics API such as OpenGL.  
PREREQUISITE(S): (CSC 403 and GAM 471 and Game Math) or GPH 436

GPH 487  
FORENSIC ANIMATION  
Graduate  
Techniques and issues in forensic animation. Application of modeling and rendering to the recreation of time-based events for legal purposes. Survey of research and interview techniques. Demonstrative recreation and physically-based recreation. Issues of accuracy, verification, certification and ethics. Students research and recreate an event with forensic value. Possible project areas include motor vehicle incidents, aviation events, product liability, medicine, and trademark infringement.  
Prerequisite: none

GPH 536  
SMOOTH SURFACE MODELING FOR GRAPHICS AND ANIMATION  
Graduate  
PREREQUISITE(S): GPH 469.

GPH 538  
RIGGING FOR ANIMATION  
Graduate  
Readying 3D characters and other models for animation. Skeleton chains, joint orientations, and degrees of freedom. IK solvers, including single chains, rotation and splines. Methods for computing weights for skinning body and face, including semi-automated approaches. Considerations for mechanical objects, animals and low-polygon models.  
PREREQUISITE(S): GPH 438

GPH 539  
ADVANCED RENDERING TECHNIQUES  
Graduate  
An in-depth examination of texturing techniques for highly realistic computer generated imagery. Design and implementation of layered textures to produce realistic dirt and aged surfaces. Cost analysis of advanced illumination and reflectance models, including environment and shadow mapping, and ambient occlusion. Procedural texturing including pattern generation and the application of noise to produce organic surfaces. Shader development using an industry standard. Prototyping for both offline and real-time rendering environments. Students work in teams to produce convincingly organic environments.  
PREREQUISITE(S): GPH 425 or GPH 436 or (ANI 439 and GPH 355)

GPH 540  
PROCEDURAL SHADING  
Graduate  
Procedural pattern generation, creating patterns such as marble and wood with noise. Moving beyond the Phong Illumination model: Gaussian distributions and the Ward anisotropic model, BRDFs. Non-photorealistic rendering techniques such as "toon" shading and painterly techniques.  
PREREQUISITE(S): GPH 539
GPH 541
ADVANCED LIGHTING TECHNIQUES
Graduate
Simple local models such as Phong, extensions to Phong (HDRI), ray-traced lighting and shadows, soft shadow generation using shadow maps, radiosity for producing ambient lighting and photon mapping for calculating realistic refracted light. Theory, lighting features supported, efficiency, and practical considerations for choosing the model in production. PREREQUISITE(S): GPH 539

GPH 560
MODELING SPACES
Graduate
The digital design and modeling of environmental spaces with attention to human use parameters. PREREQUISITE(S): any GPH 400-level course or consent of instructor.

GPH 565
DESIGNING FOR VISUALIZATION
Graduate
Sources of graphical integrity and sophistication. Data-Ink maximization. Data density. The use of color to enhance features in data sets and the communication of information. Effective use of space and time. Use of 3D techniques to display multi-dimensional data. The use of isosurfaces and volumetric techniques to display features of data sets. Students will use a programmable system to produce their visualizations and will learn how to use procedural techniques to express graphical intent. (Only one of GPH 570 and GPH 565 may be taken for credit) Prerequisite(s): GPH 448 and HCI 470

GPH 570
VISUALIZATION
Graduate
(Formerly CSC 570) Reconstruction techniques. Voxel classification and isosurface generation. Spatial set operations. Projections of higher-dimensional data sets. Data feature enhancement. False color mapping. Survey of applications in science, engineering and medicine. PREREQUISITE(S): GPH 469.

GPH 572
PRINCIPLES OF COMPUTER ANIMATION
Graduate
(Formerly CSC 572) This course will cover a range of topics in introductory 3D Computer Animation. Topics covered will include key framing, interpolation, hierarchies, inverse kinematics, particle systems, and the basics of physically based simulation and modeling. PREREQUISITE(S): GPH 469.

GPH 574
COMPUTER GAMES
Graduate
(Formerly CSC 574) Concept and character development, storyboarding, prototyping, testing and implementation. Interaction techniques. Optimization of lighting and texturing. Discussion of relevant hardware and peripherals. PREREQUISITE(S): GPH 469.

GPH 575
ADVANCED GRAPHICS DEVELOPMENT
Graduate
Survey of standards and current modular technology for 2D and 3D graphics software development. Use of software development toolkits to create "plug-ins" and other modularly organized functionality enhancements for selected commercially available graphics packages. PREREQUISITE(S): GPH 448 and GPH 469.

GPH 576
ARTIFICIAL INTELLIGENCE IN COMPUTER GAMES
Graduate
The course introduces Artificial Intelligence (AI) topics applied to computer games. No previous knowledge of AI will be assumed. The course concentrates of development of applications that guide game objects in 2D (3D) space. Basic AI architectures and techniques are introduced. Implementation of a game AI engine will be discussed. Prerequisites: GPH 469
This class explores the current trends in programmable computer graphics hardware. Modern graphics processing units (GPU's) are becoming increasingly powerful and fully programmable parallel processing units. They make extremely sophisticated effects in computer graphics, such as shadows, displacement maps, skinning, motion blur, reflections and refractions, possible in real-time scenes. In addition, these increasingly general programmable units are being used for far more general computing problems from traditional searching and sorting algorithms to computational problems in physics such as the diffusion equation and fluid flow. In this course we will explore the applications of hardware shading to computer graphics, including advanced lighting, shading and surface effects. As time allows, we will explore other applications such as physics and computer science. Prerequisites: GPH 469

May be repeated for credit. PREREQUISITE(S): Permission of instructor.

Basic Classical Greek is the first Greek translation course. GRK 101 introduces students to the basics of the language of the Athenians, which includes the Greek alphabet, pronunciation, accentuation and the beginnings of Greek grammar.

Basic Classical Greek II is the second Greek translation course. GRK 102 is a continuation of the introduction to grammar with an emphasis on reading skills through vocabulary development and composition.

Basic Classical Greek III is the third Greek translation course. GRK 103 pays special attention to reading Greek texts in conjunction with composition and English translations for an appreciation of accurate rendering and structural divergence.

Intermediate Classical Greek I is the fourth Greek translation course. GRK 104 is a translation course for students who have completed GRK 101-102-103 (or the equivalent), concentrating on grammar and understanding how Greek grammar and idiom function. Students continue to expand their vocabulary skills. Student interest determines some of the content.

Intermediate Classical Greek II is the fifth Greek translation course. GRK 105 is a translation course for students who have completed GRK 101-102-103, concentrating on grammar and understanding how Greek grammar and idiom function. Students learn forms of irregular verbs. Student interest determines some of the content.

Intermediate Classical Greek III is a translation course for students who have completed GRK 101-102-103, concentrating on grammar and understanding how Greek grammar and idiom function. Some composition accompanies translation. Student interest determines some of the content.

STUDY ABROAD
Graduate
Variable credit. Permission required.

GRK 499
INDEPENDENT STUDY
Graduate
Variable credit. Permission of chair and instructor required.

GSB 400
FOUNDATIONS OF QUANTITATIVE ANALYSIS
Graduate
This course provides basic instruction in mathematical and statistical methods as a foundation for GSB 420 Applied Quantitative Analysis. This course will focus on strengthening algebra and calculus skills and provide a basic introduction to statistical methods.

GSB 420
APPLIED QUANTITATIVE ANALYSIS
Graduate
This course provides a comprehensive review of some basic mathematical and statistical methods and stresses their practical applications in business and economics. The course will equip the student with the quantitative skills required in the MBA program and will also provide a good foundation for addressing typical problems that arise in business. Additionally, the skills acquired in the course will also help the student prepare for the quantitative sections of professional exams, such as the CFA, the CPA and the CMA exams. This course will stress learning through applications/problem-solving using Excel and/or Minitab software for data analyses. However, the course must be analytical and theoretical to the extent that is necessary to develop a correct understanding of the topics presented. The topics covered in the course include relevant mathematical concepts: use of relevant functions and solving equations in unknowns, elementary calculus and graphing functions. It also focuses on relevant statistical concepts: probability theory, hypothesis testing, regression analysis and forecasting.

GSB 595
DEVELOPING SUSTAINABLE STRATEGIES: PRACTICUM
Graduate
This course is designed to integrate the concept of strategy development into the larger ecological economic context of serving market/society needs in a finite world. The goal of strategy in organizations has traditionally been defined as one of value maximization, from the shareholder perspective exclusively. But the role of strategy is to guide organizations in competitively defining and meeting market/society's needs. Sustainable strategies take into account multiple perspectives by engaging in practices - principally systems thinking - to pursue opportunities in meeting market/society's needs that are economically viable, socially just, and operate responsibly within the constraints of a finite ecology. Students will demonstrate the literacies required to develop sustainable strategies that take into account all facets of the business venture (marketing, finance, management, design, production and distribution/life cycle analysis.) One key question will shape the trajectory of the course: How does one develop a competitive sustainable strategy to serve some market/society need? Therefore, the focus of this course is for the student to select a need, determine the sustainable economic system to develop and deliver the product/service, and write and present the 'business case.' The student will also articulate the values and vision - personally and organizationally - driving the strategy.

GSB 599
STRATEGIC ANALYSIS FOR COMPETING GLOBALLY
Graduate
This capstone course views the impact of contemporary issues on corporate strategy. Competitive, cultural, social and ethical issues are examined within the context of a global business environment. The course content emphasizes identifying strategic alternatives, developing corporate and business strategies, and understanding the role of functional activities and organizational processes from a strategic viewpoint. The process of the course involves team interaction, problem-solving, group decision-making, written reports and oral presentations. ACC 500, GSB 420, MGT 500, MGT 502, ECO 509, ACC 555, ECO 555, FIN 555, MGT 555, MIS 555 and MKT 555 are a prerequisite for this class.

GSB 600
CANDIDACY CONTINUATION
Graduate
A non-credit registration that allows students to continue to use DePaul facilities such as the library, Career Development Center and the computer lab while not registered for credit-earning courses.
GSB 631
STRATEGIC FINANCIAL ANALYSIS
Graduate
This course is designed for all MBA students seeking to develop skills in strategic financial analysis. The course provides a deep, unabashed evaluation of corporate performance with a focus on traditional and cash-based measures, and strategic applications. Understanding the strengths and weaknesses of various types of financial analyses is a requirement for designing and developing business strategy, business execution systems, and understanding of the performance of the company. Key managerial questions will be investigated in the course: When should a business grow? When is growth meaningless to investors? Why does an increase in net income, even over decades, still result in stock price drops? Why do companies report record Return On Equity amidst abysmal stock returns? Why and when is stock price BAD for measuring managerial performance? Corporate managers today are plagued by these questions, leaving them to believe in market irrationality, or simply “the market doesn't understand my company”. The course will be driven by actual review and evaluation of company financial statements, using of several types of practical financial analysis methods and tools. The course provides deep insights into the world of investment analysis, corporate performance measurement, and strategic planning. This course will be useful for MBA candidates destined for higher levels of corporate management, management consulting, investment banking, equity research, or money management.

GSB 640
PROBLEMS IN ETHICS: ISSUES IN BUSINESS
Graduate
A seminar in business ethics that centers on theoretical, practical and pedagogical issues. Cross-listed with PHL 640. Offered variably.

GSB 650
RELIGIOUS ETHICS AND ECONOMICS
Graduate
This course will examine the thinking of social scientists, philosophers and theologians on the impact of religious values and institutions, on the origin and development of American capitalism and its relevance to contemporary business ethics. Cross-listed with PHL 650 and MLS 442. Offered variably.

GSB 793
INTERNSHIP
Graduate
This is a unique opportunity in which knowledge gained in the classroom can be applied to an actual business environment. The intern will be immersed in a stimulating environment with a pool of established resources in industry or government.

GSB 798
SPECIAL TOPICS
Graduate
Content and format of this course is variable. An in-depth study of current issues. Subject matter will be indicated in class schedule.

HAA 101
AFRICAN ART
Undergraduate
This course is based around a series of important issues in the study of African art, such as medium and color, portraiture, the artist and innovation, relationships with language, royal patronage, divination, gender, aesthetics, Othering, and authenticity. The course will explore each of these concepts through a variety of artistic traditions from the continent. In this manner, students will gain basic theoretical tools which will enable them to work with art from across Africa. Formerly ART 246

HAA 115
ASIAN ART
Undergraduate
An introduction to major developments of art and architecture across Asia including South Asia, Southeast Asia, the Himalayas, and East Asia. This course examines not only painting, sculpture, and architecture, but also gardens, ceramics, and prints. Special emphasis will be placed on religious arts of Buddhism and Hinduism, along with landscape and figural painting of China and Japan. Formerly ART 242.
HAA 130
EUROPEAN ART
Undergraduate
This introductory-level course examines the art historical methods and their application to a broad chronological and select survey of European art and architecture from pre-history to the 20th century. Field trips to Chicago art institutions extend the visual traditions and critical methods taught in class lectures and discussions. Arts and Literature Domain credit. Formerly ART 102.

HAA 145
ARTS OF THE AMERICAS
Undergraduate
What is distinctive about art created over time on the American continents? This class begins to answer the question by examining some of the principal developments in art history from the ancient indigenous cultures (particularly those of Meso- and South America), through the period of European colonialism (especially Spanish and English), to the modern art movements across the sovereign nations, including the United States and Canada. Since time permits only a sampling of artistic forms across time, lectures are often issue-oriented, with a focus on selected problems facing scholars. Periodic discussions allow students to weigh in on topics and offer their own critiques. This class argues that the distinctiveness of American visual forms springs from the heterogeneous cultural traditions that simultaneously divide and unify its inhabitants.

HAA 201
ANCIENT AFRICAN ART: PREHISTORIC TO THE EUROPEAN ENCOUNTER
Undergraduate
This course surveys a selection of artistic traditions from across the African continent beginning with the earliest attempts by humanity to visually represent complex thought until the Portuguese began trading along the coast of West Africa in the mid-fifteenth century. Emphasis is placed on demonstrating connectedness with a larger cultural environment, while also suggesting connections to future artistic traditions. Crosslisted with ABD 247

HAA 202
MODERN AFRICAN ART: EUROPEAN ENCOUNTER TO INDEPENDENCE
Undergraduate
This course surveys a selection of artistic traditions from across the African continent beginning with the arrival of the Portuguese along the coast of West Africa in the mid-fifteenth century until the age of African independence in the 1960s. While the impact of a European presence helps define the boundaries of this course, artistic response to that presence is but one theme. Interactions between African cultures and the impact of Islam are equally important considerations. Crosslisted with ABD 248

HAA 203
CONTEMPORARY AFRICAN ART: INDEPENDENCE TO THE PRESENT
Undergraduate
This course surveys African art from the age of African independence in the 1960s until the present day. The meaning of the term contemporary as it applies to African art is questioned in this course. The position of the artist between African artistic tradition and the global art market is also of vital importance. Crosslisted with ABD 249

HAA 215
CHINESE ART
Undergraduate
This is a chronological survey of premodern Chinese art from antiquity to the nineteenth century. Special attention is given to sculpture and painting, but architecture and ceramics are also covered. There is an emphasis on prehistoric bronze vessels, Buddhist sculpture, and landscape painting of the Song through Qing periods. Formerly ART 342.

HAA 216
JAPANESE ART
Undergraduate
This is a chronological survey of premodern Japanese art, from the prehistoric era to the Meiji period (1868-1911). Topics covered include painting, sculpture, and architecture, as well as decorative arts, prints, and garden design. Special attention is given to Buddhist and Shinto religious arts, along with screen painting and woodblock prints. Formerly ART 343.
HAA 217
ARTS OF INDIA AND THE HIMALAYAS
Undergraduate
This is a chronological survey of premodern arts of the subcontinent of South Asia and the Himalayas. We start with the Indus Valley Civilization and move through the nineteenth century, including Mughal arts. Special attention is given to the emergence of figural imagery in Buddhist and Hindu sculptural arts, and the development of religious architectural forms from early stupas and cave temples to later shrines.

HAA 218
ARTS OF THE SILK ROAD
Undergraduate
This course will examine the visual history of the Silk Road, focusing on works of art and architecture created in Central Asia. We not only consider the prehistoric, ancient and medieval arts of this region, but we also investigate the modern development of a romanticized notion of the Silk Road and the imperial interest in acquiring treasures from the Silk Road. Today we frequently hear about the legacy of the Silk Road in promoting multicultural exchange. However, the Silk Road has long been affected by the expansionist agendas of empires. From the time of Alexander the Great (356-323 B.C.E.) through the period of Genghis Khan (1162-1227) and on, there have been military leaders who have led their armies into Silk Road lands seeking territory, riches, and glory.

HAA 219
JAPANESE FILM ARTS
Undergraduate
This course examines the development of cinema as an artistic form in Japan, from its inception in the early twentieth century to its explosion as an international phenomenon in recent decades. The Japanese cinematic experience is considered as visual expression that parallels key Japanese arts of handscroll painting and woodblock prints. We discuss such genres as samurai films, fantasy tales, monster movies, yakuza thrillers, and science fiction anime. Among the masterpieces studied are Ozu's Tokyo Story, Kurosawa's Rashomon, Itami's Funeral, and Miyazaki's Spirited Away. Issues addressed in relation to these films include artistic expression, technological progress, national identity, social unrest, and religious concern.

HAA 220
BUDDHIST ART
Undergraduate
This course explores the traditional visual culture of the Buddhist world, examining art as a reflection of religious belief and practice. The regions covered are South Asia, Southeast Asia, and East Asia. An emphasis is placed on painting, sculpture, and architecture made for or related to Buddhist practice. Formerly ART 250. Crosslisted with AAS 290

HAA 222
ISLAMIC ART
Undergraduate
This course examines the visual culture of the Islamic world, selectively surveying some of the major artistic developments in regions of the world with a significant Muslim population. It will consider art and architecture as interplay between local culture and Islamic tradition. Topics covered will include the origins of Islamic visual culture in the Arabian Peninsula and the spread of Islamic art and religion across the Middle East. Local expressions of Islamic art may be explored in areas as diverse as North Africa, sub-Saharan Africa, Spain, Sicily, Iraq, Iran, India, and Central Asia. Special attention is paid to architecture, painting, and decorative arts. Cross-listed with IWS 251. Formerly ART 251.

HAA 230
ANCIENT MEDITERRANEAN ART
Undergraduate
This course will explore the art of the ancient period (circa 30,000 B.C.E. - 330 C.E.) from a broad range of cultures and styles: from the Paleolithic cave paintings to the Roman Colosseum, from the pyramids of Egypt to the Parthenon in Greece. We will consider how art, religion, urbanism and writing profoundly affected the development of the ancient Mediterranean and Mesopotamian world. We will analyze major stylistic trends and explore the relationship between art, culture, and religion. We will also discuss the role of art in the hands of political leaders and the profound interconnectedness of ancient civilizations. Frequent discussions will analyze controversies in the study of ancient art and scrutinize topics such as gender, power, aesthetics and authenticity. Formerly ART 233.
**HAA 231**  
**EARLY MEDIEVAL ART**  
**Undergraduate**

This course explores the art of the Medieval period from a broad range of cultures: Early Christian, Byzantine, Islamic, Carolingian, and Ottonian. We will discuss major stylistic trends and explore the relationship between art, culture, and religion. Works of art will be evaluated in terms of their social functions in the societies that produced them and our analysis will incorporate the perspectives of both the producers (patrons, artists) and consumers of art. Cross-listed with CTH 253. Formerly ART 240.

**HAA 232**  
**LATE MEDIEVAL ART**  
**Undergraduate**

This course will explore the art of the late Medieval period from a broad range of cultures and styles: Byzantine, Romanesque, Gothic, and Islamic. We will discuss major stylistic trends and explore the relationship between art, culture, and religion. Works of art will be evaluated in terms of their social functions in the societies that produced them and our analysis will incorporate the perspectives of both the producers (patrons, artists) and consumers of art. Cross-listed with CTH 254. Formerly ART 244.

**HAA 234**  
**BYZANTINE ART**  
**Undergraduate**

This course will explore the art of the Byzantine Empire from the founding of Constantinople in A.D. 330 to the fall of the city to the Ottomans in 1453. Lectures and readings will primarily focus on how contemporaries understood and interacted with a diverse group of monuments and objects now classified as Byzantine art. Significant attention will be devoted to how works of art functioned in the service of imperial and ecclesiastical ideology. Discussions will analyze how Byzantine art was appreciated and appropriated in both the medieval Mediterranean and in modern scholarship. Crosslisted with CTH 252

**HAA 235**  
**RUSSIA: MEDIEVAL MOMENTS, IMPERIAL DAYS & WHITE NIGHTS IN NOVGOROD & ST. PETERSBURG**  
**Undergraduate**

This study abroad program in Russia allows students the opportunity to explore Novgorod, the medieval trading emporium and center of Orthodox spirituality and the Russian imperial gem of St. Petersburg, while studying medieval art and the history of Imperial Russia. Both cities have been designated UNESCO World Heritage Sites and showcase the best of medieval and modern Russia by providing one of the world's richest ensembles of urban planning, art, architecture, and historical treasures. (Foreign Study: can also be taken as HAA 397: Special Topics in Art History-Formerly ART 397)

**HAA 236**  
**NORTHERN RENAISSANCE ART**  
**Undergraduate**

This course features the most significant works of art, their artists & patrons, the social & economic aspects of artistic production, and the dominant cultural issues that flowed brilliantly in Northern Europe - above all, in France, the Netherlands, Bohemia, and German-speaking lands - between 1300 and 1600, that is, during the volatile period of the Renaissance & outbreak of the Protestant Reformation. And although Flemish oil painting offers the most evident legacy of the Northern Renaissance to the casual museum visitor, this course also introduces the most important outputs in printmaking; sculpture; and the industrial arts, as in tapestry weaving and the fabrication of luxury articles in metalwork. Cross-listed as CTH 258. Formerly ART 232.

**HAA 237**  
**ITALIAN RENAISSANCE ART**  
**Undergraduate**

This course concentrates on the architecture & pictorial arts that flourished on the Italian peninsula between ca. 1300 and 1600, although selected forays are undertaken into comparative European and Asian cultures. Its content focuses on the most significant works of art & architecture, including the technical arts; the key personalities, above all, the artists & their patrons; and a broad range of cultural & political issues that affected artistic thinking and production. Cross-listed with CTH 256. Formerly ART 241.
Starting in 1600, from the vantage point of the Counter-Reformation and the rise of modern European states, Baroque Art covers the principal works of art & architecture; artists and patrons; and a wide sweep of social, religious, and political, conditions that impacted cultural thinking and production in the 17th century. Attention is focused on the most prominent artistic centers in Italy, the Spanish Netherlands, England, Spain, the Dutch Republic, and France. The in-class lectures with discussion are accompanied by field work to the Baroque collections of the Art Institute of Chicago. Cross-listed with CTH 257. Formerly ART 237.

Introductory survey of major moments and movements in 19th-century European art, with some attention to U.S. developments, as warranted. The course analyzes major painters and sculptors of the early modern period and their influence in shaping cultural events, such as, for example, the Industrial Revolution. Formerly ART 238.

This course will examine the major artists, movements, and issues at play in the visual arts of Europe from 1900 to the outbreak of World War II. Lectures and class discussions will address how modern art, often oppositional and contradictory in nature, responds to, reflects, or builds on the effects of modernization (i.e. urbanization, industrialization, and global capitalism). Modern art objects will be read for both stylistic innovation and for connections to, and commentaries on, specific historical developments. Significant themes to be addressed include the character and history of the avant-garde, the relationship between high art and mass culture, the changing identities and aims of the modern artist, and the institutional basis of art production. Formerly ART 239.

This course will consider art and culture of Western Europe and the United States from World War through the Vietnam War. Beginning with the period of high modernism, major art historical movements and highly distinct aesthetic practices will be examined in order to foreground the complex relations that exist between art making and specific socio-historical contexts. Topics to be addressed include the development of the arts after World War II, the role of art in a consumerist and spectacle-driven society, the dematerialization of the art object, and the shift from late modernist to postmodern sensibilities. Students will be introduced to a range of theoretical models which foreground structural and formal investigations, as well as issues of social and historical analysis. Formerly ART 322/HAA 364.

This survey of art of the ancient Mesoamerica (circa 1000BC-1520AD) focuses on the most artistically significant civilizations of Middle America and some of the difficulties encountered in studying them. Lectures explore visual traditions as diverse as the people they reflect; cultures to be covered include the Olmec, Maya, Teotihuacan, and Aztec. We consider the relationship between form and content, and the relationship between art and its social context, as we much as we can understand it; however, especially because of the scarcity of primary source texts for the material, the class will also regularly raise questions of methodology in what is often identified as "pre-Columbian" scholarship.

This survey of art of the ancient Andes (circa 1000BC-1530AD) focuses on the most artistically significant civilizations of South America and some of the difficulties encountered in studying them. Lectures explore visual traditions as diverse as the people they reflect; cultures to be covered include the Nazca, Moche, Tiahuanaco, Wari and Inca of Peru. We consider the relationship between form and content, and the relationship between art and its social context, as we much as we can understand it; however, especially because of the scarcity of primary source texts for the material, the class will also regularly raise questions of methodology in what is often identified as "pre-Columbian" scholarship.
HAA 246
ART IN THE SPANISH AMERICAN EMPIRE
Undergraduate
This course offers a critical survey of the art of colonial Latin America (circa 1520s-1820s), from the Caribbean to Mexico, Central America, and South America. Framed by the Spanish Conquest of the 16th century and Independence in the early 19th century, lectures will survey state-sanctioned arts of the Iberian colonizers, including the foundations of the Catholic Church across the 'New World' landscape. Race will be a frequent issue of discussion as we consider both indigenous American and African participation in social realities and artistic practice in this colonial context. Cross-listed with CTH 250 and LST 248. Formerly ART 248.

HAA 247
MODERN LATIN AMERICAN ART
Undergraduate
This lecture class is a survey of Latin American art created since the Wars of Independence which helped to create the modern nations in the 19th century (i.e. 1820s through the present). Lectures consider the struggle of artists to articulate newly sovereign identities through visual production, even as complicated relationships with Europe and increasingly, the United States, continue. Topics covered include Latin American modernism, surrealism, radical arts, and social realism, with a special consideration of post-revolutionary Mexican mural painting. Cross-listed with LST 249. Formerly ART 249.

HAA 260
AMERICAN ART
Undergraduate
This course examines American art (the British colonies and United States) from the colonial period to the mid-twentieth century. Works of art are examined both in relation to American social and cultural history and also as aesthetic objects. The overarching themes of the class include the "American-ness" of American art, the relationship between American and European art, the function and production of art, and the expanding definition of American expression through multicultural diversity. Formerly ART 335. Crosslisted with AMS 295.

HAA 263
HISTORY OF DESIGN
Undergraduate
A survey of the history of modern design (1500-present) as expressed in graphic, industrial, and the decorative arts. The aim of this class is to understand why designed objects look the way they do considering their history, function, style, use, and materials. Of special interest will be design's relationship to culture, to art history, and to media. Students will learn to identify historic styles and the work of important designers and illustrators and to a certain extent, the history of material culture. Readings and the first-hand examination of objects lead toward a final research project. Formerly ART 373.

HAA 265
HISTORY OF PHOTOGRAPHY
Undergraduate
A survey of the major works, artists, and movements of photo history from photography's invention to the present day. Emphasis is placed on the major artists, subjects, and technical applications of the medium, as well as on the modernity of photography and its unique aesthetic qualities. This course will also consider the myriad purposes and social contexts for photography. The course examines a large range of techniques from the camera obscura to recent developments in printing. Actual photographs are studied in class, on campus, and in field trips to regional collections. The course involves major readings that ask students to consider the role of photography in relations to race, gender, and politics. Many of the photographs under consideration are American. Formerly ART 376.

HAA 280
HISTORY OF PREMODERN ARCHITECTURE
Undergraduate
Social, economic and political history of European and Mediterranean architecture, from Paleolithic times to the 1789 French Revolution. Topics include: classicism, the status and role of the architect, social struggle, patronage and architectural technologies. Formerly ART 370.

HAA 281
HISTORY OF MODERN ARCHITECTURE
Undergraduate
World architecture from the 1789 French Revolution to the present. Examines the influence of industrial, technological, political and social change in the development of modernist and post-modernist architecture. Formerly ART 371.
HAA 288
COMPARATIVE URBANISM
Undergraduate
An investigation of the origins and bases of non-American urban traditions, through the study of the genesis, form, functions, and social-cultural forces that shaped cities such as Paris, St. Petersburg, Istanbul, Calcutta, and Mexico City. This course is based in the Geography Department and is the equivalent of 200-level Art History course. Cross-listed with GEO 233. Formerly ART 362.

HAA 297
SPECIAL TOPICS IN HISTORY OF ART & ARCHITECTURE
Undergraduate
This class focuses study on a specific topic from the history of world art.

HAA 299
INTRODUCTION TO ART HISTORICAL RESEARCH AND WRITING
Undergraduate
The major must also take an introduction to research and writing in the field. This course will focus on one specific area of art history, as determined by the faculty member teaching. The faculty member will introduce the students to the methodological debates relevant to that research in the past and in the present. The focus of the course will be to introduce students to the theoretical language of art history and to work on the development of advanced critical thinking skills. This course prepares them for the advanced research work required at the 200- and 300-levels.

Declared major in History of Art and Architecture required.

HAA 301
AFRICAN ARCHITECTURE
Undergraduate
This course examines a wide variety of issues pertinent to the study of architecture in Africa, highlighting above all else the diversity of traditions across the continent. Weekly themes are defined at times by materials, technology, type, geographical region, culture, or specific architectural elements. Examples of subjects studied include: eathen mosques of Mali; subterranean residences in Burkina Faso; nomadic tents; impluvial and courtyard traditions of Nigeria and Senegal; mural painting in Burkina Faso, Nigeria, and South Africa; Ethiopian rock cut churches; imperialist exploitation of Great Zimbabwe's legacy; and coral architecture of the Swahili Coast. Formerly ART 347.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 302
AFRICAN ISLAM: ISLAMIC ART & ARCHITECTURE IN SUB-SAHARAN AFRICA
Undergraduate
Focused study of the impact of Islam on the artistic traditions of sub-Saharan Africa. Rather than necessarily replacing previous art forms, this course investigates in what circumstances preexisting visual culture might be integrated with the requirements and needs of Islam. This approach necessitates an understanding that neither Islam nor African art are monolithic entities, but rather their interactions represent a wide variety of negotiations across the continent. Likewise, this course will consider specific historical circumstances to which Islamic art in sub-Saharan Africa has responded in terms of form and content.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 310
TOPICS IN ART AND ARCHAEOLOGY
Undergraduate
This course addresses issues of archaeology relevant to the study of visual culture from the ancient to the contemporary world. This course is based in the Department of Anthropology and is the equivalent of a 300-level Art History course. Formerly ART 346.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.
HAA 311
LATER JAPANESE PAINTINGS AND PRINTS
Undergraduate
This course examines two main pictorial forms of Japan from the seventeenth century to the early twentieth century (the Edo, Meiji, and Taisho periods). Special attention is given to large-scale painting on folding screens and sliding doors for major temples, castles, and palaces, as well as the development of ukiyo-e (pictures of the floating world) in woodblock prints. In addition, we consider the transformation of painting and prints in the late nineteenth century with the opening of Japan and the introduction of Western influences. Art history and related disciplines.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 325
OLD EMPIRES AND NEW GODS: CULTURAL CONFRONTATIONS IN LATE ANTIQUITY
Undergraduate
This course focuses on how a clash of cultures and the emergence of new religions impacted the arts of the eastern Mediterranean in late antiquity (300 to 700 A.D.). It explores interactions between the Byzantine and Sasanian empires, as well as the creation of local and religious identities through art. It also investigates how the diverse religious climate (Christianity, Judaism, Paganism, Zoroastrianism, Islam) contributed to visual expression in the region.

HAA 328
THE POWER OF PIETY: ICONS, RELICS, AND MIRACLES IN THE MEDIEVAL WORLD
Undergraduate
This course examines the intersection of personal devotion, public spirituality, and performance of faith in the medieval world. Probing a range of objects that give material expression to the desire for tangible links to the sacred and reminders of supernatural presence in the medieval world, the course analyzes miraculous objects that we would now categorize as works of art. Objects under discussion include a category broadly defined as reliquaries, fragments of the True Cross, images “not made by human hands,” and miraculous icons.

HAA 331
ART OF THE CRUSADES: CRUSADES AS MEDITERRANEAN EXCHANGE
Undergraduate
This course will consider the Crusades from multiple perspectives (Byzantine, Latin, Muslim) and explore how politics, religion, and culture influenced the art of the medieval Mediterranean. The Crusades are analyzed in the broader context of pilgrimage, the search for the divine, and the desire to seize control of and purify holy sites. The course will focus on works of art created when the cultures of the Mediterranean came into both contact and conflict.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 332
ROMANESQUE ART AND ARCHITECTURE
Undergraduate
Scholars in the nineteenth century designated Western European monuments, especially architecture and sculpture, created between the eleventh and twelfth centuries, as “Roman-like” in character or “Romanesque,” in order to acknowledge certain linkages they perceived between the characteristics of this era's architectural and visual language and that of the distant Roman past. Recent scholarship has emphasized not only large-scale works of art, architecture and sculpture, crucial in an age of Pilgrimage and Crusades, but also small-scale works, such as illuminated manuscripts, metalwork, and coins and seals, as essential for an understanding of medieval visual culture. This class considers the broad spectrum of significant works of art produced during this period from shifting points of view, aesthetic or formalist toward function, agency, presentation and reception.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.
HAA 333  
**GOTHIC ART AND ARCHITECTURE**  
*Undergraduate*  
This course examines the art, architecture, history and culture of the so-called Gothic era (12th-15th centuries), the age of the great European cathedrals.  Reigning supreme in most of Europe in the 13th and 14th centuries, the Gothic style marks an era of unparalleled building activity and one of the most fertile and productive periods in the history of Western art. Special emphasis will be given to the aesthetic, structural, and spiritual aspects of cathedrals and other great churches and their contents, primarily in France and England, as reflections and embodiments of the sacred aspirations and devout character of the era. The artistic and architectural production (buildings, sculptures, illuminated manuscripts, paintings, sacred or liturgical objects, stained glass, etc.) of the period will be studied in its original context, with close attention paid to questions of social and political function, cultural meaning, and historical circumstance.  

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 334  
**ENGLISH ART AND ARCHITECTURE**  
*Undergraduate*  
This course considers painting, sculpture and architecture in England from Stonehenge to the modern period. It explores national identity, the monarchy, contested notions of church and state, colonization, and the influence of other nations’ art. Until a few decades ago, Britain oversaw the largest empire the world had ever known (America itself was a colony, and speaks the language of the British). The oldest continuous monarchy in the world also witnessed the birth of a parliamentary system of government. The Industrial Revolution was born there. Throughout its history, though, the arts have had a complex existence. Reformation iconoclasts destroyed churches and sacred art, and native masters such as Hogarth, Turner, and Barbara Hepworth, stand beside emigre artists such as Holbein, Rubens, Van Dyck, and Whistler. Critical reading and writing lead to a substantial final research project. Formerly ART 365.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 335  
**MICHELANGELO**  
*Undergraduate*  
This course examines the extraordinary life, times and creations of Michelangelo Buonarroti (1475-1564), one of the most significant figures in the history of Western art. Sculptor, painter, architect and poet, Michelangelo lived during the Italian Renaissance, an age that witnessed a flourishing artistic, scientific and humanistic culture. During a career that spanned over seven decades, Michelangelo created famous lasting masterpieces, including the Vatican Pieta, David, Moses, the Sistine Chapel ceiling, and the papal church of St. Peter’s. Who is this irascible and solitary genius, this devout Catholic and fierce Republican Florentine, who cavorted and lived with popes and princes, and fashioned works that profoundly influenced Western civilization? How do his brilliant achievements define, express and illuminate the time, place and culture in which he lived? Drawing on a variety of primary and secondary sources, this course seeks to understand an eccentric artist whose dazzling aesthetic productivity left a lasting mark on the art of future generations up to the modern period. Formerly ART 308.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 340  
**PRINCIPAL THEMES IN 18TH-CENTURY ART**  
*Undergraduate*  
This course is intended to enrich the student’s understanding of a fascinating and cosmopolitan period that tends to slip through the cracks of traditional Art History - namely, the transition zone between the Late Baroque and the emergent modernism of the 19th century, which takes place just before and after the “Great Divide” of the French Revolution of 1789. Building from a platform of European traditions that flowered in the 17th century, the course material explores an impressive body of painting & printmaking, sculpture & industrial arts, and architecture & planning, that was produced from the British Isles to imperial Russia, even, by way of addressing cross-disciplinary issues, for example : the diverse stylistic developments that start with the Rococo & Neoclassicism; artistic regionalism vis-a-vis internationalism; and the larger social & political arenas for which visual culture was produced in the Ages of Enlightenment and Revolution. Formerly ART 352.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.
With Picasso and Matisse, Marcel Duchamp (1887-1968) was among the most important artists of the modern era. Certainly, no other artist influenced contemporary art so significantly, and this class will examine his art, biography, and influence. Another focus will be the cultural movement known as Dadaism (1916-24), a delirious anti-art movement begun in Zurich, Switzerland, during the absurd, bloody First World War. After contextualizing Dada in relation to modern art, we will examine its manifestations in various world centers. Along the way, we will encounter the works of many of its most important figures. Besides the inherent value of looking closely at cultural moment of an important historical figure, the study of Dadaism has special relevance because of its timeless iconoclasm and spirit of creative experimentation. Close readings of primary and secondary texts, as well as trips to area museums, culminate in a significant research project.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

This course explores the relationship of art and architecture to the development of National Socialist Germany and Nazi policies of genocide towards the European Jews. It deals with artists that resisted the Nazi rise to power, those that supported it, and those that were persecuted by the new state. In addition, we will look at a wide range of art, architecture and film produced from 1933-1945 which were mobilized as part of the radicalizing anti-Semitic policy. The central questions will be how does art intersect with one of the most criminal regimes in the modern period and what can we learn from an understanding of the political history of art during the period? The course will be lecture/discussion format and include a research paper. Formerly ART 356.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

This course will address visual art production of a global context from the end of the Vietnam War to the present. Taking postmodernism as its starting point, the nature of contemporary art practice will be examined as it is redefined by new technologies and media (such as video, installation, performance, and digital art), and through an investigation of critical theoretical models. Traditional media, such as painting and sculpture, will also be assessed as a crucial part of this shifting terrain. Major themes to be considered include questions of identity and subject formation, the relationship between art and its audience, changing notions of artistic value, and the impact of globalization. Throughout, students will be exposed to the issues and ideas relevant to cultural production today, while simultaneously developing the visual and conceptual tools for critically analyzing contemporary art.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

This class considers both the history of women artists and representations of women from cultures around the world, from prehistory to the contemporary era. In addition, it will introduce feminist methodologies that can be applied to specific case studies, such as problems of biography for women artists, depictions of sexual violence in art, performing gender in visual images, feminist activist collaborations and gendered spaces (the museum, cyberspace, architecture, etc.) Topics may vary term to term, depending on the instructor's area of expertise. Formerly ART 381.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

This course addresses how gender is inscribed in visual culture, whether in “fine art” or popular representations. Students will be introduced to a broad range of feminist methodologies, such as Marxism, Post-Colonial, Queer and Transnational theories, as well as semiotics, in order to interrogate representations of gender and investigate strategies of intervention.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.
HAA 370
CONTEMPORARY ARCHITECTURAL THEORY AND PRACTICE
Undergraduate
Study of contemporary debates in architecture and urban planning. The student explores economic, social and political aspects of architectural theory through a case study of a contemporary monument or city plan. Formerly ART 372.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 371
HISTORIC CATHOLIC CHURCH ARCHITECTURE OF CHICAGO
Undergraduate
This course covers a selection of the jewels among the city's architecturally significant Catholic churches and related sites of interest that date up to circa 1920. The class meets in a non-traditional time slot (in 3-hour afternoon sessions) in order to undertake the necessary field work, which is administered through the Catholic Studies Program and in partnership with CTH 201: Catholicism in Chicago. This approach encourages us to think about the sacred buildings as extensions of the city's history, while emphasizing the contributions of its various immigrant groups. By thus using architecture & architectural history as the armature of this course, the student is able to explore the fascinating interplays between art, history, religion & society, and come to terms with what culture does and signifies in one's own milieu. (Offered jointly with Catholic Studies). Formerly ART 374.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 373
KYOTO (WORLD CITIES)
Undergraduate
Explores the art, architecture, and urban plan of Kyoto, the ancient capital of Japan. Kyoto became the seat of government and the home of the imperial court in 794, and it continued to serve as the cultural and religious center of the land until the nineteenth century. This course considers major artistic developments as they relate to main sites in Kyoto, especially palaces, temples, and shrines. The eras covered extend from the Heian to the Meiji period. (Cities Minor)

HAA 375
MEXICO CITY
Undergraduate
From its origins as Tenochtitlan, the preordained capital of the Aztec Empire, through its identification as a "new Rome" dominated by the Spanish Crown in the Viceregal period, to its status as the largest metropolitan area in the Western Hemisphere (and the second largest in the world), Mexico City was born to impress the imagination. This class explores the development of the great city of Mexico in light of major historical events and cultural expressions. Discussions will focus especially on urban planning, key architecture, outdoor sculpture, and public spectacles over the centuries.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 376
ROME
Undergraduate
Few cities in the world match Rome for its antiquity, imperial heritage, historic, religious and cultural importance, spectacular art and architecture, and rich urban landscape. Traditionally believed to have been founded by Romulus and Remus, descendents of Aeneas, in 753 BCE, and subsequently ruled by Etruscan kings, Rome's public buildings, communal baths, and fortifications suggest that Rome was urbanized as early as the 6C BCE. After the expulsion of their Etruscan monarchs, Romans established the Republic, which evolved into the Roman Empire when Octavian, grand nephew of Julius Caesar, became Augustus, Rome's first emperor, princeps or first citizen. Along with subsequent emperors determined to turn Rome into a magnificent city worthy to be the capital of a great empire, Augustus used architecture and the built environment as massive symbols of power, authority, and legitimacy, a lesson in public education embraced by the Catholic Church when the imperial pagan capital became the capital of Western Christendom and the seat of the papacy. This class explores the city of Rome from its ancient origins through the 17th century and focuses on the major art and architectural developments that define this unique urban space.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.
HAA 378
HEAVENLY AND EARTHLY JERUSALEM (WORLD CITIES)
Undergraduate
This class focuses on the city of Jerusalem. The uniqueness of Jerusalem stems from its status as a sacred place in Judaism, Christianity, and Islam. In this class we will explore the physical city of Jerusalem with its monuments, contested holy sites, and changing architecture. We will also analyze representations of the imagined heavenly Jerusalem, for which many believers intensely yearned. The class will focus on Jerusalem from the 2nd through the 16th centuries: from its destruction by Roman armies to its last pre-modern construction phase during the Ottoman period. We will discuss how different religious groups mapped meaning and marked holiness in the urban fabric of Jerusalem. This class will consider some of the following issues: art and architecture, politics, religion, urban planning, and patronage. (Cities Minor)

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 379
PARIS AND VICINITY TO CIRCA 1870 (WORLD CITIES)
Undergraduate
This course is designed to explore the arts & architecture, and urban planning of Paris & vicinity, from the period of the Old Regime to ca. 1870. This span more or less coincides with the art historical periods from the Renaissance to early Impressionism. The course material weaves artistic works and projects into the greater cultural, political, and social fabric of the realm --- and includes, among other outstanding personalities, the towering impact of Vincent de Paul --- in order to expose the student to a variety of cross-disciplinary perspectives. Several class sessions are scheduled at the Art Institute of Chicago. (Cities Minor) Formerly ART 366.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 380
CHICAGO ARCHITECTURE AND URBANISM (WORLD CITIES)
Undergraduate
This course investigates contemporary historiographic debates and new archival evidence surrounding research on Chicago architecture and urbanism. In addition to participating in lectures/discussions of HAA 380, students also meet separately to discuss scholarly debates as well as their individual research proposals, as appropriate for graduate level work. (Cities Minor) Formerly ART 339.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 384
BERLIN: UNIFICATION/REUNIFICATION (WORLD CITIES)
Undergraduate
The influence of art and architecture on the development of Berlin from 1871 to the present. How major figures (from Bismarck to Kohl) and major events (from World Wars to the fall of the Berlin Wall) affected the city and its culture. (Cities Minor) Formerly ART 367.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 385
LONDON (WORLD CITIES)
Undergraduate
Examines London as a nexus of English artistic and architectural activity and emphasizes the role of the monarchy, such art world institutions as patronage or the foundation of the Royal Academy, and the city's historic growth. (Cities Minor) Formerly ART 368.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

HAA 388
SPECIAL TOPICS IN GEOGRAPHY AND URBANISM
Undergraduate
This course covers a variety of topics that focus on the intersection between geography and the built and planned environment. Topics covered range from architectural problems to urban planning to the built environment in general as a social product. This course is based in the Geography Department and is the equivalent of a 300-level Art History course. Formerly ART 349.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.
HAA 391  
**MUSEUM STUDIES**  
*Undergraduate*  
Introduces art historians to the theory and practice of exhibition management and curatorial principles. Stresses organization, research, care and presentation of exhibitions through project-oriented study.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

---

HAA 396  
**RESEARCH SEMINAR IN THE HISTORY OF ART & ARCHITECTURE**  
*Undergraduate*  
Concentration on a specific area of art in order to investigate research problems and to learn advanced research skills. Formerly ART 398.

Junior or Senior standing and status as an Art, Media and Design major or Art minor are a prerequisite for this class.

---

HAA 397  
**SPECIAL TOPICS/HISTORY OF ART & ARCHITECTURE**  
*Undergraduate*  
Focused study on a specific topic from the history of World art. Formerly ART 397.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

---

HAA 398  
**INDEPENDENT STUDY**  
*Undergraduate*  
Independent work in the student's field of study under faculty supervision. Available only to upper-level students with demonstrated capacity for self-motivated study.

---

HAA 399  
**SPECIAL CAPSTONE: ART HISTORICAL THEORY & METHODOLOGY**  
*Undergraduate*  
An overview of theory and methods preparing advanced students for graduate work. The course addresses iconography, psychological theories, the image's relation to its documentation, feminist and social history and other currently debated issues.

Declared major in History of Art and Architecture and (senior status required or juniors with instructor permission).

---

HAA 400  
**CHICAGO ARCHITECTURE AND URBANISM**  
*Graduate*  
Chicago Architecture And Urbanism. Formerly ART 400.

---

HAA 401  
**GRADUATE TOPICS/ HISTORY OF ART & ARCHITECTURE**  
*Graduate*  
Graduate-level, intensively researched investigations into topics from the history of art and architecture taught by an instructor with a research specialty in that topic. Formerly ART 401.

Graduate standing or department consent is a prerequisite of this class.

---

HAA 495  
**ADVANCED TOPICS/ HISTORY OF ART & ARCHITECTURE**  
*Graduate*  
Advanced Topics In the History of Art & Architecture. Formerly ART 495.

Graduate standing or department consent is a prerequisite for this class.
HC 101
FOUNDATIONS OF NEGOTIATIONS: REALIZING OPPORTUNITY
Undergraduate
Negotiation is the art and science of securing agreements between two or more interdependent parties. The purpose of this course is to understand the theory and processes of negotiation. The course will highlight the components of an effective negotiation and teach you to analyze your own behavior in negotiations. The course will provide you with an opportunity to examine your skills by participating in presentations, discussions, and assigned readings.

HC 102
HOLIDAY ECONOMICS
Undergraduate
Christmas makes the planet go round. While this might not be true on a religious level, the December holidays most certainly have an enormous impact on global economics. In this course, students and faculty will examine the demands of the US Christmas/Holiday rush and how these demands influence world wide production, consumption, and culture. International political and social issues will be discussed, and students will assess the effect of this American cultural phenomenon on the world's future global economies. Learners will also consider the nature of collaborative thinking and its influence on economic planning.

HC 103
MANAGING PERSONAL AND PROFESSIONAL TRANSITIONS
Undergraduate
Whether switching jobs or careers, leaving or returning to school, change brings both challenges and opportunities. Some people thrive on change while others struggle through such periods. Based on William Bridges' classic book Transitions, this class will show how to make successful transitions in personal as well as professional settings.

HC 104
UNDERSTANDING AND MANAGING EMPLOYEE RIGHTS
Undergraduate
Management has become increasingly complex as the employment relationship has evolved over the past several decades. With the proliferation of alternative work arrangements such as flextime and telecommuting combined with increased employee diversity, understanding the regulatory underpinnings of the employment relationship has become essential in managing employee rights in the workplace. This class will explore the cultural, historic, legislative, and judicial development of employee rights in the workplace, closely examine several of the core laws, discuss the consequences of noncompliance, and identify key compliance strategies that are essential to managers as well as to human resources professionals.

HC 105
ALL ABOUT ME: UNDERSTANDING ONESELF THROUGH JOURNALING
Undergraduate
The goal of this class is to teach students the elements of journal writing, allow them to acknowledge and react to personal experiences and enable them to think clearly about these experiences. Students will be engaged in individual as well as group activities to accomplish this goal. Journaling on a continued basis might help students reduce stress and improve social relationships as they write and analyze certain experiences in their lives.

HC 106
LEADERSHIP AND MANAGEMENT IN A GLOBAL ENVIRONMENT
Undergraduate
Global systems, structures, and movements impact every aspect of life in Africa and in the Church. Effective leaders and managers are able to take a global perspective on their local work. This course will build the students' competencies in analyzing various aspects of globalization (e.g., economic and cultural globalization) and their impact on Africa. They will also examine how globalization will affect their future ministries. Each student will design and complete an independent learning project for their Focus Area in which they will create strategies to address some aspect of the impact of globalization on their future ministry. Through this course, therefore, students will develop and demonstrate their competence to analyze issues and problems from a global perspective and to create strategies to address the impact of globalization on ministry.
HC 107
MANAGING EMOTIONS IN DIFFICULT TIMES
Undergraduate
Though we look forward to holidays and special occasions, they often present challenges in managing our emotions. The occasions for stress and disappointment, as well as peace and joy, abound, requiring us to practice self-awareness, self-management, and relationship management at home and at work. This course will introduce a framework of emotional intelligence and provide opportunities for participants to assess their emotional intelligence and improve it through reading, discussion, role-play, and film analysis.

HC 108
BREATHING WITH TWO LUNGS: AN INTRODUCTION TO THE EASTERN CATHOLIC CHURCHES
Undergraduate
In 1995 and 2001, John Paul II, stated that the Catholic Church needs to breathe with both lungs; East and West. What he meant by this was that it's time for those who belong to the Western/Roman Catholic church to become familiar with their Eastern Catholic brethren, so that by acknowledging and accepting them, the universal Catholic Church can be whole. In this course, students will learn about the three of the largest of fifteen, Eastern Catholic churches, of both the Byzantine and non-Byzantine Catholic traditions; Ukrainian Catholic (European Byzantine), Melkite Catholic (Middle Eastern Byzantine) and Syro Malabar Catholic (non-Byzantine from India). Through videos, readings and class discussions, as well as three field trips (one to each of the above churches), students will learn about how the Christian church, which split in 1054, came to be reunited in the 16th and 17th centuries. By exploring and recognizing the similarities and differences of one catholic faith, students will conversely learn about the history, traditions and immigration of diverse communities.

HC 109
BEAUTY, ATTRACTION AND THEIR IMPACT ON CULTURE AND BUSINESS
Undergraduate
Beautiful people are believed to gain multiple advantages in life, from better grades in school, favored treatment from employers and preferential judgment from police officers and juries. Evidence of beauty being revered and deified can be found as far back as biblical entries to modern day celebrities. Beauty being revered can be found as far back as biblical entries to modern day celebrities. But the importance that beauty plays to the survival and the success of the human race has evolutionary significance to much further back. Our brains are pre-wired to appreciate beauty and in the over 35 million years humans have inhabited the earth it is only in the last 10,000 years or less than 1% of our civilized time that we have learned to adorn, fear and dissect its power. What is it about human existence that makes beauty so important? Why do we care about it so much? And how has it impacted our culture? This course will go into depth about human nature, subconscious evaluations of what we all are attracted to and why self confidence gained is more impacting and influential than the physical. Methods of accentuating our most endearing assets from ancient Greek, Roman and Egyptian times including Cleopatra and Nefertiti to modern day celebrities and plastic surgery will be reviewed. Additionally, examples of how the science of beauty can be translated, sold and used in modern business marketing strategies in an ethical and effective manner will be discussed. Specific tools, tactics and formulas for appealing to ones beauty senses will be explored. Students enrolling in this course can expect to be shocked at times, entertained but complete the course with a better understanding of science of beauty, human nature and its role in business.

HC 110
CULTURALLY COMPETENT PARENTING EDUCATION AND SUPPORT
Undergraduate
Students will explore all that is involved in being culturally sensitive in their relationships with parents of diverse backgrounds. This includes a consideration of the different belief systems, values and goals parents and professionals working with them in different cultural contexts bring to parenting and/or parenting education and family support. Students will have an opportunity not only to inquire and reflect on what cultural competence involves (including e.g. gender, race, ethnicity, class, religion, immigrant status, etc.) but will also reflect on their own cultural standpoint.

HC 112
MAKING SALES AND SELLING SIMPLE
Undergraduate
It's obvious; making the sale requires advanced skills and abilities! What's not obvious is how to acquire those skills and to apply them successfully in business! This course takes a look at building on your business knowledge by looking at the "why and how" of professional selling: specifically looking at prospecting, qualifying, presenting, handling objections, closing, and follow-up. The goal of the course is multifold; to appreciate the professional selling literature, to link theory with practice through the selling process, and to allow application to both personal and professional settings. This course accomplishes these goals through both in-class and out-of-class work that combines fun exercises supplemented by lecture, discussion, role-play, and even an assignment that requires the student to shop!
HC 113
MIDWINTER RITUALS
Undergraduate
This course uses methods of comparative religion and cultural anthropology to explore the specific manifestation of religious, ethnic and family traditions during the winter season of the northern hemisphere. The similarities between the winter celebrations of Christmas, Hanukkah, Hogmanay, Diwali, Soyal, Lohri, Santa Lucia's Day, Saturnalia, Yule and (more recently) Kwanzaa have been noted by scholars and laypersons alike. In some way, all these ritually based festivals relate to the common astronomical fact of the winter solstice - the shortest day and longest night of the year and the slow "return of the light" to the world. Can only be taken for one competence.

HC 115
SEX DISCRIMINATION AT WORK
Undergraduate
This one competency course will examine workforce segregation by sex in the 20th and 21st centuries. We will examine society's view of women as workers, leaders and entrepreneurs, as well as the opportunities and barriers faced by them as they participate in what was once a "men only" culture. Students will draw on their own experiences to understand the current business culture as it pertains to each sex. We will identify and compare obstacles facing women and men in the workforce due to sex, especially at the top levels of leadership. Students will study several business people who have overcome these barriers, and arisen to success. The final assignment will be a research paper and presentation requiring students to research a business person or entrepreneur and document his/her claim of sex discrimination and argue this discrimination either from the position of the employee or the organization, addressing the concepts learned throughout the class. Students will critique the presentations and provide feedback to each presenter.

HC 119
DIVORCE AND ITS LEGAL IMPLICATIONS
Undergraduate
As divorce rates in the U.S. continue to rise yearly, an increasing number of individuals are affected by divorce in some aspect of their lives. This course will give students a general overview of family law. In our discussions, we will explore issues such as domestic violence, child custody, and the "best interest of the child" standard in determining their effect on the divorce process. We will also discuss the financial and emotional implications surrounding the dissolution of a marriage and the role that these factors play in the divorce process. We will then explore the idea of divorce reform and whether this might be a solution to the increasing rate of divorces in the U.S. More specifically, students will be asked to analyze several of the proposed reforms in light of their new understanding of family law and determine if they believe that reform is the appropriate answer to this complex issue.

HC 121
THE US ROLE IN A CHANGING WORLD
Undergraduate
The Post-Cold War international structure, shifting economic alliances and power, and the emergence of nationalistic movements throughout the world are among the issues confronting the United States at the beginning of the 21st Century. This course will examine America's strategic role in this changing world environment and the attitudes that underlie American foreign policy decisions and will help students reflect on the global changes, assess national priorities, and decide for themselves the role the United States should play in the world today.

HC 127
MANAGING PERSONAL CHANGE
Undergraduate
The primary purpose of this seminar is to provide participants with a forum through which a greater awareness regarding the multiple dimensions of change may be developed. Specific emphasis will be placed on dynamics of personal change and methods of analyzing factors that impact personal change. Students will learn about the distinctions between personal change, transitions, and transformations. Ongoing self-assessment regarding change and opportunities for students to engage in self-reflection will be a key component of this course.

HC 128
WOMEN AND SEXUALITY IN ISLAM
Undergraduate
This course emphasizes the issues of women and sexuality in the Islamic cultures and demonstrates the diversity of women's lives in Muslim societies. In the course we will confront the following questions: Are the intense conflicts on women's sexual rights in the Islamic countries based on Islamic laws or the combination of political, economical and social inequalities? What is the Islamic view of love, eroticism and sexuality? Are women the instrument of power as the hunters and men the passive victims, or "women are created of and for the men"?
HC 129
THE EMOTIONALLY INTELLIGENT LEADER
Undergraduate
Because of the roles they play in influencing the lives of individuals and organizations, leaders bear a greater obligation to manage themselves and their relationships with insight and sensitivity. This course will examine the attributes of effective leaders in various settings and how they have drawn on skills of emotional intelligence to support their success. In addition, participants will identify their leadership qualities and strategies for developing them at work and beyond. Course readings and activities are drawn primarily from texts by Richard Boyatzis and colleagues that illuminate the relationship between emotional intelligence and leadership. The course is designed to address (1) the theory and practice of leadership and (2) the attributes and aspirations of course participants in their roles as leaders. Beyond the close examination of the Boyatzis leadership model, other primary models of leadership will be reviewed. Course activities will include discussion, presentations by participant leaders, films excerpts, and exercises.

HC 130
PARENTS AND TEACHERS TOGETHER: CREATING THE SCHOOLS OUR CHILDREN DESERVE
Undergraduate
This course provides an opportunity for students to reflect on and answer some of the following questions: Why do parents and teachers both feel frustrated and powerless to meet the needs of today's students? In this class we will consider the power inequities inherent in schools today. With fewer and fewer people who vote having school age children, parents and teachers feel they have little voice in how national and local resources are allocated to education. We will focus not only on present problems in schools, but on reviewing innovative initiatives and models around the country that give a louder voice to teachers and parents on behalf of children. While many people blame children's problems on parents and/or teachers few look at the system/society in which they function: teachers telling parents how to be involved in school without considering their backgrounds, culture, etc. and school administrators telling teachers what to do and the government telling administrators what to do. This course will give students an opportunity to think about current school problems within a power framework and then design constructive ways to empower parents and teachers to be more effective in creating "schools our children deserve."

HC 131
THE CHURCH AND SOCIAL JUSTICE
Undergraduate
Recognizing the impact of religious teaching and religious organizations in the development of individual and social moral values, this course seeks to look at the role of religious organizations, primarily Christian, and how they influence or shape individual and community social values. The course will also look at the interplay of culture and religion and how different cultural and social positions shape religious faith and social action. This includes a discussion of the impact of race, gender, class, and sexual orientation and how they are shaped and defined by one's religious beliefs. The course will look at the role of the leadership development in the church via its activities, role models, and teachings on personal and communal responsibility. It will also look historically at the points of conflict where religious institutions have mobilized to take opposing position on political and social issues such as in Civil Rights or Housing issues. The course will also look at the role of the church in the local community as a resource and as a catalyst for social services, social justice, political advocacy, and community economic development. The class will provide an exploration of various Christian denominations and how their view of their roles and work in the city and in the communities has changed over time. Students will also examine current day communities and churches and compare their historical roles with what they are doing today. They will discuss what churches are doing at the congregational level and ways that institutions are partnering with other religious, interfaith, government, or nonprofit agencies to address community social and economic needs.

HC 132
THE MIDDLE EAST: MAYHEM OR MISUNDERSTOOD?
Undergraduate
Is there any American who does not want to know more about the Middle East? This class will provide a geopolitical overview of the seeds which sprouted into the current situation in the Middle East. Learners will study religion, government, and Muslim culture. Along with a concentration on the history and cultural traditions of the area, students will examine how the need for oil has shaped United States foreign policy toward the region. In this course, students will consider facts and issues related to this fascinating locale from a variety of perspectives.

HC 133
CIVIL WAR AND CIVIL RIGHTS: A COMPLEX LEGACY
Undergraduate
Both in obvious and subtle ways, the Civil War has shaped the America that we live in today. Our images of "north" and "south," our race relationships, and our sense of a national identity have their roots in the Civil War and its aftermath. This course is designed to explore the historical and social dimensions of the War through readings, discussion, videos, and conversations with guest speakers. We will delve beneath the conventional beliefs and superficial information about the War to appreciate its complexity and its presence in our lives. Among the key issues we will address are (1) the ongoing debate regarding states' rights (2) the impact of southern regionalism on American culture (3) contemporary civil rights and their links to the past.
GLOBAL EDUCATION AND WORK
Undergraduate
Globalization has become a constant topic in the news. We can no longer content ourselves with our town, state, region, or even our own nation. We need to think big. International politics and economies are merging. How will we compare to other nations in terms of educational preparation and workplace skill? In this course, students will examine ideas regarding the nature, philosophy, history, and purposes of education, and of education for work in the United States. Furthermore, students will compare our thoughts on these issues to those of other nations, our partners for the future. Students will consider the ethical implications of educational programs and philosophies, and will discuss the ramifications of the developing close relationship between education and the workplace.

TOOLS FOR TOMORROW’S LEADERS
Undergraduate
Effective leadership in the 21st century requires knowledge of a variety of concepts and practices. Theories and principles from past and present leaders influence how leaders of tomorrow will succeed. Business, political, and religious settings require solid leaders with great awareness of knowledge and practices that have created proven results. These settings require perspectives that will contribute to the success of the organization. Aspiring leaders draw inspiration from lessons learned in the past; these leaders then need to translate those lessons into solid contemporary practices for their organization. This course provides a critical analysis of historic writers and thinkers. Examining leadership situations from these early writings, students will compare and contrast contemporary leadership approaches. Through discussion, reflection, and exercises students will uncover relationships and insights to their current leadership practices and situations. A variety of knowledge and ideas focused on acting ethically, thinking independently, listening closely, taking responsibility, and finding balance are among the tools that students will develop in this course. Close reading of Plato, Sophocles, Aristotle and Aeschylus will allow students to bring the works of these early thinkers to their current leadership situations.

UNDERSTANDING TERRORISM AND SOCIAL VIOLENCE
Undergraduate
This intense course will examine the psychological, philosophical and ecological roots of hatred and social violence. We will explore the possible negative impacts of exposure to violence on children, adolescents and adults. Course content will center around such questions as: “What are the cognitive roots of prejudice and social violence?” and, “Is violence really human nature?”

A LIVING MOVEMENT: TOWARD A WORLD OF PEACE, SOLIDARITY AND JUSTICE
Undergraduate
How can we make sense of the enormous changes taking place in our world? From the Egyptian victory to overthrow a dictator to the struggle of Wisconsin union members, non-violent actions are spurring more peace, solidarity and justice. How do we take part in building a movement of peace, solidarity and justice? Join the Living Movement course and travel to Memphis, TN for a joint conference of the Peace and Justice Studies Association and the Gandhi-King Conference. Over 1,000 people will attend to share stories from the front lines of the struggles for peace and justice and listen to evidence from scholars on the victories of non-violent action. Meet national leaders and network with activists from all over the country. Space limited so register early. Besides DePaul registration, additional expenses include: hotel for 2 nights, food, travel, conference registration. See peacejusticestudies.org or gandhi/king.org for more information.

THE JUVENILE COURT SYSTEM: IS THERE A FUTURE FOR OUR CHILDREN?
Undergraduate
Recently the juvenile court system celebrated its 100th anniversary. This affords us an opportunity to examine the strengths and weaknesses of this special court and to identify the opportunities for improvements and needed changes. The court’s legal decisions about children’s lives are extremely important because of their profound life-long consequences for individual children and because of the impact these decisions have on society in general. This course will study the juvenile court system since its inception in 1899. We will see how crime has changed, not so much in numbers, but in the degree of violence due to guns, drugs and gangs. We will also study how the change in family structure has affected crime. We will study one method of change in our efforts to effectively address how certain changes in the present system could lead to a more effective and just system. We will employ small learning teams to explore the material presented in class.
HC 139
UNDERSTANDING WAR: CAUSES AND CONSEQUENCES
Undergraduate
The First World War (the “Great War”) produced profound effects on world culture and continues to influence our ideas and actions with respect to military matters. The swift advance of technology during this time provided the world with a new and constantly-shifting array of weaponry, including the first biological weapons, use of aircraft and bombing, and systematic genocide. All of these weapons are still present in the contemporary arena of warfare and we can understand them only by knowing their origins. In this course, we will examine this horrific shaping effect of war by studying its literature, scholarship and documents, as well as selected films and field trip(s). Since aviation and the use of air tactics played a crucial role near the end of the Great War, we will particularly emphasize this phenomenon.

HC 140
PUERTO RICO AND CUBA: DIVERGENT POLITICAL TRAJECTORIES
Undergraduate
Despite their geographic proximity, Puerto Rico and Cuba have taken different political paths. In this course, we will examine the economic and political history of these two countries starting from when the United States took possession of these two Islands in 1898 to the present. We will address questions such as: What led to U.S. involvement; why did Cuba gain “nominal independence” after 1898 while Puerto Rico remained under tighter U.S. control; What led to the Cuban revolution; What is the current state of Communist Cuba? The history of these two countries will also provide an avenue for exploring the impact of the Cold War on the Caribbean. We will conclude by examining the migration and immigration of Puerto Ricans and Cubans to the United States. Lectures, class discussions, videos as well as presentations by guest speakers will be the primary means of exploring these issues. Students will develop a structured learning journal and complete a small project that explores one of the course themes.

HC 141
COACHING FOR PERSONAL DEVELOPMENT AND PROFESSIONAL EFFECTIVENESS
Undergraduate
Effective coaching has long been recognized as a key element of success in the world of sports. More recently, a new breed of coaches has emerged to help people transform their personal and professional lives. In this course, we will explore the theories, concepts, and techniques of personal life and business coaching. Students will learn about the history of coaching, its uses in personal and professional development and practical applications. Working individually, in pairs, and in small groups, students will practice coaching skills and keep a detailed learning journal. This course will be highly experiential and collaborative in nature. Students will learn concepts of coaching for personal development and professional effectiveness.

HC 142
EXPLORING EDUCATION
Undergraduate
This course will focus on educational opportunities for students considering a career change or exploring career opportunities in the fields of Policy, Administration and Teaching at the Elementary, High School or Junior College level. We will discuss the history of American education, its aims, purposes, contemporary issues and opportunities, as well as requirements for teacher certification, and alternative certification processes. Students will learn how to use the SNL program to meet Illinois General Education requirements leading to Teacher Certification. Class requirements include discussion, selected readings, a short writing assignment and a guest speaker. Student outcomes will include a thorough knowledge of the processes involved in Teacher Certification, examination of their short term and life-long learning goals and an understanding of innovations in education today. This course is designed for students to explore and understand education today and how this knowledge leads to personal goals, improved understanding of education as an institution and how this knowledge can impact their choices in education for themselves and family.

HC 143
AMERICAN WARS: ILLUSIONS AND REALITIES
Undergraduate
This course will examine the myths and realities of American wars from a number of different perspectives, and will evaluate the means by which misconceptions about war enhance or threaten American values. Specific areas of study will include the benefits and risks of foreign intervention, the impact of war on aggressor and victim, the role of the media, environmental effects, and rationalizations for and against war. The emphasis for each study area will be the contrast between generally accepted beliefs and the consensus of reputable, diverse sources. Readings from pro- and anti-war and centrist sources will be considered. Students in this course will be required to participate through selected readings, brief reports on those readings, and class discussions. Each student will choose a specific topic of interest for individualized study, which will entail research and writing, a multimedia class presentation, and an effort to publish the work on one of a number of selected websites.
HC 144
DEMOCRACY IN EVERYDAY LIFE
Undergraduate
This course will provide students with an understanding of democratic environments, the criteria to define them, and how this knowledge could be applied to everyday situations in the private sphere and the workplace. The course offers a wide range of activities like critical reading and discussion of topics, analysis of cases, simulation of democratic and non-democratic environments and problem solving of real life issues. The ideas of others serve as common course content presented in the material assigned to this course. Students are asked to participate actively and critically, using their own experience as a field of analysis and reflection. Active participation should foster the idea that the course itself could serve as a model of a democratic teaching and learning environment. In this way the course will foster democratic behavior and values.

HC 145
EXPLORING PERSONAL AND ACADEMIC RESILIENCE
Undergraduate
The course presents a variety of readings, experiential exercises and projects designed to enhance the students understanding of the risk and protective factors that contribute to resilience. Resilience theory looks at managing risk by employing the necessary protective factors. In this course students will continue to build on this dialogue by exploring theories of personal resilience while developing resilience in other areas such as academia, work, etc. Additional Questions to be explored: What are protective factors? How are they developed? Do they change at different developmental stages? Adults are constantly evolving and as we change, do we become more resilient?

HC 146
HOW FAMILIES COMMUNICATE
Undergraduate
This course provides students with the opportunity to apply a wide range of theories about family communication to an experience common to all-family life. Through this course, students will gain an understanding of how communication functions to develop, maintain, enrich, or limit family relationships across a wide range of family structures and cultural backgrounds. Among the family relationship issues considered in this course are patterns of intimacy, power, decision-making, roles, rituals and conflict. Factors involved in forming family patterns (e.g. gender, ethnicity, family diversity and family stories) will also be covered.

HC 147
AMERICAN CULTURE IN 2010
Undergraduate
Is there an American cultural identity that is distinct, or is the notion of "American culture" obsolete? There are more than 100 scholarly definitions of culture and most agree that culture depends on shared beliefs, values, and symbols and provides a means for people to both adapt to and manage the world within which they live. In an increasingly diverse United States, what beliefs and values do its inhabitants share? Have these attributes changed significantly in the past several years so that "American culture" is being redefined? This course will examine the ways that American Culture is perceived and shaped by its inhabitants and how changes in technology, global relationships, and immigration challenge us to clarify it for ourselves and others.

HC 148
COLLABORATIVE LEARNING: PRINCIPLES AND PRACTICES
Undergraduate
In this class, we will explore and develop the skills, values and knowledge that contribute to collaborative learning. Today perhaps more than any other time in human history we are aware that no one is an island. At the individual, organizational and societal levels, we are all interconnected and interdependent. We can only meet our goals and address our problems at any of those levels if we work at them with one another. Therefore, as never before, we need to learn how to learn together. Collaborative learning is the process of two or more people helping each other to deepen and expand their shared understanding of the challenges and opportunities they face. It involves stimulating new insights in one another, and helping each other make changes in our assumptions, beliefs and behaviors. We will read and discuss a book on theory and skills of helping others to learn. We will practice skills each week with each other via telephone. We will also participate in informal online discussions. Each week, a formal reflection will be submitted.

HC 149
TEAMS AND TEAMWORK
Undergraduate
It's obvious; teams outperform individuals. What's not obvious is how to make teams work. This course takes a look at the "why" and "how" of teams: specifically looking at team building, communication, leadership, behaviors, conflict management, decision-making, diversity, and problem-solving. The goal of the course is multifold; to help students understand team dynamics, to become better team members through experience, to be better able to manage teams, and to apply team theory to actual practice in their personal and professional lives. This course accomplishes these goals through a combination of fun team exercises (each session) supplemented by lecture, discussion, video cases, and role-play.
HC 150
DESIGNING, IMPLEMENTING AND PLANNING FOR CHANGE
Undergraduate
Business success is no longer about management and control. Success requires leadership that knows how to leverage information that is important to a company’s sustainable future. Participants in this course will learn how to maximize a company’s value to all stakeholders by tapping its intellectual capital (workforce, community, stockholders, board members, unions, customers) by engaging people in sharing their knowledge and wisdom.

HC 151
COACHING AND LIFE SKILLS
Undergraduate
Good coaches... like good managers, parents, and friends... work to bring out the best in other people and help them develop their full potential. This course will provide a setting for students to experience and explore the role and skills of the coach in contributing to the development of other people. By looking through the lens of youth sports, participants in the course will learn that coaches communicate well; build genuine relationships; value process as well as product; and convince others that they are important and have much to contribute to their team and community. The course is highly experiential and collaborative in nature and will enable students to develop communication, teamwork and human development skills that will support their roles across a variety of settings. In addition, students will be eligible at the end of the course for coaching certification through the American Sport Effectiveness Program (ASEP).

HC 152
PROJECT MANAGEMENT: TOOLS AND TECHNIQUES
Undergraduate
This course seeks the following learning goals: project definition and task organization, project risk management, project task estimation and schedules, and potential cultural issues when with working with project members from other cultures.

HC 153
VIOLENCE IN AMERICA: AN HISTORICAL AND CONTEMPORARY PERSPECTIVE
Undergraduate
This course compares violence in America from the second half of the nineteenth century to contemporary time. A variety of topics will be covered including: political violence and assassinations, labor strife, urban unrest, and organized crime. Hollywood and media images of violence affecting youth and individuals, violence as a form of social control, and implications of violence will also be covered. Class discussion will focus on the causes of violence in American society. Do groups condone violence when they perceive themselves as outsiders? Have groups resorted to violence attempting to force change in society? Is there a nineteenth century old west gunfight mentality existing in contemporary society? Does American violence compare to contemporary Western Europe? The coursework will include lecture, assigned readings, class discussion, and written assignments. Student papers will be on topics approved by the instructor.

HC 154
RACE AND ETHNIC RELATIONS
Undergraduate
How do we understand and heal the wounds of racism? How do we build bridges that allow diversity to flourish in the United States? What are the connections among forms of racism such as ethnic cleansing and “pacification programs”? In this course, we will explore the roots of racism, look at the changes brought about by the civil rights movement, and examine ongoing work aimed at bridging the gaps caused by racism. Students will study a variety of topics through discussion, readings, films, debate, guest panels, and field excursions.

HC 156
BEHAVIOR, HEALTH, AND AGING
Undergraduate
This course is a broad introduction to the aging process in a society that values productivity, youth and independence and attempts to defy normal aging at all costs. It will explore the influence of medicine and technology as it relates to aging, examining the role of health care as to prolonging human life vs. allowing for a good death. It is a continuing survey of the human being through the periods of late adulthood and old age. Through exercises, projects, and group activities, students will learn to explore the personality, behavior and physical changes in aging. It examines the interrelationship between physical and psychological factors of adapting to illness and health maintenance activities. Topics include the physiological and psychological aspects of aging, behavioral influences, prevention and management of chronic illness, bereavement, death, and related adjustment issues.
HC 157
ECONOMICS FOR DECISION-MAKING
Undergraduate
The purpose of this course is to provide the modern consumer living in a global economy fueled by unabated technological progress with basic tools to understand the path which has led to today's remarkable prosperity. The focus is on enabling consumers to make decisions throughout the life-cycle. Basic economic methodology will be presented, along with defining moments which, from the Industrial Revolution to the expansion of globalization, have shaped both economic theory and economic policy. Standards topics, such as scarcity, opportunity costs, the law of diminishing returns, the law of comparative advantage, the mechanism of the price system, the laws of demand and supply, the workings of money and banking, the impact of fiscality, etc., will be considered, with in mind the idea that economics can offer a significant contribution in the process of making practical financial and consumer decisions.

HC 158
ETHICS AND LAW OF INTERNET PRIVACY
Undergraduate
Online privacy has become a highly charged and complicated area of the law and our culture, because the Internet is changing and expanding our economy in ways unimaginable five years ago. The Internet's incredible functionality and convenience has rapidly made it the primary communication, information, and shopping tool for millions of Americans. Most of us, however, underestimate the extent to which we compromise our digital DNA with these transactions. Recently, some states have attempted to draft legislation responding to the issue of online privacy. Legislation advocates envision that these represent limitations on the collection and dissemination of personal information acquired by Internet web sites. Others have promoted the adoption of federal online privacy standards. Will the adoption of new laws and regulations impede the Internet growth? Or, is the Internet the final frontier of unregulated and freely accessible information, products, and services? Students in the class will grapple with these and other important questions on the legal limits of privacy.

HC 159
MAIZE AND MIDWESTERN CULTURE
Undergraduate
In this course, students will learn the role maize has played in the cultural, economic and scientific development of Midwestern Society. An overview of the impact of maize on ancient American and modern world cultures will also be examined. Students will learn how maize developed from a wild indigenous plant in the Americas to become one of the world's great sources of food, chemicals, religious belief and social practices. More locally, students will learn how corn is currently farmed in the northern Illinois area, how Midwestern family farmers finance, grow and sustain great crops of grain. Students will examine the practices and results of economic corn markets and the role these play in the success of Illinois corn farms. Methods of continuing domestication of maize by selective breeding and more recently by genetic engineering, and the impact of these practices on the crop and on society will be examined. Finally, students will explore the many ways corn products are converted into chemicals for a variety of uses, and will analyze their benefits and costs.

HC 160
FACILITATION SKILLS FOR ORGANIZATIONAL LEARNING
Undergraduate
Good facilitators know that really connecting with other people is the secret to powerful and effective meetings and training. In this course, we will examine the nature of engagement and the skills and strategies that facilitators use to involve other people meaningfully in these events. Specific topics will include: matching facilitation skills to event purpose and context, creating learning environments conducive to facilitation, application of a variety of facilitation skills in small and large group settings, using technology to complement facilitation. Class sessions will be devoted to examining and critiquing facilitation scenarios, practicing facilitation skills, and applying principles and strategies of facilitation to class participants' real life situations.

HC 161
THE SUCCESSFUL ENTREPRENEUR: FINDING YOUR NICHE
Undergraduate
Today, to be a successful entrepreneur, in addition to knowing what's hot in the marketplace, you need to know yourself. This course will help you discover what are the skills and gifts of personality you possess that will maximize your possibilities for success as an entrepreneur in today's global environment. Utilizing a variety of measurement techniques, you will discover your own personal work-style preferences, what tends to drive you, what energizes you and what builds your self esteem. You will explore which type of business opportunities might be the right ones for you, learn your own decision making style and in what work environment you function best. Based on this knowledge, you will create your own mission statement. Then in collaboration with other students, you will learn how to integrate this information with the various tasks required in getting a new enterprise off the ground. This includes: (1) identifying a specific service or product that meets a need in the global community, (2) creating successful marketing strategies; and (3) devising methods of developing the product or service you created.
Throughout history, theoretical approaches to managing people and programs have filtered into and influenced daily life. Some of these theories, such as the works of Machiavelli, take the form of great literature. Others come to us via the more mundane world of Dilbert cartoons. In any form, ideas about human interaction and productivity continue to shape our consciousness. In this course, students and faculty will examine a variety of documents related to management, and will examine them from philosophical, social, and business perspectives.

The greatest migration of people in the history of the world is occurring right now, in China. Hundreds of millions of people, whose families have lived in rural China for thousands of years, are moving to rapidly urbanizing cities. This course analyzes, through the voices of the Chinese people, the dramatic impact of this social and economic revolution upon families and individuals. Through lecture/discussions, videos, readings, on-line discussion boards and independent research, students will have the opportunity to form their own viewpoints as to the impact of globalization upon one of the oldest civilizations on earth.

This course surveys a variety of leadership structures prevalent in dynamic contemporary organizations. Students in this one-competence course will investigate theories of active leadership, analyze organizational case studies involving effective leadership positions and experientially assess the usefulness and validity of conceptual models of leadership in the day-to-day world of viable organization management.

The greatest migration of people in the history of the world is occurring right now, in China. Hundreds of millions of people, whose families have lived in rural China for thousands of years, are moving to rapidly urbanizing cities. This course analyzes, through the voices of the Chinese people, the dramatic impact of this social and economic revolution upon families and individuals. These changes are having a worldwide impact upon economics, trade and the new world order. Through lecture/discussions, videos, readings, on-line discussion boards and independent research, students will have the opportunity to form their own viewpoints as to the impact of globalization upon one of the oldest civilizations on earth.

Who determines who owns the oil, water, and other resources on the planet? What are the root causes of many of the wars in the Middle East, Africa, and South America? How do we, as the world’s superpower, respond to these global issues? This course examines the fight for resources and connects these issues to questions of war and the new upsurge of non-violent action across the globe. Guest speakers, videos, and other experiential learning will enhance these readings.

Through onsite visits to schools, piazzas, and cafes in Italy and Estonia, participants in this 2-week study abroad course will study cross-cultural communication by examining how language and interactions are used in various contexts in both countries. Participants will examine communication dynamics in informal settings, such as cafes and piazzas, and in the formal setting of schools and universities. Using concepts from assigned readings, participants will analyze how different socio-cultural factors interact to shape individuals and interaction patterns in both societies, as well as in the United States. A primary focus will be Estonian and Italian schools and universities, where participants will compare these organizational structures to those in the US and analyze the implications for cross-cultural communications among and between teachers and students. Prior to departure, participants will use interactive, online technology to engage in cross-cultural communication and to create criteria for evaluating and comparing communication; the dialog analyzing cross-cultural aspects of language in educational and public settings from a social and political context will continue upon arrival in the countries. In both countries, the selected universities conduct research on intercultural education and cultural dynamics among groups in multicultural societies. Estonia and Italy are substantially different culturally, and offer rich opportunities for comparison and analysis. This course, though ideal for educators wishing to understand the role of language and culture in different settings among multicultural groups, also provides a background for those interested in sociolinguistics, cross-cultural dynamics and multiculturalism abroad and at home.
This semi-structured Externship is designed to enhance students' understanding of themselves as individuals, as life-long learners and as members of the larger human community. Students will identify the internal and external 'boundaries' they have with regards to experiential learning. Experiential or service based learning will be implemented to enable students to ‘cross boundaries’ into new and unfamiliar territories.

The primary focus of this course will be the examination of the cultural and psychological elements of cyberspace communication, with a specific focus on the internet. Students taking this course will be able to reflect on and engage in informed discourse regarding the cultural and psychological elements of the internet as well as gender specific differences in cyberspace behavior.

What is organizational culture? Culture is the way things are done in the organization, and is a system of shared symbols and is a variable that focuses on causality. In this course, you will examine what organizational culture is and how knowledge of culture provides a way for gathering information to help leaders/managers improve organizational performances. This course provides a hands-on approach to learning to “read” organizational cultures and using that cultural knowledge in symbolic management, training, organizational change, building effective teams, supporting diversity, and unleashing creativity. In terms of cultural analysis, through this course, you will be introduced to qualitative research methods, field observation, interviewing, qualitative surveys, content analysis, and other methods of textual analysis. The textbook is an applied workbook to supplement and apply organizational theory. It answers two central questions: How to understand the intangible culture that is so important to working in an organization; and how to use this cultural information once understand it. Finally, you will have a chance to transform theories into practice.

This class is largely about the international human rights movement and how it has the potential to alter our thinking about social justice and the rights movement in the United States. In this class, we will ask ourselves the following questions: which rights should be protected by every society? Can there be universal human rights? Should developing countries be held to the same standard as developed nations? What are the major areas of concern internationally and how do these compare with human rights concerns in the United States? Are human rights for the individual incompatible with those for the collective or can the two co-exist? In this context, we will review the U.N. Declaration of Human Rights and other important treaties, NGO commentaries, and first person accounts of the international and domestic human rights movements. Students are encouraged to integrate their interests in both domestic and international human rights issues into the class discussion.

Students study the history of human rights development as they emerged from religious belief, philosophical visions of natural law, social structures and legal systems. Students will also examine opposition to human rights over the centuries when rights threatened traditional patterns of authority, prejudices, vested interests, customs and claims of national sovereignty. Study then shifts to recent human rights documents beginning with the Universal Declaration of Human Rights in 1948. The racism convention is studied as the case study with focus on its application and lack of in the U.S. and Chicago. Students then apply knowledge from the case study to examine human rights work performed by a local NGO, by a local company or by their community. The course concludes with current human rights advances in corporations, governments and NGOs.

This course is designed to expose students to the history, context and implications for American society of the Constitution and Amendments, more commonly known as the Bill of Rights. We will learn about the founders who created the Constitution, and also explore landmark court cases concerning historically significant issues such as privacy, right to bear arms, freedom of religion, abortion, and the right to die. We will discuss how this supreme law of our land impacts our daily lives and decisions.
HC 175
HOME AND IDENTITY
Undergraduate

This course brings a unique multidisciplinary and multicultural approach to address the interconnection of diverse experiences with the meaning of home and identity. It shows you that the meaning of home can be incredibly varied and lets you explore the multiple facets of home as well as being away from it. You will learn that home is a volatile mix of yearning and loss, of being at home or searching for it, and that this very mix is the framework in which one's identity evolves. The course will be based on lectures, discussions, film, exercises and guest speakers who will share their experiences with the class.

HC 176
PEOPLE, PROCESS AND ORGANIZATIONAL DEVELOPMENT
Undergraduate

Healthy, successful organizations, like healthy, successful people, continue to grow and develop across the life span. This course will examine ways organizations can design processes and cultivate human potential to ensure that they renew themselves and remain ready to embrace opportunity and respond to change. Participants will work with case studies and scenarios from their own work contexts to develop competence.

HC 177
PRACTICAL CONSULTING: THEORY, SKILLS AND APPLICATION
Undergraduate

If you were to look for the definition of "consultant," chances are good that it would suggest that a consultant is an individual who provides professional services. What does this mean? To whom does one provide professional services? What kind of services? In this course, students will learn the definition of consultant, the various models and theories behind the profession, as well as the practical skills necessary to engage in a consulting relationship. Students will work individually and collaboratively in practicing how to "contract," gather data, diagnose, give feedback and close the consulting relationship, all while learning the theories and underlying assumption behind consulting, no matter what type of "professional service" you are providing or for whom. By the end of this course you will have gained a greater understanding of organizational life, collaborative learning, yourself as a professional service provider, and be able to not only practice, but be a consumer of consulting services.

HC 178
GENDER AT WORK
Undergraduate

From the days of hunters and gatherers our world has been organized by gender expectations. While these gender roles have evolved over time, women and men today still struggle to meet these expectations and they have largely defined who we are for centuries. We have more choices and freedom to renegotiate and transcend these roles now than at any other time in history, and yet they still impact every aspect of our lives. This course will explore how gender can influence communication patterns, leadership styles, negotiation skills, conflict styles, work/life balance expectations, relationships and a multitude of other aspects of our life at work and at home. Students will demonstrate the competencies through class participation, group projects, journal entries and other assignments that will allow them to apply course readings, films, and discussion to their own personal experience.

HC 179
ECONOMIC INEQUALITY: THE ROLE AND RESPONSIBILITY OF BUSINESS
Undergraduate

This course will examine the role of corporations in the growth of economic inequality in the United States and the world. Inequality changes in the U.S. and various other countries will be correlated with the economic, political, educational, geographical, and historical trends that may have affected incomes and standards of living since the beginning of the 20th century. Likely causes relevant to corporate strategies, especially over the past quarter-century, will be investigated, and possible solutions will be considered.

HC 180
MEANINGFUL WORK MEANINGFUL LIFE
Undergraduate

Our lives and our work are inextricably linked - regardless of how we define work. "Work" may be defined as a paid job, volunteer activities, family and home occupations, educational ventures or other productive endeavors. In addition, over time our lives and work activities inevitably change, develop and take on meaning and relevance in ways that are not always intentional or foreseeable. These changes can and do influence our identity and how we "do" our work. In this course we will explore some elements of social psychology and how and why we derive identity and meaning from the varieties of work in which we are engaged. The genesis of learning in this course will be an examination of stages of development of individuals, workers in diverse settings and organizations. From these origins we will explore how we make and derive meaning from all of these sources of identity.
HC 181
LAW FOR EVERYDAY USE
Undergraduate
Our system is founded on the belief that everyone is entitled to participate in the process of government. Free and open access to the judicial system is fundamental to American democracy, yet, as our system of law grows more complex by the day, we find ourselves more and more reliant on lawyers. This course is designed to provide students with the basic skills to understand and navigate the system in the areas of law that are pertinent to our everyday lives. Various substantive areas of law including, but not limited to, marriage and divorce, work-related laws, real estate, health care rights, estate planning, immigration, juvenile law, and finance will be examined with emphasis placed on topics according to class preference and interest.

HC 182
HUMAN RIGHTS AROUND THE WORLD AND IN CHICAGO
Undergraduate
This course begins with a study of the evolution of human rights from religious belief and includes the opposition to human rights when they threaten traditional authority, vested interests, etc. Major human rights conventions will be studied and the Convention against All Forms of Racial Discrimination (ICERD) is utilized as the case study for current human rights work. Students will study how this convention to eliminate racial discrimination is being implemented in the US and in Chicago today, explore how NGOs are working for human rights, and assess how corporations are implementing human rights within their workforce.

HC 183
BEAUTY POLITICS IN CULTURAL CONTEXT
Undergraduate
How can we celebrate our different skin tones, body sizes, hair textures, and cultures, and yet still acknowledge our similarities? How can hair/body stories help us better to understand each other and ourselves? Are hair and body stories cultural legacies or scholarship? This course exposes students to the complex ways the body is portrayed, (mis)understood, and celebrated worldwide and will focus on constructions of Black hair and the Black body in media of the 20th and 21st century. The course combines readings, personal anecdotes, media (including movies, videos, advertisements, music, poems, and online media), and applied research about the body and its extremities (such as hair). Here we will also analyze the body and its performance of sexualities and identities in the context of the production of culture and social relation. A critique of the readings and media representations will afford students the opportunity to explore alternatives to conventional materialist, consumerist, and constructed binary approaches to the body. By exploring their own hair/body stories students encounter dynamic resolutions and celebrations at the individual level.

HC 184
VIOLENCE AGAINST WOMEN: A HUMAN RIGHTS VIOLATION
Undergraduate
This course will introduce students to issues of violence against women from cross cultural perspectives and will explore how this social problem relates to human rights violation. The course will give the definition of what is violence against women and what are the different forms of abuse used against women. This intense course will focus on evaluating these forms of abuse in diverse cultures, include India, Saudi Arabia, and the United States, as well as immigrant and minority communities in the U.S. This analysis will examine how social institutions in each of these cultures either contributes to the violence against women or addresses this issue. Through class discussion, lectures, readings and guest speakers, the various ways in which women are abused will be evaluated and discussed in an effort to introduce students to patterns of abuse from a global perspective.

HC 186
STUDIES IN GHANA: HISTORY, CULTURE AND SPIRITUALITY
Undergraduate
This course has been designed to be dynamic and lively, purposefully engaging with learners in direct experience and focused reflection in order to increase knowledge, develop skills and clarify values. The rich cultures of Ghana provide much of the “text” of this travel course. From visiting Ghana’s National Museum, to observing kente cloth being woven or women pounding fufu, or meeting with spiritual and educational leaders, course participants will be exposed to multiple layers and multiple levels of West African culture. Everyday experiences, such as shopping in the open air markets, become lessons on human interaction that are rooted in a particular worldview. Learners will be challenged to consider the footprint left by the simple decision of paying a particular price or buying from a particular vendor. They will come to understand that culture goes beyond the surface expressions, such as clothing, food, dance, to the deeper levels, such as the cosmology of the people. Their beginning examination of Ghanaian cultures can lead to further examination of their own personal, family, community and national cultures.
HC 187
LATINA LIFE STORIES
Undergraduate
This class will explore the diversity of the U.S. Latina experience through themes of migration, home and place, paid work, caring work, education, gender, and race. Through life stories and fictional works, students will examine what it is like to be a migrant or immigrant; to live in more than one culture, as a bicultural and multicultural, bilingual or multilingual person; to negotiate responsibility and desire, as a woman, mother, daughter, partner, to name and live one's sexuality; to be a provider, a caregiver, an activist and a professional. Students will also be encouraged to draw connections between their own experiences and those of the women about whom they are studying. The course will conclude by exploring how Latina women are building new political, theoretical, economic, artistic, and spiritual pathways toward wholeness. Students demonstrate competence through participation in class discussion, and activities, as well as by writing essays based on readings. Students will also have the option of writing about their own life history as well as of researching the life stories of Latina women not covered in the class.

HC 188
UNDERSTANDING INTERNATIONAL RELATIONS
Undergraduate
Two major puzzles sit at the core of world politics: Why do nations fight, and why do they cooperate? One popular theory views conflict as a normal state in international affairs, presenting its supporters with the task of explaining why so much cooperation exists. Another popular perspective characterizes cooperation as the norm, posing a dilemma for its supporters to account for the violence in world affairs. Understanding cause and effect in a complex world is a difficult challenge. This course provides an introduction to the systematic study of major issues in international relations. Some themes recur throughout the course: power, motivation and choice, nation-states, anarchy, sovereignty, interdependence, and political and economic market failure. We will systematically explore the players, their goals, the constraints within which players operate, the interactions between players, and the strategies they pursue. Part I introduces general theories for explaining international relations. Part II addresses domestic sources of foreign policy. Part III addresses asks why and under what conditions wars occur, while Part IV explores how values and culture affect international relations, focusing on the causes of terrorism.

HC 189
LATINO CHICAGO
Undergraduate
In this course, we will learn about the concepts of race, class and gender and how these intersect to shape Chicago Latinos' experiences. While we will learn about the inequities that Latinos have experienced, we will also explore this community's struggle for social justice and its efforts to create a voice for itself in Chicago. We will conclude this course by exploring how Latinos/as are building new political, theoretical, economic, artistic, and spiritual pathways toward wholeness and justice. For example, we will explore some of the cultural and political projects of this community and the many groups that comprise it. We will learn about these themes and address questions through readings, class lectures and discussions, guest lectures, documentary films and field trips. Field trips to Latino Chicago communities such as Pilsen and Humboldt Park will take place during class time.

HC 190
LAW IN AMERICA: ITS HISTORY AND RELEVANCE IN TODAY’S WORLD
Undergraduate
This course is designed to enhance students' awareness of how critical American law is for their personal, professional, and community life. The purpose is to help students achieve a better grasp of current realities through understanding of the history, the structure, and inherent problems of the American legal system. The course will discuss the role of lawyers and the public in the legal process (e.g., the role of civil rights groups and lobbyists in forming laws). It will begin with the colonial underpinnings and the essentially Western and British foundations of the American legal institutions. There will be some discussion of alternative legal systems. It will then review the American Constitution, the nature of a federal system, and specific topics in American law. These topics will include the basic rights in our system, and the law as it has evolved in dealing with race (“the strange career of Jim Crow”), speech (free and otherwise), labor (its rough course), criminality and its outcomes, religion (how religious is the law), and business regulation (how much can we trust antitrust). The course will be relevant for students interested in the law as a career, the law in the workplace, the law in not-for-profit settings, and those generally interested in the law in business contexts, as well as those seeking to understand the role of the law in our social and cultural context. We will use one major textbook, as well as selected readings on topics. Students will be asked to bring their own experiences with the American legal system into our discussions and to share their perspectives of the various topics.

HC 191
AMERICAN PRESIDENTS
Undergraduate
This course will trace the development of the American Presidency by concentrating on the lives of some of the leaders who have been elected to the Presidency over the past two centuries. We will seek to find out their histories, what motivated them, what ideals they held sacred, what programs they proposed, how they reacted to crisis, how they protected and improved the nation during times of war and peace. We will examine the key issues and problems that confronted these Presidents and shaped the history of our nation. Students will read different biographies of two Presidents, and individually report their findings to the class for discussion and comparison.
HC 192
HOW, WHAT AND WHY WE EAT: THE ART, SCIENCE AND PSYCHOLOGY OF FOOD
Undergraduate
We have many connections to food. Food sustains us but it has meaning that extends far beyond basic nutrition. Eating is an individual pleasure and comfort, a tool for creating and sustaining social bonds, and a way to express one's cultural identity. Food is tied to many aspects of life including culture, politics, agriculture and the environment. Americans have become disconnected from both the production of our food and from the joy of eating it and suffer from food related health problems such as diabetes, obesity and eating disorders. In this class we will explore the myriad of food-related habits and choices, that determine how what and why we eat. This experiential class moves beyond specific dietary guidelines by presenting concepts and skills that will help you reframe your connections with food. We will explore the multiple dimensions of food and eating from an individual, community and national level. We will explore the true meaning of nourishment. Topics include: identifying personal eating styles, mindful eating exercises, the slow food movement, locating Chicago food deserts, a field trip to a popular Chicago organic garden/restaurant, guest speaker from a Chicago restaurant mural artist, examining types of hunger and nourishment, and issues involving food and ritual, food and story, food and psychology, food and art. We will combine art, film clips, lectures, field trip, research, and mindful eating skills.

HC 193
THE AFRICAN AMERICAN FAMILY
Undergraduate
This course will explore key questions regarding the development of the African American family within the context of institutionalized oppressive forces endemic to American society. During the course we will survey several theories that have been prominently used to characterize the African American family's development and their efficacy as tools in this endeavor. We will also use genealogical research methods to understand the dynamics of family development. Students will conduct research into their own family's history by using oral history techniques and will learn how to document and reconstruct kinship ties as far back as class time and records will allow. Through this process, students will gain a broader understanding of the African American family as it has evolved in response to the stressor imposed upon it throughout American history. Furthermore, learners will consider issues related to the construction of American society, the role of African Americans in it, and the ways in which these issues influence African Americans in all aspects of their relationship to the larger society. Each student will be expected to turn in a final research report based on readings and research. The final research report will consist of a family tree and a discussion of family development based upon the ideas presented in the course discussions and the readings.

HC 194
ORGANIZATIONAL COMMUNICATION: PERSPECTIVES AND TRENDS
Undergraduate
The study of organizational communication can be important to you for it can improve your understanding or organizational life, provides you with an awareness of important communication skills in organizations, and perhaps starts you on a path to a career in the field. Organizational communication is a complex and continuous process through which organizational members create, maintain, and change the organization. Two important issues associated with this definition: First, it is important that all organizational members participate in this process, and second, shared meaning is not always achieved in organizational settings. Certainly, the process is mutual, and understandings are created, however, the interpretations created or derived from these interactions may not be mutual among all members of an organization. There are at least three different perspectives of organizational communication: traditional, interpretive, and critical. These perspectives differ in the ways that they study organizational communication and in the assumptions that they make about the nature of organizations. The traditionalism has evolved from an early form into a different contemporary form. Early traditionalism understands organizations as machines and regards communication as a machinelike process. Recent traditionalism sees organizations as living systems and communication as a dynamic, organismic process. Interpretivism and critical theory have developed as serious alternatives to the traditionalist study of organizations. Interpretivists are concerned with the symbolic processes through which organizational reality is socially constructed, and critical theorists are concerned with the relationship between structure and symbolic processes in the efforts to criticize oppression and the systematic distortion of organizational communication.

HC 195
GRANDPARENTING: AN INTERGENERATIONAL DEVELOPMENTAL PROCESS
Undergraduate
In this course, we will explore how generations of a family interact with one another, how these relationships effect the different generations, and how cultural factors and public policy influences the interactions. We will explore intergenerational relationships from the perspective of developmental psychology, public policy, finances, public health, cross cultural studies, literature and the arts. At the same time as more grandparents are becoming the primary caretaker for their grandchildren and the number of great-grandparents is at a record high, the traditional roles of each generation is under great change. Some of the questions to be addressed through concise lectures, readings, group project, interviews, and individual project are: How can intergenerational interactions stimulate development throughout the life span? How can the nurturing across generations be balanced with the independence of the individual? What are the implications for workplace policies, public policy, and community health? How do different cultures respond to intergenerational interactions? How do the arts (literature, fine arts, music, and cinema) reflect the value of intergenerational relationships? How can what we learn from this inquiry help us understand our own relationships across generations?
HC 196
ECONOMICS BY EXAMPLE
Undergraduate
This course utilizes a novel pedagogical approach to introduce concepts and theories that form the core of the principles of economics. Instead of relying on graphs and mathematics, 'Economics by Example' follows the text by the same name to frame hot topics such as globalization, outsourcing, immigration, environmental policy, big-box retailing, and internet piracy in a way that provides an inviting and accessible understanding of economic theory. The same refreshing treatment is given to more traditional topics such as efficiency, the maximization principle, the concepts of tradeoffs and incentives, and consumer choice in the context of the market mechanism. The learning experience is based on the analysis and discussion of real-life applications that show students the pervasive impact of economics on everyday life while familiarizing them with important concepts.

HC 198
JUVENILE JUSTICE: IS IT WORKING?
Undergraduate
This course will explore juvenile justice through a sociological lens that encompasses legal, ethical, institutional, racial, gender and economic perspectives. The course will address the foundation and origin of the juvenile justice system in Illinois and its role as pioneer in juvenile justice throughout the United States. We will examine the various entities responsible for the implementation of juvenile justice including the challenges and obstacles encountered in pursuit of intervention and prevention of juvenile delinquency. A network of professionals dedicated to working with and supporting juveniles involved in the system will speak to how the key institutions interact, combat and collaborate with each other and the impact those dynamics have on the juveniles, their families and communities. The methodologies and efficacy of responses to delinquency such as punishment, incarceration, rehabilitation, substance treatment and re-entry will also be considered. The class will take on such questions as what contributes to juvenile delinquency, how is juvenile delinquency defined, how does it differ amongst communities, how did we get here and what does the future of juvenile delinquency look like in Illinois?

HC 199
MANIFESTATIONS OF BELIEF: RELIGION VS. THE CONSTITUTION DURING THE HOLIDAYS
Undergraduate
The United States Constitution guarantees freedom of religion to its citizens. What is freedom of religion? How is this basic right interpreted? How far can the individual citizen go in demonstrating religious belief? When do the rights of the many supersede the rights of the few? These questions have been particularly prickly over the last few years when objections to the recitations by school children of the Pledge of Allegiance, and the display of religiously oriented holiday decorations have made national news. Where do you fall on these issues? Is it OK for New York City to have a big Xmas tree in Rockefeller Center? Do you mind if your neighborhood church displays a creche on its front lawn? What about the town hall? In this course, students will examine holiday displays around town and assess their relation to freedom expression and freedom of religion. Students will also consider the nature of free societies, their relationship to community values, and the ways in which difference is valued, or not valued, in contemporary American culture.

HC 201
NEGOTIATING CONTRACTS: STRATEGIC, LEGAL, ETHICAL, AND MODERN TECHNOLOGY CONSIDERATIONS
Undergraduate
In this course, we will examine the processes of managing perceptions and communicating. We will delve into the realm of analyzing our world as we perceive it and the art of entering into the realm of another's perception. We will utilize "four agreements" as a method of managing our perceptions and the perceptions of others, and as an approach for communication. In learning to communicate with others we will utilize a technique called "matching." We will examine the development of contract law. We will cover the basics of contract formation: offer, acceptance and consideration. We will identify which contracts require to be in writing. We will examine the remedies available when a contract is breached. We will review various examples of contracts to evaluate the practical application of what we learned.

HC 202
MANAGING A CONSULTING PRACTICE
Undergraduate
This course presents the fundamentals of management as applied to the consulting profession. It introduces consulting in the following disciplines: strategic management, information technology, financial management, marketing and distribution, E-Commerce, operational management, human resources, knowledge management, change process management, production and performance improvement, total quality management, companies in transition, small business development and the public sector. This course is divided into five parts: (1) Management Consulting in Perspective; (2) The Consulting Process; (3) Consulting in Various Areas of Management; (4) Managing a Consulting Firm and (5) Developing Consultants and the Consulting Profession. Students will closely examine the consulting industry by looking at associated costs and fees, barriers to entry, implementation of projects, assignment management, action planning, marketing, quality management, how to expand internationally, the issues facing international expansion and how to structure a consulting firm. A total of 20 cases including Harvard and Stanford cases will be reviewed which will provide a broad range of topics and critical thinking pertinent to current management consulting. These cases will illustrate major practice areas of consulting and afford new insights into change processes and other management issues facing consulting firms.
HC 203  
LIVING AND WORKING IN A GLOBAL ENVIRONMENT  
Undergraduate  
This course will address dilemmas and opportunities that individuals may encounter as they work or study in multicultural and global environments. The purpose of this course is to increase the effectiveness of individuals in identifying, understanding and managing cultural differences in the workplace as well as outside of it. A variety of learning methods will be used, including lectures, readings, case studies, videotapes, critical incidents, and small group research and presentation. Guest speakers will be invited to share their experiences with the class.

HC 204  
CULTURE AND GENDER  
Undergraduate  
In this course students will gain knowledge on how culture and gender is defined; how we view men and women and our assumptions, expectations, of them; and explore how our cultural make up influences these assumptions and expectations. Finally, students will consider the role culture and gender has played in their own lives, as well as, the importance it has had thus far.

HC 205  
NONPROFIT MANAGEMENT  
Undergraduate  
This course will explore the American approach to the management of nonprofit organizations. Topics will range from issues of leadership to those of operational implementation. Basic concepts, research and theories on nonprofit organizational behavior will be introduced to assist students in learning principles and techniques for developing and managing financial and human resources. The contrasting roles of staff, volunteers, managers and trustees will be examined to develop an understanding of how, in the American system of nonprofit management, each contributes to framing and achieving a nonprofit organization’s mission.

HC 206  
US CITIES: BANNED IN BOSTON  
Undergraduate  
Boston is ambiguous. It is a world class city from a cultural and educational perspective, but diminutive when considering the standards set by New York or LA. It is rich and expensive, but poor in economic growth and population. It is the go-to place for American history, but is also eclipsed by more famous locales such as Ellis Island and Washington DC. It has an ocean at its front door, but then so does Honolulu, where the weather is generally better! No matter where you were born, if you live in America, you have been influenced by Boston and its tumultuous history.  John and Abigail Adams, Alexander Graham Bell, Oliver Wendell Holmes, and John Kennedy lived for a time in Boston, as did Emily Dickenson, Robert Frost, Ben Affleck, Malcolm X, and Aerosmith. The list of famous Bostonians is quite long, indeed. What makes Boston and Bostonians tick? What does ?banned in Boston? mean? Who were the Cabots and the Lodges anyway? In this travel course centered on this most pivotal of US Cities, learners will walk the freedom trail, visit Boston’s most famous art collections, and its equally famous North End. Issues such as Boston’s immigrant populations, its fame as a seat of American higher education, its connection to events in American history, and its economic output will be discussed.

HC 207  
MEDIASMART-UNDERSTANDING AND DEMYSTIFYING AMERICAN MEDIA  
Undergraduate  
This course will focus on the principles of media literacy, with a secondary emphasis on media’s effects on society, culture and the individual. We will learn how to analyze, evaluate and create messages in a variety of media channels (television, newspapers, magazines, internet, radio, etc.) and formats (news, entertainment, advertising, etc.). We will learn about the business of media, its role in a democracy and how it represents gender, race, social class and sexual orientation. We will read books and articles; view television programming; examine newspaper and magazine articles; analyze websites. Students will “deconstruct” media in order to better understand how messages are constructed and designed to influence their attitudes, beliefs and behaviors. The course is designed as an interactive learning experience, where students and the instructor learn from one another. Students will leave the course more savvy about American media and the thousands of messages that are communicated to them everyday.

HC 208  
THE HEART OF THE ENTREPRENEUR  
Undergraduate  
Entrepreneurs are an integral part of a thriving economy yet the aspects of successful entrepreneurship remain a mystery. This course takes a detailed look at the characteristics of successful and unsuccessful entrepreneurs, enabling the students to acquire a personal understanding of what it takes to start a new business venture. This course is interesting, fun and rewarding especially for those interested in starting their own business. Ed Paulson is a Silicon Valley insider, successful entrepreneur and published business book author.

DePaul University  
Winter/Spring/Summer 2013- 2014  
Page 773 of 1539
HC 209
USING FINANCIAL INFORMATION
Undergraduate
This course introduces the student to the principles of financial theory and the world of finance. The course covers several concepts and surveys the roles of relevant institutions. In the conceptual part, students will learn about financial instruments and techniques used in financial decision making (time value of money, cost of capital, capital structure). In the survey of relevant institutions' roles, the students will form a basis for understanding causes and effects in the changing global environment. The interrelationships between decisions of business, financial institutions and individuals will become evident, enabling the student to better understand current events in finance.

HC 210
PRINCIPLES OF MARKETING AND RELATION TO ORGANIZATIONAL LEADERSHIP
Undergraduate
This course will provide a better understanding of both the principles of marketing and the importance of organizational leadership in successfully executing a marketing program. We will learn both marketing principles and practical applications within a commercial organization. The main objective is to provide “non-marketers” with an overview of the marketing function, the construction and development of a marketing plan, and an understanding of how the marketing department must integrate itself within the organization. Additionally, we will gain a better understanding of organizational leadership and followership strategies for humanizing both the workplace and the marketing department.

HC 211
LIVELIHOOD, WORLD TRADE, AND FOOD SECURITY
Undergraduate
The creation of corporate wealth affects the livelihood and well-being of millions of people. In this course we examine what guides corporate decisions, and whether or how they are supported by political structures or institutions. We start out by developing a notion of social and individual welfare and discuss corresponding ways of living and working. Equipped with this perspective we analyze the values implicit in the global economy, and how it structures people’s daily working and living. We examine what it means to work for one of the corporate giants, and how international trade organizations have created an invisible government that affects the sovereignty of nations and their citizens. In particular, we investigate how the agbiotech industry ties the power of genetic engineering to the mandates of a global financial system. The question whether we have the wisdom to play God and reshape the essence of life underlies our discussion of transgenic food production. This course requires substantial amounts of readings, three short response papers, and a presentation that is part of the final paper.

HC 212
GLOBAL LEADERSHIP
Undergraduate
Leading global and domestic organizations requires understanding, appreciating and managing the impact of culture and the interplay of cultural patterns in everyday interactions. To be successful, leaders must be able to interpret complex cultural contexts and develop intercultural competence, not only in themselves but in the people they lead and the other organizations they work with. Developing intercultural competence is an ongoing endeavor that requires stretching one's thinking to adopt new cultural perspectives regarding others' values, attitudes and behaviors. But it is not an end in itself: intercultural competence is the basis for successful social interactions and business communications, which are especially important in today's "flat" world. "Global Leadership at Home and Abroad" will explore the demand for and ways to develop this distinct skill set among leaders so they can establish communities and initiate change across diverse groups of stakeholders.

HC 213
THE UNITED NATIONS AND INTERNATIONAL CORPORATIONS
Undergraduate
Students in this course will study with students at University Panamericana in Mexico City and in Guadalajara, Mexico and with business experts at the United Nations in New York City via video conferencing. UN experts will discuss major global business issues including labor rights, human rights, the environment, corporate responsibility, and collaborations between NGOs and international corporations. In the second half of each class, SNL students will exchange ideas and views with students in Mexico City and Guadalajara via video conferencing. Students will learn business writing format in several short papers. Each UN discussion will be video taped and posted on DePaul iTunes for review.
HC 214
SOCIETY AND THE FAMILY, PLOTTING THE FUTURE
Undergraduate
In history, families have been defined as mother, father, and children. In our current experience, more families differ from that model than comply with it. Family structure is evolving. Missing fathers, Single parents, and Blended families are only a few of the changes to the family structure that have occurred with some significance beginning in the 1960s. In this course, learners will pursue the following questions: What influences family structure? Do economics and education make a difference? Are race and ethnicity important factors? What about gender, personality and religion? Is the two parent family necessary? What role do grandparents and great grandparents play in the changing family? Perhaps the most important question we can ask about the family is what comes next. What are the many ways in which families might be redesigned in the future?

HC 215
WHO'S LYING TO YOU NOW?
Undergraduate
The purpose of education, said the authors Neil Postman and Charles Weingartner (“Teaching as a Subversive Activity”) is to give students a built-in “crap detector.” Do you have one? And if you do, is it sounding shrilly night and day? This class will offer students several frameworks for critical thinking and media literacy. We’ll look at who is lying to you and where the lies are coming from. We’ll look at prominent sources of messages from the worlds of advertising, politics and public life. We'll look at topics such as what is a “fact,” transparency on the Internet, who gets to be an “expert spokesperson,” and how to recognize your own biases and assumptions. It may be hip to be cynical, but too much cynicism corrodes democracy and keeps us from participating in our communal life. This class will use a variety of media, lecture and visits from real experts on the subject of fraud, messaging and propaganda.

HC 216
LAW AND CHANGING FAMILY DYNAMICS
Undergraduate
The course explores the factors and impact on families that attempt to navigate the many transformations and adjustments that occur when parents redefine their relationship. Such changes in the parenting relationship often find these families “bumping up” to the legal system in pursuit of direction, closure and stability. The consequences and outcomes of being involved in the legal system can be complicated and complex often times resulting in ongoing physical, emotional and financial distress. The struggle in finding ways to redefine the relationship within societal expectations and mores, ensuring the well being and best interest of the children and finding effective and respectful ways to co-parent has proven extremely tricky and difficult for many families. Factors including economics, family system structure, sexual orientation, marital status, mental health, domestic violence as well as the emotional, physical, behavioral and learning needs of the children will be examined to better understand why some families are able to effectively problem solve and decision make to meet the needs and resources of their respective family. As we consider the numerous elements that contribute to how the post-traditional family manages, we will investigate approaches that help families break down barriers, recognize destructive influences and patterns, and provide opportunities to build a durable family structure that ensures children feel loved, cared for and safe.

HC 217
THE AMERICAN FOUNDING
Undergraduate
This course will explore what the framers themselves might have had in mind in crafting the founding documents, examining both the ideas on human nature and government of their intellectual forebears, the ways in which the framers applied those ideas to their own specific problems in founding the American regime and the experience of the post-founding generation in wrestling with the solution the founders devised. Contemporary debates about interpreting the Constitution tend to focus on either what the document says (“strict construction”) or how it might best be interpreted or applied for contemporary purposes (the “living constitution”). Less frequently considered are the ideas, models and images the framers had in mind about human nature and the character of government itself when they set about the task of founding the new nation. This course will review the founding documents with these issues in mind. It will begin with a survey of the major philosophical influences in the 150 years before the founding period, with excerpts from the writings of such figures as Hobbes, Locke, Montesquieu and Blackstone. Next, it will consider the framers’ own writings during the early revolutionary period leading up to the Declaration of Independence and the drafting and adoption of the Constitution. Finally, it will look at the post-constitutional debates regarding federalism, the separation of powers and slavery. Throughout the course consideration will be given to how useful these ideas are for the contemporary interpretation of the Constitution.
HC 218
URBAN HEALTH CARE
Undergraduate
This course will examine the health issues of people who live in large metropolitan areas generally, with a specific concentration on the treatment of the mentally ill. We will also look at the political economy of urban health care delivery. Many cities like Chicago are experiencing an increase in the numbers of individuals diagnosed with mild, moderate and/or serious Mental Illness. Often these individuals are dually diagnosed with Substance Abuse, TB and/or HIV/AIDS. This increase brings with it the exacerbation of social pathologies such as violence and homelessness. At the same time, the health care providers are consolidating, and many community treatment facilities have closed, putting additional strain on the public health care system. We will discuss the response of several large cities to these challenges and the relative influence of their own urban economics upon that response. Each class will be devoted to discussion and analysis of specific topics. The topics will be indicated in advance for each class. The course will be conducted primarily in a seminar format, which requires that each student come to class prepared to participate in the discussion.

HC 219
DEAD MAN WALKING: AN AMERICAN STORY
Undergraduate
Dead Man Walking, the non-fiction account of Sister Helen Prejean's experience on Death Row, has had a major influence on discussion of violence, poverty, civil rights, criminal law, and social justice in the United States. Her first hand description of accompanying a condemned man to death inspired a film, an opera, and a play. Her written work and activism have impacted decisions by Pope John Paul II, numerous governors; senators; prosecuting and defense attorneys; and families of victims and prisoners. Sister Helen has formed organizations to assist victims of crime as well as the families of the condemned. In 2011 she donated her papers to the archives of the DePaul University library. This spring, as the archive opens its first display, she will be on campus for a week to meet with students to discuss her work. In this course, we will study her work and make opportunities to spend time with her as we think through questions her works raise. Students may elect to participate in a dramatic reading of the play.

HC 220
WORLD RELIGIONS & INTERFAITH DIALOGUE
Undergraduate
This course is an introduction to world religions and interfaith dialogue in theory and in practice. It has three broad themes moving from the general to the specific: 1) a comparative study of the five, historical religions - Hinduism, Buddhism, Judaism, Christianity and Islam; 2) a survey of interfaith dialogue: its history, objectives and methods; and 3) an exploration of the interfaith movement in Chicago beginning with the Parliament of World's Religions in 1893 and ending with a close look at the practice of "interspiritual dialogue" pioneered by the late Brother Wayne Teasdale.

HC 221
FAMILY VALUES: PARENTING IN CULTURAL CONTEXT
Undergraduate
In this course participants will have an opportunity to think about their family values and goals for their children. Individuals will first reflect on how their own ethnicity, culture, gender, social class, etc. impacted their values and self development and identity. They then will collaborate with classmates to see if there is some consensus on shared or universal values. By listening to others value choices we better understand our own values and the challenges of putting our beliefs into practice. Participants can partner to help each other plan an interaction with someone with very different values e.g. talking to a fellow parent who believes in spanking. How can we do this in a respectful way?

HC 222
LANGUAGES AND CULTURES OF THE WORLD
Undergraduate
Language - culture touches many of the most vexing and intractable contemporary sociopolitical problems, and may very well be a pathway for solutions as well. Through selected discussions, presentations, and readings, students will confront the key issues involved in language-culture. The process will focus on self-discovery as the chief method of relating to and understanding the practical ramifications of a world with a variety of world views expressed through cultural and linguistic means. Students can expect to broaden their own horizons considerably as they participate in group discussions of contemporary issues and problems. Students will select and define a specific topic for research and present findings to the group. The linguistic - cultural skills acquired through group discussion, class interaction, and guided research will equip students for practical, empathetic living in the complex multi-cultural world of the 21st century.
HC 223
MONEY, FINANCE, AND CRISES
Undergraduate
Money has become such an integral part of our everyday life that we take its everyday use, whether physically or electronically, for granted. Yet the reach of money goes far beyond what we experience. Money is much more involved in the inner workings of the economy through the interaction of financial markets (bond markets, stock markets, foreign exchange markets, etc.) and financial institutions (banks, mutual funds, insurance companies, pension funds, etc.). Financial markets and institutions everywhere, and particularly in the U.S., influence the trillions of dollars that flow daily worldwide. Their impact on the welfare of nations and on the capacity of the economy to produce goods and services becomes evident when one looks at the Great Recession, which started in 2008. The goal of this course is to provide a working understanding of many issues through the study of money, banking, and financial markets.

HC 224
CREATING ADVERTISING
Undergraduate
The average American is bombarded with at least 6,000 advertising messages a day. While highly controversial, advertising is key to our consumerist and capitalist society. This course will focus on the basic principles of advertising, including media, creative development and production; the history of advertising; and the uses of marketing research to develop an advertising campaign. Students will read books, articles and view videos on advertising. They will be asked to write 2-3 short analyses of their reading assignments, and use the advertising encountered in everyday life for a series of 2-3 analytical assignments. There will also be a short paper on the advertising topic of their choice. The class will work in teams to develop and advertising campaign that will be presented during the last day of class. Outside speakers currently in the advertising profession will be invited to the class.

HC 225
DEVELOPING AND APPLYING EFFECTIVE LEADERSHIP SKILLS
Undergraduate
This course is designed to explore the research, practices, purposes and scope of leadership as a tool to develop leadership skills that will influence and inspire others. Both individual and organizational aspects will be presented and will include such areas as behaviors, ethics, communication, cultures and current practices. Emphasis will be on application of leadership theories and skill building through self-assessment exercises and case studies.

HC 226
CITY SHAPERS
Undergraduate
Chicago has been a city of "characters." This course will examine the lives of people who have made specific contributions to Chicago and its history as entrepreneurs, politicians, social reformers, artists, builders, and spiritual leaders. Key economic, political, and social developments in Chicago's history will form the overall framework for the study of individual contributions. When appropriate, comparisons will be made with individuals who shaped other urban centers. Students will gain a working knowledge of Chicago's history and culture in this course, and an appreciation of the men and women who shaped the city.

HC 227
FROM WORKSPACE TO PLAYSPACE
Undergraduate
Transformative learning is one of the most active new areas of adult learning practice and research. This type of learning centers on adults' experiences of significant shifts in their perspectives, ways of making meaning, and self-concepts as they engage in new learning and sometimes disorienting life experiences. It also includes the development of new capacities and positive changes that lead to increased freedom, flexibility, and confidence. This course is for anyone who is interested in being more mindful of transformative learning opportunities in their own life, and who wants to learn to make space for transformative learning in a range of educational and organizational settings in the role of educator, trainer, facilitator or manager. This is a highly participatory course where students will learn key theories of transformative learning as they reflect on their own learning experiences, and those of their learning colleagues. In addition to their own experiential learning and reflection, students will collaboratively develop strategies to guide such learning in their own work and practice settings.

HC 228
WOMEN IN CHINA: IMAGES AND ROLES
Undergraduate
This course will introduce roles and images of strong and virtuous women in China's history and compare them with those of their counterparts in contemporary China. Through readings, films, and discussions, students will learn about the positions of women in the Chinese society and the common issues that confront them today. We will assess the impact of traditional virtues and values? on Chinese women and explore how globalization is changing women in China now.
HC 229
CIVIL RIGHTS: A MODERN APPROACH
Undergraduate
What exactly are civil rights? Where do these rights come from and how does modern society deal with them? This course will deal with constitutional protections and safeguards currently called "Civil Rights". We will explore the role of government in these civil rights and how that role has evolved. Students will analyze various court decisions, current events and their own experiences in order to examine the relationship between government agencies (such as police and fire departments and boards of education) and citizens. The focus of this course will be on how modern society should handle civil rights issues which involve race, gender, disability, education, employment and privacy in the 21st Century.

HC 230
MINISTERING IN A WORLD OF CONFLICT AND INJUSTICE
Undergraduate
The service of faith is inseparable from the promotion of justice. In this course, students will learn about social justice issues in contemporary Africa, with particular attention to various types of conflict. Each student will also identify a social justice issue that is associated with their future ministry. They will explore that issue and examine how their ministry might address it. Particular attention will be given to specific strategies that they can put into practice. Since the process of addressing fundamental social injustices is often a lengthy and complex one, the students will learn about long-range strategic planning and the organization and management of resources. Each student will design and complete an independent learning project in this course related to their Focus Area. Through this course, therefore, students will develop and demonstrate their competence to analyze power relations among racial, social, cultural, or economic groups in Africa and to create strategies that could address those issues in their ministry.

HC 231
ORGANIZATIONAL PROBLEM SOLVING
Undergraduate
This course will integrate theories of organizations at different levels of analysis (micro/intra- and interpersonal, and macro/organizational), and a problem-solving process that managers and executives can use to identify and resolve organizational problems. Students will work through multiple cases of organizational problems at all levels in small groups and the entire class. They will learn to apply a 4-step process to diagnose and resolve organizational problems: 1) identify the problem; 2) diagnose root causes using the "Five Whys" technique; 3) identify possible solutions; 4) evaluate solutions and choose optimal one(s), taking into consideration likelihood of success and difficulty of implementation. Students will apply basic theories of Organizational Behavior (OB), including individual (motivation, satisfaction); interpersonal (group processes) and organizational (structure, process) to the situations.

HC 232
LEADERSHIP ACROSS THE GLOBE
Undergraduate
What makes a good leader? Are leaders influenced and formed by time and place or are great business, humanitarian and political leaders born to their destiny? What characterizes a good leader in our interconnected world and what leadership lessons can we learn from the past? Globalization has become the buzzword of the early 21st century. To some, it is a curse manifested in economic outsourcing, destruction of the rain forest, exploitation of low-wage workers by multi-national corporations, human rights violations, and environmental degradation. Proponents, however, would argue that globalization, a phenomenon that has been going on since recorded history, has produced great benefits to many around the world. Why has a word that has been in our English vocabulary for little more than the past 40 years recently become such a polarizing term, often a focal point of hostile passions that have erupted in violent protests? What exactly is globalization? Where did it come from and who led us here? Why is it seemingly everywhere? What do we need to learn and do to thrive as citizens and leaders in the global community? These are just a few of the questions we will address in Contextual Leadership. Students in this course will examine the phenomenon of globalization, the special challenges that globalization poses to each of us, and identify and demonstrate the lessons you have learned that are relevant to the creation of your own leadership development plan.

HC 233
CHRISTIANITIES: ANCIENT, MODERN, GLOBAL
Undergraduate
A close reading of the New Testament reveals a diversity of beliefs and practices that developed when people of different cultures accepted the preaching of early Christian missionaries. The engagement of later Christian communities with an even greater variety of cultures has contributed to the spread of various ideas, practices, and institutions--religious and secular--to many parts of the world. Meanwhile, local and regional expressions of Christianity reflect the influence of the cultures with which they have interacted. This course will identify some of these varied expressions of Christianity and will explore the development of "modern" culture both as a consequence of, and a reaction to, the dominant role of Christian beliefs and practices in many European cultures. We will also consider the impact of the rejection of modern values by some believers, which has led to profound divisions within many Christian denominations. The course will investigate how Western Christianity may have contributed to the various cultural phenomena that are associated with globalization. At the same time, we will also address the criticisms of globalization by many Christians and communities of Christians throughout the world. Competences: A3X, H2X, H3G, H5. Faculty: Kevin Buckley
**HC 234**  
**GREAT MILITARY ENGAGEMENTS OF THE 19TH & 20TH CENTURIES: STRATEGIES, PERSPECTIVES & IMPLICATIONS**  
*Undergraduate*

This course covers and brings into focus the strategies, perspectives, and implications of key American military engagements of the nineteenth and twentieth centuries. The specific engagements covered are the Texas War for Independence, the Mexican-American War, the American Civil War, World War I, World War II, and the Korean War. Landmark battles from the above mentioned conflicts will also be covered. These battles include the Alamo, Veracruz, Gettysburg, Meuse-Argonne, Pearl Harbor, the Battle of the Atlantic, Midway, Ploesti, Leyte Gulf, and Inchon. These engagements will be discussed and analyzed in the context of their impact on the course of American and world history, as well as in relation to their political and social ramifications. The course also explores aspects of military thought and theory, along with strategic principles of warfare.

**HC 235**  
**CHILD, FAMILY AND COMMUNITY RELATIONS**  
*Undergraduate*

This course addresses the work of caring for children from a variety of perspectives. It is designed for students currently employed or planning to work in childcare settings, and for those who want to learn more about the social, cultural, and economic dimensions of (paid or unpaid) caring work. We will therefore examine how cultural differences influence child-raising patterns, and how positive and productive working relationships with families within the context of the urban community need to take these differences into consideration. We will also discuss the many different skills and responsibilities that comprise all types of caring work, and examine why caring work receives very little public or corporate support. We will identify the values and ethical beliefs that would make it a shared social responsibility, and that would productively acknowledge the interdependence of state policies, markets, communities, and families.

**HC 236**  
**US BUSINESS AND THE POLITICS OF TRADE**  
*Undergraduate*

Understanding the relationship between U.S. business and government in the creation and execution of trade policy is more important than ever. In a period of intense economic change, financial instability and changing power structures, we should have a greater appreciation for how interest group politics affect decision-making in the United States and abroad and how policy choices are made. With the rise of emerging markets such as Brazil, Russia, India and China (BRIC), the United States and Europe no longer fully control global institutions like the World Trade Organization. The traditional key players in the international marketplace - and the businesses originating in those countries - must adapt to new challenges, opportunities and commercial flows in order to ensure successful global business. In this class, we will examine why individuals and countries engage in international trade and what are the benefits and challenges created by import and export flows. We will determine how business and government in the United States have interacted over time to create policy and adapt to changing economic realities. We will look at the challenges U.S. businesses have confronted in marketing products and investment abroad. And we will explore the programs and policies the U.S. government has adopted to address those overseas challenges, taking into consideration the priorities and ideologies of a range of domestic and overseas stakeholders. We will compare the U.S. public-private partnership model and interplay with those of selected foreign countries.

**HC 237**  
**EFFECTIVE INTERPERSONAL COMMUNICATION IN THE WORKPLACE**  
*Undergraduate*

This course will help students identify important dimensions of interpersonal behavior and the shapes that two-person relationships can take. Major causes of unhealthy relationships will be examined. And ways interpersonal participants can act to improve the health of their relationships will be considered. Specifically, this course will examine the role of perception in communication, the uses and misuses of language, nonverbal communication, the dynamics of interpersonal communication, and the management of conflict. The course will be a mix of theory and practice. Major concepts relating to interpersonal communication will be explained by tying them to concrete examples.

**HC 238**  
**LATIN AMERICA IN A GLOBALIZED WORLD**  
*Undergraduate*

Where is Latin America as a region headed? This course will begin with an historical overview of the Latin American continent focusing on class structure, racial/cultural dominance, economic development, church-state relationships, and the role of the military in government. Students will investigate how Latin American countries are negotiating the challenges of globalization in four areas: technology, trade, migration and culture. They will assess the extent to which their institutions and international alliances facilitate or hinder individual countries to meet these challenges for the benefit of their people and their society.
HC 239
GLOBALIZATION: WINNERS, LOSERS AND SOCIAL JUSTICE
Undergraduate
This course begins by exploring several definitions of globalization as a contemporary system that defines and names our current world. It then focuses on major beneficial and harmful effects of globalization in four areas: societies around the world, developing nations, the United States and social justice. Topics include the role of globalization in trade, culture, local economies and multinational corporations. Students will research and discuss the beneficial and harmful aspects of globalization and examine statistics, then formulate their own informed opinions. Each module is addressed during two weeks of BlackBoard discussions: in the first week of each theme, half the class presents the beneficial aspects of globalization and the other half presents the harmful aspects of globalization. In the second week's discussion on each theme, after students read arguments from the opposite perspective, they will express and support their own analysis. The course concludes with an analysis of the affect of social justice and corporate social responsibility on globalization.

HC 240
SOCIALLY ENGAGED SPIRITUALITY
Undergraduate
Transformative ministry requires that ministers develop and sustain a holistic spiritual practice that is personally meaningful. An effective personal spirituality deepens one's engagement in society and collaboration with others. In this course students will explore holistic models of spirituality for personal and social transformation. They will develop the skills necessary for collaborative ministry and for cooperation with others for the sake of integral human development. Through this course, therefore, students will develop and demonstrate their competence to explore a model of spiritual development and apply it to oneself or others and to learn collaboratively and examine the skills, knowledge, and values that contribute to such learning.

HC 241
MINDFUL EATING, CONSCIOUS LIVING
Undergraduate
Obesity, eating disorders, and a range of psychological distress and dissatisfaction related to physical appearance and body image are approaching epidemic proportions in our culture. Despite having more knowledge and easily accessible information about how to eat, what to eat, and when to eat, the problem is not going away. While the greatest impact of these problems is on the individual, they also affect family members, friends, co-workers, and our society at large. The obsessive search for perfection has spawned a plethora of new products and procedures in the fields of medicine, pharmaceuticals, nutrition, holistic healing, cosmetics, fitness, and food marketing, which inundate and overwhelm consumers who are eager for quick fixes at any cost. At a time when medical costs are sky-rocketing, our society is losing the battle with obesity, the number one (and most controllable) underlying cause of costly and life-threatening illnesses. The first part of this course will examine the role cultural beliefs, norms and social institutions play in this ever-increasing problem. Specifically, we will study how marketing, mass media and the advertising industry influence our beliefs and behavior and undermine our ability to make thoughtful choices in general, but particularly when it comes to food choices and eating behavior. The second half of this course will be devoted to studying and utilizing mindfulness practices (meditation, imagery, relaxation, mindful eating, etc.) specifically designed to enhance awareness, provide insight, and transform our beliefs, attitudes and relationship with food. Becoming fully conscious of the decisions and choices we make about food and eating opens the door to conscious living in all areas of our lives.

HC 242
ACTING UP - USING THEATER & TECHNOLOGY FOR SOCIAL CHANGE
Undergraduate
Theater and political protest. Media activists and anti-globalization. Online Flash movies for sustainable development. Hip Hop and voter registration. These are just a few of the ways art and social change are coming together. Technologists, artists and activists are blending their approaches, strategies and tools in a creative stew for progressive social change. This class will examine how social change activists are using theater and technology to achieve their change agendas.

HC 243
STRESS MANAGEMENT AND BEYOND: WELLNESS AS A WAY OF LIFE
Undergraduate
This course begins with an examination of the role stress plays in our lives, but is primarily focused on creating wellness in human systems. In addition to exploring causes and effects of stress, students will study the connection between stress (illness)/wellness and a variety of human needs, conditions, functions, faculties, behaviors, and modes of expression. The course provides students with the opportunity to assess their placement on the illness-wellness continuum and to investigate the beliefs, behaviors, and habits that prevent them from expressing their highest potential and realizing optimal health. Classes are highly experiential and designed to introduce students to a variety of practices and techniques for enhancing awareness, managing stress and increasing overall health and wellness.
HC 244
FACILITATING ORGANIZATIONAL CHANGE
Undergraduate
The changing capabilities of today's companies rest in the quality and competence of all employees. Effecting change from a holistic perspective requires change agents get to the root cause of problems and consider cross-functional and interdisciplinary approaches to solving business problems. The emerging demand for effective management raises several questions: What is it that we do well or should do better? How can we be more responsive to market needs? How can we do things right the first time? How can a holistic approach to change allow more effectiveness in addressing business challenges. Through readings, case studies, lectures, discussion, guest speakers, group projects and written assignments, students will examine holistic approaches to change, assessing organizations and their external environments, manager's roles, and the implications of diversity and technology.

HC 245
COMMUNITY-BASED, FAITH-BASED AND NON-GOVERNMENTAL ORGANIZATIONS
Undergraduate
During their professional ministries, students will work with or for many different types of community-based, faith-based, non-governmental and international organizations. The more students understand about how such organizations are structured and function, the more effectively they will be able to collaborate with them and carry out their own ministries. In this course, students explore different models for organizing, managing, and leading such organizations. They will examine topics related to mission, governance, accountability, and resource development. They will investigate particular opportunities and challenges that such organizations face in Africa today. Through this course, therefore, students will develop and demonstrate their competence to identify an organizational problem and design a plan for change based on an understanding of change theories or models and to use two or more organizational theories in the analysis of one's experiences in an organization.

HC 246
LANGUAGE AND LANDSCAPE
Undergraduate
This class explores questions about language and its interconnection with the world; how language shapes culture; how intercultural miscommunications occur; how landscapes and unique environments have changed through immigration, migration, colonization, and globalization. In the first part of the class, we will examine living languages, as well as some of the world's threatened and dying languages, which, if trends continue, will likely decline from 6,000 still spoken today to approximately 500 by the end of the 21st century. We will examine how language shapes our understanding of the world, and how this can vary as a result of landscape. We will explore how language interacts with landscapes in the evolution of unique and varied worldviews. In the second part of the class, we will widen our scope and consider the changes in the landscape and our linguistic understanding of the landscape.

HC 247
ALL THAT JAZZ
Undergraduate
George Gershwin said that Jazz has contributed an enduring value to America in the sense that it has expressed ourselves. In this course, we have an opportunity to become familiar with the figures and genres associated with classic and current Jazz. Class time will include listening to recorded examples from major currents in the history of Jazz. Time will also be allotted for presentations concerning the present Jazz scene in Chicago, as well as the future of Jazz. Emphasis will be on the values expressed in this classic art form, and the perceptions and place of Jazz today.

HC 248
THE TRIPLE AXIS: RACE, GENDER, AND CLASS IN THE UNITED STATES.
Undergraduate
We will explore how issues of race, gender, and class have intersected in struggles for equality in the United States. Our exploration will range from the struggle for racial equality to the struggle for gender equality. Stereotypical thinking, cultural and class labels, and unexamined assumptions often play a pivotal role in the power relationships that have characterized these struggles. We will look at social, political, economic, and cultural factors that have influenced our behavior and contributed to our self-perceptions and our views of others.

HC 249
NONPROFITS: A GUIDE TO A MULTI BILLION DOLLAR BUSINESS
Undergraduate
In the wake of the East Asian Tsunami, Hurricane Katrina and cuts in federal programs, the nonprofit sector has increasingly played a significant role at the local, national and worldwide level. A multi-billion industry, nonprofits provide essential services in many forms including education, enhancement of the arts and social welfare programs. This course explores the role of nonprofits in the US, the practical methods nonprofits employ and the differences in working in and managing a nonprofit organization from a for-profit venture. Using hands-on case studies and learning from nonprofit managers, students will demonstrate competencies through class participation, each student will have the opportunity to create a nonprofit business plan and examine emerging issues in nonprofit management.
HC 250
OCCUPATIONAL ANALYSIS & CHANGING LABOR MARKETS
Undergraduate
What are the elements of modern occupations, and how do they shape the development of emerging labor and educational markets? Knowing the past and present contours of contemporary work roles is crucial to judging the future shape and stability of labor and occupational markets. Students in this course learn the basic tenets of occupational analysis: The identification of work roles, their organizational or institutional function, and the potential each holds to generate or resolve conflict. We examine key current and emerging labor market conditions as a context for changing occupational and education norms and indicators. Students apply theoretical knowledge to the contemporary conditions of at least one labor market sector, analyzing selected qualities of its occupational base.

HC 251
GLOBAL PERSPECTIVES ON WOMEN'S HEALTH: A MULTIDISCIPLINARY APPROACH
Undergraduate
Why are the risks and outcomes for breast cancer in the U.S. different for women from different racial and ethnic backgrounds? What are the factors influencing the infant mortality rate in poor countries? Do you differ from factors in the U.S.? What factors contribute to high maternal mortality in poor countries? How does women’s work influence their health in Viet Nam or India? Is domestic violence primarily a problem in wealthy nations? These kinds of questions have complex, and not always complete answers, and they represent the kind of inquiry undertaken in this course. We will examine health issues for women in various locations around the world, and the underlying factors contributing to these problems. By doing so, we further our understanding of how biological factors interact with behavioral, social and environmental factors to shape our experience of health, how this is related to development, and the need for social action. Learning experiences will include presentations/discussions, readings, cooperative group activities, and reflective writing.

HC 252
TOPICS IN AFRICAN-AMERICAN HISTORY: CULTURE, PROTEST AND THE MEDIA
Undergraduate
This course will cover various topics in primarily 20th century American History from an African-American perspective. Students will be asked to participate in course discussions and read from selected articles and books in three broad areas that include the impact of African-American literature and art on American culture, resistance, protest, and strategies for political and economic change, and the historical interplay between African-Americans and the US media. Course readings will be supplemented by videos and recordings and one field experience.

HC 253
FAMILY LIFE: THE PAST, PRESENT AND FUTURE OF FAMILIES
Undergraduate
In history, families have been defined as mother, father, and children. In our current experience, more families differ from that model than comply with it. Family structure is evolving. Missing fathers, Single parents, and Blended families are only a few of the changes to the family structure that have occurred with some significance beginning in the 1950s. What influences family structure? Do economics and education make a difference? Are race and ethnicity important factors? What about gender, personality and religion? Is the two parent family necessary? What role do grandparents and great grandparents play in the changing family? Perhaps the most important question we can ask about the family is what comes next. What are the many ways in which families might be redesigned in the future? How do these changes impact individuals in society? Competences: H4, H3X, A3A, FX. Faculty: Kenya Grooms

HC 254
THE CONSTITUTION: THAT DELICATE BALANCE
Undergraduate
This course examines the U.S. Constitution as the institutional framework of our government, with primary focus on the separation of powers and checks and balances provided to prevent one branch of government from dominating our government. The constitutional tensions created by this system of government are illustrated by the Watergate and Iran-Contra scandals and by a study of the war-making powers of the Executive and Legislative branches. Students will learn through the use of lectures, student research presentations, assigned readings, and the viewing of a series of videotapes dealing with course topics.

HC 255
DIMENSIONS AND IMPACTS OF CULTURAL DIVERSITY
Undergraduate
This course offers the opportunity to question the meaning of individual and group differences, and to assess and diagnose related social problems while investigating ways to address and, hopefully, consider solutions for them. Students will review critical issues such as those of social power, privilege, and aggressions impacting diversity. Students will develop and apply leadership skills along with multicultural competences in career development as well as counseling and advocacy in difficult social situations. They will have the opportunity to share their experience or knowledge in one or more key areas of diversity. The emphasis is also on assessing the implications of one’s cultural origination, gender issues, sexual orientation and more. Students will gain and demonstrate the competences through classroom projects and activities, weekly written assignments, and discussions.
HC 256
FUNDRAISING FOR NONPROFITS
Undergraduate
This course will provide students with an overview of the core concepts and skills involved in creating a not-for-profit organization’s development program. This will include discussions on how one develops, implements and assesses a strategic fundraising plan. The purpose of this course is to help students: Increase knowledge of the ethics and philosophies of fundraising; Gain information regarding the methods utilized to raise funds for not-for-profit organizations; and, develop an understanding of how to manage the nonprofit fundraising process. Field trips and guest speakers will provide opportunities for students to meet people active in grant writing and grant making. Each student will write a funding proposal during the course.

HC 257
PARTICIPATION AND DEMOCRACY IN AMERICA
Undergraduate
This course studies a famous question of American democratic theory: why don’t more Americans participate in the political process? Different forms of participation will be discussed, with a primary focus on voter turnout. We will investigate some famous proposed answers including individual scarce resources, social-psychological factors and legal-institutional barriers. Special attention will be paid to inequalities in participation and the ongoing 2008 elections. Students will have the option of participating in the latter as one of the course competencies.

HC 258
MULTICULTURALISM AT SCHOOL: WHAT YOUR CHILDREN LEARN ABOUT WORLD CULTURE
Undergraduate
Possible topics include: 1) The difference between traditions and values; 2) How schools handle multiculturalism; 3) How kids grasp “difference;” and 4) Defining the dominant culture and discussing how it handles new, or minority values.

HC 259
CHICAGO POLITICS: IT “AIN'T BEAN BAG!”
Undergraduate
This course will introduce students to Chicago's political institutions: City Hall, the city's system of 50 wards, its current aldermen and women, its city council, its mayor, its elections, and its raucous history of scandals and reform movements. Students also will explore the history and exploits of some of Chicago's most memorable mayors and political "bosses" from Long John Wentworth, who guided the city during the civil war; Carter Harrison I, who presided over the 1893 Columbian Exposition, Big Bill Thompson, who encouraged and protected bootleggers; reformer Anton Cermak who stood as a "reformer" against the mob, only to be assassinated; Ed Kelly who rebuilt the Democrat "machine" during the 1930s Depression and 1940s War Years, and built the subways; "Boss," Richard J. Daley, who directed Chicago's post-war building and highway boom that made Chicago into a national urban "model"; Jane Byrne, the city's first and only female mayor, who beat the "machine" of which she was once a prominent member; Harold Washington, Chicago's first and only African-American mayor, who brought a sense of racial justice to the city after decades of discrimination; Richard M. Daley, whose public works and "education reform" agenda elevated Chicago to "world-class" city status; to Chicago's newest mayor.

HC 260
THE CHRONIC ILLNESS EXPERIENCE: PERSONAL, MEDICAL AND PUBLIC PERSPECTIVES
Undergraduate
Through readings, observation and analysis, interviews, and reflection, students examine the internal experience of chronic illness as well as the challenges patients with chronic illness face in the workplace, the community, and within institutional health care settings. Students are asked to examine ethical issues involving class, socioeconomic, and social justice as they pertain to biological understanding of chronic illness, and are also asked to evaluate organizational and community responses to chronic illness in an effort to promote respect and tolerance for patients with chronic illness.

HC 261
THE JOURNEY OF LEADERSHIP THROUGH ANCIENT GREEK LITERATURE
Undergraduate
Leadership is a journey. Odysseus, a well respected leader in the ancient Greek literary world, portrays leadership in the Trojan War that can be used today. To read Homer?s Odyssey as a high school student is to read an adventure story; to read it as an adult student is an opportunity to read it as a story of a personal journey of leadership. Reading ancient epic literature such as Homer?7s Odyssey in a leadership course allows the student to read through the lens of leadership, pulling contemporary lessons and ideas from this classic epic. This course provides an opportunity to read, reflect and discuss the many lessons that can be found in classic literature. A close reading of Homer?7s Odyssey, along with other articles on myth, archetypes, and leadership theories and practices, will allow the student to align their current leadership practices to ideas formed by Homer and expand their thinking in the arena of leadership. Reflecting on these readings, along with some structured journal exercises, will create alignment between what is often thought to be ?old? text, generating new ideas on how leadership lessons can be applied to contemporary issues. The student will be able to apply these ideas to various leadership roles at work, at home or in their communities. Competences: A1X, H1X, H3X, FX. Faculty: Lori Neblung
HC 262  
**INTRODUCTION TO ARCHITECTING SYSTEMS**  
Undergraduate  
This course teaches general principles, approaches and ways of thinking about architecting and building complex systems such as buildings, computer systems, aircraft, telecommunications networks, development methods and similar systems. We will use a combination of lecture, discussion, storytelling, experiential simulation and student-driven inquiry.

HC 263  
**CIVIL RIGHTS: FORCES AND COUNTER-FORCES SHAPING AMERICAN SOCIETY**  
Undergraduate  
The civil rights movement of the 1960s resulted in a radical shift in the way American society defines itself. Almost forty years later, race and gender relations remain controversial legal and political concerns in our society. This course will explore the historical factors which led to the civil rights movement and analyze the landmark laws and court decisions that regulate our race, gender, and employment relations today. Team-taught by sociologist Pat Ryan and attorney Susan Alvarado, students will examine the social, legal and philosophic underpinnings of the federal anti-discrimination laws and the realities that shape our civic and business lives.

HC 264  
**GLOBAL CAPITALISM: BENEFITS, CHALLENGES, AND DANGERS FOR THE 21ST CENTURY**  
Undergraduate  
In this course, students will seek to understand global capitalism and explore how it developed and its impact on their careers and communities in the 21st century. We will begin by charting the historical development of capitalism from a local phenomenon in Renaissance Europe to today's multi-national corporations operating in a global marketplace. Topics for discussion will include the growing interdependence of national economies, how interdependence causes one nation's economic problems to affect others, and the problems inherent in attempting to regulate multi-national corporations. Finally, this course will compare the dangers of global capitalism with its opportunities within the context of social responsibility.

HC 265  
**BLACK WOMEN IN THE CHURCH AND SOCIETY**  
Undergraduate  
We will explore the religious, social, economic, and political history of African American women. This history will be analyzed within the context of the Black Christian Church and the role it plays in shaping the views of spirituality and leadership among African American women. Focus will be placed on the intersection between religious involvement, spiritual development, and social change. Students will discuss how these factors impact the African-American woman's perception of herself and how these perceptions influence her involvement in the fight for social justice. We will use readings, discussion, short papers, oral presentations, a take-home midterm exam and a research paper.

HC 266  
**ELECTION 2012: DEMOCRACY IN ACTION**  
Undergraduate  
The 2012 Presidential Election is upon us. Its significance will be far reaching both in the United States and around the world. Students in this course will examine the process of democracy and its significance and importance to their lives and their futures. The 2012 Presidential Election will serve as the background for the practical application of concepts learned. A variety of learning strategies will be utilized including independent and group research, debates and video presentations. The course content will review the history of elections and political campaigns in the United States and abroad. The role and impact of the media in the decision making process will be evaluated. Campaign financing, interest groups and voting methodologies will be analyzed. A variety of learning strategies will be utilized including independent and group research, debates and video presentations.

HC 267  
**WORKPLACE LAW: HARASSMENT, DISCRIMINATION AND CIVIL RIGHTS**  
Undergraduate  
This course focuses on laws affecting relationships between employers and employees and within the workplace. Students will study the historical and societal aspects of laws on harassment and discrimination within the workplace, with particular focus on the Civil Rights Act and various other legislation regulating harassment and discrimination in the workplace. Students will analyze the case law, the legislation and the legal systems that have evolved to combat social injustice in the workplace and will learn "best methods" for preventing and resolving harassing and discriminatory practices in the workplace.
HC 268
WOMEN'S WORK
Undergraduate
This course will test Heilburn's statement by asking students to study and discuss questions that particularly affect women, both personally and professionally. The course will chart women's progress, or lack of it as seen in the works of historians, sociologists, novelists, and journalists, both men and women. Each student will choose one subject area for intensive study and will present individual papers or cooperative panel reports to the class. All students will gain access to the sizable and significant body of literature concerning women's roles, rights, and achievements.

HC 269
PARENTS: PARTNERS IN EDUCATION
Undergraduate
What's up with schools? The statistics speak for themselves: Fully one half of big city high school students do not graduate. For a good number of those who do finish high school, their reading and math skills are well below grade level. They are not prepared for college; nor are they prepared for the work world. Teachers have also come under a great deal of scrutiny and criticism. Students are tested and evaluated, but how is the work of teachers assessed? Parents, for the most part, have been ignored. In this course, students will consider the current state of the US K through 12 education system, and will confront the three elements of student success: learners, teachers, and parents. This is a service learning course. Students will work with schools to learn how parents might contribute, and why they have become silent partners in the educational process. Students in this course will employ interviewing and questionnaires to research questions in educational success.

HC 270
VIOLENCE: A GLOBAL PERSPECTIVE
Undergraduate
To successfully reduce and prevent violence requires both a global and local understanding of its conditions, costs and causes, focusing on those most at risk: children, women, and minorities. The globalization of violence will increasingly require local prevention efforts to be interconnected with national and global effects. This course will prepare students to understand both how particular social factors relate to perpetrators/victims of violence, and the roles of social institutions. Each class will include computer-generated audio-visual presentations, student presentations, and discussions.

HC 271
WOMEN'S PSYCHOSOCIAL DEVELOPMENT
Undergraduate
This course focuses on how adult women change, grow, and develop in light of psychological and social-cultural forces that interact in their lives. We consider how core concepts such as self-in-relationship, transition and change, and ways of knowing play out in various aspects of women's lives. In exploring different pathways of development for women, we will draw on the life themes of students in the course as well as on theories and models that help identify unique patterns of women's psychological development (alternatives to male-based theories of adult development). This interactive course emphasizes group discussion and guided reflection.

HC 272
MODERN AFRICAN HISTORY
Undergraduate
This Bridge course provides a great opportunity to study Modern Africa. It is a study designed to provide a clear and objective understanding about Africa's recent political past: the coming and growth of European colonialism and its impact on Africa's political, economic, cultural, and social development. It covers the partition of Africa, Africa's early resistance against foreign occupation and the independence movement. This course will examine the post-colonial nature of governance, civil wars, human rights abuses, refugee-ism, politics of international aid and Africa's role in global political events and US foreign policy on Africa.

HC 273
REFRAMING ORGANIZATIONS
Undergraduate
We are surrounded by organizations of varying size and purpose. The workplace from large corporations to small-entrepreneurial companies, non-profit organizations, the spiritual community, and academic institutions all provide ample opportunities for failure in communication, effective management, and a thriving workforce. This course identifies the various strategies, tactics, and solutions that have been successfully employed to understand and resolve organizational problems at the levels of both theory and practice. Each of the solutions offers a particular perspective on organizational life with a focus on organizational structures, human relationships, political processes, and organizational symbols.
HC 274
THE BILL OF RIGHTS IN CONTEMPORARY LIFE AND WORK
Undergraduate
The Bill of Rights is that part of the Constitution that protects you from undue and unwarranted governmental regulation and interference. Learn how your rights of free speech, privacy and association in the workplace, on the street and in your home are secured by the first ten amendments to the U.S. Constitution. What does the government allow you to say and do in the presence of fellow workers? How safe is your home from police searches? Are there limits to whom you are allowed to associate with on a public street or even in the privacy of your own home? This course will deal with these and similar questions. Along the way, we will learn about the history and theory behind the adoption of the Constitution, how judges and lawyers interpret the Constitution, in particular the Bill of Rights, and what role the Constitution plays in the debate over the significant legal and social issues of our day, such as abortion, the death penalty, gay marriage, and physician-assisted suicide. We will read and discuss political theory, the Bill of Rights and actual court cases.

HC 275
AMERICA IN BLACK AND WHITE: BUILDING BRIDGES
Undergraduate
In this course, we will explore the historical, economic, and political roots of racism globally and nationally. In addition, we will look at the changes brought about by the civil rights movement and ongoing work in the nation and in Chicago aimed at bridging the gaps caused by racism. We will also explore both black and white novelists, poets, commentators, and scholars such as Ralph Ellison, Adrienne Rich, paul Laurence Dunber, Cornell West, Peggy Macintosh, bell hooks, Gwendolyn Brooks, and others. Through discussion, readings, films, debates, guest panels, and field excursions, students will study a variety of topics. Because the course will focus not only on analysis, but on building bridges, the instructors hope to enroll an ethnically and racially diverse class membership.

HC 276
DECISION MAKING AND LEADERSHIP IN SMALL GROUP COMMUNICATION
Undergraduate
Small groups exist in organizations for many reasons. Some are formally created, permanent bodies for information sharing, decision making and problem solving. Others are ad hoc groups organized to deal with specific issues. Employees often form their own informal groups to share information. Regardless or origin, all groups exhibit similar patterns of behavior and encounter similar problems. With proper training, groups can accomplish far more than any individual members on their own. This course will examine how communication develops and is sustained within small groups, the dimensions of group character, and the effects of group character on communication. We will use a mix of theory and practice to analyze case studies, participate in group decision-making exercises and review the required text.

HC 277
CRIME & VIOLENCE: LAW ENFORCEMENT IN AMERICA
Undergraduate
This course examines the stresses and complexities in the planning and implementation of law enforcement in America today. Students will consider the purposes of legal standards and will engage in critique of contemporary systems and issues. In addition, care will be taken to better understand the myths and realities of criminal behavior today, the role of incarceration, and the toll on society and law enforcement officers as well. The goal of this course is to assist students in building bridges of understanding in today's highly charged socio-political world characterized and fueled by competing standards and goals, and to consider their roles in the development of a just society.

HC 278
SOCIOLOGY OF HUMAN RELATIONS
Undergraduate
This team-taught course is about race relations in America and around the world. We will engage in productive and thorough discussion of the socio-economic, political, cultural and psychological aspects of human relations, with special attention to the existing relationships between the dominant and minority groups in America. Each class session will focus on a particular institutional base for discussion: political systems, extremist groups, communities, religions, families, schools, to name a few, using readings, film, guest speakers, and current events to bear on the issues raised.

HC 279
INTERNATIONAL PROJECT MANAGEMENT: BEST PRACTICES
Undergraduate
This course is designed to increase your knowledge of the concepts and strategies of project management through the introduction and discussion of factors specific to the international environment. Topics will include cross-cultural collaboration, coaching across borders, global communication, global project leadership and integration of traditional project management techniques with global dimensions and issues. The format will include opportunities for class discussion and application of principles, lessons learned and best practices.
HC 280
CHILD, FAMILY AND COMMUNITY RELATIONS
Undergraduate
This course will address the work of raising children from a variety of perspectives. It will examine how cultural differences influence certain child-raising patterns, and how they relate to or may come in conflict with established social rules and regulations. Practical ways of establishing and maintaining positive and productive working relationships between child care workers and families will also be addressed, and what kind of community resources are available within an urban setting. This course will also discuss the many skills and responsibilities which comprise the (paid or unpaid) work of raising children or “motherwork.” Although motherwork is of vital importance to society, as “typical women’s work” it receives little public or corporate support. The values and ethical beliefs associated with motherwork, and what they mean in terms of individual experiences and social support will therefore also be examined. Validating individual experience, expanding knowledge, and developing critical and analytical abilities are some of the objectives of this course. We will achieve these objectives by discussing and critically analyzing readings, by evaluating our own experience in light of the course material, and by engaging in dialogue and conversation with each other. Participation, the keeping of a learning journal, doing the readings, and writing a final 5-6 page essay per competence are the main requirements of this course.

HC 281
CULTURE AND POLITICS OF THE 1960’S
Undergraduate
The period from the late 1950s to the early 1970s represents a turning point in “the American century.” Opinions differ through on the meaning of the sixties. Was it a period of cultural renaissance, moral decay, civil war, or something else entirely? This course attempts to assess the significance of the 1960s by looking at some key movements in culture and politics, including the civil rights movement, Vietnam war, hippie counterculture. We will read essays and excerpts from King, Carmichael, Wolfe, Mailer, McLuhan, Sontage and others to track the emergence of new social critiques focusing on the corporate state, patriarchy and the mass media. Through lecture, discussions, and films, students will study a significant individual or movement and demonstrate their expertise through a paper or presentation.

HC 283
WORK-LIFE BALANCE: HISTORY & GENDER POLITICS
Undergraduate
How have people balanced the demands of work and family? What role has politics played in this history? This course develops students' understanding of issues in the history of gender, family, and work through historical and contemporary accounts from Europe and the United States. We will take a close look at issues such as the gender division of labor, child labor, government policies on maternity, social and political movements. Course materials include historical documents, lectures, films, and varied readings. Assignments will include essays, reflection journals, discussion, and a research project on work-life balance.

HC 284
EXPERIENCING SUSTAINABLE SOCIETIES THROUGH THE UNITED NATIONS AND IN GERMANY
Undergraduate
This program takes students to the United Nations three-day conference for NGOs “Sustainable Societies: Responsive Citizens” in Bonn, Germany and then the group will travel to Berlin, the capital of Germany and a major center for environmental innovation. More than 2,000 people representing some 500 NGOs from more than 100 countries are expected to attend the Sustainable Societies conference. Students will attend lectures and dialog with world experts in sustainability from governments, United Nations agencies and NGOs. By exploring Berlin through guided walking and bus tours, meetings with government experts and visiting historical institutions, students will gain insights into Berlin’s leading efforts in creating a sustainable city.

HC 285
WOMEN’S VOICES IN PEACEMAKING
Undergraduate
Across the planet, as forces for war, terrorism, empire, and ecological destruction have gained more strength, there has also been an upsurge in the spiritual, cultural, political, and social leadership of women for peace and justice in response. For example, in just the last 20 years, there has been a demographic shift in the United States of gender majority attending law schools and seminaries. Women's voices from Ireland to India, from Peru to South Africa are shaping a new vision for the future that take into account class, race, gender. What is the impact of women's collective role on our future here and internationally? This course examines a variety of women's voices of the personal and political, of the spiritual and the social, and explores the possibilities of a new and emerging power dynamic for women. We will read the excerpts and works from current and past women leaders in peacemaking, such as Dorothy Day, Barbara Epstein, bell hooks, Dr. Helen Caldicott, Arundhati Roy, Mary Daly, Pema Chodron, Barbara Eck, Marilyn French, Maread Corrigan Maguire and others; hear guest lectures from women active in practicing peace locally and globally; and experiment with tools designed to develop interpersonal and community peacemaking.
HC 286
PSYCHOLOGY FOR MANAGERS
Undergraduate
This course reviews theories and tools of psychology as applied to work environments, including group interaction, productivity, communication issues, motivation, as well as the impact of individual and organizational dysfunction and pathology.

HC 287
DEVELOPING COMMUNICATION COMPETENCE IN CROSS-CULTURAL SETTINGS
Undergraduate
This course is designed to acquaint students with the unique elements of communication present in cross-cultural transactions and to aid students in navigating successfully through these interactions. Over the course of the semester, students will learn to be self-reflexive about their experiences as members of a society in which diverse work teams, international travel, transnational work environments, the Internet, and widespread immigration of groups and individuals are part of contemporary reality. We will examine traditional elements of the communication model (sender, receiver, message, feedback, context) in terms of cultural, social, and psychocultural influences. To this end, students will explore cultural values, perception, nonverbal communication, high and low context communication, individualism, collectivism, challenges of diverse organizations and work teams, protocol and negotiation across cultures, barriers to effective cross-cultural communication (the "isms"), culture shock and mindfulness. Students completing this course will acquire practical skills to apply in reducing anxiety and uncertainty in cross-cultural interactions and, importantly, students will learn to recognize ethnocentrism and rise above it in the creation of community.

HC 288
UNDERSTANDING HUMAN RESOURCE AND DEVELOPMENT
Undergraduate
This course in Human Resource and Development will address careers that improve human performance in organizations. Human Resource Development provides the framework for helping employees develop their personal and organizational skills, knowledge and abilities. Participants will learn how to analyze the performance needs of organizations, helping to facilitate change through interventions that increase competencies, communication and motivation. Course content will include the design and delivery of instruction that provides performance support for adults, and they will learn how to assess and evaluate the impact of performance interventions. Other topics covered will be individual development, employee training, career development, performance management and development, coaching and mentoring, and organizational development.

HC 289
PSYCHOLOGY FROM AN AFRICAN-CENTERED PERSPECTIVE
Undergraduate
The field of psychology has a legacy of viewing people who are different from the Eurocentric white male norm, e.g. people of African descent, as deficient and/or deficit. What if the behavior, attitudes, and thoughts of African-Americans were viewed from their own cultural perspective? How would they be understood? This course will utilize an African-centered framework to examine salient themes in psychology—identity, development, education, and therapy/healing---as they pertain to African-Americans. Students will become familiar with this theoretical perspective and its historical and contemporary scholars. Guest lecturers, readings and discussions, in-class exercises, a collaborative and associated individual project, and a learning journal will comprise the learning experience.

HC 290
THE DISABLED IN THE COMMUNITY
Undergraduate
In this course the student will define and analyze disabled populations in several categories including, physical disabilities, learning/cognitive disabilities and emotional/mental disabilities. Social and Behavioral disabilities including Addictions, HIV/AIDS, and Domestic Violence will be considered for review. The basis for consideration of these populations is to assess effect(s) that the disability has on the ability of said persons to acquire and maintain productivity in the community and to determine what interventions and services those persons need to be healthy and empowered to the greatest extent possible. Initial class sessions will consist of descriptions of disabilities within several categories, role play and evaluations of selected case studies and a (CIP) Community Integration Plan for these cases.
HC 291
PARTNERSHIP POWER: HOW TO BE A HUMAN BEING
Undergraduate
This course is about learning the tools, values, structures, inspiration and scientific basis for partnership and integrating them into our lives. In our personal and planetary lives we face many crises. Today many important thinkers believe we have reached a bifurcation point for human evolution - do we continue down paths of destruction or do we take hold of ourselves with cooperation and peace? This course offers collaborative ways to examine the joys, skills, values, and knowledge of partnership development. Being a human being with good partnership skills can be productive and fun! We will explore the Cultural Transformation Theory put forward by macrohistorian and social scientist, Riane Eisler, to compare the dominator and partnership paradigms in several aspects of our lives - self, family, work, national community, international relations, nature, and spiritual reality. Using the Partnership/Domination template in theory and practice, we will investigate the concepts, functions, and expressions of cultures based on cooperation and peace versus those based on control and violence on a continuum. We will look at the dominator aspects of gender, color, ethnic origin and sexual orientation and other cultural oppressions and compare with the partnership model. This course provides a way to understand the large transformations taking place on our planet and in our lives.

HC 292
LANGUAGE AND LANDSCAPE
Undergraduate
In this course we will investigate the significance of physical landscape to human imagination and language. It is frequently assumed that human minds somehow exist "above" the physical universe, but our perspective unifies the two. Through written course materials and assignments, some lecture and intensive classroom discussion, we will go beyond the dualism of classical philosophy to a more grounded view of cultural creation, seeing art, myth, and survival itself as products of place. Students will work with the idea that cultural artifacts are communicating a relationship to the land, and our coursework helps us determine its precise nature.

HC 293
COURT STRUCTURE & COMMON LAW - EXPLORING THE RIGHTS OF EMPLOYERS AND EMPLOYEES
Undergraduate
This course will examine the interrelationships between our economy, business and the practice of law. It will also examine contemporary legal issues in the world of work. Students will examine the structures of the legal community and the impact it has on how business is conducted, and on the economic system in which we live and work. Through readings, discussion, and group projects, students will investigate the interfaces of law, with an emphasis on torts and employment law, as well as current issues which have evolved as the practice of law has become a big business itself. Students will develop and evaluate plans individually or through group interaction for applying new insights to effecting change in their own working environments.

HC 295
UNDERSTANDING THE "HUMAN" IN HUMAN RESOURCES
Undergraduate
Human Resource professionals hold a diverse set of responsibilities, some of which are designed to respond to the human needs of employees. Addressing these in the context of the work environment requires an understanding of human behavior, insight into the effects of social issues on the workplace, knowledge of mechanisms and resources for problem resolution, and effective communication skills. Students will participate in group exercises and discussions designed to help develop and practice strategies for problem resolution based on increased self-awareness and empowerment. A primary textbook and related readings as well as two field assignments, self-reflective journaling, and a final integrative paper are required. Course assignments are designed to support integration and application of new skills and knowledge.

HC 296
LESSONS OF HISTORY
Undergraduate
Does history ever repeat itself? What lessons has our past taught us in planning for the future? This course will focus on an examination of the social, economic, and environmental changes that occurred in America during selected decades of the 20th century. Students will compare and contrast the 1920s with 1960s and 1930s with 1950s looking for major events, trends, and policies that repeated themselves in the subsequent generation, as well as fundamental political and economic structures. Students will share their findings and learn techniques for integrating information to form a basis for rational forecasting of future trends.
HC 297
GLOBAL STUDY OF SEX AND OPPRESSION
Undergraduate
This course is designed to expose the learner to the history, context and problems within the sex industry (prostitution, pornography, exotic dancing) as it exists throughout many countries of the world. Our foundation for discussion needs to be based in theory, of which we will discuss: functionalism, interactionism and conflict perspective and how each defines the sex industry. Next, we will explore the various definitions, levels of social acceptability (necessity) and the importance of laws that have defined this industry and our perceptions. Furthermore, we will discuss the religious, socio-cultural issues that allow for certain elements of sex work to flourish in places such as Bangkok, Thailand, the United States, and various parts of Europe. Also, we will discuss the legal acceptability of certain sex work activities within the countries discussed. Within our discussions / research of the sex industry, we will attempt to formulate answers to the controversial issue of legalization versus discrimination.

HC 298
CONNECTING WITH AFRICA: CULTURAL AND SOCIAL ISSUES IN EAST AFRICA
Undergraduate
This travel course will introduce students to two East African countries, where they will have the opportunity to study issues of cultural/economic/social/political interest as they manifest themselves in the USA, in Kenya and in Tanzania, and in comparison to the USA. Intensive study in Chicago and onsite in Kenya and Tanzania will give students a unique opportunity to reflect on and then compare and contrast what goes on in their own country and in these two East Africa countries.

HC 299
ASSESSING AND MANAGING CONFLICT
Undergraduate
Our usual method for presenting, analyzing, and resolving conflicts has centered around legalistic argument; the goal being to discover the “right” answer and suppress the “wrong” ones. However, the multiple worldviews operating in the world today make such an approach to conflict less viable. Reflecting this reality, ways of communicating about and resolving conflict have arisen that go beyond enforcement of rules or legal determinations of right and wrong. In this course, we will look at various methods for handling conflict and consider how we might apply them to personal, work, community and literary conflicts through lecture, small group work, role playing, reading, various written projects, and discussion.

HC 302
ACTIVE CITIZENSHIP: MAKING A DIFFERENCE
Undergraduate
Americans are known for active participation in organizations that strengthen our communities. We coach our kid’s sports teams, take meals to members of our congregations, work for candidates that we believe in and join marches to support or oppose government action. With all these activities we engage with other members of our communities to make it better for ourselves, our families and to promote social justice. In this class we will evaluate our past activities in light of our values and develop a plan to improve our skills and direct our energies for civic engagement.

HC 313
IMPLEMENTING EFFECTIVE TRAINING IN ORGANIZATIONS
Undergraduate
Everyone has had the delightful experience of learning by accident, of being surprised at insights and skills that emerge from experience. But accidental learning can be time-consuming and costly to organizations and individuals who have specific learning goals to meet. Engaging and effective learning in organizational settings is most often the product of systematic analysis and planning. This course will introduce a detailed protocol for designing training experiences in a variety of adult training settings. The five stage protocol (Analysis, Design, Development, Implementation, Evaluation) provides a context for students to address the following questions: Who is the audience and what is the training context? What is to be learned and why? What methods are best suited to the learning outcomes? What resources are available and appropriate to the learning outcomes and methods? At the end, students will be able to distinguish training design from development and implementation; describe characteristics of adult learners and their implications for training; define desired learning outcomes based on training context and audience; determine teaching / learning methods suited to particular training situations; and, identify and describe resources to support achieving learning outcomes. Students may register for only one competence.

HC 314
AGE OF DICTATORS: TOTALITARIANISM IN THE INTER-WAR PERIOD
Undergraduate
This course will examine the age of dictators in the inter-war period by focusing on the principal individuals, institutions and societies involved. Root causes of totalitarianism will be developed, as well as an understanding of its impact, effectiveness, and relationship to democratic societies. Students will be stimulated to contemplate ethical and religious aspects of the despots’ rule, and will comprehend the period within the larger framework of 20th century history.
HC 315
RACE, PLACE AND SPACE: ENVIRONMENTAL JUSTICE IN THE TWENTIETH CENTURY
Undergraduate
This course will provide a survey of historical and contemporary forces (social, cultural, technological, scientific and economic) which have led to the global emergence of environmental inequalities in societies during the last century. This course will also show how the environmental ethics of a society (national and international) as well as their notions of who belongs to the larger body politic have contributed to environmental inequalities in national and international geographic spaces. This course is an excellent elective for business, education, religion, sociology/anthropology and science/engineering focus area who seek to understand the foundations and ramifications of human ethics, values and culture on decisions and policies which impact the global environment (or ecosystems).

HC 317
METHODS OF DISCIPLINE FOR TODAY'S CHILDREN
Undergraduate
In today's world, a lack of discipline can cause children to become non-productive members of society. Raising children from a loving and caring perspective is more challenging than it seems to be in the past. The complexities of this world require different approaches to behavior modification. In their struggle with raising children, parents need to know a variety of methods and models that can be used to help children develop a strong personal self-esteem and to learn that discipline is best when it is made from choices and personal decisions that the child can control. This course will help students compare two models of effective behavioral modification that can be used in the home to help parents in one of the most complicated aspects of child development. Students will be responsible for implementing strategies we discuss in class as well as finding other available methods.

HC 318
FACING HISTORY AND OURSELVES
Undergraduate
History often ignores the story of how the common person participated in its making in favor of the heroes and the outstanding individuals. The origins and evolution of the Third Reich offer a source for examining the subtleties and texture of change as well as the background which leads to the major events which mark our history. The lessons of this period address eternal questions of human behavior tendencies toward its culmination, the pressuring of peers, the need to belong, inhumanity. By using discussion, films, and readings, students will trace how individuals are shaped by social, political, and economic forces.

HC 319
ETHICAL CHOICES IN A GLOBAL COMMUNITY
Undergraduate
This course will introduce ethical dilemmas which can only be resolved with an understanding of the many perspectives of the stakeholders. Dilemma paradigms and resolution principles will be explored suggesting frameworks for making choices. Students will work individually and in groups to explore a wide range of ethical dilemmas. Students will demonstrate mastery of the competencies with a portfolio and oral presentation of an investigation into an ethical dilemma with global ramifications. This project will require the student to examine the ethical issue from several perspectives, conduct research from a variety of sources, compare and analyze the results, and finally commit to a substantiated approach to the dilemma.

HC 320
THE POWER OF PERSUASION
Undergraduate
This course is intended to provide students with a thorough understanding of how persuasion and persuasive techniques are used in the communication process of relationships, in the family, and in the world of work. Students will study the art of persuasion by analyzing the text of selected American figures and their speeches, and learn to recognize the skill sets of sending and receiving persuasive messages. Moreover, students will study the approaches, ethics, and symbols of persuasion, by exploring the great speakers and what they were trying to accomplish through language, culture, power, and knowledge. Studying the texts will also strengthen and empower the student's strategic approaches to persuasion, both verbal and nonverbal.

HC 321
THE CONTEMPORARY AMERICAN FAMILY: UNRAVELING THE MYTH
Undergraduate
This course examines the societal forces shaping aspects of stable and changing family relations; both nuclear and constructed in the United States, focusing on social-structural factors affecting union formation and dissolution (traditional marriage, the gay marriage debate, cohabitation, and divorce); parenting; traditional and "queer", the gendered division of paid work, caring work, responsibility and authority; and the role of the state in supporting families. To better appreciate the depth of contemporary changes in U.S. families, we will begin the semester with an examination of colonial and 19th-century American family life. We will pay particular attention to diverse patterns of family structure and family relationships by social class, race-ethnicity, age, gender and sexuality. We will engage with these topics in a variety of ways, including student presentations, lectures and class discussion, readings, and in-class videos.
HC 322
HUMAN SEXUALITY
Undergraduate
Institutions such as, but not limited to the State, the Courts, Religion, Marriage and Family, the military and the industrial complex (es) have used and oftentimes misappropriated human sexuality as a means of hegemony, power and control. With the use of texts, articles, film and discussion and perhaps brief lecture, this course will present variant sexualities while deconstructing and demystifying many of the long-held traditional values, ideals and customs that many in society accept as the norm.

HC 323
THE POLITICAL ECONOMY OF THE GLOBAL VILLAGE
Undergraduate
The concentration of great wealth in some countries and grinding poverty in others may be the biggest challenge facing humanity in the new century. This course will explore issues of global inequality by comparing the political and economic systems in the US, Europe, and low-income countries. Our discussions will center on the history and culture of these nations to provide a framework for understanding differences in the way each has developed technologically and socially. Theories on politics, economic programs and foreign investment will be analyzed for insights on the paths taken by successful nations and barriers facing others.

HC 324
DEVELOPING VIRTUAL COMMUNITY
Undergraduate
This course is designed to engage information placed on or derived from the World Wide Web from the perspectives of a variety of ethical and legal frameworks. The issues of access and expression within the context of a free society will be considered from a variety of perspectives, e.g., the religious right, the ACLU, ordinary parents, workers in a corporate world, as citizens of the United States, as members of a global society, etc. The course will not so much focus on the answers as it will raise the questions and acknowledge the tensions.

HC 325
CITY HALLS, MALLS, AND THE MEDIA
Undergraduate
Decisions are made about the communities in which we live and work on a daily basis. Understanding how these decisions are made can empower citizens to make a difference in their everyday lives. This course will analyze the relationships among government, the media and the business community in the decision-making process. First hand information will be provided through interaction with elected officials in visits to Chicago and suburban council meetings.

HC 326
CONTEMPORARY NATIVE AMERICAN/AMERICAN INDIAN ISSUES
Undergraduate
Native Americans are part of our history and heritage, yet many Americans have little knowledge beyond stereotypes. While invisible to the mainstream, Native American cultures are surviving, striving, and in some cases, thriving as we enter the new millennium. This course will explore the complex issues facing Native Americans today through discussion, film, readings, and Native American news media to enable students to gain a cross-cultural perspective. Students will choose an area of focus on this subject and conduct independent research to present to their classmates.

HC 327
EXPERIENTAL PSYCHOLOGY: RELATIONSHIPS BETWEEN THINKING AND FEELING
Undergraduate
Personality, temperament and past experiences all contribute to the way we relate to ourselves and to the world around us. In order to experience life more fully, to manage relationships and make life decisions, we need to be aware of how these influences have affected us, then develop new options for living. Students will become familiar with liberation psychology, which integrates principles and strategies from several schools of traditional psychological thought. Emphasis is on acquiring tools for creating an identity and understanding the context from which these tools were developed. Education methods will include group interaction and experiential exercises to guide participants in developing deeper self-awareness, acceptance of self and others. Self-disclosure by participants will be welcome, but is not required for a successful learning experience.
HC 328
GENDER ROLES AND COMMUNICATION STYLES
Undergraduate
This course will bring together students and guest speakers to look at how gender-related communication has definite historical antecedents and consequences; demonstrating how past events influence present ones. One such event is the new emergence of political demands by previously silenced gender-related groups. Although our contemporary society has in its literature the varied narratives of individuals struggling for gender-related dignity and freedom, this course will critically assess these narratives from the various perspectives of its participating students. In addition, students will use their own cultural-group experiences (where cultures have distinct beliefs, traditions, attitudes, and general way of normalizing the way one should live) to demonstrate how gender roles were socially learned and socially enforced, and became a potential guide for the behavior of its members.

HC 329
MALE IDENTITY IN TRANSITION
Undergraduate
This course, open to men and women, examines issues of gender with a focus on male identity. You will examine your own perspectives, attitudes, and experiences in light of psychosocial development theory, media influences, power struggles among social groups, and relationship issues in an effort to gain a greater understanding of factors that influence male identity in today's society. The course is offered in a hybrid format, meeting every other week and interacting in an online course discussion between meetings. Projects to demonstrate competence will relate gender issues in power relations in the US, the impact of media, adult development and the workplace.

HC 330
ASSESSMENT AND COUNSELING: SKILLS FOR THE HUMAN RESOURCE PROFESSIONAL
Undergraduate
A rapidly-developing area of responsibility for Human Resource professionals is employee assistance programs (EAPs). Managing and implementing EAPs requires that human resource professionals have additional skills in assessment and counseling. In this course, students will learn counseling theory and assess their own personal interactional and counseling potential for possible careers in EAP counseling. Discussion topics include intervention, enabling, alcoholism and other chemical dependencies, relapse prevention, denial, constructive confrontation, and case management.

HC 331
THE JOURNEY FROM MONEY TO PROFITS
Undergraduate
If asked, most people would correctly describe our economic system as "money-based", but few people fully understand the dynamic interplay among the various "partners." Buyers and sellers, dealers and investors hold pivotal roles, but other critically important players include the Federal Reserve Board, U.S. Treasury, Congress, and the banking system. Not only is the banking system the producer of the money supply of this nation, its actions (including those of the Federal Reserve System as the central bank) influence the level of interest rates, the level of prices, and even the relative scarcity of every commodity. And then the impact of the rest of the world must be considered. Once we have ascertained the roles and impacts of the players, we will determine how individuals, families, and communities use that information to establish and revise their own financial plans.

HCl 201
MULTIMEDIA AND THE WORLD WIDE WEB
Undergraduate
An introduction to the World Wide Web and web development for non-technical majors. Students will create web pages using a WYSIWYG editor. Students will evaluate web sites using a variety of analytical and empirical methods. Students will conduct technology-related experiments following the principles of the scientific method and use technology to analyze their results. Topics include web-based technology, creating content for distribution on the web, and design principles for web sites. Students will develop an appreciation for the connections among science, mathematics, and technology in modern society, as well as for the principles guiding advances in science and technology. PREREQUISITE(S): NONE.

HCl 271
FORMATTING DIGITAL PAGES II
Undergraduate
This course builds on HCI 270 with problem-based application of perceptual and communication principles in developing effective multi-page screen environments. Includes experience with more sophisticated visual software. PREREQUISITE(S): HCI 270.
HCI 302
FOUNDATIONS OF DIGITAL DESIGN
Undergraduate
Shape, line on two-dimensional surfaces. Color. Composition rules as they apply to digitally created documents. Digital manipulation of two-dimensional images. Use of commercially available draw and paint tools to create two-dimensional designs. PREREQUISITE(S): None

Graduate standing is a prerequisite for this class.

HCI 312
ANALYSIS AND DESIGN FOR HUMAN-COMPUTER INTERACTION
Undergraduate
(Formerly HCI 300) User and task analyses that emphasize an early focus on users and their environment. Stresses methods that lead to successful communication and teamwork. PREREQUISITE(S): HCI 210.

HCI 341
USABILITY ISSUES FOR ELECTRONIC COMMERCE
Undergraduate
(Cross-listed with ECT 341) Design, prototyping and evaluation of e-commerce web sites. Context of usability in the project development life cycle. User/task analysis with emphasis on the first time and the infrequent user. Content organization. User testing with low fidelity prototypes. Aesthetics and appeal. Students' projects involve design and/or evaluation of actual electronic commerce sites. PREREQUISITE(S): HCI 210 AND IT 223.

HCI 350
USABILITY IN COMPUTING SYSTEMS
Undergraduate
Application of psychological theory to the design of computer systems, with emphasis on web sites. Overview of applicable research methods. Sensation, cognition, decision making, Display and control design. Overview of workspace design including biomechanics, work physiology, stress and workload. PREREQUISITE(S): HCI 210.

HCI 402
FOUNDATIONS OF DIGITAL DESIGN
Graduate
Shape, line on two-dimensional surfaces. Color. Composition rules as they apply to digitally created documents. Digital manipulation of two-dimensional images. Use of commercially available draw and paint tools to create two-dimensional designs. PREREQUISITE(S): None

HCI 406
WEB SITE DESIGN FOR HCI
Graduate
Web design introduced in a user-centered context. Application of visual design principles and common design patterns for web sites and mobile interfaces. Page markup using HTML and CSS addressing responsive web design, accessibility, and search engine optimization. PREREQUISITE(S): None

HCI 422
MULTIMEDIA
Graduate
Multimedia interface design. Underlying technological issues including synchronization and coordination of multiple media, file formats for images, animations, sound and text. Hypertext. Information organization. Survey of multimedia authoring software. Topics in long distance multimedia (World Wide Web). Students will critique existing applications and create several multimedia applications. PREREQUISITE(S): HCI 440 or consent of the instructor.

HCI 430
PROTOTYPING AND IMPLEMENTATION
Graduate
Overview of prototyping methods ranging from low-fidelity to interactive script-based prototypes. Analysis of prototyping tools and their relative advantages. Projects include prototype development over multiple iterations using a variety of strategies. PREREQUISITE(S): IT 411 and HCI 440
HCI 440
INTRODUCTION TO USER-CENTERED DESIGN
Graduate
The user-interface development process. Introduction to methods for practicing user-centered design including user and task analysis, user interface design principles and testing using low-fidelity prototypes. PREREQUISITE(S): None

HCI 445
INQUIRY METHODS AND USE ANALYSIS
Graduate
This course provides students with the skills necessary to acquire and organize user information for the purpose of developing task and systems analyses. Topics covered include survey construction and administration, structured observation, interviewing, and participatory design. Students learn to evaluate and organize user information toward making analysis and design decisions. Human communication and presentation skills are developed. PREREQUISITE(S): IT 403 and HCI 440

HCI 450
FOUNDATIONS OF HUMAN-COMPUTER INTERACTION
Graduate
Application of engineering and psychological theory to the design of computer systems. Overview of applicable research methods and research on perception, cognition, errors, and screen design. Attention will be given to creating and applying guidelines derived from research. PREREQUISITE(S): IT 403

HCI 454
INTERACTION DESIGN AND INFORMATION ARCHITECTURE
Graduate
Information architecture and interactive page design. Perception and use of menus, labels and user controls. Structuring information for navigation and presentation. Selecting and placing user controls for optimizing task flow on pages and across pages. Creating wire frames and using content managers. PREREQUISITE(S): HCI 406 and HCI 440

HCI 460
USABILITY EVALUATION METHODS
Graduate
Survey of evaluation methods that can be applied to user interfaces. Methods include expert inspections, walkthroughs, usability testing and analytical approaches. Students evaluate existing systems by applying some of these methods. PREREQUISITE(S): IT 403 and HCI 440.

HCI 470
DIGITAL PAGE FORMATTING
Graduate
Problem-based applications of perceptual and communication principles to the presentation of on-line and off-screen pages. Includes experience with industry standard vector, raster and formatting software. PREREQUISITE(S): HCI 402

HCI 511
ACCESSIBILITY AND DESIGN FOR DIVERSE USERS
Graduate
Methods and principles for designing interactive technologies for diverse users, including children, elderly, and people with disabilities and alternative skills. Analysis of how current technologies address diverse user needs and considerations about how technologies might be improved to better meet diverse user needs. Class projects include a web accessibility evaluation based on current w3 standards and an in-depth research project in which students ideate a new technology or evaluate an existing technology in which they work directly with people who have disabilities. PREREQUISITE(S): HCI 445 (HCI 460 recommended)

HCI 512
DESIGNING FOR VISUALIZATION
Graduate
Sources of graphical integrity and sophistication. Data-Ink maximization. Data density. Color and information. Effective use of space and time. PREREQUISITE(S): HCI 440 and HCI 460.
HCI 513
DESIGN/STRATEGIES FOR INTERNET COMMERCE
Graduate
(Cross-listed with ECT 555) An integrated study of design, technical, and strategic issues for Internet commerce. Web analysis, design and publishing. Visual, textual and content organization, response time, usability testing. Authorizing tools and administering web server. Internet database servicing. Internet service providers and pricing. Digital cash and encryption. Impact on the value chain, intermediation, and market structure. Strategies for mass customization, interactive marketing, and support for collaborative work. PREREQUISITE(S): IS 422 or HCI 430

HCI 514
GLOBAL USER RESEARCH
Graduate
Theories and approaches for conducting HCI research and creating digital media for international audiences. Varied topics include (a) cultural models and global differences that influence design of digital artifacts (b) approaches to conducting usability and other types of user research and (c) information communication and technologies for development (ICT4D). PREREQUISITE(S): HCI 445 and HCI 460

HCI 520
LEARNER-CENTERED DESIGN
Graduate
Design and evaluation of technology-based learning systems. Theories and models of human perception and cognition as they apply to learning, instruction and training. Application of established principles for analyzing and designing learning systems. Projects include evaluating existing learning systems and the creation of a learning system. PREREQUISITE(S): IT 403 and HCI 440 and HCI 450

HCI 521
DESIGNING FOR CONTENT MANAGEMENT SYSTEMS
Graduate
Design and development of Web sites using common database-driven content management systems (CMSs) and publishing tools such as those used to manage blogs, community portals, and other content-heavy websites. Discussions of how familiarity with CMS tools assists the role of the user experience designer. Visual design and theme customization using prior knowledge of CSS. Taxonomy systems, installation of add-on modules, and user management using today's widely used systems.

HCI 530
USABILITY ISSUES FOR HANDHELD DEVICES
Graduate
This seminar will cover the theoretical and practical issues of usability for handheld devices (cell phones and PDAs). Students will analyze how restricted displays and input modalities constrain applications on these platforms, and how these constraints factor into the design process. PREREQUISITE(S): HCI 440 and HCI 430

HCI 580
USER EXPERIENCE DESIGN PRACTICUM
Graduate
Working with clients, students choose and practice appropriate methods learned in the HCI foundational courses to address business goals and user needs. Course coverage includes best practices for consulting, effective communication with clients and coworkers, understanding business and organizational needs, and setting realistic goals and expectations. Prerequisites: HCI 445 and HCI 454

HCI 590
TOPICS IN HUMAN-COMPUTER INTERACTION
Graduate
HCI topic varies with offering. Contact instructor for more information. PREREQUISITE(S): Completion of the HCI core courses or consent of the instructor. May be repeated for credit.

HCI 594
HUMAN-COMPUTER INTERACTION CAPSTONE
Graduate
HCI 594 provides an opportunity for students to apply all of the skills they have learned on one comprehensive project. Multidisciplinary teams design, evaluate, and implement a user interface intensive project. Students prepare written documents describing their activities and present the final results to the class. PREREQUISITE(S): Completion of the HCI core courses or consent of the instructor.
HLTH 201
INTRODUCTION TO HEALTH SCIENCE
Undergraduate
This course introduces students to the B.S. in Health Sciences undergraduate program. The course aims to introduce students to the range of disciplines (biological, sociological, psychological, and political) found within the health sciences, and how each contributes to our understandings of human health and illness. This will allow the students to better understand the nature of health care delivery and the methods that will best improve the health status of both individuals and the population.

A Health Science major is a prerequisite for this class.

HLTH 202
HEALTH RESEARCH LITERACY
Undergraduate
The purpose of this course is to provide students the methodology and skills required for literacy in health, and to comprehend the results of health sciences research. In this course students seeking careers in the health sciences will go beyond the health literacy level suggested for the general public in preparation for professional practice in clinical, policy, administrative, and basic science fields.

HLTH 201 or department permission is a prerequisite for this class.

HLTH 210
INTRODUCTION TO PUBLIC HEALTH
Undergraduate
This course is designed to lay out the concepts, principles, and case outcomes of public health practice. It considers community health data source, classical intervention approaches, and the planning and evaluation of community health interventions.

HLTH 201 or department permission is a prerequisite for this class.

HLTH 229
ETHICS FOR HEALTH SCIENCES
Undergraduate
This course provides an introduction to the ethical and moral theories that frame our response to fundamental issues in the health sciences. Moral philosophers, such as Aristotle, Thomas Aquinas and Immanuel Kant, all pose questions about the nature of right and wrong, and what is meant by a good life. The first part of the course examines the work of these philosophers and then uses them in order to think through specific topics, including: confidentiality, informed consent and end of life decision-making; health care disparities and health care reform; and global health ethics.

HLTH 230
FUNDAMENTALS OF HEALTH EDUCATION
Undergraduate
This course provides health education majors with a foundational understanding of the professional health education field. Students will examine health education's role in planning, implementing, and evaluating the behavioral health challenges that effect the wellbeing of individuals and communities. Students will learn and then practice designing and delivering a wide range of health education activities, grounded in behavioral change theories, in a variety of settings and to diverse audiences. Finally, students will critically examine these issues through a variety of academic experiences, including academic service in a community setting, in order to identify and apply health education practices and principles that contribute to health promotion and disease prevention.
HLTH 310
FUNDAMENTALS OF EPIDEMIOLOGY
Undergraduate
Epidemiology is generally considered to be the basic science of disease prevention. It encompasses the study of the distribution and determinants of health-related conditions in specified populations, and the application of this study to control health problems. This course will introduce you to methods employed by epidemiologists to collect data about the health of populations, to use epidemiologic data to generate and test hypotheses about the relationships between exposure and disease or other health conditions, and to use epidemiologic data that informs interventions and public policy that will address health problems and prevent their recurrence.

HLTH 201, 202, and Junior standing or above are a prerequisite for this class.

HLTH 320
MOLECULAR VIROLOGY
Undergraduate
This lecture/seminar course is designed for students interested in the molecular details of virus replication and the interactions between viruses and host cells. Virus families that cause human disease are highlighted, however this course does not focus on the clinical aspects of virus infection and treatment. Students will review primary research articles and participate in group analyses of these works. BIO 260 Genetics recommended

HLTH 350
HEALTH SCIENCES CAPSTONE
Undergraduate
The Senior Capstone will bring students from both concentrations in the Health Sciences major together in an opportunity to share biomedical and psycho-social perspectives in an examination of current health issues.

Status as a senior Health Sciences major is a prerequisite for this class.

HLTH 380
TOPICS IN HEALTH SCIENCES
Undergraduate
Upper level course focused on a specific topic in Health Sciences that involves reading of primary literature and discussion.

HLTH 201 and 202 are a prerequisite for this class.

HLTH 399
INDEPENDENT STUDY
Undergraduate
INDEPENDENT STUDY
A Health Science major is a prerequisite for this class.

HON 100
RHETORIC AND CRITICAL INQUIRY
Undergraduate
This course covers the fundamentals of research and leads students through a sequence of writing assignments which require them to take positions and persuade audiences about issues of public concern. Students will create effective academic discourse, develop critical thinking skills, explore issues of form and style, and examine arguments. HON 100 is required for all Honors students. Open only to students in the University Honors Program.

Membership in the University Honors Program is a prerequisite for this class.

HON 101
WORLD LITERATURE
Undergraduate
Honors 101 focuses on the way writers use language to construct their worlds. Reading, writing, and informed discussion are at the heart of this course, which uses texts from a range of cultures and historical periods to explore how literary works represent issues of human importance.

Membership in the University Honors Program is a prerequisite for this class.
HON 102
HISTORY IN GLOBAL CONTEXTS
Undergraduate
With the goal of enhancing historical literacy and critical thinking, this course invites students to explore how the interdisciplinary tools of historical inquiry aid them in their encounter with the multicultural past through study of a particular society or societies. Students discover how historians extract meaning from primary and secondary sources while exploring the problems and issues involved in analyzing and using a variety of sources. Topics of this course vary and are set by the faculty. Each section of HON 102 will be subtitled to indicate its topic; please see the schedule for current offerings.

Membership in the University Honors Program is a prerequisite for this class.

HON 104
RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES
Undergraduate
This course focuses on the collective construction of cultural reality and examines people's confrontation with the sacred as a formative instrument in this process. The overriding concern of Honors 104 is with the meaning and function of culture as a system or world that we inhabit. This world with its distinctive concepts of ultimacy, time, space, cosmos, and life passages is created and enacted through myths, narratives, and ritual performances. Students will develop analytical skills necessary to apply theoretical explanations and interpretations to the process of constructing cultural reality. All sections of the course will involve a field experience in which students enter the world of a community which is not part of their own experience.

Membership in the University Honors Program is a prerequisite for this class.

HON 105
PHILOSOPHICAL INQUIRY
Undergraduate
Providing an introduction to philosophy as a mode of inquiry, this course explores, from a variety of perspectives, the questions central to the human condition, placing philosophical positions within the context of human values. Students will address the themes of knowledge, action, and human identity, considering how one thinks critically about such questions and what it means to inquire about the human condition in a rational manner. Readings will be drawn from both primary philosophical texts and relevant material from other disciplines.

Membership in the University Honors Program is a prerequisite for this class.

HON 110
HONORS DISCOVER CHICAGO
Undergraduate
Honors Discover Chicago courses acquaint first-year Honors students with the metropolitan community and its neighborhoods, cultures, people, institutions, organizations and issues. Students will also learn about university life and resources and will become acquainted with the Honors scholarly community. Work in HON 110 includes observation, participation, readings, site visits, discussions, and writing. The course begins with an immersion week one week before the start of the autumn quarter; classes continue to meet through the autumn quarter, ending on the same date that LSP 110 courses are completed. Students will select a particular Honors Discover course from the available offerings. All Honors students must take either HON 110 or HON 111. Students entering the Honors Program after completing LSP 110 or LSP 111 should not take Honors 110. Honors Discover Chicago courses are offered during autumn quarter and are available only to first-year students in the University Honors Program. Formerly HON 111.

Membership in the University Honors Program is a prerequisite for this class.

HON 111
HONORS EXPLORE CHICAGO
Undergraduate
Honors Explore Chicago courses acquaint first-year Honors students with the metropolitan community and its neighborhoods, cultures, people, institutions, organizations and issues. Students will also learn about university life and resources and will become acquainted with the Honors scholarly community. Work in HON 111 includes readings, lectures, site visits, discussions, and writing. Students will select a particular Honors Explore course from available offerings. All Honors students must take either HON 110 or HON 111. Students with credit for 110 cannot receive credit for 111. Students entering the Honors Program after completing LSP 110 or LSP 111 should not take Honors 111. Honors Explore Chicago courses are offered during autumn quarter and are available only to first-year students in the University Honors Program. Formerly HON 110.

Membership in the University Honors Program is a prerequisite for this class.
HON 180
DATA ANALYSIS AND STATISTICS
Undergraduate
Using real-world data and open-ended investigations from a variety of disciplines, students apply quantitative and statistical reasoning skills to focus on outcomes of analysis. Students will explore the nature and description of data, probability theory, sampling, variability, estimation, analysis of correlation, hypothesis testing, and experiment design to become critical users of quantitative information. Open only to students in the University Honors Program.

LSP 120, MAT 130 or placement by test is a prerequisite for this class.

HON 201
STATES, MARKETS, AND SOCIETIES
Undergraduate
This course focuses on the organization of economic, political and social relationships within the global system, including analysis of how these relationships affect the distribution of power, resources, well-being and cultural capital in different societies. It covers such topics as phases in the growth of global trade and investment; the role of economic incentives; the historical and conceptual relationship between markets; social stratification, culture, and forms of popular participation; and the development challenges posed by international inequality and social marginality.

Membership in the University Honors Program is a prerequisite for this class.

HON 205
INTERDISCIPLINARY ARTS
Undergraduate
This course offers interdisciplinary study of two or more art forms in a particular historical period, looking at relations among the arts and between art and its cultural contexts. Students will develop a critical vocabulary for the analysis of works in the visual arts, theater, music, literature, or other art forms. Work in the course will be interdisciplinary and will include readings, classroom exercises, visits to relevant performances or exhibits, and papers. Variable topics; please see the schedule for current offerings.

Membership in the University Honors Program is a prerequisite for this class.

HON 207
TOPICS IN COGNITIVE STUDIES
Undergraduate
Working under the assumption that processes of human thinking can be understood in formal and symbolic ways, this course is designed to introduce students to the interdisciplinary field of cognitive science by constructing and evaluating theories of how we perceive, speak, reason, and learn. Only open to students in the University Honors Program

(HON 180 or one course in calculus or statistics as required for the student's major) and status as an University Honors Program student is a prerequisite for this class.

HON 220
HONORS BIOLOGY
Undergraduate
Through reading, lecture, discussion and laboratory work on a topic in biology, students will learn scientific methods of inquiry and gain a biological perspective on the world. By examining a specific topic, the course will introduce students to some approaches used in investigating and understanding biological systems. Students will consider examples of how biological knowledge can inform discussions of socially important issues. Course work will include papers and examinations as well as laboratory investigation, with some assignments requiring students to work in teams. Variable topics; please see the schedule for current offerings. Open only to students in the University Honors Program.

Membership in the University Honors Program is a prerequisite for this class.
HON 221  
HONORS CHEMISTRY  
Undergraduate  
This course introduces students to scientific knowledge and inquiry through a particular topic in chemistry. The laboratory component allows students to have first-hand knowledge of the course content and also provides opportunities for student-directed investigations that model scientific inquiry as a problem-solving method. Students will develop their curiosity about the world as well as the skills to answer their own questions and evaluate the research of others; they will complete written assignments as well as laboratory work. Variable topics; please see the schedule for current offerings. Open only to students in the University Honors Program.

Membership in the University Honors Program is a prerequisite for this class.

HON 222  
HONORS ENVIRONMENTAL SCIENCE  
Undergraduate  
Honors Environmental Science provides an overview of the interrelationships between humans and their environment from a scientific perspective. This interdisciplinary course is designed to provide an understanding of 1) basic ecological principles and how these principles apply to human populations, 2) how cultural and societal institutions influence the availability and use of resources, 3) major environmental problems and their causes, and 4) the application of scientific knowledge and methodology to understanding and solving environmental issues. The format of this course is lecture, discussion and lab.

Membership in the University Honors Program is a prerequisite for this class.

HON 223  
HONORS PHYSICS  
Undergraduate  
This course introduces students to scientific knowledge and inquiry through a particular topic in physics. The laboratory component allows students to have first-hand knowledge of the course content and also provides opportunities for student-directed investigations that model scientific inquiry as a problem-solving method. Students will develop their curiosity about the world as well as the skills to answer their own questions and evaluate the research of others; they will complete written assignments as well as laboratory work. Variable topics; please see the schedule for current offerings. Open only to students in the University Honors Program.

Membership in the University Honors Program is a prerequisite for this class.

HON 225  
HONORS LAB SCIENCE TOPICS  
Undergraduate  
Students in Honors 225 will investigate a particular scientific topic or issue using readings, discussions, papers, and laboratory work. In the process of investigation they will learn about the nature and processes of science and will be able to describe and explain their work in writing; some projects may be done in teams. All sections of Honors 225 include a laboratory component. Please see the Schedule of Classes for current offerings.

Membership in the University Honors Program is a prerequisite for this class.

HON 300  
HONORS RESEARCH SEMINAR  
Undergraduate  
This course, offered occasionally, invites students to enhance their skills in conducting research on issues of interest. May be taken in preparation for HON 395 Honors Senior Thesis. Please see the schedule for current offerings. Open only to students in the University Honors Program.

Membership in the University Honors Program is a prerequisite for this class.
HON 301
HONORS JUNIOR SEMINAR IN MULTICULTURALISM
Undergraduate
This seminar asks students to conduct research on complex issues related to multiculturalism. Topics may cover various dimensions of identity including issues of race and ethnicity, class, gender, language, religion, sexual orientation, disability and nationality. Students are encouraged to develop a critical perspective about the meaning of multiculturalism and to understand the historical and/or contemporary manifestations of inequality. All students prepare research projects and participate in seminar discussions. Variable topics; please see the schedule for current offerings. This course meets the university's requirement in multiculturalism and the Honors Program Junior Seminar requirement.

Membership in the University Honors Program is a prerequisite for this class.

HON 350
HONORS SENIOR SEMINAR
Undergraduate
This course, which meets the capstone requirement for the University Honors Program, is designed to engage students in a discussion of meaning and values, and to foster skills in interdisciplinary research and writing. In a seminar setting, students explore a designated topic, develop related projects, and pursue work in an area defined by the Honors faculty member who designed the particular course. Seminars will be offered in broad interdisciplinary areas, allowing seniors to choose from diverse topics. Please see the schedule for current offerings. Only open to students in the University Honors Program.

HON 301 and status as a senior in the University Honors program is a prerequisite for this class.

HON 351
HONORS SENIOR SEMINAR IN SERVICE LEARNING
Undergraduate
This course, which meets the capstone requirement for the University Honors Program, is designed to foster skills in interdisciplinary research and writing. The course also brings students into the community to explore theories of service and the relationship between altruism and activism. Outside of class, students will devote a minimum of three hours each week to service work at one of the sites offered through the course, prompting them to consider the role that service will play in their lives after DePaul. This course also meets the university's Experiential Learning requirement for students who have not yet fulfilled this requirement. Only open to students in the University Honors Program.

HON 301 and status as a senior in the University Honors program is a prerequisite for this class.

HON 395
HONORS SENIOR THESIS
Undergraduate
Honors students are encouraged to undertake a senior thesis, an independent interdisciplinary research project proposed by the student and carried out under the supervision of a faculty advisor. Students electing to complete a senior thesis must submit an application signed by a faculty director and a two-page project description to the Honors Program Director by the eighth week of the quarter prior to that in which the project will be done. Completion of the thesis project meets the capstone requirement for the Honors Program. Open only to students in the University Honors Program.

Membership in the University Honors Program is a prerequisite for this class.

HON 397
HONORS STUDY TOUR I
Undergraduate
Study tours with faculty leaders. Research, reflection, and writing on site-specific topics and issues. Variable topics. See the Schedule for current offerings. Open only to students in the University Honors Program.

Membership in the University Honors Program is a prerequisite for this class.

HON 398
HONORS STUDY TOUR II
Undergraduate
A continuation of Honors 397. See the Schedule for current offerings.

Membership in the University Honors Program is a prerequisite for this class.
HON 399
HONORS INDEPENDENT STUDY
Undergraduate
Independent Study

Membership in the University Honors Program is a prerequisite for this class.

HSP 1
ETIQUETTE DINNER
Undergraduate

Learning appropriate behavior as an industry professional in a social or dining environment is a skill important to successful business interaction. Instructional sessions are used to convey expected behaviors in professional settings, culminating in a formal business dinner where students can practice learned skills.

An intended or declared Hospitality Leadership major or minor or declared Real Estate major is a prerequisite for this class.

HSP 2
DELIVERING GLOBAL HOSPITALITY SERVICE LEVELS
Undergraduate

Hospitality service is delivered differently in various cultures and levels, from quick service to fine dining, budget hotels to luxury suites, and basic meeting rooms to deluxe conventions and expositions. American, Asian and European service styles are explored. An emphasis is placed upon service styles of international cuisines and personal services.

HSP 1 or an Intended or Declared Hospitality Leadership minor is a prerequisite for this class.

HSP 3
HOSPITALITY COMMUNITY SERVICE
Undergraduate

To support the Vincentian mission of DePaul and to demonstrate mastery of hospitality concepts, students are to engage in one (1) community service event during his or her senior year on a voluntary basis. The event must be sponsored by a non-profit organization and the student is to contribute his or her hospitality knowledge and skills toward the production of the event. The event or organization sponsoring it does not have to be in the hospitality industry, but the activity must be hospitality in nature.

Senior standing is a prerequisite for this class.

HSP 100
INTRODUCTION TO HOSPITALITY
Undergraduate

This course takes a survey perspective in introducing students to the global hospitality industry, its associations, organizations and businesses. This course provides an overview of the historical evolution and development of modern, lodging, food & beverage, private club, meetings & events, and other hospitality related industries. Current and future career opportunities are explored.

HSP 101
INTRODUCTION TO GLOBAL TOURISM
Undergraduate

This course takes a cross-disciplinary approach to examine the many facets of tourism. Specific analysis of world travel destinations, customs and traditions, visitor attractions, political, religious and other cultural differences as these relate to the tourism industry will be over-viewed. This course evaluates tourism globally while identifying economic, socio-cultural, and environmental impacts on host destinations from the perspectives of the local communities as well as the traveler. The basic dimensions of sustainability, civic engagement, ethics, service and the historical perspective that are integral to the tourism industry will be covered from a social science perspective, in order to provide students with the kind of practical knowledge that can be applied in many fields of study. This course is intended for non-Commerce students and cannot be counted toward a major or minor in Hospitality Leadership.

HSP 201
INTERNATIONAL HOSPITALITY SERVICE & EXPERIENCE MANAGEMENT
Undergraduate

The concepts of service, service delivery and service recovery in different cultural and geographic contexts are explored, including the full range from limited service through deluxe, the intentional decisions of management about what and how much service to offer, the quality of service, delivering service for rather than to someone, and how to transform a service event into a repeatable, memorable experience.
HSP 202  
**HOSPITALITY BUSINESS OPERATIONS**  
*Undergraduate*  
This course details key hospitality industry organizations and their business structures. Exploring the operations specific to hotels, restaurants, private clubs and the meeting & events segments will be the focus of this course. Current issues, trends and technologies within hospitality business operations specific to these segments will be evaluated and detailed.

HSP 203  
**HOSPITALITY LEADERSHIP FORUM I**  
*Undergraduate*  
The primary goal of the course is to move students towards the development and understanding of the foundations of leadership, differentiating leadership from management, and emphasizing the core traits and other personal qualities required of successful hospitality leaders. The course further focuses on the importance of a leader's character, values and professionalism as the basis for ethical decision-making in an organizational context.

HSP 204  
**HOSPITALITY LEADERSHIP FORUM II**  
*Undergraduate*  
The successful delivery of hospitality products and services is often a result of interdisciplinary teams working together. In this course, students will explore the composition and functionality of hospitality teams, how guest and operational problems are identified and solved through group interaction and dynamics, and how team performance is assessed through guest satisfaction.

HSP 203 is a prerequisite or corequisite for this class.

HSP 206  
**HOSPITALITY RATIO & DATA ANALYSIS**  
*Undergraduate*  
This course is designed to encourage and enable students to think creatively and critically about ratio data analysis as a tool in hospitality decision-making. Today many hospitality organizations are overwhelmed with data, however making the most effective and efficient use of that data is a continuing challenge. This course will provide students an opportunity to practice some of the skills associated with turning data into useful information for sound hospitality decision-making.

ACC 102 is a prerequisite for this class.

HSP 207  
**HOSPITALITY LAW & ETHICS**  
*Undergraduate*  
Legal and ethical concepts in the hospitality industry are explored, including the structure of the American legal system, contract law, discrimination, product and property liability, and torts. Laws specific to the hospitality industry are introduced. Ethical perspectives are identified and applied to hospitality operations. Administrative law and government regulation of hospitality is also discussed.

HSP 301  
**SERVICE LEADERSHIP SPEAKER SERIES I**  
*Undergraduate*  
Industry professionals will address service leadership and current issues in hospitality and tourism. Speakers will address the role of leadership in the creation and delivery of service. This course should be completed during a student's junior year.

Junior Standing or above is a prerequisite for this class.

HSP 302  
**SERVICE LEADERSHIP SPEAKER SERIES II**  
*Undergraduate*  
Industry professionals will address service leadership and current issues in hospitality and tourism. Speakers will address the role of leadership in the creation and delivery of service. This course should be completed during a student's senior year.

Senior standing is a prerequisite for this class.
This course is a supervised and structured industry learning experience. It is designed for students to concurrently obtain practical experience and course credit through a formal internship in a functional department within hospitality operations. Site is to be chosen in collaboration with faculty. Students must win acceptance through an interview with a hospitality professional who will supervise the practicum. Potential sites could include one of Chicago's many hotels, private clubs, convention centers, tourism offices, airports, airlines, spas or restaurants. Students are required to work a minimum of 50 hours needed for completion over a 10-week quarter.

HSP 100 and HSP 204 are a prerequisite for this class.

This course is a supervised and structured industry learning experience. It is designed for students to concurrently obtain practical experience and course credit through a formal internship in a functional department within hospitality operations. This course reflects the importance of providing additional real-world job experience within a unique sector other than that experienced from the student's completion of their first internship. This course is designed to advance and contrast students experiences within both practica. Site is to be chosen in collaboration with faculty. Students must win acceptance through an interview with a hospitality professional who will supervise the practicum. Potential sites could include one of Chicago's many hotels, clubs, convention centers, tourism offices, airports, airlines, spas and restaurants. Students are required to work a minimum of 50 hours needed for completion over a 10-week quarter.

HSP 303 is a corequisite for this class.

This course explores the management of, and leadership roles within, private city, country, and athletic clubs. Topics include: the general manager function; organizational structure of clubs; the role of the board of directors; membership requirements; equity and non-equity clubs; tax-exempt clubs and nontax-exempt clubs; duties and leadership responsibilities of department heads in private clubs; governmental regulations; the future of clubs; and the relationship of private clubs to the hospitality industry.

HSP 100 and HSP 202 are a prerequisite for this class.

This laboratory-based course is an introduction to the basic principles of food production. Topics include culinary terminology, theory and application of food preparation techniques, food product identification and fabrication.

ServSafe Manager Certification and a declared Club Management Concentration is a prerequisite for this class.

Analysis of factors affecting quantity food production and service in the foodservice industry, emphasizing adherence to food quality and service, ethical evaluation of food products and commercial equipment, planning and coordinating food production activities for large groups, and the impact of operations upon environmental sustainability.

HSP 321, ServSafe Manager milestone and a declared Club Management concentration is a prerequisite for this class.

An in-depth, international, comprehensive study and analysis of the senior club manager's role in operating a successful private club. Focused on advanced methods and issues including: career planning, club bylaws and rules, legal and ethical concerns, facility design and management, special enterprises within the club, break even and financial analysis, club feasibility and marketing, research interests, membership services, CCM certification and promotion/public relations. Case studies and a comparison of international approaches to managing clubs will be used to augment lectures and discussions.

HSP 320 is a prerequisite for this class.
HSP 330
FOODSERVICE MANAGEMENT
Undergraduate
This course is designed to introduce the major components of food and beverage service management and to differentiate those components from management in other hospitality segments. The course focuses on management procedures, service styles and safety in food service operations. The course examines the basics of several types of restaurants, including independents and chains. Catering operations will also be addressed.

HSP 100 and HSP 202 are a prerequisite for this class.

HSP 331
FOODSERVICE PURCHASING
Undergraduate
Details the standards of quality as applied to food, supplies and related products used in the foods industry. Provides methods and criteria for recognizing quality, evaluating, specifying, purchasing and inspecting these products. The use of technology in the purchasing component of the foodservice industry is detailed.

HSP 330 or 339 is a prerequisite for this class.

HSP 332
BEVERAGE MANAGEMENT
Undergraduate
This course is an overview of the commercial beverage industry. Emphasis is on management's role and responsibility in operating a facility serving alcoholic beverages. Principles and practices regarding the production, selection, purchasing, storage and service of beverage alcohol in the hospitality industry are detailed.

HSP 333
INTERNATIONAL WINE EDUCATION & MANAGEMENT
Undergraduate
The purpose of this course is to introduce students to the world of wine. The course emphasizes export shares and trends for significant producing counties and regions. The course further will focus on the processes of grape growing and the science that underlies the practical issues. The implications for wine-style, quality and costs of decisions taken at each stage of wine production will be covered. Students must be legal drinking age by start of course.

HSP 334
CONTRACT FOODSERVICE MANAGEMENT
Undergraduate
This course focuses on the field of professional contract food management. Major corporations will be evaluated. The course will emphasize: contractor activities, types of management contracts, contracts versus commercial foodservice operations and the client liaison.

HSP 330 or 339 is a prerequisite for this class.

HSP 339
NON-PROFIT FOODSERVICE MANAGEMENT
Undergraduate
This course is designed to introduce the major components of food and beverage service management in non-profit foodservice operations such as at schools, soup kitchens, homeless shelters, disaster relief agencies, missions, etc., and to differentiate those components from for-profit organizations. The course focuses on management procedures, service styles and safety in non-profit food service operations.

HSP 340
LODGING PROPERTY MANAGEMENT
Undergraduate
Practices and systems utilized in the operational management of the hotel, including front office, reservations, uniform service, and housekeeping areas. Coordination with F&B, catering, sales & marketing, and other departments are explored. Computer systems used as property management systems are introduced and discussed.

HSP 100 and HSP 202 are a prerequisite for this class.
HSP 341
RESORT & SPA MANAGEMENT
Undergraduate
The range of resort and spa operations are explored and analyzed. Key topics unique to these geographic and programmatic settings are discussed, including issues in guest relations, the design of programs and amenities, the role of golf courses, tennis facilities, swimming pools and water sports, spas, the impact of operations upon environmental sustainability, and the importance of conference/meeting events in the resort industry.
HSP 100 and HSP 202 are a prerequisite for this class.

HSP 342
TIME SHARE MANAGEMENT
Undergraduate
The course focus is upon the concepts of timeshare management. Topics include historical background, development process, market analysis, exchange systems, ownership and calendar issues, ethical obligations, budgeting, and customer relations.
HSP 100 and HSP 202 are a prerequisite for this class.

HSP 343
CASINO MANAGEMENT
Undergraduate
Explore the history and development of gaming, casino operations including slots, table games, sports and Internet betting, credit and casino accounting, casino hotels and casino foodservice, and the marketing of the core gaming products. A central focus will be on current trends as well as the primary management and financial elements unique to operating a casino.

HSP 349
NON-PROFIT ACCOMMODATION, SAFETY & SECURITY
Undergraduate
This course is designed to introduce the major components of lodging management in non-profit operations such as at homeless shelters, battered women and children shelters, disaster relief agencies, missions, etc., and to differentiate those components from for-profit lodging organizations. Safety and security concerns of patrons, employees and volunteers in non-profit settings are also explored. The course focuses on management procedures, service styles, and safety in non-profit lodging operations.

HSP 350
MEETING MANAGEMENT
Undergraduate
This course focuses on the fundamentals and core issues of meeting management. Development of meeting time-lines, checklists and request for proposals are covered. The course emphasizes meeting planning, budgeting, marketing, public relations, food and beverage and contract and lease negotiations.
HSP 100 and HSP 202 are a prerequisite for this class.

HSP 351
DESTINATION MANAGEMENT
Undergraduate
Provides a comprehensive coverage of worldwide tourism destinations, examining the basic principles of underlying the development of tourist demand, supply and transportation, together with a broad survey of world tourism by generating regions and by destination regions. The convention and visitors bureau (CVB) or local governmental tourism agency is discussed as an integral part of destination marketing and addresses its place and importance in the local hospitality industry and larger, general business community. Issues explored include organizational structure, financing, ethical decision-making, numerous audiences, impact upon environmental sustainability, and its sales and service missions.
HSP 100 and HSP 202 are a prerequisite for this class.
HSP 352
SPECIAL EVENTS MANAGEMENT
Undergraduate
This course examines the planning and execution of special events. It is designed to help hospitality leadership students learn the theories of event management with exposure to actual events and event planners. The student will learn how to formulate event strategies for destinations. The course will focus on planning, developing, managing, and implementing all types of events, such as entertainment events, corporate events, cultural events, sporting events and festivals.

HSP 100 and HSP 202 are a prerequisite for this class.

HSP 353
EXHIBITION MANAGEMENT
Undergraduate
In this course students will concentrate on organizing, arranging and operating conventions, trade shows, and expositions. The course focuses on the modes and methods of sales used in booking conventions and trade shows, as well as the division of administrative responsibility in their operation.

HSP 100 and HSP 202 are a prerequisite for this class.

HSP 354
MEETING & EVENT RISK MANAGEMENT
Undergraduate
This course introduces procedures to manage facilities and risk specific to the events industry. This knowledge is needed to protect guests from safety hazards and firms from loss of profits specific to this unique sector of hospitality. Topics covered include: health and safety, loss prevention and security, emergency preparedness and safeguards, program design and site management.

HSP 100 and HSP 202 are a prerequisite for this class.

HSP 355
ADVANCED MEETING MANAGEMENT
Undergraduate
This course introduces advanced management and decision making specific to the events industry. Analysis of current issues and future trends in meeting, exhibition and event management and their impact on other sectors within the hospitality industry will be explored.

HSP 350 is a prerequisite for this class.

HSP 360
HOSPITALITY PRICING
Undergraduate
Principles and practices involved in hospitality industry pricing strategies from economic, systems, marketing, distribution, and brand perspectives are explored. Topics include an introduction to yield management, technological trends, pricing theory, benchmarking and reporting matrices, transparency in group and transient market pricing, ethical pricing decisions and the impact upon environmental sustainability, hurdle rates, pricing fences, and the process of competitive analysis. Simulation hotel software is used.

HSP 361
YIELD MANAGEMENT
Undergraduate
Identify, exploit and secure opportunities for hotel revenue maximization. Current methodologies are explored along with the many ethical and legal issues associated with different pricing strategies. Particular emphasis is on optimization of pricing and capacity allocation decisions, impact upon environmental sustainability, constrained optimization, quantitative models of consumer behavior, demand forecasts, and market uncertainty.
HSP 362
GLOBAL DISTRIBUTION SYSTEMS
Undergraduate
The evolution of the distribution of global hospitality and tourism products is explored. Distribution systems have become increasingly complex and sophisticated, increasing the need for successful channel management. Topics include the integration of channels, the role of intermediaries, channel optimization, pricing integrity, product packaging the impact upon environmental sustainability, and the integration of marketing efforts in distribution outlets.

HSP 361 is a prerequisite for this class.

HSP 371
CUSTOMER RELATIONSHIP MANAGEMENT
Undergraduate
Developing effective strategies for managing customer relationships is the focus of this course, including the active management of relationships through data analysis of customer demands, expectations, and needs. Topics include customer behaviors, expectations, creation and positioning of value, guest satisfaction, ethical service delivery, service quality and sustainable continuous improvement processes, technological applications and loyalty/reward programs.

MKT 310 and a completed concentration are a prerequisite for this class.

HSP 372
GLOBAL HOSPITALITY BRAND MANAGEMENT
Undergraduate
Learn to identify strategies and tactics in hospitality brand management, including brand concepts, brand equity, brand mapping, and differentiation. The focus is to explore and understand the importance of brands in hospitality, what brands mean to customers, and how brands should be managed. Students will develop an understanding of hospitality brand design, packaging, naming, profit and loss statements, and product strategies, including legal and global issues. Explore how marketing decisions regarding product policy, pricing, advertising or distribution are made when taking into account the impact on brand equity in the hospitality industry, plus information about how to build and maximize strong hospitality brands.

HSP 100, HSP 202 and MKT 301 are a prerequisite for this class.

HSP 373
INTERNATIONAL HOSPITALITY FRANCHISING
Undergraduate
This course examines franchising in the hospitality industry from both the franchiser and franchisee's point of view. Students examine start-up, organization, franchiser/franchisee relations, cooperative marketing, legal issues, and daily operations in a variety of hospitality and tourism businesses.

HSP 100, HSP 202 and MKT 301 are a prerequisite for this class.

HSP 381
HOSPITALITY RISK MANAGEMENT
Undergraduate
Introduces procedures to manage facilities and risk in the hospitality industries. This knowledge is needed to protect guests from safety hazards and firms from loss of profits. Examines risk management processes commonly used in the hospitality industry and their potential to protect physical, non-physical, financial and human assets, including the coverage of such issues as insurance, handling losses, safety, security, ethical decision-making, environmental sustainability, crisis management, and emergency procedures.

HSP 100 and HSP 202 are a prerequisite for this class.

HSP 382
MANAGING WITH HOSPITALITY UNIONS
Undergraduate
Labor relations and collective bargaining relative to the hospitality industry and their uniqueness in the various segments are explored in this course. The course will focus on labor relation information specific to approaches used by unions to organize as well as methods used by management to combat organization.

MGT 300 is a prerequisite for this class.
HSP 386
HOSPITALITY ACCOUNTING I: REVENUES & EXPENSES
Undergraduate
The application of accounting principles as applied in the hospitality industry is explored. The purpose of this class is to advance the hospitality student's knowledge of accounting concepts related to the income statement using the hospitality industry version of the Uniform System of Accounts. The class increases the students understanding of the importance revenue recognition, expense classification, and matching of revenue and expenses for operational analysis purposes. Students will study payroll accounting, withholding and tax reporting requirements and regulations specific to the hospitality industry along with labor variances and their relevance to understanding operations and performance versus budgets. This class, in conjunction with HSP 387, HSP 388 and HSP 389, will prepare the student to successfully sit for and pass the accounting portions of the Certified Hospitality Accountant Executive exam.

ACC 102 is a prerequisite for this class.

HSP 387
HOSPITALITY ACCOUNTING II: CAPITAL MANAGEMENT & RISK
Undergraduate
This course provides an in-depth understanding of the Balance Sheet for companies in the hospitality industry. The purpose of this class is to advance the hospitality student's knowledge of accounting concepts. The class will provide students with an operational approach to the financial risks that exist in every organization as well as those unique to the hospitality industry. The class will also introduce students to the unique challenges of working capital management and control in the hospitality industry. The Hospitality Industry utilizes the Uniform System of Accounts to establish an industry-wide framework for reporting. The students will become familiar with the Uniform System of Accounts, its purpose and proper Balance Sheet application. This class, in conjunction with HSP 386, HSP 388 and HSP 389, will prepare the student to successfully sit for and pass the accounting portions of the Certified Hospitality Accountant Executive exam.

ACC 102 and HSP 386 are a prerequisite for this class.

HSP 388
HOSPITALITY ACCOUNTING III: BUDGETS & LEASES
Undergraduate
The purpose of this class is to advance the hospitality student's knowledge of operating budgets, lease accounting and tax status of private clubs. This class, in conjunction with HSP 386, HSP 387 and HSP 389, will prepare the student to successfully sit for and pass the accounting portions of the Certified Hospitality Accountant Executive exam.

ACC 102 is a prerequisite for this class.

HSP 389
HOSPITALITY ACCOUNTING IV: INFORMATION TECHNOLOGY SYSTEMS
Undergraduate
In this course students are introduced to the critical information technology systems necessary to run a hospitality business including property management, distribution channels, revenue management, computing, and telecommunications. This class, in conjunction with HSP 386, HSP 387 and HSP 388, will prepare the student to successfully sit for and pass the accounting portions of the Certified Hospitality Accountant Executive exam.

ACC 102 and MIS 140 are a prerequisite for this class.

HSP 398
SPECIAL TOPICS IN HOSPITALITY
Undergraduate
Special Topics. Content and format of this course are variable. An in-depth study of current issues in hospitality. Subject matter and prerequisites will be indicated in class schedule.

HSP 399
INDEPENDENT STUDY
Undergraduate
Available to students of demonstrated capability for intensive independent work in Hospitality Leadership.
HSP 502
MANAGING THE GUEST/EMPLOYEE EXPERIENCE
Graduate
This course is designed to examine highly developed principles of the guest experience, the guest/employee interface, and the role employee development and service delivery plays within the hospitality industry. Leadership of various hospitality service operations will be studied in the context of realms of experience and guest quality assurance. Experience realms will be grounded in the constructs of unique hospitality experiences that engage guests in an inherently personal way. Topics will include: customer care and loyalty programs, creativity and innovation, employee skill development, service operation strategies, product design, capturing guest identity, and customer co-creation.
HSP 502 is a prerequisite for this class.

HSP 503
ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE
Graduate
The goal of this course is to examine advanced hospitality leadership practices within the various industry segments. Leadership principles and hospitality management approaches will be examined through the lens of financial and human capital performance. Topics include: critical decision-making, hospitality team dynamics and service performance, financial feasibility in operational delivery, brand and marketplace competency, ethics and values.
MGT 500 and MGT 502 are prerequisites for this class.

HSP 505
SERVICE TECHNOLOGY & INNOVATION IN THE HOSPITALITY ENVIRONMENT
Graduate
This course examines the interaction and interdependency of hospitality technology and service systems in the context of service leadership, innovation and multi-media. Students will apply contemporary theory surrounding technology utilization in hospitality service systems including: human capital productivity and infrastructure hierarchy, network based service systems, efficiency and effectiveness information processing, enhanced client interfacing and user generated content issues and opportunities.
HSP 502 is a prerequisite for this class.

HSP 506
HOSPITALITY OPERATIONAL PERFORMANCE DESIGN & IMPLEMENTATION
Graduate
The goal of this course is to evaluate, construct and apply innovative service design and implementation models of service systems in the hospitality operation environment. The course will enable students to analyze service systems through the lens of competitive service orientated product positioning, and operational system architecture. Topics include: hospitality systems thinking-service design, service product life cycle evolution and development, hospitality organizational structure and service system procedures, integrated hospitality operational diagnostics and operational performance metrics.
HSP 505 is a prerequisite for this course.

HSP 550
NON-PROFIT EVENTS MANAGEMENT
Graduate
Non-Profit event management is evolving into a complex and dynamic discipline within the hospitality industry. This course examines the nature and structural components of event management within the non-profit sector. The course design will incorporate event conceptualization and evaluation techniques unique to the non-profit hospitality product delivery. Topics will include: market segmentation, strategic analysis for event planning, financial literacy, managerial and operational logistics, governmental and non-governmental advocacy, sponsorship development and fund raising, contract execution and administration.
MGT 500 is a prerequisite for this class.
HSP 551
NON-PROFIT FOODSERVICE MANAGEMENT
Graduate
Non-profit hospitality foodservice encompasses a broad array of institutions, associations and organizations on a local, regional and national level. This advanced course in non-profit foodservice management examines the leadership requirements associated with National philanthropic and local grass-roots community organizations including soup kitchens, meals on wheels programs, emergency shelters, community alliances, and food pantries. Topics include: menu development and nutritional elements of non-profit foodservice operations, licensing and inspection requirements, food handling and OSHA work safety guidelines, food sourcing and distribution, national and local initiatives programming, and developing marketing networks/partners.
MGT 500 and MGT 502 are prerequisites for this class.

HSP 561
REVENUE MANAGEMENT
Graduate
This course explores revenue management within the hospitality industry from a comprehensive perspective as it pertains to the importance of generating business revenues and contributions to the overall service-firm financial performance. The evolution of revenue management principles and practices within the hospitality sector has advanced in both sophistication and complexity, increasing the need for enhanced development of human capital, investments in data analytics, and systems integrated approaches to successful revenue generation. Topics include: Data mining and predictive analytics, inventory and price management, consumer behavior, social media and e-commerce, and demand based forecasting. Simulation software is used in this course to apply the principles of revenue management to practical situations.
GSB 420 and MKT 555 are prerequisites for this class.

HSP 562
HOSPITALITY DISTRIBUTION CHANNELS
Graduate
This course examines advanced principles and applied hospitality revenue management strategies associated with service distribution channels. Topics include an introduction to the global distribution networks, branding perspectives and channel management, corporate reservations systems, travel intermediary relationships, advanced pricing theory-price parity, product marketing and content consistency, search engine optimization, competitive positioning and analysis, systems processing, human capital resources and organizational processes.
HSP 561 is a prerequisite for this class.

HSP 563
HOSPITALITY DATA ANALYSIS & FINANCIAL METRICS
Graduate
This course provides a comprehensive perspective of various hospitality financial performance constructs and key industry operating performance benchmarks. Students will be indoctrinated to hospitality industry financial metrics and the critical nature of linking financial analysis with decision-making in order to achieve organizational profitability objectives. Topics include: interpretation of financial statements, operating control systems, budgeting-forecasting synthesis, operational leadership techniques and operations flow-through, flex staffing and productivity, and capital-facility maintenance. PREREQUISITE(S): GSB 420
GSB 420 is a prerequisite for this class.

HSP 793
PRACTICUM IN APPLIED HOSPITALITY LEADERSHIP
Graduate
Experiential learning plays an important role in applying academic knowledge to real-world business challenges and opportunities. This practicum in applied hospitality leadership engages students in a practical, experiential, multidisciplinary approach to learning, which fosters development of personal and professional skills. Under the direction of the course faculty, students assume the role of researchers/advisors to key Chicago hospitality organizations that seek guidance on business strategy or challenging operational issues. Projects might include; leadership assessments service-process improvements, service innovation, event planning, club management and others. Students work closely with sponsoring organizations and supervising faculty to identify the scope of the projects, collect information and conduct analysis, and then report findings and/or recommendations. Major outcomes include an oral presentation to faculty and a written report for management.
HSP 798  
SPECIAL TOPICS  
Graduate  
Content and format of this course are variable. An in-depth study of current issues in hospitality. Subject matter will be indicated in class schedule. Offered variably.

HST 111  
THE WORLD TO C.1500  
Undergraduate  
This course will examine the phenomenon of civilization as experienced by West Asian, South Asian, East Asian, African, European, and Pre-Columbian American societies to 1500 A.D. Formerly HST 218.

HST 112  
THE WORLD, C.1500-1914  
Undergraduate  
This course will examine the global integration of all societies from 1500 A.D. to World War I. Formerly HST 219.

HST 113  
THE WORLD, 1900-PRESENT  
Undergraduate  
A survey of the political, cultural, and technological developments of the years since 1900, concentrating on the growth of a single world-wide civilization and on the changing international balance of military, political and economic power. Formerly HST 220.

HST 121  
LATIN AMERICA TO C. 1765: PRE-COLUMBIAN SOCIETIES AND THE COLONIAL PERIOD  
Undergraduate  
A survey of Latin American history that offers a continental approach to the colonial period. Special attention is given to Native American societies before 1492, to the Spanish conquest of Mexico and Peru, to the trade in African slaves (Spanish and Portuguese colonies), and to issues of race, class, and gender during the colonial period.

HST 122  
LATIN AMERICA, 1765-1914: THE LONG 19TH CENTURY  
Undergraduate  
One of the main goals of this course is for students to determine whether the long 19th century was an era of revolution and social change or a continuation of colonial institutions and policies. To address this broad question, the course focuses on the Bourbon Reforms, the Wars of Independence, the problems associated with nation building, and the neo-colonial order. Through the analysis of some individual countries (for example Mexico, Argentina, and Brazil) students will study key issues like slavery, the “India question,” race relations, class formation, social inequalities, authoritarianism, Church-State relations, liberalism, subaltern resistance, and North-South relations.

HST 123  
LATIN AMERICA, 1914-2010  
Undergraduate  
This is an introductory course designed to provide students with a basic and general knowledge of Latin American history from the 1910s to the present. The course highlights the challenges and failures the new republics faced. Due to the diverse historical experiences, cultures, and economic and political systems, the course will focus on the main social, political, and economic issues that shaped Latin America during the 20th century (democracy, social revolution, social justice, political violence, and repression).

HST 131  
AFRICA TO 1800  
Undergraduate  
A study of African history from earliest times, concentrating on the political, social and religious aspects of major African states and empires. Formerly HST 227.
HST 132  
AFRICA, 1750-1900  
Undergraduate  
The Age of Conquest. The origins of Afro-European relations and the political, economic and military causes of the European partition and occupation of the continent. Formerly HST 228.

HST 133  
AFRICA, 1900-PRESENT  
Undergraduate  
The workings of the colonial system, the rise and course of independence movements, and the history of individual African states since independence. Formerly HST 229.

HST 141  
THE MUSLIM WORLD, C. 600 CE TO 1100  
Undergraduate  
Foundation of First Global Civilization (600-1100). A study of the emergence of Islam and the growth of the Islamic community from the time of the Prophet Muhammad until the end of the eleventh century. Formerly HST 223.

HST 142  
THE MUSLIM WORLD, 1000-1500  
Undergraduate  
Sultans, Khans and Shaykhs: Medieval Islamic History (1000-1500). A survey of Muslim history from the decline of the Arab caliphate to the rise of the great gunpowder empires, addressing themes of political expansion, military slavery, devastation brought about by the twin plagues of the Mongols and the Black Death, and the growth of Islamic mysticism. Formerly HST 224.

HST 143  
THE MUSLIM WORLD, 1400-1920  
Undergraduate  
Great Empires (1400-1920). Examines the social, cultural and economic histories of the Ottoman-Turkish, Safavid Iranian and Mughal-Indian empires which dominated the Muslim world in the crucial centuries between the end of the Mongol empire and the advent of European dominance. Formerly HST 225.

HST 151  
SOUTH ASIA TO C. 900 C.E.  
Undergraduate  
The course follows the development of the history of the region from the earliest phases of human settlement, the first civilization in the Indus valley, and the formation of the Mauryan and Gupta empires. It will analyze the growth of different state structures from tribal/lineage based state to these great empires. It incorporates the rise of regional states and the growing importance of trade linking South Asia with the West. It will also examine the development of different religious traditions from Vedic Brahmanism to Buddhism to Jainism and the very early days of Islam in the region. The central question of this course will be how to contextualize the relationship between structures like family, law, caste, community, state and the tumultuous changes in the subcontinent over this long period. Formerly HST 256.

HST 152  
SOUTH ASIA, C. 900 CE TO 1707  
Undergraduate  
The course begins with the transformation of society from the 'ancient' to the 'medieval', and compares it to developments in Europe in the feudal age. It then incorporates specific developments in South Asia: political, social, cultural, that came about with the establishment of powerful Islamic states in a region where Muslims were a minority. These issues will inform the analysis of the Ghaznavid and Ghurid invasions, the Delhi Sultanate, the Vijayanagara empire and the Mughal empire. The course will end with the Marathas and the decline of the Mughal empire, and the rising influence of the British. The central themes concern how the state, economy, culture, and society developed in the period when Islam became firmly embedded in South Asia.
HST 153  
**SOUTH ASIA, 1707-1947**  
*Undergraduate*  
The course begins with the decline of the Mughal Empire, and then moves to examine the British empire, the nationalist movement and finally to independence and partition in 1947. The central questions of this course continue to be relevant in the post-colonial period: how we understand the distinctive form of modernity that has developed in South Asia. Taking a comparative approach as often as possible, the course examines the fundamental ways that Britain was as transformed by the development of its empire as was colonial India. The course constantly deconstructs easy binaries of self and others/ East and West by examining the differences within Indian and British society.  
Formerly HST 257.

HST 161  
**EAST ASIA TO C. 1200**  
*Undergraduate*  
Outlines the history of the region (China, Korea and Japan) during the period of antiquity. Follows the development and the formation of dynastic rule in China and Korea and the imperial institution in Japan. Assesses the extent of the role of ancient Chinese philosophy, language, and statecraft in establishing a coherent region we now call "East Asia."

HST 162  
**EAST ASIA c. 1200 TO 1800**  
*Undergraduate*  
Begins with the transition of East Asia (China, Korea and Japan) from ancient to medieval society and compares it to developments in Europe during the feudal age. Explores the political, economic and cultural relations between the various states in the region as a whole as well as the specific local developments of state and society during this period. Examines the arrival of the first Europeans, traders and then Jesuit and Catholic missionaries, and the resulting radical social realignment within each society stemming from this encounter with the 'outside.'

HST 163  
**EAST ASIA , c.1800-PRESENT**  
*Undergraduate*  
Begins with the reshaping of East Asian relations from the late 18th century following the realignment of the region after the expulsion of European Catholic missionaries. Follows the radical shift in the relations between these countries as they all sought to respond to the imperial challenges that the West imposed. Explores the central role of Japan and its effort to build an empire in and beyond East Asia from the late 19th century through its defeat in World War II and the lasting historical legacy of that history in the region.

HST 171  
**EUROPE, 400-1400**  
*Undergraduate*  
The important components of European society during the Middle Ages, including rulers, knights, and peasants, churchmen and nuns, urban merchants, intellectuals, and artisans. Who were these Medieval people, what differentiated them, how did they interact with each other, and how and why did these interactions change over time? Formerly HST 210.

HST 172  
**EUROPE, 1348-1789**  
*Undergraduate*  
The development of new European ideologies in a time of heightened political and social conflict, from the rebirth of ancient culture in Renaissance Italy, to the religious debates of the Protestant Reformation; from the theories of absolute monarchy to the early revolutionary ideologies of the Enlightenment. Formerly HST 211.

HST 173  
**EUROPE, 1789-PRESENT**  
*Undergraduate*  
A survey of European history from 1789 to the present. Formerly HST 217.

HST 181  
**UNITED STATES TO 1800**  
*Undergraduate*  
A survey of the major social, political, economic and cultural themes in U.S. History from the earliest European settlements to the aftermath of the Revolution. Formerly HST 280.
HST 182
UNITED STATES, 1800-1900
Undergraduate
A survey of the major social, political, economic and cultural themes in U.S. history from the aftermath of the Revolution to the Spanish-American War. Formerly HST 281.

HST 183
UNITED STATES, 1900-PRESENT
Undergraduate
A survey of the major social, political, economic and cultural themes in U.S. history from the Progressive era to the present. Formerly HST 282.

HST 200
MEXICO AFTER INDEPENDENCE
Undergraduate
This survey covers the history of Mexico from 1821 to the present. It will examine the difficulties of nation-building during the 19th Century, the Mexican Revolution (1910-1940), and the success and failure of the "Mexican Miracle."

HST 204
FILM AND LATIN AMERICAN HISTORY
Undergraduate
An inquiry into the way film portrays historical events in Latin America.

HST 206
MEXICO: FROM THE OLMECS TO INDEPENDENCE
Undergraduate
This course surveys the history of Mexico from the rise of the Olmec Civilization to Mexican Independence in 1821. It will examine the rise, fall, and continuities of Mesoamerican civilizations, the Spanish conquest, and the creation of the colonial order.

HST 208
IMPERIAL RUSSIA
Undergraduate
This course examines political, economic, social, and cultural developments in Russia from the time of Peter the Great in the early 18th century to the collapse of tsarism in 1917. Topics include Westernization and resistance during the reigns of Peter the Great and Catherine the Great; reform and reaction under Alexander I and Nicholas I; Alexander II and the great reforms of the 1860's; industrialization and the transformation of Russian society in the second half of the nineteenth century; the rise of radicalism and emergence of revolutionary movements; and the revolutions of 1905 and February 1917.

HST 209
THE RISE AND FALL OF THE SOVIET UNION
Undergraduate
This course examines major political, social, economic, and cultural developments in twentieth-century Russia form the collapse of tsarist rule through the fall of communism. Topics include the rise of Bolshevism and the October Revolution; the Civil War and allied intervention; the period of NEP and "revolutionary dreaming;" Stalin and Stalinism; the Great Patriotic War; Khrushchev and the "thaw," Brezhnev and "developed socialism," and the rise and fall of Mikhail Gorbachev.

HST 212
MEDIEVAL AND RENAISSANCE WOMEN
Undergraduate
Gender roles and ideologies in pre-modern and early modern Europe, from ancient Mediterranean and Germanic women to high Medieval ladies, nuns, serfs, and city women, from early feminism to the restrictions and opportunities brought by the Renaissance and Reformation. Emphasis on primary sources, especially women's writings.
HST 213
MEDIEVAL MYSTICS IN EUROPE: 1000-1600 AD
Undergraduate
The evolution over time of theories and experiences of human union with God, and of varied Christian spiritual paths and practices, as described in mystical literature, saints' lives, religious art, and music. Emphasis on the monastic, urban, and courtly institutional contexts of the documents. Cross-listed as CTH 228

HST 214
EASTERN EUROPE TO 1699
Undergraduate
A survey of the area's settlements by Slavic and non-Slavic peoples, the establishment of medieval states, the East European Renaissance and Reformation, the struggle of Cross and Crescent, and the growth of Habsburg and Ottoman power.

HST 215
EASTERN EUROPE: 1699 TO 1914
Undergraduate
A survey of the East European Enlightenment and absolutism, the Polish Partitions, and the effects of revolutionary ideas on multinational empires.

HST 216
EASTERN EUROPE: 1914-PRESENT
Undergraduate
A survey of World War I and its effects in Eastern Europe; the rise of nation-states; the destruction of traditional agrarian societies; the impact of World War II; and the establishment and decline of Communist regimes.

HST 221
EARLY RUSSIA
Undergraduate
This course examines political, economic, social, and cultural developments in Russia from the emergence of the Kievan state in the ninth century to the reign of Peter the Great in the early eighteenth century. Topics include the rise and fall of Kiev; the Mongol invasion and rule by the "Golden Horde;" the rise of Moscow and unification of Great Russia; the consolidation of tsarist authority and the reign of Ivan the Terrible; the Time of Troubles; and the early Romanov dynasty.

HST 222
MODERN GERMANY, 1870-PRESENT
Undergraduate
Following the path from Germany's unification in the late 19th century via two world wars, the country's division in the course of the Cold War, and ultimately the country's reunification at the close of the 20th century, one of the goals of this course is to introduce students to the major cornerstones of modern German history. Another objective, however, aims at using these events in the exploration of shifting ideas about what it has meant to be German, exploring what factors determined inclusion in or exclusion from the German community.

HST 226
ISLAM AND THE WEST: A SURVEY OF ORIENTALISM
Undergraduate
From "heresy" to "the Green Threat," this course studies the changing perceptions of Islam and the Islamic world held by those in "Western" societies from the time of the Crusades down to the contemporary era.

HST 232
CULTURE AND POLITICS IN IMPERIAL CHINA
Undergraduate
Examines the history of Chinese civilization from the early Shang kingship through the development of the Chinese Empire (221 B.C. - A.D. 1911). We will focus on systematic changes in political, economic, and social structures in China and the intellectual and cultural forms that each configuration produced. Topics include the growth of the Chinese empire, Chinese forms of Buddhism, and the development of Chinese philosophy, scholarship and literature.
HST 233
THE RISE OF MODERN CHINA
Undergraduate
Examine the history of Chinese civilization from the 18th century to the present. We will survey the height of the authority of the Qing Imperial government, its dissolution in the 19th century, and the creation of a revolutionary China in the 20th century. Topics include the Opium War and China’s foreign relations, the introduction of Westernized technology and education, and the rise of Communism under the leadership of Mao Zedong. Also considers the ways in which our contemporary understanding of China is formed by recent developments in the media - Chinese news and film.

HST 235
EUROPEAN EXPANSION: AGE OF DISCOVERY
Undergraduate
A survey of the political, intellectual and scientific roots of the expansion of Europe and of the main voyages of discovery between 1400 and 1825.

HST 236
EUROPEAN EXPANSION: AGE OF EMPIRE
Undergraduate
The establishment of European empires in the 19th and 20th centuries, the nature and effect of empires, the reasons for their disappearance and their legacy for Europe and the non-Western world.

HST 237
HISTORY OF THE CITY OF ROME
Undergraduate
Topics in the history of urban Rome from antiquity through the modern age.

HST 239
WOMEN IN MODERN EUROPE, 1800-PRESENT
Undergraduate
This course will explore the diversity of women’s and girls’ experiences across Europe as they negotiate between public and private spheres, daily life and great events, Europe and the world. Themes may include industrialization, suffrage, imperialism, "new women," facism, and communism.

HST 240
HISTORY OF CHICAGO
Undergraduate
A history of the founding and development of Chicago from a frontier village to a major industrial, commercial and cultural center. This course will focus on the changing lives of ordinary Chicagoans.

HST 241
WORLD REFUGEE CRISIS
Undergraduate
This is a survey of global refugee crisis and internal displacement between 1945 and the present. The course will focus on the following issues and challenges: human rights, definitions and causes of crisis, internal/external displacements, "environmental" refugees, protection and integration, refugee children, and conflict resolutions in post-war societies.

HST 243
HISTORY OF THE CATHOLIC CHURCH IN THE U.S.
Undergraduate
This course traces the development of the Catholic Church from a missionary enterprise to the position of a major social, political, and economic institution. The course will examine the manner in which the hierarchical institution of the Catholic Church has related to the liberal ideal of American democracy.
HST 245
THE HISTORY OF THE BAHAMAS: LOYALSTS, SLAVES & THE CREATION OF AN AFRO-BAHAMIAN WORLD
Undergraduate
History of the Bahamas during the late eighteenth and nineteenth centuries. Focus on the establishment of British rule in the late eighteenth century, the history of slavery in the Bahamas, particularly its expansion after the settlement of Afro-Bahamian society in the nineteenth century. Because the trip will involve time in both Nassau and on San Salvador, the course will compare urban and out island historical and social developments during the Loyalist and post-Loyalist periods.

HST 246
AFRICAN-AMERICAN HISTORY TO 1800
Undergraduate
West African culture, the middle passage, development of the Slave trade, introduction of slavery into the American colonies, African-Americans in the Revolutionary War and the Constitution.

HST 247
AFRICAN-AMERICAN HISTORY, 1800-1900
Undergraduate
African-American participation in frontier life, in the growth of the cotton industry, in the Civil War and Reconstruction to Booker T. Washington.

HST 248
AFRICAN-AMERICAN HISTORY, 1900 TO PRESENT
Undergraduate
W. E. B. DuBois and Booker T. Washington debates; Marcus Garvey and the Harlem Renaissance, the Great Migration, Civil Rights to Black Power. Cross-listed as ABD 258.

HST 249
ORIGINS OF THE FIRST WORLD WAR, 1871-1917
Undergraduate
Examines the development of the European (and Great Power imperial) state system after the unification of Germany; the formation (and global implications) of the pre-war alliance structure; the political and social movements of nationalism, imperialism, and militarism; the naval race; and the July Crisis of 1914.

HST 250
ORIGINS OF THE SECOND WORLD WAR, 1914 - 1941
Undergraduate
Examines the European (and world) state system in the aftermath of the First World War and the Russian Revolution; the attempts to forge a new international equilibrium at the Paris Peace Conference and after; the rise of Hitler and Nazism; appeasement; the immediate origins of the Second World War in Europe; and the rise of militarism and advent of war in East Asia.

HST 251
ORIGINS OF THE COLD WAR, 1917 - 1953
Undergraduate
Examines the rise of the United States as a world power; the diplomatic significance of the Russian Revolution; the wartime alliance between Great Britain, the United States and the Soviet Union; the collapse of the international order in the aftermath of the Second World War; and the advent of the Cold War.

HST 252
Undergraduate
The origins, nature and progress of the Cold War from the end of World War II until the collapse of the Soviet Union.
HST 253
HISTORY OF THE MODERN OLYMPICS
Undergraduate
This course will examine the Modern Olympics: the oldest and most inclusive institutionalized effort to engender international exchange and perpetuate peacefulness through athletic excellence. Relying on a mix of primary and secondary sources, the course will touch on an array of important issues, including globalization, race relations, gender issues, the rise of popular culture, and terrorism.

HST 254
AMERICAN URBAN HISTORY
Undergraduate
An overview, examining American urban life from the early days of the colonial seaport, through the rise of the smoky industrial center, to today's troubled "dual city" of the rich and the poor. Throughout the course, we will focus on how urbanization affected the lives of the diverse peoples who experienced it. We will also explore the ways in which city life contributed to changes in American culture, and to a greater acceptance of social and cultural diversity.

HST 258
WOMEN IN HISTORY
Undergraduate
A comparative study of women's social, cultural, political, economic roles over time in three parts of the world.

HST 259
HISTORY OF WESTERN SCIENCE
Undergraduate
A survey of scientific thought and discovery from the ancient Greeks to the early 20th century.

HST 260
LESBIAN AND GAY AMERICAN HISTORY, COLONIAL TO 1970
Undergraduate
This course surveys LGBTQ (lesbian, gay, bisexual, transgender, and queer) history in America from the colonial era to the Stonewall Riots. Through primary and secondary source readings and class discussion we will examine how understandings of same-sex sex and sexuality have been constructed in the past. Special attention is paid to readings that draw revealing connections between same-sex sexuality and race, class, and gender.

HST 261
CATHOLICISM IN WORLD HISTORY I: JESUS TO 1500
Undergraduate
A study of the development of the Catholic Church from the time of Jesus to the Renaissance. Religious movements, piety and art as well as theology and ecclesiastical history will be examined. Cross-listed as REL 213 and CTH 205.

HST 262
CATHOLICISM IN WORLD HISTORY II: 1500 - PRESENT
Undergraduate
A study of the development of Catholicism since 1500 exploring the Catholic Reformation, Catholicism's encounter with the Enlightenment, the missionary movement and the Catholic Church in the United States. Cross-listed as REL 214 and CTH 206.

HST 263
JAPAN TO C. 1200
Undergraduate
Follows the formation of a unified state in central Japan during the 5th and 6th centuries. Considers the influence of Korean immigrants and Chinese philosophy and statecraft on the unification of Japan in early antiquity. Explores rise of Japan's aristocratic court culture in Nara and Kyoto as well as powerful Buddhist institutions and the emergence of the warrior class in Eastern Japan. Formerly HST 230.
HST 264  
JAPAN, c. 1200 - 1800  
Undergraduate  
Follows the emergence of the warrior class and the system of dual political authority until the 14th century, with the imperial court in Kyoto and the samurai elite in Kamakura. Continues with an examination of the early modern processes of urbanization and the growth of a monetary economy, changes in social organization, major cultural innovations, and religious/intellectual movements.

HST 265  
JAPAN, c. 1800-PRESENT  
Undergraduate  
Follows the radical transformation of Japanese politics, society, and economy with the commercialization of the countryside, the weakening of samurai rule, and increased, often hostile, contact with Western imperialist nations. Explores expansion of Japan as an imperialist nation from the middle of the 19th century and the lasting legacy of that expansion in the region. Explores WWII and postwar political, economic, social changes in contemporary Japan.

HST 266  
IRELAND, 1450 - 1800, CONQUEST, COLONIZATION & REBELLION  
Undergraduate  
This course offers a survey of Irish history from the end of the middle ages to the union of Ireland and Great Britain in 1800. It traces the ways in which Ireland was brought under great English (later British) control through processes of agreement, conquest and colonization; and the ways in which various groups within Ireland sought to resist such developments.

HST 268  
IRELAND, 1800-PRESENT  
Undergraduate  
Survey of Irish history from 1800 to 2000. Examines the course of Irish history from the Act of Union (creating the United Kingdom), through the struggles and reforms of the 19th century (Catholic Emancipation, the Famine and Irish diaspora, Fenianism, Land Reform and Home Rule), to the creation of the modern nation-state of the 20th century (the Easter Rising, partition and civil war, the role of Eamon deValera, the Republic, and the Troubles). Topics include the contributions of Irish culture and its influence in Europe and the world.

HST 269  
INTRODUCTION TO PUBLIC HISTORY  
Undergraduate  
Presentation of American history for public consumption, particularly museum exhibitions, historic preservation, and archival collections. Good preparation for an internship in history.

HST 270  
U.S. HISTORICAL LANDSCAPE  
Undergraduate  
The course considers how the American landscape has been shaped by native occupants, and later, by agricultural settlement and industrial development. A key theme is how culture has shaped the physical world we inhabit, from 1500 to circa 1950.

HST 271  
OLD REGIME AND REVOLUTIONARY FRANCE  
Undergraduate  
This course provides students with a firm foundation in the history of early modern France, ca. 1500-1800, including major developments of the period and an understanding of the relationship between the French revolution and the period that preceded it. Topics will include (among others) the rise of absolutist monarchy, the Enlightenment, French colonialism, pre-revolutionary social and economic conditions, and the French Revolution.

HST 272  
FASCISM AND COUNTER REVOLUTION  
Undergraduate  
An analysis of the various ideological trends that form the mature Fascism from 1920 to the present.
HST 273
HISTORY OF SEXUALITY IN EUROPE
Undergraduate
This course will explore key ideas, practices and patterns across multiple European societies from the French Revolution until the present. Key topics may include demographics, identities, sexology, and sexual consumerism.

HST 274
INTELLIGENCE IN 20TH CENTURY
Undergraduate
A study of intelligence gathering and analysis in the twentieth century (and beyond). This course will address the role intelligence played in the politics, diplomacy, and strategy of the leading world powers. Special consideration will be given to the eras of the two world wars, the cold war, and the emerging nations in the post-war period. The course is comparative in nature and will examine the intelligence communities of the United States, the European powers, the Soviet Union, Japan, China, and Israel.

HST 275
SEX IN AMERICA, PURITANS TO VICTORIANS
Undergraduate
This course surveys the history of three centuries of American ideas about sex and sexuality. By focusing on sexual variation from the era of colonial settlement through the end of the nineteenth century, this course will challenge conventional interpretations of sex in early America.

HST 276
SEX IN AMERICA, LATE VICTORIANS TO PRESENT
Undergraduate
This course will provide an overview of the history of American sexuality from the late 19th century through the present. The course will draw from social and cultural history, the history of medicine and psychology, legal and political history, literature, mass media, and gender studies in order to understand the creation of modern sexual identities.

HST 277
WAR AND PEACE IN THE MODERN AGE
Undergraduate
A survey of military history from 1648 to the present with emphasis on the relationship between armed forces and the societies that create them, the impact of technology on warfare, and efforts to limit deadly conflict.

HST 278
HISTORY OF AMERICAN RELIGION
Undergraduate
A survey of major religious traditions, movements, and themes in American history from the colonial period to the present, including the relationship between religious values and beliefs and other aspects of American culture.

HST 279
WESTWARD EXPANSION IN U.S.
Undergraduate
Explores traditional, comparative, and multicultural perspective of successive frontiers in American history. The period covered is approximately 1775 to 1890.

HST 283
ASIAN-AMERICAN IMMIGRATION AND HISTORY, 1840-1965
Undergraduate
This course surveys Asian American history from the early nineteenth century to 1965. It explores the changing experiences of Asian immigrants and their citizen descendants in the United States within the larger context of immigration and race relations in American history. The course deals with the following broad themes: causes and processes of migration, responses from American society, and experience of immigration.
HST 284
HISTORY OF EDUCATION IN THE UNITED STATES
Undergraduate
Thematic study of the educational developments in U.S. History

HST 285
ANCIENT ROME: AUGUSTUS TO CONSTANTINE
Undergraduate
This course examines the history of the Roman Empire from its beginnings under Augustus (27 BCE-14 CE) to its reorganization under Diocletian (284-305 CE) and Constantine (306-337 CE). Both textual and archaeological sources will be used to understand political, economic, and social developments.

HST 288
WOMEN IN UNITED STATES HISTORY
Undergraduate
The history of women’s work, family, and political lives in America.

HST 290
ANCIENT EGYPT
Undergraduate
This course traces the developments of Egyptian civilization from its earliest beginnings to the Arab/Muslim conquest. Emphasis will be on assessing material culture with students being introduced to techniques of Egyptian archaeology and papyrology.

HST 291
THE FERTILE CRESCENT: MESOPOTAMIA AND BEYOND
Undergraduate
Analyzes the early civilizations in the Fertile Crescent through an examination of material culture. Attention will also be given to the archaeology and archaeological methods of the Near East including Jericho and Catalhoyuk.

HST 292
HISTORY OF ENGLAND TO 1688
Undergraduate
A survey of cultural, social, economic, and constitutional developments in England from the Norman Conquest to the Glorious Revolution.

HST 293
HISTORY OF BRITAIN SINCE 1688
Undergraduate
History of Britain Since 1688. special emphasis on the continued evolution of the constitution, the industrial revolution, imperialism, and Britain's changing role in Europe.

HST 294
ANCIENT GREECE
Undergraduate
Traces the development of Greek civilization through an examination of material culture. Emphasis will be on the major monuments and artifacts of the Greek world from prehistory to the Classical Age. Students will also be introduced to techniques and methods of classical archaeology.

HST 295
AMERICAN HISTORY ON FILM
Undergraduate
Using film in combination with both primary and secondary historical source material, this course will consider the impact of cinematic myth-making on our understanding of actual historical events.
HST 296
ANCIENT ROME: ORIGINS TO THE END OF THE REPUBLIC
Undergraduate
This course traces the development of Rome from a small settlement on the banks of the Tiber in the eighth century BCE to a Mediterranean power in the first century BCE. Both textual and archaeological sources will be used to understand political, economic, and social institutions of the Archaic and Republican periods.

HST 297
IMPERIAL SPAIN, 1469-1808
Undergraduate
Analysis of Spain and Spanish empire between 1468-1808. During this period, Spain united and became a leading global power with enormous consequences for Western and world history. Emphasis on the political, economic, socio-cultural history of Iberian society.

HST 298
INTRODUCTION TO HISTORICAL SOURCES AND METHODS
Undergraduate
This is the first of two introductory core courses required of all history majors, history minors, and education majors with a concentration in history. In this course, students will learn the varied ways in which scholars interpret the past, focusing particularly on the evidence and arguments used by historians in their work. To that end, students will learn about the varieties of primary sources (textual, material, oral) as well as the varied methods historians use to analyze such evidence. In addition, students will practice analyzing primary source evidence in oral and written presentations, learn how to use the library for historical research, and how to discern scholarly arguments in secondary sources.

(WRD 103 and WRD 104) or HON 100 or HON 101 is a prerequisite for this course.

HST 299
CRAFT OF HISTORY
Undergraduate
This course is the second of two introductory core courses required of all history majors, history minors, and education majors with a concentration in history. In this class, students will bring to bear the skills in historical sources and methods learned in HST 298 to complete a substantial independent research project. To that end, students will learn how to identify a historical question or problem about which to conduct research; how to find, obtain, and evaluate primary source evidence to research; how to build a secondary source bibliography using reference works, monographs, and scholarly journal articles; and develop and execute a coherent plan for writing and revising a substantial research paper (of at least 10 pages in length) based on an integrated use of both primary and secondary sources.

HST 298 a prerequisite for this course.

HST 301
U.S. LABOR HISTORY
Undergraduate
This course will explore the history of American labor from 1877 to the present. We will particularly focus upon the work of recent American labor historians who examines such themes as the relationship between ethnicity, race, gender, and class: how and why work has changed; the role of unions, families, churches and other working-class institutions in workers lives; the relationship between working-class cultures and mass cultures; and how capitalism, the state, and workers themselves have shaped class relations.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 302
MAPS IN HISTORY AND CULTURE
Undergraduate
Examines maps in multiple cultures and the relationship of these to local geographies and perception of place.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 303
TOPICS IN LATIN AMERICAN HISTORY
Undergraduate
Topics in Latin American History

HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 304
ETHNOHISTORY: THE STUDY OF PRE-LITERATE PEOPLES
Undergraduate
An inquiry into the sources and methods for writing the history of pre-literate peoples, such as the Aztecs, Mayas, and Incas.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 306
COLONIAL LATIN AMERICA: POWER & DEVELOPMENT OF A MULTI-RACIAL SOCIETY
Undergraduate
The multicultural origins of colonial rule in the Americas from the 15th to the early 19th century.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 308
EUROPE FROM CONFLICT TO CONSENSUS
Undergraduate
The course will examine the emergence of a European identity during the second half of the twentieth century. Special attention will be given to the evolution of the European Union and NATO as representative institutions.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 310
INTER-AMERICAN AFFAIRS
Undergraduate
A mostly twentieth-century survey of political relationships between the United States and Latin American nations, emphasizing dependency and interdependence theories.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 311
THE HISTORY OF THE CARIBBEAN: FROM COLUMBUS TO CASTRO
Undergraduate
The history of the Caribbean from colonial times to the present, with special emphasis on the factors that give each nation its particular character.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 312
LATINOS IN THE UNITED STATES
Undergraduate
A survey of the history, politics, and culture of the major Latino groups in the United States: Mexicans, Puerto Ricans, Cubans, Dominicans, and Central Americans. Traces the history of these groups from the 19th century to the present by analyzing their impact on the United States.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 313
THE OLD SOUTH
Undergraduate
Considers the history of the southern states before the Civil War, focusing especially on the growth of southern slavery, the development of African-American culture, the socio-economic features of a slave society, as well as the distinctive political and ideological contours of the region.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 314  
THE CUBAN REVOLUTION  
Undergraduate  
General analysis of the impact of the Cuban Revolution on Cuban society and the international political arena. The historical background of the revolution as well as its accomplishments and shortcomings will be emphasized.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 316  
GOD, SELF, AND SOCIETY IN MEDIEVAL CULTURE  
Undergraduate  
The roots of Western thought in medieval education, literature, philosophy, and science. The interactions between high theology, mysticism, and popular culture. History and autobiography.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 317  
INDIVIDUAL AND SOCIETY IN RENAISSANCE ITALY  
Undergraduate  
The flowering of culture, humanism and the arts in fourteenth- and fifteenth-century Italy. Renaissance politics, patronage and diplomacy. Religion and the Papacy.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 318  
THE AGE OF REFORMATIONS  
Undergraduate  
Late medieval religion and society; the Reformations of Luther and Calvin, and the Catholic reform movements. Nationalism and the state in sixteenth-century Europe. The expanding world.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 319  
IMMIGRANT AMERICA  
Undergraduate  
An overview of the ethnic experience in American society, how ethnic diversity has shaped America as America has re-shaped the lives of immigrants.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 320  
TOPICS IN WORLD HISTORY  
Undergraduate  
Variable topics. Consult course schedule for current listings.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 321  
TOPICS IN AFRICAN HISTORY  
Undergraduate  
Variable topics. Consult course schedule for current listings.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 322  
TOPICS IN ASIAN HISTORY  
Undergraduate  
Variable topics. Consult course schedule for current listings.  
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 323  
THE CULTURES OF EARLY CHRISTIANITY  
Undergraduate  
Late antique and early medieval intellectual history in social context.  
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 324  
COLONIAL LATIN AMERICA: AGE OF CONQUEST, 15TH - 17TH CENTURIES  
Undergraduate  
This course examines the complexities of the Age of Conquest and focuses on the historical experience of Indigenous societies during the early colonial period. Special attention is given to the social and economic structures of Indigenous societies before 1492, to the Spanish exploration and conquest, to the presence of Indigenous allies and their role in the dynamics of conquest/colonization, to the demographic catastrophe that followed the conquest, and to the social, cultural, and economic characteristics of early colonial societies.  
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 328  
ENGLISH CONSTITUTIONAL HISTORY  
Undergraduate  
A study of Anglo-Saxon institutions; feudalism after the Norman conquest; growth of the common law; foundations of Parliament and the development of central administrative systems.  
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 329  
SPECIAL TOPICS IN HISTORY  
Undergraduate  
Variable topics. Consult course schedule for current listings.  
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 330  
TOPICS IN EUROPEAN HISTORY  
Undergraduate  
Variable topics. Consult course schedule for current listings.  
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 331  
THE NATION AND NATIONALISM IN EUROPE  
Undergraduate  
Examines the emergence of nations and nationalism in modern Europe as well as nationalists' use and abuse of history.  
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 332  
FRENCH REVOLUTION AND NAPOLEON  
Undergraduate  
Analyzes the demise of the Old Regime, rise and fall of revolutionary idealism, and the emergence of Napoleon.  
HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 333
VICTORIAN ENGLAND
Undergraduate
A detailed study of selected political, social, economic and cultural themes in 19th century England.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 334
BRITAIN IN THE TWENTIETH CENTURY
Undergraduate
An in-depth look at selected themes in recent British history including the economic and imperial decline of Great Britain.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 335
EUROPE IN AN AGE OF ENLIGHTMENT
Undergraduate
Analyzes European society and culture in the late 17th and 18th centuries and the intellectual movements that grew out of this historical context, which is frequently considered the cradle of modern Western history and thought.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 338
THE GREAT WAR, 1914 - 1918
Undergraduate
By using a variety of perspectives--social, cultural, intellectual, political--this course will examine and re-examine the ways that the First World War shaped and affected the modern world. After examining the broader causes of the war, the course will work outward from the battlefields to the home fronts, to the empires, and throughout the post-war world. Although this course focuses on European history, instructors may also examine its global context.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 339
HISTORY FROM PICTURES: VISUAL CULTURE IN EAST ASIAN HISTORY
Undergraduate
How do historians use paintings, woodblock prints, lithographs, photographs, postcards, and other visual artifacts in understanding the past? How do visual objects differ from conventional documents as sources of historical evidence? In this course, we will investigate the methodological approaches to writing history using visual artifacts as primary source material. In particular, we will consider the impact of these issues on the writing of East Asian history.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 340
CULTURE AND GENDER IN JAPAN
Undergraduate
Examines gender and society in early modern and modern Japanese history [c.1600-present].

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 341
PEASANTS IN MODERN EUROPEAN HISTORY
Undergraduate
An analysis of the significance and ultimate disappearance of the peasantry, formerly the numerically dominant group in European society, emphasizing both its social history and the methods needed to study the non-literate.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 342
TOPICS IN AFRICAN-AMERICAN HISTORY
Undergraduate
Variable topics. Consult course schedule for current listings.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 346
AFRICAN-AMERICAN INTELLECTUAL HISTORY
Undergraduate
African-American contributions in the areas of philosophy, theology, politics, literature, and art from 1619 to the present.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 347
EUROPE IN THE BELLE EPOQUE
Undergraduate
This course will examine European, social, political and cultural history from 1890 to 1914. Themes will include imperialism, class and gender, social Darwinism, and the European alliance system.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 348
EUROPE UNDER THE DICTATORS
Undergraduate
This course will examine selected totalitarian regimes of interwar Europe. Themes will include propaganda and mass culture, "scientific racism," the crisis of democracy, and the Holocaust.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 349
THE HOLOCAUST
Undergraduate
This course places the Shoah, the Holocaust of European Jewry, at the center of a broader discussion of anti-Semitism, the rise of Nazism, the conduct of World War II, and the persecution and murder of other groups designated as outsiders or as enemies of the Nazi regime. Close attention is given to interpreting the behavior and experiences of perpetrators, victims, bystanders, and resisters, to the role of the churches, and to the politics of post-Holocaust legal proceedings and the complex work of memory and representation.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 352
MEDIEVAL INDIA
Undergraduate
Examines the social, cultural and political histories of South Asia from prehistoric times to the waning of the Mughal Empire.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 353
MODERN INDIA AND PAKISTAN
Undergraduate
Examines the modern history of India, giving special attention to India as a prototype of economic and political change in the Third World.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 354
U.S. WOMEN'S HISTORY
Undergraduate
The purpose of this course is to introduce students to the history of women's work, family, and political lives in America. This intensive reading and discussion course is also designed to provide a detailed overview of recent historical literature and historiographic interpretations in American Women's history.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 359
SOCIETY AND CULTURE IN THE LATE SOVIET ERA
Undergraduate
This seminar focuses on the society and culture of the USSR in the late Soviet period (i.e., from Stalin's death in 1953 to Gorbachev's resignation in 1991). It emphasizes themes such as: evolving notions of the individual in a collective society; tensions between emerging national (ethnic) and supranational (Soviet) identities; attitudes toward science and technology; city and countryside; consumption and consumerism; popular culture and celebrity, work and leisure, religion and orthodoxy; memory and commemoration; sexuality, gender roles, youth culture, and more.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 360
DOING DIGITAL HISTORY
Undergraduate
This course introduces students to the rapidly expanding world of digital history. Students taking the course will enhance their understanding of the conceptual, theoretical, and ethical issues involved in doing digital history, and learn to use digital tools while working individually and collaboratively on digital history projects.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 361
TOPICS IN ISLAMIC HISTORY
Undergraduate
Variable topics. Consult course schedule for current listings.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 362
ATLANTIC HISTORY, 1492-1825
Undergraduate
An examination of intercontinental exchanges and cross-cultural links across the Atlantic ocean that both separated and united the Western Hemisphere, Europe, and Africa in the pre-industrial era.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 363
MODERN BALKANS (EUROPE)
Undergraduate
The establishment of national states, the social transformation from peasant to industrial societies, and the effects of war and revolution in southeastern Europe since the late 18th century.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 364
PALESTINE UNDER THE BRITISH MANDATE
Undergraduate
This course examines the foundation and evolution of the British Mandate of Palestine from 1914 to 1948 in its British imperial, Middle Eastern, and world historical contexts. Students will engage primary and secondary sources associated with controverted issues, including Zionism, creation of the Mandate, immigration, and inter-communal conflict.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 365
THE CRUSADES
Undergraduate
Addresses the European Crusades to the Holy Land from a World Historical Perspective.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 366
THE MODERN MIDDLE EAST AND NORTH AFRICA
Undergraduate
The history of the region since 1800. Topics covered include the end of Ottoman Empire, the impact of European Imperialism and the renewal of Islam.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 367
COMPARATIVE LATIN AMERICAN BORDERLANDS
Undergraduate
This course compares the role of frontiers in the histories of Mexico, Brazil and Argentina. It will focus on periphery-center relations, the rise of caudillos, and frontier social movements.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 368
SOCIAL MOVEMENTS IN LATIN AMERICA
Undergraduate
This course examines how Native Americans, slaves, peasants, and other subaltern people actively resisted their subservient status in Latin America. It will cover a variety of protest movements, from "pre-modern" (such as millenarian movements, slave rebellions, urban riots, and "race" wars) to "modern" (such as social revolutions).
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 369
REVOLUTIONS IN LATIN AMERICA
Undergraduate
This course surveys, analyzes, and compares a series of revolutionary movements, conflicts, and regimes in 20th Century Latin America.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 370
AMERICAN COLONIAL HISTORY
Undergraduate
The European's first contact, exploration, and settlement of the Eastern seaboard, with discussion of significant political, economic, and social consequences.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 371
THE AMERICAN REVOLUTION
Undergraduate
The establishment of American independence, adoption of the Constitution; the first years of the republic considered in analytical detail.
HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 372
ANTEBELLUM AMERICA
Undergraduate
This course treats the significant social, political, economic, and cultural developments shaping America and Americans during the first fifty years of the nineteenth century.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 373
THE CIVIL WAR ERA
Undergraduate
Treats the major political causes of the sectional conflict, the significant military strategies and tactics of the war, the end of slave, and the experiences of a wide-range of citizens and soldiers.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 374
EMERGENCE OF MODERN AMERICA, 1877-1914
Undergraduate
New cultural patterns, political party battles, growth of big business and organized labor, women's suffrage movement, Populism and the Progressive Era.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 375
THE GREAT DEPRESSION AND THE NEW DEAL ERA
Undergraduate
A consideration of World War I, the Twenties, the Great Depression, and the New Deal.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 376
THE UNITED STATES SINCE 1940
Undergraduate
Significant developments in American life during the period after World War II.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 378
THE AMERICAN WEST IN THE 20TH CENTURY
Undergraduate
This course explores cultural, social, and political interaction in the American West during the 20th century. Themes include popular culture, state-federal relationships, environmental changes, urbanization, political and social movements, immigration, and cultural formation.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 379
RECONSTRUCTION AND THE RISE OF JIM CROW
Undergraduate
Covers the problems of reunion between the North and the South after the Civil War, including the struggle for African-Americans' civil and political rights, the transition to a free labor economy in the South, and the eventual end of reconstruction and establishment of racial segregation in the South and the nation.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 382
CHICAGO HISTORY MUSEUM ADVANCED SEMINAR
Undergraduate
Students will develop skills and knowledge applicable to public history careers, will gain a firm conceptual understanding of public history historiography, and of how the Chicago History Museum does public history. Students will apply this knowledge to class discussions, assignments, and actual museum projects. The course will be take place at the CHM, and a CHM curator will teach the course. Expect group work and field trips. Class will comprise of students from DePaul and other Chicago-area universities.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 383
BORDERLANDS AND FRONTIERS IN AMERICA
Undergraduate
Consideration of the changing conceptions of frontiers in American history with attention to the development of historical borderlands communities.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 384
TOPICS IN AMERICAN HISTORY
Undergraduate
Variable topics. Consult course schedule for current listings.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 385
UNITED STATES CONSTITUTIONAL HISTORY TO 1865
Undergraduate
Examines the English colonial charters, the constitutional aspects of the American Revolution and the federal Constitution; explores ratification issues, judicial power, the concepts of the Federal system, separation of powers, Foreign Affairs and national security as defined in the U.S. Constitution with reference to major Supreme Court decisions in these areas.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 386
UNITED STATES CONSTITUTIONAL HISTORY SINCE 1865
Undergraduate
Problems of civil liberties, rights of accused, privacy and constitutional issues and controversies arising during and after World War II, including the major decisions of the Warren court, Burger court and Rehnquist court.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 387
TOPICS IN RUSSIAN HISTORY
Undergraduate
Each time this course is taught, it will examine in depth a specific problem, issue, theme, or moment in Russian history as described in the course subtitle. Possible offerings include: "Mass Culture in the Soviet Union and Post-Soviet Russia," "Stalin and Stalinism," "Crime and Criminality in Russia," "The Russian Revolution," "Gender and Sexuality in Russia," and "The Rise and Fall of the New Soviet Man."

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 388
THE COURT AND THE U.S. BILL OF RIGHTS
Undergraduate
An examination of historical, philosophical, and legal developments related to the Bill of Rights in the U.S. Constitution. The course will also examine how the Bill of Rights has been affected by Supreme Court appointments, court decisions, and constitutional amendments.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 389  
**TOPICS IN PUBLIC HISTORY**  
**Undergraduate**  
Public history is a field of history that requires its practitioners to use the skills and methods of academic history with an eye towards connecting the public with that history. This seminar focuses on the skills, methods, sources and themes that are relevant to historians whose work takes them outside of the classroom. Theme of the seminar will vary with instructors. Some off-campus fieldtrips may be required.  
HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 390  
**CAPSTONE IN HISTORICAL RESEARCH AND WRITING**  
**Undergraduate**  
The History Capstone in Historical research and Writing allows students to engage in deep and sustained historical research and writing, with multiple opportunities for instructor feedback and student revision. It is also an excellent way for students to experience firsthand the linkages between broad reading in a given field and subsequent primary-source based research in that field. Every autumn and winter quarter, certain 300-level course offerings will be designated as Capstone-linked classes. Students ready to take this course can choose among the offerings as suits their interests.

HST 391  
**LOCAL AND COMMUNITY HISTORY**  
**Undergraduate**  
Collaborative learning groups will work with community partners in order to produce a tangible end-of-quarter public history project whose audience will be the greater Chicago community. This course carries a junior year experiential learning credit.

HST 392  
**PUBLIC HISTORY INTERNSHIP**  
**Undergraduate**  
Selected students are placed in work-study positions, under faculty supervision to help prepare themselves for non-teaching careers with background in historical technique. Credit variable.

HST 393  
**TEACHING HISTORY AND THE SOCIAL SCIENCES**  
**Undergraduate**  
Teaching History And The Social Sciences  (Cross-listed as SE 310/T&L 453)

HST 394  
**AFRICAN-AMERICAN URBAN HISTORY**  
**Undergraduate**  
Examination of the African American experience in American cities: from slave era, to the migration, to the present.

HST 395  
**ISSUES IN NON-U.S. LEGAL HISTORY**  
**Undergraduate**  
Designed to develop in the prelaw student analytical and adversarial skills useful in the practice of law, and to confront controversial issues dealing with values of the lawyer and the citizen.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.
HST 396
ORAL HISTORY PROJECT
Undergraduate
An introduction to the techniques of oral history with particular emphasis on public history.

HST 199 or HST 299 or instructor consent is a prerequisite for this course.

HST 397
HISTORY CAPSTONE SEMINAR
Undergraduate
Open to seniors majoring in History. Others may take course with permission of instructor.

(HST 199 or HST 299), Senior standing and status as a History major or minor are prerequisites for this class.

HST 398
STUDY TOUR
Undergraduate
An in-depth, on-site overview of the historical, political, social and economic reality of a foreign country. Credit variable.

HST 399
INDEPENDENT STUDY
Undergraduate
Majors only. Credit variable.

Junior standing or above is a prerequisite for this class.

HST 421
THE HISTORICAL DISCIPLINE
Graduate
This course introduces students to the fundamental concerns and skills necessary for the study of history at the graduate level. It does this by providing a "history of history," giving students an overview of the growth and development of the academic discipline of history, by addressing issues of methodology, historiography and historical philosophy, and by providing students with an awareness of current concerns, controversies, and debates in the discipline. Restricted to students in the MA in History program.

Status as an MA in History student is a prerequisite for this class.

HST 422
SEMINAR IN PRIMARY SOURCE ANALYSIS
Graduate
This course builds upon HST 421. It focuses on issues raised by the analysis of historical evidence, and exposes students to the many practical and theoretical tools by which historians construct historical knowledge out of this "raw" material. The course will include study of primary sources, methods of analysis and authentication, and ways in which different kinds of sources are integrated into coherent historical narratives.

HST 421 is a prerequisite for this class.

HST 431
COLLOQUIUM IN AMERICAN HISTORY
Graduate
Variable topics. Consult course schedule for current listings.

HST 421 is a prerequisite for this class.

HST 432
COLLOQUIUM IN LATIN AMERICAN HISTORY
Graduate
Variable topics. Consult course schedule for current listings.

HST 421 is a prerequisite for this class.
HST 433
COLLOQUIUM IN AFRICAN HISTORY
Graduate
Variable topics. Consult course schedule for current listings.

HST 421 is a prerequisite for this class.

HST 434
COLLOQUIUM IN ASIAN HISTORY
Graduate
Variable topics. Consult course schedule for current listings.

HST 421 is a prerequisite for this class.

HST 435
COLLOQUIUM IN EUROPEAN HISTORY
Graduate
Variable topics. Consult course schedule for current listings.

HST 421 is a prerequisite for this class.

HST 436
COLLOQUIUM IN ISLAMIC HISTORY
Graduate
Variable topics. Consult course schedule for current listings.

HST 421 is a prerequisite for this class.

HST 437
COLLOQUIUM IN WORLD HISTORY
Graduate
Variable topics. Consult course schedule for current listings.

HST 421 is a prerequisite for this class.

HST 438
COLLOQUIUM: SPECIAL TOPICS IN HISTORY
Graduate
Variable topics. Consult course schedule for current listings.

HST 421 is a prerequisite for this class.

HST 489
GRADUATE CAPSTONE
Graduate
This is an intensive seminar in which students are asked to analyze a number of important works of scholarship drawn from the breadth and complexity of the historical discipline. The course allows students to synthesize the many skills they have learned in their earlier classes, notably the ability to read and assess historical monographs. They will thereby demonstrate their competence in analyzing historical arguments, their knowledge of both historiography and historical content, and their proficiency in understanding the variety of primary sources and methods of interpreting them.

HST 421 is a prerequisite for this class.
HST 492
GRADUATE INTERNSHIP
Graduate
Internship.

HST 492 is a prerequisite for this class.

HST 497
INDEPENDENT STUDY
Graduate
Independent Study

HST 497 is a prerequisite for this class.

HST 499
THESIS RESEARCH
Graduate
Between four and eight hours credit to be determined by the department.

HST 499 is a prerequisite for this class.

HST 500
CANDIDACY CONTINUATION
Graduate
Required of all students who are not registered for regular courses but who occasionally utilize University facilities during completion of course requirements and/or research. Non-credit. $40.00 per quarter.

HST 501
CANDIDACY MAINTENANCE
Graduate
This zero-credit hour course is for MA in History students who are not actively working on their theses or final projects, but who wish to maintain university status. Candidacy Maintenance does not allow borrowing or deferment of loans, but does grant student access to DePaul resources such as labs, libraries and the gym.

HTHC 515
INTRO TO HEALTH COMMUNICATION
Graduate
Because of the increasing degree of health consciousness in our society, individuals not only interact more frequently with health care providers, but health care organizations play more active roles in their surrounding communities. In addition, health care cultures are changing. Health care organizations play active social and political roles when responding to national health issues or crises. Hence, it is important that we, as consumers of health care, understand the communication challenges that are inherent within health care organizations, and how those can impact the effectiveness of our communication as a participant in health care contexts.

Status as a Health Communication student is a prerequisite for this class.

HTHC 516
RESEARCH METHODS FOR HEALTH CARE PRACTITIONERS
Graduate
This course focuses on health care methodologies relevant to health care administration: including a cross section of both qualitative and quantitative methodologies. Designing questionnaires and surveys, the analysis and presentation of survey data, interviewing strategies, the analysis and presentation of qualitative data. Students will also be provided with skilled technical writing assignments geared toward providing an understanding of how to most effectively present data within the contexts of reports, visuals for meeting or memoranda.

Status as a Graduate Health Communication student is a prerequisite for this class
The U.S. Department of Health and Human services included improved consumer health literacy as Objective 11-2, and identified health literacy as an important component of health communication, medical product safety and oral health. Health Literacy refers to obtaining, processing and understanding basic health information. This course examines how the consumer can be not only informed more effectively and efficiently, but also how health information should inform decision making in multiple health contexts.

Status as a Graduate Health Communication student is a prerequisite for this class

Health care practitioners must acquire management consulting skills necessary to identify areas in need of change within health care organizations. Problem identification, data collection, intervention and implementation phases of assessment and intervention are taught from the perspective of the health care organization. The course probes common management problems in health care, internal working relationship challenges as well as organizational structure issues that arise.

Status as a Graduate Health Communication student is a prerequisite for this class

This course will focus on the use of communication strategies to inform and influence individual and community decisions regarding health in the following contexts: the multidimensional nature of health communication; understanding empirical research in health communication; behavioral theories in health communication; rhetorical theories in health communication; legal and ethical concerns in health communication; the communication of risk and uncertainty; and the design of health campaigns.

Status as a Graduate Health Communication student is a prerequisite for this class

The course, Family and Health Communication, addresses health-related issues that families may experience, while situating them within a theoretical context. Using theories such as Family Systems Theory and Communication Privacy Management Theory, this course will take a Lifespan Approach to better understand family health issues. Some of the topics that will be covered in this course may include care giving responsibilities, long-term disease, disability, addiction, psychological disruption, sexual health, and end of life issues as affects the family system. Cultural and social norms, in addition to public and health policies are also addressed, as they provide insight into the larger scope of understanding family and health communication, as ultimately, the health of family members impact the functioning of the family system.

Status as a Graduate Health Communication student is a prerequisite for this class

This course will equip students to more effectively understand and manage the dynamic communicative systems, processes, and interactions of people and messages within healthcare environments. This course will explore interpersonal differences with a focus on the role communication plays with various organizational stakeholders, superior-subordinate relationships, internal-external customer relations, managerial problem solving, decision-making, facilitation of change and use of appropriate leadership strategies, as well as organizational structure and ethical and legal requirements. Additionally, this course also focuses on understanding the relationship between designing, managing, and disseminating messages, data, information, and knowledge that health care facilities and professionals have to deal with on a daily basis; appropriate performance feedback principles; and presentational speaking and writing.

Status as a Graduate Health Communication student is a prerequisite for this class
HTHC 523
TOPICS IN HEALTH COMMUNICATION
Graduate
Topics will include: Gay, Lesbian and Transgender Health Care Issues, Patient Advocacy, Communication and Constraint, Multicultural Communication in Health Care Contexts and Advance Care Planning

Status as a Graduate Health Communication student is a prerequisite for this class

HTHC 524
HEALTH CARE TEAMS & LEADERSHIP
Graduate
Modern organizations are increasingly interested in shifting their organizational structures towards the goal of creating self-managed work teams. Much of the health care delivery system is already structured formally or informally around the team concept, whether these be surgery teams, consulting office staff, or other health and wellness delivery personnel. Therefore, those pursuing a career in health care greatly benefits from knowledge and experience with two interdependent aspects of group dynamics: decision-making under conditions of uncertainty, and the philosophy and practice of developing groups into self-managed teams. This course will combine a lecture/discussion with a teamwork intensive action learning component towards the goal of making the student competent to either create or optimize the results of self-managed work teams in their own organization (if called upon to do so), or to understand and thrive in this work mode without stress.

Status as a Graduate Health Communication student is a prerequisite for this class

HTHC 525
NARRATIVES IN HEALTH CARE
Graduate
Focusing on the performance and narrative paradigms of communication studies, the course would survey uses of performance and narrative methods to consider health communication relationships. Narrative and narrative performance are sites of health communication issues for marginalized populations, difficult conversations, and alternate means of reporting. For example, narrative and narrative performance are increasingly being used as part of medical curriculum, as a means to train health care professionals to understand the experiences of their patients, encourage deep listening, and foster different professional-patient relations. For cancer, HIV/AIDS, and other patients, performance becomes a means of speaking into mainstream and dominant discourses of health and to actively shape discourses from their own subjectivities. This increases the visibility of health care experiences in its gendered, sexualized, and racialized dimensions. Finally, narrative and narrative performance offers an additional means of visibility in catalyzing change in public, legislative, scholarly and relational arenas.

Status as a Graduate Health Communication student is a prerequisite for this class

HTHC 592
INDEPENDENT STUDY
Graduate
Students will be guided in the development of a special project that furthers their collaboration with an instructor and produces a report that demonstrates their mastery of critical content and competencies. The independent study option is intended for students who have demonstrated a mastery of course content, who would benefit from a sustained, focused collaboration with a relevant faculty member.

Status as a Graduate Health Communication student is a prerequisite for this class

HTHC 599
RESEARCH THESIS
Graduate
Enroll in 599 during the term you plan to defend your thesis or complete your final project. This is a graded, 4-credit hour course. Tuition is charged. You must have a scheduled defense/completion date to be approved for this class. Your thesis/project advisor needs to communicate this date to the Graduate Studies Director for your program, before you are allowed to enroll. Loan deferment is allowed to those registered for this class.

Status as a Graduate Health Communication student is a prerequisite for this class
HTHC 601  
**ACTIVE DEGREE COMPLETION**  
*Graduate*

This is a 0-credit hour course that is available to students who are working actively toward the completion of a thesis or project. Enrollment in this course is limited to the two quarters prior to the defense of the thesis/project and requires graduate director approval and proof of work each quarter. No tuition is charged, only student fees (approx. $50), which allows you access to the library and other campus facilities. This course is graded as pass/fail. Eligible for loan deferment and student loans.

Status as a Graduate Health Communication student is a prerequisite for this class.

HTHC 602  
**CANDIDACY CONTINUATION**  
*Graduate*

This is a 0-credit hour course that requires permission from the graduate director. Students can enroll in 602 if they are finishing a course in which they received an incomplete (IN). If the student does not register for any regular courses in the quarter they plan to finish the incomplete, they can enroll in 602 and access the library and other campus facilities. No tuition is charged, only student fees (approx. $50). This course is graded as pass/fail. Not eligible for loan deferment or student loans.

Status as a Graduate Health Communication student is a prerequisite for this class.

IB 500  
**GLOBAL ECONOMY**  
*Graduate*

This course is designed to be an introduction to the economic environment in which businesses operate. With the increasing interdependence of national economies and the growing role of global enterprises, the understanding of international economic issues is vital to decision-makers. The material covered will include both socio-cultural aspects and economic and financial dimensions of global business. Students should obtain a grasp of the basic theory as well as a knowledge of the major current issues in the global economy. (FORMERLY ECO 556)

IB 505  
**GEOPOLITICAL AND CULTURAL ISSUES IN INTERNATIONAL BUSINESS**  
*Graduate*

Analysis of major geographical and cultural conditions in those countries most involved in U.S. foreign trade. Guest lectures, comprehensive maps and pertinent media presentations supplement weekly class discussion.

IB 520  
**INTERNATIONAL TRADE THEORY AND POLICY**  
*Graduate*

Modern theories of international trade: classical theory of comparative advantage, factor proportions theory, factor price equalization, application of welfare economics to international trade, including regional economic integration, commercial policy and tariff problems.

FIN 555 is a prerequisite for this class.

IB 521  
**INTERNATIONAL MACROECONOMICS**  
*Graduate*

This course analyzes traditional macroeconomic issues in a framework that explicitly allows for international trade and capital flows. Topics covered include exchange rate and balance of payments determination, the impact of international trade and capital mobility on domestic monetary and fiscal policy, fixed vs. floating exchange rate systems, exchange rate overshooting and other topics. Cross-listed as ECO 558.

ECO 509 is a prerequisite for this class.
IB 525  
**ECONOMICS OF DEVELOPING COUNTRIES**  
Graduate  
This course reviews models of economics development and some of the key issues in economic development including agricultural and rural development, population, economic growth, the role of government, health, education, income distribution, trade regime and policy, international capital flows and the environment, international trade and foreign resource flows. The course integrates country studies of selected developing economies and regions, cross-country statistical studies and theoretical tools drawn from the fields of microeconomics, macroeconomics, and international trade.

FIN 555 is a prerequisite for this class.

IB 526  
**COMPARATIVE ECONOMIC SYSTEMS**  
Graduate  
A study of the contrasting theories of socialism and capitalism.

FIN 555 is a prerequisite for this class.

IB 530  
**INTERNATIONAL FINANCE**  
Graduate  
International Finance integrates the financial activities, institutions, and multinationals of the global finance arena. In addition to extending the tools of financial analysis to an international setting, the course studies the strategies available to a multinational because of operations in a multiple of countries. Topics include foreign currency and political risk, capital budgeting in a multinational setting, and cash flow management between countries. Prerequisite: FIN 555

FIN 555 is a prerequisite for this class.

IB 540  
**INTERNATIONAL MANAGEMENT**  
Graduate  
The objective of this course is to develop clear awareness of the international business operations, practices and environment. It provides the concepts, methods and tools necessary to face the global challenges in international management. The objective is met through lectures, classroom discussions, library assignments and research work. Students will learn the effective use of the international business references. By the end of the course, they are expected to have developed a high level of competency in acquiring, understanding, analyzing and synthesizing international management information from international business directories, databases and CD-ROMs.

IB 545  
**AREA STUDIES IN INTERNATIONAL MANAGEMENT**  
Graduate  
In-depth analysis of the economic and cultural aspects of doing business in a particular region, e.g. Western Europe, Middle East, Japan, etc. The course focuses on the region's business relations with the United States, its trade and management practices and the successful conduct of business negotiations. The area under consideration will vary from quarter to quarter in order to cover regions of particular interest to our students and the business community of Chicago.

IB 550  
**INTERNATIONAL MARKETING**  
Graduate  
The differences between markets and distribution systems in various countries are explored. By emphasizing the social and economic factors causing these differences a sound understanding of and empathy with different international marketing problems are developed. Analyses are made of the organization of trade channels in various cultures, of typical government policies towards international trade in countries at different stages of development, and of international marketing research, advertising, and exporting. Offered Variably.

MKT 555 is a prerequisite for this class.

IB 750  
**INTERNATIONAL BUSINESS SEMINAR I**  
Graduate  
Off-campus seminar, usually one to three weeks, providing exposure to international business cultures. IB 755 is a co-requisite for this class.
IB 755
INTERNATIONAL BUSINESS SEMINAR II
Graduate
Some of the International Business Seminars offered eight rather than four credits. Students are ordinarily required to complete an in-depth research paper in an international business area approved by the director of the seminar. Information gathered during the seminars with business and governmental organizations must be incorporated into the research paper. IB 750 is a co-requisite for this class.

IB 798
SPECIAL TOPICS
Graduate
Content and format of the course are variable. An in-depth study of current issues. Subject matter will be indicated in class schedule. Offered Variably.

IB 799
INDEPENDENT STUDY
Graduate
Available to graduate students of demonstrated capability for intensive independent work in international business.

ICE 100
INTRODUCTION TO THE PROFESSION I
Undergraduate
Introduction to chemical engineering and engineering productivity software. Communication skills development, technical reporting and presentation, engineering ethics, and a variety of topics are discussed.

ICE 202
MATERIAL AND ENERGY BALANCES
Undergraduate
Material and energy balances for engineering systems subjected to chemical and physical transformations. Calculations on industrial processes. CSC 224/225 or equivalent; MAT 149/152/162 and CHE 113 or CHE 131 recommended. (Taught at IIT as CHE 202)

ICE 296
INTRODUCTION TO IPRO
Undergraduate
Introduction to process design. Principles and techniques in effective team work. Performance of selected design tasks in project groups integrated with ICE 496. Practice with process design software. First part of the ICE 296 - ICE 496 project package. Only chemical engineering students should register for this course. ICE 101, ICE 202, or consent recommended. [Taught at IIT as IPRO 296]

ICE 301
FLUID MECHANICS AND HEAT-TRANSFER OPERATIONS
Undergraduate
Flow of fluids and heat transfer. Fundamentals of fluid flow and heat transfer design equations as applied to selected unit operations. ICE 202 and ICE 252 recommended. COREQUISITE(S): ICE 343, MAT 260. Taught at IIT as CHE 301.

ICE 302
MASS-TRANSFER OPERATIONS
Undergraduate
Mass transfer in stagewise and continuous contacting equipment. Mass transfer design equations as applied to selected unit operations. Unsteady state operations in mass transfer equipment. (Taught at Illinois Institute of Technology as CHE 302) ICE 301 recommended.

ICE 317
CHEMICAL ENGINEERING LABORATORY I
Undergraduate
Laboratory work in the unit operations of chemical engineering, fluid flow, heat transfer, and other selected topics. (Taught at Illinois Institute of Technology as CHE 317) ICE 301 recommended.
ICE 320
TRANSPORTATION PHENOMENA
Undergraduate
The equations of change in different coordinate systems (mass, momentum, and energy transport). Velocity distribution in laminar and turbulent flow. Formulation and analytical solutions to the problems of viscous flow, molecular diffusion, heat condition and convection. (Taught at Illinois Institute of Technology as CHE 406) ICE 301, ICE 302 & ICE 252 recommended.

ICE 322
CHEMICAL ENGINEERING LABORATORY II
Undergraduate
Laboratory work in distillation, humidification, drying, gas absorption, filtration, and other areas. (Taught at Illinois Institute of Technology as CHE 418)

ICE 324
CHEMICAL REACTION ENGINEERING
Undergraduate
Introduction to the fundamentals of chemical kinetics. The design, comparison, and economic evaluation of chemical reactors. Emphasis on homogeneous systems. Taught at Illinois Institute of Technology as CHE 423. ICE 302, ICE 351 and ICE 326 recommended.

ICE 326
PROCESS MODELING AND SYSTEM THEORY
Undergraduate

ICE 328
PROCESS CONTROL
Undergraduate
Dynamic process models, stability assessment, feedback and feedforward control strategies, design and tuning of closed-loop controllers, time domain and frequency domain design and performance assessment methods. Multivariable systems, interaction, multi-loop control. Software for process simulation and controller design. (Taught at Illinois Institute of Technology as CHE 435) ICE 302 and ICE 326 recommended.

ICE 330
NUMERICAL AND DATA ANALYSIS
Undergraduate
Utilization of numerical methods to find solutions to a variety of chemical engineering problems. Emphasis placed on problem formulation, development of computer code, and interpretation of results. Techniques covered include: systems of algebraic equations, linear regression, and statistics. Numerical differentiation and integration, solution of ordinary and partial differential equations. (Taught at Illinois Institute of Technology as CHE 439)

ICE 332
CHEMICAL PROCESS THERMODYNAMICS
Undergraduate
Second law analysis of cooling, separation, combustion, and other chemical processes. Chemical reaction equilibrium and processing applications. ICE 351 recommended.

ICE 334
CHEMICAL PROCESS DESIGN
Undergraduate
Introduction to design techniques and economic aspects of chemical processes. The technical and economic aspects of equipment selection and design, alternative methods of operation. (Taught at Illinois Institute of Technology as CHE 494) ICE 302, ICE 351 and ICE 326 recommended.
ICE 351
CHEMICAL ENGINEERING THERMODYNAMICS
Undergraduate
Laws of thermodynamics and their application to chemical engineering operations. (Taught at IIT as CHE 351) ICE 343 recommended.

ICE 383
ELECTRIC AND ELECTRONIC CIRCUITS
Undergraduate

ICE 397
INTERPROFESSIONAL PROJECT
Undergraduate
Interprofessional projects allow students to learn teamwork, leadership and project management skills, while working in multidisciplinary teams on projects involving technical, ethical, environmental, economic, public policy and legal issues. IPRO project teams are typically comprised of 6-10 students from sophomore through graduate level from all disciplines that can broadly contribute to a project effort. While every effort will be made to accommodate students' first choices, it may be necessary to balance students across all projects that will be scheduled for the semester or to consolidate students into fewer projects to meet minimum team requirements. Specific rules about selection of IPRO projects may apply in certain degree programs. Some projects may carry Humanities or Social Sciences credit. Students must consult the lead faculty member for the project and their faculty advisor before registering for a project. (Taught at Illinois Institute of Technology as IPRO 397)

ICS 200
INTRODUCTION TO BUSINESS
Undergraduate
This course is designed for non-Commerce majors who want a minor in business. The course will help the student develop an understanding of the role of the major functional areas of business, as well as ethical considerations, the globalization of business and the role of entrepreneurship. Considerations will be given to the possible career opportunities in each of the functional areas studied.

Undergraduate Business students (COMM, UNCOM, GPCOM) are restricted from registering for this class.

ICS 201
PERSONAL FINANCIAL DECISION MAKING
Undergraduate
Students will be exposed to a wide variety of money-related topics, with an aim to familiarize the participants with everyday financial issues.

ICS 350
INTERNATIONAL BUSINESS SEMINAR
Undergraduate
This foreign study course is meant to introduce the student to the world of international life and business as it is today. The course provides students the opportunity to visit and study foreign commercial enterprises on-site as they exist today. Additional emphasis is placed on the understanding overseas cultures, self-reference criteria, and the fact that people around the world can maintain/develop hopes and dreams within their own lifestyle even though it may differ from others. Most courses in this group will count for liberal studies credit as an experiential learning course. See the Director of the Driehaus Center for International Business or the College of Commerce undergraduate office for additional information. Registration with the Driehaus Center is required. International Business Seminars may not be taken Pass/Fail.

ICS 392
SENIOR SEMINAR
Undergraduate
A variety of senior capstone seminars is offered every term. These seminars focus on specific content areas reflecting a wide range of non-business issues that are relevant to business in contemporary society. The learning experience enables students to see the world differently through reflections and interactions, encourages them to develop a broader perspective on how and where business fits in society, and prepares them to communicate and express that perspective orally and in writing.

Senior standing is a prerequisite for this class.
ICS 394
ENTREPRENEURSHIP STRATEGY
Undergraduate
This course is an overview of strategic management applied to entrepreneurial enterprises. General business management problems integrating marketing, accounting, finance and management functions are analyzed from the perspective of the CEO or entrepreneur concerned with start-up and planning of a new venture. The case method is used in this course and real "live" cases may be analyzed. The entrepreneurial process is investigated, including entrepreneurial characteristics, trends in the small business sector of the global economy, start-up and growth strategies and nurturing creativity in organizations. Focus is placed on either a consulting project with a small business or community organization, which may require time outside of class for the project, or on case studies.

(FIN 290 or FIN 310), MGT 300, MKT 310 and senior standing are a prerequisite for this class.

ICS 395
MANAGEMENT STRATEGY
Undergraduate
Management strategy is a course which synthesizes the functional business activities into a general management perspective of the business enterprise. This course presents a conceptual framework for understanding the operation of the firm within the global business environment. Corporate strategy is examined from the perspective of: strategic choice, the link between strategy and organization, and the management of strategic change. Examples will be drawn from service, manufacturing, and not-for-profit organizations. The course emphasizes the use of group decision-making, self-directed work teams, and formal group reports and presentations.

MGT 300, MKT 310 and FIN 310 are a prerequisite for this class.

ICS 396
HOSPITALITY STRATEGY
Undergraduate
Hospitality strategy is a capstone course designed to expose students to a strategic perspective on issues that concern the firm as a whole. This viewpoint is integrative in that it draws on concepts from the functional disciplines (i.e. Marketing, Finance, Accounting, Operations) in the diagnosis, analysis and resolution of complex business situations. Students will read, discuss and apply a body of theory and techniques from the field of strategic management. The course emphasizes the development of practical problem solving skills. Corporate strategy is examined from the perspective of: strategic choice, the link between strategy and organization, and the management of strategic change. Examples will be drawn from various hospitality operations around the world. The course emphasizes the use of group decision-making, self-directed work teams, and formal group reports and presentations.

FIN 310, MGT 300, MKT 310 and Senior standing are a prerequisite for this class.

ICS 398
SPECIAL TOPICS
Undergraduate
Special Topics. Content and format of this course is variable. Subject matter will be listed in the university class schedule. These courses will be used for a variety of course content and delivery methods including the Foreign Study Seminar Series.

ICS 399
INDEPENDENT STUDY
Undergraduate
Available to students of demonstrated capability for intensive work in interdisciplinary studies.

At least 88 cumulative units is a prerequisite for Business courses that require Junior standing.

IDS 497
INDEPENDENT STUDY (NON-CAPSTONE)
Graduate
Independent study in an area that does not lead directly into the thesis or capstone. Students may also register for this course on a topic indirectly related to their thesis or capstone if they will subsequently take IDS 498, in which the student directly prepares to write the Integrating Project/Thesis. The MALS and IDS Program requires that students taking independent studies follow a specified format of meeting frequency, activities, and scholarly production. This format is available on the program web site or from the MALS and IDS office. Registration is by permission of the Director of the MALS and IDS Program and the instructor of the independent study.
IDS 498
INDEPENDENT STUDY [CAPSTONE]
Graduate
Independent study undertaken as preparation for thesis or practicum capstone options. This course is optional preparation for IDS 499, Capstone. The MALS and IDS Program requires that students taking this course follow a specified format of meeting frequency, that they produce a review of literature related to their thesis or practicum, an annotated bibliography, and the required Formal Proposal for the thesis or practicum. Registration is by permission of the Director of the MALS and IDS Program and the permission of the instructor who serves as the thesis or practicum director.

IDS 499
CAPSTONE
Graduate
Capstone for students doing a thesis, practicum or enhanced portfolio essay. Students may register for this course after the Formal Proposal for the thesis or practicum, or the Enhanced Portfolio Essay Proposal, has been approved. Students are normally expected to complete their capstone projects within the quarter in which they take this course. This course carries four hours of credit. Registration is by permission of the Director of the MALS and IDS Program and the permission of the instructor who serves as the student's capstone director.

IDS 501
ACTIVE STATUS
Graduate
Students register for this course during periods when they are not registered for courses but wish to have access to university facilities. Ordinarily students will not use this course once they have been admitted to candidacy during the thesis or capstone.

IDS 502
CANDIDACY CONTINUATION
Graduate
Students who have completed ISP 499 Thesis/Capstone may register for this course in order to have continued access to university facilities. Students may register for this course no more than three times.

IIT 105
INTRODUCTION TO COMPUTER PROGRAMMING I
Undergraduate
Introduces the use of high-level programming language (C/C++) as a problem-solving tool including basic data structures and algorithms, structured programming techniques, and software documentation. Designed for students who have had little or no prior experience with computer programming. (Taught at Illinois Institute of Technology as CS 105.)

IIT 115
ENGINEERING GRAPHICS AND DESIGN
Undergraduate
Basic traditional and computer-based techniques and applications, multiview sketching, orthographic projection, isometric and oblique pictorials, sectioning, auxiliary views, principles of descriptive geometry, dimensioning, detail drawings, introduction to design and computer-aided drafting and design (CAD). (Taught at Illinois Institute of Technology as EG 105.)

IIT 200
INTRODUCTION TO C++ PROGRAMMING
Undergraduate
Problem-solving and program design using C++. Introduces a variety of programming techniques, algorithms, and basic data structures-including an introduction to object-oriented programming. (Taught at Illinois Institute of Technology as CS 200.)

IIT 201
MECHANICS OF SOLIDS I
Undergraduate
Free body diagrams. Equilibrium of a particle, a system of particles, and a rigid body. Distributed forces, centroids, centers of gravity, and moments of inertia. Analysis of structures. Friction. Internal loads in bars, shafts and beams. Stress and strain in axially loaded members. (Taught at Illinois Institute of Technology as MMAE 201.)
IIT 202
MECHANICS OF SOLIDS II
Undergraduate
tress and strain relations, mechanical properties. Axially loaded members. Torsion of circular shafts. Plane stress and strain, Mohr's circle, stress transformation. Elementary bending theory, normal and shear stresses in beams, beam deflection. Combined loading. (Taught at Illinois Institute of Technology as MMAE 202.)

IIT 203
INTRODUCTION TO MECHANICS
Undergraduate

IIT 210
CIRCUIT ANALYSIS I
Undergraduate
Ohm's Law, Kirchoff's Laws, and network element voltage-current relations. Application of mesh and nodal analysis to circuits. Dependent sources, operational amplifier circuits, superposition, Thevenin's and Norton's Theorems, maximum power transfer theorem. Transient circuit analysis for RC, RL, and RLC circuits. Introduction to Laplace Transforms. Concurrent registration in ECE 212 and ECE 218 is strongly encouraged. (Taught at Illinois Institute of Technology as ECE 211)

IIT 211
MATERIALS SCIENCE
Undergraduate
The scientific principles determining the structure of metallic, polymeric, ceramic semiconductor and composite materials; electronic structure, atomic bonding, atomic structure, microstructure and macrostructure. The basic principles of structure-property relationships in the context of chemical, mechanical, and physical properties of materials. (Taught at Illinois Institute of Technology as MS 201.)

IIT 212
ANALOG AND DIGITAL LABORATORY
Undergraduate
Basic experiments with analog and digital circuits; familiarization with test and measurement equipment; combinational digital circuits; familiarization with latches, flip-flops, and shift registers; operational amplifiers; and transient effects in first-order and second-order analog circuits; PSpice software applications. (Taught at Illinois Institute of Technology as ECE 212)

IIT 213
CIRCUIT ANALYSIS II
Undergraduate
Circuit Analysis II Sinusoidal excitation and phasors. AC steady-state circuit analysis using phasors. Complex frequency, network functions, pole-zero analysis, frequency response, and resonance. Two-port networks, transformers, mutual inductance, AC steady-state power, RMS values, introduction to three-phase systems and Fourier series. Concurrent registration in ECE 214 is strongly encouraged. (Taught at Illinois Institute of Technology as ECE 213)

IIT 214
ANALOG & DIGITAL LAB II
Undergraduate
Design-oriented experiments including counters, finite state machines, sequential logic design, impedances in AC steady-state, resonant circuits, two-port networks, and filters. A final project incorporating concepts from analog and digital circuit design will be required. (Taught at Illinois Institute of Technology as ECE 214)

IIT 218
DIGITAL SYSTEMS
Undergraduate
Number systems and conversions, binary codes, and Boolean algebra. Switching devices, discrete and integrated digital circuits, analysis and design of combinational logic circuits. Karnaugh maps and minimization techniques. Counters and registers. Analysis and design of synchronous sequential circuits. (Taught at IIT as ECE 218)
IIT 232
DESIGN FOR INNOVATION
Undergraduate
Product design and development including engineering design, good versus bad design, human-centered design, sketch models and prototyping, material selection, sustainable product development, product tear down, and product architecture. Global topics encompassing intellectual property, innovative thinking, global competitiveness, business economics, and managing product development (Taught at IIT as MMAE 232).

IIT 242
DIGITAL COMPUTERS & COMPUTING
Undergraduate
Basic concepts in computer architecture, organization, and programming, including: integer and floating point number representations, memory organization, computer processor operation (the fetch/execute cycle), and computer instruction sets. Programming in machine language and assembly language with an emphasis on practical problems. Brief survey of different computer architectures. (Taught at Illinois Institute of Technology as ECE 242)

IIT 252
INTRODUCTION TO DIFFERENTIAL EQUATIONS
Undergraduate

IIT 271
ENGINEERING MATERIALS AND DESIGN
Undergraduate
Mechanical behavior of metals, polymers, ceramics and composites, laboratory testing methods including tension, torsion, hardness, impact, toughness, fatigue and creep. Evaluation of structural performance in terms of material processing, service conditions and design. (Taught at Illinois Institute of Technology as MMAE 271.)

IIT 300
INSTRUMENTATION LAB
Undergraduate
Basic electronic skills for scientific research. Electrical measurements, basic circuit analysis, diode and transistor circuits. Transistor and integrated amplifiers, filters, and power circuits. Basics of digital circuits, including Boolean algebra and design of logic circuits. (Taught at Illinois Institute of Technology as PHYS 300)

IIT 301
COMMUNICATION ELECTRONICS
Undergraduate
Radio frequency AM, FM, and PM transmitter and receiver principles. Design of mixers, oscillators, impedance matching networks, filters, phase-locked loops, tuned amplifiers, power amplifiers, and crystal circuits. Nonlinear effects, intermodulation distortion, and noise. Transmitter and receiver design specification. Credit will be given for either ECE 401 or ECE 409, but not for both. (Taught at IIT as ECE 401)

IIT 304
MECHANICS OF AEROSTRUCTURES
Undergraduate
Loads on aircraft, and flight envelope. Stress, strain and constitutive relations. Torsion of open, closed and multi-cell tubes. Energy methods. Castigliano's theorems. Structural instability. (Taught at Illinois Institute of Technology as MMAE 304)

IIT 305
DYNAMICS
Undergraduate
IIT 306
MECHANICS OF SOLIDS AND DESIGN
Undergraduate

IIT 307
ELECTRODYNAMICS
Undergraduate

IIT 308
SIGNALS AND SYSTEMS
Undergraduate
Time and frequency domain representation of continuous and discrete time signals. Introduction to sampling and sampling theorem. Time and frequency domain analysis of continuous and discrete linear systems. Fourier series convolution, transfer functions. Fourier transforms, Laplace transforms, and Z-transforms. (Taught at Illinois Institute of Technology as ECE 308)

IIT 310
FLUID MECHANICS WITH LABORATORY
Undergraduate
Basic properties of fluids in motion. Lagrangian and Eulerian viewpoints, material derivative, streamlines, etc. Continuity, energy and linear and angular momentum equations in integral and differential forms. Integration of equations for one-dimensional flows and application to problems. Incompressible viscous flow; Navier-Stokes equations, parallel flow, pipe flow, and the Moody diagram. Introduction to laminar and turbulent boundary layers and free surface flows. Lab Component: Introduction to measurements of fluid properties and basic features of fluid flows; flow through pipes and channels, flow-induced forces on bodies; First Law of Thermodynamics; six laboratory experiments in small groups supplemented by demonstrations and films. (Taught at Illinois Institute of Technology as MMAE 310.)

IIT 311
COMPRESSIBLE FLOW
Undergraduate

IIT 312
AERODYNAMICS OF AEROSPACE VEHICLES
Undergraduate
Analysis of aerodynamic lift and drag forces on bodies. Potential flow calculation of lift on two-dimensional bodies: numerical solutions; source and vortex panels. Boundary layers and drag calculations. Aerodynamic characteristics of airfoils; the finite wing. (Taught at Illinois Institute of Technology as MMAE 312)

IIT 313
ENGINEERING ELECTRONICS
Undergraduate
Physics of semiconductor devices. Diode operation and circuit applications. Regulated power supplies. Bipolar and field-effect transistor operating principles. Biasing techniques and stabilization. Linear equivalent circuit analysis of bipolar and field-effect transistor amplifiers. Laboratory experiments reinforce concepts. (Taught at Illinois Institute of Technology as ECE 311)
IIT 314
ELECTRONIC CIRCUITS
Undergraduate

IIT 315
FLUID MECHANICS
Undergraduate
Basic properties of fluids in motion. Lagrangian and Eulerian viewpoints, materials derivative, streamlines, etc. Continuity, energy, and linear and angular momentum equations in integral and differential forms. Integration of equations for one-dimensional forms and application to problems. Incompressible viscous flow; Navier-Stokes equations, parallel flow, pipe flow, and the Moody diagram. Introduction to laminar and turbulent boundary layers and free surface flows (Taught at IIT as MMAE 313).

IIT 317
INTRODUCTION TO COMPUTER NETWORKS WITH LABORATORY
Undergraduate
Emphasis on the physical, data link, and medium access layers of the OSI architecture. Different general techniques for networking tasks, such as error control, flow control, multiplexing, switching, routing, signaling, congestion control, traffic control, scheduling will be covered along with their experimentation and implementation in a laboratory. (Taught at Illinois Institute of Technology as ECE 407)

IIT 319
FUNDAMENTALS OF POWER ENGINEERING [CORRESPONDS TO ECE 319]
Undergraduate
Principles of electromechanical energy conversion. Fundamentals of the operation of transformers, synchronous machines, induction machines, and fractional horsepower machines. Introduction to power network models and per-unit calculations. Gauss-Siedel load flow. Lossless economic dispatch. Symmetrical three-phase faults. Laboratory considers operation, analysis and performance of motors and generators. The laboratory experiments also involve use of PC-based interactive graphical software for load flow, economic dispatch, and fault analysis. (Taught at Illinois Institute of Technology as ECE 319)

IIT 320
THERMODYNAMICS
Undergraduate
Introduction to thermodynamics including properties of matter: First Law of Thermodynamics; and its use in analyzing open and closed systems; limitations of the Second Law of thermodynamics; entropy. (Taught at Illinois Institute of Technology as MMAE 320.)

IIT 321
APPLIED THERMODYNAMICS
Undergraduate

IIT 322
HEAT AND TRANSFER
Undergraduate

IIT 323
MICROWAVE CIRCUITS AND SYSTEMS WITH LABORATORY
Undergraduate
Maxwell's equations, waves in free space, metallic and dielectric waveguides, microstrips, microwave cavity resonators and components, ultra-high frequency generation and amplification. Analysis and design of microwave circuits and systems. (Taught at IIT as ECE 423)
IIT 325
ANALYSIS AND DESIGN OF INTEGRATED CIRCUITS
Undergraduate
Contemporary analog and digital integrated circuit analysis and design techniques. Bipolar, CMOS and BiCMOS IC fabrication technologies, IC Devices and Modeling, Analog ICs including multiple-transistor amplifiers, biasing circuits, active loads, reference circuits, output buffers; their frequency response, stability and feedback consideration. Digital ICs covering inverters, combinational logic gates, high-performance logic gates, sequential logics, memory and array structures. Team design projects. (Taught at IIT as ECE 425)

IIT 329
INTRODUCTION TO VLSI DESIGN
Undergraduate
Processing, fabrication, and design of Very Large Scale Integration (VLSI) circuits. MOS transistor theory, VLSI processing, circuit layout, layout design rules, layout analysis, and performance estimation. The use of computer-aided design (CAD) tools for layout design, system design in VLSI, and application-specific integrated circuits (ASICs). In the laboratory, students create, analyze, and simulate a number of circuit layouts as design projects, culminating in a term design project. (Taught at IIT as ECE 429)

IIT 330
ENGINEERING MEASUREMENTS
Undergraduate
Introduction to applications of measurement instrumentation and design of engineering experiments. Generalized characteristics of sensors and measurements systems. Signal conditioning and computer-based data acquisition and analysis. Measurement of motion, force, strain, torque, shaft power, pressure, sound, flow, temperature and heat flux. Design of experiments proposals. Team-based projects addressing application of engineering measurements to a variety of engineering problems. Effective communication of experimental results. (Taught at Illinois Institute of Technology as MMAE 430.)

IIT 332
DESIGN OF MECHANICAL SYSTEMS
Undergraduate
Small-group design projects drawn from industry. (Taught at Illinois Institute of Technology as MMAE 432)

IIT 333
DESIGN OF THERMAL SYSTEM
Undergraduate
Application of principles of fluid mechanics, heat transfer, and thermodynamics to design of components of engineering systems. Examples are drawn from power generation, enviromental control, air and ground transportation, and industrial processes, as well as other industries. Groups of students work on projects for integration of these components and design of thermal systems. (Taught at Illinois Institute of Technology as MMAE 433)

IIT 334
MATRIX ALGEBRA AND COMPLEX VARIABLES
Undergraduate
Vectors and matrices; matrix operations, transpose, rank, inverse; determinants; solution of linear systems; eigenvalues and eigenvectors. The complex plane; analytic functions; contour integrals; Laurent series expansions; singularities and residues. (Taught at Illinois Institute of Technology as MATH 333)

IIT 336
DESIGN OF AEROSPACE VEHICLES I
Undergraduate
The focus of this course is on applications ranging from commercial to military and from manpowered to high-speed to long-duration aircraft. Students will examine aircraft design including aerodynamic, structural and powerplant characteristics to achieve performance goals. The quarter project is a collaborative effort in which small design groups complete the preliminary design cycle of an aircraft to achieve specific design requirements. (Taught at Illinois Institute of Technology as MMAE 436)
IIT 337
DIGITAL SIGNAL PROCESSING I
Undergraduate
Discrete-time system analysis, discrete convolution and correlation, Z-transforms. Realization and frequency response of discrete-time systems, properties of analog filters, IIR filter design, FIR filter design. Discrete Fourier Transforms. Applications of digital signal processing. Credit will be given for either ECE 436 or ECE 437, but not for both. (Taught at IIT as ECE 437)

IIT 338
CONTROL SYSTEMS
Undergraduate
Signal-flow graphs and block diagrams. Types of feedback control. Steady-state tracking error. Stability and Routh Hurwitz criterion. Transient response and time domain design via root locus methods. Frequency domain analysis and design using Bode and Nyquist methods. Introduction to state-variable descriptions. Credit will be given for either ECE 438 or ECE 434, but not for both. (Taught at IIT as ECE 438)

IIT 339
DESIGN OF AEROSPACE VEHICLES II
Undergraduate
Spacecraft systems design including mission analysis and astrodynamics, launch vehicle requirements, attitude determination and control, propulsion, structural design, power systems thermal management, and telecommunications. Semester-long project is focused on the integration of multiple systems into a coherent spacecraft design to achieve specific mission requirements. (Taught at IIT as MMAE 437).

IIT 341
SPACECRAFT AND AIRCRAFT DYNAMICS
Undergraduate
Kinematics and dynamics of particles, systems of particles, and rigid bodies; translating and rotating reference frames; Euler angles. Aircraft longitudinal and lateral static stability; aircraft equations of motion. Spacecraft orbital dynamics; two-body problem classical orbital elements; orbital maneuvers. (Taught at Illinois Institute of Technology as MMAE 441)

IIT 342
SPACECRAFT DYNAMICS
Undergraduate

IIT 343
SYSTEMS ANALYSIS AND CONTROL
Undergraduate

IIT 344
MICROCOMPUTERS
Undergraduate

IIT 346
ADVANCED LOGIC DESIGN
Undergraduate
Design and implementation of complex digital systems under practical design constraints. Timing and electrical considerations in combinational and sequential logic design. Digital system design using Algorithmic State Machine (ASM) diagrams. Design with modern logic families and programmable logic. Design-oriented laboratory stressing the use of programmable logic devices (Taught at IIT as ECE 446).
IIT 350
COMPUTATIONAL MECHANICS II
Undergraduate
Taught at IIT as MMAE 450.

IIT 352
AEROSPACE PROPULSION
Undergraduate
Analysis and performance of various jet and rocket propulsive devices. Foundations of propulsion theory. Design and analysis of inlets, compressors, combustion chambers, and other elements of propulsive devices. Emphasis is placed on mobile power plants for aerospace applications. (Taught at Illinois Institute of Technology as MMAE 452)

IIT 355
CARDIOVASCULAR FLUID MECHANICS
Undergraduate
Anatomy of the cardiovascular system. Scaling principles. Lumped parameter, one-dimensional linear and nonlinear wave propagation, and three-dimensional modeling techniques applied to simulate blood flow in the cardiovascular system. Steady and pulsatile flow in rigid and elastic tubes. Form and function of blood, blood vessels, and the heart from an engineering perspective. Sensing, feedback, and control of the circulation. Possible project using custom software to run blood flow simulations (Taught at IIT as MMAE 455).

IIT 371
ENGINEERING MATERIALS AND DESIGN
Undergraduate
Mechanical behavior of metals, polymers, ceramics and composites, laboratory testing methods including tension, torsion, hardness, impact, toughness, fatigue and creep. Evaluation of structural performance in terms of material processing, service conditions and design. (Taught at Illinois Institute of Technology as MMAE 371)

IIT 372
HEALTH PHYSICS
Undergraduate
This course covers topics in Radiation Physics, including general aspects of radioactivity, radioactive series decay, alpha particle energies, beta decays, electron capture, gamma ray emission, interaction of radiation with matter, two-particle collisions, elastic scattering, interaction of heavy charged particles with matter, Coulomb force interactions, radiative stopping power, collision stopping power for heavy charged particles, interaction of light charged particles with matter, and bremsstrahlung radiation (Taught at IIT as PHYS 571)

IIT 373
HEALTH PHYSICS II
Undergraduate
Continuation of the basic health physics sequence, including neutron production and interaction with matter; methods of radiation detection; radiation dosimetry; chemical and biological effects of radiation; radiation protection standards; shielding; dosimetric models; accelerator, reactor and medical health physics. (Taught at IIT as PHYS 572)

IIT 374
PROBABILITY AND STATISTICS
Undergraduate
Elementary probability theory including discrete and continuous distributions, sampling, estimation, confidence intervals, hypothesis testing, and linear regression. Credit not granted for both MATH 474 and MATH 475. (Taught at Illinois Institute of Technology as MATH 474)

IIT 375
AEROSPACE MATERIALS LAB
Undergraduate
Taught at IIT as MMAE 372.
IIT 385
MANUFACTURING PROCESSES
Undergraduate
Principles of material forming and removal processes and equipment. Force and power requirements, surface integrity, final properties and dimensional accuracy as influenced by material properties and process variables. Design for manufacturing. Factors influencing choice of manufacturing process. (Taught at Illinois Institute of Technology as MMAE 485.)

IIT 386
COMPUTER ORGANIZATION AND DESIGN
Undergraduate
This course covers basic concepts and state-of-the-art developments in computer architecture: computer technology, performance measures, instruction set design, computer arithmetic, controller and datapath design, memory systems, pipelining, array processing, parallel processing, multiprocessing, abstract analysis models, input-output systems, relationship between computer design and application requirements, and cost/performance tradeoffs. Students will complete a project implementing a version of multiple-cycle processor. Credit will be given for either ECE 485 or CS 470, but not both (Taught at IIT as ECE 485).

IIT 391
IIT CO-OP
Undergraduate
The student will participate in on-site or off-site activity (including, but not limited to, production or research activity). The student will be responsible for, e.g., designing, testing and deploying hardware or software, and may be involved in production level issues. Typically, this position will be a coop at some institution designated by IIT.

IIT 397
INTER-PROFESSIONAL PROJECT
Undergraduate
Interprofessional projects allow students to learn teamwork, leadership and project management skills while working in multidisciplinary teams on projects involving technical, ethical, environmental, economic, public policy and legal issues. IPRO project teams are typically comprised of six to ten students from sophomore through graduate level and from all disciplines, who can broadly contribute to a project effort. While every effort will be made to accommodate students’ first choices, it may be necessary to balance students across all projects scheduled for the semester or to consolidate students into fewer projects to meet minimum team requirements. Specific rules about selection of IPRP projects may apply in certain degree programs. Some projects may carry humanities or social sciences credit. Students must consult the lead faculty member for the project and their faculty adviser before registering for a project. (Taught at Illinois Institute of Technology as IPRO 497; formerly IPRO 397)

IIT 398
INTER-PROFESSIONAL PROJECT
Undergraduate
Interprofessional projects allow students to learn teamwork, leadership and project management skills while working in multidisciplinary teams on projects involving technical, ethical, environmental, economic, public policy and legal issues. IPRO project teams are typically comprised of six to ten students from sophomore through graduate level and from all disciplines, who can broadly contribute to a project effort. While every effort will be made to accommodate students’ first choices, it may be necessary to balance students across all projects scheduled for the semester or to consolidate students into fewer projects to meet minimum team requirements. Specific rules about selection of IPRP projects may apply in certain degree programs. Some projects may carry humanities or social sciences credit. Students must consult the lead faculty member for the project and their faculty adviser before registering for a project. (Taught at Illinois Institute of Technology as IPRO 497)

ILL 200
ILLUSTRATION FOUNDATIONS
Undergraduate
This course will focus on improving the basic skills needed for creating concept art and storyboards for animation and games. Areas of focus include practical perspective, technical rendering, observational drawing and color theory. These skills will be applied in basic prototyping projects. PREREQUISITE(S): GD 105 or ANI 105
ILL 206
HISTORY OF COMICS
Undergraduate
This course will cover the history of the art form collectively known as "comics" --mechanically reproduced graphic storytelling--which includes comic strips, comic books, graphic novels, Japanese manga and online comics. Students will be introduced to the evolution of the art form from 18th century precursors, to late 19th century newspaper pages, to the 20th century comic book, through today's sophisticated graphic novels. The course will devote considerable time to comics of other cultures, with special emphasis on Japan and Europe. It will also examine the relationship of comics to culture at large, and the struggle of underground and alternative comic artists to explore adult subjects such as politics and gender.

ILL 210
DIGITAL ILLUSTRATION I
Undergraduate
Introduction to illustration development in image, line and photography, combining computer applications and hand-rendered approaches. PREREQUISITE(S): GD 105, ART 105, ANI 105 or GPH 211

ILL 211
INTERMEDIATE DIGITAL ILLUSTRATION
Undergraduate
Intermediate practice for illustration development in image, line and photography, combining computer applications and hand-rendered approaches, will be studied. PREREQUISITE(S): GD 105 or ANI 105 or ART 106

ILL 220
GRAPHIC NARRATIVE
Undergraduate
This course introduces students to the components of graphic narrative, including superhero and alternative comics, comic strips, manga, and graphic novels. Students will learn fundamental materials and techniques, including penciling and inking, digital painting and coloring, and publishing, and create their own graphic narratives. The course will also provide an overview of the history of comics and graphic storytelling, and their relation and importance to the art of animation. PREREQUISITE(S): ART 106

IM 208
VIRTUAL WORLDS AND ONLINE COMMUNITIES
Undergraduate
Environments such as social networking sites, multiplayer online games and other online communities are becoming an increasingly large part of how we work, play, and learn. This course introduces the fundamentals for the interdisciplinary study of cyberculture and online social behavior. By examining core scholarship in this area, together with analyzing an existing virtual world, game, or online community, students will learn to research and understand new technologically-enabled social forms as they are emerging. PREREQUISITE(S) WRD 104

IM 210
INTRODUCTION TO HUMAN-COMPUTER INTERACTION
Undergraduate
This course familiarizes students with the user interface development process, including user and task analysis, interaction design, prototyping and evaluation. Students study human perception, cognition and motor abilities as they relate to the design of interactive systems. In a series of projects, students design and revise prototypes as they apply a user-centered design process. Emphasized topics include user profiles, information architecture and usability testing. Students provide written analysis of their research and process. PREREQUISITE(S): None

IM 220
INTERACTIVE MEDIA I
Undergraduate
This course applies interactive media principles for a variety of contexts with a goal of exploring relative merits among common interaction paradigms. Based on assessed needs and intended functionality, students create working prototypes that demonstrate a range of design patterns, particularly those with a high level of interactivity such as rich internet applications, games, and visual simulations. Emphasis is given to visual design principles and aesthetics for creating interesting and engaging interactive experiences. PREREQUISITE(S): ANI 105
IM 222
INFORMATION VISUALIZATION
Undergraduate
This course discusses the basic problems and techniques of visualizing quantitative and qualitative data. Topics include: perception, types of information, representation of univariate and multivariate data and relational information, analysis of representations, presentation, and dynamic and interactive visualizations. Students will create visualizations using graphical software. PREREQUISITES: LSP 120

IM 230
SCRIPTING FOR INTERACTIVE MEDIA
Undergraduate
This course is an introduction to Object-Oriented programming using Flash ActionScript. Subjects covered include variables, loops, conditionals, event handling, and classes, and how they are used to create real-world interactive web applications and animations. PREREQUISITE(S): None

IM 270
USER-CENTERED WEB DESIGN
Undergraduate
(Formerly HCI 270) Principles of interactive design for web pages and sites. Design patterns for information navigation. Use of HTML and CSS to produce standards- and accessibility-compliant web pages. Overview of technologies supporting dynamic and interactive content. Prerequisites: IT 130 or HCI 201

IM 315
THEORY AND PERCEPTION OF COLOR
Undergraduate
(Formerly HCI 315) A problem-based course introducing additive and subtractive colors systems and their technology. It explores the perceptual phenomena of color relationships and their applications in digital environments. PREREQUISITE(S): IM 210 and (GPH 211 or GD 105)

IM 320
INTERACTIVE MEDIA II
Undergraduate
This course will use complex interactive web projects to challenge students to solve real-world problems. Students will build upon the organizational and analytical strategies learned in IM I while expanding their knowledge of Flash subjects such as site integration, utilizing remote data and manipulating video. PREREQUISITE(S): IM 220 Interactive Media I

IM 330
ADVANCED SCRIPTING FOR INTERACTIVE MEDIA
Undergraduate
This course builds on the Flash ActionScript programming skill learned in Scripting for Interactive Media. Students will focus on designing, coding and debugging complex applications. PREREQUISITE(S): IM 230 Scripting for Interactive Media

IM 332
USER-CENTERED WEB DEVELOPMENT
Undergraduate
(Formerly HCI 332) Analysis, design, and development of interactive web sites. Advanced application of HTML and style sheets for user-centered design. Survey of client-side technologies for interactive Web use. PREREQUISITES: IT 130.

IM 336
INTERACTIVE MEDIA SCRIPTING FOR PROGRAMMERS
Undergraduate
Object-oriented programming in ActionScript for students who already know how to program. Students will design, code and test interactive media using standard and custom designed classes. PREREQUISITE(S): Experience in at least one high-level programming language.
IM 360
USER-CENTERED EVALUATION
Undergraduate

(Formerly HCI 360) Overview of user research and usability evaluation methods. User research includes interviews, profiles and scenarios. Usability evaluation methods include expert inspections and usability testing. PREREQUISITE(S): IM 210.

IM 394
HUMAN-COMPUTER INTERACTION CAPSTONE COURSE
Undergraduate

(Formerly HCI 394) Provides an opportunity for students to apply all of the skills they have learned on one comprehensive project. Multi-disciplinary teams design, evaluate, and implement a user interface intensive project. Students prepare written documents describing their activities and present the final results to the class. (PREREQUISITE(S): Senior standing).

IN 110
LIVING AND WORKING IN A GLOBAL ENVIRONMENT
Undergraduate

This course will address dilemmas and opportunities that individuals may encounter as they work or study in multicultural and global environments. The purpose of this course is to increase the effectiveness of individuals in identifying, understanding and managing cultural differences in the workplace as well as outside of it. A variety of learning methods will be used, including lectures, readings, case studies, videotapes, critical incidents, and small group research and presentation. Guest speakers will be invited to share their experiences with the class.

LL 250 is a prerequisite for this class.

IN 117
ART IN CHICAGO
Undergraduate

This course centers on two distinctive but very different resources for art studies in Chicago: the Terra Museum of American Art and the Museum of Contemporary Art (MCA). The Terra Museum focuses mainly on 19th and 20th century American art, especially the luminous landscapes of American Impressionists. The MCA concentrates on the last 50 years in art, from surrealism through pop art, earth art, video art, and new developments reaching all the way up to today. Both museums are expanding, presenting students with opportunities to take part in museum tours, talks, publications, and lecture series.

LL 250 is a prerequisite for this class.

IN 200
GUIDED INDEPENDENT STUDY: ADVANCED
Undergraduate

Guided Independent Study: Advanced

LL 250 is a prerequisite for this class.

IN 203
WRITING AND EDITING THE SNL NEWSLETTER
Undergraduate

Working on a newsletter gives students the opportunity to learn and demonstrate communications competence that can have real value in the world of work. Students have the opportunity to plan, write, edit, and produce an issue of a newsletter on a subject of their choice. After registering, students should contact the instructor for an initial individual meeting.

LL 250 is a prerequisite for this class.

IN 205
CREATIVE WRITING: INTRODUCTION TO POETRY
Undergraduate

Poetry is one of the most ancient and common forms of verbal expression. In this course, you will read selections from the works of eight poets whose work has greatly influenced 20th century American poetry (six from the course text, two of your own choosing, with approval of instructor). You will then create, for each poet, a poem modeled upon his or her work. Most will be free verse; specific instructions on theme and approach will be given. You will also keep a journal exploring your poetic efforts. Course requires access to email.
Although much contemporary poetry is written in unrhymed free verse, there are many other options available to the aspiring poet. In this internet-based course, you will select six traditional poetic forms from more than ten possibilities; forms include the sonnet, villanelle, ballad, rhymed free verse, charm, haiku/tanka, pantoum and others. You will examine several excellent examples of the poetic form, then write your own poem in that form.

This is a Service Learning, Externship. Students will pursue literature on the historical connections between animals and humans, and will review philosophies concerning treatment of animals. Students will also be exposed to current issues in animal welfare, including a volunteer experience in an animal shelter. In this course, faculty will provide a framework for assessing the roles and condition of animals, particularly domestic animals, in our culture. Assigned readings range from Peter Singer's noted work on animal experimentation Animal Liberation to excerpts from Black Elk Speaks, a Native American treatise on hierarchy and respect for life in American aboriginal culture. Students will pursue their own interests through further readings and commentary.

This Faculty Designed Independent Study (FDIS) will introduce SNL students to Chicago's political institutions: City Hall, the city's system of 50 wards, its current aldermen and women, its city council, its mayor, its elections, hot issues, and its raucous history of scandals and reform movements. Additionally, students will examine contemporary political/social issues which come before the current Mayor and City Council during the Quarter.

LL 250 is a prerequisite for this class.

This course offers students opportunities to explore, compare and utilize some of the fascinating ethnic museums of Chicago devoted to Polish, Irish, Jewish, Mexican and African-American culture. Students will visit the DuSable Museum of African American History, the Mexican Fine Arts Center, the Polish Museum of America and the Spertus Museum of Judaica and be encouraged to take advantage of their talks, classes, special exhibits, workshops, community events.

LL 250 is a prerequisite for this class.

Some writers create fantasy worlds which feel so real and are such complete places that they can be mapped. Writers like Conan Doyle, J.R.R. Tolkien, Edgar Rice Burroughs and C.S. Lewis create imaginary geographies that compel reader belief. In this course, students will choose a fictional world and its creator for study. Study will involve analysis of literature and evaluation of the relationship between imagination and literary art that can also relate to basic cartographic concepts. An initial in-person meeting with the instructor is required.

LL 250 is a prerequisite for this class.

The text in this course provides background and content needed to understand and engage in discussion regarding the Juvenile Court in Illinois. It provides us with an opportunity to examine the strengths and weaknesses of this special court. Topics included in the study are 1) the history of the court, 2) how race has shaped the workings of the court, 3) the part politics has played over the 100+ years of the court, 4) how the court's legal decisions determine the long term consequences in the lives of juveniles and society in general, 5) the difference between the juvenile court and the adult court, 6) how the court handles dependent children, 7) what is offered by the court for disabled children, and 8) the advantages and disadvantages of being tried in juvenile court rather than in the adult court.
IN 239
SCIENCE/WRITING
Undergraduate
Observation is the beginning of science. It is also the beginning of the process of writing. This online course is designed to encourage you to observe the natural world and write clearly about it. Thus you will be simultaneously strengthening your observational skills and your expressive skills. You will observe a single natural setting over the course of a quarter, writing short prose pieces that follow specific guidelines. At least one of these pieces will be posted on the class website for those outside the class to read, thus providing you with an experience of online publication. Internet access and familiarity are required prior to the beginning of class.

IN 243
POST TRAUMATIC SLAVE SYNDROME AND ITS EFFECTS
Undergraduate
This FDIS seeks to inform students about the impact of post-traumatic slave syndrome (PTSS) resultant from experiencing two-hundred and fifty years of American chattel slavery, has had on African-American life and culture. With this primary goal in mind, students will be asked to review a text on the subject, Joy DeGruy-Leary's Post Traumatic Slave Syndrome: America's Legacy of Enduring Inquiry and Healing, and selected readings where appropriate. Equipped with a sound understanding of PTSS, students will then be asked to construct a 4 to 5 page paper on their understanding of this phenomenon. Students are also asked to develop a second project that emerges directly from the competence. Suggestions for such projects are presented in the syllabus.

LL 102 and status as a BA-SNLDG99 student are a prerequisite for this class.

IN 249
NEW YORK: AN HISTORICAL OVERVIEW
Undergraduate
This Faculty Designed Independent Study (FDIS) encourages students to study the history of one of our nation's oldest and most vibrant cities, that of New York City which includes that of its five boroughs: Manhattan, Bronx, Brooklyn, Staten Island, and Queens. The readings associated with the course provides a skeletal history of the city's nearly four hundred years. Students are then asked to read a series of articles that elaborate on key historical events and/or eras, i.e. the city's role in the American Revolution, the Great Depression, the impact of deindustrialization and suburbanization, and development of art and culture across different epochs, among other areas. Students are finally asked to supplement readings and a major homework assignment with a five-page paper that mirrors the spirit of their competence. The collection of readings and video presentations offer a fascinating, insightful, and fun look at one of the most interesting and intriguing American metropolises.

IN 250
YOU, YOUR WORK AND THE WORLD
Undergraduate
This course is for students who wish to integrate work and learning. Students will learn career planning skills, explore the organizations in which they work, gain an understanding of how they contributed to their organizations, and discuss societal and world issues, as they affect their workplaces.

IN 251
VALUES-BASED LEADERSHIP: MAKING A DIFFERENCE WHILE MAKING A PROFIT
Undergraduate
The primary focus is to examine and apply the values, goals and operating methods of visionary leaders who have successfully pursued financial rewards for themselves and their organizations, while also achieving, through their actions, broader social goals. The results of the examination will be applied at the students' internship sites, where students will demonstrate a range of leadership skills, including an analysis of basic management issues and recommendations for improvements. In addition to working at least 100 hours at an internship site, the course will consist of four class meetings and ongoing Blackboard discussions.

IN 252
CREATIVITY AS A CHANGE AGENT THE WORKPLACE
Undergraduate
The class will examine the process of creativity as it might work to revolutionize an industry or force it into failure. Students will examine creative innovations related to the following: invention, leadership, advertising and marketing, teaming concepts and collaboration, and the drive behind entrepreneurship. This experiential learning course is designed to focus the student's attention on the creative process as it relates to the observable workplace, reflective practice, and the application of theories and ideas.
IN 253
PUBLIC SERVICE CAREERS
Undergraduate
This course will provide an opportunity to students to familiarize themselves with career opportunities in the public service sector by focusing on (a) the types of problems that public service organizations attempt to address; (b) the different strategies used by different types of public service organizations; and (c) the range of available public service jobs. The course will promote the life-long process of integrating work and learning, enable students to view their internship within a broad perspective, assist career decision-making, promote individual success through on-the-job experience, and provide students with valuable networking opportunities - all with a focus on public service careers.

IN 254
CORPORATE SOCIAL RESPONSIBILITY
Undergraduate
Corporate Social Responsibility analyzes the mutually dependent relationship between businesses and society, focusing on how organizations can contribute their resources, expertise, and innovations to the benefit of our local, national, and global communities. By examining their own internship experiences, along with real world case studies, research, and commentary, students will examine the critical decision-making processes organizations address as they balance competitive advantages against the weight of social progress. Students are expected to wrestle with the variable issues confronting corporate social responsibility in relation to their own fields of interest. Throughout the course, students will analyze how their current workplaces determine a competitive edge while staying attentive to the social, public, and environmental consequences of their actions.

IN 261
THE PARENT ROLE
Undergraduate
What does society expect of parents? How have theorists and researchers defined who the parent is and what the parental role involves? How do these descriptions change as children grow? How do parents communicate and nurture their infants and young children? How do their communication skills change as children become older? What attitudes, information and skills do parents need to have to fulfill their role? Students draw from their readings, videos and exercises, to answer these questions. They follow the parent role as it evolves as children grow. Students learn alternative methods of relating to children and discuss the pros and cons of each. They work out ways of dealing with common childhood situations, using a process for dealing with any parenting issue. Students are encouraged to reflect on and discuss their own parenting experiences as a child and, if relevant, as a parent.

LL 300 is a prerequisite for this class.

IN 264
VOICES AND VISIONS: A TELEVISION COURSE IN MODERN POETRY
Undergraduate
Students will use the PBS series "Voices & Visions" as an introduction to the lives and writing of several American poets from Walter Whitman to Sylvia Plath. They will concentrate further on the writings of at least one poet and learn to appreciate and interpret that work, gaining insight into the poet's vision, techniques, and message.

LL 250 is a prerequisite for this class.

IN 265
ENVIRONMENTAL DISRUPTION AND INFECTIOUS DISEASE
Undergraduate
Infectious diseases are the leading cause of death worldwide with more people dying of these diseases than from cancer and heart disease combined. Not surprisingly, it is the developing countries that are most affected. What may be surprising is even in the U.S. contagious diseases rank third as a leading cause of death. And what is even more surprising is that even as we continue to develop new vaccines and antibiotics, deaths from infectious diseases are actually increasing in this country (by 58% between 1980 and 1992). Why? Microbes, such as viruses and bacteria, can replicate in a matter of days (or even minutes) and can change genetically much faster than human cells. With their rapid reproduction and their mutability, microbes have the ability to adapt to almost any type of external conditions. This affords them an evolutionary advantage during periods of massive environmental fluctuations (such as the present). Because environmental disruptions tip the balance in favor of microbes, current radical physical and social changes (such as population growth, urbanization, deforestation, reduction of biological diversity, climactic changes, etc.) contribute to the increase in infectious diseases. Students will examine connections between environmental disruptions (particularly those induced by human activities) and the emergence and reemergence of infectious diseases.

*Prerequisite: either a course in environmental science or in microbiology.

LL 102 and status as a BA-SNLDG99 student are a prerequisite for this class.
IN 266
WOMEN’S ISSUES
Undergraduate
This advanced level independent research experience provides individual students the opportunity to explore issues of interest concerning
women in greater depth. Completion of Research Seminar is required. Students may design any kind of research project suitable for an
advanced-level competence; such projects may include library research, surveys, interviews, or on the job projects related to women’s issues.
Upon registration, students should submit a brief description of the proposed research area to the instructor. Students may select a topic from
the list provided in the syllabus or propose their own topic. The instructor will then contact them for an initial conversation and initiate
development of a learning contract. Interaction during the quarter may be in person, email, and/or phone. This FDIS may be taken for one or
two competencies.

LL 300 is a prerequisite for this class.

IN 270
WRITERS IN 1920'S AMERICA
Undergraduate
The 1920’s was a marvelous decade of social change and artistic growth. H.L. Mencken and George Jean Nathan were significant literary
critics. Sinclair Lewis, Willa Cather, F. Scott Fitzgerald, Ernest Hemmingway were major novelists. The New Yorker, and the Algonquin Circle
(sometimes known as the "Vicious Circle"), with Dorothy Parker and the humorist Robert Benchley, enlivened the literary scene. This class
will explore the American literary experience of the 1920’s, and share skills of literary and historical interpretation.

LL 250 is a prerequisite for this class.

IN 271
STYLES AND MEANING IN JAZZ HISTORY
Undergraduate
Jazz is a unique American art form which draws on a variety of influences, the skill and creativity of the individual artist, and, in many
instances, the collective imagination of a group of performers. This course will explore both the individual styles within jazz as well as the
role this art has played in the transmission of culture and the expression of values. Through directed listening, reading, and consultation with
the instructor, students will develop the ability to recognize forms and distinctions among both various styles and performers in the jazz
idiom.

LL 250 is a prerequisite for this class.

IN 273
NATURE/ NURTURE: FROM GENES TO PHENOTYPE
Undergraduate
One of the themes of contemporary investigation in biology, medicine, psychology, and other inquiries into "human nature" has been the
been the attempts to answer the question “is it nature or nurture” that guides our destiny. Students will develop a basic understanding of
hereditary mechanisms and work to gain an appreciation / facility with the various ways in which genes and environment interact.

IN 276
MARKETING APPLICATIONS IN CONTEMPORARY SOCIETIES
Undergraduate
Marketing has applications to profit as well as non-profit organizations and to services, ideas and individuals, not just products. Through this
independent study, students will gain an understanding of the marketing process and the key marketing strategies of product planning,
promotion, pricing, and distribution.

LL 102 and status as a BA-SNLDG99 student are a prerequisite for this class.

IN 279
THE POWER OF GREAT WRITING
Undergraduate
A simple lawsuit in Montgomery, Alabama in 1960, raised America's awareness of the importance of a free and responsible press in a
democracy. In Make No Law, Pulitzer prize winning journalist, Anthony Lewis, presents the complex story of how a great newspaper-The
New York Times-almost lost its capacity to cover the civil rights movement effectively and forever sacrifice the power of independent criticism
of government. He also raises the question of how an undisciplined press can trample the rights of individual citizens.
What is the relationship between a free press and a free society? And what role do the courts play, particularly the Supreme Court, in balancing society's interest in criticizing its government against other interests, such as an individual's right to protect herself from slander or libel? How does a case make its way through the courts in the first place? And what is the proper constitutional relationship between the states and the federal government? Using Anthony Lewis' Make No Law as a starting point, this Court will attempt to explore these questions as they arose in the context of the Civil Rights movement and the path-breaking case of New York Times v. Sullivan.

Play, leisure, fun, sport, game, hobby, relaxation, and free time all conjure up activities for most people. Yet many people today complain that they have no time or energy for play. One factor that influences leisure is gender. Socialization patterns, biological aspects, and culture often determine activities that males and females select as leisure pursuits. This course will explore these issues and related ones as well as assist the learner in discovering her/his own desires and patterns in the arena of leisure.

The blues are a feeling, a form, and a rich history that has influenced music from jazz to pop to the Rolling Stones. This course studies the blues with particular attention to Chicago's role in the music. Muddy Waters, Willie Dixon, and Buddy Guy are among the figures included along with readings, CDs, tapes, and visits to both a blues museum and a live blues performance.

LL 250 is a prerequisite for this class.

This independent study is designed to facilitate the pursuit of a topic or problem of the student's choice. This is an opportunity to use your imagination, pursue a curiosity, or delve into a problem in a guided, but independent manner. In pursuit of the chosen focus, the student will engage in a learning strategy entitled "reiterative practice-based learning" (RPBL), which is a technique designed to enhance critical thinking, professional problem-solving, and self-directed learning skills. RPBL was developed in an attempt to structure the learning process around the "natural" problem-solving processes of the brain, thus enhancing information retention. In RPBL, the instructor functions as a tutor to students, helping them to investigate ill-structured problems by identifying what students already know, what they need to learn, and how best to acquire that learning. In a series of meetings, the tutor guides students as they encounter issues of their choice, helping them to define and elaborate the issue and to assume increasing responsibility for its resolution. Over the course of several meetings the student will both pursue the topic of interest and develop facility with the learning technique for its application to a broad range of academic and professional problems.

Advanced Elective Seminar is designed to permit students to explore a topic as a group integrating various methods of inquiry and satisfy the Advanced Elective competencies: E1, E2. A specific topic, assessment and evaluation criteria as well as learning activities will be articulated by the instructor for a particular section of the course. Prerequisite: Successful completion of Research Seminar is required to register.

LL 300 is a prerequisite for this class.

This course focuses on the development of young men from infancy through adulthood. Much research has been done to study how we rear little boys and young men. Whether it is to determine why boys have more trouble at school than girls, why they have more problems with anger than girls or more problems with the criminal justice system, we want to understand why. We know young boys and men are capable of nurturing, empathy, but we also know they are not reinforced by society to develop these skills. If parents want to nurture these skills they are not supported by society.

LL 102 and status as a BA-SNLDG99 student are a prerequisite for this class.
IN 345
EXTERNSHIP: ANIMALS AND CONTEMPORARY LIFE
Undergraduate
Students will pursue literature on the historical connections between animals and humans, and will review philosophies concerning treatment of animals. Students will also be exposed to current issues in animal welfare, including a volunteer experience in an animal shelter. Faculty will provide a framework for assessing the roles and condition of animals, particularly domestic animals, in our culture. Assigned readings range from Peter Singer's noted work on animal experimentation Animal Liberation to excerpts from Black Elk Speaks, a Native American treatise on hierarchy and respect for life in American aboriginal culture. Students will pursue their own interests through further readings and commentary.

LL 250 is a prerequisite for this class.

IN 346
NATURE - NURTURE: IT'S ABOUT THE HYPHEN!
Undergraduate
One of the themes of contemporary investigations in biology, medicine, psychology, and other inquiries into "human nature" has been the attempts to answer the question "is it nature or nurture" that guides our destiny. This question has both stimulated and restricted our understanding of ourselves and the living world around us. The question has also been reformulated in important ways to provide more helpful though often more complex "answers" and avenues to approach the pursuit of understanding ourselves. Learning Experience: The development of the E-1 and E-2 competences through this independent study is based first on learning to assess the role of environment on health using a framework that puts environmental factors in relation to non-environmental factors (e.g., biology) and secondly, on taking the perspectives of this competence into ways that the question 'what is human nature?' may be explored. Overall, hopefully this study will provide a means of analysis that is generalizable to many areas of interest and concern. There will be several steps - activities - of the study designed to progressively develop your facility with these ideas. You will develop this facility through research activities in pursuit of various questions that will require the use of library and internet database searches, your own observations, and assigned readings. You will develop a basic understanding of hereditary mechanisms and work with several examples to gain an appreciation for and facility with the various ways in which we are coming to understand how genes and environment interact. Most of what there is to be understood about these interactions lies ahead of us and so this study will offer a basis for both future understanding and the application of the competence to lives today. Because of the extent that you will be tracking down sources and gathering information, completion of Research Seminar is a prerequisite.

LL 300 is a prerequisite for this class.

IN 350
NAVIGATING THE CHANGING WORKPLACE
Undergraduate
Students will be given opportunities to study workplace change, as well as diversity, ethics and leadership issues. Students will also develop networking skills and become aware of career opportunities in the Chicago community. The course is designed to equip students to navigate the changing workplace successfully and make informed career and work life decisions. Students are required to work at least 100 hours, while enrolled in the course.

IN 351
ONE BOOK/ ONE CHICAGO
Undergraduate
Every fall and spring the city of Chicago announces its One Book-One Chicago reading selection. In this FDIS, you'll be able to join in the fun of exploration of the book and its many topics, which may be approached from a variety of disciplinary stances (literary, historical, sociological, religious, political, medical, scientific, etc.). You'll be able to explore thematic issues raised by the selected book and you will attend at least two Chicago events associated with the book-readings, panel discussions, library round tables, lectures, and the like. You'll have the opportunity to sharpen your research skills by reading critical articles related to the particular lenses you apply to the thematic issues in the book.

IN 352
EYES ON THE PRIZE: A TELEVISION HISTORY OF THE AMERICAN CIVIL RIGHTS MOVEMENT
Undergraduate
The American Civil Rights Movement was one of the most profound social movements in U.S. history. It significantly altered the nation's social structure and self-understanding and liberated a people from disenfranchisement. This course looks at the high points along the road to social justice for African-Americans and the associated changes that resulted in the legal, social, economic, and political systems of the land. Students will trace key developments from the 1954 Supreme Court ruling that integrated schools to our current racial situation by watching the award-winning PBS series and reading a significant book on the topic.

LL 250 is a prerequisite for this class.
ENCOUNTERING THE NEW AGE
Undergraduate
We are living in a time when many of our most fundamental principles about ourselves and the world around us are being broadly challenged. The goal of this independent study is to explore this shift in outlook, or paradigm, the "new age." The specific focus of study will be shaped by the competence being developed and the interests of the student. Readings, a paper focusing on one area in which the emerging paradigm is having significant effect, and structured journal-keeping will be assigned. Three meetings are required with the instructor; if desired, more can be scheduled.

CHICAGO ART AND LITERATURE
Undergraduate
Chicago's creative experiences in public art, architecture, and literature have introduced original and significant forms and design theories. Students will explore the factors and forms which have influenced the individuals, events, and movements of Chicago's major artistic expressions. Students will gain an overall appreciation of Chicago's visual, functional, and literary contributions, while exploring in detail a particular artistic expression and forces influencing its design, presentation and reception.

LL 250 is a prerequisite for this class.

PLANNING DESIGN AND DEVELOPMENT
Undergraduate
Chicago and some of its older communities have benefited from enlightened planning, layout, and design. Following a review of planning examples, principles and design theory, students will select a current planning activity or design development strategy and will detail plan goals, objectives and anticipated results. Students will identify opportunities for public involvement in the planning process to gain greater insight into public decision-making and the power of individual initiative.

LL 250 is a prerequisite for this class.

LEISURE: A MATTER OF LIFE AND DEPTH
Undergraduate
Play, leisure, fun, sport, game, hobby, relaxation, and free time all conjure up activities for most people. Yet many people today complain that they have no time or energy for play. One factor that influences leisure is gender. Socialization patterns, biological aspects, and culture often determine activities that males and females select as leisure pursuits. This course will explore these issues and related ones as well as assist the learner in discovering her/his own desires and patterns in the arena of leisure.

CO-OP REFLECTION: ENSURE YOUR CAREER SUCCESS
Undergraduate
Students will put learning into practice by reflecting on their Co-op or long-term internship. Students will acquire access to and knowledge of the organizations, problems and conditions in which they are working; observe how societal and world issues surrounding leadership, social responsibility and spirituality affect their workplaces, all while preparing for a career in your field of interest. The course will be taught using a variety of guest speakers, group discussion, new media, and other interactive resources.

PSYCHOLOGY OF SEX AND GENDER
Undergraduate
The text in this course provides the background and context needed to engage in informed discussions on male/female differences and similarities. It provides information on the theories of sex differences and current research examining those theories. Topics explored include: 1) gender differences in social behavior and experience, 2) biology and environment-the process of becoming a male or female, 3) cognitive abilities, 4) sexual orientations, 5) hormonal and reproductive connections, 6) mental and physical health issues including stress change and adaptation, 7) sex and gender role development in childhood, 8) attachment intimacy and power, 9) economics, politics and power, 10) issues in the workplace, and 11) justice, equity and social change. Depending on the chosen competency students will decide on their area of special focus and design an individualized learning project. Such projects might include gender issues in fetal development, gender issues in the workplace, in personal relationships or in how children are treated in school.

LL 102 and status as a BA-SNLDG99 student are a prerequisite for this class.
**IN 368**
**LEARNING HISTORY AT THE MUSEUM**
**Undergraduate**
This course encourages students to examine and think critically about how historical knowledge is constructed and presented. Museums, the subject of this course, are an excellent place to conduct such investigations. Given the political nature of, this fact beckons us to think and study even more about how information is transmitted in what, as we learn, is a very significant educative arena. Our journey begins with some quotes regarding museums, which are culled from one of the required readings by art historian Brian Wallis.

DePaul University Winter/Spring/Summer 2013-2014

**IN 369**
**SPIRITUALITIES OF WORK**
**Undergraduate**
For some people, “work” refers to one's job, the means of one's livelihood. Others use the word to describe volunteer work, housework, or other productive activities. Some people associate "work" with drudgery and compulsion, while others think of the word in terms of productivity and stimulation. And, for some people, "spirituality" is what they do when they no longer practice religion. Others remain committed to a religious tradition, but consider spirituality to be their particular expression of that tradition. Although there are various definitions of spirituality, most include an understanding of how individuals and groups try to find meaning and integrity in their lives. Spiritualities usually involve certain beliefs and assumptions, as well as practices intended to accomplish specific goals. In this independent study, you will consider some approaches to spirituality and will then apply them to your own experience of work. In your reflection on and writing about work, you will pay particular attention to characteristics of modern life such as the emphasis on efficiency and scientific reason, technological advances, workplace specialization, and the pursuit of health and well-being. Competences A-3-B, H-3-F, F-X. Faculty: Kevin Buckley

**IN 370**
**COMPARATIVE THEOLOGY**
**Undergraduate**
To give a meaning to meaninglessness is the endless quest of religion. Students will study two religions, neither their own belief system, according to a structured paradigm. This paradigm will include vision, explanation, laws, beliefs, and rituals. The diverse activities of the study will include, primarily, research and reflection with opportunities for site visits, interviews, and other information gathering activities. Students will study Islam and Hinduism or Christian Science and The Church of Jesus Christ of the Latter Day Saints (Mormons).

**IN 372**
**DISRUPTING THE LIFE CYCLE: READING THE EMERGING STORY OF CANCER**
**Undergraduate**
In 1851, Rudolf Virchow published a book called Cellular Pathology that changed the course of biology and medicine--he theorized that the cell is the fundamental unit of life and that each cell comes from another cell, through a process of division. Disease and good health, he said, both originate with the cell. His ideas pointed the way for an increasingly detailed picture of how this fundamental unit of life works--a picture that is taking us deeper into the inner workings of the cell's biology. At the center of this picture lies a portion of nature's universe for maintaining the continuity of life... and controlling the process of cell division--DNA and the world of genetics. And more recently, Virchow's insight has been borne out again. The drive to overcome cancer has led to the remarkable understanding that cancer is a disruption of the normal and orderly cycle of the cell's replication and division... a cycle that is controlled by genes. The essential idea of this study is to help you develop an understanding of genetics as a biological system through the lens of how cancer and genetics intersect. From an appreciation for and facility with "thinking genetically" to assess factors --- both biological and environmental -- that contribute to health and the development of cancer, you should be able to better "read" and understand advances in understanding and treating cancer that are emerging almost daily.

**IN 376**
**GENDERED RELATIONSHIPS AT WORK**
**Undergraduate**
This course will pay special attention to sex and gender issues in relationships at work. It will be studied in context so interactions between other factors (e.g. age, ethnicity, etc.) will be considered. Today in the name of equality we are inclined to deny that gender influences interactions between men and women. Researchers find that gender still has an impact on how men and women relate and suggest not talking about this can result in suspicion, mistrust, false assumptions, misunderstandings and frustration. In this class we will look at theories of gendered communication patterns and assess whether they are at play in our own places of employment. Some of the areas of study are: The double standard of expression, sports talk/family talk, sexist remarks, self-promotion, inclusion in decision-making and the use of humor.

Students will read about all areas and then decide to focus their study activities either on researching one in more depth, observing behavior at their own setting in light of all areas, interviewing colleagues about the topics, etc. All students will then submit a paper integrating what they have learned through investigation, experience and reflection on this important issue. They will also make recommendations for creating more equitable environments in their own work settings.

LL 102 and status as a BA-SNLDG99 student are a prerequisite for this class.
IN 377
EINSTEIN'S WAYS OF KNOWING
Undergraduate
While reading Walter Isaacson's 2007 biography, Einstein: His Life and Universe, students will: - explore how Albert Einstein learned and compare those methods to their own. - explain the external and internal factors affecting Einstein's work and, again, compare them to similar factors in their lives. - examine the concept of moral and immoral knowledge in both Einstein's life and their own. Students will participate in cumulative chapter discussions (via Blackboard) that result in a final project addressing each of the described issues. The default project is an essay/short paper, but students are encouraged to consider other options (e.g. concept map, PowerPoint presentation) and discuss with the instructor.

INT 150
GLOBAL CONNECTIONS
Undergraduate
This course is intended for non-majors who are looking to add an international perspectives course to their study. It looks at the relationships between people living across the globe. Formerly INT 300.

INT 201
THE EVOLUTION OF THE MODERN NATION STATE
Undergraduate
This course focuses on the complex relationship between race, gender, ethnicity and nationality and explores how this relationship shapes the evolution of the modern state. The historical consolidation of the nation state and the development of national institutions are analyzed, using examples from both 19th- and 20th-century Europe and the contemporary Third World. This course is the first in the required three-course sequence. For that reason, it is open to declared majors and minors only. Other students may take the course on a space-available basis, with the permission of the director.

Sophomore standing or above and status as an International Studies major or minor is a prerequisite for this class.

INT 202
INTERNATIONAL CONFLICT AND COOPERATION
Undergraduate
This course analyzes the nature of power in the international arena, conflicts that emerge among nations, and processes through which conflict may be resolved. It includes a critical perspective on realism and the other mainstream theories of international relations.

INT 201 and status as an International Studies major or minor is a prerequisite for this class.

INT 203
INTERNATIONAL MOVEMENTS IN THE 20TH AND 21ST CENTURIES
Undergraduate
This course evaluates the major social movements that have shaped international developments in the 20th and 21st centuries. Includes discussions of the varieties of socialism, race, colonization and decolonization of the Third World.

INT 201, INT 202 and status as an International Studies major or minor is a prerequisite for this class.

INT 204
CULTURAL ANALYSIS
Undergraduate
This course asks students to examine economic and cultural practices together so as to see the complicated ways in which such practices intersect and/or give rise to one another. Drawing on a variety of materialist perspectives, students study the economic and cultural instrumentality that different family structures and constructions of sexuality, gender, and race have held across time and place and how and why such structures have changed. Students also analyze the cultural logic of disposability in capitalism, both in terms of garbage-generation and the generation of surplus populations.

INT 205
INTERNATIONAL POLITICAL ECONOMY
Undergraduate
Topics discussed include the theory of comparative advantage, trade, immigration, alternatives to neoclassical trade theory, the third world debt crisis of the 1980s and 1990s, global financial institutions, and recurrent financial crises.

ECO 105 and ECO 106 are prerequisites for this class.
INT 206
IDENTITIES AND BOUNDARIES
Undergraduate
This course explores how identity formation is shaped by cultural, historical, and political construction of barriers, borders, and boundaries, and how such formations are intertwined with ethnicity, race, nationality, gender and class.

INT 301
SENIOR SEMINAR
Undergraduate
This course combines formal class work and independent research. Students conduct and present competent original academic research on a relevant and novel question of their choosing. Seminar topics vary, but projects typically require comparative research conducted in the student's target language.

Senior standing and declared International Studies major or minor are prerequisites for this course.

INT 310
AFRICAN AREA STUDIES I
Undergraduate
A general interdisciplinary survey of the social, political, and economic institutions, and the cultural history of selected regions within the African continent.

INT 311
AFRICAN AREA STUDIES II
Undergraduate
A continuation of the survey of institutions and cultural history described in 310.

INT 320
WEST AND SOUTH ASIAN AREA STUDIES I
Undergraduate
A general interdisciplinary survey of the social, political, and economic institutions, and the cultural history of selected regions within West or South Asia.

INT 321
WEST AND SOUTH ASIAN AREA STUDIES II
Undergraduate
A continuation of the survey of institutions and cultural history described in 320.

INT 330
EAST ASIAN AREA STUDIES I
Undergraduate
A general interdisciplinary survey of the social, political, and economic institutions, and the cultural history of selected regions within East Asia and the Pacific.

INT 331
EAST ASIAN AREA STUDIES II
Undergraduate
A continuation of the survey of institutions and cultural history described in 330.

INT 336
CULTURES OF THE PACIFIC
Undergraduate
A survey of the social, political, and economic institutions, and the culture history of selected regions of the Pacific.
INT 340
EUROPEAN AREA STUDIES I
Undergraduate
A general interdisciplinary survey of the social, political, and economic institutions, and the cultural history of selected regions of Europe and the Soviet Union.

INT 341
EUROPEAN AREA STUDIES II
Undergraduate
A continuation of the survey of institutions and cultural history described in 340.

INT 350
LATIN AMERICAN AREA STUDIES I
Undergraduate
A general interdisciplinary survey of the social, political, and economic institutions, and the cultural history of selected regions of Latin America.

INT 351
LATIN AMERICAN AREA STUDIES II
Undergraduate
A continuation of the survey of institutions and cultural history described in 350.

INT 360
TOPICS IN DEVELOPMENT & ANTI-DEVELOPMENT
Undergraduate
A survey of the problem of endemic poverty in the Third World, together with a consideration of the various forms of public action designed to alleviate poverty. Considerable attention will be paid to the problems of rural poverty and the pitfalls and possibilities of industrialization.

INT 362
LANGUAGE AND THE POLITICS OF TERROR
Undergraduate
Politics is, among other things, the arena in which human bodies are broken. This course will concern itself with the breaking of human bodies through torture, genocide, war and poverty. Throughout, a focus will be maintained on the interface between bodies and language, on how bodies placed under extremes of pain and degradation lose their capacity for speech, and how language reaches its intrinsic limits in trying to represent bodies in pain.

INT 364
TOPICS IN INTERNATIONAL POLITICAL ECONOMY
Undergraduate
A course that offers students the opportunity to explore international trade issues in greater depth. (See schedule for current offerings.)

INT 365
TOPICS IN WAR AND PEACE
Undergraduate
A course that offers students the opportunity to explore security, war and peace studies in greater depth. (See schedule for current offerings.)

INT 366
TOPICS IN INTERNATIONAL LAW
Undergraduate
A course that offers students the opportunity to explore law and security issues in greater depth. (See schedule for current offerings.)

INT 368
TOPICS IN GLOBAL CULTURE
Undergraduate
A course that offers students the opportunity to explore global cultural studies in greater depth. See schedule for current offerings.
**INT 371
INTERNATIONAL ENVIRONMENTAL POLITICS**
Undergraduate
This course examines the international processes by which scientific knowledge concerning environmental change and degradation is translated into action on the parts of individuals, groups, states, and global institutions. We look at the political, legal, economic and cultural structures that reproduce the global propensity to disrupt or degrade the environment and that likewise prevent amelioration.

**INT 374
TOPICS IN INTERNATIONAL ORGANIZATIONS**
Undergraduate
A course that offers students the opportunity to explore the United Nations, the Organization of American States, non-governmental organizations, the European Union, NAFTA and similar trading blocks or organizations, and the policy issues associated with these organizations. (See schedule for current offerings.)

**INT 380
INTERNSHIP PROSEMINAR**
Undergraduate
In this phase of an off-campus internship, students develop a research agenda under the supervision of faculty that they will carry out during their off-campus residency.

**INT 382
INTERNSHIP RESIDENCY**
Undergraduate
This course should be used to register credit hours for both Chicago-based and off-campus residencies to complete internship agreements and approved independent research proposals. 4-8 credit hours.

**INT 384
INTERNSHIP DIRECTED RESEARCH**
Undergraduate
In this phase of an off-campus internship, students submit a research report to faculty and expand upon their experience through further research.

**INT 388
SPECIAL TOPICS IN INTERNATIONAL STUDIES**
Undergraduate
Special Topics In International Studies

**INT 389
INTERNATIONAL SOCIAL ENGAGEMENT**
Undergraduate
The course provides 20-25 hours of service learning opportunities for students in organizations that are pursuing local activities based on international missions or globally-informed policies. The course meetings focus on student experiences and a discussion of state, sub-state, and non-state organizational structures in the international context.

**INT 390
GUEST SEMINAR**
Undergraduate
Examination of a topic in international studies under the direction of a visiting professor.
INT 393  
INTERNATIONAL STUDIES PRACTICUM  
Undergraduate  
Structured and supervised student participation in collegiate level simulations of international agencies, organizations, and conferences, including Model U.N., Model O.A.S., and others. Includes practical experience in agenda research, resolution preparation, and committee debate. The practicum extends through a single academic year. Students will register for the course in Autumn term. Four credit hours are earned at the end of the Spring term.

INT 399  
INDEPENDENT STUDY  
Undergraduate  
Variable credit hours.

INT 401  
CRITICAL SOCIAL THEORY  
Graduate  
All systems of knowledge are constituted through and in turn help constitute relations of power. This course introduces students to social theory as a reflexive practice that is aware of the power-infused conditions of its own production. Students who take this course should be able to examine the society around them with critical awareness, interrogate the naturalization of social knowledge, and become aware of the conditions through which knowledge, expertise, and transformative social practices are reflexively produced.

Graduate International Studies student is a prerequisite for this course.

INT 402  
INTERNATIONAL POLITICAL ECONOMY  
Graduate  
This course examines the historical development of the contemporary international political economy. The principle channels of interaction between states, economies, and international organizations are examined: trade and investment, diffusion of technology, institutional borrowing and adaptation, the workings of the international financial system, articulations of notions of equality and mobility. In the process, students also become familiar with a range of theoretical perspectives of IPE.

INT 403  
ADVANCED TOPICS IN INTERNATIONAL POLITICAL ECONOMY  
Graduate  
This advanced course builds on INT 402 by applying contemporary theories of political economy to topics that reflect current concerns. INT 401 is a prerequisite for this course.

INT 404  
MIGRATION AND FORCED MIGRATION  
Graduate  
This course examines the integral role that different processes of mobility play in shaping today's world: emigration, immigration, displacement, refugee and internally displaced persons flows. Students study the causes and effects of population movements including push-pull factors, demographic, economic, and political variables. Students also look at the role of state and non-state actors and organizations.

INT 405  
CULTURE AND INEQUALITY  
Graduate  
This course interrogates the concept of culture by showing the dynamic ways in which inequalities define and shape it. Students examine theories of culture and different approaches to studying culture to understand the relationship between the construction of cultural difference and social inequalities. INT 401 is a prerequisite for this course.
INT 406
GLOBAL EMPIRES
Graduate

In this course, students gain an acquaintance with theories of imperialism and post-colonial theory through historically situated studies. ‘Power’ serves as the generative concept for this course, to be understood as emergent at multi-scalar levels.

INT 401 is a prerequisite for this course.

INT 407
RACE, SEX AND DIFFERENCE
Graduate

Power circulates through systems of social hierarchies. Such hierarchies are the material basis through which difference is defined. This course examines theories of class, race, and sex to show how difference operates.

INT 408
NATURE, SOCIETY, AND POWER
Graduate

This course is an interdisciplinary exploration of environmental issues pertinent to international studies. The reproduction of human societies occurs in a symbiotic relationship with the natural world, yet in the modern era nature has come to be increasingly conceptualized as a resource. This course explores the repercussions of this instrumental separation of nature from culture and society. Our conceptions of nature range from the physical environment to the human body; and the course explores a range of related political, economic, ecological, and socio-cultural issues from theoretical, comparative, and practical perspectives. Issues explored include those of environmental justice and social and political equity, and questions such as who defines what constitutes environmental issues, who is included or excluded from environmental concerns, and who benefits or is harmed by environmental changes occurring as a result of social interventions.

INT 409
CRITICAL DEVELOPMENT THEORY
Graduate

The uneven integration of the world economy has been shaped by a succession of policies and theories of development, modernization, and globalization. This course investigates how these theories and policies have contributed to centrally organizing concepts such as poverty, inequality, growth, and progress, which have been instrumental in ordering contemporary societies.

INT 410
INTERNATIONAL LAW
Graduate

This course offers students the opportunity to engage in an examination of recent developments in international treaties, legal process and international organization. Topics may include refugees, trade law, criminal law and the establishment of the international criminal court, international labor law, environmental law, theories of international law, human rights and the relationship between international law and local economic development.

INT 490
SPECIAL TOPICS IN INTERNATIONAL STUDIES
Graduate

Special courses will be offered as students and faculty identify selected topics of common interest. This number is also used for students taking 300-level courses in the undergraduate International Studies program. In this case, students must have the approval of their thesis advisor and the director of the International Studies program before registering for the course.

INT 500
TOPICS IN GLOBAL CULTURAL ANALYSIS
Graduate

Provides students writing theses in the area of global culture with opportunities to read contemporary works in the field, including the fragmentation of identity, postcolonial historiography, and transnationalism. Students develop analytical skills that can be applied to their projects. The seminar is offered in the Spring of the first year; the course focuses on different topics under different instructors.
INT 502
TOPICS IN INTERNATIONAL POLITICAL ECONOMY
Graduate
Provides students writing theses in the area of international political economy with opportunities to read contemporary works in the field, including growth theories, capital and labor flows, and transformation of regimes. Students develop analytical skills that can be applied to their projects. The seminar is offered in the Spring of the first year; the course focuses on different topics under different instructors.

INT 504
TOPICS IN INTERNATIONAL LAW
Graduate
Course offers students the opportunity to engage in an examination of recent developments in international treaties, legal process and international organization. Topics have included refugees, trade law, criminal law and the establishment of the international criminal court, international labor law, environmental law, theories of international law, human rights and the relationship between international law and local economic development. Students work on the international law and institutional aspects of their theses.

INT 506
ETHICS IN INTERNATIONAL POLITICS
Graduate
Provides a detailed review of the ethical writings on international politics from a number of philosophical positions.

INT 508
ETHNIC CONFLICT
Graduate
Course offers students the opportunity to engage in comparative examination of recent ethnic conflicts. Theories of the national/nationalism, ethnicity, race and gender are applied to case studies of conflicts involving group-based sociopolitical identification. International political legal forms of prevention and amelioration are studied and evaluated in light of theories and histories of group-based conflict. Conflicts studies have included: Northern Ireland, Rwanda, Israel/Palestine, the former Yugoslavia, Nigeria, E.Timor, Chiapas, France, Tibet, Cyprus, Kurdistan, Sri Lanka, and the U.S. Students work on the theory portion of their theses, developing a conception of group-based social identification.

INT 509
INTERNATIONAL MIGRATION
Graduate
Course examines historical, political economic, sociocultural and legal aspects of the migration of people across borders. Students gain a critical understanding of the development of the world labor market from early modernity through the present, as well as the structural context of recent anti-immigrant/anti-immigration politics in Europe, North America and Australia. Cultural studies concepts of diaspora, mestiza, "the new ethnicity," and hybridity are used to explore the possible formation of unique migrant subjectives. Finally we look at the consequences for the nation-state of migration-driven transnational subject and community formation. Students work on the theory portion of their theses, developing a conception of population shifts, transnational identity and their implications for social organization.

INT 510
GLOBAL CITIES
Graduate
Global Cities

INT 532
INTERNATIONAL MEDIA
Graduate
Explores the growth in the scope and power of international media to distribute images and ideas. Topics covered include First World monopolization of media, analysis of ties between media and capital, and Third World resistance to media influence.

INT 540
UNITED NATIONS PEACEKEEPING
Graduate
Peacekeeping. Explores the history of UN. peacekeeping efforts and the effectiveness of these efforts in different conflicts. Topics vary with the interests of the students.
INT 570  
FIELD RESEARCH IN INTERNATIONAL STUDIES  
Graduate  
Supervised independent research aimed at acquiring primary data for the thesis.

INT 580  
INTERNSHIP/PRACTICUM  
Graduate  
Supervised participation in a professional activity outside of the student's current employment, that further deepens the student's understanding of his or her research area.

INT 588  
INTERNATIONAL SOCIAL ENGAGEMENT  
Graduate  
This course provides 20-25 hours of service learning opportunities for students in organizations that are pursuing local activities based on international missions or globally-informed policies. The course meetings are focused on student experiences and a discussion of state, sub-state, and non-state organizational structures in the international context.

INT 590  
RESEARCH METHODS: EXTENDED CASE STUDY  
Graduate  
This course gives students a foundation in the techniques and theories involved in the extended case study research method.  
INT 401 is a prerequisite for this course.

INT 591  
THESIS RESEARCH I  
Graduate  
Students will take this course as an independent study with a thesis advisor, during which they will write and defend their thesis proposal.

INT 592  
THESIS RESEARCH II: THESIS WRITING  
Graduate  
Students will take this course as an independent study with a thesis advisor, during which they will write and defend their thesis.  
INT 401 is a prerequisite for this course.

INT 601  
CANDIDACY CONTINUATION  
Graduate  
Students who must take extra time to complete the requirements for the first or second year must enroll in candidacy continuation or must apply for readmission to the program.

INT 699  
CANDIDACY MAINTENANCE  
Graduate  
Placeholder course for students NOT actively working on their thesis. This course is meant only to maintain university student status, it will not give the student full- or part-time student status and will not permit deferment of student loans.

INTC 205  
COMMUNICATION, CULTURE AND COMMUNITY  
Undergraduate  
Examines the relationships among culture, communication, institutions, and public and private life. Students explore the possibilities and problems of contemporary forms of community through service in community organizations. The course also fulfills the junior year experiential learning requirement through community based service learning. (Formerly CMNS 205)
INTC 206
COMMUNICATING MULTICULTURAL IDENTITIES
Undergraduate
This course examines identity from a critical/poststructuralist position, approaching the notion of identity as a performative and discursive production within complex systems of power, privilege, and oppression. Together, the class will examine the ways in which discourse influences our performances of personal identity as well as the ways that it constructs our ideas about other identities (gender, race, sexuality, etc.). Through reading, discussion, and reflection, we will interrogate how individual and group identities are theorized, constructed, negotiated, and transformed; how identity is shaped by rhetorical discursive and non-discursive practices; and how identity construction is situated in historical/social/political/ideological contexts. (Formerly CMNS 206)

INTC 220
PUBLIC SPEAKING
Undergraduate
Introduction to the skills required in a variety of public speaking settings. Includes units on delivery, language, defining speech purposes and content, finding supporting material, organization, and audience analysis. Students will be required to present speeches. Background in basic writing and library skills is necessary. (Formerly CMNS 220)

INTC 230
PERFORMANCE OF LITERATURE
Undergraduate
Introduction to the communication of literature through oral interpretation. Involves critical analyses of selected literary works and preparation for and delivery of short performances. (Formerly CMN 230)

INTC 290
COMMUNICATION WORKSHOP (VARIEABLE TOPICS)
Undergraduate
This course allows students to sample a range of hands on, practical offerings in communication that can enhance their knowledge and expertise. Topics offered include survey design and focus groups. (Formerly CMNS 290)

INTC 304
MULTICULTURAL COMMUNICATION IN THE U.S.A.
Undergraduate
An examination of communication within and between linguistic communities in the United States. Focus will be on the relations between language use and social institutions such as the family, the community, the media, and the educational system. (Formerly CMN 304)

INTC 307
TOPICS IN POLITICAL AND SOCIAL COMMUNICATION
Undergraduate
Examines intensively one or more issues in the Culture and Communication Track. The topics differ each term focusing on a particular area of discourse such as environmental communication, political communication, and sexuality and communication. (Formerly CMNS 307)

INTC 308
TOPICS IN INTERCULTURAL COMMUNICATION
Undergraduate
Examination of the application of linguistic and rhetorical theories to various specializations in cultural discourse. The course focuses each term on one particular area such as semiotics, language acquisition, or language and power. (Formerly CMNS 308)

INTC 309
INTERNATIONAL/ GLOBAL COMMUNICATION
Undergraduate
Focuses on the world of international/global news flow and media systems in a comparative manner. Emphasizes changes that have followed the modernization of the media, the impact of globalization on individual countries, attempts to preserve the cultural character of domestic media content in the face of increased amounts of imported products, and the effects of new communication technologies, particularly the Internet. (Formerly CMNS 309)
INTC 310
DISCOURSE ANALYSIS
Undergraduate
An analytical examination of the ways in which people locate meaning cooperate, coordinate, and find coherency in conversations and in other forms of discourse, both spoken and written. The class will analyze and disclose meanings hidden in public discourse. (Formerly CMNS 310)

INTC 321
CULTURAL AND SYMBOLIC CRITICISM
Undergraduate
Introduction to the critical methodologies of rhetorical analysis. Students are instructed in ways to become more reflective consumers of discourse by examining how rhetoric instructs reality, shapes the social and political agenda and engages questions of ethics, power and persuasion. The course promotes a critical awareness of the role symbols play in influencing human perception, attitude, and action in a diverse culture. (Formerly CMNS 321)

INTC 322
ADVANCED PUBLIC SPEAKING
Undergraduate
Analyzes theories and develops skills required in persuasive speaking situations. This course is an extension of the public speaking class (INTC 220) and explores in greater detail than the first course the analysis of audiences, sources of resistance to persuasion, and appropriate logical and psychological strategies for persuasive speeches. (Formerly CMNS 322)

INTC 220 is a prerequisite for this course.

INTC 323
SOCIAL MOVEMENTS
Undergraduate
This course examines the rhetoric of social movements throughout American History. As a rhetoric class, the focus is primarily on the symbolic creation of movements in order to provide background of the political and social events that gave rise to the movement. Using readings from a variety of sources, we will investigate the discursive construction of power as it relates to society and politics. The class will take a case-study approach to examining social movement rhetoric, exploring the discourse that has served to resist oppressive, or perceptively oppressive, systems. (Formerly CMN 323)

INTC 324
CULTURE OF CONSUMPTION
Undergraduate
Introduces students to the critique of our consumer culture. Teaches students how to be critical consumers and understand how to be critical consumers and understand how we consume lifestyles, images, aesthetics, and desire through our shopping patterns. Provides theoretical, observational, and critical tools that allow students to critique patterns of consumption, the production of culture through consumption, and how consumption is a means of communication. (Formerly CMNS 324)

INTC 325
PROMOTING SUSTAINABLE PRACTICES
Undergraduate
Provides a foundation in the communication skills necessary for achieving conservation goals. Introduces communication approaches such as social marketing, citizen participation, public campaigns, and environmental interpretation that have proven effective in the work of conservation professionals. (Formerly CMNS 325 - ENVIRONMENTAL COMMUNICATION WORKSHOP)

INTC 326
ENVIRONMENTAL POLITICS AND RHETORIC
Undergraduate
Rhetorical perspective on environmental public discourse. Course also explores the relationship between rhetorically constituted ideas about nature and the development of political and social ideas, institutions, and practices that inform our understanding of the human place in the environment. (Formerly CMNS 326)
INTC 328
HISTORY OF RHETORIC AND COMMUNICATION
Undergraduate
Offers an overview of historical foundations of the communication field. Examines how the formulations of rhetoric by various thinkers derived from cultural, religious, and political contexts shape human consciousness and communication patterns. Students read primary and secondary materials on classical rhetoric and rhetoric of diverse cultures. The course promotes an understanding and appreciation of antiquity and development of ideas over time in relation to current cultural and communicative patterns. (Formerly CMNS 328)

INTC 329
PERFORMANCE OF GENDER & SEXUALITY
Undergraduate
This course is designed to give students an opportunity to experiment, explore, and reflect upon the performative dimensions of gender and sexuality. Using aesthetic performance as a point of entry, students will view, analyze, and generate performance work that interrogates the communicative, political, and transformative potentials of embodied actions. With an emphasis on the intersections of gender and sexuality, the course will move through three units of reading, discussion, viewing, and performance creation.

INTC 330
TOPICS IN PERFORMANCE
Undergraduate
Advanced study in performance focusing on a specific genre each quarter such as: Poetry, Fiction, Nonfiction, Drama or Chamber Theater. Other possibilities include: performing autobiography; life performances; ritual, ceremony, and storytelling; and radio and television performances. (Formerly CMNS 330)

INTC 331
COMMUNICATION FIELDWORK
Undergraduate
Provides students with experience conducting qualitative research, including data collection techniques, data coding and analysis, as well as interpretation of data and writing ethnographic reports. In addition to providing practical hands-on training in ethnographic research, this course serves to explore the theory, ethics, and politics behind various research methodologies. (Formerly CMNS 331)

INTC 332
TOPICS IN INTERCULTURAL COMMUNICATION METHODOLOGY
Undergraduate
Courses explore a range of qualitative and quantitative research strategies. Topics may include more specialized modes of gathering and assessing data, using new data technologies and software programs, and conducting communication studies.

INTC 333
CULTURAL WAYS OF SPEAKING
Undergraduate
Explores how speakers reveal culture through their everyday interactions. This course focuses on speaking as an activity through which individuals identify themselves with communities of discourse, within the United States as well as across cultural groups. It provides students with experience in discovering diverse "ways of speaking" and "codes" concerning what it means to be a person, how people relate to each other, and how they view the world. (Formerly CMNS 333)

INTC 334
URBAN COMMUNICATION
Undergraduate
Examines relationships between material features of the city and symbolic representations of urban life (e.g., photography, film, songs, public discourse) with the goal of understanding the city as a site of communication. Special attention is paid to expressions of hope for and fear of the city. (Formerly CMNS 334)

INTC 335
LATINO COMMUNICATION, CULTURE, & COMMUNITY
Undergraduate
Examines the relationships among Latino cultures, communication, institutions, and public and private life. Students explore the possibilities and problems of contemporary forms of community through service in Latino community organizations. The course also fulfills the junior year experiential learning requirement through community based service learning. (Formerly CMNS 335)
INTC 337
ASIAN-AMERICAN MEDIA REPRESENTATIONS
Undergraduate
The course takes an interdisciplinary approach in the analysis of the media images and explores issues of power, identity, race, gender, class, sexual orientation and the interaction of these factors in the representation of Asian Americans. (Formerly CMNS 337)

INTC 338
ASIAN CULTURE AND COMMUNICATION
Undergraduate
Reviews major Asian philosophical and religious traditions such as Hinduism, Confucianism, Taoism, and Buddhism and examines how these traditions influence and affect Asian cultures and communication behaviors, particularly communication among Indians, Chinese, Japanese, Koreans, and Asian Americans in various contexts. (Formerly CMNS 338)

INTC 340
LEGAL SLATING LANGUAGE
Undergraduate
This course examines language legislation and rules globally at national and institutional levels. We explore the ideologies and motivations that underlie such policies.

INTC 361
GENDER AND COMMUNICATION
Undergraduate
A review of the differences in communication patterns between women and men. Topics covered include language and language usage differences, interaction patterns, gender social movements, and perceptions of the sexes generated through language and communication. (Formerly CMNS 361)

INTC 367
PERFORMANCE FOR SOCIAL CHANGE
Undergraduate
This is an experiential field experience that examines the role of performance in social activism. Student projects will identify a social issue of critical concerns and devise a performative response. (Formerly CMNS 367)

INTC 392
INDEPENDENT STUDY
Undergraduate
Independent Study.

INTC 393
INTERCULTURAL COMMUNICATION PRACTICUM
Undergraduate
Structured and supervised student participation in collegiate debating, radio production or group presentations for various audiences. Includes practical experience in research, rehearsal and performance. Students may take a maximum of 2 credit hours in one quarter, 4 credit hours in the major, and 8 total credit hours. Written permission of supervising faculty member and of the departmental chair is necessary before registration.

INTC 395
DEBATE PRACTICUM
Undergraduate
This practicum centers on developing students' skills in debate and public discourse. Participation in forensic activities outside of the class (tournaments, public debates, etc.) is an expectation.

IPD 347
BIG DATA USING HADOOP PROGRAM
Undergraduate
A 10-week program covering the Apache Hadoop framework and how it fits with Big Data
IPD 350
IOS DEVELOPER PROGRAM
Undergraduate
A 10-week intensive program covering the core issues of developing mobile applications for the iOS operating system with a focus on business applications.

IPD 351
BIG DATA AND NOSQL PROGRAM
Undergraduate
A 10-week program covering popular NoSQL databases and how they fit with Big Data

IPD 352
IPV6 PROGRAM
Undergraduate
A 10-week online program providing comprehensive coverage of IPv6 technologies and strategies for transitioning enterprise networks to IPv6

IPD 353
CLOUD COMPUTING WITH AMAZON WEB SERVICES PROGRAM
Undergraduate
A 5-week program in cloud computing using the Amazon Web Services platform

IPD 354
CLOUD COMPUTING INFRASTRUCTURE AND OPERATIONS PROGRAM
Undergraduate
A 6-week program in the architectures, infrastructure, and operations of Cloud Computing

IPD 355
CLOUD COMPUTING TECHNOLOGIES PROGRAM
Undergraduate
An 11-week program in the principles, methods, and technologies of Cloud Computing

IPD 356
WEB DEVELOPMENT WITH JAVASCRIPT AND HTML5 PROGRAM
Undergraduate
An 8-week in-depth program focused on user-centered Web development. Topics in the curriculum include HTML5 and CSS3 integration; JavaScript programming; browser-agnostic JavaScript; DOM-based manipulation of HTML documents; programming in jQuery; the browser-event model; client-side debugging techniques; asynchronous client/server interaction (Ajax); animation and visual effects; form management and validation; JSON and XML data representation; and advanced HTML5 features such as the canvas, audio, and video elements.

IPD 357
WIRELESS LAN SECURITY PROGRAM
Undergraduate
An 8-week program covering the latest solutions to wireless LAN security issues.

IPD 358
SHAREPOINT DEVELOPER PROGRAM
Undergraduate
A 10-week program covering Microsoft SharePoint development.

IPD 359
WEB DEVELOPMENT WITH PYTHON PROGRAM
Undergraduate
A 5-week program covering Web development with the Python programming language.
IPD 360
SQL SERVER BUSINESS INTELLIGENCE PROGRAM
Undergraduate
An 11-week in-depth program covering SQL Server analysis services, integration services, and reporting services.

IPD 363
SQL SERVER DATABASE ADMINISTRATION PROGRAM
Undergraduate
An 11-week in-depth certificate program covering database administration using SQL Server

IPD 364
JAVA WEB DEVELOPMENT PROGRAM
Undergraduate
A 8-week comprehensive certificate program covering open-source, lightweight Java enterprise Web development using POJOs (Plain Old Java Objects)

IPD 365
RUBY ON RAILS PROGRAM
Undergraduate
A 8-week in-depth certificate program covering Web development using Ruby on Rails.

IPD 366
JAVA WEB SERVICES PROGRAM
Undergraduate
A 7-week program covering Web development using Ruby on Rails.

IPD 370
ADVANCED SQL PROGRAM
Undergraduate
A two-week program covering advanced SQL.

IPD 380
IT PROJECT MANAGEMENT PROGRAM
Undergraduate
A 10-week comprehensive program covering best practices in IT project management

IPD 382
JAVA DEVELOPER PROGRAM
Undergraduate
A ten-week comprehensive certificate program covering object-oriented applications development using Java for programmers.

IPD 389
.NET WEB DEVELOPER PROGRAM
Undergraduate
A ten-week comprehensive program covering .NET technologies

IPD 447
BIG DATA USING HADOOP PROGRAM
Graduate
A 10-week program covering the Apache Hadoop framework and how it fits with Big Data
IPD 451
BIG DATA AND NOSQL PROGRAM
Graduate
A 10-week program covering popular NoSQL databases and how they fit with Big Data

IPD 452
IPV6 PROGRAM
Graduate
A 10-week online program providing comprehensive coverage of IPv6 technologies and strategies for transitioning enterprise networks to IPv6

IPD 460
SQL SERVER BUSINESS INTELLIGENCE PROGRAM
Graduate
An 11-week in-depth program covering SQL Server analysis services, integration services, and reporting services.

IPD 463
SQL SERVER DATABASE ADMINISTRATION PROGRAM
Graduate
An 11-week program covering database administration using Microsoft SQL Server

IPD 500
TASTE OF COMPUTING PROFESSIONAL DEVELOPMENT
Graduate
The goals of this course are to: work collaboratively with peers to implement an inquiry-based curriculum in computer science; prepare to teach culturally-relevant foundational computing knowledge with concrete instructional strategies; and, develop a community of practice in the classroom with an interdisciplinary approach to problem-solving.

IRE 100
INTRODUCTION TO IRISH STUDIES
Undergraduate
This course introduces students to the interdisciplinary field of Irish Studies and helps prepare them for further study and/or participation in study abroad programs in Ireland. This course will explore a diverse range of topics including: the history, culture and politics of Ireland; the role of religion, historically and in the present day; Irish mythology and literature; the Irish Diaspora; and Ireland's role in the global political economy.

IRE 101
IRELAND, 1450 - 1800, CONQUEST, COLONIZATION & REBELLION
Undergraduate
This course offers a survey of Irish history from the end of the middle ages to the union of Ireland and Great Britain in 1800. It traces the ways in which Ireland was brought under great English (later British) control through processes of agreement, conquest and colonization; and the ways in which various groups within Ireland sought to resist such developments. Cross-listed as HST 266 & CTH 288.

IRE 102
HISTORY OF IRELAND FROM 1800 TO THE PRESENT
Undergraduate
Survey of Irish history from 1800 to 2000. Examines the course of Irish history from the Act of Union (creating the United Kingdom), through the struggles and reforms of the 19th century (Catholic Emancipation, the Famine and Irish diaspora, Fenianism, Land Reform and Home Rule), to the creation of the modern nation-state of the 20th century (the Easter Rising, partition and civil war, the role of Eamon deValera, the Republic, and the Troubles). Topics include the contributions of Irish culture and its influence in Europe and the world. Cross-listed as HST 268.
IRE 103
IRELAND: RELIGION AND THE CONTEMPORARY "TROUBLES"
Undergraduate
An examination of the role of two Christian denominations (Protestant and Roman Catholic) in the more recent "Troubles" in the north of Ireland. Attempts to discover the contributions of religious differences in fueling and resolving the animosities between the Unionist and Nationalist sides; studies the social-historical dimension of the troubles and the Protestant and Catholic religious activities and official responses to them. Cross-listed as CTH 274.

IRE 104
THE EARTH'S CULTURAL LANDSCAPE
Undergraduate
A survey of the global patterns and processes which create our world's cultures. Several cultural realms such as language, religion, folk and popular culture, ethnicity, and the built environment serve as foci for a deepened understanding of the world and its people. Cross-listed as GEO 170.

IRE 105
GEOPOLITICS
Undergraduate
A survey of theories of international relations and geopolitics, the course explores the security dilemmas and types of collective action that mold international affairs in the Post-Cold War era. Cases from Western Europe, the Balkans, the Middle East and the Trans-Caucasus region provide opportunities to assess theoretical approaches and profile the United States' security landscape for the new millennium. Cross-listed as GEO 201.

IRE 106
THE EUROPEAN UNION
Undergraduate
An interdisciplinary study of European integration following WWII, with special emphases on the political philosophy, the geopolitical basis for the block's formation, the institutional structure, the evolution of policies, and the future development of the European Union. The course nurtures research and presentation skills through simulations of the European Commission and Council. Cross-listed as GEO 316.

IRE 107
RELIGIOUS GEOGRAPHY
Undergraduate
Religion and geography are fundamentally intertwined. From the establishment of theocratic states that control territory, to the sprawl of US suburbia that has led to megachurches, the role of religion in shaping the earth's cultural landscape is undeniable. Religious beliefs shape geographies - there are places that, through faith, become sacred; elsewhere religious individuals and groups struggle to claim places in the name of their beliefs. This course will examine case studies from around the world to explore the intersection of geography and religion. Cross-listed as GEO 204.

IRE 201
TOPICS IN IRISH STUDIES
Undergraduate
See schedule for current offerings  Cross-listed as ENG 357.

A literature course is a prerequisite for this course.

IRE 202
MODERN IRISH LITERATURE
Undergraduate
This course provides an introduction to Irish literature, including some poems in the Irish language with English translations on facing pages, written from the Literary Revival to the late twentieth century. It emphasizes the transitions from a colonized to a postcolonial society and the slow validation of the voices of Irish women writers. Cross-listed as ENG 355.

IRE 203
CONTEMPORARY IRISH LITERATURE
Undergraduate
This course is an introduction to the vibrancy of contemporary Irish literature. It explores the ways in which literature addresses issues such as new patterns of living, communal tension, and women's experience.
IRE 249
GENDER AND POLITICS IN IRELAND
Undergraduate
This course examines the often paradoxical impact of political change and social relations on women in Ireland. Political change has at times afforded women leadership opportunities; social relations have been, especially during periods of colonial rule and the ascendancy of the Church, intensely patriarchal. The course pays particular attention to the way in which, historically and today, categories of gender have been constructed and intersect with or otherwise affect politics and social relations in the Republic of Ireland or the six counties that remain part of the United Kingdom. Cross-listed with WGS 249.

IRE 301
NINETEENTH CENTURY IRISH LITERATURE
Undergraduate
This course focuses on some of the important works of nineteenth-century Irish literature. It sees them as engaging with the often traumatic political and social changes of their time. Cross-listed as ENG 346.

IRE 302
THE IRISH REVIVAL
Undergraduate
The course invites a study of the cultural ferment of the decades from the 1890's to the 1920's in Ireland. Particular attention will be given to an introduction to the work of canonical writers such as Yeats and Joyce who emerged from it. Cross-listed as ENG 354.

IRE 303
REVOLUTION AND NATIONALISM IN IRELAND
Undergraduate
From the eighteenth to the twenty-first century Irish history has been defined by the emergence of national consciousness. This emerging consciousness has been expressed through violent rebellion against British rule and participation in British politics. This course traces the course of revolution and nationalism in Ireland from 1798 to 1923. This course traces the evolution of Irish nationalism and examines the historical literature of this subject. Key themes include: agrarian unrest, parliamentary politics, ideological revolution and the interaction of these forces to achieve independence.

IRE 379
INDEPENDENT STUDY
Undergraduate
Intensive study of a topic of special interest which is relevant to Irish Studies, normally in one of the curricular areas in which Irish Studies is taught in the minor, and usually with a faculty member who teaches in the Irish Studies program. An independent study typically involves private conferences with an instructor and supervised reading, research and writing. Written permission of the supervising faculty member and of the program director is necessary before registration.

IS 201
INTRODUCTION TO INFORMATION SYSTEMS
Undergraduate
This course demonstrates how information is used by organizations to conduct business and solve problems. This course presents information systems principles and demonstrates how they form an integral part of modern organizations. Topics include systems concepts; organizational processes; technological aspects of information systems; the Internet; IT security and ethical issues; database management; and systems development life cycle. In addition, students familiarize themselves with the DePaul computing environment and demonstrate competency at navigating that environment. PREREQUISITE(S): none

IS 208
INFORMATION TECHNOLOGY, ECONOMY AND SOCIETY
Undergraduate
Introduction to emerging information technologies and their impact on modern society. This course discusses the latest technologies used in the evolving IT environment and how these technologies are changing the modern world. Emphasis is placed on investigating issues using a variety of sources, case studies, and writing. PREREQUISITE(S): None
**IS 215
ANALYSIS AND DESIGN TECHNIQUES
Undergraduate**

This course presents a structured approach to analysis and design of an information system for a business. The systems development life cycle will be defined and described. Process descriptions, user and task analysis for interface development, prototyping, data flow and entity relationship diagramming will be presented. Case studies that promote critical-thinking skills provide the context for these techniques. Formerly IT 215. **PREREQUISITE(S): none**

**IS 280
COMMUNICATION FOR THE GLOBAL IT PROFESSIONAL
Undergraduate**

Development of professional communication and collaboration skills for the global IT workplace. Students cultivate proficiency with traditional in-person and electronic communications, modeling the conflict resolution, personal initiative, and personal presentation behaviors necessary for career advancement. Students become comfortable users of virtual communication and collaboration toolsets such as VoIP, collaborative editors, web presentation software, virtual team portals, and virtual scheduling tools. **PREREQUISITE(S): WRD 104. For students required to take LSP 120, it is also a prerequisite.**

**IS 324
ENTERPRISE ARCHITECTURE
Undergraduate**

This course explores the characteristics, selection, implementation and management of enterprise architecture frameworks, focusing primarily on the evaluation and planning of information systems from a top-down perspective. Major topics include enterprise architecture, Web 2.0, Enterprise 2.0, social media and networking, software as a service, content management systems, cloud computing, and portals; each is studied in terms of its characteristics and potential applications within an organization. **PREREQUISITE(S): IT 215**

**IS 331
FUNDAMENTALS OF DIGITAL PRODUCT MANAGEMENT
Undergraduate**

This course focuses on the creation and management of intangible technology products and services throughout the entire product management lifecycle. The benefits of the product management process along with the role of the Product Manager throughout the digital product lifecycle, main tasks, key reports and relationships, and the relationship between product management and product marketing will be examined. **PREREQUISITE(S): None**

**IS 344
IT AUDITING
Undergraduate**

Management and boards continue to recognize the importance of effectively managing information technology (IT) assets - to meet business objectives and to thoughtfully manage IT related business risks. This course examines the key principles related to auditing information technology processes and related controls and is designed to meet the ever increasing needs of IT audit and IT governance professionals. In addition, this course aids in the preparation for the Certified Information Systems Auditor (CISA) exam. **PREREQUISITE(S): None**

**IS 356
BUSINESS INTELLIGENCE SYSTEMS
Undergraduate**

Survey of emerging technologies used for decision support, collaborative decision support, knowledge management, and virtual team support in modern organizations. The course will critically examine how organizations may leverage these technologies toward competitive advantage. Students will gain hands on experience with SaaS collaboration and decision making tools. **PREREQUISITE(S): IS 201 and IT 240**

**IS 370
IT APPLICATIONS IN BUSINESS
Undergraduate**

An exploration of applications of Information Technology within business and non-profit organizations, with emphasis upon the following topics: ways managers, work groups, and organizations acquire and use information; typical business applications and their deployment in organizations; and information flows within common business systems. Additional topics include the role and structure of supply chains, IT support for Web-enabled enterprises, and global considerations for information system design. Coverage also includes standards for software acquisition, including evaluation of commercial software products. An introduction to the major principles of decision support and expert systems, business intelligence, and knowledge management, as well as risk, security, and disaster recovery within an organizational setting are also covered. **PREREQUISITE(S): IS 215 or IS 201**
IS 371
INTRODUCTION TO IT SYSTEM MANAGEMENT
Undergraduate
This course focuses on implementation and post-implementation support for information systems. Topics include testing, deployment, user training, help desk, software upgrades, and staffing for support teams. Case studies and team projects. PREREQUISITE(S): IT215.

IS 372
SOFTWARE PROJECT MANAGEMENT
Undergraduate
(Cross-listed with ECT 372) An introduction to the concept and techniques of project management for a broad range of systems, including Web-based application development. Topics include resource management, organizational factors, project manager responsibilities, team building, and risk management. Tools and techniques for project estimating and scheduling will be presented. Case study and group projects. PREREQUISITE(S): IT215

IS 373
INTRODUCTION TO ENTERPRISE SYSTEMS
Undergraduate
A course on technical and management aspects of enterprise systems, including hands-on experience. It incorporates hands-on experience on enterprise resource planning (ERP) systems. Topics include: characteristics and selection of ERP systems, ERP implementation, customer relationship management (CRM), supply chain management (SCM), ERP systems administration, cloud computing and ERP, and enterprise integration with EPR. PREREQUISITE(S): IS 215

IS 375
OBJECT-ORIENTED ANALYSIS AND DESIGN
Undergraduate
This course focuses on object-oriented modeling techniques for analysis and design. Emphasis will be on the creation of well-designed, robust and maintainable software systems. UML (Unified Modeling Language) will be examined for modeling the system. Case studies will promote critical-thinking skills as well as provide the foundation for a student project that incorporates the skills attained throughout the quarter. PREREQUISITE(S): IT 215 and IS 371.

IS 376
INFORMATION SYSTEMS PROJECT
Undergraduate
This senior project course requires students to apply prior learning in project management and systems development life cycle by developing a complete systems from business case, analysis, design, through implementation strategies. Team project, documentation, presentation, the use of development as well as project management tools will be emphasized. PREREQUISITE(S): CSC212, IS371, IS372, IS373.

IS 379
VIRTUAL SOFTWARE TEAMS
Undergraduate
Fundamentals of software development in a virtual environment (if possible with students from different countries). Using an open source development environment; working across time, language, and culture; effective use of collaborative tools. PREREQUISITE(S): IS 215 or program development experience

IS 380
ESSENTIALS OF TECHNOLOGY ENTREPRENEURSHIP
Undergraduate
Introduction to the entrepreneurial process within technology intensive ventures. Roles of entrepreneurs and their start-up teams. Suitable business models and strategies. Legal issues and intellectual property. Financial issues and venture resources. Role of the customer and entrepreneurial marketing. Course will include group case studies of technology entrepreneurial ventures. Students will work in teams to develop a marketing plan and a business plan for a technology-intensive entrepreneurial venture of their choice. Course requires a prior foundational understanding of IT as is typically developed by the start of junior year.

IS 396
TOPICS IN INFORMATION SYSTEMS
Undergraduate
Advanced study focusing on a specific area of information systems each quarter. May be repeated for credit. PREREQUISITE(S): See syllabus
IS 398
INTRODUCTION TO IS MANAGEMENT SEMINAR
Undergraduate
This one-credit seminar examines the concepts of information and technology management and career options in this field. Students will assess their own interests and skill requirements for various careers. They will also analyze the impacts of IS trends and emerging technologies on their career choices. All new IS master's students are required to take this seminar as the first course. PREREQUISITE(S): None
Status as a Graduate student in the Information Systems Prerequisite Phase is a prerequisite for this class.

IS 399
INDEPENDENT STUDY
Undergraduate
Independent study form and consent of instructor required. PREREQUISITE(S): Consent of dean.

IS 400
INTRODUCTION TO IS MANAGEMENT SEMINAR
Graduate
This one-credit seminar examines the concepts of information and technology management and career options in this field. Students will assess their own interests and skill requirements for various careers. They will also analyze the impacts of IS trends and emerging technologies on their career choices. All new IS master's students are required to take this seminar as the first course. PREREQUISITE(S): None

IS 421
SYSTEMS ANALYSIS
Graduate
Course focus is on both traditional and object oriented systems analysis, with an emphasis upon developing competency in a wide range of modeling techniques. Specific topics include: overview of the software development environment and project management; project selection, initiation, and planning; determining requirements; process modeling, including DFDs and use cases; logic modeling, including decision tables, sequence diagrams, and activity diagrams; introduction to Entity-Relationship Diagrams. PREREQUISITE(S): None

IS 422
SYSTEM DESIGN, IMPLEMENTATION, AND MAINTENANCE
Graduate
Course focus is on both traditional and object oriented systems design. Specific topics include: database design, including logical and physical design; Entity-Relationship diagrams, class diagrams, form and report design; interface and dialogue design; design specifications, including structure charts and prototypes; designing for LANs and distributed systems, as well as the Internet; system implementation, including parallel and phased implementation, testing, documentation, and user training; system maintenance, including types of maintenance, controlling and coordinating maintenance requests, and configuration management. Course ends with a multi-week case study applying the principles from both this course and IS 421, Systems Analysis. PREREQUISITE(S): IS 421 and CSC 451

IS 430
FUNDAMENTALS OF IT PROJECT MANAGEMENT
Graduate
This course concentrates on monitoring, managing and controlling assets and resources on a single IT project. Topics covered are risk management; procurement and contract management; time and cost estimating; controlling and tracking techniques; quality assurance; testing and audit. Students will use common project management software for resource allocation and balancing. PREREQUISITE(S): None

IS 431
DIGITAL PRODUCT MANAGEMENT
Graduate
This course focuses on the central role of the Product Manager in creating and sustaining compelling products and services throughout the product lifecycle. Special emphasis is placed on the creation and management of intangible technology products and services throughout the entire product management lifecycle. Product managers act as the focal point for value creation within their organizations leading cross functional product activities from the conception of an idea to the ultimate product retirement. PREREQUISITE(S): None
IS 433
INFORMATION SECURITY MANAGEMENT
Graduate
Managing information assets and the security function. Emphasis on managing security-related risk, as well as the process of developing, implementing, and maintaining organizational policies, standards, procedures, and guidelines as they relate to security. Role of the CISO. Identifying and evaluating information assets, threats, and vulnerabilities. Quantitative and qualitative risk analysis, risk mitigation, residual risk, and risk resolution, as they relate to information security. Incident response. Consideration of the role and implementation of security controls during the process of analysis, design, and development. The application of policy development principles to security risk management. Introduction to compliance, as well as the CISSP domains. PREREQUISITE(S): None

IS 435
ORGANIZATIONAL MODELING
Graduate
The course explores contemporary approaches to analyzing and modeling organizational problems, processes, workflow, users and data. The emphasis is on the initial stages of analysis where the root cause of problems are identified, formulated and modeled. Students will acquire an array of modeling skills and be able to presecribe the proper modeling approach based on a variety of organizational and contextual factors. Business process modeling, management and metrics will be covered. Object-oriented and user-centered approaches will be introduced. PREREQUISITE(S): IS 421 or SE 430

IS 440
COLLABORATIVE TECHNOLOGIES FOR LEADING PROJECTS
Graduate
Study of the process of virtual teaming with emphasis on facilitation of different time project activities and facilitation of same time meetings. Students will learn how small group psychology and group communication theories inform specific behaviors in the design and leadership of meetings. Several meeting types including information briefing, focus group, document writing, decision making, requirements gathering, and teaching/training will be explored. In addition, the course surveys current collaboration technologies and discusses how to select among those technologies usability and fit to purpose of a meeting agenda. DL students may be required to schedule same time sessions with the instructor and other DL students; see current quarter syllabus for more information on this point. PREREQUISITE(S): None

IS 444
IT AUDITING
Graduate
Management and boards continue to recognize the importance of effectively managing information technology (IT) assets - to meet business objectives and to thoughtfully manage IT related business risks. This course examines the key principles related to auditing information technology processes and related controls and is designed to meet the ever increasing needs of IT audit and IT governance professionals. In addition, this course aids in the preparation for the Certified Information Systems Auditor (CISA) exam. PREREQUISITE(S): None

IS 455
ELECTRONIC BUSINESS
Graduate
An introduction to electronic business. The topics include business models, technologies, business and social impact of e-business. It explores the tools, skills, business and social implications of emerging electronic business. In addition to acquiring basic skills for identifying electronic business opportunities and creating a presence in the online marketplace, the student reexamines fundamental processes of business as they are performed in cyberspace in contrast to the marketplace. This helps them understand changes as the cyberspace grows increasingly important in the global economy. PREREQUISITE(S): None. For Kellstadt students or students pursuing the MS in Business Information Technology only.

Status as a MS-Business Information Technology student or Kellstadt student is a prerequisite for this class.

IS 456
KNOWLEDGE MANAGEMENT SYSTEMS
Graduate
Survey of emerging technologies supporting organizational knowledge processes including capture, codification, structure, storage, dissemination and reuse. The course will critically examine how organizations may leverage these technologies toward competitive advantage. Students will experiment with contemporary knowledge management (KM) tools. Some theoretical perspectives on knowledge management (KM) and organizational learning (OL) will be introduced. PREREQUISITE(S): None
IS 482
LEGAL ASPECTS OF INFORMATION TECHNOLOGY
Graduate
A practical survey of computer and information technology law arising in a high tech environment. Topics covered include: employment contracts, civil and criminal law, fraud and abuse, contracts, e-commerce, intellectual property, privacy, security, harmful communications, constitutional and First Amendment issues, and internal law and trade. PREREQUISITE(S): NONE.

IS 483
INFORMATION SERVICES AND OPERATIONS
Graduate
This course focuses on the operational aspects of information systems in organizations by examining the concepts, tools and techniques available to IS professionals responsible for the delivery of IT services. Topics include the organization of the IT services; the procurement of hardware, software and vendor services; operation of data centers, help desks and user training, the development and use of RFPs (Request for Proposals) and SLAs (Service Level Agreements), the integration of services and operations with application development project needs, and the role of capital and operating budgets. PREREQUISITE(S): Completion of five or more SoC MS level courses is required.

IS 485
REQUIREMENTS ELICITATION, ANALYSIS, AND SPECIFICATION
Graduate
This course focuses on the concepts and skills needed to elicit, analyze, specify, and manage requirements for a software or systems level project. Students will learn to identify and work with stakeholders through conducting a variety of requirements gathering techniques including interviewing, surveying, ethnography, and Joint Application Design (JAD) sessions, to identify and analyze requirements conflicts and negotiate solutions, to model requirements and specify them in unambiguous ways, and to manage requirements throughout the software lifecycle using change controls, traceability, and impact analysis techniques. The requirements process will be examined in both traditional and agile environments. Current topics such as requirements for product lines or distributed development teams will also be explored as time permits. PREREQUISITE(S): IS 422 or IS 430 or PM 430. A student may not take both SE 482 and IS 485 for credit toward a degree.

IS 500
INFORMATION TECHNOLOGY LEADERSHIP
Graduate
Managing people ethically and effectively by applying a broad range of creative approaches to individual and team leadership within an Information Technology context. Leadership methods studied include trait-based, skills-based, situational, contingency theory, path-goal theory, leader-member exchange theory, transformational, psychodynamic, and authentic leadership, as well as team leadership and the international, cultural, and ethical dimensions of leadership. Students assess their leadership styles and design individualized development plans to strengthen existing skills and expand IT leadership capabilities by incorporating additional leadership dimensions. PREREQUISITE(S): IS 430, PM 430, OR SE 477

IS 505
BUSINESS CONTINUITY/ DISASTER RECOVERY THEORIES AND STRATEGIES
Graduate
This course focuses on the knowledge necessary for an organization to prepare for a variety of major disruptions (floods, earthquakes, terrorist attacks, etc.). The goal is survival of the organization and its daily workflow despite major disruption. Students learn to analyze and prioritize risks and determine criticality ratings that are used to determine survival strategies. Students also learn how to organize employees to respond to a major disruption and how to document recovery plans. Course content includes coverage of current industry trends, as well as planning for the survival of Information Technology functions within an organization.

IS 506
BUSINESS CONTINUITY/ DISASTER RECOVERY MANAGEMENT AND TACTICS
Graduate
The course prepares students to lead an organization's business continuity and disaster recovery plans. Students learn the methodology needed to organize this function within an organization, evaluate an organization's business continuity and disaster recovery program according to established industry standards, and conduct a variety of quick-recovery drills. Students also focus upon industry-related human resources issues, crisis communications, and policies and procedures for setting up a command center. Course content includes coverage of current industry trends, as well as managing the survival of Information Technology functions within an organization. PREREQUISITE(S): IS 505
IS 511
SOCIAL ISSUES OF COMPUTING
Graduate
This course aims to provide a broad survey of the individual, organizational, and cultural impacts of computers and to stimulate reflection upon the social and ethical issues provoked by current and projected uses of computers. Some topics include an in-depth look at computers as they relate to workplaces, communities, public policy, legal issues, education, privacy, and moral values. PREREQUISITE(S): NONE.

IS 533
ENTERPRISE SECURITY INFRASTRUCTURE CONTROLS AND REGULATORY COMPLIANCE
Graduate
Design, implementation, support and management of control methods in enterprise environments. Focus is on how these controls can help organizations achieve regulatory compliance. Review of Sarbanes-Oxley and its impact on IT systems. Detailed study of how risk assessment methods, information security program management and ERP systems can be used to fulfill regulatory and legal requirements. Control Objectives for Information and related Technology (COBIT) guidelines and best practices for SOX compliance. Security management standards (ISO 17799, BS 7799 and ISO 27001). PREREQUISITE(S): IS 433

IS 535
INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS
Graduate
This course focuses on the application of financial analysis and decision-making approaches to aid information technology investment decisions at the operational, project, tactical and strategic levels. Students will learn how to apply a variety of financial methods -- breakeven analysis, present value analysis, profitability index, and return on investment to various IT investment decisions. The course will also address cost benefit analysis, outsourcing, balanced scorecard, and multi-factor scoring, benchmarking, and IT investment portfolio methods. These techniques will prepare students to manage capital budgets, acquisition of system and application software, hardware, personnel, and professional services at project and system levels as well as enterprise investment portfolio. PREREQUISITE(S): SE 477 or IS 565 or ACCT 500 or IS 430 or PM 430 or ECT 455

IS 536
ENTERPRISE CLOUD COMPUTING
Graduate
Cloud concepts, architecture, and service management, with particular emphasis upon identifying and analyzing potential business applications of cloud computing. Students will conduct feasibility studies, detailing the advantages and disadvantages of implementing a cloud computing platform for specific applications, with particular emphasis upon financial considerations, business benefits, and security risks. Students will develop the ability to evaluate alternatives and effectively argue in favor of their choices within the cloud computing knowledge domain. They will be able to define, apply, and defend the need for standards and best practices. Students will work within a project team following the principles of project management to design, build, and implement cloud applications.

IS 540
GLOBAL INFORMATION TECHNOLOGY
Graduate
A study of the hardware, software, and techniques for using virtual information technologies to support teams working in a distributed, virtual, or global enviroments. Topics include software survey and evaluation, software deployment within organizational and trans-organizational contexts, trans-national vendor relationships, trans-border data flow, geographically dispersed software development, and integration of diverse technologies. PREREQUISITE(S): Completion of five or more SoC MS level courses is required.

IS 549
DATA WAREHOUSING AND DATA MINING
Graduate
Introduction to data warehousing and the foundations of understanding the issues involved in building a successful data warehouse. Data warehouse development methodology and issues surrounding the planning of the data warehouse. Data quality and metadata in the data warehouse. Analysis, transformation and loading of data into a data warehouse. Development of the data architecture and physical design. Implementation and administration of the data warehouse. Introduction to data mining. (PREREQUISITE(S): CSC 451 or CSC 453
IS 553  
**ADVANCED TOPICS FOR SYSTEMS DEVELOPMENT**  
Graduate  
Planning and implementation of enterprise systems in the context of enterprise transformation and new market dynamics. Networked enterprise and virtual organizations. Internet and intranet applications for electronic commerce, mass customization and information empowerment. Enterprise-wide systems, business process reengineering. Interorganizational systems, sourcing options, and transformational information technologies. Value-chain analysis and competitive strategies. Case studies examine various planning and implementation approaches and impacts. PREREQUISITE(S): IS 422 or ECT 555 or SE 430.

IS 556  
**ENTERPRISE PROJECT MANAGEMENT**  
Graduate  
This course covers how an enterprise coordinates and effectively manages all its IT projects and programs through program management and the IT program management office. Students will learn the role of the IT program management office in establishing and maintaining the project and program infrastructure and in assisting project managers, program managers, and the executive steering committee. Students will analyze the role of program management in coordinating the delivery of expected program benefits, in managing stakeholder expectations, and in establishing program governance. PREREQUISITE(S): IS 430 or PM 430

IS 560  
**ENTERPRISE SYSTEMS**  
Graduate  
An introduction to enterprise systems for data and process integration, including ERP systems. Topics include the requirements of enterprise systems, application architecture, tools, and functionality of leading enterprise systems, life cycle and methodologies for systems integration, selection, and implementation strategies. Also addressed are emerging trends for enterprise systems and relationship among component systems. PREREQUISITE(S): Advanced Standing

IS 565  
**IT OUTSOURCING**  
Graduate  
The course focuses on how organizations can use leverage of scale as a source for cost reduction; leverage of expertise for improved superior IT performance; leverage of access (e.g. location) to develop new strategies. Other topics covered include different types of sourcing strategies, sourcing maturity levels and best practices. PREREQUISITE(S): Completion of five or more SoC MS level courses is required

IS 567  
**KNOWLEDGE DISCOVERY TECHNOLOGIES**  
Graduate  
An introduction to the Knowledge Discovery Technologies covering all stages of a data mining process: domain understanding, data collection and selection, data cleaning and transformation, dimensionality reduction, pattern discovery, evaluation, and knowledge extraction. The course provides a comprehensive overview of data mining techniques used to realize these stages, including traditional statistical analysis and machine learning techniques. Students will analyze large datasets and develop modeling solutions to support decision making in various domains such as healthcare, finance, security, marketing, customer relationship management (CRM), and multimedia. PREREQUISITE(S): IT 403

IS 570  
**ENTERPRISE SYSTEM IMPLEMENTATION**  
Graduate  
Formerly IS 450. This course is targeted towards information systems professionals who are involved in the planning and implementation of large scale, cross-functional enterprise systems. Students will examine the characteristics of technology efforts that change and transform the way people perform their tasks and how the new technology structures the flows of information and decision making using workflow modeling methods. Through case studies and exercises students gain insights into the elements of successful implementations leading to the preparation of a change management plan. Emphasis is placed on developing mechanisms for communicating and training all affected agents. PREREQUISITE(S): IS 430 or PM 430 or completion of five or more other SoC MS level courses should contact the course instructor or an advisor.
IS 574
BUSINESS INTELLIGENCE
Graduate
Introduction to the concepts of business intelligence (BI) as components and functionality of information systems. How business problems can be solved effectively by using operational data to create data warehouses, and then applying data mining tools and analytics to gain new insights into organizational operations. Detailed discussion of the analysis, design and implementation of systems for BI, including: data management systems, decision support systems, group support systems, knowledge engineering, expert systems, and Web 2.0 tools. Case studies of application software, web tools, success and limitation as well as technical and social issues. (PREREQUISITE(S): (SE 430 or IS 435 or PM 430 or MIS 674) and CS C451)

IS 577
INFORMATION SYSTEMS POLICIES AND STRATEGIES
Graduate
This capstone course emphasizes the planning and management of information technologies and related resources at the corporate level. Topics covered include assessment of information technologies, tracking emerging technologies and trends, managing portfolio resources and matching them to business needs, technology transfer, end-user computing, outsourcing, theoretical models, strategic applications and strategic IT planning. Students are encouraged to take this course toward the end of their study. PREREQUISITE(S): Completion of ten or more SoC MS level courses is required.

IS 578
INFORMATION TECHNOLOGY CONSULTING
Graduate
This course is for the IT professional. The emphasis is on examining the models, techniques, and skill development for providing effective IT consulting services. The course examines the structure of IT consulting markets; leading IT consulting practices; models and approaches for providing internal IT consulting services; sourcing strategies, evaluation of RFPs and response process contract formulation, client relations and project management; knowledge management and collaboration and IT strategies. PREREQUISITE(S): Completion of foundation or core phase.

IS 579
VIRTUAL SOFTWARE TEAMS MANAGEMENT
Graduate
Application of project management principles, tools, and techniques to a virtual software development project: management of virtual software teams; planning, executing the plan, monitoring and controlling the development process. Work with project office (PMO) to set templates for reporting and common processes and standards; set milestones and their deliverables; establish communication medium for the virtual team. PREREQUISITE(S): PM 430 or IS 430

IS 580
TECHNOLOGY ENTREPRENEURSHIP
Graduate
In-depth examination of the entrepreneurial process within technology intensive ventures. Roles of entrepreneurs and their start-up teams. Suitable business models and strategies. Legal issues and intellectual property. Financial issues and venture resources. Role of the customer and entrepreneurial marketing. Students will analyze and present case studies of technology entrepreneurial ventures. Students will develop a marketing plan and a business plan for a technology-intensive entrepreneurial venture of their choice. PREREQUISITE(S): Completion of the foundation phase.

IS 590
INFORMATION SYSTEMS RESEARCH METHODS
Graduate
Introduction of information systems (IS) research methods and theories. The course is taught as a seminar course. Both quantitative and qualitative methods are discussed. PREREQUISITES: CSC 424 or CSC 428

IS 596
TOPICS IN INFORMATION SYSTEMS
Graduate
Advanced study focusing on a specific area of information systems each quarter. May be repeated for credit. PREREQUISITE(S): For specific prerequisites, see syllabus or consult course instructor.
IS 599
INDEPENDENT STUDY
Graduate
Independent study form and consent of instructor required.

IS 690
RESEARCH SEMINAR
Graduate
Readings and discussion on current research topics. Students may register for this course no more than twice. (PREREQUISITE(S): Consent of advisor).

IS 696
MASTER'S PROJECT
Graduate
Four credit hours. Students may register for this course only after their advisor has approved a written proposal for their project. Independent study form required. (PREREQUISITE(S): Consent of advisor).

IS 698
MASTER'S THESIS
Graduate
Two credit hours. Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. Independent study form required. (PREREQUISITE(S): Consent of advisor).

ISM 101
FOUNDATIONS OF INTERACTIVE & SOCIAL MEDIA
Undergraduate
This course approaches the study of Interactive and Social Media through the analysis of interactive media artifacts (e.g. games, apps, websites, etc.) in order to develop a shared language for what are common components of all interactive artifacts. Students will also examine how delivery platforms (e.g. smart phone, tablet, interactive kiosk, desktop, phone) constrain and afford different interactivity. Students will conduct weekly product analysis along with a final project where they inventory and analyze all of the interactive artifacts they use in a 48 hour period. PREREQUISITE(S): none.

ISM 208
VIRTUAL WORLDS AND ONLINE COMMUNITIES
Undergraduate
Environments such as social networking sites, multiplayer online games and other online communities are becoming an increasingly large part of how we work, play, and learn. This course introduces the fundamentals for the interdisciplinary study of cyberculture and online social behavior. By examining core scholarship in this area, together with analyzing an existing virtual world, game, or online community, students will learn to research and understand new technologically-enabled social forms as they are emerging. PREREQUISITE(S) WRD 104

ISM 210
INTRODUCTION TO HUMAN-COMPUTER INTERACTION
Undergraduate
This course familiarizes students with the user interface development process, including user and task analysis, interaction design, prototyping and evaluation. Students study human perception, cognition and motor abilities as they relate to the design of interactive systems. In a series of projects, students design and revise prototypes as they apply a user-centered design process. Emphasized topics include user profiles, information architecture and usability testing. Students provide written analysis of their research and process. Formerly IM 210. PREREQUISITE(S): None
ISM 220
INTERACTIVE DESIGN & PROTOTYPING
Undergraduate
This course applies interactive media principles for a variety of contexts with a goal of exploring relative merits among common interaction paradigms. Based on assessed needs and intended functionality, students create working prototypes that demonstrate a range of design patterns, particularly those with a high level of interactivity such as rich internet applications, games, and visual simulations. Emphasis is given to visual design principles and aesthetics for creating interesting and engaging interactive experiences. Formerly IM 220. PREREQUISITE(S): ISM 210

ISM 222
INFORMATION VISUALIZATION
Undergraduate
This course discusses the basic problems and techniques of visualizing quantitative and qualitative data. Topics include: perception, types of information, representation of univariate and multivariate data and relational information, analysis of representations, presentation, and dynamic and interactive visualizations. Students will create visualizations using graphical software PREREQUISITES: LSP 120

ISM 225
WEB 2.0 BUILDING BLOCKS
Undergraduate
This seminar course will provide students with a foundation in understanding the key computational infrastructures upon which today's social applications are built (e.g. social networks, cookies, cloud computing, media streaming, APIs, location-based awareness). Student will examine popular web 2.0 sites/apps and analyze for the inclusion of building blocks in order to understand how these building blocks facilitate the user experiences deemed essential for web 2.0 apps. Prerequisite(s): none

ISM 270
USER-CENTERED WEB DESIGN
Undergraduate
Principles of interactive design for web pages and sites. Design patterns for information navigation. Use of HTML and CSS to produce standards- and accessibility-compliant web pages. Overview of technologies supporting dynamic and interactive content. Formerly IM 270. Prerequisites: IT 130 or HCI 201

ISM 320
ADVANCED PRINCIPLES OF INTERACTIVITY
Undergraduate
This course will use complex interactive web projects to challenge students to solve real-world problems. Students will build upon the organizational and analytical strategies learned in ISM while expanding their knowledge of Flash subjects such as site integration, utilizing remote data and manipulating video. PREREQUISITE(S): ISM 220 Interactive Design and Prototyping

ISM 336
INTERACTIVE MEDIA SCRIPTING FOR PROGRAMMERS
Undergraduate
Object-oriented programming in ActionScript for students who already know how to program. Students will design, code and test interactive media using standard and custom designed classes. PREREQUISITE(S): Experience in at least one high-level programming language.

ISM 360
USER-CENTERED EVALUATION
Undergraduate
Overview of user research and usability evaluation methods. User research includes interviews, profiles and scenarios. Usability evaluation methods include expert inspections and usability testing. PREREQUISITE(S): ISM 210.

ISM 390
TOPICS IN INTERACTIVE AND SOCIAL MEDIA
Undergraduate
Specific topics will be selected by the instructor and may vary with each quarter. PREREQUISITE(S): For specific prerequisites, see syllabus or consult with course instructor.
ISM 399
INDEPENDENT STUDY
Undergraduate
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit.
PREREQUISITE(S): None.

ISP 100
THE NATURE OF SCIENCE
Undergraduate
The Nature Of Science (Cross-listed As PHY 100)

ISP 220
INTERACTIONS OF SCIENCE & TECHNOLOGY
Undergraduate
INTERACTIONS OF SCIENCE & TECHNOLOGY

ISP 245
LIFE IN THE UNIVERSE
Undergraduate
Life In The Universe

ISP 300
SELECTED SEMINAR TOPICS
Undergraduate
Offered each quarter, the topics of the junior seminar vary. Each offering, however, builds upon concepts introduced in a previous core course and involves a research project. Cross-listed as HON 300. Variable credit.

ISP 330
PEER EDUCATION SERVICE LEADERS I
Undergraduate
This course is designed to prepare service immersion trip leaders and to promote their development as socially responsible leaders. The focus is on foundational theory and developing transferable life skills related to reflective theory and practice, Vincentian concepts of service, and peer education. Students must speak with their advisor to learn how this course may be applied to help satisfy their JYEL requirement.

ISP 331
PEER EDUCATION SERVICE LEADERS II
Undergraduate
Students will apply the theories and practices learned in ISP 330 to their service immersion groups. Through experiential, interactive, academic and reflective activities students will continue reflection on Vincentian service and their leadership roles. Students must speak with their advisor to learn how this course may be applied to help satisfy their JYEL requirement.

ISP 390
SPECIAL TOPICS
Undergraduate
Variable credit.

ISP 392
INTERNSHIP
Undergraduate
Internship
ISP 399
INDEPENDENT STUDY
Undergraduate
Variable credit.

IT 130
INTRODUCTORY COMPUTING FOR THE WEB
Undergraduate
An introduction to the Internet, the World Wide Web, and web development for students with a strong interest in technology. Students will create interactive web pages by writing HTML and CSS and by programming in JavaScript. Topics include the origins of the web, the roles and operations of web browsers and web servers, interacting with web applications through forms, and using style sheets to separate document structure and document formatting. PREREQUISITE(S): NONE.

IT 200
PUTTING YOUR MAJOR TO WORK
Undergraduate
This two credit course is designed to complement the student's major field of study. Students will explore connections between their academic course of study and internship and career opportunities. Students will refine their skills in networking, interviewing, developing a personal brand and utilization of social media tools.

IT 201
INTRODUCTION TO INFORMATION SYSTEMS
Undergraduate
(Formerly IS 201 Introduction to Information Systems) This course demonstrates how information is used by organizations to conduct business and solve problems. This course presents information systems principles and demonstrates how they form an integral part of modern organizations. Topics include systems concepts; organizational processes; technological aspects of information systems; the Internet; IT security and ethical issues; database management; and systems development life cycle. In addition, students familiarize themselves with the DePaul computing environment and demonstrate competency at navigating that environment. PREREQUISITE(S): none

IT 211
INTRODUCTION TO APPLIED PROGRAMMING
Undergraduate
Introduction to application development and problem solving. Basic programming constructs including control structures, I/O functions and object-based programming. Projects include small-scale applications using web-services, file processing, databases and application software. PREREQUISITE(S): IT 130

IT 212
APPLIED OO PROGRAMMING
Undergraduate
Introduction to Object-Oriented Programming. Students will use object-oriented programming to integrate systems and applications on multiple platforms, developing and understanding basic distributed applications and how they communicate. PREREQUISITE(S): IT 211

IT 215
ANALYSIS AND DESIGN TECHNIQUES
Undergraduate
(Formerly IS 315) This course presents a structured approach to analysis and design of an information system for a business. The systems development life cycle will be defined and described. Process descriptions, user and task analysis for interface development, prototyping, data flow and entity relationship diagramming will be presented. Case studies that promote critical-thinking skills provide the context for these techniques. PREREQUISITE(S): none

IT 223
DATA ANALYSIS
Undergraduate
(FORMERLY CSC 323) Application of statistical concepts and techniques to a variety of problems in IT areas and other disciplines, using a statistical package for simple data analysis. Course topics include descriptive statistics, elementary probability rules, sampling, distributions, confidence intervals, correlation, regression and hypothesis testing. PREREQUISITE(S): MAT 130 or placement
Societies function based on normative ethics utilizing commons sense to distinguish between ethical and unethical behavior. Most of us are not aware of the underlying theories when arriving at ethical judgments about right and wrong. However, the fast pace of progress in information technologies and digital entertainment creates an environment, in which ethical challenges are particularly complex. In the eyes of many, games and movies are violent, offensive and immoral. This course will concentrate on analyzing the impact of digital entertainment on an individual and society. Implications of certain values embedded games and movies will be discussed. Elements of the ethical code of conduct for a game or movie creator will be formulated. The issue of balancing individual creativity vs. cultural impact particularly on children will be discussed.

**IT 231**  
**WEB DEVELOPMENT I**  
**Undergraduate**  
Introduction to framework-based web development. Students create interactive, dynamic web sites using a common web architecture and object-based database access. Programming for web development includes control structures, objects, functions, and use of composite data types. Prerequisite: IT 130

**IT 232**  
**WEB DEVELOPMENT II**  
**Undergraduate**  
Intermediate framework-based web development. Students design and develop web applications supporting social-networking, content-sharing and functionality for business and organizational needs. Web concepts include AJAX, server-side caching, security threats. Application of object-oriented concepts. PREREQUISITE(S): IT 231 and IT 211

**IT 236**  
**USER INTERFACE DEVELOPMENT**  
**Undergraduate**  
The focus of the course is to build interfaces to simple programs. The course will cover interface controls, event handling, and the use of built in and/or pre-written controls. The course will cover simple database access through a Database control and possibly access to WebServices such as Google. Good visual design principles will be emphasized throughout the course. PREREQUISITE(S): IT 130

**IT 238**  
**INTERACTIVE WEB SCRIPTING**  
**Undergraduate**  
Advanced scripting with javascript and the Document-Object Model (DOM) for creating web pages. Object-oriented principles applied to user interfaces and event handling. Application of Ajax. Use of libraries such as jQuery. PREREQUISITE(S): IT 130

**IT 240**  
**INTRODUCTION TO DATABASES**  
**Undergraduate**  
This course will introduce students to the design, implementation and use of desktop databases. Major topics include: modeling using ER diagrams, creating and maintaining a database using a PC based application, compose and use queries in Structured Query Language, create and customize forms and reports, and integrate databases with other sources of data and applications. PREREQUISITE(S): NONE

**IT 263**  
**APPLIED NETWORKS AND SECURITY**  
**Undergraduate**  
This course introduces the networking and security technologies required to build and maintain a home or small-office network. Networking topics will include client/server application software configuration, network connectivity (cabling, switch and router configuration), basic IP addressing, network address translation and options for public Internet access services. Security topics will include typical threats and responses, firewalls, host hardening, password management and virtual private network (VPNs). The course has a lab component where students apply wired and wireless technologies to design and administer a small network with various applications. PREREQUISITE(S): none
IT 278  
COMMUNITY-BASED TECHNOLOGY PROJECTS  
Undergraduate  
Project development in cooperation with a community service organization. Students will assess urban community Web needs, develop and implement a Web solution. PREREQUISITE(S): IM 210, IS 215, and IT 232

IT 300  
RESEARCH EXPERIENCE  
Undergraduate  
This course involves the exploration of a research topic under the supervision of a research advisor. PREREQUISITE(S): Consent of dean.

IT 313  
ADVANCED APPLICATION DEVELOPMENT  
Undergraduate  
Development of complex applications through the use and development of APIs. Appropriate selection of common data structures (hash tables, trees, stacks, queues, networks) and design patterns for use in API development. PREREQUISITE(S): IT 212

IT 320  
CONTENT MANAGEMENT SYSTEMS  
Undergraduate  
Design and use of Content Management Systems (CMSs) to manage unstructured digital media throughout the enterprise, simplify the publication of Web content, and locate and link content at any level of an organization. Discussion will focus on key users, their roles and responsibilities, collaborative workflow, and versioning. Students will become familiar with available CMSs, design a database-driven Website focusing on separation of the content's semantic layer from its layout, and implement a system using a variety of open-source software. Prerequisite(s): IT 130

IT 330  
USER INTERFACE DEVELOPMENT FOR INTERACTIVE SYSTEMS  
Undergraduate  
Graphical user interface development for web and desktop applications. Event-driven user controls. Development involves use of a visual integrated development environment (IDE). Prerequisite: IT 232

IT 373  
SYSTEM CONCEPTS  
Undergraduate  
Overview of concurrency, memory management and file system concepts for operating systems, and web servers. Application of concepts to system administration. Case studies of common operating systems. Web server operations. Virtualization. PREREQUISITE(S): IT 313 or CSC 383 or CSC 393

IT 390  
TOPICS IN INFORMATION TECHNOLOGY  
Undergraduate  
Advanced study focusing on a specific area of information technology each quarter. May be repeated for credit. PREREQUISITE(S): Consent of the Instructor

IT 394  
SOFTWARE PROJECTS FOR COMMUNITY CLIENTS I  
Undergraduate  
This is the first course in a two-quarter sequence (winter/spring) for CDM students that satisfies both the Senior Year Capstone requirement and the Junior Year Experiential Learning requirement. The second quarter will be IT 395. You will earn four quarter hours of credit for each quarter for a total of eight quarter hours of credit. You must complete both quarters to receive any credit. We work with a community service organization, chosen with help of the Steans Center for Community-based Service Learning. As a community-based service learning course, students will have the opportunity to assess urban community needs in technology, and use problem-solving methods and strategies to make a substantial difference in an inner-city community group, usually by developing an application or a web site.
IT 395
SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II
Undergraduate
This is the continuation of IT 394. IT 394 and IT 395 must be taken as a sequence in two consecutive quarters. PREREQUISITE(S): IT 394

IT 398
TOPICS IN GLOBAL INFORMATION TECHNOLOGY
Undergraduate
This course focuses on current topics in the information and communications technologies that together support the "networked world." Sample topics are global software development and deployment, global data and information management, and cross-cultural project management for information systems. The course may be offered for variable credit hours (2, 4, 8, 16, and 32).

IT 403
STATISTICS AND DATA ANALYSIS
Graduate
Introduction to univariate data analysis methods. Descriptive statistics and data visualization methods. Overview of sampling techniques for data collection, and introduction to statistical inference methods for decision making including simple linear regression, estimation procedures using confidence intervals and hypothesis testing. PREREQUISITE(S): None

IT 411
SCRIPTING FOR INTERACTIVE SYSTEMS
Graduate
Introductory scripting for developing interactive web pages. Overview of HTML and CSS. Elementary programming concepts using JavaScript for learning control structures, functions, arrays, and object use. User interface development concepts include event handling and use of JavaScript libraries such as jQuery. Review of web clients, servers and architecture. PREREQUISITE(S): None

IT 432
WEB ARCHITECTURE
Graduate
Overview of Web application development for non-programmers. Hands-on exposure to the Model, View, Controller (MVC) framework using a common web framework. Topics include HTML/CSS, data modeling, authentication, AJAX and security issues. Students create and modify dynamic web sites. PREREQUISITE(S): IT 411

IT 590
TOPICS IN INFORMATION TECHNOLOGY
Graduate
Advanced study focusing on a specific area of information technology each quarter. May be repeated for credit. PREREQUISITE(S): Consent of the instructor

IT 599
TOPICS IN GLOBAL INFORMATION TECHNOLOGY
Graduate
Course Description: This course focuses on current topics in the information and communications technologies that together support the "networked world." Samples topics are global software development and deployment, global data and information management, and cross-cultural project management for information systems. The course may be offered for variable (1 to 4) credit hours. PREREQUISITE(S): None

IT 698
MASTER'S THESIS
Graduate
2 credit hours) Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. PREREQUISITE(S): Consent of advisor.
ITA 101
BASIC ITALIAN I
Undergraduate
Listening to, speaking, reading and writing Italian in a cultural context for the beginning student.

ITA 102
BASIC ITALIAN II
Undergraduate
Continued emphasis on the four skills in culturally-authentic situations. ITA 101 or equivalent, including placement test or permission of instructor, is recommended.

ITA 103
BASIC ITALIAN III
Undergraduate
Completion of the basic elements of the Italian language, spoken as well as written, with due regard to the cultural context of Italian expression. ITA 102 or equivalent, including placement test or permission of instructor, is recommended.

ITA 104
INTERMEDIATE ITALIAN I
Undergraduate
Intensive practice in the use of Italian through listening, speaking, reading and writing, and continued enhancement of the cultural awareness intrinsic to those skills. ITA 103 or equivalent, including placement test or permission of instructor, is recommended.

ITA 105
INTERMEDIATE ITALIAN II
Undergraduate
Continuing practice in spoken and written Italian and further development of reading and listening abilities in an authentic cultural context. ITA 104 or equivalent, including placement test or permission of instructor, is recommended.

ITA 106
INTERMEDIATE ITALIAN III
Undergraduate
Developing more fluency in speaking, understanding, reading and writing Italian with a concomitant heightened awareness of the cultural dimensions of the Italian language. ITA 105 or equivalent, including placement test or permission of instructor, is recommended.

ITA 197
SPECIAL TOPICS IN ITALIAN
Undergraduate
See schedule for current offerings.

ITA 198
STUDY ABROAD
Undergraduate
Variable credit.

ITA 199
INDEPENDENT STUDY
Undergraduate
Variable credit.

ITA 201
ADVANCED COMMUNICATION I
Undergraduate
Developing culturally appropriate speech and writing through the study of speech acts and written documents within the context of a systematic study and review of grammar. ITA 106 or equivalent is recommended.
ITA 202
ADVANCED COMMUNICATION II
Undergraduate
Focus on the differences between speech and writing with an emphasis on the latter as expressed in compositions, editing and other writing activities. ITA 106 or equivalent is recommended.

ITA 203
ADVANCED COMMUNICATION III
Undergraduate
Developing a sophisticated spoken fluency using authentic oral texts as models for elaborated discourse. Written texts and writing exercises reinforce oral expression. ITA 106 or equivalent is recommended.

ITA 297
SPECIAL TOPICS IN ITALIAN
Undergraduate
See schedule for current offerings.

ITA 298
STUDY ABROAD
Undergraduate
Variable credit.

ITA 299
INDEPENDENT STUDY
Undergraduate
Variable credit.

ITA 301
ORIGINS OF ITALIAN LITERATURE
Undergraduate
Topics will include the development of vernacular literature from the earliest texts to Dante. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 302
WRITING THE SELF IN THE ITALIAN RENAISSANCE
Undergraduate
Topics will include the evolving conception of self in texts of the Humanists, Machiavelli, Castiglione, Michelangelo, Ariosto and Tasso. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 303
LITERATURE OF THE SEICENTO & SETTECENTO
Undergraduate
Topics will include Baroque and Enlightenment texts of Marino, Galileo, Vico, Goldoni and Alfieri. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 304
ITALIAN CIVILIZATION I
Undergraduate
The development of Italian culture from the rise of the city-state after the year 1000 to the grand achievements of poets, painters and politicians in the Renaissance court. ITA 106 or equivalent and ITA 201-203 recommended.
ITA 305
TOWARDS UNIFICATION: ROMANTICS, REVOLUTIONARIES, AND REALISTS
Undergraduate
Authors will include Foscolo, Leopardi, Manzoni, Verga, Carducci and Pascoli. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 306
FUTURISM AND BEYOND: LITERATURE OF THE NOVECENTO
Undergraduate
Topics will include issues of modernity in the works of Svevo, Marinetti, D'Annunzio, Pirandello and others. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 307
DANTÉ'S INFERNO: THE WORLD OF THE CONDEMNED
Undergraduate
A close reading of the first part of Dante's masterpiece.

ITA 308
DANTÉ'S PURGATORY AND PARADISE: THE REALM OF SALVATION
Undergraduate
A close reading of selections from Purgatory and Paradise. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 309
THE ITALIAN NOVEL
Undergraduate
Selected topics from all periods. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 310
PETRARCA AND BOCCACCIO
Undergraduate
A close reading of selections from the Canzoniere and Decameron. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 311
ITALIAN POETRY
Undergraduate
Selected topics from all periods. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 312
ITALIAN DRAMA
Undergraduate
Selected topics from all periods. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 319
CILS EXAMINATION PREPARATION COURSE
Undergraduate
Intensive workshop course designed to prepare students for taking the Italian national CILS examination. Advanced review of reading, writing, speaking, and listening skills. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 320
ITALIAN FOR BUSINESS
Undergraduate
Advanced preparation for the use of Italian in the business world. ITA 106 or equivalent and ITA 201-203 recommended.
ITA 321
TRANSLATION
Undergraduate
Fundamental principles of translation and acquisition of practical skills involved in translating original documents from Italian to English and from English into Italian in the areas of literature and other topics. Three years of college Italian recommended.

ITA 329
ITALIAN FILM
Undergraduate
The development of Italian cinema from its origins to the present. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 332
ITALIAN CIVILIZATION II
Undergraduate
Overview of artistic, social and political developments from the Baroque to the Risorgimento. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 340
ITALIAN CIVILIZATION III
Undergraduate
The artistic, social and political development of modern Italy from industrialization through the Fascist era to contemporary society. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 353
ITALIAN PHONOLOGY AND PHONETICS
Undergraduate
An in-depth study of the language’s sound system and intensive pronunciation practice. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 397
SPECIAL TOPICS IN ITALIAN
Undergraduate
See schedule for current offerings.

ITA 398
STUDY ABROAD
Undergraduate
Variable credit.

ITA 399
INDEPENDENT STUDY
Undergraduate
Variable credit. Permission of chair and instructor required.

ITA 401
ORIGINS OF ITALIAN LITERATURE
Graduate
Topics will include the development of vernacular literature from the earliest texts to Dante. Cross-listed with ITA 301.

ITA 402
WRITING THE SELF IN THE ITALIAN RENAISSANCE
Graduate
Topics will include the evolving conception of self in texts of the Humanists, Machiavelli, Castiglione, Michelangelo, Ariosto and Tasso. Cross-listed with ITA 302.
ITA 403
LITERATURE OF THE SEICENTO & SETTECENTO
Graduate
Topics will include Baroque and Enlightenment texts of Marino, Galileo, Vico, Goldoni and Alfieri. Cross-listed with ITA 303.

ITA 404
ITALIAN CIVILIZATION I
Graduate
The development of Italian culture from the rise of the city-state after the year 1000 to the grand achievements of poets, painters and politicians in the Renaissance court. Cross-listed with ITA 304.

ITA 405
TOWARDS UNIFICATION: ROMANTICS, REVOLUTIONARIES AND REALISTS
Graduate
Authors will include Foscolo, Leopardi, Manzoni, Verga, Carducci and Pascoli. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 406
FUTURISM AND BEYOND: LITERATURE OF THE NOVECENTO
Graduate
Topics will include issues of modernity in the works of Svevo, Marinetti, D'Annunzio, Pirandello and others. Cross-listed with ITA 306. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 407
DANTE'S INFERNO: THE WORLD OF THE CONDEMNED
Graduate

ITA 408
DANTE'S PURGATORY AND PARADISE: THE REALM OF SALVATION
Graduate
A close reading of selections from Purgatory and Paradise. Cross-listed with ITA 308.

ITA 409
THE ITALIAN NOVEL
Graduate
Topics include: structuralist critics; feminist critics; post-modernist critics. Cross-listed with ITA 309.

ITA 410
PETRARCA AND BOCCACCIO
Graduate
A close reading of selections from the Canzoniere and Decamerone. Cross-listed with ITA 310.

ITA 411
ITALIAN POETRY
Graduate
Selected topics from all periods Cross-listed with ITA 311.

Graduate
Intensive workshop course designed to prepare students for taking the Italian national CILS examination. Advanced review of reading, writing, speaking, and listening skills. Cross-listed with ITA 319.

ITA 420
ITALIAN FOR BUSINESS
Graduate
Advanced preparation for the use of Italian in the business world. Cross-listed with ITA 320.

ITA 421
TRANSLATION
Graduate
Fundamental principles of translation and acquisition of practical skills involved in translating original documents from Italian to English and from English into Italian in the areas of literature and other topics. Cross-listed with ITA 321.

ITA 429
ITALIAN FILM
Graduate
The development of Italian cinema from its origins to the present. Cross-listed with ITA 329.

ITA 432
ITALIAN CIVILIZATION II
Graduate
Overview of artistic, social and political developments from the Baroque to the Risorgimento. ITA 106 or equivalent and ITA 201-203 recommended.

ITA 440
ITALIAN CIVILIZATION III
Graduate
The artistic, social and political development of modern Italy from industrialization through the Fascist era to contemporary society. Cross-listed with ITA 340.

ITA 453
ITALIAN PHONOLOGY AND PHONETICS
Graduate
An in-depth study of the language's sound system and intensive pronunciation practice. Cross-listed with ITA 353.

ITA 497
SPECIAL TOPICS IN ITALIAN
Graduate
See schedule for current offerings.

ITA 498
STUDY ABROAD
Graduate
Variable credit. Permission required.

ITA 499
INDEPENDENT STUDY
Graduate
Variable credit. Permission of chair and instructor required.
IWS 116
**INTRODUCTION TO THE ISLAMIC EXPERIENCE**
Undergraduate
This course will introduce students to the religion of Islam through its sources, practices, and presence in the contemporary world. In this introduction we will briefly explore the Qur'an, the Prophet Muhammad, hadith, law, ritual and practices, sectarian movements, and issues among Muslim women. The course will also look at some of the issues facing Muslims at the present time. Cross-listed as REL 116.

IWS 191
**ISLAMIC WORLD STUDIES**
Undergraduate
This course is the introductory course to the program. This course is to familiarize the students with the study of Islam by introducing them to the central texts - the Qur'an, Hadith literature (reports of the actions and sayings of the Prophet Muhammad), and Sira (the biography of the Prophet)- and methodologies in studying these and other primary sources (although the course will limit its scope to translated texts, students will become aware of the vast resources that are available in Arabic). Students will also learn the mechanics of research in the field. They will become aware of the Encyclopedias, Indexes, and Journals, etc., that are available to conduct proper research in the field. Formerly IWS 100.

IWS 192
**WESTERN APPROACHES TO ISLAMIC STUDIES**
Undergraduate
This course is the second of two introductory courses to the Islamic World Studies Program. Students will concentrate on the state of the field of Islam in the academic world. Students will become grounded in the history of the field, from its beginning in the late 18th century until the present time. Students will become familiar with the most up to date theories that are at present governing the study on the rise of Islam and the sacred texts in the Western and Islamic Academia. Formerly IWS 101.

IWS 204
**RELIGIONS IN CHICAGO**
Undergraduate
This is community-based service learning course designed to participate in various Muslim communities across Chicagoland on service project which directly relate to the learning objectives of the course. Formerly IWS 104.

IWS 217
**ISLAM IN GLOBAL CONTEXTS**
Undergraduate
A study of Islam's developments in various global contexts, including Arabian beginnings, the Middle East, Central, Eastern and Western Europe, China, the former Soviet States and South Africa, with a focus on the impacts that these cultures and Islam have had on each other. Cross-listed as REL 217.

IWS 218
**INTRODUCTION TO ISLAM IN SOUTH ASIA**
Undergraduate
This course will explore the very rich history and development of Islam in South Asia. In the first part of the course we will briefly explore four overlapping, though unique phases: the early history of Islam in the region (beginning in 630), the Mughals (1526-1858), British Colonialism (1613-1947), and the contemporary world (1857-2011). In studying the early history of Islam in South Asia, we will explore both the South Asian milieu at the time of the Muslim arrival, as well as the context of Islam's arrival within the greater narratives of its own expansions. In studying the Mughals we will explore not only the rise and decline of this 600 year enterprise, but also the issues addressed by a Muslim minority ruling over a Hindu majority. In studying the history of British Colonialism in India, we will explore the India's perceived role in the greater project of Colonialism, Muslim encounters with modernity, and the changing dynamics of Muslim-Hindu interactions in response to the occupying power. In the post-Colonial phase, we will explore the anti-Colonial independence movements (the Khilafat movement and the Pakistan movement), followed by the mapping of South Asia as a three part nation-state: India, Pakistan, Bangladesh, with discussion on Kashmir, and Sri Lanka, involving a transnational conversation between multiple Islamic outlooks. In the second part of the course, we will explore four social, intellectual, cultural threads. We will look at effects of the Persian legacy on the Islamic imagination. We will look at the intellectual responses to Modernity, with emphasis on Shah Waliullah, Deoband, Aligarh, and Nadwat al-Ulama. We will look at the philosophical underpinnings of the political thought of three influential figures: Muhammad Iqbal, Sayyid Abu'l 'Ala Mawdudi, and Israr Ahmad. Last we will explore the artistic role of Muslims in the developing Indian consciousness. In the final part of the course, we will explore the role of Islam in South Asia in the 21st Century, exploring Global Societies, South Asian Diaspora, Pan-Islamism, Hindu Nationalism, Religious violence, and Bollywood.
This course maps Muslim histories in Latin America and the Caribbean, as well as in U.S. Latino/a communities, from the late fifteenth century to today. In this broad historical approach, we explore five distinct moments: the place of Moors or Muslim Iberians in the colonization of the "New World"; enslaved Male West Africans mobilizing against a Luso-Brazilian imperial order; indentured South Asians and creolization in Caribbean nationalist ideologies; early and mid-twentieth century Arab migration to South America, and, most recently, Latin American, Caribbean, and U.S. Latino/a conversion, or what many call, reversion, to Islam. Our main goal is to explore Muslim histories as a window into the themes of colonialism, slavery, creolization, migration, and post-9/11 politics within these Latin/o Americas. In so doing, we are necessarily locating Muslims at the very conception and in the very pulse of what is today considered Latin America and the Caribbean, tracing their histories through Iberian colonizers, enslaved Africans, indentured South Asians, migrant Arabs, and finally, Latino/a converts. By studying this Muslim history of the Latin/o Americas, we seek to gain novel insights into a lesser-explored dimension of Latin America and the Caribbean as well as map the global breadth of Islam.

This course is a comprehensive introduction to Islamic finance, from its religious and legal origins and principles to its most advanced forms. This course focuses on the underlying principles of Islamic finance through a study of its scriptural and jurisprudential origins and reviews most of its products such as Mud'raba, Mush'raka, Mur'baha, Project finance, Suk'k, Tak'ful, Ij'ra and equity mutual funds etc. The course also examines today's Islamic finance industry with a closer look at the structure and governance of contemporary Islamic financial institutions and international regulatory bodies.

An examination of the origins of Islamic culture in Arabia and the spread of Islamic art and religion across the Middle East, North Africa, Spain, Sicily, Iran, India, and Central Asia; emphasizes the meaning of religious imagery. Cross-listed with HAA 222.

An exploration of Judaism, Christianity and Islam as they develop and interact in the Middle East, historically and in terms of contemporary religious and political issues. Includes a study of personal narratives of people from Jewish, Christian and Muslim communities. Cross-listed as REL 263.

This course will deal with the idea of "reform" within Islamic political movements in the modern period. The course will analyze various Islamic reform movements such as the Wahabhis, the Muslim Brotherhood, the Modernists, the Traditionalists, seeking a pattern in these movements. Cross-listed as REL 265.

An examination of the story of Islam in the United States in three historical periods: antebellum America, the first half of the 20th century, and the latter half of the 20th century. Explores Muslim slave life; the possibilities of retentions of Islam in slave culture; the religious, social/economic, and political life of Muslims at the beginning of the 20th century; the emergence of Islamic thought in the U.S. through an overview of the works of Ismail as-Faruqi, Seyyed Hossein Nasr and Fazlur Rahman. Cross listed as REL 266.
Ethics is concerned with the character, customs, principles or standards of human conduct. Ethics is also concerned with the norms of human conduct. Islam is considered an essentially ethical religion meaning that it is fundamentally concerned with establishing the norms of human conduct in a relationship with God. Islamic conceptions of ethics/morality derive directly from the Qur'an. The lives of Muslims should ideally reflect the spiritual characteristics preferred by the Qur'an. In Islam there is no real distinction between being religious and ethical. In this course students will explore the ethical world of Muslims through glimpses of Islamic thought on pluralism, politics, abortion, war, euthanasia, and social justice.

A study of the origin, transmission, and interpretation of the Qur'an. Cross listed as REL 271.

Explores historical and contemporary trends in writing on Muslim women along modern and contemporary narratives on gender and sexuality in Muslim majority and minority cultures. Cross-listed as REL 272.

This course will look at the history of Sufism (Islamic Mysticism). The course will look at the roots of Sufism and its early advocates, the medieval articulation and formalization of the tradition, to its renaissance in the modern period and its use as a ‘moderating’ tool. Students by the end of the course will also have a firm grounding in the terms and concepts that govern Sufism.

This course will introduce students to the hadith (the tradition of the Prophet Muhammad). The course will look at the historical development of the collection, study, and criticism of the hadith. Students will learn the utilization of the hadith in the establishment of Muslim religious practices, law, political and cultural norms. Students will become familiar with the technical terms that are utilized by the scholars of hadith. Students will also come to understand the modern debates about hadith study and hadith utility (or lack there of) in the modern world.

A study of Islam's central texts regarding other religious traditions and how commentators discuss them, and the way in which Muslims have interacted with other religious and non-religious traditions.

This course will look at the various sects within Islam such as Shi'iism, Kharjism, etc. The course will also look at theological sects such as the Mu'tazilites. The course will be concerned with the history, the beliefs, and the present circumstances (if they still exist today) of these sects. Cross listed as REL 295.

This course looks at one of the main intellectual outgrowths of the Islamic tradition: Falsafa (philosophy), the translation movement it spawned, and its interaction with Greek and Hellenistic philosophy. As we look at this historical development we will read important Islamic philosophers both in the medieval and modern period, such as: al-Kindi, al-Farabi, Ibn Sina, Ghazali, Ibn Rushd, Ibn Hazm, Ibn Tufayl, Ibn Bajjah, Suhrawardi, Nasir al-Din Tusi and Mulla Sadra.
IWS 300
MUSLIMS IN AMERICAN FICTION AND FILM
Undergraduate
This course will analyse the portrayal of Islam and Muslims by American fiction writers, documentary and screenwriters. Students will use normal analytical categories as they read popular mystery thrillers, romance novels, watch documentaries and review major movies.

IWS 302
MODEL ARAB LEAGUE
Undergraduate
This course is centered around students' participation in the Model Arab League as delegates from member-states chosen by IWS. Students engage with others from universities in the Mid-West region on the most important social, economic, environmental, cultural and political issues facing Arab leaders and ordinary citizens. The in-class component will include pertinent background information in these areas along with a specific focus on parliamentary procedure of the states they will represent.

IWS 310
INTERNATIONAL ONLINE DIALOGUE
Undergraduate
This course is designed to run in conjunction with SoliyaConnect, a virtual classroom experience for IWS majors and minors. Students will engage in live conversations with other students in various universities in the U.S. and the Middle East on issues directly related to regional conflicts. Students begin in last weeks of winter quarter and continue throughout Spring Quarter, registering for course in Spring. Laboratory work which is virtual classroom is coupled with classwork real class setting.

IWS 324
ISLAMIC LAW (SHARIAH) AND AMERICAN CULTURE
Undergraduate
An intensive study of the many dimensions of religious liberties in a pluralist society. Explores the language of constitutional and political discourse generally, and the ways in which language affects an understanding of the First Amendment. Includes case studies on particular religious communities and their encounters with American law. Cross-listed as REL 324.

IWS 327
MEDIA AND ISLAM
Undergraduate
Media and Islam examines the journalistic techniques and communication theories behind how mainstream U.S. news media, print, broadcast and online bring news and information about the Arab and Muslim worlds to the American public. The course pairs media pieces with academic writing to stimulate critical thinking on media coverage of 1) characterizations of Muslims and Islam, including Islamic diversity, 2) contextual links between political Islam and Western/U.S. policies in the Muslim world, 3) the concept of jihad, 4) the status of Muslim women, and 5) the Israeli-Palestinian conflict. The course is presented in a three-hour, weekly seminar format and stresses reading, discussion and class participation. Written requirements are a midterm essay (assigned two weeks before due date) and a final media research paper on an approved topic of choice. There are no exams or quizzes.

IWS 330
ISLAMIC LAW, ITS HISTORY AND MODERN APPLICATIONS
Undergraduate
This course is a brief introduction to Islamic Law and its history including case studies of its modern applications. Students will trace the history of Islamic legal theory from its beginnings until the modern period. The focus is on the early formation of theory-its major themes and arguments along with the variety of doctrines that contribute to it. Students will examine how the socio-religious realities interface with the production of legal discourse as they build on previous coursework on modern reformers and the sources of law. This course will also explore the ongoing conversations over religious faith as the basis of a legal system. Last, we transition to the contemporary period through case studies where we will consider how the case connects with or departs from these larger debates and the different contemporary methodologies and arguments used.

IWS 340
SPECIAL TOPICS IN ISLAMIC WORLD STUDIES
Undergraduate
See schedule for current offerings.
Modernization and its attendant demands for economic, political and sometimes religious change ignited Muslim thought in the 20th century. Various western theories on modernity and modernization are perceived in the Muslim world as imperialistic and directly linked to threats of neo-colonialism. This course engages a variety of scholars in an exclusively textual approach, seeking to 'strike a balance' between analysis of their seminal texts and philosophical frameworks. We will examine the works of six scholars and the contexts that define them such as race, class, and gender.

This course is designed for majors.

This is a seminar for Islamic World Studies majors. It is both an opportunity to reflect on what has been gained from studies and experiences in Islamic studies and an opportunity to strengthen that learning and expand those experiences with direct contact with Muslim communities in Chicago and overseas through the Soliya Program. Students will meet with leaders and members of Chicago’s Muslim communities and through Soliya meet with their peers in universities here and abroad. Soliya, through a partnership with the United Nations Alliance of civilizations aims to reduce tensions across cultural divides. This aspect of the course will be integrated throughout with the assistance of Jennifer Von Diehle, Assistant director for International Collaborations at DePaul.

Independent study designed for majors.
JOUR 278
NEWS REPORTING
Undergraduate
This course is designed to go beyond the inverted pyramid of basic news writing and focus on some of the sophisticated newsgathering techniques used by journalists. Story generation techniques will be examined along with interviewing techniques. The course will also explore how databases and documents can enhance a story, including the use of surveys, field experiments and participant observation.

JOUR 275 is a prerequisite for this class.

JOUR 279
FEATURE WRITING
Undergraduate
This practicum develops the observational and narrative skills essential to writing feature stories in a variety of journalistic contexts. Students will learn the storytelling techniques that emphasize human interest, description and the details of a subject. Instruction will include illustrated lectures, class discussions, writing exercises and critiques.

JOUR 275 and 278 are prerequisites for this course.

JOUR 290
JOURNALISM WORKSHOP (VARIABLE TOPICS)
Undergraduate
This course allows students to sample a range of hands-on, practical offerings in journalism that can enhance their knowledge and expertise. Workshop topics can include video camera basics, non-linear editing with Final Cut Pro, newsprint design (including InDesign, Photoshop, Illustrator), and online editing tools (including Word Press). Students may take a maximum of 4 credit hours of JOUR 290 in the major, and a total of 8 credit hours.

JOUR 317
EXPERIENTIAL LEARNING
Undergraduate
Students learn advanced reporting techniques while developing projects under the direction of a faculty supervisor. This course is designed to take learning out of the classroom and enables students to develop portfolio pieces while gaining critical real world experiences in reporting.

JOUR 330
WRITING FOR BROADCAST
Undergraduate
This course introduces students to the writing and formatting requirements of broadcast journalists. Part of this instruction is to give students an understanding of how writing for broadcast differs from writing for print and the awareness it takes to write copy that supports and strengthens the visuals that viewers will be watching. Strong writing is the backbone of broadcast journalism, and this course gives students a firm foundation in the writing skills that produce broadcast stories worth watching.

JOUR 275 and 278 are prerequisites for this course.

JOUR 343
JOURNALISM AND THE AMERICAN EXPERIENCE
Undergraduate
This seminar analyzes the current condition of American print, broadcast and online journalism in light of their historic past. Journalism's social responsibilities and its functioning as a business are examined across major periods of American history—the colonial and revolutionary press, the early Republican and penny press, the Civil War press and the press of industrializing America, the rise of the tabloid press, and the role of the press in reporting the development of the United States as a world power during World War II and in its aftermath—will be captured.

JOUR 350
RADIO NEWS
Undergraduate
Nowhere has the rise of new technologies had a greater impact than in radio reporting. This course gives students opportunities to stream their stories through field and studio productions that connect listeners within communities and around the world. Students will be trained in writing for the ear, and the unique local and international possibilities of radio reporting.

JOUR 275 and JOUR 278 are prerequisites for this course.
JOUR 361
JOURNALISM LAW AND ETHICS
Undergraduate
This course examines legal and ethical issues in journalism with a focus on the First Amendment and the rights and responsibilities of the news media. Students will learn the constitutional rights of all citizens regarding censorship, defamation, privacy, intellectual property, and commercial speech, and will study how technological developments are challenging the courts with how to apply the law to digital media. Those legal aspects are considered in relation to case studies that chronicle journalists' ethical responsibilities, including protecting sources, balancing professional duties and personal values, sharing and using social media content, and avoiding deceptive reporting practices.

JOUR 362
THE PRESS AND THE PRESIDENCY
Undergraduate
This seminar describes the current and historic relationship between the mass media and the American presidency, focusing on the connections between press coverage to agenda-setting and public opinion in presidential campaigns. Students will analyze conditions in which press-presidential relations are cooperative or adversarial, including the market forces that have shaped that relationship and the news values that have reinforced it.

JOUR 363
ONLINE JOURNALISM
Undergraduate
This course introduces students to the principles and practices of online journalism. Students learn both conceptual and technical skills in multimedia reporting. Although the course provides groundwork in using digital tools to produce online content, the focus is on journalism. As much as possible, assignments will allow students to grasp online journalism concepts and apply them to real-world scenarios.

JOUR 364
INVESTIGATIVE REPORTING
Undergraduate
The course will include discussions and reporting projects that will analyze how investigative story ideas are developed, how decisions are made in the selection and development of investigative stories: how public records and other sources of information are obtained and used in investigative reporting: ethical dilemmas; and the impact of investigative journalism on public opinion and policy with a particular focus on issues of race, diversity and urban affairs.

JOUR 365
TELEVISION NEWS I
Undergraduate
This is a course in electronic newsgathering. Student teams will shoot and edit stand up news packages. To do this, students will learn the basic elements in developing a broadcast news story--from originating the story idea, researching it, illustrating it, doing interviews, and then packaging the story for air.

JOUR 366
MAGAZINE REPORTING
Undergraduate
The digital world of reporting and editing has created unparalleled opportunities to reach specific readers with targeted stories. This course introduces students to the opportunities of magazine writing and the strategies used by magazine writers. Writing assignments will strengthen a student's grasp of the resources available to modern magazine writers and the techniques of research and interviewing that are the basis of skilled storytelling.

JOUR 275 and JOUR 278 are prerequisites for this course.

JOUR 275 and 278 are prerequisites for this course.

JOUR 275 and JOUR 330 are a prerequisite for this class.

JOUR 275 and JOUR 278 are a prerequisite for this class.
JOUR 367
INTERNATIONAL REPORTING
Undergraduate
This course analyzes the impact new technologies and world events are having on foreign correspondents and international reporting. The digital revolution is having a profound effect on the ability of news makers and organizations to compete with governments in worldwide information flows. Access to information has made citizens more inter-dependent while creating extraordinary opportunities for journalists to tell stories that increase the understanding and enlarge the imagination of their readers.
JOUR 275 and JOUR 278 are prerequisites for this course.

JOUR 368
SPORTS REPORTING
Undergraduate
Sports reporting is a go-to destination for online, print, and broadcast consumers of sports information. This course gives students an understanding of the social and cultural significance of sports. It trains them to look for themes and details that go beyond the simple score of a contest to the symbolic importance of athletics in the post-modern experience. Students will complete the course with a new appreciation for what makes for strong sports reporting and what accounts for its unique hold on the popular imagination.
JOUR 275 and JOUR 278 are a prerequisite for this class.

JOUR 374
COMMUNITY JOURNALISM
Undergraduate
Students will examine the work of major news chains that have begun experimenting with local coverage patterns that are informed by community leaders and community organizations identifying what matters in their community. Supporters of this approach claim it is the future for news organizations attempting to fulfill their social responsibility. Critics claim it undermines the independence of the press.
JOUR 275 and JOUR 278 are prerequisites for this course.

JOUR 377
SPECIAL TOPICS IN JOURNALISM
Undergraduate
Focuses on a specific topic related to the field of journalism. Included might be such topics as sports reporting, Chicago journalism, tabloid journalism, and Front Page news. See schedule for description of current topic.
JOUR 275 is a prerequisite for this class.

JOUR 380
REPORTING FOR GOOD DAY DEPAUL
Undergraduate
This course will give students extensive experience doing on-air reporting for the DePaul student television news program, "Good Day DePaul." Reporters will cover breaking news stories, features, and serious enterprise stories. Students must have experience shooting in the field and editing in Final Cut Pro, either through previous television news courses at DePaul, or from other work. Students will be permitted to take this course in two different quarters.
JOUR 365 and 278 are prerequisites for this class.

JOUR 383
ONLINE JOURNALISM II
Undergraduate
This course builds on what students learned in Online Journalism I. The emphasis is on developing a student-run website made up of stories and sections that utilize interactivity and multimedia features to engage the online audience. Students develop an understanding of a website's structure and how larger sites are built vs. the microsites. The course is designed to simulate the workflow in digital newsrooms.
JOUR 363 is a prerequisite for this class.
**JOUR 385**  
**TELEVISION NEWS II**  
*Undergraduate*  
Television News II builds on the knowledge students have gained in our introductory Television News class in producing news packages for broadcast. Students will develop longer format feature pieces that combine skills in writing, reporting, shooting, narration, editing, and producing. The best of this work should serve as portfolio pieces for students considering careers in broadcasting and related industries. TV News I and Writing for Broadcast are prerequisites for taking this course.

PREREQ: JOUR 365

---

**JOUR 390**  
**WRITING FOR THE DEPAULIA**  
*Undergraduate*  
This course is designed for the serious journalism student who wants on-deadline experience writing for The DePaulia newspaper and web site. Students will cover beats of interest to the DePaul community throughout the quarter and also will receive assignments from DePaulia editors. Stories and beats can be as varied as campus news, sports, the arts or news in the Lincoln Park and South Loop communities. Students may repeat the course once for credit. Not available for DePaulia editors.

JOUR 275 and JOUR 278 are prerequisites for this course.

---

**JOUR 393**  
**JOURNALISM PRACTICUM**  
*Undergraduate*  
Structured and supervised student participation in collegiate debating, radio production or group presentations for various audiences. Includes practical experience in research, rehearsal and performance. Students may take a maximum of 2 credit hours in one quarter, 4 credit hours in the major, and 8 total credit hours.

---

**JOUR 399**  
**INDEPENDENT STUDY**  
*Undergraduate*  
**JOUR 501**  
**THE SOCIAL RESPONSIBILITY OF JOURNALISM**  
*Graduate*  
This course introduces students to the historic development of social responsibility theory and its continuing role in defining the obligations of journalists in creating an informed citizenry as a critical part of the democratic process. The course analyzes the ongoing tension between journalistic responsibility and the obligations of news organizations to turn profits for their shareholders and the constitutional imprimatur of journalism to offer the information that makes self-governance possible.

Status as a Graduate Journalism student is a prerequisite for this class.

---

**JOUR 502**  
**NEWS NOW: JOURNALISM IN THE INFORMATION AGE**  
*Graduate*  
This course offers historic context in critically examining issues now facing journalism. Students will analyze the impact that convergence and digital technologies are having on ethical decisions that must be made by socially responsible journalists during every news shift. Topics include: who is a "reporter" in the digital age and what are the rights and privileges of the online reporter in a converged environment that influence confidentiality, defamation, privacy, gate-keeping, sensationalism, the public's right to know, globalization, corporatization, and public opinion.

Status as a Graduate Journalism student is a prerequisite for this class.

---

**JOUR 503**  
**REPORTING FOR CONVERGED NEWSROOMS**  
*Graduate*  
This course is designed to equip journalists with the techniques needed in assembling and producing stories that can be published and distributed across integrated media platforms. Students will learn to write and edit reports for online media in ways that add value to stories and encourage readers to drill down into these news narratives for information worth knowing. Students will develop an understanding of how newsgathering practices are evolving through digital media and the role of teamwork in disseminating these stories to an informed citizenry.

Status as a Graduate Journalism student is a prerequisite for this class.
JOUR 504
BACKPACK REPORTING
Graduate
This course gives students the practical experience they need in news gathering and distribution within the converged landscape of electronic newsgathering. This will involve the preparation needed in covering stories, writing reports, shooting pictures and videos, and downloading these files along with links to relevant sites online. This course will prepare students to act independently and with others throughout the digital news gathering cycle, including the production of content in multiple information formats.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 505
ADVANCED TELEVISION REPORTING
Graduate
This course will teach students how to be responsible broadcast news reporters, anchors, producers, and editors, who bring added value to stories in today's converged newsroom environment. Students will learn all aspects of the news gathering and distribution process from story conception to the research, interviewing, reporting, writing, shooting, editing, and producing that goes into a successful, must-see story.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 506
NEWSCAST PRACTICUM
Graduate
This course teaches students how to construct a newscast, while fulfilling the social responsibility of the press. Students will learn how to utilize digital technologies to craft stories that empower citizens to participate more fully in public life. Students will rotate through different positions weekly---reporter, anchor, editor, technical director, director, floor director, and producer---in producing a weekly public affairs program.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 507
VISUAL COMMUNICATION
Graduate
This course gives students a theoretical and practical grounding in the digital world of photo-journalism. Students will be introduced to the wide array of tools available to reporters in illustrating content from their stories on the web. This includes the hardware and software packages now available in digital story-telling and how citizens use the information in interpreting the news of the day.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 508
NICHE JOURNALISM
Graduate
The course examines the explosion in magazine and trade publication journalism that is able to target specific audiences with content designed exclusively for them. Students will use the tools now available in reaching reader communities that share common interests and information. This is revolutionizing the ways in which stories are told, while creating communication communities that share common interests and speak a common language.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 509
JOURNALISM LAW AND ETHICS
Graduate
This course examines the philosophical roots of the First Amendment and how free speech jurisprudence impacts the journalism profession. Students will learn how legal and moral issues arise when newsgathering and free speech conflict with other constitutional and common law rights, and how developments in technology and economics are creating new challenges for journalists and the courts.

Status as a Graduate Journalism student is a prerequisite for this class.
JOUR 510
SPORTS REPORTING
Graduate
This course gives students an historic understanding of the role of the sports writer and sports section and the impact the online universe is having on sports writing and reporting. Students will the values of modern sports editors and the techniques used by modern sports writers. Students will learn the perspective and context that makes good sports writing truly exceptional.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 511
ARTS & ENTERTAINMENT REPORTING
Graduate
Arts and Entertainment reporting is among the most widely read, but often is the most poorly executed aspect of a publication or broadcast. Students taking this course will develop a critical appreciation for the role of arts and entertainment reporting in the history of the press and its current role in creating a culture that appreciates and understands the arts and their profound contribution to human understanding.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 512
BUSINESS WRITING AND REPORTING
Graduate
This course will help students better understand the critical role that business and finance reporting plays in the United States and the world economy. Students will develop the techniques that are necessary in responsibly researching, reporting, writing, and editing business and financial news. Segments of the course will be devoted to the history of the discipline, the ethical responsibilities of the business press, and the unique opportunities now available to the digital reporter of business and financial news.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 513
CHICAGO AND PUBLIC AFFAIRS REPORTING
Graduate
This course analyzes what is distinctive about Chicago reporting. Students will be introduced to the rich tradition and history of reporting in this city, and the central role this work has played in the development of urban reporting nationwide. To do this, students will take a close look at the institutions, people, neighborhoods, decision-makers and events that impact Chicago residents in their everyday lives. The emphasis will be on localizing our approach to stories through a beat system that will allow students to regularly report on important areas of municipal life.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 514
OPINION AND COLUMN WRITING
Graduate
Students will learn what makes for extraordinary opinion and column writing with an emphasis on strong reporting that enables writers to assemble arguments based on the firm foundation of fact. Also examined will be the new ways in which digital delivery systems both empower and threaten the free flow of ideas within and across interest communities.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 515
SPECIAL TOPICS IN JOURNALISM
Graduate
Topics have included Advanced Reporting; The Chicago Olympics; The Press and The Presidency; Reporting Campaign 2008; and From Franklin to the Internet: A History of American Journalism. Students pursuing the Sports Journalism concentration can use the following courses: Reporting the Olympics, Sports Blogging, and Sports Universe as special topics courses to count towards the concentration.

Status as a Graduate Journalism student is a prerequisite for this class.
**JOUR 517**
**EXPERIENTIAL LEARNING IN JOURNALISM**
Graduate
Students learn advanced reporting techniques while developing projects under the direction of a faculty supervisor. This course is designed to take learning out of the classroom and enables students to develop portfolio pieces while gaining critical real world experiences in reporting. Instructor Permission Required

Status as a Graduate Journalism student is a prerequisite for this class.

**JOUR 518**
**WRITING AND REPORTING**
Graduate
This course teaches foundational journalistic skills in writing and reporting for those students coming into the program without significant previous course work or professional experience in journalism.

Status as a Graduate Journalism student is a prerequisite for this class.

**JOUR 519**
**INTERNATIONAL REPORTING**
Graduate
Digital technologies have created a more interdependent world while radically transforming how that world is reported. This course analyzes the current state of foreign affairs reporting and teaches students how to think critically about foreign news reporting, while giving them the skills needed to execute stories in this challenging environment.

Status as a Graduate Journalism student is a prerequisite for this class.

**JOUR 520**
**DIGITAL EDITING**
Graduate
This class will examine how journalists can effectively find personal accounts of news events online and evaluate their credibility. It will look at a variety of related issues on the web, including ethical reporting, gathering story ideas, reliable sourcing, and social media experimentation. Students will experience working at a live aggregate news site to practice what they've learned in socially responsible digital editing.

Status as a Graduate Journalism student is a prerequisite for this class.

**JOUR 521**
**SPORTS PRODUCING**
Graduate
This course will focus on producing sports content for broadcast with an emphasis in television production. Students will learn to write and produce compelling stories through the lens of sports, including coverage of DePaul athletics. The best of this work will be featured on DePaul's broadcast and online outlets as well as university's athletics website. Instructor permission required for this course. Students must have a working knowledge of television production equipment.

Status as a Graduate Journalism student is a prerequisite for this class.

**JOUR 522**
**MULTI-PLATFORM NEWS EDITING**
Graduate
This course introduces students to editing and publishing procedures, including proofreading, copy editing and headline writing for various publications, including newspapers and online media. Skills are emphasized in AP style, grammar, usage, punctuation, story organization, brevity, basic layout, photo editing, cutline writing, news judgment, ethics and print/online headline writing. In addition to editing basics, students learn industry-standard InDesign software to lay out print news pages.

Status as a Graduate Journalism student is a prerequisite for this class.
JOUR 523
ONLINE SPORTS REPORTING
Graduate
Students will report, write, edit and produce online stories about sports issues, features and other topics. Skills are emphasized in game coverage, sports blogging, building a sports community on Twitter, shooting and editing video, recording and editing audio, and building basic web pages in HTML. The course also will explore ethical and legal issues pertaining to video and audio usage rights, athlete branding and other topics in the multimedia sports journalism culture.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 524
WRITING FOR THE DEPAULIA
Graduate
This course is designed for the serious Journalism student who wants on-deadline experience writing for The DePaulia newspaper and website. Students will cover stories from each section of the paper (news, features, entertainment, opinion and sports) throughout the quarter. Some assignments will come from DePaulia editors, but students are expected to come up with their own ideas. Stories can be as varied as campus news or news in the Lincoln Park and South Loop communities. Supplementing stories with photos and video is expected.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 525
URBAN AFFAIRS REPORTING
Graduate
There are stories hidden in plain sight throughout the city, and this course will cover how to find and cover those stories from the ground up. Urban Affairs Reporting will focus on the stories that happen beyond City Hall, in neighborhoods and communities, among individuals and groups - stories that influence and are influenced by government, business, and other powerful institutions. The course will help students improve their ability to develop sources, find story ideas, and thereby cover critical urban issues with greater depth, originality, and excitement. Students will learn how to report these often fascinating stories across a variety of print and online platforms.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 526
POLITICAL COMMUNICATION
Graduate
This course examines how political communication and related media affect public opinion, civic life, elections, and public policy, and the impact of these communication dynamics on civic institutions and democratic decision-making. Students will study how journalists, elected officials, citizens, and political strategists construct, use, and understand political messages, including how news, advertising, and entertainment media contribute to the shaping of political perceptions, emotions, and behaviors in a variety of circumstances domestically and internationally.

JOUR 527
LIFESTYLE REPORTING
Graduate
This course will give students the tools to write Lifestyle stories and to think creatively. Assignments will include human-interest stories, health, fitness, design, fashion, food, leisure and social issues. The class will concentrate on the tools reporters need to create this kind of work, from good quotes to relevant sourcing.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 528
REPORTING FOR GOOD DAY DEPAUL
Graduate
This course will give students extensive experience doing on-air reporting for the DePaul student television news program, "Good Day DePaul." Reporters will cover breaking news stories, features, and serious enterprise stories. Students must have experience shooting in the field and editing in Final Cut Pro, either through previous television news courses at DePaul, or from other work.

JOUR 505 and status as a Graduate Journalism student are a prerequisite for this class.
JOUR 529
ONLINE NEWS BUREAU
Graduate
This course offers first-hand experience on a digital newsroom. Students should already have a grasp of basic online journalism skills through earlier classes or practical experience. The emphasis of the course is on producing high-quality stories both in terms of content and in terms of presentation. Throughout the quarter, students will work as multimedia producers, editors and reporters to create content for thewiredloop.info, a platform for news experimentation.

JOUR 503 and status as a Graduate Journalism student are a prerequisite for this course.

JOUR 530
RADIO NEWS
Graduate
The radio news business has been radically altered through the rise of new media. This course analyzes that transformation. The move of radio news to the web has greatly increased opportunities for local and community-based reporting. Radio News helps students acquire the skill sets they'll need to do socially responsible work in this new and challenging environment. This course prepares students for careers in radio news and documentary by training them in the audio platforms and news narratives that have made radio one of the strongest of personalized, niche media in the digital landscape.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 532
THE PRESS AND THE PRESIDENCY
Graduate
This course analyzes the historic competition between candidates, the media, and presidential campaigns. It examines how public understanding of political issues, public policy, and the candidates is created. We'll drill down into conditions that lead to a cooperative or adversarial press in campaign reporting and how the public perceives the political process and the role of the press in forming public opinion in presidential campaigns and during presidencies.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 533
JOURNALISM & FREEDOM OF INFORMATION
Graduate
This course focuses on developing skills in obtaining, interpreting and reporting using public records available from the government. Students will complete hands-on assignments on how to acquire public records, including law enforcement and court documents; how to file FOIA requests and appeals, and other legal remedies for obtaining publicly available information; and how to decipher government records and spreadsheets for use in documents-driven reporting. By sharpening skills on access and use of public records for journalism, the course better equips students to fulfill the watchdog role of the press. (Formerly PUBLIC RECORDS REPORTING)

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 534
TOPICS IN PHOTOJOURNALISM
Graduate
This course is a practicum designed to prepare visual journalists for the skills they'll need in a rapidly changing profession. Students will learn about the strategic use of photographs in digital storytelling, including the role of photographs in multimedia production. Students will also understand the ethical obligations faced by today's photojournalist.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 535
RADIO DEPAUL
Graduate
The course enables students in journalism to learn on air and production skills in news, public affairs, and sports programming. This experiential learning class enables students to work at our award-winning student radio operation, where participants host shows, cover DePaul sports, and develop long format news, interviews, and public affairs programming.

Status as a Graduate Journalism student is a prerequisite for this class.
JOUR 536
SPORTS BLOGGING
Graduate
Blogging has become an essential component of all sports coverage, and this course will provide the skills to excel in this growing area of journalism. Students will learn about news tracking, news aggregation, the fundamentals of blog posts, social media and multimedia in blogging, live blogging, and being part of an online community. By building blogs they'll have an opportunity to brand themselves as sports journalists and learn how to become an authoritative voice in a particular area of sports.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 537
FROM FRANKLIN TO THE INTERNET: A HISTORY OF AMERICAN JOURNALISM
Graduate
This course analyzes the impact journalism has had and is having on the country and the impact technologies have had on journalism. We examine the stories journalism tells, how it tells them, and the difference it makes in American society, culture, and politics.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 538
MASS COMMUNICATION IN THE DIGITAL AGE
Graduate
This course examines the rise of the information age through the development of new media platforms and the changing impact media are having in creating community and shaping citizenship and American life as journalism, radio, television, film, advertising, and public relations transition from analog to digital eras.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 539
THE FUTURE OF AD-SUPPORTED MEDIA
Graduate
This is a lab course designed to have journalism and advertising students work together to develop news business models for the news media. Student teams will work with media clients---in print, online, and broadcast---to better understand how the nature of news is being redefined. The course will probe all aspects of the media business, including editorial, marketing, advertising, new revenue sources, and circulation. (Cross-listed with PRAD 595 Special Topics in Public Relations & Advertising)

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 540
THE INTERNET, TECHNOLOGY, AND POLITICS
Graduate
This courseexplores the evolving relationships that reside at the intersection of the internet and politics. Some of the themes covered in the course include the ways in which politicians and organizations use the internet and new media and how this is changing the relationship between governments and citizens. (Cross-listed with PSC 315 Internet, Technology and Politics)

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 541
MASS MEDIA & AMERICAN POLITICS
Graduate
This course explores the role of the media in American politics and the impact it has on government, policymaking, campaigning, and most importantly, the general public. The course has three major sections: an analysis of the news media as a political and economic institution; an examination of the ways in which political actors try to shape the messages transmitted through the media; and an investigation of the effects media have on citizens. (Cross-listed with PSC 321 Mass Media and American Politics)

Status as a Graduate Journalism student is a prerequisite for this class.
JOUR 590
JOURNALISM WORKSHOP
Graduate
This course allows students to sample a range of hands on, practical offerings in journalism that can enhance their knowledge and expertise. Workshop topics can include video camera basics, non-linear editing with Final Cut Pro and news page layout and design. PLEASE NOTE THAT THIS IS A 2-CREDIT COURSE. Students can take this course a maximum of two times for a total of 4 credits.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 592
INDEPENDENT STUDY
Graduate
Students will be guided in the development of a special project that furthers their collaboration with an instructor and produces a report that demonstrates their mastery of critical content and competencies. The independent study option is intended for students who have demonstrated a mastery of course content, who would benefit from a sustained, focused collaboration with a relevant faculty member.

Status as a Graduate Journalism student is a prerequisite for this class.

JOUR 602
CANDIDACY CONTINUATION
Graduate
This is a 0-credit hour course that requires permission from the graduate director. Students can enroll in 602 if they are finishing a course in which they received an incomplete (IN). If the student does not register for any regular courses in the quarter they plan to finish the incomplete, they can enroll in 602 and access the library and other campus facilities. No tuition is charged, only student fees (approx. $50).

This course is graded as pass/fail. Not eligible for loan deferment or student loans.

Status as a Graduate Journalism student is a prerequisite for this class.

JPN 101
BASIC JAPANESE I
Undergraduate
Listening to, speaking, reading and writing Japanese in a cultural context for the beginning student.

JPN 102
BASIC JAPANESE II
Undergraduate
Continued emphasis on the four skills in culturally-authentic situations. JPN 101 or equivalent, including placement test or permission of instructor, is recommended.

JPN 103
BASIC JAPANESE III
Undergraduate
Further work on the basic elements of the Japanese language, spoken as well as written, with due regard to the cultural context of Japanese expression. JPN 102 or equivalent, including placement test or permission of instructor, is recommended.

JPN 104
INTERMEDIATE JAPANESE I
Undergraduate
Intensive practice in the use of Japanese through listening, speaking, reading and writing, and continued enhancement of the cultural awareness intrinsic to those skills.

JPN 105
INTERMEDIATE JAPANESE II
Undergraduate
Continuing practice in spoken and written Japanese and further development of reading and listening abilities in an authentic cultural context.
JPN 106
INTERMEDIATE JAPANESE III
Undergraduate
Developing more fluency in speaking, understanding, reading, and writing Japanese with a concomitant heightened awareness of the cultural dimensions of the Japanese language.

JPN 110
INTENSIVE BASIC JAPANESE I
Undergraduate
An intensive introduction to reading, writing, and speaking Japanese in a cultural context for the beginning student. For participants in the DAAAO Program.

JPN 111
INTENSIVE BASIC JAPANESE II
Undergraduate
An intensive introduction to reading, writing, and speaking Japanese in a cultural context for the beginning student; continues JPN 110. For participants in the DAAAO Program.

JPN 197
SPECIAL TOPICS IN JAPANESE
Undergraduate
See schedule for current offerings.

JPN 198
STUDY ABROAD
Undergraduate
Variable credit.

JPN 199
INDEPENDENT STUDY
Undergraduate
Variable credit.

JPN 201
ADVANCED JAPANESE I
Undergraduate
The first course of third-year level to develop advanced skills in speaking, writing, listening and reading.

JPN 202
ADVANCED JAPANESE II
Undergraduate
The second course of third-year level to develop advanced skills in speaking, writing, listening and reading.

JPN 203
ADVANCED JAPANESE III
Undergraduate
The third course of third-year level to develop advanced skills in speaking, writing, listening and reading.

JPN 297
SPECIAL TOPICS IN JAPANESE
Undergraduate
See schedule for current offerings.
JPN 298
STUDY ABROAD
Undergraduate
Variable credit.

JPN 299
INDEPENDENT STUDY
Undergraduate
Variable credit.

JPN 301
ADVANCED JAPANESE IV
Undergraduate
Development of fourth year level advanced skills in reading. Students are also expected to develop deeper knowledge of the people, culture and society of Japan (e.g., Japanese education, women's issues, ecology, etc.) through language learning, and to build proficiency to express one's own ideas and opinions effectively. JPN 203 or equivalent recommended.

JPN 302
ADVANCED JAPANESE V
Undergraduate
Development of fourth year level advanced skills in reading. Students are also expected to develop deeper knowledge of the people, culture and society of Japan (e.g., Japanese education, women's issues, ecology, etc.) through language learning, and to build proficiency to express one's own ideas and opinions effectively. JPN 301 or equivalent recommended.

JPN 303
ADVANCED JAPANESE VI
Undergraduate
Development of fourth year level advanced skills in speaking and listening. Students are also expected to develop deeper knowledge of the people, culture and society of Japan (e.g., Japanese education, women's issues, ecology, etc.) through language learning, and to build proficiency to express one's own ideas and opinions effectively. JPN 302 or equivalent recommended.

JPN 304
CONTEMPORARY JAPANESE LITERATURE
Undergraduate
Readings from Tanizaki, Kawabata, Mishima, or other contemporary authors from Showa era to present.

JPN 310
JAPANESE CULTURE
Undergraduate
Discussion of selected cultural topics from different periods with appropriate collateral readings. Formerly Japanese 302.

JPN 311
ADVANCED DISCUSSION AND READING I
Undergraduate
Expanding the knowledge of vocabulary and kanji characters through discussions of current issues in the news and in newspapers and academic writing exercises. Formerly Japanese 300.

JPN 312
ADVANCED DISCUSSION AND READING II
Undergraduate
Developing the formal and academic oral fluency and writing skills through authentic aural and written materials through debates and discussions of current cultural and political issues. Formerly Japanese 301.
JPN 313
ADVANCED DISCUSSION AND READING III
Undergraduate
Focus on the formal expressions and interactions in business and academic settings and extensive reading of authentic materials on modern Japan with an emphasis on essay-writing activities.

JPN 320
ADVANCED COMMERCIAL JAPANESE
Undergraduate
Advanced preparation for the use of Japanese in the business world.

JPN 330
INTRODUCTION TO JAPANESE LINGUISTICS
Undergraduate
Study of a wide range of topics including Japanese language analysis, dialectal variations, and the history of the Japanese language. Data collection on oral and written texts with related class discussions.

JPN 342
ADVANCED HIGH JAPANESE I
Undergraduate
The first course in a sequence of three courses designed for advanced high Japanese learners to practice reading and discussion of authentic cultural, historical, or literary materials. Topics vary with offering: see current schedule for details. Recommended for students who have completed fourth year of Japanese courses (JPN 301 - 303), or have equivalent proficiency in Japanese.

JPN 343
ADVANCED HIGH JAPANESE II
Undergraduate
The second course in a sequence of three courses designed for advanced high Japanese learners to practice reading and discussion of authentic cultural, historical, or literary materials. Topics vary with offering: see current schedule for details. Recommended for students who have completed fourth year of Japanese courses (JPN 301 - 303) or have equivalent proficiency in Japanese.

JPN 344
ADVANCED HIGH JAPANESE III
Undergraduate
The third course in a sequence of three courses designed for advanced high Japanese learners to practice reading and discussion of authentic cultural, historical, or literary materials. Topics vary with offering: see current schedule for details. Recommended for students who have completed fourth year of Japanese courses (JPN 301 - 303) or have equivalent proficiency in Japanese.

JZZ 1
JAZZ ENSEMBLE
Undergraduate
Study, rehearsal, and performance of jazz literature with focus on music for large jazz ensembles; emphases on current performance styles, and new arrangements and compositions. Placement audition required.

JZZ 2
JAZZ CHAMBER ENSEMBLE
Undergraduate
Study, rehearsal, and performance of literature for jazz chamber groups.
**JZZ 200**  
**JAZZ ENSEMBLE**  
**Undergraduate**  
Study, rehearsal, and performance of jazz literature with focus on music for large jazz ensembles; emphases on current performance styles, and new arrangements and compositions. Placement audition required

Status as an Undergraduate Music student is a prerequisite for this class.

**JZZ 201**  
**JAZZ CHAMBER ENSEMBLE**  
**Undergraduate**  
Study, rehearsal, and performance of literature for jazz chamber groups.

Status as an Undergraduate Music student is a prerequisite for this class.

**JZZ 300**  
**ESSENTIALS OF JAZZ I**  
**Undergraduate**  
Basic and advanced chord constructions in written and keyboard applications.

Status as a Music student is a prerequisite for this class.

**JZZ 301**  
**ESSENTIALS OF JAZZ II**  
**Undergraduate**  
Harmonizing melodies by the use of advanced harmonies and techniques of modern chord substitutions. Developing the ability to “play by ear.”

JZZ 300 is a prerequisite for this class.

**JZZ 302**  
**ESSENTIALS OF JAZZ III**  
**Undergraduate**  
Improvisation with particular emphasis on the blues arranging and accompanying techniques; a survey of recent trends in popular music.

JZZ 301 is a prerequisite for this class.

**JZZ 303**  
**JAZZ HISTORY AND STYLE**  
**Undergraduate**  
An intensive study of the periods of jazz, major performers and composers, trends, influences, stylistic features and related materials.

A petition to major is a prerequisite for this class.

**JZZ 304**  
**JAZZ ARRANGING AND COMPOSITION I**  
**Undergraduate**  
Arranging and orchestration techniques for the small jazz ensemble (1-4 horns plus rhythm section).

JZZ 302 is a prerequisite for this class.

**JZZ 305**  
**JAZZ ARRANGING AND COMPOSITION II**  
**Undergraduate**  
Arranging and orchestration techniques for the large jazz ensemble (5 or more horns plus rhythm section, up to and including the traditional 12-piece big band).

JZZ 304 is a prerequisite for this class.
JZZ 306
JAZZ ARRANGING AND COMPOSITION III
Undergraduate
Jazz composition techniques with a special emphasis on the leadsheet (melody and chord symbols).

JZZ 305 is a prerequisite for this class.

JZZ 308
JAZZ IMPROVISATION I
Undergraduate
Techniques of jazz improvisation with an emphasis on basic chord construction and melodic line development.

JZZ 302 is a prerequisite for this class.

JZZ 309
JAZZ IMPROVISATION II
Undergraduate
Techniques of jazz improvisation with an emphasis on basic chord construction and melodic line development.

JZZ 308 is a prerequisite for this class.

JZZ 310
JAZZ IMPROVISATION III
Undergraduate
Techniques of jazz improvisation with an emphasis on basic chord construction and melodic line development.

JZZ 309 is a prerequisite for this class.

JZZ 314
JAZZ PEDAGOGY
Undergraduate
A study of the methods of teaching jazz improvisation arranging, composition, conducting and rhythm section techniques. Can serve as an elective for music education majors.

A petition to major is a prerequisite for this class.

JZZ 315
JAZZ SENIOR RECITAL
Undergraduate
A full 60 minute, public recital performance of solo and/or chamber repertoire to be completed in the Senior year. Students must be registered for applied lessons during the quarter the recital is presented.

JZZ 317, JZZ 318, JZZ 319, JZZ 320, JZZ 321, JZZ 322, JZZ 323, or JZZ 324 is a co-requisite for this class.

JZZ 316
APPLIED JAZZ COMPOSITION
Undergraduate
Private instruction exploring advanced techniques and methods of jazz composition and arranging.

JZZ 306 is a prerequisite for this class.

JZZ 317
APPLIED JAZZ IMPROVISATION
Undergraduate
Applied instruction in jazz style and improvisation.
JZZ 318
JAZZ GUITAR
Undergraduate
Advanced individual instruction in jazz guitar at the undergraduate level. Undergraduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 48 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

JZZ 319
JAZZ PERCUSSION
Undergraduate
Advanced individual instruction in jazz percussion at the undergraduate level. Undergraduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 48 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

JZZ 320
JAZZ PIANO
Undergraduate
Advanced individual instruction in jazz piano at the undergraduate level. Undergraduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 48 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

JZZ 321
JAZZ SAXOPHONE
Undergraduate
Advanced individual instruction in jazz saxophone at the undergraduate level. Undergraduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 48 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

JZZ 322
JAZZ STRING BASS
Undergraduate
Advanced individual instruction in jazz string bass at the undergraduate level. Undergraduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 48 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

JZZ 323
JAZZ TROMBONE
Undergraduate
Advanced individual instruction in jazz trombone at the undergraduate level. Undergraduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 48 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

JZZ 324
JAZZ TRUMPET
Undergraduate
Advanced individual instruction in jazz trumpet at the undergraduate level. Undergraduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 48 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.
JZZ 325
JAZZ RHYTHM SECTION TECHNIQUES
Undergraduate
This course will provide students with information and performance techniques associated with instruments typically orchestrated to form a jazz rhythm, section in jazz chamber or large ensemble settings. Specific topics will include individual instrument roles, performance styles and tempos, and classic rhythm, section analysis.

JZZ 398
INDEPENDENT STUDY
Undergraduate
An in-depth study of a musicianship topic under the supervision of a faculty member. (Departmental permission required).
Status as a Music student is a prerequisite for this class.

JZZ 400
JAZZ ENSEMBLE
Graduate
Study, rehearsal, and performance of jazz literature with focus on music for large jazz ensembles; emphases on current performance styles, and new arrangements and compositions. Placement audition required.
Status as a Graduate Music student is a prerequisite for this class.

JZZ 401
JAZZ CHAMBER ENSEMBLE
Graduate
Study, rehearsal and performance of literature for jazz chamber groups. Placement audition required.
Status as a Graduate Music student is a prerequisite for this class.

JZZ 402
ADVANCED JAZZ COMPOSITION I
Graduate
Composition of works for jazz chamber groups and big bands, but with special emphasis on the leadsheet (melody and chords).
Status as a Graduate Music student is a prerequisite for this class.

JZZ 403
ADVANCED JAZZ ARRANGING AND ORCHESTRATION
Graduate
Discovery, analysis, and implementation of advanced arranging, orchestration, and compositional techniques for the large jazz ensemble (big band).
Status as a Graduate Music student is a prerequisite for this class.

JZZ 404
ADVANCED JAZZ COMPOSITION II
Graduate
Advanced topics in jazz composition. Composing for jazz chamber groups and big bands, but with special emphasis on the leadsheet (melody and chords).
JZZ 402 is a prerequisite for this class.

JZZ 405
JAZZ HISTORY
Graduate
Graduate level study of jazz history and the styles which contributed to the evolution of jazz. Topics include bebop period, swing era, the cool school, and hard bop periods. Significant recordings, musicians, and musical styles will be examined.
Status as a Graduate Music student is a prerequisite for this class.
JZZ 406
JAZZ STYLE AND ANALYSIS
Graduate
Students will demonstrate a theoretical and aural understanding of the process of jazz improvisation, including song forms and structures, chord/scale relationships, and chord notation and phrasing. Select recordings of solo jazz improvisations will be analyzed, transcribed, and performed, supplemented by historical biographies of the recording artists.

Status as a Graduate Music student is a prerequisite for this class.

JZZ 407
JAZZ GRADUATE RECITAL
Graduate
A full 60 minute, public recital performance of solo and/or chamber repertoire to be completed during the graduate residence. Students must be registered for applied lessons during the quarter the recital is presented.

APM 407 is a prerequisite for this class.

JZZ 408
JAZZ ENSEMBLE
Graduate
Study, rehearsal, and performance of jazz literature with focus on music for large jazz ensembles; emphases on current performance styles, and new arrangements and compositions. Placement audition required.

A Jazz Composition concentration is a prerequisite for this class.

JZZ 409
APPLIED JAZZ COMPOSITION
Graduate
Private instruction exploring advanced techniques and methods of jazz composition and arranging.

JZZ 410
JAZZ COMPOSITION FINAL PROJECT
Graduate
Completion of a 7-10 minute original composition for standard jazz ensemble instrumentation.

JZZ 404 is a prerequisite for this class.

JZZ 411
JAZZ PEDAGOGY
Graduate
A study of the methods of teaching jazz improvisation arranging, composition, conducting and rhythm section techniques.

Status as a Graduate Music student is a prerequisite for this class.

JZZ 412
APPLIED JAZZ IMPROVISATION
Graduate
Applied instruction in jazz style and improvisation.

JZZ 413
JAZZ GUITAR
Graduate
Advanced individual instruction in jazz guitar at the graduate level. Graduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 24 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.
Advanced individual instruction in jazz percussion at the graduate level. Graduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 24 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

Advanced individual instruction in jazz piano at the graduate level. Graduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 24 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

Advanced individual instruction in jazz saxophone at the graduate level. Graduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 24 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

Advanced individual instruction in jazz string bass at the graduate level. Graduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 24 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

Advanced individual instruction in jazz trombone at the graduate level. Graduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 24 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

Advanced individual instruction in jazz trumpet at the graduate level. Graduate music students are limited to 4 credits of applied lessons in any given quarter, and may not exceed a total of 24 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

This course will provide students with information and performance techniques associated with instruments typically orchestrated to form a jazz rhythm, section in jazz chamber or large ensemble settings. Specific topics will include individual instrument roles, performance styles and tempos, and classic rhythm, section analysis.
JZZ 450  
JAZZ CHAMBER ENSEMBLE  
Graduate  
Study, rehearsal, and performance of literature for jazz chamber groups.  
A Jazz Composition concentration is a prerequisite for this class.

JZZ 460  
TOPICS IN JAZZ STUDIES  
Graduate  
In depth investigation of a topic in jazz studies.  
Status as a Graduate Music student is a prerequisite for this class.

JZZ 498  
INDEPENDENT STUDY  
Graduate  
An in-depth study of a musicianship topic under the supervision of a faculty member. (Departmental permission required).  
Status as a Graduate Music student is a prerequisite for this class.

LAT 101  
BASIC LATIN I  
Undergraduate  
Basic Latin I is the first Latin translation course. This course introduces students to the basics of the language of the Romans, which includes the Latin alphabet, pronunciation, the beginnings of Latin grammar and Latin composition.

LAT 102  
BASIC LATIN II  
Undergraduate  
Basic Latin II is the second Latin translation course. Students continue LAT 101 by completing their introduction to Latin grammar. Emphasis is on morphology, complex syntax, English to Latin composition, Latin dictation, reading and translation of longer sections of Latin prose.

LAT 103  
BASIC LATIN III  
Undergraduate  
Basic Latin III is the third Latin translation course. Students continue LAT 102 and refine their knowledge of Latin empirically by reading extended passages from selected classical Latin authors. Emphasis is on morphology, review of syntax and prosody.

LAT 113  
LATIN FOR READING IV: INTRODUCTION TO LATIN POETRY  
Undergraduate  
Latin for Reading IV (Introduction to Latin Poetry) is the fourth Latin translation course. Students concentrate on translation of classical Latin poetic authors, together with a grammatical review, attention is given to prosody and metrics.

LAT 114  
LATIN FOR READING V: INTRODUCTION TO LATIN PROSE  
Undergraduate  
Latin for Reading V (Introduction to Latin Prose) is the fifth Latin translation course. Students concentrate on translating classical Latin prose authors, together with a grammatical review, attention to prosody and rhetorical figures.

LAW 102
BUSINESS ORGANIZATIONS
Professional
(3 hrs) Provides a basic introduction to the modern American business corporation. Major subject areas covered include the steps required for organizing a corporation, the nature of the corporate entity concept, control and management of the corporation, fiduciary duties of directors and controlling shareholders and an introduction to federal securities law and partnership and agency law.

LAW 105
CONTRACTS
Professional
(4 hrs.) Required for JD. Covers offer and acceptance, consideration, remedies, third party beneficiaries, conditions, anticipatory breach, impossibility and frustration, the Statute of Frauds, discharge and illegality. Common law principles and applicable portions of the Uniform Commercial Code are studied.

LAW 112
LEGAL ANALYSIS RESEARCH AND COMMUNICATION I
Professional
(2 hrs) Required for JD. Designed to develop the first-year student's professional writing skills by involving students in a structured analysis of good and bad legal writing, as well as applying the principles and methods of legal analysis to specific writing tasks. Lectures on research tools, including an explanation of the major legal publications and their uses are also provided. Emphasis is given to research techniques and legal citation form.

LAW 114
LEGAL ANALYSIS RESEARCH AND COMMUNICATIONS TEACHING ASSISTANTS
Professional
(1 or 2 cr. hrs.) LARC TAs will work with LARC instructors to ensure a productive learning environment for students. TAs will work with one instructor for the two-semester LARC course. TAs attend LARC class, hold office hours and conferences with students, conduct research, mark ungraded assignments and perform other related tasks. TAs meet as a group, from time to time, with the LARC Director to ensure consistent delivery of information and advice to students. Permission required.

LAW 115
LEGAL ANALYSIS RESEARCH AND COMMUNICATION III
Professional
(3 hrs) Builds upon the analysis, research and communication skills established in the first-year required classes. Focuses on appellate brief writing and oral advocacy skills.

LAW 112 and LAW 119 is a prerequisite for this class.
LAW 119
LEGAL ANALYSIS RESEARCH AND COMMUNICATIONS II
Professional
(3 hrs) Required for J.D. Lecture on legal research skills, primary legal publications, research techniques, and legal citation form.
LAW 112 is a prerequisite for this class.

LAW 120
CIVIL PROCEDURE
Professional
(4 hrs) Required for J.D. A basic survey of the fundamental principles which control the allocation and use of judicial power in the American legal system. The principle areas of inquiry include subject matter jurisdiction, personal jurisdiction, phases of a law suit, problems of diversity jurisdiction and former adjudication.

LAW 140
CONSTITUTIONAL LAW
Professional
(4 cr.) Required for J.D students. This course analyzes the judicial process in constitutional law cases, focusing primarily upon the decisions of the United States Supreme Court. Emphasis is given to the nature of judicial review, the distribution of governmental power in our federal system, and the Fourteenth Amendment. Topics include the separation of powers, the federal and state commerce authority, implied fundamental rights, and equal protection of law.

LAW 160
PROPERTY
Professional
(4 hrs) Required for J.D. Basic concepts of the law of property are covered through a survey of the holding of wealth and transactions in the family and commercial context, with the attendant public policy limitations on owner control. Specific topics include: concepts of ownership and possession; the divisibility of title; present and future interests; bailments; the landlord-tenant relation; interests in the land of another; recording; gifts; contracts of sale; land financing; public and private control of land use.

LAW 170
TORT LAW
Professional
(4 hrs) Required for J.D. Provides an introduction to the basic theories underlying the American common law system of compensation for injuries to person and property. The major topics covered are intentional torts, negligence, strict liability and damages.

LAW 201
ILLINOIS CIVIL PROCEDURE
Professional
(3 hrs) An analysis of the Illinois Civil Practice Act and the rules of the Illinois Supreme Court which apply to litigation, emphasizing the Circuit Court of Cook County.

LAW 202
EMPLOYMENT DISCRIMINATION
Professional
(3 credit hours) This course covers the most important Federal laws dealing with discrimination in employment and emphasizes Title VII of the Civil Rights Act of 1964. The course is designed to develop an understanding and recognition of racism and sexism in the context of employment.
LAW 140 is a prerequisite for this class.

LAW 204
LAW REVIEW
Professional
Members of the editorial board must enroll for credit. Students perform editorial tasks assigned by the editor-in-chief. Evaluation is pass/fail. 3 credit hours per semester for a maximum of 2 semesters. Instructor's permission required.
Status as a J.D student is a prerequisite for this class.
LAW 206
SEXUAL ORIENTATION AND THE LAW
Professional
3 credit hours. An examination of the legal issues raised by sexual orientation. Beginning with prosecution of sodomy and legal discrimination, including exclusion from military service, and anti-civil rights initiatives. The struggle for gay lesbian rights will be examined in the context of employment, schools, and domestic relations.

LAW 208
HUMAN RIGHTS PRACTICUM: CHIAPAS
Professional
(2 hr) A 3 week program for functional Spanish speaking students in Mexico where students develop their "legal" Spanish and learn about the inter-American and Mexican legal systems.

LAW 210
FEDERAL INCOME TAXATION
Professional
(3 hrs) Required for Certificate in Taxation unless student takes LAW 212. Provides a study of tax law as it relates to the individual. Emphasis is placed on statutory materials, regulations, rulings and judicial decisions. Special consideration is given to the concept of gross income, adjusted gross income, deductions and gains.

LAW 212
FEDERAL INCOME TAXATION AND FEDERAL POLICY
Professional
(4 hrs) Required for Certificate in Taxation unless student takes LAW 210. Examines economic and government policy context out of which tax laws arise and ethical issues in tax practice as well as substantive tax law. Designed for those who have never studied taxation. Examines how Congress uses its revenue power to shape the economy as a whole and to implement its philosophy of taxation.

LAW 213
DOMESTIC VIOLENCE
Professional
(3 hrs) This course will examine the criminal system response to domestic violence, focusing on the transformation of laws and institutions to address a problem historically conceptualized as “private.” Topics will include: barriers to victim cooperation and law enforcement; law and policies governing mandatory arrest and prosecution; marital rape; battering during pregnancy; battered women who kill; expert testimony on battered woman syndrome; child protection concerns; evidentiary issues arising in domestic violence trials; anti-stalking legislation; civil/criminal protective order practice; and recent US Supreme Court decisions impacting domestic violence.

LAW 217
JOURNAL FOR SOCIAL JUSTICE
Professional
The Journal for Social Justice will address areas of public interest. Members of the editorial board must enroll in this course for credit. Students enrolled are expected to perform editorial tasks. Evaluation of student work is pass/fail. 2 credit hours

LAW 218
TAXATION OF STRUCTURED REAL ESTATE TRANSACTIONS
Professional
This course will provide an introductory overview of the primary tax considerations involved in structured real estate transactions, including: an analysis of the effect of income taxes on real estate transactions; a comparison of the various structures used for the ownership and development of real estate; a review of section 1031 like-kind exchange driven real estate syndications; alternative financing techniques such as sale-leaseback transactions; REIT; and inbound and outbound real estate investments.

LAW 210 or LAW 212 is a prerequisite for this class.

LAW 220
ADVANCED CIVIL PROCEDURE
Professional
This course will explore topics beyond the introductory civil procedure course including class actions, mass torts, multi-party litigation and other problems associated with complex litigation. 3 credit hours
LAW 223
JOURNAL OF WOMEN GENDER & THE LAW
Professional
(2 credit hours) The Journal of Women, Gender & the Law is a student-run publication committed to advancing, domestically and internationally, the legal rights of women and those implicating the role of gender.

LAW 225
ADVANCED ISSUES IN REAL ESTATE TRANSACTIONS
Professional
(3 credit hours) This course will cover advanced residential and commercial real estate theory and practice. Special emphasis will be placed on legal and business issues affecting building design and construction; condominium development and conversion; property management; distressed sales, loans, and workouts; negotiation of sales and leases in a difficult market; green leases and construction; and advanced tax saving devices, such as preservation through conservation easements and section 1031 Exchanges of real estate property.

LAW 226
TRADE SECRET LAW
Professional
(2 credits) This course will examine the law of trade secrets as well as the theories and policies underlying trade secret law.

LAW 226
TRADE SECRET LAW
Professional
(2 credits) This course will examine the law of trade secrets as well as the theories and policies underlying trade secret law.

LAW 230
UNITED STATES FOREIGN RELATIONS LAW
Professional
(3 cr. hr.) This course will provide an overview of the extensive body of law that regulates the authority of the federal government in the areas of foreign affairs and the making of foreign policy. This body of law includes the US Constitution, congressional statutes, key executive orders, federal court decisions, and applicable rules deriving from treaties and customary international law. The course examines in detail the interaction of the Constitution with the foreign policy powers of the Congress and the President, and the ways in which doctrines of the separation of powers have shaped the allotment of legal authority in US foreign relations among the three branches of government.

LAW 232
CATHOLIC SOCIAL JUSTICE & THE LAW
Professional
(2 cr. hrs) This course introduces students to the foundation and structure of Catholic Social Teachings and asks: how (if at all) is this relevant to American legal theory, practice and public discourse? Topics considered will include, among others: economic justice, natural law, religious freedom, death penalty, war, abortion and gay marriage. At the conclusion, students will have a greater knowledge and understanding of the Catholic social ethical system and increased abilities to communicate, apply and critique other theories and institutions of social justice.

LAW 236
JOURNAL OF SPORTS LAW AND CONTEMPORARY PROBLEMS
Professional
The Journal of Sports Law and Contemporary Problems will address issues regarding athletes, student-athletes and the overall climate in professional and amateur sports. The Journal will endeavor into matters of sports and culture, sports and society, sports and academics and sports and the law.

LAW 241
ADVANCED CONCEPTS IN TRADEMARK LAW
Professional
(2 credit hours) This course aims to permit students to deal in greater depth with challenging topics in trademark law. The course will explore methodological or conceptual themes in trademark law that cut across a number of doctrinal issues, generally, but not exclusively, involving the application of trademark law in an online environment and with an eye to both domestic and international developments.
LAW 245
REPRESENTING THE PROFESSIONAL ATHLETE
Professional
(3 credit) This class examines issues specific to the sports-client management industry, covering a variety of practical issues pertinent to sports-client management and the sports industry. Current events having to do with sports law will be worked into the course.

LAW 247
PUBLIC INTERNATIONAL AVIATION LAW & POLICY
Professional
(3 credits) This course will explore the laws, regulations, and policy choices affecting the complex world of global air transport. The course will consider topics relating to aviation safety and security, capital investment, labor relations, airport ownership and operations, economic regulation. Assessment will be by a take home final examination.

LAW 248
PRIVATE INTERNATIONAL AVIATION LAW
Professional
(3 credit hours) This course will examine the international legal regime that governs air carrier liability and the unification of private international aviation law through the adoption of international conventions. The course will review liabilities of air carriers toward passengers and shippers under the Warsaw Convention and the Montreal Convention, and will examine the basic framework the Rome Convention on third-party surface liability, and two treaties promulgated to replace the Rome Convention: the Unlawful Interference Convention and the Ground Damage Convention. Manufacturers’ liability will also be reviewed, as will the international regime for aircraft financing established by the Cape Town Convention/Aircraft Protocol.

LAW 250
SENIOR RESEARCH SEMINAR
Professional
(3 hrs) Required for JD. The student must write an in-depth paper of Law Review quality on a topic of the professor's choosing.

LAW 251
DEATH PENALTY DEFENSE PRACTICUM
Professional
(3 credit hours) The Death Penalty Defense Practicum is essentially will be a hybrid course. Students can register for it as a clinic or as their senior writing requirement. Students will work with Professor Lyon to provide resources to capitally charged individuals and their counsel without actually taking on the direct representation of those individuals in other states such as Georgia, Texas, Alabama and Arizona. This four credit course will teach basic death penalty law and we accept requests from capital defenders to do research and writing that they need help with. This might take the form of an amicus brief, a motion and memorandum of law, a thorough examination of the literature in a forensic area and the like. Some direct representation may be done by the clinic, and so the opportunity to do investigation, and appear in court will also be available.

LAW 252
BAR PASSAGE STRATEGIES
Professional
(2 credit hours. This course will address techniques for answering questions on bar examinations, which differ significantly from law school finals. Students will practice writing answers for each bar exam component (essay, multiple choice and performance) and receive feedback in writing and in individual conferences.

LAW 258
WOMEN’S HUMAN RIGHTS UNDER INTERNATIONAL LAW
Professional
(3 hrs) This course investigates women’s rights as they exist within the current international human rights law regime. The course is centered around the Convention on the Elimination of all Forms of Discrimination Against Women (CEDAW) and the rights enshrined within the treaty. Specific human rights violations to be addressed include violence against women, human trafficking, forced marriage and female genital mutilation.
LAW 260
INTERNATIONAL LAW THESIS
Professional
(6 credits) The Thesis is an independent research project on a topic of international law and/or policy under the supervision of a full-time faculty member. The student must produce an in-depth paper of publishable quality, 55-90 pages in length.

LAW 267
FRANCHISE LAW
Professional
(3 credits) In addition to the general rules that govern any business, franchises are also subject to specific and detailed state and federal regulation. This course will be an introduction to the special problems of creating, offering, financing, negotiating, operating and terminating franchise business relationships. It will also cover rules that are applicable to those in specific industries such as gasoline retailers, farm equipment dealers and alcoholic beverage distributors.

LAW 271
TRADEMARK & UNFAIR COMPETITION LAW
Professional
(3 credits) This course will be a substantive and procedural discussion of the creation and enforcement of trademark rights and the rights conferred by statutory and common law under the general rubric of unfair competition law. Topics may include trademark law (including dilution), misappropriation of trade values and trade secrets, regulation of false and deceptive advertising, interference with contracts and trade relations and the right of publicity.

LAW 277
GUN VIOLENCE-LEGAL ISSUES
Professional
(3 hrs.) This course explores how law attempts to curtail gun violence. The purpose is to train students to practice in domains that are relevant to gun violence, including criminal law and public health. The course will span topics from gun control and the Second Amendment, to civil and criminal liability of gun sellers, to stanching the illicit trafficking of weapons both domestically and internationally, and finally to consideration of United Nations diplomatic efforts to stanch the flow of weapons. What connects all these issues is a focus on how to take guns out of violence and thereby render violence considerably less lethal.

LAW 286
INTERNATIONAL HUMAN RIGHTS LAW PRACTICUM
Professional
(2 credits) This course is a full year course which provides students with an opportunity to experience the complex and varied approaches to human rights legal advocacy in an international setting. Students will be placed on a project focused on an ongoing human rights violation. Students will work closely with grassroots human rights organizations, international NGOs and U.N. human rights experts and relevant treaty bodies. Students will be expected to devote approximately 10 hours per week to the International Human Rights Law Practicum in addition to time spent in the classroom.

LAW 290
ANATOMY OF A DEAL: FROM INCEPTION TO CLOSING
Professional
(2 credit hours) This course will provide law students with skills they will need as entry-level transactional lawyers. The focus will be on how to perform due diligence and how to draft resolutions, corporate documents, various closing documents and third-party opinion letters. Students will also study sample agreements that appear in many different types of deals, including commitment papers, indemnities, guaranties, escrows, pledge agreements, and security agreements.

LAW 102 and LAW 105 are a prerequisite for this class.

LAW 300
CORPORATE FINANCE
Professional
(3 hrs) Provides a basic analysis of corporate capital structures, dividends and retained earnings, federal policies promoting disclosure and prohibiting fraud and mergers and acquisitions.

LAW 102 is a prerequisite for this class.
LAW 301
SPECIAL TOPICS IN LAW
Professional
(1 hr) This course is a "mini-course" which is taught either one hour a day for two weeks each year or once a week for 5 weeks. The topic changes.

LAW 303
BUSINESS AND COMMERCIAL LAW JOURNAL
Professional
Members of the editorial board must enroll in this course for credit. Students enrolled are expected to perform editorial tasks assigned by the editor-in-chief. Evaluation of student work is pass/fail. 3 credit hours

LAW 304
SALES
Professional
(3 hrs) A survey of the law of sales (principally Article Two of the Uniform Commercial Code) and related Uniform Commercial Code provisions. Emphasis is placed on core concepts, including warranty, buyer and seller remedies and risk of loss.

LAW 305
SECURED TRANSACTIONS
Professional
(3 hrs) Covers the law of personal property security (principally Articles Nine and Seven of the Uniform Commercial Code) and consumer financing arrangements. Emphasis is given to transactional planning of consumer, equipment, inventory, accounts and warehouse financing arrangements, and the priorities of conflicting legal interests. Provisions of the Federal Consumer Credit Code, usury laws and the Fair Credit Reporting Act are discussed.

LAW 307
FACT INVESTIGATIONS
Professional
(3 credits) The general purpose is to learn strategies and methods for effective pretrial fact investigation applicable to a range of legal fields. Topics covered will include the ethics of investigation, organizing information and evidence, formulating an investigative plan, conducting interviews and interview techniques, database/public records research, using the Freedom of Information Act, conducting financial investigations, eyewitness testimony and the science of memory, credibility assessment, expert testimony, analyzing law enforcement reports, internet and social media investigations, employment discrimination investigations, and personal injury investigations.

LAW 308
WILLS AND TRUSTS
Professional
(3 hrs) A study of trusts, wills and fiduciary administration, including laws of succession, will revocation, trust powers and problems of testamentary and inter vivos gratuitous transfers.

LAW 310
COMMERCIAL PAPER
Professional
(3 hrs) Focuses on the law of negotiable instruments (principally Articles Three and Four of the Uniform Commercial Code). Emphasis is placed on negotiability, transfer, the legal effect of endorsement, holder indo course doctrine, real and personal defenses forgery.

LAW 311
WORKOUTS & RESTRUCTURING/ FINANCIAL TROUBLED COMPANIES
Professional
(3 credits) This course will examine a pre-bankruptcy corporate restructuring from the viewpoint of each of the principal parties to that workout and will examine the legal and business issues commonly faced by each party. Students will develop an understanding of the legal rights available to each party and the strategies often employed by parties with competing interests when a company is in financial distress.
LAW 312
TRIAL ADVOCACY II
Professional
(3 hrs) Covers advanced exercises in the mechanics of trial and trial preparation. Students develop case plans and proof analyses consistent with the theory of the case. During the trial of several simulated cases including a jury trial, students address such complex trial problems as: evidence retrieval in complex litigation, examination of medical and forensic expert witnesses, argument of motions during trial impeachment and instructions conferences. Students conduct detailed witness preparation exercises and voir dire. There is review of litigation technology and use of videotaping of student performances.

LAW 410 and LAW 450 are a prerequisite for this class.

LAW 313
CRIMINAL JUVENILE JUSTICE
Professional
(3 hrs) This course will deal with the legal processes for dealing with juvenile crimes and status offenses.

LAW 315
FEDERAL HABEAS CORPUS PRACTICE AND PROCEDURE
Professional
This class explores the history and application of the writ of habeas corpus. The AGreat Writ@ came to our country by way of English Common Law, and is given explicit recognition in the United States Constitution. It remains a protection for individual rights in criminal cases. Because habeas corpus petitions constitute a significant portion of the caseload of district courts, this course may be of interest to students pursing federal clerkship opportunities.

LAW 319
LITIGATION STRATEGY: PRE-TRIAL, CRIMINAL
Professional
(3 hrs) Offers comprehensive treatment of the key problems encountered in the pretrial stages of the criminal case, including fact investigation, motions to suppress evidence, plea negotiations, preliminary hearings, arraignment, and pretrial conferences. Students conduct simulated pretrial motions, client interviews, fact investigations, counseling, negotiating and settlement sessions. Simulated depositions and motions are argued, as well as simulated pretrial conferences, are conducted during class.

LAW 410 and LAW 518 are a prerequisite for this class.

LAW 320
PRE-TRIAL CIVIL LITIGATION
Professional
(3 hrs) Covers the spectrum of pre-trial procedure and practice including pleadings, discovery and motion practice. Includes pre-trial planning, investigations, depositions, document production, e-discovery, dispositive motions, and settlements. Students discuss strategies and tactics, analyze skills problems, draft documents, depose witnesses and argue motions.

LAW 321
ADOPTION LAW
Professional
This course will explore issues related to adoption law. The course content will include the historical background of the American law of adoption, adoption procedure, parental consent to adoption, voluntary and involuntary termination of parental rights, choosing adoptive families, the Indian Child Welfare Act, race and sexual orientation issues in adoption, international and interstate adoption, and wrongful adoptions.

LAW 323
CHILD PROTECTION: ABUSE & NEGLECT
Professional
(3 credits) This course deals with the legal processes for dealing with child abuse and neglect.
LAW 324
INTERNATIONAL SALES
Professional
This course deals with the law pertaining to sales of goods between parties residing in the United States and those abroad. These transactions are increasingly subject to a growing body of private international law, specifically the United Nations Convention on Contracts for the International Sale of Goods (CISG). Although the course will largely focus on the CISG, attention will also be paid to transactions where that treaty does not apply.

LAW 327
PRISON LAW
Professional
(3 credits) This course serves as an introduction to prison law and prisoner rights law. The course explores prison management issues, the Prison Litigation Reform Act and the application of the First and Eighth Amendments to prisons. Students will also visit a prison as part of the course.

LAW 329
LEGAL CLINIC III
Professional
(3 hrs) This course will offer a select number of students a leadership role within Legal Clinic I and Legal Clinic II. Responsibilities will be based on experience and activities will include involvement in litigation. Students will work under the supervision of licensed attorneys. Permission Required. Graded.

LAW 330
EMERGENCY RELIEF & EQUITABLE REMEDIES
Professional
(2 credit hours) Covers the mechanics of how to brief and argue requests for temporary restraining orders, injunctions, stays, bonds, and other equitable remedies. The course will discuss litigation strategy from both the plaintiff and defendant perspective, and will provide experience in drafting briefs and orally arguing a hypothetical case. Finally, the class will discuss options with respect to appellate review.

LAW 120 and LAW 170 are a prerequisite for this class.

LAW 333
MUSIC LAW
Professional
(3 hrs) This course deals with issues relating to the organization and operation of the music industry. The course covers the principal statutes governing the industry and considers issues relating to the interests of both artists and recording companies.

LAW 335
PRIVACY LAW
Professional
This course introduces and surveys the legal framework pertaining to privacy in the United States, including constitutional, statutory and common law, as it applies to various sectors of society. Topics include privacy and the media, health privacy, privacy of electronic communications, privacy and national security, and privacy in relationships and decision making.

LAW 336
JOURNAL OF ART TECHNOLOGY & INTELLECTUAL PROPERTY EDITORIAL BOARD
Professional
(2 hrs) Members of the editorial board must enroll in this course for credit. Students enrolled are expected to perform editorial tasks assigned by the editor-in-chief and are expected to supervise the student writing staff. Pass/fail only.

LAW 337
BIOTECHNOLOGY PATENT STRATEGIES FOR THE NEW MILLENNIUM
Professional
(3 hrs) Designed for students with an interest in the biotechnology aspect of patent law. Covers enablement, utility, claim drafting, means plus function language, obviousness, and the patentability of nucleic acid sequence and expressed sequence stages.
**LAW 338**  
**INTELLECTUAL PROPERTY FOR CORPORATE TRANSACTIONAL LAWYERS**  
Professional  
(3 hrs) For students interested primarily in a corporate practice. Focuses on issues a corporate practitioner should be aware of regarding transactions involving the transfer of intellectual property assets or technology, such as the sale and licensing of intellectual property generally, licensing software, Internet law, advertising clearance and litigation.  
LAW 105 is a prerequisite for this class.

**LAW 341**  
**CYBERLAW**  
Professional  
3 credit hours. This course provides a survey of selected topics in the rapidly evolving area of law applied to cyberspace and the internet. The course touches upon numerous areas of substantive law such as intellectual property, torts, jurisdiction, and privacy and the First Amendment, explores how courts have applied the law to the internet, and raises the important policy questions underlying the application of law to this new medium.

**LAW 344**  
**COPYRIGHT LAW**  
Professional  
This course will provide an in-depth study of the theory and application of copyright law. Subjects include copyright history and theory, the Digital Millennium Copyright Act, renewal and reversion, ownership issues, and a study of the interface between the economic aspects of copyright and the personal interests of authors.

**LAW 345**  
**LEGAL CLINIC SUMMER**  
Professional  
(3 credit hrs) Students work in one of the clinic modules under the supervision of a clinical attorney concentrating on real life problems with real clients and organizations. Instructor's permission required.

**LAW 348**  
**MERGERS AND ACQUISITIONS**  
Professional  
(3 hrs) Aspects of business entities involved in a merger, consolidation, acquisition and other forms of combination. Examines business, financial, personal and real property, employment relations, labor, taxation, and environmental issues. Also analyzes the tax consequences of the particular form of combination.  
LAW 102 is a prerequisite for this class.

**LAW 349**  
**INTERNATIONAL TRADE LAW**  
Professional  
(3 hrs) An introduction to the regulatory structure of global economic relations, focusing on the theoretical and substantive foundations of multilateral systems such as the IMF, GATT, NAFTA and the European common market. The course also analyzes the legal and constitutional framework for the treatment of international trade questions in the US, the European Union and Japan, and explores how this framework accommodates selected issues of global trade policy.

**LAW 352**  
**LAW OF FILM AND TV PRODUCTION AND DISTRIBUTION**  
Professional  
(3 credit hours) This course will take students through the principal steps of actual production and distribution of Film and Television properties and will examine the legal issues presented at each stage of production and distribution. In addition to the prerequisites, Entertainment Law (357) or Music Law (333) are recommended prior to registration in this class.  
LAW 102, LAW 271 and LAW 344 are a prerequisite for this class.
LAW 353
INTERNATIONAL ENVIRONMENTAL JUSTICE
Professional
(3 hrs) Deals with the dimensions of international law which affect environmental protection and the use of resources. PREREQUISITE(S): Environmental Law (LAW 444).

LAW 356
DISPUTE RESOLUTION
Professional
(3 hrs) Gives students the means to evaluate critically dispute resolution processes as a basis for counseling clients in the selection of and participation in a process appropriate for the resolution of a particular dispute. Students, who are divided into teams, alternate the roles of attorney and client, attempt to resolve a complex civil case utilizing three dispute resolution processes: pre-trial conference, medication and arbitration. Each team works with two associates from a financial consulting or an accounting firm who are their expert witnesses to prepare for and participate in these processes. Lawyers, professional mediators and professional arbitrators act as the neutrals in the three processes. From year to year, different substantive areas are the focus of the problem, and Intellectual Property is one of the problems.

LAW 357
ENTERTAINMENT LAW
Professional
(3 hrs) Focuses on various aspects of entertainment law practice including performance contracts, managers and agents, recording and publishing agreements and music licensing.

LAW 358
EMPLOYEE BENEFITS
Professional
(3 hrs) Employee Benefits covers the creation and operation of retirement plans under the Employment Retirement Income Security Act of 1974 (ERISA) as well as medical and other welfare benefit plans for employees.

LAW 359
INDIVIDUAL EMPLOYMENT RIGHTS
Professional
(3 hrs) Examines issues in workplaces that are not governed by collective bargaining, such as hiring, wrongful termination, workplace privacy and defamation, protection against harassment, employees' legal obligations to employers.

LAW 361
ECONOMIC JUSTICE, IDENTITIES & MARKETS
Professional
This course will explore how the law and the marketplace create and preserve economic inequality according to race, gender, sexual orientation, and other identity categories while maintaining a stance of 'neutrality.' The class will critically analyze the inter-relatedness of law, markets, and identity using frame-works from classic market theory, law and economics, critical race theory, feminist legal theory, 'queer theory,' and critical legal studies. The course objective is to provide critical analytic skills to students to develop contemporary critiques of classic market and legal structures for the purpose of aiding subordinated communities in the pursuit of economic justice. By so doing, students should be able to negotiate more effectively, the societal tension between 'efficiency' and 'equality' in the law and in the marketplace. The course and casebook are designed to provide materials for students and teachers do not have formal training of economics, but who are interested in cross-cutting issues of discrimination and unequal wealth that results from the history of cumulative and synergistic discrimination. 3 credit hours

LAW 363
RESTORATIVE JUSTICE
Professional
(3 cr. hr.) A skills-based course designed to introduce students to restorative justice theory and practices in the context of family law and family dynamics. During the course, the students will gain exposure to, and experience with, the circle process, a form of dialogue that brings people together to discuss difficult or complicated issues in a respectful and meaningful manner. Through simulations and hands on practice, the students will also experience facilitating (keeping) a circle to help prepare them to co-facilitate circle processes for families referred by the Parentage and Child Support Court in the future.
LAW 364
HOUSING SEGREGATION & INTEGRATION
Professional
(3 hrs.) This course examines the legal underpinnings of the systems that have segregated communities, and asks what legal mechanisms might be used to reverse the trends and build integration. Both the significant federal case law reinforcing the nation's commitment to safe, decent and affordable housing to all, and an examination of the policy and research work that advocates and scholars have used will be reviewed. The coursework is national in focus but leans on the history of Chicago.

LAW 366
ADVANCED ISSUES IN DIVORCE PRACTICE
Professional
This course covers advanced financial issues including pensions, contingent stock options, property transmutation as well as more complicated considerations of child custody and support in both interstate and international contexts. The course covers substantive law and engages the students in a practical application of the law such as a negotiation or a drafting exercise. At the instructor's option, all students will be required to complete a service learning component working in the field, which typically must be performed during business hours.

LAW 367
ANIMAL LAW
Professional
This course will offer a comprehensive examination of the rights afforded to animals as well as a look at the application and enforcement of those rights. Topics will include a history of animal rights, legislation, case law, ethics, lobbying and a discussion of issues confronting major lobbying and activist organizations. Constitutional, land use planning, international and environmental law issues will also be presented. The course will be taught through lecture and extensive class discussion including case and regulation analysis. 3 credit hours

LAW 368
COLLECTIVE BARGAINING PROCESS
Professional
(3 credits) The primary thrust of the course will be to provide an understanding from both the union and employer points of view, of collective bargaining and how the process operates to produce an agreement, encompassing the wages, terms and conditions of employment.

LAW 369
LITIGATION LAB
Professional
(3 cr.) The course is a practicum in which students will work with practitioners on actual cases, under the supervision of the instructor. The Lab is designed to expose and involve students in the planning and development of various aspects of litigation practice in sophisticated cases. LAW 410 is a prerequisite for this class.

LAW 371
LAW & CLIMATE CHANGE
Professional
(3 credit hours) This course will address domestic and international responses to the effects of climate change. It will focus on domestic efforts to regulate climate change-inducing technologies and on international approaches to funding, developing, transferring and disseminating mitigation and adaption technologies.

LAW 444 or LAW 447 or LAW 344 or LAW 271 or LAW 489 is a prerequisite for this class.

LAW 372
ELECTION LAW
Professional
(3 hrs) This course will explore the intersection of law and the political process. Topics covered may include campaign finance law, redistricting, racial and partisan gerrymandering, ballot access laws, the Voting Rights Act of 1965, modern barriers to voting, and the regulation of political parties.
LAW 373
INTERNATIONAL ENVIRONMENTAL JUSTICE
Professional
(3 credits) This course focuses on legal problems and issues concerning the human right to a safe, healthy and ecologically-balanced environment. The readings and class discussion focus on (1) how private lawyers can effectively advocate on behalf of indigenous populations who suffer environmental injuries, and (2) how international legal regimes operate to prevent and redress violations of international environmental human rights.

LAW 375
ARBITRATION OF INTERNATIONAL COMMERCIAL DISPUTES
Professional
(3 credits) This course explores all major facts of international arbitration. Includes contract drafting, the resolution process, pre-hearing procedures, selection of arbitrators, types of hearings, enforcement of awards, and dispute resolution methods. Explore case studies, cross-border disputes, comparative institutional rules, arbitral forums and advocacy.

LAW 380
THE BUSINESS OF LAWYERING
Professional
(1 credit) This course will address topics bearing on the business aspects of the practice of law including the economics of practice, establishing an office, client development, hiring support staff, affiliating with other lawyers, etc. It will be taught in Los Angeles, California over spring break. There will be an administrative fee of $500 to cover books and program costs. Students will be responsible for their own transportation and housing.

LAW 402
ANTI TRUST
Professional
(3 hrs) Studies the basic federal antitrust statutes which proscribe monopolization, conspiracies to restrain trade, and mergers that unduly tend to concentrate markets. This course also entails a working knowledge of American economic history, familiarity with simple rules of applied microeconomics, and a grasp of strategic commercial behavior.

LAW 407
CONFLICT OF LAWS
Professional
(3 hrs) Studies the major methodologies and frameworks for the resolution of choice of law problems and jurisdictional conflicts within the federal system.

LAW 410
EVIDENCE
Professional
(3 hrs) A survey of the rules governing the presentation, admission and exclusion of facts in civil and criminal judicial proceedings, including rules of competency, relevancy, privilege and hearsay.

LAW 411
GUIDED RESEARCH
Professional
(1-2 hrs) Students who have earned at least a 2.0 g.p.a. after the completion of at least 31 credit hours may engage in assigned research under the direction and supervision of a full-time faculty member. Graded pass/fail.

LAW 412
FEDERAL COURTS
Professional
(3 hrs) Studies the problems, conflicts and accommodations in jurisdiction, procedure and review peculiar to the dual system of federal and state courts.

LAW 140 is a prerequisite for this class.
LAW 415
BANKRUPTCY
Professional
(3 hrs) A survey of the Federal Bankruptcy Code, including the trustee's power of avoidance, Chapter 13, debtor's right to discharge, federal tax liens and priorities.

LAW 417
LABOR LAW
Professional
This course addresses the common law and federal statutes applicable to private sector labor-management relations with an emphasis on organizational matters and negotiations. The course contains the following aspects: statutory interpretation, policy concerns, appropriate practical strategies for both labor and management, social issues and values, ethical issues, advocacy skills, administrative law, critical analysis of decisions, remedies and the relationship of federal labor law to other laws.

LAW 419
LITIGATION STRATEGY: PRE-TRIAL, CIVIL
Professional
(3 hrs) Offers a comprehensive treatment of the key problems encountered in the pretrial stages of civil litigation, including drafting of the complaint, case planning, interrogatories and other written discovery and pretrial orders. Students conduct simulated pretrial motions, client interviews, fact investigations, counseling, negotiating, and settlement sessions. Simulated depositions and motions argument, as well as simulated pretrial conferences, are conducted during class session.

LAW 420 is a prerequisite for this class.

LAW 420
REAL ESTATE TRANSACTIONS
Professional
(3 hrs) Explores the basic concepts and documents involved in the inter vivos transfer, financing, development and use of real property. Topics covered include brokers' agreements, condominiums, title assurance, land trusts and closings.

LAW 160 is a prerequisite for this class.

LAW 422
PUBLIC INTERNATIONAL LAW
Professional
(3 hrs) Covers the general principles of international relations, including such topics as what is a state, the elements of state responsibility, jurisdiction and nationality, the Law of War, the United Nations and certain international organizations.

LAW 423
REMEDIES
Professional
(3 hrs) Studies the interplay and choice of remedies (legal and equitable) available in the principal types of contract and tort actions. Damages, the object of an award in contract and in tort, limitations on recovery, the elements of damages, specific performance of contracts, specific relief in tort, injunctions and the specific limitations on their availability, restitution, constructive trusts and equitable liens are included.

LAW 427
APPELLATE TECHNIQUE
Professional
(3 hrs) Teaches both substantive law relating to appellate practice as well as skills training in appellate advocacy, focusing on: the ability to effectively analyze legal problems, efficiently perform legal research, collect and sort facts, write effectively and orally communicate effectively and persuasively.
LAW 428
INDEPENDENT STUDY
Professional
(3 hrs) Students who have earned at least a 3.00 g.p.a. after completion of at least 40 credits may undertake independent study under the supervision of a full-time faculty member. The student must produce an indepth research paper of publishable quality not substantially covered by a currently offered course. Fulfills the Seminar requirements. Instructor's permission required.

LAW 429
LEGAL CLINIC I
Professional
(3-6 hrs) Students work in one of the clinic modules under the supervision of a clinical attorney concentrating on real life problems with real clients and organizations. Instructor's permission required.

LAW 432
SECURITIES REGULATION
Professional
(3 hrs) Deals with federal and state regulation of the distribution and transaction of investment securities. Problems related to the nature and extent of investor protection under securities legislation are studied.
LAW 102 is a prerequisite for this class.

LAW 436
JOURNAL OF HEALTH CARE LAW EDITORIAL BOARD
Professional
If a student is selected to be an editor of the Journal, the student may enroll for two units of credit per semester up to a total of six units of credit. A student is expected to work for four semesters on the publication, but may enroll for credit in any three of the four semesters in which he or she works on the Journal. 2 credit hours per semester. Pass/fail only.

LAW 438
MEDIATION
Professional
(3 hrs) Designed for students who seek to understand the application of the zealous representation standard within the mediation process. The course provides students with a basis to evaluate critically when and how to represent clients in mediation. They experience the mediation process through classroom simulations as mediators, attorneys and clients. Through simulated teaching methodology, students focus on effective advocacy in mediation.

LAW 440
ADVANCED MEDIATION
Professional
(3 credits) This course builds on the skills learned through the simulated experiences of the basic Mediation course. The course includes three components: specialized training, class sessions and the representation of pro se clients in the mediation of commercial cases or the mediation of small claims cases. Student representation in the spring semester will occur in commercial cases referred from judges in the Law Division of the Circuit Court of Cook County, Illinois. The representation is limited to the mediation phase of these cases. A 711 license is required and students work under the supervision of the instructor. In the fall semester students will serve as the Mediator in small claims cases in the Circuit Court of Cook County, Illinois under the supervision of the Center for Conflict Resolution.
LAW 438 is a prerequisite for this class.

LAW 441
SPORTS LAW
Professional
(3 hrs) A study of the application of various legal doctrines to a broad range of sports-related activities. The course focuses upon many of the legal issues arising in professional sports, including the impact of the antitrust and labor laws and representation of the professional athlete.

LAW 444
ENVIRONMENTAL LAW
Professional
(3 hrs) A survey of federal and state remedies for the protection of the environment.
LAW 447
PATENT LAW
Professional
This course is designed for two types of students: (1) those who intend to practice in the area of patent law specifically; and (2) those who plan to enter into a generalized intellectual property practice. Students explore concepts and selected problems in patent law and examine the impact of policy considerations on patent statutes and jurisdictions. The course covers all substantive aspects of patent law, including patentable subject matter; patent disclosure requirements; patentability requirements; infringement - both literal and under the doctrine of equivalents; defenses; and remedies.

LAW 448
INTERNATIONAL BUSINESS TRANSACTIONS
Professional
(3 hrs) Examines the foreign law aspects of establishing American business abroad, including international investment and finance relations, and problems posed by treaty, convention and trade practice between the United States and foreign countries. LAW 102 is a prerequisite for this class.

LAW 449
PREDATORY LENDING
Professional
(3 hrs.) This course will examine the origins and dimensions of predatory lending, defined as mortgage loan origination fraud and foreclosure rescue fraud. Emphasis will be given to the development of the sub-prime mortgage market, facets of predatory lending and various methods to curb it. This course will include background lectures and discussion, case study and analysis, and written and oral advocacy exercises related to actual cases.

LAW 450
TRIAL ADVOCACY I
Professional
(3 hrs) Examines fundamental trial techniques. Students are expected to perform simulated courtroom exercises in voir dire, opening statements, direct and cross-examination, introduction of exhibits, closing arguments, objections and trial motions. Students are also required to prepare trial books and exhibits and to participate in a simulated bench trial. LAW 410 is a prerequisite for this class.

LAW 453
COMMERCIAL ARBITRATION
Professional
(3 hrs) This course is designed to teach students the necessary skills to become effective advocates in the commercial arbitration process. Students develop arbitration skills through role-play exercises, including actual advocacy in simulated arbitrations. Additionally, the course teaches the jurisprudence of commercial arbitration, the evolution of the case law in the field and where arbitration fits within the spectrum of dispute resolution processes. The course also teaches students to critically evaluate the ethical and professional issues in the field of arbitration.

LAW 454
INTERNATIONAL INTELLECTUAL PROPERTY
Professional
Examines the growing importance of intellectual property in the international context. Covers the scope of protection granted trademarks, copyrights and patents in foreign jurisdictions so that effective comparisons can be made between foreign and domestic law. Explores the scope and substance of international treaties. Strategies for obtaining cost effective intellectual property protection in the global economy will be examined. 3 credit hours.

LAW 271, LAW 344, LAW 447 or LAW 489 is a prerequisite for this class.

LAW 455
LEGAL DRAFTING
Professional
(3 hrs) Legal drafting courses on various topics give students an opportunity to hone their research and writing skills on an advanced legal. Students may take one course per semester. All courses are limited enrollment.
LAW 456
JURISPRUDENCE
Professional
This course offers an introduction to issues in legal philosophy. It provides an overview of several influential legal theories, including: legal realist, legal positivist, and natural law approaches. Topics covered will include: the nature of law, the relation between law and morality; the extent to which legal rules constrain judicial decisionmaking; and, the question whether there is an obligation to obey the law. 3 credit hours.

LAW 457
FEMINIST JURISPRUDENCE
Professional
3 credit hours. This course examines various feminist legal theories and their impact on the philosophy of law. After introductory materials addressing equality theory and constitutional standards, the class will apply feminist legal theories to different substantive areas, especially violence against women.

LAW 459
REAL ESTATE FINANCE AND COMMERCIAL DEVELOPMENT
Professional
(3 credit hours) This course addresses legal and economic issues relevant to commercial real estate development and investment, including acquisition, financing, leasing ownership structures and tax considerations.

LAW 460
BUSINESS PLANNING
Professional
(3 credit hours) Combines advanced work in business organizations, securities law and federal taxation in the context of business planning and counseling.

LAW 210 or LAW 212 is a prerequisite for this class.

LAW 461
CORPORATE REORGANIZATIONS
Professional
(3 hrs) Survey of methods of reorganizing corporate enterprise. Cognate issues in the fields of taxation, securities regulation, and bankruptcy are also discussed.

LAW 102 is a prerequisite for this class.

LAW 462
INSURANCE LAW
Professional
(3 hrs) Cross listed course for Public Services program. Provides a comprehensive overview of the basic principles of insurance law, including: a review of how the business of insurance has developed to meet contemporary business and consumer needs; the significance of insurance in modern business; and the importance of insurance and insurance law in the practice of law. Reviews the ways in which legislators, regulators and the courts have intervened in the operations of the insurance marketplace; the purposes of such interventions, and whether such purposes have been served.

LAW 464
ADVANCED CRIMINAL PROCEDURE: PRETRIAL
Professional
(3 hrs) Offers an in-depth analysis of the decision to prosecute, restraints and prerogatives in the acquisition and use of evidence of criminal conduct, the law of arrest, search and seizure, interrogation, pretrial detention, preliminary hearings, pretrial motions, plea bargaining and other selected topics related to the pretrial phase of criminal prosecutions.

LAW 465
ADVANCED CRIMINAL PROCEDURE: TRIAL
Professional
3 credit hours. Analyzes the important phases of the criminal trial, including jury selection, opening and closing statements, presentation of witnesses, defense issues, assistance of counsel, guilty pleas, double jeopardy, jury instructions, sentencing, and ethical issues.
LAW 468
WHEN JUSTICE FAILS
Professional
This course is designed to examine the circumstances in which the judicial system is likely to fail to serve the interests of justice. The course begins with an examination of the ideas and historical events that have led us to expect that our courts will operate in a neutral and fair manner. At the same time, some consideration is given to when the system is unlikely to operate in this manner. The bulk of the course will be spent in examining five famous trials in which justice appears to have failed. 3 credit hours.

LAW 470
ADVANCED PATENT LAW
Professional
Required for a Certificate in Intellectual Property with a Patent Specialty. Provides a more practical perspective and application of the doctrines covered in the basis Patent Law course. Among the topics covered are patent searches, claim drafting, re-examination and reissue considerations, design patents, international patents, and licensing. 3 credit hours.

LAW 472
MENTAL HEALTH LAW
Professional
(3 hrs) Cross listed course for Public Services program. Examines significant issues in law and psychiatry and involves in-depth research and writing. Subjects include regulation of mental health professionals, malpractice, informed consent, confidentiality, incompetency, guardianship, commitment and mental health issues related to criminal law.

LAW 474
LAW AND POPULAR CULTURE
Professional
3 credit hours. Explores the image of the lawyer (law student and judge) in American culture through an examination of American films and critical writings related to these films. Examines such issues as the judiciary and the rule of law with a focus of the Nuremberg Trial. Also explores the treatment of a single legal event, the trial of Leopold and Loeb for the murder of Bobby Franks, in three films representing distinct approaches to the underlying subject matter as well as to film making.

LAW 475
NEGOTIATIONS
Professional
Analyzes and uses problem solving to explore the use of negotiation techniques in the legal setting. 3 credit hours.

LAW 476
FINANCIAL ACCOUNTING FOR LAWYERS
Professional
Provides a survey of accounting principles and issues relevant to the practice of law, including accounting methods and procedures, accounting issues in business, corporate and tax law and the use of accounting data in financial analysis and business planning. This course is closed to students who have completed more than one accounting course at the undergraduate level. 3 credit hours.

LAW 477
FIRST AMENDMENT FREEDOM OF SPEECH
Professional
(3 cr.) This is an advanced constitutional course focusing upon First Amendment Freedom of Speech. Topics that will be covered include: the history and philosophy of freedom of speech; speech that incites action; fighting words; libel; obscenity and sexually explicit speech; commercial speech; content-based and content-neutral regulations of speech; vagueness and overbreadth; prior restraints upon speech; freedom of association; the right not to speak; campaign contributions as speech; freedom of association; freedom of the press; and, the broadcast media.
LAW 481
LEGAL PROFESSION
Professional
(3 hrs) Required for all JD students. Explores the role of the legal profession in American society. Legal education, admission to the bar, organization of the practicing bar, discipline, unauthorized practice, group legal services and other current problems are discussed.

LAW 482
INTERNATIONAL PROTECTION OF HUMAN RIGHTS I
Professional
(3 hrs) Surveys and analyzes the legal aspects of protecting human rights through international action. Relevant treaties, conventions and international practices are discussed.

LAW 487
HOUSING LAW
Professional
(3 hrs) An examination of local and federal laws and policies aimed at creating and preserving housing, low-income and affordable housing, both rental and owner-occupied. Includes consideration of housing-related litigation and issues related to subsidized housing, landlord-tenant court, fair housing, and predatory mortgage lending.

LAW 489
INTELLECTUAL PROPERTY SURVEY
Professional
(3 hrs) Surveys the legal interests recognized by American law in intellectual and artistic creations. Legal problems involved in the economic exploitation of intellectual and artistic property rights also are discussed. No credit if completed Intellectual Property: Copyrights and Trademarks (LAW 339).

LAW 339 is a prerequisite for this class.

LAW 490
STATE CONSTITUTIONAL LAW
Professional
(3 credit hours) This course examines state court decisions from around the country to illustrate the array of state constitutional issues occurring in modern American law. State constitutions are a source of rights independent of the Federal Constitution and frequently are applied by state courts to grant more expansive protection for individual rights than the Federal Constitution afford. Moreover, state constitutional law, like its federal counterpart, is not limited to issues involving individual rights. Course coverage may include equality, due process of law, criminal procedure, property rights, religion, freedom of speech, school funding, the right to a remedy, the structure of state government, judicial power, and amendment processes.

LAW 493
CONSTITUTIONAL LAW: FIRST AMENDMENT RELIGION CLAUSES
Professional
(3 hrs) This course explores religious freedom in America under the First Amendment. The focus of the course is on the constitutional doctrines relating to the Free Exercise Clause and the Establishment Clause of the First Amendment, as well as the underlying assumptions and conflicts that have animated First Amendment constitutional argument over time. In addition, the course proposes to examine the extent to which religious interest groups have influence and control the development of religion clause jurisprudence.

LAW 495
LAW AND THE MASS MEDIA
Professional
(3 credit hours) Focuses on media law that affects journalism regulation of the media business. Topics include media and first amendment theory; prior restraint, regulation of media business, obscenity, commercial speech, private actions against the media, defamation, privacy and copyright, news-gathering, subpoenas and searches, access to information, and access to judicial proceedings, and broadcasting (content regulation and cable and new technology).

LAW 140 is a prerequisite for this class.
LAW 497
CONSUMER PROTECTION
Professional
(3 hrs) Surveys the common law and state and federal statutes which protect consumers in various aspects of sales and credit transactions. The course begins with inducements (advertising and marketing techniques), explores financing the deal (credit regulation), substantive contract terms (unconscionability, warranties, and interest rates) and post-transaction problems (debt collection).

LAW 498
SCHOOL LAW
Professional
(3 hrs) Designed to explore some of the principal legal problems arising out of the American educational system. The right to an education, the rights and duties of teachers, and the responsibilities of students and academic freedom are some of the issues discussed.

LAW 502
JEWISH LAW
Professional
(3 hrs) Introduces students to the structure and methodology of Jewish law, examines how substantive Jewish law principles are employed to resolve difficult social and ethical issues in a variety of legal contexts, and considers the extent to which such processes may inform a thoughtful dialogue regarding resolution of similar questions in secular society.

LAW 503
CIVIL RIGHTS
Professional
(3 hrs) Analyzes selected topics in the civil rights field, with emphasis on the reconstruction amendments to the Constitution and equal protection. Statutory issues will be discussed. Different topics will be chosen for in-depth treatment, such as voting rights, housing, criminal justice administration and education.

LAW 506
CRIMINAL LAW
Professional
3 credit hours. Required for J.D. students. Provides a survey of the substantive law of crimes and defenses. This course includes a study of specific crimes, elements of criminal liability, and the purposes of punishment.

LAW 507
FEDERAL CRIMINAL LAW
Professional
(3 hrs) Examines criminal enforcement resources, the Racketeer Influenced and Corrupt Organizations (RICO) statute, mail fraud, drug enforcement, criminal tax issues, criminal civil rights, obstruction of justice, fugitive felons and other aspects of federal criminal system.
LAW 506 and LAW 518 are a prerequisite for this class.

LAW 508
ADMINISTRATIVE LAW
Professional
(3 credit hours) Reviews the powers and procedures of federal, state and local administrative bodies as they affect private parties, including administrative jurisdiction, adjudication, rulemaking, methods of decision, rules of evidence and judicial review.
LAW 140 is a prerequisite for this class.

LAW 509
LAW AND THE FAMILY UNIT
Professional
(3 hrs) Provides an introduction to the creation and governance of family relationships, including such topics as marriage, adoption, neglect, conciliation, parentage proceedings, child custody problems, domestic violence, duty to support and property rights vis-a-vis members of the family unit.
LAW 510  
THE MARITAL DISSOLUTION PROCESS  
Professional  
(3 hrs) Covers those topics relating to the dissolution of marriage, including judicial jurisdiction in dissolution and custody cases, regulation of marriage, annulment, bases for dissolution, spousal support, equitable division of property, child custody and support.

LAW 513  
INTERNATIONAL CRIMINAL LAW  
Professional  
(3 hrs) Covers problems of public control of criminal activity that cross international boundaries, such as extradition, air piracy, and control of drug traffic.

LAW 514  
LEGAL CLINIC II  
Professional  
(3-6 hrs) Students work in one of the clinic modules under the supervision of a clinical attorney concentrating on real life problems with real clients and organizations. Instructor's permission required.

LAW 516  
IMMIGRATION LAW AND POLICY  
Professional  
(3 hrs) This course gives students an understanding of the complexities of U.S. immigration law and policy. Topics of discussion include: sources of immigration power; role of the federal courts; methods of admission, including family and employment immigration; grounds of removal; and the acquisition of citizenship.

LAW 517  
ASYLUM AND REFUGEE LAW AND POLICY  
Professional  

LAW 518  
CRIMINAL PROCEDURE  
Professional  
3 credit hours. A survey of the administration of criminal justice, with an emphasis on pretrial procedure. Primary focus is placed upon government evidence gathering, as well as the prosecution and defense of offenders.

LAW 521  
LEGISLATIVE PROCESS  
Professional  
(3 hrs) Surveys the legal aspects of the legislative process such as legislative structure, role of statutes, committees, access to information, enactment process, campaign finance, lobbying, speech and debate clauses, and legislative compromise.

LAW 523  
MISSION-BASED LAWYERING: LEGAL PRACTICE IN THE NON-PROFIT SECTOR  
Professional  
(3 credit) This is a course focused on preparing law students for eventual work in the non-profit sector as 1) practicing lawyers, 2) lawyer-managers and 3) lawyer-board members. The course will provide an initial overview of the law of non-profit organizations, after which the course will take a multi-disciplinary approach to analyzing the legal aspects of working for, or with, non-profit public interest law organizations.
LAW 524
FIELD PLACEMENT
Professional
2 or 3 credit hours. This program is designed to give upper level students practical experience in an externship with a public agency, non-profit organization, member of the judiciary, or for-profit organization, such as a private law firm or in-house counsel for a corporation. Upper level students, who have at least 28 credit hours and a GPA of 2.0, may apply to participate. Participants are accepted on a case by case basis. Externships are unpaid. No student can receive more than 3 credit hours per semester and no more than 9 credit hours toward their JD degree if 3 of those credits are earned during a summer placement. Otherwise, students are limited to 6 credits hours total. A placement for 3 credit hours is expected to complete 180 hours of work whereas 120 hours of work is expected for a 2 credit hour placement.

LAW 525
CLASSROOM COMPONENT
Professional
1 credit hour. This is a supplemental course in which students are graded upon their experiences and written reports.

LAW 531
LABOR RELATIONS IN THE PUBLIC SECTOR
Professional
(3 hrs) Explores the existence and extent of public and quasi-public employment rights to engage in concerted activities, to be represented by unions and to bargain collectively. Attention is given to the context and implementation of federal, state and local legislation and ordinances and various executive orders. Emphasis is given to the various dispute resolution and impasse resolution machinery developed in the public sector, including mediation, fact-finding, voluntary arbitration and mandatory arbitration.

LAW 533
PATENT LAW MOOT COURT
Professional
(3 credit hours) Students will be required to write both an appellee and an appellant brief on a topic related to patent law. Competitions are based on an advanced problem-orientated study in patent law. Selected students must register for the course. Instructor's permission required.

LAW 535
ART AND THE LAW
Professional
(3 hrs) Focuses on issues concerning legal issues and the arts. Includes the international regimes for copyright protection, comparison of different national copyright systems, and definition and treatment of artists' (moral) rights in their works. Ethical and legal aspects of international trade in art objects and antiquities, national and international attempts to control such trade, and issues involved in protection of cultural property and cultural resource management, as well as conflicts of law in the recovery of stolen art works.

LAW 536
NATIONAL MOOT COURT COMPETITION
Professional
(3 hrs) Students who are selected for one of the National Moot Court Teams must register for the course. The competitions are an advanced problem-oriented study of appellate brief writing and oral advocacy. Graded pass/fail.

LAW 537
INTERNATIONAL MOOT COURT COMPETITION
Professional
(3 hrs) Students who are selected for the International Moot Court Team must register for the course. The competitions are an advanced problem-oriented study of appellate brief writing and oral advocacy.

LAW 543
TELECOMMUNICATIONS LAW AND POLICY
Professional
(3 hrs) Focuses on the regulation of radio and television broadcasting laws as well as the regulation of cable and new satellite technology. A segment on telephone regulation is included. Also contains an entertainment law component focusing on the relationship between movie companies and other program providers and major distributors such as cable and broadcast stations. Some attention to copyright law for movies and other programs by cable systems and satellite distributors.
LAW 544
WOMEN AND JEWISH LAW
Professional
(3 credit hours) This course will examine the primary issues of Jewish Law affecting women, particularly as they pertain to family law. Among the topics that will be highlighted are marriage, divorce, sexual relations, and child rearing responsibilities. The course will involve an examination of both the classical Jewish law texts on these topics (in English) as well as a discussion of more current positions on the issues covered. There are no prerequisites and students need not have any background, or religious affiliation to take this class.

LAW 545
ISLAMIC LAW & LEGAL THOUGHT
Professional
(3 credits) This course is organized around two main objectives. First, we consider the internal structure of Islamic Law (Sharia) and legal thought. Second, we consider Islamic Law in relation to modern legal systems and theories - religious and secular. The aims are not only to introduce the principles of Islamic Law but also place Islamic Law in conversation in the fields of comparative law, international law and human rights, constitutional law and jurisprudence.

LAW 546
POVERTY LAW
Professional
(3 hrs) Provides an overview of poverty law and the legal problems encountered by the poor in our society. The course considers legislative and administrative representation as methods of poverty advocacy, as well as the current trend away from constitutional litigation and toward state responsibility. It considers the legal developments in poverty law including housing, education, family and public benefits.

LAW 548
ADVANCED MEDIATION: AS MEDIATOR
Professional
(3 credits) This course builds on the skills learned through the simulated experiences of the basic Mediation course. The course includes three components: specialized training, class sessions and the mediation of small claims cases referred by judges in the Circuit Court of Cook County, Illinois. Students will serve as the Mediator under the supervision of the Center for Conflict Resolution.

LAW 549
ADVANCED MEDIATION: AS ADVOCATE
Professional
(3 credits) In this course, students represent litigants who have appeared pro se in commercial cases in the Law Division of the Circuit Court of Cook County, Illinois. They are referred by the judges for student representation during the mediation phase of the case only. A 711 license is required and students work under the supervision of the instructor.

LAW 551
FOREIGN STUDY ABROAD: VIENNA
Professional
Students enrolled in the DePaul University/Vienna University of Economics and Business (WU) program enroll in Vienna University of Economics and Business law courses under this number for one semester. The exact content depends upon the course in which the student is enrolled. Maximum of 13 credits per semester. Graded pass/fail.

LAW 552
SUMMER LEGAL STUDIES: SORRENTO, ITALY
Professional
This program offers students exposure to an international resolutions and a global approach to business in addition to Italian comparative criminal focus. Director permission required. 3 courses/5 credits total.
LAW 555
ADVANCED LEGAL RESEARCH
Professional
(3 cr. hours) This course is to strengthen student research and legal analysis skills. The course will build upon students’ knowledge of source materials; introduce new sources and techniques of research; and how best to apply this knowledge to specific legal problems. Also, the cost effectiveness and relative advantages of manual versus electronic research will be explored. All students must have working Lexis and Westlaw passwords and active e-mail accounts.

LAW 559
INTERNATIONAL & EUROPEAN LAW PROGRAM (MIEBL)
Professional
(1 or 2 hrs) Students enrolled in the DePaul University/Universidad Pontificia Comillas International and European Business Law (MIEBL) program enroll in Universidad Pontificia Comillas law courses under this number. The exact content depends upon the course in which the student is enrolled. Maximum of 15 credits per semester.

LAW 561
COMMUNITY ECONOMIC DEVELOPMENT
Professional
This public interest law course will focus on the strategies for developing low-income communities and to engage in strategies and organizational forms to change lives. 3 credit hours

LAW 570
ELECTRONIC DISCOVERY
Professional
This course will provide an in-depth treatment of both the legal and technical aspects of electronic discovery and provide the student with a detailed grounding in the law and application of electronic discovery principles to civil and criminal litigation. 2 credit hours - held 9 weeks

LAW 580
FOREIGN STUDY PROGRAM
Professional
(3 hrs) Students enrolled in the DePaul University/University College Dublin Cooperative enroll in University College Dublin law courses under this number. The exact content depends upon the course in which the student is enrolled. Maximum of 12 credits per semester. Graded pass/fail.

LAW 581
SUMMER LEGAL STUDIES PROGRAM AT BEIJING FOREIGN STUDIES UNIVERSITY, CHINA
Professional
The program focuses on the legal principles related to international transactions in the Asia-Pacific area and will provide a comprehensive overview of China's legal system.

LAW 582
INTERNATIONAL HUMAN RIGHTS LAW AND POLICY COLLOQUIUM
Professional
(2 cr. hrs.) This course is a discussion-based exploration of legal protections afforded in international law to refugees, internally displaced persons (IDPs) and stateless persons. Public policy (domestic, regional and international will be a large part of the discussion in class. Students are expected to come to class ready to address issues beyond the text of the treaties and laws, and to be prepared to discuss from alternate perspectives. The practice of international law requires an ability to read and understand the treaties and conventions that create it, and any policy discussion requires that a lawyer be able to find and analyze the texts, and use those texts in the formation of a policy argument. Prerequisite: Public International Law or Instructor Permission. Law 422 or LAW 482 is a prerequisite for this class.

LAW 583
SUMMER LEGAL STUDIES IN MADRID, SPAIN
Professional
This program focuses on European human rights law and European business and commercial law. Director permission required. 3 courses/5 credit hours total.
LAW 584
SUMMER LEGAL STUDIES IN PRAGUE
Professional
The program will offer students exposure to global practice in the fields of corporate law and employment law, with a special emphasis on countries within the European Union. 2 courses/5 credits

LAW 585
SUMMER LEGAL STUDIES IN COSTA RICA
Professional
The program links basic principles of international law with an overview of the Inter-American Human Rights System and with special focus on how human rights ideas, advocacy, and activist strategies have transformed Latin American society and politics. The program facilitates student engagement with important regional human rights advocates and includes visits to key institutions such as the Inter-American Court of Human Rights. 2 courses/6 credit hours total.

LAW 586
CONSTITUTIONAL TORTS & SECTION 1983
Professional
(3 crs.) This course provides an in depth study of 42 USC sec. 1983, the most widely used statute for protecting civil rights and redressing violations of the constitution. Among the topics covered are the elements and defenses to a cause of action, municipal liability, absolute and qualified immunity for public officials, state action, monetary relief, injunctive remedies, causation, choice of forum, and attorney’s fee shifting.

LAW 588
STUDY ABROAD: BUENOS AIRES, ARGENTINA
Professional
(3 credit hours) Legal Dimensions of Doing Business in Latin America, introduces students to the basic framework of Latin American law and legal systems, as well as to the key principles of international business law necessary for advising clients doing business in the region. Director permission required.

LAW 595
RADBOUD EXCHANGE PROGRAM
Professional
Students enrolled in the DePaul University/Radboud Universiteit Nijmegen enroll in law courses under this number. The exact content depends upon the course in which the student is enrolled. Maximum of 12 credits per semester.

LAW 599
SUMMER STUDY ABROAD: LEIDEN, THE NETHERLANDS
Professional
This program focusses on international business and constitutional law, especially with respect to the European Union (EU).

LAW 600
TAXATION OF CORPORATIONS & SHAREHOLDERS
Professional
(3 hrs) Required for Certificate in Taxation. Addresses basic tax considerations in the formation, operation and liquidation of corporations. Among the areas covered are the organization of corporations, Subchapter S corporations, property and stock dividends, 306 stock, stock redemptions, liquidations, collapsable corporations, corporate divisions and corporate reorganizations.

LAW 604
TAX EXEMPT ORGANIZATIONS
Professional
(3 hrs) Covers qualification as section 501(c) charitable organizations, rules governing conduct of commercial and political activities of charities, unrelated business income and private foundations.
LAW 607
ADVANCED TAX CONTROVERSIES
Professional
(3 credit hours) This course is a follow-up to Tax Controversies and will apply the law, principles and strategies discussed in that course by following one or more actual Tax Court cases from the receipt of the Notice of Deficiency, through the drafting of a petition to the Court, development of legal theories, the preparation of discovery questions, pre-trial motion practice, the stipulation process, selection of witnesses, and outlines of proof. This course will also consider the appeal of a Tax Court case, including the theory of the appeal, the drafting of the briefs, and the outline of oral argument.
LAW 605 is a prerequisite for this class.

LAW 608
INTERNATIONAL TAXATION
Professional
(3 crs.) An introduction to the taxation of income of U.S. citizens, residents and corporations from foreign sources and the income of foreign residents and non-residents from U.S. sources. Topics may include sources of income rules, foreign tax treaties and a survey of the tax treatment of U.S. investments made offshore.

LAW 611
OFFSHORE FINANCIAL CENTERS: CAYMAN ISLANDS
Professional
This course is a combined classroom and field experience designed to provide an introduction to offshore financial centers which include captive insurance arrangements, hedge funds, and asset securitization transactions. A principle purpose is to study various business entities and will examine policy, business and legal issues related to use of such entities.

LAW 616
TAXATION OF S CORPORATIONS AND CONDUIT ENTITIES
Professional
(3 credit hours) This course will examine the taxation of corporations under Subchapter S of the Internal Revenue Code. The course will also cover the taxation of corporations under Subchapter M of the Internal Revenue Code as well as the Code's entity classification rules. Topics will include formation, operation and liquidation of S corporations; taxation of REITs, RICs, and REMICs; and the choice of entity rules.

LAW 620
PARTNERSHIP TAXATION
Professional
(3 credit hours) Required for LLM in Taxation students. Covers the tax consequences of the formation, operation and liquidation of partnerships, including tax shelters, passive loss rules and newly emerging uses of partnerships.
LAW 210 or LAW 212 is a prerequisite for this class.

LAW 702
ELDER LAW
Professional
(3 hrs) Cross listed course for Public Services program. Deals with the new speciality of elder law. Considering today's demographics, many attorneys will require a knowledge of the unique problems of the aging population. Through statutes, cases and research, students will understand the lawyer's role in counseling the elderly, assess the legal needs of an elderly client and provide counsel as to the available options.

LAW 706
HEALTH POLICY AND THE LAW
Professional
(3 hrs) Cross listed course for MBA Health Care Management and Public Services programs. Designed to introduce students to a broad variety of policy issues affecting health care, and briefly touches on economics, sociology, antitrust, tort law, administrative law and important questions of national health policy.
LAW 711
LEGAL ISSUES OF AIDS
Professional
3 credit hours. Cross listed course for Public Services program. Examines a number of significant legal and policy issues raised by the human immunodeficiency virus and the acquired immune deficiency syndrome. Includes issues such as discrimination, access to health care services, payment of medical costs, tort and criminal liability for transmission, and end of life concerns.

LAW 713
HEALTH CARE PRIVACY LAW
Professional
This course will cover the health care privacy laws as they exist and the Federal Government will be implementing and enforcing HIPAA regulations beginning in October 2002. This area of the law is cutting-edge and affects every aspect of the health care industry and of legal practice in health law and other areas.

LAW 714
BIOETHICS & THE LAW
Professional
This course is a survey class, examining issues ranging from drug regulation, clinical trials, assisted reproductive technology, telemedicine, and stem cell development/regulation to the commercialization of the human body. 3 credit hours.

LAW 715
MASTERS ESSAY
Professional
(3 hrs) Not open to Juris Doctor candidates or Health Law certificate students. This is a research paper of publishable quality dealing with a current subject in health law. Students are expected to refine their subject into a topic which can be managed under the supervision of a faculty member.

LAW 716
DISABILITY LAW
Professional
This course surveys American law as it relates to people with disabilities. Primary focus is on discrimination in employment, government services, public accommodations run by private entities, and housing. The course will also cover topics such as the law of guardianship and income support programs. International perspectives will be included.

LAW 718
HEALTH CARE DELIVERY SYSTEMS
Professional
(3 hrs) Discusses managed care and other health insurance mechanisms as a means for payment or financing of health care services. An effort will be made to determine the extent to which these developments in this area are an adequate response to the demand for health care reform. Particular attention will be given to legislative responses to managed care in the areas of protection of insureds, limits on treatment or payment, and restrictions on physicians.

LAW 719
HEALTH CARE: FRAUD AND ABUSE
Professional
This course will afford the opportunity to study the now-fundamental compliance issues in health care law: anti-kickback/fraud and abuse statutes and regulations. The focus will address certain regulations of substantive law as the Federal Government continues to promulgate regulation for the health care industry and as those regulations become more complex, and many regulations stem from similar sources.

LE 101
INTRODUCTION TO LABOR LEADERSHIP I
Undergraduate
Offers the following courses: Union Writing (6 weeks); Grievance Education (5 weeks)
LE 102
INTRODUCTION TO LABOR LEADERSHIP II
Undergraduate
Topics Covered: Fundamentals of speech; making a speech; labor law research paper; labor law: private sector; union administration; labor law: public sector; parliamentary procedure; how to run a union meeting; class presentation/role play.

LE 201
ADVANCED LABOR LEADERSHIP
Undergraduate
Offers the following courses: Public Speaking, Labor Law and Parliamentary Procedure (11 weeks); Skills for Organizing (6 weeks); Economics for Unions (5 weeks); Labor History (6 weeks); Collective Bargaining and Labor Management Cooperation Theories/Interest-Based Bargaining (15 weeks); Arbitration (6 weeks)

LE 202
ADVANCED LABOR LEADERSHIP II
Undergraduate
Topics Covered: Labor in Colonial America; legal issues for unions; the developing labor law; who will organize the unorganized? African Americans: slavery and post-slavery; the Knights of Labor and the American Federation of Labor; the Haymarket incident; the Pullman Strike; Eugene V. Debs and the American Railway Union; warfare in the mine fields; the Textile Strikes of 1909 and 1910; the Triangle Shirtwaist fire; the Homestead Steel Strike; the Progressive Era; the I.W.W.; the Roaring 20's; A. Philip Randolph and the Sleeping Car Porters; agitation and unionization in the 1930's; the Great Depression; NIRA section 7 and the Wagner Act; the CIO; African Americans, women and minorities in the post-war labor movement; labor unions and the Civil Rights Movement. Topics Covered: Legal rights of Workers under OSHA; the right to refuse dangerous work; what is an MSDS Sheet and how to read it; OSHA 200 logs; labels and placards; health and safety through Collective Bargaining ; what is a chemical exposure? Health and safety resources for workers; setting up an internal organizing structure around health and safety issues; monitoring health and safety through union committees; what role has labor played in politics- national, state, and local? The changing role of labor in politics; local politicians/state politicians voting records; how to build a targeted campaign; the role of the AFL-CIO in politics.

LE 203
UNIONS AT WORK I
Course Components:: History, overview and introduction to collective bargaining within the context of power relationships between labor and management (employers), and of power as a tool to negotiate between different or opposing social and economic interests. Specifics include researching the employer; costing out the contract; developing a mobilization structure; preparing for a contract campaign; preparing demands and contrast language; dynamics of bargaining and power; collective bargaining simulation; analysis and alternative to strike; how to get the contract ratified; overview of labor management cooperation; participation and collective bargaining; interest-based bargaining; an analysis; how to use interest-based bargaining.

LE 204
INTRODUCTION TO LABOR LEADERSHIP IN SPANISH FOR SPANISH SPEAKERS
Undergraduate
This is a course in workers' rights; on the job site, in the union, legal, health and safety, and organizing.

LE 205
HUMAN RESOURCES ESSENTIALS I: HEALTH AND WELFARE PLAN BASICS
Undergraduate
Four class sessions, class objectives: 1. To gain an understanding of the basic principles of plan design, costing and administration 2. To apply this understanding to evaluate proposals for alternative plan designs or revisions to existing plans by comparing design features costs and administrative implications.

LE 206
PUBLIC SECTOR LABOR LAW
Undergraduate
The course will examine the two public sector labor laws in Illinois- the Educational Labor Relations Act and the Illinois Labor Relations Act. Class 1- The history of collective bargaining in the public sector in Illinois; Class 2- Comparing the two labor acts; Class 3- Organizing under the labor acts; Class 4 and 5 Filing Unfair Labor Practice Charges under the labor acts; Class 6- Student papers analyzing important decisions under the labor acts.
LE 207
ADVANCED COLLECTIVE BARGAINING
Undergraduate
Course description - This class will teach students how to use Excel spreadsheets to cost out collective bargaining contracts, make economic presentations in negotiations. Students will also engage in mock negotiations. Prerequisite - Basic Collective Bargaining Class or negotiations experience. All students must have a laptop computer for the class.

LE 208
LABOR LAWS FOR LABOR LEADERS
Undergraduate
This five week class will teach students the basics of several labor laws including Family Medical Leave Act, Occupational Health and Safety Act, Title VII of the 1964 Civil Rights Act, and the American Disability Act. Two classes will be taught on the 1964 Civil Rights Act, one on Sexual Harassment in the workplace and one on racial, ethnic and age discrimination.

LE 209
HEALTH CARE STRATEGIES
Undergraduate
Topics to be covered are the health care reform and how the new law impacts health care plans, public employee health care changes, how to use your plan most efficiently, educating employees on health care and the use of in-house clinics.

LE 210
PREPARING FOR NEGOTIATIONS
Undergraduate
This five week course will emphasize drafting contract language how to use cross out and underlining and fall back language. There will be specific exercises on writing contract language on subcontracting, definition of grievance, zipper clause, management rights and wrongs.

LE 211
TOUR OF HAYMARKET
Undergraduate
The tour includes the Haymarket sculpture, the court house, the Altgeld statue and the cemetery where the martyrs are buried.

LGQ 150
INTRODUCTION TO LESBIAN, GAY, BISEXUAL, TRANSGENDER, QUEER STUDIES [SSMW]
Undergraduate
This course will focus on defining this emerging field while giving students some perspective on the history and diversity of LGBTQ communities. It will also help prepare students for study in the various fields covered by the electives required for the minor. The course will be taught by faculty from a variety of disciplines and thus undoubtedly shift emphases somewhat with every offering. Topics will include: introduction to and definition of LGBTQ Studies as a field; historical roots of LGBTQ communities in the US and elsewhere; theoretical models of sexuality and gender; contemporary issues in LGBTQ politics and culture.

LGQ 236
GAY MEN'S HEALTH MATTERS
Undergraduate
The purpose of this course is to introduce students to health issues relevant to gay men. We will explore effects of minority status, heterosexism and homophobia on gay men's health, including but not limited to STD/HIV/AIDS, substance use and mental health. Students will review epidemiological data, theoretical frameworks, and community-based health promotion approaches in order to gain a broad perspective on risk and resilience factors, health indicators, and strategies for self-care applicable to gay men's health.
LGQ 250
LGQ FRENCH HI STORY: OLD REGIME TO THE PRESENT
Undergraduate
This course studies male and female same-sex affection in France roughly from the Enlightenment through the early twenty-first century. It examines the representations of homosexuality over more than two centuries taking into account a variety of often contradictory images that have been current in French society, representations that range, among males, from the diabolical criminal of the nineteenth century Romantics to today's trend-setting (and all too domesticated) gay male, and, among females, from elegant salon figures to contemporary feminist militants. Special attention is focused on the history of homosexuality since WWII because the French gay and lesbian community's progress since that time is impressive and particularly rich in its implications for the American civil rights struggle. Additional readings from French writers on homosexual themes compliment most of the readings from the textbooks.

LGQ 280
LGBTQ LITERATURE FROM THE ANCIENT WORLD TO THE RENAISSANCE
Undergraduate
This course looks at constructions of queer desire in texts of the Western tradition from ancient J udea, Greece, and Rome through the European Middle Ages and into the English Renaissance. We will also learn to perform "queer readings" on texts that may not at first glance seem all that queer. The course will range across many linguistic and cultural traditions. We will read non-English texts in translation, but we may consult the originals in class and certainly knowledge of an ancient tongue or modern Romance language will be useful (but not required - don't worry!). As the title implies, the course will proceed historically, but we will be returning throughout to some basic questions: in what sorts of contexts do we find queer resistance to heteronormative assumptions? do some literary genres seem more hospitable than others to representations of queer desire? how do representations of sexuality relate to larger notions of gender and social class? how do the constructions of queer desire we find here differ from modern lesbian and gay identities? This is a great opportunity to think about queer identity while reading and discussing some amazing texts.

LGQ 319
QUEER PIONEERS: CULTURE, GENDER, AND POLITICAL ACTIVISM
Undergraduate
This course examines some of the historical roots and contemporary realities of lesbian and gay politics in the United States through the biographies of pioneering individuals whose lives and work shaped an ongoing struggle for civil rights and social justice. Conventional wisdom holds that the modern lesbian and gay movement was born in 1969 with the Stonewall riots in New York City, although recent scholarship traces the movement's roots to the mid-nineteenth and early twentieth centuries. More than thirty years after what began at Stonewall as an angry and disorganized appeal for basic human dignity, lesbians and gays have today begun to enter the mainstream of U.S. politics. Within this context, the biographies of individuals who, as activists and artists, rose to challenge the conventions of culture, gender, and political exclusion will be studied in-depth to both illuminate the politics of social movement and suggest how these diverse individuals and experiences may influence present and future efforts for cultural and political change. This course fulfills an elective in the WMS, AMS, or PSC majors, an elective in the LGQ minor.

LGQ 332
CREATING CHANGE: CONTEMPORARY GLBT POLITICS
Undergraduate
This course explores the historical roots and contemporary realities of gay, lesbian, bisexual and transgendered (GLBT) politics, nationally and internationally. GLBT groups and individuals are gaining political recognition, challenging institutions, and creating change by asserting claims to rights and protections under law. Such issues as hate crimes, marriage, AIDS, and ballot initiatives over non-discrimination law and policy have entered the political mainstream since the 1970's. This course examines the GLBT movement, its political and social strategies, conflicts and issues, and the political roles played by its members as participants in political culture. Cross-listed with WGS 332 & PSC 312.

LGQ 338
SEXUAL JUSTICE: LESBIANS, GAYS AND THE LAW
Undergraduate
This course examines the historical and contemporary relationships between lesbians, gays, and the law in the U.S., focusing on the intersections of power, sexuality, and identity with issues of sexuality-based discrimination. It focuses on case law, along with social science and legal literature, seeking out a diversity of voices and experiences. Primary emphasis will be on cases that have come before the U.S. Supreme Court since the mid-1950's, with particular attention paid to how groups and individuals have reached out to the court system for redress of injustice and how these groups and individuals have exercised or failed to exercise power within the legal process. The U.S. legal system has reflected a complex set of social and institutional arrangements with regard to sexuality. This course explores the evolution and current construction of these arrangements, how power is allocated and adjudicated, and how law may be used to resist and dismantle pervasive discrimination. Cross-listed with WMS 338.
LGQ 397
SPECIAL TOPICS IN LGBTQ STUDIES
Undergraduate
See course schedule for current offerings.

LGQ 399
INDEPENDENT STUDY
Undergraduate
Variable credit.

LL 50
CONTINUING ACTIVITY STATUS
Undergraduate
Active Status Continuation

LL 60
PROFICIENCY EXAMINATION FEE ASSESSMENT
Undergraduate
Proficiency Examination Fee Assessment

LL 102
LEARNING ASSESSMENT SEMINAR
Undergraduate
Learning Assessment Seminar is the first of the required courses in the Lifelong Learning Area and designed to help students make educational decisions in the context of their educational and personal goals, become well-versed in SNL's philosophy and competence framework, and make concrete plans for completion of their degree.

LL 103
INDEPENDENT LEARNING SEMINAR
Undergraduate
Students will analyze prior experience and identify ways it applies to requirements for competence. Through this process, they will develop the ability to report learning that advances them as SNL students and also applies to their continuing career progress. Students will complete the course able to present for credit prior or current independent learning. Completion of course includes a no-cost ILP submission. Competence: L1

LL 140
WRITING WORKSHOP
Undergraduate
The Writing Workshop will help students be more confident, efficient and effective writers. Each student will work with the instructor to design an individual plan for improving the student's writing and mastery of the writing process. This is a four-credit hour course for which students earn the H3J competence. If it fits in their plan for improvement, students may use the Workshop to work on papers for competence in other courses or through the ILP process. The focus of the Workshop is on academic writing. This is not a creative writing course.

LL 145
INTENSIVE COLLEGE WRITING
Undergraduate
This six credit hour course is held over two consecutive quarters, and require two separate registrations. It is designed for students who need substantial enhancement of their writing skills before progressing further in the program. The course will review the fundamentals of college level writing with the goal of students being able to write clearly and fluently.
This course will meet over two quarters, and require two separate registrations. For the first quarter, register for the course titled, Intensive College Writing, for two credit hours. Next quarter, you must register again for the continuation of this course titled, Intensive College Writing II with the same instructor. This continuation of the course equals four credit hours. At the conclusion of the second quarter, the competence will be awarded.

In this course, students are introduced to the basic concepts behind the skills of effective listening, dynamic thinking, and persuasive argumentation and have an opportunity to practice these skills within an active and experiential context. Through peer and small group activities, problem-based exercises, and self-evaluation skills, students will develop effective habits of thinking that can be employed in subsequent learning experiences.

For the required L4 competence, you will study the meanings and implications of literacy; read and respond to scholarly works; and learn the strategies of academic writing that will allow you to be successful at SNL. You will explore literacy by sharing, responding to, and editing your own and others' writing during guided in-class writing workshops. For the additional competence, you will study and apply this writing group process to an out-of-class project.

"I consider everybody as having a right to marry once in their lives for love." -Jane Austen While Austen, the woman, believed in the power of love, Austen, the author, presented both the realistic and the ideal paths to marriage in her novels. Academic Writing/Pride and Prejudice allows SNL students to complete the required L4 competence as well as an additional competence in a single 6-credit course. For the required L4 competence, students will learn to use writing for college-level learning, thinking, and communicating through pre-writing, revisions, academic writing genres, and referencing scholarly works related to Pride and Prejudice. For the additional competence, students will further examine the social context of the novel, create a definition of happiness, and analyze the effects of money and class on the characters.

In this course students will focus on developing writing, critical reading and analysis skills. Students will review and practice the essentials of good writing by building on their particular strengths and improving areas of difficulty. Students will receive individual feedback and guidance from faculty on grammar, idea development, organization, using sources to formulate arguments, and students will learn to give feedback on writing to one another. This course will give students the opportunity to practice several types of writing including journals, essays and research papers. In this class, students will have the opportunity to practice each of these assignments while improving control over the mechanics and process of writing. Particular emphasis will be given to the process of revision as students learn to refine and develop their writing. The class assumes a basic understanding of English grammar and composition.

Students who take this course for both the L4 and A1D competences will focus on academic writing skills and the writing process while learning and writing about Chicago disturbances and disasters throughout history. While many people know about the sinking of the Titanic, not everyone knows about the Eastland disaster. This ship was scheduled to take people across Lake Michigan to Indiana for a picnic; however, it never left the Chicago River. When the ship rolled over on its side, 800 Western Electric employees lost their lives. While the Chicago Fire is famous, another fire changed school fire safety regulations. A mistaken address contributed to the devastating fire at Our Lady of the Angels School where 92 children and 3 nuns died. Learn what caused the 1919 Chicago Race Riots, the Pullman Strike and other disturbances and disasters that have changed Chicago's history.
LL 160
ACADEMIC WRITING
Undergraduate
This is a five-week, two-credit course that satisfies the L4 competence and meets every other week in an SNL Learning Cluster.

LL 162
COLLEGE WRITING FOR BUSINESS AND CULTURE
Undergraduate
This Bridge course deals with the methods, principles, and practice of college writing, while giving students an opportunity to write papers that address specific cultural issues, many of which may relate to students' professional aspirations.

LL 170
ACADEMIC WRITING FOR ADULTS AND CRITICAL THINKING
Undergraduate
Academic Writing for Adults and Critical Thinking are required courses at the School for New Learning. In Academic Writing, SNL students focus on writing skills associated with effective performance in a variety of settings. Meanwhile, the Critical Thinking competence and course aims to a) make students aware of their own thinking processes; b) help them develop those processes; and c) help them bring those processes to bear on college-level intellectual activity. In the blend of these two competencies, particular emphasis will be placed on how we do this through writing. Instructors will emphasize skills and strategies of critical thinking and reading as well as practice in the recognition, construction and evaluation of arguments from a thought-perspective and written-perspective that are inherently intertwined. No matter which competence students take, students in this course will learn to identify assumptions, connect assertions to evidence, state generalizations, analyze arguments and bring multiple perspectives to bear on complex issues through a writing practice that will build on particular strengths and improve on areas of difficulty. Students can expect to receive much individual feedback and guidance from the instructors; students will also learn to give feedback on writing to one another.

LL 200
INDEPENDENT STUDY: LIFELONG LEARNING
Undergraduate
Independent Study: Lifelong Learning

LL 250 is a prerequisite for this class.

LL 205
QUANTITATIVE REASONING
Undergraduate
This course provides an introduction to various topics in quantitative reasoning that most adults will be exposed to throughout their university course work, their careers and their daily lives and how to more effectively handle these topics. It covers different approaches to problem solving, how numbers are used in the real world, how to manage your personal finances, basic concepts in statistics and how they are applied in everyday settings and , finally, how money and populations grow and decay. Scientific calculators and the Excel spreadsheet program will be used as tools for exploring algebraic and statistical concepts. Excel spreadsheets and charts are used extensively to illustrate graphically how to display, analyze and interpret data. Using mathematical models to understand real-world phenomena and to make predictions is an important component of the course. Access to a PC and the Internet is required. Quantitative reasoning will be a large part of the class discussion.

LL 206
QUANTITATIVE REASONING AND FINANCIAL ACCOUNTING
Undergraduate
Students will often be called upon to deal with quantitative information in their academic studies, their daily lives and their ministries. This course will build their capacities to understand how numbers are used in the professional life and to apply different quantitative approaches to problem solving. The course will examine financial matters in particular and develop students' capacities to account for the financial resources of a community, congregation or organization. Through this course, therefore, students will develop and demonstrate their competence to use mathematical symbols, concepts, and methods to describe and solve problems.
RAISING CHILDREN IN THE 21ST CENTURY
Undergraduate
This course examines the changing life challenges faced by children and adolescents, e.g., parent-child, school work, dating, leisure time, drugs, etc., over recent past decades. However, this historical context mainly provides a framework for engaging the significant challenges children and adolescents face today. This includes home, school, and society. This course will then turn to how adults relate to their own children and devise strategies that help them develop a positive environment where the child can develop and achieve a sense of self-dependency and social contribution.

FOUNDATIONS OF ADULT LEARNING: DEVELOPING PERSONAL, PROFESSIONAL AND EDUCATIONAL GOALS
Undergraduate
In this required course, students use structured reflection and analysis to assess themselves as learners, write learning goals, do preliminary research in their focus area, meet with their mentor, establish an academic committee and plan the remainder of their undergraduate program. They master the notion of competence and identify ways of achieving it through prior and future learning. The course includes organizing a portfolio that will be an ongoing resource to support and document students' accomplishment of their learning goals. Students should take this course early in their program so they have a clear pathway to graduation. This course satisfies two competencies and carries four hours of tuition credit. Competencies: L2 (Foundations) and F1 (Focus Area Planning).

Status as an Undergraduate School for New Learning student is a prerequisite for this class.

WRITING TO COMPETENCE
Undergraduate
In this four-credit course, students will learn writing skills that are widely applicable and will help them improve their writing to excel in SNL's writing-intensive curriculum. Students learn strategies for combining experience with analysis and reflection in writing, managing the writing process, working effectively with sources, and writing persuasively. Students also practice using writing as a tool for exploring as well as communicating their ideas. Particular emphasis will be given to the process of revision as they learn to write to demonstrate competence, develop their ideas, refine their writing, and give feedback to others. The course assumes a basic understanding of English grammar. It carries four tuition credit hours. Note that SNL does not accept transfer courses for the L4 competence; however, students who feel their writing is particularly strong and have examples of their writing should consider taking the L4 Proficiency Exam to satisfy the L4 Competence.

CRITICAL THINKING
Undergraduate
In this course, students are introduced to the basic concepts behind the skills of effective listening, dynamic thinking, and persuasive argumentation and have an opportunity to practice these skills within an active and experiential context. Through peer and small group activities, problem-based exercises, and self-evaluation skills, students will develop effective habits of thinking that can be employed in subsequent learning experiences.

COLLABORATIVE LEARNING
Undergraduate
Late in the 19th century, an English magazine ran a series of articles highlighting passages of prose and verse selected by leading authors of the time. This series provides a clear view of the opinions of this group of writers and provides an opportunity for us to make a comprehensive study of their perspective. Each student will research, edit, write and help create a class project that produces a monograph, a book, on this subject.

RESEARCH SEMINAR
Undergraduate
In this course students will learn to pose questions and use methods of formal inquiry to answer questions and solve problems as preparation for their Externship and Advanced Project. The instructor selects a topic around which to organize the course. The topic is broad enough to allow students to pursue research in areas of interest, while providing a common reference point for class discussion. Prerequisite: Students must complete Foundations of Adult Learning, College Writing and Critical Thinking prior to registration.

LL 250 and (LL 150 or LL 104 or LL 153 or LL 154) and (LL 155 or DCM 310 or LL 105) are a prerequisite for this class.
Externship is a required course in which SNL students design and execute an independent study project, guided by their academic committees, which engages them in learning under new conditions and in reflecting on the methods of independent learning used. Externship is offered in two modes: as a service learning course or as a course completed individually with your faculty mentor. To register for Externship as a service learning course, use Campus Connect.

This required course is a problem-solving experience which represents the culmination of an SNL student's learning in a specific area. Students, guided by their academic committee, design and execute an independent project which demonstrates the integration of theory and practice, and the ability to pursue and document avenues of inquiry with excellence. * Successful completion of Major Seminar is required before registration.

This required course is the final requirement completed by SNL students to earn their degree. Primary purposes are to 1) bring appropriate and reflective closure on the SNL experience; 2) enable students to celebrate and share their work with others who have accomplished goals and projects; and, 3) reflect upon the overall SNL experience, its developmental effect, its contribution to lifelong learning, and the transferable skills, attitudes, etc. that were developed as a result of the SNL experience.

Though usually associated with a sub-culture of palm readers, ouija boards, tarot cards, and crystal balls, predicting the future is a lot more than just a parlor trick or confidence game. In fact it is a serious imaginative and intellectual activity that has engaged the talents of many of the world's greatest writers, thinkers, and filmmakers. In this course students will review and analyze a selection of representative works of "futurology" and visionary imagination both old and new - from the apocalyptic prophesies of the Bible to the end-of-the-world scenarios typical of Hollywood sci-fi. While viewing or reading these works, students will also compare and evaluate various theories of world history as they seek to answer the question: Is it actually possible - by combining imagination, reason, and established methods and principles of scientific history - to predict the future course of civilization? Course materials will include the novel Brave New World by Aldous Huxley as well as films by Kubrick and Spielberg.

Capstone Seminar is designed to permit students to explore a topic as a group integrating various methods of inquiry. Specific assessment and evaluation criteria as well as learning activities will be articulated by the instructor for a particular section of the course.

FA 303 and LL 302 are a prerequisite for this class.
LLS 410
PERSONAL EFFECTIVENESS
Graduate
This domain examines the physical, cognitive and spiritual dimensions of personal development and performance. Central questions include: Who am I and what should I become? What habits of mind, attitude, and behavior might I improve upon? How can I construct personal meaning and inform future actions from my experiences? Embedded in these questions are the core concepts of learning and change, choice and consequence, identity, and various dimensions of self. Seminars in this domain might address topics such as awareness, agency, emotional intelligence, mindfulness, motivation, reflection, resilience, and self-discipline.

LLS 420
INTERPERSONAL EFFECTIVENESS
Graduate
This domain focuses on one’s ability to both communicate effectively and understand the meaning of others’ communications. To develop interpersonal effectiveness, one must overcome the barriers that result from differences in culture, race, ethnicity, gender, age, disability, and socio-economic status. Interpersonal effectiveness requires self-awareness, cultural competence, and skills in active listening, building trust, dialogue, collaboration, and conflict resolution. Central questions include: How can we improve interpersonal relationships in both personal and professional domains? How can we make decisions and solve problems together? What are the dynamics of and processes for collaboration? How do we understand and use the human/computer interface as tool to enhance communication? Seminars in this domain might address topics such as intercultural communication, valuing human similarities and differences, interpersonal communication, and 21st century human-computer interfaces and interactions.

LLS 430
ORGANIZATIONAL EFFECTIVENESS
Graduate
This domain explores the larger systemic contexts within which individuals function. As the world grows increasingly complex and interconnected, the ability to understand and navigate people-in-groups (organizational, societal, and global) becomes increasingly critical. In this domain, students broaden and deepen their capacity to make a difference at ever-widening levels of system. Central questions include: How do we engage as organizational resources, community participants, members of society and global citizens? How do we get along? How do we get work done? How do we both fit-in and remain unique? Seminars in this domain might address topics such as project management, leadership, organizational culture, career management, performance improvement, context scanning, global citizenship, trend analysis, cross-cultural agility, and future visioning.

LLS 440
VALUES EFFECTIVENESS
Graduate
This domain examines the ability of individuals to recognize and analyze their own values and those of others in order to find effective ways to translate those beliefs into effective action. When individuals expand awareness of their own choices and recognize the choices of others, they can live their own lives more effectively and successfully mediate conflicts with others. Central questions include: What should I do in this situation? Why did he/she/they decide to do things that way when it seems so clearly wrong to me? Seminars in this domain might address topics such as ethical reasoning, decision-making, values-clarification, priority setting and courage in action.

LLS 450
INQUIRY EFFECTIVENESS
Graduate
This domain focuses on developing methods and processes of inquiry that can be applied in any of the other domains. Adults must be able to engage in self-directed inquiry in order to understand and act effectively in their personal, professional, social, and civic lives. In this domain, students learn methods for systematically and strategically exploring questions, problems, ideas, and experiences. Central questions include: How do I formulate viable questions? What information do I need to understand a problem and what is the best way to obtain it? What are different ways to analyze an idea? How can I make sense of what I have experienced? Seminars in this domain might address strategies and methods to generate and engage primary research; to gather and manage information; to organize, analyze and present data; and to pursue targeted methods of inquiry.
LSE 201
DIVERSE VALUES AND VOICES IN EDUCATION
Undergraduate
This course explores the interaction of societies and their education efforts/designs within a multicultural context. Case studies are used to examine various cultural groups within their own environment, the interactions of people from different cultures, and various cultural phenomena. Educational experiences leading persons from a monocultural perspective to a more multicultural perspective are explored. Students are asked to consider culture as learned behavior/perspective. They will explore their own cultural experiences/development and those of others. The goal is a realization of culture as a respected framework within the context of education. This course satisfies the self, society, & modern world requirement.

LSE 210
MULTICULTURALISM AND EDUCATION
Undergraduate
This course will engage students in an examination of issues of diversity and multiculturalism within educational contexts in the United States. It includes an investigation of the historical and experiential perspectives of different cultural groups as well as an analysis of issues of access, inequality, power, and the distribution of resources. Students should gain an understanding of individual, group, inter-group, and intra-group perspectives, behaviors, and socialization practices regarding identity, relationships, values, ways of knowing, and world views. The central objective of the course is the development of a critical perspective regarding the meaning of multiculturalism and the significance of its role in educational settings.

LSE 254
THE POLITICS OF EDUCATION
Undergraduate
This course examines school and other educational sites as political institutions. It explores the ways in which the goals, the content taught, and the organization of educational institutions are shaped by relations of power and by political trends in society. It also explores schools and classrooms as political terrains in their own right in which issues of power are contested along lines of race, class, ethnicity, gender, language, sexual orientation, and other forms of difference. The course considers ways in which schools may reproduce or contest the existing social order. The dynamic interplay of political context and the internal politics of schools will be studied theoretically and through specific issues such as language and immigration policy, affirmative action, educational vouchers, textbook selection, and educational reform movements. This course satisfies the self, society, & modern world requirement.

LSE 258
EDUCATION AND SOCIAL JUSTICE
Undergraduate
A variable topics course designed to examine education within a philosophical framework which focuses upon the relatively great potential of education as an agent for social justice and change. Through the examination of current issues and concerns, students are expected to engage in critical analysis, reflect upon theoretical frameworks, examine public policies and values, and consider ways in which schools and educators can promote the development of social justice. Each time the course is offered it will focus on one of the following topics: gender; ethnicity; language and culture; or social class and economic opportunity. For each topic, attention will be given to the issues of institutional responses to differences, equity, access and outcomes. This course satisfies the self, society, & modern world requirement.

LSE 300
EDUCATION AND LITERATURE
Undergraduate
This course is designed to engage students in critical reflection, commentary, and evaluation of literature, informed by theoretical as well as aesthetic considerations. Literary works will be interpreted and analyzed regarding interactions between form and content, as well as effects of authors' treatment of material upon the construction of meaning. Primary goals are the enhancement of understanding, appreciation and enjoyment of literature. Social and cultural dimensions of literature will also be addressed within the context of examining educational issues such as: what it means to become educated in culturally diverse contexts; construction of identity; the development of values and world views; the individual in relationship to community and/or society; and relationships among artistic works, human experiences and education. This course satisfies the arts and literature requirement.

LSE 310
CONTEMPORARY ISSUES IN EDUCATION
Undergraduate
This is a variable topics course which examines the way current, significant issues affect, and are affected by education. Each quarter the course will focus on a contemporary problem or question with broad social, political, or cultural implications and will examine it from a multicultural perspective. Examples of topics are: homelessness, immigration and public education, privatization and corporate involvement in schools, youth culture and education, or the use and misuse of measures of achievement and ability. The course will explore the topic from multiple perspectives and draw on multiple disciplines. This course satisfies the self, society, & modern world requirement.
LSE 354
CULTURE, CONTEXT AND LEARNING
Undergraduate
This course is based on the premise that learning is situated in the context of dynamic interpersonal relationships through which critical thinking may be fostered and ideas challenged. Students will examine the intellectual, emotional, and intrapsychic processes by which knowledge is constructed and shaped by cultural meanings which validate particular forms of thought and structures of knowledge. Various theories of learning will be discussed as they inform educational practices and their underlying assumptions will be examined. In addition, this course will engage the cultural nature of all human activity, cognitive processes, and bodies of knowledge. Attention will be given to their historical role of race and class as they determine what bodies of knowledge and processes of learning are validated within the dominant culture. Students will engage in self-reflective experiences, theoretical analyses, and community based activities to examine the various meanings constructed as people learn within social and cultural contexts. This course satisfies the self, society, & modern world requirement.

LSE 362
IDENTITY AND EDUCATION
Undergraduate
This variable topics course will focus upon how individuals and groups take on identities and how education and schooling affect the process. It will use multiple perspectives and a variety of contexts (such as family, community, nation, and international communities) to analyze how notions of self are developed, forged, and named and how these notions change over time. It will also examine how identities are constructed in relationship to issues such as ethnicity, class, gender, sexual orientation, language, religion, culture, age, and ability and their interconnections in the lived experience of individuals and groups. This course satisfies the self, society, & modern world requirement.

LSE 380
PHILOSOPHICAL ISSUES IN EDUCATION
Undergraduate
This course is a critical inquiry to major philosophical writings in education. This course satisfies the philosophical inquiry requirement. PREREQUISITE(S): PHL 100; SCU 207 highly recommended.

LSE 404
CHILD REARING ACROSS CULTURES
Graduate
Study of child-rearing practices, the effects of culture on cognitive development and the implications for teaching strategies for the child whose first language is not English.

LSE 420
COMPARATIVE EDUCATION
Graduate
This course is devoted to the study of historical and contemporary issues related to comparative education—with an emphasis upon early childhood, elementary, and secondary levels. Through a comparative study of educational public policy, we will examine assumptions about the aims and purposes of education and schooling in terms of economic, political and social dimensions. Major topics and issues addressed will include the following: examining what it means to be educated; examining similarities and differences in the ways developed and developing countries educate children and youth; the organization and structure of educational institutions; disconcerning implicit and explicit values in different approaches to teaching and learning; relationships between schools and communities; education and the issues of change and social justice.

LSE 430
EDUCATION AND SOCIAL JUSTICE
Graduate
A variable-topics course designed to examine education within a philosophical framework which focuses upon the relatively great potential of education as an agent for social justice and change. Through the examination of current issues and concerns, students are expected to engage in critical analysis, reflect upon theoretical frameworks, examine public policies and values, and consider ways in which schools and educators can promote the development of social justice. Each time the course is offered it will focus on one of the following topics: gender; ethnicity; language and culture; or social class and economic opportunity. For each topic, attention will be given to the issues of institutional responses to differences, equity, access and outcomes. (CROSS-LISTED with LSE 258)
LSE 438
GENDER AND EDUCATION
Graduate
A variable-topics course designed to actively engage students in examination of the literature and issues related to gender and education. Curriculum, teaching and learning, achievement, and the organization structure and culture of schools are among the key concerns. Gender will be addressed as it intersects with other forms of inequality and difference: race, ethnicity, class, etc. Each time the course is offered it will focus on a particular topic, but for each topic attention will be given to issues about institutional responses to inequality and differences.

LSE 450
DYNAMICS OF AFIRICAN-AMERICAN CULTURE
Graduate
This course is intended for those interested in cultural and human relations in order that they may examine the contributions of the black person to American Culture; gain a functional understanding of the social, economic and political development of the black person on America itself. (Cross-listed with SOC 490).

LSE 460
INTERNATIONAL STUDIES IN EDUCATION
Graduate
This variable-topics course will focus upon educational issues in a particular country or region outside of the United States. Through comparative study, a number of issues will be addressed: aims and purposes of education and schooling; economic, political, social and cultural contexts of educational policies; similarities and differences in organization and structure of educational systems; relationships between home, community and educational institutions; education, development and issues of social change.

LSE 461
INTERNATIONAL STUDIES IN TEACHING AND LEARNING
Graduate
This variable-topics course will focus upon aspects of curriculum, teaching and learning in a particular country or region outside of the United States. It requires work in the chosen country or region under the guidance of teachers familiar with its educational practices. The course will examine how curriculum is organized, developed and implemented in classrooms and schools with concentration on particular subjects or levels. From a comparative perspective, particular attention will be paid to the values and assumptions underlying curriculum and teaching.

LSE 462
INTERNATIONAL FIELD EXPERIENCES IN EDUCATION
Graduate
Through clinical experience outside of the United States, students will observe, participate in and reflect upon teaching and learning in cultural settings that differ from their own. This field experience abroad provides an opportunity to develop an understanding of what it means to be educated in the context of another society or culture. The intent of this experience is to add more global perspective to one's own professional knowledge and practice. Variable credit, ranging from 2-8 quarter hours can be earned, dependent upon the nature and duration of this field experience.

LSI 96
FIELD EXPERIENCE FOR DUAL CERTIFICATION
Graduate
(non-credit) Required of all Dual Certification students. Observations and participatory experience with children and youth in a school or agency. The observation hours are a prerequisite for student teaching and related professional courses. A total of 200 hours are required.

LSI 300
INTRO TO SPECIAL EDUCATION I - EXCEPTIONALITY & LEARNING
Undergraduate
This course explores exceptionality, its theories, research, and foundations as well as processes of learning as they are rooted in the domain of special education. Focus will be on typical and atypical growth from pregnancy through age 21 including cognitive, physical, emotional, linguistic, social, and sensory areas and the impact of disability on learning. An introduction to the field of special education and an overview of the categories of disability will also be provided. The course addresses the psychology of the exceptional child including without exception the learning disabled.
LSI 301
INTRO TO SPECIAL EDUCATION II - FOUNDATIONS AND CHARACTERISTICS
Undergraduate
This course introduces the theoretical, historical, and legal foundations of special education as well as models for assessment, placement, and instruction. The course also focuses on the psychology, characteristics and learning needs of the various types of behavioral, emotional, physical and cognitive and learning disabilities. The course addresses the identification of the exceptional child including without limitation the learning disabled. A service learning component is included in the course.

LSI 302
INSTRUCTION AND DIFFERENTIATION IN SPECIAL EDUCATION: CONTENT AREA
Undergraduate
This course provides an introduction to teaching exceptional students with mild, moderate and severe disabilities and includes state learning standards, curriculum, assessment, planning, instruction in the content areas, accommodations, grouping, and technology for diverse students with disabilities in a variety of settings. Candidates learn to use research and assessment data to guide planning and differentiate instruction in the content areas. Applied activities will focus on teaching science and social studies to student with disabilities K-12. The course addresses the methods of instruction for the exceptional child including without limitation the learning disabled.

LSI 303
CLASSROOM AND BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION
Undergraduate
This course covers theoretical approaches to and associated strategies for classroom and behavior management, the development of supportive learning environments to maximize motivation, attention, and engagement for exceptional learners in a variety of educational settings. Candidates learn to use assessment data to understand behavior and guide selection and application of principles of social-emotional learning and classroom/behavior in culturally and linguistically diverse classrooms. Attention will be given to the Illinois Social/Emotional Learning Standards. Candidates are introduced to functional behavioral assessment (FBA) and behavior intervention plans (BIP), as well as how to monitor growth and development in targeted areas. Strategies to increase the individual's self awareness, self-management, self control, self reliance, and self esteem and decrease self-injurious behaviors are considered.

LSI 310
TEACHING MATHEMATICS TO EXCEPTIONAL STUDENTS I: FOUNDATIONS
Undergraduate
This course provides the theoretical, content, and pedagogical foundations for teaching mathematics across all grade levels through problem solving to diverse exceptional learners. Candidates review and deepen their own knowledge of basic math content with emphasis on number, number systems, operations, fractions, decimals, percent and measurement. They learn how to develop exceptional students' abilities to think and reason as well as build computation and problem-solving skills. Attention is given to Illinois Common Core standards and how to support exceptional students when introducing new concepts and how to correct misconceptions. The course covers informal assessment/progress monitoring, using assessment data to planning instruction and match instruction to exceptional student needs, and organizing instruction for exceptional learners in whole-class, small-group, and individual settings.

LSI 311
TEACHING MATHEMATICS LAB I
Undergraduate
In this Lab, taken with LSI 310, candidates provide math instruction to diverse, at-risk and exceptional students in the lower grades, and use informal assessments and progress monitoring to guide instructional practices and differentiation for exceptional students. Supervision, coaching, and mentoring in implementing effective instructional strategies is provided by program faculty. The Lab introduces the concept of documenting impact on student learning. This experience is offered in an on-campus facility that serves diverse at-risk learners and students with mild-moderate disabilities.

LSI 312
TEACHING MATHEMATICS TO EXCEPTIONAL STUDENTS II: INSTRUCTION
Undergraduate
In this course candidates continue to learn/review mathematics content along with pedagogical content skills for exceptional learners across all grade levels with an emphasis on algebra and geometry. The course emphasizes identifying individual exceptional needs, strategies, curriculum, and connecting classroom assessment to instruction for exceptional, diverse, and at-risk math learners. Attention is given to Illinois Common Core standards. Candidates practice connecting math knowledge to other disciplines and incorporating reading and writing into math instruction. The course provides a comprehensive model for effective instruction for exceptional learners that includes informal assessment to determine student needs, flexible grouping, skilled content delivery, progress-monitoring, and technology to support learning.
LSI 313
TEACHING MATHEMATICS LAB II
Undergraduate
In this Lab, taken with LSI 312, candidates provide math instruction to diverse, at-risk and exceptional students in the lower grades, and use informal assessments and progress monitoring to guide instructional practices and differentiation for exceptional students. Supervision, coaching, and mentoring in implementing effective instructional strategies is provided by program faculty. The Lab introduces the concept of documenting impact on student learning. This experience is offered in an on-campus facility that serves diverse at-risk learners and students with mild-moderate disabilities.

LSI 314
TEACHING LITERACY TO EXCEPTIONAL STUDENTS I: FOUNDATIONS
Undergraduate
This course covers the theoretical and historical foundations of literacy instruction for diverse, at-risk, and exceptional learners, focusing on the nature of oral language development as it relates to literacy, current literacy theory and practices, and research-based instructional strategies to develop literacy skills in exceptional, diverse, and at-risk learners. Emphasis will be placed on understanding the literacy learning process, Common Core standards, analyzing and applying research-based instructional practices, and using assessment to guide instruction and inform instructional decisions to meet the unique needs of emergent and developing literacy learners as well as at-risk students and those with mild-moderate disabilities. The course also examines informal assessment to determine monitor exceptional student progress in reading, spelling, and writing.

LSI 315
TEACHING LITERACY LAB I
Undergraduate
In this Lab, taken with LSI 314, candidates provide reading and writing instruction to exceptional students in the lower grades and use informal assessments and progress monitoring to guide instructional practices and differentiation. Supervision, coaching, and mentoring in implementing effective instructional strategies for exceptional students are provided by program faculty. The course develops the concept of documenting impact on student learning. This experience is offered in an on-campus facility that serves at-risk literacy learners and students with mild-moderate disabilities.

LSI 316
TEACHING LITERACY TO EXCEPTIONAL STUDENTS II: INSTRUCTION
Undergraduate
This course focuses on literacy development for diverse, at-risk, and exceptional, learners in third grade and higher, including those with mild-moderate disabilities. Differences in reading abilities will be examined in light of providing appropriate, effective, and meaningful literacy instruction. Philosophical approaches, theoretical models, assessment measures, and practical implications for working with exceptional readers will be analyzed. Attention will be given to the literacy learning process, Common Core standards, the interaction of reading and learning in the content areas, and the connections between reading and writing in the upper grades. The course continues the examination of informal assessment to determine monitor exceptional student progress in reading, spelling, and writing. Uses of technology in literacy learning will also be examined.

LSI 317
TEACHING LITERACY LAB II
Undergraduate
In this Lab, taken with LSI 316, candidates provide reading and writing instruction to exceptional students in the upper grades and use informal assessments and progress monitoring to guide instructional practices and differentiation. Supervision, coaching, and mentoring in implementing effective instructional strategies for exceptional students are provided by program faculty. The course develops the concept of documenting impact on student learning. This experience is offered in an on-campus facility that serves at-risk literacy learners and students with mild-moderate disabilities.

LSI 320
COLLABORATION AND SPECIAL EDUCATION
Undergraduate
This course covers theoretical models as well as ethical and practical strategies for collaborating with professionals and paraprofessionals in schools and communities as well as students with disabilities and their families. Candidates consider models of co-teaching and of Response-to-Intervention and learn strategies for effective collaboration with general education teachers and training of paraprofessionals. Candidates also consider the dynamics of families and of schools and how to plan for and initiate family involvement to maximize the learning experience of the student with disabilities. Attention is given to interpersonal communication strategies and how to use communication strategies to foster collaboration.
LSI 321
FORMAL ASSESSMENT IN SPECIAL EDUCATION
Undergraduate
This course considers the theoretical, legal, ethical, and technical aspects of formal assessment in special education as well as models of nondiscriminatory assessment in the context of the requirements of special education law. Candidates gain knowledge of a variety of formal assessments including their purposes, characteristics, and limitations. They learn how to select, adapt, administer, score, interpret, and communicate the results of class-wide and individual assessments. Attention is given to collaborative assessment and educational planning based on assessment results, particularly the development IEP goals, objectives, and recommendation for instruction.

LSI 322
TEACHING STUDENTS WITH SIGNIFICANT DISABILITIES I: ACADEMIC & LIFE SKILLS
Undergraduate
This course provides the theoretical and practical basis for teaching academic and life skills to students with more significant disabilities. Candidates will learn the principle of partial participation and how to align curriculum with state learning goals as well as strategies for teaching academic skills to the greatest possible extent while keeping goals high but attainable so that learners can succeed. Candidates will also learn how to balance teaching of academics with independent living skills, participation in community activities, personal safety, health, and relationship skills, self management, and decision making. Candidates learn how to manage physical and health issues and employ technology to support students with physical disabilities. Training and support of paraprofessionals related to physical disabilities is also covered.

LSI 323
TEACHING STUDENTS WITH SIGNIFICANT DISABILITIES II: COMMUNICATION & SOCIAL SKILLS
Undergraduate
This course offers strategies for assessing and teaching oral language and communication skills to students with more significant disabilities, including ways to increase communication and generalize across settings. Candidates learn how to employ technology to aid communication, including selection and use of augmentive and alternative communication (AAC) devices. Equal attention is given to the theoretical and developmental aspects of behavior and social skills as well as curriculum and strategies for teaching social skills. Functional behavioral analysis (FBA) and behavior intervention plans (BIP) as well as crisis intervention are explored in-depth. Training and support of paraprofessionals related to communication and social skills are also covered.

LSI 324
PRACTICUM I: INCLUSION SETTING
Undergraduate
One school morning per week for 10 weeks of supervised practicum. In this course, candidates are introduced to teaching in a general education inclusion classroom. Candidates will interact with students and will plan and conduct small-group and large-group instruction in collaboration with the cooperating teacher. Taken in conjunction with LSI 325 Topics in Special Education. Faculty advisors and the Director of Student Teaching, working in conjunction with individual students, will determine appropriate practicum placements.

LSI 325
TOPICS IN SPECIAL EDUCATION
Undergraduate
This course will cover professional and ethical standards in special education and other variable topics such as inclusion, technology, managing a resource room, bullying, transition, Common Core Standards, and tiers of instruction in Response to Intervention. In addition, the course functions as a seminar for LSI 324 Practicum Experience I and provides support as candidates participate in practicum experiences. The course continues to develop skills for documenting impact on student learning, improving practice, developing a personal philosophy of special education, and planning for professional growth.

LSI 326
TRANSITIONAL AND VOCATIONAL PLANNING
Undergraduate
This course examines the theoretical and practical aspects of educational transitions for students with disabilities. Processes of human change will be considered as well as the importance of networking and collaboration among families, educators, other service providers to facilitate transitions. The course focuses on outcomes-based special education planning for early transitions, transitions between educational levels, and transition to work or higher education. The course includes prioritizing social, vocational and community living goals, IEP transition requirements, and writing transition plans. Attention will be given to vocational assessment, planning, and curricula.
LSI 327
PRACTICUM II: SELF-CONTAINED SETTING
Undergraduate
One school morning per week for 10 weeks of supervised practicum. In this course, candidates are introduced to teaching in a self-contained, special education classroom. Candidates will interact with students and will plan and conduct small-group and large-group instruction in collaboration with the cooperating teacher. Taken in conjunction with LSI 328 Contemporary Issues in Special Education. Faculty advisors and the Director of Student Teaching, working in conjunction with individual students, will determine appropriate practicum placements.

LSI 328
CONTEMPORARY ISSUES IN SPECIAL EDUCATION
Undergraduate
This course will review professional and ethical standards in special education and address timely or controversial issues in special education instruction such as new developments in technology, updates in special education legislation, assessment and identification of learning disabilities, high-stakes testing in No Child Left Behind, progress monitoring in RTI, and new developments in alternative assessments. In additional, this course functions as a seminar for LSI 327 Practicum Experience II and provides support as candidates continue their practicum experience. The course continues to develop skills for documenting impact on student learning, improving practice, developing a personal philosophy of special education, and planning for professional growth.

LSI 329
TEACHING LITERACY IN THE CONTENT AREAS
Undergraduate
This course addresses the integration of reading, writing, and oral language into the content areas (math, history/social studies, science, and technical subjects). Candidates learn to assess the reading needs of students in content area courses and to design, select, modify, and evaluate a wide range of materials for the content areas. The course goes beyond teaching a set of isolated generic reading comprehension skills and provides strategies that can be applied across content areas to prepare diverse, at-risk, and exceptional students to read, write, talk, and think critically about complex texts, and develop positive literacy identities. Attention is given to incorporating Common Core standards and IEP goals into instruction.

LSI 346
STRATEGIES FOR MAINSTREAMING AND INCLUSION
Undergraduate
Focus will be on the practical problems related to the integration of exceptional children and youth into regular classrooms. Identification, characteristics, programs, curricular variations, and techniques for securing maximum development of students with a variety of special needs with emphasis on learning disabilities. The course also covers historical background, as well as current legal and service provision issues, including mainstreaming and inclusion. PREREQUISITE(S): Junior standing.

Advanced Teacher Candidate Standing is a prerequisite for this class.

LSI 383
STUDENT TEACHING SEMINAR
Undergraduate
This seminar course provides support for candidates as they begin their student teaching experience. In addition and in conjunction with student teaching, candidates will complete a project designed to document a candidate?s ability to impact student learning based on three to five days of teaching (Ed-TPA).

LSI 384
CAPSTONE IN SPECIAL EDUCATION
Undergraduate
Designed primarily as a culminating and integrating experience, this course uses a seminar approach to support candidates during student teaching and to help them clarify and reflect upon the relationship of concepts of their major with those in the liberal studies program. Candidates will complete a portfolio that contains evidence of the candidate?s learning during the program and professional development plan. Written portfolio reflections will make connections between their own theoretical and professional orientations, their liberal studies education, and the Urban Professional Multicultural Model.
LSI 385
STUDENT TEACHING IN SPECIAL EDUCATION: ELEMENTARY
Undergraduate
Five school days per week in supervised teaching experience for 8 weeks. Candidates will also attend a student teaching seminar (LSI 383). Faculty advisors and the Director of Student Teaching, working in conjunction with individual students, will determine appropriate student teaching placements.

LSI 386
STUDENT TEACHING IN SPECIAL EDUCATION: SECONDARY
Undergraduate
Five school days per week in supervised teaching experience for 8 weeks. Candidates will also attend a student teaching capstone seminar (LSI 384). Faculty advisors and the Director of Student Teaching, working in conjunction with individual students, will determine appropriate student teaching placements.

LSI 430
INTRODUCTION TO ASSESSMENT OF READING AND LEARNING DISABILITIES
Graduate
This course introduces the student to concepts and procedures in assessment of literacy and learning disabilities. Emphasis will be given equally to a theoretical framework for testing and to practical applications with actual tests. Topics to be covered include standardized testing (test construction, reliability and validity, procedures for administering standardized tests, scoring, test interpretation, non-discriminatory testing, and cultural, linguistics, and technical limitations of standardized tests) criterion referenced assessment (informal, curriculum-based, authentic assessment, portfolio assessment) and, other modes of assessment (interviewing and case histories). The course will examine assessment of various cognitive abilities, oral language, and achievement in reading, spelling, and writing. Candidates will also be introduced to analysis and interpretation of tests, profiling and report writing.

Status as an Education student in the LSI program is a prerequisite for this class.

LSI 431
FOUNDATIONS OF LITERACY: ASSESSMENT AND INSTRUCTION I
Graduate
This course focuses on the nature of the reading process, current literacy theory and practices, and research-based instructional strategies to develop literacy skills in emergent and developing readers and students with reading/learning disabilities. Emphasis will be placed on understanding the reading process, analyzing and applying research-based instructional practices, administering, analyzing, and interpreting formal and informal reading assessments, and making informed instructional decisions to meet the unique needs of individual readers. Differences in reading abilities will be examined in light of providing appropriate, effective, and meaningful literacy instruction.

Status as an Education student in the LSI program is a prerequisite for this class.

LSI 432
DEVELOPING LITERACY: ASSESSMENT AND INSTRUCTION II
Graduate
LSI 432 focuses on the reading, writing and literacy development of the middle and high school student (Grades 5-12). Emphasis will be placed on understanding literacy, the reading process, the interaction of reading and learning, and the connections of reading and writing. All of the above will be examined taking into consideration the physical, emotional, social, and cognitive development of the middle level student, in conjunction with the diverse demands placed upon the student by the schools. In order to comprehend these complex relationships, philosophical approaches, theoretical models, assessment measures and practical implications will be analyzed. Finally, the role of technology in literacy will be examined. (Prerequisite: LSI 431).

LSI 431 and status as an Advanced Masters Education student are a prerequisite for this class.

LSI 433
DIAGNOSIS AND INTERVENTION FOR READING AND LEARNING DISABILITIES
Graduate
This course is designed to give the student an understanding of the characteristics of children with reading and learning disabilities, and of the process of diagnostic evaluation, test interpretation and report writing, and strategies for intervention. It is also designed to give some practical experience with selected tests used in diagnosis. Emphasis will be given to the use of case study material to help the student learn to analyze and interpret assessment data, write diagnostic results, and develop intervention strategies. (Prerequisite: LSI 430).

LSI 430 and status as an Advanced Masters Education student are a prerequisite for this class.
LSI 434
LITERATURE FOR SUCCESSFUL AND STRUGGLING READERS
Graduate
This course will familiarize students with different genres of quality children's literature and how to select and use books that are appropriate and meaningful for children and youth with and without reading disabilities. Students will discuss, analyze, and critique literary elements (author's style of writing, character development, setting, mood, and theme), determine estimated readability levels, and engage in reader response activities that promote critical discussion and a personal interaction with text. Students will become familiar with authors, illustrators, and books that represent diverse cultures, races, ethnic and ability groups, and develop meaningful literature extensions that support various curricular areas, develop literacy skills, and promote an enjoyment of reading.

Status as an Education student in the LSI program is a prerequisite for this class.

LSI 435
CURRICULUM, COLLABORATION, ADMINISTRATION AND SUPERVISION OF READING PROGRAMS
Graduate
This course will prepare the reading specialist to assume a leadership role within a school or district, to help develop and supervise reading programs, and to be instrumental in integrating good reading practices throughout the curriculum and across grade levels. Students will learn about the leadership role of the reading specialist as they explore the ways in which a reading specialist can be a teacher leader, curriculum developer, and liaison to parents and the community beyond the school.

Status as an Education student in the LSI program is a prerequisite for this class.

LSI 437
LEADERSHIP AND PROFESSIONAL DEVELOPMENT IN READING & LEARNING
Graduate
In this course, an emphasis will be placed on developing the necessary skills to provide leadership, professional development and support to school personnel in the area of literacy, particularly for struggling readers and those with learning disabilities. Students will engage in a variety of activities to promote the development of these skills which include but are not limited to planning and executing a professional development event, evaluating published reading programs to determine their alignment with research-based instructional practices, administering and interpreting findings from standardized measures of academic achievement, instructing others how to interpret findings from standardized measures of achievement and mentoring a colleague in the area of literacy instruction. (Prerequisites: LSI 431, and LSI 432).

LSI 438
READING COMPREHENSION FOR STRUGGLING READERS: LITERATURE-BASED AND CONTENT AREA INSTRUCTION
Graduate
This course is designed to contextualize comprehension strategy instruction in the framework of high-quality children's literature and content-area expository texts. Students will learn think-aloud strategies to use across genres, as well as explicit, research-based instructional practices in comprehension for struggling readers. Opportunities for students to model integrated strategy use with peers and participate in a service-learning project to engage struggling readers in meaningful interactions with texts will be provided. Students will also learn the characteristics of engaging, quality literature and well-structured, accessible expository texts, and apply this learning to support classroom teachers in selecting books to engage K-12 students of a variety of backgrounds and skill levels. The relationship between comprehension and writing instruction will also be explored.

LSI 440
SURVEY OF EXCEPTIONAL LEARNERS: PSYCHOLOGY AND EDUCATION
Graduate
A survey of exceptional learners and characteristics of students with both high- and low-incidence disabilities, with consideration of placements appropriate for children with such disabilities. Emphasis on historical, theoretical, practical and legal implications and issues. The course also addresses the importance of developing and maintaining collaborative relationships with parents and professionals in order to maximize the academic, social, and emotional benefits of all learners.

LSI 442
SURVEY AND CHARACTERISTICS OF THE EXCEPTIONAL LEARNER
Graduate
A survey of exceptional learners and characteristics of students with both high and low incidence disabilities, with consideration of alternative placements appropriate for children with various disabilities including the learning disabled. Emphasis on historical, theoretical, practical and legal implications and issues, as well as on the roles of special education professionals, including consultation and collaboration, in inclusion of exceptional learners.
LSI 443
PSYCHOLOGICAL TESTS AND METHODS IN DIAGNOSIS
Graduate
Principles of measurement and test construction including an evaluation of standardized test instruments. Principles of broad-based assessment involving case history, criterion-referenced tests and informal assessment. Emphasis on understanding the strengths and limitations of a wide variety of assessment instruments.

LSI 446
PSYCHOLOGY AND EDUCATION OF THE EXCEPTIONAL CHILD
Graduate
Identification, characteristics, programs, schools, curricular variations, techniques for securing maximal development. Includes historical background, current legal and service provision issues including mainstreaming and inclusion.

Advanced Teacher Candidate Standing is a prerequisite for this class.

LSI 456
ADVANCED ISSUES AND STRATEGIES IN SPECIAL EDUCATION
Graduate
This course will examine current trends, issues, and strategies in the field of special education. This is an advanced course that will consider topics related to inclusion, overrepresentation, and transition services such as modifying curriculum, positive behavioral supports, collaboration and co-teaching, teacher scheduling, student scheduling, behavioral and academic data collection within general education classrooms, communication with families, developing and implementing IEP's, and managing paraprofessionals. Prerequisite: LSI 442 or LSI 446 or equivalent.

LSI 457
SEMINAR AND RESEARCH IN SPECIAL EDUCATION
Graduate
This course examines current research in special education including topics such as the social construction of special education; the assumptions of deficit vs. difference models of educational services; the overrepresentation of students of color and students from lower socioeconomic status backgrounds in special education; placement settings, inclusion, and service delivery models; and issues related to the short and long-term effects of special education on the lives of students with disabilities. Students select and pursue a topic of research interest and complete a professional portfolio.

LSI 458
TEACHING STUDENTS WITH HIGH INCIDENCE DISABILITIES I
Graduate
Introduction to the theoretical and practical approaches to instruction for students with high incidence disabilities across ages and levels of severity. Emphasis on developing an understanding of supportive learning environments, classroom and behavior management; developing collaborative practices with multiple service providers and families to meet the needs of diverse learners with high incidence disabilities. Strategies and materials for improving the social, emotional, and academic adjustment and functioning of students with high incidence disabilities are examined. Includes teaching social and emotional curricula; developing and implementing functional behavioral assessment; and monitoring growth and development in targeted areas. Strategies to increase the individual's self awareness, self-management, self control, self reliance, and self esteem are considered.

(LSI 440 and Learning Behavior Specialist 1) or (LSI 442 and Dual Certification) is a prerequisite for this class.

LSI 461
COLLABORATIVE PRACTICE AND SPECIAL EDUCATION
Graduate
The purpose of this course is to develop pre-service teachers' understanding of the importance of developing and maintaining collaborative relationships with parents and professionals in educational environments. Students will develop an understanding of professional and legal responsibilities, networks, organizations, and services available for students with disabilities and their families. Students will also examine various educational models for working collaboratively with teachers, parents, and support personnel in classrooms and schools. Students will articulate a personal philosophy and strategies for working collaboratively with families, teachers, paraprofessionals, and other professionals within educational environments.
LSI 462
INSTRUCTIONAL STRATEGIES FOR STUDENTS WITH DISABILITIES I: ACCESSING GENERAL EDUCATION CURRICULUM
Graduate
This course focuses general theories of learning, instructional modifications, accommodations, grouping strategies, technology, and assessments used for helping to provide students with disabilities access to general education curricula. Course topics will focus on the effectiveness of these strategies for working with students with mild, moderate, and severe disabilities. Students will begin to articulate a personal philosophy and approaches designed to enhance the educational experiences of children and youth with disabilities and they will begin to examine the relationship between schooling and long term outcomes.

LSI 465
INDUCTION INTO THE FIELD OF EDUCATION
Graduate
Designed primarily as a culminating course experience at the graduate level, this course utilizes a seminar approach to help students clarify their understanding of issues related to special education, general education, and teaching in urban schools. All students will prepare a portfolio based on their experiences within the graduate program. These portfolios will contain evidence of each student's development during the program and students will make connections between their own theoretical, philosophical, and professional orientations and the Urban Professional Multicultural Model.

LSI 467
TEACHING STUDENTS WITH HIGH INCIDENCE DISABILITIES II
Graduate
Continued study of the theoretical and practical approaches to instruction for students with high incidence disabilities across ages and levels of severity. Translation of diagnostic information into teaching strategies and development of an instructional plan (IEP) including transition needs. Emphasis on understanding theoretical models of literacy, literacy development, instructional strategies, and adjusting literacy instruction to meet the needs of diverse learners. Principles of diagnostic teaching will be discussed. Specific teaching techniques and materials will be reviewed, including appropriate uses of technology.

(LSI 440 and Learning Behavior Specialist 1) or (LSI 442 and Dual Certification) is a prerequisite for this class.

LSI 468
TEACHING STUDENTS WITH LOW INCIDENCE DISABILITIES I
Graduate
Introduction to the theoretical and practical approaches to instruction of children with low incidence disabilities including functional assessment and instructional strategies, curricular options and adaptations, as well as levels of participation and accommodation in the general curriculum. Emphasis will be placed on understanding theoretical models of language development and communication, instructional strategies for language and communication, and adjusting language instruction to meet the needs of diverse learners. Candidates will explore individualized planning (IEPs), transition needs, integration of related services into the instructional program, and strategies and materials for improving the social, emotional, and academic functioning of diverse students with low-incidence disabilities.

(LSI 440 and Learning Behavior Specialist 1) or (LSI 442 and Dual Certification) is a prerequisite for this class.

LSI 469
TEACHING STUDENTS WITH LOW INCIDENCE DISABILITIES II
Graduate
Continued study of the theoretical and practical approaches to instruction for diverse students with low incidence disabilities. Focuses on addressing the intellectual, educational, physical, motor, health, social, and transitional needs of diverse students with more severe low incidence disabilities. Examination of etiological factors, growth, development, and long-term outcomes. Developing collaborative efforts with family and multiple care and service providers is addressed. Provides strategies to facilitate maintenance and generalization of both academic and non-academic skills across learning environments. Includes experiences with assistive technology, community-based instruction, and designing and implementing a functional curriculum when needed.

(LSI 440 and Learning Behavior Specialist 1) or (LSI 442 and Dual Certification) is a prerequisite for this class.

LSI 475
METHODS OF TEACHING EARLY CHILDHOOD STUDENTS WITH LOW INCIDENCE DISABILITIES
Graduate
This course will focus on examining the developmental and learning characteristics of young children with low incidence disabilities. In specific, this course will focus on educating early childhood students with Autism Spectrum Disorders and those with Intellectual Disabilities. One of the primary goals of this course is to understand the learning needs of these children, and examine and evaluate various educational and therapeutic methods of working with them. A major part of this course will be devoted to characteristics associated with and interventions for children with Autism Spectrum Disorders.
LSI 476
SPECIAL EDUCATION CURRICULUM AND STRATEGIES FOR EARLY CHILDHOOD: HIGH INCIDENCE DISABILITIES
Graduate
Study of the theoretical and practical approaches to instruction for young children with high incidence disabilities. Emphasis placed on the development of supportive learning environments, using special curricular and behavioral management strategies for all early childhood settings; application of collaborative practices with multiple service providers and families to meet the needs of diverse learners with high incidence disabilities. Strategies and materials for improving the social, emotional, and academic adjustment and functioning of young children with high incidence disabilities are examined. Includes teaching social and emotional curricula; implementing functional behavioral assessment; and monitoring growth and development in targeted areas. Strategies to increase the young child are self-awareness, self-management, self control, self reliance, and self esteem are considered. Application of diagnostic information into teaching strategies and implementation of an instructional plan (IEP) is a central tenet of the course. (Pre-requisite: SCG 404 and T&L 427) 25 clock hours for Level II Experience.

LSI 542
TESTING/DIAGNOSIS OF READING & LEARNING DISABILITIES:PRACTICUM I
Graduate
Students participate in a clinical setting and evaluate children and adolescents with suspected learning problems. Under close instructor supervision, students will administer and interpret tests, deal with the ethics of testing, interpret and communicate results to parents, schools and other social agencies. (PREREQUISITES: LSI 430, LSI 431, LSI 432, LSI 433, LSI 434, LSI 435, and LSI 436).

LSI 430, LSI 431, LSI 432, LSI 433, LSI 434, LSI 435, LSI 436 and status as an Advanced Masters Education student are a prerequisite for this class.

LSI 543
DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES:PRACTICUM II
Graduate
Clinical observation and practical application of the diagnostic-remedial process by working in a supervised clinical setting with children and adolescents who have specific learning disabilities. (PREREQUISITES: LSI 430, LSI 431, LSI 432, LSI 433, LSI 434, LSI 435, and LSI 436).

LSI 430, LSI 431, LSI 432, LSI 433, LSI 434, LSI 435, LSI 436 and status as an Advanced Masters Education student are a prerequisite for this class.

LSI 544
DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES:PRACTICUM III
Graduate
Clinical observation and practical application of the diagnostic-remedial process by working in a supervised clinical setting with children and adolescents who have specific reading disabilities. (PREREQUISITES: LSI 430, LSI 431, LSI 432, LSI 433, LSI 434, LSI 435, and LSI 436).

LSI 430, LSI 431, LSI 432, LSI 433, LSI 434, LSI 435, LSI 436 and status as an Advanced Masters Education student are a prerequisite for this class.

LSI 548
INDEPENDENT STUDY IN READING AND OTHER LEARNING DISABILITIES
Graduate
PREREQUISITE(S): Permission of instructor, department chair and associate dean.

LSI 549
THESIS RESEARCH IN SPECIALIZED INSTRUCTION
Graduate
A Master of Arts candidate conducts original research, writes a thesis, and presents an oral defense before a committee of faculty members. PREREQUISITE(S): SCG 410 and approved thesis proposal.

LSI 552
PRACTICUM EXPERIENCE WITH HIGH INCIDENCE DISABILITIES
Graduate
Six weeks of supervised field experience in a cooperating school working with students with high incidence disabilities, together with structured opportunities for feedback and discussion of issues and problems encountered.

LSI 440, LSI 458 and LSI 467 are a prerequisite for this class.
LSI 553
PRACTICUM EXPERIENCE WITH LOW INCIDENCE DISABILITIES
Graduate
Six weeks of supervised field experience in a cooperating school working with low incidence disabilities, together with structured opportunities for feedback and discussion of issues and problems encountered. (Prerequisites: LSI 468, and LSI 469).

LSI 585
STUDENT TEACHING AND SEMINAR IN SPECIAL EDUCATION-ELEMENTARY EDUCATION
Graduate
Five school days per week in supervised teaching experience for a full academic quarter. Students will also attend a student teaching seminar one day per week where they will discuss issues related to this experience. Faculty advisors and the Director of Student Teaching, working in conjunction with individual students, will determine appropriate student teaching placements. (Prerequisite: Permission required).

LSI 597
EARLY CHILDHOOD EDUCATION SPECIAL EDUCATION PRACTICUM
Graduate
Supervised teaching in a cooperating school serving young children with disabilities for three hundred clock hours; arranged in collaboration with supervising faculty member and the Field Experience Office. Candidates will reflect upon their teaching experiences with young children with disabilities; collaborate with colleagues and instructor to identify alternative strategies for problematic situations. PREREQUISITE(S): Application and approval required. Open only to DePaul students.

LSI 600
REGISTERED STUDENT IN GOOD STANDING
Graduate
(0 credit) Registration is this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required. $50 per quarter.

Status as a student in a College of Education Advanced Master’s program is a prerequisite for this class.

LSI 606
REVIEW OF LITERATURE
Graduate
This paper will give students the opportunity to develop and demonstrate written competence in a subfield of their disciplines and to enhance life-long learning. Specifically, they will broaden their knowledge base and inform themselves about a topic, issue, theory, etc., reviewing and synthesizing existing literature. To do so, students will need a variety of bibliographic skills including searching data bases. In other words, students will need to be able to ask and answer such questions as "What is known about? What are major issues and themes?"

LSI 607
INTEGRATIVE PAPER
Graduate
Students will observe and/or participate in the reciprocal interaction of theory and practice, by investigating actual practice in the field as it relates to theory. This might take the form of investigating how a particular theory is applied in the field, developing a practical application of a theory, or conversely, developing/refining a theory based on investigations made in the field. In other words, as graduates encounter new theories and practices they will need to be able to investigate and evaluate them, asking and answering questions about "How theories work."

LSI 608
CAPSTONE IN LANGUAGE, LITERACY, AND SPECIALIZED INSTRUCTION
Graduate
Culminating experience(s) that help(s) students acquire the qualities of professionalism and leadership needed to play a significant role in one's professional education community. Students are expected to situate and understand educational issues in a larger context; keep current in and be able to organize and present a body of research on an education-related question; connect research with practical, professional activity; demonstrate mastery of a sub-field of a discipline; write in a format that meets accepted scholarly criteria and participate in an ongoing professional conversation. A final product such as master's paper(s), comprehensive exam, or collection of professional work products is required.
LSI 625
CANDIDACY CULMINATING PROJECT (STUDENT IN GOOD STANDING)
Graduate
(0 credit) Registration in this course is required of all students who are not enrolled in a course but are completing culminating projects for their program of study, including theses, papers, and final portfolios. It provides access to university facilities. Permission of advisor required. Registration limited to three terms. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

LSP 110
DISCOVER CHICAGO
Undergraduate
Discover Chicago courses acquaint first-year DePaul students with the metropolitan community, its neighborhoods, cultures, people, institutions, organizations and urban issues. Students also learn about university life, resources, and strategies for how to achieve academically. Learning is accomplished through a variety of means, but particularly through first-hand observation, active participation, personal discovery, and reflection. The course begins with an immersion week one week prior to the official start of the autumn quarter. Classes continue to meet throughout the autumn quarter. Topics for Discover Chicago courses vary and students select one of interest and then investigate the subject using Chicago as a learning lab and site of discovery. First-year students must register for either LSP 110 or LSP 111. Students will receive credit for only one section of LSP 111, Explore Chicago or LSP 110, Discover Chicago. Students who received credit for LSP 111 cannot receive credit for LSP 110. Courses offered during the autumn quarter and available to first-year students only. Formerly ISP 103.

LSP 111
EXPLORE CHICAGO
Undergraduate
Explore Chicago courses acquaint first-year DePaul students with the metropolitan community, its neighborhoods, cultures, people, institutions, organizations, and issues. Students also learn about university life, resources, and strategies for how to achieve academically. Learning is accomplished through a variety of means, but particularly through lecture, discussion, guest lecturers, first-hand observation, active participation, personal discovery, and reflection. Topics for Explore Chicago courses vary and students select one of interest, and then investigate the subject area using Chicago as a backdrop of inquiry. First-year students must register for either LSP 110 or LSP 111. Students will receive credit for only one section of LSP 110, (Discover Chicago) or LSP 111, (Explore Chicago). Students who received credit for LSP 110 cannot receive credit for LSP 111. Courses offered during the autumn quarter and available to first-year students only. Formerly ISP 102.

LSP 112
FOCAL POINT SEMINAR
Undergraduate
Focal Point Seminars provide first-year DePaul students with the opportunity to learn how to closely examine a single topic, such as: a well-known person, place, event, issue, or text. Students discover the complexity of a subject by studying it from the perspectives of multiple disciplines and different fields of inquiry, and by reading and extensively writing about it. Because the class is a seminar, students also debate the topic through lively class discussions. Topics for Focal Point Seminars vary, and students have the opportunity to select a seminar that piques their curiosity, and connects with intellectual goals and interests. Students will receive credit for only one section of LSP 112, Focal Point Seminar. Courses available to first-year students only. Formerly ISP 101.

WRD 103 or HON 100 is a prerequisite for this class.

LSP 120
QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
Undergraduate
This course provides a mathematical foundation for students to become confident and critical users of quantitative information of all kinds: numerical, graphical, and verbal. Students analyze data from a wide variety of fields, making and critiquing quantitative arguments. Mathematical topics include proportional reasoning and rates, the making and interpretation of graphs, linear and exponential models, logarithms, and finance. The course is taught in a hands-on laboratory environment where students are introduced to computer tools for data analysis and presentation. PREREQUISITE(S): MAT 100, MAT 101, or demonstrating readiness via the math placement test taken at matriculation. As an alternative to taking LSP 120, this requirement can be met by passing a separate LSP 120 Proficiency Exam (see qrc.depaul.edu). A student whose major requires calculus is exempt from this requirement. Formerly ISP 120.

ISP 110 or MAT 100 or MAT 101 or placement by test is a prerequisite for this class.
LSP 121
QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
Undergraduate
This course provides more advanced mathematical and computational methods in the analysis and interpretation of quantitative information. Topics include databases, descriptive statistics, measures of association and their interpretation, elementary probability theory, and an introduction to algorithms and computer programming. The course is taught in a hands-on laboratory environment where students are introduced to advanced computer tools for data analysis, including databases and a professional statistical software package.
PREREQUISITE(S): LSP 120 or a passing score on the LSP 120 Proficiency Exam. As an alternative to taking LSP 121, this requirement can be met by passing a separate LSP 121 Proficiency Exam (see qrc.depaul.edu). A student whose major requires calculus is exempt from this requirement. Formerly ISP 121.

LSP 200
SEMINAR ON MULTICULTURALISM IN THE UNITED STATES
Undergraduate
This course provides the opportunity for students to learn about some dimension of multiculturalism relevant to the United States, as considered in the context of the global community. Multiculturalism includes questions of ethnicity, race, class, gender, language, religion, and sexual orientation. Courses pay attention to the history of multiculturalism; examine the experiences and perspectives of at least three distinct cultural groups; develop a critical perspective about meanings of multiculturalism; and investigate the historical roots of inequalities related to differences in class, ethnicity, gender, age, language, religion, ability, and sexual orientation. Topics of seminars vary and students select a course that interests them. Students can complete only one course numbered LSP 200. Formerly ISP 200.

LSP 320
PEER EDUCATION THEORY AND PRACTICE
Undergraduate
This course is designed to introduce students to the principles and practices of how to mentor first-year students into the academic, intellectual and social life of the University. The course also prepare students to serve, if selected, as peer educators for incoming students in the upcoming autumn quarter. Formerly ISP 320.

LSP 321
PEER EDUCATION THEORY AND PRACTICE II
Undergraduate
This course is designed to support students chosen to serve as peer educators to the principles and practices of how to mentor first-year students into the academic, intellectual and social life of the University. Formerly ISP 321.

LST 145
PRINCIPLES OF THE ARTS OF THE AMERICAS
Undergraduate
This is an introduction to major developments in art from the ancient indigenous cultures of the Americas (especially those of Meso- and South America), through the period of European colonialism (especially Spanish and English), to the modern art movements across the newly sovereign nations, including the United States and Canada. The broad chronology and geography necessitates a sampling of artistic forms across times, with issue-oriented lectures and occasional discussion. Cross-listed as HAA 145.

LST 200
FOUNDING MYTHS AND CULTURAL CONQUEST IN LATIN AMERICA
Undergraduate
This course challenges students to connect the cataclysmic formation of the Latin Americas from the cultures of Europe, Africa, and the Native (indigenous) peoples with the processes that inform our modern world. Colonialism, social stratification and forms of conflict and rebellion all played pivotal roles in the formation of Latin America from origins to the 18th century. The history and culture of the region is presented from many perspectives and across many disciplines.
LST 201
STRUGGLE AND RESISTANCE IN LATIN AMERICA
Undergraduate
Latin America is more than a geographical reality. This interdisciplinary course asks how Latin America has been forged through local and global struggles for economic sovereignty, political self-determination, social and cultural identities in the 19th, 20th, and 21st centuries. Students will be introduced to the histories of economic dependence after the dawn of political independence, the intertwined dynamics of U.S. interventionism and Latin American resistance, the making of indigenous movements, as well as the interrelated issues of gender, race, and sexuality.

LST 202
CONSTRUCTING LATINO COMMUNITIES
Undergraduate
This course is an interdisciplinary introduction to Latino Studies. It explores the socio-historical background of the major Latino groups in the United States, and the economic, political, and cultural factors that converge to shape Latino group identity. This course examines contemporary issues affecting Latinos including the evolution of Latino ethnicity, immigration, transnationalism and the formation of Latino communities, activism, and media representations of Latinos.

LST 203
MEDIA AND CULTURAL STUDIES ACROSS THE AMERICAS
Undergraduate
LST 203 is an introduction to media and cultural studies with a specific focus on cultural transactions in the American hemisphere, particularly as they reflect the relationship of the U.S. to Latin America, Central America, Mexico, and the Caribbean. This course studies the history of national and cultural identities and social struggle, especially with regard to a north/south relationship, imperialism, revolution and social change, tourism, globalization, postcolonialism and the construction of gender, sexuality, race, and ethnicity. Students examine how relationships across the Americas have been depicted in popular culture and the social and political meanings of these representations.

LST 243
SURVEY OF LATIN AMERICAN ART
Undergraduate
This course offers an overview of the principal developments in the history of Latin American art, from prehistoric times to the modern period. The course will view pre-Columbian, colonial and modern Latin American art contextually as artistic traditions are considered in light of major historical changes. (Cross-listed with ART 243)

LST 247
ART OF THE ANCIENT AMERICAS
Undergraduate
This class surveys the art of the ancient Americas (circa 1000BC-1520AD), with a focus on the most artistically significant civilizations of Mesoamerica and South America and some of the difficulties encountered in studying them. Lectures will explore visual traditions as diverse as the people they reflect; cultures to be covered include the Olmec, Maya and Aztec of Mesoamerica, and the Moche and Inca of Peru. Course material will constantly probe the relationship between the visual forms studied and their likely political and/or social function; however, especially because of the scarcity of primary source texts, the class will also regularly raise questions of methodology in pre-Columbian scholarship. Students should emerge from the class with a grasp of the contribution of specific scholars of pre-Columbian art, with an appreciation of some of the problems of its study, and with the understanding of some of the most significant-and heterogeneous-artistic forms from the ancient Americas. Cross-listed as HAA 245.

LST 248
ART IN THE SPANISH AMERICAN EMPIRE
Undergraduate
This course offers a critical survey of the art of colonial Latin America (circa 1520s-1820s), from the Caribbean to Mexico, Central America, and South America. Framed by the Spanish Conquest of the 16th century and Independence in the early 19th century, lectures will survey state-sanctioned arts of the Iberian colonizers, including the foundations of the Catholic Church across the "New World" landscape. Race will be a frequent issue of discussion as we consider both indigenous American and African participation in social realities and artistic practice in this colonial context. Cross-listed with HAA 246 and CTH 250.
LST 249
MODERN LATIN AMERICAN ART
Undergraduate
This lecture class is a survey of Latin American art created since the Wars of Independence which helped to create the modern nations in the 19th century (i.e. 1820s through the present). Lectures consider the struggle of artists to articulate newly sovereign identities through visual production, even as complicated relationships with Europe and increasingly, the United States, continue. Topics covered include Latin American modernism, surrealism, radical arts, and social realism, with a special consideration of post-revolutionary Mexican mural painting. Cross-listed with HAA 247.

LST 290
LATINO RELIGIOUS EXPERIENCE IN THE UNITED STATES
Undergraduate
An examination of the diverse nature of Latino religion, from its indigenous roots to its institutional forms, within the social and political context of American culture. Cross-listed with REL 113.

LST 291
LOOKING FOR GOD IN LATIN AMERICA
Undergraduate
An examination of religious traditions such as Catholicism, indigenous religions, and Protestantism in Latin America, with special focus on how these traditions have been transplanted and reshaped upon entry into varied Latino communities in the United States. Historical analyses of the Latin American roots of these traditions will provide contextualization for the ongoing examination of transnational religious cultures in the U.S. Cross-listed with REL 291.

LST 300
SPECIAL TOPICS IN LATIN AMERICAN STUDIES
Undergraduate
SPECIAL TOPICS IN LATIN AMERICAN STUDIES

LST 303
BORDER MATTERS: LITERATURE & CULTURE IN THE LATINO/A BORDERLANDS
Undergraduate
In this course we will study the values and dynamic that is promoted in different Latino communities in the United States. In order to give context to the present situation of Latinos in the U.S. we will study some of the social issues in the countries of origin which have resulted in immigration and their encounter with borderlands. The notion of a Latina and Latino cultural “borderlands” has proven a ubiquitous and powerful conceptual paradigm in recent years, organizing distinct ethnic groups (Cuban American, Mexican American, Central American, Puerto Rican, etc.) according to the rubrics of pan-ethnic identity labels (Hispanic, Latina/Latino, etc.) and transnational geographies (Latin America, the Americas, etc.). This course will examine a wide range of Latino/a literary expressions produced in the Latina/Latino borderlands, including ongoing efforts to establish the public meaning of the Alamo, additional borderlands, literal and figurative, will be considered. The Latina and Latino borderlands have also inspired critics and theorists to imagine postmodern, post national subject formations, in which questions of ethnicity, gender, and sexuality are shifted from the margins to the center of critical discourse. We will therefor investigate the use and limits of recent “border theory”.

LST 305
LATINO COMMUNITIES AND SOCIAL ENGAGEMENT
Undergraduate
In-depth, critical examination of different Latino communities. Topics include: Mexican-American Community, Puerto Rican Community and Cuban-American Communities.

LST 306
LATINO COMMUNITIES IN CHICAGO
Undergraduate
This course studies Latino Communities, focusing on their cultural and historical constructions from a community based learning experience.

LST 307
GROWING UP LATINO/ LATINA IN THE U.S.
Undergraduate
A critical as well as a community based examination of the experiences of growing up as a Latino/Latina person in the United States.
LST 308
MOTHERHOOD IN LATINO COMMUNITIES
Undergraduate
This is an intellectual, as well as a community based exploration of motherhood in Latino communities and the theories of motherhood in feminist criticism throughout Latin America. Other topics: fatherhood, the extended family and the community as family.

LST 309
SOCIAL ENGAGEMENT AND LATINO FAMILIES
Undergraduate
Social Engagement And Latino Families

LST 310
SPECIAL TOPICS: LATINOS IN THE U.S.
Undergraduate
SPECIAL TOPICS: LATINOS IN THE U.S.

LST 311
CONTEMPORARY ISSUES AND SOCIAL ENGAGEMENT
Undergraduate
Contemporary Issues And Social Engagement

LST 312
LATINA/O SEXUALITIES
Undergraduate
In this course the construction of sexuality as experienced by Latina/as will be examined through the analysis of recent interdisciplinary scholarship, literary selections and other popular cultural forms. We consider how gender and sexuality are constructed, enacted, represented, and communicated in a range of Latino/a communities and subcultures. Our analysis of readings/films/music will allow us to understand the changing and contested meanings of gender and sexuality within Latino/a culture.

LST 321
GLOBALIZATION IN THE AMERICAS
Undergraduate
In this course, we examine the processes of globalization in the Americas. The world seems to be a smaller place--accessible through the internet and global markets--and national borders seem to be more porous than ever before. Various agents--corporations, people, political organizers and organizations--are able to work on a global scale. Many critics argue that globalization has created a larger division between the wealthy and the poor. How has globalization affected the way we live our lives? In this course, we discuss the many debates around globalization and the political situation in Latin America, North America, and the Caribbean as well as the global justice movements that address inequity and injustice. You will become familiar with these debates and their histories, particularly with the growing anti-globalization position taken by many political leaders in Latin America. In this course, you will take a position regarding this contemporary political arena and become well-acquainted with various trends, policies, and activist movements around globalization. You will analyze your place in this political arena and determine how you will negotiate your position. We discuss the impact of various international organizations and trade agreements, from IMF, the World Trade Organization, the UN, the Organization of American States, NAFTA, and the Free Trade Area of the Americas. We will analyze the protest movements in Cancun and Seattle. We look at the increasing tourist apartheid in different parts of the Americas, particularly in the Caribbean. We discuss the impact and organization of international activism from anti-globalization movements to global justice movements. We will discuss and debate strategies for resistance. We access many of these issues through cultural productions (film, tv, advertisements, etc) that address the difficult dilemmas of neo-liberalism (rule of the market).

LST 322
MEXICAN CINEMA
Undergraduate
In this course we analyze the history and practice of a national cinema in relation to government film policy, filmmaking practices and programs, intellectual and cultural context, and national and popular concerns. We study various facets of Mexican cinema from conceptions of race/gender/sexuality, major figures of cinema, and the current conditions of Mexican Cinema. We will explore Mexican Cinema in relation to other film industries of the Americas, especially in relation to the United States and Hollywood and to the oppositional political practices of the New Latin American cinema of the sixties and seventies.
LST 330
LATINOS IN EDUCATION
Undergraduate
This course examines historical and current issues related to the education of Latinos in the US that range from PK-12 to higher education. The course explores the sociolinguistic, historical, sociocultural, legal and political contexts that shape the educational experiences of Latinos in the US, paying particular attention to policy and the current state of affairs in the education of Latinos. The Latino Diaspora will also be explored.

LST 336
EXPERIENCING MEXICAN ART
Undergraduate
The history of Mexican art in the Modern era. Some sections of this course will engage students in studio problems that address specific issues in the history of Mexican culture.

LST 338
COLONIAL LATIN AMERICAN ART
Undergraduate
This course will survey painting, sculpture, architecture, and the decorative arts in the Americas from contact with Europe up through independence movements of the 19th century. Special attention will be given to the intersection of artistic production with broad social, economic and political trends.

LST 348
INDIGENOUS POLITICAL STRUGGLES
Undergraduate
This course explores the struggles for social justice and the right to have rights by indigenous peoples. It emphasizes contemporary cases and the cultural contexts in which indigenous political strategies have developed and transformed. It uses historical data to understand the issues faced by indigenous peoples. Students conduct research on indigenous struggles and their connections to other social movements at the local, national, and international levels.

LST 375
MEXICO CITY (WORLD CITIES)
Undergraduate
From its origins as Tenochtitlan, the preordained capital of the Aztec Empire, through its identification as a "new Rome" dominated by the Spanish Crown in the Viceregal period, to its status as the largest metropolitan area in the Western Hemisphere (and the second largest in the world), Mexico City was born to impress the imagination. This class explores the development of the great city of Mexico in light of major historical events and cultural expressions. Discussions will focus especially on urban planning, key architecture, outdoor sculpture, and public spectacles over the centuries. Cross-listed with HAA 375.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.

LST 390
SENIOR SEMINAR
Undergraduate
A capstone course that integrates the students' prior course work and experiences by allowing the student to define a final culminating project. The seminar functions as a coordinated independent study course with extensive participation of Latin American and Latino Studies Program faculty. Cross-listed with SOC 390 & INT 301.

LST 392
INTERNSHIP
Undergraduate
INTERNSHIP

LST 394
THESIS
Undergraduate
THESIS
### LST 395
**TRAVEL/STUDY**
Undergraduate
TRAVEL/STUDY

### LST 399
**INDEPENDENT STUDY**
Undergraduate
INDEPENDENT STUDY

### MAT 94
**BASIC ALGEBRA**
Undergraduate

The objective of this course is to increase the students' competence in working with ordinary arithmetic, using a large variety of practical problems and situations from basic sciences as motivation. Formerly WRC 104.

### MAT 95
**INTRODUCTORY ALGEBRA**
Undergraduate

An introduction to functions, linear equations, linear inequalities, absolute values, systems of linear equations, exponents, and polynomials. Formerly WRC 204.

MAT 094 or placement is a prerequisite for this course.

### MAT 100
**INTRODUCTION TO QUANTITATIVE REASONING**
Undergraduate

An introduction to the algebra needed for quantitative reasoning with a focus on functions and modeling. This course emphasizes the applications of elementary algebra and the use of functions to model and analyze real-world situations. Topics include functions from graphical, tabular, and symbolic points of view and models using linear, quadratic, power, exponential, and logarithmic functions. Graphing technology is used extensively. This course is prerequisite to LSP 120 and is intended for students continuing on to LSP 120. This course is not recommended for students whose plan of study includes calculus.

MAT 094 or placement is a prerequisite for this course.

### MAT 101
**INTERMEDIATE ALGEBRA**
Undergraduate

Functions, factoring, rational expressions, roots, radicals, quadratic equations, quadratic inequalities. Course meets for an additional 1 hour lab session each week for enrichment and problem solving.

MAT 095 is a prerequisite for this class.

### MAT 110
**FOUNDATIONS OF MATHEMATICS FOR ELEMENTARY SCHOOL TEACHERS I**
Undergraduate

This course gives students a deeper understanding of the foundations of elementary mathematics. Topics include problem solving, number systems, the decimal system, the number line, rounding, fractions, percentages, addition and subtraction.

MAT 101 or LSP 120 or equivalents or placement by test is a prerequisite for this class.

### MAT 111
**FOUNDATIONS OF MATHEMATICS FOR ELEMENTARY SCHOOL TEACHERS II**
Undergraduate

This course gives students a deeper understanding of the foundations of elementary mathematics. Topics include problem solving, fractions, percentages, addition, subtraction, multiplication, and division.

MAT 110 is a prerequisite for this class.
Students with very little mathematical background and little or no computing background will be given a brief introduction to the use of Microsoft Excel for mathematical purposes. This will be followed by a brief discussion of chance, gambling, and probability. Several popular games (such as lotteries, roulette, craps, and poker) will be considered both from a theoretical point of view and by means of very simple computer simulation. At the end, we will discuss briefly topics from game theory such as zero-sum games and game with cooperation.

MAT 094 or placement is a prerequisite for this course.

MAT 111 is a prerequisite for this class.

Functions and their graphs, exponential and logarithmic functions, inverse functions, polynomial and rational functions.

MAT 101 or placement by test is a prerequisite for this class.

Trigonometric functions, inverse trigonometric functions, trigonometric identities, laws of sines and cosines, polar coordinates and complex plane.

MAT 130 or equivalents or placement by test is a prerequisite for this class.

Differential calculus of one or more variables with business applications.

MAT 135 or equivalent is a prerequisite for this class.

Integral calculus, matrix algebra, and probability theory with business applications.

MAT 136 or equivalent is a prerequisite for this class.

Basic concepts of statistics and applications; data analysis with the use of Excel; theoretical distributions; sampling distributions; problems of estimation; hypothesis testing; problems of sampling; linear regression and correlation.

MAT 137 or equivalent is a prerequisite for this class.
MAT 140
DISCRETE MATHEMATICS I
Undergraduate
Combinatorics, graph theory, propositional logic, singly-quantified statements, operational knowledge of set theory, functions, number systems, methods of direct and indirect proof.
MAT 130 or above or equivalents or placement by test is a prerequisite for this class.

MAT 141
DISCRETE MATHEMATICS II
Undergraduate
Methods of direct and indirect proof, set theoretic proofs, sequences, mathematical induction, recursion, multiply-quantified statements, relations and functions, complexity.
MAT 140 is a prerequisite for this class.

MAT 147
CALCULUS WITH INTEGRATED PRECALCULUS I
Undergraduate
Limits, continuity, the derivative, rules of differentiation, and applications, with precalculus review included for each topic. The full MAT 147-8-9 sequence covers all the material of MAT 150-1-2 plus additional precalculus material.
MAT 130 or equivalents or placement by test is a prerequisite for this course.

MAT 148
CALCULUS WITH INTEGRATED PRECALCULUS II
Undergraduate
Extrema, curve sketching, related rates, definite and indefinite integrals, applications of the integral, exponential and logarithmic functions, with precalculus review included for each topic.
MAT 147 is a prerequisite for this class.

MAT 149
CALCULUS WITH INTEGRATED PRECALCULUS III
Undergraduate
Techniques of integration, L'Hopital's rule, improper integrals, Taylor polynomials, series and sequences, first-order differential equations, with precalculus review included for each topic.
MAT 148 is a prerequisite for this class.

MAT 150
CALCULUS I
Undergraduate
Limits, continuity, the derivative, rules of differentiation, applications of the derivative, extrema, curve sketching, and optimization. This course meets for an additional 1-hour lab session each week for enrichment and problem solving.
MAT 131 or placement by test is a prerequisite for this course.

MAT 151
CALCULUS II
Undergraduate
Definite and indefinite integrals, the Fundamental Theorem of Calculus, applications of the integral, exponential and logarithmic functions, inverse trigonometric functions, techniques of integration. This course meets for an additional 1-hour lab session each week for enrichment and problem solving.
MAT 150 or MAT 160 or MAT 170 is a prerequisite for this class.
L'Hopital's rule, improper integrals, sequences and series, Taylor polynomials. This course meets for an additional 1-hour lab session each week for enrichment and problem solving.

MAT 151 or MAT 161 or MAT 171 is a prerequisite for this class.

**MAT 160**  
**CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I**  
*Undergraduate*  
Limits, continuity, the derivative, rules of differentiation, applications of the derivative, extrema, curve sketching, and optimization. This course meets for an additional 1.5-hour lab session each week for enrichment and problem solving.

MAT 131 or placement by test is a prerequisite for this class.

**MAT 161**  
**CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II**  
*Undergraduate*  
Definite and indefinite integrals, the Fundamental Theorem of Calculus, applications of the integral, exponential and logarithmic functions, inverse trigonometric functions, techniques of integration. This course meets for an additional 1-hour lab session each week for enrichment and problem solving.

MAT 150 or MAT 160 or MAT 170 is a prerequisite for this course.

**MAT 162**  
**CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III**  
*Undergraduate*  
L'Hopital's rule, improper integrals, sequences and series, Taylor polynomials. This course meets for an additional 1.5-hour lab session each week for enrichment and problem solving.

MAT 151 or MAT 161 or MAT 171 is a prerequisite for this class.

**MAT 170**  
**CALCULUS I WITH SCIENTIFIC APPLICATIONS**  
*Undergraduate*  
The course covers the following topics using examples from the sciences: Functions as models, logarithmic scale graphing, exponential growth and decay, difference equations and limits of sequences, geometric series, functions and limits, trigonometric functions and their limits, continuity, limits at infinity, the derivative, differentiation rules, derivatives of trigonometric and exponential functions, related rates, derivatives of inverse and logarithm functions. Course meets for an additional lab session each week during which time students will work on applied mathematics projects based on the topics covered in the course. Students majoring in the sciences should consult with their major department to decide between the 160 and 170 sequences.

MAT 131 or placement by test is a prerequisite for this class.

**MAT 171**  
**CALCULUS II WITH SCIENTIFIC APPLICATIONS**  
*Undergraduate*  
The course covers the following topics using examples from the sciences: Applications of the derivative including approximation and local linearity, differentials, extrema and the Mean Value Theorem, monotonicity and concavity, extrema, inflection points, graphing, L'Hospital's Rule, optimization, and the Newton-Raphson method, antiderivatives, the definite integral, Riemann sums, the Fundamental Theorem of Calculus, area, cumulative change, average value of a function, and techniques of integration: substitution rule and integration by parts. Course meets for an additional lab session each week during which time students will work on applied mathematics projects based on the topics covered in the course. Course meets for an additional lab session each week during which time students will work on applied mathematics projects based on the topics covered in the course.

MAT 150 or MAT 160 or MAT 170 is a prerequisite for this class.
MAT 172
CALCULUS III WITH DIFFERENTIAL EQUATIONS
Undergraduate
This course is designed for students in the life sciences and covers some topics from MAT 152, differential equations and an introduction to the Calculus of functions of several variables. Specific topics are as follows. Numerical integration, partial fraction expansions, Taylor approximations of a function, differential equations, separation of variables, slope fields, Euler's existence theorem, polygonal approximations to solutions of differential equations, the logistic equation and allometric growth models, equilibria of differential equations and their stability, applications of stability theory, functions of several variables, partial derivatives, directional derivative and the gradient. Course meets for an additional lab session each week during which time students will work on applied mathematics projects based on the topics covered in the course.

MAT 151 or MAT 161 or MAT 171 is a prerequisite for this class.

MAT 207
HISTORY OF PROBABILITY AND STATISTICS
Undergraduate
History Of Probability And Statistics

MAT 215
INTRODUCTION TO MATHEMATICAL REASONING
Undergraduate
An introduction to basic concepts and techniques used in higher mathematics courses: set theory, equivalence relations, functions, cardinality, techniques of proof in mathematics. The emphasis is on problem solving and proof construction by students. The department recommends that students take this course no later than the spring quarter of the sophomore year.

MAT 149 or MAT 152 or MAT 162 or MAT 172 is a prerequisite for this class.

MAT 220
LINEAR ALGEBRA WITH APPLICATIONS
Undergraduate
(Primarily for non-mathematics majors.) Systems of linear equations, matrices and matrix algebra, determinants, applications to linear programming, graph theory.

MAT 141 or MAT 148 or MAT 151 or MAT 161 or MAT 171 is a prerequisite for this class.

MAT 242
ELEMENTS OF STATISTICS
Undergraduate
Descriptive statistics, elements of probability, the binomial and normal probability models; large and small sample hypothesis testing, correlation and regression analysis. Use of computer packages. This course does not count toward mathematics major credit. Cross-listed with SOC 279.

(MAT 095 and MAT 100) or MAT 101 or placement are prerequisites for this class.

MAT 260
MULTIVARIABLE CALCULUS I
Undergraduate
Vectors, dot and cross products, lines and planes, cylinders and quadric surfaces, vector-valued functions, parametrization of plane curves and three dimensional curves, arc length, curvature and normal vector, functions of several independent variables, partial derivatives, the chain rule, directional derivatives, differentials, extreme values.

MAT 149 or MAT 152 or MAT 162 or MAT 172 is a prerequisite for this class.
MAT 261
MULTIVARIABLE CALCULUS II
Undergraduate
Lagrange multipliers, double and iterated integrals, area by double integrals, triple integrals, triple integrals in cylindrical and spherical coordinates, line integrals, vector fields, conservative vector fields and potential functions, Green's Theorem, surface integrals, Stokes' Theorem, Gauss' Theorem.

MAT 260 is a prerequisite for this class.

MAT 262
LINEAR ALGEBRA
Undergraduate
Systems of linear equations and matrices; vectors in n-space; vector spaces: linear combinations, linear independence, basis; linear transformations, change of basis, eigenvalues and eigenvectors.

MAT 260 is a prerequisite for this class.

MAT 301
HISTORY OF MATHEMATICS
Undergraduate
History of mathematics with problem solving.

MAT 141 or MAT 215 is a prerequisite for this class.

MAT 302
COMBINATORICS
Undergraduate
Methods of counting and enumeration of mathematical structures. Topics include generating functions, recurrence relations, inclusion relations, and graphical methods.

MAT 141 or MAT 215 is a prerequisite for this class.

MAT 303
THEORY OF NUMBERS
Undergraduate
A study of properties of integers: divisibility; Euclid's Algorithm; congruences and modular arithmetic; Euler's Theorem; Diophantine equations; distribution of primes; RSA cryptography.

MAT 141 or MAT 215 is a prerequisite for this class.

MAT 304
DIFFERENTIAL EQUATIONS
Undergraduate
Linear equations, systems with constant coefficients, series solutions, Laplace transforms, and applications. Formerly MAT 338. CO-REQUISITE(S): MAT 261.

MAT 261 is a corequisite for this class.

MAT 309
TEACHING AND LEARNING SECONDARY SCHOOL MATHEMATICS
Undergraduate

SE 364 is a prerequisite for this class.
MAT 310
ABSTRACT ALGEBRA I
Undergraduate
The first quarter of a 3-quarter sequence. Topics in the sequence include the integers; abstract groups, rings, and fields; polynomial rings; isomorphism theorems; extension fields; and an introduction to Galois theory. MAT 303 is highly recommended.

MAT 262 and (MAT 141 or MAT 215) are a prerequisite for this class.

MAT 311
ABSTRACT ALGEBRA II
Undergraduate
A continuation of topics from MAT 310: Groups, rings, fields, polynomial rings, isomorphism theorems, extension fields, and an introduction to Galois theory.

MAT 310 is a prerequisite for this class.

MAT 312
ABSTRACT ALGEBRA III
Undergraduate
A continuation of topics from MAT 311: Groups, rings, fields, polynomial rings, isomorphism theorems, extension fields, and an introduction to Galois theory.

MAT 311 is a prerequisite for this class.

MAT 320
GEOMETRY I
Undergraduate
Incidence and separation properties of planes; congruences; the parallel postulate; area theory; ruler and compass construction.

MAT 141 or MAT 215 is a prerequisite for this class.

MAT 321
GEOMETRY II
Undergraduate
Introduction to solid geometry and noneuclidean geometry (hyperbolic and spherical models); other special topics.

MAT 320 is a prerequisite for this class.

MAT 323
DATA ANALYSIS AND STATISTICAL SOFTWARE I
Undergraduate
Computing with a statistical package. Introduction to data analysis, elementary statistical inference, regression and correlation. This course does not count toward mathematics major credit. (CROSS-LISTED AS CSC 323)

MAT 130 or placement by test is a prerequisite for this class.

MAT 324
DATA ANALYSIS & STATISTICAL SOFTWARE II
Undergraduate
Advanced features and applications of the statistical package used in 323. (CROSS-LISTED WITH CSC 324)

MAT 323 is a prerequisite for this class.

MAT 326
SAMPLE SURVEY METHODS
Undergraduate

MAT 349 or MAT 353 is a prerequisite for this class.
MAT 328  
DESIGN OF EXPERIMENTS  
Undergraduate  
Linear models and quadratic forms. Single, two and several-factor experiments, incomplete designs, confounding and fractional factorial experiments. Response surfaces and partially balanced incomplete block designs.

MAT 349 or MAT 353 is a prerequisite for this class.

MAT 330  
METHODS OF COMPUTATION AND THEORETICAL PHYSICS I  
Undergraduate  
Computational and theoretical methods in ordinary differential equations, complex numbers, systems of equations, phase plane analysis, and bifurcations. Applications to damped, driven oscillators, and to electronics.

MAT 331  
METHODS OF COMPUTATION AND THEORETICAL PHYSICS II  
Undergraduate  
Computational and theoretical methods in ordinary differential equations, complex numbers, systems of equations, phase plane analysis, bifurcations. Applications to damped, driven oscillators, electronics. Lab Fee. COREQUISITE(S): MAT 261.

MAT 261 is a prerequisite for this class.

MAT 335  
REAL ANALYSIS I  
Undergraduate  
Real number system, completeness, supremum, and infimum, sequences and their limits, lim inf, lim sup, limits of functions, continuity.

(MAT 149 or MAT 152 or MAT 162 or MAT 172) and (MAT 141 or MAT 215) are a prerequisite for this class.

MAT 336  
REAL ANALYSIS II  
Undergraduate  
Properties of continuous functions, uniform continuity, sequences of functions, differentiation, integration. To follow 335 in the Winter Quarter.

MAT 335 is a prerequisite for this class.

MAT 337  
COMPLEX ANALYSIS  
Undergraduate  
Complex functions; complex differentiation and integration; series and sequences of complex functions.

MAT 261 and MAT 335 is a prerequisite for this class.

MAT 340  
TOPOLOGY  
Undergraduate  
An introduction to point-set topology: metric spaces, topological spaces, continuity, connectedness, and compactness.

(MAT 141 or MAT 215) and (MAT 220 or MAT 262) is a prerequisite for this class.

MAT 341  
STATISTICAL METHODS USING SAS  
Undergraduate  
MAT 342
ELEMENTS OF STATISTICS II
Undergraduate
Multiple regression, correlation, analysis of variance, time series, and sampling. Course content and emphases will vary with students’ needs and backgrounds.

MAT 137 or MAT 157 or MAT 323 or MAT 348 is a prerequisite for this class.

MAT 343
BUSINESS STATISTICS II
Undergraduate
Multiple regression, correlation, analysis of variance, time series and sampling. Statistical theory applied to business. Use of statistical computing packages. Course content will vary with the needs and desires of individual students. (FORMERLY BMS 342)

MAT 137 is a prerequisite for this class.

MAT 348
APPLIED STATISTICAL METHODS
Undergraduate
Introduction to statistical software (which will be used throughout the course). Descriptive statistics; elementary probability theory; discrete and continuous probability models; principles of statistical inference; Simple linear regression and correlation analysis.

MAT 148 or MAT 151 or MAT 161 or MAT 171 is a prerequisite for this class.

MAT 349
APPLIED STATISTICAL METHODS II
Undergraduate
A continuation of Mathematics 348. Multiple regression; analysis of frequency data, ANOVA and some experimental designs; nonparametric inference and time series analysis. Use of statistical software.

MAT 348 is a prerequisite for this class.

MAT 351
PROBABILITY AND STATISTICS I
Undergraduate
Probability spaces, combinatorial probability methods, discrete and continuous random variables and distributions, moment generating functions, development and applications of the classical discrete and continuous distributions.

MAT 261 is a prerequisite for this class.

MAT 352
PROBABILITY AND STATISTICS II
Undergraduate
Joint probability distributions and correlation; law of large numbers and the central limit theorem; sampling distributions and theory of estimation.

MAT 351 is a prerequisite for this class.

MAT 353
PROBABILITY AND STATISTICS III
Undergraduate
Principles of hypothesis testing; most powerful tests and likelihood ratio tests; linear regression; one-way analysis of variance; categorical data analysis, nonparametric statistics.

MAT 352 is a prerequisite for this class.
MAT 354  
MULTIVARIATE STATISTICS  
Undergraduate  
The multivariate normal distribution. Hypothesis tests on means and variances including the multivariate linear model. Classification using the linear discriminant function. Principal components and factor analysis. PREREQUISITE(S): MAT 353 and 262, or consent of instructor.  
(CROSS-LISTED WITH MAT 454)  
MAT 262 and MAT 353 are a prerequisite for this class.

MAT 355  
STOCHASTIC PROCESSES  
Undergraduate  
MAT 353 is a prerequisite for this class.

MAT 356  
APPLIED REGRESSION ANALYSIS  
Undergraduate  
Simple linear, multiple, polynomial and general regression models. Selection of best regression equation and examination of residuals for homoscedasticity and other diagnostics. Use of statistical software. Cross-listed with MAT 456.  
MAT 353 and (MAT 220 or MAT 262) is a prerequisite for this class.

MAT 357  
NONPARAMETRIC STATISTICS  
Undergraduate  
PREREQUISITE: MAT 349 or 353

MAT 358  
APPLIED TIME SERIES AND FORECASTING  
Undergraduate  
Development of the Box-Jenkins methodology for the identification, estimation, and fitting of ARIMA, and transfer-function stochastic models for the purpose of analyzing and forecasting stationary, non-stationary, and seasonal time series data. The course emphasizes practical time-series data analysis using computer packages and includes applications to economic, business, and industrial forecasting. Cross-listed with MAT 512.  
MAT 341 and MAT 353 are a prerequisite for this class.

MAT 359  
SIMULATION MODELS AND MONTE CARLO METHOD  
Undergraduate  
Techniques of computer simulation of the classical univariate and multivariate probability distribution models, and such random processes as random walk, Markov chains, and queues. Cross-listed with MAT 459.  
MAT 341 and MAT 353 are a prerequisite for this class.

MAT 361  
ACTUARIAL SCIENCE I  
Undergraduate  
The Theory of Interest: Theory and applications of compound interest to annuities, amortization schedules, sinking funds, bonds, and yield rates. Cross-listed with MAT 461.  
MAT 149 or MAT 152 or MAT 162 is a prerequisite for this class and MAT 351 is a corequisite for this class.
MAT 362
ACTUARIAL SCIENCE II
Undergraduate
Basic Contingencies: The theory and applications of contingency mathematics in life and health insurance, annuities, and pensions from both a probabilistic and a deterministic viewpoint. Topics include survival distribution and life tables, life insurance, and life annuities. Cross-listed with MAT 462.

MAT 361 is a prerequisite for this class and MAT 352 is a corequisite for this class.

MAT 363
ACTUARIAL SCIENCE III
Undergraduate

MAT 362 is a prerequisite for this class.

MAT 364
STOCHASTIC RISK MODELS
Undergraduate
Distributional quantities, distribution properties and classification, frequency and severity models, aggregate loss and ruin models. Cross-listed with MAT 464.

MAT 353 is a prerequisite for this class.

MAT 365
STOCHASTIC SURVIVAL MODELS
Undergraduate
Construction of parametric and nonparametric models, model validation and selection, credibility theory, simulation techniques. Cross-listed with MAT 465.

MAT 353 is a prerequisite for this class.

MAT 366
MATHEMATICAL DEMOGRAPHY
Undergraduate
Introduction to demography: mortality table construction and methods of population and demographic analysis.

MAT 353 is a prerequisite for this class.

MAT 367
CREDIBILITY THEORY
Undergraduate
Credibility theory and loss distributions with applications to casualty insurance classification and rate making. Cross-Listed As MAT 467.

MAT 362 is a prerequisite for this class.

MAT 368
MATHEMATICAL FINANCE
Undergraduate
Financial derivatives, risk management, investment strategies, arbitrage, valuation, Put-call parity, the binomial model, option pricing, lognormal models for asset prices, Black-Scholes formula, value at risk and conditional tail expectation, Brownian motion and Ito's lemma, interest rate models. Cross-listed with MAT 468.

MAT 353 is a prerequisite for this class.
MAT 370  
ADVANCED LINEAR ALGEBRA  
Undergraduate  
Vector spaces, basis and dimension; matrix representation of linear transformations and change of basis; diagonalization of linear operators; inner product spaces; diagonalization of symmetric linear operators, principal-axis theorem, and applications. Cross-listed MAT 470.

MAT 262 and (MAT 141 or MAT 215) are a prerequisite for this class.

MAT 372  
LOGIC AND SET THEORY  
Undergraduate  
Topics in axiomatic set theory, formal logic, and computability theory.

MAT 141 or MAT 215 is a prerequisite for this class.

MAT 381  
FOURIER ANALYSIS AND SPECIAL FUNCTIONS  
Undergraduate  
The course covers the basic principles of discrete and continuous Fourier analysis and some of its applications currently used in scientific modeling. Students will use the computer to implement the computational algorithms developed in the course. Some of the topics covered will include Fourier transforms and their application to signal and image processing, discrete Fourier series, the fast Fourier transform algorithm and applications to digital filtering, and the Radon transforms and its applications to tomography.

MAT 262 is a prerequisite for this class.

MAT 384  
MATHEMATICAL MODELING  
Undergraduate  
Modeling of real world problems using mathematical methods. Includes a theory of modeling and a study of specific models, selected from deterministic, stochastic, continuous, and discrete models. Cross-listed with MAT 484.

(MAT 220 or MAT 262) and (MAT 348 or MAT 351) are a prerequisite for this class.

MAT 385  
NUMERICAL ANALYSIS I  
Undergraduate  

(MAT 220 or MAT 262) and (MAT 149 or MAT 152 or MAT 162 or MAT 172) is a prerequisite for this class.

MAT 386  
NUMERICAL ANALYSIS II  
Undergraduate  
Theory and algorithms for efficient computation, including the Fast Fourier transform, numerical solution of non-linear systems of equations. Minimization of functions of several variables. Sparse systems of equations and corresponding eigenvalue problems. (CROSS-LISTED WITH MAT 486 & CSC 386/486)

MAT 385 is a prerequisite for this class.

MAT 387  
OPERATIONS RESEARCH I: LINEAR PROGRAMMING  
Undergraduate  
The Linear Programming problem and its dual; the simplex method; transportation and warehouse problems; computer algorithms and applications to various fields. (CROSS-LISTED AS MAT 487)

(MAT 262 or 220) and (any introductory programming course) are prerequisites for this course.
MAT 388
OPERATIONS RESEARCH II: OPTIMIZATION THEORY
Undergraduate
Integer programming; non-linear programming; dynamic programming; queuing theory; game theory. (CROSS-LISTED AS MAT 488)

MAT 387 is a prerequisite for this class.

MAT 389
OPERATIONS RESEARCH III
Undergraduate
Advanced Topics.

MAT 388 is a prerequisite for this class.

MAT 390
MATHEMATICS READING AND RESEARCH
Undergraduate
The course provides students with a hands-on experience about research in mathematical sciences. Students attend seminars and research colloquia, and actively participate at discussions about the topics presented. Students reflect on the connections between various areas of modern mathematics, the challenges of structuring and solving problems, and the personal experience of doing mathematics. As a final project, each student prepares and presents a mathematical expository paper describing a current area of research, emphasizing its relevance to mathematics in general and its connections to real world problems. This course may be used to satisfy the junior-year experiential learning (JYEL) requirement.

MAT 391
STUDIES IN DEMOGRAPHY
Undergraduate
The course introduces students to the study by statistical methods of human populations in terms of type of data sources, population composition, growth, fertility, mortality, morbidity, health, migration, and urbanization. In addition, the course has a major component that emphasizes the study of current characteristics of the populations of developing countries in comparison with some developed countries including the United States of America. Students are required to present and submit a research project with comparative analysis of demographic statistics obtained on several developing and developed countries.

MAT 395
TOPICS IN MATHEMATICS
Undergraduate
Consult course schedule for current offerings. Course may be repeated for credit when title and content change. Variable credit allowed.

MAT 396
SENIOR THESIS RESEARCH
Undergraduate
A thesis option is available to mathematics majors who wish to pursue an extended independent project related to a theoretical or applied focus of the program. Students would work under the guidance of a faculty mentor. A total of 4 credits must be completed over the one or two quarters prior to the thesis submission. Interested students are strongly encouraged to enroll in MAT 390 during their junior year.

MAT 397
MATHEMATICAL PEDAGOGY: THEORY & PRACTICE
Undergraduate
Introduction to current theories and practices in college mathematics instruction; helps undergraduate mathematics majors develop a deeper understanding of fundamental mathematical concepts and an awareness of how people learn mathematical ideas, and prepares them to work as consultants in mathematics instruction. Mathematical tutoring practicum is required. Four credit hour course offered over a two quarter span during the autumn and winter quarters only. See instructor for further information. This course may be used to satisfy the junior experiential learning requirement, but it does not count toward mathematics major or minor credit. Cross-listed with MAT 697.

MAT 398
SENIOR CAPSTONE SEMINAR
Undergraduate
Topics vary from year to year. This course does not count toward the mathematical major or minor credit.
MAT 399
INDEPENDENT STUDY
Undergraduate
Variable credit.

MAT 400
APPLIED ABSTRACT ALGEBRA I
Graduate
Applied Abstract Algebra I

MAT 401
APPLIED ABSTRACT ALGEBRA II
Graduate
Applied Abstract Algebra II

MAT 400 is a prerequisite for this class.

MAT 421
BASIC BIOSTATISTICS
Graduate
This course includes both data analysis and experimental design, up to and including survival analysis such as used in the analysis of clinical trials. The course will be supplemented by standard topics with application areas relevant to drug development, including pharmacokinetics, clinical trials, bioequivalence, and pharmacoepidemiology.

MAT 453 or instructor consent is a prerequisite for this class.

MAT 422
GENE EXPRESSION ANALYSIS
Graduate
In this course, students will build on the principles of MAT 421 by considering experimental design and data analysis issues pertaining to gene expression and genome-wide association studies. Introduction to gene expression studies, multiple comparisons problem in microarray studies, introduction to genome-wide association studies and experimental design for GWAS - one and two-stage approaches will also be addressed.

MAT 421 and MAT 453 are a prerequisite for this class.

MAT 423
GENOME SEQUENCING
Graduate
The course provides a basic understanding of sequencer-based genetic analyses starting with the basics: what a genome sequencer is, how genome sequences are assembled, and the statistics involved in designing sequencer experiments. The course will also consider typical models of sequence evolution leading into coverage of approaches to sequence alignment and statistical phylogeny along with issues related to biomedical applications, detecting sequence variants, transcriptome and metagenome sequencing, and ChIP-Seq. RNA and protein folding will also be included.

MAT 453 or instructor consent is a prerequisite for this class.

MAT 434
TOPOLOGY
Graduate
An introduction to point-set topology: metric spaces, topological spaces, continuity, connectedness, and compactness.

MAT 335 or consent of instructor is a prerequisite for this class.
MAT 435
MEASURE THEORY
Graduate
This is a course in Lebesque integration; the study of measure spaces and measurable functions; the basic theorems of Lebesque integration; Egoroff's theorem, the monotone limit theorem, the Lebesgue dominated convergence theorem; an introduction to $L^p$ spaces, Holder's inequality, Minkowski's inequality; Fubini's theorem.

MAT 336 or MAT 434 is a prerequisite for this course.

MAT 436
FUNCTIONAL ANALYSIS
Graduate
This course is an introduction to the basic theory of functional analysis. It covers linear operators and functionals on Hilbert and Banach Spaces, the Hahn Banach theorem, the uniform boundedness principle, and the open mapping theorem.

MAT 434 and MAT 470 is a prerequisite for this class.

MAT 437
COMPLEX ANALYSIS
Graduate
Course topics: Complex functions; complex differentiation and integration; series and sequences of complex functions. Cross-listed with MAT 337.

MAT 261 and (MAT 141 or MAT 215) are prerequisites for this course.

MAT 441
APPLIED STATISTICS I
Graduate
Parametric and non-parametric statistical inferential methods for the univariate and bivariate situations using SAS. Specific topics include classical and exploratory graphical & numerical methods of data descriptions; inference about means, medians, and associations including analysis of variance and linear regression. Data analytic projects are an integral part of the course.

MAT 442
APPLIED STATISTICS II
Graduate
A continuation of MAT 441. Repeated measures design, association, analysis of covariance, and multivariate relationships. Diagnostics and model building. Methods of categorical data analysis. Logistical regression and log-linear models. Data analytical projects using SAS are an integral part of the course.

MAT 441 is a prerequisite for this class.

MAT 443
APPLIED STATISTICS III
Graduate
A continuation of MAT 442. The course material generalizes univariate methods of inference to multivariate situations using SAS. Specific topics include canonical correlation, discriminate analysis, principal component analysis, factor analysis, and multivariate analysis of variance. Emphasis in the curse is on data analytic projects.

MAT 442 is a prerequisite for this class.

MAT 448
STATISTICAL METHODS USING SAS
Graduate
MAT 451
PROBABILITY AND STATISTICS I
Graduate
The course covers elements of probability theory; distributions of random variables and linear functions of random variables; moment generating functions; and discrete and continuous probability models. COREQUISITE(S): MAT 260.

MAT 260 is a corequisite for this class.

MAT 452
PROBABILITY AND STATISTICS II
Graduate

MAT 451 is a prerequisite for this class and MAT 261 is a corequisite for this class.

MAT 453
PROBABILITY AND STATISTICS III
Graduate
A continuation of MAT 452. More on hypothesis testing, most powerful, uniformly most powerful, and likelihood ratio tests. Introduction to the analysis of variance; linear regression; categorical data analysis, and nonparametric methods of inference.

MAT 452 is a prerequisite for this class.

MAT 454
MULTIVARIATE STATISTICS
Graduate
The multivariate normal distribution. The general linear model. Multivariate regression and analysis of variance; discriminant analysis; principal component and factor analysis; applications and use of statistical software. Cross-listed with MAT 354.

MAT 453 is a prerequisite for this class.

MAT 455
STOCHASTIC PROCESSES
Graduate

MAT 453 is a prerequisite for this class.

MAT 456
APPLIED REGRESSION ANALYSIS
Graduate
Simple linear, multiple, polynomial and general linear regression models. Model diagnostics; Model selection and Validation. Cross-listed with MAT 356.

MAT 453 is a prerequisite for this class.

MAT 457
NONPARAMETRIC STATISTICS
Graduate
Inference concerning location and scale parameters, goodness of fit tests, association analysis and tests of randomness using distribution free procedures. Bootstrap techniques. Smoothing methodologies. Cross-listed with MAT 357.

MAT 453 is a prerequisite for this class.
MAT 458
STATISTICAL QUALITY CONTROL
Graduate
History; Deming guide to quality; graphical techniques of process control; Schewhart's control charts for means, ranges, standard deviations, individual measurements, and attributes; process capabilities and statistical tolerance; cumulative-sum charts. product liability; acceptance sampling; product and process design; applications and case studies.

MAT 459
SIMULATION MODELS AND MONTE CARLO METHOD
Graduate
Techniques of computer simulation of the classical univariate and multivariate probability models, and such random processes as random walks, Markov chains, and queues. Cross-listed with MAT 359.
MAT 453 is a prerequisite for this class.

MAT 460
TOPICS IN STATISTICS
Graduate
One of the following topics: Clinical trials; Reliability and life testing; Categorical data analysis; Bootstrapping; Data Mining; Response Surface Methodology; Meta analysis; Survival Models.
MAT 453 or instructor consent is a prerequisite for this class.

MAT 461
ACTUARIAL SCIENCE I: THEORY OF INTEREST
Graduate
Theory of Interest: Theory and application of compound interest to annuities, amortization schedules, sinking funds, bonds, and yield rates. Cross-listed as MAT 361.
MAT 149 or MAT 152 or MAT 162 or MAT 172 is a prerequisite for this class and MAT 451 is a corequisite for this class.

MAT 462
ACTUARIAL SCIENCE II: BASIC CONTINGENCIES
Graduate
Basic Contingencies: The theory and applications of contingency mathematics in life and health insurance annuities and pensions, from both a probabilistic and a deterministic viewpoint. Topics include survival distribution and life tables, life insurance and life annuities. Cross-listed as MAT 362.
MAT 461 is a prerequisite for this class and MAT 452 is a corequisite for this class.

MAT 463
ACTUARIAL SCIENCE III: ADVANCED CONTINGENCIES
Graduate
Advanced Contingencies: A continuation of MAT 462. Topics include net premiums, net premium reserves, multiple life functions, multiple decrement models, and valuation theory for pension plans. Cross-listed with MAT 363.
MAT 462 is a prerequisite for this class.

MAT 464
STOCHASTIC RISK MODELS
Graduate
Introduction to risk theory and applications. Economics of insurance, individual risk models for short-term and single-term, collective risk models over an extended period, and applications. Cross-listed with MAT 364.
MAT 453 is a prerequisite for this class.
MAT 465
STOCHASTIC SURVIVAL MODELS
Graduate
Mathematical methods for population analysis and survival models. Cross-listed with MAT 365.
MAT 453 is a prerequisite for this class.

MAT 466
MATHEMATICAL DEMOGRAPHY
Graduate
Introduction to demography, mortality table construction and methods of population and demographic analysis.
MAT 453 is a prerequisite for this class.

MAT 467
CREDIBILITY THEORY
Graduate
Credibility theory and loss distributions with applications to casualty insurance classification and ratemaking.
MAT 462 is a prerequisite for this class.

MAT 468
MATHEMATICAL FINANCE
Graduate
This course will be required of students in the Financial Mathematics concentration. The main topics will be stochastic calculus and partial differential equations leading up to a derivation of the Black-Scholes option pricing model and its variants, along with discrete methods. This course should also be of interest to students of applied mathematics and physics. There will be opportunity to analyze real option data in conjunction with theory. Possible additional topics would include numerical methods, dividends, options on futures and exotic options. Cross-listed with MAT 368.
MAT 453 is a prerequisite for this class.

MAT 470
ADVANCED LINEAR ALGEBRA
Graduate
Vector spaces, basis and dimension; matrix representation of linear transformations and change of basis; diagonalization of linear operators; inner product spaces; diagonalization of symmetric linear operators, principal-axis theorem, and applications. Cross-listed as MAT 370.
MAT 262 and (MAT 141 or MAT 215) are a prerequisite for this class.

MAT 471
GROUP THEORY
Graduate
Course topics: Classes of groups; actions of groups on sets; Sylow theorems; decomposition of groups; structure of finite abelian groups.

MAT 472
FIELDS AND GALOIS THEORY
Graduate
Course topics: Commutative rings and fields; irreducible polynomials and field extensions, adjunction of roots, algebraic extensions, splitting and normal fields, cyclic extensions, the Galois group, and the Fundamental theorem of Galois theory. Cross-listed with MAT 312.
MAT 311 and MAT 471 are prerequisites for this course.
MAT 473
RINGS AND MODULES
Graduate
Course topics: Rings and Algebras; classes of unique factorization domains; modules and principal isomorphism theorems, classes of modules, decomposition of finitely generated modules; Jordan and rational canonical form of a matrix.

(MAT 311 and MAT 470) or MAT 472 is a prerequisite for this course.

MAT 481
FOURIER ANALYSIS AND SPECIAL FUNCTIONS
Graduate
The course covers the basic principles of discrete and continuous Fourier analysis and its applications. Some of the topics covered are Fourier series, discrete Fourier transforms, fast Fourier transforms, and Fourier transforms.

MAT 262 is a prerequisite for this class.

MAT 484
MATHEMATICAL MODELING
Graduate
Modeling of real world problems using mathematical methods. Includes a theory of modeling and a study of specific models, selected from deterministic stochastic, continuous and discrete models. Cross-listed as MAT 384.

(MAT 220 or MAT 262) and (MAT 451 or MAT 348) are a prerequisite for this class.

MAT 485
NUMERICAL ANALYSIS I
Graduate

MAT 220 or MAT 262 is a prerequisite for this class.

MAT 486
NUMERICAL ANALYSIS II
Graduate

MAT 485 is a prerequisite for this class.

MAT 487
OPERATIONS RESEARCH I: LINEAR PROGRAMMING
Graduate
The linear programming problem and its dual; the simplex method; transportation and warehouse problems; computer algorithms and applications to various fields. Cross-listed with MAT 387.

MAT 453 is a prerequisite for this class.

MAT 488
OPERATIONS RESEARCH II: OPTIMIZATION THEORY
Graduate
Integer programming; nonlinear programming; dynamic programming. Cross-listed as MAT 388.

MAT 487 is a prerequisite for this class.
MAT 489
QUEUING THEORY WITH APPLICATIONS
Graduate
Discrete and continuous-time Markov chain models, Queuing systems, and topics from renewal and reliability theory.
MAT 453 is a prerequisite for this class.

MAT 494
GRAPH THEORY AND NETWORK FLOWS
Graduate

MAT 495
DYNAMIC PROGRAMMING
Graduate

MAT 496
GAME THEORY
Graduate
The minimax theorem for two-person, zero-sum games. Two-person general-sum games and noncooperative person games; Nash equilibrium.

MAT 498
PROBLEM SOLVING IN MATHEMATICS
Graduate
Course topics: problem solving in various topics from GRE Subject examination in Mathematics. Consult course schedule for current offerings. Course may be repeated for credit when title and content change.

MAT 512
APPLIED TIME SERIES AND FORECASTING
Graduate
Development of the Box-Jenkins methodology for the identification, estimation and fitting of ARIMA, and transfer-function stochastic models for the purpose of analyzing and forecasting stationary, non-stationary, and seasonal time series data. The course emphasizes practical time series data analysis, using computer packages and includes applications to economic, business and industrial forecasting.
MAT 341 or MAT 348 or MAT 453 is a prerequisite for this class.

MAT 526
SAMPLING THEORY AND METHODS
Graduate
MAT 453 is a prerequisite for this class.

MAT 528
DESIGN AND ANALYSIS OF EXPERIMENTS
Graduate
Single-factor fixed, random and mixed designs with and without restrictions on randomizations, including randomized block designs, Latin & Graeco-Latin squares. Factorial and fractional factorial experiments. Nested and split-plot designs. Confounding and response surface methodology.
MAT 453 is a prerequisite for this class.
MAT 595
GRADUATE THESIS RESEARCH
Graduate
A thesis option is available to graduate students who wish to pursue an extended independent project. Students would work under the guidance of a faculty mentor. A total of 4 credits must be completed over the one or two quarters prior to the thesis submission.

MAT 596
ADVANCED TOPICS IN ALGEBRA
Graduate
Consult course schedule for current offerings. Course may be repeated for credit when title and content change.

MAT 597
ADVANCED TOPICS IN ANALYSIS
Graduate
Consult course schedule for current offerings. Course may be repeated for credit when title and content change.

MAT 598
ADVANCED PROBLEM SOLVING IN ALGEBRA AND ANALYSIS
Graduate
Course topics: problem solving in various topics in Algebra and Analysis. Consult course schedule for current offerings. Course may be repeated for credit when title and content change.

MAT 599
INDEPENDENT STUDY
Graduate
Offered by arrangement. Approval by department chair required.

MAT 600
EXPERIMENTATION, CONJECTURE, AND REASONING WITH NUMBERS
Graduate
This course will focus on furthering the participants' number sense together with providing them with opportunities to: 1) Use and discuss the roles of experimentation, conjecture, and logical reasoning in developing mathematical understanding; 2) Appreciate the value of algebraic notation in problem solving by comparing solutions done both with and without algebra; 3) Engage in mathematical speaking and writing with discussion of (a) how to evaluate accurate vs. inaccurate statements, (b) what level of detail is appropriate in an answer given the point of the problem, (c) what ways of presenting solutions are suitable for various audiences; 4) Discuss the distinction between "how" a mathematical strategy works and "why" it works, and articulate the pedagogical value of knowing the "why."

MAT 605
GEOMETRY FOR MIDDLE SCHOOL TEACHERS
Graduate
An introduction to geometry designed to engage students in the construction, description, and analysis of geometric objects, including three-dimensional objects. These activities will be used to generate questions and hypotheses that will lead to more abstract concepts and general arguments. Emphasis throughout will be on informal reasoning, experimental methods, inductive as well as deductive arguments, local organization, and the development of mathematical thinking. Appropriate technology will be used to explore hypotheses and support mathematical reasoning. Topics will include: polyhedra, and their nets, cross sections, and projections; triangles, quadrilaterals, and polygons; congruence and similarity; the Pythagorean theorem; perimeter, area, and volume; circles and spheres, symmetry and transformations; and tessellations. The course will also include discussion and reflection on learning mathematics.

MAT 608
INVESTIGATING HIGH SCHOOL MATHEMATICS
Graduate
Drawing on high school mathematics content, students will identify and explore the mathematical themes that might form the content of a 12th grade capstone course. In the process, they will reflect on and discuss the major issues encountered when learning the mathematical concepts that form the basis of high school mathematics, identify ways to collaborate in order to improve mathematics learning, and identify ways in which they can take leadership roles in mathematics teaching and learning.
MAT 609
TEACHING AND LEARNING SECONDARY SCHOOL MATHEMATICS
Graduate
Theories, methods, materials and techniques for teaching and learning mathematics in secondary and upper elementary schools. This course is required for students seeking secondary math certification.

MAT 610
CALCULUS FOR MATHEMATICS TEACHERS I
Graduate
A review of topics from precalculus using algebraic, numerical, and graphical perspectives including linear functions, exponential functions, logarithms, polynomials, and trigonometric functions. An introduction to limits, continuity, the derivative, and basic properties of real numbers. Introduction to graphing calculators and free graphing software with applications to classroom teaching.

MAT 611
CALCULUS FOR MATHEMATICS TEACHERS II
Graduate
A continuation of Math 610. The derivative and its applications, including optimization and related rates. Introduction to integration and numerical algorithms using graphing calculators. Offered every Winter.

MAT 610 is a prerequisite for this class.

MAT 612
CALCULUS FOR MATHEMATICS TEACHERS III
Graduate
A continuation of Math 611. Techniques of symbolic and numerical integration with geometric applications. Sequences, series, power series, and Taylor series. Offered every Spring.

MAT 611 is a prerequisite for this class.

MAT 618
TOPICS IN CALCULUS AND DIFFERENTIAL EQUATIONS
Graduate
Taylor's theorem, parametric equations, slope fields, Euler's method. The second half of the course will look at the history of calculus and the development of ideas such as limits, least upper bounds, convergence of series, countability, and cardinality.

MAT 612 is a prerequisite for this class.

MAT 620
GEOMETRY FOR MATHEMATICS TEACHERS
Graduate
Axiom systems, types of reasoning used in proofs, Euclidean geometry results with concentration on triangles and circles, introduction to non-Euclidean geometry, and introduction to geometry classroom software. Offered every Spring.

MAT 660 is a prerequisite for this course.

MAT 621
TRANSITION TO ALGEBRA FOR MIDDLE SCHOOL TEACHERS
Graduate
In this course, teachers will begin the study of algebra as a generalization of number and operation, building on their new understanding of those topics from previous courses. Careful attention to reasoning about the use of variables and understanding the logic behind solving equations and inequalities will aid in the transition to a full treatment of high school algebra. Teachers will be introduced to high quality resources that will help them create effective algebraic learning environments for their students.

MAT 600, MMT 401 and MAT 605 are a prerequisite for this class.
MAT 622
ALGEBRA FOR MIDDLE SCHOOL TEACHERS I
Graduate
This course is the first of a 3-quarter sequence designed in part to prepare elementary and middle grade teachers to teach an algebra class to qualified 8th grade students in their schools. It is based on a vision of mathematics instruction throughout the grades that continuously builds students' algebraic skills and thinking. This first course in the sequence emphasizes problem-solving as an entry point into algebra for mathematics learners. Students see algebra as an active process for solving problems and as arising naturally as a way to generalize the laws of arithmetic, analyze patterns, and describe relationships in tables, graphs, and equations. In addition, students review and examine foundational concepts in algebra (variables, equations, relations, graphs, slopes of lines, and equations of lines) and are introduced to research on the development of algebraic thinking in middle grade students.

MAT 623
ALGEBRA FOR MIDDLE SCHOOL TEACHERS II
Graduate
The second course in the algebra sequence builds on the first and maintains emphases on problem-solving, deeper understanding of the central concepts of beginning algebra, and awareness of difficulties students have when encountering the subject for the first time. Topics include systems of linear equations, solving linear inequalities and systems of inequalities, absolute values equations and inequalities, and quadratic functions.

MAT 624
FUNCTIONS AND MODELING
Graduate
Advanced concepts in beginning algebra provide a basis for a deeper treatment of the relationship between functions and data, and lay the groundwork for the development of polynomial, exponential, and logarithmic models. The course will integrate the use of technology such as graphing calculators and spreadsheets.

MAT 631
HISTORY OF MATHEMATICS THROUGH PROBLEM SOLVING FOR MATHEMATICS TEACHERS
Graduate
Topics include the development of calculus, probability theory, number theory, non-Euclidean geometry, and set theory. Offered every Winter. MAT 650 is a corequisite.

MAT 632
HISTORY AND CULTURAL FOUNDATIONS OF MATHEMATICS
Graduate
This course is a cross-cultural survey of the history of mathematics, with emphasis placed on the development of concepts encountered by students in elementary and middle school. The course will also serve as a capstone for the program in that it will include references to content from all the earlier courses and will explicitly ask teachers to make connections across the middle school mathematics curriculum. The students will complete a small group research project in which they choose a mathematical concept from the program and use it as a focal point to study the development of mathematical ideas across time and across cultures.

MAT 640
MULTIVARIABLE CALCULUS FOR MATHEMATICS TEACHERS
Graduate
Functions of several variables, vectors, dot products and cross products, partial differentiation, directional derivatives, optimization, Lagrange multipliers, polar and spherical coordinates. Use of software packages to illustrate three dimensional objects.

MAT 641
MULTIVARIABLE CALCULUS WITH LINEAR ALGEBRA FOR MATHEMATICS TEACHERS
Graduate
Multiple integration, line and surface integrals, change of variable in multiple integration, Green's and Stokes' theorems. An introduction to matrices, determinants, linear transformations, and eigenvalues.

MAT 620 and MAT 670 is a prerequisite and MAT 650 is a co-requisite for this class.
MAT 643
IDEAS OF CALCULUS IN THE MIDDLE SCHOOL CURRICULUM
Graduate
The course will introduce students to the “big ideas” of Calculus including limits, derivatives, and integrals. The course will emphasize how the mathematics in the middle school curriculum can lay a foundation for the study of continuous mathematics and to the role that Calculus plays in the sciences. In particular, direct connections to the topics of this course and the middle school curriculum will be made by studying activities from curriculum materials currently used in CPS that are relevant to the topics of Calculus. Trigonometry from the perspective of the middle school classroom will be used as the launching point for introducing the major ideas of the course. The course will also give the students the opportunity to understand the interplay between the concepts and tools they learned in the MMT 415-417 sequence and Calculus.

MAT 649
DATA ANALYSIS AND PROBABILITY
Graduate
This course covers the fundamental concepts of probability that are part of the middle school curriculum and recent research findings on student learning of probability and classroom implications of this research. In addition, it covers the principles of graphically displaying, collecting and analyzing data with and without the use of technology. Topics will include measures of central tendency and dispersion, graphical representations of data (histograms, boxplots, bar charts, pie charts, and line graphs), and the design of experiments and simulations.

MAT 650
PROBABILITY & STATISTICS FOR MATHEMATICS TEACHERS I
Graduate
Combinatorics, sets, probability, random variables, distribution and density functions, multiple integration, standard probability laws, jointly distributed random variables. Use of graphing calculators, applets, and software packages to illustrate concepts. Offered every Winter.

MAT 650 and MAT 660 are prerequisites for this course.

MAT 651
PROBABILITY & STATISTICS FOR MATHEMATICS TEACHERS II
Graduate
Central limit theorem, point and interval estimation of parameters, hypothesis testing, least squares and regression. Offered every Spring.

MAT 650 is a prerequisite for this class.

MAT 660
DISCRETE STRUCTURES FOR MATHEMATICS TEACHERS
Graduate
Logic and proof, number theory, sequences and mathematical induction, sets and functions, cardinality recursion, and introduction to combinatorics.

MAT 665
DISCRETE STRUCTURES WITH A TRANSITION TO HIGHER MATHEMATICS
Graduate
A transition to advanced courses having a greater emphasis on proof and abstraction. Techniques of proof, logic, sets and functions, number theory, recursive sequences, mathematical induction, and an introduction to combinatorics.

MAT 670
ABSTRACT ALGEBRA FOR MATHEMATICS TEACHERS
Graduate
Examines the integers, prime numbers, the Euclidean algorithm, the uniqueness of prime factorization, equivalence relations, rational numbers, real numbers, and complex numbers. Provides examples of groups, rings, and fields and also covers the Fundamental Theorem of Algebra, modular arithmetic, and roots of polynomials of small degree. Offered every Summer.

MAT 612 and MAT 660 are a prerequisite for this class.
MAT 671
ABSTRACT AND LINEAR ALGEBRA FOR MATHEMATICS TEACHERS
Graduate
A continuation of Math 670. Examines the irreducibility of polynomials, criteria for solvability by radicals, rational values of trigonometric functions, difference functions, partial fraction decomposition, and geometric constructions with ruler and compass. Also examines linear independence, spanning sets, and the basis of a vector space. Along with Math 670, it provides the theoretical foundation for many topics covered in high school mathematics courses. Offered every Fall.
MAT 670 is a prerequisite for this class.

MAT 680
REAL ANALYSIS FOR CALCULUS TEACHERS
Graduate
Construction and properties of the real numbers. Proofs of essential results from calculus such as the intermediate value theorem, extreme value theorem, mean value theorem, existence of the Riemann integral, and Taylor’s theorem.
MAT 618 and MAT 660 are a prerequisite for this class.

MAT 699
TOPICS IN MATHEMATICS FOR TEACHERS
Graduate
Diverse topics in mathematical modeling or mathematical appreciation germane to the secondary school classroom.

MCS 207
HISTORY OF CINEMA I, 1890-1945
Undergraduate
This course examines the history of cinema as one of the most influential cultural forms of the 20th Century. We will study the aesthetic and technological developments of cinema during its first 50 years, as well as examine the social and economic factors shaping its history. Initially influenced by other art forms (theater, literature, painting) filmmaking quickly acquired its own formal system, language, and traditions. We will trace the changing styles, techniques, content, and methods of filmmaking as an art form, as popular culture, and as an industry. We will consider how cinema is bound to its social context via audience relations, economics, technology, and ideology. The limited scope of this course will cover primarily feature-length, narratives films as the dominant mode of filmmaking, although we will also look at the development of documentary and experimental filmmaking. The class will consist of lectures, screenings, and discussions.

MCS 208
HISTORY OF CINEMA II, 1945-1975
Undergraduate
This course covers the continued rise and development of cinema from 1945 to 1975. The course will have a dual focus, looking simultaneously at both the American studio system and international cinemas. The lectures, screenings, and discussions place equal emphasis on charting the development of cinematic techniques as well as examining the growth of specific national cinemas. In addition, the course surveys international stylistic trends in narrative, documentary, and avant-garde film. Students will acquire a broad understanding of the institutional, social, technological, and aesthetic forces that have shaped the development of cinema during the mid-twentieth century. Lab for film viewing required.

MCS 209
HISTORY OF CINEMA III, 1975-PRESENT
Undergraduate
This final course in the film history sequence is designed to introduce students to a sense of modern film history and the multiple permutations of cinema around the modern film history and the multiple permutations of cinema around the globe. It presents film history from a global perspective, concentrating primarily on the development of new national and transnational cinemas. The course continues to chart the development of the American studios since the mid-1970s while examining the effects of media consolidation and convergence. Moreover, the course seeks to examine how global cinemas have reacted to and dealt with the formal influence and economic domination of Hollywood filmmaking on international audiences. Class lectures, screenings, and discussions will consider how cinema has changed from a primarily national phenomenon to a transnational form of communication in the 21st century.
MCS 231
INTRODUCTION TO DOCUMENTARY STUDIES
Undergraduate
This course examines the rise and growth of documentary forms, including audio, film, television, photography, literary journalism and ethnography. Students will study representative works from each documentary approach and learn to analyze the techniques of observation and representation at use in these pieces. Students will become familiar with major theoretical constructions of documentary and be able to use these analytical tools to critique documentary forms. Lab for film viewing required.

MCS 251
SPACES OF CINEMA IN ROME
Undergraduate
This course examines the history and heritage of Italian cinema through an analysis of critically acclaimed films produced in Rome. Topics of focus include the comparison of Italian and Hollywood constructions of historical settings, and the cinematic organization of visual space. The course features visits to the Roman sites where films examined in the course were produced. The course's goal is the development of an understanding of filmmakers' artistic choices and the expectations that they set up for their audiences through setting. Offered in conjunction with the Rome Film Studies Program.

MCS 252
CONTEMPORARY ITALIAN CULTURE THROUGH FILM
Undergraduate
This course provides an exploration of contemporary Italian culture through the medium of cinema. The course examines how cinema addresses complex social and political concerns in Italy. Topics and themes include health care; the transformation of the structure of the family; immigration and emigration; the perennial problem of organized crime; and the difficulties faced by the younger generations in their attempt to integrate into society. Italian film industry professionals and cultural historians will provide context and perspective on contemporary social issues facing Italy. Offered in conjunction with the Rome Film Studies Program.

MCS 271
MEDIA AND CULTURAL STUDIES
Undergraduate
This course provides students with a theoretical and methodological background in the interdisciplinary field of cultural studies, which considers media and culture as sites for the construction and contestation of race, class, gender, ethnicity, sexuality and nation. The course provides a foundation in critical cultural studies, ideology critique, critical race and gender studies, transnational media studies and active audience studies. Formerly Introduction to Radio, Television and Film.

MCS 273
STORYTELLING & STYLE IN CINEMA
Undergraduate
Course covers basic concepts and terminology of film and video as forms of art and mass culture. This course covers the aesthetic elements that constitute film and video texts: plot structures, sets, costumes and makeup, acting, lighting, cinematography, editing, and sound. By performing extensive textual analyses, students learn how the interaction of these elements produces meaning. Students also gain basics of how these concepts are practiced in film production. After mastering the aesthetic concepts, students also examine their use in three different modes of film: fiction, documentary, and the avant-garde. There is a required lab for film viewing. (Formerly Film/Video Analysis)

MCS 286
RADIO PRACTICUM
Undergraduate
Students who already actively participate at DePaul's radio station have the opportunity, depending on the station's needs, to produce on-air announcements, specialized broadcasts (weather, sports, University-based topics), newscasts, and assist station managers with their day-to-day responsibilities for MCS credit. In addition to working at the radio station, students must successfully complete a short research project on an approved topic.

MCS 290
MEDIA & CINEMA STUDIES WORKSHOP (VARIA BLE TOPICS)
Undergraduate
This course allows students to sample a range of hands on, practical offerings in media and cinema studies that can enhance their knowledge and expertise. Two types of workshop classes are offered: research and production. Examples of Research Workshop topics can include film criticism, Survey Design, and Academic Writing Bootcamp. Examples of Production Workshop topics include non-linear editing with Final Cut Pro, Multimedia Design, and Video Camera Basics. Students may take a maximum of 4 credit hours of MCS 290 in the major, and a total of 8 credit hours.
MCS 331
**TOPICS IN DOCUMENTARY STUDIES**
*Undergraduate*

A rotating topics course that could focus on specific historical era or specific group of texts or documentarians from across film, television, audio, writing, and photography. Courses like Feminism & Documentary, and Political Documentary fit under this heading.

MCS 339
**RADIO BROADCASTING**
*Undergraduate*

The overall objectives of this course are to familiarize students with the history and practices of commercial and college radio broadcasting and to afford students hands-on broadcasting opportunities at our state-of-the-art radio station. Numerous topics and challenges facing modern radio stations will be discussed, including deregulation, copyright law, and decency standards. It is expected that upon successful completion of this course that students will be prepared for advanced broadcasting and production courses and radio and television internships.

MCS 341
**TOPICS IN RADIO STUDIES**
*Undergraduate*

Subjects rotate among several historical and conceptual topics, such as Rock Radio, Talk Radio, Gender and Radio, Radio and American Culture, etc. Students will have the opportunity to build upon the foundations of radio that are explored in other radio courses. Radio topics courses are considered advanced study in the subject area; therefore, students are encouraged to complete MCS 339 or MCS 342 prior to taking a radio topics course.

MCS 342
**HISTORY OF TELEVISION & RADIO**
*Undergraduate*

A history of radio, television, and cable that engages with elements such as programming, economics, industrial structures, audiences, government and industry policies, and social effects. The course includes viewing, analysis, and criticism of a wide variety of American programming.

MCS 343
**MEDIA ETHICS**
*Undergraduate*

Entertainment and social media dominate popular culture today in a way that begins to completely define American culture. In what ways do entertainment media impact society? As creators of media, what special responsibilities do we have? And as creators of entertainment media how can we use these ethical theories in our daily practice? This course will examine the underlying ethical theories used when we try to arrive at ethical judgments about right and wrong. This course will concentrate on analyzing the impact of digital entertainment on an individual and society. The issue of balancing individual creativity vs. cultural impact, particularly on children, will be addressed. The course will culminate with the formulation of elements of an ethical code of conduct for every electronic (social) media, television professional and movie creator.

MCS 348
**TOPICS IN FILM GENRE**
*Undergraduate*

This course offers an historical examination of film genres, with a varying focus on one particular genre: film noir, musicals, melodrama, detective/gangster film, science fiction film, comedy, Western, animation, youth films. The course explores the relationship of genres to general social histories. Lab for film viewing required.

MCS 349
**TOPICS IN FILM STUDIES**
*Undergraduate*

Examination of a particular era of film history or national cinema, film movements, or moments in social history and their relationship to film production. Topics currently in rotation include Film Sound Studies, American Films of the 1970s, War and Film, feminist film, Psychoanalysis and Cinema, etc. Lab for film viewing required.
MCS 350
TOPICS IN GLOBAL CINEMA
Undergraduate
This course is designed as a critical study of global filmmakers and the issues surrounding cinema and its transnational circulation. The class will examine specific aspects of the growth and evolution of cinema and look at points of contact between different cultural discourses, national cinematic styles, genres, and reception. Artistic, social, political, and industrial issues will be examined to provide different models of cinematic creation and consumption. Recent topics have included Latin American Cinemas, Asian Cinemas, Transnational Cinema, New German Cinema, History of French Film, Contemporary Global Directors, etc. Lab for film viewing required.

MCS 351
TOPICS IN TELEVISION STUDIES
Undergraduate
This course offers advanced study of television as a unique audio-visual culture with its own history and styles. This course presumes basic knowledge of television terms and methods of media analysis. Studies of a selected aspect of television history, television criticism, or national television are offered regularly. Recent topics have included Global Television, Reality TV, American TV of the 1950s, Television News, etc.

MCS 352
TOPICS IN NEW MEDIA
Undergraduate
This course examines the effects of new and/or digital media on interpersonal communication, media industries, and/or media culture. Depending on the specific focus of this variable elective course, it might focus on economic, social, political, or aesthetic implications of new media, including the Internet, interactive games, and other new media technologies and applications.

MCS 353
TOPICS IN MEDIA STUDIES
Undergraduate
This is a rotating topics class for subjects that encompass a number of different media, including radio, television, film. Possible topics may include: Media and Politics, Contemporary News Media, Reception Studies, Popular Culture Studies, etc.

MCS 354
TOPICS IN MASS MEDIA
Undergraduate
This is a rotating topics class for subjects that span a broad range of media outlets, from radio, television, film, and new media to journalism, advertising, and public relations. Possible topics may include: Chinese Mass Media, Children's Media, Media and Censorship, Media Regulation, etc.

MCS 355
US TELEVISION AND SEXUALITY
Undergraduate
This course will examine the continued negotiation of sex and sexuality on American television. Whether through their structuring absence, head-on attendance, or mere subtle implication, sex and sexuality have been omnipresent within the medium since its proliferation in the late 1940s. Through lenses of TV, social history, and gender/sexuality criticism, this course will examine various ways in which sexual issues such as the marriage bed, female sexual agency, GLBT visibility, teen sex, and rape have made their ways onto and been pushed off of the small screen. It will also interrogate how these broad categories interact with TV's assumed social role, contemporary and historical notions of American values, and TV regulation.

MCS 356
TOPICS IN DOCUMENTARY PRODUCTION
Undergraduate
The course will focus on developing skills in conceptualizing, directing, and editing various styles of documentary films. Students will explore the documentary filmmaking process by viewing a range of documentary films and deconstructing/ discussing their attributes, learning basic interview techniques and constructing narratives and stories. Emphasis will be placed on developing technical proficiencies in hand-held cinematography, location sound recording, and editing. Students will produce documentary projects in team groups throughout the term. Ultimately, the goal is for students to learn to define and interpret their own personal directorial approach to documentary filmmaking.
MCS 357
TOPICS IN TELEVISION PRODUCTION
Undergraduate
This is a rotating topics class for developing skills in the conceptualization, direction, and editing of television programs. Students will explore techniques of television storytelling and style. Students will produce projects throughout the term.

MCS 361
FANDOM & PARTICIPATORY CULTURE
Undergraduate
This course introduces students to the world of media fandom. Fans are people who hold an emotional attachment to media texts. By investigating the types of media texts people connect to, as well as the work fans do in their community, students encounter new ways of participating with media. Students not only examine fans as cultural "producers," who make media just as much as they consume it, but also examine media from the point of view of a fan. This course also looks at how participating in fandom can aid the development of diversity and positive social change.

MCS 366
COMMUNICATION, TECHNOLOGY AND SOCIETY
Undergraduate
Survey of a variety of contemporary and historical issues related to the introduction and diffusion of communication technologies in society. Especially examines how new technologies, particularly the Internet, are transforming the communication landscape. Emphasis on issues of intellectual property, surveillance, privacy, regulation, message construction, and access will be central to this course.

MCS 373
AUDIO DOCUMENTARY
Undergraduate
This course uses hands-on projects so that students can explore the steps in the process of creating an audio documentary. Through practical application students consider questions that surround the interpretation of cultural experience. Additionally, students analyze a variety of approaches to audio documentary in an effort to understand better this significant form of storytelling.

MCS 375
LATINO/A TELEVISION AND MEDIA
Undergraduate
Drawing from Latin American and U.S. television studies, this course explores the political, industrial and cultural dynamics that shape televusual representations in Latin American television and/or Spanish language Television in the US. More specifically, Spanish-language television and media will be examined from interdisciplinary frameworks, which include the cultural analysis of televusual modes, national and international regulations of media production and distribution, histories of production, and ethnographies of viewing.

MCS 376
LATIN AMERICAN CINEMA
Undergraduate
This course examines the production, distribution and impact of cinema in the Latin American context. Transnational relations with other industries, such as Hollywood and the European film context will be considered. We will investigate how social, economic and political forces have shaped or are presently influencing and transforming national cinemas. Questions of identity and cultural difference, particularly in relation to immigration, diasporas, transnationalism, youth culture, class, gender, sexuality, race and ethnicity are central to the discussions. We will consider the diversity of styles and topics that are now redefining the cinema of the region.

MCS 383
TALKING ABOUT FILM: THEORY & CRITICISM
Undergraduate
This course is to familiarize students with a wide range of disciplines (film, art history, philosophy, psychology, etc.) and how these ideas both inflected the development of classical film theories as well as the evolution of cinema. Moreover, the scope of the course seeks to examine the overall process whereby theoretical discourse develops historically. Lab for film viewing required.

MCS 273 or instructor permission is a prerequisite for this course.
MCS 386
RADIO PRODUCTION
Undergraduate
Students will learn radio broadcasting and audio production techniques. Students will work in a lab environment to complete broadcast quality production work. Though the emphasis of the course will be on broadcast writing, speech, and production techniques, students will have the opportunity to perform on-air shifts at DePaul's radio station and complete non-traditional production work, such as podcasts.

MCS 389
TOPICS IN MEDIA PRODUCTION
Undergraduate
This course is a rotating topic course in areas of media production and may include classes such as Podcasting, Advanced Radio Production, Advanced Audio Documentary, Radio News, Multimedia Production, etc. There may be a lab fee for the course.

MCS 399
INDEPENDENT STUDY
Undergraduate
MCS 501
FILM AND MEDIA THEORY
Graduate
This course will serve as a foundation for students in theories of film, television, and new media. An engagement with areas such as formal analysis, television and film spectatorship, authorship, television flow, and media specificity will provide both a brief historical framework for these disciplines, as well as a survey of major texts. Readings will include scholars/theorists such as Sergei Eisenstein, David Bordwell, Laura Mulvey, Horace Newcomb, Raymond Williams, Nick Browne, and Henry Jenkins. Formerly MCS 501 Introduction to Media Studies.

MCS 502
MEDIA AND CULTURAL STUDIES
Graduate
This course provides students with a theoretical and methodological background in the interdisciplinary field of cultural studies, which considers media and culture as sites for the construction and contestant of race, class, gender, ethnicity, sexuality and nation. The course provides a foundation in critical cultural studies, ideology critique, critical race and gender studies, transnational media studies and active audience studies.

MCS 503
GLOBAL CINEMA/MEDIA
Graduate
This course surveys a number of frameworks for understanding the global dynamics that constitute particular media cultures around the world. We will examine historical perspectives and debates concerning the processes of globalization and the media’s constitutive role in impacting our conceptions of space and time across local, national and transnational terrains. Students will interrogate how the actions of nation states, civil society and transnational corporations impact media industries and ask how media representations are contested across registers of nation, region, citizenship, class, religion, labor, gender, Diaspora, race, migration and ethnicity.

MCS 504
HISTORIOGRAPHY AND RESEARCH
Graduate
This course will offer critical perspectives and methods to film and media history and research. Areas of exploration will include how popular history and academic historiography interact, the way certain subjects and facts are emphasized over others, the different forms used to represent historical knowledge, and questions of history and memory. In addition to the assumptions, methods, and purposes of film/media histories, the course will also ask crucial questions regarding the nature of inquiry and the status of data and evidence. Students will learn how to address a specific research question through a variety of methodologies in a cogent and comprehensive manner. Students will also develop competency in writing a research proposal and using research tools such as Endnote and online journal databases.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.
MCS 519
TOPICS FOR CAREER DEVELOPMENT IN MEDIA
Graduate
This course introduces students to possible areas for professional advancement in media and cinema. As a rotating topic, it will focus on four areas of development: archiving and curating; community activism; programming series and festivals; the practice of media criticism; and the use of digital media in various contexts. The courses under this rubric may include experiential learning opportunities.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 520
TOPICS IN MEDIA STUDIES
Graduate
This is a seminar that focuses on a particular area of media studies including, but not limited to, topics such as the contemporary media industries, kids media culture, television studies, music cultures, digital divide, race and media, celebrity culture, radio studies, war and media, gender and media, global television, new media studies and sexuality and media. Students may take this seminar repeatedly in different topic areas.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 521
TOPICS IN CINEMA STUDIES
Graduate
This is a seminar-level course that provides in-depth examinations of Cinema Studies topics. Topics vary from quarter to quarter and may include studies of film genres, film authorship, national cinemas, global cinema, gender in cinema, animation, film theory, early cinema, film aesthetics, race and representation, film sound studies, or other rotating topics.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 522
TOPICS IN CINEMA/MEDIA HISTORY
Graduate
Examination of a particular era of film history or national cinema, film movements, or moments in social history and their relationship to film production. Topics currently in rotation include American Films of the 1970s, Latin American Cinema, War and Film, New German Cinema, feminist film, etc. Examination of a particular eras or forms of television/media from a historical perspective. Topics could include but are not limited to: History of American Broadcasting, International Broadcasting Structures, Television Outside the Box, Public and Community Broadcasting, genre-specific histories, etc.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 523
TOPICS IN GLOBAL FILM & MEDIA
Graduate
This course surveys a number of frameworks for understanding the global dynamics that constitute particular media cultures around the world. We will examine historical perspectives and debates concerning the processes of globalization and the media’s constitutive role in impacting our conceptions of space and time across local, national and transnational terrains. Students will interrogate how the actions of nation states, civil society and transnational corporations impact media industries and ask how media representations are contested across registers of nation, region, citizenship, class, religion, labor, gender, Diaspora, race, migration and ethnicity.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 530
NEW MEDIA AND CULTURE
Graduate
This seminar considers the cultural ramifications of new media in shaping life experience and opportunity. As interactive digital media technologies expand opportunities for social networking, text and instant messaging, file sharing, collaborative authoring, blogging, podcasting and mobile communication, this seminar asks how these new technologies impact identity formation, creative participation and concepts of public culture. Issues of concern include race, gender, class, sexuality, cultural citizenship, fandom, subcultures and democratic participation.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.
MCS 531
MEDIA POLICY
Graduate
This seminar considers the regulatory policies that have shaped media culture including those governing ownership, content, labor and intellectual property. The focus is on how citizens, industries, governments and social movements have sought to impact the role of media in public and private life including issues such as civil rights, media conglomeration, sex and violence, free speech, public access, children's media, public radio/TV, fair use in copyright, international governance, commercialization and equal opportunity. Students engage with these issues through investigating historical and contemporary case studies within local and global contexts.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 532
ASIAN CINEMA/MEDIA
Graduate
This seminar examines the cultural, social and economic contexts to Asian cinema/media. The course focuses on national and regional cinema/media industries and their transnational contexts of production, circulation and reception. Students consider questions of identity and cultural difference, particularly in relation to immigration, Diasporas, transnationalism, youth culture, class, gender, sexuality, race and ethnicity. As well as an historical survey, the course considers recent develops as digital technologies impact Asian media cultures.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 533
LATIN AMERICAN CINEMA/MEDIA
Graduate
This seminar examines the production, distribution and impact of cinema and media in the Latin American context. We will view a range of works from major and minor industries and investigate how social, economic and political forces have shaped or are presently influencing and transforming national cinemas and their industries. Questions of identity and cultural difference, particularly in relation to immigration, diasporas, transnationalism, youth culture, class, gender, sexuality, race and ethnicity are central to the discussions. We will consider the diversity of styles and topics as much as the discursive and theoretical frameworks that in the past defined, or those that are now redefining, the cinema and media of the region.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 534
DOCUMENTARY STUDIES
Graduate
This course examines the rise and growth of documentary forms, including audio, film, television, photography, and literary journalism. Students will study representative works from each documentary approach and learn to analyze the techniques of observation and representation at use in these pieces. Students will become familiar with the social, aesthetic, and historical discourses of documentary and understand major theoretical and critical approaches of analyzing documentary forms. Students will become aware of the convergent and divergent qualities that are features of qualitative research, journalism, and documentary practice. Students will learn how documentary functions as a witness to personal and public histories.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 541
AUDIO DOCUMENTARY
Graduate
This course uses hands-on projects so that students can explore the steps in the process of creating an audio documentary. Through practical application students consider questions that surround the interpretation of cultural experience. Additionally, students analyze a variety of approaches to audio documentary in an effort to understand better this significant form of storytelling.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.
MCS 542
TOPICS IN PRODUCTION
Graduate
This course allows students to take production courses from across the university including, but not limited to, Advanced Sound Design, Advanced Non-linear Editing, Documentary Production, Advanced Cinematography, Document Design, Online Documentation, Writing and Technology, Web Design I and Web Design II.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 550
FANDOM AND ACTIVE AUDIENCES
Graduate
Fans, people who hold an emotional attachment to a particular object, have been the object of academic study for twenty years; yet, the study of audiences and reader/viewer-ship has a much longer and more detailed history that goes back hundreds of years. Why this fascination with the way people interpret and react to media? What is it about fans, audiences, or readers that holds such interest for academics? This course will explore the relationship between fans, academics, and cultural studies. Through an examination of the way fans and active audiences are studied, we can better understand our media, our texts, and our selves.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 575
DIGITAL MEDIA ETHICS
Graduate
This course provides students with the necessary background to investigate legal and ethical issues in digital technology and culture. Additionally, students practice digital literacy as an application of these ethical issues. This class offers topics including, but not limited to copyright, authorship, attribution, civics, vernacular creativity, Free Speech, filesharing, piracy, libel, access, participation, modes of control, net neutrality, etc., in order for students will come away with a sense of the ethical issues within today’s culture.

Status as a MA-DCMA or a MA-MCS student is a prerequisite for this class.

MCS 590
MEDIA & CINEMA STUDIES WORKSHOP (VARIABLE TOPICS)
Graduate
This course allows students to sample a range of hands on, practical offerings in communication that can enhance their knowledge and expertise. Topics offered include survey design and focus groups.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 592
INDEPENDENT STUDY
Graduate
This is a class reserved for independent coursework and specialization under the supervision of a faculty member. Students approved to take this class may do so at any point in the program. However, graduate students in the M.A. in Media, Culture and Society, should enroll in MCS 592 Independent Study during the quarter they write and defend the thesis/project proposal. This is a pass/fail 4-credit hour course. Enrollment in this course requires your thesis/project advisor's approval. Tuition is charged. You must complete your thesis/project proposal to be approved for this class.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

MCS 599
RESEARCH THESIS
Graduate
Enroll in 599 during the term you plan to defend your thesis or complete your final project. This is a graded, 4-credit hour course. Tuition is charged and loan deferment is available. You must have a scheduled defense/completion date to be approved for this class. Your thesis/project advisor needs to communicate this date to the Graduate Studies Director for your program, before you are allowed to enroll.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.
### MCS 601
**ACTIVE DEGREE COMPLETION**  
**Graduate**  
This is a 0-credit hour course that is available to students who are working actively toward the completion of a thesis or project. Enrollment in this course is limited to the two quarters prior to the defense of the thesis/project and requires graduate director approval and proof of work each quarter. No tuition is charged, only student fees (approx. $50), which allows you access to the library and other campus facilities. This course is graded as pass/fail. Eligible for loan deferment and student loans.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

### MCS 602
**CANDIDACY CONTINUATION**  
**Graduate**  
This is a 0-credit hour course that requires permission from the graduate director. Students can enroll in 602 if they are finishing a course in which they received an incomplete (IN). If the student does not register for any regular courses in the quarter they plan to finish the incomplete, they can enroll in 602 and access the library and other campus facilities. No tuition is charged, only student fees (approx. $50). This course is graded as pass/fail. Not eligible for loan deferment or student loans.

Status as a Graduate Media and Cinema Studies student is a prerequisite for this class.

### MED 95
**CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH**  
**Undergraduate**  
Required of all music education students. Observations and participation experience with children and youth in a school or agency. This course is a prerequisite for student teaching and related professional courses. This course serves as a pre-requisite for MED 392.

Status as a Music Education student who has passed the petition to major is a prerequisite for this class.

### MED 101
**BRASS I**  
**Undergraduate**  
Trumpet and french horn. This course focuses on the fundamentals of instrumental performance, pedagogy, and other related information. Open only to School of Music students.

Status as a Music student is a prerequisite for this class.

### MED 102
**BRASS II**  
**Undergraduate**  
Trombone, euphonium and tuba. This course focuses on the fundamentals of instrumental performance, pedagogy, and other related information. Open only to School of Music students.

Status as a Music student is a prerequisite for this class.

### MED 103
**WOODWINDS I**  
**Undergraduate**  
Clarinet and saxophone. This course focuses on the fundamentals of instrumental performance, pedagogy, and other related information. Open only to School of Music students.

Status as a Music student is a prerequisite for this class.

### MED 104
**WOODWINDS II**  
**Undergraduate**  
Oboe and bassoon. This course focuses on the fundamentals of instrumental performance, pedagogy, and other related information. Open only to School of Music students.

Status as a Music student is a prerequisite for this class.
Violin and viola. This course focuses on the fundamentals of instrumental performance, pedagogy, and other related information. Open only to School of Music students.

Status as a Music student is a prerequisite for this class.

Cello and string bass. This course focuses on the fundamentals of instrumental performance, pedagogy, and other related information. Open only to School of Music students.

Status as a Music student is a prerequisite for this class.

This course focuses on the fundamentals of instrumental percussion performance, pedagogy, and other related information. Open only to School of Music students.

Status as a Music student is a prerequisite for this class.

This course focuses on the continued study of instrumental percussion performance, pedagogy, and other related information. Open only to School of Music students.

Status as a Music student is a prerequisite for this class.

Flute. This course focuses on the fundamentals of instrumental performance, pedagogy, and other related information.

Status as a Music student is a prerequisite for this class.

This course focuses on the fundamentals of guitar performance and pedagogy. Students learn how to teach group guitar classes and accompany classroom teaching.

Status as a Music student is a prerequisite for this class.

Open only to School of Music students. A developmental approach to singing that emphasizes a healthy approach to the child’s singing voice, as well as the development of the participants’ vocal skills.

Status as a Music student is a prerequisite for this class.
MED 200
MUSIC EDUCATION LAB ENSEMBLE
Undergraduate
This course is designed to provide music education majors with experience singing and playing secondary and tertiary instruments in a student led lab ensemble. The participants will also explore literature appropriate for 6-12 grade choral, wind, and string ensembles. Music education majors who have completed the conducting courses or are currently taking Conducting for the Music Educator will serve as conductors for the Lab Ensemble; music education majors who are currently in the methods mix may take this class as a music education elective and will serve as instrumentalists and singers in the ensemble. This class may be taken for two quarters (freshman, sophomore, or senior year) as a one-credit music education elective (2 total quarter hours). The third year the class would be taken as the lab component of the Conducting for the Music Educator class.

MED 201
CLASSROOM INSTRUMENTS
Undergraduate
The purpose of this course is to provide students with the opportunities to develop basic skills using instruments and sound sources appropriate for use in general music (K-8) classroom settings. This course will focus on: at least one voice of recorder, body percussion, barred Orff instruments, unpitched percussion, and drums. The skills and knowledge students attain from the course experience will better prepare them to play and teach these instruments to children in school settings and beyond.

MED 202
COMPOSITION IN THE K-12 CLASSROOM
Undergraduate
Composition is one of the nine National Standards for Music Education and has become an important topic in public school music curricula. The purpose of this course is to introduce music education students to the use of composition in the music classroom form Kindergarten through 12th grade. We will explore composition as a process and a product, examine the historical roots of composition in schools, and work on building the necessary tools and techniques to be successful music educators who lead students through the process of composition.

MED 203
FOUNDATIONS OF MUSIC TEACHING AND LEARNING I
Undergraduate
This course will focus on the development of culturally response practice in music classrooms and rehearsals. Culture will be studied from the perspective of language, race, ethnicity, religion, and sexual identity and related to the k-12 music context. This course is designed to address recent curricular requirements established by the Illinois State Board of Education.

MED 204
FOUNDATIONS OF MUSIC TEACHING AND LEARNING II
Undergraduate
This course will introduce music education students to the use of data driven measures in the k-12 music classroom. Students will learn how to read research, apply research findings to instructional design, assess students, write rubrics, and revise curricula based on formative and summative assessments. This course is in response to the Illinois State Board of Education requirements for new teacher licensure.

MED 300
ELEMENTARY & MIDDLE SCHOOL INSTRUMENTAL METHODS & LAB
Undergraduate
This course will serve to introduce students to the practical and philosophical aspects of teaching instrumental music at the elementary and middle school levels. Topics included will be: philosophies of teaching; comprehensive musicianship through performance (CMP); organization and administration of the instrumental music program; planning and curriculum; assessment; evaluation and measurement of teaching and learning; instructional and source materials; methods and techniques of instruction; observation of teaching situations. Students will review method books and literature, develop lesson and rehearsal plans, create assessments, and conduct visiting ensembles.

MED 306 is a prerequisite for this class.
MED 301  
SECONDARY INSTRUMENTAL METHODS AND LAB  
Undergraduate  
The purpose of this course is to prepare students for secondary levels of instrumental music instruction. Primary goals include administrative responsibilities, teaching techniques, use of appropriate classroom materials (including repertoire selection), and appropriate means of student evaluation.

MED 300 is a prerequisite for this class.

MED 303  
ELEMENTARY VOCAL-GENERAL METHODS & LAB  
Undergraduate  
This course is designed to introduce music education students to the world of the elementary general music classroom. Students will develop the skills and fundamental knowledge to function effectively in this environment. Course content includes readings, practical experiences in the field, peer teaching, self-evaluation, and work using a digital portfolio platform.

Status as a Music Education student who has passed the petition to major is a prerequisite for this class.

MED 304  
MIDDLE SCHOOL VOCAL METHODS AND LAB  
Undergraduate  
The course is designed to prepare music education majors to teach music in a middle school/junior high school setting. Students will learn how to design a vocal music program, including both general music and chorus. More specifically, the course will address 1) the adolescent personality, middle school philosophy, and emerging musical knowledge and skills, 2) choral music repertoire, the changing voice, and rehearsal techniques, and 3) general music curriculum and assessment, classroom management, and the use of technology for middle schools. As part of the course, students will be required to observe and interact with middle school general music classrooms and choruses. This course is required for all vocal music education majors.

MED 303 is a prerequisite for this class.

MED 305  
SECONDARY VOCAL METHODS AND LAB  
Undergraduate  
This course is designed to introduce music students to music education in k-12 settings. Students will learn about the different contexts where music is taught, learning modalities and applications in music classrooms, classroom management, and state and national standards for the arts. Course content will include readings, observations, and peer teaching.

MED 304 is a prerequisite for this class.

MED 306  
INTRODUCTION TO MUSIC EDUCATION  
Undergraduate  
This course is designed to introduce music students to music education in k-12 settings. Students will learn about the different contexts where music is taught, learning modalities and applications in music classrooms, classroom management, and state and national standards for the arts. Course content will include readings, observations, and peer teaching.

Status as a Music student is a prerequisite for this class.

MED 307  
ORCHESTRAL LITERATURE  
Undergraduate  
This course will provide students with a practical introduction to the various types of string and full orchestra literature available at the elementary, middle, and high school levels. Topics will include music source information, comprehensive musicianship in practice, score listening, score study and evaluation, source materials, grading of educational literature and copyright law.

A petition to major is a prerequisite for this class.
MED 308
ACCOMPANYING FOR THE MUSIC EDUCATOR
Undergraduate
The objectives of this course are to help students further develop practical keyboard facility and keyboard musicianship skills, reinforce musical and theoretical concepts presented in Musicianship classes, improve facility of reading piano music, establish keys of pieces by preparing scales, arpeggios, and chord progressions, and combine all of the above in teaching more effectively and confidently with good piano accompaniment for classroom/choral teaching.

A petition to major is a prerequisite for this class.

MED 309
AFRICAN DRUMMING FOR THE MUSIC EDUCATOR
Undergraduate
This course is designed to introduce music education students to the basics of African Drumming and how to incorporate this genre into the k-12 music classroom. Students will learn to drum, sing, and dance within this genre. They will also write lesson/unit plans that demonstrate their understanding of how to incorporate African Drumming in the music classroom.

Status as a Music Education student who has passed the petition to major is a prerequisite for this class.

MED 310
MUSIC EDUCATION FOR THE EXCEPTIONAL CHILD
Undergraduate
A survey course highlighting special education mandates that affect music educators, including profiles of giftedness and various areas of disability. Alternative teaching strategies and classroom management techniques are also addressed. Teaching observations are a required component of this course.

Status as a Music Education student who has passed the petition to major is a prerequisite for this class.

MED 311
MARCHING BAND TECHNIQUES
Undergraduate
Basic marching techniques and movements, selection and use of music, design and charting of shows using digital medium.

Status as a Music Education student who has passed the petition to major is a prerequisite for this class.

MED 313
CHORAL LITERATURE
Undergraduate
This course will provide students with a practical introduction to the various types of choral literature available for elementary, middle school and high school vocal ensembles. Topics will include music source information, listening, octavo study and evaluation, and the development of the students' personal musicianship through ear training.

A petition to major is a prerequisite for this class.

MED 325
TECHNOLOGY FOR MUSIC EDUCATORS
Undergraduate
This course will acquaint the music education major with a variety of music technology hardware and software applications, which may be used effectively for instruction in the music classroom and studio. Developing lesson plans and projects are required components of this course.

Status as a Graduate Music Education student or an Undergraduate Music Education major with a completed petition to major is a prerequisite for this class.
MED 340
CONDUCTING FOR THE MUSIC EDUCATOR
Undergraduate
This course will equip the music educator with the preliminary abilities to teach from the podium (i.e. in a performance ensemble setting). It will provide a sequential and methodical approach to the knowledge, skills, and attitudes that are necessary for effective and efficient teaching in the performing ensemble classroom.

A petition to major in Music Education is a prerequisite for this class.

MED 360
TOPICS IN MUSIC EDUCATION
Undergraduate
(1-4 credits) Concentrated study of a selected area of music education.

Status as a Graduate Music Education student or an Undergraduate Music Education major with a completed petition to major is a prerequisite for this class.

MED 365
INTRODUCTION TO KODALY
Undergraduate
This course will cover the philosophy and basic teaching tools promoted by Zoltan Kodaly. Participants will finish with an abundance of new songs, games, activities and techniques that will energize, organize, and perhaps transform their teaching. Daily schedule will include pedagogy, musicianship, folk music materials, and special topics such as instruments in the classroom and classical music connections for elementary students.

Status as a Graduate Music Education student or an Undergraduate Music Education major with a completed petition to major is a prerequisite for this class.

MED 380
KODALY: LEVEL I
Undergraduate
(3 credits) Using high quality traditional folk music as the initial core musical material, Kodaly-inspired musician educators engage their students in joyful, sequential, developmentally-appropriate, child-centered, interactive, sound-based instruction. During an intensive two-week summer workshop, the Level I Kodaly Certification program introduces the Kodaly approach in a three-part program: musicianship, Kodaly pedagogy, and folk music and materials. Offered only in the summer as a workshop.

Status as a Graduate Music Education student or an Undergraduate Music Education major with a completed petition to major is a prerequisite for this class.

MED 381
KODALY: LEVEL II
Undergraduate
(3 credits) Continued intensive study of materials, techniques, and pedagogy for sequential skill and curriculum development in beginning level concepts and elements for developing dictation and sight-reading skills; repertoire for singing, moving, and listening. Folk music materials and analysis; continuation of personal retrieval system. Modes, diatony, simple functional harmony; Conducting, Chorus.

MED 380 or completion of Kodaly Level I at another accredited program is a prerequisite for this class.

MED 382
KODALY: LEVEL III
Undergraduate
(3 credits) Continued intensive study of materials, techniques, and pedagogy for sequential skill and curriculum development in intermediate level concepts and elements for developing dictation and sight-reading skills; repertoire for singing, moving, and listening. Folk music materials and analysis; continuation of personal retrieval system. Modes, diatony, simple functional harmony; Musicianship, Kodaly Pedagogy, Folk Music and materials, and Chorus.

MED 381 or Kodaly Level II at another accredited institution is a prerequisite for this class.
MED 383
DALCROZE: LEVEL I
Undergraduate
Eurythmics, solfege, improvisation, pedagogy, composition, and body technique.

Status as a Graduate Music Education student or an Undergraduate Music Education major with a completed petition to major is a prerequisite for this class.

MED 386
ORFF: LEVEL I
Undergraduate
(3 credits) Introduction to Orff-Schulwerk through the process of integrating rhythm and movement, speech and song, rhythm instruments, Orff instruments, and soprano recorder for creative music-making with children in pre-school, elementary grades, and those with special needs; emphasis on materials in major and minor pentatonic scales.

Status as a Music Education student who has passed the petition to major is a prerequisite for this class.

MED 389
CARL ORFF CHAPTER WORKSHOP
Undergraduate
Carl Orff Chapter Workshop

Status as a Music Education student who has passed the petition to major is a prerequisite for this class.

MED 390
ORFF: LEVEL II
Undergraduate
(3 credits) Continuation of all aspects of the Schulwerk process; emphasis on a variety of materials, vocal, instrumental, and improvisational techniques for children in the middle and upper elementary grades; introduction of alto recorder; experience with dorian, aeolian, phrygian modes, major and minor tonalities.

MED 386 or completion of Orff Level I at another accredited institution is a prerequisite for this class.

MED 391
ORFF: LEVEL III
Undergraduate
(3 credits) Advanced course leading to certificate in Orff-Schulwerk; additional exploration of Schulwerk materials found in volumes 35 and techniques of contemporary music; further development of skills in arranging rhythmic, speech, movement, and melodic materials for a variety of educational settings; recorder ensemble, lesson planning, and teaching opportunities.

MED 390 or completion of Orff Level II at another accredited institution is a prerequisite for this class.

MED 392
STUDENT TEACHING
Undergraduate
A variety of supervised and directed experiences in the teaching of music in elementary and secondary schools. The teaching in schools is supplemented with conferences, evaluations, and seminars. COREQUISITE(S): MED 393.

MED 300, MED 303, MED 306, MED 310, MED 095 and status as a Music Education major is a prerequisite for this class.

MED 393
STUDENT TEACHING SEMINAR
Undergraduate
A seminar meeting will be held every week for the purpose of sharing experiences and discussing challenges. In addition, important certification and graduation requirements will be covered. School of Music faculty will host these meetings. COREQUISITE(S): MED 392.

Status as a Music Education student who has passed the petition to major is a prerequisite for this class.
MED 398
INDEPENDENT STUDY
Undergraduate
An in-depth study of a music education topic under the supervision of a faculty member. (Departmental permission required).

Status as a Music Education student who has passed the petition to major is a prerequisite for this class.

MED 400
CULTURALLY RESPONSIVE MUSIC EDUCATION: EXPLORING CONCEPTS, THEORIES, AND PRACTICE IN K-12 CLASSROOMS
Graduate
The American classroom has been changing radically over the past two decades. Currently, one in nine children is the child of an immigrant, with most immigrants coming from Latin America and Asian countries. The changing demographic of American schools is in stark contrast to the face of the teaching profession, which is predominantly white and female. The purpose of this course is to introduce music educators to the concepts and theories that ground culturally responsive pedagogy, and to provide a framework for adaptation of this pedagogy into the music classroom.

MED 401
SEMINAR IN MUSIC EDUCATION I: PHILOSOPHY OF MUSIC EDUCATION
Graduate
The courses are designed 1) to develop a philosophical and historical perspective of music education; 2) to study the psychology of music; 3) to study topics in curriculum design; 4) to encourage study and research in areas of student interest and need; and 5) to study contemporary issues in music education that can have significant impact on classroom teaching.

Status as a Graduate Music Education student is a prerequisite for this class.

MED 402
SEMINAR IN MUSIC EDUCATION II: PSYCHOLOGY OF MUSIC TEACHING & LEARNING
Graduate
The courses are designed 1) to develop a philosophical and historical perspective of music education; 2) to study the psychology of music; 3) to study topics in curriculum design; 4) to encourage study and research in areas of student interest and need; and 5) to study contemporary issues in music education that can have significant impact on classroom teaching.

MED 401 is a prerequisite for this class.

MED 403
SEMINAR IN MUSIC EDUCATION III: CURRICULUM DEVELOPMENT IN MUSIC EDUCATION
Graduate
The courses are designed 1) to develop a philosophical and historical perspective of music education; 2) to study the psychology of music; 3) to study topics in curriculum design; 4) to encourage study and research in areas of student interest and need; and 5) to study contemporary issues in music education that can have significant impact on classroom teaching.

MED 402 is a prerequisite for this class.

MED 404
HISTORY OF MUSIC EDUCATION IN THE UNITED STATES
Graduate
This class will provide graduate music education majors with the opportunity to develop historical frameworks for their understanding of the teaching profession. Students will gain a perspective of music education history, in order to better understand the present and future. Students will be expected to question the nature and value of music, in order to gain a sense of purpose in your teaching. Throughout the quarter, historical issues will be addressed in relation to the practice of teaching.

MED 405
ACCOMPANYING FOR THE MUSIC EDUCATOR
Graduate
The objectives of this course are to help students further develop practical keyboard facility and keyboard musicianship skills, reinforce musical and theoretical concepts presented in Musicianship classes, improve facility of reading piano music, establish keys of pieces by preparing scales, arpeggios, and chord progressions, and combine all of the above in teaching more effectively and confidently with good piano accompaniment for classroom/choral teaching.
MED 406
**ORCHESTRAL LITERATURE**
Graduate
This course will provide students with a practical introduction to the various types of string and full orchestra literature available at the elementary, middle, and high school levels. Topics will include music source information, comprehensive musicianship in practice, score listening, score study and evaluation, source materials, grading of educational literature and copyright law.

MED 409
**AFRICAN DRUMMING FOR THE MUSIC EDUCATOR**
Graduate
This course is designed to introduce music education students to the basics of African Drumming and how to incorporate this genre into the k-12 music classroom. Students will learn to drum, sing, and dance within this genre. They will also write lesson/unit plans that demonstrate their understanding of how to incorporate African Drumming in the music classroom.

MED 410
**MUSIC EDUCATION FOR THE EXCEPTIONAL CHILD**
Graduate
A survey course highlighting special education mandates that affect music educators, including profiles of giftedness and various areas of disability. Alternative teaching strategies and classroom management techniques are also addressed.

MED 411
**MARCHING BAND TECHNIQUES**
Graduate
Basic marching techniques and movements, selection and use of music, design and charting of shows using digital medium.

MED 413
**CHORAL LITERATURE**
Graduate
This course will provide students with a practical introduction to the various types of choral literature available for elementary, middle school and high school vocal ensembles. Topics will include music source information, listening, octavo study and evaluation, and the development of the students' personal musicianship through ear training.

MED 425
**TECHNOLOGY FOR MUSIC EDUCATORS**
Graduate
This course will acquaint the music education major with a variety of music technology hardware and software applications, which may be used effectively for instruction in the music classroom and studio. Developing lesson plans and projects are required components of this course.

MED 480
**KODALY: LEVEL I**
Graduate
(3 credits) Using high quality traditional folk music as the initial core musical material, Kodaly-inspired musician educators engage their students in joyful, sequential, developmentally-appropriate, child-centered, interactive, sound-based instruction. During an intensive two-week summer workshop, the Level I Kodaly Certification program introduces the Kodaly approach in a three-part program: musicianship, Kodaly pedagogy, and folk music and materials.

MED 481
**KODALY: LEVEL II**
Graduate
(3 credits) Continued intensive study of materials, techniques, and pedagogy for sequential skill and curriculum development in beginning level concepts and elements for developing dictation and sight-reading skills; repertoire for singing, moving, and listening. Folk music materials and analysis; continuation of personal retrieval system. Modes, diatony, simple functional harmony; Conducting. Chorus.
MED 483
KODALY: LEVEL III
Graduate
(3 credits) Continued intensive study of materials, techniques, and pedagogy for sequential skill and curriculum development in intermediate level concepts and elements for developing dictation and sight-reading skills; repertoire for singing, moving, and listening. Folk music materials and analysis; continuation of personal retrieval system. Modes, diatony, simple functional harmony; Musicianship, Kodaly Pedagogy, Folk Music and materials, and Chorus.

MED 486
ORFF: LEVEL I
Graduate
(3 credits) Introduction to Orff-Schulwerk through the process of integrating rhythm and movement, speech and song, rhythm instruments, Orff instruments, and soprano recorder for creative music-making with children in pre-school, elementary grades, and those with special needs; emphasis on materials in major and minor pentatonic scales.

MED 490
ORFF: LEVEL II
Graduate
(3 credits) Continuation of all aspects of the Schulwerk process; emphasis on a variety of materials, vocal, instrumental, and improvisational techniques for children in the middle and upper elementary grades; introduction of alto recorder; experience with dorian, aeolian, phrygian modes, major and minor tonalities.

MED 491
ORFF: LEVEL III
Graduate
(3 credits) Advanced course leading to certificate in Orff-Schulwerk; additional exploration of Schulwerk materials found in volumes 35 and techniques of contemporary music; further development of skills in arranging rhythmic, speech, movement, and melodic materials for a variety of educational settings; recorder ensemble, lesson planning, and teaching opportunities.

MED 492
TECHNIQUES OF RESEARCH IN MUSIC EDUCATION
Graduate
This course will examine the basic questions, issues and theoretical frameworks central to the purpose, conceptualization, conduct, writing, reading, and the use of educational research as a means for informing educational theory, practice and policy.

Status as a Graduate Music Education student is a prerequisite for this class.

MED 498
MASTERS CANDIDATE RESEARCH
Graduate
Status as a Graduate Music Education student is a prerequisite for this class.

MED 499
INDEPENDENT STUDY
Graduate
An in-depth study of a music education topic under the supervision of a faculty member. (Departmental permission required).

Status as a Graduate Music Education student is a prerequisite for this class.

MEN 1
WIND SYMPHONY
Undergraduate
The Wind Symphony is an ensemble designed to prepare wind and percussion students for careers as performers, teachers, and other careers in music. The goal is to achieve a high level of musicianship through repertoire selected by the instructor and rehearsal/performance preparation demonstrated by the individual members of the ensemble. While setting a high performance expectation, a productive and meaningful music-making environment will also be fostered. All MEN courses are repeatable courses. Placement audition required.
MEN 2
ENSEMBLE 20+
Undergraduate
Study, interpretation, rehearsal and performance of living composers? music and 20th century masterpieces, with focus on music for mixed ensembles of 8-25 players; acquisition of interpretive skills and instrumental techniques necessary for playing contemporary music.
Status as an Undergraduate Music student is a prerequisite for this class.

MEN 23
CONCERT CHOIR
Undergraduate
Rehearsal and performance of choral works from a variety of styles and historical periods. An audition is required before the first rehearsal of the quarter.

MEN 30
CHAMBER ORCHESTRA
Undergraduate
Study, rehearsal, and performance of masterpieces of the smaller orchestra repertoire, both traditional and contemporary; acquisition of a high level of musicianship as well as professional skills needed for orchestra playing, with emphasis on interpretative, listening, and blending abilities. Placement audition required.
Status as an Undergraduate Music student is a prerequisite for this class.

MEN 31
SYMPHONY ORCHESTRA
Undergraduate
Study, rehearsal, and performance of masterpieces of the orchestral repertoire, both traditional and contemporary; acquisition of necessary musical and professional skills for playing in an orchestra. Placement Audition Required.

MEN 37
WIND ENSEMBLE
Undergraduate
Study, rehearsal, and performance of masterpieces of wind literature, both traditional and contemporary, with focus on music for ensembles of 8-30 players; acquisition of necessary musical and professional skills for playing in such an ensemble. All MEN courses are repeatable courses. Placement audition required.

MEN 41
CHAMBER MUSIC
Undergraduate
A practical application of chamber music performance techniques for advanced instrumentalists and vocalists. Activities include coaching sessions, class participation, and public performances.

MEN 47
UNIVERSITY SINGERS
Undergraduate
An advanced choral ensemble of selected voices. Audition required. All MEN courses are repeatable courses.

MEN 101
WIND SYMPHONY
Undergraduate
The Wind Symphony is an ensemble designed to prepare wind and percussion students for careers as performers, teachers, and other careers in music. The goal is to achieve a high level of musicianship through repertoire selected by the instructor and rehearsal/performance preparation demonstrated by the individual members of the ensemble. While setting a high performance expectation, a productive and meaningful music-making environment will also be fostered. All of the MEN courses are repeatable courses. Placement audition required.
Status as an Undergraduate Music student is a prerequisite for this class.
MEN 123
CONCERT CHOIR
Undergraduate
Rehearsal and performance of choral works from a variety of styles and historical periods. Open to all DePaul undergraduates by audition.

MEN 130
CHAMBER ORCHESTRA
Undergraduate
Study, rehearsal, and performance of masterpieces of the smaller orchestra repertoire, both traditional and contemporary; acquisition of a high level of musicianship as well as professional skills needed for orchestra playing, with emphasis on interpretative, listening, and blending abilities. Placement audition required.

Status as an Undergraduate Music student is a prerequisite for this class.

MEN 131
SYMPHONY ORCHESTRA
Undergraduate
Study, rehearsal, and performance of masterpieces of the orchestral repertoire, both traditional and contemporary; acquisition of necessary musical and professional skills for playing in an orchestra. All of the MEN courses are repeatable courses.

Status as an Undergraduate Music student is a prerequisite for this class.

MEN 221
WIND ENSEMBLE
Undergraduate
Study, rehearsal, and performance of masterpieces of wind literature, both traditional and contemporary, with focus on music for ensembles of 8-30 players; acquisition of necessary musical and professional skills for playing in such an ensemble. All of the MEN courses are repeatable courses.

Status as an Undergraduate Music student is a prerequisite for this class.

MEN 231
UNIVERSITY SINGERS
Undergraduate
An advanced choral ensemble of selected voices. All of the MEN courses are repeatable courses. Open to all DePaul undergraduates by audition.

MEN 241
CHAMBER MUSIC
Undergraduate
A practical application of chamber music performance techniques for advanced instrumentalists and vocalists. Activities include coaching sessions, class participation, and public performances.

Status as an Undergraduate Music student is a prerequisite for this class.

MEN 300
AFRICAN MUSIC ENSEMBLE
Undergraduate
Students will learn musical techniques and repertory from cultures of Africa and the African diaspora. Course activities may include instrumental techniques, singing, and dancing. No prior experience with African music necessary.

Status as a Music student is a prerequisite for this class.
MEN 301
ENSEMBLE 20+
Undergraduate
Study, interpretation, rehearsal and performance of living composers’ music and 20th century masterpieces, with focus on music for mixed ensembles of 8-25 players; acquisition of interpretive skills and instrumental techniques necessary for playing contemporary music.

Status as an Undergraduate Music student is a prerequisite for this class.

MEN 400
ENSEMBLE 20+
Graduate
Study, interpretation, rehearsal and performance of living composers’ music and 20th century masterpieces, with focus on music for mixed ensembles of 8-25 players; acquisition of interpretive skills and instrumental techniques necessary for playing contemporary music.

Status as a Graduate Music student is a prerequisite for this class.

MEN 401
WIND SYMPHONY
Graduate
The Wind Symphony is an ensemble designed to prepare wind and percussion students for careers as performers, teachers, and other careers in music. The goal is to achieve a high level of musicianship through repertoire selected by the instructor and rehearsal/performance preparation demonstrated by the individual members of the ensemble. While setting a high performance expectation, a productive and meaningful music-making environment will also be fostered. All MEN courses are repeatable courses. Placement audition required.

Status as a Graduate Music student is a prerequisite for this class.

MEN 402
WIND SYMPHONY
Graduate
The Wind Symphony is an ensemble designed to prepare wind and percussion students for careers as performers, teachers, and other careers in music. The goal is to achieve a high level of musicianship through repertoire selected by the instructor and rehearsal/performance preparation demonstrated by the individual members of the ensemble. While setting a high performance expectation, a productive and meaningful music-making environment will also be fostered. All MEN courses are repeatable courses. Placement audition required.

Status as a Graduate Music student is a prerequisite for this class.

MEN 406
CONCERT CHOIR
Graduate
Rehearsal and performance of choral works from a variety of styles and historical periods. All MEN courses are repeatable courses. Open to graduate students only. Audition required.

MEN 407
SYMPHONY ORCHESTRA
Graduate
Study, rehearsal, and performance of masterpieces of the orchestral repertoire, both traditional and contemporary; acquisition of necessary musical and professional skills for playing in an orchestra. Placement Audition Required.

Status as a Graduate Music student is a prerequisite for this class.

MEN 408
WIND ENSEMBLE
Graduate
Study, rehearsal, and performance of masterpieces of wind literature, both traditional and contemporary, with focus on music for ensembles of 8-30 players; acquisition of necessary musical and professional skills for playing in such an ensemble. All MEN courses are repeatable courses.

Status as a Graduate Music student is a prerequisite for this class.
MEN 409  
UNIVERSITY SINGERS  
Graduate  
An advanced choral ensemble of selected voices. Placement audition required. All MEN courses are repeatable courses. Open to graduate students only. Audition required.

MEN 410  
CHAMBER MUSIC  
Graduate  
A practical application of chamber music performance techniques for advanced instrumentalists and vocalists. Activities include coaching sessions, class participation, and public performances.

MEN 411  
ENSEMBLE 20+  
Graduate  
Study, interpretation, rehearsal and performance of living composers’ music and 20th century masterpieces, with focus on music for mixed ensembles of 8-25 players; acquisition of interpretive skills and instrumental techniques necessary for playing contemporary music.

Status as a Graduate Music student is a prerequisite for this class.

MEN 412  
CHAMBER ORCHESTRA  
Graduate  
Study, rehearsal, and performance of masterpieces of the smaller orchestra repertoire, both traditional and contemporary; acquisition of a high level of musicianship as well as professional skills needed for orchestra playing, with emphasis on interpretative, listening, and blending abilities. Placement audition required.

Status as a Graduate Music student is a prerequisite for this class.

MEN 423  
CONCERT CHOIR  
Graduate  
Rehearsal and performance of choral works from a variety of styles and historical periods. An audition is required before the first rehearsal of the quarter.

MEN 430  
CHAMBER ORCHESTRA  
Graduate  
Study, rehearsal, and performance of masterpieces of the smaller orchestra repertoire, both traditional and contemporary; acquisition of a high level of musicianship as well as professional skills needed for orchestra playing, with emphasis on interpretative, listening, and blending abilities. Placement audition required.

Status as a Graduate Music student is a prerequisite for this class.

MEN 431  
SYMPHONY ORCHESTRA  
Graduate  
Study, rehearsal, and performance of masterpieces of the orchestral repertoire, both traditional and contemporary; acquisition of necessary musical and professional skills for playing in an orchestra. All MEN courses are repeatable courses. Placement audition required.

Status as a Graduate Music student is a prerequisite for this class.
MEN 437
WIND ENSEMBLE
Graduate
Study, rehearsal, and performance of masterpieces of wind literature, both traditional and contemporary, with focus on music for ensembles of 8-30 players; acquisition of necessary musical and professional skills for playing in such an ensemble. All MEN courses are repeatable courses. Placement audition required.

Status as a Graduate Music student is a prerequisite for this class.

MEN 441
CHAMBER MUSIC
Graduate
A practical application of chamber music performance techniques for advanced instrumentalists and vocalists. Activities include coaching sessions, class participation, and public performances.

Status as a Graduate Music student is a prerequisite for this class.

MEN 447
UNIVERSITY SINGERS
Graduate
An advanced choral ensemble of selected voices. All MEN courses are repeatable courses. Placement audition required.

MEN 498
INDEPENDENT STUDY
Graduate
An in-depth study of a music ensemble topic under the supervision of a faculty member. (Departmental permission required).

Status as a Graduate Music student is a prerequisite for this class.

MGT 202
MAKING SENSE OF MANAGERIAL DATA
Undergraduate
This course is designed to encourage and enable students to think creatively and critically about data analysis as a tool in managerial decision making. Today organizations are swamped with data, however making the most effective and efficient use of that data is a continuing challenge. This course will provide students an opportunity to practice some of the skills associated with turning data into useful information for sound managerial decision making.

MAT 137 or equivalent is a prerequisite for this course.

MGT 219
FOUNDATIONS OF BUSINESS THOUGHT
Undergraduate
A journey through the ages of written business history. This course traces the major ideas that writers, philosophers, and economists presented that helped construct the world of commerce. The course discusses readings from Plato, Aristotle, Confucius, Ben Franklin, Emerson, Thoreau, Sun Tzu, Carnegie, Marx, and Henry Ford, among others.

WRD 103 or HON 100 or HON 101 is a prerequisite for this class.
MGT 248
BUSINESS ETHICS
Undergraduate
An examination of various ethical and moral issues arising in contemporary business and its activities which affect our society and the world. Cross-listed with PHL 248.

MGT 300
PRINCIPLES OF MANAGEMENT
Undergraduate
Effective application of managerial techniques and concepts to continually improve an organization's competitive position in the marketplace. Topics include management processes, values and attitudes, ethics and diversity, the global environment of management, strategic planning, organizational structures, motivation, leadership, teams, human resources, organizational control, organizational communications, and career management.

At least 88 cumulative units is a prerequisite for Business courses that require Junior standing.

MGT 301
PRINCIPLES OF OPERATIONS MANAGEMENT
Undergraduate
Operations management focuses on the effective application of managerial techniques and concepts related to the delivery of services, manufacturing, and supply chain processes. Topics may include operations strategy, forecasting, project management, quality management, supply chain management, facility location and layout, productivity, inventory management, and scheduling.

ACC 101, ACC 102, ECO 105 and (MAT137 or equivalent) are a prerequisite for this class.

MGT 302
ORGANIZATIONAL BEHAVIOR
Undergraduate
This course focuses on the nature and consequences of human behavior in organizations. The prediction, explanation and management of individual and group behavior in the organization is dependent upon an understanding of the concepts of organizational behavior. Classroom experiences will focus on both understanding and practicing these concepts. Topics cover both the individual level - e.g. perception, attitudes, motivation - and the group level - e.g. leadership, group dynamics, communication, power and politics, and decision making.

MGT 300 is a prerequisite for this class.

MGT 307
HUMAN RESOURCES MANAGEMENT
Undergraduate
Concepts, theories, principles and techniques of personnel administration. Job analysis, employment law, recruitment, selection, training and development, employee motivation and performance appraisal, compensation, employee benefit programs, grievances, and labor relations.

At least 88 cumulative units is a prerequisite for Business courses that require Junior standing.

MGT 315
MANAGEMENT SCIENCE
Undergraduate
Management science involves the use of quantitative models to support decisions faced by managers. Topics include model formulation, linear, non-linear and integer programming, transportation, transshipment and assignment formulations, network flow, decision analysis, and multicriteria decision making. Spreadsheet and other software packages will be used to model, solve, and analyze these problems.

MGT 301 is a prerequisite for this class.

MGT 320
TRAINING AND CAREER DEVELOPMENT
Undergraduate
A study of the training and management development practices of organizations. Emphasis is placed on the identification of training needs, program design, choice of training methods and the evaluation of results. The practices and legislation affecting promotion of employees are also discussed.

MGT 307 or (declared HSP Leadership specialization and HSP 382) is a prerequisite for this class.
**MGT 322**
**THE MANAGEMENT & MEASUREMENT OF QUALITY**
*Undergraduate*

The theory and application of the concepts, principles and tools of modern quality control and management in manufacturing and service organizations. Specific topic areas include product design, process control, vendor selection and certification, quality information systems, quality costs, customer contact, and TQM philosophies and techniques.

MGT 301 is a prerequisite for this class.

**MGT 323**
**SUPPLY CHAIN MANAGEMENT**
*Undergraduate*

Analysis of the purchasing function, including sourcing, buying methods, vendor analysis, and contract execution. Organization and management of the supply chain with emphasis on intra and inter-company relationships, especially with logistics and general management.

MGT 301 is a prerequisite for this class.

**MGT 325**
**SUSTAINABLE MANAGEMENT**
*Undergraduate*

This course discusses and analyzes the concept of sustainability within a business and management setting. It will analyze the complex relationship between business and the environment and it will explore the nature of business in today's global context where addressing environmental and social issues is becoming increasingly important. Furthermore, it aims to discuss how the talents of business might be used to solve world's environmental and social problems. Rather than focusing on a 'doom and gloom' approach, the course aims to emphasize the solutions towards a sustainable economy.

**MGT 330**
**RECRUITMENT AND SELECTION**
*Undergraduate*

An examination of the recruiting and selection process used by organizations in the public and private sectors. A select group of tests will be discussed and used by the student for familiarization. EEO, Affirmative Action, and other legislation affecting recruiting and selection of employees will be discussed.

MGT 307 or (declared HSP Leadership specialization and HSP 382) is a prerequisite for this class.

**MGT 335**
**COMPENSATION & BENEFITS**
*Undergraduate*

The course has two major goals. The first is to learn how to design a pay system that is efficient, legally compliant, and fair/ethical. This is done through such topics as pay strategy, job descriptions, job evaluation, pay surveys, pay structures, pay increases, and legal compliance. The second goal is to learn how to design a benefits plan that supports company objectives and values. This is done through such topics as legal compliance, retirement plans, health insurance plans, social security, workers' compensation, and work-life benefits.

MGT 307 or (declared HSP Leadership specialization and HSP 382) is a prerequisite for this class.

**MGT 340**
**LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE**
*Undergraduate*

A framework of leadership and coaching is utilized to critically examine the effectiveness of several sports' coaches and their leadership/coaching styles, as they motivate players to achieve their maximum level of performance. Lessons from leading sports' coaches are then applied to the workplace, where managers motivate employees to perform to their potential. The course also highlights the importance of unique situations in both the sports and workplace arenas. Major topics to be covered include roles of coaches and players, skills of coaching, coaching teams, and “flow” in sports and organizations.
MGT 345
SERVICE SECTOR MANAGEMENT
Undergraduate
The intangible nature of services creates special challenges for the management of service organizations. These challenges are considered through examples drawn from various service industries - e.g., banking, transportation, hotel/restaurant, and retail - and from internal service functions such as personnel, information processing and production planning. Discussion, exercises, and assignments focus on the nature of service operations, decisions faced in the management of services and tools available to facilitate effective and efficient service delivery. Topics covered include: the service economy, service concept, design of service delivery systems, staffing delivery systems, capacity management, quality control, and service strategy. PREREQUISITE(S): MGT 301.

MGT 301 is a prerequisite for this class.

MGT 354
GLOBAL HUMAN RESOURCE MANAGEMENT
Undergraduate
Concepts, theories, principles and techniques for effectively managing a workforce globally. The focus is on effective strategies relating to human resource strategy, staffing, development, performance management, remuneration management, legal/regulatory compliance and employee/labor relations in geographically dispersed and culturally diverse organizations. The purpose of the course is to help students understand the issues related to effectively managing a workforce in a global organization and how human resource strategies and programs can enable the workforce to contribute to organizational success.

MGT 301 is a prerequisite for this class.

MGT 355
NEGOTIATIONS
Undergraduate
This course relies upon experiential learning to enhance students' ability to get what they want through the negotiation process. It is a 'skill building' course designed to help each student become more persuasive --- both personally and professionally. The course makes use of lecture, class discussion, various 'street negotiation' assignments, and a major bargaining exercise. It enables students to compete effectively in future negotiations.

MGT 301 is a prerequisite for this class.

MGT 356
SPORTS MANAGEMENT
Undergraduate
Students will examine the major issues facing sport managers in a variety of sport organization settings. Through the lens of organizational theory and behavior, areas explored include professional, Olympic, collegiate, and youth sport. Other areas of focus will include sponsorship, technology, legal issues, and emerging issues through course projects and case studies. Students will be exposed to various disciplines/careers through guest lecturers in the sports industry and/or on-site experiences.

MGT 301 is a prerequisite for this class.

MGT 357
INTERNATIONAL BUSINESS
Undergraduate
This course is designed to develop students' knowledge and the skills needed to face the challenges of globalization. It provides participants with the global perspective required to expand their intercultural communication competencies and conduct business internationally. The subjects scheduled are diversified in nature and scope. They cover many fields of knowledge such as the multi-national company's environment, culture, strategy and organization as well as the role of managers in today's global business. The course topics and assignments are intended to enrich participants' professional and personal lives.

MGT 301 is a prerequisite for this class.

MGT 360
LEADERSHIP
Undergraduate
Leadership is a social influence process, the success of which is dependent upon certain skills (e.g. communication, conflict resolution) and situational factors (e.g. task characteristics, organizational structure). This course applies traditional and contemporary leadership theory to the development of individual leadership skills. Classroom experiences focus on understanding and practicing skills associated with effective leadership.

MGT 301 is a prerequisite for this class.
MGT 361
ORGANIZATIONAL DEVELOPMENT
Undergraduate
Techniques of organizational design and development with emphasis on the methods of planned and controlled change of the organization to ensure its survival in a changing external environment. The interdependent elements of people, structure, tasks and technology will be examined and related to changes in problem-solving and renewal processes of personnel in the organization. Various phases of the OD process including changes in employees’ attitudes, resistance to change, survey feedback, team building, sensitivity training, Quality of Work Life, and intervention techniques will be explored.

MGT 300 is a prerequisite for this class.

MGT 370
BUSINESS PLAN DEVELOPMENT
Undergraduate
A business plan is an important strategic tool required to help establish the direction of an enterprise and attract capital required to run the business. It incorporates and integrates the functional areas of business and puts into practice many of the concepts and theories acquired in other classes. It describes the overall business venture, the product or service, the customers, the competition, the marketing, the legal structure, the operations, the human resources plan, the break-even analysis, the financing and all those things that are required to run a business. It helps to identify many unanticipated factors and reality-tests critical assumptions, thereby creating a roadmap for a successful enterprise. Students are encouraged to identify a business opportunity and develop their own business plan.

MGT 301 is a prerequisite for this class.

MGT 373
CREATIVITY & ENTREPRENEURSHIP
Undergraduate
This course will provide an overview of the opportunity recognition and evaluation process by examining how people, the industry, and the social environment interact to identify, create and shape entrepreneurial opportunities. The focus of this course is on creativity and innovation within an entrepreneurial context. Students learn creative tools and applications to assist in designing new business ideas and ventures.

MGT 300 is a prerequisite for this class.

MGT 393
INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
Undergraduate
Students encounter real work experience improving linkages between classroom efforts and the business world.

At least 88 cumulative units is a prerequisite for Business courses that require Junior standing.

MGT 398
SPECIAL TOPICS
Undergraduate
Content and format of this course are variable. An in-depth study of current issues in management. Subject matter and prerequisites will be indicated in class schedule.

At least 88 cumulative units is a prerequisite for Business courses that require Junior standing.

MGT 399
INDEPENDENT STUDY
Undergraduate
Available to students of demonstrated capability for intensive independent work in management.

At least 88 cumulative units is a prerequisite for Business courses that require Junior standing.

MGT 444
DEVELOPMENTAL ASSESSMENT CENTER
Graduate
Students participate in a developmental assessment center designed to assess their managerial and interpersonal skills including teamwork, oral and written communication, ethical decision-making, initiative and planning. Students receive extensive feedback regarding their performance. Based upon this feedback, personal development plans are created to be used throughout the curriculum.
MGT 500
MANAGING FOR EFFECTIVE AND ETHICAL ORGANIZATIONAL BEHAVIOR
Graduate
Students will critically examine ethical and creative methods to solve problems related to managing individuals and teams. Students utilize feedback from a developmental assessment center assessing their managerial and interpersonal skills. Personal development plans are created and skills developed throughout the course. Skill development domains include perception, attribution, motivation, learning leadership, communication, team development, managing change and conflict, decision-making, power and politics and business ethics.

Reserved for Kellstadt students or CDM students in select programs.

MGT 501
STRATEGIC SUPPLY CHAIN MANAGEMENT
Graduate
This course examines how operations related strategic decisions can lead to improved market and competitive performance. We view the supply chain (of products or services) from a strategic point of view. The design of an expedient logistics system is critically linked to the key decisions and objectives of a responsive and efficient supply chain (forecasting, aggregate planning, inventory management, matching supply with demand, transportation, location and information). We cover those topics with cases, spreadsheets and simulations to illustrate and help understand how logistical decisions impact the performance of the firm as well as the entire supply chain. Offered once a year.

MGT 502
OPERATIONS MANAGEMENT
Graduate
At its core, business is about providing a superior product or service. This course analyzes the processes used to deliver products in the marketplace. World class firms have demonstrated that effective operations management can be a potent competitive weapon. This course addresses the key operations and logistical issues in service and manufacturing operations, which have strategic as well as tactical implications. Both quantitative and qualitative techniques and principles used by leading organizations are examined. Offered every quarter.

GSB 420 or status as a MS-BIT student is a prerequisite for this class.

MGT 504
FUNDAMENTAL OPERATIONS MANAGEMENT
Graduate
Fundamental Operations Management provides an introduction to the basic and pragmatic issues faced by operations managers. Major practices in operations management, such as operations strategy selection, process improvement, inventory management, project management, and quality issues are covered to help students understand the role of operations management in an organization and between organizations (supply chain). More specifically, the course educates students in strategic thinking (operations strategy selection, supply chain management), doing (inventory management, project management, quality management), and feeling (ethical issues in cross-border supply chains, lean production, continuous improvement).

GSB 420 or status as a MS-BIT student is a prerequisite for this class.

MGT 506
DECISION MAKING FOR MANAGERS
Graduate
This course addresses Simon's three-phase problem-solving model. Students learn how to improve problem diagnosis through statistical and logical tools, creatively generate alternative solutions, and make effective decisions through decision analysis and by building decision support models. Students will use a variety of spreadsheet applications to aid in the decision-making process. Offered once per year.

MGT 502 is a prerequisite for this class.

MGT 508
QUALITY MANAGEMENT SYSTEMS
Graduate
Organizations seeking to improve their customer satisfaction, operating efficiency, and profitability frequently turn to quality management initiatives—including Total Quality Management, Business Process Reengineering, Six Sigma, and ISO Quality Standards. The lessons learned through the success and failure of these programs provide valuable insights to managers seeking to achieve performance excellence within their own organizations. The course relies on the Malcolm Baldrige National Quality Award framework and case analysis to explore successful quality management initiatives. Offered twice a year.

MGT 502 is a prerequisite for this class.
MGT 515
SUSTAINABLE MANAGEMENT
Graduate

This course discusses and analyzes the concept of sustainability within a business and management setting. It will analyze the complex relationship between business and the environment and it will explore the nature of business in today's global context where addressing environmental and social issues is becoming increasingly important. Furthermore, it aims to discuss how the talents of business might be used to solve world's environmental and social problems. Rather than focusing on a 'doom and gloom' approach, the course aims to emphasize the solutions towards a sustainable economy.

MGT 518
LABOR ECONOMICS AND LABOR RELATIONS
Graduate

A study of the American labor force: measurement, characteristics and behavior under changing income, employment and technology. An examination of recent labor market developments provides the basis for a critical analysis and appraisal of contemporary wage theory. Topics include changes in the labor force, unemployment, wage determination, the minimum wage, internal labor markets, productivity, discrimination, unions and collective bargaining. Cross-listed with ECO 518.

MGT 555 is a prerequisite for this class.

MGT 519
SPORTS MANAGEMENT
Graduate

Students will examine the major issues facing sport managers in a variety of sport organization settings through course projects and case studies. Through the lens of organizational theory and behavior, areas explored include professional, Olympic, collegiate, and youth sport. Other areas of focus will include community and fitness centers, sponsorship, technology, legal issues, and emerging issues. Students will be exposed to various disciplines/careers through guest lecturers in the sports industry and learn current management issues from industry experts.

MGT 521
MANAGEMENT OF FAST GROWING FIRMS
Graduate

Alternative growth strategies for companies in the second stage of their life cycle are examined. After initial start-up, a unique set of problems and constraints confront the firm limiting its growth. Expansion of product line and services, new market development, redefinition of organizations, financial resource allocation, second stage financing using a case study approach, and going public are some issues that are covered. Proposed revisions are critically evaluated. Offered once a year.

MGT 500 and ACC 500 are a prerequisite for this class.

MGT 523
RECRUITMENT AND SELECTION
Graduate

An advanced study of current recruitment and selection practices of organizations both public and private. Emphasis is placed on common tests that are used and an examination of these tests for applicability in specific situations. Legislation related to EEO an Affirmative Action programs are discussed. Offered once a year.

MGT 555 is a prerequisite for this class.

MGT 524
LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
Graduate

A framework of leadership and coaching is utilized to critically examine the effectiveness of several sports' coaches and their leadership/coaching styles, as they motivate players to achieve their maximum level of performance. Lessons from leading sports' coaches are then applied to the workplace, where managers motivate employees to perform to their potential. The course also highlights the importance of unique situations in both the sports and workplace arenas. Major topics to be covered include roles of coaches and players, skills of coaching, coaching teams, and "flow" in sports and organizations.
MGT 525  
TRAINING AND CAREER DEVELOPMENT  
Graduate  
An intensive study of personnel training and development in contemporary organizations. Emphasis is placed upon the identification of training needs, program design, choice of training methods, and evaluation of results. Classroom activities focus on application with students designing and presenting training seminars. Offered once a year.

MGT 525 is a prerequisite for this class.

MGT 526  
COMPENSATION AND BENEFITS  
Graduate  
The course addresses the total rewards available in an organization. The first goal is to learn how to design a pay system that is efficient, legally compliant, and fair/ethical. This is done through such topics as pay strategy, internal pay alignment, external competitiveness, pay for performance, and legal compliance. The second goal is to learn how to design a benefits plan that supports company objectives. This is done through such topics as retirement plans, health insurance plans, and legally required benefits. The third goal is to learn about work-life programs.

MGT 555 is a prerequisite for this class.

MGT 529  
LIFE AND CAREER PLANNING  
Graduate  
This course is designed to develop your life and career skills to meet the challenges associated with changing careers and changing jobs. Topics include: enhancing your self-esteem, balancing life and career, tapping interests, aptitudes and values, self-marketing, resumes and interviews and strategic career planning to achieve life and career goals. This is a Human Resource Management and a Leadership and Change Management course. Offered once a year.

MGT 530  
LEADERSHIP IN ORGANIZATIONS  
Graduate  
This course utilizes a theoretical framework to provide a foundation of understanding of effective leadership in organizations. The opportunity for self-assessment of leadership strengths and management styles, as well as reflection and action planning for individual leadership development, is also provided. To enhance self-assessment, there are questionnaires, as well as classroom exercises, experienced in a supportive group environment. Examples of effective organizational leadership are also critically examined in case studies. Current leadership topics to be covered include values and vision, strategy, organizational culture, management style, leading groups and teams, and coaching, thus providing analysis from both the macro and micro organizational levels. Offered twice a year.

MGT 535  
CHANGE MANAGEMENT  
Graduate  
This course is targeted towards external and internal consultants, as well as managers and other change agents within organizations. Change Management fosters improved competency in the skills necessary during all phases of the change process - from diagnosis, to interventions, through evaluation. Organizational change issues are critically examined, and case studies, exercises, and assessments are utilized, to better understand change from organizational, group, and individual levels. Change models serve as frameworks that emphasize the importance of interactive consultative processes. A major organizational change project is required of all students. Offered twice a year.

MGT 500 is a prerequisite for this class.

MGT 545  
MANAGING SERVICE OPERATIONS  
Graduate  
This course provides an examination of operating activities in service industries. Emphasis is on the principles of design, operation and control of service delivery systems. Lectures, cases and assignments focus on such topics as delivery system design, client interfaces, operations control, capacity management and quality control. Offered once a year.

MGT 502 is a prerequisite for this class.
MGT 551
GLOBAL HUMAN RESOURCE MANAGEMENT  
Graduate

Concepts, theories, principles and techniques for effectively managing a workforce in a global organization. Focus on HR strategy, staffing, development, performance management, remuneration management, legal/regulatory compliance and employee labor relations. Completion of MGT 555 is recommended prior to registration in this course.

MGT 552
MANAGING CULTURAL DIFFERENCES FOR GLOBAL SUCCESS  
Graduate

"Managing Cultural Differences for Global Success" course is designed to guide and coach participants on how to work and communicate effectively with people from different cultures. The course provides a hands-on approach for developing cross cultural competency. Comparative cultural models will explain how concepts such as culture, values, time, power, mindsets and thinking patterns differ in the world. We will illustrate with real-life cases pertaining to doing business in Europe, Asia and the Americas.

MGT 554
MANAGING HUMAN CAPITAL  
Graduate

Managing Human Capital addresses the role of human capital in business strategy and competitive advantage, high performance work practices, metrics of HR effectiveness. Topics covered include: Legal Context of Human Capital Management; Recruitment and Selection - recruitment sources and tactic; Employee Development and Performance Management; Total Rewards (pay and benefit systems); Employee Relations. Issues of ethics and employee rights are integrated across the above six topics. MGT 500 is a prerequisite for this class.

MGT 555
STRATEGIC MANAGEMENT OF HUMAN RESOURCES  
Graduate

This course will help students understand how the management of people is influenced by the social, ethical and legal environment; by diversity in the work place; by the organizational culture; and by the business strategy. Students will learn how to effectively perform the following HR activities: selecting employees, developing people, evaluations and rewarding performance, and motivating employees. Offered every quarter. MGT 500 is a prerequisite for this class.

MGT 556
ETHICS AND LEADERSHIP: STREETS OF CHICAGO  
Graduate

The innovative Management Department Streets of Chicago course, "Leadership & Ethics," consists of ten on-site meetings with current senior leaders in the Chicago community (followed by in-class discussion sessions). These meetings allow students the exciting and rare opportunity to engage in personalized, in-depth conversations with leaders in government, CEOs and senior executives from for-profit corporations, and directors of nonprofit organizations. The meetings take place at the leader's place of business and will allow for an informal discussion with individuals otherwise known to students only through the media and at a distance. The purpose of these conversations is to gain knowledge about the role of leaders in today's corporate and non-profit environments, the impact of ethics in leadership decision-making and the responsibilities and burdens carried by these individuals. Students learn first-hand from the experiences of these extraordinary success stories so that they can glean the critical elements necessary for successful and ethical leadership. In-class sessions subsequent to each leadership meeting will involve briefings on key issues facing the leaders involved, analysis of risk assessment and management, and critical review of leadership decision-making in order to most effectively explore the actual process of leadership and the development of leadership capability and qualities. As such, the course is designed to serve both those students who are interested in leading their own entrepreneurial ventures, as well as those who seek leadership roles in larger corporations or other organizations.

MGT 557
INTERNATIONAL MANAGEMENT  
Graduate

The object of this course is to develop clear awareness of the international business operations, practices and environment. It provides the concepts, methods and tools necessary to face the global challenges in international management. The objective is met through lectures, classroom discussions, library assignments and research work. Students will learn the effective use of the international business references. By the end of the course, they are expected to have developed a high level of competency in acquiring, understanding, analyzing and synthesizing international management information from international business directories, databases and CD-ROMs.
MGT 559
HEALTH SECTOR MANAGEMENT
Graduate
This graduate level, hands-on course will discuss the evolution and current trends in the delivery and financing of health goods and services in the biotechnology, pharmaceutical, medical device, and health services delivery industries within the health sector. This course will equip students with the ability to use managerial epidemiology as a decision making tool in marketing and operations in the health sector. Ultimately, this course will enable students to apply Michael Porter's Five Forces Model to analyze and manage the various industries within the health sector. This course will use lectures, role plays, simulations, and the case method. Offered once a year.

MGT 562
RESOLVING CONFLICT IN ORGANIZATIONS
Graduate
Comprehensive study and skill building exercises devoted to the development of skills necessary for managers to resolve and manage conflict within their organizations. For illustrative purposes, discussions and exercises will be in the context of employment disputes, discrimination disputes, and/or labor-management disputes. However, the skills attained in the course may be successfully used to resolve any type of conflict. Included will be a discussion of various dispute resolution methodologies including the mediation, arbitration, and investigation of asserted conflicts, real or perceived, as well as the design of dispute resolution processes and related issues of organizational fairness, justice, and ethics. Offered once a year.

MGT 563
NEGOTIATION SKILLS
Graduate
The nontraditional course relies predominantly upon experiential learning to enhance students' ability to get what they want through negotiation. It is a skill-building course designed to help each individual student become persuasive, both personally and professionally. The course makes use of lecture, class discussion, various stress negotiation assignments and a major bargaining exercise. It builds upon failures as well as successes, enabling students to identify their own individual negotiations style. Students completing the course will have developed the ability to compete successfully in future negotiation situations at all levels and to refine the tools and techniques they learned during the quarter. Offered three times a year.

MGT 565
EMPLOYMENT LAW
Graduate
The purpose of the course is to identify how a supervisor or firm owner is legally regulated in connection with the management of her or his workforce, as well as the management implications of the regulation. In this way, the student will learn of the legal ramifications of human resource management decisions. Topics which will be addressed include discrimination on the basis of age, gender, race, religion, disability and national origin, sexual harassment, drug and other forms of testing, regulation of hiring and firing decisions, privacy rights and regulation of off-work conduct. Class activities may also focus on understanding bias and prejudice in managerial decision-making. PREREQUISITE(S): MGT 555

MGT 555 is a prerequisite for this class.

MGT 566
HEALTH INSURANCE & BENEFITS
Graduate
This course is a primer on healthcare insurance and benefits programs in the United States. Emphasis will be placed on employer group plans through which most American gain access to the healthcare delivery system and receive assistance with the cost of their medical expenses. We will survey the demand for healthcare, the regulatory environment, and the predominant public and private sector health insurance programs. The challenges and perspectives of providers, insurers, and employers will be discussed, as will important ethical considerations. The course will also review benefit programs typically provided through employers with an emphasis on group medical plans, including plan types, design, effectiveness, and the development of premium rates. It will conclude with discussions of the latest healthcare reform developments and trends defining the future of the healthcare system.
MGT 570
**ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT**
Graduate
The focus of the course is on new venture initiation and the preparation of a business plan that can be used to generate financing and to begin operations in a new business enterprise. It examines the critical factors involved in the conception, initiation and development of new business ventures. Topics covered include the identification of characteristics of prospective entrepreneurs, identifying innovations, market potential analysis for new products or services, acquiring seed capital, obtaining venture capital for growth or purchase of an existing business and organization and operation of the new business. Each student is required to develop a business plan which will be presented to the class. Students wishing to start, develop, acquire, sell or merge a business are encouraged to do so. Offered three times a year.

ACC 500, MGT 500 and MGT 502 are prerequisites for this class.

MGT 571
**FINANCING NEW VENTURES**
Graduate
This course will focus on identifying, examining and evaluating various sources of original and growth capital. Emphasis will be on legal, financial and tax issues related to capital formation as well as specific problems experienced by the small-to-medium-sized firms undergoing rapid growth. Topics discussed will include financing startups, financial planning and strategy, going public, selling out and bankruptcy. A formal proposal for capital acquisition developed through field research will be required of each student. Cross-listed with FIN 571.

FIN 555 is a prerequisite for this class.

MGT 572
**CORPORATE VENTURES AND MANAGEMENT**
Graduate
The focus of this course is on how corporations develop new ventures. It critically examines the circumstances that make it possible for employees to contribute their venture ideas to the corporate objectives and describes techniques that stimulate such ideas. Although the primary focus will be on the employee and how the individual can be entrepreneurial within a corporate structure, the course also examines how the corporation can systematically encourage innovation. Case studies of corporate ventures projects will be reviewed. Offered once a year.

ACC 500, MGT 500 and MGT 502 are prerequisites for this class.

MGT 573
**CREATIVITY & INNOVATION IN BUSINESS**
Graduate
This course explores the nature and role of creativity in organizations. Theories and modes of creative thinking, and the link between creativity and innovation are presented. The course format is largely experiential, with emphasis on group and individual exercises, techniques, simulations and cases, through which students will investigate the creative process in a variety of organizational settings. The role of managers and team members in nurturing and sustaining a creative enterprise is discussed. The course is designed to open students to the creativity within themselves and organizations, and to the tools with which creativity can be managed to promote innovation and enhance organizational effectiveness as well as satisfaction and quality of work life. Offered four times a year.

MGT 589
**COACHING FOR LEADERSHIP, PERSONAL SUCCESS & PEAK PERFORMANCE**
Graduate
Developing executive coaching competencies for “managers as coach” is the keynote of this course. Grounded in positive psychology and the science of human flourishing, participants will identify and apply strengths based interventions to promote organizational effectiveness, career success and life fulfillment. Students will learn and deploy the GROW model of coaching, motivational interviewing, solution focused coaching, mindfulness, and goal focused approaches to help people achieve change. Participants will also enhance their own ability to create presence, build trust, manage self- awareness, listen, ask powerful questions, design actions and manage accountability. Working from a place of purpose and intention course participants will harness competitive advantage, explore finding flow, managing stress, maintaining optimism, and creating balance in work, health and family.
MGT 590  
**MANAGEMENT OF INNOVATION AND TECHNOLOGICAL CHANGE**  
**Graduate**  
The ability to manage technological innovation has become an increasingly essential requirement for business people regardless of functional specialty. The objective of this course is to explore ways to create environments that are conducive to technological innovation. Throughout the course students examine practices, models, and approaches that established, as well as new, organizations employ to promote innovative practice, technological change, and new technologies. The following topics will be covered: the innovation process, managing technical people, the impact of organizational design on innovation, knowledge management, cross function teams and exploiting new technologies. Students will research new technologies and discuss potential business applications and issues associated with those technologies. Offered once a year.

MGT 595  
**SOCIAL ENTREPRENEURSHIP**  
**Graduate**  
This course explores principles and applications of social value generation in entrepreneurial contexts. Participants will learn how agile, growing ventures are launched and managed to generate value that transcends commercial and social frontiers. The course material emphasizes concepts from traditional entrepreneurship in the context of the broader social sector environment. Diverse contributions from graduate students in the College of Commerce as well as the School of Public Service ensure deep exploration of the social venture realm. The course experience is enriched by team-based consulting to several actual Chicago social entrepreneurial ventures as a practical complement to classroom activities.

MGT 598  
**PROJECT MANAGEMENT: SEMINAR IN OPERATIONS MANAGEMENT**  
**Graduate**  
This course covers management techniques that are applicable to a wide variety of project types including new product development, business start-ups, marketing campaigns, facility relocations, construction, research programs, and special events. Emphasis is on scheduling, budgeting, and control including the selection and application of project management software. Other topics include project organization, qualifications and roles of the project manager, project leadership, team building, and the management of conflict and stress in projects. Offered three times a year.

MGT 793  
**MANAGEMENT INTERNSHIP**  
**Graduate**  
This is a unique opportunity in which interns gain and develop managerial skills, providing a link to mastering the dynamics of running a business. This hands-on experience allows the intern to apply his or her skill/wisdom to the work place and provides invaluable knowledge that is crucial for future advancement. While building an impressive resume for further job opportunities, the intern will be immersed in a stimulating environment with a pool of established resources. In addition, networking opportunities avail themselves to build future relationships.

MGT 798  
**SPECIAL TOPICS**  
**Graduate**  
Content and format of this course are variable. An in-depth study of current issues in management.

MGT 799  
**INDEPENDENT STUDY**  
**Graduate**  
Available to graduate students of demonstrated capability for intensive independent work in management.

MGT 250  
**CAREER MANAGEMENT SKILLS**  
**Undergraduate**  
This course helps students develop their careers. Students review their skills and interests as they relate to relevant occupations. They acquire career-enhancing skills in job search, career research, goal setting, and action planning. Students create resumes and cover letters, and they enhance their interviewing and networking skills. Through guided exercises and activities, students assess their current career activities and explore appropriate adjustments. This course is designed for students who have declared (or intend to declare) majors in Management or Business Administration.
MIS 140
MANAGEMENT INFORMATION SYSTEMS
Undergraduate
This is an introductory course in MIS. It emphasizes the use of information technology to support business operations and management, including the use of spreadsheets to analyze and represent data. Topics include strategic uses of IT, databases, data warehouse, decision support and artificial intelligence, e-commerce, systems development, IT infrastructure, network security, social, ethical and legal considerations. Formerly MIS 340.

MIS 350
BUSINESS SYSTEMS ANALYSIS
Undergraduate
This course focuses on the planning, analysis, and requirements specification phases of systems development life cycle. It covers business modeling, process management, requirements gathering and other topics used by business analysts and consultants. Topics include planning and analysis techniques, the system development life cycle (SDLC), data flow diagrams, data gathering, network diagrams, Gantt charts, business process reengineering, joint application design, use case diagrams, flow charts, decision trees, decision tables, and structured English.

MIS 140 or MIS 340 is a prerequisite for this class.

MIS 360
SYSTEMS ANALYSIS AND DESIGN
Undergraduate
This course prepares students to pursue careers in systems analysis and design. It emphasizes object-oriented systems analysis and design techniques using UML. Students learn about activity, use-case, class, sequence, state chart, and other UML diagrams used by systems analysts. The course covers all phases of the SDLC. Students work in project groups to solve a real-world problems.

IT 130 and an intended or declared MIS, IT, IS or E-Business major are a prerequisite for this class.

MIS 362
INFORMATION SYSTEMS PROJECT MANAGEMENT
Undergraduate
The course prepares students to become project managers. It covers IS project management concepts, techniques, tools, project issues, roles and responsibilities of project leaders. Topics include, but not limited to, resource allocation, scheduling, budgeting, monitoring, controlling, use of Gantt charts, precedence analysis, PERT, and CPM. Students use Microsoft Project.

(An MIS major or E-Business Major and MIS 360) or (an MIS minor and MIS 350) are a prerequisite for this class.

MIS 366
INTERNET TECHNOLOGIES IN BUSINESS
Undergraduate
The course will be an introduction to internet technologies with particular focus on World Wide Web and e-business applications. Topics include internet technology application framework, attributes of e-business applications, client and server side processing, web servers, Java, J2EE and Microsoft’s .NET, accessing enterprise data, HTTP security, certificates and CA, XML and e-business integration, latency and workload management, and wireless access. Students will work in groups and will be required to do one design proposal and make one presentation using Visio.

IT 130 is a prerequisite for this class.

MIS 370
DATABASE MANAGEMENT SYSTEMS DESIGN AND DEVELOPMENT
Undergraduate
The course is designed to prepare students to pursue careers in database management. It covers topics such as entity relationship modeling, normalization, SQL, database design principles, data warehousing, transaction management, and database administration. Students will complete assignments and a group term project using Microsoft SQL Server.

MIS 340
MIS 398
SPECIAL TOPICS
Undergraduate
Special Topics

MIS 399
INDEPENDENT STUDY
Undergraduate
Independent Study is available to students of demonstrated capability for intensive independent work in management information systems.

MIS 555
MANAGEMENT OF INFORMATION TECHNOLOGY
Graduate
This course focuses on the management and use of information technology (IT). As the use of IT in society grows, particularly in business, our graduates are likely to become responsible for managing some technology resources and to participate in IT planning and development projects as founders, sponsors, team members, managers of development or end-user developers. Students should become effective users and evaluators of information, IT, and information services. The course explores a number of IT-related topics such as the strategic role of IT, IT planning and architecture, building the telecommunication highway system, management issues in systems development, the expanding universe of computing, group support systems, intelligent systems, electronic document management, and managing the human side of systems.

MIS 673
DATA MANAGEMENT
Graduate
Data has been recognized as an important corporate resource and databases have evolved into a central component of business information systems. Topics include semantic data modeling using entity-relationship and object models; data structuring with normalization; relational database design, implementation and manipulation with SQL (Structured query language); and some evolving technologies such as data warehousing, on-line analytical processing, object-oriented databases, and data visualization. Hands-on exercises include the use of a relational database system with SQL and data modeling CASE (computer-aided software engineering) tools.

MIS 674
SYSTEMS ANALYSIS AND DESIGN
Graduate
The focus of this course is on the early phases of information systems development starting with requirements analysis and specification. Alternative systems development methodologies including conventional structured approaches are reviewed but the emphasis is on distributed processing together with object-oriented analysis and design, rapid application development and prototyping, the use of CASE (computer aided software engineering) tools and GUI (graphical user interface) design with event-driven computing.

MIS 683
INFORMATION TECHNOLOGY STRATEGY AND ARCHITECTURE
Graduate
This course addresses the fundamental aspects of developing an information technology (IT) strategic plan and the enabling IT architecture to support enterprise business processes. Students explore the importance of strategic alignment of business and technology as well as the contribution IT has on the value chain. Students will be able to more effectively use and manage IT from an enterprise view and from an architectural perspective. The course includes lectures, practical case discussions and current events in the industry. It also explores how IT can be leveraged to improve shareholder value, customer satisfaction and the competitive position of the firm. This is intended to be an advanced level managerial course for practitioners who have ambitions to be a senior IT executive, management consultant or a technical analyst.

MIS 798
SPECIAL TOPICS
Graduate
Content and format of this course are variable. It involves an in-depth study of current issues in information systems and technology. Subject matter constantly changes and will be indicated in class schedule.
MIS 799
INDEPENDENT STUDY
Graduate
Available for graduate students of demonstrated capability for intensive independent work in information systems.

MIS 555 or equivalent is a prerequisite for this class

MKT 202
QUANTITATIVE METHODS IN MARKETING
Undergraduate
This course explores quantitative techniques commonly used in business to aid in marketing decision making. It explores the concepts which underlie techniques and provides skills to understand and manipulate data using Excel. Statistics that are frequently used in marketing are taught. This course should be taken as soon as you decide to pursue a major or minor in Marketing.

MAT 137 or equivalent is a prerequisite for this class.

MKT 301
PRINCIPLES OF MARKETING
Undergraduate
Marketing 301 introduces basic marketing terminology and the relationships between and among these terms relevant to the creation and implementation of basic marketing strategy. The course content also focuses upon the controllable and uncontrollable variables which have bearing on the success or failure of marketing programs. The course also provides students with opportunities to demonstrate their ability to connect concepts discussed in the text and those same concepts appearing in academic and practitioner publications and popular business periodicals.

MAT 137 or equivalent is a prerequisite for this class.

MKT 305
INTRODUCTION TO MARKETING RESEARCH
Undergraduate
This course focuses on how to match research design (exploration, surveys, observation and experiments) with an organization's marketing problems. You will learn how to: design questionnaires, collect and analyze survey data, prepare and conduct focus groups and design experiments. Some knowledge of statistics required.

(MKT 202 or FIN 202 or MGT 202) and MKT 301 are a prerequisite for this class.

MKT 310
CONSUMER BEHAVIOR
Undergraduate
An analysis of the environmental, social and psychological factors that influence an individual's consumer decisions. Specific areas studies will be consumer motivation, attitudes, learning and decision processes, as well as lifestyles, reference groups, communication and cultural influences.

MKT 301 is a prerequisite for this class.

MKT 315
STRATEGIC TOOLS FOR MARKETERS
Undergraduate
This course provides depth of knowledge to understand and apply important and relevant concepts in marketing such as market demand forecast, product positioning, pricing, marketing performance assessment, and product design. The course covers several hands-on tools that are frequently used by marketers and business-people to generate deep customer insight to aid decision-making in the above-mentioned areas.

MKT 202, MKT 301 and MKT 310 are a prerequisite for this class.
MKT 320
PRINCIPLES OF ADVERTISING
Undergraduate
Development of an understanding of the principles, processes, and methods employed in advertising and sales promotion of products and services directed toward consumers and business. Discussion will involve understanding the behavior of the target audience, developing advertising, budgeting for advertising, creating the message and media strategy, and measuring the effectiveness of the advertising program.

(MKT 202 or MGT 202 or FIN 202) and MKT 310 are a prerequisite for this class.

MKT 340
MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
Undergraduate
The course is designed to challenge students to think critically about culture and international marketing, with an emphasis and perspective on multicultural markets. The course is structured to examine cross-cultural and intercultural approaches that intertwine with the international business environment and the impact that both have on the marketing of goods and services.

MKT 301 and MKT 310 are a prerequisite for this class.

MKT 352
NEW PRODUCT DEVELOPMENT
Undergraduate
An introduction to the various types of new products and services, and to the new product management process used by many firms to increase the likelihood of success while minimizing financial risk. Students will learn about new product conceptualization, development, and launch stages of the process, and be introduced to some of the tools and techniques employed in each.

(MKT 202 or FIN 202 or MGT 202) and MKT 301 are a prerequisite for this class.

MKT 356
MARKETING ANALYSIS AND PLANNING
Undergraduate
The first course of the IME sequence addresses marketing information gathering, analysis and planning. Students will learn how to conduct secondary research at the company and industry level for analysis of a firm's competitive situation. This analysis will be drawn from real-time cases from sponsoring Chicago-area companies. Emphasis is placed on teamwork and effective communication in oral and written presentation. Students will learn to analyze a firm's industry and competition as well as how to identify a target market and position a product. Milestones will include the preparation and presentation of the situation analysis elements of a marketing plan, as well as a presentation to the client company. 8 quarter hours. Offered every Autumn.

Acceptance into the IME program is a prerequisite for this class.

MKT 357
MANAGEMENT OF MARKETING
Undergraduate
The second course in the IME sequence acquaints the student with the knowledge and skills necessary for the management of marketing activities including marketing plan preparation and tactical decision-making in changing situations. (1) Students will build upon the situation analysis and presentation skills acquired in the IME Level I, by developing skills necessary to prepare and present a marketing plan. (2) Tactical managerial decisions to be addressed include product/service management, competitive pricing decisions, distribution, and promotion decisions as faced by the manager of marketing activities in the day-to-day life of the firm. Students will learn to develop sales forecasts and budgets and apply control and analysis techniques to evaluate marketing operations. Course milestones will include market plan development and presentation to internal as well as external groups, and the presentation of analysis and recommendations to address the day-to-day management of marketing operations. Students will work in teams to address a marketing problem provided by a sponsoring Chicago-based company. This problem will require students to use available secondary data to analyze the current market situation and analyze and interpret primary data necessary to make decisions. 8 quarter hours. Offered every Winter.

Acceptance into the IME program is a prerequisite for this class.
MKT 358  
MARKETING IN A GLOBAL ENVIRONMENT  
Undergraduate  
This final course in the IME sequence provides a strategic perspective for marketing management in a global environment. The course will address company organization, industry structure, firm's competitiveness, marketing activities, and market-entry strategies. Course milestones will address the issues and decisions normally associated with international market expansion. The course is a hands-on learning experience for the student/team through the introduction and interaction with a Chicago-based company currently involved in international business. 4 quarter hours. Offered every Spring.

Acceptance into the IME program is a prerequisite for this class.

MKT 359  
ADVANCED MARKETING MANAGEMENT  
Undergraduate  
This course will familiarize students with the role of the marketing manager in charting the direction of a business, and formulating strategies to create or sustain competitive advantage. It provides knowledge and skills to help students identify, analyze, and address marketing problems and opportunities, and enable them to make effective business decisions. PREREQUISITE(S): MKT 202 & MKT 310 (MKT 202 or MGT 202 or FIN 202) and MKT 310 are a prerequisite for this class.

MKT 360  
INTERNATIONAL MARKETING  
Undergraduate  
The course is designed to provide students with an understanding of international marketing within a global framework. The course focuses on marketing concepts, theories, and principles applicable to international marketing management. The course is structured to examine the environmental factors (political, economic, cultural, and demographics) that drive host-country governments' goals and objectives that affect firms and industries operating in developed and emerging markets of the world. Emphasis is placed on marketing strategies to emerging economies in different regions of the world and to how to start, develop and become a truly global marketing force today.

MKT 202, MKT 301 and MKT 310 are a prerequisite for this class.

MKT 376  
EFFECTIVE BUSINESS COMMUNICATION  
Undergraduate  
This course is designed to expand the participant's communication skills through the application of the principles of communication science and the psychology of persuasion in a contemporary business setting. Students are shown how to develop successful communication and message packaging strategies useful in a variety of communication venues including: memos, meetings, briefings, interviews and individual and team presentations. Oral presentations and written communication techniques are explored including use of visuals, computer graphics, and layout techniques. The mechanisms of Speech Apprehension (stage fright) are presented as well as techniques for management and reduction of this common, debilitating phenomenon. Personal ethics and credibility are explored as important components of effective communication, both individually and as part of a team. THIS COURSE IS REQUIRED FOR ALL MARKETING MAJORS.

MKT 377  
FUNDAMENTALS OF SALES & NETWORKING  
Undergraduate  
In the current business environment, companies are focusing their efforts on recruiting well-trained and refined sales professionals who generate substantial revenue. This course is designed to expose students to the energy, decorum, techniques and methods of superior selling sought after in today's business environment. Coursework will examine networking techniques and ways in which to identify high-potential opportunities. Application of techniques is crucial to learning this material; therefore students will be given the opportunity to implement learned techniques via real-world selling activity.

MKT 378  
SALES STRATEGY & TECHNOLOGY  
Undergraduate  
Students taking this course will be provided with a comprehensive understanding of sales strategy and sales technology used to optimally organize and deploy sales resources. At the heart of this course is an introduction to the principles of customer relationship marketing and customer acquisition programming. Students will learn via lecture, text, guest lecturers, exposure to the latest technological tools and current case study. This course will benefit participants by providing a true perspective as to what role sales plays today and will play in the future of customer-centric organizations.

(MKT 202 or ACC 202 or FIN 202 or MGT 202), MKT 310 and (MKT 376 or MKT 377) are a prerequisite for this class.
MKT 379
LEADERSHIP IN SALES ORGANIZATIONS
Undergraduate
This is a strategic sales course which emphasizes strategic leadership (setting the course), organization leadership (selecting, organizing, motivating, measuring and conflict resolution), and personal leadership (leading people, leading talent and leading yourself) in today's changing sales organization.

(MKT 202 or ACC 202 or FIN 202 or MGT 202), MKT 310 and (MKT 376 or MKT 377) are a prerequisite for this class.

MKT 380
SCIENCE OF RETAILING
Undergraduate
Students are introduced to concepts of the retail business model which include: identifying the target consumer and market, development and implementation of merchandising plans, interaction with supply chains, management of human resources and the financial implications of decisions at the corporate and store levels.

(MKT 202 or ACC 202 or FIN 202 or MGT 202), MKT 310 and (MKT 376 or MKT 377) are a prerequisite for this class.

MKT 381
BUILDING FINANCIAL RELATIONSHIPS
Undergraduate
Students learn the basic financial products and services that help clients achieve their financial goals and will gain a basic understanding of financial planning. More importantly, students learn how to identify prospects, uncover client financial needs, help clients achieve their financial goals and build the trusted relationships that lead to turning a prospect into a customer and a customer into a lifelong client. The course includes guest speakers, role playing, presentations and the development of a personal financial plan for each student.

(MKT 202 or ACC 202 or FIN 202 or MGT 202), MKT 310 and (MKT 376 or MKT 377) are a prerequisite for this class.

MKT 382
PRINCIPLES OF CATEGORY MANAGEMENT
Undergraduate
Successful companies expect their suppliers to act as partners that will help them grow their businesses, not simply to trade share among competitors. Relationships are established between buyer and seller when vendor partners demonstrate and leverage business understanding to build customer volume. In consumer packaged goods, this practice is known as category management. The course is taught through the case method to learn the category management process, use the information systems and data resources available and develop sales presentations that effectively communicate solutions for business problems in three different industries.

(MKT 202 or ACC 202 or FIN 202 or MGT 202), MKT 310 and (MKT 376 or MKT 377) are a prerequisite for this class.

MKT 383
ADVANCED VALUATIONS FOR BUSINESS
Undergraduate
This is a strategic sales course which emphasizes the psychology of selling in complex selling situations, identifying the decision maker among multiple contacts, quantifying the value proposition to the customer, and presenting a compelling sales proposal.

(MKT 202 or ACC 202 or FIN 202 or MGT 202), MKT 310 and (MKT 376 or MKT 377) are a prerequisite for this class.

MKT 385
SELLING PROFESSIONAL & COLLEGIATE SPORTS
Undergraduate
This course in professional selling will introduce students to the essentials of effective selling as well as inside sales in the context of professional and collegiate sports. Topics include the sales process, persuasion, handling objections, finding solutions, developing relationships, and serving clients and customers

MKT 376 OR MKT 377
MKT 390
SERVICE MARKETING
Undergraduate
Services comprise two thirds of U.S. Gross Domestic Product. This course will explore the identifying characteristics of service marketing as compared and contrasted with product marketing. The conceptual differences in marketing of intangibles vs. tangible offerings to the market will be emphasized. The course will consist of lecture, discussion, readings and cases.

MKT 202, MKT 301 and MKT 310 are a prerequisite for this class.

MKT 393
MARKETING INTERNSHIP
Undergraduate
Internships provide an opportunity to obtain valuable professional experience and contacts in advertising agencies, manufacturing, services, public relations agencies, and communications. Students will work for and study the marketing operations of the firm. The department's internship coordinator will work with each student to obtain placement and approval of the coordinator is required. IME Marketing majors are required to complete one quarter of internship credit. In lieu of internship, IME students may, with approval of the Chair, elect to complete a Marketing elective. MKT 393 qualifies for the Junior Year Experiential Learning requirement. MKT 393 is not repeatable for credit.

MKT 395
INTERACTIVE/INTERNET MARKETING
Undergraduate
The course provides an introduction to Interactive/Internet marketing methods and high-level insight into the technology challenges of interactive marketing. Business to Consumer examples and strategies will be explored in a variety of vertical markets (e.g. financial services, technology, retail, catalog, manufacturing, health care, hospitality and entertainment). Integration with other marketing channels will be discussed. Global, privacy (including legislation challenges) and ethical issues will be introduced. Format will include lecture, guest speakers from the industry, Web browsing, quizzes, analysis and strong emphasis on discussion. A web integrated marketing strategy paper will be developed incorporating all concepts and experiences.

MKT 301, MKT 310, and ((MKT 202 and MKT 305) or an intended/declared HSP Virtual Marketing specialization) is a prerequisite for this class.

MKT 398
SPECIAL TOPICS
Undergraduate
Content and format of these courses are variable. An in-depth study of current issues in marketing. Subject matter will be indicated in class schedule. The Marketing department offers special topics in a variety of areas. Students may take more than one special topics course as an elective.

MKT 399
INDEPENDENT STUDY
Undergraduate
Available to students of demonstrated capability for intensive independent work in marketing.

MKT 301, MKT 310 and permission of the instructor is a prerequisite for this class.

MKT 525
MARKETING RESEARCH I
Graduate
This course provides an overview of the nature of marketing research and its role in decision-making with the organization. Specifically the students will concentrate their efforts on understanding the process of research design and implementation. Offered every quarter.

GSB 420 and MKT 555 are prerequisites for this class.

MKT 526
MARKETING RESEARCH II
Graduate
Those students interested in more extensive marketing research experience should enroll in this course. The student will begin with a data set and work closely with the instructor in performing multivariate data analysis and developing a format for presentation of results.

MKT 525 is a prerequisite for this class.
MKT 528
QUALITATIVE RESEARCH METHODS
Graduate
Qualitative Research Methods will explore non-survey and non-experimental techniques useful in researching issues with marketing implications. Lectures and reading assignments will be punctuated with experimental exercises, videotapes, and student presentations. Topics will include question design, content analysis, and unstructured or simple observation. Projective techniques and other indirect methods, in-depth/in-person interviews, and focus group sessions. Offered variably.

MKT 525 and MKT 545 are a prerequisite for this class.

MKT 529
PRECISION MARKETING
Graduate
The ever increasing amount of data about consumers and transactions allows marketers to better understand who their customers are and what they are buying. This course explores a wide variety of data sources and how they are used in marketing, with a special emphasis on segmentation, targeting and positioning. Offered winter quarter.

MKT 555 is a prerequisite for this class.

MKT 530
CUSTOMER RELATIONSHIP MANAGEMENT
Graduate
Students are introduced to a new strategy methodology, CRM, which is currently being adopted by many organizations in efforts to enhance their competitive advantage. Focus is placed on understanding how an enhanced customer relationship environment can differentiate an organization in a highly competitive marketplace. Both the business and consumer markets are examined in multiple vertical markets. New technology demonstrations and their impact will be discussed. Guest speakers provide current best-practice methods. Topics included: Case analysis and projects make up the course assignments.

MKT 555 is a prerequisite for this class.

MKT 534
ANALYTICAL TOOLS FOR MARKETERS
Graduate
This course seeks to provide an in-depth understanding of both qualitative and quantitative analytical tools that are of critical importance to marketers. These tools will help marketers avoid head-to-head competition, understand customer perceptions, understand customer preferences, develop accurate sales forecasts, and financially value marketing strategies. The course is designed to be “hands-on” in that students will develop understanding mainly through conducting application projects and presenting results. The course is also designed to be immediately applicable to marketers’ current and future jobs.

MKT 555 is a prerequisite for this class.

MKT 535
MARKETING STRATEGIES AND PLANNING
Graduate
The basic elements of planning including the identification of the company's basic purpose and mission and their translation into specific objectives. Strategies to accomplish objectives are fused from marketing, financial, and manufacturing elements but emphasizing marketing elements. This course focuses on the contribution of marketing to the establishment of company policies, objectives, and marketing planning.

MKT 555 is a prerequisite for this class.

MKT 536
PRICING STRATEGY
Graduate
Managing pricing effectively affects a company's growth and profitability more directly and quickly than any other strategic decision. This course explores methods of analyzing pricing decisions, influencing customers' price perceptions, managing sales promotions and negotiations, and forecasting industry price trends. Pricing decisions for both new product introductions and mature product profit management are addressed. Students will discover best practices in pricing decision making at the industry, market, and transactional level.

MKT 555 is a prerequisite for this class.
MKT 537
NEW PRODUCT MANAGEMENT
Graduate
The course has four objectives: first, to familiarize participants with how firms manage the conceptualization, development and launch of new products and services; second, to develop a systematic process for new product development that matches the existing business context; third, to give participants knowledge of some useful and immediately applicable tools that will enable them to participate and lead a team that effectively translates a firm's strategy and customer needs into successful products and services; and finally, help participants understand the impact of company dynamics in affecting the new product development process.

MKT 525 is a prerequisite for this class.

MKT 540
STRATEGIC PLANNING: DEVELOPING SUSTAINABLE BUSINESS MODELS
Graduate
In today's hyper-competitive business environment, firms find it increasingly difficult to generate sustainable revenue growth. This course uses an organic-growth, marketing-based, customer-driven approach for developing sustainable year-on-year revenue growth. Linkages are created between existing benefits-based customer segmentation strategies, changing customer needs, the choice of a firm's or a business unit's product/service-line positioning strategy, its chosen business model, and finally its performance. Topics covered include: Outcomes-based segmentation- Price-performance curves- Market-leader positioning approaches- Business model visualization and representation- Dynamic positioning, product-line and business unit adaptation- Value migration and threats to sustainabilityBy the end of the course, students will know how to detect signals of change in customer needs and adapt their business models resulting in sustainability. This is a case-based course with a project deliverable due at the end of the course.

MKT 555 is a prerequisite for this class.

MKT 541
BRAND MANAGEMENT
Graduate
Brand management is an important component of both consumer and business marketing. The course addresses important branding decisions faced by an organization, particularly the role of brands in strategy. Learning objectives are (1) to increase understanding of the important issues in planning and evaluating brand strategies; (2) to provide the appropriate theories, models, and other tools to make better branding decisions; (3) to understand how marketing mix variables can affect brand equity over time; (4) to understand how to build and maintain brand equity; (5) to understand how to adapt brand strategies and tactics to optimize marketplace success.

MKT 555 is a prerequisite for this class.

MKT 542
BRAND CULTURE
Graduate
Brands are complex socio-cultural entities. They occupy a unique position in modern culture and consumers are increasingly playing a more prominent role in the legacies of brands. Despite these realities, the complex relationship between brands, consumers and culture has typically been ignored. This seminar class will explore the culture of brands, focusing on what consumers do with and to brands instead of what brands do to consumers. Readings will come from a variety of perspectives, including both practitioner and academic sources. Topics covered will include: Sociological aspects of consumers and their brands, brands and status systems, brand and consumption communities, and consumer created marketing content. This class is designed to give you an advantage in being the best brand manager. It will stress critical thinking, creativity, synthesis and application of the newest insights concerning brands. Students will emerge with a better understanding of how to engage in the practice of cultural branding.

MKT 555 is a prerequisite for this class.

MKT 545
CONSUMER BEHAVIOR
Graduate
Required for Marketing concentration. A review of the various theories, models, and techniques that attempt to explain consumer behavior. The course consists of lecture-discussions of behavioral theories, the empirical findings of contemporary research, and case studies designed to illustrate the salient issues involved in developing consumer-oriented marketing strategies.

MKT 555 is a prerequisite for this class.
MKT 550  
BUSINESS TO BUSINESS MARKETING  
Graduate  
The marketing of business goods and services to other businesses (B:B) is more significant in our economy than consumer marketing and is the key to the continued success and productivity of the U.S. economy. In this course, the principles and practices of inter-industry marketing will be explored by case analysis. The factors which must be considered before establishing marketing programs manufacturers, service industries and exporters will be examined. Examples will be drawn from varied industries, including equipment, electronics, computer systems, health care and others. New product introduction, distribution, and other marketing strategies will be emphasized.  
MKT 555 is a prerequisite for this class.

MKT 555  
DECISIONS IN MARKETING MANAGEMENT  
Graduate  
Students are provided with an overview of the marketing process for consumer-oriented firms. Focus is placed on decision-making that aligns a firm's market offerings with the wants and needs of targeted segments of customers within a continuously changing environment. Written cases/projects are part of the course assignment.

MKT 557  
INTERNATIONAL MARKETING  
Graduate  
The differences between markets and distribution systems in various countries are explored. By emphasizing the social and economic factors causing these differences a sound understanding of and empathy with different international marketing problems are developed. Analyses are made of the organization of trade channels in various cultures, of typical government policies towards international trade in countries at different stages of development, and of international marketing research, advertising, and exporting. Offered Variably.  
MKT 555 is a prerequisite for this class.

MKT 558  
MARKETING ACROSS CULTURES: A GLOBAL PERSPECTIVE  
Graduate  
The course is structured to examine culture from two dimensions: a cross-cultural view, which compares local culture customs across various national marketing environments; and an intercultural approach where the focus is to exam the interaction between foreign firms and a host-country culture. Learning objectives:- Students will gain an understanding of cultural variables from a global perspective.- Students will gain the ability to compare and analyze national cultural similarities and differences across national, regional and global environments.- Students will gain the ability to recognize and analyze the interaction in marketing approaches between people and business groups who have different national/cultural backgrounds.  
MKT 555 is a prerequisite for this class.

MKT 559  
EMERGING MARKETS  
Graduate  
Emerging markets are quite different from the developed economies of the world. Today, firms from the West look for new market opportunities outside of the advanced economies of the world. They realize that their traditional markets are oversaturated, overly competitive and rapidly aging. They recognize that future opportunities for long-term sustainable growth will be found in emerging markets.  
MKT 555 is a prerequisite for this class.

MKT 575  
ADVERTISING AND SALES PROMOTION MANAGEMENT  
Graduate  
A study of the theories and techniques applicable to the development of the promotional mix. Class consists of analysis and development of objectives, budgets, message design and media selection, and measuring the effectiveness of these for mass design and direct promotional vehicles.  
MKT 545 and MKT 555 are a prerequisite for this class.
MKT 576
EFFECTIVE BUSINESS COMMUNICATION
Graduate
This course is designed to expand the participant's communication skills through application of the principles of communication science and the psychology of persuasion in a contemporary business setting. Personal ethics and credibility are explored as important components of effective communication, both as individual's and as team members. Students are shown how to develop successful communication and message packaging strategies useful in a variety of communication venus including memos, meetings, briefings, interviews and individual and team presentations. Oral presentations and written communication techniques are explored including use of visuals, computer graphics, and layout techniques. The mechanisms of Speech Apprehension (stage fright) are presented as well as techniques for management and reduction of this common, debilitating phenomenon. Personal ethics and credibility are explored as important components of effective communication.

MKT 577
LEADING BUSINESS DEVELOPMENT
Graduate
This is a course designed for managers or future team leaders seeking to maximize their resources to achieve sound business results for their organizations and customers. Utilizing current practices, processes, and proven in-market techniques, students will learn to create and maintain a customer team that achieves results with the internal as well as external customer. Emphasis will be placed on: Team Leadership Skills, Profiling and Segmenting Customers, Managing Team Performance, Developing Business Plans and Relationships, internally and externally.

MKT 578
SALES STRATEGY & TECHNOLOGY
Graduate
Students taking this course will be provided with a comprehensive understanding of sales strategy and an appreciation of sales technology used today to optimally organize and deploy sales resources. At the heart of this course is an introduction to the principles of customer relationship marketing and customer acquisition programming. Students will learn via lecture, text, guest lectures, exposure to the latest technological tools and current case study. This course will benefit participants by providing a true perspective as to what role sales plays today and will play in the future of customer-centric organizations.

MKT 582
CATEGORY MANAGEMENT
Graduate
Category management is the practice of managing a group of products as one entity, or category to maximize the return for a particular retailer, as it relates to shelf inventory, shelf position, consumer shopping patterns and promotion. The course provides the analytical framework necessary to conduct a category review and make strategic recommendations to both manufacturers and retailers. The Department of Marketing partners with a number of major consumer packaged goods (CPG) manufacturers and retailers who provide data for analysis. In addition to working on real data, students learn how to use advanced software such as Nielsen's Category Business Planner, Homescan, Infinet and Spaceman.

MKT 583
MONETIZING MARKETING STRATEGY
Graduate
The goal of every business strategy is to create profitable customers by delivering superior value. The way in which that strategy is monetized in the implementation process is critical to the success of the venture. The key focus of the course will be the development of useful processes and metrics through the marketing and selling activities to deliver customer and corporate value which will allow managers to monitor and measure individual corporate performance. Student learning will be assessed by a combination of class participation, weekly assignments, examinations, and team performance on final written proposals and presentations.

MKT 555 is a prerequisite for this class.
MKT 590
MARKETING OF SERVICES
Graduate
This course examines service organizations' distinctive approach to marketing strategy development and execution. Differences and similarities between the marketing of services and that of manufactured goods will be discussed. Other topics include measurement of quality and customer satisfaction, customer behavior and expectations, roles of service providers and customers, service competitive advantages, relationship management, overlap of service marketing with other organizational disciplines (e.g. H.R., operations, finance), organization design and value-chain impacts, outsourcing challenges and opportunities, global issues, macro environmental impacts, Business to Business and Business to Consumer examples and strategies in multiple vertical markets (e.g. financial services, technology, retail catalog, manufacturing, health care, hospitality and entertainment, automotive, government). Student groups will maintain service encounter journals which will be used as input to the group's analysis paper assignment. Two abbreviated exams will measure the student's grasp of service marketing concepts. Group case analysis work will reinforce the course concepts.

MKT 595
INTERNET AND INTERACTIVE MARKETING
Graduate
Explores the emerging business models, rules, tactics, and strategies associated with this medium. Integration with other channels and marketing operations is stressed. Classes are discussion-based, drawing on current applied readings and cases from a variety of industries in both the business-to-business and business-consumer markets.

MKT 793
MARKETING INTERNSHIP
Graduate
Internships provide an opportunity to obtain valuable professional experience and contacts in many areas of marketing e.g. advertising agencies, manufacturing, services, public relations agencies, and communications. The Department's internship coordinator will work with each student to obtain placement, if needed. Student will work for and study the marketing operations of the organization. Marketing internship may be taken, with approval of the coordinator, any quarter.

MKT 798
SPECIAL TOPICS
Graduate
Content and format of this course is variable. An in-depth study of current issues in marketing.

MKT 799
INDEPENDENT STUDY
Graduate
Available to graduate students of demonstrated capability for intensive independent work in marketing.

MKT 250
NAVIGATING MARKETING CAREERS
Undergraduate
The course is designed to provide an understanding of the various marketing career options available for early-career marketing professionals. Based on a deep understanding of individual strengths and weaknesses, this course will help students to find the marketing role that leverages their strengths. Additionally, this course prepares students to create and manage a successful marketing job-search campaign. Elements of the campaign include resume development for marketing roles, cover letters, developing and using networking skills, interview preparation, managing interview anxiety, salary negotiation, etc.

MLS 401
VISIONS OF THE SELF
Graduate
A study of the differing visions of the self as presented in significant documents from the history of ideas. Materials selected from classic texts of literature, philosophy, theology, psychology and social science.
MLS 402
PERCEPTIONS OF REALITY
Graduate
A survey, beginning with ancient Greece and ending with the modern world, of models of universal order as developed by natural scientists and literary and visual artists.

MLS 403
THE AMERICAN EXPERIENCE
Graduate
A chronological and thematic study of the location of self within American culture. Readings chosen to reflect both dominant and dissenting ideas at specific points of American history.

MLS 404
THE CITY
Graduate
A topical examination of the urban experience using the methods and sources of both historians and social scientists. Topics include surveys of various images of the city, utopian and dystopian visions, and the uniqueness of the modern city.

MLS 405
REPRESENTATIONS OF THE BODY
Graduate
This course will examine how the human body, which seems to be a natural, universal fact, is also a deeply cultural symbolic construction whose analysis yields insights into structures of power and consciousness.

MLS 406
EXPLORING OTHER CULTURES
Graduate
Examination of the history, traditions, values and institutions that have shaped the lives of people in another culture. Analysis of the "terms of encounter," that is, the perspectives that students assume as they seek to encounter the "other." Variable topics.

MLS 407
SELF, CULTURE AND SOCIETY IN CONTEMPORARY JAPAN
Graduate
Interdisciplinary examination of the political, economic and social order of contemporary Japan. Relationship of individuals and groups to the social order, as they create the reality of diversity and possibilities for change.

MLS 409
ENVIRONMENT AND SOCIETY
Graduate
"Environment and Society" is a 400-level interdisciplinary core course on the environment. The course might include such topics as cultural diversity in time and place with regard to the human view of the natural world, various approaches to environmental ethics, philosophical and religious influence in conceptions of the earth as environment, the relationship between scientific measurement and the social constructions of the natural world, the science and politics of climate change, race and gender considerations in environmental politics, and environmental consciousness in literature and the arts. The instructor's own disciplinary interests will play a prominent role in the course construction, but the course will draw from the sciences, the social sciences and the humanities. As in all MLS courses, the instructor will use the course assignments to work with students on enhancing graduate-level intellectual skills through reflexive pedagogy.

MLS 419
CHICAGO: THE 21ST CENTURY
Graduate
Chicago: Towards The 21st Century.
MLS 427
TOPICS IN COMMUNICATION AND CULTURE
Graduate
Variable topics relating to cross-cultural communication, culture and media, cultural difference in communication, and communication issues in multiculturalism. Consult current course schedule for topic.

MLS 428
TOPICS IN ORGANIZATIONAL COMMUNICATION
Graduate
Variable topics relating to communication issues in organizational settings, including power, institutional culture and change, training, and multicultural factors. Consult current course schedule for topic.

MLS 440
FEMINIST THEORIES
Graduate
A discussion and assessment of the various theories concerning the place of women in society, including theories that have advocated a more positive role for and valuation of women than those of the dominant society. The course will take both an historical and a topical approach. Cross-listed as WGS 300 and WGS 400.

MLS 441
WOMEN ACROSS CULTURES
Graduate
A critical analysis of the roles of women in societies around the world, with special emphasis on economics, politics, and culture. Focus is on African, Asian and Latin American cultures and non-dominant groups within Western Societies. Topics vary each quarter. Cross-listed as WGS 390 and WGS 490.

MLS 442
ETHICS AND THE ECONOMY
Graduate
This course will present the thinking of social scientists, philosophers and theologians on the impact of religious values on the origin and development of American capitalism, and their possible relevance to contemporary discussions of business ethics. Cross-listed as GSB 650 and PHL 650.

MLS 443
WORK, LEISURE AND THE QUALITY OF LIFE
Graduate
The course examines the nature and meaning of work and leisure in Western culture, and the relationship of work and leisure to contemporary issues associated with the concept "Quality of Life". Cross-listed as SOC 475.

MLS 445
GENDER AND COMMUNICATION
Graduate
A review of the differences in communication patterns between women and men. Topics covered include language and language usage differences, interaction patterns, and perceptions of the sexes generated through language and communication. Cross-listed as CMN 523 and WGS 440.

MLS 447
GENDER AND SOCIETY
Graduate
Attention to the growing literature and empirical research on changing patterns in economic, psychological and social outcomes for women and men. Consideration of various theories of gender differentiation and inequality.
MLS 448
WORK AND LEISURE IN THE FUTURE
Graduate
The latter half of the 20th century has seen great change in the meaning, form and value assigned to work and leisure in society. Many of these changes have come to be characterized as inevitable consequences of life in post-industrial society. This course: 1) seeks to identify the factors that are shaping the future of work and leisure and 2) will explore futuristic scenarios that challenge the position of "work as a central-life meaning." Cross-listed as SOC 476.

MLS 449
TOPICS IN NON-FICTION WRITING
Graduate
Topics addressed in different versions of the course may include writing for magazines, science writing, travel writing, writing in humanities and social science research, etc. Consult current course schedule for topics.

MLS 450
CHICAGO: ARCHITECTURE & URBAN DEVELOPMENT
Graduate
A study of urban architecture in Chicago from 1833 to 1984, including the role of planning, the purpose of open space, the place of tradition, the impact of modern design theories and evaluation of contemporary developments.

MLS 451
TOPICS IN AMERICAN POLITICS
Graduate
Topics In American Politics

MLS 452
GREAT IDEAS, BUSINESS AND SOCIETY
Graduate
A study using primary sources of the basic ideas, aspirations and values which humanity strives to attain and which constitute the basis of fundamental demands on the world of business and its managers, their policies and decisions.

MLS 453
POLITICS, MEDIA AND EVERYDAY LIFE
Graduate
An examination of various ways in which the mass media influence our perceptions of reality. Political, social and cultural implications of media processes are assessed. Cross-listed as PSC 321.

MLS 455
COMMUNITY AND THE CITY
Graduate
The course explores the possibilities for community life within urban settings. It emphasizes the development of network relations and cross-cutting ties.

MLS 456
THE USES OF AUTOBIOGRAPHY
Graduate
Study of selected autobiographical writings to serve as models for self-expression.

MLS 458
ISLAM AND THE WEST IN THE MODERN WORLD
Graduate
An examination of the economic, cultural and political interactions of Europe and the Islamic World.
MLS 459
WRITING IN THE PROFESSIONS
Graduate
Improves writing skills useful in semi- and non-technical professions; emphasis on style, tone, awareness of purpose and audience; effective memo, proposal and report design. Cross-listed with WRD 522.

MLS 460
THE DILEMMA OF THE MODERN AGE
Graduate
The crisis of the individual's place in society is exposed through social sciences, philosophy, literature, art and music. The distinctive features of and responses to modern culture-individualism, alienation and depersonalization-are illuminated through multiple perspectives. Cross-listed as SOC 473.

MLS 461
MODERN POETRY
Graduate

MLS 462
TOPICS IN BUSINESS ETHICS
Graduate
Seminar In Business Ethics. Cross-listed as PHL 640 and GSB 640..

MLS 463
NATIONALISM AND INTERNATIONAL CONFLICT
Graduate
This course will explore the social origins and development of national identities. How these identities have been manipulated to serve specific competitive interests in the past two hundred years will also be discussed. Cross-listed as PSC 342 & INT 365.

MLS 464
THE CULTURE OF AMERICAN CATHOLICS
Graduate
How has the unique experience of immigration shaped the American Catholic Church from the colonial period to the 21st century? How did the idea of "the Church" as an authoritative hierarchy come about in the mid-20th century, and how has that notion been challenged by immigrant communities, as well as artists and intellectuals? Drawing on the disciplines of history, sociology, anthropology, cultural theory, literature and the arts, this course looks at those who built the Church and those who challenged and changed it. (Course is cross-listed as REL 384, CTH 384 and MLS 464.)

MLS 467
SELECTED TOPICS ON WOMEN IN LITERATURE
Graduate
Topics vary; see schedule for current offering.

MLS 468
SELECTED TOPICS: WOMEN, SELF AND SOCIETY
Graduate
Topics vary; see schedule for current offerings.

MLS 473
TOPICS IN LITERATURE
Graduate
Topics addressed in different versions of the course may include various themes, movements and genres in British, American and World Literature. Consult current course schedule for topic.
MLS 474
WOMEN AND ART
Graduate
Examines the work of the most significant women artists from the Renaissance to the present. It will also investigate how women have been represented in Western art by both male and female artists. Cross-listed as HAA 366.

MLS 475
TOPICS IN CONTEMPORARY FILM
Graduate
An examination of recent films and their relation to broader tendencies in contemporary culture. Topics vary, see schedule for current offerings.

MLS 476
CHICAGO IN FICTION AND FILM
Graduate
This course examines novels and short stories written by Chicagoans during the 20th century. It also includes a few film adaptations of these works.

MLS 477
FEMINIST ETHICS
Graduate
Critiques of mainstream empirical and philosophical works and of Carol Gilligan's work on ethics will include discussions on the women's voice in morality, the nature of theories by women vs. men, the formation of plural positions concerning care versus justice, and alternative ethical stances. Cross-listed as WGS 310/410 and REL 322.

MLS 478
THE PSYCHOLOGY OF WOMEN
Graduate
A review of research and theory on women including sexist biases and methodology, feminist therapy, violence against women, and gender differences in the development of power and sexuality. Cross-listed as PSY 561 and WGS 470.

MLS 479
WRITING POETRY
Graduate
Writing Poetry.Cross-listed as ENG 493.

MLS 480
MAJOR AUTHORS
Graduate
An examination of major writers in the English and American literary traditions. Topics vary; see schedule for current offerings.

MLS 481
SPECIAL TOPICS IN ART HISTORY
Graduate
Explorations in the history of art from ancient Egyptians to contemporary art. Topics vary.

MLS 482
ECOLOGY, SPIRITUALITY AND ETHICS
Graduate
This course explores the ecological crisis from a religious/ethical perspective, examining the dangers posed for humanity and the planet. It considers the new cosmology developing from science, especially physics, and its dialogue with philosophy, myth and religion. Cross-listed as REL 320.
MLS 483
CULTURAL PERSPECTIVES ON HEALTH AND DISEASE
Graduate
A multidisciplinary examination of the cultural factor that help form notions of the well and sick states of the human body. Included will be such topics as the social/religious history of epidemics, healing in Western and non-Western medicine, etc. Sources will be drawn from the history of medicine, anthropological and sociological works, philosophy and literature. Cross-listed as REL 320.

MLS 484
ZEN MIND
Graduate
This course examines the philosophy, art, literature and religious practice of Zen Buddhism. It explores Zen’s influence in both Japan and America. Cross-listed as REL 342.

MLS 485
INEQUALITY IN AMERICA
Graduate
This course examines the nature and extent of inequality in American society and explores various psychological, political, social and economic theories which attempt to explain the existence of this phenomenon. Cross-listed as PSC 324.

MLS 486
TOPICS IN POPULAR CULTURE
Graduate
Examines a specific dimension of popular culture using interdisciplinary theories and methods. Possible topics include Food in Film, The Ideology of Romance, or perhaps the popular culture of a decade like the 1950s or 1960s. Topics vary.

MLS 487
SPECIAL TOPICS IN HISTORY
Graduate
Topics vary.

MLS 488
TOPICS IN WORLD RELIGIONS
Graduate
Topics in World Religions

MLS 489
TOPICS IN SOCIOLOGY
Graduate
Various topics in the field of sociology.

MLS 490
SPECIAL TOPICS AND CONTROVERSIES
Graduate
Occasional offerings of particular contemporary relevance by visiting professors. Topics vary.

MLS 497
INDEPENDENT STUDY [NON-CAPSTONE]
Graduate
Independent study in an area that does not lead directly into the thesis or capstone. Students may also register for this course on a topic indirectly related to their thesis or capstone if they will subsequently take MLS 498, in which the student directly prepares to write the Integrating Project/Thesis. The MALS and IDS Program requires that students taking independent studies follow a specified format of meeting frequency, activities, and scholarly production. This format is available on the program web site or from the MALS and IDS office. Registration is by permission of the Director of the MALS and IDS Program and the instructor of the independent study.
MLS 498
INDEPENDENT STUDY
Graduate
Independent study undertaken as preparation for thesis or practicum capstone options. This course is optional preparation for MLS 499, Capstone. The MALS and IDS Program requires that students taking this course follow a specified format of meeting frequency, that they produce a review of literature related to their thesis or practicum, an annotated bibliography, and the required Formal Proposal for the thesis or practicum. Registration is by permission of the Director of the MALS and IDS Program and the permission of the instructor who serves as the thesis or practicum director.

MLS 499
CAPSTONE
Graduate
Capstone for students doing a thesis, practicum or enhanced portfolio essay. Students may register for this course after the Formal Proposal for the thesis or practicum, or the Enhanced Portfolio Essay Proposal, has been approved. Students are normally expected to complete their capstone projects within the quarter in which they take this course. This course carries four hours of credit. Registration is by permission of the Director of the MALS and IDS Program and the permission of the instructor who serves as the student's capstone director.

MLS 500
CAPSTONE
Graduate
A seminar offered occasionally to guide groups of students working on their capstone projects.

MLS 501
ACTIVE STATUS
Graduate
Students register for this course during periods when they are not registered for courses but wish to have access to university facilities. Ordinarily students will not use this course once they have been admitted to candidacy during the thesis or capstone.

MLS 502
CANDIDACY CONTINUATION
Graduate
Students who have completed MLS 499 Thesis/Capstone may register for this course in order to have continued access to university facilities. Students may register for this course no more than three times. Non-credit. $40.00 per quarter.

MMT 401
FOUNDATIONS OF MATHEMATICAL THINKING AND LEARNING IN THE MIDDLE SCHOOL
Graduate
This course is designed to help participants construct meaningful connections between being a learner of mathematics (i.e., a person who can solve problems, reason mathematically, communicate findings and thinking, and make connections) and being a teacher of mathematics (i.e., a person who can help others understand, use, and apply mathematical ideas). The course will begin the process (which will be continued throughout the remainder of the Master of Arts in Middle School mathematics Education program) of having students explore the interplay between narratives describing their own classroom experiences as well as literature and research about others' experiences in order to analyze the impact of developmental and interpersonal experiences on the learning and teaching of mathematics.

MMT 410
THE DEVELOPMENT OF MIDDLE SCHOOL MATHEMATICS LEARNERS
Graduate
Critical to the success of middle school mathematics learners, is their teachers' understanding of the multiple perspectives that research has taught us, as educators, about how people learn. In this course, participants will engage with the history and evolution of how the fields of educational psychology, cognitive science, applied developmental psychology, and mathematics education have contributed to a modern understanding of what constitutes effective practice for middle school mathematics teaching. Major theoretical positions and their seminal architects will be highlighted, examined and discussed. A particular emphasis will be put on each position's impact on curriculum development and classroom pedagogy for middle school mathematics.
This course will examine, in the context of classroom practice, the following themes: 1) How students can learn mathematics with conceptual understanding; 2) How to teach mathematics so that students learn with understanding; 3) How to assess students' mathematical knowledge to inform instruction and determine their growth; 4) The nature and content of innovative curriculum projects designed to teach mathematics for conceptual understanding.

This course will span the three quarters of the second academic year of the program and will be partnered with the three content-focused courses offered during the second year. Participants will be introduced to the field of educational inquiry through a study of various designs and methods of doing educational research. In addition, this course will help participants consider current issues in mathematics education in relationship to their own teaching and learning of mathematics and what it means to transfer the mathematics learned in other courses into one's practice as a math teacher. They will identify concrete changes they want to implement in their teaching during the years following their completion of the program based on the new content and ideas to which they have been exposed. As part of the course, the teachers will design an action research project during the first quarter, implement the project during the second quarter, and analyze the data during the third quarter.

See schedule for current offerings.

MOL 198
STUDY ABROAD
Undergraduate
Variable credit.

MOL 199
INDEPENDENT STUDY
Undergraduate
Variable credit.

MOL 210
CLASSICAL MYTHOLOGY
Undergraduate
Classical Mythology is an interdisciplinary blend of the classical traditions of myth and literature, concentrating on myth. It endeavors to place Classical myths into their historical, social and cultural contexts. Students will learn significant myths and the names and functions of the most important characters in them along with primary myth theories.

MOL 211
HEROES AND EPICS
Undergraduate
Heroes and Epics is a literature course is centered around Homer's Iliad and Odyssey and Vergil's Aeneid; it endeavors to place these epic poems into their geographical, historical, social, and cultural contexts. Students will learn the definition of Epic as a literary genre and discover how this genre evolved, through ancient Greek oral tradition, to reflect audiences and times.

MOL 212
CLASSICAL TRAGEDY
Undergraduate
Classical Tragedy is a literature course that introduces students to the authors, social contexts and performances of ancient Greek drama. Students will learn how to interpret the "myth" presented on the ancient Greek stage, and how to apply what they have learned to detect and interpret the moral, social and political issues raised in this timeless, yet keenly particular, literature.
MOL 213
ANCIENT GREEK AND ROMAN COMEDY
Undergraduate
Ancient Greek and Roman Comedy. Selected landmarks of Greek and Roman satirical literature. Students learn important theories of interpretation, theories of humor as well as secondary interpretive opinions about ancient Comedy. This course endeavors to train intelligent critics of modern satire.

MOL 214
THE CLASSICAL FEMININE
Undergraduate
Close reading of translations of ancient Greek, Latin, and Semitic texts that pertain to or are written by women. We will investigate the nature and the roles of the “feminine” in Antiquity, studying the day-to-day lives of women, with emphasis on the textile arts that comprised their primary daily activity. Although students will visit these texts through English renderings, the course will yield a lively sense of the ancient languages in which they were written -- and, thereby, the living conversations with which women of these time-honored cultures expressed, and wove, themselves.

MOL 243
JAPANESE POETRY IN TRANSLATION
Undergraduate
Survey of Japanese poetry in English translation, with selections of representative authors from the Classical and Modern periods.

MOL 244
CLASSICAL CHINESE I
Undergraduate
Classical Chinese is predominantly a literary language, which has played a linguistically and culturally unifying role among the many vernacular languages of China. Permission of instructor, some Mandarin Chinese preferred.

MOL 245
CLASSICAL CHINESE II
Undergraduate
Classical Chinese is predominantly a literary language, which has played a linguistically and culturally unifying role among the many vernacular languages of China. MOL 244 or equivalent recommended.

MOL 246
CLASSICAL CHINESE III
Undergraduate
Classical Chinese is predominantly a literary language, which has played a linguistically and culturally unifying role among the many vernacular languages of China. MOL 245 or equivalent recommended.

MOL 248
CHINESE CALLIGRAPHY
Undergraduate
An introduction to the art of Chinese calligraphy. Hands-on practice as well as history and theory of the art. This course is open to students with no background in Chinese calligraphy, language, literature, or culture.

MOL 249
MODERN CHINESE LANGUAGE AND SOCIETY
Undergraduate
This course will explore facets of Modern China, with special attention to how language and culture intertwine.
MOL 277
TURN OF THE CENTURY VIENNA
Undergraduate
This course will explore a number of the prominent players who were active in Vienna during the turn of the century, such as Sigmund Freud, Gustav Klimt, Arthur Schnitzler, Ludwig Wittgenstein, and Gustav Mahler. We will examine, through primary and secondary texts, and works of art, music and film, the lasting impact of their contributions on the development of thinking and innovation in the twentieth, and indeed even twenty-first, centuries.

MOL 282
MODERN AFRICAN LITERATURE
Undergraduate
Themes and theories of postcolonial studies in relation to African culture, politics and literature. Evaluation of novels, criticism, and movies to provide an introduction to the complex, highly heterogeneous experience of modern African literature.

MOL 297
SPECIAL TOPICS IN MODERN LANGUAGES
Undergraduate
See schedule for current offerings.

MOL 298
STUDY ABROAD
Undergraduate
Variable credit.

MOL 299
INDEPENDENT STUDY
Undergraduate
Variable credit.

MOL 300
PROFESSIONAL PRACTICUM
Undergraduate
Supervised experience in teaching, tutoring, interpreting, editing, writing or other professional exercises of language skills.

MOL 307
TOPICS IN CHINESE LITERATURE
Undergraduate
This course provides an introduction to the history, art and interpretation of classical and modern Chinese literature. Since all readings are in English, students will also explore ways of inter-media re-writing of Chinese literature in the age of globalization.

MOL 308
TOPICS IN JAPANESE LITERATURE
Undergraduate
Variable topics. Taught in English. Consult schedule for current offering.

MOL 309
THE NOVELIST’S WORLD
Undergraduate
The Novelist's World.

MOL 310
JAPANESE CULTURE
Undergraduate
Japanese Culture--Geisha: Our Fantasy, Their Reality is a cross-cultural and interdisciplinary exploration of a symbol of authentic Japanese feminine beauty and a cultural icon of the American kitsch, the geisha.
MOL 311
TOPICS IN FRENCH LITERATURE
Undergraduate
Masterpieces, themes and genres of French literature from its origins to the present day.

MOL 312
TOPICS IN GERMAN LITERATURE
Undergraduate
Masterpieces, themes and genres of German literature from its origins to the present day.

MOL 313
TOPICS IN ITALIAN LITERATURE
Undergraduate
Masterpieces, themes and genres of Italian literature from its origins to the present day.

MOL 314
TOPICS IN RUSSIAN LITERATURE
Undergraduate
Masterpieces, themes and genres of Russian literature from its origins to the present day.

MOL 315
TOPICS IN HISPANIC LITERATURE
Undergraduate
Masterpieces, themes and genres of Hispanic literature from its origins to the present day.

MOL 317
RUSSIAN SHORT STORY
Undergraduate
The study of a representative selection of Russian short fiction concentrating on the great 19th-century masters such as Pushkin, Gogol, Turgenev, Tolstoy, Chekhov, Gorky, and Korolenko.

MOL 318
MASTERPIECES OF RUSSIAN LITERATURE
Undergraduate
This course will present some of the greatest Russian Short Stories (1880 - 1930). In the course, students will read short stories in English translation, by six major Russian writers: Anton Chekhov, Alexander Kuprin, Ivan Bunin, Maxim Gorky, Mikhail Bulgakov, and Mikhail Zoshchenko. Students will analyze and interpret the short stories of the 1880 - 1930 period, both with respect to form and meaning. In the process they will develop greater insight into, and enjoyment of literature. The course will relate the original works to the social and cultural issues of their own time, as well as to current problems.

MOL 319
WORLD OF THE CINEMA
Undergraduate
Critical analysis of cinematic development.

MOL 320
MODERN JAPANESE LITERATURE IN TRANSLATION
Undergraduate
Covers modern Japanese literature in English translation from the Meiji era to the present. Themes for study include tradition and modernization, the individual and society, gender, and nostalgia. In addition, beginning with excerpts from Tsubouchi Shoyo's 1886 essay "The Essence of the Novel," students will trace the development of the novel in modern Japan.
MOL 321
CLASSICAL JAPANESE LITERATURE IN TRANSLATION
Undergraduate
Classical Japanese literature, in English translation, from the earliest periods up to the Meiji era.

MOL 322
CULTURAL HISTORY OF PARIS
Undergraduate
A study of Paris from its origins in Roman times to the present day, this study abroad course is composed of readings (primary and secondary), lectures, and on-site visits that reveal the unfolding history of Paris.

MOL 325
QUEER JAPAN
Undergraduate
This course surveys representations of same-sex sexuality in Japan from the 14th century to the present day. We will explore the intersection of history, politics, art, and culture through historiography, literature, film, photography, music, cartoons, and animation, examining "traditional" male-male sexuality, the emergence in the modern era of texts reflecting female-female sexuality, as well as the formation of new consciousness and subjectivities throughout the 20th century and into the 21st. We will look at critical issues for sexual minorities in Japan, including coming out and AIDS activism, paying particular attention to their potential relevance to sexual minorities and politics in the US. Texts will include material translated to English for the first time.

MOL 333
HISPANIC WOMEN WRITERS
Undergraduate
Same topics as Spanish 322, but taught in English; not counted as part of a Spanish major or minor.

MOL 334
EXPLORING MULTICULTURALISM THROUGH LITERATURE
Undergraduate
Exploring Multiculturalism Through Literature.

MOL 335
EXPLORING SOCIAL DIVERSITY IN LATIN AMERICA
Undergraduate
Readings and instruction in English; not counted as part of a Spanish major or minor. Cross-listed as LST 201.

MOL 337
CONTEMPORARY LATIN AMERICA THROUGH ITS LITERATURE
Undergraduate
The study of English translations of a variety of Latin American literary works that highlight key historical, political, social, and artistic trends in the region.

MOL 340
ARAB CULTURE
Undergraduate
A careful examination of Arab culture within its historical, social, and political context with in-depth analysis of the products and practices of Arab culture. Includes authentic material (video, images, and online resources) and engagement in online and in-class discussions about Arab perspectives that can be derived from these products and practices. This is a hybrid course (meets once per week onsite with students completing the rest of the required hours through online instruction, discussion, and projects). Students will receive instruction and assistance to develop the skills to work with the online portion, which includes using a social network for sharing material and discussion.
MOL 341
MEDIA IN THE ARAB WORLD
Undergraduate
The course provides in depth examination of Media in the Arab World as a product of Arab culture. Authentic media items such as television, print, and electronic media will be analyzed within their historical, social, and political context. Major themes in Arab media such as religion, gender roles, social customs, political issues, and historical perspectives will be carefully examined to better understand Arabs, their culture, and the way they think. This is a hybrid course (meets one day onsite with students completing the rest of the required hours through online instruction, discussion, and projects). Students will receive full instruction and assistance to develop the needed skills to work with the online portion, which includes using a social network for sharing material and discussion.

MOL 342
MODERN ARABIC LITERATURE IN TRANSLATION
Undergraduate
Students will learn about the history of Arab literature and selected works of modern writers from different regions in the Arab world. Literature will be examined as a product of Arab culture. In addition to the literary analysis of the works, students will analyze and discuss the cultural practice and perspectives presented in these works taking in consideration the authors' affiliation and background, as well as the historical, social, and political context of the works. This is a hybrid course (meets one day onsite with students completing the rest of the required hours through online instruction, discussion, and projects). Students will receive full instruction and assistance to develop the needed skills to work with the online portion, which includes using a social network for sharing material and discussion.

MOL 349
TEACHING MODERN LANGUAGES
Undergraduate
TEACHING MODERN LANGUAGES [CROSS-LISTED AS SE 349]

MOL 350
METHODS OF TEACHING MODERN LANGUAGES IN THE ELEMENTARY SCHOOL
Undergraduate
Provides training in the theory and methods of teaching foreign languages in the elementary school (FLES). Designed for both pre-service and in-service teachers. Pre-service teachers include foreign language majors interested in elementary school teaching and elementary majors who are proficient in a foreign language and interested in teaching FLES. In-service teachers include elementary teachers proficient in a foreign language who are teaching or who are interested in teaching FLES and secondary trained teachers who are teaching or who are interested in teaching FLES. In order to meet the objectives of this course and subsequent methods courses, it is expected that all participants be able to demonstrate proficiency in English and a second language before enrolling.

MOL 354
THEORETICAL FOUNDATIONS/ CURRENT RESEARCH SECOND/ FOREIGN LANGUAGE ACQUISITION
Undergraduate
An overview of major theories and current issues in second/foreign language acquisition in both classroom and natural/non-instructed settings.

MOL 355
CONTEMPORARY CRITICISM
Undergraduate
An overview of contemporary criticism from Russian formalism to post-modernism. Cross-listed as CPL 355.

MOL 356
PSYCHOLINGUISTICS
Undergraduate
An overview of basic issues in experimental psycholinguistics by introducing various topics, such as speech perception/production, word recognition/memory, sentence processing, first- and second-language acquisition and the brain and languages. Cross-listed as PSY 393.

MOL 357
TEACHING CULTURE IN THE FOREIGN LANGUAGE CLASSROOM
Undergraduate
Pedagogical theory and practice in the integration of culture into the language classroom.
MOL 360
REALISM IN RUSSIAN DRAMA
Undergraduate
The course presents some of the greatest Russian plays of the 18th and 19th century. In the course, students will read original works in English translation by Von Vizin, Griboedov, Pushkin, Gogol, Lermontov, and Ostrovsky. Some critical works will be included. Students will read, analyze, and interpret the plays, comedies and dramas, both with respect to form and meaning.

MOL 361
RUSSIAN DRAMA IN TRANSLATION
Undergraduate
Russian theater of the 20th century appeared in parallel to realistic novels and contributed to the movement of realism in Russian literature. Realism dominated in Russian literature from approximately 1845 to 1905, followed by Russian theater of the 20th century. To most foreign readers it is the most interesting part in Russian culture. Russian theater of the 20th century, presented by such authors as Chekhov, Gorky, Bulgakov and Teffi, demonstrates tendencies from realism to a vanguard. Some critical works will be included. The student will read, analyze and interpret the plays, comedies and dramas, both with respect to form and meaning. In the process they will develop greater insight into the social and multicultural issues of the time.

MOL 364
RUSSIAN SHORT STORY IN ENGLISH TRANSLATION II: SOVIET ERA
Undergraduate
This course presents some of the greatest Russian short stories (1880 - 1930) in English translation. Students will read short stories in English translation by four major Russian writers: Chekhov, Kuprin, Bunin and Bulgakov. Students will analyze and interpret short stories of the 1880-1930 period, both with respect to form and meaning, and discuss some critical works.

MOL 368
RUSSIAN NOVEL
Undergraduate
Major Russian prose works of the late 20th century, read in English translation. Authors may include Bulgakov, Platonov, Pristavkin, Bitov, Turgenev, Dostoevsky, Tolstoy and Nabokov.

MOL 369
RUSSIAN LITERATURE AND FILM
Undergraduate
Greatest Russian short stories, plays, and novels of the 19-20th century, as presented in film. Readings in English translation of works by Tolstoy, Dostoevsky, Ostrovsky, Chekhov, and Pasternak.

MOL 380
COMMUNITY BASED SERVICE LEARNING
Undergraduate
Community based service learning

MOL 389
TOPICS IN COMPARATIVE LITERATURE
Undergraduate
Variable topics. Consult course schedule for current offering. Cross-listed as ENG 389.

MOL 392
INTERNSHIPS
Undergraduate
Variable credit.

MOL 396
CAPSTONE: LANGUAGE, LITERATURE, AND CULTURE
Undergraduate
This course explores the connections among linguistics, literary studies and cultural studies, as well as the relation of these fields to others, such as art, philosophy, history, psychology, law, and religion.
MOL 397
SPECIAL TOPICS IN MODERN LANGUAGES
Undergraduate
See schedule for current offerings.

MOL 398
STUDY ABROAD
Undergraduate
Variable credit.

MOL 399
INDEPENDENT STUDY
Undergraduate
Variable credit.

MOL 400
PROFESSIONAL PRACTICUM
Graduate
Supervised experience in teaching, tutoring, interpreting, editing writing or other professional exercise of language skills.

MOL 401
PROFESSIONAL FOUNDATIONS
Graduate
In this course you will prepare a series of surveys/summaries of research literature and learning resources. With the guidance of your professor, you will identify one or more professional organizations such as MLA, CLA, ACTFL, CTFL, AATX, and others. Using their by-laws, publications, and recent conference programs, you will write a literature summary that identifies the major issues of concern to these organizations, and analyze their resources and professional standards relate to research and practice in your field of interest.

MOL 402
LANGUAGE, SELF AND SOCIETY
Graduate
This course offers students a theoretical and methodological introduction to the theory and methods of the study of language variation and change and its relationship to various social and individual factors (e.g. race, class, sex, ethnicity, identity, etc.). It introduces students to the concepts, theories, and methods used to analyze language and its role in the definition and construction of individual and group identity. We will look specifically at how social and individual factors may influence linguistic structure and vice versa. The course will explore various theories of sociolinguistics, including the interaction between language and speakers? membership in various groups, linguistic variation across groups, intergroup theory, dialetology, and discourse analysis, among others. Through the course readings students will consider and critically analyze the notions of the speech community and the individual, the existence (or not) of dialects, synchronic variation and diachronic change, the relationship between social factors and language, language policy and planning, language standardization, linguistic ethnography, and theories related to education and society. Bilingual phenomena such as code switching, language contact, and the creation of pidgins and creoles will also be examined. Topics may vary by quarter.

MOL 403
COMMUNITIES OF PRACTICE
Graduate
In this course, we will study Western and non-Western cultural texts that address a central theme (for example: ?Citizenship,? ?Freedom and Oppression,? ?Globalization,? ?Popular pedagogy?). Students will practice talking and writing about the ethical questions, inter-cultural conversations, and analytical methods common to the liberal arts tradition as they apply to their use of a language in a particular professional setting. We explore the varied kinds of local and global communities in the contemporary world and place them in political, economic, and historic contexts to understand how they have transformed over time, with specific attention to the interaction of economic (i.e., work practice) and social ties (i.e., familial, religious, ethnic, linguistic) in forming and transforming local, national, international and global communities. We will examine how various ethnic groups have used communities as a starting place to assimilate and make their adjustments to nations as well as maintain ties to the culture and heritage of their home country. Topics vary by quarter and some sections will include service learning opportunities.

<td>MOL 450</td>
<td>METHODS OF TEACHING FOREIGN LANGUAGES IN THE ELEMENTARY SCHOOL</td>
<td>Graduate</td>
<td>Provides training in the theory and methods of teaching foreign languages in the elementary school (FLES). Designed for both pre-service and in-service teachers. Pre-service teachers include foreign language majors interested in elementary school teaching and elementary majors who are proficient in a foreign language and interested in teaching FLES. In-service teachers include elementary teachers proficient in a foreign language who are teaching or who are interested in teaching FLES and secondary trained teachers who are teaching or who are interested in teaching FLES. In order to meet the objectives of this course and subsequent methods courses, it is expected that all participants be able to demonstrate proficiency in English and a second language before enrolling.</td>
</tr>
<tr>
<td>MOL 454</td>
<td>THEORETICAL FOUNDATIONS/ CURRENT RESEARCH SECOND/ FOREIGN LANGUAGE ACQUISITION</td>
<td>Graduate</td>
<td>An overview of major theories and current issues in second/foreign language acquisition in both classroom and natural/non-instructed settings.</td>
</tr>
<tr>
<td>MOL 457</td>
<td>TEACHING CULTURE IN THE MODERN LANGUAGE CLASSROOM</td>
<td>Graduate</td>
<td>Pedagogical theory and practice in the integration of culture into the language classroom.</td>
</tr>
<tr>
<td>MOL 460</td>
<td>RUSSIAN DRAMA IN ENGLISH TRANSLATION I</td>
<td>Graduate</td>
<td>The course presents some of the greatest Russian plays of the 18th and 19th century. In the course, students will read original works in English translation by Von Vizin, Griboedov, Pushkin, Gogal, Lermontov, and Ostrovsky. Some critical works will be included. Students will read, analyze, and interpret the plays, comedies and dramas, both with respect to form and meaning.</td>
</tr>
</tbody>
</table>
Russian theater of the 20th century appeared in parallel to realistic novels and contributed to the movement of realism in Russian literature. Realism dominated in Russian literature from approximately 1845 to 1905, followed by Russian theater of the 20th century. To most foreign readers it is the most interesting part in Russian culture. Russian theater of the 20th century, presented by such authors as Chekhov, Gorky, Bulgakov and Teffi, demonstrates tendencies from realism to a vanguard. Some critical works will be included. The student will read, analyze and interpret the plays, comedies and dramas, both with respect to form and meaning. In the process they will develop greater insight into the social and multicultural issues of the time.

This course presents some of the greatest Russian short stories (1880 - 1930) in English translation. Students will read short stories in English translation by four major Russian writers: Chekhov, Kuprin, Bunin and Bulgakov. Students will analyze and interpret short stories of the 1880-1930 period, both with respect to form and meaning, and discuss some critical works.

Major Russian prose works of the late 20th century, read in English translation. Authors include Bulgakov, Platonov, Pristavkin, and Bitov.

As the required capstone course for the M.A. program in Modern Languages, MOL 496 requires students to reflect on their coursework and the materials that they have produced for their portfolios in order to articulate a coherent vision of their experience in the program. It encourages them to learn from each other's professional interests, builds community among them, and facilitates interactive learning. The course employs a seminar design that is intentionally flexible, and varies depending upon the participating students' goals and objectives. Class sessions will focus on the common issues and concerns that all students face as language professionals. In addition, each student must select a representative work (the portfolio project), create an overview and commentary text on this work, and present the work to the class. Each student's portfolio and project (whether a thesis, internship, or creative work) will reflect his or her own intellectual interests and professional goals.

This course introduces students to the concepts, principles, and case outcomes of public health practice. It outlines theories of health, illness behavior, and health education. It considers community health data sources, classical health intervention approaches, the planning and evaluation of community health interventions.
MPH 502
INTRODUCTION TO EPIDEMIOLOGY
Graduate
This course will focus on the theories and methods used in the field of epidemiology to study the occurrence, distribution and determinants of infectious and non-infectious diseases, other forms of illness (particularly those impacted by social and environmental forces), and injury in human populations. The focus will be on determining the impact, magnitude, and patterns of disease/illness/injury frequency so that causal agents can be identified and effective prevention, treatment and control measures can be designed and implemented. The course will explore variations of disease/illness/injury in relation to such factors as age, sex, race/ethnicity, occupational and social characteristics, place of residence, social inequality, susceptibility, exposure to specific agents, and other pertinent characteristics. Also of concern will be the temporal distribution of disease, examination of trends, cyclical patterns, and intervals between exposure to causative factors and onset of disease.

MPH 503
INTRODUCTION TO ENVIRONMENTAL HEALTH
Graduate
Study of the environment factors that influence health. Topics include air and water pollution, global population and local community dynamics, toxicology, infectious and chemical agents, radiation, and management.

BIO 121 or instructor permission is a prerequisite for this course.

MPH 511
HEALTH AND BEHAVIOR THEORIES AND COMMUNITY INTERVENTION
Graduate
This course will examine various theories and models that have been developed to identify the range of psychosocial factors that impact participation in both health-threatening and health-enhancing behaviors, and provide guidance for the modification of such behaviors. The theories and models will be explored from multidisciplinary perspectives and will be applied to an array of health issues. Practical applications of these theories to the development and implementations of theory-based public health interventions that can be applied with multiple populations (e.g., women, adolescents, elderly, people of color) within multiple settings (e.g., communities, schools, health care settings) at various levels of change (e.g., individual, community, social, policy) will also be explored. Cross-listed with PSY 511.

MPH 512
APPLIED COMMUNITY PUBLIC HEALTH RESEARCH METHODS
Graduate
This course will provide a critical examination of the relative strengths and limitations of various research designs, data collection methods, and types of existing data. Students will develop an understanding of (a) the relative contributions of a mixed-methods approach to public health research, (b) basic issues related to the measurement of public health concepts, and (c) the relative strengths and limitations of various analytic approaches to studying public health problems. Students will familiarize themselves with peer-reviewed journals, how to search for material on specific topics, how to develop a critical reader's eye, and how to summarize and draw evidence-based conclusions from multiple studies.

MPH 513
PRINCIPLES OF PUBLIC HEALTH ADMINISTRATION
Graduate
This course considers the conceptual and theoretical foundation underlying managerial decision-making. The course introduces students to such basic managerial tools as basic accounting, cost-benefit analysis, budgeting, and marketing. Principles of strategic planning and forecasting are examined. The course goes on to examine the legal framework that governs public health practice, organizations, human resources, research activities, and community as well as individual patient intervention efforts.

MPH 515
PUBLIC HEALTH ETHICS AND POLICY
Graduate
This course is designed to analyze the ethical basis in which public health practice is grounded. It reviews concepts and ideas developed by a number of disciplines including philosophy, law, political science, and economics.
MPH 522
PROGRAM DEVELOPMENT IN COMMUNITY HEALTH
Graduate
This course is designed to provide students with the background and skills to develop and evaluate community public health programs in a variety of settings. Students will work individually and as members of teams to design measurable goals, objectives, action plans, timelines, and evaluation indicators of community-based public health programs. Application of methods to logic modeling, proposal writing, budget planning, project management, and data management will be examined throughout the course.

MPH 525
PROGRAM EVALUATION IN COMMUNITY HEALTH
Graduate
This course will provide students with a comprehensive theoretical, methodological and ethical foundation for conducting public health program evaluation. Students will experience the practice aspects of evaluation including communicating and negotiating with stakeholders, conducting an evaluability assessment, developing logic models and evaluation questions, identifying appropriate data collection methods, gathering reliable and valid evaluation data that are appropriate to the selected design and analysis methods, analyzing data, reporting evaluation results, and ensuring evaluation use. The instructor will facilitate a learning and skill-building environment, drawing on personal experiences and the expertise of others in the field.

MPH 541
APPLIED STATISTICS FOR PUBLIC HEALTH
Graduate
This course emphasizes the application of statistical methods to problems of human health and disease. It covers parametric and nonparametric statistical inferential methods for univariate and bivariate situations using SPSS. Specific topics include but are not limited to the following: Interpretation of graphic and descriptive statistics for both quantitative and categorical data, confidence interval estimation and hypothesis testing methods, linear and multiple regression logistic regression, analysis of categorical data and ANOVA. Course emphasizes the statistical interpretation of the literature and analytic projects based on large data sets from published studies, the internet, or the student's workplace.

MPH 595
SPECIAL TOPICS IN PUBLIC HEALTH
Graduate
Special courses will be offered as students and faculty affiliated with the MPH program identify selected topics of common interest.

MPH 599
INDEPENDENT STUDY IN PUBLIC HEALTH
Graduate
This course can be taken in consultation with a supervising faculty member.

MPH 600
PREPARATION FOR PUBLIC HEALTH PRACTICE
Graduate
This year-long course includes a series of skills-based workshops designed to introduce students to the specialized skills and competencies needed in the public health workplace. These workshops are designed to complement the core MPH curriculum and are selected based on regular feedback from faculty, public health practitioners, and students. (0 credits)

MPH 602
COMMUNITY HEALTH ASSESSMENT
Graduate
This course is part of a three-course practicum sequence that is designed to provide the student with practical experience in the field based on skills acquired in class. The course introduces students to methods of data collection and analysis of epidemiological data. It focuses on community health indicators and research tools used to assess health data. Emphasis is on the research methods that are employed to identify community assets and goals; this step serves as the basic step in the process of community needs assessment which leads to the final objective, that is, program planning. The fundamentals of various types of community health interventions will be explored.
MPH 603
APPLIED COMMUNITY HEALTH INTERVENTIONS
Graduate
This is the second course of the three-course practicum sequence. Students are expected to engage in the following tasks: (1) assess the community health profile documenting incidence and prevalence of disease and other health problems; (2) use the findings identified in step one to plan a population-specific community-based health program designed to reduce assessed risk; (3) develop an evaluation instrument designed to determine how successful the plan is in reducing health risk.

MPH 602 is a prerequisite for this course.

MPH 604
CAPSTONE SEMINAR IN COMMUNITY PUBLIC HEALTH PRACTICE
Graduate
This is the third course of the three course practicum sequence. Students are expected to participate in a seminar, which provides the academic counterpart to the practicum experience. This course focuses on questions that arise related the data collection process, data analysis and/or interpretation of findings, and the effort to translate findings into the planning of community-based public health programs. ***The goal of the final capstone project is to integrate the information that has been learned in the students' MPH academic courses with the applied community experience. Therefore, even though the paper will be focused on the applied work that the students are conducting in their community health setting, this document should also incorporate various elements of the didactic courses that have been taken within the MPH program. The exact format and length of the paper may vary depending on the nature of the applied experience, but should include the following general sections: I. Community Health Profile and Background II. Statement of the Targeted Health Issue (including specific health determinants and/or risk factors) III. Description of the Health Intervention or Program IV. Evaluation or Monitoring Plan and Results V. Implications of Findings VI. Future Directions (including future funding of health initiatives) Students should have an outline project approved by the instructor of the Capstone Seminar prior to writing the final product. This project should demonstrate that the student is able to integrate the knowledge and skills that they have obtained throughout their MPH training to an applied community health issue and setting, and express this integration in a structure written format.

MPH 602 and MPH 603 are prerequisite for this courses.

MPH 699
COMMUNITY PUBLIC HEALTH PRACTICUM
Graduate
This year-long course includes a series of skills-based workshops designed to introduce students to the specialized skills and competencies needed in the public health workplace. These workshops are designed to complement the core MPH curriculum and are selected based on regular feedback from faculty, public health practitioners, and students.

MPH 600 is a prerequisite for this course.

MPS 490
WRITING SKILLS FOR PUBLIC SERVICE PROFESSIONALS
Graduate
This course focuses on developing writing skills (and therefore thinking skills) to meet or exceed SPS Program, professional, academic or management standards. Students receive intensive feedback and coaching on structure, organizing and style. The course is a blend of classroom and individual, online coaching sessions.

MPS 498
PUBLIC SERVICE IMMERSION
Graduate
This course uses experiential, classroom and online (Blackboard) learning methods. Students experience a supervised immersion in nonprofit or government organizations as volunteers for 200 hours with in-class reflection exercises. This course is required for students admitted into degree programs who lack sufficient work experience in public service organizations. It is also useful for students using the Public Service Program to change careers.

MPS 500
INTRODUCTION TO PUBLIC SERVICE MANAGEMENT
Graduate
Introduces students to organizational theories and practices useful to public service managers. Teaches students how to use structural, human resource, political and symbolic perspectives to rethink public service organizations. Provides an introduction to managerial issues including workforce diversity, decision making and leadership; stresses critical thinking and writing skills.

School of Public Service student or department consent is a prerequisite for this course.
MPS 501
CROSS-SECTOR ANALYSIS
Graduate
This course examines the size, scope, capacity, and limitations of the nonprofit, government, and business sectors, in the domestic and international context. Students will be introduced to research and become familiar with print and electronic resources and databases. They will learn to develop meaningful research questions, write literature reviews, and analyze the interrelationships among the three sectors.

MPS 510
INTERNATIONAL DIMENSIONS OF PUBLIC SERVICE
Graduate
This course explores the institutional roles and responsibility of internal organizations in relation to international affairs, peace and security, international development, humanitarian and human rights laws. Through real world case studies students learn about the complex legal, advocacy and capacity development work connected to political, economic, social, cultural and other human rights in international public service.

MPS 511
SUSTAINABLE INTERNATIONAL DEVELOPMENT
Graduate
This course provides an overview of theories and approaches to sustainable social and economic development and examines the roles of Non-Governmental Organizations (NGOs) as well as methods of evaluating their effect. The course covers the role of NGOs in building and strengthening sustainable communities and societies in developing countries.

MPS 513
VOLUNTEERISM
Graduate
This course examines the concept of volunteerism within global civil society, especially nonprofit organizations and government associations. This includes an analysis of the role of volunteers in American society, the motivation to volunteer and how to effectively recruit, train, supervise and evaluate volunteers. Students develop an understanding of the role of volunteers in the management of any social program. Assignments include group projects and service learning opportunities.

MPS 514
GOVERNMENT FINANCIAL ADMINISTRATION
Graduate
The concepts of efficiency and equity in taxation are applied to identify the advantages and disadvantages of specific taxes such as income, sales and property. Specific skill sets include present value techniques, interpreting the basic financial reports generated by governments, and evaluating financial performance of a government based upon its financial reports.

MPS 515
NONPROFIT FINANCIAL ADMINISTRATION
Graduate
This course explores key issues in operations budgeting and capital budgeting. Specific skill sets include cash flow analysis, variance analysis, present value techniques, interpreting financial statements, and evaluating financial performance.

MPS 516
MANAGEMENT OF INFORMATION TECHNOLOGY
Graduate
This course focuses on the management and use of information technology (IT). As the use of IT in society grows, particularly in business, graduates are likely to manage technology resources and participate in IT planning and development projects as founders, sponsors, team members, managers of development, or end-user developers. Students should become effective users of information, IT, and information services. The course explores a number of IT-related topics, such as the strategic role of IT, IT planning and architecture, building the telecommunications highway system, management issues on system development, the expanding universe of computing, group support systems, intelligent systems, electronic document management and managing the human side of systems.
MPS 519
RESOURCE DEVELOPMENT
Graduate
This course teaches students the theories and techniques of resource development. We discuss the fundraising tradition in the U.S., principal donor types, theories of donor behavior, and the organizational, legal and ethical contexts of fundraising. Students learn basic fundraising tools, including planning, grant writing, special events, major gifts, planned giving, and capital campaigns. Students work as volunteer consultants with nonprofit partners to analyze their current fundraising strategies and materials and help them develop new ones.

MPS 520
VALUES-CENTERED LEADERSHIP
Graduate
This interdisciplinary course explores service leadership through the lenses of Robert K. Greenleaf, The de Paul Leadership Project, Margaret J. Wheatley and other theorists and practitioners within the leadership field. The course expands our thinking on leadership to include modules dedicated to four topics: Service Leadership, Leadership and Diversity, International Leadership and Ethical Leadership. Students will assess their own leadership practices, develop a leadership action plan and participate in coaching, as coach and client. Student grading will be based on participation in self-reflection, course participation, project teams and a final project.

MPS 521
LEADERSHIP AND MANAGEMENT
Graduate
This course focuses on key factors which affect employee behavior and the nature and purposes of leader and managerial roles. In addition, it addresses recent research in leadership and management and the legal environment of personnel management. In depth analysis of psychological systems, interpersonal relations and the relationship of rewards to performance are addressed through case studies, role playing and readings.

MPS 522
FUNDAMENTALS OF HUMAN RESOURCE MANAGEMENT
Graduate
This course explores human resource issues facing employees with supervisory responsibilities in public service organizations, including those working in the volunteer, non-profit, religious, government, and education sectors. The course considers human resource planning, employee recruiting and selection, and the motivation and evaluation of staff personnel and managers both individually and in teams. Topics include recruiting and selecting employees and managers, fostering team development, managing employee stress, preventing workplace violence, and handling issues pertaining to termination, training, and development. The course also explores progressive discipline and, improving performance management of employees and volunteers.

MPS 500 is a prerequisite for this course.

MPS 523
GROUP DYNAMICS FOR LEADERS
Graduate
This interactive course will explore the relevant theories and methods for understanding the structures and processes of groups. The course will also consider how leaders and managers function effectively within groups. An emphasis is placed on role and function, status, power, leadership, communication, decision-making, problem solving, conflict management, negotiation, and coalition.

MPS 524
MARKETING FOR SERVICE ORGANIZATIONS
Graduate
This course provides a broad understanding of marketing nonprofit, governmental, and advocacy organizations. Students learn how to analyze and develop a wide range of marketing plans and campaigns. Content includes the key theories, principles, and techniques of marketing and the differences between for-profit and non-profit efforts. The associated aspects of marketing ? public relations, communications, advertising, and fundraising ? are explained and compared. Students learn all aspects of the marketing process from identifying and defining the preferred target segments, crafting the key messages, and developing, executing, and measuring effective marketing campaigns.
MPS 525
WORKING WITH NONPROFIT BOARDS
Graduate
This course examines the legal and philosophical reasons that nonprofit organizations are governed by an external board of directors. Membership, structure and process for this body are examined, as well as the relationship of employees to the individual board members and the policies established by this group.

MPS 526
LOCAL GOVERNMENT ADMINISTRATION
Graduate
This course analyzes decision-making processes used in local government from the perspective of the chief executive officer such as city manager, township supervisor, special district administrator, or park superintendent. It includes operational aspects of municipal administration including the effect of intergovernmental relations on local government, the role of the local government administrator in policy implementation, chief executive and elected official interactions, and regional governance of the delivery of services that cross political boundaries.

MPS 528
FOUNDATION MANAGEMENT
Graduate
This course examines the concepts, functions and practices of organized philanthropy, with a primary emphasis on corporate, private and community foundations.

MPS 529
STRATEGIC MANAGEMENT AND PLANNING
Graduate
Students learn how to apply strategic management and planning concepts and tools to public and nonprofit organizations to achieve goals and objectives in meeting service delivery missions, both domestically and internationally. The course focuses on analyzing the interaction of trends, market forces, stakeholders, and core competencies in developing visions and strategies for alternative scenarios.

MPS 530
ANALYSIS OF NONPROFIT ORGANIZATIONS
Graduate
This course explores the art and science of nonprofit management. Students analyze nonprofits holistically, combining perspectives from law, governance, resource development, and finance. Students learn through hands-on analysis of existing nonprofit organizations and the analysis of historical case studies.

MPS 531
FINANCING AND COSTING IN HEALTH CARE
Graduate
This course focuses on practical examples of financial management of health care institutions. It examines the financial system supporting health care institutions and the financial tools providers and insurers use to keep medical costs in check. Students learn financial management, third party payment methodologies, Medicare and Medicaid, cost accounting, rate setting, budgeting and financial analysis.

MPS 534
MEDICAL SOCIOLOGY
Graduate
Overview of social systems of health care in the United States, including the health-seeking behavior of patients, relationships among health care providers and organizational settings in which services are delivered. Cross-listed with SOC 431.
MPS 535
ISSUES IN HEALTHCARE
Graduate
This seminar focuses on contemporary issues in health care policy and management. Topics covered include public health initiatives, dimensions of health service delivery systems (cost, quality and access), and health policy reforms with a special emphasis on the opportunities to reduce disparities in health care. Students conduct an independent secondary research project on a health care topic of their choosing. Classes include discussions of the challenges of developing expertise in a subfield within the health care sector.

MPS 537
HEALTH CARE DELIVERY SYSTEMS
Graduate
Overview of the structure of the U.S. health systems followed by a selective international comparison of other health delivery systems including their relationships to social policies and economic factors. 4 quarter hours. Cross-listed with SOC 437.

MPS 541
ECONOMIC FOUNDATIONS OF PUBLIC SERVICE
Graduate
This course introduces students to the branches of economics known as microeconomics, public finance, and welfare economics. Students learn to apply standard economic tools to identify policy issues and to analyze them. Specific skill set includes present value techniques.

MPS 500 is a prerequisite for this class.

MPS 542
POLICY DESIGN AND ANALYSIS
Graduate
Focuses on the processes and techniques of analyzing and designing public policies. Students are introduced to analytical ways of thinking that include: defining and modeling policy problems; designing policy alternatives; evaluating policy alternatives using ethical, legal, economic, organizational, and political criteria; and anticipating problems of policy implementation.

MPS 501 and (MPS 514 or MPS 515 or MPS 541) are prerequisites for this class.

MPS 543
POLICY IMPLEMENTATION
Graduate
This course introduces students to the challenges and opportunities of policy implementation. It helps students understand and improve the implementation of public and organizational policies. Using a variety of approaches, students learn to analyze implementation, the factors that influence the process, and to monitor, evaluate, revise, and reform policies.

MPS 542 is a prerequisite for this class.

MPS 546
ADVOCACY AND LOBBYING
Graduate
Explores the roles of individuals and organizations in the public policy process, particularly as power arrangements facilitate or impede consensus building. Examines how legislation is written and how administrative rules are formed in government agencies. Special attention is paid to advocacy techniques such as lobbying, public education, and litigation.

MPS 559
ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT
Graduate
Entrepreneurship and New Venture Management. Cross-listed with MGT 570.
MPS 560
ADMINISTRATIVE LAW
Graduate
This course focuses on an understanding of government powers by federal, state and local agencies in the US such as oversights, rule making, adjudication and judicial review of local and federal actions, and enforcement of regulatory decision making. It examines how public administration decisions are affected by existing constitutional and legal constraints on the administrative process; it includes the Administrative Procedure Act, Open Meetings Act of Illinois, and the Freedom of Information Act.

MPS 561
LAW AND NONPROFIT ORGANIZATIONS
Graduate
Introduces laws and regulations governing nonprofit organizations, including procedures for incorporation, maintenance of tax-exempt status, and compliance with relevant labor laws. No legal background is assumed.

MPS 562
INTRODUCTION TO HEALTH LAW
Graduate
Introduces students from nonlegal backgrounds to the legal system. Examines legal materials, including statutes, judicial opinion, and administrative regulations. Basic legal research and writing skills are taught.

MPS 563
LAW AND PUBLIC POLICY
Graduate
Provides an overview of the legal process, developing a basic understanding of legal principles, terms, and court systems. Applies legal analysis to policy issues in the three sectors. Examines the sources of law and explores methods of legal research within the context of public policy analysis.

MPS 542 is a prerequisite for this class.

MPS 571
METROPOLITAN PLANNING
Graduate
The purpose of this course is to provide an introduction to the professional practice of urban planning and the basic theoretical concepts on which the discipline is based. Students will analyze urban issues, decision-making processes, and resources that affect planning across a metropolitan area, including urban-suburban relations, and the complexities of zoning, economic and community development.

MPS 572
URBAN POVERTY SEMINAR
Graduate
This course explores causes of urban poverty both in the US and abroad. It compares and contrasts policies addressing basic human needs. It includes discussion of global cities and international poverty reduction programs.

MPS 573
URBAN AND COMMUNITY DEVELOPMENT
Graduate
This course discusses urban issues including social area analysis, neighborhood change, land use and other topics. It examines community organizations as problem-solving bodies that interact with government agencies to affect urban development.

MPS 575
SEMINAR IN ADMINISTRATION/BRUSSELS
Graduate
This course increases understanding and knowledge of the European Union and the North Atlantic Treaty Organization as organizations of change. It focuses on the international public sector including relationships with NGO's and the nonprofit sector. Students expand experiential and intellectual understanding of these global actors and how they compare to the US. The course takes place in Brussels.
MPS 586
RESEARCH METHODS I, INTRODUCTION TO APPLIED RESEARCH AND STATISTICS
Graduate
This course introduces students to the underlying principles of scientific and applied research. It covers both qualitative and quantitative approaches and teaches students to collect and analyze data. Students learn about research ethics, causality, sampling (both random and purposive), and the techniques of survey design. Students calculate descriptive and inferential statistics using statistical software. Students learn applied program research, including developing and evaluating program theory and processes.

MPS 501 and (MPS 514 or MPS 515 or MPS 541) are a prerequisite for this class.

MPS 587
RESEARCH METHODS II, ADVANCED APPLIED RESEARCH AND STATISTICS
Graduate
This course introduces students to more advanced mixed methods of scientific research including interviews and focus groups, observation, and ethnography. Students learn about the design of experiments and the problems associated with spuriousness and control. Students calculate and interpret bivariate and multivariate statistics using statistical software. Students learn applied research, including needs assessment and outcomes evaluations. Students develop their own research proposal for their capstone or thesis project.

MPS 586 is a prerequisite for this course.

MPS 588
INTRODUCTION TO RESEARCH AND STATISTICS FOR MANAGEMENT
Graduate
This course develops the skills necessary for understanding scientific research and conducting applied research through surveys, interviews, and focus groups. Students learn to calculate basic statistics using Excel and understand descriptive and inferential statistics. Students learn applied program research, including developing and evaluating program theory and processes.

MPS 501 and (MPS 514 or MPS 515 or MPS 541) are a prerequisite for this class.

MPS 589
ADVANCED RESEARCH METHODS AND STATISTICS FOR MANAGEMENT
Graduate
This course continues the study of scientific research begun in MPS 588 and introduces more advanced topics, including experimental designs and statistical control. It teaches applied methods, including needs assessment, outcomes measurement, and impact evaluations, and introduces participatory action research. Students develop their own research proposal for their capstone or thesis project.

MPS 588 is a prerequisite for this class.

MPS 593
INTEGRATIVE SEMINAR
Graduate
In this capstone course students complete an action research project integrating applied research, theoretical frameworks, and professional practice.

(MPS 586 and MPS 587) or (MPS 588 and MPS 589) are a prerequisite for this class.

MPS 594
ETHICAL LEADERSHIP IN PUBLIC SERVICE
Graduate
This course provides students with the framework for personal and professional ethical decision making applied in the context of diverse workplaces and international organizations. Through lectures on ethical theories, case studies in applied ethics, and specific assignments, students clarify their personal-professional values, assess their moral intelligence, and develop their ethical leadership integrity. Students will also study the ethics of organizations, including the formation of social norms, how they influence individual decisions, and how entire organizations can become more ethical.

MPS 586 or MPS 588 is a prerequisite for this class.
MPS 597
PUBLIC SERVICE FELLOWS SEMINAR
Graduate
Elective, 4-credit hour course available to students with MPS CGPA of 3.75 or greater. For MPS Fellows taking MPS 593, Integrated Seminar, or MPS 598, Thesis Research I, during the academic year, meets roughly every other week during winter and spring terms. Seminar includes distinguished academic and professional guest lectures and presentations of research by Fellows.

MPS 598
THESIS
Graduate
Students carry out a theoretically-based research project designed in MPS 585. The final product of this course is a master's thesis. Binding fee.

MPS 585 and program director consent is a prerequisite for this course.

MPS 600
INDEPENDENT STUDY
Graduate
Individually supervised learning experience, usually involving extensive library research and writing. Variable credit.

MPS 601
INTERNSHIP
Graduate
Supervised work experience during one or more quarters, usually involving application of administrative skills in an organizational setting new to the student.

MPS 602
CANDIDACY CONTINUATION
Graduate
Required of students who are not registered for regular courses during an academic quarter while completing course requirements or research. (0 credit) $40.00 per quarter.

MPS 604
SPECIAL TOPICS
Graduate
Topics vary each term. (May be taken more than once).

MPS 606
LEADERSHIP IN HIGHER EDUCATION ADMINISTRATION
Graduate
This course introduces students to the organization and management of institutions of higher education with an emphasis on the administrative structures and functions of colleges and universities, as well as organizational theory as it applies to institutions of higher education. This course explores topics such as leadership, governance, strategic planning and budgeting, and human resource management, and also introduces students to allied higher education research and advocacy organizations.

MPS 607
SPECIAL TOPICS IN HIGHER EDUCATION ADMINISTRATION
Graduate
This course allows students to explore topics of current concern in the field of higher education in depth. Topics that may be addressed in this course include higher education finance, higher education law, diversity in higher education, enrollment management and marketing in higher education, and politics and policy in higher education. This course is an elective, repeatable for credit, in the Higher Education Concentration.

MPS 500 is a prerequisite for this course.
MPS 608
SEMINAR IN HIGHER EDUCATION ADMINISTRATION
Graduate
This course provides the opportunity for students to discuss and develop a greater understanding of issues of current concern in higher education. This course may explore issues of critical concern that take from current research and practice in the field and will allow students to integrate knowledge drawn from across the MPS program to the study of current issues in higher education.

MPS 500 is a prerequisite for this course.

MPS 610
INTERNATIONAL PROFESSIONAL INTERNSHIP
Graduate
The internship consists of work experience supervised by a site supervisor in an international or cross-cultural organization during one or more terms and involving the application of administrative skills in an organization new to the student. Students may take internship abroad or in the US.

MPS 611
MANAGEMENT OF INTERNATIONAL NGOs
Graduate
This course examines management skills and trends of international nongovernmental organizations. Through specific case studies in the fields of international public service, development and emergency, students learn current techniques to effectively manage projects, relations and operations of international non-governmental programs and development projects.

MPS 612
INTERNATIONAL POLITICAL ECONOMY
Graduate
This course provides an overview of major theories and practice in international political economy. It includes critical analysis of international political economy such as growth theories, capital and labor flows, and transformation of regimes. Students develop analytical skills for professional interests and research purposes.

MPS 613
COMPARATIVE PUBLIC POLICY
Graduate
Through comparative methods, this course examines cross-national social policy research and practices. Through case study analysis students learn about comparative welfare state research and reflect on major theoretical and methodological aspects of social policy. North American public policy approaches are compared and contrasted with European, Asian, African and Latin American policies on education, health care, housing, social security, labor market and other policy fields.

MPS 614
INTERNATIONAL ORGANIZATIONS SEMINAR
Graduate
This seminar introduces students to the contemporary international affairs of the United Nations and connected agencies, programs and organizations. Through conferences with high level UN representatives, students gain an inside view of this complex inter-governmental organization in its operations for peace and security, poverty reduction and development, human rights and humanitarian affairs and international relations and international law.

MPS 615
MANAGEMENT OF INTERCULTURAL DIVERSITY
Graduate
This course provides the necessary conceptual foundation and practical skills for leading, managing and communicating in a cross-cultural and diverse working environment. Students learn intercultural competency through applications and examples on international relations and human resource management.
MPS 616
INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT
Graduate
The course focuses on theoretical foundations and practical implications of diplomacy, negotiation, mediation and peace-building to solve and prevent conflicts. It offers reflective practices and concrete directions for creating constructive solutions to interpersonal, inter-group, and international conflict.

MSC 111
OFFICERSHIP IN THE UNITED STATES ARMY
Undergraduate
The purpose of this class is to introduce cadets/students to the fundamental components of service as an officer in the United States Army. These initial lessons form the building blocks of progressive lessons in values, fitness, leadership, and officership. Additionally the class addresses "life skills" including fitness, communications theory and practice (written and oral), and interpersonal relationships.

MSC 112
PROBLEM SOLVING AND DECISION MAKING
Undergraduate
This course is an introduction to the "life skills" of problem solving, decision-making and leadership. The course is designed to help students in the near-term as leaders on campus. The class will help students be more effective leaders and managers in the long-term, whether they serve in the military or the civilian sector. Topics addressed include problem solving, critical thinking, problem solving methods, leadership theory, followership, group cohesion, goal setting, and feedback mechanisms. Lessons are taught in a seminar format, emphasizing student discussions and practical exercises.

MSC 113
FUNDAMENTALS OF LEADERSHIP
Undergraduate
This course provides cadets/students an introduction to the critical topic of leadership. The course seeks to convince cadets/students that they can learn to be better leaders than they are now (i.e. leaders aren't born they are developed), and to provide them with a model for understanding their development as leaders.

MSC 151
PHYSICAL READINESS I
Undergraduate
Introduction to the principles of fitness: a fast-paced military-style interval training class that incorporates calisthenics and an emphasis on a healthy life style. Students will undergo an evaluation of their physical fitness level and it's progression over the course of the quarter.

MSC 211
LEADERSHIP AND PROBLEM SOLVING
Undergraduate
The purpose of this class is to introduce cadets/students to principal leadership instruction of the Basic Course. Building upon the fundamentals introduced in the MSC 100 level classes, this instruction delves into several aspects of communication and leadership theory.

MSC 212
MILITARY PRINCIPLES OF TACTICS
Undergraduate
This quarter focuses principally on officership, providing an extensive examination of the unique purpose, roles, and obligations of commissioned officers. It includes a detailed look at the origin of our institutional values and their practical application in decision-making and leadership. The lesson traces the Army's successes and failure as it evolved from the Vietnam War to the present.

MSC 213
OFFICERSHIP CASE STUDY
Undergraduate
This course builds on the MS I years introduction to officership and provides an extensive examination of the unique purpose, roles, and obligations of commissioned officers. The aim is to convey a clear and complete understanding of what it means to be a commissioned officer. Special emphasis is given to the officers role in shaping and guiding the growth and evolution of the Army through decisions, policies, and personal example.
MSC 252  
**PHYSICAL READINESS II**  
Undergraduate  
Introduction to the principles of fitness: a fast-paced military-style interval training class that incorporates calisthenics and an emphasis on a healthy life style. Students will undergo an evaluation of their physical fitness level and its progression over the course of the quarter.

MSC 277  
**WAR & PEACE IN THE MODERN AGE**  
Undergraduate  
A survey of military history from 1648 to the present with emphasis on the relationship between armed forces and the societies that create them, the impact of technology on warfare, and efforts to limit deadly conflict.

MSC 321  
**FUNDAMENTALS OF MILITARY LEADERSHIP AND TRAINING**  
Undergraduate  
Instruction and case studies, which build leadership competencies and military skills in preparation for further responsibilities as Army Officers. Specific instruction in the principles of war, decision-making processes, planning models, and risk assessment. Advanced leadership instruction focuses on motivational theory, the role and actions of leaders, and organizational communications. Must be a contracted ARMY ROTC cadet.

MSC 322  
**ORGANIZATIONAL LEADERS**  
Undergraduate  
Specific instruction is given in individual leader development, planning and execution of small unit operations, individual and team development, and the Army as a career choice. Must be a contracted ARMY ROTC cadet.

MSC 321 is a prerequisite for this class.

MSC 323  
**ADVANCED LEADERSHIP**  
Undergraduate  
This course builds upon the previous lessons while introducing advanced leadership theories on motivation, leader modeling, and the role of a leader in an organization. Must be a contracted ARMY ROTC cadet.

MSC 322 is a prerequisite for this class.

MSC 341  
**COORDINATE ACTIVITIES WITH STAFFS**  
Undergraduate  
This module consists of four lessons designed to give the cadet an understanding and appreciation of the critical importance that staff organization, planning, and coordination play in the success or failure of military operations. The module uses historical case studies initially to illustrate these points then transitions to provide an overview of staff fundamentals and principles contained in field manual FM 101-5. Must be a contracted ARMY ROTC cadet.

MSC 322 or MSC 323 is a prerequisite for this class.

MSC 342  
**ETHICAL IMPEMERAVES FOR THE JUNIOR OFFICER**  
Undergraduate  
This six-lesson module on ethics builds upon previous instruction presented in the Basic Course and the MS III year. These lessons further strengthen character and values within the cadets, increase their understanding of the Army's consideration of others expectations, and improve their capacity to make correct decisions when presented with an ethical or moral dilemma. Must be a contracted ARMY ROTC cadet.

MSC 322 or MSC 323 is a prerequisite for this class.
MSC 343
ADVANCED MILITARY TOPICS
Undergraduate
This course builds upon the previous MS IV lessons while introducing advanced leadership theories on motivation, leader modeling, and the role of a leader in an organization. It will also address the responsibility and process of a leader on how to assess and apply risk assessment within the organization. Must be a contracted ARMY ROTC cadet.

MSC 353
PHYSICAL READINESS III
Undergraduate
Introduction to the principles of fitness: a fast-paced military-style interval training class that incorporates calisthenics and an emphasis on a healthy life style. Students will undergo an evaluation of their physical fitness level and its progression over the course of the quarter.

MSC 399
MILITARY THEORY
Undergraduate
(Independent Study) Intensive research and study of one or more selected topics. The topics and research methodology are determined in consultation with the instructor. May be repeated for maximum of six credit hours.

MSW 401
PROFESSIONAL WRITING AND DEVELOPMENT
Graduate
The practice of professional social work requires accurate and persuasive communication in multiple formats. This required, foundation-level course is designed to introduce students to the major possibilities and constraints of professional writing and other forms of communication as well as survey the career paths available to professional social workers. There is an emphasis on writing for professional settings including case studies, mandated reports, summaries, and professional publication.

MSW 411
HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT I
Graduate
This is the first course of a two-part sequence designed to develop an understanding about human behavior and the social environment; the course offers an ecosystems framework and method for understanding human behavior within the context of personal, family, group and community systems. Using a bio-psycho-social theoretical framework, fundamental concepts and theories are introduced with the life cycle serving as the organizational focus. The course covers the first half of the life span: conception, infancy, childhood, adolescence and young adulthood.

MSW 412
HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT II
Graduate
This is the second course of a two-part sequence designed to develop an understanding about human behavior and the social environment; the course offers an ecosystems framework and method for understanding human behavior within the context of personal, family, group and community systems, organizations, and institutions. Using a bio-psycho-social theoretical framework, fundamental concepts and theories are introduced with the life cycle serving as the organizational focus. The course covers the second half of the life span: young adulthood, middle adulthood, later adulthood and end of life.

MSW 411 and status as a MSW degree-seeking student or instructor consent are a prerequisite for this class.
**MSW 421**  
**INTRODUCTION TO SOCIAL WORK RESEARCH**  
Graduate  
This course presents the conceptual foundations and methods of research needed in order to assist students with integrating research knowledge and professional social work practice. It presents social justice as an overarching paradigm in the study of social work research. MSW 421 presents the conceptual foundations and methods of research in order to assist students with integrating research knowledge with professional social work practice and ethics. The course focuses on the quantitative and qualitative methods. The course covers the research process from problem identification through the conceptualization of research questions, sampling, design, measurement, data collection, analysis, and dissemination of findings. Additionally the course pays specific attention to ethics in research and issues of race, class, gender and sexual orientation. As an alternative to the quantitative research method, the course touches briefly on qualitative methods. The course makes use of examples and readings that focus on conducting research with individuals, families, and communities in urban environments. Students engage in a critical analysis of the quantitative research method and consider alternative methods of developing knowledge as it pertains to social work. Additionally, the course provides a basic coverage of data analysis using both the quantitative and qualitative research methods with the goal of developing student’s conceptual understanding and ability to critically interpret research findings.

Status as a MSW degree seeking student is a prerequisite for this class.

**MSW 431**  
**SOCIAL WELFARE POLICY I**  
Graduate  
This foundation-level course is designed to provide students with the entry-level knowledge of social work ethics and values, policy formation and analysis, and practice skills necessary to impact and interpret the rules and regulations surrounding social welfare. Emphasis is placed on understanding political processes at the agency, local, regional and federal level and attention is given to economic considerations as well as the unique role of social welfare policy in regulating the lives of clients, particularly those from historically oppressed groups. This course is the first of two required social welfare policy courses for MSW degree candidates.

**MSW 432**  
**ADVANCED SOCIAL WELFARE POLICY II**  
Graduate  
This is the second of two required Social Welfare Policy Courses in the MSW curriculum. This concentration course focuses on policy practice (including advocacy) skills in agencies and organizations. While including a review of analytical techniques, there is emphasis in this course on the human interactions which shape policy review and implementation. Only students who have successfully completed MSW 431 and the Foundation Practice and Field Education Sequence (MSW 481 thru 483 and MSW 491 thru 493) can be enrolled in this course.

MSW 431 or advanced standing is a prerequisite for this class.

**MSW 450**  
**SPECIAL TOPICS IN SOCIAL WORK**  
Graduate  
See schedule for current offerings. Graduate standing required.

**MSW 481**  
**FOUNDATION PRACTICE I**  
Graduate  
This course is the first in a series of three required foundational courses (MSW 481, MSW 482 and MSW 483) designed to equip students with the basic theoretical knowledge, analytical skills, practice skills, and values needed to practice generalist social work with diverse individuals and families in an urban context. The course is grounded in an empowerment model with an emphasis on social justice and the Vincentian values of respect, advocacy, service, and inventiveness. The course will explore the implementation of the ecosystems perspective as it applies to a generalist practice. The course will also cover the relationship between professional and personal values, social work ethics, assessment, relationship building, implementing change strategies, and practice evaluation. This course is to be taken concurrently with MSW 491 (Foundation Field Education I) and is required of all students enrolled in the first year field sequence.

Declared MSW student and department permission are prerequisites for this course.
MSW 482
FOUNDATION PRACTICE II
Graduate
This course is the second in a series of three required foundational courses (MSW 481, MSW 482 and MSW 483) designed to equip students with the basic theoretical knowledge, analytical skills, practice skills, and values needed to practice generalist social work with groups in an urban context. The course will emphasize the development, implementation, and evaluation of various forms of therapeutic groups along with some content on organizational task groups. Task groups will be covered more thoroughly in MSW 483. The course is grounded in an empowerment model with an emphasis on social justice and the Vincentian values of respect, advocacy, service, and inventiveness. This course is to be taken concurrently with MSW 492 (Foundation Field Education II) and is required of all students enrolled in the first year field sequence.

MSW 481 and department permission are prerequisites for this course.

MSW 483
FOUNDATION PRACTICE III
Graduate
This course is the third in a series of three required foundational courses (MSW 481, MSW 482 and MSW 483) designed to equip students with the basic theoretical knowledge, analytical skills, practice skills, and values needed to practice generalist social work within communities and organizations. Specifically, this course introduces skills associated with task groups which serve to meet client needs in communities and organizations. The course is grounded in the empowerment model with an emphasis on social justice and the Vincentian values of respect, advocacy, service, and inventiveness. This course is to be taken concurrently with MSW 493 (Foundation Field Education III) and is required of all students enrolled in the first year field sequence.

MSW 482 and department permission are prerequisites for this course.

MSW 484
ADVANCED STANDING FOUNDATION PRACTICE
Graduate
This course is required for all Advanced Standing students and may be taken as an elective (with its co-requisite course, MSW 494) with permission of the Instructor. This course must be taken with MSW 494. This course is designed to equip students with the basic theoretical knowledge, analytical skills, practice skills, and values needed to prepare for advanced, community practice in social work. The course is grounded in the empowerment model with an emphasis on social justice and other Vincentian values. Additionally, it gives particular attention to the importance of diversity, including race/ethnicity, gender, economic class, disability, and sexual orientation in the context of social work macro practice. This course is to be taken concurrently with MSW 494 (Advanced Standing Foundation Field Education).

(MSW 483 and MSW 493) or MSW advanced standing is a prerequisite for this course.

MSW 491
FOUNDATION FIELD EDUCATION I
Graduate
This course is designed to support students in their Foundation Year of Field Education, and to complement the Foundation Year Sequence. Students will be provided with the opportunity to apply the beginning skills and knowledge needed to professionally aid individuals and families using the bio-psycho-social model and the empowerment approach, and introduce key components of field work and working with community organizations and social service agencies. This course is the first of three field education courses which are required of all MSW degree students. Concurrent enrollment in MSW 481 and confirmation of field placement for current academic year are required. The process for field placement and supporting policies are further articulated in the student handbook and the field education manual.

Declared MSW student and department permission are prerequisites for this course.

MSW 492
FOUNDATION FIELD EDUCATION II
Graduate
This course is designed to support students in their Foundation Year of Field Education, and to complement the Foundation Year Sequence. Students will be provided with the opportunity to apply the beginning skills and knowledge needed to professionally aid individuals and families using the bio-psycho-social model and the empowerment approach, and introduce key components of field work and working with community organizations and social service agencies. This course is the second of three field education courses which are required of all MSW degree students. Concurrent enrollment in MSW 482 and confirmation of field placement for current academic year are required. The process for field placement and supporting policies are further articulated in the student handbook and the field education manual.

MSW 491 is a prerequisite for this class.
MSW 493
FOUNDATION FIELD EDUCATION III
Graduate
This course is designed to support students in their Foundation Year of Field Education, and to complement the Foundation Year Sequence. Students will be provided with the opportunity to apply the beginning skills and knowledge needed to professionally aid individuals, families, and groups using the bio-psycho-social model and the empowerment approach, and introduce key components of field work and working with community organizations and social service agencies. This course is the third of three foundation field education courses which are required of all MSW degree students. Concurrent enrollment in MSW 483 and continuation in field placement for current academic year are required. The process for field placement and supporting policies are further articulated in the field education manual.

MSW 492 and department permission are prerequisites for this course.

MSW 494
ADVANCED STANDING FOUNDATION FIELD EDUCATION
Graduate
This field education course is required for all Advanced Standing students and may be taken as an elective (with its co-requisite course, MSW 484) with permission of the Instructor. The course must be taken with MSW 484. This course also requires enrollment in an approved field agency placement for the entire summer session. Students are required to complete a minimum of 150 contact hours at the agency. This course is designed to assist students with processing the many theoretical, analytical, and practice skills needed to prepare for community practice, an advanced approach to social work. This course is to be taken concurrently with MSW 484 (Advanced Foundation Practice).

MSW 492 and department permission are prerequisites for this course.

MSW 499
INDEPENDENT STUDY
Graduate
(1 to 4 Credit Hours) Individually-supervised learning experience, usually involving extensive research and written analysis.

MSW 501
PROGRAM EVALUATION
Graduate
This course offers a comprehensive overview of how program evaluation fits in today's social service environment. It presents social justice as an overarching paradigm in the study of program evaluation. The course will cover three methods of program evaluation: needs assessments, outcome evaluations, and process evaluations. The course will also cover the history of evaluation and ethical considerations related to race, ethnicity and sexual orientation and emphasize the role of program evaluation with community-based organizations that exist in an urban context. Practical issues related to organizational mission, staff resistance, resource demands and evaluation ethics will be covered in order to offer a reality-based perspective on conducting program evaluation.

Declared MSW student and MSW 421 are prerequisites for this course.

MSW 521
FUND DEVELOPMENT AND MANAGEMENT
Graduate
This course introduces students to creating, implementing and adjusting budgets within agencies and programs which serve people, as well as program marketing and fundraising (including grant writing). This course is taken either concurrently with MSW 582 (Community Practice II) or before advanced field education. MSW 521 emphasizes budget preparation, fund acquisition and fund distribution. Successful completion of MSW 501 (Program Evaluation) is required for this course, as is the successful completion of the MSW research course (MSW 421). This course builds upon the constructs introduced in the advanced practice sequence. This course introduces students to budgetary operations and the ethical, value-based planning and decision making processes by which social workers must implement fiscal and administrative decisions.

MSW 421, (MSW 483 or MSW 484), (MSW 493 or MSW 494) and MSW 501 are a prerequisite for this class.
Using select theoretical approaches, including empowerment practice, this course equips students with the advanced skills and knowledge needed to practice in community-serving agencies and organizations. The emphasis in this course, which represents the first of three consecutive, required (advanced) practice courses, is on leadership and management of human service organizations. This course introduces students to the knowledge, skills and professional values essential to leadership of community-based or community-serving programs and organizations. This course covers leadership theories, styles, and techniques; supervision and facilitation; and the critical role(s) leadership play(s) in agency and program administration. Special attention is paid to the unique considerations of people with diverse backgrounds (and representatives of other marginalized groups) in leadership positions as well as working towards the promotion of social and economic justice. It is required that this course be taken concurrently with MSW 591 (Advanced Field Education I).

*(MSW 483 or MSW 484) and *(MSW 493 or MSW 494) are prerequisites for this course.

---

**MSW 582**  
**COMMUNITY PRACTICE II**  
**Graduate**  

Using select theoretical approaches, this course equips students with the advanced skills and knowledge needed to practice in community-serving agencies and organizations. The emphasis in this course, which represents the second of three consecutive, required (advanced) practice courses, is on program planning. This course introduces students to the skills and knowledge needed to plan and design programs in community-based, people-serving organizations, starting with problem analysis and needs assessment. Related topics such as understanding the multiple dimensions of social problems, operationalizing concerns, and the importance of collaboration and addressing diverse groups' needs within a community practice framework are also addressed. Measures for accountability and effectiveness, especially for professional social workers, are also addressed. Attention is also given to the needs of historically-marginalized groups and planning for full social and economic justice. It is required that this course be taken concurrently with MSW 592 (Advanced Field Education II).

MSW 581 is a prerequisite for this class.

---

**MSW 583**  
**COMMUNITY PRACTICE III**  
**Graduate**  

Using select theoretical approaches, this course equips students with the advanced skills and knowledge needed to practice in community-serving agencies and organizations. The emphasis in this course, which represents the final of three consecutive, required (advanced) practice courses is on resource development and marketing. This course continues facilitation in planning and designing programs in community-based or community-serving organizations while also providing students with opportunities to integrate fund development, program evaluation, and effective stewardship of resources to leverage lasting social change, especially on behalf of historically-oppressed communities. Additional related topics include analysis of organizational change, partnerships, strategic planning, and quality assurance. It is required that this course be taken concurrently with MSW 593 (Advanced Field Education III).

MSW 582 is a prerequisite for this course.

---

**MSW 591**  
**ADVANCED FIELD EDUCATION I**  
**Graduate**  

This course is the first in the final, three-part advanced field education sequence. This course also requires enrollment in an approved field agency placement for the entire academic year. The process for field placement and supporting policies are further articulated in the student handbook and the field education manual. This course is designed to assist students in processing the many theoretical, analytical, and practice skills needed to practice advanced social work in community settings. Attention is also paid to the unique considerations of women and representatives of other historically-marginalized groups in organizational leadership roles through required learning objectives and tasks.

MSW 581 is a corequisite for this class.
MSW 592
ADVANCED FIELD EDUCATION II
Graduate
This course is the second in the final, three-part advanced field education sequence. This course also requires enrollment in an approved field agency placement for the entire academic year. The process for field placement and supporting policies are further articulated in the student handbook and the field education manual. This course is designed to assist students in processing the many theoretical, analytical, and practice skills needed to practice advanced social work in community settings. Attention is also paid to the unique considerations of women and representatives of other historically-marginalized groups in organizational leadership roles through required learning objectives and tasks.

MSW 581 and MSW 591 are a prerequisite and MSW 582 is a co-requisite for this class.

MSW 593
ADVANCED FIELD EDUCATION III
Graduate
This course is the third in the final, three-part advanced field education sequence. This course also requires enrollment in an approved field agency placement for the entire academic year. The process for field placement and supporting policies are further articulated in the student handbook and the field education manual. This course is designed to assist students in processing the many theoretical, analytical, and practice skills needed to practice advanced social work in community settings. Attention is also paid to the unique considerations of women and representatives of other historically-marginalized groups in organizational leadership roles through required learning objectives and tasks.

MSW 582 and MSW 592 are a prerequisite and MSW 583 is a corequisite for this class.

MUS 100
UNDERSTANDING MUSIC
Undergraduate
Developing an understanding of musical elements and forms, and how composers use them to create music throughout the history of western music. This course also includes a look at the musics of the world and jazz. This course is not available to students in the School of Music. Arts and Literature.

MUS 102
COMPOSITION AND SOUND ART FOR NON-MUSIC MAJORS
Undergraduate
Through performing, recording, and studying a variety of compositional styles, students develop creative music projects. Instrumental, vocal, and/or computer music skills will be fostered throughout the course. No previous experience necessary. This course is not available to students in the School of Music. Arts and Literature.

MUS 105
ROCK MUSIC: THE BEATLES: MUSIC, AESTHETICS AND CULTURE
Undergraduate
This course is a survey of the music and movies of the Beatles. Topics covered in this class include the basic elements of music to allow students to analyze and compose simple songs. No previous knowledge of music is necessary. This course is not available to students in the School of Music. Arts and Literature.

MUS 107
GUIDE TO MUSIC THEORY
Undergraduate
The fundamentals of notation and elemental theory for non-music majors. Online drills and short composition studies will be included as course activities. Arts and Literature.

MUS 108
ROCK MUSIC OF THE WORLD
Undergraduate
A historical survey of the world's main styles of rock music, extending from Chuck Berry to Puff Daddy to Cold Play, from Bob Marley to Black Sabbath. This course is not available to students in the School of Music. Arts and Literature.
MUS 109
FROM WAGNER TO YOUTUBE: THE WEDDING OF MUSIC AND DRAMA
Undergraduate
Examines the use of music to reinforce drama and visual image in opera, film and rock video. This course is not available to students in the School of Music. Arts and Literature.

MUS 110
MUSICIANSHIP I
Undergraduate
(Autumn) Theory fundamentals - from keys, scales, and intervals, through seventh chords and four-part writing.
Status as a Music student is a prerequisite for this class.

MUS 111
AURAL TRAINING I
Undergraduate
A six-quarter sequence of sight-singing and dictation, organized in coordination with the musicianship curriculum. Each quarter is a prerequisite for the following level.
Status as a Music student is a prerequisite for this class.

MUS 112
ROCK COMPOSITION
Undergraduate
This course aims to provide students with the tools and historical perspective to compose Rock music. Students will transcribe and practice the techniques of songs in various classic Rock styles, learning the specifics of those styles in class and in reviewing live performances in the Chicago area. Students will also be educated in more general musical disciplines such as song-form, rhythm, harmony, melody, and text-setting.

MUS 113
GROUP PIANO I
Undergraduate
The first six courses in a two year (six-quarter) sequence of two one-hour classes per week using electronic piano labs. Curriculum is organized on the basis of six levels of functional keyboard competence, coordinated with the two-year Musicianship Studies experience described above. Emphasis is on sight-reading, harmonization, theory, score-reading, accompanying and ensemble playing. Note: Students with extensive previous keyboard experience may complete the competence requirements in fewer than six quarters.
Status as a Music student is a prerequisite for this class.

MUS 120
MUSICIANSHIP II
Undergraduate
Integrated study of theory/history pertaining to music of the Baroque period. Activities include readings, listening, analysis, and theory exercises.
MUS 110 is a prerequisite for this class.

MUS 121
AURAL TRAINING II
Undergraduate
A six-quarter sequence of sight-singing and dictation, organized in coordination with the musicianship curriculum. Each quarter is a prerequisite for the following level.
MUS 111 is a prerequisite for this class.
MUS 123
GROUP PIANO II
Undergraduate
The second of six courses in a two year (six-quarter) sequence of two one-hour classes per week using electronic piano labs. Curriculum is organized on the basis of six levels of functional keyboard competence, coordinated with the two-year Musicianship Studies experience described above. Emphasis is on sight-reading, harmonization, theory, score-reading, accompanying and ensemble playing. Note: Students with extensive previous keyboard experience may complete the competence requirements in fewer than six quarters.

MUS 113 is a prerequisite for this class.

MUS 130
MUSCIANSHIP III
Undergraduate
(Spring) An integrated study of theory/history pertaining to music of the Classical period. Activities include readings, listening, analysis, and theory exercises.

MUS 120 is a prerequisite for this class.

MUS 131
AURAL TRAINING III
Undergraduate
A six-quarter sequence of sight-singing and dictation, organized in coordination with the musicianship curriculum. Each quarter is a prerequisite for the following level.

MUS 121 is a prerequisite for this class.

MUS 133
GROUP PIANO III
Undergraduate
The third of three courses in a two year (six-quarter) sequence of two one-hour classes per week using electronic piano labs. Curriculum is organized on the basis of six levels of functional keyboard competence, coordinated with the two-year Musicianship Studies experience described above. Emphasis is on sight-reading, harmonization, theory, score-reading, accompanying and ensemble playing. Note: Students with extensive previous keyboard experience may complete the competence requirements in fewer than six quarters.

MUS 123 is a prerequisite for this class.

MUS 140
MUSIC OF THE WORLD’S PEOPLE
Undergraduate
A survey of music roles and practices in a variety of countries and continents. This course is not available to students in the School of Music. Arts and Literature.

MUS 200
MUSIC OF THE UNITED STATES TO 1900
Undergraduate
This course discusses two types of subject matter: the traditions of art music or "classical" American music from the Colonial era through the latter Nineteenth Century; and the important vernacular or popular tradition of music which emerged between 1830-40 and continued up through about 1900. Music student may only use this course to fulfill free electives. Arts and Literature.

MUS 201
MUSIC OF THE UNITED STATES SINCE 1900
Undergraduate
This course discusses two types of subject matter: the traditions of art music or "classical" American music in the twentieth and twenty-first Centuries. Additionally, important vernacular or popular traditions since 1900 will be studied. This includes idioms such as: jazz blues, Broadway musicals, the standard popular song, motion picture music, commercial music, rock and roll, and various other types of popular music. Music student may only use this course to fulfill free electives. Arts and Literature.
MUS 202
WOMEN AND MUSIC
Undergraduate
A survey exploring the roles of women musicians in their societies. This course may only be used as a free elective for students in the School of Music. Arts and Literature.

MUS 203
CONTEMPORARY MUSICAL IMPROVISATION: SCRATCH ORCHESTRA
Undergraduate
This course will focus on improvisational practices with a focus on experimental composers between 1959 - 1980. Students will form a large ensemble. Class activity will focus on hands-on music making with a combination of laptops and acoustic instruments.

MUS 204
WHAT WERE THE BLUES? 1920-1960
Undergraduate
This course will follow the history of the blues from its first recordings in the early 1920s through the “rediscovery” of classic blues artists in the late 50s, with an emphasis on listening to and discussing a rich legacy of classic blues recordings.

MUS 205
THAT HIGH LONESOME SOUND: BLUEGRASS 1936-1972
Undergraduate
A study of the social, cultural, and technological contexts of classical bluegrass, recordings made between 1936 and 1972.

MUS 206
ITALIAN POPULAR SONGS IN CONTEXT: THEN AND NOW
Undergraduate
Students will study Italian popular songs throughout the last eight centuries, emphasizing their use to mirror, reflect, and influence socio-cultural norms of the time and place of their creation.

MUS 207
INTRODUCTION TO SONGWRITING
Undergraduate
This course will introduce students to the methods of prominent North American and British songwriters from the late 1940s through the 1980s, a period of stylistic unity that shaped contemporary popular music. Orally and through transcription and written analysis, students will learn to understand, evaluate, and appropriate the methods of influential songwriters. A typical class will consist of discussing recordings, transcriptions, and artist interviews as a class or in groups. Prerequisites: Guide to Music Theory (MUS 107) or other introductory music theory course preferred. Students must be able to read/write music notation.

MUS 208
COMMUNITY AUDIO ART PRODUCTION
Undergraduate
This Experiential Learning course involves collaborative art production, electro-acoustic and computer music, experimental sound techniques, radio art, political music, socially engaged audio documentary, soundscape design, field recordings, sound installation, conceptual art, public service announcements, and interdisciplinary art. In addition to a historical survey of works in this genre, students will complete one group project and one solo project. This course may only be used as a free elective for students in the School of Music. Junior Year Experiential Learning.

MUS 210
MUSI CI ANSHI P IV
Undergraduate
(Autumn) An integrated study of theory/history pertaining to music of the 19th and early 20th century. Activities include readings, listenings, analysis, and theory exercises.

MUS 130 is a prerequisite for this class.
MUS 211
AURAL TRAINING IV
Undergraduate
A six-quarter sequence of sight-singing and dictation, organized in coordination with the musicianship curriculum. Each quarter is a prerequisite for the following level.

MUS 131 is a prerequisite for this class.

MUS 213
GROUP PIANO IV
Undergraduate
The fourth of six courses in a two year (six-quarter) sequence of two one-hour classes per week using electronic piano labs. Curriculum is organized on the basis of six levels of functional keyboard competence, coordinated with the two-year Musicianship Studies experience described above. Emphasis is on sight-reading, harmonization, theory, score-reading, accompanying and ensemble playing. Note: Students with extensive previous keyboard experience may complete the competence requirements in fewer than six quarters.

MUS 133 is a prerequisite for this course.

MUS 220
MUSICIANSHIP V
Undergraduate
An integrated study of theory/history pertaining to music of the 20th and 21st centuries. Activities include readings, listening, analysis, and theory exercises.

MUS 210 is a prerequisite for this class.

MUS 221
AURAL TRAINING V
Undergraduate
A six-quarter sequence of sight-singing and dictation, organized in coordination with the musicianship curriculum. Each quarter is a prerequisite for the following level.

MUS 211 is a prerequisite for this course.

MUS 223
GROUP PIANO V
Undergraduate
The fifth of six courses in a two year (six-quarter) sequence of two one-hour classes per week using electronic piano labs. Curriculum is organized on the basis of six levels of functional keyboard competence, coordinated with the two-year Musicianship Studies experience described above. Emphasis is on sight-reading, harmonization, theory, score-reading, accompanying and ensemble playing. Note: Students with extensive previous keyboard experience may complete the competence requirements in fewer than six quarters.

MUS 213 is a prerequisite for this course.

MUS 230
MUSICIANSHIP VI
Undergraduate
History of music of the Middle Ages and the Renaissance; readings of texts and articles; study of specific works.

MUS 220 is a prerequisite for this class.

MUS 231
AURAL TRAINING VI
Undergraduate
A six-quarter sequence of sight-singing and dictation, organized in coordination with the musicianship curriculum. Each quarter is a prerequisite for the following level.

MUS 221 is a prerequisite for this course.
MUS 233
GROUP PIANO VI
Undergraduate
The last of six courses in a two year (six-quarter) sequence of two one-hour classes per week using electronic piano labs. Curriculum is organized on the basis of six levels of functional keyboard competence, coordinated with the two-year Musicianship Studies experience described above. Emphasis is on sight-reading, harmonization, theory, score-reading, accompanying and ensemble playing. Note: Students with extensive previous keyboard experience may complete the competence requirements in fewer than six quarters.

MUS 223 is a prerequisite for this class.

MUS 265
MUSICAL TRADITIONS OF AMERICA AND THE WORLD
Undergraduate
An introduction to the musical styles of world cultures and jazz. Required of all music majors.

Status as a Music student is a prerequisite for this class.

MUS 272
TRENDS IN 20TH CENTURY ART AND MUSIC
Undergraduate
Appreciative approach to the styles of selected 20th-century artists and composers. School of Music students may take this course only as a free elective. Arts and Literature.

MUS 274
THE GOSPEL MUSIC TRADITION IN AMERICA
Undergraduate
The origins, people, context, and spirit of gospel music. This course may only be used as a free elective for students in the School of Music. Arts and Literature.

MUS 278
JAZZ
Undergraduate
A comprehensive study of the origins and developments of jazz, specifically concentrated on important jazz styles and performers since 1917. This course may only be used as a free elective for students in the School of Music. Arts and Literature.

MUS 279
MUSIC HISTORY I: CHANT TO BACH
Undergraduate
This course is designed for transfer music majors who have already completed a year of music theory but have not taken music history. This class involves extensive listening, examination of musical scores, and reading assignments each week.

Status as an Undergraduate Music student is a prerequisite for this class.

MUS 303
BASIC CONDUCTING PRACTICUM
Undergraduate
An introduction to ensemble conducting. Students will learn to prepare a score and to execute a rehearsal with a live ensemble. Topics include score study, rehearsal skills, critical listening skills, and physical conducting skills. This course must be taken concurrently with Basic Conducting (MUS 304).

MUS 230 and MUS 231 are a prerequisite for this class.
MUS 304  
BASIC CONDUCTING  
Undergraduate  
An introduction to ensemble conducting. Students will learn to prepare a score and to execute a rehearsal with a live ensemble. Topics include score study, rehearsal skills, critical listening skills, and physical conducting skills. COREQUISITE: Basic Conducting Practicum (MUS 303).

MUS 230 and MUS 231 are a prerequisite for this class.

MUS 305  
MUSICAL ENCOUNTERS OF THE PORTUGUESE EMPIRE  
Undergraduate  
This course explores the role that music played in encounters between Europeans traveling on behalf of the Portuguese Empire and the cultures colonized by the Portuguese beginning in fifteenth century and continuing today in post-colonial contexts. This course will also examine the musical genres that developed as a result of cross-cultural contact. Musical case studies are selected from different historical periods and diverse cultures and geographical areas encompassed by the Portuguese Empire: Portugal, Asia, Africa, and South America. This class will include listening and reading assignments, and students will have the opportunity to further explore an area of interest in a research project on a topic of their choice. Arts and Literature.

MUS 306  
PUNK ROCK THROUGH THE YEARS: ISSUES & AESTHETICS  
Undergraduate  
This course explores the aesthetic, political, and social issues that have shaped the development of punk rock and its various sub-genres in the United States and the United Kingdom since the early 1970's.

Status as a Music student is a prerequisite for this class.

MUS 308  
ANALYTICAL TECHNIQUES  
Undergraduate  
Investigation of various analytical approaches to music syntax, structure, style and texture (including timbral and vocal or instrumental configurations) as exhibited in representative compositions from late Baroque to the 20th century. Intended for Bachelor of Arts majors.

MUS 230 is prerequisite for this class.

MUS 309  
PERFORMANCE PRACTICE AND CRITIQUE  
Undergraduate  
This course will provide students will additional performance opportunities and will give them a chance to get critique from people not playing their instrument and, therefore, without the sympathy to its technical demands. Additionally, they will learn to criticize their peers in an appropriate and focused manner and will become better acquainted with the specifics of other instruments.

A Music Performance major and junior or senior standing is a prerequisite for this class.

MUS 310  
INTRODUCTION TO ETHNOMUSICOLOGY  
Undergraduate  
This course introduces students to the discipline of ethnomusicology, the study of why and how people around the world experience music. Students explore key themes and research methodology of ethnomusicology through selected readings, sound recordings, documentary film, live performances, site visits, and class discussions. Students complete an independent fieldwork project.

MUS 360  
TOPICS IN MUSICIANSHIP  
Undergraduate  
An indepth investigation of a topic in musicianship studies.

Status as a Music student is a prerequisite for this class.
MUS 381
HISTORY OF OPERA
Undergraduate
A history of opera from the 17th century to the present. Emphasis on the development of musical style with particular reference to significant operas, musical examples, and recordings.

Status as a Music student is a prerequisite for this class.

MUS 386
MUSIC SINCE WORLD WAR II
Undergraduate
This course is concerned with the history and development of musical styles and procedures during post World War II period, with reference to significant compositions, musical examples, and recordings.

Status as a Music student is a prerequisite for this class.

MUS 387
EARLY 20TH CENTURY MUSIC
Undergraduate
This course is concerned with the history and development of musical styles and procedures during the early 20th Century, with reference to significant compositions, musical examples, and recordings.

Status as a Music student is a prerequisite for this class.

MUS 395
SENIOR CAPSTONE SEMINAR
Undergraduate
This course is designed to fulfill the senior capstone experience for School of Music Bachelors of Arts students only. Students will develop a final project, culminating their musical studies in relationship to their liberal arts studies. The individual projects should reflect an advanced level of musical understanding, scholarship, and writing. The School of Music faculty member will meet with the students in a biweekly seminar throughout the quarter, and on an individual basis as needed.

A petition to major is a prerequisite for this class.

MUS 398
INDEPENDENT STUDY
Undergraduate
An in-depth study of a musicianship topic under the supervision of a faculty member. (Departmental permission required).

A petition to major is a prerequisite for this class.

MUS 400
MUSIC RESEARCH
Graduate
Introduction to music research types and techniques; bibliography and bibliographical sources; the development of writing skills; analysis of research examples.

Status as a Graduate Music student is a prerequisite for this class.

MUS 408
ANALYTICAL TECHNIQUES
Graduate
Investigation of various analytical approaches to music syntax, structure, style and texture (including timbral and vocal or instrumental configurations) as exhibited in representative compositions from many historical periods. Intended as an overview of theory/analysis for graduate students.

Status as a Graduate Music student is a prerequisite for this class.
MUS 409
PERFORMANCE PRACTICE AND CRITIQUE
Graduate
This course will provide students with additional performance opportunities and will give them a chance to get critique from people not playing their instrument and, therefore, without the sympathy to its technical demands. Additionally, they will learn to criticize their peers in an appropriate and focused manner and will become better acquainted with the specifics of other instruments.

Status as a Graduate Music Performance student (degree or certificate) is a prerequisite for this class.

MUS 420
HISTORY OF THE ORATORIO
Graduate
An analytical and historical study of oratorio literature from 1600 to the present.

Status as a Graduate Music student is a prerequisite for this class.

MUS 435
18th & 19th WIND HISTORY AND LITERATURE
Graduate
A historical connection exists between wind music of the ancient and medieval periods, and the music of today. This course will trace that historical line, focusing on the 18th & 19th Centuries. The development of repertoire as well as the functions and uses of wind music will be explored. It is the intention of this class to address the needs of people who will perform, conduct, or teach "classical" wind music as part of a career. Emphasis will be placed on original music suitable for professional concert performance.

Status as a Graduate Music student is a prerequisite for this class.

MUS 436
20th CENTURY WIND HISTORY AND LITERATURE
Graduate
The role of this course is to inform students of the development of wind music through the exploration of ensemble size and instrumentation, civic or artistic purpose, influential composers and conductors, and specific repertoire.

MUS 460
TOPICS IN MUSICIANSHP
Graduate
An in-depth investigation of a topic in musicianship studies.

Status as a Graduate Music student is a prerequisite for this class.

MUS 475
MEDIEVAL MUSIC
Graduate
Historical survey of music from the Middle Ages: sacred and secular music as artistic, theoretical, and intellectual expression of the Middle Ages; history of musical styles to 1420; performance practice issues

Status as a Graduate Music student is a prerequisite for this class.

MUS 478
RENAISSANCE MUSIC
Graduate
Historical survey of music from the Renaissance. Musical style, compositional procedures, and performance practice are studied, within the social, political and economic environment in which the composers worked.

Status as a Graduate Music student is a prerequisite for this class.
MUS 479
BAROQUE MUSIC
Graduate
Historical survey of Baroque music and performance practice. Representative examples of both vocal and instrumental music are studied, mostly using the analytical techniques of the period, with the aim of becoming familiar with the most significant manners of composition of Baroque composers.

Status as a Graduate Music student is a prerequisite for this class.

MUS 481
HISTORY OF OPERA
Graduate
The course surveys the history of opera in western culture from its beginnings in the 17th century through the 20th century. The class materials cover stylistic trends and genres as demonstrated through seminal works. Each class period will contain a relevant analytical study.

Status as a Graduate Music student is a prerequisite for this class.

MUS 482
WORLD MUSIC CULTURES
Graduate
This graduate course will provide a global musical perspective and widen the lens through which students experience music. Through lectures, listening, guest performances, and engaging discussion students will gain rich insights into new worlds of music.

Status as a Graduate Music student is a prerequisite for this class.

MUS 484
CLASSICAL MUSIC
Graduate
Traces the development of musical style during the Classical Era through the analytical study of examples in the principal musical forms such as sonata form. Reception and performance practice then and now will be addressed.

Status as a Graduate Music student is a prerequisite for this class.

MUS 485
ROMANTIC MUSIC
Graduate
Survey of nineteenth century music through a close analysis of representative Romantic works. The course will cover the expansion of both harmonic language and form leading to their eventual breakdown and reinterpretation.

Status as a Graduate Music student is a prerequisite for this class.

MUS 486
MUSIC SINCE WORLD WAR II
Graduate
This course surveys Western art music and related theoretical and technical issues from near the end of World War II to the present focusing on the development of new musical languages, new instruments and new methods of analysis.

Status as a Graduate Music student is a prerequisite for this class.

MUS 487
20TH CENTURY MUSIC BEFORE WWII
Graduate
This course surveys Western art music and related theoretical and technical issues from near the end of the 19th century to World War II, focusing on the new musical languages and aesthetics developed from 1890 until 1940.

Status as a Graduate Music student is a prerequisite for this class.
MUS 498
INDEPENDENT STUDY
Graduate
An in-depth study of a musicianship topic under the supervision of a faculty member. (Departmental permission required).
Status as a Graduate Music student is a prerequisite for this class.

MWR 497

CANDIDACY CONTINUATION
Graduate
Candidacy Continuation

NMS 501
PROSEMINAR IN NEW MEDIA STUDIES
Graduate
Introduces the field of New Media Studies and the faculty who teach in it. Each week a different NMS faculty member will present his or her research and relate that topic to the wider field of NMS. Encourages students to clarify their course of study and build alliances with faculty and students with similar interests.

NMS 502
NEW MEDIA, OLD MEDIA
Graduate
New Media, Old Media offers a critical examination of the rise of the information age and its impact on old media. This course will situate the NMS program in the historical/critical development of mass media and its relationship to power and meaning-making.

NMS 504
TEXT AND IMAGE
Graduate
In this course we will explore the increasingly important dynamic between textual information and visual information. In this course we will read about how hypertext has changed the environment and nature of the written word, and we will examine how the Web has "remediated" previous media into a new dynamic. We will use this knowledge to perform analyses of visual and textual artifacts; students may also create their own artifacts.
NMS 505
WORKSHOP/PORTFOLIO SEMINAR
Graduate
Students will have a choice between a collaborative workshop or a more individually-centered portfolio development seminar. Each group prepares a digital media project for an existing community group, such as a social service organization. Those students preferring to work independently will, under the guidance of the advising professor, develop and defend a complete portfolio of their work within the NMS program. May be repeated for elective credit.

NMS 506
INTERNSHIP
Graduate
In consultation with the director of NMS, students design a field experience under the direction of a project director in the field. The field experience may be derived from issues raised in courses, from thesis research, or from personal research interests.

NMS 507
INDEPENDENT STUDY
Graduate
In consultation with the director, advanced students may devise, with the approval of an NMS faculty member, an independent course of study that is related to the field yet does not duplicate a core or elective course already available.

NMS 508
DESIGN RHETORICS
Graduate
This course provides students with a theoretical foundation and practical skills in the design of rhetorically sophisticated new media objects. We will learn basic principles of visual composition, both by examining existing compositions and building our own. We will also seek to understand the way visual literacies and culture shape the rhetorical choices we make as designers and managers of new media projects.

NMS 509
SPECIAL TOPICS IN NEW MEDIA STUDIES
Graduate
See schedule for current offerings. May be repeated for credit as topics vary.

NMS 520
WEB DESIGN I
Graduate
An introduction to the process of making functional sites for display on the Internet. Students will learn HTML-based development software, and work with imaging software to apply fundamental theories of new media design to the production of working computer-screen applications.

NMS 521
WEB DESIGN II
Graduate
An introduction to digital authoring software, such as Macromedia Flash, that allows for the combination of animation, sound, and complex user interaction. Students will design and produce working animations while exploring the balance between purpose, usability, and aesthetic appeal.

NMS 530
HTML/CSS
Graduate
An introduction to fundamental web development and design languages. Students will learn HTML syntax, naming practices, and techniques for developing and structuring web pages and sites. Students will also learn how to style HTML pages with Cascading Style Sheets (CSS). While most instruction will proceed through XHTML, students will also have an opportunity to explore HTML5 and CSS3.
NMS 531
JAVASCRIPT
Graduate
An introduction to JavaScript and JavaScript libraries, focused on the rhetorical possibilities JavaScript makes available for web development. Students will learn the basics of JavaScript as a language, how it interacts with HTML and CSS, how to use it to produce dynamic and interactive structures in sites, and how to leverage existing JavaScript libraries.

NMS 540
DIGITAL ARCHIVES
Graduate
This course provides students with an overview of issues related to digital archives, and hands-on experience with contemporary archiving practices. Students in NMS 540 will explore digital archiving through theoretical readings and case studies, and create or maintain digital archives for local organizations.

NMS 597
CANDIDACY CONTINUATION
Graduate
Masters candidates who are not enrolled in a course during a given quarter but who want to maintain active university status should register for this course by permission of the graduate director. This course does not maintain student status for purposes of student loans. Non-credit, $40.00 per quarter.

NSG 200
HEALTH AND NUTRITION
Undergraduate
This course provides an introduction to the complex interactions between nutrition, exercise, genetics, cultural factors, physiological and psychological stressors and health. Each class provides an overview on the various nutritional factors which influence the health of individuals. A population based approach is used to address the issue of world hunger and undernutrition. Multiple perspectives relating to nutrition are included such as cultural, religious, family and alternative nutritional lifestyles.

NSG 210
PARENTING IN MULTICULTURAL FAMILY SYSTEMS
Undergraduate
Families exist in complex systems of home, community and environment. Each family depends on their cultural history, previous experiences and social supports to assist with parenting. Today over 70% of families with children have two working parents. In the case of single parenting or blended families stressors are great. This course will examine the effect of culture and family traditions on parenting practices in the United States. Multiple family theories will be introduced and discussed. The primary focus is identification of child and family risk factors and strengths. Identifying positive parenting behaviors will enhance the well being, self esteem and health of the family.

NSG 230
WOMEN'S HEALTH: THE PHYSICAL SELF
Undergraduate
This course explores the biological dimensions of women's health. The theoretical bases for evaluating medical research, assessing personal health, and decision-making consumerism from a feminist perspective are emphasized. An advanced-level scientific research paper due at the end of the quarter. Laboratory fee required.

WRD 103 or HON 101 or HON 100 or ENG 120 is a prerequisite for this class.

NSG 232
MEN'S HEALTH: THE PHYSICAL SELF
Undergraduate
This introductory course explores the unitary nature of men's health patterns focusing on anatomy and physiology of the major body systems emphasizing the difference in males. Health issues pertinent to these system differences in males will be presented based upon health risks, assessment, screening, diagnosis, management and treatment. Developing an understanding of male anatomy and physiology utilizing correct medical terminology to describe various parts and conditions. Elements of scientific research are explored in the context of lecture and laboratory sessions. Students select a research-based topic supported by clinical research studies to articulate their knowledge and understanding through a written paper and oral power point presentation.
NSG 260
STATISTICS FOR THE HEALTH SCIENCES
Undergraduate
This course introduces the health science student to theory and application of probability, risk, descriptive and inferential statistics. Computer laboratory experience focuses on using data sets in clinical trials, epidemiology, and critical pathway development.

NSG 261
INTRODUCTION TO FINANCE/ACCOUNTING IN HEALTH CARE
Undergraduate
This course introduces students to basic principles, concepts, and techniques in cost accounting, reimbursement, budgeting, and financial management in health care for the practicing health professional.

NSG 301
INTRODUCTION TO THE ART AND SCIENCE OF NURSING I
Undergraduate
The foundations of the art and science of nursing are developed through the study and practice of basic nursing skills, therapeutic communication and critical thinking in classroom, laboratory and clinical settings. Foundations are strengthened through exposure to theories of human development, aging, stress, health teaching and health promotion. Knowledge is applied to the care of older adults in the clinical setting, facilitating student understanding of individual expressions of wellness, health and illness, and the development of a professional value system.

NSG 302 and NSG 332 are a corequisite for this class.

NSG 302
INTRODUCTION TO THE ART & SCIENCE OF NURSING II
Undergraduate
Description
The art and science of nursing and selected nursing theories are examined to provide the basis for clinical thinking, compassionate communication, and therapeutic nursing interventions in the provision of medical/surgical care with adult/geriatric populations. The roles of the nurse as a health facilitator and provider of care are emphasized in working with common clinical medical/surgical issues. Classroom, clinical and laboratory experiences are provided related to individuals and families experiencing acute and commonly occurring patterns of illness.

NSG 301, NSG 322 and NSG 332 are a prerequisite for this class.

NSG 303
INTRODUCTION TO THE ART & SCIENCE OF NURSING III
Undergraduate
The art and science of nursing and selected nursing theories are examined further as the basis for critical thinking, compassionate communication, and therapeutic nursing interventions in holistic nursing practice with adult/geriatric populations. The roles of the nurse as a health facilitator and provider of care are emphasized in working with more complex clinical issues. Classroom, clinical and laboratory experiences are provided related to health promotion and healing of individuals and families experiencing acute and commonly occurring patterns of illness.

NSG 302, NSG 322 and NSG 332 are a prerequisite for this class.

NSG 307
ART AND SCIENCE OF NURSING IV: PSYCHIATRIC MENTAL HEALTH
Undergraduate
This course examines the etiology, symptomatology, and clinical management of selected mental illnesses across the lifespan. The art and science of nursing and selected nursing and non-nursing theories are examined further as the basis for critical thinking, compassionate communication, and therapeutic nursing interventions in mental health nursing practice. The evidence base for psychiatric nursing will be examined and applied to practicum experiences. Various psychiatric nursing roles will be explored in the contexts of health promotion, disease management and rehabilitation.

NSG 303 is a prerequisite for this class.
NSG 322
BASIC PATHOPHYSIOLOGY AND PHARMACOLOGY
Undergraduate
This course is designed to integrate the principles of pathophysiology and pharmacology in order to set the knowledge base necessary to manage pharmacological therapy for both acutely and chronically ill patients. The nursing role in facilitating safe and effective pharmacotherapy is emphasized. The registered nurse plays a vital role in the education and treatment of patients undergoing drug therapy. To function successfully in this role, the nurse must understand the relationship between: a) pathophysiologic mechanisms and manifestations of disease, b) the fundamental principles of drug action, c) the application of specific drugs in the treatment of disease, and d) related nursing care considerations. The course recognizes the importance of patient teaching as a nursing function and provides greater emphasis on this topic. Guidelines for and specific examples of patient teaching are covered in each session. Changes in structure and function as a result of normal development and aging are addressed. Fundamentals of drug administration and calculations related to pharmacotherapy in a way that ensures the patient’s safety and satisfies medical and legal concerns are being reviewed.

NSG 330
FOUNDATIONS OF PROFESSIONAL NURSING PRACTICE
Undergraduate
This course introduces the registered nurse student to the philosophy and mission of the Department of Nursing. Major areas of emphasis include evolution of nursing as a scientific professional discipline, the role of the professional nurse as client advocate, change agent and teacher, the role of power and politics as sources of empowerment, and the legal and ethical parameters in the scope of nursing practice.

NSG 332
PHYSICAL AND PSYCHOSOCIAL ASSESSMENT STRATEGIES
Undergraduate
This course is designed to prepare the student to perform comprehensive physical assessments and mental status exams of the individual in the context of their family and community. (Laboratory fee required).

NSG 335
LESBIAN HEALTH MATTERS
Undergraduate
This course explores the unitary processes and experiences of health and quality of life for lesbians in diverse communities and with a range of identification and orientation. The idea that homophobia exists and serves as a significant barrier to access and to maintenance of health for lesbians underpins the course. The course uses multiple forms of scientific literature, general literature, film, and art to study the personal, ecological, and socially constructed determinants of health and quality of life. Various feminist, nursing, queer, and post-colonial perspectives on contemporary scientific and social discourse will emphasize linking health and illness with economic, social/cultural, and political dimensions of society. Concepts of personal health patterning, risk reduction, and health promotion will be stressed.

NSG 380
UNDERGRADUATE SYNTHESIS
Undergraduate
This course provides a capstone experience in professional nursing practice. Topics, readings, and course requirements are decided by the students in collaboration with the professor. Students will complete a project demonstrating integration of the liberal arts and sciences with the professional practice of nursing in contemporary society. Ordinarily this will take the form of a senior research project or thesis. A professional resume and final assessments also will be completed.

NSG 399
INDEPENDENT STUDY
Undergraduate
INDEPENDENT STUDY Variable credit.
NSG 400
THEORETICAL COMPONENTS OF NURSING
Graduate
This seminar course is designed to examine the nature, function, and development of concepts, models and theories for their relevance to advanced nursing practice and nursing research. The structure of theory is analyzed by examining the relationship between theoretical components. A variety of types of theoretical statements utilized to conceptualize nursing practice and research are presented and evaluated. A process for developing a conceptual framework for inquiry and data-based nursing practice is presented.

NSG 401 or status as a Advanced Practice or DNP student is a prerequisite for this class.

NSG 401
NURSING RESEARCH I
Graduate
This is a seminar course emphasizing the components of the research process. Using discussions and analysis of published studies, students will examine current research problems and their associated methodological and ethical issues. Students will prepare problem statements, formulate research questions, review nursing research literature, and utilize appropriate methodologies in preparing a research proposal. MENP students are required to take NSG 481 as a co-requisite.

NSG 400 is a prerequisite and NSG 481 is a corequisite for this class.

NSG 422
APPLIED PHYSIOLOGY
Graduate
A synthesis of organic & inorganic chemistry, molecular biology, and cellular physiology that serves as a foundation for advanced understanding of pathophysiology and pharmacology.

Status as an NP student or (status as an MENP student and NSG 332) is a prerequisite for this class.

NSG 424
PATHOPHYSIOLOGY FOR ADVANCED PRACTICE
Graduate
Survey of current advances on human physiology with emphasis on the cellular and microcellular basis of health and disease. Students will engage in intensive study of human anatomy and physiology and complex pathophysiologic processes. Current research findings are reviewed for implications for health promotion, health maintenance and health restoration.

NSG 422 is a prerequisite for this class.

NSG 425
FISCAL MANAGEMENT IN HEALTH CARE
Graduate
Fiscal management and budgetary practices in health care institutions are explored. Budget preparation, cost-benefit, analysis, product costing, reimbursement, and analysis of financial status in organizations is emphasized.

NSG 426
PHARMACOLOGY II
Graduate
This course builds on the principles of pathophysiology and pharmacology introduced in NSG 322. Emphasis is placed on the proper use of medication in self-care and dependent-care relative to health-related requisites, nursing role in administration of drugs, and proper patient education. The course focuses on the principles of nursing management in drug therapy along with the basics of core drug knowledge and patient-related variables. The major classifications of drugs are being examined along with issues arising from the use of drug therapy in contemporary society, and the related nursing implications are discussed. The pharmacological aspects of nursing care are integrated using the nursing process. In addition, there is emphasis on assessing and evaluating patient responses that change in accord with health, age, lifestyle, gender and other factors.

NSG 322 is a prerequisite for this class.
NSG 428
PATHOPHYSIOLOGY FOR ADVANCED PRACTICE
Graduate
Using a case study approach, pathophysiologic and physiologic alterations will be analyzed in selected systems-related disease processes. Appropriate clinical and lab analysis will be included in preparation for advance practice. Using a variety of learning modalities, students will explore current theories and research related to pathology, pathophysiology & abnormal physiologic function including implications for health promotion, maintenance and restoration.

NSG 428 is a prerequisite for this class.

NSG 430
POLITICAL AND LEGAL ISSUES IN HEALTH CARE
Graduate
Seminars will discuss social, economic, legislative and regulatory mechanisms that influence professional practice and health policy in the United States. Emphasis is on the legal definition of professional practice as well as major issues involved in designing, implementing and evaluating policy decisions including scope, dynamics, and conceptual and practical dilemmas.

NSG 431
HEALTH PROMOTION FOR FAMILIES AND COMMUNITIES
Graduate
Examines issues, frameworks, theories and techniques relevant to health promotion for individuals, families and communities. Health disparities and social & cultural factors impacting health and wellness are examined and methods for assessing and facilitating cultural competence of providers and institutions are studied. The nurse's role as advocate for health promotion in public policy is discussed.

NSG 433
NURSING AND BIOMEDICAL ETHICS IN HEALTH CARE
Graduate
Seminars and case studies are used to explore issues and frameworks for ethical practice and research in the health professions.

NSG 440
MATERNAL HEALTH NURSING
Graduate
The art of childbearing nursing: a didactic and clinical course as presented and discussed in class and implemented in the clinical setting. Focus is on the role of the nurse in caring for healthy newborns, and childbearing women who may be experiencing actual or potential educational needs, illness manifestations, or injury patterns. A variety of clinical settings, both inpatient and outpatient for maternity care will be utilized.

NSG 440 and NSG 460 are a prerequisite for this class.

NSG 441
INFANT, CHILD AND ADOLESCENT NURSING
Graduate
The art of pediatric nursing: a didactic and clinical course as presented and discussed in class and implemented in the clinical setting. Focus is on the role of the nurse in caring for children ranging from newborns through adolescents. Levels of prevention, health promotion, health maintenance and health restoration will be discussed. Emphasis is placed on the physical, psychosocial, and developmental needs of infants, children and adolescents within the family as well as the alterations that occur during hospitalization. Major causes of morbidity and mortality will also be covered. The influence of health policy, cultural, economic, and ethical issues on the child and family are also addressed.

NSG 307 and NSG 460 are a prerequisite for this class.

NSG 442
COMMUNITY HEALTH NURSING
Graduate
The emphasis of this course is to provide a theoretical basis for nursing and public health sciences in the field of population health. Emphasis is placed on application of the principles of primary health care, strategies of health promotion, disease prevention and management across the life-span in home and community settings, and nursing practice of community-based families and population. Current trends and professional, legal/ethical, economic, cultural, and environmental issues are examined as they apply to community health nursing.

NSG 440 and NSG 441 are a prerequisite for this class.
NSG 443
CLINICAL IMMERSION AND INTERNSHIP
Graduate
This is the capstone clinical course in which students, preceptors, and faculty collaborate in application and synthesis of the core concepts of caring, collaboration, communication, cultural sensitivity, community and environment as they relate to the nursing care of clients with complex health care problems throughout the life span. The students will also demonstrate competency in clinical skills, critical thinking, problem solving, and time management. The purpose of the synthesis course is to facilitate the integration of current and prior curricular content so that the student can become an active and productive member of the health care team.
NSG 442 and NSG 472 are a prerequisite for this class.

NSG 445
NURSING PROFESSIONALISM, ADVOCACY, AND LEADERSHIP
Graduate
This course discusses the concepts essential to the development of the professional identity and role of the nurse as a leader. Unique leadership contributions of professional nursing to healthcare in multiple settings will be discussed. The nurse?s interactions with nursing colleagues and other health care providers will be addressed with an emphasis on leadership, communication, delegation, conflict resolution, negotiation and team building. The course draws on current knowledge and theory of leadership and the profession of nursing. The course will focus on the role of the professional nurse in relation to lawful, ethical practice and in relation to current health care system needs and expectations. Nursing roles and specialty practices will be discussed with regard to the leadership provided by these nurse experts. The course will also emphasize the development of the collaborative skills and understanding necessary to lead within the complex healthcare system, including the ability to present her/himself as a professional with evidence of leadership abilities. NSG 442 and NSG 472 are a co-requisite for this class.
NSG 400 and NSG 441 are a prerequisite for this class.

NSG 448
INDEPENDENT STUDY
Graduate
This course is reserved for individuals who wish to do focused study at the graduate level.

NSG 450
SELECTED TOPICS IN NURSING
Graduate
This course is reserved for special seminars organized from time to time to accommodate the needs of groups interested in specific topics.

NSG 451
INTRODUCTION TO NURSING ADMINISTRATION AND LEADERSHIP
Graduate
This course is an introduction to the nursing leadership concentration as well as an overview of current issues and theory of nursing administration for all advanced practice nurses. As an introduction to the nursing leadership concentration, this course places emphasis on developing master's level skills of critical reading, scholarly writing, analytical discussion, and shared leadership. May also be taken as a health sciences management elective. The expected outcome of the course is a nursing research question and literature review that will form the basis of the students work in their concentration and the final research project.

NSG 452
ORGANIZATIONAL AND FINANCIAL MANAGEMENT IN HEALTH CARE
Graduate
This course provides insight and reflection on the executive role in advanced practice and organizational administration. Concepts, models, and techniques used to manage systems in a variety of health care organizations or practices are analyzed. Organizational assessment, resource development, and product costing are emphasized. This course provides insight and reflection on the executive role in advanced practice and organizational administration. Concepts, models, and techniques used to manage systems in a variety of health care organizations or practices are analyzed. Organizational assessment, resource development, and product costing are emphasized.
**NSG 453**  
**CASE MANAGEMENT AND THE MANAGED CARE ENVIRONMENT**  
Graduate  
In this course, students engage in analysis of concepts central to an indepth understanding of the managed care environment and case management as a clinical care system. Emphasis is upon development of skill in organizational and population-based assessment and data analysis, clinical pathway development, and interdisciplinary collaboration. Students develop a data-base for a clinical project focusing on a client population from their work environment.

**NSG 454**  
**INNOVATIONS IN HEALTH CARE DELIVERY**  
Graduate  
This course provides the instruction and clinical experience for the development of the advanced practice nurse role as case manager and administrator. Learning activities focus on implementing contemporary data-based nursing practice models in a variety of health care settings, and the diffusion of innovation at the individual, family and organizational levels.

**NSG 455**  
**CURRICULUM DEVELOPMENT FOR HEALTH CARE SYSTEMS**  
Graduate  
Theories, principles and approaches to curriculum development are explored. Basic elements of curricular design are examined in relation to traditional and evolving paradigms, reflecting development in social and professional dimensions of health care.

**NSG 456**  
**PRACTICUM IN NURSING ADMINISTRATION I**  
Graduate  
Practicum In Nursing Administration I  
NSG 451 and NSG 452 are a prerequisite for this class.

**NSG 457**  
**PRACTICUM IN NURSING ADMINISTRATION II**  
Graduate  
Practicum In Nursing Administration II  
NSG 456 is a prerequisite for this class.

**NSG 458**  
**TEACHING IN HEALTH CARE SYSTEMS**  
Graduate  
This course prepares the registered nurse to apply theories, principles and strategies in education. Emphasis is on education as a vehicle for enhancing the health of populations and systems from an ecological perspective.

**NSG 459**  
**PRACTICUM IN TEACHING IN HEALTH CARE SYSTEMS**  
Graduate  
Practicum In Teaching In Health Care Systems  
NSG 455 and NSG 458 are a prerequisite for this class.
NSG 460
ADVANCED PHYSICAL ASSESSMENT ACROSS THE LIFESPAN
Graduate
DescriptionThis course emphasizes the knowledge and skills necessary for advanced health assessment of individuals and families across the lifespan. This knowledge will be incorporated with related pathophysiological processes in common health abnormalities, with integration of laboratory findings and physical exam findings. The course will focus on physical, psychosocial, sociocultural, environmental, and developmental elements of advanced assessment necessary for developing clinical data-gathering skills, diagnostic reasoning and clinical problem-solving. It will allow students to explore fully the human individual, holistically, without recourse to invasive technologies. Interviewing techniques and head-to-toe physical assessment will be reviewed. The course will then concentrate on the focused systems assessment necessary for providing care to clients across the lifespan and assist the students in differentiating between normal, deviations from normal, and abnormal physical assessment findings. At the end of the course, students will be expected to perform an advanced physical exam upon a designated client and effectively communicate the findings.

NSG 303 and NSG 307 are a prerequisite for this class.

NSG 462
ADVANCED WOMEN’S HEALTH ASSESSMENT
Graduate
Lectures focus on the synthesis of scientific knowledge in performing integrated, comprehensive assessments of women from late adolescence through maturity. Emphasis is placed on the woman in the context of the family and community in health and illness. Laboratory practice includes taking the health history and performing the physical examination to evaluate primary and reproductive health care needs.

NSG 422, NSG 424 and NSG 464 are a prerequisite for this class.

NSG 464
HEALTH ASSESSMENT FOR ADVANCED PRACTICE
Graduate
This course builds on the skills acquired in health assessment and will introduce the skills and knowledge needed to perform a history and physical examination on patients of all ages. Lecture will focus on the synthesis of scientific knowledge in performing integrated, comprehensive assessments of individuals from infancy through maturity. Emphasis is placed on the child in the context of the family and community. Laboratory practice includes taking the health history and performing the physical examination to evaluate primary health care needs. Adult Nurse Practitioner students will not participate in the assessment of the infant and child, but instead will participate in more in-depth assessment of the older adult.

NSG 422 is a prerequisite for this class.

NSG 472
CRITICAL CARE NURSING
Graduate
This is a theory and clinical course with a focus on the roles and responsibilities of nurses caring for adults who are experiencing acute illness that may result in complex multiple system disorders. This course will emphasize the critical care concepts of oxygenation, perfusion, ischemia, pain, metabolism, and quality of life. In this course, students will synthesize knowledge and apply advanced skills to manage high acuity and critical care clients. An emphasis is placed on providing a strong theoretical foundation for the student to be able to apply critical thinking skills to clinical decision-making. In the clinical area utilizing the critical thinking techniques of the nursing process, students will assess, collect data, plan, implement and evaluate the care of clients hospitalized in high acuity and critical care units.

NSG 440 and NSG 441 are a prerequisite for this class.

NSG 473
PRIMARY CARE OF THE INFANT, CHILD, AND THE ADOLESCENT
Graduate
DescriptionThis course is designed to explore health promotion, health protection, and disease prevention dimensions in pediatric primary care. The focus is on common issues related to clinical, developmental and behavioral needs of children and adolescents and their families. The dynamics of the pediatric client and nurse practitioner relationship will be analyzed, focusing on life transitions and the impact of health and illness on infants, children, adolescents and their families. Clinical practice guidelines will be evaluated through epidemiological and research evidence of selected developmental and behavioral disorders, as well as acute and chronic health problems. Selected theory-based models relevant to primary care of children will be critiqued.

NSG 464 and NSG 484 are a prerequisite for this class.
NSG 474
PRIMARY CARE OF THE ADULT AND OLDER ADULT
Graduate
Lectures focus on synthesis and application of scientific knowledge for family advanced practice nursing in primary care. The emphasis of course content is on building advanced knowledge of chronic and complex health problems in the primary care management of adults. This course examines primary health care needs of adults across the life span, with a focus on health promotion and disease prevention. The integrated role of the advanced practice nurse in providing holistic care and collaborative practice is emphasized.

NSG 464 and NSG 484 are a prerequisite for this class.

NSG 475
CLINICAL MANAGEMENT OF PREGNANCY AND CHILDBIRTH
Graduate
This advanced practice course provides a comprehensive review of both complicated and high-risk obstetrical conditions. Course content builds upon the nurse practitioner student’s knowledge of primary care for low-risk obstetrical patients. Clinical practice guidelines for the advanced practice nurse in a woman’s health specialty practice or in a practice devoted largely to the care of women in the family is emphasized.

NSG 464 and NSG 484 are a prerequisite for this class.

NSG 477
CLINICAL MANAGEMENT OF WOMEN’S HEALTH AND ILLNESS
Graduate
Lectures focus on synthesis and application of scientific knowledge for gynecologic advanced practice nursing. The integrated role of the advanced practice nurse in providing holistic care and collaborative practice is emphasized.

NSG 478
CLINICAL MANAGEMENT OF ACUTE AND CHRONIC ILLNESSES IN PRIMARY CARE
Graduate
Lectures focus on synthesis and application of scientific knowledge for adult advanced practice nursing. The integrated role of the advanced practice nurse in providing holistic care and collaborative practice is emphasized. The dynamics of the adult client and nurse practitioner relationship will be analyzed, focusing on life transitions and the impact of health and illness on adults, families, and communities. Clinical practice guidelines will be evaluated through epidemiological and research evidenced of selected acute, emergent and chronic health problems.

NSG 464 and NSG 484 are a prerequisite for this class.

NSG 479
MANAGEMENT OF GERIATRIC SYNDROMES
Graduate
This course examines selected clinical issues and health problems of older adults, and provides a foundation in advanced gerontological nursing. Comprehensive geriatric assessment, changes in normal aging, geriatric syndromes, and functional status of older adults will be explored. Students will apply evidence-based practice to promote wellness, maximize function, and enhance self-care of older adults.

NSG 481
BIOSTATISTICS AND EPIDEMIOLOGY
Graduate
The application of biostatistics/epidemiology to clinical practice and research is the intent of this seminar. Initial discussions will focus on understanding biostatistics and epidemiological statistics as applied to health and disease in diverse populations. From considering the relationship between measurement and biostatistics to understanding the importance of insuring data integrity throughout the research process, students will examine existing data sets (federal, voluntary agencies, professional/specialty organizations). Then the focus will be on understanding epidemiological statistics (rates, proportions, relative and absolute risk), descriptive statistics, measures of differences, measures of relationships/prediction, and multivariate statistical models as applied to health and disease.
NSG 482
INTRODUCTION TO EPIDEMIOLOGY
Graduate
An investigative problem-solving process is used to study the personal and ecological determinants of health and disease frequencies in diverse populations. Data are manipulated to plan, implement and evaluate health promotion and disease control programs for a variety of health care settings. Infectious and chronic disease prevention are emphasized. Students electing to take the course for four credit hours will complete a project using the epidemiologic method. Two credit hours. PREREQUISITE(S): Advanced Health Statistics.

NSG 483
PRACTICUM IN POPULATION-BASED NURSING PRACTICE I
Graduate
This is the first practicum in a sequence of supervised clinical experiences for nurse practitioner students. The focus of NSG 483 is on application of health assessment and examination skills in the clinical setting, identification of health risks, and learning how to manage common illnesses. Analysis and application of current research is used as the basis for decision-making in performing the health history and physical assessment, contributing to interdisciplinary treatment planning, and teaching for health promotion and illness prevention.

NSG 484
PHARMACOLOGY FOR ADVANCED PRACTICE
Graduate
Provides the advanced-practice nurse with the knowledge base necessary to manage pharmacological therapy for acute and chronically ill clients collaboratively with other members of the health care team. Direct and indirect responsibility for clinical decision-making regarding the administration, management and evaluation of drugs are emphasized.
NSG 428 is a prerequisite for this class.

NSG 487
PRACTICUM IN POPULATION-BASED NURSING PRACTICE II
Graduate
This is the second practicum in a sequence of supervised clinical experiences for nurse practitioner students in which students demonstrate increasing comprehensive practice of primary care in the context of specialty practice for selected populations. Nurse practitioner student readings, assignments, and clinical experiences in primary care: family, adult, pediatric, or women's health with an emphasis on health promotion and disease prevention.
NSG 483 is a prerequisite for this class.

NSG 488
PROFESSIONAL ISSUES & RESEARCH IN POPULATION-BASED ADVANCED PRACTICE NURSING
Graduate
This course introduces the graduate nursing students to a variety of advanced practice nursing roles and the competencies needed for successful practice in those roles. The students explore the conceptual, theoretical, and empirical bases of population based advanced practice nursing. Critical thinking skills are developed through the student's debate of current local, state, and national laws and analysis of coding case studies. Communication skills are fostered through the use of class discussions and development of various assignments. Scholarly written and verbal presentations enhance the student's understanding of historical, economical, political, legal, and ethical perspectives of advanced practice nursing.

NSG 490
PRACTICUM IN POPULATION-BASED NURSING PRACTICE III
Graduate
This is the third clinical practicum in a sequence of supervised clinical experiences for nurse practitioner students in which students demonstrate increasing comprehensive practice of primary care in the context of specialty practice for selected populations. This course provides the opportunity to integrate the multiple professional roles of the advanced practice nurse while refining their skills in the comprehensive practice of primary care and/or specialty practice for selected populations. Emphasis is on health promotion and disease prevention with unitary human beings in mutual process with their environment in the management of health and illness, teaching and health counseling and organizational and role competencies. Students select sites and preceptors in family, adult, pediatric or women's health promotion according to their area of concentration and self-assessed strengths and weaknesses.
NSG 487 is a prerequisite for this class.
NSG 500  
CHEMISTRY AND PHYSICS OF ANESTHESIA  
Graduate  
Review of principles of physics with emphasis on their application in the clinical practice of anesthesia. Nurse anesthesia residents (NAR) will engage in a comprehensive analysis of cell physiology and biochemistry with emphasis upon metabolism, enzyme function, and protein synthesis. Current research findings and their anesthetic implications will be discussed.

NSG 501  
ANATOMY AND PHYSIOLOGY I  
Graduate  
An intensive 6 quarter hour course designed to provide the nurse anesthesia resident (NAR) with current knowledge of advanced anatomy and physiology of the gastrointestinal, nervous and endocrine systems. The course is divided into three sections with emphasis placed on the structural and functional role of each system in maintaining homeostasis. Clinical implications of current research findings will be stressed.

NSG 502  
ANATOMY AND PHYSIOLOGY II  
Graduate  
An intensive 6 quarter hour course designed to provide the nurse anesthesia resident (NAR) with current knowledge of advanced anatomy and physiology of the cardiovascular, respiratory and renal systems. The course is divided into sections with emphasis placed on the structural and functional role of each system in maintaining homeostasis. Clinical implications of current research findings will be stressed.

NSG 503  
PATHOPHYSIOLOGY  
Graduate  
An intensive 6 quarter hour course designed to provide the nurse anesthesia resident (NAR) with current knowledge of diseases and disorders of the nervous, endocrine, cardiovascular, respiratory, renal, GI/hepatic, and musculoskeletal systems. Implications for the design and implementation of an appropriate anesthesia care plan for individuals with specific system disease/disorders will be discussed in detail. Emphasis will be placed on system-specific diagnostic and therapeutic procedures that require anesthesia services.

NSG 504  
PRINCIPLES OF ANESTHESIA PRACTICE I  
Graduate  
Designed to introduce the nurse anesthesia resident (NAR) to the advanced practice of nurse anesthesia. Emphasis is placed upon pre-operative patient assessment, anesthesia equipment and technology, airway management, intra-operative management, and postoperative care of patients undergoing general and regional anesthesia. Course includes orientation to clinical practice.

NSG 505  
PRINCIPLES OF ANESTHESIA PRACTICE II  
Graduate  
An intensive 4 quarter hour course designed to provide the nurse anesthesia resident (NAR) with current knowledge of special populations, including pediatric, obstetric, geriatric and trauma patients, as well as patients requiring pain management. Emphasis will be placed on the anatomical and physiological differences that characterize each population with a focus on the pathological disorders unique to each group. The preparation, implementation and evaluation of an appropriate nurse anesthesia care plan for these populations will be stressed.

NSG 506  
PRINCIPLES OF ANESTHESIA PRACTICE III  
Graduate  
An in-depth course that places emphasis on perioperative anesthetic management of patients presenting for specialty surgical procedures or requiring management for chronic pain. Implications for the development, implementation, and evaluation of anesthesia care plans will be stressed. The ethical, legal and professional issues that influence the advanced practice of nurse anesthesia will be discussed. Course includes preparation for the Certification Examination for Certified Registered Nurse Anesthetists.

NSG 507  
ANESTHETIC PHARMACOLOGY  
Graduate  
This course is an in depth introduction to anesthetic pharmacology. It covers the pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of drugs used in the administration of general, local, and regional anesthesia and provides the scientific basis for the advanced practice of nurse anesthesia.
NSG 508  
**ADJUNCTIVE ANESTHETIC**  
**Graduate**  
This 4 quarter hour hybrid course (in class and on-line sections) includes the pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of drugs used in the treatment of a variety of disease states. Implications of current therapy with these agents and use of selected agents as adjunctive therapy in the advanced practice of nurse anesthesia will be stressed.

NSG 509  
**ADVANCED PHYSICAL ASSESSMENT FOR NURSE ANESTHETISTS**  
**Graduate**  
This course will provide strategies that promote effective history-taking along with cognitive and psychomotor skills needed for the advanced physical assessment of the neurological, musculoskeletal, respiratory, cardiac, circulatory, and gastrointestinal systems across the lifespan. The assessment of body systems includes an overview of anatomy and physiology, techniques necessary to perform inspection, palpation, percussion and auscultation; and interpretation of physical findings and laboratory testing relevant to the advanced practice of nurse anesthesia.

NSG 510  
**ANESTHESIA PRACTICUM I**  
**Graduate**  
An introduction to the clinical practice of anesthesia with emphasis on the principles introduced in ANES 500-504, 507 and 508. Includes administration of anesthesia for select patient populations under direct instruction and supervision of a certified registered nurse anesthetist (CRNA) or anesthesiologist.

NSG 511  
**ANESTHESIA PRACTICUM II**  
**Graduate**  
Expanded application and integration of basic principles applicable to ANES 510.

NSG 511 is a prerequisite for this class.

NSG 512  
**ANESTHESIA PRACTICUM III**  
**Graduate**  
This practicum provides the nurse anesthesia resident (NAR) with an opportunity to apply and integrate the basic principles of nurse anesthesia practice. Emphasis is on the anesthetic comprehensive management of the adult patient presenting for elective and emergency surgery.

NSG 511 is a prerequisite for this class.

NSG 513  
**ANESTHESIA PRACTICUM IV**  
**Graduate**  
The first of four advanced anesthesia practicums that allow the third year nurse anesthesia resident (NAR) the opportunity to develop, implement, and evaluate anesthesia care plans for all patient populations undergoing a wide variety of specialty surgical and therapeutic procedures. It is designed to broaden the knowledge and skill base of the NAR. Includes seminar presentations on selected topics or issues relative to the advanced practice of anesthesia and completion of online bimonthly review quizzes.

NSG 512 is a prerequisite for this class.

NSG 514  
**ANESTHESIA PRACTICUM V**  
**Graduate**  
The second in a series of advanced practicums that provide the third year nurse anesthesia resident (NAR) with the opportunity to develop, implement, and evaluate an anesthesia care plan for all patient populations undergoing a wide variety of surgical and therapeutic procedures. Emphasis is placed on application, integration, and synthesis of knowledge, skills, and attitudes that are representative of the advanced practice of nurse anesthesia. Includes seminar presentations on selected topics and issues relative to the advanced practice of anesthesia and completion of online bimonthly review quizzes.

NSG 513 is a prerequisite for this class.
NSG 515  
ANESTHESIA PRACTICUM VI  
Graduate  
The third in a series of advanced practicums that provides the third year nurse anesthesia resident (NAR) with the opportunity to develop, implement, and evaluate an anesthesia care plan for all patient populations undergoing a wide variety of surgical and therapeutic procedures. Emphasis is placed on application, integration, and synthesis of the knowledge, skills, and attitudes representative of the advanced practice of nurse anesthesia. Includes seminar presentations on selected topics or issues relative to the advanced practice of anesthesia and completion of online bimonthly review quizzes. 

NSG 514 is a prerequisite for this class.

NSG 516  
ANESTHESIA PRACTICUM VII  
Graduate  
The final advanced practicum in which the third year nurse anesthesia resident (NAR) demonstrates the knowledge, skills, and attitudes necessary for entry level nurse anesthesia practice: proficiency in providing perioperative nurse anesthesia care for all patient populations; an ethical and culturally sensitive approach to patient care; analysis and synthesis of current research for application into practice; ability to perform a comprehensive self evaluation; and display of a professional attitude toward life long learning. Includes seminar presentations on selected topics or issues relative to the advanced practice of nurse anesthesia.

NSG 515 is a prerequisite for this class.

NSG 521  
INNOVATIONS IN HEALTH CARE DELIVERY  
Graduate  
This course provides the laboratory and clinical experiences for the development of the professional nurse role as case manager and administrator. Learning activities focus on implementing contemporary data-based nursing practice models in a variety of health care settings, and the diffusion of innovation at the individual, family and organizational levels.

NSG 522  
FINANCE AND COSTING IN HEALTH CARE  
Graduate  
This course provides learning experiences that focus on fiscal management and budgetary practices in health care institutions. Budget preparation, cost-benefit analysis, product costing, reimbursement, and analysis of financial status in organizations are emphasized. Health care finance is covered involving the major sources and uses of funds. Health care accounting is included which addresses financial reporting and cost measurement. An understanding of finance, accounting, policy and administration enables the advanced practice nurse to enhance the delivery of health care in a dynamic health care environment.

NSG 540  
CULTURE, ETHICS, AND POLICY ANALYSIS  
Graduate  
This seminar is designed to explore cultural and ethical perspectives and their relationships to health policy. Health disparities based on social and cultural difference are linked to major diseases such as heart disease, cancer, diabetes, hypertension and stroke, as well as access to and outcomes of health services. Class discussions will focus on the past, current and future health policy needs of multicultural and multifaceted societies. The phenomena of cultural, ethnic, gender, class, and sexual variation in complex societies; notions of diversity and social justice; understandings of cultural conflicts and how cultural differences are managed in healthcare settings will be considered. Students will integrate concepts of all levels of prevention in health care, examine research in health ethics and health policy and discuss legislative processes for their potential to improve the health of the public.

NSG 550  
HEALTHCARE ECONOMICS  
Graduate  
This course focuses on application of supply and demand theory to the healthcare industry as well as analysis of financing and healthcare delivery in the United States and other countries. The principles and tools of microeconomics and macroeconomics will be applied to the healthcare market. Applications particularly pertinent in economic climates include the supply and demand of healthcare, practice incentives, managed care, malpractice and pharmaceutical economics. 

NSG 552 is a prerequisite for this class.
NSG 551
LEADERSHIP AND ORGANIZATIONAL BEHAVIOR
Graduate
The course focuses on critical leadership characteristics that are necessary for transforming organizational behavior in healthcare organizations. Students will analyze leadership theories/styles and the interrelationship between leadership and management. Strategies for directing and managing successful change based upon an organization's vision and mission will be explored. Students will have an opportunity to assess their personal leadership style and to develop effective strategic leadership skills.

NSG 552
PROGRAM EVALUATION
Graduate
This course will familiarize the student in different types of program evaluation, including objectives oriented evaluation, management oriented evaluation, consumer oriented evaluation, expertise oriented evaluation, adversary oriented evaluation, participant oriented evaluation and alternative evaluation approaches. Students gain practical experience through a series of exercises involving the design of a conceptual framework, development of indicators, analysis of computerized service statistics, and development of an evaluation plan to measure impact.

NSG 481, NSG 554 and NSG 600 are a prerequisite for this class.

NSG 554
INFORMATICS AND TECHNOLOGY APPLICATIONS
Graduate
This course focuses on information systems technology and its application for the improvement and transformation of patient-centered health care. Implications of informatics for advanced practice nursing and health care in general are explored. Impact on consumer-provider relationships, ethical and legal issues, global/future informatics issues and electronic health record issues are being examined. The course prepares the student to become proficient at selecting and using technology for organizing, analyzing, managing, and evaluating information in nursing administration, education, and clinical practice settings. The use of technology as an adjunct to doctoral-level inquiry and how it supports clinical and professional decision-making is explained and demonstrated.

NSG 555
PHARMACOTHERAPEUTIC IMPLICATIONS FOR THE OLDER ADULT
Graduate
This course examines various factors that impact the pharmacokinetics and pharmacodynamics of pharmacotherapeutic agents used in the care of the older adult. Economic and policy issues regarding pharmacotherapy of the older adult will be explored. Students will develop primary and secondary strategies to detect and resolve problems related to the use of these agents in the older adult.

NSG 590
INDEPENDENT STUDY IN NURSING
Graduate
The student will work with a faculty mentor to develop an individualized plan of work involving in depth study in an area related to nursing and healthcare. This can include, but is not limited to, reviewing literature for evidence of best practices, developing a research project, collecting data on an ongoing project, coding or analyzing data, developing a research presentation, or working in the community on research or evidence-based intervention projects.

NSG 598
GRADUATE RESEARCH SYNTHESIS
Graduate
Students conduct supervised research terminating in a manuscript suitable for publication. The study must be approved by the faculty advisor and the School of Nursing Human Subjects Committee prior to registration. Students are encouraged to generate research questions from their clinical area of study courses.

NSG 401 and NSG 481 are a prerequisite for this class.

NSG 599
THESIS RESEARCH
Graduate
Students conduct supervised original research terminating in a completed and bound thesis. The study must be approved by the faculty advisor and the thesis committee approved by the School of Nursing prior to registration and must be completed during the term.

NSG 401 and NSG 481 are a prerequisite for this class.
NSG 600
EVIDENCE-BASED PRACTICE RESEARCH
Graduate
This course will focus on the evidence based practice process, theories, concepts, and methods. This will include the synthesis and application of scientific evidence to nursing and healthcare practice within a systems framework. Students will develop a proposal for an evidence-based, scholarly leadership proposal, which will translate science into practice. In order to accomplish this, the student will focus on a specific aggregate population, and develop the program to make a positive impact on healthcare delivery. This proposal will be presented to a faculty committee consisting of three faculty members for their approval.
NSG 481 and NSG 554 are a prerequisite for this class.

NSG 601
EVIDENCE-BASED PRACTICE RESEARCH II
Graduate
Students will submit individual objectives to the faculty advisor and committee who will guide the student through project implementation. Students will implement their evidence based Scholarly Leadership Project during this course.

NSG 602
EVIDENCE-BASED PRACTICE PROJECT
Graduate
Work continues on the evidence-based scholarly project. Students will complete implementation of their Scholarly Leadership Project, and perform a rigorous program evaluation. The results of this project will be presented to a faculty committee, and after committee approval, will be disseminated with an oral presentation and a manuscript deemed suitable for a peer-reviewed journal.

NSG 610
ANESTHESIA PRACTICUM I
Graduate
An introduction to the clinical practice of nurse anesthesia with an emphasis on the principles introduced in ANES 500-504, 507, and 508. Includes administration of anesthesia for select patient populations under direct instruction and supervision of a certified registered nurse anesthetist (CRNA) or anesthesiologist. The course content focuses on specific general surgical procedures, including intra-abdominal, gynecological, urologic, ear, nose and throat, orthopedic, and endoscopic procedure. Content knowledge will be assessed through objective examinations. The preparation, implementation and evaluation of an appropriate nurse anesthesia care plan for these populations will be assessed through clinical performance evaluations and written care plans. Course includes Human Patient Simulation (HPS) assignments.
NSG 504 and NSG 507 are a prerequisite for this class.

NSG 611
ANESTHESIA PRACTICUM II
Graduate
Includes administration of general and regional anesthesia for patients undergoing a variety of elective and emergency surgical procedures and diagnostic procedures. Management of special populations, including pediatric, obstetric, and geriatric patients is emphasized with a focus on the anatomical and physiological differences and pathological disorders that characterize each population. Content knowledge will be assessed through objective examinations. The preparation, implementation and evaluation of an appropriate nurse anesthesia care plan for these populations will be assessed through clinical performance evaluations and written care plans. Course includes Human Patient Simulation (HPS) assignments.
NSG 610 is a prerequisite for this class.

NSG 612
ANESTHESIA PRACTICUM III
Graduate
Includes administration of general and regional anesthesia for patients undergoing a variety of elective and emergency surgical procedures and diagnostic procedures. In addition to anesthetic management of the trauma patient, the course includes acute and chronic pain management, and advanced regional anesthetic techniques. Content knowledge will be assessed through objective examinations. The preparation, implementation and evaluation of an appropriate nurse anesthesia care plan for these populations will be assessed through clinical performance evaluations and critically assessed topics (CAT assignments). Course include Human Patient Simulation (HPS) assignments.
NSG 611 is a prerequisite for this class.
NSG 613
ADVANCED ANESTHESIA PRACTICUM I
Graduate
The first in a series of advanced practicums that provides the third year DNP student with the opportunity to develop, implement, and evaluate an anesthesia care plan for all patient populations with an emphasis on specialty surgical procedures, insertion of invasive monitoring and advanced airway management. Emphasis is placed on application, integration, and synthesis of knowledge, skills, and attitudes that are representative of the advanced practice of nurse anesthesia. This advanced practicum provides the opportunity to explore the professional aspects of nurse anesthesia practice, link policy making with clinical systems, and translate research into practice. Includes seminar presentations on selected topics relative to the advanced practice of nurse anesthesia and self assessment assignments.

NSG 612 is a prerequisite for this class.

NSG 614
ADVANCED ANESTHESIA PRACTICUM II
Graduate
The second in a series of advanced practicums that provides the third year DNP student with the opportunity to develop, implement, and evaluate comprehensive anesthesia care plan for all patient populations undergoing a wide variety of diagnostic, surgical and therapeutic procedures. This advanced practicum provides the opportunity to explore the professional aspects of nurse anesthesia practice, link policy making with clinical systems, and translate research into practice. Includes critically appraised topics, case narratives and seminar presentations on selected topics relative to the advanced practice of nurse anesthesia. Course also include Crisis Resource Management in the Human Patient Simulator (HPS).

NSG 613 is a prerequisite for this class.

NSG 615
ADVANCED ANESTHESIA PRACTICUM III
Graduate
The third advanced practicum for DNP students provides an opportunity to develop, implement, and evaluate an anesthesia care plan for all patient populations undergoing a wide variety of surgical and therapeutic procedures. This advanced practicum provides the opportunity to explore the professional aspects of nurse anesthesia practice, link policy making with clinical systems, and translate research into practice and serve as change agents for health care. Includes critically appraised topics, case narratives, seminar presentations on selected topics relative to the advanced practice of nurse anesthesia, and Crisis Resource Management in the Human Patient Simulator (HPS).

NSG 614 is a prerequisite for this class.

NSG 616
ADVANCED ANESTHESIA PRACTICUM IV
Graduate
The final advanced practicum in which the third year nurse DNP student demonstrates the advanced knowledge and skills that comprise a foundation for nurse anesthesia practice, the ability to work independently or as a contributing member of the anesthesia care team, adherence to professional standards as well as ethical and moral principles while providing care to a multicultural patient population, analysis and synthesis of current research that support evidence based anesthesia practice, an awareness of limited healthcare resources and cost containment strategies, the ability to perform a comprehensive self evaluation; and display of a professional attitude toward lifelong learning. The practicum includes completion of a final comprehensive exam, the Self Evaluation Exam (SEE) and professional portfolio, and presentation and dissemination of the Scholarly Leadership Project.

NSG 616 is a prerequisite for this class.

NSG 700
ADVANCED PRACTICUM FOR NURSE PRACTITIONERS I
Graduate
First of a series of two clinical courses that focus on developing proficiency in advanced nursing assessment and management for health promotion and disease prevention, management of complex health conditions, and working with interdisciplinary teams to provide care and services for persons across the lifespan. Students will ground their studies in the science of nursing interventions, moral/ethical issues, and nursing research. Practicum experiences are arranged to meet the individual needs of students while also meeting accreditation and certification requirements. This practicum provides an in-depth clinical experience for students in assessing an aggregate population within the context of a clinical setting, and developing programs to creatively and cost effectively affect changes in health care delivery. The clinical residency experience is facilitated by an advanced practice expert clinician, and forms the setting and basis for the Scholarly Leadership Project. There is no lecture/discussion component to this course. The student will meet with his/her course instructor on a regular basis for individual discussion and guidance in this Practicum course.
NSG 701
ADVANCED PRACTICUM FOR NURSE PRACTITIONERS II
Graduate
Second of a series of two clinical courses that emphasizes incorporating current research and demonstrating increasing autonomy and proficiency in decision making and case management. This advanced practicum provides the student with the opportunity to link policy making with clinical systems, translate research into practice, and serve as change agents for health care. In addition, this course provides the student with an opportunity to demonstrate expert knowledge, and expert clinical assessment and diagnostic skills when working with various patient populations. This practicum provides an in-depth clinical experience for students in assessing an aggregate population within the context of a clinical setting, and developing programs to creatively and cost effectively affect changes in health care delivery, and to evaluate those programs. The clinical residency experience is facilitated by an advanced practice expert clinician, and forms the setting and basis for the Scholarly Leadership Project. There is no lecture/discussion component to this course. The student will meet with his/her course instructor on a regular basis for individual discussion and guidance in this Practicum course.

ORGC 201
BUSINESS AND PROFESSIONAL COMMUNICATION
Undergraduate
Employers demand strong communication and presentation skills. In order to compete effectively in the job market, students need to acquire and practice the written and oral communication skills needed to interview successfully. Furthermore, as a professional you will not only be expected to be a confident speaker, but also to organize and prepare clear, concise and interesting presentations. You will also need to communicate effectively while working as the member of a team or in other group contexts. In developing the knowledge, competencies and skills needed to communicate effectively in these and other contexts, this course will embrace opportunities for both critical thinking and applied problem solving. (Formerly CMNS 201)

ORGC 212
SMALL GROUP COMMUNICATION
Undergraduate
A survey of the variables operating in group interactions. Combines principles with practice through participation in small group experiences. Topics include group formation, group formats, organizational approaches, decision-making models, group observation and evaluation. (Group) (Formerly CMNS 212)

ORGC 251
ORGANIZATIONAL COMMUNICATION
Undergraduate
This course focuses on the role of communication in organizational life. Attention will be devoted to exploring how communication simultaneously shapes and is shaped by organizations. Topics include conflict and mediation, stress and social support, the supervisor-subordinate relationships, workplace diversity, organizational consultation and new communication technologies in organizations. (organizational) (Formerly CMNS 251)

ORGC 290
ORGANIZATIONAL COMMUNICATION WORKSHOP (VARIABLE TOPICS)
Undergraduate
This course allows students to sample a range of hands on, practical offerings in communication that can enhance their knowledge and expertise. Topics offered include survey design and focus groups. (Formerly CMNS 290)

ORGC 316
COMMUNICATION AND GROUP DECISION-MAKING
Undergraduate
Advanced undergraduate course in small group communication. Students develop skills and abilities in identifying various factors that contribute to the success and failure of group decision-making in organizational contexts. Class sessions will focus on theories, research, and practices in group processes, and their applications to issues in real life. (Formerly CMNS 316)

ORGC 317
TOPICS IN GROUP COMMUNICATION
Undergraduate
Examines selected topics in group communication processes. Topics may include group creativity, communicating in virtual teams, conflict in groups, and group facilitation. (Formerly CMNS 317)
ORGC 332
TOPICS IN ORGANIZATIONAL COMMUNICATION METHODOLOGY
Undergraduate
Courses explore a range of qualitative and quantitative research strategies. Topics may include more specialized modes of gathering and assessing data, using new data technologies and software programs, and conducting communication studies. (Formerly CMNS 332)

ORGC 350
COMMUNICATION AND SOCIALIZATION IN WORK
Undergraduate
Examines how human beings move through the world of work, paying particular attention to the role communication plays in this process. Influences that help shape people's perceptions of work during youth and adolescence are reviewed, as are those that help individuals develop expectations about life in particular organizations prior to entry. In addition, the class focuses on new hire adjustment, the processes by which "rookies" gradually become "veterans" in the workplace, and covers voluntary and involuntary retirement. (Organizational) (Formerly CMNS 350)

ORGC 352
COMMUNICATION AND THE CORPORATE CULTURE
Undergraduate
Focuses on the communicative implications of such cultural elements as values, heroes, rites, rituals, symbolism and storytelling. Analyzes and presents ways of adapting to the diverse components of a culture. (Organizational) (Formerly CMNS 352)

ORGC 353
COMMUNICATION AND ORGANIZATIONAL CHANGE
Undergraduate
Explores the impact of change on the day to day work experience of organizational members. How culture, management philosophy and individual performances are influenced by change. Political, symbolic interactional, and human resource perspectives are explored. (Organizational) (Formerly CMNS 353)

ORGC 354
EMPLOYMENT INTERVIEWING
Undergraduate
Studies theory and practice of interviewing. Course focuses each term on a particular interview application (journalistic, employment, research, etc.) and examines strategies appropriate for interviewer and interviewee. Covers planning, conducting and evaluating interviews as well as relevant legislation. (Formerly CMNS 354)

ORGC 355
CONFLICT MANAGEMENT
Undergraduate
Examines the theory and process of conflict in interpersonal and organizational contexts. Focuses upon the causes, types, and theories of conflicts as well as upon practical approaches to dispute resolution. Topics include: social-psychological as well as process perspectives of conflict; personal conflict style/s; conflict sources; destructive versus constructive interaction cycles; impression management; conflict escalation or diminishment; and resolution strategies. (Formerly CMNS 355)

ORGC 356
COMMUNICATION CONSULTING
Undergraduate
Examines how to partner with a client to facilitate constructive organizational change and behavioral growth in the workplace. Focuses on contemporary consulting through case studies. Previous courses in organizational, small group, or interpersonal communication are suggested. (Formerly CMNS 356)

ORGC 357
TOPICS IN ORGANIZATIONAL COMMUNICATION
Undergraduate
Topics covered in this course might include: communication and customer service, assessment and intervention in organizations, comparative management, democratic participation in organizations, gender in the workplace, etc. (Formerly CMNS 357)
ORGC 358
LEADERSHIP AND TEAMBUILDING
Undergraduate
This is an advanced undergraduate course in small group communication that addresses how teams can benefit from effective leadership. Class materials will focus on various leadership theories and research, and their applications to leadership issues in real-life organizational teams. Students will acquire knowledge about what separates successful leaders from their unsuccessful counterparts, learn analytical tools to observe, diagnose, and choose appropriate responses to different leadership and team-related problems, and have opportunities to recognize and reflect on one’s own leadership skills in team context.

ORGC 392
INDEPENDENT STUDY
Undergraduate
Independent Study.

ORGC 393
ORGANIZATIONAL COMMUNICATION PRACTICUM
Undergraduate
Structured and supervised student participation in collegiate debating, radio production or group presentations for various audiences. Includes practical experience in research, rehearsal and performance. Students may take a maximum of 2 credit hours in one quarter, 4 credit hours in the major, and 8 total credit hours. (Formerly CMNS 393)

PAM 200
INTRODUCTION TO THE BUSINESS OF MUSIC
Undergraduate
Through lecture and discussion, this course examines the changing music industry. As an overview of music business, this course studies the relationships between artists, managers, agents, and attorneys; recording companies; major and independent labels; music publishing and performing rights organizations; touring and merchandising; copyright and music licensing; careers in the music industry; and topical issues facing the industry today.

Status as an Undergraduate Music, Undergraduate Theater, Undergraduate Business student, or permission from the instructor is a prerequisite for this class.

PAM 301
PERFORMING ARTS MANAGEMENT I: INTRODUCTION TO MANAGEMENT CONCEPTS IN THE PERFORMING ARTS
Undergraduate
Through lecture, discussion, readings, videos, research and projects, the student learns about styles of arts leadership, contemporary issues and best practices in the field of arts management, the history of non-profit arts administration in the US including leaders in the field and opportunities for careers in the arts. Emphasis is placed on how non-profit organizations balance their commitment to the Art, the Artist and the Audience. Specific areas addressed include the role of the arts manager; the primacy of the mission; planning, change and adaptation; leadership and group dynamics; and human resources. (Cross-listed with THE 201)

PAM 200 is a prerequisite for this class.

PAM 302
PERFORMING ARTS MANAGEMENT II: ORGANIZATIONAL STRUCTURE AND FINANCIAL MANAGEMENT
Undergraduate
Through lecture, discussion and projects, the student learns about non-profit arts organizational structures, short- and long-term planning, intersection of mission/vision/values and programming with growth and sustainability, producing vs. presenting organizations, financial management, management information systems and budgeting. (Cross-listed with THE 202)

PAM 301 is a prerequisite for this class.
PAM 303
PERFORMING ARTS MANAGEMENT III: MARKETING FOR THE ARTS
Undergraduate
Through lecture, discussion and projects, the student learns about strategies and objectives in marketing and promoting the performing arts. Specific focus is given to integrated marketing and communication strategies; market research and evaluation techniques; organizational image and branding; patron support services; and audience development. Students will create marketing and public relations plans and materials, both independently and on teams, which incorporate targeting audiences; promotions, publicity, and advertising; and working with various forms of media, including social networking and technology-based platforms.

PAM 302 is a prerequisite for this class.

PAM 304
PERFORMING ARTS MANAGEMENT IV: INSTITUTIONAL ADVANCEMENT & COMMUNITY ENGAGEMENT
Undergraduate
Through lecture, discussion and special projects, the student learns about institutional advancement and development as well as collaborations with internal and external constituencies. This course is the final course in the four-course sequence on Performing Arts Management, and integrates the topics, vocabulary, themes, and subjects introduced in the previous three courses. (Cross-listed with THE 207)

PAM 303 is a prerequisite for this class.

PAM 305
COMMERCIAL MUSIC BUSINESS
Undergraduate
Through lecture, discussion, reading and projects, this course provides an in-depth examination of the commercial/for-profit music business with a focus on artist management, record labels (present and future), marketing and touring. Specific attention is given to artist-manager relationship; artist-label relationship; marketing strategies; and the current changes and evolution of the industry, at large.

PAM 200 is a prerequisite for this class.

PAM 306
TECHNOLOGICAL TRENDS & DEVELOPMENTS IN THE MUSIC INDUSTRY
Undergraduate
This course will examine the changes within the music industry; past, present, and future; and the technological advancements which provide the catalyst for those changes. Students will develop a basic understanding of the technological breakthrough, recognize its significance and examine how the music industry exploits these new developments into business opportunities never before possible.

PAM 307
LEGAL ISSUES IN THE MUSIC INDUSTRY
Undergraduate
This course is a study of legal concepts and issues related to the music industry - types of contracts; contracts mechanics and formats; relationships between artists and key personnel; recording contracts and record labels; copyright issues related to artists, performers, and composers, copyright infringement issues; digital music issues; labor relations; landmark legal cases related to the music industry; and topical legal issues facing the industry today.

PAM 200 is a prerequisite for this class.

PAM 308
MUSIC PUBLISHING
Undergraduate
This course is a study of the past, present, and future of music publishing. The course is designed to examine the principles and procedures involved in music publishing, nationally and internationally. Topics include music ownership and copyright registration; copyright searches and infringement; primary functions of a music publisher; sources of publishing income and licenses; current practices, trends, and future issues.

PAM 200 is a prerequisite for this class.
PAM 309
MUSIC IN THE REAL: AN ENTREPRENEURIAL APPROACH TO PRESENTING MUSIC IN TODAY'S MARKETPLACE
Undergraduate
Through opportunity creation, case study, discussion and peer evaluation, this course analyzes and simulates the professional performing arts marketplace, providing collaborative hands-on experience for performers and arts managers-in-training. In this course, performers will hone their musical point-of-view and create an original, self-produced performance opportunity in the DePaul community, with marketing materials and a business structure to support their project. Arts Management students will collaborate with performers on these projects, providing support to their colleagues in a way that models their future professional activities. Each student will also be responsible for analyzing a current successful model, identifying keys to success. This course is intended to bridge the transition from college to career, providing the artistic, career development and entrepreneurship training that have become essential in today's professional environment. (Cross-listed with APM 309)

PAM 360
TOPICS IN PERFORMING ARTS MANAGEMENT
Undergraduate
An in-depth study of special topics related to the fields of Performing Arts Management and/or Music Business.
Status as an Undergraduate Music, Undergraduate Theater, Undergraduate Business student, or permission from the instructor is a prerequisite for this class.

PAM 398
PERFORMING ARTS MANAGEMENT INTERNSHIP
Undergraduate
The internship provides the student with an experiential opportunity to learn by working with professionals in the Performing Arts Management and/or Music Business industries.
Status as a Music student is a prerequisite for this class.

PAM 399
INDEPENDENT STUDY
Undergraduate
Status as a Music student is a prerequisite for this class.

PAX 200
PERSPECTIVES ON PEACE, JUSTICE, AND CONFLICT STUDIES
Undergraduate
A survey of key issues in the study of violence, conflict and its peaceful resolution including an examination of nonviolence as a philosophy and as a technique of action and social change. The course treats aggression, oppression, and nationalism as particularly problematic in an increasingly global human community. The course introduces key concepts in peace studies (positive and negative peace, structural and direct violence, the analysis of conflict) and demonstrates the links with other parallel concerns (minority issues, women's issues, social change, international relations). In addition to traditional methods of instruction, this course will rely on students working at designated community service organizations which will be treated as one of the central learning resources in the course.

PAX 201
FRAMEWORKS FOR BUILDING A JUST AND PEACE-SUPPORTING SOCIETY
Undergraduate
An introductory course to positive models for building a peace culture, addressing structural conflicts and injustice, and discovering viable resolutions.

PAX 206
BOUNDARIES AND IDENTITIES
Undergraduate
This course explores how identity formation is shaped by cultural, historical, and political construction of barriers, borders, and boundaries, and how such formations are intertwined with ethnicity, race, nationality, gender and class.
PAX 210
FROM INTERNATIONAL CONFLICT TO RESOLUTION AND PEACE
Undergraduate
This interdisciplinary course examines the basic questions of peace studies in different and "diverse" contexts, from personal relationships to societies and states, and addresses the consequences of conflict and conflict resolution in the contemporary world.

PAX 212
SOCIAL JUSTICE AND SOCIAL CHANGE
Undergraduate
An exploration of the mutual interdependence of social justice and non-violence, understanding it as a strategy for social change and a vision for social concord. Formerly PAX 230.

PAX 214
CONFLICT: INTERVENTION, NEGOTIATION AND ADVOCACY
Undergraduate
An exploration of theories of conflict and the intervention methods for dealing with conflicts at the interpersonal and group levels.

PAX 218
HUMAN RIGHTS: PROMISE AND PROBLEMATICS
Undergraduate
This course will explore the historical origins, foundational principles, and socio-political efficacy of human rights discourse in contemporary international relations, domestic politics, and ethical thought. It consider issues such as the religious and/or secular foundation of human rights; their universality in relation to particular cultural customs and norms; the relative priority of individual and collective rights; and the legitimacy of international humanitarian intervention in sovereign nations.

PAX 220
ACTIVISM
Undergraduate
This course will look at the various ways in which people across the globe organize to fight for better living conditions, social justice, human rights, environmental protection, labor issues, sustainable development alternatives, political representation, and gender issues, among others.

PAX 231
ANALYZING POVERTY, ITS CAUSES AND CONSEQUENCES
Undergraduate
This course investigates a variety of viewpoints on the causes and effects of poverty. Poverty is a complex and multidimensional condition often difficult to measure, comprehend and change. It includes lack of or limited access to material needs (food, water, shelter, health care, etc.), social relations (participation, inclusion, rights, etc.), income and wealth (unemployment, resources, etc.) and moral, psychological, or spiritual well-being. This course reviews the current poverty debates from the economic, policy, social, political, cultural and moral perspectives that influence the implementation of poverty reduction programs.

PAX 240
VOICES OF WAR AND PEACE; ART, LITERATURE AND FILM
Undergraduate
This course is an overview of the ways in which the arts, including literature and film, portray warfare and the attempts to end violence and build reconciliation and peace.

PAX 250
TOPICS ON PEACE, JUSTICE, AND CONFLICT STUDIES
Undergraduate
A workshop covering practical instruction in mediation, conflict resolution, and nonviolent methods for promoting social change.
PAX 252
FORGIVENESS AND RECONCILIATION
Undergraduate
A study of various understandings of “forgiveness” and “reconciliation” in several religions and cultures. The nature and dynamics of forgiveness and reconciliation will be examined both theoretically and in relationship to specific conflicts. Cross-listed with REL 252.

PAX 290
TOPICS ON JUSTICE AND PEACE
Undergraduate
A topics course geared to introductory level discussions of the core elements of justice and peace-building as they occur in specific venues, such as religion.

PAX 299
INDEPENDENT STUDY
Undergraduate
The student and faculty member will design a syllabus with readings and assignments appropriate for a lower division course in PJC. Limited to sophomores and above.

Sophomore or above standing and at least one PAX course is a prerequisite for this class.

PAX 300
SENIOR SEMINAR
Undergraduate
A seminar on a key theoretical topic on peace, justice or human rights, or conflict, viewed from an interdisciplinary perspective and though a wide variety of theoretical positions.

(Two from PAX 200, 210, 212, 214, 220) or permission of the Program Director is a prerequisite for this course.

PAX 303
BORDER MATTERS: LITERATURE & CULTURE IN THE LATINO/A BORDERLANDS
Undergraduate
In this course we will study the values and dynamic that is promoted in different Latino communities in the United States. In order to give context to the present situation of Latinos in the U.S. we will study some of the social issues in the countries of origin which have resulted in immigration and their encounter with borderlands. The notion of a Latina and Latino cultural "borderlands" has proven a ubiquitous and powerful conceptual paradigm in recent years, organizing distinct ethnic groups (Cuban American, Mexican American, Central American, Puerto Rican, etc.) according to the rubrics of pan-ethnic identity labels (Hispanic, Latina/Latino, etc.) and transnational geographies (Latin America, the Americas, etc.). This course will examine a wide range of Latino/a literary expressions produced in the Latina/Latino borderlands, particularly in areas of cultural contact and conflict. While the most obvious focus will be the Texas-Mexico border region, including ongoing efforts to establish the public meaning of the Alamo, additional borderlands, literal and figurative, will be considered. The Latina and Latino borderlands have also inspired critics and theorists to imagine postmodern, post national subject formations, in which questions of ethnicity, gender, and sexuality are shifted from the margins to the center of critical discourse. We will therefor investigate the use and limits of recent “border theory”. Cross-listed with LST 303.

PAX 320
TRANSFORMATIVE JUSTICE: THEORY AND PRACTICE
Undergraduate
This course introduces students to transformative justice responses to violence that do not rely on state institutions. These include collective processes for support and healing, intervention, accountability, and prevention. The pedagogical praxis of learning will be through communal peacemaking circles and collective strategy sessions to create community responses to violence. Cross-listed with WGS 320.

PAX 344
TOPICS IN ENVIRONMENTAL JUSTICE
Undergraduate
This course explores a specific topic in environmental justice, such as advocacy. For example, the roles of individuals and organizations in advocacy are discussed, particularly how power arrangements facilitate or impede consensus building, how legislation is written, and how this process impacts communities of color. Special attention is paid to advocacy techniques such as lobbying, movement-building, public education and litigation.
PAX 348
INDIGENOUS POLITICAL STRUGGLES
Undergraduate
This course explores the struggles for social justice and the right to have rights by indigenous peoples. It emphasizes contemporary cases and the cultural contexts in which indigenous political strategies have developed and transformed. It uses historical data to understand the issues faced by indigenous peoples. Students conduct research on indigenous struggles and their connections to other social movements at the local, national, and international levels. Cross-listed with LST 348.

PAX 350
CAPSTONE IN PEACE, JUSTICE & CONFLICT STUDIES
Undergraduate
An integrative seminar drawing together students' theoretical work and hands-on expertise.

PAX 351
GEOGRAPHY, FOOD AND JUSTICE
Undergraduate
While the need for food is universal, geographies of food production, distribution and consumption are anything but even. This leads to multiple issues of food injustice at a variety of scales. This course critically examines the contemporary global food system with the goal of providing students with skills and knowledge to engage in food justice activism. Students study the development of food systems and how inequalities have emerged in production, distribution and consumption. The course then explores food justice movements including the emergence of alternative food networks in the U.S and internationally. Assignments may engage students in local food projects and/or advocacy campaigns. Cross-listed with GEO 351.

PAX 360
TOPICS IN DEVELOPMENT AND ANTI-DEVELOPMENT
Undergraduate
A survey of the problem of endemic poverty in the Third World, together with a consideration of the various forms of public action designed to alleviate poverty. Considerable attention will be paid to the problems of rural poverty and the pitfalls and possibilities of industrialization.

PAX 362
TOPICS IN VIOLENCE: SOURCES AND OUTCOMES
Undergraduate
This course will study cultural, structural, or direct violence and their interrelationships, including theoretical justifications, social and political controls, and interventions.

PAX 365
TOPICS IN WAR AND PEACE
Undergraduate
This course will deal with one of many ways to discuss the large-scale conflict that is war and the different methods to prevent, delay, and conclude such conflicts, in order to have peace. Cross-listed with INT 365.

PAX 380
TOPICS IN NONVIOLENCE
Undergraduate
This advanced seminar will review historical, philosophical, and practical approaches to the use of nonviolence for addressing injustice and conflicts, including violent ones, as well as for enhancing life.

PAX 381
TOPICS IN PEACE BUILDING
Undergraduate
An advanced course looking at the history, theory and implementation of a specific tool for peace building, from diplomacy (state or citizen), legislative & juridical interventions, inner peace practices, and the like.
PAX 382
TOPICS IN SOCIAL JUSTICE AND SOCIAL CHANGE
Undergraduate
An advanced course that investigates one specific arena of social justice, such as environmental racism, gender injustice, religious bigotry, and the like, from a variety of disciplinary perspectives.

PAX 383
TOPICS IN CONFLICT INTERVENTION
Undergraduate
An advanced course that studies one or more types of nonviolent interventions in conflict, including violent conflict and warfare; examples include community organizing, political interventions, educational campaigns, etc. Recommended: PAX 210 or permission.

PAX 384
TOPICS IN ACTIVISM AND ADVOCACY
Undergraduate
An advanced course that looks at the history, merits, values, and organizational possibilities for specific models of activism.

PAX 385
TOPICS IN HUMAN RIGHTS
Undergraduate
Advanced topics on human rights, the competencies approach, institutionalized protection of rights, and the like.

PAX 386
TOPICS IN GLOBAL JUSTICE
Undergraduate
The course will investigate the ways in which global agents, whether governments, NGOs, or corporations act and interact in order to address systemic global inequities and injustice.

PAX 387
TOPICS IN PEACE, JUSTICE AND RELIGION
Undergraduate
This course will investigate the interfaces between one or more religious traditions and the ways in which the questions of peace-building and social justice are handled and responded to with concrete action.

PAX 389
TOPICS IN COMMUNITY DEVELOPMENT, ADVOCACY, & ACTIVISM
Undergraduate
This course will use specific issues, groups, and actions to study how working for the just needs of communities occurs in a variety of ways and settings.

Two 200-level PAX courses are prerequisites for this course.

PAX 390
INTERNSHIP
Undergraduate
The internship as an independent project allows students to find an peace, justice, or conflict intervention organization that will give them a meaningful experience in the work of their organizations or to sign up with a credit-bearing internship with another academic institution. Permission of the Director.

PAX 392
INTERNSHIP IN PEACE, JUSTICE, AND CONFLICT STUDIES
Undergraduate
The Internship in Peace, Justice and Conflict Studies exposes students to practical learning experiences in non-profit and government agencies through an intensive internship. Students work 100 hours with an organization arranged through Steans Center. Cross-listed with CSS 395.
Students have the option of completing a senior thesis on a topic relevant to their major under supervision of a PJC faculty member.

One 300-level PAX course is a prerequisite for this class.

The content and evaluation methods for this course are negotiated by the student with an individual faculty member. Only open to students of Junior or Senior standing.

This course aims to make feminist sense of contemporary wars and conflicts. It analyzes the intersections between gender, race, class, and ethnicity in national conflicts. The class traces the gendered processes of defining citizenship, national identity and security, and examines the role of institutions like the military in the construction of femininity and masculinity. The course focuses on the gendered impact of war and conflict through examining torture, mass rape, genocide, and refugee displacement. It analyzes the strategies used by women's and feminist movements to oppose war and conflict, and the gendered impact of war prevention, peacekeeping, and post-war reconstruction. The class draws on cases from Africa, the Americas, Asia, Europe, and the Middle East and North Africa. The class is interdisciplinary and gives equal weight to theory and practice while drawing on writings by local and global activists and theorists. Cross-listed with WGS 345.

(2 credits) This course provides instruction and requires participation in the dynamics of exercises that train the cardio respiratory system. These exercises include but are not limited to low-impact aerobics, high impact aerobics, step-aerobics, use of cardio equipment, spin, slide, and circuit training.

(2 credits) This course introduces students to strength training principles and activities: free weights, resistance machines, and functional exercises. Emphasis is placed on the development of strength and flexibility of the major muscle groups. Health-related fitness guidelines are presented to assist the student in developing overall fitness.

(2 credits) Advanced instruction in appropriate conditioning techniques and daily participation in monitored strenuous levels of aerobic exercise. PREREQUISITE(S): PE 060 or instructor's approval.

(2 credits) The main components of health-related fitness: cardiovascular endurance, muscular strength, muscular endurance, flexibility, and body composition are integrated into the fitness sessions, topic presentations, and health/fitness assessments. Emphasis is placed on improving overall wellness through exercise and healthy lifestyle choices.

(2 credits) Advanced instruction and participation in the use of free weights and various machines for body building and weight training. PREREQUISITE(S): PE 066 or instructor's approval.
This 30-hour self-defense course is open to all female students and teaches awareness, prevention, risk reduction and avoidance techniques. In addition, students will learn the importance of physical fitness and perform exercises designed to improve their speed, physical strength and flexibility to aid them in self-defense. At the end of the course, students will be given the opportunity to test their knowledge and skills in various attack scenarios, under the supervision of at least one certified R.A.D. Basic Physical Defense instructor, in a safe and supportive environment.

Through lecture, film analysis, direct observation and instruction of children, and class discussion, students will gain a greater understanding of the maturational and environmental factors that affect human growth and motor development. Since this development is a process that continues throughout our life span, prenatal through adult characteristics will be examined.

This course is designed to provide the student with skill instruction and analysis of the most widely used swimming strokes and basic dives. Principles of hydrodynamics and basic water safety will also be emphasized. Various individual skill levels will be considered to provide a safe and inclusive experience. Additionally, this course introduces the student to the concepts and procedures for teaching basic swimming in a school setting.

(2 credits) This course introduces the student to the concepts and procedures for teaching basic gymnastics in a school setting. Emphasis will be given equally to skill acquisition, spotting techniques, explanation/demonstration of skills, and the theoretical framework, which supports a gymnastics program. Students will be provided with the opportunity to acquire skills and spotting techniques for basic stunts, tumbling, balance, balance beam, parallel & uneven parallel bars, vaulting, and rhythmic gymnastics.

Offered alternate years. Fundamental skills, group drills, strategy, styles of offensive and defensive team play will be covered. Physical education majors will focus on teaching, officiating and assessment.

Offered alternate years. Fundamental skills, drills, strategy, team play, rules interpretation, and officiating will be covered. Physical education majors will focus on teaching, officiating and assessment.

Offered alternate years. Development of basic skills and progressive teaching stages: fundamental stage, game-related stage, game-condition stage, and functional training to include experience in soccer and other lead-up activities.

Offered alternate years. Fundamental skills, group skills, styles of offensive and defensive team strategy will be covered. Physical education majors will focus on teaching, officiating and assessment.
PE 186  
TRACK AND FIELD  
Undergraduate  
(2 credits) Offered alternate years. Track and field skills, rules, warm-up drills, management of track and field meets will be covered. Physical education majors will focus on teaching, officiating and assessment.

PE 187  
BASKETBALL  
Undergraduate  
(2 credits) This class introduces and reviews the fundamentals of basketball. It covers basic skills and knowledge of game play, court positions, rules, and drills carried out in practice situations. Physical education majors will focus on teaching, officiating and assessment.

PE 206  
PERSONAL AND COMMUNITY HEALTH  
Undergraduate  
This course is designed to assist students in gaining insight into their health/wellness attitudes, behaviors, and choices. Health/wellness experiences and topics examine the total wellness concept, as a self-designed, dynamic style of living which focuses on optimal functioning and quality of life. Emphasis is placed on the physical, emotional, intellectual, social, occupational and spiritual dimensions of health/wellness.

PE 213  
FOLK-SOCIAL DANCE  
Undergraduate  
(2 credits) Fundamentals, techniques, terms and teaching principles of line dance, square dance, ballroom, and swing dance will be covered. Students are introduced to basic style and basic choreography.

PE 273  
HEALTH AND NUTRITION  
Undergraduate  
This course will provide students with an introductory background in nutrition throughout the life span. The study of foods and their effects upon health, development and performance of the individual will be emphasized. Software analysis of dietary intakes will facilitate an individual reflective approach to an application of the content.

PE 276  
TENNIS  
Undergraduate  
(2 credits) Instruction and practice on basic patterns of movement of tennis skills. Knowledge of rules, etiquette, playing instructions and teaching methods for application of skills stressed.

PE 277  
GOLF  
Undergraduate  
(2 credits) Basic patterns of movement for a controlled golf swing with woods and irons; chipping, pitching and putting skills. Golf course rules and playing instructions. Teaching methods for application of skills stressed.

PE 278  
GOLF: FULL-SWING CLINIC  
Undergraduate  
This course will provide the student with advanced knowledge and practice of the full swing motion in golf. As a hybrid, it will allow the student to meet the professor and design the individual learning steps that will best meet the needs of each student. Course modules will include video tapes, handouts, support materials, and a quiz. Students will work through the modules independently to complete the course. Independent practice of the full swing outside of DePaul will be necessary for success in the course.
PE 302
FIRST AID: RESPONDING TO EMERGENCIES
Undergraduate
(2 credits) This course is designed to provide instruction, demonstration, and practice in application of basic emergency first aid skills. Students will learn to recognize the signs and symptoms of specific life threatening injuries and how to properly care for these injuries as citizen responders. Students will also have the opportunity to achieve Heartsaver CPR, AED, and First Aid Certification by the American Heart Association.

PE 303
ATHLETIC INJURIES
Undergraduate
Principles and techniques of prevention, recognition, treatment, care including adhesive strapping and wrapping and rehabilitation of common athletic injuries. Attention given to role of coach-trainer for emergency field procedures.

PE 304
THE SCHOOL HEALTH PROGRAM
Undergraduate
This course is designed to cover the scope of health services that could be provided through a comprehensive school health program. The school environment, community involvement, and legal/ethical considerations will be emphasized.

PE 317
PHYSICAL EDUCATION AND CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL
Undergraduate
The course is designed to promote an understanding of the contribution that physical education makes to the elementary school curriculum and the development of the whole child. Lesson planning, instructional delivery, and classroom management will be focused as students engage in 15-20 hours of supervised field experience teaching WHOLE classes of children in local schools. (PREREQUISITE(S): Junior status and 25 hours of Clinical Experience).

A Physical Education major in Advanced Standing is a prerequisite for this class.

PE 341
HISTORICAL AND PHILOSOPHICAL FOUNDATIONS OF PHYSICAL EDUCATION
Undergraduate
This course will review the history of sport, fitness and physical education; the impact that events have had on their development; and how physical education, fitness and the use of sport is influenced by society. Emphasis will be placed on philosophical perspectives and ethical values of this profession, both for the educator and the sport & fitness management employee. Content is devoted to the study and understanding of sport and physical activity within numerous cultures throughout history to support diversity and help students consider the multiple perspectives expressed through the incorporation of sport and physical activity.

PE 346
ORGANIZATION/ADMINISTRATION OF PHYSICAL EDUCATION, SPORTS & FITNESS PROGRAMS
Undergraduate
Organization and Administration of Physical Education, Sports, and Fitness Programs. Emphasis is placed on understanding the management process: functions, application to various settings, program development, budget, facilities, marketing/promotion, and risk management.

Advanced Teacher Candidate Standing is a prerequisite for this class.

PE 351
KINESIOLOGY
Undergraduate
Biomechanical analysis of the human body and how the human body moves. Scientific principals and their application to human movement are included. Application is made to fundamental and specialized motor skills. Development and maintenance of the human structure through intelligent selection of activities and efficient use. Lecture is supplemented with in class laboratory activities. (PREREQUISITE(S): BIO 201 and BIO 202).

Advanced Teacher Candidate Standing is a prerequisite for this class.
PE 352
PHYSIOLOGY OF EXERCISE
Undergraduate
Effects of muscular activity on the systems of the body. Nature of neuro-muscular activity, circulatory and respiratory adjustments during exercise, metabolic and environmental aspects of exercise, fatigue and training fitness. Lecture is supplemented with in class laboratory activities. (PREREQUISITE(S): BIO 201 and BIO 202).
Advanced Teacher Candidate Standing is a prerequisite for this class.

PE 360
EDUCATIONAL PSYCHOLOGY AND MEASUREMENT OF LEARNING
Undergraduate
This course presents those principles of educational psychology specifically related to the psychomotor learning domain, the selection of tests to measure learning of physical skills for all populations, administration of tests, data collection, and the statistical analysis needed to evaluate the learning process. Specifically, measures of central tendency, variability and correlation statistics; and standard tests of health and skill related components of fitness, motor performance, anthropometry, and specific sport analysis will be included in this course.
Advanced Teacher Candidate Standing is a prerequisite for this class.

PE 362
FITNESS TESTING, ASSESSMENT AND PRESCRIPTION
Undergraduate
This course is designed to provide theoretical knowledge of and select practical skills in fitness assessment, exercise program design, and client instruction in preparation for a national certification exam in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming.
Advanced Teacher Candidate Standing is a prerequisite for this class.

PE 372
METHODS AND MATERIALS FOR PHYSICAL EDUC CURRICULUM/INSTRUCTION-SECONDARY SCHL
Undergraduate
This course is designed to provide an understanding of physical education curriculum planning, teaching methods, classroom management, unit and lesson plans in a secondary school setting. Students will engage in 20-24 hours of field work to observe and participate in whole class instruction, in an attempt to integrate theoretical classroom content with on-site experiences.
Advanced Teacher Candidate Standing is a prerequisite for this class.

PE 374
ADAPTED PHYSICAL EDUCATION
Undergraduate
Diversified program of development activities, games, sports and rhythms suited to the interests, capacities, and limitations of students with disabilities who may not be able to participate in the general physical education program. PREREQUISITE(S): BIO 201 and BIO 202 or consent of instructor.
Advanced Teacher Candidate Standing is a prerequisite for this class.

PE 378
PHYSICAL EDUCATION STUDENT TEACHING IN ELEMENTARY EDUCATION
Undergraduate
(6 or 12 credits) Five school days a week of supervised teaching in a cooperating elementary school for half an academic quarter. Feedback and discussion of problems encountered in student teaching as well as new materials and techniques of student teaching. PREREQUISITE(S): Application and approval required. Open to only DePaul students.

PE 379
PHYSICAL EDUCATION STUDENT TEACHING IN SECONDARY EDUCATION
Undergraduate
(6 or 12 credits) Five school days a week of supervised teaching in a cooperating secondary school for half an academic quarter. Feedback and discussion of problems encountered in student teaching as well as new materials and techniques of student teaching. PREREQUISITE(S): Application and approval required. Open only to DePaul students.
PE 380
INTERNSHIP IN EXERCISE SCIENCE
Undergraduate

(12 credits) Four hundred hours of supervised training in a health, fitness, sport, or exercise setting will be completed through this course. Students will receive practical experience in fitness testing, individual and group training, class instruction, program planning, and other facets of exercise science programming. Students will complete a project that will relate their educational background to the practical setting they have chosen to work in, and present their work to the internship site. Special interests of students will be addressed based on the internship site. (PREREQUISITE(S): Open only to students who have applied and been accepted by the exercise science program advisor and must have completed all coursework and clinical hours for the exercise science degree).

PE 384
PHYSICAL EDUCATION CAPSTONE
Undergraduate

The senior capstone course is designed to help students integrate the central emphases of their liberal learning studies curriculum into their professional behavior. It will provide prospective physical education teachers with opportunities to engage in activities requiring them to be reflective, to consider value commitments, to use critical and creative thinking, and to examine their practice from a multicultural perspective as they discuss issues specific to early childhood education. The course is grounded in the School of Education's framework for an Urban Professional Multicultural Educator, which also reflects the goals of the Liberal Studies program.

PE 387
CAPSTONE SEMINAR IN PHYSICAL EDUCATION
Undergraduate

This course is designed to help candidates integrate the central emphases of their Liberal Studies curriculum with their professional knowledge and behavior. It provides opportunities and activities to prospective educators that engage them in being analytic and reflective upon their major and related disciplines; guide them in further considering their value commitments and how they relate to their chosen profession; apply critical and creative thinking in addressing 'real-time' professional issues and needs; and examine extant practices from multicultural perspectives. Candidates develop a professional teaching portfolio that reflects the standards of the various guiding professional organizations and the Illinois State Board of Education (ISBE). The course is grounded in the College of Education's framework for an Urban Professional Multicultural Educator as well as the goals of the Liberal Studies program. The course is taken simultaneously with student teaching. COREQUISITE(S): PE 378 and PE 379.

PE 390
PSYCHO-SOCIAL ASPECTS OF EXERCISE AND SPORT
Undergraduate

Psycho-Social Aspects of Exercise and Sport. Principles of human behavior, psychology, sociology, and motivational theory are covered as they relate to exercise fitness and sport. Students are introduced to personality factors, leadership skills, psychological skills training, and group dynamics which play important roles in the psychological development of individuals involved in exercise and sport programs. Advanced Teacher Candidate Standing is a prerequisite for this class.

PE 391
THEORY AND TECHNIQUES OF COACHING
Undergraduate

This course is designed to introduce areas from which basic coaching theories and techniques of various sports can be developed, to expose students to situations which place the coach in a decision making position and encourage students to examine practical problems which will influence the quality of an athletic program.

PE 392
ADVANCED ATHLETIC TRAINING TECHNIQUES
Undergraduate

This is an advanced course dealing with the principles and techniques of prevention, recognition, and treatment of athletic injuries. (PREREQUISITE: PE 303).

PE 393
THERAPEUTIC EXERCISE
Undergraduate

Introduction to the theory of exercise program design for various populations as well as for individual needs and for rehabilitation of major athletic injuries. Emphasis is placed on planning and teaching techniques and the application of principles to all domains of exercise; cardiovascular, muscular strength and endurance, and flexibility, with the focus of health promotion.
PE 394  
SPORT AND EXERCISE NUTRITION  
Undergraduate  
This course will provide the student with advanced knowledge of all areas of nutrition as they relate to the different types of exercise and sports. Prior basic nutritional knowledge is required for successful completion of this course. Topics will include but not limited to substrate utilization during different types of metabolic processes, hyper-hydration and nutrient loading prior to activity, nutrient maintenance during various types of exercise, recovery nutrition, nutrition planning for weight management, sport specific nutrition and consumer issues related to sport supplementation.

PE 399  
INDEPENDENT STUDY IN PHYSICAL EDUCATION  
Undergraduate  
(1 or 4 credits) PREREQUISITE(S): Permission of Department Chair and Associate Dean.

PE 450  
PSYCHOLOGY OF SPORT BEHAVIOR AND ATHLETIC PERFORMANCE  
Graduate  
A study of the philosophical and psychological concepts pertaining to sports, in general, and competitive athletic programs specifically. The course will be conducted in a seminar style, analyzing the various coaching and administrative techniques in sports programs. Emphasis will be given to intercollegiate sports. Elementary, secondary and professional sports programs will be included.

PE 451  
CURRENT ISSUES AND TRENDS IN ATHLETICS AND PHYSICAL EDUCATION  
Graduate  
An analysis of the current issues, trends and changes in competitive athletic programs and physical education programs. Major consideration will be given to problems relating to development of goals and objectives, preparation of program budgets, financial considerations, media input, and legal ramifications of the various programs.

PE 452  
EXERCISE SCIENCE AND SPORT  
Graduate  
A study of the advanced concepts and theory pertaining to analysis of human movement. Application will be made for the teaching of fundamental motor skills as well as the specialized analysis made by the coach. Discussion of the various techniques, sophisticated equipment, and empirical evidence will support the conclusions determined in the seminar. The course will be designed for professional physical educators and individuals involved in the coaching profession.

PE 453  
ADVANCED HEALTH CONCEPTS  
Graduate  
This course will present advanced concepts in health for the individual interested in Health Education or the Allied Health Professions. Emphasis will be placed on instructional methodology, curriculum planning, and educational evaluation in the health profession.

PE 454  
ADVANCED CARE OF THE ATHLETE  
Graduate  
This course is designed to expand the student's knowledge of athletic injuries, incorporating hands-on experience. Topics will include current issues in anatomy and physiology; athletic first aid and emergency situations; standard procedure for diagnosis and treatment; conditioning, prehabilitation and rehabilitation; heat stress injuries; nutrition and eating disorders; taping, wrapping and bracing; and other related topics in sports medicine.

PE 455  
INTERNSHIP IN PHYSICAL EDUCATION  
Graduate  
This internship is designed to enrich student understanding of organizational and administrative principles through practical opportunities working with experienced professionals in the field of Sport and Physical Education.
PE 457
ADVANCED COACHING THEORIES & TECHNIQUES
Graduate
This course is designed to cover a review of basic coaching theories and techniques of various sports and then cover advanced theories and application of these theories. The goal of the course is to expose students to situations that will place the coach in a decision making position and encourage students to examine practical problems that will influence the quality of an athletic program. (Crosslisted with PE 391)

PHL 100
PHILOSOPHY AND ITS ISSUES
Undergraduate
An introduction to basic philosophical concepts, methods, and problems.

PHL 200
ETHICAL THEORIES
Undergraduate
Selected readings to acquaint students with different approaches to ethics.

PHL 202
PHILOSOPHY OF GOD
Undergraduate
An investigation of the ways in which philosophers have talked about, and argued for or against, God.

PHL 204
PHILOSOPHY AND EXISTENTIAL THEMES
Undergraduate
A study of the principal ideas regarding the human condition developed in existential literature: death, absurdity, alienation, freedom, God, authenticity.

PHL 206
TOPICS AND CONTROVERSIES
Undergraduate
A study of selected topics and controversies.

PHL 208
VALUES AND PERSONS
Undergraduate
A study of the connections between different conceptions of selfhood and different ethical, political and aesthetic values.

PHL 229
BIOLOGICAL ETHICS
Undergraduate
Moral and ethical issues arising in contemporary biomedical advances and in health care from the perspective of Philosophy.

PHL 230
CONTEMPORARY TOPICS IN ETHICS
Undergraduate
This course will examine a range of ethical issues of contemporary concern, such as abortion, euthanasia, and capital punishment.

PHL 231
PHILOSOPHY AND THE QUESTION OF RACE
Undergraduate
A philosophical inquiry into such issues as racism, anti-Semitism, genocide.
PHL 232
WHAT IS FREEDOM?
Undergraduate
This course will investigate various conceptions of freedom, and will consider in particular the difference between freedom and "doing or saying whatever you wish."

PHL 233
ISSUES IN SEX AND GENDER
Undergraduate
A philosophical investigation into the nature of sex and gender and the role they play in defining human identity.

PHL 234
PHILOSOPHY AND MODERN SOCIETY
Undergraduate
This course will consider such issues as the relation between society and the state, the connections between work, leisure and poverty, and the social effects of prejudice and resentment.

PHL 235
PHILOSOPHY AND THE ENVIRONMENT
Undergraduate
A philosophical study of our environment, the nature of nature, the ecosystem, and the planet.

PHL 236
PHILOSOPHY AND THE CITY
Undergraduate
This course examines the meaning of the city for philosophy and the meaning of urbanization for the formation of values.

PHL 237
PHILOSOPHY, CONFLICT AND PEACE
Undergraduate
A philosophical reflection upon the causes of war and the possibilities for peace.

PHL 238
PHILOSOPHY AND WOMEN
Undergraduate
An examination of the unique contribution which women have made, and can make, to philosophy and the study of values.

PHL 239
PHILOSOPHIES OF AFRICA
Undergraduate
Philosophies Of Africa

PHL 240
LOVE, HATRED AND RESENTMENT
Undergraduate
A phenomenological inquiry into these three powerful emotional states.

PHL 241
ETHICS AND PUBLIC POLICY
Undergraduate
A study of the ways in which ethics can assist us in thinking about matters of public policy.
PHL 242
PHILOSOPHY AND TECHNOLOGY
Undergraduate
Philosophy And Technology

PHL 243
PHILOSOPHY AND FILM
Undergraduate
A study of philosophical themes that arise in films.

PHL 244
PHILOSOPHICAL THEOLOGY
Undergraduate

PHL 245
REASON AND SOCIETY
Undergraduate
A study not aimed at the production of particular skills but at understanding of the proper role of reason in social institutions and the formation of public opinion.

PHL 246
SURVEY OF BLACK AESTHETIC THOUGHT
Undergraduate
This course examines the history of the aesthetic thought that has emerged from the minds of Black creative intellectuals in the United States and globally. Cross-listed with ABD 234.

PHL 248
BUSINESS ETHICS
Undergraduate
An examination of various ethical and moral issues arising in contemporary business and its activities which affect our society and the world. Cross-listed with MGT 248.

PHL 250
PHILOSOPHY AND SOCIAL CHANGE
Undergraduate
Junior Year Experiential Learning

PHL 261
GENDER AND VALUES
Undergraduate
An investigation of the philosophical and experiential sides of gender and the values implicit in these.

PHL 262
BLACK FEMINIST THEORIES
Undergraduate
A study of the issues raised by black feminist and womanist writers both in the United States and globally.

PHL 263
PHILOSOPHY AND WOMEN OF COLOR
Undergraduate
An examination of the philosophical work of women of color, from a variety of ethnic, national, and global contexts.
PHL 264
PHILOSOPHY AND POSTCOLONIALITY
Undergraduate
An investigation of the central issues in the work that protests the colonial conditions in the United States and globally.

PHL 280
CRITICAL THINKING
Undergraduate
A study of argumentation as it occurs in everyday life, the media, etc.

PHL 281
BASIC LOGIC
Undergraduate
A study of fundamental logical concepts and techniques, methods of argument, and ways of detecting fallacies.

PHL 282
SYMBOLIC LOGIC I
Undergraduate
Symbolic Logic

PHL 283
SYMBOLIC LOGIC II
Undergraduate
A study of the methods and techniques of formulating and evaluating arguments with the help of symbolic notation. PHL 282 is a prerequisite for this course.

PHL 287
INTRODUCTION TO ASIAN PHILOSOPHIES
Undergraduate
An introduction to Asian Philosophy, examining some of the central philosophical issues and movements in Asian thought, such as Hinduism, Buddhism, Confucianism, and Daoism.

PHL 290
PHILOSOPHIES OF GENDER
Undergraduate
A philosophical investigation into the concepts of sex and gender as categories of identity and their relation to philosophical knowledge. PHL 100 or HON 105 is a prerequisite for this course.

PHL 291
MORAL PHILOSOPHY
Undergraduate
A philosophical investigation of ethical issues and theories. PHL 100 or HON 105 is a prerequisite for this course.

PHL 292
PROSEMINAR IN PHILOSOPHICAL WRITING
Undergraduate
Proseminar in philosophical writing. PHL 100 or HON 105 is a prerequisite for this course.
PHL 293
ANCIENT PHILOSOPHY
Undergraduate
A study of selected thinkers and issues from ancient Greece.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 294
MEDIEVAL PHILOSOPHY
Undergraduate
A study of selected thinkers and issues from the Medieval period.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 295
EARLY MODERN PHILOSOPHY
Undergraduate
A study of some of the main philosophers and philosophical movements from the 17th and 18th centuries.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 296
KANT & 19TH CENTURY PHILOSOPHY
Undergraduate
A study of Kant and some of the most influential thinkers of the 19th century. Formerly PHL 313.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 297
20TH CENTURY PHILOSOPHY
Undergraduate
A study of selected thinkers and issues from the 20th century.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 314
SURVEY OF ETHICS
Undergraduate
An intensive study of the broad range of the history of and approaches to ethics.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 315
SURVEY OF POLITICAL PHILOSOPHY
Undergraduate
An intensive study of the broad range of the history of and approaches to political philosophy.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 320
METAPHYSICS
Undergraduate
A critical examination of selected metaphysical systems and issues.

PHL 100 or HON 105 is a prerequisite for this course.
PHL 321
EPISTEMOLOGY
Undergraduate
An investigation of some of the central issues in the philosophy of knowledge, including the nature of knowledge, truth and certainty.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 322
PHILOSOPHY OF LANGUAGE
Undergraduate
An investigation into the nature of language and its significance for philosophical inquiry.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 325
BASIC CONCEPTS OF PHENOMENOLOGY
Undergraduate
This course emphasizes the principal themes of such thinkers as Husserl, Merleau-Ponty and Heidegger.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 327
TOPICS IN ETHICS
Undergraduate
A focused discussion of specific issues in moral and ethical philosophy.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 328
TOPICS IN ECONOMIC, SOCIAL AND POLITICAL PHILOSOPHY
Undergraduate
A focused discussion of specific issues in economic, social and political philosophy.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 330
JUNIOR HONORS OPTION
Undergraduate
Junior Honors Option

PHL 340
PHILOSOPHY OF RELIGION
Undergraduate
A study into the significance of religious phenomena for philosophy.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 341
AESTHETICS
Undergraduate
A study of the relationship of philosophy and the arts, with a critical appraisal of theories of beauty.

PHL 100 or HON 105 is a prerequisite for this course.
PHL 342
PHILOSOPHY OF LAW
Undergraduate
An examination of fundamental legal concepts, and particularly of the concept of law itself.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 343
PHILOSOPHIES OF PUNISHMENT
Undergraduate
An examination of theories of punishment, particularly the two dominant western concepts of retributive and rehabilitative.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 350
PHILOSOPHY AND THE NATURAL SCIENCES
Undergraduate
Philosophy And The Natural Sciences

PHL 353
PHILOSOPHY AND HISTORY
Undergraduate
A study of some of the most significant theories of history. Cross-listed with HST 261.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 354
PHILOSOPHY AND PSYCHOLOGY
Undergraduate
A philosophical inquiry into the nature and history of psychology, psychoanalysis, and psychotherapy.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 355
THEORIES OF INTERPRETATION
Undergraduate
Philosophical hermeneutics and Biblical interpretation. Cross-listed with CTH 336.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 356
TOPICS IN POSTMODERNISM
Undergraduate
A philosophical study of selected themes concerning the condition of, and works about, postmodernity.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 357
TOPICS IN PSYCHOANALYSIS
Undergraduate
Selected philosophical issues in psychoanalysis, for example, from early writers like Janet through contemporary theorists such as Irigaray.

PHL 100 or HON 105 is a prerequisite for this course.
PHL 360
GREEK PHILOSOPHY
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 361
PLATO
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 362
ARISTOTLE
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 363
MEDIEVAL AND RENAISSANCE PHILOSOPHY
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 364
17TH AND 18TH CENTURY RATIONALISM
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 365
17TH AND 18TH CENTURY EMPIRICISM
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 366
DESCARTES
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 367
THE ENLIGHTENMENT
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 368
GERMAN IDEALISM
Undergraduate
German Idealism

PHL 369
KANT
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.
PHL 370
HEGEL
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 371
19TH CENTURY PHILOSOPHY
Undergraduate
19Th Century Philosophy

PHL 372
MARX
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 373
NIETZSCHE
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 375
PHENOMENOLOGY AND EXISTENTIALISM
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 376
AMERICAN PHILOSOPHY
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 377
PHILOSOPHY AND DECONSTRUCTION
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 378
ANALYTIC PHILOSOPHY
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.

PHL 379
EASTERN THOUGHT
Undergraduate
Eastern Thought

PHL 380
SELECTED FIGURES AND TEXTS
Undergraduate
PHL 100 or HON 105 is a prerequisite for this course.
PHL 381  
DRAMATIC THEORY: TRAGEDY  
Undergraduate  
A study of some of the main philosophical theories of tragedy together with readings of some of the most important ancient and modern tragedies. Cross-listed with THE 224.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 382  
DRAMATIC THEORY: COMEDY  
Undergraduate  
A study of some of the main philosophical theories of comedy together with readings of some of the most important ancient and modern comedies. Cross-listed with THE 225.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 383  
PHILOSOPHICAL THEMES IN LITERATURE  
Undergraduate  
An investigation of philosophical topics as they appear in fiction, drama, and poetry.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 384  
FEMINIST ETHICS  
Undergraduate  
A study and critique of various feminist theories of ethics.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 385  
FEMINIST PHILOSOPHIES  
Undergraduate  
A study and critique of issues related to women and of their philosophical presuppositions and consequences.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 386  
PHILOSOPHIES OF AFRICA  
Undergraduate  
A study of patterns of philosophical thinking from the African continent.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 387  
TOPICS IN ASIAN PHILOSOPHY  
Undergraduate  
Focuses on a particular issue, figure, or period in Asian philosophy. Topics will vary according to instructor.

PHL 388  
TOPICS IN COMPARATIVE PHILOSOPHY  
Undergraduate  
Draws on philosophies from different cultures to explore philosophical issues from a comparative perspective. Topics and areas will vary according to instructor.
PHL 389
LATIN AMERICAN PHILOSOPHY
Undergraduate
What does it mean to speak of Latin American philosophy? What is the difference between merely doing philosophy in Latin America and doing Latin American philosophy? These are issues that some thinkers in Latin America grapple with. This course will explore the history and nature of Latin American philosophy. Moreover, we shall examine some of the reasons why, in sharp contrast to the European and Anglo-American philosophical traditions, questions of the very existence of an autochthonous Latin American philosophical tradition are heatedly debated both in Latin America and beyond.

PHL 390
SELECTED TOPICS AND CONTROVERSIES
Undergraduate
SELECTED TOPICS AND CONTROVERSIES

PHL 391
SENIOR CAPSTONE SEMINAR
Undergraduate
A capstone seminar on selected topics in philosophy, that integrates the goals of the liberal studies program.

PHL 392
TOPICS IN FEMINIST PHILOSOPHY
Undergraduate
Selected issues or approaches within feminist work, such as feminist metaphysics, feminist peace theory, particular feminist figures, and the like.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 393
TOPICS IN CRITICAL RACE THEORY
Undergraduate
A study of the intersection of issues from critical race theory and feminist/gender studies.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 394
TOPICS IN POSTCOLONIALISM
Undergraduate
Selected philosophical issues in postcolonial writings, such as notions of identity and place, key figures, representation and film, and the like.

PHL 100 or HON 105 is a prerequisite for this course.

PHL 395
SENIOR THESIS
Undergraduate
An opportunity for intensive independent work, open to philosophy majors of outstanding achievement. By petition only. Contact the department office for further information. Philosophy 395 is not applicable to major field requirements, though it may be used as an open elective. Permission required.

PHL 396
INDIAN PHILOSOPHY
Undergraduate
An investigation into various philosophies as they originated in India, for instance, Hinduism substance metaphysics, Buddhist process metaphysics, Charvakan materialism.

PHL 100 or HON 105 is a prerequisite for this course.
PHL 398
TRAVEL/ STUDY
Undergraduate
By arrangement with sponsoring faculty, foreign and domestic travel or residence programs may be combined with lectures, readings, and research assignments. Variable credit.

PHL 399
INDEPENDENT STUDY
Undergraduate
Independent Study

PHL 100 or HON 105 is a prerequisite for this course.

PHL 400
SPECIAL TOPICS IN TRADITIONAL PHILOSOPHERS
Graduate
Special Topics In Traditional Philosophers

PHL 410
PLATO I
Graduate
A study of Plato's life and early dialogues.

PHL 411
PLATO II
Graduate
A study of the middle and later dialogues.

PHL 415
ARISTOTLE I
Graduate
A study of Aristotle's life and selected topics of his theoretical philosophy: organon, physics, psychology, and metaphysics.

PHL 416
ARISTOTLE II
Graduate
A study of aspects of Aristotle's practical and productive philosophy: ethics, politics, rhetoric, and poetics.

PHL 420
AUGUSTINE
Graduate
A study of Augustine's philosophy through an examination of some of his major writings.

PHL 425
AQUINAS
Graduate
A study of his philosophy, especially its relations to theology, through an examination of selected major works.

PHL 434
HOBBES
Graduate
An examination of Hobbes' role as the father of modern political philosophy: a study of the Leviathan and the Elements of Law.
PHL 435  
DESCARTES  
Graduate  
An examination of Descartes' role as the father of modern philosophy; issues of the Regulae, the Discours, and the Meditations.

PHL 436  
MALEBRANCHE  
Graduate  
Malebranche

PHL 437  
LOCKE  
Graduate  
A study of the major theoretical works.

PHL 438  
LEIBNIZ  
Graduate  
A study of the major philosophical works.

PHL 440  
SPINOZA  
Graduate  
A study of the Ethics and/or the Theologico-Political Treatise.

PHL 441  
ROUSSEAU  
Graduate  
A study of the major theoretical works.

PHL 443  
MEDICAL LEGAL ETHICS  
Graduate  
An examination of contemporary problems in the area of medical legal ethics.

PHL 445  
HUME  
Graduate  
An examination of Hume's place in classical British empiricism; a study of A Treatise of Human Nature.

PHL 451  
EARLY AMERICAN PHILOSOPHY  
Graduate  
None

PHL 452  
CONTEMPORARY AMERICAN PHILOSOPHY  
Graduate  
None

PHL 470
PHILOSOPHY OF WITTGENSTEIN
Graduate
PHL 495
ADVANCED SYMBOLIC LOGIC
Graduate
None

PHL 500
SPECIAL TOPICS IN THE HISTORY OF PHILOSOPHY
Graduate
None

PHL 510
KANT I
Graduate
An introduction to the critical philosophy of Kant by concentrating on the Critique of Pure Reason.

PHL 511
KANT II
Graduate
A study of the Critique of Practical Reason or the Critique of Judgment.

PHL 512
KANT III
Graduate
Kant III: Kant's Political Writings

PHL 513
THEORETICAL FOUNDATIONS OF NORMATIVE ETHICS I
Graduate
A comparative overview of the ethical writings of Aristotle and Aquinas, with emphasis on the natural law tradition.

PHL 514
THEORETICAL FOUNDATIONS OF NORMATIVE ETHICS II
Graduate
A comparative overview of Kant's moral theory and Mill's moral theory.

PHL 515
HEGEL I
Graduate
An Introduction to Hegel: The Phenomenology of Spirit.

PHL 516
HEGEL II
Graduate
Readings in the Science of Logic or the Philosophy of Right.

PHL 517
HOLDERLIN
Graduate
An examination of the major theoretical writings, ca. 1797-1804.
PHL 518
SCHELLING
Graduate
An examination of the treatise on human freedom (1809).

PHL 520
MARX I
Graduate
An introduction to Marx through a study of selected topics and works.

PHL 521
MARX II
Graduate
A study of selected topics and works from both Marx/Engels and their disciples.

PHL 522
SOCIAL AND POLITICAL PHILOSOPHY
Graduate
None

PHL 525
NIETZSCHE
Graduate
An introduction to the philosophy of Nietzsche through Beyond Good and Evil, Thus Spake Zarathustra and selected topics and works.

PHL 527
PHILOSOPHY, ETHICS, AND ECONOMICS
Graduate
An examination of classical and contemporary theories from Smith and Marx to Friedman, Held and others.

PHL 535
HUSSERL I
Graduate
An introduction to Husserl through a study of selected topics and works.

PHL 536
HUSSERL II
Graduate
Selected topics and works.

PHL 540
SCHELER I
Graduate
An introduction to Scheler, with emphasis on the phenomenology of value.

PHL 541
SCHELER II
Graduate
Selected topics and works (Resentment, etc.).
PHL 550  
HEIDEGGER I  
Graduate  
An introduction to Heidegger through study of a major work and one of the Marburg lectures.

PHL 551  
HEIDEGGER II  
Graduate  
Selected topics and questions.

PHL 552  
HEIDEGGER III  
Graduate  
Heidegger III

PHL 557  
TOPICS IN CONTINENTAL PHILOSOPHY  
Graduate  
None

PHL 559  
FOUCAULT  
Graduate  
An introduction to Foucault through a study of selected topics and works.

PHL 560  
THE PHILOSOPHY OF GABRIEL MARCEL  
Graduate  
The Philosophy Of Gabriel Marcel

PHL 561  
LYOTARD  
Graduate  
An introduction to Lyotard through a study of selected topics and works.

PHL 565  
MERLEAU-PONTY I  
Graduate  
A study of The Phenomenology of Perception with consideration given to Merleau-Ponty's place in contemporary philosophy.

PHL 566  
MERLEAU-PONTY II  
Graduate  
A study of the themes of his social philosophy and final ontology.

PHL 570  
SARTRE I  
Graduate  
A study of Being and Nothingness with attention given to Sartre's early phenomenological studies as background and to some of his literary works and criticism, such as Nausea and Saint-Genet.
PHL 571
SARTRE II
Graduate
The social thought of Jean-Paul Sartre. A study of A Critique of Dialectic Reason along with appropriate literary works and more recent political writings.

PHL 575
RESPONSES TO SADE
Graduate
An examination of Sade's writings and responses by such thinkers as de Beauvoir, Lacan, Deleuze, Klossowski, and Blanchot.

PHL 577
DERRIDA I
Graduate
An introduction to Derrida through a study of selected topics and works.

PHL 578
DERRIDA II
Graduate
Selected topics and questions.

PHL 584
RICOEUR NARRATIVE
Graduate
Ricoeur Narrative

PHL 585
RICOEUR
Graduate
A study of Ricoeur's philosophy and phenomenology of the will with stress on its background and its place in contemporary French phenomenology.

PHL 586
METAPHOR AND POETIC LANGUAGE
Graduate
An examination of Ricoeur's work in poetics.

PHL 587
READING LEVINAS I
Graduate
Reading Levinas I

PHL 588
READING LEVINAS II
Graduate
Reading Levinas II

PHL 589
PHILOSOPHY, LITERATURE, COMMUNITY
Graduate
Discussion of such thinkers as Bataille, Derrida, Jabes, and Nancy.
PHL 590  
**TRENDS IN CONTEMPORARY FRENCH PHILOSOPHY**  
*Graduate*  
A look at the increasing importance of structuralism, deconstruction, philosophy of language, and hermeneutics in contemporary French thought.

PHL 591  
**CRITICAL RACE THEORY**  
*Graduate*  
Critical Race Theory.

PHL 600  
**SEMINAR ON AMERICAN THOUGHT**  
*Graduate*  
None

PHL 601  
**SEMINAR ON AESTHETICS**  
*Graduate*  
SEMINAR ON AESTHETICS

PHL 629  
**SEMINAR ON CONTEMPORARY PROBLEMS**  
*Graduate*  
None

PHL 639  
**SEMINAR ON RAWLS, NOZICK, AND THE CONTRACTUAL TRADITION**  
*Graduate*  
A study of the contract model from its roots in Locke and Rousseau to the work of Rawls and Nozick.

PHL 640  
**PROBLEMS IN ETHICS**  
*Graduate*  
A seminar in business ethics that centers on theoretical, practical, and pedagogical issues.

PHL 641  
**SEMINAR ON THE CONTINENTAL TRADITION IN ETHICS**  
*Graduate*  
A comparative discussion of the ethical theories of Scheler, Hartmann, Brentano, Levinas, etc.

PHL 650  
**TOPICS IN RELIGIOUS ETHICS**  
*Graduate*  
A study of religious influences on theoretical and practical ethics. Cross-listed with MLS 442 & GSB 650.

PHL 651  
**TOPICS IN BUSINESS ETHICS**  
*Graduate*  
A seminar in business ethics that centers on theoretical, practical, and pedagogical issues.
PHL 656
SEMINAR ON SOCIAL AND POLITICAL THOUGHT
Graduate
A study of selected writings of key social and political thinkers.

PHL 657
TOPICS IN SOCIAL AND POLITICAL THOUGHT
Graduate
Topics In Social And Political Thought

PHL 660
SEMINAR IN FEMINIST ETHICS
Graduate
Examination of the care perspective as compared to the justice perspective on moral development. Cross-listed as MLS 477 and WMS 410.

PHL 661
TOPICS IN FEMINIST THEORY
Graduate
Includes such themes as feminist ontologies, theories of discourse and writing, science and technology, etc.

PHL 697
GRADUATE TEACHING PRACTICUM
Graduate
Examination of teaching method concepts.

PHL 698
MASTER'S THESIS RESEARCH
Graduate

PHL 699
DISSERTATION RESEARCH
Graduate

PHL 700
INDEPENDENT STUDY
Graduate
None

PHL 701
CANDIDACY CONTINUATION
Graduate
Students admitted to candidacy who have completed all Ph.D. course requirements and who are actively working on their dissertations during the quarter are to register by permission of the graduate director. Students are required to be registered for either PHL 701: Candidacy Continuation or PHL 799: Candidacy Maintenance each quarter of the academic year until the dissertation has been defended and the degree completed. The latter course, PHL 799, is to be used during quarters when the student is not actively doing dissertation work. Non-credit, $40.00 per quarter.

PHL 799
CANDIDACY MAINTENANCE
Graduate
Ph.D. Candidates who are not actively working on their dissertations during a given quarter but who want to maintain active university status can register for this course by permission of the graduate director. Please note that this course does not maintain student status for purposes of student loans. Non-credit, $40.00 per quarter.
PHY 104
THE SUN & ITS PLANETS
Undergraduate
This course focuses on the development of our knowledge about the Solar System with an emphasis on the origin, structure and motion of the planets and the Sun. Topics include both historical astronomy and our current understanding based on information from spacecraft sent to other planets. Cannot receive credit for both PHY 104 and PHY 114. Lab fee.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 110
BASIC ELECTRONICS: PRINCIPLES & TECHNIQUES
Undergraduate
Introduction to analog electronics that develops the basic principles needed to understand consumer electronics. Emphasis is given to audio applications, but the same basic principles are the foundation of modern computer technology. Lab Fee.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 114
EXPLORING OTHER WORLDS
Undergraduate
Activity-based course that compares the local environment of Earth in the Solar System to worlds and environments elsewhere in the Universe. Cannot receive credit for both PHY 104 and PHY 114. Lab fee.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 120
HOW THINGS WORK
Undergraduate
This course will develop an understanding of the physics of everyday objects and experiences such as bouncing balls, roller coasters, balloons, thermostats, violins, microwave ovens and sun glasses. The relevant physics concepts will be introduced through demonstrations and simple experiments.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 150
GENERAL PHYSICS I
Undergraduate
This course provides a comprehensive, non-calculus introduction to physics. Vectors, forces, Newtonia mechanics of translational and rotational motion. This course is intended for life science and health science majors. Laboratory fee.

MAT 131 or above is a prerequisite for this class.

PHY 151
GENERAL PHYSICS II
Undergraduate
Continuation of PHY 150. Topics include heat, thermodynamics, sound and light. Laboratory fee.

PHY 150 or PHY 170 is a prerequisite for this class.

PHY 152
GENERAL PHYSICS III
Undergraduate
Continuation of PHY 151. Topics include electricity, magnetism and modern physics. Laboratory fee.

PHY 151 or PHY 172 is a prerequisite for this class.
PHY 155
GENERAL PHYSICS
Undergraduate
A combination of Physics 150 plus half of 151. Summer only. 6 hours. Laboratory fee.
MAT 131 or above is a prerequisite for this class.

PHY 156
GENERAL PHYSICS
Undergraduate
A combination of the last half of Physics 151 plus 152. Summer only. 6 hours. Laboratory fee.
PHY 155, PHY 151, or PHY 171 is a prerequisite for this course.

PHY 170
UNIVERSITY PHYSICS I
Undergraduate
This course provides a comprehensive, calculus-based introduction to Newtonian mechanics. Topics include vectors, Newton's laws, linear and rotational motion. Course intended for majors in a physical science, required for the physics major. Laboratory fee. Autumn.
COREQUISITE(S): MAT 147 or MAT 160 or MAT 170.
MAT 147 or MAT 160 or MAT 170 is a corequisite for this class.

PHY 171
UNIVERSITY PHYSICS II
Undergraduate
A continuation of PHY 170. Topics include heat, sound and light. Laboratory fee. Winter COREQUISITE(S): MAT 161 or 171 or 148.
PHY 170 is a prerequisite for this course.

PHY 172
UNIVERSITY PHYSICS III
Undergraduate
A continuation of PHY 171. Topics include electricity and magnetism. Laboratory fee. Spring COREQUISITE(S):MAT 162 or 172 or 149.
PHY 171 is a prerequisite for this course.

PHY 190
MATLAB PROGRAMMING FOR SCIENTISTS AND MATHEMATICIANS
Undergraduate
Introduction to the Matlab Programming environment with an emphasis on applications of interest to science and mathematics students. Topics include basic operations, functions and scripts, arguments and scope, and graphics. Applications include curve fitting, visualization of data, root finding, and solving systems of equations.

PHY 200
LIGHT AND ATOMS
Undergraduate
A conceptual treatment of light and matter, which emphasizes the counter-intuitive behavior of atoms, electrons and photons. Topics covered include the electrical nature of matter, wave-particle duality, the uncertainty principle, and philosophical implications. Some applications to technology will also be discussed such as lasers, fiber optic communication, superconductivity, and magnetic storage of data. LAB fee.
LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.
PHY 204
FRONTIERS OF THE UNIVERSE
Undergraduate
Focuses on the tremendous increase in our understanding of the universe beyond the Solar System that has occurred in recent years. Topics include stellar evolution, the properties of stars, supernova explosions, black holes, galaxies, and the origin of the universe.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 205
EINSTEIN'S PECULIAR IDEAS
Undergraduate
A conceptual treatment of Einstein's groundbreaking ideas about space, time, and the nature of reality. Topics covered include special relativity, Einstein's contributions to quantum physics, including his criticisms of its orthodox interpretation, and some aspects of his theory of gravity. Aspects of Einstein's thoughts on social issues will also be briefly discussed.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 206
SOUND AND ACOUSTICS
Undergraduate
Sound waves, their production, transmission and detection; applications to music, acoustics and noise pollution. Lab fee.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 220
THE DYNAMIC OCEAN
Undergraduate
Develops the concepts of physical oceanography. Topics include the chemical and physical properties of seawater, the dynamics of ocean currents and circulations, the physics of water waves and tides, the interaction of the ocean with the atmosphere, the formation of coastlines, and the effects of pollution on the ocean. Cross-listed with GEO 220.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 223
LIGHT, COLOR, AND PHOTOGRAPHY
Undergraduate

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 225
WEATHER AND CLIMATE
Undergraduate
Develops the physical concepts needed to understand the atmosphere, the oceans, and their interactions with the aim of building a conceptual model of weather and climate. Long-term climate variability and climate related environmental issues are also discussed. Cross-listed with GEO 225.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 231
LINEAR ELECTRIC CIRCUITS
Undergraduate
Frequency response and feedback, operational amplifiers as linear amplifiers, active filters, oscillators, communication circuits and data conversion circuits. Lab fee

PHY 110 is a prerequisite for this course.
PHY 232  
**INTRODUCTION TO DIGITAL ELECTRONICS**  
Undergraduate  
Principles of combinational logic circuits. Boolean algebra and Boolean function simplification. State diagrams and sequential logic circuits, and MSI devices. Digital circuit prototyping using SSI components. (lab fee) 

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 236  
**THE SCIENCE OF DIGITAL AUDIO**  
Undergraduate  
Introduction to the physics and mathematics of digital audio, including the conversion of sound energy into electrical signals, the digitization of the signal, conversion of the signal to a standard format, storage of the signal on a hard disk or a CD, and manipulation of the digitized signal. Also includes a discussion of the ethics and legality of downloading digitized audio, in the context of intellectual property rights. This course assumes familiarity with trigonometric mathematical functions. 

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PHY 270  
**UNIVERSITY PHYSICS IV**  
Undergraduate  
An introduction to 20th-century physics. Topics include special relativity, quantum mechanics, and statistical analysis of data. Lab Fee Autumn  

PHY 172 is a prerequisite for this course.

PHY 300  
**METHODS OF COMPUTATIONAL AND THEORETICAL PHYSICS I**  
Undergraduate  
Computational and theoretical methods in ordinary differential equations, complex numbers, systems of equations, phase plane analysis, bifurcations. Applications to damped, driven oscillators, electronics. Lab Fee Winter  
COREQUISITE(S):MAT 261.

PHY 301  
**METHODS OF COMPUTATIONAL AND THEORETICAL PHYSICS II**  
Undergraduate  
Fourier series, Fourier transforms, partial differential equations, Legendre polynomials, special functions. Applications to wave motion, electricity and magnetism, modern physics, optics. Lab fee. Spring  

PHY 300 is a prerequisite for this course.

PHY 310  
**MECHANICS I**  
Undergraduate  
Newtonina motion in a one-, two-, and three-dimensional motion, conservative systems, variational principles, Lagrangian and Hamiltonian mechanics, central-force problems.  

PHY 300 is a prerequisite for this course.

PHY 311  
**MECHANICS II**  
Undergraduate  
Continuation of PHY 310. Topics include systems of particles, collisions and scattering, motion in rotating frames, rigid body motion.  

PHY 310 is a prerequisite for this course.
PHY 315
CHAOS IN PHYSICAL SYSTEMS
Undergraduate
Motion in phase space, characteristics of chaotic systems, Lyapunov exponents, stability of equilibrium solutions, strange attractors, bifurcations, discrete dynamics, and applications to lasers, fluids, and other physical systems.

PHY 300 is a prerequisite for this course.

PHY 320
ELECTRICITY AND MAGNETISM I
Undergraduate
Solutions to electrostatic, magnetostatics, and boundary-value problems. Introduction to Coulomb's law, Gauss's law, Biot-Savart law, and electric and magnetic potentials.

PHY 301 is a prerequisite for this course.

PHY 321
ELECTRICITY AND MAGNETISM II
Undergraduate
A continuation of PHY 320. Topics include Maxwell's equations, time varying fields, electromagnetic waves, and radiation.

PHY 320 is a prerequisite for this course.

PHY 325
LASER PHYSICS
Undergraduate
Interaction of radiation and matter, pumping mechanisms for lasers, optical resonators, cw and transient laser behavior, laser types, current topics in optical physics. Cross-listed as PHY 425

PHY 300 is a prerequisite for this course.

PHY 330
SENIOR CAPSTONE PHYSICAL SCIENCE
Undergraduate
Senior Capstone in the Physical Sciences. Topics in the physical sciences and their social, political, environmental and economic impact.

Student standing of at least junior level is a prerequisite for this course.

PHY 335
NON-EQUILIBRIUM PHYSICS AND SELF-ORGANIZATION
Undergraduate
The spontaneous formation of structure is one of the most interesting phenomenon in nature and arises in fields as diverse as physics, chemistry, biology, management, economics, and sociology. Many self-organizing systems show similarities in the way the structure arises, indicating that there are underlying general principles that govern these systems. This course will investigate these principles. PHY 340 or consent recommended.

PHY 301 is a prerequisite for this course.

PHY 340
THERMAL PHYSICS
Undergraduate
Statistical interpretation of the fundamental concepts of thermodynamics and its physical applications.

PHY 301 is a prerequisite for this course.
PHY 342
**COMPUTATIONAL PHYSICS**
*Undergraduate*
Computational solution and simulation of physical systems; applications chosen from nonlinear dynamics, optics, central-force motion, fluids, condensed matter.

PHY 301 is a prerequisite for this course.

PHY 350
**OPTICS**
*Undergraduate*
Matrix methods for image formation, diffraction, interferometry, coherence, scattering, polarization, holography, Fourier transform spectroscopy. PHY 320 recommended.

PHY 301 is a prerequisite for this course.

PHY 356
**FIBER OPTICS**
*Undergraduate*
Solution of Maxwell's equations for dielectric waveguides, optical communications, nonlinear effects in dielectric waveguides, and current research. PHY 321 recommended. Cross-listed with PHY 456.

PHY 301 is a prerequisite for this course.

PHY 360
**QUANTUM MECHANICS I**
*Undergraduate*
Introduction to quantum mechanics, including the solution of the Schrodinger equation in one and three dimensions for a variety of potentials. Applications to atomic systems and solids.

PHY 301 is a prerequisite for this course.

PHY 361
**QUANTUM MECHANICS II**
*Undergraduate*
Continuation of PHY 360. Applications of quantum mechanics, including time-independent and time-dependent perturbation theory, the variational principle, and an introduction to scattering theory.

PHY 360 is a prerequisite for this course.

PHY 365
**NUCLEAR PHYSICS**
*Undergraduate*
Theoretical and phenomenological approaches to nuclear structure and strong, electromagnetic, and weak interactions of nuclei. Topics of study include the theory of scattering and decay of nuclei, resonances, nuclear models.

PHY 360 is a prerequisite for this course.

PHY 366
**RADIATION PHYSICS**
*Undergraduate*
Radioactive decay processes, interactions of radiation with matter, general properties of radiation detectors, and applications to basic nuclear spectroscopy, health physics and medical physics. Cross-listed w/ PHY 466.

PHY 270 is a prerequisite for this course.
PHY 370
ELECTRONICS
Undergraduate
A laboratory course covering analysis and construction of analog and digital circuits used in experimental research. Lab fee
PHY 301 is a prerequisite for this course.

PHY 375
INTRODUCTION TO COSMOLOGY
Undergraduate
Provides a foundation to the core concepts of cosmology, with an emphasis on developing physical insight. Discusses recent major developments in cosmology, such as the cosmological constant and accelerating universe, and key future developments, including details of the cosmic microwave background and gravitational wave detection. PHY 310 recommended.
PHY 301 is a prerequisite for this course.

PHY 378
TOPICS IN APPLIED PHYSICS
Undergraduate
Current topics in applied physics, as determined by the interests of the instructor and students.
PHY 301 is a prerequisite for this course.

PHY 380
EXPERIMENTAL PHYSICS I
Undergraduate
Experimental techniques in optics, atomic and nuclear physics. Approved for Experiential Learning Credit. Laboratory.
PHY 270 and PHY 301 are a prerequisite for this course.

PHY 381
EXPERIMENTAL PHYSICS II
Undergraduate
Experimental techniques in solid-state and high-vacuum physics. Laboratory.
PHY 380 is a prerequisite for this course.

PHY 382
EXPERIMENTAL PHYSICS III
Undergraduate
Experimental Physics III (laboratory)
PHY 381 is a prerequisite for this course.

PHY 384
ADVANCED LABORATORY
Undergraduate
Variable credit Laboratory experience in techniques selected in consultation with instructor. Lab fee.

PHY 390
APPLIED COMPUTATIONAL PHYSICS LABORATORY
Undergraduate
Project-based computational laboratory of problems in modern applied physics. Numerical modeling of experiments, computer interfacing of experiments, computational techniques in data analysis.
PHY 301 is a prerequisite for this course.
PHY 391
ELECTRONIC PROPERTIES OF MATERIALS
Undergraduate
The free-electron gas model, energy band theory, theory of metals and alloys, transport phenomena, dia-and para-magnetism, ferromagnetism, and antiferromagnetism, superconductivity.

PHY 392
STRUCTURAL PROPERTIES OF MATERIALS
Undergraduate
Periodicity, symmetry and classification of crystal structure, X-ray diffraction, reciprocal lattice, crystal binding, Debye theory of heat capacity, anharmonic interactions, point defects, surfaces.

PHY 395
METHODS OF THEORETICAL PHYSICS
Undergraduate
Special functions, complex integration, calculus of variations, coordinate transformations.

PHY 398
READING AND RESEARCH
Undergraduate
Undergraduate research participation. Variable credit.

PHY 399
INDEPENDENT STUDY
Undergraduate
Independent Study. Variable credit.

PHY 400
CLASSICAL MECHANICS FOR TEACHERS
Graduate
Concepts and materials for teaching mechanics as part of high school physics. Only offered by arrangement.

PHY 401
ELECTRICITY AND MAGNETISM FOR TEACHERS
Graduate
The principles of electricity and magnetism, including electric circuits. This level is appropriate for regular and AP high school Physics teachers. Only offered by arrangement.

PHY 402
ATOMIC AND NUCLEAR PHYSICS FOR TEACHERS
Graduate
This course provides a broad perspective for teachers. It includes atomic, nuclear and some particle physics. Only offered by arrangement.

PHY 403
TOPICS IN PHYSICS TEACHING
Graduate
Selected topics for high school teachers. May be taken more than once. Only offered by arrangement.
PHY 404
OPTICS FOR TEACHERS
Graduate
Geometrical and physical optics from the perspective of high school teaching. Applications to photography and holography. Only offered by arrangement.

PHY 406
VIBRATIONS, WAVES AND SOUND FOR TEACHERS
Graduate
Techniques for teaching high school science including musical acoustics and sound reproduction. Only offered by arrangement.

PHY 410
CHAOS IN PHYSICAL SYSTEMS
Graduate
Motion in phasespace, characteristics of chaotic systems, Lyapunov exponents, stability of equilibria, strange attractors, bifurcations, discrete dynamics, applications to lasers, fluids, and other physical systems.

PHY 411
ELECTRODYNAMICS I
Graduate
Electrostatics and magnetostatics in vacuum and in media; electromagnetic induction; Maxwell's equations; the Poynting vector; electromagnetic wave propagation.

PHY 412
QUANTUM MECHANICS I
Graduate
Schroedinger equation, operators, eigenvalues; series of eigenfunctions; physical interpretation; one- and three-dimensional applications.

PHY 420
ELECTRODYNAMICS II
Graduate
Further studies of electromagnetic wave propagation; scattering; dispersion; bounded structures and guided waves; electromagnetic radiation, including multipole radiations and radiation from systems of radiators.

PHY 425
LASER PHYSICS
Graduate
Interaction of radiation and matter, pumping mechanisms for lasers, optical resonators, cw and transient laser behavior, laser types, current topics in optical physics. Cross-listed with PHY 325.

PHY 435
NON-EQUILIBRIUM PHYSICS AND SELF-ORGANIZATION
Graduate
The spontaneous formation of structure is one of the most interesting phenomenon in nature and arises in fields as diverse as physics, chemistry, biology, management, economics, and sociology. Many self-organizing systems show similarities in the way the structure arises, indicating that there are underlying general principles that govern these systems. This course will investigate these principles. PHY 340 or consent recommended.

PHY 440
CLASSICAL MECHANICS
Graduate
Variational principles; Lagrangian and Hamiltonian mechanics; small oscillations; canonical transformations; Hamilton-Jacobi theory.
Contemporary Topics in physics are examined via numerical solutions. Calculations using an interactive approach and graphical representation are used extensively.

Principles of statistical mechanics; applications to weakly interacting systems such as the classical plasma and Fermi gas; strongly interacting systems; transport theory; fluctuations and irreversible processes, phase transitions.

Applications of equilibrium statistical mechanics to the study of phase transitions and critical phenomena. Topics include the Ising model of magnetism, critical phenomena in fluids, mean field theory, Landau-Ginzburg theory, and the renormalization group.

PHY 340 and PHY 445 are prerequisites for this course.

Fourier Optics and optical processing of information. Topics include diffraction theory, optical transfer functions and holography. The Fourier Transform and Fast Fourier Transform are used extensively.

(Cross-listed as PHY 356) Solution of Maxwell's equations for dialectic wave guides, optical communications, nonlinear effect in dialectic wave guides, and current research.

Review of basic quantum theory; vector spaces; linear operators; observables; commutators; projection operations; representations; angular momentum theory; systems of identical particles; invariance.

PHY 412 is a prerequisite for this course.

Theoretical and phenomenological approaches to nuclear structure and strong, electromagnetic, and weak interactions of nuclei. Topics of study include the theory of scattering and decay of nuclei, resonances, nuclear models.

PHY 360 is a prerequisite for this course.

Interactions of X-rays, nuclear radiations, etc. with matter; radiation detectors; dosimetry; shielding; applications to medical physics. Cross-listed with PHY 366.
PHY 475
INTRODUCTION TO COSMOLOGY
Graduate
Provides a foundation to the core concepts of cosmology, with an emphasis on developing physical insight. Discusses recent major developments in cosmology, such as the cosmological constant and accelerating universe, and key future developments, including details of the cosmic microwave background and gravitational wave detection.

PHY 478
TOPICS IN APPLIED PHYSICS
Graduate
This course number is reserved for individual study at the graduate level. Special seminars organized from time to time to accommodate the needs of groups of students in specialized subjects of topical interest.

PHY 480
THESIS RESEARCH
Graduate
This course number designates research performed to gather thesis material. Up to two registrations are allowed. No less than four quarter hours; no more than eight quarter hours total credit.

PHY 490
STRUCTURAL PROPERTIES OF MATERIALS
Graduate
Periodicity, symmetry and classification of crystal structure; X-ray diffraction; reciprocal lattice; crystal binding. Debye theory of heat capacity; anharmonic interactions; point defects; surfaces.

PHY 360 is a prerequisite for this course.

PHY 491
ELECTRONIC PROPERTIES OF MATERIALS
Graduate
The free-electron gas model; energy band theory; theory of metals and alloys; transport phenomena; dia- and para-magnetism, ferromagnetism, and antiferromagnetism; superconductivity.

PHY 360 is a prerequisite for this course.

PHY 495
METHODS OF THEORETICAL PHYSICS
Graduate
Special functions, complex integration, calculus of variations, coordinate transformations. Cross-listed with PHY 395.

PHY 701
CANDIDACY CONTINUATION
Graduate
Non-credit. Students who are not registered for regular courses will be permitted to register in this course only if they are actively working on their thesis. $40.00 per quarter.

PHY 702
CANDIDACY MAINTENANCE
Graduate
Placeholder course for students not actively working on their thesis. This course is meant only to maintain university student status, it will not give the student full- or part-time student status and will not permit deferment of student loans. Non-credit, fee per quarter.
PM 430  
FUNDAMENTALS OF IT PROJECT MANAGEMENT  
Graduate
This course concentrates on monitoring, managing and controlling assets and resources on a single IT project. Topics covered are risk management; procurement and contract management; time and cost estimating; controlling and tracking techniques; quality assurance; testing and audit. Students will use common project management software for resource allocation and balancing. PREREQUISITE(S): None

PM 440  
COLLABORATIVE TECHNOLOGIES FOR LEADING PROJECTS  
Graduate
Study of the process of virtual teaming with emphasis on facilitation of different time project activities and facilitation of same time meetings. Students will learn how small group psychology and group communication theories inform specific behaviors in the design and leadership of meetings. Several meeting types including information briefing, focus group, document writing, decision making, requirements gathering, and teaching/training will be explored. In addition, the course surveys current collaboration technologies and discusses how to select among those technologies usability and fit to purpose of a meeting agenda. DL students may be required to schedule same time sessions with the instructor and other DL students; see current quarter syllabus for more information on this point. PREREQUISITE(S): None

PM 535  
INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS  
Graduate
This course focuses on the application of financial analysis and decision-making approaches to aid information technology investment decisions at the operational, project, tactical and strategic levels. Students will learn how to apply a variety of financial methods -- break even analysis, present value analysis, profitability index, and return on investment to various IT investment decisions. The course will also address cost benefit analysis, outsourcing, balanced scorecard, and multi-factor scoring, benchmarking, and IT investment portfolio methods. These techniques will prepare students to manage capital budgets, acquisition of system and application software, hardware, personnel, and professional services at project and system levels as well as enterprise investment portfolio. PREREQUISITE(S): IS 425 or SE 477 or IS 565 or ACCT 500 or IS 430 or PM 430 or ECT 455

PM 556  
ENTERPRISE PROJECT MANAGEMENT  
Graduate
This course covers how an enterprise coordinates and effectively manages all its IT projects and programs through program management and the IT program management office. Students will learn the role of the IT program management office in establishing and maintaining the project and program infrastructure and in assisting project managers, program managers, and the executive steering committee. Students will analyze the role of program management in coordinating the delivery of expected program benefits, in managing stakeholder expectations, and in establishing program governance. PREREQUISITE(S): IS 430 or PM 430

PM 570  
ENTERPRISE SYSTEM IMPLEMENTATION  
Graduate
This course is targeted towards information systems professionals who are involved in the planning and implementation of large scale, cross-functional enterprise systems. Students will examine the characteristics of technology efforts that change and transform the way people perform their tasks and how the new technology structures the flows of information and decision making using workflow modeling methods. Through case studies and exercises students gain insights into the elements of successful implementations leading to the preparation of a change management plan. Emphasis is placed on developing mechanisms for communicating and training all affected agents. PREREQUISITE(S): IS 430 or PM 430 or five or more other SoC MS level courses should contact the course instructor or an advisor.

PM 577  
IT PORTFOLIO MANAGEMENT AND STRATEGIES  
Graduate
This capstone course integrates the skills and techniques learned in previous IT Project Management courses. Through in depth analysis of case studies and readings, along with presentations by outside speakers experienced in IT Portfolio Management and IT strategy, students use their skills from previous IT project management courses to solve IT strategic and IT portfolio problems. The course starts with formulating the IT strategy from the corporate strategy. Then the IT Portfolio of initiatives, projects and assets is build and fine tuned. PREREQUISITE(S) IS 556 or PM 556
POL 101
BASIC POLISH I
Undergraduate
Listening to, speaking, reading and writing Polish in a cultural context for the beginning student. (Offered on a demand basis only.)

POL 102
BASIC POLISH II
Undergraduate
Continued emphasis on the four skills in culturally authentic situations. (Offered on a demand basis only.)

POL 103
BASIC POLISH III
Undergraduate
Further work on the basic elements of the Polish language, spoken as well as written, with due regard to the cultural context of Polish expression. (Offered on a demand basis only.)

POL 104
INTERMEDIATE POLISH I
Undergraduate
Intensive practice in the use of Polish through listening, speaking, reading and writing, and continued enhancement of the cultural awareness intrinsic to those skills. (Offered on a demand basis only.)

POL 105
INTERMEDIATE POLISH II
Undergraduate
Continuing practice in spoken and written Polish and further development of reading and listening abilities in an authentic cultural context. (Offered on a demand basis only.)

POL 106
INTERMEDIATE POLISH III
Undergraduate
Developing more fluency in speaking, understanding, reading and writing Polish with a concomitant heightened awareness of the cultural dimensions of the Polish language. (Offered on a demand basis only.)

POL 110
INTERMEDIATE POLISH FOR HERITAGE SPEAKERS I
Undergraduate
Introduction to grammar and written composition for heritage speakers of Polish with little or no formal language training. For students who already speak Polish in their families or communities. (Offered on a demand basis only.)

POL 111
INTERMEDIATE POLISH FOR HERITAGE SPEAKERS II
Undergraduate
Introduction to grammar and written composition for heritage speakers of Polish with little or no formal language training. For students who already speak Polish in their families or communities. (Offered on a demand basis only.)

POL 112
INTERMEDIATE POLISH FOR HERITAGE SPEAKERS III
Undergraduate
Introduction to grammar and written composition for heritage speakers of Polish with little or no formal language training. For students who already speak Polish in their families or communities. (Offered on a demand basis only.)

PPS 200
INTRODUCTION TO PUBLIC POLICY
Undergraduate
This core course is designed to provide the student with an introduction to the field of public policy. The historical origins of policy analysis, definitions of what constitutes "public policy", various theoretical approaches developed to address policy problems, and contemporary policy debates on various substantive issues. By the end of the course each student has a solid background for further study of public policy and the social sciences. This course should be taken as one of the first courses in the major.

PPS 201
PUBLIC POLICY AND URBAN ISSUES
Undergraduate
This core course is designed to introduce students to the study of urban areas, to some of the more exciting and difficult issues faced by cities, and finally, to some of the policies designed to address these issues. Readings assist students in exploring what makes cities function, how they have changed over time and what it was like to live through those changes, can show us how modern ways of seeing and modern ways of making sense came into being. If student is a PPS major, then students are encouraged to take PPS 200 prior to PPS 201.

PPS 202
PUBLIC POLICY AND ENVIRONMENTAL ISSUES
Undergraduate
This core course reviews the environmental public policy issues in the United States. The history of the modern environmental movement and the impact it continues to have on public policy is explored. Students apply concepts of environmental policy and move towards proposing policy solutions. If student is a PPS major, then students are encouraged to take PPS 200.

PPS 205
PUBLIC POLICY RESEARCH METHODS
Undergraduate
This core course provides students an understanding of and some experience with the qualitative and quantitative research methods used in public policy for collecting and identifying relevant data. Policy analysis, policy arguments, and policy making use of data to identify public problems, identify possible policies for public problems, and support arguments for specific policy alternatives. The credibility and quality of policy analyses and arguments depends in large part on the validity and reliability of that information.

PPS 206
QUANTITATIVE PUBLIC POLICY ANALYSIS
Undergraduate
This course focuses on writing of research questions and hypotheses, selection of appropriate quantitative statistical analyses for research questions, interpretation of statistical results, and communication of those results. A significant portion of the course work will involve doing statistical analyses of existing data using Statistical Package for the Social Sciences (SPSS) in the computer lab. Students will prepare a substantial paper using the techniques for public policy analysis learned in class. Students majoring in PPS are strongly encouraged to have completed PPS 205 before taking this course. This core course for PPS majors and minors should be taken before the senior year. Formerly PPS 204.
PPS 250
ISSUES IN NEIGHBORHOOD DEVELOPMENT
Undergraduate
A major focus of urban policy and grassroots action is the condition of city neighborhoods. This course examines trends in urban policy as they have affected neighborhoods, neighborhood-grounded grassroots action, and local neighborhood development initiatives.

PPS 251
URBAN POVERTY
Undergraduate
This course examines the demographics of poverty and its concentration in central cities. In addition, definitions of poverty and public policies aimed at alleviating poverty are explored with the aim of understanding why poverty remains prevalent in the United States.

PPS 252
PUBLIC POLICY IN COMPARATIVE HISTORICAL PERSPECTIVE
Undergraduate
This course examines the origins and evolution of urban public policy in the United States and other countries. Substantive emphases include city planning measures, urban redevelopment, health and environmental measures, as well as various social policies.

PPS 253
THE CINEMATIC CITY
Undergraduate
This course examines the relationship between the city and cinema and explores how the city both real and ideal is represented in film. Covering a diverse selection of films, genres, and historical periods, the course critically explores the relationship between urban forms and cinematic representations.

PPS 254
SCREENING SUBURBIA
Undergraduate
The course explores how suburbia was represented in cinema since the post-war period. Covering diverse selection of films and genre, the course examines how domesticity, family life, gender roles, race, suburbanization, domestic space and architecture have been in cinematic space. Drawing on historical and contemporary sources, the course places suburbia at the center stage and examines the relationship between cinema and suburban ideals and how cinema as a particular mode of representation has sought to address suburbia as a particular American social and cultural landscape.

PPS 255
CITIES, GLOBALIZATION AND PUBLIC POLICY
Undergraduate
The course will examine the process of globalization on cities and its policy implication. In particular, the course will explore how the impact of globalization on cities may be evaluated; what benefits or problems they produce and for whom. It will conclude by looking at how public policy professionals can influence these results.

PPS 300
APPLIED URBAN AND ENVIRONMENTAL ECONOMICS
Undergraduate
The purpose of this core course is to provide students with a foundation in microeconomic analytical tools through which to analyze urban and environmental policy issues. This course is intended to be participatory and applied. A variety of public policy issues are examined in terms of microeconomic theory and application.

PPS 301
PUBLIC POLICY AND THE POLITICAL PROCESS
Undergraduate
Policy decisions almost inevitably involve politics. This core course explores the politics of the urban political machines that dominated politics in many cities for a long time, though some might argue that they actually had few policy interests other than to remain in power. The course examines how power is distributed in cities, and how it is used to get at the various problems confronting cities. That is, how politics affects policy. The course studies the players in the game of policy formation, and the policy process itself. While the focus may be on cities, make no mistake, politics impacts environmental policy decisions and the process of making those decisions as well.
PPS 302
IMPLEMENTATION OF ENVIRONMENTAL AND URBAN POLICY
Undergraduate
This course examines how organizational cultures affect decision making. The course focuses on bureaucratic decision making routines, the implementation of policy, and the factors which advance or constrain effectiveness in urban and environmental settings. The course also explores the utility of various communication strategies and techniques in executing policies.

PPS 303
PUBLIC POLICY AND LEADERSHIP
Undergraduate
This course analyzes modes of leadership within the context of public policy formulation and implementation. The policy-making process in post-industrial democracies will be discussed from bureaucratic, grassroots, and electoral standpoints, emphasizing the challenges for civic and community leadership that emerge from negotiating competing interests in policy outcomes.

PPS 324
PUBLIC POLICY AND NATURAL RESOURCES
Undergraduate
This course considers the present policies underlying the designation and management of national parks, national forests, wetlands, and other public lands and regulating the use, conservation, and preservation of land, mineral, timber, and water resources. Students will discuss the need for and evolution of public policies to regulate mining, fishing, timbering, and the use of water for generating electricity, irrigation, and recreation, as well as the strengths and limitations of these policies.

PPS 329
TOPICS IN ENVIRONMENTAL STUDIES
Undergraduate
This course provides an in-depth examination of various environmental studies issues.

PPS 330
SUSTAINABLE DEVELOPMENT
Undergraduate
Sustainable development has become a crucial concept in international initiatives worldwide. It attempts to foster policies that balance the need for economic development with practices that promote healthy communities and ecosystems. This course is based on the instructor’s theoretical and practical experience gathered in developed and developing countries under market and command economies conditions. Special emphasis is placed on the role of institutions, both governmental and non-government, in shaping economic policies that are compatible with environmental health. The course pursues the objective of preparing students to understand main environmental problems and to generate solutions for these problems from a multidisciplinary perspective.

PPS 331
ENVIRONMENTAL JUSTICE
Undergraduate
The purpose of this course is to provide students with a historical background on environmental justice (EJ) in the US and an understanding of the current EJ movement. Policy debates surrounding EJ are highlighted from recent studies on determining ‘disproportionate impact’ to local EJ communities. In addition, students will experience the challenges of EJ organizations in Chicago through the service-based leaning component of the course. Twenty-five hours of service learning is required for completion of this course.

PPS 332
NATIONAL PARKS POLICY AND GOVERNANCE
Undergraduate
This course focuses on the interrelationship between public policy, human values, and nature as displayed through environmental policy governing our national parks. Special attention is given to the cultural dynamics (including political and legal) that are demonstrated in how public policies have been created and implemented over time in regards to our national parks. The course reviews the policy literature and theories associated with the management of the national parks as it reflects our societal values of the time period. These policies have dramatically changed over time, so it is an ideal venue that demonstrates a significant change in how we view nature. The role of tourism, economic development pressures and property owners (takings) concerns will be included. Also, critical thinking about national parks policy will be required. This is taught as a hybrid course.
PPS 333  
**GREEN CITIES**  
*Undergraduate*  
This course looks at public policies pertaining to urban sustainability. Low-carbon transportation, green building policies, locally produced renewable energy, and storm water management policies are among the topics discussed.

PPS 334  
**SUSTAINABLE LAND REVITALIZATION AND BROWNFIELDS REDEVELOPMENT PROJECT**  
*Undergraduate*  
This course introduces students to environmental public policy issues associated with Brownfields, Superfund sites, and an assortment of state and local land revitalization programs. Substantive emphasis includes examination of social problems and public policy impediments associated with the revitalization of neighborhoods.

PPS 340  
**DYNAMICS OF PUBLIC POLICY**  
*Undergraduate*  
Competing theories of policy formulation and the application of these theories to current policy contexts. Problems of policy implementation will be considered. Cross-listed with PSC 320.

PPS 350  
**CRITICAL ISSUES IN URBAN DEVELOPMENT**  
*Undergraduate*  
The course examines the central issues in contemporary urban development: how urban restructuring, demographic shifts, new patterns of production and consumption, as well as technologically-grounded globalization processes, shape urban development. The course emphasizes the changing context of urban development policy and explores various critical approaches to interpreting urban development policy.

PPS 351  
**THE POLICY AND POLITICS OF URBAN HOUSING**  
*Undergraduate*  
The course looks at housing as a social symbol and material commodity, with particular emphasis placed on the role of government in the direct provision of housing and the indirect support of home ownership, as well as housing policies indirect impact on neighborhood development, race relations, and metropolitan suburbanization.

PPS 352  
**ISSUES IN URBAN EDUCATIONAL POLICY**  
*Undergraduate*  
This course examines the politics, history, and social context of urban education. Special attention is devoted to emerging policy alternatives such as the use of school vouchers and the formation of charter schools.

PPS 359  
**TOPICS IN URBAN STUDIES**  
*Undergraduate*  
This course provides an in-depth examination of various urban studies issues.

PPS 393  
**CAPSTONE: GENTRIFICATION**  
*Undergraduate*  
This course is designed to bring together much of the knowledge attained by Public Policy students during their four years at DePaul by focusing on the often contentious issues of urban gentrification and re-gentrification. Gentrification involves economic issues, political issues, environmental issues, educational issues, race and ethnicity, and equity issues as well. The course shall examine the variables associated with the process of gentrification, the advantages and disadvantages of that process, the winners and the losers in the process, and the political and economic implications of all of this.

PPS 204 and status as a Public Policy Studies major with Senior standing are a prerequisite for this class.
PPS 394
CAPSTONE: GREEN INFRASTRUCTURE
Undergraduate
This course is designed to integrate the two concentrations of the Public Policy major to address sustainable management of essential urban infrastructure systems, including stormwater management, energy production and efficiency, and urban forests. The course shall examine how municipal green infrastructure investment reflects larger social values and encourages students to examine the social forces that impact the efficacy of green infrastructure.

PPS 206 and status as a Public Policy Studies major with Senior standing are a prerequisite for this class.

PPS 397
TRAVEL/STUDY
Undergraduate
Travel/Study

PPS 399
INDEPENDENT STUDY
Undergraduate
Independent Study

PRAD 244
PRINCIPLES OF ADVERTISING
Undergraduate
This course is designed to be a comprehensive introduction to the principles and practices of advertising. The course will cover topics such as ad agency structure, roles in an agency, types of advertising from TV to mobile, advertising's role in marketing, brand strategy, market research, creative development and copywriting, media planning and buying.

PRAD 255
PUBLIC RELATIONS
Undergraduate
The foundational course in the public relations/advertising track traces the development of the public relations industry and practices. Students are introduced to theories and principles in public relations along with the roles and responsibilities of professionals working in the public relations discipline. Students examine industry regulations, societal implications, and strategic planning processes associated with public relations campaign and programs.

PRAD 256
WRITING FOR PUBLIC RELATIONS AND ADVERTISING
Undergraduate
This class provides students the opportunity to apply Public Relations/Advertising theories and principles to the development of media materials. The course familiarizes students with various forms of persuasive writing and requires them to develop a writing portfolio that demonstrates their ability to write for diverse audiences. Assignments include campaign plans, news media kits, speeches, video scripts and more.

PRAD 244 or PRAD 255 is a prerequisite for this class.

PRAD 290
PUBLIC RELATIONS AND ADVERTISING WORKSHOP (VARIABLE TOPICS)
Undergraduate
This course allows students to sample a range of hands on, practical offerings in public relations and advertising that can enhance their knowledge and expertise. Workshop topics can include SEO/SEM, media sales and buying, focus group moderating, and Adobe Creative Suite (InDesign, Photoshop, Illustrator), among others. Students may take a maximum of 4 courses of PRAD 290 in the major, and a total of 8 credit hours.
PRAD 291
RESEARCH METHODS FOR THE PRAD PROFESSIONAL
Undergraduate
Research is critical to any advertising or public relations campaign. This course introduces students to the uses and applications of research in the fields of public relations and advertising. The goal is to provide future practitioners with information needed to commission and apply research to their work problems in the industry. Students will learn to recognize valid and reliable research and to utilize this data in decision making for their agencies or clients. Students will learn to form appropriate questions, select and develop appropriate methods (qualitative and quantitative), and analyze the data for unique consumer insights. Students learn to develop research that ensures messages are able to meet the strategic needs of their clients and agencies.

PRAD 244 or PRAD 255 is a prerequisite for this class.

PRAD 320
EVENT PLANNING
Undergraduate
This course aims to provide students with the occupational, technical and interpersonal skills necessary to "survive and thrive" in the special event industry. In addition to specific content knowledge, students will develop cross-cultural awareness, global understanding and communication skills as they relate to the event industry as a whole. The course will prepare students for a variety of options: pursuit of employment in the special events industry, professional development for those already employed in the field and general knowledge for those interested in the special events field. The purpose of this course is to acquire an in-depth knowledge about the specialized field of event planning, and to become familiar with management techniques and strategies required for successful planning, promotion, implementation and evaluation of special events.

Prerequisite PRAD 244 or PRAD 255

PRAD 333
HUMOR AND ADVERTISING
Undergraduate
Roughly 60% of all ads are classified as "humorous?. This course aims to answer the question of why humor and what makes an effective humorous ad. By examining ads and current campaigns, we will look at the role of humor in advertising, what types of humor are more effective, the right humor for specific brands and situations, and the creative way to use humor. Additionally, students will be challenged to create marketing communication that uses humor to meet specific communication goals.

PRAD 244 or PRAD 255 is a prerequisite for this class.

PRAD 334
ADVERTISING AND PUBLIC RELATIONS ETHICS
Undergraduate
This class explores issues of Public Relations/Advertising from both theoretical and practical perspectives. A focus is on the professional and social responsibilities of Public Relations/Advertising professionals and prevailing norms in public relations, advertising and related disciplines. Students also address issues related to institutional ethical practices. Ethical standards and practices associated with the use of persuasive communication are also addressed.

PRAD 244 or PRAD 255 is a prerequisite for this class.

PRAD 335
ADVERTISING AND SOCIETY
Undergraduate
This course challenges students to think critically about the societal effect of public relations and advertising with regard to their roles in the production and maintenance of consumer culture and the formation of public opinion. Students read widely from a body of social criticism that may diminish democracy and endanger our collective public life. This course asks future practitioners to confront the uses and abuses of public relations and advertising, and to understand the negative social consequences that can result.

PRAD 244 or PRAD 255 is a prerequisite for this class.
PRAD 336
ADVERTISING CAMPAIGNS
Undergraduate
This course is designed to help students develop a thorough understanding of the entire advertising campaign planning process. Working in teams, students will approach a communication problem for a real-world client just as an advertising agency would when working on new business. Students will bring together knowledge from past courses as they gather and analyze primary and secondary data to assess the client's situation then develop a comprehensive campaign plan. This includes the development of a creative message strategy and advertising campaign as well as a strategic media plan.

PRAD 244, PRAD 256, (CMNS 291 or PRAD 291) and Junior Standing are a prerequisite for this class.

PRAD 337
PUBLIC RELATIONS CAMPAIGNS
Undergraduate
This class is designed to expose students to the use of public relations and advertising strategies and techniques in a variety of functions, including community relations, employee relations, government relations, and media relations. Through case studies, students examine contemporary examples of successful public relations programs and campaigns and discover how practitioners function as intermediaries between organizations and their publics.

PRAD 255, PRAD 256 and (CMNS 291 or PRAD 291) are a prerequisite for this class.

PRAD 338
HEALTH AND PUBLIC RELATIONS
Undergraduate
This course will familiarize students with the major issues/problems in the United States health care system. Students will explore current issues in health policy such as the problem of the uninsured, the rising cost of health care, and the politics of health from a public relations point of view. Each student will be responsible for assuming the role of a public relations director for a health organization in the public or private sector.

PRAD 255 or a Health Sciences major is a prerequisite for this class.

PRAD 339
INTEGRATED COMMUNICATION CAMPAIGNS
Undergraduate
This class is designed to expose students to the use and development of public integrated marketing communication strategies and techniques in a variety of product and service categories. Through case studies students examine contemporary examples of successful integrated marketing communication programs and campaigns and through implementation projects discover how integrated marketing communication practitioners function within marketing communication organizations. Only students who have 96 quarter hours or more (in addition to the courses specified) are eligible to register for PRAD 339. Ideally, students will also have taken one or more of the following: PRAD 350, 351 and/or 370 (Account Planning, Copywriting and/or Advertising Media Planning, respectively), as well.

(PRAD 244 or PRAD 255) and PRAD 256 and (CMNS 291 or PRAD 291) is a prerequisite for this class.

PRAD 340
CONSUMER PROMOTION
Undergraduate
This course explores the various ways marketers engage consumers with a specific goal of generating a purchase. This course will cover the basics of promotion, as well as the ways brands activate more image-based marketing tactics such as sports and arts sponsorships, cause marketing, and entertainment marketing. Students will learn how these tools can meet the dual objectives of driving purchase while maintaining a brand's image.

PRAD 244 is a prerequisite for this class.

PRAD 350
ACCOUNT PLANNING
Undergraduate
The account planner represents the voice of the consumer in the advertising process. This course will examine the history of account planning and its relationship within advertising agencies to creative development. Special emphasis will be placed on the qualitative and ethnographic research techniques used by planners, and the role that curiosity and empathy play in understanding different consumer audiences.

PRAD 244 and PRAD 291 is a prerequisite for this class.
PRAD 351
COPYWRITING
Undergraduate
This course examines the various ways and styles of writing effective and persuasive advertising copy. Through in class and outside work, students will have the opportunity to develop a variety of advertising/communication pieces, from television and radio scripts, to print and alternative/new media. Emphasis is placed on defining an overriding strategy, and then translating that strategy into effective pieces of communication.

PRAD 352
DIGITAL ADVERTISING
Undergraduate
This course is designed to provide students with an introduction to the dynamic field of digital advertising. The emergence of new media technologies has dramatically changed the ways and strategies for communicating with and engaging consumers. This course provides conceptual basis of digital advertising that separates digital advertising from traditional advertising. This course helps students understand how the digital advertising industry is evolving with the new media technologies and addresses a wide variety of digital advertising through a practical and theoretical framework. Issues will include social media, user-generated content, online community, mobile advertising, and permission marketing, among others.
PREREQ: PRAD 244

PRAD 357
ADVERTISING PORTFOLIO I
Undergraduate
This advanced-level course is designed to provide students with hands-on knowledge of what it takes to succeed as a copywriter or art director in today's advertising industry. This course really focuses on the process of generating great ideas that translate into strategic and memorable advertising campaigns. Students learn about the importance of a strong selling proposition, about theories of the creative process, and about idea generation techniques. The course places particular emphasis on the finished campaign execution, as students gain practical knowledge in creative advertising. It all culminates in portfolio critique, where industry creatives come in to evaluate students' work.

PRAD 361
ACCOUNT PLANNING AND CONSUMER INSIGHTS FOR LATINO MARKETS
Undergraduate
This course encompasses both the similarities and differences of Latino consumers in the U.S. and explores the differences among the unique Latino cultures, their media habits and the effectiveness of using various promotional tools to affect their consumer behavior. The account planner represents the voice of the consumer in the advertising process. This course will examine the role of account planning and its relationship within advertising agencies to creative development. Special emphasis will be placed on the qualitative and ethnographic research techniques used by planners, and the role that curiosity and empathy play in understanding different Latino consumer audiences to gain insight about these groups' motivations and behaviors.
PRAD 244 or instructor permission is a prerequisite for this course.

PRAD 362
LATINO INTEGRATED MARKETING COMMUNICATION
Undergraduate
Focuses on how to effectively target messages to Latino populations in ways that move beyond stereotypic and simplistic models of Latino audiences. Emphasis on developing culturally relevant integrated campaigns that incorporate appreciation of the diversity of Latino audiences. Students learn creative strategies for dialoguing with Latino consumers, customers, stakeholders, and influencers to develop public relations and advertising messaging in both the commercial and non-profit sector. Distinctive characteristics of the Latino population are considered, along with the rich diversity of these communities. Consideration given to effective use of new media and strategic decisions about communicating in English versus Spanish.
(PRAD 244 or PRAD 255) and PRAD 256 and (CMNS 291 or PRAD 291) is a prerequisite for this class.
PRAD 374
MEDIA RELATIONS
Undergraduate
Developed in collaboration with media relations experts at leading public relations firms, this course will explore how media relations is evolving in the changing landscape of traditional and social media. Topics include understanding the kinds of stories that interest media, building long-term media relationships, identifying the most strategic media targets, developing a variety of story angles, writing attention-getting pitches, preparing spokespeople for effective interviews, and merchandising media results. Considers classic public relations situations through the lens of today’s media environment and real-life case studies including new product launches, brand repositioning, issues management, and consumer engagement.

PRAD 255 is a prerequisite for this class.

PRAD 375
COMMUNICATION LAW
Undergraduate
This course is designed to provide students with an introduction to the portions of U.S. Law that define the scope of First Amendment protection for communication activities. The goal of the course is to help students understand legal issues important to professionals in the media-related fields of advertising, journalism, public relations and other communication specialties. The course helps students understand both their rights to communicate in political and commercial environments and the restrictions permitted on certain communication activities.

PRAD 244 or PRAD 255 is a prerequisite for this class.

PRAD 376
CRISIS COMMUNICATION MANAGEMENT
Undergraduate
This course focuses on crisis communication and management, emphasizing practical application of theories, strategies, and tactics from a public relations perspective. Additionally, there is a focus on issues relevant to planning, development and execution of crisis communications programs for businesses and organizations and strategic public relations techniques for communication with stakeholders during a crisis.

PRAD 255 is a prerequisite for this class.

PRAD 377
MARKETING PUBLIC RELATIONS
Undergraduate
This course explores the strategic use of public relations to attain marketing objectives. Marketing Public Relations (MPR) is an important part of a reputation building or product branding effort for a corporation, and it can also be a valuable strategy for government agencies and non-profit organizations. Lectures and projects will demonstrate ways to use public relations strategically to add value to integrated marketing programs. By the end of the course, teams will prepare and present key aspects of a marketing public relations plan to a client.

PRAD 255 is a prerequisite for this class.

PRAD 378
CREATIVITY IN ADVERTISING
Undergraduate
This course focuses on creative processes critical to advertising planning, program implementation and organizational leadership. Overall, the course is designed to help students think more creatively, no matter what their specific goals may be. Readings include case studies and guides to creative processes in advertising, as well as more personal essays by people working in other creative venues. Class assignments direct students in different ways to strengthen their creative abilities.

PRAD 244 is a prerequisite for this class.

PRAD 379
ADVERTISING MEDIA PLANNING
Undergraduate
This course examines the diverse capabilities of various media available to advertisers and the process by which advertising media plans are constructed to help meet marketing communication objectives for a product or service. The course provides fundamentals on the language, tools, research methods and concepts employed in the media planning process and helps students build media plans using appropriate objectives, strategies and tactics. The course will help students develop a heightened appreciation for the roles of logic, analysis, and insight in the media planning and buying process.

PRAD 244 is a prerequisite for this class.
PRAD 380
POLITICAL COMMUNICATION
Undergraduate
This course examines how various U.S. government agencies, jurisdictions, and politicians communicate with the public and how the public influences the government through communication. Topics covered include: theory, strategies, and tactics behind effective government and political communication; how to critically evaluate government and political communication; and how individuals and groups influence the government and politicians through communication.
PRAD 244 or PRAD 255 is a prerequisite for this class.

PRAD 381
ADVERTISING AND CHILDREN
Undergraduate
This course examines the social and behavioral effects of advertising directed to children, and addresses such topics as what children know and think about advertising, how children respond emotionally to advertising, how advertising can affect behavioral patterns, the changing regulatory environment and related social and psychological issues including materialism and self-esteem. Students will have the opportunity to assess the existing environment and to design creative interventions.
PRAD 244 or PRAD 255 is a prerequisite for this class.

PRAD 382
NON-PROFIT PUBLIC RELATIONS
Undergraduate
This course examines the philosophical and theoretical foundations of public relations and volunteerism. Strategic communication strategies relating to both internal and external publics will be explored including the unique legal and ethical issues that impact non-profit organizations. Students will gain hands-on experience, using a variety of theoretical foundations to guide development of strategic communication materials for local non-profit organizations.
PRAD 255 is a prerequisite for this class.

PRAD 391
SPECIAL TOPICS IN PUBLIC RELATIONS
Undergraduate
This course allows students to sample a range of topical offerings in public relations that have included International Communication and PR, Event Planning, and Study Abroad. In addition to these topics, new topics for this concentration might include Media Relations in Latin America, The Use of Social Media Among Latinos, Marketing PR Strategies for Latino Markets, and other Latino relevant topics.
PRAD 255 is a prerequisite for this class.

PRAD 392
SPECIAL TOPICS IN ADVERTISING
Undergraduate
This course allows students to sample a range of topical offerings in advertising that have included Media Planning, Advertising in the Digital Age, Ad Copywriting, Advanced Advertising Campaigns, Consumer Promotions, and Psychology of Advertising. Topics for this concentration might include: Media Planning for Latino Markets, Ad Copywriting for Latino Markets, The Advertising Industry in Latin America.
PRAD 244 or PRAD 255 is a prerequisite for this class.

PRAD 393
SPECIAL TOPICS IN PUBLIC RELATIONS AND ADVERTISING
Undergraduate
PRAD 244 or PRAD 255 is a prerequisite for this class.

PRAD 396
CAPSTONE IN PUBLIC RELATIONS AND ADVERTISING
Undergraduate
This culminating experience for PRAD majors integrates the knowledge learned during their undergraduate years with a forward-thinking professional curriculum designed to prepare students for the competitive 21st century workplace. The course will cover such essential career-building topics as social media management; creating and leveraging a professional network; understanding effective teamwork strategies; time management and work-life balance skills; and creating a plan and fine-tuning the skills needed to secure a full-time position in the public relations and advertising industries. Only students who have 144 hours or above are eligible to register for capstone.
Senior standing is a prerequisite for this class.
This course examines the ever-increasing influence of public relations and advertising in our society, highlighting issues of power and social responsibility. Students are asked to think critically about the societal effects of public relations and advertising and their roles in the production and maintenance of public opinion. Future practitioners consider the potentially adversarial relationship that exists between public relations and advertising and the media in societies based on a free press.

PRAD 553 or PRAD 555 and status as a Graduate Public Relations and Advertising student are a prerequisite for this class.

The course encompasses both the similarities and differences of Latino consumers in the U.S. and focuses on how to uncover key insights about consumer buying and information processing behavior among a diverse group of Latino cultures. The insight process is commonly used in advertising and marketing but is gaining popularity in public relations and employee communications. Students will learn how to develop their own instincts as an information consumer, as well as learn some key consumer psychology and research methodologies to learn why individuals behave as they do in the marketplace. Students will find and distill secondary research data and then utilize some qualitative research techniques, such as focus groups, ethnographic research, projective techniques, and in-depth interviewing to develop a key insight into a target group. PREQ: PRAD 553

PRAD 553 and status as a Graduate Public Relations and Advertising student are a prerequisite for this class.

Many organizations and businesses are actively pursuing the Latino market. Yet few PR/advertising programs train students to communicate effectively with this growing target audience. This course covers the process of uncovering Latino consumer insights and development of culturally relevant messages. Students gain practice in creating comprehensive strategic campaigns addressing various Latino consumer segments and exploring the effectiveness of using advertising, public relations and events, corporate social responsibility and social media specifically focused on the US Latino consumer.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.

A seminar devoted to the reading and discussion of contemporary academic and popular works dealing with emerging issues in the fields of public relations and advertising. Students gain advanced knowledge of new industry trends and explore issues central to current professional debates.

PRAD 553 or PRAD 555 and status as a Graduate Public Relations and Advertising student are a prerequisite for this class.

The goal of this course is to help students develop the professional writing skills needed for success in public relations. Students analyze the process of strategic public relations planning and explore the communication techniques used to establish positive relationships with organizational constituents. They apply what they have learned by developing and presenting a variety of public relations materials, such as program plans, news releases, magazine/report/newsletter copy, video scripts, web copy and speeches. Upon the successful completion of this course, students will have a professional portfolio of public relations writing samples.

Status as a Graduate Public Relations and Advertising student and PRAD 555 or instructor permission is a prerequisite for this course.
PRAD 530  
PUBLIC RELATIONS AND ADVERTISING MANAGEMENT  
Graduate  
This course focuses on the application of management principles and practices to the effective development of public relations and advertising plans, programs and campaigns. The course examines management practices in organizational and firm settings and considers issues and practices related to planning, budgeting, new business development and account management.

PRAD 530 and PRAD 555 and status as a Graduate Public Relations and Advertising student are prerequisites for this class.

PRAD 535  
PUBLIC RELATIONS IN HEALTH CARE  
Graduate  
This course will help students understand the organizational impact of health policy in America and prepare students to assume roles in communication management positions in the United States health care industry. Students will explore current issues in health policy such as the problem of the uninsured, the rising cost of health care, and the politics of health. Each student will be responsible for focusing on a particular aspect of health policy and developing a report on the topic.

Status as a Graduate Public Relations and Advertising or Health Communication student is a prerequisite for this class.

PRAD 540  
CRISIS COMMUNICATION MANAGEMENT  
Graduate  
This course examines institutional crisis communication from a management perspective. Emphasis is on crisis response strategies and organizational approaches for preventing and managing crisis events. Students develop case studies of contemporary crises and participate in simulations designed to develop professional expertise and practical skills in crisis communication management.

Status as a Graduate Public Relations and Advertising or Health Communication student is a prerequisite for this class.

PRAD 550  
INTEGRATED COMMUNICATION CAMPAIGNS  
Graduate  
This course presents a formal model for the implementation of integrated marketing communication plans across a number of communication functional areas. The course stresses the importance of campaign consistency, expression of unique audience insights, creative leverage, and the establishment of zero-based execution parameters. Case studies are examined as models for understanding elements of successful programs and for the development of team projects.

PRAD 550 or PRAD 555 and status as a Graduate Public Relations and Advertising student or instructor permission are prerequisites for this class.

PRAD 551  
ADVERTISING AND COPYWRITING  
Graduate  
This course will introduce students to the world of the ad copywriter. It will encompass everything from the development of a strategy, to the execution of that strategy in all forms of ad related communication. Students will learn the techniques of good ad writing and create work for Print, TV, Radio, IMC elements, new media, among other forms. PREREQUISITE(S): PRAD 553

PRAD 551 and status as a Graduate Public Relations and Advertising student are prerequisites for this class.

PRAD 553  
ADVERTISING  
Graduate  
This foundational course examines the theories, principles, applications and standards of advertising in multiple contexts, both from the perspectives of the practitioner and the consumer.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.
PRAD 554
CREATIVE PROCESSES
Graduate
The course focuses on creative processes critical in integrated marketing communication. Overall, the course is designed to help participants think more creatively. Readings include research and theoretical studies of creative processes and institutional practices, as well as more personal essays by representative figures from several different creative venues. Cases studies are the basis for fashioning directed creative responses, discussions, in-class activities and final projects.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.

PRAD 555
PUBLIC RELATIONS
Graduate
This course involves the study of the theory, history, practice and future of public relations in a comprehensive way. It is a course designed to allow public relations students to understand the breadth of the field and to investigate specific areas of public relations (i.e., political, medical, financial, government, corporate, education, etc.). It will also cover the operations and objectives PR practice from both the corporate and non-profit sectors.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.

PRAD 556
STRATEGIC PLANNING IN PUBLIC RELATIONS
Graduate
Students will learn how to analyze an organization's initial situation, prior to public relations programs; how to formulate strategies and objectives for proper pre-planning; and how to develop a rich and measurable PR plan. Budgets, tactics and timelines will also be discussed and required as an aspect of the final PR plan project.

PRAD 555 and status as a Graduate Public Relations and Advertising student are prerequisites for this class.

PRAD 557
ADVERTISING COMMUNICATION STRATEGY
Graduate
The course examines the development of advertising communication strategy within the context of an organization's overall marketing objectives. The course emphasizes harmonization of strategies for internal and external audiences and for support of organizational vision. Case studies define the relationship of marketing communication to product and service innovation, pricing and distribution. Particular attention is given to strategies which are imaginative and cost-effective.

PRAD 553 and status as a Graduate Public Relations and Advertising student or instructor permission is a prerequisite for this course.

PRAD 558
CONSUMER PROMOTION
Graduate
This course explores the various ways marketers engage consumers with a specific goal of generating a purchase or an action such as lead generation. This course will cover the basics of promotion, as well as the ways brands activate more image based marketing tactics, such as sports and arts sponsorships, cause marketing, and entertainment marketing. Additionally, students will understand what marketers need to do at retail - the last mile on the purchase process - and the new world of shopper marketing. Students will learn how these tools can meet the dual objectives of driving purchase while maintaining a brand's image.

PRAD 553 or PRAD 555 and status as a Graduate Public Relations and Advertising student or instructor permission are prerequisites for this class.

PRAD 562
MEDIA RELATIONS
Graduate
Explores the communication between reporters and organizational spokespeople. Topics include goals of reporters and spokespeople during the transmission of information, interpretation of the various types of corporate media for reporters, techniques for corporate spokespeople for giving effective interviews. Case studies will be analyzed.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.
PRAD 563  
MEDIA PLANNING  
Graduate  
This is an advertising class that focuses on researching and assessing various media and media markets for possible use in advertising campaigns. Traditional print, broadcast, and out-of-home media are explored as well as digital media options and search engine optimization tools. Concepts of audience coverage, reach, frequency, ratings, share, gross rating points, Web page hits and click-throughs, CPM, and other cost and audience factors will be explored. PREREQUISITE(S): PRAD 553

PRAD 564  
CORPORATE COMMUNICATION  
Graduate  
A global business center, Chicago boasts one of the country's largest concentrations of Fortune 500 companies, employing thousands of communication professionals. This course examines the development, practice, goals and responsibilities of the corporate communication function, and three of its major specialty areas: media relations, employee communications and investor relations. Through readings, discussions, assignments and guest speakers, students will gain practical knowledge of core concepts driving the growth of corporate communication, such as corporate reputation, brand image and brand equity, and corporate social responsibility.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.

PRAD 575  
COMMUNICATION LAW AND ETHICS  
Graduate  
This course covers the aspects of communication law and ethics relevant to communication professionals. Legal topics include First Amendment concepts, libel, privacy, copyright, freedom of information, and regulation of advertising. The ethical component focuses on the professional responsibilities of practitioners in communication fields with special emphasis on public relations and advertising.

PRAD 553 and PRAD 555 and status as a Graduate Public Relations and Advertising student or instructor permission is a prerequisite for this course.

PRAD 585  
RESEARCH METHODS FOR THE COMMUNICATION PROFESSIONAL  
Graduate  
This course covers core issues involved in the collection and analysis of information to be used in decision-making. Topics covered include the retrieval of archival data, survey design, focus group interviewing, sampling techniques, techniques for analyzing data, and campaign evaluation.

PRAD 553 and PRAD 555 and status as a Graduate Public Relations and Advertising student or instructor permission is a prerequisite for this course.

PRAD 586  
ACCOUNT PLANNING  
Graduate  
As media forms converge, and content delivery and commerce blend, the importance of understanding the emotional connections between consumers and brands has assumed a larger role than ever in the marketing process. The account planner represents the voice, and feelings, of the consumer in this process. This course will examine the history of account planning and its relationship within advertising agencies to creative development and brand development. Special emphasis will be placed on the qualitative and ethnographic research techniques used by planners, and the role that curiosity and empathy play in understanding different consumer audiences.

PRAD 590  
PUBLIC RELATION & ADVERTISING WORKSHOP  
Graduate  
This course allows students to sample a range of hands on, practical offerings in communication that can enhance their knowledge and expertise. Topics offered include focus groups, idea generation, and social media insights.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.
PRAD 592
INDEPENDENT STUDY
Graduate

Students will be guided in the development of a special research project that furthers their collaboration with an instructor and produces a report that demonstrates their mastery of critical content and competencies. The independent study option is intended for students who have demonstrated a mastery of course content, who would benefit from a sustained, focused collaboration with a relevant faculty member.

PREREQUISITE(S): Approval from instructor and department chair

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.

PRAD 595
SPECIAL TOPICS IN PUBLIC RELATIONS & ADVERTISING
Graduate

This course examines a broad range of topics related to public relations and advertising processes. The course may address such topics as issues management, consumer behavior, relationship management, strategic planning and program development, or leadership development.

PRAD 553 or PRAD 555 and status as a Graduate Public Relations and Advertising student or instructor permission are prerequisites for this class.

PRAD 599
RESEARCH THESIS
Graduate

Enroll in 599 during the term you plan to defend your thesis or complete your final project. This is a graded, 4-credit hour course. Tuition is charged. You must have a scheduled defense/completion date to be approved for this class. Your thesis/project advisor needs to communicate this date to the Graduate Studies Director for your program, before you are allowed to enroll. Loan deferment is allowed to those registered for this class.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.

PRAD 601
ACTIVE DEGREE COMPLETION
Graduate

This is a 0-credit hour course that is available to students who are working actively toward the completion of a thesis or project. Enrollment in this course is limited to the two quarters prior to the defense of the thesis/project and requires graduate director approval and proof of work each quarter. No tuition is charged, only student fees (approx. $50), which allows you access to the library and other campus facilities. This course is graded as pass/fail. Eligible for loan deferment and student loans.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.

PRAD 602
CANDIDACY CONTINUATION
Graduate

This is a 0-credit hour course that requires permission from the graduate director. Students can enroll in 602 if they are finishing a course in which they received an incomplete (IN). If the student does not register for any regular courses in the quarter they plan to finish the incomplete, they can enroll in 602 and access the library and other campus facilities. No tuition is charged, only student fees (approx. $50). This course is graded as pass/fail. Not eligible for loan deferment or student loans.

Status as a Graduate Public Relations and Advertising student is a prerequisite for this class.

PRF 111
ACTING I
Undergraduate

First course in a 3 course sequence. Intensive work with Spolin-based improvisation in which the issues of creating theatrical reality are addressed through the medium of theater games. The work culminates in the spring of the year with text-based experiences drawn from either contemporary plays and scenes or story theater.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
PRF 112
ACTING I
Undergraduate
Second course in a 3 course sequence. Intensive work with Spolin-based improvisation in which the issues of creating theatrical reality are addressed through the medium of theater games. The work culminates in the spring of the year with text-based experiences drawn from either contemporary plays and scenes or story theater.

PRF 111 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 113
ACTING I
Undergraduate
Third course in a 3 course sequence. Intensive work with Spolin-based improvisation in which the issues of creating theatrical reality are addressed through the medium of theater games. The work culminates in the spring of the year with text-based experiences drawn from either contemporary plays and scenes or story theater.

PRF 112 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 121
MOVEMENT I
Undergraduate
First course in a 3 course sequence. Two quarters of movement based on the technique of yoga as a means for the discovery of body mechanics, physical alignment, self-use, and over-all self awareness. One quarter will continue with the elements explored in yoga but will be more focused on freeing the self through the use of music, movement improvisation, and a variety of coordination skills.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 122
MOVEMENT I
Undergraduate
Second course in a 3 course sequence. Two quarters of movement based on the technique of yoga as a means for the discovery of body mechanics, physical alignment, self-use, and over-all self awareness. One quarter will continue with the elements explored in yoga but will be more focused on freeing the self through the use of music, movement improvisation, and a variety of coordination skills.

PRF 121 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 123
MOVEMENT I
Undergraduate
Third course in a 3 course sequence. Two quarters of movement based on the technique of yoga as a means for the discovery of body mechanics, physical alignment, self-use, and over-all self awareness. One quarter will continue with the elements explored in yoga but will be more focused on freeing the self through the use of music, movement improvisation, and a variety of coordination skills.

PRF 122 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 131
VOICE AND SPEECH I
Undergraduate
Voice & Speech I (4 quarter hours) First course in a 3 course sequence. The focus of the work is on relaxation, alignment, breathing, the development of free resonance flow, and good articulation of vowels and consonants.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 132
VOICE AND SPEECH I
Undergraduate
Second course in a 3 course sequence. The focus of the work is on relaxation, alignment, breathing, the development of free resonance flow, and good articulation of vowels and consonants.

PRF 131 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
PRF 133
VOICE AND SPEECH I
Undergraduate
Third course in a 3 course sequence. The focus of the work is on relaxation, alignment, breathing, the development of free resonance flow, and good articulation of vowels and consonants.

PRF 132 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 211
ACTING II
Undergraduate
First course in a 3 course sequence. Scene study work begins. Students explore the relationship of the self to the role through the use of intention, relationship, environment, and text. A variety of playscripts are drawn from contemporary theatre.

PRF 113 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 212
ACTING II
Undergraduate
Second course in a 3 course sequence. Scene study work begins. Students explore the relationship of the self to the role through the use of intention, relationship, environment, and text. A variety of playscripts are drawn from contemporary theatre.

PRF 211 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 213
ACTING II
Undergraduate
Third course in a 3 course sequence. Scene study work begins. Students explore the relationship of the self to the role through the use of intention, relationship, environment, and text. A variety of playscripts are drawn from contemporary theatre.

PRF 212 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 214
MAKE-UP
Undergraduate
First course in a 3 course sequence. Basic skills of two-dimensional painting as well as basic prosthetic and skin-texturing work are analyzed in this course designed to acquaint the actor with theatrical make-up.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 215
MAKE-UP
Undergraduate
Second course in a 3 course sequence. Basic skills of two-dimensional painting as well as basic prosthetic and skin-texturing work are analyzed in this course designed to acquaint the actor with theatrical make-up.

PRF 214 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 216
MAKE-UP
Undergraduate
Third course in a 3 course sequence. Basic skills of two-dimensional painting as well as basic prosthetic and skin-texturing work are analyzed in this course designed to acquaint the actor with theatrical make-up.

PRF 215 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
PRF 221
MOVEMENT II
Undergraduate
Focus will be on full body awareness through Feldenkrais' (and other) movement lessons and through the study of anatomy. Emphasis will be placed on recognizing limiting patterns of response in the self (including inappropriate tensions) and moving beyond those to increase the physical choices and alternatives available to the student. Work is begun on the dynamics of movement and on embodying a role.

PRF 123 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 222
MOVEMENT II
Undergraduate
Focus will be on full body awareness through Feldenkrais' (and other) movement lessons and through the study of anatomy. Emphasis will be placed on recognizing limiting patterns of response in the self (including inappropriate tensions) and moving beyond those to increase the physical choices and alternatives available to the student. Work is begun on the dynamics of movement and on embodying a role.

PRF 221 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 223
MOVEMENT II
Undergraduate
Actors will continue to develop material from previous movement classes, now placing specific focus on combining imaginative work with skill work to explore the realization of dynamics, rhythm, space and flow of energy. Techniques will be used to aid the actor physicalize inner needs, wants and intentions demanded by various roles.

PRF 222 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 231
VOICE AND SPEECH II
Undergraduate
Actors are introduced to the progression of voice exercised in Kristin Linklater's Freeing the Natural Voice. The focus of the class is on developing techniques that foster the connection between the acting impulse and the voice.

PRF 133 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 232
VOICE AND SPEECH II
Undergraduate
Actors explore the second half of the Linklater voice progression. The focus is on developing each actor's full vocal range. In addition to the voice exercises, students work on a variety of texts chosen to support their growing acquisition of skills.

PRF 231 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 233
VOICE AND SPEECH II
Undergraduate
The focus is on speech. Clarity of articulation and effective use of vowels is developed by learning the International Phonetics Alphabet.

PRF 232 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 261
INTRODUCTION TO PERFORMANCE
Undergraduate
First course in a 3 course sequence. Under the guidance of a director, all second-year acting majors rehearse and perform a play for faculty viewing and evaluation. Students are encouraged to integrate skills acquired in other classes.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
PRF 262
INTRODUCTION TO PERFORMANCE
Undergraduate
Second course in a 3 course sequence. Under the guidance of a director, all second-year acting majors rehearse and perform a play for faculty viewing and evaluation. Students are encouraged to integrate skills acquired in other classes.

PRF 261 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 263
INTRODUCTION TO PERFORMANCE
Undergraduate
Third course in a 3 course sequence. Under the guidance of a director, all second-year acting majors rehearse and perform a play for faculty viewing and evaluation. Students are encouraged to integrate skills acquired in other classes.

PRF 262 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 281
STAGE COMBAT
Undergraduate
Students learn the fundamentals of hand-to-hand combat and weaponry with a focus on developing skills safely and effectively for the stage.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 290
PERFORMANCE WORKSHOP FOR NON-MAJORS
Undergraduate
Students work on basic performance skills through individual and group exercises in acting, voice and speech and movement. Can be taken by non-Theatre School students.

PRF 311
ACTING III
Undergraduate
First course in a 3 course sequence. Classical work begins with Shakespeare and possibly other classical texts. Specific focus is given to scansion and First Folio technique. This study is coordinated with both the movement and the voice and speech classes.

PRF 311 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 312
ACTING III
Undergraduate
Second course in a 3 course sequence. Classical work begins with Shakespeare and possibly other classical texts. Specific focus is given to scansion and First Folio technique. This study is coordinated with both the movement and the voice and speech classes.

PRF 312 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 313
ACTING III
Undergraduate
Third course in a 3 course sequence. Classical work begins with Shakespeare and possibly other classical texts. Specific focus is given to scansion and First Folio technique. This study is coordinated with both the movement and the voice and speech classes.

PRF 312 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 314
ACTING LABORATORY
Undergraduate
First course in a 3 course sequence.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

Actors will continue to further the work in period dances and manners with an emphasis on the student taking greater control of this research and its implementation into acting. Imaginative use of self is channeled through character mask work which is then applied to Shakespearean scenes. Full body awareness through movement lessons is continued.

PRF 322 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 331
VOICE AND SPEECH III
Undergraduate
Breath work, vocal sounding, and physical alignment are focused on the poetry of Walt Whitman.

PRF 233 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 332
VOICE AND SPEECH III
Undergraduate
An introduction to dialect study includes an exploration of the actor's own idiolect and the acquisition of several dialects, including American Southern, Irish, and varieties of British.

PRF 331 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 333
VOICE AND SPEECH III
Undergraduate
Speech work centers on verse speaking and character transformation through vigorous exploration of dramatic texts. Playwrights may include Moliere, Shaw and Howard Barker.

PRF 332 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 361
REHEARSAL AND PERFORMANCE I
Undergraduate
First course in a 3 course sequence. Advanced acting and directing students are continually involved in rehearsal and/or performance of plays in showcase, playworks, or workshop productions. These students constitute the acting company for the school.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 362
REHEARSAL AND PERFORMANCE I
Undergraduate
Second course in a 3 course sequence. Advanced acting and directing students are continually involved in rehearsal and/or performance of plays in showcase, playworks, or workshop productions. These students constitute the acting company for the school.

PRF 361 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 363
REHEARSAL AND PERFORMANCE I
Undergraduate
Third course in a 3 course sequence. Advanced acting and directing students are continually involved in rehearsal and/or performance of plays in showcase, playworks, or workshop productions. These students constitute the acting company for the school.

PRF 362 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
PRF 374
DIRECTING
Undergraduate
First course in a 3 course sequence. An introductory class in which the student is exposed to a wide range of topics related to the craft of the director. These range from pre-production preparation, to the theatre space and composition/picturization considerations, to the actor/director relationship. Teaching methods include lecture, discussion, and in-class projects.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 375
DIRECTING
Undergraduate
Second course in a 3 course sequence. An introductory class in which the student is exposed to a wide range of topics related to the craft of the director. These range from pre-production preparation, to the theatre space and composition/picturization considerations, to the actor/director relationship. Teaching methods include lecture, discussion, and in-class projects.

PRF 374 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 376
DIRECTING
Undergraduate
Third course in a 3 course sequence. An introductory class in which the student is exposed to a wide range of topics related to the craft of the director. These range from pre-production preparation, to the theatre space and composition/picturization considerations, to the actor/director relationship. Teaching methods include lecture, discussion, and in-class projects.

PRF 375 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 380
ADVANCED PERFORMANCE WORKSHOP FOR NON-MAJORS
Undergraduate
This course is a continuation of PRF 290 and will allow students who have completed the introductory course further exploration in performance by applying basic acting skills to the presentation of short plays and scenes from modern dramatic literature.

PRF 290 is a prerequisite for this class.

PRF 381
ADVANCED STAGE COMBAT
Undergraduate
In this course students will continue their study of unarmed and rapier-&-dagger techniques, as well as adding a third weapon discipline as taught by The Society of American Fight Directors (past options have included knife, broadsword, quarterstaff, small sword) for use in stage and film performance. The students will perform choreography in all three disciplines, in scenes which they themselves select but which are choreographed by the instructor. The students are then given the opportunity to take the SAFD's Skills Proficiency Test for all three weapons, with an outside adjudicator, in the hope of reaching "Actor Combatant" status within the SAFD.

PRF 281 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 390
IMPROVISATION
Undergraduate
This workshop for graduating performance students is designed to renew the student's relationship with the foundation of the training program: Spolin-based improvisational work. There is a particular emphasis on the use of the games as a stimulus for spontaneity, strong playing relationships and trouble shooting within the rehearsal process.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
PRF 399  
**INDEPENDENT STUDY: PERFORMANCE**  
Undergraduate  
Independent Study  

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

---

PRF 411  
**ACTING IV**  
Undergraduate  

First course in a 3 course sequence. Utilizing an ensemble approach, this class helps prepare the student for the rigors of the professional world by integrating the skills learned in previous years training through the use of exercises, improvisations, reading and discussions, and a variety of performance projects including scenes and monologues.

PRF 313 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

---

PRF 412  
**ACTING IV**  
Undergraduate  

Second course in a 3 course sequence. Utilizing an ensemble approach, this class helps prepare the student for the rigors of the professional world by integrating the skills learned in previous years training through the use of exercises, improvisations, reading and discussions, and a variety of performance projects including scenes and monologues.

PRF 411 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

---

PRF 413  
**ACTING IV**  
Undergraduate  

Third course in a 3 course sequence. Utilizing an ensemble approach, this class helps prepare the student for the rigors of the professional world by integrating the skills learned in previous years training through the use of exercises, improvisations, reading and discussions, and a variety of performance projects including scenes and monologues.

PRF 412 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

---

PRF 414  
**AUDITION**  
Undergraduate  

Students experience handling the range of possible audition situations. Topics include selecting and preparing materials, building a repertoire, and sight reading. Guest professionals lecture on practical survival techniques from job hunting to union membership. The work of the class culminates in The Graduate Showcase, when students audition for an audience of invited agents, casting directors, and directors.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

---

PRF 415  
**AUDITION**  
Undergraduate  

Students experience handling the range of possible audition situations. Topics include selecting and preparing materials, building a repertoire, and sight reading. Guest professionals lecture on practical survival techniques from job hunting to union membership. The work of the class culminates in The Graduate Showcase, when students audition for an audience of invited agents, casting directors, and directors.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

---

PRF 416  
**GRADUATE SHOWCASE**  
Undergraduate  

Through the rehearsal process, undergraduate acting majors prepare monologues and scenes, culminating ultimately in a showcase for an invited audience of casting directors, agents, and directors.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
PRF 417
NEW PLAY WORKSHOP
Undergraduate
A specialized workshop which brings together MFA 1 actors, MFA 3 Directors, and BFA 3 & 4 playwrights to explore the collaborative process of developing and staging new plays.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 418
NEW PLAY WORKSHOP
Undergraduate
A specialized workshop which brings together MFA 1 actors, MFA 3 Directors, and BFA 3 & 4 playwrights to explore the collaborative process of developing and staging new plays.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 419
NEW PLAY WORKSHOP
Undergraduate
A specialized workshop which brings together MFA 1 actors, MFA 3 Directors, and BFA 3 & 4 playwrights to explore the collaborative process of developing and staging new plays.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 420
ACTING FOR THE CAMERA
Undergraduate
"Film acting" prepares the student for the professional world in front of the camera(s). The student learns the different techniques between stage and film, between soaps, sitcoms, commercials, and features. The student is also exposed to life on the set, contracts, agents, managers and steps to finding work. This class is a bridge for the student from the classroom to the professional world.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 421
MOVEMENT IV
Undergraduate
The technique of movement to music will be used to: Stimulate the actor's imagination, experiment with the identification, translation, and articulation of creative impulses, intensify ensemble work, expand the range of expression, and strengthen and condition the body.

PRF 323 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 422
MOVEMENT IV
Undergraduate
The technique of Movement to Music will be used to: Stimulate the actor's imagination, experiment with the identification, translation, and articulation of creative impulses, intensify ensemble work, expand the range of expression, and strengthen and condition the body.

PRF 421 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 423
MOVEMENT IV
Undergraduate
This quarter the student will explore African dance, including West African dance styles, songs and rhythms, different ethnic groups from which the dances and songs originated, and the relationship between various West Africa tribal rhythms and movements.

PRF 421 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
PRF 431  
**VOICE AND SPEECH IV**  
Undergraduate  
Continued development of skills designed to assist the student with a comfortable transition to the professional world through an approach to singing.  
PRF 333 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 432  
**VOICE AND SPEECH IV**  
Undergraduate  
Continued development of skills designed to assist the student with a comfortable transition to the professional world through and approach to singing.  
PRF 431 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 433  
**VOICE AND SPEECH IV**  
Undergraduate  
The course is designed to continue the development of professional skills through the study of voiceover.  
PRF 432 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 434  
**ADVANCED SCENE STUDY**  
Undergraduate  
A scene study and monologue class taught by a resident or visiting professional actor or director. Scenes and monologues are drawn from a variety of performance styles. The class is intended to help the student navigate the gap between training and the professional acting world.  
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 435  
**ADVANCED SCENE STUDY**  
Undergraduate  
A scene study and monologue class taught by a resident or visiting professional actor or director. Scenes and monologues are drawn from a variety of performance styles. The class is intended to help the student navigate the gap between training and the professional acting world.  
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 436  
**ADVANCED SCENE STUDY**  
Undergraduate  
A scene study and monologue class taught by a resident or visiting professional actor or director. Scenes and monologues are drawn from a variety of performance styles. The class is intended to help the student navigate the gap between training and the professional acting world.  
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

PRF 461  
**REHEARSAL AND PERFORMANCE II**  
Undergraduate  
Advanced acting and directing students are continually involved in rehearsal or performance of plays in Showcase, Playworks, or workshop productions. These students constitute the acting company for the school.  
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
Advanced acting and directing students are continually involved in rehearsal or performance of plays in Showcase, Playworks, or workshop productions. These students constitute the acting company for the school.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

Advanced acting and directing students are continually involved in rehearsal or performance of plays in Showcase, Playworks, or workshop productions. These students constitute the acting company for the school.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

According to the expertise of faculty and the needs and interests of advanced students, this course deals variously with selected topics in stage directing, including the history and development of stage directing as an independent art form, directing theory, and directing methodology.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

Beginning with a series of exercises and improvisations, the class introduces the acting student to the basic components of the acting process. Scene work forms the backbone of this class.

Status as Graduate Theatre student is a prerequisite for this class.

Status as Graduate Theatre student is a prerequisite for this class.

Movement based on the technique of yoga as a means for the discovery of body mechanics, physical alignment, self-use and overall self-awareness. This class will also meet two extra hours with a different instructor to concentrate on the imaginative use of self, to explore physical improvisation and to explore movement techniques that will aid the student to use themselves more freely and expand their range of expression.

Status as Graduate Theatre student is a prerequisite for this class.
Movement based on the technique of yoga as a means for the discovery of body mechanics, physical alignment, self-use and over-all self-awareness. This class will also meet two extra hours with a different instructor to concentrated on the imaginative use of self, to explore physical improvisation and to explore movement techniques that will aid the student to use themselves more freely and expand their range of expression.

PRF 521 and status as a Graduate Theatre student is a prerequisite for this class.

Work focuses on full body awareness through Feldenkrais (R) movement lessons and through the study of anatomy. The emphasis will be placed on deepening the actor's kinesthetic awareness and on developing a more articulate physical instrument, understanding the restrictions of habit, exploring dynamics and increasing the ability to make dynamic choices.

PRF 522 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 524

An experiential and demonstration course in better self-use and physical organization. Approaches include Feldenkrais, "Awareness Through Movement" lessons and the study of anatomy.

Status as Graduate Theatre student is a prerequisite for this class.

This course is designed to open awareness regarding the placement of vocal resonance and the shaping of vowels and consonants.

Status as Graduate Theatre student is a prerequisite for this class.

Foundation work consists of breathwork, skeletal alignment, and the development of free voice flow. Classes include a regime of intensive group exercises, and attention is paid to the expansion of each actor's individual expressiveness. The fundamental work is inspired by the Feldenkrais(r) and the Lessac System and is further influenced by the writings of Cicely Berry and Patsy Rodenburg.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 533
GRADUATE VOICE AND SPEECH I
Graduate
Actors will continue to explore fundamental skills acquired during Fall and Winter Quarters. The actors learn the first half of the progression of exercises in Kristin Linklater's Freeing the Natural Voice. The focus is on connecting acting impulses to the voice.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 540
GRAD SPEECH I: ADVANCED NOTATION
Graduate
Objectives are to extend the use of phonetic symbols to describe the speech of self and others, to explore an ever-widening range and flexibility of choice in pronunciation, to develop a more acute "ear" for the music of vowels and consonants and to apply the work to texts.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 551
MFA I IMPROVISATION
Graduate
Intensive work in Spolin-based improvisation in which the issues of creating theatrical reality are addressed through the medium of theatre games.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 552
MFA I MEISNER
Graduate
Sanford Meisner said, "Acting is the ability to live truthfully under imaginary circumstances." In this first of a two quarter sequence, actors will participate in a sequence of structured improvisational exercises focused on the first half of that sentence: living truthfully. The foundational exercise is called Repetition. Using Repetition as a base, students will explore exercises specifically designed to improve their listening and answering skills and increase their ability to respond to their partner moment to moment.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 553
MFA I MEISNER
Graduate
Building on the work of the winter quarter, students will use their enhanced partner attention skills in order to focus on the second half of Meisner's definition of acting: "living truthfully under imaginary circumstances." Each exercise in the progression is designed to expand the actor's ability to imagine and personalize circumstances that are meaningful to them. We will also explore what the student needs to do to be ready for the first moment of a scene or play: Emotional Preparation. Finally, actors will learn how to carry over what they have learned into a scripted scene.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 561
REHEARSAL AND PERFORMANCE I
Graduate
Graduate acting and direction students are continually involved in rehearsal and performance of plays in the Showcase, the Playworks series and workshop productions. Acting students constitute the casting pool for the school.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 562
REHEARSAL AND PERFORMANCE II
Graduate
Graduate acting and direction students are continually involved in rehearsal and performance of plays in the Showcase, the Playworks series and workshop productions. Acting students constitute the casting pool for the school.

Status as Graduate Theatre student is a prerequisite for this class.
PRF 563
REHEARSAL AND PERFORMANCE I
Graduate
Graduate acting and direction students are continually involved in rehearsal and performance of plays in the Showcase, the Playworks series and workshop productions. Acting students constitute the casting pool for the school.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 571
MFA WORKSHOP I: ACTOR AS ENTREPRENEUR
Graduate
MFA Workshop I (2) is a flexible laboratory time period designed to accommodate a number of possibilities of workshops, lectures, and demonstrations with guest artists mainly from the Chicago theatre community and beyond. MFA Workshop also accommodates a number of projects generated by the MFA Acting students themselves. As MFA Workshop is a process class, projects and workshops may or may not result in a showing. (Some activities in the class will combine MFA I and MFA II students and some will be specific to each class.)

Status as Graduate Theatre student is a prerequisite for this class.

PRF 572
MFA WORKSHOP I: ACTOR AS ENTREPRENEUR
Graduate

PRF 580
STAGE COMBAT
Graduate
One quarter hour. Students learn the fundamental of hand-to hand combat and weaponry with a focus on developing skills safely and effectively for the stage.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 581
DIRECTING I
Graduate
This course covers the basics of the directing process with an emphasis on textual analysis. Lecture discussion and performance projects are utilized to develop a common understanding and vocabulary useable in the wide variety of theatrical situations the contemporary director is likely to confront. The final project of the class is the direction of a short play.

Status as Graduate Theatre student is a prerequisite for this class.
PRF 582
DIRECTING I
Graduate
This course covers the basics of the directing process with an emphasis on textual analysis. Lecture discussion and performance projects are utilized to develop a common understanding and vocabulary usable in the wide variety of theatrical situations the contemporary director is likely to confront. The final project of the class is the direction of a short play.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 583
DIRECTING I
Graduate
This course covers the basics of the directing process with an emphasis on textual analysis. Lecture discussion and performance projects are utilized to develop a common understanding and vocabulary usable in the wide variety of theatrical situations the contemporary director is likely to confront. The final project of the class is the direction of a short play.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 590
IMPROVISATION
Graduate
This workshop for graduating and performance students is designed to renew the student's relationship with the foundation of the training program: Spolin-based improvisational work. There is a particular emphasis on the use of games as a stimulus for spontaneity, strong playing relationships and trouble shooting within the rehearsal process.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 591
DIRECTING THEORIES
Graduate
This course is designed to introduce students to the history of stage directing as an independent art form and to the key directorial thinkers of Western theatre. Through both lecture and practice, students learn the theories and techniques of such innovators as Stanislavski, Meyerhold, Craig Artaud, Brecht, Clurman, Grotowski, Brook, LeCompte, and Bogart.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 592
DIRECTING THEORIES
Graduate
This course is designed to introduce students to the history of stage directing as an independent art form and to the key directorial thinkers of Western theatre. Through both lecture and practice, students learn the theories and techniques of such innovators as Stanislavski, Meyerhold, Craig Artaud, Brecht, Clurman, Grotowski, Brook, LeCompte, and Bogart.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 599
INDEPENDENT STUDY
Graduate
Independent Study

Status as Graduate Theatre student is a prerequisite for this class.
The goal of this year-long course in Heightened Text/Classical Acting is to join the emotional, physical and imaginative life of a role with the technical skills needed to express that character to its fullest. This is achieved through rigorous foundation work and applying the basic tenets of acting to the acting of plays in verse; making strong choices that are grounded in the text, establishing a connection to the scene partner, listening and responding to what is happening in the scene, and integrating the work done in other voice, speech and movement classes.

PRF 513 and status as a Graduate Theatre student is a prerequisite for this class.

In winter quarter, students work with dramatic monologues, explore and study Shakespeare's prose and scenes from the Jacobean playwrights John Webster, John Ford and Thomas Middleton. Though prose lacks meter, it has its own rhythm, in part defined by punctuation and rhetorical shape. Finding that rhythm of thought is essential to the clarity and life of the prose. With prose, as with meter, rhetoric, and imagery, we approach the work through both brain and body: balancing analytical and physical techniques for understanding and harnessing the dynamics of Shakespeare's language.

PRF 611 and status as a Graduate Theatre student is a prerequisite for this class.

The spring quarter will focus on comedies by Shakespeare, Moliere, Sheridan, Wilde and Coward. Students will call upon all of the truth-seeking, risk-taking and relish-making that comedy and heightened language requires. Only farce and commedia are larger. The resulting agility with text provides a firm foundation for confident performance of all classical and modern roles. Exploration of Shakespeare's comedies will include collaboration with M.F.A. Directors with scenes to be presented as an invited-audience showing.

PRF 612 and status as a Graduate Theatre student is a prerequisite for this class.

This year-long class focuses on how the director helps the actor. Through both participation and observation in this undergraduate scene study class taught by a senior member of the acting faculty, the directing student acquires the skills and strategies necessary in helping the actor personalize and embody the text.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 613 and status as a Graduate Theatre student is a prerequisite for this class.

This year-long class focuses on how the director helps the actor. Through both participation and observation in this undergraduate scene study class taught by a senior member of the acting faculty, the directing student acquires the skills and strategies necessary in helping the actor personalize and embody the text.

Status as Graduate Theatre student is a prerequisite for this class.

This year-long class focuses on how the director helps the actor. Status as Graduate Theatre student is a prerequisite for this class.
This is a two-quarter classic play scene study class. MFA directors will learn a variety of techniques in staging, text analysis, and working with actors. Directors will work with a variety of modern writers including Chekov, Ibsen, Miller, and O'Neill. They will also investigate working with heightened text including Moliere, Shakespeare, and the Greeks.

PRF 583 and status as a Graduate Theatre student is a prerequisite for this class.

This course is offered every other year and explores the director's role in the development of new plays. MFA Directors work with professional playwrights on new work. Directors are introduced to the many ways they may be charged with presenting new work, including table readings, staged readings, workshops, designed workshops and world premieres. Over the course of the quarter, directors rehearse and present one sit-down reading and one staged reading. Additionally, students rehearse and present a staged reading in a professional situation.

Status as Graduate Theatre student is a prerequisite for this class.

Movement work focused on the exploration of effort/shape and how to function within the boundaries of form. Period dances, manners, and clothing will be explored and the creation of specific worlds (styles) will be emphasized.

PRF 523 and status as a Graduate Theatre student is a prerequisite for this class.

Movement work designed to further the work in period dances, manners, and the creation of specific worlds (styles) with an emphasis on the student taking greater control of this research and its implementation into actin. Full Body awareness through movement lessons is continued. Imaginative use of self is also channeled through character mask work.

PRF 622 and status as a Graduate Theatre student is a prerequisite for this class.
PRF 631
GRADUATE VOICE AND SPEECH II
Graduate
Intensive, individualized work on the development of the full range of the actor's voice. The second half of the Linklater progression is explored in depth. Texts are chosen that place greater demands on the actor's growing emotional and vocal capabilities.

PRF 533 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 632
GRADUATE VOICE AND SPEECH II
Graduate
Intensive, individualized work on the development of the full range of the actor's voice. The second half of the Linklater progression is explored in depth. Texts are chosen that place greater demands on the actor's growing emotional and vocal capabilities.

PRF 631 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 633
GRADUATE VOICE AND SPEECH II
Graduate
Intensive, individualized work on the development of the full range of the actor's voice. The second half of the Linklater progression is explored in depth. Texts are chosen that place greater demands on the actor's growing emotional and vocal capabilities.

PRF 632 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 641
GRADUATE ACTING II: MYTH, FABLE, & FOLKLORE IN DRAMA
Graduate
This course explores the world of archetype, performance and magic in drama across boundaries of time and tradition. Inspired by folktales, myths, oral poetry and rituals from many traditions, the students develop original and play-based theatrical work both solo and ensemble. Resources include the traditional stories of African, Asian, South American, European and American literature, as well as plays from modernity that explore a mythic or folkloric basis.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 642
GRADUATE ACTING II: TRAGIC FOCUS FROM 1700 TO 1950
Graduate
This course explores a broad swath of tragic-focused dramatic material from Restoration through 1950. The students select scenes from plays that follow tragic shape and perform them in scene study form.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 643
GRADUATE ACTING II: COMIC FOCUS FROM 1700 TO 1950
Graduate
This course explores a broad swath of comic-focused dramatic material from Restoration through 1950. The students select scenes from plays that follow comic shape and perform them in scene study form.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 661
REHEARSAL AND PERFORMANCE II
Graduate
Graduate acting and directing students are continually involved in rehearsal and performance of plays in the showcase, the Playworks series, and workshop productions. Acting students constitute the casting pool for the school.

Status as Graduate Theatre student is a prerequisite for this class.
Graduate acting and directing students are continually involved in rehearsal and performance of plays in the showcase, the Playworks series, and workshop productions. Acting students constitute the casting pool for the school.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 663
REHEARSAL AND PERFORMANCE II
Graduate

Graduate acting and directing students are continually involved in rehearsal and performance of plays in the showcase, the Playworks series, and workshop productions. Acting students constitute the casting pool for the school.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 671
MFA WORKSHOP II: ACTOR AS ENTREPRENEUR
Graduate

MFA Workshop is a flexible laboratory time period designed to accommodate a number of possibilities of workshops, lectures, and demonstrations with guest artists mainly from the Chicago theatre community and beyond. MFA Workshop also accommodates a number of projects generated by the MFA Acting students themselves. As MFA Workshop is a process class, projects and workshops may or may not result in a showing. (Some activities in the class will combine MFA I and MFA II students and some will be specific to each class.)

Status as Graduate Theatre student is a prerequisite for this class.

PRF 672
MFA WORKSHOP II: ACTOR AS ENTREPRENEUR
Graduate

MFA Workshop is a flexible laboratory time period designed to accommodate a number of possibilities of workshops, lectures, and demonstrations with guest artists mainly from the Chicago theatre community and beyond. MFA Workshop also accommodates a number of projects generated by the MFA Acting students themselves. As MFA Workshop is a process class, projects and workshops may or may not result in a showing. (Some activities in the class will combine MFA I and MFA II students and some will be specific to each class.)

Status as Graduate Theatre student is a prerequisite for this class.

PRF 673
MFA WORKSHOP II: ACTOR AS ENTREPRENEUR
Graduate

MFA Workshop is a flexible laboratory time period designed to accommodate a number of possibilities of workshops, lectures, and demonstrations with guest artists mainly from the Chicago theatre community and beyond. MFA Workshop also accommodates a number of projects generated by the MFA Acting students themselves. As MFA Workshop is a process class, projects and workshops may or may not result in a showing. (Some activities in the class will combine MFA I and MFA II students and some will be specific to each class.)

Status as Graduate Theatre student is a prerequisite for this class.

PRF 680
ADVANCED STAGE COMBAT
Graduate

In this course students will continue their study of unarmed and rapier- & dagger techniques, as well as adding a third weapon discipline as taught by The Society of American Fight Directors (past options have included knife, broadsword, quarterstaff, small sword) for use in stage and film performance. The students will perform choreography in all three disciplines, in scenes which they themselves select but which are choreographed by the instructor. The students are then given the opportunity to take the SAFD's Skills Proficiency Test for all three weapons, with an outside adjudicator, in the hope of reaching 'Actor Combatant' status within the SAFD.

PRF 580 and status as a Graduate Theatre student is a prerequisite for this class.
PRF 681
DIRECTING II
Graduate
A laboratory class in which student directed scenes are rehearsed and presented for discussion and criticism. Several cuttings are directed during the year.

PRF 583 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 682
DIRECTING II
Graduate
A laboratory class in which student directed scenes are rehearsed and presented for discussion and criticism. Several cuttings are directed during the year.

PRF 681 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 683
DIRECTING II
Graduate
A laboratory class in which student directed scenes are rehearsed and presented for discussion and criticism. Several cuttings are directed during the year.

PRF 682 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 690
INTERNSHIP
Graduate
The internship provides the student with an opportunity to learn by working with experienced professionals in an area related to his or her area of study at The Theatre School.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 691
DIRECTING SEMINAR
Graduate
This course provides the opportunity for all three years of MFA directors and directing faculty to share, discuss and investigate particular and immediate aspects of directing. The course provides a forum for directors to discuss current rehearsal processes and trouble-shoot with their colleagues and instructor. Additionally, directing students reflect on, discuss and receive feedback from their colleagues and instructor on production work. The second half of the course focuses on honing a specific directorial skill or exploring new directorial territory. This component changes quarterly at the discretion of the instructor.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 692
DIRECTING SEMINAR
Graduate
This course provides the opportunity for all three years of MFA directors and directing faculty to share, discuss and investigate particular and immediate aspects of directing. The course provides a forum for directors to discuss current rehearsal processes and trouble-shoot with their colleagues and instructor. Additionally, directing students reflect on, discuss and receive feedback from their colleagues and instructor on production work. PRF 693
DIRECTING SEMINAR
Graduate
This course provides the opportunity for all three years of MFA directors and directing faculty to share, discuss and investigate particular and immediate aspects of directing. The course provides a forum for directors to discuss current rehearsal processes and trouble-shoot with their colleagues and instructor. Additionally, directing students reflect on, discuss and receive feedback from their colleagues and instructor on production work. The second half of the course focuses on honing a specific directorial skill or exploring new directorial territory. This component changes quarterly at the discretion of the instructor.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 711
GRADUATE ACTING III: COMPANY CREATION
Graduate
This course is a journey with toolbox through creating and producing ensemble-based theater. Students follow two pathways: creating theater and producing theater. The path of creating follows on the self-generated work of MFA I and II Workshops, empowering the class to imagine and rehearse an original piece of theater through an invented process. Weekly rehearsal meetings build the piece into a “producer’s rehearsal” at the end of the quarter. The path of producing introduces the class to tools necessary for mounting theater in Chicago or elsewhere. Using the piece under construction as their example, the students delegate and coordinate work on mission statement, company structure/contracts, by-laws, board formation, not-for-profit/tax-exempt status, grant writing, fundraising, space rental, rehearsal process, press relations, advertising, audience development, festivals, transfers, documentation, and touring.

PRF 613 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 712
GRADUATE ACTING III: PROFESSIONAL PREPARATION
Graduate
This course follows on the Audition class from fall quarter bringing the students into simulated auditions for weekly guests including professional casting directors, casting agents, talent managers, artistic directors, and filmmakers from Chicago and beyond. Feedback will focus on empowering the actors to strengthen their approach, courage, effectiveness and flexibility in the casting process as felt in the “real world.”

PRF 711 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 713
GRADUATE ACTING III: ADVANCED IMPROVISATION
Graduate
This intensive course capstones the impulse work and Spolin-based work from MFA I Improvisation by updating the class to improvisational forms that extend beyond scenic and sketch. Mining the rich and still-unfolding history of Chicago improvisation, students flex their creative muscles by exploring long-form improvisational models and unique multi-scenic structures.

PRF 712 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 714
AUDITION
Graduate
This studio-based class introduces the student to multiple forms of audition practiced in professional theater as well as those forms practiced in film, television, and commercials. Students train rigorously with monologues, cold readings, callback scenes, copy reading, and reader-style auditions in weekly class simulations. The course will cover methods for researching and attending auditions, finding and preparing suitable material, as well as handling the audition process professionally and successfully. Discussions of “type,” “color-blind casting,” manager/agent relationships, and ethical concerns of auditions will be included.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 716
GRADUATE SHOWCASE
Graduate
Through the rehearsal process, graduate acting majors prepare monologues and scenes, culminating ultimately in a showcase for an invited audience of casting directors, agents, and directors.

Status as Graduate Theatre student is a prerequisite for this class.
PRF 720
ACTING FOR THE CAMERA
Graduate

“Film acting” prepares the student for the professional world in front of the camera. Working in front of the camera(s), the student learns the different techniques between stage and film techniques and the differences, between soaps, sitcoms, commercials, and features. The student is also exposed to life on the set, contracts, agents, managers and steps to finding work. This class is a bridge for the student from the classroom to the professional world.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 721
GRADUATE MOVEMENT III
Graduate

The technique of movement to music will be used to: stimulate the actor's imagination, experiment with the identification, translation, and articulation of creative impulses, intensify ensemble work, expand the range of expression and strengthen and condition the body.

PRF 623 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 722
GRADUATE MOVEMENT III
Graduate

An independent study of movement for the actor.

PRF 721 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 723
GRADUATE MOVEMENT III: PILATES
Graduate

This is a finishing level movement class that is taught by certified instructors at a nearby studio. Working on Pilates equipment ("reformers", etc.), this class offers the student a chance to further learn about efficient patterns of motion while creating an evenly conditioned body. Pilates helps the student develop strong core muscles and build strength without "bulking up". This class will draw upon the student's previous movement classes by challenging their awareness, levels of inquiry and physical decisions in a non-theatrical movement class.

PRF 722 and status as a Graduate Theatre student is a prerequisite for this class.

PRF 724
GRADUATE MOVEMENT III: PILATES
Graduate

This is a finishing level movement class that is taught by certified instructors at a nearby studio. Working on Pilates equipment ("reformers", etc.), this class offers the student a chance to further learn about efficient patterns of motion while creating an evenly conditioned body. Pilates helps the student develop strong core muscles and build strength without "bulking up". This class will draw upon the student's previous movement classes by challenging their awareness, levels of inquiry and physical decisions in a non-theatrical movement class.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 730
MFA III VOICE & SPEECH
Graduate

This advanced voice and speech class will focus on the individual needs of the participating students. Students can expect a range of lessons designed to explore voice/body connections using monologues and scenes.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 731
GRADUATE VOICE AND SPEECH III
Graduate

Students continue to develop professional skills through singing.

Status as Graduate Theatre student is a prerequisite for this class.
PRF 732
GRADUATE VOICE AND SPEECH III
Graduate
Students acquire flexibility in role development through vocal exploration.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 733
VOICEOVER
Graduate
The course is designed to continue the development of professional skills through the study of voiceover.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 761
REHEARSAL AND PERFORMANCE III
Graduate
Graduate acting and directing students are continually involved in rehearsal and performance of plays in the Showcase, the Playworks series, and workshop productions. Acting students constitute the casting pool for the school.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 762
REHEARSAL AND PERFORMANCE III
Graduate
Graduate acting and directing students are continually involved in rehearsal and performance of plays in the Showcase, the Playworks series, and workshop productions. Acting students constitute the casting pool for the school.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 763
REHEARSAL AND PERFORMANCE III
Graduate
Graduate acting and directing students are continually involved in rehearsal and performance of plays in the Showcase, the Playworks series, and workshop productions. Acting students constitute the casting pool for the school.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 771
SEMINAR: SPECIAL TOPICS IN DIRECTING
Graduate
According to the expertise of faculty and the needs and interests of advanced students, this course deals variously with selected topics in stage directing, including the history and development of stage directing as an independent art form, directing theory, and directing methodology.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 781
THESIS PROJECT IN DIRECTING
Graduate
A year long research and performance project that culminates in a fully supported production and written thesis. The production is part of The New Directors Series presented for the general public.

Status as Graduate Theatre student is a prerequisite for this class.
PRF 782
THESIS PROJECT IN DIRECTING
Graduate
A year long research and performance project that culminates in a fully supported production and written thesis. The production is part of The New Directors Series presented for the general public.

Status as Graduate Theatre student is a prerequisite for this class.

PRF 783
THESIS PROJECT IN DIRECTING
Graduate
A year long research and performance project that culminates in a fully supported production and written thesis. The production is part of The New Directors Series presented for the general public.

Status as Graduate Theatre student is a prerequisite for this class.

PSC 120
THE AMERICAN POLITICAL SYSTEM
Undergraduate
A survey of the national political system, including discussions of the political beliefs and behavior of citizens, the constitutional structure, and national political processes.

PSC 140
INTRODUCTION TO INTERNATIONAL RELATIONS
Undergraduate
Three main themes are dealt with: the nature of power in the international political system, conflict and conflict resolution in the system, and the basis of national foreign policy decisions. Issues of current importance, such as the likelihood of global war, conflict between rich and poor nations, and East-West relations, provide the substantive material to illuminate these main themes.

PSC 150
INTRODUCTION TO COMPARATIVE POLITICS
Undergraduate
This course focuses on the way in which political systems other than that of the United States operate. The common features of governments are identified and examined with special attention to such topics as political elites, political institutions, mass political behavior, political change and revolution. Examples are drawn from a wide range of political systems.

PSC 201
GEOGRAPHIC INFORMATION SYSTEMS
Undergraduate
An introductory-level course covering the fundamentals of Geographic Information Systems (GIS). Topics include GPS, remote sensing, data models (vector and raster), coordinate systems, and map design. Instruction is accomplished through lectures and hands-on computer lab exercises using ArcGIS. Cross listed with GEO 241.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

PSC 205
STATISTICS FOR THE SOCIAL SCIENCES
Undergraduate
Data description and interpretation; table construction; correlation, regression and ANOVA; introduction to multivariate analysis; statistical inference and hypothesis testing. Cross-listed with SOC 279.

MAT 100 or higher or placement by test is a prerequisite for this class.
This course considers the social institutions important for the political development of individuals. The political significance of institutions such as the family, the school and the work place will be examined. (Please note that the catalog number for this course was changed from PSC 219 to PSC 213 effective Autumn, 2001)

This course examines the theoretical and practical dilemmas facing multicultural societies, with special emphasis on the United States. Special attention is paid to questions of identity, integration, and separatism.

An examination of the shared symbol systems that provide meaning and structure for political life. Key historic cultural concepts, such as individualism, materialism and mobility will be considered, and their connections to contemporary popular culture explored.

This course explores the ways in which women interpret, gain access to, and use political power. It focuses on sex- and gender-based differences in the political socialization process, and their implications for the participation and organization of women. Gender-related legislation and "women's" political issues are also evaluated. Particular attention is given to women and politics in the United States.

This course discusses the nature and scope of African-American politics. Major topics include the radical, liberal, moderate and conservative wings of African-American political discourse, the civil rights movement and its aftermath, the rise of African-American mayors, and presidential politics. An historical survey of African-American politics, and the factors that have shaped them, may also be included.

The course focuses on specific themes or concerns in politics and culture. Variable topics.

An examination of the structure of the presidency, its relationship to other political and social institutions, and the way in which that office is shaped by individual presidents.

This course provides an analysis of congressional elections, the structure and operation of the United States Congress, the behavior of its members, and the relationship of the Congress to interest groups, the public, the President and the bureaucracy.

The course explores the changing nature and function of political parties in the United States, factors that affect individual and aggregate vote choice, and the electoral process.
PSC 223
URBAN POLITICS
Undergraduate
Communities running the gamut from small towns through urban neighborhoods to big cities are examined with reference to their structures of government, systems of political influence, and public policy issues.

PSC 224
BUREAUCRACY AND POLITICS
Undergraduate
This course examines the ways that administrative organizations participate in and influence the policy-making process and the common forms of politics within bureaucracies.

PSC 225
STATE POLITICS
Undergraduate
The formal structures of government and political behavior found among the fifty states and their local subdivisions are surveyed.

PSC 229
TOPICS IN AMERICAN POLITICS
Undergraduate
This course discusses selected topics in American politics.

PSC 230
CLASSICAL POLITICAL THOUGHT
Undergraduate
Political thought of the ancient, medieval and early modern period including Plato, Aristotle, Cicero, St. Thomas, and Machiavelli.

PSC 231
MODERN POLITICAL THOUGHT
Undergraduate
Political thought of the modern period including Hobbes, Locke, Rousseau, Hume, Burke, Mill, and Marx.

PSC 232
LIBERALISM, CONSERVATISM, AND DEMOCRACY
Undergraduate
This course seeks to give students a solid underpinning on which they can understand liberalism and conservatism and in turn sharpen their own arguments while gaining an appreciation for those held by others. The goal is to gain a better philosophical understanding of politics but also to see the political relevance of philosophical thinking.

PSC 233
POLITICAL IDEAS AND IDEOLOGIES
Undergraduate
An introduction to the enduring political issues confronted by major theorists and political traditions. (Please note that the catalog number for this course was changed from PSC 203 to PSC 233 effective Autumn, 2001.)

PSC 234
FREEDOM AND EMPOWERMENT
Undergraduate
Considers different models for the distribution of power including forms of classic and modern elitism and representative and democratic theories. Explores issues of citizenship, community, participation, representation and constitutionalism. The dynamic of inclusion and exclusion within society are addressed as well as theories that point to political, economic, and cultural liberation.
PSC 235
EQUALITY AND SOCIAL JUSTICE
Undergraduate
Considers how societies distribute social goods of power, status, wealth, and informal resources and models of just distribution utilized in classic and modern political theory. Shifts in the meaning of social justice over the course of history and the critical contests over this issue are addressed, as well as the emergence of new models focusing on regional and global concerns. The major concepts including capitalism, socialism and meritocracy are considered.

PSC 236
LEGITIMACY AND CRISIS
Undergraduate
Considers how states achieve validation with their members and maintain that validation through such mechanisms as socialization, education, information flow, civil religion, and war. Theories of social crisis that challenge regime legitimacy are considered as well as issues of revolution, counterrevolution, and regime stabilization.

PSC 239
TOPICS IN POLITICAL THOUGHT
Undergraduate
Variable topics.

PSC 242
AMERICAN FOREIGN POLICY
Undergraduate
An examination of the forces that shape the broad outlines of United States foreign policy, including historical background, and the effects of social forces and governmental structures. The challenges, opportunities and constraints presented by the international environment are also considered.

PSC 243
RUSSIAN FOREIGN POLICY
Undergraduate
This course will probe the institutions, objectives and techniques which are reflected in contemporary Russian external policy. Economic, military and cultural dimensions will augment the primarily political focus of the course. One segment of this course examines Russian - American relations today.

PSC 244
LATIN AMERICAN-UNITED STATES RELATIONS
Undergraduate
This course analyzes the dual thrust of Latin American foreign relations: toward autonomy and “third world” nationalism on the one hand, and interdependence and integration on the other. The course analyzes the background of Latin American-United States relations in the 20th century, and also gives attention to the new relationships and issues emerging among Latin American states.

PSC 245
FOREIGN POLICIES OF WESTERN EUROPE
Undergraduate
This course examines the content and domestic and international contexts of the foreign policies of Western European nations, NATO, and the European Union.

PSC 246
ASIAN FOREIGN POLICY
Undergraduate
This course surveys the international relations of selected Asian countries. For each country, the course presents the basic historical background shaping foreign relations, introduces the external and domestic influences on foreign policy, and identifies emerging international challenges. It examines both the economic and military-security dimensions of Asian foreign relations.
PSC 247
U.S. - AFRICA RELATIONS
Undergraduate
This course examines the foreign policy of the United States toward Africa. The course focuses on the historical, civilizational, political, economic, ideological and strategic forces that shape U.S.-Africa relations over time.

PSC 249
TOPICS IN INTERNATIONAL RELATIONS
Undergraduate
This course discusses selected topics in the area of international relations.

PSC 250
WEST EUROPEAN POLITICS
Undergraduate
An overview of select Western European political and economic systems (including those of Britain, France and Germany); examination of the European Union and relations between Western Europe and the international community.

PSC 251
RUSSIAN POLITICS
Undergraduate
This course offers an overview of the fundamental premises, structures and political developments in Russia. Special attention is given to issues of transition from Communism to the new reality, and the emphasis is on contemporary politics. Key issues include the place of the military, economic and business patterns, health, education, and gender.

PSC 252
LATIN AMERICAN POLITICS
Undergraduate
An examination of the history of Latin America and the major institutions, social sectors, and actors that shape the political life of the region. The course focuses on the development of revolutionary regimes and movements as well as military regimes and their demise during the transition to democracy.

PSC 253
ASIAN POLITICS
Undergraduate
An introduction to contemporary government and politics in Asia, focusing on China and Japan, with comparative reference to other Asian and non-Asian political systems. Special attention will be made to the emerging political and economic role of the Pacific Rim.

PSC 254
AFRICAN POLITICS
Undergraduate
An introduction to African politics. The course will focus on the basic concepts, issues, and theoretical models used in studies of the dynamics of government and politics in Africa from the precolonial era to the contemporary period.

PSC 255
MIDDLE EAST POLITICS
Undergraduate
This course explores contemporary political issues in the Middle East. It includes country profiles, a review of the Arab-Israeli conflict, analysis of opposing viewpoints about the revival of Islam and about Islamic fundamentalism, and the region's position in the emerging new world order.

PSC 259
COUNTRY STUDIES
Undergraduate
Intensive study of the politics of one foreign nation.
PSC 260  
LAW AND THE POLITICAL SYSTEM  
Undergraduate  
An examination of the American judicial system with special attention to the role of the Supreme Court in American politics, the personnel of the American legal system, the problem of crime and the nature of the criminal justice system, and selected issues in constitutional law, including discrimination, privacy, family life, and freedom of speech, press, assembly and religion.

PSC 261  
FIRST AMENDMENT RIGHTS  
Undergraduate  
A discussion and analysis of Supreme Court decisions interpreting the meaning of the First Amendment guarantees of freedom of speech, press, assembly and religion.

PSC 262  
RIGHTS OF DEFENDANTS  
Undergraduate  
A discussion and analysis of Supreme Court decisions interpreting the meaning of the phrase "due process of law" and the various specific provisions protecting the rights of criminal defendants.

PSC 263  
EQUAL PROTECTION OF THE LAWS  
Undergraduate  
A discussion and analysis of Supreme Court decisions interpreting the meaning of the Equal Protection Clause of the 14th Amendment and resolving issues of race and sex discrimination, school segregation, and the status of indigents in American law.

PSC 269  
TOPICS IN PUBLIC LAW  
Undergraduate  
This course discusses selected topics in the area of public law.

PSC 282  
POLITICAL ACTION AND SOCIAL JUSTICE  
Undergraduate  
This course combines community-based service learning with readings, lectures and classroom discussions to investigate the nature of social justice and the extent to which individual and community political action can promote it. (Please note that the catalog number for this course was changed from PSC 396 to PSC 282 effective Autumn, 2001.)

PSC 284  
MOCK TRIAL: CIVIL LAW  
Undergraduate  
Mock Trial is a co-curricular activity involving intercollegiate competitive simulation of court cases. This course is taught by attorneys and gives students a chance to learn first hand about the work of trial attorneys, understand the judicial system, examine the anatomy of the litigation process, develop critical thinking skills, enhance their communication skills, and participate in simulated trial experiences. Students will learn and practice the basic elements of trial advocacy, including opening statements, direct and cross-examination of witnesses, objections, and closing arguments. PSC 284 focuses on civil law, cases, and procedures.

PSC 285  
MOCK TRIAL: CRIMINAL LAW  
Undergraduate  
Mock Trial is a co-curricular activity involving intercollegiate competitive simulation of court cases. This course is taught by attorneys and gives students a chance to learn first hand about the work of trial attorneys, understand the judicial system, examine the anatomy of the litigation process, develop critical thinking skills, enhance their communication skills, and participate in simulated trial experiences. Students will learn and practice the basic elements of trial advocacy, including opening statements, direct and cross-examination of witnesses, objections, and closing arguments. PSC 285 focuses on criminal law, cases, and procedures.
PSC 286
CAMPAIGNS AND SOCIAL ENGAGEMENT
Undergraduate
This course examines political campaigns and participation in the United States, the role of civic engagement in a representative and
democratic political system, and the ethics of political campaigns. Students engage in an experiential project including participation in a
political organization.

PSC 288
BIKING, POLITICS AND POLICY
Undergraduate
This class focuses on biking, politics and transportation policy. Through reading, riding, and reflection, students will examine and experience
policies that generate bike friendliness. They will also meet with political actors and interest groups that contribute to continuing policy
development. The bike's potential contribution to a green future and to alleviating the political problems of allocating scarce finite resources
will also be assessed.

PSC 289
GROUP INTERNSHIP SPECIAL TOPIC
Undergraduate
Various internships.

PSC 299
SPECIAL TOPICS
Undergraduate
SPECIAL TOPICS

PSC 300
POLITICAL ANALYSIS AND RESEARCH
Undergraduate
An introduction to the scientific method as applied in political science research. Among the topics covered are distinctions between normative
and empirical statements, techniques for gathering data, basic data analysis, and interpretation of statistical results. This course is strongly
recommended for students considering graduate study.

PSC 305
WRITING IN POLITICAL SCIENCE
Undergraduate
Good writers intensively revise their work. This class will improve students' writing through instruction and revision. The course is intended
for students intending to go to law or graduate school or who struggle with writing papers in political science.

PSC 310
POLITICAL CULTURE AND DEVELOPMENT
Undergraduate
Examines the theoretical and empirical linkages between development and culture. Development remains a hotly contested concept, as its
relationship with "culture," or the norms, customs, practices and institutions that govern social relations in a particular society. The
relationship between culture and development poses significant challenges to students of international and comparative political economy,
especially in an era of unprecedented globalization.

PSC 312
CREATING CHANGE: CONTEMPORARY GAY, LESBIAN, BISEXUAL & TRANSGENDERED POLITICS
Undergraduate
Explore the historical roots and contemporary realities of gay, lesbian, bisexual and transgendered (GLBT) politics, nationally and
internationally. Such issues as hate crimes, marriage, AIDS, and ballot initiatives over non-discrimination law and policy have entered the
political mainstream since the 1970's. This course examines the GLBT movement, its political and social strategies, conflicts and issues, and
the political roles played by its members as participants in political culture. (cross-list with WMS 332)
PSC 315
INTERNET, TECHNOLOGY, AND POLITICS
Undergraduate
This course explores the evolving relationships that reside at the intersection of the Internet and politics. Themes covered in this course include the ways in which politicians and organizations use the Internet and how the Internet is changing the relationship between governments and citizens.

PSC 319
ADVANCED TOPICS IN POLITICAL CULTURE
Undergraduate
Various topics in political cultures.

PSC 321
MASS MEDIA AND AMERICAN POLITICS
Undergraduate
The rise, fall and manipulation of public opinion and voting behavior, with special attention given to the mass media.

PSC 322
URBAN POLICYMAKING
Undergraduate
U.S. urban policy is examined from the standpoints of program objectives, the mechanics of their evaluation, and the barriers to their effective implementation.

PSC 323
CHICAGO GOVERNMENT AND POLITICS
Undergraduate
The particular socioeconomic characteristics of Chicago are linked with its formal government structure, informal political style, and prominent public issues. To enhance this analysis, comparisons with other U.S. cities are employed.

PSC 324
INEQUALITY IN AMERICAN SOCIETY
Undergraduate
This course examines the nature and extent of inequality in American society and explores various psychological, political, social, and economic theories which attempt to explain the existence of this phenomenon.

PSC 325
LATINO POLITICAL EMPOWERMENT
Undergraduate
An in-depth, critical examination of the politics and identity of Latinos in the United States. Major topics include the emergence of Latino communities, the political economy of Latino communities, and institutions and processes of contemporary Latino politics.

PSC 326
IDEOLOGY, ECONOMICS AND POLICY
Undergraduate
This course examines the economic theories and political ideologies behind the policies advocated by the major political parties in America. The course also examines the social and economic consequences of policies advocated by Democratic and Republican Administrations.

PSC 327
PUBLIC OPINION
Undergraduate
An in-depth look into how individuals form opinions, how researchers attempt to measure attitudes, what the public thinks about a variety of social and public policy issues, and the role that public opinion plays in American society, politics and our notions of democracy.
PSC 328  
ADVANCED TOPICS IN AMERICAN POLITICS  
Undergraduate  
Advanced topics in American politics.

PSC 329  
ADVANCED TOPICS IN PUBLIC POLICY  
Undergraduate  
Advanced Topics In Public Policy.

PSC 330  
AMERICAN POLITICAL THOUGHT  
Undergraduate  
An examination of the enduring problems of American political thought from colonial time to the present, including puritanism, constitutionalism, Calhoun, populism, socialism, Social Darwinism, and pragmatism.

PSC 331  
CONTEMPORARY POLITICAL THOUGHT  
Undergraduate  
An intensive seminar discussion of selected political and social thought of contemporary significance drawn from main currents of liberalism, conservatism, socialism, fascism, anarchism, and existentialism.

PSC 333  
MARXISM  
Undergraduate  
An analysis of Marxist political and economic thought as represented by the writings of Marx, Lenin, Trotsky, Lukacs, Sartre. Primary texts will be examined, and their application to the contemporary setting considered.

PSC 334  
LATIN AMERICAN POLITICAL THOUGHT  
Undergraduate  
An historical survey of important themes in political thinking in Latin America. The readings draw upon literature and the writings of political actors and theorists.

PSC 335  
THEORIES OF THE CHURCH  
Undergraduate  
This course deals with the theological, social, and political implications of ecclesiology, or "theories of the church". Students will explore ideas about the origins and purposes of the Church, notions of authority and membership, matters of church and state, and more. The impact of Marxist, feminist, and conservative ideologies on understandings of the church may also be explored. The course will integrate theological, sociological, and political methods of analysis. Cross-listed as CTH 209.

PSC 336  
AFRICAN-AMERICAN POLITICAL THOUGHT  
Undergraduate  
Considers black political thought through a variety of ideological, political, legal and historical perspectives. First explores early efforts by blacks to challenge the racialized limitations of America's core principles of liberty, equality and democracy in the contexts of abolitionism, the women's suffrage movements, Manifest Destiny, and American industrialism. Then concentrates on the evolution of contemporary black political thought, with an emphasis on both conceptual diversity and continuity over time.

PSC 337  
CHRISTIAN POLITICAL THOUGHT  
Undergraduate  
An exploration of key themes, thinkers and movements in the Christian tradition's engagement with power, governance, authority, and allegiance. Students explore scriptural and early church sources, important pre-modern theologians like Augustine and Aquinas, Reformation figures including Luther and Calvin, and contemporary philosophers, theologians and topics.
PSC 338
POLITICS AND LITERATURE
Undergraduate
This course investigates themes in politics through the perspective of major works of literature. The emphasis is on the ways in which writers utilize the imaginative process to represent and investigate the working of society, culture, the individual, the public and private realms, and relationships in order to convey a complex understanding of political values and processes in their eras.

PSC 339
ADVANCED TOPICS IN POLITICAL THOUGHT
Undergraduate
Advanced topics in political thought.

PSC 340
THE EUROPEAN UNION
Undergraduate
This course examines the history, institutional structures and processes, and policies of the EU. It will look at how the EU is unique, sharing characteristics of states and of international organizations.

PSC 342
ARMS, SECURITY, AND WAR
Undergraduate
Focus is on the military dimensions of international politics, such as nuclear and conventional deterrence, arms races, arms control, alliances, and American defense policy, and how those affect war and peace.

PSC 344
WORLD POLITICAL ECONOMY
Undergraduate
Political conflicts over trade relations, global inequality, development, growth, inflation, and scarcity are analyzed, with special emphasis placed on a description of the institutions and processes that shape international economics.

PSC 345
THE CATHOLIC CHURCH IN WORLD POLITICS
Undergraduate
This course seeks to familiarize students with major theories, research traditions, and issues regarding the role of Catholicism in the contemporary world. It will assess the role of various levels and actors with the Church--the Vatican, priests and nuns, lay groups and movements, activists, and others--in working as forces of social change/stability in matters of world politics, economics, and culture. The course will also consider the impact of globalization and other transnational processes on the activities and options of Catholic institutions and actors.

PSC 346
THE UNITED NATIONS AND WORLD PROBLEMS
Undergraduate
This course will examine the historical and theoretical foundations of the United Nations, particularly in light of the changing problems and issues that confront the global community, such as international peace and security, global economic inequality, and environmental and human rights norms.

PSC 347
ETHICS IN WORLD POLITICS
Undergraduate
Drawing on general theories of international relations and historical cases, this course examines both the forces that inhibit the development and effectiveness of ethical norms at the international level and the conditions under which such norms develop and affect the behavior of states and other actors.
PSC 349
ADVANCED TOPICS IN INTERNATIONAL RELATIONS
Undergraduate
Advanced topics in international relations.

PSC 351
REVOLUTION AND TERRORISM
Undergraduate
Aspects of revolution, emphasizing contemporary cases, including units on ideology, leaders, followers, organization, techniques, weapons, causes and theories of revolution.

PSC 353
COMPARATIVE DEMOCRACY AND DICTATORSHIP
Undergraduate
This course compares democracies and dictatorships in order to ascertain how they differ and what are the requisite conditions for each type of political system. Among the concepts to be examined are elections, participation, distribution of resources, corruption, and transparency.

PSC 354
POLITICAL REPRESENTATION IN COMPARATIVE PERSPECTIVE
Undergraduate
A comparative treatment of those processes and institutions that comprise the representative system, including executives, legislatures, political parties, coalitions, and elections.

PSC 355
STATE AND NATION BUILDING
Undergraduate
This course examines the origin, nature and strategies of state formation in general, with particular emphasis on African state processes.

PSC 356
ETHNIC CONFLICT IN THE THIRD WORLD
Undergraduate
This course examines the nature, causes, and consequences of ethnic conflict in “Third World” nations, including conflict resolution in the presence of ethnic and racial cleavages.

PSC 357
EASTERN EUROPE IN TRANSITION
Undergraduate
This course covers the causes of the “democratic” revolutions in 1989 and the processes of change in Eastern Europe as those countries transform from Soviet-model political systems to other forms of politics. The course will cover economic and social developments within those nations as well as relevant changes in their international environments.

PSC 358
GLOBAL GENDER ISSUES
Undergraduate
This course examines how inequalities between women and men are connected to the global politics of power, security, the political economy, and ecology. It focuses on the theoretical and practical linkages between "women's issues" and political matters such as wars of secession, arms proliferation, global economic recessions, and environmental degradation. Questions of the nature of power, abuses of human rights, the human costs of global inequality, and the meaning of a just world order are explored.

PSC 359
ADVANCED TOPICS IN COMPARATIVE POLITICS
Undergraduate
Advanced topics in comparative politics.
PSC 361
INTERNATIONAL LAW
Undergraduate
The nature, sources, and applications of international law in the international community, including issues of recognition, territory, jurisdiction, settlement of international disputes, diplomatic agents, intervention and the use of force.

PSC 362
THE CRIMINAL JUSTICE SYSTEM
Undergraduate
An overview of the important features of the American criminal justice system, including the role of police, courts and corrections. The course analyzes conventional and alternative definitions of crime and explanations for criminal behavior. An examination of race and class issues as they relate to criminal justice, and their implications for public policy, is also included.

PSC 363
WOMEN AND THE LAW
Undergraduate
This course investigates the variety of ways in which women come into relation with the law, focusing on laws and judicial decisions dealing with equal opportunity. Cross-listed as WGS 326.

PSC 364
COMPARATIVE PROTECTION OF INDIVIDUAL RIGHTS
Undergraduate
This course will compare the status of individual rights in Britain, the United States, and Canada, and under the European Convention on Human Rights. Course materials will consist of judicial decisions and other materials on specific areas of civil liberties.

PSC 365
VOTING RIGHTS AND THE LAW
Undergraduate
Explores the legal and political struggles of two originally disenfranchised groups-women and African Americans-to gain access to the ballot, and what their struggles reveal about American law, politics and society. This course is also intended to familiarize students with dominant legal theories, as well as introduce them to alternative approaches such as Critical Race Theory and Critical Feminist Theory. The readings include Supreme Court opinions, legal theories of voting rights jurisprudence, political theories of representation, and historical narratives.

PSC 366
NATIONAL SECURITY AND THE U.S. CONSTITUTION
Undergraduate
Explores the relationship between the U.S. Constitution and the government's responsibility for the protection of national security. The course examines the constitutional doctrine of separation of powers and the respective roles of Congress, the President, and the courts in the conduct of foreign policy and the use of military force. It also examines the relationship between national security and protection of various rights, including freedom of speech, freedom of the press, privacy, and personal liberty.

PSC 367
IMMIGRATION LAW
Undergraduate
Examines the various legal categories under the U.S. Immigration and Nationality Act that permits persons to be admitted to the United States either temporarily or permanently. It also examines U.S. policies toward illegal immigration and the rights of aliens after the 9/11 terrorist attacks.

PSC 369
ADVANCED TOPICS IN PUBLIC LAW
Undergraduate
Advanced topics in public law.
PSC 390
CAPSTONE SEMINAR
Undergraduate
Senior capstone seminar.
Senior standing is a prerequisite for this class.

PSC 392
INTERNSHIP
Undergraduate
By arrangement.

PSC 393
HONORS SEMINAR
Undergraduate
Variable credit.

PSC 394
SENIOR THESIS
Undergraduate
Variable credit.

PSC 395
TRAVEL/STUDY
Undergraduate
By arrangement with sponsoring faculty, foreign and domestic tours or residence programs may be combined with lectures, readings, and research assignments. Variable credit.

PSC 399
INDEPENDENT STUDY
Undergraduate
Variable credit.

PSY 105
INTRODUCTORY PSYCHOLOGY I
Undergraduate
Introduction to the history and science of psychology; human development through the life span; learning, memory, thinking, language, and intelligence; personality; social psychology. PSY 105 and PSY 106 will include a research participation requirement of no more than six hours. PSY 105 and PSY 106 may be taken in either order; one is not a prerequisite for the other.

PSY 106
INTRODUCTORY PSYCHOLOGY II
Undergraduate
Introduction to the history and science of psychology; neuroscience and behavior; sensation and perception; states of consciousness; motivation and work; emotion; stress and health; psychological disorders; therapy. PSY 105 and PSY 106 will include a research participation requirement of no more than six hours. PSY 105 and PSY 106 may be taken in either order; one is not a prerequisite for the other.

PSY 210
PSYCHOLOGY OF BUSINESS AND INDUSTRY
Undergraduate
Applications of theories and methods of psychology to the study of human behavior in business, industry and other work environments. Cannot be used as psychology major course.
PSY 213
LESBIAN, GAY, BISEXUAL AND TRANSGENDER PSYCHOLOGY
Undergraduate
Overview of psychological and social issues relevant to lesbian, gay, bisexual, and transgendered (LGBT) individuals and communities. The course will examine key concepts, LGBT psychological research, and efforts to promote liberation and well being.

PSY 215
HUMAN SEXUALITY
Undergraduate
Historical, cultural, psychological and physiological aspects of human sexuality. Cannot be used as psychology major course.

PSY 218
PSYCHOLOGICAL PROBLEMS OF CONTEMPORARY FAMILY
Undergraduate
An overview of the major psychological issues facing the contemporary family. Cannot be used as psychology major course.

PSY 220
LATINA/O PSYCHOLOGY
Undergraduate
The purpose of this course is to examine the psychological research literature on the mental health and well being of Latina/o populations in the United States. A number of relevant topics will be examined, including the current state of Latinas/os in psychology, cultural characteristics and values, immigration, acculturation, ethnic identity, stereotypes and discrimination, health, and education. The goal of this course is for students to be better equipped in understanding the factors that influence the psychology of the Latina/o population.

PSY 221
ASIAN AMERICAN PSYCHOLOGY
Undergraduate
This course provides an overview of historical and current issues related to the psychology of Asian Americans. Factors such as changing demographics, ethnic identity and acculturation will be examined.

PSY 240
STATISTICS I
Undergraduate
Descriptive and inferential statistics in the behavioral sciences.
MAT 100 or MAT 101 or equivalent placement by exam

PSY 241
RESEARCH METHODS I
Undergraduate
Introduction to methods of psychological research to enable students to become more sophisticated consumers of research information. Students will learn and apply basic methodological concepts and skills. Students will conduct a non-experimental research project, analyze the data, and write a paper based on the project. PSY 241 and PSY 242 may be taken in either order; one is not a prerequisite for the other.
(PSY 105 or PSY 106) and (PSY 240 or MAT 137 or MAT 242 or SOC 279) are a prerequisite for this class.

PSY 242
RESEARCH METHODS II
Undergraduate
Design, execution, analysis and interpretation of psychology research, with an emphasis on experimental design. Students will conduct an experimental research project, analyze the data, and write a paper based on the project. PSY 241 and PSY 242 may be taken in either order; one is not a prerequisite for the other.
(PSY 105 or PSY 106) and (PSY 240 or MAT 137 or MAT 242 or SOC 279) are a prerequisite for this class.
PSY 280  
CONTEMPORARY ISSUES  
Undergraduate  
Psychological aspects of topics of current interest and relevance.

PSY 105 or PSY 106 is a prerequisite for this class.

PSY 302  
PERSONAL ADJUSTMENT AND MENTAL HEALTH  
Undergraduate  
Psychological principles involved in personality and interpersonal adjustments. May only be taken for credit toward psychology major by students in the Comprehensive Evening Program. May be taken as general elective by all students.

PSY 105, PSY 106 or the equivalent of Introduction to Psychology is a prerequisite for this class.

PSY 303  
HUMAN DEVELOPMENT  
Undergraduate  
Principles of development from conception through maturity. May only be taken for credit toward psychology major by students in the Comprehensive Evening Program. May be taken as general elective by all students.

PSY 105 or PSY 106 is a prerequisite for this class.

PSY 305  
PSYCHOLOGY AND SOCIAL JUSTICE  
Undergraduate  
This course is designed to provide students with both in-class and applied experience within the field of psychology, including an overview of psychology as an academic discipline. Offered every quarter.

PSY 105 or 106 is a prerequisite for this class.

PSY 306  
SERVICE LEARNING  
Undergraduate  
This course is designed to provide students with both in-class and applied experience in a specific area of psychology. Course focuses on one particular topic per term, such as Mental Health Problems in Contemporary Society, Chronic Fatigue Syndrome, etc. Check course schedule for current offerings.

PSY 105 or 106 is a prerequisite for this class.

PSY 310  
CONNECTING WITH YOUTH THROUGH RESEARCH, ADVOCACY, AND SERVICE: QUARTER 1  
Undergraduate  
This course is the first in a three-quarter service learning sequence designed to teach students the latest research on stressors affecting low-income urban communities and effective strategies for making a difference in those communities. Students will put their learning into practice by connecting as mentors and advocates with low-income urban adolescents.

PSY 311  
CONNECTING WITH YOUTH THROUGH RESEARCH, ADVOCACY, AND SERVICE: QUARTER 2  
Undergraduate  
This course is the second in a three-quarter service learning sequence designed to teach students the latest research on stressors affecting low-income urban communities and effective strategies for making a difference in those communities. Students will put their learning into practice by connecting as mentors and advocates with low-income urban adolescents.
PSY 312
CONNECTING WITH YOUTH THROUGH RESEARCH, ADVOCACY, AND SERVICE: QUARTER 3
Undergraduate
This course is the third in a three-quarter service learning sequence designed to teach students the latest research on stressors affecting low-income urban communities and effective strategies for making a difference in those communities. Students will put their learning into practice by connecting as mentors and advocates with low-income urban adolescents.

PSY 317
PSYCHOLOGY OF INTERPERSONAL RELATIONSHIP
Undergraduate
A review of psychological issues, theory, and research related to close relationships, e.g., attraction, love, attachment, friendship, sexuality, jealousy, conflict and power. Cross-listed with PSY 435.

PSY 105 or PSY 106 is a prerequisite for this class.

PSY 325
PSYCHOLOGY OF WOMEN
Undergraduate
A review of research and theory on women, including sexist bias in methodology, violence and discrimination against women, gender differences in power and nonverbal behavior in relationships.

PSY 105 or 106 is a prerequisite for this class.

PSY 326
PSYCHOLOGY OF MEN
Undergraduate
This course evaluates and investigates research and theory of the psychology of males in present society.

PSY 105 or 106 is a prerequisite for this class.

PSY 333
CHILD PSYCHOLOGY
Undergraduate
Infancy and childhood. Description and evaluation of principles and theories of development from conception through childhood.

PSY 105 or PSY 106 is a prerequisite for this class.

PSY 334
ADOLESCENT PSYCHOLOGY
Undergraduate
Biological, cognitive, emotional and social development. Covers theories and research on normal and abnormal development during adolescence.

PSY 105 or PSY 106 is a prerequisite for this class.

PSY 340
STATISTICS II
Undergraduate
Introduction to advanced statistical techniques such as analysis of variance and regression models.

PSY 240 or equivalents is a prerequisite for this class.
PSY 341
METHODS IN QUALITATIVE RESEARCH
Undergraduate
Methods in Qualitative Research (Cross-level as Psychology 416). Principles and techniques of research design in behavioral, social and clinical research; questionnaires, interview schedules, rating scales involving multivariable analyses. Application of parametric and nonparametric tests. Application of research findings to professional practice.

(PSY 105 or 106) and (PSY 240 or equivalents) and PSY 340 are a prerequisite for this class.

PSY 342
RESEARCH METHODS III
Undergraduate
Advanced research methods; topics will vary by instructor. In addition to the prerequisites, completion of PSY 340 is highly recommended.

PSY 240, PSY 241 and PSY 242 are a prerequisite for this class.

PSY 343
INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT
Undergraduate
Measurement in psychology; emphasis on standardization, reliability, validity; test and scale development.

PSY 240, PSY 241 and PSY 242 are a prerequisite for this class.

PSY 345
CULTURAL ISSUES IN PSYCHOLOGY
Undergraduate
Race and ethnic relations in the U.S. is not a fixed, static phenomenon, but rather a dynamic, ever-changing pattern of relationships. This course assists students in understanding the diversity, heterogeneity, and complexity of race relations in American society.

PSY 105 or 106 is a prerequisite for this class.

PSY 346
PSYCHOLOGY OF THE AFRI CAN-AMERICAN CHILD
Undergraduate
Development and socialization of the African-American child from infancy to adolescence. Emphasis on psychological and cultural factors which influence these processes. Understanding the child, family and the child, language and IQ, education and learning styles, and cultural identity are all emphasized. Cross-level with PSY 521.

PSY 105 or 106 is a prerequisite for this class.

PSY 347
SOCIAL PSYCHOLOGY
Undergraduate
Survey of social psychological theory and research on how individual behavior, thoughts, and feelings are influenced by the social context in which they occur.

PSY 105, PSY 106 or the equivalent of Introduction to Psychology is a prerequisite for this class.

PSY 348
SOCIAL COGNITION AND MENTAL CONTROL
Undergraduate
Theory and research dealing with major aspects of social cognition and mental control, including social perception, stereotyping, memory and affect, as well as the self-control of thought, emotion and behavior. Cross-level with PSY 560.

PSY 347 is a prerequisite for this class.
PSY 351
THEORIES OF PERSONALITY
Undergraduate
Survey of major personality theories with separate emphasis on clinically-derived and research-derived theories. Freudian psychoanalysis is especially emphasized in the clinical area. Personality research philosophy is presented separately and as part of the research-derived theories.

PSY 105 or 106 is a prerequisite for this class.

PSY 353
ABNORMAL PSYCHOLOGY
Undergraduate
Description of the nature, symptoms, treatment applications, and cause of psychological disorders.

PSY 105 or 106 is a prerequisite for this class.

PSY 354
COMMUNITY PSYCHOLOGY
Undergraduate
Focus on systemic and ecological theories of human behavior, diversity, social support, community intervention and evaluation, empowerment, social change, and working with underserved populations. Community service project strongly encouraged. Cross level with PSY 654.

PSY 105, PSY 106 or the equivalent of Introduction to Psychology is a prerequisite for this class.

PSY 355
GROUPS AND ORGANIZATIONS
Undergraduate
Issues related to how groups, small and large, function. Includes group formation, relationships, decision-making, performance, and conflict. Also, discussion of organizations as examples of large groups.

PSY 347 or PSY 380 or instructor consent is a prerequisite for this class.

PSY 356
PRINCIPLES OF FIELD RESEARCH AND ACTION
Undergraduate
Basic knowledge of program development, program evaluation, consultation, human diversity, ethics, group dynamics, and interpersonal skills.

PSY 105 or 106 and PSY 354 are prerequisites for this class, and admission into the community psychology concentration.

PSY 357
APPLIED PSYCHOLOGY I
Undergraduate
Overview of behavioral principles, strategies, and system approaches to individual, organizational, and community change. Generally taken in junior year.

PSY 358
APPLIED PSYCHOLOGY II
Undergraduate
Approaches to counseling, psychotherapy and helping relationships. Generally taken in junior year.

PSY 357 is a prerequisite for this class.

PSY 359
FIELD WORK IN COMMUNITY RESEARCH AND ACTION
Undergraduate
Field work in community research and action.

PSY 356 and senior standing are a prerequisite for this class.
PSY 360
THEORIES OF LEARNING AND COGNITION
Undergraduate
Explores classical and modern theories and research in the science of learning and cognition.

PSY 105 or 106 is a prerequisite for this class.

PSY 361
HISTORY AND SYSTEMS OF PSYCHOLOGY
Undergraduate
Historical development of psychology and its fields. Cross-level with PSY 461.

(PSY 105 or 106), (PSY 240 or equivalents), PSY 241 and PSY 242 are a prerequisite for this class.

PSY 362
SEMINAR IN COGNITION
Undergraduate
Consideration of a current important topic area in cognitive psychology. Cross-level with PSY 563.

PSY 105 or 106 is a prerequisite for this class.

PSY 363
ALCOHOLISM, DRUG ADDICTION AND RECOVERY
Undergraduate
Survey of major research findings in the area of alcoholism and drug addiction. Description of treatment programs for recovery and explorations of drug free ways to alter consciousness.

PSY 105, PSY 106 or the equivalent of Introduction to Psychology is a prerequisite for this class.

PSY 364
HEALTH PSYCHOLOGY AND STRESS MANAGEMENT
Undergraduate
Considers interaction of mind and body in maintaining health and resisting disease. Contributions of exercise, lifestyle, psychological functioning, and spirituality to wellness will be examined. Students will practice and document their experience with a wide range of stress management/exercise techniques.

PSY 105 or 106 is a prerequisite for this class.

PSY 366
BEHAVIOR PROBLEMS OF CHILDREN
Undergraduate
Factors associated with deviance in children and adolescents. Examination of personal and social consequences. Review treatment programs for children.

PSY 105 or 106 is a prerequisite for this class.

PSY 367
PSYCHOLOGY OF EXCEPTIONAL CHILDREN
Undergraduate
Comprehensive introduction to the study of special children--those children who do not reach their fullest potential because of physical, social, cognitive, or behavioral factors.

PSY 105 or 106 is a prerequisite for this class.
PSY 368
CHILD ABUSE AND NEGLECT
Undergraduate
This course investigates in detail the causes, consequences, and contextual factors associated with child maltreatment (abuse and neglect) and interventions for children and families. The course considers maltreatment within an ecological context and examines issues of culture and diversity (e.g., race, gender, ethnicity, socioeconomic status, sexual identity, family structure) in relation to maltreatment. It is designed for students with prior coursework in psychological research methods and child psychology or equivalent. Cross-level with PSY 678.

PSY 240, PSY 241 and PSY 333 or equivalents are a prerequisite for this class.

PSY 369
EMOTIONAL AND BEHAVIORAL DISORDERS CHILDREN AND ADOLESCENTS
Undergraduate
This course examines the major developmental and emotional difficulties experienced by children and adolescents. Factors that lead to the development of disorders, classification and treatment methods will also be examined. Students will be required to complete 25 hours of service in an organization which provides services to this population.

PSY 370
SOCIAL AND EMOTIONAL DEVELOPMENT
Undergraduate
This course focuses on the development of emotions, social relationships and social interactions. Both theoretical perspectives and research findings are present and analyzed. Topics to be covered may include primary emotions and their development, nonverbal communication of emotion, socialization within the family, friendship and peer relations, aggression, moral development, sex role development and attachment.

PSY 105 or 106 and PSY 333 are prerequisites for this class.

PSY 372
RESEARCH METHODS IN SOCIAL PSYCHOLOGY
Undergraduate
Overview of methods and associated problems unique to conducting research with humans both in the laboratory and the field.

PSY 347 is a prerequisite for this class.

PSY 373
HAPPINESS, JUDGMENT AND DECISION MAKING
Undergraduate

PSY 105 or PSY 106 is a prerequisite for this class.

PSY 375
SENSATION AND PERCEPTION
Undergraduate
The physiology of sensory systems and the psychological mechanisms of perception.

(PSY 105 or PSY 106) and PSY 242 are a prerequisite for this class.

PSY 377
PHYSIOLOGICAL PSYCHOLOGY
Undergraduate
Nervous system and endocrine functions as related to behavior.

(PSY 105 or PSY 106), PSY 240, and PSY 242 are prerequisites for this class.
PSY 378
COMPARATIVE PSYCHOLOGY
Undergraduate
Patterns of behavior shown by various animal species. Cross-listed with PSY 554.

(PSY 105 or PSY 106) and PSY 242 are a prerequisite for this class.

PSY 379
COGNITIVE NEUROSCIENCE
Undergraduate
This course explores the neuroscience of human behaviors such as emotions, attention, executive function, language, learning, memory, and social interaction by exploring both the underlying biological mechanisms and the psychological theories behind these behaviors. Cognitive Neuroscience is an emerging field of study that attempts to help one gain an understanding of the interdisciplinary nature of the human mind.

PSY 380
INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
Undergraduate
Application of theories and methods of psychology to the study of human behavior in business, industry, and other organizations. Cross-listed with PSY 680.

PSY 105 or 106 is a prerequisite for this class.

PSY 381
PERSONNEL PSYCHOLOGY
Undergraduate
Application of concepts from differential psychology and measurement to employee selection, performance appraisal, placement and training in business and other organizations.

PSY 380 or consent is a prerequisite for this class.

PSY 382
ORGANIZATIONAL BEHAVIOR
Undergraduate
Theories in learning, personality, work motivation, job attitudes, and organizational culture, and application to employee behavior.

PSY 380 or consent is a prerequisite for this class.

PSY 385
TRAINING AND DEVELOPMENT IN ORGANIZATIONS
Undergraduate
Issues related to training in industry and other organizations. Such topics as needs assessment, training program design, and program evaluation will be covered, along with relevant ethical, social and economic issues.

PSY 380 or consent is a prerequisite for this class.

PSY 388
TOPICAL SEMINAR IN INDUSTRIAL - ORGANIZATIONAL PSYCHOLOGY
Undergraduate
Current topics and issues in I-O Psychology beyond the introductory course with particular emphasis on recent developments and research. Topics vary.

PSY 380 or consent is a prerequisite for this class.
PSY 390
INDEPENDENT RESEARCH IN PSYCHOLOGY
Undergraduate

Independent Research in Psychology. Student will work with a faculty mentor to develop an individualized plan of work involving some aspect of research. This can include, but is not limited to, reviewing literature, developing a research project, collecting data on an ongoing project, coding or analyzing data, developing a research presentation, or working in the community on research or intervention projects. Students taking the course for 4 or more units must produce a graded project at the end of the quarter.

PSY 392
PSYCHOLOGY OF ALIENATION
Undergraduate

Causes of individual and group alienation, and the resultant behavior.

PSY 105 or 106 is a prerequisite for this class.

PSY 393
PSYCHOLINGUISTICS
Undergraduate

Applications of linguistic theory and the psychology of language. Cross-listed with MOL 356.

PSY 394
ADVANCED TOPICS IN PSYCHOLOGY
Undergraduate

Senior standing is a prerequisite for this class.

PSY 395
FIELD WORK/INTERNSHIP
Undergraduate

Supervised experience in selected off-campus settings and associated readings. Generally taken in senior year.

PSY 357 and PSY 358 are a prerequisite for this class.

PSY 396
HONORS IN PSYCHOLOGY
Undergraduate

Attendance at monthly Honors Seminar is required. Honors thesis is completed during the student's senior year. Can be registered for more than once.

Senior standing is a prerequisite for this class.

PSY 397
EXPERIENTIAL LEARNING/PSYCHOLOGY RESEARCH
Undergraduate

Experiential Learning/Psychology Research.

PSY 398
TUTORING AND MENTORING IN PSYCHOLOGY
Undergraduate

Senior standing is a prerequisite for this class.

PSY 399
INDEPENDENT STUDY
Undergraduate
PSY 402
PERCEPTUAL PROCESSES
Graduate
Analysis of the variables involved in the determination of perception with particular attention to the problems of space, motion, distance, size, form, aftereffects and constancies.

PSY 404
LEARNING AND COGNITIVE PROCESSES
Graduate
Survey of classical and instrumental conditioning, biological constraints, attention, memory, cognition, and practical applications. Major theoretical approaches include stimulus-response, early cognitive theories and information processing theory.

PSY 406
PHYSIOLOGICAL PROCESSES
Graduate
The functional role of neural systems important for the processes of motivation, emotion, sleep, memory, and cognition.

PSY 409
STATISTICS FOR THE BEHAVIORAL SCIENCES
Graduate
Applied inferential statistics.

PSY 240 is a prerequisite for this class.

PSY 410
ADVANCED STATISTICS I
Graduate
Brief review of introductory statistics, followed by a focus on Analysis of Variance and related techniques for data analysis. One way, factorial, repeated measures and ANCOVA with a priori and post hoc tests. Nonparametric alternatives to mean-comparison tests.

PSY 411
ADVANCED STATISTICS II
Graduate
Multiple linear regression, analysis of covariance, and logistic regression.

PSY 410 is a prerequisite for this class.

PSY 412
ADVANCED STATISTICS III
Graduate
Advanced Statistics III

PSY 411 is a prerequisite for this class.

PSY 413
ANALYSIS OF LONGITUDINAL DATA
Graduate
Analysis of changes and time-dependent data.

PSY 411 is a prerequisite for this class.
PSY 414
CATEGORICAL DATA ANALYSIS
Graduate
Analysis of contingency tables and count data logit, probit and loglinear models.

PSY 414 is a prerequisite for this class.

PSY 416
METHODS IN QUALITATIVE RESEARCH
Graduate
History and paradigms of qualitative research, the strategies and data collection methods used, and how to make sense of qualitative data once it is collected.

PSY 418
MULTIVARIATE STATISTICAL ANALYSIS
Graduate
Multivariate regression, principal component, cluster analysis and multidimensional scaling. Canonical correlation, multivariate analysis of variance, linear discriminant function analysis.

PSY 418 is a prerequisite for this class.

PSY 419
FACTOR ANALYSIS AND PATH MODELING
Graduate
Theoretical foundations, methods of analysis, and comparison of various factor analytic models. Structural equation and measurement models using the Mplus/ LISREL program.

PSY 419 is a prerequisite for this class.

PSY 420
ADVANCED RESEARCH METHODOLOGY
Graduate
Design and analysis of basic and applied psychological research with an emphasis on statistical software.

PSY 420 is a prerequisite for this class.

PSY 421
ADVANCED EXPERIMENTAL DESIGN
Graduate
None

PSY 421 is a prerequisite for this class.

PSY 422
COMPUTING FOR THE BEHAVIORAL SCIENTIST
Graduate
An introduction to computer programming, web development, and other computer-intensive techniques as applied to behavioral science research.

PSY 425
COGNITIVE PROCESSES
Graduate
Cognitive Processes
PSY 426
ADVANCED LANGUAGE SEMINAR: PSYCHOLOGY OF BILINGUALISM
Graduate
This course presents an introduction to how bilinguals produce and understand language by examining theoretical constructs and research in psycholinguistics. It also explores developmental and methodological issues in bilingualism research.

PSY 427
SENSORY PROCESSES
Graduate
Sensory Processes

PSY 430
ADVANCED SOCIAL PSYCHOLOGY
Graduate
Advanced study of social psychological methodology, ethics and deception, attitudes, altruism, aggression, and interpersonal processes and attraction.

PSY 432
ATTITUDE ANALYSIS
Graduate
Theory and research in attitude formation and organization, communication and persuasion, resistance to persuasion, and measurement techniques.

PSY 433
SOCIAL JUDGMENT
Graduate
Theory and research in judgment of social stimuli, perceiving and evaluating persons, and social comparison processes.

PSY 434
SMALL GROUP BEHAVIOR
Graduate
Theory and research in goal formation, conformity, power and communication structures, cohesion, and task performance. The emphasis is on the behavior of persons within groups.

PSY 435
PSYCHOLOGY OF INTERPERSONAL RELATIONSHIPS
Graduate
Theory and research on selected aspects of close relationships. Cross-level with PSY 317.

PSY 437
ADVANCED PERSONALITY
Graduate
Critical analysis of research in personality with emphasis on the development and testability of major constructs in contemporary research.

PSY 439
ADVANCED DEVELOPMENTAL PSYCHOLOGY
Graduate
Current research and theories in child development relating to the preschool child, elementary school child, and adolescent. Emphasis on cognitive, language, and social/emotional development.
PSY 440
PSYCHOLOGY OF WORK AND MOTIVATION
Graduate
Current research and theories in organizational psychology relating to motivation, job satisfaction, work attitudes, employee withdrawal, and counterproductivity.

PSY 448 is a prerequisite for this class.

PSY 441
PSYCHOLOGY OF LEADERSHIP
Graduate
Current research and theories in organizational psychology relating to leadership, supervision, job performance, and managerial training. Emphasis is on theoretical development and empirical evaluation of constructs in contemporary research.

PSY 448 is a prerequisite for this class.

PSY 442
PERSONNEL PSYCHOLOGY
Graduate
Major issues in the Human Resource area. Topics include job analysis, job evaluation, pay equity, benefits, incentive systems, and personnel selection methods, focusing on recruitment, biodata, references, testing, interviews.

PSY 448 or instructor consent is a prerequisite for this class.

PSY 443
PSYCHOLOGY OF DESIGN
Graduate
This course helps students understand how theoretical principles of psychology can be applied to the design of human-centered organizations, environments and technologies. Prior familiarity with psychology and experimental design is strongly recommended. Cross-level with PSY 383.

PSY 448 is a prerequisite for this class.

PSY 444
PERFORMANCE APPRAISAL
Graduate
Theory of criterion development, the evaluation process, and measurement in performance appraisal. Emphasis on design and development.

PSY 448 is a prerequisite for this class.

PSY 445
ADVANCED TRAINING AND DEVELOPMENT IN ORGANIZATIONS
Graduate
In-depth exposure to issues related to training in industry and other organizations. Such topics as needs assessment, training program design, program evaluation, and relevant social and economic issues will be covered.

PSY 448 is a prerequisite for this class.

PSY 446
PSYCHOLOGICAL THEORIES OF ORGANIZATIONS
Graduate
Theory and research in the psychology of organizations relating to organizational design, analysis, systems, processes and change.

PSY 448 is a prerequisite for this class.
PSY 447
ORGANIZATIONAL CONSULTATION
Graduate
Applies behavioral science and managerial theories and methodologies to organizational consultation and change processes.

PSY 448
CONCEPTS, METHODS, AND ETHICS FOR INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY
Graduate
The major concepts and techniques relevant to I/O psychology. Topics include psychometrics, regression, validity generalization, utility, legal issues, affirmative action, and ethics.

PSY 450
PSYCHOLOGICAL MEASUREMENT
Graduate
Logical and mathematical principles underlying test construction with emphasis on evaluating the reliability and validity of scores.

PSY 451
APPLIED STATISTICAL PREDICTION
Graduate
Applications of statistics and psychological measurement to the problems of predicting human performance. Several computer programs will be used to analyze data.

PSY 454
BEHAVIOR MODIFICATION
Graduate
Analysis of principles, practices and research related to learning theory and the modification of human behavior.

PSY 461
HISTORY AND SYSTEMS OF PSYCHOLOGY
Graduate
A review of the history of modern psychology, including various theoretical systems. Topics covered will include contributions of important leaders in the field, specific trends throughout the history of psychology, and the major philosophical questions underlying psychological science. Cross-level with PSY 361.

PSY 469
EMOTIONS AND EMOTIONAL DEVELOPMENT
Graduate
Emotions And Emotional Development

PSY 473
THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING
Graduate

PSY 481
INDIVIDUAL INTELLIGENCE TESTING I
Graduate
Theories of intelligence and cognitive development. Introduction to the administration of verbal and various nonverbal tests including the Stanford Binet, Wechsler Intelligence Scale for Children and Wechsler Adult Intelligence Scale and the clinical use of these instruments. Materials fee $10.00.
PSY 482
PERSONALITY ASSESSMENT
Graduate
Administration and scoring of the Rorschach and Thematic Aperception Test and other tests. Evaluation of tests and related areas of research and development.

PSY 483
ADVANCED PSYCHODIAGNOSTICS
Graduate
Advanced study of projective techniques and other assessment methods, with emphasis on analysis, interpretation and integration of all pertinent clinical data, and report writing.

PSY 484
BEHAVIORAL ASSESSMENT
Graduate
Behavioral observation and recording. Self-report measures. Physiological measurement. Evaluation of behavioral measures and areas of research.

PSY 485
NEUROPSYCHOLOGICAL TESTING
Graduate
Introduction to theory and assessment techniques related to adult and child neurological functioning.

PSY 486
ADVANCED PSYCHOPATHOLOGY
Graduate
Review of the major diagnostic categories as outlined by the current Diagnostic and Statistical Manual. Current issues in psychopathology and related research are reviewed.

PSY 487
PSYCHOPATHOLOGY OF THE CHILD
Graduate
Introduction to the many categories of psychopathology affecting children and adolescents. Emphasis on the developmental and environmental contexts.

PSY 488
PRINCIPLES OF PSYCHOTHERAPY
Graduate
Analysis of theoretical approaches to psychotherapy.

PSY 489
GROUP PSYCHOTHERAPY
Graduate
Principles, theories and techniques of group psychotherapy. Problems of selection of group members and evaluation of progress.

PSY 491
TREATMENT METHODS WITH CHILDREN
Graduate
Consideration of a variety of treatment approaches used to help alleviate the psychological problems of children.
PSY 492
PRINCIPLES OF CONSULTATION
Graduate
Principles and dynamics in consulting with communities. Emphasis on collaborative and participatory approaches to consulting with communities in social change efforts, research/evaluation, organizational development, and systems issues. Gaining entree, assessing community context, and maintaining relationships with diverse community stakeholders.

PSY 493
ADVANCED COMMUNITY PSYCHOLOGY
Graduate
An advanced introduction to community psychology with an emphasis on major historical and contemporary themes such as prevention of psychological problems and promotion of wellness, empowerment and social justice, community research methods, diversity in gender, ethnicity, sexual orientation and disability status, community processes, and collaboration and intervention to address social problems.

PSY 495
GRANT WRITING IN PSYCHOLOGY
Graduate
This course will facilitate students' ability to transpose psychology principles and theory into practice by preparing them to be psychology entrepreneurs via the grant writing process. Class members will become familiar with public and private funding sources, searching for appropriate funding sources, and reviewing a proposal. Class members will create a grant proposal that can be submitted to a funding organization.

PSY 500
PROFESSIONAL ETHICS
Graduate
Introduction to ethical issues in the field of clinical psychology. Two quarter hours.

PSY 501
STATISTICAL APPLICATIONS SEMINAR
Graduate
Introduction to advanced applications of statistical packages for data analysis, data management, and simulation.

PSY 510
BEHAVIORAL MEDICINE
Graduate
Behavioral medicine approaches are introduced.

PSY 511
HEALTH PSYCHOLOGY
Graduate
A survey of the psychological factors involved in health and illness. Also explores the psychological issues in prevention of illness, and psychological considerations in treatment. Cross-listed as MPH 511.

PSY 520
PRINCIPLES OF HUMAN DIVERSITY
Graduate
Considerations related to minority status and issues specific to diagnostics and interventions with minority populations.

PSY 521
PSYCHOLOGY OF THE AFRI CAN-AMERICAN CHILD
Graduate
Development and socialization of African-American child from infancy to adolescence. Emphasis on psychological and cultural factors which influence these processes. Understanding the child, family, language and IQ, education and learning styles, and cultural identity are all emphasized. Cross-level with PSY 346.
PSY 550
SEMINAR IN TEACHING PSYCHOLOGY
Graduate
This course exposes students to major pedagogical and classroom management considerations in higher education and familiarizes students with instructional support services across the university. This year-long, cohort-based course is required for graduate students prior to becoming instructors in the department. It begins each Winter Quarter and ends Autumn Quarter. Students who enroll should expect to complete all requirements for the master's degree prior to Autumn Quarter. Zero-credit hours.

PSY 551
SEMINAR IN EXPERIMENTAL PSYCHOLOGY
Graduate
None

PSY 552
SEMINAR IN NEUROPSYCHOLOGY
Graduate
None

PSY 553
SEMINAR IN PERSONALITY RESEARCH
Graduate
None

PSY 554
SEMINAR IN DEVELOPMENTAL PSYCHOLOGY
Graduate
This course focuses on special topics in developmental psychology and may cover social, emotional, language, and/or cognitive development during selected portions of the lifespan. Relevant theories and empirical research will be analyzed. Cross-level with PSY 378.

PSY 555
SOCIAL AND EMOTIONAL DEVELOPMENT
Graduate
Focus on development of emotions, social relationships, and social interaction. Both theoretical perspectives and research findings are presented and analyzed. Topics covered may include: primary emotions and their development, nonverbal communication of emotions, socialization within the family, friendship and peer relations, aggression, moral development, sex role development, and attachment. Cross-level with PSY 370.

PSY 556
SEMINAR IN SOCIAL PSYCHOLOGY
Graduate
None

PSY 557
SEMINAR IN LEARNING AND COGNITIVE PROCESSES
Graduate
Seminar in current issues in cognitive psychology.

PSY 558
SEMINAR IN ADVANCED STATISTICS
Graduate
PSY 411 and PSY 420 are a prerequisite for this class.
PSY 559  
SEMINAR IN INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY  
Graduate  
Four quarter hours.  
PSY 448 or instructor consent is a prerequisite for this class.

PSY 560  
SOCIAL COGNITION  
Graduate  
Theory and research dealing with the major aspects of social cognition and mental control, including social perception, stereotyping, memory and affect. Cross-level with PSY 348.

PSY 561  
ADVANCED PSYCHOLOGY OF WOMEN AND GENDER  
Graduate  
A review of research and theory on women, including sexist biases in traditional research, feminist methodology, pedagogy and therapy, violence against women, gender differences in development, relationships, sexuality, and the interplay of gender, race and sexual orientation. Cross-listed with MLS 478 and WGS 470.

PSY 562  
SEMINAR IN FAMILY THERAPY  
Graduate  
A review of systems theory and the assessment and treatment of families.

PSY 563  
MENTAL IMAGERY  
Graduate  
Theory, research and practical applications of mental imagery are considered in lecture/discussion/student-report format. Variety of imagery techniques will be reviewed which have been found useful in research and practice. Special attention devoted to the differences between subjective approaches (consciousness and vividness ratings) versus objective approaches (memory measures) of studying imagery. Cross-listed with PSY 362.

PSY 564  
SEMINAR IN CLINICAL RESEARCH  
Graduate  
PSY 488 is a prerequisite for this class.

PSY 565  
PROFESSIONAL DEVELOPMENT SEMINAR  
Graduate  
An interactive seminar that provides guidance regarding master's thesis research, comprehensive examination or literature review, and/or dissertation plans. Attention to pathways for success in doctoral education, practica, internship, scientific research and careers. Selected topics vary with student needs and interests.

PSY 566  
SEMINAR IN PSYCHOPATHOLOGY  
Graduate  
None

PSY 567  
SPECIAL TOPICS IN COMMUNITY PSYCHOLOGY  
Graduate  
Explores topics of current interest in the area of Community Psychology and related fields for advanced graduate students, with emphases on theory, research and intervention.
PSY 568
SEMINAR IN COMMUNITY PSYCHOLOGY
Graduate
Analysis of theories of community and human behaviors from the standpoint of general systems principles.

PSY 569
SEMINAR IN PROGRAM EVALUATION
Graduate
Evaluation of social programs and policies (including needs assessment, logic models, process evaluation and outcome evaluation). Theories, methods, and practice of program evaluation

PSY 570
SEMINAR IN PSYCHOTHERAPY RESEARCH
Graduate
None

PSY 572
PSYCHOBIOLOGY OF SOCIAL COGNITION
Graduate
Explores social cognition in the frame of evolutionary, neorophysiological, and developmental biology. Comparison of human with other animal social-cognitive characteristics will be examined. Neuropsychological data and developmental psychobiology will be studied.

PSY 574
PRE-PRACTICUM IN CLINICAL PSYCHOLOGY
Graduate
Introduction to practica duties. May be repeated three times. No Credit.

PSY 577
PRACTICUM IN CLINICAL ASSESSMENT
Graduate
Supervised experience in intake interviewing, psychological evaluation, and case conference presentation in a clinic, hospital or community agency setting. Zero credit hours.

PSY 578
PRACTICUM IN CLINICAL PSYCHOLOGY
Graduate
Supervised experience in diagnostic assessment, intervention planning, psychotherapy and report writing through varied assignments to campus or community agencies. Zero credit hours.

PSY 579
PRACTICUM IN CHILD CLINICAL PROCEDURES
Graduate
Supervised practice in the diagnosis and treatment process of the problems of children and adolescents. May be repeated twice. Zero credit hours.

PSY 582
ADVANCED PRACTICUM-CLINICAL PSYCHOLOGY
Graduate
Zero credit hours.

PSY 583
PRACTICUM IN COMMUNITY MENTAL HEALTH
Graduate
Zero credit hours.
PSY 584
PRACTICUM IN SPECIAL AREAS IN PSYCHOLOGY
Graduate
Zero credit hours.

PSY 585
FIELDWORK IN COMMUNITY SETTINGS
Graduate
An applied experience which integrates skills of consultation, program development, advocacy, and program evaluation.

PSY 586
PRACTICUM IN APPLIED INDUSTRIAL/ ORGANIZATIONAL PSYCHOLOGY
Graduate
Supervised experience in the application of I/O Psychology and technical report writing.

PSY 587
PRACTICUM IN ADVANCED RESEARCH IN INDUSTRIAL/ ORGANIZATIONAL PSYCHOLOGY
Graduate
Supervised experience in I/O research and the preparation of research results for publication.

PSY 588
TOPICS IN EXPERIMENTAL PSYCHOLOGY I
Graduate
Consideration of topics of current interest to the faculty and advanced graduate students. Introduction to research methods and data analysis.

PSY 589
TOPICS IN EXPERIMENTAL PSYCHOLOGY II
Graduate
Topics in experimental psychology.

PSY 590
THESIS SEMINAR
Graduate
Zero-credit hours.

PSY 591
COLLOQUIUM IN INDUSTRIAL/ ORGANIZATIONAL PSYCHOLOGY
Graduate
Required of all I/O students. Register in Fall term; continues throughout the year. Presentations on research and other topics by students, faculty, and invited speakers. Zero-credit hours.

PSY 592
DIRECTED RESEARCH
Graduate

PSY 593
PRE-DOCTORAL RESEARCH
Graduate
Graduate students in specific doctoral programs are required to register for this course for at least three quarters prior to registering for Psy 598 (Dissertation Seminar) or Psy 599 (Dissertation Research). This course requires full-time (at least 8-12 hours per week) work on research under the supervision of a faculty mentor. Zero-credit hours.
PSY 594
PSYCHOLOGICAL RESEARCH
Graduate
A course involving intensive readings in contemporary psychological literature. (Arranged by prior consultation with the chair). One to four quarter hours.

PSY 595
COLLOQUIUM
Graduate
Required of all graduate students each quarter until graduation. Lectures by psychologists and members of the faculty. Zero-credit hours.

PSY 596
INTERNSHIP IN CLINICAL PSYCHOLOGY
Graduate
Arranged with consent of director of clinical training. Zero-credit hours.

PSY 597
MASTER'S THESIS RESEARCH
Graduate
Original investigation of a specific research problem. Four hours required.

PSY 598
DISSERTATION RESEARCH SEMINAR
Graduate
Seminar for doctoral candidates working on their dissertation. Students will develop their proposals or write their results and discussion sections, depending on status of their dissertation research. Students will also review and critique work of other students. Zero credit hours.

PSY 599
DISSERTATION RESEARCH
Graduate
Four hours total required. One to four hours per quarter.

PSY 634
ADOLESCENT DEVELOPMENT
Graduate
Focus on normal processes in adolescent development as well as risk factors for maladaptive development.

PSY 639
ADVANCED DEVELOPMENTAL PSYCHOLOGY
Graduate
Focus on major theories and research in child development.

PSY 653
ABNORMAL PSYCHOLOGY
Graduate
Focus on the primary psychological diagnoses common today.

PSY 654
COMMUNITY PSYCHOLOGY
Graduate
Focus on systemic and ecological theories of human behavior, diversity, social support, community intervention and evaluation, empowerment, social change, and working with underserved populations. Community service project required. Cross-level with PSY 354.
PSY 663
ALCOHOLISM, DRUG ADDICTION, AND RECOVERY
Graduate
Research and theory on alcoholism, drug addiction, and recovery are the focus of this course. Cross-level with PSY 363.

PSY 678
CHILD ABUSE AND NEGLECT
Graduate
This course surveys the causes, consequences, and contextual factors associated with child maltreatment (abuse and neglect) and interventions for children and families. The course considers maltreatment within an ecological context and works to build sensitivity to diverse families and cultural patterns. It is designed for graduate students with some prior coursework or experience in child psychology, mental health, or child welfare. Cross-level with PSY 368.

Graduate standing is a prerequisite for this class.

PSY 680
INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
Graduate
Application of theories and methods of psychology to the study of human behavior in business, industry, and other organizations. Cross-level with PSY 380.

PSY 701
CANDIDACY CONTINUATION
Graduate
Students admitted to candidacy for the doctoral degree who have completed all course and dissertation registration requirements are required to be registered each quarter of the academic year until the dissertation and final examination have been completed. Zero-credit hours.

PSY 702
NON-RESIDENT CANDIDACY CONTINUATION
Graduate
Non-Resident Candidacy Continuation

RE 300
REAL ESTATE LAW
Undergraduate
This course provides an overview of legal principles including: ownership structures, transactions and title issues, land use regulation, environmental constraints, and income tax and property tax.

RE 320
URBAN PLANNING AND PUBLIC POLICY
Undergraduate
This course provides a systematic introduction to urban planning issues for students who have little background in this area. The course will explore both historical and contemporary urban planning concepts and will cover a wide variety of topics including land use regulation, economic development, environmental and energy planning, growth management and urban development issues, generally from a real estate and built environment perspective.

RE 350
REAL ESTATE ANALYSIS
Undergraduate
This course introduces essential institutional, legal, regulatory, and financial aspects of real estate in the U.S. economy and financial system. It is designed to facilitate personal decisions on home ownership and investment and it incorporates demographic data for real estate market analysis, exercises in land use planning and investment decisions.

At least 88 cumulative units is a prerequisite for Business courses that require Junior standing.
Patterns of financing real estate property, including a general overview of the importance of real estate capital markets. Institutional analysis, including critique of alternative mortgage instruments, an analysis of installment financing, construction financing, convertible mortgages, and leases and sale-leaseback financing. Secondary mortgage markets and mortgage-related securities, risk and return analysis.

FIN 310 is a prerequisite and RE 350 is a corequisite for this class.

The course explores real estate investment risk and opportunity. Topics include commercial lease transactions and value; impact of taxation on the investment decision, asset development and acquisition analysis, and alternative investment vehicles.

FIN 310 is a prerequisite and RE 350 is a corequisite for this class.

Real Estate Valuation. Introduction to market analysis and the appraisal process. Basic approaches to valuation analysis including both residential and income properties. This course includes the income capitalization methods and complex valuation assignments.

RE 350 is a corequisite for this class.

Special Topics in Real Estate offers an in-depth study of current industry-related issues. Content, format, and prerequisites vary by section. Subject matter will be indicated in the class schedule.

Available to students of demonstrated capability for intensive independent work in real estate.

This course introduces urban planning for students who have little background in this area. The course explores both historical and contemporary urban planning concepts and covers a wide variety of topics including land use regulation, environmental and energy planning, growth management/smart growth issues, legal and regulatory requirements and regional/national planning concepts, generally explored from a real estate perspective. The course concludes with a three class urban planning workshop, redeveloping a five block blighted neighborhood in a hypothetical city to create a well-designed, sustainable community.

This is a survey course of real estate law and will be approached on both practical and theoretical levels, with an emphasis on the historical underpinnings of land law. Topics include contracts, landlord/tenant law, title, transactions, taxation, and land use.
RE 525
PROJECT MANAGEMENT: DESIGN AND CONSTRUCTION
Graduate
This course provides a systematic introduction to building design and construction for students who have little background in this area. The course explores both the conceptual and practical aspects of designing and constructing commercial buildings and covers a wide variety of topics including: site development - building design - building materials, systems and construction methods and practices - budgets - scheduling - overall proforma feasibility - LEED Certification, Sustainability and Green Building issues. The course concludes with a major project that will allow each student to develop a conceptual building design, a construction budget, a construction schedule and a pro forma feasibility analysis.

RE 530
REAL ESTATE INVESTMENT AND FINANCE
Graduate
This course is designed to develop the vocabulary, concepts, and skills for rational real estate investment decisions. It will consider both the debt and equity side of private market real estate decision making. Topics include risk analysis, regional and sub-market economics, and property specific analysis. Case analysis is an integral part of the course.

Completion or concurrent enrollment in FIN 555 is required.

RE 531
REAL ESTATE CAPITAL MARKETS AND FINANCE
Graduate
Analysis of private and public institutions involved in real estate finance. A critical study of institutional arrangements facilitating real estate investment and development, and analysis of yields and risk in mortgages and mortgage backed securities.

RE 53 is at least co-requisite for this class.

RE 533
REAL ESTATE MARKET ANALYSIS AND VALUATION
Graduate
Market analysis techniques and critical analysis of the appraisal process in the valuation of income producing properties. Exploration of both basic and innovative approaches to value employing computer databases and information technology.

RE 530 is at least co-requisite for this class.

RE 535
INSTITUTIONAL REAL ESTATE INVESTMENT
Graduate
Analysis of complex ownership structures and the changing world of real estate capital markets. Case course with a focus on institutional investment portfolios including private equity, pension fund and REIT acquisition & disposition decisions.

RE 530 is at least co-requisite for this class.

RE 570
ADVANCED REAL ESTATE ANALYSIS WITH ARGUS
Graduate
This course is designed to develop the vocabulary, concepts, and analytical skills necessary to make informed commercial real estate investment decisions at a very detailed level using the Argus software platform, as well as other software and database tools for research and analysis. RE530 is a prerequisite or may be taken concurrently with the permission of the instructor.

RE 596
REAL ESTATE SEMINAR
Graduate
The objectives of this course are to identify current, researchable topics pertaining to real estate and for students to perform independent research on selected topics approved by the seminar professor. Meetings will be held on both a class and on an individual basis. Students will present both their proposals and the results of their preliminary investigations in class. A seminar research paper is required of each student.
This is a unique opportunity in which interns gain experience and apply their skills in the workplace. While building an impressive resume for further job opportunities, the intern will be immersed in a stimulating environment with a pool of established resources. The course may be taken multiple times for a total of 4 credit hours.

Content and format of this course are variable. In-depth study of current issues in finance. Subject matter will be indicated in class schedule. Offered variably and may be taken multiple times provided the content is not duplicated.

Available to graduate students of demonstrated capability for intensive independent work in finance.

Introductory course to acquaint students with concepts and techniques of sound recording technology. Open to all music students and required for SRT majors.

Status as a Music student is a prerequisite for this class.

Open only to SRT majors. Basic studies in audio engineering with technological application in recording studio settings. Emphasis on acoustics, microphones, and microphone techniques. This is part of a two-year sequence of courses for sound recording technology majors.

REC 201 and MUS 230 are a prerequisite for this class.

Open only to SRT majors. Basic studies in audio engineering with technological application in recording studio settings. Emphasis on principles of digital recording and editing. This is part of a two-year sequence of courses for sound recording technology majors.

REC 201 is a prerequisite for this class.

Open only to SRT majors. Basic studies in audio engineering with technological application in recording studio settings. Emphasis analog recording and signal processing. This is part of a two-year sequence of courses for sound recording technology majors.

REC 202 is a prerequisite for this class.

This course is designed to teach practical skills in analog electronics. Some basic theory will be outlined using as little mathematics as possible. Hands-on skills to be covered include soldering, testing, and modifying solid state circuitry.
REC 216
PRO TOOLS AND THE DEVELOPMENT OF THE RECORDING STUDIO
Undergraduate
The goal of this course is to transform students from casual listeners of recorded music into educated critical analysts. Students will study the history and development of recording technology and recording studios. Lab exercises will teach the basics of recording and signal processing using Digidesign Pro Tools software. Arts and Literature.

REC 300
CONTEMPORARY FILM SCORING
Undergraduate
(4 credits) Undergraduate level course designed for Music, CDM, Communication, and Theater majors who want an understanding of film music and the mechanics of scoring to picture. It will cover the basics of spotting films, writing with a click track, and utilizing synthesizers and samplers to realize film music.

Status as Undergraduate or Graduate Music student, Undergraduate Theatre student, Undergraduate Communication student or Undergraduate CDM student is a prerequisite for this class.

REC 301
RECORDING TECHNOLOGY IV
Undergraduate
Open only to SRT majors. Basic studies in audio engineering with technological application in recording studio settings. Emphasis on consoles and audio for film. This is part of a two-year sequence of courses for sound recording technology majors. COREQUISITE(S): REC 304.

REC 203 is a prerequisite for this class.

REC 302
RECORDING TECHNOLOGY V
Undergraduate
Open only to SRT majors. Basic studies in audio engineering with technological application in recording studio settings. Emphasis on music production and the capstone audio/video sound design project. COREQUISITE(S): REC 305.

REC 301 is a prerequisite for this class.

REC 303
RECORDING TECHNOLOGY VI
Undergraduate
Open only to SRT majors. Basic studies in audio engineering with technological application in recording studio settings. Emphasis on surround sound mixing, and DVD authoring. COREQUISITE(S): REC 306.

REC 302 is a prerequisite for this class.

REC 304
SOUND PRACTICUM I
Undergraduate
Practical experience with technological applications in the recording studio. CO-REQUISITE(S): REC 301.

REC 203 is a prerequisite for this class.

REC 305
SOUND PRACTICUM II
Undergraduate
Practical experience with technological applications in the recording studio. COREQUISITE(S): REC 302.

REC 304 is a prerequisite and REC 302 is a corequisite for this class.
REC 306
SOUND PRACTICUM III
Undergraduate
Practical experience with technological applications in the recording studio. COREQUISITE(S): REC 303.

REC 305 is a prerequisite and REC 303 is a corequisite for this class.

REC 307
COMMERCIAL MUSIC PRODUCTION
Undergraduate
For students with a music theory background that want to learn how to realize music using digital sequencing and sampling. This course will focus on creating tracks in pop genres for film, soundtracks, video games, and commercials.

Status as a Music student is a prerequisite for this class.

REC 360
TOPICS IN SOUND RECORDING TECHNOLOGY
Undergraduate
In depth investigation of a topic in sound recording technology

REC 398
INDEPENDENT STUDY
Undergraduate
Independent Study

A petition to major is a prerequisite for this class.

REL 103
RELIGIOUS WORLDS IN COMPARATIVE PERSPECTIVE
Undergraduate
An examination of the nature and function of religion in human life. An exploration of common patterns underlying the variety of religious experience and expression.

REL 107
JUDAISM IN HISTORY: FROM THE BIBLE TO 1492
Undergraduate
The purpose of this course is to provide a basic understanding of Judaism as the historic and evolving religious expression of the Jewish people. It seeks to provide students an entree into the world of Jewish religious and historical experience and to help them develop a conceptual understanding of the thought and practice that underlies the Jewish worldview. It also seeks to examine certain continuities and discontinuities in the conception of Judaism as reflected in selected texts which express the full range of Jewish religious and national creativity. Among the topics to be discussed are the complex relations of Jewish thinkers to the surrounding non-Jewish cultures, and how these interactions affected the Jews understanding of Judaism. The approach to this material will be intellectual-historical. The course is designed as the first part of a two-course sequence on the history of Judaism from the Bible to the present. It focuses on the history of Jewish tradition from the earliest references to Ancient Israel circa 1200 BCE to the expulsion of Jews from Spain in 1492.

REL 108
JUDAISM IN HISTORY: FROM 1492 TO PRESENT
Undergraduate
The purpose of this course is to provide a basic understanding of Judaism as the historic and evolving religious expression of the Jewish people. It seeks to provide students an entree into the world of Jewish religious and historical experience and to help them develop a conceptual understanding of the thought and practice that underlies the Jewish worldview. It also seeks to examine certain continuities and discontinuities in the conception of Judaism as reflected in selected texts which express the full range of Jewish religious and national creativity. Among the topics to be discussed are the complex relations of Jewish thinkers to the surrounding non-Jewish cultures, and how these interactions affected the Jews understanding of Judaism. The approach to this material will be intellectual-historical. The course is designed as the second part of a two-course sequence on the history of Judaism from the Bible to the present. It focuses on the history of Jewish tradition from the expulsion of Jews from Spain in 1492 to the present.
REL 109
THE JEWISH EXPERIENCE
Undergraduate
An introductory course offering a basic understanding of Judaism as the historic and evolving religious expression of the Jewish people, surveying the basic aspects of traditional Jewish life and thought as well as the people's many-sided experience of the modern world.

REL 110
THE CHRISTIAN EXPERIENCE
Undergraduate
An introductory course surveying the range of traditions that have emerged within the Christian movement, and offering an historical perspective on the life and thought of Christian communities, and their prospects for the future.

REL 111
THE AMERICAN RELIGIOUS EXPERIENCE
Undergraduate
Major religious movements in America with emphasis upon the development of religious pluralism. Impact of religious beliefs and values upon American culture.

REL 113
THE LATINO RELIGIOUS EXPERIENCE IN THE UNITED STATES
Undergraduate
An examination of the diverse nature of Latino religion, from its indigenous roots to its institutional forms, within the social and political context of American culture.

REL 115
THE AFRICAN AMERICAN RELIGIOUS EXPERIENCE
Undergraduate
An examination of the religious experience of African Americans and its African precursors through historical and literary resources, reflecting this people's distinctive past and its interactions with other elements of American culture. Formerly REL 215.

REL 116
THE ISLAMIC EXPERIENCE
Undergraduate
An introduction to major recurrent religious themes and alternative models of religious interpretation and authority in Islam's manifold expressions, from the life of Muhammad and the Qur'an, to popular ritual and spirituality and the Islamic humanities.

REL 142
HINDU EXPERIENCE
Undergraduate
A survey of the varieties of Hindu practice and thought. Hinduism in India and throughout the world will be examined.

REL 143
BUDDHIST EXPERIENCE
Undergraduate
A survey of the varieties of Buddhist practice and thought. Different forms of Buddhism throughout the world will be examined.

REL 144
THE AFRICAN RELIGIOUS EXPERIENCE
Undergraduate
A survey of the varieties of African religious practice and thought.
REL 161
INDIGENOUS RELIGIONS OF NORTH AMERICA
Undergraduate
An introductory exploration of the close ties particular religious traditions of Native North America have with their own distinctive historical realities, geographic-celestial topographies, and political and social structures. Considers variety of oral, written, ritual, visual and archaeological texts.

REL 162
POPULAR AND INDIGENOUS RELIGIONS OF MEXICO AND CENTRAL AMERICA
Undergraduate
An exploration of old and new religious traditions of Mexico and Central America and its diaspora. Our studies will focus on myths and stories as ancient as pre-Conquest times and as recent as today's movies; and we will examine them in written, oral, visual, ritualized, theatrical, musical and even electronic forms.

REL 180
INTRODUCTION TO CATHOLICISM
Undergraduate
An examination of the breadth of the Catholic experience from a 1st-century Jewish religious movement to a 21st-century global religion.

REL 183
THEMES IN CATHOLIC SOCIAL THOUGHT
Undergraduate
An initial, systematic examination of major themes in modern Catholic social thought. Cross-listed as CTH 183.

REL 190
INTERPRETING SACRED TEXTS
Undergraduate
A survey of the formation, use and interpretation of sacred texts by religious and secular communities.

REL 199
RELIGIOUS STUDIES - OFF CAMPUS
Undergraduate
Religious Studies credits earned off-campus. Topics vary.

REL 200
DEBATES ABOUT GOD
Undergraduate
A study of classical and contemporary arguments regarding the existence and meaning of "God," as developed in a variety of theistic traditions.

REL 201
RELIGION AND ETHICS I
Undergraduate
Analytic and normative approaches to ethics in Western philosophical and Christian traditions.

REL 202
ETHICAL WORLDS: MORAL ISSUES ACROSS CULTURES
Undergraduate
An exploration of religion and ethics from a comparative and international perspective. Ethical dimensions of diverse world religious traditions will be investigated within their own particular historical and cultural contexts, and students will be asked to consider and evaluate their own ethical orientations in the light of these studies.
REL 205
RELIGION AND ETHICS II
Undergraduate
Analytic and normative approaches to ethics in a non-Christian tradition, such as Judaism, Islam or African traditional religions.

REL 212
RELIGION AND POPULAR CULTURE
Undergraduate
An exploration of various forms of popular culture and their intersection with diverse religious traditions and ethical concerns. The course also examines the marketing in mass media of religious themes in popular culture.

REL 213
CHRISTIAN THOUGHT IN CLASSICAL AND MEDIEVAL TIMES
Undergraduate
A study of the development of Christian theologies in Western civilization from post-New Testament times to the Renaissance, with emphasis on St. Augustine and St. Thomas Aquinas.

REL 214
TRANSFORMATION IN CHRISTIANITY: THE REFORMATION TO THE PRESENT
Undergraduate
A study of the development of Christianity since 1500 C.E., exploring the Protestant and Catholic Reformations, the growth of Christianity in the United States, and its encounter with a variety of Enlightenment and post-Enlightenment themes and figures, especially concerning science, justice, relativity and religious pluralism.

REL 217
ISLAM IN GLOBAL CONTEXTS
Undergraduate
A study of Islam's developments in various global contexts, including Arabian beginnings, the Middle East, Central, Eastern and Western Europe, China, the former Soviet States and South Africa, with a focus on the impacts that these cultures and Islam have had on each other.

REL 218
BLACK INTELLECTUAL TRADITIONS
Undergraduate
An introduction to Black intellectual traditions which emerge from and inform Black religious traditions and which have religious and/or liberation content. Thinkers and content vary.

REL 219
SLAVERY, RACE AND RELIGION
Undergraduate
This class examines religious arguments, from the 1500's through the 1700's, for and against slavery. Students will investigate different historical and theoretical definitions of slavery. Students will also gain an introduction to the relationship between slavery, evangelicalism, capitalism, and Enlightenment moral philosophy.

REL 220
PSYCHOLOGY AND RELIGION
Undergraduate
Psychological factors operative in acquisition, formation and development of religious expression and commitment.

REL 221
RELIGION IN SOCIETY
Undergraduate
Sociological study of religious groups, institutions, behavior, and belief systems in human life and society.
REL 222
CONTEMPORARY MORAL ISSUES
Undergraduate
A study of the relations between religious beliefs and moral action to be carried out through an examination of the ethical and moral response of various religious traditions to selected moral issues such as war and peace, sexual behavior, etc.

REL 223
LITERATURE AND THE SACRED
Undergraduate
Variable topics. How human beings across cultures express their intimations of ultimate meaning in a variety of genres ranging from aphorisms and autobiographies to mythic and fictional narratives.

REL 224
RELIGION AND POLITICS IN THE UNITED STATES
Undergraduate
Variable topics. Explores the interplay of religion, politics and culture in the United States, focusing on citizenship and religious identity in the USA's multicultural, multiethnic, multireligious society. Various sections will focus on different particular religious communities and themes, such as the Religious Right and the Religious Left, the political activities of particular communities, and the challenges of interreligious dialogue.

REL 225
RELIGION AND THE ARTS
Undergraduate
Variable topics. How human beings across cultures express their comprehension and experience of ultimate meaning in a variety of artistic forms.

REL 226
TECHNOLOGY/ETHICS AND SOCIETY
Undergraduate
An examination of the impact of modern technologies on society with particular attention paid to ethical issues.

REL 227
RELIGIOUS ETHICS AND PROFESSIONAL LIFE
Undergraduate
A study of the ethical dimensions of contemporary professional life from the standpoint of religious traditions and values, focusing primarily on medicine, law and business.

REL 228
BUSINESS, ETHICS AND SOCIETY
Undergraduate
This course will examine the nature and purpose of economic life and contemporary commerce as understood from the perspective of religious and secular communities, as well as the ethical implications that flow from the various worldviews. Sections of the course critically examine the thought of different religious traditions on specific business-related issues, placing a variety of religious discourses into direct conversation with secular voices regarding ethical business conduct. Cross-listed as MGT 228.

WRD 103 or HON 100 or HON 101 is a prerequisite for this class.

REL 229
MEDICINE, ETHICS AND SOCIETY
Undergraduate
A study of moral/ethical issues arising in health care in light of contemporary biomedical advances and social changes (cultural, religious, economic, etc.). The viewpoints of various religious traditions and their rationales will be examined and critiqued.
REL 232
ANCIENT ISRAEL: HISTORY, LITERATURE, AND RELIGION
Undergraduate
The development of Judaism from Moses to the Rabbinic era with special attention to social and historical questions. Cross-listed as CTH 212.

REL 233
THE NEW TESTAMENT
Undergraduate
An introduction to the historical-critical investigation of the New Testament. Topics include the earliest Christian writings (letters of Paul), the production of “gospels” about Jesus, and the development of early churches in the context of ancient history and society.

REL 234
VARIETIES OF EARLY CHRISTIANITY
Undergraduate
An examination of multicultural diversity in early Christianity through a study of materials excluded from the New Testament canon; Christian apologists defending the church against pagan intellectuals and Roman imperial magistrates; comparisons of early Christian fiction and ancient Greek novels; and an examination of Gnostic writings.

REL 235
PAUL AND HIS INFLUENCE IN EARLY CHRISTIANITY
Undergraduate
A critical study of Paul's literary remains as primary sources for reconstructing the development of the Christian movement, focusing on Paul's communities, ethics and theology. Early interpretations and assessments of Paul will also be considered.

REL 236
VARIETIES OF JUDAISM IN THE GREEK AND ROMAN WORLD
Undergraduate
An examination of Judaism from the Jews' return from Babylonian exile in 538 BCE to the promulgation of the Mishnah in 200 CE, with a focus on the Roman period. The Dead Sea Scrolls, as well as concepts of the Messiah, the resurrection of the dead, the final judgment and the idea of the "Bible" will be studied.

REL 237
GODS IN THE ROMAN EMPIRE
Undergraduate
This course examines the role of gods in the social, political, and economic world of the first four centuries of the Roman Empire. Topics will include: the role of gods in civic life; the imperial cult; the use of the categories religion, superstition, and magic to mark social status; gods, family, and social values; religious innovation and the emergence of new gods; and the rise of Christianity and the worship of Jesus as a god. This course will pay special attention to the social interactions that create and sustain the plausibility of the existence of unseen deities governing the affairs of humans.

REL 238
THE HISTORICAL JESUS
Undergraduate
An investigation of the early Christian Gospels and other sources for reconstructing the life of Jesus of Nazareth. The relation of historical reconstruction and religious interpretation, and the significance of conflicting interpretations of Jesus, will also be considered.

REL 239
THE BIBLE GOES TO THE MOVIES
Undergraduate
This course examines the interaction of the Bible and Hollywood movies by considering how stories, ideas, and themes from the Bible have been portrayed in movies. Specific biblical texts will be analyzed in their historical context and in relation to contemporary movies.
REL 241
RELIGION IN CHINESE HISTORY, SOCIETY AND CULTURE
Undergraduate
An exploration of the Chinese religious landscape, focusing on social and practical dimensions of Chinese religion, such as state rituals and private cults, liturgies and individual practices of Taoist priests and adepts, politico-religious ideas that inspired popular messianic movements throughout Chinese history, and interrelations of Buddhist and Taoist clergies and institutions in the state.

REL 242
HINDU THOUGHT AND CULTURE
Undergraduate
Hinduism is one of the world's oldest religions, but it is also the world's most diverse religion. Despite its variety, certain themes have remained throughout the ages--karma and ethical responsibility, liberation from the bonds of worldly existence through yoga and devotion, communication with the divine through ritual, and the many forms, male and female, that God can take. This course traces the development of Hinduism from 5000 years ago to the present, with emphasis on change and continuity in those themes.

REL 243
BUDDHIST THOUGHT IN CULTURAL CONTEXT
Undergraduate
A study of Buddhism from its beginnings as a “non-orthodox” renunciant and monastic movement in ancient India, through its development into a myriad of religious expressions and practices, philosophical tendencies, and social forms over its twenty-five hundred year history.

REL 245
RELIGION IN JAPANESE HISTORY, SOCIETY, AND CULTURE
Undergraduate
Explores the specific interplay between religion and culture in Japan. Taking historical and cultural factors into account, it considers prehistoric Japanese religion, ancient imperial myths, the assimilation of Buddhism, Confucianism, and continental (Chinese/Korean) culture, the religious and aesthetic worlds of the court nobility and the warrior class, popular mountain cults, the revival and systematization of Shinto, the impact of western culture, Japanese ultranationalism, and the religious situation in the post-war period.

REL 246
TRADITIONS OF CHINESE POPULAR CULTURE
Undergraduate
Promotes an understanding of Chinese worldview and life in the perspective of the common Chinese people from ancient to modern times. Based on historical and modern texts in translation, some historical and ethnographic studies, as well as visual and aural materials, the course explores gender and generational relations and conflicts, ancestor veneration, the worlds of ghosts and gods, festivals, art, and entertainment, but also aspects of misery and social unrest. Although the course will draw largely on popular and entertaining sources, it will also pay attention to historical developments, the relationship between popular and elite traditions, as well as sociological and anthropological issues arising from these contexts.

REL 247
LITERATURE AND RELIGION IN JAPAN
Undergraduate
Focuses on the pervasive influence of religious thought and sentiment on Japanese literature from ancient to modern times and explores the intricate relationship between religion, aesthetics, and the arts in Japanese culture. Considers original works including ancient Japanese mythology and poetry, the memoirs of court ladies and Buddhist hermits, romance, epics, folktales and social satire, with attention to their historical, social, religious and social dimensions, as well as to the individual experience expressed in them.

REL 248
LITERATURE AND RELIGION IN CHINA
Undergraduate
Focuses on the interpretation of literature and religion in China. Considers original works of literature and explores the religious origins of Chinese script and writing itself, poetry and mystical philosophy, cosmology and revealed scripture, popular tales, ballads, plays and novels, and the reworking of contemporary Chinese American authors of their literary and religious heritage, with attention to their historical, social, religious and social dimensions, as well as to the individual experience expressed in them.
REL 250
MYSTICISM IN RELIGIOUS TRADITIONS
Undergraduate
This course will look at the phenomena of mysticism, its doctrines and practices, in various religious traditions. It will also look at how various forms of mysticism have influenced the religious traditions with which they associated, (e.g. how Sufism has impacted Islamic religion, civilization and society.) The course will then look at the present situation of mysticisms in regard to religious traditions and to broader societies.

REL 251
THE IDEA OF 'EVIL''
Undergraduate
This course will try and answer the question what is evil? In religious traditions is evil a relative term? Or is it a universal absolute? Does evil exist independently, or is it a result of the absence of good? How do religious traditions deal with the notion of evil? After we look at the religious, philosophical, historical, conceptualization of evil and how different religious traditions deal with it, the class will look at evil in popular culture (anthropological understanding of evil). How does the popular imagination understand evil? How do they depict and imagine evil (in film, and in literature)? Are these universalities or are they cultural relativism? How has popular culture dealt with evil? Finally the course tries to see if there is any connection with the popular imagination and religious traditions when it comes to evil.

REL 252
FORGIVENESS AND RECONCILIATION
Undergraduate
A study of various understandings of "forgiveness" and "reconciliation" in several religions and cultures. The nature and dynamics of forgiveness and reconciliation will be examined both theoretically and in relationship to specific conflicts. Cross-listed with PAX 252.

REL 254
THE BODY & HUMAN RELATIONSHIPS: DIVERGENT MEANINGS, CONFLICTING VALUES
Undergraduate
Love and sexuality in biblical and nonbiblical religions, examined cross-culturally, conceptually, and ethically.

REL 256
WELLNESS AND DISEASE IN RELIGIOUS PERSPECTIVE
Undergraduate
A study of notions related to human "health," "well-being" and "disease" in various religio-cultural situations. Physical, mental and spiritual health -- individual and communal -- will be considered. The significance of "plague," especially AIDS, as socio-religious and spiritual events will be critically examined.

REL 257
DEATH AND ITS BEYOND: EXPERIENCE, MYTH AND RITUALS
Undergraduate
Religious attitudes and practices responding to the phenomena of death and dying, studied cross-culturally, conceptually and ethically.

REL 259
RELIGION AND SOCIAL ENGAGEMENT
Undergraduate
An investigation of the ways in which various religious traditions engage the social order. Traditions, persons and movements that form the focus of the course will vary from section to section. The course will integrate theory and practice in studying forms of religious engagement. All students will perform some service to a community or within a community organization or agency.

Sophomore standing is a prerequisite for this class.

REL 260
RELIGION AND POLITICAL CONFLICT
Undergraduate
An examination of the role of religions and religious movements in political conflicts. Particular sections will examine the relationship of religions to violence and peacemaking in different areas of the world.
REL 262
RELIGION AND GLOBALIZATION
Undergraduate
An examination of the moral, religious, and social dimensions of the phenomenon of globalization. Through a critical assessment of both the positive and the negative dimensions of globalization, students will seek to understand more fully the ethical implications of globalization for economics, culture, and society.

REL 263
RELIGION AND POLITICS IN THE MIDDLE EAST
Undergraduate
An exploration of Judaism, Christianity and Islam as they develop and interact in the Middle East, historically and in terms of contemporary religious and political issues. Includes a study of personal narratives of people from Jewish, Christian and Muslim communities.

REL 264
COLONIZATION, RELIGION AND RESISTANCE
Undergraduate
This course will explore the religious traditions and cultural identities of some of the peoples native to the Americas, Africa, Asia and Oceania; problems they have with the "civilized" world and their potential solutions to them.

REL 265
REFORM MOVEMENTS WITHIN ISLAM
Undergraduate
This course will deal with the idea of "reform" within Islamic political movements in the modern period. The course will analyze various Islamic reform movements such as the Wahhabis, the Muslim Brotherhood, the Modernists, the Traditionalists, seeking a pattern in these movements. Cross-listed with IWS 265.

REL 266
ISLAM IN THE UNITED STATES
Undergraduate
An examination of the story of Islam in the United States in three historical periods: antebellum America, the first half of the 20th century, and the latter half of the 20th century. Explores Muslim slave life; the possibilities of retentions of Islam in slave culture; the religious, social/economic, and political life of Muslims at the beginning of the 20th century; the emergence of Islamic thought in the U.S. through an overview of the works of Ismail as-Faruqi, Seyyed Hossein Nasr and Fazlur Rahman. Cross-listed with IWS 266.

REL 268
MODERN JUDAISM
Undergraduate
An examination of central features of the modern Jewish experience including the transition from traditional to modern religious life and practice, American Judaism, the Holocaust, and the establishment of the State of Israel.

REL 269
JUDAISM IN ANTIQUITY
Undergraduate
This course traces the history of Israelite and Jewish culture and religion from their origins in the world of the Ancient Near East in the second millennium BCE until the rise of Islam in the seventh century CE. We will critically examine the meaning and mutual relationship of such categories as "ancient Israelite" religion, "biblical" religion, and "early Judaism." We will also discuss the history of religious institutions, texts, and practices, as well as the dynamics of continuity and change in ancient Israelite and Jewish society. This course will pay special attention to the complex relationship that exists between history and collective memory as constructed through texts and rituals.

REL 270
WOMEN IN THE BIBLE
Undergraduate
An examination of the historical role of women in the Bible and the contemporary concerns of feminist theology, women's spirituality and ethical issues arising from the contemporary application of these biblical texts to women's experiences.
REL 271
THE QUR’AN AND ITS INTERPRETERS
Undergraduate
A study of the origin, transmission, and interpretation of the Qur’an. Cross-listed with IWS 271.

REL 272
GENDER AND SEXUALITY IN MUSLIM CULTURES
Undergraduate
Explores historical and contemporary trends in writing on Muslim women along modern and contemporary narratives on gender and sexuality in Muslim majority and minority cultures. Cross-listed as REL 272.

REL 273
JESUS ACROSS CULTURES
Undergraduate
A study of the multiple and diverse (primarily theological, but also literary, artistic and philosophical) historical and contemporary images of Jesus, as a way of understanding the diversity of this tradition and of its impacts on society, and of understanding the issue of plurality or diversity itself in religious traditions.

REL 275
COMMUNITY AND AUTHORITY IN MEDIEVAL JUDAISM
Undergraduate
An introduction to the history, religion and culture of the Jewish people under Christendom and Islam from the fourth through the end of the fifteenth centuries.

REL 278
WOMEN AND RELIGION
Undergraduate
A study of the historical and contemporary roles and contributions of women within major religious traditions, especially Christianity and Judaism.

REL 280
Roman Catholic Theological Thinking
Undergraduate
A study of the Roman Catholic tradition of “faith seeking understanding” examining the content and the process of emergence of Catholic beliefs about such matters as God, sin, Jesus Christ, revelation, the church and eschatology. Cross-listed with CTH 243.

REL 281
Roman Catholic Liturgy
Undergraduate
A study of the emergence, meaning and dynamics of ritual in the Roman Catholic tradition. Cross-listed with CTH 231.

REL 282
Roman Catholic Spiritual Literature
Undergraduate
A study of the foundational religious experiences that underlie the Roman Catholic tradition, of the narratives they generate, and of their representations in various media such as poetry, music, myths, sacred legends and apologetic stories.

REL 283
Roman Catholic Social Thought in Context
Undergraduate
A study of Roman Catholicism’s understanding of its relation to the social world, including such matters as the relation between Church and State, the moral authority of the Church, and of its teaching on such issues as social ethics, politics and economics.
REL 284
CATHOLICISM AS A SPIRITUAL PATH
Undergraduate
An experience-centered study of the relationship between contemplation and action, prayer and service, liturgy and social justice, personal religious experience and the wider experience of Catholics. Both historical and contemporary spiritualities will be explored. (Cross-listed as Catholic Studies 229)

REL 285
ROMAN CATHOLICISM'S ENCOUNTER WITH OTHER RELIGIONS
Undergraduate
A study of how Roman Catholicism understands and responds to other religious traditions, other ways of being religious, and how the encounter with those other traditions affects Roman Catholicism's understanding of itself and its teachings.

REL 286
PILGRIMAGE, RELIGION AND POPULAR CULTURE
Undergraduate
How has the role of pilgrimage evolved from antiquity to the present age, and how can the phenomenon of pilgrimage provide a modern window into how a people define what is spiritually significant? Might the phenomenon of pilgrimage, as it is found in nearly every religious tradition, provide a common language and thus a means for building bridges across boundaries of religious difference? This course examines pilgrimage as a religious, cultural, historical and ethical phenomenon. Using methodologies developed in the study of religion, ethics, anthropology and popular culture, this course will introduce students to pilgrimage as it is practiced in expressions of Judaism, Christianity and Islam. The aim of this course is to explore some of the competing typologies and events associated with the formal study of religious ritual and then apply these learnings to modern cultural phenomena, work that will prepare students for the project of constructing their own pilgrimages.

REL 287
ROMAN CATHOLIC MORAL TRADITIONS
Undergraduate
This course examines various moral topics within a Roman Catholic framework. Papal pronouncements, Magisterial statements, Episcopal texts, the works of influential theologians, and critical voices both within and beyond the Church will be critically examined. Special attention will be paid to the method of moral argumentation.

REL 290
LATINO/ A LIBERATION TRADITIONS
Undergraduate
What does liberation mean in the context of the Americas today? How have people of Latin American descent -- both in Latin America and the United States -- connected conceptions of liberation to related ideas of liberty and freedom, as well as to notions of political revolution, cultural identity, and prophetic forms of religious faith? This course examines how these questions have been theorized across the Latino/a Americas, especially as they relate to questions of religion. Topics include liberation philosophy, critical pedagogy, prophetic religion, cultural praxis, Latina feminism, and decolonial thought.

REL 291
LOOKING FOR GOD IN LATIN AMERICA
Undergraduate
An examination of religious traditions such as Catholicism, indigenous religions, and Protestantism in Latin America, with special focus on how these traditions have been transplanted and reshaped upon entry into varied Latino communities in the United States. Historical analyses of the Latin American roots of these traditions will provide contextualization for the ongoing examination of transnational religious cultures in the U.S.

REL 295
SECTARIAN MOVEMENTS WITHIN ISLAM
Undergraduate
This course will look at the various sects within Islam such as Shi’ism, Kharjism, etc. The course will also look at theological sects such as the Mu'taziliets. The course will be concerned with the history, the beliefs, and the present circumstances (if they still exist today) of these sects. Cross-listed with IWS 295.
REL 298
METHODS AND APPROACHES IN THE STUDY OF RELIGION
Undergraduate
A study of the methods, theories, and philosophical approaches used to describe what is termed "religion" in the West. The course will focus on the central questions, key authors, and historical movements that have influenced the field of religious studies. Formerly REL 208.

REL 299
RELIGIOUS STUDIES, OFF-CAMPUS
Undergraduate
Religious Studies credits earned off-campus. Topics vary.

REL 300
THEORIES OF CULTURE AND RELIGION
Undergraduate
An investigation of the cultural study of religion. Considers classical, modern and postmodern approaches from a variety of traditions and academic disciplines. Uses a variety of materials such as oral and written texts and visual artifacts, as well as the works of major theorists.

REL 301
THEORIES OF RELIGION AND SPIRITUALITY
Undergraduate
An interdisciplinary investigation into the nature of religious experience drawing on the fields of anthropology, psychology, sociology, and theology.

REL 305
TOPICS IN RELIGION AND CULTURE
Undergraduate
Examines particular issues in the relationship between religion and culture. Specific topics for current offering are noted in the current class schedule.

REL 311
SUSTAINABILITY AND RELIGIOUS WORLDVIEWS
Undergraduate
This course will analyze the nature of systemic change in the era of sustainability, considering the three dimensions of sustainability - social justice, economic viability, and environmental stewardship - from the perspective of one or more religious traditions, particularly the perspective of integral human development from Catholic social thought. It will use systems thinking to evaluate the economic, social, organizational, and personal contexts of promoting integral human development in a finite ecology. The course will ask students to identify a systemic change project that promotes integral human development, so that student learning is oriented toward, focused on, and expressive of their own interest relevant to a core challenge they have chosen. One key question will shape the trajectory of the course: How does one develop a systemic change project that promotes integral human development? The focus of this course is for the student to select a particular need or set of needs, to determine a sustainable way to deliver a product, service, or good, and to persuasively articulate the values and vision - personally and organizationally - driving their proposed solution. The systemic change project will also be a step toward answering some fundamental career questions: What need do I want to address that will lead to sustainable value for the organization I choose to join? How will this differentiate my organization from others? How should I understand this need in relationship to the natural world, and in relationship to my own place in the economy, in society? To address today's challenges, students must engage in new ways of thinking and new patterns of inquiry. This goal requires a new pedagogy - one that asks students to be conscious of their own assumptions, their own patterns of knowing.

REL 320
TOPICS IN RELIGIOUS ETHICS
Undergraduate
Examines methods and content of religious ethics. Specific topics for current offering are noted in the current schedule.

REL 322
FEMINIST ETHICS
Undergraduate
An investigation of theoretical issues regarding women's moral experiences and of feminist ethical arguments combatting various forms of oppression. Cross-listed with WGS 310/410 and MLS 477.
REL 324
ISLAMIC LAW (SHARI'AH) AND AMERICAN CULTURE
Undergraduate
An intensive study of the many dimensions of religious liberties in a pluralist society. Explores the language of constitutional and political discourse generally, and the ways in which language affects an understanding of the First Amendment. Includes case studies on particular religious communities and their encounters with American law.

REL 340
INQUIRIES IN WORLD RELIGIONS
Undergraduate
Various topics within the comparative study of religions. Specific topics for current offering are noted in the current schedule.

REL 341
TAOISM: CHINA'S INDIGENOUS HIGH RELIGION
Undergraduate
A study of Taoist thought, imagination and expression, through sacred literature, the organization of clergy, and the nature and function of its institutions in interaction with the authority of the Chinese state, with Buddhism, and with the broader scheme of popular Chinese culture and religion.

REL 342
ZEN MIND
Undergraduate
A study of the thought and practice of Zen Buddhism, focusing on the role of Zen in shaping ideas, ethics and the arts in Japan and America.

REL 343
MORAL PHILOSOPHY AND ETHICS IN CHINA
Undergraduate
An exploration of Chinese ethics the philosophical, religious and socio-political traditions which shaped them and were formed by them. Considers the major philosophical schools of China's classical age--Confucianism, Monism, Taoism, and Legalism--with Han dynasty cosmology, the ethical orientations of the Taoist and Buddhist religions, neo-Confucianism, and also the traumatic encounter with western power and thought. Addresses comparative issues concerning traditional Chinese values in relation to western views, particularly in terms of modern relations between China (and East Asia) and the west.

REL 344
YOGA AND TANTRA
Undergraduate
An examination of the history, philosophy and cultural meaning of body-oriented liberative techniques as they developed on the Indian subcontinent and Himalayan region in Hinduism and Buddhism. Students registering for this course are expected to have studied one or both of these traditions in courses such as REL 142, 143, 242, or 243, or in other courses. Background in theory is also useful.

REL 350
TOPICS IN RELIGIOUS THOUGHT
Undergraduate
Examines specific methods, issues, and/or movements in religious thought. Specific topics for current offering are noted in the current class schedule.

REL 351
LIBERATION THEOLOGY
Undergraduate
Focuses upon the ideas and practices of a radical movement for the transformation of Christianity and for social justice that originated in the "Basic Christian Communities" of Latin America and spread from there to North America and the Third World. Entails either an Applied Research or Service Learning component.
REL 360
SACRIFICE AND TIME IN ANCIENT MEXICO AND CENTRAL AMERICA
Undergraduate
An exploration of the history of Mesoamerica before Columbus and the conquistadores, from the perspectives of the indigenous peoples, their conquerors, and contemporary scholars, with special emphasis upon the religious and cultural dimensions of Mesoamerican civilization.

REL 362
JEWS AND THEIR MESSIAHS
Undergraduate
This course will introduce students to the history of messianic beliefs in Judaism from biblical times to the present. It is often assumed that "messianism," i.e. the belief in a savior figure destined to come in the future to usher in a new age of redemption and moral goodness, has always been central to Judaism. The course will examine whether our modern concept of "messianism" can be used as a valid tool to describe Jewish religious experience. The course will also analyze the extent to which Jewish messianic beliefs varied over time by examining major messianic texts and movements in their historical, literary, and cultural contexts.

Sophomore standing is a prerequisite for this class.

REL 363
CLASSICAL TEXTS IN JUDAISM
Undergraduate
An advanced analysis of selected Jewish texts.

REL 365
TEXTS, HISTORY, AND ISLAM
Undergraduate
An advanced analysis of selected Islamic texts.

REL 370
FEMINIST THEOLOGIES
Undergraduate
An exploration of women's experience as a primary resource and norm for theology, focusing on themes of inclusion, exclusion, representation and liberation in particular social, political and historical contexts.

REL 372
SEXUALITY, GENDER AND RELIGION: CROSS-CULTURAL PERSPECTIVES
Undergraduate
A consideration of religion and feminism in differing cultural contexts using a comparative perspective. While the course will consider selected Western viewpoints, its emphasis will be on a sampling of different emerging feminisms of non-Western religious traditions.

REL 380
TOPICS IN RELIGIOUS TEXTS
Undergraduate
Examines methods and meanings in the study of religious texts. Specific topics for current offering are noted in the current class schedule.

REL 382
RELIGION IN THE CONTEMPORARY UNITED STATES
Undergraduate
An advanced examination of traditional communities and contemporary movements in the United States.
REL 384
THE CULTURE OF AMERICAN CATHOLICS
Undergraduate
How has the unique experience of immigration shaped the American Catholic Church from the colonial period to the 21st century? How did the idea of "the Church" as an authoritative hierarchy come about in the mid-20th century, and how has that notion been challenged by immigrant communities, as well as artists and intellectuals? Drawing on the disciplines of history, sociology, anthropology, cultural theory, literature and the arts, this course looks at those who built the church and those who challenged and changed it. (Course is cross-listed as REL 384, CTH 384 and MLS 464.)

REL 390
INTEGRATING SEMINAR
Undergraduate
A seminar for Religious Studies majors focusing upon the methods, classic texts and current issues in the study of religion.

Junior Standing or above is a prerequisite for this class.

REL 392
FOREIGN STUDY IN RELIGION
Undergraduate
Under this number, students taking courses in religion or theology as part of a DePaul-sponsored program of study abroad may receive Religious Studies credit when approved in advance by the director of the Foreign Studies Program and the chair of the Religious Studies Department.

REL 393
INTERNSHIP IN RELIGIOUS STUDIES
Undergraduate
Open only to students working on Religious Studies major or minor concentrations. For more information contact the department chair.

Junior Standing or above is a prerequisite for this class.

REL 397
SENIOR THESIS
Undergraduate
Religious Studies majors who wish to undertake a special project of independent study are encouraged to apply. Student works towards completion of a special project under the direction of a project coordinator and faculty committee of three. Student must have a cumulative GPA of at least 3.000 overall, 3.100 in Religious Studies courses, and permission of the department chair.

REL 398
INDEPENDENT STUDY
Undergraduate
A two-credit course done under the supervision of a faculty member with the permission of the Department Chair.

REL 399
INDEPENDENT STUDY
Undergraduate
Independent Study

Junior Standing or above is a prerequisite for this class.

RELC 211
INTERPERSONAL COMMUNICATION
Undergraduate
An introduction to the factors that shape communication between two people. Topics include self-concept formation, perception, message formation, verbal and nonverbal communication, active listening, and defensiveness. (Relational) (Formerly CMNS 211)
RELC 290
COMMUNICATION WORKSHOP (VARIABLE TOPICS)
Undergraduate
This course allows students to sample a range of hands on, practical offerings in communication that can enhance their knowledge and expertise. Topics offered include survey design and focus groups. (Formerly CMNS 290)

RELC 311
TOPICS IN RELATIONAL COMMUNICATION
Undergraduate
Explores specialized topic within the field of interpersonal communication. Past topics have included: emotions & communication, gender & its relation to interaction, the "social construction" of interpersonal realities, etc. (Formerly CMNS 311)

RELC 312
EVOLUTION AND COMMUNICATION
Undergraduate
This seminar explores how communication, across a variety of topics, can be understood with respect to the theory of evolution. Specifically, this course examines how millions of years of human evolution influences how people interact in their personal and social relationships. (Formerly CMNS 312)

RELC 313
NONVERBAL COMMUNICATION
Undergraduate
This course surveys various conceptual areas generally subsumed under the broad rubric of nonverbal communication. Topics include: physical appearances, gestures, face and eye behavior, vocalics, proxemics, touch, time, environmental contexts as well as application of nonverbal behaviors to specific interpersonal communication contexts. (Relational, Group, Organizational) (Formerly CMNS 313)

RELC 314
FAMILY COMMUNICATION
Undergraduate
This course surveys topics relevant to understanding communication phenomena in the setting of the family. Topics include: family systems, patterns, meaning, themes, roles and types, family life cycles, stressors and conflict, changing family forms and contexts. (Relational, Group, Organizational) (Formerly CMNS 314)

RELC 318
CLOSE RELATIONSHIPS
Undergraduate
This course examines the role of communication in the development, maintenance, and deterioration of romantic attachments. Topics include attraction, intimacy and self-disclosure, attachment beliefs, jealousy, satisfaction, commitment, trust, betrayal, conflict, autonomy, interdependence, etc. (Relational) (Formerly CMNS 318)

RELC 319
THE DARK SIDE OF PERSONAL RELATIONSHIPS
Undergraduate
This course explores the "dark side" of interpersonal communication by examining the growing literature on the troubling or problematic aspects of close relationships. Topics covered include relational dilemmas, relational control and dominance, hurtful messages, paradoxical communication, social predicaments, relational transgressions, privacy violations, physical abuse, verbal aggression, etc. (Formerly CMNS 319)

RELC 320
DECEPTIVE COMMUNICATION
Undergraduate
Explores the use of deceptive communication in social and personal relationships from a range of theoretical perspectives including ethics, evolutionary biology, linguistics, social and developmental psychology and jurisprudence. (Formerly CMNS 320)
RELC 329
PERSUASION
Undergraduate
Explores major theoretical assumptions of current persuasion research. Examines causes and effects of effective and ineffective persuasion. Analyzes persuasive skills and strategies for a variety of persuasion applications, e.g. political, interpersonal, intercultural, and advertising. (Formerly CMNS 329)

RELC 340
COMMUNICATING & DATING
Undergraduate
The goal of this course is to provide students with a research-based understanding of the role of communication within dating relationships. Accordingly, this course traces the life-cycle of a dating relationship. Specifically, this course begins by examining initial interactions that are potentially romantic and could turn into dating interactions. Next, the course focuses on how people engage in dating relationships and the factors that influence relationships. Finally, the course concludes with what happens after dating (i.e., long term commitment/marriage, relational termination, or the death of a partner). (Formerly CMNS 340)

RELC 393
RELATIONAL COMMUNICATION PRACTICUM
Undergraduate
Structured and supervised student participation in collegiate debating, radio production or group presentations for various audiences. Includes practical experience in research, rehearsal and performance. Students may take a maximum of 2 credit hours in one quarter, 4 credit hours in the major, and 8 total credit hours.

RELC 500
RELATIONAL COMMUNICATION THEORIES
Graduate
Students will gain an understanding of the different meta-theoretical frameworks used to explain relational communication as well as an understanding of what theories are and how theories are developed. A wide range of relational theories will be used in explaining what constitutes relational communication. Students will be provided with opportunities to apply theoretical concepts to everyday personal and professional relations as well as given opportunities to critique and analyze the efficacy of those theories presented.

Status as a Graduate Relational Communication student is a prerequisite for this class.

RELC 501
RELATIONSHIP MAINTENANCE
Graduate
This course will examine current research examining the communication processes that keep ongoing relations healthy, constructive and functions. Openness, accessibility and fairness all contribute to the health and maintenance of ongoing relationships. But other theories including social exchange theory, interdependence theory and theories of self-disclosure, uncertain reduction and avoidance all contribute to understanding why some relationships continue while others falter. The concepts, theories and models pertinent to understanding mature relationships and why they remain vital, constructive and functional will constitute the foundation for this course. Students completing the course will understand strategies for strengthening ongoing relationships while simultaneously assessing key areas in need of development or remediation.

Status as a Graduate Relational Communication student is a prerequisite for this class.

RELC 502
ATTACHMENT & RELATIONAL COMMUNICATION
Graduate
This course will explore the unique role that attachment styles play in the formation, maintenance, and deterioration of close relationships. Attachment theory will be used to examine how working models of self and other influence patterns of interaction among relational partners. Topics will include how attachment styles influence self-disclosure, conflict resolution, jealousy and deceptive communication. Students will also explore communicative strategies for dealing with attachment related problems.

Status as a Graduate Relational Communication student is a prerequisite for this class.
RELC 503
READINGS IN INTERPERSONAL COMMUNICATION
Graduate
This course is designed to provide students with a framework that offers the opportunity to choose and read a list of central texts in Relational Communication. Students will all read and discuss, together, at least one historical text and two books that were identified as seminal or central texts by a group of leading scholars in Communication Studies. Students will then identify a list of 3-5 additional central texts in their particular area of the discipline (e.g., emotion, relational dialectics, face work) and read those texts throughout the quarter, reporting their findings to colleagues in the seminar. Each student’s reading list must be compiled and approved by the professor. The seminar participants will complete outlines (which will be shared with all class participants), discussion questions, and facilitate class discussion about their chosen texts. Through reading and thinking about the material, this will produce high-quality and provocative discussion resulting in quality work that will be distributed to colleagues leading to a more holistic understanding about relationship studies.

Status as a Graduate Relational Communication student is a prerequisite for this class.

RELC 510
HEALTH AND RELATIONAL CMN
Graduate
THIS COURSE EXAMINES THE HEALTH IMPLICATIONS OF RELATIONAL COMMUNICATION. THE ULTIMATE GOAL OF THIS COURSE IS FOR STUDENTS TO UNDERSTAND THAT HEALTH IS PARTIALLY DEPENDENT ON COMMUNICATION, THAT COMMUNICATION INFLUENCES HEALTH, AND THAT WE OFTEN HAVE TO COMMUNICATION ABOUT HEALTH. TOPICS INCLUDE COMMUNIBIOLOGY, DEMAND-WITHDRAW PATTERNS, SEX, AVOIDANCE OF HEALTH INFORMATION, INVISIBLE ILLNESS, SUPPORT, AND HIV.

RELC 511
TOPICS IN INTERPERSONAL COMMUNICATION
Graduate
Explores specialized topics within the field of relational communication. Past topics have included emotions and communication, gender and its relationship to interaction, and the social construction of interpersonal realities.

Status as a Graduate Relational Communication student is a prerequisite for this class.

RELC 513
NONVERBAL COMMUNICATION
Graduate
Nonverbal messages are important as we typically monitor our own nonverbal messages less, but believe others nonverbal messages more than their verbal messages. Likewise, research suggests that 65% of our communication is based on nonverbal messages and some estimates are as high as 93%. Clearly such messages are important, yet we spend little time examining such messages. That said, the goal of this course is to provide you with a research based overview of a variety of nonverbal messages, that is, everything we communicate without using our words. This course surveys various conceptual areas generally subsumed under the broad rubric of nonverbal communication. Topics include physical appearances, gestures, face and eye behavior, vocalic, proxemics, touch, time, environmental contexts as well as application of nonverbal behaviors to specific interpersonal communication contexts.

Status as a Graduate Relational Communication student is a prerequisite for this class.

RELC 514
FAMILY COMMUNICATION
Graduate
This course surveys topics relevant to understanding communication phenomena in the setting of the family. Topics include: family systems, patterns, meaning, themes, roles and types, family life cycles, stressors and conflict, changing family forms and contexts. Students completing the course will understand the relationship between strong marital, parent child and sibling communication and relational satisfaction. Furthermore students will learn how to pay closer attention to the nonverbal manifestations of thoughts and feelings, be prepared for solving unavoidable family problems, be able to detect the conditions that contribute to excessive family conflict, understand how lack of intimacy weakens family structures, and distinguish between the need for instrumental and affective communication in strengthening family bonds.

Status as a Graduate Relational Communication student is a prerequisite for this class.
RELC 519
DARK SIDE OF INTERPERSONAL COMMUNICATION
Graduate
This course explores the "dark side" of interpersonal communication by examining the growing literature on the troubling or problematic aspects of close relationships. Topics covered include relational dilemmas, relational control and dominance, hurtful messages, paradoxical communication, social predicaments, relational transgressions, privacy violations, physical abuse, and verbal aggression. Upon completion of the course students will understand the positive and negative consequences of avoiding topics for discussion, they will understand how uncertainty constitutes both an obstacle and an opportunity in a relationship, they will better understand the difficulties of transitioning from online to offline relationships, they will understand the kinds of events that people perceive to be hurtful as well as the consequences of complaining, bullying, whining and teasing.

Status as a Graduate Relational Communication student is a prerequisite for this class.

RELC 599
RESEARCH THESIS
Graduate
Enroll in 599 during the term you plan to defend your thesis or complete your final project. This is a graded, 4-credit hour course. Tuition is charged. You must have a scheduled defense/completion date to be approved for this class. Your thesis/project advisor needs to communicate this date to the Graduate Studies Director for your program, before you are allowed to enroll. Loan deferment is allowed to those registered for this class.

Status as a Graduate Relational Communication student is a prerequisite for this class.

RELC 601
ACTIVE DEGREE COMPLETION
Graduate
This is a 0-credit hour course that is available to students who are working actively toward the completion of a thesis or project. Enrollment in this course is limited to the two quarters prior to the defense of the thesis/project and requires graduate director approval and proof of work each quarter. No tuition is charged, only student fees (approx. $50), which allows you access to the library and other campus facilities. This course is graded as pass/fail. Eligible for loan deferment and student loans.

Status as a Graduate Relational Communication student is a prerequisite for this class.

RELC 602
CANDIDACY CONTINUATION
Graduate
This is a 0-credit hour course that requires permission from the graduate director. Students can enroll in 602 if they are finishing a course in which they received an incomplete (IN). If the student does not register for any regular courses in the quarter they plan to finish the incomplete, they can enroll in 602 and access the library and other campus facilities. No tuition is charged, only student fees (approx. $50). This course is graded as pass/fail. Not eligible for loan deferment or student loans.

Status as a Graduate Relational Communication student is a prerequisite for this class.

RUS 101
BASIC RUSSIAN I
Undergraduate
Listening to, speaking, reading and writing Russian in a cultural context for the beginning student.

RUS 102
BASIC RUSSIAN II
Undergraduate
Continued emphasis on the four skills in culturally authentic situations.

RUS 103
BASIC RUSSIAN III
Undergraduate
Further work on the basic elements of the Russian language, spoken as well as written, with due regard to the cultural context of Russian expression.
RUS 104
INTERMEDIATE RUSSIAN I
Undergraduate
Intensive practice in the use of Russian through listening, speaking, reading and writing, and continued enhancement of the cultural awareness intrinsic to those skills.

RUS 105
INTERMEDIATE RUSSIAN II
Undergraduate
Continuing practice in spoken and written Russian and further development of reading and listening abilities in an authentic cultural context.

RUS 106
INTERMEDIATE RUSSIAN III
Undergraduate
Developing more fluency in speaking, understanding, reading and writing Russian with a concomitant heightened awareness of the cultural dimensions of the Russian language.

RUS 316
RUSSIAN NOVEL
Undergraduate
The course will allow students to read and analyze novels from important Russian authors such as Tolstoy, Gorky and Zamyatin. Students will write papers and present short stories on these authors as well as others. Cross-listed with MOL 368. RUS 106 or equivalent, and RUS 201-203 or RUS 205-207, recommended.

RUS 317
RUSSIAN SHORT STORY
Undergraduate
The course will allow students to read and analyze short stories from important Russian authors such as Chekov, Bunin and Bulgakov. Students will write papers and present short stories on these authors as well as others. Cross-listed with MOL 317. RUS 106 or equivalent, and RUS 201-203 or RUS 205-207, recommended.

RUS 318
MASTERPIECES OF RUSSIAN LITERATURE
Undergraduate
This course will explore masterpieces of Russian literature from a variety of genres: plays, novels, short stories and poetry. Works by authors such as Tolstoy, Chekov, Dostoyevsky, Gogol, Nabokov, Pushkin, Turgenev, Akhmatova, Mayakovsky, Pasternak and Yevtushenko will be read within their historical context to provide a basis for literary appreciation and analysis. RUS 106 or equivalent, and RUS 201-203 or RUS 205-207, recommended.

RUS 360
REALISM IN RUSSIAN DRAMA
Undergraduate
This course will explore masterpieces of Russian drama from the 18th and 19th centuries. Playwrights such as Puskin, Gogol, Turgenev, Tolstoy, Chekov and Ostrovsky will be studied to examine Realism within the context of the dramatic genre. RUS 106 or equivalent, and RUS 201-203 or RUS 205-207, recommended.
RUS 361
TWENTIETH CENTURY RUSSIAN DRAMA
Undergraduate
This course will explore Russian Drama within the context of the pre- and postwar period. Playwrights such as Chekov, Bulgakov, and emigre writers, as well as post-Soviet authors, will be examined. Through extensive treatment of the dramatic genre, students will have a clearer understanding of Russian drama as an art form. RUS 106 or equivalent, and RUS 201-203 or RUS 205-207, recommended.

RUS 369
RUSSIAN LITERATURE AND FILM
Undergraduate
Greatest Russian short stories, plays, and novels of the 19-20th century, as presented in films by Soviet and Post-Soviet film-makers. Readings in the original (Russian) of Tolstoy, Dostoevsky, Ostrovsky, Chekhov, Bulgakov, and Pasternak's work.

The program includes meetings with university students and faculty, representatives of the arts, domestic and foreign businesses, the U.S. expatriate community, and Consular officials, as well as visits to cultural and historical institutions. The Program includes two coordinated courses taken in the fall and winter quarters.

SAP ATHN99
TERM PROGRAM: ATHENS, GREECE
Undergraduate
This term-long study abroad program in Athens is offered for Winter-Spring quarters through Greece's renowned College Year in Athens (CYA). Coursework and excursions juxtapose the history and contributions of ancient Greece with the Greece of today, a country situated geographically, socially and culturally at the confluence of Europe, Asia, Africa and the Middle East. Students earn a total of 32 credits for five courses through CYA. Two courses are required: a Modern Greek language course and an Art and Archaeology course. The remaining three electives are worth 6 credits each and may be chosen from CYA's wide range of disciplines, which include Art and Archaeology, Classical Languages, Environmental Studies, Ethnography, History, International Relations, Literature, Modern Greek Language, Philosophy, Political Science, and Religion.

SAP BAHM01
SHORT-TERM PROGRAM: BAHAMAS
Undergraduate
This short-term December intercession program to the Bahamas is for students interested in history, archaeology, and applied anthropology. During this three-week program, students explore the Bahamas' history and culture in Nassau, San Salvador, and Abaco. In addition, students participate in either an archaeological research project covering slavery and emancipation or an applied anthropological research project examining migration and community development. The program includes two coordinated courses, one in history and one in anthropology taken in the fall and winter quarters.

SAP BAHM02

Students become part of a multinational and intercultural community of students from around the world, living and studying together in one of Europe's most beautiful cities. This program is appropriate for a broad range of majors, and is highly recommended for its International Business courses. Students receive a total of 18-22.5 credit hours in the fall. DePaul students either live an apartment shared with international students or in a dormitory.

SAP BHD01
SHORT-TERM: BAHRAIN & DUBAI
Undergraduate
This short-term December intercession program takes students to Dubai and Bahrain. The courses explore the commercial context and labor practices in this intensely transnational economy. Students will meet with policy makers, corporate managers and laborers to gain multiple perspectives on business practices. Preparatory classes will provide the historical, social and cultural context to understand the region's economy. Students enroll in two courses associated with this program.

SAP BJNG99
TERM PROGRAM: BEIJING, CHINA
Undergraduate
This term-long study abroad program in China is offered during the Winter-Spring quarters at Tsinghua University in conjunction with Syracuse University. This program is designed to address the complexities of contemporary China and its languages. The academic program begins with a two-week field study seminar to Beijing, Xi'an and Shanghai, and is followed by classroom study at Tsinghua. Students live in single dormitory rooms on Tsinghua's modern campus.

SAP BONN98
TERM PROGRAM: BONN, GERMANY (AQ)
Undergraduate
This term-long study abroad program is designed for students interested in German language and society. After successfully completing the winter and spring quarters students have the option of staying for the fall quarter. Students begin the program at DePaul University's Lincoln Park campus with a focus on learning about German history and society.

SAP BONN99

Students begin the program at DePaul University's Lincoln Park campus with a focus on learning about German history and society.

SAP BRUS01
SHORT-TERM PROGRAM: SPS BRUSSELS
Graduate
This short-term graduate program to Belgium allows students to broaden their perspective on public-policy analysis and public service management in an international context. The course explores how globalization is affecting national governments and traditional cultures while encouraging the creation of international non-profits and supra-national governing agencies. Students will learn how large agencies, such as the European Union and NATO, are strengthening relationships and working more closely with grassroots organizations throughout the world.
SAP BRZL01
SHORT-TERM PROGRAM: BRAZIL
Undergraduate
This short-term December intercession program to Brazil is designed for students from all colleges. Visiting three cities in Brazil, the course focuses on Information Technology (IT) in Brazil from multiple perspectives. Students learn about the history and development of IT in Brazil, the role it plays in economic development as well as its socio-cultural impact. In addition to seeing some of the highlights of the city, the participants will conduct a number of site visits to businesses, government offices, non-governmental organizations and institutions of higher learning. The program is open to graduate and undergraduate students from any college at DePaul. The program starts with several pre-departure sessions and continues through the winter quarter with meetings scheduled upon return.

SAP BRZL03
SHORT-TERM PROGRAM: SPS BRAZIL
Graduate
This short-term program is designed to provide students with an understanding of social area analysis, neighborhood change, land use, and other topics by exploring the planning initiatives underway in Curitiba, Brazil, one of the most innovative urban areas in South America. The program site serves as an "urban laboratory" to evaluate a wide range of policies intended to enhance the efficiency and "livability" of a metropolitan region, improve public services, and support the development of critical infrastructure. At the host institution, the Pontificia Universidade Catolica do Parana (PUCPR), students critically evaluate how various strategies can be used to promote harmonious development and economic improvement in complex metropolitan areas involving many different units of government. They also compare the strategies used in Curitiba with those used in Chicago.

SAP CHNA02
SHORT-TERM PROGRAM: CHINA (COMMERCE)
Undergraduate
This business seminar to Beijing and Shanghai focuses on the evolution of ownership structures in China spurred by the country's membership in World Trade Organization (WTO). Through visits to majority-Chinese owned companies, Joint Ventures between Chinese and foreign companies, as well as wholly foreign owned companies, students have the opportunity to explore China's changing economic and regulatory structures and gain an understanding of how Chinese business culture varies across companies according to their different ownership structures.

SAP CHPS01
SHORT-TERM PROGRAM: SPS CHIAPAS
Graduate
This short-term program in Chiapas, Mexico focuses on sustainable development and indigenous rights in the Mayan cultures of Chiapas, Mexico. Participants learn about development and sustainability through meetings with fair trade cooperatives, women's organizations and Mexican and international nongovernmental organizations (NGOs). They learn about the effect of globalization on indigenous economies, organizations, and identities, as well as, the ongoing Chiapas struggle for democracy, justice, and dignity. Although language study is not a pre-requisite, Spanish-speaking students could maximize their learning in this program.
SAP CHTB01
SHORT-TERM PROGRAM: CHINA AND TIBET (SNL)
Undergraduate
This short-term study abroad program to China and Tibet is offered by the School for New Learning during the summer. Focusing on ethnic minority cultures located mostly in and around Yunnan province, students examine China’s current state as they encounter regions that practice traditional beliefs and customs despite the monumental changes that are occurring. By traveling in present-day China and Tibet, students gain insight into the balance between a society's rich and complex past and the present. Students can register for either 3 or 4 competencies (with committee permission). Non-SNL students may apply for credit for this course with the approval of their department advisors.

SAP CLMB01
SHORT-TERM PROGRAM: COLOMBIA (SNL)
Undergraduate
This short-term study abroad program to Cartagena, Colombia is offered by the School for New Learning during December intercession. Cartagena, Colombia provides the backdrop for this course which will stimulate your thinking about the meaning of leisure in your life and the interrelated nature of leisure in our global society. Cartagena offers a rich sense of history, beautiful beaches, excellent food, cultural events, competitive sports, and superior natural areas. Its heterogeneous ethnic and racial make-up is unmatched in the world making it a perfect environment to study and experience leisure. This program will be led by a faculty member of the School for New Learning.

SAP CLMB02
SHORT-TERM PROGRAM: COLOMBIA (SPS)
Graduate
The program to Bogota, Colombia, seeks to expose students to ethical management tools and issues in an international context. By engaging with and learning from local practitioners, students will enhance their intercultural understanding, communication skills, and examine alternative approaches to issues of ethics in public service management. Students will also learn about how issues of ethics cross borders and the cultural sensitivities that are often involved in public service management through an immersion in Bogota, organizational site visits, and intensive fieldwork.

SAP CNMX99
EXCHANGE: NAMP (CANADA & MEXICO)
Undergraduate
The Program for North American Mobility in Higher Education is a run cooperatively by the governments of the United States, Canada, and Mexico. The purpose of this program is to promote a student-centered, North American dimension to education and training. Students gain specialized knowledge of free-trade and migration issues within a cross-cultural environment. Students study abroad for a semester in Canada or Mexico at one of the four partner universities: Universidad Iberoamericana or Universidad de Guanajuato in Mexico; York University or Concordia University in Canada. All students will take part in research for a case study that will be used in a final publication of NAMP (North American Mobility Project).

SAP CSHIR
SHORT-TERM PROGRAM: IRELAND (CSH)
Undergraduate
This short-term Summer program explores the ways in which Irish landscapes set aside for nature are influenced by both natural and cultural forces.

SAP CUBA01
SHORT-TERM PROGRAM: CUBA
Undergraduate
This study abroad program introduces the history, culture, economics, and politics of Cuba before and after the revolution of 1959. During their travels, participants will interact with Cuban students, professors, policy makers, artists, and average citizens. From a historical perspective on the Cuban Revolution, students will learn about its impact on Cuban society, Latin America, the "Third World," and the United States, while focusing specifically on the contemporary international business environment and economic climate in Cuba.

SAP CUBA02
SHORT-TERM PROGRAM: CUBA
Graduate
This study abroad program introduces the history, culture, economics, and politics of Cuba before and after the revolution of 1959. During their travels, participants will interact with Cuban students, professors, policy makers, artists, and average citizens. From a historical perspective on the Cuban Revolution, students will learn about its impact on Cuban society, Latin America, the "Third World," and the United States, while focusing specifically on the contemporary international business environment and economic climate in Cuba.
**SAP CUBA03**
**SHORT-TERM PROGRAM: CUBA (SPS)**
**Graduate**
This program seeks to expose students to comparative and foreign policy issues as they pertain to the bilateral relations between the United States and Cuba. By engaging with and learning from local practitioners, students will enhance their intercultural understanding, communication skills, and examine alternative approaches to issues in foreign policy. Students will learn about how policy issues cross borders and the cultural sensitivities that are often involved in foreign policy through an immersion in Havana, organizational site visits, and intensive fieldwork.

**SAP CZAU01**
**SHORT-TERM PROGRAM: CZECH & AUSTRIA (COMMERCE)**
**Undergraduate**
This short-term seminar to Prague and Vienna will broaden your general awareness of the international business climate of Central Europe. You will be provided with an understanding of the business, political and educational issues affecting this region's transition from a centralized to a market driven economy.

**SAP CZAU02**
**SHORT-TERM PROGRAM: CZECH & AUSTRIA (COMMERCE)**
**Graduate**

**SAP CZEC01**
**SHORT-TERM PROGRAM: CZECH REPUBLIC (NSG)**
**Graduate**
This graduate nursing program examines health care in the Czech Republic, particularly its political, social, economic, and ethical implications. Networking with Czech medical and nursing students and government employees, participants learn about the contemporary changes in nursing science and practice in national and European contexts. Their experiences abroad help students draw parallels and contrasts to health care policies, practice, and access in the United States.

**SAP DBLN98**
**TERM PROGRAM: DUBLIN, IRELAND (W-S)**
**Undergraduate**
This term-long study abroad program in Dublin, Ireland is offered in cooperation with Ireland's Institute of Public Administration. Upper level undergraduates have the outstanding opportunity to study and intern in the Irish Parliament or a non-governmental organization. During the winter and spring terms, students earn a total of 28 DePaul credits: 10 credits for the internship and 18 credits for the remaining courses.

**SAP DBLN99**
**TERM PROGRAM: DUBLIN, IRELAND (AQ)**
**Undergraduate**
This term-long study abroad program in Dublin, Ireland is offered in cooperation with Ireland's Institute of Public Administration. Upper level undergraduates have the outstanding opportunity to study and intern in the Irish Parliament or a non-governmental organization. During the fall, students earn a total of 22.5 DePaul credits: 9 credits for the internship and 4.5 credits for each of the three remaining courses.

**SAP DMSW01**
**SHORT-TERM PROGRAM: DENMARK, SWEDEN, AUSTRIA (COMMERCE)**
**Undergraduate**
Visiting three countries in Europe, participants explore sustainable value creation - a multidisciplinary concept of economic development, technological advancement, and environmental sustainability/energy conservation. A variety of interactions and visits with CleanTech companies, fossil-free communities, and a zero-carbon city make up the bulk of travel. At each site, students connect with key executives and local governments and visit the physical plants and facilities.

SAP DUBL01
SHORT TERM PROGRAM: SPS DUBLIN
Graduate
These summer seminars in Dublin are offered by the School of Public Service in conjunction with All Hallows College in Dublin. The courses are taught by American and Irish faculty. There, they explore public service management and strategy as applied in non-government sectors, such as health care, social service, associations, education, and the arts. The program offers one-week, executive-style courses that may be taken in sequence. Additional program meetings are held on DePaul's campus prior to and after travel.

SAP DUBL02
SHORT-TERM: SPS DUBLIN
Graduate
Each year spend the summer in Dublin, Ireland taking classes with an international student body taught by faculty from DePaul and All Hallows College. Here, you will explore public service management and strategy as applied in non-government sectors, such as health care, social service, associations, education, and the arts. The program offers one-week, executive-style courses beginning Sunday evening and concluding Friday at 1 pm with pre- and post-course meetings in the U.S. These courses are standard four-credit courses enhanced with international students, faculty, and perspective. The beautiful campus is conveniently located midway between the Dublin Airport and City Centre.

SAP ENGL01
SHORT-TERM PROGRAM: ENGLAND (SNL)
Undergraduate
This, short-term December intercession program to Great Britain offered by the School of New Learning provides opportunities for students to gain valuable understandings of religion, art, and culture that endures in present day Britain while unraveling its rich and complex past. This program's structure is that of a pilgrimage, allowing students some time for reflection as well as learning as they encounter sacred space, respond to aesthetic artifacts and religious rituals, and engage in guided inquiry about the role of these institutions of religion, culture, and education in the past as well as the present.

SAP ESIT01
SHORT-TERM PROGRAM: ESTONIA & ITALY (SNL)
Undergraduate
Participants in this two-country study abroad course on cross-cultural communication will examine how language and interactions are used in various contexts in Estonia and Italy. They will observe communication dynamics in informal settings, such as cafes and piazzas, and in the formal setting of schools and universities. Using concepts from assigned readings, they will then analyze how different socio-cultural factors shape individuals and interaction patterns in both societies, as well as in the United States. A primary focus will be on Estonian and Italian schools and universities, where participants will compare these organizational structures and study their implications for cross-cultural communication among and between teachers and students.

SAP FRNC01
SHORT-TERM PROGRAM: FRANCE
Undergraduate
his short-term summer program in France takes students on a cycling 'pilgrimage' as they explore issues associated with pilgrimage, Catholic Church history and the life of Vincent de Paul. Special attention will be given to an experiential exploration of the elements of pilgrimage, the historical dimensions of Vincent de Paul's life and its influence on the ideas and practices of modern Vincentians. The purpose of this program is to offer students an intense experiential complement to academic study and intellectual investigations into topics like religious devotion, the historical development of ideas and practices, migration, multiculturalism, poverty, women's leadership in the Catholic Church, and 'Vincentianism.' Students enroll in two courses associated with the program.

SAP FRNC06
EXCH:FRANCE: STUDY AT ECOLE NORMALE SUPERIEURE
Graduate
This is an academic year exchange program immersing the student in full French classes in liberal arts and sciences graduate level courses at the university of Ecole Normale Superieure.

SAP FRNC07
EXCH:FRANCE: STUDY AT ECOLE DE MANAGEMENT STRASBOURG
Undergraduate
This is a summer exchange program, and student will study the French Language & Culture course at Beginners or Intermediate. All students will enroll in European Integration and Business in Europe.

SAP FRPO99
EXCHANGE PROGRAM: FRANCE (SCIENCES PO)
Undergraduate
Participants in this year-long exchange program with Sciences Po, an international university with campuses across France. Students are placed at one their many campuses to study in courses focused on the historic, economic, political, and sociological facets of France, Europe, and the World.

SAP FRSW01
SHORT-TERM: FRANCE & SWITZERLAND (COMMERCE)
Undergraduate
Exploring the tourism industry in France and Switzerland, two of the most popular travel destinations in Europe, students compare and contrast customer behavior trends and tourism operations in these countries and the United States. In France, students concentrate on the infrastructure of transportation, lodging, food and beverage, and tourism opportunities for visitors. During the stay in Switzerland, students learn about regional transportation, the role of sports in tourism, and the cultural influences of national groups on the tourist experience. A major theme of the seminar is the concept of "a stranger in a strange land," providing students with a heightened awareness of what a traveler experiences, including the impact of jet lag, confusion in customs, and language difficulties with directions, instructions, explanations, and different foods.

SAP FYGR01
SHORT-TERM PROGRAM: FY@GERMANY
Undergraduate
This short term program for first-year students combines a Focal Point Seminar with a short study tour. In the Focal Point Seminar, students learn about the important scientific discoveries made by Johannes Kepler and Albert Einstein. Students learn about the people and the society these scientists lived in, apply their discoveries in lab activities, and investigate how science is presented by museums and science education centers in Germany and the U.S. Travel takes place either in spring break or in late June for 7-10 days and is worth an additional 2 credit hours.
This short-term program for first-year students combines a Focal Point Seminar with a short study tour. In the Focal Point Seminar, students explore Dublin's rich literary and cultural traditions. Students read and discuss travel writing and other literature and are coached in writing about place using a variety of styles and genres. With this foundation, students travel to Ireland to visit Dublin and neighboring areas. Travel takes place either in spring break or in late June for 7-10 days and is worth an additional 2 credit hours.

This short-term program for first-year students combines a Focal Point Seminar with a short study tour. In the Focal Point Seminar, students use archaeology, anthropology, and geography to uncover past and present experiences of what is now Jordan. Students discuss the impacts that artifacts, key events, and important players had in shaping the region. During travel, students spend time in the capital city of Amman and various archeological sites. Travel takes place either in spring break or in late June for 7-10 days and is worth an additional 2 credit hours.

This short-term program for first-year students combines a Focal Point Seminar with a short study tour. In the Focal Point Seminar, students learn about Mayan civilization and its legacies in the Yucatan Peninsula today. Students read literature and view films produced by indigenous writers and filmmakers. During travel to Merida, the capital city of the Yucatan, students visit vibrant neighborhoods throughout the city and Mayan ruins. Travel takes place either in spring break or in late June for 7-10 days and is worth an additional 2 credit hours.

This short-term program will focus on immersion and deeper understanding of African traditional healing, colonial history, culture, and self-development. The other focus will primarily explore the opportunities and challenges of the current IT business environment, resulting in the launch of a media learning IT project with partner institution in Ghana.

This short-term seminar will focus in Munich and Berlin, which is one of Germany's biggest industrial centers. Once a symbol of Cold War division, Berlin today is a link between Western and Eastern Europe. The Berlin-Brandenburg capital region lies at the very heart of an expanding European Union and offers many new and exciting opportunities for the future! Culturally this seminar will take you to Dachau and many other on a WWII tour of Berlin.

In this business seminar, students will experience Hong Kong and Bangkok, two of the most beautiful, exciting locations of the 21st century. Through various company and site visits, students gain a unique cultural experience as well as the knowledge of global business management and organizations functioning in a foreign environment.
SAP HKTL02

SAP HNKN99
TERM PROGRAM: HONG KONG, CHINA
Undergraduate
This term-long study abroad program is offered during the Winter-Spring term, hosted by the City University of Hong Kong in conjunction with Syracuse University. Students learn about Hong Kong's recent and contemporary history through coursework in economics, political science, history and Chinese language. The academic program begins with a two-week field study seminar to Southeast Asia, including Thailand, Malaysia and Singapore. Students then begin their regular studies in Hong Kong before launching into an intensive internship or an independent research project related to their career or academic interests. Students live in university residence halls or hostels near the campus in Kowloon.

SAP IBER98
EXCHANGE PROGRAM: IBEROAMERICANA - AY
Undergraduate
La Universidad Iberoamericana in Mexico City offers DePaul students a wide range of courses taught in Spanish and English and the chance to live in one of the most dynamic world cities. Mexico City is a modern metropolis of over 25 million people with a fascinating blend of Aztec and Colonial roots. It is the capital of a country of 90 million inhabitants and the center for commerce, finance and the arts. DePaul students can take courses in 35 different undergraduate programs, including architecture, business, communications, computer, design, engineering, chemistry, nutrition, photography, physics, and psychology. La Ibero features state of the art facilities and a chance for DePaul students to integrate fully into life at a Mexican university.

SAP INDA01
SHORT-TERM PROGRAM: INDIA
Undergraduate
This short-term December intercession program takes students through India, beginning in the capital of Delhi and continuing on to the cities of Bangalore and Pune. In addition to guest lectures, guided observations and experiential learning activities, students learn about Indian environmentalism by participating in two restoration projects. The program includes two coordinated courses taken in the fall and winter quarters.

SAP INDA02
SHORT-TERM PROGRAM: SPS INDIA
Graduate
This short-term December intercession study abroad program creates learning opportunities for students to understand development challenges and the role of NGOs, the government, and for-profit entities in developing and implementing policy initiatives related to climate change, rural development, healthcare, education, gender initiatives, microfinance and micro-enterprise, micro-farming and organic farming, water management and watershed development. Students have the opportunity to interact with government administrators and leaders, Indian graduate students and program beneficiaries in rural and urban areas. Students complete four online learning modules prior to leaving for India.
This short-term business seminar provides students the opportunity to examine India's changing macro-environment (political, economic, cultural and demographics) and its fledging micro-environment (information services, manufacturing, retail and financial). During the program, students visit various Indian companies in several major urban centers such as Mumbai, Pune, Bangalore, and Delhi. In addition, students have the chance to visit specific rural areas to become acquainted with domestic-type NGO initiatives.

This practical course will introduce graduate and junior/senior level undergraduate DePaul students to the cultural context, style and business of Hindi Cinema while giving them the opportunity to incorporate this knowledge into their own media project. Students will work collaboratively with Indian film professionals in either an introductory or advanced level film workshop at Whistling Woods International and have the opportunity to implement their technical and cultural learning in a creative project over the course of the visit.

This short-term Autumn Quarter program offered by the School for New Learning brings students to one of Ireland's most scenic regions and the nation's most renowned arts festivals. Students explore cultural identity as expressed and supported by the arts, as well as the impact of land and landscape on culture and artistic expression. Clifden's largest festival, Clifden Arts Week, is an internationally renowned venue for the most impressive traditional and contemporary Irish culture. Four competences are available to students who have taken Research Seminar and who enroll for Externship or Advanced Electives.

This short-term Summer program explores the history and culture of Istanbul - the center of Byzantine civilization for a millennium, the capital of the Ottoman empire for more than 450 years, and the largest city of the modern Turkish republic. Students participating in this program must register for a specific spring quarter course and ENG 398 in summer session. Participants earn a total of eight academic credits.
SAP ITAL01
SHORT-TERM: LAS ITALY
Undergraduate
This short-term December program focuses on Rome and Roman Catholicism. While living and learning in central Rome, students visit sites that invoke several course components at once?e.g., the cultural and religious history that informs the architecture of the Catacombs; and Vatican City?s historical, architectural, cultural, and Catholic aspects.

SAP JAPN01
SHORT-TERM PROGRAM: JAPAN (CDM)
Undergraduate
This short-term December intercession program in Japan is open to undergraduate and graduate students in CDM who have a strong interest in computer gaming and animation. A 2-week trip to Tokyo and Kyoto takes students to visit several gaming and animation companies in Japan. Touring studios and meeting with their developers and managers help students learn the characteristics and practices of Japan's gaming and animation industries. Students also learn about issues involved in developing games and animation for the global market, and strategies for international promotion. In addition, the program introduces some of the latest and upcoming technologies in the field. Throughout the trip, students learn about the culture of Japan and how it is reflected in Japanese computer games and animation films.

SAP JAPN02
SHORT-TERM PROGRAM: JAPAN
Undergraduate
This short-term December intercession program in Japan focuses on the historical events of the 1945 atomic bombing, the religious sensibilities and ethics that informed responses to the event, and current nuclear issues. Students visit centuries-old temples and shrines in Kyoto, talk with an atomic-bomb survivor in Hiroshima, and visit Catholic churches Nagasaki, home to Japan?s largest Catholic community. The Program includes two coordinated courses taken in the fall and winter quarters.

SAP JAPN03
SHORT-TERM PROGRAM: JAPAN (COMMERCE)
Undergraduate
This short-term seminar will focus on SMEs and their drive to accelerate into the 21st Century behind smart, unconventional, strategies and partnerships and local-community leadership. During the seminar, students will be exposed to the traditional Japan national culture juxtaposed against a new paradigm of industry innovation and entrepreneurship. Students will visit both large traditional firms as well as non-traditional entrepreneurial SME firms involved in product and process innovations across several industry sectors.

SAP JRDN01
SHORT-TERM PROGRAM: SPS JORDAN
Graduate
This short-term summer study abroad program to Jordan is designed for graduate students in Public Service. The program increases intercultural and managerial capacity of professionals interested in, or currently working with, refugees or with populations with Arabic or Middle Eastern origin. The immersion activities and international service learning increases students' knowledge of refugees in Islamic contexts in Jordan. Participants will have the opportunity to study Arab culture and its impact on cross-cultural communication and service organizations in Jordan.

SAP KNYA01
SHORT-TERM PROGRAM: KENYA GBM
Undergraduate
This short-term December intercession program to Kenya is organized in conjunction with the Green Belt Movement (GBM), a grassroots non-governmental organization founded by Nobel Prize winner Wangari Maathai. Her renowned organization focuses on providing income and sustenance to millions through planting trees and restoring the environment. Classroom activities on campus prior to travel introduce students to the courses' topics. While in Kenya, students and GBM members work on community projects such as tree planting, food security, and sustainable agriculture. Students enroll in two courses, one in the fall and one in the winter.

SAP KNYA02
SHORT-TERM PROGRAM: KENYA (SPSMSW)
Graduate
This short-term December intercession program offers graduate students the opportunity to study health, social welfare and development needs in metropolitan and rural Nairobi during the December intersession. Students will spend 2 to 3 weeks visiting schools, religious missions, community cooperatives, relief agencies and/or governmental offices to gain appreciation for the challenges and opportunities confronting Kenya and other African nations.

SAP KNYA03
SHORT-TERM PROGRAM: KENYA & TANZANIA (SNL)
Undergraduate
This program prepares students for lives an increasingly globalized world by engaging issues and questions of the East African experience, including foreign pressures and influences on indigenous values and social justice dilemmas like class marginalization and the impacts of globalization on lifestyles and economies. Social and cultural exploration in which simple observation serves as a powerful tool for uncovering deeper meanings in everyday events in the lives of Kenyans and Tanzanians provides students with experiences to which they compare their lives in the United States through personal reflection. The participants' ongoing dialogue with local cultures and peoples raises consciousness on global issues of justice, peace, politics and traditions. In addition, students have the chance to explore the landscape and the major natural monuments of both countries.

This term-long study abroad program in Poland is offered in Autumn Quarter. For the first three weeks, students tour Germany, the Czech and Slovak Republics, Hungary, and Austria and meet with students from these countries to discuss current political issues and contemporary life in the region. Students then participate in a short study tour of Northern Poland before beginning classes in October at the Jagiellonian University. During the term additional weekend excursions are planned to sites within Poland. Students study basic Polish at the Jagiellonian University. Other classes are taught in English.

The Study in Kyoto Program (SKP) at Ritsumeikan’s Kinugasa Campus brings together students interested in Japanese studies from around the world. The SKP curriculum includes a range of Japanese language and Japanese studies courses, as well as practical seminars in traditional arts and crafts. Students stay in furnished private single rooms in dormitories on campus. Students participating in this student exchange program can apply for scholarships at the host institution at the time of application.

This term-long study abroad program in Fall and Winter-Spring offers upper level undergraduates an exciting opportunity to intern with a member of the European Parliament or for a non-governmental organization affiliated with the EU government. In addition to their internship, students take courses and live at the Louvain Institute for Ireland in Europe located in the Irish College. Winter-spring students earn a total of 27 credits: 4.5 credits for the internship and 4.5 credits for each of the five courses.

This term-long study abroad program in Fall and Winter-Spring offers upper level undergraduates an exciting opportunity to intern with a member of the European Parliament or for a non-governmental organization affiliated with the EU government. In addition to their internship, students take courses and live at the Louvain Institute for Ireland in Europe located in the Irish College.

SAP LIMA99
EXCH: LIMA PERU (PUC)
Undergraduate
Located in the coastal capital city of Lima, this program is an opportunity for students to discover the spectacular region that was once home to the Inca Empire, and is today the complex, multiethnic and multilingual country of Peru. With over eight million inhabitants, Lima is an ethnic melting pot with people from all over the world.

SAP LNDN98
TERM PROGRAM: LONDON THEATER, ENGLAND
Undergraduate
This term-long study abroad program at the Central School of Speech and Design in London is open only to students from the Theater School.

SAP LNDN99
TERM PROGRAM: LONDON, ENGLAND
Undergraduate
This term-long study abroad program to London during the Winter-Spring term provides students options for studying and interning in one of Europe's most storied cities. Students enroll in classes at the University of Westminster in disciplines of a wide range. The program has an optional internship component, which provides career-orientated possibilities for students of almost any discipline.

SAP LYON99
EXCH PROGRAM: ATLANTIS (FRANCE & SWEDEN)
Undergraduate
This year-long trans-Atlantic dual degree program in technology and business prepares students for success in the interconnected world of the 21st century. Funded through a federal grant, this program provides financial support for students from DePaul's College of Computing and Digital Media (CDM) to spend one semester in France and one in Sweden. Students obtain two bachelor degrees upon successful completion of the program.

SAP MDRA98
TERM PROGRAM: MADRID, SPAIN (WQ-INTERNSHIP)
Undergraduate
Students who participate in the Fall quarter program in Madrid have an option of remaining in Madrid for the winter and conducting an internship. The Winter program is offered in cooperation with Centers for Academic Programs Abroad (CAPA) and offers students the opportunity to further their linguistic and cultural competencies while interning in their area of study. Students earn an additional 16 credits: 4 for Spanish courses, 4 for an internship course, and 8 for the internship.

SAP MDRA98
TERM PROGRAM: MADRID, SPAIN (AQ-CEA)
Undergraduate
This term-long study abroad program is offered during the Fall quarter, with an option to remain abroad for the Winter quarter. The Fall program through Cultural Experiences Abroad (CEA) focuses on the studies of Spanish language and culture. The Winter program is offered in cooperation with Centers for Academic Programs Abroad and offers students the opportunity to further their linguistic and cultural competencies while interning in their area of study. During the Fall, students earn a total of 18 credits: 13.5 for their Spanish courses taken at Universidad Complutense Madrid and 4.5 for the course taught by the DePaul faculty director accompanying the group to Madrid. Students remaining for the Winter earn an additional 16 credits: 4 for Spanish courses, 4 for an internship course, and 8 for the internship.
DePaul University

SAP MEXI 98
EXCHANGE PROGRAM: LASALLE UNIVERSITY - AY
Undergraduate
Universidad La Salle offers exchange students the opportunity to live and study in one of the world's greatest cities. Mexico City is a modern metropolis of over 25 million people with a fascinating blend of Aztec and Colonial roots. It is the capital of a country of 90 million inhabitants and the center for commerce, finance, and the arts. La Salle has 27 undergraduate and graduate programs in various fields such as education, communication, law, medicine and philosophy among others. It is part of the LaSallian network and it has campuses in 15 cities in Mexico, all of them available for this exchange program. The Mexico City campus is located in the heart of the trendy Colonia Condesa, a neighborhood within walking distance of many restaurants, cafes, bookstores and museums.

SAP MEXI 99
EXCHANGE PROGRAM: GUADALAJARA AND MEXICO CITY (PANAMERICANA)
Undergraduate
Participants in this semester-long or year-long exchange program with Universidad Panamericana. Students enroll in a maximum of 6 courses or 24 credit hours per semester on this program. Universidad Panamericana in Guadalajara offers some courses in Business and Management taught in English.

SAP MLBN99
TERM PROGRAM: MELBOURNE, AUSTRALIA
Undergraduate
This term-long study abroad program is offered during Summer-Fall terms. Students enroll at world-class Monash University, located outside of Melbourne. Monash's extensive range of course offerings satisfies the interests of students from any college or major. All students enroll in a Contemporary Australia course with excursions to the outback, the Great Ocean Road and sites around Melbourne. While in Australia, students can take advantage of many activities including outdoor excursions throughout Victoria and activities in and around Melbourne including attending sporting and cultural events. Students earn a total of 24 credits distributed between summer and fall terms.

SAP MRCC01
SHORT-TERM PROGRAM: MOROCCO
Undergraduate
This short-term December intercession program explores the society and culture of Morocco and the ways in which Morocco has been written about in literature. The program begins in the cosmopolitan capital of Rabat and continues on to the imperial cities of Meknes and Fez. Students learn about Moroccan family life during homestays in Fez. These experiences, as well as the camel trek and desert camping trip provide material for student writing and reflections. Students enroll in two courses associated with this program, one in the fall and one in the winter.

SAP MRCC02
SUMMER: FEZ/ARABIC LANGUAGE
Undergraduate
This summer Arabic language program in Morocco provides seven weeks of intensive Arabic language study combined with cultural immersion and a home-stay experience. Students partake in intensive language study in the centuries-old city of Fez, Morocco at the Arabic Language Institute in Fez (ALIF). Private tutoring and cultural activities will be provided to strengthen language and cultural learning. Students enroll in a course about Moroccan society and culture taught by DePaul faculty members during the spring quarter prior to travel. 16 credits total.

SAP MRCC03

SAP MXCY03
SHORT-TERM PROGRAM: MEXICO CITY
Undergraduate
This program focuses on three overlapping sites of analysis in Mexico City, the world's fourth-largest megacity. First, students learn about the intense growth Mexico City has experienced over the past several decades and the ways that official urban planning efforts by federal and local officials have addressed the social, environmental, and infrastructural challenges that accompany a massive increase in population. Second, students study neighborhoods that have developed reputations as bohemian enclaves and subsequently experienced gentrification. Finally, field studies provide opportunities to learn about formal and informal spaces of leisure and popular culture. Visits to outdoor marketplaces in a variety of neighborhoods, alternative musical cultural centers, media outlets, and public squares and stadiums that serve as sites of national identity and local pride are included in the itinerary.

SAP MXCY04
SHORT-TERM PROGRAM: MEXICO CITY & GOLD COAST (COMMERCE)
Undergraduate
In this two-way cultural exchange program in hospitality leadership, students compare and contrast tourism industry operations in Mexico and the United States with their peers at Iberoamerican University in Mexico City, whose visit to Chicago is coordinated by DePaul. Next, the DePaul students travel to Mexico City and Puerto Vallarta to visit local hospitality and tourism businesses with the Iberoamerican students. Through these visits, DePaul students explore the challenges of managing hospitality operations in Mexico and discuss differences in consumer behavior and preferences, impacts of culture in tourism behavior, forecasting issues, pricing strategies, ethical concerns, and service delivery variations.

SAP OSKA98
EXCHANGE PROGRAM: OSAKA, JAPAN (KANSAI GAI DAI) (AQ)
Undergraduate
Participants in this exchange program with Kansai Gaidai University take four courses, two of which are Japanese language classes. The remaining courses are taught in English and give students a broad understanding of Japanese culture, society, and economy. Students may choose electives from a variety of academic areas including art, international studies, political science, and sociology.
Participants in this year-long exchange program with Kansai Gaidai University take four courses each semester, two of which are Japanese language classes. All other courses are taught in English and give students a broad understanding of Japanese culture, society, and economy. Students may choose electives from a variety of academic areas including art, international studies, political science, and sociology.

This term-long program offered during Winter-Spring in Paris is designed for advanced French study with all courses taught entirely in French. The program is served by the Institute for the International Education of Students (IES). Students enroll in five courses at the IES Center and their choice of one of the French universities affiliated with IES.

This graduate study abroad program offers an opportunity for graduate students in Philosophy to study in Paris to increase proficiency in French. Courses are offered on PASS/FAIL basis.

This graduate study abroad program offers an opportunity for graduate students in Philosophy to study in Paris to increase proficiency in French. Courses are offered on PASS/FAIL basis.
SAP PARI99
TERM PROGRAM: PARIS, FRANCE (ALLIANCE FRANCAISE)
Undergraduate
This term-long study abroad program in Spring Quarter places students in French language classes at the Alliance Francaise, an international language school. Participants increase proficiency in French while experiencing the rich cultural and political life of Paris. Students live with French families. During the homestay, students are paired with roommates from the Alliance Francaise. Students enroll in a total of 16 credit hours: 8 credit hours for French language, 4 credit hours for HAA 397: French Art History, and 4 credit hours for a course taught by a DePaul faculty director.

SAP PERU01
SHORT-TERM PROGRAM: PERU
Undergraduate
This Summer study abroad program aims to introduce students to the history, culture, economics and politics of Peru within the context of Peru's post internal war process of reconstruction. Special emphasis will be given to social structure, gender issues and distribution of power. The purpose of this program is to immerse students in the culture of Peru, providing an experiential learning experience that complements academic and artistic learning, with intellectual investigations that concern the nature of service, social justice, democracy, globalization and human rights in contemporary Peru. This program responds to the College of Liberal Arts and Science's goals through the development of critical thinking and self-reflection while fostering social and cultural enrichment in an environment of respect and support. Students enroll in two courses associated with the program.

SAP PERU02

SAP PHLP01
SHORT-TERM PROGRAM: SPS PHILIPPINES
Graduate
The Manila (Philippines) study abroad program in the December intercession is an opportunity to learn applied research methods and monitoring and evaluation approaches for urban poverty reduction. The program is a collaborative effort between DePaul University and Adamson University in Manila. The program places DePaul graduate students in collaborative teams of Adamson faculty and community leaders for evaluating the works of the Vincentian Center for Social Responsibility (VCSR) among marginalized sectors and informal settlers of Metro Manila. Students enhance their research skills for development research and monitoring and evaluation (M&E). The cross-cultural and service-learning character of this program offers to students a perfect opportunity to become effective, ethical and collaborative international public service researchers.

SAP PPRC01
SHORT-TERM PROGRAM: PUERTO RICO
Undergraduate
This short-term study abroad program provided students the opportunity to witness and participate in transnational processes. Through readings, lectures, site visits, and service learning projects that link Puerto Rico to Chicago, students explore the contexts from which the Puerto Rican nation emerges. The program integrates service learning in Puerto Rico and in Chicago, utilizing the Steans Center's "Bringing It Home" model as a means to examine the direct political, economic, and cultural connections between Puerto Rican communities on the island and Puerto Rican communities in Chicago. Students enroll in two courses associated with the program.

SAP PPRC02
SHORT-TERM PROGRAM: PUERTO RICO
Graduate
This short-term study abroad program provides students the opportunity to witness and participate in transnational processes. Through readings, lectures, site visits, and service learning projects that link Puerto Rico to Chicago, students explore the contexts from which the Puerto Rican nation emerges. The program integrates service learning in Puerto Rico and in Chicago, utilizing the Steans Center's "Bringing It Home" model as a means to examine the direct political, economic, and cultural connections between Puerto Rican communities on the island and Puerto Rican communities in Chicago.
SAP ROME98
SUMMER PROGRAM: ROME, ITALY
Undergraduate
This program provides an opportunity to study how Italian culture and identity are portrayed through films from classics such as La Dolce Vita and Bicycle Thieves to acclaimed contemporary works like Romanzo Criminale. Visits to filming locations in Rome illuminate how cinema uses settings to shape a viewer's experience of a city, a nation, and a people. Furthermore, discussions with Italian film industry representatives provide a firsthand perspective on the filmmaking process, revealing how creative and practical choices affect the representation of cultural issues. The program includes a survival Italian course and a weekend excursion.

SAP ROME99
TERM PROGRAM: ROME, ITALY
Undergraduate
This term-long study abroad program in Rome is offered during the Autumn quarter. Students experience the culture and society of Italy while studying the language, art, history, and religious background of the city. They attend language classes at Italiaidea, a local language institute. Service placements are also arranged for students in advanced language classes. Students live with local host families in areas throughout the city. Students earn 18 credits during their stay: 9 credits through Italian courses at the students' appropriate levels, 4.5 credits for a faculty directed course and 4.5 credits for one elective course taught by a local professor.

SAP RSSA01
SHORT-TERM PROGRAM: RUSSIA
Undergraduate
This short-term summer program focuses on the medieval art and history of Imperial Russia. The program visits in Novgorod and St. Petersburg. These two cities, both designated UNESCO World Heritage Sites, offer one of the world's richest ensembles of urban planning, art, architecture, and historical treasures. Students participating in this program earn 8 credit hours for two 4 credit courses. They will select a course in the spring and summer session.

SAP SANT99
TERM: SANTIAGO CHILE
Undergraduate
Founded in 1953, Universidad Adolfo Ibañez offers students the opportunity to study in a variety of disciplines in either the Santiago or Viña del Mar campus. With 6,300 undergraduate and 2,000 graduate students, UAI was founded as the first business school in Chile and in Latin America.

SAP SGMY01
SHORT-TERM PROGRAM: SINGAPORE & MALAYSIA
Undergraduate
This short-term seminar explores the cultural and historical links between Singapore and Malaysia while analyzing the similarities and differences in their economic strategies. With the influence of colonialism and rapid economic growth after independence, the seminar provides insights into the economic and political development of two important South Asian societies. Students participate in meetings with government agencies, financial institutions, macro- and micro-businesses and media agencies to learn about a variety of issues.

SAP SGMY02
SHORT-TERM PROGRAM: SINGAPORE & MALAYSIA
Graduate
This short-term seminar explores the cultural and historical links between Singapore and Malaysia while analyzing the similarities and differences in their economic strategies. With the influence of colonialism and rapid economic growth after independence, the seminar provides insights into the economic and political development of two important South Asian societies. Students participate in meetings with government agencies, financial institutions, macro- and micro-businesses and media agencies to learn about a variety of issues.

SAP SHFF98
TERM PROGRAM: SHEFFIELD, ENGLAND (W-S)
Undergraduate
This term-long study abroad program is offered during the Winter-Spring quarters at the University of Sheffield in Northern England. Sheffield's student life is characterized by its diversity and a nationally-recognized student union. A wide variety of course offerings are available to DePaul students, including those in the humanities and social and physical sciences. Students attending Sheffield for winter and spring will enroll in 60 Sheffield credits, equivalent to 24 DePaul credits. These will be distributed evenly between the winter and spring quarters on their DePaul records.
SAP SHFF99
TERM PROGRAM: SHEFFIELD, ENGLAND
Undergraduate
This year-long study abroad program is offered at the University of Sheffield in Northern England. Sheffield's student life is characterized by its diversity and a nationally-recognized student union. A wide variety of course offerings are available to DePaul students, including those in the humanities and social and physical sciences. Academic year students register for a minimum of 120 Sheffield credit hours. These are equivalent to 48 DePaul credits that are distributed over the three DePaul quarters.

SAP SHNG01
SUMMER: SHANGHAI/CHINESE LANGUAGE
Undergraduate
This eight-week summer language program in Shanghai, China allows students to study intensive Chinese. The program is designed for students who have the equivalent of at least one year of Chinese language learning. Intensive language study will be offered at Fudan University, one of China's most prestigious universities. Private tutoring and cultural activities such as tai chi, martial arts, and Chinese calligraphy, also will be provided during weekdays to strengthen language and cultural learning. Students also learn about contemporary life in China through lectures, readings, planned excursions and interactions with local people and students. This program is designed for students focused on intensive language study. Students enroll in a course about Chinese society and culture taught by DePaul faculty members during the spring quarter prior to travel. 16 credits total.

SAP SHNG02

SAP SPAI01
SHORT-TERM PROGRAM: SPAIN
Undergraduate
This short-term program explores the transition from medieval to modern Spain through art, architecture and history.

SAP SWI S99
TERM PROGRAM: STUDYSWISS+
Undergraduate
The StudySwissPlus Program (StudySwiss+) is a study and internship experience designed specifically for students in the School of Hospitality Leadership (SHL) within the College of Commerce. The program at DCT University Center, an International Hotel and Business Management School in Vitznau, fits the requirements for SHL majors and provides high quality international training to enhance their careers in a leading location to gain such experience. In this incredibly flexible program, students choose either to study in Switzerland between one and three quarters, or extend their stay for an entire year that includes two quarters of study followed by a six-month paid internship in the Lodging or Foodservice industry in Switzerland. Students participating in StudySwiss+ are invited to study with world famous instructors, explore central Europe outside of class, and even add an international work experience to their resume.

SAP SWI T01
SHORT-TERM PROGRAM: SWITZERLAND (BUSINESS)
Undergraduate
This short-term seminar provides an opportunity for students to interact with members of a variety of NGOs in the Geneva area thus gaining an understanding of the complex nature of not-for-profit work in the current international climate.

SAP SWI T02
SHORT-TERM PROGRAM: SWITZERLAND (BUSINESS)
Graduate
This short-term seminar provides an opportunity for students to interact with members of a variety of NGOs in the Geneva area thus gaining an understanding of the complex nature of not-for-profit work in the current international climate.
SAP TANZ01
SHORT-TERM: SPS TANZANIA
Graduate
This short-term study abroad program will bring graduate students together from different disciplines for an international, collaborative experience focusing on the interrelationship of social welfare, nonprofits management and economic development in general, and understanding the collaborative work of educational institutions, faith-based organizations, non-governmental organizations (NGOs) to effect positive social change.

SAP THAI01
SHORT-TERM PROGRAM: THAILAND (SNL)
Undergraduate
This program will introduce students to Thailand's rich past and changing present by tracing its complex relationships with the countries on its borders. Students will gain a deeper understanding of this land and its people, history, and culture. They will learn that Thailand has a history unique to that of its neighbors and that its culture is not homogeneously "Thai" but is in fact made up of many rich ethnic minorities attempting to coexist.

SAP TUSC01
SHORT-TERM PROGRAM: SPS TUSCANY
Graduate
This short-term summer study abroad program in Tuscany, Italy focuses on the study of European food policies and the comparative analysis with the American food system. The program benefits from the collaboration with the International Slow Food Movement and its Foundation for Biodiversity.

SAP VIEN01
SHORT-TERM PROGRAM: VIENNA
Undergraduate
This study abroad program introduces students to the peoples, locations, and traditions significant in Vienna of both the fin-de-siecle and today. Present-day Vienna still bears the stamp of the great personalities that shaped its culture and identity in the late nineteenth and early twentieth centuries, yet it is also a modernizing place, one that combines traditions of the past with innovations of the present, and exists as a global, multicultural center that straddles Western and Central Europe. It is also an ideal site for discovering how culture operates in people's lives by closely examining the things they eat, how those things are acquired in a large city, and how what people eat can tell us who they think they are. As a city of modern tastes, Vienna is shown through an exploration of music, visual arts, architecture, coffeehouse culture, as well as an examination of Viennese foods and systems of eating.

SAP VIET01
SHORT-TERM PROGRAM: VIETNAM
Undergraduate
This program offers students an opportunity to travel throughout Vietnam and explore multiple facets of its 1,000-year history, including its history of war in the twentieth century and its global emergence in the twenty-first. This program focuses on how Americans understand and interpret their encounters with other cultures, not only looking at how Americans have perceived Vietnam, but also how contemporary American culture has adopted, and been transformed by, its encounter with Vietnam. The trip features a variety of academic and cultural visits in locales such as Ho Chi Minh City, Hoi An, Hue, Hanoi, and Ha Long Bay.

SAP VIET02
SHORT-TERM PROGRAM: VIETNAM
Graduate
This program offers students an opportunity to travel throughout Vietnam and explore multiple facets of its 1,000-year history, including its history of war in the twentieth century and its global emergence in the twenty-first. This program focuses on how Americans understand and interpret their encounters with other cultures, not only looking at how Americans have perceived Vietnam, but also how contemporary American culture has adopted, and been transformed by, its encounter with Vietnam. The trip features a variety of academic and cultural visits in locales such as Ho Chi Minh City, Hoi An, Hue, Hanoi, and Ha Long Bay.
DePaul University, in collaboration with The Fund for American Studies (TFAS), offers students the opportunity to learn about the political process through a full time internship in Washington, D.C. for the fall semester. The program is designed for undergraduate students interested in American politics and provides internship opportunities in the areas of political journalism, lobbying, government offices and agencies, and the nonprofit sectors. Capital Semester allows students to earn 12 transferable course credits at Georgetown; essentially, students will participate in their internship during the day and take three required evening courses.

SCG 25
BASIC TECHNOLOGY LITERACY
Graduate
(0 Credit) This online course provides students with a knowledge about assembling, using, and troubleshooting basic technology hardware and software. In this course, students demonstrate understanding of basic computer setup and the use of peripheral devices such as printers, speakers, flash drives, scanners, digital cameras, videos, and computer software.

SCG 401
ADVANCED DEVELOPMENTAL PSYCHOLOGY
Graduate
Current research and theories in human development relating to motivation, personality, learning and socialization. Case studies and an analysis of various developmental problems.

SCG 402
PSYCHOLOGY OF LEARNING
Graduate
Study of the learning-teaching process with specific emphasis on the person as a learner, human capacity and potential, learning theories and materials, motivation, concept formation, and behavior.

SCG 403
HUMAN DEVELOPMENT AND LEARNING: ELEMENTARY
Graduate
This course will focus on the developmental processes of school-age children, kindergarten through middle school, by beginning with the study of the young child's social, emotional, cognitive, and physical growth and change. The theoretical and observational study of child development will be framed by an examination of culture, gender, and socio-economic factors as they inform assumptions about normative processes. The relationship between development and learning in a social context will be examined with particular attention to children's developing concepts in math, science, and language arts. Attention will also be given to the role of teachers and schools and other institutions in fostering the healthy development and learning of young people.

SCG 404
HUMAN DEVELOPMENT AND LEARNING: THE EARLY YEARS
Graduate
This course will focus on the developmental process of children from birth to age 8 by beginning with the study of the young child's social, emotional, cognitive and physical growth and change. The theoretical and observational study of child development will be framed by an examination of culture, gender, and socio-economic factors as they inform assumptions about normative processes. The relationship between development and learning in a social context will be examined with particular attention to children's developing cognitive concepts. Attention will also be given to the role of teachers, schools, and other institutions in fostering the healthy development and learning of young children. COREQUISITE(S): T&L 400.

SCG 406
HUMAN DEVELOPMENT AND LEARNING: SECONDARY
Graduate
This course focuses on the multiple factors that contribute to the period of adolescence, bridging childhood and adulthood. Particular attention is given to the intrapsychic, interpersonal, biological, and socio-cultural processes that are mediated by the meanings that youth give to their identity vis a vis rac, class, and gender formations within the broader society. Students will engage in interdisciplinary study of theories to examine the implications for teaching and learning processes and the role of educational institutions in fostering the healthy development of youth in society. Forms of inquiry will include students' examination of their own lives and assumptions, critique of theory, and observations of young people in a variety of contexts.
SCG 408
EDUCATION AND SOCIETY
Graduate
A study of social forces that impinge upon the educational enterprise and analysis of the relationship to major social problems in urban education with emphasis on their social, economic, political, historical and philosophical dimensions.

SCG 409
SOCIOLOGY OF EDUCATION
Graduate
This course focuses on the relationship between school structures and culture, social relations of race, ethnicity, class, and gender, and ideologies organizing education in the United States. Students will explore a range of theories in the sociology of education that explore linkages between school structures and processes and broader social forces. Readings may examine the political economy of schooling, inequalities in educational practices, and student and teacher identities shaped by schools and the larger society.

SCG 410
INTRODUCTION TO RESEARCH: PURPOSES, ISSUES, AND METHODOLOGIES
Graduate
(formerly CUG 400) This course will examine the basic questions, issues and theoretical frameworks central to the purpose, conceptualization, conduct, writing, reading and the use of educational research as a means for informing educational theory, practice and policy. Students will be exposed to the multiple frameworks which inform education research, the various methodologies employed in collecting and analyzing data and will examine the advantages, limitations and values implicit in conducting and evaluating research.

SCG 411
PHILOSOPHY OF EDUCATION
Graduate
This course examines the relationship of education to the moral and ethical dilemmas or predicaments of the human condition. It will entail issues related to the nature of education's responsiveness, or lack there of, to the concerns of the human condition: for example, human alienation, suffering, success and failure, caring, freedom, responsibility, liberation and agency. Special attention will be given to how these concerns influences or have social, cultural and political implications for how teachers address them within the teaching and learning process.

SCG 439
PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION
Graduate
This course examines foundational and contemporary theories of youth and adolescent development. It considers how these theoretical ideas relate to contemporary questions of youth and middle level education. The course explores the historical invention of adolescence, changing ideas about the meaning of childhood, as well as some of the broader social, economic, political, and cultural implications of these changing ideas. This course seeks to develop in prospective educators a broader capacity to theorize about youth and schooling, and, hence, to act critically and reflectively in multiple contexts in which youth learn. 10 - 15 field experience hours are required as part of this course.

SCG 451
DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION
Graduate
This course introduces students to different approaches to education research and research methods with a focus on critical practitioner research. Students will become discerning readers of educational research and be able to design and conduct research related to teaching and learning in a variety of disciplinary areas (English, history/social sciences, mathematics, or science) at the secondary level. They will develop skills to critically examine and reflect on practice in the classroom through discipline-specific research projects. Taken concurrently with TCH 471, TCH 472, TCH 473, TCH 474 and TCH 481, TCH 482, TCH 483, TCH 484. (Course spans two quarters: Fall-Winter or Winter-Spring).

SCG 527
GLOBAL ISSUES IN EDUCATION
Graduate
Studies of school systems outside the United States, their methods, curriculum and achievements.

Status as a Graduate Social & Cultural Foundations in Education student is a prerequisite for this class.
SCG 582
PRACTICUM IN EDUCATIONAL TECHNOLOGY AND NEW MEDIA
Graduate
This course provides directed experiences in decision-making for curriculum planning, instructional design and delivery, scholarship and leadership in instructional technology-supported learning contexts. Students will engage in co-teaching activities in technology-rich classrooms; develop an instructional technology plan; make field evaluation and use of educational hardware and software; review and discuss research and professional literature in instructional technology; evaluate and use instructional products; develop and present a multimedia-based project; learn and apply theories and principles of instructional and information message design; engage in collaborative, micro-teaching activities online; develop a technology-enhanced instructional program for the K-12 environment; create a staff development plan with focus on technology applications for administrative purposes; conduct an evaluation study on-site; observe and experiment face-to-face and virtually with a range of instructional technology applications; produce comparative reviews on the use of instructional technology in various school settings. The practicum will also provide students with multiple opportunities to reflect and share their thinking with each other in a supportive community of learners and researchers. (Prerequisites: SCG 402 & CS 460).

SCG 588
INDEPENDENT STUDY IN SOCIAL AND CULTURAL FOUNDATIONS IN EDUCATION
Graduate
Independent Study in Social and Cultural Foundations in Education. PREREQUISITE: Permission of instructor, program chair and associate dean.

SCG 600
REGISTERED STUDENT IN GOOD STANDING
Graduate
(0 credit) Registration is this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

SCG 603
PROSEMINAR: CULTURE AND EDUCATION
Graduate
This course focuses on the relationship between education, pedagogy, and theories of culture framed by a concern for social justice. Topics may include the pedagogical and political dimensions of popular culture, questions of knowledge production, the relationship between knowledge and power of the political economy of culture production.

Status as a Graduate Social & Cultural Foundations in Education student is a prerequisite for this class.

SCG 604
PROSEMINAR: IDENTITY CONSTRUCTIONS AND NEGOTIATIONS
Graduate
This course examines identity construction in educational contexts. Drawing on theoretical frameworks in the sociology of education, postmodernist, feminist and critical theories of education, and cultural studies literature, this course will explore identity as complex and multifaceted. It explores relations of class, race, ethnicity, gender, and sexuality and the implications of sociality for contemporary education.

Status as a Graduate Social & Cultural Foundations in Education student is a prerequisite for this class.

SCG 608
PROSEMINAR: IDEOLOGY, POWER AND POLITICS
Graduate
This course examines how power operates pedagogically and how domination and resistance get shaped in education. It considers power relations in society and how these power relations enter into educational discourse and practice. It also explores ways in which power produces various educational practices and ways in which power gets psychically configured. Students will examine major theories of power, analyze race, ethnicity, gender, class and sexuality as systems of power and consider the educational implications of such an analysis.

Status as a Graduate Social & Cultural Foundations in Education student is a prerequisite for this class.
SCG 610
INTRODUCTION TO RESEARCH METHODS
Graduate
(Special section of SCG 410, Introduction to Research: Purposes, Issues and Methodologies.) This course will examine the basic questions, issues and theoretical frameworks central to the purpose, conceptualization, conduct, writing, reading and the use of educational research as a means for informing educational theory, practice and policy. Students will be exposed to the multiple frameworks which inform educational research, the various methodologies employed in collecting and analyzing data and will examine the advantages, limitations and values implicit in conducting and evaluating research. Students will also begin exploring possible thesis topics as they begin defining their particular research purpose, methodology and issues.

Status as a Graduate Social & Cultural Foundations in Education student is a prerequisite for this class.

SCG 611
PROSEMINAR: PHILOSOPHICAL STUDIES IN EDUCATION, CULTURE AND ETHICS
Graduate
Examines both traditional philosophical questions in education from such perspectives as Africana, feminist, Latino/Hispanic thought and distinctively Africana, feminist, and Latino/Hispanic issues in a philosophical way. Some of the perspectives are, for example, the necessary conditions of a humanistic education, the relation between theory and practice, the relationship between individual and institutional/society, the role of education in the struggle for social justice, the role of aesthetics in human development and projects of political emancipation, the dialectics of history and experience in the development of liberatory ideas, and the moral and ethical dimensions of education.

Status as a Graduate Social & Cultural Foundations in Education student is a prerequisite for this class.

SCG 614
CRITICAL MEDIA LITERACY
Graduate
This course focuses on theories of media interpretation, cultural pedagogy, and cultural studies. Literature from critical media literacy, cultural studies, critical pedagogy, communication studies, sociology, and philosophy will inform student understanding of how media educates, how interpretations of media are struggled over, and how such practices relate to broader structures of power, identity formation, political economy of media, theories of communication and representation, and pedagogy.

SCG 615
THEORIZING IN EDUCATION, TECHNOLOGY AND SOCIETY
Graduate
This course explores philosophical and sociological theories of education, technology and society. Topics include the social, political, and pedagogical implications of educational technology and new media. The aim of the course is to introduce students to the history of critical theoretical perspectives on educative technologies through foundational texts in the humanities and social sciences as well as contemporary studies in the multiple educative aspects of technology. Course readings will draw on scholarship in philosophy, sociology, new media, educational foundations, and political theory.

SCG 617
SPECIAL TOPICS IN SOCIAL AND CULTURAL FOUNDATIONS IN EDUCATION:
Graduate
This course will provide students with an opportunity for critical examination of issues in the social and cultural foundations of education. Topics could include: educational theory; social context of education; education and social justice; education and social transformation, educational policy; and issues in educational reform.

SCG 625
CANDIDACY CULMINATING PROJECT (STUDENT IN GOOD STANDING)
Graduate
(0 credit) Registration in this course is required of all students who are not enrolled in a course but are completing culminating projects for their program of study, including theses, papers, and final portfolios. It provides access to university facilities. Permission of thesis/capstone advisor required each term. Registration limited to three terms. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.
SCG 635
ADVANCED QUALITATIVE RESEARCH METHODOLOGIES
Graduate
This course extends the fundamental principles of educational research first introduced in SCG 610. It provides students with theoretical and practical preparation in conceptual issues in qualitative research and research design. Students will explore a variety of methodological approaches to interpretive inquiry in social science research, research design, methods of data collection, research ethics, and critical analysis. This course will prepare students to undertake the capstone master's thesis requirement.

SCG 636
THESIS RESEARCH
Graduate
A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself are prolonged beyond the usual time, the program advisor may require the student to register for additional credit. Completion of this course is required to receive the MA Degree in Social and Cultural Foundations in Education.

SCG 637
CAPSTONE: SOCIAL AND CULTURAL FOUNDATIONS IN EDUCATION
Graduate
The SCFE Capstone allows students to explore substantive areas of scholarship within their areas of interest and to create a final project or paper of their own design under the mentorship of a faculty member in the program. The Capstone is an opportunity to engage in a synthesis of what has been learned through coursework, and to integrate and compare knowledge gained from students’ own research with that which was learned in the program. The capstone course will involve preparation of a substantive piece of work. Upon completion of all coursework, students enrolled in this course will select and work with a Capstone Advisor (a faculty member in the SCFE program) to discuss possible paper topics. The paper will generally consist of library-based research and will typically be 20-25 pages in length. Completion of this course is required to receive the MEd Degree in Social and Cultural Foundations in Education.

SCG 701
PHILOSOPHY OF ETHICS IN EDUCATION
Graduate
This course is a philosophical investigation into the structure and meaning of ethics within education. Education, a condition for self-formation and self-other relations, is explored as a site of ethical inquiry. It is within this framework that education, which involves learning, teaching, response, and communication, is posed as a condition of ethical possibility and not merely as the vehicle through which a certain ethics gets carried out. Primary and secondary philosophical and non-philosophical literature and authors within and outside of philosophy of education will be used to study these issues.

Status as a EDD student with a declared concentration is a prerequisite for this class.

SCG 711
CULTURE, POWER AND EDUCATION
Graduate
The purpose of this course is to facilitate the development of a critical understanding of the larger concept of culture within the notion of multiculturalism. This begins by recognizing that educational institutions such as schools and universities are cultural institutions engaged in the making of culture. While the focus of multiculturalism is about theorizing difference in relation to the particular cultural processes that go on in schools and universities, its focus does not address how educational institutions are shaped by broader cultural dynamics that are outside of the immediate context of educational institutions. It is in this context that doctoral students will examine how cultural processes are intimately connected with social relations, especially with class relations, with gender and ethnic divisions, and with the racial restructuring of social relations. They will also explore how culture involves power, which serves to produce inequalities in the abilities of individuals and social groups to define and realize their needs. In addition, culture will be analyzed as a site of social difference and struggle. The primary focus of the course will be to explore how the larger political economy, popular culture and politics of a society effect the dynamics of how culture is constructed within social life. Doctoral students from within this framework will analyze what we mean by culture; how it is produced and consumed; the relationship of everyday life are represented by dominant cultural and sub-cultural groups and institutions. It is in this context that the course also examines how relations of power, knowledge, social identity and pedagogy within educational institutions are conditioned and shaped by the educational practice that shapes and impinges upon the internal workings and purposes of educational institutions.

Status as a EDD student with a declared concentration is a prerequisite for this class.
**SCG 721**  
**HUMAN DEVELOPMENT AND THE EDUCATIONAL PROCESS**  
**Graduate**

This course will examine the process of human development and learning through the ages by critically examining cross-cultural research and developmental theories designed to describe and interpret the physical, social, emotional, intellectual, and psychological processes involved. Emphasis will be placed on the range of individual, familial, environmental, and cultural factors that may enhance or inhibit human growth and development, and on the critical role that human relationships play in the lifelong interactive processes of learning and growth. Considerable attention will be paid to the historical role of power, culture, class, gender and capability in defining and interpreting certain behaviors as indicators of normative development. These normative indicators will be critiqued with regard to underlying cultural assumptions and values, their function in fostering and maintaining current social, educational and political relations, and their contribution to the current crises in urban education and the development of children and youth. Class participants will examine their perspective on human development and learning and explore the socio-cultural and historical bases which contribute to their underlying values and assumptions. Through multifaceted inquiry utilizing self-reflection, case studies, theoretical analyses, and child assessment and observation, participants will consider the implications for their work as educational leaders in approaching current challenges with students, parents, community, and teachers and in creating schools that will foster societal change to support the healthy development of children and youth.

Status as a EDD student with a declared concentration is a prerequisite for this class.

---

**SCG 735**  
**QUANTITATIVE RESEARCH METHODS I**  
**Graduate**

This course is designed to provide doctoral level students with theoretical and practical preparation in quantitative research design including: instrumentation; data collection; statistical analysis; ethics and politics of the conduct of research; and development of analytical skills for critiquing quantitative research. Students will have the opportunity to work with real databases to conduct both univariate and multivariate analyses, including correlations, ANOVAS, and multiple regressions. Prerequisite: SCG 785.

SCG 785 and status as an EDD student is a prerequisite for this class.

---

**SCG 745**  
**QUALITATIVE RESEARCH METHODS I**  
**Graduate**

This course is designed to provide doctoral level students with theoretical and practical preparation in qualitative methods including: data collection and analysis; ethics and the politics of the conduct of research; and critical analytical skills for review and critique of qualitative research. Students will be introduced to a range of approaches to qualitative inquiry that may include: narrative inquiry; ethnography; case study; phenomenology; grounded theory; and participatory action research from a variety of theoretical perspectives. Prerequisite: SCG 785.

SCG 785 and status as an EDD student is a prerequisite for this class.

---

**SCG 755**  
**QUANTITATIVE RESEARCH METHODS II**  
**Graduate**

A continuation of SCG 735. Students will prepare a methodology section of a research project and will learn how to write up quantitative results of their analyses. By the end of the course students should be able to: understand quantitative methodological approaches; select appropriate data collection strategies; conduct the appropriate analysis for the research question(s) proposed and the nature of the data; and be prepared to write a candidacy paper. Prerequisite: SCG 735.

SCG 755 and status as an EDD student is a prerequisite for this class.

---

**SCG 765**  
**QUALITATIVE RESEARCH METHODS II**  
**Graduate**

A continuation of SCG 745. Students will conduct a pilot study on an issue of interest using a qualitative research design. By the end of the course students should be able to: understand qualitative methodological approaches; select appropriate data collection strategies; conduct the appropriate analysis for the research question(s) proposed and the nature of the data; and be prepared to write a candidacy paper. Prerequisite: SCG 745.

SCG 745 and status as an EDD student is a prerequisite for this class.
SCG 775
SEMINAR: FRAMEWORKS OF INQUIRY IN EDUCATIONAL RESEARCH I
Graduate
This course offers doctoral students a general introduction to theory and practice in educational research. First, it is designed to help students develop an understanding of the assumptions that underlie multiple approaches to knowledge construction and the conduct of inquiry in education. Second, the course will introduce students to the structural organization of a research manuscript. By the end of the course students should be able to: understand key theoretical and methodological issues in educational inquiry; engage in the critical analysis of multiple educational frameworks; recognize the components of a research manuscript; and identify a general topic area for dissertation research.

Status as a EDD student with a declared concentration is a prerequisite for this class.

SCG 785
SEMINAR: FRAMEWORKS OF INQUIRY IN EDUCATIONAL RESEARCH II
Graduate
Drawing upon the knowledge and skills developed in Frameworks of Inquiry I, this course is designed to enhance students’ ability to critically analyze existing research as a crucial element in completing their own doctoral research. Emphasis will be placed on the preparation of a critical literature review. By the end of the course students should be able to: review the components of a research proposal; develop further the ability to evaluate research critically; conduct a literature review that will involve interpretation, evaluation, and synthesis of literature on a topic of their choice; refine a topic for dissertation research; and make an informed decision between the quantitative and qualitative sequences. Prerequisite: SCG 775

SCG 775 and status as an EDD student is a prerequisite for this class.

SCU 207
SOCIAL AND HISTORICAL ISSUES IN EDUCATION
Undergraduate
This course examines through an interdisciplinary framework sociological and historical issues and concerns associated with the relationship between education and public life. The course analyzes education as a form of cultural power, addressing its political and ideological effects. Emphasis will be placed upon the social and historical meanings and purposes assigned to education, especially as it pertains to questions of race, gender, sexuality, and the political economy of class.

SCU 336
ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT
Undergraduate
Theories of development throughout adolescence including current issues of problems and growth crises in attaining maturation. The course also includes adult and aging life span considerations. Emphasis is placed on the role of the early childhood professional in interaction with adults in the lives of young children (i.e., parents, grandparents).

SCU 337
HUMAN GROWTH AND DEVELOPMENT
Undergraduate
This course is an introduction to the study of the process of human development from conception to old age. Through a range of theories, the periods of childhood, adolescence, and adulthood are examined with particular attention to the role of culture, gender, and class as they inform the contextualized process of growth and change across the life span.

SCU 338
THE PROCESS AND EVALUATION OF LEARNING
Undergraduate
The process involved in human learning is examined from alternative theoretical and research paradigms and perspectives. The roles of emotions, cultural differences, social realities, cognitive uniqueness, character and achievement tendencies are examined with respect to learner functioning. Alternative methods and techniques for evaluating learner development and academic achievement are surveyed and discussed. Emphasis is placed upon identifying the characteristics of individually and culturally responsive and responsible testing and assessment protocols in the school setting.

Advanced Teacher Candidate Standing is a prerequisite for this class.
SCU 339
PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION
Undergraduate
This course introduces foundational and contemporary theories of youth and adolescent development. It provides an investigation of how these theoretical ideas relate to contemporary questions of youth and middle level education. The course explores the historical invention of adolescence, changing ideas about the meaning of childhood, as well as some of the broader social, economic, political, and cultural implications of these changing ideas. This course seeks to develop in prospective educators a broader capacity to theorize about youth and schooling and, hence, to act critically and reflectively in multiple contexts in which youth learn. 10 - 15 field experience hours are required as part of this course.

Advanced Teacher Candidate Standing is a prerequisite for this class.

SCU 351
DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION
Undergraduate
This course introduces students to different approaches to education research and research methods with a focus on critical practitioner research. Students will become discerning readers of educational research and be able to design and conduct research related to teaching and learning in a variety of disciplinary areas (English, history/social sciences, mathematics, or science) at the secondary level. They will develop skills to critically examine and reflect on practice in the classroom through discipline-specific research projects. Taken concurrently with SEC 371, SEC 372, SEC 373, SEC 374 and SEC 381, SEC 382, SEC 383, SEC 385. (Course spans two quarters: Fall-Winter or Winter-Spring).

SCU 399
INDEPENDENT STUDY
Undergraduate
(1 to 4 credits) Education core unit. PREREQUISITE(S): Permission of Department Chair and Associate Dean.

SE 325
INTRODUCTION TO SOFTWARE ENGINEERING
Undergraduate
This course introduces students to the activities performed at each stage of the development process so that they can understand the full lifecycle context of specific tasks such as coding and testing. Topics will include software development processes, domain modeling, requirements elicitation and specification, architectural design and analysis, product and process level metrics, configuration management, quality assurance activities including user acceptance testing and unit testing, project management skills such as risk analysis, effort estimation, project release planning, and software engineering ethics. PREREQUISITE(S): CSC 212 or CSC 224 or CSC 396 or CSC 242 or CSC 262 or IM 330 or CSC 243

SE 330
OBJECT ORIENTED MODELING
Undergraduate
Object-oriented modeling techniques for analysis and design. Provides the tools and techniques needed to solve complex, real-world software engineering problems in an object-oriented manner, using the most effective elements of the Unified Process. The course covers the essential concepts and notation of the Unified Modeling Language (UML), the standard notation for object-oriented analysis and design. Team project. PREREQUISITE(S): CSC 212 or CSC 262 or CSC 300

SE 333
SOFTWARE TESTING
Undergraduate
This course is designed for the software engineering professional to gain a greater understanding of the key ingredients in creating and/or managing a successful testing program to meet project needs. Topics covered include test lifecycle planning, test design & coverage analysis, complexity, levels of testing such as unit, integration, system, performance and stress testing. Best practice strategies in software testing such as verification & validation, early lifecycle testing, risk based testing and automation will also be examined including exposure to test automation methods and tools. PREREQUISITE(S): CSC 383 or SE 330 or CSC 301

SE 350
OBJECT-ORIENTED SOFTWARE DEVELOPMENT
Undergraduate
Principles, techniques and tools of object-oriented modeling, design, implementation, and testing of large-scale software systems. Topics include design patterns, application frameworks, architectural design, and the applications in the software development process to improve the extensibility, maintainability, and reliability of software systems. PREREQUISITE(S): CSC 301 or CSC 383
SE 352
OBJECT-ORIENTED ENTERPRISE APPLICATION DEVELOPMENT
Undergraduate
This course focuses on applying object-oriented techniques in the design and development of software systems for enterprise applications. Topics include component architecture, such as Java Beans and Enterprise Java Beans, GUI components, such as Swing, database connectivity and object repositories, server application integration using technologies such as servlets, Java Server Pages, JDBC and RMI, security and internationalization. PREREQUISITE(S): CSC 301 or CSC 383.

SE 356
SOFTWARE DEVELOPMENT FOR MOBILE AND WIRELESS SYSTEMS
Undergraduate
This course will focus on the unique aspects of developing software applications for mobile and wireless systems, such as personal digital assistant (PDA) devices and mobile phones. Topics will include user interface design for small screens with restricted input modalities, data synchronization for mobile databases as well as wireless programming and the use of web services. PREREQUISITE(S): SE 350

SE 357
CONCURRENT SYSTEM DEVELOPMENT
Undergraduate
Fundamentals and techniques of developing concurrent object-oriented applications, using a patterns-based approach. Concepts covered include threads, synchronization and object locking, thread blocking and deadlock, safety and liveness, state-dependent action and concurrency control. PREREQUISITE(S): SE 350.

SE 358
SOFTWARE DEVELOPMENT FOR LIMITED AND EMBEDDED DEVICES
Undergraduate
This course will focus on the unique aspects, tools, and techniques for developing software applications for limited and embedded devices, such as set-top boxes, micro-controllers and smart cards. Topics will include memory management for low-memory devices and efficient programming techniques for limited processors. Students will gain hands-on experiences in customizing and configuring embedded OS, handling various types of sensors and actuators such as barcode readers, RFID sensors, etc, and building software applications that meet the functional and non-functional requirements. PREREQUISITE(S): SE 350

SE 359
AGILE SOFTWARE DEVELOPMENT
Undergraduate
This course focuses on the fundamentals, principles, tools, and techniques in agile software development. Students will gain hands-on experiences in agile software development through projects dealing with various aspects of agile development, including planning, construction, testing, and integration. Students will be able to effectively participate in and manage agile software development as a result of their successfully completing this course. PREREQUISITE(S): SE 350

SE 368
SOFTWARE MEASUREMENT AND PROJECT ESTIMATION
Undergraduate
This course will discuss various software metrics and defect models. Productivity and effort estimation models as well as software cost estimation will also be discussed. PREREQUISITE(S): IT 223 and SE 330.

SE 371
PRACTICES OF GLOBAL SOFTWARE DEVELOPMENT
Undergraduate
This course studies the challenges and solutions for developing software in a global environment. Topics covered include strategic issues related to allocation of tasks; communication issues that arise due to distance, time zone differences, infrastructure support, geographical dispersion, and lack of information communication; coordination complexity; cultural issues, technical issues related to information and artifact sharing, and architectural design, and finally knowledge management issues. Some sections of this course will include a hand-on global development project in conjunction with teams of students at other universities, while other sections will focus on a more in-depth theoretical discussion of these issues and concepts. PREREQUISITE(S): CSC 301 or CSC 383 or CSC 393
SE 380
DESIGN OF OBJECT-ORIENTED LANGUAGES
Undergraduate
This course covers issues in the design and specification of object-oriented programming languages. Sample topics include the use of patterns in program representation, static and dynamic semantics, subject reduction, sub-typing, inheritance, polymorphism, genericity and concurrency. PREREQUISITE(S): SE 350.

SE 391
SOFTWARE ENGINEERING STUDIO I
Undergraduate
Students will work in small teams to develop realistic software systems in a master-apprentice environment. The instructor will serve as a master/mentor/project leader. Students will apply the knowledge and skills they have learned in previous course in solving real world problems. PREREQUISITE(S): SE 350.

SE 392
SOFTWARE ENGINEERING STUDIO II
Undergraduate
This course is a continuation of SE 391. SE 391 and SE 392 must be taken as a sequence in consecutive quarters. PREREQUISITE(S): SE 391.

SE 399
INDEPENDENT STUDY
Undergraduate
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit. PREREQUISITE(S): None.

SE 430
OBJECT ORIENTED MODELING
Graduate
Object-oriented modeling techniques for analysis and design. Provides the tools and techniques needed to solve complex, real-world software engineering problems in an object-oriented manner, using the most effective elements of the Unified Process. The course covers the essential concepts and notation of the Unified Modeling Language (UML), the standard notation for object-oriented analysis and design. Team project. PREREQUISITE(S): CSC 403

SE 433
SOFTWARE TESTING AND QUALITY ASSURANCE
Graduate
This course is designed for the software engineering professional to gain a greater understanding of the key ingredients in creating and/or managing a successful testing program to meet project needs. Topics covered include test lifecycle planning, test design & coverage analysis, complexity, levels of testing such as unit, integration, system, performance and stress testing. Best practice strategies in software testing such as verification & validation, early lifecycle testing, risk based testing and automation will also be examined including exposure to test automation methods and tools. PREREQUISITE(S): CSC 403

SE 450
OBJECT-ORIENTED SOFTWARE DEVELOPMENT
Graduate
Principle, techniques and tools of object-oriented modeling, design, implementation, and testing of large-scale software systems. Topics include design patterns, application frameworks, architectural design, and the applications in the software development process to improve the extensibility, maintainability, and reliability of software systems. PREREQUISITE(S): CSC 403

SE 452
OBJECT-ORIENTED ENTERPRISE COMPUTING
Graduate
This course focuses on applying object-oriented techniques in the design, development, and integration of server-side enterprise applications using technologies such as servlets, Java Server Pages, and JDBC. Topics include web applications, multi-tier architecture, model-view-controller architecture, database connectivity, and security. PREREQUISITE(S): CSC 403
SE 453
ARCHITECTURE AND FRAMEWORKS FOR DEVELOPING CLIENT APPLICATIONS
Graduate
This course will focus on software architectures, frameworks, and techniques for developing web-based thin client applications as well as rich desktop client applications. Topics will include discussion on design and architectural patterns, such as model-view-controller pattern; survey of widely used development frameworks for building client applications, such as Struts, Java Server Face (JSF), Swing, and SWT, etc.; discussion of widely used techniques such as AJAX; evaluation of the strengths and weaknesses of these technologies for making technology decisions. Students will gain hands-on experiences in developing applications that utilizes these frameworks and techniques. Prerequisite: SE 452.

SE 456
ARCHITECTURE OF COMPUTER GAMES
Graduate
This course discusses the software architecture and the engineering of computer games. The topics include gaming platforms, libraries and frameworks for game development, techniques for accessing and managing low level devices and resources, and application of artificial intelligence. PREREQUISITE(S): CSC 403

SE 457
SERVICE-ORIENTED ARCHITECTURE
Graduate
An in-depth study of service oriented architecture (SOA) from the business, architectural, and technology perspectives. The business perspective will explain the imperatives behind SOA and discuss the significance of SOA in industry. The architectural perspective will discuss the different architectural models of software development and contrast these with SOA. The technology perspective will provide students with the opportunity to gain the required hands-on experience to analyze, design, implement and deploy SOA solutions that will meet both functional and non-functional requirements. Major topics include software architectures in practice, SOA development lifecycle, Enterprise Service Bus, SOA analysis and design methods, Web Services, and governance. Prerequisite: SE 450 or CSC 435

SE 459
AGILE SOFTWARE DEVELOPMENT
Graduate
This course focuses on the fundamentals, principles, tools, and techniques in agile software development. Students will gain hands-on experiences in agile software development through projects dealing with various aspects of agile development, including planning, construction, testing, and integration. Students will be able to effectively participate in and manage agile software development as a result of their successfully completing this course. PREREQUISITE(S): SE 450

SE 468
SOFTWARE MEASUREMENT/ PROJECT ESTIMATION
Graduate
Software metrics. Productivity, effort and defect models. Software cost estimation. PREREQUISITE(S): IT 403 and (SE430 or SE450)

SE 475
MANAGING GLOBALLY DISTRIBUTED SOFTWARE DEVELOPMENT
Graduate
Managing Globally Distributed Software Development (GDSD) for IT projects. Issues associated with time zone differences, infrastructure support, geographical dispersion, and lack of centralized communication. The course will focus on the management, implementation and deployment of software within the context of outsourced, distributed development, and insourced projects. Additional topics include strategic management issues such as justification, vetting, consulting services and partnerships. Course will include several hands-on distributed development projects. PREREQUISITE(S): CSC 403

SE 477
SOFTWARE AND SYSTEMS PROJECT MANAGEMENT
Graduate
Project Management is presented from a practitioner's view. The four basic building blocks of software project management: people, process, tools, and measurements are covered. Special emphasis is placed on professional standards such as the Project Management Book of Knowledge and IEEE Software Engineering Standards. Specific topics include Managing People, Selecting Project Tools, Leadership & Motivation, Software Development Processes, Estimation, Risk Analysis, Scheduling and Tracking, Leveraging Measurements, and Project Completion. Consideration is given to rapid development and project cultural issues. PREREQUISITE(S): Knowledge of the Software development life cycle model, for example through courses such as SE430, ECT455, IS425, MIS5555 or through appropriate work experience.
The Software Architecture process is concerned with describing, evaluating, and designing systems at the architectural level. This course will discuss the role of architecture and the architect in the software development cycle. It will introduce architectural patterns and tactics, architecture assessment techniques, architecture driven design, and techniques for documenting architectures. The course will involve design, development, and assessment activities. PREREQUISITE(S): SE 450

Requirements Engineering (RE) plays a critical role in the software development process. This course will introduce related vocabulary, concepts, and techniques, and will examine the role of RE in software and systems engineering. The course will cover topics related to eliciting, validating, negotiating, analyzing, specifying, and managing requirements. Popular RE tools will also be introduced. Prerequisite: SE430 or SE450.

Students will work in small teams to develop realistic software systems in a master-apprentice environment. The instructor will serve as a master/mentor/project leader. Students will apply knowledge and skills they have learned in previous course in solving real world problems. PREREQUISITE(S): SE 450.

This course studies the challenges and solutions for developing software in a global environment. Topics covered include strategic issues related to allocation of tasks; communication issues that arise due to distance, time zone differences, infrastructure support, geographical dispersion, and lack of information communication; coordination complexity; cultural issues, technical issues related to information and artifact sharing, and architectural design, and finally knowledge management issues. Some sections of this course will include a hands-on global development project in conjunction with teams of students at other universities, while other sections will focus on a more in-depth theoretical discussion of these issues and concepts. Prerequisite(s): SE 450 or SE 430 or IS 430 or PM 430. A student may not take both IS 540 and SE 511 for credit toward a degree.

Students in this course will learn architectural patterns for integrating security into software such as web applications. Topics include: an overview of software security; integration of authentication, access control, and auditing into software; programming with symmetric-key and asymmetric-key cryptography, including key distribution and key management, use of certificates, and SSL/TLS; security mechanisms in modern runtime environments, e.g., code signing, code verification, access control, and security policies. Students will get hands-on experience designing and implementing secure software. PREREQUISITE(S): CSC 435 and SE 450

Students in this course will learn how to conduct software security assessment to identify software vulnerabilities in software such as web applications and operating system services. Topics include: common software vulnerabilities and attack vectors; malicious payloads, including shellcode structure; and application review techniques, including fuzzing and code auditing. Students will get hands-on experience identifying vulnerabilities in software. Prerequisite(s): CSC 435

Identification, estimation, evaluation, planning, controlling, and monitoring of risk involved in the development, maintenance, operation and evolution of systems. PREREQUISITE(S): IT 403 and SE 430 or consent.
SE 533
SOFTWARE VALIDATION AND VERIFICATION
Graduate
Techniques, methods and tools for software inspection and testing. Theory and applications of formal verification of programs. Techniques and tools for automated analysis of programs. PREREQUISITE(S): SE 450.

SE 546
SOFTWARE ARCHITECTURE AND DESIGN FOR DESKTOP APPLICATIONS
Graduate
This course will introduce students to architecture, design and implementation issues for developing GUI-based desktop application. The goal is to understand the engineering aspect of user interface development -- that is the basic software architectures and designs that govern the development of graphical user applications including patterns like the Model-View-Controller and its derivatives, event-driven design, as well as addressing concurrency, performance, caching, and software packaging and distribution issues. The course will also provide an in depth exposure to the toolkits available in Java. Examples include JFC/Swing, JMF, JAF. Prerequisite(s): SE 450

SE 549
MODEL-DRIVEN SOFTWARE DEVELOPMENT
Graduate
Advanced methods and techniques in software specification, modeling, and model-driven development. Topics include approaches to software specification and modeling, formal specification languages, techniques for structural and behavioral modeling of software systems, and tools for analysis and transformation of software systems. PREREQUISITE(S): SE 430 or SE 450

SE 554
ENTERPRISE COMPONENT ARCHITECTURE
Graduate
This course will focus on object-oriented component architectures for enterprise applications. Topics include: Enterprise Java Beans (EJB), Java Naming and Directory Interfaces (JNDI), Java Mail and Messaging Services. PREREQUISITE(S): SE 450 or SE 452.

SE 556
ADVANCED ARCHITECTURE OF COMPUTER GAMES
Graduate
This course discusses the advanced issues in software architecture and the engineering of computer games. The topics include engineering and programming issues in graphics, scene management, kinematics, simulation, collision detection. Software design patterns and frameworks for computer games. Project management, configuration management, and quality assurance of computer game development projects. PREREQUISITE(S): SE 456 and CSC 407

SE 558
ARCHITECTURE AND DESIGN FOR MULTIPLAYER GAMES
Graduate
Multiplayer games were made possible by the advances in networking technology, increases in processor speed and data storage. Today, the majority of successful game titles are equipped with a multiplayer capability. This technical course discusses the fundamental aspects of multiplayer game development such as: design techniques, architectures, client and server side implementation, time and event synchronization, databases. PREREQUISITE(S): CSC 403 and CSC 407

SE 560
STRUCTURED DOCUMENT INTERCHANGE AND PROCESSING
Graduate
Document and data interchange among different applications is an extremely important aspect of software application development. This course will focus on emerging technologies associated with the Extensible Markup Language (XML), such as the Document Object Model (DOM), the Simple API for XML (SAX), the XML Stylesheet Language (XSL) and Transformation Language (XSLT), and XML Schema. Applications of these technologies will be discussed in conjunction with tools and techniques for parsing, transforming, and manipulating documents. PREREQUISITE(S): SE 450 OR ((CSC 383 or CSC 301) and SE 430).

CDM graduate students in the Pre requisite Phase are restricted from registering for this class.
SE 579  
ANALYTICS AND DATA MINING IN SOFTWARE ENGINEERING 
Graduate  
This course discusses the application of selected statistical analysis, data mining, and machine learning techniques to the area of Software Engineering. These techniques are used for purposes as varied as stakeholder analysis, mining software repositories, trace retrieval, bug prediction, recommender systems in Software Engineering domains, and software process improvement techniques. The course demonstrates how these techniques can be used to enhance project management and other software engineering activities in software intensive systems and provides students with hands-on experience using them on real project data. (No prior knowledge of data mining and knowledge management is assumed.) PREREQUISITE(S): SE 450

SE 581  
SOFTWARE ARCHITECTURE II 
Graduate  
In this second Software Architecture course, students will be exposed to case studies of real-world software architectures for which reliability, performance, availability, scalability and other such concerns drive the architectural design. Students will gain hands-on practice in reverse engineering, designing, and assessing existing systems including performance testing. Students will build on their prior knowledge to design complex systems in principled and systematic ways. The course will involve designing and implementing a simulated high scalability, high reliability system. PREREQUISITE(S): SE 480

SE 582  
SOFTWARE INTENSIVE SYSTEMS ENGINEERING AND MANAGEMENT 
Graduate  
This course will introduce students to fundamental principles of systems engineering for large and complex software intensive systems. The course will include a study of systems engineering failures, and will cover topics related to problem frames; systems level modeling of hardware and software components, concept definition, design tradeoffs, risk assessment, interface definition and related systems engineering activities. Additional topics such as product line development, ultra-large scale systems, and engineering of safety critical systems will also be covered. PREREQUISITE(S): (SE 470 or PM 430 or IS 430) and (SE 430 or SE 482 or IS 485)

SE 591  
SOFTWARE ENGINEERING STUDIO II 
Graduate  
This is the continuation of SE 491. SE 491 and 591 must be taken as a sequence in two consecutive quarters. PREREQUISITE(S): SE 491

SE 598  
TOPICS IN SOFTWARE ENGINEERING 
Graduate  
Specific topics will be selected by the instructor and may vary with each quarter. PREREQUISITE(S): For specific prerequisites, see syllabus or consult course instructor.

SE 599  
INDEPENDENT STUDY 
Graduate  
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit. PREREQUISITE(S): None.

SE 690  
RESEARCH SEMINAR 
Graduate  
Readings and discussion on current research topics. Students may register for this course no more than three times. PREREQUISITE(S): Consent of the instructor.

SE 691  
RESEARCH SEMINAR CONTINUATION 
Graduate  
This course is intended for students not registering in either SE 696 or SE 698. After registering for SE 690, students register for this course in each subsequent quarter until they complete the research. Students who fail to do so will be required to re-enroll in SE 690 to meet the requirement for completing that course. Prerequisite: SE 690
SE 696
MASTER’S PROJECT
Graduate
(4 credit hours) Students may register for this course only after their advisor has approved a written proposal for their project. Independent study form required. PREREQUISITE(S): Consent of advisor.

SE 698
MASTER’S THESIS
Graduate
(2 credits) Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. PREREQUISITE(S): Consent of advisor. Independent study form required.

SE 699
SOFTWARE ENGINEERING RESEARCH CONTINUATION
Graduate
Students register for continuation credit after registering for SE 698 in each subsequent quarter until they complete their thesis. Students who fail to do so will have to reregister for SE 698 to meet the requirement for completing that course. PREREQUISITE(S): SE 698.

SEC 309
TEACHING AND LEARNING SECONDARY SCHOOL MATHEMATICS
Undergraduate
Prepares teacher-candidates for teaching mathematics at the middle school and secondary school levels. Examines contemporary issues in teaching mathematics, methods of teaching secondary mathematics, and recent history in mathematics curriculum development. Emphasis on the development of alternative teaching strategies and the implementation of the NCTM Standards. Lesson and unit development, evaluation, and classroom management also will be discussed. 30 Level 2 Field Experience hours.
SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 310
TEACHING, HISTORY, AND SOCIAL SCIENCES IN SECONDARY SCHOOLS
Undergraduate
Prepares teacher-candidates for teaching history and social sciences at the middle and secondary school levels. Examines the nature and purpose of history and social sciences curriculum within secondary schools, the current status of social studies materials and practices, and issues confronting today's secondary social studies teachers. Emphasis on alternative teaching strategies, resources for teaching and learning, teachers' responsibilities in curriculum development and decision making, and methods and materials for addressing cultural diversity. Lesson and unit development, evaluation, and classroom management also will be discussed. 30 Level 2 Field Experience hours.
SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 311
THE NATURE OF ENGLISH
Undergraduate
This course is designed to help students to see that the field of English Studies is bigger than the component they probably identify as English (its Literature, Writing, and Linguistics/Grammar). Students will explore the formation of the discipline up to the current day, focusing on the shifting understanding of ways of reading, writing and thinking about language. They will strive to answer the questions: What does it mean to be a student of language and literature? and, What are the ways of knowing writing, literature, and language? In doing so, students will relate their disciplinary content to their daily lives and interests and to the larger framework of human endeavor and understanding, including identifying its importance to the personal lives of high school students. The course is a prerequisite for SEC 321.
SEC 312
THE NATURE OF HISTORY AND THE SOCIAL SCIENCES
Undergraduate
This course builds on the content course work students have done in the seven disciplines grouped under the heading “social sciences” (history, political science, geography, sociology, anthropology, economics, and psychology). In this class students will get further exposure to the basic concepts of the social science disciplines and consider the connections as well as differences between them. The course emphasizes how different disciplinary backgrounds lead students to bring different perspectives to their study of social phenomena and helps them see these phenomena from multiple vantage points. The course will employ a case study approach framed around social issues of interest to all seven disciplines (e.g. social control, threats, development, natural disasters). By the end of the course, students will have applied the knowledge and skills of multiple social science disciplines to evaluate social phenomena, considered the relationship and differences between those disciplines, and be prepared to enter SEC 322 where they will apply their content knowledge to inquiry and teaching in the field.

SEC 313
THE NATURE OF MATHEMATICS
Undergraduate
This course builds on students’ mathematics understanding by emphasizing the universality of mathematics as a cultural endeavor. In it, students will explore the historical trends in mathematic and how those trends have been taught. Students will understand that, mathematics, at its core, is deductive; however, it also requires intuition. Thus, the course examines the interaction among intuition, experimentation, conjecture, abstraction, and deductive reasoning not only in the classroom but also in the everyday use of mathematics. It also examines the interplay between concrete problem-solving and generalization.

SEC 314
THE NATURE OF SCIENCE
Undergraduate
This course is about the nature of science and the interactions between science and society. It will build on the foundation of understandings that students already have about the processes and conventions of science developed through their years as science students to create opportunities for deeper understandings of the beliefs and assumptions inherent to the creation of scientific knowledge. These opportunities will be developed through direct interactions with professional scientists as well as through case studies and readings that illustrate the strengths, limits and pitfalls of the scientific endeavor as well as provide opportunities for students to relate science to their daily lives and interests and to a larger framework of human endeavor and understanding (e.g., relationships among systems of human endeavor including science and technology; relationships among scientific, technological, personal, social and cultural values). Cases will be drawn from different scientific disciplines as well as from modern and historic times. In this way, science students will have a better understanding of what it means to be a scientist and how science interfaces with society. The course is a prerequisite for SEC 324.

SEC 321
INQUIRY & APPLICATION IN DEVELOPING SECONDARY ENGLISH PEDAGOGY
Undergraduate
This course builds on SEC 311 by preparing teacher candidates to distinguish between what needs to be taught (content) and how it is taught (pedagogy), with an emphasis on understanding the historical shifts in the teaching of content and how these shifts inform teaching and learning in today’s English language arts classrooms. The course also introduces students to methods of inquiry and reflection on content pedagogical knowledge. Student will examine their own educational experience through the lens of the historical trends, focusing on how they learned and what they understood their teachers to be doing. This initial case study will serve as an introduction into case study methods. Students will also develop expertise in one of the three historical trend areas - reading, writing, and language - and examine how the trend has informed teaching and learning and shaped curriculum, pedagogy, and assessment. Students will develop a case study of a practicing teacher using the lens of the historical trend in which they are developing expertise. 25 Level 1 Field Experience hours.

SEC 311 is a prerequisite for this course.
SEC 322
LITERACY IN THE CONTENT AREAS
Undergraduate
This course builds on the content knowledge students developed and reinforced in SEC 312. More, it asks them to make the shift from considering how a person prepared in the social sciences analyzes social phenomena to how such a person teaches the social sciences. Students will do this by developing two units of inquiry-based case studies that they could use in their own classrooms. The topics of these case studies will vary from section to section, depending on the needs of the students and expertise of the instructor. Possible topics include the Constitution, the Cold War, slavery, and the Iraq War. As students work on these projects, they will continue to reflect on the course work they have done in the content areas as well as the instruction they see teachers delivering in their field experiences. They will contemplate such questions as: “What are the connections between the social science disciplines? How can they be taught together, creating interdisciplinary courses at the high school level? What are the differences between the social science disciplines and what does this mean for secondary pedagogy? How can teachers use inquiry with their students, making sure they have enough guidance to learn about social events but also the freedom to pursue their interests and make sense of the world on their own terms?” By the end of this course, students through readings and their projects will have advanced their learning about the nature of inquiry, its implementation in the classroom, and the connections and differences between the social science disciplines. 25 Level 1 Field Experience hours.

SEC 322 is a prerequisite for this course.

SEC 323
INQUIRY & APPLICATION IN DEVELOPING SECONDARY MATHEMATICS PEDAGOGY
Undergraduate
This course builds on SEC 313 by introducing students to inquiry methods to understand the teaching and learning of mathematics. Students will explore how mathematics has been and is taught by examining major paradigm shifts in mathematics education and the impact those paradigms and shifts have on pedagogical content knowledge, or knowledge of how to teach disciplinary content. Students will use case study methods to look at instructional practices and begin to articulate their own mathematics teaching pedagogy. With the completion of this course, students will have a deeper understanding of mathematical literacy and the barriers to understanding and teaching mathematics, as well as being able to identify what makes an exceptional math teacher who is able to address the needs of all students. 25 Level 1 Field Experience hours.

SEC 323 is a prerequisite for this course.

SEC 324
INQUIRY & APPLICATION IN DEVELOPING SECONDARY SCIENCE PEDAGOGY
Undergraduate
Following SEC 314, this course transitions from asking “what does a scientist do?” to a consideration of why science literacy in the general public has been so difficult to achieve. The focusing questions for SEC 324 are: “How do we teach science? What is science literacy? Why is an understanding of science important to the general public? and What are the major obstacles and strategies to achieving science literacy?” The course begins by participants self-reflecting on their own educational experiences that led to their paths in science education: what have been their successful learning strategies, how have teachers influenced their education and what have been successful (and less than successful) classroom instructional strategies? From this, students will begin science classroom observation, discussing their observations with their peers, and speaking with educators about their experiences teaching high school science and about the goals and short-comings of science education. Throughout this process, students will read seminal literature on science literacy and explore cases challenging their notions of the teacher-learner relationship and the relationship between science and society. As a result of this course, students will gain a deeper understanding of scientific literacy and the barriers to understanding and teaching science as well as identify what makes an exceptional science teacher able to prepare both future scientists and a knowledgeable public. 25 Level 1 Field Experience hours.

SEC 324 is a prerequisite for this course.

SEC 325
LITERACY IN THE CONTENT AREAS
Undergraduate
The course explores the interrelationships between reading, writing, and other forms of communication (e.g., classroom talk, technology, visual arts) that are available to content area middle-level and high-school teachers. There will be an emphasis on the interrelationship of all aspects of language, oral and written, that result in literacy as a meaning-making tool in the construction of content-area knowledge. The course will discuss specific aspects of literacy processes from a multicultural, multilingual perspective as they apply to a variety of school settings in general and urban schools in particular. Students will become acquainted with theoretical issues as well as a wide range of literacy-teaching strategies including reading, writing, research, and study skills to be tailored to the needs of different students and to be applied across a variety of learning situations and text types. 30 Level 2 Field Experience hours.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.
SEC 326
TEACHING WRITING
Undergraduate
This course prepares teacher candidates for teaching writing and composition at the middle and secondary school levels. The course focuses upon methods of teaching composition, examination of literature and research about the composing process, the development of language and reading skills, and the assessment and evaluation of writing. The development of writing curriculums will also be explored. 30 Level 2 Field Experience hours.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 328
TEACHING LITERATURE
Undergraduate
This course prepares teacher candidates for teaching literature at the middle and secondary school levels. Examines contemporary issues in the teaching of literature, explores methods of teaching major literary genres, addresses problems of literacy and focuses on the transactional nature of reading and writing. Emphasis on developing a repertoire of ways of teaching literature and a variety of literature curriculums.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 329
TEACHING YOUNG ADULTS LITERATURE
Undergraduate
This course is devoted to the study of Young Adult Literature: an exciting, emerging genre of literature. Issues and ideas to be examined include the following: current debates regarding issues in curriculum and teaching; selecting, reading, evaluating, and teaching young adult literature; cultivation of life-long reading habits and literacy development. Students will become familiar with major writers of young adult literature, read diverse texts, explore major genres, review award winning novels, consider the role of the media, and develop creative projects. 20 Level 2 Field Experience hours.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 339
TEACHING SCIENCE IN THE SECONDARY SCHOOL
Undergraduate
This course prepares teacher-candidates for teaching science in the middle school and high school. This involves reviewing the processes of science, theories of learning, and instructional strategies appropriate to laboratory science. This course also provides an update on the current trends and issues in science education as well as an analysis of successful science curricula programs. 30 Level 2 Field Experience hours.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 363
ORIENTATION TO SECONDARY TEACHING AS A PROFESSION
Undergraduate
(6 credits) In this process-oriented course, students engage in critical reflection on the roles and expectations of secondary educators from both institutional and community perspectives. Questions considered will include: what is an educator, what is a professional, what are the attributes of effective teachers, what do effective teachers do? Students will examine their own values and begin to develop their own philosophies about education and teaching. 30 Level 1 Field Experience hours at arranged sites.

SEC 364
METHODS: CURRICULUM AND INSTRUCTION IN SECONDARY SCHOOLS
Undergraduate
(4 credits) This course will examine materials, methods, and techniques appropriate for teaching in secondary schools. Topics include: educational goals; the development of a rationale and underlying assumptions; instructional goals and objectives; learning objectives; both cognitive and affective; classroom environment; classroom management principles and techniques; multicultural materials in various content areas; the development of appropriate methods and materials; current curriculum issues and controversies. 30 Level 1 Field Experience hours at arranged sites.

SEC 363 or status as a major in World Language Education is a prerequisite for this class.
SEC 365
ART AND PEDAGOGY
Undergraduate
This course alongside SEC 366 is intended as a two course sequence each complimenting the other. As SEC 366 explores the source materials and major concepts of visual art's content, SEC 365 focuses on teaching visual art. Building from the content requirements from their program or experience, students will understand how the art studio (content) experiences where ideas are developed translate to the preparation of teaching. Students will do this through multiple curriculum based projects intended to use in their own classrooms, including a 6th ? 12th grade general course reader to assist in introducing an art historical overview that influences and connects to general middle and high school studio practices. As students work on these projects, they will continue to reflect on the coursework they have done in the content area as well as watching and learning from classroom teachers and teaching artists in the field. They will contemplate such questions as: "What are the connections among the arts disciplines? How can they be taught together, creating interdisciplinary courses at the middle and high school levels? What are the differences among the arts disciplines and what does this mean for secondary pedagogy? How can teachers use inquiry with their students, making sure they have enough guidance to learn about artists, artistic periods and the nature of how artworks are produced. 30 Level 2 Field Experience hours.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 366
TEACHER AS ARTIST
Undergraduate
This course builds on the work in SEC 365, which alongside SEC 366 is intended as a two course sequence each complimenting the other. As SEC 365 focuses on the art of teaching the visual arts, SEC 366 explores the source materials and major concepts of visual art content. Historically, artistic movements have shaped and currently identify the theories we use to define our most immediate environment. The major concepts can be connected to the artist studio and to the descriptions some artists make about the studio as a teaching space. In the course students will be introduced to a wide range of artists and their work, artistic movements and the individual artists who use teaching as a medium. How does an emerging artist or pre-service teaching artist draw on the understanding of their own work as a platform to build core principles of pedagogy. What is the link that combines a dynamic studio practice with an inspired methodology for teaching visual art. We will address these questions through creating a visual art teaching curriculum portfolio and writing a reflective artist monograph, produce a final exhibition of their work and work alongside teachers and artists in the field. 30 Level 2 Field Experience hours.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 371
TEACHING ENGLISH IN THE HIGH SCHOOL 1
Undergraduate
This course introduces students to the theoretical and practical issues of teaching the English language arts in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of reading, writing, speaking, and listening skills and sensibilities. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 372
TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 1
Undergraduate
This course introduces students to the theoretical and practical issues of teaching history and the social sciences in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of the basic concepts of the seven social science disciplines. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.
SEC 373
TEACHING MATHEMATICS IN THE HIGH SCHOOL 1
Undergraduate
This course introduces students to the theoretical and practical issues of teaching mathematics in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of mathematics in all its representations. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 374
TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
Undergraduate
This course introduces students to the theoretical and practical issues of teaching the sciences in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of the different sciences, including biology, chemistry, environmental science, and physics. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

SEC 381
TEACHING ENGLISH IN THE HIGH SCHOOL 2
Undergraduate
This course continues students' immersion into the pedagogical content knowledge development and practices that began in SEC 321 and SEC 371. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of reading, writing, speaking, and listening skills and sensibilities, with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in SEC 371, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.

SEC 371 is a prerequisite for this course.

SEC 382
TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 2
Undergraduate
This course continues students' immersion into the pedagogical content knowledge development and practices that began in SEC 322 and SEC 372. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of the basic concepts of the seven social science disciplines with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in SEC 372, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.

SEC 372 is a prerequisite for this course.
SEC 383
TEACHING MATHEMATICS IN THE HIGH SCHOOL 2
Undergraduate
This course continues students' immersion into the pedagogical content knowledge development and practices that began in SEC 323 and SEC 373. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of the different sciences, including biology, chemistry, environmental science, and physics with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in SEC 373, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.

SEC 373 is a prerequisite for this course.

SEC 384
CAPSTONE IN SECONDARY EDUCATION
Undergraduate
The senior capstone course is designed to help students integrate the central emphases of their liberal learning studies curriculum into their professional behavior. It will provide prospective elementary educators with opportunities to engage in activities requiring them to reflect, to consider value commitments, to use critical and creative thinking, and to examine their practice from a multicultural perspective as they discuss issues specific early childhood education. The course is grounded in the College of Education's framework for an Urban Professional Multicultural Educator, which also reflects the goals of the Liberal Studies program. COREQUISITE(S): SEC 390.

SEC 385
TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
Undergraduate
This course continues students' immersion into the pedagogical content knowledge development and practices that began in SEC 324 and SEC 374. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of the different sciences, including biology, chemistry, environmental science, and physics with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in SEC 374, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.

SEC 374 is a prerequisite for this course.

SEC 387
CAPSTONE SEMINAR IN SECONDARY EDUCATION
Undergraduate
This course is designed to help candidates integrate the central emphases of their Liberal Studies curriculum with their professional knowledge and behavior. It provides opportunities and activities to prospective educators that engage them in being analytic and reflective upon their major and related disciplines; guide them in further considering their value commitments and how they relate to their chosen profession; apply critical and creative thinking in addressing 'real-time' professional issues and needs; and examine extant practices from multicultural perspectives. Candidates develop a professional teaching portfolio that reflects the standards of the various guiding professional organizations and the Illinois State Board of Education (ISBE). The course is grounded in the College of Education's framework for an Urban Professional Multicultural Educator as well as the goals of the Liberal Studies program. The course is taken simultaneously with student teaching. COREQUISITE(S): SEC 390.

SEC 390
SECONDARY STUDENT TEACHING
Undergraduate
(12 credits) Five school days a week in supervised teaching in a cooperating school for a full academic quarter. Feedback and discussion of problems encountered in student teaching as well as new materials and techniques of student teaching. PREREQUISITE(S): Application and approval required. Open only to DePaul students.
**SEC 395**  
**ASSESSMENT ISSUES IN SECONDARY EDUCATION**  
**Undergraduate**

This course introduces candidates to theoretical and philosophical issues related to educational assessment. It addresses the range of assessments teachers will encounter in school settings, including individual cognitive and social and emotional assessments; course material, curricula, and disciplinary program assessments; and large scale high-stakes testing. The course provides candidates opportunities to explore student, program, and curricular assessment issues, including assessment methods and tools; standardized, quantitative, and qualitative assessments; formal and informal assessments; formative and summative assessments; integrated, self-, and peer assessments; cultural, social, economic, and language influences on assessments; and issues of reliability and validity in assessment.

SEC 364 and Advanced Teacher Candidate Standing are prerequisites for this class.

**SEC 399**  
**INDEPENDENT STUDY IN SECONDARY EDUCATION**  
**Undergraduate**

(1-4 credits)  PREREQUISITE(S): Permission of instructor, program chair and Associate Dean.

**SEV 611**  
**RETURN DRIVEN STRATEGY**  
**Graduate**

This course provides a framework that will enable Kellstadt students to make a significant impact on the future of their organizations and their careers. The seminar course focuses on Return Driven Strategy including the 11 tenets of successful business strategy, leveraging genuine assets, significant forces of change and strategic valuation. This seminar will focus on a deep analysis of the strategies and successful value creation of great companies. Each student will participate in a team project to apply the strategy tenets of Return Driven Strategy to an organization. The seminar-driven course will include an executive seminar session for the morning session of the first day which will include executives attending the session for executive education. This course is led by Dr. Mark L. Frigo, Director of the Center for Strategy, Execution and Valuation.

ACC 500 or its equivalent is a prerequisite for this course

**SEV 621**  
**STRATEGY EXECUTION**  
**Graduate**

The course examines strategic performance measurement, including the balanced scorecard and value-based management as frameworks for describing and executing strategy. The course will focus on the latest developments in Strategic Risk Management and the implications for strategy and performance measures. We will study how high performance companies measure and manage performance, strategic risk, and corporate sustainability performance, as well as the ethical dimension of strategy and execution. (This course is accepted as a core course the SEV Concentration and can be used as course in the Management Accounting and Financial Planning and Control Concentrations).

ACC 500 and ACC 555 or instructor's consent is a prerequisite for this class.

**SEV 641**  
**STRATEGIC VALUATION**  
**Graduate**

This course surveys valuation methods, forecasting techniques, and practical methods for driving valuations from strategic corporate analysis. The course shows the link between strategic analysis and valuations - converting our qualitative understanding of company initiatives into quantitative forecasts and valuation models. The guiding principles for developing valuation models, and the tools and techniques for enhancing that analysis are introduced. This course builds a skillset for evaluating other valuation models and a first-hand experience in building models for various companies in differing settings. The course differs from traditional treatments in its focus on the actual building of valuation models directly from financial statements and the valuation projects based on real-time data. This course is co-designed and co-taught by Dr. Mark L. Frigo, and Joel C. Litman, Clinical Professor of Business Strategy at DePaul's Kellstadt Graduate School of Business. They have been combining their efforts in the research, study, and development of business strategy models and frameworks for execution and value-creation and have assisted a wide range of public and private companies in the application of these concepts.

ACC 500 or its equivalent is a prerequisite for this course
THE BEATLES AND THE CREATIVE PROCESS
Undergraduate
The Beatles are significant in many ways: they were an unprecedented show business phenomenon; they were leaders of Sixties cultural rebellion; and they stand, for many, as a signal instance of popular entertainment attaining the status of high art. This course will examine the musical craftsmanship of the Beatles, focusing on their work as songwriters and record makers. Recent audio and print releases documenting the group’s performing and recording history provide a unique and detailed glimpse of the Beatles’ creative process. We will utilize these materials to closely trace the development of the group’s work while using other resources to place it in a larger historical and cultural context. The goal is to shed critical light on this recent chapter in cultural history. That discussion will, in turn, highlight questions about creativity in a modern context where commerce vies with art, technology redefines performance and an emerging global village culture transforms concepts of originality and tradition. Arts and Literature.

SPIRITUALITY AND HOMELESSNESS
Undergraduate
This course will examine the broad issue of homelessness by providing students the opportunity to reflect upon a service learning experience at a community-based organization that serves the homeless population in Chicago. Students will explore what can be learned about themselves as reflective practitioners, service learners, and spiritual human beings when reflecting upon this experiential learning process. Through the class discussions, assigned readings, invited speakers, and journal assignments, students will reflect on their own beliefs and perceptions of homelessness and analyze the history, causes, and policy associated with this societal problem. Faculty: Karl Nass  Junior Year Experiential Learning.

RACE AND IDENTITY IN THE AMERICAN THEATER
Undergraduate
This course will explore issues of race and racial identity in American society through the medium of theater. Texts will include several of the following: "Blues for an Alabama Sky," a Civil War retelling of the Oedipus story; "Twilight, Los Angeles, 1992," Anna Deveare's performance piece based on the Rodney King riots; "The Story," Tracy Scott's play about the pressures on a young black journalist to climb the media ladder; "Spinning Into Butter," Rebecca Gilman's provocative play about racial harassment on a college campus; Lorraine Hansberry's classic "A Raisin in the Sun;" Thomas Gibbons' "Personal Collection," which deals with the issue of appropriation of cultural heritage; and one of the ten plays from August Wilson's epic cycle. The class will also view a play on these themes at a Chicago theater. Faculty: Fred Wellisch  Arts Literature.

PROBLEMS AND ISSUES IN CONTEMPORARY ETHICS
Undergraduate
An introduction to moral philosophy with emphasis on the conflict between "moral relativism" (or "subjective" ethics) on the one hand and "moral realism" (or "objective" ethics) on the other. During the course you will be introduced to classic theories and leading figures in the history of ethics, from Plato and Aristotle to Kant and Nietzsche. Course content will focus on issues (e.g., poverty, drug use, capital punishment, sexual behavior, euthanasia, biomedical research, animal rights, political violence) at the center of contemporary ethical debate in the United States and throughout the world. Philosophical Inquiry.

CONTEMPORARY NATIVE AMERICAN/AMERICAN INDIAN ISSUES
Undergraduate
Native Americans are part of our history and heritage, yet many Americans have little knowledge beyond stereotypes. While invisible to the mainstream, Native American cultures are surviving, striving and in some cases, thriving as we enter the new millennium. This course will explore the complex issues facing Native Americans today through discussions, films, readings, experiential learning activities and Native American news media to enable students to gain a cross-cultural perspective. Students will choose an area of focus on this subject and conduct independent research to present to their classmates. Faculty: Arieahn Matamonasa  Self, Society and the Modern World.
**SNC 190**  
AFRICAN-AMERICAN STUDIES IN CRITICAL PERSPECTIVE  
Undergraduate  
This course is important for students who seek to gain a comprehensive understanding of African-American history in the United States. It will begin with discussions of African culture, the Atlantic Slave Trade, and early forms of slavery/indenturing. It will pay particular attention to the colonial and Revolutionary experience, delving into the mass exodus of Africans during the Revolutionary War, and African-American's role and position in the country's formative years. Enslavement, the Civil War and Reconstruction will follow as key areas of study. In every discussion, students will be asked to look for parallels between the contemporary and 18th and 19th century African-American experience and, where appropriate, to identify key social and cultural thinkers and leaders of the various historical periods. The primary texts for the course will be John Hope Franklin's *From Slavery to Freedom*, articles and readings written by scholars and important early African-American artists and intellectuals, and video presentations. Faculty: Nancy Davis  
Understanding the Past.

**SNC 191**  
ISSUES IN SCIENCE AND RELIGION  
Undergraduate  
This course develops students' understandings of the scientific and religious constructions of self in the modern world (natural and social). The institutions and bodies of knowledge comprising science, religion, and their overlap are critically analyzed. Key historic debates are examined, for example: the Vatican's trial of Galileo for his teachings of a heliocentric universe; the controversial reception of Darwin's theory of evolution; and the 2001 U.S. policy on embryonic stem cell research. Through such analyses, the course develops students' skills in making ethically-informed decisions and thus recognizing their roles in the public debates involving the intersection of science and religion. Faculty: Rev. Joseph McCann CM PhD  
Self, Society and the Modern World.

**SNC 192**  
NEW ORLEANS IN SONG, STORY & STRUGGLE  
Undergraduate  
The tapestry of New Orleans culture is tremendously rich and varied. This course will concentrate on two strands in that tapestry music from New Orleans and fiction about it. Students will learn about music forms which originated in the city or its environs and which have gone on to dazzle the world, including jazz, r&b, zydeco and funk. We will situate these art forms in social and historical context and examine the complex creative processes which have shaped them. We will become familiar with innovators and icons such as Louis Armstrong, Professor Longhair, Clifton Chenier, the Neville Brothers and Dr. J ohn. We will also read works by literary artists who have a background in and/or fascination with New Orleans, including *The Awakening* by Kate Chopin; *A Streetcar Named Desire* by Tennessee Williams; and *Mumbo Jumbo* by Ishmael Reed. Moreover, we will consider the role played in American history and imagination by New Orleans as well as the role played by images and fantasies of New Orleans in struggles for social justice at the local and national level. Faculty: John Kimsey  
Arts and Literature.

**SNC 193**  
THE SCIENCE OF SEXUAL ORIENTATION  
Undergraduate  
This course will engage you in scientific inquiry on the nature of sexual orientation. You will be challenged to master the scientific content of leading programs of research on twins, brain and other anatomical structures, hormones, genetic linkages, birth-order, and animal behavior through assigned readings, lectures, and multimedia resources. Moreover, you will also engage in the scientific process through a collaborative research project concerning an aspect of sexual orientation that leads you through the steps of stating a question, designing a study, collecting and analyzing data, and interpreting the results. You will also develop skills in identifying the limits to particular forms of scientific inquiry by recognizing the constraints of methods, sources of bias, reliability of results, and certainty of conclusions. This course will encourage you to place the modern research within ethical and social contexts in which to make judgments about the potential relevance and impacts of scientific knowledge about sexual orientation.  
Scientific Inquiry [SI]

LSP 120 is a prerequisite for this class.

**SNC 194**  
CHINA: MONEY, POWER AND THE 21ST CENTURY  
Undergraduate  
This online course analyzes the dramatic impact of the greatest migration of people in the history of the world, which is occurring right now, in China. Students will become more aware of the relationship between growth in China and the balance of power in the world. Understanding China's two economic systems, one country policy will help learners better understand diverse cultures, inequities and differing theories about self and society. Theory, current and projected economic and demographic data and academic research will equip students with the skills to analyze the institutions, societies and decisions that will shape the world in the 21st century.
SNC 195
UNDERSTANDING GLOBAL HEALTH CONCEPTS AND PRACTICES
Undergraduate
Many of the greatest challenges in public health are global. This course uses a multidisciplinary approach to discuss the major underlying determinants of poor health and the relationship between health and political, social and economic development. Drawing upon the sciences, social sciences and humanities, learners will be introduced to the evolution of modern approaches to the setting of global health priorities, the functions and roles of health systems, an overview of current global health practices, and the major institutional players in global health. We will explore the factors shaping the global distribution of disease and their connection with issues of social, economic and political development, as reflected in the Millennium Development Goals. We will also consider the impacts of globalization on health risks and availability of health resources.

SOC 101
INTRODUCTION TO SOCIOLOGY
Undergraduate
Introduction to the language, theories, methods, and research findings of the sociologist at work.

SOC 105
SOCIAL PROBLEMS
Undergraduate
Examination of important societal problems and issues with attention to their causes, their impact, and the possibility of resolution. The course considers the role of social movements, government and the private sector.

SOC 200
SOCIAL WORK AND SOCIAL WELFARE
Undergraduate
The nature of social work with a focus on the delivery of a variety of human services like health care and welfare; emphasis on professional-client relationships; examination of government agencies and voluntary associations.

SOC 203
RACE AND ETHNIC RELATIONS
Undergraduate
Interpretation and understanding of relationships between religious, ethnic and racial groups. The course emphasizes racial conflict and its resolution as well as the need to eradicate racism.

SOC 204
THE IMMIGRANT EXPERIENCE
Undergraduate
This course deals with the immigrant experience in the United States examining immigration and its effects on both this immigrants and the larger society, from the earliest days of this nation to the present. Students consider the demographic aspects of immigration, patterns of societal inclusion and exclusion, institution building, existential issues, cultural issues, economic issues, legal issues, educational issues, political issues and the nature of multiculturalism in the U.S.

SOC 205
SELF AND SOCIETY
Undergraduate
The course examines the relationship between individuals and the social and cultural environment. It introduces theories of the self and society (psychoanalytic theories, Weberian perspectives, symbolic interaction and social construction, feminist theories, existential perspectives, etc.). Readings include field studies and case studies. Students are introduced to research methods such as life narrative analysis and observation.

SOC 206
WORK AND SOCIETY
Undergraduate
Examines the job market, the impact of work on individuals and the nature of different kinds of work, including professions and jobs in bureaucracies and business.
SOC 207
YOUTH AND SOCIETY
Undergraduate
Using an historical and cross-cultural perspective, this course examines the social position of youth in today's society; youth subcultures; key institutions within which youth are socialized and controlled.

SOC 101 or SOC 105 is a prerequisite for this class.

SOC 208
LAW AND SOCIETY
Undergraduate
Examines the legal system in its social contexts; considers its moral and social roots, its continuity and contradictions, and its ability to deliver justice. Draws upon cross-national comparison.

SOC 209
SOCIOLOGY OF WOMEN
Undergraduate
Cross-cultural analysis of women's roles. How various social institutions the media, work, the family, education, religion treat sex-role distinctions and how the women's movement is attempting to confront them.

SOC 210
THE COMPUTERIZED SOCIETY
Undergraduate
Examines the impact of computers and automation on society and the nature of technological change, with a focus on new electronic technologies and computers. Special attention is given to the nature of careers in computer science and emerging social issues and problems.

SOC 211
GENDER AND SOCIETY
Undergraduate
A consideration of the development of sex roles, gender identity and sexual behavior in a social context; how gender roles are shaped by families, youth culture, and the life cycle.

SOC 212
COMMUNITY AND SOCIETY
Undergraduate
An analysis of neighborhoods, cities, suburbs and utopian communities; the examination of major trends in urbanization and the evaluation of urban and community policies.

SOC 213
BLACK AMERICAN MUSIC CULTURE: TRADITIONS AND INNOVATIONS
Undergraduate
Study in African American culture that deals with the experience of music and musicians. Using some historical references with live contemporary illustrations the course will essentially examine the engagement of African American music/musicians in their community and in the larger multicultural American society.

SOC 214
POLICE AND THE URBAN COMMUNITY
Undergraduate
The nature of police work, decision-making structures and processes, conflict and cooperation in police-community relationships.
SOC 217
WORK IN A GLOBALIZED WORLD
Undergraduate
The purpose of this course is to make a direct connection between the needs and strategies of individuals, companies, industries, and nations regarding work, and how they interact to create specific work environments and work outcomes for individuals in a globalized world. The course emphasizes how globalization, by creating an international labor market and an environment of competition between nations to attract jobs, has deeply transformed the work experience of individuals and the quantity and quality of jobs available in the United States, Latin America, Asia, and the rest of the world.

SOC 220
THEORIES OF CRIME AND DELINQUENCY
Undergraduate
Analysis of theories of causes and control of crime and juvenile delinquency; examination of delinquency subcultures, and the distribution of crime and juvenile delinquency.

SOC 221
INTRODUCTION TO THE U.S HEALTH CARE SYSTEM
Undergraduate
Examination of occupations and organizations in the U.S. health care system. Topics include: quality, access, and cost of health services; occupations and organizations involved in delivering health care; financing of care through health insurance and government programs. Recommended gateway course for all students in Health and Health Services concentration.

SOC 222
HEALTH AND INTERNATIONAL HEALTH CARE SYSTEMS
Undergraduate
Addresses the variation in health care delivery arrangements across countries by examining the health care systems from a socio-cultural perspective. Exploring why and when countries began building their health care systems, and what underlying values are reflected in those institutional arrangements.

SOC 223
SOCIOLOGY OF HEALTH AND ILLNESS
Undergraduate
Examines how illness is related to sociological phenomena such as the social class of the patient or the organization of the health care delivery system. Formerly SOC 350.

SOC 224
INTRODUCTION TO STATISTICAL REASONING
Undergraduate
Introduction to statistics including data description and statistical inference used in many scientific fields of knowledge. Introduces students to computers in statistical analysis with examples drawn from social and natural sciences.

SOC 230
SEX AND GENDER IN THE CITY
Undergraduate
Examines the role of sex, sexuality, and gender in urban life, their interaction in urban spaces, and the formation of related private and public social policies.

SOC 231
RACE AND ETHNICITY IN THE CITY
Undergraduate
The social and cultural importance of urban ethnic communities and their interrelationships are investigated through a study of neighborhood development and change. Special emphasis on the major ethnic communities of Chicago.
SOC 232
GLOBAL CITIES
Undergraduate
National and international comparisons of urbanization and urbanism as a way of life in world cities, regional/satellite cities, and cities of production and distribution. Focus on the impact of power and resources on city life throughout the world.

SOC 233
SOCIOLOGY OF SPORT
Undergraduate
This course examines sports as a societal microcosm and as an idealized world for both individuals and institutions. Sport is also viewed as a major element in the making of American mythology.

SOC 235
adolescent health
Undergraduate
Examination of social, political, geographic, and psychological forces affecting adolescent health in the U.S. Focus on occurrence, cause, and prevention of adolescent health risk behaviors, such as sexual behavior, violence, and substance use. Discussion of policy and community practice.

SOC 236
IMMIGRATION, HEALTH AND ILLNESS
Undergraduate
Examines linkage of immigration to health and illness, including health status of immigrants, differences in health outcomes in the host country and countries of origin, occupational health and injury patterns, eating habits, healing practices, and access to health care. Includes fieldwork and review of research findings.

SOC 245
URBAN SOCIOLOGY
Undergraduate
Study of urban growth and its impact. Topics explored include metropolitan development and change, population density, diversity and migration, urban life styles, urban institutions and important societal trends. Local, national and cross-national cases are examined. (Formerly taught as SOC 345)

SOC 248
WHITE RACISM
Undergraduate
This seminar is an introduction to white studies and white racism. White racism is a set of socially organized attitudes, behaviors and beliefs about differences between Blacks and other groups of color in the United States. The focus is on how the color White is constituted as dominant in social life throughout the United States and Western Europe.

SOC 250
GROUP DIVERSITY
Undergraduate
Study of cultural identities, values, and interaction of diverse groups. Among the concepts explored will be race, ethnicity, religion, gender, social class, sexual orientation, ableism, and age. The material will draw upon all the social sciences as well as appropriate samples from the literature.

SOC 253
SLAVERY AND RACIALIZATION
Undergraduate
Addresses both the coming of slavery in Western civilization and how the ideology of race is used to interpret historical events and situations. The course will consider how slavery created the formation of a racist color line.
SOC 254
ANCIENT GREECE AND ROME
Undergraduate
The course explores the society and culture of ancient Greece and Rome, including mythology, art, and social institutions. The impact of these cultures on contemporary popular culture and social thought is considered. Emphasis on primary materials.

SOC 256
SOCIAL CHANGE
Undergraduate
Examines changes in societies since 1800, including change in technology, culture, and social and political institutions. Topics include modernization, revolution and media. The course emphasizes comparative, global perspectives and use of primary sources.

SOC 271
POPULATION PROBLEMS
Undergraduate
An examination of important population related problems and issues facing nations today. Selected topics include comparative population policies and their societal implications, population control, mortality patterns, changing patterns of illness and epidemic disease, contemporary migration and refugee patterns and related national policies, and the societal responses to changing age structures.

SOC 279
INTRO STATS FOR THE SOCIAL SCIENCES
Undergraduate
Data description and interpretation; table construction; correlation, regression and ANOVA; introduction to multivariate analysis; statistical inference and hypothesis testing. Cross-listed with MAT 242.

(MAT 095 and MAT 100) or MAT 101 or placement are prerequisites for this class.

SOC 280
MASS MEDIA AND CULTURE
Undergraduate
Analysis of the relations between modern society and the mass media such as TV, film, radio and the print media.

SOC 281
SOCIOLOGY OF ROCK MUSIC
Undergraduate
Rock music is studied as an object of culture, both as art and as mass culture. Attention is given to its creation, dissemination and appreciation.

SOC 282
ROCK JOURNALISM
Undergraduate
This course explores the wide variety of rock writings, from album and concert reviews to interviews with musicians. The functions served by the rock press will also be considered as part of the hype machine of the rock industry, as critical information for an audience whose knowledge of rock does not come from formal education.

SOC 290
SPECIAL TOPICS IN SOCIOLOGY
Undergraduate
In-depth examination of selected and timely social issues. Topics vary from quarter to quarter. Topics may be initiated by students.

SOC 101 or SOC 105 is a prerequisite for this class.

SOC 291
SPECIAL TOPICS IN SOCIOLOGY
Undergraduate
Two-credit-hour courses on special topics in Sociology.
SOC 292
COLLECTIVE ACTION
Undergraduate
The socio-legal implications of violent and nonviolent protest in bringing about social change. Emphases: social and historical causes that precipitate violence; court response to civil disobedience.

SOC 301
THE JUVENILE COURT SYSTEM: ITS OPERATIONS
Undergraduate
An introduction to the juvenile-court system. The interaction of police, judges and court officers. The role of discretion in disposition.
SOC 208 or SOC 220 or PSC 260 or BLW 201 is a prerequisite for this course.

SOC 304
SOCIAL DEVIATION
Undergraduate
Comparison of theories and conceptual frameworks about deviance. Analysis of deviant life styles and careers. Examination of societal efforts to control deviance. Cross-listed with SOC 468.
SOC 101 or SOC 105 is a prerequisite for this class.

SOC 305
POWER, CONSTRUCTIONS OF DEVIANCE, AND SOCIAL CONTROL
Undergraduate
This course employs a variety of theoretical paradigms to examine social constructions of deviance and conformity. It pays close attention to the relationship of such behaviors to conventional values, institutions, power, and mechanisms of social control.

SOC 306
FAMILIES
Undergraduate
Ideas, theories and research on families. Topics include change and variety in family patterns, fertility and child rearing.
SOC 101 or SOC 105 is a prerequisite for this class.

SOC 307
SOCIOLOGY OF SUBSTANCE USE AND ABUSE
Undergraduate
Sociological perspectives on substance use and abuse, related high-risk behavior, drug traffic, community impact, and prevention and public policy.

SOC 308
CULTURE, COMMUNITY AND POLITICS
Undergraduate
Explores the cultures and forms of organization of various groups in the United States, including music, art, community politics, and social movements. Specific topics vary.

SOC 309
SOCIOLOGY OF SEXUALITY
Undergraduate
Explores social construction of sex and sexuality, the intersection of gender, race, and sexuality, sexual orientations, and major issues in sexual politics, such as the gay/lesbian movement, discrimination, abortion, and sterilization.
(SOC 101 or SOC 105) and SOC 209 are prerequisites for this course.
**SOC 310**  
CRITICAL PERSPECTIVES ON CRIMINAL JUSTICE  
Undergraduate  
In this course, students will explore the history and social meaning of "criminal justice" in the United States. Readings, reflections, and discussions will push students to examine the criminal justice system as a system of social control and will alert students to the raced and classed character of this system.

**SOC 311**  
SOCIOLOGY OF LATINO CULTURE  
Undergraduate  
Examination of major cultural expressions and practices among Latino groups in American society. The family unit, cultural identity, music, art, literature, language, film and youth gangs are among the topics discussed.

**SOC 313**  
SOCIOLOGY OF EDUCATION  
Undergraduate  
Examines the structure of schooling in the United States and other societies. Topics include: Schools as organizations; teaching as a profession; peer cultures in schools; racial/ethnic, class, and gender inequalities in education.

**SOC 315**  
LAW, POWER AND RESISTANCE  
Undergraduate  
In this course, students examine the law in its social context. Readings, reflections, and discussions will push students to explore the role of law both in the production and maintenance of inequality and in marginalized people's struggles for justice.

SOC 208 or SOC 220 or PSC 260 or BLW 201 is a prerequisite for this course.

**SOC 316**  
STREET GANGS  
Undergraduate  
Examines the problems associated with street gangs and "troublesome youth groups" in the United States and Europe. Classical and contemporary theories of gang formation and proliferation are reviewed. Both quantitative and qualitative gang research efforts are studied. Street gang reduction policies and programs (national and local) are scrutinized. Emphasis is placed on the street gang's relationship with other organizations and social actors in the same "habitat."

SOC 220 is a prerequisite for this class.

**SOC 317**  
GENDER, CRIME AND JUSTICE  
Undergraduate  
In this course students explore the ways in which gender intersects with crime and justice in the U.S. and increasingly, globally. Using feminist and critical perspectives, this course interrogates the gendered and racial nature of the criminal justice system, examines the ways in which gender intersects with patterns of offending, victimization, survival, and resistance, and looks at the ways that criminal justice institutions and gender interact. It also asks students to think critically about alternatives to incarceration and other ways of establishing "justice."

**SOC 318**  
SOCIAL CHANGE IN THE DEVELOPING WORLD  
Undergraduate  
Examines various processes of social and cultural change, with particular focus on peoples undergoing or emerging from cultural, political or economic oppression.

**SOC 321**  
HEALTH AND HUMAN SERVICE ORGANIZATIONS  
Undergraduate  
The work of health and human service organizations is examined; the origins of these organizations, their goals and the problems inherent in attaining the goals, are considered.
SOC 322
TREATMENT AND PREVENTION OF DELINQUENCY
Undergraduate
A review of traditional and current practices of programs designed to treat delinquents and prevent delinquency, with emphasis on the variety of available correctional facilities.

SOC 323
THE SOCIAL WELFARE INSTITUTION
Undergraduate
The evolution of social welfare as an urban institution and the creation of the welfare state are examined. An analysis of social welfare in the United States within the context of economic, political, social and philosophical developments.

SOC 326
AGING AND THE LIFE COURSE
Undergraduate
A look at the changing age composition of the population; meaning and societal definition of aging, the different types of responses to growing older and the various social programs designed for older people. Introduction to life course theories.

SOC 330
THEMES IN SOCIAL THOUGHT
Undergraduate
Consideration of the writings of social philosophers regarding the nature, origins and meanings of human society.

SOC 331
SOCIOLOGICAL THEORY
Undergraduate
Exploration of the nature of theory and an analysis of selected social theorists.

SOC 101 or SOC 105 is a prerequisite for this class.

SOC 333
THE SOCIOLOGY OF SLAVERY
Undergraduate
This course examines and analyzes the institution of slavery in the United States from a sociological perspective. Important areas examined include the origins and functions of American slavery and racism, abolition, ideology and the idea of slavery and the origins of the African American class structure in the United States.

SOC 340
SOCIAL INEQUALITY
Undergraduate
Examination of inequalities in wealth and power and their consequences for individuals and the society; for example, the institutions of law, health care, education and politics.

SOC 101 or SOC 105 is a prerequisite for this class.

SOC 341
THE SOCIOLOGY OF OCCUPATIONS
Undergraduate
Analysis of the characteristics and problems of a wide range of occupations including the professions (recruitment, ethics, associations and sources of authority).

SOC 342
ORGANIZATIONAL DYNAMICS
Undergraduate
Examination of the structure and process of organizations in the public and private sectors, life in organizations and the interrelationship of individuals and organizations.
SOC 343
SOCIAL DIMENSIONS OF RELIGION (CROSS- LISTED WITH REL 221)
Undergraduate
Analysis of the interplay of society and religion, the clergy as an occupational group, and the relationship of religious ideology to social change.

SOC 344
POLITICAL SOCIOLOGY
Undergraduate
Social and economic bases of the political system in a comparative perspective.

SOC 346
URBAN ETHNOGRAPHY
Undergraduate
An introduction to field research in an urban environment.
SOC 101 or SOC 105 is a prerequisite for this class.

SOC 347
CLASS, POWER AND DECISION MAKING IN THE CITY
Undergraduate
Analysis of decision-making in urban settings. Considers the role of class disparities, power, citizen protest and community participation in urban outcomes.

SOC 348
THE CITY IN THE FUTURE
Undergraduate
Alternative views of urban structures and social life in the post-industrial age. Considerations of the implications of energy, different technologies, future shock and social trends.

SOC 351
HEALTH DISPARITIES
Undergraduate
Examination of persistent health disparities in the U.S. and the influence of social settings on morbidity and mortality, as well as the impact of social class, gender, and race/ethnicity on disease and illness patterns and access to health care.

SOC 353
SOCIOLOGY OF MENTAL ILLNESS
Undergraduate
Examines the social history of, and societal reaction to, the mentally ill. Review of contemporary social perspectives on mental illness and social research on mental hospital institutionalization; the dynamics of the therapist-patient relationship.

SOC 354
COMPARATIVE COMMUNITY POLITICS
Undergraduate
The course examines a variety of areas affecting the social and political organization of communities in the U.S. and other countries. Important areas examined include social organization, the institutional and socioeconomic structure, urbanization, patterns of citizen participation and the social organization of political decision making. Cross-listed with SOC 426 and MPS 574.

SOC 355
CHICAGO AS A SOCIAL SYSTEM
Undergraduate
This course draws upon the rich tradition of sociological work carried out in Chicago to exemplify, illuminate, and integrate a variety of sociological concepts, theories and methodologies.
SOC 356
THE CITY IN CROSS-CULTURAL PERSPECTIVE
Undergraduate
This course examines the city as a type of human settlement, focusing on the different forms, functions, images and ideological perceptions of cities across a number of different cultures.

SOC 357
LATIN AMERICAN POLITICAL ECONOMY/SOCIETY
Undergraduate
A comprehensive view of the metropolitan and colonial origins and development of Latin America. Also provides an overview of major social and economic issues facing Latin America today, including balance of payment problems, inflation, stabilization, poverty, inequality, and land reform.

SOC 358
REVOLUTIONS AND PEASANT REBELLIONS
Undergraduate
Analyzes the most important revolutions and peasant rebellions of the twentieth century as well as the most relevant cases from previous periods, such as the French Revolution.

SOC 360
SOCIAL SERVICES IN CONTEMPORARY SOCIETY
Undergraduate
Social services and welfare programs as developed in contemporary industrial societies. Comparison between European social services and the American social services provides a basis for considering the implications of social policy. Cross-listed with SOC 432.

SOC 365
HEALTH AND GLOBALIZATION
Undergraduate
Comparative approach to understanding changes in health and illness patterns, diet and consumption, and access to health care associated with economic expansion, global inequalities, and changes in local economies, occupations and cultures. Case studies of selected non-industrialized countries.

SOC 370
PEOPLE, PLACES, AND FOOD
Undergraduate
Exploration of community food resources and the relationship to chronic disease such as obesity, diabetes, and hypertension. Qualitative methods focus on meanings of eating habits and how people secure food. Analyzes barriers and supports for healthy eating habits in Chicago neighborhoods. Service-learning component.

SOC 372
HEALTH CARE SYSTEMS: A COMPARATIVE PERSPECTIVE
Undergraduate
Examines the variations in health care delivery systems across selected countries and analyzes social and cultural forces that influence these systems, with an emphasis on differences in health outcomes.

SOC 373
PUBLIC HEALTH AND HIGH RISK BEHAVIOR
Undergraduate
Explores problems in community and public health such as HIV/AIDS and injection drug use. Topics may vary.

SOC 380
RESEARCH METHODS IN SOCIOLOGY I
Undergraduate
The logic of procedures of social science methodology. Initiation of student research project: formulation of problem, design of research, data collection. Presentation of the range of methods available for various types of social research.
SOC 381
RESEARCH METHODS IN SOCIOLOGY II
Undergraduate
Continuation of the research project begun in Sociology 380. Data manipulation and analysis with the use of computers; interpretation, write-up, and synthesis of the research experience.

SOC 381 and SOC 380 are prerequisites for this class.

SOC 382
QUALITATIVE METHODS
Undergraduate
Introduction to qualitative methods in sociology, grounded theory, data collection and analysis, field research, life histories, and unobtrusive measures.

SOC 383
VISUAL SOCIOLOGY
Undergraduate
Examines the history of the still photograph as a document of social problems and conditions, a cultural artifact with a linguistic structure of its own. Methodological issues involved in using photographs as research tools are studied. Students conduct own documentary research project.

SOC 384
ETHNOGRAPHIC DOCUMENTARY FILM PRODUCTION
Undergraduate
This course imparts the art, craft, and discipline behind the making of sociological ethnographic documentary films. Throughout the course students learn ethnographic concepts and methods, develop film criticism faculties, and build a film production skill set.

SOC 385
THE SOCIAL SIGNIFICANCE OF BLACK MUSIC AND ENTERTAINMENT
Undergraduate
The course is a sociological interpretation of Afro-American culture by focusing on the social significance of black entertainment; the course draws attention to how entertainment has been used to make social commentary.

SOC 386
POPULAR CULTURE AND THE ARTS
Undergraduate
Multiple perspectives, from modern to post modern, are applied to a range of forms of popular culture, both in historical context and in their current forms. Topics to be covered include examining the concept of popular culture, the analytic tools to understand it, and analyzing some of its manifestations (e.g. sports, mass media, gambling, holiday presentations, shopping, theme parks, theme restaurants, etc. Cross-listed with SOC 480.

SOC 387
SOCIOLOGY OF CELEBRITY
Undergraduate
“Celebrities are known for being well-known.” The course explores the role of media and fans in the making of celebrity and considers celebrity as a key feature of contemporary society.

SOC 388
SOCIOLOGY OF CONSUMPTION
Undergraduate
Sociological perspectives on shopping, consumer culture, and social-psychology of consumer behavior.

SOC 390
SEMINAR IN SOCIOLOGY
Undergraduate
Selected topics form the basis of an in-depth consideration. Topics vary and may be initiated by students.
SOC 391
SEMINAR IN SOCIOLOGY
Undergraduate
Two-credit-hour course on special topics in Sociology.

SOC 394
COMMUNITY BASED SOCIOLOGY
Undergraduate
Combines basic understanding of sociological principles with field experience.

SOC 395
CAPSTONE IN SOCIOLOGY
Undergraduate
A senior seminar course that enables students to conduct original research and integrate theory and methods. PREREQUISITE(S): Senior standing and SOC 331. Seniors are strongly encouraged to enroll in this course.
Senior standing and SOC 331 are a prerequisite for this class.

SOC 397
TRAVEL/STUDY
Undergraduate
Foreign and domestic study tours with lectures and research by special arrangement with sponsoring programs.

SOC 398
INTERNSHIP
Undergraduate
Placement of students in work-study situations relevant to careers in health and human services, social work, juvenile justice, law and society, urban and community services. Clinical and Experiential (can fulfill jr. yr. requirement). (1 to 4 credit hours).

SOC 399
INDEPENDENT STUDY
Undergraduate
Independent Study
Senior status and permission of the department chair are prerequisites for this course.

SOC 401
ADVANCED INTRODUCTION TO SOCIOLOGY
Graduate
A focused and intense introduction to the current state of the discipline of sociology: its basic concepts, theories, methodologies and research strategies. Students completing the course are expected to be able to engage successfully in the department's graduate program.

SOC 402
STATISTICS FOR THE SOCIAL SCIENCES
Graduate
Introduction to quantitative and statistical reasoning in the social sciences, quantitative data analysis, and computer software.

SOC 403
SOCIAL POLICY AND SOCIAL CHANGE
Graduate
Examines the process of policy-making and the effects of policies on individuals, organizations, and communities.
SOC 404
CLAssical AND MODERN THEORY
Graduate
Covers classical social theory (Marx, Durkheim, and Weber) and social theory through the 1960s.

SOC 405
SOCIoloGICAL PERSPECTIVES
Graduate
Examines sociological theories, methods and concepts through a study of the work of contemporary sociologists.

SOC 411
SOcial RESEARCH
Graduate
This course focuses on the logic of sociological inquiry, ethical issues of research, the various methods social scientists use, and research in applied settings. For Sociology MA students only.

Status as a SOC Graduate student is a prerequisite for this class.

SOC 412
DATA ANALYSIS
Graduate
The implementation of a research project. Analytic techniques, data processing and the preparation of a written research report.

SOC 411 is a prerequisite for this class.

SOC 413
QUALITATIVE METHODS
Graduate
An examination of qualitative methods in sociology: data collection and analysis, field research, life histories, unobtrusive measures and visual methods employing video and film equipment are emphasized.

SOC 414
LITERATURE REVIEW WRITING PROJECT
Graduate
This course requires students to complete a paper reviewing the sociological literature on a topic of their choice. Successful completion of the literature review paper is one of the ways in which students may fulfill the final project requirement leading to the master's degree.

SOC 415
WRITING A RESEARCH PAPER
Graduate
This writing project is open to students who are working on their literature review, research papers, and thesis.

SOC 416
APPLIED ANTHROPOLOGY
Graduate
(Cross-listed as ANT 316)

SOC 417
ETHNOGRAPHIC DOCUMENTARY FILM PRODUCTION
Graduate
This course imparts the art, craft, and discipline behind the making of sociological ethnographic documentary films. Throughout the course students learn ethnographic concepts and methods, develop film criticism faculties, and build a film production skill set.
SOC 418
DOCUMENTARY FILMS IN SOCIAL SCIENCES
Graduate
This course critically examines the history of documentary filmmaking and criticism in the social sciences and humanities. Students analyze documentary films created by social scientists and non-social scientists over the past 100 years.

SOC 420
URBAN SOCIOLOGY
Graduate
Introduction to advanced level studies in applied urban sociology: contemporary urban theory, research, and policy issues.

SOC 421
URBAN ANTHROPOLOGY
Graduate
Theories and methods of contemporary anthropology are employed to analyze a variety of topics of urban phenomena including the process of urbanization, urbanism-urban culture, subcultures, ethnic life styles-and the notion of images of cities.

SOC 422
URBAN AND COMMUNITY ANALYSIS
Graduate
Quantitative analysis of urban issues including social-area analysis, patterns of segregation, neighborhood change, and other selected topics.

SOC 423
RESEARCH ON URBAN CULTURES
Graduate
Ethnological approach to urban life stressing the qualitative analysis and evaluation of different types of urban communities, community organizations, and urban life styles.

SOC 424
THE SOCIOLOGY OF HOUSING
Graduate
An in-depth approach of a major component of urban life with a focus on federal and local policies, programs and issues.

SOC 425
STRATEGIES OF COMMUNITY ORGANIZATIONS
Graduate
Strategies and techniques used in the formation and process of community organizations.

SOC 426
URBAN DEVELOPMENT POLICIES
Graduate
Community agencies viewed as problem-solving organizations. Concentration on the impact of state and local government on community organizations and how community organizations influence social policy. Sequel to SOC 425.

SOC 430
MEDICAL ANTHROPOLOGY
Graduate
(Cross-listed as SOC 319)

SOC 431
SOCIOLOGY OF HEALTH, ILLNESS AND MEDICINE
Graduate
Soc 432
Social Services in Contemporary Societies
Graduate
Analysis of the concept of welfare, evaluation of the social organization of welfare and the problems of welfare service systems. The interrelationships between welfare and the family, employment, health and crime are explored. Cross-listed with SOC 323.

Soc 433
The Sociology of Education
Graduate
Analysis of educational organizations and their effects-including characteristics of institutional structures, teaching as an occupation, and the relationship between educational attainment and social mobility.

Soc 434
Youth Services: Health and Welfare
Graduate
Review of research on various youth problems (eg., substance abuse, pregnancy, runaways) and consideration of efforts at amelioration and control.

Soc 435
Structure of Health Care Organizations
Graduate
A case study approach emphasizing the interaction of the clinical, administrative, and other components of the health care team, the formulation of policy, and the control and distribution of resources.

Soc 436
Youth Service Delivery Systems
Graduate
Consideration of the current state of youth services in Illinois. Analysis of the administration of agencies and their programs: program design, the funding process, intervention strategies.

Soc 437
Health Care Delivery Systems
Graduate
Consideration of the current state of health care delivery in the United States, the growth and projected direction of health care in the future. Implications of national policy on local delivery; cross-national comparisons and economic conditions will be considered. Cross-listed with MPS 537.

Soc 438
Sociology of Substance Use & Abuse
Graduate
Sociological perspectives on substance use and abuse, related high-risk behavior, drug traffic, community impact, and prevention and public policy.

Soc 440
Law and Social Science
Graduate
Analysis of the American legal system as an instrument of social control, social change, and social reform. The impact of social science research on public policy decisions.

Soc 441
Public Health and High Risk Behavior
Graduate
This course brings sociological theory, concepts, and methods to bear on HIV/AIDS, hepatitis B and C (HBV, HCV), and other adverse health outcomes prevalent among injection drug users (IDUs), men who have sex with men (MSM), and "high risk heterosexuals" (HRHs).
SOC 442
CRIMINAL JUSTICE: HISTORY, THEORY, AND ANALYSIS
Graduate
Study of major criminological theories and their application to systems of corrections. Present trends at federal, state, city and private correctional institutions.

SOC 443
LAW AND ADMINISTRATION OF JUSTICE
Graduate
Analysis of legal systems and their implementation; jurisprudence and its role in the development and change of legal systems; role of the courts and the police as related to community social problems.

SOC 444
POLICING INEQUALITY
Graduate
Examination of the policies and practices of law enforcement agencies and personnel and their impact on the communities they serve.

SOC 445
TRAFFIC: THE SOCIAL ORGANIZATION OF CHICAGO'S ILLICIT DRUG ECONOMY
Graduate
This course examines the social organization of Chicago's illicit drug trade and attempts to make appropriate and judicious research-based generalizations to economies, cultures, and societies outside of the city.

SOC 446
LAW ENFORCEMENT POLICY ISSUES
Graduate
Examines the development, implementation, and evolution of formal and informal policies and procedures governing police agencies, correctional facilities, probation and parole systems, and the courts. Policy enactment on the "front lines" of law enforcement bureaucracies is emphasized.

SOC 447
SOCIAL CONTROL AND SOCIAL DEVIANCE
Graduate
Examines theories and research on the social organization of institutions that label and process deviants.

SOC 448
STREET GANGS
Graduate
Examines the problems associated with street gangs and "troublesome youth groups" in the United States and Europe. Classical and contemporary theories of gang formation and proliferation are reviewed. Both quantitative and qualitative research on gangs are studied. Gang reduction policies and programs (national and local) are scrutinized. Emphasis is placed on the street gang's relationship with other organizations and social actors in the same "habitat."

SOC 449
CRIMINAL ORGANIZATIONS
Graduate
The problem of organized crime in American society is examined. Both traditional and emerging groups are studies. The ethnic succession and alien conspiracy theories are reviewed. The importance of social structural influences for the development of criminal organizations is emphasized.

SOC 450
ADVANCED STATISTICS I
Graduate
Advanced Statistics I (cross-Listed As Psy 410)
SOC 451
HEALTH POLICY ANALYSIS: INTERNATIONAL PERSPECTIVES
Graduate
In this course, we will learn and discuss the foundations of international health policy analysis by engaging in health policy analysis. In an international comparative context, we will study the relationship between social organization, knowledge about health and illness, the development of health policies and the resulting health and illness outcomes.

SOC 452
MODERNITY, GLOBALIZATION AND SOCIAL THEORIES
Graduate
This course will review classical and contemporary sociological work in both modernity and globalization and will help students assess if that social theory still allows us to understand social reality or whether we need to create a new set of sociological propositions to understand our present and future.

SOC 455
CHILDHOOD, FAMILY, PUBLIC POLICY
Graduate
Examines contemporary public policy issues and relevant research concerning parenting, marriage, household structure, and family formation, with a focus on the U.S.

SOC 460
SOCIOLOGY OF THE FAMILY
Graduate
Examines demographic trends in this century, recent literature on women and men, wives and husbands, children and parents. Some comparative material is included.

SOC 461
SOCIOLOGY OF YOUTH
Graduate
Critical analysis of literature on nondelinquent youth; focus on the social contexts within which the transition to adulthood occurs.

SOC 462
SOCIALIZATION
Graduate
Perspectives on the individual's acquisition of patterns of behavior and culture in social groups.

SOC 463
SOCIAL PSYCHOLOGY
Graduate
The influence of group life on personality development, social interaction, and social behavior.

SOC 464
SOCIAL INEQUALITY AND STRATIFICATION
Graduate
An analysis of inequalities in power, wealth and prestige with an emphasis on the concept of social class, trends in social mobility, and relationships to current social topics such as housing, welfare and political participation.

SOC 465
RACE AND ETHNIC RELATIONS
Graduate
Theoretical perspectives on racial, ethnic, gender, sexual orientation and differentially abled groups emphasizing processes of group formation, patterns of prejudice and discrimination, and an evaluation of methods to reduce prejudice and discrimination.
SOC 466
SOCIOLOGY OF SOCIAL MOVEMENT
Graduate
Study of social trends, social movements, communications, and crowd behavior. Emphasis on processes of social change, includes examination of historical and cross-cultural case material.

SOC 467
ORGANIZATIONS
Graduate
The functioning, premises, and consequences of formal organizations will be considered using a variety of perspectives.

SOC 468
SOCIAL DEVIATION
Graduate
Research and theory in the sociology of deviant behavior, emphasis upon such topics as the labeling of deviants, the analysis of deviant careers, patterns of deviant socialization, and the roles of agents or agencies of social control. Cross-listed with SOC 304.

SOC 469
SOCIOLOGY OF LIFE CYCLE
Graduate
A look at the changing age composition of the population; meaning and societal definition of aging, the different types of responses to growing older, and the various social programs designed for the aged.

SOC 470
GENDER AND SOCIETY
Graduate
Theory and research on roles of men and women, sexual behavior and patterns of gender inequality. Cross-listed with MLS 447 and WMS 460.

SOC 471
SOCIOLOGY OF KNOWLEDGE
Graduate
An analysis of the social forms of knowledge and the social processes by which individuals acquire this knowledge. The institutional organization and social distribution of knowledge.

SOC 472
SOCIOLOGY OF RELIGION
Graduate
An historical and contemporary analysis of the interrelationship between religion and society. Emphasis upon the sacred/secular and church-secertypologies, new religious movements and religion's contributions to societal values, beliefs and meaning systems.

SOC 473
THE DILEMMA OF THE MODERN AGE
Graduate
(Cross-listed as MLS 460) The crisis of the individual's place in society and in the world itself-the dilemma of modernity-is exposed through social science, philosophy, literature, art, and music. The distinctive features of and responses to modern culture-individualism, alienation, and depersonalization-are examined through the multiple perspectives that form the modern mind. Cross-listed with MLS 460.

SOC 474
POPULATION PROBLEMS
Graduate
An examination of population related problems and issues facing nations today. Selected topics include comparative population policies and their societal implications, population control, mortality patterns, changing patterns of illness and epidemic disease, contemporary migration and refugee patterns and related national policies, and the societal responses to changing age structures. Cross-listed with SOC 271.
SOC 475
SOCIOLOGY OF WORK
Graduate
Examination of the nature, meaning and history of work and leisure in Western culture; and the relationship of work and leisure to issues associated with the contemporary concept of "quality of life". Cross-listed with MLS 443.

SOC 476
WORK AND LEISURE IN THE FUTURE
Graduate
(Cross-listed as MLS 448) There has been a great change in the meaning, form and value assigned to work and leisure in society. Many of these changes have come to be characterized as inevitable consequences of life in post-industrial society. This course: 1) speaks to identify the factors that are shaping the future of work and leisure and 2) will explore futuristic scenarios that challenge the position of "work as a central-life meaning."

SOC 477
SEX, SEXUALITY AND POLITICS
Graduate
Focus on sexuality as one of the central organizing ideologies shaping the fabric of our social life. Topics covered include the medicalization of sex, sex and race, pornography, sex and globalzation, and gay liberation movement, etc.

SOC 479
MEN, MASCULINITY AND POWER
Graduate
This course reviews the development of men's studies and its connection with the development of women's studies. It examines the construction of masculinity and the issue concerning gender inequality.

SOC 480
POPULAR CULTURE AND THE ARTS
Graduate
(Cross-listed as SOC 386) The course explores topics in popular culture and the arts from a sociological perspective. The focus includes specific arts (film, music, photography, etc), subcultures of artists and performers and the impact of the market on the arts and popular culture.

SOC 481
SELF AND SOCIETY
Graduate
This course examines sociological perspectives on self and society. In particular, the course will focus on the way that self and society are mediated through an analysis of small group interaction. Group interaction mediates individual action and social structure, therefore making the study of small group interaction generalizable to larger social patterns of organization.

SOC 487
SOCIOLOGY OF CELEBRITY
Graduate
"Celebrities are known for being well-known." The course explores the role of media and fans in the making of celebrity and considers celebrity as a key feature of contemporary society.

SOC 490
AFRICAN-AMERICAN CULTURE
Graduate
(Cross-listed as SCG450/LSE450) Intended for teachers and students of society in order that they may examine the contributions of the African American community to American culture; gain a functional understanding of the social, economic and political development of blacks in America; gain an insight into problems created by racism and social construction of race.
SOC 491
AFRICAN-AMERICAN SOCIAL THOUGHT AND SOCIAL ACTION
Graduate
The course examines a unique African-American community-service tradition. This tradition embodied in a social thought perspective merges direct social action with intellectual ideas to improve conditions of America's black community. Contributions of social scientist and social activists will be used to demonstrate this perspective and to discuss sociology topics as community, race and social change.

SOC 492
ERADICATING WHITE RACISM
Graduate
This graduate seminar addresses key dimensions of the social construction Whiteness (how British, Jews, Irish, Italians, etc. became White) and how the consequence White racism (denial of opportunity to non-Whites) in the United States perpetuates a system of racialized inequality. The seminar is designed to prepare students for critical self-reflection, self-appraisal, and social change.

SOC 493
VISUAL SOCIOLOGY
Graduate
A sociological view of documents that record social reality. These documents primarily include photographs but can also include paintings and sculpture.

SOC 494
RACISM AND RESISTANCE
Graduate
In this course, although we will be particularly interested in the way White Supremacy is created and maintained in the post-civil rights era, we will ground our examination in the histories that created our present. We will end the course with a frank discussion of what can be done to resist racism and racial oppression in our own lives.

SOC 495
SPECIAL TOPICS IN SOCIOLOGY
Graduate
Special courses will be offered as students and faculty identify selected topics of common interest.

SOC 498
INTERNSHIP
Graduate
Students may be placed with agencies where they will have the opportunity to participate in activities such as research and counseling. Credit may vary but is subject to the limit of eight quarter hours.

SOC 499
INDEPENDENT STUDY
Graduate
Independent Study

SOC 500
THESIS RESEARCH
Graduate
The thesis research should culminate in the acceptance of a thesis. Four quarter hours, one registration.

SOC 510
MA PROJECT COMPLETION
Graduate
Students may register for this class if they are engaged in work on a writing project (thesis or MA project). Registration requires certification by the chair that the student is engaged in research or writing. The course does not apply to completion of an IN in a class. This course may be taken at most 3 times.
SOC 601
ACTIVE STUDENT STATUS
Graduate
Registration in this course provides access to the library and other university facilities. There is no indication whether or not the student is working on the writing project. Non-credit. $40.00 fee.

SPN 101
BASIC SPANISH I
Undergraduate
Listening to, speaking, reading and writing Spanish in a cultural context for the beginning student.

SPN 102
BASIC SPANISH II
Undergraduate
Continued emphasis on the four skills in culturally authentic situations.

SPN 103
BASIC SPANISH III
Undergraduate
Completion of the basic elements of the Spanish language, spoken as well as written, with due regard to the cultural context of Spanish expression.

SPN 104
INTERMEDIATE SPANISH I
Undergraduate
Intensive practice in the use of Spanish through listening, speaking, reading and writing, and continued enhancement of the cultural awareness intrinsic to those skills.

SPN 105
INTERMEDIATE SPANISH II
Undergraduate
Continuing practice in spoken and written Spanish and further development of reading and listening abilities in an authentic cultural context.

SPN 106
INTERMEDIATE SPANISH III
Undergraduate
Developing more fluency in speaking, understanding, reading and writing Spanish with a concomitant heightened awareness of the cultural dimensions of the Spanish language.

SPN 114
INTERMEDIATE SPANISH FOR HERITAGE SPEAKERS I
Undergraduate
The first quarter of a combined basic and intermediate sequence for home-background speakers of Spanish who have had little or no previous formal study of the language.

SPN 115
INTERMEDIATE SPANISH FOR HERITAGE SPEAKERS II
Undergraduate
The second quarter of a combined basic and intermediate sequence for home-background speakers of Spanish who have had little or no previous formal study of the language.
SPN 116
INTERMEDIATE SPANISH FOR HERITAGE SPEAKERS III
Undergraduate
The third quarter of a combined basic and intermediate sequence for home-background speakers of Spanish who have had little or no previous formal study of the language.

SPN 124
INTERMEDIATE SPANISH I: SERVICE LEARNING
Undergraduate
Intensive practice in the use of Spanish through listening, speaking, reading and writing, and continued enhancement of the cultural awareness intrinsic to those skills. Provides Experiential Learning credit through Community Based Service Learning: includes at least 25 hours of required work off-campus.

SPN 125
INTERMEDIATE SPANISH II: SERVICE LEARNING
Undergraduate
Continuing practice in spoken and written Spanish and further development of reading and listening abilities in an authentic cultural context. Provides Experiential Learning credit through Community Based Service Learning: includes at least 25 hours of required work off-campus.

SPN 126
INTERMEDIATE SPANISH III: SERVICE LEARNING
Undergraduate
Developing more fluency in speaking, understanding, reading and writing Spanish with a concomitant heightened awareness of the cultural dimensions of the Spanish language. Provides Experiential Learning credit through Community Based Service Learning: includes at least 25 hours of required work off-campus.

SPN 197
SPECIAL TOPICS IN SPANISH
Undergraduate
See schedule for current offerings.

SPN 198
STUDY ABROAD
Undergraduate
Variable credit.

SPN 199
INDEPENDENT STUDY
Undergraduate
Variable credit.

SPN 201
ADVANCED GRAMMAR AND COMMUNICATION
Undergraduate
A systematic study and review of grammar points that typically cause difficulty for students of Spanish as a foreign language. Developing appropriate speech and writing through the study and discussion of films and various types of written documents within a cultural context.

SPN 202
ADVANCED COMPOSITION AND COMMUNICATION
Undergraduate
Continued study of grammar, speech and writing with emphasis on the development of an effective prose style.
SPN 203
ADVANCED CONVERSATION I
Undergraduate
Developing a more sophisticated spoken fluency; backup support provided through written texts and exercises.

SPN 204
ADVANCED CONVERSATION II
Undergraduate
Refinement of advanced speaking skills.

SPN 205
ADVANCED GRAMMAR AND COMPOSITION FOR HERITAGE SPEAKERS I
Undergraduate
For native speakers of Spanish to be taken in lieu of 201.

SPN 206
ADVANCED GRAMMAR AND COMPOSITION FOR HERITAGE SPEAKERS II
Undergraduate
For native speakers of Spanish to be taken in lieu of 202.

SPN 207
ADVANCED CONVERSATION FOR THE HERITAGE SPEAKER
Undergraduate
For Heritage Language Speakers of Spanish to be taken in lieu of 203 or 204.

SPN 220
INTRODUCTION TO LITERARY ANALYSIS IN SPANISH
Undergraduate
Introduction to the vocabulary and methods of literary criticism. Study of various genres and periods.

SPN 221
INTRODUCTION TO PENINSULAR CIVILIZATION
Undergraduate
Survey of cultural, social, intellectual, and political development of Spain.

SPN 242
INTRODUCTION TO SPANISH LINGUISTICS
Undergraduate
Introduction to sounds, structure, history, and dialects of Spanish. Strongly recommended for students planning to take SPN 352 "Spanish Phonology and Phoentics."

SPN 243
INTRODUCTION TO TRADITIONAL AND TECHNOLOGICALLY BASED APPROACHES TO TRANSLATION
Undergraduate
The main objective of this course is to introduce students to the history, theory and fundamental principles of translation practice as well as the latest technologies available to the translator. Students will practice the art of translation through the newest technologies available in fields such as medicine, law, sports, travel, education, and business. This introductory course will train students to recognize, comprehend and translate idioms and fixed expressions into Spanish and/or English equivalencies. Students will learn to use monolingual dictionaries and constitute glossaries, computer-based tools and the internet for translating. Students will gain the necessary skills to proof and edit professional documents in order to provide polished and professional translations. This course will also serve as an introduction to the importance of familiarity with a subject matter and distinction between various lexical fields in order to comprehend and effectively manage the linguistic and cultural aspects of language transfer. A whole range of texts, videos from Spanish to English, and from English into Spanish, will be used to practice, thus equipping students with proficiency in translating.
SPN 251
SPANISH FOR THE MEDICAL PROFESSIONS
Undergraduate
Development of communication skills for medical professionals, as well as insurance and social service workers. Reviews structures of Spanish grammar essential to oral practice and idioms commonly needed by healthcare providers.

SPN 252
COMMERCIAL SPANISH I
Undergraduate
Provides business-oriented students with sufficient Spanish language skills to be able to conduct basic business activities in Spanish-speaking countries. Strongly recommended for students planning to take SPN 320 "Advanced Commercial Spanish".

SPN 254
SPANISH FOR LAW PROFESSIONALS
Undergraduate
The objective of this course is to provide vocabulary, idiomatic expressions, and cultural information for the specific needs of the professionals in the legal field.

SPN 297
SPECIAL TOPICS IN SPANISH
Undergraduate
See schedule for current offerings.

Undergraduate
Topics include: the picaresque novel; 19th-century novel; 20th-century novel.

SPN 313
THE GENERATION OF 1898
Undergraduate
Azorin, Baroja, Ganivet, Machado, Unamuno, Valle-Inclan.

SPN 314
CONTEMPORARY HISPANIC LITERATURE
Undergraduate
Topics include: the literature of Spain; Spanish-American literature.
SPN 315
MEXICAN LITERATURE
Undergraduate
Representative texts from different periods and genres.

SPN 316
THE HISPANIC ESSAY
Undergraduate
Topics include: essay of Spain; Spanish-American essay; 19th-century; 20th-century; 21st-century essay.

SPN 317
THE HISPANIC SHORT STORY
Undergraduate
Topics include: short story in Spain; Latin American short story: Mexican, South American, Central American.

SPN 318
THE HISPANIC THEATER
Undergraduate
Topics include: Peninsular drama, Latin American drama, Hispanic theater of the United States.

SPN 319
CONTEMPORARY POETRY
Undergraduate
Topics include: the poetry of Spain, the Generation of 1927, Latin American poetry, Latino poetry.

SPN 320
COMMERCIAL SPANISH II
Undergraduate
Advanced preparation for the use of Spanish in the business world.

SPN 321
U.S. LATINO/A WRITERS
Undergraduate
Topics include Chicano literature, Puerto Rican literature, the literature of exile.

SPN 322
HISPANIC WOMEN WRITERS
Undergraduate
Topics include: Latina, Latin American, and Peninsular writers.

SPN 323
REVOLUTION IN LATIN AMERICAN LITERATURE
Undergraduate
Topics include: The Mexican Revolution, the Cuban Revolution, Revolutions in Central America, and a Survey of Revolutionary Movements.

SPN 324
THE BIRTH OF THE NOVEL IN SPAIN
Undergraduate
Prose fiction from the romances of chivalry to Cervantes.
SPN 325
TRANSLATION AND INTERPRETATION
Undergraduate
Perspectives on Hispanic business through readings and translations. Court interpretation/instantaneous translation.

SPN 326
SPANISH STYLISTICS
Undergraduate
An advanced writing class requiring the writing of numerous texts of differing length and purpose. Includes the examination of rhetorical strategies and the contextual registers of language in order to develop a more effective prose style. SPN 106/SPN 116 or equivalent, and SPN 201-203 or SPN 205-207, recommended.

SPN 327
AREA STUDIES IN LATIN AMERICAN LITERATURE
Undergraduate
Topics include: Central America, the Andean region, and the Southern Cone.

SPN 328
MODERN LATIN AMERICAN THEATRE
Undergraduate
Study of representative drama from the "revolutionary" period in modern Latin American theatre, 1960s-1970s.

SPN 329
LATINO GAY AND LESBIAN LITERATURE
Undergraduate
Representative texts of Latino and Hispanic gay and lesbian authors.

SPN 330
LATIN AMERICAN AND SPANISH CINEMA
Undergraduate
Survey of film directors and their works in Spain and Latin America.

SPN 331
FILM AS A SUBVERSIVE ART
Undergraduate
Decoding literature through films based on literary works by Garcia-Marquez, Fuentes, Lispector.

SPN 332
NINETEENTH CENTURY SPANISH NOVEL
Undergraduate
This course is based on the reading, discussion and critique of major representative works in the novel of Spain of the 19th century.

SPN 333
GOLDEN AGE THEATER
Undergraduate
Spanish theater of the seventeenth century, with a focus on the comedia, a new popular art form that appealed to audiences across social classes.

SPN 335
U.S. LATINA WRITERS
Undergraduate
Survey of literature by modern Latina women writers from the United States, focusing on the social, cultural and political development of Latinas and their affirmation and reaffirmation of identity through their literature in today's society.
SPN 339
THE GENERATION OF 1927
Undergraduate
This course examines the peninsular Spanish "Generation of 1927" in considerable depth with emphasis on the best known literary figure in the group, Federico Garcia Lorca.

SPN 340
SPANISH CREATIVE WRITING WORKSHOP
Undergraduate
Development of creative writing and analysis skills in a variety of genres, including poetry, short fiction, and theatre. Focus may vary according to the instructor.

SPN 351
SPANISH IN THE U.S.
Undergraduate
An introduction to the varieties of Spanish spoken in the U.S. Includes code-switching, language maintenance and language policy.

SPN 352
SPANISH PHONOLOGY AND PHONETICS
Undergraduate
An in-depth study of the language's sound system and intensive pronunciation practice.

SPN 353
THE STRUCTURE OF SPANISH
Undergraduate
This course is an introduction to the scientific study to the structure of language, with special emphasis on Spanish. It examines the structure of sentences, the formation of words, and the construction of meaning. SPN 106 or equivalent recommended; SPN 242 strongly recommended. Cross-listed with SPN 453.

SPN 354
SPANISH SOCIOLINGUISTICS
Undergraduate
This course is an introduction to the study of the relationship between language and society through the Spanish varieties in the Spanish-speaking world. SPN 106 or equivalent recommended; SPN 242 strongly recommended. Cross-listed with SPN 454.

SPN 355
THE HISTORY OF SPANISH
Undergraduate
This course is a journey through the history of Spanish from Latin America to the present day. SPN 106 or equivalent recommended; SPN 242 strongly recommended. Cross-listed with SPN 455.

SPN 370
LATIN AMERICAN CIVILIZATION
Undergraduate
Social, intellectual and artistic background of Latin America.

SPN 371
CULTURAL DIVERSITY AND LEGACIES THROUGH FILM
Undergraduate
Topics from Spain and Latin America.
SPN 372  
LITERATURE OF THE DOMINICAN REPUBLIC  
Undergraduate  
This course examines the literary and cultural production of the Dominican Republic and how it explores or proposes (trans)Caribbean identities.

SPN 373  
AFRO-HISPANIC LITERATURE  
Undergraduate  
In this advanced course in literature in Spanish (categories #2 and/or #4: [Spain from the Spanish Civil War to the present; and/or Latin America from Modernism to the present]), we will seek to determine what distinguishes the Afro-Hispanic novel, short story, drama or poetry from other works in these genres written in Spanish. We will read original works in Spanish in order to analyze how the use of language, imagery and narrative voice reflect the experience of people of African descent in the Spanish-speaking world as seen (or heard) in the text and context of these works. In addition, we will explore how race, class, politics and culture interact and find expression in Afro-Hispanic literature.

SPN 374  
LITERATURE OF THE CONQUEST  
Undergraduate  
This course explores the early encounters between Europe and the Americas. Analysis of letters, reports, histories, and political tracts from European, Amerindian, and Mestizo sources.

SPN 375  
LATIN AMERICAN LITERATURE FROM INDEPENDENCE TO MODERNISM  
Undergraduate  
General introduction to the most important literary movements in Hispanic American countries, beginning with the wars of independence from Spain until the last part of 19th century.

SPN 376  
SOR JUANA INES DE LA CRUZ  
Undergraduate  
This advanced course in literature is dedicated to study Mexican writer Sor Juana Ines de la Cruz (1648-1695), the leading poet and intellectual figure of the Colonial Period.

SPN 377  
PERUVIAN REALITIES IN A MULTICULTURAL SOCIETY: HISTORY, CULTURE, POLITICS, VIOLENCE & SOCIAL JUSTICE  
Undergraduate  
This interdisciplinary course will introduce students to the history, culture, politics, and general life of the peoples of Peru.

SPN 378  
FOUNDATION FICTIONS  
Undergraduate  
This course explores the relationship between national consolidation and romantic novels. It is based on the reading, discussion, and analysis of major representative “Foundational Fictions” in 19th-century Latin American Literature. SPN 220 highly recommended. SPN 106/SPN 116 or equivalent, and SPN 201-203 or SPN 205-207, recommended.

SPN 391  
SOCIO-LINGUISTICS OF HERITAGE LANGUAGE LITERACY  
Undergraduate  
This course explores the sociolinguistic issues related to gaining literacy in a heritage language, specifically, Spanish. This is a Junior Year Experiential Learning (JRYR) course, and as such requires 25 hours of service.

SPN 392  
TRANSNATIONALISM AND SOCIAL JUSTICE  
Undergraduate  
This course explores the overarching theme of violence across different Latin American social realities.
SPN 393
LATINO MEDIA AND DIGITAL CULTURE LITERACY
Undergraduate
This course explores Latino media literacy from a local, national, transnational and bilingual perspective. This is a Junior Year Experiential Learning (JYR) course, and as such requires 25 hours of service.

SPN 394

LITERATURE OF THE CONQUEST
Graduate
This course explores the early encounters between Europe and the Americas. Analysis of letters, reports, histories, and political tracts from European, Amerindian, and Mestizo sources. Cross-listed with SPN 374.

SPN 475
LATIN AMERICAN LITERATURE FROM INDEPENDENCE TO MODERNISM
Graduate
General introduction to the most important literary movements in Hispanic American countries, beginning with the wars of independence from Spain until the last part of 19th century. Cross-listed with SPN 375.

SPN 476
SOR JUANA INES DE LA CRUZ
Graduate
This advanced course in literature is dedicated to study Mexican writer Sor Juana Ines de la Cruz (1648-1695), the leading poet and intellectual figure of the Colonial Period. Cross-listed with SPN 376.

SPN 477
PERUVIAN REALITIES IN A MULTICULTURAL SOCIETY: HISTORY, CULTURE, POLITICS, VIOLENCE & SOCIAL JUSTICE
Graduate
This interdisciplinary course will introduce students to the history, culture, literature, politics, and general life of the peoples of Peru.

SPN 478
FOUNDATIONAL FICTIONS
Graduate
This course explores the relationship between national consolidation and romantic novels. It is based on the reading, discussion, and analysis of major representative "Foundation Fictions" in 19th-century Latin American Literature. Cross-listed with SPN 378.

SPN 479
SPECIAL TOPICS IN SPANISH
Graduate
See schedule for current offerings.

SPN 498
STUDY ABROAD
Graduate
Variable credit. Permission required.

SPN 499
INDEPENDENT STUDY
Graduate
Variable credit. Permission of chair and instructor required.
STEM 230
INTRODUCTION TO EARTH AND SPACE SCIENCE
Undergraduate
This course provides an overview of the dynamic geological nature of Earth, its place in the solar system and universe, and the fundamental Earth-sky-human relationship. The format of the course is lecture, discussion, laboratory activities, and student group presentations. The course content is aligned with the Illinois Earth and Space Science Content Area Standards for educators and thus also meets the needs of secondary education majors wishing to pass the Illinois state exam for certification in earth and space science. LSP 120 or HON 180 is recommended. Formerly SDV 230.

STEM 231
INTRODUCTION TO EARTH AND SPACE SCIENCE (WITHOUT LAB)
Undergraduate
This course provides an overview of the dynamic geological nature of Earth, its place in the solar system and universe, and the fundamental Earth-sky-human relationship. Students will develop an understanding of 1) the processes that shape Earth's surface and interior over geologic time, 2) the formation, evolution, and physical properties of the sun and its planets, asteroids, and comets, 3) the physical basis for phenomena such as eclipses, phases, and seasons, 4) the formation, evolution, and properties of stars, galaxies, and the universe, 5) the historical progression of human understanding of Earth's geologic history and its place in space and time, and 6) the associated technologies that have enabled this progression. Students will encounter several historical examples that illustrate the provisional nature of science and the interaction of experiment, observation, and theory. The format of the course is lectures, discussions, laboratory activities, and student group presentations. Formerly SDV 231.

STEM 240
SCIENCE AT THE EDGE OF SPACE
Undergraduate
Earth's atmosphere and near-space environment play an increasingly important role in our lives in areas such as global warming, ozone depletion, and telecommunications. The upper atmosphere is also a starting point for human exploration of space beyond Earth. In addition to learning about Earth's upper atmosphere and beyond, students will build simple scientific experiments and launch them on a weather balloon to an altitude of 100,000 feet. (Lab Fee) Formerly SDV 240.

STEM 310
SCIENTIFIC MODELING
Undergraduate
Introduction to mathematical models used in scientific work: discrete dynamical systems, continuous models, stochastic models, Markov chains, and compartment models. Course is example-driven, with models being implemented on the computer. MAT 151 recommended. Formerly SDV 310.

MAT 150 or LSP 120 and 121 are a prerequisite for this class.

STEM 360
SCIENTIFIC DATA ANALYSIS I
Undergraduate
Descriptive methods of data analysis, probability models, statistical inferential procedures including regression and analysis of variance, especially as it relates to scientific data arising from observations and experiments. Includes the use of one or more computer statistical analysis packages. MAT 150 recommended. Formerly SDV 360.

STEM 361
SCIENTIFIC DATA ANALYSIS II
Undergraduate
Advanced statistical and data-mining methods with science-related case studies. Topics include multiple regression, logistic regression, decision trees, and naive Bayesian classification. STEM 360 recommended. Formerly SDV 361.

STEM 390
SENIOR CAPSTONE I
Undergraduate
Students will examine a scientific issue with historical or public policy significance from multiple points of view, ethical, social, as well as scientific. The topic will necessarily be one in which the interpretation and visualization of data plays a significant role in framing debate. Students will work individually or in small groups to create projects featuring the interplay of quantitative and non-quantitative approaches. STEM 361 recommended. Formerly SDV 390.
STEM 391
SENIOR CAPSTONE II
Undergraduate
Students work on a quarter-length project whose end product is either a detailed mathematical analysis or a visualization of several large scientific data sets. The project will integrate a few of the science topics done in SDV 390 with data analysis and visualization. Collaborations with researchers and organizations such as educational institutions and museums are especially encouraged. Formerly SDV 391.

STEM 399
INDEPENDENT STUDY
Undergraduate
Variable credit. Formerly SDV 399.

STEM 405
ECOLOGY FOR TEACHERS
Graduate
This course provides a broad survey of ecological principles through laboratory and field investigations appropriate in an urban setting. The course focus is on the use of local environments to promote awareness of and appreciation for the complexity, diversity and structure of the natural world while developing skills in hypothesis testing, experimental design and data analysis. Formerly SDV 405.

STEM 409
MATHEMATICAL METHODS FOR MIDDLE SCHOOL SCIENCE TEACHERS
Graduate
This course develops the mathematical methods that support the teaching of science at the middle school level: proportional reasoning, rates, exponents and scientific notation, graphing, and elementary modeling. The course incorporates the use of technology such as calculators and spreadsheets for scientific analysis.

STEM 410
TOPICS FOR TEACHERS
Graduate
Selected topics in science and science education. Formerly SDV 410.

STEM 411
FOUNDATIONS OF PHYSICAL SCIENCE I
Graduate
This course explores the nature of scientific inquiry, using a historical case study of the development of classical physics in the work of Copernicus, Brahe, Kepler, Galileo, and Newton. It explores the roles of observation, classification, experiments, theory, and mathematical models in science as well as the character of scientific change. Formerly SDV 411.

STEM 412
FOUNDATIONS OF PHYSICAL SCIENCE II
Graduate
Fundamental concepts of physics examined quantitatively: velocity, acceleration, surface area, volume, density. Elementary modeling for data analysis, including spreadsheets and data acquisition software. Scaling of physical quantities. Formerly SDV 412.

STEM 413
LIGHT AND WAVES
Graduate
Fundamentals of wave motion with application to light, water, and sound. Teachers are introduced to a variety of physical science topics in the curriculum as well as an example of the extraordinary unifying power of physics concepts such as waves. Formerly SDV 413.

STEM 420
CHEMISTRY FOR TEACHERS
Graduate
The structure and composition of matter. Physical and chemical change, examined from conceptual viewpoints which include atomic theory, stoichiometry, periodicity, bonding, equilibrium, thermodynamics and kinetics. Formerly SDV 420.
STEM 421
CELL BIOLOGY FOR TEACHERS
Graduate
This course focuses on the chemical and cellular nature of living organisms, cell structure and function, and heredity. Enzymes, the movement of materials across membranes, photosynthesis, respiration, cell division, and basic genetics. Formerly SDV 421.

STEM 422
EVOLUTION AND DIVERSITY FOR TEACHERS
Graduate
This course explores the subjects of biological evolution and species diversity. Topics covered include the history of our understandings of the origin and nature of species, mechanisms that produce evolutionary change, geographic variation and speciation, current theories and evidence of life's origin and the history of life on earth. Controversies in biological evolution, both scientific and cultural will be discussed. Formerly SDV 422.

STEM 423
PLANT AND ANIMAL BIOLOGY FOR TEACHERS
Graduate
This course focuses on the structure and function of living organisms. Students will investigate how different organisms solve common problems of food acquisition, digestion and the distribution of nutrients, waste removal, gas exchange, maintenance of homeostasis and reproduction. While this course examines the diversity of living forms, there is a special emphasis on the structure and function of the human body. Formerly SDV 423.

STEM 425
TOPICS IN LIFE SCIENCES FOR TEACHERS
Graduate
Diverse topics in Life Sciences appropriate for middle school and high school students.

STEM 430
ASTROBIOLOGY FOR TEACHERS
Graduate
Astrobiology focuses on basic questions such as: How does life of any kind begin and develop? Does life exist elsewhere in the universe? What are the environmental limits for life? What is the future of life on the earth and beyond? The course reviews the origin and evolution of life on Earth and goes on to examine the prospects of habitats capable of supporting life in our solar system, and the potential for planets and life to exist orbiting other stars. Students will work with NASA remote sensing data of the earth, the other planets, and their moons. Formerly SDV 430.

STEM 431
ASTRONOMY FOR TEACHERS
Graduate
This course emphasizes astronomy particularly relevant to the middle school science curriculum. The structure of the solar system, motion of the sun, phases of the moon, familiarity with the night sky, stellar structure and evolution, galaxies, and introduction to cosmology. Students will be familiarized with student reading materials particularly appropriate for the combined teaching of science and reading. Students will make observations and use sky simulation software. Formerly SDV 431.

STEM 432
GEOLOGY AND PLANETARY SCIENCE FOR TEACHERS
Graduate
Planetary formation and evolution. Plate tectonics and the rock cycle, including volcanism, planetary interiors, weathering, sedimentation, and metamorphism. Formerly SDV 432.

STEM 440
HEAT AND ENERGY FOR TEACHERS
Graduate
Concept of energy, its nature, forms, and transfer with applications to physical science and earth science. Definition of energy in terms of work, potential and kinetic energy, conservation of energy, thermal energy, solar energy, energy in earth systems. Formerly SDV 440.
STEM 441
WEATHER AND CLIMATE FOR TEACHERS
Graduate
Basic physical and chemical processes that shape weather and climate. Solar radiation and the seasons, composition and structure of the atmosphere, atmospheric processes, human effects, historical and contemporary climate change. This course emphasizes quantitative methods. Formerly SDV 441.

STEM 442
ENVIRONMENTAL SCIENCE FOR TEACHERS
Graduate
A general introduction to the scientific background of some of the most important environmental problems facing urban areas, the nation and the world. Population dynamics, water and energy resources, ecosystem degradation, extinction and the loss of biodiversity, and climate change. The course will include a field observation and experiment.

STEM 490
SCIENCE TEACHING CAPSTONE
Graduate
Teachers will further examine current research on how students at the middle school level learn science concepts and conduct an action research project involving science teaching. STEM 405, STEM 412, STEM 413 and six content courses recommended. Formerly SDV 490.

STEM 698
TOPICS FOR MATHEMATICS AND SCIENCE TEACHERS
Graduate
Diverse topics in teaching and learning of mathematics and science. These courses are designed for current and future teachers.

STEM 699
INDEPENDENT STUDY
Graduate
Variable credit. Formerly SDV 699.

SUD 401
SUSTAINABLE URBAN DEVELOPMENT I: PLANNING, POLICY & COMMUNITY DEVELOPMENT
Graduate
This course addresses the concepts, practices, and tools for sustainable planning and provides an understanding for how to apply these to urban communities. The course is an intensive, topics-based overview of sustainable land use, housing, transportation, infrastructure, and community and economic development practices. The course is largely directed at contemporary policy issues and technical processes within the United States.

SUD 402
SUSTAINABLE URBAN DEVELOPMENT II: GREEN INFRASTRUCTURE & THE ENVIRONMENT
Graduate
This class focuses on the environmental aspects of city planning, including: resource management, environmental policy, transportation, LEED ratings and measures of environmental impact, integration of ecosystems within a land use planning framework, and community-based solutions to historical environmental injustice.

SUD 403
BROWNFIELDS REDEVELOPMENT: PRACTICE AND IMPLEMENTATION
Graduate
Students form a grounded understanding of the Brownfield lifecycle: how and why they were created and the general processes governing their redevelopment. The class will review the current regulatory, economic, environmental, community, public health, and development conditions of brownfields, through site visits and, when possible, discussions with stakeholders from public agencies, community organizations, and the private sector. Through a practice component, class members work in teams to apply their general brownfields knowledge to particular challenges in the field and gain hands-on experience in applied environmental and economic development research and analysis, community brownfield practices, and sustainability planning.
SUD 404
URBAN DESIGN LABORATORY
Graduate
This course teaches digital methods of creating visual information. Software used may include: Adobe Creative Suite, Google SketchUp, and advanced techniques for Microsoft PowerPoint, which can be applied by students in the SUD 501 and 502 courses.

SUD 490
SPECIAL TOPICS
Graduate
A course related to sustainable urban development.

SUD 499
INDEPENDENT STUDY
Graduate
Intensive study of a topic of special interest; requires that the student and instructor work together independently on a specific topic or project. Instructor consent required.

SUD 501
PROFESSIONAL INTERNSHIP
Graduate
A 100-hr internship with one of the following: a local government, non-profit organization, or private corporation. Students are encouraged to work onsite, integrating their learning into a Chicago-area organization. Students unable to identify an internship will be assisted by the Steans Center for Community-based Service Learning, the Chaddick Institute, and other DePaul resources.

SUD 502
CAPSTONE - PROFESSIONAL PORTFOLIO
Graduate
A discussion seminar that puts the skills learned on site into the wider academic context of the course. Students will draw from their internship to complete a project report as the culmination of this course.

SUD 600
CANDIDACY CONTINUATION
Graduate
Students who must take extra time to complete the requirements for the Master's portfolio must enroll in candidacy continuation each quarter of the academic year until this Master's requirement has been completed. Students may register for this course by permission of the graduate director and no more than three times. Non-credit.

SUD 601
CANDIDACY MAINTENANCE
Graduate
Masters candidates who are not actively working on a portfolio during a given quarter but who want to maintain active university status can register for this course by permission of the graduate director. This course does not maintain student status for purposes of student loans. Non-credit.

SW 105
INTRODUCTION TO COMPUTER INFORMATION TECHNOLOGY
Undergraduate
In this Bridge course, students will learn about personal computing by exploring Windows Vista operating systems, including an introduction to common personal computer productivity applications software using MS Office 2007. Students will learn the basic, intermediate, and advanced level of MS Word, Excel, Power Point, and Access. They will also explore home networks and wireless systems, developing basic technical skills in designing, managing, and securing home networks. May be taken for a maximum of 3 competences.
SW 106
MIND, BRAIN, CONSCIOUSNESS: THE MIND AND BIOTECH REVOLUTION
Undergraduate
What is so special about the mind? Why is brain-death the death of the human? What is consciousness and how do we define it? Does artificial intelligence actually exist or is this a construct of the technologists? In this class Bridge course, we will examine questions about the mind-body division, right brain-left brain distinctions, the differences between robots and humans, and how the brain processes information and sensory data. We will use both biotechnology research and artistic experience to explore these questions. Can be taken for up to 3 competences.

SW 121
INTERNET APPLICATIONS FOR SMALL BUSINESSES
Undergraduate
This course examines the design and development of web applications for small business. The course focuses on Internet technology to support consumer-oriented e-commerce, enterprise e-business solutions, and emerging business-to-business trading models. The topics will cover e-business models, internet marketing, online transactions ethical and social issues and internet security. Students will study different models for e-commerce applications and build a web application for small business using HTML, VB Script and Active Server Page.

SW 126
S5 / EXPERIENTIAL LEARNING EVALUATION: INFORMATION TECHNOLOGY
Undergraduate
S5 Information Technology. Can use contemporary information technology effectively.

SW 141
MARINE ECOLOGY
Undergraduate
This course focuses on the biology and ecology of marine ecosystems and oceanography. The biological, chemical, physical and geographical factors of marine ecosystems are explored, including the inter-tidal zones, sandy and rocky shores, the ocean floor, seagrass, mangroves, coral reefs, open ocean, and the abyss. A survey of the biodiversity of marine organisms includes algae, plankton, invertebrates, reptiles, birds, fishes and mammals. Behavioral characteristics of unique species are discussed. The impact of humans on the marine environment, conservation, and management are highlighted. A theme of sustainability runs throughout. Discussion and activities will be emphasized.

SW 152
STRESS REDUCTION USING HUMOR AND SPIRITUALITY
Undergraduate
Stress affects the body in dramatic ways, and is a major contributing factor in chronic and degenerative diseases. We will understand/describe the physiology and biochemistry of stress and, more importantly, apply effective methods to reduce and manage it. Effective stress reduction and burnout prevention then become important health, wellness, productivity and disease prevention strategies for individuals, schools, businesses, the medical industry and the culture. The effective stress reduction techniques include breathing, biofeedback, humor, spiritual exploration, connection and inspiration. The holistic paradigm of body, mind and spirit supports our informed search for meaning, connection, calm productivity and enhanced health.

SW 160
GLOBAL CLIMATE CHANGE BASICS
Undergraduate
Climate impacts every moment of our lives. All living creatures depend for survival upon climatic conditions remaining within a rather narrow range of the possible variations. For the past six thousand years, climate has been comfortable enough to permit the rise (and fall) of many civilizations. Climate stability has permitted us to invent cities, engage in agriculture and hydraulic engineering, and practice science and many other activities which we call `civilized.? However, in a rather short period of time -- two hundred years -- we humans have reached a stage of interaction with the climate which jeopardizes the very regularities in climate on which we depend. In order to grasp what our options are, we must learn to understand the climate system within larger frameworks. While the climate system is many faceted, it is not that difficult to understand. When we do, we see that our relationship to the climate system urgently calls for an exploration of a robust Earth-oriented ethic. In this course, we will build from simple observations to a more complex understanding of our climate system and the exploration of possible futures. We will engage in discussion around lectures illustrated with power point, texts, and current developments as reported in scientific journals, contemporary press, and on the web.
Who takes care of the family caregiver? All of us at one time or another inevitably face the challenge of either being a caregiver for a child, sibling, partner or parent, supporting another family member in this role, or caring for ourselves. This human experience can be overwhelming and affects the caregiver's mental, emotional, spiritual and physical well-being. It is well-documented that this role can result in an emotional toll. Although caregiving can be very rewarding, it can also be a difficult experience plagued with stress, fear, anxiety, depression and isolation. These factors add strain to all members of the family and can either threaten our health or compound an existing health condition. Students review the implications of being a caregiver, develop a plan, learn to recognize health-threatening symptoms, identify support systems and prepare to be proactive in finding solutions to remain healthy while they face any life challenge. This course also teaches students how to overcome obstacles and practice relaxation techniques. The final paper may consist of writing a personal health plan to maintain optimal health or a plan for how to remain a healthy family caregiver.

This course will engage you in scientific inquiry on the nature of sexual orientation. You will be challenged to master the scientific content of leading programs of research on twins, brain and other anatomical structures, hormones, genetic linkages, birth-order, and animal behavior through assigned readings, lectures, and multimedia resources. Moreover, you will also engage in the scientific process through a collaborative research project concerning an aspect of sexual orientation that leads you through the steps of stating a question, designing a study, collecting and analyzing data, and interpreting the results. You will also develop skills in identifying the limits to particular forms of scientific inquiry by recognizing the constraints of methods, sources of bias, reliability of results, and certainty of conclusions. This course will encourage you to place the modern research within ethical and social contexts in which to make judgments about the potential relevance and impacts of scientific knowledge about sexual orientation.

This course provides an introduction to use of algebra. Students will begin by exploring arithmetic and plane geometry skills including fractions, decimals, percentages, and metrics. When ready for algebra, the class will learn to manipulate equations. The emphasis will be placed on building confidence in solving everyday problems through algebra. Although the course will move to complex and simultaneous equations, the focus will remain on algebra basics and their applications. You may register for up to 2 competencies.

With so many people jumping on the Web publishing bandwagon, you can easily feel like you've been let in the dust. Today, people are cranking out publications with worldwide distribution and impact as a result of Web publication software. This course is designed for Web page content creators and aims to give you the skills needed to build basic pages on the internet.

This course describes the tools and techniques needed to design a web site for personal and professional use. We will cover the fundamentals of web site design practices, HTML, forms, image creation and editing, and Javascript through lecture, discussion, lab and homework. Students will complete a series of exercises that lead toward building a functional web site using these tools and techniques. Successful completion of Exploring the Internet is required to register.

This course is designed for students who for career-related activity or further academic (graduate) studies, need those quantitative and numerical skills. covered. *Some facility with algebra is required. Topics will include the center and risk associated with financial data, identifying the trend and making predictions for economic and scientific data, measuring the likelihood of an occurrence in a game of chance, or even estimating a political candidates chances based on polls. Examples will be used to introduce and reinforce theory. The student will build confidence and learn to solve practical problems by using statistics.
SW 204
URBAN GROWTH AROUND THE GLOBE
Undergraduate
This course will analyze the interrelationships among population, the environment, and economics. Past, current, and potential future policies relative to these issues will be evaluated.

SW 205
PRACTICAL ALGEBRA
Undergraduate
This course covers algebraic concepts and computational skills ranging from basic variable representation to solving equations and deriving/using advanced mathematical formulas to solve financial problems. The basic skills needed for comprehension will be reviewed as each new concept is introduced. Calculators will be used throughout the course. A scientific calculator with the "log" function is the most useful.

SW 206
NUTRITION AND BIOLOGICAL DEVELOPMENT
Undergraduate
Today's consumers want and need to be educated about taking charge of their own health. With the current fast-palce world that has spilled over into our eating habits, food choices have become unlimited. Choosing a healthy approach to diet requires basic information about our body's nutritional needs. The greater our understanding of our basic bodily needs, the better able we are to make choices concerning our health. This course will offer an overview of the basic science of nutrition, with an emphasis on the relationship between disease and nutrition, and current research findings.

SW 207
PUBLIC HEALTH ISSUES IN AFRICA
Undergraduate
Public health issues have an impact on any ministry that a student might serve in. This course will build students' capacities to understand the scientific information that explains public health issues such as HIV/AIDS, malaria and other infectious diseases. They will learn about health care practices and strategies that can be used to address public health issues, especially in the ministries that they will work in. They will examine cultural and gender dimensions of public health issues. Through this course, therefore, students will develop and demonstrate their competence to describe, categorize, and analyze the interactions and exchanges between living organisms and their physical environments and to assess health care practices based on an understanding of the biological and social factors that contribute to definitions of health.

SW 208
ISSUES IN SCIENCE AND RELIGION
Undergraduate
This course develops students' understandings of the scientific and religious constructions of self in the modern world (natural and social). The institutions and bodies of knowledge comprising science, religion, and their overlap are critically analyzed. Key historic debates are examined, for example: the Vatican's trial of Galileo for his teachings of a heliocentric universe; the controversial reception of Darwin's theory of evolution; and the 2001 U.S. policy on embryonic stem cell research. Through such analyses, the course develops students' skills in making ethically-informed decisions and thus recognizing their roles in the public debates involving the intersection of science and religion.

SW 209
BIODIVERSITY
Undergraduate
The study of biological diversity, which is the measurement of the amount of genetic, species and ecological variation on earth, is emerging as one of science's and society's most important and urgent endeavors. Scientific efforts to study biodiversity have intensified because of our growing appreciation of the pivotal roles human population growth and urbanization play in accelerating the extinction of plant and animal species through the destruction of critical habitats. In this course, we will examine the central questions: How is the security of humanity dependent on the perpetuation of biological diversity? Do we have an obligation to future generations to keep life on the planet as diverse as possible? Since life on earth has been evolving and diversifying for at least 3.8 billion years and most of the diversity that once existed (as much as 99%) has been lost to extinction processes, we will focus on the character and causes of earth's past biodiversity crises in order to critically assess the severity of the current "biodiversity crisis." Students will be introduced to major biodiversity issues through discussions, readings, lectures, labs, field trips, and original inquiry. Subjects will include: the ways different cultures view the biosphere, biodiversity measurements and monitoring, biodiversity trends in earth's geologic past, the value of and human dependence on biodiversity, global and regional biodiversity currently at risk, policies to protect biodiversity ("the regulation of extinction"), the role of science and technology in preserving biodiversity, restoration ecology and ecological economics. Students will develop a detailed research paper, adhering to a scientific reasoning format, on a biodiversity issue of their choice.
SW 210
ENVIRONMENTAL ISSUES OF THE 21ST CENTURY
Undergraduate
Have you ever wanted to enhance your environmental awareness locally, nationally, and internationally? Do you ponder your impact on the earths’ natural resources? Students will explore environmental quality, sustainability, natural resources, water, soil, and air quality, global warming, and human interactions with the environment. A series of discussions, activities, guest speakers, debates, oral presentations, and computer modeling exercises will offer concept comprehension as well as insight in improving environmental quality. At the end of the course students will reflect on ways to improve environmental quality individually and as a community.

SW 211
USING INFORMATION TECHNOLOGY EFFECTIVELY
Undergraduate
Dealing with change has become essential for all of us, in our private lives and in our organizations and businesses. For some people, change is a stimulating adventure. For others, it is painful anxiety-provoking. Yet the reality of today's business world is that no one can avoid change. The implementation of information technology in the workplace result in complex changes and poses difficult challenges for supervisors and employees. In this course, we will examine issues regarding the individual and social aspects of implementing information technology in work and community. We will explore questions of access to and control of information technology, and concerns for individual privacy. The students will be exposed to a variety of conceptual frameworks and perspective that they may use for interpreting problems and managing change related to integrating computer technology into social systems of work. We will explore each framework or perspective by applying it to case studies. We will reflect on the effectiveness and shortcomings of each interpretive perspective.

SW 212
URBAN ENVIRONMENTAL SCIENCE
Undergraduate
The study of environmental science uncovers the relationship between the built environment and the natural processes of the earth. This includes human interactions and the impact on habitats, plants, animals and those non-living entities that we rely on such as water, air and soil. An examination of the dynamics of human population growth and migration, food production and climate issues, chemical toxicology and health, waste and sustainability, energy production and consumption will illustrate how these issues are connected by increasing global urbanization. This course will provide the framework to guide your decisions as a consumer and a citizen in both a global and local environment. Role-playing and discussions on everything from the choices of fabrics for clothes, transportation, animal rights to the amount of water used while brushing your teeth will show the connections of your behavior to global consequences. Through reading, research, writing, class discussion, individual and group projects, students will learn the key to a sustainable future.

SW 213
MEASURING GLOBAL CLIMATE CHANGE
Undergraduate
In this course we will view global climate change from several angles and through various lenses. What happened to climate during the last 800 million years? What happened since the beginning of the industrial revolution? We'll evaluate predictions and prescriptions for the future. We'll consider politics, economics, and human beliefs and behaviors as they relate to the current global warming trend. Topics for study can range from one person's daily decisions about tooth-brushing or commuting, up to larger issues such as "Why did nearly 200 countries, but not the U.S., ratify the Kyoto Protocol?" or "What happens to Europe, and the rest of us, if the Atlantic Ocean Gulf Stream stalls out?" Doing a major paper or project for each chosen competence will allow you to focus on whatever aspects of global climate change you find most compelling. The overall goal is to become more informed, and to act more responsibly, about Earth, its living organisms and climates, and our influences on them.

SW 214
OUTCOME ORIENTED COMMUNICATION
Undergraduate
Businesses are run by people who work in a constantly changing communication and organizational environment. Modern communication involves many types of communication media such as written reports, telephone, email, websites, text messaging, online conferencing and face-to-face meetings. All of these communication media are not equal when addressing business problems and using the wrong communication media for specific types of problems can actually create problems that were not there in the first place. The "Outcome Oriented Communication" method covered in this class presents communication as a proactive tool for avoiding problems instead of as a remediation tool for correcting problems that might have been avoided with proper communication. It was developed by the instructor in conjunction with his consulting, academic and professional work. Students will be encouraged to use their "life as a laboratory" during the duration of this course as a way of testing the concepts against their own reality, finishing the course with a much better understanding of how to adapt their personal communication style to different personal and business problem solving situations.
SW 215
STRESS MANAGEMENT FOR HEALTH AND WELLNESS
Undergraduate
This course will explore the effect of stress upon the physiology of the body and offer a variety of alternative methods to alleviate these symptoms. Students will gain an understanding of the body's stress response mechanisms and how this response when not checked can lead to consequences that diminish the quality of life. Students will learn techniques for activating the body's relaxation response mechanisms. We will explore the theoretical and practical application of relaxation techniques such as controlled breathing, meditation, self-massage, biofeedback, Yoga, Tai Chi and other alternative health practices. The importance of nutrition as a means of combating stress will also be covered. Through experiencing the physiological response of the body to stress reduction techniques, students will gain the ability to assess and manage their own stress. Other skills students will be able to acquire include: recognizing stress symptoms in self and others, how to choose a stress reduction method, understanding the relationship between stress and wellness, and devising stress reduction regimes for others. Journaling, a short paper, selected readings and demonstration of advanced Yoga and Tai Chi techniques by a guest speaker will enhance the learning experience.

SW 216
THE SCIENCE AND COMMERCE OF COFFEE AND TEA
Undergraduate
The class will use a variety of readings discussions and activities to explore the science and economics of popular hot beverages. This class will focus on the science behind growing and brewing coffees and teas (and tisanes) and these beverages affect on the human body. Coffees, in particular, teas and tisane elements less so, are grown in highly specific ecosystems. The class will learn about and compare these ecosystems, earth friendlier alternative ecosystems for these commodities and common forest ecosystems that are found in Northern Illinois. The class will also look at the historic and current state of coffee and tea commerce. The class will include field trips that could include: local orchards, area coffee houses, area organic food stores, teahouses, etc. Some of these trips will be during regularly scheduled class time and others may be assigned as independent student work outside of class. WARNING: Basic taste testing during the class will focus on coffee and tea without additions. While students will have many opportunities to review popular, flavored coffee and tea drinks, in-class taste tests will focus on unadulterated coffee and tea comparisons. Students must be willing to sample espressos and coffees black.

SW 217
UNDERSTANDING AND MEASURING INTELLIGENCE
Undergraduate
In this course, students examine intelligence testing and its uses in employee selection and placement. Students learn the principles of assessing human traits (reliability, validity, bias and other systematic errors), and apply them to intelligence testing. We will work to define "intelligence" and consider various approaches to intelligence, contrasting the theories of unitary vs. multiple intelligences. Students will examine the implications of the definitions and measurement approaches on different groups of people, both historically and currently, with attention to the unintended effects of the biases of test developers and the ethical implications of different approaches and uses of intelligence testing.

SW 218
WHAT IT MEANS TO BE HUMAN
Undergraduate
Self-awareness distinguishes humans from other species of animals and allows us to raise questions about ourselves. This course will examine the works of Freud, Jung, Adler, Skinner, Maslow, and others. Emphasis will be placed on the evolution of questions as well as answers in personality theories. Through readings, lectures, videos, discussions, and written assignments, students will examine the application of the scientific process to themselves and others.

SW 219
THE AGING (OR REENGAGING) BRAIN?
Undergraduate
In this course, we will examine the latest research on the aging process and, specifically, its relationship to the brain. We will cover a mix of material from psychological and, especially, neuroscientific fields. Students will also be introduced to the field of neuroplasticity, which is revolutionizing the way we understand the functioning power of the brain. Neuroplasticity, in simple terms, is the brain's ability to rearrange its connections and, therefore, its functions based on experiences. In other words, the brain has the capacity to literally change itself, based on experiences, to achieve positive results. The goals of this course are to understand how the brain works, examine its impact on our daily actions, study how aging impacts brain functioning, discover the learning and adjustment potential of the brain, and apply the principles of the 3 P's. We will use numerous examples to understand the brain, including health, work, relational, and personal settings. Students will ultimately answer the question of whether they will have an aging or reengaging brain.
**SW 220**  
**COSMIC HISTORY: FROM BIG BANG TO MANY UNIVERSES**  
**Undergraduate**  
This course invites students to enter into some of the universe's most mysterious spaces, especially black holes, red shifts, and tenth dimensions. Scientific studies of the cosmos have reached a remarkable level of consensus, but mysteries continue to boggle astrophysicists' minds. Einstein's Theory of General Relativity, Hubble's "Big Bang," and subsequent theories regarding dark energy, dark matter, black holes, and other features of cosmic history are now supported by a growing body of evidence from studies of background radiation, "red shifts," and other astrophysical data. But puzzles remain that compel the boldest of thinkers to reconsider the physics of both the cosmic and the subatomic. This course invites students to engage in critical analyses of twentieth-century developments in the science of cosmic history, its creative process, and its movement toward connecting diverse aspects of the universe within a Grand Unified Theory.

**SW 221**  
**BUILDING AN ONLINE CATALOG OF CHICAGO ACTIVISM**  
**Undergraduate**  
This class will chart, categorize, and record all the civic activism and social change organizations working in Chicago and post mini-profiles to a Wikipedia space that the general public will be able to search by type of issue and neighborhood. This publishing project will grow with each class's contributions and will allow viewers to post comments and add links and other resources. Students will be provided with information about the types of community change organizations working in Chicago and will then have a choice of assignments such as the following: research groups within a specific setting (e.g. recycling); research groups working in a specific community (e.g. Lawndale); research a hero/heroine of social change (e.g. Gail Cincotta); or research a specific incident in Chicago's social change history (e.g. The Haymarket Riot). Students will also work on the user interface and conduct user experience tests to see how casual viewers use the site. Viewers on the site will be able to browse the organizations by type of issue and neighborhood. This reference will be a significant resource for citizens who want to make a difference in Chicago.

**SW 222**  
**WEB SITE DESIGN**  
**Undergraduate**  
Designing a web site, for personal or professional use, requires a number of skills. This course serves as an introduction to the tools and methods for creating effective web sites. Students will learn the fundamentals of HTML, forms, image creation and editing, and JavaScript through exercises which will lead to the creation of a functional web site by the end of the course. In addition to these practical skills, the course will also discuss the effective design practices for a successful web site.  
*Prerequisite: Successful completion of "Exploring the Internet" course, familiarity with Windows, ability to use a word processor, some experience using the Internet.*

**SW 223**  
**PRINCIPLES OF A SUSTAINABLE LIFESTYLE**  
**Undergraduate**  
Our consumer choices, habits and lifestyle have a local and global impact. The items we consume, such as: housing, furnishings, clothing, transportation, travel, food, recreation, entertainment and disposables mainly come from non-renewable natural resources produced in far away lands and have a cradle-to-grave lifecycle. Awareness and education as to the safety and efficacy of consumer products is often suspect with contradicting information from the media, manufacturers, government and advocacy groups. Employing a sustainable paradigm for all of your consumer choices will allow you to have a smaller footprint, (ecological and carbon) on the planet and live a healthier, guilt free existence. We will explore the meaning of the ‘triple bottom line’ or cradle to cradle approach to consumption. Consumer models, field trips and personal experiments will help pave the way to become a conscientious global citizen.

**SW 224**  
**ENVIRONMENTAL SOCIOLOGY**  
**Undergraduate**  
This course opens the discussion of the relationships and conflicts of society's perception of the built and natural landscape. It crosses the intersection of technology and industry and their resulting social problems. The study of society includes the phenomena of equity and inequality that beset humans and the living and non-living components that we experience daily. The act of consumption and the economy of technology, over time, impact human populations, mold our social experiences, and inform the actions that determine the physical environment in which we live. Ideologies, cultural, moral and ethical values present risk and knowledge that hone the attitudes and actions within our human communities. Humans, often being pragmatic, ultimately learn to mediate conflicts (environmental, social, cultural, economic and political) in order to perpetuate the institutions and social dynamics of our civilization.
SW 225  
INFORMATION TECHNOLOGY  
Undergraduate  
The world in which students will live and minister will be shaped more and more by information technology. In this course, students will learn how to effectively use computers and computer programs. They will develop computing skills that they can use in their academic studies, in their community lives, and in their ministries. They will learn how to use computers to communicate more effectively, to do research, to find information on the Internet, to organize and analyze data, to manage financial information, and to present information to others. Through this course, therefore, students will develop and demonstrate their competence to use contemporary information technology effectively and to understand general computing principles and solve problems using computer-based applications.

SW 226  
CAREERS IN SCIENCE  
Undergraduate  
This is a course designed to enlighten and broaden your knowledge about the many science careers (i.e. environmental science, biology, chemistry, food science, nutrition, geology, math etc). You will determine the appropriate career path that is best suited to your interests, knowledge, skills and abilities. This course will also offer graduate school and/or professional training preparation.

SW 227  
HUMAN GROWTH AND AGING  
Undergraduate  
As we progress through life and its stages, we realize and experience the fact the human body is biologically changing, growing and aging. This course provides a study of the basic structure and functions of the human body, its anatomy and physiology. With this foundation, age-related characteristics and some dysfunctions associated with the aging process are studied. Students will apply learned theoretical principles by using their own bodies and examination of preserved materials in the laboratory experiments to explore and assess anatomy and body functions as they apply to age related changes.

SW 228  
ENVIRONMENTAL SCIENCE  
Undergraduate  
Africa has some of the most valuable environmental resources in the world. But it is also experiencing some of the greatest environmental tragedies. Everyone is affected by the degradation of the land, the destruction of forests, the loss of biodiversity and the pollution of air, water and food. The poor and marginalized are the most vulnerable to these problems. Justice and peace are impossible without healthy, sustainable environmental policies and practices. Everyone ministering in the contemporary Church and society must understand and address these environmental challenges. This course will help students learn how to interpret contemporary scientific information about the environmental issues that impact every aspect of life in Africa. They will examine gender and cultural issues that relate to environmental problems. They will also critique potential solutions to environmental problems. Through this course, therefore, students will develop and demonstrate their competence to describe and explain connections among diverse aspects of nature and to understand the scientific and social dimensions of an environmental issue.

SW 229  
BUSINESS AND WAR FROM A COGNITIVE SCIENCE PERSPECTIVE  
Undergraduate  
This course will use principles from Cognitive Science to investigate the causes and effects of American military and economic policies. With reference to pertinent aspects of psychological, neurological, and philosophical motivations for human decisions on strategies related to war and trade, and in view of historical patterns of societal behavior in these areas, a systematic effort will be made to ascertain America's self-image and the forces driving our cooperative and adversarial relationships with other nations. Students in this course will be required to participate through selected readings, brief reports on those readings, and class discussions. Each student will choose a specific topic of interest for individualized study, which will entail research and writing for an academic paper, a class presentation, and an effort to publish the work on one of a number of selected websites. A strong emphasis will be placed on the use of currently popular and freely available video and audio software to present findings. Students will learn how to use presentation software, edit video and audio files, convert presentation files to other formats, and upload results to the Internet.
SW 230
UNDERSTANDING AND APPLYING PROJECT MANAGEMENT
Undergraduate
Project Management is a very important business discipline that can become very complicated. There are numerous Project Management methodologies, and all of them share the same basic steps and tools. The purpose of this course is to demystify Project Management by presenting its basic framework and tools. The course translates Project Management theory into a practical and effective methodology the student will be able to apply on the job. Starting with working definitions of Project and Project Management, the course describes how projects are initiated, evaluated and organized with analytic techniques such as discounted cash flow and PERT/CPM. Project execution and control are covered next, along with the documentation and communications skills that are needed to keep a project on track. The course concludes with an overview of Project Management applied to computer software development.

SW 231
URBAN DIRT
Undergraduate
This is a course designed for the student who desires to know the difference, complexity, and the diversity between soil and dirt. The benefit of learning about soils is multi-fold: understanding the Earth, understanding how and where your food grows, gardening, impact on water quality, and most of all understanding your role in improving overall environmental quality and sustainability. In addition, this class will offer introductory knowledge of soils and its dynamism. Although learning soils can be very scientific, there are several social and artistic views of soils. If you ever wanted to know why soils are various colors, various fertility, uses, mapping, home to various organisms, then this is the course to take. Understanding the complexities of soil, will aid in understanding Earths and its intricacy.

SW 232
DIMENSIONS OF AGING: CHANGING IDENTITIES
Undergraduate
Living longer provides us many opportunities and challenges. Our parents, our relatives, our friends and ourselves are all involved in aging. This is a journey that we all take without much planning or preparation. We will explore many facets and perspectives on aging to deepen our understanding and empathy and enable our own plan. Students will examine the aging process from many perspectives, including social, psychological, economic, physical, and health. We will identify and analyze our attitudes toward aging. Through reading, lectures, guest speakers, interviews and personal planning we will: - analyze and evaluate broad societal and specific cultural attitudes toward aging. - evaluate strategies for successful aging and design a personal plan. - develop interviewing and discussion skills around complex and changing identities related to aging.

SW 233
DESIGNING DYNAMIC ORGANIZATIONS - A HOLISTIC VIEW
Undergraduate
In the twenty-first century the business landscape is changing more rapidly than ever before, organizations of every level are facing a myriad of restructuring issues. To meet the emerging needs, organization design is becoming more, not less, important. There is a need for dynamic, reconfigurable organizations that recognize and respond to rapid changes. A well-thought-out organization design empowers and enables employees to work in the highly interdependent, team-oriented environments that typify today's business landscape. Further, the clearer the rationale for the design, the more quickly design decisions can be reassessed and modified to respond to external forces. This course provides business leaders at all levels everything they need to implement positive, progressive change.

SW 234
VIRTUAL PALEONTOLOGY
Undergraduate
Paleontology is the study of fossils which are the remains and traces of past living things. The investigation of fossils is essential to our understanding of how life originated and evolved on earth. Fossils provide us with critical information regarding the character and age of the most significant biological events in earth's history, including: the earliest forms of life, the pivotal development of multi-celled plants and animals, the rise and demise of the dinosaurs, the adaptive diversification of mammals, and the origin of our own species. This course will examine how fossils can be used to decipher ancient patterns of development and change within earth's physical and biological systems, how biodiversity patterns for fossil groups compare to living groups, and how the anatomy of plant, invertebrate, and vertebrate fossil groups evolved in both form and function. Other topics will include: fossil preservation, determining the age of fossils, reconstructing ancient environments and ecosystems, lifestyles of fossils, dinosaurs, mass extinctions and the evolution-creation controversy.
SW 235
YOGA AND WELL-BEING
Undergraduate
The ancient practice of yoga offers a combination of benefits: physical endeavor, relaxation, contemplation and stress reduction. This course will explore the many dimensions of yoga. Class meetings provide time for the practice of yoga movement, focused breathing and meditation, all of which help to reduce stress. Students explore the impact of these practices on body and mind through independent research, reflection and class discussion. As a result of this course, students will learn fundamental yoga movement; identify the impact of yoga on the physical body; explore yoga philosophy; and understand how yoga is one component of well-being.

SW 236
ADVANCED INTERNET
Undergraduate
This course is designed for students who want to move their basic computer skills up to the next level. It addresses more advanced concepts of computer literacy. Students in this course will take their Internet skills to new levels, how to get comfortable surfing the web and how to navigate the flood of information once they find what they're looking for. Students will learn how to enhance effectiveness of search engine, expand their knowledge about other browsers application and general networking concepts, apply the techniques to safeguard against viruses and SPAM and keep computers free from unwanted visitors. Students will find helpful information on the most talked about newcomers to the online world such as social networking sites like Facebook and MySpace, blogging, and downloading media content from YouTube and iTunes, as well as an introduction to the personal email and instruction for safe surfing.

SW 237
ENERGY, CHEMISTRY, AND SOCIETY
Undergraduate
This course is designed to introduce students to the fundamental principles and processes in chemistry that will help in their understanding of energy and the environment, including their interaction with society. Current public issues (e.g., conservation, pollution, energy policy, global climate change, etc.), which covers earth sciences as well as other branches of science, serve as the framework. It integrates significant aspects of the physical sciences, particularly chemistry, with the student’s other studies as well as everyday experiences. This course carefully discusses the impact of our actions on the lifetimes of the current energy resources. The connection between the macroscopic world we experience and world of atoms and molecules will be explored. Sufficient use of quantitative and real chemistry will put the topics on a sound basis for students who have had little mathematical or scientific background.

SW 238
BIOLOGY OF AGING
Undergraduate
Students will explore current and historical understanding of the human aging process, with emphasis on normal versus abnormal changes. Each student will select 1) a body system and 2) a related disorder/abnormality to focus on in anchoring their experiences. In addition, students will complete a project for each competence selected on enrollment.

SW 239
THE BOTANICAL WORLD
Undergraduate
All life is dependent on plants. They are our most precious resource. Our relationship with the plant world encompasses things we take for granted: food, clothes, furniture, musical instruments, medicines, homes and the aesthetic qualities of plants that permeate and refresh the human condition. Recent scientific successes in genetics and biotechnology have made us more aware of what has been done to plants. In this highly interactive course, we will explore these new controversial revelations and the connections between plants and our individual lives. While this is not a laboratory course, we will look at and take apart real plants in and outside the classroom, and even grow some lower plants (molds) at home. There will be one field trip to the Lincoln Park Conservatory and a walk around the Loop (weather permitting).

SW 240
THE SCIENCE OF TRADITIONAL CHINESE MEDICINE
Undergraduate
This is a 10 week, four competence course that explores the science of Oriental Medicine and its system of interconnection to nature and the human body. Students will study Chinese Medicine (CM) theory; investigating this healthcare model that is based on imbalances or blockages in the body leading to illness. They will study CM Five Element theory which connects personal constitution to nature and the elements. Students will explore the system of meridians? or nerves whose interconnectedness generate health in CM. Through processes of self-exploration, written essays and reflection, students will review the sciences of CM theory, pathology, diagnosis and basic applications of the medicine (Acupressure/herbology).
From the oil, coal, and nuclear materials that supply us energy to the metallic minerals and soils that make available building materials, electronics, jewelry and food, modern civilization is dependent on an assortment of non-renewable resources. This course will introduce you to the geologic processes that generate society's principal mineral and energy resources including oil, natural gas, coal, nuclear materials, gold, industrial metals, gems, and soils. We will investigate how geological circumstances result in the geographic distribution and scarcity of mineral and energy resources, the historic interdependence to and competition of societies for these resources, and the geopolitical and economic consequences of resource depletion due to population growth and global industrialization. Topics investigated will include: oil formation and peak oil; coal/natural gas formation and cap and trade policies; nuclear fuels and enviro-statism; gold formation, gold as money, and gold as a cultural artifact; gem formation, crystallography and gem use in jewelry; metallic mineral formation, industrial use, and scarcity trends; soil formation, farming and soil depletion; and the global outlook on mineral and energy resources.

This course sets students loose in the environment of their own kitchens with a number of structured exercises that demonstrate scientific principals first hand. It includes classroom discussion and examination of these principles. Furthermore, students will discuss how cuisine and cooking styles are unique to and important to world cultures and the people who experience them. In addition to attendance and discussion, learners will keep food journals and short final papers or presentations.

This course looks at instructional design in much more depth and the Technology, Training and Human Performance Course. In this course, the student will study what Instructional Design is, how it works, and why it is important in the design of all types of career and educational training. The course will present various models of instructional design, then have the students design actual instructional training modules.

This course will teach students the basic concepts of statistics. Students will investigate topics including descriptive statistics, correlation, normal distributions, probability, sampling distributions and hypothesis testing. By the end of this course, students will able to complete a statistical analysis of datasets using Microsoft Excel as the primary tool. Considerable time will also be devoted to discussing how statistics are used and abused.

This course is designed to provide learning opportunities that derive their unique attributes from a focus on the African continent. We will review definitions of technology and globalization as they apply to emerging African nations. We will study how the general application and use of various technologies have affected the developing countries of Africa from a social, cultural, economic and practical perspective. Technologies to be reviewed include electrification, radio and television, telecommunications, computers, and the Internet. Students will participate in a live video conference with a group of United Nations delegates assigned to committees that oversee technology matters around the world for the purpose of discussing the dispersion of technology. Students must have regular access to the Internet because of research requirements.

This course will be an overview of the main human biological systems in health while highlighting and emphasizing the chief pharmacological agents used to treat common human diseases and pathologies of those systems. Discussion will include pharmacokinetics, drug action mechanisms, side effects, costs, and the role that prevention might play in attempting to minimize drug utilization. The course will include a historical overview of the use of medicine throughout the ages and consider current drug development. Through the use of a textbook, current literature review, discussion and audio visual adjuncts, the course will help to build a foundation for basic understanding of the relationship between healthy human biological systems, pathology development, and how pharmaceutical agents relate to health and disease.
The 20th century has experienced the greatest number and most profound changes of any in our history. From the invention of plastic to the identification of genes, science and the practical application through technology has changed the way we think and perceive our environment. This course will be an overview of some major discoveries that occurred in the past 100 years and how these discoveries have effected society for good or sometimes not so good. We will look at how the work of women and minority scientists has been included/not included into the mainstream.

This course is designed to equip the student with the necessary learning experiences that will enable the student to make informed decisions that affect environmental well-being and environmental sustainability. Learning experiences will include, but not limited to, classroom instruction, groups discussions, and individual research.

The main objective of this course is for students to increase their love and understanding of animals. It will be a fun and interactive course where you will gain a general understanding of the animal kingdom and how animals are classified. You then will be able to identify animals as an individual organism, describe their natural habitat and better understand their role or ecological niche as it relates to its environment. Students will discover the importance of zoos and how they have become leaders in providing the knowledge needed to preserve the natural world. You'll learn what zoos do with that information and how they make a difference with regards environmental issues such as habitat destruction and the importance of species preservation. Students will investigate different zoological institutions and compare how each are unique in their animal collections, the way they support and conduct research, and convey that knowledge to the scientific community and the general public.

This course will provide students with an overview of the history of the Internet and basic marketing strategies as they relate to the Internet and Web 2.0 technologies. Students will learn about how to keep abreast of new technology, how these technologies can be used to market services and products as well as how they can be used to create and maintain social networks for professional use.

Many of the greatest challenges in public health are global. This course uses a multidisciplinary approach to discuss the major underlying determinants of poor health and the relationship between health and political, social and economic development. Drawing upon the sciences, social sciences and humanities, learners will be introduced to the evolution of modern approaches to the setting of global health priorities, the functions and roles of health systems, an overview of current global health practices, and the major institutional players in global health. We will explore the factors shaping the global distribution of disease and their connection with issues of social, economic and political development, as reflected in the Millennium Development Goals. We will also consider the impacts of globalization on health risks and availability of health resources. By engaging in critical assessment and proposing innovative solution ideas, we will develop all four competences offered for this course.

Using scientific reasoning the student will determine how and to what extent the quality of health and life can be altered in varied geographic and personal environments. As a foundation emphasis will be placed scientific method, cellular structure and reproduction and an overview of environmental issues impacting health today. Relationships of the nutrition-digestive and respiratory systems of the human body as environmental portals will be studied. Problem-solving skills will be employed in the manipulation of data. Investigation of norms and the deviations from these norms in selected physiological systems also will be studied.
SW 253
USING STATISTICS
Undergraduate
This course is designed to introduce the basic concepts of descriptive statistics, employ their use in everyday life, and make sense of the data. Students will create statistical analyses of data and learn to make decisions from reports that they produce in Excel. Understanding statistical concepts is emphasized instead of memorization of formulas. Students will learn from group projects how to analyze data using Excel spreadsheets. The course involves participation in discussion, presentation of cases and demonstration of analyses.

SW 254
ENVIRONMENTAL SUSTAINABILITY AND ADVOCACY
Undergraduate
BRIDGE PROGRAM COURSE. This course focuses on the interdisciplinary study of humans, the environment, and their interrelationships. It includes natural resources and processes, growth and change, values, and individual responsibility and civic engagement. It will explore the complex relationship of the individual to urban systems and of urban systems to the world environment. Emphasis will be given to the ecology of metropolitan Chicago, engaging and challenging students to propose and advocate for programs and policies that bring about a more sustainable city --- "What could a sustainable metropolitan Chicago look like? What are you willing to do to achieve that ideal?" Writing assignments and field work, as appropriate to the discipline, are part of the course.

SW 255
BRAIN, MIND AND BEHAVIOR
Undergraduate
Scientists have only recently found means to isolate chemicals of the brain, analyze its electrical systems and try to answer questions such as: How does the brain strike a balance between its genetic blueprint and influences from the environment? Where does it "hold" language? This course explains what science knows and does not know about the human brain. It draws on the most current findings, theories, and applications of brain science. Students will meet for guided discussions and will be given textual material for class activities and independent assignments.

SW 256
USING YOUR COMPUTER創造ively
Undergraduate
Computers, we all have them, we all use them, but do we enjoy them? Our computers do many wonderful things. Understanding what they can do and how they can help us to accomplish our own unique needs are two different levels of understanding. In this course we will explore how to use current programs to save time, enrich presentations, and access the multitude of interesting and useful information and images available literally at our fingertips. Students will explore creative uses of word processing, data bases, Internet searches, and presentation technology to enhance their skills and final products for work, school and pleasure.

SW 258
THE CITY IN THE YEAR 2030
Undergraduate
What will cities be like 25 years from now? The history of cities throughout the world offers clues to this question. This course will explore the theories of leading experts in the field of urban research and prognostication. Students will examine these views in the context of the political system, population trends, and urban economic activity. Recommended strategies to improve the strength of historically great cities will be analyzed and compared. Practical application of concepts utilized in other areas will be evaluated in terms of their potential use in the City of Chicago.

SW 260
DE-CODING HUMAN BEHAVIOR
Undergraduate
This course targets the link between the physical environment and social behavior. Every physical space is also a social space; its organization contains a "code" of responsive behavior for people to understand. We focus on these "codes," and examine the ways they provoke conformity and deviance from individuals and groups. Students are expected to enter the social environment and gather publicly-observable data for analysis in the classroom setting. The ethics of social research, and of an observer's interaction with the environment, are key points of inquiry during the quarter. Students in this course work at a "pre-ethnography" level, and are primed by its conclusion to enter and analyze any social group and its physical surround.
SW 261
EXPLORATIONS IN BIOLOGY
Undergraduate
This course provides an introductory study of organic macromolecules, the cell, genetic activity and the theory of evolution. Throughout the course we will stress the interdependence of the three biological sub-specialties of genetics, ecology and evolution.

SW 262
CHICAGO HOSTS NATO
Undergraduate
In May of 2012, Chicago will host a major world meeting of the North Atlantic Treaty Organization (NATO). The students will explore the history of the military alliance and its current involvement in many countries of the world. In addition, there will be major demonstrations against both organizations. In every city where the meetings have occurred, protestors were a major presence. Thus the students will be exploring and evaluating the major military alliance of the western powers as well as the 8 countries that dominate the other 180 countries of the world. Students will see the relationship between military, and economic power and the ethical issues involved.

SW 263
THE CITY IN NATURE: WRITING THE URBAN LANDSCAPE
Undergraduate
In the 200-year-old tradition of American Nature Writing, its practitioners—from John Muir to Thoreau to Edward Abbey—have been indifferent if not openly hostile to cities. The nature essay has tended to focus on the writer's experience of landscapes where people are not normally resident: deserts, mountains, the deep forests. This focus suggests that nature is out there, and that to feel a part of it, we must leave where we live and go visit it. In this nonfiction writing course, students use the conventional essay to offer an alternative possibility: that we inhabit nature wherever we live, including cities, and that the intersection of nature and culture in urban environments is an important subject for analysis and exposition. To prepare themselves to write their own nature essays, students will read along the extraordinary canon of American nature writing; become familiar with the natural history of their own local environments; keep an urban nature journal; and familiarize themselves with current readings in environmental philosophy and ecopsychology.

SW 264
ANIMALS AND CONTEMPORARY LIFE
Undergraduate
This is a Service Learning, Internship. Students will pursue literature on the historical connections between animals and humans, and will review philosophies concerning treatment of animals. Students will also be exposed to current issues in animal welfare, including a volunteer experience in an animal shelter. In this course, faculty will provide a framework for assessing the roles and condition of animals, particularly domestic animals, in our culture. Assigned readings range from Peter Singer's noted work on animal experimentation Animal Liberation to excerpts from Black Elk Speaks, a Native American treatise on hierarchy and respect for life in American aboriginal culture. Students will pursue their own interests through further readings and commentary.

SW 266
AN APPROACH TO SYSTEM THINKING
Undergraduate
This course provides an introduction to the form of systems thinking called system dynamics. This course introduces the theory and application of the system dynamics modeling approach as it is used to support strategic decision making in complex social systems. It involves the qualitative and quantitative mapping of the relevant system structure (including physical processes, information links and human decision-making) and the simulation of the dynamic consequences of that structure. The aim is both to examine the general modes of behavior that result so as to gain qualitative insights and also to experiment with alternative policies in order to formulate ones which improve behavior. It has three distinctive themes: the concept of information feedback, the use of computer simulation models to explore complex behavior and the need to work with the mental models of relevant system actors (with a view both to drawing on the relevant knowledge and interpretations of the system and to implementing the insights gained from the modeling process). The course deals with all stages of the modeling approach as well as introducing some research topics in the field. Students will use ‘state of the art’ simulation software with a graphical interface (such as STELLA/iThink) and will be expected to work with quantitative computer models. The practical application of system dynamics will be emphasized throughout, using various cases studied from business public-policy making and elsewhere.

SW 267
SPRING WILDFLOWERS
Undergraduate
In this course, students will use photography to make an intimate acquaintance with the earliest spring flowers to become aware of the various woodland ecologies which nurture these species. A manually controlled, adjustable 35mm SLR camera is required for this course and must be brought to the first class. We will make all day Saturday field trips to parks and nature preserves in Michigan, Indiana and Illinois. Students will use field guides, observe and record elements of the environment of each species photographed, and learn the skills of a naturalist. Student photographs and a final paper based on field notes will be evaluated for their quality, accuracy, and detail.
SW 268
WOMEN, NATURE, AND ECOLOGY
Undergraduate
Women and nature have been linked since earliest times. As our ideas about both have changed, so have our ideas of their relationship. Changing conceptions of the body, as part of nature, have impacted our understanding of the mind's functioning, approaches to physical and psychological health, and religious thought. Students will study three models of nature to formulate how each looks at the human relationship to nature, defines sex roles, impacts health, and religious standards. We will use readings and discussion.

SW 269
ENERGY AND HEALTH
Undergraduate
This course will provide a framework for understanding human energy systems, such as digestion and respiration, as regarding current healthcare practices to enhance their effectiveness (dietary approach, manipulation therapies, acupuncture, exercise, and meditation). We will consider connections between social and environmental variables such as constitution, stress, lifestyle, and vital physiological functions. Each class will build on the basic understanding of biological systems in relation to energy through lecture and discussion. We will review literature on various healthcare practices to discern sound approaches and practical applications. Students will cultivate an appreciation for daily health choices that cumulatively affect their health.

SW 270
MAKING STATISTICS WORK
Undergraduate
This highly interactive course will help students understand and use statistics to their advantage at work, and in their lives as informed citizens, consumers, and/or parents. Using examples from daily life and work, students will learn to frame and solve common problems. Despite its scary (or boring) reputation, statistics is at heart a set of very powerful tools for thinking and communicating. With the tools learned in this course, students will be better able to cut through reports at work, weigh the claims of political candidates, drill holes in misleading information, and hammer out the real significance of the news. This is a course for all those who have ever wondered: how likely they are to be hit by lightning, whether they are “normal,” what percentage of the population really elects the President, or what the odds are of winning the Lottery.

SW 271
CHEMICALS IN THE ENVIRONMENT
Undergraduate
Confusion and controversy permeate the discussion of the role man-made chemicals play in the environment. This course will provide an understanding of some basic principles of chemistry, so students can evaluate current environmental issues in their communities, and in the press. A major emphasis will be on the total picture: benefits, costs, risks, and hazards associated with common man-made chemicals. We will follow the chemicals from their manufacture through their use and ultimate disposal. Demonstrations, discussions, readings, and reports will stimulate the student to critically evaluate the impact a group of chemicals has on the quality of our lives, and on the ecosystem.

SW 274
IMPACTS OF VARIED ENVIRONMENTS ON HEALTH
Undergraduate
Using scientific reasoning, the student will determine how and to what extent the quality of health and life can be altered in varied geographic and personal environments. The physiological relationships of the nutrition-digestive, and respiratory systems of the human body will be studied in depth as systems susceptible to negative environmental influences. Use of mathematics and problem-solving skills will be employed in the manipulation of data in the investigation of norms and the deviations from these norms in selected physiological systems. Students will be actively involved in the learning process. Class activities will include lecture, laboratory group projects (including examination of preserved materials), videos, readings and manipulations of data.
SW 275
BODY, MIND, SPIRIT: YOGA AND MEDITATION
Undergraduate
Why are 20 million Americans practicing yoga? This course answers that question with an introduction to yoga and meditation techniques and the underlying scientific and philosophical principles of the system of yoga. The first half of each class will be experiential, conducted as a yoga and meditation class for beginners, providing tools to reduce stress, focus the mind, and cultivate inner peace. This first hour and a half will use yoga postures, breathing exercises, and meditation techniques. The second half of each class will use readings, reflection, and discussion to examine the scientific and philosophical knowledge of yoga as a way to ease stress, strengthen the bone and muscle structures, lower blood pressure, increase flexibility and strength, improve mind functioning, and provide spiritual sustenance. We will read Yoga Mind Body and Spirit: A Return to Wholeness by Donna Farhi, and the The Yoga Sutras of Patanjali, research articles on the scientific studies of yoga’s benefits from journals and websites, etc. Each student will keep weekly reflection journal observations on the changes (s)he notices in himself or herself. This course will refresh, relax, rejuvenate. Yoga mats and other props will be provided. Bring/wear comfortable clothes (no jeans, belts, dresses). This is a Gentle Yoga class for beginners. Yoga means to unite or yoke so course will explore the ways to unite body, mind, spirit. This course is designed to 1) help establish good health and well-being; 2) gain scientific knowledge and understanding of the various systems of the human body; and 3) explore the spiritual benefits of meditation.

SW 278
BIOMEDICAL ASPECTS OF STRESS
Undergraduate
As many as 93% of disease are now believed to be related to stress. This astounding figure underscores the importance of understanding the various aspects of stress, particularly the biological dimensions. The links among perceptions, personality type, brain chemistry, and the endocrine and cardiovascular functions are becoming increasingly well established. More recently, links between our immune system and the activities of the brain are helping us to recognize the truly integrated functions of our bodies in ways which will have very important impacts on our conceptions of health and disease. Students will develop an understanding of stress and stressors, the relationship of stress and the General Adaptation Syndrome as a focal point for applying this information. Exploration of individual differences in stress responses and stress-management techniques will provide a platform for synthesizing information on a personal basis and for analyzing environment/biological interactions.

SW 280
GROWTH AND DECLINE: A DEMOGRAPHIC PUZZLE
Undergraduate
The search for balance between economic goals and environmental concerns is an ongoing struggle faced by communities, states, and countries throughout the world. The successes and failures of population and environmental planning will be reviewed in both an historical and a theoretical context. Students will explore issues involved in establishing vital and healthy places to work and live. Through lecture-discussions, readings, films, and independent research, the relationships among population, public services, corporate growth and development, and environmental regulations will be examined. Students will select an area for study and formulate their own demographic and planning strategies.

SW 281
ALASKA
Undergraduate
From the mid-century push for statehood and the 1960’s fight for Native land rights, through the pipeline boom of the 1970’s and the economic bust of the 1980’s, Alaska’s recent history has been tumultuous and presents an ideal context for exploring the challenges of resource development. Many of the controversies which have recently divided Alaska result from the complex relationship between rights of indigenous people and development of the state’s rich natural resources.

SW 282
NUTRITION BASICS AND BEYOND
Undergraduate
This introductory course will provide a framework for understanding the fundamentals of nutrition, vitamins and minerals, nutrition and disease prevention, food labeling, nutrition through the life cycle, weight management and more. Each class will build upon the basics by exploring current issues and research related to specific topics. Throughout the course, students will begin to separate information from misinformation as well as gain practical knowledge to incorporate into day to day life.
SW 283
SOCIETIES IN TRANSITION: ERITREA AND ETHIOPIA
Undergraduate
Throughout the world, societies are changing as former political and economic structures are supplanted by emerging democratic systems. SNL has developed travel-study courses under the general title "Societies in Transition" as a way of introducing adult learners to these dramatic changes and as a means of allowing them to experience rich and diverse histories, new cultures, and extraordinary physical environments. Emergent Eritrea: Independence Along the Red Sea is the first in the series to focus on the Horn of Africa, a region of significant geopolitical importance. This course provides students first hand exposure to Eritrea, one of Africa's newest nations, during its critical phase of postwar reconstruction and modernization. Our exploration of the geographic features, ecology and natural resources of Eritrea will elucidate the environmental challenges facing the inhabitants of this sub-Saharan region. Students will have the opportunity to meet with individuals from many sectors of this society, including artisans, teachers, Eritrean students, government officials, freedom fighters, priests, members of the women's federation, and business owners.

SW 285
PRECALCULUS
Undergraduate
The purpose of this course is to continue to develop the student's logical, pattern recognition, organizational, and algebraic skills. The goals are to prepare the student to deal with the increasing mathematical nature of life's problems and to prepare the student for a possible future calculus courses. The course will rely heavily on the interactive approach. Examples will be studied to introduce theory and applications. Discussion and questions will be encouraged. Homework will be recommended and discussed, and the student will do problems in class.

SW 286
SEXUAL HEALTH
Undergraduate
We will study the male/female anatomy and physiology, and its dysfunction like impotency and infertility. We will discuss how these dysfunctions affect normal sexual function, how sexually transmitted diseases are identified and avoided. Emphasis will be on healthy and safe sexual physiological function. We will explore sexual development throughout the life cycle from adolescence, middle age to maturity and how these biological changes impact our sexual health. The learning experience will include lectures, discussions, and expert speakers from the field.

SW 287
ROCKET TO THE STARS 2000: SPACE FLIGHT IN FILM SOCIETY
Undergraduate
This course explores the impact of space flight in the 20th century. We have witnessed development of space flight, and have extended our reach beyond the surface of our planet. Outer space has provided a host of new discoveries that have revolutionized our understanding of ourselves, the universe, and our significance within it. It has also created serious social, economic, and political repercussions for our society. Culturally, Space has also been a kind of blank screen upon which we project our aspirations, our fears, and our speculations. We will examine how popular film has also fashioned our hopes, our fears, and reflected our thoughts about space flight.

SW 288
DESIGNER LIVING: RELATING WORK AND LIVING TO HEALTH
Undergraduate
Creating a balanced lifestyle is coming to be seen as the core of preventive medicine and holistic approaches to health. In this course, students will create a self-care program comprising diaphragmatic breathing, the relaxation response, pacing, exercise, and a balanced diet. In class, focus will be placed on such issues as reappraising our concept of work and leisure, the impact of belief-systems on human biology, and the influence of our concept of time and of light on the human body.

SW 289
MAKING MULTIMEDIA BUSINESS PRESENTATIONS
Undergraduate
This course will instruct the student in the use of popular multimedia software for the development of professional-quality business presentations. Training will be provided in the areas of video and audio editing, graphics enhancement, slideshow creation, and moviemaking. Students will demonstrate their work through in-class presentations and via the internet. The primary focus of each student's multimedia presentation will be the impact of technology on the current state of the U.S. economy. Each student will select and research a specific issue related to technology and finance, prepare a professional-quality video, and present the results of his/her work in class.
SW 290
CONCEPTS IN MATHEMATICS
Undergraduate
This course will focus on interpreting numerical data and problem-solving using basic mathematical tools. Selected topics from branches of mathematics will be reviewed, including: probability, statistics, charts, graphs, linear equations, and solving word problems through basic algebra. Methods will include lectures, hands-on applications, small group problem-solving, quizzes, and research.

SW 291
HISTORY OF LIFE ON EARTH
Undergraduate
The study of fossils, the remains and traces of past living things, is essential for understanding and reconstructing the history of life on earth. Fossils provide us with critical information regarding the character and age of the most significant biological events in earth's history including the earliest forms of life, the pivotal development of multi-celled plants and animals, the rise, success, and demise of the dinosaurs, the diversification of the mammals, and the origins of our own species. In this course, you will explore how fossils and scientific reasoning are integrated to discern the complex history of life on earth. You will also evaluate the impact the discovery and recognition of earth's fossil record has had on society over the last several hundred years such as the position of humans among other species and the corresponding creation-evolution debate.

SW 292
EXPLORING EARTH’S PHYSICAL FEATURES
Undergraduate
From majestic mountains and volcanoes, to expansive oceans and scenic plateaus and canyons, the landforms of Earth are diverse and awe-inspiring. In this course, you will explore the character, distribution and evolution of landforms as they reflect millions of years of complex change involving both the Earth's surface and internal processes. Upon completion of this course you will have an essential understanding of earth's landforms, their geologic history and the physical and chemical processes that sculpt them. You will be able to explain connections between earth's physical features, natural resource distribution, and the quality of human life. Principal topics covered will include: plate tectonics, earthquakes, erosion and weathering, sedimentation, rock types, mountains, volcanoes, plateaus, coasts, the plains, deserts, glaciation, and the economics of earth's physical features. Particular emphasis will be placed on understanding the evolution of earth's geologic features using specific landform examples from North America and elsewhere.

SW 293
AGING REASON
Undergraduate
Reasoning, like human life, comes in layers that need to be unravelled if we are to make sense of it. As Bernard Shaw put it, “Reason makes a good servant but a bad master” That may come as a surprising thought to those of us brought up to think that everything desirable and true is scientific and science is based on reason. This course will examine the maturing of the reasoning processes employed in science, the mechanisms or methodologies used to validate data, namely the development of scientific reasoning in the Western hemisphere from naive realism through logical positivism to Popperian falsification. This will help us to clarify the status of the data that we use or write about. It will also examine the maturing of the biological processes of the human being, the mechanisms of aging, including modern research experience demonstrating the way in which underlying assumptions can influence both reasoning about and experience of biological aging processes. Class presentation and discussion backed up by library-based reading. In class, we will focus on the key concepts of paradigms in science and religion, in youth and aging and the way in which basic assumptions influence perception, behavior, and experience.

SW 294
GLOBAL ENVIRONMENTAL CHANGE
Undergraduate
Many ongoing changes in the natural environment are so extensive in scale that scientists consider them a threat to sustaining a reasonable quality of life for humans worldwide. Examples of issues of particular and urgent concern are: the rapid changes in the chemistry of the atmosphere that can alter the earth’s prevailing climate patterns; the amount of pollutants in the oceans that can breach essential parts of the food chain; the consumption or contamination of natural resources, such as minerals for industrial use, petroleum, groundwater, and agriculturally important soils and; the spatial reduction of terrestrial biomes with corresponding extinctions of organisms. In this course, we will review and analyze the recent earth science research on these and other global change issues in order to assess their relative importance for the human community. We will also examine and evaluate how human activities can have direct and causal relationships to specific adverse global environmental changes. Additional topics that will be addressed include emerging theories of sustainable development, ecological (“Green”) economics, and environmental laws. Through readings, discussions, lectures, and original inquiry, students will be introduced to the principal global environmental change issues. Students will select one issue for more detailed analysis and utilize the course learning experience to formulate a plan for personal, governmental, and/or global action to address an environmental problem.
SW 295
SUCCESSFUL INTERVIEWING
Undergraduate
Interviewing “the process of asking and answering questions” is a part of everyday experience. This course introduces and explores the fundamental principles, theories and techniques of interviewing including the interpersonal communication process, common types of interviews, interview structure, questions and responses. Through collaborative and experiential learning activities, students will prepare for and participate in all aspects of the interview process as the interviewer and interviewee.

SW 296
A BIOLOGICAL APPROACH TO VIOLENCE
Undergraduate
There is a significant difference of opinion concerning aggressive or violent human behavior. Is it a social response to an environment of poverty and other psychological phenomena? Or can it be explained in terms of a biochemical syndrome consistent with scientific data and therefore remediable with psychoactive drugs? In this course, students will be introduced to normal brain anatomy and biochemistry and the technologies that have helped us understand cerebral function. We will examine literature in the biological, medical, and psychological sciences in an effort to develop and demonstrate critical reading and analytic skills of both scientific and pseudoscientific material. We will explore the relative contributions of environment and biology to understanding aggressive and violent behavior as well as potential modifiers of the same.

SW 297
WRITING THE EARTH
Undergraduate
In this course, students will learn creative writing while exploring geologic history. Geology is the window into history of the earth and all the organisms that have lived and died here. Every work in quarries, road cuts, or pebbles on a beach carries part of the earth’s story. Students will learn to read rocks and open the book of the earth history. There, one can find the drama of evolution and mass extinction, the violent uplift of mountains and their slow erosion into plains, the crashing of seas flooding the continents and the drying of sediments abandoned as the seas recede, the first steps of an ape that would be human and the changes that made all of us from that beginning. Earth history is filled with drama, with actual adventure, and light romance, and grim catastrophe. Factual writing alone cannot communicate the emotions we feel as we experience earth’s own poetry. For that, we need the depth and energy of creative expression. In this course, students will learn the basics of reading rocks and explore earth history for themselves. They will also learn to communicate their experience to others through creative writing in fiction, essays, or poetry. Regular class meetings will be held with full day field trips. Class time will be divided between the explorations of geologic concepts and creative writing. Geologic concepts will be introduced through readings, discussion, and hands-on experience with real rocks. Creative writing will be introduced through readings, discussions, and writing exercises. Most of the writing exercises for each class will be based on student’s hands-on experience in that class.

SW 298
EXPLORING THE INTERNET
Undergraduate
In this introductory-level course, you will develop a broad knowledge of the Internet technology and understand how it can be useful to personal and work life. The class will be “hands on” and you will learn how to access Internet applications and use them. We will discuss the history of the Internet, getting connected to the Internet, and the various functions used on the Internet. We will also create websites, focusing on their design.

SW 299
MATTERS OF SCIENCE
Undergraduate
One set of laws describes all motion. All matter is made of atoms (actually quarks and leptons!). Stars live and die like everything else. All life is based on the same genetic code. These basic ideas of science and their application to technology are the focus of this course and they offer you what will probably be a new way of thinking about science. If you can get excited about recognizing and discovering what lies behind many everyday encounters with the world around you -- and some not so everyday as well -- just for the enjoyment of learning about them and how they work, this course may be the way to put capstones on your Physical World competencies. This will be a course unlike any other you have experienced -- you will be learning on an independent study basis but also interacting and exchanging ideas with others in a virtual classroom located on the Internet. Through your research in response to questions and pursuit of independent projects, guidance by a primary text, other readings and the instructor, the fruits of your classmates’ efforts, and the unexpected that can come from (written) conversation, this course will touch on the roots of most scientific disciplines (e.g. physics, chemistry, astronomy, biology, ecology). It will do so in ways that should help you to see their connections to each other and to various technologies. You will also examine your own problem-solving strategies and various aspects of scientific inquiry. An overall outcome of achieving the competencies of this course will be the development of a scientific literacy to build on in the future. You are invited to visit the course home page: www.depaul.edu/~mfiddler/ms/home.
SW 300
USING THE INTERNET TO PARTICIPATE IN THE INTERNATIONAL COMMUNITY
Undergraduate
This course provides an overview of the structure and work of the international community that revolves around the United Nations and the growing role of citizen advocacy (nonprofit) organizations in Chicago and around the world. Chicago hosts the second largest number of nonprofit organizations in the country.

SW 315
ENVIRONMENTAL ETHICS AND SUSTAINABILITY
Undergraduate
This experiential class focuses on readings from Leopold's A Sand County Almanac, including his important essay, "Thinking Like a Mountain" as well as readings from John Muir, who grew up in nearby Portage, Wisconsin. Students will visit the Leopold Center, the world's greenest building, as well as the famous' shack where Leopold lived and wrote. They will also tour the Crane Foundation, which works with endangered waterbirds around the world. A visit to one of America's largest farmers' markets, followed by a sustainable lunch at a Wisconsin restaurant, will provide ideas on how Leopold's philosophy can be brought into daily life. During the class, students will reside at Holy Wisdom, a retreat center with a restored prairie in Madison. The area to be visited is unique in the Midwest. Most of the prairieland in the region was formed when vast glaciers crushed the land flat during various Ice Ages in the past. But a small area of southwestern Wisconsin, northwestern Illinois, and eastern Minnesota were never glaciated. There, the hill-and-stream erosion of more than 400,000 years has led to a quite different environment than the surrounding area. Called the "Driftless Area" (because there was no glacial "drift" or dust), the region is famously scenic and was home to the great American architect Frank Lloyd Wright, whose designs reflect the landscape of the region. As the course will be held in autumn, we may anticipate beautiful colors in the deciduous forests.

SW 316
RISE OF THE MAMMALS
Undergraduate
The modern world is dominated by mammals. Mammals have evolved, adapted and currently thrive in tremendously diverse habitats, including the oceans, lakes, rivers, tropical and temperate forests, mountain regions, caves, deserts, grasslands, the arctic tundra and polar regions. How did mammals become so diverse on the planet? Why did they remain small and relatively insignificant for the first two-thirds of their extraordinary 200 million year history? Where and when did modern mammal groups originate? What does the fossil record indicate about the character and timing of human physical and behavioral evolution? In this course, we will explore the extensive fossil record of mammals in order to gain insights to these and other questions concerning the history of this critically important animal group. Through discussions, readings, lectures, labs, examination of fossil specimens, original inquiry, analysis of museum exhibits, and application of scientific reasoning, students will be introduced to the fossil record of mammals and its critical role in establishing patterns of mammalian evolution and historical biogeography. Topics will include: fossil preservation; determining the age of fossil mammals; the transition from reptiles to mammals; Mesozoic mammals; the rise of mammals and extinction of large dinosaurs; evaluating the ecology of ancient mammals; and, the origins and diversification of modern mammal groups. Particular emphasis will be placed on examining the fossil record of primates leading to Homo sapiens and relating ancient mammal biodiversity patterns to current mammal extinction concerns.

SW 317
BODY SCAN: PRACTICAL ANATOMY AND YOUR ENVIRONMENT
Undergraduate
We are confronted daily with a barrage of physical challenges to our body - particularly, our musculoskeletal system. This we experience as pain and altered or loss of function: headaches, backaches, muscle spasms, pinched nerves, etc. When assessing the physical ramifications of stress and strain, an understanding of basic anatomy in the context of our environmental issues (i.e., work, exercise) and the process of aging, is key to making positive choices and changes. In this course, students will utilize a text/workbook, clinical case histories, presentation of a research topic, and class discussions.

SW 318
THE UNIVERSE, SCIENCE, AND THE QUEST FOR UNDERSTANDING
Undergraduate
Astronomy, one of the oldest sciences, links our wonder at the beauty of the night sky, and our quest for meaning, and practical necessities such as navigation and communications. Students will discover in a playful, conceptual, and generally non-mathematical way how science, with intuition, inspiration, and logic helps us to understand our most basic questions: how are the stars made, how is the stuff that we are made of produced, where is the universe headed, and what lies at the end of time? Learning in class will be achieved by a combination of readings, discussion, observational exercises, with one field trip to a major scientific site.
SW 319
ENCOUNTERING UNCERTAINTY AND CHANGE
Undergraduate
Ambiguity, confusion, doubt -- these seem to be synonyms for uncertainty. But the word has had a special meaning since quantum physicist Werner Heisenberg articulated the Uncertainty Principle more than 50 years ago. What effect does an observer have on an event? Can we accurately judge two things at once? How does the decision what to analyze effect the outcome of the analysis? These are some of the questions which the Uncertainty Principle poses. This course explores the revolutionary change from mechanistic science to relativity and quantum theory. The challenge of Uncertainty in the arts and social sciences will also be considered. Finally, the role which Uncertainty plays in our lives will be explored. This course will involve selected readings, including nonmathematical explanations of Heisenberg’s work as well as application of his theory to other disciplines. Videos and films will provide other texts for examination. Classroom work will include thought experiments, small-group interaction, and nongraded writing; tour of Fermilab particle accelerator will be required.

SW 320
CHAOS AND COMPLEXITY
Undergraduate
Chaos: the word is often used to indicate a state of utter disorder. Yet dynamical systems theory -- the science of chaos -- suggests that the connection between chaos and order is not a simple opposition. Chaos may, in fact, be the seed-bed for emergent order. This course examines theories of chaos and the connected theories of complexity, both in terms of scientific applications and as metaphors for the creative process. Students will develop a solid grounding in the development and current state of chaos/complexity theory. Several media, together with simple experimentation, will be used to study fractal geometry, entropy and negentropy, and thermodynamics. After this grounding, students will have the opportunity to analyze their own creative process in terms of the principles of chaos and complexity.

SW 321
BIOLOGY AS DESTINY: GENETICS AND THE RE-MAKING OF HUMANKIND
Undergraduate
From scholarly conferences which debate the site of the “gene for criminality” to mass-appeal treatises on IQ such as The Bell Curve, contemporary biological research is “turning up the heat” on the long-simmering “nature vs. nurture” controversy. The question of whether we are determined by our biology or are products of our culture is once again on the center stage of public concern. Moreover, it seems the very definition of ourselves as unique organisms is under assault. From transplanting the organs of other species into humans, test-tube babies, ans surrogate mothers - to genetic testing, DNA fingerprinting, and sex selecting - from cloning to engineering super-humans: these are but a small sample of the disturbing potential suggested by biology’s current “tinkering with life.” This course explores the intermingling of biological theories and methods, political ideologies, and social dynamics found in research such as the project to map the human genome. Primarily through lecture, we will first establish a basic knowledge of current genetics. On that basis, through discussion and class exercises, we will explore the history and present status of the shifting definition of “human nature” We will be interested particularly in how the scientific and social processes involved are influenced by class, race, culture, and gender considerations.

SW 322
EVOLUTION: A HISTORY OF CONTROVERSY
Undergraduate
The biological universe is wondrously complex and diverse. Evolutionary biologists study the processes that brought about that diversity and complexity. Evolutionary theory attempts to answer many questions. What are the different kinds of organisms? Why are there these kinds of organisms and not others? By what mechanisms do new kinds appear or old kinds change? What is a biologic species? Why do some organisms have sex while others do not? The history of evolutionary thought is a history of controversies in evolutionary thought. We will examine the evidence and arguments on all sides of a question and we will discover how that evidence and those arguments changed through time. Through lecture, readings, and hands-on activities, students will be introduced to form and content of major evolutionary debates. Through class discussion and short position papers, students will argue their opinions on these debates from the point of view of their selected competencies. Students will be expected to complete an exploratory visit to the Field Museum as a homework assignment. The Internet is a lively resource for any course on evolution. In this class, students will gain some Internet literacy as they search for sources and view newsgroup debates. They may even correspond with some of today’s evolutionary thinkers. We will also have a pass-word-protected newsgroup for private class discussion.

SW 323
EARTH SCIENCE AND THE HUMAN FUTURE
Undergraduate
This course is rooted in the scientific investigation of the earth, its elements and history, with an eye toward patterns leading to probable future changes. The learning experience includes current literature in relevant disciplines, journal writing and an outdoor lab component.
SW 324
THE BUSINESS OF ENERGY
Undergraduate
In this class we will be discussing some of the history of electrical power generation and regulations that formed the way the business developed in the United States. We will review environmental regulations and their effect on the electrical power generation business today. We will evaluate the deregulation of the electrical generation business and discuss the facts, the pro and cons and current events occurring throughout the United States. Finally, the students will be challenged to propose solutions to avoid energy shortages in the future.

SW 325
THROUGH THE EYES OF THE SCIENTISTS: THE EVOLVING UNIVERSE
Undergraduate
Science appears daunting, but few subjects are as exciting and dramatic as the ageless story of the human mind challenging itself to figure out something altogether new about our evolving universe. Through rich and varied original writings of the greatest scientific thinkers, we will explore some of the most remarkable milestones and breakthroughs in scientific thought from physics to paleontology. Famous scientific personalities will come to life in their vivid explanations of astonishing insights and experiences of discovery in their memoirs and biographies. We will glean understanding into the adventure of the creative process by looking through the eyes of the scientist and ponder the paradoxes, mystery and beauty of human life and what it means to be human. We will emphasize both the contrasts and continuity of scientific thought between the ancient and modern eras, and proceed from the premise that science is inspired by simple wonder and curiosity about the universe of life. By asking "why?", we will live science in its purest form, for each answer only sparks new questions and allows us to take the words of Einstein to heart: "The important thing is not to stop questioning. Curiosity has its own reason for existing. Never lose a holy curiosity."

SW 326
ENERGY: WHAT IT IS AND HOW WE USE IT EVERY DAY
Undergraduate
Energy: what is it? Many of us take it for granted without understanding it. We typically use up to three different forms of energy dozens of times a day. Where does it come from? How do we use it? Because it is so interwoven into our daily lives, we need to be aware of how we use energy and the consequences. This course will explore these ideas while laying the foundation for basic understanding of energy in our daily lives. Topics covered will include what energy is, the different ways we consume it, the technologies behind the different ways we use energy, including different fuels, energy conversion, electricity, nuclear power, energy from water, wind power, and solar energy. Finally, we'll take a look to the future and discuss resources, costs and prices, and alternatives. Demonstrations and mini lab sessions will be included to offer students direct experience with forms of energy.

SW 327
WEB SITE DESIGN FOR ELEMENTARY SCHOOLS
Undergraduate
In this web page design course, students will design a web site for a Catholic elementary school as a service learning project in a collaboration between SNL and the Office of Catholic Education, Chicago. Depending on the size of the school, two students may volunteer to collaborate on one school or work alone. Students will meet for seven to eight classes and allocate time to meet with their school representative the other two to three classes. These meetings do not have to be traditional class time but can be scheduled at the convenience of the student and school representative. Students will receive material from their school representative that includes text and images and will collaborate with the school representative in designing the web site. Class time will include editing images, scanning, inserting sound clips and evaluating school web pages. Students must know inserting formatted text, links, tables and targets. Because of the skill level required for this project, students must apply for and be approved by the instructor before course registration. Applicants must have successfully passed the Internet Technology and Its Applications course or have significant experience in fundamentals of web page design.

SW 328
INFECTIOUS DISEASE: A GLOBAL CHALLENGE
Undergraduate
In 1967 the United States Surgeon General announced that it was "time to close the book on infectious disease". Antibiotics had been introduced in the 1940’s, there was an ever-lengthening list of diseases for which immunization was available, and many world health officials imagined a future free of infectious diseases. Yet, as we begin the twenty-first century, infectious diseases are still the leading cause of death in the world. Why? How do we begin to understand the emergence of AIDS, Ebola virus, Lyme disease or Hantavirus? How can we explain the worldwide reemergence of tuberculosis, a disease that had come close to being relegated to history books? In this online course we will seek answers as we study the nature of microbes and the complex, often interrelated factors that contribute to their ability to challenge us even as we pit our science and technologies against them. We will examine such factors as population growth, urbanization, ecological disruption, human migration and antibiotic misuse. In 1996 the Director-General of the World Health Organization announced, "We stand on the brink of a global crisis in infectious diseases." Clearly the book on infectious disease is still wide open, and we will read some of its pages.
SW 329
DATABASE DEVELOPMENT FOR MANAGING INFORMATION
Undergraduate
Using MS Office tools suite (in particular Access), this course takes students through the entire process for building a database system that will be used to capture, store and present information. In addition to database concepts like designs, reports and SQL queries, the students will discuss and analyze relationships between technology and society.

SW 330
THE LIVING BIOSPHERE: A NEW LOOK AT LIFE ON EARTH
Undergraduate
This course will expose students to nature's dynamic synergy through a variety of integrative learning techniques using modern technology, videos, group projects and provocative readings. Students will develop a strong understanding of Gaia theory and its place in contemporary natural science. This theory, proposed by the English chemist, James E. Lovelock, conceptualizes the earth as a large nesting, interactive system of life, soil, atmosphere and ocean. Earth is assumed to be a breathing biosphere; a symbiotic world. This course presents radical and cutting-edge views of life on earth for learners' discussion, reflection and critique.

SW 331
BIRDS IN THE ENVIRONMENT: ORNITHOLOGY
Undergraduate
Does habitat and biodiversity loss pertain to cities like Chicago? Could species and habitats still exist in urban areas, which are so different from jungle and ocean? The answer to both questions is yes when we look at seasonal bird migration. Birds have migrated to and from nesting and breeding sites for thousands of years. They can travel from pole to pole, not only passing through our backyards, but even staying and nesting there. The goal of our class is to experience birds and habitat that are unique to this area and to study their relationship to humans. This relationship puts birds in peril by forcing them into concentrated, small patches of habitat yet shows signs of hope in the form of protecting habitats such as our forest preserves and restoring habitats such as the Midewin prairie. Participants should expect to work in the field.

SW 332
VIRTUAL BIODIVERSITY: EXAMINING LIFE ON EARTH
Undergraduate
The exploration and measurement of the amount of genetic, species, and ecological variation on earth is emerging as one of science's and society's most important and urgent endeavors. Scientific efforts to study earth's biodiversity have intensified because of our growing appreciation of the role human population growth and urbanization play in accelerating the extinction of plant and animal species through the destruction of critical habitats. Since life on earth has been diversifying for at least 3.8 billion years, but most of the biodiversity that once existed (as much as 99%) has been lost to extinction processes, we will focus on exploring what are "normal" levels of extinction on earth. Central questions addressed in this course are: How is the security of humanity dependent on biological diversity? Is a mass extinction event currently in progress on earth? Do we have an obligation to future generations to keep life on the planet as diverse as possible? Students will be introduced to major biodiversity issues through discussions, readings, lectures, labs, and original inquiry. Students are required to participate in a self-directed fieldtrip to a biological reserve and to develop a detailed research paper on a biodiversity issue of their choice structured in a scientific format. This course will employ a great variety of online biodiversity resources available at institutional websites. Subjects of the course will include: different views the biosphere; biodiversity trends in earth's fossil record; the value of and human dependence on biodiversity; biodiversity at risk; policies, economics, and technology to protect biodiversity.

SW 333
THE HUMAN GENOME PROJECT
Undergraduate
This course presents a basic understanding of genetic principles necessary to discuss the impact on society of the Human Genome Project. Classical genetics, from its inception as a discipline, held that every organism's genetic makeup was conditioned primarily by environmental factors. Darwin summarized this by claiming that environmental pressures produced organisms whose genetic makeup ensured survival in a particular environment (the survival of the fittest). Contemporary genetics, however, is entering a new era in which both the environment and genetic technologies share in the mission of modifying an organism's genetic makeup. The project of sequencing the human genome has enabled scientists for the first time to identify health-related genes and, based on this, to design new treatments for age-old diseases. At the same time, the Human Genome Project, and genetic research based on it, is raising ethical concerns for the way genetic knowledge will impact health care into the 21st century. Genomics, as the new discipline is being called, explores this complex but fascinating world of cutting-edge genetic research. It is this very world that we will explore in our class setting through a variety of methods including laboratory investigations, class discussions, and student presentations. You may register for up to three competencies.
SW 334
EVERYDAY CHEMISTRY
Undergraduate
Each day we are immersed in chemicals and are participants in and observers of many chemical reactions. This course is designed to teach chemistry and physical science through the observation and explanation of many events we observe in daily life. It has been specially planned for students who have little or no background in science. We will examine the chemistry of substances from table salt and food additives, to fuels for our cars and homes, to semiconductors, new plastics, and revolutionary materials that will improve our lives in the 21st century. This class will emphasize the interconnections in our world through science. We will address safety and the “positive” and “negative” impact of chemicals on our world. There is a chemistry kit required for this course, so that you can perform the experiments safely at home.

SW 335
USING THE INTERNET TO ENHANCE YOUR CAREER
Undergraduate
The Internet has radically expanded the options available to people looking for employment and the alternatives available to employers looking for people. These new options are available for the most part only to people who know how to use the PC, who understand the internet, and who can capitalize on the bewildering array of resources in this new medium. This course will focus on how to make effective use of electronic media to manage and enhance your career. Students will participate in both individual and group exercises designed to sharpen their web-based research, networking, personal marketing, and communication skills.

SW 336
CONTEMPORARY COMPUTING
Undergraduate
The twentieth century not only brought us the dawn of the Information Age, but continued to bring us rapid changes in information technology. All computer systems and applications will change over time. As business requirement change and new techniques are implemented, computers and applications will need changes to keep pace. As we begin the 21st century, computer literacy will undoubtedly become prerequisite in whatever career a student chooses. In this course, we will enhance your knowledge of Microsoft Office software applications. The class consist of some lecture and mostly computer Lab activities. We will expand your knowledge and skills required for communicating and moving information electronically by introducing you to application shortcuts and seldom used features. We will also gain an appreciation for the effect of information technology on people. The framework of this course is based on the use of Microsoft Office.

SW 337
THE HUMAN GENOME AND ITS IMPACT
Undergraduate
This course will address the principles of genetics with an emphasis on the genetic code of the human genome. In this course we will examine: how the genetic code is stored, how it is used, how it is evolving, how it is passed from one generation to the next, the consequences of genetic code errors, the medical, technological, legal and ethical issues associated with the human genome. We will discuss how we can, and how we should, use the information on the human genome.

SW 338
ANCIENT WISDOM VERSUS MODERN SCIENCE
Undergraduate
In ancient times, science and philosophy were one and the same. Our contemporary views of nature and the scientific method are relatively late additions to the world's bank of knowledge. In this class, students will explore how thinkers in older societies make sense of nature. Systems to be examined include mythological approaches to explaining the natural world, and ancient laws derived from Anthropology, Archeology, Astronomy and the theories of Quantum Physics. Students may take this course for only one competence.

SW 339
USING TECHNOLOGY AT THE WORKPLACE
Undergraduate
This course concerns the effective use of microcomputer technology for working professionals, business analysts, project administrators, and support specialists. The course utilizes a project-oriented approach to achieving computer software proficiency in a PC environment, using word processing, spreadsheets, databases, e-mail, and Internet applications. Students will analyze real-world situations, identify underlying issues and possible solutions, and apply best use of technology and available resources to accomplish tasks and goals. Students should have a basic familiarity with the use of microcomputers in a Windows environment.
SW 341
ECOLOGY OF PERSONAL LIFE
Undergraduate
Today, global climate change is threatening human society. Sometimes incorrectly called "global warming," these shifts in the earth's weather systems have been tied to the burning of fossil fuels in industrialized countries like the United States. But we have to drive to work, don't we? We need to heat our homes, don't we? Besides, what difference does one person make? This course considers the way that human life is connected to the world around us. It also provides an opportunity to see how you might make changes in response to growing concern over global climate change. The course does not propound one solution over another. Rather, it encourages you to become aware of ecological issues and to determine your own answers to the questions they raise. In this class, you will learn to assess the effect of personal choices on the earth and be introduced to other possible choices.

SW 342
INTERNET SECURITY AT HOME AND AT WORK
Undergraduate
The objective of this course is to provide a basic understanding of Information Technology security. It will address technology in detail approach for both home and work protection. This course will provide an overview of the objectives of security and a framework for understanding fundamentals which should be in place for an Information Technology setting to achieve an adequate security level.

SW 343
SYSTEMS IN BIOLOGY
Undergraduate
What is human biology? What are cellular functions? Homeostasis? How, precisely, does the human being work? In this course, students will examine how biological systems work together to create a functional human. Each week, students look at a different human biological system, will examine the basic cellular makeup/anatomy of that system as well as the general functioning of that system, and then will apply that information to overall health issues.

SW 344
THE INTERNET
Undergraduate
In this course, students will be introduced to the world of the Internet. Students will develop some knowledge of internet technology and how it can be useful in personal and work life. Items to be discussed include Internet history, getting connected, and such functions as email, browsing and search engines.

SW 345
CREATING PRESENTATIONS IN POWERPOINT, WORD, AND PUBLISHER
Undergraduate
As the workplace becomes increasingly sophisticated, more and more companies expect employees to create attractive PowerPoint presentations, use Publisher to create flyers, brochures and newsletters, and create attractive Word documents. In this course, students will learn design skills in creating work and classroom presentations using PowerPoint, Word and Publisher. Students are encouraged to use course materials from other classes and/or from the workplace and format these materials in PowerPoint, Word and Publisher. Students can then present these projects in other classes and at the workplace but are not required to do so. This course utilizes a project-oriented approach to achieving skills in presentation software. Students will analyze real-world situations, identify appropriate software solutions and apply the best software to accomplish tasks and goals.

SW 346
WHAT IS SCIENCE?
Undergraduate
What comes to mind when you think about science and technology? Do they seem mysterious, incomprehensible and yet powerful? Could science and the machines it creates both benefit some and harm others? In the best sense, science is about asking questions and continually questioning itself. It is considered a systematic, precise, objective way to study the natural world. Yet if science attempts to be neutral and unbiased in its approach, its results historically leave us with a bitter irony. One example is nuclear energy, it gives us terrible power to destroy and creates extremely harmful radioactive waste yet thru modern medicine using nuclear equipment, also has saved many lives and eliminated suffering. Our daily lives are governed by scientific and technological systems run by experts. Foresters know how to plant trees, but not how to establish conditions under which villagers in developing countries can manage natural forests for themselves. Engineers know how to develop technologies that benefit industries, but not how to persuade factories from polluting. How much do we really know about the definition of science and its influence on our culture? Did pre-farming cultures use science as a way of understanding their role in the world or is science a phenomenon of modern cultures? In this course, students will examine through critical thinking the nature and history of science and its effects on the future. Students will also address issues in conflicting global views of the use and abuse of technology and developing methods of sharing, controlling, and monitoring our scientific output.
SW 347
ENVIRONMENTAL ETHICS: HUMAN VALUES, CULTURE AND THE ENVIRONMENT
Undergraduate
For thousands of years, humans, from the time they were able to make the first tools to the production of nuclear technologies, have changed
and in many cases radically altered their environment. Their perceptions (values and culture) with respect to the human relationship (and or
responsibility) to the environmental spaces in which they lived and or the global commons (like space and the oceans) for the benefit of their
current or future society has been critical in influencing the way in which the integrity of the environment and global commons has been
impacted. This course will provide a survey of various environmental ethics that have emerged during human history among Western and
non-Western cultures; and how these divergent environmental ethics have shaped and influenced not only planetary but space ecosystems.
This course will also examine the consequences of environmental ethics on past current and future human societies from economic, political,
social and environmental health perspectives. This course is an excellent elective for business, education, religion, sociology/anthropology and
science/engineering focus area who seek to understand the foundations and ramifications of human ethics, values and culture on decisions
and policies which impact the global environment (or ecosystems).

SW 348
NATURE WRITING
Undergraduate
Observation is the beginning of science. It is also the beginning of the process of writing. This class is designed to encourage you to observe
the natural world and to write clearly about it. Thus you will be simultaneously strengthening your observational skills and your expressive
skills. You will observe a single natural setting over the course of a quarter, writing short prose pieces that follow specific guidelines. Some
of these pieces will be posted on the class website for those outside the class to read, thus providing you with an experience of online
publication. Basic skills in grammar and punctuation are assumed; although it is not a prerequisite, you will find it helpful to have completed
College Writing before you start this class.

SW 349
RELATIONSHIPS BETWEEN PLANT AND HUMAN LIFE
Undergraduate
The purpose of this course is to increase student's awareness and understanding of plant structure, function and diversity, and to help
students discover past, current and potential future uses of plants. This course uses Ethnobotany to help students understand how the
scientific process leads to new understandings about how our world works and how it can aid us in understanding ways we use science in our
lives. Specific learning objectives of the course are to understand and appreciate: (1) plant structure and function and the relationship
between the two, (2) plant adaptations and how these adaptations affect the distribution and abundance of plants in nature, (3) the diversity
of plants and the ways in which botanists group plants, (4) the way that science contributes to our understandings of how the world works
and informs our decisions of how we want our society to be. Note: This course is also being offered to traditional-age Barat students. Dr.
Berchiolli is an experienced SNL instructor who uses methods of instruction most conducive to adult students. SNL students will attend the first
five weeks only.

SW 350
CAPSTONE SEMINAR: PHYSICAL WORLD
Undergraduate
Capstone Seminar is designed to permit students to explore a topic as a group integrating various methods of inquiry. Pre-99 students will
address one set of capstone competencies of their choice. Specific assessment and evaluation criteria as well as learning activities will be
articulated by the instructor for a particular section of the course. Successful completion of Research Seminar is required to register.

SW 352
TECHNOLOGY, TRAINING, AND HUMAN PERFORMANCE
Undergraduate
What Robinson & Robinson describe as “the shift from providing training to improving performance” has been cited as a top priority in our
fast-paced, global economy. This course covers the principles of training and human performance through an analysis of real case studies in
a number of work environments. The course will also present the necessary technology and instructional design tools so that students can
design their own training program and develop a basic training and performance plan that reflects their own work environments. I will
presume that students enrolling in the course have basic computer skills, including the ability to use and save work with Microsoft Word.

SW 353
THE CREATIVE BRAIN
Undergraduate
While brain structure and function can seem daunting, exploring this organ from the perspective of creative output gives learners a non-
threatening frame of reference to which all can relate. Learners will look into traditional and contemporary theories of both creativity and brain
versus mind, as well as how creativity is perceived in society.
SW 354
INTEGRATING MS OFFICE APPLICATIONS FOR REPORT WRITING
Undergraduate
Students will use an array of Microsoft applications and the Internet to set up a marketing conference spanning several days. They will create documents and solve problems using multiple applications to complete these tasks more efficiently.

SW 355
COMPUTERS AND SOCIETY
Undergraduate
This course explores how computing technologies such as computer software, hardware, and networking have affected our society. You will examine the basics of how these technologies work and how they have affected areas of human endeavors. We will examine how these technologies changed, improved, simplified and complicated society.

SW 356
DATABASE DESIGN AND IMPLEMENTATION FOR SMALL BUSINESS APPLICATIONS
Undergraduate
This course will teach non-computer literate persons to be able to translate a business problem into a conceptual database design, and further to convert the design into a database application using Microsoft Access. By the end of the course, the student should be able to apply knowledge to the following: (1) describing basic database concepts and using common database terminologies; (2) designing databases using appropriate designing notations; (3) translating a schema into a database application in Access; (4) conducting simple user-interface design; and (5) designing small business-based applications.

SW 357
URBAN GEOGRAPHY: THE STUDY OF CITIES
Undergraduate
Course topics include the following: early settlement patterns, their political and social development; transportation mechanisms and their impact on concentrated centers of population; consumerism and trade; locational factors for settlements; neighborhood development, from ghettos to gentrification; urban planning issues; ethnic diversity, poverty and social planning; the built environment of structures; modes of communication with respect to technology, its impact on the global population; comparisons /contrasts of contemporary development between global world cities and American cities.

SW 358
INTRODUCTION TO SPREADSHEETS
Undergraduate
This is an introductory course will use Excel. Topics include spreadsheet basics, formatting and printing, formulas and functions, charting, and data management. No prior knowledge of spreadsheet software is required; however, students are expected to have a working knowledge of Windows. Upon successful completion of this course, students will be able to do the following: create an test spreadsheets using Microsoft Excel; explain and use functions, create pie, bar, column, and line graphs; explain and use linking and embedding; use clip art to add visual interest to a spreadsheet; and explain and use data management capabilities such as data forms, query, filter, subtotals, sort, and pivot tables.

SW 359
EVERYDAY BIOMEDICAL ETHICS
Undergraduate
Right, wrong. Sometimes right, rarely wrong" Wrong for children, right for women" Biomedical issues are in the news almost every day, and often it's hard to understand what to think, even less how to think, about their ethical implications. Some ethical issues have a long history and substantial background, while others are so new that even ethical experts struggle. How can a non-expert intelligently read and understand what's published?

SW 360
SOCIETY AND INFORMATION TECHNOLOGIES
Undergraduate
Humans have a long line of technological advances that includes tools, weapons, transportation, mechanical, industrial, and medical advances. On one hand, the computer is just another invention that is part of this long line of technological advances. On the other hand, the ability to program the computer makes it different with an incredible diversity of uses. Computer technology has made large impacts in diverse areas such as sports management, health care, employment, manufacturing, education, defense, and automobiles and many other areas. This course explores how computing technologies such as computer software and hardware, and networking has affected our society. Students will examine the basics of how these technologies work and how they have affected areas of human endeavors. We will examine how these technologies changed, improved, simplified and complicated society.
Microsoft Office is the most ubiquitous application suite in personal computing. There is little Office cannot do, from document creation and editing, e-mail and scheduling, spreadsheet and database management, desktop publishing, image editing and even Web design. In this course, we will explore several component applications of Office, focusing on word processor Word, spreadsheet Excel and presentation software PowerPoint, with the goal of developing facility with each application individually and using an integrated approach.

This course will look at instructional design in much more depth than the Technology, Training and Human Performance Course. In this course, the student will study what Instructional Design is, how it works, and why it is important in the design of all types of career and educational training. The course will present various models of instructional design, then have the students design actual instructional training modules.

Yoga is an ancient system of spiritual development and transformation. In the process of spiritual development the practitioner of Yoga acquires a wide array of physical and psychological benefits that improves health and well being. Yoga and meditation (meditation is a branch of Yoga) has been demonstrated to be effective in relieving stress, treating anxiety and depression, preventing and healing injuries and improving the functioning of children with special needs. The Science of Yoga will explore the positive physical and psychological benefits of Yoga from a scientific perspective. We will examine scientific studies that have been done on the effects of Yoga and meditation to gain an understanding of why this system of spirituality has become an increasingly integral part of modern health and fitness practice. The ancient origins and philosophical foundations of Yoga will be evaluated in the context of modern understanding of physiological and psychological processes. Students in this class will practice Yoga and meditation techniques and keep a journal of the effects that they experience. They will compare their experiences with the data from scientific studies. Students will also share and compare their experiences from practicing Yoga and meditation with their classmates.

Students will explore the contributions of women scientists through recorded history, the essence and importance of their work, the social world in which they worked and their contemporaries, and the challenges they faced at various times in history. Each student will select a scientist about whom he or she will develop a final project, to include: biographical data, a synopsis of the scientist's socioeconomic and political world, description of her work and how it affected contemporary understanding of the world. Also, students will work in teams to find and present initiatives undertaken since 1945 to encourage involvement of women in science, math and technology fields.

This is an introductory course in the field of addiction studies. In this course we will examine the relationship between drugs and behavior, the personal and social concerns of drug-taking behavior and how drugs work in the body and mind. Legal and legally restricted drugs as well as medical drugs will be discussed. We will also cover issues of prevention, treatment and education. By the end of this course students will understand (1) the differences between use, abuse and addiction to drugs; (2) the extent of substance abuse in the United States today; (3) the legal, social and cultural ramifications of substance abuse; (4) methods of treatment and prevention of substance abuse; (5) major classifications of addictive substances; and (6) how drugs work in mind and body. This course will be a mix of lecture, discussion, videos and other supplemental materials. In addition to their competence papers, students will work in small groups on projects related to addiction and will present their group's findings to the class.
SW 366
EXPRESSIVE ARTS THERAPY
Undergraduate
This course offers a multi-arts approach in which different art modalities are woven into the therapeutic process as appropriate to a client's situation. It is grounded not in any particular techniques or media but in the capacity of the arts to respond to human suffering. Various arts--poetry, movement, drawing, painting, journaling, improvisation, music, and sculpture--are used in a supportive setting to facilitate growth and healing. Expressive arts processes have been used successfully in almost all psychotherapeutic contexts, ranging from work with the severely ill to the facilitation of human growth and potential. There is a growing use of the arts in health education, hospice work, and in community art projects especially after catastrophic events. The class will be conducted in a workshop format in which theoretical content will be combined with experiential learning. Lecture, discussion, audio-visual presentation, experiential exercise, guest speakers, and field trips comprise the structure of the class.

SW 367
LEISURE, RECREATION, AND HEALTH
Undergraduate
This course will stimulate your thinking about the meaning of leisure in your life. Leisure today and historically has been central to the human experience. It is an elemental experience, essential to the total well-being of every person; it is a reflection and expression of the cultural values of a society; it is an important vehicle for treatment. Leisure and recreation services are also essential for healthy communities in terms of social climate, environmental quality, and economic stability. Leisure services comprise one of the largest and fastest growing industries in the world, whether measured in dollars spent, persons served, hours of time devoted, or resources used. The study of leisure and recreation is a broad discipline, combining diverse fields of study and professional practice. This course will (1) illustrate the importance of leisure to you and your loved ones, (2) contribute to your ability to become an informed consumer of leisure, (3) question the binary relationship of work and leisure and, (4) teach you how to use leisure to increase emotional and physical health, resulting in a higher quality of life. The course will be interactive and participatory.

SW 368
ADVANCED POWERPOINT AND WORD
Undergraduate
Essential prerequisites: S5 skills in PowerPoint and Word. In this advanced course, students will master higher level skills in PowerPoint and Word and study beginning principles of design. Course skills include organizing content, formatting content, collaborating on documents, and formatting and moving documents. This course will begin with studying the Microsoft Certificate Exams for PowerPoint and Word.

SW 369
CHRONIC ILLNESS: WHEN SOMETHING IS ALWAYS WRONG
Undergraduate
Everyone has either a disorder or a relative with a disorder, but often we focus only on the clinical information that physicians give us, especially since they can't quantify suffering and impact. We would do a bit of applied anatomy, but look at the psychosocial aspects of chronic illness.

SW 370
SEXUAL HEALTH AND DEVELOPMENT
Undergraduate
This course will introduce students to a variety of topics related to human sexuality. The course will begin with a historical view of sexuality and lead to an analysis of current topics in sexuality related to health and physical development, culture and politics. The format of the course will consist of class meetings every other week and attentive participation to the online discussion board in between class sessions. Students will be required to read articles provided by the instructor and discuss them during class and on the course discussion board. The course will be divided into several modules related to sexual and physical health, relationships and gender issues, atypical sexual behavior and the roles of spirituality, culture, media, gender and aging. Students will participate in class presentations and present research on the web board related the competencies taken in the class.
Dinosaurs are one of the most diverse and successful groups of vertebrates in earth's history. Originating over 220 million years ago, they dominated earth's land biomes for over 150 million years and diversified to include the largest land animals in earth's history, a wide range of aquatic groups, and even a diverse clade capable of flight (the birds). Consequently, mammals remained in the background as small nocturnal creatures during the dinosaurs long reign. Only after a cataclysmic extinction event 65 million years ago involving most dinosaurs groups did the mammals diversify into modern groups including our own primate lineage. This course will introduce students to the remarkable dinosaurs, tracking their origin, surveying their success, and evaluating their decline. Learning will emphasize investigation of the forms, function, and variation within the major dinosaur groups as well as the connections of dinosaur evolution to diverse factors such as climate change, ecology, biological competition, and mass extinction. The course learning activities will encompass discussions, readings, lectures, labs, internet resources, museum resources and original inquiry.

In this course, students will be introduced to common computer applications in MS Office: Word, Excel, Power Point, Access and Outlook. Students will also learn how to use browsers as well as learn how to navigate the Web, mark favorite pages, save pages, set options and security levels. We will explore PCs and Mac operating system environments; reviewing their similarities and differences. Finally, we will develop basic technical skills in designing and managing home networks in terms of connections, security, and wireless systems.

Teacher candidates will observe and interact with infants and toddlers (25 clock hours). Appropriate lesson planning and assessment techniques and tools will be emphasized in the seminar. COREQUISITE: SCG 404.

Teacher candidates will observe and interact with young children and their families in programs, related to language and literacy development. A weekly seminar is required.

Candidates will observe and interact with preschool-age children (25 clock hours). Appropriate early childhood curricula, assessment and instructional methodologies will be emphasized. COREQUISITE(S): T&L 407.

Advanced Teacher Candidate Standing is a prerequisite for this class.

Students will observe and interact with and teach primary-age children (25 clock hours). Appropriate curricula, assessment and instructional methodologies for children in the primary grades (K-3) will be emphasized.

Advanced Teacher Candidate Standing is a prerequisite for this class.

This is the first in a sequence of theory and practice courses that serves to familiarize teaching candidates with the world of elementary and middle schools. Through observation and participation in schools, self-reflection, independently created assignments, cooperative learning assignments and classroom discussion, candidates will acquire familiarity with schools and classrooms including: social/cultural context, classroom climate, classroom management, curricular coherence, standards-based instruction, and teacher professional beliefs and practices. Written critical reflections and papers serve as initial foundation for the development of teaching philosophies. COREQUISITES: For T&L EE majors, concurrent enrollment in SCG 403 and T&L 583 is required.
T&L 406
LANGUAGE DEVELOPMENT OF THE YOUNG CHILD
Graduate
This course will focus on the development of language in young children, including techniques and materials for use in assessing and enhancing speech and language development with appreciation for dialectic variations. Emphasis will be on issues relating to second language learners and young children with special needs. PREREQUISITE: SCG 404.

T&L 407
PREPRIMARY PROGRAMS: CURRICULUM AND STRATEGY
Graduate
Students will plan, implement and evaluate activities that promote the physical, emotional, social, spiritual, creative, and cognitive development of preschool children from diverse cultural and socioeconomic backgrounds. Methods of facilitating children's play, individualization through building on children's experiences, learning styles and interests, using technology, and developing learning centers will be emphasized. Assessment practices are incorporated in this experience. PREREQUISITE: SCG 404.

T&L 409
PROFESSIONAL PRACTICE IN ELEMENTARY SCHOOLS
Graduate
This course is an introduction to the professional roles required of elementary school teachers. Students will develop a knowledge-based framework for considering the many factors involved in decision-making in an elementary classroom. This framework will serve to guide students as they create a social studies curriculum unit, which integrates planning skills, teaching strategies, classroom management and evaluation techniques. Daytime clinical hours are required during this course. (Only for Dual Cert majors).

T&L 410
CHILDREN'S LITERATURE AND FAMILY LITERACY
Graduate
This course addresses literacy development in young children and the roles of families and early childhood programs in fostering that development. Strategies for enhancing literacy, such as word play, storytelling, conversations will be provided and all appropriate genres of children's literature will be explored. Finally, the course features appropriate poetry, early books for infants and toddlers, read-aloud materials, and all genres of children's literature for young children.

Advanced Teacher Candidate Standing is a prerequisite for this class.

T&L 411
ASSESSMENT IN EARLY CHILDHOOD SPECIAL EDUCATION
Graduate
Candidates will study, use, and evaluate early childhood assessment methods and tools that are appropriate for young children with diverse learning, cultural, and socioeconomic experiences. Focus of the course is on the teacher candidate's acquisition of knowledge and skill regarding an array of formal and informal assessment instruments and techniques used to gather information needed for making decisions about typical and atypical children served in individual and group learning situations. Focus is directed toward the development of curricular goals and instructional approaches that evolve from the assessment information. Such information is used to create learning plans, including Individualized Family Service Plans (IFSP) and Individualized Education Plans (IEP), serving child and family responsively.

Advanced Teacher Candidate Standing is a prerequisite for this class.

T&L 412
EMERGING READING AND LANGUAGE ARTS
Graduate
This course focuses on the curriculum content and sequence, instructional and assessment strategies as well as considerations integral to the creation of authentic, effective emergent literacy environments and engagements for pre-kindergarten through third grade. Theory and practice principles are woven into course assignments and required field experiences designed to observe, teach, and reflect upon instructional decisions made for individual as well as groups of children. Prevailing curricular and instructional models (e.g., code-based, meaning-oriented, balanced) and their histories are compared and contrasted. The influences of development, home language(s) and dialect(s) (especially those of U.S. metropolitan areas), and educational settings are studied and applied to candidate instructional planning and teaching. Case studies and lesson planning facilitate the application of course content. PREREQUISITE(S): For T&L EE majors prereq is T&L 404 and advanced standing; for T&L ECE majors prereq is T&L 408 or T&L 432 and Advanced Standing. COREQUISITES: For T&L EE majors, concurrent enrollment in T&L 416 and T&L 583 is required.

(T&L 404 or T&L 408) and Advanced Teacher Candidate Standing are prerequisites for this class.
T&L 413  
READING/LANGUAGE ARTS IN THE MIDDLE GRADES  
Graduate  
This course extends Emerging Reading and Language Arts to facilitate increased independence in students as strategic readers and competent writers. It focuses on the further development of reading comprehension and writing abilities in the intermediate grades and middle school. Emphasis is placed on the complex nature of literacy addressing issues such as content-area literacies, learning in and across languages, and critically consuming and producing a wide variety of texts (including online, multimedia and print based). Application of course material is facilitated through fieldwork focusing on the design, teaching, and reflection on literacy lesson(s) for intermediate learners.  
PREREQUISITE(S): T&L 412 and Advanced Standing. COREQUISITES: For T&L EE majors, concurrent enrollment in LSI 446 and T&L 583 in a public school is required.  
T&L 412 and Advanced Teacher Candidate Standing are a prerequisite for this class.

T&L 415  
TEACHING AND LEARNING ELEMENTARY SCHOOL SCIENCE  
Graduate  
This course is an introduction to materials, methods and strategies for helping students in grades K-8 become scientifically literate: ie., to understand the nature of science and its impact on technology and science. Particular attention will be given to theoretical views about how children learn science, the proper use of materials and equipment, the development of scientific thinking, e.g., skills in observing, classifying, collecting, and interpreting data, questioning strategies, and ways to assess student progress. Inquiry based lesson plans and case studies invite application of course content. Daytime field required during this course. PREREQUISITE(S): T&L 409 or T&L 404, & Advanced Standing and for T&L EE majors completed application to student teaching. COREQUISITES: For T&L EE majors, concurrent enrollment in T&L 415 and T&L 584 is required.  
T&L 404 or T&L 409 and Advanced Teacher Candidate Standing are a prerequisite for this class.

T&L 416  
TEACHING AND LEARNING ELEMENTARY SCHOOL MATHEMATICS  
Graduate  
This course is an introduction to materials, processes for developing, and strategies for mathematical literacy in grades K-8. Particular attention will be given to the theoretical views about how children learn mathematics, the proper use of manipulative materials, the development of mathematical thinking, e.g., skills in estimation, pattern recognition, or spatial perception; the use of technology, and ways to assess student progress. Lesson planning, teaching, and critical reflection are an integral component of this course. Clinical hours required. PREREQUISITE(S): T&L 409 or T&L 404 and Advanced Standing. COREQUISITES: For T&L EE majors, concurrent enrollment in T&L 412 and T&L 583 is required.  
T&L 404 or T&L 409 and Advanced Teacher Candidate Standing are a prerequisite for this class.

T&L 418  
LEARNING THROUGH THE ARTS  
Graduate  
This course focuses on the arts (visual art, music, drama and dance) as an integral component of teaching and learning in the elementary school curriculum. Students will explore a variety of art forms and disciplines to develop a critical aesthetic and artistic vocabulary. Students learn to help children utilize artistic media in the exploration and expression of thoughts and feelings. Emphasis is placed on design, construction, and implementation, and assessment of authentic conceptual classroom arts activities that integrate the arts with other classroom curricula. Daytime clinical hours (10) are required during this course. Formerly CDG 418. COREQUISITES: For T&L EE majors, concurrent enrollment in SCG 408 is required.

T&L 419  
CURRICULUM AND STRATEGIES: SOCIAL STUDIES  
Graduate  
This course is an introduction to an integrated view of social studies for engaged citizenship. Thorough the study of strategies (such as concept formation, historical inquiry, role-play, etc), materials (such as primary sources) teacher candidates will learn and apply principles of curricular integration to create curriculum/units that engage elementary learners in the exploration of issues, ideas, and perspectives that impact our world. PREREQUISITE(S): T&L 409 or T&L 404, & Advanced Standing and for T&L EE majors completed application to student teaching. COREQUISITES: For T&L EE majors, concurrent enrollment in T&L 415 and T&L 584 is required.  
Advanced Teacher Candidate Standing is a prerequisite for this class.
T&L 420
MATH AND SCIENCE IN EARLY CHILDHOOD
Graduate
Students will explore theoretical principles, materials, methods, and activities for teaching and integrating mathematics and science in preschool and primary grades. Students will conduct clinical observations and complete individualized teaching assignments. PREREQUISITE(S): SCG 404, T&L 432 and Advanced Standing.

Advanced Teacher Candidate Standing is a prerequisite for this class.

T&L 421
CHILD AND FAMILY IN THE MULTICULTURAL COMMUNITY
Graduate
This course will focus on understanding the diversity of children and families in approaches to development, learning, and disability. It will examine how teachers may provide a curriculum and environments within the context of family and community that honor the families' and communities' beliefs, values, and practices. In addition, ways to develop and maintain productive and collaborative relationships between professionals and families, communities and other professionals across the range of systems are examined. Attention is given to the development of collaborative problem-solving for families with young children who have special needs.

T&L 422
CLASSROOM ASSESSMENT
Graduate
This course focuses on study, use, and evaluation of assessment practices in diverse, K-8 contexts. Assessment is addressed as part of instructional systems, attending to issues including: the appropriate use of standardized measures, formal and informal classroom assessment, portfolio development, as well as reporting to all stakeholders. This course also emphasizes ways of involving students and parents in assessment processes, how to observe and assess children individually and in classroom settings, and the use of numerous technologies as components of a classroom assessment system. PREREQUISITE(S): SCG 403, T&L 404, and one Curriculum and Strategies course (e.g., T&L 412, T&L 413, T&L 415, T&L 416, T&L 418, T&L 419).

Advanced Teacher Candidate Standing is a prerequisite for this class.

T&L 423
UNDERSTANDING YOUNG CHILDREN’S BEHAVIOR
Graduate
This course focuses on understanding children's observable behaviors and environmental and biological factors, that effect young children's behaviors (ages birth through 8). It will provide students with techniques to identify and effectively address negative behaviors in young children through using principles of Applied Behavior Analysis, and Functional Behavior Assessment and Analysis (FBA). General classroom management techniques will also be examined. Students will complete field assignments using FBA in addressing challenging behaviors of a child with or without special needs.

Advanced Teacher Candidate Standing is a prerequisite for this class.

T&L 424
INTRODUCTION TO SECONDARY EDUCATION
Graduate
This course is an introduction to the DePaul Secondary Education program as well as the professional world of secondary school teaching. In this course, candidates develop the knowledge and skills necessary for being a reflective practitioner. Candidates focus on understanding themselves (professional identity) and their behaviors in teaching situations with students in schools. These insights, combined with subject-matter knowledge, guide the development of various course assignments. Candidates will learn how to observe effectively in a school setting, to identify school governance issues, to understand school environment and the current social issues that shape it, and will experience a variety of teaching methods and resources for their future teaching. Candidates will acquire knowledge of important social concepts and theories that affect education, especially as they affect educational change in urban societies. As candidates become aware of differences in individual, ethnic, and cultural group attitudes, values and needs, they also will learn to recognize the complexities of teaching and learning in a pluralistic society. Candidates will be committed to teaching as a responsible professional who acts ethically as well as in a collegial fashion. In addition to class attendance, candidates are required to complete 15 daytime fieldwork hours as part of the course. This course is a prerequisite to T&L 425. It is highly recommended that this course be taken concurrently with SCG 406. NOTE: Course will no longer be offered after Spring 2013.
T&L 425  
CURRICULUM AND INSTRUCTION IN SECONDARY EDUCATION  
Graduate  
This course will examine materials, methods, and techniques appropriate for teaching in secondary schools. Topics include writing instructional objectives, developing lesson plans, designing a curriculum unit, understanding classroom management and assessment related issues. Students will be encouraged to reflect upon their own emerging educational philosophies as well as draw from previous courses they have taken. Students will be given many opportunities for planning, using and evaluating a variety of instructional strategies while preparing and teaching a micro lesson in front of their peers. Students will be committed to teaching as a professional acting responsibly, ethically, and collegially in accordance to Vincentian Personalism. 30 hours Level 1 Field Experience required.

T&L 426  
TEACHING WRITING  
Graduate  
Prepares teacher candidates for teaching writing and composition at the middle and secondary school levels. The course focuses upon methods of teaching composition, examination of literature and research about the composing process, the development of language and reading skills, and the assessment and evaluation of writing. The development of writing curriculums will also be explored. 30 hours Level 2 Field Experience required

T&L 427  
YOUNG EXCEPTIONAL CHILD  
Graduate  
This course introduces students to the field of early childhood special education including the Early Intervention System. Characteristics of infants, toddlers and young children with special needs as well as, methods of working with different disabilities during early years will be explored. Strengths and needs of families of young children with disabilities and collaboration with family members will be emphasized. Students are required to complete field assignments and 15 hours of field experience in a special education setting.

SCG 404 and Advanced Teacher Candidate Standing is a prerequisite for this class.

T&L 428  
TEACHING LITERATURE  
Graduate  
Prepares teacher candidates for teaching literature at the middle and secondary school levels. Examines contemporary issues in the teaching of literature, explores methods of teaching major literary genres, addresses problems of literacy and focuses on the transactional nature of reading and writing. Emphasis on developing a repertoire of ways of teaching literature and a variety of literature curriculums. 30 hours Level 2 Field Experience required.

T&L 425 and Advanced Standing are a prerequisite for this class.

T&L 429  
TEACHING YOUNG ADULT LITERATURE  
Graduate  
This course is devoted to the study of Young Adult Literature: an exciting, emerging field. Issues and ideas to be examined include the following: current debates regarding issues in curriculum and teaching; selecting, reading, evaluating, and teaching young adult literature; cultivation of life-long reading habits and literacy development. Students will become familiar with major writers of young adult literature, read diverse texts, explore major genres, review award winning novels, consider the role of the media, and develop creative projects.

T&L 425 and Advanced Standing are a prerequisite for this class.

T&L 430  
TEACHING LITERACY K-12  
Graduate  
This course provides an overview of the curriculum, instruction, and assessment strategies used in K-12 classrooms to foster and develop students' L1 and L2 literacies. Through guided examination of prevailing theories of language acquisition and development that currently influence classroom practices across the K-12 continuum, this course enables future teachers of world languages to grow in their understanding of the literacy-learning contexts that students will bring to their language classrooms. Issues that emerge in planning and conducting literacy instruction in schools are discussed and deliberated through university classroom experiences as well as required field experiences (15 hours, minimum; level 1). Course participants enjoy multiple opportunities to apply and analyze theories; to observe, critique, and practice instructional strategies; to make informed curricular and instructional decisions; and to use assessment to inform one's planning.
T&L 431
EARLY LANGUAGE AND LITERACY DEVELOPMENT
Graduate
This course will focus on enhancing language development and promoting early literacy in young children. It addresses instruction and assessment of language and literacy skills. Students will learn how family/child and teacher/child interactions promote language and literacy development and learning. Implementation of language and literacy curricula and activities that lead to growth in the key areas of literacy development for preschool and primary aged children will be explored. (Combination of previous T&L 406 and T&L 412).

T&L 432
EARLY CHILDHOOD CURRICULUM STRATEGIES AND PHILOSOPHY (BIRTH-8)
Graduate
Operating from a constructivist curricular perspective that considers individual child and the social learning context, candidates will plan, implement and evaluate activities that promote the physical, emotional, social, spiritual, aesthetic, creative, and cognitive development of young children from diverse cultural and socioeconomic backgrounds. Methods of facilitating children's play; individuation through building on children's experiences, learning styles and interests; using technology and, developing learning centers will be emphasized. A variety of teaching methods and classroom management strategies will be discussed and illustrated, including teacher led instruction and student-centered instruction. Students will be encouraged to reflect upon their own emerging educational philosophies and teaching styles as they take part in laboratory and field experiences. Many opportunities for planning, using and evaluating a variety of teaching methods will be offered. Each student will write at least one teaching unit on a primary social studies theme. Prerequisite: Child Growth and Development: the Early Years, taken concurrently with T&L 402). (Combination of previous T&L 407 and T&L 408)

Advanced Teacher Candidate Standing is a prerequisite for this class.

T&L 433
EARLY CHILDHOOD SPECIAL EDUCATION STRATEGIES
Graduate
This course focuses on a range of curricular and instructional strategies that foster individual abilities and meet the individual learning needs within the contexts of group and individualized instruction in a variety of learning situations: classrooms, community and home environments. Teacher candidates acquire knowledge and skill to develop individual long-term and short-term educational service plans based on knowledge of children's needs and abilities; families' goals, priorities, and concerns for their children; communities; content areas; and early childhood curriculum goals. (Replaced HSC 408).

T&L 434
LITERACY, LITERATURE, & THE YOUNG CHILD
Graduate
This course addresses the phenomenal process of literacy development in young children. Strategies for enhancing literacy through unlocking the phonemic code, acquiring vocabulary, and comprehending oral as well as print messages are emphasized within the context of choosing and using high-quality literature for children from birth through age 8. Curriculum content and sequence, instructional strategies, and assessment processes are interwoven across course assignments and field experiences. The influences of development, home languages and dialects (especially those of U.S. metropolitan areas), and educational settings are studied and applied to candidates' instructional planning and teaching.

SCG 404 and Advanced Standing are a prerequisite for this class.

T&L 436
TEACHING AND LEARNING SECONDARY SCHOOL MATHEMATICS
Graduate
Prepares teacher candidates for teaching mathematics at the middle school and secondary school levels. Examines contemporary issues in teaching mathematics, methods of teaching secondary mathematics, and recent history in mathematics curriculum development of alternative teaching strategies and the implementation of the NCTM Standards. Lesson and unit development, evaluation and classroom management also will be discussed. 30 hours Level 2 Field Experience required.

T&L 425 and Advanced Standing are a prerequisite for this class.
T&L 439
METHODS OF SECONDARY SCIENCE EDUCATION
Graduate
This course is designed to update teachers in the methods of teaching science. This involves reviewing the processes of science, theories of learning, and instructional strategies appropriate to laboratory science. This course also provides an update on the current trends and issues in science education as well as an analysis of successful science curricula programs. 30 hours Level 2 Field Experience required.

T&L 425 and Advanced Standing are a prerequisite for this class.

T&L 440
EARLY CHILDHOOD EDUCATION CROSS-CULTURAL STUDIES
Graduate
The course will discuss the historical, philosophical and cultural foundations of the education of young children in a multicultural society, emphasizing the role of ethnicity in development of young children within the context of families, childcare centers, and educational systems. Topics include: history of immigration and predictions for the future; the effects of population shifts on the education of English Language Learners; the impact of laws, litigation and executive orders on bilingual/English-as-a-Second-Language education; understanding cultural and linguistic differences regarding locating and using educational resources.

T&L 441
EARLY CHILDHOOD METHODS AND MATERIALS FOR ENGLISH LANGUAGE LEARNERS
Graduate
This course will discuss best practices in teaching and learning in ESL and bilingual early childhood classroom contexts. Students will learn about different approaches and methodologies currently used to support the development of listening, speaking, reading and writing in social and academic contexts in learners of English as a second language. Curriculum based-assessment, cultural awareness and self-reflective practice will also be addressed.

T&L 442
EARLY LITERACY DEVELOPMENT AND SECOND LANGUAGE ACQUISITION
Graduate
This course will examine the process of learning and using a second language. Research in second language acquisition (SLA) is multi-disciplinary in nature, reflecting the complexity of language learning and use. Linguistic, psychological and social processes that underlie language(s) learning and use will be introduced and applied to the understanding of this learning in young children. In this course, language acquisition theory concerning relationships between early literacy and oral language development in first and subsequent languages will be addressed.

T&L 443
ASSESSING YOUNG BILINGUAL/ESL LEARNERS
Graduate
This course will focus on the discussion of basic principles and current approaches to assessment of language learning students in ESL. Children's language learning in ESL or language learning of children in EST and bilingual early childhood and early elementary educational settings. The different purposes of process and product assessment tools; authentic and curriculum-based forms of assessment; issues in the assessment of English Language Learners (ELLs); and assessment in academic areas for early elementary ELLs will be explored.

T&L 444
EARLY CHILDHOOD BILINGUAL/ESL PRACTICUM
Graduate
This course will focus on application of the theories in effective teaching practices, and assessment procedures appropriate for young English Language learners. It will emphasize on application of knowledge gained from previous ESL/ELL courses, and demonstration of skills necessary to work collaboratively and effectively with families of young English Language learners. Professional behaviors that respect, value, and support all children's native language and culture will be reinforced.
T&L 449
STANDARD AND CONTENT-BASED METHODS OF TEACHING WORLD LANGUAGES K-12
Graduate
This course prepares candidates to teach world languages at the elementary, middle and secondary school levels consonant with an aligned approach to meeting national and state WLE standards and Common Core standards. It examines the theory and practice of traditional or standard methods of teaching world languages (e.g., communicative approach, natural approach, etc.) with an emphasis on developing alternative, post-method strategies and using diverse resources, as well as on reformulating world languages instruction to integrate subject matter content into the curriculum, including science, social studies, math, fine arts, etc. Engages candidates in understanding and applying the ?Five Cs? - Communication, Cultures, Connections, Comparisons, and Communities outlined in the national standards - toward this end. Lesson and unit development, evaluation/assessment, and classroom management also will be discussed. Issues that emerge in planning and instruction are discussed and deliberated through university classroom experiences as well as required fieldwork (20/15 hours; level 1 in language of certification).

Advanced Teacher Candidate Standing is a prerequisite for this class.

T&L 453
TEACHING HISTORY AND SOCIAL SCIENCE IN SECONDARY SCHOOLS
Graduate
Teaching, History and Social Science in Secondary Schools. Prepares for teaching history and social sciences at the middle and secondary school levels. Examines the nature and purpose of history and social sciences curriculum within secondary schools, the current status of social studies materials and practices, and issues confronting today's secondary social studies teachers. Emphasis on alternative teaching strategies, resources for teaching and learning, teachers' responsibilities in curriculum development and decision-making, and methods and materials for addressing cultural diversity. Lesson and unit development, evaluation and classroom management also will be discussed. 30 hours Level 2 Field Experience required.

T&L 425 and Advanced Standing are a prerequisite for this class.

T&L 455
READINGS IN AMERICAN HISTORY
Graduate
Prepares students for teaching American history at the secondary level. Readings focus on the foundational texts of American history from the colonial era to the late 20th century, with an emphasis on gaining content knowledge and applying it to teaching in the secondary classroom. Class discussions focus on matters of interpretation, evidence, and historiography. Offered during Fall and Summer terms.

T&L 465
ART AND PEDAGOGY
Graduate
This course alongside T&L 466 is intended as a two course sequence each complimenting the other. As T&L 466 explores the source materials and major concepts of visual art's content, T&L 465 focuses on teaching visual art. Building from the content requirements from their program or experience, students will understand how the art studio (content) experiences where ideas are developed translate to the preparation of teaching. Students will do this through multiple curriculum based projects intended to use in their own classrooms, including a 6th - 12th grade general course reader to assist in introducing an art historical overview that influences and connects to general middle and high school studio practices. As students work on these projects, they will continue to reflect on the coursework they have done in the content area as well as watching and learning from classroom teachers and teaching artists in the field. They will contemplate such questions as: "What are the connections among the arts disciplines? How can they be taught together, creating interdisciplinary courses at the middle and high school levels? What are the differences among the arts disciplines and what does this mean for secondary pedagogy? How can teachers use inquiry with their students, making sure they have enough guidance to learn about artists, artistic periods and the nature of how artworks are produced. Site visits required. 30 hours Level 2 Field Experience required.

T&L 425 and Advanced Standing are a prerequisite for this class.
T&L 466  
**TEACHER AS ARTIST**  
*Graduate*

This course builds on the work in T&L 465, which alongside T&L 466 is intended as a two course sequence each complimenting the other. As T&L 465 focuses on the art of teaching the visual arts, T&L 466 explores the source materials and major concepts of visual art content. Historically, artistic movements have shaped and currently identify the theories we use to define our most immediate environment. The major concepts can be connected to the artist studio and to the descriptions some artists make about the studio as a teaching space. In the course students will be introduced to a wide range of artists and their work, artistic movements and the individual artists who use teaching as a medium. How does an emerging artist or pre-service teaching artist draw on the understanding of their own work as a platform to build core principles of pedagogy. What is the link that combines a dynamic studio practice with an inspired methodology for teaching visual art. We will address these questions through creating a visual art teaching curriculum portfolio and writing a reflective artist monograph, produce a final exhibition of their work and work alongside teachers and artists in the field. Site visits are required. 30 hours Level 2 Field Experience required.

T&L 425 and Advanced Standing are a prerequisite for this class.

T&L 480  
**INTERNSHIP WITH INFANTS AND TODDLERS**  
*Graduate*

Candidates conduct 75 hours of intense supervised fieldwork in an infant/toddler center where they are observing and documenting behavior and interactions, planning activities, and assessing development in children ages birth to 3. Candidates will also participate in a twice a quarter, hour and a half, seminar to reflect and discuss aspects of infant/toddler development and care, making connections between theory and practice. Onsite meetings with groups of candidates will be held weekly for supervision and reflection on practice. Co-requisite SCG 404.

T&L 481  
**INTERNSHIP IN PRESCHOOL SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE)**  
*Graduate*

Candidates conduct 75 hours of intense supervised field work in preschool during the winter quarter. The internship is designed for advanced ECE candidates to be taken before student teaching. Candidates taking this internship have either taken ECE 310: Preprimary Programs: Curriculum and Strategy (at the undergraduate level), and T&L 432: ECE Curriculum Strategies and Philosophy (at the graduate level) in a previous quarter, or they are taking these courses as co-requisites with this internship.

T&L 482  
**INTERNSHIP IN PRIMARY SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE)**  
*Graduate*

Candidates conduct 75 hours of intensive supervised field work a primary grade (K-3) during the spring quarter. The internship is designed for advanced ECE candidates to be taken before student teaching. Candidates taking this internship have either taken ECE 311: Curriculum and Instruction in Primary Grades (at the undergraduate level), and T&L 432: ECE Curriculum Strategies and Philosophy (at the graduate level) in a previous quarter, or they are taking these courses as co-requisites with this internship.

T&L 525  
**READING, WRITING, AND COMMUNICATING ACROSS THE CURRICULUM**  
*Graduate*

This course analyzes the relationships among reading, writing, speaking and listening. It encourages middle level and high school teachers in all disciplines to take these interrelationships into account and to plan curricula that include current teaching strategies to enable students to become better readers, writers and thinkers in their various content-areas. This course will also concentrate on group process and its role in effective teaching within and across content-areas. Language use, learning and teaching are considered from a multicultural perspective. 30 hours Level 2 Field Experience required.

T&L 425 and Advanced Standing are a prerequisite for this class.

T&L 565  
**INDEPENDENT STUDY TOPICS**  
*Graduate*

This course is a self directed graduate course in the Visual Arts Education Program. Candidates who consider this course must develop a written proposal for their work and identify professional expectations of this quarter long immersion in advanced study. Candidates may select from a range of possible pursuits from preparing a new body of work or preparing an exhibition to working within a host of selected museums or galleries as an art education intern throughout the city and suburbs. All candidates are required to meet with a faculty member for an initial interview to discuss contact hours, needs and limitations, critique times and locations and the required documentation from the 11 week experience. All proposals must be approved by a faculty member in the program.
T&L 575
WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
Graduate
This course engages students in WLE curriculum development and language program advocacy, creation, and sustainability based on an examination of federal and state WLE history and policies and on a review of national and state standards. Reviews theory and application of curriculum development to world language instructional programs, such as design, scope and sequence, organizational patterns, materials and media, teacher training, parent and community involvement, and evaluation. Principal world language education program models are examined and analyzed in light of WLE history, policy, and standards (20/15 hours; level 1).

T&L 583
FIELD EXPERIENCE LAB
Graduate
This field-based course will facilitate preservice teacher candidates' experiences working in elementary and middle school classrooms. This supervised field experience is an opportunity to apply content and pedagogical knowledge in authentic settings. 24 clock hours are scheduled at school sites and visible during registration though subject to modification based changes in schools' schedules. Students will enroll in this course multiple times during their program across diverse sites and will engage in different activities aligned with concurrent courses. COREQUISITES: For T&L EE majors, T&L 404 and SCG 403; or T&L 412 and T&L 416; or T&L 413 and LSI 446.

T&L 584
PRE-STUDENT TEACHING FIELD EXPERIENCE
Graduate
This field-based experience occurs in teacher candidates' student teaching sites. Scheduling is negotiated between teacher candidate and mentor teacher based on classroom social studies and science content area schedule. This supervised field experience is an opportunity to apply content and pedagogical knowledge as well as gain introductory contextual understandings of student teaching site. For T&L EE majors, completed application to student teaching. COREQUISITES: For T&L EE majors, T&L 419 and T&L 415.

T&L 585
ELEMENTARY STUDENT TEACHING
Graduate
(6 quarter hours) Students will be placed for a minimum of 10 weeks in an elementary school. Seminar will meet once a week, in the participating schools and/or at DePaul. At first, they will focus on issues of immediate concern to student teachers. As the students gain experience the seminar will examine six or eight classroom issues, that is, topics which students have found to be significant on the basis of their experience. These would include such things as assessment, evaluation, classroom management, curriculum planning, and relationships with colleagues. After delineating what the issues are, students would be expected to analyze and discuss readings which relate to the issues. PREREQUISITE(S): Application and approval required. Open only to DePaul student.

T&L 586
ELEMENTARY STUDENT TEACHING SEMINAR
Graduate
(2 credit hours) This course is taken concurrently with T&L 585, Elementary Student Teaching. In this course, students will have opportunities to reflect on their student teaching experience and prepare materials to support their employment searches and career as teachers. COREQUISITE(S): T&L 585

T&L 588
INDEPENDENT STUDY IN TEACHING AND LEARNING
Graduate
PREREQUISITE(S): Permission of instructor, department chair and Associate Dean.

T&L 589
THESIS RESEARCH IN TEACHING AND LEARNING
Graduate
A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself are prolonged beyond the usual time, the program advisor may require the student to register for additional credit. SCG 451 and an approved thesis proposal is a prerequisite for this class.
T&L 590
SECONDARY STUDENT TEACHING
Graduate
(6 credit hours) Students will be placed for a minimum of 10 weeks in a secondary school. Seminar will meet once a week, in the participating schools and/or at DePaul. At first, they will focus on issues of immediate concern to student teachers. As the students gain experience the seminar will examine six or eight classroom issues; that is, topics which students have found to be significant on the basis of their experience. These would have found to be significant on the basis of their experience. These would include such things as assessment, evaluation, classroom management, curriculum planning, and relationships with colleagues. After delineating what the issues are, students would be expected to analyze and discuss readings that relate to the issues. PREREQUISITE(S): Application and approval required. Open only to DePaul student.

T&L 591
SECONDARY STUDENT TEACHING SEMINAR
Graduate
(2 credit hours) This course is taken concurrently with T&L 590, Secondary Student Teaching. In this course, students will have opportunities to reflect on their student teaching experience and prepare materials to support their employment searches and career as teachers. COREQUISITE(S): T&L 590

T&L 592
WORLD LANGUAGES STUDENT TEACHING
Graduate
(6 credit hours) Student teaching is the culminating experience of the World Languages certification program. It is a ten-week, 30-hour/week experience. Students must successfully complete student teaching with a grade of B- or better in a language classroom in which they are seeking certification to teach. The course is taken concurrently with T&L 593, World Languages Seminar. PREREQUISITE(S): Application and approval required. Open only to DePaul student.

T&L 593
WORLD LANGUAGES SEMINAR
Graduate
(2 credit hours) This course is taken concurrently with T&L 592, World Languages Student Teaching. In this course, students will have opportunities to reflect on their student teaching experience and prepare materials to support their employment searches and career as teachers. COREQUISITE(S): T&L 592

T&L 595
EARLY CHILDHOOD STUDENT TEACHING
Graduate
(6 quarter hours) This course requires students to participate in supervised teaching at a cooperating school, five full days per week, for an academic quarter. Part of the teaching will be in a preprimary setting and part will be in a primary setting. Feedback and discussion of issues encountered in student teaching as well as new materials and techniques of student teaching will be included. PREREQUISITE(S): Application and approval required. Open only to DePaul students.

T&L 596
EARLY CHILDHOOD STUDENT TEACHING SEMINAR
Graduate
(2 credit hours) In this seminar, candidates will reflect upon their teaching experiences with young children; collaborate with colleagues and instructor to identify alternative strategies for problematic situations. Candidates will outline ways to maintain strategies for lifelong learning. In addition, candidates will share resume development and job-search strategies. COREQUISITE: T&L 595.

T&L 600
REGISTERED STUDENT IN GOOD STANDING
Graduate
(0 credit hours) Registration is this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.
T&L 611
INDUCTION INTO THE TEACHING PROFESSION: SECONDARY
Graduate
This course is designed to assist first-year secondary teachers to make the transition from student of teaching to teacher. The course creates a bridge between first-year teachers' formal education and the realities of their classrooms. In particular, the course provides assistance with the following: 1) understanding their induction into the profession; 2) analyzing their new educational contexts; 3) actualizing their educational philosophies; 4) developing their pedagogical knowledge; and 5) identifying and making the most of professional support systems within their schools. Prerequisite: Completion of student teaching or practicing teacher. PREREQUISITE(S): T&L 590 or practicing teacher.

T&L 590 is a prerequisite for this class.

T&L 614
INDUCTION INTO THE TEACHING PROFESSION: EARLY CHILDHOOD
Graduate
This course is designed to assist first-year early childhood teachers make the transition from student teaching to teacher. It creates a bridge between first-year teachers' formal education and the realities of their classrooms, providing assistance with: understanding their induction into the profession; analyzing their new educational contexts; actualizing their educational philosophies; developing their pedagogical knowledge; and identifying and making the most of professional support systems within their schools. PREREQUISITE(S): Completion of student teaching or practicing teacher.

T&L 595 is a prerequisite for this course.

T&L 615
SPECIAL TOPICS IN TEACHING AND LEARNING
Graduate
Current issues and problems in education will be discussed. Focus will be current research and best practice. Prerequisite: 30 quarter hours in graduate education.

T&L 625
CANDIDACY CULMINATING PROJECT (STUDENT IN GOOD STANDING)
Graduate
(0 credit hours) Registration in this course is required of all students who are not enrolled in a course but are completing culminating projects for their program of study, including theses, papers, and final portfolios. It provides access to university facilities. Permission of advisor required. Registration limited to three terms. $50 per quarter.

Status as a student in a College of Education Advanced Master's program is a prerequisite for this class.

TCH 320
EXPLORING TEACHING IN THE URBAN HIGH SCHOOL
Undergraduate
(JYEL CREDIT) This course is an invitation to secondary education as a profession, an opportunity for students considering education as a career to explore the reality of teaching and learning a disciplinary content area in a variety of Chicago-area schools. Students will become familiar with different narratives of teaching through teacher and student biographies, testimonials, literature, film, and classroom observations. They will explore the interrelationships between, for example, popular cultural beliefs about schooling; teacher and student identities; and classroom interaction. The instructor will coordinate observations in several classrooms as the basis for intensive, guided reflective work, aimed at supporting students' initial and subsequent efforts of developing identities as disciplinary content educators (25 hours of high school classroom observation required). Course is also an introduction to the TEACH Program. Offered during Fall, Winter, and Spring terms.

TCH 390
CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS
Undergraduate
This course is designed to help students conceptualize issues and opportunities in teaching their disciplinary content to diverse students and in different classroom contexts. Up to ten hours of community-based service/observation required. In this course, students will analyze and reflect on how teaching in their disciplines is informed by diverse cultures of schooling and youth, including the influences of economic, social, cultural, political, gender, and religious factors on schooling, educational policy and opportunity. Students will use disciplinary content to critically and creatively reflect on the teaching of that content in secondary schools. Students will be introduced to issues and ways of presenting essential disciplinary content in ways that engage diverse learners, including learners who have not been served well by formal education. Students will also develop a theory of teaching that emphasizes the intersection of disciplinary content with multicultural perspectives. Offered during Spring term only.
TCH 401
THE NATURE OF SCIENCE
Graduate
This course is an introduction to the TEACH Program, including the College of Education's conceptual framework and teacher dispositions, and to the professional world of secondary school teaching, including the policy bodies and stakeholders that impact teaching. Within this developing understanding of the larger context of secondary education, students will begin to articulate clearly professional identities and the behaviors inherent in those identities, including their impact on student learning. Drawing on previous coursework and their growing understanding of differences in individual, ethnic, and cultural group attitudes, values, and needs, students also will learn to recognize the complexities of teaching and learning in a pluralistic society. Ultimately, students will be committed to teaching as a responsible professional who acts in an ethical and collegial fashion. 25 Level 2 field experience required. Offered during Fall term only.

TCH 411
THE NATURE OF ENGLISH
Graduate
This course is designed to help students to see that the field of English Studies is bigger than the component they probably identify as English (It's Literature, Writing, and Linguistics/Grammar). Students will explore the formation of the discipline up to the current day, focusing on the shifting understanding of ways of reading, writing and thinking about language. They will strive to answer the questions: "What does it mean to be a student of language and literature?" and, "What are the ways of knowing characteristic of English and Writing, Rhetoric, & Discourse majors?" In doing so, students will relate the disciplinary content of their major to their daily lives and interests and to the larger framework of human endeavor and understanding, including identifying its importance to the personal lives of high school students. The course is a prerequisite for TCH 421. Offered during Winter term only.

TCH 412
THE NATURE OF HISTORY AND THE SOCIAL SCIENCES
Graduate
This course builds on students' mathematics understanding by emphasizing the universality of mathematics as a cultural endeavor. In it, students will explore the historical trends in mathematic and how those trends have been taught. Students will understand that, mathematics, at its core, is deductive; however, it also requires intuition. Thus, the course examines the interaction among intuition, experimentation, conjecture, abstraction, and deductive reasoning not only in the classroom but also in the everyday use of mathematics. It also examines the interplay between concrete problem-solving and generalization. Offered during Winter term only.

TCH 413
THE NATURE OF MATHEMATICS
Graduate
This course builds on the content course work students have done in the seven disciplines grouped under the heading "social sciences" (history, political science, geography, sociology, anthropology, economics, and psychology). In this class students will get further exposure to the basic concepts of the social science disciplines and consider the connections as well as differences between them. The course emphasizes how different disciplinary backgrounds lead students to bring different perspectives to their study of social phenomena and helps them see these phenomena from multiple vantage points. The course will employ a case study approach framed around social issues of interest to all seven disciplines (e.g. social control, threats, development, natural disasters). By the end of the course, students will have applied the knowledge and skills of multiple social science disciplines to evaluate social phenomena, considered the relationship and differences between those disciplines, and be prepared to enter TCH 422 where they will apply their content knowledge to inquiry and teaching in the field. Offered during Winter term only.

TCH 414
THE NATURE OF SCIENCE
Graduate
This course is about the nature of science and the interactions between science and society. It will build on the foundation of understandings that students already have about the processes and conventions of science developed through their years as science students to create opportunities for deeper understandings of the beliefs and assumptions inherent to the creation of scientific knowledge. These opportunities will be developed through direct interactions with professional scientists as well as through case studies and readings that illustrate the strengths, limits and pitfalls of the scientific endeavor as well as provide opportunities for students to relate science to their daily lives and interests and to a larger framework of human endeavor and understanding (e.g., relationships among systems of human endeavor including science and technology; relationships among scientific, technological, personal, social and cultural values). Cases will be drawn from different scientific disciplines as well as from modern and historic times. In this way, science students will have a better understanding of what it means to be a scientist and how science interfaces with society. The course is a prerequisite for TCH 424. Offered during Winter term only.
TCH 421
INQUIRY & APPLICATION IN DEVELOPING SECONDARY ENGLISH PEDAGOGY
Graduate
This course builds on TCH 411 by preparing teacher candidates to distinguish between what needs to be taught (content) and how it is taught (pedagogy), with an emphasis on understanding the historical shifts in the teaching of content and how these shifts inform teaching and learning in today's English language arts classrooms. The course also introduces students to methods of inquiry and reflection on content pedagogical knowledge. Student will examine their own educational experience through the lens of the historical trends, focusing on how they learned and what they understood their teachers to be doing. This initial case study will serve as an introduction into case study methods. Students will also develop expertise in one of the three historical trend areas - reading, writing, and language - and examine how the trend has informed teaching and learning and shaped curriculum, pedagogy, and assessment. Students will develop a case study of a practicing teacher using the lens of the historical trend in which they are developing expertise. 25 Level 1 Field Experience hours required. Offered during Spring term.

TCH 411 is a prerequisite for this class.

TCH 422
INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY
Graduate
This course builds on the content knowledge students developed and reinforced in TCH 412. More, it asks them to make the shift from considering how a person prepared in the social sciences analyzes social phenomena to how such a person teaches the social sciences. Students will do this by developing two units of inquiry-based case studies that they could use in their own classrooms. The topics of these case studies will vary from section to section, depending on the needs of the students and expertise of the instructor. Possible topics include the Constitution, the Cold War, slavery, and the Iraq War. As students work on these projects, they will continue to reflect on the course work they have done in the content areas as well as the instruction they see teachers delivering in their field experiences. They will contemplate such questions as: "What are the connections between the social science disciplines? How can they be taught together, creating interdisciplinary courses at the high school level? What are the differences between the social science disciplines and what does this mean for secondary pedagogy? How can teachers use inquiry with their students, making sure they have enough guidance to learn about social events but also the freedom to pursue their interests and make sense of the world on their own terms?" By the end of this course, students through readings and their projects will have advanced their learning about the nature of inquiry, its implementation in the classroom, and the connections and differences between the social science disciplines. 25 Level 1 Field Experience hours required. Offered during Spring term.

TCH 412 is a prerequisite for this class.

TCH 423
INQUIRY & APPLICATION IN DEVELOPING SECONDARY MATHEMATICS PEDAGOGY
Graduate
This course builds on TCH 413 by introducing students to inquiry methods to understand the teaching and learning of mathematics. Students will explore how mathematics has been and is taught by examining major paradigm shifts in mathematics education and the impact those paradigms and shifts have on pedagogical content knowledge, or knowledge of how to teach disciplinary content. Students will use case study methods to look at instructional practices and begin to articulate their own mathematics teaching pedagogy. With the completion of this course, students will have a deeper understanding of mathematical literacy and the barriers to understanding and teaching mathematics, as well as being able to identify what makes an exceptional math teacher who is able to address the needs of all students. 25 Level 1 Field Experience hours required. Offered during Spring term.

TCH 413 is a prerequisite for this class.

TCH 424
INQUIRY & APPLICATION IN DEVELOPING SECONDARY SCIENCE PEDAGOGY
Graduate
Following TCH 414, this course transitions from asking "what does a scientist do?" to a consideration of why science literacy in the general public has been so difficult to achieve. The focusing questions for TCH 424 are: "How do we teach science? What is science literacy? Why is an understanding of science important to the general public? And What are the major obstacles and strategies to achieving science literacy?" The course begins by participants self-reflecting on their own educational experiences that led to their paths in science education: what have been their successful learning strategies, how have teachers influenced their education and what have been successful (and less than successful) classroom instructional strategies? From this, students will begin science classroom observation, discussing their observations with their peers, and speaking with educators about their experiences teaching high school science and about the goals and short-comings of science education. Throughout this process, students will read seminal literature on science literacy and explore cases challenging their notions of the teacher-learner relationship and the relationship between science and society. As a result of this course, students will gain a deeper understanding of scientific literacy and the barriers to understanding and teaching science as well as identify what makes an exceptional science teacher able to prepare both future scientists and a knowledgeable public. 25 Level 1 Field Experience hours required. Offered during Spring term.

TCH 414 is a prerequisite for this class.
TCH 451
RESEARCH METHODS & DISCIPLINARY INQUIRY: ENGLISH
Graduate
This course introduces students to education research methods and discipline-specific research and inquiry. During the first five weeks, the course focuses on basic questions, issues, and theoretical frameworks central to the purpose, conceptualization, conducting, writing, reading and using education research as a means for informing education theory, practice and policy. Candidates will be exposed to the multiple frameworks that inform education research and various methodologies employed in collecting and analyzing data. During the last 6 weeks of the course, the course focuses on research related to the teaching of the English language arts in the middle school and high school and pedagogical content knowledge, including research on teaching and learning, curricula and instructional delivery, assessment, and the relationship of socio-cultural, economic, and language use to teaching and learning disciplinary-specific content. Students will develop and implement small discipline-specific research projects, identifying research questions, conducting a literature search, developing a theoretical framework, and collecting and analyzing data. NOTE: Offered across Fall and Winter terms concurrently with TCH 471 and TCH 481. Register in Fall.

TCH 452
RESEARCH METHODS & DISCIPLINARY INQUIRY: HISTORY AND THE SOCIAL SCIENCES
Graduate
This course introduces students to education research methods and discipline-specific research and inquiry. During the first five weeks, the course focuses on basic questions, issues, and theoretical frameworks central to the purpose, conceptualization, conducting, writing, reading and using education research as a means for informing education theory, practice and policy. Candidates will be exposed to the multiple frameworks that inform education research and various methodologies employed in collecting and analyzing data. During the last 6 weeks of the course, the course focuses on research related to the teaching of history and the social sciences in the middle school and high school and pedagogical content knowledge, including research on teaching and learning, curricula and instructional delivery, assessment, and the relationship of socio-cultural, economic, and language use to teaching and learning disciplinary-specific content. Students will develop and implement small discipline-specific research projects, identifying research questions, conducting a literature search, developing a theoretical framework, and collecting and analyzing data. NOTE: Offered across Fall and Winter terms concurrently with TCH 472 and TCH 482. Register in Fall.

TCH 453
RESEARCH METHODS & DISCIPLINARY INQUIRY: MATHEMATICS
Graduate
This course introduces students to education research methods and discipline-specific research and inquiry. During the first five weeks, the course focuses on basic questions, issues, and theoretical frameworks central to the purpose, conceptualization, conducting, writing, reading and using education research as a means for informing education theory, practice and policy. Candidates will be exposed to the multiple frameworks that inform education research and various methodologies employed in collecting and analyzing data. During the last 6 weeks of the course, the course focuses on research related to the teaching of mathematics in the middle school and high school and pedagogical content knowledge, including research on teaching and learning, curricula and instructional delivery, assessment, and the relationship of socio-cultural, economic, and language use to teaching and learning disciplinary-specific content. Students will develop and implement small discipline-specific research projects, identifying research questions, conducting a literature search, developing a theoretical framework, and collecting and analyzing data. NOTE: Offered across Fall and Winter terms concurrently with TCH 473 and TCH 483. Register in Fall.

TCH 454
RESEARCH METHODS & DISCIPLINARY INQUIRY: SCIENCE
Graduate
This course introduces students to education research methods and discipline-specific research and inquiry. During the first five weeks, the course focuses on basic questions, issues, and theoretical frameworks central to the purpose, conceptualization, conducting, writing, reading and using education research as a means for informing education theory, practice and policy. Candidates will be exposed to the multiple frameworks that inform education research and various methodologies employed in collecting and analyzing data. During the last 6 weeks of the course, the course focuses on research related to the teaching of the sciences in the middle school and high school and pedagogical content knowledge, including research on teaching and learning, curricula and instructional delivery, assessment, and the relationship of socio-cultural, economic, and language use to teaching and learning disciplinary-specific content. Students will develop and implement small discipline-specific research projects, identifying research questions, conducting a literature search, developing a theoretical framework, and collecting and analyzing data. NOTE: Offered across Fall and Winter terms concurrently with TCH 471 and TCH 481. Register in Fall.
TCH 471
TEACHING ENGLISH IN THE HIGH SCHOOL 1
Graduate
This course introduces students to the theoretical and practical issues of teaching the English language arts in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of reading, writing, speaking, and listening skills and sensibilities. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken concurrently with TCH 451 or SCG 451. Offered during Fall term.

TCH 472
TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 1
Graduate
This course introduces students to the theoretical and practical issues of teaching history and the social sciences in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of the basic concepts of the seven social science disciplines. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken concurrently with TCH 452 or SCG 451. Offered during Fall term.

TCH 473
TEACHING MATHEMATICS IN THE HIGH SCHOOL 1
Graduate
This course introduces students to the theoretical and practical issues of teaching mathematics in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of mathematics in all its representations. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken concurrently with TCH 453 or SCG 451. Offered during Fall term.

TCH 474
TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
Graduate
This course introduces students to the theoretical and practical issues of teaching the sciences in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of the different sciences, including biology, chemistry, environmental science, and physics. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken concurrently with TCH 454 or SCG 451. Offered during Fall term.
TCH 481
TEACHING ENGLISH IN THE HIGH SCHOOL 2
Graduate
This course continues students' immersion into the pedagogical content knowledge development and practices that began in TCH 421 and TCH 471. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of reading, writing, speaking, and listening skills and sensibilities, with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in TCH 471, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken concurrently with TCH 451 or SCG 451. Offered during Winter term.

TCH 471 is a prerequisite for this class.

TCH 482
TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 2
Graduate
This course continues students' immersion into the pedagogical content knowledge development and practices that began in TCH 422 and TCH 472. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of the basic concepts of the seven social science disciplines with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in TCH 472, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken concurrently with TCH 452 or SCG 451. Offered during Winter term.

TCH 472 is a prerequisite for this class.

TCH 483
TEACHING MATHEMATICS IN THE HIGH SCHOOL 2
Graduate
This course continues students' immersion into the pedagogical content knowledge development and practices that began in TCH 423 and TCH 473. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of mathematics in all its representations with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in TCH 473, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken concurrently with TCH 453 or SCG 451. Offered during Winter term.

TCH 473 is a prerequisite for this class.
TCH 484
TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
Graduate
This course continues students' immersion into the pedagogical content knowledge development and practices that began in TCH 424 and TCH 474. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of the different sciences, including biology, chemistry, environmental science, and physics with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in TCH 474, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken concurrently with TCH 454 or SCG 451. Offered during Winter term.

TCH 495
ASSESSMENT ISSUES IN SECONDARY EDUCATION
Graduate
This course introduces candidates to theoretical and philosophical issues related to educational assessment. It addresses the range of assessments teachers will encounter in school settings, including individual cognitive and social and emotional assessments; course material, curricula, and disciplinary program assessments; and large scale high-stakes testing. The course provides candidates opportunities to explore student, program, and curricular assessment issues, including assessment methods and tools; standardized, quantitative, and qualitative assessments; formal and informal assessments; formative and summative assessments; integrated, self-, and peer assessments; cultural, social, economic, and language influences on assessments; and issues of reliability and validity in assessment. Offered during Fall, Winter, and Spring terms.

TCH 590
STUDENT TEACHING
Graduate
(6 credit hours) This course is the culminating experience for TEACH Program students and requires 11 weeks of onsite student teaching in a high school content area classroom. The course requires students to be in a high school full-time, participating in both in-class instruction and extra-curricular activities related to the school. PREREQUISITES: Open only to TEACH Program Students; Student teaching application and approval required.

TCH 591
STUDENT TEACHING SEMINAR
Graduate
(2 credit hours) This course must be taken concurrently with TCH 590. The seminar format provides students an opportunity to reflect on their student teaching experiences and to reach back and consider what they have learned in the TCH Program and their next steps as practicing teachers. COREQUISITE(S): TCH 590.

TDC 261
BASIC COMMUNICATION SYSTEMS
Undergraduate
(Formerly TDC 361) Introduction to voice, data, and multi-media network communications fundamentals. Wired, Wireless, and Optical applications in Local, Metropolitan, Wide Area Networks are explored. The overview explains how technical, regulatory, competitive, standardization and cultural factors impact modern network applications. Approved for Scientific Inquiry credit. PREREQUISITE(S): NONE.

TDC 311
COMPUTERS IN TELECOMMUNICATIONS SYSTEMS
Undergraduate
An introduction to computer organizations and operating systems. Computer components and functions, logic circuits, internal processing, multiprogramming, timesharing, memory management, file management, interrupts and I/O peripheral devices. PREREQUISITE(S): CSC211 or CSC261.
TDC 362
PRINCIPLES OF DATA COMMUNICATIONS
Undergraduate
Theory and components of data communication systems, modes, codes, and error detection techniques for data transmission, network protocols and line control procedures, communication carrier facilities and system planning. PREREQUISITE(S): (TDC 311 or CSC373) and (IT 263 or TDC261)

TDC 363
INTRODUCTION TO LOCAL AREA NETWORKS
Undergraduate
Principles of computer networks using LANs as an example. Issues in communications protocols and compatibility. Client-server versus peer-peer software applications. Network operating system services and management of local networks. PREREQUISITE(S): IT 263 OR TDC 261.

TDC 364
VOICE COMMUNICATIONS TECHNOLOGIES
Undergraduate
A detailed study of transmission, signaling and switching systems for facilities-based public and private voice networks. Voice digitization and transmission over circuit-switched and packet-switched infrastructures. Computer telephony integration techniques. Quality of service issues in integrated voice-over-data systems. Course may include laboratory work with PBX lab. PREREQUISITE(S): NONE.

TDC 365
NETWORK INTERCONNECTION TECHNOLOGIES
Undergraduate
A comprehensive study of network interconnection technologies including layer 2 bridges and switches, layer 3 routers and higher-layer gateways. The TCP and IP protocols will be studied in detail, including IP address management and router operations and management along with associated Internet protocols. RIP and OSPF protocols will be considered. Course includes laboratory work with protocol analyzers and router administration. PREREQUISITE(S): IT 263 or TDC 261.

TDC 368
NETWORK PROGRAMMING
Undergraduate
Programming distributed client/server applications; the sockets interface and multitasking issues; client/server models; remote procedure call; examples of applications such as electronic mail and file transfer. PREREQUISITE(S): CSC261 or CSC309.

TDC 369
NETWORK PERFORMANCE ANALYSIS AND DESIGN
Undergraduate
Quantitative foundations of network performance analysis. Probability theory and queueing theory will be developed and applied to problems in LAN performance, traffic engineering, and the analysis of throughput and response time measures for data communications networks. Performance tradeoffs in network design. PREREQUISITE(S): IT223 and MAT151 and TDC365.

TDC 371
WIRELESS COMMUNICATIONS NETWORKS
Undergraduate

TDC 372
DIGITAL ACCESS SERVICES
Undergraduate
A survey of access line technologies used to access Internet and other business network services. Topics will include traditional DS1, DS3 and SONET transport as well as Integrated Services Digital Network (ISDN), Digital Subscriber Line (DSL), Cable Modems, satellite services, Asynchronous Transfer Mode (ATM), and wireless data access methods. PREREQUISITE(S): IT263 or TDC261.
TDC 375  
NETWORK PROTOCOLS  
Undergraduate  

TDC 376  
NETWORK PROJECT  
Undergraduate  
Case study in developing a large network project. Students will work in groups to analyze and design a major network system. PREREQUISITE(S): TDC 365.

TDC 377  
FUNDAMENTALS OF NETWORK SECURITY  
Undergraduate  
Fundamentals of Network security design and implementation. Review of components used in an enterprise security infrastructure including routers, firewalls, security auditing and assessment tools, Virtual Private Networks (VPN) and Intrusion Detection Systems (IDS). The integration of the different components will be studied in detail, including IP addressing, Network Address Translation (NAT), design of firewall rule sets and performance considerations. Course includes laboratory work with routers, firewalls, Virtual Private Networks and security assessment tools. Pre-req: TDC 365.

TDC 378  
INFORMATION STORAGE AND MANAGEMENT  
Undergraduate  
This course provides a comprehensive overview of network-based storage technology and information storage infrastructure. Major topics include the storage architectures, service features, and benefits of Intelligent Storage Systems. Networked storage technologies include fiber channel (FC), based Storage Area Network (SAN), Network Attached Storage (NAS), and IP-SAN. Advanced storage technologies on Content Addressed Storage (CAS), information security, and storage virtualization are also discussed. PREREQUISITE(S): none

TDC 379  
TELECOMMUNICATION AND NETWORK SECURITY PRACTICUM  
Undergraduate  
Design and implementation of telecommunication and network security infrastructure. This laboratory-based class includes the setup of realistic network infrastructure environment using bridges, routers, layer 2/3 switches and servers. Advanced routing infrastructure implementation using OSPF, RIPv2, EIGRP, BGP, multi-homed BGP setups and IGP/EGP redistribution. Network infrastructure hardening using routers and switches. PREREQUISITE(S): TDC 365 or Instructor consent. Good knowledge of TCP/IP is required.

TDC 384  
SCRIPTING FOR NETWORK MANAGEMENT  
Undergraduate  
This is a hands-on course on using script languages to develop practical applications for Network Management. Students will first learn the fundamentals of Linux system and script language(s) for task automation, and use scripts to develop dynamic web sites. After that, the course will cover Simple Network Management Protocol (SNMP), and use Application Programming Interface (API) to automate networks tasks of Fault Management, Configuration Management, Accounting Management, Performance Management, and Security Management (FCAPS). The final project of the course is to develop a dynamic web site with the above five functional areas to manage Linux servers, Ethernet switches and IP routers. Prerequisite: (IT263 or TDC261) and (CSC211 or CSC261).

TDC 390  
TOPICS IN NETWORK TECHNOLOGY  
Undergraduate  
May be repeated for credit. (PREREQUISITE(S): Completion of TDC 363 and TDC 365 or consent of the instructor).

TDC 399  
INDEPENDENT STUDY  
Undergraduate  
Independent study for variable credit. PREREQUISITE(S): Requires approval of faculty advisor and consent of the Dean.
TDC 405
VOICE AND DATA NETWORK FUNDAMENTALS
Graduate
This course provides an introduction to voice and data networking technologies, including public and private voice services, Ethernet and Internet data technologies, network security, business applications and network management. The structure, regulation, and history of the telecom and data network industry will be discussed as well. PREREQUISITE(S): None

TDC 411
INTRODUCTION TO COMPUTER AND NETWORK SYSTEMS
Graduate
This course is an introduction to computer architecture and operating systems with an emphasis on network systems. Topics include computer components and functions, logic circuits, process management, memory management, file management, interrupts and I/O peripheral devices. Students will have several hands-on labs on the Linux environment and learn to write the Shell script for system and network administration. PREREQUISITE(S): None

TDC 413
INTRODUCTION TO LAN AND WAN
Graduate
This course covers the principles of local area network (LAN) and wide area network (WAN) technologies including structured cabling, protocols, network devices, and network operating systems. Students will learn the theories and practices of designing, provisioning, and deploying LAN and WAN in an enterprise environment. Assigned lab exercises involving LAN/WAN configuration and troubleshooting will help reinforce various concepts. PREREQUISITE(S): None

TDC 431
EMERGING WIRELESS AND MOBILITY NETWORKS
Graduate
A study of evolving 2.5, 3rd & 4th Generation Wireless Networks, and disruptive technologies like WiFi(802.11), WiMax, Bluetooth, RFID, Ultra-Wideband and the security implications mobility networks. This course provides a balanced view of the Wireless Industry in transition, through evolving technology, regulation, competition and standards. Students will be better prepared to deal with the rapid changes and seize the opportunities as data mobility impacts traditional telecommunications and private networks. In addition students will have access to extensive Global Wireless Education Consortium materials to support their individual advanced interests. Formerly TDC 531. PREREQUISITE(S): TDC 405

TDC 460
FOUNDATIONS OF NETWORK TECHNOLOGIES
Graduate
An introductory course on network technologies for local and wide area networks. The course examines in detail the core concepts of network architectures, Ethernet systems including wired, wireless, and Metro, virtual local area networks, storage area networks, optical networking, and the more traditional network services such as T-1, frame relay, Asynchronous Transfer Mode (ATM), and SONET. PREREQUISITE(S): TDC 405 and TDC 413

TDC 463
COMPUTER NETWORKS AND DATA SYSTEMS
Graduate
A detailed discussion of the upper layers of network architectures. Network protocol organization will be discussed using TCP/IP as an example. IP addresses, subnetting, supernetting, and CIDR. Routing algorithms. Transport layer protocols. Application layer protocols. Introduction to IPv6. PREREQUISITE(S): TDC 405 and TDC 413

TDC 464
CONVERGED MULTIMEDIA NETWORKS
Graduate
Exploration of multimedia networks including voice, data, and video services offered by network carriers and Internet Service Providers (ISP) to both enterprise and residential customers. The course starts with an overview of current voice and data networks and presents the driving forces leading to a converged multimedia network. The focus is on Voice over IP (VoIP), including signaling, protocols, equipment, network architecture/design, traffic engineering, and service deployment strategy. PREREQUISITE(S): TDC 405
TDC 468
NETWORK PROGRAMMING
Graduate

The course covers the basic and advanced issues of TCP/IP networking programming such as multiple processes, I/O multiplexing, multi-threaded processes, multicasting and secure network programming using C/C++. Application examples such as Internet browsing, instant messaging, proxy filtering and file transfer protocols are discussed. PREREQUISITE(S): (TDC 463 OR CSC 435) and CSC 404

TDC 477
NETWORK SECURITY
Graduate

Network infrastructure security issues, including perimeter security defense, firewalls, Virtual Private Networks, Intrusion Detection Systems, wireless security, network security auditing tools and ethical considerations. Strategies for the deployment of "Defense-In-Depth" mechanisms in an enterprise computing environment. PREREQUISITE(S): TDC 463

TDC 478
INFORMATION STORAGE AND MANAGEMENT
Graduate

This course provides a comprehensive overview of network-based storage technology and information storage infrastructure. Major topics include the storage architectures, service features, and benefits of Intelligent Storage Systems. Networked storage technologies include fiber channel (FC), based Storage Area Network (SAN), Network Attached Storage (NAS), and IP-SAN. Advanced storage technologies on Content Addressed Storage (CAS), information security, and storage virtualization are also discussed. PREREQUISITE(S): none

CDM graduate students in the Prequisite Phase are restricted from registering for this class.

TDC 484
SCRIPTING FOR NETWORK MANAGEMENT
Graduate

This is a hands-on course on using script languages to develop practical applications for Network Management. Students will first learn the fundamentals of Linux system and script language(s) for task automation, and use scripts to develop dynamic web sites. After that, the course will cover Simple Network Management Protocol (SNMP), and use Application Programming Interface (API) to automate networks tasks of Fault Management, Configuration Management, Accounting Management, Performance Management, and Security Management (FCAPS). The final project of the course is to develop a dynamic web site with the above five functional areas to manage Linux servers, Ethernet switches and IP routers. Prerequisite: TDC 405 and (IT 211 or CSC 401)

TDC 511
TELECOMMUNICATIONS PRACTICUM
Graduate

Introduction to the functionality and management of voice and data communications equipment in the Telecommunications and Local Area Networks laboratories. Emphasis will be on practical understanding and experience through laboratory exercises. PREREQUISITE(S): TDC 411 and TDC 460 and TDC 463

TDC 512
CELLULAR AND WIRELESS TELECOMMUNICATIONS
Graduate

A survey course which includes an overview of all the design and network elements that comprise the foundation of today's cellular networks. Topics include the evolution of cellular technology; basic cellular design and operation principles; cell base station design and function; a review of digital wireless technologies; radio frequency (RF) and antenna propagation basics; an overview of towers; microwave radio systems; roaming and intercarrier networking; the business side of wireless and landline interconnection to the Public Switched Telephone Network (PSTN). PREREQUISITE(S): TDC 464

TDC 514
COMPUTER TELEPHONY
Graduate

A study of enabling technologies allowing the integration of voice communications services with personal computers, LANs and mainframes. Telephony programming interfaces, call management software, intelligent fax/data retrieval and interactive voice response systems will be considered. PREREQUISITE(S): TDC 463 and TDC 464.
TDC 532  
WIRELESS SYSTEM ENGINEERING AND DEPLOYMENT  
Graduate  
The course covers technologies and theories that support the design, deployment and operation of modern-day digital wireless networks. The first half of the course will address concepts of RF theory, RF propagation, base station engineering, and antenna propagation. The second half of the course focuses on distributed antenna systems (DAS), and various digital wireless technologies used on modern networks and emerging technologies for the future. IP Multimedia Subsystem (IMS) technology and architectures, along with its interfaces to future wireless networks, will also be addressed. PREREQUISITE(S): TDC 512

TDC 542  
PROTOCOLS FOR ADVANCED WIRELESS NETWORKS  
Graduate  
This course provides students with an in-depth study of the advanced wireless communication protocols and technologies. It starts with an overview of the wireless evolution from the first generation network to the modern and future wireless technologies. It will then go on to explore major aspects of each advanced wireless technology: air interface, smart antennas, network infrastructure, network elements and their functions, QoS, security, mobility, and performance. Wireless protocols, including both User-to-Network Interface (UNI) and Network-to-Network Interface (NNI), are also studied in detail. Students will also learn new service opportunities provided by these advanced wireless technologies. PREREQUISITE(S): TDC 512

TDC 560  
ADVANCED NETWORK TECHNOLOGIES AND DESIGN  
Graduate  
This course introduces advanced network technologies and design, including Multi-Protocol Label Switching (MPLS), MPLS Virtual Private Networks, IP storage networks, content distribution, capacity planning and traffic engineering. PREREQUISITE(S): TDC 460, TDC 463

TDC 562  
COMPUTER-COMMUNICATION NETWORK DESIGN & ANALYSIS  
Graduate  
This course provides an in-depth study of Internet protocols from the perspective of network planning, simulation and troubleshooting. The course includes: study of Internet traffic, traffic measurement techniques, network planning and simulation using simulation tools, and packet management techniques. PREREQUISITE(S): TDC 463

TDC 563  
PROTOCOLS AND TECHNIQUES FOR DATA NETWORKS  
Graduate  
Advanced topics in TCP/IP including IPv6, TCP traffic control, routing protocols, multicast routing protocols, and upper layer protocols supporting Quality of Service (QoS) in the new generation of the Internet; compression techniques; introduction to SNA and APPN, SNA and TCP/IP integration. PREREQUISITE(S): TDC 463

TDC 567  
TELECOMMUNICATION SYSTEMS DESIGN AND MANAGEMENT  
Graduate  
The theory and practice of Telecommunication system design. Ongoing systems management. Telecommunication management including selection of vendors/systems, structuring an RFP systems proposal analysis, computer aided telecommunications management. Telecommunication management strategies from a business perspective. PREREQUISITE(S): TDC 463.

TDC 568  
NETWORK MANAGEMENT  
Graduate  
The five major areas of network management--fault management, performance management, security, accounting and configuration management—are discussed. Advanced topics such as fault diagnosis and isolation, event correlation, MIB design, SNMP programming, performance monitoring, service level agreements and network security architectures are also discussed. PREREQUISITE(S): TDC 463
TDC 577
NETWORK SECURITY II
Graduate
This course is an advanced class in network security. Topics include: Intrusion Detection and Prevention Systems; Security Engineering processes; Advanced firewall considerations; Honeypots; Incident response; Forensics; Enterprise security policy development and complex enterprise security infrastructure design and integration. PREREQUISITE(S) TDC 477 or TDC 572

TDC 593
TOPICS IN TELECOMMUNICATIONS
Graduate
This is an independent study course. PREREQUISITE(S): Consent of instructor. Independent study form required.

TDC 594
NETWORK CAPSTONE
Graduate
In this class students will synthesize knowledge from previous courses to design, build, test, and demonstrate a comprehensive network project as members of a project team. Topics introduced or reviewed, and used in completing the project, will include network requirement analysis, network architecture design, vendor evaluation, planning, experimental design, physical design, logical design, security design, testing strategy, documentation, change management, and network management strategy. Other topics include reasoning about uncertain user requirements, negotiation, online meeting techniques, and group dynamics. The capstone course will extensively use the DLPOD environment and the OPNET for network design and experiment. PREREQUISITE(S): TDC 511 and TDC 560 and TDC 563

TDC 597
TOPICS IN DATA COMMUNICATIONS
Graduate
This is an independent study course. (PREREQUISITE(S):Consent of instructor. Independent Study form required).

TDC 690
RESEARCH SEMINAR
Graduate
Readings and discussion on current research topics. Students may register for this course no more than twice. PREREQUISITE(S): Consent of the instructor.

TDC 696
MASTER'S PROJECT
Graduate
(4 credit hours) Students may register for this course only after their advisor has approved a written proposal for their project. PREREQUISITE(S): Consent of advisor. Independent study form required.

TDC 698
MASTER'S THESIS
Graduate
(2 credit hours) Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. PREREQUISITE(S): Consent of advisor. Independent study form required.

TEC 104
INTRODUCTION TO THEATRE TECHNOLOGY
Undergraduate
(3 quarter hours) This course introduces students to technical systems and standard technical theatre practices. The course emphasizes proper industry-accepted nomenclature of systems, tools, materials, and integrated infrastructure and introduces the steps involved in larger processes. In addition, a specific focus of the course is the establishing of collaborative team work between peers.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
TEC 105
INTRODUCTION TO STAGE MANAGEMENT
Undergraduate
Intro to Stage Management is a required class which takes place during the fall quarter of the stage management students' first year. The class covers a combination of stage management methods used at The Theatre School and best professional practices for the beginning stage manager. Visits to The Theatre School shops and discussions with shop supervisors introduce the first year stage managers to the needs, requirements, and preferred professional methods as defined by the construction processes of the shops.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 107
THEATRE CREW
Undergraduate
Theatre Crew (2 quarter hours) All students in the first year of the program are assigned on a rotating basis throughout the year to various crews which build and run the shows in the Showcase, Playworks, New Directors, and Workshop Series.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 108
THEATRE CREW
Undergraduate
Theatre Crew (2 quarter hours) All students in the first year of the program are assigned on a rotating basis throughout the year to various crews which build and run the shows in the Showcase, Playworks, New Directors, and Workshop Series.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 109
THEATRE CREW
Undergraduate
Theatre Crew (2 quarter hours) All students in the first year of the program are assigned on a rotating basis throughout the year to various crews which build and run the shows in the Showcase, Playworks, New Directors, and Workshop Series.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 111
DRAWING FOR DESIGNERS I
Undergraduate
The first in a three quarter sequence of general drawing courses exclusively for students enrolled in the design majors of The Theater School. Two credit hours. Open to Theatre students only.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 112
DRAWING FOR DESIGNERS II
Undergraduate
The second in a three quarter sequence of general drawing courses exclusively for students enrolled in the design majors of The Theater School.

TEC 111 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 113
DRAWING FOR DESIGNERS III
Undergraduate
The third in a three quarter sequence of general drawing courses exclusively for students enrolled in the design majors of The Theater School.

TEC 112 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
TEC 120  
SOUND SOFTWARE  
Undergraduate  
This class is an overview of the computer programs Sound Design majors will need to create their work. This helps them get a jump-start on how to manipulate sound files on the computer within Peak and Logic, with an overview of the M7CL console they will be using when they start designing the following year.

TEC 151  
TECHNICAL DRAWING I  
Undergraduate  
First course in a 3 course sequence. Mechanical drawing techniques and projection theories are practiced, including drawing-board geometry, scale and dimensioning, and orthographic principles.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 152  
TECHNICAL DRAWING I  
Undergraduate  
Second course in a 3 course sequence. Mechanical drawing techniques and projection theories are practiced, including drawing-board geometry, scale and dimensioning, and orthographic principles.

TEC 151 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 153  
TECHNICAL DRAWING I  
Undergraduate  
Third course in a 3 course sequence. Mechanical drawing techniques and projection theories are practiced, including drawing-board geometry, scale and dimensioning, and orthographic principles.

TEC 152 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 154  
INTRODUCTION TO VECTOR WORKS  
Undergraduate  
Students will learn to use the Vector Works drafting program to create construction drawings and Light Plots. Classes will include an instructional lecture/demo and instructed work time. This course is a requirement for Lighting Design Majors.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 208  
SOUND TECHNOLOGY I  
Undergraduate  
This class introduces students to the fundamentals of sound technology. Students will become familiar with a range of audio components and specifications, and learn how they function, how they connect to each other, and why they are used in a modern theatre. Students will be able to put together a sound system and understand how audio signals flow thru that sound system.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 209  
SOUND TECHNOLOGY I  
Undergraduate  
This class teaches the history of the recording industry by learning about the most popular studios that shaped the sound of recorded music. You will also learn the practice and set-up of studio recording.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
TEC 210
SOUND TECHNOLOGY I
Undergraduate

Every day of this class presents you with a sound system that is not producing sound. And each day there is a lesson to learn about how to approach and troubleshoot problems that often arise when designing sound for theatre.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 251
TECHNICAL DRAWING II
Undergraduate

First course in a 3 course sequence. Advanced techniques and theory are practiced, building on the skills covered in Technical Drawing I.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 252
TECHNICAL DRAWING II
Undergraduate

Second course in a 3 course sequence. Advanced techniques and theory are practiced, building on the skills covered in Technical Drawing I.

TEC 251 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 253
TECHNICAL DRAWING II
Undergraduate

Third course in a 3 course sequence. Advanced techniques and theory are practiced, building on the skills covered in Technical Drawing I.

TEC 252 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 254
COSTUME TECHNOLOGY I
Undergraduate

First course in a 3 course sequence. Students are introduced to draping and drafting of patterns for basic garments, various problems of layout and cutting, and specialized sewing techniques for costumes.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 255
COSTUME TECHNOLOGY I
Undergraduate

Second course in a 3 course sequence. Students are introduced to draping and drafting of patterns for basic garments, various problems of layout and cutting, and specialized sewing techniques for costumes.

TEC 254 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 256
COSTUME TECHNOLOGY I
Undergraduate

Third course in a 3 course sequence. Students are introduced to draping and drafting of patterns for basic garments, various problems of layout and cutting, and specialized sewing techniques for costumes.

TEC 255 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
TEC 257
CONSTRUCTION AND RIGGING I
Undergraduate
First course in a 3 course sequence. Lecture and demonstration in building, rigging, and handling of stage scenery. Special attention is given to the proper use of tools, materials, and stage hardware.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 258
CONSTRUCTION AND RIGGING I
Undergraduate
Second course in a 3 course sequence. Lecture and demonstration in building, rigging, and handling of stage scenery. Special attention is given to the proper use of tools, materials, and stage hardware.

TEC 257 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 259
CONSTRUCTION AND RIGGING I
Undergraduate
Third course in a 3 course sequence. Lecture and demonstration in building, rigging, and handling of stage scenery. Special attention is given to the proper use of tools, materials, and stage hardware.

TEC 258 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 267
STAGE MANAGEMENT I
Undergraduate
First course in a 3 course sequence. This course will be divided into pre-production, rehearsal period, tech/running, and maintenance of production segments. The objective is to thoroughly introduce the student to the different venues of theatre from small storefront theatre to large regional theatres. Although the emphasis will be on management practices for theatre in all venues, there will be an element of the practical, day-to-day "nuts and bolts" in the stage management process.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 268
STAGE MANAGEMENT I
Undergraduate
Second course in a 3 course sequence. This course will be divided into pre-production, rehearsal period, tech/running, and maintenance of production segments. The objective is to thoroughly introduce the student to the different venues of theatre from small storefront theatre to large regional theatres. Although the emphasis will be on management practices for theatre in all venues, there will be an element of the practical, day-to-day "nuts and bolts" in the stage management process.

TEC 267 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 269
STAGE MANAGEMENT I
Undergraduate
Third course in a 3 course sequence. This course will be divided into pre-production, rehearsal period, tech/running, and maintenance of production segments. The objective is to thoroughly introduce the student to the different venues of theatre from small storefront theatre to large regional theatres. Although the emphasis will be on management practices for theatre in all venues, there will be an element of the practical, day-to-day "nuts and bolts" in the stage management process.

TEC 268 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
TEC 271
TECHNICAL PRODUCTION PRACTICE I
Undergraduate
First course in a 3 course sequence. For all technical students, this course makes production assignments based on the student's ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 272
TECHNICAL PRODUCTION PRACTICE I
Undergraduate
Second course in a 3 course sequence. For all technical students, this course makes production assignments based on the student's ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 273
TECHNICAL PRODUCTION PRACTICE I
Undergraduate
Third course in a 3 course sequence. For all technical students, this course makes production assignments based on the student's ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 320
TECHNICAL COLLABORATION
Undergraduate
This class is designed to teach students how to collaborate, and hone their tech cueing skills, within a small storefront theatrical setting that they will undoubtedly come across when they graduate and move into the Chicago theatre community. In this class, the students will learn how to create opening and closing cues; transitions that punctuate, build/decline, propel, and show passage of time. The cues will then be amended in the workshop, to help the students learn to work quickly in changing timings and mood. Making quick artistic decisions and implementing them efficiently is the goal.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 354
COSTUME TECHNOLOGY II
Undergraduate
First course in a 3 course sequence. The first quarter examines the various methods of generating period patterns using primary and secondary sources. The second quarter introduces corset-making and moves toward draping, drafting, cutting, sewing, fitting, altering, and finishing a dress based on a period pattern. The third quarter examines period garments from the 19th and early 20th Centuries, focusing on making detailed observations and drawings of the construction of these garments. Emphasis is placed on developing the students' knowledge concerning pattern shapes, inner structure of garments, sewing techniques, textiles used, and proportional relationships.

TEC 256 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 355
COSTUME TECHNOLOGY II
Undergraduate
Second course in a 3 course sequence. The first quarter examines the various methods of generating period patterns using primary and secondary sources. The second quarter introduces corset-making and moves toward draping, drafting, cutting, sewing, fitting, altering, and finishing a dress based on a period pattern. The third quarter examines period garments from the 19th and early 20th Centuries, focusing on making detailed observations and drawings of the construction of these garments. Emphasis is placed on developing the students' knowledge concerning pattern shapes, inner structure of garments, sewing techniques, textiles used, and proportional relationships.

TEC 354 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
TEC 356  
COSTUME TECHNOLOGY II  
Undergraduate  
Third course in a 3 course sequence. The first quarter examines the various methods of generating period patterns using primary and secondary sources. The second quarter introduces corset-making and moves toward draping, drafting, cutting, sewing, fitting, altering, and finishing a dress based on a period pattern. The third quarter examines period garments from the 19th and early 20th Centuries, focusing on making detailed observations and drawings of the construction of these garments. Emphasis is placed on developing the students’ knowledge concerning pattern shapes, inner structure of garments, sewing techniques, textiles used, and proportional relationships.

TEC 355 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 357  
CONSTRUCTION AND RIGGING II  
Undergraduate  
First course in a 3 course sequence. Lecture and demonstration in building, rigging, and handling of stage scenery. Special attention is given to the proper use of tools, materials, and stage hardware.

TEC 259 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 358  
CONSTRUCTION AND RIGGING II  
Undergraduate  
Second course in a 3 course sequence. Lecture and demonstration in building, rigging, and handling of stage scenery. Special attention is given to the proper use of tools, materials, and stage hardware.

TEC 357 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 359  
CONSTRUCTION AND RIGGING II  
Undergraduate  
Third course in a 3 course sequence. Lecture and demonstration in building, rigging, and handling of stage scenery. Special attention is given to the proper use of tools, materials, and stage hardware.

TEC 358 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 367  
STAGE MANAGEMENT II  
Undergraduate  
First course in a 3 course sequence. This course will simultaneously cover two main elements in the world of the stage manager. The first will explore the stage manager’s place in the world of legitimate theatre. The second will explore options outside of that world. To this end, guest members of the professional community will provide insight regarding the role of the stage manager in these many different settings. Additionally, a portion of each class will be dedicated to discussion of practical problems encountered in the students’ productions.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 368  
STAGE MANAGEMENT II  
Undergraduate  
Second course in a 3 course sequence. This course will simultaneously cover two main elements in the world of the stage manager. The first will explore the stage manager's place in the world of legitimate theatre. The second will explore options outside of that world. To this end, guest members of the professional community will provide insight regarding the role of the stage manager in these many different settings. Additionally, a portion of each class will be dedicated to discussion of practical problems encountered in the students' productions.

TEC 367 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
TEC 369
STAGE MANAGEMENT II
Undergraduate
Third course in a 3 course sequence. This course will simultaneously cover two main elements in the world of the stage manager. The first will explore the stage manager's place in the world of legitimate theatre. The second will explore options outside of that world. To this end, guest members of the professional community will provide insight regarding the role of the stage manager in these many different settings. Additionally, a portion of each class will be dedicated to discussion of practical problems encountered in the students' productions.

TEC 368 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 371
TECHNICAL PRODUCTION PRACTICE II
Undergraduate
First course in a 3 course sequence. For all technical students, assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 372
TECHNICAL PRODUCTION PRACTICE II
Undergraduate
Second course in a 3 course sequence. For all technical students, assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 373
TECHNICAL PRODUCTION PRACTICE II
Undergraduate
Third course in a 3 course sequence. For all technical students, assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 399
INDEPENDENT STUDY: TECHNICAL
Undergraduate
Independent Study: Technical
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 454
COSTUME TECHNOLOGY III
Undergraduate
First course in a 3 course sequence. Fall Quarter examines various craft skills and materials used in costume construction. Winter Quarter examines various techniques for tying, painting, and distressing textiles and costumes for the theatre. Spring Quarter focuses on various millinery techniques including the creation of patterns, construction of buckram, wire, and wool felt bases, fitting, finishing, and trimming.

TEC 356 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.

TEC 455
COSTUME TECHNOLOGY III
Undergraduate
Second course in a 3 course sequence. Fall Quarter examines various craft skills and materials used in costume construction. Winter Quarter examines various techniques for tying, painting, and distressing textiles and costumes for the theatre. Spring Quarter focuses on various millinery techniques including the creation of patterns, construction of buckram, wire, and wool felt bases, fitting, finishing, and trimming.

TEC 454 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.
TEC 456
COSTUME TECHNOLOGY III
Undergraduate
Third course in a 3 course sequence. Fall Quarter examines various craft skills and materials used in costume construction. Winter Quarter examines various techniques for dying, painting, and distressing textiles and costumes for the theatre. Spring Quarter focuses on various millinery techniques including the creation of patterns, construction of buckram, wire, and wool felt bases, fitting, finishing, and trimming.

TEC 457
PRODUCTION MANAGEMENT SEMINAR
Undergraduate
Explores through lectures and projects the roles of the managerial staff in the modern theater. A basic knowledge of theater terminology and some knowledge of management practice is required.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 458
PRODUCTION MANAGEMENT SEMINAR
Undergraduate
Explores through lectures and projects the roles of the managerial staff in the modern theater. A basic knowledge of theater terminology and some knowledge of management practice is required.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 459
PRODUCTION MANAGEMENT SEMINAR
Undergraduate
Explores through lectures and projects the roles of the managerial staff in the modern theater. A basic knowledge of theater terminology and some knowledge of management practice is required.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 460
THEATRE MANAGEMENT
Undergraduate
Theatre Management

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 467
STAGE MANAGEMENT III
Undergraduate
A continuation of 369 - this course will simultaneously cover two main elements in the world of the stage manager. The first will explore the stage manager's place in the world of legitimate theatre. The second will explore options outside of that world. To this end, guest members of the professional community will provide insight regarding the role of the stage manager in these many different settings. Additionally, a portion of each class will be dedicated to discussion of practical problems encountered in the students' productions. With the addition of a lab session.

TEC 369 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 468
STAGE MANAGEMENT III
Undergraduate
A continuation of 467 with the addition of a lab session.

TEC 467 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
TEC 469
STAGE MANAGEMENT III
Undergraduate
A continuation of 467 with the addition of a lab session.

TEC 468 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 471
TECHNICAL PRODUCTION PRACTICE III
Undergraduate
First course in a 3 course sequence. For all technical students, assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 472
TECHNICAL PRODUCTION PRACTICE III
Undergraduate
Second course in a 3 course sequence. For all technical students, assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 473
TECHNICAL PRODUCTION PRACTICE III
Undergraduate
Third course in a 3 course sequence. For all technical students, assignments will be commensurate with ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

TEC 490
INTERNSHIP
Undergraduate
The internship provides the student with an opportunity to learn by working with experienced professionals in an area related to his or her area of study at The Theatre School.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 100
WORLD OF THE THEATRE
Undergraduate
Through the aesthetic analysis of plays and dramatists that were foundational in the development of dramatic literature, the student is encouraged to develop basic critical standards for the understanding and appreciation of dramatic production. Can be taken by non-Theatre School students.

THE 105
HISTORY OF DRAMATIC LITERATURE
Undergraduate
Second course in a 3 course sequence.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 106
HISTORY OF DRAMATIC LITERATURE: CLASSICAL GREECE AND ROME
Undergraduate
Third course in a 3 course sequence.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
THE 141  
DESIGN WORKSHOP  
Undergraduate  
First course in a 3 course sequence. This course will introduce the student to the art of theatre design through the examination of the principles of design and composition, the elements of theatrical design, and the nature of collaboration and communication. It is intended for those who plan to work in the theatre in areas other than design. The focus is on the aesthetic, rather than the technical, aspects of design and on how design fits into the framework of the study of theatre in general. The class is intended to prepare those pursuing a career in theatre for communicating and working with designers. Assignments will emphasize the development of creative skills and a common vocabulary in order to establish a framework for informed choices, and for an appreciation of theatre design and its various areas of specialization. In this first course we will explore the fundamentals of visual design. Students will do several basic design projects during the quarter. The process of theatrical design will be introduced by working with a classic script for design analysis and preliminary design parameters.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 142  
DESIGN WORKSHOP  
Undergraduate  
Second course in a 3 course sequence. In the second quarter the class will focus on applying the fundamentals of the first course to the specific task of theatre design. The emphasis is on scenic design, but costumes, lighting, and sound will also be featured. The script analyzed in the first course will continue to be used to explore the integration of design parameters with the aesthetic and conceptual goals of production. We will also discuss the design process and some of the techniques utilized by designers. Later in the quarter another classic script will be used as the foundation for a final design project culminating in a scenic design for that script.

THE 141 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 143  
DESIGN WORKSHOP  
Undergraduate  
Third course in a 3 course sequence. In the third quarter the emphasis is on group artistic work. In this ‘practicum’ quarter students will collaborate in small groups on a design for a mythological story. Following that, and for the bulk of the quarter, students will be assigned to design teams consisting of director and designers. These teams will follow the entire design process, using a Shakespeare script, culminating in the formal presentation of a fully designed production. It is important to understand that the focus of this course is on design process and communication. The technical aspects of theatre design are kept to a minimum. The course aims to help theatre artists in their collaboration with theatre designers.

THE 142 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 200  
DRAMA ON STAGE: GENDER & SEXUALITY IN THE THEATRE  
Undergraduate  
Through lecture, discussion, projects and actual theatre attendance, students explore the human nature of the theatrical impulse and its evolution into theatrical form. Plays and readings deal with issues of gender identity, sexual orientation, and sexuality in performance. Students follow the process of specific drama productions from script to stage and examine the artistic process and the role that sexuality and gender play in performance and rehearsal.

THE 201  
THEATRE MANAGEMENT I: INTRODUCTION TO MANAGEMENT CONCEPTS IN THE PERFORMING ARTS  
Undergraduate  
Through lecture, discussion, readings, videos, research and projects, the student learns about styles of arts leadership, contemporary issues and best practices in the field of non-profit arts management, the history of non-profit arts administration in the US including leaders in the field and opportunities for careers in the arts. Emphasis is placed on how non-profit organizations balance their commitment to the Art, the Artist and the Audience. Specific areas of non-profit arts management to be addressed include the role of the arts manager; the primacy of the mission; planning, change and adaptation; leadership and group dynamics; and human resources.(Cross Listed with PAM 301)

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
THE 202
THEATRE MANAGEMENT I: ORGANIZATIONAL STRUCTURE AND FINANCIAL MANAGEMENT
Undergraduate
Through lecture, discussion and projects, the student learns about non-profit arts organizational structures, short- and long-term planning, intersection of mission/vision/values and programming with growth and sustainability, producing vs. presenting organizations, financial management, management information systems and budgeting. (Cross-listed with PAM 302)

THE 201 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.

THE 203
THEATRE MANAGEMENT I: MARKETING FOR THE ARTS
Undergraduate
Through lecture, discussion and projects, the student learns about strategies and objectives in marketing and promoting the performing arts. Specific focus is given to integrated marketing and communication strategies; market research and evaluation techniques; organizational image and branding; patron support services; and audience development. Students will create marketing and public relations plans and materials, both independently and on teams, which incorporate targeting audiences; promotions, publicity, and advertising; and working with various forms of media, including social networking and technology-based platforms. (Cross-listed with PAM 303)

THE 202 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.

THE 204
HISTORY OF DRAMATIC LITERATURE
Undergraduate
First course in a 3 course sequence. A study of the development of playscripts, the physical theatre, and means of production from ancient Greek and Roman societies through contemporary theatre. The course emphasized theatre's changing role in society.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 205
HISTORY OF DRAMATIC LITERATURE
Undergraduate
Second course in a 3 course sequence. A study of the development of playscripts, the physical theatre, and means of production from ancient Greek and Roman societies through contemporary theatre. The course emphasized theatre's changing role in society.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 206
HISTORY OF DRAMATIC LITERATURE
Undergraduate
Third course in a 3 course sequence. A study of the development of playscripts, the physical theatre, and means of production from ancient Greek and Roman societies through contemporary theatre. The course emphasized theatre's changing role in society.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 207
THEATRE MANAGEMENT I: INSTITUTIONAL ADVANCEMENT AND COMMUNITY ENGAGEMENT
Undergraduate
Through lecture, discussion and special projects, the student learns about institutional advancement and development as well as collaborations with internal and external constituencies. Topics include forming partnerships, community outreach, board development and engagement, fundraising and grant writing, donor cultivation, and the philanthropic community. This course is the final course in the four-course sequence on Performing Arts Management, and integrates the topics, vocabulary, themes, and subjects introduced in the previous three courses. (Cross-listed with PAM 304)

THE 203 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.
THE 208
UNDERAGE ONSTAGE
Undergraduate
This class examines theatrical literature from the Ancient Greeks through today to uncover how and why playwrights include children in their works and what affect this has on audiences. Contributing variables examined while studying these plays include the time period written in, the social, political, and cultural context, the playwright's style, and the genre used. The class will also explore the choice faced by a number of directors; whether to use children true to the age in the script, or adults who can still play young people. The vocabulary of Dramatic Text Analysis will be taught and used when providing written and oral examination of plays covered.

THE 209
SKETCH COMEDY
Undergraduate
Live performances of sketch comedy present theatre in one of its most elemental forms. With a focus on actors and text rather than technical elements, stagings of sketch revues explore the relationship between audience and artist in a dynamic and revealing way. This course will explore both the theoretical underpinnings of comedy and the practical techniques for the creation of this work. The class will examine as literature this work that is often overlooked by critics and theorists because of its perception as a "low" art form.

THE 210
SCRIPT ANALYSIS
Undergraduate
A study of classical text analysis. Using dramatic literature from naturalism to the avant garde, student will dissect structurally how the plays work.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 212
INTRODUCTION TO THEATRE STUDIES
Undergraduate
This course is a general introduction to the aesthetics of the various forms and permutations of theatrical performance. It is a study of performance as an art, with particular emphasis upon its cultural and social influences in our society, and its relationship with the other arts and humanities. The course will emphasize the development of skills for articulate verbal and written response to performances.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 214
ETHICAL DECISION MAKING IN THE THEATRE
Undergraduate
Ethical decisions are a challenging part of every profession. Ethical Decision-Making in the Theatre assumes two basic questions: What is an ethical decision, and why is ethics of particular resonance for theatre professionals? Through readings, writing assignments, and class discussions, this course will work to define ethics by examining examples of both ethical and unethical behavior, will examine the ethical role that theatre plays in our society, and will debate the responsibilities that we carry into the profession as theatre artists and professionals. Through group work we will determine a framework for ethical thinking and will apply this framework to specific situations facing the theatre profession today, ultimately determining whether or not the result is an ethical decision.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 224
DRAMATIC THEORY: TRAGEDY
Undergraduate
An introduction to the major developments in dramatic theory from Aristotle to the present. Through reading essays on theory along with plays, the course will create a context for understanding how the ethical, aesthetic and social philosophies of dramatic theory inform theatrical production and literature. May be taken by non-Theatre majors.

THE 206 is a prerequisite for this class.
THE 225
DRAMATIC THEORY: COMEDY
Undergraduate
An introduction to the major developments in dramatic theory from Aristotle to the present. Through reading essays on theory along with plays, the course will create a context for understanding how the ethical, aesthetic and social philosophies of dramatic theory inform theatrical production and literature. May be taken by non-Theatre majors.

THE 234
DRAMATURGY I: INTRODUCTION TO DRAMATURGY
Undergraduate
The first course in the three-term Dramaturgy I sequence. Through reading about the history of dramaturgy, the course develops the intellectual framework necessary to think about the art and science of the discipline and focuses on the study of dramaturgical issues of the past two decades. Students work on theoretical projects. Some attendance at theatre productions may be required.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 235
DRAMATURGY I: INTRODUCTION TO PRODUCTION DRAMATURGY
Undergraduate
The second class in the three-term Dramaturgy I sequence, this course continues the work of THE 234 and emphasizes writing in a workshop context as well as the process of collaboration and hands-on collaboration itself. Much of the student work focuses on in-house theoretical theatre productions. Students who are dramaturgy-criticism majors prepare to work on their first dramaturgy project, the MFAI short plays.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 236
DRAMATURGY I: TYA AND PLAYWORKS DRAMATURGY
Undergraduate
The third class in the three-term Dramaturgy I sequence, this course focuses on the dramaturgy for theatrical productions aimed at young audiences. A major emphasis in the class is the preparation of the actor packets and study guides for The Theatre School’s Playworks series.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 241
ARE WE STILL FABULOUS?: QUEER IDENTITY IN CONTEMPORARY DRAMA
Undergraduate
Born out of ACT UP and the AIDS militant movement of the late 1980s and early 1990s, Queer Nation concerned itself with the issue of gay and lesbian enfranchisement and power. They created the battle cry, “We’re here, we’re queer, we’re fabulous, get used to it;” thereby granting the gay community ownership of the word “fabulous.” Fabulousness not only became a new manifesto for queer politics and camp, but also became synonymous with irony, tragic history, defiance, gender-fuck, glitter, and drama. Currently, young playwrights have shifted the visor of gay drama from overtly political dramas to stories of identity and love. In replacing direct political messages with more personal appeals for social progress, is contemporary gay drama still fabulous? By interpreting and analyzing the most current queer plays, reading critical and reflective essays, and through discussion, students in the course will decide for themselves if “fabulous” is a thing of the past or stronger than ever in the present.

THE 242
STAGE DIRECTION FOR NON-MAJORS
Undergraduate
This course is designed to introduce students to the director’s craft. The focus is on the director’s relationship to text through the analysis of playscripts and the use of that analysis to plan an interpretation of a play. Analysis will come from a variety of perspectives—personal, psychological, social, and historical. In addition to preparing and presenting their projects, students will attend performances and write papers in response. The class combines lecture, discussion, group exercises, and in-class activities.
THE 244
DRAMATIC WRITING FOR NON-MAJORS
Undergraduate
This course is designed as an introduction to the process of playwriting. The emphasis on the exploration of a range of techniques and tools available to the playwright. Through the completion and discussion of a series of writing exercises, the class will examine the various elements of playwriting. Particular attention will be paid to the connections between form and meaning. Work for the course will include weekly exercises, written responses to plays in production, and the presentation of projects. Instructional methods will include lecture, discussion, group exercises, and in-class activities. The final project of the class will be the completion of a draft of a 10-minute play.

THE 246
STAGE DESIGN FOR NON-MAJORS
Undergraduate
The course introduces the essential principles of designing for the stage. The art of stage design is explored through the analysis and interpretation of dramatic literature. Students will engage in script analysis, creative research, critical writing, model building and rendering to present visual and written work that represents their personal reflection on the plays examined in the class.

THE 250
AMERICAN FUNNY: STAGE COMEDY FROM GROUCHO MARX TO TINA FEY
Undergraduate
We're a funny people. We also like to watch others be funny. This course explores some aspects of American stage comedy, a genre that is as funny, but less studied, than film comedy.

THE 251
STAGE TO SCREEN: CINEMATIC TRANSLATIONS OF THE DRAMATIC CANON
Undergraduate
It is almost always the case that audiences are introduced to the dramatic canon with cinematic translations of the great plays, rather than actual productions. In this course we will examine what elements theatre and film share as well as what elements one or the other medium possesses exclusively if any. What is lost or, indeed gained in cinematic translation? What is the notion of theatricality? What cannot be translated to the film? What societal elements come into play when translating a play for the screen? Socio-political and historical milieu of the original plays will be examined as well as those of the screen plays.

THE 253
THEME PARK THEATRE
Undergraduate
Theme parks have become contemporary equivalents of the ancient Greek theatre festivals - places where the citizenry gather to revisit the myths and history of the community. While much has been written about theme parks from the perspective of cultural studies, urban planning, and commerce, little attention has been paid to their function as performance or theatre. In this class we will attempt to develop criteria for evaluating theme park attractions as works of art. How do theme parks fulfill or challenge traditional definitions of theatre? What is the relationship between audience and performer? Can/should theme parks aspire to do more than entertain? How are stories told physically and architecturally? How have theme parks influenced theatre and other art forms?

THE 254
POLITICAL THEATRE
Undergraduate
This course surveys political theatre from the ancient Greeks right up until today. Through an examination of the political contents of specific plays and of theoretical reading, such as manifestos, the course instructs students in critical thinking, the relationship between form and content, and between a society and one genre of art.

THE 255
ANGELS, PUNKS AND RAGING QUEENS: THE ECLECTIC QUILT OF AIDS DRAMA
Undergraduate
Acquired Immune Deficiency Syndrome (AIDS) has left an indelible mark on both the history and culture of the world. While fear and loss can paralyze, they can also mobilize. In addition to destroying generations of artists, AIDS has become what some call “the great unifier,” giving voice to a new generation of theatre artists. But what are these voices? Cries for social change? Political rants? Stories of remembrance? Lessons to educate? All of the above? What does AIDS mean when it appears onstage in a performance? By interpreting and analyzing plays from both national and global AIDS perspectives, reading critical and reflective essays, and through discussion, students in the course will discover how the ritual of theatre has been used to create the eclectic quilt of voices that is AIDS drama.
THE 256
THEATRE FOR YOUNG AUDIENCES DRAMATIC LITERATURE: PLAYS FOR THE ONCE AND FUTURE AMERICAN AUDIENCE
Undergraduate
Over the past one hundred years or so, artists and educators in the United States have specifically dedicated themselves to sharing and creating aesthetic, creative experiences for young people. But what have been the impulses behind these plays and creations? Why specifically devise a theatre for young audiences (TYA)? Are children just little adult theatre goers or has an approach and methodology developed through the years to speak directly to young people? The goal of this introductory course is to find some answers to these questions by surveying the history of dramatic literature for children in the United States from the beginning of the last century to the present day. Through readings, lectures, workshops, and discussions students will gain insight into the TYA theories, philosophies, styles, and practices that have accumulated over the years. By excavating the past and examining the present, students will achieve further appreciation and understanding of the spectrum of theatrical experiences written and improvised for children.

THE 257
WRITING LOCALLY, THINKING GLOBALLY: INTERNATIONAL THEATRE FOR YOUNG AUDIENCES DRAMATIC LITERATURE
Undergraduate
While writing and performing for their local communities, various international artists have made a global impact on the field of theatre for young audiences. This course is an investigation of the principles, procedures, and practices of theatre for young audiences playwrights and artists worldwide. Through analysis of readings, lectures, workshops, and discussions students will explore the skills and aesthetic techniques that theatre creators from around the globe use to communicate with their audiences. By examining historical, theoretical, and artistic intercontinental connections, students will hopefully gain further appreciation and understanding of the contemporary, global theatre for young audiences (TYA) field.

THE 258
SHADOWS OF UNDERSTANDING: THE HOLOCAUST IN THEATRE AND PERFORMANCE
Undergraduate
The Holocaust of the 20th Century perpetrated and executed by Nazi Germany, has both seared itself into people's consciousness and become very much a part of world culture. Theatre and performance have been created to try to understand this event and search for meaning. Created through multiple perspectives and styles - historical and political, philosophical and religious, realistic and surrealistic, using dark humor and the power of memory, focusing on gender relations - there is no one method of presenting the Holocaust artistically. Through a close investigation of key theatre and performances, students will discover many works that were unknown to them and that will help to shed some light on these representations more deeply, reflecting the complexity of the Holocaust in a search for understanding and ultimately seeking to answer this imperative, "Can and should art be made from representations of genocidal atrocity?"

THE 259
PERFORMING MOSAIC: JEWISH CULTURE'S INFLUENCE ON AMERICAN THEATRE AND PERFORMANCE
Undergraduate
Over the years the abundance of artistic contributions from Jewish creators: playwrights, performers, composers and lyricists, acting teachers and producers - has helped to shape the American Theatre as we know it. Through a critical reading of the plays in their context and viewing performances on video this course will explore the unique synthesis and the long and colorful relationship between Jews and theatre in America. Critical questions to be asked are: How does the ethnic mosaic of America and American values and multi-culturalism act as an incubator? How did anti-Semitism and stereotypes play a role? Does the cultural memory of the Jew as the "outsider and survivor in history" provide a particular aesthetic?

THE 260
CHICKS, MEAN GIRLS AND FEMMES FATALES: WOMEN WRITING IN THE AMERICAN THEATRE
Undergraduate
This course examines ninety years of women's dramatic writing in America from the jazz age to today. We will look at plays written by women, theoretical essays about the plays, and playwrights; biographies, as well as historical materials illuminating plays; themes and forms. Identity has always been important to American dramaturgy and women have always occupied a unique place in the theatre; as actresses, as spectators, as icons, as demons and finally as creators. Women have been playwrights but they have also been producers and theatre adventurers.

THE 261
OCULAR PROOF: SHAKESPEARE'S INFLUENCE IN CINEMA
Undergraduate
Shakespeare's plays explore the scope and depth of the human experience. Using the visual elements of cinema, these epic stories translate effectively for modern audiences. Students will read four plays by Shakespeare, and explore their thematic and dramatic interpretations on film: two adapted from Shakespeare's themes and two cinematic versions of the plays themselves which will elucidate the 'ocular proof' of Shakespeare's influence on cinema.
THE 268
INTRODUCTION TO THE PRODUCTION PROCESS
Undergraduate
This course introduces students to the specifics of the production process and focuses on similarities and differences between the curricular perspective of the production process at The Theatre School and that of the professional world. Through readings, lecture, and discussion, students will gain an orientation to the responsibilities and expectations of first-year crew assignments, basic skills involved in stage management, examples of the production process from both the Chicago and national theatre scenes, and the concept of collaboration as a fundamental component of all production work.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 269
STAGE MANAGEMENT WORKSHOP
Undergraduate
Second course in a 2 course sequence. A survey of the stage manager's role in pre-production, rehearsal, tech and performance. The course will explore the techniques and responsibilities of the stage manager in a variety of theatrical venues.

THE 268 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 271
THEATRE STUDIES PRODUCTION PRACTICE I
Undergraduate
First course in a 3 course sequence. For all Theatre Studies students, this course makes assignments related to the student's major, including Dramaturgical work, assistant directing, and stage managing.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 272
THEATRE STUDIES PRODUCTION PRACTICE I
Undergraduate
Second course in a 3 course sequence. For all Theatre Studies students, this course makes assignments related to the student's major, including Dramaturgical work, assistant directing, and stage managing.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 273
THEATRE STUDIES PRODUCTION PRACTICE I
Undergraduate
Third course in a 3 course sequence. For all Theatre Studies students, this course makes assignments related to the student's major, including Dramaturgical work, assistant directing, and stage managing.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 291
PERFORMANCE WORKSHOP I
Undergraduate
The first course in a 3-course sequence. Students work on basic performance skills through individual and group exercises in acting, voice and speech, and movement. The work culminates in in-class performances of selected scenes and/or monologues from a variety of contemporary American plays.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 292
PERFORMANCE WORKSHOP II
Undergraduate
The second course in a 3-course sequence. Students expand on basic performance skills emphasized in Performance Workshop 1. The emphasis in this second quarter focuses on the actor's approach to text, intentionality and motivation, objectives, obstacles, the tactics used in realizing physical actions in performance, and an introduction to the director-actor relationship in rehearsal.

THE 291 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
THE 293
PERFORMANCE WORKSHOP III
Undergraduate
The third course in a 3-course sequence. The focus of the final course is on the practical dynamics of the director-actor relationship. Students in Performance Workshop 3 serve as the acting company for those students in the third quarter of the BFA Directing sequence.

THE 292 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 301
THEATRE MANAGEMENT II: INTRODUCTION TO COMMERCIAL THEATRE
Undergraduate
Through lecture, discussion and projects, the student learns about the current environment in the world of commercial theatre. Focusing on the study of producing, students will learn about the nature of the work of the producer, general manager, and other key figures; securing rights to theatrical properties; raising capital for theatrical productions (filings, offerings, Securities and Exchange Commission); facilities and touring issues. Studies include researching commercial theatre entities and individuals.

THE 203 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.

THE 302
THEATRE MANAGEMENT II: HUMAN RESOURCES MANAGEMENT IN THE COMMERCIAL THEATRE
Undergraduate
Through lecture, discussion and projects, the student learns about human resource management and compliance with federal employment laws including review of employee handbooks, employee benefits, payroll and withholding, I-9, W-2 and W-4 forms, employee vs independent contractor status as well as hiring someone who is a corporation. The course reviews the history, membership, contracts and work rules of the theatrical unions in the United States, collective bargaining, labor arbitration and non-union human resource management in commercial theatre.

THE 301 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.

THE 303
THEATRE MANAGEMENT II: FINANCIAL MANAGEMENT IN THE COMMERCIAL THEATRE
Undergraduate
Through lecture, discussion and projects, the student learns about financial planning, budgeting and accounting, box office income, booking agreements and deals, paying labor and other expenses, income statements, and settlements. Attention is paid to distinguishing between facility licensing agreements and booking contracts.

THE 302 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.

THE 320
MOVEMENT WORKSHOP
Undergraduate
By exploring a beginning approach to one or more methodologies intended to increase an actor's movement and use of self, this course provides a starting point for the analysis of the processes an actor uses to broaden, deepen, and clarify physical work on a character and as a member of an artistic ensemble.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 324
DRAMATIC THEORY
Undergraduate
This course explores the art and craft of reviewing and writing about theater and the other performing arts in a variety of different media, from newspapers to alternative weeklies to magazines. The course also aims at developing for the student a systematic understanding of the concepts and issues that have historically informed theatrical criticism, as well as those that inform the contemporary period.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
THE 325
DRAMATIC CRITICISM
Undergraduate
Through reading, lecture, discussion, and writing practicum, the course introduces foundational concepts in descriptive and evaluative criticism. Through the process of writing critical responses to theatre performances, the course addresses topics from criteria for script evaluation to expected outcomes of the theatrical experience. Can be taken by non-Theatre School students with permission of instructor.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 326
DRAMATIC CRITICISM
Undergraduate
Through reading, lecture, discussion, and writing practicum, the course introduces foundational concepts in descriptive and evaluative criticism. Through the process of writing critical responses to theatre performances, the course addresses topics from criteria for script evaluation to expected outcomes of the theatrical experience. Can be taken by non-Theatre School students with permission of instructor.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 327
PLAYWRITING
Undergraduate
First course in a 3 course sequence. A practical course in which the student writes a series of exercises and short plays exploring the basic techniques of playwriting. Can be taken by non-Theatre School students with permission of instructor

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 328
PLAYWRITING
Undergraduate
Second course in a 3 course sequence. A practical course in which the student writes a series of exercises and short plays exploring the basic techniques of playwriting. Can be taken by non-Theatre School students with permission of instructor

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 329
PLAYWRITING
Undergraduate
Third course in a 3 course sequence. A practical course in which the student writes a series of exercises and short plays exploring the basic techniques of playwriting. Can be taken by non-Theatre School students with permission of instructor

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 330
MUSICAL THEATRE WORKSHOP
Undergraduate
This course provides an introduction to musical theatre through performance (including solo and group singing and scene preparation) and historical and theoretical studies (including vocal technique, musical theatre history and literature, and music theory).

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 334
DRAMATURGY II: CLASSICAL DRAMATURGY
Undergraduate
The first class in the three-term Dramaturgy II sequence, this course continues the work of Dramaturgy I and focuses on the preparation for work on a classical play.

THE 234, 235, 236 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.
THE 335  
DRAMATURGY II: NEW PLAY DRAMATURGY  
Undergraduate  
This course is taught in conjunction with The Theatre School's playwriting program and focuses the dramaturgical work involved in new play development.

THE 234, 235, 236 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.

THE 336  
DRAMATURGY II: DRAMATURGY CAPSTONE  
Undergraduate  
The final class in the dramaturgy sequence, this course focuses on issues relevant to dramaturgical work. Students in the class will be required to write a thesis essay that emphasizes a dramaturgical issue relevant to their own production work. This is course is open to theatre majors only.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 344  
HAMLET IN PERFORMANCE: SCRIPT, STAGE, SCREEN  
Undergraduate  
It is through performance that the essence of Shakespeare materializes. In this course we will examine the relationship of Hamlet to theory, theatrical performance, and film. What makes a good production of Hamlet or a bad one? Was Hamlet rooted in economic necessity? What is lost or gained by filmic representation? To comprehend Shakespeare as a writer whose Hamlet continues to fascinate modern audiences, the course looks at not only the page-to-stage translations but also the critical cultural context in which he first achieved artistic success.

THE 345  
POLITICAL THEATRE  
Undergraduate  
This course surveys political theatre from the ancient Greeks right up until today. Through an examination of the political contents of specific plays and of theoretical reading, such as manifestos, the course instructs students in critical thinking, the relationship between form and content, and between a society and one genre of art.

THE 371  
THEATRE STUDIES PRODUCTION PRACTICE II  
Undergraduate  
First course in a 3 course sequence. This course makes assignments based on the student's ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 372  
THEATRE STUDIES PRODUCTION PRACTICE II  
Undergraduate  
Second course in a 3 course sequence. This course makes assignments based on the student's ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 373  
THEATRE STUDIES PRODUCTION PRACTICE II  
Undergraduate  
Third course in a 3 course sequence. This course makes assignments based on the student's ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
THE 381
SURVEY OF THE ARTS FOR THEATRE
Undergraduate
First course in a 3 course sequence. The styles and aesthetics of art, architecture, fashion and the decorative arts from ancient Egypt through the first half of the 20th century are examined. Emphasis is placed on periods and countries that are most important to American theatre. Can be taken by non-Theatre School students with permission of instructor.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 382
SURVEY OF THE ARTS FOR THEATRE
Undergraduate
Second course in a three-course sequence. The styles and aesthetics of art, architecture, fashion and the decorative arts from ancient Egypt through the first half of the 20th century are examined. Emphasis is placed on periods and countries that are most important to American theatre. Can be taken by non-Theatre School students with permission of instructor.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 383
SURVEY OF THE ARTS FOR THEATRE
Undergraduate
Third course in a three-course sequence. The styles and aesthetics of art, architecture, fashion and the decorative arts from ancient Egypt through the first half of the 20th century are examined. Emphasis is placed on periods and countries that are most important to American theatre. Can be taken by non-Theatre School students with permission of instructor.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 399
INDEPENDENT STUDY
Undergraduate
Independent Study

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 408
CAPSTONE: PREPARING FOR THE PROFESSION
Undergraduate
Preparing for the Profession is the first course in the 2-term Capstone sequence. This course serves as a cumulative and summative examination of both the academic and practical components of a 4-year BFA program in theatre studies. Through readings, writing, and discussion, the course will emphasize a number of theoretical issues such as the question of ethical decision-making in theatre practice and the interrelationship between liberal studies coursework (what we make theatre about) and theatre coursework (how we make theatre). From a more practical perspective, this course will also provide students with an introduction to portfolio preparation and cover letters and resumes for prospective jobs as students prepare to enter the professional market.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 410
THEATRE STUDIES CAPSTONE
Undergraduate
Graduating students will explore the practical and philosophical issues of contemporary theatre. Topics will range from the preparation of resumes and portfolios for various positions to explorations of the role of the arts in society.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
THE 412
PORTFOLIO PREPARATION
Undergraduate
Portfolio Preparation expands and heightens the work begun in THE 408, Preparing for the Profession, and THE 410, Capstone. Students during the spring quarter course will work to develop a variety of cover letters for prospective jobs, refine and finesse their resumes, review interviewing techniques, and participate in a series of mock interviews for specific theatre companies - all in preparation for Theatre Studies participation in Graduate Showcase.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 424
SEMINAR: TOPICS IN THEATRE STUDIES
Undergraduate
Seminars will offer intensive study of various areas of theatrical study including history, criticism, performance and production. The courses may be organized around specific topics, issues, artists or themes.

THE 204, 205, 206 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 425
SEMINAR: TOPICS IN THEATRE STUDIES
Undergraduate
Seminars will offer intensive study of various areas of theatrical study including history, criticism, performance and production. The courses may be organized around specific topics, issues, artists or themes.

THE 204, 205, 206 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 426
SEMINAR: TOPICS IN THEATRE STUDIES
Undergraduate
Seminars will offer intensive study of various areas of theatrical study including history, criticism, performance and production. The courses may be organized around specific topics, issues, artists or themes.

THE 204, 205, 206 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

THE 427
PLAYWRIGHT'S SEMINAR
Undergraduate
First course in a 3 course sequence. Advanced playwrights work on longer, more complicated projects. The production values of these scripts are explored by actors and playwrights in the New Play Workshop.

THE 327, 328, 329 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.

THE 428
PLAYWRIGHT'S SEMINAR
Undergraduate
Second course in a 3 course sequence. Advanced playwrights work on longer, more complicated projects. The production values of these scripts are explored by actors and playwrights in the New Play Workshop.

THE 327, 328, 329 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.

THE 429
PLAYWRIGHT'S SEMINAR
Undergraduate
Third course in a 3 course sequence. Advanced playwrights work on longer, more complicated projects. The production values of these scripts are explored by actors and playwrights in the New Play Workshop.

THE 327, 328, 329 and status as an Undergraduate or Graduate Theatre student or permission of instructor is a prerequisite for this class.
Seminars will offer intensive study of various areas of literature created for the theatre. The courses may be organized around specific playwrights, historical periods, styles or themes.

The 204, 205, 206 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

This course makes assignments based on the student's ability and experience.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

The internship provides the student with an opportunity to learn by working with professionals in an area related to his/her area of study at The Theatre School.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
THE 511
GRADUATE MANAGEMENT PRACTICUM
Graduate
Work training course as full-time employment at Chicago Shakespeare Theater. Specialized training in company operations of tickets sales, gift processing, customer service, house management, producing, company management, budget development, special event planning, subscription campaign, marketing and development, facilities operations, and organizational structure.

Status as Graduate Theatre student is a prerequisite for this class.

THE 512
GRADUATE MANAGEMENT PRACTICUM
Graduate
Work training as full-time employment at Chicago Shakespeare Theater. Specialized training in company operations of tickets sales, gift processing, customer service, house management, producing, company management, budget development, special event planning, subscription campaign, marketing and development, facilities operations, and organizational structure.

Status as Graduate Theatre student is a prerequisite for this class.

THE 513
GRADUATE MANAGEMENT PRACTICUM
Graduate
Work training as full-time employment at Chicago Shakespeare Theater. Specialized training in company operations of tickets sales, gift processing, customer service, house management, producing, company management, budget development, special event planning, subscription campaign, marketing and development, facilities operations, and organizational structure.

Status as Graduate Theatre student is a prerequisite for this class.

THE 521
ARTS LEADERSHIP SYNTHESIS SEMINAR
Graduate
All study revolves around this weekly seminar that includes aspects of the Chicago Shakespeare work experience and DePaul course integration in addition to readings, field trips, projects, and time for independent study. The Synthesis Seminar is fluid and reflective, allowing for both examination of coursework and on-the-job experience. Each seminar session synthesizes the students' weekly studies, experiences both at work and in the community, independent research, and natural curiosity in close connection with Theatre School faculty, program director, and the Chicago Shakespeare department heads.

Status as Graduate Theatre student is a prerequisite for this class.

THE 522
ARTS LEADERSHIP SYNTHESIS SEMINAR
Graduate
All study revolves around this weekly seminar that includes aspects of the Chicago Shakespeare work experience and DePaul course integration in addition to readings, field trips, projects, and time for independent study. The Synthesis Seminar is fluid and reflective, allowing for both examination of coursework and on-the-job experience. Each seminar session synthesizes the students' weekly studies, experiences both at work and in the community, independent research, and natural curiosity in close connection with Theatre School faculty, program director, and the Chicago Shakespeare department heads.

Status as Graduate Theatre student is a prerequisite for this class.

THE 523
ARTS LEADERSHIP SYNTHESIS SEMINAR
Graduate
All study revolves around this weekly seminar that includes aspects of the Chicago Shakespeare work experience and DePaul course integration in addition to readings, field trips, projects, and time for independent study. The Synthesis Seminar is fluid and reflective, allowing for both examination of coursework and on-the-job experience. Status as Graduate Theatre student is a prerequisite for this class.
THE 534
DRAMATURGY I
Graduate
This course develops the skills necessary to begin work as a production dramaturg through a consideration of practical, historical, and theoretical issues. The students work on both in-class and school productions as well as writing critical essays.

Status as Graduate Theatre student is a prerequisite for this class.

THE 535
DRAMATURGY I
Graduate
This course develops the skills necessary to begin work as a production dramaturg through a consideration of practical, historical, and theoretical issues. The students work on both in-class and school productions as well as writing critical essays.

Status as Graduate Theatre student is a prerequisite for this class.

THE 599
INDEPENDENT STUDY
Graduate
Independent Study

Status as Graduate Theatre student is a prerequisite for this class.

THE 601
GRADUATE SEMINAR
Graduate
The course familiarizes the student with the requisites of the thesis project and prepares the student to successfully complete this graduate requirement. Additionally, students review material in preparation for the comprehensive exam in the history of theatre and dramatic literature.

Status as Graduate Theatre student is a prerequisite for this class.

THE 602
GRADUATE SEMINAR
Graduate
The course familiarizes the student with the requisites of the thesis project and prepares the student to successfully complete this graduate requirement. Additionally, students review material in preparation for the comprehensive exam in the history of theatre and dramatic literature.

Status as Graduate Theatre student is a prerequisite for this class.

THE 603
GRADUATE SEMINAR
Graduate
The course familiarizes the student with the requisites of the thesis project and prepares the student to successfully complete this graduate requirement. Additionally, students review material in preparation for the comprehensive exam in the history of theatre and dramatic literature.

Status as Graduate Theatre student is a prerequisite for this class.

THE 611
GRADUATE MANAGEMENT PRACTICUM
Graduate
Work training as full-time employment at Chicago Shakespeare Theater. Specialized training in company operations of ticket sales, gift processing, customer service, house management, producing, company management, budget development, special event planning, subscription campaign, marketing and development, facilities operations, and organizational structure.

Status as Graduate Theatre student is a prerequisite for this class.
THE 612
GRADUATE MANAGEMENT PRACTICUM
Graduate
Work training as full-time employment at Chicago Shakespeare Theater. Specialized training in company operations of ticket sales, gift processing, customer service, house management, producing, company management, budget development, special event planning, subscription campaign, marketing and development, facilities operations, and organizational structure. (4-6 credit hours)

Status as Graduate Theatre student is a prerequisite for this class.

THE 613
GRADUATE MANAGEMENT PRACTICUM
Graduate
Work training as full-time employment at Chicago Shakespeare Theatre. Specialized training in company operations of ticket sales, gift processing, customer service, house management, producing, company management, budget development, special event planning, subscription campaign, marketing and development, facilities operations, and organizational structure.

Status as Graduate Theatre student is a prerequisite for this class.

THE 621
ARTS LEADERSHIP SYNTHESIS SEMINAR
Graduate
All study revolves around this weekly seminar that includes aspects of the Chicago Shakespeare work experience and DePaul course integration in addition to readings, field trips, projects, and time for independent study. The Synthesis Seminar is fluid and reflective, allowing for both examination of coursework and on-the-job experience. Each seminar session synthesizes the students' weekly studies, experiences both at work and in the community, independent research, and natural curiosity in close connection with Theatre School faculty, program director, and the Chicago Shakespeare department heads. (3 credit hours)

Status as Graduate Theatre student is a prerequisite for this class.

THE 622

Status as Graduate Theatre student is a prerequisite for this class.

THE 681
ARTS LEADERSHIP THESIS PROJECT
Graduate
As the final term of the Synthesis Seminar, this course focuses on the culmination of the program and successful completion of a final capstone project. These projects will be individually selected in conference with the Program Director during the second year of the program. Possible projects include analytical reports, a specific and substantial employment undertaking, and exploration and treatise with an innovative focus in the industry.

Status as Graduate Theatre student is a prerequisite for this class.

TV 110
FOUNDATIONS OF TELEVISION
Undergraduate
This course provides an introduction and framework of the history of television production. Evolving story forms will be examined from television's beginnings to the present. Developments in story and production styles will be analyzed and discussed. Professionals from different sectors of the Chicago television industry will speak to the class in panels.
TV 271
INTRODUCTION TO TELEVISION PRODUCTION
Undergraduate
An introduction to the basic principles, procedures, and techniques of television production. The course heavily utilizes Digital Cinema's TV studio. Students are organized in teams and create various TV broadcasts. Students learn how to operate TV switchers, TV cameras, sound, and graphic equipment. The course covers the fundamentals of producing, scripting, directing, and editing for television.

TV 289
THE BUSINESS OF TELEVISION
Undergraduate
Course provides historical background of the television business, beginning with the initial launch of the industry in the 1940s. Students examine the establishment of the regulatory system, including the Federal Communications Commission (FCC), the operational structure of stations and networks, the development of cable and satellite broadcasting, and the programming policies and strategies of the present broadcasting industry. PREREQUISITE(S): DC 271

TV 301
TELEVISION PROGRAM DEVELOPMENT
Undergraduate
Television program development is a creative and intense process that takes you from the germ of a story idea to a fully thought out series or program. In this class, you will work with your colleagues and the instructor to enhance your skills in storytelling and in pitching your “baby” to industry executives from cable to network to public and independent services. PREREQUISITE(S): DC 201, DC 272

TV 310
TV PRODUCTION WORKSHOP
Undergraduate
In this workshop students will produce projects for internal and external clients. Students will learn professional practices and work with clients to create projects such as promos, documentaries, commercials, short series and live events from concept inception to finished product. Through this process, students will examine different professional roles involved in the TV production process. PREREQUISITE(S): None

TV 320
EDITING FOR TELEVISION
Undergraduate
Class emphasizes editing and post production producing under tight deadlines. Students edit commercials, trailers, and PSA projects. PREREQUISITE(S): DC 220, DC 271

TV 330
WEBISODE PRODUCTION
Undergraduate
Students will write, produce, edit, screen and webcast a series of five-minute webisodes over the course of the quarter, focusing on short form storytelling for online distribution. Students will have to think creatively, collaborate and act quickly to complete the webisodes on deadline. The class will focus on short serial storytelling discussing composition, structure and editing for the various forms the work will take (narrative, documentary, sitcom, reality, etc...). Production groups will be assigned and create a series. Each student will write at least one script of that series that will be produced. All will take part in the production process. PREREQUISITE(S): DC 210

TV 351
ADVANCED TELEVISION PILOT PRODUCTION
Undergraduate
Advanced production class focused on the pre-production, casting, production, and post of a pilot script. PREREQUISITE(S): DC 210, TV 271

TV 372
TOPICS IN TV PRODUCTION
Undergraduate
This course is a hands-on experience in television production of news and public affairs programs. Students learn through theory and practice the role TV Producers and their teams play in creating various TV programs. PREREQUISITE(S): None
TV 373
REALITY TELEVISION PRODUCTION
Undergraduate
Advanced production class develops a reality or factual show concept and treatment. Students will produce and cast a pilot based on their treatments. The class will focus on techniques and methods to build engagement and conflict within the reality or factual genre.

TV 381
LIVE EVENT/TALK TV WORKSHOP
Undergraduate
In this workshop students will produce events with guest artists, presented in front of a live studio audience. Students will help prep each appearance and participate as crew members in the multi-camera production and telecasting of the events. They will learn the professional practices and positions that constitute talk-show format television production. Post-production and finishing for Web Streaming and VOD delivery will also be addressed. 2 credits. May be repeated for credit.

TV 385
PRODUCING TELEVISION
Undergraduate
This is a course discussing the different roles of the television producer and show runners. Particular emphasis will be put on exploring and discussing the difference between line, segment, coordinating, field, executive (show-runner), and supervising producers. Students wear many television producer hats through the quarter, and will explore those roles in relation to different scripted and non-scripted formats. Examining and performing various tasks like budgets, staffing, and scheduling will give students a comprehensive view of the needs and responsibilities of different producers. Additional consideration will be given to the on-set roles and responsibilities of the showrunner in the television production environment. The class will culminate in the creation of short promo segments of various styles of television shows.
PREREQUISITE(S): DC 210, TV 306 or TV 307

TV 398
TELEVISION CAPSTONE
Undergraduate
This course provides a television-specific capstone experience for the student. The capstone course will connect the student's television production course work with the University courses s/he has taken through three components: student-generated production packages, class/instructor discussions, and the actual production of the student's production proposal.

TV 430
WEBISODE PRODUCTION
Graduate
Advanced production class focused on the techniques and production methods of a television program. Students will learn three-camera and one-camera directing and on-set and on-location television shooting and lighting workflows. The class will culminate in the pre-production, casting, production, and post of a television pilot script in a collaborative environment.

TV 451
ADVANCED SCRIPTED TELEVISION PRODUCTION
Graduate
Advanced production class focused on the techniques and production methods of a television program. Students will research and create case studies comparing the methods of productions of different shows. Students will learn three-camera and on-camera directing and on-set and on-location television and lighting workflows and will create short scene studies using the different methods of production. Collaboratively, students will work to create a television pilot using an advanced production technique of their choosing.

TV 481
LIVE EVENT/TALK TV WORKSHOP
Graduate
In this workshop students will produce events with guest artists, presented in front of a live studio audience. Students will help prep each appearance and participate as crew members in the multi-camera production and telecasting of the events. They will learn the professional practices and positions that constitute talk-show format television production. Post-production and finishing for Web Streaming and VOD delivery will also be addressed. 2 credits. May be repeated for credit.
UIP 240
CAREER PATHWAYS: EXPLORE YOUR OPTIONS
Undergraduate
This 2-credit course will help you analyze your values, skills, personality preferences and studies as a foundation for career possibilities. You will meet with a mentor from the Chicago community, who shares your career interests, and you will examine a variety of career paths, supported by research and personal reflection.

UIP 250
YOU, YOUR WORK AND THE WORLD
Undergraduate
This course is for students who wish to integrate work and learning. Students will learn about societal and world issues and gain valuable career planning skills, including the creation of a career e-portfolio. This course offers online sections as well as hybrid sections that meet five times per quarter. Career planning skills, explore the organizations in which they work, gain an understanding of how they contributed to their organizations, and discuss societal and world issues, as they affect their workplaces. Students are required to work 10 hours per week while 100 hours during the quarter, enrolled in the course. and attend four 3-hour class meetings. Attendance at an internship orientation meeting is required prior to the start of the course.

UIP 251
VALUES-BASED LEADERSHIP
Undergraduate
In UIP251 students will learn about the principles and practices of effective leadership through the study of leadership topics and by researching visionary leaders. Students will also strengthen key leadership skills, apply those skills at their internship sites and identify ways to be a leader in a potential career. This is a hybrid course that will meet five times per quarter. Students are required to work 100 hours. Attendance at an internship orientation is required.

UIP 252
CREATIVITY AS A CHANGE AGENT THE WORKPLACE
Undergraduate
Creativity as a Change Agent in the Workplace examines creative innovations related to invention, leadership, advertising and marketing, teaming concepts and collaboration, and the drive behind entrepreneurship. This is a hybrid course that will meet five times per quarter. Students are required to work at least 100 hours during the quarter. Attendance at an internship orientation meeting is required.

UIP 253
PUBLIC SERVICE CAREERS
Undergraduate
Public service careers involve working with organizations that produce a public good. Those organizations may be nonprofits (providing low-income housing, or supporting the arts, e.g.); community organizing groups; foundations, which typically provide funding; unions; and the local, state, and federal governments. Students will familiarize themselves with career options and gain valuable networking opportunities. This hybrid course will meet five times per quarter. Students are required to work 100 hours during the quarter. Attendance at an internship orientation is required. This course will provide an opportunity to students to familiarize themselves with career opportunities in the public service sector by focusing on (a) the types of problems that public service organizations attempt to address; (b) the different strategies used by different types of public service organizations; and (c) the range of available public service jobs. The course will promote the life-long process of integrating work and learning, enable students to view their internship within a broad perspective, assist career decision-making, promote individual success through on-the-job experience, and provide students with valuable networking opportunities, all with a focus on public service careers. Attendance at an internship orientation meeting is required prior to the start of the course.

UIP 254
CORPORATE SOCIAL RESPONSIBILITY
Undergraduate
Students will examine their own internship experiences, along with real world case studies, research, and commentary, to learn about the critical decision-making processes organizations address as they balance competitive advantages against the weight of social progress. This is an online course. Students are required to work at least 100 hours during the quarter in which they are enrolled in the class. Attendance at an internship orientation is required.
UIP 313
CO-OP WORK ASSIGNMENT
Undergraduate
These courses will enable students to gain experience in a co-op job that is related to their academic majors, concentration and professional goals. Due to changes in technology, strategic goals and hiring trends in today's organizations, students need more than classroom knowledge to become marketable upon graduation. One way in which the lessons from the classroom can be supplemented is through cooperative education jobs, in which students get practical real-world experience. Not only does a co-op work assignment provide valuable lessons which can be learned in no other way, students will gain work experience, job contacts, and job references which will make them more competitive in the post-graduation market. This is an opportunity for students to establish themselves in professional settings and apply theory.

UIP 350
NAVIGATING THE CHANGING WORKPLACE
Undergraduate
UIP 350 is an online course, where students use their current work experience to examine and report on key issues impacting their organizations and personal work lives. Students will study internal and external factors affecting their work environment, traditional and virtual work arrangements, the increased influence of technology, as well as ethical questions and leadership styles. They will also develop interviewing and networking skills. Requirements for UIP 350 enrollment are more than three years of work experience or an already-completed department or UIP internship course. Students are required to work 100 hours during the quarter.

UIP 351
INTERNSHIP TUTORIAL
Undergraduate
This 2-credit course will consist of an independent study in a topic area to be agreed upon by you and the instructor. The primary assignment will be a paper and a presentation, describing a project that could actually be implemented at your organization and which would contribute to its success or productivity. Additional assignments will allow you to integrate your work experiences with academic readings. This course includes two meetings with your instructor and ongoing email discussions that focus on the readings.

UIP 367
GLOBAL PERSPECTIVES
Undergraduate
Global Perspectives is designed to support students' developing viewpoints and experiential reflections during an intensive internship in Honduras. Students will explore case studies, commentary, research, and personal interviews in order to draw conclusions and apply what they've learned to their own future careers. Students are required to work 100 hours. Attendance at an internship orientation meeting is required.
VFX 200
INTRODUCTION TO VISUAL EFFECTS
Undergraduate
Students will explore contemporary concepts and approaches to production in the current state of film and video effects work. Digital and traditional methodologies will be covered, with a concentration on digital exercises illustrating modern techniques. This course has an additional fee. PREREQUISITES: NONE

VFX 278
DIGITAL COMPOSITING I
Undergraduate
This course is an introduction to compositing and special effects in digital post production. Using current editing/compositing software, students will learn techniques used to combine live action footage with 2D and 3D animation and graphics. PREREQUISITES: DC 220 and VFX 200

VFX 321
DVD AUTHORING
Undergraduate
This course is designed to guide the student in the creation of a fully interactive DVD with menus, chapters, multiple tracks, "Easter eggs," and special features. Students will utilize the current editing/motion graphics/compression/titling software in the creation of their professional quality DVD's. The class will also explore Blu-Ray and HDDVD formats. PREREQUISITES: DC 220

VFX 378
DIGITAL COMPOSITING II
Undergraduate
This course expands on topics covered in VFX 278. Emphasis is on developing the student's understanding of advanced compositing techniques and design. PREREQUISITES: VFX 278

VFX 391
VIRTUAL CINEMA
Undergraduate
Utilizing traditional, live-action, filmmaking techniques along with green screen compositing and CGI students will create high-definition narrative motion pictures. Working on a "digital backlot" students will employ HD cameras while actors work in front of a green screen to all for the artificial backgrounds as well as some major foreground elements to be added later during the post-production stage. Students will be expected to collaborate with animation students in the creation of their final projects. PREREQUISITES: VFX 378, DC 390

VFX 478
DIGITAL COMPOSITING II
Graduate
This course expands on topics covered in VFX 278. Emphasis is on developing the student's understanding of advanced compositing techniques and design. PREREQUISITE(S): VFX 278 or DC 460.

WGS 100
WOMEN’S LIVES: RACE/CLASS/GENDER
Undergraduate
This course will introduce students to Women’s & Gender Studies by exploring a range of issues that contemporary women face through experiences stratified by race, class, gender, sexuality, and disability. Topics will include women's identities; body image and the media; women's sexuality; intimate relationships and families; women, violence and criminalization; women's work, wage discrimination, and welfare reform; women's health issues, such as reproductive rights, and medical research. Participants will have opportunities to examine ways that this stratification interacts in varied eras, cultures, and subcultures to shape women's lives. Students will engage in an activist focus as they are introduced to the layers of oppression that affect many women's lives, from the personal to the global. As they analyze social, cultural, and political issues through “gendered lenses”, participants may expand a view of their personal lives to include a framework that encourages resilient responses to such oppression.
WGS 200  
WOMEN'S STUDIES IN TRANSNATIONAL CONTEXTS  
Undergraduate  
This course is a transnational approach to Women's & Gender Studies, examining how goods, money, and media images of women cross national in new ways. A further focus is on how this transformation of national boundaries depends not only upon political changes but also upon economic and cultural shifts. This transnational perspective pays attention to the inequalities and differences intersecting race, class, and gender that arise from new forms of globalization as well as from older histories of colonialism and racism. The course is designed to give the student an in-depth look at a world of connections that do not necessarily create similarities in how women variously experience that world. It introduces students to research by and about women that reflects transnationality in all of its possibilities and challenges.

WGS 212  
GROWING UP FEMALE IN THE U.S.  
Undergraduate  
This course examines what it means to grow up female in the contemporary U.S. It explores the ways in which girls develop and are socialized through childhood and adolescence, focusing on how families, schools, peers, and the larger culture influence young women's lives and the ways in which race, ethnicity, class and sexual orientation affect their growth and learning and how their interaction might affect the behaviors and choices of young women as they mature.

WGS 215  
GENDER AND EDUCATION  
Undergraduate  
This course examines gender as a social construct and its meanings within the context of educational institutions, its implications for teaching and learning, and organizational practices that may oppress and/or empower groups or individuals. Emphasis is given to social forces within the larger society that affect education and schooling; sex-stereotyping and gender bias; teacher behaviors; attitudes, practices, and expectations; student motivation and achievement; principles of non-sexist education; gender bias in settings outside of schools; current issues in the media and popular culture; and the ways in which gender bias and sexism interact with other forms of prejudice, inequality, and oppression.

WGS 225  
CONSTRUCTING GENDER AND SEXUALITY  
Undergraduate  
This course will explore through interdisciplinary theory and research how gender and sexuality are socially constructed. It will examine how such constructions have evolved over time and how individuals of diverse identities and cultural backgrounds have been affected by the changes. Discussion will focus on the roles played by powerful societal institutions (e.g., religious, political, and medical) in effectively defining what is considered gender-appropriate behavior and legitimate sexual expression. Finally, the activism of recent social movements to psychological and politically empower individuals who are neither heterosexual nor traditionally masculine or feminine will be explored.

WGS 249  
GENDER AND POLITICS IN IRELAND  
Undergraduate  
This course explores the relationship between gender and politics in Ireland, focusing on the political history of gender relations in Ireland, women’s political involvement throughout the enormous changes of the 20th Century, and contemporary legal and public policy issues related to sex/gender. The attitudes and behaviors of women as voters, activists, officeholders and peace activists will be examined, as will Ireland's place in global gender issues. We will pay particular attention to the changes that have taken place since Ireland’s entry into the EU, the “Celtic Tiger” transformations of the Irish economy, and the impact of the recent worldwide economic recession on gender and politics in Ireland, along with the efforts of women, North and South, to further the process of peace in the North, which has been wracked by violence for several decades. Cross-listed with IRE 249.

WGS 250  
FEMINIST FRAMEWORKS  
Undergraduate  
This course introduces feminist theories and methodologies with an emphasis on how theoretical frameworks shape specific research, policies, and praxis. The course will provide an introductory exploration of feminist frameworks in relationship to specific issues and questions within women's studies, with some attention to the resulting research/analytic methods. The class will delineate, analyze and compare the underlying assumptions and frameworks of a variety of feminist theories (i.e. historical materialist, liberal, radical, standpoint and identity-based, critical race, postcolonial, and transnational theoretical frameworks) in relation to a set of issues and questions (e.g. violence against women, sex discrimination, reproductive rights). The class will explore the relationship between these frameworks and knowledge production, public policy, and social change efforts within transnational contexts. Thus, the students will be able to discern how theories frame research questions and methods, as well as how they frame policy issues and action proposals; and students will be able to analyze the theoretical frameworks comparatively.
WGS 255
DECONSTRUCTING THE DIVA
Undergraduate
This course studies the figure of the diva as a powerful cultural text, central to both understanding historical conceptions of socially normative femininity and to uncovering and examining our own present-day conceptions of what it means to be feminine, to be a woman. Through fiction, drama, biography, autobiography, film, audio recordings, gender and performance theory, the course explores representations of the diva in literature, art, and popular and high culture.

WGS 260
GENDER, SEXUALITY AND VIOLENCE
Undergraduate
This course explores the social, political, and cultural contexts of interpersonal violence with a focus on sexual violence and dating violence among and against adolescents and young adults. This course also will emphasize activist strategies and anti-violence movements.

WGS 270
WOMEN IN CARIBBEAN SOCIETIES
Undergraduate
This is a survey course which focuses on the diverse social, cultural and political realities of women in the Caribbean region across and within historical periods marked by colonialism, slavery and indentureship; anti-colonial, nationalist and labor movements; economic globalization and the emergence of the postcolony. Drawing on primary documents, images, feminist postcolonial writings, the course investigates how women of indigenous, African, Chinese, Indian and multiracial (or “mixed”) descent have been positioned within various societies, and in relationship to each other. Topics covered include visual representations of women, gender and sexuality; forms of resistance and political engagement; motherhood, reproduction and the State; women in various religious traditions; work and economic status; social class, color and femininities; popular culture.

WGS 275
BLACK FEMINIST THEORIES IN A U.S. CONTEXT
Undergraduate
This course introduces students to the major figures, statements, and movements that shape Black feminist thinking, writing and activism in the United States. Issues examined may include social and economic equity, beauty and voice, activism and social change; and the exploration of identity and subjectivity through the lens of intersectionality, including race, gender, sexual orientation, class, citizenship, and immigrant status. Throughout we will consider Black feminist thought's situatedness in larger frameworks of Western feminist thought and its linkages with international feminist discourses.

WGS 290
SPECIAL TOPICS
Undergraduate
See course schedule for current offerings.

WGS 300
FEMINIST THEORIES
Undergraduate
Disagreements about what counts as feminist theory have raged as the borders of feminist discourse have shifted over the past two and a half decades. Yet most feminists continue to insist that sex/gender be considered basic categories of analysis and theory. Broadly conceived, feminist theory--historical or contemporary--represents an attempt to understand and interpret the roots and causes of women's place in the world. This course examines how different theoretical perspectives address gender, class, racial, and sexual inequalities and the method(s) proposed for social change. Students will be required to critically engage these theories in terms of how they address the commonalities and differences among women, especially insofar as these are grounded in race, class, and sexual identifications and dissonances. This course is a core requirement for the Women's & Gender Studies major.

WGS 250 is a prerequisite for this course.

WGS 303
GENDER, VIOLENCE AND RESISTANCE
Undergraduate
This course explores the social and cultural contexts of interpersonal violence in women's lives, with a focus on domestic violence, rape, harassment. The course seeks to understand how gender, race, class, sexuality, and national differences and inequalities shape the experiences of violence, the social and institutional responses to violence, and strategies for resistance and change.
WGS 306
GENDER AND FAMILIES
Undergraduate
Gender and Families is an upper-level undergraduate course that considers issues raised by the diverse roles that women, men, and children play in families. It focuses particular attention on the social construction of gender in families, and examines families in their social, economic, and political contexts. Topics covered include adult intimate relationships, the social construction of motherhood and fatherhood, and shifting gender relations of power in families, family stress and adaptation, and the impact of social policies on families' lives.

WGS 307
WOMEN IN THE MIDDLE EAST: BEYOND THE VEIL
Undergraduate
This course explores how Middle Eastern Women have been represented in the media outside of the Middle East, by Arab women scholars, and “Third World” feminists and challenges these representations by focusing on issues such as veiling, the everyday lives of Middle Eastern Women, political activism, literary works, economics and social class, and media representations.

WGS 310
FEMINIST ETHICS
Undergraduate
This course explores theoretical issues regarding women's moral experience and feminist approaches to liberation from various forms of socio-cultural and political oppression. It explores the moral status of women from their own experiences and perspectives, in contrast to traditional Western ethics' characterizations. It examines and evaluates the ethic of care as an alternative moral perspective and investigates a variety of themes and values discerned in women's moral experiences. It explores feminist ethical perspectives on oppressive social practices, such as racism and violence against women, and examines the ethical dimensions of difference among women.

WGS 314
ANTIRACIST FEMINISMS
Undergraduate
This course introduces students to the wide array of feminist thinking regarding ideologies of race, racism, white privilege, ethnocentrism, racial and ethnic identifications, and their relationship to gender, class, sexual and national identities and locations. The ways that racism has divided women's movements and feminist organizations will be examined along with the work of feminist scholars, writers, activists, and advocates who have articulated explicitly anti-racist theories, analyses, and programs within the U.S. as well as internationally.

WGS 316
REPRESENTATIONS OF THE BODY
Undergraduate
This course reflects the current explosion of intellectual interest in the body as a site of cultural meaning. We will enter this discussion by examining how the body, which seems to be a natural, universal fact, is also a deeply cultural symbolic construction. The readings attempt to capture the complexity of this evolving field using a multidisciplinary approach, including such fields as history, art, medicine, philosophy, religion, sociology, women's studies, and cultural studies. The course addresses the questions of how the body is socially created and sustained. It explores those questions in terms of tensions between nature and culture (to what extent is the body natural? cultural?), body and spirit (what does human "embodiment" mean? are we our physical bodies -and nothing else?), and how discourses of power converge in and on the body (gender/race/class/age/ability). Course topics include: the meaning of physical pain in Western history; the personal experience of and social construction of race in the U.S., with its background assumptions about skin color; the social constructions of gender, sexualities, and sexual desire; personal experience and the cultural "readings" and representations of male and female, old, disabled, and transgressive bodies; socio-cultural "readings" of physical violence pertaining to both victim and perpetrator.

WGS 320
TRANSFORMATIVE JUSTICE: THEORY AND PRACTICE
Undergraduate
This course introduces students to transformative justice responses to violence that do not rely on state institutions. These include collective processes for support and healing, intervention, accountability, and prevention. The pedagogical praxis of learning will be through communal peacemaking circles and collective strategy sessions to create community responses to violence. Cross-listed as WGS 420.
WGS 322
FEMALE IDENTITIES: YOUNG ADULT LITERATURE
Undergraduate
This course is an introduction to Young Adult Literature as a genre and explores how this literature relates to adolescent girls' experiences in diverse cultural contexts. It addresses themes related to physical and emotional development, the development of personal values and beliefs; the construction of identity; beliefs and attitudes about the body; interpersonal relationships; gender and sexuality; and coping with change, death, belonging, alienation, and escape. Course materials are multicultural with a focus upon the experiences of female adolescents in terms of ethnicity, culture, gender, religion, disability, as well as other dimensions of difference within national and international contexts.

WGS 324
WOMEN IN THEATRE: A GLOBAL PERSPECTIVE
Undergraduate
This course examines the concepts of gender and theatrical performance with reference to history, culture, critical response, viewer interpretation, and identity in a global context. Students will study character as a dramatic construct with respect to gender, race, and class; it examines how dramatic images are as diverse as their cultural contexts; explores the concepts of reader and viewer response to theater; and interrogates the relationship between the American theatrical image and the larger global context within which images are created.

WGS 326
WOMEN AND LAW
Undergraduate
This course investigates the variety of ways in which women come into relation with the law, e.g., through laws and judicial decisions dealing with equal opportunity. Cross-listed as PSC 363.

WGS 330
LESBIAN LIVES
Undergraduate
This course explores constructions of lesbian lives, politics, and communities in the U.S. using the political cartoons of artist Alison Bechdel as a primary text, along with theoretical and historical readings. Students examine the constructions of identities and politics within lesbian culture, paying particular attention to how these have changed and evolved over time, and how community can be created and sustained. Cross-listed with WGS 430.

WGS 332
CREATING CHANGE: CONTEMPORARY GLBT POLITICS
Undergraduate
This course explores the historical roots and contemporary realities of gay, lesbian, bisexual and transgendered (GLBT) politics, nationally and internationally. GLBT groups and individuals are gaining political recognition, challenging institutions, and creating change by asserting claims to rights and protections under law. Such issues as hate crimes, marriage, AIDS, and ballot initiatives over non-discrimination law and policy have entered the political mainstream since the 1970's. This course examines the GLBT movement, its political and social strategies, conflicts and issues, and the political roles played by its members as participants in political culture. Cross-listed as PSC 312 and LGQ 332.

WGS 334
GROWING UP FEMALE IN A GLOBAL CONTEXT
Undergraduate
This course will address issues related to growing up female and coming of age in the 21st century within a global context. We will focus on the following questions, what does it mean to be female, a girl, a young woman in diverse cultural and cultural contexts, examining the ways in which community, family, peers, schools and relationships with others, popular culture and public policy influence their lived experiences, attitudes, beliefs, behaviors, choices and possibilities. The analytical framework will be rooted in understanding how the intersections of race, ethnicity, class, sexual orientation, religion, and belief systems influence notions of the self, the body, and the construction of female identities.

WGS 336
WOMEN AND FILM
Undergraduate
This course explores one or more ways in which film as art, as cultural product, or as industry has dealt with women, as subjects, artists, consumers or critics of film.
WGS 338
SEXUAL JUSTICE: LESBIANS, GAYS AND THE LAW
Undergraduate
This course examines the historical and contemporary relationships between lesbians, gays, and the law in the U.S., focusing on the intersections of power, sexuality, and identity with issues of sexuality-based discrimination. It focuses on case law, along with social science and legal literature, seeking out a diversity of voices and experiences. Primary emphasis will be on cases that have come before the U.S. Supreme Court since the mid-1950's, with particular attention paid to how groups and individuals have reached out to the court system for redress of injustice and how these groups and individuals have exercised or failed to exercise power within the legal process. The U.S. legal system has reflected a complex set of social and institutional arrangements with regard to sexuality. This course explores the evolution and current construction of these arrangements, how power is allocated and adjudicated, and how law may be used to resist and dismantle pervasive discrimination. Cross-listed with WGS 438.

WGS 345
WOMEN, WAR AND RESISTANCE
Undergraduate
This course aims to make feminist sense of contemporary wars and conflicts. It analyzes the intersections between gender, race, class, and ethnicity in national conflicts. The class traces the gendered processes of defining citizenship, national identity and security, and examines the role of institutions like the military in the construction of femininity and masculinity. The course focuses on the gendered impact of war and conflict through examining torture, mass rape, genocide, and refugee displacement. It analyzes the strategies used by women's and feminist movements to oppose war and conflict, and the gendered impact of war prevention, peacekeeping, and post-war reconstruction. The class draws on cases from Africa, the Americas, Asia, Europe, and the Middle East and North Africa. The class is interdisciplinary and gives equal weight to theory and practice while drawing on writings by local and global activists and theorists.

WGS 350
GENDER EQUITY IN SCOTLAND
Undergraduate
This course explores issues of gender equity in Scotland today and their relation to the gender and human rights policy agenda of the United Nations. While in Chicago students will examine theoretical models upon which the Scottish gender equity agenda is based, and then travel to Scotland, where students will witness first hand the realities and experiences of institutionalizing those mechanisms. The course offers students experiential learning opportunities as they meet key players in Scots academic and policy communities who have been integrally involved in Gender Equity Initiatives.

WGS 352
GENDER, COMMUNITY, AND ACTIVISM: COMMUNITY-BASED LEARNING IN WGS
Undergraduate
Gender, Community, and Activism : Community-Based Learning in WGS is an interdisciplinary experiential/service learning seminar designed for undergraduate and graduate students in the field of Women's and Gender Studies. In an effort to provide students with an experience that integrates the feminist-informed theoretical work of the classroom with practical application in the community, the course will pair students with internship opportunities at community-based organizations that focus on a cause/issue related to their particular area of scholarly interest. The course is designed to encourage learning by doing and reflecting, where students will be asked to reflect on their internship experiences outside of the classroom through course readings, written assignments, and class discussion.

WGS 354
CONTEMPORARY KNITTING: GENDER, CRAFT, AND COMMUNITY SERVICE
Undergraduate
This course will explore the gendered history of knitting and its contemporary popularity as both a creative leisure-time activity and a means of providing community service. The social history and social construction of a gendered division of labor surrounding knitting, with its complexities, provide the theoretical foundation of the course. Students will learn the basic techniques of knitting and will be expected to practice their new skills in- and out-side of the classroom. They will reach a level of proficiency sufficient to producing a minimum of three contributions to service knitting projects.

WGS 355
WOMEN AND ART
Undergraduate
This class considers both the history of women artists and representations of women from other cultures around the world, from prehistory to the contemporary era. In addition, it will introduce feminist methodologies that can be applied to specific case studies. Cross-listed with HAA 366, WGS 455 and MLS 474.

100/200-level History of Art and Architecture course or instructor permission is a prerequisite for this course.
WGS 375  
**FEMINISMS OF THE BLACK DIASPORA**  
*Undergraduate*  
This course is designed to offer a critical examination of black women's experiences and thought within a global and transnational framework. The course examines works by and about black women in diverse social, political, and geographical contexts: the continent of Africa, Western Europe, Canada, Latin America, the Caribbean, and Australia. Topics to be explored will include issues of politics and ideology; power and inequality based on intersectionality of race and other dimension of identity; agency, activism, and social movements; the mass media, popular culture and social policies. Cross-listed with WGS 475.

WGS 378  
**UTOPIAN AND DYSTOPIAN LITERATURE AND FILM: GENDER, RACE AND BEYOND**  
*Undergraduate*  
What does the future hold for humankind on this planet and elsewhere? What will life be like in the not too distant as well as far distant futures? How will societies be organized? What kinds of cultural milieus will shape life and living? How will identities be articulated and negotiated? Who will govern? Who will be in resistance? Who will be present and who will be absent? How will things come to be? These questions will form the core of our study of a genre devoted to social commentary, envisioning vastly different ideas about the future, emergent from 20th century works.

WGS 386  
**BLACK WOMEN'S EXPERIENCES: VARIABLE TOPICS**  
*Undergraduate*  
Topics vary. This course is designed to address issues related to the particular experiences of women in the Black Diaspora. Topics will vary in terms of their particular focus in addressing issues that are important to understanding Black women's experiences in a US context and globally--making interconnections to the experiences of women of other ethnic, cultural, and national backgrounds. The course will provide occasions for students to study and examine issues such as Black women's cultural criticism, Black women in the arts, engagement in activism and social and political movements--literature and the media. Cross-listed with WGS 486 and ABD 386.

WGS 387  
**TEEN VIOLENCE PREVENTION**  
*Undergraduate*  
This course is an interdisciplinary experiential/service learning seminar in which students will participate in, and critically reflect upon, a relationship violence prevention program in Chicago area high schools. This class will explore adolescent development, considering the ways in which economic, social, political and cultural contexts influence that development. In addition, we will focus on adolescent relationships, group work with teens, aggression and violence in intimate -- in particular teen -- relationships, and evaluation of programs to prevent teen violence. Each week students will address a set of theoretical and/or practical themes that in some way relate to teen violence and aggression, as well as prevention of such violence. Discussions of each theme will draw on course readings, lecture materials, and perhaps most importantly, students' experiences working with teens in schools.

WGS 388  
**QUEER THEORY: AN INTRODUCTION**  
*Undergraduate*  
This course examines some of the central texts of queer theory in order to contextualize and historicize the notion of homosexuality as a primary category of identity. The issue of sexual normativity as it relates to gay and lesbian assimilation will also be discussed. Because of the significant relationship of gender and sexuality, we will also examine theories of embodiment and take up the debates around the politics of intersex and transgender identities. Formerly WMS 284.

WGS 390  
**WOMEN ACROSS CULTURES**  
*Undergraduate*  
A critical analysis of the experiences of women around the world in diverse social contexts, examined through different disciplines, with a special emphasis on economics, politics and culture. Focus is on African, Asian and Latin American cultures and nondominant groups within western societies. (Cross-listed as WGS 490 and MLS 441)

WGS 391  
**METHODS AND SCHOLARSHIP IN WOMEN'S STUDIES**  
*Undergraduate*  
An exploration of the transforming effects that feminist methodologies and scholarship have had in the social sciences and humanities. This course emphasizes interdisciplinary research approaches, feminist publishing, and the interplay of research and activism, as it prepares students to write a research proposal. Not recommended for non-majors. (Cross-listed as WGS 491)
WGS 392
INTERNSHIP
Undergraduate
By arrangement. Variable credit.

WGS 394
WOMEN, SELF, AND SOCIETY SEMINAR
Undergraduate
Women, Self and Society Seminar (cross-listed as Women's and Gender Studies 480 and Master's of Liberal Studies 468). Variable Topics. See course schedule for current offerings.

WGS 395
WOMEN'S STUDIES ADVANCED SEMINAR
Undergraduate
The Advanced Seminar emphasizes interdisciplinary methodology and students' independent research. Designed to be an integrating experience, the seminar will focus on discussion, response to research, and blending theory and application. Not recommended for non-majors
WGS 391 or instructor permission is a prerequisite for this course.

WGS 398
TRAVEL/STUDY
Undergraduate
(Cross-listed with WGS 498)

WGS 399
INDEPENDENT STUDY
Undergraduate
By arrangement. Variable credit.

WGS 400
FEMINIST THEORIES
Graduate
This course is designed to provide you with an introduction to the development of some contemporary feminist theories: local, global, transnational. The theories are interpretive frameworks to analyze, understand and act in the world. The theorists/writers offer concepts to critically analyze structures and practices of oppression, privilege, resilience, and resistance; they provide frameworks for conducting feminist research, advocacy, and activism for personal, social, intellectual, and/or political change and transformation. In this course, we will examine how these theoretical perspectives seek to understand and address various systems of inequality and power and the method(s) that we - theorists, scholars, researchers, advocates, activists, artists, writers - propose for change. We will discuss how these various feminisms continue to develop and evolve in relation to one another and to changing historical, political, social, economic contexts. Cross-listed with MLS 440.

WGS 406
GENDER AND FAMILIES
Graduate
This course considers issues raised by the diverse roles that women, men, and children play in families. It focuses particular attention on the social construction of gender in families, and examines families in their social, economic, and political contexts. Topics covered include adult intimate relationships, the social construction of motherhood and fatherhood, and shifting gender relations of power in families, family stress and adaptation, and the impact of social policies on families' lives.

WGS 407
WOMEN IN THE MIDDLE EAST: BEYOND THE VEIL
Graduate
This course explores how Middle Eastern Women have been represented in the media outside of the Middle East, by Arab women scholars, and "Third World" feminists and challenges these representations by focusing on issues such as veiling, the everyday lives of Middle Eastern Women, political activism, literary works, economics and social class, and media representations.
WGS 410
FEMINIST ETHICS
Graduate
This course explores theoretical issues regarding women's moral experience and feminist approaches to liberation from various forms of socio-cultural and political oppression. It explores the moral status of women from their own experiences and perspectives, in contrast to traditional Western ethics characterizations. It examines and evaluates the ethic of care as an alternative moral perspective and investigates a variety of themes and values discerned in women's moral experiences. It explores feminist ethical perspectives on oppressive social practices, such as racism and violence against women, and examines the ethical dimensions of difference among women.

WGS 414
ANTIRACIST FEMINISMS
Graduate
This course introduces students to the wide array of feminist thinking regarding ideologies of race, racism, white privilege, ethnocentrism, racial and ethnic identifications, and their relationship to gender, class, sexual and national identities and locations. The ways that racism has divided women's movements and feminist organizations will be examined along with the work of feminist scholars, writers, activists, and advocates who have articulated explicitly anti-racist theories, analyses, and programs within the U.S. as well as internationally.

WGS 415
CONTENTIONS IN FEMINIST AND GENDER THEORIZING: NEW DIRECTIONS
Graduate
This course addresses different aspects of feminist and gender theorizing and their interrelationships, focusing on exploration and critical examination of controversies and debates in the field. The course content engages students in examining philosophical, ideological, social, political, and cultural fault lines that offer opportunities to deepen and extend our understandings about discourses on women's and gender studies constructions and negotiations, in the late 20th century as well as in the early 21st century. The lens through which particular issues and ideas are viewed draws upon multiple perspectives, taking into consideration issues of culture and context, grounded in examining specificities of the local in relationship to global or transnational dynamics.

WGS 416
REPRESENTATIONS OF THE BODY
Graduate
This course reflects the current explosion of intellectual interest in the body as a site of cultural meaning. We will enter this discussion by examining how the body, which seems to be a natural, universal fact, is also a deeply cultural symbolic construction. The readings attempt to capture the complexity of this evolving field using a multidisciplinary approach, including such fields as history, art, medicine, philosophy, religion, sociology, women's studies, and cultural studies. The course addresses the questions of how the body is socially created and sustained. It explores those questions in terms of tensions between nature and culture (to what extent is the body natural? cultural?), body and spirit (what does human "embodiment" mean? are we our physical bodies -and nothing else?), and how discourses of power converge in and on the body (gender/race/class/age/ability). Course topics include: the meaning of physical pain in Western history; the personal experience of and social construction of race in the U.S., with its background assumptions about skin color; the social constructions of gender, sexualities, and sexual desire; personal experience and the cultural "readings" and representations of male and female, old, disabled, and transgressive bodies; socio-cultural "readings" of physical violence pertaining to both victim and perpetrator.

WGS 420
TRANSFORMATIVE JUSTICE: THEORY AND PRACTICE
Graduate
This course introduces students to transformative justice responses to violence that do not rely on state institutions. These include collective processes for support and healing, intervention, accountability, and prevention. The pedagogical praxis of learning will be through communal peacemaking circles and collective strategy sessions to create community responses to violence. Cross-listed with WGS 320.

WGS 422
FEMALE IDENTITIES: YOUNG ADULT LITERATURE
Graduate
This course is an introduction to Young Adult Literature as a genre and explores how this literature relates to adolescent girls' experiences in diverse cultural contexts. It addresses themes related to physical and emotional development, the development of personal values and beliefs; the construction of identity; beliefs and attitudes about the body; interpersonal relationships; gender and sexuality; and coping with change, death, belonging, alienation, and escape. Course materials are multicultural with a focus upon the experiences of female adolescents in terms of ethnicity, culture, gender, religion, disability, as well as other dimensions of difference within national and international contexts.
WGS 424  
**WOMEN IN THEATRE: A GLOBAL PERSPECTIVE**  
*Graduate*  
This course examines the concepts of gender and theatrical performance with reference to history, culture, critical response, viewer interpretation, and identity in a global context. Students will study character as a dramatic construct with respect to gender, race, and class; it examines how dramatic images are as diverse as their cultural contexts; explores the concepts of reader and viewer response to theater; and interrogates the relationship between the American theatrical image and the larger global context within which images are created.

WGS 426  
**WOMEN AND LAW**  
*Graduate*  
This course investigates the variety of ways in which women come into relation with the law, e.g., through laws and judicial decisions dealing with equal opportunity.

WGS 430  
**LESBIAN LIVES**  
*Graduate*  
This course explores constructions of lesbian lives, politics, and communities in the U.S. using the political cartoons of artist Alison Bechdel as a primary text, along with theoretical and historical readings. Students examine the constructions of identities and politics within lesbian culture, paying particular attention to how these have changed and evolved over time, and how community can be created and sustained. Cross-listed with WGS 330.

WGS 432  
**CREATING CHANGE: CONTEMPORARY GLBT POLITICS**  
*Graduate*  
This course explores the historical roots and contemporary realities of gay, lesbian, bisexual and transgendered (GLBT) politics, nationally and internationally. GLBT groups and individuals are gaining political recognition, challenging institutions, and creating change by asserting claims to rights and protections under law. Such issues as hate crimes, marriage, AIDS, and ballot initiatives over non-discrimination law and policy have entered the political mainstream since the 1970's. This course examines the GLBT movement, its political and social strategies, conflicts and issues, and the political roles played by its members as participants in political culture.

WGS 438  
**SEXUAL JUSTICE: LESBIANS, GAYS AND THE LAW (CROSS-LISTED AS WGS 338)**  
*Graduate*  
This course examines the historical and contemporary relationships between lesbians, gays, and the law in the U.S., focusing on the intersections of power, sexuality, and identity with issues of sexuality-based discrimination. It focuses on case law, along with social science and legal literature, seeking out a diversity of voices and experiences. Primary emphasis will be on cases that have come before the U.S. Supreme Court since the mid-1950's, with particular attention paid to how groups and individuals have reached out to the court system for redress of injustice and how these groups and individuals have exercised or failed to exercise power within the legal process. The U.S. legal system has reflected a complex set of social and institutional arrangements with regard to sexuality. This course explores the evolution and current construction of these arrangements, how power is allocated and adjudicated, and how law may be used to resist and dismantle pervasive discrimination.

WGS 440  
**GENDERED COMMUNICATION (CROSS-LISTED WITH CMN 523)**  
*Graduate*  
Examines research into the ways the various aspects of communication are affected by and affect the social construction of gender. Topics covered include language and language usage differences, interaction patterns and perceptions of the sexes generated through language and communication. (Cross-listed as CMNS 523)
WGS 445  
**WOMEN, WAR AND RESISTANCE**  
Graduate  
This course aims to make feminist sense of contemporary wars and conflicts. It analyzes the intersections between gender, race, class, and ethnicity in national conflicts. The class traces the gendered processes of defining citizenship, national identity and security, and examines the role of institutions like the military in the construction of femininity and masculinity. The course focuses on the gendered impact of war and conflict through examining torture, mass rape, genocide, and refugee displacement. It analyzes the strategies used by women's and feminist movements to oppose war and conflict, and the gendered impact of war prevention, peacekeeping, and post-war reconstruction. The class draws on cases from Africa, the Americas, Asia, Europe, and the Middle East and North Africa. The class is interdisciplinary and gives equal weight to theory and practice while drawing on writings by local and global activists and theorists. Cross-listed as WGS 345.

WGS 452  
**GENDER, COMMUNITY, AND ACTIVISM: COMMUNITY-BASED LEARNING IN WGS**  
Graduate  
Gender, Community, and Activism: Community-Based Learning in WGS is an interdisciplinary experiential/service learning seminar designed for undergraduate and graduate students in the field of Women's and Gender Studies. In an effort to provide students with an experience that integrates the feminist-informed theoretical work of the classroom with practical application in the community, the course will pair students with internship opportunities at community-based organizations that focus on a cause/issue related to their particular area of scholarly interest. The course is designed to encourage learning by doing and reflecting, where students will be asked to reflect on their internship experiences outside of the classroom through course readings, written assignments, and class discussion.

WGS 455  
**WOMEN AND ART**  
Graduate  
Examines the work of the most significant women artists from the Renaissance to the present. It will also investigate how women have been represented in Western art by both male and female artists. (Cross-listed as MLS 474 and ART 356)

WGS 460  
**GENDER AND SOCIETY**  
Graduate  
Attention to the growing literature and empirical research on changing patterns in economic, psychological, and social outcomes for women and men. Consideration of various theories of gender differentiation and equality. (Cross-listed as MLS 447 and SOC 470)

WGS 465  
**GLOBALIZATION, TRANSNATIONALISM, AND GENDER**  
Graduate  
This course examines how gender-based inequities are linked to global and transnational politics of power, security, political economy, militarism, and ecology. There will be a focus on how gender roles, relationships, and identities are constructed, deployed, challenged, and resisted around the globe, paying particular attention to how systems and structures of gender, race, class, sexuality, age, ability, culture, religion, nation etc. are interconnected. It will explore how resistance to structural inequities is constructed within and across national boundaries, paying particular attention to the role of non-governmental organizations (NGOs) worldwide and how the responses of NGOs to crises (e.g., nuclearism, uneven economic development, environmental degradation) highlight the shortcomings of state-centered decision making.

WGS 470  
**ADVANCED PSYCHOLOGY OF WOMEN AND GENDER**  
Graduate  
A review of research and theory on women's and gender, including sexist biases and methodology, feminist therapy, violence against women, and gender differences in the development of power and sexuality. Cross-listed as MLS 478 and PSY 561.

WGS 475  
**FEMINISMS OF THE BLACK DIASPORA**  
Graduate  
This course is designed to offer a critical examination of black women's experiences and thought within a global and transnational framework. The course examines works by and about black women in diverse social, political, and geographical contexts: the continent of Africa, Western Europe, Canada, Latin America, the Caribbean, and Australia. Topics to be explored will include issues of politics and ideology; power and inequality based on intersectionality of race and other dimension of identity; agency, activism, and social movements; the mass media, popular culture and social policies. Cross-listed with WGS 375.
What does the future hold for humankind on this planet and elsewhere? What will life be like in the not too distant as well as far distant futures? How will societies be organized? What kinds of cultural milieus will shape life and living? How will identities be articulated and negotiated? Who will govern? Who will be in resistance? Who will be present and who will be absent? How will things come to be? These questions will form the core of our study of a genre devoted to social commentary, envisioning vastly different ideas about the future, emergent from 20th century works.

Topics vary. See schedule for current offerings. [Cross-listed as MLS 468 and WGS 394]
WGS 493
FINAL PROJECT INDEPENDENT RESEARCH
Graduate
This course involves individual investigation and research (toward completion of the Master's thesis, project, or portfolio) under the supervision of a faculty member. A minimum of 4 credit hours required. Course can be repeated for a total of 8 credit hours.

WGS 495
SPECIAL TOPICS IN WOMEN'S STUDIES
Graduate
Topics vary. See schedule for current offerings.

WGS 496
CANDIDACY CONTINUATION
Graduate
Students who must take extra time to complete the requirements for the Master's thesis, project, or portfolio must enroll in candidacy continuation each quarter of the academic year until this Master's requirement has been completed. Non-credit, $40.00 per quarter.

WGS 497
CANDIDACY MAINTENANCE
Graduate
Masters candidates who are not actively working on their thesis, project, or portfolio during a given quarter but who want to maintain active university status can register for this course by permission of the graduate director. This course does not maintain student status for purposes of student loans. Non-credit, $40.00 per quarter.

WGS 498
FOREIGN STUDY
Graduate
Foreign Study

WGS 499
INDEPENDENT STUDY
Graduate

WLE 326
THEORETICAL FOUNDATIONS OF ESL AND WLE
Undergraduate
Presents an introduction to the field of second and world language, with attention to basic concepts of second language acquisition in various language learning contexts. Discusses interdisciplinary perspectives of second and world language acquisition and their application to classroom practices. Topics include interlanguage, communicative competence, D/discourses, investment/motivation, sociocultural approaches to language learning, universal grammar, etc. The different factors influencing the acquisition of ESL and WLE are examined as well as current research in applied linguistics and different approaches to language teaching.

WLE 349
STANDARD AND CONTENT-BASED METHODS OF TEACHING WORLD LANGUAGES K-12
Undergraduate
This course prepares candidates to teach world languages at the elementary, middle and secondary school levels consonant with an aligned approach to meeting national and state WLE standards and Common Core standards. It examines the theory and practice of traditional or standard methods of teaching world languages (e.g., communicative approach, natural approach, etc.) with an emphasis on developing alternative, post-method strategies and using diverse resources, as well as on reformulating world languages instruction to integrate subject matter content into the curriculum, including science, social studies, math, fine arts, etc. Engages candidates in understanding and applying the ?Five Cs??Communication, Cultures, Connections, Comparisons, and Communities outlined in the national standards?toward this end. Lesson and unit development, evaluation/assessment, and classroom management also will be discussed. Issues that emerge in planning and instruction are discussed and deliberated through university classroom experiences as well as required fieldwork (20/15 hours; level 1 in language of certification).

Advanced Teacher Candidate Standing is a prerequisite for this class.
WLE 360
SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION K-12
Undergraduate
This course is an introduction to the theoretical study of second, world and heritage language acquisition (SLA) from a generative and psycholinguistic perspective at the K-12 levels. The content of the class is founded on the major concepts and issues of language acquisition, including UG-access, L1-transfer, age effects, and the acquisition of form vs. meaning. The course pays particular attention to empirical second and world language studies at the syntax/semantics interface. Course readings and discussion examine the complexities of the processes involved in acquiring a world language that includes the relation between first and SLA; contrastive and error analysis; interlanguage; the social and cultural influences on SLA; learner variability; learning strategies; and classroom interaction analysis. Issues surrounding second and world language acquisition are discussed and deliberated through university classroom experiences as well as required field experiences (20/15 hours; level 2).

WLE 370
SECOND & WORLD LANGUAGE LITERACIES AND CULTURES
Undergraduate
This course examines the interdisciplinary study of first, second and world languages and multiple L1 and L2 literacies in their cultural, social, and political contexts, with emphasis on issues of ethnicity, identity, social class, gender, power, and other related topics relative to ideologies of reading and writing the world through reading and writing the word. Especial focus is placed on these topics as they pertain to the extant research on language, literacy, and culture represented in the WLE certification language communities, as well as in the literature, art, music, and popular culture of those communities as means of advocating students' sense of identity as global citizens (20/15 hours; level 1).

WLE 375
WLE HISTORY, POLICY, AND CURRICULUM DEVELOPMENT
Undergraduate
This course engages students in WLE curriculum development and language program advocacy, creation, and sustainability based on an examination of federal and state WLE history and policies and on a review of national and state standards. Reviews theory and application of curriculum development to world language instructional programs, such as design, scope and sequence, organizational patterns, materials and media, teacher training, parent and community involvement, and evaluation. Principal world language education program models are examined and analyzed in light of WLE history, policy, and standards (20/15 hours; level 1).

WLE 384
CAPSTONE IN WORLD LANGUAGE EDUCATION
Undergraduate
This course takes an exam in concurrent with WLE 385, Student Teaching in World Languages. In this course, students will have opportunities to reflect on their student teaching experience and prepare materials to support their employment searches and career as teachers. COREQUISITE(S): WLE 385.

WLE 385
STUDENT TEACHING IN WORLD LANGUAGES
Undergraduate
(12 credits) Student teaching is the culminating experience of the World Languages certification program. It is a ten-week, 30-hour/week experience. Students must successfully complete student teaching with a grade of B- or better in a language classroom in which they are seeking certification to teach. The course is taken concurrently with WLE 384, World Languages Capstone. PREREQUISITE(S): Application and approval required. Open only to DePaul students.

WRD 98
PREPARATION FOR COLLEGE READING
Undergraduate
For students who need extra preparation in the development of college reading skills. Emphasizes development of reading strategies suitable for understanding a range of texts.

WRD 102
BASIC WRITING II
Undergraduate
WRD 102 prepares students for college-level writing by examining composing processes and the way writers function in a community of other writers and readers. The course helps students increase the effectiveness of their writing practices and develop a sense of confidence in themselves as writers. The course is ideal for students with less writing experience or those who want more exposure before taking WRD 103.
WRD 103
COMPOSITION AND RHETORIC I
Undergraduate
An introduction to the forms, expectations, and conventions of writing at the college level. Emphasis on audience analysis, rhetorical stance, and the nature of the composing process.

WRD 103X
COMPOSITION AND RHETORIC I (FOR NON-NATIVE SPEAKERS)
Undergraduate
An introduction to the forms, expectations, and conventions of writing at the college level. Emphasis on audience analysis, rhetorical stance, and the nature of the composing process. These sections are specifically designed for students whose first or dominant language is not English. Students will have the opportunity to focus on writing challenges that are unique to writing in a second or additional language, including increased attention to language skills and to the cultural expectations of U.S. academic audiences. The lower enrollment capacity of this section will allow for greater attention to students’ individual writing needs. These sections address the same course objectives all WRD 103 sections.

WRD 104
COMPOSITION AND RHETORIC II
Undergraduate
Developing a convincing argument with information and evidence drawn from a variety of sources. Emphasis on effective research strategies and professional use of sources.

WRD 104X
COMPOSITION & RHETORIC II (FOR NON-NATIVE SPEAKERS)
Undergraduate
Designed for specifically for non-native English speakers, this course focuses on developing a convincing argument with information and evidence drawn from a variety of sources. Emphasis on effective research strategies and professional use of sources.

WRD 108
COLLEGE READING
Undergraduate
Devoted to the acquisition and development of analytical, critical, and interactive reading skills essential to continued success in college, regardless of intended major. Emphasizes effective reading techniques, vocabulary development, and comprehension improvement applicable to all academic disciplines.

WRD 200
WRITING IN THE DISCIPLINES
Undergraduate
Preparation for writing in academic disciplines. Special attention to forms, conventions, and expectations in university writing at the intermediate level.

WRD 202
PROFESSIONAL WRITING FOR BUSINESS
Undergraduate
Effective organization and design of documents common in business life - letters, memos, reports, and resumes. Attention to audience, purpose, and style. Two quarter hours credit.

WRD 103 or HON 100 is a prerequisite for this course.

WRD 103X or equivalent is a prerequisite for this class.

WRD 104 or HON 100 is a prerequisite for this course.

WRD 104X or equivalent is a prerequisite for this class.
WRD 203
STYLE FOR WRITERS
Undergraduate
This course provides students with opportunities to explore stylistic choices in written prose. Students will examine both published work and their own writing to explore how to manipulate language in specific contexts to achieve specific ends. Writing workshops will help students provide and receive constructive comments aimed at revision of drafts.

WRD 204
TECHNICAL WRITING
Undergraduate
In this course, students learn to communicate and interpret specialized information for readers’ practical use. The course highlights the action-orientated goals of technical writing and the importance of accurately communicating information to users. The course provides an overview of key issues related to technical writing such as usability, audience analysis, designing pages and screens, effective collaboration with peers, interpreting and presenting data, and writing clearly and persuasively. Students learn to write, revise and present common technical writing genres such as instructions, tutorials, manuals, reports, product/process descriptions, proposals, and oral presentations.

WRD 205
HISTORY OF LITERACIES AND WRITING
Undergraduate
Literacy is traditionally defined as the ability to read and write. This course will expand that definition to also explore the technological, cultural, and political aspects of literacy from the earliest archeological record of writing to modern information technology and digital literacy. Students will examine practices and narratives surrounding literacy, learn how both physical media and social power constrain what information gets recorded and how, and question the implications of these constraints on the ways we define and engage literacy and writing.

WRD 206
INTRODUCTION TO PROFESSIONAL WRITING
Undergraduate
In this introductory course, students learn fundamentals of professional writing, with a special focus on distinguishing academic writing from workplace writing. The course provides a solid foundation that students can build on as they develop specializations in their professional fields. Through a series of short assignments, students explore the structure and format of typical professional writing documents, examine a variety of workplace writing situations, and begin developing a clear and concise style appropriate for professional settings. Students analyze and write a number of workplace genres, such as memos, emails, letters, resumes, short reports, web documents, and professional presentations.

WRD 207
INTRODUCTION TO WRITING AND RHETORIC
Undergraduate
An introduction to key concepts in the history of rhetoric, the development and current state of rhetoric and writing, and the impact of rhetoric on contemporary life. The course aims at understanding rhetoric as a theoretical approach, a set of practices, and a discipline.

WRD 208
INTRODUCTION TO REASONED DISCOURSE
Undergraduate
Study of the problems of reasoned discourse, emphasizing invention and construction of arguments for varied audiences.
WRD 104 or HON 100 is a prerequisite for this course.

WRD 209
GENRE AND DISCOURSE
Undergraduate
In this class, students examine how discourse and genres are used to frame issues and instantiate values and beliefs. Students will explore theories of genre and discourse, learn to analyze how genre and discourse operate, understand the relationship of formal features to beliefs and practices, and produce texts in a variety of genres.
WRD 240
ARGUMENTATIVE WRITING
Undergraduate
Students in this course will learn techniques for constructing argumentative writing, working with rhetorical methods of inventing and arranging written arguments. Students will examine different genres of argument, but the focus in the course will be on student production and revision. This course builds on and extends skills in argumentative writing that students gain in the first-year writing program.

WRD 104 or HON 100 is a prerequisite for this course.

WRD 260
RHETORICAL ANALYSIS
Undergraduate
This course will introduce students to methods for analyzing symbolic acts and artifacts in order to understand the perspectives and motivations which shaped them. Students will analyze a variety of rhetorical artifacts from several perspectives including classical rhetoric, argumentation, metaphor, feminism, dramatism, and ethics. Through analysis, students will learn how messages are constructed in order to produce certain effects as well as how to question and respond critically to communication.

WRD 261
DIGITAL CULTURE
Undergraduate
Digital information technologies proliferate in our culture, significantly impacting the rhetorical contexts in which we work and play. This course will explore a variety of topics related to the expansion of digital culture and rhetoric such as the development of the Internet; gaming; the construction of personal and group identity; media convergence; the distribution of work; community, group, and subculture formation online; political and policy issues; cyberterrorism; privacy, and the representation of technology in popular media.

WRD 281
WRITING CENSORSHIP
Undergraduate
An introduction to censorship as both a mechanism of social control and a fundamental element of all rhetorical situations. Explores the history of censorship in the West and engages theoretical questions about the power of language and its suppression as a force for violence. Affords students opportunities to experiment with effective strategies of resistance by writing under varied conditions of censorship.

WRD 281 or HON 100 is a prerequisite for this course.

WRD 282
ETHICS OF PUBLIC AND PROFESSIONAL WRITING
Undergraduate
This course introduces a critical moral philosophical framework for the study of public and professional writing. Students will learn to critique historic and contemporary texts from an ethical perspective. Students will also explore contemporary ethical issues for writing in digital environments and varied professional contexts.

WRD 103 or HON 100 is a prerequisite for this course.

WRD 283
ENVIRONMENTAL WRITING
Undergraduate
In this class, students will develop knowledge, critical thinking skills, and multi-modal literacies that define writing practices in the environmental community. In order to become more proficient writers, students will analyze and practice a range of genres relevant to environmental issues in the workplace and the larger public sphere, from professional documents such as proposals and reports to research articles aimed at the general public and published in traditional or electronic media. Students will also analyze various new-media genres as indicators of public interests and as tools for reaching and engaging diverse audiences. WRD 104 is recommended.

WRD 283
WRITER’S TOOLS WORKSHOP
Undergraduate
Introduction to and practical engagement with specific digital technologies and/or multimodal environments. Two Credit Hours. Tools/topics vary. Can be repeated for credit as topics vary.
WRD 300
COMPOSITION AND STYLE
Undergraduate
Advanced instruction in invention, arrangement, and style, toward developing clear and effective prose styles.

WRD 104 or HON 100 is a prerequisite for this course.

WRD 301
WRITING IN WORKPLACE CONTEXTS
Undergraduate
Students examine the roles of writing (transactional, informative, and persuasive) in professional contexts and learn common features of workplace writing situations (internal vs. external documents, collaboration, distribution of expertise and authority, content management, globalization) and strategies for responding to them. They will also learn about stylistic conventions common to workplace genres (building an effective professional persona through writing - tone, document design) and their typical formats. Theory and analysis will ground discussions of production and production-based projects.

WRD 306
RHETORICAL TRADITIONS
Undergraduate
In this historical survey course, students examine a variety of traditions in rhetorical thought. Students will become familiar with key concepts in the Western rhetorical tradition, while also interrogating the centrality of that tradition by examining marginalized or resistant currents in rhetorical thought.

WRD 309
TOPICS IN WRITING, RHETORIC AND DISCOURSE
Undergraduate
May be repeated for credit as topics vary. See schedule for current offerings.

WRD 103 or HON 100 is a prerequisite for this course.

WRD 320
TOPICS IN PROFESSIONAL WRITING
Undergraduate
May be repeated for credit as topics vary. This course provides students opportunities to explore concepts in depth and apply specialized practices related to a rotating selection of dedicated topics in technical and professional writing.

WRD 321
WRITING IN THE LEGAL PROFESSION
Undergraduate
This course explores the role of writing, thinking, and problem-solving in legal contexts. Students will gain an understanding of the principles involved in writing effective narrative and persuasive prose for a variety of legal purposes, and be able to apply these principles to their own writing.

WRD 104 or HON 100 is a prerequisite for this course.

WRD 322
WRITING AND METADATA
Undergraduate
Writing in digital environments often involves layers of information beyond the written text itself, ranging from the markup languages that identify and structure the text, to hashtags and similar grouping data. Students in this class explore the way those additional layers shape meaning and rhetorical strategies in for both human and machine readers in digital environments; the semantic elements of markup languages; and cultural understandings of metadata, machine reading, and privacy.

WRD 104 or HON 100 is a prerequisite for this course.
WRD 323  
EDITING  
Undergraduate  
Students will explore a range of practices associated with the revision of prose for publication. Students will learn to edit for style and consistency at the document, paragraph, and sentence levels. They will also compare and learn to apply differing style guides, learn technologies central to modern editorial practice, and examine related topics such as the Plain Language Movement and preparing documents for translation.

WRD 330  
LANGUAGE AND LINGUISTICS  
Undergraduate  
This course introduces students to major concepts in and approaches to studying language, covering topics such as language structure, language acquisition, dialect variation, language and identity, language policy, and literacy. The course presumes no prior knowledge of linguistics and will be relevant to students studying in a wide variety of majors.  
WRD 104 or HON 100 is a prerequisite for this course.

WRD 340  
WRITING AND REVISING  
Undergraduate  
This course operates on the assumption that the secret to strong writing is revision. Students will learn about theories of revision, studying how successful writers revise, and will then put those techniques into practice. The goal of the course is to develop strategies and understanding of the rhetorical situations of writing in different contexts. Students will work on developing voice, taking ownership of work, and creating strong, well supported arguments.

WRD 360  
TOPICS IN RHETORIC  
Undergraduate  
May be repeated for credit as topics vary. This course provides students opportunities to explore concepts in depth and apply specialized practices related to a rotating selection of dedicated topics in the theory and history of rhetoric.

WRD 361  
TOPICS IN ALTERNATIVE RHETORICS  
Undergraduate  
Women, ethnic minorities, gay/lesbian/and transgender writers, and individuals with disabilities are forced to navigate the dominant culture through strategies that draw upon and transform dominant cultural practices. Courses in this topics category will consider questions raised by alternative rhetorics and examine the way rhetorical acts construct such categories and shape the ways in which people are included or excluded from social groups and movements through language use. Students will examine and assess these mediation strategies while also developing theoretical frameworks to analyze and understand them. May be repeated for credit as topics vary.

WRD 362  
SEMIOTICS  
Undergraduate  
Nonverbal codes and their implications for understanding rhetoric and culture.

WRD 363  
VISUAL RHETORIC  
Undergraduate  
As both consumers and producers, we engage daily with a variety of textual and graphical elements. Participation in this course encourages critical consideration of such encounters. Students will examine the assumptions and practices that inform the authorship and interpretation of both print-based and electronic texts. The course will explore cultural and rhetorical frameworks for understanding, evaluating, and composing visual elements in various media.
WRD 368
GLOBAL ENGLISHES
Undergraduate
At the start of the 21st century, English is a global language used in commerce, technology, research, education, and even popular culture around the world. This course explores the role and nature of the English language in a global context. Course readings and discussions will examine the historical context and cultural legacy of the spread of English, global varieties of English, uses and contexts of English, issues of ownership and identity, and the future of English.

WRD 376
FIELDWORK IN ARTS WRITING
Undergraduate
The study and production of writing about art as social engagement, this course explores various genres of arts writing and their functions from the perspective of critic and artist. Combines fieldwork in the Chicago arts scene "collaborating and conversing with artists and professional writers" with classroom-based discussion. Students produce a portfolio of writing about art in a variety of genres including the critical, informative, and reflective.

WRD 377
WRITING AND SOCIAL ENGAGEMENT
Undergraduate
Using writing within community service. See schedule for current offerings.

WRD 378
TEACHING ENGLISH AS A SECOND LANGUAGE IN CHICAGO
Undergraduate
Students explore the theory and practice of learning and teaching English as a Second Language (ESL) through readings and classroom discussion while teaching or tutoring adult ESL learners at a Chicago-area community center. Classroom and service experiences together help students develop an understanding of second language learning, teaching strategies and approaches, and issues of immigration and language policy in both U.S. and global contexts. (Can count for both JYEL credit and minor credit.)

WRD 390
RHETORIC AND PUBLIC WRITING
Undergraduate
This course encourages a reflective stance on the development of the individual writer through the educational process, particularly as that relates to the interplay of the Liberal Studies experience and the WRD major. Students will be asked to look back for the purpose of looking forward, to consider how this broad preparation to excel at rhetorical action across communities of discourse prepares one for public life as a writer. Students will develop a reflective portfolio of prior work and prepare new writing for contexts beyond undergraduate life.

WRD 395
WRITING CENTER THEORY & PEDAGOGY
Undergraduate
Introduction to current theories and practices in writing instruction; prepares students to develop and administer writing centers and to work as writing consultants. (Writing Center practicum required).

WRD 396
WRITING FELLOWS THEORY AND PRACTICE
Undergraduate
A seminar on tutoring writing across the curriculum. Students will read articles and do writing assignments designed to familiarize Fellows with theories of writing and tutoring and to stimulate thinking about the issues these theories raise. This course will also help develop tutoring skills, including practice writing comments on sample papers, participating in mock conferences, and sharing specifics from students' experiences as Fellows.
WRD 398
INTERNSHIP
Undergraduate
An approved internship obtained in consultation with the department's Internship Coordinator. In addition to internship duties, students will produce weekly journal entries that reflect on internship activities and related coursework; and compile a portfolio of written work product developed during the internship. May be repeated for credit.

WRD 399
INDEPENDENT STUDY
Undergraduate
Independent study guided by a faculty member. Written permission of supervising faculty member and by department chair required before registration. May be repeated for credit.

WRD 500
PROSEMINAR
Graduate
An introduction to the intellectual/scholarly traditions of writing studies, rhetorical theory, and discourse. Students learn different theoretical perspectives as well as the field's lexical-conceptual vocabulary, providing a gateway to the field and the program's concentration areas.

Status as a Graduate Writing, Rhetoric and Discourse student is a prerequisite for this class.

WRD 503
ANCIENT RHETORICS
Graduate
A survey of rhetorical theory from ancient Greece and Rome and as well as various Eastern traditions. The course examines important definitions and discussions of rhetoric from Plato to Augustine, with attention to their implications for an understanding of the roles of rhetoric and writing in modern society.

WRD 504
RENAISSANCE AND 18TH CENTURY RHETORICS
Graduate
A survey of developments in rhetoric from the 16th through the 18th centuries. Includes consideration of the vernacular rhetorics of the English Renaissance and analysis of connections between logic, rhetoric and literary criticism in the 18th century, with attention to implications for contemporary studies of language and writing.

WRD 505
CONTEMPORARY RHETORICS
Graduate
A survey of theories and practices in 19th- and 20th-century rhetoric. Examines psychological, social and philosophical roots of contemporary rhetorics and the influence of scientific and literary studies on theories of discourse.

WRD 506
MULTICULTURAL RHETORICS
Graduate
An introduction to written rhetoric and culture. Explores competing conceptions of culture and meanings of literacy, particularly as they relate to American literacy education.

WRD 507
GLOBAL ENGLISHES
Graduate
Explores the role and nature of the English language in a global context, focusing on the historical context and cultural legacy of the spread of English, global varieties of English, uses and contexts of English, issues of ownership and identity, and writing and language instruction. Course content draws upon theoretical models of World Englishes, scholarly debates, descriptions of spoken and written English around the world, and artifacts of global Englishes.
WRD 508
DISCOURSE AND STYLE
Graduate
Explores discourse theory and practice in examining features of style, including linguistic and rhetorical perspectives.

WRD 509
GENRE THEORY AND PRACTICE
Graduate
An overview of the study of non-literary genres, focusing on contemporary theories and practices of genre and genre learning. Students become familiar with various disciplinary perspectives on genre theory, methods for analyzing non-literary genres, and pedagogical approaches to teaching genre in the writing classroom. Explores genres from textual, social, and critical perspectives, considering how genres within social and institutional contexts such as the academy, the workplace, and the public sphere.

WRD 510
TOPICS IN RHETORICAL HISTORY
Graduate
Explores topics in rhetorical history. May be repeated for credit as topics vary.

WRD 511
TOPICS IN COMMUNITY, CULTURE AND IDENTITY
Graduate
Explores topics related to community, culture, and identity from the perspectives of rhetoric and discourse. May be repeated for credit as topics vary.

WRD 512
TOPICS IN LANGUAGE
Graduate
Explores topics related to language and its intersections with rhetoric and discourse. May be repeated for credit as topics vary.

WRD 513
SEMIOTICS
Graduate
An introduction to semiotics, or the study of 'the sign'; a theory of meaning that is concerned with anything intended to or interpreted to stand for something else, including objects, pictures, sounds, gestures, and body language. The course examines the construction of meaning in manifold contexts, extending the notion of 'text' beyond the written page to any artifact that functions as a 'message' embodied in a genre and a medium.

WRD 514
SOCIOLINGUISTICS
Graduate
An introduction to the study of language in social contexts. Explores the principles of language variation and change within social contexts.

WRD 515
THE ESSAY
Graduate
Explores the history of the essay as genre from the Renaissance to the present, compares and contrasts literary essays with those written in most school settings, and offers students the opportunity to write their own extended essays on personal and professional topics.

WRD 520
COMPUTERS AND WRITING
Graduate
Explores the cultural, institutional, professional, and pedagogical implications of digital writing technology, drawing upon theories of technology as well discussions from the field of computers and composition.
WRD 521
TECHNICAL WRITING
Graduate
An introduction to various aspects of technical writing, including readability, document design, editing and usability.

WRD 522
WRITING IN THE PROFESSIONS
Graduate
Improves writing skills useful in semitechnical and nontechnical professions; emphasis on style, tone, awareness of purpose and audience; effective memo, proposal and report design.

WRD 523
EDITING
Graduate
An introduction to editing principles and practices in professional and technical fields.

WRD 524
DOCUMENT DESIGN
Graduate
Theories, concepts, and components of effective document design, including the interrelation of visual displays and written texts across a range of electronic and print genres.

WRD 525
WRITING FOR THE WEB
Graduate
An introduction to various genres of web-based communication and the roles played by writers, readers, and users of web sites. Includes analysis, design, and revision of web-based writing as well as practice producing written documents which accompany the development of web information.

WRD 526
GRANT AND REPORT WRITING
Graduate
An introduction to the purpose and structure of these common workplace genres through analysis of successful documents and guided practice in producing their own.

WRD 530
TOPICS IN PROFESSIONAL AND TECHNICAL WRITING
Graduate
Explores topics in professional and technical writing. May be repeated for credit as topics vary.

WRD 540
TEACHING WRITING
Graduate
Introduction to teaching composition at the secondary and college undergraduate levels. The course helps students develop methods of teaching composition based on modern theories of rhetoric, reading and language acquisition. Formerly ENG 480.

WRD 541
COMPOSITION THEORY
Graduate
Explores the development of contemporary theories of written composition; focuses on contexts for writing, the writing process, and reader-writer relationships.
WRD 542  
URBAN LITERACIES  
Graduate  
Explores the multiple definitions of literacy with a special emphasis on adult literacy in an urban environment. Students examine the relationship between theory and practice, reading about theories of literacy from psychology, cognitive science, education, composition & rhetoric and linguistics while engaging in literacy tutoring at Chicago-area literacy sites.

WRD 543  
TEACHING ESL WRITING  
Graduate  
Provides an overview of the theory and practice of writing in a second language. Examines distinctions between first and second language writing and major issues and dilemmas within the field, including composing processes, error correction and feedback, contrastive rhetoric, culture, course design, plagiarism, and U.S. composition classrooms.

WRD 544  
TEACHING ENGLISH AS A SECOND OR FOREIGN LANGUAGE  
Graduate  
A survey course in the teaching and learning of English as a Second Language (ESL). Familiarizes students with theoretical foundations and basic principles of second language learning and teaching, the components of the major language skills (listening, speaking, reading, writing), and the social and political dimensions of teaching and learning ESL.

WRD 545  
TEACHING WRITING ONLINE  
Graduate  
Explores the teaching of writing in online-supported distance-learning. Introduces students to challenges and best practices and techniques for specific technologies.

WRD 546  
PEDAGOGICAL GRAMMAR  
Graduate  
An introduction to grammar instruction for language and writing classrooms. Introduces students to current research in grammar instruction and applies that research to develop strategies for the instruction of a range of aspects of English grammar, with an emphasis on rhetoric and context.

WRD 547  
AP INSTITUTE IN ENGLISH LANGUAGE AND COMPOSITION  
Graduate  
A workshop designed to help Advanced Placement teachers prepare their students for the AP exam in English Language and Composition and for the demands of college writing. The institute is a week-long, full-day intensive workshop that covers teaching, reading, writing, style, assessment, and argumentation in accelerated high school classes. This course is offered in the summer only.

WRD 550  
TOPICS IN TEACHING WRITING AND LANGUAGE  
Graduate  
Explores topics related to teaching writing and language. May be repeated for credit as topics vary.

WRD 551  
TEACHING APPRENTICESHIP PRACTICUM  
Graduate  
Ongoing support in instructional practice to include grading and responding to student work; facilitating in-class activities such as discussion and peer workshopping; student-teacher conferencing; classroom management; and related topics. Available only to MA in WRD students admitted to the Teaching Apprenticeship Program.

WRD 540 is a prerequisite for this course.
WRD 582
WRITING CENTER THEORY AND PEDAGOGY
Graduate
Introduction to current theories and practices in writing instruction; prepares students to develop and administer writing centers and to work as writing consultants. (Writing Center practicum required.)

WRD 586
WRITING FOR PUBLIC POLICY
Graduate
Specifically for those admitted to the M.S. in Economics and Public Policy Analysis and M.B.A. in Economic Policy Analysis, this course provides instruction in writing and presentation skills that allow students to communicate research findings to economists, non-economists, business executives, interest groups, and public officials.

Status as an MS in Economics and Public Policy Analysis or MBA in Economic Policy Analysis student is a prerequisite for this class.

WRD 587
ACADEMIC WRITING FOR INTERNATIONAL GRADUATE STUDENTS
Graduate
This course is intended for international graduate students, from a broad range of disciplines, writing in English as a second language. Through various assignments and activities, and by investigating texts in their own disciplines, students will develop and practice writing skills such as summarizing, problem-solution texts, data commentary, critiquing, and various aspects of academic grammar and style.

WRD 590
INTERNSHIP IN PROFESSIONAL/TECHNICAL WRITING
Graduate
Internship in professional and/or technical writing. May be repeated for credit.

WRD 591
INTERNSHIP IN TEACHING WRITING AND LANGUAGE
Graduate
Internship in teaching writing and/or language. May be repeated for credit.

WRD 595
INDEPENDENT STUDY
Graduate
Independent study guided by a faculty member. May be repeated for credit.

WRD 597
CANDIDACY MAINTENANCE
Graduate
Masters candidates who are not enrolled in a course during a given quarter but who want to maintain active university status should register for this course by permission of the graduate director. This course does not maintain student status for purposes of student loans. Non-credit, $40.00 per quarter.

WRD 598
THESIS RESEARCH
Graduate
Independent thesis research guided by a WRD faculty member. Written permission of supervising faculty member and of graduate director required before registration. This course may be taken up to two times for credit.

WRD 599
PORTFOLIO
Graduate
A capstone seminar course in which students select, revise, and write supplementary documentation for a collection of their work appropriate to a job search in their area of concentration or for doctoral program application.
Juris Doctor Degree

Law School Full-Time and Part-Time Options

The College of Law has both a full-time and a part-time option. At the end of their first year, students may change from part-time to full-time or vice versa by filing a program change request form with the Office of Student Affairs. The form is available on the law school website: www.law.depaul.edu under Registration. Students may only change their status once while they are enrolled in law school.

Students are advised that a program change may affect their financial aid. For financial aid information, they should see a financial aid counselor in the Office of Financial Aid on the 9th floor of the DePaul Center.

Note that, after full-time students complete their first-year required courses and after part-time students complete their first four semesters of required courses, students may take any course, regardless of the student's part-time or full-time status.

Credit Hour Requirements

Juris Doctor (JD) students must complete 86 credit hours in order to graduate from the College of Law. Full-time students are expected to complete the requirements for the JD degree in three years. Part-time students are expected to complete the JD degree in four years. The maximum time to complete the JD program, if a student takes a leave of absence, is five years.

Maximum Credit Hours

First-year full-time students take 14 or more credit hours per semester. First-year part-time students take 10 or more credit hours per semester.

Upper level full-time students may register for a maximum of 16 credit hours per semester. After their third semester, part-time students may register for a maximum of 12 credit hours per semester.

Minimum Credit Hours

Full-time students must take a minimum of 12 credit hours per semester except that full-time graduating seniors in their final semester need only take the number of credit hours necessary for them to graduate. Part-time students must register for a minimum of nine credit hours per semester except that graduating seniors need only take the number of credit hours necessary for them to graduate.

No Credit for Course Work Taken Prior to Matriculation in the JD Program

The American Bar Association standards provide that no credit may be given toward the JD degree for credits earned before a student matriculates in a JD program.

Required Courses
The following courses must be completed in order to earn the JD degree:

- Civil Procedure
- Constitutional Process
- Contracts
- Criminal Law
- Legal Analysis, Research and Communication (LARC) I, II, and III
- Legal Profession
- Property
- Torts
- One professional skills course
- One advanced writing course

Professional skills courses that fulfill the graduation requirement include:

- Advanced Mediation
- Appellate Technique
- Arbitration
- Arbitration of Commercial Disputes
- Business Planning
- Commercial Arbitration
- Dispute Resolution
- Electronic Discovery
- Emergency Relief & Equitable Remedies
- International Moot Court
- Legal Clinic (any)
- Litigation Lab
- Litigation Strategy (any)
- Mediation
- Moot Court
- Negotiations
- Trial Advocacy I
- Trial Advocacy II

Advanced writing courses that fulfill the graduation requirement include:

- Any Senior Seminar
- Any Legal Drafting course
- Death Penalty Defense Practicum
- Independent Study
- Law and Climate Change

All first-year students are assigned to specific sections and classes for the entire academic year and must complete their courses as assigned. Part-time students who change to full-time after one year must take their remaining required courses as assigned by the College of Law.

Master of Laws (LL.M.) Degree

LL.M. in Health Law Program

LL.M. in Health Law Credit Hours and GPA Requirements

An LL.M. in Health Law student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.5 in order to earn the degree. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters. A summer term is counted as a semester for this purpose. If a student does not meet the degree GPA requirement of 2.5, the student may still earn a Certificate in Health Law if the student completes 18 credit hours with a cumulative GPA of 2.0.

Program Requirements for the LL.M. in Health Law

Courses must be selected from the LL.M. in Health Law courses listed on the College of Law website. Candidates
must enroll in a minimum of seven health law courses in the College of Law and complete the Seminar, Independent Study or Masters Essay requirement. LL.M. students also may enroll in up to three designated courses in the Public Service Management Graduate Program. The LL.M. program may be completed on either a full- or part-time basis but must be completed within five years.

**No Credit for Course Work Prior to Admission to the LL.M. Program**

The American Bar Association mandates that no credit may be given for health law courses taken before a student is accepted into the LL.M. program. Credits earned as part of a JD program do not count toward the LL.M.

**LL.M. in Taxation Program**

**LL.M. in Taxation Credit Hours and GPA Requirements**

An LL.M. in Taxation student must complete 24 semester hours of credit with a minimum cumulative GPA of 2.5 in order to earn the degree. A student is automatically dismissed if he or she has a cumulative GPA of below 2.0 for any three consecutive semesters. A summer term is counted as a semester for this purpose.

**Program Requirements for the LL.M. in Taxation**

Courses must be selected from the LL.M. in Taxation courses. Candidates must complete three required courses and five electives. The LL.M. program may be completed on either a full- or part-time basis but must be completed within five years.

**No Credit for Course Work Prior to Admission to the LL.M. in Taxation Program**

The American Bar Association mandates that no credit be given for taxation courses taken before a student is accepted into the LL.M. program. Credits earned as part of a JD program do not count toward the LL.M.

**LL.M. in Intellectual Property Program**

**LL.M. in Intellectual Property Credit Hours and GPA Requirements**

An LL.M. in Intellectual Property student must complete 24 semester hours of credit with a minimum cumulative GPA of 2.5 in order to earn the degree. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters. A summer term is counted as a semester for this purpose.

**Program Requirements for the LL.M. in Intellectual Property**

Courses must be selected from the LL.M. in Intellectual Property courses. Candidates must complete three required courses and five electives. The LL.M. program may be completed on either a full- or part-time basis but must be completed within five years.

**No Credit for Course Work Prior to Admission to the LL.M. in Intellectual Property Program**

The American Bar Association mandates that no credit be given for intellectual property courses taken before a student is accepted into the LL.M. program. Credits earned as part of a JD program do not count toward the LL.M.

**LL.M. in International Law Program**

**LL.M. in International Law Credit Hours and GPA Requirements**

An LL.M. in International Law student must complete 24 semester hours of credit with a minimum cumulative GPA of 2.5 in order to earn the degree. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters. A summer term is counted as a semester for this purpose.

**Program Requirements for the LL.M. in International Law**

Courses must be selected from the LL.M. in International Law courses listed on the College of Law website. Candidates must complete three required courses and an additional five courses in their area of concentration. The LL.M. program may be completed on either a full- or part-time basis but must be completed within five years.
Credit for Course Work Prior to Admission to the LL.M. in International Law

At the discretion of the program director, students may receive credit for courses previously taken during the foreign equivalent of a JD program.

Joint Degree and Certificate Programs

DePaul University College of Law offers the following joint degree, certificate and graduate programs:

Joint Degree Programs

- JD/MBA
- JD/MA in International Studies
- JD/MS in Public Service Management
- JD/MS in Computer Science Technology

Certificate Programs

- Business Law
- Criminal Law
- Family Law
- Health Law
- Intellectual Property: General
- Intellectual Property: Art and Museum Law
- Intellectual Property: Patents
- Intellectual Property: Information Technology
- International & Comparative Law
- Public Interest Law
- Taxation

For more information regarding programs and application procedures, students are advised to visit the College of Law website, Academic Programs, http://www.law.depaul.edu/academics/.

Study Abroad Programs

DePaul University College of Law has several study abroad programs. The programs are described fully on the law school website.

Associate Dean Brian Havel supervises all study abroad programs. Individual professors must give consent for students to enroll in the programs.

Short-term study abroad programs are described on the College of Law website, http://www.law.depaul.edu/academics/study_abroad/default.asp. Currently, short-term programs are offered in Madrid, Spain; Costa Rica; Prague; Sorrento, Italy; Chiapas, Mexico and Buenos Aires, Argentina.

Exchange study abroad programs, both semester and year long, are in Madrid, Vienna and Neijmegen, the Netherlands.
Knowledge of Procedures and Graduation Requirements

Student’s Responsibility for Fulfilling Requirements

Each student is solely responsible for ensuring that he or she fulfills all requirements for the degree being sought. Graduating seniors should undertake an independent review of their records before they register for their final semester by ordering a degree progress report or an unofficial transcript from Campus Connection. If a prospective graduate has not fulfilled all degree requirements, he or she will not receive a degree and will not be certified for admission to the bar.

Note: Participation in the graduation ceremony does not establish entitlement to a degree. The actual degree award does not take place until the University completes its degree audit. Final certification of degrees is completed by the University Student Records Office and may take up to ten weeks after the commencement ceremony.

Application for Graduation and Certificates

JD, LL.M., and JD joint degree seniors must apply for degree conferral on Campus Connection by June 1 for a July graduation, by October 1 for a December graduation or by February 1 for a May graduation. Applicants for the JD degree must also complete a Career Services survey, available on Vincent (formerly Symplicity) at www.law.depaul.edu/jobs, click through Profile > Graduate Employment Survey. Complete the entire form and finalize your answers. The survey is required and is essential for accurate reporting of employment data to the American Bar Association. If you have questions, contact your career advisor.

Applicants for the JD must fill out and submit a completed graduation application. Applicants for certificates must complete and submit a certificate application with their graduation application. The on-line degree conferral application is on Campus Connection, www.depaul.edu. The graduation and certificate applications are available on the law school website, www.law.depaul.edu.

Commencement

Commencement is held annually in May. If a student is short no more than three credits for a degree, the student may attend the commencement ceremony but will not be awarded the degree until the credits are completed.

Academic Records Final

Academic records are locked upon degree conferral. Under no circumstances will changes be made to the academic record after a degree is conferred.

JD Graduation with Honors and Order of the Coif

Juris Doctor Honors

JD students whose cumulative grade point average (GPA) places them in certain categories graduate with honors.

- Top 5%: summa cum laude
- Top 10%: magna cum laude
- Top 20%: cum laude

The awards are given to the entire class that graduates in an academic year, full-time and part-time students combined. The awards are announced at the end of the academic year. Once the awards are announced and posted by the College of Law and the University Student Records Office, the awards are not affected by any subsequent grade changes.

Students who transfer to the College of Law after they complete first-year coursework at another law school are
eligible for graduation honors. Grades earned at a transfer student’s prior law school are included in the GPA computation for honors eligibility. Grades earned when students visit another law school after their first year are included in the GPA for honors eligibility if they take 12 or more credits at another law school.

Order of the Coif

JD graduates who rank in the top 10 percent of their class will be elected by the faculty to the Order of the Coif. Coif awards are announced in the summer at the end of the academic year. Once announced and posted by the University Student Records Office, the awards are not affected by any subsequent grade changes. The rules for honors awards for transfer students also apply to election to Order of the Coif.

Eligibility for Law Review, Law Journals and Moot Court

Law Review

The DePaul Law Review, published quarterly, is the College of Law’s principal scholarly publication. Legal scholars, judges and practicing attorneys submit articles for publication that are selected and edited by a board of student editors. Members of the Law Review also contribute articles that discuss recent cases and developments in the law. Election to Law Review is one of the highest honors a student can achieve in his or her law school career. Students are invited to join the Law Review after their first year of law school based upon either their academic performance or their performance in a write-on competition. Transfer students may join the Law Review only via the write-on competition.

Academic Achievement

Students are invited to join the Law Review at the end of their first academic year if they rank in the top 10 percent of their class.

Summer Write-On Competition

The Inter-Journal Write-On Competition is administered by the editors of the Law Review and other Journals. Competition dates and requirements are announced in the summer. The Law Review Editorial Board selects which students, if any, will be invited to join based upon the competition.

Students who will not be on campus during the competition may still participate but must make specific arrangements with the Law Review as soon as the competition dates are announced.

Credit for Law Review

Editors of the Law Review must register for and receive course credit. The credits are graded pass/fail. A student may receive a maximum of six credits (three per semester) for Law Review editorial work. Editors also may receive tuition stipends based upon the nature of their service on the Law Review Editorial Board.

Journal of Art, Technology & Intellectual Property Law

The Journal of Art, Technology & Intellectual Property Law is published three times per year under the direction of a student Board of Editors and in cooperation with the non-profit organization Lawyers for the Creative Arts. The Journal includes articles by students and professionals that address current legal issues in the visual and performing arts.

Eligibility

Students who complete their first year of law school in good academic standing are invited to join the Journal’s staff based upon the Inter-Journal summer write-on competition. Journal staff members are expected to complete one article suitable for publication each semester. Students choose their own topics and format. Journal members are eligible for Editorial Board positions during their final year of law school.

Credit for the Journal
Editors of the Journal must register for and receive course credit. The credits are graded pass/fail. A student may receive a maximum of four credits (two per semester) for Journal editorial work. Editors may also receive tuition stipends based upon the nature of their service on the Editorial Board.

**Business & Commercial Law Journal**

The Business & Commercial Law Journal is published three times per year under the direction of a student Board of Editors.

**Eligibility**

Students who have completed their first year of law school in good standing are invited to join the Journal staff based upon the Inter-Journal summer write-on competition. Students who have completed at least 28 credit hours are eligible to compete. Journal staff members do cite-checking and write a case note or comment.

**Editorial Board**

In the spring of each academic year, staff members may apply for an editorial position on the following year’s Editorial Board. Each Editorial Board chooses its own successors.

**Credit for the Journal**

Editors of the Journal must register for and receive course credit. Credits are graded pass/fail. Editors may earn a maximum of 6 credits (three per semester) for Journal editorial work. Editors also may receive tuition stipends based upon the nature of their service on the Editorial Board.

**Journal of Health Care Law**

The Journal of Health Care Law provides scholarly commentary on developments in the health law field. Health Law LL.M. and JD students who have completed their first year of law school in good academic standing are eligible.

**Write-On Competition**

Students who have completed their first year of law school in good standing are invited to join the Journal staff based upon the Inter-Journal summer write-on competition. Students who have completed at least 28 credit hours are eligible to compete.

**Journal Editors**

Students may apply to become editors of the Journal after they complete the first year. Editors may receive tuition stipends based upon the nature of their service on the Editorial Board.

**Credit for the Journal**

Editors must register for and receive course credit. Editors receive course credit at the rate of two credits per semester. The credits are graded pass/fail. Editors are expected to agree to a four-semester commitment to the Journal.

**Journal for Social Justice**

The Journal for Social Justice provides public interest practitioners and academics with a scholarly alternative to traditional law journal publications. Contributors to the Journal are encouraged to share the wisdom of their experiences as advocates.

**Eligibility**

Students who complete their first year of law school in good academic standing are invited to join the Journal’s staff based on either the Journal’s own write-on competition or the Intra-Journal summer write-on competition. Journal members are eligible to apply for Editorial Board positions during the Spring semester.

**Credit for the Journal**

Editors of the Journal must register for and receive course credit. The credits are graded pass/fail. A student may receive a maximum of four credits (two per semester) for Journal editorial work.
Journal of Sports Law and Contemporary Problems

The Journal of Sports Law and Contemporary Problems investigates the intersection between law and sports with a focus on today's most important sports issues.

Write-On Competition

The Journal participates in the Intra-Journal summer write-on competition.

Journal Editors

Students may apply to become editors of the Journal after one year.

Credit for the Journal

Editors receive course credit at the rate of one or two credits per semester. The credits are graded pass/fail.

Journal of Women, Gender and the Law

The DePaul Journal of Women, Gender and the Law (JWGL) publishes student and professional articles on issues of women's legal rights domestically and internationally, as well as the dynamic intersections of gender, gender identity and the law.

Joining the Journal

The Journal offers opportunities to become Journal members in both the fall and spring semesters through its scholarship and write-on competitions.

Journal Editors

Journal members may apply to become editors in their second year of law school.

Credit for the Journal

Editors receive course credit at the rate of two credits per semester. The credits are graded pass/fail.

Moot Court Society

The Moot Court Honor Society has three divisions: Appellate Advocacy, Trial Advocacy and Lawyering Skills. The Society sponsors and supports students participating in competitions that promote written and oral advocacy and lawyering skills.

Credit for Moot Court Competition

Upper-level students can earn three credit hours for participation on a national or international moot court appellate advocacy team or trial competition team. National team moot court credits are graded pass/fail; international moot court competition credits are graded in the normal manner. Students may earn a maximum of six credits for moot court competition over two semesters.

In order to earn credit for moot court, students must:

1. Participate as a team member (competitor) in a sanctioned external moot court appellate or trial team competition. Appellate team members are selected by a Moot Court Executive Board Committee comprised of faculty and students. Trial team members are chosen by the trial team coaches in tryouts.
2. Meet all program requirements as outlined by the program directors and coaches including, but not limited to, the writing of briefs, attending mooting practice and training seminars and otherwise adhering to the coaches’ guidelines.

Moot Court Appellate Team Executive Board

The Appellate Team is managed by an Executive Board. The Executive Board is chosen by a committee comprised of faculty and students.

Journal and Moot Court Credit

Subject to the limitations set forth above, students may earn a maximum of 12 hours of Journal and Moot Court credit while enrolled in law school. In order to receive credit, students must obtain a permission slip, have it
completed by the supervising member of the faculty and turn the completed slip in to Lorraine Schulz in the Office of Student Affairs. Journal and Moot Court credit will not be awarded if the appropriate registration is not completed.

Academic and Administrative Regulations for JD and LL.M. Students

Communications and E-Mail Addresses

Students receive a DePaul student e-mail address when they enroll. However, they may use other e-mail addresses as long as they enter those addresses as "preferred" on Campus Connection. Students must insure that their e-mail address on Campus Connection is correct at all times. If your e-mail address is not correct on Campus Connection, you may not receive information necessary to pursue your law studies. Failure to provide a correct e-mail address will not excuse non-compliance with rules, regulations or requirements communicated by the law school via e-mail.

To update your email address, go to the University website, www.depaul.edu > log onto Campus Connection. Under “For Students,” click on “Demographic Portfolio.” Update your email addresses. Check the one you plan to use as “Preferred.” All law school notices will be sent to your “Preferred” email address.

Many e-mail systems enforce filter software, which might block important messages. The College of Law uses numerous e-mail addresses to inform students of registration times, exams, schedules, events and important news. In order to receive e-mail from the law school, we recommend the following:

1. Please review your junk mail filter settings and select the appropriate level.
2. Please add http://sr.depaul.edu, dwhite@depaul.edu, and dfrankl2@depaul.edu to your address book. Also add nhatchet@depaul.edu and lschulz@depaul.edu.

Employment Limitation for Full-Time JD Students

The American Bar Association rules permit College of Law full-time students to be employed for a maximum of 20 hours per week while school is in session. If a student must work more than 20 hours per week, the student must transfer to the part-time division. If full-time first-year students feel compelled to work, they should be careful to limit their hours so as not to interfere with their studies. Students are expected to arrange their work schedule around College of Law classes. Adjustments in the curriculum or final exams will not be made because of work conflicts.

Class Attendance Rules

Attendance is mandatory for all law school classes. Each instructor may establish penalties for lack of attendance. At his or her discretion, an instructor may give the student a grade of FX (apparent withdrawal), lower the final grade or require the student to withdraw from the class. In the event of a mandatory withdrawal, tuition for the class will not be refunded.

Limited Enrollment Course Attendance

If a student registers for a limited enrollment course such as a senior research seminar, a litigation skills course or a practice skills course, and does not attend the first week of the class, the instructor may prohibit the student from taking the class. A student compelled to withdraw from a class will not receive a tuition refund if the official refund deadline has passed.

Class Attendance in Proper Section

Students are required to attend the section of a course for which they are registered. A student may not attend another section of the same course, even if taught by the same instructor.

Recording of Class Sessions

Classes may be recorded only with the permission of the instructor. Students with disabilities who must tape classes as an accommodation for their disability should make arrangements with the University Office for
Students with Disabilities and the Assistant Dean for Student Affairs.

**Required Courses**

Students must take all required courses at the time prescribed and in the sequence designated by the College of Law. First year students may not drop required courses or take reduced class loads unless there are extraordinary extenuating circumstances and the student obtains the consent of the Assistant Dean of Student Affairs. Required courses must be taken at DePaul and cannot be taken at another law school with the exception of students who transfer to DePaul after their first year elsewhere.

**Courses With Prerequisites**

Some courses have mandatory prerequisites. Prerequisites must be completed before a student may enroll in those courses. Students may not take a course and its prerequisite course simultaneously.

**Registration, Tuition Refunds and Add/Drop Deadlines**

**Registration**

Registration takes place according to a schedule pre-arranged in advance by the University Office of Student Records ("SR"). A student’s enrollment date is based on seniority according to the number of cumulative credits earned. Registration for the summer and fall semesters takes place in the spring. Registration for the spring semester takes place in the fall. Students must use the Campus Connection registration website to register, add or drop a course.

Registration instructions are emailed to students before the opening of registration each semester and are posted on (1) the College of Law website, www.law.depaul.edu, and (2) the University Office of Student Records website, http://sr.depaul.edu.

**Add/Drop Deadline**

Once registration begins, it remains open until the end of the add/drop period, which is two weeks after the beginning of each semester.

**Course Changes after Add/Drop Deadline**

A course may not be added after the add/drop deadline. A course may be dropped on Campus Connection up until the end of the sixth week of the semester. Thereafter, a student who wishes to drop a course must contact the College of Law Office of Student Affairs. For any course dropped after the add/drop deadline, a grade of WA ("administrative withdrawal") will appear on the student's transcript. The WA does not affect the student's GPA. A course may be dropped once the reading period before exams begins.

**Deadline for Tuition Refunds**

The deadline to withdraw from a course and receive a tuition refund is the close of the add/drop period, which is the end of the second week of a semester. The deadline date is published on the academic calendar on the College of Law website.

A student may withdraw from a course after the close of the add/drop deadline up until the last scheduled class day of a semester (i.e., before the reading period begins), but tuition will not be refunded. Simply not attending class does not constitute a withdrawal. A student may use Campus Connection to withdraw until the eighth week of the semester. Thereafter, the student must go to the Office of Student Affairs to request a late withdrawal.

**Non-Classroom Credit Hours: 12-Credit Limit**

The faculty has designated certain courses for pass/fail status. A student may not elect to take a course pass/fail that has not been so designated.

A JD student may earn a maximum of 12 credit hours for non-classroom courses, most of which are graded pass/fail. Courses that count toward the 12-credit non-classroom limit include: the Journal of Art, Technology & Intellectual Property Law Editorial Board; the Business & Commercial Law Journal Editorial Board; Field Placement; the Health Care Law Journal Editorial Board; the Law Review Editorial Board; The Journal Of Social Justice editorial board; The Journal of Sports Law and Contemporary Problems editorial board; National and International Moot Court Competitions; Guided Research; LARC TA’s and Independent Study. With the exception of Independent Study, all of the above courses are graded pass/fail.

**Registration for the Field Placement Program**
The Field Placement Program is designed to give upper-level students practical legal experience through an externship with a government agency, not-for-profit legal organization, member of the judiciary, private firm, or a corporation. Students first must complete 28 or more credits with a GPA of at least 2.00 to be eligible. Students may participate in a maximum of two one-semester field placements while in law school. Students earn either two or three credits per semester.

To register, a student must submit an application to the Coordinator, Natalie Wolfe, 320 Lewis Center. She then turns in a permission slip for registration for the approved students. LL.M. students should submit their permission slips to Virginia Knittle, the Assistant to the Vice Dean. The registration must be completed by the end of the first week of classes.

Additional information about the Field Placement Program is available on the College of Law website, www.law.depaul.edu/fieldplacement, and at the Field Placement Office.

Registration for Clinical Programs

Students desiring to take a Legal Clinic must obtain a registration permission slip from the supervising clinical professor and turn it in to Lorraine Schulz in the Office of Student Affairs. Clinical programs are described on the College of Law website: www.law.depaul.edu.

711 Licenses

Upon completing 43 credit hours or one half of the credits required to graduate, a J.D. student may obtain an Illinois Supreme Court Rule 711 License to practice law under the terms and conditions set forth in the Rule. Licenses are available only for students who perform legal services for government agencies or not-for-profit organizations.

A student may apply for the license at the end of the semester in which he or she completes the requisite number of hours; however, the license cannot be processed until grades for those hours have been submitted, which occurs either in late January (fall semester, or late June (spring semester). The link to the Court’s application form is on the law school website under Registration. Completed applications (including the supervising adviser's signature and the required photograph) should be turned in to Natasha Hatchett in the Office of Student Affairs. The application will be forwarded to the Administrative Office of the Illinois Courts, which issues the license and mails it to the student. Processing time is 3 - 6 weeks.

Registration for Independent Study

Independent study permits a student to pursue an area of interest in-depth under the supervision of a full-time faculty member. To do an independent study, a JD student must have completed 28 credits and have a 3.0 cumulative GPA. The student must make supervisory arrangements with a full-time tenured faculty member with expertise in the student's area of interest. Independent study fulfills the JD advanced writing requirement.

An extensive research paper must be completed as part of an independent study. Independent study is a graded course for which three hours of credit are awarded. A student may enroll for a maximum of two independent studies during law school.

To register for an independent study, JD students must obtain written approval from the supervising faculty member and the Assistant Dean for Student Affairs. Independent study forms are available on the College of Law website. Completed forms should be turned in to the Office of Student Affairs.

LL.M. students interested in independent study should contact Virginia Knittle, Assistant to the Vice Dean.

Registration for Guided Research

Students who wish to perform guided research must make supervisory arrangements with a faculty member. A student must have completed a minimum of 28 credit hours with a cumulative GPA of at least 2.0. A student may enroll in guided research for either one or two hours in a semester. Guided research does not fulfill the advanced writing requirement.

To register for guided research, a student must obtain written approval from the supervising faculty member and the Assistant Dean for Student Affairs. Guided research forms are available on the College of Law website. Completed forms should be turned in to the Office of Student Affairs.

Auditing Classes

A J.D or LL.M. student may audit a course only if the student registers to do so with the Office of Student Affairs. Audit requests must be filed by the following deadlines:

Fall Semester: October 1
Spring Semester: March 1
Summer Semester: June 15

The following courses may not be audited: courses required for graduation, advanced writing courses, litigation skills courses, practice skills courses, clinics, externships, guided research, independent study and non-classroom pass/fail courses.

An auditor does not receive a grade in or credit for the course. Students may not convert from auditing to graded status or vice versa. A student who has audited a course may not thereafter take that course for credit. A person not enrolled as a student at the College of Law may audit a course only with the permission of the Vice Dean.

To register to audit a course, JD students register for the class via Campus Connection and file a request form with Lorraine Schulz in the Office of Student Affairs. LL.M. and non-degree-seeking students must meet with Virginia Knittle, Assistant to the Vice Dean.

---

Grading System, Awards and Academic Records

Grades and Grading Scale

Grades can be accessed online via Campus Connection. Grades can be viewed and printed using the Unofficial Transcript in the Student Center in Campus Connection.

Grades are assigned in accordance with the following definitions. A plus or minus grade represents a slight variance from the indicated definition.

Once a grade is assigned, university policy prohibits faculty from changing the grade unless the professor made a clerical error when calculating it. Removal of an incomplete grade in accordance with University policy is an exception to the grade change policy.

**Faculty may not assign or accept additional graded material in order to improve a student’s final grade. They may not conduct a substantive reevaluation of the student’s exam or coursework.**

- **A** The instructor judged the student to have accomplished the stated objectives of the course in an EXCELLENT manner.
- **B** The instructor judged the student to have accomplished the stated objectives of the course in a VERY GOOD manner.
- **C** The instructor judged the student to have accomplished the stated objectives of the course in a SATISFACTORY manner.
- **D** The instructor judged the student to have accomplished the stated objectives of the course in a POOR manner.
- **F** The instructor judged the student NOT to have accomplished the stated objectives of the course.
- **IN** Temporary grade indicating that, following a request by the Student, the Assistant Dean for Student Affairs and the Instructor have given permission for the student to receive an incomplete grade. In order to qualify, the student must have:
  1. satisfactory record in the work already completed in the course;
  2. encountered unusual or unforeseeable circumstances, which prevent him/her from completing the course requirements before the end of the term; and
  3. applied to the instructor and to the Assistant Dean for permission to receive the IN. The incomplete will expire at the end of the following semester. If the work is not complete, the student will receive a failing grade.
- **PA** Passing achievement in a pass/fail course. (Grades A through D represent passing performance).
- **W** Withdrawal from the course instituted by the student after the last day to drop with a refund and before the final withdrawal deadline.
WA Withdrawal from the course initiated by an administrator at a student's request, usually outside of established deadlines. Administrative withdrawals may be granted under extraordinary circumstances and require documentation for support.

FX Student stopped academic activity, was absent excessively, or failed to withdraw while registered. The FX will be factored into a student's GPA in the same way an F would be.

M Final grade not submitted by instructor.

AU Auditor status; course does not earn credit.

Illustration of Calculating Grades

A  4 times the number of credit hours assigned to the course.
A- 3.7 times the number of credit hours assigned to the course.
B+ 3.3 times the number of credit hours assigned to the course.
B  3 times the number of credit hours assigned to the course.
B- 2.7 times the number of credit hours assigned to the course.
C+ 2.3 times the number of credit hours assigned to the course.
C  2 times the number of credit hours assigned to the course.
C- 1.7 times the number of credit hours assigned to the course.
D  1 times the number of credit hours assigned to the course.
F, FX No quality points awarded.

AU, W, WA, IN, PA Quality points not assigned.

First-Year Grade Curve and Upper-Level Classes with 50 or More Students

The College of Law faculty has adopted the following mandatory grade curve that applies to all first-year courses and to upper-level classes with 50 or more enrolled students:

A 12%-17%
A- and/or B+ 20%-30%
B 20%-30%
B- and/or C+ 20%-30%
C or below 10%-15%

In addition, the mean or average for all DePaul students in any course subject to this grade curve must be between 2.95 and 3.15. All LARC sections taught by the same instructor during the semester are aggregated into one course for purposes of this curve.

Upper-Level Grade Curve: Classes with 21 - 49 Students

The mean or average for all DePaul students in any upper-level course with an enrollment between 21 and 49 students, including LARC III, must be between 2.95 and 3.15.

Upper-Level Classes with 20 or Fewer Students

No mandatory grade curve applies to courses with enrollments of 20 or fewer DePaul students. However, any instructor submitting grades for DePaul students more than half of which are grades of A shall provide the Vice Dean with a brief explanation of the methodology that led to this result.

Computation of GPA

GPAs are computed by dividing the total number of grade points earned by the total number of graded credit hours. Graded credit hours do not include courses graded WA, W, P, IN, M, or AU, but do include courses graded F or FX. Grade point averages are reported to three digits and cannot be rounded up. Students must report their grade point average as it appears on official and unofficial transcripts.
Grade of W or WA (Withdraw)

If a student withdraws from a course before the tuition refund deadline announced in the academic calendar, no record of the withdrawal will appear on his or her transcript. However, if a student drops a class after the tuition refund deadline, the grade of W will appear on the transcript. A withdrawal has no effect on a student's GPA. If the student asks to withdraw after the online deadline passes, the student will receive a grade of WA (administrative withdrawal), and tuition is due.

Grade of FX

The College of Law requires regular and punctual class attendance and proper class preparation. Irregular class attendance or inadequate preparation may result in a student being involuntarily withdrawn from the class. Students who are involuntarily withdrawn receive a grade of FX. A students who registers for a class, does not complete the coursework or exam, and does not drop the class prior to the last regularly scheduled day of class will also receive a grade of FX.

Grade of IN (Incomplete)

The grade of Incomplete (IN) is assigned when a student has been excused from taking the final examination on good cause shown or, with permission, has failed to complete all of the required coursework. To receive an incomplete, a student must receive written permission from the instructor and the Assistant Dean for Student Affairs. All course work must be completed by the end of the following semester or the student will receive a permanent failing grade (F).

Pass/Fail

Pass/Fail rules are described in § 5.9. Only designated courses may be taken pass/fail. Students may NOT elect to take graded courses pass/fail.

Repeat Policy

A student who receives a grade of F or FX in a course may NOT retake the course (with the exception of Legal Profession, which must be completed successfully in order to obtain a JD). Courses may not be repeated in order to obtain a higher grade.

Anonymous Grading

For most courses, the Law School uses an anonymous grading system. Students receive an anonymous number each semester. The only identifying information that should be used for all exams is the four-digit anonymous exam number. Students must ensure that their e-mail addresses on Campus Connection are correct or they will not receive an anonymous exam number.

Disclosure of Grades

Typically, fall semester grades are released in mid-January. Spring semester grades are released in mid-June. Summer grades are released in September.

Once the University processes final course grades, students may obtain their final grades on Campus Connection. Grades will not be disclosed over the telephone or by email. Students must give written consent for grades to be disclosed to third parties.

Unofficial transcripts with grades and grade point averages are available on the University Campus Connection website. Official transcripts are available from the University Office of Student Records (SR). For further information, go to Campus Connection or to http://sr.depaul.edu.

Grades also appear on Degree Progress Reports, available on the University Campus Connection website. A Degree Progress Report charts the student’s progress toward his or her degree.

Determining of Grades

Grades are determined solely on the basis of the academic performance of each student according to criteria established by the course instructor. During the first week of class, the instructor will advise the students of the factors that will be considered in determining the final grade (e.g., examinations, papers, class participation, attendance, etc.). The evaluation of academic performance is subject to the professional judgment and discretion of the instructor.

Once final grades are submitted to the Office of Student Affairs, they may be changed only in the event of a clerical or computational error. Grades cannot be changed because of a reassessment of an examination or course work or the submission of extra work.
Grade Challenges

For the complete grade challenge rules, go to www.depaul.edu > Graduate Student Handbook > Graduate Academic Policies. Students should understand that grade challenges are very rarely granted. Academic records will be locked upon degree conferral. Under no circumstances will changes be made to the academic record after degree conferral.

Deadlines to File a Grade Challenge:

- Fall semester grade: March 1 of the following spring semester
- Summer/spring semester grade: October 1 of the following fall semester

A student may appeal a grade only in unusual circumstances and only if a student establishes the following:

1. The methods or criteria for evaluating academic performance, made explicit by the instructor at the beginning of the course, usually in a course syllabus or as subsequently modified with the majority consent of the students, were not actually applied in determining the grade.
2. The grade was determined or influenced by criteria other than those explained by the instructor or by criteria not relevant to academic performance.
3. The instructor applied predetermined criteria unfairly, which may include but not be limited to the following:
   a. The instructor's evaluation of academic performance so exceeded the reasonable limits of the instructor's discretion as not to be acceptable to the instructor's peers.
   b. Predetermined criteria were not explained at the beginning of the semester.

Before filing a grade challenge, a student must first meet with the professor to discuss the grade. To initiate a challenge, the student must file five copies of a cover letter, petition and any supporting documents with Vice Dean David Franklin.

Academic records will be locked upon degree conferral. Under no circumstances will changes be made to the academic record after a degree is conferred. Students who are dismissed may not file a grade challenge.

Class Ranks

JD students who have completed at least one semester at the College of Law are ranked by cumulative GPA in percentage increments. LL.M. students are not ranked. Students who transfer to DePaul are ranked once they receive DePaul grades. Transfer credits are not used to determine class ranks but are used to determine honors at graduation. Class ranks are posted in February and July on the Law School website.

Ranks are listed by percentile, in five percent increments, through the 50th percentile. The lower half of the class is ranked by quartile. Full-time and part-time students are ranked separately. Once released, class ranks are not affected by any subsequent grade changes or withdrawals. Numeric class ranks are not available.

In communicating with prospective employers or otherwise, a student must report his or her class rank precisely as listed on the Law School website. Students may not round off their grade point averages to achieve a higher rank.

To verify a class rank, a student should order an unofficial transcript or official transcript from Campus Connection or through the University Office of Student Records, http://sr.depaul.edu. Students then should compare their cumulative GPA to the percentage class ranks on the Law School website, www.law.depaul.edu. If an employer requests verification of class rank, the student should give the employer the unofficial or official transcript and a copy of the ranks from the law school website or refer the employer to the website.

Dean's List

Students who rank in the upper 25 percent of their class based on one semester's grades qualify for the Dean's List. Dean's List notes appear on unofficial and official transcripts, available on Campus Connection. Total credits, graded as well as pass/fail, count toward earned credit hours.

To qualify for the Dean's List, a full-time student must be registered for at least 12 credits graded other than pass/fail or audited. A part-time student must be registered for at least nine credits graded other than pass/fail or audited. Once released, the Dean's List is not affected by any subsequent grade changes or withdrawals.

JD Classifications for Class Ranks and the Dean's List

For purposes of determining class ranks and the Dean's list, JD students are classified by the number of credit hours they have earned:
Full-Time
First-Year = 28 or fewer earned credit hours
Second-Year = 29 to 54 earned credit hours
Third-Year = 56 or more earned credit hours

Part-Time
First-Year = 20 or fewer earned credit hours
Second-Year = 21 to 43 earned credit hours
Third-Year = 44 to 67 earned credit hours
Fourth-Year = 62 or more earned credit hours

CALI Excellence for the Future Award
An outside company, Computer Assisted Legal Instruction (CALI), provides an award to the student who receives the highest grade in each course. The award winners receive a certificate from CALI. CALI recipients may confirm their awards on www.cali.org.

Transcripts: Official and Unofficial
Only the University Office of Student Records can issue transcripts. The College of Law cannot issue transcripts. To access both official and unofficial transcripts, go to www.depaul.edu > Current Students > Campus Connection > log in. For Students > Records & Registration > choose either Transcript - official or transcript - unofficial.

Unofficial transcripts: Unlimited copies may be made at no charge. Most employers will accept an unofficial transcript in the initial stages of interviewing. Before making an offer, they may request an official transcript.

Official transcripts: electronic or paper. If the student clicks on “official,” the transcript may be sent to the student or to a 3rd party recipient. The student should choose a method of delivery: email, express mail or regular mail. Express delivery is available for an extra fee. Students may order up to 10 free transcripts per year.

Electronic delivery: The official transcript can be sent to a 3rd party recipient if the student specifies an email address. It is certified as official and is in PDF. If printed, it becomes unofficial.

Paper (Mail delivery): The official transcript becomes unofficial if the student makes a photocopy of the original. Students may not request to pick up printed transcripts from the University Office of Student Records.

The transcript will not be issued if a student's financial account with the University is delinquent.

Examinations

General Information about Examinations
The method of evaluation of student performance in a course lies solely within the discretion of the instructor. In many courses, a student’s grade is based primarily on one written examination given at the conclusion of the course. Some instructors also give a midterm examination or assign papers.

Fall examinations are in early December of each year.
Spring examinations are in early May of each year.
Summer examinations are in late July of each year.
First-year full-time exams are from 9:00 a.m. until noon.
Upper-level day classes have exams from 1:30 p.m. until 4:30 p.m. A day class is one that meets between 8:30 a.m. and 5:00 p.m.
First-year and upper-level evening classes have exams from 6:00 p.m. until 9:00 p.m. An evening class is defined at one that meets between 5:50 p.m. and 9:00 p.m.
Anonymous Examination Numbers

Each student is randomly assigned an anonymous exam number each semester, and most exams are grade anonymously. Generally, upper-level seminars and skills courses are not anonymously graded.

The Assistant Dean for Student Affairs sends students their anonymous exam numbers by email each semester. STUDENTS MUST ENSURE THAT THEIR E-MAIL ADDRESS IS CORRECT ON CAMPUS CONNECTION, OR THEY WILL NOT RECEIVE AN ANONYMOUS EXAM NUMBER.

A student must identify herself or himself only by assigned anonymous examination number. A student must not identify himself or herself by name, student identification number or any other designation or symbol anywhere on the examination questions or answers. A student should not disclose the examination number to the instructor, either directly or indirectly, until the instructor has submitted the final grades for the course. Failure to comply with these provisions may be a violation of the Honor Code.

Exam Schedule and Conflicts

The final examination schedule is published with the class schedule prior to registration each semester on Campus Connection. Students should select their courses to avoid exam conflicts.

All students must take their examinations at the scheduled time. If two sections of a course are offered, students must take the exam at the time scheduled for the section in which they are enrolled.

Final exams will be rescheduled only in extraordinary circumstances. Exams will not be rescheduled because of job commitments, weddings, graduations, vacation plans, travel plans or for other personal reasons.

Wild Card Examinations

Under certain limited circumstances, students may shift one examination to a different day. This policy is known as the "Wild Card" option.

Eligibility: If a student has two in-class exams scheduled on the same day or on two consecutive days, the student may designate one of the exams as a wild card exam. The student must take the rescheduled exam within two days of the original exam date. Options for wild card dates are listed on the law school website. Wild card exams are scheduled from 10:00 a.m. to 1:00 p.m. on days that do not have first-year exams.

Students may only request one wild card exam per semester. Students must register for a wild card no later than the sixth week of classes. Forms are available on the College of Law website. First-year students both, full-time and part-time, may not use wild card exams because their exam schedule is set up with several days between exams. Wild cards are not available in the summer.

Because wild card exams are held on days other than the regularly scheduled exam dates, students may not use SofTest to type their answers. SofTest is date and time specific and will not function on a day that is not the regularly scheduled exam date.

The wild card option does not apply to take-home exams unless the take-home exam is both distributed and due on the same date as an in-class exam.

Deadline to file for wild card:

- Fall Semester: October 1
- Spring Semester: March 1
- Summer Semester and First-Year Exams: Wild cards are not available.

Missing an Examination

Students are expected to take examinations when scheduled, even though ill or inconvenienced. However, in the event of serious illness or for other extraordinary or compelling cause beyond a student's control, the Assistant Dean for Student Affairs or the dean on duty may excuse a student from taking the exam at its scheduled time. Students will not be excused from an examination for job related reasons, weddings, travel, graduations, vacations or for other personal reasons. Students are expected to adjust their outside commitments to conform to the law school examination schedule.

A student who must miss an exam must notify the Assistant Dean for Student Affairs on or before the scheduled exam day. If prior notice is not possible, the student must contact the Assistant Dean as soon as the inability to take the exam becomes manifest. If a student does not notify the Assistant Dean at the first available opportunity, the student will receive a failing grade. To protect the anonymity of grading, students should never contact their professor if they need to reschedule an examination.

A student who is more than ten minutes late for an exam will not be permitted to take it unless authorized by the Assistant Dean for Student Affairs. A student who is less than ten minutes late may take the exam but will
not be allotted additional time and may not type his or her exam. Students who miss an exam must use bluebooks and cannot type their answers.

Make-up Examinations

When a student is excused from an exam, the student must take the exam on the next scheduled exam day. If the student is excused for serious health reasons or a family emergency, the Assistant Dean may attempt to make arrangements to have the student type the exam. If a student simply misses an exam date due to mistaking an exam date or time, typing is not available.

Student Conduct During Examinations

Student conduct during examinations is subject to the DePaul University College of Law Honor Code, which is set forth in §XIII of this Handbook. Cell phones, tablets, iPods, pagers and all other electronic devices are not permitted in the exam room.

Examination Typing Option Using ExamSoft’s SofTest

SofTest Laptop Exams

The College of Law offers students the opportunity to take examinations on their own laptops using ExamSoft’s SofTest program. Students may use PC’s or Mac’s. SofTest is a secure program. Students will only be able to type their exam answers, and access to all other programs will be blocked. Therefore, if a professor permits notes to be used during an exam, students should print their notes prior to exams.

Professors must opt-in for students to use SofTest. A list of courses available for SofTest is published on the law school ExamSoft website each semester. Instructions are on www.examsoft.com/depaullaw.

Students should always do the “mock exam” when they register for SofTest to familiarize themselves with the program.

Minimum System Requirements

Information about minimum system requirements for SofTest, pre-exam videos, support tools and exam taker information are available on www.examsoft.com/depaullaw.

Download and Register SofTest: The Assistant Dean of Student Affairs will notify students by e-mail of the deadline to download the software for each semester. The deadline is also posted on www.examsoft.com/depaullaw.

Exam Administration

During closed book examinations, all books, notes, cell phones, tablets, I-Pods, outlines, backpacks, briefcases, and other materials must be placed in the back of the room. During open book exams, students may have whatever materials the professor approves for use during an examination. For SofTest exams, the proctor will announce the start time and write the exam password on the board. SofTest will automatically shut down after the allotted time. For bluebook and Scantron exams, the test proctor will advise the students of the time at which the exam will end and will write the ending time on the blackboard. When time has expired, the proctor will announce that the exam is over. Students must stop writing immediately and turn in their examinations. Failure to stop writing immediately is a violation of the Honor Code. Students are not permitted to leave their seats for any reason during the last half hour of an exam.

Examination Accommodations

Students who need to request accommodations on the basis of a disability should review Section VIII of this Handbook and see the Assistant Dean for Student Affairs at the start of each semester.

Accommodations of time and one half per exam may be offered to international LL.M. students for whom English is a second language. The student must contact the Assistant Dean for Student Affairs at least one month before each exam period to request accommodations and provide documentation of registration with the University International Student Office.
Students with Disabilities

General Information

A student with a disability who needs to request accommodation should contact the Assistant Dean for Student Affairs, as soon as the student enrolls in the College of Law. Documentation of the disability is required as set forth below. Students who require exam accommodations must submit a written request to the Assistant Dean at least one month prior to the examination. The Assistant Dean will be a liaison between the student and professors to provide accommodations.

The Center for Students with Disabilities

Services for students with disabilities are provided by the Center for Students with Disabilities. To benefit from services, law students must register with this office before the beginning of each semester. Students must have been tested by a recognized specialist within the last three years prior to starting law school. The DePaul office also provides testing at a cost. If a student is approved and the disability is verified, the Center can offer extended time for exams, laptops for note-taking, textbooks in modified form, zoom text, real-time captioning and more.

To contact the office, see www.studentaffairs.depaul.edu/scd. The Loop campus location is Suite 1400 of the Lewis Center. See also 773-325-1677 and 773-325-3720 or email csd@depaul.edu.

Verification of Physical Disability

A student with a non-obvious physical disability must provide professional verification of the disability by a licensed physician, psychologist, audiologist, speech pathologist, rehabilitation counselor, physical therapist, occupational therapist or other professional health care provider who is qualified in the diagnosis of the disability. The verification must reflect the student's present level of functioning with respect to the major life activity affected by the disability. The cost of obtaining the professional verification is the responsibility of the student.

If the initial verification is incomplete or inadequate to determine the present extent of the disability and appropriate accommodations, the College of Law may require supplemental assessment. The cost of the supplemental assessment shall be borne by the student.

Verification of Learning Disability

A student with a learning disability must provide professional testing and evaluation results prepared within the last three years which reflect his or her present level of processing information and present achievement level. The cost of obtaining the professional verification is the responsibility of the student. Students are advised that, when they apply for admission to the Bar, their tests for accommodations must be performed within three years prior to the time they apply to the Bar.

The four criteria necessary to establish a student's eligibility for learning disability adjustments or accommodations are:

1. Average or above-average intelligence as measured by a standardized intelligence test which includes assessment of verbal and non-verbal abilities;
2. The presence of a cognitive-achievement discrepancy or an intra-cognitive discrepancy indicated by a score on a standardized test of achievement, which is 1.5 standard deviations or more below the level corresponding to a student's sub-scale or full-scale IQ;
3. The presence of disorders in cognitive or sensory processing, such as those related to memory, language or attention; and
4. An absence of other primary causal factors leading to achievement below expectations such as visual or auditory disabilities, emotional or behavioral disorders, a lack of opportunity to learn due to cultural or socio-economic circumstances or deficiencies in intellectual ability.

Documentation to verify the learning disability must:

1. Be prepared within the last three years by a professional qualified to diagnose a learning disability including, but not limited to, a licensed physician, learning disability specialist or psychologist;
2. Include the testing procedures followed, the instruments used to assess the disability, the test results and a written interpretation of the test results by the professional;
3. Reflect the individual's present level of functioning in the achievement areas of reading comprehension, reading rate, written expression, writing mechanisms and vocabulary, writing, grammar and spelling; and
4. Reflect the individual's present level of functioning in the areas of intelligence and processing skills.
The assessment must provide data that support the request for an academic adjustment. In the event that a student requests an academic adjustment or accommodation that is not supported by the data in the assessment or if the initial verification is incomplete or inadequate to determine the extent of the disability, then it is incumbent upon the student to obtain supplemental testing or assessment at the student's expense.

**Verification of a Temporary Disability**

A student who seeks accommodation on the basis of a temporary disability must provide documentation to the Assistant Dean for Student Affairs to verify the nature of the condition, stating its expected duration and describing the accommodations deemed necessary. Such verification must be provided by a professional health care provider who is qualified in the diagnosis of such conditions. The assessment or verification of disability must reflect the student's current level of disability and shall be no older than 60 days. The cost of obtaining the professional verification shall be borne by the student.

If the initial verification is incomplete or inadequate to determine the extent of the disability and appropriate accommodations, the College of Law shall have the discretion to require a supplemental assessment. The cost of the supplemental assessment shall be borne by the student.

**Withdrawal from and Re-entry to the Law School**

**Withdrawal or Transfer From the College of Law While in Good Standing**

To withdraw or transfer from the College of Law in good standing (either during or between semesters), a student first must file a request online on the University Campus Connection website and send an email to the Assistant Dean for Student Affairs. If the student seeks to withdraw during a semester, the student must see Lorraine Schulz in the Office of Student Affairs to drop all courses for which he or she is registered.

In the event that a student withdraws from the College of Law before the end of his or her first semester, the student will be deemed a new applicant in the event that he or she wishes to return and will be required to comply with all the steps and procedures required of all new applicants to the College of Law.

**Withdrawal From the College of Law While Not in Good Standing**

A student may withdraw while not in good standing if the student submits a request online to the University Campus Connection website and a written request to the Assistant Dean for Student Affairs. However, if the student withdraws from classes while not in good standing, the student will be dismissed for academic deficiencies at the end of the academic year. If the student thereafter desires to return to the College of Law, he or she must follow the readmission procedures described in chapter X.

**Leaves of Absence and Re-entry**

A student must complete at least one semester in good standing in order to be eligible for a leave of absence. A leave of absence may last a maximum of two academic semesters. (A summer session is not considered an academic semester for this purpose.) To obtain a leave of absence, a student first must file a request on the University Campus Connection website and then notify the Assistant Dean for Student Affairs by email. The student also must notify the Assistant Dean when he or she intends to return.

If a student has been absent for more than two semesters, the student may re-enter only with the approval of the Admissions Committee and must comply with all the steps and procedures required of all new applicants to the College of Law.
**GPA Requirements, Academic Dismissal and Readmission after Academic Dismissal**

**Definition of In Good Standing**

To be considered in good standing, a JD student must have a cumulative GPA of 2.0 at the end of the academic year in May; a LL.M. student must have a cumulative GPA of 2.5 over three semesters.

**Effect of Summer Session Grades on First Academic Year**

Grades received in the summer session are not included in a student’s GPA for the prior academic year.

**Dismissal From the Law School**

College of Law students who are not in good standing are dismissed effective at the end of the academic year. However, formal dismissal letters typically are not issued until final grades are processed in June.

Students whose grade point averages are 2.20 or below after the fall semester are advised to meet with the Assistant Dean of Student Affairs to discuss their performance. They also may not register for the following summer session.

**Readmission**

Academic dismissals from the College of Law are typically final. However, under limited circumstances, students may seek readmission to the College of Law by filing a petition with the Readmissions Committee. The Readmissions Committee consists of at least five faculty members appointed by the Dean. All decisions by the Committee are final and are not subject to appeal.

Students seeking to be readmitted must submit a petition describing how they satisfy the readmissions criteria described below. Seven copies of the petition and supporting documentation must be submitted to the Office of the Assistant Dean for Student Affairs. Students should include all documentation they feel may be of assistance to the Committee.

A student dismissed at the end of the first year may not resume classes until passage of at least one calendar year after a dismissal. Students dismissed at the end of their first academic year may file a readmissions petition no earlier than January 15 and no later than March 1 of the year following their dismissal.

JD students dismissed after the second, third or fourth year may apply for readmission after they receive a dismissal letter.

**Readmission Criteria**

The Readmissions Committee applies the following criteria in passing on a petition for readmission. Except in extraordinary circumstances, all of the requirements must be satisfied. The conditions upon which readmission is predicated are individually determined:

1. The applicant’s academic failure must have been caused by unforeseeable and uncontrollable circumstances with which the applicant could not reasonably cope. The applicant has the obligation to submit independent documentation verifying such circumstances.
2. Unless unreasonable to do so under the circumstances, the applicant must have promptly brought such unforeseeable circumstances to the attention of the appropriate College of Law officials prior to dismissal.
3. In the Committee’s judgment, the applicant must be able to successfully perform in the College of Law if readmitted.

**Interviews with the Readmissions Committee**

A first-time applicant for readmission may request a personal interview with the Readmissions Committee. The interview is the time to explain and amplify the written petition and to highlight any information the applicant feels is important for the Committee members to know. The Committee may ask applicants to return for a second interview to further develop answers or to present and explain documents that may help the Committee members better understand an applicant’s law school performance. Second-time applicants are not given an interview.

**Readmissions Committee Meetings**
The Readmissions Committee meets twice during the academic year. For students dismissed after the second, third or fourth year, the Committee will meet shortly before the beginning of the fall semester. For students dismissed after their first year, the Committee will meet toward the end of the spring semester of the year following dismissal to consider petitions for the following fall semester.

**Limits on the Number of Readmissions Petitions**

A student may not apply for readmission more than twice, irrespective of the Committee's decision. A student must apply for readmission within two years of the dismissal date.

**Students Enrolled In Summer Session Before Notice of Dismissal**

A student who is dismissed at the end of the first year and who is enrolled in a summer course will be withdrawn from the summer course. Tuition will not be refunded.

An upper-level student who is dismissed while enrolled in a summer course may either withdraw from the course (without a refund) or may finish the summer class. Should the student elect to remain in the class, credit will not be given unless the student's petition for readmission is granted.

**American Bar Association Standard 505 and Readmissions**

American Bar Association Standard 505 applies to all ABA-accredited law schools, including DePaul University College of Law. The standard states:

> A law school may admit or readmit a student who has been disqualified previously for academic reasons upon an affirmative showing that the student possesses the requisite ability and that the prior disqualification does not indicate a lack of capacity to complete the course of study at the admitting school. In the case of an admission to a law school other than the disqualifying school, this showing shall be made either by a letter from the disqualifying school or, if two or more years have elapsed since that disqualification, by the nature of interim work, activity, or studies indicating a stronger potential for law study. For admission or readmission of a previously disqualified individual, a statement of the considerations that led to the decision shall be placed in the admittee's file.

**Honor Code**

**Presumption of Knowledge of the Code**

All students are conclusively presumed to know the provisions of the Honor Code. Lack of familiarity with the Code shall not constitute a defense to an alleged violation.

**Standard of Responsibility**

A student is responsible for an act or omission deemed to be a violation of the Code if the student knew or should have known that there was a high probability that the act or omission would be found to be a violation of the Code.

**Unprofessional Conduct**

A student violates the Code if the student engages in any conduct related to the student's academic career that is inconsistent with the standards of honesty expected of a member of the legal profession, as defined by the American Bar Association's Model Rules of Professional Conduct. Such conduct includes, but is not limited to, the following:

Application for Admission. It shall be a violation of the Code for any student to fail to disclose, or to make a false statement of, a material fact on his or her law school application. A fact is material if it would reasonably have been considered as a factor in the decision whether to admit the student. It shall also be a violation of the Code for a student to fail to update and amend his or her law school application to disclose material facts that arise from the date he or she applies to the College of Law through matriculation and graduation. The obligation of truthfulness and accuracy is a continuing obligation and extends beyond the filing of any application.

Examinations. With respect to examinations, students shall be presumed to know all applicable exam rules and it
shall be a violation of this Code to do or attempt to do any of the following:

a. Obtain or receive unauthorized information concerning the content of an examination prior to the examination;
b. Seek or voluntarily receive unauthorized aid in any manner from any source with respect to any examination;
c. Bring into an examination room any unauthorized materials;
d. Give to another student solicited or unsolicited unauthorized aid on an examination;
e. Fail to comply strictly with designated time limits of an examination;
f. Use a false excuse to avoid taking an examination at its scheduled time;
g. Identify himself or herself on a exam that is graded anonymously; or
h. Engage any person to take an examination in the place of oneself or to take an examination for another.

**Required Course Work, Assignments, and Other Academic Exercises**

With respect to any work done in conjunction with and/or required by any course for academic credit, including Independent Study, Guided Research, Legal Writing, seminars, or any other academic exercise, the student shall be presumed to know all applicable rules governing an assignment and it shall be a violation of this Code to do any of the following:

a. Engage in any act prohibited by the instructions governing an assignment;
b. Submit as one’s own, and without appropriate citation, writings or ideas of another, including those prepared by another student;
c. Submit for credit work not originally prepared for the course for which it is submitted, without explicit permission of the instructor of the course obtained after the instructor has been advised of the origins of the work.

“Academic exercise” refers to any work constituting a basis upon which a student will be evaluated to earn credit or other College of Law honors including, but not limited to, examinations, research papers (including topic proposals, outlines, and drafts), other writing assignments, oral presentations, work done for credit in clinical programs or on law journals and work performed in any moot court or other competition sponsored or conducted by the College of Law.

**Plagiarism:** The University Code of Student Responsibility defines plagiarism as a major form of academic dishonesty involving the presentation of the work of another as one’s own. Plagiarism includes, but is not limited to, the following:

a. The direct copying of any material, computer files, recordings, video programs or musical scores, in whole or in part, whether published or unpublished, without proper acknowledgement that it is someone else’s;
b. Copying of any source in whole or part with only minor changes in wording or syntax, even with acknowledgement;
c. Submitting as one’s own work a report, examination paper, computer file, lab report or other assignment that has been prepared by someone else including, research papers purchased or acquired from another person or entity;
d. The paraphrasing of another’s work or ideas without proper acknowledgement.

Plagiarism, like other forms of academic dishonesty, is always a serious matter. If an instructor finds that a student has plagiarized, the appropriate penalty is at the instructor’s discretion. Actions taken by the instructor do not preclude the College of Law from taking further punitive action under the Honor Code.

**Theft and Unauthorized Use of Property**

It shall be a violation of the Code to do any of the following:

a. Damage, hide or otherwise exert unauthorized control over any library property or class-related materials including, but not limited to, all DePaul University library materials;
b. Damage, hide or otherwise exert unauthorized control over property belonging to another student, a faculty member or a student organization; or
c. Use for unauthorized purposes University equipment or services including, but not limited to, photocopying machines, mailroom facilities and computer research or word processing equipment.

**Conduct Relating to Career Services**

With respect to students seeking employment, whether permanent, part-time or as an extern, it shall be a violation of the Code to do any of the following:

a. Furnish to any person information known to be false which is related to the student’s academic record or which concerns activities related to the College of Law; or
b. Misrepresent another student’s academic record or otherwise make comment known to be false about
another interviewee to any prospective employer.

**Obstruction of Honor Code Proceedings**

With respect to any proceeding before the Academic Integrity Hearing Board, it shall be a violation of the Code to do any of the following:

- a. Testify falsely;
- b. Fail without just cause to appear at any hearing pursuant to a request issued by the Board;
- c. Give false information to the presenter; or
- d. Harass any person who provides information or testimony pertaining to a violation of this Code or who participates in the enforcement of this Code.

**Failure to Report Violations**

It shall be a violation of the Code for a student to fail to report any suspected violation of the Code where such student has reasonable grounds to believe that such a violation has occurred.

**Procedures for Dealing with Allegations of Honor Code Violations**

The procedures of the Honor Code shall be the sole means for dealing with allegations of violations as described in the Honor Code of DePaul University College of Law.

If a student is the subject of a pending Honor Code proceeding, that student shall not be granted a degree. Every reasonable attempt shall be made to expedite proceedings in the case of a student who has applied to graduate.

**Procedures for Obtaining Information**

Non-Examination Violations. Persons, other than examination proctors, who have information about a possible Honor Code violation of any kind by a law student shall, as soon as possible, notify the Office of the Dean and the Assistant Dean for Student Affairs in writing of the facts and circumstances. If the person possesses any materials that may become exhibits, the person should give those materials to the Dean and the Office of the Assistant Dean.

Examination Violations

1. **Procedures During Examinations**
   - If an examination proctor witnesses conduct which the proctor believes to be a violation of the exam rules, the proctor shall immediately verbally notify a dean, exam coordinator, the professor of that class or the professor's delegate. Once the proctor provides verbal notice of an alleged violation, the dean, professor or professor’s delegate may confiscate any improper materials and advise the student to discontinue talking or otherwise continue violating exam rules. Confiscated materials shall be transferred to the Office of the Assistant Dean for Student Affairs. Students who allegedly violate exam rules shall be permitted to finish the exam during the allocated time.

2. **Procedures After the Examination**
   - As soon as possible after the proctor gives verbal notice to a dean, exam coordinator, professor or professor’s delegate, the proctor shall, in a signed report, describe the alleged violation. The report should include a physical description of the student or students alleged to be involved in the violation and of the acts that constitute the violation. If possible, the student's anonymous number shall be given as soon as possible after the exam to one of the deans of the College of Law. When a professor, the professor's delegate or a dean is informed of the alleged violation, that person shall notify the Office of the Assistant Dean for Student Affairs forthwith in writing.

**Panel of Presenters**

**Term of Office**

For each academic year, the Dean of the College of Law shall appoint, with the ratification by the faculty, a panel of three Presenters chosen from the full-time faculty.

**Appointments**

When the Dean receives notice of an alleged violation, the Dean shall appoint one member of the Panel of Presenters to investigate the alleged violation and, if necessary, present the matter to the Academic Integrity Hearing Board at the close of the presenter's investigation. If the Dean determines that no one on the Panel is available to complete the investigation within a reasonable period of time, the Dean may appoint a substitute Presenter from the full-time faculty.
**Frivolous Matters**

If, after receiving the matter, the Presenter believes that the alleged violation is frivolous on its face, then the Presenter, with the agreement of one of the other Presenters, shall dismiss the matter. After a matter is dismissed as frivolous, all documents relating to the alleged violation shall be destroyed, and no reference to the alleged violation shall be maintained in the student's file.

**Notice to Student Before Investigation**

If the Presenter determines that the alleged violation is not frivolous on its face, the Presenter shall send notice by certified mail to the student against whom a violation has been alleged. The notice shall be sent to the address last indicated in the student's file. Notification shall consist of a brief statement of the events and acts alleged to constitute a violation, but shall not include the identity of the student's accuser.

**Investigation**

After notice is given to the student, the Presenter may proceed with an investigation and may contact any person who may have information about the alleged violation. The Presenter may individually interview persons whom the Presenter believes have information relevant to the matter. The Presenter shall preserve the confidentiality of all information given by persons who provide it. The Presenter ordinarily shall complete the investigation within 30 days from the start of the investigation.

**Student Representatives**

At any point after the student receives notice, the student shall have the right to be represented by any person the student chooses, at the student's expense. Students are encouraged to choose counsel who are not members of the College of Law faculty, but may select the representative of their choice.

**Written Statement and Interview**

During the investigation and after notice to the student, the student has the option of providing a written statement of his or her version of the alleged incident. The Presenter has the option to interview the student if the Presenter determines that an interview would aid the proceeding.

**Dismissal**

If, after investigation and with the approval of one of the other Presenters, the Presenter decides not to proceed, either because the charges are deemed unwarranted or because there is insufficient evidence to substantiate the alleged violation, then the Presenter may dismiss the charge. The Presenter shall notify the student of the dismissal by certified mail.

**Negotiated Findings and Penalties**

If the student admits the violation, the Presenter may recommend a negotiated finding and penalty in writing and by oral presentation to the Academic Integrity Hearing Board. The student and the student's representative may appear before the Board at that time. The Board shall either ratify or reject the finding and penalty in writing. The Presenter shall notify the student of the Board's decision by certified mail. The Presenter shall submit a written report to the Dean that summarizes the charge, the negotiated finding of a violation, the negotiated penalty and the Hearing Board's written decision. The record shall become a permanent part of the student's file and noted on the student's official transcript.

**Request for a Hearing**

If the case is not dismissed, nor a finding and penalty negotiated and ratified by the Board then, upon the Presenter's written request, the Academic Integrity Hearing Board, within a reasonable time, shall hold a hearing to consider the alleged violation. In the absence of extenuating circumstances, this period shall not exceed 60 days from the date of the Presenter's request.

**Academic Integrity Hearing Board**

**Internal Procedures**

**Appointments**

The Academic Integrity Hearing Board shall consist of two faculty members, chosen by the Dean from the full-time faculty and subsequently ratified by the faculty, and three students appointed by the governing board of the Student Bar Association. Members of the Panel of Presenters for a given year shall not be eligible to serve on the Hearing Board.
Term of Office

If possible, faculty members shall serve for at least a two-year period so that one faculty member of the Board will have served in the previous school year.

Quorum

The Hearing Board shall not proceed unless all five members are present. If it appears that the Board will not be able to meet within a reasonable time, the Dean shall appoint substitute members. If it is necessary to appoint a substitute student member, the Dean shall do so after consultation with one or more officers of the Student Bar Association, unless such consultation would unreasonably delay the proceedings.

Hearing Procedures

The hearing shall proceed as follows:

1. Chairperson. The Hearing Board shall elect a chairperson who shall preside over the hearing and who shall rule on the relevance of information presented.

2. Notice of Witnesses and Exhibits. Within a reasonable time prior to the hearing, but not later than five days before the hearing is scheduled to begin, the Presenter shall submit to the student alleged to have committed a violation, or the student's representative, a list of the names of witnesses who will testify at the hearing and copies of any exhibits to be introduced at the hearing. However, if the Presenter receives any additional information thereafter, the information may be used at the hearing after reasonable notice to the student or the student's representative.

3. Relevance Requirement. Except for the relevance requirement, the rules of evidence, including, but not limited to, the hearsay rule, need not be applied. Information relevant to prove or disprove the alleged violation and to mitigate a sanction shall be admissible.

4. Standard of Proof. The standard of proof shall be clear and convincing evidence.

5. Oath. An oath shall be administered to all persons who testify at the hearing.

6. Closed Hearings. The hearing shall be closed, and no information regarding the hearing shall be released until final resolution.

7. Student Testimony. The Presenter may call the student to testify and, if the student refuses, the Hearing Board may infer from the student's failure to testify that the student committed the alleged violation.

8. Opening and Closing Statements. The student alleged to have committed a violation, or the student's representative, and the Presenter shall be permitted to make brief opening and closing statements.

9. Witnesses. The student alleged to have committed a violation, or the student's representative, and the Presenter shall be permitted to call witnesses and to cross-examine adverse witnesses.

10. Taped Proceedings. A tape recording of the proceedings before the Board shall be made. The student shall be entitled to a copy of the tape at the student's expense. The student, at his or her request and expense, may employ a stenographer to make a transcript of the proceedings. The College of Law shall be entitled to a copy of any such transcript upon timely request and shall tender an amount equal to the cost of making the copy.

11. Finding of a Violation. A finding that the student violated this Code shall require the assent of at least four members of the Hearing Board.

12. Public Disclosure. If the Presenter negotiates a finding of a violation and a penalty that are ratified by the Hearing Board, or if the Hearing Board finds a violation occurred and imposes a penalty, it shall release information to the student body regarding the violation and the sanction imposed. However, the Board shall not disclose the names of the students involved. If the Hearing Board exonerates the student, no information shall be released to the student body.

13. Vote on Sanction. No separate hearing regarding sanction shall be held by the Hearing Board. Three members of the Hearing Board must assent regarding the appropriate sanction. The Board shall have broad discretion in determining a sanction. Sanctions may include, but are not limited to, expulsion, probation, suspension, reduction in grade and reprimand.

14. Notice to Student and Dean's Office of Decision. The student alleged to have committed a violation shall be notified in writing of the Hearing Board's decision within 10 days after it is rendered. The Dean's Office also shall be given written notice of the Board's decision.

15. Student Records. When a final resolution of an honor code violation is reached by the Hearing Board, the records of the proceedings shall become a permanent part of the student's file. An Academic Integrity Violation note is placed permanently on the student's official University transcript. The Board of Admissions in any state where a student seeks to be licensed will be notified of the honor code violation and penalty.
Student Organizations

Registration Requirements for Student Organizations, Journals and Moot Court

The University requires every student organization to register each autumn with the University Office of Student Involvement.

Each organization must route its funding through the University Controller’s Office and consult with the College of Law Business Manager, room 931 Lewis. Student organizations are prohibited from having outside bank accounts.

Organization registration is accomplished by filing a Student Organization Registration form with the University Office of Student Involvement, a division of the University Office of Student Affairs, www.studentaffairs.depaul.edu. A copy of the organization’s constitution, by-laws and officers must be attached to that form. Organizations must have a law faculty advisor. Organizations that do not register will not receive funding, bulletin boards or office space. Law Journals do not have to register with the University.

An organization must have a minimum of eight members at all times and must be comprised entirely of current DePaul law students. Officers must maintain at least a 2.50 GPA at all times.

Student Organizations

Student Bar Association

The Student Bar Association (SBA) is the Law School’s largest student organization and acts as the student government. All JD students who are enrolled in the College of Law are automatically members of the SBA. The SBA represents the students and advocates for their interests.

The SBA sponsors social, service, and educational events and assists with first-year orientation. The SBA offices are located on the second floor of Lewis.

The following student organizations are associated with the College of Law.

- Art and Cultural Heritage Legal Society (ACHLS) works with issues that affect art and culture.
- Society for Asylum and Immigration explores issues that affect persons who need asylum or who are involved in immigration matters.
- American, Pacific American Law Student Association (APALSA) provides academic and social support to Asian law students.
- Black Law Student Association (BLSA) promotes the goals of African-American law students and mentoring for its members.
- Business and Corporate Law Society focuses on issues of business and corporations.
- Decalogue Society is the DePaul chapter of a bar association for Jewish lawyers that provides academic and social support for its members.
- DePaul Animal League Defense Fund explores issues that affect the rights of animals under the law.
- Entertainment Law Society focuses on legal issues in the entertainment field.
- Environmental Law Society advocates environmental concerns generally and sponsors programs related to environmental issues and careers.
- Evening Law Student Society represents the concerns and needs of students in the law school’s evening division.
- Family and Child Law Society provides educational and networking opportunities for students who are interested in pursuing a career in family law.
- The Federalist Society supports individual liberty and limited government.
- Hellenic Law Society represents the needs of students of Hellenic/Greek descent.
- International Law Society explores international law issues through speaker programs and symposia.
- Justinian Law Society is the DePaul branch of a professional bar association for Italian-American lawyers; provides academic and social support for its members.
- Law Students for Reproductive Justice explores issues that affect reproductive justice.
- Latino Law Student Association (LLSA) promotes the goals of Latino law students and provides mentoring and study programs for its members.
- National Lawyers Guild is the DePaul branch of a national bar association that seeks to generate awareness about progressive responses to local and national economic and civil rights issues.
- Outlaws seeks to generate awareness about and sensitivity to lesbian, gay, bi-sexual and transgender issues among members of the law school.
- Phi Alpha Delta is a national fraternity of lawyers and law students that promotes professionalism, philanthropy and friendship among members of the legal community.
• Phi Delta Phi is a legal international legal fraternity established to promote a higher standard of ethics among its members and the legal community.
• Public Interest Law Association advocates careers and pro bono work in public interest law.
• Veteran’s Assistance Service Organization works with veterans and advocates on their behalf as well as exploring how the law affects veterans.
• Women’s Bar Association of Illinois is the DePaul chapter of a bar association that works to ensure the success of women attorneys through business and professional development.
• Journal for Women, Gender and the Law advances, domestically and international, the legal rights of women and those implicating the role of gender.

Faculty Meetings and Committees

Schedule of Faculty Meeting
At the beginning of each semester, the Dean announces the schedule of faculty meetings for the semester. Meetings are held monthly while the law school is in session.

Student Representation at Faculty Meetings
An elected SBA representative is invited to attend faculty meetings. Faculty meetings are closed to the general student body.

Student Representation on Faculty Committees
Student representatives are appointed to various faculty committees that address matters of interest to students.

Dean’s Advisory Council (DAC)
Students from each first-year section and upper level classes elect representatives to serve on DAC. DAC meets monthly with the Dean to discuss issues concerning the Law School.

Law Career Services

Career Advising
The counselors in the Law Career Services Office, all of whom are attorneys, advise students and alumni on all aspects of the job search process. The counselors proactively reach out to students to assist them with their searches including connecting them with alumni in various practice areas. The office and its advisors offer a wide range of resources both in terms of programming and hard copy and online resources to facilitate students’ career planning and search for employment. During the first semester of law school, students are offered a comprehensive orientation regarding the job search process. Each student is assigned to an individual advisor to ensure that students have a constant resource available to them.

Professionalism
The Law Career Services Office is committed to each student’s ethical and professional growth and development during law school and into his or her career. Each student is expected to adhere to rules and responsibilities that promote ethics and professionalism in the recruiting and job search process. These rules include reading all email announcements from the office and honoring all commitments. Professionalism Guidelines are posted in Vincent’s Resources Tab. By utilizing LCS services, students agree to abide by these guidelines.
Vincent (formerly Symplicity)

Students and alumni use Vincent (formerly Symplicity), the Law School’s Career Services site at www.law.depaul.edu/jobs. Vincent provides links to various resources, including information on drafting résumés and cover letters; a list of the Chicago law firms with four or more attorneys; employer recruiting programs; directories on a wide variety of employers and resources; career guides; and a wealth of additional information.

Communication

Students are expected to keep their current contact information updated on their profiles in Vincent as we use this information regularly to communicate job openings in their areas of interest, upcoming job fairs, career-related programs and other relevant information. Additionally, students are encouraged to regularly keep abreast of the information our office shares via our emailed newsletter, Twitter (@DePaulLawCareer), and our blog (depaul.law.typepad.com/depaul_law_career_service).

Online Job Posting

Notices of more than 3000 law clerk and attorney job opportunities are received by the Law Career Services Office each year. DePaul offers students and alumni access to these employment opportunities in electronic format. On-line, the job postings are made available in Vincent, a password-protected site, which can be accessed by logging onto www.law.depaul.edu/jobs. Students and alumni can obtain passwords by contacting or visiting the Law Career Services Office. On average, more than 200 active job opportunities are posted at any given time for both attorneys and law students.

Programs

Law Career Services offers a wide variety of programs, including mock interviews, skill-building seminars, and alumni panel discussions. Current information on these programs can be found in the event calendar on Vincent.

The On-Campus Interviewing (OCI) Program and Job Fairs

Every August, the Law Career Services Office invites employers to interview DePaul students for summer associate, law clerk, and postgraduate positions. While employers of all sizes are invited to participate, typically only the largest employers in private practice, government and business participate in OCI. Students should bear in mind that the employers who participate in OCI comprise only a small percentage of the overall employer pool and that they should make OCI one of many strategies they use to find employment.

DePaul students participate in a number of job fairs. Public interest and government employers often hire through these fairs. In Chicago, an annual Public Interest and Government Employer Job Fair is held in the winter. All area law schools participate in coordinating this event. Job fair descriptions are posted on the Vincent event calendar.

Anti-Discrimination Policies

As a member of the Association of American Law Schools (AALS) and in conformity with its by-laws, DePaul University College of Law provides equal opportunity in legal education for all persons without regard to race, color, religion, national origin, sex, age, disability or sexual orientation. The procedure for filing a grievance involving charges of discrimination is set forth in the University Code of Student Responsibility in the Graduate Student Handbook on the University website, www.depaul.edu.

University Policy on Sexual Harassment

DePaul University is committed to providing and maintaining a healthy learning and working environment for all students, staff, faculty and other members of the University community. It is the policy of the University to take all reasonable action to prevent, eliminate and respond to acts of sexual harassment and sexual assault. The University welcomes the opportunity to prevent these acts and to provide an environment that is free of discrimination and all forms of sexual harassment. This includes providing education and training, and instituting disciplinary action as appropriate.
procedures for reporting harassment are set forth in the DePaul University Student Handbook, which is available on the University website, www.depaul.edu.

**College of Law Religious Liberty Policy**

DePaul University College of Law is committed to safeguarding religious liberty.

**Scheduling of Classes and Other College of Law Events**

To the best of its ability, the College of Law attempts not to schedule classes on religious holidays, including the Sabbath. Where classes must be scheduled on religious holidays, the College attempts to offer alternative sections. College of Law events, such as Law Days, are scheduled on both Saturdays and Sundays.

**Class Attendance and Participation**

A student who misses class as a consequence of religious observance will not be penalized. For example, if a professor permits students to miss two classes in a semester and a student must miss three classes for reasons of religious observance, that student should be permitted to miss five classes in total.

Students who miss class for reasons of religious observance must be permitted to tape those classes. Students are responsible for making the taping arrangements. No student shall be required to take an examination or engage in any other evaluative endeavor on a religious holiday.

It is the obligation of the student to apprise faculty members of the necessity to miss class for reasons of religious observance and to apprise the Assistant Dean for Student Affairs about the need to reschedule an examination or other evaluative exercise.

**Student Organizations**

Student organizations that sponsor competitive events must accommodate the needs of students who cannot compete on a religious holiday. It is the obligation of the student to advise the student organization of the necessity for accommodation so that another opportunity to participate in the competition may be provided.

Students whose religious observances prevent them from attending the events of a student organization may not be barred from membership as a consequence thereof. Student organizations are encouraged to schedule events at a time other than Friday noon, Friday evening, Saturday and Sunday.

---

**Admission to the Bar**

**Bar Examination Requirements**

Most College of Law graduates apply for admission to the bar in Illinois, although many later seek admission in other jurisdictions. Each state administers the bar examination twice each year: once in February and once in July. The supreme court of each state determines the material that will be tested on its bar exam. Generally, an applicant must pass two separate types of exams: (1) an academic qualification exam and (2) a professional responsibility exam (e.g., "The Multistate Professional Responsibility Examination").

**The Illinois Bar Exam**

The Illinois Bar Exam is a two-day academic qualification exam consisting of three components: an essay component (nine questions), a multiple-choice component (200 questions), and a performance component involving a LARC-like, closed-universe problem (in which the applicant is instructed to draft a memo, a brief or other kind of analytical document). Three of the essay questions are created by Illinois bar examiners. The remaining essay questions and other exam components are created by the National Conference of Bar Examiners, the organization that designs questions used in various bar exams across the country.

Illinois does not require students to have taken particular courses to sit for the Illinois Bar Exam. Illinois Supreme Court Rule 704(d), however, lists 24 subjects that may be tested, which include all DePaul first-year subjects plus several core electives:

- administrative law
agency and partnership
business organizations (including corporations and limited liability companies)
commercial paper
conflict of laws
contracts
criminal law and procedure
family law
equity jurisprudence
evidence
federal and state constitutional law
federal jurisdiction and procedure
federal taxation
Illinois procedure
personal property (including sales and bailments)
real property
secured transactions
suretyship
torts
trusts and future interests
wills and decedents’ estates

The Illinois Board of Admissions to the Bar encourages law students to register with the bar examiners by March 1 of the first year of law school if they intend to take the Illinois Bar Exam. First-year registration is not mandatory, but is strongly recommended if the student has a history of character and fitness issues such as contact with the criminal justice system. Students who register later will pay higher fees.

Bar Exams in Other States

Each state administers its own bar exam. Generally, the exam consists of an essay component, a multiple-choice component, and a performance component involving a LARC-like, closed-universe problem. The proportion of questions designed by each state’s own bar examiners versus questions designed by the National Conference of Bar Examiners can vary widely from state to state, as well as whether a state administers a particular component at all. Thus, a student should check the state’s bar admissions website to learn specifically what subjects are tested and which components are used. The student should also determine if the state has a policy of allowing first-year students to register in advance.

For information about applying to take the bar exam in another state or jurisdiction, go to the National Conference of Bar Examiners website, www.ncbex.org. The home page, right-hand column, contains a directory of contact information for the bar admissions office of each jurisdiction.

Some states require students to have taken specific courses to sit for their bar exams. Students interested in practicing in another state should visit that state’s board of admissions website to learn of any specific bar admission requirements.

A graduating senior who intends to take the bar in a state other than Illinois must notify the Assistant Dean for Student Affairs at least two months prior to graduation. The student must provide the Assistant Dean with a Dean’s Certificate form and a cover letter stating the student’s name, student ID number, mailing address, e-mail address and telephone number and the deadline for submission of the form to the jurisdiction in which the student will be sitting for the bar. If the state to which the student applies requires an official transcript to verify the JD, the student must order the transcript from the University Office of Student Records, http://sr.depaul.edu. The College of Law cannot order official transcripts because release of the transcripts requires the student’s written consent.

Multistate Professional Responsibility Examination

The Multistate Professional Responsibility Examination (MPRE) is a separate exam from the academic qualification exam described in the preceding section. The MPRE is a two-hour exam that tests knowledge of ethical standards of the legal profession. It is administered three times a year in March, August and November. To be licensed in most states, an applicant must take and pass both the MPRE and the state’s bar examination.

Registration and qualification for the MPRE: To register for the MPRE, go to the National Conference of Bar Examiners website: ncbex.org > Multistate Tests > MPRE. For a DePaul College of Law student’s MPRE score to be accepted in Illinois, the student must complete at least 58 credit hours before sitting for the MPRE. Note: If a student takes the MPRE before earning 58 credits (2/3 of the 86 credits required to graduate), he or she will have to take the exam again.

An applicant need not take the MPRE before taking the bar exam, but most DePaul students take the MPRE in
their final year of law school before they graduate. Note that the Illinois Board of Admissions and other states must receive satisfactory proof that an applicant has achieved a passing MPRE score before he or she can be recommended for admission to the bar.

Warning: Unfortunately, every year, some College of Law GRADUATES fail the bar. Do not let this happen to you. A principal reason FOR FAILURE IS UNDERESTIMATING THE DIFFICULTY OF THE EXAM AND NOT TREATING BAR STUDY AS A FULL-TIME JOB.

College of Law Bar Examination Resources

Students are strongly encouraged to attend the College of Law's Bar Skills Workshops conducted in the last semester of their senior year. The workshops will introduce the different components of the bar exam, exam-taking techniques, effective study and scheduling habits, and stress management techniques students need to know before beginning the intensive, ten-week review period preceding the exam. Seniors are strongly encouraged to take a commercial bar review course immediately following graduation.

Character and Fitness Disclosures

The Illinois Board of Admissions to the Bar requires that the Dean of the law school certify that each student sitting for the bar has earned the JD degree. As part of that certification, the Dean must answer the following questions:

1. Do your records or other information show anything adverse concerning the applicant's honesty, integrity, or general conduct?
2. Was the applicant ever involved in a disciplinary inquiry or proceeding while in attendance? If so, explain.
3. Are you aware of any matter or matters reflecting adversely upon the applicant's reputation and character?
4. Please state any facts, not covered by the foregoing questions, unfavorable to the applicant, which you think the committee should know in connection with its duty to determine whether the applicant is worthy of the highest trust and confidence.

Most other states require similar certificates to be completed by the Dean before students may take the bar exam.

Students are advised that they have a duty to supplement their law school files if any adverse criminal, civil, administrative or financial events occurred before or during law school. If any discrepancy exists between information disclosed on the original law school application and the bar application, the student may be asked to meet with bar admission staff or the Board of Law Admissions. Adverse information not disclosed may result in the denial of a license to practice law. Students who do not fully disclose adverse information when they apply to DePaul University College of Law must do so at the earliest opportunity. If not, they may be cited for a violation of the College of Law Honor Code. Penalties, including letters of reprimand, suspension or expulsion, may be imposed for failure to make full or complete disclosure.

Vincent G. Rinn Law Library

History and Mission

The DePaul University College of Law Library occupies the 4th through 6th floors of the Lewis Center, located at 25 E. Jackson Blvd. The law library entrance is on the 5th floor. In October of 1998, the Law Library was dedicated to the memory of Vincent G. Rinn, a member of the College of Law's class of 1931. The primary mission of the Rinn Law Library is to serve the research and study needs of the DePaul University community.

Access and Hours

As a participant in the Federal Depository Library Program, DePaul's Rinn Law Library is open to the public. Anyone entering the Library must either swipe their DePaul ID for access or ring the bell, present a current photo ID, and sign in at the Circulation Desk.
Law Library Hours

For a schedule of the Library's current hours, please telephone the circulation desk (312) 362-8121, or visit the library website. [http://www.law.depaul.edu/library/general_information/hours.asp](http://www.law.depaul.edu/library/general_information/hours.asp)

Generally, the Library is open as follows:

**Fall and Spring Semesters**
- Monday through Thursday: 8:00 a.m. - 11:00 p.m.
- Friday: 8:00 a.m. - 8:00 p.m.
- Saturday: 9:00 a.m. - 8:00 p.m.
- Sunday: 10:00 a.m. - 10:00 p.m.

**Summer Session**
- Monday through Friday: 8:00 a.m. - 10:00 p.m.
- Saturday: 9:00 a.m. - 6:00 p.m.
- Sunday: Closed

**EXCEPTIONS:** The Law Library is closed on New Year’s Day, Good Friday, Easter Sunday, Memorial Day, Independence Day, Labor Day, and Thanksgiving Day, and on all other days that the University is officially closed. Additionally, the Library is also closed on Sundays when the College of Law is not in regular academic session and during the summer.

**General Information and Policies**

- Personal belongings and valuables should not be left unattended. Please report any suspicious activity to the Circulation Desk staff.
- For security reasons, the Law Library has installed a system at the exit that causes an alarm to sound if a patron attempts to leave the library with material that has not been properly checked out. Occasionally, certain briefcases, notebooks and other items containing metal may activate the alarm. If the alarm rings, please return to the circulation desk and comply with the requests of the attendant on duty.
- The Law Library maintains a “Lost and Found” at the circulation desk. Items not claimed within 24 hours are forwarded to the University’s Public Safety Office, located on B1 of the Lewis Building.
- Books should be re-shelved in their proper location or placed on a nearby book cart when no longer needed.
- Smoking, or carrying or consuming alcoholic beverages, is prohibited in all areas of the Law Library.
- Beverages (non-alcoholic only) must be in covered, spill-proof containers. Please limit consumable food to pre-packaged snacks, or small pieces of fruit. Smelly or greasy food, which can damage the books and furnishings, is prohibited. Please remember to place all trash or garbage in an appropriate receptacle.
- Stealing, hiding or damaging books, or any other library material, is a violation of the DePaul College of Law Honor Code and of Illinois state law.
- Cell phones are not to be used in the Law Library. Ringers should be placed on silent, or vibrate, so as not to disturb other patrons. If you receive a call, please step outside of the Library to have your conversation. Law Library phones are not available for patron use.

**Noise**

The Law Library is a place for quiet study and research. Please keep conversations and unnecessary noise to a minimum.

**Computer Access**

Wireless Internet access is available throughout the Law Library. Additionally, a computer lab is located in room 513 in the Law Library. The lab is for the use of College of Law students, faculty and staff. The lab has networked workstations that provide access to Lexis and Westlaw, Computer-Assisted Legal Instruction (CALI) exercises, word processing software and the Internet. Please note that any unauthorized use of Lexis and Westlaw is a violation of the Honor Code.

Law students have access to several other University computer labs throughout the Loop Campus. For current listing, please see the following: [http://offices.depaul.edu/is/services/labs-classrooms/computer-labs/Pages/default.aspx](http://offices.depaul.edu/is/services/labs-classrooms/computer-labs/Pages/default.aspx)

**Network Printers**

For your convenience, DePaul University uses Intelliprint, a print monitoring system that utilizes student ID cards for identifying print jobs. The system was designed to protect the environment and control excessive paper use, thereby reducing costs that can affect tuition prices. Students pay for printing as needed through Demon Express Account on their ID cards. There are three Intelliprint stations in the Law Library. A Value Transfer Station...
(VTS), where patrons can add funds to their account is located in room 402.

**Wireless Printing**

The ability to print wirelessly to the Intelliprint system using iPrint from Anywhere is currently available for students with compatible laptops. With iPrint from Anywhere you can print directly from your laptop without first having to transfer documents to DePaul’s lab computers in order to print. Please visit the following IS web page for updates and details: http://offices.depaul.edu/is/services/labs-classrooms/Pages/IPrint-From-Anywhere.aspx.

**Conference/Group Study Rooms**

There are thirteen conference rooms in the Law Library. These rooms are typically unlocked at the beginning of the day and are available on a first-come first serve basis. Law students are afforded priority in the use of these rooms. On occasion, library staff will reserve a room for official library business and will post a notice or sign on the door.

**Copy Machines**

The Law Library has three photocopiers. Each has a duplexer and a paper feeder attached. Copies are ten cents per page. The photocopiers do not accept cash. You must use a Demon Express copy card or DePaul ID. To purchase or add money to a copy card, use the DePaul Value Transfer Station located in Copy room 402. The Value Transfer Station machine accepts $1, $5, $10 and $20 bills. Alternatively, you can add money to your Demon Express account via Campus Connect using a credit card. Please report any photocopier problems to the circulation desk staff.

**Media Facilities**

There are two media rooms available for DePaul University College of Law students to use for videotaping, interactive video sessions and to view curriculum-related videotapes. These media rooms are located on the 5th floor. To reserve a room, please visit the circulation desk or telephone (312) 362-6892.

**Services**

**Circulation Services** (312) 362-6892

The Circulation desk is located to the right of the entrance to the Law Library. Circulation desk staff is available whenever the Law Library is open. They assist students and other patrons in checking out and renewing general circulation materials, locating reserve materials, accepting reservations for library media rooms and research carrels and in answering general questions about the library.

**Circulation and Renewal Policies**

- TREATISES (i.e. books) circulate for 28 days (3 renewals possible)
- JOURNALS (bound and unbound) circulate for 24 hours (2 renewals possible)
- RESERVE MATERIALS (e.g. hornbooks, nutshells, IICLE handbooks, faculty course materials, old exams) circulate for 1, 3 or 24 hours. 1 and 3 hour items are not renewable; however, 24-hour items can be renewed twice. Treatises can be renewed online using the DePaul/I-Share or WorldCat Local Catalog. All other items must be renewed by circulation desk staff, or by telephone (312) 362-6892.

**Fines**

Overdue charges are calculated based on the Law Library's fine policy. Borrowers will be charged the replacement cost of non-returned materials, a processing fee and any overdue fines. Delinquent borrowers are subject to having their borrowing privileges revoked. Additionally, registration for classes or graduation may be blocked.

**Electronic Reserves**

Selected faculty course materials are available electronically at:
http://law.depaul.edu/library/student_services/reserve_materials.asp

This material is password protected. To obtain the password, please contact the circulation desk staff, at (312)362-6892.

Selected archived law school exams are available on the Library’s Westlaw TWEN page at:
http://lawschool.westlaw.com/twen

You will need a Westlaw password to access this material. If you don't have a Westlaw password, please see a reference librarian.
Research Carrels

The Law Library maintains research carrels with lockable shelves for use by faculty research assistants and members of the Moot Court Society, DePaul Law Review and other DePaul journals. Carrels are available for one semester. To obtain a carrel, a student must provide the Circulation Manager with a letter from a College of Law professor or a journal editor requesting a carrel assignment for the student. Selected materials can be checked out to an assigned carrel for sixteen weeks, but these materials may not be removed from the Library.

Interlibrary Loans

Interlibrary loan (ILL) service is available to College of Law students, faculty and staff. The Law Library staff will attempt to borrow books or obtain copies of journal articles for academic research purposes when a needed item is unavailable at any DePaul library; and cannot be requested directly by you. For assistance making an ILL request, please see a reference librarian or review information available at the following website. http://www.law.depaul.edu/library/student_services/interlibrary_loan.asp

Borrowers are personally responsible for any charges assessed by the lending library and for any damage to, or loss of, ILL materials.

Reference Services (312) 362-6894

The Reference Desk is located to the left after you enter to the Law Library. Reference librarians are available to assist students and other library users locate and use the Library’s print and electronic resources.

During the academic year when the College of Law is in session, reference desk service hours are as follows:

- Monday - Thursday  9:00 a.m. - 9:00 p.m.
- Friday           9:00 a.m. - 5:00 p.m.
- Saturday         10:00 a.m. - 5:00 p.m.
- Sunday           12:00 p.m. - 7:00 p.m.

Reference assistance is also available by way of Instant Messaging; E-Chat; Email, Phone and Texting. For details, see the following Library website for information. http://law.depaul.edu/library/student_services/

The Law Library Collection

The Law Library collection supports the instructional and research activities of the DePaul College of Law and the University in general. The print collection consists principally of materials relating to Anglo-American law, including the law of the United States; its individual states and territories; Canada and Great Britain.

The collection also includes a comprehensive collection of law school and bar journals and other major secondary sources such as treatises, legal encyclopedias and selected study aids. Substantively, the collection has strong subject concentrations in taxation, constitutional law, health law, and human rights law and church-state relations.

The collection is located on three floors:

- The fourth floor includes subject treatises, state materials, health law and foreign law.
- The fifth floor includes reference, reserve, and federal materials, including hearings of 30 selected Congressional Committees.
- The sixth floor includes law reviews and international and comparative law sources.

In addition to the print collection, the Library subscribes to or provides access to many online resources. Access to these databases is available through the Library web page at: http://www.law.depaul.edu/library/faculty_services/database_list.asp

Classification and Location of Materials in the Law Library

The Law Library uses the Library of Congress (LC) classification system, a subject arrangement, which consists of one or more letters of the alphabet, followed by a series of numbers. The following LC classifications are most common in the Law Library:

- **H** Economics, Sociology  6th Floor
- **J** Political Science    6th Floor
- **J2** International Relations 6th Floor
- **K1-30** Legal Periodicals  6th Floor
- **KD** Law of the United Kingdom 6th Floor
- **KE** Law of Canada  6th Floor
- **KF1-127** Law of the United States - Federal  5th Floor
Locating Material Using the DePaul Library Catalog

The online DePaul Library Catalog can be used to locate and/or requests books, journal articles and other library materials from DePaul and 75 other Illinois libraries. The Law Library has four public access terminals located near its reference desk. The DePaul Library catalog can also be accessed from any computer that has Internet access. For assistance using the Library catalog, contact a reference librarian.

Locating Journal Articles

The Index to Legal Periodicals and Books, Current Law Index and several other print journal indices are located on the 6th floor Index Table. Online journal indexes and selected full-text databases such as LegalTrac and HeinOnline are available through the Library's web page at: http://www.law.depaul.edu/library/faculty_services/database_list.asp#H

Most of the Library's print collection of law school journals is classified K1 to K30 and shelved alphabetically by title on the 6th floor. Subject journals are classified and shelved with other material on the same subject. Bound journals are shelved in the open stacks. Recent and unbound journal issues are kept behind the Circulation Desk. To determine if DePaul owns a specific title, you may use the DePaul / I-Share online catalog, or contact the reference desk.

Other DePaul libraries

All DePaul University Libraries are open to College of Law students and faculty. The College of Commerce (i.e., the "Loop") Library is located on the tenth floor of the DePaul Center. A shuttle delivers materials between the Loop and Lincoln Park campus libraries on weekdays.

Other Chicago Area Law Libraries

DePaul law students and faculty have access to and may borrow circulating non-reserve books from other Chicago law school libraries. For additional information, contact the library.
### General Information

#### Required Courses and Course Descriptions

The courses required for the JD degree are listed in § 1.2. The requirements for LL.M. degrees are described in § 1.9 through § 1.13. Descriptions of courses are published on Campus Connection.

#### Course Prerequisites

A student must complete the necessary prerequisite(s) before taking a course. A student who attempts to register for a course on Campus Connection without a necessary prerequisite will not be able to do so.

#### Class Materials

Materials reproduced by the Law School for class use are sold through the bookstore. Textbooks and course materials are located on the lower level. Students are encouraged to order their books on-line at [www.depaubkstore.com](http://www.depaubkstore.com).

#### Syllabi

First class assignments and syllabi are published on the Law School website. If a syllabus does not appear for a particular course, it will be distributed to the students by the instructor.

#### Lockers

Lockers are allocated by the Student Life Office, located on the 8th floor of the DePaul Center. Lockers are allocated for a period of one academic year. If a student does not renew a locker rental, the University will empty the locker at the end of the academic year in June.

#### Official Transcripts

The University Student Records Office on the ninth floor of the DePaul Center issues official DePaul transcripts. The College of Law cannot issue transcripts. Official transcripts may be ordered on Campus Connection, [www.depaubkstore.com](http://www.depaubkstore.com) or from the University Student Records website, [http://sr.depaul.edu](http://sr.depaul.edu). Students may order 10 free official transcripts per year.

Change of Addresses, Phone Numbers, Names and E-Mail Addresses

Students who change their names must bring legal proof of a name change to the DePaul Central (9th floor DePaul Center). Names on diplomas appear exactly as they appear on Campus Connection. Students may update all other demographic information on the University website, www.depaul.edu, under "Campus Connection" and "Demographic Portfolio." Students have the option of listing three different addresses and phone numbers, including business, home and mailing addresses. Several e-mail addresses may be listed as well.

Students Must ensure That Their E-Mail Addresses On Campus Connection Are Correct At All Times. If Your E-Mail Address Is Not Correct On Campus Connection, You Will Not Receive Information Necessary To Pursue Your Law School Studies. Failure To Provide A Correct E-Mail Address Will Not Excuse Non-Compliance With Rules, Regulations Or Requirements Communicated By The College of Law Via E-Mail.

Immunizations Mandatory

Students are encouraged to get a flu shot every year.

State law requires that all students provide proof of immunizations before they register for any classes. The immunization form, which must be signed by the student's physician, is available on the University Student Records website, http://sr.depaul.edu. The University Office of Student Records will place a hold on a student's record if proof of immunizations is not received. Students will not be able to register or to obtain transcripts. DePaul University complies with Illinois law, which requires post-secondary institutions to submit an annual report on student immunization. All students born on or after January 1, 1957 and enrolled half-time must provide proof of immunization for the following: Tetanus/Diptheria, Measles (Rubeola), Mumps and Rubella (German Measles). Submit records to the University Student Records Office.

Payment of Charges

Tuition and fees are payable in full at the time specified in the registration materials, unless a student enrolls in either DePepper (employer reimbursement) or DePupp (monthly payment plan). Information on those programs may be found at http://studentaccounts.depaul.edu, the DePaul Student Accounts Office. Generally, past due tuition and fees must be paid in full before a student can register.

Financial Delinquency

Any student who fails to make timely payments as required by the Student Financial Accounts Office will be charged a $100.00 late penalty. Students with delinquent accounts are subject to suspension and exclusion from classes. They may be barred from receiving official transcripts, registering for a subsequent semester, receiving a degree or being certified for admission to the bar.

Dishonored Checks

A $25 fee is charged for each dishonored check.

Tuition Refund Policy

Tuition will be refunded only if a student withdraws before the end of the second week of classes in any semester. A tuition refund is not available after the deadline.

Internet Services

The University website is www.depaul.edu. Student information is password protected and is available under Campus Connection. Campus Connection will give students access to:

- Demographic Portfolio: Update e-mail address, mailing or business address, and telephone numbers.
- Grades and Course Histories: Access grades, official and unofficial transcripts and degree progress reports.
- Class Search: See what courses are open or closed, room assignments and professors.
- Student Course List: After you register, review your class schedule.
- Change PIN: Change your University assigned password.
- Web Registration: Allows registration for classes on the web.
- Student Accounts: Obtain a complete financial record.

The College of Law website is www.law.depaul.edu. It contains faculty and administration information, academic programs and requirements, Law Career Services information, Law Library information, course syllabi, course descriptions, class ranks, scholarship information and a listing of current events.

Passwords. The University Identification Services Office (9th floor DePaul Center) assigns all DePaul students user identifications and passwords to access Campus Connection on the University website. Students are encouraged to change their passwords to a number or word they can easily remember.
E-Mail Accounts. All DePaul students are assigned free e-mail accounts by the Identification Services Office. If students wish to use other email addresses, they may do so, but they must be sure to list them on Campus Connection and check one address as preferred.

Reservation of Rooms and Scheduling of Events

The College of Law events coordinator maintains a schedule of room use. Anyone who wants to use a room for any purpose other than a regularly scheduled class must submit an online room reservation request through on the College of Law website.

Building Access and Hours

Only organizations associated with the College of Law may use school facilities. Organizations not affiliated with DePaul may use school facilities if sponsored by a member of the faculty or a law student organization. Groups not associated with the College of Law may also reserve rooms or tables in the DePaul Center Student Center or the University Conference Center (8th floor DePaul Center).

Most Loop buildings are open and accessible Monday through Friday, from 7:00 a.m. through 10:00 p.m. Saturday and Sunday schedules will typically operate between the hours of 7:00 a.m. and 6:00 p.m.

Access to buildings during off-hours (i.e., late evenings, weekends and holidays) may be obtained by contacting the University Public Safety Office, which will require a written request, in advance. The request should include name, department, building/floor/room number to be accessed, date, time and estimated duration of visit, and reason for access. All persons who attend will be required to present identification, and in some cases, sign-in when arriving on campus on the specified dates and times. Additionally, Facility Operations will not alter the heating, ventilation or air conditioning service schedule to accommodate off-hours access.

Lost and Found

A lost and found service is located in the Public Safety Office (lower level of Lewis Center).

Identification Cards

Photo identification cards are issued by the University Identification Services Office. An ID card is necessary to enter the Law Library and computer labs. All students are also assigned a seven-digit student identification number.

Parking

A special parking rate is available to students in nearby parking lots. Students must stamp their parking receipts in the machine by the security desk in the Lewis Center lobby or in the DePaul Center lobby.

DePaul Campus Facilities

College of Law students are welcome to use the recreational facilities on all of the DePaul campuses. Identification cards are required to use the facilities. Students are charged a membership fee to use athletic facilities.

Personal Mail

Students may not use the College of Law address for personal mail. They may use the fax machines designated for student use.

Emergency Cancellation of Classes/ Closure of the University

In the event it becomes necessary to close the University, the closure will be announced over local media, on the University website (www.depaul.edu) and by text or email through DPU Alert.

Alcohol Policy

DePaul community members owe it to themselves and others to make educated decisions about their use or distribution of alcohol. The State of Illinois prohibits the sale, use or possession of all forms of alcoholic beverages by persons who are under 21 years of age. Students are responsible for adhering to the University Drug Free Workplace & Legal Drinking Age Compliance policy, which is describes in full on the University website: www.depaul.edu.

The following regulations govern alcohol use by students and student organizations on DePaul University premises:

1. All casual possession or consumption of alcohol by students in designated common areas or non-reserved
areas on university premises is prohibited.
2. Alcohol may not be consumed and alcohol containers may not be possessed anywhere on campus or at
any Law School function by anyone who is under the legal drinking age.
3. Public intoxication, including alcohol-induced disorderly conduct, property destruction, intimidation, or
other infringement upon the rights or privacy of others, is a violation of the alcohol policy and will not be
tolerated. Furnishing alcohol (on campus or at any College function off-campus) to persons, who appear to
be intoxicated, is prohibited. Such conduct may be considered violations of the DePaul University Code of
Student Conduct.
4. Campus events where alcohol is being provided to students must be hosted by the faculty/administration of
the Law School, the Student Bar Association, Student Bar Association, recognized Student Organizations,
and/or law school journals. Such events are subject to, but not limited to, the following restrictions:
   1. The Student Bar Association, Student Bar Association recognized Student Organization, and/or law
      school journal seeking to plan, sponsor, or host an event where alcohol is to be served must receive
      permission at least two (2) weeks prior to the event from Associate Vice President Cynthia Summers,
      csommers@depaul.edu, 312-362-5653 or Room 1400 Lewis.
   2. The permission form is on the College of Law website. It should be sent by email to Vice President
      Summers.
   3. Alcoholic beverages can be served at on-campus Student Organization and/or law school journal
      (herein both recognized as "Organization") sponsored events provided the following are complied
      with:
         1. The event has a primary purpose not directly related to the consumption of alcohol. Such
            purposes include, but are not limited to: furtherrance of the organization’s mission and/or
            providing legal networking opportunities to students.
         2. Non-alcoholic beverages and food, with at least coffee and water, must be made available for
            students and attendees during the entire duration of the event.
         3. Alcoholic beverages that are permitted at Student Organization events are limited to beer and
            wine.
         4. Student Organization events in which alcohol is served are prohibited from serving alcohol at
            the event before 6:00p.m.; exceptions are permitted with permission and approval from
            Associate Vice President Cynthia Summers, csommers@depaul.edu and 312-362-5653, 1400
            Lewis.
         5. At least one (1) member of the Law School Faculty or Administration will be attending the event
            as a Faculty Sponsor.
         6. At least two Executive Board (2) members and/or two (2) Journal Editors of the Organization
            hosting the event will be attending the event at any given time as Student Sponsors: Student
            Sponsors are to be attendees that are responsible for the planning and hosting of the event.
         7. The serving of alcohol is limited to bartenders licensed to serve alcohol.
         8. The serving of alcohol is limited to parties licensed to sell, dispense, and serve alcohol.
         9. At least one (1) security guard must be hired for the entire duration of the event where alcohol
            is to be served.
        10. At least one (1) Executive Member and/or Journal Editor must arrange to meet with Vice
            President Summers or one of her staff at least two (2) weeks prior to the event to seek
            permission before hosting the event.
   5. Student Organization on-campus advertisements (advertisements include but are not limited to flyers,
      canvassing, chalk board posting) Student organizations must comply with the University posting policy
   6. Pictures of alcohol, depictions of alcohol use, or the encouragement of alcohol use are strictly prohibited
      from being placed on advertisements.
   7. Flyers used for advertising are to be pre-approved by Assistant Dean Diana White.
   8. When student organizations sponsor events at which alcoholic beverages are offered for consumption, the
      organization and its officers shall be solely responsible for the conduct of such affairs in accord with civil
      and criminal law and university policies.

Smoking Policy

Smoking is not permitted in any DePaul buildings.

Escort Service

The DePaul University Public Safety Department provides an escort service for students, staff and faculty when
circumstances require them to travel alone on campus, in isolated areas after dark or whenever there is
otherwise a concern for their personal safety.

Health Insurance

The DePaul University Student Health Plan has been developed especially for DePaul University students and
their eligible dependents. The Plan provides coverage for illnesses and injuries that occur on or off campus and
includes special cost-saving features to keep the coverage as affordable as possible. The Plan is underwritten by
Aetna Life Insurance Company and features major medical design with a $100,000 lifetime aggregate maximum
benefit per illness or injury. The Plan includes a Preferred Provider Organization through Aetna. If you obtain
care from these preferred providers, you will reduce the cost of health care substantially. All DePaul students are eligible for the Student Health Insurance as long as they are taking classes in the current semester.

If you have any questions, please visit their website, www.aetnastudenthealth.com, or call the Chickering Claims Administrators Inc.’s Customer Service Department at (800) 878-1938 and reference DePaul's policy number of 7111116. Or contact the Student Affairs Office at (312) 362-5680.

The American Bar Association also offers student health insurance for members. Information is available on its website, www.abanet.org

Housing

General housing information can be found on the College of Law website. The University has a housing service for all current and prospective members of the University community called the Housing Resource Center.

University Counseling Services

The University Counseling Service offers counseling to DePaul students. Services include individual, couple and group counseling. The Counseling office is located on the 11th floor of the DePaul Center. The telephone number is (773) 325-7779.

University Ministry

University Ministry is open and available to persons of all faiths. Thomas Judge is the College of Law Chaplain (312/362-6699). The University Ministry offices are located in Room 11009 of the DePaul Center and on the second floor of the Stuart Center on the Lincoln Park campus. For information, call (312) 362-6910.

Office of Student Legal Services

The Office of Student Legal Services provides free or low-cost advice to DePaul students on wide range of common problems, including contract disputes, misdemeanor criminal offenses, routine traffic violations, landlord-tenant disputes and other minor legal problems. The Office is located on the Lincoln Park Campus, 990 West Fullerton Avenue, 1st Floor. The phone number is (773) 325-4959.

Ventra Card (CTA Passes)

All DePaul University College of Law students who are currently taking 9 or more credits in the autumn or spring semester or at least one credit in the summer semester automatically qualify for a Ventra Card. All students are charged a Ventra Card fee each semester as long as they are registered and may not opt out unless they are enrolled in a study abroad program. The Ventra Card is used on Chicago Transportation Authority (CTA) trains and buses. Photo identification cards are required to obtain a Ventra Card. Pictures are taken at the beginning of each academic semester both in the Law School student lounge and in the DePaul Center Student Union (11th floor). Ventra Cards are valid while classes are in session. They are not valid during DePaul class holidays. For more information, Search for Ventra Cards on the University website, www.depaul.edu.

Privacy Rights and Access to Educational Records

DePaul University College of Law respects the privacy of its students. The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records:

1. The right to inspect and review records upon written request; and
2. The right to request and amend records that are inaccurate or misleading. Should students wish to have their records amended, they must write the Assistant Dean for Student Affairs and identify the part of the record that they want changed and specify why it is inaccurate or misleading. If the Assistant Dean decides not to amend the record as requested, she will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment.

The College of Law will not disclose information from the educational records of a student without his or her prior written consent, except:

1. To school officials, including teachers, within the educational institution who have a legitimate educational interest in the records. A school official is defined as a person employed by the University or the College of Law in an administrative, supervisory, academic, research, or support staff position, including law enforcement personnel and health personnel; a person or company with whom the University has contracted to provide services; a student serving on an official committee, such as a disciplinary or grievance committee; or a person assisting another school official in performing his or her tasks;
2. To officials of another school in which the student seeks or intends to enroll;
3. To certain authorized representatives of the United States and state agencies who require such information to carry out lawful functions;
4. To in connection with the student's application for, or receipt of, financial aid;
5. To organizations conducting studies for, or on behalf of, educational agencies or institutions if these
studies are conducted in a manner that will not permit the personal identification of students and if the
information will be destroyed when no longer needed;
6. To accrediting organizations in order to carry out their accrediting functions;
7. To comply with a judicial order or lawfully issued subpoena; or appropriate parties in health or safety
emergencies.

Directory Information

If a student does not want his or her name, address, or phone number published, the student must block the
release of that information through Campus Connection.

DePaul University College of Law reserves the right to release the following student information: name; date and
place of birth; enrollment status and dates of attendance; positions held; place of employment and phone
number; memberships in officially recognized campus organizations and teams, degrees earned, special awards
and recognition given; and information requested by the Illinois Board of Admissions to the Bar and bar exam
officials of other states.

Tuition and Fees

For information on tuition and fees, see the University Student Accounts website,
http://studentaccounts.depaul.edu > Cost of Attendance.

Visiting at and Transferring Credits from Other Law Schools

Required Courses and Requirements to Visit Another Law School

A student may take cross-listed courses at other law schools that have a cross-listing agreement with DePaul
College of Law. Students who take such courses shall continue to be registered at, and pay tuition to, the DePaul
College of Law. The course instructor shall send the student’s final grade to the College of Law.

Except for the cross-listed courses reference above, or an approved summer study abroad visit at another law
school, which is strongly discouraged, a student will be permitted to receive credit for courses taken at another
law school only if the student faces an unforeseen change of circumstances of an emergency nature that makes
the student's continued presence at DePaul an exceptional hardship. Such circumstances may include but are not
limited to death or extreme illness in the student’s immediate family, which necessitates a move to another city
to alleviate severe financial, medical or other stress. A student must document his or her claim of extraordinary
hardship to the Assistant Dean for Student Affairs. The student must have at least a 3.00 DePaul GPA. NOTE:
Financial concerns or the need to accompany or join a spouse, without other significant factors, will not
constitute an exceptional hardship; neither will a desire to work or study in another location constitute such a
hardship.

In addition to demonstrating extraordinary hardship, a student who wishes to take courses at another law school
must submit to the Assistant Dean for Student Affairs an academic release form requesting that a letter of good
standing be sent to the other law school, copies of the course descriptions of the courses the student proposes to
take and a copy of the other law school’s grading system. The form requesting a letter of good standing may be
obtained from the law school website, www.law.depaul.edu. A $25 fee is charged for each letter of good
standing. Credit for courses taken at another school will only be awarded if the school is American Bar
Association accredited and if permission has been granted before the student registers for the courses.

All required courses must be taken at DePaul. Students may not visit another law school in the semester before
they graduate. A DePaul student who is permitted to visit at another law school must be enrolled full-time at the
other law school and may not take any DePaul courses during the visit.

If a student wishes to receive DePaul loans to cover the tuition costs at the other law school, he or she must see
an adviser in the Financial Aid Office. Scholarships will be canceled if the student is not enrolled at DePaul.

Once the student completes the course work at the other law school, the student must arrange to have an official
transcript with final grades sent directly from the other law school to the Assistant Dean for Student Affairs.
With the exception of cross-listed courses with other law schools, transfer credit will only be given for courses in
which the student received a grade of C or higher. Grades from courses at other law schools will not be
computed in the student’s DePaul GPA, except for determining honors when the student graduates and only if
the student earned at least 12 credits at the other school. A student may not take a course at another law school on a pass/fail basis.

Courses taken at another university or college that are not part of a regularly accredited law school curriculum will not be applied toward a law degree.

**Study Abroad Programs Other Than DePaul Programs**

Enrolling in a semester or summer abroad program offered by a school other than DePaul is strongly discouraged. A student must have a minimum GPA of 3.00 to attend a summer abroad program sponsored by another law school.

If a student wishes to attend a program sponsored by another law school, Associate Dean Brian Havel must approve the request. The student must submit a cover letter to Associate Dean Havel requesting permission to study abroad, together with copies of the course descriptions of the courses the student proposes to take and the number of credits each course is worth. The cover letter must explain why the student's goals cannot be attained by studying in one of the DePaul programs. Differences in curricula or locales between the programs offered by DePaul and those of other schools will not, without more, justify participation in another school's program.

If Associate Dean Havel approves the request, the student must request a letter of good standing from the Assistant Dean for Student Affairs through the College of Law website. The student will pay a nonrefundable $25 fee for each letter of good standing.

If a student's application for summer abroad at another institution is approved, the Financial Aid Office may be contacted to arrange a consortium agreement between DePaul and the other law school. Once a consortium agreement is entered into, loan funds granted by DePaul may be used to pay tuition charges for the summer abroad program.

After a student completes the program, he or she must order an official transcript from the other American law school (not the foreign school) and have it sent directly to the Assistant Dean for Student Affairs. The Assistant Dean will forward the transcript to the University Student Records Office, which will post the credits to the student's transcript. The transcript will not list grades. Instead, all courses will be listed as "T" or transfer.

A maximum of seven credits may be earned during a summer program sponsored by another law school. Credits will only be awarded if the program is approved by the American Bar Association. Grades earned in another law school's summer abroad program do not count toward a student's DePaul GPA and do not satisfy Certificate requirements.

**University Code of Conduct**

All DePaul students are governed by the Code of Student Responsibility, which applies to conduct that is not covered by the College of Law Honor Code. The Code is in the Graduate Student Handbook on the University website, [www.depaul.edu](http://www.depaul.edu).

**Technology Resources**

The College of Law's media and technology staff understands the important role technology plays in the learning experience and strives to identify and fulfill the technology needs of all College of Law faculty, staff and students.

**Computer Assistance**

Ali Belkairous
Office 312) 362-5216
Computer Labs

All computer labs contain the following software:
http://offices.depaul.edu/is/services/Software/Pages/Classroom-and-Lab-Standard-Software.aspx

Wireless Networking (Wi-Fi)

Registered students have wireless access throughout DePaul University campuses and must have a DePaul wireless card. For information about the card, see http://www.wireless.depaul.edu. The Lewis, O'Malley and Daley buildings provide wireless internet services 24/7, and law students have the ability to print directly from their laptops via "iPrint from Anywhere" without having to first transfer documents to DePaul's lab computers. For more information on wireless printing, visit http://offices.depaul.edu/is/services/labs-classrooms/Pages/iPrint-From-Anywhere.aspx.

Guide to Campus Connection

Go to the University website: www.depaul.edu  > Campus Connection.

Sign on with your user name (first initial of your first name and usually the first seven letters of your last name) and your password. The University Student Identification Office (ID Services, 9th floor of the DePaul Center) assigns your user name and password.

Main Menu

Demographic Portfolio

DPU Alert – Provide the phone and e-mail address where DePaul is most likely to reach you in the event of an emergency. Phone can be a cell or landline. To receive a text message, you must subscribe to that service through your cell phone provider. DePaul will only use this information in a major life-threatening situation.

Address – Provide your mailing address, home address or business address.

E-Mail Address – Must be updated at all times to receive vital information. You are automatically assigned a DePaul email address. You also may use a home or business e-mail address. Be sure to check one of them as "preferred." All messages from the College of Law will go to your preferred e-mail address.

Emergency Contact – Provide information about the person who should be contacted if you have a personal emergency.

Phone Numbers – Provide your cell, home, local or business phone numbers.

- My Class Schedule – View your class schedule
- My Enrollment Appointment – Confirms the date and time when you can register for classes
- My Grades – Lists courses and grades
- Search for Classes – In the up-coming term
General Information

To the University Community,

The Dean of Students Office is committed to partnership in the educational mission of DePaul University. This mission is enhanced by a Code of Student Responsibility, which outlines expectations and standards of behavior for the student community. Any community of more than 25,000 people needs rules. As a DePaul University student, the DePaul Code of Student Responsibility isn't a list of things you can do wrong; it's a code designed to protect your rights and those of all DePaul students. Any student who feels that another student in the community has violated their rights is encouraged to use this Code and the Dean of Students Office as a resource.

The Dean of Students Office can be an invaluable advocate and support in identifying resources and services for students. In an institution of such size and complexity it is often difficult to know where to begin when a student is struggling or having difficulty navigating the University setting. This office can be of particular help in areas of personal and/or family crisis, economic distress, or a medical/personal leave of absence. The office serves as principal liaison and resource for students and other divisions and departments within the University community.

Finally, our work with students is guided by the Socially Responsible Leader framework which is grounded in our Catholic, Urban and Vincentian mission. The development of socially responsible leaders in today's complex, global and ever-changing world requires a campus community that is committed to holistic learning and the fostering of a campus community based on respect. It is our hope that you will make full use of the opportunities to reach your full potential that are available for you at DePaul University. In that regard, the Dean of Students Office is here to serve you with locations on both the Loop and Lincoln Park campuses.

Locations:   Student Center 307         DePaul Center 11001
            Lincoln Park Campus          Loop Campus
(773) 325-7290                 (312) 362-8066

In emergency situations, the office can also be reached 24 hours a day through our Public Safety Office at (773) 325-7777.

Sincerely,
Art Munin, Ph.D.
Dean of Students
Any community of more than 20,000 people needs rules.

As a registered DePaul University student, the DePaul Code of Student Responsibility isn’t a list of things you can do wrong; it’s a code designed to protect your rights and those of all DePaul students.

Student Rights

1. The University shall be open to all students who qualify under its admission standards, regardless of race, religion, national origin, age, disability, marital status, sexual orientation or gender. All students have equal right of access to the public facilities and services of the University, in accordance with University policies.

2. Students have the right to their own ideas, beliefs and political associations. Students have the right to ask questions and express their opinions without affecting their academic evaluations, as long as such do not interfere with the normal operations of their classes or infringe on the rights of other students in their classes. Instructors shall evaluate students’ performances without prejudice.

3. A student has the right to a hearing within the established University procedures, in all matters that can result in the imposition of sanctions for misconduct. Usually, a student’s status within the University will not be permanently altered until final outcome of any judicial action. However, the University reserves the right to take actions to reasonably ensure safety and security, including removing and/or suspending a student from the University pending final determination of any judicial action.

4. A student duly admitted to and registered at the University has the right to receive a clear and concise written statement concerning academic and nonacademic regulations and commitments made by the University prior to or upon initial registration for classes. A student also has the right to be advised of any changes in such matters.

5. Students have the right to join associations and are free to promote their common interests. This includes the right to become affiliated with any recognized student organization without discrimination or prejudice regarding race, color, ethnicity, religion, national origin, age, physical or mental disability, marital status, parental status, family relationship status, military status, sexual orientation, sex, gender, or other status protected by local, state, or federal law in its education settings, although fraternities and sororities are exempt from the restriction of discrimination due to gender.

6. Students have the right to participate in the governance of the University through the Student Government Association.

7. Under the guidelines established by the University, students have the right to edit and/or operate the student media.

8. In accord with University policy, for all classroom courses, a syllabus must be distributed in written form beginning on the first day of class. The dean of the college is responsible for implementing the syllabus requirements.

9. Students shall be given the opportunity to be represented at all departmental meetings by at least one full-time student majoring in the appropriate discipline. The student representative shall be chosen annually in accordance with Student Government Association guidelines and shall be a full-time voting member. The student who accepts this responsibility has the moral obligation to attend these departmental meetings.

10. Students shall have the right to vote on search committees that choose academic deans. Membership on such committees shall be achieved through the auspices of the Student Government Association.

11. Students have the right to petition institutional authority for changes in either academic or nonacademic regulations.

12. Students have the right to regular academic advisement. Undergraduate and graduate students have the right to an assigned academic advisor who is available and informed to assist and advise in class selections, to meet academic requirements and career goals.

13. Students have the right of reasonable access to University administrators and faculty during specified office hours.

14. Undergraduate and graduate students (in all colleges but the College of Law) have the right to be informed formally of their academic standing in class by the midpoint of each quarter.

15. Students have the right of protection from University personnel engaging in unreasonable search or seizure unless:
   1. there is probable cause that a violation of University policy is likely to occur, is presently occurring or has occurred;
   2. there is an apparent emergency or danger to self or others;
   3. in order to repair damage to University property;
   4. students’ rights shall always remain subject to the searches of law enforcement officers who are performing their statutory duties in accordance with legally defined procedures governing search and seizure.
Notification of FERPA Rights

Annual Notification for DePaul Students: Your FERPA Rights

We want to take this opportunity to provide you with a summary of your rights under The Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. Please view Understanding FERPA, a DePaul Central Learning Center video for information and instructions.

Your FERPA rights include:
1. The right to inspect and review your education record within 45 days after the University receives a request for access. If you want to review your record, contact the University office that maintains the record to make appropriate arrangements.

2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the University official responsible for the record, clearly identifying the part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.

3. The right to provide written consent before DePaul discloses personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

Some examples of exceptions include:

- School officials with "legitimate educational interests." A school official has a legitimate educational interest if the official has a professional need to review your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: university faculty and staff, agents of the institution, students employed by the institution or who serve an official institutional committees, and representatives of agencies under contract with the University.
- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer.
- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local educational authorities, such as a state postsecondary authority that is responsible for supervising the university's state-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, enforcement or compliance activity on their behalf.
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid.
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate or administer predictive tests; (b) administer student aid programs; or (c) improve instruction.
- To accrediting organizations in order to carry out their accrediting functions.
- To appropriate officials in connection with a health or safety emergency.
- Information the school has designated as "directory information."

Directory information may be released without your written consent and includes the following: name, address, e-mail, telephone number, date of birth, college of enrollment, year in school, major, enrollment status (including current enrollment, dates of attendance, full-time/part-time or withdrawn), degrees, awards and honors received (e.g., Dean’s List recognition), participation in officially recognized activities and sports, weight and height of members of athletic teams, photographs (including ID pictures), videos depicting and/or concerning University life, and previous educational institutions attended. Please note that you have the right to withhold the release of directory information except to the extent that FERPA authorizes disclosure without consent (see #3 above).

To withhold the release of your directory information, you must log into the student portal, Campus Connection, and, under Student Privacy settings, indicate your preference. Please note two important details regarding placing a "No Release" on your record:

1. A "No Release" on your record will prevent your name from being included on lists of students released to
Introduction to the Code/Policies

A student by voluntarily joining the University community agrees to abide by the standards that have been instituted by DePaul University. Students are responsible for being familiar with all of the policies and procedures included in the Code of Student Responsibility. The Code of Student Responsibility was developed by Student Affairs to give formal recognition to the rights and responsibilities of students at DePaul University and is based on the following principles:

1. The intrinsic value of the person stands above other values. The personal rights and dignity of individuals are to be held inviolate. They take precedence over any academic goal set forth by the University.
2. The student is respected as a responsible person. He or she is, therefore, encouraged to make informed decisions with respect to his or her own education and to be involved in University decisions to the fullest extent possible.
3. The University is by definition a corporation. Just as the individual student has his or her own personal right, so the University, as a corporate person, has an obligation to exercise its rights and privileges in conformity with the laws and procedures governing its actions.
4. DePaul University recognizes that freedom to teach and freedom to learn depend upon opportunities and conditions in the classroom, on the campus and in the larger community. The responsibility to secure and respect general conditions conducive to learning is shared by all members of the academic community. Freedom is meaningless unless responsibility is also present.

The above rights can be exercised effectively and without fear only if they are incorporated into policies and regulations that are as precise and informative as possible, and only if there are adequate procedures to settle disputes that arise in their regard. The Code of Student Responsibility protects students’ rights by making explicit all judicial procedures so that no student may be subject to judicial procedures except in strict adherence to proscribed policies.

As an academic and religious institution, DePaul has a vested interest in both the safety and well-being of the members of its campus community. As a result of the high caliber of men and women DePaul University attracts, the Code of Student Responsibility reflects the emphasis on responsibility in both the academic and nonacademic areas of university life. It is the intent of the Code to provide the necessary guidelines to support and advance the educational and religious aims of the University without unduly restricting or diminishing the university experience. The Code, together with other applicable University policies, outlines the minimum acceptable level of conduct expected of every student at DePaul. The policies and procedures outlined are those that students, faculty and administrators at the University have designed to further the educational and religious aims of the institution and to assist all students in the pursuit of their educational, personal and social development.

A student by voluntarily joining the DePaul community assumes the responsibility for abiding by the standards that have been instituted by DePaul. The Vice President for Student Affairs, or his/her designee, maintains exclusive authority for imposing sanctions for behaviors that violate the Code of Student Responsibility. The Vice President for Student Affairs, or his/her designee, is also responsible for interpreting and/or implementing
additional University procedures or policies to address issues that are not specifically covered by the various parts of this Code. University personnel charged with enforcement of the Code will at all times endeavor to adhere to the intent of fundamental fairness so that each student’s concern is addressed in an impartial and consistent manner.

The University may exercise jurisdiction for an offense committed on-campus. Additionally, the University may exercise jurisdiction for an offense committed off-campus (including on-line communities) when:

A. The victim of such offense is a member of the campus community (student, faculty or staff); or
B. The offense occurred at a college-sponsored or sanctioned event; or
C. The student used his or her status as a member of the University community to assist in the commission of the offense (for example student ID card to pass a bad check); or
D. The offense affects the University.

The University’s adjudication of any violation of this Code may proceed independently of any action taken by state, federal or municipal agencies. The University reserves the right to refer incidents of misconduct to civil or criminal authorities.

This Code is designed to protect the rights of all members of the University community so they can prosper academically, socially and personally. In order for this Code to work effectively, however, students must take responsibility for confronting behaviors exhibited by their peers that negatively impact their experiences and violate established standards of behavior. It is imperative that students work in partnership with University faculty and staff members to protect the rights that have been afforded them.

DePaul University reserves the right to change policies or procedures maintained herein at any time during a student’s enrollment period provided such changes are updated in the on-line Undergraduate Handbook. Students and student organizations are advised to read this Code and any other relevant policies carefully so all are aware of the policies which guide the University in its dealings with them. Students should review the Academic Policies section of the Undergraduate Handbook or contact their college office for specific information on the policies used to govern academic expectations at the University.

---

**Alcohol**

**University Policy**

DePaul community members owe it to themselves and others to make educated decisions about their use or distribution of alcohol. The State of Illinois prohibits the sale, use or possession of all forms of alcoholic beverages by persons under 21 years of age. Students are responsible for adhering to the university Drug Free Workplace & Legal Drinking Age Compliance policy. Students living on campus should consult the Guide to Student Housing for additional information about alcohol policies and prohibitions in the residence halls.

**Health Promotion & Wellness**

DePaul University expects students to uphold the law when it comes to the purchase and consumption of alcohol. This institution also seeks to educate students about making safe, responsible decisions when it comes to substance use. The Alcohol & Substance Abuse Prevention Specialist is the point of contact for all outreach and initiatives pertaining to responsible substance use. Students who are found responsible for violating DePaul University’s alcohol policy may be mandated to meet with the Alcohol & Substance Abuse Prevention Specialist and participate in an intervention called BASICS (Brief Alcohol Screening and Intervention for College Students). Other students may also request to meet with the Alcohol & Drug Prevention Specialist and/or participate in BASICS. Students who have concerns about their alcohol use (or someone else’s) may contact the Alcohol & Substance Abuse Prevention Specialist at any time and will not get into trouble for seeking help or information. The Alcohol & Substance Abuse Prevention Specialist can be reached at (773) 325-4550.

Students should be prepared to seek help or call 911 when a peer may be experiencing a drug overdose or alcohol poisoning. Students are expected to take action in such situations and not be a passive bystander. Here are the symptoms of alcohol poisoning, and remember that not all symptoms need to be present for alcohol poisoning to occur:
Drug overdoses can vary depending on the drug consumed, but here is a general list of symptoms that indicate help is needed. Remember that not all symptoms need be present for an overdose to occur:

- Abnormal pupil size;
- Agitation, aggressive, and/or violent behavior;
- Convulsions;
- Delusional or paranoid behavior;
- Difficulty breathing;
- Drowsiness;
- Hallucinations;
- Nausea and vomiting;
- Nonreactive pupils (pupils that do not change size when exposed to light);
- Staggering or unsteady gait;
- Sweating or extremely dry, hot skin;
- Tremors;
- Unconsciousness or death.

Additionally, the following regulations govern alcohol use by students and student organizations:

1. All casual possession or consumption of alcohol by students in designated common or non-reserved areas on university premises is prohibited regardless of age.
2. For specific policies regarding alcoholic beverages in the residence halls, please see the Guide to Student Housing.
3. Consumption of alcohol which results in behavior that infringes on the rights of others in the community is prohibited.
4. Alcoholic beverages may not be served at student-sponsored or student organization-sponsored events without written authorization from the Associate Vice President for Student Advocacy and Community Affairs or his/her designee. Authorization will not be given to any student organization that is hosting an event at which students under 21 will, or could be, present. Notification of such authorization will be sent to the student organization itself, the organization's moderator/advisor, the building director and the Public Safety Office.

This authorization will detail the provisions for maintaining control of the consumption of alcoholic beverages at the event. In making the final determination for authorization, the Associate Vice President for Student Advocacy and Community Affairs or his/her designee will consider the following points:

1. the presence of adequate control measures (e.g., hiring a professional bartender to serve alcohol, security, presence of university representative, method of age identification and monitoring of the event, etc.);
2. the type of event;
3. adherence to area/building procedures;
4. the presence of food and nonalcoholic beverages in a prominent place; and
5. the possible requirement of a special events permit or other license to dispense alcoholic beverages.

Depending on the location and type of event, student organizations that are sponsoring events should also consult the Catering Services Exclusivity policy and Catering Donations policy.

Student organizations may not advertise the availability of alcohol in their event publicity.

When student organizations sponsor events at which alcoholic beverages are offered for consumption, the organization and its officers shall be solely responsible for the conduct of such affairs in accord with civil law and university policies.
Civil or Criminal Law

Any student who violates any state, federal or municipal law shall be subject to judicial action for said offense(s) up to and including suspension and expulsion. The adjudication of such violations may proceed regardless and/or independently of any action taken by state, federal or municipal agencies.

Damage to Personal or Private Property

A student shall take no action that damages, or tends to damage, personal or private property not his or her own without the consent of the owner or person legally responsible for such property.

Demonstrations

Orderly and peaceful demonstrations on the campus are permitted. However, the University has the obligation to ensure the safety of individuals, the protection of property and the continuity of the educational process. When picketing or other forms of peaceful protest take place outside University buildings, the University insists on the right of free passage for all through the areas where members of the University community have a right to be. When such demonstrations take place inside University buildings, the University insists on orderliness, free passage to all rooms, lack of excessive noise, and no interference with classes, libraries, offices, assemblies or normal administrative functions. Students participating in off-campus demonstrations will be subject to University discipline for reasons stated above as well as for the deliberate misrepresentation of the position of the University, outrageous abuse of the name of the University or participation in demonstrations adjacent to the campus that disrupt University functions.

Disorderly, Violent, Intimidating or Dangerous Behavior to Self or Others

Students are not to engage in behavior that threatens, harms or causes to place in harm themselves or other persons, or to exhibit behavior that is illegal, destructive, lewd, indecent, obscene or disorderly. The types of conduct that this regulation is designed to cover include, but are not limited to, the following examples:

1. Intentionally inflicting bodily harm upon any person; taking any action for the purpose of inflicting physical harm upon any person; taking reckless action that results in physical harm to any person; taking any action that creates a substantial risk of physical harm to any person; or threatening by any means of transmission the use of force to physically harm or injure any person.
2. Disrupting the peace, impeding classes, causing significant emotional harm, bullying, and/or endangering the safety, health or life of any person on campus through actions or words.
3. Obstructing fire escape routes such as hallways or stairwells.
4. Committing acts of an indecent or lewd nature.
5. Climbing or scaling the exterior of any University building or facility.
6. Production of sound through amplification or other means (including voices) that unreasonably disturbs or disrupts the peace of others or violates University standards.

7. Using electronic or other devices to make an audio or video recording of any person without his/her prior knowledge, or his/her effective consent.

**Emergency Regulations**

The specific emergency regulations and evacuation procedures for University buildings must be obeyed at all times to ensure the safety of all.

**False Information**

Students are not to provide false information in any form to University officials. Students are not to knowingly misuse, misrepresent or falsify any University record, I.D. card, form, computer resource or procedure. Students who assist by any means the providing of false information as described in this expectation will be considered in violation. Students are not to take any action (verbal, written, or behavior), based on known incorrect data, with direct intent to be hurtful or harmful to the University.

**False Report of an Emergency**

The intentional false reporting of a bomb, fire, attack or other emergency on any University-owned or -controlled property is strictly prohibited.

**Firearms, Dangerous Weapons, Explosives or Fireworks**

Possession or use, or assisting in the possession or use, of any of the following items, including but not limited to, firearms, knives, clubs, ammunition, explosive devices, flammable liquids, taser guns, stun guns, pepper sprays, mace, or other weapons on University-owned or -controlled property, is strictly prohibited by various local, state and/or federal laws and University policy. Students in possession of dangerous weapons or materials will be subject to immediate suspension and may face criminal or civil sanctions. Students are not to possess or explode any type of fireworks on University-owned or -controlled property unless authorized in accordance with city ordinances and approved in writing by the appropriate University officer.
Gambling

In accordance with applicable Illinois and Federal gambling laws, DePaul University prohibits gambling or any form of illegal wagering, bookmaking or unauthorized games or contests of chance on University premises, including but not limited to University Housing and/or University-sponsored functions including sporting events. In addition, students shall not knowingly provide information to assist any individual involved in any gambling activities.

Guest Responsibility and Visitation

Students and student organizations are responsible for the behavior of their guests while they are on property owned or controlled by the University or in attendance at its sponsored events. The host students or student organizations assume full responsibility for their guests' compliance with all proscribed University policies and procedures, including those specific to building hours and residence hall visitation.

Hazing

The hazing of students at DePaul University is strictly prohibited. Hazing is defined in accordance with all applicable local, state, and/or federal laws and includes any action taken or situation created to produce mental or physical discomfort, embarrassment, ridicule or endangerment of a student or group of students. Such activities include, but are not limited to: use/abuse of alcohol, paddling in any form, creation of excess fatigue, physical and psychological shocks, treasure hunts, scavenger hunts, road trips or other similar activity, wearing of public apparel that is conspicuous and normally not in good taste, and morally degrading or humiliating games and activities.

Illegal Use or Possession of Drugs or Controlled Substances

University Policy

Students may not illegally use, sell, possess or distribute any substance prohibited by State Law, federal law, or other applicable law on University-owned or -controlled property. The University reserves the right to take any action deemed necessary to protect the University's interests and the safety of its students in cases involving the use, sale, possession or distribution of illegal or controlled drugs. Students are responsible for adhering to the university Drug Free Workplace & Legal Drinking Age Compliance policy. Students living on campus should consult the Guide to Student Housing for additional information about prohibited substances within the residence halls.

Students should be aware that it is unlawful to distribute prescription medication to other students for whom the medication was not prescribed. In addition to illegal drugs such as marijuana, hallucinogens, narcotics, club drugs, and medications obtained without a prescription for the user, the following substances are prohibited on
DePaul University expects students to uphold laws prohibiting the purchase and use of drugs and controlled substances prohibited by State Law, federal law, or applicable law. DePaul University also seeks to educate students about making safe, responsible decisions when it comes to substance use. The Alcohol & Substance Abuse Prevention Specialist is the point of contact for all outreach and initiatives pertaining to responsible substance use. Students who are found responsible for violating DePaul University’s Illegal Use or Possession of Controlled Substances policy may be mandated to meet with the Alcohol & Substance Abuse Prevention Specialist, and may also be asked to participate in an intervention called BASICS (Brief Alcohol Screening and Intervention for College Students). Other students may also request to meet with the Alcohol & Drug Prevention Specialist and/or participate in BASICS. Students who have concerns about their drug use (or someone else’s) may contact the Alcohol & Substance Abuse Prevention Specialist at any time and will not get into trouble for seeking help or information. The Alcohol & Substance Abuse Prevention Specialist can be reached at (773) 325-4550.

Students should be prepared to seek help or call 911 when a peer may be experiencing a drug overdose or alcohol poisoning. Students are expected to take action in such situations and not be a passive bystander. Here are the symptoms of alcohol poisoning, and remember that not all symptoms need to be present for alcohol poisoning to occur:

- Person is unconscious and cannot be roused;
- Person is in a stupor or exhibits confusion;
- Person is vomiting (prop unconscious persons on their sides so that they won’t choke on their own vomit);
- Skin is pale, has a blue tinge, and/or skin is unusually cold to the touch;
- Abnormally slow breathing (less than 8 breaths per minute) and/or irregular breathing (a gap of more than 10 seconds between breaths);
- Seizures.

Drug overdoses can vary depending on the drug consumed, but here is a general list of symptoms that indicate help is needed. Remember that not all symptoms need be present for an overdose to occur:

- Abnormal pupil size;
- Agitation, aggressive, and/or violent behavior;
- Convulsions;
- Delusional or paranoid behavior;
- Difficulty breathing;
- Drowsiness;
- Hallucinations;
- Nausea and vomiting;
- Nonreactive pupils (pupils that do not change size when exposed to light);
- Staggering or unsteady gait;
- Sweating or extremely dry, hot skin;
- Tremors;
- Unconsciousness or death.

Information Display

Students and external groups may not distribute post, affix or otherwise attach writing or any printed materials (i.e., posters, signs, handouts, brochures, handbills, pamphlets, etc.) on University property without proper authorization. All information display and distribution must be in accordance with the University policies. Further information on University policies regarding Information Display and Distribution may be obtained from the Office of Student Involvement, the DePaul Center Student Union Information Desk or Residential Education.
Student Judicial Process Compliance

A student who fails to agree to participate in a required Student Judicial Process or abide by a judicial sanction, takes action to influence or coerce testimony in a Student Judicial Process, takes action that disrupts, or impairs the Student Judicial Process, or attempts to retaliate against a complainant or witness on account of their participation in the Student Judicial Process may be found in violation of failure to comply with the Student Judicial Process. Any student who knowingly provides false information and/or publically releases confidential information regarding to, or learned through, a Student Judicial Process may also be found in violation of this or other parts of the Code of Student Responsibility or other applicable institutional policy.

Reasonable Directives from a University Official or Office

Students are not to disregard reasonable directives, either verbal or written, issued by a University official or office, or obstruct an official in the carrying out of his/her assigned duties or responsibilities. Failure to follow reasonable directives may result in judicial sanctions or, if appropriate, involuntary withdrawal from the University.

Residential Education and Housing Services Policies and Procedures

Students living in DePaul housing are responsible for abiding by all of the policies and procedures set forth by Residential Education and Housing Services. Failure to do so could result in consequence imposed by those departments, as well as in additional sanctions as a violation of the Code of Student Responsibility.

Safety Equipment

The unauthorized alteration, misuse or tampering with of any equipment or device intended for use in preserving or protecting the safety of members of the University community, including but not limited to keys, exit signs, fire extinguishers, fire alarms, fire boxes, standpipes, first aid equipment or emergency telephones, is prohibited.
**Sexual Offense**

DePaul University is committed to providing and maintaining a healthy learning and working environment for all students, staff, and faculty members. In accordance with DePaul's Catholic and Vincentian values and its role as an educational institution, the university condemns any form of sexual violence. Further, the university is dedicated to providing both prevention programming and referral services for all members of its community. This document is intended to outline university policies, procedures, disciplinary actions, programs, and prevention efforts regarding sexual violence.

In accordance with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act, DePaul University is required to report certain sexual offenses occurring on or near campus to the proper municipal authority. The survivor has the choice of whether or not to file a report and/or to proceed with legal action. Students should consult the DePaul Crime Reporting policy for more information. This policy can be found on the University Secretary’s website.

If a sexual offense occurs, the survivor is encouraged to:

- Find a safe place.
- Seek medical treatment for possible physical injuries, transmission of STIs, and pregnancy.
- Preserve evidence of the assault:
  - Avoid showering, bathing, changing clothes, washing hands, going to the toilet, or brushing teeth.
  - If you do decide to change clothes, save all of the clothing you were wearing at the time of the assault. Place each item of clothing in a separate paper bag.
  - Avoid disturbing anything in the area where the assault occurred.
- File a report.
- Seek support and counseling.

**Sexual Offense Definition**

At DePaul, a sexual offense is any unwanted physical contact of a sexual nature, whether by an acquaintance or by a stranger, that occurs without indication of consent of either/any of the individuals involved, or that occurs under threat or coercion. Sexual offenses include, but are not limited to, rape (also referred to as sexual assault in the State of Illinois), forcible sodomy, sexual assault with an object, fondling or kissing without consent, incest, statutory rape, and the threat of sexual assault. DePaul recognizes that there is nothing a person can do to deserve or provoke a sexual offense. According to the Department of Justice and the FBI, rape is defined as “The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.” This definition includes any gender of the victim or perpetrator, and includes instances in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity, including due to the influence of drugs or alcohol or because of age. Physical resistance from the victim is not required to demonstrate lack of consent.

Consent is defined as a clearly and freely given word or overt action confirming a willing desire to move forward with a specific sexual request, act, or experience. Consent cannot be obtained from individuals who have a temporary or permanent mental or physical incapacity, including being under the influence of drugs or alcohol or because of age. Consent is an affirmative response, not a lack of one, (i.e. the absence of “no” should never be interpreted as “yes”).

If you wish to obtain more information on laws in the State of Illinois, please contact the Office of Sexual Health & Violence Prevention at 773-325-7295.

**University Policy**

Sexual offenses as well as threats of sexual offenses are prohibited by DePaul University.

DePaul recognizes that there are many ways to perpetrate sexual violence. Incidents may occur through physical force, intimidation, manipulation, and coercion. This may include the voluntary or involuntary use of drugs and/or alcohol that renders the survivor unable to give consent. Sexual offenses can occur within personal relationships, including those that are intimate, professional, familial, or friendly. In fact, sexual offenses involving strangers constitutes only a small percentage of cases. Individuals of any sex, sexuality, or identified gender may experience a sexual offense. It is important to remember that there is nothing a person can do to deserve or provoke a sexual offense.

If a student chooses to pursue the Judicial Review Process with respect to sexual violence, the University will ensure that the hearing officers are educated on sexual offenses before the process begins to ensure that the case is handled with sensitivity. The hearing officers receive training on definitions, processes, and how question
upon request the Dean of Students office may accommodate changing classes, moving residence halls, and arranging for escorts.

**Reporting Sexual Abuse & Sexual Assault**

If you are a person who has experienced or thinks you have experienced a sexual offense, whether on- or off-campus, and whether by a member of the DePaul community or not, DePaul is committed to offering a secure and supportive environment for you to receive resources and consider all available options.

The Office of Sexual Health & Violence Prevention is available for students to ask questions, discuss their experience, and request referrals. Referrals may include those related to medical treatment and evaluation; counseling; legal advocacy; and reporting.

A person who has been sexually offended is encouraged to make a report to the Public Safety Office (Lincoln Park campus 773/325-7777, Loop campus 312/362-8400), Dean of Students Office (Lincoln Park campus 773/325-7290, Loop campus 312/362-8054), or the Office of Sexual Health & Violence Prevention (773/325-7295). Staff members in all these offices receive training on working with survivors of sexual violence, so as to provide a safe and sensitive environment. The Public Safety Office is open 24 hours a day, 7 days a week.

A report serves as a means of documenting the incident and allows for immediate response by the Public Safety Office, the Dean of Students Office, and/or the Chicago Police. The report allows the student access to DePaul's internal Judicial Review Process, whether or not they decide to proceed with criminal legal proceedings. Please note that the student will have to reveal their name in their report if they wish for the Public Safety Office or the Chicago Police to pursue an investigation, and if they would like the Dean of Students Office to conduct the internal Judicial Review Process.

When a report is received, all internal and external options will be reviewed with the student, including contacting the Chicago Police; getting medical treatment; contacting community sexual assault agencies; starting the Judicial Review Process, and connecting with DePaul University Counseling Services or off-campus counseling services. Detailed information on DePaul’s Judicial Review Process can be found under Judicial Review Process in the Code of Student Responsibility.

It should be noted that staff in the Office of Sexual Health & Violence Prevention and Dean of Students Office are compelled to comply with laws that require the reporting of certain sexual offenses occurring on or near campus to Public Safety. If the survivor does not wish to release their name, a “Jane/John Doe” report will be created about their case, thereby not revealing their identity. The survivor can at any time choose to add their name to the report if they decide to press charges at a later time. In certain cases, the University may be required to issue a campus alert. These safety alerts will not reveal the identity of the survivor or perpetrator.

**Medical Treatment**

A person who has experienced a sexual offense is encouraged to seek an appropriate medical evaluation as promptly as possible. Medical evaluation may include treatment of injuries endured during the event; treatment of STIs; and a full examination for the collection of physical evidence should a person later decide to pursue a criminal prosecution and/or civil action. Additional resources may be available at the time of treatment.

As per Illinois law, emergency room (ER) medical treatment for sexual abuse or assault is confidential and is of no cost to the survivor. If the survivor chooses to provide their health insurance information, the insurance carrier will be charged first and any overflow costs will be covered by the State in accordance with applicable laws. Please note that if the primary holder of the health insurance is someone other than the survivor the medical bills will be sent to that primary holder. Although the primary holder will not be required to pay the bills, they will see that the survivor was in the ER due to a sexual assault.

If a survivor chooses to seek treatment, they may call Public Safety to be taken to the ER. At the ER, the survivor may request a Sexual Assault Nurse Examiner (SANE) to conduct the examination SANEs can provide the survivor with support to ease their experience at the hospital. The police will be contacted upon arrival at the hospital, but the survivor may decline to file a report.

**Information, Support, and Counseling**

Counseling is available for survivors whether or not a report is filed. Counseling provides a space for confidential disclosure, and is available both on and off campus 24 hours a day. Survivors may experience Rape Trauma Syndrome, with symptoms similar to those of Post Traumatic Stress Disorder. This condition may be serious and should be treated with respect and sensitivity. Sexual violence can affect all areas of a survivor's life and counseling can provide support to help navigate through issues that may arise.

Crime Victim's Compensation Law

Under the Crime Victim's Compensation Law, a person who has been sexually abused or assaulted may be eligible for support services and medical reimbursement if the crime is reported within 7 days, or in some cases, even longer.

Educational Programs

1. The Office of Sexual Health & Violence Prevention provides rape awareness, education, and prevention programs and trainings each year to members of the university community, including students, staff, and faculty. Additionally, this office presents at Premiere and Transition DePaul.
2. The Student Affairs Division and the Public Safety Office coordinates and provides crime awareness programs aimed at incoming freshmen, transfer, and commuter students.

3. Self Defense classes are provided at the Ray Meyer Fitness Center for students, faculty, and staff. The classes provide participants with tools for their empowerment and safety.

4. Brochures about sexual violence and available resources are available through the Dean of Students Office, the Office of Sexual Health & Violence Prevention, the Department of Residential Education, the Women's Center, and the Public Safety Office.

Theft, Misappropriation, Misrepresentation or Unauthorized Sale or Use

Students are to refrain from the unauthorized occupancy, use, possession or removal from a designated area, of property belonging to the University, its community members (faculty, staff and students), guests or vendors. Services provided to or by members or guests of the University may not be used or obtained unless authorized in advance by the appropriate agent. This includes the misuse or unauthorized use of University telephones, computer services, electronic communications, facilities or funds. Also, students may not represent themselves as having the authority to enter into contracts or agreements that affect DePaul University in any way.

Only officers of DePaul, or their specific designees, are empowered to sign contracts that bind the University. Students are not to take any action (verbal, written, or behavior), based on known incorrect data, with direct intent to be hurtful or harmful to the University.

Unauthorized Entry or Exit from University Facilities

Forcible or unauthorized entry into any building, structure, facility, room or container (file cabinet, desk drawer, etc.) on the premises of University-owned or -controlled property is prohibited. Improper use of designated exits is also prohibited.

University Policies Applicable to Students

Students must abide by all University policies applicable to them as students. Students should make themselves aware of all University policies. The policies listed below are some of the policies that are most relevant to the day to day lives of students. This list is not intended to exempt students from all other University policies applicable to students.
Anti-Discrimination and Anti-Harrassment Policy and Procedures

The Anti-Discrimination and Anti-Harassment Policy provides the overall philosophy and specific approaches for addressing discrimination, harassment, and/or related retaliation issues. It serves to augment other university-wide policies and is in accordance with federal, state, and local laws and regulations. The Anti-Discrimination and Anti-Harassment Policy combines and replaces the predecessor Sexual Harassment Policy and the Anti-Discriminatory Harassment Policy. The Anti-Discrimination and Anti-Harassment Policy encompasses the University’s Section 504 Grievance Procedures.

It is the policy of DePaul University that no person shall be the object of discrimination or harassment on the basis of race, color, ethnicity, religion, sex, gender, sexual orientation, national origin, age, marital status, parental status, family relationship status, physical or mental disability, military status, or other status protected by local, state, or federal law in its employment or its educational settings. DePaul University reserves the right to take actions that are consistent with its policies and procedures to deal with individuals found to have engaged in harassment, discrimination and/or retaliation in violation of this policy.

Acceptable Use Policy/ Network Security

This Policy defines guidelines for acceptable use of computing resources within the University and explains various violations of acceptable use. This Policy is intended to promote a greater computer and network security posture for DePaul University.

For the entire policy please check the University Secretary’s website.

Drug Free Workplace and Legal Drinking Age Compliance

Institutions receiving federal financial assistance are required to develop and distribute to faculty, staff, students, and others, a public statement certifying compliance with the Drug Free Workplace Act and the Drug Free Schools and Communities Act.

The State of Illinois prohibits the sale, use, or possession, of alcoholic beverages by persons who are under 21 years of age.

This policy states DePaul's commitment to maintain a drug free workplace and restrict the consumption of alcohol at university events, including classes, to persons 21 years or older.

For the entire policy please check the University Secretary's website.
Endorsements Policy

DePaul’s reputation and stature make it an attractive partner for many organizations and entities, but some uses of DePaul’s name by others may not always promote the purposes of the university. All members of the university and the institution as a whole benefit when its name is well used and suffer when it is ill used.

The university takes a legitimate interest in the use of its name and logos for at least three reasons:

- The university and its members have a responsibility to ensure that any implied association with the university is accurate.
- Attaching the DePaul name to an event, project or publication implies a close connection with the university, usually sponsorship or endorsement. For example, such forms as the “DePaul Project on...” or the “DePaul University Guide to...” should be used only when they refer to activities for which the university itself or one of its delegated authorities is accountable. Involvement by individual faculty, students or staff members is not, by itself, a sufficient basis to title an activity as “DePaul” sponsored. Rather the activity must be one for which the university takes institutional responsibility.
- The university and its members have a responsibility to ensure that the activities with which it is accurately associated maintain standards consistent with its educational purposes.

In academic endeavors under the supervision and control of university departments, centers, institutes, or programs, adherence to these standards is assured through the normal processes of review. In other activities, relevant standards of quality and appropriateness should be established and maintained. Even some projects that satisfy the standards of quality may not appropriately use the university name (for example, partisan political activities or outside ventures carried on by individual faculty, students or staff members; see Faculty Handbook).

The university and its members have a responsibility to protect its assets by seeking a fair share of the economic value that the use of the DePaul name produces.

“DePaul University” has become a widely known and respected trademark. The commercial fruits of this fortunate reputation are largely attributable to the contributions of many generations of faculty, students and staff. Therefore they should be allocated for the benefit of the university as a whole. Any use of the DePaul name that may depreciate its long-term value should be avoided.

In accord with these responsibilities, the following standards regulate the use of the DePaul name by schools, units and individuals within the university as well as their use by individuals and institutions outside the university, as authorized.

The use regulated by this policy refers to the identification, statement or display of DePaul's name in any way that may reasonably be interpreted as implying endorsement, approval or sponsorship by the university or one of its units. Nothing in this policy is intended to discourage fair use of DePaul's name to comment on activities of the university or any of its units.

For the entire policy please check the University Secretary's website.

HIV/AIDS Guidelines

DePaul University asserts that "the intrinsic values of the human person stand above other values. The personal rights and dignity of individuals are held to be inviolate." In an effort to maintain these principles, guidelines have been established regarding the rights of students, faculty, and staff who are HIV infected or have AIDS. The DePaul University guidelines are available throughout the University at the libraries, college offices, Student Affairs Office and the University Counseling Center.

For the entire policy please check the University Secretary’s website.
**Political Campaign Activities Policy**

This policy provides guidelines for DePaul University and its faculty, staff and students about political activities. DePaul, as an organization exempt from tax under Section 501(c)3, may undertake no activity whatsoever on behalf of or in opposition to any candidate for public office, whether such office be federal, state or local.

This is an absolute prohibition. For the entire policy please check the University Secretary’s website.

**Sales and Solicitation - Residence Halls**

The use of any space in the residence halls/university apartment community for any commercial purpose except with the express written approval of the Department of Housing Services is prohibited. Solicitation by residents or any others without the explicit written approval of the Department of Housing Services is prohibited. The posting and/or distribution of any advertisement without stamped approval of the Residence Hall Council or the Department of Residential Education is prohibited.

For the entire policy please check the University Secretary’s website.

**Smoking Policy**

The purpose of this policy is to comply with the Clean Indoor Air Ordinance of the City of Chicago, which requires all employers to adopt a smoking policy, and to protect the health and safety of students, faculty, staff and the general public while on university property.

The university maintains a smoke-free environment. Smoking is prohibited within all university buildings.

For the entire policy please check the University Secretary’s website.

**Space Reservations**

This Policy establishes guidelines for reserving event space at DePaul University and associated rental costs.

For the entire policy please check the University Secretary’s website.
**Clery Act**

DePaul University complies with its reporting obligations pursuant to the Clery Act. Any information regarding Clery Act reports and reporting can be obtained at Public Safety.

**Emergency Contacts**

In an emergency situation, the University reserves the right to contact a student's parent, legal guardian, spouse, and/or other designated emergency contact.

**Drug Free Schools and Community Act**

DePaul University complies with the requirements of the Drug Free Schools and Communities Act. The University shall review its compliance on a biennial basis to determine its effectiveness and to ensure that the standards of conduct and judicial sanctions have been consistently enforced. This review shall be documented in a report.

Standards of Conduct: The unlawful possession, use, distribution, sale or manufacture of controlled substances is prohibited on any premises owned or controlled by DePaul University. Under no circumstance will the University tolerate unlawful possession, use, distribution, sale or manufacture of controlled substances or the unlawful use of alcohol on campus or at University-sponsored activities.

Judicial Sanctions: Students who violate these Standards of Conduct will be subject to judicial action up to and including expulsion, in accordance with university policy, the Code of Student Responsibility, and the Judicial Review Process. A judicial sanction for violating this policy may include the completion of an appropriate rehabilitation program.

Programs for Students Requiring Assistance: Any DePaul student who has a drug or alcohol related problem may call upon the University for assistance. Anyone needing help should contact the Alcohol and Substance Abuse Prevention Specialist in the Dean of Students Office. This professional can provide a confidential referral to a drug or alcohol treatment program.

Health Risks: The use of drugs and alcohol can have a substantial and detrimental effect on health. These effects are often permanent and can lead to severe physical and psychological impairment, disability and premature death. Information on the effects of drugs and alcohol is available the Student Life Office, University Counseling Services, the Ray Meyer Fitness Center and Sage Medical/DePaul Health Services.

Legal Sanctions: Use of illicit drugs by any person is illegal under both the state and federal statutes. Use of alcohol by persons under 21 years of age is illegal under state law. Penalties for conviction under state and federal law include incarceration and fines. Property used in connection with illegal drugs may be confiscated. Federal student loans and grants may be denied to those convicted for a violation of a criminal drug statute.

Students should also consult the Alcohol policy and the Drug Free Workplace & Legal Drinking Age Compliance Policy. This policy can be found in the Undergraduate Student Handbook and on the University Secretary's website.

Also review Drug Free Workplace and Legal Drinking Age Compliance.
Information Regarding Registered Sex Offenders

If you would like information regarding registered sex offenders enrolled or employed at DePaul University, please visit the Office of Public Safety.

Involuntary Withdrawal

DePaul University places the utmost priority on student welfare and community safety. When a student demonstrates conduct that violates DePaul's Code of Student Responsibility or other DePaul policies, that conduct will be addressed through the appropriate disciplinary processes. This Policy is not intended to be disciplinary in nature. Rather, this Policy outlines the criteria and procedures for when and how a student may be involuntarily withdrawn from the University for demonstrating behavior that creates a direct threat to the safety or health of the student or others or that unreasonably disrupts the normal education processes and orderly operation of the University. There may be situations in which both this Policy and the Code of Student Responsibility and/or other DePaul policies are applicable.

Criteria

A student may be involuntarily withdrawn from DePaul if the University determines, in accordance with the procedures listed below, that the student:

(a) Demonstrates behavior that is unreasonably disruptive to the normal education processes and orderly operation of the University;
(b) Demonstrates behavior that endangers him/herself, or;
(c) Demonstrates behavior that endangers others or that creates a direct threat that the student may endanger others.

Determination

The involuntary withdrawal process begins when the Dean of Students receives a referral or other information regarding a student who appears to be demonstrating behavior consistent with one or more of the criteria listed above. If, after reviewing the information received, the Dean of Students determines that the student has demonstrated behavior consistent with one or more of the criteria for involuntary withdrawal from the University as stated above, the Dean of Students will inform the student of this determination. At the time of this communication, the Dean of Students will inform any student who is involuntarily withdrawn about the student's right to appeal the decision to the Associate Vice President for Student Advocacy & Community Affairs, and will explain to the student the conditions for returning to the DePaul community (see below).

Prior to proceeding with the involuntarily withdrawal process, the Dean of Students will always encourage the student to voluntarily withdraw.

Appeal

A student may appeal the Dean of Students' determination regarding involuntary withdrawal (or the designated conditions for readmission following an involuntary withdrawal) to the Associate Vice President for Student Advocacy & Community Affairs. A student has five (5) business days to request this appeal. Within five (5) business days of being received by the University, the Associate Vice President for Student Advocacy & Community Affairs shall review all the available information (i.e.—all of the information made available to the Dean of Students and any additional information subsequently made available by the student), and shall, if deemed necessary by the Associate Vice President for Student Advocacy & Community Affairs, have the opportunity to ask the student additional questions.

After reviewing all the available information described above, the Associate Vice President for Student Advocacy & Community Affairs shall assess whether the student has or has not met the criteria for involuntary withdrawal from the University as stated above. The decision of the Associate Vice President for Student Advocacy &
Community Affairs will promptly be communicated to the student in writing. This decision is final.

Interim Suspension Pending Appeal

A student who demonstrates behavior that creating an immediate direct threat to him/herself or others, or who demonstrates behavior that is immediately and significantly disruptive to the normal education processes and orderly operation of the University, may be suspended from the University on an interim basis pending an appeal.

All decisions regarding interim suspensions pending appeals will be made by the Dean of Students in consultation with the Associate Vice President for Student Advocacy & Community Affairs.

Effect of Involuntary Withdrawal

Students who have been involuntarily withdrawn from the University are generally not permitted to be on University premises or participate in University events. However, a student who has been involuntarily withdrawn for suspended on an interim basis pending an appeal may be on campus, with the permission of the Dean of Students or the Associate Vice President for Student Advocacy & Community Affairs, for the purposes of participating in the processes detailed in this Policy or as otherwise required and appropriate in the discretion of the Dean of Students or the Associate Vice President for Student Advocacy & Community Affairs.

Students are responsible for contacting appropriate University offices in order to ensure that their academic and financial affairs are in order (including any on-campus housing). All determinations as to the effect of an involuntary withdrawal in these areas will be made by the applicable offices in accordance with existing University policies.

Returning to Campus—Conditions for Readmission

A student who has satisfied the conditions for readmission outlined at the time of his or her involuntary withdrawal will be considered for readmission to the University.

Readmission conditions will be individually-tailored so as to be appropriate to each student but will always be premised on the notion that the student is no longer a direct threat to him/herself or others, and/or no longer demonstrates behavior that is disruptive to the normal educational processes and orderly operation of the University. Specific conditions for readmission might include:

(a) Appropriate documentation indicating that the student no longer demonstrates the behavior which led to the involuntary withdrawal;

(b) A treatment plan from a mental health professional or other appropriate care provider and/or verification from the provider that the student is complying with a treatment plan (or has been satisfactorily complying with a treatment plan for a designated length of time);

Students wishing to be readmitted must schedule a face-to-face meeting with the Dean of Students to discuss the student's compliance with, and appropriate documentation of, the designated conditions for readmission. All determinations as to whether the conditions for readmission have been satisfied will be made by the Dean of Students. These determinations are final.

Because conduct that gives rise to an involuntary withdrawal under this Policy might also result in sanctions in accordance with the Code of Student Responsibility, it is possible that a student who has met the designated conditions for readmission following an involuntary withdrawal might still not be eligible for re-enrollment at DePaul due to judicial sanctions (similarly, it is possible that a student who has satisfied all judicial sanctions might still not be eligible for re-enrollment at DePaul because of an inability to meet the designated conditions for readmission in accordance with this Policy).

The Vice President for Student Affairs or his/her designee may make such reasonable exceptions to this Policy and these procedures as circumstances may require for the welfare of the institution and/or the involved student(s), provided that fundamental elements of fairness and due process are observed.
Speakers Guidelines

DePaul University encourages its recognized student organizations to sponsor guest speakers whose presentation will contribute to the role of the university as a forum for intellectual discussion, debate, investigation and/or artistic expression. Through this forum, speakers bring to the University an opportunity for students to hear and discuss opposing viewpoints on a wide range of issues. It should be understood that providing a forum in no way implies DePaul approval or endorsement of the views expressed by the sponsored speaker. A statement indicating that the presence of the speaker on campus does not imply that DePaul has approved or endorse the views expressed by the speaker must be included in all publications for and advertising about the event.

Student Organizations

The University supports and encourages student organizations in a variety of areas including scholarly, ethnic, honorary, University-sponsored, Greek and special interest. The University recognizes the value and contribution that student organizations make in a student's total college experience and education. DePaul's Recognition Policy and Procedures is a formal system used to maintain the quality and high standards of our current organizations. Recognition as a student organization accords certain rights and responsibilities. These rights and responsibilities are defined in the recognition policy along with the requirements for new student organization recognition, renewal of recognition status for current organizations and loss of recognition of current student organizations. It is each student organization's responsibility to become familiar with this policy as it applies to all organizations. This policy may be obtained from the Office of Student Life. University-sponsored organizations will have an advisor appointed by the University. All other organizations will select their own faculty or staff advisor with the approval of the Office of Student Life. Any off-campus action of any recognized student organization is the sole responsibility of the student organization and its officers. In compliance with the reporting requirements of the Clery Act and Campus Security Act, an officer of the organization must file a report of any off-campus crimes (as defined by the act) with the Dean of Students Office within 24 hours of said offense.

Student Organizations are expected to adhere to all applicable institutional regulations. The University reserves the right to determine the appropriate time, place, content, and manner for conducting activities, and posting and distribution of materials on any of its campuses. Consequently, the University may deny or restrict the activities of student organizations. Student organizations are expected to exercise good judgment in planning and promoting their activities. Failure to do so may result in judicial action being initiated against the organization; consequently, policies, procedures and sanctions set forth within the Student Code of Conduct apply to student organizations collectively as well as to individual students. The Office of Student Involvement will work in conjunction with the Dean of Students Office in any judicial action.

Student Rights Within the Student Judicial Process

A student participating in the Judicial Process is entitled to the following rights as a guarantee of fundamental fairness:

1. An opportunity for a hearing in order to answer charges of alleged misconduct.
2. A written statement of the alleged violations in sufficient enough detail to enable the referred student to prepare a defense.
3. The right to be accompanied by an Advisor. (See Explanation of Important Aspects of the Student Judicial Process—Advisors.)
4. For the referred student, a written statement of the possible sanctions that may be imposed.
5. The right to submit Witnesses on one's behalf and, to the extent necessary, to question Witnesses'
statements, whether verbally or in writing. (See Explanation of Important Aspects of the Student Judicial Process—Witnesses.)

6. The right to have the Student Judicial Process explained and to ask for clarification of any policies or procedures.
7. The right to have reasonable access to information specific to one's case.
8. The right to a separate hearing when a single incident gives rise to charges against more than one student.
9. The right to speak on one's own behalf.
10. The right to disqualify a member of any Judicial Board for justifiable reason.
11. The right to have proceedings and documentation kept confidential. All hearings, proceedings and case information are considered confidential except to those who have a legitimate educational interest in them, or as permitted or required under FERPA, the Clery Act, or any other legal mandate.
12. The right to a written decision, which the University will take reasonable measures to provide within five business days of completion of the last hearing.
13. The right to request an appeal on specific grounds.

University Rights Within the Student Judicial Process

The University reserves the right to:

1. Refer any case involving a violation of criminal or civil law to the proper law enforcement agency.
2. Pursue judicial action against a student on behalf of the University based on reliable information from a member of the DePaul community indicating that a violation of the Code of Student Responsibility or other DePaul policy has taken place.
3. Exercise jurisdiction for an offense committed on-campus. Additionally, the University may exercise jurisdiction for an offense committed by a student off-campus (including on-line communities) when:
   1. the victim of such offense is a member of the campus community (student, staff, faculty); or
   2. the offense occurred at a college-sponsored or sanctioned event; or
   3. the student used his or her status as a member of the University community to assist in the commission of the offense (for example, using a student ID card to pass a bad check); or
   4. the offense affects the University.
   (See Explanation of Important Aspects of the Student Judicial Process—Jurisdiction.)
4. Suspend or otherwise sanction a student on an interim basis in accordance with the procedures described below.
5. Share the outcomes of the Student Judicial Process with those members of the University community who have a legitimate educational interest in them, or as permitted or required under FERPA, the Clery Act, or any other legal mandate.
6. In keeping with its commitment to offer a fundamentally fair process for all students involved in the Student Judicial Process, adapt certain aspects of the Student Judicial Process in specific circumstances, in order to meet the interests of all involved parties, including the University.

Mediation

Every attempt should be made to resolve conflicts without formal judicial action. This informal resolution can hopefully be accomplished by students critically examining their behaviors and making the adjustments necessary to become a positive influence in the University community. To assist in the informal resolution of conflicts, a formal Mediation Services program exists through the Dean of Students Office designed to allow students to resolve conflicts with the assistance of a neutral third party. Mediation may be an alternative available for students seeking to resolve conflicts yet does not replace the Judicial Review Process. The University reserves the right to refer a case to Mediation Services. Mediation is not available for situations involving a possible violation of the Sexual Offense policy.
Other University Processes Including Residential Education

In general, the Dean of Students Office is responsible for managing the Judicial Review Process. However, other University departments may initiate investigations, manage hearing processes, or impose sanctions in accordance with other University policies and procedures, and in consultation with the Dean of Students Office and Student Affairs when appropriate. Examples of other areas that may initiate investigations, manage hearing processes, or impose sanctions in accordance with other University policies and procedures include Internal Audit, the Office of Institutional Diversity, and the AVP for Student Advocacy and Community Relations for violations of University discrimination and harassment policies in which a student is the respondent.

Students should be particularly aware that Residential Education maintains a separate judicial system for violations of Residential Education policies and, as appropriate, violations of other policies that occur in DePaul housing. Students should consult Residence Education for information regarding those policies and procedures, including information on how to file a complaint with Residential Education.

Judicial Records

Records of judicial cases that result in sanctions under this Judicial Hearing Process shall be kept in a referred student's judicial file located in the Dean of Students Office. Student judicial records are destroyed five years after graduation or a student's last date of attendance. Students who are suspended or dismissed from the University will have a notation placed permanently on their transcripts. The University will not release judicial records except to those who have a legitimate educational interest in them, or as permitted or required under FERPA, the Clery Act, or any other legal mandate.

General Information about the Student Judicial Process

Initiating a Complaint

A judicial action may be initiated by any member of the DePaul community (student, faculty, or staff) who feels that he/she has been adversely affected by a student's actions in violation of the Code of Student Responsibility or other policy, or who has reasonable cause to believe that a student has violated the Code of Student Responsibility or other policy.

Complaints shall be made in writing to the Dean of Students Office or other appropriate office.

Relationship Between the Student Judicial Process & Legal Proceedings

A student may be subject to the Student Judicial Process in addition to any civil or criminal proceedings. The University, in its sole discretion, will make the decision whether or not to delay the Student Judicial Process until the conclusion of any civil or criminal action associated with a complaint. If a referred student chooses not to participate in the Student Judicial Process because of a pending legal action, the hearing officer may render a decision based solely on the written documentation and/or the complainant's testimony available at the time without the benefit of information from the referred student.

The Student Judicial Process is designed to be educational, not legal, in nature. Rules of evidence and discovery do not apply to the Student Judicial Process. Students should not draw parallel interpretations between the Code of Student Responsibility or other DePaul policies and criminal or civil law. The outcome of a legal proceeding is
Delivery of Written Notices

All written notices regarding judicial actions will be delivered personally or via the postal service or email. It is a student's responsibility to ensure that his/her information (including address, phone number and email) is current in Campus Connect.

Initial Review

Upon a written complaint that an alleged violation has occurred, the Dean of Students Office or other designated office shall conduct an initial review.

At the time of the initial review, the student will be given the following:

- A written statement of the alleged violations in sufficient detail to enable the student to prepare a defense.
- Reasonable access to information specific to one's case.
- An explanation of, and opportunity to ask questions about the Student Judicial Process, including (a) an explanation of the two hearing possibilities (Administrative Hearing and Judicial Board Hearing) and the University's determination as to which type of hearing will be conducted; (b) an explanation of "Important Aspects of the Student Judicial Process;" (c) an explanation of possible sanctions; and (d) an explanation of appeal procedures.
- Instructions on how to schedule the appropriate hearing.
- Information regarding any interim sanctions, if applicable.

The initial review will include a determination as to whether the University has jurisdiction over the violation. (See Explanation of Important Aspects of the Student Judicial Process—Jurisdiction.) This initial review could consist of requesting additional information from the complainant or referred student, or otherwise collecting additional information. This initial review is intended only to provide information pertinent to the incident under review and is not designed to result in a binding decision. The designated reviewer will take reasonable measures to ensure that the initial review is completed within five business days of the date of written complaint that a violation has occurred. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper initial review of all relevant material.

If the referred student acknowledges that a violation, or the conduct giving rise to a violation, has occurred at any time during the initial review, the process may immediately move to the sanction process. These sanctions may be appealed in accordance with the procedures detailed in the Judicial Appeals Procedures.

Initiating a Hearing

If, after the initial review, the designated reviewer determines that there is not reasonable cause to believe that the allegation has occurred, the review shall promptly cease and no record of the complaint shall be retained in the student's judicial file.

If, after the initial review, the designated reviewer determines that there is reasonable cause to believe that a violation of policy has occurred, the Student Judicial Process will move forward.

Interim Sanctions

In order to protect the health, safety, security and well-being of the University community and its members, the University reserves the right to immediately impose interim sanctions upon a student when it determines, in its sole discretion, that the continued presence of the referred student does any of the following:

1. constitutes a threat to the safety or well-being of the referred student, any other member of the University community, or any invited guest;
2. risks destruction of property; or
3. risks disruption of classroom or other campus activities.

The University will take reasonable measures to ensure that any student suspended or otherwise sanctioned on an interim basis shall have a final determination of the charges made through appropriate hearing procedures within ten business days of such suspension. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure proper review of all relevant material. During this time the referred student shall forfeit those rights and privileges as the University deems appropriate. Should it be found that the student did not commit the act(s), the interim sanction shall be revoked.

Prior Record of Sanctions

Because a student's prior record of conduct will be used as a basis for more stringent judicial action, previous sanctioned violations in the student's judicial file may be considered before assigning any judicial sanction(s).
Any previously imposed sanctions may provide additional justification that more strict action is necessary to ensure that the student understands the full impact his/her pattern of behavior is having on the DePaul community.

**Failure to Participate**

Failure of a student to agree to, appear at, or participate in a hearing, or to otherwise disrupt the normal hearing process, may in itself constitute a violation. The University reserves the right to pursue this additional violation in the same or a separate hearing. If a referred student chooses not to have the hearing process explained, chooses not to participate in the hearing process, or otherwise fails to appear at a hearing, the hearing officer may render a decision and if appropriate, impose sanctions based solely on the information available at the time without the benefit of information from the referred student. These sanctions may be appealed in accordance with the procedures detailed in Judicial Appeals Procedures.

**Standard for Hearing Determinations**

The standard of "whether it is more likely than not that the alleged violation(s) has/have occurred” will be the basis for conducting any hearing and imposing any sanctions.

**Administrative Hearing Process**

If the University determines that an Administrative Hearing is appropriate, the University will take reasonable measures to ensure that the first session of the Administrative Hearings takes place within five business days of when a referred student is first notified of the judicial charge. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material. A mutually convenient time for the Administrative Hearing will be decided upon. If necessary, an Administrative Hearing may take place over the telephone.

The actual Administrative Hearing will proceed as follows:

1. The incident report(s) will be reviewed by the Administrative Hearing officer.
2. The Administrative Hearing officer and student will discuss the alleged violation(s) that occurred.
3. The student will have an opportunity to give a statement about the incident, including an admission or denial of the alleged violations.
4. The student will submit Witness names to give statements and be questioned by the Administrative Hearing officer. (See Explanation of Important Aspects of the Student Judicial Process—Witnesses.)
5. The Administrative Hearing officer will review any relevant information and discuss the incident with the student.
6. After the Administrative Hearing officer has examined all of the evidence and heard from all of the approved Witnesses, the Administrative Hearing officer will determine that the student is or is not in violation of the Code expectation or other policy outlined.
7. If the Administrative Hearing officer finds the student in violation, he/she will determine the appropriate sanctions. Any sanctions imposed become effective immediately unless otherwise stipulated. Sanctions imposed by an Administrative Hearing officer may be appealed in accordance with the procedures detailed in the Judicial Appeals Procedures. Students will be informed of these Judicial Appeals Procedures, including to whom a request for an appeal should be directed, at the conclusion of the Administrative Hearing. The University will take reasonable measures to notify the complainant and referred student of the outcome and sanctions in writing within five business days of the last session of an Administrative Hearing. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material. The University will place all appropriate information in the referred student's judicial file.

The Administrative Hearing officer will hold as many meetings as necessary to ensure a fair disposition of the case. If a referred student fails to attend an Administrative Hearing or otherwise participate in the process, the Administrative Hearing officer may decide the case based on the information available at the time. Any imposed sanctions will be effective immediately unless otherwise stipulated.
Judicial Board Hearing Process

If the University determines that a Judicial Board Hearing is appropriate, the Moderator (See Explanation of Important Aspects of the Student Judicial Process—Moderators.) will take reasonable measures to ensure that the referred student is notified of the following within five business days; however, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material:

1. The nature of the alleged violation(s) made against the student.
2. The names of all individuals in the Judicial Board pool, including a statement forbidding contact on this matter between the student and these individuals.
3. A copy of the Judicial Board Hearing procedures.
4. The time, date and location of the Judicial Board Hearing.

The referred student has the right to show cause to the Moderator as to why any member of the Judicial Board pool should be removed because of possible prejudice. If a student wishes to have a member of the Judicial Board pool removed, the student must notify the Moderator in writing at least two business days prior to the first scheduled Judicial Board Hearing. Any member of the Judicial Board pool has an obligation to disqualify himself/herself if he/she has any personal interest in the case.

The Moderator will set a date by which all materials for the judicial hearing will be sent to the Judicial Board. Materials turned into the Moderator after that date will be sent to the Judicial Board if feasible.

Reasonable efforts will be made to have the first session of the Judicial Board Hearing within seven business days after the referred student has been notified of the above. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material:

At the discretion of the Judicial Board, more than one hearing session may be necessary before a final determination is made.

The actual Judicial Board Hearing will proceed as follows:

1. The Chairperson convenes and presides over the Judicial Board Hearing only if the appropriate quorum is present. (See Explanation of Important Aspects of the Student Judicial Process—Judicial Boards.) The Chairperson is also charged with maintaining orderly discussion throughout the Judicial Board Hearing, generally limiting testimony per session to a maximum of three hours and ensuring that there is equal time for both the complainant and the referred student to present their evidence.
2. The Chairperson acknowledges the Advisors. (See Explanation of Important Aspects of the Student Judicial Process—Advisors.)
3. The Chairperson confirms that the referred student understands his/her rights.
4. The Chairperson reads into the record the University's opening statement and all statements of alleged violation(s).
5. The Chairperson or Moderator will ensure that the referred student(s) and complainant(s) have copies of all incident reports.
6. The complainant makes a statement or, in cases where the University is bringing the action, a University representative will present the University's case.
7. The referred student makes an opening statement, including an admission or denial of the charges.
8. Witnesses and/or evidence are presented. Witnesses will be presented one at a time. A Witness can only be present at the Judicial Board Hearing during his/her own testimony. (See Explanation of Important Aspects of the Student Judicial Process—Witnesses.)
9. Members of the Judicial Board, the Moderator, the referred student and the complainant may cross-examine any Witness who is present. All questions must be directed to the Chairperson. The Chairperson may rule any question out of order.
10. Written testimony from Witnesses unable to be at the Judicial Board Hearing may be accepted but its validity will be ruled on by the Chairperson. (See Explanation of Important Aspects of the Student Judicial Process—Witnesses.)
11. The Judicial Board may recall any Witness it wishes to question further.
12. Members of the Judicial Board may ask questions to the complainant and the referred student. At this time the complainant and the referred student may also question each other. All questions must be directed to the Chairperson. The Chairperson may rule any question out of order.
13. After all Witnesses, evidence, and testimony have been presented, the Chairperson will ask each side if there is any additional information pertaining to the case that has not been heard or submitted in writing.
14. Closing statements of no longer than five minutes may be made by the referred student and complainant.
15. At this point, all are dismissed except for the Chairperson, Judicial Board members and the Moderator. The Judicial Board determines if the student is or is not in violation of the Code expectation or other policy outlined.
16. If the referred student is to be found in violation, the Judicial Board shall determine the appropriate sanction(s). A simple majority vote by the board members will determine all outcomes. All decisions will...
be reviewed with the Moderator, who will share with the Judicial Board a referred student's prior record of sanctions as appropriate.

17. When deliberations have been completed, the Chairperson invites the referred student back into the room and announces the Judicial Board's decision. Any sanctions imposed become effective immediately unless otherwise stipulated. Sanctions imposed by the Judicial Board may be appealed in accordance with the procedures detailed in the Judicial Appeals Procedures. Students will be informed of these Judicial Appeals Procedures, including to whom a request for an appeal should be directed, at the conclusion of the Judicial Board Hearing. The University will take reasonable measures to notify the complainant and referred student of the outcome and sanctions in writing within five business days of the last Judicial Board Hearing. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material. The University will place all appropriate information in the referred student's judicial file.

If a referred student fails to attend the scheduled Judicial Board Hearing or otherwise participate in the process, the Judicial Board may decide the case based on the information available to it at the time. Any imposed sanctions will be effective immediately unless otherwise stipulated.

Judicial Sanctions

The Judicial Review Process is an educational one by which the University strives to instill in its students an understanding that they are responsible for their actions. When a student fails to uphold the responsibilities outlined in the Code of Student Responsibility or other policies, the University has an obligation to help him/her come to a deeper understanding of how his/her behavior impacts the campus environment.

There are several reasons for imposing judicial sanctions:

1. To redirect a student's or organization's behavior toward a standard more acceptable for members of the University community;
2. To protect the University community from possible harm or injury;
3. To require restitution for University property that is lost, stolen or damaged; and
4. To give support for financial redress to a victim for loss, harm or destruction of his/her personal property.

If, after an Administrative Hearing or Judicial Board Hearing has taken place, there is sufficient evidence that a violation has occurred, the hearing officer(s) may impose the appropriate sanction(s).

All imposed sanctions shall become effective immediately at the completion of the hearing unless otherwise stipulated.

Sanctions may be appealed in accordance with the procedures detailed in Judicial Appeals Procedures.

The following is a list of sanctions that the University may impose on a student, group of students or student organization:

1. Judicial Reprimand: A judicial reprimand does not necessarily restrict the student in any way but does signify that any further violation may result in additional judicial sanctions. A written record of the reprimand will be placed in the student's judicial file.
2. University Censure: University Censure indicates to the student that further violations will result in more serious consequences. University censure usually is given for a specified period of time not to exceed one year. This level of sanction may include restriction of activities and/or ineligibility to receive financial assistance from a University source.
3. No Contact Restriction – A no contact restriction denotes that the student is prohibited from having any contact with a particular person or persons. This contact includes but is not limited to: in person, email, text message, instant message, the internet, phone, or through other people. This contact may include any university gatherings on or off campus.
4. Judicial Probation: Judicial probation is a written statement to the student indicating that the student's behavior is of such a nature as to jeopardize continued enrollment at the University. Judicial probation can be for a specified period of time or for as long as the student is enrolled. Any behavioral infraction during the probationary period may cause the student to be removed from the University.
5. Suspension: A suspended student must carry out a total and immediate separation from the University for a required period of time and/or until particular conditions for readmission are met. Suspension may include various prohibitions regarding a student's ability to be on University property or participate in University activities. A sanction of suspension shall be permanently noted on a student's transcript,
regardless of whether or not the student is successfully readmitted. At the end of the suspension period
and/or once the student can demonstrate that the conditions for readmission have been met, the student
may be required to meet with the Dean of Students or other designee before being readmitted to the
University.

6. Dismissal: Dismissal constitutes a permanent and immediate separation from the University. The
imposition of this sanction shall be permanently noted on the student’s transcript and is a permanent bar to
his or her readmission to DePaul University. Dismissal may include various prohibitions regarding a
student’s ability to be on University property or participate in University activities.

Any of the above sanctions may be combined with one or more of the following actions in order to more fully
address all issues involved in a judicial case:

1. Restitution or Assessment: A student who damages University property may be required to pay actual
repair or replacement costs. Failure to pay may result in withholding of the student’s records and/or
additional judicial sanctions.

2. Educational Projects: An educational project designed to assist the student in better understanding the
overall impact of his/her behavioral infraction(s) may be imposed. Such assigned projects might include
research papers, the creation of educational materials, or the planning and/or presentation of educational
programs related to the policy infraction. Assigned projects may not include physical labor unless they are
directly related to the violations(s) and do not cause humiliation or degradation to the student.

3. Restriction: Restrictions upon a student’s University privileges may be imposed for a set period of time.
These restrictions may include, but are not limited to, denial of the right to represent the University in any
way, access to facilities or individuals, parking privileges, and/or participation in co-curricular activities.

The sanctions of Residence Hall Probation and Removal from the Residence Halls may also be imposed through
the Judicial Review Process on students who live in DePaul housing. Additionally, because Residential Education
maintains a separate judicial system for violations of Residential Education policies and, as appropriate,
violations of other policies that occur in DePaul housing, students should consult Residence Education for
information as to when a student can be placed on probation in, or be removed, from DePaul housing.

Students who are removed from DePaul housing will be subject to all of the policies and procedures set forth by
Residential Education and Housing Services. Students should consult these departments for more information.

Judicial Appeal Procedures

Both complainants who are students and referred students have the right to request an appeal on specified
grounds. The reason for an appeal is to guarantee that the situation has been resolved through a fundamentally
fair hearing in accord with established policies and procedures.

A referred student may only request to appeal the determination or sanction on the following three grounds:

1. A substantial procedural error occurred that unreasonably impaired the ability to achieve a fair process or
final decision and made the process or the final decision fundamentally unfair;

2. New evidence of substantive nature, impossible for the hearing officer to have heard at the time of the
hearing, has been discovered and it would be fundamentally unfair for the officer to not consider the
evidence; or

3. The initial sanction(s) are fundamentally unfair or inappropriate.

A complainant who is a student may only request to appeal the determination or sanction on the following two
grounds:

1. A substantial procedural error occurred that unreasonably impaired the ability to achieve a fair process or
final decision and made the process or the final decision fundamentally unfair; or

2. New evidence of substantive nature, impossible for the hearing officer to have heard at the time of the
hearing, has been discovered and it would be fundamentally unfair for the officer to not consider the
evidence.

In order to request an appeal, the student must submit a written request for appeal to the designated office
within five business days of being notified of the initial decision. Students will be notified at the conclusion of a
hearing who is the designated University representative to submit their request for an appeal. Typically, requests
for appeals from Judicial Board Hearings should be submitted to the Dean of Students, while requests for
appeals from Administrative Hearings should be submitted to the supervisor of the Administrative Hearing
Officer (for example, if the Dean of Students served as the Administrative Hearing officer then the request for an
appeal would be directed to the Associate Vice President for Student Advocacy and Community Relations; if the
Associate Vice President for Student Advocacy and Community Relations served as the Administrative Hearing
officer then the request for an appeal would be directed to the Vice President for Student Affairs). The individual
designated to review the appeal request may decide that the sanctions imposed should be suspended pending
the outcome of the appeal. Students should understand, however, that, unless otherwise stipulated, sanctions
are considered in effect once a hearing is completed, regardless of whether an appeal is requested.

The individual designated to review the student's request for an appeal will review the request for an appeal and
make a determination that:

1. The request for an appeal is denied because none of the grounds for an appeal above have been met; or
2. The request for an appeal is granted because one or more of the grounds for an appeal have been met.

The designated reviewer will take reasonable measures to notify the student of the appeal determination within
five business days of when the University receives the request for an appeal. However, the University reserves
the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material.

If a request for an appeal is granted, then the individual designated to review the student's request for an appeal
will determine whether the matter can be resolved without a new hearing (for example, modification of sanctions
so that they are not fundamentally unfair or inappropriate) or whether new hearing is necessary. If a new
hearing is necessary, the University will determine whether this hearing will be an Administrative Hearing or a
Judicial Board Hearing. All hearings that take place after an appeal has been granted will proceeding in
accordance with established procedures for Administrative Hearings and Judicial Board Hearings.

All decisions regarding whether an appeal request will be granted are final. If the request for an appeal is
denied, then all sanctions imposed will remain in effect.

Explanation of Important Aspects of the Student Judicial Process

Advisors

It is a student's right to bring one Advisor to an Administrative Hearing, a Judicial Board Hearing, or any other
meeting included within this Student Judicial Process. This right applies to referred student(s), complaint(s) and
witnesses. An Advisor must be a current member of the DePaul community (faculty, staff, or student). However,
an Advisor cannot be a student who is involved in the same judicial matter being reviewed. All Advisors must
be approved in advance of a scheduled meeting or hearing by the Moderator, Administrative Hearing Officer, or
other University designee.

The role of the Advisor is to act as a support person for the student by conferring quietly with the student. The
Advisor is not to directly address the members of the Judicial Board, an Administrative Hearing officer, or
anyone else present at a meeting or hearing.

Hearings

There are two types of judicial hearings:

1. Administrative Hearing: An Administrative Hearing is a hearing in which the hearing officer is a University
designee, such as the Dean of Students or another Student Affairs professional. The procedures for an
Administrative Hearing are set forth above in the "Administrative Hearing Process" section. There is no
Moderator for an Administrative Hearing.
2. Judicial Board Hearing: A Judicial Board Hearing is a hearing in which the hearing officers are selected
from the Judicial Board pool of members. The procedures for a Judicial Board Hearing are set forth above
in the "Judicial Hearing Process" section. The Judicial Board Hearing process is managed by a Moderator.

The University will make the determination as to which type of hearing is appropriate in a particular situation.

Judicial Boards

The members of the Judicial Board pool are:
1. Six current students with at least sophomore status nominated by the Student Government Association.
2. Six faculty members nominated by the Faculty Council.
3. Six staff members nominated by the Staff Council.

Three members (one from each constituency) will comprise the panel for a Judicial Board Hearing. This panel shall be chosen by the Moderator prior to the Judicial Board Hearing. The Chairperson shall be decided upon at the time of the Judicial Board Hearing.

Student Affairs is responsible for training the pool of Judicial Board members.

Students should consult Residential Education for information about judicial boards in the Residential Education judicial process.

Jurisdiction

The University may exercise jurisdiction (i.e.—initiate this Student Judicial Process) for all offenses committed on campus. Additionally, the University may exercise jurisdiction for an offense committed off-campus (including on-line communities) when:

1. The victim of such an offense is a member of the campus community (student, faculty, or staff ); or
2. The offense occurred at a college-sponsored or sanctioned event; or
3. The referred student used his or her status as a member of the University community to assist in the commission of the offense (for example, using a student ID card to pass a bad check); or
4. The offense affects the University.

Moderators

All Judicial Board Hearings will be assigned a Moderator. The Moderator may be the Dean of Students or another University designee (for example, other staff in the Dean of Students Office, or other Student Affairs professionals). The Moderator is responsible for managing the Judicial Board Hearing process, including assisting with scheduling and selecting members from the Judicial Board pool to participate in a hearing. The Moderator will be present at the Judicial Board Hearing. The Moderator has no voting role in the outcome of any Judicial Board Hearing, but all determinations by a Judicial Board as to whether a violation has occurred or regarding sanctions must be reviewed with the Moderator.

There is no Moderator for an Administrative Hearing.

Witnesses

Students involved on either side of a judicial case, as complainants or referred students, may submit Witnesses for an Administrative Hearing or a Judicial Board Hearing to support their statements. All Witnesses must be approved in advance by the University, and the University reserves the right to disallow any Witness. All Witnesses must generally be current members of the DePaul community (faculty, staff or students), except as otherwise approved by the University. Witness intended to present information that does not directly bear upon the circumstances of the case or duplicates all or part of testimony already presented may not be allowed. Appearance of Witnesses at the appropriate time, date and location of any hearing is the responsibility of the involved students. In some cases, the University will approve the use of written statements from Witnesses who are not available to appear at a hearing.

Witnesses will be presented one at a time. A Witness can only be present at a hearing during his/her own testimony.

The University recognizes it cannot compel any student to present him/herself as a Witness against his/her will. However, all students are encouraged to comply with the Student Judicial Process. Witnesses will be informed that giving false information may result in judicial action.
