Accountancy (BSB)

The objectives of the Bachelor of Science in Business with a major in Accountancy are to provide students with a solid foundation in the theory, principles, and procedures of the discipline and professional practice of accountancy, including the study of financial, managerial and tax accounting as well as auditing and systems; to encourage and prepare students for professional certification; to foster an understanding of the profession of accountancy and its role in modern business environments; and to develop an awareness of the need for continuing intellectual development through either professional or academic means.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Apply and explain the application of accounting standards and regulation, and where appropriate international accounting standards.
- Communicate effectively both orally and in writing.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements
For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT*
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR

One Business Capstone course to be chosen from:
- ICS 394 ENTREPRENEURSHIP STRATEGY
- ICS 395 MANAGEMENT STRATEGY

One Communication course to be chosen from:
- MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION

Global Business Perspective (4.0 hours) to be chosen from:
- ECO 316 EUROPEAN ECONOMIC HISTORY
- ECO 333 TOPICS IN GLOBAL ECONOMIES
- ECO 334 UNDERSTANDING CHINA'S ECONOMY
- ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
- ECO 361 INTERNATIONAL TRADE
- ECO 362 INTERNATIONAL MONETARY ECONOMICS
- ECO 363 ECONOMICS OF THE EUROPEAN UNION
- FIN 340 INTERNATIONAL FINANCE
- FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
- ICS 350 INTERNATIONAL BUSINESS SEMINAR
- MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
- MGT 357 INTERNATIONAL BUSINESS
- MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
- MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
- MKT 360 INTERNATIONAL MARKETING
- A course taken as part of a term-long study abroad program

One Professional Writing course to be chosen from:
- WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
- WRD 204 TECHNICAL WRITING
- WRD 206 PROFESSIONAL WRITING

*MGT 301-H is required if pursuing the Management Honors Program.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
- MAT 135 and MAT 137 are completed through Liberal Studies requirements
- MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
- MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
- MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Grade Minimums for Accountancy Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, MAT 137, and the course in Professional Writing.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- Not required

Sophomore Year

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

- Experiential learning required **

Senior Year

- ICS 392 SENIOR SEMINAR *

Learning Domains

Arts and Literature

- 3 AL courses Required

Philosophical Inquiry

- 2 PI courses required***

Scientific Inquiry

- MAT 135 BUSINESS CALCULUS I
  or MAT 150 CALCULUS I
  or MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
- MAT 137 BUSINESS STATISTICS
- 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry

- 1 SCBI course required (must not be an ECO course)
Religious Dimensions

- 2 RD courses required***

Understanding the Past

- 2 UP courses required

* Students must earn C- or better in this course.
** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Declaration Requirements

To declare a major in Accountancy, a student must meet the following requirements:

- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201*, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.500
- A minimum Accountancy (ACC) grade point average of 2.000
- No grade of IN, R, or lower than C- in any Accountancy (ACC) course or course used toward the Accountancy major
- Completion of ACC 303 and ACC 304 with minimum grades of C-

Course Requirements

In addition to ACC 101 and ACC 102, a student majoring in Accountancy is required to complete the following courses totaling at least 42.0 hours:

- ACC 250 CAREER MANAGEMENT FOR ACCOUNTANTS (2.0 hours)
- ACC 303 COST & MANAGERIAL ACCOUNTING
- ACC 304 FINANCIAL REPORTING I
- ACC 305 FINANCIAL REPORTING II
- ACC 306 FINANCIAL REPORTING III
- ACC 308 ADVANCED FINANCIAL ACCOUNTING
- ACC 350 INFORMATION FOR DECISION MAKING
• ACC 372 AUDITING I
• ACC 374 AUDITING II
• ACC 380 TAX TREATMENT OF INDIVIDUALS AND PROPERTY
• ACC 383 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS

*Students majoring in accounting (primary or secondary) are allowed to substitute ACC 370 in place of BLW 201.

Open Electives

Open elective credit (4.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Graduation Requirements

All Accountancy (ACC) courses and any courses used toward the Accountancy major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentration in Internal Audit

Available to students majoring in Accountancy, the optional concentration in Internal Audit prepares students to meet the challenges of the profession and provides them with knowledge of the internal audit function that is becoming increasingly important in the global business community. Students experience rigorous classroom learning designed to deliver the knowledge and practical skills they'll need to succeed during the first years of their careers including: oral and written communication, understanding of internal audit's role of providing objective assurance of key governance, risk management, and compliance processes, use information technology processes and controls in the assurance function, and development of teamwork and leadership skills. Successful students will enjoy opportunities to visit companies and interact with Chief Audit Executives on risk assessment projects.

A student completing the concentration in Internal Audit is required to take three courses:

• ACC 372 AUDITING I
• ACC 376 INTERNAL AUDITING
• One elective course chosen from:
  - ACC 375 FRAUD EXAMINATION & FORENSIC AUDITING
  - IS 344 IT AUDITING

Courses for the concentration may be taken in any order.

To declare the concentration in Internal Audit, a student must be a declared Accountancy major. The concentration may be declared at the same time as major declaration or added afterward. All courses for the concentration must be completed with a minimum grade of C-.

Sample Schedule

Students majoring in Accountancy are encouraged to take the required courses in the following order:

<table>
<thead>
<tr>
<th>1st Year</th>
<th>2nd Year</th>
<th>3rd Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Autumn</td>
<td>Winter</td>
<td>Spring</td>
</tr>
<tr>
<td>ACC 101</td>
<td>ACC 102</td>
<td>ACC 303</td>
</tr>
<tr>
<td>ACC 304</td>
<td>ACC 305</td>
<td>ACC 306</td>
</tr>
<tr>
<td>ACC 372</td>
<td>ACC 374</td>
<td>ACC 380</td>
</tr>
</tbody>
</table>

DePaul University Winter/Spring/Summer 2016-2017
ACC 250 may be taken by students any quarter that fits their schedule. Completion is recommended prior to third year.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Accountancy (BSB)/Accountancy (MACC)

The Five-Year Accountancy Program allows majors to complete a bachelor's degree and a Master of Accountancy (MACC) degree in five years. The graduate degree provides students with advanced skills in accounting in areas of high demand: internal audit, forensic accounting, and accounting information systems.

Admission Requirements

Current DePaul accountancy majors who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200
- A minimum Accountancy (ACC) grade point average of 3.000

Admission to the five year program does not require the GMAT, essays, or letters of recommendation. Students should apply for program admission while enrolled in ACC 305, 372, or 380.

Classes During Senior Year

In the five year program, students will take three graduate classes during the senior year. These three classes will count toward the bachelor's degree as indicated below. Students should note that requirements for graduate classes are more rigorous.

- ACC 545 ADVANCED TOPICS IN ACCOUNTING THEORY (replaces ACC 308; prerequisite ACC 305)
- ACC 550 ADVANCED TOPICS IN AUDITING (replaces ACC 374; prerequisite ACC 372)
- ACC 551 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS (replaces ACC 383; prerequisite ACC 380)

These courses are offered every quarter except summer and may be taken at any time providing prerequisites have been met.

Final Quarter of Senior Year

During the final quarter of senior year, students must petition for formal admission to the Kellstadt Graduate School of Business. Students must apply for graduation prior to submitting the petition for admission.

The admission criteria are as follows:

- Completion of the Bachelor of Science in Business with a major in Accountancy
- A minimum cumulative DePaul grade point average of 3.200
- A minimum Accountancy (ACC) grade point average of 3.000

Students take nine additional graduate classes to complete the graduate degree, for a total of twelve graduate classes. Information on the MACC degree is found in the graduate catalog.
**Accountancy (Minor: Business Students Only)**

Students in the Driehaus College of Business who minor in Accountancy will acquire skills in analyzing, interpreting and communicating financial information to complement their major course of study.

**Declaration Requirements**

To declare a minor in Accountancy, a Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Accountancy grade point average of 2.000
- No grade of IN, R, or lower than C- in any Accountancy course
- Completion of one ACC course at DePaul

**Course Requirements**

In addition to ACC 101 and ACC 102, a Driehaus student minoring in Accountancy is required to complete the following courses totaling at least 16.0 hours:

- ACC 304 FINANCIAL REPORTING I
- Accountancy Elective
- Accountancy Elective
- Accountancy Elective

Accountancy Electives to be chosen from:

- ACC 303 COST & MANAGERIAL ACCOUNTING
- ACC 305 FINANCIAL REPORTING II
- ACC 306 FINANCIAL REPORTING III
- ACC 308 ADVANCED FINANCIAL ACCOUNTING
- ACC 350 INFORMATION FOR DECISION MAKING
- ACC 370 PROFESSIONAL RESPONSIBILITIES & BUSINESS LAW
- ACC 372 AUDITING I
- ACC 374 AUDITING II
- ACC 375 FRAUD EXAMINATION & FORENSIC AUDITING
- ACC 376 INTERNAL AUDITING
- ACC 380 TAX TREATMENT OF INDIVIDUALS AND PROPERTY
- ACC 383 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS
- ACC 398 SPECIAL TOPICS (with approval)
- ACC 399 INDEPENDENT STUDY

ACC 250 CAREER MANAGEMENT FOR ACCOUNTANTS may not be used toward minor requirements.

**Financial Reporting Series**

Finance Honors Program students who wish to minor in Accountancy should take ACC 307 FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS in lieu of ACC 304. ACC 309 FINANCIAL REPORTING II FOR FINANCE HONORS STUDENTS will satisfy an Accountancy Elective requirement for the minor. Students who complete ACC 307 and ACC 309 cannot use ACC 305 or ACC 306 towards their minor requirements.

**Graduation Requirements**

All Accountancy (ACC) courses and any courses used toward the Accountancy minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Accountancy (Minor)

Available to students outside the Driehaus College of Business, the Accountancy minor is designed for those students seeking to acquire skills in analyzing, interpreting, and communicating financial information to complement their major course of study.

**Declaration Requirements**

To declare a minor in Accountancy, a non-Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Accountancy grade point average of 2.000
- No grade of IN, R, or lower than C- in any Accountancy (ACC) course
- Completion of one ACC course at DePaul

Students must meet the prerequisite course equivalency of pre-calculus (MAT 130) prior to taking the first course in the minor.

**Course Requirements**

A non-Driehaus student minoring in Accountancy is required to complete the following courses totaling at least 24.0 hours:

- Three required courses:
  - ACC 101 INTRODUCTION TO ACCOUNTING I
  - ACC 102 INTRODUCTION TO ACCOUNTING II
  - ACC 304 FINANCIAL REPORTING I
- Three elective courses to be chosen from:
  - ACC 303 COST & MANAGERIAL ACCOUNTING
  - ACC 305 FINANCIAL REPORTING II
  - ACC 306 FINANCIAL REPORTING III
  - ACC 308 ADVANCED FINANCIAL ACCOUNTING
  - ACC 350 INFORMATION FOR DECISION MAKING
  - ACC 370 PROFESSIONAL RESPONSIBILITIES & BUSINESS LAW
  - ACC 372 AUDITING I
  - ACC 374 AUDITING II
  - ACC 375 FRAUD EXAMINATION & FORENSIC AUDITING
  - ACC 376 INTERNAL AUDITING
  - ACC 380 TAX TREATMENT OF INDIVIDUALS AND PROPERTY
  - ACC 383 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS
  - ACC 398 SPECIAL TOPICS (with approval)
  - ACC 399 INDEPENDENT STUDY

ACC 250 Career Management for Accountants may not be used toward minor requirements.

**Graduation Requirements**

All Accountancy (ACC) courses and any courses used toward the Accountancy minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

**Accountancy Honors (BSB)**

The designation Strobel Scholar is reserved for students of exceptional ability, achievement, and motivation in the School of Accountancy and Management Information Systems’ Strobel Honors Program. These students are characterized by outstanding academic records, high aptitudes for scholastic work, and reputations for...
leadership.

Special honors sections of accountancy courses are provided for Strobel Scholars every quarter as indicated in the quarterly class schedule. The content and structure of these honors sections are designed to appeal to the Strobel Scholar. Strobel Scholars proceed through the Program together, interacting with peers who have similar abilities. Learning and teaching concepts are advanced and student-oriented; small group activities and student presentations are used in honors sections. Students in the Strobel Scholars Program are expected to maintain high academic performance throughout the complete honors curriculum. Academic performance is reviewed at the end of each school year by the Administrator of the Strobel Scholars Program, Deloitte Professor John McEnroe. Outside speakers from the accounting and business communities are frequent visitors and participants.

The program is named after the late chair of the Accountancy Department, Eldred C. Strobel. Professor Strobel's distinguished career as an accounting educator spanned thirty-five years, fourteen of which were served as chair. Known for his support of innovative approaches to accounting education, he was the founder of the honors program, which now bears his name.

Admission to the Strobel Honors Program is by invitation only and is based on outstanding academic achievement in high school. Prior to being considered for the Strobel Honors Program, a student must be admitted to DePaul University and the Driehaus College of Business as a full-time, first-year, degree-seeking student.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Apply and explain the application of accounting standards and regulation, and where appropriate international accounting standards.
- Communicate effectively both orally and in writing.
Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT*
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MGT 310 CONSUMER BEHAVIOR
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
- One Communication course to be chosen from:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- Global Business Perspective (4.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA'S ECONOMY
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  - MKT 360 INTERNATIONAL MARKETING
  - A course taken as part of a term-long study abroad program
- One Professional Writing course to be chosen from:
  - WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
  - WRD 204 TECHNICAL WRITING
  - WRD 206 PROFESSIONAL WRITING

*MGT 301-H is required if pursuing the Management Honors Program.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
- MAT 135 and MAT 137 are completed through Liberal Studies requirements
- MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171.
MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149.
MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

**Grade Minimums for Accountancy Major**

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, MAT 137, and the course used for Professional Writing.

**Strobel Course Sections**

Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

Major Requirements

Declaration Requirements

To declare a major in Accountancy Honors, a student must meet the following requirements:

- Admission into the Strobel Honors Program
- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201*, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
A minimum cumulative DePaul grade point average of 2.500
A minimum Accountancy (ACC) grade point average of 2.000
No grade of IN, R, or lower than C- in any Accountancy (ACC) course or course used toward the Accountancy major
Completion of ACC 303 and ACC 304 with minimum grades of C-

Course Requirements

In addition to ACC 101 and ACC 102, a student majoring in Accountancy Honors is required to complete the following courses totaling at least 42.0 hours:

- ACC 250 CAREER MANAGEMENT FOR ACCOUNTANTS (2.0 hours)
- ACC 303 COST & MANAGERIAL ACCOUNTING
- ACC 304 FINANCIAL REPORTING I
- ACC 305 FINANCIAL REPORTING II
- ACC 306 FINANCIAL REPORTING III
- ACC 308 ADVANCED FINANCIAL ACCOUNTING
- ACC 350 INFORMATION FOR DECISION MAKING
- ACC 372 AUDITING I
- ACC 374 AUDITING II
- ACC 380 TAX TREATMENT OF INDIVIDUALS AND PROPERTY
- ACC 383 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS

*Students majoring in accounting (primary or secondary) are allowed to substitute ACC 370 in place of BLW 201.

Strobel Course Sections

The courses listed above (excluding ACC 250 and ACC 370) must be taken as honors sections by students in the Strobel program. Strobel students take specially designated sections of all ACC classes, including ACC 101 and ACC 102.

Grade Standard

Strobel Honors students will face dismissal from the honors track if they receive a D or F in an honors accounting class or less than a B- in three honors accounting classes. This standard is designed to ensure that the academic excellence that the designation engenders is maintained.

Finance Honors

Strobel Honors students who are also accepted into the Finance Honors Program are not required to take ACC 307 or ACC 309.

Open Electives

Open elective credit (4.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Graduation Requirements

All Accountancy (ACC) courses and any courses used toward the Accountancy major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentration in Internal Audit

Available to students majoring in Accountancy, the optional concentration in Internal Audit prepares students to meet the challenges of the profession and provides them with knowledge of the internal audit function that is becoming increasingly important in the global business community. Students experience rigorous classroom learning designed to deliver the knowledge and practical skills they'll need to succeed during the first years of their careers including: oral and written communication, understanding of internal audit's role of providing objective assurance of key governance, risk management, and compliance processes, use information technology processes and controls in the assurance function, and development of teamwork and leadership skills. Successful
students will enjoy opportunities to visit companies and interact with Chief Audit Executives on risk assessment projects.

A student completing the concentration in Internal Audit is required to take three courses:

- ACC 372 AUDITING I
- ACC 376 INTERNAL AUDITING
- One elective course chosen from:
  - ACC 375 FRAUD EXAMINATION & FORENSIC AUDITING
  - IS 344 IT AUDITING

Courses for the concentration may be taken in any order.

To declare the concentration in Internal Audit, a student must be a declared Accountancy major. The concentration may be declared at the same time as major declaration or added afterward. All courses for the concentration must be completed with a minimum grade of C-.

### Sample Schedule

Courses in the Strobel sequence must be taken in the following order:

<table>
<thead>
<tr>
<th></th>
<th>Autumn</th>
<th>Winter</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st Year</td>
<td>ACC 101H</td>
<td>ACC 102H</td>
<td>ACC 303H</td>
</tr>
<tr>
<td>2nd Year</td>
<td>ACC 304H</td>
<td>ACC 305H</td>
<td>ACC 306H</td>
</tr>
<tr>
<td>3rd Year</td>
<td>ACC 372H</td>
<td>ACC 393 recommended</td>
<td>ACC 374H, ACC 380H</td>
</tr>
<tr>
<td>4th Year</td>
<td>ACC 383H</td>
<td>ACC 308H</td>
<td>ACC 350H</td>
</tr>
</tbody>
</table>

"H" denotes Strobel specific section of the course listed. The courses must be taken as honors sections by students in the Strobel program (with the exception of the recommended ACC 393, which is not offered as an honors section).

There is no honors section of ACC 250. Students may take that course any quarter that fits their schedule. Completion is recommended prior to third year.

ACC 393 is not required for the major, but it is recommended and may be used for Experiential Learning in the Liberal Studies requirements.

### Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

**Accountancy (BSB)/Accountancy (MACC)**

The Five-Year Accountancy Program allows majors to complete a bachelor's degree and a Master of Accountancy (MACC) degree in five years. The graduate degree provides students with advanced skills in accounting in areas of high demand: internal audit, forensic accounting, and accounting information systems.

**Admission Requirements**
Current DePaul accountancy majors who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200
- A minimum Accountancy (ACC) grade point average of 3.000

Admission to the five year program does not require the GMAT, essays, or letters of recommendation. Students should apply for program admission while enrolled in ACC 305, 372, or 380.

**Classes During Senior Year**

In the five year program, students will take three graduate classes during the senior year. These three classes will count toward the bachelor's degree as indicated below. Students should note that requirements for graduate classes are more rigorous.

- ACC 545 ADVANCED TOPICS IN ACCOUNTING THEORY (replaces ACC 308; prerequisite ACC 305)
- ACC 550 ADVANCED TOPICS IN AUDITING (replaces ACC 374; prerequisite ACC 372)
- ACC 551 TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS (replaces ACC 383; prerequisite ACC 380)

These courses are offered every quarter except summer and may be taken at any time providing prerequisites have been met.

**Final Quarter of Senior Year**

During the final quarter of senior year, students must petition for formal admission to the Kellstadt Graduate School of Business. Students must apply for graduation prior to submitting the petition for admission.

The admission criteria are as follows:

- Completion of the Bachelor of Science in Business with a major in Accountancy
- A minimum cumulative DePaul grade point average of 3.200
- A minimum Accountancy (ACC) grade point average of 3.000

Students take nine additional graduate classes to complete the graduate degree, for a total of twelve graduate classes. Information on the MACC degree is found in the graduate catalog.

**Acting (BFA)**

The Theatre School's Bachelor of Fine Arts (BFA) degree in Acting prepares actors to work on both stage and screen. It develops actors who are imaginative, skillful, expressive and vibrantly alive. It is rooted in the Chicago tradition, emphasizing physicality, truth in action, communication, collaboration and spontaneity. The first year introduces the actor to a broad range of techniques and experiences, defines a way of working and provides a set of skills. The next three years focus on developing and refining this way of working - adding skills and technique - while helping each actor discover and apply those which work best for him or her.

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works and artistic approaches from antiquity to the present, encompassing a broad range of periods, cultures, and styles.
- Synthesize and apply elements of their education and training in classes, rehearsals, and productions.
- Participate in theatrical production in a professional manner, with discipline, respect, and maturity.
- Demonstrate the role of the theatre practitioner as an active member of society and of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Apply General knowledge of theatre history, dramatic literature covering a broad range of historical periods, cultures, and styles, and major theatre artists on both a national and international level.
- Utilize the principles and vocabulary of performance, directing, design, and a thorough grounding in the theory of their particular area of specialization.
- Write with competency in a variety of writing styles from casual to formal.
- Fully engage with knowledge through the ability to access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying arguments and assumptions and to formulate conclusions.
- Utilize existing knowledge to generate and synthesize ideas in original, creative, and imaginative ways.
- Articulate clearly the process of transforming the written text into the theatrical event.
- Design, develop, and execute a noteworthy intellectual and/or creative project.
- Develop a profound understanding of the role of the artist in society.
- Develop an understanding of the cultural and sociopolitical context of theatre from the perspective of both historical and contemporary practice.
- Develop strong self-discipline, self-motivation, and an ability to work independently.
- Work collaboratively and effectively within a group process and with creative artists from all theatrical disciplines.
- Understand the interrelationship of what it means to be human and what it means to be a theatre artist.
- Evaluate ethical issues with respect to theatrical analysis, concept, and practice.
- Contribute artistically to communities through socially responsible engagement and leadership.
- Develop an understanding of and a respect for a multiplicity of cultural and artistic perspectives that may be different from their own.
- Understand the availability and/or scarcity of global resources for a sustainable future
- Set goals for future work that are the result of rigorous self-appraisal and reflection.
- Articulate their skills and knowledge as they represent themselves to external audiences.
- Work both independently and collaboratively.
- Use technology to create, communicate, and synthesize their ideas.

Program Specific Outcomes

Students will be able to:

- Act truthfully from moment-to-moment in a variety of theatrical works, periods, and styles.
- Create a role within the action of the assignment or production through text analysis, personalization, and imagination.
- Demonstrate a personal practice of improving vocal and physical expressiveness as an actor.
- Create unique, insightful, and compelling work that impacts those who witness it.
- Apply the training to professional opportunities.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

Understanding the Past (UP)
- 1 Course Required

Other
- Choose 1 course from the above learning domains as an elective

* Students must earn a C- or better in this course.

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Actuarial Science (BS)

An actuary is a business professional who analyzes the financial consequences of risk and uncertainty. They interpret statistics to determine probabilities of accidents, sickness, death, and loss of property from theft and natural disasters. Actuaries use mathematics, statistics and financial theory to study uncertain future events, especially concerning risk management and insurance programs. Actuaries are considered the "financial architects" of the insurance world.

| Liberal Studies Requirements | 80 hours |
| Major Requirements           | 100 hours |
| Open Electives               | 12 hours  |
| **Total hours required**     | **192 hours** |

Learning Outcomes

Students will be able to:

- Apply the laws of probability and statistics to problems encountered by actuaries on a daily basis.
- Understand the theory of interest and its applications to the pricing of securities including bonds, stocks and financial derivatives.
- Understand the theory of life contingencies and its applications to mitigating financial risks through insurance contracts.
- Calculate the financial costs and benefits of insurance for various individuals given different needs and life cycle assumptions.
- Design, implement and monitor life contingency models in a manner consistent with current industry practices.
- Describe modern risk management frameworks and identify how specific risks can be quantified.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:
• completing the last course in the fourth-year high school sequence of any language
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

**Major Declaration Requirements**

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

• MAT 341 STATISTICAL METHODS USING SAS
• MAT 356 APPLIED REGRESSION ANALYSIS
• MAT 358 APPLIED TIME SERIES AND FORECASTING
• MAT 368 MATHEMATICAL FINANCE

Math Elective - one of two must be taken:

• MAT 359 SIMULATION MODELS AND MONTE CARLO METHOD
  or MAT 364 STOCHASTIC RISK MODELS

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Actuarial Science (BSB)

An actuary is a business professional who analyzes the financial consequences of risk and uncertainty. They interpret statistics to determine probabilities of accidents, sickness, death, and loss of property from theft and natural disasters. Actuaries use mathematics, statistics and financial theory to study uncertain future events, especially concerning risk management and insurance programs. Actuaries are considered the "financial architects" of the insurance world.

Actuaries are in high demand and work for insurance companies, consulting and investment firms, government, employee benefit departments of large corporations, hospitals, and banks. The field is highly competitive and requires students to pass exams that lead to professional certification by the Society of Actuaries, the Casualty Actuarial Society and other accredited international societies. This program will equip students with the skills needed to pass at least two actuarial exams, which are the industry's standard of gauging expertise for internships and employment, prior to graduation. We have structured our program around these milestones, enabling our students to gain internships in a timely manner and to graduate into full employment.

DePaul University
Winter/Spring/Summer 2016-2017
Page 61 of 2776
Learning Outcomes

Students will be able to:

- Apply the laws of probability and statistics to problems encountered by actuaries on a daily basis.
- Explain the theory of interest and how it is the foundation for derivative securities.
- Explain contingent payment models and how they apply to mitigating financial risks through insurance contracts.
- Organize, and simulate various Life Contingency models in a manner consistent with the insurance industry.
- Describe life cycle effects and then explain how different groups of individuals may protect themselves from any harmful effects.
- Calculate the financial costs and benefits of insurance contracts for various individuals given different life cycle assumptions.

College Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling 68.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- FIN 317 PRINCIPLES OF CORPORATE FINANCE FOR ACTUARIES
- FIN 320 MONEY AND BANKING
- MAT 151 CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
- One Communication course to be chosen from:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- Global Business Perspective (4.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA'S ECONOMY
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the math sequence (MAT 150, MAT 151, and MAT 152) in the first year of study.
- MAT 150 and MAT 152 are completed through Liberal Studies requirements.
- MAT 150 may be replaced by MAT 160 or MAT 170.
- MAT 151 may be replaced by MAT 161 or MAT 171.
- MAT 152 may be replaced by MAT 162 or MAT 172.
- MAT 150, MAT 151 and MAT 152 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149.

Grade Minimums for Actuarial Science Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, FIN 317, FIN 320, MAT 150, MAT 151, MAT 152, the course used for Professional Writing, and any FIN course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

*** PHL 248/ MGT 248 is required in PI or REL 228/ MGT 228 is required in RD

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Declaration Requirements

To declare a major in Actuarial Science, a student must meet the following requirements:
Course Requirements

In addition to FIN 317 and FIN 320, a student majoring in Actuarial Science is required to complete the following courses totaling at least 44.0 hours:

- Eleven required courses:
  - MAT 260 MULTIVARIABLE CALCULUS I
  - MAT 262 LINEAR ALGEBRA
  - MAT 351 PROBABILITY AND STATISTICS I
  - MAT 352 PROBABILITY AND STATISTICS II
  - MAT 353 PROBABILITY AND STATISTICS III
  - MAT 361 THEORY OF INTEREST
  - MAT 362 LIFE CONTINGENCIES I
  - MAT 363 LIFE CONTINGENCIES II
  - FIN 362 RISK MANAGEMENT
  - FIN 365 PRINCIPLES OF RISK & INSURANCE
  - FIN 369 ACTUARIAL CAPSTONE

Graduation Requirements

All Finance (FIN) courses and any course used towards the Actuarial Science major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

African and Black Diaspora Studies (BA)

The purpose of the African & Black Diaspora Studies Program is to provide DePaul students with a systematic, interdisciplinary, and integrated course of study of Africa & the Black Diaspora. The Program provides students with an opportunity to earn a Bachelor of Arts degree in African & Black Diaspora Studies with a concentration in Africa, Black America, and/or Afro-Caribbean and Latin America. African & Black Diaspora Studies will also train students in comparative analysis of regions (e.g., peoples, religions, philosophies) through an incorporation of the study of history, power, identity, gender, and race. The Program’s offerings provide students with opportunities to learn about and develop expertise in the cultures, epistemologies, histories, sciences, and societies of Africans and peoples of African descent. The Program prepares students to pursue professions and careers that require a systematic knowledge of Africa and its Diaspora.

</tbody>
</table>
Learning Outcomes

Students will be able to:

- Describe and discuss the complex multiculturalism of Africa and the Black Diaspora, particularly the diverse communities that have emerged in Africa as a result of centuries of interactions, invasions and colonization by indigenous, European and African societies and other immigrant and diasporic groups.
- Describe, discuss and engage the Black Diaspora as a concept, including the interrelationship between and among the peoples of three key geographic locations: Africa, The United States and the Afro-Caribbean and Latin America, along with other regions of the world, including Europe, Asia and Canada, for example.
- Describe and discuss the Africa and the Black Diaspora through five interdisciplinary sites of inquiry: history, power, identity, gender and race.
- Describe and discuss a complex range of multiple theories of “blackness,” including blackness as cultural identity, aesthetic, political and/or national movement, within the fields of African, Pan African and African American Studies.
- Critique stereotypes concerning African and Black Diasporic Populations.
- Apply an ethical framework and exhibit a strong sense of social responsibility within a commitment to community outreach.
- Apply theoretical approaches to practical problems, especially as they relate to issues of social justice in Africa and the Black Diaspora.
- Explain, apply, and combine in written form the field's multiple cultural and linguistic literacies, including those that are musical, visual, symbolic, computational, technological, and scientific, drawing on African and Black Diaspora literature.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than
English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see “Special Programs”).

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

- WRD 104 COMPOSITION AND RHETORIC II *
Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below.)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- ABD 391 CAPSTONE * [See Note Below]

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 1 Course Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student majoring in African and Black Diaspora Studies (ABD) is required to complete the Capstone offered by the ABD Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An ABD major in the University Honors Program shall take the University Honors Capstone and the ABD Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is
cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

- ABD 100 INTRODUCTION TO AFRICAN AND BLACK DIASPORA STUDIES
- ABD 200 AFRICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS
- ABD 206 AFRO-CARIBBEAN AND AFRO-LATIN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS
- ABD 208 AFRICAN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS
- 4 300-level Courses in an Area of Concentration
- 4 Major-Field Electives at 200-level or 300-level
- ABD 391 SENIOR CAPSTONE

Core Courses

Students are required to complete four core courses (16-quarter credit hours). The core courses are designed to accomplish three goals: to introduce students to the goals of the Program; to emphasize the Vincentian tenet that questions of human value undergird scholarly inquiry; and to strengthen an understanding of the interrelationships and dynamics among and between Africa, the Caribbean and Latin America, and the United States.

Courses in an Area of Concentration

For this requirement, students must take four courses (16-quarter credit hours) at the 300 level. These four concentration courses are designed to provide students with a body of knowledge about a particular area of study. At least two of these courses should originate in the African and Black Diaspora Studies program.

These courses build upon the general foundation of knowledge provided by the core courses and serve to augment and extend student knowledge about a particular area of study relating to Africa or the Black Diaspora and its relationship to other areas of the Program, and sites of inquiry (culture, gender, history, power, and race).

To insure that students are exposed to a variety of methodological approaches, students will endeavor to take courses in the social and behavioral sciences (i.e. anthropology, geography, history, international studies, psychology, political science, and sociology), humanities (i.e. history of art and architecture, literature, modern languages, music, philosophy, religious studies, and theatre), and interdisciplinary studies (i.e. American studies, Latin American & Latino studies, Women's and Gender studies, LGBT studies, etc.).

Each student, in consultation with his or her advisor, which is mandatory, will design a concentration that is attentive to comparative analysis. Students who wish to take a 200-level course in partial fulfillment of this requirement must petition the African and Black Diaspora Studies Program chair for approval (this is not common).

Major Field Electives

Students in the Program will be able to take four courses as major field electives (16-quarter credit hours). These courses can be at the 200-level or 300-level. We urge students to consider courses at the 300-level to
fulfill this requirement.

Such courses are designed to provide students with an opportunity to take courses related to their field of concentration in African and Black Diaspora Studies and at the same time extend their academic preparation through coursework in allied fields. The selection of electives will be done in consultation with the student's academic advisor.

**Capstone**

This senior seminar (four quarter hours) engages students in a synthesis of what they have learned through coursework. The capstone course will involve reading, writing, discussion, as well as the preparation by students a substantive piece of work (e.g., a senior thesis, a research paper, or a creative work).

**Open Electives**

Open elective credits are also required to meet the minimum graduation requirement of 192 quarter-credit hours.

---

**African and Black Diaspora Studies (Minor)**

A minor concentration in African and Black Diaspora studies provides students with a general knowledge about Africa and the movement of its people throughout the world.

**Course Requirements**

- ABD 100 INTRODUCTION TO AFRICAN AND BLACK DIASPORA STUDIES
- One course from the following list:
  - ABD 200 AFRICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS
  - ABD 206 AFRO-CARIBBEAN AND AFRO-LATIN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS
  - ABD 208 AFRICAN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS
- One 300 level course in an area of concentration
- One course from the following list:
  - ABD 391 CAPSTONE
  - Approved field elective
- Two ABD electives

Students majoring in African and Black Diaspora Studies (BA) are restricted from earning this minor.

---

**Allied Health Technologies (BS)**

If you are interested in the technological aspects of biosciences, DePaul's Allied Health Technologies program will provide you with a strong foundation in biology, chemistry and physics with a specific focus on scientific technology.

As an Allied Health Technologies student, you will take courses in

- Biology
- Chemistry
Courses taken at an external institution such as NMH are excluded from the university's employee tuition waiver benefit program.

<table>

**Learning Outcomes**

Students will be able to:

- Demonstrate a mastery of content within their chosen field of Biology.
- Describe the diversity of fields and approaches within Biology.
- Describe the relationships among Biology and other fields.
- Describe how the scientific process is used to determine and help resolve testable questions.
- Critically analyze scientific information.
- Design, and analyze the results of, a scientific experiment.
- Effectively communicate scientific information in both written and oral forms.

**College Core Requirements**

**Modern Language Requirements**

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.
Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

Notes

Students with a primary major in Allied Health Technologies are required to complete the Capstone offered by the BIO department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Allied Health Technologies are required to complete the Capstone offered by the BIO department. Allied Health Technologies students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Biological Sciences Courses
- BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS
Biology courses that fulfill the Scientific Inquiry Domain requirements, other than the General Biology sequence, do not generate credit toward the major.

**Chemistry Courses**

- CHE 130 GENERAL CHEMISTRY I and CHE 131 GENERAL CHEMISTRY I LABORATORY
- CHE 132 GENERAL CHEMISTRY II and CHE 133 GENERAL CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III and CHE 135 GENERAL CHEMISTRY LABORATORY III
- CHE 230 ORGANIC CHEMISTRY I and CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II and CHE 233 ORGANIC CHEMISTRY LABORATORY II
- CHE 234 ORGANIC CHEMISTRY III and CHE 235 ORGANIC CHEMISTRY LABORATORY III

First-year chemistry courses should be taken simultaneously with BIO 191, BIO 192, and BIO 193.

**Physics**

- PHY 150 GENERAL PHYSICS I
- PHY 151 GENERAL PHYSICS II

Students may take any comparable sequences of Physics courses designed for science majors.

**Mathematics**

Choose one of the following Calculus sequences

- **Sequence One**
  - MAT 150 CALCULUS I
  - MAT 151 CALCULUS II
- **Sequence Two**
  - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
  - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
- **Sequence Three**
  - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
  - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
- **Sequence Four**
  - MAT 170 CALCULUS FOR LIFE SCIENCES I
  - MAT 171 CALCULUS FOR LIFE SCIENCES II

Students may be advised on the basis of their performance on the Mathematics Diagnostic test to take one or more courses before calculus.

**Concentration Requirements**

Students must also complete the requirements from one of the following two concentrations: Clinical Laboratory Sciences or Nuclear Medicine Technology or Radiation Therapy. Students are limited to only declaring one concentration.

**Sequencing**

Since programs in the Biological Sciences tend to be structured, it is useful for students to take courses in sequence. Students should begin with the General Biology and Chemistry sequences. These are prerequisite to Cell Biology, Genetics, and Organic Chemistry, which should preferably be taken in the sophomore year. Since calculus is required, students should also begin their study of mathematics as soon as possible, preferably prior to their junior year, so that they can be adequately prepared for the General Physics sequence, best taken in the junior year. Because of this highly structured sequence, students are strongly encouraged to work with their Program Director in order to plan their course schedules and plan alternatives if necessary. Such planning is particularly important for transfer students, as the sequence presented above is highly recommended and most likely to be completed in a timely fashion.

The predominance of chemistry and biology sequences in the freshman and sophomore years generally dictates that, with the exception of the Liberal Studies Core courses, the majority of the Liberal Studies courses may be
postponed until the junior and senior years. Students therefore tend to take fewer Liberal Studies courses in the first two years, concentrating instead on major field requirements, which are prerequisites to upper division courses. For the Clinical Lab Sciences (CLS) concentration, students will complete their post-graduate (fifth year) internship at an associated hospital. For the Nuclear Medicine Technology (NMT) and Radiation Therapy (RT) concentrations, students apply to take the internship during their fourth year. Entry into the fifth year (CLS) and fourth year (NMT and RT) program is on a competitive basis.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:
- Clinical Laboratory Sciences
- Nuclear Medicine Technology or Radiation Therapy

Courses taken at an external institution such as NMH are excluded from the university's employee tuition waiver benefit program.

**Nuclear Medicine Technology or Radiation Therapy**

The Allied Health Technologies program has two concentrations that are offered in conjunction with Northwestern Memorial Hospital (NMH): Nuclear Medicine Technology or Radiation Therapy. These programs require three years of study at DePaul University and the fourth year, if accepted, at Northwestern Memorial Hospital. Entry into the fourth year is on a competitive basis. The three years of study at DePaul include 12 credits each of General Biology, General Chemistry and Organic Chemistry, and 8 credits each of Physics and Calculus. These concentrations will also include 72 credits of the required Liberal Studies Courses (The Junior Year Experiential Learning course is taken at Northwestern Memorial Hospital as part of a clinical practicum). One of the Liberal Studies Domain courses should be in speech or communications, and one should be in some field of ethics, preferably bioethics. Students interested in either of these concentrations should contact the Program Director for additional information guidelines.

**Biological Sciences Core**

- BIO 201 HUMAN ANATOMY
- BIO 215 ECOLOGY

**Northwestern Memorial Hospital Courses**

After the three year program of study at DePaul the student will apply to Northwestern Memorial Hospital (NMH) to take approximately 42 quarter hours of core study and practicum at the Hospital (4 credits count towards the Experiential Learning requirement), along with taking a 4 quarter Capstone course at DePaul. Students should be aware that entrance into the fourth year at NMH is on a competitive basis. If not accepted into the fourth year at NMH, students complete their degree in Biological Sciences at DePaul.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Clinical Laboratory Sciences

In the CLS concentration, you will complete your four year bachelor degree requirements at DePaul, followed by an independent one-year program at a hospital associated with DePaul (currently Evanston Hospital). After completing your degree, you will be eligible for national board certification by the Board of Registry of the American Society for Clinical Pathology and/or the National Certification Agency for Medical Lab Personnel. Entry into the one-year program is on a competitive basis. Admission is not guaranteed.

Course Requirements

Biological Sciences Core

- BIO 210 MICROBIOLOGY
- BIO 215 ECOLOGY or BIO 235 EVOLUTION
- BIO 370 IMMUNOBIOLOGY
- Three additional Biology courses, one of which must include a laboratory

Biology courses that fulfill the Scientific Inquiry Domain requirements, other than the General Biology sequence, do not generate credit toward the major.

Mathematics

Choose one additional course from a following Calculus sequence:

- Sequence One
  - MAT 152 CALCULUS III
- Sequence Two
  - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
- Sequence Three
  - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
- Sequence Four
  - MAT 172 CALCULUS III WITH DIFFERENTIAL EQUATIONS

Students may be advised on the basis of their performance on the Mathematics Diagnostic test to take one or more courses before taking calculus.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

American Politics (Minor)

A minor concentration in American Politics offers a survey of American political institutions and behavior. It provides an opportunity to explore in depth a specific topic of interest which complements an individual course of study.

Course Requirements

- PSC 120 THE AMERICAN POLITICAL SYSTEM
- Three 200-level courses from the following list:
  - PSC 213 POLITICAL SOCIALIZATION
  - PSC 214 POLITICS AND MULTICULTURALISM
American Sign Language (Minor)

The minor in American Sign Language at DePaul University provides students with a basic linguistic and cultural background, develops their creative and critical thinking skills, and helps to prepare them for a career in a multicultural world.

The minor consists of a total of 5 courses in American Sign Language at the 200/300-level.

American Studies (BA)

American Studies examines the breadth and diversity of the American experience. It is an interdisciplinary field that integrates the study of history, literature, popular culture, media, geography, politics, art, and religion in order to critically analyze American society, culture, institutions, and intellectual traditions. Students and faculty in American Studies question what constitutes American culture, and how cultural expressions reflect and reveal American values, beliefs, prejudices, pleasures, and perceptions.

American Studies courses are methodologically grounded in many different areas of cultural studies including...
media studies, material culture, visual literacy, critical race theory, and gender/sexuality studies. Students are expected to gain competency in American cultural studies by mastering the theoretical and intellectual frameworks of their concentrations and by learning to interpret and analyze primary documents.

Students in history, communication, anthropology, political science, sociology, English and other interdisciplinary programs find it beneficial to double major or minor in American studies. Students who pursue Americans Studies are well prepared for graduate work in the humanities as well as professional training in law or business, and most of our graduates go on to pursue post-graduate degrees.

## Learning Outcomes

1. Integrate a range of disciplinary approaches and methods into their written and oral projects;
2. Find, use, and synthesize primary source material from multiple disciplines (including but not limited to textual sources, material culture, visual culture, music, and popular culture);
3. Apply theories and methodologies drawn from cultural studies, cultural theory, or cultural criticism to their written and oral work;
4. Analyze an event, source, idea or person within its historical context;
5. Employ a critical framework to understand the meanings of diversity and intersectionality in American culture;
6. Analyze historical and/or contemporary manifestations of inequality in power, resources, and access;
7. Produce and communicate an interdisciplinary project that draws on primary and secondary source evidence to a broad audience.

## College Core Requirements

### Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The
number of courses required for a major varies by department. Most students go beyond the minimum
requirements, electing additional courses which both broaden and deepen their understanding of their chosen
discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives
of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic
advisor at each stage in the total program and at least once prior to each registration.
Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student
will then be assigned a faculty advisor in the major field department or program and should make an
appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the
purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in
the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than
English) equivalent to the proficiency attained from one year of college-level language study. This Modern
Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of
  any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any
  language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages
  website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and
  achieving a score of Beginner High or above (see the Department of Modern Languages website for
  registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR
  via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the
effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern
Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes
of the term in which the student is registered. Students in residence, whether attending on a full-time or part-
time basis, may not take courses away from DePaul University without the written permission of the college.
Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the
LAS website for more information.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- AMS 301 SENIOR SEMINAR * [See Note Below]

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)
Major Requirements

- Three Core Courses:
  - AMS 200 INTRODUCTION TO AMERICAN SOCIAL HISTORY AND CULTURE or one of the following:
    - AMS 275 HISTORY OF SEX IN AMERICA 1: COLONIAL TO LATE NINETEENTH CENTURY
    - AMS 276 HISTORY OF SEX IN AMERICA 2: LATE VICTORIANS TO THE PRESENT
    - HST 181 UNITED STATES TO 1800
    - HST 182 UNITED STATES, 1800-1900
    - HST 183 UNITED STATES, 1900-PRESENT
    - HST 240 HISTORY OF CHICAGO
    - HST 246 AFRICAN-AMERICAN HISTORY TO 1800
    - HST 247 AFRICAN-AMERICAN HISTORY, 1800-1900
    - HST 248 AFRICAN-AMERICAN HISTORY, 1900 TO PRESENT
    - HST 260 LESBIAN AND GAY AMERICAN HISTORY, COLONIAL TO 1970
    - HST 269 MUSEUMS, MATERIAL CULTURE AND MEMORY: INTRODUCTION TO PUBLIC HISTORY
    - HST 270 U.S. HISTORICAL LANDSCAPE
    - HST 275 SEX IN AMERICA, PURITANS TO VICTORIANS
    - HST 276 SEX IN AMERICA, LATE VICTORIANS TO PRESENT
    - HST 278 HISTORY OF AMERICAN RELIGION
    - HST 279 WESTWARD EXPANSION IN U.S.
Core Courses

Three courses - AMS 200 (or an approved AMS/HST course), AMS 201, and one additional approved course - form the foundation of the program and, ideally, should be completed in the sophomore or junior years. Seniors should plan to take the capstone senior seminar course, AMS 301, in the fall of their senior year.

Concentration Requirements

Students must also complete six courses in one of the following concentrations: Popular Culture and Media Studies; Social and Literary Movements; Politics, Institutions and Values; Comparative Race and Ethnic Studies; or Material Culture and the Built Environment.

Major Electives and Distribution Requirements

In consultation with an advisor, students will select three additional courses from outside of the concentration. For the concentration and the electives, no more than three courses for the major should be from any one department outside of AMS. Also, from among the concentration courses and elective courses at least 8 units should carry an AMS designator.

Senior Seminar

During the fall quarter of their senior year, students should take AMS 301 capstone, the Senior Seminar. Students will be sent instructions on how to prepare for the Senior Seminar by the Autumn Quarter instructor for the course.

NOTE: Students must earn a C- or better in this course. This course is waived for Honors students who are producing an Honors capstone thesis project and Double Majors when AMS is a student's secondary major AND the student's primary major offers capstone credit resulting in a thesis; in these cases AMS 301 must be replaced with a 300-level AMS course. Students seeking these exceptions must discuss with the AMS Program Director in advance.
Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Comparative Race and Ethnic Studies
- Material Culture and the Built Environment
- Politics, Institutions and Values
- Popular Culture and Media Studies
- Social and Literary Movements

Comparative Race and Ethnic Studies Concentration

American Studies has taken a central position in the analysis of American ethnicity and race. Early work in this area focused on the history and culture of specific groups, but as the field has developed, inquiry has turned to the theoretical and comparative analysis of race. Courses in this concentration encourage students to explore both the specificity and the diversity of race and ethnicity in American culture by taking some courses that focus on the experience of one racial or ethnic group and others that offer comparative perspectives.

Concentration Courses

Please note that the below list of possible courses is not exhaustive and that many courses listed under "TOPICS" headings may also count toward American Studies. Students may take an unlimited number of TOPICS courses, as long as the topic of each course is different.

Students must choose six courses from the following; however, exceptions may be granted by the Director of the American Studies Program. No more than three courses may be from any one department (AMS notwithstanding).

American Studies

- AMS 150 PERSPECTIVES ON AMERICA
- AMS 220 AMERICAN BUDDHISMS: RACE AND RELIGIOUS DIVERSITY
- AMS 230 ASIAN AMERICAN HISTORIES
- AMS 261 AMERICAN ETHNICITIES 1800-1945

- LST 309 SOCIAL ENGAGEMENT AND LATINO FAMILIES
Portfolio Requirement

Students are encouraged to maintain an active record of documents from their concentration courses, including syllabi, completed written course work, collections of visuals, e.g., photo essays -- whatever is appropriate to the six courses chosen for the concentration. Students will use these documents to aid them in writing reflective essays during the initial weeks of their senior seminar. These essays might ask you to consider “What were the course’s most valuable lessons in research, analysis, writing and communication? How did this course, taken together with the other courses you have chosen for your concentration, influence/develop your understanding of the area of American culture on which you are focusing?” These essays, along with representative assignments, will form the student’s American Studies “portfolio.” Students turn in their portfolio on the concentration, along with a proposal for the senior seminar project, in the first weeks of the senior seminar, AMS 301. Specific directions for the portfolio can be obtained from your American Studies advisor, from the American Studies Program office, or from the American Studies Program Director.
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Material Culture and the Built Environment Concentration

Students in this concentration study the complex interrelationships among the arts, craft, design, ideas, places, and social and cultural life in America. This concentration allows for the encyclopedic study of things in their historical context, drawing on methodologies and approaches from art and design history, economic history, history of technology, philosophy, anthropology, archaeology, and geography.

The curriculum combines two broad approaches: giving objects prime importance and placing objects in wider social and intellectual contexts. Some courses raise issues related to media, techniques, aesthetics, production and consumption, historiography, and theory, while others focus on the role objects and places play in people’s lives: the planning of parks, and gardens; the design of buildings, interiors, and furnishings; clothing; jewelry and body adornment; the material culture of food, decoration, and ornament; illustration and the graphic arts. Students will explore the ways in which Americans have been shaped by and have shaped their physical environments, from “nature” to the urban environment.

Concentration Courses

Please note that the below list of possible courses is not exhaustive and that many courses listed under “TOPICS” headings may also count toward American Studies. Students may take an unlimited number of TOPICS courses, as long as the topic of each course is different.

Students must choose six courses from the following; however, exceptions may be granted by the Director of the American Studies Program. No more than three courses may be from any one department (AMS notwithstanding).

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

---

**Politics, Institutions and Values Concentration**

Students in the Politics, Institutions, and Values concentration examine the structural and cultural processes that shape the distribution of power and resources, and supply the cultural meanings for U.S. society. Courses in this concentration explore a variety of American institutions and social processes, among them the political system, the economy, the educational system, the health care arena, the justice system and numerous other cultural and social spheres. Students will study the dynamic relations among these realms in courses ranging from traditional disciplines, like Political Science and Sociology, to those within interdisciplinary programs such as Women's and Gender Studies and, of course, American Studies.

This concentration particularly encourages students to choose courses that emphasize an historical perspective in order to better understand the interplay of individuals, social groups and subcultures as they shape and are shaped by various institutions over time. An historical perspective also allows for comparisons among traditional, modern and contemporary methodologies for conceptualizing American society. Ultimately, students in the Politics, Institutions and Values concentration should develop the critical skills with which to analyze the complexity of the conflicts among these institutions and processes and their diverse participants, among ruling elites, their members and outsiders, and between the official discourses and the complex real outcomes.

**Concentration Courses**

Please note that the below list of possible courses is not exhaustive and that many courses listed under "TOPICS" headings may also count toward American Studies. Students may take an unlimited number of TOPICS courses, as long as the topic of each course is different.

Students must choose six courses from the following; however, exceptions may be granted by the Director of the American Studies Program. No more than three courses may be from any one department (AMS notwithstanding).

Political Science
Throughout the concentration courses, students are required to maintain a “portfolio” which combines reflections on the courses with collections of course materials (syllabi, completed written course work, collections of visuals, e.g., photo essays -- whatever is appropriate to the six courses chosen for the concentration). The reflections on each course and then on the concentration overall should include responses to questions such as “What were the
course's most valuable lessons in research, analysis, writing and communication? How did this course, taken together with the other courses you have chosen for your concentration, influence/develop your understanding of the area of American culture on which you are focusing?” Students turn in their portfolio on the concentration, along with a proposal for the senior seminar project, in the first weeks of the senior seminar. Specific directions for the portfolio can be obtained from your American Studies advisor, from the American Studies Program office, or from the American Studies Program Director.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Popular Culture and Media Studies Concentration

The Popular Culture and Media Studies concentration in American Studies offers students an opportunity to explore the rich and complex role popular culture has played and continues to play in American life. In contrast to high culture or folk culture forms, "popular culture" generally refers to those commercialized leisure activities or arts that are broadly accessible to most Americans, either through their mass media production (music, radio, film, television, novels, newspapers, magazines, fashion) or wide availability (amusement parks, concerts, sports, Broadway shows, shopping malls, internet sites). Since the end of the nineteenth century, American culture has been defined through its popular arts, most obviously Hollywood films and television programs, and American popular culture and media products have had enormous effects on American identity.

Four broad sets of questions underpin our examination of American popular culture and media. First, what does our close examination of the formal elements of cultural products - their written and visual texts, their physical shapes and sounds - tell us about their specific cultural effects and meanings, both during the historical period in which they were produced and in the present? Second, how does examining the development processes and industrial histories of cultural products help us better understand their political, economic, technological, and social implications? Third, what does the reception of these products by audiences, either through live performances or mass media, tell us about their impact on the formation of American identities (gender, racial, sexual), values, and opinions? Finally, how does studying the history of American popular culture help us critically assess our current cultural politics and the role American popular culture continues to play in our understanding of ourselves as individuals, as members of social groups, and as national and international citizens?

In this concentration, students integrate courses from a number of disciplines, combining those that offer broad surveys of cultural development as well as close examinations of particular cultural products; students should also look for courses that offer a variety of methodological approaches to studying American popular culture.

Concentration Courses

Please note that the below list of possible courses is not exhaustive and that many courses listed under “TOPICS” headings may also count toward American Studies. Students may take an unlimited number of TOPICS courses, as long as the topic of each course is different.

Students must choose six courses from the following; however, exceptions may be granted by the Director of the American Studies Program. No more than three courses may be from any one department (AMS notwithstanding).

Specific directions for the portfolio can be obtained from your American Studies advisor, from the American Studies Program office, or from the American Studies Program Director.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Social and Literary Movements Concentration

The Social and Literary Movements concentration focuses upon two areas of study: major cultural products by the principal novelists, philosophers, poets, political and religious thinkers, historians, artists, musicians and intellectuals in American history; and major cultural movements which have shaped the world view and attitudes of literate Americans in American history.

In the first area of focus, a heavy emphasis will be given to individual creative work, its form and content, its specific antecedents and influences as well as its later impact, and the cultural and philosophical implications of the document itself. The relationship between each work and larger trends of the period, both cultural and social, will also be explored.

In the second field of study, the focus will be upon broader cultural movements which are diffused through the larger literate society, which include major cultural documents as well as popular expressions of these ideas,
beliefs and attitudes. Thus, the focus here is on the cultural reception and diffusion of ideas, the relation between innovative movements and mainstream belief systems and attitudes, and the nature and direction of cultural exchange.

**Concentration Courses**

Please note that the below list of possible courses is not exhaustive and that many courses listed under "TOPICS" headings may also count toward American Studies. Students may take an unlimited number of TOPICS courses, as long as the topic of each course is different.

**History**

- HST 243 HISTORY OF THE CATHOLIC CHURCH IN THE U.S.
Students are encouraged to maintain an active record of documents from their concentration courses, including syllabi, completed written work, collections of visuals, e.g., photo essays -- whatever is appropriate to the six courses chosen for the concentration. Students will use these documents to aid them in writing reflective essays during the initial weeks of their senior seminar. These essays might ask you to consider "What were the course's most valuable lessons in research, analysis, writing and communication?" How did this course, taken together with the other courses you have chosen for your concentration,
influence/develop your understanding of the area of American culture on which you are focusing? These essays, along with representative assignments, will form the student’s American Studies “portfolio.” Students turn in their portfolio on the concentration, along with a proposal for the senior seminar project, in the first weeks of the senior seminar, AMS 301. Specific directions for the portfolio can be obtained from your American Studies advisor, from the American Studies Program office, or from the American Studies Program Director.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

American Studies (Minor)

The American Studies minor offers a course of study on what constitutes American culture and how cultural expressions reflect and reveal American values, beliefs and perceptions.

Course Requirements

- AMS 200 INTRODUCTION TO AMERICAN SOCIAL HISTORY AND CULTURE (or one of the following)
  - HST 181 UNITED STATES TO 1800
  - HST 182 UNITED STATES, 1800-1900
  - HST 183 UNITED STATES, 1900-PRESENT
  - HST 240 HISTORY OF CHICAGO
  - HST 246 AFRICAN-AMERICAN HISTORY TO 1800
  - HST 247 AFRICAN-AMERICAN HISTORY, 1800-1900
  - HST 248 AFRICAN-AMERICAN HISTORY, 1900 TO PRESENT
  - HST 260 LESBIAN AND GAY AMERICAN HISTORY, COLONIAL TO 1970
  - HST 269 MUSEUMS, MATERIAL CULTURE AND MEMORY: INTRODUCTION TO PUBLIC HISTORY
  - HST 270 U.S. HISTORICAL LANDSCAPE
  - HST 275 SEX IN AMERICA, PURITANS TO VICTORIANS
  - HST 276 SEX IN AMERICA, LATE VICTORIANS TO PRESENT
  - HST 278 HISTORY OF AMERICAN RELIGION
  - HST 279 WESTWARD EXPANSION IN U.S.
  - HST 283 ASIAN-AMERICAN IMMIGRATION AND HISTORY, 1840-1965
  - HST 284 HISTORY OF EDUCATION IN THE UNITED STATES
  - HST 288 WOMEN IN UNITED STATES HISTORY
  - HST 295 AMERICAN HISTORY ON FILM

- AMS 201 INTRODUCTION TO CRITICAL AMERICAN STUDIES

- Four US topic courses (American Studies electives) one of which must have an AMS prefix

Students majoring in American Studies (BA) are restricted from earning this minor.

Animation (BA)

The BA in Animation focuses on 3D modeling and animation, hand-drawn animation, motion graphics, and stop-motion animation for game development, cinema, TV and interactive media.

Learning Outcomes

Students will be able to:

- Demonstrate a solid foundation in design and traditional studio art, and will be able to use these skills in order to communicate effectively through visual means;
- Demonstrate knowledge of the history of animation through written critical evaluation of animated films and be able to analyze work in a historical context;
- Create work in a variety of animation techniques including hand-drawn, 3D animation, stop-motion and experimental methods;
- Implement the use of storyboarding, animatics, and essential pre-production techniques to develop a film concept;
- Discuss learning experiences across disciplines in the University and establish connections to their own animation practices;
- Utilize their skills to produce a number of animated films culminating in a thesis animation in the media of their choosing.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

    o ART 200 ART & ARTISTS IN CONTEMPORARY CULTURE
  • 1 Additional Course

Philosophical Inquiry

  • 2 Courses Required
    (See note below)

Religious Dimensions

  • 2 Courses Required
    (See note below)

Scientific Inquiry

  • 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry

  • 3 Courses Required

Understanding the Past

  • 2 Courses Required

* Students must earn a C- or better in this course.

Note

Students must take one of the following ethics courses: CSC 208 (PI), DC 228/GAM 228/IT 228 (PI), PHL 248/MGT 248 (PI), REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is
cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or Science as a Way of Knowing requirement.

- ANI 394 ANIMATION PROJECT I
- ANI 395 ANIMATION PROJECT II
- 5 Liberal Studies
- 4 Open Electives

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs. Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisors. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferment for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.
Animation (BFA)

The BFA in Animation provides students with a solid foundation in the art of animation and its history combined with insight into the latest techniques used in the rapidly-moving fields of high end 3D animation in the film, television, and game development industries.

Concentrations

Cinema Concentration

The technically demanding art of modern 3D character animation is grounded in the core fundamentals of animation mechanics, visual storytelling and acting. Right from the start, students in the Cinema Animation concentration gain hands-on experience bringing digital characters to life. They are given in-depth instruction in the most up-to-date software and technology available, including motion capture and green screen, but the emphasis is always on creativity, experimentation and expression.

Game Art Concentration

Becoming a game development artist requires a solid foundation in animation, visual design principles, color theory, and drawing. Students in the Game Art concentration also receive in-depth instruction in the latest advanced game modeling and animation technology and practices, including motion capture, rigging and digital sculpting. They learn about real-world problem-solving, team dynamics, and pipeline requirements while working alongside programmers and game designers on cross-disciplinary game development projects.

| Liberal Studies Requirements | 52 hours |
| Major Requirements           | 136-138 hours |
| Open Electives               | 18-20 hours |
| **Total hours required**     | **208 hours** |

Learning Outcomes

Students will be able to:

- Demonstrate a solid foundation in design and traditional studio art, and will be able to use these skills in order to communicate effectively through visual means.
- Demonstrate knowledge of the history of animation through written critical evaluation of animated films and be able to analyze work in a historical context.
- Acquire animation skills necessary for careers in game development, 3D and 2D animated films, television or effects animation.
- Implement the use of storyboarding, animatics, and essential pre-production techniques to develop a film concept.
- Develop research practices as a foundation for their own art and design.
- Utilize their skills to produce a number of animated films culminating in a thesis animation in the media of their choosing.

- ANI 344 VISUAL DESIGN FOR GAMES
- GAM 392 GAME MODIFICATION WORKSHOP
- 2 Liberal Studies
- 1 ART Elective
- 4 Focus Area Electives

Fourth Year

- ANI 375 DEMO REEL AND PORTFOLIO WORKSHOP
- Project Sequence (Choose one):
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs. Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses
may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

**Designing a Course of Study**

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

**Registering for Master's Degree Courses**

Combined degree students must meet regularly with their faculty advisors. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

**Bachelor's Degree to Master's Degree Transition**

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

---

**Animation (Minor)**

The minor in Animation at DePaul emphasizes solid traditional animation and storytelling skills, while encouraging experimentation in form, content and medium.

**Course Requirements**

- ANI 101 ANIMATION FOR NON-MAJORS
- or ANI 201 ANIMATION I
- ANI 206 HISTORY OF ANIMATION
- 20 credit hours from the following list of courses (at least 3 must be ANI courses):
  - Any ANI course
  - DC 201 INTRODUCTION TO SCREENWRITING
  - DC 210 DIGITAL CINEMA PRODUCTION I
  - DC 220 EDITING I

Students majoring in Animation (BA), Animation (BS), or Animation (BFA) are restricted from earning this minor.
Anthropology (BA)

Anthropology is the comparative study of humanity, focusing on people in all places and throughout history and prehistory. Courses engage students in the analysis of beliefs, values, and practices from a perspective that understands societies on their own terms. This perspective includes comparing the similarities and differences among different groups and appreciating and valuing different ways of living. Students study other cultures in order to learn more about their own. This curriculum affords students the opportunity to see the interaction between “what we know” and “what we do” that lies at the heart of the study of humanity.

Our curriculum combines the best parts of a critical, creative, liberal arts education with practical, professional preparation. The major courses direct the student toward the subfields of cultural anthropology, biological anthropology and archaeology, with a focus on applied research in these sub-fields. As part of the major, students engage in several research projects, including those that expose them to the application of anthropological knowledge for non-academic audiences, and to archaeological field methods. Out-of-class research projects in the City of Chicago are integral components of several courses. They graduate with an extensive knowledge of how anthropology is actually done. We bring students farther into this practical side of the discipline than any other B.A. program in the country.

Academic careers are attractive to some graduates, but more than half of all professional anthropologists work outside of academic institutions. Some of these careers include research for public and private organizations, administration and/or public policy on the local, regional, federal, or international level; research and work in museums; intercultural communication; advertising, marketing, and public relations; human resources, public health, health care, and law. They also contribute to non-governmental and international organizations. Within the context of administration or public policy, anthropologists are engaged in cultural resource management (CRM), monitoring the preservation of cultural resources for national parks, museums, and state or municipal cultural institutions (i.e., parks and historical societies). Anthropology enhances other career paths, such as modern languages, international studies, international relations, cultural studies, and international business. Students will have completed at least four ethnographic research projects and be qualified in archaeological research skills by the time they graduate.

The extensive ethnographic research experience qualifies students with B.A. degrees to work in both non-profit (social service agencies) and for-profit (marketing, design, user-based) research settings. The archaeological certification opens avenues for careers in cultural resource management (CRM), and monitoring the preservation of cultural resources for national parks, museums, and state or municipal cultural institutions.

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Describe and discuss their own value system in relation to those of others, critique evidence in support of the Boasian position that race, culture and language are not mutually determinant.
- Explain and apply uses of anthropology across a variety of profit and not for profit settings in contemporary society.
- Identify and explain how anthropology may be used explicitly to affect social change.
- Conduct ethnographic projects that exhibit a mastery of methodology.
- Students can apply the language of everyday encounters, and write at least two ethnographic project reports for a non-academic public.
- Write narratives that utilize first-person accounts in archival records to reconstruct the development of past colonial relationships.
- Discuss and describe in depth at least one regional experience outside Anglophone North America, as well as explain in depth anthropological literature on urban life and information on Chicago’s archaeological
past.

- Write about connections in the history of ideas in 20th century culture theory.
  - Draw connections in archaeological practice to culture theory, in biosocial anthropology to culture theory, in linguistic anthropology to culture theory, and in ethnohistory to culture theory.
- Discuss in depth at least one area of contemporary research in the field of anthropology.
  - Interpret and critique in written and oral form specific ethnographic literatures.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the
effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

---

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

**Focal Point**

- LSP 112 FOCAL POINT SEMINAR

**Writing**

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

**Quantitative Reasoning & Technological Literacy**

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

**Sophomore Year**

**Multiculturalism in the US**

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

---

**Junior Year**

**Experiential Learning**

- Required
Senior Year

Capstone

- ANT 396 SENIOR CAPSTONE SEMINAR * [See Note Below]

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 1 Course Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student majoring in Anthropology (ANT) is required to complete the Capstone offered by the ANT Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An ANT major in the University Honors Program shall take the University Honors Capstone and the ANT Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Major Requirements

Course Requirements

- One of the following courses:
  - ANT 102 CULTURAL ANTHROPOLOGY
  - ANT 103 ARCHAEOLOGY
  - ANT 104 INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY
  - ANT 105 ANTHROPOLOGY THROUGH FILM
  - ANT 107 THE CULTURE OF BUSINESS
  - ANT 109 FOOD AND CULTURE
  - ANT 120 SCIENCE OF ARCHAEOLOGY
- ANT 201 ETHNOGRAPHIC RESEARCH METHODS
- ANT 202 ARCHAEOLOGICAL FIELD METHODS
- ANT 203 PROFESSIONALISM AND ETHICS IN ANTHROPOLOGY
- ANT 204 LINEAGES OF CULTURE THEORY
- ANT 386 CULTURAL ANALYSIS
- ANT 396 SENIOR CAPSTONE SEMINAR
- One of the following courses:
  - ANT 322 COMMUNITY-BASED APPLIED PRACTICE
  - ANT 328 INTERNATIONAL APPLIED PRACTICE
  - ANT 330 CLIENT-BASED APPLIED PRACTICE
- Five 200/300 level ANT courses (100 level courses do not count as electives unless approved by the chair)

Allied Field Requirement

Anthropological research makes extensive use of language skills because of the opportunity it presents for cultural learning. Students are encouraged to study at least one language to the point of functional fluency, if they wish to become professional anthropologists. The minimum requirement for the major is completion of a language-based study abroad program of ten or more weeks duration. If the student is unable to participate in such a program, they can complete the requirement by studying the language with coursework through the end of the second year (Courses numbered 106). Study abroad programs at other universities may be used as long as half of the credit earned in is language-based courses. Depending on previous course work, students may place out of the requirement entirely by scoring high on the university's placement exam. Heritage speakers of a language other than English must also take the university's test. For languages for which no test is available, consult the chair of the Modern Languages department. Even when the minimum of the language requirement is met, all majors are strongly encouraged to participate in a study abroad program that allows them to live in a community where English is not spoken and to seeks instruction in a third or fourth language.

Experiential Learning and Senior Capstone

Majors in anthropology are expected to fulfill their junior year experiential learning (JYEL) and senior capstone (SC) requirements with ANT 322 and ANT 396 respectively. Both of these courses are recognized by the Liberal Studies Council as fulfilling these requirements. Students may take other junior year experiential learning and senior capstone courses, but are still required to take these two courses (or designated alternatives) to fulfill the major with the permission of the department chair. When students take ANT 322 to fulfill the JYEL requirement they must take an additional course in a liberal studies learning domain of their choice.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Anthropology (BA)/Secondary Education Social Science (MEd)

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 412 THE NATURE OF HISTORY AND THE SOCIAL SCIENCES
- TCH 422 INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY

Social Science Content Area (grades of C or better required for licensure):
The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS
- HST 299 CRAFT OF HISTORY
- 3 United States History courses
- 2 Non- United States History courses
- 6 from the anthropology major
- Additional licensure requirements: (one course in each area required)
  - Geography (GEO 101 recommended)
  - Economics (ECO 101 recommended)
  - Political Science (PSC 120 recommended)
  - Psychology (PSY 105 recommended)
  - Sociology (SOC 101 recommended)

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Social Sciences at the 6th-12th grade levels.

A full description of the Program can be found on the College of Education website in the graduate course catalog. Students interested in the Program should consult with the designated TEACH Program advisor in their home department.

Anthropology (Minor)

The minor in Anthropology is intended to give you an overview of the discipline. You will study beliefs, values and practices of various cultures and will compare similarities and differences among diverse groups.
Course Requirements

- ANT 102 CULTURAL ANTHROPOLOGY
- ANT 103 ARCHAEOLOGY
- ANT 104 INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY
- Any three additional courses from the anthropology curriculum for which the student has the prerequisites, including at least one 200-level and one 300-level course.

Students majoring in Anthropology (BA) or minoring in Archaeology are restricted from earning this minor.

Applied Behavioral Sciences (BA)

An accelerated, inter-disciplinary, 2-year degree completion program for adult students, the ABS major is offered at the Loop and Naperville campuses, requiring only one on-site class each week. The remaining courses are offered online.

This course-based major is for graduates of community colleges with an Associate's degree who seek broad interdisciplinary preparation for a career in human services, social work, nonprofit management and other related fields.

Students must meet the following conditions to be admitted to the program:

- Be age 24 or older.
- Have a GPA of 2.0 or higher from their last college/university attended.
- Have completed an Associate in Arts or an Associate in Science (from IL schools; other degrees to be evaluated), or have earned 66 semester credit hours, applicable to the program based on review and evaluation.

The major combines courses from the Department of Psychology, the College of Communication, and the School for New Learning, which offers the majority of courses, including a unique series of Adult Learning Seminars. The courses in the major provide students with multiple perspectives on human behavior, interaction and communications.

Learning Outcomes

Students will be able to:

- Demonstrate knowledge of major theoretical traditions within psychology and related social sciences and analyze their shaping effects on key subject matter areas within those disciplines.
- Analyze the effectiveness of major mental health treatment models across the human life course.
- Understand and appreciate the complexities of human communication and how these dynamics impact life in relationships, groups, organizational and cultural settings.
- Interpret basic statistical results from social science research and be able to evaluate their validity.
- Demonstrate writing skills appropriate to college graduates with a special emphasis on writing in the disciplines.
• Apply and analyze all central elements of scientific research methods, including a framework for evaluating ethical decisions in research and protecting human and animal subjects.
• Understand and appreciate the role of psychological phenomena in social, community and organizational contexts.
• Apply the elements of logical, critical thinking in the development of work-based models of negotiation and leadership.

Program Requirements

There are 93 quarter hours required for this degree, as follows:

Understanding Human Behavior (4 courses equaling 16 credit hours)

- CMNS 329 PERSUASION
- PSY 347 SOCIAL PSYCHOLOGY
- PSY 363 ALCOHOLISM, DRUG ADDICTION AND RECOVERY
  or DCM 333 ADDICTIONS AND RECOVERY
- DCM 307 ANALYZING HUMAN BEHAVIOR

Life Cycle in Context (2 courses equaling 8 credit hours)

- DCM 323 THE PSYCHOLOGY OF AGING AND THE AGED
- PSY 302 PERSONAL ADJUSTMENT AND MENTAL HEALTH

Community and Social Justice (3 courses equaling 12 credit hours)

- DCM 304 EVOLVING PROFESSIONAL ETHICS
- DCM 325 WORK & SOCIETY
- PSY 354 COMMUNITY PSYCHOLOGY or PSY 353 ABNORMAL PSYCHOLOGY

Methods (3 courses equaling 12 credit hours)

- DCM 306 PRODUCTIVE APPLICATIONS OF WORK BASED INFORMATION TECHNOLOGY
- DCM 308 INTRODUCTION TO STATISTICS
- DCM 309 APPLIED RESEARCH

Effective Workplace Dynamics (3 courses equaling 12 credit hours)

- ORGC 316 COMMUNICATION AND GROUP DECISION-MAKING
- ORGC 353 COMMUNICATION AND ORGANIZATIONAL CHANGE
- DCM 324 EFFECTIVE GROUP AND PERSONAL DYNAMICS

Leadership Theories and Skills (3 courses equaling 12 credit hours)

- DCM 310 THINKING CRITICALLY
- DCM 311 CONFLICT MANAGEMENT AND NEGOTIATION
- DCM 303 LEADERSHIP MODELS FOR STRONG ORGANIZATIONS

Adult Learning Seminars (10 courses equaling 21 credit hours)

- DCM 313 LEARNING FROM EXPERIENCE AND SELF-ASSESSMENT
- DCM 314 LEARNING AND TRANSFORMATION
- DCM 315 EXPLORING THE FIELD
- DCM 316 WORK IN A GLOBAL ENVIRONMENT
- DCM 317 ETHICS IN THE PROFESSIONS
- DCM 318 SOCIAL JUSTICE IN THE PROFESSIONS
- DCM 319 CREATIVITY AND INNOVATIVE THINKING
- DCM 320 PROFESSIONAL PORTFOLIO DEVELOPMENT
Electives

Additional elective credit may be required to meet the minimum graduation requirement of 192 quarter hours (128 semester hours).

Arabic Language (Minor)

An Arabic Language minor will provide intermediate proficiency in Arabic. Arabic is considered by the United States government as one of the critical languages for Americans to learn.

The minor will consist of a total of 5 courses in Arabic language at the 200/300-level.

Students majoring in Arabic Studies (BA) or minoring in Arabic Studies are restricted from earning this minor.

Arabic Studies (BA)

Through DePaul's Arabic Studies program, students will develop the ability to speak, understand, read and write the Arabic language and will be encouraged to foster an appreciation of Islamic literature and civilization.

Studying Arabic will expand the student's knowledge of the Middle East and of the culture of more than one billion Arabs across the globe. While learning the Arabic language, the student will also learn about Arab cultural, religious and political forces.

The Arabic language is one of the United Nations' six official languages, and the U.S. Government considers it one of the most critical languages for Americans to learn. Chicago has one of the nation's largest Arab-American populations in the U.S., giving the student opportunities to visit its communities and gain first-hand knowledge about the Arab culture and language.

What can the student do with this degree?

- Consulting
- Education
- Governmental Agency Work
- Immigration Services
- International Business
- Non-Profit Work
- Public Administration
- Public Policy
- Translation Services

Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information
  - Express feelings and emotions.
  - Exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of
any language (e.g. 103 for DePaul language classes)
• completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
• completing the final course of a four-year sequence of the same modern language in high school*
• completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
• completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

Senior Year

Capstone
- Required *

Learning Domains

Arts and Literature (AL)
- 1 Course Required

Philosophical Inquiry (PI)
- 2 Courses Required

Scientific Inquiry (SI)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)
- 3 Courses Required

Religious Dimensions (RD)
- 2 Courses Required

Understanding the Past (UP)
- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy
Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

**Major Requirements**

**Course Requirements**

- 24-32 credit hours of 200/300 level courses in Arabic Language
- 20-28 credit hours of Allied Courses from at least three different departments

Students who begin their study of Arabic at DePaul with ARB 202 or higher may substitute a 300-level Arabic elective course for any of the required 200-level courses.

MOL 340, MOL 341, and MOL 342 are specifically designed to help Arabic Studies students better understand the Arabic-speaking world. Students are highly recommended to take at least two of the three MOL Arabic-related courses that we offer.

- MOL 340 ARAB CULTURE
- MOL 341 MEDIA IN THE ARAB WORLD
- MOL 342 MODERN ARABIC LITERATURE IN TRANSLATION

**Arabic Studies Allied Course List**

**Anthropology**

- ANT 240 CULTURES OF THE MIDDLE EAST

Women's and Gender Studies

• WGS 307 WOMEN IN THE MIDDLE EAST: BEYOND THE VEIL

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Arabic Studies (Minor)

Through DePaul's Arabic Studies minor, students will develop a basic grasp of the Arabic language and gain an overview of Islamic literature and civilization.

Course Requirements

• Three quarters of college-level Arabic language (at any level).
• Five additional courses focusing on the Arab world from at least two different disciplines, chosen in consultation with an advisor or faculty member, from the current approved Arabic Studies Allied Course
Arabic Studies Allied Course List

Anthropology
- ANT 240 CULTURES OF THE MIDDLE EAST

Archaeology (Minor)

The Archaeology minor provides students with an intensive grounding in both the methods and narratives of prehistoric and historic archaeology. Students are required to complete six courses (24 credit hours).

Course Requirements

- ANT 103 ARCHAEOLOGY
  or ANT 120 SCIENCE OF ARCHAEOLOGY
- ANT 202 ARCHAEOLOGICAL FIELD METHODS
  or comparable field methods course (ANT 384 ARCHAEOLOGICAL ANALYSIS)
- ANT 206 WORLD PREHISTORY

To complete the minor students may choose three electives from the following list:
  - ANT 250 MATERIAL CULTURE OF MODERN AMERICA
  - ANT 252 MATERIAL CULTURE AND DOMESTIC LIFE
  - ANT 254 HISTORICAL ARCHAEOLOGY OF CHICAGO
  - ANT 256 MATERIAL CULTURE OF THE OLD WORLD
  - ANT 358 ARCHEOLOGY OF CITIES
  - ANT 374 ANTHROPOLOGY AND MUSEUMS
  - ANT 384 ARCHAEOLOGICAL ANALYSIS
  - Any ANT 390 SPECIAL TOPICS IN ANTHROPOLOGY course focusing primarily on archaeology.

Non-anthropology courses that apply as electives for the minor include: AMS 370, HST 290, HST 291, HST 294, and/or HST 296

Students majoring in Anthropology (BA) or minoring in Anthropology are restricted from earning this minor.

Art, Media, and Design (BA)

The BA in Art, Media, and Design offers a general curriculum which identifies and promotes continuing contact with the enduring values of our artistic heritage and the application of these values to the future. The educational aim of the department is to provide, through individualized instruction, a broad foundation in studio art practice. The curriculum emphasizes fundamental artistic concepts through problem solving and experimentation in studio courses.

Three areas of concentration are offered: 1) A Studio Art concentration designed to develop artistic skills and abilities in painting, drawing, sculpture, printmaking, and digital imaging; 2) A Photography and Media Art
concentration designed to develop artistic skills and abilities in photography, digital photography, video, and web art; and 3) A Graphic Art concentration designed to develop artistic skills and abilities in primarily two-dimensional intermedia forms, focusing on the following areas: photography, drawing, printmaking, text, digital imaging, web art, the graphic novel, and the artist book and poster.

**Learning Outcomes**

Students will be able to:

- Demonstrate a high degree of competency of technical execution appropriate to their chosen medium.
- Produce work that demonstrates the social, visual, psychological and/or aesthetic components of art making.
- Differentiate between artistic styles and the diverse populations and communities from which works of art are made.
- Express their thoughts and opinions in critiques, written assignments and through their artwork.
- Produce work that demonstrates their ability to take creative and intellectual risks.
- Integrate the ways in which their materials, techniques, and subjects generate meaning.
- Understand the place of art making in a global context that connects with other disciplines.
- Define themselves as professional artists who contribute to their communities with their creative work.

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration. Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO
Focal Point
- LSP 112 FOCAL POINT SEMINAR

Writing
- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy
- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II

Sophomore Year

Multiculturalism in the US
- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning
- Required

Senior Year

Capstone
- ART 392 SENIOR STUDIO SEMINAR * [See Note Below]

Learning Domains

Arts and Literature (AL)
- 1 Course Required

Philosophical Inquiry (PI)
- 2 Courses Required

Scientific Inquiry (SI)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)
- 3 Courses Required

Religious Dimensions (RD)
- 2 Courses Required

Understanding the Past (UP)
- 2 Courses Required

* Students must earn a C- or better in this course.

Notes
A student majoring in Art, Media, and Design (AMD) is required to complete the Capstone offered by the AMD Department. This is
the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An AMD major in the University Honors Program shall take the University Honors Capstone and the AMD Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

- ART 101 DIGITAL TOOLS FOR VISUAL THINKERS
- ART 105 TWO-DIMENSIONAL FOUNDATIONS
- ART 106 BEGINNING DRAWING
- One course from the following list:
  - ART 113 THREE DIMENSIONAL FOUNDATIONS
  - ART 114 FOUR DIMENSIONAL FOUNDATIONS
- ART 200 ART & ARTISTS IN CONTEMPORARY CULTURE

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Studio Art, Photography and Media Art, or Graphic Art.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Graphic Art
- Photography and Media Art
- Studio Art
Studio Art Concentration

Course Requirements

- ART 110 BEGINNING PAINTING
- ART 115 BEGINNING SCULPTURE
- ART 205 COLOR THEORY AND APPLICATION
- ART 206 INTERMEDIATE DRAWING
  or ART 218 FIGURE DRAWING
- ART 210 INTERMEDIATE PAINTING I
  or ART 245 PAINTING: MIXOLOGY
- ART 215 INTERMEDIATE SCULPTURE
  or ART 219 BEGINNING FIGURE SCULPTURE
- One Art History elective from the following list:
  - HAA 240 ART FROM 1900-1945
  - HAA 242 ART FROM 1945 - 1975
  - Other Art History course based on approval of Advisor
- ART 395 SPECIAL TOPICS IN STUDIO PRACTICE (any section)
- One 200/300 level ART elective
- One 300 level ART elective
- ART 392 SENIOR STUDIO SEMINAR (Senior Capstone LA&S Requirement, offered Spring Quarter only)
- ART 394 PROFESSIONAL PRACTICE IN THE STUDIO (offered Winter Quarter only)

Area of Specialty

Choose three courses from one of the following specialties:

Drawing and Painting

- ART 218 FIGURE DRAWING
  or ART 206 INTERMEDIATE DRAWING
- ART 229 BEGINNING PRINTMAKING
- ART 245 PAINTING: MIXOLOGY
  or ART 210 INTERMEDIATE PAINTING I
- ART 306 ADVANCED DRAWING
- ART 318 ADVANCED FIGURE DRAWING
- ART 310 ADVANCED PAINTING I
- ART 311 ADVANCED PAINTING II
- ART 312 FIGURE PAINTING
- ART 324 INTERMEDIATE PRINTMAKING I

Sculpture

- ART 215 INTERMEDIATE SCULPTURE
  or ART 219 BEGINNING FIGURE SCULPTURE
- ART 217 ADVANCED THREE-DIMENSIONAL DESIGN
- ART 309 DIGITAL SCULPTURE
- ART 313 PERFORMANCE/INSTALLATION ART
- ART 315 ADVANCED SCULPTURE
- ART 317 ADVANCED FIGURE SCULPTURE
- ART 395 SPECIAL TOPICS IN STUDIO PRACTICE: Kinetic Sculpture or other related rotational topics
- HON courses with approval of the Advisor or Chair

Digital Imaging in Studio Art

- ART 114 FOUR DIMENSIONAL FOUNDATIONS
  or ART 113 THREE DIMENSIONAL FOUNDATIONS
- ART 224 BEGINNING DIGITAL PHOTOGRAPHY
- ART 226 VIDEO ART
- ART 260 INTERMEDIA STUDIO
- ART 245 PAINTING: MIXOLOGY
- ART 264 TEXT IN THE VISUAL ARTS
  or GD 230 TYPOGRAPHY
Graphic Art Specialty

- ART 224 BEGINNING DIGITAL PHOTOGRAPHY
- or ART 225 BEGINNING PHOTOGRAPHY
- ART 264 TEXT IN THE VISUAL ARTS
- ART 324 INTERMEDIATE PRINTMAKING I
- ART 332 TOPICS IN PHOTOGRAPHIC PRACTICE
- ART 334 PORTFOLIO
- ART 348 GRAPHIC ART IN THE PUBLIC REALM
- ART 358 GRAPHIC ART
- ART 359 PRINT MEDIA

Please note: ART 104 Creating Art is not acceptable for major credit.

Prerequisites may be waived with the permission of the instructor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Photography and Media Art Concentration

Course Requirements

- ART 118 THINKING PHOTOGRAPHY
- ART 205 COLOR THEORY AND APPLICATION
- ART 224 BEGINNING DIGITAL PHOTOGRAPHY
- ART 225 BEGINNING PHOTOGRAPHY
- One Art History course from the following list:
  - HAA 239 19TH CENTURY EUROPEAN ART
  - HAA 240 ART FROM 1900-1945
  - HAA 242 ART FROM 1945 - 1975
  - HAA 265 HISTORY OF PHOTOGRAPHY
  - or other HAA course based on approval of advisor.
- One 200/300 level ART elective
- One 300 level ART elective
- Two ART electives, any level
- ART 395 SPECIAL TOPICS IN STUDIO PRACTICE (any section)
- ART 392 SENIOR STUDIO SEMINAR (Senior Capstone LSP Requirement, offered Spring Quarter only)
- ART 394 PROFESSIONAL PRACTICE IN THE STUDIO (offered Winter Quarter only)

Area of Specialty

Choose three courses from one of the following specialties:

Photography Specialty

- ART 323 INTERMEDIATE PHOTOGRAPHY
- ART 325 ADVANCED PHOTOGRAPHY PROJECTS
- Choose one course from the following list:
  - ART 289 EXPERIMENTAL VIDEO ART
  - ART 328 DOCUMENTARY PHOTOGRAPHY
  - ART 332 TOPICS IN PHOTOGRAPHIC PRACTICE
Digital Photography Specialty

- ART 321 INTERMEDIATE DIGITAL PHOTOGRAPHY
- ART 329 ADVANCED DIGITAL PHOTOGRAPHY
- Choose one course from the following list:
  - ART 226 VIDEO ART
  - ART 289 EXPERIMENTAL VIDEO ART
  - ART 325 ADVANCED PHOTOGRAPHY PROJECTS
  - ART 326 SPECIAL TOPICS IN EXPERIMENTAL VIDEO ART
  - ART 328 DOCUMENTARY PHOTOGRAPHY
  - ART 332 TOPICS IN PHOTOGRAPHIC PRACTICE

Intermedia Specialty

- ART 226 VIDEO ART
- ART 260 INTERMEDIA STUDIO
- ART 264 TEXT IN THE VISUAL ARTS
- ART 289 EXPERIMENTAL VIDEO ART
- ART 326 SPECIAL TOPICS IN EXPERIMENTAL VIDEO ART
- ART 332 TOPICS IN PHOTOGRAPHIC PRACTICE
- ART 358 GRAPHIC ART
- ART 385 WEB ART & DESIGN I
- ART 386 WEB ART & DESIGN II
- ANI 201 ANIMATION I

Graphic Art Specialty

- ART 264 TEXT IN THE VISUAL ARTS
- ART 321 INTERMEDIATE DIGITAL PHOTOGRAPHY
  or ART 323 INTERMEDIATE PHOTOGRAPHY
- ART 324 INTERMEDIATE PRINTMAKING I
- ART 332 TOPICS IN PHOTOGRAPHIC PRACTICE
- ART 334 PORTFOLIO
- ART 348 GRAPHIC ART IN THE PUBLIC REALM
- ART 358 GRAPHIC ART
- ART 359 PRINT MEDIA

Please note: ART 104 is not acceptable for major credit.
Prerequisites may be waived with the permission of the instructor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

- ART 395 SPECIAL TOPICS IN STUDIO PRACTICE (Kinetic Sculpture or other rotational topics)
- HON courses with approval of advisor or Chair

Art History Elective

One course from the following list:

- HAA 239 19TH CENTURY EUROPEAN ART
- HAA 240 ART FROM 1900-1945
- HAA 242 ART FROM 1945 - 1975
- HAA 265 HISTORY OF PHOTOGRAPHY
Electives

Three courses:

- 200/300 level ART elective
- ART 231 SCREEN PRINTING
  OR ART 385 WEB ART & DESIGN I
  OR ILL 210 DIGITAL ILLUSTRATION I
- ART 395 SPECIAL TOPICS IN STUDIO PRACTICE (any section)

Senior Course Requirements

Two courses from the list below:

- ART 392 SENIOR STUDIO SEMINAR (Senior Capstone Requirement, offered Spring Quarter only)
- ART 394 PROFESSIONAL PRACTICE IN THE STUDIO (offered Winter Quarter only)

Please note: ART 104 is not acceptable for major credit.

Prerequisites may be waived with the permission of the instructor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Global Asian Studies (Minor)

The Global Asian Studies Program at DePaul is the first of its kind in the world and unique in its global approach to the study of Asia, Asian transnationalism and Asian American topics.

Our award-winning faculty offer international expertise and professional training in our more than one hundred courses.

See our website for information about our faculty, students and alumni. The Global Asian Studies program also hosts a number of events. We bring in speakers and performers of international renown to provide the latest scholarly and popular culture developments in the field of Global Asian Studies. These and other program activities provide a contemporary link between in-class learning and out-of-the-classroom experiences.

A minor in Global Asian Studies complements a student's major field of study through:

- Enhancing cultural competence in Asia, particularly in business and social practices.
- Preparing for real-world challenges, especially in inter-cultural and international environments.
- Improving critical thinking and analytical skills, including in professional presentation and writing.
- Strengthening career readiness via hands-on learning, study abroad and international exchange.
- Developing flexibility and adaptability to new places and situations.
- Mentoring and networking opportunities.

Minor Requirements

- Six courses required to complete the Global Asian Studies minor (24 credit hours):
  - AAS 205 GLOBAL ASIA (core course) plus:
  - Two to five General Asia courses, and/or
  - Option of up to three country/region specific courses (i.e. replacing up to three General Asia)
Bilingual Education (Minor)

The Bilingual Education (BE) minor provides a learning opportunity to all DePaul students interested in working with second language learners. Students gain a comprehensive and in-depth understanding of second language acquisition, as well as related educational theories and practices.

Students interested in this minor should consult home college advisors and secure permission from the Bilingual-Bicultural Education Program to enroll.

Course Requirements

7 courses are required for the minor:

- BBE 310 SPECIAL TOPICS IN LANGUAGE EDUCATION AND CULTURE
- BBE 304 LANGUAGE, LITERACY AND CULTURE
  or BBE 370 SECOND & WORLD LANGUAGE LITERACIES AND CULTURES
- BBE 307 EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS
- BBE 316 SOCIOCULTURAL AND HISTORICAL PERSPECTIVES IN BILINGUAL EDUCATION
- BBE 324 METHODS OF TEACHING ENGLISH AS A SECOND LANGUAGE
- BBE 325 BILITERACY PRACTICES IN BILINGUAL EDUCATION AND ESL
- BBE 366 FIRST AND SECOND LANGUAGE ACQUISITION
  or BBE 360 SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION K-12

Minor in Bilingual Education with Bilingual Endorsement

This option is only available to undergraduates in the College of Education pursuing ISBE Licensure.

The minor with endorsement requires the above 7 courses PLUS 100 fieldwork hours (including registration in BBE 96) and a passing score on the Target Language Proficiency Test.

- BBE 96 100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED

**Note:** ISBE Licensure Division endorses in any target language for which tests are available through ILTS. If a language test through ILTS does not exist for bilingual endorsement, candidates may substitute the Foreign Language Content-Area test.

bioethics and society (minor)

The Minor in Bioethics and Society offers students an interdisciplinary approach to the various moral, social, political, and conceptual issues that arise at the ever changing intersection of the life sciences, health, and society.

Course Requirements

The minor requires students to take a total of six courses (24 quarter hours) and, in addition, obtain certification in research ethics:

- Students must choose one of three foundational bioethics courses:
  - HLTH 229 ETHICS FOR HEALTH SCIENCES
  - PHL 229 BIOMEDICAL ETHICS
  - REL 229 MEDICINE, ETHICS AND SOCIETY
Note: Only one of these courses may be counted towards satisfaction of the requirement for the minor.

- Students must complete the online Collaborative Institutional Training Initiative (CITI) research ethics training (or produce a current certificate of training in this area).

- Students must take a total of four courses, in addition to the foundational bioethics course, in accordance with the following distribution:
  - One Ethical Theory Course:
    - PHL 200 ETHICAL THEORIES
    - PHL 206 TOPICS AND CONTROVERSIES
    - PHL 208 VALUES AND PERSONS
    - PHL 230 CONTEMPORARY TOPICS IN ETHICS
    - PHL 241 ETHICS AND PUBLIC POLICY
    - PHL 314 SURVEY OF ETHICS
  - One Religious Ethics Course:
    - REL 201 RELIGION AND ETHICS I
    - REL 202 ETHICAL WORLDS: MORAL ISSUES ACROSS CULTURES
    - REL 205 RELIGION AND ETHICS II
  - One Health Science Course:
    - HLTH 201 INTRODUCTION TO HEALTH SCIENCE
    - HLTH 329 HEALTH HUMANITIES
    - HLTH 341 DEATH AND DYING
  - One Sociology Course
    - SOC 221 INTRODUCTION TO THE U.S HEALTH CARE SYSTEM
    - SOC 223 SOCIOLOGY OF HEALTH AND ILLNESS
    - SOC 235 ADOLESCENT HEALTH
    - SOC 236 IMMIGRATION, HEALTH AND ILLNESS
    - SOC 351 HEALTH DISPARITIES
    - SOC 353 SOCIOLOGY OF MENTAL ILLNESS
    - SOC 365 HEALTH AND GLOBALIZATION
    - SOC 370 PEOPLE, PLACES, AND FOOD
    - SOC 373 PUBLIC HEALTH AND HIGH RISK BEHAVIOR

Note: Other courses may be substituted for those listed here at the discretion of the Director of the minor if the focus of the specific class is deemed appropriate to satisfy the distribution requirements of the minor.

Finally, students must take the minor capstone course:
  - PHL 339 BIOETHICS IN SOCIETY CAPSTONE SEMINAR/HLTH 339 BIOETHICS IN SOCIETY CAPSTONE SEMINAR
    (Students seeking to enroll in PHL 339/HLTH 339: Bioethics in Society must have successfully completed one of the follow courses:
    - PHL 229 BIOMEDICAL ETHICS
    - HLTH 229 ETHICS FOR HEALTH SCIENCES
    - REL 229 MEDICINE, ETHICS AND SOCIETY)

Biological Science (Minor)

As a Biological Science minor you will gain a strong foundation in biological science theories and practices. You will have the opportunity to choose electives based on your individual study plan.

Course Requirements

- BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS
- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- Three additional courses (generally lab-based) designed for the major must be taken. If desired, these courses can be recommended by a departmental advisor on the basis of the student’s interests.
Students cannot earn a minor in the same academic program as their major.

Biological Sciences (BS)

The Department of Biological Sciences provides courses for both biology majors and non-majors. For its majors, the department offers six different concentrations. These concentrations provide a core program consisting of five lecture/laboratory courses. Beyond the core program, the concentrations allow the students to have a moderate degree of specialization in any one of several areas. It also provides a number of opportunities for learning outside the classroom, including a program of seminars, internships and opportunities for research with, or under the direction of, a member of the faculty.

Learning Outcomes

Students will be able to:

- Demonstrate a mastery of content within their chosen field of Biology.
- Describe the diversity of fields and approaches within Biology.
- Describe the relationships among Biology and other fields.
- Describe how the scientific process is used to determine and help resolve testable questions.
- Critically analyze scientific information.
- Design, and analyze the results of a scientific experiment.
- Effectively communicate scientific information in both written and oral forms.
- Describe the relevant technical skills that are necessary for transition into professional schools, graduate programs, or careers in science.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language
Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

**Major Declaration Requirements**

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

**Focal Point**

- LSP 112 FOCAL POINT SEMINAR

**Writing**

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

**Quantitative Reasoning & Technological Literacy**
Not Required

**Sophomore Year**

**Multiculturalism in the US**
- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

**Junior Year**

**Experiential Learning**
- Required

**Senior Year**

**Capstone**
- BIO 395 BIOLOGY CAPSTONE SEMINAR [See Note Below] *

**Learning Domains**

**Arts and Literature (AL)**
- 3 Courses Required

**Philosophical Inquiry (PI)**
- 2 Courses Required

**Scientific Inquiry (SI)**
- Not Required

**Social, Cultural, and Behavioral Inquiry (SCBI)**
- 3 Courses Required

**Religious Dimensions (RD)**
- 2 Courses Required

**Understanding the Past (UP)**
- 2 Courses Required

* Students must earn a C- or better in this course.

**Notes**

Students with a primary major in Biology are required to complete the Capstone offered by the Biology department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Biology are required to complete the Capstone offered by the Biology department. Biology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy would apply only to those students in pursuit of a BA or BS degree, and not to those who are double majors or earning BFA or BM degrees.
Major Requirements

Course Requirements

Biological Sciences Core

- BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS
- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- BIO 206 BIOSTATISTICS
- BIO 260 GENETICS
- BIO 395 BIOLOGY CAPSTONE SEMINAR (Liberal Studies Program Capstone)

Chemistry

- CHE 130 GENERAL CHEMISTRY I and CHE 131 GENERAL CHEMISTRY I LABORATORY
- CHE 132 GENERAL CHEMISTRY II and CHE 133 GENERAL CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III and CHE 135 GENERAL CHEMISTRY LABORATORY III
- CHE 230 ORGANIC CHEMISTRY I and CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II and CHE 233 ORGANIC CHEMISTRY LABORATORY II
- CHE 234 ORGANIC CHEMISTRY III and CHE 235 ORGANIC CHEMISTRY LABORATORY III or CHE 346 PRINCIPLES OF BIOCHEMISTRY

Students are typically expected to take the first year chemistry courses simultaneously with Biology 191, 192, and 193.

Physics

- PHY 150 GENERAL PHYSICS I
- PHY 151 GENERAL PHYSICS II
- PHY 152 GENERAL PHYSICS III

Students may substitute comparable sequences of Physics courses designed for science majors.

Mathematics

Choose one of the following Calculus sequences:

- Sequence One
  - MAT 150 CALCULUS I
  - MAT 151 CALCULUS II

- Sequence Two
  - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
  - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
  - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III

- Sequence Three
  - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
  - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II

- Sequence Four
  - MAT 170 CALCULUS FOR LIFE SCIENCES I
  - MAT 171 CALCULUS FOR LIFE SCIENCES II

- Sequence Five
  - MAT 155 SUMMER CALCULUS I
  - MAT 156 SUMMER CALCULUS II

Students may be advised on the basis of their performance on the Mathematics Diagnostic test to take one or more course before calculus.
Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Integrative Biology; Biotechnology; Medicine and Health; Neuroscience; Ecology and Evolution; or Cell & Molecular Biology. Students are limited to only declaring one concentration.

Sequencing

Since programs in the Biological Sciences tend to be structured, it is useful for students to take courses in sequence. Students should begin with the General Biology and General Chemistry sequences. These are prerequisite to higher level requirements such as Ecology, Cell Biology, Genetics, and Organic Chemistry, which should preferably be taken in the sophomore year. Since calculus is required for the degree, students should also begin their study of mathematics as soon as possible, preferably prior to their junior year, so that they can be adequately prepared for the General Physics sequence, best taken in the junior year. Because of this highly structured sequence, students are strongly encouraged to work with their Departmental advisor in order to plan their course schedules and plan alternatives if necessary. Such planning is particularly important for transfer students, as the sequence presented above is highly recommended and most likely to be completed in a timely fashion.

The predominance of chemistry and biology course sequences required in the freshman and sophomore years generally dictates that, with the exception of the Liberal Studies Core courses, the majority of the Liberal Studies courses may be postponed until the junior and senior years. Students may therefore be taking fewer Liberal Studies courses in the first two years than many other programs, concentrating instead on major field requirements, which are prerequisites to upper division courses.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Cell & Molecular Biology
- Ecology and Evolution
- Integrative Biology
- Medicine and Health
- Microbiology and Biotechnology
- Neuroscience

Microbiology and Biotechnology Concentration

Course Requirements

- BIO 210 Microbiology
- BIO 220 Principles of Biotechnology
- BIO 250 Cell Biology
- BIO 349 Topics in Microbiology and Biotechnology
- Two courses from the following list, one of which must be a lab course.
  - BIO 235 Evolution
  - BIO 320 Microbial Ecology
  - BIO 321 Molecular Methods in Ecology and Evolution
  - BIO 347 Topics in Medical Bacteriology
  - BIO 348 The Biology of Infection
  - BIO 360 Molecular Biology
Biology courses other than the General Biology sequence that have any Scientific Inquiry domain designation do not generate credit toward the major or minor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Cell & Molecular Biology Concentration

Course Requirements

- BIO 210 MICROBIOLOGY
- BIO 250 CELL BIOLOGY
- BIO 360 MOLECULAR BIOLOGY
- One advanced Topics course
- Two courses from the following list, one of which must be a lab course:
  - BIO 309 PLANT PHYSIOLOGY
  - BIO 315 TOPICS IN ECOLOGY
  - BIO 321 MOLECULAR METHODS IN ECOLOGY AND EVOLUTION
  - BIO 330 DEVELOPMENTAL BIOLOGY
  - BIO 335 CONCEPTS IN EVOLUTION
  - BIO 339 CELLULAR NEUROBIOLOGY
  - BIO 341 TOPICS IN NEUROBIOLOGY
  - BIO 345 TOPICS IN PALEOBIOLOGY
  - BIO 347 TOPICS IN MEDICAL BACTERIOLOGY
  - BIO 348 THE BIOLOGY OF INFECTION
  - BIO 354 PROBLEMS IN CELL MOTILITY
  - BIO 355 GENETIC TOXICOLOGY
  - BIO 361 TOPICS IN MOLECULAR BIOLOGY
  - BIO 362 BIOINFORMATICS FOR BENCH SCIENTISTS
  - BIO 365 PRINCIPLES OF TOXICOLOGY
  - BIO 370 IMMUNOBIOLOGY
  - BIO 375 INTRODUCTION TO PHARMACOLOGY
  - BIO 380 CANCER BIOLOGY
  - BIO 381 TOPICS IN CANCER
  - BIO 385 MAMMALIAN REPRODUCTION (CROSS-LISTED AS BIO 485)
  - BIO 386 INTRODUCTION TO ENDOCRINOLOGY
  - CHE 340 BIOCHEMISTRY I
  - CHE 341 EXPERIMENTAL BIOCHEMISTRY I
  - CHE 342 BIOCHEMISTRY II
  - CHE 343 EXPERIMENTAL BIOCHEMISTRY II
  - HLTH 320 MOLECULAR VIROLOGY
  - Students can request permission from the department to have a BIO 390 SPECIAL TOPICS class count for one of the requirements if appropriate.
- Two additional majors-level Biology courses.

At least two of the four biology electives must have a lab. Biology courses other than the General Biology sequence that have any Scientific Inquiry domain designation do not generate credit toward the major or minor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Ecology and Evolution Concentration

Course Requirements

- BIO 215 ECOLOGY
- BIO 235 EVOLUTION
- Three courses from the following list - at least one must be a lab course
  - BIO 270 COMPARATIVE VERTEBRATE ANATOMY
  - BIO 301 ANIMAL BEHAVIOR
  - BIO 304 FIELD METHODS FOR BIOLOGISTS
  - BIO 315 TOPICS IN ECOLOGY
  - BIO 318 FIELD STUDIES IN MARINE AND ESTUARINE BIOLOGY
  - BIO 321 MOLECULAR METHODS IN ECOLOGY AND EVOLUTION
  - BIO 325 PALEOBIOLOGY
  - BIO 335 CONCEPTS IN EVOLUTION
  - BIO 345 TOPICS IN PALEOBIOLOGY
  - BIO 350 ANIMAL ADAPTATIONS
  - BIO 389 RESEARCH IN FIELD BIOLOGY
  - Students can request permission from the department to have a BIO 390 SPECIAL TOPICS class count for one of the requirements if appropriate.
- Three additional majors-level Biology courses.

Two of the six total electives must have a lab. Biology courses other than the General Biology sequence that have any Scientific Inquiry domain designation do not generate credit toward the major or minor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Integrative Biology Concentration

Course Requirements

- BIO 215 ECOLOGY or BIO 235 EVOLUTION
- BIO 250 CELL BIOLOGY
- BIO 309 PLANT PHYSIOLOGY
  - or BIO 310 VERTEBRATE PHYSIOLOGY
- Five additional majors-level Biology courses (at least two of the five must have a lab component and at least two of the five must be 300-level courses). Biology courses that fulfill the Scientific Inquiry Domain requirements, other than the General Biology sequence, do not generate credit toward the major or minor.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Medicine and Health Concentration**

**Course Requirements**

- BIO 250 CELL BIOLOGY
- Two courses from the following list (Each professional program in health requires different courses from the list below. Please consult with an academic advisor to help you select the ones that will support your applications):
  - BIO 201 HUMAN ANATOMY or HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
  - BIO 210 MICROBIOLOGY
  - BIO 310 VERTEBRATE PHYSIOLOGY or HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B
  - CHE 340 BIOCHEMISTRY I /CHE 341 EXPERIMENTAL BIOCHEMISTRY I
  - CHE 342 BIOCHEMISTRY II /CHE 343 EXPERIMENTAL BIOCHEMISTRY II
- Three additional courses from the following list (at least one of the three must have a lab):
  - BIO 201 HUMAN ANATOMY
  - BIO 210 MICROBIOLOGY
  - BIO 220 PRINCIPLES OF BIOTECHNOLOGY
  - BIO 270 COMPARATIVE VERTEBRATE ANATOMY
  - BIO 310 VERTEBRATE PHYSIOLOGY
  - BIO 311 HISTOLOGY
  - BIO 330 DEVELOPMENTAL BIOLOGY
  - BIO 339 CELLULAR NEUROBIOLOGY
  - BIO 340 BEHAVIORAL NEUROSCIENCE
  - BIO 341 TOPICS IN NEUROBIOLOGY
  - BIO 342 COGNITIVE NEUROSCIENCE
  - BIO 347 TOPICS IN MEDICAL BACTERIOLOGY
  - BIO 348 THE BIOLOGY OF INFECTION
  - BIO 352 ADVANCED COMPARATIVE PHYSIOLOGY
  - BIO 360 MOLECULAR BIOLOGY
  - BIO 362 BIOINFORMATICS FOR BENCH SCIENTISTS
  - BIO 370 IMMUNOBIOLOGY
  - BIO 375 INTRODUCTION TO PHARMACOLOGY
  - BIO 380 CANCER BIOLOGY
  - BIO 381 TOPICS IN CANCER
  - BIO 385 MAMMALIAN REPRODUCTION
  - BIO 386 INTRODUCTION TO ENDOCRINOLOGY
  - CHE 340 BIOCHEMISTRY I /CHE 341 EXPERIMENTAL BIOCHEMISTRY I
  - CHE 342 BIOCHEMISTRY II /CHE 343 EXPERIMENTAL BIOCHEMISTRY II
  - Students can request permission from the department to have a BIO 390 SPECIAL TOPICS class count for one of the requirements if appropriate.
- Two additional majors-level Biology courses. One must be a lab course.

It is strongly recommended that students who wish to take the MCAT take an ethics course as part of their Philosophical Inquiry Domain and PSY 105, PSY 106 & SOC 101 for their Social, Cultural, and Behavioral Inquiry. Biology courses other than the General Biology sequence that have any Scientific Inquiry domain designation do not generate credit toward the major or minor.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Neuroscience Concentration

Course Requirements

- BIO 250 CELL BIOLOGY
- BIO 310 VERTEBRATE PHYSIOLOGY or HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
- BIO 339 CELLULAR NEUROBIOLOGY
- BIO 340 BEHAVIORAL NEUROSCIENCE
- One course from the following list
  - BIO 341 TOPICS IN NEUROBIOLOGY
  - BIO 342 COGNITIVE NEUROSCIENCE
  - BIO 360 MOLECULAR BIOLOGY
  - BIO 375 INTRODUCTION TO PHARMACOLOGY
  - BIO 386 INTRODUCTION TO ENDOCRINOLOGY
- Three additional majors-level Biology courses. At least two of the four total electives must be lab courses. Biology courses other than the General Biology sequence that have any Scientific Inquiry domain designation do not generate credit toward the major or minor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The Biological Sciences (BS) offers two options:

- Biological Sciences (BS)/Biological Sciences (MS)
- Biological Sciences (BS)/Secondary Education Biology (MED)

Biological Sciences (BS)/ Biological Sciences (MS)

Students apply to this program in spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year; these graduate courses apply toward both undergraduate and graduate Biological Sciences requirements.

Biological Sciences (BS)/ Secondary Education Biology (MEd)

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units. A full description of the Program can be found on the College of Education website in the graduate course catalog.
**Business Administration (BSB)**

The Bachelor of Science in Business with a major in Business Administration is designed for those students who desire a broad-based business curriculum with a strong liberal arts foundation. This flexible program is geared to the student who has no strong functional preference (e.g. Accounting, Finance, Marketing) but rather desires an overall conceptual foundation. Students majoring in Business Administration might be preparing for law school, entering into a family business, or some other specialized purpose. The program has sufficient flexibility to meet the needs of each of these career orientations.

**Learning Outcomes**

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

**Business Core Requirements**

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

**Course Requirements**

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
● MAT 136 BUSINESS CALCULUS II
● MGT 300 PRINCIPLES OF MANAGEMENT
● MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT*
● MIS 140 MANAGEMENT INFORMATION SYSTEMS
● MKT 301 PRINCIPLES OF MARKETING
● MKT 310 CONSUMER BEHAVIOR
● One Business Capstone course to be chosen from:
  o ICS 394 ENTREPRENEURSHIP STRATEGY
  o ICS 395 MANAGEMENT STRATEGY
● One Communication course to be chosen from:
  o MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  o ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
● Global Business Perspective (4.0 hours) to be chosen from:
  o ECO 316 EUROPEAN ECONOMIC HISTORY
  o ECO 333 TOPICS IN GLOBAL ECONOMIES
  o ECO 334 UNDERSTANDING CHINA'S ECONOMY
  o ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  o ECO 361 INTERNATIONAL TRADE
  o ECO 362 INTERNATIONAL MONETARY ECONOMICS
  o ECO 363 ECONOMICS OF THE EUROPEAN UNION
  o FIN 340 INTERNATIONAL FINANCE
  o FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  o ICS 350 INTERNATIONAL BUSINESS SEMINAR
  o MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  o MGT 357 INTERNATIONAL BUSINESS
  o MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  o MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  o MKT 360 INTERNATIONAL MARKETING
  o A course taken as part of a term-long study abroad program
● One Professional Writing course to be chosen from:
  o WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
  o WRD 204 TECHNICAL WRITING
  o WRD 206 PROFESSIONAL WRITING

*MGT 301-H is required if pursuing the Management Honors Program.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

● A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
● MAT 135 and MAT 137 are completed through Liberal Studies requirements
● MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
● MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
● MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
● MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Grade Minimums for Business Administration Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, ICS 394 or ICS 395, MAT 135, MAT 136, MAT 137, MGT 300, MGT 301, the course used for Professional Writing, and any MGT course used for Global Business Perspective.

Global Business Perspective

If a course is shared between Global Business Perspective and the Business Administration major, additional hours of Open Elective credit are required.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- Not required

Sophomore Year

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

- Experiential learning required **

Senior Year

- ICS 392 SENIOR SEMINAR *

Learning Domains

Arts and Literature

- 3 AL courses Required

Philosophical Inquiry

- 2 PI courses required***

Scientific Inquiry

- MAT 135 BUSINESS CALCULUS I
  or MAT 150 CALCULUS I
  or MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
- MAT 137 BUSINESS STATISTICS
- 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry

- 1 SCBI course required (must not be an ECO course)

Religious Dimensions

- 2 RD courses required***
Understanding the Past

- 2 UP courses required

* Students must earn C- or better in this course.
** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Declaration Requirements
To declare a major in Business Administration, a student must meet the following requirements:

- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.000
- A minimum grade point average of 2.000 for Management (MGT) courses and all courses used to meet major requirements
- No grade of IN, R, or lower than C- in any Management (MGT), Business Law (BLW), ICS 394 or ICS 395 course, or course used toward the Business Administration major
- Completion of MGT 300 and BLW 201 with a minimum grade of C- in each course

Course Requirements
A student majoring in Business Administration is required to complete the following courses totaling at least 30.0 hours:

- Two required courses:
  - BLW 203 BUSINESS ORGANIZATIONS
  - MGT 250 CAREER MANAGEMENT SKILLS (2.0 hours)
- Six electives to be chosen from:
  - Economics Elective
  - Management Elective
  - Marketing Elective
  - Business Elective
  - Business Elective
  - Business Elective
The Economics Electives are chosen from 300-level courses offered by the Economics department, excluding ECO 393 and ECO 395. Additionally, ECO 375 and 380 are not recommended for Business Administration majors. Management and Marketing Electives may be chosen from any 300-level course offered through the respective departments. The three Business Electives are selected from any 300-level courses offered through any Driehaus College of Business program or department. ICS 350 can be used only once for either a Management Elective, Marketing Elective or one of the Business Electives.

ECO 315, FIN 310, FIN 320, ICS 392, MGT 300, MGT 301, MKT 301, and MKT 310 may not be used toward the major. MKT 376 may not be used when also used for the Communication requirement. ICS 394, ICS 395, or ICS 396 may not be used when also used for the Business Capstone requirement.

BLW 202 may be used within Business Administration as a Management Elective or Business Elective.

**Open Electives**

Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

**Global Business Perspective**

If any course is shared between Global Business Perspective and the Business Administration major, additional hours of Open Elective credit are required.

**Graduation Requirements**

All Management (MGT) and Business Law (BLW) courses, ICS 394 and/or ICS 395, and any courses used toward the Business Administration major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

---

**Business Administration (Minor)**

Available to students outside of the Driehaus College of Business, those students who minor in Business Administration will acquire a general foundation in business, including the fields of accounting, business law, economics, finance, management, and marketing.

**Declaration Requirements**

To declare a minor in Business Administration, a non-Driehaus student must meet the following requirements:

- Completion of one of the following courses with a grade of C- or higher:
  - ACC 101 Introduction to Accounting I
  - BLW 201 Legal and Ethical Aspects in the Business Environment
  - ECO 105 Principles of Microeconomics
- No grade lower than C- in any of the courses above

**Course Requirements**

A non-Driehaus student minoring in Business Administration is required to complete the following courses totaling at least 32.0 hours:

- A course in statistics
- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- FIN 290 FINANCE FOR NON-BUSINESS MAJORS
- MGT 300 PRINCIPLES OF MANAGEMENT
- MKT 301 PRINCIPLES OF MARKETING

The requirement for a course in statistics may be satisfied through the completion of the LSP 120 and LSP 121 sequence.
Graduation Requirements

All Management (MGT), Business Law (BLW), and Interdisciplinary Commerce Studies (ICS) courses and any other courses used toward the Business Administration minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Catholic Studies (BA)

The Department of Catholic Studies is intellectual in focus and interdisciplinary in nature. Rigorous intellectual study, a deepened critical understanding and an appreciation of the Catholic contribution to human civilization are its main goals. The program explores Roman Catholicism as a religious and cultural reality that expresses and motivates multiple forms of human expression. All members of the university are invited to participate in the scholarly examination of Catholicism and the development of Catholic thought. True to DePaul's tradition, no religious test is applied to either students or faculty participating in the department. In addition to the offerings of DePaul University, upper-level students in the program in Catholic Studies are able to take selected courses at the Catholic Theological Union at Chicago. The cooperative relationship between DePaul and CTU opens to students in the program the resources of the largest Catholic school of theology and ministry in North America. The Catholic Studies major is designed to give students with differing learning objectives and career goals maximum flexibility in the design of their Bachelor of Arts degree. In order to ensure intellectual coherence in their program, all students are expected to meet quarterly with their academic advisor to design a course of study, refine their learning goals, and select classes that meet their educational and professional objectives.

</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Explain how Catholics have reflected at once critically and faithfully about God, the natural world, society, and the Church, and how Catholics have sought to integrate these reflections into their lives.
- Interpret in their writing and in their speaking history, texts, and social realities.
- Use these interpretations to engage new situations in personal, local, and global contexts.
- Explain inculturation and the importance of cultural memory, i.e., how Catholicism takes root in different places and discourses, based upon specific examples in history, literature, and contemporary practice.
- Understand and explain on their terms how faith and reason are integrated in the Catholic tradition and how a faith grounded in revelation and the encounter with the person of Christ can be deepened through study.
- Acquire a basic knowledge of and demonstrate an ability to integrate the core areas of Catholic Studies:
  - Theology and spirituality
  - History of Catholicism
  - Philosophy
  - Literature and cultural memory
  - Art, aesthetics, and liturgy
  - Social concerns
College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- Required *

Learning Domains

Arts and Literature (AL)

- 3 Courses Required
Philosophical Inquiry (PI)
- 2 Courses Required

Scientific Inquiry (SI)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)
- 3 Courses Required

Religious Dimensions (RD)
- 1 Course Required

Understanding the Past (UP)
- 2 Courses Required
* Students must earn a C- or better in this course.

Notes
See Program Director for one additional course reduction.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy
Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements
- CTH 180 INTRODUCTION TO CATHOLICISM
- CTH 209 THEORIES OF THE CHURCH: CONCEPTS AND CONTROVERSIES
- Two of the following:
  - CTH 220 CATHOLIC EXPERIENCE I: EARLY CHURCH - 1200
  - CTH 221 CATHOLIC EXPERIENCE II: 1200 - FRENCH REVOLUTION
  - CTH 222 CATHOLIC EXPERIENCE III: FRENCH REVOLUTION - PRESENT
- One of the following:
  - CTH 202 CATHOLICS AND SCRIPTURE
CTH 203 WHAT CATHOLICS BELIEVE

- Three courses over three of the areas listed below.
- Four CTH Electives, three of which must be at the 300-level. The Study Abroad Program in Rome is encouraged.
- One Senior Capstone (four credit hours) is required. Consult with the Department of Catholic Studies for approved Capstone options.

Areas

**Philosophy, Scripture, and Theology**

- CTH 110 THE CHRISTIAN EXPERIENCE
- CTH 183 THEMES IN CATHOLIC SOCIAL THOUGHT
- CTH 190 METHODS OF BIBLICAL INTERPRETATION
- CTH 212 ANCIENT ISRAEL: HISTORY, LITERATURE AND RELIGION
- CTH 213 THE NEW TESTAMENT
- CTH 214 THE HISTORICAL JESUS
- CTH 215 VARIETIES OF EARLY CHRISTIANITY
- CTH 216 PAUL AND HIS INFLUENCE IN EARLY CHRISTIANITY
- CTH 218 PROPHETS AND PROPHECY
- CTH 223 THE SECOND VATICAN COUNCIL
- CTH 228 MEDIEVAL MYSTICS IN EUROPE: 1000-1600 A.D.
- CTH 230 THINKING ABOUT GOD
- CTH 231 ROMAN CATHOLIC LITURGY
- CTH 238 ANCIENT PHILOSOPHY
- CTH 239 MEDIEVAL PHILOSOPHY
- CTH 240 TOPICS IN CATHOLIC THOUGHT
- CTH 243 ROMAN CATHOLIC THEOLOGICAL THINKING
- CTH 244 DEBATES ABOUT GOD
- CTH 246 INTRODUCTION TO CHRISTIAN ETHICS
- CTH 248 CONTEMPORARY MORAL ISSUES
- CTH 249 NATURE, COSMOS AND GOD: CATHOLISM AND SCIENCE
- CTH 336 THEORIES OF INTERPRETATION
- CTH 337 GREEK AND MEDIEVAL THOUGHT
- CTH 338 EARLY MODERN PHILOSOPHY
- CTH 339 PHILOSOPHY SINCE KANT
- CTH 341 LIBERATION THEOLOGY: THEORY AND PRACTICE
- CTH 354 SPECIAL TOPICS IN CATHOLIC THOUGHT

**Catholicism and Aesthetics**

- CTH 226 ROMAN CATHOLIC SPIRITUAL LITERATURE
- CTH 229 CATHOLICISM AS A SPIRITUAL PATH
- CTH 250 ART IN THE SPANISH AMERICAN EMPIRE
- CTH 251 CATHOLIC THEMES IN CONTEMPORARY CINEMA
- CTH 252 BYZANTINE ART
- CTH 253 EARLY MEDIEVAL ART
- CTH 254 LATE MEDIEVAL ART
- CTH 255 ANCIENT AND MEDIEVAL ART
- CTH 256 ITALIAN RENAISSANCE ART
- CTH 257 BAROQUE ART
- CTH 258 NORTHERN RENAISSANCE ART
- CTH 260 ART, LITURGY AND LIFE
- CTH 261 CATHOLIC FAITH AND MUSICAL EXPRESSION
- CTH 264 CATHOLICISM AND LITERATURE
- CTH 265 LITERATURE AND THE SACRED
- CTH 266 CONTEMPORARY SPIRITUAL MEMOIRS
- CTH 350 LOVE IN THE CHRISTIAN TRADITION
- CTH 369 SPECIAL TOPICS IN THE ART, MUSIC AND LITERATURE OF CATHOLICISM

**Social Concerns and Moral Questions**

- CTH 210 CATHOLIC SOCIAL TEACHING
- CTH 241 VIRTUE ETHICS
- CTH 247 ROMAN CATHOLIC SOCIAL THOUGHT IN CONTEXT
- CTH 248 CONTEMPORARY MORAL ISSUES
- CTH 270 JESUS ACROSS CULTURES
- CTH 271 ROMAN CATHOLICISM'S ENCOUNTER WITH OTHER RELIGIONS
- CTH 273 HISTORY OF THE CATHOLIC CHURCH IN THE U.S.
Vincentian Studies

- CTH 290 THE LIFE AND TIMES OF VINCENT DE PAUL
- CTH 292 WOMEN AND SAINT VINCENT DE PAUL
- CTH 293 NOTABLE VINCENTIAN WOMEN
- CTH 295 THE VINCENTIANS IN AMERICA

World Catholicism

- CTH 181 INTRODUCTION TO WORLD CATHOLICISM
- CTH 386 THE CATHOLIC CHURCH IN WORLD POLITICS
- CTH 389 SPECIAL TOPICS IN THE SOCIAL DIMENSION OF CATHOLICISM

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Catholic Studies (Minor)

DePaul's Catholic Studies minor aims to provide you with an understanding and appreciation of the Catholic contribution to society. The program is intellectual in focus and is based on an interdisciplinary curriculum.

Course Requirements

Six courses are required for the Minor in Catholic Studies.

- CTH 180 INTRODUCTION TO CATHOLICISM
- CTH 209 THEORIES OF THE CHURCH: CONCEPTS AND CONTROVERSIES
- Two of the following:
  - CTH 220 CATHOLIC EXPERIENCE I: EARLY CHURCH - 1200
  - CTH 221 CATHOLIC EXPERIENCE II: 1200 - FRENCH REVOLUTION
  - CTH 222 CATHOLIC EXPERIENCE III: FRENCH REVOLUTION - PRESENT
- One 200-level CTH elective
- One 300-level CTH elective

Students majoring in Catholic Studies (BA) are restricted from earning this minor.
Chemistry (BA)

As a Chemistry major, you will learn the fundamentals of chemical theory and practice through scientific investigation, laboratory experience and research opportunities.

All Chemistry students will take core courses in chemistry, physics and mathematics.

Chemistry faculty members conduct research projects that are funded through government, foundation and industry grants, providing you with multiple opportunities to gain hands-on research experience. Being in Chicago also allows you to attend many scientific conferences hosted in the city throughout the year.

</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Comprehensively review and clearly communicate concepts among all five disciplines of chemistry: analytical, inorganic, organic, physical, and biochemistry.
- Design and carry out chemical experiments, record data and analyze results.
- Use instrumentation to collect and record data for chemical experiments.
- Provide clear rationale for independent statements and conclusions by using problem solving, critical thinking, and analytical reasoning skills.
- Use modern library retrieval methods to obtain information about a topic related to chemistry.
- Practice/Implement standard safety procedures and regulations for safe handling and use of chemicals.
- Proficiently explain and apply, both orally and in writing, core chemical principles to the results of experiments and to representative problems.
- Carry out all chemistry related tasks ethically which can include carrying out experiments, recording and analyzing data, presenting and publishing scientific findings.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

Philosophical Inquiry (PI)
- 2 Courses Required

Scientific Inquiry (SI)
- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI)
- 3 Courses Required

Religious Dimensions (RD)
- 2 Courses Required

Understanding the Past (UP)
- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

Students with a primary major in Chemistry are required to complete the Capstone offered by the Chemistry department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Chemistry are required to complete the Capstone offered by the Chemistry department. Chemistry students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

In addition, the Department of Chemistry recommends that students who are seeking accreditation by the American Chemical Society fulfill the Modern Language Option by completing a three-course language sequence. Please see an advisor for further information.
Major Requirements

Course Requirements

Common Core

All students pursuing a Bachelor of Arts or Bachelor of Science in chemistry must complete a common core of courses in the department. These courses are consistent with the requirements of all degree programs accredited by the American Chemical Society. The courses in the common core consist of:

Introductory Courses

- CHE 130 GENERAL CHEMISTRY I and CHE 131 GENERAL CHEMISTRY I LABORATORY
  or CHE 140 UNIVERSITY CHEMISTRY I and CHE 141 UNIVERSITY CHEMISTRY LABORATORY I
- CHE 132 GENERAL CHEMISTRY II and CHE 133 GENERAL CHEMISTRY LABORATORY II
  or CHE 142 UNIVERSITY CHEMISTRY II II and CHE 143 UNIVERSITY CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III and CHE 135 GENERAL CHEMISTRY LABORATORY III
  or CHE 144 UNIVERSITY CHEMISTRY III and CHE 145 UNIVERSITY CHEMISTRY LABORATORY III

The department offers General Chemistry each summer. In this case, the combination of CHE 136/CHE 137 and CHE 138/CHE 139 may substitute for the three-quarter sequences above.

Foundation Courses

- CHE 202 APPLIED PROBABILITY AND STATISTICS
- CHE 204 ANALYTICAL CHEMISTRY and CHE 205 ANALYTICAL CHEMISTRY LABORATORY
- CHE 230 ORGANIC CHEMISTRY I and CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II and CHE 233 ORGANIC CHEMISTRY LABORATORY II
- CHE 394 SEMINAR
- CHE 330 SENIOR CAPSTONE IN THE PHYSICAL SCIENCES (Liberal Studies Program Capstone)

Calculus

One year of calculus is required to earn a baccalaureate degree in chemistry. This may be accomplished by completing any of the following three-course sequences offered by the Department of Mathematical Sciences:

- Sequence One
  - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
  - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
  - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
- Sequence Two
  - MAT 150 CALCULUS I
  - MAT 151 CALCULUS II
  - MAT 152 CALCULUS III
- Sequence Three
  - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
  - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
  - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
- Sequence Four
  - MAT 170 CALCULUS FOR LIFE SCIENCES I
  - MAT 171 CALCULUS FOR LIFE SCIENCES II
  - MAT 172 CALCULUS III WITH DIFFERENTIAL EQUATIONS
- Sequence Five
  - MAT 155 SUMMER CALCULUS I
  - MAT 156 SUMMER CALCULUS II

Students interested in earning credit for multi-variable calculus should not take the MAT 170/MAT 171/MAT 172 sequence. Business calculus cannot be substituted for any of the sequences above.

Physics

One year of calculus-based physics is required to earn a baccalaureate in chemistry. This may be accomplished by completing the following three-course sequence offered by the Department of Physics:
Non-calculus-based physics cannot be used to meet the requirements of the common core unless previously approved by the Director of Undergraduate Studies or the Chair.

**Departmental Program Requirements**

The following enrollment-related policies are fully enforced by the Department of Chemistry

1. All students enrolling in the first course of a General Chemistry sequence must independently meet a minimum mathematics requirement and successfully complete either the General Chemistry placement examination or a General Chemistry preparation course (CHE 128/CHE 129). See the course descriptions for General Chemistry for up-to-date information.

2. All prerequisite chemistry courses must be completed with a C- or better. Students not meeting this requirement may be removed from course rosters before the start of an academic session. This requirement may be waived only with departmental consent.

3. The department offers lower-level sequences several times each academic year. Due to potentially small class sizes, upper-level courses are typically scheduled every other year. Students should consult with their faculty academic advisor to develop a program they can complete in a timely fashion.

**Sequencing and Prerequisites**

Students should begin their General Chemistry, Physics, and Calculus sequences in their freshman year, provided they have an adequate mathematics background. The Organic Chemistry sequence and Analytical Chemistry should be taken in the sophomore year. Students not yet prepared for calculus should take the prerequisite courses in the first year and take Calculus and General Physics one year later than suggested above. Advanced courses in Chemistry may be taken as soon as students have met the appropriate prerequisites.

Students in Biochemistry are recommended to consider taking the General Biology sequence (BIO 191, BIO 192, BIO 193) prior to taking the Biochemistry sequence.

Since the Undergraduate Common Core in Chemistry, Mathematics, and Physics is particularly demanding in the first two years, students take the majority of their Liberal Studies courses in their junior and senior years. This is necessary so that students have the necessary prerequisites for advanced courses.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Standard
- Accelerated Program

**Standard Concentration**

**Course Requirements**

- CHE 302 QUANTUM CHEMISTRY and CHE 303 EXPERIMENTAL PHYSICAL CHEMISTRY I
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Accelerated Program

The Accelerated Program is only for qualified Pathways Honors students with a major in Chemistry (BA) who have been accepted into the 3+4 College of Science and Health pre-professional program in pharmacy in conjunction with Rosalind Franklin University of Medicine and Science (RFUMS). In order to pursue the pre-pharmacy track, a student must secure approval from the College of Science and Health’s pre-health advisor and Pre-health Advising Committee's (PAC) Accelerated Program advisor.

Students formally accepted into a 3+ Accelerated Program will complete their fourth year of coursework - taken at RFUMS and not shown here - and apply the credit toward their Bachelor of Arts degree in Chemistry at DePaul. Students must apply for degree conferral via Campus Connection by the deadline outlined in the Student Handbook in order to be considered a candidate for earning their Bachelor of Arts degree at the conclusion of their fourth year of study. As part of the agreement with RFUMS, some Liberal Studies Program courses, Chemistry major requirements, and open electives will be fulfilled by RFUMS courses. To avoid possibly earning duplicate credit for some courses, please be sure you meet regularly with the College of Science and Health pre-health advisor and your Chemistry faculty advisor.

Course Requirements

Pre-pharmacy

- CHE 234 ORGANIC CHEMISTRY III and CHE 235 ORGANIC CHEMISTRY LABORATORY III
- BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS
- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
  or HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B
  or BIO 201 HUMAN ANATOMY
- BIO 310 VERTEBRATE PHYSIOLOGY
  or HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
  or HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B
- CHE 302 QUANTUM CHEMISTRY and CHE 303 EXPERIMENTAL PHYSICAL CHEMISTRY I
- HLTH 120 EXPLORING THE HEALTH SCIENCES
- HLTH 201 INTRODUCTION TO HEALTH SCIENCE

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Chemistry (BA)/ Secondary Education Chemistry (MEd)

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units. A full description of the Program can be found on the College of Education website in the graduate course catalog.

Chemistry (BS)

As a Chemistry major, you will learn the fundamentals of chemical theory and practice through scientific investigation, laboratory experience and research opportunities.

All Chemistry students will take core courses in chemistry, physics and mathematics.

Chemistry faculty members conduct research projects that are funded through government, foundation and industry grants, providing you with multiple opportunities to gain hands-on research experience. Being in Chicago also allows you to attend many scientific conferences hosted in the city throughout the year.

Learning Outcomes

Students will be able to:

- Comprehensively review and clearly communicate concepts among all five disciplines of chemistry: analytical, inorganic, organic, physical, and biochemistry.
- Design and carry out chemical experiments, record data and analyze results.
- Use instrumentation to collect and record data for chemical experiments.
- Provide clear rationale for independent statements and conclusions by using problem solving, critical thinking, and analytical reasoning skills.
- Use modern library retrieval methods to obtain information about a topic related to chemistry.
- Practice/implement standard safety procedures and regulations for safe handling and use of chemicals.
- Proficiently explain and apply, both orally and in writing, core chemical principles to the results of experiments and to representative problems.
- Carry out all chemistry related tasks ethically which can include carrying out experiments, recording and analyzing data, presenting and publishing scientific findings.
College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO
Focal Point
- LSP 112 FOCAL POINT SEMINAR

Writing
- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy
- Not Required

Sophomore Year
Multiculturalism in the US
- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year
Experiential Learning
- Required

Senior Year
Capstone
- CHE 330 SENIOR CAPSTONE IN THE PHYSICAL SCIENCES [See Note Below]*

Learning Domains
Arts and Literature (AL)
- 3 Courses Required

Philosophical Inquiry (PI)
- 2 Courses Required

Scientific Inquiry (SI)
- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI)
- 3 Courses Required

Religious Dimensions (RD)
- 2 Courses Required

Understanding the Past (UP)
- 2 Courses Required
* Students must earn a C- or better in this course.

Notes
Students with a primary major in Chemistry are required to complete the Capstone offered by the Chemistry department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Chemistry are required to complete the Capstone offered by the Chemistry department. Chemistry students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both
the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

In addition, the Department of Chemistry recommends that students who are seeking accreditation by the American Chemical Society fulfill the Modern Language Option by completing a three-course language sequence. Please see an advisor for further information.

Major Requirements

Course Requirements

Common Core

All students pursuing a Bachelor of Arts or Bachelor of Science in chemistry must complete a common core of courses in the department. These courses are consistent with the requirements of all degree programs accredited by the American Chemical Society. The courses in the common core consist of:

Introductory Courses

- CHE 130 GENERAL CHEMISTRY I and CHE 131 GENERAL CHEMISTRY I LABORATORY
- CHE 132 GENERAL CHEMISTRY II and CHE 133 GENERAL CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III and CHE 135 GENERAL CHEMISTRY LABORATORY III
- CHE 140 UNIVERSITY CHEMISTRY I and CHE 141 UNIVERSITY CHEMISTRY LABORATORY I
- CHE 142 UNIVERSITY CHEMISTRY II and CHE 143 UNIVERSITY CHEMISTRY LABORATORY II
- CHE 144 UNIVERSITY CHEMISTRY III and CHE 145 UNIVERSITY CHEMISTRY LABORATORY III

The department offers General Chemistry each summer. In this case, the combination of CHE 136/137 and CHE 138/139 may substitute for the three-quarter sequences above.

Foundation Courses

- CHE 202 APPLIED PROBABILITY AND STATISTICS
- CHE 204 ANALYTICAL CHEMISTRY and CHE 205 ANALYTICAL CHEMISTRY LABORATORY
- CHE 230 ORGANIC CHEMISTRY I and CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II and CHE 233 ORGANIC CHEMISTRY LABORATORY II
- CHE 234 ORGANIC CHEMISTRY III and CHE 235 ORGANIC CHEMISTRY LABORATORY III
- CHE 236 ORGANIC CHEMISTRY IV and CHE 237 ORGANIC CHEMISTRY LABORATORY IV
- CHE 301 QUANTUM CHEMISTRY and CHE 302 EXPERIMENTAL PHYSICAL CHEMISTRY I
- CHE 304 THERMOCHEMISTRY and CHE 305 EXPERIMENTAL PHYSICAL CHEMISTRY II
- CHE 320 INTERMEDIATE INORGANIC CHEMISTRY and CHE 321 INTERMEDIATE INORGANIC CHEMISTRY LABORATORY
- CHE 320A/B/C INORGANIC CHEMISTRY and CHE 321A/B/C EXPERIMENTAL INORGANIC CHEMISTRY LABORATORY
- CHE 340 BIOCHEMISTRY I and CHE 341 EXPERIMENTAL BIOCHEMISTRY I
- CHE 394 SEMINAR
- CHE 330 SENIOR CAPSTONE IN THE PHYSICAL SCIENCES (Liberal Studies Program Capstone)

Calculus

One year of calculus is required to earn a baccalaureate degree in chemistry. This may be accomplished by completing any one of the following five course sequences offered by the Department of Mathematical Sciences:

- Sequence One
  - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
  - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
Students interested in earning credit for multi-variable calculus should not take the MAT 170/MAT 171/MAT 172 sequence. Business calculus cannot be substituted for any of the sequences above.

Physics

One year of calculus-based physics is required to earn a baccalaureate in chemistry. This may be accomplished by completing the following three-course sequence offered by the Department of Physics:

- PHY 170 UNIVERSITY PHYSICS I
- PHY 171 UNIVERSITY PHYSICS II
- PHY 172 UNIVERSITY PHYSICS III

Non-calculus-based physics cannot be used to meet the requirements of the common core unless previously approved by the departmental Exceptions Committee or academic advisor.

Concentration Requirements

Students must also complete the requirements from one of the following tracks: Standard; Analytical/Physical Chemistry; Biochemical/Synthetic Medicinal Chemistry. Students are limited to only declaring one track.

Departmental Program Requirements

The following enrollment-related policies are fully enforced by the Department of Chemistry:

1. All students enrolling in the first course of a General Chemistry sequence must independently meet a minimum mathematics requirement and successfully complete either the General Chemistry placement examination or a General Chemistry preparation course (CHE 128/CHE 129). See the course descriptions for General Chemistry for up-to-date information.
2. All prerequisite chemistry courses must be completed with a C- or better. Students not meeting this requirement may be removed from course rosters before the start of an academic session. This requirement may be waived only with departmental consent.
3. The department offers lower-level sequences several times each academic year. Due to potentially small class sizes, upper-level courses are typically scheduled every other year. Students should consult with their faculty academic advisor to develop a program they can complete in a timely fashion.

Sequencing and Prerequisites

Students should begin their General Chemistry, Physics, and Calculus sequences in their freshman year, provided they have an adequate mathematics background. The Organic Chemistry sequence and Analytical Chemistry should be taken in the sophomore year. Students not yet prepared for calculus should take the prerequisite courses in the first year and take Calculus and General Physics one year later than suggested above. Advanced courses in Chemistry may be taken as soon as students have met the appropriate prerequisites.

Students in Biochemistry are recommended to consider taking the General Biology sequence (BIO 191, BIO 192, BIO 193) prior to taking the Biochemistry sequence.

Since the Undergraduate Common Core in Chemistry, Mathematics, and Physics is particularly demanding in the first two years, students take the majority of their Liberal Studies courses in their junior and senior years. This is necessary so that students have the necessary prerequisites for advanced courses.
Track Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Analytical/Physical Chemistry Track
- Biochemical/Synthetic Medicinal Chemistry Track
- Standard Track

Analytical/ Physical Chemistry Track

The Analytical/Physical Chemistry Track offers a variety of courses at the upper-level to prepare for advanced study or employment in the areas of analytical chemistry or physical chemistry

Course Requirements

In addition to the Undergraduate Common Core in Chemistry, Mathematics, and Physics, students must take

- CHE 234 ORGANIC CHEMISTRY III and CHE 235 ORGANIC CHEMISTRY LABORATORY III
- CHE 306 KINETICS AND MOLECULAR DYNAMICS and CHE 307 EXPERIMENTAL PHYSICAL CHEMISTRY III
- Sixteen quarter hours taken from the following list:
  - CHE 264 ATMOSPHERIC CHEMISTRY and CHE 265 ATMOSPHERIC CHEMISTRY LABORATORY
  - CHE 268 SOLID WASTE CHEMISTRY and CHE 269 SOLID WASTE CHEMISTRY LABORATORY
  - CHE 310 NUCLEAR CHEMISTRY
  - CHE 318 BIOPHYSICAL CHEMISTRY

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Biochemical/ Synthetic Medicinal Chemistry Track

The Biochemical and Synthetic Medicinal Chemistry Track offers students a solid preparation for work in biotechnology and pharmaceutical fields. The track also provides a good foundation for those interested in professional fields such as medicine, dentistry, pharmacy, or veterinary science. Students who are thinking of pursuing advanced work in biomedical or medicinal or synthetic chemistry will benefit from this track as well.

Course Requirements

In addition to the Undergraduate Common Core in Chemistry, Mathematics and Physics, students must take
- CHE 234 ORGANIC CHEMISTRY III and CHE 235 ORGANIC CHEMISTRY LABORATORY III
- CHE 342 BIOCHEMISTRY II and CHE 343 EXPERIMENTAL BIOCHEMISTRY II
- CHE 344 BIOCHEMISTRY III and CHE 345 EXPERIMENTAL BIOCHEMISTRY III
- Twelve quarter hours taken from the following list:
  - CHE 306 KINETICS AND MOLECULAR DYNAMICS and CHE 307 EXPERIMENTAL PHYSICAL CHEMISTRY III
  - CHE 318 BIOPHYSICAL CHEMISTRY
  - CHE 326 ORGANOMETALLIC CHEMISTRY and CHE 327 ORGANOMETALLIC CHEMISTRY LABORATORY
  - CHE 348 CHEMICAL BIOLOGY
  - CHE 360 MEDICINAL CHEMISTRY
  - CHE 362 DRUGS AND TOXICOLOGY
  - CHE 378 APPLIED SPECTROSCOPY

The General Biology sequence (BIO 191/BIO 192/BIO 193) may be of interest to students in this track. The sequence is not required but is recommended if time permits.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Standard Track
The Standard Track is the most flexible option for undergraduate study. It is suited for those students who have a broader interests and would like the additional flexibility in course selections.

Course Requirements
In addition to the Undergraduate Common Core, students are required to take
- CHE 234 ORGANIC CHEMISTRY III and CHE 235 ORGANIC CHEMISTRY LABORATORY III
- CHE 306 KINETICS AND MOLECULAR DYNAMICS and CHE 307 EXPERIMENTAL PHYSICAL CHEMISTRY III
- Additional sixteen quarter hours taken from any chemistry course numbered CHE 250 or above but below CHE 400.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor's/ Master's Degree
The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The Chemistry (BS) offers two options:
- Chemistry (BS)/Chemistry (MS)
- Chemistry (BS)/Secondary Education Chemistry (MEd)
Chemistry (BS)/Chemistry (MS)

Students planning to integrate a BS and MS degree program at DePaul University should inquire of the Director of Graduate Studies as undergraduate juniors. Students who have applied and are accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year; these graduate courses apply toward both undergraduate and graduate Chemistry requirements.

Chemistry (BS)/Secondary Education Chemistry (MEd)

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units. A full description of the Program can be found on the College of Education website in the graduate course catalog.

Chemistry (Minor)

As a Chemistry minor, you will learn the fundamentals of chemical theory and practice through scientific investigation and laboratory experience.

Course Requirements

- CHE 130 GENERAL CHEMISTRY I and CHE 131 GENERAL CHEMISTRY I LABORATORY
- CHE 140 UNIVERSITY CHEMISTRY I and CHE 141 UNIVERSITY CHEMISTRY LABORATORY I
- CHE 132 GENERAL CHEMISTRY II and CHE 133 GENERAL CHEMISTRY LABORATORY II
- CHE 142 UNIVERSITY CHEMISTRY II and CHE 143 UNIVERSITY CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III and CHE 135 GENERAL CHEMISTRY LABORATORY III
- CHE 144 UNIVERSITY CHEMISTRY III and CHE 145 UNIVERSITY CHEMISTRY LABORATORY III
- CHE 202 APPLIED PROBABILITY AND STATISTICS
- CHE 204 ANALYTICAL CHEMISTRY and CHE 205 ANALYTICAL CHEMISTRY LABORATORY
- CHE 230 ORGANIC CHEMISTRY I and CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II and CHE 233 ORGANIC CHEMISTRY LABORATORY II
- One additional 4 credit-hour course numbered above CHE 250

The department offers General Chemistry each summer. In this case, the combination of CHE 136/CHE 137 and CHE 138/CHE 139 may substitute for the three-quarter sequences above.

Students cannot earn a minor in the same academic program as their major.

Chinese Language (Minor)

DePaul’s Chinese Language minor focuses on developing an intermediate proficiency in spoken and written Chinese, one of the world’s major languages that is growing in importance in our global society.

The minor consists of a total of 5 courses in Chinese language at the 200/300-level.

Students majoring in Chinese Studies (BA) or minoring in Chinese Studies are restricted from earning this minor.
Chinese Studies (BA)

DePaul's Chinese Studies program focuses on developing the ability to speak Chinese and understand Chinese culture. Twenty percent of the global population speaks Chinese, making it the most widely used language in the world. Having the ability to communicate in Chinese provides students with many career opportunities around the world.

Chinese Studies courses focus on a variety of topics, including:

- Art
- Business
- Economics
- History
- Language
- Literature
- Philosophy
- Politics
- Religion

Chinese Studies students often earn a second degree in a complementary field of study, such as International Business or International Studies.

As a Chinese Studies major, the student is encouraged to participate in one of DePaul's Study Abroad programs in Beijing, Hong Kong or Shanghai. By studying and living in China for an extended period of time, the student will experience the Chinese language and culture first-hand.

Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information
  - Express feelings and emotions.
  - Exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.
College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see “Special Programs”).

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- Required *

Learning Domains

Arts and Literature (AL)

- 1 Course Required
Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

- 24-32 credit hours of 200/300 level courses in Chinese Language
- 20-28 credit hours of Allied Courses from at least three different departments

Students who begin their study of Chinese at DePaul with CHN 202 or higher may substitute a 300-level Chinese elective course for any of the required 200-level courses.
Chinese Studies Allied Course List

Art and Architecture, History of

- HAA 115 ASIAN ART
- HAA 215 CHINESE ART

- MOL 250 CHINESE CINEMA -- A WINDOW ON CHINA
Cinema Studies (Minor)

The Cinema Studies minor provides students with the skills to analyze film critically across genres, along with a basic competency in film production in two areas of the student’s choice.

Course Requirements

- MCS 273 STORYTELLING & STYLE IN CINEMA
- Three History/Criticism Courses from the following:
  - MCS 207 HISTORY OF CINEMA I, 1890-1945
  - MCS 208 HISTORY OF CINEMA II, 1945-1975
  - MCS 231 INTRODUCTION TO DOCUMENTARY STUDIES
  - MCS 331 TOPICS IN DOCUMENTARY STUDIES
  - MCS 343 MEDIA ETHICS
  - MCS 344 THE SEXUAL REVOLUTION: HOLLYWOOD IN THE 1960s
  - MCS 348 TOPICS IN FILM GENRE
  - MCS 349 TOPICS IN FILM STUDIES
  - MCS 350 TOPICS IN GLOBAL CINEMA
  - MCS 360 B-MOVIES
  - MCS 383 TALKING ABOUT FILM: THEORY & CRITICISM
- Two Production courses from the following:
Cities (Minor)

The interdisciplinary Cities Minor brings together the prominent emphases on the material landscapes and cultural environments of the city evident in Geography courses and History of Art and Architecture courses. While both History of Art and Architecture and Geography have different kinds of theoretical or historical questions, they nevertheless strongly overlap when considering how the specific geographic spaces of cities unfold as particular spatial and cultural constructs. Courses in the minor thus explore the variety of ways in which the spaces of cities relate to their historical/geographical materiality. In this sense, culture is broadly construed to encompass the spatial, aesthetic, linguistic, and other social practices that define the material and phenomenological particularities of cities.

Course Requirements

- GEO 103 URBANIZATION
- GEO 233 COMPARATIVE URBANISM
- HAA 280 HISTORY OF PREMODERN ARCHITECTURE
- HAA 281 HISTORY OF MODERN ARCHITECTURE
- One Geography course from the following list:
  - GEO 133 URBAN GEOGRAPHY - EXPERIENTIAL LEARNING
  - GEO 200 SUSTAINABLE URBAN DEVELOPMENT
  - GEO 205 URBAN ENVIRONMENTAL JUSTICE
  - GEO 230 SUSTAINABLE URBAN TRANSPORTATION
  - GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
  - GEO 331 CHICAGO: SPATIAL ANATOMY OF A METROPOLIS
  - GEO 333 URBAN PLANNING
- One course listed by History of Art and Architecture as World Cities:
  - HAA 373 KYOTO (WORLD CITIES)
  - HAA 375 MEXICO CITY (WORLD CITIES)
  - HAA 376 ROME (WORLD CITIES)
  - HAA 378 HEAVENLY AND EARTHLY JERUSALEM (WORLD CITIES)
  - HAA 379 PARIS AND VICINITY TO CIRCA 1870 (WORLD CITIES)
  - HAA 380 CHICAGO ARCHITECTURE AND URBANISM (WORLD CITIES)
  - HAA 384 BERLIN: UNIFICATION/REUNIFICATION (WORLD CITIES)
  - HAA 385 LONDON (WORLD CITIES)

Additional courses may be substituted with the consent of an advisor in the Department of Geography or History of Art and Architecture. No more than three courses can come from the same department as the student's major.
Classical Studies (Minor)

The Classical Studies minor offers a basic grounding in Latin or Greek, along with a more in-depth exploration of at least two disciplines focusing on the history, culture, art or religion of the ancient Western world.

Course Requirements

- Three quarters of college-level Ancient Greek or Latin (at any level).
- Five additional courses focusing on Ancient Greece or Rome from at least two different disciplines, chosen in consultation with an advisor or faculty member, from the current approved Classical Studies Allied Course List. For any of these five courses students are strongly encouraged to substitute any intermediate level course in Ancient Greek or Latin.

Classical Studies Allied Course List

Art and Architecture, History of

- HAA 230 ANCIENT MEDITERRANEAN ART
- HAA 231 EARLY MEDIEVAL ART
- HAA 234 BYZANTINE ART
- HAA 332 ROMANESQUE ART AND ARCHITECTURE
- HAA 376 ROME (WORLD CITIES)
- HAA 397 SPECIAL TOPICS/HISTORY OF ART & ARCHITECTURE : Rome Archaeology, Art, and Architecture of the Ancient City (Rome)

Comparative Literature

- CPL 301 EPIC AND ROMANCE (applicable only based on time period discussed, which is not defined in the course description)

Coaching (Minor)

A minor in Coaching is designed for students interested in acquiring a second teaching area in physical education to coach in a school or professional setting.

Course Requirements
- PE 302 FIRST AID: RESPONDING TO EMERGENCIES
- PE 303 ATHLETIC INJURIES
- PE 346 ORGANIZATION/ADMINISTRATION OF PHYSICAL EDUCATION, SPORTS & FITNESS PROGRAMS
- PE 351 KINESIOLOGY
- PE 352 PHYSIOLOGY OF EXERCISE
- PE 390 PSYCHO-SOCIAL ASPECTS OF EXERCISE AND SPORT
- PE 391 THEORY AND TECHNIQUES OF COACHING
- BIO 202 HUMAN PHYSIOLOGY

**Note: Students in DePaul's College of Education programs in Physical Education or Exercise Science cannot select the Coaching minor.**
Commercial Chinese Minor

The Commercial Chinese Studies Minor offers a basic understanding of the Chinese Language along with an exploration of Chinese business operations and contexts.

Course Requirements

- Three quarters of college-level Chinese language (at any level).
- Five additional courses focusing on Chinese business and economy from at least three different disciplines, chosen in consultation with an advisor or faculty member, from the Commercial Chinese Studies Allied Course List.

Commercial Chinese Studies Allied Course List

Chinese Studies

- CHN 252 INTRODUCTION TO COMMERCIAL CHINESE
- CHN 320 CHINESE FOR BUSINESS

Economics

- ECO 334 UNDERSTANDING CHINA'S ECONOMY

Geography

- GEO 215 INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY
- GEO 266 THE WORLD ECONOMY
- GEO 315 THE STATE & ECONOMIC GROWTH IN EAST ASIA

Management

- ICS 350 INTERNATIONAL BUSINESS SEMINAR
- MGT 357 INTERNATIONAL BUSINESS
- MGT 398 SPECIAL TOPICS

Marketing

- MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
- MKT 360 INTERNATIONAL MARKETING

Philosophy

- PHL 398 TRAVEL/STUDY

Political Science

- PSC 246 ASIAN FOREIGN POLICY
- PSC 343 ASIAN POLITICAL ECONOMY
- PSC 353 COMPARATIVE DEMOCRACY AND DICTATORSHIP

Students majoring in Chinese Studies (BA) or minoring in Chinese Language or Chinese Studies are restricted from earning this minor.
Commercial French (Minor)

The Commercial French minor program is offered to students who wish to be proficient enough to conduct business in French. Students completing the minor are encouraged to take the business language certification exams given by the French government through their respective chambers of commerce.

Course Requirements

- FCH 320 FRENCH FOR BUSINESS
- Four more courses at the 200/300 level in French. At least one must be at the 300 level.

Students majoring in French (BA) or minoring in French or French Translation are restricted from earning this minor.

Commercial Spanish (Minor) Overview

The Commercial Spanish minor program is for students who wish to be proficient enough to conduct business in Spanish. Students completing the minor are encouraged to take the business language certification exam in Spanish.

Course Requirements

- SPN 320 COMMERCIAL SPANISH II
- Four more courses at the 200/300 level in Spanish. The department recommends that those four courses include SPN 252 COMMERCIAL SPANISH I.

Students majoring in Spanish (BA) or minoring in Spanish are restricted from earning this minor.

Communication and Media (BA)

The College of Communication offers a variety of courses leading to a Bachelor of Arts degree in Communication and Media. The B.A. in Communication and Media offers students the opportunity to pursue coursework in communication and media that draws upon two or more related areas of study. This degree will provide flexibility for transfer students and others who have not determined their precise career trajectory, while affording them the fundamental communication and critical thinking skills needed to enter jobs across the public, private and non-profit sectors, or to continue their education in academic or professional post-graduate programs. This major is designed especially for those students holding allied field interests, as well as those who would like to complete a communication degree by taking mostly evening courses. In order to complete this degree, students have the option of pursuing coursework from any of the other majors offered in the College of Communication.

DePaul University

Winter/Spring/Summer 2016-2017

Page 184 of 2776
Learning Outcomes

Students will be able to:

- Understand and analyze the complexities of human communication.
- Construct a presentation that tailors ideas to a specific audience.
- Analyze and evaluate content from various media.
- Explain how elements of formal style impact an audience's interpretation of a creative work.

College Core Requirements

All majors in the College of Communication (with the exception of Public Relations and Advertising) consist of a total of fourteen courses: a four-course common core plus an additional combination of ten program requirements and electives. The Public Relations and Advertising major consists of a total of fifteen courses: a four-course common core plus an additional combination of eleven program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:

- CMN 101 INTRODUCTION TO HUMAN COMMUNICATION
- CMN 102 INTRODUCTION TO MASS COMMUNICATION
- CMN 103 INTERCULTURAL COMMUNICATION
- CMN 104 PUBLIC SPEAKING

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination. (Note that CLEP scores may be used only to meet the language requirement. Credit is not awarded in modern languages on the basis of CLEP scores).

Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to
complete the entire three-course introductory sequence.

**Modern Language Option**

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College's modern language requirement. Students selecting the option may substitute a three-course language sequence for two learning domain courses and one open elective. Students may use the Modern Language Option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the SWK or Lab). Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

**Focal Point**

- LSP 112 FOCAL POINT SEMINAR

**Writing**

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II

**Quantitative Reasoning & Technological Literacy**

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below.)

**Sophomore Year**

**Multiculturalism in the US**

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

**Junior Year**

**Experiential Learning**

- Required

**Senior Year**

**Capstone**

- CMN 396 CAPSTONE IN COMMUNICATION *

**Learning Domains**
Arts and Literature (AL)
- 2 Courses Required

Philosophical Inquiry (PI)
- 2 Courses Required

Scientific Inquiry (SI)
- 3 Courses Required
  (1 SWK Course, 1 Lab Course, and 1 Additional Course)

Social, Cultural, and Behavioral Inquiry (SCBI)
- 2 Courses Required

Religious Dimensions (RD)
- 2 Courses Required

Understanding the Past (UP)
- 2 Courses Required

* Students must earn a C- or better in this course.

Note
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy
Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements
- One presentation skills course from the following selection of classes:
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
  - CMNS 230 PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY
  - CMNS 330 TOPICS IN PERFORMANCE
  - CMNS 336 STORYTELLING: COMMUNICATION AS NARRATIVE
  - CMNS 399 PERFORMANCE OF HUMOR
One media analysis course from the following selection of classes:
- MCS 231 INTRODUCTION TO DOCUMENTARY STUDIES
- MCS 271 MEDIA AND CULTURAL STUDIES
- MCS 273 STORYTELLING & STYLE IN CINEMA

Two elective courses from CMNS or ORGC
Two elective courses from JOUR, MCS or PRAD
Four courses from CMNS, ORGC, JOUR, MCS, PRAD or from the DC courses listed below (maximum 2 DC courses):
- DC 200 MEDIA LITERACIES
- DC 201 INTRODUCTION TO SCREENWRITING
- DC 210 DIGITAL CINEMA PRODUCTION I
- DC 215 INTRODUCTION TO SOUND DESIGN
- DC 220 EDITING I
- DC 271 INTRODUCTION TO TELEVISION PRODUCTION
- DC 272 INTRODUCTION TO TELEVISION WRITING
- DC 275 CINEMATOGRAPHY I
- DC 301 ADVANCED SCREENWRITING I
- DC 310 DIGITAL CINEMA PRODUCTION II
- DC 371 DOCUMENTARY PRODUCTION
- DC 372 TOPICS IN TV PRODUCTION

At least 5 major field courses (20 hours) must be at the 300 level

**Internship Credit**

Students in the major may take CMN 394 COMMUNICATION INTERNSHIP and/or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

---

**Communication and Media (Minor)**

The Communication and Media minor is for students interested in multiple areas of the media who wish to further their skills in effective communication to complement their major course of study.

**Course Requirements**

A minor in Communication and Media consists of 24 credit hours (six courses).

- 3 courses starting with the prefix CMNS or ORGC
- 3 courses starting with the prefix JOUR, MCS or PRAD

Any of those six courses may be replaced with:

- CMN 394 COMMUNICATION INTERNSHIP
  or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS

Students majoring in Communication and Media (BA) are restricted from earning this minor.
Communication Studies (BA)

The College of Communication offers a variety of courses leading to a Bachelor of Arts degree in Communication Studies. The program explores effective and participatory communication in interpersonal, small group, public, organizational, intercultural, rhetorical and performative contexts. Through a blend of theory and practice, students are encouraged to think, speak, and write clearly; to develop confidence and ability as ethical communicators; to view communication events from multiple perspectives; to understand the multicultural character of communication in contemporary society; to analyze and evaluate variables operating in verbal transactions; to probe the basic problems of human communication in order to understand self, others, and events; and to recognize the connections between communication studies and other disciplines.

Students whose professional goals are in the public, private, or non-profit sectors, such as government, training and human resources, and social and human services are well served by relational, group, and organizational communication, as well as courses in communication and culture, performance studies, and rhetoric. In addition, the B.A. in Communication Studies prepares students who want to continue their education, to excel in academic or professional graduate programs.

Learning Outcomes

Students will be able to:

- Describe the impact of language/discourse on attitudes, behaviors, and identity formation.
- Explain the symbiotic relationship between communication and culture.
- Compare and contrast the capacities necessary to exert influence and affect change in relational, group, organizational, and/or intercultural settings.
- Appraise the communication skills necessary to work effectively in relational, group, organizational, and/or intercultural settings.

College Core Requirements

All majors in the College of Communication (with the exception of Public Relations and Advertising) consist of a total of fourteen courses: a four-course common core plus an additional combination of ten program requirements and electives. The Public Relations and Advertising major consists of a total of fifteen courses: a four-course common core plus an additional combination of eleven program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:

- CMN 101 INTRODUCTION TO HUMAN COMMUNICATION
Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination. (Note that CLEP scores may be used only to meet the language requirement. Credit is not awarded in modern languages on the basis of CLEP scores).

Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for two learning domain courses and one open elective. Students may use the Modern Language Option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the SWK or Lab). Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.

Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

At least five courses (20 credits) toward the Communication Studies major must be 300 level.

- One Communication methods course chosen from:
  - CMNS 291 RESEARCH METHODS
  - CMNS 310 DISCOURSE ANALYSIS
  - CMNS 321 CULTURAL AND SYMBOLIC CRITICISM
  - CMNS 327 RESEARCHING RELATIONSHIPS
  - CMNS 331 COMMUNICATION FIELDWORK
  - CMNS 332 TOPICS IN INTERCULTURAL COMMUNICATION METHODOLOGY
  - CMNS 382 QUANTITATIVE RESEARCH METHODS IN COMMUNICATION STUDIES

- One presentation skills course chosen from:
  - CMNS 230 PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY
  - CMNS 330 TOPICS IN PERFORMANCE
  - CMNS 336 STORYTELLING: COMMUNICATION AS NARRATIVE
  - CMNS 365 ARGUMENTATION, ADVOCACY, AND DELIBERATION
  - CMNS 369 PERFORMANCE OF HUMOR
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
  - ORGC 354 EMPLOYMENT INTERVIEWING

- Five Communication Studies electives (20 credits) chosen from:
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS
  - CMNS 205 COMMUNICATION, CULTURE AND COMMUNITY
  - CMNS 206 COMMUNICATING MULTICULTURAL IDENTITIES
  - CMNS 211 INTERPERSONAL COMMUNICATION
  - CMNS 230 PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY
  - CMNS 290 COMMUNICATION WORKSHOP (VARIABLE TOPICS) (2 cr.)
  - CMNS 291 RESEARCH METHODS
  - CMNS 304 COMMUNICATION AND ENTREPRENEURSHIP
  - CMNS 307 TOPICS IN POLITICAL AND SOCIAL COMMUNICATION
  - CMNS 308 TOPICS IN INTERCULTURAL COMMUNICATION
  - CMNS 309 INTERNATIONAL/GLOBAL COMMUNICATION
  - CMNS 310 DISCOURSE ANALYSIS
  - CMNS 311 TOPICS IN RELATIONAL COMMUNICATION
  - CMNS 312 EVOLUTION AND COMMUNICATION
  - CMNS 313 NONVERBAL COMMUNICATION
  - CMNS 314 FAMILY COMMUNICATION
  - CMNS 315 HEALTH COMMUNICATION
  - CMNS 318 CLOSE RELATIONSHIPS
  - CMNS 319 THE DARK SIDE OF PERSONAL RELATIONSHIPS
  - CMNS 320 DECEPTIVE COMMUNICATION
  - CMNS 321 CULTURAL AND SYMBOLIC CRITICISM
  - CMNS 323 SOCIAL MOVEMENTS
- CMNS 324 CULTURE OF CONSUMPTION
- CMNS 325 PROMOTING SUSTAINABLE PRACTICES
- CMNS 326 ENVIRONMENTAL POLITICS AND RHETORIC
- CMNS 327 RESEARCHING RELATIONSHIPS
- CMNS 328 HISTORY OF RHETORIC AND COMMUNICATION
- CMNS 329 PERSUASION
- CMNS 330 TOPICS IN PERFORMANCE
- CMNS 331 COMMUNICATION FIELDWORK
- CMNS 332 TOPICS IN INTERCULTURAL COMMUNICATION METHODOLOGY
- CMNS 333 CULTURAL WAYS OF SPEAKING
- CMNS 334 URBAN COMMUNICATION
- CMNS 335 LATINO COMMUNICATION, CULTURE, & COMMUNITY
- CMNS 336 STORYTELLING: COMMUNICATION AS NARRATIVE
- CMNS 337 ASIAN-AMERICAN MEDIA REPRESENTATIONS
- CMNS 338 ASIAN CULTURE AND COMMUNICATION
- CMNS 339 PERFORMANCE OF GENDER & SEXUALITY
- CMNS 340 COMMUNICATING & DATING
- CMNS 341 COMMUNICATION NETWORKS IN A DIGITAL AGE
- CMNS 342 LIVING ONLINE
- CMNS 355 CONFLICT MANAGEMENT
- CMNS 360 RELATIONAL, GROUP, AND ORGANIZATIONAL THEORY
- CMNS 361 GENDER AND COMMUNICATION
- CMNS 365 ARGUMENTATION, ADVOCACY, AND DELIBERATION
- CMNS 366 COMMUNICATION, TECHNOLOGY AND SOCIETY
- CMNS 367 PERFORMANCE FOR SOCIAL CHANGE
- CMNS 369 PERFORMANCE OF HUMOR
- CMNS 382 QUANTITATIVE RESEARCH METHODS IN COMMUNICATION STUDIES
- CMNS 392 INDEPENDENT STUDY
- CMNS 393 COMMUNICATION STUDIES PRACTICUM (2 cr.)
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- ORGC 212 SMALL GROUP COMMUNICATION
- ORGC 251 ORGANIZATIONAL COMMUNICATION
- ORGC 290 ORGANIZATIONAL COMMUNICATION WORKSHOP (VARIABLE TOPICS) (2 cr.)
- ORGC 316 COMMUNICATION AND GROUP DECISION-MAKING
- ORGC 352 COMMUNICATION AND THE CORPORATE CULTURE
- ORGC 353 COMMUNICATION AND ORGANIZATIONAL CHANGE
- ORGC 354 EMPLOYMENT INTERVIEWING
- ORGC 355 DARK SIDE OF ORGANIZATIONAL COMMUNICATION
- ORGC 356 COMMUNICATION CONSULTING
- ORGC 357 TOPICS IN GROUP AND ORGANIZATIONAL COMMUNICATION
- ORGC 358 DIVERSITY, LEADERSHIP, & TEAM BUILDING
- ORGC 359 VIRTUAL TEAMS
- ORGC 393 ORGANIZATIONAL COMMUNICATION PRACTICUM (2 cr.)

- Three electives from any College of Communication offering (These do not count toward the 300 level requirement)

**Internship Credit**

Students in the major may take CMN 394 COMMUNICATION INTERNSHIP and/or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The following Communication graduate programs have been approved as combined degree options:

- Digital Communication and Media Arts (MA)
- Health Communication (MA)
- Journalism (MA)
- Media and Cinema Studies (MA)
- Organizational and Multicultural Communication (MA)
- Public Relations and Advertising (MA)
- Relational Communication (MA)

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their B.A. degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Digital Communication and Media Arts (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Digital Communication and Media Arts coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the DCMA core courses (CMNS 570 and MCS 575) and one DCMA elective course during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Health Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, and have successfully completed three 300-level courses in their major are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Health Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take the HTHC core courses (HTHC 515, HTHC 516, HTHC 517) during the senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Journalism (MA)

Students with junior status who have earned a 3.25 GPA in their major courses and have a 3.0 cumulative GPA are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample or project that demonstrates the applicant's ability in journalism, and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Journalism coursework which will fulfill undergraduate Journalism major electives, communication electives and/or open electives. Students admitted to
the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirements, they will not be allowed to continue as a graduate student in the program.

**Media and Cinema Studies (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Media and Cinema Studies coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the MCS core courses (MCS 501, MCS 502, MCS 504) and one MCS elective during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Organizational and Multicultural Communication (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, and have successfully completed three 300-level Communication courses are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, CMNS 501, CMNS 541, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Public Relations and Advertising (MA)**

Students with junior status who have earned a 3.25 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, have successfully completed three 300-level Communication courses, and are currently holding one or more PRAD internships or jobs are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), one letter of recommendation from a PRAD professor, and one letter of recommendation from a supervisor at a PRAD-related internship or job.

During their senior year students complete 12 graduate credit hours of Public Relations and Advertising coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take three core courses during their senior year (examples: PRAD 553, PRAD 555, PRAD 575, and PRAD 585). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Relational Communication (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.
During their senior year students complete 12 graduate credit hours of Relational Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, RELC 500*, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

* For BA/MA students who are completing their BA in Relational Communication and seeking an MA in Relational Communication, the core course requirement of RELC 500 – Theories of Relational Communication will be waived. Students waived from having to take RELC 500 will replace the course with an additional graduate RELC elective course (still completing the required total of 48-credit hours).

---

**Communication Studies (Minor)**

The Communication Studies minor is focused on preparing students to communicate effectively in any career. Emphasis is placed on speaking and writing for presentation, along with professional, workplace communication.

**Course Requirements**

A minor in Communication Studies consists of 6 course offerings in Communication Studies.

- One communication methods course chosen from the following selection of methods classes:
  - CMNS 291 RESEARCH METHODS
  - CMNS 310 DISCOURSE ANALYSIS
  - CMNS 321 CULTURAL AND SYMBOLIC CRITICISM
  - CMNS 327 RESEARCHING RELATIONSHIPS
  - CMNS 331 COMMUNICATION FIELDWORK
  - CMNS 332 TOPICS IN INTERCULTURAL COMMUNICATION METHODOLOGY
  - CMNS 382 QUANTITATIVE RESEARCH METHODS IN COMMUNICATION STUDIES

- One presentation skills course from the following selection of classes:
  - CMN 104 PUBLIC SPEAKING
  - CMNS 230 PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY
  - CMNS 330 TOPICS IN PERFORMANCE
  - CMNS 336 STORYTELLING: COMMUNICATION AS NARRATIVE
  - CMNS 365 ARGUMENTATION, ADVOCACY, AND DELIBERATION
  - CMNS 369 PERFORMANCE OF HUMOR
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
  - ORGC 354 EMPLOYMENT INTERVIEWING

- Four additional courses (20 hours) from CMNS or ORGC. Students may include
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS

Students majoring in Communication Studies (BA) are restricted from earning this minor.
Community Service Studies (Minor)

The Community Service Studies (CSS) Minor is a multidisciplinary program that provides a framework for understanding and engaging in critical social issues at the level of community. While the notion of community is increasingly complex, the program explores the nuances of community as defined through the lens of groups with common affiliation, identity, or grievance that may be geographically or non-geographically based. The curriculum relies heavily on community-based service learning courses and is designed to provide students with a foundation of analytical, reflective, interpersonal, and leadership skills. Through supporting university partnerships with Chicago-area community-based organizations, students gain a local perspective on social justice issues, including those built on race, class, and gender inequalities and other forms of social, economic and political exclusion.

The practice of service is often shaped by particular economic and cultural circumstances related to power, privilege, and identity. A central component of CSS is the importance of viewing communities through an asset lens and thus working to support existing community strengths rather than responding to needs. Students minoring in CSS therefore develop strong critical self-reflection skills that guide them as future leaders in making ethical and socially responsible decisions.

Course Requirements

- CSS 201 CRITICAL COMMUNITY ENGAGEMENT
- CSS 300 INTRODUCTION TO NON-PROFIT MANAGEMENT
- CSS 395 COMMUNITY INTERNSHIP
- One EL-CbSL (community-based service learning) course from the Approved Electives list
- Two electives from the Approved Electives list

Approved Electives

Courses with an asterisk (*) are EL-CbSL courses

- ABD 275 BLACK FEMINIST THEORIES IN A U.S. CONTEXT *
- ABD 290 SPECIAL TOPICS
- ART 291 MURAL PAINTING *
- ART 292 COMMUNITY VIDEO PRODUCTION *
- ART 382 STUDENTS TEACHING ART IN THE ELEMENTARY CLASSROOM *
- ART 383 SERVICE LEARNING IN THE ARTS INTERNSHIP *
- ANT 322 COMMUNITY-BASED APPLIED PRACTICE
- CTH 247 ROMAN CATHOLIC SOCIAL THOUGHT IN CONTEXT
- CTH 248 CONTEMPORARY MORAL ISSUES
- CTH 282 GOD, JUSTICE AND REDEMPTIVE ACTION
- CTH 290 THE LIFE AND TIMES OF VINCENT DE PAUL
- CTH 293 NOTABLE VINCENTIAN WOMEN
- CTH 341 LIBERATION THEOLOGY: THEORY AND PRACTICE *
- CTH 354 SPECIAL TOPICS IN CATHOLIC THOUGHT
- CTH 386 THE CATHOLIC CHURCH IN WORLD POLITICS
- CMNS 205 COMMUNICATION, CULTURE AND COMMUNITY *
- CMNS 323 SOCIAL MOVEMENTS
- CMNS 361 GENDER AND COMMUNICATION
- CMNS 391 COMMUNITY JOURNALISM
- CSS 101 CATHOLIC SOCIAL TEACHING AND REFLECTION
- CSS 310 RESTORATIVE JUSTICE: ENGAGEMENT WITH THE PRISON
- CSS 311 MASCULINITY, JUSTICE AND LAW
- CSS 312 LAW AND POLITICS: PRISON POLICIES AND RESTORATIVE JUSTICE
- CSS 399 INDEPENDENT STUDY
- CSS 320 COMMUNITY FOOD SYSTEMS
- ENV 245 URBAN AND COMMUNITY AGRICULTURE
- GEO 133 URBAN GEOGRAPHY - EXPERIENTIAL LEARNING
- GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
- HON 351 HONORS SENIOR SEMINAR IN SERVICE LEARNING *
- LST 202 CONSTRUCTING LATINO COMMUNITIES
- LST 306 LATINO COMMUNITIES IN CHICAGO
- LST 307 GROWING UP LATINO/LATINA IN THE U.S. *
- LST 308 MOTHERHOOD IN LATINO COMMUNITIES *
- PAX 200 COMMUNITIES WORKING FOR SUSTAINABLE JUSTICE AND PEACE: SERVICE IN CHICAGO AND THE U.S. *
- PAX 212 SOCIAL JUSTICE AND SOCIAL CHANGE
- PAX 220 SOCIAL ENGAGEMENT FOR PEACE AND JUSTICE
- PAX 231 ANALYZING POVERTY, ITS CAUSES AND CONSEQUENCES
- PHL 250 PHILOSOPHY AND SOCIAL CHANGE
- PSC 214 POLITICS AND MULTICULTURALISM
- PSC 218 AFRICAN-AMERICAN POLITICS
- PSC 223 URBAN POLITICS
- PSC 282 POLITICAL ACTION AND SOCIAL JUSTICE *
- PSC 286 CAMPAIGNS AND SOCIAL ENGAGEMENT *
- PSC 324 INEQUALITY IN AMERICAN SOCIETY
- PSC 345 THE CATHOLIC CHURCH IN WORLD POLITICS
- PSC 347 ETHICS IN WORLD POLITICS
- PSC 362 THE CRIMINAL JUSTICE SYSTEM
- PSY 220 LATINA/O PSYCHOLOGY
- PSY 305 PSYCHOLOGY AND SOCIAL JUSTICE *
- PSY 306 SERVICE LEARNING *
- PSY 310 CONNECTING WITH YOUTH THROUGH RESEARCH, ADVOCACY, AND SERVICE: QUARTER 1
- PSY 311 CONNECTING WITH YOUTH THROUGH RESEARCH, ADVOCACY, AND SERVICE: QUARTER 2
- PSY 312 CONNECTING WITH YOUTH THROUGH RESEARCH, ADVOCACY, AND SERVICE: QUARTER 3
- PPS 331 ENVIRONMENTAL JUSTICE *
- REL 222 CONTEMPORARY MORAL ISSUES
- REL 259 RELIGION AND SOCIAL ENGAGEMENT *
- REL 283 ROMAN CATHOLIC SOCIAL THOUGHT IN CONTEXT

- REL 351 LIBERATION THEOLOGY *
- SOC 200 SOCIAL WORK AND SOCIAL WELFARE
- SOC 212 COMMUNITY AND SOCIETY
- SOC 230 SEX AND GENDER IN THE CITY
- SOC 231 RACE AND ETHNICITY IN THE CITY
- SOC 248 WHITE RACISM
- SOC 340 SOCIAL INEQUALITY
- SOC 394 COMMUNITY BASED SOCIOLOGY
- SOC 398 INTERNSHIP (upon approval)*
- SPN 124 INTERMEDIATE SPANISH I: SERVICE LEARNING *
- SPN 125 INTERMEDIATE SPANISH II: SERVICE LEARNING *
- SPN 126 INTERMEDIATE SPANISH III: SERVICE LEARNING *
- SPN 391 SOCIOLINGUISTICS OF HERITAGE LANGUAGE LITERACY
- SPN 393 LATINO MEDIA AND DIGITAL CULTURE LITERACY
- SPN 394 LATINO CULTURAL LITERACY AND COMMUNITY ENGAGEMENT
- WGS 300 FEMINIST THEORIES
- WGS 303 GENDER, VIOLENCE AND RESISTANCE
- WGS 320 TRANSFORMATIVE JUSTICE: THEORY AND PRACTICE
- WGS 387 TEEN VIOLENCE PREVENTION
- WGS 394 WOMEN, SELF, AND SOCIETY SEMINAR
- WRD 377 WRITING AND SOCIAL ENGAGEMENT

Study Abroad Courses

Several Study Abroad experiences may be used to fulfill one or more course requirements for the Minor. Approval of these trips for the Minor must be obtained in consultation with the Director.

Comparative Literature (Minor)

The Comparative Literature minor enables students to study the history, theory, and criticism of literature across national, linguistic, and disciplinary boundaries. It is designed for students who combine the drive and the ability to master foreign languages with a strong commitment to theoretical and interdisciplinary approaches to literature. Students must do a substantial portion of their work in at least one foreign language. Although students will take many of their courses in the departments of their elected literary fields, the program in comparative literature is distinguished from national literature departments by its comparative scope and by the requirement of seminars that focus on fundamental theoretical questions regarding the nature of literature and literary inquiry. The requirements for the minor are designed to allow each student to follow a course of study
that combines intellectual rigor with the pursuit of personal interests.

**Course Requirements**

- CPL 355 CONTEMPORARY CRITICISM
- Choose one of the following two five-course options:
  - Option One
    - Five Comparative Literature offerings
  - Option Two
    - Four Comparative Literature offerings
    - One 300 level literature offering from Modern Languages in a language other than English

**Composition (BM)**

The Bachelor of Music degree in composition is comprised of a comprehensive range of courses including analysis, orchestration, counterpoint, compositional procedures, and contemporary musical styles. Throughout their studies, students work with a faculty of distinguished composers and participate in master classes with well-known guest composers. Student compositions may be performed at quarterly Composers Forums, and seniors may have a composition read through and recorded by Ensemble 20+, the School's student new music ensemble.

</table>

**Learning Outcomes**

**Core Outcomes**

Students will be able to:

- Perform with an acceptable tone quality, pitch and rhythmic accuracy, dynamic control, articulation, and expressiveness.
- Participate in a musical ensemble, with appropriate technique and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Identify significant composers and works in the Western music tradition, and trace the evolution of musical styles through the Medieval, Renaissance, Baroque, Classical, Romantic, and Contemporary periods, as well as in jazz and select world music cultures.
- Hear, notate, analyze, and perform music through aural skills, sight-singing, and keyboard skills.
- Demonstrate basic conducting knowledge and skills for both instrumental and vocal settings.
- Develop an expanded global awareness and cultural understanding through musical study
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

**Program Specific Outcomes**

Students will be able to:
• Compose consistently throughout the specialization.
  ■ Have at least one work performed on the student composers’ concert, known as Composers Forum.
• Demonstrate an emerging compositional voice or style, through compositions for a variety of ensembles, that reflects an awareness of prevalent musical styles of the 20th and 21st centuries.
• Analyze music of the common practice period as well as the 20th and 21st centuries.
• Demonstrate a fundamental knowledge of instrumentation while composing for large and small ensembles.
• Identify and demonstrate basic techniques used to create electro-acoustic music.
• Demonstrate contrapuntal techniques in the languages of at least two of the following:
  ■ 16th century counterpoint.
  ■ 18th century counterpoint.
  ■ 20th century counterpoint.
• Understand important musical works, focusing on music from 1700 to the present.
• Read and reflect on increasingly complex musical scores.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (36 credits)

• Musicianship Sequence
  ■ MUS 110 MUSICIANSHIP I
  ■ MUS 120 MUSICIANSHIP II
  ■ MUS 130 MUSICIANSHIP III
  ■ MUS 210 MUSICIANSHIP IV
  ■ MUS 220 MUSICIANSHIP V
  ■ MUS 230 MUSICIANSHIP VI
• Aural Training Sequence
  ■ MUS 111 AURAL TRAINING I
  ■ MUS 121 AURAL TRAINING II
  ■ MUS 131 AURAL TRAINING III
  ■ MUS 211 AURAL TRAINING IV
  ■ MUS 221 AURAL TRAINING V
  ■ MUS 231 AURAL TRAINING VI
• Group Piano Sequence
  ■ MUS 113 GROUP PIANO I
  ■ MUS 123 GROUP PIANO II
  ■ MUS 133 GROUP PIANO III
  ■ MUS 213 GROUP PIANO IV
  ■ MUS 223 GROUP PIANO V
  ■ MUS 233 GROUP PIANO VI

Additional Courses

• MUS 265 MUSICAL TRADITIONS OF AMERICA AND THE WORLD
• MUS 303 BASIC CONDUCTING PRACTICUM
• MUS 304 BASIC CONDUCTING

Applied Music

Students may enroll in a maximum of 4 credits of applied study per quarter, with a maximum of 48 credits total. The requirements for applied study vary by degree program:

• BM in performance, 48 credits
• BM in jazz studies, 30 credits
• BM in composition, 24 credits
BM in music education, 24 credits
BM in performing arts management, 24 credits
BA in music, 16 credits
BS in sound recording technology, 12 credits

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. The remaining two quarters of language (8 credits) will be applied towards free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- Not Required

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
  (Note: See Information Below.)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Learning Domains

Arts and Literature (AL)

- 2 Courses Required

Philosophical Inquiry (PI)

- 1 Course Required

Scientific Inquiry (SI)
• 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI)
• 1 Course Required

Religious Dimensions (RD)
• 1 Course Required

Understanding the Past (UP)
• 2 Courses Required

* Students must earn a C- or better in this course.

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Petition to Major

Students are admitted to a specialization on the basis of a petition to major process, which occurs during the spring of the freshmen or sophomore year. The petition to major process differs for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to enroll in classes in the specialization until they have passed their petition to major.

Course Requirements

Students are required to complete the following courses for a specialization in Composition:

• COM 315 COMPOSITION
• Choose two of the following three courses:
  • COM 301 16TH CENTURY COUNTERPOINT
  • COM 302 18TH CENTURY COUNTERPOINT
  • COM 303 20TH CENTURY COUNTERPOINT
• COM 300 ORCHESTRATION I
• COM 320 ORCHESTRATION II
• COM 305 ANALYTICAL STUDIES
• COM 326 ELECTRO-AcouSTIC MUSIC I
Computational Physics (Minor)

The Computational Physics minor provides a hands-on curriculum in computational and experimental physics with an emphasis on applications in modern, applied physics.

Course Requirements

- PHY 170 UNIVERSITY PHYSICS I
- PHY 171 UNIVERSITY PHYSICS II
- PHY 172 UNIVERSITY PHYSICS III
- PHY 270 UNIVERSITY PHYSICS IV
- PHY 300 METHODS OF COMPUTATIONAL AND THEORETICAL PHYSICS I
- PHY 301 METHODS OF COMPUTATIONAL AND THEORETICAL PHYSICS II

Students cannot earn a minor in the same academic program as their major.

Computer Science (BS)

The BS in Computer Science provides essential training in the foundations of computing, data storage and information processing. With this foundation, graduates of the program can easily adapt to and create new information technologies, new computing paradigms, and new ideas for applying computer systems.

The BS in Computer Science can be completed online by transfer students if they meet the following requirements:

- Have a minimum of 45 quarter/30 semester hours of transfer credit
- Completed one semester of Java or C++
- Have a minimum cumulative 2.0 GPA
- Be in good standing at the last school they attended

Note - The lab science requirement, English Composition I (WRD 103), and the pre-calculus prerequisite (MAT 130) for the Discrete Mathematics I (MAT 140) and Data Analysis (IT 223) requirements are not available online at DePaul and will need to be completed on campus or transferred in from another institution.

For more information on this option and a sample schedule please see http://www.cdm.depaul.edu/onlinelearning/Pages/BS-in-Computer-Science-Online-Degree-Completion.aspx.

Students can choose to study within one of three concentrations in the BS in Computer Science program:

- Software Development
- Software Engineering
- Game Systems

Learning Outcomes

Students will be able to:

- Interpret the informal description of an algorithm, translate the description to a program, and write tests to determine whether a program solves the intended problem.
- Analytically determine the running time of a program and validate the analysis experimentally.
- Select an appropriate combinatoric or statistical technique to solve an analytic problem.
- Analyze and select an algorithm based on systems effects.
- Solve a specific problem by selecting appropriate data structures, algorithms, and customize them to the problem.
- Correlate the input of a compiler and its assembly language output.
- Write programs that interact with other processes and with databases.
- Implement systems that run across several distributed computers.
- Criticize a program on the basis of its maintainability and suggest improvements.
- Interpret new APIs and use them in developing computer applications.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year
Experiential Learning

- Required

Senior Year

Capstone

- CSC 394 SOFTWARE PROJECTS *
  or GAM 395 GAME DEVELOPMENT PROJECT II (Game Systems concentration)

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required:
  - CSC 208 ETHICS IN TECHNOLOGY
  - 1 Additional Course

Religious Dimensions (RD)

- 2 Courses Required

Scientific Inquiry (SI)

- 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Note

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Major Requirements

Course Requirements

- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- CSC 300 DATA STRUCTURES IN JAVA I
- CSC 301 DATA STRUCTURES IN JAVA II
- CSC 321 DESIGN AND ANALYSIS OF ALGORITHMS
- CSC 347 CONCEPTS OF PROGRAMMING LANGUAGES
- CSC 373 COMPUTER SYSTEMS I
- CSC 374 COMPUTER SYSTEMS II
- MAT 140 DISCRETE MATHEMATICS I
- MAT 141 DISCRETE MATHEMATICS II
- WRD 204 TECHNICAL WRITING

Note: Students may take CSC 243 PYTHON FOR PROGRAMMERS and 1 Additional Major Elective in lieu of CSC 241 and CSC 242.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Software Development, Software engineering, or Game Systems.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Game Systems
- Software Development
- Software Engineering

Software Engineering Concentration

Course Requirements

- CSC 299 SOPHOMORE LAB IN APPLIED COMPUTING
- CSC 343 INTRODUCTION TO OPERATING SYSTEMS
  - or CSC 344 AUTOMATA THEORY AND FORMAL GRAMMARS
  - or CSC 348 INTRODUCTION TO COMPILER DESIGN
  - or CSC 389 THEORY OF COMPUTATION
- CSC 355 DATABASE SYSTEMS
- CSC 360 USER INTERFACE ARCHITECTURE AND DEVELOPMENT
- CSC 376 DISTRIBUTED SYSTEMS
- CSC 394 SOFTWARE PROJECTS
- IT 223 DATA ANALYSIS
- SE 325 INTRODUCTION TO SOFTWARE ENGINEERING
- SE 350 OBJECT-ORIENTED SOFTWARE DEVELOPMENT
- Students in the SE concentration choose 2 major electives from the following list:
  - SE 333 SOFTWARE TESTING
  - SE 352 OBJECT-ORIENTED ENTERPRISE APPLICATION DEVELOPMENT
  - SE 359 AGILE SOFTWARE DEVELOPMENT
  - CSC 308 FRAMEWORKS FOR WEB APPLICATION DEVELOPMENT
  - CSC 371 MOBILE APPLICATION DEVELOPMENT FOR IOS
  - ISM 360 USER-CENTERED EVALUATION
- Students in the SE concentration choose 2 CS major electives from the list of Introductory Major Field courses and Advanced Major Field courses below.

**Introductory Major Field Courses**

- ANI 230 3D DESIGN & MODELING
- CSC 233 CODES AND CIPHERS
- CSC 235 PROBLEM SOLVING
- CSC 281 WORKSHOP: JAVA FOR PROGRAMMERS
- CSC 282 WORKSHOP: LINUX FOR PROGRAMMERS
- CSC 309 C++ FOR PROGRAMMERS
- GAM 226 FUNDAMENTALS OF GAME DESIGN
- GAM 244 GAME DEVELOPMENT I
- GAM 245 GAME DEVELOPMENT II
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 231 WEB DEVELOPMENT I
- IT 232 WEB DEVELOPMENT II
- IT 263 APPLIED NETWORKS AND SECURITY
- MAT 150 CALCULUS I
- MAT 151 CALCULUS II

**Advanced Major Field Courses**

**Artificial Intelligence**

- CSC 357 EXPERT SYSTEMS
- CSC 358 SYMBOLIC PROGRAMMING
- CSC 380 FOUNDATIONS OF ARTIFICIAL INTELLIGENCE

**Computational Sciences**

- CSC 331 SCIENTIFIC COMPUTING

**Computer Game Development**

- CSC 361 OPTIMIZED C++
- GAM 350 PHYSICS FOR GAME DEVELOPERS
- GAM 372 OBJECT-ORIENTED GAME DEVELOPMENT
- GAM 377 GAME ENGINE PROGRAMMING II
- GAM 374 GAME ENGINE PROGRAMMING I
- GAM 376 ARTIFICIAL INTELLIGENCE FOR COMPUTER GAMES
- GAM 378 STRATEGY GAMES PROGRAMMING
- GAM 380 CONSOLE GAME DEVELOPMENT ENVIRONMENTS
- GAM 382 SERIOUS GAMES
- GAM 353 TOOL PROGRAMMING FOR GAME DEVELOPMENT
- GAM 386 GAME PROGRAMMING FOR MOBILE DEVICES
- GAM 390 MULTIPLAYER GAME DEVELOPMENT
- GAM 394 GAME DEVELOPMENT PROJECT I
- GAM 395 GAME DEVELOPMENT PROJECT II

- CSC 394 SOFTWARE PROJECTS
- IT 223 DATA ANALYSIS
- SE 350 OBJECT-ORIENTED SOFTWARE DEVELOPMENT
- Students in the Software Development Concentration choose 6 Major Electives courses from the Introductory and Advanced Major Field Course lists below. At least 4 of the 6 courses must be from the list of Advanced Major Field courses.

Introductory Major Field Courses

- ANI 230 3D DESIGN & MODELING
- CSC 281 WORKSHOP: JAVA FOR PROGRAMMERS
- CSC 282 WORKSHOP: LINUX FOR PROGRAMMERS
- CSC 309 C++ FOR PROGRAMMERS
- CSC 233 CODES AND CIPHERS
- CSC 235 PROBLEM SOLVING
- GAM 226 FUNDAMENTALS OF GAME DESIGN
- GAM 244 GAME DEVELOPMENT I
- GAM 245 GAME DEVELOPMENT II
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- ISM 336 INTERACTIVE MEDIA SCRIPTING FOR PROGRAMMERS
- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 231 WEB DEVELOPMENT I
- IT 232 WEB DEVELOPMENT II
- IT 263 APPLIED NETWORKS AND SECURITY
- MAT 150 CALCULUS I
- MAT 151 CALCULUS II

Advanced Major Field Courses

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Artificial Intelligence

- CSC 357 EXPERT SYSTEMS
- CSC 358 SYMBOLIC PROGRAMMING
- CSC 380 FOUNDATIONS OF ARTIFICIAL INTELLIGENCE

Computational Sciences

- CSC 331 SCIENTIFIC COMPUTING

Computer Game Development

- CSC 361 OPTIMIZED C++
- GAM 350 PHYSICS FOR GAME DEVELOPERS
- GAM 374 GAME ENGINE PROGRAMMING I
- GAM 376 ARTIFICIAL INTELLIGENCE FOR COMPUTER GAMES
- GAM 378 STRATEGY GAMES PROGRAMMING
- GAM 380 CONSOLE GAME DEVELOPMENT ENVIRONMENTS
- GAM 382 SERIOUS GAMES
- GAM 353 TOOL PROGRAMMING FOR GAME DEVELOPMENT
- GAM 372 OBJECT-ORIENTED GAME DEVELOPMENT
- GAM 377 GAME ENGINE PROGRAMMING II
- GAM 386 GAME PROGRAMMING FOR MOBILE DEVICES
- GAM 390 MULTIPLAYER GAME DEVELOPMENT
- GAM 394 GAME DEVELOPMENT PROJECT I
- GAM 395 GAME DEVELOPMENT PROJECT II

Computer Graphics

- GPH 321 COMPUTER GRAPHICS DEVELOPMENT I
- GPH 325 SURVEY OF COMPUTER GRAPHICS
- GPH 329 COMPUTER GRAPHICS DEVELOPMENT II
- GPH 339 ADVANCED RENDERING TECHNIQUES
- GPH 358 COMPUTER GRAPHICS AUTOMATION
- GPH 372 PRINCIPLES OF COMPUTER ANIMATION
- GPH 389 REAL-TIME GRAPHICS TECHNIQUES

Computer Networks

- TDC 362 PRINCIPLES OF DATA COMMUNICATIONS
- TDC 363 INTRODUCTION TO LOCAL AREA NETWORKS
- TDC 365 NETWORK INTERCONNECTION TECHNOLOGIES
- TDC 371 WIRELESS COMMUNICATIONS NETWORKS
- TDC 372 DIGITAL ACCESS SERVICES
- TDC 375 NETWORK PROTOCOLS
- TDC 377 FUNDAMENTALS OF NETWORK SECURITY
- TDC 379 TELECOMMUNICATION AND NETWORK SECURITY PRACTICUM

Computer Systems

- CSC 343 INTRODUCTION TO OPERATING SYSTEMS
- CSC 361 OPTIMIZED C++
- CSC 362 C++ MULTITHREADING
- CSC 371 MOBILE APPLICATION DEVELOPMENT FOR IOS
- CSC 372 MOBILE APPLICATION DEVELOPMENT FOR ANDROID
- CSC 375 INTRODUCTION TO ROBOTICS
- TDC 368 NETWORK PROGRAMMING

Computer Vision

- CSC 381 INTRODUCTION TO DIGITAL IMAGE PROCESSING
- CSC 382 APPLIED IMAGE ANALYSIS

Data Analysis and Data Mining

- CSC 324 DATA ANALYSIS & STATISTICAL SOFTWARE II
- CSC 334 ADVANCED DATA ANALYSIS
- CSC 367 INTRODUCTION TO DATA MINING
• GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
• GEO 243 REMOTE SENSING

Data Storage

• CSC 352 DATABASE PROGRAMMING
• CSC 353 ADVANCED DATABASE CONCEPTS

Human-Computer Interaction

• CSC 360 USER INTERFACE ARCHITECTURE AND DEVELOPMENT
• ISM 360 USER-CENTERED EVALUATION
• IT 330 USER INTERFACE DEVELOPMENT FOR INTERACTIVE SYSTEMS

Security

• CNS 320 COMPUTER FORENSIC AND INCIDENT RESPONSE
• CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE

• SE 368 SOFTWARE MEASUREMENT AND PROJECT ESTIMATION
• SE 371 PRACTICES OF GLOBAL SOFTWARE DEVELOPMENT

Theory of Computation

• CSC 327 PROBLEM SOLVING FOR CONTESTS
• CSC 344 AUTOMATA THEORY AND FORMAL GRAMMARS
• CSC 389 THEORY OF COMPUTATION

Web Development

• CSC 308 FRAMEWORKS FOR WEB APPLICATION DEVELOPMENT
• ECT 330 ADVANCED INTERNET APPLICATION DEVELOPMENT
• ECT 360 INTRODUCTION TO XML
• IT 320 CONTENT MANAGEMENT SYSTEMS

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Game Systems Concentration

Course Requirements

• CSC 361 OPTIMIZED C++
• GAM 325 APPLIED 3D GEOMETRY
• GAM 372 OBJECT-ORIENTED GAME DEVELOPMENT
• GAM 374 GAME ENGINE PROGRAMMING I
• GAM 377 GAME ENGINE PROGRAMMING II
• GAM 390 MULTIPLAYER GAME DEVELOPMENT
• GAM 394 GAME DEVELOPMENT PROJECT I
• GAM 395 GAME DEVELOPMENT PROJECT II
• GPH 329 COMPUTER GRAPHICS DEVELOPMENT II
Students in the Game Systems concentration choose 4 Major electives from 300-level CSC, SE, or GAM courses or from the list of courses below:
  - ANI 230 3D DESIGN & MODELING
  - GAM 226 FUNDAMENTALS OF GAME DESIGN
  - GPH 389 REAL-TIME GRAPHICS TECHNIQUES

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

---

**Sample Schedule**

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

- **Game Systems**
- **Software Engineering**
- **Software Development**

---

**Game Systems**

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

**Game Systems Concentration**

**First Year**

- MAT 140 DISCRETE MATHEMATICS I
- MAT 141 DISCRETE MATHEMATICS II
- CSC 300 DATA STRUCTURES IN JAVA I
- One of the following sequences:
  - Option 1:
    - CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
    - CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
  - Option 2:
    - CSC 243 PYTHON FOR PROGRAMMERS
    - 1 Major Elective
- 7 Liberal Studies

**Second Year**

- CSC 301 DATA STRUCTURES IN JAVA II
- CSC 321 DESIGN AND ANALYSIS OF ALGORITHMS
- CSC 347 CONCEPTS OF PROGRAMMING LANGUAGES
- CSC 361 OPTIMIZED C++
- CSC 373 COMPUTER SYSTEMS I
Software Development

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs. Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.
Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisors. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Computer Science (Minor)

DePaul's Computer Science minor provides an overview of the field with a focus on programming, data storage and information processing.

Course Requirements

- MAT 140 DISCRETE MATHEMATICS I
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- CSC 300 DATA STRUCTURES IN JAVA I
- CSC 301 DATA STRUCTURES IN JAVA II
- CSC 373 COMPUTER SYSTEMS I
- CSC 374 COMPUTER SYSTEMS II

Students majoring in Computer Science (BS), Game Programming (BS), Information Technology (BS), or Math
Computing (BA)

The Bachelor of Arts in Computing (BAC) is a degree offered jointly by the School for New Learning (SNL) and the College of Computing and Digital Media (CDM) at DePaul University. This degree has been designed to prepare adults for computer related careers and graduate programs in Computer Science or Digital Media. Instituted in 1996, the BAC program has remained on the cutting edge of preparing students to work and study in a variety of technology fields. The program is open to students aged 24 or older.

For those who have a great deal of knowledge and background in computing, the BAC program offers the opportunity to fulfill requirements through documentation of that experience and through ongoing projects completed in the workplace. For those who have little experience with computing, all requirements can be completed as course work. In either case, the BAC offers the flexibility and individualized learning approach of SNL while focusing on the latest technology, theory and content provided by CDM.

BAC students also work with the CDM Professional Advisors to define and plan their focus area requirements within the program. Students may elect to design an individualized computing related focus area that reflects their unique backgrounds and career interests or they may select from 10 Specialized Focus Area tracks offered by CDM. These tracks relate to dynamic and diverse aspects of computer technology and its applications. Students may need to demonstrate or complete certain pre-requisite requirements for some of the Focus Area tracks depending on the student's entry level of competency in that area.

The degree is earned by completing 50 competency requirements. Competency requirements can be met by SNL and CDM courses, equivalent transfer courses with a grade of C- or better or equivalent documented experience. CDM courses are offered at DePaul’s Loop campus in day time, evening and weekend sessions and online. SNL courses are available online and at the Loop, Naperville, O'Hare campuses in evening and weekend sessions.

Learning Outcomes

Students will be able to:

- Use independent learning skills and strategies to organize, initiate, and document prior, current, and future college-level learning.
- Design learning strategies to attain goals for personal and educational development.
- Reflect on the learning process and methods used in an experiential project.
- Articulate the personal and social value of lifelong learning.
- Assess the social and personal value of civic engagement for achieving change.
- Analyze, synthesize, and evaluate experiences and concepts through writing.
- Analyze issues and reconcile problems through critical and appreciative thinking.
- Use mathematical symbols, concepts, and methods to describe and solve problems.
- Learn collaboratively and examine the skills, knowledge, and values that contribute to such learning.
- Pose questions and use methods of formal inquiry to answer questions and solve problems.
- Analyze a problem using two different ethical systems.
- Define and analyze a creative process.
- Analyze power relations among racial, social, cultural, or economic groups in the United States.
- Analyze issues and problems from a global perspective.
- Describe and explain connections among diverse aspects of nature.
- Explain and evaluate the nature and process of science.
- Design a plan for development in one's Focus Area based on an analysis of elements that comprise the area.
- Design and produce a significant computing related product that gives evidence of advanced competence.
Competency Framework

The SNL curriculum is organized around the knowledge, skills and abilities that describe an educated adult in contemporary society. These are defined by a framework of 50 competency statements grouped in 3 areas: Lifelong Learning, Individual Focus, and Liberal Learning. Students demonstrate these degree requirements through SNL courses, independent learning projects, and transfer coursework.

Students in SNL’s competency-based joint degree programs, the BA in Computing, BA in Early Childhood Education and BA in General Business follow a format similar to the descriptions below with some variations. See their Program Requirements for more information.

Lifelong Learning Area

The Lifelong Learning Area has 12 competencies that develop skills in reading, writing, goal setting, decision-making, teamwork, and research.

Liberal Learning Area

The Liberal Learning Area encompasses fields of study generally referred to as the Liberal Arts. Students satisfy 26 competencies in this area.

This area is divided into 3 categories: Arts and Ideas (AI), Human Community (HC), and Scientific World (SW). Each category is divided into 3 subcategories. Students complete 8 competencies in each category and 2 additional Advanced Elective competencies. Students must satisfy at least 1 competency from each subcategory, and 3 more from any subcategory. The 4th and 5th competencies are required.

Arts and Ideas Category

This category includes the arts, philosophy, theology, literature, and other fields that focus on expression of values and aesthetics. The 3 subcategories are: Interpreting the Arts, Creative Expression, and Reflection and Meaning.

Human Community Category

This category includes human relations, history, political science, and other fields closely aligned with the development and maintenance of human society. The 3 subcategories are: Communities and Society, Institutions and Organizations, and Individual Development.

The Scientific World Category

This category includes fields related to scientific inquiry, technology, and relevant skills. The 3 subcategories in this area are: Experiencing Science, Patterns and Processes, and Science, Technology and Society.

Individual Focus Area

The Individual Focus Area may reflect a field of study, preparation for graduate study, a career goal or avocation. These 12 competencies are defined by the student with the advice and approval of a faculty mentor and a professional advisor who has expertise in the area of interest.

The BA in Computing, BA in Early Childhood Education and BA in General Business each have a series of prescribed competency statements in their Focus Areas that correspond to particular course requirements.
Program Requirements

Lifelong Learning

The Lifelong Learning Area consists of 12 competencies that can be met by SNL courses, equivalent transfer courses or proficiency exams as listed below.

- LL 103 INDEPENDENT LEARNING SEMINAR (L-1)
- LL 250 FOUNDATIONS OF ADULT LEARNING: DEVELOPING PERSONAL, PROFESSIONAL AND EDUCATIONAL GOALS (L-2, F-1)
- L-3: Civic Engagement competency in SNL course, transfer, or experience. The L-3 competency is available in the following SNL courses:
  - AI 143 ROOTED IN THE CITY: WRITERS & WRITING IN CHICAGO
  - AI 218 ORGANIZING AND DEVELOPING EMERGENCY TRAINING & SERVICE STRATEGIES: "LESSONS-LEARNED" FROM KATRINA
  - AI 230 MEMOIRS: A JOURNEY FROM THE INSIDE OUT
  - AI 257 ENGAGE FOR CHANGE: GET INFORMED, INVOLVED AND CONNECTED
  - HC 118 MAKING SOCIAL CHANGE: THE LEGACY OF THE 1960'S
  - HC 211 ENGAGING A LOCAL NONPROFIT TO SOLVE A GLOBAL PROBLEM
  - HC 268 CULTURE AND POLITICS OF CAREWORK
  - HC 283 GLOBAL PERSPECTIVES BALANCING WORK & FAMILY
  - HC 302 ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD
  - HC 362 POVERTY, POLICY AND THE ECONOMY: POOR IN THE USA
  - IN 231 EXPLORING CHICAGO POLITICS
  - IN 352 EYES ON THE PRIZE: A TELEVISION HISTORY OF THE AMERICAN CIVIL RIGHTS MOVEMENT
  - SNC 215 ISSUES IN HEALTH POLICY AND ADMINISTRATION
  - SW 254 ENVIRONMENTAL SUSTAINABILITY AND ADVOCACY
- LL 260 WRITING FOR COMPETENCE (L-4)
- LL 270 CRITICAL THINKING (L-5)
- LL 205 QUANTITATIVE REASONING (L-6)
- L-7: Collaborative Learning competency in SNL course, transfer, or experience. The L-7 competency is available in the following SNL courses:
  - AI 255 SELF EXPLORATION: INSIDE OURSELVES, OUTSIDE WITH OTHERS
  - AI 285 WORK, PLAY AND REST: INTEGRATING THE FRAGMENTS
  - FA 133 EDITING YOURSELF AND OTHERS: A COLLABORATIVE APPROACH TO WRITING AT WORK
  - FA 196 MANAGING A SUCCESSFUL BUSINESS
  - FA 198 FINANCIAL PLANNING FOR RETIREMENT
  - FA 214 ENTREPRENEURIAL ACCOUNTING
  - FA 221 ENTREPRENEURSHIP: FROM START-UP TO SUCCESS
  - FA 224 HOMELAND SECURITY IN THE 21ST CENTURY
  - FA 237 CONFLICT MANAGEMENT, NEGOTIATION, AND CLIENT RELATIONS
  - FA 241 WORKPLACE ENGAGEMENT AND COMMITMENT: HOW TO MOTIVATE EMPLOYEES
  - FA 300 PROJECT MANAGEMENT
  - FA 340 IMPLEMENTING CORPORATE TRAINING PROGRAMS
  - FA 363 ACHIEVING WORK AND LIFE GOALS
  - FA 390 DIVERSITY: IN AND BEYOND THE WORK PLACE
  - HC 102 HOLIDAY ECONOMICS
  - HC 141 COACHING FOR PERSONAL DEVELOPMENT AND PROFESSIONAL EFFECTIVENESS
  - HC 171 ORGANIZATIONAL CULTURE IN ACTION
  - HC 178 GENDER AT WORK
  - HC 217 HIP HOP AND THE POLITICS OF DIFFERENCE
  - HC 246 LANGUAGE AND LANDSCAPE
  - HC 299 ASSESSING AND MANAGING CONFLICT
  - HC 302 ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD
  - HC 344 INTERNATIONAL RELATIONS: A CROSS-CULTURAL PERSPECTIVE
  - SW 262 THE HAPPINESS PROJECT
  - SW 295 SUCCESSFUL INTERVIEWING
- LL 300 RESEARCH SEMINAR (L-8 & L-9)
- LL 302 EXTERNSHIP (L-10 & L-11)
- LL 390 SUMMIT SEMINAR (L-12)
Liberal Learning

The Liberal Learning Area consists of 26 competencies in 4 categories. Competencies can be satisfied by SNL and CDM courses, equivalent transfer courses, and documented college-level learning from experience as listed below.

**Arts & Ideas Category:**
- 6 SNL competencies

**Human Community Category:**
- 6 SNL competencies

**Scientific World Category:**
- 2 CDM courses:
  - IT 223 DATA ANALYSIS
  - IT 263 APPLIED NETWORKS AND SECURITY
- 4 SNL competencies

**Elective Category:**
- 6 Open Electives
- 2 SNL Advanced Electives

The BAC Focus Area

The BAC Focus Area consists of 12 competencies satisfied through CDM courses, approved transfer courses or experiential learning and SNL Advanced Project or CDM Capstone courses. Students can design their own Customized Focus Area track or choose one of the Specialized Focus Area tracks.

Focus Requirements

- Computer Science
- Customized Focus Area
- Information Systems
- Information Technology
- Interactive and Social Media
- Network Technology
- Security

Computer Science Focus

This focus track provides essential training in the foundations of computing, data storage and information processing. With this foundation, graduates of the program can easily adapt to and create new information technologies, new computing paradigms, and new ideas for applying computer systems.

- CSC 243 PYTHON FOR PROGRAMMERS
Customized Focus Area

The Customized Focus Area is available for students to develop an individualized Focus Area that reflects their specialized academic and career goals. They will create a plan to address each of the competencies in the Focus Area through courses and experience, and they will create a title to represent that Focus Area.

- Nine computing electives approved by Professional Advisor.
- FA 303 INDEPENDENT ADVANCED PROJECT
  or FA 304 ADVANCED PROJECT COURSE
  or CSC 394 SOFTWARE PROJECTS
  or IT 394 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS I and IT 395 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II

Information Systems Focus

This focus area track is devoted to the application of computers and related technologies to address the operational, tactical, and strategic challenges facing business, non-profit and government organizations. Students can apply their knowledge of hardware, software, business processes and procedures to help organizations improve performance and meet tactical and strategic goals.

- IS 201 INTRODUCTION TO INFORMATION SYSTEMS
- IS 215 ANALYSIS AND DESIGN TECHNIQUES
- IT 240 INTRODUCTION TO DATABASES
- IS 372 SOFTWARE PROJECT MANAGEMENT
- IS 373 INTRODUCTION TO ENTERPRISE SYSTEMS
- Four computing electives approved by Professional Advisor.
- FA 303 INDEPENDENT ADVANCED PROJECT
  or FA 304 ADVANCED PROJECT COURSE
  or IS 376 INFORMATION SYSTEMS PROJECT
  or IT 394 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS I and IT 395 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II
Information Technology Focus

This is a technical focus area that will instruct students in core competencies in the areas of problem solving and programming, networks and communications systems, databases, internet and Web technologies, security, and project management, along with a foundation in business concepts and technical communication.

- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 211 INTRODUCTION TO APPLIED PROGRAMMING
- IT 240 INTRODUCTION TO DATABASES
- IT 231 WEB DEVELOPMENT I
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- Choose one of the following:
  - IT 212 APPLIED OO PROGRAMMING
  - IT 232 WEB DEVELOPMENT II
  - IT 238 INTERACTIVE WEB SCRIPTING
  - IT 320 CONTENT MANAGEMENT SYSTEMS
- Three computing electives approved by Professional Advisor.
- FA 303 INDEPENDENT ADVANCED PROJECT
  or FA 304 ADVANCED PROJECT COURSE
  or CSC 394 SOFTWARE PROJECTS
  or IT 394 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS I and IT 395 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II

Interactive and Social Media Focus

This focus area track addresses social media and interaction design and integrates technical and creative disciplines such as human-computer interaction, information technology and graphic design.

- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- ISM 101 FOUNDATIONS OF INTERACTIVE & SOCIAL MEDIA
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- ISM 220 INTERACTIVE DESIGN & PROTOTYPING
- ISM 270 USER-CENTERED WEB DESIGN
- ISM 320 ADVANCED PRINCIPLES OF INTERACTIVITY
- One ISM elective approved by Professional Advisor.
- Three computing electives approved by Professional Advisor.
- FA 303 INDEPENDENT ADVANCED PROJECT
  or FA 304 ADVANCED PROJECT COURSE
  or IS 376 INFORMATION SYSTEMS PROJECT
  or IT 394 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS I
  and IT 395 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II
Network Technology Focus

This focus area track focuses on the theory and practice of designing, deploying and managing both wired and wireless network technologies, including broadband Internet access technologies, interconnection technologies, network convergence, and network security.

- TDC 311 COMPUTERS IN TELECOMMUNICATIONS SYSTEMS
- TDC 362 PRINCIPLES OF DATA COMMUNICATIONS
- TDC 363 INTRODUCTION TO LOCAL AREA NETWORKS
- TDC 365 NETWORK INTERCONNECTION TECHNOLOGIES
- TDC 372 DIGITAL ACCESS SERVICES
- Four computing electives approved by Professional Advisor.
- FA 303 INDEPENDENT ADVANCED PROJECT
  or FA 304 ADVANCED PROJECT COURSE
  or TDC 376 NETWORK PROJECT
  or IT 394 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS I
  and IT 395 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II

Security Focus

This focus area track emphasizes the fundamentals of information security, security infrastructure design and implementation, network security technologies, best practices in security design, and security management.

- CSC 233 CODES AND CIPHERS
- CSC 243 PYTHON FOR PROGRAMMERS
- CNS 228 LEGAL, ETHICAL AND SOCIAL ISSUES IN INFORMATION SECURITY
- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
- TDC 365 NETWORK INTERCONNECTION TECHNOLOGIES
- TDC 377 FUNDAMENTALS OF NETWORK SECURITY
- Three computing electives approved by Professional Advisor.
- FA 303 INDEPENDENT ADVANCED PROJECT
  or FA 304 ADVANCED PROJECT COURSE
  or CNS 394 INFORMATION SYSTEMS SECURITY ENGINEERING I
  and CNS 395 INFORMATION SYSTEMS SECURITY ENGINEERING II
  or IT 394 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS I
  and IT 395 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II

Combined Bachelor's/ Master's Program

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

To earn the master's degree, the student must earn at least 52 graduate credit hours (13 graduate courses). Twelve hours of graduate credits taken during the undergraduate career may also apply to the graduate degree. Only CDM courses may be taken as part of this program.
In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the Assistant Director of SNL Joint Degree Programs. The recommendation should include your full name, DePaul student ID number, and the bachelor’s and master’s degrees you wish to combine.

**Admissions Criteria**

- Minimum of 6 courses (24 credit hours) completed at DePaul.
- GPA of 3.3 or higher in courses taken at DePaul.
- Endorsement of faculty advisor.

The following Computing Digital Media graduate programs have been approved as combined degree options:

- Animation (MA)
- Applied Technology (MS, Joint CDM / SNL Degree)
- Business Information Technology (MS)
- Cinema Production (MS)
- Computational Finance (MS)
- Computer Game Development (MS)
- Computer Science (MS)
- Computer, Information and Network Security (MS)
- E-Commerce Technology (MS)
- Human Computer Interaction (MS)
- Information Systems (MS)
- Information Technology Project Management (MS)
- Network Engineering and Security (MS)
- Predictive Analytics (MS)
- Software Engineering (MS)

---

**Costume Design (BFA)**

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Costume Design is designed to give students the opportunity to explore and expand their artistic and visual expression and provides them the opportunity to practice their craft. The four-year curriculum in many ways simulates a costume designer’s professional experience and process. Designers learn to visualize the world of plays through the garments and clothing the actors wear while collaborating with directors, dramaturgs, other designers and technicians, and our professional costume shop staff who build the costumes they design.

**Learning Outcomes**

**Core Outcomes**

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works and artistic approaches from antiquity to the present, encompassing a broad range of periods, cultures, and
styles.
- Synthesize and apply elements of their education and training in classes, rehearsals, and productions.
- Participate in theatrical production in a professional manner, with discipline, respect, and maturity.
- Demonstrate the role of the theatre practitioner as an active member of society and of the cultural and social impact of the arts.

**Program Specific Outcomes**

Students will be able to:

- Apply General knowledge of theatre history, dramatic literature covering a broad range of historical periods, cultures, and styles, and major theatre artists on both a national and international level.
- Utilize he principles and vocabulary of performance, directing, design, and a thorough grounding in the theory of their particular area of specialization.
- Write with competency in a variety of writing styles from casual to formal.
- Fully engage with knowledge through the ability to access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying arguments and assumptions and to formulate conclusions.
- Utilize existing knowledge to generate and synthesize ideas in original, creative, and imaginative ways.
- Articulate clearly the process of transforming the written text into the theatrical event.
- Design, develop, and execute a noteworthy intellectual and/or creative project.
- Develop a profound understanding of the role of the artist in society.
- Develop an understanding of the cultural and sociopolitical context of theatre from the perspective of both historical and contemporary practice.
- Develop strong self-discipline, self-motivation, and an ability to work independently.
- Work collaboratively and effectively within a group process and with creative artists from all theatrical disciplines.
- Understand the interrelationship of what it means to be human and what it means to be a theatre artist.
- Evaluate ethical issues with respect to theatrical analysis, concept, and practice.
- Contribute artistically to communities through socially responsible engagement and leadership.
- Develop an understanding of and a respect for a multiplicity of cultural and artistic perspectives that may be different from their own.
- Understand the availability and/or scarcity of global resources for a sustainable future
- Set goals for future work that are the result of rigorous self-appraisal and reflection.
- Articulate their skills and knowledge as they represent themselves to external audiences.
- Use technology to create, communicate, and synthesize their ideas.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

* Students must earn a C- or better in this course.

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is
cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

    - DES 242 SCENE DESIGN I
    - DES 243 SCENE DESIGN I
    - DES 247 LIGHTING DESIGN I
    - DES 248 LIGHTING DESIGN I
    - DES 249 LIGHTING DESIGN I
    - Additional Design/Tech courses with approval of advisor and instructor

Theatre or Non-theatre Elective
  - One course chosen in consultation with advisor

Production Practice III and/or Internship
  - Select two courses from the following list:
    - DES 471 DESIGN PRODUCTION PRACTICE III
    - DES 472 DESIGN PRODUCTION PRACTICE III
    - DES 473 DESIGN PRODUCTION PRACTICE III
    - DES 490 DESIGN INTERNSHIP

Additional Courses

- During the 3rd and 4th years of the major, students must complete four out of the following five courses, in consultation with the major advisor:
  - DES 284 MODEL BUILDING
  - DES 285 MEDIA FOR DESIGNERS
  - DES 286 LIFE DRAWING
  - DES 484 PHOTOSHOP FOR DESIGNERS
  - DES 486 PORTFOLIO PREPARATION

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Costume Design and Costume Technology (BFA)

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Costume Design and Costume Technology is designed to give students the opportunity to train as costume designers as well as theatrical draper/cutters, crafts persons, and costume shop managers, while providing them opportunities to practice their art and craft. The four-year curriculum, in many ways, simulates a costume designer’s, and costume technician’s professional experiences and processes. As designers, students learn to visualize the world of plays through the costumes and accessories actors wear, while the technology courses will teach students to turn those designs into reality. Students learn a variety of design and technical skills including: life drawing, photoshop, media for designers, sewing, pattern making, cutting, fitting, millinery, mask making, etc. They also take a progression of business management coursework. Students collaborate with directors, dramaturgs, other designers and technicians, and our professional costume shop staff in work on productions in addition to their class work. Only students who have completed their freshman year as either a Costume Design or Costume Technician major are eligible to apply for this degree.

Fourth Year

• Costume Technology Independent Study taken three times, one per quarter
  o TEC 399 INDEPENDENT STUDY: TECHNICAL
• Production Practice and/or Internship
  o Select two courses from the following list:
    • TEC 471 TECHNICAL PRODUCTION PRACTICE III
    • TEC 472 TECHNICAL PRODUCTION PRACTICE III
    • TEC 473 TECHNICAL PRODUCTION PRACTICE III
    • TEC 490 INTERNSHIP
• Theatre or Design/Tech Electives
  o Two courses will be chosen in consultation with advisor
• Non-theatre Electives
  o Two courses will be chosen in consultation with advisor

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Creative Writing (Minor)

The Creative Writing minor trains students to write in a variety of genres through a series of workshops and courses in literary analysis.

Course Requirements

• ENG 201 CREATIVE WRITING

• Three writing workshops chosen from the following list:
  o ENG 209 TOPICS IN WRITING (may be taken only once)
  o ENG 290 INTERMEDIATE CREATIVE NONFICTION WRITING (may be taken twice)
  o ENG 291 INTERMEDIATE FICTION WRITING (may be taken twice)
  o ENG 292 INTERMEDIATE POETRY WRITING (may be taken twice)
  o ENG 306 ADVANCED CREATIVE NONFICTION WRITING (may be taken twice)
  o ENG 307 ADVANCED FICTION WRITING (may be taken twice)
  o ENG 308 ADVANCED POETRY WRITING (may be taken twice)
  o ENG 309 ADVANCED TOPICS IN WRITING (repeatable with different topics)

• Two literature courses chosen from the following list:
  o HON 101 WORLD LITERATURE
  o ENG 218 READING AND WRITING FICTION
  o ENG 219 READING AND WRITING POETRY
  o ENG 220 READING POETRY
  o ENG 221 READING PROSE
  o ENG 227 STUDIES IN DRAMA
  o ENG 228 INTRODUCING SHAKESPEARE
Students majoring in English or minoring in English Literature are restricted from earning this minor.
Cybersecurity (BS)

The BS in Cybersecurity prepares students to evaluate and manage an organization's computer, information and network security, as well as develop a solid information technology infrastructure.

Learning Outcomes

Students will be able to:

- Explain the differences between the three major goals of information security: confidentiality, integrity and availability.
  - List and explain one technique for ensuring each.
- Implement in the security lab environment a comprehensive and integrated security infrastructure that meets or exceeds current best practices.
- Design and write security policies by writing a policy for an environment presented in a case study.
- Perform risk assessment for an organization.
- Design a security infrastructure based on the business requirements of an organization.
- Define appropriate security incident response policies.
- Identify weaknesses in non-technical elements such as processes and human factors.
- Perform a penetration testing for an organization.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing
Quantitative Reasoning & Technological Literacy

• Not Required

Sophomore Year

Multiculturalism in the US

• LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

• Required

Senior Year

Capstone

• CNS 395 INFORMATION SYSTEMS SECURITY ENGINEERING II *

Learning Domains

Arts and Literature (AL)

• 3 Courses Required

Philosophical Inquiry (PI)

• 2 Courses Required (See note below)

Religious Dimensions (RD)

• 2 Courses Required (See note below)

Scientific Inquiry (SI)

• 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI)

• 3 Courses Required

Understanding the Past (UP)

• 2 Courses Required

* Students must earn a C- or better in this course.

Notes

Students must take one of the following ethics courses: CSC 208 (PI), IT 228 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD)

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.
In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

- ACC 101 INTRODUCTION TO ACCOUNTING I
  or FIN 290 FINANCE FOR NON-BUSINESS MAJORS
- CNS 228 LEGAL, ETHICAL AND SOCIAL ISSUES IN INFORMATION SECURITY
- CNS 320 COMPUTER FORENSIC AND INCIDENT RESPONSE
- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
- CNS 378 HOST BASED SECURITY
- CNS 394 INFORMATION SYSTEMS SECURITY ENGINEERING I
- CNS 395 INFORMATION SYSTEMS SECURITY ENGINEERING II
- CSC 233 CODES AND CIPHERS
- or CSC 333 CRYPTOLOGY
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I*
- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- CSC 300 DATA STRUCTURES IN JAVA I
- CSC 301 DATA STRUCTURES IN JAVA II
- CSC 373 COMPUTER SYSTEMS I
- CSC 374 COMPUTER SYSTEMS II
- IT 240 INTRODUCTION TO DATABASES
- IT 263 APPLIED NETWORKS AND SECURITY
- MAT 140 DISCRETE MATHEMATICS I
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- TDC 363 INTRODUCTION TO LOCAL AREA NETWORKS
- TDC 365 NETWORK INTERCONNECTION TECHNOLOGIES
- TDC 377 FUNDAMENTALS OF NETWORK SECURITY
- TDC 379 TELECOMMUNICATION AND NETWORK SECURITY PRACTICUM
- 2 Major Electives
  - Major Electives can be chosen from any 300-level CNS, TDC, CSC, SE, IS or IT courses. Students must earn a grade of C- or higher in all major elective courses.

Note: Students may take CSC 243 PYTHON FOR PROGRAMMERS and 1 Additional Open Elective in lieu of CSC 241 INTRODUCTION TO COMPUTER SCIENCE I and CSC 242 INTRODUCTION TO COMPUTER SCIENCE II

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher
Sample Schedule

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

First Year

- CSC 233 CODES AND CIPHERS
  - or CSC 333 CRYPTOLOGY
- IT 240 INTRODUCTION TO DATABASES
- IT 263 APPLIED NETWORKS AND SECURITY
- MAT 140 DISCRETE MATHEMATICS I
- One of the following sequences:
  - Option 1:
    - CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
    - CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
  - Option 2:
    - CSC 243 PYTHON FOR PROGRAMMERS
    - 1 Open Elective
- 6 Liberal Studies

Second Year

- CSC 300 DATA STRUCTURES IN JAVA I
- CSC 301 DATA STRUCTURES IN JAVA II
- CSC 373 COMPUTER SYSTEMS I
- CSC 374 COMPUTER SYSTEMS II
- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
- TDC 363 INTRODUCTION TO LOCAL AREA NETWORKS
- TDC 365 NETWORK INTERCONNECTION TECHNOLOGIES
- 5 Liberal Studies

Third Year

- TDC 377 FUNDAMENTALS OF NETWORK SECURITY
- TDC 379 TELECOMMUNICATION AND NETWORK SECURITY PRACTICUM
- CNS 320 COMPUTER FORENSIC AND INCIDENT RESPONSE
- CNS 378 HOST BASED SECURITY
- 6 Liberal Studies
- 1 Major Elective
- 1 Open Elective

Fourth Year

- ACC 101 INTRODUCTION TO ACCOUNTING I
  - or FIN 290 FINANCE FOR NON-BUSINESS MAJORS
- CNS 228 LEGAL, ETHICAL AND SOCIAL ISSUES IN INFORMATION SECURITY
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- CNS 394 INFORMATION SYSTEMS SECURITY ENGINEERING I
- CNS 395 INFORMATION SYSTEMS SECURITY ENGINEERING II
- 2 Liberal Studies
- 1 Major Elective
- 4 Open Electives
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

**Admission Criteria**

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

**Program Structure**

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

**Maintaining Good Standing**

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

**Designing a Course of Study**

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.
Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisors. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Data Analysis and Data Mining (Minor)

The minor in Data Analysis and Data Mining is designed for students interested in organizing and understanding statistics and data. The minor complements any scientific or data-driven field of study.

Course Requirements

- IT 240 INTRODUCTION TO DATABASES
  - or CSC 355 DATABASE SYSTEMS
- IT 223 DATA ANALYSIS
- CSC 324 DATA ANALYSIS & STATISTICAL SOFTWARE II
- CSC 367 INTRODUCTION TO DATA MINING
- CSC 334 ADVANCED DATA ANALYSIS
- 2 courses chosen from the following list:
  - CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
  - CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
  - or CSC 243 PYTHON FOR PROGRAMMERS
  - CSC 270 FROM FIREFLIES TO FACEBOOK: THE SCIENCE OF NETWORKS
  - CSC 380 FOUNDATIONS OF ARTIFICIAL INTELLIGENCE
  - CSC 381 INTRODUCTION TO DIGITAL IMAGE PROCESSING
  - CSC 382 APPLIED IMAGE ANALYSIS
  - ISM 222 INFORMATION VISUALIZATION
  - MAT 150 CALCULUS I
  - MAT 151 CALCULUS I

Decision Analytics (BA)

Designed for working adults, the BA in Decision Analytics has a strong industry orientation that is specifically geared to provide students with the knowledge and skills they need for the jobs they hold today as well as those they might seek out tomorrow.

Decision analytics is an interdisciplinary field dedicated to the collection, analysis and communication of Big Data, a term used to reflect the challenging complexities and dynamic nature of large data sets today. Decision analysts have a keen sense of data and are able to apply critical reasoning to both qualitative and quantitative data in context. They are able to ask the right questions and formulate problems to facilitate analysis. As such, they are able to understand the organization from a systems perspective. They are comfortable learning new technologies
in this dynamic field, particularly database, statistical and visualization software. They also excel in working collaboratively, dealing with ambiguity, creative problem solving, and communication skills.

Students can fulfill program requirements by demonstrating what they already know from work and other life experiences so that they can focus on new learning.

<table>

<tr>
<td><strong>Total hours required</strong></td>
<td><strong>192 hours</strong></td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Collect, protect and manage electronic data and information ethically.
- Develop and execute methods of inquiry to address research problems.
- Analyze, interpret and communicate about data to inform decision-making.
- Pose questions that will produce useful data.
- Work collaboratively and creatively to solve structured, semi-structured and unstructured problems through data analysis.
- Use their own ideas and those of others to draw meaning from experiences.
- Engage in reflective practice and lifelong learning.

### Degree Requirements

#### Course Requirements

##### Core Requirements (70 credit hours)

- LL 201 DISCOVER NEW LEARNING
- Civic Engagement is a 2-credit hour requirement. It can be filled by the following 2-credit hour course:
  - HC 118 MAKING SOCIAL CHANGE: THE LEGACY OF THE 1960'S
  - Alternatively, Civic Engagement can be filled by any one of the following 4-credit hour courses, where the additional 2-credit hours will be placed in Open Electives
    - AI 218 ORGANIZING AND DEVELOPING EMERGENCY TRAINING & SERVICE STRATEGIES: "LESSONS-LEARNED" FROM KATRINA
    - AI 230 MEMOIRS: A JOURNEY FROM THE INSIDE OUT
    - AI 257 ENGAGE FOR CHANGE: GET INFORMED, INVOLVED AND CONNECTED
    - HC 118 MAKING SOCIAL CHANGE: THE LEGACY OF THE 1960'S
    - HC 211 ENGAGING A LOCAL NONPROFIT TO SOLVE A GLOBAL PROBLEM
    - HC 268 CULTURE AND POLITICS OF CAREWORK
    - HC 283 GLOBAL PERSPECTIVES BALANCING WORK & FAMILY
    - HC 302 ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD
    - HC 362 POVERTY, POLICY AND THE ECONOMY: POOR IN THE USA
    - IN 352 EYES ON THE PRIZE: A TELEVISION HISTORY OF THE AMERICAN CIVIL RIGHTS MOVEMENT
    - SNC 215 ISSUES IN HEALTH POLICY AND ADMINISTRATION

---

DePaul University Winter/Spring/Summer 2016-2017 Page 245 of 2776
Liberal Learning (44 credit hours)
- LL 280 WAYS OF KNOWING IN THE LIBERAL ARTS
- 12 credits of CCA courses, including at least one required course on creativity and the creative process
- 12 credits of CCH courses, including at least one required course on power and justice
- 12 credits of CCS courses, including at least one required course on scientific reasoning
- IN 307 ADVANCED ELECTIVE SEMINAR

Open Electives (48 credit hours)
Students can individualize their learning in several ways using the Open Electives. Open Electives can be fulfilled through DePaul and SNL courses, transfer courses, assessment of prior and experiential learning (PLA), and independent studies

Major Requirements (74 credit hours)

Professional Major Core Courses (22 credit hours)
- FA 199 CAREER ASSESSMENT AND PLANNING
- DCM 330 PROFESSIONAL COMMUNICATION IN THE WORKPLACE
- AI 300 ETHICS IN THE PROFESSIONS
- HC 300 GLOBALIZATION AND PROFESSIONAL PRACTICE
- SW 300 SUSTAINABILITY AND PROFESSIONAL PRACTICE
- FA 303 INDEPENDENT ADVANCED PROJECT
  or FA 304 ADVANCED PROJECT COURSE

Decision Analytics Major Courses (28 credit hours)
- DA 233 APPLIED INFORMATION MANAGEMENT SYSTEMS
- IT 223 DATA ANALYSIS
- IT 240 INTRODUCTION TO DATABASES
- MAT 136 BUSINESS CALCULUS II
- DA 200 FOUNDATIONS OF DECISION ANALYTICS
- CSC 324 DATA ANALYSIS & STATISTICAL SOFTWARE II

Concentration Requirements (24 credit hours)
Students must also complete the requirements from one of the following concentrations: General or Computing.

Concentration Requirements
Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:
- General
- Computing
General Concentration

Students are free to pick courses that meet their interests. However, those who wish to pursue a master's degree in Predictive Analytics or a similar computing field should take the CSC courses. Students interested in a master's degree in Marketing Analysis or a similar marketing field should take the MKT courses.

Students select 24 credits from the courses listed below:

- MKT 202 QUANTITATIVE METHODS IN MARKETING
- MKT 301 PRINCIPLES OF MARKETING
- MKT 305 INTRODUCTION TO MARKETING RESEARCH
- MKT 310 CONSUMER BEHAVIOR
- MKT 315 STRATEGIC TOOLS FOR MARKETERS
- DA 150 ANALYTICS IN ACTION SEMINARS
- DA 220 DATA MINING
- DA 240 TEXT ANALYTICS
- DA 310 DESCRIPTIVE ANALYTICS
- DA 320 PREDICTIVE ANALYTICS
- DA 330 PRESCRIPTIVE ANALYTICS
- DA 340 ACCELERATING ORGANIZATION INTELLIGENCE: WHAT'S THE STORY?
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- CSC 334 ADVANCED DATA ANALYSIS
- CSC 352 DATABASE PROGRAMMING
- CSC 367 INTRODUCTION TO DATA MINING

Computing Concentration

Students interested in continuing their study of decision analytics with a master’s degree in Predictive Analytics or a similar computing field should take the following courses:

- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- CSC 334 ADVANCED DATA ANALYSIS
- CSC 352 DATABASE PROGRAMMING
- CSC 367 INTRODUCTION TO DATA MINING
- Choose four additional credit hours from the courses listed below:
  - MKT 202 QUANTITATIVE METHODS IN MARKETING
  - MKT 301 PRINCIPLES OF MARKETING
  - DA 150 ANALYTICS IN ACTION SEMINARS
  - DA 220 DATA MINING
  - DA 240 TEXT ANALYTICS
  - DA 310 DESCRIPTIVE ANALYTICS
  - DA 320 PREDICTIVE ANALYTICS
  - DA 330 PRESCRIPTIVE ANALYTICS
  - DA 340 ACCELERATING ORGANIZATION INTELLIGENCE: WHAT'S THE STORY?
Designing for Physical Technology (Minor)

The Designing for Physical Technology minor provides the opportunity to integrate hardware with software and build a project suitable for a Maker Faire.

Course Requirements

- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- EXP 210 DESIGN AND FABRICATION FOR PHYSICAL SPACE WORKSHOP
- GAM 240 PLAYGRAMMING
- EXP 250 HARDWARE DESIGN BASICS WORKSHOP
- EXP 390 PHYSICAL TECHNOLOGY COLLABORATIVE STUDIO I
- EXP 391 PHYSICAL TECHNOLOGY COLLABORATIVE STUDIO II
- 2 courses from the following list:
  - EXP 340 DESIGNING FOR AUTONOMY
  - EXP 350 DESIGNING FOR THE INTERNET OF THINGS
  - EXP 360 PHYSICAL & INTERACTIVE EXHIBITS
  - EXP 370 GAMES AND PLAY IN PHYSICAL SPACE

Digital Cinema (Minor)

The minor in Digital Cinema provides students with hands-on experience utilizing the latest digital technology in motion picture production while incorporating classic cinema narrative theory and aesthetics.

Course Requirements

- DC 201 INTRODUCTION TO SCREENWRITING
- DC 205 FOUNDATIONS OF CINEMA FOR NON-MAJORS
- DC 220 EDITING I
- DC 210 DIGITAL CINEMA PRODUCTION I
- 3 courses from the following list:
  - DC 215 INTRODUCTION TO SOUND DESIGN
  - DC 225 DIGITAL STILL PHOTOGRAPHY
  - DC 275 CINEMATOGRAPHY I
  - DC 310 DIGITAL CINEMA PRODUCTION II
  - DC 320 EDITING II
  - DC 321 PRODUCTION DESIGN
  - DC 323 PRE-PRODUCTION FOR CINEMA
  - DC 349 ACTING FOR FILMMAKERS
  - DC 389 THE BIG PICTURE: THE ENTERTAINMENT INDUSTRY
  - VFX 200 INTRODUCTION TO VISUAL EFFECTS

Students majoring in Film and Television (BA) or any concentration in Film and Television (BFA) or minoring in Television Production are restricted from earning this minor.
**Documentary Studies (Minor)**

The Documentary Studies minor is designed to give students a foundation in the field of documentary creation across genres and subject matters. Students may choose to focus on a specific area such as audio or photo documentary.

**Course Requirements**

Students take a total of six courses (24 hours).

- MCS 231 INTRODUCTION TO DOCUMENTARY STUDIES
- MCS 383 TALKING ABOUT FILM: THEORY & CRITICISM
- Four remaining classes must be taken from among the following:
  - ART 291 MURAL PAINTING
  - ART 328 DOCUMENTARY PHOTOGRAPHY
  - ART 377 PHOTOJOURNALISM
  - CMN 394 COMMUNICATION INTERNSHIP
  - DC 371 DOCUMENTARY PRODUCTION
  - JOUR 377 SPECIAL TOPICS IN JOURNALISM
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES
  - MCS 331 TOPICS IN DOCUMENTARY STUDIES
  - MCS 373 AUDIO DOCUMENTARY
  - MCS 389 TOPICS IN MEDIA PRODUCTION
  - MUS 208 COMMUNITY AUDIO ART PRODUCTION
  - SOC 383 VISUAL SOCIOLOGY

**Dramaturgy/ Criticism (BFA)**

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Dramaturgy/Criticism focuses on helping students explore their critical thinking and writing skills for a variety of applications within theatre and other art forms. The four-year curriculum provides students with primary tools – script analysis, dramatic theory and new play development – and opportunity for practical application of those tools in our production process.

<table>
<thead>

<th>52 hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Major Requirements</td>
<td>146 hour</td>
</tr>
<tr>
<td>Total hours required</td>
<td>198 hours</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Demonstrate and apply:
  - General knowledge of theatre history, dramatic literature covering a broad range of historical periods, cultures, and styles, and major theatre artists on both a national and international level.
  - The principles and vocabulary of performance, directing, design, and a thorough grounding in the theory of their particular area of specialization.
- Write with competency in a variety of writing styles from casual to formal.
- Fully engage with knowledge through the ability to access, analyze, and evaluate information and ideas.
from multiple sources in order to identify underlying arguments and assumptions and to formulate conclusions.
• Utilize existing knowledge to generate and synthesize ideas in original, creative, and imaginative ways.
• Articulate clearly the process of transforming the written text into the theatrical event.
• Design, develop, and execute a noteworthy intellectual and/or creative project.
• Develop a profound understanding of the role of the artist in society.
• Develop an understanding of the cultural and sociopolitical context of theatre from the perspective of both historical and contemporary practice.
• Develop strong self-discipline, self-motivation, and an ability to work independently.
• Work collaboratively and effectively within a group process and with creative artists from all theatrical disciplines.
• Understand the interrelationship of what it means to be human and what it means to be a theatre artist.
• Evaluate ethical issues with respect to theatrical analysis, concept, and practice.
• Contribute artistically to communities through socially responsible engagement and leadership.
• Develop an understanding of and a respect for a multiplicity of cultural and artistic perspectives that may be different from their own.
• Understand the availability and/or scarcity of global resources for a sustainable future.
• Set goals for future work that are the result of rigorous self-appraisal and reflection.
• Articulate their skills and knowledge as they represent themselves to external audiences.
• Work both independently and collaboratively.
• Use technology to create, communicate, and synthesize their ideas.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

• LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

• Not Required
Senior Year

Capstone

- Not Required

Learning Domains

Arts and Literature (AL)

- THE 204 HISTORY OF DRAMATIC LITERATURE
- THE 205 HISTORY OF DRAMATIC LITERATURE
- THE 206 HISTORY OF DRAMATIC LITERATURE

Philosophical Inquiry (PI)

- 1 Course Required

Scientific Inquiry (SI)

- 1 SWK or 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI)

- Not Required

Religious Dimensions (RD)

- 1 Course Required

Understanding the Past (UP)

- 1 Course Required

Other

- Choose 1 course from the above learning domains as an elective

* Students must earn a C- or better in this course.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Major Requirements

First Year

- THE 212 INTRODUCTION TO THEATRE STUDIES
- History of Dramatic Literature Sequence (Arts and Literature Requirement)
  - THE 204 HISTORY OF DRAMATIC LITERATURE
  - THE 205 HISTORY OF DRAMATIC LITERATURE
  - THE 206 HISTORY OF DRAMATIC LITERATURE
- THE 210 SCRIPT ANALYSIS
- THE 268 INTRODUCTION TO THE PRODUCTION PROCESS
- THE 291 PERFORMANCE WORKSHOP I
- THE 214 ETHICAL DECISION MAKING IN THE THEATRE
- Three Quarters of Theatre Crew
  - TEC 107 THEATRE CREW

Second Year

- THE 141 DESIGN WORKSHOP
- Dramaturgy Sequence I
  - THE 234 DRAMATURGY I: INTRODUCTION TO DRAMATURGY
  - THE 235 DRAMATURGY I: INTRODUCTION TO PRODUCTION DRAMATURGY
  - THE 236 DRAMATURGY I: TYA AND PLAYWORKS DRAMATURGY
- THE 324 DRAMATIC THEORY
- THE 273 THEATRE STUDIES PRODUCTION PRACTICE I
- English Literature Electives
  - Three 300-level English courses chosen in consultation with advisor

Third Year

- PRF 374 DIRECTING
- THE 325 DRAMATIC CRITICISM
- Dramaturgy Sequence II
  - THE 334 DRAMATURGY II: CLASSICAL DRAMATURGY
  - THE 335 DRAMATURGY II: NEW PLAY DRAMATURGY
  - THE 336 DRAMATURGY II: DRAMATURGY CAPSTONE
- Production Practice
  - Select two courses from the following list:
    - THE 371 THEATRE STUDIES PRODUCTION PRACTICE II
    - THE 372 THEATRE STUDIES PRODUCTION PRACTICE II
    - THE 373 THEATRE STUDIES PRODUCTION PRACTICE II
- Dramatic Literature Electives
  - Three courses chosen in consultation with advisor

Fourth Year

- Survey of the Arts for Theatre Sequence
  - THE 381 SURVEY OF THE ARTS FOR THEATRE
  - THE 382 SURVEY OF THE ARTS FOR THEATRE
  - THE 383 SURVEY OF THE ARTS FOR THEATRE
- Production Practice
  - THE 471 THEATRE STUDIES PRODUCTION PRACTICE III
  - THE 472 THEATRE STUDIES PRODUCTION PRACTICE III
- THE 408 CAPSTONE: PREPARING FOR THE PROFESSION
- THE 410 THEATRE STUDIES CAPSTONE
- THE 412 PORTFOLIO PREPARATION
- THE 490 THEATRE STUDIES INTERNSHIP

Additional Courses

In the third and fourth years, Dramaturgy/Criticism majors must also take

- PHL 381 DRAMATIC THEORY: TRAGEDY
- PHL 382 DRAMATIC THEORY: COMEDY These courses are offered alternately every other spring quarter.
It is also strongly suggested that students take the following

- Three quarters of language

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

---

**Early Childhood Education (BS)**

The Bachelor of Science program in Early Childhood Education prepares students to teach children birth through third grade in a variety of urban and suburban education settings, including public and private elementary schools and child care centers.

Students learn educational theories and effective teaching practices, participate in field experiences that require observation and participation in teaching activities at multiple schools, and student teaching. Early Childhood students complete six weeks in a preschool classroom and six weeks in a primary classroom to fulfill their student teaching requirement leading to Illinois licensure. Students should meet early and regularly with their advisors to design and monitor their program of study.

Students entering the program must be able and willing to devote themselves to a minimum of 380 hours of daytime field experiences in schools and child care centers (230 hours in early childhood, including special education settings, and 150 hours in bilingual/ESL education settings). These field-based clinical hours are completed in conjunction with curriculum and strategy courses that require students to participate in teaching activities with children ranging in age from birth through eight years. In addition, the student must successfully complete two six-week periods of full-time student teaching as part of their culminating early childhood education experience.

The program incorporates a required concentration in bilingual education and English as a Second Language (ESL). Upon completion of the program, students are eligible to apply for Endorsements in bilingual education or ESL to be added to their early childhood teaching license. Bilingual Endorsements require a test of proficiency in the non-English language.

The required curriculum prepares students in special education and students are eligible for an Approval in ECE Special Education on their teaching license. This qualifies the individual to teach young children with special needs in a preschool setting (ages 3-6). Additional courses are available to prepare individuals to teach special education for the full range of the license (birth-3, primary grades).

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

**Licensure**

Illinois Professional Educator Licensure with Endorsement in Early Childhood Education (birth-grade 3), Early Childhood Special Education Approval for Preschool (ages 3-6), and ESL/Bilingual Endorsement. The Early Childhood Education Program at DePaul is an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Student will be able to:

- Apply knowledge of diverse developmental characteristics and abilities to implement best practices in educating young children in various settings, e.g.: child-care, preschool, and primary grades.
- Use pedagogical knowledge of developmentally appropriate content areas to create meaningful learning experiences for each child based on best practices.
- Design lessons and differentiating instructions based on their knowledge of content areas and their knowledge of children's diverse developmental level, special needs characteristics (e.g.; children with disabilities), and diverse cultural and linguistic characteristics (e.g.; English Learners).
- Structure and manage safe and healthy learning environments, which are culturally and linguistically responsive; facilitate emotional well-being and positive relationships among children and between children and professionals; and facilitate children’s active engagement, academic risk taking, and self-motivation.
- Plan and implement developmentally appropriate curricula, and differentiate /modify instruction according to the child's developmental and learning characteristics through use of a wide variety of learning materials and technologies.
- Competently address children's reading, writing, and oral communication needs to facilitate learning in all content areas.
- Implement various forms of assessment (summative and formative) to determine children's developmental, behavioral, and learning needs; monitor and measure children's developmental, behavioral and learning progress; and evaluate child outcome.
- Collaborate with families of young children from diverse backgrounds; form and maintaining positive relationships with and among children, and work as team members with other professionals.
- Exhibit professional conduct, including providing leadership, and advocate for children and families.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social,
emotional, and physical development of the learner

- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

**Skill Building Courses**

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul undergraduate 2.5 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

• Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content area courses
• Overall cumulative G.P.A. of 2.50 or better
• Cumulative GPA. of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:

• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below.)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Met by successful completion of required field experience hours.

Senior Year

Capstone

- ECE 387 CAPSTONE SEMINAR IN EARLY CHILDHOOD EDUCATION
  (Note: This must be taken along with student teaching. Students must earn a C or better in this course.)

Learning Domains

Arts and Literature (AL)

- 2 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required:
  - LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
  - 1 Additional Course
    (Note: PHL 100 recommended)

Scientific Inquiry (SI)
- 3 Courses Required:
  - 1 BIO
  - 1 CHE/ENV/GEO/PHY
  - 1 Additional Course
  (Note: One course must be a lab or SWK.)

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required:
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 2 Additional Courses

Religious Dimensions (RD)

- 1 Course Required

Understanding the Past (UP)

- 2 Courses Required
  (Note: One must be in US History.)

* Students must earn a C- or better in this course.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

Pre-Education Courses

Theory & Practice Introductory Core: 18 quarter hours required, grade of C or better required

- ECE 290 CHILD GROWTH AND DEVELOPMENT
- ECE 280 INTERNSHIP WITH INFANTS AND TODDLERS (2 credit hours) (must be taken with ECE 290)
- ECE 286 ART, MUSIC, AND MOVEMENT FOR THE YOUNG CHILD
- ECE 302 CHILD AND FAMILY IN THE URBAN COMMUNITY
- ECE 303 INTRODUCTION TO EARLY CHILDHOOD EDUCATION
Health and Nutrition: 4 quarter hours required, grade of C or better required

- ECE 298 CHILD HEALTH SAFETY AND NUTRITION

Pre-Education Core: 8 quarter hours required, grade of C or better required

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- EE 347 CHILDREN'S LITERATURE

Choose one of the following Concentrations:

- ESL Concentration Courses: 32 quarter hours required, grade of C or better required
  - BBE 306 FOUNDATIONS OF ENGLISH AS SECOND LANGUAGE INSTRUCTION IN EARLY CHILDHOOD EDUCATION
  - BBE 325 BILITERACY PRACTICES IN BILINGUAL EDUCATION AND ESL
  - BBE 366 FIRST AND SECOND LANGUAGE ACQUISITION
  - ECE 313 CROSS CULTURAL STUDIES IN EARLY CHILDHOOD EDUCATION
  - ECE 314 METHODS AND MATERIALS FOR ENGLISH LANGUAGE LEARNERS IN EARLY CHILDHOOD EDUCATION
  - ECE 325 SECOND LANGUAGE ACQUISITION AND EARLY LITERACY DEVELOPMENT
  - ECE 377 ASSESSMENT OF YOUNG BILINGUAL/ESL STUDENTS
  - ECE 383 INTERNSHIP IN EARLY CHILDHOOD ESL/BILINGUAL EDUCATION SETTINGS

- Bilingual Concentration Courses: 32 quarter hours required, grade of C or better required
  - BBE 305 THEORETICAL FOUNDATIONS IN BILINGUAL EARLY CHILDHOOD DEVELOPMENT
  - BBE 325 BILITERACY PRACTICES IN BILINGUAL EDUCATION AND ESL
  - BBE 366 FIRST AND SECOND LANGUAGE ACQUISITION
  - ECE 313 CROSS CULTURAL STUDIES IN EARLY CHILDHOOD EDUCATION
  - ECE 314 METHODS AND MATERIALS FOR ENGLISH LANGUAGE LEARNERS IN EARLY CHILDHOOD EDUCATION
  - ECE 325 SECOND LANGUAGE ACQUISITION AND EARLY LITERACY DEVELOPMENT
  - ECE 377 ASSESSMENT OF YOUNG BILINGUAL/ESL STUDENTS
  - ECE 383 INTERNSHIP IN EARLY CHILDHOOD ESL/BILINGUAL EDUCATION SETTINGS

*Individuals seeking both bilingual and ESL endorsements on the Professional Educator License (PEL) must complete one additional course to qualify for both endorsements and must take both:
- BBE 305 THEORETICAL FOUNDATIONS IN BILINGUAL EARLY CHILDHOOD DEVELOPMENT
- BBE 306 FOUNDATIONS OF ENGLISH AS SECOND LANGUAGE INSTRUCTION IN EARLY CHILDHOOD EDUCATION

To be eligible for the bilingual endorsement, individuals also complete the Illinois State Board of Education (ISBE) Target Language Proficiency (TLP) test in the non-English language.

Advanced Standing Courses: 40 quarter hours required, grade of C or better required

- SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT
- ECE 307 LANGUAGE DEVELOPMENT IN EARLY CHILDHOOD (BIRTH TO 8)
- ECE 309 YOUNG EXCEPTIONAL CHILD: METHODS AND CHARACTERISTICS
- ECE 310 PREPRIMARIES: CURRICULUM AND STRATEGIES (must be taken with ECE 381)
- ECE 381 INTERNSHIP IN PRESCHOOL SETTING (2 credit hours) (ECE 310 is co-requisite)
- ECE 311 CURRICULUM AND INSTRUCTION IN PRIMARY GRADES (must be taken with ECE 382)
- ECE 382 INTERNSHIP IN PRIMARY SETTING (2 credit hours) (ECE 311 is co-requisite)
- ECE 331 BEGINNING MATH AND SCIENCE INSTRUCTION
- ECE 375 ASSESSMENT IN EARLY CHILDHOOD INCLUSIVE SETTINGS
- EE 324 READING/LANGUAGE ARTS IN THE EARLY YEARS

Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college
core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take ECE 387, Capstone Seminar with student teaching (listed in the Liberal Studies section) during the Autumn, Winter or Spring quarters. Early Childhood students complete 6 weeks in a preschool classroom and 6 weeks in a primary classroom

- ECE 385 EARLY CHILDHOOD STUDENT TEACHING (12 credit hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Early Childhood majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT tests.
- Early Childhood Content Area Test (test #107) – assesses knowledge of the content of what is taught at the early childhood level including language and literacy development, learning across the curriculum, diversity, collaboration, and professionalism in the early childhood program. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Non-Licensure Option**

Individuals that do not desire a license or are not eligible for a license can seek to earn the degree without meeting licensure requirements. In seeking this option, individuals understand that the following stipulations apply:

- Confirmation must be given by the individual in writing that they seek this option and agree to the stipulations.
- A notation is placed on the transcript indicating that "completion of degree requirements did not lead to eligibility for licensure."
- Individuals have the option to return to the program within 1-2 years to complete student teaching and other licensure requirements and become eligible for the license (however, the transcript notation will remain). This may require additional coursework or other requirements.
- Individuals must complete requirements for licensure (including any relevant tests) at the time of licensure application.
- Coursework is chosen in consultation with faculty advisor and is based on individual's prior coursework, experience, and interests and is individually tailored.
- All coursework must be taken at DePaul; no transfer credit is allowed for substitutions.
- Individuals must complete the specified coursework within 2 years or be subject to re-evaluation.
- A minimum of 3 courses (12 credit hours) are required to substitute for the student teaching experience. Coursework must be 200-300 level and receive a grade of C or better.

**Developmental Therapy Option**

These courses will prepare early childhood teacher candidates for a career requiring expertise in early intervention for infants and toddlers (from birth to age three) with special needs and their families. The coursework can be taken in addition to degree requirements, or if seeking the non-licensure option, can be taken to replace student teaching. After taking the required courses and earning the degree, individuals will be required to take a training workshop on the State of Illinois system of Early Intervention and apply directly to Provider Connections to receive their credentials after submitting their transcripts.

- ECE 390 DEVELOPMENTAL THERAPY STRATEGIES FOR INFANTS AND TODDLERS IN EARLY INTERVENTION
- ECE 391 ASSESSMENT OF INFANT AND TODDLERS
- ECE 392 WORKING WITH FAMILIES OF INFANTS AND TODDLERS: PARTNERSHIP AND COLLABORATION IN EARLY INTERVENTION
- ECE 393 INTERNSHIP EXPERIENCES WITH INFANTS, TODDLERS AND TWOS WITH SPECIAL NEEDS (2 credit hours) (optional)
Early Childhood Education (Minor)

The Early Childhood Education minor provides a learning opportunity to all DePaul Students for those interested in the care and education of young children. Students interested in this minor should consult home college advisors and secure permission from the Early Childhood Program to enroll.

Course Requirements

- Seven courses from the following list selected in consultation with an academic advisor and Early Childhood Program faculty:
  - ECE 286 ART, MUSIC, AND MOVEMENT FOR THE YOUNG CHILD
  - ECE 290 CHILD GROWTH AND DEVELOPMENT
  - ECE 302 CHILD AND FAMILY IN THE URBAN COMMUNITY
  - ECE 303 INTRODUCTION TO EARLY CHILDHOOD EDUCATION
  - ECE 307 LANGUAGE DEVELOPMENT IN EARLY CHILDHOOD (BIRTH TO 8)
  - ECE 309 YOUNG EXCEPTIONAL CHILD: METHODS AND CHARACTERISTICS
  - ECE 310 PREPRIMARY PROGRAMS: CURRICULUM AND STRATEGIES
  - ECE 375 ASSESSMENT IN EARLY CHILDHOOD INCLUSIVE SETTINGS

**Note: Students in DePaul's College of Education programs in Elementary Education, Physical Education, Special Education, Secondary Education, or World Language Education cannot select the ECE minor. Students may elect to take courses in this minor or other education courses but it would not lead to an endorsement on their Professional Educator License at the completion of their program, though it may be applied in the future to a post-degree program leading to the addition of an endorsement.**

Early Childhood Education: SNL Joint Program (BA)

The Bachelor of Arts in Early Childhood Education (BAECE) is a degree offered jointly by the School for New Learning (SNL) and the College of Education (COE) at DePaul University. The program has been designed to prepare adults to work in early childhood education by obtaining licensure credentials to teach children through third grade. The program is open to students age 24 or older. Students in the BAECE program take courses in both the SNL and the COE.

In the program, students have the opportunity to fulfill requirements through course work and experience relating to liberal arts objectives and early childhood education experience gained in the workplace. In the COE, students take courses that address theories and practices of teaching young children and the skills necessary to obtain the Illinois licensure to teach children from birth to grade three. The program offers the flexibility and individualized learning approach of the SNL while focusing on the latest theory and content provided by the COE.

BAECE students work with COE faculty advisors to complete all requirements for certification and student teaching experiences in preparation for careers in early childhood education. Students are placed in practicum learning environments to enhance their understanding of children's development in language, literacy, mathematics, science, as well as social and physical development across the early childhood span.

The degree is earned by completing 50 competency requirements and teaching licensure requirements. Competency requirements can be met by DePaul courses, equivalent transfer courses, and/or equivalent documented experience. All Education course grades must be C or better; course grades for SNL competencies must be C- or better. COE courses are offered at DePaul's Loop and Lincoln Park campuses, with some available online. SNL courses are available online and at the Loop and O'Hare campuses.
Learning Outcomes

Students will be able to:

- Apply knowledge of diverse developmental characteristics and abilities to implement best practices in educating young children in various settings, e.g.: child-care, preschool, and primary grades.
- Use pedagogical knowledge of developmentally appropriate content areas to create meaningful learning experiences for each child based on best practices.
- Design lessons and differentiating instructions based on their knowledge of content areas and their knowledge of children's diverse developmental levels, special needs characteristics (e.g.; children with disabilities), and diverse cultural and linguistic characteristics (e.g.; English Learners).
- Structure and manage safe and healthy learning environments, which are culturally and linguistically responsive; facilitate emotional well-being and positive relationships among children and between children and professionals; and facilitate children's active engagement, academic risk taking, and self-motivation.
- Plan and implement developmentally appropriate curricula, and differentiate/modify instruction according to the child's developmental and learning characteristics through use of a wide variety of learning materials and technologies.
- Competently address children's reading, writing, and oral communication needs to facilitate learning in all content areas.
- Implement various forms of assessment (summative and formative) to determine children's developmental, behavioral, and learning needs; monitor and measure children's developmental, behavioral and learning progress; and evaluate child outcome.
- Collaborate with families of young children from diverse backgrounds; form and maintaining positive relationships with and among children, and work as team members with other professionals.
- Exhibit professional conduct, including providing leadership, and advocate for children and families.
- Use independent learning skills and strategies to organize, initiate, and document prior, current, and future college-level learning.
- Design learning strategies to attain goals for personal and educational development.
- Reflect on the learning process and methods used in an experiential project.
- Assess the social and personal value of civic engagement for achieving change.
- Learn collaboratively and examine the skills, knowledge, and values that contribute to such learning.
- Pose questions and use methods of formal inquiry to answer questions and solve problems.
- Write to analyze, synthesize, and evaluate experiences and concepts to demonstrate competences.
- Analyze issues and reconcile problems through critical and appreciative thinking.
- Use mathematical symbols, concepts, and methods to describe and solve problems.
- Analyze a problem using two different ethical systems.
- Define and analyze a creative process.
- Analyze power relations among racial, social, cultural, or economic groups in the United States.
- Analyze issues and problems from a global perspective.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
• Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others' perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one's behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

• Maintain a DePaul undergraduate 2.5 GPA
• Pass the Illinois Test of Academic Proficiency (TAP)
• Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.
Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content area courses
- Overall cumulative G.P.A. of 2.50 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:

• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are
subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

## Major Requirements

### Course/Competency Requirements

#### Lifelong Learning

12 competencies satisfied by SNL and COE courses, approved transfer courses, and/or proficiency exams. Included in this area are COE clinical courses and a student teaching course.

- LL 103 INDEPENDENT LEARNING SEMINAR (L-1) (2qh)
- LL 250 FOUNDATIONS OF ADULT LEARNING: DEVELOPING PERSONAL, PROFESSIONAL AND EDUCATIONAL GOALS (L-2 & F-1)
- L-3: Civic Engagement (L-3)
- LL 260 WRITING FOR COMPETENCE (L-4)
- LL 270 CRITICAL THINKING (L-5)
- LL 205 QUANTITATIVE REASONING (L-6)
- ECE 280 INTERNSHIP WITH INFANTS AND TODDLERS (L-7)
- ECE 381 INTERNSHIP IN PRESCHOOL SETTING (L-7)
- ECE 382 INTERNSHIP IN PRIMARY SETTING (L-7)
- LL 300 RESEARCH SEMINAR (L-8 & L-9)
- ECE 385 EARLY CHILDHOOD STUDENT TEACHING (L-10 & L-11)
- LL 390 SUMMIT SEMINAR (L-12)

#### Liberal Learning

26 competencies in four categories. Competencies are satisfied by SNL and COE courses, equivalent transfer courses, and/or documented college-level learning from experience. All Education course grades must be C or better and course grades for SNL competencies must be C- or better.

**Arts & Ideas Category**

3 COE courses, 5 SNL competencies

- ECE 286 ART, MUSIC, AND MOVEMENT FOR THE YOUNG CHILD
- LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
- EE 347 CHILDREN'S LITERATURE

**Human Community Category**

3 COE courses, 5 SNL competencies

- ECE 303 INTRODUCTION TO EARLY CHILDHOOD EDUCATION
- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT

**Scientific World Category**

DePaul University  Winter/Spring/Summer 2016-2017  Page 267 of 2776
2 COE courses, 6 SNL competencies

- ECE 331 BEGINNING MATH AND SCIENCE INSTRUCTION
- ECE 298 CHILD HEALTH SAFETY AND NUTRITION

**Advanced Elective Category**

2 SNL competencies

**Focus Area**

12 competencies satisfied through 10 COE courses and a SNL competence

- ECE 290 CHILD GROWTH AND DEVELOPMENT
- ECE 302 CHILD AND FAMILY IN THE URBAN COMMUNITY
- ECE 307 LANGUAGE DEVELOPMENT IN EARLY CHILDHOOD (BIRTH TO 8)
- ECE 309 YOUNG EXCEPTIONAL CHILD: METHODS AND CHARACTERISTICS
- ECE 310 PREPRIMARY PROGRAMS: CURRICULUM AND STRATEGIES
- ECE 311 CURRICULUM AND INSTRUCTION IN PRIMARY GRADES
- EE 324 READING/LANGUAGE ARTS IN THE EARLY YEARS
- ECE 375 ASSESSMENT IN EARLY CHILDHOOD INCLUSIVE SETTINGS
- ECE 306 FUNCTIONAL BEHAVIOR ASSESSMENT: INTERVENTION AND SUPPORT IN EARLY CHILDHOOD
- ECE 387 CAPSTONE SEMINAR IN EARLY CHILDHOOD EDUCATION

**E-Commerce Technology (Minor)**

The E-Commerce Technology minor exposes students to a broad variety of technologies, programming languages and tools focused on building the skill set needed to program and administer an e-commerce website.

- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- IT 231 WEB DEVELOPMENT I
- ECT 330 ADVANCED INTERNET APPLICATION DEVELOPMENT
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- 1 course from the following list:
  - ECT 355 INTERNET SYSTEMS: COLLABORATION, COMMERCE, AND MEDIA
  - ECT 360 INTRODUCTION TO XML
  - IT 232 WEB DEVELOPMENT II

**Economics (BA)**

Economics is both a social science discipline and a framework for analyzing production, consumption, and distribution decisions. The goal of the undergraduate curriculum is to offer students the theoretical background necessary to understand business and policy issues, as well as the quantitative and analytical skills necessary to evaluate these issues independently. The Economics Department offers courses that explore topics such as unemployment, inflation, production and distribution, economic growth, environmental issues, poverty, urban and regional development, international trade, labor issues, economic history, and international economic relations.

Courses emphasize the need for accurate knowledge of business institutions and economic phenomena, for theories capable of explaining these phenomena, for estimating relationships among economic variables, and for
Graduates with a major in economics are solidly prepared for employment in the private, public, and non-profit sectors, or for advanced studies in business, law, and economics.

DePaul offers Economics as both a major and minor field of study through both the College of Liberal Arts and Social Sciences and the Driehaus College of Business. An Honors Track option is available to economic majors in both colleges. In addition, the Department of Economics offers the Accelerated Bachelor-Master of Science in Economics and Policy Analysis.

<tr>
<td><strong>Total hours required</strong></td>
<td><strong>192 hours</strong></td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Define economic concepts needed to analyze issues in the popular press.
- Identify the function of key economic institutions, such as the Federal Reserve System.
- Apply the supply and demand framework to analyze the impact of exogenous changes on price and output of goods and services.
- Differentiate the pricing and output decisions of firms operating under varying conditions of competition.
- Design and construct a basic macroeconomic model and apply it to illustrate the concept of macroeconomic equilibrium.
- Assess the potential impact of government interventions on individuals, markets and/or the macroeconomy.
- Gain exposure to the application of economic concepts/models in a variety of fields within economics (e.g., Labor Economics, Health Economics, Urban Economics, International Economics, Development Economics, History of Economic Thought, Financial Economics, etc).

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration. Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO

Senior Year

Capstone

- ECO 395 CAPSTONE SEMINAR IN ECONOMICS * [See Note Below]

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course - MAT 135 recommended]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 1 Course Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student whose only major is Economics is required to complete the Capstone offered by the
Economics Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in Economics may substitute the Capstone of the secondary major or degree. An Economics major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the Economics Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

**Course Requirements**

- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 305 INTERMEDIATE MICROECONOMICS
- ECO 306 INTERMEDIATE MACROECONOMICS
- Eight additional Economics courses selected from the curricular specializations listed below
- MAT 136 BUSINESS CALCULUS II
- MAT 137 BUSINESS STATISTICS (or an equivalent statistics course approved by an Economics advisor).

MAT 135 BUSINESS CALCULUS I is not a requirement for the major but its successful completion is a prerequisite for MAT 136. MAT 135 is approved to count for the Liberal Studies Program's Scientific Inquiry-Elective learning domain.

MAT 150 and MAT 151 may be substituted for MAT 135 and MAT 136.

**Curricular Specializations**

The eight Economics electives should be selected from the following. The department offers three recommendations for students who would like to focus their studies on one area of expertise. These areas are optional; no curricular specialization is required for the major.

**International Focus**

- ECO 316 EUROPEAN ECONOMIC HISTORY
- ECO 330 THE ECONOMICS OF SOCIALISM
- ECO 333 TOPICS IN GLOBAL ECONOMIES
- ECO 334 UNDERSTANDING CHINA'S ECONOMY
- ECO 340 DEVELOPMENT OF ECONOMIC THOUGHT
- ECO 359 DEVELOPMENT ECONOMICS
- ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
- ECO 361 INTERNATIONAL TRADE
- ECO 362 INTERNATIONAL MONETARY ECONOMICS
- ECO 363 ECONOMICS OF THE EUROPEAN UNION
- ECO 398 SPECIAL TOPICS

**Public Policy and Pre-Law**

- ECO 310 URBAN ECONOMICS
- ECO 312 THE CHICAGO ECONOMY
- ECO 313 ECONOMICS OF REGULATION & ANTI TRUST LAWS
- ECO 314 ECONOMICS OF THE PUBLIC SECTOR
- ECO 315 INTRODUCTION TO MONEY AND BANKING
• ECO 317 AMERICAN ECONOMIC HISTORY
• ECO 318 LABOR ECONOMICS AND ORGANIZATION
• ECO 319 ECONOMICS AND GENDER
• ECO 320 ECONOMICS OF RELIGION
• ECO 321 LAW & ECONOMICS
• ECO 322 ECONOMICS AND FINANCIAL POLICY
• ECO 326 HEALTH ECONOMICS
• ECO 335 ENERGY AND ENVIRONMENTAL ECONOMICS
• ECO 341 BEHAVIORAL ECONOMICS
• ECO 398 SPECIAL TOPICS

Quantitative Economics

• ECO 311 BUSINESS AND ECONOMIC FORECASTING
• ECO 336 EXPLORING ECONOMICS & STATISTICS THROUGH SPORTS
• ECO 375 INTRODUCTION TO ECONOMETRICS
• ECO 379 GAME THEORY
• ECO 380 MATHEMATICAL ECONOMICS
• ECO 398 SPECIAL TOPICS: TIME SERIES ANALYSIS

ECO 101, ECO 250 and ECO 395 may not be used as Economics Electives towards a major or minor in Economics.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Students are encouraged to use their open electives to minor or double major in a complementary field of study. A student’s specific interest in economics will dictate the best choice of a minor or double major.

Combined Bachelor’s/ Master’s Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The Economics (BA) offers two options:

• Economics (BA)/Economics and Policy Analysis (MS)
• Economics (BA)/Secondary Education Social Sciences (MEd)

Economics (BA)/ Economics and Policy Analysis (MS)

The MS in Economics and Policy Analysis (MS-EPA) gives students a distinguished and marketable set of skills in economic theory as it applies to business and economic policy analysis. Students learn how to conduct statistical and econometric research grounded in sound economic models using data from multiple sources on different issues. In addition, students will be able to explain their results and policy recommendations not only to economists, but also to politicians, and the general public.

MS-EPA graduates can find employment in the private sector working for corporations in governmental relations departments, in federal and state governmental agencies, in trade associations or lobbying firms, or in the not-for-profit sector.

Undergraduate students will apply to the program during their junior year and will typically take the following three graduate level courses during their senior year:

• ECO 505 ADVANCED MICROECONOMICS
• ECO 515 MICROECONOMICS OF MARKET ORGANIZATION
• ECO 516 ECONOMICS OF THE PUBLIC SECTOR I

These three courses will count towards completion of the BA with a major in Economics and will also count towards completion of the MS-EPA. The undergraduate degree will be awarded at the completion of all
undergraduate work while the MS-EPA will be awarded upon completion of the remaining graduate level work.

**Economics (BA)/ Secondary Education Social Science (MEd)**

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Economics major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a B.A. in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 grade point average. During their senior year, students are required to complete a Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 412 THE NATURE OF HISTORY AND THE SOCIAL SCIENCES
- TCH 422 INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY

Social Science Content Area (grades of C or better required for licensure):

The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS
- HST 299 CRAFT OF HISTORY
- 3 United States History courses
- 2 Non-United States History courses
- 6 from the economics major
- Additional licensure requirements: (one course in each area required)
  - Geography (GEO 101 recommended)
  - Political Science (PSC 120 recommended)
  - Psychology (PSY 105 recommended)
  - Sociology (SOC 101 recommended)
  - Anthropology (ANT 102 recommended)

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Social Sciences at the 6th-12th grade levels.

A full description of the Program can be found on the College of Education website in the graduate course catalog. Students interested in the Program should consult with the designated TEACH Program advisor in their home department.

**Economics (BSB)**

Economics is both a social science discipline and a framework for analyzing production, consumption, and distribution decisions. The goal of the undergraduate curriculum is to offer students the theoretical background necessary to understand business and policy issues, as well as the quantitative and analytical skills necessary to evaluate these issues independently. The Economics Department offers courses that explore topics such as unemployment, inflation, production and distribution, economic growth, environmental issues, poverty, urban and regional development, international trade, labor issues, economic history, and international economic relations. Courses emphasize the need for accurate knowledge of business institutions and economic phenomena, for theories capable of explaining these phenomena, for estimating relationships among economic variables, and for testing explanations.

Graduates with a major in economics are solidly prepared for employment in the private, public, and non-profit sectors, or for advanced studies in business, law, and economics. The economics major in the College of Business combines the study of economics with the related business fields of accountancy, finance, marketing and management.

DePaul offers Economics as both a major and minor field of study through both the Driehaus College of Business.
and the College of Liberal Arts and Social Sciences. An Honors Track option is available to economic majors in both colleges. In addition, the Department of Economics offers the Accelerated Bachelor-Master of Science in Economics and Policy Analysis.

### Learning Outcomes

#### Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

#### Program Specific Outcomes

Students will be able to:

- Understand how the degree on competition in a market affects firm behavior.
- Understand the relationship of macroeconomic variables.

### Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

#### Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT*
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
- One Communication course to be chosen from:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- Global Business Perspective (4.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA'S ECONOMY
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  - MKT 360 INTERNATIONAL MARKETING
  - A course taken as part of a term-long study abroad program
- One Professional Writing course to be chosen from:
  - WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
  - WRD 204 TECHNICAL WRITING
  - WRD 206 PROFESSIONAL WRITING

*MGT 301-H is required if pursuing the Management Honors Program.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
- MAT 135 and MAT 137 are completed through Liberal Studies requirements
- MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
- MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
- MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Grade Minimums for Economics Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, ECO 315, MAT 135, MAT 136, MAT 137, the course used for Professional Writing, and any ECO course used for Global Business Perspective.

Global Business Perspective

If an ECO course is shared between Global Business Perspective and the Economics major, additional hours of Open Elective credit are required.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

Religious Dimensions
2 RD courses required***

Understanding the Past

2 UP courses required

* Students must earn C- or better in this course.
** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Declaration Requirements

To declare a major in Economics, a student must meet the following requirements:

- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.000
- A minimum Economics (ECO) grade point average of 2.000
- No grade of IN, R, or lower than C- in any Economics (ECO) course or course used toward the Economics major
- Completion of ECO 105, ECO 106 and ECO 315 with minimum grades of C-

Course Requirements

In addition to ECO 105, ECO 106 and ECO 315, a student majoring in Economics is required to complete the following courses totaling 30.0 hours:

- Three required courses:
  - ECO 250 CAREER PREPARATION FOR ECONOMICS MAJORS (2.0 hours)
  - ECO 305 INTERMEDIATE MICROECONOMICS
  - ECO 306 INTERMEDIATE MACROECONOMICS
- Five elective courses to be chosen from:
  - ECO 310 URBAN ECONOMICS
  - ECO 311 BUSINESS AND ECONOMIC FORECASTING
  - ECO 312 THE CHICAGO ECONOMY
  - ECO 313 ECONOMICS OF REGULATION & ANTI TRUST LAWS
  - ECO 314 ECONOMICS OF THE PUBLIC SECTOR
If you are completing a double major or minor in finance, you must take FIN 320 in place of ECO 315.

Other 250 career courses (2.0 hours) offered in the Driehaus College of Business can be used as a substitute for ECO 250.

ECO 101 is intended for non-Driehaus students and cannot be counted toward a major or minor in economics.

ECO 393 may not be used towards the major.

ECO 395 may not be taken by students in the Driehaus College of Business.

**Open Electives**

Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

**Global Business Perspective**

If an ECO course is shared between Global Business Perspective and the Economics major, additional hours of Open Elective credit are required.

**Graduation Requirements**

All Economics (ECO) courses and any courses used toward the Economics major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

---

**Curricular Specializations**

The Department offers three recommendations for students who would like to focus their studies on one area of expertise. These areas are optional; no curricular specialization is required for the major.

**International Focus**
Public Policy and Pre-Law

- ECO 310 URBAN ECONOMICS
- ECO 312 THE CHICAGO ECONOMY
- ECO 313 ECONOMICS OF REGULATION & ANTI TRUST LAWS
- ECO 314 ECONOMICS OF THE PUBLIC SECTOR
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- ECO 316 EUROPEAN ECONOMIC HISTORY
- ECO 317 AMERICAN ECONOMIC HISTORY
- ECO 318 LABOR ECONOMICS AND ORGANIZATION
- ECO 319 ECONOMICS AND GENDER
- ECO 320 ECONOMICS OF RELIGION
- ECO 321 LAW & ECONOMICS
- ECO 326 HEALTH ECONOMICS
- ECO 335 ENERGY AND ENVIRONMENTAL ECONOMICS

Quantitative Economics

- ECO 375 INTRODUCTION TO ECONOMETRICS
- ECO 379 GAME THEORY
- ECO 380 MATHEMATICAL ECONOMICS

Further coursework in econometrics can be taken from the Kellstadt Graduate School of Business via ECO 399 with departmental permission.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Economics (BSB)/ Economics and Policy Analysis (MS)

The MS in Economics and Policy Analysis gives students a distinguished and marketable set of skills in economic theory as it applies to business and policy analysis. Students learn how to conduct statistical and econometric research grounded in sound economic models using data from multiple sources on different issues. In addition, students will be able to explain their results and policy recommendations not only to economists, but also to politicians and the general public.

M.S.-EPA graduates can find employment in the private sector working for corporations in governmental relations departments, in federal and state governmental agencies, in trade associations or lobbying firms, or in the not-for-profit sector.

Undergraduate students will apply to the program during their junior year and will typically take the following three graduate level courses during their senior year:

- ECO 505 ADVANCED MICROECONOMICS
- ECO 515 MICROECONOMICS OF MARKET ORGANIZATION
- ECO 516 ECONOMICS OF THE PUBLIC SECTOR I

These three courses will count towards completion of the BSB with a major in Economics and will also count towards completion of the MS-EPA. The undergraduate degree will be awarded at the completion of all
undergraduate work while the MS-EPA will be awarded upon completion of the remaining graduate level work.

Economics (Minor: Business Students Only)

Students in the Driehaus College of Business who wish to gain a deeper understanding of economic theory and practice to complement their majors can do so with a minor in Economics. Students may choose the economics electives that best fit their individual courses of study.

Declaration Requirements

To declare a minor in Economics, a Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Economics grade point average of 2.000
- No grade of IN, R, or lower than C- in any Economics (ECO) course

Course Requirements

In addition to ECO 105, ECO 106 and ECO 315, a Driehaus student minoring in Economics is required to complete the following courses totaling at least 12.0 hours:

Three elective courses to be chosen from:

- ECO 305 INTERMEDIATE MICROECONOMICS
- ECO 306 INTERMEDIATE MACROECONOMICS
- ECO 310 URBAN ECONOMICS
- ECO 311 BUSINESS AND ECONOMIC FORECASTING
- ECO 312 THE CHICAGO ECONOMY
- ECO 313 ECONOMICS OF REGULATION & ANTI TRUST LAWS
- ECO 314 ECONOMICS OF THE PUBLIC SECTOR
- ECO 316 EUROPEAN ECONOMIC HISTORY
- ECO 317 AMERICAN ECONOMIC HISTORY
- ECO 318 LABOR ECONOMICS AND ORGANIZATION
- ECO 319 ECONOMICS AND GENDER
- ECO 320 ECONOMICS OF RELIGION
- ECO 321 LAW & ECONOMICS
- ECO 322 ECONOMICS AND FINANCIAL POLICY
- ECO 325 THE ECONOMICS OF POVERTY
- ECO 326 HEALTH ECONOMICS
- ECO 330 THE ECONOMICS OF SOCIALISM
- ECO 333 TOPICS IN GLOBAL ECONOMIES
- ECO 334 UNDERSTANDING CHINA'S ECONOMY
- ECO 335 ENERGY AND ENVIRONMENTAL ECONOMICS
- ECO 336 EXPLORING ECONOMICS & STATISTICS THROUGH SPORTS
- ECO 340 DEVELOPMENT OF ECONOMIC THOUGHT
- ECO 341 BEHAVIORAL ECONOMICS
- ECO 359 DEVELOPMENT ECONOMICS
- ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
- ECO 361 INTERNATIONAL TRADE
- ECO 362 INTERNATIONAL MONETARY ECONOMICS
- ECO 363 ECONOMICS OF THE EUROPEAN UNION
- ECO 375 INTRODUCTION TO ECONOMETRICS
- ECO 376 TIME SERIES ANALYSIS
- ECO 379 GAME THEORY
- ECO 380 MATHEMATICAL ECONOMICS
- ECO 398 SPECIAL TOPICS (multiple topics may be used)
- ECO 399 INDEPENDENT STUDY

ECO 101 is intended for non-Driehaus students and cannot be counted toward a major or minor in economics.

ECO 393 Internship in Applied Economics and ECO 395 Capstone Seminar in Economics may not be used as
Graduation Requirements

All Economics (ECO) courses and any other courses used toward the Economics minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Economics (Minor: Liberal Arts and Social Sciences)

Undergraduate students in any college can minor in Economics in order to learn the foundations of microeconomic and macroeconomic theory, along with the theoretical, quantitative and analytical skills necessary to understand business and policy issues.

Course Requirements

- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- Four additional 300 level Economics courses
- ECO 395 CAPSTONE SEMINAR IN ECONOMICS and ECO 250 CAREER PREPARATION FOR ECONOMICS MAJORS may not be used as electives

Students majoring in Economics (BA) or Economics Honors (BA) are restricted from earning this minor.

Economics (Minor)

Available to students outside the Driehaus College of Business, the minor in Economics allows a student to learn the foundations of microeconomic and macroeconomic theory, along with the theoretical, quantitative and analytical skills necessary to understand business and policy issues.

Declaration Requirements

To declare a minor in Economics, a non-Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Economics grade point average of 2.000
- No grade of IN, R, or lower than C- in any Economics (ECO) course
- Completion of a pre-calculus course as a prerequisite to the first course in Economics

Course Requirements

A non-Driehaus student minoring in Economics is required to complete the following courses totaling at least 24.0 hours:

- Two required courses:
  - ECO 105 PRINCIPLES OF MICROECONOMICS
  - ECO 106 PRINCIPLES OF MACROECONOMICS
- Four elective courses to be chosen from:
  - ECO 305 INTERMEDIATE MICROECONOMICS
  - ECO 306 INTERMEDIATE MACROECONOMICS
ECO 310 URBAN ECONOMICS  
ECO 311 BUSINESS AND ECONOMIC FORECASTING  
ECO 312 THE CHICAGO ECONOMY  
ECO 313 ECONOMICS OF REGULATION & ANTI TRUST LAWS  
ECO 314 ECONOMICS OF THE PUBLIC SECTOR  
ECO 315 INTRODUCTION TO MONEY AND BANKING  
ECO 316 EUROPEAN ECONOMIC HISTORY  
ECO 317 AMERICAN ECONOMIC HISTORY  
ECO 318 LABOR ECONOMICS AND ORGANIZATION  
ECO 319 ECONOMICS AND GENDER  
ECO 320 ECONOMICS OF RELIGION  
ECO 321 LAW & ECONOMICS  
ECO 322 ECONOMICS AND FINANCIAL POLICY  
ECO 325 THE ECONOMICS OF POVERTY  
ECO 326 HEALTH ECONOMICS  
ECO 330 THE ECONOMICS OF SOCIALISM  
ECO 333 TOPICS IN GLOBAL ECONOMIES  
ECO 334 UNDERSTANDING CHINA'S ECONOMY  
ECO 335 ENERGY AND ENVIRONMENTAL ECONOMICS  
ECO 336 EXPLORING ECONOMICS & STATISTICS THROUGH SPORTS  
ECO 340 DEVELOPMENT OF ECONOMIC THOUGHT  
ECO 341 BEHAVIORAL ECONOMICS  
ECO 359 DEVELOPMENT ECONOMICS  
ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES  
ECO 361 INTERNATIONAL TRADE  
ECO 362 INTERNATIONAL MONETARY ECONOMICS  
ECO 363 ECONOMICS OF THE EUROPEAN UNION  
ECO 375 INTRODUCTION TO ECONOMETRICS  
ECO 376 TIME SERIES ANALYSIS  
ECO 379 GAME THEORY  
ECO 380 MATHEMATICAL ECONOMICS  
ECO 398 SPECIAL TOPICS (multiple topics may be used)  
ECO 399 INDEPENDENT STUDY

ECO 101 cannot be counted toward a major or minor in economics.

ECO 393 Internship in Applied Economics and ECO 395 Capstone Seminar in Economics may not be used as Economics Electives.

**Graduation Requirements**

All Economics (ECO) courses and any other courses used toward the Economics minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

**Economics Honors (BA)**

The Honors Track in Economics is available to students completing the Bachelor of Arts in Economics in the College of Liberal Arts and Social Sciences. It provides the opportunity to pursue a more challenging path of meeting degree requirements. In addition to maintaining a higher GPA, this path requires the demonstration of more quantitative and writing skills than the basic requirements for the Economics major. The student successfully completing this track would graduate with departmental honors.

Learning Outcomes

Students will be able to:

- Define economic concepts needed to analyze issues in the popular press.
- Identify the function of key economic institutions, such as the Federal Reserve System.
- Apply the supply and demand framework to analyze the impact of exogenous changes on price and output of goods and services.
- Differentiate the pricing and output decisions of firms operating under varying conditions of competition.
- Design and construct a basic macroeconomic model and apply it to illustrate the concept of macroeconomic equilibrium.
- Assess the potential impact of government interventions on individuals, markets and/or the macroeconomy.
- Gain exposure to the application of economic concepts/models in a variety of fields within economics (e.g., Labor Economics, Health Economics, Urban Economics, International Economics, Development Economics, History of Economic Thought, Financial Economics, etc).

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any
language (e.g. 104 or above for DePaul language classes)

- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

---

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

**Focal Point**

- LSP 112 FOCAL POINT SEMINAR

**Writing**

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

**Quantitative Reasoning & Technological Literacy**

- Not Required

**Sophomore Year**

**Multiculturalism in the US**
Junior Year

Experiential Learning

• Required

Senior Year

Capstone

• ECO 395 CAPSTONE SEMINAR IN ECONOMICS * [See Note Below]

Learning Domains

Arts and Literature (AL)

• 3 Courses Required

Philosophical Inquiry (PI)

• 2 Courses Required

Scientific Inquiry (SI)

• 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course - MAT 135 recommended]

Social, Cultural, and Behavioral Inquiry (SCBI)

• 1 Course Required

Religious Dimensions (RD)

• 2 Courses Required

Understanding the Past (UP)

• 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student whose only major is Economics is required to complete the Capstone offered by the Economics Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in Economics may substitute the Capstone of the secondary major or degree. An Economics major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the Economics Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Major Requirements

Invitation

Economics majors will be invited each term to participate in the Honors Track if they meet the following criteria:

- Have declared Economics as their major (or second major).
- Have completed ECO 305 INTERMEDIATE MICROECONOMICS and ECO 306 INTERMEDIATE MACROECONOMICS with a minimum grade of B- in each course.
- Have a minimum grade point average (GPA) of 3.300 in all economics courses taken at DePaul.

Course Requirements

- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 305 INTERMEDIATE MICROECONOMICS (Minimum grade of B-)
- ECO 306 INTERMEDIATE MACROECONOMICS (Minimum grade of B-)
- ECO 375 INTRODUCTION TO ECONOMETRICS (Minimum grade of B-)
- One advanced economics elective (an ECO course that carries a prerequisite of ECO 305 Intermediate Microeconomic Theory, ECO 306 Intermediate Macroeconomic Theory, or ECO 375 Econometrics). This requirement must be satisfied with a course taken at DePaul. Current courses meeting this requirement are:
  - ECO 311 BUSINESS AND ECONOMIC FORECASTING
  - ECO 313 ECONOMICS OF REGULATION & ANTI TRUST LAWS
  - ECO 314 ECONOMICS OF THE PUBLIC SECTOR
  - ECO 340 DEVELOPMENT OF ECONOMIC THOUGHT
  - ECO 341 BEHAVIORAL ECONOMICS
  - ECO 359 DEVELOPMENT ECONOMICS
  - ECO 398 SPECIAL TOPICS
  - Any other ECO course that carries a prerequisite of ECO 305, ECO 306 or ECO 375
- Six additional Economics courses
- MAT 135 BUSINESS CALCULUS I (taken as a Scientific Inquiry domain course)
- MAT 136 BUSINESS CALCULUS II
- MAT 137 BUSINESS STATISTICS (or an equivalent statistics course approved by an Economics advisor).

Degree Requirements

- Honors Track students must maintain a minimum GPA of 3.300 (B+ average) in all economics courses taken at DePaul.
- Honors Track students must submit a paper written for any economics class that meets the following criteria: (a) the student earned a B+ or better on the paper; (b) the paper contained a literature review based on at least 5 sources; and (c) the paper was at least 10 pages OR used econometrics. This requirement must be satisfied using a paper from a course taken at DePaul. Students should contact the Director of the Undergraduate Economics Program for submission guidelines.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The Economics (BA) offers two options:

- Economics (BA)/Economics and Policy Analysis (MS)
Economics (BA)/Economics and Policy Analysis (MS)

The MS in Economics and Policy Analysis (MS-EPA) gives students a distinguished and marketable set of skills in economic theory as it applies to business and economic policy analysis. Students learn how to conduct statistical and econometric research grounded in sound economic models using data from multiple sources on different issues. In addition, students will be able to explain their results and policy recommendations not only to economists, but also to politicians, and the general public.

MS-EPA graduates can find employment in the private sector working for corporations in governmental relations departments, in federal and state governmental agencies, in trade associations or lobbying firms, or in the not-for-profit sector.

Undergraduate students will apply to the program during their junior year and will take the following three graduate level courses during their senior year:

- ECO 505 ADVANCED MICROECONOMICS
- ECO 515 MICROECONOMICS OF MARKET ORGANIZATION
- ECO 516 ECONOMICS OF THE PUBLIC SECTOR I

These three courses will count towards completion of the BA with a major in Economics and will also count towards completion of the MS-EPA. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS-EPA will be awarded upon completion of the remaining graduate level work.

Economics (BA)/Secondary Education Social Science (MEd)

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Economics major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BA in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 grade point average. During their senior year, students are required to complete a Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 412 THE NATURE OF HISTORY AND THE SOCIAL SCIENCES
- TCH 422 INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY

Social Science Content Area (grades of C or better required for licensure):
The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS
- HST 299 CRAFT OF HISTORY
- 3 United States History courses
- 2 Non-United States History courses
- 6 from the economics major
- Additional licensure requirements: (one course in each area required
  - Geography (GEO 101 recommended)
  - Political Science (PSC 120 recommended)
  - Psychology (PSY 105 recommended)
  - Sociology (SOC 101 recommended)
  - Anthropology (ANT 102 recommended)

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Social Sciences at the 6th-12th grade levels.

A full description of the Program can be found on the College of Education website in the graduate course catalog. Students interested in the Program should consult with the designated TEACH Program advisor in their
Economics Honors (BSB)

The Honors Track in Economics is available to students completing the Bachelor of Science in Business with a major in Economics. It provides the opportunity to pursue a more challenging path of meeting degree requirements. In addition to maintaining a higher GPA, this path requires the demonstration of more quantitative and writing skills than the basic requirements for the Economics major. The student successfully completing this track would graduate with departmental honors.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Understand how the degree on competition in a market affects firm behavior.
- Understand the relationship of macroeconomic variables.
Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT*
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MGT 310 CONSUMER BEHAVIOR
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
- One Communication course to be chosen from:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- Global Business Perspective (4.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA’S ECONOMY
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  - MKT 360 INTERNATIONAL MARKETING
  - A course taken as part of a term-long study abroad program
- One Professional Writing course to be chosen from:
  - WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
  - WRD 204 TECHNICAL WRITING
  - WRD 206 PROFESSIONAL WRITING

*MGT 301-H is required if pursuing the Management Honors Program.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
- MAT 135 and MAT 137 are completed through Liberal Studies requirements
- MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
• MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
• MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
• MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Grade Minimums for Economics Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, ECO 315, MAT 135, MAT 136, MAT 137, the course used for Professional Writing, and any ECO course used for Global Business Perspective.

Global Business Perspective

If an ECO course is shared between Global Business Perspective and the Economics major, additional hours of Open Elective credit are required.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

• LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

• LSP 112 FOCAL POINT SEMINAR

Writing

• WRD 103 COMPOSITION AND RHETORIC I *
• WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

• Not required

Sophomore Year

• LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

• Experiential learning required **

Senior Year

• ICS 392 SENIOR SEMINAR *

Learning Domains

Arts and Literature

• 3 AL courses Required
Philosophical Inquiry
- 2 PI courses required***

Scientific Inquiry
- MAT 135 BUSINESS CALCULUS I
  or MAT 150 CALCULUS I
  or MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
- MAT 137 BUSINESS STATISTICS
- 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry
- 1 SCBI course required (must not be an ECO course)

Religious Dimensions
- 2 RD courses required***

Understanding the Past
- 2 UP courses required

* Students must earn C- or better in this course.
** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Invitation
Economics majors will be invited each term to participate in the Honors Track if they meet the following criteria:
- Have declared Economics as their major (or second major)
- Have completed ECO 305 INTERMEDIATE MICROECONOMICS and ECO 306 INTERMEDIATE MACROECONOMICS with a minimum grade of B- in each course
- Have a minimum GPA of 3.300 in all Economics (ECO) courses taken at DePaul

Course Requirements
In addition to ECO 105, ECO 106 and ECO 315, a student majoring in the Honors Track in Economics is required to complete the following courses totaling 30.0 hours:

- One required course:
  - ECO 250 CAREER PREPARATION FOR ECONOMICS MAJORS (2.0 hours)

- Three required courses with B- minimum grade in each:
  - ECO 305 INTERMEDIATE MICROECONOMICS
  - ECO 306 INTERMEDIATE MACROECONOMICS
  - ECO 375 INTRODUCTION TO ECONOMETRICS

- One Advanced Economics Elective completed at DePaul with a B- minimum grade to be chosen from:
  - ECO 311 BUSINESS AND ECONOMIC FORECASTING
  - ECO 313 ECONOMICS OF REGULATION & ANTI TRUST LAWS
  - ECO 314 ECONOMICS OF THE PUBLIC SECTOR
  - ECO 340 DEVELOPMENT OF ECONOMIC THOUGHT
  - ECO 341 BEHAVIORAL ECONOMICS
  - ECO 359 DEVELOPMENT ECONOMICS
  - ECO 376 TIME SERIES ANALYSIS
  - ECO 379 GAME THEORY
  - Any other ECO course that carries a prerequisite of ECO 305, ECO 306 or ECO 375

- Three electives to be chosen from:
  - ECO 310 URBAN ECONOMICS
  - ECO 311 BUSINESS AND ECONOMIC FORECASTING
  - ECO 312 THE CHICAGO ECONOMY
  - ECO 313 ECONOMICS OF REGULATION & ANTI TRUST LAWS
  - ECO 314 ECONOMICS OF THE PUBLIC SECTOR
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 317 AMERICAN ECONOMIC HISTORY
  - ECO 318 LABOR ECONOMICS AND ORGANIZATION
  - ECO 319 ECONOMICS AND GENDER
  - ECO 320 ECONOMICS OF RELIGION
  - ECO 321 LAW & ECONOMICS
  - ECO 322 ECONOMICS AND FINANCIAL POLICY
  - ECO 325 THE ECONOMICS OF POVERTY
  - ECO 326 HEALTH ECONOMICS
  - ECO 330 THE ECONOMICS OF SOCIALISM
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA'S ECONOMY
  - ECO 335 ENERGY AND ENVIRONMENTAL ECONOMICS
  - ECO 336 EXPLORING ECONOMICS & STATISTICS THROUGH SPORTS
  - ECO 340 DEVELOPMENT OF ECONOMIC THOUGHT
  - ECO 341 BEHAVIORAL ECONOMICS
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - ECO 376 TIME SERIES ANALYSIS
  - ECO 379 GAME THEORY
  - ECO 380 MATHEMATICAL ECONOMICS
  - ECO 398 SPECIAL TOPICS (multiple topics may be used)
  - ECO 399 INDEPENDENT STUDY

If you are completing a double major or minor in finance, you must take FIN 320 in place of ECO 315.

Other 250 career courses (2.0 hours) offered in the Driehaus College of Business can be used as a substitute for ECO 250.

ECO 393 may not be used towards the major.

ECO 395 may not be taken by students in the Driehaus College of Business.

Open Electives

Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If an ECO course is shared between Global Business Perspective and the Economics major, additional hours of Open Elective credit are required.
**Additional Requirements**

Honors Track students must maintain a minimum GPA of 3.300 (B+ average) in all Economics (ECO) courses taken at DePaul.

Honors Track students must submit a paper written for any economics class that meets the following criteria: (a) the student earned a B+ or better on the paper; (b) the paper contained a literature review based on at least 5 sources; and (c) the paper was at least 10 pages OR used econometrics. This requirement must be satisfied using a paper from a course taken at DePaul. Students should contact the Director of the Undergraduate Economics Program for submission guidelines. The director position is currently held by Associate Professor Laura Owen, lowen@depaul.edu.

**Graduation Requirements**

All Economics (ECO) courses and any other courses used toward the Economics major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

**Sample Schedule**

Students interested in pursuing the Honors Track in Economics are advised to complete the following courses according to the sequence found below:

<table>
<thead>
<tr>
<th>Time</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st or 2nd Year</td>
<td>MAT 135, MAT 136 and MAT 137</td>
</tr>
<tr>
<td>1st or 2nd Year</td>
<td>ECO 105 and ECO 106</td>
</tr>
<tr>
<td>2nd or 3rd Year</td>
<td>ECO 305, ECO 306 and ECO 375</td>
</tr>
<tr>
<td>2nd or 3rd Year</td>
<td>Advanced Economics Electives (selected from approved courses)</td>
</tr>
<tr>
<td>2nd through 4th Year</td>
<td>Additional Economics Electives (3 courses required)</td>
</tr>
<tr>
<td>3rd Year</td>
<td>ECO 250</td>
</tr>
</tbody>
</table>

**Combined Bachelor's/ Master's Degree**

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

**Economics (BSB)/ Economics and Policy Analysis (MS)**

The MS in Economics and Policy Analysis gives students a distinguished and marketable set of skills in economic theory as it applies to business and policy analysis. Students learn how to conduct statistical and econometric research grounded in sound economic models using data from multiple sources on different issues. In addition, students will be able to explain their results and policy recommendations not only to economists, but also to politicians and the general public.

M.S.-EPA graduates can find employment in the private sector working for corporations in governmental relations departments, in federal and state governmental agencies, in trade associations or lobbying firms, or in the not-for-profit sector.
Undergraduate students will apply to the program during their junior year and will typically take the following three graduate level courses during their senior year:

- ECO 505 ADVANCED MICROECONOMICS
- ECO 515 MICROECONOMICS OF MARKET ORGANIZATION
- ECO 516 ECONOMICS OF THE PUBLIC SECTOR I

These three courses will count towards completion of the BSB with a major in Economics and will also count towards completion of the MS-EPA. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS-EPA will be awarded upon completion of the remaining graduate level work.

---

**Educational Studies (Minor)**

The minor is for undergraduates with majors in other fields of study who want to study educational issues but are not pursuing teacher licensure. From a critical and interdisciplinary lens, students enrolled in the minor will study educational thought, policy and practice in relationship to broader social, cultural and political forces, in both school and non-school settings. The minor will help students develop the knowledge and skills necessary to understand and critically analyze the purposes of education and its impact on individuals and the broader society.

**Course Requirements**

The requirements for the Undergraduate Minor in Educational Studies include completion of six courses among the following:

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- LSE 258 EDUCATION AND SOCIAL JUSTICE
- LSE 254 THE POLITICS OF EDUCATION
- LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
- SCU 337 HUMAN GROWTH AND DEVELOPMENT
- LSE 255 INTERNATIONAL STUDIES IN EDUCATION

---

**Electronics (Minor)**

The minor in Electronics provides a grounding in physics and a fundamental technical understanding of linear circuits and digital electronics to enable you to troubleshoot and create basic electronic circuits.

**Course Requirements**

- PHY 110 BASIC ELECTRONICS: PRINCIPLES & TECHNIQUES
- PHY 231 LINEAR ELECTRIC CIRCUITS
- PHY 232 INTRODUCTION TO DIGITAL ELECTRONICS
- Three additional physics courses

Students cannot earn a minor in the same academic program as their major.
Elementary Education (BS)

The Bachelor of Science program in Elementary Education prepares students to teach 1st through 6th grade in a variety of urban and suburban education settings, including public and private elementary and middle schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 155-170 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Along with general elementary education courses, EE majors are required to complete a series of courses in a specific concentration in liberal arts. Possible concentration areas include: Anthropology, Arabic, Art, Bilingual Education, Biology, Catholic Studies, Chemistry, Chinese, Communications, Economics, English, Environmental Science, ESL, French, Geography, General Science, German, History, Italian, Japanese, Language Arts, Math, Philosophy, Physical Science, Physics, Political Science, Psychology, Religious Studies, Social Studies, Sociology, and Spanish.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Elementary Education (self-contained general education) (grades 1 - 6), an Illinois State Board of Education (ISBE) approved program.

<table>

Learning Outcomes

Students will be able to:

- Apply knowledge of diverse developmental characteristics and abilities to implement best practices in educating young children in various settings, e.g.: child-care, preschool, and primary grades.
- Use pedagogical knowledge of developmentally appropriate content areas to create meaningful learning experiences for each child based on best practices.
- Design lessons and differentiating instructions based on their knowledge of content areas and their knowledge of children's diverse developmental level, special needs characteristics (e.g.; children with disabilities), and diverse cultural and linguistic characteristics (e.g.; English Learners).
- Structure and manage safe and healthy learning environments, which are culturally and linguistically responsive; facilitate emotional well-being and positive relationships among children and between children.
and professionals; and facilitate children’s active engagement, academic risk taking, and self-motivation.

- Plan and implement developmentally appropriate curricula, and differentiate /modify instruction according to the child's developmental and learning characteristics through use of a wide variety of learning materials and technologies.
- Competently address children's reading, writing, and oral communication needs to facilitate learning in all content areas.
- Implement various forms of assessment (summative and formative) to determine children's developmental, behavioral, and learning needs; monitor and measure children's developmental, behavioral and learning progress; and evaluate child outcome.
- Collaborate with families of young children from diverse backgrounds; form and maintaining positive relationships with and among children, and work as team members with other professionals.
- Exhibit professional conduct, including providing leadership, and advocate for children and families.

**College Core Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field
partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

**Skill Building Courses**

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul undergraduate 2.5 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.
B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content area courses
- Overall cumulative G.P.A. of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).
Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter
• LSP 110 DISCOVER CHICAGO  
or LSP 111 EXPLORE CHICAGO

**Focal Point**

• LSP 112 FOCAL POINT SEMINAR

**Writing**

• WRD 103 COMPOSITION AND RHETORIC I *
• WRD 104 COMPOSITION AND RHETORIC II *

**Quantitative Reasoning & Technological Literacy**

• LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
• LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

**Sophomore Year**

**Multiculturalism in the US**

• LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

**Junior Year**

**Experiential Learning**

• Met by successful completion of required field experience hours.

**Senior Year**

**Capstone**

• EE 387 ELEMENTARY EDUCATION CAPSTONE *  
  (Note: This must be taken with student teaching. Students must earn a C or better in this course.)

**Learning Domains**

**Arts and Literature (AL)**

• 2 Courses Required

**Philosophical Inquiry (PI)**

• 2 Courses Required
  • LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
  • 1 Additional Course  
    (Note: PHL 100 recommended)

**Scientific Inquiry (SI)**

• 3 Courses Required:
  • 1 BIO
  • 2 additional courses selected from the following: CHE, ENV, GEO or PHY (each of these two must be from different subjects)  
    (Note: One course must be a lab or SWK.)

**Social, Cultural, and Behavioral Inquiry (SCBI)**

• 3 Courses Required
  • PSC 120 THE AMERICAN POLITICAL SYSTEM
  • 2 additional courses selected from the following: ANT, ECO, GEO, PSY, or SOC (each of these two must be from different subjects)
Religious Dimensions (RD)

- 1 Course Required

Understanding the Past (UP)

- 2 Courses Required
  (Note: One must be a United States history course offered by the history department)

* Students must earn a C- or better in this course.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

The requirements below are those approved by the Illinois State Board of Education December 2015.

Course Requirements

Pre-Education Core: 16 quarter hours required, grade of C or better required

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- EE 281 INTRODUCTION TO EDUCATIONAL PRACTICE
- EE 347 CHILDREN'S LITERATURE
- PE 206 PERSONAL AND COMMUNITY HEALTH
  or PE 273 HEALTH AND NUTRITION

Mathematics for Elementary Teachers: 8 quarter hours required, grade of C or better required

- MAT 110 FOUNDATIONS OF MATHEMATICS FOR ELEMENTARY SCHOOL TEACHERS I
- MAT 111 FOUNDATIONS OF MATHEMATICS FOR ELEMENTARY SCHOOL TEACHERS II

Concentration Courses: 28 quarter hours required, grade of C or better required

A concentration is a single area of study in liberal arts (cannot include coursework in Education).

- 100, 200, 300 level Concentration Course 1
- 100, 200, 300 level Concentration Course 1
Possible concentrations areas include: Anthropology, Arabic, Art, Bilingual Education, Biology, Catholic Studies, Chemistry, Chinese, Communications, Economics, English, Environmental Science, ESL, French, Geography, General Science, German, History, Italian, Japanese, Language Arts, Math*, Philosophy, Physical Science, Physics, Political Science, Psychology, Religious Studies, Social Studies, Sociology or Spanish.

* Students pursuing a Math concentration are required to take:

- MAT 150 CALCULUS I
- MAT 151 CALCULUS II
- MAT 152 CALCULUS III
- MAT 215 INTRODUCTION TO MATHEMATICAL REASONING

Choose 3 of the following:
- MAT 301 HISTORY OF MATHEMATICS
- MAT 303 THEORY OF NUMBERS
- MAT 320 GEOMETRY I
- MAT 348 APPLIED STATISTICAL METHODS
- CSC 211 PROGRAMMING IN JAVA I
- CSC 261 PROGRAMMING IN C++ I

Students in the math concentration will also take MAT 110 and MAT 111 as part of the elementary major.

**Advanced Standing Education Courses:** 48 quarter hours required, grade of C or better required

- SCU 337 HUMAN GROWTH AND DEVELOPMENT
- EE 317 PHYSICAL EDUCATION AND CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL
- EE 324 READING/LANGUAGE ARTS IN THE EARLY YEARS
- EE 326 READING/LANGUAGE ARTS IN THE INTERMEDIATE GRADES
- EE 330 URBAN EDUCATION RESIDENCY
- EE 333 TEACHING AND LEARNING ELEMENTARY SCHOOL MATHEMATICS
- EE 334 ELEMENTARY SCIENCE INQUIRY TEACHING STRATEGIES
- EE 344 ART AND MUSIC IN THE ELEMENTARY SCHOOL
- EE 355 METHODS: CONTEMPORARY TEACHING OF SOCIAL STUDIES
- EE 356 ASSESSMENT IN THE ELEMENTARY CLASSROOMS
- BBE 300 TEACHING ELEMENTARY ENGLISH LANGUAGE LEARNERS: THEORY, POLICY AND PRACTICE
- LSI 346 STRATEGIES FOR MAINSTREAMING AND INCLUSION

**Open Electives:** 4 quarter hours required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95.

**Student Teaching:** 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take EE 387 Capstone Experience (2 hours) with student teaching (listed in the Liberal Studies section).

- EE 385 ELEMENTARY STUDENT TEACHING (10 hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Elementary majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Elementary Content Area Test (test #197-200) – assesses knowledge of the content of what is taught at
the elementary level including language arts and literacy, mathematics, science, social science, the arts, health, and physical education. Test is required before Student Teaching (deadlines apply).

- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

English (BA)

The English major exposes students to a broad range of literatures in English, strengthens their grasp of historical and critical principles, and hones their skill in using the written word. English majors study the major authors, works, genres, and literary movements in the British and American traditions, approaching these texts both analytically and historically. Students in the Creative Writing concentration also take a number of workshops, practicing writing in a variety of literary genres. Both concentrations teach students to read perceptively and to write effectively, to deepen their understanding of the power of language, to think creatively and critically, and to develop an awareness of multiple points of view.

Learning Outcomes

Core Outcomes

Students will be able to:

- Describe and analyze a wide and diverse range of literary works in English.
- Identify and discuss conventions associated with the composition and interpretation of literature using a precise critical vocabulary.
- Discuss the complex transaction between writer and reader or audience in literary works.
- Explain the impact of culture, race, gender, sexuality, and class on the reading and writing of literature.
- Write analytical essays presenting an argument about one or more literary works and supporting it with appropriate evidence.
- Conduct research and incorporate that research in their writing.
- Express complex ideas in clear, accurate, and coherent prose.
- Gain an appreciation of the pleasure and beauty of literary works that they can carry with them beyond the degree.

Concentration Specific Outcomes

Literary Studies

Students will be able to:

- Recognize and explain significant themes, stylistic features, and generic conventions associated with literary production in English in a range of historical periods.
Analyze and discuss (orally and in writing) the complex relationship between literature and its context, including aesthetic, intellectual, political, and social aspects of the historical period in which it was produced.

Creative Writing

Students will be able to:

- Produce original creative work that demonstrates imagination as well as an application of literary technique.
- Demonstrate a practical understanding of how literary texts are made.
- Think critically about how writers combine the material of everyday life with more expansive questions concerning human existence.
- Demonstrate an understanding of some of the many standards by which literary work is judged and apply them to their own and others’ writing.
- Critique other writers’ work and to revise their own writing.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural sciences, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration. Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
liberal studies requirements

honors program requirements can be found in the individual colleges & schools section of the university catalog. select academics, followed by undergraduate, then honors program alternative.

sophomore year

multiculturalism in the us
LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

**Junior Year**

**Experiential Learning**
- Required

**Senior Year**

**Capstone**
- ENG 390 SENIOR CAPSTONE SEMINAR * [See Note Below]

**Learning Domains**

**Arts and Literature (AL)**
- 1 Course Required

**Philosophical Inquiry (PI)**
- 2 Courses Required

**Scientific Inquiry (SI)**
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

**Social, Cultural, and Behavioral Inquiry (SCBI)**
- 3 Courses Required

**Religious Dimensions (RD)**
- 2 Courses Required

**Understanding the Past (UP)**
- 2 Courses Required

* Students must earn a C- or better in this course.

**Notes**

A student whose only major is English is required to complete the Capstone offered by the English Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in English may substitute the Capstone of the secondary major or degree. An English major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the English Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course...
reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

**Major Requirements**

**Course Requirements**

All English majors must complete the following core courses early in their studies:

- ENG 220 READING POETRY
- ENG 221 READING PROSE

These courses are prerequisites for many of the 300-level courses in the major.

**Concentration Requirements**

English majors should declare a concentration in Literary Studies or Creative Writing by the time they complete the English core courses. All further course requirements are listed within the two concentrations.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Creative Writing
- Literary Studies

**Literary Studies Concentration**

The Literary Studies concentration broadens and deepens students' knowledge of literature and language through a range of courses focused on historical periods, literary movements, the structure of language, and critical approaches to literature. Students learn to read works of literature in their historical and cultural contexts; they develop their powers of textual analysis and their critical vocabulary; they examine and question the values expressed in literature; they practice research methods; and they work towards a written style that is clear, precise, and persuasive.

**Course Requirements**

Completion of ENG 220 and ENG 221 required.
Studies in British Literature

- ENG 328 STUDIES IN SHAKESPEARE
- Four courses chosen from:
  - ENG 310 ENGLISH LITERATURE TO 1500
  - or ENG 319 TOPICS IN MEDIEVAL LITERATURE
  - ENG 320 ENGLISH RENAISSANCE LITERATURE
  - or ENG 329 TOPICS IN RENAISSANCE LITERATURE
  - ENG 330 RESTORATION AND 18TH CENTURY LITERATURE
  - or ENG 339 TOPICS IN RESTORATION AND 18TH CENTURY ENGLISH LITERATURE
  - ENG 340 NINETEENTH CENTURY BRITISH LITERATURE
  - or ENG 346 NINETEENTH CENTURY IRISH LITERATURE
  - or ENG 349 TOPICS IN NINETEENTH CENTURY BRITISH LITERATURE
  - ENG 350 MODERN BRITISH LITERATURE
  - or ENG 351 POSTCOLONIAL LITERATURE
  - or ENG 354 THE IRISH REVIVAL
  - or ENG 355 MODERN IRISH LITERATURE
  - or ENG 359 TOPICS IN MODERN BRITISH LITERATURE

Studies in American Literature

- Two courses chosen from:
  - ENG 360 AMERICAN LITERATURE TO 1830
  - ENG 361 AMERICAN LITERATURE 1830 TO 1865
  - ENG 362 AMERICAN LITERATURE FROM 1865 TO 1920
  - ENG 363 AMERICAN LITERATURE SINCE 1920
  - ENG 369 TOPICS IN AMERICAN LITERATURE

Race, Ethnicity, and Sexuality (RES)

- One course chosen from:
  - ENG 268 LITERATURE ACROSS CULTURES
  - ENG 271 AFRICAN AMERICAN LITERATURE
  - ENG 273 GLOBAL ASIAN LITERATURE
  - ENG 276 LATINO/A LITERATURE
  - ENG 285 LGBTQ LITERATURE
  - ENG 351 POSTCOLONIAL LITERATURE
  - ENG 352 GLOBAL ENGLISH LITERATURE
  - ENG 353 TOPICS IN GLOBAL ASIAN LITERATURE
  - ENG 368 STUDIES IN LITERATURE ACROSS CULTURES
  - ENG 371 TOPICS IN AFRICAN AMERICAN LITERATURE
  - ENG 373 MULTIETHNIC LITERATURE OF THE U.S.
  - ENG 374 NATIVE LITERATURE
  - ENG 384 TOPICS IN LATINO/A LITERATURE
  - ENG 385 TOPICS IN LGBTQ LITERATURE

Major Electives

- Four English electives, two of which must be at the 300 level. Courses at the 100 level do not count toward the major.

Research Intensive Requirement

English majors who declared their majors after January 1, 2012, must take at least one course in English designated as “Research Intensive.” These courses integrate research instruction and assignments with the subject matter of the course. Qualifying concentration requirements or major electives are designated as "Research Intensive" or "RI" in the quarterly schedule.
Creative Writing Concentration

The Creative Writing concentration trains students in writing imaginatively for professional publication. Students strengthen their creative skills in a variety of genres through a series of writing workshops, which they take alongside courses in literary history and analysis. They acquire a solid grounding in literary forms; they learn to think critically and creatively about how writers represent the material of everyday life; they gain insight into writing and audience through the intense study of style, voice, and genre; and they develop an understanding of the standards by which literary works are judged.

Course Requirements

Completion of ENG 220 and ENG 221 required.

Creative Writing

- ENG 201 CREATIVE WRITING
- ENG 290 INTERMEDIATE CREATIVE NONFICTION WRITING (may be taken twice) or ENG 291 INTERMEDIATE FICTION WRITING (may be taken twice) or ENG 292 INTERMEDIATE POETRY WRITING (may be taken twice)
- Three additional writing workshops chosen from:
  - ENG 306 ADVANCED CREATIVE NONFICTION WRITING (may be taken twice)
  - ENG 307 ADVANCED FICTION WRITING (may be taken twice)
  - ENG 308 ADVANCED POETRY WRITING (may be taken twice)
  - ENG 309 ADVANCED TOPICS IN WRITING (repeatable with different topics)

Literary Analysis

- One major author course chosen from:
  - ENG 311 CHAUCER
  - ENG 327 MILTON
  - ENG 328 STUDIES IN SHAKESPEARE
  - ENG 382 MAJOR AUTHORS
- One literary history course chosen from:
  - ENG 310 ENGLISH LITERATURE TO 1500
  - ENG 319 TOPICS IN MEDIEVAL LITERATURE
  - ENG 320 ENGLISH RENAISSANCE LITERATURE
  - ENG 329 TOPICS IN RENAISSANCE LITERATURE
  - ENG 330 RESTORATION AND 18TH CENTURY LITERATURE
  - ENG 339 TOPICS IN RESTORATION AND 18TH CENTURY ENGLISH LITERATURE
  - ENG 340 NINETEENTH CENTURY BRITISH LITERATURE
  - ENG 346 NINETEENTH CENTURY IRISH LITERATURE
  - ENG 349 TOPICS IN NINETEENTH CENTURY BRITISH LITERATURE
  - ENG 350 MODERN BRITISH LITERATURE
  - ENG 351 POSTCOLONIAL LITERATURE
  - ENG 354 THE IRISH REVIVAL
  - ENG 355 MODERN IRISH LITERATURE
  - ENG 359 TOPICS IN MODERN BRITISH LITERATURE
  - ENG 360 AMERICAN LITERATURE TO 1830
  - ENG 361 AMERICAN LITERATURE 1830 TO 1865
  - ENG 362 AMERICAN LITERATURE FROM 1865 TO 1920
  - ENG 363 AMERICAN LITERATURE SINCE 1920
  - ENG 369 TOPICS IN AMERICAN LITERATURE

Race, Ethnicity, and Sexuality (RES)

- One course chosen from:
  - ENG 268 LITERATURE ACROSS CULTURES
  - ENG 271 AFRICAN AMERICAN LITERATURE
  - ENG 273 GLOBAL ASIAN LITERATURE
  - ENG 276 LATINO/A LITERATURE
  - ENG 285 LGBTQ LITERATURE
  - ENG 351 POSTCOLONIAL LITERATURE
  - ENG 352 GLOBAL ENGLISH LITERATURE
Major Electives

Four English electives, at least two of which must be at the 300 level. Courses at the 100 level do not count toward the major.

Research Intensive Requirement

English majors who declared their majors after January 1, 2012, must take at least one course in English designated as "Research Intensive." These courses integrate research instruction and assignments with the subject matter of the course. Qualifying concentration requirements or major electives are designated as "Research Intensive" or "RI" in the quarterly schedule.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The English (BA) offers three options:

- English (BA)/English (MA)
- English (BA)/Writing and Publishing (MA)
- English (BA)/Secondary Education English (MEd)

English (BA)/ English (MA)

Students apply to this program in the last quarter of their junior-year status; interested students should meet with the Director of the program earlier in the year. Applicants must have a minimum grade point average of 3.50 in English and 3.30 overall, and should have completed at least ENG 220, ENG 221, and two additional 300-level English courses. Students in this program take twelve graduate credit hours in their senior year; these graduate courses apply toward both undergraduate and graduate English requirements. For information on applying to this program, please check the English Department BA/MA Combined Degree webpage.

English (BA)/Writing and Publishing (MA)

Students apply to this program in the last quarter of their junior-year status; interested students should meet with the Director of the program. Applicants must have a minimum grade point average of 3.50 in English and 3.30 overall and must have completed at least ENG 220, ENG 221, and two creative writing workshops beyond ENG 201 at the time of beginning the program. Students in this program take twelve graduate credit hours in their senior year; these graduate courses apply toward both undergraduate and graduate program requirements. For information on applying to this program, please visit the English Department BA/MA Combined Degree webpage.

English (BA)/ Secondary Education English (MEd)

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate English major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BA in
English and an MEd in Education with State of Illinois Secondary English Language Arts licensure. This combined degree program of the College of Liberal Arts and Social Sciences, the College of Science and Health, and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Learning course, TCH 320, and meet other application criteria prior to applying; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 411 THE NATURE OF ENGLISH
- TCH 421 INQUIRY & APPLICATION IN DEVELOPING SECONDARY ENGLISH PEDAGOGY

The following English content-area requirements may be fulfilled either as part of the English major or as open electives (for licensure, a grade of C or better is required in each course used to fulfill one of these requirements):

- Introduction to Literature course: ENG 120 or 200-level LSP English course
- Reading Poetry course: ENG 220 or ENG 366
- Shakespeare course: ENG 228 or ENG 328
- Literary Research and Writing/Reading Prose course: ENG 221
- Linguistics/Grammar/History of the English Language course: ENG 211, ENG 370, WRD 203, ENG 300, WRD 300, WRD 323, or WRD 340
- Three British Literature courses chosen from: ENG 245, any British Literature course in the 310s-350s sequence, any topics course in the 319s-359s sequence, ENG 382 (when focused on British authors), ENG 383 (when focused on British authors), ENG 387 (when focused on British literature), ENG 388 (when focused on British literature)
- American Literature 1830-1865 course: ENG 361
- Two American Literature courses chosen from: ENG 265, ENG 271, ENG 276, ENG 360, ENG 362, ENG 363, ENG 365, ENG 369, ENG 371, ENG 373, ENG 374, ENG 376, ENG 382 (when focused on American authors), ENG 383 (when focused on American authors), ENG 387 (when focused on American literature), ENG 388 (when focused on American literature), ENG 389 (when focused on American literature)
- Two 300-level Literature elective courses (with permission, one upper-level writing course may be substituted)
- Five of these courses must be at the 300-level

The Master's year comprises teacher-preparation coursework that culminates with student teaching during spring quarter. Upon graduation and the fulfillment of State of Illinois Licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach English at the 9th-12th grade levels.

A full description of the Program can be found on the College of Education website in the graduate course catalog. Students interested in the Program should consult Dr. Robert Meyer, TEACH Program Advisor for English.

---

**English as a Second Language (Minor)**

The English as a Second Language (ESL) minor provides a learning opportunity to all DePaul students for those interested in working with second language learners. Students gain a comprehensive and in-depth understanding of second-language acquisition, as well as related educational theories and practices.

Students interested in this minor should consult home college advisors and secure permission from the Bilingual-Bicultural Education Program to enroll.

**Course Requirements**

7 courses are required for the minor:
Minor in ESL with ESL Endorsement

This option is only available to undergraduates in the College of Education pursuing ISBE Licensure.

The minor with endorsement requires the above 7 courses PLUS 100 fieldwork hours (including registration in BBE 96)

- BBE 96 100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED

**Note: Individuals interested in pursuing a minor in bilingual and a minor in ESL need to select the combined ESL-Bilingual (ESL-BE) minor. Individuals cannot earn a separate minor for both areas.**

English as a Second Language/ Bilingual Education (ESL-BE) (Minor)

The combined English as a Second Language (ESL) and Bilingual Education (BE) minor provides a learning opportunity to all DePaul students interested in working with second language learners. Students gain a comprehensive and in-depth understanding of second language acquisition, as well as related educational theories and practices.

Students interested in this minor should consult home college advisors and secure permission from the Bilingual-Bicultural Education Program to enroll.

Course Requirements

8 courses are required for the minor:

- BBE 310 SPECIAL TOPICS IN LANGUAGE EDUCATION AND CULTURE
- BBE 304 LANGUAGE, LITERACY AND CULTURE
- BBE 370 SECOND & WORLD LANGUAGE LITERACIES AND CULTURES
- BBE 307 EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS
- BBE 324 METHODS OF TEACHING ENGLISH AS A SECOND LANGUAGE
- BBE 325 BILITERACY PRACTICES IN BILINGUAL EDUCATION AND ESL
- BBE 326 THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE
- BBE 366 FIRST AND SECOND LANGUAGE ACQUISITION
- BBE 360 SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION K-12

Minor in ESL/ Bilingual Education with Bilingual Endorsement

This option is only available to undergraduates in the College of Education pursuing ISBE Licensure.

The minor with endorsement requires the above 8 courses PLUS 100 fieldwork hours (including registration in BBE 96) and a passing score on the Target Language Proficiency Test.

- BBE 96 100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED

ISBE Licensure Division endorses in any target language for which tests are available through ILTS. If a language test through ILTS does not exist for bilingual endorsement, candidates may substitute the Foreign Language Content-Area test.
English Literature (Minor)

English literature minors study major authors, works, genres, and literary movements, approaching them both analytically and historically.

Course Requirements

- Six courses in English literature. At least three courses must be at the 300-level, and no more than one course may be at the 100-level; HON 101 may count as a 100-level course. ENG 220 READING POETRY and ENG 221 READING PROSE are strongly recommended but not required; these courses are prerequisites to many 300-level English courses.
  - HON 101 WORLD LITERATURE
  - ENG 120 READING LITERATURE
  - ENG 130 THEMES IN LITERATURE
  - ENG 220 READING POETRY
  - ENG 221 READING PROSE
  - ENG 227 STUDIES IN DRAMA
  - ENG 228 INTRODUCING SHAKESPEARE
  - ENG 231 THE GOTHIC
  - ENG 232 THE ROMANCE
  - ENG 235 SCIENCE FICTION
  - ENG 245 THE BRITISH NOVEL
  - ENG 250 GREAT WRITERS
  - ENG 265 THE AMERICAN NOVEL
  - ENG 268 LITERATURE ACROSS CULTURES
  - ENG 271 AFRICAN AMERICAN LITERATURE
  - ENG 272 LITERATURE AND IDENTITY
  - ENG 273 GLOBAL ASIAN LITERATURE
  - ENG 275 LITERATURE AND FILM
  - ENG 276 LATINO/A LITERATURE
  - ENG 279 STUDIES IN LITERATURE
  - ENG 280 THE EPIC
  - ENG 281 LITERARY CLASSICS
  - ENG 283 GENDER IN LITERATURE
  - ENG 284 THE BIBLE AS LITERATURE
  - ENG 285 LGBTQ LITERATURE
  - ENG 286 TOPICS IN POPULAR LITERATURE
  - ENG 288 AUTOBIOGRAPHY AND BIOGRAPHY
  - ENG 310 ENGLISH LITERATURE TO 1500
  - ENG 311 CHAUCER
  - ENG 319 TOPICS IN MEDIEVAL LITERATURE
  - ENG 320 ENGLISH RENAISSANCE LITERATURE
  - ENG 327 MILTON
  - ENG 328 STUDIES IN SHAKESPEARE
  - ENG 329 TOPICS IN RENAISSANCE LITERATURE
  - ENG 330 RESTORATION AND 18TH CENTURY LITERATURE
  - ENG 339 TOPICS IN RESTORATION AND 18TH CENTURY ENGLISH LITERATURE
  - ENG 340 NINETEENTH CENTURY BRITISH LITERATURE
  - ENG 346 NINETEENTH CENTURY IRISH LITERATURE
  - ENG 349 TOPICS IN NINETEENTH CENTURY BRITISH LITERATURE
  - ENG 350 MODERN BRITISH LITERATURE
  - ENG 351 POSTCOLONIAL LITERATURE
  - ENG 352 GLOBAL ENGLISH LITERATURE
  - ENG 353 TOPICS IN GLOBAL ASIAN LITERATURE
  - ENG 354 THE IRISH REVIVAL
  - ENG 355 MODERN IRISH LITERATURE
  - ENG 357 TOPICS IN IRISH STUDIES
  - ENG 359 TOPICS IN MODERN BRITISH LITERATURE
  - ENG 360 AMERICAN LITERATURE TO 1830
  - ENG 361 AMERICAN LITERATURE 1830 TO 1865
  - ENG 362 AMERICAN LITERATURE FROM 1865 TO 1920
Environmental Communication (Minor)

This minor provides a foundation in the communication skills that help shape and influence environmental attitudes, values, practices and policy. Students will learn about the more formal aspects of environmental communication (federal, state, and local policy) as well as the less formal (representations of nature in mediated contexts, environmental journalism, social movement rhetoric, and corporate communication about the environment). They will develop a heightened critical sensibility about the ways in which communication and discourse not only shapes our understanding of the environment but also influences political and personal action. On a more practical level, students will enhance their public speaking, writing, interpersonal, and leadership skills in environmental advocacy contexts. Students will gain skills in in-depth multimedia reporting on science and environmental issues, as well as the role of socially responsible journalism in facilitating public understanding of environmental issues and participation in environmental governance.

Course Requirements

A minor in Environmental Communication requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

* Three required courses (12 credits):
  - CMNS 325 PROMOTING SUSTAINABLE PRACTICES
  - CMNS 326 ENVIRONMENTAL POLITICS AND RHETORIC
  - CMNS 150 FOUNDATIONS OF ENVIRONMENTAL STUDIES
    or ENV 151 INTRODUCTION TO SUSTAINABILITY
* Choose three of the following (12 credits):
  - CMNS 323 SOCIAL MOVEMENTS
  - CMNS 324 CULTURE OF CONSUMPTION
  - CMNS 355 CONFLICT MANAGEMENT
  - CMNS 365 ARGUMENTATION, ADVOCACY, AND DELIBERATION
  - CMNS 150 FOUNDATIONS OF ENVIRONMENTAL STUDIES
  - ENV 151 INTRODUCTION TO SUSTAINABILITY
  - GEO 205 URBAN ENVIRONMENTAL JUSTICE
  - GEO 210 ENVIRONMENTAL CONSERVATION
  - GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
  - GEO 243 REMOTE SENSING
Environmental Science (BS)

The B.S. degree in Environmental Science is a broad, science-based curriculum designed to prepare students for a variety of environmentally-related technical careers, as well as for graduate programs in environmental and allied fields. The program requires 192 credit hours and draws upon the faculty and resources of several departments. Majors take core courses in Biology, Chemistry, Environmental Science, Mathematics, and Physics, advanced study in Environmental Science and five University-wide electives.

Learning Outcomes

Students will be able to:

- Understand how the natural world functions as an interconnected system consisting of the biosphere, hydrosphere, atmosphere and lithosphere.
- Understand how these interconnected systems affect human wellbeing and, in turn, how humans impact the natural world.
- Understand and critically evaluate the science behind the complex environmental problems that humans currently face both locally and globally.
- Understand the challenges and opportunities associated with different landscapes, ranging from densely urban to wilderness, with a focus on urban sustainability.
- Design and conduct a scientific investigation using appropriate tools and techniques to gather, analyze, and interpret data.
- Communicate in oral and written form the results of their scientific investigations.
- Collect and handle data/samples in a manner that displays understanding of the basic safety procedures in the field and laboratory.
- Draft, evaluate, and interpret technical documents on environmental analyses.
- Identify and apply the concepts and methods from an allied science field.
- Understand the concepts and methods of assessing and evaluating sustainability practices in various social and political institutions.
College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

DePaul University  Winter/Spring/Summer 2016-2017  Page 317 of 2776
- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

**Focal Point**
- LSP 112 FOCAL POINT SEMINAR

**Writing**
- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

**Junior Year**
**Experiential Learning**
- Required

**Senior Year**
**Capstone**
- ENV 350 ENVIRONMENTAL SCIENCE AND STUDIES CAPSTONE [See Note Below] *

**Learning Domains**

**Arts and Literature (AL)**
- 3 Courses Required

**Philosophical Inquiry (PI)**
- 2 Courses Required

**Scientific Inquiry (SI)**
- Not Required

**Social, Cultural, and Behavioral Inquiry (SCBI)**
- 3 Courses Required

**Religious Dimensions (RD)**
- 2 Courses Required

**Understanding the Past (UP)**
- 2 Courses Required

* Students must earn a C- or better in this course.

**Notes**
Students with a primary major in Environmental Science are required to complete the Capstone offered by the
Environmental Science department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Environmental Science are required to complete the Capstone offered by the Environmental Science department. Environmental Science students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. (Courses in the range 150-199 are exceptions to this rule.) If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

- ENV 260 ENVIRONMENTAL DATA ANALYSIS  
  or BIO 206 BIOSTATISTICS  
- ENV 294 SECOND YEAR SEMINAR (2 quarter credits)  
- ENV 360 RESEARCH METHODS  
- ENV 362 SENIOR THESIS (2 quarter credits)  
- ENV 350 ENVIRONMENTAL SCIENCE AND STUDIES CAPSTONE (Liberal Studies Program Capstone*)  
- Choose three courses from the following list:
  - ENV 300 PLANT IDENTIFICATION  
  - ENV 310 ENVIRONMENTAL SOIL SCIENCE  
  - ENV 315 PLANT ECOLOGY  
  - ENV 316 CHEMISTRY OF EARTH SYSTEMS  
  - ENV 320 CONSERVATION BIOLOGY  
  - ENV 322 ECOSYSTEM ECOLOGY  
  - ENV 340 URBAN ECOLOGY  
  - ENV 344 ENVIRONMENTAL JUSTICE AND ADVOCACY  
  - ENV 355 INTRODUCTION TO ENVIRONMENTAL HEALTH  
  - ENV 359 ECOLOGICAL AND ENVIRONMENTAL MODELING  

Each quarter one or more versions of ENV 390 SPECIAL TOPICS IN ENVIRONMENTAL SCIENCE are offered. They are added to your major requirements in consultation with your advisor.

- BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS  
- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS  
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS  
- CHE 130 GENERAL CHEMISTRY I  
  and CHE 131 GENERAL CHEMISTRY I LABORATORY  
- CHE 132 GENERAL CHEMISTRY II  
  and CHE 133 GENERAL CHEMISTRY LABORATORY II  
- CHE 134 GENERAL CHEMISTRY III  
  and CHE 135 GENERAL CHEMISTRY LABORATORY III  
- One from the following list:  
  - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I  
  - MAT 150 CALCULUS I  
  - MAT 170 CALCULUS FOR LIFE SCIENCES I  
- One from the following list:  
  - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
- MAT 151 CALCULUS II
- MAT 171 CALCULUS FOR LIFE SCIENCES II
- One from the following list:
  - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
  - MAT 152 CALCULUS III
  - MAT 172 CALCULUS III WITH DIFFERENTIAL EQUATIONS
- Alternatively, to complete the calculus sequence, both from the following list:
  - MAT 155 SUMMER CALCULUS I
  - MAT 156 SUMMER CALCULUS II
- PHY 150 GENERAL PHYSICS I
- PHY 151 GENERAL PHYSICS II
- PHY 152 GENERAL PHYSICS III
- Choose three courses from within one discipline
  - Biology
    - BIO 210 MICROBIOLOGY
    - BIO 235 EVOLUTION
    - BIO 260 GENETICS
    - BIO 315 TOPICS IN ECOLOGY
    - BIO 317 AQUATIC BIOLOGY
    - BIO 318 FIELD STUDIES IN MARINE AND ESTUARINE BIOLOGY
    - BIO 321 MOLECULAR METHODS IN ECOLOGY AND EVOLUTION
    - BIO 350 ANIMAL ADAPTATIONS
  - Chemistry
    - CHE 230 ORGANIC CHEMISTRY I
    - CHE 231 ORGANIC CHEMISTRY LABORATORY I
    - CHE 232 ORGANIC CHEMISTRY II
    - CHE 233 ORGANIC CHEMISTRY LABORATORY II
    - CHE 234 ORGANIC CHEMISTRY III
    - CHE 235 ORGANIC CHEMISTRY LABORATORY III
    - CHE 204 ANALYTICAL CHEMISTRY
    - CHE 205 ANALYTICAL CHEMISTRY LABORATORY
    - CHE 264 ATMOSPHERIC CHEMISTRY
    - CHE 265 ATMOSPHERIC CHEMISTRY LABORATORY
    - CHE 268 SOLID WASTE CHEMISTRY
    - CHE 269 SOLID WASTE CHEMISTRY LABORATORY
    - CHE 340 BIOCHEMISTRY I
    - CHE 341 EXPERIMENTAL BIOCHEMISTRY I
  - Geography (GIS)
    - GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
    - GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
    - GEO 243 REMOTE SENSING
    - GEO 343 REMOTE SENSING II
    - GEO 344 GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY

*Students in the University Honors Program and students with a double major may be required to take a different Capstone. If this is the case, they may choose to substitute ENV 350 as one of their required 300-level ENV courses or as an open elective.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Environmental Science/ Studies (BA/ BS)/ Master of Science in Sustainable Management (MSSM)
The combined degree provides environmental science/studies students with advanced knowledge of business systems and practices, focusing on environmental sustainability, to create leaders for business, government and civic organizations. For more information on the full Master of Science in Sustainable Management curriculum, go to MSSM degree requirements found within the graduate programs section of the University Catalog.

**Admission Requirements**

Current DePaul Environmental Science or Studies majors who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.300

Admission to the combined program does not require the GMAT, essays, or letters of recommendation.

**Classes During Senior Year**

If accepted into the combined program, students will take three graduate classes during the senior year. These three graduate classes at 12 quarter hours will count toward the bachelor's degree - as indicated below - and toward the master's degree.

Students must apply for degree conferral in order to be eligible to graduate with either the B.A. in environmental studies or the B.S. in environmental science before matriculating into the MSSM program.

Students are limited to applying a maximum of three graduate courses as 12 quarter hours toward both the bachelor's and master's degrees. Students should note that expectations for graduate classes are typically more rigorous than for undergraduate classes. Students can choose from the following list of core MSSM courses; other options available upon consultation with the MSSM advisor.

<table>
<thead>
<tr>
<th>Take the three courses from the following list:</th>

<td>Core course</td>
</tr>
</tbody>
</table>

**Final Quarter of Senior Year**

During the final quarter of the bachelor's degree, students must petition for formal admission into the Kellstadt Graduate School of Business. The admission criteria are as follows:

- Completion of the Bachelor of Arts in Environmental Studies or Bachelor of Science in Environmental Science
- A minimum cumulative DePaul grade point average of 3.300
- A minimum grade point average for graduate courses of 3.000.
- Student must apply for undergraduate degree conferral of their Environmental Science or Studies program in anticipation of completing their fourth year of study.

**After Senior Year**

After completion of the undergraduate degree including the three graduate courses, students take nine additional graduate classes to complete the graduate degree, for a total of twelve graduate classes. Information on the MSSM degree can be found in the graduate program degree requirements section of the University Catalog.

For an application to the combined program (at the end of your junior year) or to learn more about it, please contact the chair of the Environmental Science and Studies department.

**Environmental Science (BS)/ Secondary Education Environmental Science (MEd)**
This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units. A full description of the Program can be found on the College of Education website in the graduate course catalog.

Environmental Science (Minor)

The Environmental Science minor offers students the strongest background in the science behind environmental issues. Students will understand and explore the natural world and our interactions within the natural and built environment.

Course Requirements

- ENV 102 INTRO TO ENVIRONMENTAL SCIENCE WITH LAB (may be replaced with an upper-level course; check with an ENV advisor or the department chair)
- ENV 216 EARTH SYSTEM SCIENCE
- ENV 217 HUMAN IMPACTS ON THE ENVIRONMENT
- ENV 250 APPLIED ECOLOGY
- Two additional ENV courses from the following list. At least one must be a 300-level course.
  - ENV 200 CITIES AND THE ENVIRONMENT
  - ENV 204 ENERGY AND THE ENVIRONMENT
  - ENV 230 GLOBAL CLIMATE CHANGE
  - ENV 300 PLANT IDENTIFICATION
  - ENV 310 ENVIRONMENTAL SOIL SCIENCE
  - ENV 315 PLANT ECOLOGY
  - ENV 316 CHEMISTRY OF EARTH SYSTEMS
  - ENV 320 CONSERVATION BIOLOGY
  - ENV 322 ECOSYSTEM ECOLOGY
  - ENV 340 URBAN ECOLOGY
  - ENV 344 ENVIRONMENTAL JUSTICE AND ADVOCACY
  - ENV 355 INTRODUCTION TO ENVIRONMENTAL HEALTH
  - ENV 390 SPECIAL TOPICS IN ENVIRONMENTAL SCIENCE

Students cannot earn a minor in the same academic program as their major.

Environmental Studies (BA)

The B.A. degree in Environmental Studies provides students with a holistic education on environmental topics that includes the natural and social sciences as well as the humanities. The degree allows students to connect with present and emerging environmental problems in a uniquely interdisciplinary manner, and will prepare them for positions in environmental management and in environmentally themed non-profit organizations, to bring an environmental perspective to any career, as well as preparing them for further studies. The degree is focused on the comprehensive study of human interaction with the natural environment.

The B.A. degree offers students a choice of two concentrations: A standard concentration and a sustainability concentration. Within the sustainability concentration, students can further choose an urban sustainability focus. Students selecting the sustainability concentration will recognize the concept of “sustainability” as a dynamic condition characterized by the interdependency among physical, biological, economic, and social systems.

Students choosing the urban sustainability focus will be able to identify the concepts and methods of environmental economics, environmental politics, ethics, design, and human geography relevant to the sustainability of environmental resources and social institutions in urban settings; as well as recognize and understand the functions of sustainable institutions created for water, land, air, and urban management at multiple spatial and temporal scales.
Learning Outcomes

Students will be able to:

- Understand how the natural world functions as an interconnected system consisting of the biosphere, hydrosphere, atmosphere and lithosphere.
- Understand how these interconnected systems affect human wellbeing and in turn, how humans impact the natural world.
- Understand and critically evaluate the science behind the complex environmental problems that humans currently face both locally and globally.
- Understand the challenges and opportunities associated with different landscapes ranging from densely urban to wilderness with a focus on urban sustainability.
- Identify the scientific, political, economic, social and ethical components of both the causes and solutions to environmental issues.
- Put into practice interdisciplinary skills gained in fields encompassing communication, the social sciences and humanities.
- Articulate the relationship between global poverty, security, social justice, and environmental degradation.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level.
Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- ENV 350 ENVIRONMENTAL SCIENCE AND STUDIES CAPSTONE [See Note Below] *
Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

Students with a primary major in Environmental Studies are required to complete the Capstone offered by the Environmental Studies department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Environmental Studies are required to complete the Capstone offered by the Environmental Studies department. Environmental Studies students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required.
Major Requirements

Course Requirements

- ENV 150 FOUNDATIONS OF ENVIRONMENTAL STUDIES
- ENV 152 ECOLOGICAL AND SOCIAL ECONOMICS
- ENV 216 EARTH SYSTEM SCIENCE
- ENV 217 HUMAN IMPACTS ON THE ENVIRONMENT
- ENV 250 APPLIED ECOLOGY
- ENV 294 SECOND YEAR SEMINAR (2 quarter credits)
- ENV 203 CHEMISTRY FOR ENVIRONMENTAL STUDIES or CHE 103 ENVIRONMENTAL CHEMISTRY
- ENV 350 ENVIRONMENTAL SCIENCE AND STUDIES CAPSTONE (Liberal Studies Program Capstone*)

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Standard or Sustainability. Students are limited to only declaring one concentration.

* Students in the University Honor Program and students with a double major may be required to take a different Capstone. If this is the case, they may choose to substitute ENV 350 as one of their required 300-level ENV courses or as an open elective.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Standard
- Sustainability

Standard Concentration

Course Requirements

- Three Natural Sciences courses from the following list. At least one must be non-SI:
  - ENV 200 CITIES AND THE ENVIRONMENT
  - ENV 204 ENERGY AND THE ENVIRONMENT
  - ENV 230 GLOBAL CLIMATE CHANGE
  - ENV 240 INTRODUCTION TO HORTICULTURE
  - ENV 300 PLANT IDENTIFICATION
  - ENV 310 ENVIRONMENTAL SOIL SCIENCE
  - ENV 315 PLANT ECOLOGY
  - ENV 316 CHEMISTRY OF EARTH SYSTEMS
  - ENV 320 CONSERVATION BIOLOGY
  - ENV 322 ECOSYSTEM ECOLOGY
  - ENV 340 URBAN ECOLOGY
  - ENV 355 INTRODUCTION TO ENVIRONMENTAL HEALTH

- Three or Four Social Sciences from the following list. (If ENV 150 FOUNDATIONS OF ENVIRONMENTAL...
STUDIES is waived by advisor, then four must be completed.)

- At least one of the following:
  - CMNS 325 PROMOTING SUSTAINABLE PRACTICES
  - CMNS 326 ENVIRONMENTAL POLITICS AND RHETORIC

- At least two of the following (if both CMNS 325 and CMNS 326 are taken, then at least one of the following):
  - ENV 151 INTRODUCTION TO SUSTAINABILITY
  - ENV 235 ENVIRONMENTAL EDUCATION: THEORY AND PRACTICE
  - ENV 245 URBAN AND COMMUNITY AGRICULTURE
  - ENV 344 ENVIRONMENTAL JUSTICE AND ADVOCACY
  - CMNS 324 CULTURE OF CONSUMPTION
  - CSS 320 COMMUNITY FOOD SYSTEMS
  - GEO 200 SUSTAINABLE URBAN DEVELOPMENT
  - GEO 205 URBAN ENVIRONMENTAL JUSTICE
  - GEO 210 ENVIRONMENTAL CONSERVATION
  - GEO 269 POLITICAL ECOLOGY
  - GEO 310 GREEN INFRASTRUCTURE
  - PPS 330 SUSTAINABLE DEVELOPMENT
  - PPS 333 GREEN CITIES
  - PSC 349 ADVANCED TOPICS IN ENVIRONMENTAL SCIENCE (Only Global Environmental Politics)
  - SOC 232 GLOBAL CITIES
  - SOC 348 THE CITY IN THE FUTURE

- Four Humanities courses from the following list:
  - At least one, but not more than two, of the following:
    - ENV 160 IDEAS OF NATURE
    - ENV 170 ENVIRONMENTAL ETHICS
    - PHL 235 PHILOSOPHY AND THE ENVIRONMENT
  - At least two of the following:
    - ENV 165 NATIONAL PARKS HISTORY
    - ENV 180 ISSUES IN ENVIRONMENTAL DESIGN
    - ENV 181 LANDSCAPE AND MEANING
    - ENG 367 TOPICS IN AMERICAN STUDIES (only "American Literature and the Environment")
    - HST 240 HISTORY OF CHICAGO
    - HST 270 U.S. HISTORICAL LANDSCAPE
    - REL 222 CONTEMPORARY MORAL ISSUES (Only "Change in an Era of Sustainability" or "Sustainable Development" or "Industrial Diseases in Comparative Perspective")
    - REL 262 RELIGION AND GLOBALIZATION
    - REL 311 SUSTAINABILITY AND RELIGIOUS WORLDVIEWS
    - WRD 283 ENVIRONMENTAL WRITING
    - Others by approval

Each quarter one or more versions of ENV 390 SPECIAL TOPICS IN ENVIRONMENTAL SCIENCE are offered. They are added to your major requirements in consultation with your advisor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Sustainability Concentration

Course Requirements

- ENV 151 INTRODUCTION TO SUSTAINABILITY
- PPS 330 SUSTAINABLE DEVELOPMENT

Eight courses chosen from the following categories:

- At least two Natural Science courses from the following list:
  - ENV 200 CITIES AND THE ENVIRONMENT *
  - ENV 204 ENERGY AND THE ENVIRONMENT
At least two Social Sciences courses from the following list:
- ENV 245 URBAN AND COMMUNITY AGRICULTURE
- ENV 344 ENVIRONMENTAL JUSTICE AND ADVOCACY
- CSS 320 COMMUNITY FOOD SYSTEMS
- CMNS 324 CULTURE OF CONSUMPTION
- CMNS 325 PROMOTING SUSTAINABLE PRACTICES *
- CMNS 326 ENVIRONMENTAL POLITICS AND RHETORIC
- GEO 200 SUSTAINABLE URBANISM *
- GEO 205 JUSTICE, INEQUALITY AND THE URBAN ENVIRONMENT *
- GEO 310 GREEN INFRASTRUCTURE
- PPS 333 GREEN CITIES *

At least two Humanities courses from the following list:
- ENV 160 IDEAS OF NATURE
- ENV 165 NATIONAL PARKS HISTORY
- ENV 170 ENVIRONMENTAL ETHICS
- ENV 180 ISSUES IN ENVIRONMENTAL DESIGN
- ENV 181 LANDSCAPE AND MEANING
- REL 222 CONTEMPORARY MORAL ISSUES (Only "Change in an Era of Sustainability" or "Sustainable Development")
- REL 311 SUSTAINABILITY AND RELIGIOUS WORLDVIEWS

* Students with an interest in Urban Sustainability are encouraged to select the courses with asterisks.

Each quarter one or more versions of ENV 390 SPECIAL TOPICS IN ENVIRONMENTAL SCIENCE are offered. They are added to your major requirements in consultation with your advisor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Environmental Science/ Studies (BA/ BS)/ Master of Science in Sustainable Management (MSSM)

The combined degree provides environmental science/studies students with advanced knowledge of business systems and practices, focusing on environmental sustainability, to create leaders for business, government and civic organizations. For more information on the full Master of Science in Sustainable Management curriculum, go to MSSM degree requirements found within the graduate programs section of the University Catalog.

Admission Requirements

Current DePaul Environmental Science or Studies majors who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.300

Admission to the combined program does not require the GMAT, essays, or letters of recommendation.

Classes During Senior Year
If accepted into the combined program, students will take three graduate classes during the senior year. These three graduate classes at 12 quarter hours will count toward the bachelor’s degree - as indicated below - and toward the master’s degree.

Students must apply for degree conferral in order to be eligible to graduate with either the B.A. in environmental studies or the B.S. in environmental science before matriculating into the MSSM program.

Students are limited to applying a maximum of three graduate courses as 12 quarter hours toward both the bachelor’s and master’s degrees. Students should note that expectations for graduate classes are typically more rigorous than for undergraduate classes. Students can choose from the following list of core MSSM courses; other options available upon consultation with the MSSM advisor.

<table>

**Final Quarter of Senior Year**

During the final quarter of the bachelor’s degree, students must petition for formal admission into the Kellstadt Graduate School of Business. The admission criteria are as follows:

- Completion of the Bachelor of Arts in Environmental Studies or Bachelor of Science in Environmental Science
- A minimum cumulative DePaul grade point average of 3.300
- A minimum grade point average for graduate courses of 3.000.
- Student must apply for undergraduate degree conferral of their Environmental Science or Studies program in anticipation of completing their fourth year of study.

**After Senior Year**

After completion of the undergraduate degree including the three graduate courses, students take nine additional graduate classes to complete the graduate degree, for a total of twelve graduate classes. Information on the MSSM degree can be found in the graduate program degree requirements section of the University Catalog.

For an application to the combined program (at the end of your junior year) or to learn more about it, please contact the chair of the Environmental Science and Studies department.

---

**Environmental Studies (Minor)**

The Environmental Studies minor offers students a broad, interdisciplinary overview of topics linking environmental science to human behavior and society.

**Course Requirements**

- ENV 102 INTRO TO ENVIRONMENTAL SCIENCE WITH LAB
- ENV 150 FOUNDATIONS OF ENVIRONMENTAL STUDIES
- One from the following list:
  - ENV 160 IDEAS OF NATURE
Exceptionality and Learning (Minor)

The needs of children and youth with disabilities are met by a variety of professionals working in contexts inside and outside of schools, including backgrounds such as psychology, nursing, health science, and public health studies. The Exceptionality and Learning Minor is designed to prepare candidates in fields outside of education to understand and effectively work with children and youth with disabilities. Course content within the minor includes typical and atypical development, characteristics of individuals with disabilities, collaborative practices, and behavior management, all considered within and beyond the classroom setting. This minor is designed to appeal to candidates from fields outside of education.

Course Requirements

The Exceptionality and Learning Minor requires 20 credit hours (5 courses).

- LSI 300 INTRO TO SPECIAL EDUCATION I: EXCEPTIONALITY & LEARNING
- LSI 301 INTRO TO SPECIAL EDUCATION II - FOUNDATIONS AND CHARACTERISTICS
- LSI 303 CLASSROOM AND BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION
- LSI 320 COLLABORATION AND SPECIAL EDUCATION
- Choose one additional course from the following options:
  - LSI 310 TEACHING MATHEMATICS TO EXCEPTIONAL STUDENTS
  - LSI 314 TEACHING LITERACY TO EXCEPTIONAL STUDENTS
  - LSI 321 FORMAL ASSESSMENT IN SPECIAL EDUCATION
  - LSI 322 TEACHING STUDENTS WITH SIGNIFICANT DISABILITIES I: ACADEMICS, LIFE SKILLS, & TRANSITION
  - LSI 323 TEACHING STUDENTS WITH SIGNIFICANT DISABILITIES II: COMMUNICATION & SOCIAL SKILLS

Note: Students in DePaul's College of Education program in Special Education cannot select the Exceptionality and Learning Minor. Likewise, College of Education students pursing the Special Education Minor cannot select the Exceptionality and Learning Minor. This minor does not lead to credentials with the Illinois State Board of Education.
Exercise Science (BS)

The Exercise Science (EXS) degree program includes a knowledge base in the scientific principles that underlie human movement and requires the development of basic skills in exercise assessment, prescription and programming in healthy and special populations, performance enhancement, prevention and treatment of sports injuries, nutritional principles applied to exercise and sport, patient/client interpersonal relations and professional ethics and behavior.

Students receiving this degree are qualified to pursue careers in areas such as cardiopulmonary rehabilitation, strength and conditioning, corporate fitness, sports medicine, community health and wellness, and personal training or can pursue graduate work in numerous fields related to the health, fitness, and exercise sciences.

The American College of Sport Medicine (ACSM), as the professional organization that establishes guidelines and competencies for the field of Exercise Science, serves as the guiding professional organization for program academic quality.

Students should meet early and regularly with their advisor to design and monitor their program of study.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, Concentration Requirements, and College Core Requirements for full degree requirements.

Learning Outcomes

**Students will be able to:**

- Demonstrate their understanding of how individuals learn and develop by providing opportunities that support individual physical, cognitive, social, and emotional development.
- Describe and apply:
  - Physiological and biomechanical concepts related to skillful movement, physical activity and fitness.
  - Motor learning and psychological/behavioral theory related to skillful movement, physical activity, and fitness.
  - Motor development theory and principles related to skillful movement, physical activity, and fitness.
- Demonstrate their understanding of how the human body moves, based on the knowledge of muscles, bones, connective tissues and the related physical laws of movement.
- Evaluate and prescribe exercise as a therapeutic modality based on concepts and theories of exercise physiology.
- Ensure that programs they may work in are comprehensive and follow professional standards based on their understanding of the central aspects of exercise science program design.
- Appreciate how basic human behavior impacts their professional goal of ensuring that all individuals become “physically educated.”
- Provide high quality fitness evaluations and goal setting for a variety of individuals based on knowledge and skills in assessment and testing.
- Achieve and maintain a health-enhancing level of fitness throughout the program.
- Demonstrate knowledge and appreciation of appropriate safety issues, injury prevention protocols.
- Secure American Red Cross certification in emergency procedures needed for the settings they will be employed.
- Demonstrate knowledge of disease prevention as it relates to healthy individuals as well as those involved in sports and exercise.
- Demonstrate knowledge of nutrition as it relates to healthy individuals as well as those involved in sports and exercise.
Participate in activities that enhance collaboration and lead to professional growth and development.
Demonstrate behaviors that are consistent with the professional ethics of highly qualified teachers.
Communicate in ways that convey respect and sensitivity.
Identify historical, philosophical, social and ethical perspectives of kinesiology issues and related legislation.

**College Core Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one's behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

**Skill Building Courses**

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

• Maintain a DePaul undergraduate 2.5 GPA
• Pass the Illinois Test of Academic Proficiency (TAP)
• Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete
supervised field experiences in appropriate settings in conjunction with education courses. The field experiences
must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education
settings. All field experiences must be completed prior to final approval for student teaching. Field experience
hours should be entered by the student into the FEDS system when completing courses with field experience
requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is
authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements,
visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any
time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement,
not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher
preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content
  area courses
- Overall cumulative G.P.A. of 2.50 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to
  student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the
  student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the
Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements
(application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree.
DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application.
Submitting an application means you intend to finish your degree requirements by the end of the term for which
you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to
be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter
you are student teaching.
After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

**Focal Point**

- LSP 112 FOCAL POINT SEMINAR

**Writing**

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *
Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Met by successful completion of required field experience hours

Senior Year

Capstone

- PE 387 CAPSTONE SEMINAR IN PHYSICAL EDUCATION & EXERCISE SCIENCE *
  (Note: This must be taken with student teaching. Students must earn a C or better in this course.)

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required
  - LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
  - 1 Additional Course
    (Note: PHL 100 recommended)

Scientific Inquiry (SI)

- 2 Courses Required:
  - PHY 150 GENERAL PHYSICS I
  - 1 SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI)

- 2 Courses Required
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 1 Additional Course

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required
  (Note: One must be US History)

* Students must earn a C- or better in this course.

Notes

Courses offered in the student's major cannot be taken to fulfill LSP Domain requirements.

In meeting learning domain requirements, no more than one course that is outside the student's major and is
cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy
does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may
need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit
already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who
complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course
reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction
cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

Exercise Science Core: 62 quarter hours required, grade of C- or better required

- SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT
- SCU 337 HUMAN GROWTH AND DEVELOPMENT
- PE 311 MOTOR DEVELOPMENT THROUGHOUT THE LIFE SPAN
- PE 206 PERSONAL AND COMMUNITY HEALTH
- PE 273 HEALTH AND NUTRITION
- PE 302 FIRST AID: RESPONDING TO EMERGENCIES (2 quarter hours)
- PE 303 ATHLETIC INJURIES
- PE 341 HISTORICAL AND PHILOSOPHICAL FOUNDATIONS OF PHYSICAL EDUCATION
- PE 346 ORGANIZATION/ADMINISTRATION OF PHYSICAL EDUCATION, SPORTS & FITNESS PROGRAMS
- PE 351 KINESIOLOGY
- PE 352 PHYSIOLOGY OF EXERCISE
- PE 360 EDUCATIONAL PSYCHOLOGY AND MEASUREMENT OF LEARNING
- PE 362 FITNESS TESTING, ASSESSMENT AND PRESCRIPTION
- PE 374 ADAPTED PHYSICAL EDUCATION
- PE 390 PSYCHO-SOCIAL ASPECTS OF EXERCISE AND SPORT
- PE 393 THERAPEUTIC EXERCISE
- PE 394 SPORT AND EXERCISE NUTRITION

Physical Education Activity Core: 10 quarter hours required, grade of C- or better required

- PE 60 AEROBIC CONDITIONING (2 quarter hours)
- PE 66 BEGINNING WEIGHT TRAINING (2 quarter hours)
- PE 71 FITNESS AND CONDITIONING (2 quarter hours)
- PE 76 ADVANCED WEIGHT TRAINING (2 quarter hours)
- PE 121 SWIMMING (2 quarter hours)

Physical Education Team & Individual Sports: 4 quarter hours required, grade of C- or better required

Choose two of the following:

- PE 181 FLAG FOOTBALL (2 quarter hours)
- PE 182 VOLLEYBALL (2 quarter hours)
- PE 183 SOCCER (2 quarter hours)
- PE 185 SOFTBALL (2 quarter hours)
- PE 186 TRACK AND FIELD (2 quarter hours)
- PE 187 BASKETBALL (2 quarter hours)
- PE 277 GOLF (2 quarter hours)
Biology and Physics Foundations: 12 quarter hours are required
- BIO 201 HUMAN ANATOMY
- BIO 202 HUMAN PHYSIOLOGY
- or BIO 134 HOW THE HUMAN BODY WORKS
- PHY 151 GENERAL PHYSICS II

Open Electives: 16 quarter hours are required
Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95.

Internship Requirement
Consult with Physical Education faculty members for procedures for the internship. The internship experience is done at the very end of the program and requires all coursework for the major and liberal studies to be completed.

Internship: 10 quarter hours required, grade of B- or better require
Registration in student teaching requires completion of all requirements and procedures above. All students also take PE 387, Capstone Seminar with the internship (listed in the Liberal Studies section).
- PE 380 INTERNSHIP IN EXERCISE SCIENCE (10 quarter hours)

Fandom, Cult Media and Subculture (Minor)
The College of Communication currently features multiple classes across many programs and curricula that all focus on the idea of "cult" media or subcultural audiences—that is, aspects of culture that are separate from, or differentiate themselves from the mainstream, or that present new ways of examining consumers and the emotional resonance of various media products on contemporary audiences. Courses that focus on genre films and television, audience analysis, affect, and cult products span the Media and Cinema Studies program, the Journalism program, the Public Relations and Advertising program, and the Communication Studies program. The Fandom, Cult Media, and Subcultural Studies minor will unite these courses under one banner in order to provide interested students with a focused concentration on fandom and cult media. The purpose of this minor is to allow students to understand how audiences and media producers design media texts to confront and challenge contemporary ideologies, to offer alternatives to the mainstream, and to engineer deliberate affective reactions in audiences.

A minor in Fandom, Cult Media, and Subcultural Studies requires students to complete a total of six courses (24 credit hours).

Course Requirements
- MCS 271 MEDIA AND CULTURAL STUDIES
- MCS 361 FANDOM & PARTICIPATORY CULTURE
- Four additional courses (20 hours) from the following:
  - CMNS 330 TOPICS IN PERFORMANCE (requires departmental approval)
  - JOUR 377 SPECIAL TOPICS IN JOURNALISM (requires departmental approval)
  - MCS 348 TOPICS IN FILM GENRE (requires departmental approval)
  - MCS 351 TOPICS IN TELEVISION STUDIES (requires departmental approval)
  - MCS 352 TOPICS IN NEW MEDIA (requires departmental approval)
  - MCS 353 TOPICS IN MEDIA STUDIES (requires departmental approval)
  - MCS 358 TOPICS IN COMICS STUDIES
  - MCS 359 TOPICS IN CULT STUDIES
  - MCS 360 B-MOVIES
  - MCS 364 MONSTERS IN POPULAR CULTURE
  - MCS 369 TIME TRAVEL ON TELEVISION
  - PRAD 335 ADVERTISING AND SOCIETY
  - PRAD 340 CONSUMER PROMOTION

DePaul University Winter/Spring/Summer 2016-2017 Page 338 of 2776
Film and Television (BA)

The BA in Film and Television provides students with a generalist approach to film and television production. The degree will cover the primary media in which directors, cinematographers, documentarians, editors, producers, production designers, screenwriters, sound designers, and visual effects artists work.

Learning Outcomes

Students will be able to:

- Write a screenplay in proper format employing standard narrative conventions.
- Demonstrate an understanding of visual style.
- Demonstrate an understanding of the pre-production process.
- Perform all basic tasks of all crew positions.
- Direct a crew and talent on location.
- Show a working knowledge of visual composition, cinematic exposure standards and basic semiotics.
- Use the principles of invisible editing and montage.
- Demonstrate an understanding of the successful compositing of live action with animated background elements.
- Understand all the basic tasks of the post-production sound process.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**Open Electives**
Open Elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Degree Requirements**

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

**Sample Schedule**

The representation of these course requirements on a year-by-year basis is just a suggestion. Students are free to take these courses in any order they choose, provided they have mastered the course-specific prerequisites.

**First Year**
- DC 110 FOUNDATIONS OF CINEMA FOR MAJORS
- TV 110 FOUNDATIONS OF TELEVISION
- DC 101 SCREENWRITING FOR MAJORS
- DC 220 EDITING I
- DC 215 INTRODUCTION TO SOUND DESIGN
- DC 210 DIGITAL CINEMA PRODUCTION I
- DC 206 HISTORY OF CINEMA PRODUCTION
- 5 Liberal Studies

- DC 397 CAPSTONE DEVELOPMENT
- DC 398 DIGITAL CINEMA CAPSTONE
- MCS 383 TALKING ABOUT FILM: THEORY & CRITICISM
Film and Television (BFA)

The BFA in Film and Television provides students with the ability to specialize in a specific area of film and television production by choosing one of nine concentrations: cinematography, creative producing, directing, documentary, editing, production design, screenwriting, sound design, and visual effects.

Concentrations

Cinematography Concentration

The cinematography concentration will provide a strong technical foundation for cinematographers enabling students to focus on lighting, color correction, or special effects while facilitating the creation of more portfolio pieces.

Creative Producing Concentration

The creative producing concentration allows students to achieve competency in multimedia streaming, creative financing structures, international distribution, intellectual property and original content acquisition. This concentration will enable students to oversee more portfolio pieces.

Directing Concentration

The directing concentration lays a strong foundation for students who wish to direct coupled with a strong technical and storytelling foundation.

Documentary Concentration

The documentary concentration provides students with the opportunity to experience different documentary modes of production, dig deeper into issues that interest them, and experiment with the styles of documentary creation that are best suited to their personal vision.

Editing Concentration

The editing concentration will provide a solid foundation in managing media during production to editing and finishing a project. This includes picture, sound, titles, color correction, and mastering workflows. The concentration will allow students to specialize in both the technical and creative aspects of editing.

Production Design Concentration

The production design concentration was developed in conjunction with DePaul’s Theater School and provides students with a strong foundation in production design across several media. Students can specialize in various crafts including art direction, scene design, costume design, property, hair and makeup.

Screenwriting Concentration
The screenwriting concentration enables students to enhance their creative voice and spec portfolio which will prepare them to become professional screenwriters.

Sound Design Concentration

The sound design concentration provides a solid foundation in sound design for the visual image. The concentration will provide deep exploration of all elements of sound design including audio engineering, field recording, dialogue recording, dialogue and sound effects editing, sound mixing, re-recording mixing, deliverables, and film scoring.

Visual Effects Concentration

In the visual effects concentration students learn digital composition, motion capture, match moving techniques, and other ways to acquire and combine various elements into fully realized VFX sequences.

  - or ANI 201 ANIMATION I
- ANI 105 MOTION GRAPHICS FOUNDATIONS
  - or GD 105 INTRO TO VISUAL DESIGN

Open Electives

Open elective credit also is required to meet the minimum graduation requirements of 192 hours.
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Sample Schedule

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

- Cinematography
- Creative Producing
- Directing
- Documentary
- Editing
- Production Design
- Screenwriting
- Sound Design
- Visual Effects

Cinematography

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

Cinematography Concentration
First Year

- DC 101 SCREENWRITING FOR MAJORS
- DC 110 FOUNDATIONS OF CINEMA FOR MAJORS
- DC 220 EDITING I
- DC 210 DIGITAL CINEMA PRODUCTION I
- DC 215 INTRODUCTION TO SOUND DESIGN
- DC 206 HISTORY OF CINEMA PRODUCTION
- TV 110 FOUNDATIONS OF TELEVISION
- DC 221 FILM STRUCTURE FOR MAJORS
  - or DC 229 TELEVISION GENRES
- 4 Liberal Studies

Second Year

- ANI 101 ANIMATION FOR NON-MAJORS
  - ANI 201 ANIMATION I
- DC 121 THE ART OF PRODUCTION DESIGN
- DC 213 CREATIVITY IN PRACTICE
- DC 276 CINEMATOGRAPHERS AT WORK
- DC 270 TOPICS IN DIGITAL CINEMA
  - or DC 370 ADVANCED TOPICS IN CINEMA
- DC 274 IMAGE, OPTICS AND CINEMATIC MOTION
- DC 275 CINEMATOGRAPHY I
- DC 371 DOCUMENTARY PRODUCTION
- DC 377 LIGHTING I
- MCS 385 SEMIOTICS, STORYTELLING, & FILM FORM
- 2 Liberal Studies

Third Year

- DC 310 DIGITAL CINEMA PRODUCTION II
- DC 325 COLOR CORRECTION
- DC 375 CINEMATOGRAPHY II
- DC 376 VISUAL DESIGN
- DC 384 LIGHTING II
- DC 389 THE BIG PICTURE: THE ENTERTAINMENT INDUSTRY
- DC 359 VISUAL EFFECTS CINEMATOGRAPHY
- 3 Liberal Studies
- 2 Open Electives

Fourth Year

- DC 326 ADVANCED COLOR CORRECTION
- DC 390 DIRECTING
- DC 391 POST-PRODUCTION SEMINAR
- DC 394 CINEMATOGRAPHY III
- DC 397 CAPSTONE DEVELOPMENT
- DC 398 DIGITAL CINEMA CAPSTONE
- 4 Liberal Studies
- 2 Open Electives
Creative Producing

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

Creative Producing Concentration

First Year

- DC 101 SCREENWRITING FOR MAJORS
- DC 110 FOUNDATIONS OF CINEMA FOR MAJORS
- DC 220 EDITING I
- DC 210 DIGITAL CINEMA PRODUCTION I
- DC 215 INTRODUCTION TO SOUND DESIGN
- DC 206 HISTORY OF CINEMA PRODUCTION
- TV 110 FOUNDATIONS OF TELEVISION
- 5 Liberal Studies

Second Year

- ANI 101 ANIMATION FOR NON-MAJORS
  - or ANI 201 ANIMATION I
- DC 221 FILM STRUCTURE FOR MAJORS
- DC 229 TELEVISION GENRES
- TV 271 INTRODUCTION TO TELEVISION PRODUCTION
- TV 289 THE BUSINESS OF TELEVISION
- DC 305 PITCHING SEMINAR
- DC 309 FEATURE DEVELOPMENT
- DC 385 PRODUCING
- DC 275 CINEMATOGRAPHY I
- 3 Liberal Studies

Third Year

- DC 389 THE BIG PICTURE: THE ENTERTAINMENT INDUSTRY
- DC 386 DOCUMENTARY PRODUCING
- DC 323 PRE-PRODUCTION FOR CINEMA
- TV 385 PRODUCING TELEVISION
- DC 361 COMMERCIAL PRODUCTION
- DC 310 DIGITAL CINEMA PRODUCTION II
- DC 363 PRODUCING FOR ANIMATION AND VFX
- MCS 383 TALKING ABOUT FILM: THEORY & CRITICISM
- 3 Liberal Studies
- 1 Open Elective

Fourth Year

- DC 364 INDEPENDENT FILM PRODUCING
- DC 270 TOPICS IN DIGITAL CINEMA
  - or DC 370 ADVANCED TOPICS IN CINEMA
- DC 393 FILM FESTIVALS WORKSHOP
- DC 381 DISTRIBUTION AND EXHIBITION
- DC 365 CONTRACTS AND NEGOTIATIONS
- DC 397 CAPSTONE DEVELOPMENT
- DC 398 DIGITAL CINEMA CAPSTONE
- 2 Liberal Studies
- 3 Open Electives
Directing

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

Directing Concentration

First Year

- DC 101 SCREENWRITING FOR MAJORS
- DC 110 FOUNDATIONS OF CINEMA FOR MAJORS
- DC 220 EDITING I
- DC 210 DIGITAL CINEMA PRODUCTION I
- DC 215 INTRODUCTION TO SOUND DESIGN
- DC 206 HISTORY OF CINEMA PRODUCTION

- DC 398 DIGITAL CINEMA CAPSTONE
- 5 Liberal Studies
- 2 Open Electives
Finance (BSB)

DePaul's Finance program will provide you with a solid foundation in financial management and an understanding of public and private financial processes, financial markets, analysis and investments.

As a Finance major, you will take courses in:

- Corporate finance
- Financial statements analysis
- Investment theory and practice
- Money and banking
- Quantitative reasoning
- Risk management

You will also take multiple elective courses. Depending on your career goals, you may take a series of courses that focus on one of the following areas:

- Banking and financial services
- Corporate financial management
- Investment analysis/management
- Risk management

DePaul's Driehaus College of Business is located in downtown Chicago, in the heart of the city's financial district, providing you with countless opportunities to intern and work professionally with leading companies in the business industry. You are encouraged to complete an internship with a Chicago-area business during the summer preceding either your junior or senior year.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes
Students will be able to:

- Understand financial theory and how it can be applied to financial decision making.
- Understand the structure of the financial markets and the roles of institutions in those markets.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- FIN 310 INTRODUCTION TO FINANCE
- FIN 320 MONEY AND BANKING
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
- One Communication course to be chosen from:
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- Global Business Perspective (4.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA'S ECONOMY
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  - MKT 360 INTERNATIONAL MARKETING
  - A course taken as part of a term-long study abroad program
- One Professional Writing course to be chosen from:
  - WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
Second Majors and Minors
The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements
- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study.
- MAT 135 and MAT 137 are completed through Liberal Studies requirements.
- MAT 135 may be replaced by MAT 150, MAT 160, or MAT 170.
- MAT 136 may be replaced by MAT 151, MAT 161, or MAT 171.
- MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149.
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

Grade Minimums for Finance Major
A minimum grade of B- is required for FIN 310. A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, FIN 320, MAT 135, MAT 136, MAT 137, the course used for Professional Writing, and any FIN course used for Global Business Perspective.

Global Business Perspective
If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter
- LSP 110 DISCOVER CHICAGO

Learning Domains

Arts and Literature

• 3 AL courses Required

Philosophical Inquiry

• 2 PI courses required***

Scientific Inquiry

• MAT 135 BUSINESS CALCULUS I
  or MAT 150 CALCULUS I
  or MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
• MAT 137 BUSINESS STATISTICS
• 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry

• 1 SCBI course required (must not be an ECO course)

Religious Dimensions

• 2 RD courses required***

Understanding the Past

• 2 UP courses required

* Students must earn C- or better in this course.
** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Major Requirements

Declaration Requirements

To declare a major in Finance, a student must meet the following requirements:

- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.700
- A minimum Finance (FIN) grade point average of 2.700
- No grade of IN, R, or lower than C- in any Finance (FIN) course or course used toward the Finance major
- Completion of FIN 310 with a minimum grade of B-

Course Requirements

In addition to FIN 310 and FIN 320, a student majoring in Finance is required to complete the following courses totaling at least 32.0 hours:

- Four required courses:
  - FIN 202 QUANTITATIVE REASONING (2.0 hours)
  - FIN 250 PROFESSIONAL BEHAVIOR & COMMUNICATION DEVELOPMENT (2.0 hours)
  - FIN 311 CORPORATE FINANCE
  - FIN 330 INVESTMENTS: THEORY & PRACTICE
  - FIN 380 CASES IN FINANCIAL DECISION MAKING
- Four elective courses (16.0 hours) to be chosen from:
  - FIN 313 INVESTMENT BANKING
  - FIN 323 COMMERCIAL BANKING
  - FIN 333 FINANCIAL STATEMENTS ANALYSIS
  - FIN 335 PORTFOLIO MANAGEMENT
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 360 IPOs & VENTURE CAPITAL
  - FIN 362 RISK MANAGEMENT
  - FIN 363 DERIVATIVES: PRICING & APPLICATIONS
  - FIN 366 FINANCIAL MODELING
  - FIN 381 BEHAVIORAL FINANCE
  - FIN 393 FINANCE INTERNSHIP (see note below)
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - FIN 395 INVESTMENT SEMINAR (2.0 hours)
  - FIN 398 SPECIAL TOPICS (multiple topics may be used)
  - FIN 399 INDEPENDENT STUDY
  - RE 350 REAL ESTATE ANALYSIS*

The Department of Finance enforces all course prerequisites; exceptions will not be made.

*RE 350 and FIN 350 are cross listed and may only be completed once for credit.

Note: FIN 394 and FIN 395 are 2.0 credit hour courses. Students must complete 4.0 credit hours of either the FIN 394 or FIN 395 sequences in order to earn Finance Elective credit. Two hour FIN 398 courses will not satisfy Finance Electives.

FIN 380 is a capstone course. It is recommended that students take this course after the completion of all required finance courses.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year.

Open Electives

Open elective credit (14.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective
If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required.

**Experiential Learning**

Sharing of FIN 393 between Experiential Learning and the Finance Elective may be possible; consult with academic advisor.

**Graduation Requirements**

All Finance (FIN) courses and any courses used toward the Finance major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

**Curricular Specializations**

The Department offers four recommendations for students who would like to focus their studies on one area of expertise. These areas are optional; no curricular specialization is required for the major.

**Banking**

- FIN 313 INVESTMENT BANKING
- FIN 323 COMMERCIAL BANKING
- FIN 333 FINANCIAL STATEMENTS ANALYSIS
- FIN 360 IPOs & VENTURE CAPITAL
- FIN 362 RISK MANAGEMENT
- FIN 366 FINANCIAL MODELING

**Corporate Finance**

- FIN 333 FINANCIAL STATEMENTS ANALYSIS
- FIN 340 INTERNATIONAL FINANCE
- FIN 360 IPOs & VENTURE CAPITAL
- FIN 362 RISK MANAGEMENT
- FIN 366 FINANCIAL MODELING

**Risk Management**

- FIN 333 FINANCIAL STATEMENTS ANALYSIS
- FIN 335 PORTFOLIO MANAGEMENT
- FIN 362 RISK MANAGEMENT
- FIN 363 DERIVATIVES: PRICING & APPLICATIONS
- FIN 366 FINANCIAL MODELING

**Investment/Financial Analysis**

- FIN 333 FINANCIAL STATEMENTS ANALYSIS
- FIN 335 PORTFOLIO MANAGEMENT
- FIN 362 RISK MANAGEMENT
- FIN 363 DERIVATIVES: PRICING & APPLICATIONS
- FIN 366 FINANCIAL MODELING
- FIN 381 BEHAVIORAL FINANCE
- FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT
- FIN 395 INVESTMENT SEMINAR
Finance (Minor: Business Students Only)

Students in the Driehaus College of Business who wish to round out their courses of study with a deeper understanding of financial management, investment banking, financial markets and investment strategy, may choose to minor in Finance.

Declaration Requirements

To declare a minor in Finance, a Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.700
- A minimum Finance grade point average of 2.700
- No grade of IN, R, or lower than C- in any FIN course or course used toward the Finance minor
- Completion of FIN 310 with a minimum grade of B-

Course Requirements

In addition to FIN 310 and FIN 320, a Driehaus student minoring in Finance is required to complete the following courses totaling at least 18.0 hours:

- Three required courses:
  - FIN 202 QUANTITATIVE REASONING (2.0 hours)
  - FIN 311 CORPORATE FINANCE
  - FIN 330 INVESTMENTS: THEORY & PRACTICE

- Two elective (8 hours) courses to be chosen from:
  - FIN 313 INVESTMENT BANKING
  - FIN 323 COMMERCIAL BANKING
  - FIN 333 FINANCIAL STATEMENTS ANALYSIS
  - FIN 335 PORTFOLIO MANAGEMENT
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 360 IPOs & VENTURE CAPITAL
  - FIN 362 RISK MANAGEMENT
  - FIN 363 DERIVATIVES: PRICING & APPLICATIONS
  - FIN 366 FINANCIAL MODELING
  - FIN 380 CASES IN FINANCIAL DECISION MAKING
  - FIN 393 FINANCE INTERNSHIP
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - FIN 395 INVESTMENT SEMINAR (2.0 hours)
  - FIN 398 SPECIAL TOPICS (multiple topics may be used)
  - FIN 399 INDEPENDENT STUDY
  - RE 350 REAL ESTATE ANALYSIS

The Department of Finance enforces all course prerequisites; exceptions will not be made.

Note: FIN 394 and FIN 395 are 2.0 credit hour courses. Students must complete 4.0 credit hours of either the FIN 394 or FIN 395 sequences in order to earn Finance Elective credit. Two hour FIN 398 courses will not satisfy Finance Electives.

FIN 380 is a capstone course. It is recommended that students take this course after the completion of all required finance courses.

Graduation Requirements

All Finance (FIN) courses and any other courses used toward the Finance minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Finance (Minor)

Available to students outside the Driehaus College of Business, a minor in Finance provides a student with a basic foundation in financial management, along with an understanding of financial markets, analysis, and investments.

Declaration Requirements

To declare a minor in Finance, a non-Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.700
- A minimum Finance grade point average of 2.700
- No grade of IN, R, or lower than C- in any Finance (FIN) course or course used toward the Finance minor
- Completion of FIN 310 with a minimum grade of B-

Course Requirements

A non-Driehaus student minoring in Finance is required to complete the following courses totaling at least 26.0 hours:

- Five required courses:
  - FIN 202 QUANTITATIVE REASONING (2.0 hours)
  - FIN 310 INTRODUCTION TO FINANCE
  - FIN 311 CORPORATE FINANCE
  - FIN 320 MONEY AND BANKING
  - FIN 330 INVESTMENTS: THEORY & PRACTICE
- Two elective (8.0 hours) courses to be chosen from:
  - FIN 313 INVESTMENT BANKING
  - FIN 323 COMMERCIAL BANKING
  - FIN 333 FINANCIAL STATEMENTS ANALYSIS
  - FIN 335 PORTFOLIO MANAGEMENT
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 360 IPOs & VENTURE CAPITAL
  - FIN 362 RISK MANAGEMENT
  - FIN 363 DERIVATIVES: PRICING & APPLICATIONS
  - FIN 366 FINANCIAL MODELING
  - FIN 380 CASES IN FINANCIAL DECISION MAKING
  - FIN 393 FINANCE INTERNSHIP
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - FIN 395 INVESTMENT SEMINAR (2.0 hours)
  - FIN 398 SPECIAL TOPICS (multiple topics may be used)
  - FIN 399 INDEPENDENT STUDY
  - RE 350 REAL ESTATE ANALYSIS

The Department of Finance enforces all course prerequisites; exceptions will not be made.

Note: FIN 394 and FIN 395 are 2.0 credit hour courses. Students must complete 4.0 credit hours of either the FIN 394 or FIN 395 sequences in order to earn Finance Elective credit. Two hour FIN 398 courses will not satisfy Finance Electives.

FIN 380 is a capstone course. It is recommended that students take this course after the completion of all required finance courses.

Graduation Requirements

All Finance (FIN) courses and any other courses used toward the Finance minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Finance Honors (BSB)

The honors program in finance is reserved for students of high promise and exceptional ability. Students admitted to this program are characterized by outstanding academic performance, exceptional leadership capability, high aptitude for superior academic work and exceptional ability for making meaningful contributions during a professional career.

Honors students in finance proceed through the program together in a cohort system with peers who have similar exceptional abilities. Courses reserved for honors students are advanced in nature, student-oriented, and small. Students in the program are afforded the opportunity to interact with leaders from finance and business communities in small settings.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Understand financial theory and how it can be applied to financial decision making.
- Understand the structure of the financial markets and the roles of institutions in those markets.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.
Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- FIN 310 INTRODUCTION TO FINANCE
- FIN 320 MONEY AND BANKING
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
- One Communication course to be chosen from:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- Global Business Perspective (4.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA'S ECONOMY
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  - MKT 360 INTERNATIONAL MARKETING
  - A course taken as part of a term-long study abroad program
- One Professional Writing course to be chosen from:
  - WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
  - WRD 204 TECHNICAL WRITING
  - WRD 206 PROFESSIONAL WRITING

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
- MAT 135 and MAT 137 are completed through Liberal Studies requirements
- MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
- MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
- MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Grade Minimums for Finance Honors Major

A minimum grade of B+ is required for FIN 310. A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, FIN 320, MAT 135, MAT 136, MAT 137, the course used for
Liberal Studies Requirements

Major Requirements

Admission Requirements

Admission to the honors program in finance is dependent on a student's academic performance through the winter quarter of the junior year.

Students with an overall GPA of 3.300 and a minimum grade of B+ in FIN 310 may apply for admission into the program. The admissions committee will consider the student's GPA, grade in FIN 310 as well as other evidence of superior academic performance for admission into the program.

Declaration Requirements

To declare a major in Finance Honors, a student must meet the following requirements:

- Acceptance into the Finance Honors program
- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 3.300
- A minimum Finance (FIN) grade point average of 2.700
- No grade of IN, R, or lower than C- in any Finance (FIN) course or course used toward the Finance major
- Completion of FIN 310 with a minimum grade of B+

Course Requirements
In addition to FIN 310 and FIN 320, a student majoring in Finance Honors is required to complete the following courses totaling at least 38.0 hours:

- Two required course (not taken as Honors section)
  - FIN 202 QUANTITATIVE REASONING (2.0 hours)
  - FIN 250 PROFESSIONAL BEHAVIOR & COMMUNICATION DEVELOPMENT (2.0 hours)

- Ten required courses (must be taken as Honors sections)
  - FIN 311 CORPORATE FINANCE
  - FIN 330 INVESTMENTS: THEORY & PRACTICE
  - FIN 333 FINANCIAL STATEMENTS ANALYSIS
  - FIN 362 RISK MANAGEMENT
  - FIN 366 FINANCIAL MODELING
  - FIN 380 CASES IN FINANCIAL DECISION MAKING
  - FIN 396 HONORS SEMINAR (2.0 hours)
  - FIN 397 HONORS SEMINAR CONTINUATION (0.0 hours)
  - ACC 307 FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS
  - ACC 309 FINANCIAL REPORTING II FOR FINANCE HONORS STUDENTS

Students who have taken the financial accounting courses, ACC 304, ACC 305 and ACC 306, are exempt from taking the financial accounting courses taught within the finance cohort, ACC 307-H and ACC 309-H.

**Expectations**

A cumulative GPA of 3.000 is required to remain in the program. A student will be dropped from the program if a grade of D or F is earned in any DePaul course after admission to the program.

Once admitted, students will begin the curriculum in the spring quarter of the current academic year, and will complete the curriculum in the spring quarter of the following year. The program consists of a set of courses taught in lock step during the junior and senior years. The honors student cohort will be exposed to rigorous and challenging courses in corporate finance, risk management, financial statement analysis, and financial accounting. Analytical writing and teamwork skills will be emphasized throughout the program.

**Open Electives**

Open elective credit (8.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

**Graduation Requirements**

All Finance (FIN) courses and any courses used toward the Finance major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

---

**Sample Schedule**

Below is a suggested curriculum which provides a course structure designed to prepare those interested in applying to the Finance Honors Program in the winter quarter of their junior year.

Candidates for the honors program may take FIN 310 and FIN 320 during their junior year. FIN 311 and FIN 330 are included in the honors curriculum and should not be taken before entering the honors program. Students are urged to complete FIN 310 during the autumn term of their junior year, and to complete FIN 320 and FIN 202 during the winter quarter of their junior year. Students who take FIN 310 during the winter quarter may be accepted into the honors program contingent upon earning a minimum grade of B+ in FIN 310. Students who are accepted on a contingent basis, but who fail to meet the FIN 310 B+ standard, will not be permitted to participate in the honors program. Honors students who have not completed FIN 320 and FIN 202 before the spring quarter may be granted permission to take FIN 320 during the spring quarter and FIN 202 during the summer. Both courses must be completed before the following autumn quarter. Students who do not complete both courses before the autumn quarter will not be permitted to continue in the honors program.

The cohort instruction begins in the spring and ends the following spring. The finance courses and accounting courses will be taught in the afternoon once per week, or on Friday mornings, in three hour sessions. The seminar course is a two credit hour course that will meet over the spring, autumn, and winter terms every other Wednesday afternoon. All honors students will take all classes at the scheduled times. There are no exceptions.

The classes reserved exclusively for honors students are the following:

**Spring Quarter (Junior Year)**
- ACC 307 FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS
- FIN 311 CORPORATE FINANCE
- FIN 396 HONORS SEMINAR

**Autumn Quarter (Senior Year)**
- ACC 309 FINANCIAL REPORTING II FOR FINANCE HONORS STUDENTS
- FIN 330 INVESTMENTS: THEORY & PRACTICE
- FIN 333 FINANCIAL STATEMENTS ANALYSIS
- FIN 397 HONORS SEMINAR CONTINUATION

**Winter Quarter (Senior Year)**
- FIN 362 RISK MANAGEMENT
- FIN 366 FINANCIAL MODELING
- FIN 397 HONORS SEMINAR CONTINUATION

**Spring Quarter (Senior Year)**
- FIN 380 CASES IN FINANCIAL DECISION MAKING

During the program, honors students are required to enroll in FIN 397 twice to complete the Honors Seminar sequence.

Food Studies (Minor)

The Food Studies minor brings together the social and natural sciences to explore urban and sustainable agriculture, scientific aspects of food, food security issues, and topics related to food cultures, food politics and food access. The Food Studies minor will enable students to pursue an interdisciplinary minor that complements their major field of study. This minor will give students the practical expertise in Geographic Information Systems (GIS), horticulture, urban agriculture and scholarship in issues of food access and food justice to engage in and contribute to debates about urban and community food systems, both locally and globally. In addition, the Food Studies minor will offer students the opportunity to pursue service-learning facilitated by the Steans Center for Community-based Service Learning.

Course Requirements

- Four Required (core) courses:
  - ENV 240 INTRODUCTION TO HORTICULTURE
  - GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
  - Choose two from:
    - CSS 320 COMMUNITY FOOD SYSTEMS
    - ENV 245 URBAN AND COMMUNITY AGRICULTURE
    - GEO 351 GEOGRAPHY, FOOD AND JUSTICE
- Choose two electives from the following:
  - ANT 109 FOOD AND CULTURE
  - ANT 342 ANTHROPOLOGY OF FOOD MOVEMENTS AND PRACTICES
  - BIO 156 FOOD, FUEL FOR LIFE
  - CHE 105 EXPLORING NUTRIENTS/SCIENCE OF NUTRITION
  - CSS 320 COMMUNITY FOOD SYSTEMS
  - ENV 245 URBAN AND COMMUNITY AGRICULTURE
  - ENV 310 ENVIRONMENTAL SOIL SCIENCE
  - GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
  - GEO 260 GLOBALIZATION AND RESOURCES
  - GEO 350 WORLD OF WINE
  - GEO 351 GEOGRAPHY, FOOD AND JUSTICE
  - CMNS 325 PROMOTING SUSTAINABLE PRACTICES
  - MOL 260 EAT ITALY: THE HISTORY, CULTURE AND POLITICS OF ITALIAN FOOD
  - SOC 370 PEOPLE, PLACES, AND FOOD

Please note that students can complete no more than two courses from any one discipline. If you have any questions about this requirement, please contact Professor Euan Hague (GEO) or Professor Liam Heneghan (ENV).

French (BA)

In DePaul's French program, students will study French language, literature and culture. Because French is a major world language with more than 200 million speakers in more than 50 countries, having the ability to communicate in French will provide students with many career opportunities around the world.

Courses in the French major will cover a variety of topics, including:

- Business
- Cinema
- Civilization
For students interested in pursuing careers in education, the French department partners with the College of Education to award teaching degrees at the middle school and high school levels.

As French majors, students are encouraged to participate in one of DePaul’s study abroad programs in order to grow linguistically and expand their cultural understanding of French-speaking societies. DePaul sponsors two study abroad programs in Paris: one at Alliance Française and another at the Institute for the International Education of Students. It also has an exchange program with Sciences Po, an elite institution in the social sciences.

Chicago is a culturally diverse city, providing many opportunities to attend French lectures and festivals, dine out at French restaurants and see the work of French artists.

### Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information
  - Express feelings and emotions.
  - Exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

### College Core Requirements

#### Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum
requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration. Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
  WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- Required *

Learning Domains

Arts and Literature (AL)

- 1 Course Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)
Major Requirements

Course Requirements

- FCH 201 ADVANCED COMMUNICATION I
- FCH 202 ADVANCED COMMUNICATION II
- FCH 203 ADVANCED COMMUNICATION III
- or FCH 204 ADVANCED COMMUNICATION IV
- FCH 341 INTRODUCTION TO FRENCH LITERATURE I
- FCH 342 INTRODUCTION TO FRENCH LITERATURE II
- FCH 350 FRENCH PHONOLOGY AND PHONETICS
- Six additional 300-level FCH courses

Students who begin their study of French at DePaul with FCH 202 or higher may substitute a 300-level French elective course for any of the required 200-level courses.

Open Electives

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Study Abroad Requirements**

**Year-long program**

Students on the year-long program at IES will be taking a total of 10 courses, 5 of which may be applied to their French Major or Minor. The remaining courses might fulfill various learning domains or other major/minor requirements. They can also simply be counted as general electives. Note that the 5 French courses taken on a year-long program that may be applied to the French Major or Minor will generate more than 5 courses worth of credit (30 vs. 20); the remaining 10 credits should be used towards the fulfillment of domain requirements, if possible, or applied to general electives, as appropriate.

**Semester-long program**

Students on the semester-long program at IES will be taking a total of 5 courses, 3 of which may be applied to their French Major or Minor. The remaining courses might fulfill various learning domains or other major/minor requirements. They can also simply be counted as general electives. Note that the 3 French courses taken on a semester-long basis that may be applied to the French Major or Minor will generate more than 3 courses worth of credit (18 vs. 12); the remaining 6 credits should be used towards the fulfillment of domain requirements, if possible, or applied to general electives, as appropriate.

**French (Minor)**

A minor in French is customizable to fit the goals of each student, with an aim of general proficiency in writing, reading and speaking French. The student may choose to focus on a specific area to complement the course of study.

The minor consists of a total of 5 courses in French language at the 200/300-level.

Students majoring in French (BA) or minoring in Commercial French or French Translation are restricted from earning this minor.

**French Translation (Minor)**

**Course Requirements**

- 12 credits of advanced (200-level) coursework in French language, selected to develop appropriate levels of proficiency in the language and to provide an introduction to translation
- 12 credits of advanced (300-level) coursework in translation classes

Depending on their level of prior expertise with French, students may need to complete courses at the Basic and Intermediate levels before enrolling in 200 or 300-level language courses.
Students majoring in French (BA) or minoring in French or Commercial French are restricted from earning this minor.

Game Design (BS)

A game designer conceives and crafts the rules, structure and experience of a game. The game design degree equips students to become the next generation of creative leaders in the growing field of games. Throughout the program students will explore and push the boundaries of games as expressive and artistic media. They will develop skills for each phase of the game design and development cycle including ideation, iteration through the creation of multiple playable game builds (including prototypes), and reflection on the effectiveness of their designs using playtesting and written evaluations. Students will also develop skills and confidence in reading, writing, and modifying computer programs and scripts. Students will collaborate in interdisciplinary teams with programmers, artists, producers, writers, and audio designers. This program has an emphasis on building a portfolio of games and advancing the medium of games through experimentation and innovation.

Learning Outcomes

Students will be able to:

- Collaboratively generate ideas, share them and assess their inherent risks and scope.
- Translate game ideas into playable prototypes.
  - Assess prototypes in regard to feasibility and creative value.
  - Iterate on prototype until they have a viable, playable version.
- Plan and manage their own development tasks to work effectively within a cross-disciplinary team.
- Evaluate games with users using multiple common game user research methods.
- Manage the pipeline for games, effectively evaluating the impact of potential changes.
- Develop a foundational literacy and confident in reading, writing, and modifying computer programs and scripts.
- Clearly communicate and establish the vision for a game's experiential goal by taking formal and dramatic game elements into account.
- Intentionally draft experiences that leverage and develop the unique affordances of games as an artistic medium.

- GAM 392 GAME MODIFICATION WORKSHOP
- GAM 394 GAME DEVELOPMENT PROJECT I
- GAM 395 GAME DEVELOPMENT PROJECT II
- GD 105 INTRO TO VISUAL DESIGN
- IT 223 DATA ANALYSIS

Students must take 5 Major Electives. Students must earn a grade of C- or higher in all major elective courses.

- 2 of these Major Electives must be GAM courses at the 300 level.
- 3 Major Electives must be chosen from the following list:
  - 200 level ANI, DC, GAM, GD, GPH, or ISM courses
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Sample Schedule

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

First Year

- GAM 226 FUNDAMENTALS OF GAME DESIGN
- GAM 240 PLAYGRAMMING
- GAM 244 GAME DEVELOPMENT I
- GD 105 INTRO TO VISUAL DESIGN
- ANI 230 3D DESIGN & MODELING
- GAM 205 EVOLUTION OF GAMES
- 6 Liberal Studies

Second Year

- GAM 341 INTRODUCTION TO LEVEL DESIGN
- GAM 245 GAME DEVELOPMENT II
- GAM 340 PRACTICAL SCRIPTING FOR GAMES
- ANI 231 3D ANIMATION
- GAM 230 INTRO TO GAME PRODUCTION
- GAM 229 DESIGN WRITING AND PRESENTATION
- 5 Liberal Studies
- 1 Open Elective

Third Year

- GAM 355 SOLO GAME DEVELOPMENT PROJECT
- GAM 365 ADVANCED GAME DESIGN
- GAM 312 PLAYTESTING
- GAM 250 GAME SOUND DESIGN I
- IT 223 DATA ANALYSIS
- 4 Liberal Studies
- 2 Major Electives
- 1 Open Elective

Fourth Year

- GAM 392 GAME MODIFICATION WORKSHOP
- GAM 394 GAME DEVELOPMENT PROJECT I
- GAM 395 GAME DEVELOPMENT PROJECT II
- 4 Liberal Studies
- 3 Major Electives
- 2 Open Electives
**Game Design (Minor)**

The minor in Game Design exposes students to the three areas of game development — animation design, writing and production.

**Course Requirements**

- ANI 101 ANIMATION FOR NON-MAJORS
  - or ANI 201 ANIMATION I
- ANI 230 3D DESIGN & MODELING
- GAM 224 GAME DESIGN FOR NON-MAJORS
  - or GAM 226 FUNDAMENTALS OF GAME DESIGN
- GAM 244 GAME DEVELOPMENT I
- GAM 245 GAME DEVELOPMENT II
- 1 course from the following list:
  - ANI 231 3D ANIMATION
  - GAM 341 INTRODUCTION TO LEVEL DESIGN
  - GAM 362 MAKING DEEP GAMES
  - GAM 365 ADVANCED GAME DESIGN
  - GAM 392 GAME MODIFICATION WORKSHOP
  - GAM 397 TOPICS IN GAME DESIGN
  - DC 341 STORYTELLING FOR VIDEO GAMES

Students majoring in Game Programming (BS) or Game Design (BS) or minoring in Game Programming are restricted from earning this minor.

**Game Programming (BS)**

Students in this program engage in the rigorous study of computer science basics, and then apply this knowledge to the demanding specialization of game programming. Programmers bring their technical understanding of game internals to the problem of delivering engaging game experiences to players. Areas of study include level design, game scripting, computer graphics development, game physics, and artificial intelligence programming.

- SE 350 OBJECT-ORIENTED SOFTWARE DEVELOPMENT
- SE 359 AGILE SOFTWARE DEVELOPMENT
- SE 371 PRACTICES OF GLOBAL SOFTWARE DEVELOPMENT

Usability

- GAM 312 PLAYTESTING

Students must earn a grade of C- or higher in all major elective courses.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Sample Schedule

The representation of these course requirements on a year-by-year basis is just a suggestion. Students are free to take these courses in any order they choose, provided they have mastered the course-specific prerequisites.

First Year

- One of the following sequences:
  - Option 1:
    - CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
    - CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
  - Option 2:
    - CSC 243 PYTHON FOR PROGRAMMERS
    - 1 Major Elective
- GAM 226 FUNDAMENTALS OF GAME DESIGN
- GAM 340 PRACTICAL SCRIPTING FOR GAMES
- MAT 140 DISCRETE MATHEMATICS I
- CSC 300 DATA STRUCTURES IN JAVA I
- GAM 245 GAME DEVELOPMENT II
Second Year

- CSC 301 DATA STRUCTURES IN JAVA II
- ANI 230 3D DESIGN & MODELING
- CSC 373 COMPUTER SYSTEMS I
- CSC 361 OPTIMIZED C++
- GAM 341 INTRODUCTION TO LEVEL DESIGN
- 5 Liberal Studies
- 1 Major Elective
- 1 Open Elective

Third Year

- GAM 325 APPLIED 3D GEOMETRY
- GAM 372 OBJECT-ORIENTED GAME DEVELOPMENT
- GAM 374 GAME ENGINE PROGRAMMING I
- GAM 377 GAME ENGINE PROGRAMMING II
- GAM 392 GAME MODIFICATION WORKSHOP
- GPH 329 COMPUTER GRAPHICS DEVELOPMENT II
- 4 Liberal Studies
- 1 Major Elective
- 1 Open Elective

Fourth Year

- GAM 394 GAME DEVELOPMENT PROJECT I
- GAM 395 GAME DEVELOPMENT PROJECT II
- 5 Liberal Studies
- 3 Major Electives
- 2 Open Electives

Game Programming (Minor)

DePaul's Game Programming minor teaches the fundamentals of computer game development including graphics, 3-D modeling and programming.

Course Requirements

- CSC 309 C++ FOR PROGRAMMERS
- CSC 393 DATA STRUCTURES IN C++
  or CSC 301 DATA STRUCTURES IN JAVA II
- GAM 245 GAME DEVELOPMENT II
- GAM 372 OBJECT-ORIENTED GAME DEVELOPMENT
  or SE 350 OBJECT-ORIENTED SOFTWARE DEVELOPMENT
- GAM 374 GAME ENGINE PROGRAMMING I
- GPH 321 COMPUTER GRAPHICS DEVELOPMENT I

Students majoring in Game Programming (BS) or Game Design (BS) or minoring in Game Design are restricted from earning this minor.
General Business (BA)

The Bachelor of Arts in General Business (BAGB) is a degree offered jointly by the School for New Learning (SNL) and Driehaus College of Business (BUS) at DePaul University. The program is designed to help adults further their careers in business and to prepare them for graduate work in a business related area. The program is open to students age 24 and older. Students in the BAGB program take courses in both SNL and BUS.

The program offers the flexibility and individualized learning approach of SNL while providing the business theory and content provided by BUS. In SNL, students fulfill liberal learning requirements through coursework and, in some cases, documentation of knowledge gained through life experiences.

In BUS, students take courses in the business disciplines of marketing, finance, accounting, management, economics, business law and inter-disciplinary business studies. Students also develop skills in writing, calculus, information technology, planning and research and are able to earn a minor in a business topic area. The focus of the degree is general business and it is accredited by the Association to Advance Collegiate Schools of Business (AACSB).

The degree is earned by completing 50 competency requirements. Competency requirements can be met by SNL and BUS courses, equivalent transfer courses with a grade of C- or better or approved content exams. SNL competency requirements can also be met through documented college-level learning experience. Business courses are offered at DePaul’s Loop campus. SNL courses are available online and at the Loop, Naperville, and O’Hare campuses.

Learning Outcomes

Students will be able to:

- Use independent learning skills and strategies to organize, initiate, and document prior, current, and future college-level learning.
- Design learning strategies to attain goals for personal and educational development.
- Reflect on the learning process and methods used in an experiential project.
- Articulate the personal and social value of lifelong learning.
- Assess the social and personal value of civic engagement for achieving change.
- Write to analyze, synthesize, and evaluate experiences and concepts to demonstrate competencies.
- Analyze issues and reconcile problems through critical and appreciative thinking.
- Use mathematical symbols, concepts, and methods to describe and solve problems.
- Learn collaboratively and examine the skills, knowledge, and values that contribute to such learning.
- Pose questions and use methods of formal inquiry to answer questions and solve problems.
- Analyze a problem using two different ethical systems.
- Define and analyze a creative process.
- Analyze power relations among racial, social, cultural, or economic groups in the United States.
- Analyze issues and problems from a global perspective.
- Describe and explain connections among diverse aspects of nature.
- Explain and evaluate the nature and process of science.
- Design a plan for development in one’s Focus Area based on an analysis of elements that comprise the
Competency Framework

The SNL curriculum is organized around the knowledge, skills and abilities that describe an educated adult in contemporary society. These are defined by a framework of 50 competency statements grouped in 3 areas: Lifelong Learning, Individual Focus, and Liberal Learning. Students demonstrate these degree requirements through SNL courses, independent learning projects, and transfer coursework.

Students in SNL’s competency-based joint degree programs, the BA in Computing, BA in Early Childhood Education and BA in General Business follow a format similar to the descriptions below with some variations. See their Program Requirements for more information.

Lifelong Learning Area

The Lifelong Learning Area has 12 competencies that develop skills in reading, writing, goal setting, decision-making, teamwork, and research.

Liberal Learning Area

The Liberal Learning Area encompasses fields of study generally referred to as the Liberal Arts. Students satisfy 26 competencies in this area.

This area is divided into 3 categories: Arts and Ideas (AI), Human Community (HC), and Scientific World (SW). Each category is divided into 3 subcategories. Students complete 8 competencies in each category and 2 additional Advanced Elective competencies. Students must satisfy at least 1 competency from each subcategory, and 3 more from any subcategory. The 4th and 5th competencies are required.

Arts and Ideas Category

This category includes the arts, philosophy, theology, literature, and other fields that focus on expression of values and aesthetics. The 3 subcategories are: Interpreting the Arts, Creative Expression, and Reflection and Meaning.

Human Community Category

This category includes human relations, history, political science, and other fields closely aligned with the development and maintenance of human society. The 3 subcategories are: Communities and Society, Institutions and Organizations, and Individual Development.

The Scientific World Category

This category includes fields related to scientific inquiry, technology, and relevant skills. The 3 subcategories in this area are: Experiencing Science, Patterns and Processes, and Science, Technology and Society.

Individual Focus Area

The Individual Focus Area may reflect a field of study, preparation for graduate study, a career goal or avocation. These 12 competencies are defined by the student with the advice and approval of a faculty mentor and a professional advisor who has expertise in the area of interest.

The BA in Computing, BA in Early Childhood Education and BA in General Business each have a series of prescribed competency statements in their Focus Areas that correspond to particular course requirements.
Program Requirements

Lifelong Learning Area

The Lifelong Learning Area consists of 12 competencies satisfied by SNL courses, approved transfer courses or proficiency exams.

- LL 103 INDEPENDENT LEARNING SEMINAR (L-1)
- LL 250 FOUNDATIONS OF ADULT LEARNING: DEVELOPING PERSONAL, PROFESSIONAL AND EDUCATIONAL GOALS
- L-3: Civic Engagement competency in SNL course, transfer, or experience. The L-3 competency is available in the following SNL courses:
  - AI 143 ROOTED IN THE CITY: WRITERS & WRITING IN CHICAGO
  - AI 218 ORGANIZING AND DEVELOPING EMERGENCY TRAINING SERVICE STRATEGIES: LESSONS-LEARNED FROM KATRINA
  - AI 230 MEMOIRS: A JOURNEY FROM THE INSIDE OUT
  - AI 257 ENGAGE FOR CHANGE: GET INFORMED, INVOLVED AND CONNECTED
  - HC 118 MAKING SOCIAL CHANGE: THE LEGACY OF THE 1960S
  - HC 211 ENGAGING A LOCAL NONPROFIT TO SOLVE A GLOBAL PROBLEM
  - HC 268 CULTURE AND POLITICS OF CAREWORK
  - HC 283 GLOBAL PERSPECTIVES BALANCING WORK & FAMILY
  - HC 302 ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD
  - HC 362 POVERTY, POLICY AND THE ECONOMY: POOR IN THE USA
  - IN 231 EXPLORING CHICAGO POLITICS
  - IN 352 EYES ON THE PRIZE: A TELEVISION HISTORY OF THE AMERICAN CIVIL RIGHTS MOVEMENT
  - SNC 215 ISSUES IN HEALTH POLICY AND ADMINISTRATION
  - SW 215 STRESS MANAGEMENT FOR HEALTH AND WELLNESS
  - SW 254 ENVIRONMENTAL SUSTAINABILITY AND ADVOCACY
- LL 250 WRITING FOR COMPETENCE
- LL 270 CRITICAL THINKING (L-5)
- LL 205 QUANTITATIVE REASONING
- L-7: Collaborative Learning competency in SNL course, transfer, or experience. The L-7 competency is available in the following SNL courses:
  - AI 170 CREATIVITY AND ENTREPRENEURSHIP
  - AI 255 SELF EXPLORATION: INSIDE OURSELVES, OUTSIDE WITH OTHERS
  - AI 285 WORK, PLAY AND REST: INTEGRATING THE FRAGMENTS
  - FA 133 EDITING YOURSELF AND OTHERS: A COLLABORATIVE APPROACH TO WRITING AT WORK
  - FA 196 MANAGING A SUCCESSFUL BUSINESS
  - FA 198 FINANCIAL PLANNING FOR RETIREMENT
  - FA 214 ENTREPRENEURIAL ACCOUNTING
  - FA 221 ENTREPRENEURSHIP: FROM START-UP TO SUCCESS
  - FA 224 HOMELAND SECURITY IN THE 21ST CENTURY
  - FA 237 CONFLICT MANAGEMENT, NEGOTIATION, AND CLIENT RELATIONS
  - FA 241 WORKPLACE ENGAGEMENT AND COMMITMENT: HOW TO MOTIVATE EMPLOYEES
  - FA 300 PROJECT MANAGEMENT
  - FA 340 IMPLEMENTING CORPORATE TRAINING PROGRAMS
  - FA 363 ACHIEVING WORK AND LIFE GOALS
  - FA 390 DIVERSITY: IN AND BEYOND THE WORK PLACE
  - HC 102 HOLIDAY ECONOMICS
  - HC 141 COACHING FOR PERSONAL DEVELOPMENT AND PROFESSIONAL EFFECTIVENESS
  - HC 171 ORGANIZATIONAL CULTURE IN ACTION
  - HC 178 GENDER AT WORK
  - HC 217 HIP HOP AND THE POLITICS OF DIFFERENCE
  - HC 246 LANGUAGE AND LANDSCAPE
  - HC 299 ASSESSING AND MANAGING CONFLICT
  - HC 302 ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD
  - HC 344 INTERNATIONAL RELATIONS: A CROSS-CULTURAL PERSPECTIVE
  - SW 262 THE HAPPINESS PROJECT
  - SW 295 SUCCESSFUL INTERVIEWING
- LL 300 RESEARCH SEMINAR
- LL 302 EXTERNSHIP
Liberal Learning Area

The Liberal Learning Area consists of 26 competencies in 4 categories. Competencies are satisfied by DePaul courses, approved transfer courses and documented learning experience. Most SNL courses fill two competency requirements. Required courses and competencies are listed below:

Arts & Ideas Category:
- Communications course from DePaul or SNL
- Professional Business Writing course from DePaul
- Business Ethics Course from DePaul or SNL
- 3 SNL Arts and Ideas competencies

Human Community Category:
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- 3 SNL Human Community competencies

Scientific World Category:
- MAT 135 BUSINESS CALCULUS I
- IT 223 DATA ANALYSIS
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- 3 SNL Scientific World competencies

Elective Category:
- MKT 202 QUANTITATIVE METHODS IN MARKETING
- 3 Business Electives
- 3 Open Electives
- 2 SNL Advanced Electives

Focus Area

The Focus Area consists of 12 competencies satisfied through 9 Business courses and the SNL Advanced Project course:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT
- FIN 290 FINANCE FOR NON-BUSINESS MAJORS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- ICS 394 ENTREPRENEURSHIP STRATEGY
- FA 303 INDEPENDENT ADVANCED PROJECT
  or FA 304 ADVANCED PROJECT COURSE

Geography (BA)

Geographers examine the spatial relationships between people, places, environments and economies using innovative conceptual and technological approaches. Exciting technological changes, from computer mapping software like Google Earth, to satellite image processing, and global positioning systems (GPS), make geography
a fascinating discipline to study. DePaul's geographers share a commitment to 'hands on' teaching and research that makes a world of difference for the people, places, environments and processes that we study. Geographers apply methods such as observation, visualization, analysis, and modeling to explain the spatial organization of human and physical environments. Geographical perspectives foster skills that have broad applications in public policy, research and the private sector. The Department of Geography teaches students to reason spatially by applying geographic techniques and information technologies, including new technologies such as Geographic Information Systems (GIS). This helps students produce sophisticated understandings of the world, its people, environments, economic structures and cultures.

Geospatial analysis and Geographic Information Systems (GIS) is a rapidly-growing multi-billion dollar industry. Geotechnology was named by the U.S. Bureau of Labor as a “hot” area for job growth in both 2005 and 2010 and it is estimated that over the next ten years, demand for geospatial analysts will exceed supply as the geospatial technology industry grows to ten times the size of the video games industry. Geography holds a comparative advantage as a discipline that straddles fields in the social and natural science disciplines and, as a result, Geography has courses in every DePaul learning domain. This breadth of courses makes Geography the ideal double major at DePaul and the range of classes offered means that geography is an exceptional foundation for a variety of careers that explore questions of spatial organization and require regional knowledge. The study of geography builds a unique spatial perspective that sits at the intersection of "natural" and "social" science, and it addresses both "human" and "physical" domains of knowledge, examining the interactions between them through space.

**Learning Outcomes**

Students will be able to:

- Define and describe the fundamental quality of the spatiality of phenomena and analyze that characteristic using either qualitative or quantitative methodologies and communicate the results of that analysis clearly in speech and writing.
- Formulate a cogent research question about the spatial character of a physical, socio-cultural, or environment-society phenomenon and express that question in the form of a research plan or proposal.
- Collect, identify and apply spatial data in either primary (including field work), or secondary sources.
- Interpret spatial patterns of economic inequalities and their relation to built and natural environments.
- Explain the structure of spatial linkages, or the processes that may tie, for example, local action to global effect.
  - Analyze these linkages.
  - Communicate the results of that analysis clearly in speech and writing.
- Interpret how socio-cultural, political, economic or environmental phenomena may construct a “space,” a “place,” a “landscape,” a “location,” or a “region” as a complex material or symbolic structure.
  - Analyze these phenomena.
  - Communicate the results of that analysis clearly in speech and writing.
- Use with competence one or more of the several geotechnologies (i.e. remote sensing, geographical information systems, etc.) and articulate effectively the results of that use in speech, text, image, or map.
- Articulate in speech and writing the significance and application of the society-space and nature- society dialectics to environmental change.
- Describe and differentiate processes of globalization and their effects on regions, physical systems, cultures, and political divisions
  - Demonstrate that understanding in speech and writing.
- Exhibit a range of practical and communication skills, including but not limited to:
  - Conducting independent research and writing.
  - Conducting research and writing as part of a team.
  - Conducting research and analysis for a community client or other third party.
  - Engaging in critical and analytical thinking.
  - Creating and delivering a presentation.
  - Writing a 10-page research paper or compiling a scholarly poster.
College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (MLO) of the Liberal Studies Program (see “Special Programs”).

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college.
Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

• LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

• LSP 112 FOCAL POINT SEMINAR

Writing

• WRD 103 COMPOSITION AND RHETORIC I *
• WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

• LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
• LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

• LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

• Required

Senior Year

Capstone

• GEO 300 GEOGRAPHICAL INQUIRY * [See Note Below]

Learning Domains

Arts and Literature (AL)
Major Requirements

Core Requirements

- GEO 101 ENVIRONMENTAL GEOGRAPHY
- GEO 103 URBANIZATION
- GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
- GEO 299 THE NATURE OF GEOGRAPHY
Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Standard; Urban Development and Planning; GIS and Geotechnology; or Nature-Society Studies.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Standard
- Urban Development and Planning
- GIS and Geotechnology
- Nature-Society Studies

Standard Concentration

Course Requirements

Choose seven courses from the following list (at least one course must be at the 300-level):

- GEO 133 URBAN GEOGRAPHY - EXPERIENTIAL LEARNING
- GEO 172 CULTURAL GEOGRAPHY
- GEO 200 SUSTAINABLE URBAN DEVELOPMENT
- GEO 201 GEOPOLITICS
- GEO 204 RELIGIOUS GEOGRAPHY
- GEO 205 URBAN ENVIRONMENTAL JUSTICE
- GEO 210 ENVIRONMENTAL CONSERVATION
- GEO 215 INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY
- GEO 220 OCEANOGRAPHY
- GEO 225 WEATHER AND CLIMATE
- GEO 230 SUSTAINABLE URBAN TRANSPORTATION
- GEO 233 COMPARATIVE URBANISM
- GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
- GEO 243 REMOTE SENSING
- GEO 260 GLOBALIZATION AND RESOURCES
- GEO 266 THE WORLD ECONOMY
- GEO 269 POLITICAL ECOLOGY
- GEO 310 GREEN INFRASTRUCTURE
- GEO 316 THE EUROPEAN UNION
- GEO 331 CHICAGO: SPATIAL ANATOMY OF A METROPOLIS
- GEO 333 URBAN PLANNING
- GEO 334 URBAN/CITY DESIGN
- GEO 339 TOPICS IN ARCHITECTURE AND URBANISM
- GEO 340 PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS
- GEO 343 REMOTE SENSING II
- GEO 344 GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY
GIS and Geotechnology Concentration

Course Requirements

Concentration Core

Choose 5 courses from the following, at least one of which must be at the 300-level:

- GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
- GEO 243 REMOTE SENSING
- GEO 340 PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS
- GEO 343 REMOTE SENSING II
- GEO 344 GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY
- GEO 345 PROGRAMMING IN PYTHON FOR GIS
- GEO 346 HEALTH GIS
- GEO 391 STATISTICAL DATA ANALYSIS FOR GIS

Systematic Surveys and Seminars

Choose any two other Geography courses:

- GEO 133 URBAN GEOGRAPHY - EXPERIENTIAL LEARNING
- GEO 172 CULTURAL GEOGRAPHY
- GEO 200 SUSTAINABLE URBAN DEVELOPMENT
- GEO 205 URBAN ENVIRONMENTAL JUSTICE
- GEO 215 INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY
- GEO 230 SUSTAINABLE URBAN TRANSPORTATION
- GEO 233 COMPARATIVE URBANISM
- GEO 260 GLOBALIZATION AND RESOURCES
- GEO 266 THE WORLD ECONOMY
- GEO 269 POLITICAL ECOLOGY
- GEO 310 GREEN INFRASTRUCTURE
- GEO 333 URBAN PLANNING
- Any Geography course in consultation with the student's advisor.

Courses not taken from those listed in the GIS and Geotechnology Concentration Core may be taken to fulfill the Systematic Surveys and Seminars requirement.

Supporting Fields

Five courses selected from course offerings in Anthropology, History of Art and Architecture, Economics, Environmental Sciences, Geography, History, International Studies, Political Science, Public Policy Studies, Real Estate, Sociology, Women's and Gender Studies, and any other discipline or program selected in consultation with the student's advisor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Nature-Society Studies Concentration

Course Requirements

Concentration Core

- GEO 210 ENVIRONMENTAL CONSERVATION
- GEO 269 POLITICAL ECOLOGY
- GEO 211 BIOGEOGRAPHY or GEO 220 OCEANOGRAPHY or GEO 225 WEATHER AND CLIMATE

Two courses from the following list (at least one course must be at 300-level):

- GEO 133 URBAN GEOGRAPHY - EXPERIENTIAL LEARNING
- GEO 200 SUSTAINABLE URBAN DEVELOPMENT
- GEO 205 URBAN ENVIRONMENTAL JUSTICE
- GEO 230 SUSTAINABLE URBAN TRANSPORTATION
- GEO 260 GLOBALIZATION AND RESOURCES
- GEO 310 GREEN INFRASTRUCTURE
- GEO 230 SUSTAINABLE URBAN TRANSPORTATION
- GEO 333 URBAN PLANNING
- GEO 334 URBAN/CITY DESIGN
- GEO 350 WORLD OF WINE
- GEO 351 GEOGRAPHY, FOOD AND JUSTICE
- GEO 395 SEMINAR IN SELECTED TOPICS
  Any other Geography course with consent of an advisor (course options not chosen in the "Concentration Core" may be used to meet this requirement).

Methods and Techniques

Choose two courses from the list below:

- GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
- GEO 243 REMOTE SENSING
- GEO 340 PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS
- GEO 343 REMOTE SENSING II
- GEO 344 GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY
- GEO 345 PROGRAMMING IN PYTHON FOR GIS
- GEO 346 HEALTH GIS
- GEO 391 STATISTICAL DATA ANALYSIS FOR GIS

Supporting Fields

- PPS 202 PUBLIC POLICY AND ENVIRONMENTAL ISSUES or ENV 160 IDEAS OF NATURE or ENV 250 APPLIED ECOLOGY or PSC 349 ADVANCED TOPICS IN INTERNATIONAL RELATIONS: GLOBAL ENVIRONMENTAL POLITICS
- GEO 215 INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY or GEO 266 THE WORLD ECONOMY

Plus three additional environment-themed courses selected with advisor consent from offerings in Anthropology, History of Art and Architecture, Economics, Environmental Science, Geography, History, International Studies, Political Science, Public Policy Studies, Sociology, Women's and Gender Studies, and any other discipline or program selected in consultation with the student's advisor.
Urban Development and Planning Concentration

Course Requirements

Concentration Core

Choose five courses from the following (at least one must be at the 300-level)

- GEO 133 URBAN GEOGRAPHY - EXPERIENTIAL LEARNING
- GEO 200 SUSTAINABLE URBAN DEVELOPMENT
- GEO 205 URBAN ENVIRONMENTAL JUSTICE
- GEO 230 SUSTAINABLE URBAN TRANSPORTATION
- GEO 233 COMPARATIVE URBANISM
- GEO 310 GREEN INFRASTRUCTURE
- GEO 331 CHICAGO: SPATIAL ANATOMY OF A METROPOLIS
- GEO 333 URBAN PLANNING
- GEO 334 URBAN/CITY DESIGN
- GEO 339 TOPICS IN ARCHITECTURE AND URBANISM

Methods and Techniques

Choose two courses from the following list:

- GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
- GEO 243 REMOTE SENSING
- GEO 340 PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS
- GEO 343 REMOTE SENSING II
- GEO 344 GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY
- GEO 345 PROGRAMMING IN PYTHON FOR GIS
- GEO 346 HEALTH GIS
- GEO 391 STATISTICAL DATA ANALYSIS FOR GIS

Supporting Fields

Choose five courses, one of which must be ECO 101, 105 or 106; and either GEO 215 or 266:

- ECO 101 INTRODUCTION TO ECONOMIC ISSUES or ECO 105 PRINCIPLES OF MICROECONOMICS or ECO 106 PRINCIPLES OF MACROECONOMICS
- GEO 215 INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY or GEO 266 THE WORLD ECONOMY
- Three urban-related courses selected from course offerings in Anthropology, Environmental Sciences, Geography, History, History of Art and Architecture, Political Science, Public Policy Studies, Real Estate, Sociology, Women's and Gender Studies, or any other discipline or program selected in consultation with the student's advisor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Geography (BA)/ Secondary Education Social Science (MEd)

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 412 THE NATURE OF HISTORY AND THE SOCIAL SCIENCES
- TCH 422 INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY

Social Science Content Area (grades of C or better required for licensure):

The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS
- HST 299 CRAFT OF HISTORY
- 3 United States History courses
- 2 Non- United States History courses
- 6 from the geography major

Additional licensure requirements: (one course in each area required)

- Economics (ECO 101 recommended)
- Political Science (PSC 120 recommended)
- Psychology (PSY 105 recommended)
- Sociology (SOC 101 recommended)
- Anthropology (ANT 102 recommended)

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Social Sciences at the 6th-12th grade levels.

A full description of the Program can be found on the College of Education website in the graduate course catalog. Students interested in the Program should consult with the designated TEACH Program advisor in their home department.
Geography (Minor)

In the Geography minor program you can explore spatial relationships at the local, regional, national and global scales. From learning how to apply methods such as GIS data visualization and analyses, to urban development and planning, and international environmental, geopolitical and economic policies and processes, the six course Geography minor offers students an introduction to this dynamic and exciting discipline.

Course Requirements

- Any six Geography courses, selected with the approval of the student’s Geography faculty advisor.

A student completing a Geography minor is eligible to simultaneously complete a GIS Certificate. No more than 3 Geography minor courses can be applied to a GIS Certificate. A student wishing to complete a Geography minor and a GIS Certificate will complete a minimum of 8 Geography courses. Please see a faculty advisor in the Department of Geography for further details. Students majoring in Geography (BA) or minoring in Geography Nature-Society Studies or Urban Geography and Planning are restricted from earning this minor.

Geography Nature-Society Studies (Minor)

The minor in Geography Nature-Society Studies offers an overview of how earth’s physical landscape is impacted by humans and natural phenomena, including urban encroachment, climate change and geopolitical decisions.

Course Requirements

- GEO 101 ENVIRONMENTAL GEOGRAPHY
- GEO 210 ENVIRONMENTAL CONSERVATION
- And an additional four courses selected from the following list:
  - GEO 200 SUSTAINABLE URBAN DEVELOPMENT
  - GEO 201 GEOPOLITICS
  - GEO 205 URBAN ENVIRONMENTAL JUSTICE
  - GEO 220 OCEANOGRAPHY
  - GEO 225 WEATHER AND CLIMATE
  - GEO 230 SUSTAINABLE URBAN TRANSPORTATION
  - GEO 241 GEOGRAPHIC INFORMATION SYSTEMS I
  - GEO 243 REMOTE SENSING
  - GEO 260 GLOBALIZATION AND RESOURCES
  - GEO 266 THE WORLD ECONOMY
  - GEO 269 POLITICAL ECOLOGY
  - GEO 299 THE NATURE OF GEOGRAPHY
  - GEO 310 GREEN INFRASTRUCTURE
  - GEO 351 GEOGRAPHY, FOOD AND JUSTICE

Courses should be selected with the consent of the student’s Geography faculty advisor.

A student completing a Geography Nature-Society Studies minor is eligible to simultaneously complete a GIS Certificate. Only GEO 241 and/or GEO 243 from the Nature-Society Studies minor can be applied to a GIS Certificate. A student wishing to complete a Geography Nature-Society Studies minor and a GIS Certificate will complete a minimum of 9 Geography courses. Please see a faculty advisor in the Department of Geography for further details. Students majoring in Geography (BA) or minoring in Geography or Urban Geography and Planning are restricted from earning this minor.
German (BA)

In DePaul’s German program, students will study German language, literature and culture. With more than 100 million speakers worldwide, German is also the most widely spoken first language in the European Union. Having the ability to communicate in German will provide students with career opportunities around the world.

As German majors, students will take courses in:

- Cinema
- Culture
- History
- Language
- Literature
- Poetry
- Translation

Students are encouraged to participate in DePaul’s Study Abroad program in Bonn, Germany, in order to grow linguistically and expand their cultural understanding of German-speaking societies.

Chicago is a culturally diverse city, providing many opportunities to attend German lectures and festivals, dine out at German restaurants and watch German films.

Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information
  - Express feelings and emotions.
  - Exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.
College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
- or LSP 111 EXPLORE CHICAGO

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- Required *

Learning Domains

Arts and Literature (AL)

- 1 Course Required

Philosophical Inquiry (PI)
• 2 Courses Required

Scientific Inquiry (SI)

• 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

• 3 Courses Required

Religious Dimensions (RD)

• 2 Courses Required

Understanding the Past (UP)

• 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

• GER 201 ADVANCED COMMUNICATION I
• GER 202 ADVANCED COMMUNICATION II
• GER 203 ADVANCED COMMUNICATION III
• Eight 300-level GER courses

Students who begin their study of German at DePaul with GER 202 or higher may substitute a 300-level German elective course for any of the required 200-level courses.
German (Minor)

The German minor at DePaul University provides students with a basic linguistic and cultural background, develops their creative and critical thinking skills and helps to prepare them for a career in a multicultural, global world.

The minor consists of a total of 5 courses in German language at the 200/300-level.

Students majoring in German (BA) or minoring in German Studies are restricted from earning this minor.

German Studies (Minor)

The German Studies minor offers a basic proficiency in the German language along with a more in-depth exploration of the cultural landscape and history of German-speaking nations.

Course Requirements

- Three quarters of college-level German language (at any level).
- HST 222 MODERN GERMANY, 1870-PRESENT
- Four additional courses focusing on the German-speaking world, chosen in consultation with an advisor or faculty member, from the current approved German Studies Allied Course List.

German Studies Allied Course List

Political Science

• PSC 245 FOREIGN POLICIES OF WESTERN EUROPE
• PSC 250 EUROPEAN POLITICS
• PSC 340 THE EUROPEAN UNION

Students majoring in German (BA) or minoring in German are restricted from earning this minor.

Graphic Art (Minor)

Graphic Art is designed to develop artistic skills and abilities in primarily two-dimensional art, which focuses on the following areas: photography, drawing, printmaking, text, digital imaging, web art, the graphic novel, and the artist book and poster.

Course Requirements

• Choose one of the following:
  • ART 101 DIGITAL TOOLS FOR VISUAL THINKERS
  • ART 105 TWO-DIMENSIONAL FOUNDATIONS
  • ART 106 BEGINNING DRAWING
• Choose any two courses from the following list:
  • ART 200 ART & ARTISTS IN CONTEMPORARY CULTURE
  or ART 118 THINKING PHOTOGRAPHY
  • ART 224 BEGINNING DIGITAL PHOTOGRAPHY
  or ART 225 BEGINNING PHOTOGRAPHY
  • ART 229 BEGINNING PRINTMAKING
  or ART 206 INTERMEDIATE DRAWING
• Choose any three courses from the following list.
  • ART 264 TEXT IN THE VISUAL ARTS
  • ART 292 COMMUNITY VIDEO PRODUCTION
  or ART 382 STUDENTS TEACHING ART IN THE ELEMENTARY CLASSROOM
  or ART 383 SERVICE LEARNING IN THE ARTS INTERNSHIP
  • ART 321 INTERMEDIATE DIGITAL PHOTOGRAPHY
  or ART 323 INTERMEDIATE PHOTOGRAPHY
  • ART 324 INTERMEDIATE PRINTMAKING I
  • ART 332 TOPICS IN PHOTOGRAPHIC PRACTICE
  • ART 334 PORTFOLIO
  • ART 348 GRAPHIC ART IN THE PUBLIC REALM
  • ART 358 GRAPHIC ART
  • ART 359 PRINT MEDIA
  • ART 385 WEB ART & DESIGN I
Students majoring in Art, Media, and Design (BA) or minoring in Studio Art or Photography are restricted from earning this minor.

**Graphic Design (BFA)**

The BFA in Graphic Design provides students with the conceptual, formal and technological skills to plan and execute the design of visual communication within many mediums, including print, web, multimedia, exhibition, film and illustration.

</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Demonstrate the principles of graphic design communication showcasing the creative and technical abilities that produce successful graphic design projects in a variety of media.
- Communicate complex ideas in oral and visual terms to diverse audience that includes consideration of race, nation, religion, gender, sex, age and locale.
- Produce a professional graphic design portfolio.
- Exemplify socially responsible design practices in the production of a graphic design portfolio.
- Exemplify visually and conceptually imaginative design projects in a graphic design portfolio.
- Provide historical, multidisciplinary and international perspectives as evidenced in concrete design projects.
- Produce a graphic design portfolio that includes collaborative projects.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 208 hours.

**Degree Requirements**
Students in this degree must meet the following requirements:

- Complete a minimum of 208 credit hours (generally 54 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

**Sample Schedule**

The representation of these course requirements on a year-by-year basis is just a suggestion. Students are free to take these courses in any order they choose, provided they have mastered the course-specific prerequisites.

**First Year**

- GD 105 INTRO TO VISUAL DESIGN
- GD 109 WEB DESIGN TOOLS WORKSHOP *
- GD 150 ILLUSTRATOR WORKSHOP *
- GD 200 GRAPHIC DESIGN I
- GD 230 TYPOGRAPHY

- 2 Open Electives

**Fourth Year**

- GD 340 PUBLICATION DESIGN
- GD 360 ADVERTISING DESIGN
Graphic Design (Minor)

DePaul’s minor in Graphic Design provides a foundation in both traditional and computer-based forms of graphic design with a balanced focus on conceptual, creative and technical skills.

Course Requirements

- GD 105 INTRO TO VISUAL DESIGN
- GD 200 GRAPHIC DESIGN I
- GD 300 GRAPHIC DESIGN II
- GD 230 TYPOGRAPHY
- 3 courses from the following list and/or any GD course (at least 1 must be GD)
  - ANI 101 ANIMATION FOR NON-MAJORS
  - ANI 201 ANIMATION I
  - ANI 230 3D DESIGN & MODELING
  - ANI 260 MOTION GRAPHICS
  - ANI 360 ADVANCED MOTION GRAPHICS
  - DC 125 DIGITAL STILL PHOTOGRAPHY FOR NON-MAJORS
  - DC 220 EDITING I
  - DC 225 DIGITAL STILL PHOTOGRAPHY
  - DC 321 PRODUCTION DESIGN
  - DC 376 VISUAL DESIGN
  - ISM 220 INTERACTIVE DESIGN & PROTOTYPING
  - ISM 222 INFORMATION VISUALIZATION
  - ISM 320 ADVANCED PRINCIPLES OF INTERACTIVITY
  - ISM 270 USER-CENTERED WEB DESIGN
  - IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- 2 of the following courses may substitute for 1 course
  - GD 350 PORTFOLIO WORKSHOP
  - GD 150 ILLUSTRATOR WORKSHOP
  - GD 151 PHOTOSHOP WORKSHOP
  - GD 152 INDESIGN WORKSHOP

Students majoring in Graphic Design (BFA) are restricted from earning this minor.

Health (Minor)

The Health minor is designed for education students interested in adding teaching skills in Health to their major course of study, which can lead to a middle school teaching endorsement for teacher candidates.

Course Requirements
Health Sciences (BS)

The mission of DePaul University’s Department of Health Sciences is to educate and train students who will collaboratively address human health from interdisciplinary natural and social scientific perspectives in order to promote health and to improve the lives of individuals and communities.

The Health Sciences major offers concentrations in BioScience and Public Health Studies that will enable future health care professionals to begin this cross-disciplinary conversation even earlier. Each concentration offers tracks that help students focus their interests and prepare for future careers. This degree a) provides students interested in pursuing a career in one of many health-related professions with a common core of knowledge; b) provides a general track in each concentration but also articulates additional tracks that meet requirements for entry into graduate programs; c) provides enough flexibility to enable students to move among those tracks as their interests evolve, and d) brings students headed for multiple health-related professions into on-going conversation with each other.

| Liberal Studies Requirements               | 72 hours |
| Major Requirements                        | 48-52 hours |
| Major Concentration Requirements          | 36-40 hours |
| Open Electives                            | 24-32 hours |
| **Total hours required**                  | **192 hours** |

Major Requirements

Core Course Requirements

- HLTH 201 INTRODUCTION TO HEALTH SCIENCE
- HLTH 202 HEALTH RESEARCH LITERACY
- HLTH 210 INTRODUCTION TO PUBLIC HEALTH (not required for some Accelerated Program concentrations)
- HLTH 350 HEALTH SCIENCES CAPSTONE
- BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS

Concentration Requirements

Students must select a concentration and track within the major and complete the requirements. A maximum of one concentration and one track may be selected. Health Sciences concentrations include BioScience (with tracks in General; Medical; and Pre-nursing) and Public Health Studies (with tracks in General; Health Education; Community Health; and Health Policy and Administration). All majors will also complete one approved health ethics course, which can apply to the Religious Dimensions or Philosophical Inquiry learning domains (REL 229 or PHL 229) within their liberal studies program, or to their track electives in the major (HLTH 229).
Learning Outcomes

Students will be able to:

- Demonstrate effective communication skills and work collaboratively with individuals and populations of varied perspectives.
- Evaluate both natural and social science research as it applies to individual and population health.
- Explain and understand foundational biological principles related to human health.
- Apply the scientific method and evidence-based approaches to human health.
- Identify and analyze ethical issues in research, health, and public health.
- Identify and understand how social determinants influence an individual’s health and create health disparities.
- Identify the core concepts and principles of public health and apply them to the promotion of health and prevention of disease.
- Describe the components of health policy and health care systems both domestically and globally.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major
field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- Not Required for Bioscience Concentration.
- LSP 120 and LSP 121 are required for Public Health Studies

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- Required *

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required
  (See Note Below)
Scientific Inquiry (SI)
• Not Required

Social, Cultural, and Behavioral Inquiry (SCBI)
• 3 Courses Required

Religious Dimensions (RD)
• 2 Courses Required
(See Note Below)

Understanding the Past (UP)
• 2 Courses Required

*Students must earn a C- or better in any courses marked with an asterisk.

Notes
Students must complete one approved health ethics course: REL 229 (RD) or PHL 229 (PI) within their liberal studies program or a track elective in the major, HLTH 229.

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Students with a primary major in Health Sciences are required to complete the Capstone offered by the Health Sciences department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Health Sciences are required to complete the Capstone offered by the Health Sciences department. Health Sciences students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy (for Public Health Studies only)

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required.

Concentration Requirements

Concentrations provide an opportunity for students to narrow the focus of their major. In addition to the college core requirements, liberal studies requirements and major requirements, student are required to choose one of the following concentrations.

• BioScience
• BioScience - Accelerated Program
• Public Health Studies
Public Health Studies Concentration

Course Requirements

- One Statistics course selected from
  - BIO 206 BIOSTATISTICS
  - MAT 242 ELEMENTS OF STATISTICS
  - PSY 240 STATISTICS I
  - SOC 279 INTRO STATS FOR THE SOCIAL SCIENCES
- HLTH 194 HUMAN PATHOGENS AND DEFENSE
- HLTH 195 HUMAN FORM AND FUNCTION
- PSY 106 INTRODUCTORY PSYCHOLOGY II
- HLTH 310 FUNDAMENTALS OF EPIDEMIOLOGY
- SOC 351 HEALTH DISPARITIES
- CMNS 315 HEALTH COMMUNICATION
- ANT 272 INTRODUCTION TO MEDICAL ANTHROPOLOGY

Track Requirements

Students in the Public Health Studies concentration must select and complete the requirements of one of the following tracks: General, Health Education, Community Health, or Health Policy and Administration.

General Public Health Studies Track

- Choose eight courses from the following
  - HLTH 229 ETHICS FOR HEALTH SCIENCES
  - HLTH 230 FUNDAMENTALS OF HEALTH EDUCATION
  - HLTH 236 GAY MEN’S HEALTH MATTERS
  - HLTH 250 HEALTH CARE POLICY IN THE UNITED STATES
  - HLTH 315 MATERNAL AND CHILD HEALTH
  - HLTH 329 HEALTH HUMANITIES
  - HLTH 330 HEALTH LEADERSHIP
  - HLTH 341 DEATH AND DYING
  - HLTH 380 TOPICS IN HEALTH SCIENCES
  - HLTH 399 INDEPENDENT STUDY
  - ANT 360 ISSUES IN GLOBAL HEALTH
  - SOC 365 HEALTH AND GLOBALIZATION
  - ENV 355 INTRODUCTION TO ENVIRONMENTAL HEALTH

- At most one from:
  - ORGC 212 SMALL GROUP COMMUNICATION
  - ORGC 251 ORGANIZATIONAL COMMUNICATION

  - PSY 364 HEALTH PSYCHOLOGY
  - SOC 223 SOCIOLOGY OF HEALTH AND ILLNESS
  - SOC 321 HEALTH AND HUMAN SERVICE ORGANIZATIONS

**Community Health Track**

- ANT 360 ISSUES IN GLOBAL HEALTH
  or SOC 365 HEALTH AND GLOBALIZATION
- Choose one from the following:
  - ORGC 212 SMALL GROUP COMMUNICATION
  - ORGC 251 ORGANIZATIONAL COMMUNICATION
  - PSY 355 GROUPS AND ORGANIZATIONS
  - SOC 342 ORGANIZATIONAL DYNAMICS
- PSY 354 COMMUNITY PSYCHOLOGY
- HLTH 335 COMMUNITY HEALTH ASSESSMENT
or PSY 356 PRINCIPLES OF FIELD RESEARCH AND ACTION
• PSY 345 CULTURAL ISSUES IN PSYCHOLOGY
• SOC 373 PUBLIC HEALTH AND HIGH RISK BEHAVIOR

Choose two from the following:
  o ENV 355 INTRODUCTION TO ENVIRONMENTAL HEALTH
  o HLTH 229 ETHICS FOR HEALTH SCIENCES
  o HLTH 230 FUNDAMENTALS OF HEALTH EDUCATION
  o HLTH 236 GAY MEN'S HEALTH MATTERS
  o HLTH 250 HEALTH CARE POLICY IN THE UNITED STATES
  o HLTH 315 MATERNAL AND CHILD HEALTH
  o HLTH 329 HEALTH HUMANITIES
  o HLTH 330 HEALTH LEADERSHIP
  o HLTH 336 PROGRAM EVALUATION
  o HLTH 341 DEATH AND DYING
  o HLTH 380 TOPICS IN HEALTH SCIENCES
  o HLTH 399 INDEPENDENT STUDY
  o ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
    or CMN 104 PUBLIC SPEAKING
  o PE 273 HEALTH AND NUTRITION
    or SOC 370 PEOPLE, PLACES, AND FOOD
  o PRAD 338 HEALTH AND PUBLIC RELATIONS
  o PSY 105 INTRODUCTORY PSYCHOLOGY I
  o PSY 215 HUMAN SEXUALITY
  o At most one from:
    • PSY 302 PERSONAL ADJUSTMENT AND MENTAL HEALTH
    • PSY 353 ABNORMAL PSYCHOLOGY
    • SOC 353 SOCIOLOGY OF MENTAL ILLNESS
  o PSY 241 RESEARCH METHODS I
    or SOC 380 RESEARCH METHODS IN SOCIOLOGY I
  o PSY 242 RESEARCH METHODS II
    or SOC 381 RESEARCH METHODS IN SOCIOLOGY II
  o PSY 363 ALCOHOLISM, DRUG ADDICTION AND RECOVERY
    or SOC 307 SOCIOLOGY OF SUBSTANCE USE AND ABUSE
  o PSY 364 HEALTH PSYCHOLOGY
  o SOC 223 SOCIOLOGY OF HEALTH AND ILLNESS
  o SOC 321 HEALTH AND HUMAN SERVICE ORGANIZATIONS

**Health Policy and Administration Track**

• ANT 360 ISSUES IN GLOBAL HEALTH
  or SOC 365 HEALTH AND GLOBALIZATION

Choose one from the following:
  o ORGC 212 SMALL GROUP COMMUNICATION
  o ORGC 251 ORGANIZATIONAL COMMUNICATION
  o PSY 355 GROUPS AND ORGANIZATIONS
  o SOC 342 ORGANIZATIONAL DYNAMICS

• PRAD 338 HEALTH AND PUBLIC RELATIONS

• PSY 241 RESEARCH METHODS I
  or SOC 380 RESEARCH METHODS IN SOCIOLOGY I

• PSY 242 RESEARCH METHODS II
  or SOC 381 RESEARCH METHODS IN SOCIOLOGY II

• SOC 321 HEALTH AND HUMAN SERVICE ORGANIZATIONS

Choose two from the following:
  o ENV 355 INTRODUCTION TO ENVIRONMENTAL HEALTH
  o HLTH 229 ETHICS FOR HEALTH SCIENCES
  o HLTH 230 FUNDAMENTALS OF HEALTH EDUCATION
  o HLTH 236 GAY MEN'S HEALTH MATTERS
  o HLTH 250 HEALTH CARE POLICY IN THE UNITED STATES
  o HLTH 315 MATERNAL AND CHILD HEALTH
  o HLTH 329 HEALTH HUMANITIES
  o HLTH 330 HEALTH LEADERSHIP
  o HLTH 336 PROGRAM EVALUATION
  o HLTH 341 DEATH AND DYING
  o HLTH 380 TOPICS IN HEALTH SCIENCES
  o HLTH 399 INDEPENDENT STUDY
  o ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
    or CMN 104 PUBLIC SPEAKING
  o PE 273 HEALTH AND NUTRITION
    or SOC 370 PEOPLE, PLACES, AND FOOD
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

BioScience Concentration - Accelerated Program

The Accelerated Program is only for qualified Pathways Honors students who are majoring in the Health Sciences with a BioScience concentration, and who have been accepted into an accelerated 3+ College of Science and Health pre-professional program. In order to pursue one of the pre-professional Accelerated Program tracks, a student must coordinate carefully with the Pre-Health Advisor and Pre-Health Advising Committee’s (PAC) Accelerated Program advisor (email CSHPreHealth@depaul.edu for information). Once accepted to an accelerated program, students may declare one of the concentrations below. There are pre-professional Accelerated Programs in Medicine (3+4), Pathologists’ Assistant (3+2), Pharmacy (3+4), Physical Therapy (3+3), Physician Assistant (3+2), and Podiatry (3+4).

Students formally accepted into an Accelerated Program will complete their fourth year of coursework at their professional school and apply the credit toward their Bachelor of Science in Health Sciences at DePaul. Students must apply for degree conferral via Campus Connect by the deadline outlined in the Student Handbook in order to be considered a candidate for earning their Bachelor of Science degree at the conclusion of their fourth year of study. Depending on the program in question, some Liberal Studies Program courses, Health Sciences major requirements, and open electives will be fulfilled by professional degree courses. To avoid earning duplicate credit for some courses, students must meet regularly with the Pre-Health Advisor and the Health Sciences departmental academic advisor.

Course Requirements

Accelerated BioScience: Pre-Medicine at Rosalind Franklin University of Medicine and Sciences

- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- BIO 210 MICROBIOLOGY
- BIO 206 BIOSTATISTICS
- CHE 130 GENERAL CHEMISTRY I /CHE 131 GENERAL CHEMISTRY I LABORATORY or CHE 140 UNIVERSITY CHEMISTRY I /CHE 141 UNIVERSITY CHEMISTRY LABORATORY I
- CHE 132 GENERAL CHEMISTRY II /CHE 133 GENERAL CHEMISTRY LABORATORY II or CHE 142 UNIVERSITY CHEMISTRY II / CHE 143 UNIVERSITY CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III / CHE 135 GENERAL CHEMISTRY LABORATORY III or CHE 144 UNIVERSITY CHEMISTRY III / CHE 145 UNIVERSITY CHEMISTRY LABORATORY III
- BIO 250 CELL BIOLOGY
- HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A or HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B or BIO 310 VERTEBRATE PHYSIOLOGY
- CHE 230 ORGANIC CHEMISTRY I /CHE 231 ORGANIC CHEMISTRY LABORATORY I
Accelerated BioScience: Pre-Pathologists' Assistant at Rosalind Franklin University of Medicine and Science

- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- BIO 210 MICROBIOLOGY
- BIO 206 BIOSTATISTICS
- CHE 130 GENERAL CHEMISTRY I / CHE 131 GENERAL CHEMISTRY I LABORATORY or CHE 140 UNIVERSITY CHEMISTRY I / CHE 141 UNIVERSITY CHEMISTRY LABORATORY I
- CHE 132 GENERAL CHEMISTRY II / CHE 133 GENERAL CHEMISTRY LABORATORY II or CHE 142 UNIVERSITY CHEMISTRY II / CHE 143 UNIVERSITY CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III / CHE 135 GENERAL CHEMISTRY LABORATORY III or CHE 144 UNIVERSITY CHEMISTRY III / CHE 145 UNIVERSITY CHEMISTRY LABORATORY III
- BIO 250 CELL BIOLOGY
- HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A or HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B or BIO 310 VERTEBRATE PHYSIOLOGY
- Three Health Sciences BioScience Concentration Electives

Accelerated BioScience: Pre-Pharmacy at Rosalind Franklin University of Medicine and Sciences

- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- BIO 210 MICROBIOLOGY
- BIO 206 BIOSTATISTICS
- CHE 130 GENERAL CHEMISTRY I / CHE 131 GENERAL CHEMISTRY I LABORATORY or CHE 140 UNIVERSITY CHEMISTRY I / CHE 141 UNIVERSITY CHEMISTRY LABORATORY I
- CHE 132 GENERAL CHEMISTRY II / CHE 133 GENERAL CHEMISTRY LABORATORY II or CHE 142 UNIVERSITY CHEMISTRY II / CHE 143 UNIVERSITY CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III / CHE 135 GENERAL CHEMISTRY LABORATORY III or CHE 144 UNIVERSITY CHEMISTRY III / CHE 145 UNIVERSITY CHEMISTRY LABORATORY III
- BIO 250 CELL BIOLOGY
- HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A or CHE 310 VERTEBRATE PHYSIOLOGY (BIO 310 cannot be combined with HLTH 301 or HLTH 302)
- CHE 230 ORGANIC CHEMISTRY I / CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II / CHE 233 ORGANIC CHEMISTRY LABORATORY II
- CHE 234 ORGANIC CHEMISTRY III / CHE 235 ORGANIC CHEMISTRY LABORATORY III
- MAT 150 CALCULUS I
- PHY 150 GENERAL PHYSICS I
- PHY 151 GENERAL PHYSICS II
- PHY 152 GENERAL PHYSICS III
- HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B or BIO 201 HUMAN ANATOMY (BIO 201 cannot be combined with HLTH 301 or HLTH 302)
- HLTH 120 EXPLORING THE HEALTH SCIENCES (non-major 2 credit elective)

Accelerated BioScience: Pre-Physical Therapy at Rosalind Franklin University of Medicine and Sciences

- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- BIO 210 MICROBIOLOGY
- BIO 206 BIOSTATISTICS
- CHE 130 GENERAL CHEMISTRY I / CHE 131 GENERAL CHEMISTRY I LABORATORY or CHE 140 UNIVERSITY CHEMISTRY I / CHE 141 UNIVERSITY CHEMISTRY LABORATORY I
- CHE 132 GENERAL CHEMISTRY II / CHE 133 GENERAL CHEMISTRY LABORATORY II or CHE 142 UNIVERSITY CHEMISTRY II / CHE 143 UNIVERSITY CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III / CHE 135 GENERAL CHEMISTRY LABORATORY III or CHE 144 UNIVERSITY CHEMISTRY III / CHE 145 UNIVERSITY CHEMISTRY LABORATORY III
- BIO 250 CELL BIOLOGY
- HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A or BIO 310 VERTEBRATE PHYSIOLOGY (BIO 310 cannot be combined with HLTH 301 or HLTH 302)
- PHY 150 GENERAL PHYSICS I
- PHY 151 GENERAL PHYSICS II
- PHY 152 GENERAL PHYSICS III
- HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B
  or BIO 201 HUMAN ANATOMY (BIO 201 cannot be combined with HLTH 301 or HLTH 302)
- One BioScience Concentration Elective

**Accelerated BioScience: Pre-Physician Assistant at Rosalind Franklin University of Medicine and Sciences**

- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- BIO 210 MICROBIOLOGY
- BIO 206 BIOSTATISTICS
- CHE 130 GENERAL CHEMISTRY I /CHE 131 GENERAL CHEMISTRY I LABORATORY or CHE 140 UNIVERSITY CHEMISTRY I /CHE 141 UNIVERSITY CHEMISTRY LABORATORY I
- CHE 132 GENERAL CHEMISTRY II /CHE 133 GENERAL CHEMISTRY LABORATORY II or CHE 142 UNIVERSITY CHEMISTRY II / CHE 143 UNIVERSITY CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III /CHE 135 GENERAL CHEMISTRY LABORATORY III or CHE 144 UNIVERSITY CHEMISTRY III / CHE 145 UNIVERSITY CHEMISTRY LABORATORY III
- BIO 250 CELL BIOLOGY
- HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A or CHE 310 VERTEBRATE PHYSIOLOGY (BIO 310 cannot be combined with HLTH 301 or HLTH 302)
- CHE 230 ORGANIC CHEMISTRY I /CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II /CHE 233 ORGANIC CHEMISTRY LABORATORY II
- CHE 234 ORGANIC CHEMISTRY III /CHE 235 ORGANIC CHEMISTRY LABORATORY III
- CHE 340 BIOCHEMISTRY I /CHE 341 EXPERIMENTAL BIOCHEMISTRY I
- HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B or BIO 201 HUMAN ANATOMY (BIO 201 cannot be combined with HLTH 301 or HLTH 302)

**Accelerated BioScience: Pre-Podiatry at Dr. William Scholl School of Podiatric Medicine, Rosalind Franklin University of Medicine and Science**

- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- BIO 210 MICROBIOLOGY
- BIO 206 BIOSTATISTICS
- CHE 130 GENERAL CHEMISTRY I /CHE 131 GENERAL CHEMISTRY I LABORATORY or CHE 140 UNIVERSITY CHEMISTRY I /CHE 141 UNIVERSITY CHEMISTRY LABORATORY I
- CHE 132 GENERAL CHEMISTRY II /CHE 133 GENERAL CHEMISTRY LABORATORY II or CHE 142 UNIVERSITY CHEMISTRY II / CHE 143 UNIVERSITY CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III /CHE 135 GENERAL CHEMISTRY LABORATORY III or CHE 144 UNIVERSITY CHEMISTRY III / CHE 145 UNIVERSITY CHEMISTRY LABORATORY III
- BIO 250 CELL BIOLOGY
- HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A or HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B or BIO 310 VERTEBRATE PHYSIOLOGY
- CHE 230 ORGANIC CHEMISTRY I /CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II /CHE 233 ORGANIC CHEMISTRY LABORATORY II
- CHE 234 ORGANIC CHEMISTRY III /CHE 235 ORGANIC CHEMISTRY LABORATORY III
- PHY 150 GENERAL PHYSICS I
- PHY 151 GENERAL PHYSICS II
- PHY 152 GENERAL PHYSICS III

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
BioScience Concentration

Course Requirements

- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- BIO 210 MICROBIOLOGY
- BIO 206 BIOSTATISTICS
- CHE 130 GENERAL CHEMISTRY I /CHE 131 GENERAL CHEMISTRY I LABORATORY
- CHE 132 GENERAL CHEMISTRY II /CHE 133 GENERAL CHEMISTRY LABORATORY II
- CHE 134 GENERAL CHEMISTRY III /CHE 135 GENERAL CHEMISTRY LABORATORY III
- BIO 250 CELL BIOLOGY
- One of the following:
  - HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
  - HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B
  - BIO 310 VERTEBRATE PHYSIOLOGY (cannot be combined with HLTH 301 or 302 in concentration core)

Track Requirements

Students in the BioScience concentration must select and complete the requirements of one of the following tracks: General, Medical, Lab Investigations or Pre-nursing.

General Track

- Select 8 courses from the following:
  - HLTH 229 ETHICS FOR HEALTH SCIENCES
  - One of the following:
    - HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
    - HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B
    - BIO 201 HUMAN ANATOMY (cannot be combined with HLTH 301 or 302 in concentration core)
  - HLTH 320 MOLECULAR VIROLOGY
  - HLTH 315 MATERNAL AND CHILD HEALTH
  - HLTH 329 HEALTH HUMANITIES
  - HLTH 341 DEATH AND DYING
  - HLTH 310 FUNDAMENTALS OF EPIDEMIOLOGY
    or BIO 230 EPIDEMIOLOGY
  - HLTH 380 TOPICS IN HEALTH SCIENCES
  - HLTH 399 INDEPENDENT STUDY
  - ANT 360 ISSUES IN GLOBAL HEALTH
    or SOC 365 HEALTH AND GLOBALIZATION
  - BIO 260 GENETICS
  - BIO 311 HISTOLOGY
  - BIO 330 DEVELOPMENTAL BIOLOGY
  - BIO 339 CELLULAR NEUROBIOLOGY
  - BIO 340 BEHAVIORAL NEUROSCIENCE
  - BIO 347 TOPICS IN MEDICAL BACTERIOLOGY
  - BIO 348 THE BIOLOGY OF INFECTION
  - BIO 355 GENETIC TOXICOLOGY
  - BIO 360 MOLECULAR BIOLOGY
  - BIO 365 PRINCIPLES OF TOXICOLOGY
  - BIO 370 IMMUNOLOGY
  - BIO 375 INTRODUCTION TO PHARMACOLOGY
  - BIO 380 CANCER BIOLOGY
  - BIO 386 INTRODUCTION TO ENDOCRINOLOGY
  - CHE 228 SURVEY OF ORGANIC CHEMISTRY/ CHE 229 SURVEY OF ORGANIC CHEMISTRY LABORATORY or
    CHE 230 ORGANIC CHEMISTRY I /CHE 231 ORGANIC CHEMISTRY LABORATORY I
  - CHE 232 ORGANIC CHEMISTRY II /CHE 233 ORGANIC CHEMISTRY LABORATORY II
  - CHE 234 ORGANIC CHEMISTRY III /CHE 235 ORGANIC CHEMISTRY LABORATORY III
  - CHE 340 BIOCHEMISTRY I /CHE 341 EXPERIMENTAL BIOCHEMISTRY I
    or CHE 346 SURVEY OF BIOCHEMISTRY
  - CHE 342 BIOCHEMISTRY II /CHE 343 EXPERIMENTAL BIOCHEMISTRY II
  - CHE 360 MEDICINAL CHEMISTRY
Medical/ Graduate Track

- CHE 230 ORGANIC CHEMISTRY I /CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II / CHE 233 ORGANIC CHEMISTRY LABORATORY II
- CHE 234 ORGANIC CHEMISTRY III / CHE 235 ORGANIC CHEMISTRY LABORATORY III
- CHE 340 BIOCHEMISTRY I /CHE 341 EXPERIMENTAL BIOCHEMISTRY I
- PHY 150 GENERAL PHYSICS I
- PHY 151 GENERAL PHYSICS II
- PHY 152 GENERAL PHYSICS III
- One of the following:
  - HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
  - HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B
  - BIO 201 HUMAN ANATOMY (cannot be combined with HLTH 301 or 302 in concentration core)

Pre-Nursing Track

- CHE 228 SURVEY OF ORGANIC CHEMISTRY /CHE 229 SURVEY OF ORGANIC CHEMISTRY LABORATORY
- One of the following:
  - HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
  - HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B
  - BIO 201 HUMAN ANATOMY (cannot be combined with HLTH 301 or 302 in concentration core)
- PSY 303 HUMAN DEVELOPMENT
- Choose five from:
  - HLTH 315 MATERNAL AND CHILD HEALTH
  - HLTH 229 ETHICS FOR HEALTH SCIENCES
  - HLTH 320 MOLECULAR VIROLOGY
  - HLTH 341 DEATH AND DYING
  - HLTH 380 TOPICS IN HEALTH SCIENCES
  - HLTH 399 INDEPENDENT STUDY
  - HLTH 310 FUNDAMENTALS OF EPIDEMIOLOGY
  - HLTH 310 FUNDAMENTALS OF EPIDEMIOLOGY
  - BIO 230 EPIDEMIOLOGY
  - ANT 360 ISSUES IN GLOBAL HEALTH
  - BCH 365 HEALTH AND GLOBALIZATION
  - BIO 260 GENETICS
  - BIO 311 HISTOLOGY
  - BIO 330 DEVELOPMENTAL BIOLOGY
  - BIO 339 CELLULAR NEUROBIOLOGY
  - BIO 340 BEHAVIORAL NEUROSCIENCE
  - BIO 347 TOPICS IN MEDICAL BACTERIOLOGY
  - BIO 348 THE BIOLOGY OF INFECTION
  - BIO 355 GENETIC TOXICOLOGY
  - BIO 360 MOLECULAR BIOLOGY
  - BIO 365 PRINCIPLES OF TOXICOLOGY
  - BIO 370 IMMUNOBIOLOGY
  - BIO 375 INTRODUCTION TO PHARMACOLOGY
  - BIO 380 CANCER BIOLOGY
  - BIO 386 INTRODUCTION TO ENDOCRINOLOGY
  - CHE 232 ORGANIC CHEMISTRY II / CHE 233 ORGANIC CHEMISTRY LABORATORY II
  - CHE 234 ORGANIC CHEMISTRY III / CHE 235 ORGANIC CHEMISTRY LABORATORY III
  - CHE 340 BIOCHEMISTRY I I I /CHE 341 EXPERIMENTAL BIOCHEMISTRY I
  - CHE 346 PRINCIPLES OF BIOCHEMISTRY
Lab Investigations Track

- CHE 230 ORGANIC CHEMISTRY I /CHE 231 ORGANIC CHEMISTRY LABORATORY I
- CHE 232 ORGANIC CHEMISTRY II /CHE 233 ORGANIC CHEMISTRY LABORATORY II
- CHE 234 ORGANIC CHEMISTRY III /CHE 235 ORGANIC CHEMISTRY LABORATORY III
- BIO 260 GENETICS
- BIO 311 HISTOLOGY
- BIO 360 MOLECULAR BIOLOGY
- Select two from the following:
  - HLTH 229 ETHICS FOR HEALTH SCIENCES
  - HLTH 320 MOLECULAR VIROLOGY
  - HLTH 380 TOPICS IN HEALTH SCIENCES
  - HLTH 399 INDEPENDENT STUDY
  - HLTH 310 FUNDAMENTALS OF EPIDEMIOLOGY
  - or BIO 230 EPIDEMIOLOGY
  - One of the following:
    - HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
    - HLTH 302 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B
    - BIO 201 HUMAN ANATOMY (cannot be combined with HLTH 301 or 302 in concentration core)
  - ANT 360 ISSUES IN GLOBAL HEALTH
  - or SOC 365 HEALTH AND GLOBALIZATION
  - BIO 330 DEVELOPMENTAL BIOLOGY
  - BIO 339 CELLULAR NEUROBIOLOGY
  - BIO 340 BEHAVIORAL NEUROSCIENCE
  - BIO 347 TOPICS IN MEDICAL BACTERIOLOGY
  - BIO 348 THE BIOLOGY OF INFECTION
  - BIO 355 GENETIC TOXICOLOGY
  - BIO 365 PRINCIPLES OF TOXICOLOGY
  - BIO 370 IMMUNOBIOLOGY
  - BIO 375 INTRODUCTION TO PHARMACOLOGY
  - BIO 380 CANCER BIOLOGY
  - BIO 386 INTRODUCTION TO ENDOCRINOLOGY
  - CHE 346 SURVEY OF BIOCHEMISTRY
  - or CHE 340 BIOCHEMISTRY I/CHE 341 EXPERIMENTAL BIOCHEMISTRY I
  - CHE 342 BIOCHEMISTRY II /CHE 343 EXPERIMENTAL BIOCHEMISTRY II
  - CHE 360 MEDICINAL CHEMISTRY
  - CHE 362 DRUGS AND TOXICOLOGY
  - CHE 364 NUTRITION
  - CMNS 315 HEALTH COMMUNICATION
  - ENV 355 INTRODUCTION TO ENVIRONMENTAL HEALTH
  - MAT 150 CALCULUS I
  - MAT 151 CALCULUS II
  - MAT 152 CALCULUS III
  - PE 273 HEALTH AND NUTRITION
  - PHY 150 GENERAL PHYSICS I
  - PHY 151 GENERAL PHYSICS II
  - PHY 152 GENERAL PHYSICS III
  - PSY 105 INTRODUCTORY PSYCHOLOGY I
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor's/ Master's Programs

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Health Sciences (BS)/ Health Communication (MA)

The BS in Health Sciences and MA in Health Communication is a combined degree offered through the College of Science and Health and the College of Communication.

Students with junior status who have earned at least a 3.5 GPA in their Health Sciences courses, have earned at least a 3.0 cumulative GPA, and have successfully completed three 300 level courses in the Public Health Studies or BioScience major curriculum in Health Sciences may apply for the combined BS Health Sciences/MA Health Communication program. Applicants must submit the following to the Graduate Admission office by June 1 (priority deadline): Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in Health Sciences and/or College of Communication.

Students in Health Sciences will take all of the required courses for the undergraduate major. During their senior year, students in this program take a maximum of twelve graduate credit hours as three Health Communication courses; these graduate courses apply toward both undergraduate Health Sciences and graduate Health Communication requirements. Students are strongly encouraged to take HTHC 515 and two HTHC electives during their senior year. In the Public Health Studies concentration, HTHC 515 INTRO TO HEALTH COMMUNICATION can replace CMNS 315 HEALTH COMMUNICATION. In BioScience, HTHC 515 INTRO TO HEALTH COMMUNICATION will count as an elective in the major. The other two graduate courses will count as either major electives or open electives for either concentration.

Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the minimum grade requirement, they will not be allowed to continue as a graduate student in the program.

Students can defer their graduate admission for one year after they earn their BS. If students do not matriculate after completing their BS degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Because this program requires careful planning of courses, students in their sophomore year are encouraged to work with the Health Sciences academic advisor in the College of Science and Health and a graduate advisor in
the College of Communication.

While students are enrolled as undergraduates in the College of Science and Health, they must apply for undergraduate degree conferral in anticipation of completing their BS in Health Sciences at the conclusion of their fourth year of study. While students are enrolled as graduate students in the College of Communication, they must apply for graduate degree conferral in anticipation of completing their MA.

Health Sciences (BS)/Master of Public Health (MPH)

Interested students may apply to this combined degree program during their junior year at DePaul. The student will need to be a Health Sciences major in the Public Health Studies concentration with a minimum cumulative GPA of 3.5. Application to the Master of Public Health program includes several personal statement essays and a current CV. The GRE requirement will be waived. Students must present a plan for their remaining quarters at DePaul to confirm that they can complete all degree requirements.

This combined program maintains the rigor and value of both the undergraduate degree in Health Sciences from the College of Science and Health and the Master of Public Health from the College of Liberal Arts and Social Sciences, so that students are earning exceptional training at both the undergraduate and graduate level. The advantage to this program is that students can earn their BS in Health Sciences degree and an MPH in as few as five years.

In year four, accepted students take undergraduate courses toward the BS, graduate courses toward the MPH, and graduate courses that will count toward both degrees. The student will be awarded the BS at the end of the fourth year. The fifth year will solely consist of courses for the MPH.

Because this program requires careful planning of courses, students in their sophomore year are encouraged to work with the Health Sciences academic advisor in the College of Science and Health and a faculty advisor from the MPH program in the College of Liberal Arts and Social Sciences.

While students are enrolled as undergraduates in the College of Science and Health, they must apply for undergraduate degree conferral in anticipation of completing their BS in Health Sciences at the conclusion of their fourth year of study. While students are enrolled as graduate students in the College of Liberal Arts and Social Sciences, they must apply for graduate degree conferral in anticipation of completing their MPH.

In the event that they are not accepted into the MPH program, students would take the remaining requirements in their fourth year to earn the BS in Health Sciences. They are then encouraged to apply for the MPH program as a traditional applicant.

The MPH curriculum will be completed in its entirety and is unaltered by this program.

The following courses in the BS Health Sciences/Public Health Studies curriculum will be replaced by graduate level courses:

<table>
<thead>
<tr>
<th>Health Science Requirements</th>
<th>MPH Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>One PHS Track Elective</td>
<td>MPH 501 INTRODUCTION TO PUBLIC HEALTH</td>
</tr>
<tr>
<td>HLTH 310 Fundamentals of Epidemiology</td>
<td>MPH 502 INTRODUCTION TO EPIDEMIOLOGY</td>
</tr>
<tr>
<td>SOC 373 Public Health &amp; High Risk Behavior (PHS Track Elective)</td>
<td>MPH 511 HEALTH AND BEHAVIOR THEORY</td>
</tr>
<tr>
<td>Health Ethics course</td>
<td>MPH 515 PUBLIC HEALTH ETHICS AND POLICY</td>
</tr>
<tr>
<td>Statistics course</td>
<td>MPH 541 BIOSTATISTICS</td>
</tr>
</tbody>
</table>

A sample course plan for years 4 and 5 would be as follows:

**Year 4**
Autumn | December | Winter | Spring
HLTH 350 (major core) | MPH 515 | Concentration elective | Concentration elective
Concentration elective | Concentration elective | Open elective
MPH 501 | MPH 511 / PSY 511 | MPH 502 | MPH 600 *
MPH 541 | MPH 600 * | MPH 600 *
MPH 600 *

* MPH 600 is a zero credit class taken each quarter of the 1st year of MPH

Year 5

Autumn | December | Winter | Spring
MPH 513 | MPH elective | MPH 603 (practicum) | MPH 604 (practicum)
MPH 602 (practicum) | MPH 525 | MPH 503
MPH 699 ** | MPH 699 **

**MPH 699 is a zero credit course taken each quarter of the 2nd year of MPH

Unique to this combined program only, a maximum of five courses as 20 quarter hours may be applied toward both the BS in Health Sciences and toward the MPH. Courses in **bold** are those which apply toward both the BS and MPH. All other graduate courses count solely towards MPH.

If the student is admitted and has completed some MPH coursework, but decides not to complete the MPH, then completed MPH courses will count toward the undergraduate degree and any remaining Health Sciences courses will be finished at the undergraduate level.

Students will also be carefully advised as to the financial implications of this program as the timing of courses affects when students would be counted as graduate students for purposes of tuition and eligibility for financial aid. Students will be considered graduate students for tuition-purposes beginning in Spring Quarter of the fourth year. During that quarter, the student will take two undergraduate courses on a per-credit basis (concentration elective and open elective) and graduate courses (MPH 522, MPH 512, MPH 600). Once the undergraduate degree is conferred at the end of Spring Quarter of the fourth year, then the student is eligible for the Double Demon Scholarship - see DePaul's Scholarship website for details. Students will also be told that if they already have a significant scholarship as an undergraduate, they can finish out the regular four-year BS academic program and then apply for the regular two-year MPH program.

Health Sciences (BS)/Generalist Nursing (MS) Master's Entry to Nursing Practice

Sophomore Health Sciences students in the Bioscience concentration with a minimum cumulative GPA of 3.20 will have a streamlined application process into the Generalist Nursing program, also known as the Master's Entry to Nursing Practice (MENP) program. Students will submit an application and personal statement only (GRE is not required for this particular combined program) to the nursing advisor on the Pre-health Advising Committee (PAC). The nursing PAC advisor will forward the information to the School of Nursing's admissions committee for expedited review. The application review will include the nursing PAC advisor's review of courses, a developed plan for the student's third year at DePaul to confirm that he/she could complete all outlined Health Sciences requirements by the end of the third year, and a plan for a fourth year in Health Sciences in the event that the student is not accepted into the School of Nursing. The student is responsible for completing and submitting all appropriate documents via the nursing PAC advisor. The nursing PAC advisor will maintain contact with accepted students as they complete their third year and transition to taking courses in the School of Nursing during the fourth year.

The Health Sciences advisor will act as the primary advisor for all aspects of the student's undergraduate Health Sciences curriculum. This program leaves little room for error in planning (no open electives, minimal if any transfer credit), so interested students must meet with their advisor as soon as possible to discuss plans. In addition, the Health Sciences advisor will advise students who choose to leave the combined program, to guide them as they complete the necessary coursework for the BS in Health Sciences - and graduate in four years. This will require the Health Sciences advisor and the PAC nursing advisor to be in close communication about
the progress of third and fourth year students.

In anticipation of the student completing his/her fourth year of study, the student must apply for undergraduate degree conferral. In the fifth year as an MENP student in the School of Nursing - after the BS has already been awarded - the MENP student will only receive advising from the School of Nursing. In anticipation of completing the MENP program, the student must apply for degree conferral in order to be awarded the MS degree through the School of Nursing.

Courses marked with * count as Health Sciences electives. All other NSG courses in senior year will fulfill open elective requirements. As per current requirements for Health Sciences, at least one RD or PI domain course or track elective must be in biomedical ethics.

History (BA)

As the American Historical Association has noted, "We all interpret and narrate the past, which is to say that we all participate in making history. It is among our most fundamental tools for understanding ourselves and the world around us." The History Department at DePaul University embraces this idea, and is committed to engaging with students, the university, and the wider community in an ongoing effort to understand the past and its varied meanings, the critical and scholarly debates through which we gain such understanding, and the relationship of the past to the problems of the present.

The history program at DePaul combines a breadth of chronological and geographical coverage with the opportunity to develop a concentration in a student's fields of interest. Instruction emphasizes the humanistic as well as the social scientific dimension of the field. One-hundred and two-hundred-level courses (lower division) provide surveys of Asian, African, European, Latin American, North American and World and Comparative History. A main focus of these lower division courses is teaching students how to evaluate primary sources. Three-hundred-level courses (upper division) concentrate on historical debates within specific fields. All courses stress development of research, writing and oral communications skills.

The history major gives students a broad base of knowledge and skills applicable to a variety of careers. Many of our graduates go on to work in the fields of education and law. Others pursue jobs in government and politics;
museums, historical societies, and libraries; and business and commercial ventures. A wide range of employers find that history majors have honed critical analytical and communications skills, making them ideal candidates for positions of requiring responsibility and independent work habits.

### Learning Outcomes

Students will be able to:

- Describe and discuss historical facts, themes, and ideas.
- Identify, analyze, evaluate, and synthesize primary and secondary source evidence.
- Analyze an event, source, idea or person within its historical context.
- Critically evaluate change over time (the idea that the relationship between events over time suggests meanings that might be overlooked if the events were examined in isolation).
- Identify different perspectives on the past, whether those be historical, interpretive, or methodological in nature.
- Conduct research independently using primary and secondary source evidence.
- Express knowledge and reason effectively in writing.

### College Core Requirements

#### Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

#### Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.
The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see “Special Programs”).

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- HST 390 CAPSTONE IN HISTORICAL RESEARCH AND WRITING * [See Note Below]

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- Not Required

* Students must earn a C- or better in this course.

Notes

A student majoring in History (HST) is required to complete the Capstone offered by the History Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HST major in the University Honors Program shall take the University Honors Capstone and the HST Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.
In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

**Major Requirements**

**Course Requirements**

**Core**

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS*
- HST 299 CRAFT OF HISTORY
- HST 390 CAPSTONE IN HISTORICAL RESEARCH AND WRITING

*Important Note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

**Concentration Requirements**

Students must also complete the requirements from one of the following concentrations: standard, pre-law, public history, or secondary-education.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Standard
- Pre-Law
- Public History
- Secondary Education History
Standard Concentration

Course Requirements

Lower Division Courses

In addition to the Common Core, students take 5 courses at the 100 or 200 level. The 100-level indicates that the course examines global history or large regions of the world. The 200-level indicates that the course has a narrower national or thematic focus. Note: HON 102 HISTORY IN GLOBAL CONTEXTS may be counted toward this lower division requirement.

Upper Division Courses

Students take 6 courses at the 300 level. Students must complete a preparatory 300-level "gateway" course before entering into a linked section of HST 390 CAPSTONE IN HISTORICAL RESEARCH AND WRITING with the faculty's permission. The gateway course will count as one of the 6 upper division courses.

One Additional Course

Students will take one additional HST course in either the lower or upper division.

Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

Pre-Law Concentration

Course Requirements

Lower Division Courses

In addition to the Common Core, students take 5 courses at the 100 or 200 level.

Upper Division Courses

- HST 388 THE COURT AND THE U.S. BILL OF RIGHTS
- HST 395 ISSUES IN NON-U.S. LEGAL HISTORY
- Two 300-level HST courses of choice, one of which must be a gateway linked to a HST 390.
- Two courses from the following list:
  - HST 301 U.S. LABOR HISTORY
  - HST 308 EUROPE FROM CONFLICT TO CONSENSUS
  - HST 328 ENGLISH CONSTITUTIONAL HISTORY
  - HST 331 THE NATION AND NATIONALISM IN EUROPE
  - HST 332 FRENCH REVOLUTION AND NAPOLEON
  - HST 335 EUROPE IN AN AGE OF ENLIGHTMENT
  - HST 371 THE AMERICAN REVOLUTION
  - HST 379 RECONSTRUCTION AND THE RISE OF JIM CROW
  - HST 385 UNITED STATES CONSTITUTIONAL HISTORY TO 1865
  - HST 386 UNITED STATES CONSTITUTIONAL HISTORY SINCE 1865
  - Any 300-level HST Topics course with a relevant topic

Additional Course

Students will take one additional HST course in either the lower or upper division.
Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

Public History Concentration

Course Requirements

Lower Division Courses

In addition to the Core courses, students take five courses at the 100- or 200-level.

Upper Division Courses

Six courses from the 300-level. One must be a gateway course linked to HST 390.

One Additional Course

Students will take one additional HST course in either the lower or upper divisions.

Public History Classes

- Of the five lower division and six upper division courses, four must come from the following list:
  - HST 269 MUSEUMS, MATERIAL CULTURE AND MEMORY: INTRODUCTION TO PUBLIC HISTORY
  - HST 360 DOING DIGITAL HISTORY
  - HST 382 CHICAGO HISTORY MUSEUM EXPERIENCE
  - HST 389 TOPICS IN PUBLIC HISTORY
  - HST 391 DOING LOCAL AND COMMUNITY HISTORY
  - HST 392 PUBLIC HISTORY INTERNSHIP
  - HST 396 ORAL HISTORY PROJECT

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Secondary Education History Concentration

Course Requirements

The Secondary Education concentration is intended to be completed as a double major with the College of Education. Please consult a COE advisor for more information.

In order to fulfill the history portion of the double major, here are the required courses:

Lower Division Courses

In addition to the Core, students take five 100- or 200-level courses, including:

- Two courses in the World History Sequence:
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

History (BA)/Journalism (MA)

Students with junior status who have earned a 3.25 GPA in their major courses and 3.0 cumulative GPA are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): BA/MA Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample or project that demonstrates the applicant's ability in journalism, and two letters of recommendation from professors in the History department.

During their senior year students complete 12 graduate credit hours of Journalism coursework which will fulfill undergraduate communication electives and/or open electives. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Students can defer their graduate admission for one year. If students do not matriculate after completing their BA degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

History (BA)/International Studies (MA)

Students with junior status who have earned a 3.5 GPA eligible to apply to the program. During their senior year students complete 12 graduate credit hours of International Studies coursework as well as a thesis preparation course, which may be taken as HST 390 or INT 301.

History (BA)/Secondary Education History (MEd)
The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

Students may apply to the Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
- TCH 412 THE NATURE OF HISTORY AND THE SOCIAL SCIENCES
- TCH 422 INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY

Content Area Requirements for Secondary History Education (grades of C or better required for certification):

The following courses should be completed as part of the history major:

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS (serves as prerequisite for HST 299 & serves as prerequisite for upper division History courses)
- HST 299 CRAFT OF HISTORY
- 4 US History courses
- 4 Non-US History courses

* A minimum of four History courses must be at the upper division level (300-level) with at least one of those courses in non-US History.

Additional licensure requirements which can be taken as liberal studies or open elective requirements (minimum of one course in each discipline required):

- Geography (GEO 101 recommended)
- Economics (ECO 106 recommended)
- Political Science (PSC 120 recommended)
- Sociology (SOC 101 recommended)
- Psychology (PSY 105 recommended)
- Anthropology (ANT 102 recommended)

**History (Minor)**

DePaul's History minor is designed to help students develop a critical understanding of the past, as well as its impact on the present and the future. Students may pick a specific focus area of interest to complement their major.

**Course Requirements**

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS
- Two lower division HST courses (100 or 200 level)
- Two upper division HST courses (300 level)
- One course in either the lower or upper level

Students majoring in History (B.A.) are restricted from earning this minor.
History of Art and Architecture (BA)

The Department of the History of Art and Architecture familiarizes DePaul students with works of art that define civilizations around the world from their emergence to the present day. The study of art is integral to the development of human knowledge and thus consistent with the academic goals of DePaul University as well as a liberal arts education. We extend the Vincentian mission in our particular focus on comparative culture and art in its urban setting. In an increasingly interconnected world, art history encourages a critical engagement with the visual and its role in individual and social formation.

The study of art and architectural history prepares students for a wide variety of careers and post-graduate pursuits. Thus, all of our classes foster critical thinking by developing visual literacy, close reading, persuasive writing, research skills and oral communication. Taking advantage of the rich cultural resources of Chicago through classroom lectures, discussions and site visits to exhibits, museums, and architectural monuments, students come to understand how art is produced and how it operates in its social and historical moment. In more advanced classes, students become well-versed in the nature of the field and its current and traditional theoretical issues. In these classes, too, consideration is given to the professional world, including museums, galleries, cultural institutions, and the global art market.

All of these goals are consistent with our professional aspirations, not only as faculty, but as scholars who distinguish ourselves by the breadth of our geographical and chronological interests and through our record of publishing and professional achievements. Although our approaches vary widely, we are united in our shared interest in the creative, social, and political forces that both determine and emanate from all works of art.

Learning Outcomes

Student will be able to:

- Identify and analyze physical, technical, and conceptual aspects of an object, building, or architectural site.
- Initiate and conduct independent research on art and architecture, making use of library, textual, and primary source materials.
- Discuss and explain, in an in-depth way, the history of art and architecture, including its most compelling theoretical issues, and various ideological approaches.
- Speak and write in a sophisticated way on the diverse cultural, ethnic and gender traditions in the visual arts and architecture.
- Demonstrate a geographically and chronologically broad knowledge of art and architecture sufficient for applying to graduate programs or for entry level work in most professional art contexts, such as museums, galleries, educational and research centers, and publications.
College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Social, Cultural, and Behavioral Inquiry (SCBI)
• 3 Courses Required

Religious Dimensions (RD)
• 2 Courses Required

Understanding the Past (UP)
• 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student majoring in History of Art and Architecture (HAA) is required to complete the Capstone offered by the HAA Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HAA major in the University Honors Program shall take the University Honors Capstone and the HAA Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements
• Two 100-level HAA introductory courses chosen from the following:
  • HAA 101 AFRICAN ART
  • HAA 115 ASIAN ART
  • HAA 130 EUROPEAN ART
  • HAA 145 ARTS OF THE AMERICAS

• Five 200-level HAA courses selected from five categories focused on Asia and the Middle East, Africa and Latin America, Premodern Europe and the Mediterranean to 1453, Early Modern Europe to 1800, and Modern Europe and the U.S. Students must complete one course from each category.
HAA 299 INTRODUCTION TO ART HISTORICAL RESEARCH AND WRITING
Five 300-level HAA courses with one selected from each of the following four categories as well as one additional 300-level class of the student's choice, selected from any category. The categories are Asia, Africa and Latin America, Premodern Europe and the Mediterranean to 1453, Early Modern Europe to 1800, and Modern Europe and the U.S.
One additional HAA course at any level
HAA 390 SENIOR CAPSTONE: ART HISTORICAL THEORY & METHODOLOGY

200-Level Categories

Asia and the Middle East

- HAA 215 CHINESE ART
- HAA 216 JAPANESE ART
- HAA 217 ARTS OF INDIA AND THE HIMALAYAS
- HAA 218 ARTS OF THE SILK ROAD
- HAA 219 JAPANESE FILM ARTS
- HAA 220 BUDDHIST ART
- HAA 222 ISLAMIC ART
- HAA 273 ANIME AND MANGA
- HAA 297 SPECIAL TOPICS IN HISTORY OF ART & ARCHITECTURE

Africa and Latin America

- HAA 201 ANCIENT AFRICAN ART: PREHISTORIC TO THE EUROPEAN ENCOUNTER
- HAA 202 MODERN AFRICAN ART: EUROPEAN ENCOUNTER TO INDEPENDENCE
- HAA 203 CONTEMPORARY AFRICAN ART: INDEPENDENCE TO THE PRESENT
- HAA 243 MAYA ART AND ARCHITECTURE
- HAA 244 ART OF MESOAMERICA
- HAA 245 ART OF THE ANDES
- HAA 246 ART IN THE SPANISH AMERICAN EMPIRE
- HAA 247 MODERN LATIN AMERICAN ART
- HAA 248 MEXICAN ART
- HAA 297 SPECIAL TOPICS IN HISTORY OF ART & ARCHITECTURE

Premodern Europe and the Mediterranean to 1453

- HAA 230 ANCIENT MEDITERRANEAN ART
- HAA 231 EARLY MEDIEVAL ART
- HAA 232 LATE MEDIEVAL ART

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

History of Art and Architecture (Minor)

The minor program helps students develop visual literacy by critically thinking about how art and architecture affect individuals and societies. Students may focus on a particular area of art history or architecture.

Course Requirements

- One course from the following list:
  - HAA 101 AFRICAN ART
History of Law (Minor)

The History of Law minor provides an opportunity for non-history majors to gain a solid introduction to historical study related to law and legal history. This minor will give non-history majors training in basic historical skills and specific knowledge about histories related to criminal justice and law. A History of Law minor provides students with valuable skills that are developed in History courses in addition to the specific content focus on the history and evolution of the law and legal history.

Required: Five History courses

- HST 298 INTRODUCTION TO HISTORICAL SOURCES AND METHODS
- HST 388 THE COURT AND THE U.S. BILL OF RIGHTS
- One history course at any level (must be approved by Director)
- Two courses from the following list:
  - HST 301 U.S. LABOR HISTORY
  - HST 308 EUROPE FROM CONFLICT TO CONSENSUS
  - HST 328 ENGLISH CONSTITUTIONAL HISTORY
  - HST 331 THE NATION AND NATIONALISM IN EUROPE
  - HST 332 FRENCH REVOLUTION AND NAPOLEON
  - HST 335 EUROPE IN AN AGE OF ENLIGHTMENT
  - HST 371 THE AMERICAN REVOLUTION
  - HST 373 THE CIVIL WAR ERA
  - HST 374 EMERGENCE OF MODERN AMERICA, 1877-1914
  - HST 375 THE GREAT DEPRESSION AND THE NEW DEAL ERA
  - HST 379 RECONSTRUCTION AND THE RISE OF JIM CROW
  - HST 385 UNITED STATES CONSTITUTIONAL HISTORY TO 1865
  - HST 386 UNITED STATES CONSTITUTIONAL HISTORY SINCE 1865
  - HST 395 ISSUES IN NON-U.S. LEGAL HISTORY
  - or relevant 300-Level HST topics course, per Director approval.

Hospitality Accounting and Management Information Systems (Minor)

The applied field of hospitality is worldwide in both scale and scope. While many business skills are routinely utilized in the field, the practice of accounting in U.S. hotels and restaurants is different than what is common for other industries. DePaul students are trained in the classic accounting principles that are in compliance with GAAP; however, hospitality firms follow a unique set of GAAP standards that have been customized for the
hospitality industry. Students wishing to prepare for comptroller and related accounting leadership positions will need this specialized knowledge in order to be successful. Further, the role of management information systems developed for the hospitality industry is complex, integrative and specialized for these large-scale yet unique operations. The comptroller of a hotel or restaurant is often charged with the selection, implementation and oversight of such systems. Knowledge of system functionality, integration issues, and how financial data flows from one system to the next is required for the typical hospitality comptroller. Thus, this 20-hour minor has been built with the assistance of the School of Accountancy and Management Information Systems to provide students with the required knowledge.

Declaration Requirements

To declare a minor in Hospitality Accounting and Management Information Systems, a student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- No grades of IN, R, or lower than C- in any Hospitality Leadership (HSP) course
- Completion of ACC 101, ACC 102, and MIS 140 with a minimum grade of C- in each

Course Requirements

A student minoring in Hospitality Accounting and Management Information Systems is required to complete the following courses totaling at least 20.0 hours:

- HSP 100 INTRODUCTION TO HOSPITALITY
- HSP 201 HOSPITALITY SERVICE & EXPERIENCE MANAGEMENT (2.0 hour)
- HSP 202 HOSPITALITY BUSINESS OPERATIONS (2.0 hour)
- HSP 386 HOSPITALITY ACCOUNTING I: REVENUES & EXPENSES
- HSP 387 HOSPITALITY ACCOUNTING II: CAPITAL MANAGEMENT & RISK
- HSP 388 HOSPITALITY ACCOUNTING III: BUDGETS & LEASES (1.0 hour)
- HSP 389 HOSPITALITY ACCOUNTING IV: INFORMATION TECHNOLOGY SYSTEMS (3.0 hours)

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Hospitality Leadership (BSB)

The heart and soul of any academic program is the curriculum and the faculty who deliver it. We have developed our unique curriculum with the strong involvement of local Chicago hospitality industry leaders and the members of our national advisory board. We have also asked senior faculty at four of the nation’s top ranked hospitality programs to review it and advise us how to strengthen it. By incorporating this input, we created a powerful curriculum that distinguishes us from other hospitality programs. Our curriculum blends two primary concepts: hospitality industry knowledge and key business skills. Additionally, woven throughout the courses are five central themes: leadership, ethics, human resources, globalization and sustainability. By including these themes in many of our courses, we strive to deeply instill within students a sense of personal and corporate social responsibility embedded within an awareness of the larger world around them.

We have three primary curricular goals:

1. Embed a true sense of hospitality within our students; that is, to create a bedrock belief that hospitality is about serving others
2. Create industry leaders prepared to deliver hospitality to anyone who needs it, whenever or wherever
3. Embrace the Vincentian mission: to share hospitality with the underprivileged and disenfranchised members of our communities

The Hospitality Leadership major is comprised of three components: the Liberal Studies Program (the broad, general education of members of our society), the College of Business core (foundational business skills), and the specific requirements of the School of Hospitality Leadership.
Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Concentration Specific Outcomes

Students will be able to:

- Believe hospitality is about helping others.
- Be prepared to deliver hospitality to anyone who needs it.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- HSP 207 HOSPITALITY LAW & ETHICS
- ICS 396 HOSPITALITY STRATEGY
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
- MAT 135 and MAT 137 are completed through Liberal Studies requirements
- MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
- MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
- MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Grade Minimums for Hospitality Leadership Major

A minimum grade of C- is required for the following: ACC101, ACC 102, ECO 105, ECO 106, HSP 207, MAT 135, MAT 136, MAT 137, and the course in Professional Writing.

Business Capstone Requirement

Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors.

Business Law Requirement

Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- Not required

Sophomore Year

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

- Experiential learning required **

Senior Year

- ICS 392 SENIOR SEMINAR *

Learning Domains

Arts and Literature

- 3 AL courses Required

Philosophical Inquiry

- 2 PI courses required***

Scientific Inquiry

- MAT 135 BUSINESS CALCULUS I
  or MAT 150 CALCULUS I
  or MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
- MAT 137 BUSINESS STATISTICS
- 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry

- 1 SCBI course required (must not be an ECO course)

Religious Dimensions

- 2 RD courses required***
Understanding the Past

- 2 UP courses required

* Students must earn C- or better in this course.
** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g., C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Declaration Requirements

To declare a major in Hospitality Leadership, a student must meet the following requirements:

- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, ECO 105, ECO 106, HSP 100, HSP 201, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.000
- A minimum Hospitality Leadership grade point average of 2.000
- No grade of IN, R, or lower than C- in any Hospitality Leadership (HSP) course or course used toward the Hospitality Leadership major

Course Requirements

A student majoring in Hospitality Leadership is required to complete the following courses totaling at least 42.0 hours plus 8.0 hours to be shared with the Business Core and 4.0 hours to be shared with the Liberal Studies Program (54.0 hours total):

- Three required courses to be taken Pass/Fail and for 0 hours:
  - HSP 1 HOSPITALITY BUSINESS ETIQUETTE
  - HSP 2 EXPLORING GLOBAL HOSPITALITY SERVICE
  - HSP 3 HOSPITALITY COMMUNITY SERVICE
- One required course to be taken for 4.0 hours:
  - HSP 100 INTRODUCTION TO HOSPITALITY
- Six required courses to be taken for 2.0 hours each:
  - HSP 201 HOSPITALITY SERVICE & EXPERIENCE MANAGEMENT
  - HSP 202 HOSPITALITY BUSINESS OPERATIONS
  - HSP 203 HOSPITALITY LEADERSHIP & SELF DEVELOPMENT
  - HSP 204 HOSPITALITY LEADERSHIP & TEAMS
  - HSP 206 HOSPITALITY RATIO & DATA ANALYSIS
Two required courses to be taken in Business Core for 4.0 hours each:
- HSP 207 HOSPITALITY LAW, ETHICS & RISK
- ICS 396 HOSPITALITY STRATEGY

Two required courses to be taken Pass/Fail and for 1.0 hour each:
- HSP 301 SERVICE LEADERSHIP SPEAKER SERIES I
- HSP 302 SERVICE LEADERSHIP SPEAKER SERIES II

Two required courses to be taken in Liberal Studies Requirements for Junior Year Experiential Learning and for 2.0 hours each:
- HSP 303 HOSPITALITY INTERNSHIP I
- HSP 304 HOSPITALITY INTERNSHIP II

Business Capstone

Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both ICS 396 and either ICS 394 or ICS 395.

Business Law

Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

Experiential Learning

Hospitality Leadership majors must complete HSP 303 and HSP 304. The completed sequence satisfies the requirement for Experiential Learning in the Liberal Studies Program.

Open Electives

Open elective credit (4.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:
- Event Management
- Food & Beverage Management
- Lodging Management
- Non-Profit Hospitality Leadership
- Private Club Management
Private Club Management

This field of study is about the management of membership clubs. The many different types of clubs that need managers include city clubs, country clubs, golf clubs, athletic clubs, yacht clubs, faculty clubs, town clubs, and military clubs. As membership-based organizations, the customers and staff are often in regular contact, sometimes on a weekly or monthly basis. Learning how to create engaging programs to satisfy member interest is a key challenge in this industry. A student majoring in Hospitality Leadership with this concentration must complete the following requirements totaling at least 12.0 hours:

- One required course:
  - HSP 320 CLUB MANAGEMENT
- Two elective courses to be chosen from:
  - HSP 323 ADVANCED CLUB MANAGEMENT
  - HSP 330 FOODSERVICE MANAGEMENT
  - HSP 331 FOODSERVICE PURCHASING
  - HSP 332 BEVERAGE MANAGEMENT
  - HSP 333 INTERNATIONAL WINE EDUCATION & MANAGEMENT
  - HSP 340 LODGING PROPERTY MANAGEMENT
  - HSP 350 EVENT PLANNING
  - HSP 352 EVENT PRODUCTION
  - HSP 361 YIELD MANAGEMENT
  - HSP 382 MANAGING PEOPLE IN THE HOSPITALITY ENVIRONMENT
  - HSP 398 SPECIAL TOPICS IN HOSPITALITY
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR (Hospitality-led programs only)
  - MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
  - MGT 356 SPORTS MANAGEMENT

Graduation Requirements

All Hospitality Leadership (HSP), Management (MGT), and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Non-Profit Hospitality Leadership

Food and overnight accommodations are often part of a social service network offered by a community. Examples include soup kitchens, shelters for battered women and children, support centers for the homeless, disaster relief efforts, etc. The purpose of this concentration is to provide social service providers with the necessary knowledge to operate hospitality venues in a safe, clean and financially viable yet non-profit manner. A student majoring in Hospitality Leadership with this concentration must complete the following requirements totaling at least 12.0 hours:

Three courses to be chosen from:

- HSP 331 FOODSERVICE PURCHASING
- HSP 339 NON-PROFIT FOODSERVICE MANAGEMENT
- HSP 349 NON-PROFIT ACCOMMODATION, SAFETY & SECURITY
- HSP 398 SPECIAL TOPICS IN HOSPITALITY: Non-Profit Event Management

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.
Lodging Management

Hotels, motels, inns, bed & breakfast, resorts, cruises, etc., or anywhere that people sleep away from home is included in this concentration. This field includes the management of all of the various facilities and amenities found at modern lodging facilities: sleeping rooms, restaurants, bars, meetings & events, catering, recreation facilities, business centers, etc., in a wide range of environments. A student majoring in Hospitality Leadership with this concentration must complete the following requirements totaling at least 12.0 hours:

- One required course:
  - HSP 340 LODGING PROPERTY MANAGEMENT
- Two elective courses to be chosen from:
  - HSP 330 FOODSERVICE MANAGEMENT
  - HSP 341 RESORT & SPA MANAGEMENT
  - HSP 342 TIME SHARE MANAGEMENT
  - HSP 343 CASINO MANAGEMENT
  - HSP 350 EVENT PLANNING
  - HSP 361 YIELD MANAGEMENT
  - HSP 371 CUSTOMER RELATIONSHIP MANAGEMENT
  - HSP 372 GLOBAL HOSPITALITY BRAND MANAGEMENT
  - HSP 382 MANAGING PEOPLE IN THE HOSPITALITY ENVIRONMENT
  - HSP 398 SPECIAL TOPICS IN HOSPITALITY
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR (Hospitality-led programs only)

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Food & Beverage Management

Students can prepare for leadership careers in restaurants, contract food companies (industrial and commercial settings), catering, and bar/beverage organizations by completing this concentration. The focus of the coursework is upon the development of strong managerial skills in the leadership of foodservice operations rather than culinary expertise. Students are strongly encouraged to complete at least one internship in the 'back of the house' (kitchen) in order to gain an understanding of culinary operations. A student majoring in Hospitality Leadership with this concentration must complete the following requirements totaling at least 12.0 hours:

- One required course:
  - HSP 330 FOODSERVICE MANAGEMENT
- Two elective courses to be chosen from:
  - HSP 331 FOODSERVICE PURCHASING
  - HSP 332 BEVERAGE MANAGEMENT
  - HSP 333 INTERNATIONAL WINE EDUCATION & MANAGEMENT
  - HSP 334 CONTRACT FOODSERVICE MANAGEMENT
  - HSP 352 EVENT PRODUCTION
  - HSP 361 YIELD MANAGEMENT
  - HSP 371 CUSTOMER RELATIONSHIP MANAGEMENT
  - HSP 372 GLOBAL HOSPITALITY BRAND MANAGEMENT
  - HSP 382 MANAGING PEOPLE IN THE HOSPITALITY ENVIRONMENT
  - HSP 398 SPECIAL TOPICS IN HOSPITALITY
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR (Hospitality-led programs only)
Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Event Management

This dynamic and fast growing field includes the management of meetings, events, and tradeshows for organizations and facilities. Career paths include corporate planning, association planning, special event companies, and intermediaries or third party planning companies. Most common types of meetings and events planned by these professionals include: product launches, business meetings, conventions, tradeshows, customer events, and special events. A student majoring in Hospitality Leadership with this concentration must complete the following requirements totaling at least 12.0 hours:

- One required course:
  - HSP 350 EVENT PLANNING
- Two elective courses to be chosen from:
  - HSP 351 EVENT TOURISM
  - HSP 352 EVENT PRODUCTION
  - HSP 353 EVENT SALES & SERVICE
  - HSP 355 ADVANCED EVENT MANAGEMENT
  - HSP 382 MANAGING PEOPLE IN THE HOSPITALITY ENVIRONMENT
  - HSP 398 SPECIAL TOPICS IN HOSPITALITY
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR (Hospitality-led programs only)
  - MGT 356 SPORTS MANAGEMENT

Specialization Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Entrepreneurship
- Hospitality Accounting and MIS
- Hospitality Real Estate
- Leadership
- Revenue Management
- Sales Leadership
- Virtual Marketing
Virtual Marketing

The Internet and social media tools such as Twitter, Facebook, YouTube, etc., have created marketing opportunities for businesses. Hospitality firms need help in harnessing this power of digital marketing. In addition, the preponderance of customer loyalty programs, such as frequent diner points at restaurants and frequent stay points at hotels, has added to the complexity of strategic marketing plans. A student majoring in Hospitality Leadership with this specialization must complete the following requirements totaling at least 12.0 hours:

- HSP 371 CUSTOMER RELATIONSHIP MANAGEMENT
- MKT 321 SOCIAL MEDIA MARKETING
- MKT 395 INTERACTIVE/INTERNET MARKETING

Graduation Requirements

All Hospitality Leadership (HSP), Marketing (MKT), and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Sales Leadership

Selling to groups of people, whether for business or pleasure, is an integral part of the hospitality business. Corporations send legions of managers to meetings and conventions, and to call upon customers for sales and service purposes. Travel agencies design package tours that are open to the general public. Families celebrate weddings, anniversaries, and other special events. All of these activities involve the negotiation and coordination of groups of people who often want food to eat, places to meet, and rooms in which to sleep. To prepare for a career in the art of selling to these groups, a student majoring in Hospitality Leadership with this specialization must complete the following requirements totaling at least 12.0 hours:

- MKT 377 SALES FUNDAMENTALS
- MKT 378 SALES STRATEGY & TECHNOLOGY
- MKT 383 ANALYTICAL SALES

Graduation Requirements

All Hospitality Leadership (HSP), Marketing (MKT), and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Revenue Management

Similar to the tactics airlines use to offers seats and flight ticket prices, hotels seek to maximize revenue through the careful process of offering rooms at various price points through different distribution channels. This focus on managing the revenue stream has become a central role in the operation of the hotel. Managers are needed who understand the concepts of pricing, human behavior, forecasting demand, and the distribution channels through which hotel reservations are made available. A student majoring in Hospitality Leadership with this...
specialization must complete the following requirements totaling at least 12.0 hours:

- Two required courses:
  - HSP 360 HOSPITALITY PRICING
  - HSP 361 YIELD MANAGEMENT
- One elective course to be chosen from:
  - HSP 362 GLOBAL DISTRIBUTION SYSTEMS
  - HSP 371 CUSTOMER RELATIONSHIP MANAGEMENT

**Graduation Requirements**

All Hospitality Leadership (HSP) courses and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

---

**Leadership**

This specialization is designed for the student who wishes to build a career in the daily operations of the business. A student pursuing this specialization must choose one of the two options below, totaling at least 12.0 hours. The coursework focus in option one is upon human development, including advanced concepts in leadership. The focus in option two is upon understanding more about hospitality operations, enabling a student to delve deeply into how aspects of hospitality business function.

**Course Requirements**

**Option One**

- Any three 300-level HSP courses (12.0 hours) numbered 310-399. Students may also use up to two ICS 350 (Hospitality-led programs only) for Option One. (Courses may not also be used to satisfy other Hospitality major requirements.)
- If pursuing the combined degree program MS Hospitality Leadership and Operational Performance, students will take HSP 502, HSP 503 and HSP 505 to fulfill this specialization.

**Option Two**

- One required course:
  - MGT 360 LEADERSHIP
- Two elective courses to be chosen from:
  - MGT 320 TRAINING AND CAREER DEVELOPMENT
  - MGT 322 THE MANAGEMENT & MEASUREMENT OF QUALITY
  - MGT 361 ORGANIZATIONAL DEVELOPMENT
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP

**Graduation Requirements**

All Hospitality Leadership (HSP), Management (MGT), and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.
Hospitality Real Estate

The millions of hotels and restaurants around the world operate in buildings that sit on pieces of land. With franchising a common business practice in these industries, who owns the building or the land is often someone different from who operates the business. Thus, the buying and selling of the real estate (building and land) is a key factor in the hospitality business. Experts are needed who understand the relationship between real estate transactions and the operations of hotels and restaurants. To gain this needed knowledge, a student majoring in Hospitality Leadership with this specialization must complete the following requirements totaling at least 12.0 hours:

- One required course:
  - RE 350 REAL ESTATE ANALYSIS

- Two courses to be chosen from:
  - RE 300 REAL ESTATE LAW
  - RE 320 URBAN PLANNING AND PUBLIC POLICY
  - RE 352 REAL ESTATE FINANCE
  - RE 353 REAL ESTATE INVESTMENT
  - RE 354 REAL ESTATE VALUATION
  - RE 398 SPECIAL TOPICS (multiple topics may be used)

Graduate Requirements

All Hospitality Leadership (HSP), Real Estate (RE), and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Accounting and Management Information Systems

The applied field of hospitality is worldwide in both scale and scope. While many business skills are routinely utilized in the field, the practice of accounting in U.S. hotels and restaurants is different than what is common for other industries. DePaul students are trained in the classic accounting principles that are in compliance with GAAP; however, hospitality firms follow a unique set of GAAP standards that have been customized for the hospitality industry. Students wishing to prepare for comptroller and related accounting leadership positions will need this specialized knowledge in order to be successful. Further, the role of management information systems developed for the hospitality industry is complex, integrative and specialized for these large-scale yet unique operations. The comptroller of a hotel or restaurant is often charged with the selection, implementation and oversight of such systems. Knowledge of system functionality, integration issues, and how financial data flows from one system to the next is required for the typical hospitality comptroller. A student majoring in Hospitality Leadership with this specialization must complete the following requirements totaling at least 12.0 hours:

Four required courses:

- HSP 386 HOSPITALITY ACCOUNTING I: REVENUES & EXPENSES
- HSP 387 HOSPITALITY ACCOUNTING II: CAPITAL MANAGEMENT & RISK
- HSP 388 HOSPITALITY ACCOUNTING III: BUDGETS & LEASES (1.0 hour)
- HSP 389 HOSPITALITY ACCOUNTING IV: INFORMATION TECHNOLOGY SYSTEMS (3.0 hours)

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.
Entrepreneurship

Opening a small business, such as a restaurant or a meeting planning service, is the goal of many students. Aspiring entrepreneurs should select this specialization to help them plan in advance for the start of their new enterprise. As the range of small business opportunities is vast, students have great flexibility in choosing a set of three courses that best fits his or her needs. Choices include offerings from both the Management and Marketing departments where students will be able to use their individual concepts as the focus of much of the coursework. A student majoring in Hospitality Leadership with this specialization must complete the following requirements totaling at least 12.0 hours:

- Two courses chosen from:
  - MGT 360 LEADERSHIP
  - MGT 370 BUSINESS PLAN DEVELOPMENT
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP
- One more course chosen from the list above or:
  - MGT 345 SERVICE SECTOR MANAGEMENT
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  - HSP 399 INDEPENDENT STUDY (with approval)
  - MKT 352 NEW PRODUCT DEVELOPMENT
  - MKT 377 SALES FUNDAMENTALS

Graduation Requirements

All Hospitality Leadership (HSP), Management (MGT), Marketing (MKT), and any other courses used toward the Hospitality Leadership major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Leadership (Minor: Business Students Only)

The focus of this minor is to give students in the Driehaus College of Business broad exposure to the scale and scope of the hospitality industry, and to enable students to explore one major sector, such as lodging, event management, food & beverage, or private club management, in some depth.

Declaration Requirements

To declare a minor in Hospitality Leadership, a Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Hospitality Leadership grade point average of 2.000
- No grades of IN, R, or lower than C- in any Hospitality Leadership (HSP) course
- Completion of HSP 100 or HSP 201 with a minimum grade of C- in each

Course Requirements

A Driehaus student minoring in Hospitality Leadership is required to complete the following courses totaling at least 16.0 hours:

- Three required courses for 8.0 hours:
  - HSP 100 INTRODUCTION TO HOSPITALITY
  - HSP 201 HOSPITALITY SERVICE & EXPERIENCE MANAGEMENT (2.0 hours)
  - HSP 202 HOSPITALITY BUSINESS OPERATIONS (2.0 hours)
- One required course specific to the chosen Hospitality Leadership concentration for 4.0 hours:
  - Private Club Management: HSP 320 CLUB MANAGEMENT
  - Food & Beverage Management: HSP 330 FOODSERVICE MANAGEMENT
  - Lodging Management: HSP 340 LODGING PROPERTY MANAGEMENT
  - Event Management: HSP 350 EVENT PLANNING
One or more elective courses to be chosen from the Hospitality Leadership concentration selected above for at least 4.0 hours, or the combination of any of the following for a total of 4.0 hours: HSP 203 (2.0 hours), HSP 204 (2.0 hours), HSP 206 (2.0 hours), HSP 250 (2.0 hours), HSP 301 (1.0 hour), HSP 302 (1.0 hour), HSP 303 (2.0 hours), or HSP 304 (2.0 hours).

Elective Selection

To review what courses may be used for the concentration-specific elective, students should refer to the Concentration Requirements section of the Hospitality Leadership major. A listing of approved courses is available for each of the four concentrations that may be selected for this minor (Private Club Management, Food & Beverage Management, Lodging Management, Event Management).

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the Hospitality Leadership minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Leadership (Minor)

Available to students outside the Driehaus College of Business, the focus of this minor is to give broad exposure to the scale and scope of the hospitality industry, and to enable students to explore one major sector, such as lodging, event management, food & beverage, or private club management in some depth.

Declaration Requirements

To declare a minor in Hospitality Leadership, a non-Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Hospitality Leadership grade point average of 2.000
- No grades of IN, R, or lower than C- in any Hospitality Leadership (HSP) course
- Completion of HSP 100 or HSP 201 with a minimum grade of C- in each

Course Requirements

A non-Driehaus student minoring in Hospitality Leadership is required to complete the following courses totaling at least 20.0 hours:

- Four required courses for 12.0 hours:
  - HSP 100 INTRODUCTION TO HOSPITALITY
  - HSP 201 HOSPITALITY SERVICE & EXPERIENCE MANAGEMENT (2.0 hours)
  - HSP 202 HOSPITALITY BUSINESS OPERATIONS (2.0 hours)
  - HSP 207 HOSPITALITY LAW & ETHICS
- One required course specific to the chosen Hospitality Leadership concentration for 4.0 hours:
  - Private Club Management: HSP 320 CLUB MANAGEMENT
  - Food & Beverage Management: HSP 330 FOODSERVICE MANAGEMENT
  - Lodging Management: HSP 340 LODGING PROPERTY MANAGEMENT
  - Event Management: HSP 350 EVENT PLANNING
- One or more elective courses to be chosen from the Hospitality Leadership concentration selected above for at least 4.0 hours, or the combination of any of the following for a total of 4.0 hours: HSP 203 (2.0 hours), HSP 204 (2.0 hours), HSP 206 (2.0 hours), HSP 250 (2.0 hours), HSP 301 (1.0 hour), HSP 302 (1.0 hour), HSP 303 (2.0 hours), or HSP 304 (2.0 hours).

Elective Selection

To review what courses may be used for the concentration-specific elective, students should refer to the Concentration Requirements section of the Hospitality Leadership major. A listing of approved courses is
Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality: Revenue Management (Minor)

The hospitality industry has an ongoing need for managers skilled in the science and art of forecasting demand. Similar to the tactics of the airlines in pricing and seat allocation, Revenue Management is a business practice that applies theories of pricing and statistics to patterns of lodging room sales and advance reservations. Knowledge of pricing theory, trend analysis, distribution channels, and customer relationship management (CRM) are key tenets.

Declaration Requirements

To declare a minor in Revenue Management, a Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Hospitality Leadership grade point average of 2.000
- No grades of IN, R, or lower than C- in any Hospitality Leadership (HSP) course
- Completion of HSP 100 or HSP 201 with a minimum grade of C- in each

Course Requirements

A Driehaus student minoring in Revenue Management is required to complete the following courses totaling at least 22.0 hours:

- Five required courses:
  - HSP 100 INTRODUCTION TO HOSPITALITY
  - HSP 206 HOSPITALITY RATIO & DATA ANALYSIS (2.0 hours)
  - HSP 340 LODGING PROPERTY MANAGEMENT
  - HSP 360 HOSPITALITY PRICING
  - HSP 361 YIELD MANAGEMENT
- One elective course to be chosen from:
  - HSP 362 GLOBAL DISTRIBUTION SYSTEMS
  - HSP 371 CUSTOMER RELATIONSHIP MANAGEMENT

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.
Illustration (Minor)

Required Courses

Four courses:

- ART 106 BEGINNING DRAWING
- ILL 200 ILLUSTRATION FOUNDATIONS
- ILL 210 DIGITAL ILLUSTRATION I
  OR ILL 220 MAKING COMICS
- ART 218 FIGURE DRAWING
  OR ART 206 INTERMEDIATE DRAWING

Electives

Three courses from the following list, one must be on the 300 level:

- ART 105 TWO-DIMENSIONAL FOUNDATIONS
  OR ANI 105 MOTION GRAPHICS FOUNDATIONS
  OR GD 105 INTRO TO VISUAL DESIGN
- ART 110 BEGINNING PAINTING
- ART 229 BEGINNING PRINTMAKING
- ART 231 SCREEN PRINTING
- ART 210 INTERMEDIATE PAINTING I
- ART 245 PAINTING: MIXOLOGY
- ART 206 INTERMEDIATE DRAWING
- ART 218 FIGURE DRAWING
- ART 228 COMPUTER APPLICATIONS FOR DESIGN II
- ART 306 ADVANCED DRAWING
- ART 318 ADVANCED FIGURE DRAWING
- ART 360 ILLUSTRATION
- ILL 206 HISTORY OF COMICS
- ILL 210 DIGITAL ILLUSTRATION I
- ILL 211 INTERMEDIATE DIGITAL ILLUSTRATION
- ILL 220 MAKING COMICS
- ANI 220 STORYBOARDING AND NARRATIVE DEVELOPMENT
- ANI 345 CHARACTER DESIGN
- GD 150 ILLUSTRATOR WORKSHOP and GD 151 PHOTOSHOP WORKSHOP (2 credit courses; students must complete both courses to fulfill one elective)
Individualized Focus Area (BA)

This degree is for adults who want to accelerate their progress through applied experience and individual attention, with a focus of study based on personal or professional goals.

Students meet degree requirements by documenting learning from experience as well as through transfer and SNL courses.

Working with a faculty mentor and an expert in their focus area, students assess their prior learning and develop an individualized plan to meet their goals. Some students focus on topics of personal interest, such as memoir writing. Most students focus on developing knowledge and skills directly related to their current or future careers. Being able to tailor their learning to specific work-related goals provides students with unique opportunities to integrate lifelong, liberal and work-related learning.

The degree is earned after satisfying 50 requirements, written as statements describing competency. Certain competencies are met by specific courses or projects; others can be satisfied by relevant transfer courses or learning from experience.

SNL courses are offered in downtown Chicago, Naperville, and near O'Hare, as well as Online.

Active Duty Servicemembers, Reservists and National Guardsmen

The School for New Learning is an active member of the Servicemembers Opportunity Colleges (SOC) Consortium and operates within the SOC policies and residence requirement parameters in its Individual Focus Area undergraduate degrees. Servicemembers can design degree programs in any area of interest and complete their requirements through a combination of on campus or online learning, documentation of relevant experience and independent study. Academic residency can be completed at any time while enrolled and does not exceed 25% of the academic requirements. SNL programs exempt from SOC participation include the BA in Computing, BA in General Business, BA in Early Childhood Development, and Degree Completion Majors in Applied Behavioral Sciences and Leadership.
Learning Outcomes

Students will be able to:

- Use independent learning skills and strategies to organize, initiate, and document prior, current, and future college-level learning.
- Design learning strategies to attain goals for personal and educational development.
- Reflect on the learning process and methods used in an experiential project.
- Articulate the personal and social value of lifelong learning.
- Assess the social and personal value of civic engagement for achieving change.
- Write to analyze, synthesize, and evaluate experiences and concepts to demonstrate competencies.
- Analyze issues and reconcile problems through critical and appreciative thinking.
- Use mathematical symbols, concepts, and methods to describe and solve problems.
- Learn collaboratively and examine the skills, knowledge, and values that contribute to such learning.
- Pose questions and use methods of formal inquiry to answer questions and solve problems.
- Analyze a problem using two different ethical systems.
- Define and analyze a creative process.
- Analyze power relations among racial, social, cultural, or economic groups in the United States.
- Analyze issues and problems from a global perspective.
- Describe and explain connections among diverse aspects of nature.
- Explain and evaluate the nature and process of science.
- Design and produce a significant document that gives evidence of advanced competency in one's own focus area.

Competency Framework

The SNL curriculum is organized around the knowledge, skills and abilities that describe an educated adult in contemporary society. These are defined by a framework of 50 competency statements grouped in 3 areas: Lifelong Learning, Individual Focus, and Liberal Learning. Students demonstrate these degree requirements through SNL courses, independent learning projects, and transfer coursework.

Students in SNL’s competency-based joint degree programs, the BA in Computing, BA in Early Childhood Education and BA in General Business follow a format similar to the descriptions below with some variations. See their Program Requirements for more information.

Lifelong Learning Area

The Lifelong Learning Area has 12 competencies that develop skills in reading, writing, goal setting, decision-making, teamwork, and research.

Liberal Learning Area

The Liberal Learning Area encompasses fields of study generally referred to as the Liberal Arts. Students satisfy 26 competencies in this area.
This area is divided into 3 categories: Arts and Ideas (AI), Human Community (HC), and Scientific World (SW). Each category is divided into 3 subcategories. Students complete 8 competencies in each category and 2 additional Advanced Elective competencies. Students must satisfy at least 1 competency from each subcategory, and 3 more from any subcategory. The 4th and 5th competencies are required.

**Arts and Ideas Category**

This category includes the arts, philosophy, theology, literature, and other fields that focus on expression of values and aesthetics. The 3 subcategories are: Interpreting the Arts, Creative Expression, and Reflection and Meaning.

**Human Community Category**

This category includes human relations, history, political science, and other fields closely aligned with the development and maintenance of human society. The 3 subcategories are: Communities and Society, Institutions and Organizations, and Individual Development.

**The Scientific World Category**

This category includes fields related to scientific inquiry, technology, and relevant skills. The 3 subcategories in this area are: Experiencing Science, Patterns and Processes, and Science, Technology and Society.

**Individual Focus Area**

The Individual Focus Area may reflect a field of study, preparation for graduate study, a career goal or avocation. These 12 competencies are defined by the student with the advice and approval of a faculty mentor and a professional advisor who has expertise in the area of interest.

The BA in Computing, BA in Early Childhood Education and BA in General Business each have a series of prescribed competency statements in their Focus Areas that correspond to particular course requirements.

---

**Program Requirements**

**Lifelong Learning**

The Lifelong Learning Area consists of 12 competencies satisfied by 8 required SNL courses, approved transfer courses or proficiency exams. They are:

- LL 103 INDEPENDENT LEARNING SEMINAR (L-1)
- LL 250 FOUNDATIONS OF ADULT LEARNING: DEVELOPING PERSONAL, PROFESSIONAL AND EDUCATIONAL GOALS (L-2 & F-1)
- L-3: Civic Engagement competency in SNL course, transfer, or experience. The L-3 competency is available in the following SNL courses:
  - AI 143 ROOTED IN THE CITY: WRITERS & WRITING IN CHICAGO
  - AI 218 ORGANIZING AND DEVELOPING EMERGENCY TRAINING & SERVICE STRATEGIES: "LESSONS-LEARNED" FROM KATRINA
  - AI 230 MEMOIRS: A JOURNEY FROM THE INSIDE OUT
  - AI 257 ENGAGE FOR CHANGE: GET INFORMED, INVOLVED AND CONNECTED
  - HC 118 MAKING SOCIAL CHANGE: THE LEGACY OF THE 1960'S
  - HC 211 ENGAGING A LOCAL NONPROFIT TO SOLVE A GLOBAL PROBLEM
  - HC 268 CULTURE AND POLITICS OF CAREWORK
  - HC 283 GLOBAL PERSPECTIVES BALANCING WORK & FAMILY
  - HC 302 ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD
  - HC 362 POVERTY, POLICY AND THE ECONOMY: POOR IN THE USA
  - IN 231 EXPLORING CHICAGO POLITICS
  - IN 352 EYES ON THE PRIZE: A TELEVISION HISTORY OF THE AMERICAN CIVIL RIGHTS MOVEMENT
  - SNC 215 ISSUES IN HEALTH POLICY AND ADMINISTRATION
Sw 251 understanding global health concepts and practices
Sw 254 environmental sustainability and advocacy

- LL 260 Writing for competence (L-4)
- LL 270 Critical thinking (L-5)
- LL 205 Quantitative reasoning (L-6)
- L-7: Collaborative learning competency in SNL course, transfer, or experience. The L-7 competency is available in the following SNL courses:
  - AI 170 Creativity and entrepreneurship
  - AI 255 Self exploration: inside ourselves, outside with others
  - AI 285 Work, play and rest: integrating the fragments
  - FA 133 Editing yourself and others: a collaborative approach to writing at work
  - FA 196 Managing a successful business
  - FA 198 Financial planning for retirement
  - FA 214 Entrepreneurial accounting
  - FA 221 Entrepreneurship: from start-up to success
  - FA 224 Homeland security in the 21st century
  - FA 237 Conflict management, negotiation, and client relations
  - FA 241 Workplace engagement and commitment: how to motivate employees
  - FA 300 Project management
  - FA 340 Implementing corporate training programs
  - FA 363 Achieving work and life goals
  - FA 390 Diversity: in and beyond the work place
  - HC 102 Holiday economics
  - HC 141 Coaching for personal development and professional effectiveness
  - HC 171 Organizational culture in action
  - HC 178 Gender at work
  - HC 217 Hip hop and the politics of difference
  - HC 246 Language and landscape
  - HC 299 Assessing and managing conflict
  - HC 344 International relations: a cross-cultural perspective
  - SW 250 Widgets, clicks, & tweets: essentials of applied web technology
  - SW 262 The happiness project
  - SW 295 Successful interviewing

- LL 200 LL 300 Research seminar (L-8 & L-9)
- LL 302 LL 302 Externship (L-10 & L-11)
- LL 390 LL 390 Summit seminar (L-12)

Liberal Learning

The Liberal Learning Area consists of 26 competencies in 4 categories. Competencies can be satisfied by SNL courses, relevant transfer courses of C- or better, and documented college-level learning from experience. They are:

Arts & Ideas Category

- 1 from Interpreting the Arts (A-1)
- 1 from Creative Expression (A-2)
- 1 from Reflection and Meaning (A-3)
- 1 from Ethics in the Contemporary World (A-4)
- 1 from Creativity (A-5)
- 3 additional AI competencies

Human Community Category

- 1 from Communities and Societies (H-1)
- 1 from Institutions and Organizations (H-2)
- 1 from Individual Development (H-3)
- 1 from Power and Justice (H-4)
- 1 from Globalization (H-5)
- 3 additional HC competencies

The Scientific World Category

- 1 from Experiencing Science (S-1)
- 1 from Patterns and Processes (S-2)
- 1 from Science, Technology and Society (S-3)
• 1 from Interconnections in the Natural World (S-4)
• 1 from Scientific Reasoning (S-5)
• 3 additional SW competencies

**Electives**

• 1 Advanced Elective (E-1)
• 1 Advanced Elective (E-2)

**Focus Area**

The Focus Area consists of 12 competencies satisfied by SNL courses, relevant transfer courses of C- or better, and documented college-level learning from experience.

• F-1: Focused Planning (Fulfilled by LL 250)
• F-2: Focus Area Elective
• F-3: Focus Area Elective
• F-4: Focus Area Elective
• F-5: Focus Area Elective
• F-6: Focus Area Elective
• F-7: Focus Area Elective
• F-8: Focus Area Elective
• F-9: Focus Area Elective
• F-10: Focus Area Elective
• F-11: Advanced Project (Fulfilled by FA 303 or FA 304)
• F-12: Advanced Project (Fulfilled by FA 303 or FA 304)

**Leadership Track**

Students pursuing the Bachelor of Arts with an Individualized Focus Area can select the Leadership Track, which consists of courses designed to provide broad-based, basic competency in skills and theories necessary to leadership in the 21st century.

This 50 competency program includes 10 core courses, elective courses in liberal arts, and a minimum of 9 leadership courses from the following list:

• AI 256 WORKPLACE AND PROFESSIONAL ETHICS
• DCM 301 EFFECTIVE LEADERSHIP IN A CHANGING PROFESSIONAL ENVIRONMENT
• DCM 302 PROJECT MANAGEMENT: DESIGN AND ASSESSMENT
• DCM 303 LEADERSHIP MODELS FOR STRONG ORGANIZATIONS
• DCM 311 CONFLICT MANAGEMENT AND NEGOTIATION
• DCM 317 ETHICS IN THE PROFESSIONS
• FA 260 ESSENTIALS OF PROJECT MANAGEMENT
• FA 316 MAKING BUDGETS: FINANCIAL AND ETHICAL INTERPRETATIONS
• HC 267 WORKPLACE LAW: HARASSMENT, DISCRIMINATION AND CIVIL RIGHTS
• An additional course or courses not on this list but approved for the Leadership Track by the student's faculty mentor and professional advisor.
Information Systems (BS)

The BS in Information Systems focuses on the organizational and business application of computers and related technologies. It prepares students for careers in IT project management, systems analysis & design, database administration, helpdesk, enterprise systems administration, and user training.

<tr>
<td><strong>Total hours required</strong></td>
<td><strong>192 hours</strong></td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Describe major types and characteristics of business information systems.
- Design data flows and process modeling for commonly deployed business information systems.
- Develop a database diagram from a set of business rules, and map the diagram to a set of tables in a relational database.
- Describe the characteristics and implementation requirements for enterprise-level information systems.
- Create a project charter or plan for the development of an information system.
- Recommend testing, deployment options and user training for a particular type of business information system.
- Construct a project plan for a major information system development.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
- or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I*
- WRD 104 COMPOSITION AND RHETORIC II*

Quantitative Reasoning & Technological Literacy

- Not Required
Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- IS 376 INFORMATION SYSTEMS PROJECT *

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required (See note below)

Religious Dimensions (RD)

- 2 Courses Required (See note below)

Scientific Inquiry (SI)

- 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD)

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Major Requirements

Course Requirements

- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
- IS 201 INTRODUCTION TO INFORMATION SYSTEMS
- IS 215 ANALYSIS AND DESIGN TECHNIQUES
- IS 324 ENTERPRISE ARCHITECTURE
- IS 344 IT AUDITING
- IS 371 INTRODUCTION TO IT SYSTEM MANAGEMENT
- IS 372 SOFTWARE PROJECT MANAGEMENT
- IS 373 INTRODUCTION TO ENTERPRISE SYSTEMS
- IS 375 OBJECT-ORIENTED ANALYSIS AND DESIGN
- IS 376 INFORMATION SYSTEMS PROJECT
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 223 DATA ANALYSIS
- IT 231 WEB DEVELOPMENT I
  or ECT 310 INTERNET APPLICATION DEVELOPMENT
- IT 238 INTERACTIVE WEB SCRIPTING
- IT 240 INTRODUCTION TO DATABASES
- IT 263 APPLIED NETWORKS AND SECURITY
- IT 320 CONTENT MANAGEMENT SYSTEMS
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- 3 Major Electives
  -  Major Electives can be chosen from any 200 or 300 level CNS, CSC, ECT, IS, ISM, IT, SE, or TDC courses. Students are encouraged, but not required, to select all Major Elective courses from one of the below competency lists. Students must earn a grade of C- or higher in all major elective courses.

Major Electives

Competency in Management Applications

- IS 331 FUNDAMENTALS OF DIGITAL PRODUCT MANAGEMENT
- IS 360 SYSTEMS FOR CLOUD COMPUTING AND BIG DATA
- IS 379 VIRTUAL SOFTWARE TEAMS
- ECT 355 INTERNET SYSTEMS: COLLABORATION, COMMERCE, AND MEDIA

Competency in Government, Regulation, and Compliance

- CNS 228 LEGAL, ETHICAL AND SOCIAL ISSUES IN INFORMATION SECURITY
- CNS 355 PHYSICAL AND IT SECURITY CONVERGENCE
- CNS 366 CRITICAL INFRASTRUCTURE AND CONTROL SYSTEMS CYBERSECURITY
- TDC 311 COMPUTERS IN TELECOMMUNICATIONS SYSTEMS
- CNS 389 CYBER DEFENSE EXERCISES AND ATTACK RESPONSES

Competency in User Interaction

- ISM 220 INTERACTIVE DESIGN & PROTOTYPING
- ISM 222 INFORMATION VISUALIZATION
- ISM 225 WEB 2.0 BUILDING BLOCKS
- ISM 360 USER-CENTERED EVALUATION
- ISM 270 USER-CENTERED WEB DESIGN

Competency in Software Development

- IT 211 INTRODUCTION TO APPLIED PROGRAMMING
- IT 212 APPLIED OO PROGRAMMING
- IT 232 WEB DEVELOPMENT II
- IT 330 USER INTERFACE DEVELOPMENT FOR INTERACTIVE SYSTEMS
- IT 313 ADVANCED APPLICATION DEVELOPMENT
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Sample Schedule

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

First Year

- IS 201 INTRODUCTION TO INFORMATION SYSTEMS
- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 240 INTRODUCTION TO DATABASES
- IT 263 APPLIED NETWORKS AND SECURITY
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- 7 Liberal Studies

Second Year

- IT 238 INTERACTIVE WEB SCRIPTING
- IS 215 ANALYSIS AND DESIGN TECHNIQUES
- IT 223 DATA ANALYSIS
- IS 324 ENTERPRISE ARCHITECTURE
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- 7 Liberal Studies

Third Year

- IT 231 WEB DEVELOPMENT I
  or ECT 310 INTERNET APPLICATION DEVELOPMENT
- IS 371 INTRODUCTION TO IT SYSTEM MANAGEMENT
- IS 372 SOFTWARE PROJECT MANAGEMENT
- IS 373 INTRODUCTION TO ENTERPRISE SYSTEMS
- 3 Liberal Studies
- 1 Major Elective
- 4 Open Electives

Fourth Year

- IT 320 CONTENT MANAGEMENT SYSTEMS
- IS 344 IT AUDITING
- IS 375 OBJECT-ORIENTED ANALYSIS AND DESIGN
- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
- IS 376 INFORMATION SYSTEMS PROJECT
- 2 Liberal Studies
- 2 Major Electives
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs. Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.
This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

### Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisors. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

### Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

## Information Systems (Minor)

DePaul's Information Systems minor will help you acquire the technological skills needed to address the operational, tactical and strategic challenges facing business, governmental and non-profit organizations.

### Course Requirements

- IT 240 INTRODUCTION TO DATABASES
- IS 201 INTRODUCTION TO INFORMATION SYSTEMS
- IS 215 ANALYSIS AND DESIGN TECHNIQUES
- IS 372 SOFTWARE PROJECT MANAGEMENT
- IS 373 INTRODUCTION TO ENTERPRISE SYSTEMS
- IT 263 APPLIED NETWORKS AND SECURITY

Students majoring in Information Systems (BS) are restricted from earning this minor.

## Information Technology (BS)

The BS in Information Technology focuses on preparing graduates who are able to configure software to meet the needs of organizations. Students acquire skills related to the selection, creation, application, integration and administration of computing technologies. This degree prepares you to become skilled in problem solving and programming, networks and communications systems, databases, Internet and Web technologies, security and project management, and have a strong grasp of business concepts and technical communications.

The BS in Information Technology has two concentrations:

- Standard Concentration
- Web Development Concentration

The BS in Information Technology can be completed online by transfer students if they meet the following
requirements:

- Have a minimum of 45 quarter/30 semester hours of transfer credit
- Have a minimum cumulative 2.0 GPA
- Be in good standing at the last school they attended

Note - The lab science requirement and the pre-calculus prerequisite for the Data Analysis (IT 223) requirement are not available online at DePaul and will need to be completed on campus or transferred in from another institution.

For more information on this option and a sample schedule please see http://www.cdm.depaul.edu/academics/Pages/BSinInformationTechnology.aspx

Learning Outcomes

Students will be able to:

- Select and implement the most appropriate communication protocols to support an application's requirements.
- Choose and conduct at least one appropriate method for each stage of the human-centered design (HCD) process.
- Design, implement and test a normalized database from a case study.
- Construct a website using a framework that includes both client-side and server-side.
- Prepare a threat analysis and recommend the appropriate countermeasures.
- Choose software components and integrate them to create a working application.
- Prepare technical documents and present to multiple audiences for their capstone project.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
Quantitative Reasoning & Technological Literacy

- Not Required

**Sophomore Year**

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

**Junior Year**

Experiential Learning

- Required

**Senior Year**

Capstone

- Required*

**Learning Domains**

**Arts and Literature (AL)**

- 3 Courses Required

**Philosophical Inquiry (PI)**

- 2 Courses Required (See note below)

**Religious Dimensions (RD)**

- 2 Courses Required (See note below)

**Scientific Inquiry (SI)**

- 1 SWK or Lab Course Required

**Social, Cultural, and Behavioral Inquiry (SCBI)**

- 3 Courses Required

**Understanding the Past (UP)**

- 2 Courses Required

* Students must earn a C- or better in this course.

**Notes**

Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD)

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is
cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

**Course Requirements**

- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 211 INTRODUCTION TO APPLIED PROGRAMMING
- IT 212 APPLIED OO PROGRAMMING
- IT 223 DATA ANALYSIS
- IT 231 WEB DEVELOPMENT I
- IT 232 WEB DEVELOPMENT II
- IT 240 INTRODUCTION TO DATABASES
- IT 263 APPLIED NETWORKS AND SECURITY
- IT 278 COMMUNITY-BASED TECHNOLOGY PROJECTS
- IT 313 ADVANCED APPLICATION DEVELOPMENT
- IT 320 CONTENT MANAGEMENT SYSTEMS
- IT 330 USER INTERFACE DEVELOPMENT FOR INTERACTIVE SYSTEMS
- IT 373 SYSTEM CONCEPTS
- IT 394 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS I *
- IT 395 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II *
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION

*IT 394 is the first of a two course sequence (8 credit hours). It counts for both the capstone and the Junior Year Experiential Learning. The second course in the sequence is IT 395. Both quarters must be completed to receive any credit.

**Concentration Requirements**

Students must also complete the requirements from one of the following concentrations: Standard or Web Development.

**Degree Requirements**

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- **Standard**
- **Web Development**
Standard Concentration

Course Requirements

- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
- IS 215 ANALYSIS AND DESIGN TECHNIQUES
- IS 372 SOFTWARE PROJECT MANAGEMENT
- 5 Major Field Electives
  - Major Electives can be chosen from any 300-level CDM courses. Students must earn a grade of C- or higher in all major elective courses.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Web Development Concentration

Course Requirements

- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
  or CNS 378 HOST BASED SECURITY
- ISM 270 USER-CENTERED WEB DESIGN
- IT 238 INTERACTIVE WEB SCRIPTING
- IT 251 INTRODUCTION TO MOBILE APPS
- IT 338 WEB DEVELOPMENT FRAMEWORKS
- 3 Major Field Electives
  - Major Electives can be chosen from any 300-level CDM courses or from the following list of courses:
    - CSC 243 PYTHON FOR PROGRAMMERS
    - GD 105 INTRO TO VISUAL DESIGN
    - IS 215 ANALYSIS AND DESIGN TECHNIQUES
    - ISM 220 INTERACTIVE DESIGN & PROTOTYPING
  - Students must earn a grade of C- or higher in all major elective courses.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.
First Year
- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 231 WEB DEVELOPMENT I
- IT 211 INTRODUCTION TO APPLIED PROGRAMMING
- IT 240 INTRODUCTION TO DATABASES
- IT 263 APPLIED NETWORKS AND SECURITY
- 6 Liberal Studies

Second Year
- IT 232 WEB DEVELOPMENT II
- IT 212 APPLIED OO PROGRAMMING
- IT 313 ADVANCED APPLICATION DEVELOPMENT
- IS 215 ANALYSIS AND DESIGN TECHNIQUES
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- IT 278 COMMUNITY-BASED TECHNOLOGY PROJECTS
- 6 Liberal Studies

Third Year
- IT 223 DATA ANALYSIS
- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
- IT 373 SYSTEM CONCEPTS
- IT 320 CONTENT MANAGEMENT SYSTEMS
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- 6 Liberal Studies
- 1 Major Elective

Fourth Year
- IS 372 SOFTWARE PROJECT MANAGEMENT
- IT 330 USER INTERFACE DEVELOPMENT FOR INTERACTIVE SYSTEMS
- IT 394 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS I
- IT 395 SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II
- 4 Major Electives
- 5 Open Electives

Web Development Concentration

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs. Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.
Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

**Maintaining Good Standing**

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree many not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

**Designing a Course of Study**

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

**Registering for Master's Degree Courses**

Combined degree students must meet regularly with their faculty advisors. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

**Bachelor's Degree to Master's Degree Transition**

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

**Information Technology (Minor)**

The Information Technology minor emphasizes the technical aspects of information technology including web design, human interaction, databases, scripting and content management systems.

**Course Requirements**

- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 240 INTRODUCTION TO DATABASES
- IT 231 WEB DEVELOPMENT I
- IT 211 INTRODUCTION TO APPLIED PROGRAMMING
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- Chose one course from the following list:
  - IT 212 APPLIED OO PROGRAMMING
Interactive and Social Media (BS)

The BS in Interactive and Social Media prepares students for the expanding fields of social media and interaction design. The base program integrates technical and creative disciplines such as human-computer interaction, information technology and graphic design. Concepts and skills involve web development languages, interactive scripting, human-centered design and social computing.

Concentrations

Design Concentration

The design concentration emphasizes coursework in information and interaction design as well as strategies for design of social media. It further prepares students to integrate components for social media and create finished visual designs for website, apps, and causal games.

Development Concentration

The development concentration emphasizes coursework in information technology and interaction scripting. It further prepares students to develop the web sites, mobile apps and interactive displays that they have designed.

Learning Outcomes

Students will be able to:

- Plan and conduct user research utilizing user-centered methods in interactive design projects.
- Produce design documents as part of a user-centered development process.
- Structure information to match user’s mental models and apply design patterns and principles to guide the design of user interfaces.
- Design web-based and mobile information and communication technologies.
- Build web-based and mobile information and communication technologies.
- Design interactive systems with an understanding of emerging social and technological contexts.
- Apply a variety of evaluation methods.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses...
may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

**Designing a Course of Study**

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

**Registering for Master's Degree Courses**

Combined degree students must meet regularly with their faculty advisors. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

**Bachelor's Degree to Master's Degree Transition**

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

---

**Interactive and Social Media (Minor)**

The Interactive and Social Media minor gives students a foundational skill set in the expanding field of interaction design and its applications to multimedia and web development.

**Course Requirements**

- ISM 101 FOUNDATIONS OF INTERACTIVE & SOCIAL MEDIA
- ISM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- ISM 220 INTERACTIVE DESIGN & PROTOTYPING
- IT 130 INTRODUCTORY COMPUTING FOR THE WEB or GD 110 WEB DESIGN
- ISM 270 USER-CENTERED WEB DESIGN or ISM 320 ADVANCED PRINCIPLES OF INTERACTIVITY
- Elective from the list of required and elective courses for the Interactive and Social Media major.

Students majoring in Interactive and Social Media (BS) are restricted from earning this minor.
Intercultural Communication (BA)

The B.A. in Intercultural Communication offers students an interdisciplinary degree program that is inclusive of rhetorical studies, performance studies, language and social interaction, sociolinguistics, ethnography, gender studies, public address, critical/cultural communication, and global/transnational studies. Students in this program engage theories and methods for understanding human communication across a variety of intercultural contexts, ranging from urban communication, popular culture, and consumerism to a broad intersection of identities (race, ethnicity, gender, sexuality, class, nation, age, religion, ability).

The curriculum is both deep and broad, enabling students to gain practical expertise in their area of interest while gaining a working knowledge of related areas. The curriculum focuses on ethical practice and the convergence of traditional and new media, preparing students for professional practice in an evolving marketplace. Students learn to express themselves well in oral and written communications, to think critically about communication events all around them, to develop skills valuable in the workplace, and to communicate effectively and appropriately in a diverse world.

Learning Outcomes

Students will be able to:

- Articulate the concepts, domains, and dimensions of culture and intercultural communication.
- Apply interpretive and/or critical methods to the study of cultural acts and artifacts.
- Reflexively examine global issues, power dynamics, and social inequities including diverse cultural experiences, perceptions, and behaviors.
- Employ effectively and appropriately intercultural communication skills with sensitivity and empathy.
- Demonstrate presentation skills in professional and social contexts.

College Core Requirements

All majors in the College of Communication (with the exception of Public Relations and Advertising) consist of a total of fourteen courses: a four-course common core plus an additional combination of ten program requirements and electives. The Public Relations and Advertising major consists of a total of fifteen courses: a four-course common core plus an additional combination of eleven program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:

- CMN 101 INTRODUCTION TO HUMAN COMMUNICATION
- CMN 102 INTRODUCTION TO MASS COMMUNICATION
- CMN 103 INTERCULTURAL COMMUNICATION
- CMN 104 PUBLIC SPEAKING

Students are encouraged to complete all four prior to taking additional coursework in the major.
Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination. (Note that CLEP scores may be used only to meet the language requirement. Credit is not awarded in modern languages on the basis of CLEP scores).

Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for two learning domain courses and one open elective. Students may use the Modern Language Option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the SWK or Lab). Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II

Quantitative Reasoning & Technological Literacy
Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- CMN 396 CAPSTONE IN COMMUNICATION *

Learning Domains

Arts and Literature (AL)

- 2 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 2 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Note

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit
already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

- One presentation course chosen from the following list:
  - CMNS 230 PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY
  - CMNS 330 TOPICS IN PERFORMANCE
  - CMNS 336 STORYTELLING: COMMUNICATION AS NARRATIVE
  - CMNS 339 PERFORMANCE OF GENDER & SEXUALITY
  - CMNS 365 ARGUMENTATION, ADVOCACY, AND DELIBERATION
  - CMNS 367 PERFORMANCE FOR SOCIAL CHANGE
  - CMNS 369 PERFORMANCE OF HUMOR
- Seven courses from the following list, totaling 28 hours:
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS
  - CMN 398 STUDY ABROAD
  - CMNS 205 COMMUNICATION, CULTURE AND COMMUNITY
  - CMNS 206 COMMUNICATING MULTICULTURAL IDENTITIES
  - CMNS 230 PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY
  - CMNS 290 COMMUNICATION WORKSHOP (VARIABLE TOPICS) (2 cr.)
  - CMNS 307 TOPICS IN POLITICAL AND SOCIAL COMMUNICATION
  - CMNS 308 TOPICS IN INTERCULTURAL COMMUNICATION
  - CMNS 309 INTERNATIONAL/GLOBAL COMMUNICATION
  - CMNS 310 DISCOURSE ANALYSIS
  - CMNS 321 CULTURAL AND SYMBOLIC CRITICISM
  - CMNS 323 SOCIAL MOVEMENTS
  - CMNS 324 CULTURE OF CONSUMPTION
  - CMNS 325 PROMOTING SUSTAINABLE PRACTICES
  - CMNS 326 ENVIRONMENTAL POLITICS AND RHETORIC
  - CMNS 327 RESEARCHING RELATIONSHIPS
  - CMNS 328 HISTORY OF RHETORIC AND COMMUNICATION
  - CMNS 329 PERSUASION
  - CMNS 330 TOPICS IN PERFORMANCE
  - CMNS 331 COMMUNICATION FIELDWORK
  - CMNS 332 TOPICS IN INTERCULTURAL COMMUNICATION METHODOLOGY
  - CMNS 333 CULTURAL WAYS OF SPEAKING
  - CMNS 334 URBAN COMMUNICATION
  - CMNS 335 LATINO COMMUNICATION, CULTURE, & COMMUNITY
  - CMNS 336 STORYTELLING: COMMUNICATION AS NARRATIVE
  - CMNS 337 ASIAN-AMERICAN MEDIA REPRESENTATIONS
  - CMNS 338 ASIAN CULTURE AND COMMUNICATION
  - CMNS 339 PERFORMANCE OF GENDER & SEXUALITY
  - CMNS 361 GENDER AND COMMUNICATION
  - CMNS 365 ARGUMENTATION, ADVOCACY, AND DELIBERATION
  - CMNS 367 PERFORMANCE FOR SOCIAL CHANGE
  - CMNS 369 PERFORMANCE OF HUMOR
  - CMNS 382 QUANTITATIVE RESEARCH METHODS IN COMMUNICATION STUDIES
  - CMNS 393 COMMUNICATION STUDIES PRACTICUM (2 cr.)
- Any two College of Communication courses as electives (8 hours)

Internship Credit
Students in the major may take CMN 394 COMMUNICATION INTERNSHIP and/or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor’s/ Master’s Degree

The combined Bachelor’s/Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The following Communication graduate programs have been approved as combined degree options:

- Digital Communication and Media Arts (MA)
- Health Communication (MA)
- Journalism (MA)
- Media and Cinema Studies (MA)
- Organizational and Multicultural Communication (MA)
- Public Relations and Advertising (MA)
- Relational Communication (MA)

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their B.A. degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Digital Communication and Media Arts (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Digital Communication and Media Arts coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the DCMA core courses (CMNS 570 and MCS 575) and one DCMA elective course during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Health Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, and have successfully completed three 300-level courses in their major are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Health Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take the HTHC core courses (HTHC 515, HTHC 516, HTHC 517) during the senior year. Students admitted to
the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Journalism (MA)**

Students with junior status who have earned a 3.25 GPA in their major courses and 3.0 cumulative GPA are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample or project that demonstrates the applicant's ability in journalism, and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Journalism coursework which will fulfill undergraduate Journalism major electives, communication electives and/or open electives. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirements, they will not be allowed to continue as a graduate student in the program.

**Media and Cinema Studies (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Media and Cinema Studies coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the MCS core courses (MCS 501, MCS 502, MCS 504) and one MCS elective during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Organizational and Multicultural Communication (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, and have successfully completed three 300-level Communication courses are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, CMNS 501, CMNS 541, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Public Relations and Advertising (MA)**

Students with junior status who have earned a 3.25 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, have successfully completed three 300-level Communication courses, and are currently holding one or more PRAD internships or jobs are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), one letter of recommendation from a PRAD professor, and one letter of recommendation from a supervisor at a PRAD-related internship or job.

During their senior year students complete 12 graduate credit hours of Public Relations and Advertising coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take three core courses during their senior year (examples: PRAD 553, PRAD 555, PRAD 575, and PRAD 585). Students admitted to the program must earn a B or better in each of the three graduate courses
they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Relational Communication (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Relational Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, RELC 500*, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

* For BA/MA students who are completing their BA in Relational Communication and seeking an MA in Relational Communication, the core course requirement of RELC 500 – Theories of Relational Communication will be waived. Students waived from having to take RELC 500 will replace the course with an additional graduate RELC elective course (still completing the required total of 48-credit hours).

**Intercultural Communication (Minor)**

In the Intercultural Communication minor program, you will study the theories and methods necessary to analyze communication among and between diverse communities and ethnic groups within the United States.

**Course Requirements**

To complete the minor in Intercultural Communication, students must take:

- CMN 103 INTERCULTURAL COMMUNICATION
- CMN 104 PUBLIC SPEAKING
  or CMNS 230 PERFORMANCE, COMMUNICATION, CREATIVITY AND THE BODY
- Four additional courses chosen from
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 398 STUDY ABROAD
  - CMNS 205 COMMUNICATION, CULTURE AND COMMUNITY
  - CMNS 308 TOPICS IN INTERCULTURAL COMMUNICATION
  - CMNS 309 INTERNATIONAL/GLOBAL COMMUNICATION
  - CMNS 310 DISCOURSE ANALYSIS
  - CMNS 321 CULTURAL AND SYMBOLIC CRITICISM
  - CMNS 330 TOPICS IN PERFORMANCE
  - CMNS 333 CULTURAL WAYS OF SPEAKING
  - CMNS 334 URBAN COMMUNICATION
  - CMNS 337 ASIAN-AMERICAN MEDIA REPRESENTATIONS
  - CMNS 338 ASIAN CULTURE AND COMMUNICATION
  - CMNS 339 PERFORMANCE OF GENDER & SEXUALITY
  - CMNS 361 GENDER AND COMMUNICATION
  - CMNS 382 QUANTITATIVE RESEARCH METHODS IN COMMUNICATION STUDIES

Students majoring in Intercultural Communication (BA) are restricted from earning this minor.
International Business (Minor: Business Students Only)

Students in the Driehaus College of Business who demonstrate a proficiency in a modern language may minor in International Business. Students will learn about factors affecting international trade, monetary economics, and political economy with a special focus on a particular economic hot spot.

The International Business minor is available to Driehaus College of Business students only. A student must be able to demonstrate that he or she has modern language proficiency through the intermediate level of college coursework to complete the minor.

Declaration Requirements

To declare a minor in International Business, a Driehaus student must meet the following requirements:

- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201 (or HSP 207 for Hospitality Leadership majors, or ACC 370 for Accounting majors), ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.000
- No grade of IN, R, or lower than C- in any course used toward the International Business minor

Course Requirements

The minor consists of six to ten courses totaling 24.0-36.0 hours:

- One economics course to be chosen from:
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - PSC 344 WORLD POLITICAL ECONOMY
- International business courses (8.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 330 THE ECONOMICS OF SOCIALISM
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA'S ECONOMY
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 358 MARKETING IN A GLOBAL ENVIRONMENT (available only to Marketing Honors majors)
  - MKT 360 INTERNATIONAL MARKETING
- Three to six modern language and/or area studies courses (related to the language being studied)

Modern Language and Area Studies

The exact mix of language and area studies courses is determined by the student’s starting level in the modern language.

1. For a student with limited language background who does not place out of any college level language course, two years of college level language instruction (six courses through the intermediate level) are required.
2. For a student who places out of one or more of the college language courses, he/she will start the language sequence at the appropriate placement and continue it through the intermediate level of instruction. If the student needs fewer than three language courses to complete the intermediate sequence,
the student will take either advanced language or area studies courses to complete the minimum three course language/area studies requirement.

Examples of language/area studies mix:

1. A Driehaus student wishing to pursue the IB minor tests out of SPN 101 and SPN 102. The student begins language instruction in SPN 103 (which completes the introductory sequence), and then continues with the intermediate sequence of SPN 104/105/106. The student completes the minor with the 3 international economics/business requirements plus the 4 language courses, for a total of seven courses.

2. A Driehaus student wishing to pursue the IB minor tests out of SPN 101/102/103/104. The student begins language instruction in SPN 105 and completes the intermediate sequence with SPN 106. Because the student has taken only two courses to complete the intermediate sequence, he/she will take an additional advanced language or area studies course to complete the minimum 3 course language/area studies requirement. Along with the 3 international economics/business requirements, this student can complete the minor with a total of six courses.

Economics/International Business Courses

The three courses taken for the Economics/International Business requirements must be chosen from at least two different departments. The one course taken for the economics requirement may not be used again for the two course international business requirement; course sharing is not allowed.

Graduation Requirements

All courses used toward the International Business minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

International Communication (Minor)

The interdisciplinary minor in International Communication draws from the College’s rich curricular offerings in Journalism, Public Relations and Advertising, Media and Cinema Studies, Relational, Organizational, and Intercultural Communication. Focusing on contemporary international and global issues and debates, the courses will examine the intersections of culture, identity, politics, education, labor, media, technology, and global information flows. Thus, this minor will develop international understanding, cultural intelligence, inclusivity and sensitivity, critical and analytical skills that teach different ways of being and doing in diverse settings. It will also enhance the cross-cultural appreciation required to compete in an increasingly multicultural, multiethnic, and global workplace. The courses may focus on one or more countries beyond the United States. They may focus on a region, a continent or consider global issues more generally. The interdisciplinary depth of courses, faculty expertise and industry connections, as well as the theoretical and practical knowledge acquired in this minor will enable students to become globally competitive candidates ready to engage in the 21st century job market.

Course Requirements

Choose six from the following courses (24 hours):

- CMN 398 STUDY ABROAD
- CMNS 309 INTERNATIONAL/GLOBAL COMMUNICATION
- CMNS 311 TOPICS IN RELATIONAL COMMUNICATION
- CMNS 338 ASIAN CULTURE AND COMMUNICATION
- JOUR 310 COMPARATIVE MEDIA SYSTEMS OR GLOBAL JOURNALISM
- JOUR 367 INTERNATIONAL REPORTING
  - or JOUR 519 INTERNATIONAL REPORTING
- MCS 251 SPACES OF CINEMA IN ROME
- MCS 252 CONTEMPORARY ITALIAN CULTURE THROUGH FILM
- MCS 350 TOPICS IN GLOBAL CINEMA
- MCS 375 LATINO/A TELEVISION AND MEDIA
- MCS 376 LATIN AMERICAN CINEMA
- ORGC 357 TOPICS IN GROUP AND ORGANIZATIONAL COMMUNICATION
Each course should have at least 50 percent or more of the content related to international or global issues. Such content may include issues pertaining to the United States as long as they are discussed within an international or global context.

International Politics (Minor)

The minor in international politics is designed to provide the non-major with an opportunity to develop a specialty in the domestic and international politics of regions outside the United States.

Course Requirements

- PSC 140 INTRODUCTION TO INTERNATIONAL RELATIONS
- PSC 150 INTRODUCTION TO COMPARATIVE POLITICS
- Two of the following 200-level courses:
  - PSC 242 AMERICAN FOREIGN POLICY
  - PSC 243 RUSSIAN-AMERICAN RELATIONS
  - PSC 244 LATIN AMERICAN-UNITED STATES RELATIONS
  - PSC 245 FOREIGN POLICIES OF WESTERN EUROPE
  - PSC 246 ASIAN FOREIGN POLICY
  - PSC 247 U.S. - AFRICA RELATIONS
  - PSC 249 TOPICS IN INTERNATIONAL RELATIONS
  - PSC 250 EUROPEAN POLITICS
  - PSC 251 RUSSIAN POLITICS
  - PSC 252 LATIN AMERICAN POLITICS
  - PSC 253 ASIAN POLITICS
  - PSC 254 AFRICAN POLITICS
  - PSC 255 MIDDLE EAST POLITICS
  - PSC 259 COUNTRY STUDIES
- Two of the following 300-level courses:
  - PSC 340 THE EUROPEAN UNION
  - PSC 341 POLITICAL ISLAM AND AMERICAN FOREIGN POLICY
  - PSC 342 ARMS, SECURITY, AND WAR
  - PSC 343 ASIAN POLITICAL ECONOMY
  - PSC 344 WORLD POLITICAL ECONOMY
  - PSC 345 THE CATHOLIC CHURCH IN WORLD POLITICS
  - PSC 346 THE UNITED NATIONS AND WORLD PROBLEMS
  - PSC 347 ETHICS IN WORLD POLITICS
  - PSC 349 ADVANCED TOPICS IN INTERNATIONAL RELATIONS
  - PSC 350 JAPANESE POLITICS
  - PSC 351 REVOLUTION AND TERRORISM
  - PSC 352 CHINESE POLITICS
  - PSC 353 COMPARATIVE DEMOCRACY AND DICTATORSHIP
  - PSC 354 POLITICAL REPRESENTATION IN COMPARATIVE PERSPECTIVE
  - PSC 356 ETHNIC CONFLICT IN THE THIRD WORLD
  - PSC 358 GLOBAL GENDER ISSUES
  - PSC 359 ADVANCED TOPICS IN COMPARATIVE POLITICS
  - PSC 361 INTERNATIONAL LAW

Students majoring in Political Science (B.A.) or minoring in American Politics or Public Law/Political Thought are restricted from earning this minor.
International Studies (BA)

Our undergraduate program is designed to equip students with the interdisciplinary approach, critical thinking skills and international perspectives necessary to address real world challenges. Students can expect to be challenged by a rigorous interdisciplinary curriculum founded in critical social theory and international political economy. Undergraduate students are required to take seven core classes that, taken together, explore and problematize notions of culture, migration, conflict, governance, popular movements, and identities and boundaries. In the process, students acquire critical reading, writing, research, and problem-solving skills tailored to contemporary local, regional, and international challenges.

The BA program is unique for its interdisciplinary approach to international studies and commitment to placing the themes of power and inequality at the heart of academic inquiry. Unlike conventional programs that focus on international security and economy, our program addresses the economic in conjunction with the political and social. Moreover, undergraduates are encouraged to develop second-language proficiency through two years of intensive language study, and we encourage study abroad in a country where the second language is spoken. Students learn to think in more international and interdisciplinary contexts, to value social and cultural complexity, and to question conventional wisdom. As a result, our students often engage in activism and social justice work in Chicago, nationally, and internationally.

Internships

Students in the INT Department pursue internship opportunities to gain job experience, investigate career possibilities, earn academic credit, and round out their concentrations. We work with the University Internship Program to help students find or create an internship that suits their particular interests. Our students have worked at local and international non-profit organizations, consulates, government offices, international businesses, and cultural institutions, including RefugeeOne, the Council for American-Islamic Relations, the Puerto Rican Cultural Institute, and the European Community Commission’s Office in Brussels, which offers a unique research internship.

Study Abroad Programs

All International Studies majors are encouraged, but not required, to participate in study abroad programs. Study abroad challenges students to develop cultural competency, expand their education through diverse intellectual perspectives, and engage with local and global challenges. DePaul University sponsors study abroad opportunities with a range of course offerings, including intensive language-learning classes, cultural and historical studies, public service, and business. Some INT students pursue study abroad programs outside of DePaul that match their particular interests.

Employers of Graduates

The combination of language training with rigorous preparation in interdisciplinary social sciences and political economy opens doors to careers in nonprofits and community organizations, international non-governmental organizations, international diplomatic entities, international law, international commerce and cross cultural communications.

Combined Bachelor’s/ MA Option

The Department of International Studies offers a combined degree program that allows academically outstanding students the opportunity to complete their current bachelor's degree and a master's degree in International Studies in only one additional year. This program is open to all majors. Students apply in the spring of their junior year. Students interested in the bachelor's/MA program in International Studies should contact the INT academic advisor, Mallory Warner, at mallory.warner@depaul.edu.

Graduate School

Students who complete the major in International Studies are prepared with the writing and critical thinking skills necessary to go on to graduate school and many choose to pursue advanced degrees in the political, economic, anthropological, sociological, geographical, historical, linguistic, or literary fields. We have placed students in prestigious graduate programs with membership in the Association of Professional Schools of International Affairs, including those at Johns Hopkins University, Tufts University, University of Maryland, Georgetown University, University of California at San Diego, and University of Colorado at Boulder. Additionally, our students have entered University of California at Berkeley, University of Chicago, Emory University, University of Illinois, Indiana University, University of Michigan, Northwestern University, University of Wisconsin at Madison, and Yale University in languages or the social sciences.
Learning Outcomes

Students will be able to:

- Produce written and/or oral work that exhibits mastery of the content areas found in the core courses of the major: nationalism, international relations, social movements, cultural analysis, international political economy, and critical geography.
- Write scholarly essays presented in a format consistent with The Chicago Manual of Style:
  - Using reliable primary and/or scholarly sources.
  - Drawing valid inferences from the evidence presented.
  - Making unified arguments, logically presented, that are coherent and cohesive.
- Make arguments, whether in a written or oral context, that are logically valid and based on reliable evidence, critique arguments that are logically invalid or lack adequate evidence, and use these to propose well-considered real-world courses of action.
- Conduct research or communicate in professional contexts using at least one language other than English.
- Analyze the mathematical basis of moderately technical arguments in the field of international political economy.
- Analyze how historical pathways inflect present meanings and both constrain and enable what can be done in the present and the future.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration. Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in...
The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing
Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- INT 301 SENIOR SEMINAR * [See Note Below]

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 2 Courses Required:
  - ECO 106 PRINCIPLES OF MACROECONOMICS
  - GEO 201 GEOPOLITICS

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 1 Course Required
  (Note: This course must focus on a geographic area outside of the student's area of specialization)

* Students must earn a C- or better in this course.

Notes

See an advisor to utilize the modern language option.

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.
A student majoring in International Studies (INT) is required to complete the Capstone offered by the INT Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An INT major in the University Honors Program shall take the University Honors Capstone and the INT Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

**Major Requirements**

**Course Requirements**

- GEO 201 GEOPOLITICS
  - or HON 201 STATES, MARKETS, AND SOCIETIES (Counts for Social, Cultural, and Behavioral Inquiry)
- ECO 106 PRINCIPLES OF MACROECONOMICS (Counts for Social, Cultural, and Behavioral Inquiry)
- INT 200 INTRODUCTION TO MACROECONOMICS IN AN INTERNATIONAL CONTEXT
- INT 201 THE EVOLUTION OF THE MODERN NATION STATE
- INT 202 INTERNATIONAL CONFLICT AND COOPERATION
- INT 203 INTERNATIONAL MOVEMENTS IN THE 20TH AND 21ST CENTURIES
- INT 204 CULTURAL ANALYSIS
- INT 205 INTERNATIONAL POLITICAL ECONOMY
- INT 206 IDENTITIES AND BOUNDARIES
- INT 301 SENIOR SEMINAR (Counts for the LSP senior capstone)
- Five courses in an individualized concentration
- Second Language Proficiency (coursework through 106)

**Individualized Concentration (5 courses)**

All international studies majors are required to complete a twenty-credit individualized concentration designed in consultation with their faculty advisors. This concentration provides students with a depth of knowledge on a particular theme, approach, region, and/or question of some international importance. The concentration is restricted to 300-level INT courses (including cross-listed courses), with the following exceptions:

- Study Abroad: Up to eight credits (two courses) from Study Abroad may be counted toward the concentration, if approved in advance by the student's faculty advisor.
- Double Majors/Minors: Up to eight credits (two courses) in a double major or minor can be applied to the concentration, if approved in advance by the student's faculty advisor.

**Language Requirement**

Proficiency in a language other than English is required and can be demonstrated through passing grades in college coursework through the intermediate (second-year) level, up to and including 106. Students who enter the program with second language skills developed outside of formal college coursework may petition the director to demonstrate proficiency by examination in order to satisfy the language requirement. The assessment
and proficiency tests can be taken on Campus Connect.

**Open Electives**

Open elective credit is also required to meet the minimum graduation requirement of 192 hours. International Studies majors have 60 open elective credit hours. Courses taken to meet the second language proficiency requirement count as electives.

**Combined Bachelor's/ Master's Program**

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students interested in applying to one of the BA/MA programs in International Studies should contact the INT academic advisor, Mallory Warner, at mallory.warner@depaul.edu.

**International Studies (BA)/ International Studies (MA)**

INT majors apply to this program by April 15th of their junior year. Applicants must have completed INT 201, INT 202, and INT 203 with a grade of B+ or higher and have an overall GPA of 3.5 or above.

INT students in this program take INT 401 and two other 400-level courses in their senior year. For students admitted to the five-year program, the three graduate-level INT courses taken in the senior year will count toward their individualized concentrations in the INT major as well as their graduate degree. Additionally, BA/MA students will begin their thesis research during their senior year in INT 301, the International Studies Senior Seminar.

**History (BA)/ International Studies (MA)**

History majors apply to this program by April 15th of their junior year. Applicants must have an overall GPA of 3.5 or above.

History students in this program take INT 401 and two other INT 400-level courses in their senior year. These three graduate-level courses will count toward open electives in the history major as well as requirements in the MA degree. Whenever possible, HST majors will begin their thesis research during their senior year in HST 390, the History Senior Seminar. If this is not possible (e.g. a student's thesis interests do not fit within the theme of HST 390 for that year), then HST majors will be required to take INT 301 as an elective in order to begin their thesis research.

**Other DePaul Majors (BA or BS)/ International Studies (MA)**

Students in any undergraduate major at DePaul University are invited to apply to the five year combined degree program in order to complete the MA in International Studies in their fifth year at DePaul. Applications are due by April 15th of the student's junior year. Applicants must have an overall GPA of 3.5 or above.

Students in this program will take INT 401 and two other INT 400-level courses in their senior year. These three graduate-level courses will count as undergraduate electives as well as requirements in the MA degree. Students are also required to take INT 301 in their senior year in order to begin their thesis research.
International Studies (Minor)

For students who do not wish to or are unable to pursue a major in International Studies, the minor offers the opportunity to gain a basic grounding in a rigorous, interdisciplinary approach to international affairs. Students who pursue this minor will benefit from an introduction to theories of nationalism, international relations, social movements, cultural studies, international political economy, and critical geography.

The minor can complement traditional disciplines, as well as other interdisciplinary programs, by providing students with the theoretical tools necessary to critically analyze pressing global issues. Additionally, students will build their writing, reading, and research skills through the coursework required for the minor.

Course Requirements

- INT 200 INTRODUCTION TO MACROECONOMICS IN AN INTERNATIONAL CONTEXT
- INT 201 THE EVOLUTION OF THE MODERN NATION STATE
- INT 202 INTERNATIONAL CONFLICT AND COOPERATION
- INT 203 INTERNATIONAL MOVEMENTS IN THE 20TH AND 21ST CENTURIES
- INT 204 CULTURAL ANALYSIS
- INT 205 INTERNATIONAL POLITICAL ECONOMY
- INT 206 IDENTITIES AND BOUNDARIES

Note that ECO 106 and ECO 105 or INT 200 are prerequisites for INT 205.

Students majoring in International Studies (BA) are restricted from earning this minor.

Irish Studies (Minor)

The Irish Studies minor is an interdisciplinary academic program focused on Ireland and its place in the world. The purpose of the minor is to give students access to another culture in order to enable them to better understand the role of culture in human society.

The study of Ireland is particularly apposite for a number of reasons:

1. Ireland has a rich history, culture and literature that in itself is worthy of study.
2. The Irish experience epitomizes a variety of processes which are of relevance to an understanding of today's world. Among them are:
   1. an experience of colonialism and development
   2. the phenomenon of emigration and diaspora
   3. a changing interaction with adjacent countries
   4. finding a place in Europe and a globalized world
   5. searching for cultural identity
   6. coping with intercommunal, political conflict and violence, and reconfiguring the role of women in society
3. How Ireland has dealt with issues such as the environment and the configuration of gender roles can provide a point of comparison for and reflection on American experience.
4. The study of Ireland provides insights on how American influence impinges on other cultures.
5. Irish immigration into the United States has proved to be a formative influence on the development of American society. The study of Ireland can contribute to the shifting search for personal and social identity within America itself.

Course Requirements

Students can complete the 6 course Irish Studies Minor by completing one of the following two tracks:
1) For students who complete courses at DePaul University Chicago campus (i.e. do not participate in the Dublin Internship):

- IRE 100 INTRODUCTION TO IRISH STUDIES
- 5 additional approved elective courses in Irish Studies. Courses must be taken from at least three separate departments/programs and must represent a range of topics/issues.

2) For students who participate in DePaul's Parliamentary Internship in Dublin:

The College of Liberal Arts and Social Sciences offers a study abroad program in Dublin, Ireland, twice each year. It provides an excellent opportunity for students to get to know Ireland at first hand. It is not a compulsory part of the minor in Irish Studies. However, students taking part in the Study Abroad Program in Dublin may gain credit for four courses that count towards completion of the minor. Thus, for students who successfully complete the Dublin Internship, the requirements for the IRE minor are as follows:

- IRE 100 INTRODUCTION TO IRISH STUDIES
- 1 additional approved elective course in Irish Studies

For further information on the Dublin Parliamentary Internship courses please contact the Director of the Irish Studies Program.

**Irish Studies Courses**

**General Irish Studies**

- IRE 100 INTRODUCTION TO IRISH STUDIES

**History**

- HST 266 IRELAND, 1450 - 1800, CONQUEST, COLONIZATION & REBELLION
- HST 268 IRELAND, 1800-PRESENT

**Literature**

- ENG 346 NINETEENTH CENTURY IRISH LITERATURE
- ENG 354 THE IRISH REVIVAL
- ENG 355 MODERN IRISH LITERATURE
- ENG 456 CONTEMPORARY IRISH LITERATURE
- ENG 357 TOPICS IN IRISH STUDIES: (e.g. Irish women's literature) *
- ENG 339 TOPICS IN RESTORATION AND 18TH CENTURY ENGLISH LITERATURE: (e.g. Jonathan Swift) *
- ENG 382 MAJOR AUTHORS: (e.g. James Joyce) *

**Nature and Culture**

- REL 260 RELIGION AND POLITICAL CONFLICT: Ireland *
- GEO 204 RELIGIOUS GEOGRAPHY
- GEO 370 ADVANCED TOPICS IN CULTURAL GEOGRAPHY: Celtic Geographies *
- WGS 249 GENDER AND POLITICS IN IRELAND

**Experiential Learning**

**Independent Study**

- IRE 379 INDEPENDENT STUDY (a course, approved by the director of the program, can be taken with a member of the Irish-Studies faculty).

**Ancillary Studies**

- HST 323 THE CULTURES OF EARLY CHRISTIANITY
- CPL 319 TOPICS IN COMPARATIVE LITERATURE: Aspects of Empire *
- ENG 389 TOPICS IN COMPARATIVE LITERATURE: Aspects of Empire *
- GEO 201 GEOPOLITICS
- GEO 316 THE EUROPEAN UNION

Courses marked *are topical courses which may sometimes be on an Irish topic and sometimes not. Only when an Irish topic is offered -- as given in the examples in parentheses in the list of courses above -- will it count for the Irish Studies minor. When you register for such a course it will not automatically show up on the list of Irish Studies courses you have taken. You will need to contact the Director of Irish Studies at the beginning of the
quarter, providing your name, DePaul ID number and SSN, and ask that the course be credited towards your Irish Studies minor. In due course the course will be credited towards the minor. This only applies to courses marked *. The process should work automatically for other courses.

Islamic World Studies (BA)

Islamic World Studies is an interdisciplinary program. Islamic World Studies courses focus on the academic study of the Islamic World. In this program Islamic civilization is viewed as a meta-culture, which grew and was sustained by an Arab core plus the accretion of knowledge from the diverse cultures that embraced it. Islamic World Studies will ground students in a study of Islam as a worldview/civilization by first engaging in an exploration of the primary texts, history, and cultural traditions and then examinations of specific communities.

A major in Islamic World Studies prepares students for graduate study and for careers in foreign policy, public policy, diplomatic corps, social services, consultation, and education.

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Describe and discuss cultural manifestation of Islam in at least three global regions including the authoritative centers in Arabic speaking countries with emphasis on cultural adaptations, modifications and innovations.
- Articulate the historical and contemporary tensions around pluralism, authority (public and private) in domestic and societal life, relationships with other religious communities.
- Produce effective written essays that compare and contrast Islam in regions where it is the dominate religion and where it is a minority religion.
- Write on the major events in Islamic history.
- Use the major texts and research tools in Islamic studies.
- Articulate the central beliefs and practices of the religion of Islam across the branches and in the schools of legal thought.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and...
mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration. Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

- 2 Courses Required

Religious Dimensions (RD)

- 1 Course Required
  (Note: Course must be in an area other than the study of Islam)

Scientific Inquiry (SI)
Major Requirements

Course Requirements

Core

- IWS 191 ISLAMIC WORLD STUDIES I
- IWS 192 ISLAMIC WORLD STUDIES II
- IWS 217 MUSLIM CULTURES IN GLOBAL CONTEXT
- One of the following two course sequences:
  - Sequence One
    - HST 141 THE MUSLIM WORLD, C. 600 CE TO 1100
    - HST 142 THE MUSLIM WORLD, 1000-1500
  - Sequence Two
    - HST 143 THE MUSLIM WORLD, 1400-1920
    - IWS 266 ISLAM IN THE UNITED STATES
- IWS 395 SENIOR CAPSTONE SEMINAR

Arabic Language Requirement

- ARB 101 BASIC ARABIC I
- ARB 102 BASIC ARABIC II

Notes

Please consult an advisor about using the Modern Language Option.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Middle Eastern Islam
- Islam and World Politics
- Individually Constructed

Middle Eastern Islam Concentration

Course Requirements

Choose five courses from the following list:

- ANT 240 CULTURES OF THE MIDDLE EAST
- HST 142 THE MUSLIM WORLD, 1000-1500
  or HST 143 THE MUSLIM WORLD, 1400-1920
- PSC 255 MIDDLE EAST POLITICS
- IWS 263 RELIGION AND POLITICS IN THE MIDDLE EAST
- IWS 215 MUSLIMS IN AMERICAN FICTION AND FILM
Islam and World Politics Concentration

Course Requirements
The following five courses are required:

- PSC 255 MIDDLE EAST POLITICS
- IWS 263 RELIGION AND POLITICS IN THE MIDDLE EAST
- IWS 265 REFORM MOVEMENTS WITHIN ISLAM
- IWS 295 SECTARIAN MOVEMENTS WITHIN ISLAM
- one 200- or 300-level IWS elective approved by the program Director

Individually Constructed Concentration

Course Requirements
Must be approved by Program Director and consist of 5 courses/20 credits.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Islamic World Studies (Minor)

A minor in Islamic World Studies will allow students the flexibility of adding a minor while also maintaining the integrity of the program. Students will need to take the following three courses:

Required Courses:
- IWS 191 ISLAMIC WORLD STUDIES I
- IWS 192 ISLAMIC WORLD STUDIES II
- IWS 217 MUSLIM CULTURES IN GLOBAL CONTEXT

The remaining three courses can be any courses listed or cross-listed with Islamic World Studies:

- IWS 116 THE ISLAMIC EXPERIENCE
- IWS 215 MUSLIMS IN AMERICAN FICTION AND FILM
- IWS 218 INTRODUCTION TO ISLAM IN SOUTH ASIA
- IWS 220 MUSLIM HISTORIES IN LATIN AMERICA, THE CARIBBEAN, AND LATINO USA
- IWS 224 ISLAMIC LAW (SHARIAH) AND AMERICAN CULTURE
- IWS 230 ISLAMIC FINANCE
- IWS 251 ISLAMIC ART
- IWS 263 RELIGION AND POLITICS IN THE MIDDLE EAST
- IWS 265 REFORM MOVEMENTS WITHIN ISLAM
- IWS 266 ISLAM IN THE UNITED STATES
- IWS 270 ISLAMIC ETHICS
- IWS 271 THE QUR'AN AND ITS INTERPRETERS
- IWS 272 GENDER AND SEXUALITY IN MUSLIM CULTURES
Students majoring in Islamic World Studies (BA) are restricted from earning this minor.

Italian (BA)

From ancient Rome to the European Union, Italy has always been at the core of the humanist tradition and the heart of world affairs. A degree in Italian offers a broad-based humanities education with crucial skills in reading, writing, and critical thinking useful for any number of pursuits after college. DePaul's Italian program gives students the opportunity to attain advanced language proficiency while studying all aspects of Italian literature and culture. Our majors have gone on to career paths in teaching, government, and business both in the US and abroad. Others have enrolled in prestigious graduate programs in language, literature, and law.

Faculty members in the Italian section at DePaul have interests and expertise in many different facets of Italian language and culture. Topics of our regular course offerings include:

- Advanced Italian
- Business and Commercial Italian
- Culture and Geography
- Food and Wine
- History and Politics
- Language and Linguistics
- Literature
- Translation

We also offer a concentration in Italian education for students interested in teaching. Many of our advanced Italian students choose to double major in Italian and another discipline such as art, music, international studies, or political science.

The DePaul Italian program includes a study abroad option at Italiaidea, our school in Rome, which allows students to grow linguistically and experience Italian culture first-hand. DePaul students in Rome live in apartments, often with other international students, or with an Italian host family. Students will also be able to spend a semester or year in Milan through DePaul's partnership with Università Cattolica. Home to one of the largest Italian-American communities in the US, Chicago also offers a dazzling array of resources—the Italian Cultural Institute, museums, galleries, film centers, restaurants and cafés—that give students the opportunity to immerse themselves in Italian language and culture right here in the city.

DePaul University Winter/Spring/Summer 2016-2017 Page 520 of 2776
Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information
  - Express feelings and emotions.
  - Exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
• completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
• completing the final course of a four-year sequence of the same modern language in high school*
• completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
• completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

• LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Sophomore Year
Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- Required *

Learning Domains

Arts and Literature (AL)

- 1 Course Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit.
already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

- ITA 201 ADVANCED COMMUNICATION I
- ITA 202 ADVANCED COMMUNICATION II
- ITA 203 ADVANCED COMMUNICATION III
- Eight 300-level ITA courses

Students who begin their study of Italian at DePaul with ITA 202 or higher may substitute a 300-level Italian elective course for any of the required 200-level courses.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Italian (Minor)

The Italian minor gives students the opportunity to develop basic linguistic and cultural skills, to train in creative and critical thinking, and prepare for a career in our multicultural society.

The minor consists of a total of 5 courses in Italian language at the 200/300-level.

Students majoring in Italian (BA) are restricted from earning this minor.

Japanese (Minor)

The Japanese language minor prepares students to speak and read with a basic proficiency in one of the world’s most important languages for business.

The minor consists of a total of 5 courses in Japanese language at the 200/300-level.

Students majoring in Japanese Studies (BA) or minoring in Japanese Studies are restricted from earning this minor.
Japanese Studies (BA)

The Japanese Studies program focuses on Japanese language, literature and culture. Because Japanese is a major world language with more than 130 million speakers, having the ability to understand and communicate in Japanese will provide students with international career opportunities.

The Japanese Studies curriculum allows students to take courses from many academic departments, including:

- Art history
- Geography
- History
- International Studies
- Literature
- Political Science
- Religious Studies

Japanese Studies students are encouraged to participate in one of DePaul's Study Abroad programs in Kyoto, Nagoya or Osaka, in order to grow linguistically and expand their understanding of the Japanese culture.

Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information.
  - Express feelings and emotions.
  - Exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.
College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (MLO) of the Liberal Studies Program (see “Special Programs”).

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Jazz Studies (BM)

The Bachelor of Music in Jazz Studies degree prepares students for careers as jazz professionals. Drawing upon the resources of the Chicago jazz scene, faculty members are highly celebrated performers, teachers, composers, and arrangers. The program is comprised of applied jazz lessons, jazz ensembles and combos, jazz improvisation, jazz theory and history, arranging and composition, and pedagogy.

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform with an acceptable tone quality, pitch and rhythmic accuracy, dynamic control, articulation, and expressiveness.
- Participate in a musical ensemble, with appropriate technique and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
Program Specific Outcomes

Students will be able to:

- Perform and improvise on an instrument as a soloist or in an ensemble, with technical proficiency, e.g., tone production, intonation, articulation, technical facility, and rhythmic conception, and musicality at the level of an advanced student or higher.
- Read and sight-read music, with correct musical interpretation.
- Demonstrate an understanding of jazz theory and harmony; possess a vocabulary of jazz figures applicable to improvisation.
- Demonstrate growing maturity in musical concepts
- Demonstrate growing maturity in musical concepts - using tools of performance to create artistic products.
- Work independently by fulfilling weekly musical assignments in applicable courses, applied lessons, and ensembles.
- Teach jazz principles and techniques on one's major instrument.
- Understand the historical context of music from significant periods of jazz history.
- Compose and arrange music for small and large jazz ensembles.
- Perform in large ensembles and jazz chamber groups
  - Collaborate, blend, and balance within an ensemble.
- Find, choose, and research repertoire.
- Plan and perform a senior recital
  - Collaborate with other musicians.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (36 credits)

- Musicianship Sequence
  - MUS 110 MUSICIANSHIP I
  - MUS 120 MUSICIANSHIP II
  - MUS 130 MUSICIANSHIP III
  - MUS 210 MUSICIANSHIP IV
  - MUS 220 MUSICIANSHIP V
  - MUS 230 MUSICIANSHIP VI
- Aural Training Sequence
  - MUS 111 AURAL TRAINING I
  - MUS 121 AURAL TRAINING II
  - MUS 131 AURAL TRAINING III
  - MUS 211 AURAL TRAINING IV
  - MUS 221 AURAL TRAINING V
  - MUS 231 AURAL TRAINING VI
- Group Piano Sequence
  - MUS 113 GROUP PIANO I
  - MUS 123 GROUP PIANO II
  - MUS 133 GROUP PIANO III
  - MUS 213 GROUP PIANO IV
Additional Courses

- MUS 265 MUSICAL TRADITIONS OF AMERICA AND THE WORLD
- MUS 303 BASIC CONDUCTING PRACTICUM
- MUS 304 BASIC CONDUCTING

Applied Music

Students may enroll in a maximum of 4 credits of applied study per quarter, with a maximum of 48 credits total. The requirements for applied study vary by degree program:

- BM in performance, 48 credits
- BM in jazz studies, 30 credits
- BM in composition, 24 credits
- BM in music education, 24 credits
- BM in performing arts management, 24 credits
- BA in music, 16 credits
- BS in sound recording technology, 12 credits

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. The remaining two quarters of language (8 credits) will be applied towards free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

- 2 Courses Required

* Students must earn a C- or better in this course.

**Notes**

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

**Petition to Major**

Students are admitted to a specialization on the basis of a petition to major process, which occurs during the spring of the freshman or sophomore year. The petition to major process differs for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to enroll in classes in the specialization until they have passed their petition to major.
Course Requirements

Students are required to complete the following courses for a specialization in Jazz Studies:

- Essentials of Jazz Sequence
  - JZZ 300 ESSENTIALS OF JAZZ I
  - JZZ 301 ESSENTIALS OF JAZZ II
  - JZZ 302 ESSENTIALS OF JAZZ III

- Improvisation Sequence
  - JZZ 308 JAZZ IMPROVISATION I
  - JZZ 309 JAZZ IMPROVISATION II
  - JZZ 310 JAZZ IMPROVISATION III

- Jazz History and Style
  - JZZ 303 JAZZ HISTORY AND STYLE

- Jazz Pedagogy
  - JZZ 314 JAZZ PEDAGOGY

- Jazz Arranging Sequence
  - JZZ 304 JAZZ ARRANGING AND COMPOSITION I
  - JZZ 305 JAZZ ARRANGING AND COMPOSITION II
  - JZZ 306 JAZZ ARRANGING AND COMPOSITION III

- Large Ensemble (3 credits - 1st year)
  - JZZ 200 JAZZ ENSEMBLE

- Jazz Chamber Ensemble (6 credits)
  - JZZ 201 JAZZ CHAMBER ENSEMBLE

- Jazz Rhythm Section Techniques
  - JZZ 325 JAZZ RHYTHM SECTION TECHNIQUES

- Jazz Junior Recital
  - JZZ 215 JAZZ JUNIOR RECITAL

- Jazz Senior Recital
  - JZZ 315 JAZZ SENIOR RECITAL

- Music Electives (12 credits)

- Free Electives (12 credits)

Journalism (BA)

The Bachelor of Arts degree in Journalism prepares graduates for careers as multimedia content producers and video storytellers. The program’s team of professional journalists and emphasis on experiential learning enable graduates to write, produce, and post stories that serve citizens with news worth knowing. Production facilities include a South Loop news center, green screen studio, mac labs, high end editing suites, and smart classrooms. Students particularly benefit from DePaul’s long partnership with Chicago’s professional community.

Learning Outcomes

Students will be able to:

- Write, interpret and report the news of the day.
- Understand the business many of them will be entering.
- Understand the role technology, social media and repurposing stories for multimedia platforms are playing.
College Core Requirements

All majors in the College of Communication (with the exception of Public Relations and Advertising) consist of a total of fourteen courses: a four-course common core plus an additional combination of ten program requirements and electives. The Public Relations and Advertising major consists of a total of fifteen courses: a four-course common core plus an additional combination of eleven program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:

- CMN 101 INTRODUCTION TO HUMAN COMMUNICATION
- CMN 102 INTRODUCTION TO MASS COMMUNICATION
- CMN 103 INTERCULTURAL COMMUNICATION
- CMN 104 PUBLIC SPEAKING

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination. (Note that CLEP scores may be used only to meet the language requirement. Credit is not awarded in modern languages on the basis of CLEP scores).

Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College's modern language requirement. Students selecting the option may substitute a three-course language sequence for two learning domain courses and one open elective. Students may use the Modern Language Option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the SWK or Lab). Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below.)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- CMN 396 CAPSTONE IN COMMUNICATION *

Learning Domains

Arts and Literature (AL)

- 2 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]
Social, Cultural, and Behavioral Inquiry (SCBI)

- 2 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Note

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

- JOUR 275 INTRODUCTION TO JOURNALISM
- JOUR 278 NEWS REPORTING
- JOUR 280 INTRODUCTION TO ONLINE REPORTING AND PRODUCTION
- Five additional courses (20 credits) chosen from:
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS
  - JOUR 245 NEWS EDITING
  - JOUR 276 PHOTOJOURNALISM
  - JOUR 279 FEATURE WRITING
  - JOUR 290 JOURNALISM WORKSHOP (VARIABLE TOPICS) (2 cr.)
  - JOUR 301 REPORTING FOR 14 EAST MAGAZINE
  - JOUR 303 ENTREPRENEURIAL JOURNALISM
  - JOUR 304 INTRO TO DATA JOURNALISM
  - JOUR 317 EXPERIENTIAL LEARNING
  - JOUR 330 WRITING FOR BROADCAST
  - JOUR 343 JOURNALISM AND THE AMERICAN EXPERIENCE
- JOUR 350 RADIO NEWS
- JOUR 355 NEWSCAST PRODUCING
- JOUR 360 POLITICAL COMMUNICATION
- JOUR 361 JOURNALISM LAW AND ETHICS
- JOUR 362 THE PRESS AND THE PRESIDENCY
- JOUR 364 INVESTIGATIVE REPORTING
- JOUR 365 TELEVISION NEWS I
- JOUR 366 MAGAZINE REPORTING
- JOUR 367 INTERNATIONAL REPORTING
- JOUR 368 SPORTS REPORTING
- JOUR 370 MULTIMEDIA NEWS PRODUCTION
- JOUR 371 ADVANCED REPORTING I
- JOUR 372 ADVANCED REPORTING II
- JOUR 374 COMMUNITY JOURNALISM
- JOUR 375 LONG FORM JOURNALISM
- JOUR 376 TOPICS IN JOURNALISM
- JOUR 377 SPECIAL TOPICS IN JOURNALISM
- JOUR 380 REPORTING FOR GOOD DAY DEPAUL
- JOUR 385 TELEVISION NEWS II
- JOUR 390 WRITING FOR THE DEPAULIA
- JOUR 393 JOURNALISM PRACTICUM (2 cr.)
- JOUR 399 INDEPENDENT STUDY

Two electives (8 hours) from any College of Communication offerings or from the following Digital Cinema courses:
- DC 120 VIDEO EDITING
- DC 210 DIGITAL CINEMA PRODUCTION I
- DC 220 EDITING I
- DC 271 INTRODUCTION TO TELEVISION PRODUCTION

**Internship Credit**

Students in the major may take CMN 394 COMMUNICATION INTERNSHIP and/or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Combined Bachelor's/ Master's Degree**

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs. The following Communication graduate programs have been approved as combined degree options:

- Digital Communication and Media Arts (MA)
- Health Communication (MA)
- Journalism (MA)
- Media and Cinema Studies (MA)
- Organizational and Multicultural Communication (MA)
- Public Relations and Advertising (MA)
- Relational Communication (MA)

**Deferring Admission**

Students can defer their graduate admission for one year. If students do not matriculate after completing their B.A. degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.
**Digital Communication and Media Arts (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Digital Communication and Media Arts coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the DCMA core courses (CMNS 570 and MCS 575) and one DCMA elective course during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Health Communication (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, and have successfully completed three 300-level courses in their major are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Health Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take the HTHC core courses (HTHC 515, HTHC 516, HTHC 517) during the senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Journalism (MA)**

Students with junior status who have earned a 3.25 GPA in their major courses and 3.0 cumulative GPA are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample or project that demonstrates the applicant's ability in journalism, and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Journalism coursework which will fulfill undergraduate Journalism major electives, communication electives and/or open electives. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirements, they will not be allowed to continue as a graduate student in the program.

**Media and Cinema Studies (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Media and Cinema Studies coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the MCS core courses (MCS 501, MCS 502, MCS 504) and one MCS elective during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Organizational and Multicultural Communication (MA)**
Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, and have successfully completed three 300-level Communication courses are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, CMNS 501, CMNS 541, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Public Relations and Advertising (MA)**

Students with junior status who have earned a 3.25 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, have successfully completed three 300-level Communication courses, and are currently holding one or more PRAD internships or jobs are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), one letter of recommendation from a PRAD professor, and one letter of recommendation from a supervisor at a PRAD-related internship or job.

During their senior year students complete 12 graduate credit hours of Public Relations and Advertising coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take three core courses during their senior year (examples: PRAD 553, PRAD 555, PRAD 575, and PRAD 585). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Relational Communication (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Relational Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, RELC 500*, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

* For BA/MA students who are completing their BA in Relational Communication and seeking an MA in Relational Communication, the core course requirement of RELC 500 – Theories of Relational Communication will be waived. Students waived from having to take RELC 500 will replace the course with an additional graduate RELC elective course (still completing the required total of 48-credit hours).
Journalism (Minor)

The Journalism minor provides an overview of reporting skills and methods. The flexible, hands-on curriculum offers courses that focus on a variety of topics, allowing you to take the courses that are most appealing to you.

Course Requirements

A minor in Journalism consists of a total of 24 credit hours (six courses).

- JOUR 275 INTRODUCTION TO JOURNALISM
- JOUR 278 NEWS REPORTING
- Four courses that begin with JOUR. Any of these four JOUR courses may be replaced with CMN 394 COMMUNICATION INTERNSHIP or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS, if those internships are journalism-related.

Students majoring in Journalism (BA) are restricted from earning this minor.

Latin American and Latino Studies (BA)

The Latin American and Latino Studies program explores the cultural contributions of Latin Americans to the global community and highlights perspectives and traditions that have developed in the region. It analyzes the multicultural character of the peoples of Latin America by calling attention to the complex interplay among Indigenous, European, Semitic, Arab, Asian, and African societies in the region. It explores the profound linkage that has emerged between Latin America and the United States, particularly through the construction of Latino communities in the U.S.

This interdisciplinary program explores the broad dynamics shaping Latin American and Latino experiences and draws courses and insights from the fields of film and media studies, art and art history, geography, political science, religious studies, sociology, history, anthropology, modern languages, international studies, and philosophy. Students interested in a wide range of work requiring multicultural skills, such as education, law, social work, community organizing, and business, will benefit from course work in this program. The Latin American and Latino Studies program also serves to deepen Latino students' awareness of their cultural heritage.

Learning Outcomes

Students will be able to:

- Describe and discuss multiculturalism, particularly of the diverse communities that have emerged in Latin America from the centuries of interactions among a range of indigenous, European, and African societies, and other immigrant and diasporic groups (e.g. Arab, Asian, and Semitic).
- Exhibit critical awareness of the tensions and opportunities inherent in cultural diversity in the Americas.
- Describe and discuss the history of the interactions between Latin America and the United States and explore the experiences of Latin Americans and their descendants within the United States.
Evaluate the history and dynamics of power imbalances between dominant and subordinate groups in Latin American and between the U.S. and Latin America.

Critique stereotypes concerning Latin American and Latino populations.

Apply an ethical framework and exhibit a strong sense of social responsibility within a commitment to community outreach.

Apply theoretical approaches to practical problems, especially as they relate to issues of social justice in the Americas.

Identify and explain special cultural and linguistic literacy and the ability to use interdisciplinary concepts and methods.

---

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.
Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

---

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

**Focal Point**

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

**Sophomore Year**

**Multiculturalism in the US**

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

**Junior Year**

**Experiential Learning**

- Required
Senior Year

Capstone

- LST 390 SENIOR SEMINAR * [See Note Below]

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  (1 SWK Course, 1 Lab Course, and 1 Additional Course)

Social, Cultural, and Behavioral Inquiry (SCBI)

- 2 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 1 Course Required
  (Note: Course must focus on a geographic region outside Latin America)

* Students must earn a C- or better in this course.

Notes

See an advisor to utilize the modern language option.

A student majoring in Latin American and Latino Studies (LST) is required to complete the Capstone offered by the LST Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An LST major in the University Honors Program shall take the University Honors Capstone and the LST Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Major Requirements

Course Requirements

Core Requirements (5 courses / 20 credit hours):

- LST 200 FOUNDING MYTHS AND CULTURAL CONQUEST IN LATIN AMERICA
- LST 201 STRUGGLE AND RESISTANCE IN LATIN AMERICA
- LST 202 CONSTRUCTING LATINO COMMUNITIES
- LST 203 MEDIA AND CULTURAL STUDIES ACROSS THE AMERICAS
- LST 390 SENIOR SEMINAR (taken for Liberal Studies requirement)

Spanish Requirement (2 courses / 8 credit hours):

- Two 200/300-level Spanish courses

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Historical Processes and Interpretations of the Americas; Contemporary Transformations in the Americas; Cultural Studies of the Americas or Latina/o Studies.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Contemporary Transformations in the Americas
- Cultural Studies of the Americas
- Historical Processes and Interpretations of the Americas
- Latina/o Studies

Contemporary Transformations in the Americas Concentration

This concentration focuses on the political, economic, and socio-cultural transformations that have profoundly shaped the Americas in the twentieth and twenty-first centuries. Courses in this concentration address issues such as authoritarian and democratic regimes of governance, state-interventionist and neoliberal economies, national and transnational forms of belonging, as well as the new modes of institutional exclusion and socio-cultural formation. In choosing this concentration, students will grapple with key figures, events, and movements in the Americas.

Course Requirements

- Choose six courses from the following list*:
Cultural Studies of the Americas Concentration

This concentration includes the study of cultural productions - e.g. art, film, television, literature - and the major theoretical and ideological trends of cultural studies in the Americas. This concentration takes a hemispheric or Inter-American approach to the study of cultural productions, taking into account the impact of social, economic, and political exchanges on the circulation of culture across the hemisphere. Courses in this concentration explore issues relating to the representation of transnational migration, race, ethnicity, sexuality, gender, class, and indigeneity.

Course Requirements

- Choose six courses from the following list*:
  - LST 113 LATINO RELIGIOUS EXPERIENCE IN THE UNITED STATES
  - LST 200 FOUNDING MYTHS AND CULTURAL CONQUEST IN LATIN AMERICA
  - LST 243 MAYA ART AND ARCHITECTURE
  - LST 247 ART OF THE ANCIENT AMERICAS
  - LST 246 ART IN THE ANCIENT AMERICANS
  - LST 249 MODERN LATIN AMERICAN ART
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES : ARABS IN THE AMERICAS
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES : LATINO/A TRANSNATIONAL IMAGINATION
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES : NATIVE ART OF THE AMERICAS
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES : globalizaTion & FILM IN THE AMERICAS
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES : LOOKING FOR GOD IN LATIN AMERICA

*Courses from other departments may count towards this concentration; consult your LALSP advisor for more information.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: MEXICAN ART & ARCHITECTURE
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: MEXICAN CINEMA
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: PRINCIPLES OF LATIN AMERICAN ART
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LOOKING FOR GOD IN LATIN AMERICA
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: COLONIAL LATIN AMERICAN ART
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: SURVEY OF LATIN AMERICAN ART
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: GLOBALIZATION & LATIN AMERICA
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: PRE-COLUMBIAN ART
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: JEWISH LATIN AMERICAN CULTURE
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATIN AMERICAN PORTRAITS
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: CUBA/1990s/SHORT STORY
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATIN AMERICAN DOCUMENTARIES
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: CUBAN AMERICAN LITERATURE
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATINOS IN EDUCATION
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATINA BODY IN LITERATURE & POLITICS
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATINO/A TRANSNATIONAL IMAGINATION
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: CONTEMPORARY ISSUES/US/LATINO LITERATURE
LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATIN RELIGIOUS EXPERIENCE IN THE US
LST 306 LATINO COMMUNITIES IN CHICAGO
LST 307 GROWING UP LATINO/LATINA IN THE U.S.
LST 308 MOTHERHOOD IN LATINO COMMUNITIES
LST 309 SOCIAL ENGAGEMENT AND LATINO FAMILIES
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: NEW LATINO/A WRITING
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINOS IN EDUCATION
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATIN RELIGIOUS EXPERIENCE
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINAS AND SEXUALITY
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LAND AND LABOR IN INDIGENOUS AMERICA
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: HISPANIC WOMEN WRITERS
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: MACHISMO & MARIANISMO IN LATIN AMERICA
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: RACE/GENDER/SEX/LATINO LITERATURE/FILM
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: BORDER CINEMA
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: CHICANA LITERATURE
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: QUEER LATINIDAD
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINOS IN THE US
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATIN FEMINIST THEORY
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINA/O SEXUALITIES
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINOS AND FILM
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: POETRY AND HIP
LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINO THEATER
LST 321 GLOBALIZATION IN THE AMERICAS
LST 336 EXPERIENCING MEXICAN ART
LST 338 COLONIAL LATIN AMERICAN ART
LST 375 MEXICO CITY (WORLD CITIES)

* Courses from other departments may count towards this concentration; consult your LALSP advisor for more information.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Historical Processes and Interpretations of the Americas Concentration

The courses in this concentration explore the historical processes that have created and continue to shape the diverse people living in the Americas throughout the centuries, focusing specifically on the peoples of Latin American origins and by calling attention to the complex interplay among Indigenous, African, European, Arab, Asian and Semitic societies in the region. This concentration provides the methodological and theoretical tools to analyze longitudinally and comparatively key historical issues such as colonization, imperialism, militarism, revolution, the struggles for liberation and self-determination, nationalism, and the creation of borders and boundaries, as well as the development of unique art and literary expressions.

Course Requirements

- Choose six courses from the following list*:
  - LST 243 MAYA ART AND ARCHITECTURE
  - LST 246 ART IN THE SPANISH AMERICAN EMPIRE
  - LST 247 ART OF THE ANCIENT AMERICAS
  - LST 249 MODERN LATIN AMERICAN ART
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: TIME AND HISTORY IN LATIN AMERICAN EXPERIENCE
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: COLONIAL LATIN AMERICAN ART
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: SURVEY OF LATIN AMERICAN ART
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: PRE-COLUMBIAN ART
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: BORDER ACTIVISM
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: ARABS IN THE AMERICAS
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: CARIBBEAN VISIONS
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATIN AMERICAN PHILOSOPHY
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATIN AMERICAN/NEW GLOBAL ECONOMY
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: CULTURAL DIVERSITY IN BRAZIL
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LITERATURE/IDENTITY/LATIN AMERICA
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: PERFORMING POWER IN BRAZIL
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: ARCHAEOLOGY/CATHOLIC MISSIONS
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: INDIGENOUS POLITICAL STRUGGLES
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: COLONIAL PARADOX OF PUERTO RICO
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: REVOLUTIONS & PEASANT REBELLIONS
  - LST 321 GLOBALIZATION IN THE AMERICAS
  - LST 328 COLONIAL LATIN AMERICAN ART

* Courses from other departments may count towards this concentration; consult your LALSP advisor for more information.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Latina/o Studies Concentration

The Latina/o Studies concentration allows students to choose from an array of intellectually challenging, multidisciplinary courses that introduce cutting-edge scholarship on the Latina/o populations of the United States. Our courses familiarize students with the nation's fast-growing, diverse, transnational Latina/o populations, including their histories, ongoing connections to Latin America, cultures, and social conditions. Courses offer students the opportunity to focus on individual Latina/o communities in the country and to engage
in comparative analysis of the various Latina/o communities. Students can select courses that concentrate on current socioeconomic and political issues facing Latinos in the U.S., as well as others that capture Latina/o expression in literature, music, and the arts. Some courses in this concentration involve students in collaborative projects with Chicago based Latina/o community organizations, civic programs, and other service learning opportunities.

**Course Requirements**

- Choose six courses from the following list*:
  - LST 113 LATINO RELIGIOUS EXPERIENCE IN THE UNITED STATES
  - LST 200 FOUNDING MYTHS AND CULTURAL CONQUEST IN LATIN AMERICA
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATINOS IN EDUCATION
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATINA BODY IN LITERATURE & POLITICS
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATINO/A TRANSNATIONAL IMAGINATION
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: CONTEMPORARY ISSUES/US/LATINO LITERATURE
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES: LATINO RELIGIOUS EXPERIENCE IN THE US
  - LST 306 LATINO COMMUNITIES IN CHICAGO
  - LST 307 GROWING UP LATINO/LATINA IN THE U.S.
  - LST 308 MOTHERHOOD IN LATINO COMMUNITIES
  - LST 309 SOCIAL ENGAGEMENT AND LATINO FAMILIES
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: NEW LATINO/A WRITING
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINOS IN EDUCATION
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINO RELIGIOUS EXPERIENCE
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINAS AND SEXUALITY
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LAND AND LABOR IN INDIGENOUS AMERICA
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: HISPANIC WOMEN WRITERS
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: MACHISMO & MARIANISMO IN LATIN AMERICA
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: RACE/GENDER/SEX/LATINO LITERATURE/FILM
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: BORDER CINEMA
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: CHICANA LITERATURE
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: QUEER LATINIDAD
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINOS IN THE US
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINA FEMINIST THEORY
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINA/O SEXUALITIES
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINOS AND FILM
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: POETRY AND HIP HOP CULTURE
  - LST 310 SPECIAL TOPICS: LATINOS IN THE U.S.: LATINO THEATER

* Courses from other departments may count towards this concentration; consult your LALSP advisor for more information.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

---

**Latin American and Latino Studies (Minor)**

The Latin American and Latino Studies minor will help you explore the cultural contributions of the Latin American community to the global community and the traditions that developed in the region.

**Course Requirements**

**Core Requirements (2 courses / 8 credit hours):**

- One course from the following list:
Latino Media and Communication (Minor)

The minor in Latino Media and Communication is comprised of six courses. The minor allows students within the college and from other colleges, who have a strong interest in focusing their interest in Latino Studies, to develop them within the communication field. Students opting to pursue a minor in Latino Media and Communication may not pursue a concentration in the same subject area.

Minor Goals

The program educates students to think critically about all aspects of media and communication, with a particular focus on Latino media and Latino communities. Coursework will provide students with the applied skills necessary to create communication strategies which effectively reach the Latino segment of the population, based on an understanding of Latino cultures in the US and grounded in an understanding of its cultural, economic and sociological aspects.

Learning Goals

Students who complete the minor will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally, and globally.
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the US—Latino communities.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities.
- Develop insights into the needs and motivations of Latino populations in the workplace, in community situations, and other sites of engagement, and develop communications tools and strategies to address those needs and motivations.
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations, and other sites of engagement.
- Recognize the impact of the movement of Latinos across the globe and to develop the skills to critically consume and produce media, public relations, and advertisement representations that communicate to and
about Latino communities.
- Both engage and demonstrate their interest in Latino Studies within and across diverse areas of knowledge production in the Communication field.

**Course Requirements**

- LST 202 CONSTRUCTING LATINO COMMUNITIES
  or CMNS 335 LATINO COMMUNICATION, CULTURE, & COMMUNITY
- Five additional courses from:
  - CMN 394 COMMUNICATION INTERNSHIP (for credit in this concentration, the internships must focus on Latino media and communication)
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS (for credit in this concentration, the internships must focus on Latino media and communication)
  - CMNS 308 TOPICS IN INTERCULTURAL COMMUNICATION
  - CMNS 335 LATINO COMMUNICATION, CULTURE, & COMMUNITY
  - CSS 201 CRITICAL COMMUNITY ENGAGEMENT
  - CSS 390 SPECIAL TOPICS IN COMMUNITY SERVICE STUDIES (cross-listed with LST 300 Special Topics: Transnational Communities: Puerto Rico/ABD Fall Quarter)
  - JOUR 377 SPECIAL TOPICS IN JOURNALISM (Topic requires departmental approval)
  - LST 202 CONSTRUCTING LATINO COMMUNITIES
  - LST 300 SPECIAL TOPICS IN LATIN AMERICAN STUDIES
  - MCS 350 TOPICS IN GLOBAL CINEMA (Topic requires departmental approval)
  - MCS 353 TOPICS IN MEDIA STUDIES (Topic requires departmental approval)
  - MCS 375 LATINO/A TELEVISION AND MEDIA
  - MCS 376 LATIN AMERICAN CINEMA
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - PRAD 361 ACCOUNT PLANNING AND CONSUMER INSIGHTS FOR LATINO MARKETS
  - PRAD 362 LATINO INTEGRATED MARKETING COMMUNICATION
  - PRAD 391 SPECIAL TOPICS IN PUBLIC RELATIONS (Topic requires departmental approval)
  - PRAD 392 SPECIAL TOPICS IN ADVERTISING (Topic requires departmental approval)
  - PSY 220 LATINA/O PSYCHOLOGY
  - SPN 198 STUDY ABROAD
  - SPN 298 STUDY ABROAD
  - SPN 393 LATINO MEDIA AND DIGITAL CULTURE LITERACY
  - SPN 398 STUDY ABROAD

**Leadership Studies (BA)**

An accelerated, inter-disciplinary, 2-year degree completion program for adult students, the Leadership Studies major is offered at the Loop and Naperville campuses, requiring only one on-site class a week. The remaining courses are offered online.

This course-based major is for graduates of community colleges with an Associate's degree who seek broad interdisciplinary study that includes project management, leadership models, communication, organizational change, ethics, human interaction, conflict management and negotiation, among others.

Students must meet the following conditions to be admitted to the program:

- Be age 24 or older.
- Have a GPA of 2.0 or higher from their last college/university attended.
- Have completed an Associate in Arts or an Associate in Science (from IL schools; other degrees to be evaluated), or have earned 66 semester credit hours, applicable to the program based on review and evaluation.

The major combines courses from the Department of Psychology, the College of Communication, and the School for New Learning, which offers the majority of courses, including a unique series of Adult Learning Seminars. SNL students in the Individualized Focus Area degree program may take many of these courses for competence.
Learning Outcomes

Students will be able to:

- Analyze contemporary models and theories of organizational leadership.
- Demonstrate an understanding of the symbiotic relationship between organizational communication, leadership and work culture.
- Interpret statistical data and critique their validity in terms of the questions and hypotheses underlying them.
- Identify and apply effective group dynamics principles, and connect these to patterns to meaning and identity.
- Analyze case studies of organizational change using relevant theoretical models and concepts.
- Articulate the impact of language and discourse on attitudes, action, and identity formation in the professions.
- Understand and articulate central principles of productive organizational development.

Program Requirements

There are 93 quarter hours required for this degree, as follows:

**Workplace Dynamics (4 courses equaling 16 credit hours)**
- DCM 302 PROJECT MANAGEMENT: DESIGN AND ASSESSMENT
- ORGC 251 ORGANIZATIONAL COMMUNICATION
- ORGC 353 COMMUNICATION AND ORGANIZATIONAL CHANGE
- ORGC 316 COMMUNICATION AND GROUP DECISION-MAKING

**Leadership Skills (6 courses equaling 24 credit hours)**
- CMNS 329 PERSUASION
- DCM 301 EFFECTIVE LEADERSHIP IN A CHANGING PROFESSIONAL ENVIRONMENT
- DCM 303 LEADERSHIP MODELS FOR STRONG ORGANIZATIONS
- DCM 310 THINKING CRITICALLY
- DCM 311 CONFLICT MANAGEMENT AND NEGOTIATION
- DCM 330 PROFESSIONAL COMMUNICATION IN THE WORKPLACE

**Methods (3 courses equaling 12 credit hours)**
- DCM 306 PRODUCTIVE APPLICATIONS OF WORK BASED INFORMATION TECHNOLOGY
- DCM 308 INTRODUCTION TO STATISTICS
- DCM 309 APPLIED RESEARCH

**Workplace Ethics (2 courses equaling 8 credit hours)**
- DCM 304 EVOLVING PROFESSIONAL ETHICS
- DCM 325 WORK & SOCIETY

**Analyzing Human Motivation (3 courses equaling 12 credit hours)**
- CMNS 313 NONVERBAL COMMUNICATION
- DCM 307 ANALYZING HUMAN BEHAVIOR
Adult Learning Seminars (10 courses equaling 21 credit hours)

- DCM 313 LEARNING FROM EXPERIENCE AND SELF-ASSESSMENT
- DCM 314 LEARNING AND TRANSFORMATION
- DCM 315 EXPLORING THE FIELD
- DCM 316 WORK IN A GLOBAL ENVIRONMENT
- DCM 317 ETHICS IN THE PROFESSIONS
- DCM 318 SOCIAL JUSTICE IN THE PROFESSIONS
- DCM 319 CREATIVITY AND INNOVATIVE THINKING
- DCM 320 PROFESSIONAL PORTFOLIO DEVELOPMENT
- DCM 321 CAPSTONE PLANNING
- DCM 322 CAPSTONE PROJECT/PORTFOLIO REVIEW

Electives

Additional elective credit may be required to meet the minimum graduation requirement of 192 quarter hours.

Legal and Public Affairs Communication (Minor)

The minor requires students to take six classes (or 24 credits) from at least two distinct majors with a mixture of skills-focused and general classes related to legal and public affairs communication topics. At least 16 credits must be from College of Communication courses.

Skills Classes

- Minimum 4 credits, maximum 12 credits from the following courses
  - CMN 104 PUBLIC SPEAKING
  - CMNS 321 CULTURAL AND SYMBOLIC CRITICISM
  - JOUR 275 INTRODUCTION TO JOURNALISM
  - JOUR 278 NEWS REPORTING
  - JOUR 364 INVESTIGATIVE REPORTING
  - JOUR 374 COMMUNITY JOURNALISM
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
  - PRAD 244 PRINCIPLES OF ADVERTISING
  - PRAD 255 PUBLIC RELATIONS
  - PRAD 256 WRITING FOR PUBLIC RELATIONS AND ADVERTISING
  - WRD 206 PROFESSIONAL WRITING
  - WRD 240 ARGUMENTATIVE WRITING
  - WRD 260 RHETORICAL ANALYSIS
  - WRD 283 ENVIRONMENTAL WRITING
  - WRD 321 WRITING IN THE LEGAL PROFESSION

General Classes

- CMNS 211 INTERPERSONAL COMMUNICATION
- CMNS 309 INTERNATIONAL/GLOBAL COMMUNICATION
- CMNS 313 NONVERBAL COMMUNICATION
- CMNS 315 HEALTH COMMUNICATION
- CMNS 320 DECEPTIVE COMMUNICATION
- CMNS 323 SOCIAL MOVEMENTS
- CMNS 326 ENVIRONMENTAL POLITICS AND RHETORIC
- CMNS 328 HISTORY OF RHETORIC AND COMMUNICATION
- CMNS 329 PERSUASION
- CMNS 334 URBAN COMMUNICATION
- CMNS 335 LATINO COMMUNICATION, CULTURE, & COMMUNITY
- CMNS 337 ASIAN-AMERICAN MEDIA REPRESENTATIONS
- CMNS 355 CONFLICT MANAGEMENT
- CMNS 367 PERFORMANCE FOR SOCIAL CHANGE
- JOUR 343 JOURNALISM AND THE AMERICAN EXPERIENCE
Lesbian, Gay, Bisexual, Transgender, Queer Studies (Minor)

The LGBTQ Studies program analyzes sex and sexuality within many different fields of inquiry. A minor in LGBTQ Studies will enable DePaul students to devote significant study to the experiences of people who do not conform to culturally dominant identities of sexuality and gender: lesbian, gay, bisexual, transgender, queer. Such an endeavor is profoundly interdisciplinary by nature and draws on university resources and faculty expertise in a wide array of disciplines. Students in this minor will have the opportunity to analyze the experiences of LGBTQ people on their own terms, as well as through critical perspectives on sexuality and gender as complex social, cultural, biological, and historical phenomena.

Course Requirements

- LGQ 150 INTRODUCTION TO LESBIAN, GAY, BISEXUAL, TRANSGENDER, QUEER STUDIES
- Five courses from those listed below

The following is a sample of regularly-offered approved electives. This list is not exhaustive; new courses are continually created and approved. Every quarter before registration begins, the Program Director distributes a list of courses being offered the following quarter. Students should contact the Program Director to request the current list. Students may also petition the Director for approval of a course not listed. Many LGBTQ Studies courses are crosslisted and fulfill requirements in other departments and programs, including the Liberal Studies Program. LGBTQ Studies minors are encouraged to take at least one course in a variety of disciplines—film, history, literature, media, performance, philosophy, politics, religion, science, and theory.

- AMS 275 HISTORY OF SEX IN AMERICA 1: COLONIAL TO LATE NINETEENTH CENTURY
  or HST 275 SEX IN AMERICA, PURITANS TO VICTORIANS
- AMS 276 HISTORY OF SEX IN AMERICA 2: LATE VICTORIANS TO THE PRESENT
  or HST 276 SEX IN AMERICA, LATE VICTORIANS TO PRESENT
- AMS 395 TOPICS IN AMERICAN STUDIES: Sex, Gender, and Social Media
- ENG 272 LITERATURE AND IDENTITY: Gay and Lesbian Literature or Introduction to LGBTQ Literature
- ENG 272 LITERATURE AND IDENTITY: LGBTQ Memoirs
- ENG 373 MULTIETHNIC LITERATURE OF THE U.S.: Queer Writers of Color
- ENG 382 MAJOR AUTHORS: James Baldwin
- ENG 387 TOPICS IN CONTEMPORARY LITERATURE: Queer Literature, Film, and Theory
- HST 273 HISTORY OF SEXUALITY IN EUROPE
- CMNS 339 PERFORMANCE OF GENDER & SEXUALITY
- LGQ 236 GAY MEN'S HEALTH MATTERS
Lighting Design (BFA)

The Theatre School's Bachelor of Fine Arts (BFA) degree in Lighting Design is designed to give students the opportunity to explore and expand their artistic and visual expression and provides them the opportunity to practice their craft. The four-year curriculum in many ways simulates a lighting designer's professional experience and process. Designers learn to visualize, create and implement their designs by collaborating with directors, dramaturgs, other designers and technicians, and our professional production staff.

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works and artistic approaches from antiquity to the present, encompassing a broad range of periods, cultures, and styles.
- Synthesize and apply elements of their education and training in classes, rehearsals, and productions.
- Participate in theatrical production in a professional manner, with discipline, respect, and maturity.
- Demonstrate the role of the theatre practitioner as an active member of society and of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Apply General knowledge of theatre history, dramatic literature covering a broad range of historical periods, cultures, and styles, and major theatre artists on both a national and international level.
- Utilize he principles and vocabulary of performance, directing, design, and a thorough grounding in the theory of their particular area of specialization.
- Write with competency in a variety of writing styles from casual to formal.
- Fully engage with knowledge through the ability to access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying arguments and assumptions and to formulate conclusions.
- Utilize existing knowledge to generate and synthesize ideas in original, creative, and imaginative ways.
- Articulate clearly the process of transforming the written text into the theatrical event.
- Design, develop, and execute a noteworthy intellectual and/or creative project.
- Develop a profound understanding of the role of the artist in society.
- Develop an understanding of the cultural and sociopolitical context of theatre from the perspective of both historical and contemporary practice.
- Develop strong self-discipline, self-motivation, and an ability to work independently.
- Work collaboratively and effectively within a group process and with creative artists from all theatrical disciplines.
- Understand the interrelationship of what it means to be human and what it means to be a theatre artist.
- Evaluate ethical issues with respect to theatrical analysis, concept, and practice.
- Contribute artistically to communities through socially responsible engagement and leadership.
- Develop an understanding of and a respect for a multiplicity of cultural and artistic perspectives that may be different from their own.
- Understand the availability and/or scarcity of global resources for a sustainable future
- Set goals for future work that are the result of rigorous self-appraisal and reflection.
- Articulate their skills and knowledge as they represent themselves to external audiences.
- Work both independently and collaboratively.
- Use technology to create, communicate, and synthesize their ideas.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
or LSP 111 EXPLORE CHICAGO

Focal Point

- Not Required

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Not Required

Senior Year

Capstone

- Not Required

Learning Domains

Arts and Literature (AL)

- THE 204 HISTORY OF DRAMATIC LITERATURE
- THE 205 HISTORY OF DRAMATIC LITERATURE
- THE 206 HISTORY OF DRAMATIC LITERATURE

Philosophical Inquiry (PI)

- 1 Course Required

Scientific Inquiry (SI)

- 1 SWK or 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI)

- Not Required

Religious Dimensions (RD)

- 1 Course Required

Understanding the Past (UP)

- 1 Course Required

Other

- Choose 1 course from the above learning domains as an elective

* Students must earn a C- or better in this course.
Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

First Year

- Drawing for Designers Sequence
  - DES 111 DRAWING FOR DESIGNERS I
  - DES 112 DRAWING FOR DESIGNERS II
  - DES 113 DRAWING FOR DESIGNERS III
- Technical Drawing Sequence I
  - TEC 151 TECHNICAL DRAWING I
  - TEC 152 TECHNICAL DRAWING II
  - TEC 154 INTRODUCTION TO VECTOR WORKS
- Principles of Design Sequence
  - DES 141 PRINCIPLES OF DESIGN
  - DES 142 PRINCIPLES OF DESIGN
  - DES 143 PRINCIPLES OF DESIGN
- History of Dramatic Literature Sequence (Arts and Literature Requirement)
  - THE 204 HISTORY OF DRAMATIC LITERATURE
  - THE 205 HISTORY OF DRAMATIC LITERATURE
  - THE 206 HISTORY OF DRAMATIC LITERATURE
- Three Quarters of Lighting Technology
  - DES 240 LIGHTING TECHNOLOGY
- Three Quarters of Theatre Crew
  - TEC 107 THEATRE CREW

Second Year

- Lighting Design Sequence I
  - DES 247 LIGHTING DESIGN I
  - DES 248 LIGHTING DESIGN II
  - DES 249 LIGHTING DESIGN I
- Rendering for Designers Sequence
  - DES 384 RENDERING FOR DESIGNERS I
  - DES 385 RENDERING FOR DESIGNERS II
  - DES 386 RENDERING FOR DESIGNERS III
- Survey of the Arts for Theatre Sequence
  - THE 381 SURVEY OF THE ARTS FOR THEATRE
  - THE 382 SURVEY OF THE ARTS FOR THEATRE
Third Year

- Lighting Design Sequence II
  - DES 347 LIGHTING DESIGN II
  - DES 348 LIGHTING DESIGN II
  - DES 349 LIGHTING DESIGN II
- Theatrical Collaboration Sequence
  - DES 641 THEATRICAL COLLABORATION
  - DES 642 THEATRICAL COLLABORATION
- Production Practice Sequence II
  - DES 371 DESIGN PRODUCTION PRACTICE II
  - DES 372 DESIGN PRODUCTION PRACTICE II
  - DES 373 DESIGN PRODUCTION PRACTICE II

Fourth Year

- Lighting Design Sequence III
  - DES 447 LIGHTING DESIGN III
  - DES 448 LIGHTING DESIGN III
  - DES 449 LIGHTING DESIGN III
- Design Electives
  - Select three Scene or Costume Design from the following list:
    - DES 241 SCENE DESIGN I
    - DES 242 SCENE DESIGN I
    - DES 243 SCENE DESIGN I
    - DES 244 COSTUME DESIGN I
    - DES 245 COSTUME DESIGN I
    - DES 246 COSTUME DESIGN I
  - Additional Design/Tech courses with approval of advisor and instructor
- One Theatre or non-Theatre elective chosen in consultation with advisor
- Production Practice and/or Internship
  - Select three courses from the following list:
    - DES 471 DESIGN PRODUCTION PRACTICE III
    - DES 472 DESIGN PRODUCTION PRACTICE III
    - DES 473 DESIGN PRODUCTION PRACTICE III
    - DES 490 DESIGN INTERNSHIP

Additional Courses

- During the 3rd and 4th years of the major, students must complete four courses from the following list:
  - DES 284 MODEL BUILDING
  - DES 285 MEDIA FOR DESIGNERS
  - DES 286 LIFE DRAWING
  - DES 484 PHOTOSHOP FOR DESIGNERS
  - DES 485 PROJECTION DESIGN
  - DES 486 PORTFOLIO PREPARATION

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Management (BSB)

The Bachelor of Science in Business with a major in Management emphasizes tackling relevant issues for today's manager: managing in the global economy, ethical and socially responsible decision-making, managing for total quality, employee empowerment, leadership, team performance and compensation, new venture creation, and conflict resolution.

Management majors are typically hired for positions as business analysts, account executives, assistant managers, operations managers, HR managers, employment interviewers, and consultants. The entrepreneurship curriculum offers programs designed for those students interested in someday starting their own businesses.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Apply team effectiveness evidence to enhance individual and team performance.
- Apply evidence-based management knowledge and skills to effectively manage human capital.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at
least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT*
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
- One Communication course to be chosen from:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- Global Business Perspective (4.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA’S ECONOMY
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  - MKT 360 INTERNATIONAL MARKETING
  - A course taken as part of a term-long study abroad program
- One Professional Writing course to be chosen from:
  - WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
  - WRD 204 TECHNICAL WRITING
  - WRD 206 PROFESSIONAL WRITING

*MGT 301-H is required if pursuing the Management Honors Program.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
- MAT 135 and MAT 137 are completed through Liberal Studies requirements
- MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
- MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
- MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Business Capstone Selection

Students majoring in Management selecting the Entrepreneurship concentration must complete ICS 394 for the Business Capstone.

Grade Minimums for Management Major
A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, ICS 394 or ICS 395, MAT 135, MAT 136, MAT 137, MGT 300, MGT 301, the course used for Professional Writing, and any ICS or MGT course used for Global Business Perspective.

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Declaration Requirements

To declare a major in Management, a student must meet the following requirements:

• Completion of 28.0 hours at DePaul University
• The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
• A minimum cumulative DePaul grade point average of 2.000
• A minimum Management grade point average of 2.000
• No grade of IN, R, or lower than C- in any Management (MGT), Business Law (BLW), or ICS 394 or ICS 395 course
• Completion of MGT 300 and MGT 301 with a minimum grade of C- in each course

Course Requirements

In addition to BLW 201, MGT 300, MGT 301, and ICS 394 or ICS 395, a student majoring in Management is required to complete the following courses totaling at least 18.0 hours and an additional three courses based on
concentration chosen totaling at least 12.0 hours:

- Four required courses:
  - MGT 250 CAREER MANAGEMENT SKILLS (2.0 hours)
  - MGT 302 ORGANIZATIONAL BEHAVIOR
  - MGT 307 HUMAN RESOURCES MANAGEMENT
  - MGT 322 THE MANAGEMENT & MEASUREMENT OF QUALITY

- One elective course to be chosen from:
  - MGT 315 MANAGEMENT SCIENCE
  - MGT 320 TRAINING AND CAREER DEVELOPMENT
  - MGT 323 SUPPLY CHAIN MANAGEMENT
  - MGT 325 SUSTAINABLE MANAGEMENT
  - MGT 330 RECRUITMENT AND SELECTION
  - MGT 335 COMPENSATION & BENEFITS
  - MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
  - MGT 341 BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
  - MGT 345 SERVICE SECTOR MANAGEMENT
  - MGT 347 HEALTH CARE MANAGEMENT
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 356 SPORTS MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MGT 360 LEADERSHIP
  - MGT 361 ORGANIZATIONAL DEVELOPMENT
  - MGT 370 BUSINESS PLAN DEVELOPMENT
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP
  - MGT 374 ENTREPRENEURSHIP LAW
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  - MGT 398 SPECIAL TOPICS (multiple topics may be used)
  - MGT 399 INDEPENDENT STUDY
  - BLW 202 COMMERCIAL PAPER AND SALES
  - BLW 203 BUSINESS ORGANIZATIONS
  - BLW 398 SPECIAL TOPICS (multiple topics may be used)
  - BLW 399 INDEPENDENT STUDY
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR (may be used once)

The Management Elective must be unique from the courses taken for the concentration; course sharing is not allowed.

**Open Electives**

Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

**Global Business Perspective**

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

**Experiential Learning**

Sharing of MGT 393 between Experiential Learning and the Management Elective may be possible; consult with academic advisor.

**Graduation Requirements**

All Management (MGT) and Business Law (BLW) courses, ICS 394 and/or ICS 395, and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- General Management
- Entrepreneurship
- Human Resources
- Leadership and Change Management
- Operations Management
- Sports Management

General Management

The General Management concentration is for the student who wants a broad sampling of the various management disciplines. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

Course Requirements

Three elective courses to be chosen from:

- MGT 315 MANAGEMENT SCIENCE
- MGT 320 TRAINING AND CAREER DEVELOPMENT
- MGT 323 SUPPLY CHAIN MANAGEMENT
- MGT 325 SUSTAINABLE MANAGEMENT
- MGT 330 RECRUITMENT AND SELECTION
- MGT 335 COMPENSATION & BENEFITS
- MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
- MGT 341 BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
- MGT 345 SERVICE SECTOR MANAGEMENT
- MGT 347 HEALTH CARE MANAGEMENT
- MGT 347 HEALTH CARE MANAGEMENT
- MGT 349 INTERNATIONAL BUSINESS
- MGT 350 LEADERSHIP
- MGT 351 ORGANIZATIONAL DEVELOPMENT
- MGT 352 BUSINESS PLAN DEVELOPMENT
- MGT 353 CREATIVITY & ENTREPRENEURSHIP
- MGT 354 ENTREPRENEURSHIP LAW
- MGT 355 INDEPENDENT STUDY
- MGT 356 BUSINESS ORGANIZATIONS
- MGT 357 SPECIAL TOPICS (multiple topics may be used)
- MGT 359 INDEPENDENT STUDY
- BLW 202 COMMERCIAL PAPER AND SALES
- BLW 203 BUSINESS ORGANIZATIONS
- BLW 398 SPECIAL TOPICS (multiple topics may be used)
- BLW 399 INDEPENDENT STUDY
- ICS 350 INTERNATIONAL BUSINESS SEMINAR (may be used once)

*If you take MGT 360-H as part of the Management Honors Program, you must take a different concentration course to satisfy the 12.0 hours required for the concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.
Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

Graduation Requirements

All Management (MGT) and Business Law (BLW) courses, ICS 350, and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Entrepreneurship

The Entrepreneurship concentration is characterized by its contemporary, integrative approach to management of emerging firms. It is designed for students who seek to be entrepreneurs in start-up ventures, operate family businesses or work as entrepreneurial change agents within a corporate setting. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

- Two courses to be chosen from:
  - MGT 360 LEADERSHIP*
  - MGT 370 BUSINESS PLAN DEVELOPMENT
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP
  - MGT 398 SPECIAL TOPICS (when related)
- One course to be chosen from the list above or:
  - MGT 325 SUSTAINABLE MANAGEMENT
  - MGT 345 SERVICE SECTOR MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 374 ENTREPRENEURSHIP LAW
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  - MGT 399 INDEPENDENT STUDY (with approval)
  - MKT 352 NEW PRODUCT DEVELOPMENT
  - MKT 377 SALES FUNDAMENTALS
- ICS 394 ENTREPRENEURSHIP STRATEGY (taken in Business Core)

*If you take MGT 360-H as part of the Management Honors Program, you must take a different concentration course to satisfy the 12.0 hours required for the concentration.

Business Capstone Selection

Students majoring in Management selecting the Entrepreneurship concentration must complete ICS 394 for the Business Capstone.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

Graduation Requirements
Human Resources Concentration

The Human Resources concentration is designed to meet the needs of students who desire to obtain entry-level positions in human resources, such as HR generalists, employment interviewers, and compensation analysts. Human resource professionals add value to their organizations by understanding how the business operates and through the design and implementation of human resource activities to meet changing organizational needs. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

- Two courses to be chosen from:
  - MGT 320 TRAINING AND CAREER DEVELOPMENT
  - MGT 330 RECRUITMENT AND SELECTION
  - MGT 335 COMPENSATION & BENEFITS
- One course to be chosen from the list above or:
  - ECO 318 LABOR ECONOMICS AND ORGANIZATION
  - MGT 347 HEALTH CARE MANAGEMENT
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 360 LEADERSHIP*
  - MGT 361 ORGANIZATIONAL DEVELOPMENT
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  - MGT 398 SPECIAL TOPICS (when related)

*If you take MGT 360-H as part of the Management Honors Program, you must take a different concentration course to satisfy the 12.0 hours required for the concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

Graduation Requirements

All Management (MGT) and Economics (ECO) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Leadership and Change Management

The Leadership and Change Management concentration focuses on developing leadership and change capabilities in students at all levels in organizations. Students gain an awareness of values and the importance of vision, as well as how to empower followers to be active participants in change activities, in order to increase organizational effectiveness. A planned approach to managing all phases of the organizational change process is emphasized. This concentration will be especially useful to students who desire to move into leadership and/or change roles within organizations, such as managers, internal consultants, team leaders, or trainers, as well as external consultant roles. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

Course Requirements

- Two required courses:
  - MGT 360 LEADERSHIP*
  - MGT 361 ORGANIZATIONAL DEVELOPMENT
- One elective course to be chosen from:
  - MGT 320 TRAINING AND CAREER DEVELOPMENT
  - MGT 325 SUSTAINABLE MANAGEMENT
  - MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
  - MGT 341 BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
  - MGT 347 HEALTH CARE MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  - MGT 398 SPECIAL TOPICS (when related)

*If you take MGT 360-H as part of the Management Honors Program, you must take a different concentration course to satisfy the 12.0 hours required for the concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Operations Management

The Operations Management concentration prepares students in a variety of operational areas including quality management, supply chain management, purchasing management, Enterprise Resource Planning, scheduling and forecasting. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

Course Requirements

- Two courses to be chosen from:
  - MGT 315 MANAGEMENT SCIENCE
Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Sports Management

The Sports Management concentration is intended for students who desire careers in sports-related industries including professional and collegiate sports, sporting goods, fitness and recreation centers.

Course Requirements

If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

- Two required courses:
  - MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
  - MGT 356 SPORTS MANAGEMENT
- One elective course to be chosen from:
  - MGT 323 SUPPLY CHAIN MANAGEMENT
  - MGT 341 BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
  - MGT 345 SERVICE SECTOR MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 370 BUSINESS PLAN DEVELOPMENT
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  - MGT 398 SPECIAL TOPICS (when related)
  - MGT 399 INDEPENDENT STUDY (with approval)
  - MKT 385 INSIDE SALES
  - MKT 398 SPECIAL TOPICS: Sports Sponsorship Management

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.
Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management (Minor: Business Students Only)

Students in the Driehaus College of Business who minor in Management will learn problem-solving approaches and techniques that are necessary when working within an organization or business to achieve its goals. Students may focus on management in a specific industry to complement their major.

Declaration Requirements

To declare a minor in Management, a Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Management grade point average of 2.000
- No grade of IN, R, or lower than C- in any Management (MGT) course

Course Requirements

In addition to BLW 201, MGT 300, MGT 301, and ICS 394 or ICS 395, a Driehaus student minoring in Management is required to complete the following courses totaling at least 12.0 hours:

- Two courses to be chosen from:
  - MGT 302 ORGANIZATIONAL BEHAVIOR
  - MGT 307 HUMAN RESOURCES MANAGEMENT
  - MGT 322 THE MANAGEMENT & MEASUREMENT OF QUALITY
- One more course to be chosen from the list above or:
  - MGT 315 MANAGEMENT SCIENCE
  - MGT 320 TRAINING AND CAREER DEVELOPMENT
  - MGT 323 SUPPLY CHAIN MANAGEMENT
  - MGT 325 SUSTAINABLE MANAGEMENT
  - MGT 330 RECRUITMENT AND SELECTION
  - MGT 335 COMPENSATION & BENEFITS
  - MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
  - MGT 341 BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
  - MGT 345 SERVICE SECTOR MANAGEMENT
  - MGT 347 HEALTH CARE MANAGEMENT
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 356 SPORTS MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MGT 360 LEADERSHIP
  - MGT 361 ORGANIZATIONAL DEVELOPMENT
  - MGT 370 BUSINESS PLAN DEVELOPMENT
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP
  - MGT 374 ENTREPRENEURSHIP LAW
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  - MGT 398 SPECIAL TOPICS (multiple topics may be used)
  - MGT 399 INDEPENDENT STUDY
  - BLW 202 COMMERCIAL PAPER AND SALES
  - BLW 203 BUSINESS ORGANIZATIONS
  - BLW 398 SPECIAL TOPICS (multiple topics may be used)
  - BLW 399 INDEPENDENT STUDY
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR (may be used once)

Graduation Requirements
Management (Minor)

Available to students outside the Driehaus College of Business, the Management minor presents problem-solving approaches and techniques that are necessary when working with an organization or business to achieve its goals. The student may focus on management in a specific industry, such as health care or public relations.

Declaration Requirements

To declare a minor in Management, a non-Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Management grade point average of 2.000
- No grade of IN, R, or lower than C- in any Management (MGT) course
- Completion of the following courses with a minimum grade of C- in each:
  - A course in statistics
  - ACC 101 INTRODUCTION TO ACCOUNTING I
  - ACC 102 INTRODUCTION TO ACCOUNTING II
  - ECO 105 PRINCIPLES OF MICROECONOMICS

The requirement for a course in statistics may be satisfied through the completion of the LSP 120 and LSP 121 sequence.

Course Requirements

A non-Driehaus student minoring in Management is required to complete the following courses totaling at least 20.0 hours:

- Two required courses:
  - MGT 300 PRINCIPLES OF MANAGEMENT
  - MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT
- Two elective courses to be chosen from:
  - MGT 302 ORGANIZATIONAL BEHAVIOR
  - MGT 307 HUMAN RESOURCES MANAGEMENT
  - MGT 322 THE MANAGEMENT & MEASUREMENT OF QUALITY
- One elective course to be chosen from:
  - MGT 315 MANAGEMENT SCIENCE
  - MGT 320 TRAINING AND CAREER DEVELOPMENT
  - MGT 323 SUPPLY CHAIN MANAGEMENT
  - MGT 325 SUSTAINABLE MANAGEMENT
  - MGT 330 RECRUITMENT AND SELECTION
  - MGT 335 COMPENSATION & BENEFITS
  - MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
  - MGT 341 BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
  - MGT 345 SERVICE SECTOR MANAGEMENT
  - MGT 347 HEALTH CARE MANAGEMENT
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 356 SPORTS MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MGT 360 LEADERSHIP
  - MGT 361 ORGANIZATIONAL DEVELOPMENT
  - MGT 370 BUSINESS PLAN DEVELOPMENT
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP
  - MGT 374 ENTREPRENEURSHIP LAW
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
Graduation Requirements

All Management (MGT), Business Law (BLW), Interdisciplinary Commerce Studies (ICS) courses, and any other courses used toward the Management minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management Honors (BSB)

The honors program in management is a course of study composed of advanced, accelerated and challenging beginning management courses. Using a problem-based approach, students will be asked to complete real-time projects for organizations with management-based problems, to work intensively and proactively in rotating small groups, to work on problems that span multiple courses in the program, and to refine their soft skills of communication, leading, presenting and teamwork within the program.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Apply team effectiveness evidence to enhance individual and team performance.
• Apply evidence-based management knowledge and skills to effectively manage human capital.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT*
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
• One Communication course to be chosen from:
  o MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  o ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION

• Global Business Perspective (4.0 hours) to be chosen from:
  o ECO 316 EUROPEAN ECONOMIC HISTORY
  o ECO 333 TOPICS IN GLOBAL ECONOMIES
  o ECO 334 UNDERSTANDING CHINA'S ECONOMY
  o ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  o ECO 361 INTERNATIONAL TRADE
  o ECO 362 INTERNATIONAL MONETARY ECONOMICS
  o ECO 363 ECONOMICS OF THE EUROPEAN UNION
  o FIN 340 INTERNATIONAL FINANCE
  o FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  o ICS 350 INTERNATIONAL BUSINESS SEMINAR
  o MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  o MGT 357 INTERNATIONAL BUSINESS
  o MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  o MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  o MKT 360 INTERNATIONAL MARKETING
  o A course taken as part of a term-long study abroad program

• One Professional Writing course to be chosen from:
  o WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
  o WRD 204 TECHNICAL WRITING
  o WRD 206 PROFESSIONAL WRITING

*MGT 301-H is required if pursuing the Management Honors Program.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

• A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
• MAT 135 and MAT 137 are completed through Liberal Studies requirements
• MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
• MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
• MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
• MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Major Requirements

Declaration Requirements

To declare a major in Management, a student must meet the following requirements:

• Completion of 28.0 hours at DePaul University
• The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
• A minimum cumulative DePaul grade point average of 2.000
• A minimum Management grade point average of 2.000
• No grade of IN, R, or lower than C- in any Management (MGT), Business Law (BLW), or ICS 394 or ICS 395 course
• Completion of MGT 300 and MGT 301-H with a minimum grade of C- in each course

DePaul University Winter/Spring/Summer 2016-2017 Page 576 of 2776
Course Requirements

In addition to BLW 201, MGT 300, MGT 301-H, and ICS 394 or ICS 395, a student majoring in Management Honors is required to complete the following courses totaling at least 18.0 hours and an additional three courses based on concentration chosen totaling at least 12.0 hours:

- Five required courses (must be taken as Honors sections)
  - MGT 250 CAREER MANAGEMENT SKILLS (2 hours)
  - MGT 302 ORGANIZATIONAL BEHAVIOR
  - MGT 307 HUMAN RESOURCES MANAGEMENT
  - MGT 322 THE MANAGEMENT & MEASUREMENT OF QUALITY
  - MGT 360 LEADERSHIP

Expectations

Prior to being part of the Management Honors Program, students must be admitted to the program. See Management Honors website for more information on the application process.

Open Electives

Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and the Management Elective may be possible; consult with academic advisor.

Graduation Requirements

All Management (MGT) and Business Law (BLW) courses, ICS 394 and/or ICS 395, and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Sample Schedule

Below is a suggested curriculum which provides a course structure designed to prepare those interested in applying to the Management Honors Program in the spring quarter of their sophomore year.

DePaul University Winter/Spring/Summer 2016-2017
Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Operations Management
- Leadership and Change Management
- Human Resources
- General Management
- Sports Management
- Entrepreneurship

Entrepreneurship

The Entrepreneurship concentration is characterized by its contemporary, integrative approach to management of emerging firms. It is designed for students who seek to be entrepreneurs in start-up ventures, operate family businesses or work as entrepreneurial change agents within a corporate setting. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

- Two courses to be chosen from:
  - MGT 360 LEADERSHIP*
  - MGT 370 BUSINESS PLAN DEVELOPMENT
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP
  - MGT 398 SPECIAL TOPICS (when related)
- One course to be chosen from the list above or:
  - MGT 325 SUSTAINABLE MANAGEMENT
  - MGT 345 SERVICE SECTOR MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 374 ENTREPRENEURSHIP LAW
General Management

The General Management concentration is for the student who wants a broad sampling of the various management disciplines. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

Course Requirements

Three elective courses to be chosen from:

- MGT 315 MANAGEMENT SCIENCE
- MGT 320 TRAINING AND CAREER DEVELOPMENT
- MGT 323 SUPPLY CHAIN MANAGEMENT
- MGT 325 SUSTAINABLE MANAGEMENT
- MGT 330 RECRUITMENT AND SELECTION
- MGT 335 COMPENSATION & BENEFITS
- MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
- MGT 341 BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
- MGT 345 SERVICE SECTOR MANAGEMENT
- MGT 347 HEALTH CARE MANAGEMENT
- MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
- MGT 355 NEGOTIATIONS
- MGT 356 SPORTS MANAGEMENT
- MGT 357 INTERNATIONAL BUSINESS
- MGT 360 LEADERSHIP*
- MGT 361 ORGANIZATIONAL DEVELOPMENT
- MGT 370 BUSINESS PLAN DEVELOPMENT
- MGT 373 CREATIVITY & ENTREPRENEURSHIP
- MGT 374 ENTREPRENEURSHIP LAW
- MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
- MGT 398 SPECIAL TOPICS (multiple topics may be used)
• MGT 399 INDEPENDENT STUDY
• BLW 202 COMMERCIAL PAPER AND SALES
• BLW 203 BUSINESS ORGANIZATIONS
• BLW 398 SPECIAL TOPICS (multiple topics may be used)
• BLW 399 INDEPENDENT STUDY
• ICS 350 INTERNATIONAL BUSINESS SEMINAR (may be used once)

*If you take MGT 360-H as part of the Management Honors Program, you must take a different concentration course to satisfy the 12.0 hours required for the concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

Graduation Requirements

All Management (MGT) and Business Law (BLW) courses, ICS 350, and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Human Resources

The Human Resources concentration is designed to meet the needs of students who desire to obtain entry-level positions in human resources, such as HR generalists, employment interviewers, and compensation analysts. Human resource professionals add value to their organizations by understanding how the business operates and through the design and implementation of human resource activities to meet changing organizational needs. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

• Two courses to be chosen from:
  o MGT 320 TRAINING AND CAREER DEVELOPMENT
  o MGT 330 RECRUITMENT AND SELECTION
  o MGT 335 COMPENSATION & BENEFITS
• One course to be chosen from the list above or:
  o ECO 318 LABOR ECONOMICS AND ORGANIZATION
  o MGT 347 HEALTH CARE MANAGEMENT
  o MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  o MGT 355 NEGOTIATIONS
  o MGT 360 LEADERSHIP*
  o MGT 361 ORGANIZATIONAL DEVELOPMENT
  o MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  o MGT 398 SPECIAL TOPICS (when related)

*If you take MGT 360-H as part of the Management Honors Program, you must take a different concentration course to satisfy the 12.0 hours required for the concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.
Global Business Perspective

If a MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

Graduation Requirements

All Management (MGT) and Economics (ECO) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Leadership and Change Management

The Leadership and Change Management concentration focuses on developing leadership and change capabilities in students at all levels in organizations. Students gain an awareness of values and the importance of vision, as well as how to empower followers to be active participants in change activities, in order to increase organizational effectiveness. A planned approach to managing all phases of the organizational change process is emphasized. This concentration will be especially useful to students who desire to move into leadership and/or change roles within organizations, such as managers, internal consultants, team leaders, or trainers, as well as external consultant roles. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

Course Requirements

- Two required courses:
  - MGT 360 LEADERSHIP*
  - MGT 361 ORGANIZATIONAL DEVELOPMENT
- One elective course to be chosen from:
  - MGT 320 TRAINING AND CAREER DEVELOPMENT
  - MGT 325 SUSTAINABLE MANAGEMENT
  - MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
  - MGT 341 BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
  - MGT 347 HEALTH CARE MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 373 CREATIVITY & ENTREPRENEURSHIP
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  - MGT 398 SPECIAL TOPICS (when related)

*If you take MGT 360-H as part of the Management Honors Program, you must take a different concentration course to satisfy the 12.0 hours required for the concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
**Operations Management**

The Operations Management concentration prepares students in a variety of operational areas including quality management, supply chain management, purchasing management, Enterprise Resource Planning, scheduling and forecasting. If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

**Course Requirements**

- Two courses to be chosen from:
  - MGT 315 MANAGEMENT SCIENCE
  - MGT 323 SUPPLY CHAIN MANAGEMENT
  - MGT 325 SUSTAINABLE MANAGEMENT
  - MGT 345 SERVICE SECTOR MANAGEMENT

- One course to be chosen from the list above or:
  - MGT 355 NEGOTIATIONS
  - MGT 356 SPORTS MANAGEMENT
  - MGT 393 INTERNSHIP AND MANAGEMENT CONSULTING PROGRAM
  - MGT 398 SPECIAL TOPICS (when related)

**Second Concentration**

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

**Experiential Learning**

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

**Graduation Requirements**

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

---

**Sports Management**

The Sports Management concentration is intended for students who desire careers in sports-related industries including professional and collegiate sports, sporting goods, fitness and recreation centers.

**Course Requirements**

If a student chooses to pursue this concentration, three courses totaling at least 12.0 hours must be taken.

- Two required courses:
  - MGT 340 LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
  - MGT 356 SPORTS MANAGEMENT

- One elective course to be chosen from:
  - MGT 323 SUPPLY CHAIN MANAGEMENT
  - MGT 341 BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
  - MGT 345 SERVICE SECTOR MANAGEMENT
  - MGT 355 NEGOTIATIONS
  - MGT 370 BUSINESS PLAN DEVELOPMENT
Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Experiential Learning

Sharing of MGT 393 between Experiential Learning and major requirements may be possible; consult with academic advisor.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management Information Systems (Minor)

Available to students outside the Driehaus College of Business, the Management Information Systems minor presents both the business and technological foundations of information systems designed to complement the primary course of study.

Declaration Requirements

To declare a minor in Management Information Systems, a non-Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Management Information Systems grade point average of 2.000
- No grade of IN, R, or lower than C- in any Management Information Systems course

Course Requirements

A non-Driehaus student minoring in Management Information Systems is required to complete the following courses totaling at least 20.0 hours:

- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MIS 350 BUSINESS SYSTEMS ANALYSIS
- MIS 362 INFORMATION SYSTEMS PROJECT MANAGEMENT
- MIS 370 DATABASE MANAGEMENT SYSTEMS DESIGN AND DEVELOPMENT
- MIS 366 INTERNET TECHNOLOGIES IN BUSINESS
- MIS 350 Business Systems Analysis is to be taken only by MIS minors; MIS 360 Systems Analysis and Design is to be taken only by MIS majors.
Graduation Requirements

All MIS courses and any courses used toward the Management Information Systems minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management Information Systems (BSB)

The program in Management Information Systems is intended for undergraduate business students who plan to start their career as information systems professionals in either information technology producing industries or with the heavy users of such technologies. If they decide to take a minor in MIS, graduates will be able to function as liaisons representing their department or business function in information systems projects. This program is guided by several curriculum principles:

- Designed to educate management-oriented, technically proficient information systems professionals.
- Focused on requirements engineering and other stages of system life cycle requiring heavy involvement of systems analysts rather than on technical implementation stages.
- Complements a thorough understanding of business operations covered in the core undergraduate business curriculum. This combination of competencies is particularly important for systems analysts and makes this program distinct from programs in computer science.
- Designed according to current technological trends and is flexible to accommodate its adjustment as stipulated by rapidly changing and evolving information technologies.
- Includes sufficient training in technology skills in high demand to make graduates easily employable and immediately productive.

In this program, students will acquire:

- A broad understanding of information technologies and their utilization in private and governmental organizations
- An in-depth understanding of information systems life cycle and the nature of related phases and tasks from initial study through post-implementation support
- A thorough understanding of system requirements elicitation, analysis, documentation, validation, and management
- Ability to work with users and builders of information systems
- An understanding of information systems project management
- Ability to develop prototypes using visual programming technology
- Ability to identify organizational data and to design and manipulate databases
- Ability to integrate technical knowledge and understanding of business operations
- Experience working on team projects

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
Program Specific Outcomes

Students will be able to:

- Analyze, gather requirements, and design systems.
- Develop, control, and manage projects.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT*
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
- One Communication course to be chosen from:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- Global Business Perspective (4.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA'S ECONOMY
  - ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  - ECO 361 INTERNATIONAL TRADE
  - ECO 362 INTERNATIONAL MONETARY ECONOMICS
  - ECO 363 ECONOMICS OF THE EUROPEAN UNION
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR
  - MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  - MGT 357 INTERNATIONAL BUSINESS
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  - MKT 360 INTERNATIONAL MARKETING
  - A course taken as part of a term-long study abroad program
• One Professional Writing course to be chosen from:
  - WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
  - WRD 204 TECHNICAL WRITING
  - WRD 206 PROFESSIONAL WRITING

*MG 301-H is required if pursuing the Management Honors Program.

**Second Majors and Minors**

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

**Math Requirements**

• A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
• MAT 135 and MAT 137 are completed through Liberal Studies requirements
• MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
• MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
• MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
• MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

**Grade Minimums for Management Information Systems Major**

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, ECO 315, MAT 135, MAT 136, MAT 137, MIS 140, and the course used for Professional Writing.
Senior Year

* ICS 392 SENIOR SEMINAR *

Learning Domains

Arts and Literature

* 3 AL courses Required

Philosophical Inquiry

* 2 PI courses required***

Scientific Inquiry

* MAT 135 BUSINESS CALCULUS I
  or MAT 150 CALCULUS I
  or MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
* MAT 137 BUSINESS STATISTICS
* 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry

* 1 SCBI course required (must not be an ECO course)

Religious Dimensions

* 2 RD courses required***

Understanding the Past

* 2 UP courses required

* Students must earn C- or better in this course.
** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Major Requirements

Declaration Requirements

To declare a major in Management Information Systems, a student must meet the following requirements:

- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.000
- A minimum Management Information Systems (MIS) grade point average of 2.000
- No grade of IN, R, or lower than C- in any Management Information Systems (MIS) course or course used toward the Management Information Systems major
- Completion of IT 130 with a minimum grade of C-

Course Requirements

In addition to MIS 140, a student majoring in Management Information Systems is required to complete the following courses totaling at least 26.0 hours:

- Six required courses:
  - IT 130 INTRODUCTORY COMPUTING FOR THE WEB
  - IT 263 APPLIED NETWORKS AND SECURITY
  - MGT 250 CAREER MANAGEMENT SKILLS (2.0 hours)
  - MIS 360 SYSTEMS ANALYSIS AND DESIGN
  - MIS 362 INFORMATION SYSTEMS PROJECT MANAGEMENT
  - MIS 370 DATABASE MANAGEMENT SYSTEMS DESIGN AND DEVELOPMENT

- One elective course to be chosen from:
  - CSC 261 PROGRAMMING IN C++ I
  - CSC 367 INTRODUCTION TO DATA MINING
  - DA 200 FOUNDATIONS OF DECISION ANALYTICS
  - IT 211 INTRODUCTION TO APPLIED PROGRAMMING
  - IT 231 WEB DEVELOPMENT I
  - IT 238 INTERACTIVE WEB SCRIPTING
  - MIS 366 INTERNET TECHNOLOGIES IN BUSINESS
  - TDC 363 INTRODUCTION TO LOCAL AREA NETWORKS

MIS 350 is to be taken only by MIS minors; MIS 360 is to be taken only by MIS majors.

Open Electives

Open elective credit (20.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Graduation Requirements

All Management Information Systems (MIS) courses and any courses used toward the Management Information Systems major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Management Information Systems (Minor: Business Students Only)

Students in the Driehaus College of Business who wish to acquire skills in both the business and the technological foundations of information systems management may minor in Management Information Systems to further their skill set and marketability in technological business fields.

Declaration Requirements

To declare a minor in Management Information Systems, a Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Management Information Systems grade point average of 2.000
- No grade of IN, R, or lower than C- in any Management Information Systems course

Course Requirements

In addition to MIS 140, a Driehaus student minoring in Management Information Systems is required to complete the following courses totaling at least 16.0 hours:

- MIS 350 BUSINESS SYSTEMS ANALYSIS
- MIS 362 INFORMATION SYSTEMS PROJECT MANAGEMENT
- MIS 370 DATABASE MANAGEMENT SYSTEMS DESIGN AND DEVELOPMENT
- Management Information Systems Elective chosen from:
  - DA 200 FOUNDATIONS OF DECISION ANALYTICS
  - IT 130 INTRODUCTORY COMPUTING FOR THE WEB
  - IT 211 INTRODUCTION TO APPLIED PROGRAMMING
  - IT 231 WEB DEVELOPMENT I
  - IT 263 APPLIED NETWORKS AND SECURITY
  - MIS 366 INTERNET TECHNOLOGIES IN BUSINESS

MIS 350 Business Systems Analysis is to be taken only by MIS minors; MIS 360 Systems Analysis and Design is to be taken only by MIS majors.

Graduation Requirements

All MIS courses and any courses used toward the Management Information Systems minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (BSB)

The ultimate goal of an organization is to satisfy the needs and wants of its customers profitably. The Marketing Department offers a variety of courses designed to develop and sharpen student skills to analyze and solve marketing problems. Successful marketing requires the ability to know how and when to do research, how to analyze markets and behavior, and how to develop products and services that satisfy or even anticipate customers’ needs. The purpose of the undergraduate program in Marketing is to prepare students for successful marketing careers by teaching them the knowledge and skills to identify marketing problems and develop solutions that meet customer needs.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Understand how marketing delivers value in consumer and business markets.
- Create and implement marketing strategies.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing. For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
- Global Business Perspective (4.0 hours) to be chosen from:
  - ECO 316 EUROPEAN ECONOMIC HISTORY
  - ECO 333 TOPICS IN GLOBAL ECONOMIES
  - ECO 334 UNDERSTANDING CHINA'S ECONOMY
Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
- MAT 135 and MAT 137 are completed through Liberal Studies requirements
- MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
- MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
- MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Communication Requirement

Students majoring in Marketing must complete MKT 376 for the Communication requirement.

Grade Minimums for Marketing Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, MAT 137, MKT 301, MKT 310, MKT 376, the course used for Professional Writing, and any MKT course used for Global Business Perspective.

Global Business Perspective

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

Learning Domains

Arts and Literature
- 3 AL courses Required

Philosophical Inquiry
- 2 PI courses required***

Scientific Inquiry
- MAT 135 BUSINESS CALCULUS I
  or MAT 150 CALCULUS I
  or MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
- MAT 137 BUSINESS STATISTICS
- 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry
- 1 SCBI course required (must not be an ECO course)

Religious Dimensions
- 2 RD courses required***

Understanding the Past
- 2 UP courses required

* Students must earn C- or better in this course.
** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Major Declaration Requirements

To declare a major in Marketing, a student must meet the following requirements:

- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.000
- A minimum Marketing grade point average of 2.000
- No grades of IN, R, or lower than C- in any Marketing (MKT) course or course used toward the Marketing major
- Completion of MKT 301 and MKT 310 with minimum grades of C-

Course Requirements

In addition to MKT 301 and MKT 310, a student majoring in Marketing is required to complete the following courses totaling 30.0 hours plus 4.0 hours to be shared with the Business Core (34.0 hours total):

- Three required courses to be taken for 10.0 hours:
  - MKT 202 QUANTITATIVE METHODS IN MARKETING (or equivalent; 2.0 hours)
  - MKT 305 INTRODUCTION TO MARKETING RESEARCH
  - MKT 359 ADVANCED MARKETING MANAGEMENT
- One required career readiness milestone course to be taken Pass/Fail for 0.0 hours:
  - MKT 250 NAVIGATING MARKETING CAREERS
- One required course to be taken in Business Core:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- One Marketing Concentration of five courses to be taken for 20.0 hours

Communication Requirement

MKT 376 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Concentration Requirements

Students must complete the requirements from one of the following two concentrations: Standard or Sales Leadership.

Multiple Marketing Concentrations

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Open Electives
Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Standard
- Sales Leadership

Standard Concentration

The Standard Marketing concentration provides students with the flexibility to tailor their programs to fit a wide array of career interests. Graduates with a marketing major have many career opportunities in the various areas of marketing such as advertising, market research, sales management, or marketing management. The department offers electives that focus in each area. Majors may wish to group their elective courses with a concentration or specific career orientation in mind, although this is not required. A student majoring in Marketing with this concentration must complete the following requirements totaling at least 20.0 hours:

Course Requirements

- One required course:
  - MKT 315 STRATEGIC TOOLS FOR MARKETERS
- Four elective courses to be chosen from:
  - MKT 320 PRINCIPLES OF ADVERTISING
  - MKT 321 SOCIAL MEDIA MARKETING
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 352 NEW PRODUCT DEVELOPMENT
  - MKT 360 INTERNATIONAL MARKETING
  - MKT 377 SALES FUNDAMENTALS
  - MKT 378 SALES STRATEGY & TECHNOLOGY
  - MKT 380 SCIENCE OF RETAILING
  - MKT 381 BUILDING FINANCIAL RELATIONSHIPS
  - MKT 382 PRINCIPLES OF CATEGORY MANAGEMENT
  - MKT 383 ANALYTICAL SALES
  - MKT 384 CASES IN CATEGORY MANAGEMENT
  - MKT 385 INSIDE SALES
  - MKT 390 SERVICE MARKETING
  - MKT 393 MARKETING INTERNSHIP
  - MKT 395 INTERACTIVE/INTERNET MARKETING
  - MKT 398 SPECIAL TOPICS (multiple topics may be used)
  - MKT 399 INDEPENDENT STUDY
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR (may be used once)
Communication Requirement

Driehaus students majoring in Marketing must complete MKT 376 for the Communication requirement in the Business Core.

Multiple Marketing Concentrations

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

Experiential Learning

Sharing of MKT 393 between Experiential Learning and the Marketing major may be possible; consult with academic advisor.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Sales Leadership Concentration

The demand for trained and knowledgeable sales people has never been greater. Sales careers offer independence, ample financial reward, personal growth and opportunities for rapid advancement within the organization. The Sales Leadership Program produces business graduates who can sell by joining traditional classroom education with real-world learning experience. Classes are led by faculty with extensive sales experience and by sales executives from leading corporations. Students experience rigorous classroom learning designed to deliver the knowledge and practical skills they will need to succeed during the first years of their careers including: oral and written communication, selling technique and networking, use of technology in customer strategy and identification, and development of organization leadership in a sales environment. Successful students will enjoy opportunities to visit companies, take paid internships, and interview with leading companies for entry-level positions. A student majoring in Marketing with this concentration must complete the following requirements totaling at least 20.0 hours:

Course Requirements

- Three required courses:
  - MKT 377 SALES FUNDAMENTALS
  - MKT 378 SALES STRATEGY & TECHNOLOGY
  - MKT 383 ANALYTICAL SALES
- Two electives to be chosen from:
  - MKT 380 SCIENCE OF RETAILING
  - MKT 381 BUILDING FINANCIAL RELATIONSHIPS
  - MKT 382 PRINCIPLES OF CATEGORY MANAGEMENT
  - MKT 384 CASES IN CATEGORY MANAGEMENT
  - MKT 385 INSIDE SALES
  - MKT 398 SPECIAL TOPICS (when related)

Category Management Focus

For a specific focus in Category Management, Sales Leadership students should take:
Communication Requirement

Driehaus students majoring in Marketing must complete MKT 376 for the Communication requirement in the Business Core.

Multiple Marketing Concentrations

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Career Orientations

Advertising and Promotion

Skills that lead to successful careers in Advertising and Promotion include: analysis of market research data; media planning; the creation of persuasive messages; strategic coordination of elements of the marketing communication mix; sales promotion strategies; public relations analysis and tactical management. You may consider the Standard concentration in Marketing to pursue this career path. Marketing elective courses for students interested in a career in advertising and promotion include the following:

- MKT 320 PRINCIPLES OF ADVERTISING
- MKT 321 SOCIAL MEDIA MARKETING
- MKT 395 INTERACTIVE/INTERNET MARKETING

Category Management

Category Management is the practice of managing a group of related products as one category to maximize profitability. Successful companies expect their suppliers to act as partners that will help them grow their businesses, sharing industry expertise and consumer insight. We have partnered with the Category Management Association to develop a unique curriculum that will prepare students for careers in this rapidly growing field and lead to industry certification. You may consider the Sales Leadership concentration in Marketing to pursue this career path. A student interested in category management should take the courses listed below:

- MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- MKT 377 SALES FUNDAMENTALS
- MKT 380 SCIENCE OF RETAILING
- MKT 382 PRINCIPLES OF CATEGORY MANAGEMENT
- MKT 383 ANALYTICAL SALES
- MKT 384 CASES IN CATEGORY MANAGEMENT

International Marketing

The international area of marketing offers students the opportunity to examine the economy and business management of many countries in their political, historical, and socio-cultural context. Students who concentrate on international marketing would develop career opportunities in international sales, international product management, or international marketing management. You may consider the Standard concentration in Marketing to pursue this career path. DePaul Marketing students may combine their majors with either a minor in a commercial language through the College of Liberal Arts and Social Sciences, or with selected course work in International Studies. Students interested in international marketing benefit by enrolling in the following Marketing courses:
Market Research

Market research encompasses problem formulation, data gathering, data analysis, and communication of findings. An understanding of statistics, psychology and sociology as related to marketing is desirable. You may consider the Standard concentration in Marketing to pursue this career path. A student interested in market research will benefit from the following courses:

- MKT 305 INTRODUCTION TO MARKETING RESEARCH
- MKT 315 STRATEGIC TOOLS FOR MARKETERS
- MKT 320 PRINCIPLES OF ADVERTISING
- MKT 352 NEW PRODUCT DEVELOPMENT

Marketing Management

Many chief executives of top U.S. companies have a background in marketing. Strong marketing provides a key competitive advantage in a dynamic global economy. The marketing management emphasis is appropriate for students with a general interest in planning, development, and introduction of products and services. You may consider the Standard concentration or the IME program in Marketing to pursue this career path. A student interested in marketing management should take the following courses:

- MKT 315 STRATEGIC TOOLS FOR MARKETERS
- MKT 320 PRINCIPLES OF ADVERTISING
- MKT 352 NEW PRODUCT DEVELOPMENT
- MKT 360 INTERNATIONAL MARKETING

Sales Leadership

The demand for trained and knowledgeable sales people has never been greater. Sales careers offer independence, ample financial reward, personal growth and opportunities for rapid advancement within the organization. In today's economy, there are far more sales positions available, compensation levels are 20-40% higher than other entry level positions and sales positions are more stable in difficult economic times. You may consider the Sales Leadership concentration in Marketing to pursue this career path. A student interested in sales leadership could benefit from taking the following:

- MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- MKT 377 SALES FUNDAMENTALS
- MKT 378 SALES STRATEGY & TECHNOLOGY
- MKT 380 SCIENCE OF RETAILING
- MKT 381 BUILDING FINANCIAL RELATIONSHIPS
- MKT 383 ANALYTICAL SALES
- MKT 385 INSIDE SALES
- MKT 388 SPECIAL TOPICS: Sales for Social Impact

Marketing (Minor: Business Students Only)

Students in the Driehaus College of Business who minor in Marketing will complement their major course of study with skills in marketing research, product development, advertising and sales.

Declaration Requirements

To declare a minor in Marketing, a Driehaus student must meet the following requirements:
Course Requirements

In addition to MKT 301 and MKT 310, a Driehaus student minoring in Marketing is required to complete the following courses totaling at least 18.0 hours:

- Four required courses:
  - MKT 202 QUANTITATIVE METHODS IN MARKETING (or equivalent; 2.0 hours)
  - MKT 305 INTRODUCTION TO MARKETING RESEARCH
  - MKT 315 STRATEGIC TOOLS FOR MARKETERS
  - MKT 359 ADVANCED MARKETING MANAGEMENT
- One elective course to be chosen from:
  - MKT 320 PRINCIPLES OF ADVERTISING
  - MKT 321 SOCIAL MEDIA MARKETING
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 352 NEW PRODUCT DEVELOPMENT
  - MKT 360 INTERNATIONAL MARKETING
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  - MKT 377 SALES FUNDAMENTALS
  - MKT 378 SALES STRATEGY & TECHNOLOGY
  - MKT 380 SCIENCE OF RETAILING
  - MKT 381 BUILDING FINANCIAL RELATIONSHIPS
  - MKT 382 PRINCIPLES OF CATEGORY MANAGEMENT
  - MKT 383 ANALYTICAL SALES
  - MKT 384 CASES IN CATEGORY MANAGEMENT
  - MKT 385 INSIDE SALES
  - MKT 390 SERVICE MARKETING
  - MKT 393 MARKETING INTERNSHIP
  - MKT 395 INTERACTIVE/INTERNET MARKETING
  - MKT 398 SPECIAL TOPICS
  - MKT 399 INDEPENDENT STUDY
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR

Graduation Requirements

All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (Minor)

Students from outside the Driehaus College of Business may minor in Marketing to learn the foundations of marketing research, product development, advertising and sales.

Declaration Requirements

To declare a minor in Marketing, a non-Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Marketing grade point average of 2.000
- No grades of IN, R, or lower than C- in any Marketing (MKT) course
- Completion of the following courses with a minimum grade of C- in each:
  - ICS 200
  - A course in college algebra
A course in statistics

The requirement for courses in college algebra and statistics may be satisfied through the completion of the LSP 120 and LSP 121 sequence.

Course Requirements

A non-Driehaus student minoring in Marketing is required to complete the following courses based on concentration and totaling at least 26.0 hours:

- **Six required courses:**
  - ICS 200 INTRODUCTION TO BUSINESS (or approved substitute)
  - MKT 202 QUANTITATIVE METHODS IN MARKETING (or equivalent; 2.0 hours)
  - MKT 301 PRINCIPLES OF MARKETING
  - MKT 305 INTRODUCTION TO MARKETING RESEARCH
  - MKT 310 CONSUMER BEHAVIOR
  - MKT 315 STRATEGIC TOOLS FOR MARKETERS

- **One elective course to be chosen from:**
  - MKT 320 PRINCIPLES OF ADVERTISING
  - MKT 321 SOCIAL MEDIA MARKETING
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 352 NEW PRODUCT DEVELOPMENT
  - MKT 359 ADVANCED MARKETING MANAGEMENT
  - MKT 360 INTERNATIONAL MARKETING
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  - MKT 377 SALES FUNDAMENTALS
  - MKT 378 SALES STRATEGY & TECHNOLOGY
  - MKT 380 SCIENCE OF RETAILING
  - MKT 381 BUILDING FINANCIAL RELATIONSHIPS
  - MKT 382 PRINCIPLES OF CATEGORY MANAGEMENT
  - MKT 383 ANALYTICAL SALES
  - MKT 384 CASES IN CATEGORY MANAGEMENT
  - MKT 385 INSIDE SALES
  - MKT 390 SERVICE MARKETING
  - MKT 393 MARKETING INTERNSHIP
  - MKT 395 INTERACTIVE/INTERNET MARKETING
  - MKT 398 SPECIAL TOPICS
  - MKT 399 INDEPENDENT STUDY
  - ICS 350 INTERNATIONAL BUSINESS SEMINAR

Graduation Requirements

All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing Honors (BSB)

IME, the honors sequence in Marketing, gives a select group of undergraduate students a hands-on opportunity to develop skills in marketing management while interacting with a Chicago area business. The real world focus of IME is an outgrowth of DePaul's strong links to the Chicago business community.

Instead of a series of classes that address a single marketing function, the IME curriculum features courses that address marketing issues in the way that managers are likely to encounter them. The stage is set for life-long learning in the marketing profession.

IME students are selected on a competitive basis. The evaluation is based on an interview, writing sample and performance in previous marketing and other coursework. Classes are limited in size and offered only once per year.
Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Understand how marketing delivers value in consumer and business markets.
- Create and implement marketing strategies.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing. For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
- MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- One Business Capstone course to be chosen from:
  - ICS 394 ENTREPRENEURSHIP STRATEGY
  - ICS 395 MANAGEMENT STRATEGY
Global Business Perspective (4.0 hours) to be chosen from:
- ECO 316 EUROPEAN ECONOMIC HISTORY
- ECO 333 TOPICS IN GLOBAL ECONOMIES
- ECO 334 UNDERSTANDING CHINA’S ECONOMY
- ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
- ECO 361 INTERNATIONAL TRADE
- ECO 362 INTERNATIONAL MONETARY ECONOMICS
- ECO 363 ECONOMICS OF THE EUROPEAN UNION
- FIN 340 INTERNATIONAL FINANCE
- FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
- ICS 350 INTERNATIONAL BUSINESS SEMINAR
- MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
- MGT 357 INTERNATIONAL BUSINESS
- MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
- MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
- MKT 360 INTERNATIONAL MARKETING
- A course taken as part of a term-long study abroad program

One Professional Writing course to be chosen from:
- WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
- WRD 204 TECHNICAL WRITING
- WRD 206 PROFESSIONAL WRITING

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

- A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
- MAT 135 and MAT 137 are completed through Liberal Studies requirements
- MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
- MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
- MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Communication Requirement

Students majoring in Marketing must complete MKT 376 for the Communication requirement.

Grade Minimums for Marketing Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, MAT 137, MKT 301, MKT 310, MKT 376, the course used for Professional Writing, and any MKT course used for Global Business Perspective.

Global Business Perspective

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program
Chicago Quarter
- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point
- LSP 112 FOCAL POINT SEMINAR

Writing
- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy
- Not required

Sophomore Year
- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year
- Experiential learning required **

Senior Year
- ICS 392 SENIOR SEMINAR *

Learning Domains

Arts and Literature
- 3 AL courses Required

Philosophical Inquiry
- 2 PI courses required***

Scientific Inquiry
- MAT 135 BUSINESS CALCULUS I
  or MAT 150 CALCULUS I
  or MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
- MAT 137 BUSINESS STATISTICS
- 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry
- 1 SCBI course required (must not be an ECO course)

Religious Dimensions
- 2 RD courses required***

Understanding the Past
- 2 UP courses required

* Students must earn C- or better in this course.
** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Major Declaration Requirements

To declare a major in IME Honors Marketing, a student must meet the following requirements:

- Acceptance into the IME Honors program
- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.000
- A minimum Marketing grade point average of 2.000
- No grades of IN, R, or lower than C- in any Marketing (MKT) course or course used toward the Marketing major
- Completion of MKT 301 and MKT 310 with minimum grades of C-

Course Requirements

In addition to MKT 301 and MKT 310, a student majoring in IME Honors Marketing is required to complete the following courses totaling at least 30.0 hours plus 4.0 hours to be shared with Business Core (34.0 hours total):

- Five required courses:
  - MKT 202 QUANTITATIVE METHODS IN MARKETING (or equivalent; 2.0 hours)
  - MKT 356 MARKETING ANALYSIS AND PLANNING (8.0 hours)
  - MKT 357 MANAGEMENT OF MARKETING (8.0 hours)
  - MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  - MKT 393 MARKETING INTERNSHIP
- One required course to be taken in Business Core:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- One elective to be chosen from:
  - MKT 305 INTRODUCTION TO MARKETING RESEARCH
  - MKT 315 STRATEGIC TOOLS FOR MARKETERS
  - MKT 320 PRINCIPLES OF ADVERTISING
  - MKT 321 SOCIAL MEDIA MARKETING
  - MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  - MKT 352 NEW PRODUCT DEVELOPMENT
  - MKT 359 ADVANCED MARKETING MANAGEMENT
  - MKT 360 INTERNATIONAL MARKETING
  - MKT 377 SALES FUNDAMENTALS
  - MKT 378 SALES STRATEGY & TECHNOLOGY
  - MKT 380 SCIENCE OF RETAILING
  - MKT 381 BUILDING FINANCIAL RELATIONSHIPS
  - MKT 382 PRINCIPLES OF CATEGORY MANAGEMENT
  - MKT 383 ANALYTICAL SALES
Communication Requirement

MKT 376 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Multiple Marketing Concentrations

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Open Electives

Open elective credit (16.0 hours) is also required to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

Experiential Learning

Sharing of MKT 393 between Experiential Learning and the Marketing major may be possible; consult with academic advisor.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing: Sales Leadership (Minor: Business Students Only)

Driehaus College of Business students who minor in Sales Leadership will strengthen their skills in sales and category management, including interpreting strategic consumer insight to help retailers maximize profitability and create an enjoyable shopping experience.

Declaration Requirements

To declare a minor in Sales Leadership, a Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Marketing grade point average of 2.000
- No grades of IN, R, or lower than C- in any Marketing (MKT) course
- Completion of MKT 301 and MKT 310 with minimum grades of C-

A Sales Leadership Program application must be completed through the Department of Marketing in conjunction with declaration.

Course Requirements

In addition to MKT 301 and MKT 310, a Driehaus student minoring in Sales Leadership is required to complete the following courses totaling at least 16.0 hours:
One required course to be taken in Business Core:
- MKT 376 EFFECTIVE BUSINESS COMMUNICATION

Three required courses:
- MKT 377 SALES FUNDAMENTALS
- MKT 378 SALES STRATEGY & TECHNOLOGY
- MKT 383 ANALYTICAL SALES

**Category Management Focus**

For a specific focus in Category Management, students should take:

- MKT 380 SCIENCE OF RETAILING
- MKT 382 PRINCIPLES OF CATEGORY MANAGEMENT
- MKT 384 CASES IN CATEGORY MANAGEMENT

**Communication**

Driehaus students minoring in Sales Leadership must complete MKT 376 for the Communication requirement in the Business Core.

**Graduation Requirements**

All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

---

**Marketing: Sales Leadership (Minor)**

Available to students outside the Driehaus College of Business, the Sales Leadership minor is for students interested acquiring skills in sales and category management: the interpretation of strategic consumer insight to help retailers maximize profitability and create an enjoyable shopping experience.

**Declaration Requirements**

To declare a minor in Sales Leadership, a non-Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Marketing grade point average of 2.000
- No grades of IN, R, or lower than C- in any Marketing (MKT) course
- Completion of the following classes with a minimum grade of C- in each:
  - ICS 200
  - A course in college algebra
  - A course in statistics

A Sales Leadership Program application must be completed through the Department of Marketing in conjunction with declaration.

The requirement for courses in college algebra and statistics may be satisfied through the completion of the LSP 120 and LSP 121 sequence.

**Course Requirements**

A non-Driehaus student minoring in Sales Leadership is required to complete the following courses totaling at least 30.0 hours:

- Eight required courses:
  - ICS 200 INTRODUCTION TO BUSINESS (or approved substitute)
  - MKT 202 QUANTITATIVE METHODS IN MARKETING (or equivalent; 2.0 hours)
  - MKT 301 PRINCIPLES OF MARKETING
Category Management Focus

For a specific focus in Category Management, students should take:

- MKT 380 SCIENCE OF RETAILING
- MKT 382 PRINCIPLES OF CATEGORY MANAGEMENT
- MKT 384 CASES IN CATEGORY MANAGEMENT

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Mathematical Sciences (BA)

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics.

Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences. Undergraduate students majoring in mathematical sciences may choose one of seven areas of concentration:

- Pure Mathematics
- Statistics
- Actuarial Science
- Financial Mathematics
- Quantitative Analysis and Operations Research
- Applied and Computational Mathematics
- In consultation with a mathematics faculty advisor, undergraduate students may also create an individualized program of courses leading to a degree in mathematical sciences.

A thesis option is available to mathematics majors who wish to pursue an extended independent project related to a theoretical or applied focus of the program. Students would work under the guidance of a faculty mentor. At least 4 credits must be completed over one or two quarters prior to the thesis submission. Interested students are strongly encouraged to enroll in MAT 390 during their junior year.

Learning Outcomes

Students will be able to:

- Apply both abstract and quantitative reasoning to understand the relationships between quantities in problem situations, and to solve problems.
- Construct correct logical arguments and understand and critique the reasoning of others.
- Use relevant mathematical tools to answer questions in the natural, social, and computer sciences, as well as other academic disciplines.
- Identify, formulate, abstract, and solve mathematical problems using tools from a variety of mathematical areas including calculus, linear algebra, geometry, abstract algebra, analysis, number theory, probability, and statistics.
- Communicate mathematical ideas clearly, in oral or written form, by using appropriate mathematical terminology and notation.
- Critically interpret numerical and graphical data and use computer technology appropriately to solve problems and to promote understanding.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major...
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- Not Required

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- MAT 398 SENIOR CAPSTONE SEMINAR [See Note Below] *

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

*
1 SWK or Lab Course Required

**Social, Cultural, and Behavioral Inquiry (SCBI)**

- 3 Courses Required

**Religious Dimensions (RD)**

- 2 Courses Required

**Understanding the Past (UP)**

- 2 Courses Required

* Students must earn a C- or better in this course.

**Notes**

Students with a primary major in Mathematics are required to complete the Capstone offered by the Mathematics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics are required to complete the Capstone offered by the Mathematics department. Mathematics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

**Course Requirements**

**Common Core**

- Choose one of the following three-course Calculus sequences:
  - **Sequence One**
    - MAT 150 CALCULUS I
    - MAT 151 CALCULUS II
    - MAT 152 CALCULUS III
  - **Sequence Two**
    - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
    - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
    - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
  - **Sequence Three**
    - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
    - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
    - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
  - **Sequence Four**
    - MAT 170 CALCULUS FOR LIFE SCIENCES I
    - MAT 171 CALCULUS FOR LIFE SCIENCES II
    - MAT 149 , MAT 152 OR MAT 162
  - **Sequence Five***
    - MAT 155 SUMMER CALCULUS I
MAT 156 SUMMER CALCULUS II

*Note: This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, 147, 150 or 160 should enroll in MAT 155; students who successfully complete MAT 148, 151 or 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

- MAT 260 MULTIVARIABLE CALCULUS I
- MAT 261 MULTIVARIABLE CALCULUS II
- MAT 262 LINEAR ALGEBRA
- One of the following options
  - MAT 215 INTRODUCTION TO MATHEMATICAL REASONING
  - Discrete Mathematics Sequence
  - MAT 140 DISCRETE MATHEMATICS I
  - MAT 141 DISCRETE MATHEMATICS II
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I, or a more advanced course in any programming language.
- MAT 398 SENIOR CAPSTONE SEMINAR (Liberal Studies Program Capstone)

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Pure Mathematics; Statistics; Actuarial Science; Financial Mathematics; Quantitative Analysis and Operations Research; Applied and Computational Mathematics; or Individualized.

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Actuarial Science
- Applied and Computational Mathematics
- Financial Mathematics
- Individualized Concentration
- Pure Mathematics
- Quantitative Analysis and Operations Research
- Statistics

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.
**Actuarial Science Concentration**

Actuarial Science uses mathematics, statistics and financial theory to study uncertain future events, especially those that relate to risk management and insurance programs. This concentration prepares students to work for insurance or pension consulting firms, and government.

**Course Requirements**

- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
- MAT 361 THEORY OF INTEREST
- MAT 362 LIFE CONTINGENCIES I
- MAT 363 LIFE CONTINGENCIES II

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Recommended Mathematics Courses**

- MAT 341 STATISTICAL METHODS USING SAS
- MAT 355 STOCHASTIC PROCESSES
- MAT 356 APPLIED REGRESSION ANALYSIS
- MAT 358 APPLIED TIME SERIES AND FORECASTING
- MAT 359 SIMULATION MODELS AND MONTE CARLO METHOD
- MAT 364 STOCHASTIC RISK MODELS
- MAT 367 CREDIBILITY THEORY
- MAT 368 MATHEMATICAL FINANCE

**Additional Recommended Courses**

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- FIN 310 INTRODUCTION TO FINANCE
- FIN 311 CORPORATE FINANCE
- FIN 317 PRINCIPLES OF CORPORATE FINANCE FOR ACTUARIES* 
- FIN 320 MONEY AND BANKING
- FIN 330 INVESTMENTS: THEORY & PRACTICE
- FIN 335 PORTFOLIO MANAGEMENT
- FIN 362 RISK MANAGEMENT
- FIN 363 DERIVATIVES: PRICING & APPLICATIONS

* Note that FIN 317 requires permission from the Finance Department.

**Applied and Computational Mathematics Concentration**

The concentration in Applied and Computational Mathematics is intended for any student who enjoys mathematics, problem solving, and applications to solving practical problems in business, government, and science. The concentration is especially intended for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied or discrete mathematics at the graduate level.

**Course Requirements**

- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II or another approved computer science course.
Three courses chosen from the following list:
- MAT 302 COMBINATORICS
- MAT 304 DIFFERENTIAL EQUATIONS
- MAT 384 MATHEMATICAL MODELING
- MAT 385 NUMERICAL ANALYSIS I

Two additional courses chosen from among the above and the following list:
- MAT 335 REAL ANALYSIS I
- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 370 ADVANCED LINEAR ALGEBRA
- MAT 381 FOURIER ANALYSIS AND SPECIAL FUNCTIONS
- MAT 386 NUMERICAL ANALYSIS II

One additional course chosen from among the above and the following list:
- MAT 303 THEORY OF NUMBERS
- MAT 310 ABSTRACT ALGEBRA I
- MAT 311 ABSTRACT ALGEBRA II
- MAT 330 METHODS OF COMPUTATION AND THEORETICAL PHYSICS I
- MAT 331 METHODS OF COMPUTATION AND THEORETICAL PHYSICS II
- MAT 336 REAL ANALYSIS II
- MAT 337 COMPLEX ANALYSIS
- MAT 340 TOPOLOGY
- MAT 341 STATISTICAL METHODS USING SAS
- MAT 353 PROBABILITY AND STATISTICS III
- MAT 355 STOCHASTIC PROCESSES
- MAT 387 OPERATIONS RESEARCH I: LINEAR PROGRAMMING
- MAT 388 OPERATIONS RESEARCH II: OPTIMIZATION THEORY

Students interested in graduate study in applied mathematics are encouraged to take MAT 335 REAL ANALYSIS I and MAT 336 REAL ANALYSIS II, MAT 370 ADVANCED LINEAR ALGEBRA, MAT 385 NUMERICAL ANALYSIS I and MAT 386 NUMERICAL ANALYSIS II.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Financial Mathematics Concentration

Financial mathematics concentration includes the set of courses that constitutes the Finance Minor from the Driehaus College of Business. It includes courses that are relevant to contemporary financial mathematical modeling, along with courses in finance and their prerequisites.

Course Requirements

- MAT 304 DIFFERENTIAL EQUATIONS
  or MAT 385 NUMERICAL ANALYSIS I
- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
- MAT 355 STOCHASTIC PROCESSES
- MAT 368 MATHEMATICAL FINANCE
Finance Minor Requirements Embedded in the Financial Mathematics Concentration

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- FIN 202 QUANTITATIVE REASONING
- FIN 310 INTRODUCTION TO FINANCE
- FIN 311 CORPORATE FINANCE
- FIN 320 MONEY AND BANKING
- FIN 330 INVESTMENTS: THEORY & PRACTICE
- Two electives chosen from the following list:
  - FIN 313 INVESTMENT BANKING
  - FIN 323 COMMERCIAL BANKING
  - FIN 333 FINANCIAL STATEMENTS ANALYSIS
  - FIN 335 PORTFOLIO MANAGEMENT
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 360 IPOs & VENTURE CAPITAL
  - FIN 362 RISK MANAGEMENT
  - FIN 363 DERIVATIVES: PRICING & APPLICATIONS
  - FIN 380 CASES IN FINANCIAL DECISION MAKING
  - FIN 393 FINANCE INTERNSHIP
  - FIN 395 INVESTMENT SEMINAR
  - FIN 398 SPECIAL TOPICS
  - FIN 399 INDEPENDENT STUDY
  - RE 350 REAL ESTATE ANALYSIS

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

- MAT 341 STATISTICAL METHODS USING SAS
- MAT 370 ADVANCED LINEAR ALGEBRA
- MAT 358 APPLIED TIME SERIES AND FORECASTING
- MAT 356 APPLIED REGRESSION ANALYSIS

Individualized Concentration

Advising

Students should consult with a mathematics faculty advisor and the department chair to create an individualized program of study leading to a degree in mathematics.

Course Requirements

An individualized program will normally consist of the Common Core in Mathematics plus six mathematics courses chosen from those included in the other concentrations and approved by the department chair.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Pure Mathematics Concentration

This concentration provides a broad mathematical exposure for students who are interested in studying and/or doing mathematical research at the graduate level.

Course Requirements

- Three courses to be chosen from the following list:
  - MAT 310 ABSTRACT ALGEBRA I
  - MAT 311 ABSTRACT ALGEBRA II
  - MAT 335 REAL ANALYSIS I
  - MAT 336 REAL ANALYSIS II
- Three additional mathematics courses from the following list:
  - MAT 301 HISTORY OF MATHEMATICS
  - MAT 302 COMBINATORICS
  - MAT 303 THEORY OF NUMBERS
  - MAT 304 DIFFERENTIAL EQUATIONS
  - MAT 311 ABSTRACT ALGEBRA II
  - MAT 312 ABSTRACT ALGEBRA III
  - MAT 320 GEOMETRY I
  - MAT 321 GEOMETRY II
  - MAT 336 REAL ANALYSIS II
  - MAT 337 COMPLEX ANALYSIS
  - MAT 340 TOPOLOGY
  - MAT 348 APPLIED STATISTICAL METHODS
  - MAT 351 PROBABILITY AND STATISTICS I
  - MAT 352 PROBABILITY AND STATISTICS II
  - MAT 353 PROBABILITY AND STATISTICS III
  - MAT 370 ADVANCED LINEAR ALGEBRA
  - MAT 372 LOGIC AND SET THEORY
  - MAT 384 MATHEMATICAL MODELING
  - MAT 385 NUMERICAL ANALYSIS I
  - MAT 386 NUMERICAL ANALYSIS II

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Recommended Course Selections

For students interested in graduate study in mathematics:

- MAT 310 ABSTRACT ALGEBRA I
- MAT 311 ABSTRACT ALGEBRA II
- MAT 312 ABSTRACT ALGEBRA III
- MAT 335 REAL ANALYSIS I
- MAT 336 REAL ANALYSIS II
- MAT 337 COMPLEX ANALYSIS

For students interested in graduate study in economics, finance, or statistics:

- MAT 335 REAL ANALYSIS I
- MAT 336 REAL ANALYSIS II
- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
Quantitative Analysis and Operations Research Concentration

This concentration provides students with the mathematical background to work in finance, computer applications, and production scheduling and forecasting.

Course Requirements

- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
- Three courses from the following list:
  - MAT 356 APPLIED REGRESSION ANALYSIS
  - MAT 358 APPLIED TIME SERIES AND FORECASTING
  - MAT 387 OPERATIONS RESEARCH I: LINEAR PROGRAMMING
  - MAT 388 OPERATIONS RESEARCH II: OPTIMIZATION THEORY

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

- MAT 370 ADVANCED LINEAR ALGEBRA
- MAT 384 MATHEMATICAL MODELING
- MAT 385 NUMERICAL ANALYSIS I
- MAT 386 NUMERICAL ANALYSIS II
- MAT 389 OPERATIONS RESEARCH III
- CSC 389 THEORY OF COMPUTATION

Statistics Concentration

This concentration offers students a solid foundation in probability and statistics. Statisticians are employed by government, industry, marketing research companies, and consulting firms to design surveys and experiments and to analyze statistical data.

Course Requirements

- MAT 326 SAMPLE SURVEY METHODS
  or MAT 328 DESIGN OF EXPERIMENTS
- MAT 341 STATISTICAL METHODS USING SAS
- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
- MAT 356 APPLIED REGRESSION ANALYSIS

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

- MAT 335 REAL ANALYSIS I
- MAT 336 REAL ANALYSIS II
- MAT 354 MULTIVARIATE STATISTICS
- MAT 355 STOCHASTIC PROCESSES
Students interested in graduate study in mathematical statistics are encouraged to take the following:

- MAT 335 REAL ANALYSIS I
- MAT 336 REAL ANALYSIS II

## Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The combined Bachelor's/Master's Degree program offers four options:

- Mathematical Sciences (BA/BS) / Applied Mathematics (MS)
- Mathematical Sciences (BA/BS) / Applied Statistics (MS)
- Mathematical Sciences (BA/BS) / Pure Mathematics (MS)
- Mathematical Sciences (BA) / Secondary Education Mathematics (MEd)

Students apply to one of these programs in spring of their junior year; interested students should meet with the Graduate Program Director. Students accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year; these graduate courses apply toward both undergraduate and graduate Mathematical Sciences requirements.

Students must apply for undergraduate degree conferral in anticipation of completing their fourth year of study.

### Mathematical Sciences (BA) / Secondary Education Mathematics (MEd)

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units. A full description of the Program can be found on the College of Education website in the graduate course catalog.

## Mathematical Sciences (BS)

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics.

Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences. Undergraduate students majoring in mathematical sciences may choose one of seven areas of concentration:

- Pure Mathematics
- Statistics
Actuarial Science
Financial Mathematics
Quantitative Analysis and Operations Research
Applied and Computational Mathematics

In consultation with a mathematics faculty advisor, undergraduate students may also create an individualized program of courses leading to a degree in mathematical sciences.

A thesis option is available to mathematics majors who wish to pursue an extended independent project related to a theoretical or applied focus of the program. Students would work under the guidance of a faculty mentor. At least 4 credits must be completed over one or two quarters prior to the thesis submission. Interested students are strongly encouraged to enroll in MAT 390 during their junior year.

**Learning Outcomes**

Students will be able to:

- Apply both abstract and quantitative reasoning to understand the relationships between quantities in problem situations, and to solve problems.
- Construct correct logical arguments and understand and critique the reasoning of others.
- Use relevant mathematical tools to answer questions in the natural, social, and computer sciences, as well as other academic disciplines.
- Identify, formulate, abstract, and solve mathematical problems using tools from a variety of mathematical areas including calculus, linear algebra, geometry, abstract algebra, analysis, number theory, probability, and statistics.
- Communicate mathematical ideas clearly, in oral or written form, by using appropriate mathematical terminology and notation.
- Critically interpret numerical and graphical data and use computer technology appropriately to solve problems and to promote understanding.

**College Core Requirements**

**Modern Language Requirements**

Students who intend to graduate with the Bachelor of Arts Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level
International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

**Major Declaration Requirements**

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Course Requirements

Common Core

- Choose one of the following three-course Calculus sequences:
  - Sequence One
    - MAT 150 CALCULUS I
    - MAT 151 CALCULUS II
    - MAT 152 CALCULUS III
  - Sequence Two
    - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
    - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
    - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
  - Sequence Three
    - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
    - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
    - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
  - Sequence Four
    - MAT 170 CALCULUS FOR LIFE SCIENCES I
    - MAT 171 CALCULUS FOR LIFE SCIENCES II
    - MAT 149, MAT 152 or MAT 162
  - Sequence Five*
    - MAT 155 SUMMER CALCULUS I
    - MAT 156 SUMMER CALCULUS II
    *Note: This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, 147, 150 or 160 should enroll in MAT 155; students who successfully complete MAT 148, 151 or 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

- MAT 260 MULTIVARIABLE CALCULUS I
- MAT 261 MULTIVARIABLE CALCULUS II
- MAT 262 LINEAR ALGEBRA
- MAT 215 INTRODUCTION TO MATHEMATICAL REASONING
  or MAT 140 DISCRETE MATHEMATICS I and MAT 141 DISCRETE MATHEMATICS II
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I or a more advanced course in any programming language.
- MAT 398 SENIOR CAPSTONE SEMINAR (Liberal Studies Program Capstone)

Students must earn at least 16 quarter hours as four courses from any of the following:

- Computer sciences and/or:
  - CSC 224 JAVA FOR PROGRAMMERS
  - CSC 233 CODES AND CIPHERS
  - CSC 235 PROBLEM SOLVING

- Game Development:
  - GAM 244 GAME DEVELOPMENT I
  - GAM 245 GAME DEVELOPMENT II
  - GAM 350 PHYSICS FOR GAME DEVELOPERS
  - GAM 353 TOOL PROGRAMMING FOR GAME DEVELOPMENT
  - GAM 368 AUGMENTED REALITY GAME DESIGN AND DEVELOPMENT through GAM 391 GAME PERFORMANCE OPTIMIZATION, except CSC 382
  - GAM 394 GAME DEVELOPMENT PROJECT I - GAM 398 TOPICS IN GAME PROGRAMMING
  - GAM 369 GAME DEVELOPMENT PROJECT II - GAM 398 TOPICS IN GAME PROGRAMMING

- Information Technology:
  - IT 223 DATA ANALYSIS
  - IT 278 COMMUNITY-BASED TECHNOLOGY PROJECTS
  - IT 231 WEB DEVELOPMENT I through IT 240 INTRODUCTION TO DATABASES
  - IT 263 APPLIED NETWORKS AND SECURITY
  - IT 313 ADVANCED APPLICATION DEVELOPMENT through IT 373 SYSTEM CONCEPTS
  - IT topics courses may only be accepted with advanced approval from the chair

- Software Engineering:
  - All SE courses may apply.
  - GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING, GEO 243 REMOTE
Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Pure Mathematics; Statistics; Actuarial Science; Financial Mathematics; Quantitative Analysis and Operations Research; Applied and Computational Mathematics; or Individualized.

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Actuarial Science
- Applied and Computational Mathematics
- Financial Mathematics
- Individualized
- Pure Mathematics
- Quantitative Analysis and Operations Research
- Statistics

Statistics Concentration

This concentration offers students a solid foundation in probability and statistics. Statisticians are employed by government, industry, marketing research companies, and consulting firms to design surveys and experiments and to analyze statistical data.

Concentration Requirements

- MAT 341 STATISTICAL METHODS USING SAS
- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
- MAT 356 APPLIED REGRESSION ANALYSIS
- MAT 326 SAMPLE SURVEY METHODS
  or MAT 328 DESIGN OF EXPERIMENTS

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

- MAT 335 REAL ANALYSIS I
Students interested in graduate study in mathematical statistics are encouraged to take the following:

- MAT 335 REAL ANALYSIS I
- MAT 336 REAL ANALYSIS II

Quantitative Analysis and Operations Research Concentration

This concentration provides students with the mathematical background to work in finance, computer applications, and production scheduling and forecasting.

Course Requirements

- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
- Three courses from the following list:
  - MAT 356 APPLIED REGRESSION ANALYSIS
  - MAT 358 APPLIED TIME SERIES AND FORECASTING
  - MAT 387 OPERATIONS RESEARCH I: LINEAR PROGRAMMING
  - MAT 388 OPERATIONS RESEARCH II: OPTIMIZATION THEORY

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- FIN 310 INTRODUCTION TO FINANCE
- FIN 330 INVESTMENTS: THEORY & PRACTICE
- FIN 335 PORTFOLIO MANAGEMENT
Pure Mathematics Concentration

This concentration provides a broad mathematical exposure for students who are interested in studying and/or doing mathematical research at the graduate level.

Concentration Requirements

- Three courses to be chosen from the following list:
  - MAT 310 ABSTRACT ALGEBRA I
  - MAT 311 ABSTRACT ALGEBRA II
  - MAT 335 REAL ANALYSIS I
  - MAT 336 REAL ANALYSIS II

- Three additional mathematics courses from the following list:
  - MAT 301 HISTORY OF MATHEMATICS
  - MAT 302 COMBINATORICS
  - MAT 303 THEORY OF NUMBERS
  - MAT 304 DIFFERENTIAL EQUATIONS
  - MAT 311 ABSTRACT ALGEBRA II
  - MAT 312 ABSTRACT ALGEBRA III
  - MAT 320 GEOMETRY I
  - MAT 321 GEOMETRY II
  - MAT 336 REAL ANALYSIS II
  - MAT 337 COMPLEX ANALYSIS
  - MAT 340 TOPOLOGY
  - MAT 348 APPLIED STATISTICAL METHODS
  - MAT 351 PROBABILITY AND STATISTICS I
  - MAT 352 PROBABILITY AND STATISTICS II
  - MAT 353 PROBABILITY AND STATISTICS III
  - MAT 370 ADVANCED LINEAR ALGEBRA
  - MAT 372 LOGIC AND SET THEORY
  - MAT 384 MATHEMATICAL MODELING
  - MAT 385 NUMERICAL ANALYSIS I
  - MAT 386 NUMERICAL ANALYSIS II

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Recommended Mathematics Courses:

- For students interested in graduate study in mathematics:
  - MAT 310 ABSTRACT ALGEBRA I
  - MAT 311 ABSTRACT ALGEBRA II
  - MAT 312 ABSTRACT ALGEBRA III
  - MAT 335 REAL ANALYSIS I
  - MAT 336 REAL ANALYSIS II
  - MAT 337 COMPLEX ANALYSIS

- For students interested in graduate study in economics, finance, or statistics:
  - MAT 335 REAL ANALYSIS I
  - MAT 336 REAL ANALYSIS II
  - MAT 351 PROBABILITY AND STATISTICS I
  - MAT 352 PROBABILITY AND STATISTICS II
  - MAT 353 PROBABILITY AND STATISTICS III
Individualized Concentration

Course Requirements

Students may consult with a mathematics faculty advisor and the department chair to create an individualized program of study leading to a degree in mathematics. Such a program will normally consist of the Common Core in Mathematics plus six mathematics courses chosen from those included in the other concentrations and approved by the department chair.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Financial Mathematics Concentration

Concentration Requirements

This concentration is a Mathematics Major that includes the set of courses which constitute the Finance Minor. It includes courses that are relevant to contemporary financial mathematical modeling, along with courses in Finance and their prerequisites.

- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
- MAT 355 STOCHASTIC PROCESSES
- MAT 368 MATHEMATICAL FINANCE
- MAT 304 DIFFERENTIAL EQUATIONS
  or MAT 385 NUMERICAL ANALYSIS I

Finance Minor Requirements Embedded in the Financial Mathematics Concentration

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- FIN 202 QUANTITATIVE REASONING
- FIN 310 INTRODUCTION TO FINANCE
- FIN 311 CORPORATE FINANCE
- FIN 320 MONEY AND BANKING
- FIN 330 INVESTMENTS: THEORY & PRACTICE
- Two electives chosen from the following list:
  - FIN 313 INVESTMENT BANKING
  - FIN 323 COMMERCIAL BANKING
  - FIN 333 FINANCIAL STATEMENTS ANALYSIS
  - FIN 335 PORTFOLIO MANAGEMENT
  - FIN 340 INTERNATIONAL FINANCE
  - FIN 360 IPOs & VENTURE CAPITAL
  - FIN 362 RISK MANAGEMENT
  - FIN 363 DERIVATIVES: PRICING & APPLICATIONS
  - FIN 380 CASES IN FINANCIAL DECISION MAKING
  - FIN 393 FINANCE INTERNSHIP
  - FIN 395 INVESTMENT SEMINAR
  - FIN 398 SPECIAL TOPICS
  - FIN 399 INDEPENDENT STUDY
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

- MAT 341 STATISTICAL METHODS USING SAS
- MAT 356 APPLIED REGRESSION ANALYSIS
- MAT 358 APPLIED TIME SERIES AND FORECASTING
- MAT 370 ADVANCED LINEAR ALGEBRA

Applied and Computational Mathematics Concentration

The concentration in Applied and Computational Mathematics is intended for any student who enjoys mathematics, problem solving, and applications to solving practical problems in business, government, and science. The concentration is especially intended for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied or discrete mathematics at the graduate level.

Course Requirements

- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II or another approved computer science course.
- Three courses chosen from the following list:
  - MAT 302 COMBINATORICS
  - MAT 304 DIFFERENTIAL EQUATIONS
  - MAT 384 MATHEMATICAL MODELING
  - MAT 385 NUMERICAL ANALYSIS I
- Two additional courses chosen from among the above and the following list:
  - MAT 335 REAL ANALYSIS I
  - MAT 351 PROBABILITY AND STATISTICS I
  - MAT 352 PROBABILITY AND STATISTICS II
  - MAT 370 ADVANCED LINEAR ALGEBRA
  - MAT 381 FOURIER ANALYSIS AND SPECIAL FUNCTIONS
  - MAT 386 NUMERICAL ANALYSIS II
- One additional course chosen from among the above and the following list:
  - MAT 303 THEORY OF NUMBERS
  - MAT 310 ABSTRACT ALGEBRA I
  - MAT 311 ABSTRACT ALGEBRA II
  - MAT 330 METHODS OF COMPUTATION AND THEORETICAL PHYSICS I
  - MAT 331 METHODS OF COMPUTATION AND THEORETICAL PHYSICS II
  - MAT 336 REAL ANALYSIS II
  - MAT 337 COMPLEX ANALYSIS
  - MAT 340 TOPOLOGY
  - MAT 341 STATISTICAL METHODS USING SAS
  - MAT 353 PROBABILITY AND STATISTICS III
  - MAT 355 STOCHASTIC PROCESSES
  - MAT 387 OPERATIONS RESEARCH I: LINEAR PROGRAMMING
  - MAT 388 OPERATIONS RESEARCH II: OPTIMIZATION THEORY

Students interested in graduate study in applied mathematics are encouraged to take MAT 335 and MAT 336, MAT 370, MAT 385 and MAT 386.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Actuarial Science Concentration

Actuarial Science uses mathematics, statistics and financial theory to study uncertain future events, especially those that relate to risk management and insurance programs. This concentration prepares students to work for insurance or pension consulting firms and government.

Concentration Requirements

- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
- MAT 361 THEORY OF INTEREST
- MAT 362 LIFE CONTINGENCIES I
- MAT 363 LIFE CONTINGENCIES II

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Recommended Mathematics Courses

- MAT 341 STATISTICAL METHODS USING SAS
- MAT 356 APPLIED REGRESSION ANALYSIS
- MAT 358 APPLIED TIME SERIES AND FORECASTING
- MAT 355 STOCHASTIC PROCESSES
- MAT 359 SIMULATION MODELS AND MONTE CARLO METHOD
- MAT 364 STOCHASTIC RISK MODELS
- MAT 367 CREDIBILITY THEORY
- MAT 368 MATHEMATICAL FINANCE

Additional Recommended Courses

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- FIN 310 INTRODUCTION TO FINANCE
- FIN 311 CORPORATE FINANCE
- FIN 320 MONEY AND BANKING
- FIN 330 INVESTMENTS: THEORY & PRACTICE
- FIN 335 PORTFOLIO MANAGEMENT
- FIN 362 RISK MANAGEMENT
- FIN 363 DERIVATIVES: PRICING & APPLICATIONS

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The combined Bachelor's/Master's Degree program offers four options:

- Mathematical Sciences (BA/BS) / Applied Mathematics (MS)
- Mathematical Sciences (BA/BS) / Applied Statistics (MS)
- Mathematical Sciences (BA/BS) / Pure Mathematics (MS)
- Mathematical Sciences (BA/BS) / Secondary Education Mathematics (MEd)
Students apply to one of these programs in spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year; these graduate courses apply toward both undergraduate and graduate Mathematical Sciences requirements.

Students must apply for undergraduate degree conferral in anticipation of completing their fourth year of study.

**Mathematical Sciences (BS)/ Secondary Education Mathematics (MEd)**

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units. A full description of the Program can be found on the College of Education website in the graduate course catalog.

---

**Mathematics (Minor)**

A minor in Mathematics can be developed to complement a major program in any major, with a focus on pure and applied mathematical theory.

**Course Requirements**

- Choose one of the following three-course Calculus sequences:
  - **Sequence One**
    - MAT 150 CALCULUS I
    - MAT 151 CALCULUS II
    - MAT 152 CALCULUS III
  - **Sequence Two**
    - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
    - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
    - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
  - **Sequence Three**
    - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
    - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
    - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
  - **Sequence Four**
    - MAT 170 CALCULUS FOR LIFE SCIENCES I
    - MAT 171 CALCULUS FOR LIFE SCIENCES II
    - MAT 172 CALCULUS III WITH DIFFERENTIAL EQUATIONS
  - **Sequence Five** *
    - MAT 155 SUMMER CALCULUS I
    - MAT 156 SUMMER CALCULUS II

*Note: This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, 147, 150 or 160 should enroll in MAT 155; students who successfully complete MAT 148, 151 or 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

- Choose one of the following options:
  - MAT 215 INTRODUCTION TO MATHEMATICAL REASONING
  - Discrete Mathematics Sequence
    - MAT 140 DISCRETE MATHEMATICS I and
    - MAT 141 DISCRETE MATHEMATICS II
  - Two additional mathematics courses chosen from the 200 or 300-level courses that are admissible for credit as part of the mathematics common core or as part of one of the concentrations in mathematics.

Business students who have an exceptionally strong background in calculus, including calculus of trig functions, may be permitted by the chair to substitute MAT 135 BUSINESS CALCULUS I and MAT 136 BUSINESS CALCULUS II for MAT 150 CALCULUS I.
Students cannot earn a minor in the same academic program as their major.

Mathematics and Computer Science (BS)

The BS in Mathematics and Computer Science is designed to prepare students to compete for the more intellectually demanding jobs in software development or for graduate study in various areas of computer science and applied mathematics such as theoretical computer science, graphics, data analysis, artificial intelligence, and computational methods.

Learning Outcomes

Students will be able to:

- Apply both abstract and quantitative reasoning to understand the relationships between quantities in problem situations, and to solve problems.
- Construct correct logical arguments and understand and critique the reasoning of others.
- Use relevant mathematical tools or computer algorithms to answer questions in the natural, social, and computer sciences, as well as other academic disciplines.
- Identify, formulate, abstract, and solve mathematical problems using tools from a variety of mathematical and computer science areas including calculus, linear algebra, geometry, abstract algebra, analysis, number theory, probability, statistics, and computer science.
- Communicate mathematical ideas clearly, in oral or written form, by using appropriate mathematical terminology and notation.
- Critically interpret numerical and graphical data and use computer technology and algorithms appropriately to solve problems and to promote understanding.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point
- LSP 112 FOCAL POINT SEMINAR

**Writing**
- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

**Quantitative Reasoning & Technological Literacy**
- Not Required

**Sophomore Year**

**Multiculturalism in the US**
- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

**Junior Year**

**Experiential Learning**
- Required

**Senior Year**

**Capstone**
- CSC 394 SOFTWARE PROJECTS *
  or MAT 398 SENIOR CAPSTONE SEMINAR *
  or GPH 395 COMPUTER GRAPHICS SENIOR PROJECT *

**Learning Domains**

**Arts and Literature (AL)**
- 3 Courses Required

**Philosophical Inquiry (PI)**
- 2 Courses Required  (See note below)

**Religious Dimensions (RD)**
- 2 Courses Required  (See note below)

**Scientific Inquiry (SI)**
- 1 SWK or Lab Course Required

**Social, Cultural, and Behavioral Inquiry (SCBI)**
- 3 Courses Required

**Understanding the Past (UP)**
- 2 Courses Required
  
  * Students must earn a C- or better in this course.

**Notes**

Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD)

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

Students with a primary major in Mathematics and Computer Science (joint degree) are required to complete one of the following Capstone courses: CSC 394, GPH 395, or MAT 398. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics and Computer Science (joint degree) are also required to complete one of these courses. Mathematics and Computer Science (joint degree) students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

**Course Requirements**

- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- CSC 300 DATA STRUCTURES IN JAVA I
- CSC 301 DATA STRUCTURES IN JAVA II
- CSC 321 DESIGN AND ANALYSIS OF ALGORITHMS
- CSC 373 COMPUTER SYSTEMS I
- CSC 374 COMPUTER SYSTEMS II
- CSC 394 SOFTWARE PROJECTS (Capstone)
  or GPH 395 COMPUTER GRAPHICS SENIOR PROJECT (Capstone)
  or MAT 398 SENIOR CAPSTONE SEMINAR (Capstone)
- MAT 140 DISCRETE MATHEMATICS I
- MAT 141 DISCRETE MATHEMATICS II
- One of the following three-course sequences:
  - Calculus Sequence (option 1)
    - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
    - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
    - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
  - Calculus Sequence (option 2)
    - MAT 150 CALCULUS I
    - MAT 151 CALCULUS II
    - MAT 152 CALCULUS III
  - Summer Calculus (option 3)
    - MAT 155 SUMMER CALCULUS I
    - MAT 156 SUMMER CALCULUS II
  - Calculus for Mathematics and Science Majors Sequence (option 4)
    - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
    - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
    - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
  - Calculus with Scientific Applications Sequence (option 5)
    - MAT 170 CALCULUS FOR LIFE SCIENCES I
    - MAT 171 CALCULUS FOR LIFE SCIENCES II
    - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
    - or MAT 152 CALCULUS III
    - or MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
- MAT 260 MULTIVARIABLE CALCULUS I
- MAT 262 LINEAR ALGEBRA
- 3 CDM Major Electives
3 MAT Major Electives
1 CDM or MAT Major Elective

Note: Students may take CSC 243 PYTHON FOR PROGRAMMERS and 1 Additional Major Elective in lieu of CSC 241 and CSC 242.

Major Electives

Students must take 7 Major Field electives chosen from the grouped list below. Of these, 3 must be CDM courses and 3 must be MAT courses, and 1 could be either a CDM or MAT course.

Students must earn a grade of C- or higher in all major elective courses.

It is recommended that students concentrate on one or two areas for their advanced classes to achieve depth, but they are not required to do so. Students are strongly encouraged to discuss course selection with an advisor. Students may wish to arrange with a professor to take an independent study or a research experience (MAT 399 or CSC 399 or IT 300) in order to explore a subject more deeply than is possible in a scheduled course.

Theory of Computation

The courses in the theory area explore the mathematical and logical foundations of computer science.

- MAT 302 COMBINATORICS
- MAT 303 THEORY OF NUMBERS
- MAT 304 DIFFERENTIAL EQUATIONS
- MAT 351 PROBABILITY AND STATISTICS I
- MAT 310 ABSTRACT ALGEBRA I
- MAT 311 ABSTRACT ALGEBRA II
- MAT 312 ABSTRACT ALGEBRA III
- MAT 335 REAL ANALYSIS I
- MAT 372 LOGIC AND SET THEORY
- CSC 235 PROBLEM SOLVING
- CSC 327 PROBLEM SOLVING FOR CONTESTS
- CSC 333 CRYPTOLOGY
- CSC 344 AUTOMATA THEORY AND FORMAL GRAMMARS
- CSC 347 CONCEPTS OF PROGRAMMING LANGUAGES
- CSC 348 INTRODUCTION TO COMPILER DESIGN
- CSC 358 SYMBOLIC PROGRAMMING
- CSC 387 OPERATIONS RESEARCH I: LINEAR PROGRAMMING or MAT 387 OPERATIONS RESEARCH I:LINEAR PROGRAMMING
- CSC 389 THEORY OF COMPUTATION

Computational Methods

The computational methods area investigates quantitative and computational methods in computer science.

- CSC 331 SCIENTIFIC COMPUTING
- MAT 385 NUMERICAL ANALYSIS I
- MAT 386 NUMERICAL ANALYSIS II
- MAT 330 METHODS OF COMPUTATION AND THEORETICAL PHYSICS I
- MAT 331 METHODS OF COMPUTATION AND THEORETICAL PHYSICS II
- MAT 384 MATHEMATICAL MODELING

Artificial Intelligence

For students with an interest in the computational relations between syntax and semantics.

- CSC 380 FOUNDATIONS OF ARTIFICIAL INTELLIGENCE
- CSC 357 EXPERT SYSTEMS
- CSC 358 SYMBOLIC PROGRAMMING

Data Analysis

For students who are interested in statistical and computational analysis of data. Many of the courses in this area require the student to take MAT 351-353.

- CSC 328 DATA ANALYSIS FOR EXPERIMENTERS
- CSC 334 ADVANCED DATA ANALYSIS
  or MAT 354 MULTIVARIATE STATISTICS
- CSC 367 INTRODUCTION TO DATA MINING
Graphics

The graphics courses are intended for students who want to study the technical and mathematical foundations of computer graphics and animation.

- MAT 337 COMPLEX ANALYSIS
- MAT 261 MULTIVARIABLE CALCULUS II
- MAT 385 NUMERICAL ANALYSIS I
- GPH 211 PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS I
- GPH 212 PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS II
- GPH 325 SURVEY OF COMPUTER GRAPHICS
- GPH 329 COMPUTER GRAPHICS DEVELOPMENT II
- GPH 336 SMOOTH SURFACE MODELING FOR GRAPHICS AND ANIMATION
- GPH 372 PRINCIPLES OF COMPUTER ANIMATION

Computer Vision

Computer vision studies the mathematical and algorithmic underpinnings of image analysis and image processing.

- MAT 261 MULTIVARIABLE CALCULUS II
- MAT 335 REAL ANALYSIS I
- MAT 381 FOURIER ANALYSIS AND SPECIAL FUNCTIONS
- MAT 370 ADVANCED LINEAR ALGEBRA
- MAT 384 MATHEMATICAL MODELING
- CSC 381 INTRODUCTION TO DIGITAL IMAGE PROCESSING
- CSC 382 APPLIED IMAGE ANALYSIS

Research

- CSC 395 RESEARCH COLLOQUIUM
- CSC 399 INDEPENDENT STUDY
- MAT 390 MATHEMATICS READING AND RESEARCH
- MAT 396 SENIOR THESIS RESEARCH

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher
Sample Schedule

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

First Year

- CSC 300 DATA STRUCTURES IN JAVA I
- One of the following sequences:
  - Option 1:
    - CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
    - CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
  - Option 2:
    - CSC 243 PYTHON FOR PROGRAMMERS
    - 1 Major Elective
- 6 Liberal Studies

In addition, students must complete one of the following three-course sequences:

- Calculus Sequence (option 1)
  - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
  - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
  - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
- Calculus Sequence (option 2)
  - MAT 150 CALCULUS I
  - MAT 151 CALCULUS II
  - MAT 152 CALCULUS III
- Summer Calculus (option 3)
  - MAT 155 SUMMER CALCULUS I
  - MAT 156 SUMMER CALCULUS II
- Calculus for Mathematics and Science Majors Sequence (option 4)
  - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
  - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
  - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
- Calculus with Scientific Applications Sequence (option 5)
  - MAT 170 CALCULUS FOR LIFE SCIENCES I
  - MAT 171 CALCULUS FOR LIFE SCIENCES II
  - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
  - or MAT 152 CALCULUS III
  - or MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III

Second Year

- CSC 301 DATA STRUCTURES IN JAVA II
- CSC 373 COMPUTER SYSTEMS I
- CSC 374 COMPUTER SYSTEMS II
- MAT 140 DISCRETE MATHEMATICS I
- MAT 141 DISCRETE MATHEMATICS II
- MAT 260 MULTIVARIABLE CALCULUS I
- 6 Liberal Studies

Third Year

- CSC 321 DESIGN AND ANALYSIS OF ALGORITHM
- MAT 262 LINEAR ALGEBRA
- 4 Liberal Studies
- 1 CDM Major Elective
- 2 MAT Major Electives
- 3 Open Electives

Fourth Year
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs. Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be
Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program. This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisors. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Mathematics and Computer Science (BS)

The BS in Math and Computer Science is a joint degree between the College of Computing and Digital Media and the Department of Mathematics in the College of Science and Health. It provides challenging opportunities to exceptional students with an interest in the highly theoretical nexus of math and computer science. Mathematics is a key element to the theory and practice of computer science and technology:

- Number theory forms the basis for encryption algorithms for messages sent over the Internet.
- Facts from projective geometry and multivariable calculus underlie the computer algorithms that control computer animation.
- Properties of abstract groups are instrumental in correcting transmission errors that occur when information is sent from one computer to another.
- Graph theory and combinatorics are used to create algorithms for Internet search engines and analyze Internet routing protocols.

This program is intended to appeal to academically talented students. It is designed to prepare them for graduate study in various areas of computer science such as theoretical computer science, graphics, data analysis, artificial intelligence, and computational methods and in areas in applied mathematics such as numerical analysis or discrete mathematics. The program is also designed to prepare students to compete for the more theoretically complex jobs found in computer software development.

Students in the program will explore a broad range of fields including:

- Theory of computation
- Computational mathematics
- Artificial intelligence
- Data analysis
- Graphics
- Computer vision
- Research

It is highly recommended that students concentrate on one or two areas for their advanced classes to achieve
depth, but they are not required to do so. Faculty advisors are available to assist students in their selection.

**Learning Outcomes**

Students will be able to:

- Apply both abstract and quantitative reasoning to understand the relationships between quantities in problem situations, and to solve problems.
- Construct correct logical arguments and understand and critique the reasoning of others.
- Use relevant mathematical tools to answer questions in the natural, social, and computer sciences, as well as other academic disciplines.
- Identify, formulate, abstract, and solve mathematical problems using tools from a variety of mathematical areas including calculus, linear algebra, geometry, abstract algebra, analysis, number theory, probability, and statistics.
- Communicate mathematical ideas clearly, in oral or written form, by using appropriate mathematical terminology and notation.
- Critically interpret numerical and graphical data and use computer technology appropriately to solve problems and to promote understanding.

**College Core Requirements**

**Modern Language Requirements**

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.
Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- Not Required

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- CSC 394 SOFTWARE PROJECTS *
  or MAT 398 SENIOR CAPSTONE SEMINAR *
  or GPH 395 COMPUTER GRAPHICS SENIOR PROJECT *
Learning Domains

Arts and Literature (AL)
- 3 Courses Required

Philosophical Inquiry (PI)
- 2 Courses Required  (See note below)

Religious Dimensions (RD)
- 2 Courses Required  (See note below)

Scientific Inquiry (SI)
- 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI)
- 3 Courses Required

Understanding the Past (UP)
- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD)

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Students with a primary major in Mathematics and Computer Science (joint degree) are required to complete one of the following Capstone courses: CSC 394, GPH 395, or MAT 398. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics and Computer Science (joint degree) are also required to complete one of these courses. Mathematics and Computer Science (joint degree) students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- CSC 300 DATA STRUCTURES IN JAVA I
- CSC 301 DATA STRUCTURES IN JAVA II
• CSC 321 DESIGN AND ANALYSIS OF ALGORITHMS
• CSC 373 COMPUTER SYSTEMS I
• CSC 374 COMPUTER SYSTEMS II
• CSC 394 SOFTWARE PROJECTS (Capstone)
or GPH 395 COMPUTER GRAPHICS SENIOR PROJECT (Capstone)
or MAT 398 SENIOR CAPSTONE SEMINAR (Capstone)
• MAT 140 DISCRETE MATHEMATICS I
• MAT 141 DISCRETE MATHEMATICS II
• One of the following three-course sequences:
  • Calculus Sequence (option 1)
    - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
    - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
    - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
  • Calculus Sequence (option 2)
    - MAT 150 CALCULUS I
    - MAT 151 CALCULUS II
    - MAT 152 CALCULUS III
  • Summer Calculus (option 3)
    - MAT 155 SUMMER CALCULUS I
    - MAT 156 SUMMER CALCULUS II
  • Calculus for Mathematics and Science Majors Sequence (option 4)
    - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
    - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
    - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
  • Calculus with Scientific Applications Sequence (option 5)
    - MAT 170 CALCULUS FOR LIFE SCIENCES I
    - MAT 171 CALCULUS FOR LIFE SCIENCES II
    - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
      or MAT 152 CALCULUS III
      or MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
• MAT 260 MULTIVARIABLE CALCULUS I
• MAT 262 LINEAR ALGEBRA
• 3 CDM Major Electives
• 3 MAT Major Electives
• 1 CDM or MAT Major Elective

Note: Students may take CSC 243 PYTHON FOR PROGRAMMERS and 1 Additional Major Elective in lieu of CSC 241 and CSC 242.

Major Electives

Students must take 7 Major Field electives chosen from the grouped list below. Of these, 3 must be CDM courses and 3 must be MAT courses, and 1 could be either a CDM or MAT course.

Students must earn a grade of C- or higher in all major elective courses.

It is recommended that students concentrate on one or two areas for their advanced classes to achieve depth, but they are not required to do so. Students are strongly encouraged to discuss course selection with an advisor. Students may wish to arrange with a professor to take an independent study or a research experience (MAT 399 or CSC 399 or IT 300) in order to explore a subject more deeply than is possible in a scheduled course.

Theory of Computation

The courses in the theory area explore the mathematical and logical foundations of computer science.

• MAT 302 COMBINATORICS
• MAT 303 THEORY OF NUMBERS
• MAT 304 DIFFERENTIAL EQUATIONS
• MAT 351 PROBABILITY AND STATISTICS I
• MAT 310 ABSTRACT ALGEBRA I
• MAT 311 ABSTRACT ALGEBRA II
• MAT 312 ABSTRACT ALGEBRA III
• MAT 335 REAL ANALYSIS I
• MAT 372 LOGIC AND SET THEORY
• CSC 235 PROBLEM SOLVING
• CSC 327 PROBLEM SOLVING FOR CONTESTS
• CSC 333 CRYPTOLOGY
• CSC 344 AUTOMATA THEORY AND FORMAL GRAMMARS
• CSC 347 CONCEPTS OF PROGRAMMING LANGUAGES
• CSC 348 INTRODUCTION TO COMPILER DESIGN
Computational Methods

The computational methods area investigates quantitative and computational methods in computer science.

- CSC 331 SCIENTIFIC COMPUTING
- MAT 385 NUMERICAL ANALYSIS I
- MAT 386 NUMERICAL ANALYSIS II
- MAT 330 METHODS OF COMPUTATION AND THEORETICAL PHYSICS I
- MAT 331 METHODS OF COMPUTATION AND THEORETICAL PHYSICS II
- MAT 384 MATHEMATICAL MODELING

Artificial Intelligence

For students with an interest in the computational relations between syntax and semantics.

- CSC 380 FOUNDATIONS OF ARTIFICIAL INTELLIGENCE
- CSC 357 EXPERT SYSTEMS
- CSC 358 SYMBOLIC PROGRAMMING

Data Analysis

For students who are interested in statistical and computational analysis of data. Many of the courses in this area require the student to take MAT 351-353.

- CSC 328 DATA ANALYSIS FOR EXPERIMENTERS
- CSC 334 ADVANCED DATA ANALYSIS
  or MAT 354 MULTIVARIATE STATISTICS
- CSC 367 INTRODUCTION TO DATA MINING
- MAT 261 MULTIVARIABLE CALCULUS II
- MAT 351 PROBABILITY AND STATISTICS I
- MAT 352 PROBABILITY AND STATISTICS II
- MAT 353 PROBABILITY AND STATISTICS III
- MAT 355 STOCHASTIC PROCESSES
- MAT 357 NONPARAMETRIC STATISTICS
- MAT 370 ADVANCED LINEAR ALGEBRA
- MAT 356 APPLIED REGRESSION ANALYSIS
- MAT 358 APPLIED TIME SERIES AND FORECASTING
- MAT 359 SIMULATION MODELS AND MONTE CARLO METHOD

Graphics

The graphics courses are intended for students who want to study the technical and mathematical foundations of computer graphics and animation.

- MAT 337 COMPLEX ANALYSIS
- MAT 261 MULTIVARIABLE CALCULUS II
- MAT 385 NUMERICAL ANALYSIS I
- GPH 211 PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS I
- GPH 212 PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS II
- GPH 325 SURVEY OF COMPUTER GRAPHICS
- GPH 329 COMPUTER GRAPHICS DEVELOPMENT II
- GPH 336 SMOOTH SURFACE MODELING FOR GRAPHICS AND ANIMATION
- GPH 372 PRINCIPLES OF COMPUTER ANIMATION

Computer Vision

Computer vision studies the mathematical and algorithmic underpinnings of image analysis and image processing.

- MAT 261 MULTIVARIABLE CALCULUS II
- MAT 335 REAL ANALYSIS I
- MAT 381 FOURIER ANALYSIS AND SPECIAL FUNCTIONS
- MAT 370 ADVANCED LINEAR ALGEBRA
- MAT 384 MATHEMATICAL MODELING
Media and Cinema Studies (BA)

The College of Communication, located at the Loop Campus, offers a variety of courses leading to a Bachelor of Arts degree in Media and Cinema Studies. The BA in Media and Cinema Studies strategically combines faculty expertise, cutting-edge facilities, and a variety of course offerings within Communication, the School of Cinema and Interactive Media (CIM) (e.g., Digital Cinema), and other University units to provide students with the critical frameworks, creative opportunities, and technological expertise to become socially responsible leaders in the growing and converging areas of media studies. The major combines a rich course selection in four areas of study: film, radio, TV, and new media. Coursework combines theory and critical analysis with production courses taught at both the Lincoln Park (e.g., radio) and Loop campuses (e.g., television/video and cinema studies).

<tr>
<td><strong>Total</strong></td>
<td><strong>192</strong></td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Analyze media texts for their formal and representational meanings, and/or for audience reception practices.
- Examine media representations and access across registers of nation, citizenship, migration, diasporas, class, religion, gender, race, and ethnicity.
- Explain the potential relationships between and/or ethical issues regarding media, social movements, and
local, national, and/or global cultures.

- Interpret media cultures within the contexts of technology, economics, and/or industry.

College Core Requirements

All majors in the College of Communication (with the exception of Public Relations and Advertising) consist of a total of fourteen courses: a four-course common core plus an additional combination of ten program requirements and electives. The Public Relations and Advertising major consists of a total of fifteen courses: a four-course common core plus an additional combination of eleven program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:

- CMN 101 INTRODUCTION TO HUMAN COMMUNICATION
- CMN 102 INTRODUCTION TO MASS COMMUNICATION
- CMN 103 INTERCULTURAL COMMUNICATION
- CMN 104 PUBLIC SPEAKING

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination. (Note that CLEP scores may be used only to meet the language requirement. Credit is not awarded in modern languages on the basis of CLEP scores).

Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for two learning domain courses and one open elective. Students may use the Modern Language Option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the SWK or Lab). Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below.)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- CMN 396 CAPSTONE IN COMMUNICATION *

Learning Domains

Arts and Literature (AL)

- 2 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
Social, Cultural, and Behavioral Inquiry (SCBI)
- 2 Courses Required

Religious Dimensions (RD)
- 2 Courses Required

Understanding the Past (UP)
- 2 Courses Required
* Students must earn a C- or better in this course.

Note
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy
Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements
- MCS 271 MEDIA AND CULTURAL STUDIES
- MCS 273 STORYTELLING & STYLE IN CINEMA
- Four History/Criticism courses from the following (16 credits):
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS
  - CMN 398 STUDY ABROAD
  - CMNS 309 INTERNATIONAL/GLOBAL COMMUNICATION
  - CMNS 337 ASIAN-AMERICAN MEDIA REPRESENTATIONS
  - MCS 207 HISTORY OF CINEMA I, 1890-1945
  - MCS 208 HISTORY OF CINEMA II, 1945-1975
  - MCS 209 HISTORY OF CINEMA III, 1975-PRESENT
  - MCS 231 INTRODUCTION TO DOCUMENTARY STUDIES
  - MCS 251 SPACES OF CINEMA IN ROME
  - MCS 252 CONTEMPORARY ITALIAN CULTURE THROUGH FILM
  - MCS 290 MEDIA & CINEMA STUDIES WORKSHOP (VARIABLE TOPICS) (must be taken 2x w/
different research topics to count for History/Criticism elective) (2 cr.)
- MCS 331 TOPICS IN DOCUMENTARY STUDIES
- MCS 341 TOPICS IN RADIO STUDIES
- MCS 342 HISTORY OF TELEVISION & RADIO
- MCS 343 MEDIA ETHICS
- MCS 344 THE SEXUAL REVOLUTION: HOLLYWOOD IN THE 1960s
- MCS 348 TOPICS IN FILM GENRE
- MCS 349 TOPICS IN FILM STUDIES
- MCS 350 TOPICS IN GLOBAL CINEMA
- MCS 351 TOPICS IN TELEVISION STUDIES
- MCS 352 TOPICS IN NEW MEDIA
- MCS 353 TOPICS IN MEDIA STUDIES
- MCS 355 SEX IN THE BOX: U.S. TELEVISION, SEX, AND SEXUALITY
- MCS 358 TOPICS IN COMICS STUDIES
- MCS 359 TOPICS IN CULT STUDIES
- MCS 360 B-MOVIES
- MCS 361 FANDOM & PARTICIPATORY CULTURE
- MCS 362 COLOR TV: BLACKNESS IN AMERICAN TV
- MCS 364 MONSTERS IN POPULAR CULTURE
- MCS 366 COMMUNICATION, TECHNOLOGY AND SOCIETY
- MCS 369 TIME TRAVEL ON TELEVISION
- MCS 375 LATINO/A TELEVISION AND MEDIA
- MCS 376 LATIN AMERICAN CINEMA
- MCS 378 SEINFELD
- MCS 379 SPIKE LEE AND QUENTIN TARANTINO
- MCS 383 TALKING ABOUT FILM: THEORY & CRITICISM
- MCS 385 SEMIOTICS, STORYTELLING, & FILM FORM
- MCS 399 INDEPENDENT STUDY
- Prior course credit for CMN 272: Concepts in Media Design or CMN 347: Mass Media Criticism can count toward History/Criticism electives as well

- One Production course from the following (4 credits):
  - MCS 286 RADIO PRACTICUM (1 cr.)
  - MCS 290 MEDIA & CINEMA STUDIES WORKSHOP (VARIABLE TOPICS) (must be taken 2x w/ different creative topics to count for Production elective) (2 cr.)
  - MCS 339 RADIO BROADCASTING
  - MCS 373 AUDIO DOCUMENTARY
  - MCS 386 AUDIO PRODUCTION FOR RADIO AND THE WEB
  - MCS 389 TOPICS IN MEDIA PRODUCTION
  - DC 200 MEDIA LITERACIES
  - DC 201 INTRODUCTION TO SCREENWRITING
  - DC 210 DIGITAL CINEMA PRODUCTION I
  - DC 215 INTRODUCTION TO SOUND DESIGN
  - DC 220 EDITING I
  - DC 271 INTRODUCTION TO TELEVISION PRODUCTION
  - DC 272 INTRODUCTION TO TELEVISION WRITING
  - DC 275 CINEMATOGRAPHY I
  - DC 301 ADVANCED SCREENWRITING I
  - DC 310 DIGITAL CINEMA PRODUCTION II
  - DC 371 DOCUMENTARY PRODUCTION
  - DC 372 TOPICS IN TV PRODUCTION
  - JOUR 276 PHOTOJOURNALISM
  - ANI 101 ANIMATION FOR NON-MAJORS
  - ANI 105 MOTION GRAPHICS FOUNDATIONS
  - ART 328 DOCUMENTARY PHOTOGRAPHY
- Three additional electives from any College of Communication course or from the Digital Cinema offerings listed above, provided that the DC classes in question have not already been taken under a MCS course number.

**Internships**

Students in the major may take CMN 394 COMMUNICATION INTERNSHIP and/or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The following Communication graduate programs have been approved as combined degree options:

- Digital Communication and Media Arts (MA)
- Health Communication (MA)
- Journalism (MA)
- Media and Cinema Studies (MA)
- Organizational and Multicultural Communication (MA)
- Public Relations and Advertising (MA)
- Relational Communication (MA)

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their B.A. degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Digital Communication and Media Arts (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Digital Communication and Media Arts coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the DCMA core courses (CMNS 570 and MCS 575) and one DCMA elective course during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Health Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, and have successfully completed three 300-level courses in their major are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Health Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take the HTHC core courses (HTHC 515, HTHC 516, HTHC 517) during the senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Journalism (MA)

Students with junior status who have earned a 3.25 GPA in their major courses and 3.0 cumulative GPA are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is
seeking admission to the program, writing sample or project that demonstrates the applicant's ability in journalism, and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Journalism coursework which will fulfill undergraduate Journalism major electives, communication electives and/or open electives. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirements, they will not be allowed to continue as a graduate student in the program.

Media and Cinema Studies (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Media and Cinema Studies coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the MCS core courses (MCS 501, MCS 502, MCS 504) and one MCS elective during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Organizational and Multicultural Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, and have successfully completed three 300-level Communication courses are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, CMNS 501, CMNS 541, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Public Relations and Advertising (MA)

Students with junior status who have earned a 3.25 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, have successfully completed three 300-level Communication courses, and are currently holding one or more PRAD internships or jobs are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), one letter of recommendation from a PRAD professor, and one letter of recommendation from a supervisor at a PRAD-related internship or job.

During their senior year students complete 12 graduate credit hours of Public Relations and Advertising coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take three core courses during their senior year (examples: PRAD 553, PRAD 555, PRAD 575, and PRAD 585). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Relational Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined
Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Relational Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, RELC 500*, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

* For BA/MA students who are completing their BA in Relational Communication and seeking an MA in Relational Communication, the core course requirement of RELC 500 – Theories of Relational Communication will be waived. Students waived from having to take RELC 500 will replace the course with an additional graduate RELC elective course (still completing the required total of 48-credit hours).

Media and Cinema Studies (Minor)

The Media and Cinema Studies minor combines courses from film, television, radio and new media. You will gain a historical and critical understanding of the media industry with the option to focus on one type of media.

Course Requirements

- MCS 271 MEDIA AND CULTURAL STUDIES
- MCS 273 STORYTELLING & STYLE IN CINEMA
- Three History/Criticism Courses from the following:
  - MCS 207 HISTORY OF CINEMA I, 1890-1945
  - MCS 208 HISTORY OF CINEMA II, 1945-1975
  - MCS 209 HISTORY OF CINEMA III, 1975-PRESENT
  - MCS 231 INTRODUCTION TO DOCUMENTARY STUDIES
  - MCS 331 TOPICS IN DOCUMENTARY STUDIES
  - MCS 341 TOPICS IN RADIO STUDIES
  - MCS 342 HISTORY OF TELEVISION & RADIO
  - MCS 343 MEDIA ETHICS
  - MCS 344 THE SEXUAL REVOLUTION: HOLLYWOOD IN THE 1960s
  - MCS 348 TOPICS IN FILM GENRE
  - MCS 349 TOPICS IN FILM STUDIES
  - MCS 350 TOPICS IN GLOBAL CINEMA
  - MCS 351 TOPICS IN TELEVISION STUDIES
  - MCS 352 TOPICS IN NEW MEDIA
  - MCS 358 TOPICS IN COMICS STUDIES
  - MCS 360 B-MOVIES
  - MCS 361 FANDOM & PARTICIPATORY CULTURE
  - MCS 364 MONSTERS IN POPULAR CULTURE
  - MCS 366 COMMUNICATION, TECHNOLOGY AND SOCIETY
  - MCS 369 TIME TRAVEL ON TELEVISION
  - MCS 378 SEINFELD
  - MCS 379 SPIKE LEE AND QUENTIN TARANTINO
  - MCS 383 TALKING ABOUT FILM: THEORY & CRITICISM
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS
  - CMNS 309 INTERNATIONAL/GLOBAL COMMUNICATION
  - Prior course credit for CMN 272 – Concepts in Media Design; or CMN 347 – Mass Media Criticism can still count as History/Criticism electives for any of the above-mentioned areas.

- One Production course from the following:
  - MCS 339 RADIO BROADCASTING
  - MCS 373 AUDIO DOCUMENTARY
  - MCS 386 AUDIO PRODUCTION FOR RADIO AND THE WEB
Students majoring in Media and Cinema Studies (BA) are restricted from earning this minor.

Medical Anthropology

Medical Anthropology is the study of how health and illness are shaped, experienced, and understood in light of global, historical, and political forces. This area of specialization crosses two subfields in the discipline of Anthropology – Biological and Cultural Anthropology. This minor is especially appropriate for Health Science students.

Course Requirements

- ANT 102 CULTURAL ANTHROPOLOGY
- ANT 104 INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY
- ANT 272 INTRODUCTION TO MEDICAL ANTHROPOLOGY
- Select two from the following
  - ANT 320 HUMAN VARIATION
  - ANT 360 ISSUES IN GLOBAL HEALTH
  - ANT 361 GLOBAL ISSUES IN WOMEN'S HEALTH
  - ANT 362 GLOBAL HISTORY OF HEALTH
- Select one 200 or 300-level Anthropology course.

Students majoring in Anthropology (BA) or minoring in Anthropology are restricted from earning this minor.

Middle Grades Education (BS)

The Bachelor of Science program in Middle Grades Education prepares teachers for eligibility for a teaching license and two IL endorsements in grades 5-8 (ie., Math & Science; Language Arts and Social Science).

The mission of the DePaul University College of Education's Middle Grades Teacher Education Program is to prepare educators who have passion for, understanding of, and commitment to working with young adolescents. We prepare educators who foster equitable, intellectually rich, socially just, and compassionate learning environments for diverse middle level youth. To accomplish this goal, our program is designed to cultivate in teacher candidates the pedagogical skills, subject area understandings, and social conscience necessary to enact thoughtful teaching practice. We aim to prepare critical, creative educators who continually reflect on and inquire into their practices in order to further their own and their students’ learning. Our teacher candidates develop a
broad understanding of the contextual factors that impact the teaching, learning and growth of middle grade learners, including the ways in which society shapes our views of middle grades learners and the social, emotional, cognitive, spiritual, and physical dimensions of healthy adolescence. Through the integration of course work and field experiences, candidates learn about and apply interdisciplinary theories and practices that enable them to promote the intellectual curiosity, personal and academic excellence, and social and self-awareness of diverse middle level youth.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

**Licensure**

Illinois Professional Educator License with endorsement in Middle Grades Education (grades 5 - 8), an Illinois State Board of Education (ISBE) approved program.

</table>

**Learning Outcomes**

Students will be able to:

- Justify and communicate instructional strategies based on the unique needs of middle level learners.
- Differentiate, critique, articulate, and communicate conceptual and practical understandings of the relationship amongst youth development, pedagogical approaches, curricular content, and the role of the educator across varied school contexts and communities.
- Articulate, analyze, interpret, theorize, and communicate adolescent development within historical scholarly traditions and in the context of school and society.
- Articulate, analyze, interpret, theorize, and communicate an informed philosophy of middle level education and its relevance to adolescence.
- Articulate and communicate an informed philosophy about the value and purpose of specialized middle level education.
- Identify and locate materials, resources and practices that resonate with diverse social, cultural, and economic lives of adolescents.
- Articulate, justify, and demonstrate the value of literacy as it relates to identity and positive social contribution.
- Question and critique the ways adolescence is socially viewed and constructed, and articulate the implications of this for middle level education.
- Develop and express the intent to pursue professional development opportunities surrounding issues and advances in middle level education.
- Demonstrate relevant content area expertise.
College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill
level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul undergraduate 2.5 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.
The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content area courses
- Overall cumulative G.P.A. of 2.50 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not
announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below.)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES
Junior Year

Experiential Learning

- Met by successful completion of required field experience hours.

Senior Year

Capstone

- Required*  
  (Note: This must be taken along with student teaching. Students must earn a C or better in this course.)

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required:
  - LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
  - 1 Additional Course  
    (Note: PHL 100 recommended)

Scientific Inquiry (SI)

- 3 Courses Required:
  - 1 BIO
  - 1 CHE/ENV/GEO/PHY
  - 1 Additional Course  
    (Note: One course must be a lab or SWK.)

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required:
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 2 Additional Courses

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required  
  (Note: One must be in US History.)

* Students must earn a C- or better in this course.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if
Major Requirements

Course Requirements

First Content Area Course: 24 hours required, grade of C or better required

A content area is a single area of study in language arts, math, science, or social science (cannot include coursework in Education).

- Six content courses:
  - 100, 200, 300 level language arts, math, science, or social science course 1
  - 100, 200, 300 level language arts, math, science, or social science course 2
  - 100, 200, 300 level language arts, math, science, or social science course 3
  - 200-300 level language arts, math, science, or social science course 4
  - 200-300 level language arts, math, science, or social science course 5
  - 200-300 level language arts, math, science, or social science course 6

- For science, content coursework must include one course each in
  - physical sciences;
  - life sciences; and
  - earth and space sciences.

- For social sciences, coursework must include one course each in
  - history;
  - geography;
  - civics and government; and
  - economics.

Note that individuals can receive a reduction of 1 course in this area based on courses taken in the learning domains. This applies only to language arts, math, or social science. Talk to your advisor about applying the reduction.

Second Content Area: 20 hours required, grade of C or better required

A content area is a single area of study in language arts, math, science, or social science. The second content area must be a different area than the one chosen as the primary content area (cannot include coursework in Education).

- Five content courses:
  - 100, 200, 300 level language arts, math, science, or social science course 1
  - 100, 200, 300 level language arts, math, science, or social science course 2
  - 100, 200, 300 level language arts, math, science, or social science course 3
  - 200-300 level language arts, math, science, or social science course 4
  - 200-300 level language arts, math, science, or social science course 5

- For science, content coursework must include one course each in
  - physical sciences;
  - life sciences; and
  - earth and space sciences.

- For social sciences, coursework must include one course each in
  - history;
  - geography;
  - civics and government; and
  - economics.

Pre-Education Core (Junior Standing): 30 quarter hours required, grade of C or better required

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- MGE 300 INTRODUCTION TO MIDDLE GRADES EDUCATION
- MGE 311 SUPERVISED FIELD EXPERIENCE (1 credit hour)
Advanced Standing Education Courses (Senior Standing): 22 quarter hours required, grade of C or better required

- MGE 341 CURRICULAR LITERACY IN THE MIDDLE GRADES CONTENT AREAS II
- CSL 377 SOCIAL EMOTIONAL LEARNING IN THE MIDDLE GRADES
- MGE 351 ASSESSMENT PRACTICES IN THE MIDDLE GRADES
- MGE 361 SUPERVISED FIELD EXPERIENCE (1 credit hour)
- Choose two of the following (based on content concentration):
  - MGE 371 THE TEACHING OF MATHEMATICS IN THE MIDDLE GRADES
  - MGE 372 THE TEACHING OF LANGUAGE ARTS IN THE MIDDLE GRADES
  - MGE 373 THE TEACHING OF SOCIAL STUDIES IN THE MIDDLE GRADES
  - MGE 374 THE TEACHING OF SCIENCE IN THE MIDDLE GRADES
- MGE 381 SUPERVISED FIELD EXPERIENCE (1 credit hour)

Student Teaching

Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take MGE 391, Student Teaching Seminar with student teaching (listed in the Liberal Studies section).

- MGE 390 STUDENT TEACHING (10 credit hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Middle Grades Education majors must complete the following tests:

- Basic Skills (test #096) or TAP (test #300, or #400) - assesses knowledge of reading comprehension, language arts, and math. Test is required to qualify for Advanced Standing.
- Content Area Test: Two tests are required before Student Teaching (deadlines apply). Test details will be forthcoming.
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Museum Studies (Minor)

Museum Studies is an interdisciplinary endeavor that addresses the theory, organization, and management of museums and museum collections. Museums themselves are complex organizations within which a diversity of knowledge specialists work together to acquire, conserve, research, communicate and exhibit tangible and intangible evidence of people and their environment. The Museum Studies minor crosses the disciplines of Anthropology, History, and the History of Art & Architecture. The purpose of the minor is to provide students from diverse majors with knowledge about the role and function of museums in our lives as global citizens.

Interest in museums is at an all-time high as students and faculty as concerned with: (a) the role of museums in global tourism, urban economic development, multiculturalism and the creation of identities; (b) the developing importance of museums as sites of both research and employment; and (c) the way in which museums act as intersections among a broad range of academic disciplines. Additionally, as museums become more complex...
organizations, individuals seeking to work with or in these environments are increasingly expected to have formalized training in Museum Studies with transcript recognition of this training.

**Course Requirements**

Six courses are required -- at least two of which must be from the Core and three-four from Electives (i.e., two Core + four Electives OR three Core + three Electives), with no more than two Electives from any one department:

**Core**

(At least two of the following):

- ANT 374 ANTHROPOLOGY AND MUSEUMS
- HAA 391 MUSEUM STUDIES
- HST 269 MUSEUMS, MATERIAL CULTURE AND MEMORY: INTRODUCTION TO PUBLIC HISTORY

**Electives**

(Choose three - four of the following, with no more than two from any department):

- ANT 250 MATERIAL CULTURE OF MODERN AMERICA
- ANT 252 MATERIAL CULTURE AND DOMESTIC LIFE
- ANT 256 MATERIAL CULTURE OF THE OLD WORLD
- ANT 378 MUSEUM EDUCATION
- ANT 380 INTERNSHIP IN ANTHROPOLOGY
- ANT 382 HERITAGE DISPLAYS AND MUSEUMS
- HAA 291 EXPLORING MUSEUM PROFESSION AND PRACTICE: CHICAGO MUSEUMS AS CASE STUDY
- HAA 397 SPECIAL TOPICS/HISTORY OF ART & ARCHITECTURE: MUSEUM STUDIES
- HAA 398 INDEPENDENT STUDY
- HST 360 DOING DIGITAL HISTORY
- HST 382 CHICAGO HISTORY MUSEUM EXPERIENCE
- HST 389 TOPICS IN PUBLIC HISTORY
- HST 391 DOING LOCAL AND COMMUNITY HISTORY
- HST 392 PUBLIC HISTORY INTERNSHIP

---

**Music (BA)**

The Bachelor of Arts in Music degree is intended for students who wish to combine the study of music with liberal arts and sciences. In addition to music courses, the program is comprised of a broad range of liberal studies courses, along with a year of modern language. Students also take advanced courses in music, developing research skills, which culminate in a final project or paper. The Bachelor of Arts in Music degree prepares students for a variety of careers related to music.

DePaul University

Winter/Spring/Summer 2016-2017
Learning Outcomes

Core Outcomes

Students will be able to:

- Perform with an acceptable tone quality, pitch and rhythmic accuracy, dynamic control, articulation, and expressiveness.
- Participate in a musical ensemble, with appropriate technique and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Identify significant composers and works in the Western music tradition, and trace the evolution of musical styles through the Medieval, Renaissance, Baroque, Classical, Romantic, and Contemporary periods, as well as in jazz and select world music cultures.
- Hear, notate, analyze, and perform music through aural skills, sight-singing, and keyboard skills.
- Demonstrate basic conducting knowledge and skills for both instrumental and vocal settings.
- Develop an expanded global awareness and cultural understanding through musical study.
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

Program Specific Outcomes

Students will be able to:

- Make interdisciplinary connections between a broad range of fields in the Liberal Arts and Sciences and the field of music.
- Develop intercultural knowledge, including study of a modern language.
- Link theory to practice, through an experience learning opportunity.
- Demonstrate advanced understanding of Western Musical theory and analysis.
- Demonstrate familiarity with the methodology of ethnomusicology, musicology, and/or music history.
  - Apply ideas from these fields to understand music and performance within specific cultures and historical time periods.
- Apply research skills appropriate to the field of music, including knowledge of physical and digital resources.
- Write and talk about music in ways appropriate for non-specialist and specialist audiences.
- Complete a Capstone project that explores a topic of the student's choice which combines both a specialization in music with the perspective of at least one field outside of music.
  - Conduct original research and writing and present the project in a public form to the School of Music community.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

**Musicianship (36 credits)**

- Musicianship Sequence
  - MUS 110 MUSICIANSHIP I
  - MUS 120 MUSICIANSHIP II
  - MUS 130 MUSICIANSHIP III
  - MUS 210 MUSICIANSHIP IV
  - MUS 220 MUSICIANSHIP V
  - MUS 230 MUSICIANSHIP VI
- Aural Training Sequence
MUS 111 AURAL TRAINING I
MUS 121 AURAL TRAINING II
MUS 131 AURAL TRAINING III
MUS 211 AURAL TRAINING IV
MUS 221 AURAL TRAINING V
MUS 231 AURAL TRAINING VI

Group Piano Sequence
- MUS 113 GROUP PIANO I
- MUS 123 GROUP PIANO II
- MUS 133 GROUP PIANO III
- MUS 213 GROUP PIANO IV
- MUS 223 GROUP PIANO V
- MUS 233 GROUP PIANO VI

Additional Courses
- MUS 265 MUSICAL TRADITIONS OF AMERICA AND THE WORLD
- MUS 303 BASIC CONDUCTING PRACTICUM
- MUS 304 BASIC CONDUCTING

Applied Music

Students may enroll in a maximum of 4 credits of applied study per quarter, with a maximum of 48 credits total. The requirements for applied study vary by degree program:
- BM in performance, 48 credits
- BM in jazz studies, 30 credits
- BM in composition, 24 credits
- BM in music education, 24 credits
- BM in performing arts management, 24 credits
- BA in music, 16 credits
- BS in sound recording technology, 12 credits

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. The remaining two quarters of language (8 credits) will be applied towards free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter
- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point
- Not Required
Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- Required*

Learning Domains

Arts and Literature (AL)

- 2 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK, 1 Lab, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 2 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy
does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

**Petition to Major**

Students are admitted to a specialization on the basis of a petition to major process, which occurs during the spring of the freshmen or sophomore year. The petition to major process differs for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to enroll in classes in the specialization until they have passed their petition to major.

**Course Requirements**

- Music Theory (1 course chosen from MUS or COM 300-level or above; 4 credits)
- Any 300 level (or above) Musicianship course beyond the musicianship sequence (Music History, Musicology, Ethnomusicology; 4 credits)
- Experiential Learning Requirement (4 credits)
- Senior Year Capstone in Music (4 credits)
- Large ensemble (6 credits in the 1st and 2nd years)
- Any Ensemble (3 credits in the 3rd or 4th year)
- Music Electives (9 credits)
- Non-Music Electives (12 credits)
- Free Electives (4 credits)

**Music Education (BM)**

The Bachelor of Music in music education degree prepares students to teach K-12 instrumental and vocal music. The program is comprised of a broad range of courses emphasizing both the theory and practice of music education, taught by a faculty of distinguished music educators. Throughout the junior year, students have the opportunity to refine their skills and knowledge through a partnership with a Chicago Public School. During the senior year, students work with master teachers throughout the Chicagoland area while student teaching. Upon graduation, students are eligible for Illinois music teacher certification.

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform with an acceptable tone quality, pitch and rhythmic accuracy, dynamic control, articulation, and expressiveness.
- Participate in a musical ensemble, with appropriate technique and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Identify significant composers and works in the Western music tradition, and trace the evolution of musical styles through the Medieval, Renaissance, Baroque, Classical, Romantic, and Contemporary periods, as well as in jazz and select world music cultures.
- Hear, notate, analyze, and perform music through aural skills, sight-singing, and keyboard skills.
- Demonstrate basic conducting knowledge and skills for both instrumental and vocal settings.
- Develop an expanded global awareness and cultural understanding through musical study
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

Program Specific Outcomes

Students will be able to:

- Possess a basic understanding of current music education issues and their impact on music teaching and learning in grades kindergarten through twelve.
- Demonstrate a basic understanding of historical perspectives and context of music education practice.
- Demonstrate a fundamental knowledge in the teaching of instrumental music, vocal/choral music, and general music, with specialized knowledge in one or more of these areas.
- Demonstrate a basic knowledge of research procedures and practices, and express her or his ideas in writing.
- Reflect upon her or his individual practice as a teacher and articulate a philosophy of music education.
- Apply pedagogical knowledge and skills appropriate to the teaching of music, demonstrating an understanding of child development, and addressing the needs of diverse, special needs, and urban populations.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (36 credits)

- Musicianship Sequence
  - MUS 110 MUSICIANSHIP I
  - MUS 120 MUSICIANSHIP II
MUS 130 MUSICIANSHIP III
MUS 210 MUSICIANSHIP IV
MUS 220 MUSICIANSHIP V
MUS 230 MUSICIANSHIP VI
- Aural Training Sequence
  - MUS 111 AURAL TRAINING I
  - MUS 121 AURAL TRAINING II
  - MUS 131 AURAL TRAINING III
  - MUS 211 AURAL TRAINING IV
  - MUS 221 AURAL TRAINING V
  - MUS 231 AURAL TRAINING VI
- Group Piano Sequence
  - MUS 113 GROUP PIANO I
  - MUS 123 GROUP PIANO II
  - MUS 133 GROUP PIANO III
  - MUS 213 GROUP PIANO IV
  - MUS 223 GROUP PIANO V
  - MUS 233 GROUP PIANO VI

Additional Courses
- MUS 265 MUSICAL TRADITIONS OF AMERICA AND THE WORLD
- MUS 303 BASIC CONDUCTING PRACTICUM
- MUS 304 BASIC CONDUCTING

Applied Music

Students may enroll in a maximum of 4 credits of applied study per quarter, with a maximum of 48 credits total. The requirements for applied study vary by degree program:

- BM in performance, 48 credits
- BM in jazz studies, 30 credits
- BM in composition, 24 credits
- BM in music education, 24 credits
- BM in performing arts management, 24 credits
- BA in music, 16 credits
- BS in sound recording technology, 12 credits

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. or MED 104 WOODWINDS II
MED 105 STRINGS I
MED 107 PERCUSSION I
MED 308 ACCOMPANYING FOR THE MUSIC EDUCATOR

- Music Education Electives with advisor approval (4 credits)

Liberal Studies Learning Domain Specifications

In the liberal studies learning domains, music education majors enroll in the following courses within the learning domains:

- LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE fulfills the Philosophical Inquiry requirement
- PSC 120 THE AMERICAN POLITICAL SYSTEM fulfills Self, Society, & the Modern World
- One of the Understanding the Past courses must be in U.S. History.

Music Industry: Music Business (Minor)

The Music Business minor includes introductory music history and music theory courses as well as courses that are part of DePaul's Performing Arts Management program.

Course Requirements

- MUS 107 GUIDE TO MUSIC THEORY
- Choose one of the following courses:
  - MUS 100 UNDERSTANDING MUSIC
  - MUS 277 GUIDE TO MUSIC THEORY II
- REC 216 PRO TOOLS AND THE DEVELOPMENT OF THE RECORDING STUDIO
- PAM 200 INTRODUCTION TO MUSIC BUSINESS (2 credits)
- PAM 305 COMMERCIAL MUSIC BUSINESS (2 credits)
- Choose one course from the following list:
  - MUS 102 COMPOSITION AND SOUND ART FOR NON-MUSIC MAJORS
  - MUS 105 ROCK MUSIC-THE BEATLES: MUSIC, AESTHETICS AND CULTURE
  - MUS 108 ROCK MUSICS OF THE WORLD
  - MUS 109 FROM WAGNER TO YOUTUBE: THE WEDDING OF MUSIC AND DRAMA
  - MUS 112 ROCK COMPOSITION
  - MUS 140 MUSIC OF THE WORLD'S PEOPLE
  - MUS 201 MUSIC OF THE UNITED STATES SINCE 1900
  - MUS 203 CONTEMPORARY MUSICAL IMPROVISATION: SCRATCH ORCHESTRA
  - MUS 204 WHAT WERE THE BLUES? 1920-1960
  - MUS 205 THAT HIGH LONESOME SOUND: BLUEGRASS 1936-1972
  - MUS 207 INTRODUCTION TO SONGWRITING
  - MUS 278 JAZZ
  - MUS 281 OPERA
  - MUS 282 LOVE SONGS
- Choose three from the following list:
  - PAM 306 TECHNOLOGICAL TRENDS & DEVELOPMENTS IN THE MUSIC INDUSTRY (2 credits)
  - PAM 307 LEGAL ISSUES IN THE MUSIC INDUSTRY (2 credits)
  - PAM 308 MUSIC PUBLISHING (2 credits)
  - PAM 309 MUSIC ENTREPRENEURSHIP (2 credits)
  - PAM 310 MUSIC FESTIVAL MANAGEMENT (2 credits)

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313, Introduction to Composition (2
Music Industry: Music Recording (Minor)

The Music Recording minor includes introductory music history and music theory courses as well as sound recording and commercial music production courses.

Course Requirements

- MUS 107 GUIDE TO MUSIC THEORY
- Choose one of the following courses:
  - MUS 100 UNDERSTANDING MUSIC
  - MUS 277 GUIDE TO MUSIC THEORY II
- REC 200 INTRODUCTION TO SOUND RECORDING TECHNOLOGY
- REC 216 PRO TOOLS AND THE DEVELOPMENT OF THE RECORDING STUDIO
- REC 307 COMMERCIAL MUSIC PRODUCTION
- Choose one course from the following list:
  - MUS 102 COMPOSITION AND SOUND ART FOR NON-MUSIC MAJORS
  - MUS 105 ROCK MUSIC-THE BEATLES: MUSIC, AESTHETICS AND CULTURE
  - MUS 108 ROCK MUSICS OF THE WORLD
  - MUS 109 FROM WAGNER TO YOUTUBE: THE WEDDING OF MUSIC AND DRAMA
  - MUS 112 ROCK COMPOSITION
  - MUS 140 MUSIC OF THE WORLD'S PEOPLE
  - MUS 201 MUSIC OF THE UNITED STATES SINCE 1900
  - MUS 203 CONTEMPORARY MUSICAL IMPROVISATION: SCRATCH ORCHESTRA
  - MUS 204 WHAT WERE THE BLUES? 1920-1960
  - MUS 205 THAT HIGH LONESOME SOUND: BLUEGRASS 1936-1972
  - MUS 207 INTRODUCTION TO SONGWRITING
  - MUS 281 OPERA
  - MUS 282 LOVE SONGS
  - MUS 278 JAZZ
  - MUS 305 MUSICAL ENCOUNTERS OF THE PORTUGUESE EMPIRE

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313, Introduction to Composition (2 credits), offered during fall or winter quarter.

Students majoring in Music are restricted from earning this minor.

Music Performance (BM)

The Bachelor of Music in performance degree prepares students for careers in music, combining applied lessons on one's instrument with a variety of ensemble and performing experiences. Students also study literature, pedagogy, and other areas related to musical performance. The faculty is comprised of highly celebrated performers, who are committed to teaching excellence.

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform with an acceptable tone quality, pitch and rhythmic accuracy, dynamic control, articulation, and expressiveness.
- Participate in a musical ensemble, with appropriate technique and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Identify significant composers and works in the Western music tradition, and trace the evolution of musical styles through the Medieval, Renaissance, Baroque, Classical, Romantic, and Contemporary periods, as well as in jazz and select world music cultures.
- Hear, notate, analyze, and perform music through aural skills, sight-singing, and keyboard skills.
- Demonstrate basic conducting knowledge and skills for both instrumental and vocal settings.
- Develop an expanded global awareness and cultural understanding through musical study
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

Concentration Specific Outcomes

Wind, String, and Percussion

Students will be able to:

- Perform at the level of an advanced student, young professional or higher, demonstrating competence in technical aspects of performance, i.e., tone quality, articulation, pitch consistency, dynamic control, technical agility, and accurate rhythmic concepts.
- Demonstrate growing maturity in musical concepts - using tools of performance to create artistic products.
- Demonstrate increasing competence as an ensemble performer through participation in orchestras, wind ensemble, wind symphony, contemporary music ensemble, and/or chamber music groups.
- Work independently (practicing well) and with peers through unsupervised rehearsals.
- Use pedagogical methods and materials to teach one's major instrument.
- Know and perform the orchestral repertoire through successful fulfillment of orchestral repertoire courses.
- Perform and plan a recital.
  - Study and plan a recital.
  - Write program notes.
  - Collaborate with an accompanist and other musicians.

Vocal

Students will be able to:

- Demonstrate a sound vocal technique and an understanding of the vocal mechanism.
- Develop a foundational knowledge of vocal pedagogy.
- Demonstrate a proficiency in Italian, German, and French diction.
  - Use the language in an expressive manner.
  - Demonstrate a competency in the use of the International Phonetic Alphabet.
- Integrate emotional and physical movement into artistic performance of operatic scenes and arias, including character development and subtext.
- Find, research, and select appropriate repertoire.
- Perform a recital with well-written program notes.
- Collaborate with a pianist and other instrumentalists as well as participate in a professional manner in choral and other ensembles.
- Possess a basic knowledge of the song repertoire and performance practice (style) in periods form the Baroque to 21st century.
- Possess a basic knowledge of operatic repertoire, history, and style.
Piano

Students will be able to:

- Demonstrate the technique and musicianship necessary to perform as both soloist and within an ensemble at an advanced, pre-professional level.
- Possess a fundamental knowledge of piano repertoire and history, including its most important exponents and performers of the last two centuries.
- Demonstrate the basic skills necessary to perform as a chamber/orchestral musician and vocal/instrumental accompanist.
- Demonstrate a level of professionalism, maturity, and respect for themselves and fellow colleagues essential for future success as a working musician.
- Develop a basic understanding of the essentials of piano pedagogy.
- Perform a recital.
  - Demonstrate fluency in repertoire and styles from the Baroque period through the 21st century, and provide well-written program notes.
  - Plan a successful and compelling program, both individually and with collaborators.

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

**Musicianship (36 credits)**

- **Musicianship Sequence**
  - MUS 110 MUSICIANSHIP I
  - MUS 120 MUSICIANSHIP II
  - MUS 130 MUSICIANSHIP III
  - MUS 210 MUSICIANSHIP IV
  - MUS 220 MUSICIANSHIP V
  - MUS 230 MUSICIANSHIP VI
- **Aural Training Sequence**
  - MUS 111 AURAL TRAINING I
  - MUS 121 AURAL TRAINING II
  - MUS 131 AURAL TRAINING III
  - MUS 211 AURAL TRAINING IV
  - MUS 221 AURAL TRAINING V
  - MUS 231 AURAL TRAINING VI
- **Group Piano Sequence**
  - MUS 113 GROUP PIANO I
  - MUS 123 GROUP PIANO II
  - MUS 133 GROUP PIANO III
  - MUS 213 GROUP PIANO IV
  - MUS 223 GROUP PIANO V
  - MUS 233 GROUP PIANO VI

**Additional Courses**

- MUS 265 MUSICAL TRADITIONS OF AMERICA AND THE WORLD
- MUS 303 BASIC CONDUCTING PRACTICUM
- MUS 304 BASIC CONDUCTING

**Applied Music**

Students may enroll in a maximum of 4 credits of applied study per quarter, with a maximum of 48 credits total. The requirements for applied study vary by degree program:

- BM in performance, 48 credits
- BM in jazz studies, 30 credits
- BM in composition, 24 credits
- BM in music education, 24 credits
- BM in performing arts management, 24 credits
- BA in music, 16 credits
- BS in sound recording technology, 12 credits

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

**Modern Language Option**

If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. The remaining two quarters of language (8 credits) will be applied towards free electives.

Notes
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy
Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Petition to Major
Students are admitted to a specialization on the basis of a petition to major process, which occurs during the spring of the freshman or sophomore year. The petition to major process differs for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to enroll in classes in the major until they have passed their petition to major.

Course Requirements
• Applied lessons
  • 24 additional credits of applied lessons (beyond the initial 24 credits) are required
  • APM 305 SENIOR RECITAL

Concentration Requirements
Additional requirements are determined by the specific performance track that students choose. Students must also complete the requirements from one of the following concentrations: Brass; Guitar; Percussion; Piano; String Bass; Violin, Viola, Cello; Voice; Woodwinds.
Concentration Requirements

Brass

- APM 205 JUNIOR RECITAL
- APM 305 SENIOR RECITAL
- APM 372 ORCHESTRAL REPERTOIRE FOR BRASS
- APM 373 BRASS CONCEPTS
- APM 374 BRASS INSTRUMENT PERFORMANCE STYLE
- APM 315 THE BUSINESS OF MUSIC FROM THE PERFORMER'S PERSPECTIVE
- Large Ensemble (12 credits)
- MEN 241 CHAMBER MUSIC (6 credits)
- Music Electives (12 credits)
- Free Electives (12 credits)

Guitar

- APM 205 JUNIOR RECITAL
- APM 305 SENIOR RECITAL
- APM 377 GUITAR HISTORY AND LITERATURE I
- APM 378 GUITAR HISTORY AND LITERATURE II
- APM 379 GUITAR HISTORY AND LITERATURE III
- Guitar/Lute History and Literature Sequence
  - APM 384 STRING PEDAGOGY I
  - APM 385 STRING PEDAGOGY II
  - APM 386 STRING PEDAGOGY III
- String/Guitar Pedagogy Sequence
- Large Ensemble (3 credits)
- MEN 241 CHAMBER MUSIC (12 credits)
- Music Electives (11 credits)
- Free Electives (12 credits)

Percussion

- APM 305 SENIOR RECITAL
- APM 170 PERCUSSION CONCERT ACCESSORIES TECHNIQUES CLASS
- APM 160 LATIN ACCESSORIES TECHNIQUES
- APM 346 PERCUSSION PEDAGOGY
- APM 347 ORCHESTRAL REPERTOIRE FOR PERCUSSION
- Large Ensemble (12 credits)
- MEN 241 CHAMBER MUSIC (6 credits)
- Music Electives (8 credits)
- Free Electives (12 credits)

Piano

- APM 205 JUNIOR RECITAL
- APM 305 SENIOR RECITAL
- APM 242 ACCOMPANYING CLASS I
- APM 244 ACCOMPANYING CLASS II
- APM 245 ACCOMPANYING CLASS III
- Accompanying Sequence
- APM 300 ACCOMPANYING PRACTICUM FOR PIANISTS I: VOICE
- APM 301 ACCOMPANYING PRACTICUM FOR PIANISTS II: WINDS
- APM 302 ACCOMPANYING PRACTICUM FOR PIANISTS III: STRINGS
- Accompanying Practicum Sequence
- APM 332 PIANO PEDAGOGY I
- APM 333 PIANO PEDAGOGY II
- Piano Pedagogy Sequence
- Piano Literature Sequence
  - APM 361 PIANO LITERATURE I: RENAISSANCE, BAROQUE & CLASSICAL
  - APM 362 PIANO LITERATURE II: ROMANTICISM
  - APM 363 PIANO LITERATURE III: LATE 19TH - 21ST CENTURY
- Large Ensemble (6 credits - 1st and 2nd years, choir preferred)
- MEN 241 CHAMBER MUSIC (6 credits - 3rd and 4th years)
- Music Electives (9 credits)
- Free Electives (8 credits)

### String Bass
- APM 205 JUNIOR RECITAL
- APM 305 SENIOR RECITAL
- APM 343 ORCHESTRAL REPERTOIRE FOR STRING BASS
- String Pedagogy Sequence
  - APM 384 STRING PEDAGOGY I
  - APM 385 STRING PEDAGOGY II
  - APM 386 STRING PEDAGOGY III
- Large Ensemble (12 credits)
- Music Electives (8 credits)
- Free Electives (12 credits)

### Violin, Viola, Cello
- APM 205 JUNIOR RECITAL
- APM 305 SENIOR RECITAL
- Orchestral Repertoire for Strings Sequence
  - APM 340 ORCHESTRAL REPERTOIRE FOR STRINGS I
  - APM 341 ORCHESTRAL REPERTOIRE FOR STRINGS II
  - APM 342 ORCHESTRAL REPERTOIRE FOR STRINGS III
- String Pedagogy Sequence
  - APM 384 STRING PEDAGOGY I
  - APM 385 STRING PEDAGOGY II
  - APM 386 STRING PEDAGOGY III
- Large Ensemble (12 credits)
- MEN 241 CHAMBER MUSIC (6 credits)
- Music Electives (8 credits)
- Free Electives (12 credits)

### Voice
- APM 205 JUNIOR RECITAL
- APM 305 SENIOR RECITAL
- Italian, German, and French Vocal Diction Sequence (3 quarters for 0 credit, 3 quarters for 1 credit each)
  - APM 125 ITALIAN DICTION I
  - APM 126 GERMAN DICTION I
  - APM 127 FRENCH DICTION I
  - APM 225 ITALIAN DICTION II
  - APM 226 GERMAN DICTION II
  - APM 227 FRENCH DICTION II
- Interpretation of Vocal Literature Sequence
  - APM 350 INTERPRETATION OF VOCAL LITERATURE I
  - APM 351 INTERPRETATION OF VOCAL LITERATURE II
  - APM 352 INTERPRETATION OF VOCAL LITERATURE III
- Techniques of the Musical Stage Sequence
  - APM 353 TECHNIQUES OF THE MUSIC STAGE I
  - APM 354 TECHNIQUES OF THE MUSIC STAGE II
- APM 336 VOICE PEDAGOGY
- Introduction to Acting for Singers Sequence
  - APM 253 INTRODUCTION TO ACTING FOR SINGERS
  - APM 254 INTRODUCTION TO ACTING FOR SINGERS II
- Vocal Coaching for Singers Sequence
  - APM 204 VOCAL COACHING I
  - APM 304 VOCAL COACHING II
- Large Ensemble (12 credits)
- Music Electives (5 credits)
- Free Electives (4 credits)
- One year of Modern Language* (Italian, French, or German)
Woodwinds

- APM 205 JUNIOR RECITAL
- APM 305 SENIOR RECITAL
- Woodwind Orchestral Repertoire Sequence
  - APM 328 ORCHESTRAL REPETOIRE FOR WOODWINDS I: LITERATURE PERFORMANCE
  - APM 329 WOODWIND ORCHESTRAL REPETOIRE II: AUDITION PREPARATION
- APM 311 WOODWIND PEDAGOGY
- APM 315 THE BUSINESS OF MUSIC FROM THE PERFORMER'S PERSPECTIVE
  or APM 309 MUSIC ENTREPRENEURSHIP
- APM 387 STUDIO TEACHING AS A PROFESSION
- Large Ensemble (12 credits)
- MEN 241 CHAMBER MUSIC (9 credits)
- Music Electives (7 credits)
- Free Electives (12 credits)

Music Studies (Minor)

The Music Studies minor includes an introduction to music history course and a music theory course alongside four music courses of your choice that are part of the Arts and Literature Domain including topics such as rock music, world music and songwriting.

Course Requirements

Core Courses

- MUS 107 GUIDE TO MUSIC THEORY
- One course from the following list:
  - MUS 100 UNDERSTANDING MUSIC
  - MUS 277 GUIDE TO MUSIC THEORY II

Additional Courses

- Two courses from the following list:
  - MUS 102 COMPOSITION AND SOUND ART FOR NON-MUSIC MAJORS
  - MUS 105 ROCK MUSIC-THE BEATLES: MUSIC, AESTHETICS AND CULTURE
  - MUS 108 ROCK MUSICS OF THE WORLD
  - MUS 109 FROM WAGNER TO YOUTUBE: THE WEDDING OF MUSIC AND DRAMA
  - MUS 112 ROCK COMPOSITION
  - MUS 140 MUSIC OF THE WORLD'S PEOPLE

- Two courses from the following list:
  - MUS 201 MUSIC OF THE UNITED STATES SINCE 1900
  - MUS 203 CONTEMPORARY MUSICAL IMPROVISATION: SCRATCH ORCHESTRA
  - MUS 204 WHAT WERE THE BLUES? 1920-1960
  - MUS 205 THAT HIGH LONESOME SOUND: BLUEGRASS 1936-1972
  - MUS 207 INTRODUCTION TO SONGWRITING
  - MUS 278 JAZZ
  - MUS 281 OPERA
  - MUS 282 LOVE SONGS
  - MUS 305 MUSICAL ENCOUNTERS OF THE PORTUGUESE EMPIRE

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313 INTRODUCTION TO
COMPOSITION (2 credits), offered during fall or winter quarter.

Students majoring in Music are restricted from earning this minor.

**Network Engineering and Security (BS)**

The BS in Network Engineering and Security focuses on the theory and practice of designing, deploying and managing both wired and wireless networks technologies, including broadband Internet access technologies, interconnection technologies, network convergence, and network security.

</table>

**Learning Outcomes**

Students will be able to:

- Describe each local area network and wide area network technology commonly used in the marketplace and describe advantages and disadvantages to each and choose appropriate technologies in a case study based on business objectives.
- Write clear definitions of ARP, ICMP, DNS, RIP, OSPF and BGP and illustrate their use in protocol diagrams.
- Walk through a working example of a network system and show how all devices are used to provide data services.
- Cable together a set of devices (servers, cables, switches and routers), test connections, configure IP addressing and packet forwarding using appropriate commands in Windows, MacOS, Linux and Cisco IOS operating systems.
- Describe 802.11 CSMA/CA access methods, addressing, operational modes and encryption methods.
- Discuss the worldwide transition from IPv4 to IPv6 technologies and key aspects of the IPv6 protocol, including address format, neighbor discovery, basic routing and security.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required

Understanding the Past (UP)

- 2 Courses Required

Notes

* Students must earn a C- or better in this course.

Students must take one of the following ethics courses: CSC 208 (PI), IT 228 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD)

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
- CNS 378 HOST BASED SECURITY
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- or CSC 243 PYTHON FOR PROGRAMMERS
- or IT 211 INTRODUCTION TO APPLIED PROGRAMMING
- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 223 DATA ANALYSIS
- IT 240 INTRODUCTION TO DATABASES
- IT 263 APPLIED NETWORKS AND SECURITY
- MAT 140 DISCRETE MATHEMATICS I
- ORGC 212 SMALL GROUP COMMUNICATION or CMN 104 PUBLIC SPEAKING
- TDC 311 COMPUTERS IN TELECOMMUNICATIONS SYSTEMS
- TDC 362 PRINCIPLES OF DATA COMMUNICATIONS
- TDC 363 INTRODUCTION TO LOCAL AREA NETWORKS
- TDC 364 VOICE COMMUNICATIONS TECHNOLOGIES
- TDC 365 NETWORK INTERCONNECTION TECHNOLOGIES
- TDC 372 DIGITAL ACCESS SERVICES
- TDC 375 NETWORK PROTOCOLS
- TDC 376 NETWORK PROJECT
- TDC 377 FUNDAMENTALS OF NETWORK SECURITY
- WRD 204 TECHNICAL WRITING
- 2 Major Field Electives
  - Major Electives can be chosen from any 300-level TDC or CNS courses. Students must earn a grade of C- or higher in all major elective courses.

Open Electives

DePaul University Winter/Spring/Summer 2016-2017
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Degree Requirements**

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

**Sample Schedule**

Although students are free to take course requirements in any order they choose, provided they have mastered the course-specific prerequisites, it is strongly recommended that students follow these year-by-year suggestions, especially regarding the first-year major courses.

**First Year**

- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- or CSC 243 PYTHON FOR PROGRAMMERS
- or IT 211 INTRODUCTION TO APPLIED PROGRAMMING
- IT 130 INTRODUCTORY COMPUTING FOR THE WEB
- IT 240 INTRODUCTION TO DATABASES
- IT 263 APPLIED NETWORKS AND SECURITY
- MAT 140 DISCRETE MATHEMATICS I
- 7 Liberal Studies

**Second Year**

- IT 223 DATA ANALYSIS
- TDC 311 COMPUTERS IN TELECOMMUNICATIONS SYSTEMS
- TDC 362 PRINCIPLES OF DATA COMMUNICATIONS
- TDC 363 INTRODUCTION TO LOCAL AREA NETWORKS
- CNS 340 FUNDAMENTALS OF INFORMATION ASSURANCE
- WRD 204 TECHNICAL WRITING
- 6 Liberal Studies

**Third Year**

- CNS 378 HOST BASED SECURITY
- TDC 364 VOICE COMMUNICATIONS TECHNOLOGIES
- TDC 365 NETWORK INTERCONNECTION TECHNOLOGIES
- ORGC 212 SMALL GROUP COMMUNICATION
- or CMN 104 PUBLIC SPEAKING
- TDC 372 DIGITAL ACCESS SERVICES
- TDC 377 FUNDAMENTALS OF NETWORK SECURITY
- 4 Liberal Studies
- 2 Open Electives

**Fourth Year**

- TDC 375 NETWORK PROTOCOLS
- TDC 376 NETWORK PROJECT (Capstone)
- 2 Liberal Studies
- 2 Major Electives
- 6 Open Electives
Combined Bachelor’s/ Master’s Degree

The combined Bachelor’s/Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor’s and master's degrees you wish to combine.

Bachelor of Arts in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.
It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

**Registering for Master's Degree Courses**

Combined degree students must meet regularly with their faculty advisors. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

**Bachelor's Degree to Master's Degree Transition**

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

---

**Network Technologies (Minor)**

The Network Technology minor gives students a foundation in the theory and practice of designing, deploying and managing both wired and wireless network technologies.

**Course Requirements**

- IT 263 APPLIED NETWORKS AND SECURITY
- TDC 311 COMPUTERS IN TELECOMMUNICATIONS SYSTEMS
- TDC 362 PRINCIPLES OF DATA COMMUNICATIONS
- TDC 363 INTRODUCTION TO LOCAL AREA NETWORKS
- TDC 365 NETWORK INTERCONNECTION TECHNOLOGIES
- TDC 372 DIGITAL ACCESS SERVICES

Students majoring in Network Technology (BS) are restricted from earning this minor.

---

**Neuroscience (BS)**

Neuroscience is an interdisciplinary major that draws on existing courses from the natural, computational, and social sciences, as well as specific courses unique to the field of Neuroscience. Neuroscience has quickly become one of the fastest growing areas of study in both the natural and behavioral sciences. Its multidisciplinary nature attracts individuals not just from biology and psychology disciplines, but also from fields such as philosophy, anthropology, economics, mathematics and computer science.

Neuroscience majors are interested in studying the brain and nervous system in multiple different ways. Neuroscience majors consider fundamental concepts that underlie the function of the nervous system on a cellular and molecular level, how the nervous system produces behavior and cognition, and the role of computer science and mathematics in new technologies and therapies in neuroscience. Neuroscience majors have the option of concentrations in cellular/molecular, behavioral/cognitive or computational neuroscience to deepen their understanding and prepare for careers in these subfields. Additionally, Neuroscience majors can apply their knowledge of the nervous system to human health and disease and pursue professional programs in health and medicine.

DePaul University Winter/Spring/Summer 2016-2017 Page 681 of 2776
Learning Outcomes

Students with a major in Neuroscience will be able to:

- Describe the structure of the nervous system at the cellular and systems level and will be able to discuss how each component relates to neurological function, behavior, and cognition.
- Evaluate scientific literature in neuroscience critically, formulate hypotheses, and design scientific experiments through multiple perspectives.
- Explain basic techniques used in neuroscience research.
- Process, analyze, model, integrate, and/or interpret data from multiple disciplines within neuroscience.
- Communicate about neuroscience verbally and in writing in a clear, reasoned, and discipline-specific manner.
- Identify challenges brought to ethical thinking by advances in neuroscience and formulate new ethical questions on the basis of these challenges.
- Discuss how disciplines such as humanities, social sciences, and natural sciences interact with neuroscience to address historical, contemporary, and future scientific challenges.
College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.
B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

**Major Declaration Requirements**

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

Notes

Students must complete one approved ethics course from the following:
CSC 208 ETHICS IN TECHNOLOGY
HLTH 229 ETHICS FOR HEALTH SCIENCES
PHL 200 ETHICAL THEORIES
PHL 230 CONTEMPORARY TOPICS IN ETHICS
PHL 229 BIOMEDICAL ETHICS
PHL 291 MORAL PHILOSOPHY
REL 229 MEDICINE, ETHICS AND SOCIETY

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Major Requirements

Course Requirements

- BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS
- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- CHE 130 GENERAL CHEMISTRY I and CHE 131 GENERAL CHEMISTRY I LABORATORY
- CHE 132 GENERAL CHEMISTRY II and CHE 133 GENERAL CHEMISTRY LABORATORY II
- CHE 228 SURVEY OF ORGANIC CHEMISTRY and CHE 229 SURVEY OF ORGANIC CHEMISTRY LABORATORY
- PSY 105 INTRODUCTORY PSYCHOLOGY I
- PSY 106 INTRODUCTORY PSYCHOLOGY II
- One course from the following list:
  - BIO 206 BIOSTATISTICS
  - PSY 240 STATISTICS I
  - IT 223 DATA ANALYSIS
- NEU 201 INTRODUCTION TO NEUROSCIENCE
- PSY 242 RESEARCH METHODS II
- NEU 390 NEUROSCIENCE CAPSTONE

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Behavioral Cognitive Neuroscience
- Cellular Molecular Neuroscience
- Computational Neuroscience
- General

Students are limited to declaring one concentration.

Behavioral Cognitive Neuroscience Concentration

Course Requirements

- BIO 310 VERTEBRATE PHYSIOLOGY or HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
- BIO 339 CELLULAR NEUROBIOLOGY or NEU 339 CELLULAR NEUROBIOLOGY
- BIO 340 BEHAVIORAL NEUROSCIENCE
- BIO 342 COGNITIVE NEUROSCIENCE or PSY 379 COGNITIVE NEUROSCIENCE
- PSY 360 THEORIES OF LEARNING AND COGNITION or PSY 373 HAPPINESS, JUDGMENT AND DECISION MAKING
In addition, students in the Behavioral/Cognitive Neuroscience Concentration, will be required to choose 7 major electives from the list below, and have 8 open electives.

- CSC 250 COMPUTERS AND HUMAN INTELLIGENCE
- BIO 220 PRINCIPLES OF BIOTECHNOLOGY
- BIO 250 BIO 250 CELL BIOLOGY
- BIO 260 GENETICS
- BIO 301 ANIMAL BEHAVIOR
- BIO 310 VERTEBRATE PHYSIOLOGY
- BIO 330 DEVELOPMENTAL BIOLOGY
- BIO 341 TOPICS IN NEUROBIOLOGY
- BIO 360 MOLECULAR BIOLOGY
- BIO 362 BIOINFORMATICS FOR BENCH SCIENTISTS
- BIO 375 INTRODUCTION TO PHARMACOLOGY
- BIO 386 INTRODUCTION TO ENDOCRINOLOGY
- CHE 134 GENERAL CHEMISTRY III and CHE 135 GENERAL CHEMISTRY LABORATORY III
- CHE 230 ORGANIC CHEMISTRY I and CHE 231 ORGANIC CHEMISTRY LABORATORY I (Can substitute for CHE 228)
- CHE 232 ORGANIC CHEMISTRY II and CHE 233 ORGANIC CHEMISTRY LABORATORY II (Can substitute for CHE 228)
- CHE 234 ORGANIC CHEMISTRY III and CHE 235 ORGANIC CHEMISTRY LABORATORY III (Can substitute for CHE 228)
- CHE 340 BIOCHEMISTRY I
- PHY 150 GENERAL PHYSICS I and PHY 151 GENERAL PHYSICS II and PHY 152 GENERAL PHYSICS III
- PSY 317 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIP
- PSY 333 CHILD PSYCHOLOGY
- PSY 334 ADOLESCENT PSYCHOLOGY
- PSY 347 SOCIAL PSYCHOLOGY
- PSY 348 SOCIAL COGNITION
- PSY 353 ABNORMAL PSYCHOLOGY
- PSY 360 THEORIES OF LEARNING AND COGNITION
- PSY 364 HEALTH PSYCHOLOGY
- PSY 366 BEHAVIOR PROBLEMS OF CHILDREN
- PSY 370 SOCIAL AND EMOTIONAL DEVELOPMENT
- PSY 373 HAPPINESS, JUDGMENT AND DECISION MAKING
- PSY 377 PHYSIOLOGICAL PSYCHOLOGY
- NEU 399 INDEPENDENT STUDY IN NEUROSCIENCE
- NEU 228 NEUROETHICS

Cellular Molecular Neuroscience Concentration

Course Requirements

- CHE 134 GENERAL CHEMISTRY III/CHE 135 GENERAL CHEMISTRY LABORATORY III
- BIO 250 CELL BIOLOGY
- BIO 260 GENETICS
- BIO 360 MOLECULAR BIOLOGY
- BIO 339 CELLULAR NEUROBIOLOGY or NEU 339 CELLULAR NEUROBIOLOGY
- BIO 340 BEHAVIORAL NEUROSCIENCE

In addition, students in the Cellular/Molecular Neuroscience Concentration will be required to choose 6 major electives from the list below and have 8 open electives.

- CSC 250 COMPUTERS AND HUMAN INTELLIGENCE
- BIO 220 PRINCIPLES OF BIOTECHNOLOGY
- BIO 301 ANIMAL BEHAVIOR
- BIO 310 VERTEBRATE PHYSIOLOGY
- BIO 330 DEVELOPMENTAL BIOLOGY
- BIO 341 TOPICS IN NEUROBIOLOGY
Computational Neuroscience Concentration

Course Requirements

- MAT 150 CALCULUS I
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- CSC 250 COMPUTERS AND HUMAN INTELLIGENCE
- CSC 367 INTRODUCTION TO DATA MINING
- CSC 381 INTRODUCTION TO DIGITAL IMAGE PROCESSING
- NEU 2XX INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE

In addition, students in the Computational Neuroscience Concentration will be required to choose 6 major electives from the list below and have 8 open electives.

- IM 210 INTRODUCTION TO HUMAN-COMPUTER INTERACTION
- IT 240 INTRODUCTION TO DATABASES
- CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- CSC 382 APPLIED IMAGE ANALYSIS
- CSC 324 DATA ANALYSIS & STATISTICAL SOFTWARE II
- IT 300 RESEARCH EXPERIENCE
- CSC 399 INDEPENDENT STUDY
- BIO 220 PRINCIPLES OF BIOTECHNOLOGY
- BIO 250 CELL BIOLOGY
- BIO 260 GENETICS
- BIO 301 ANIMAL BEHAVIOR
- BIO 310 VERTEBRATE PHYSIOLOGY
General Neuroscience Concentration

Course Requirements

At least one course from the following:

- BIO 339 CELLULAR NEUROBIOLOGY or NEU 339 CELLULAR NEUROBIOLOGY
- BIO 340 BEHAVIORAL NEUROSCIENCE
- BIO 342 COGNITIVE NEUROSCIENCE
- BIO 360 MOLECULAR BIOLOGY
- BIO 362 BIOINFORMATICS FOR BENCH SCIENTISTS
- BIO 375 INTRODUCTION TO PHARMACOLOGY
- BIO 386 INTRODUCTION TO ENDOCRINOLOGY
- CHE 134 GENERAL CHEMISTRY III and CHE 135 GENERAL CHEMISTRY LABORATORY III
- CHE 230 ORGANIC CHEMISTRY I and CHE 231 ORGANIC CHEMISTRY LABORATORY I (Can substitute for CHE 228)
- CHE 232 ORGANIC CHEMISTRY II and CHE 233 ORGANIC CHEMISTRY LABORATORY II (Can substitute for CHE 228)
- CHE 234 ORGANIC CHEMISTRY III and CHE 235 ORGANIC CHEMISTRY LABORATORY III (Can substitute for CHE 228)
- CHE 340 BIOCHEMISTRY I
- CHE 340 BIOCHEMISTRY II
- CHE 340 BIOCHEMISTRY III
- PSY 317 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIP
- PSY 333 CHILD PSYCHOLOGY
- PSY 334 ADOLESCENT PSYCHOLOGY
- PSY 347 SOCIAL PSYCHOLOGY
- PSY 348 SOCIAL COGNITION
- PSY 353 ABNORMAL PSYCHOLOGY
- PSY 360 THEORIES OF LEARNING AND COGNITION
- PSY 364 HEALTH PSYCHOLOGY
- PSY 366 BEHAVIOR PROBLEMS OF CHILDREN
- PSY 370 SOCIAL AND EMOTIONAL DEVELOPMENT
- PSY 373 HAPPINESS, JUDGMENT AND DECISION MAKING
- PSY 377 PHYSIOLOGICAL PSYCHOLOGY
- NEU 399 INDEPENDENT STUDY IN NEUROSCIENCE
- NEU 228 NEUROETHICS

Five courses from any of the remaining required courses from the other concentrations:

- CHE 134 GENERAL CHEMISTRY III and CHE 135 GENERAL CHEMISTRY LABORATORY III
- BIO 250 CELL BIOLOGY
- BIO 260 GENETICS
- BIO 310 VERTEBRATE PHYSIOLOGY or HLTH 301 INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A
- PSY 360 THEORIES OF LEARNING AND COGNITION
- PSY 373 HAPPINESS, JUDGMENT AND DECISION MAKING
- MAT 150 CALCULUS I
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- CSC 250 COMPUTERS AND HUMAN INTELLIGENCE
- CSC 367 INTRODUCTION TO DATA MINING
- CSC 381 INTRODUCTION TO DIGITAL IMAGE PROCESSING
Non-Profit Hospitality Leadership (Minor: Business Students Only)

Food and overnight accommodations are often part of a social service network offered by a community. Examples include soup kitchens, shelters for battered women and children, support centers for the homeless, disaster relief efforts, etc. The purpose of this minor is to help students in the Driehaus College of Business who are planning a career in the non-profit sector to acquire the necessary knowledge to operate hospitality venues in a safe, clean and financially viable manner.

Declaration Requirements

To declare a minor in Non-Profit Hospitality Leadership, a Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Hospitality Leadership grade point average of 2.000
- No grades of IN, R, or lower than C- in any Hospitality Leadership (HSP) course
- Completion of HSP 100 or HSP 201 with a minimum grade of C- in each

Course Requirements

A Driehaus student minoring in Non-Profit Hospitality Leadership is required to complete the following courses totaling at least 20.0 hours:

- HSP 201 HOSPITALITY SERVICE & EXPERIENCE MANAGEMENT (2.0 hours)
- HSP 203 HOSPITALITY LEADERSHIP & SELF DEVELOPMENT (2.0 hours)
- HSP 207 HOSPITALITY LAW, ETHICS & RISK
- HSP 331 FOODSERVICE PURCHASING
- HSP 339 NON-PROFIT FOODSERVICE MANAGEMENT
- HSP 349 NON-PROFIT ACCOMMODATION, SAFETY & SECURITY

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Non-Profit Hospitality Leadership (Minor)

Available to students outside of the Driehaus College of Business, the minor in Non-Profit Hospitality Leadership is to help non-profit service providers acquire the necessary knowledge to operate hospitality venues in a safe, clean and financially viable manner. Food and overnight accommodations are often part of a social service network offered by a community, and examples include soup kitchens, shelters for battered women and children,
Declaration Requirements

To declare a minor in Non-Profit Hospitality Leadership, a non-Driehaus student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Hospitality Leadership grade point average of 2.000
- No grades of IN, R, or lower than C- in any Hospitality Leadership (HSP) course
- Completion of HSP 100 or HSP 201 with a minimum grade of C-

Course Requirements

A non-Driehaus student minoring in Non-Profit Hospitality Leadership is required to complete the following courses totaling at least 20.0 hours

- HSP 201 HOSPITALITY SERVICE & EXPERIENCE MANAGEMENT (2.0 hours)
- HSP 203 HOSPITALITY LEADERSHIP & SELF DEVELOPMENT (2.0 hours)
- HSP 207 HOSPITALITY LAW, ETHICS & RISK
- HSP 331 FOODSERVICE PURCHASING
- HSP 339 NON-PROFIT FOODSERVICE MANAGEMENT
- HSP 349 NON-PROFIT ACCOMMODATION, SAFETY & SECURITY

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Nursing RN to MS (BS)

The RN to MS curriculum provides for seamless progression for the Registered Nurse with an associate degree in nursing (ADN) to the master’s degree (MS) in nursing. Along the way, ADN-only students will earn the Bachelor of Science (BS) degree in nursing; in anticipation of earning the BS, students must apply for degree conferral. However the focus of the program is on the attainment of the MS degree.

The RN to MS program will be offered online except for the clinical requirements. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local preceptor agreements.

The bachelor’s component of the program, leading to the BS in nursing, fulfills professional nursing standards for baccalaureate education in nursing, provides for immediate career mobility, and provides an accelerated path to the master’s degree. The master’s component of the program prepares practicing nurses to meet the core expectations of a master’s education in nursing and to assume the role of a nurse educator or nurse administrator. The student will earn a certificate either in Health Professions Education or in Health Administration from Rosalind Franklin University of Medicine and Science (RFUMS) and the MS in Nursing from DePaul University.

The Bachelor’s portion of the curriculum builds on the strong theoretical and skills preparation in both nursing and general education that the associate degree prepared RN has completed. Note that, in general, 2 semester hours transfer as 3 quarter hours.

* View Undergraduate Student Handbook to learn of the maximum allowable number of transfer credit hours.
Learning Outcomes

Students will be able to:

- Synthesize knowledge from the sciences, the humanities and nursing science to assess, plan and provide care for individuals, families and communities using evidence-based and values-based modalities.
- Develop a foundation for professional nursing practice emphasizing autonomy, integrity, change agency and advocacy for social justice.
- Design and deliver culturally appropriate nursing care services to diverse individuals, families and populations, in coordination with appropriate multidisciplinary providers across the continuum of care.
- Demonstrate progression in life-long learning by applying critical thinking to analyze contemporary health care, including but not limited to: social determinants of health, health inequities, serving high-risk populations, technological applications in health care, health care policy and health care finance.
- Reflect on the role of Vincentian and altruistic values in the context of professional nursing.

Liberal Studies Requirements

These requirements take into account liberal studies coursework completed as part of the basic Associate Degree/Diploma Nursing program. The requirements outlined below are beyond the associate degree work and are required for the DePaul degree.

First Year Program

Chicago Quarter

- Not Required

Focal Point

- Not Required

Writing

- Not Required

Quantitative Reasoning & Technological Literacy

- Not Required

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning
Senior Year

Capstone

- NSG 380 UNDERGRADUATE NURSING SYNTHESIS (counted in major requirements)

Learning Domains

Arts and Literature (AL)

- 1 Course Required

Philosophical Inquiry (PI)

- 1 Course Required

Scientific Inquiry (SI)

- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI)

- Not Required

Religious Dimensions (RD)

- 1 Course Required

Understanding the Past (UP)

- 1 Course Required

Liberal Studies Electives

- 2 Additional Courses Required (must be from different domains)

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

- NSG 330 FOUNDATIONS OF PROFESSIONAL NURSING PRACTICE
Transfer Credit

This program builds on the strong theoretical and skills preparation in both nursing and general education that
the associate degree prepared RN has completed. The learning outcomes achieved at the associate degree level
are validated by the National Council Licensure Examination – Registered Nurse (NCLEX-RN), a nationally
standardized exam considered to be a highly valid and reliable test of basic competence. Students will receive at
a minimum 91 quarter hours of transfer credit for the associate degree. Students who have earned more than
91 quarter hours of transfer credit will receive credit based on the transferrable coursework successfully
completed. Please note that some liberal studies credit has been accounted for as part of the nursing program
91 transferrable hours. Only courses in excess of the required nursing program - and still within the restriction
on the maximum number of allowable transfer credit hours - can be considered to fulfill the remaining
requirements. In addition, students must meet the DePaul residency requirement. View the Undergraduate
Student Handbook to learn of the restriction on the maximum number of allowable transfer credit hours and
how to meet the residency requirement.

Professional Nursing Portfolio Credit

Because continuous learning occurs in the life of a working nurse, the professional nursing portfolio assessment
process awards credit for specialty certifications, research, continuing education, and other intellectually
demanding activities done by professional nurses. The portfolio will be reviewed by the RN to MS program
director and the Admissions, Progression, and Retention Committee upon admission to the program. A student
may earn up to 33 quarter hours of credit through the portfolio which is closed at the end of the first quarter of
the program.

</tr>
<tr>
<td>Leadership/Research (presentation or publication)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

A current curriculum vitae and a statement of professional goals and accomplishments must be submitted with
the portfolio request. All supporting documentation must be included at the time of portfolio submission. Up to
33 quarter hours may be awarded. ADN-only students may apply some four-year college credit toward the 33
quarter hour portfolio minimum requirement, but only if the four-year college credit was in excess of the 91
quarter hours of transfer credit. If fewer than 33 quarter hours are earned through portfolio credit, additional
hours will be required to meet the minimum 192 credit hour requirement for the BS degree.
Retention Policies

Undergraduate Student Academic Policy

Any student who fails to maintain a 2.00 cumulative grade point average (C average) is on academic probation. A student is removed from academic probation when the cumulative grade point average reaches the required minimum of 2.00. A student's academic status is reviewed after any Autumn, Winter, Spring and Summer quarters in which the student was enrolled in at least 1 credit hour. A probationary student may be limited to 12 credit hours per quarter until a cumulative GPA of 2.00 is reached. A student who remains on probation for three sequential quarters of enrollment may be dismissed.

A student dismissed for academic reasons is not eligible for readmission to DePaul University for a period of two quarters. The readmission decision is made by the Office of Admission in consultation with the college or school.

A dismissed student may be required to demonstrate acceptable academic achievement at another regionally accredited college or university before readmission is approved. Courses to be taken elsewhere must be approved by the college advising office and a grade of C or better must be earned in all such coursework.

Credits and grades earned during previous enrollment at DePaul will remain a part of the student's records.

Graduate Student Academic Policy

Students must maintain a cumulative GPA of 3.00 or greater to remain in good standing for all graduate level courses. A student will be placed on academic probation if the cumulative GPA dips below 3.00. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the cumulative GPA is raised to at least 3.00 at the end of the next academic quarter, the student is no longer on probation. If the cumulative GPA has not risen to 3.00 at the end of the next academic quarter, the student will be dismissed from the program.

If a student earns a C or C- in any graduate level course, the student is placed on probation. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the student is able to earn grades in all courses that are C+ or above AND earn a cumulative GPA of 3.00 or greater in the next academic quarter, the student is no longer on probation. If this does not occur, the student will be dismissed from the program.

A student who earns a D or lower in any graduate level course will be dismissed from the program.

Policy Regarding Encumbered Registered Nurse (RN) Licensure

1. If a student experiences an encumbered license (such as a RN license with stipulations or restrictions) during their graduate studies, he/she must notify the Assistant Director for the Program immediately upon receipt of the encumbrance.
2. The student will provide the appropriate Assistant Director with a copy of the Agreed Order.
3. Students may be allowed to take non-clinical courses with an encumbered license.
4. Students will not be allowed to take clinical courses with an encumbered license.
5. The student will notify the Assistant Director of the Program when the student's license becomes unencumbered and provide a copy of the Board of Nursing's notification letter.
6. Failure to notify the Assistant Director of the Program of an encumbered RN license will be considered academic misconduct and be treated as such.

Progression Policies

1. All students must complete the orientation session before enrolling in the nursing program of studies.
2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year.
3. Students must meet with their academic advisor at the end of the first academic year and at least once
Enforcement of Retention Policies

The School of Nursing has designated the Admissions, Progression and Retention (APR) Committee as the administrative body responsible for enforcing the Retention Policies listed in the School of Nursing Student Handbook. Please consult those policies directly for more specific information. The procedures of the APR Committee regarding Retention Policies are as follows:

1. Instructors shall notify the APR Committee within one week of the end of the quarter of a student who will be receiving a final grade in a course that is a B- or lower. The APR Committee will be responsible to initiate the academic action to be taken and to notify the student of this.

2. If the Retention Policies indicate that the academic action taken is: a) inability to receive credit for a course, b) probation, c) suspension from the Program, or d) dismissal from the Program, the APR Committee shall notify the student in writing of the academic action. If the trigger for the academic action is academic performance, the APR Committee will notify the student in writing no later than two weeks after the end of the quarter in which the student received a final grade in any course(s) that has resulted in the academic
action. If the trigger for the academic action is the conviction of a serious crime, the APR Committee will notify the student within two weeks of receiving notice of the conviction. If the trigger for the academic action is a decision by the Director of the School of Nursing upholding claims that the student has exhibited unsafe behavior in the clinical setting or has acted in a manner deemed student misconduct (See policies for each in the Student Handbook), notification of the student by the APR Committee will occur no later than two weeks after the Director has communicated the decision to the student.

3. If a student wishes to appeal an academic action that the APR Committee has taken pursuant to the Retention Policies, the student must follow the Procedure for Appealing Grades and/or Decisions Made by the School of Nursing Admission, Progression and Retention Committee in the Student Handbook.

Grievance Procedure

The School of Nursing adheres to the guidelines and procedures of the DePaul University Graduate Student Handbook in matters dealing with:

1. Student rights
2. Student responsibilities
3. Policies regarding grade challenges
4. Procedures for filing a grade challenge
5. Disciplinary procedures and other related matters covered in the handbook
6. The exception is that the School of Nursing requires filing of a grievance prior to the commencement of the next academic quarter

The Admission Progression and Retention Committee (APR) receives requests for consideration of exceptions related to academic program requirements and procedures related to the APR committee. The APR does not handle grade challenges. Students wishing to challenge a grade are directed to the DePaul University Graduate Student Handbook and follow the steps outlined there. The steps are summarized below.

Grade Challenge

1. The student must make an appointment to meet with the course instructor.
2. If not resolved, the student meets with the Assistant Director of the RN to MS Program.
3. If not resolved the student meets with the Director of the School of Nursing and must send all documentation regarding the challenge prior to the meeting.
4. If not resolved, the student may contact the Associate Dean for Graduate Studies in the College of Science and Health. Additional information about grade challenges can be found in the DePaul University Graduate Student Handbook.

Appeals related to academic requirements

Students in the RN to MS Program who wish to make an appeal related to academic requirements must first consult the Admission, Progression and Retention Committee. If the issue is not resolved the candidate may then discuss the matter with the Director of the School of Nursing. The decision of the Director is final.

Appeals related to academic process

Students in the RN to MS Nursing Program who want to request an exception to academic processes should contact the Admission, Progression and Retention Committee. If the request is denied the student may then meet with the Director of the School of Nursing. The decision of the Director is final.

Academic Virtual Environment Policy

The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective virtual learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University. Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (Appendix B). Appropriate student conduct includes but is not limited to: being present on the discussion board; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; fostering a positive learning environment by respecting the ideas and opinions of others; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others on the discussion board.

Students displaying inappropriate conduct on the discussion board will be required to talk with their Academic advisor and may be placed on a performance contract. Inappropriate conduct will be documented with a written copy of the incident placed in the student’s file. Such incidents of inappropriate conduct will then be reported to
the Director of the School of Nursing, with copies sent to the Assistant Director of the Program, and the Admissions, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. (For additional information, please see both the University Student Handbook-available on line, as well as the “Student Misconduct Process” outlined below.)

**Academic Integrity Policy**

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students' own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found at http://offices.depaul.edu/oaa/faculty-resources/teaching/academic-integrity/for-students/Pages/default.aspx

**Academic Integrity Policy Extension for Clinical and Service Settings**

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago’s institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom.

The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well. See also The School of Nursing Professional Development Guidelines (Appendix B).

**Student Advising/Program of Study**

1. A graduate student services administrator (GSSA) from the College of Health Office of Advising and Student Services (OASS) will be assigned as the primary advisor for students while they are pursuing the BS degree portion of the program. The GSSA will work closely with the RN to MS Program faculty, who will be assigned in Campus Connection, as the students' secondary advisor during this phase. The advisor will assist in developing an appropriate program of studies according to the student's preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following. Students are encouraged to review the student handbook prior to meeting with their advisor. Students should bring the Student Handbook Agreement Statement to the meeting. Once it is signed by student and advisor, it should be uploaded to Castle Branch.

2. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

3. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.

4. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Assistant Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program of studies.

5. The student is responsible for meeting all prerequisites to courses for which the student is registering.

6. The student is responsible for scheduling periodic student-advisor, and student-instructor conferences.

7. The student may not register for any clinical course until all conditions of admission, undergraduate nursing prerequisites, and liberal arts and science requirements are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

**Clinical Guidelines**

Clinical learning activity is defined as a planned activity occurring in a health care agency when the student is identified as a DePaul University student. The clinical learning activity may or may not include contact with patients.

In order for students to be eligible for clinical placement, they must complete the following:
1. All School of Nursing graduate clinical requirements
2. All School of Nursing graduate health requirements
3. Approval of clinical mentor/agency by the course faculty of record
4. Establish clinical affiliation agreements between the DePaul University School of Nursing and both the mentor and agency in which a student plans to complete clinical or practicum hours. Students will receive an email at the beginning of each term reminding them to start the process of procuring a clinical site and clinical mentor. Students can follow the procedure at [http://csh.depaul.edu/academics/nursing/student-resources/Pages/Preceptor-Mentor-Request.aspx](http://csh.depaul.edu/academics/nursing/student-resources/Pages/Preceptor-Mentor-Request.aspx).

Failure to meet health requirements will prohibit students from practice learning activities and may result in cancellation of course registration. Any practicum hours completed by a student without completion of the above requirements will not be counted toward the requirement for the course.

All practice requirements should be identified in NSG 376 and submitted to course faculty of record by the end of NSG 376.

All health requirements should be uploaded to Castle Branch the quarter prior to a student beginning a clinical/practicum course

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her instructor in the event that the student encounters problems with his/her supervisor, preceptor, or staff at the site.

**Mentor Selection for Graduate Students**

Students are responsible for selecting a mentor for practice experience courses. Criteria for graduate mentors include:

1. Unencumbered professional license and/or national certification
2. Documented current practice in the field
3. Educational experience: BSN, MSN preferred for NSG 377 and MSN practicing in chosen specialty track for graduate capstone course.
4. Commitment to high professional standards
5. Previous mentor experience is preferred
6. Interest in working with students with desire to foster student learning.

**Process for Establishing a Mentor**

1. The student identifies an appropriate mentor for practice experience activities according to criteria and has a discussion with the mentor about their current standing in the program and practice experience needs. The student shall only put forward the names of mentors who agree to the experience.
2. The student submits a preceptor/mentor request form along with a curriculum vitae of the mentor. The Assistant Director of the program will review the resume for established criteria and the agency clinical affiliation agreement.
3. The School of Nursing will process the agency affiliation agreement and mentor letter.
4. The student uploads evidence of compliance with all health requirements.
5. The School of Nursing will notify the student and the course faculty member when all requirements have been met. Practice experience hours cannot be started until such time.
6. The course faculty member will advise the student when to begin the mentor hours.

Students are required to:

1. Identify the practice experience site and mentor they wish to complete their practice hours in NSG 376, NSG 596 or NSG 597.
2. Notify NSG 376 course faculty of record of the practice experience site and mentor. Students in NSG 567 or NSG 597 will notify their academic advisor of their practice setting the term before starting the course.
3. Comply with additional requirements of the clinical setting including but not limited to drug screening.
4. Students may choose their place of employment as their practice experience site as long as the SON has a clinical affiliation agreement with the facility.
Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient. Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.
20. Failure to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failure to comply with DePaul's Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
23. Failure to know proper vital sign ranges as well as failure to notify instructor or patient's nurse of critical vital sign value.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Assistant Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical instructor’s clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical instructor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The instructor will follow institutional guidelines as appropriate.
2. Contact the course coordinator and the Assistant Director of the Program.
3. Submit a written report of the incident to the Assistant Director's office within one working day. The Assistant Director will contact the Registrar to put a hold on the student's grade; the student will not be allowed to withdraw from the course at this time. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student's dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Assistant Director takes place.
5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Assistant Director of the Program. The student may have his or her advisor present at the meeting. A decision regarding the student’s continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student’s progression in the program. A decision is made at the meeting and communicated to the student.
6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.
7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

**Clinical Performance Limitation Related to Temporary Disability**

A student who incurs an injury or has any other physical limitation of a temporary nature must notify course faculty and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the practice experience setting. This must occur as soon as possible and prior to attendance at practice setting.

The final decision as to whether the student is allowed in the practice setting rests with the agency. If the student is unable to attend the practice experience, he or she will need to withdraw and meet with the Assistant Director of the program to explore options.

Students who are pregnant are advised that practice sites have individual policies and requirements related to pregnant students that may impact the student’s ability to attend or complete the experience.

**Clinical Probation/Remediation**

A student requires a contract when one or more course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as course faculty recognizes that a student’s performance or behavior may jeopardize the successful completion of a course. The contract can be initiated at any time during the quarter.

The contract is documented on the Student Faculty Contract form (Appendix A) and is completed by the course faculty. The faculty will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student’s academic advisor will be notified as will the Assistant Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student’s remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course. Once the contract requirements have been met, the instructor should document this on the form and both student and instructor should sign the form. A completed copy can be given to the student; another copy is send to the Coordinator of Data Management for tracking purposes; another copy is placed in the student’s file.

**Practice Experience**

In the event that a student does not receive a passing grade in the practice experience component of a course, the student’s grade for that course will automatically become an F.

**Confidentiality**

**Patient/Client Privacy**

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient’s Bill of Rights.
2. Confidentiality is the protection of a client’s privacy through careful use of oral and written communications. The client’s right to privacy is safeguarded by judicious protection of confidential information. The student should adhere to the School of Nursing Social Media policy (Appendix C) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.
3. A client’s chart is a legal document. Information from the client and chart is confidential and cannot be disclosed to those not caring for the client. All entries must be accurate and legible. No part of the client’s Medical record can leave the hospital. Students are not allowed to access the records of patients for whom they are not providing direct care.
4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.
5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client’s privacy.
6. Students should use only the initials of the client when filling out history forms, care plans, and any other documents which are a part of their educational experience.
Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan: http://csh.depaul.edu/departments/nursing/student-resources/Pages/Bloodborne-Pathogens-Exposure-Control-Plan.aspx

Exposure at Outside Facility while Performing Duties within Student Role

Any student incurring such an exposure should follow both DPU's post exposure policy as well as the institution's policy where the exposure occurred. All student exposure incidents while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual's blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

Student Injury and Incident Policy

In the event that a student is injured (or involved in an untoward incident*) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety is notified, that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found at http://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx, is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident. When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

Student Clinical Requirements

It is mandatory that all students have all of their clinical requirements completed and uploaded to their Student Immunization Tracker through Castle Branch prior to attending clinical. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Students who are non-compliant with clinical requirements will not be permitted to attend clinical. Non-attendance of clinical due to non-compliance with clinical requirements will be treated as an unexcused absence that may not be made up. This may put the student at risk for failing the course.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. Tuberculosis Screening:

   All students that will provide patient care in the clinical setting are required to submit proof of not having active tuberculosis prior to the first day of the clinical rotation. Documentation must be uploaded into Castle Branch and approved to fulfill this requirement. This can be done by completing one of the
1. Two-step Tuberculin Skin Test.
   The student will be required to have two separate tuberculin skin tests placed 1-3 weeks apart. The results of both tests must be uploaded into Castle Branch.

2. Quantiferon Gold Test
   The student will be required to have this blood test drawn and upload the results into Castle Branch. Please note: some clinical sites will only accept this as proof of not having active tuberculosis.

3. Students With Positive TB Results:
   Students with a history of having positive TB results or has received the BCG vaccination prior to admission into the nursing program at DePaul University must complete the following:

   Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. AND
   Submit a negative chest X-ray from the time of the initial positive TB results. In the event that a chest X-Ray was not completed, the faculty member will be required to obtain one prior to the first day of the clinical rotation.

   OR

   Complete a Quantiferon Gold test.
   AND
   Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.

   Students found to have positive TB results while completing pre-clinical screening requirements for DePaul University must complete the following prior to the first day of the clinical rotation:

   Obtain a chest x-ray and submit the results.

   Submit certification from a healthcare provider that the student is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. If the student shows signs and symptoms of active tuberculosis during the provider evaluation, the student may not begin the clinical rotation until documentation of a completed course of prophylactic therapy and certification of currently being free of the signs and symptoms of active tuberculosis has been completed.

2. Titers for Rubeola, Mumps, Rubella, Varicella. A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titers are as follows:
   1. Rubeola IgG
   2. Mumps IgG
   3. Rubella IgG
   4. Varicella IgG

   If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Follow-up titers will need to be drawn after re-immunization for both MMR and Varicella.

   Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

3. Proof of immunity to Hepatitis B must be confirmed through bloodwork. Immunity may be achieved through vaccination or previous exposure*. You may submit test results and documentation of immunity from your provider in lieu of receiving vaccination. The following documents will be accepted as proof of immunity:
   1. Positive Hepatitis B surface antibody (anti-HBs) indicates immunity from previous vaccination.
   2. Positive anti-HBs and positive Hepatitis core antibody (anti-HBc) indicate immunity due to infection; a negative Hepatitis B surface antigen (HBsAG) is needed to determine whether acute or chronic infection exists, and the student will need to follow up with his or her health care provider.

   If immunity is not documented, the student must receive the Hepatitis B immunization series and post-vaccination bloodwork as outlined below.

   If the series has been started but has not been completed prior to beginning clinical attendance, it is the student's responsibility to supply documentation of the vaccine dates and the date when the final Anti-HBs bloodwork is drawn. The student must have completed a minimum of one of the series of three vaccines prior to the first clinical day and upload documentation for this to Castle Branch.
If bloodwork following completion of the series of three vaccines does not show immunity, further vaccination is necessary. If, after completion of a second series, no immunity is detected, the student must sign a waiver. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

* The Centers for Disease Control (CDC) recommend that persons who fall into either of the following categories for increased risk for Hepatitis B infection should see their health care provider and request a blood test for Hepatitis B surface antigen (HBsAg) and Hepatitis B surface antibody (Anti-HBs) as you may not need the vaccination if the results are positive.

CDC Categories of Persons at Increased Risk for Hepatitis B Infection
1. Persons born to mothers in or from countries in which Hepatitis B is endemic.
2. Sexually active men who have sex with men.
3. Intravenous drug users.
4. Tetanus-Diphtheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form of a signed immunization card or statement from your healthcare provider or health department that documents the date the tetanus booster or Tdap were administered. Please note that a tetanus booster alone is not adequate and you must demonstrate immunization for diphtheria and pertussis within past 10 years.
5. Yearly influenza vaccine is required. Incoming MENP students will receive Standard Precautions/Universal Precautions Training as part of their initial coursework.
6. Current CPR Certification: Current American Heart Association (AHA) certification in Basic Life Support (BLS) for Healthcare Provider is required for all entering and current students. Only the AHA certification will be accepted.

Content covered in AHA BLS class:
1. Critical concepts of high-quality CPR
2. The American Heart Association Chain of Survival
3. 1-Rescuer CPR and AED for adult, child and infant
4. 2-Rescuer CPR and AED for adult, child and infant
5. Differences between adult, child and infant rescue techniques
6. Bag-mask techniques for adult, child and infant
7. Rescue breathing for adult, child and infant
8. Relief of choking for adult, child and infant
9. CPR with an advanced airway

7. Professional Liability Insurance: Each MENP and BSN completion student must obtain their own student nursing professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually.

8. Evidence of Current Health Insurance: All nursing students must submit proof of continuous comprehensive health insurance on a yearly basis. Please note that the name on the health insurance must match the student's name.

9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter. This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp.

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless: a.) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. Some institutions may require a new drug screen each year. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a release to have the results sent to School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.
Drug Use and Testing

In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’ requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student’s drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete the requirements of the program.

Access to Student Records

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.
2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

Graduation

DePaul University awards the both the Bachelor of Science and Master of Science degree with a major in nursing to students who successfully complete RN to MS program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Bulletin.

The student is responsible for completing and gathering the necessary components to the portfolio and setting up a portfolio conference with the Assistant Director of the Program at least 1 quarter before BS conferral. The Assistant Director will validate the portfolio during the conference and make the recommendation as to the number of quarter hours received. The Assistant Director of the program will then send the documents to the APR Committee with the recommendation. The APR committee will vote to approve the recommendation. If the APR committee does not approve the recommendation, they will need to provide their rationale to the Assistant Director of the Program, who will then notify the student of the number of quarter hours needed to complete the BS degree. The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice. Part-time students and students who do not enroll in classes for one or more quarters will the program under which they were admitted.

Organizational Communication (BA)

The B.A. in Organizational Communication explores effective and participatory communication across organizational contexts. Students are encouraged to identify and explain theoretical frameworks operative in organizational and group communication; apply multiple theoretical perspectives to a variety of organizational and group contexts and events; express ideas and information competently in written or oral form with clarity and organization; appraise similarities and differences among multicultural and global communication contexts and events; formulate appropriate communicative messages for group and organizational effectiveness.
The curriculum is both deep and broad, enabling students to gain practical expertise in their area of interest while gaining a working knowledge of related areas. The curriculum focuses on ethical practice and the convergence of traditional and new media, preparing students for professional practice in an evolving marketplace. Students learn to express themselves well in oral and written communications, to think critically about communication events all around them, to develop skills valuable in the workplace, and to communicate effectively in a diverse world.

Learning Outcomes

Students will be able to:

- Identify and explain theoretical frameworks operative in organizational and group communication.
- Apply multiple theoretical perspectives to a variety of organizational and group contexts and events.
- Express ideas and information competently in written or oral form with clarity and organization.
- Appraise similarities and differences among multicultural and global communication contexts and events.
- Formulate appropriate communicative messages for group and organizational effectiveness.

College Core Requirements

All majors in the College of Communication (with the exception of Public Relations and Advertising) consist of a total of fourteen courses: a four-course common core plus an additional combination of ten program requirements and electives. The Public Relations and Advertising major consists of a total of fifteen courses: a four-course common core plus an additional combination of eleven program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:

- CMN 101 INTRODUCTION TO HUMAN COMMUNICATION
- CMN 102 INTRODUCTION TO MASS COMMUNICATION
- CMN 103 INTERCULTURAL COMMUNICATION
- CMN 104 PUBLIC SPEAKING

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at
DePaul

- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination. (Note that CLEP scores may be used only to meet the language requirement. Credit is not awarded in modern languages on the basis of CLEP scores).

Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

**Modern Language Option**

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for two learning domain courses and one open elective. Students may use the Modern Language Option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the SWK or Lab). Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

**Focal Point**

- LSP 112 FOCAL POINT SEMINAR

**Writing**

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II

**Quantitative Reasoning & Technological Literacy**

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below.)

**Sophomore Year**

**Multiculturalism in the US**

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES
Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- CMN 396 CAPSTONE IN COMMUNICATION *

Learning Domains

Arts and Literature (AL)

- 2 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 2 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Note

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Major Requirements

Course Requirements

All Organizational Communication majors must complete the four core courses required of all College of Communication students. In addition, they must take two required courses and choose six classes from among the Organizational Communication course offerings. Organizational Communication majors must also take any two electives within the College of Communication.

All Organizational Communication majors must complete a total of 14 classes, or 56 credit hours.

- ORGC 251 ORGANIZATIONAL COMMUNICATION
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- Six courses (24 credits) from the list of offerings below:
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS
  - CMNS 291 RESEARCH METHODS
  - CMNS 315 HEALTH COMMUNICATION
  - CMNS 355 CONFLICT MANAGEMENT
  - CMNS 360 RELATIONAL, GROUP, AND ORGANIZATIONAL THEORY
  - CMNS 361 GENDER AND COMMUNICATION
  - CMNS 382 QUANTITATIVE RESEARCH METHODS IN COMMUNICATION STUDIES
  - ORGC 212 SMALL GROUP COMMUNICATION
  - ORGC 290 ORGANIZATION COMMUNICATION WORKSHOP (VARIABLE TOPICS) (2 cr.)
  - ORGC 316 COMMUNICATION AND GROUP DECISION-MAKING
  - ORGC 352 COMMUNICATION AND THE CORPORATE CULTURE
  - ORGC 353 COMMUNICATION AND ORGANIZATIONAL CHANGE
  - ORGC 354 EMPLOYMENT INTERVIEWING
  - ORGC 355 DARK SIDE OF ORGANIZATIONAL COMMUNICATION
  - ORGC 356 COMMUNICATION CONSULTING
  - ORGC 357 TOPICS IN GROUP AND ORGANIZATIONAL COMMUNICATION
  - ORGC 358 DIVERSITY, LEADERSHIP, & TEAM BUILDING
  - ORGC 359 VIRTUAL TEAMS
  - ORGC 393 ORGANIZATION COMMUNICATION PRACTICUM (2 cr.)
  - PRAD 255 PUBLIC RELATIONS
- Two electives (8 credits) from any College of Communication offerings.

Internship Credit

Students in the major may take CMN 394 COMMUNICATION INTERNSHIP and/or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Combined Bachelor's/Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The following Communication graduate programs have been approved as combined degree options:

- Digital Communication and Media Arts (MA)
- Health Communication (MA)
- Journalism (MA)
- Media and Cinema Studies (MA)
- Organizational and Multicultural Communication (MA)
- Public Relations and Advertising (MA)
- Relational Communication (MA)

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their B.A. degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Digital Communication and Media Arts (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Digital Communication and Media Arts coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the DCMA core courses (CMNS 570 and MCS 575) and one DCMA elective course during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Health Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, and have successfully completed three 300-level courses in their major are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Health Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take the HTHC core courses (HTHC 515, HTHC 516, HTHC 517) during the senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Journalism (MA)

Students with junior status who have earned a 3.25 GPA in their major courses and 3.0 cumulative GPA are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample or project that demonstrates the applicant's ability in journalism, and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Journalism coursework which will fulfill undergraduate Journalism major electives, communication electives and/or open electives. Students admitted to
the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirements, they will not be allowed to continue as a graduate student in the program.

Media and Cinema Studies (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Media and Cinema Studies coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the MCS core courses (MCS 501, MCS 502, MCS 504) and one MCS elective during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Organizational and Multicultural Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, and have successfully completed three 300-level Communication courses are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, CMNS 501, CMNS 541, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Public Relations and Advertising (MA)

Students with junior status who have earned a 3.25 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, have successfully completed three 300-level Communication courses, and are currently holding one or more PRAD internships or jobs are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), one letter of recommendation from a PRAD professor, and one letter of recommendation from a supervisor at a PRAD-related internship or job.

During their senior year students complete 12 graduate credit hours of Public Relations and Advertising coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take three core courses during their senior year (examples: PRAD 553, PRAD 555, PRAD 575, and PRAD 585). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Relational Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.
During their senior year students complete 12 graduate credit hours of Relational Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, RELC 500*, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

* For BA/MA students who are completing their BA in Relational Communication and seeking an MA in Relational Communication, the core course requirement of RELC 500 – Theories of Relational Communication will be waived. Students waived from having to take RELC 500 will replace the course with an additional graduate RELC elective course (still completing the required total of 48-credit hours).

Organizational Communication (Minor)

After the completion of the coursework in this minor program, students should be able to:

- Identify and explain theoretical frameworks operative in organizational and group communication
- Apply multiple theoretical perspectives to a variety of organizational and group contexts and events
- Express ideas and information competently in written or oral form with clarity and organization

Course Requirements

A minor in Organizational Communication requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

- ORGC 251 ORGANIZATIONAL COMMUNICATION
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
- ORGC 290 ORGANIZATIONAL COMMUNICATION WORKSHOP (VARIABLE TOPICS) (2 cr.)

Four additional courses from the following electives:

- CMNS 315 HEALTH COMMUNICATION
- CMNS 355 CONFLICT MANAGEMENT
- CMNS 360 RELATIONAL, GROUP, AND ORGANIZATIONAL THEORY
- CMNS 382 QUANTITATIVE RESEARCH METHODS IN COMMUNICATION STUDIES
- ORGC 212 SMALL GROUP COMMUNICATION
- ORGC 290 ORGANIZATIONAL COMMUNICATION WORKSHOP (VARIABLE TOPICS) (2 cr.)

- ORGC 393 ORGANIZATIONAL COMMUNICATION PRACTICUM (2 cr.)
Peace, Justice and Conflict Studies (Minor)

The Peace, Justice and Conflict Studies minor is designed to help students engage in critical examination of the origins and root causes of violence, social injustice and conflict; and to foster dialogue about the efficacy of nonviolent approaches to social change and peace-building. Students may develop a specific concentration of study within the minor curriculum.

Course Requirements

Distribution

There is a total of 24 credit hours required for the minor.

- Two core courses from the following list:
  - PAX 210 INTERNATIONAL CONFLICT AND PEACEBUILDING
  - PAX 212 SOCIAL JUSTICE AND SOCIAL CHANGE
  - PAX 214 CONFLICT: INTERVENTION, NEGOTIATION AND ADVOCACY
  - PAX 218 HUMAN RIGHTS: PROMISE AND PROBLEMATICS
  - PAX 220 SOCIAL ENGAGEMENT FOR PEACE AND JUSTICE
- Two PAX 250 TOPICS ON PEACE, JUSTICE, AND CONFLICT STUDIES courses (2 credit hours each)
- One of the following:
  - PAX 300 TOPICS SEMINAR
  - PAX 301 THE THEORY AND PRACTICE OF NONVIOLENT ACTION
  - PAX 312 TRANSCENDING COEXISTENCE: TRUTH, JUSTICE, AND RECONCILIATION
  - PAX 313 BEYOND CONFLICT RESOLUTION: THE EVOLUTION OF GRASSROOTS PEACEBUILDING
  - PAX 321 PRINCIPLES AND PRACTICES OF RESTORATIVE JUSTICE
  - PAX 330 THE UNIVERSAL DECLARATION OF HUMAN RIGHTS: ORIGINS AND CONTROVERSIES
  - PAX 331 LIBERATION THEOLOGY
  - PAX 345 WOMEN, WAR, AND RESISTANCE
  - PAX 373 LITERATURE OF WAR IN THE 20TH CENTURY
  - PAX 380 TOPICS IN NONVIOLENCE
  - PAX 381 TOPICS IN PEACE BUILDING
  - PAX 382 TOPICS IN SOCIAL JUSTICE AND SOCIAL CHANGE
  - PAX 383 TOPICS IN CONFLICT INTERVENTION
  - PAX 384 TOPICS IN ACTIVISM AND ADVOCACY
  - PAX 385 TOPICS IN HUMAN RIGHTS
  - REL 351 LIBERATION THEOLOGY
  - WGS 303 GENDER, VIOLENCE AND RESISTANCE
  - WGS 345 WOMEN, WAR AND RESISTANCE
- Four credit hours of electives taken from the elective list under Major Requirements, or any PAX courses listed for the Major.
- One course from the following list of PJC program-approved community-based service learning courses or internship courses:
  - PAX 200 COMMUNITIES WORKING FOR SUSTAINABLE JUSTICE AND PEACE: SERVICE IN CHICAGO AND THE U.S.
  - PAX 320 TRANSFORMATIVE JUSTICE: THEORY AND PRACTICE
  - PAX 392 INTERNSHIP IN PEACE , JUSTICE, AND CONFLICT STUDIES
  - CSS 201 CRITICAL COMMUNITY ENGAGEMENT
  - CSS 310 RESTORATIVE JUSTICE: ENGAGEMENT WITH THE PRISON
  - CSS 311 MASCULINITY, JUSTICE AND LAW
  - CSS 312 LAW AND POLITICS: PRISON POLICIES AND RESTORATIVE JUSTICE
  - CTH 282 GOD, JUSTICE AND REDEMPTIVE ACTION
  - CTH 341 LIBERATION THEOLOGY: THEORY AND PRACTICE
  - ENV 344 ENVIRONMENTAL JUSTICE AND ADVOCACY (selected sections)
  - HON 351 HONORS SENIOR SEMINAR IN SERVICE LEARNING
  - INT 389 INTERNATIONAL SOCIAL ENGAGEMENT
  - LST 305 LATINO COMMUNITIES AND SOCIAL ENGAGEMENT
  - LST 309 SOCIAL ENGAGEMENT AND LATINO FAMILIES
  - PHL 250 PHILOSOPHY AND SOCIAL CHANGE
  - PPS 251 URBAN POVERTY
  - PPS 331 ENVIRONMENTAL JUSTICE
  - PSC 282 POLITICAL ACTION AND SOCIAL JUSTICE
  - REL 259 RELIGION AND SOCIAL ENGAGEMENT
  - REL 351 LIBERATION THEOLOGY
  - WGS 320 TRANSFORMATIVE JUSTICE: THEORY AND PRACTICE
Peace, Justice and Conflict Studies (BA)

The Peace, Justice and Conflict Studies Program offers students a BA major curriculum that helps them reflect on the origins and causes of conflict, violence, and social injustice as well as the wide spectrum of conflict intervention, from armed conflict, through governmental and organizational peacemaking, to local and interpersonal conflict resolution. The Program also introduces students to strategies for resolving interpersonal, communal and international conflicts peacefully, as well as tactics that promote the common good in a way that addresses the structural origins of violence. The Peace, Justice and Conflict Studies Program addresses the need for a critical examination of the origins and root causes of violence and conflict. The Program includes frank debate about the efficacy of nonviolent in comparison with violent approaches to social change. The inclusion of conflict theory and intervention as part of this program is a distinctive aspect of this program; the arena of conflict resolution offers many potential career options. The Program emphasizes hands-on, experiential components in the introductory course, the seminar/internship and the workshops which emphasize skill training.

Students and faculty in Peace, Justice and Conflict Studies question what constitutes a just society and world, what peace and peacemaking can accomplish in a world full of conflict, and how attitudes toward social justice, violence, and peace reflect and reveal American and other cultures' values, beliefs, prejudices, assumptions, and perceptions.

Students are expected to gain competency in dealing with situations of conflict and injustice by mastering the theoretical and intellectual frameworks related to peacemaking, human rights advocacy, and justice development, by learning to interpret and analyze real life situations in their complexity, by understanding how to build strategies for negotiation, consensus-building, advocacy, partnership development, and other intervention tools, and by understanding various research methodologies and the use of media and creative outlets.

Students majoring in many social science, humanities, and other interdisciplinary programs will find it beneficial to double major or minor in Peace, Justice and Conflict Studies. Students can also pursue a cross-college double major, such as with Journalism or Intercultural Communication in the College of Communication. Students who pursue the major are well prepared for graduate work in the humanities or social sciences, and specifically in peace, justice, or conflict studies, as well as for professional training in law, public service, or business.

Learning Outcomes

Students will be able to:

- Analyze the origins of conflict and violence at the international and global levels, between nations and large-scale global organizations.
- Assess the underlying values of different approaches to international and global conflict, such as human rights, deterrence, security, social welfare.
- Evaluate the strengths and weaknesses of several approaches to peacemaking and conflict resolution at the national and global level.
- Understand the theories of justice and its basic forms, such as social, distributive, and restorative, as they relate to conflict resolution.
  - Assess them in relation to real circumstances of structural violence and social change.
- Recognize and evaluate strategies that work toward social change and a just world, through redressing injustices and violations of human rights.
- Identify and practice effective skills for resolving conflicts over injustice and for promoting change, for example, skills using negotiated and consensual approaches.
- Examine theories concerning conflict and conflict resolution between individuals and social groups
  - Assess them on the basis of evidence.
  - Apply them to real situations where individuals or social groups are in conflict.
- Integrate an experientially based understanding of peacemaking and conflict resolution, with a critical understanding of the effectiveness of different intervention strategies.
- Connect disciplinary or interdisciplinary research methodologies with the strategies for conflict intervention and advocacy and thereby gain depth in one particular area of Peace, Justice and Conflict Studies.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages
website for registration details)

- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and
  achieving a score of Beginner High or above (see the Department of Modern Languages website for
  registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR
  via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the
effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern
Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes
of the term in which the student is registered. Students in residence, whether attending on a full-time or part-
time basis, may not take courses away from DePaul University without the written permission of the college.
Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the
LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University
Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES
Junior Year

Experiential Learning

• Required

Senior Year

Capstone

• PAX 350 CAPSTONE IN PEACE, JUSTICE & CONFLICT STUDIES * [See Note Below]

Learning Domains

Arts and Literature (AL)

• 3 Courses Required

Philosophical Inquiry (PI)

• 2 Courses Required

Scientific Inquiry (SI)

• 3 Courses Required
[1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

• 2 Courses Required

Religious Dimensions (RD)

• 2 Courses Required

Understanding the Past (UP)

• 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student majoring in Peace, Justice, and Conflict Studies (PAX) is required to complete the Capstone offered by the PAX Program. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A PAX major in the University Honors Program shall take the University Honors Capstone and the PAX Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Major Requirements

Course Requirements

To attain a Bachelor of Arts in Peace, Justice and Conflict Studies (PJC), students will be required to complete successfully a 192 credit hour program, with a minimum of 48 required credit hours in the Peace, Justice and Conflict Studies program:

- PAX 250 TOPICS ON PEACE, JUSTICE AND CONFLICT STUDIES (2 classes at 2 credit hours each)
- PAX 210 INTERNATIONAL CONFLICT AND PEACEBUILDING
- PAX 212 SOCIAL JUSTICE AND SOCIAL CHANGE
- PAX 214 CONFLICT: INTERVENTION, NEGOTIATION AND ADVOCACY
- PAX 218 HUMAN RIGHTS: PROMISE AND PROBLEMATICs
- PAX 392 INTERNSHIP IN PEACE, JUSTICE, AND CONFLICT STUDIES (taken for Liberal Studies requirement)
- Three of the following:
  - PAX 300 TOPICS SEMINAR
  - PAX 301 THE THEORY AND PRACTICE OF NONVIOLENT ACTION
  - PAX 312 TRANSCENDING COEXISTENCE: TRUTH, JUSTICE, AND RECONCILIATION
  - PAX 313 BEYOND CONFLICT RESOLUTION: THE EVOLUTION OF GRASSROOTS PEACEBUILDING
  - PAX 321 PRINCIPLES AND PRACTICES OF RESTORATIVE JUSTICE
  - PAX 330 THE UNIVERSAL DECLARATION OF HUMAN RIGHTS: ORIGINS AND CONTROVERSIES
  - PAX 331 LIBERATION THEOLOGY
  - PAX 345 WOMEN, WAR, AND RESISTANCE
  - PAX 373 LITERATURE OF WAR IN THE 20TH CENTURY
  - PAX 380 TOPICS IN NONVIOLENCE
  - PAX 381 TOPICS IN PEACE BUILDING
  - PAX 382 TOPICS IN SOCIAL JUSTICE AND SOCIAL CHANGE
  - PAX 383 TOPICS IN CONFLICT INTERVENTION
  - PAX 384 TOPICS IN ACTIVISM AND ADVOCACY
  - PAX 385 TOPICS IN HUMAN RIGHTS
  - REL 351 LIBERATION THEOLOGY
  - WGS 303 GENDER, VIOLENCE AND RESISTANCE
  - WGS 345 WOMEN, WAR AND RESISTANCE
- Three electives approved by the Program (listed below)
- PAX 350 CAPSTONE IN PEACE, JUSTICE & CONFLICT STUDIES (taken for Liberal Studies requirement)

The four-course sequence PAX 210-212-214-218 forms the foundation of the program and should be completed in the first or second year of study. Courses do not need to be done in sequence. An internship, PAX 392, offered once a year in the fall, should be completed prior to taking PAX 350. If possible, students should take the internship prior to senior year. Seniors should plan to take the capstone, PAX 350, offered once a year. Two PAX 250 workshops (2 credit hours each) can be completed at any time, ideally prior to senior year.

Senior Capstone

PAX 350 is usually offered in winter quarter. Students doing study abroad during winter quarter of their senior year must do the capstone in their junior year.

Program Approved Electives

Courses cross-listed with any listed below are accepted as PAX electives. Check with the PJC Director for topics courses approved as PAX electives each quarter or to approve a course not on this list.

LAS: African and Black Diaspora Studies

- ABD 233 SURVEY OF AFRICAN DIASPORIC INTELLECTUAL THOUGHT
- ABD 245 RACE AND ETHNICITY IN LITERARY STUDIES

• FA 389 INTRODUCTION TO RESTORATIVE PEACEMAKING PRACTICES

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs. Each combined degree program has its own application process, which is usually completed during junior year.

Peace, Justice & Conflict Studies (BA) offers several options for combined programs. Consult the degree requirements as listed in the catalog. These programs include the following:

- Peace, Justice & Conflict Studies (BA)/Journalism (MA)
- Peace, Justice & Conflict Studies (BA)/Refugee and Forced Migration Studies (MS) (see below)
- Peace, Justice & Conflict Studies (BA)/Sustainable Urban Development (MA)

Peace, Justice & Conflict Studies students also have the opportunity to pursue any combined program in any college that is open to all undergraduate majors, such as the combined programs offered by the College of Communication and the College of Business.

Peace, Justice & Conflict Studies (BA)/ Refugee and Forced Migration Studies (MS)

During their senior year, students complete 12 graduate credit hours of Refugee and Forced Migration Studies coursework, including FMS 402, MPS 616, and MPH 553; these credit hours will apply to both the undergraduate and graduate degrees. Students are not permitted to take more than three graduate courses in their senior year.

Students with junior status who have earned a 3.50 cumulative GPA or higher are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline):

- BA/MA Combined Degree Program Application
- Official undergraduate transcript
- Statement of Purpose (750 words) explaining why the student is seeking admission into the program
- A writing sample or project that demonstrates the applicant's knowledge of refugee issues
- Two letters of recommendation from professors in the Peace, Justice & Conflict Studies Program

Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Performance Studies (Minor)

The Performance Studies minor provides an overview of the historical importance of performance for social, cultural and personal expression. Students will gain a critical understanding of performance across a range of disciplines.

Course Requirements

The Performance Studies Minor requires students to complete a total of 24 credit hours (six courses).

- CMNS 230 PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY
- Five courses from the following:
Performing Arts Management (BM)

A Bachelor of Music in Performing Arts Management (PAM) prepares students for careers in the multidimensional industries of not-for-profit arts administration and commercial music business. Incorporating a minor in Business Administration from the Driehaus College of Business, this program provides students with a broad understanding of the performing arts industry, insight into the theories and principles associated with arts management, focus on the complexities of the music industry, and a proficiency in the practical application of necessary business skills.

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform with an acceptable tone quality, pitch and rhythmic accuracy, dynamic control, articulation, and expressiveness.
- Participate in a musical ensemble, with appropriate technique and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Identify significant composers and works in the Western music tradition, and trace the evolution of musical styles through the Medieval, Renaissance, Baroque, Classical, Romantic, and Contemporary periods, as well as in jazz and select world music cultures.
- Hear, notate, analyze, and perform music through aural skills, sight-singing, and keyboard skills.
- Demonstrate basic conducting knowledge and skills for both instrumental and vocal settings.
- Develop an expanded global awareness and cultural understanding through musical study.
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

Program Specific Outcomes

Students will be able to:

- Possess a broad understanding of the performing arts industry including:
  - The history of arts administration in the United States.
  - Contemporary issues facing arts managers.
  - Potential career options in arts management.
Demonstrate an understanding of the theories and principles associated with:

- Arts Management.
- Planning.
- Leadership.
- Marketing.
- Fundraising.
- Board Relations.
- Community Engagement.

Demonstrate proficiency in the practical application of necessary business skills related to:

- Accounting.
- Financial Management.
- Marketing.
- Management.
- Economics.
- Ethics.

Possess a broad understanding of the commercial music business environment, including:

- Potential career options in music recording.
- Artist representation.
- Music distribution.

Understand current music business issues and their impact:

- On the industry.
- Related to digital music.
- Distribution methods and accessibility.
- Developing technologies.
- Marketing strategies.

Demonstrate increased competency in professional communication skills as they apply to:

- Arts advocacy and solicitation.
- Donor cultivation.
- Grant research and writing.

Apply and utilize developing skill sets in the work environment, integrating theory and course work with the practical experience of internships in arts-related organizations.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (36 credits)

- Musicianship Sequence
  - MUS 110 MUSICIANSHIP I
  - MUS 120 MUSICIANSHIP II
  - MUS 130 MUSICIANSHIP III
  - MUS 210 MUSICIANSHIP IV
  - MUS 220 MUSICIANSHIP V
  - MUS 230 MUSICIANSHIP VI

- Aural Training Sequence
  - MUS 111 AURAL TRAINING I
  - MUS 121 AURAL TRAINING II
  - MUS 131 AURAL TRAINING III
  - MUS 211 AURAL TRAINING IV
  - MUS 221 AURAL TRAINING V
  - MUS 231 AURAL TRAINING VI

- Group Piano Sequence
  - MUS 113 GROUP PIANO I
  - MUS 123 GROUP PIANO II
  - MUS 133 GROUP PIANO III
**Additional Courses**

- MUS 265 MUSICAL TRADITIONS OF AMERICA AND THE WORLD
- MUS 303 BASIC CONDUCTING PRACTICUM
- MUS 304 BASIC CONDUCTING

**Applied Music**

Students may enroll in a maximum of 4 credits of applied study per quarter, with a maximum of 48 credits total. The requirements for applied study vary by degree program:

- BM in performance, 48 credits
- BM in jazz studies, 30 credits
- BM in composition, 24 credits
- BM in music education, 24 credits
- BM in performing arts management, 24 credits
- BA in music, 16 credits
- BS in sound recording technology, 12 credits

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

**Modern Language Option**

If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. The remaining two quarters of language (8 credits) will be applied towards free electives.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

**Chicago Quarter**

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

**Focal Point**

- Not Required

**Writing**

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

**Quantitative Reasoning & Technological Literacy**

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
  (Note: See Information Below.)
Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Learning Domains

Arts and Literature (AL)

- 2 Courses Required

Philosophical Inquiry (PI)

- 1 Course Required

Scientific Inquiry (SI)

- 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI)

- 1 Course Required

Religious Dimensions (RD)

- 1 Course Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Petition to Major

Students are admitted to a specialization on the basis of a petition to major process, which occurs during the spring of the freshmen or sophomore year. The petition to major process differs for each specialization, and students should contact the department chairs or area coordinators for more information. Students are not permitted to enroll in specialization classes until they have passed their petition to major.

Course Requirements

- PAM 200 INTRODUCTION TO MUSIC BUSINESS
- Performing Arts Management Sequence
  - PAM 301 PERFORMING ARTS MANAGEMENT I: INTRODUCTION TO MANAGEMENT CONCEPTS IN THE PERFORMING ARTS
  - PAM 302 PERFORMING ARTS MANAGEMENT II: ORGANIZATIONAL STRUCTURE AND FINANCIAL MANAGEMENT
  - PAM 303 PERFORMING ARTS MANAGEMENT III: MARKETING FOR THE ARTS
  - PAM 304 PERFORMING ARTS MANAGEMENT IV: INSTITUTIONAL ADVANCEMENT & COMMUNITY ENGAGEMENT
- PAM 398 PERFORMING ARTS MANAGEMENT INTERNSHIP
- Accounting Sequence
  - ACC 101 INTRODUCTION TO ACCOUNTING I
  - ACC 102 INTRODUCTION TO ACCOUNTING II
- MAT 242 ELEMENTS OF STATISTICS
- FIN 290 FINANCE FOR NON-BUSINESS MAJORS
- MGT 300 PRINCIPLES OF MANAGEMENT
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- MKT 301 PRINCIPLES OF MARKETING
- Large Ensemble (3 credits - 1st year)
- Any Ensemble (8 credits - 2nd, 3rd, 4th years)
- Music & PAM Electives (9 credits)
  - PAM 305 COMMERCIAL MUSIC BUSINESS
  - PAM 306 TECHNOLOGICAL TRENDS & DEVELOPMENTS IN THE MUSIC INDUSTRY
  - PAM 307 LEGAL ISSUES IN THE MUSIC INDUSTRY
  - PAM 308 MUSIC PUBLISHING
  - PAM 309 MUSIC ENTREPRENEURSHIP
  - PAM 310 MUSIC FESTIVAL MANAGEMENT
- Free Electives (4 credits)

Liberal Studies Learning Domain Specifications

Performing arts management majors enroll in the following courses within the learning domains:

- MAT 135 BUSINESS CALCULUS I
- ECO 105 PRINCIPLES OF MICROECONOMICS

Philosophy (BA)

The Department of Philosophy serves the needs of the student who seeks an understanding of philosophical issues for personal enrichment, the student who desires a more fundamental appreciation of philosophy in support of law, medicine, business, and various academic disciplines, and the student who wishes to continue the study of philosophy at the graduate level.

Through its courses and programs, the department acquaints students with various philosophical systems and
with basic problems posed by diverse thinkers. Courses have been designed to highlight both the humanistic and technical features of philosophy.

The department also recognizes the important need for skills and training. Its courses in logic and analysis have been designed to help students become more perceptive in their experiences and more critical in their thinking.

Further, the department is aware that, in our age of rapid change, society often tends to neglect the meaning and worth of the person. Courses are therefore offered that investigate and emphasize the dignity of the person. By helping students understand the nature and grounds of ethical judgments, these courses aim to promote an appreciation and ordering of human values.

The department has designed all of its course offerings with the aim of both ensuring that our Liberal Studies courses remain responsive to the needs of the student who does not plan to specialize in philosophy and offering the student who chooses to major or minor in philosophy a rich and diverse curriculum.

The department is particularly proud of its "Philosophy Circle," an undergraduate philosophy club which provides a forum for the exchange of ideas between faculty and students.

### Learning Outcomes

Students will be able to:

- Critically discuss philosophical issues (via well-grounded arguments) and questions from the perspectives of multiple methods, traditions, and historical contexts.
- Evaluate philosophical issues, questions, and problems critically and analytically.
- Write and articulate a well-ordered essay presenting philosophical positions in a way that addresses philosophical issues and questions.
- Formulate and evaluate their own understanding of a diverse range of philosophical problems, in both writing and discussion.
- Integrate a critical understanding of central philosophical ideas from the history of philosophy, broadly construed to include more than the Western tradition.

### College Core Requirements

#### Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives.
of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration. Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see “Special Programs”).

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

---

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

**First Year Program**

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- Not Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required
* Students must earn a C- or better in this course.

Notes

A student majoring in Philosophy (PHL) is required to complete the Capstone offered by the PHL Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A PHL major in the University Honors Program shall take the University Honors Capstone and the PHL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

Basic Prerequisite (1)

- PHL 100 INTRODUCTION TO PHILOSOPHY

Value Studies (2)

- Choose two courses from the following list of 200 level Value Studies courses:
  - PHL 200 ETHICAL THEORIES
  - PHL 202 PHILOSOPHY OF GOD
  - PHL 204 PHILOSOPHY AND EXISTENTIAL THEMES
  - PHL 206 TOPICS AND CONTROVERSIES
  - PHL 208 VALUES AND PERSONS
  - PHL 228 NEUROETHICS
  - PHL 229 BIOMEDICAL ETHICS
  - PHL 230 CONTEMPORARY TOPICS IN ETHICS
  - PHL 231 PHILOSOPHY AND THE QUESTION OF RACE
  - PHL 232 WHAT IS FREEDOM?
  - PHL 233 ISSUES IN SEX AND GENDER
  - PHL 234 PHILOSOPHY AND MODERN SOCIETY
  - PHL 235 PHILOSOPHY AND THE ENVIRONMENT
  - PHL 236 PHILOSOPHY AND THE CITY
  - PHL 237 PHILOSOPHY, CONFLICT AND PEACE
  - PHL 238 PHILOSOPHY AND WOMEN
  - PHL 239 PHILOSOPHIES OF AFRICA
  - PHL 240 LOVE, HATRED AND RESENTMENT
  - PHL 241 ETHICS AND PUBLIC POLICY
  - PHL 242 PHILOSOPHY AND TECHNOLOGY
Cognitive Skills (1)

- Choose one course from the following list of Cognitive Skills courses:
  - PHL 280 CRITICAL THINKING
  - PHL 281 BASIC LOGIC
  - PHL 282 SYMBOLIC LOGIC I
  - PHL 283 SYMBOLIC LOGIC II

History Sequence (3)

- PHL 293 ANCIENT PHILOSOPHY
- PHL 294 MEDIEVAL PHILOSOPHY
  or PHL 295 EARLY MODERN PHILOSOPHY
- PHL 296 KANT & 19TH CENTURY PHILOSOPHY
  or PHL 297 20TH CENTURY PHILOSOPHY

Systematic Themes (2)

- Choose two courses from the following list of Systematic Themes courses:
  - PHL 314 SURVEY OF ETHICS
  - PHL 315 SURVEY OF POLITICAL PHILOSOPHY
  - PHL 320 METAPHYSICS
  - PHL 321 EPistemology
  - PHL 341 AESTHETICS

300 Level Courses (4)

- Four 300 level Philosophy courses

Capstone Seminar (1)

- PHL 391 SENIOR CAPSTONE SEMINAR

Extra Curricular Activities

The regular program of courses is supplemented by philosophical symposia, departmental colloquia, and mini-courses featuring prominent philosophers. Each student is expected to consult with his or her departmental advisor on course selection. With departmental permission, a senior may take one course selected from the graduate offerings in philosophy. He or she may take this course on a pass/fail basis. Certain courses in other departments are acceptable equivalents for philosophy credit. Seniors who have a superior record in philosophy may petition to do a Senior Thesis. (Please note that PHL 100 or HON 105 is the prerequisite for all 300-level philosophy courses; it is also the prerequisite for all 200 level cognitive skills courses as well as the 200 level history sequence.)
Philosophy (Minor)

The minor program is designed to complement the majors of other departments. It is designed also for those who, while not wishing to specialize in philosophy, nonetheless seek to pursue enduring questions, appraise contemporary values, and critically discuss topics of general human concern. (If you wish to use this program as an academic minor, check with your Department for permission and with the Department of Philosophy for sample programs.)

Course Requirements

Basic Prerequisite

- PHL 100 INTRODUCTION TO PHILOSOPHY

History Sequence

- PHL 293 ANCIENT PHILOSOPHY
- PHL 294 MEDIEVAL PHILOSOPHY
  or PHL 295 EARLY MODERN PHILOSOPHY
- PHL 296 KANT & 19TH CENTURY PHILOSOPHY
  or PHL 297 20TH CENTURY PHILOSOPHY

Value Studies/ Cognitive Skills

- One PHL 200 Level Course

Philosophy Electives

- Two PHL 300 Level Courses

With permission a student may take PHL 391 SENIOR CAPSTONE SEMINAR for Philosophy Majors as part of his or her minor.

Transfer credit may be recognized. (*Please note that PHL 100 and HON 105 is the prerequisite for all 300-level philosophy courses; it is also the prerequisite for all 200 level cognitive skills courses as well as the 200 level history sequence.)

Students majoring in Philosophy (BA) are restricted from earning this minor.

Photography (Minor)

The minor in photography is a concentrated program of study that lets students design their approaches to the photographic arts. It takes the processes of optical and mechanical reproduction as its starting points and emphasizes the role(s) of photography historically through culture. A total of six courses are required for a photography minor.

Course Requirements

- Choose any two Photography courses from the following list:
  - ART 101 DIGITAL TOOLS FOR VISUAL THINKERS
  - ART 105 TWO-DIMENSIONAL FOUNDATIONS
  - ART 114 FOUR-DIMENSIONAL FOUNDATIONS
  - ART 200 ART & ARTISTS IN CONTEMPORARY CULTURE
  - ART 118 THINKING PHOTOGRAPHY
Choose any four Photography courses from the following list:
- ART 224 BEGINNING DIGITAL PHOTOGRAPHY
- ART 225 BEGINNING PHOTOGRAPHY
- ART 226 VIDEO ART
- ART 289 EXPERIMENTAL VIDEO ART
- ART 292 COMMUNITY VIDEO PRODUCTION
  or ART 383 SERVICE LEARNING IN THE ARTS INTERNSHIP
- ART 321 INTERMEDIATE DIGITAL PHOTOGRAPHY
- ART 323 INTERMEDIATE PHOTOGRAPHY
- ART 325 ADVANCED PHOTOGRAPHY PROJECTS
- ART 328 DOCUMENTARY PHOTOGRAPHY
- ART 329 ADVANCED DIGITAL PHOTOGRAPHY
- ART 332 TOPICS IN PHOTOGRAPHIC PRACTICE
- ART 395 SPECIAL TOPICS IN STUDIO PRACTICE
- HAA 265 HISTORY OF PHOTOGRAPHY

Students majoring in Art, Media, and Design (BA) or minoring in Studio Art or Graphic Art are restricted from earning this minor.

Physical Education (BSPE)

The Physical Education program will prepare you to pursue a career in teaching Physical Education in schools for grades pre-K through high school. Graduates earn the Bachelor of Science degree and are prepared for K-12 school licensure process.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses. In addition, the student must spend a minimum of 10 weeks in full-time student teaching during their last quarter in the program.

The program includes five distinctive features: 1) Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching; 2) Multiculturalism is infused throughout the curriculum; 3) Field experiences are an integral part of the curriculum; 4) Students are exposed to a variety of educational theories; 5) The program includes a research component as a basis for further professional development.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. In all cases, appropriate field experience plays an integral role.

Students should meet early and regularly with their advisor to design and monitor their program of study.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, Concentration Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Physical Education (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Demonstrate their understanding of how individuals learn and develop to provide opportunities that support their physical, cognitive, social, and emotional development.
- Describe and apply:
  - Physiological and biomechanical concepts related to skillful movement, physical activity and fitness.
  - Motor learning and psychological/behavioral theory related to skillful movement, physical activity, and fitness.
  - Motor development theory and principles related to skillful movement, physical activity, and fitness.
- Identify historical, philosophical, and social perspectives of physical education issues and legislation.
- Analyze and correct critical elements of motor skills and performance concepts.
- Given their own abilities, demonstrate personal competence in motor skill performance for a variety of physical activities and movement patterns.
- Achieve and maintain a health-enhancing level of fitness throughout the program.
- Given their own abilities, demonstrate performance concepts related to skillful movement in a variety of physical activities.
- Design and implement:
  - Short and long term plans that are linked to program and instructional goals as well as a variety of student needs.
  - Appropriate (e.g., measurable, developmentally appropriate, performance based) goals and objectives aligned with local, state, and/or national standards.
  - Content that is aligned with lesson objectives.
- Plan for and manage resources to provide active, fair, and equitable learning experiences.
- Plan and adapt instruction for diverse student needs, adding specific accommodations and/or modifications for student exceptionalities.
- Plan and implement progressive and sequential instruction that addresses the diverse needs of all students.
- Demonstrate knowledge of current technology by planning and implementing learning experiences that require students to appropriately use technology to meet lesson objectives.
- Demonstrate effective verbal and non-verbal communication skills across a variety of instructional formats.
- Implement effective demonstrations, explanations, and instructional cues and prompts to link physical activity concepts to appropriate learning experiences.
- Provide effective instructional feedback for skill acquisition, student learning, and motivation.
- Recognize the changing dynamics of the environment and adjust instructional tasks based on student responses.
- Use managerial rules, routines, and transitions to create and maintain a safe and effective learning environment.
  - Implement strategies to help students demonstrates responsible personal and social behaviors in a productive learning environment.
- Select or create appropriate assessments that will measure student achievement of goals and objectives.
- Use appropriate assessments to evaluate student learning before, during, and after instruction.
- Use the reflective cycle to implement change in teacher performance, student learning, and/or instructional goals and decisions.
- Use the knowledge related to first aid and CPR to respond appropriately to emergency situations in a school environment.
- Know a broad range of literacy techniques and strategies for every aspect of communication develop each student's ability to read, write, speak and listen to his or her potential within the demands of the discipline.
- Model effective reading, writing, speaking, and listening skills during both direct and indirect instructional activities.
- Demonstrate behaviors that are consistent with the belief that all students can become physically educated individuals.
- Participate in activities that enhance collaboration and lead to professional growth and development.
- Demonstrate behaviors that are consistent with the professional ethics of highly qualified teachers.
- Communicate in ways that convey respect and sensitivity.
College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill
level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul undergraduate 2.5 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.
The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content area courses
- Overall cumulative G.P.A. of 2.50 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not
announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US
Junior Year

Experiential Learning

- Met by successful completion of required field experience hours

Senior Year

Capstone

- PE 387 CAPSTONE SEMINAR IN PHYSICAL EDUCATION & EXERCISE SCIENCE *
  (Note: This must be taken along with student teaching. Students must earn a C or better in this course.)

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required
  - LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
  - 1 Additional Course
  (Note: PHL 100 recommended)

Scientific Inquiry (SI)

- 2 Courses Required:
  - 1 CHE/ENV/GEO/PHY
  - 1 SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI)

- 2 Courses Required
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 1 Additional Course

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required
  (Note: One must be US History)

* Students must earn a C- or better in this course.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may
need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

Biology Foundations: 8 quarter hours required

- BIO 201 HUMAN ANATOMY
- BIO 202 HUMAN PHYSIOLOGY

Pre-Education Core: 8 quarter hours required, grade of C or better required

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT
  or SCU 337 HUMAN GROWTH AND DEVELOPMENT

Pre-Education Activity Core: 6 quarter hours required, grade of C or better required

- PE 121 SWIMMING (2 quarter hours)
- PE 151 GYMNASTICS (2 quarter hours)
- PE 213 FOLK-SOCIAL DANCE (2 quarter hours)

Pre-Education Activity Electives: 8 quarter hours required, grade of C or better required

Choose four of the following:

- PE 181 FLAG FOOTBALL (2 quarter hours)
- PE 182 VOLLEYBALL (2 quarter hours)
- PE 183 SOCCER (2 quarter hours)
- PE 185 SOFTBALL (2 quarter hours)
- PE 186 TRACK AND FIELD (2 quarter hours)
- PE 187 BASKETBALL (2 quarter hours)
- PE 276 TENNIS (2 quarter hours)
- PE 277 GOLF (2 quarter hours)

Physical Education Core: 18 quarter hours required, grade of C or better required

- PE 311 MOTOR DEVELOPMENT THROUGHOUT THE LIFE SPAN
- PE 206 PERSONAL AND COMMUNITY HEALTH
- PE 302 FIRST AID: RESPONDING TO EMERGENCIES (2 quarter hours)
- PE 303 ATHLETIC INJURIES
- PE 341 HISTORICAL AND PHILOSOPHICAL FOUNDATIONS OF PHYSICAL EDUCATION

Advanced Standing Education Courses: 36 quarter hours required, grade of C or better required

- PE 317 PHYSICAL EDUCATION AND CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL
- PE 325 LANGUAGE AND LITERACY IN THE PHYSICAL EDUCATION SETTING
- PE 372 METHODS AND MATERIALS FOR PHYSICAL EDUC CURRICULUM/INSTRUCTION-SECONDARY SCHL
- PE 346 ORGANIZATION/ADMINISTRATION OF PHYSICAL EDUCATION, SPORTS & FITNESS PROGRAMS
- PE 351 KINESIOLOGY
Open Electives: 18 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95.

Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures above. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take PE 387 during the spring of the senior year (listed in the Liberal Studies section).

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Physical Education majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Physical Education Content Area Test (test #144) – assesses knowledge of health-related physical fitness, movement and skill acquisition, the role of physical education in promoting development, and the physical education program in schools. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Physical Education (Minor)

The Physical Education minor is designed for students interested in adding teaching skills in physical education to their major course of study.

Course Requirements
Theory

- PE 302 FIRST AID: RESPONDING TO EMERGENCIES
- PE 317 PHYSICAL EDUCATION AND CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL
- PE 341 HISTORICAL AND PHILOSOPHICAL FOUNDATIONS OF PHYSICAL EDUCATION
- PE 346 ORGANIZATION/ADMINISTRATION OF PHYSICAL EDUCATION, SPORTS & FITNESS PROGRAMS

Activity

- PE 311 MOTOR DEVELOPMENT THROUGHOUT THE LIFE SPAN
- PE 121 SWIMMING
- PE 151 GYMNASTICS
- Two courses from the following list:
  - PE 181 FLAG FOOTBALL
  - PE 182 VOLLEYBALL
  - PE 183 SOCCER
  - PE 185 SOFTBALL
  - PE 186 TRACK AND FIELD
  - PE 187 BASKETBALL

**Note: Students in DePaul's College of Education program in Physical Education cannot select the PE minor.**

Physics (BS)

The Department of Physics offers courses and concentrations designed to teach students about the fundamental processes that govern our universe. Students interested in majoring in physics can choose from several concentrations.

The Standard Physics concentration provides a curriculum that highlights the core areas of theoretical and experimental physics. The Computational Physics concentration provides a curriculum that emphasizes the use of computer simulations as a tool to visualize and understand natural phenomena.

In both concentrations student participation in faculty research is an important component of the program that prepares students for independent work in graduate school or industry. Each concentration also prepares students for graduate study, either in physics or in applied sciences such as optics, photonics, scientific computing, engineering, or computer science.

For students interested in engineering, the department offers a concentration in Engineering Physics. Through a joint program with Illinois Institute of Technology (IIT), students can complete a five-year dual-degree program while remaining full-time DePaul students. This five-year program enables students to get a BS in Physics from DePaul and a BS in Engineering from IIT in Mechanical, Aerospace, Electrical/Computer Engineering. Students interested in obtaining a BS in Physics with the Engineering Physics concentration must be accepted into one of these programs at IIT as part of the DePaul-IIT Joint Engineering Program.

Additionally, students interested in engineering, but are not interested in the joint dual-degree program will have the scientific basis to complete an engineering program at another institution after the first two years of the physics major curriculum at DePaul.

For students who wish to apply a physics degree to a career outside of physics, the department offers a concentration entitled Interdisciplinary Physics. This concentration combines a major in physics with a minor in a second field of the student's choice with their advisor's consent.

Student participation in faculty research is an important component of the Physics program at all levels. Participation in research can be pursued either through independent study during the academic year or full-time during the summer quarter. This experience is excellent preparation for independent work in graduate school or industry.

DePaul University Winter/Spring/Summer 2016-2017 Page 744 of 2776
Learning Outcomes

Students will be able to:

- Develop simple mathematical models to describe collected data or observations.
  - Frame arguments to support or discredit the hypothesized model, given a pairing of data set and hypothetical model.
- Apply general principles, such as conservation of energy and momentum, to complex systems that require the use of more than one branch of physics.
- Give oral presentations of problem solutions or research projects that combine formal mathematical material with computer generated graphics and verbal explanations in a manner that makes the topic accessible to their peers.
- Write lab reports that effectively integrate text, data analysis, and graphics into a document that adequately explains the procedures and supports the stated conclusions.
- Chart out and successfully execute the solution to complex problems that require a multi-step process to solve.
- Choose and utilize appropriate formal mathematical techniques in solving problems in physics.
  - Guess appropriate trial solutions when solving initial value problems
  - Effectively use the separation of variables technique when solving boundary value problems.
- Use software packages such as Matlab or Mathematica to solve and visualize more advanced problems in physics. Specifically, they should be able to use two and three-dimensional graphics routines, produce simple animations, and use basic numerical algorithms to solve ordinary differential equations or estimate definite integrals.
- Execute basic laboratory techniques and estimate the precision of the resulting measurements using the appropriate data analysis techniques.
  - Measure voltages and currents in a circuit by choosing the appropriate measurement instrument, connections to the circuit, and instrument settings.
  - Fit measured data to an appropriate theoretical model, and quantitatively characterize the errors in the data points and goodness of fit to the model.
- Differentiate between science and pseudo-science and frame supporting arguments for their conclusions about a particular example.
  - The supporting arguments should include text, analysis, and graphics as appropriate.
- Produce written or oral critiques of articles, films, or political debates related to issues where science impacts society.
  - Identify the viewpoint of the writer or speaker and discuss to what extent this viewpoint may limit the range of information presented by the writer or speaker.
- Defend a particular viewpoint or provide an accessible summary of existing viewpoints for the general public of scientific issues that have environmental, social, or ethical implications.
- Master key laboratory techniques utilized in their projects.
- Master key mathematical and numerical techniques utilized in their projects.
- Work independently on a research problem.
- Develop experimental techniques and numerical algorithms for their projects with limited guidance.
  - Troubleshoot these algorithms when problems arise.
- Produce a written thesis that effectively integrates formal mathematical analysis, graphics, and text into a document that is accessible to their peers.
  - The document should introduce the topic, set the context, and explain the significance of the work as well as describe the particulars of the project.
- Give an oral presentation that explains and summarizes the major aspects of their research project to an audience of peers. The presentation should make effective use of computer graphics, text, and verbal explanations and be well organized.
College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- Not Required

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- PHY 330 SENIOR CAPSTONE PHYSICAL SCIENCE [See Note Below]*

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 Courses Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

Students with a primary major in Physics are required to complete the Capstone offered by the Physics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Physics are required to complete the Capstone offered by the Physics department. Physics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both
the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

## Major Requirements

### Course Requirements

#### Common Core

#### Physics

- PHY 170 UNIVERSITY PHYSICS I
- PHY 171 UNIVERSITY PHYSICS II
- PHY 172 UNIVERSITY PHYSICS III
- PHY 270 UNIVERSITY PHYSICS IV
- PHY 300 METHODS OF COMPUTATIONAL AND THEORETICAL PHYSICS I
- PHY 301 METHODS OF COMPUTATIONAL AND THEORETICAL PHYSICS II
- PHY 330 SENIOR CAPSTONE PHYSICAL SCIENCE (Liberal Studies Program Capstone)

#### Mathematics

- Choose one of the following three-course Calculus sequences:
  - **Sequence One**
    - MAT 150 CALCULUS I
    - MAT 151 CALCULUS II
    - MAT 152 CALCULUS III
  - **Sequence Two**
    - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I
    - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II
    - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
  - **Sequence Three**
    - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
    - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
    - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
  - **Sequence Four**
    - MAT 170 CALCULUS FOR LIFE SCIENCES I
    - MAT 171 CALCULUS FOR LIFE SCIENCES II
    - MAT 172 CALCULUS III WITH DIFFERENTIAL EQUATIONS
  - **Sequence Five**
    - MAT 155 SUMMER CALCULUS I
    - MAT 156 SUMMER CALCULUS II
    - MAT 260 MULTIVARIABLE CALCULUS I

#### Sequencing of Coursework

Students interested in majoring in physics, applied computational physics, or pre-engineering should enroll in PHY 170 UNIVERSITY PHYSICS I and MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I in the autumn quarter of their first year, provided they are adequately prepared in mathematics.

The sequences of PHY 170, PHY 171, and PHY 172 and MAT 160, MAT 161, and MAT 162 are prerequisites to
PHY 270, PHY 300 and PHY 301, and PHY 370, which should be taken in the sophomore year together with MAT 260 and MAT 261.

It is recommended that students interested in the standard concentration or pre-engineering also take the chemistry sequence (CHE 130 GENERAL CHEMISTRY I, CHE 131 GENERAL CHEMISTRY I LABORATORY and CHE 132 GENERAL CHEMISTRY II and CHE 133 GENERAL CHEMISTRY LABORATORY II, CHE 134 GENERAL CHEMISTRY III and CHE 135 GENERAL CHEMISTRY LABORATORY III) their first year. Because of the predominance of physics, mathematics, and chemistry sequences in the freshman and sophomore years, it is crucial that Physics and Pre-Engineering majors be advised by Physics faculty upon enrollment at DePaul.

**Concentration Requirements**

Students must also complete the requirements from one of the following concentrations: Standard, Computational, Engineering, or Interdisciplinary Physics. Students are limited to declaring only one concentration.

---

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- **Standard**
- **Computational Physics**
- **Engineering Physics**
- **Interdisciplinary Physics**

---

**Standard Concentration**

**Course Requirements**

- Four courses chosen from the following list:
  - PHY 310 MECHANICS I
  - PHY 311 MECHANICS II
  - PHY 320 ELECTRICITY AND MAGNETISM I
  - PHY 321 ELECTRICITY AND MAGNETISM II
  - PHY 360 QUANTUM MECHANICS I
  - PHY 361 QUANTUM MECHANICS II
  - PHY 370 ELECTRONICS
  - PHY 380 EXPERIMENTAL PHYSICS I
  - or PHY 390 APPLIED COMPUTATIONAL PHYSICS LABORATORY
- Four additional Physics courses, at least two at the 300 level, as approved by a departmental advisor
- MAT 261 MULTIVARIABLE CALCULUS II
- A one year-long sequence of courses in the sciences, mathematics, or computer science, chosen from the following sequences:
  - Biology Sequence
  - BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS

DePaul University  Winter/Spring/Summer 2016-2017  Page 749 of 2776
Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Computational Physics Concentration

Course Requirements

- PHY 310 MECHANICS I
- PHY 320 ELECTRICITY AND MAGNETISM I
- PHY 360 QUANTUM MECHANICS I
- PHY 342 COMPUTATIONAL PHYSICS
- PHY 390 APPLIED COMPUTATIONAL PHYSICS LABORATORY
- Three additional physics courses, at least one at the 300 level, as approved by a departmental advisor
- MAT 261 MULTIVARIABLE CALCULUS II
- One of the following two course sequences:
  - Programming in C/C++ I–II Sequence
    - CSC 261 PROGRAMMING IN C++ I
    - CSC 262 PROGRAMMING IN C++ II
  - Programming in Java I–II Sequence
    - CSC 211 PROGRAMMING IN JAVA I
    - CSC 212 PROGRAMMING IN JAVA II
  - Programming in Python I–II Sequence
    - CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
    - CSC 242 INTRODUCTION TO COMPUTER SCIENCE II
- Three 300-level CDM courses as approved by departmental faculty advisor

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Engineering Physics Concentration

DePaul University offers a joint program with Illinois Institute of Technology (IIT) in physics and engineering. This program allows students to enroll in courses at IIT while remaining full-time DePaul students. Students will receive a BS degree in Physics from DePaul University and a BS degree in Mechanical, Aerospace, Electrical, or Computer Engineering from IIT upon completion of the 4+1 program.*

Students interested in Engineering Physics or the joint program should promptly consult with a Physics Department advisor for information about scheduling, requirements, and admission to the joint program.

Course Requirements

- PHY 370 ELECTRONICS (required for Mechanical/Aerospace) or PHY 340 THERMAL PHYSICS (required for Electrical/Computer)
- One of the following two course sequences (Electrical Engineering students should take PHY 320 and PHY 321):
  - Electromagnetism Sequence
    - PHY 320 ELECTRICITY AND MAGNETISM I
    - PHY 321 ELECTRICITY AND MAGNETISM II
  - Quantum Mechanics Sequence
    - PHY 360 QUANTUM MECHANICS I
    - PHY 361 QUANTUM MECHANICS II
- Two additional physics courses at the 300 or 400 level as approved by advisor

Mathematics

- MAT 261 MULTIVARIABLE CALCULUS II

Computer Science

- CSC 241 INTRODUCTION TO COMPUTER SCIENCE
- Electrical/Computer students must also take CSC 242 INTRODUCTION TO COMPUTER SCIENCE II

Chemistry

- CHE 130 GENERAL CHEMISTRY I /CHE 131 GENERAL CHEMISTRY I LABORATORY
- CHE 132 GENERAL CHEMISTRY II /CHE 133 GENERAL CHEMISTRY LABORATORY II

Engineering

- Approved twenty quarter hours at 300/400 level from the Mechanical, Aerospace, Electrical/Computer Engineering program at Illinois Institute of Technology (IIT). Students interested in obtaining a BS in Physics with the Engineering Physics concentration must be accepted into one of these programs at IIT as part of the DePaul-IIT Joint Engineering Program. Note that, in addition to the engineering courses mentioned above, students must take at IIT at least four courses at the 200-level and at least 10 additional 300 and 400-level courses to earn their engineering degree at IIT (The total number of courses will be determined by IIT). Please contact the Physics Department for details.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

*Courses taken at an external institution such as IIT are excluded from the university's employee tuition waiver benefit program.
Interdisciplinary Physics Concentration

Intended for students who seek to apply their scientific training in a career outside of physics, this concentration allows students to combine a core physics curriculum with a minor from another field. Possible minors include Journalism or Technical Writing for students interested in a career in science writing, Economics for students interested in business, or Biological Sciences for students interested in biophysics.

Course Requirements

Physics

- Six physics courses, at least three at the 300 level, as approved by a departmental advisor.
- Six courses which constitute a minor in a different discipline, as approved by a departmental advisor.
- Courses from physics' mathematics common core may not be counted toward a math minor.

Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Physics (BS)/Secondary Education Physics (MEd)

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units. A full description of the Program can be found on the College of Education website in the graduate course catalog.

Physics (Minor)

The Physics minor curriculum focuses on scientific investigation, laboratory experience and research opportunities to give you hands-on experience in the field of physics.

Course Requirements

- Complete one of the following two course sequences:
  - Sequence One
    - PHY 150 GENERAL PHYSICS I
    - PHY 151 GENERAL PHYSICS II
    - PHY 152 GENERAL PHYSICS III
  - Sequence Two
    - PHY 170 UNIVERSITY PHYSICS I
    - PHY 171 UNIVERSITY PHYSICS II
    - PHY 172 UNIVERSITY PHYSICS III
- Three additional physics courses
Students cannot earn a minor in the same academic program as their major.

### Playwriting (BFA)

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Playwriting focuses on helping students explore and identify their voice and unique process of working as a writer in a variety of circumstances. The four-year curriculum provides students with the primary tools of dramatic writing and the space and opportunity to use them through a variety of classroom and workshop production experiences.

<td>210 hours</td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Demonstrate and apply:
  - General knowledge of theatre history, dramatic literature covering a broad range of historical periods, cultures, and styles, and major theatre artists on both a national and international level.
  - The principles and vocabulary of performance, directing, design, and a thorough grounding in the theory of their particular area of specialization.
- Write with competency in a variety of writing styles from casual to formal.
- Fully engage with knowledge through the ability to access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying arguments and assumptions and to formulate conclusions.
- Utilize existing knowledge to generate and synthesize ideas in original, creative, and imaginative ways.
- Articulate clearly the process of transforming the written text into the theatrical event.
- Design, develop, and execute a noteworthy intellectual and/or creative project.
- Develop a profound understanding of the role of the artist in society.
- Develop an understanding of the cultural and sociopolitical context of theatre from the perspective of both historical and contemporary practice.
- Develop strong self-discipline, self-motivation, and an ability to work independently.
- Work collaboratively and effectively within a group process and with creative artists from all theatrical disciplines.
- Understand the interrelationship of what it means to be human and what it means to be a theatre artist.
- Evaluate ethical issues with respect to theatrical analysis, concept, and practice.
- Contribute artistically to communities through socially responsible engagement and leadership.
- Develop an understanding of and a respect for a multiplicity of cultural and artistic perspectives that may be different from their own.
- Understand the availability and/or scarcity of global resources for a sustainable future.
- Set goals for future work that are the result of rigorous self-appraisal and reflection.
- Articulate their skills and knowledge as they represent themselves to external audiences.
- Work both independently and collaboratively.
- Use technology to create, communicate, and synthesize their ideas.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- Not Required

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Not Required

Senior Year

Capstone

- Not Required

Learning Domains

Arts and Literature (AL)

- THE 204 HISTORY OF DRAMATIC LITERATURE
- THE 205 HISTORY OF DRAMATIC LITERATURE
- THE 206 HISTORY OF DRAMATIC LITERATURE

Philosophical Inquiry (PI)

- 1 Course Required

Scientific Inquiry (SI)

- 1 SWK or 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI)

- Not Required
Religious Dimensions (RD)

- 1 Course Required

Understanding the Past (UP)

- 1 Course Required

Other

- Choose 1 course from the above learning domains as an elective

* Students must earn a C- or better in this course.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

First Year

- THE 212 INTRODUCTION TO THEATRE STUDIES
- THE 210 SCRIPT ANALYSIS
- History of Dramatic Literature Sequence (Arts and Literature Requirement)
  - THE 204 HISTORY OF DRAMATIC LITERATURE
  - THE 205 HISTORY OF DRAMATIC LITERATURE
  - THE 206 HISTORY OF DRAMATIC LITERATURE
- THE 268 INTRODUCTION TO THE PRODUCTION PROCESS
- THE 291 PERFORMANCE WORKSHOP I
- Three Quarters of Theatre Crew
  - TEC 107 THEATRE CREW

Second Year

- Design Workshop Sequence
  - DES 141 PRINCIPLES OF DESIGN
  - DES 142 PRINCIPLES OF DESIGN
- Playwriting I Sequence
  - THE 227 PLAYWRITING I
  - THE 228 PLAYWRITING I
  - THE 229 PLAYWRITING I
Third Year

- Directing I Sequence
  - PRF 374 DIRECTING
  - PRF 375 DIRECTING
- The 325 Dramatic Criticism
- Playwriting II Sequence
  - THE 327 PLAYWRITING II
  - THE 328 PLAYWRITING II
  - THE 329 PLAYWRITING II
- ENG 328 Studies in Shakespeare
- The 332 Playwright’s Seminar II
- Completion of Common Core
  - Students must select two courses from the following list:
    - THE 143 Design Workshop
    - THE 293 Performance Workshop III
    - PRF 376 Directing

Fourth Year

- The 408 Capstone: Preparing for the Profession
- The 410 Theatre Studies Capstone
- The 412 Portfolio Preparation
- Playwriting III Sequence
  - THE 427 PLAYWRITING III
  - THE 428 PLAYWRITING III
  - THE 429 PLAYWRITING III
- Topics in Playwriting Sequence
  - THE 430 Topics in Playwriting I
  - THE 431 Topics in Playwriting II
  - THE 432 Topics in Playwriting III
- English or Communication Electives
  - Three courses chosen in consultation with advisor
- Production Practice III and/or Internship
  - Select three courses from the following list:
    - THE 471 Theatre Studies Production Practice III
    - THE 472 Theatre Studies Production Practice III
    - THE 473 Theatre Studies Production Practice III
    - THE 490 Theatre Studies Internship

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Political Science (BA)

Political Science is the study of the organization and behavior of people, groups, and institutions which make up our government and the larger political system. The program is designed to introduce students to questions, perspectives, and arguments about the political forces that shape their lives. As such, the program has value for Liberal Studies students as well as for those who may choose the discipline as a major field of study. Students find the substance and the methods of the discipline useful in the legal, business, civic, communications, governmental, and academic professions, as well as any endeavors that draw them into public service.
Learning Outcomes

Students will be able to:

- Define and discuss core concepts within the field of political science, including but not limited to: power, democracy, representation, authoritarianism, freedom and equality.
  - Describe the key features of the American political system.
  - Compare American institutions to other forms of government found in different countries and regions of the world.
- Analyze a given political issue from a multiplicity of perspectives.
  - Identify, analyze, evaluate, and draw upon a variety of theoretical perspectives to explain particular political phenomenon.
  - Collect, organize, and apply various forms of information to assess statements or hypotheses about political questions.
- Compose clear and well organized explanations of political phenomenon and support these explanations with evidence.
- Explain and evaluate a sophisticated conception of justice, Identify and describe situations in which justice concerns arise, and take an informed position about the meaning or demands of justice.
- Recognize and describe the importance of values to political attitudes and behavior, and be able to identify and explain their own.
  - Communicate reflections about one's own normative assumptions about politics, society, and other peoples.
- Identify and explain:
  - The key elements of the inter-state system.
  - The nature of globalization.
  - The dynamics of a particular country or region of the world.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration. Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
- or LSP 111 EXPLORE CHICAGO
Focal Point

- LSP 112 FOCAL POINT SEMINAR

- Required

Senior Year

Capstone

- Required *

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 1 Course Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student whose only major is Political Science is required to complete the Capstone offered by the Political
Science Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in Political Science may substitute the Capstone of the secondary major or degree. A Political Science major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the Political Science Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

---

**Major Requirements**

**Course Requirements**

**Core courses: 8 quarter hours**

- Two courses from the following list:
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - PSC 140 INTRODUCTION TO INTERNATIONAL RELATIONS
  - PSC 150 INTRODUCTION TO COMPARATIVE POLITICS

**Intermediate Courses: 20 quarter hours**

- One Political Culture course (PSC 210 through 219)
- One American Politics course (PSC 220 through 229)
- One Political Thought course (PSC 230 through 239)
- One International Relations course (PSC 240 through 249)
- One Comparative Politics course (PSC 250 through 259)

**Advanced courses: 16 quarter hours**

- Four courses from at least two of the following areas:
  - Methodology (PSC 300 through 309)
  - Political Culture (PSC 310 through 319)
  - American Politics (PSC 320 through 329)
  - Political Thought (PSC 330 through 339)
  - International Relations (PSC 340 through 349)
  - Comparative Politics (PSC 350 through 359)
  - Public Law (PSC 360 through 369)
  - Civic Engagement (PSC 380 through 389)

**PSC electives: 12 quarter hours**
Three additional PSC courses at the 200 or 300 level

Open Electives

Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student's faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

Course Listing by Category

Methodology

- PSC 201 GEOGRAPHIC INFORMATION SYSTEMS
- PSC 205 STATISTICS FOR THE SOCIAL SCIENCES
- PSC 300 POLITICAL ANALYSIS AND RESEARCH
- PSC 305 WRITING IN POLITICAL SCIENCE

Political Culture

- PSC 213 POLITICAL SOCIALIZATION
- PSC 214 POLITICS AND MULTICULTURALISM
- PSC 216 AMERICAN POLITICAL CULTURE
- PSC 217 WOMEN AND POLITICS
- PSC 218 AFRICAN-AMERICAN POLITICS
- PSC 219 TOPICS IN POLITICAL CULTURE
- PSC 310 POLITICAL CULTURE AND DEVELOPMENT
- PSC 312 CREATING CHANGE: CONTEMPORARY GAY, LESBIAN, BISEXUAL & TRANSGENDERED POLITICS (CROSS-LST W/ WMS 332)
- PSC 315 INTERNET, TECHNOLOGY, AND POLITICS
- PSC 316 RELIGION, NATIONALISM AND POLITICS
- PSC 319 ADVANCED TOPICS IN POLITICAL CULTURE

American Politics

- PSC 120 THE AMERICAN POLITICAL SYSTEM
- PSC 220 THE AMERICAN PRESIDENCY

Political Thought

- PSC 230 CLASSICAL POLITICAL THOUGHT
- PSC 231 MODERN POLITICAL THOUGHT
- PSC 232 LIBERALISM, CONSERVATISM, AND DEMOCRACY
- PSC 233 POLITICAL IDEAS AND IDEOLOGIES
- PSC 234 FREEDOM AND EMPOWERMENT
- PSC 235 EQUALITY AND SOCIAL JUSTICE
- PSC 236 LEGITIMACY AND CRISIS
- PSC 239 TOPICS IN POLITICAL THOUGHT
- PSC 330 AMERICAN POLITICAL THOUGHT
- PSC 331 CONTEMPORARY POLITICAL THOUGHT
- PSC 333 MARXISM
- PSC 335 THEORIES OF THE CHURCH
- PSC 336 AFRICAN-AMERICAN POLITICAL THOUGHT
- PSC 337 CHRISTIAN POLITICAL THOUGHT
• PSC 338 POLITICS AND LITERATURE
• PSC 339 ADVANCED TOPICS IN POLITICAL THOUGHT

International Relations

• PSC 140 INTRODUCTION TO INTERNATIONAL RELATIONS
• PSC 242 AMERICAN FOREIGN POLICY
• PSC 243 RUSSIAN-AMERICAN RELATIONS
• PSC 244 LATIN AMERICAN-UNITED STATES RELATIONS
• PSC 245 FOREIGN POLICIES OF WESTERN EUROPE
• PSC 246 ASIAN FOREIGN POLICY
• PSC 247 U.S. - AFRICA RELATIONS
• PSC 249 TOPICS IN INTERNATIONAL RELATIONS
• PSC 340 THE EUROPEAN UNION
• PSC 341 POLITICAL ISLAM AND AMERICAN FOREIGN POLICY
• PSC 342 ARMS, SECURITY, AND WAR
• PSC 343 ASIAN POLITICAL ECONOMY
• PSC 344 WORLD POLITICAL ECONOMY
• PSC 345 THE CATHOLIC CHURCH IN WORLD POLITICS
• PSC 346 THE UNITED NATIONS AND WORLD PROBLEMS
• PSC 347 ETHICS IN WORLD POLITICS
• PSC 349 ADVANCED TOPICS IN INTERNATIONAL RELATIONS

Comparative Politics

• PSC 150 INTRODUCTION TO COMPARATIVE POLITICS
• PSC 250 EUROPEAN POLITICS
• PSC 251 RUSSIAN POLITICS
• PSC 252 LATIN AMERICAN POLITICS
• PSC 253 ASIAN POLITICS
• PSC 254 AFRICAN POLITICS
• PSC 255 MIDDLE EAST POLITICS
• PSC 259 COUNTRY STUDIES
• PSC 350 JAPANESE POLITICS
• PSC 351 REVOLUTION AND TERRORISM
• PSC 352 CHINESE POLITICS
• PSC 353 COMPARATIVE DEMOCRACY AND DICTATORSHIP
• PSC 354 POLITICAL REPRESENTATION IN COMPARATIVE PERSPECTIVE
• PSC 356 ETHNIC CONFLICT IN THE THIRD WORLD
• PSC 358 GLOBAL GENDER ISSUES
• PSC 359 ADVANCED TOPICS IN COMPARATIVE POLITICS

Public Law

• PSC 260 LAW AND THE POLITICAL SYSTEM
• PSC 261 FIRST AMENDMENT RIGHTS
• PSC 262 RIGHTS OF DEFENDANTS
• PSC 263 EQUAL PROTECTION OF THE LAWS
• PSC 265 LAW AND POPULAR CULTURE
• PSC 269 TOPICS IN PUBLIC LAW
• PSC 361 INTERNATIONAL LAW
• PSC 362 THE CRIMINAL JUSTICE SYSTEM
• PSC 363 WOMEN AND THE LAW
• PSC 364 COMPARATIVE PROTECTION OF INDIVIDUAL RIGHTS
• PSC 365 VOTING, REPRESENTATION, AND THE LAW
• PSC 366 NATIONAL SECURITY AND THE U.S. CONSTITUTION
• PSC 367 IMMIGRATION LAW
• PSC 368 RIGHTS-BASED SOCIAL MOVEMENTS
• PSC 369 ADVANCED TOPICS IN PUBLIC LAW

Experiential Politics

• PSC 281 MODEL UN
• PSC 282 POLITICAL ACTION AND SOCIAL JUSTICE
• PSC 284 MOCK TRIAL: CIVIL LAW
• PSC 285 MOCK TRIAL: CRIMINAL LAW
• PSC 286 CAMPAIGNS AND SOCIAL ENGAGEMENT
• PSC 288 BIKING, POLITICS AND POLICY
• PSC 289 GROUP INTERNSHIP SPECIAL TOPIC
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The Political Science (B.A.) offers two options:

- Political Science (B.A.)/Journalism (M.A.)
- Political Science (B.A.)/Secondary Education Social Sciences (M.Ed.)

**Political Science (BA)/ Journalism (MA)**

Students with junior status who have earned a 3.25 grade point average (GPA) in their major courses and 3.0 cumulative GPA are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1:

- B.A./M.A. Combined Degree Program Application
- Official undergraduate transcript
- Statement of purpose (750 words) explaining why the student is seeking admission to the program
- A writing sample or project that demonstrates the applicant's journalism ability
- Two letters of recommendation from professors in the Political Science Department

Students are encouraged to complete PSC 315 and PSC 321 during their junior or senior year. Also in their senior year, students shall complete twelve graduate credit hours of Journalism coursework which will fulfill undergraduate open electives. Students admitted to the program must earn a grade of B or better in each of these three graduate courses. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Students can defer their graduate admission for one year. If students do not matriculate after completing their B.A. degrees, or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must re-apply for admission to the graduate program in Journalism.

**Political Science (BA)/ Secondary Education Social Science (MEd)**

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a B.A. or B.S. in their disciplinary major and a M.Ed. in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

- TCH 401 TEACHING AS A PROFESSION IN SECONDARY SCHOOL
Professional Writing (Minor)

The Minor in Professional Writing, offered by the Department of Writing, Rhetoric, & Discourse (WRD), is available to any undergraduate student in the university. The department understands the term professional writing to refer broadly to the kinds of literate activities taken up by well-educated individuals whose work is creative, intellectually challenging, and ethically grounded. Core courses in the program are designed to prepare students as effective writers for any context in which writing is a key competency. Because nearly all professional writing today takes place in digital environments, digital writing is central to the program core and an element of many electives.

The breadth of choices within the Minor in Professional Writing makes it an excellent complement to any major and a fine choice for students pursuing graduate school in any discipline, including law. The Professional Writing Minor allows a wide range of choices: you may take courses in which your own writing—in various genres and contexts—is the focus, or you may study theories of language, rhetoric (how to make effective choices as writers), and discourse (the way writing structures human activity) to develop an understanding of the role of the individual writer within communities of writers.

The program comprises two required core courses and sixteen hours of electives, which may be chosen from among all of the department's undergraduate offerings numbered 205 and 207-399.

Course Requirements

- WRD 201 DIGITAL WRITING
- WRD 206 PROFESSIONAL WRITING
- Sixteen additional credit hours from WRD courses numbered 203-205 and 207-399

Students majoring in Writing, Rhetoric and Discourse (BA) are restricted from earning this minor.
Psychology (BA)

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

The primary means of attaining our mission is classroom instruction. We offer courses across a wide range of disciplines within psychology; some of our courses also include laboratories that focus on experimental and statistical work. Some of these courses are beginning to be offered as fully online and as hybrid courses (partially online and partially in the classroom). Further learning opportunities are made available through field work, the Honors Program, Experiential Learning, Independent Study, and Internships. Our Internship Program consists of supervised work placements for which students earn academic credit; potential sites include human service organizations as well as community and industrial settings.

Bachelor of Arts Psychology majors must select one of the six B.A. concentrations: Standard, Human Development, Human Services, Industrial/Organizational, Community, or Comprehensive Evening Program. Students are limited to only declaring one concentration.

There is an option to complete the BA in Psychology online, with no face-to-face classes on DePaul Campuses (see "Special Programs" for prerequisites). Students who qualify and wish to pursue the BA in Psychology online may complete either the Standard or Human Development concentrations.

After completing any of the concentrations, a psychology major should be able to understand key concepts, principles, and overarching themes in psychology, read and understand behavioral science data, design and conduct rudimentary psychological research studies, and apply research findings to everyday situations. These skills are applicable to a wide variety of occupations and professions. Psychology as a major provides excellent opportunities for students planning to go to graduate or professional school. Psychology as a minor provides a flexible complement to other majors.

**Learning Outcomes**

Students will be able to:

- Describe key concepts, principles, themes, and applications across a variety of content domains in psychology.
- Use scientific reasoning and critical thinking to interpret psychological phenomena.
- Design, conduct, and interpret, basic psychological research, accounting for sociocultural factors (where relevant).
- Apply ethical standards to evaluate psychological science and practice.
- Write a paper applying a cogent scientific argument that includes:
  - Presenting information using a scientific approach
  - Discussing psychological concepts
  - Explaining the ideas of others
  - Expressing their own ideas with clarity.
- Work effectively in groups and exhibit teamwork skills.
- Identify meaningful professional career choices and post-graduation plans prior to graduation.
College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR
Writing
- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy
- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
(Note: See information below)

Sophomore Year

Multiculturalism in the US
- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning
- Required

Senior Year

Capstone
- PSY 361 HISTORY AND SYSTEMS OF PSYCHOLOGY [See Note Below] *

Learning Domains

Arts and Literature (AL)
- 3 Courses Required

Philosophical Inquiry (PI)
- 2 Courses Required

Scientific Inquiry (SI)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)
- 1 Course Required

Religious Dimensions (RD)
- 2 Courses Required

Understanding the Past (UP)
- 2 Courses Required

* Students must earn a C- or better in this course.

Notes
Students with a primary major in Psychology are required to complete the Capstone offered by the Psychology department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Psychology are required to complete the Capstone offered by the Psychology department. Psychology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

The program consists of the common core plus eight additional courses in a concentration area. Bachelor of Arts students are required to take fourteen general electives which may be psychology and/or other department courses. Students may choose to complete a minor or double-major. Bachelor of Arts students must fulfill the Modern Language requirement.

Common Core

- PSY 105 INTRODUCTORY PSYCHOLOGY I
- PSY 106 INTRODUCTORY PSYCHOLOGY II
- PSY 240 STATISTICS I
- PSY 241 RESEARCH METHODS I
- PSY 242 RESEARCH METHODS II
- PSY 361 HISTORY AND SYSTEMS OF PSYCHOLOGY (Liberal Studies Program Capstone*)

*University Honors students are not required to complete the capstone in PSY, however it is recommended as a psychology elective for them.

Upon faculty approval psychology majors may register for the following psychology course PSY 390 INDEPENDENT RESEARCH IN PSYCHOLOGY, PSY 396 HONORS IN PSYCHOLOGY, PSY 397 EXPERIENTIAL LEARNING/PSYCHOLOGY RESEARCH, PSY 398 TUTORING AND MENTORING IN PSYCHOLOGY, and PSY 399 INDEPENDENT STUDY.

PSY 105 and PSY 106 are not sequential, i.e., one is not a prerequisite for the other. They may be taken in either order.

For the research sequence, PSY 240 STATISTICS I must be taken first; PSY 241 and PSY 242 may be taken in either order. A special note: PSY 340 STATISTICS II, an elective course, may be taken immediately after the completion of PSY 240 STATISTICS I.

Concentration Requirements

Students must complete the requirements from one of the following concentrations: Standard; Human Development; Human Services; Industrial/Organizational; Community; or Comprehensive Evening Program. Students are limited to only declaring one concentration.
Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Community
- Comprehensive Evening Program
- Human Development
- Human Services
- Industrial/Organizational Psychology
- Standard

Standard Concentration

Course Requirements

- One course from the following list:
  - PSY 340 STATISTICS II
  - PSY 342 RESEARCH METHODS III
  - PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT
- PSY 347 SOCIAL PSYCHOLOGY
- PSY 351 THEORIES OF PERSONALITY
- PSY 360 THEORIES OF LEARNING AND COGNITION
- PSY 377 PHYSIOLOGICAL PSYCHOLOGY
- Four additional Psychology courses. Psychology courses must be numbered PSY 317 and above to count toward major field.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Industrial/Organizational Psychology Concentration

Course Requirements

- PSY 380 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
- Two courses from the following list:
  - PSY 355 GROUPS AND ORGANIZATIONS
  - PSY 381 PERSONNEL PSYCHOLOGY
  - PSY 382 ORGANIZATIONAL BEHAVIOR
  - PSY 385 TRAINING AND DEVELOPMENT IN ORGANIZATIONS
  - PSY 388 TOPICAL SEMINAR IN INDUSTRIAL - ORGANIZATIONAL PSYCHOLOGY
- PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT
- or PSY 340 STATISTICS II
- Four additional Psychology courses. Psychology courses must be numbered PSY 317 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIP and above to count toward major field.
Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Human Services Concentration

Course Requirements
- PSY 333 CHILD PSYCHOLOGY
- PSY 347 SOCIAL PSYCHOLOGY
- PSY 353 ABNORMAL PSYCHOLOGY
- PSY 357 APPLIED PSYCHOLOGY I (winter quarter/junior year)
- PSY 358 APPLIED PSYCHOLOGY II (spring quarter/junior year)
- PSY 395 FIELD WORK/INTERNSHIP, taken three times in the student's senior year

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Human Development Concentration

Course Requirements
- PSY 333 CHILD PSYCHOLOGY
- PSY 334 ADOLESCENT PSYCHOLOGY
- PSY 347 SOCIAL PSYCHOLOGY
- Five additional Psychology courses. Psychology courses must be numbered PSY 317 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIP and above to count toward major field.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Comprehensive Evening Program

Course Requirements
- Two courses from the following list:
PSY 355 GROUPS AND ORGANIZATIONS
PSY 380 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
PSY 381 PERSONNEL PSYCHOLOGY
PSY 382 ORGANIZATIONAL BEHAVIOR
PSY 385 TRAINING AND DEVELOPMENT IN ORGANIZATIONS

Two courses from the following list:
- PSY 302 PERSONAL ADJUSTMENT AND MENTAL HEALTH
- PSY 351 THEORIES OF PERSONALITY
- PSY 353 ABNORMAL PSYCHOLOGY

Two courses from the following list:
- PSY 303 HUMAN DEVELOPMENT
- PSY 347 SOCIAL PSYCHOLOGY
- PSY 360 THEORIES OF LEARNING AND COGNITION

Two electives from the remaining above courses

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Community Concentration

Course Requirements

- PSY 354 COMMUNITY PSYCHOLOGY (take prior to PSY 356)
- PSY 356 PRINCIPLES OF FIELD RESEARCH AND ACTION (spring/junior year)
- PSY 359 FIELD WORK IN COMMUNITY RESEARCH AND ACTION (taken twice: autumn/senior year and winter/senior year)

There are general areas that community psychology covers: social bases of behavior, social justice, diversity, human development, and public policy. We encourage you to keep these in mind when selecting the final four electives. Make sure to reach out to your advisor as soon as possible to help you plan your curriculum.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The Psychology (BA) offers several options:

- Psychology (BA) Industrial and Organizational concentration only/ Psychology (MS) Industrial and Organizational
- Psychology (BA)/Secondary Education Social Science (MEd) - contact College of Education for more information about TEACH program.
- Psychology (BA)/Communication and Media (MA) - contact College of Communication for more information.
Psychology (BA) Industrial and Organizational concentration/ Psychology (MS) Industrial and Organizational

This program was designed and approved by DePaul University in the late 1980's as a way to give qualified DePaul undergraduates the opportunity to earn both a BA and an MS degree in the field of Industrial and Organizational Psychology. Only students who are pursuing an undergraduate degree at DePaul are eligible to apply for this program. The program leads to a terminal MS degree, and should not be seen as an intermediate step towards a doctoral degree. Students who are interested in pursuing a PhD should speak to their advisor regarding the best way to prepare for such a program.

The combined program requires completion of 39 four-credit courses (156 credit hours) by the end of the student's junior year. Note that this requirement is three courses higher than the typical 36 that a student would earn by taking four classes per quarter.

The undergraduate component of this program includes the following:

- All Liberal Studies or Honors Program requirements
- Five Psychology core courses:
  - PSY 105 INTRODUCTORY PSYCHOLOGY I
  - PSY 106 INTRODUCTORY PSYCHOLOGY II
  - PSY 240 STATISTICS I
  - PSY 241 RESEARCH METHODS I
  - PSY 242 RESEARCH METHODS II
- PSY 380 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
- PSY 340 STATISTICS II
  or PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT
- Three additional psychology elective courses. Students are strongly encouraged to choose these courses from the following:
  - PSY 347 SOCIAL PSYCHOLOGY
  - PSY 351 THEORIES OF PERSONALITY
  - PSY 360 THEORIES OF LEARNING AND COGNITION
  - PSY 340 STATISTICS II
  or PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT (whichever course was not already taken)
- General elective courses to reach a total of 156 credits

Students should work with their I/O advisor or I/O Program Director beginning as early as possible, ideally no later than their sophomore year. Applications for the combined program are due by June 1 of their junior year, and they can be found on the CSH Office of Advising and Student Services website. At the time of application, the student should have completed the undergraduate requirements with a grade point average of 3.2 or higher; a strong GPA of at least 3.5 is preferred. Supplemental application forms can be obtained from the I/O Program Director, and they must be submitted to the I/O Program Director together with the student's Unofficial Transcript from DePaul, statement of goals, and General Graduate Record Examination (GRE) scores.

Applications will be evaluated by DePaul's Office of Graduate Admission and the Department of Psychology's I/O Admissions Committee. Typically, applicants are informed of the admission decision by mid-June of the same year.

Students accepted into the graduate portion of the program take three courses per quarter during year four and an additional three courses per quarter during year five. The requirement of nine classes during year five cannot be reduced by taking additional classes during year four, and given the demands of graduate-level coursework, students are strongly discouraged from attempting to take more than three classes at a time. The nine courses taken during year four carry 36 credit hours; these 36 credit hours are added to the completed 156 credit hours to produce 192 credit hours, which meets the minimum requirement for conferral of the BA degree.

The MS degree requires an additional 36 credit hours of graduate coursework earned after conferral of the BA. The required 18 courses taken during years four and five include the following courses:

Statistics and Methodology

- PSY 410 ADVANCED STATISTICS I
- PSY 411 ADVANCED STATISTICS II
- Choose one of the following courses:
Psychology Core

- Choose one of the following cognitive psychology courses:
  - PSY 404 PERCEPTION AND COGNITION
  - PSY 426 LANGUAGE AND COGNITION
  - PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION- MAKING
- Choose one of the following social psychology courses:
  - PSY 430 SOCIAL PSYCHOLOGY OF THE SELF
  - PSY 556 INTERGROUP RELATIONS AND PERCEPTIONS
  - PSY 435 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIPS

Industrial/ Organizational Psychology

- Choose one of the following courses:
  - PSY 440 PSYCHOLOGY OF WORK AND MOTIVATION
  - PSY 441 PSYCHOLOGY OF LEADERSHIP
- Choose one of the following courses:
  - PSY 442 PERSONNEL PSYCHOLOGY
  - PSY 444 PERFORMANCE APPRAISAL
- Choose one of the following courses:
  - PSY 445 ADVANCED TRAINING AND DEVELOPMENT IN ORGANIZATIONS
  - PSY 446 PSYCHOLOGICAL THEORIES OF ORGANIZATIONS
  - PSY 447 ORGANIZATIONAL CONSULTATION
  - PSY 448 CONCEPTS, METHODS, AND ETHICS FOR INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY
- Choose one of the following courses:
  - PSY 440 PSYCHOLOGY OF WORK AND MOTIVATION
  - PSY 441 PSYCHOLOGY OF LEADERSHIP
  - PSY 442 PERSONNEL PSYCHOLOGY
  - PSY 444 PERFORMANCE APPRAISAL
  - PSY 445 ADVANCED TRAINING AND DEVELOPMENT IN ORGANIZATIONS
  - PSY 446 PSYCHOLOGICAL THEORIES OF ORGANIZATIONS
  - PSY 559 SEMINAR IN INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY

Research

- PSY 597 MASTER'S THESIS RESEARCH

Elective Courses

- Six additional four-credit courses (24 total credit hours).

In addition to enrolling in four credit hours of PSY 597 Master's Thesis Research, students are required to complete a master's thesis to confer the MS degree. The thesis is a project that allows the student to focus on a particular area of interest within the I/O field. There are three options available for the MS thesis:

1. An empirical research project, involving the collection and analysis of data and the writing of the thesis paper in APA style.
2. A library research paper, where the student reviews work already done on a topic, and writes a paper describing and summarizing that work and making recommendations for theory, research or practice.
3. An applied thesis, based on work the student is doing at an internship site.

After choosing one of the above options, the student is required to form a thesis committee consisting of a DePaul I/O faculty member who will serve as the committee chair, and a DePaul Psychology faculty member who will serve as a reader; both faculty must hold doctoral degrees. The thesis committee must approve of the
student's thesis proposal, which may also need to be approved by the Institutional Review Board before the student may begin work.

Students in the combined program are not required to have a minor area of graduate study. However, the areas of specialization listed for the MA/PhD program are also available to students in the combined program, should they choose to select one.

Students in this program may apply a maximum of twelve graduate credit hours as three courses in their senior year toward both the undergraduate and graduate psychology requirements. The required application for degree conferral for the MS is separate from the required application for degree conferral for the BA. Students must apply for undergraduate degree conferral in anticipation of completing their fourth year of study.

Psychology (BS)

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

The primary means of attaining our mission is classroom instruction. We offer courses across a wide range of disciplines within psychology; some of our courses also include laboratories that focus on experimental and statistical work. Some of these courses are beginning to be offered as fully online and as hybrid courses (partially online and partially in the classroom). Further learning opportunities are made available through field work, the Honors Program, Experiential Learning, Independent Study, and Internships. Our Internship Program consists of supervised work placements for which students earn academic credit; potential sites include human service organizations as well as community and industrial settings.

Bachelor of Science Psychology majors must select one of the two Bachelor of Science concentrations: General Bachelor of Science or Cognitive Neuroscience. Students are limited to only declaring one concentration.

After completing any of the concentrations, a psychology major should understand key concepts, principles, and overarching themes in psychology and be able to read and understand behavioral science data, design and conduct rudimentary psychological research studies, and apply research findings to everyday situations. These skills are applicable to a wide variety of occupations and professions. Psychology as a major provides excellent opportunities for students planning to go to graduate or professional school. Psychology as a minor provides a flexible complement to other majors.

Learning Outcomes

Students will be able to:

- Describe key concepts, principles, themes, and applications across a variety of content domains in psychology.
- Use scientific reasoning and critical thinking to interpret psychological phenomena.
- Design, conduct, and interpret, basic psychological research, accounting for sociocultural factors (where relevant).
- Apply ethical standards to evaluate psychological science and practice.
- Write a paper applying a cogent scientific argument that includes:
College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (B.A.) Degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (B.S.) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- PSY 361 HISTORY AND SYSTEMS OF PSYCHOLOGY [See Note Below] *

Learning Domains

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)
Major Requirements

Course Requirements

Common Core

- PSY 105 INTRODUCTORY PSYCHOLOGY I
- PSY 106 INTRODUCTORY PSYCHOLOGY II
- PSY 240 STATISTICS I
- PSY 241 RESEARCH METHODS I
- PSY 242 RESEARCH METHODS II
- PSY 361 HISTORY AND SYSTEMS OF PSYCHOLOGY (Liberal Studies Program Capstone*)

*University Honors students are not required to complete the capstone in PSY, however it is recommended as an open elective for them.

PSY 105 and PSY 106 are not sequential, i.e., one is not a prerequisite for the other. They may be taken in either order. For the research sequence, PSY 240 STATISTICS I must be taken first; PSY 241 RESEARCH METHODS I and PSY 242 RESEARCH METHODS II may be taken in either order. A special note: PSY 340
STATISTICS II, an elective course, may be taken immediately after the completion of PSY 240 STATISTICS I.

**Concentration Requirements**

Students must complete the requirements for one of the following two concentrations: General or Cognitive Neuroscience. Students are limited to only declaring one concentration.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- General
- Cognitive Neuroscience

**General Concentration**

**Course Requirements**

**Psychology**

- PSY 340 STATISTICS II (this course may be taken immediately after the completion of PSY 240 STATISTICS I)
- PSY 342 RESEARCH METHODS III
- PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT
- PSY 360 THEORIES OF LEARNING AND COGNITION
- PSY 377 PHYSIOLOGICAL PSYCHOLOGY
- Three additional major-level psychology courses numbered PSY 317 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIP and above
- Twenty quarter hours in major-level biology and/or mathematics are required. This requirement is to be developed in consultation with the departmental advisor.
- Nine general (open) electives

Note: An exceptional student who has completed the required courses in Psychological Science may, upon consent of his advisor and the chair, be admitted in the senior year to certain 400-level courses described in the Graduate Catalog for Psychology. Any 400-level courses will only apply toward the B.S. degree.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

The student is urged to devote some general elective hours to courses in disciplines other than his/her major.

Note: MAT 130 PRECALCULUS is a prerequisite for major level BIO and MAT courses.

In addition, all psychology majors are encouraged to engage in individual research projects with the supervision of faculty. Upon faculty approval psychology majors may register for the following psychology courses: PSY 390 INDEPENDENT RESEARCH IN PSYCHOLOGY, PSY 396 HONORS IN PSYCHOLOGY, PSY 397 EXPERIENTIAL LEARNING/PSYCHOLOGY RESEARCH, PSY 398 TUTORING AND MENTORING IN
Cognitive Neuroscience Concentration

Course Requirements

Psychology

- PSY 340 STATISTICS II (this course may be taken immediately after the completion of PSY 240 STATISTICS I)
- PSY 342 RESEARCH METHODS III
- PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT
- PSY 360 THEORIES OF LEARNING AND COGNITION
- PSY 377 PHYSIOLOGICAL PSYCHOLOGY
- Three additional psychology electives from the following list:
  - PSY 348 SOCIAL COGNITION
  - PSY 353 ABNORMAL PSYCHOLOGY
  - PSY 363 ALCOHOLISM, DRUG ADDICTION AND RECOVERY
  - PSY 364 HEALTH PSYCHOLOGY
  - PSY 373 HAPPINESS, JUDGMENT AND DECISION MAKING
- BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS
- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS (required for higher level BIO).
- Three additional major level BIO courses chosen in consultation with faculty advisor.
- Eight general (open) electives

* PSY 377 is a prerequisite to some BIO courses so it is recommended that this course be taken after the completion of the PSY core. MAT 130 is a prerequisite for BIO 191.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Psychology (BS)/Secondary Education Social Science (MEd)

A full description of the Program can be found on the College of Education website in the graduate course catalog. Contact the College of Education for more information about the TEACH Program.
**Applied Psychology (Minor)**

The Applied Psychology minor allows you to study the application of psychological theories and research to fields that integrate applied psychological perspectives including health care, education, community outreach, and sports.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Students cannot earn a minor in the same academic program as their major.

Six psychology courses are required, including:

- PSY 105 INTRODUCTORY PSYCHOLOGY I
- PSY 106 INTRODUCTORY PSYCHOLOGY II
- PSY 353 ABNORMAL PSYCHOLOGY
- PSY 354 COMMUNITY PSYCHOLOGY
- 2 Additional Psychology courses (Recommended List):
  - PSY 317 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIP
  - PSY 333 CHILD PSYCHOLOGY
  - PSY 334 ADOLESCENT PSYCHOLOGY
  - PSY 345 CULTURAL ISSUES IN PSYCHOLOGY
  - PSY 363 ALCOHOLISM, DRUG ADDICTION AND RECOVERY
  - PSY 366 BEHAVIOR PROBLEMS OF CHILDREN
  - PSY 367 PSYCHOLOGY OF EXCEPTIONAL CHILDREN

**Fundamentals of Psychology (Minor)**

The Fundamentals of Psychology minor will give you a foundation in the major topic areas in psychology. This minor is good for people who want to round out their current major with core courses in psychology or think they might want to pursue a psychology oriented major in graduate school (e.g., social work).

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Students cannot earn a minor in the same academic program as their major.

Six psychology courses are required, including:

- PSY 105 INTRODUCTORY PSYCHOLOGY I
- PSY 106 INTRODUCTORY PSYCHOLOGY II
- Two from approved list:
  - PSY 333 CHILD PSYCHOLOGY
  - PSY 334 ADOLESCENT PSYCHOLOGY
  - PSY 347 SOCIAL PSYCHOLOGY
  - PSY 351 THEORIES OF PERSONALITY
  - PSY 360 THEORIES OF LEARNING AND COGNITION
  - PSY 361 HISTORY AND SYSTEMS OF PSYCHOLOGY
  - PSY 373 HAPPINESS, JUDGMENT AND DECISION MAKING
- Any two additional psychology courses. It is recommended that they be from the above list, but it is not required.
General Psychology (Minor)

The General Psychology minor enables students to select courses in psychology tailored to their particular interests or career goals. This minor allows students maximum flexibility to complement a variety of majors and areas of interest.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Students cannot earn a minor in the same academic program as their major.

Six psychology courses are required, including:

- PSY 105 INTRODUCTORY PSYCHOLOGY I
- PSY 106 INTRODUCTORY PSYCHOLOGY II
- Four psychology classes, at least two of which must be numbered PSY 317 PSYCHOLOGY OF INTERPERSONAL RELATIONSHIP and above.

Industrial/Organizational Psychology (Minor)

The Industrial Organizational Psychology minor allows you to explore the behaviors that contribute to a successful or problematic work environment. This minor complements a major course of study tied closely with businesses.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Students cannot earn a minor in the same academic program as their major.

Six psychology courses are required, including:

- PSY 105 INTRODUCTORY PSYCHOLOGY I
- PSY 106 INTRODUCTORY PSYCHOLOGY II
- PSY 380 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY - Offered at least twice a year.
- At least one from the I/O approved list:
  - PSY 355 GROUPS AND ORGANIZATIONS
  - PSY 381 PERSONNEL PSYCHOLOGY
  - PSY 382 ORGANIZATIONAL BEHAVIOR
  - PSY 385 TRAINING AND DEVELOPMENT IN ORGANIZATIONS
  - PSY 388 TOPICAL SEMINAR IN INDUSTRIAL - ORGANIZATIONAL PSYCHOLOGY
- Any two additional psychology courses. It is recommended that they be from the above list, but it is not required.
Psychological Research Methods (Minor)

The Psychological Research Methods minor allows students to obtain basic training in statistics and research methods, which can be useful in careers or graduate programs that might have a research or data analysis component.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Students cannot earn a minor in the same academic program as their major.

Six psychology courses are required, including:

- PSY 105 INTRODUCTORY PSYCHOLOGY I
- PSY 106 INTRODUCTORY PSYCHOLOGY II
- PSY 240 STATISTICS I
- At least one from the approved list:
  - PSY 241 RESEARCH METHODS I
  - PSY 242 RESEARCH METHODS II
  - PSY 340 STATISTICS II
  - PSY 342 RESEARCH METHODS III
  - PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT
- Any two additional psychology courses. It is recommended that they be from the above list, but it is not required.

Public Health Studies (Minor)

As a Public Health Studies minor students will take a series of interdisciplinary courses that provide a strong foundation in the core competences of the science and practice of public (population-based) health.

Course Requirements

- HLTH 201 INTRODUCTION TO HEALTH SCIENCE
- HLTH 202 HEALTH RESEARCH LITERACY
- HLTH 210 INTRODUCTION TO PUBLIC HEALTH
- Choose three from the following list. Please note: At least one from the list must be a HLTH course.
  - HLTH 229 ETHICS FOR HEALTH SCIENCES
  - HLTH 230 FUNDAMENTALS OF HEALTH EDUCATION
  - HLTH 236 GAY MEN'S HEALTH MATTERS
  - HLTH 250 HEALTH CARE POLICY IN THE UNITED STATES
  - HLTH 310 FUNDAMENTALS OF EPIDEMIOLOGY
  - HLTH 329 MEDICAL HUMANITIES
  - HLTH 330 HEALTH LEADERSHIP
  - HLTH 380 TOPICS IN HEALTH SCIENCES
  - SOC 221 INTRODUCTION TO THE U.S HEALTH CARE SYSTEM
  - SOC 351 HEALTH DISPARITIES
  - SOC 365 HEALTH AND GLOBALIZATION
  - CMNS 315 HEALTH COMMUNICATION
  - ANT 272 INTRODUCTION TO MEDICAL ANTHROPOLOGY

Students cannot earn a minor in the same academic program as their major.
Public Law and Political Thought (Minor)

This minor provides the non-major with an introduction to the study of law and its foundation in political thought.

Course Requirements

- PSC 260 LAW AND THE POLITICAL SYSTEM
- One course from the following list:
  - PSC 261 FIRST AMENDMENT RIGHTS
  - PSC 262 RIGHTS OF DEFENDANTS
  - PSC 263 EQUAL PROTECTION OF THE LAWS
- Two courses from the following list:
  - PSC 230 CLASSICAL POLITICAL THOUGHT
  - PSC 231 MODERN POLITICAL THOUGHT
  - PSC 232 LIBERALISM, CONSERVATISM, AND DEMOCRACY
  - PSC 233 POLITICAL IDEAS AND IDEOLOGIES
  - PSC 234 FREEDOM AND EMPOWERMENT
  - PSC 235 EQUALITY AND SOCIAL JUSTICE
  - PSC 236 LEGITIMACY AND CRISIS
  - PSC 239 TOPICS IN POLITICAL THOUGHT
  - PSC 265 LAW AND POPULAR CULTURE
  - PSC 269 TOPICS IN PUBLIC LAW
- One course from the following list:
  - PSC 330 AMERICAN POLITICAL THOUGHT
  - PSC 331 CONTEMPORARY POLITICAL THOUGHT
  - PSC 333 MARXISM
  - PSC 335 THEORIES OF THE CHURCH
  - PSC 336 AFRICAN-AMERICAN POLITICAL THOUGHT
  - PSC 337 CHRISTIAN POLITICAL THOUGHT
  - PSC 338 POLITICS AND LITERATURE
  - PSC 339 ADVANCED TOPICS IN POLITICAL THOUGHT
- One course from the following list:
  - PSC 361 INTERNATIONAL LAW
  - PSC 362 THE CRIMINAL JUSTICE SYSTEM
  - PSC 363 WOMEN AND THE LAW
  - PSC 364 COMPARATIVE PROTECTION OF INDIVIDUAL RIGHTS
  - PSC 365 VOTING, REPRESENTATION, AND THE LAW
  - PSC 366 NATIONAL SECURITY AND THE U.S. CONSTITUTION
  - PSC 367 IMMIGRATION LAW
  - PSC 368 RIGHTS-BASED SOCIAL MOVEMENTS
  - PSC 369 ADVANCED TOPICS IN PUBLIC LAW

PSC 120 THE AMERICAN POLITICAL SYSTEM, is recommended, in addition to the above courses, for students who lack a background in American politics.

Students majoring in Political Science (BA) or minoring in American Politics or International Politics are restricted from earning this minor.
Public Policy (BA)

Public Policy Studies is a discipline that explores the role and impact of decision-making by governments. The discipline includes knowledge of both process and substance of a particular policy area. Thus, a student in public policy must have both generalist and specialist skills to apply to a particular public problem. In terms of political process, the study of public policy examines questions of how public policy is formulated, implemented, and evaluated over time. It also explores notions of agenda-setting and framing of issues that lead to a problem gaining the attention of the government. Public policy specialists and analysts are hired by all levels of government. During the past several years in addition to the government sector, the nonprofit and private sectors have sought public policy analysts for employment. Therefore, the curriculum prepares students for being public policy specialists in both the private and nonprofit sectors in addition to the public sector. The curriculum also is tailored to prepare students who would like to continue their education in graduate programs or law schools. The faculty members of the department work closely with students to place them in internships, and when possible, employment positions.

The Public Policy Studies Department (PPS) offers an undergraduate degree (BA). Students take a common core of courses dealing with public policy theories, processes, methods of public policy analysis, and important environmental and urban policy issues. In addition, a data analysis course is required that the student selects from a list of approved courses. Microeconomics or statistics is strongly encouraged.

A capstone course reconvenes the students at the end of their curriculum to study a public policy problem in-depth under the direction of a public policy professor. The capstone changes approximately every three years, to reflect a current issue on the public policy agenda.

Learning Outcomes

Students will be able to:

- Identify the historical and interdisciplinary aspects of public policy.
  - Differentiate public policy problems from interdisciplinary integrative solution.
  - Recognize the complexities and dynamics of contemporary societies within the context of making policy.
- Describe how significant contextual factors such as race, gender, religion, culture, ideology, economics and politics affect policy making.
  - Describe from multiple perspectives the potential social, economic, political, and environmental consequences of such policy.
- Identify and explain the professional ethics of policy analysts and problems through a socially responsible framework.
  - Evaluate and critique decision-making processes from an ethical perspective that is relevant to changing environments resulting from technology, globalization, and other forces.
- Perform quantitative, analytical, and methodological skills to distinguish fact from fiction in issues of public policy.
  - Critique the arguments of others through identifying and organizing the constituent parts of complex ideas.
- Explain data collection methods and forms of data analysis.
  - Manipulate, compare, and critique quantitative and qualitative data to identify potential policy outcomes and impacts across multiple contexts.
- Write and speak on policy issues for purpose of drafting proposals, constructing persuasive arguments for making policy decisions, and generating potential solutions to given problems.
- Use and present graphic materials to both lay and professional audiences.
- Generate potential solutions to given problems, recognizing potential resource constraints, relevant political institutions, policy consequences, and other facts associated with these potential solutions.
College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (MLO) of the Liberal Studies Program (see "Special Programs").

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-

Arts and Literature (AL)

- 3 Courses Required

Philosophical Inquiry (PI)

- 2 Courses Required

Scientific Inquiry (SI)

- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)

- 1 Course Required

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 Courses Required

* Students must earn a C- or better in this course.

Notes

A student majoring in Public Policy Studies (PPS) is required to complete the Capstone offered by the PPS Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A PPS major in the University Honors Program shall take the University Honors Capstone and the PPS Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Major Requirements

Course Requirements

Core

- PPS 200 INTRODUCTION TO PUBLIC POLICY
Elective PPS Courses

Choose seven courses: 20 credit hours of 300 level required.

- **PPS 201 PUBLIC POLICY AND URBAN ISSUES**
- **PPS 202 PUBLIC POLICY AND ENVIRONMENTAL ISSUES**
- **PPS 250 ISSUES IN NEIGHBORHOOD DEVELOPMENT**
- **PPS 251 URBAN POVERTY**
- **PPS 253 THE CINEMATIC CITY**
- **PPS 254 SCREENING SUBURBIA**
- **PPS 255 CITIES, GLOBALIZATION AND PUBLIC POLICY**
- **PPS 260 CLIMATE CHANGE POLICY**
- **PPS 329 TOPICS IN ENVIRONMENTAL STUDIES**
- **PPS 330 SUSTAINABLE DEVELOPMENT**
- **PPS 331 ENVIRONMENTAL JUSTICE**
- **PPS 332 NATIONAL PARKS POLICY AND GOVERNANCE**
- **PPS 333 GREEN CITIES**
- **PPS 334 SUSTAINABLE LAND REVITALIZATION AND BROWNFIELD REDEVELOPMENT PROJECT**
- **PPS 350 CRITICAL ISSUES IN URBAN DEVELOPMENT**
- **PPS 351 THE POLICY AND POLITICS OF URBAN HOUSING**
- **PPS 352 ISSUES IN URBAN EDUCATIONAL POLICY**
- **PPS 353 INEQUALITY AND PUBLIC POLICY**
- **PPS 359 TOPICS IN URBAN STUDIES**
- **PPS 360 GREAT LAKES GOVERNANCE POLICY AND MANAGEMENT**
- **PPS 361 PUBLIC SPACES AND SOCIAL CONTROL**

Approved courses outside of PPS:

- **ECE 302 CHILD AND FAMILY IN THE URBAN COMMUNITY**
- **ECE 327 IMPACT OF PUBLIC POLICY ON FAMILIES OF YOUNG CHILDREN**
- **ECO 335 ENERGY AND ENVIRONMENTAL ECONOMICS**
- **ECO 359 DEVELOPMENT ECONOMICS**
- **ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES**
- **GEO 230 SUSTAINABLE URBAN TRANSPORTATION**
- **GEO 233 COMPARATIVE URBANISM**

PPS 205 PUBLIC POLICY RESEARCH METHODS
PPS 206 QUANTITATIVE PUBLIC POLICY ANALYSIS
PPS 300 APPLIED URBAN AND ENVIRONMENTAL ECONOMICS
PPS 301 PUBLIC POLICY AND THE POLITICAL PROCESS
PPS 393 CAPSTONE: GENTRIFICATION or PPS 394 CAPSTONE: GREEN INFRASTRUCTURE (PPS Capstone requirement counts toward the LSP Senior Year Capstone requirement)

One course in Economics, Statistics, or Data Analysis from the following list:
- MAT 242 ELEMENTS OF STATISTICS
- PSY 240 STATISTICS I
- SOC 279 INTRO STATS FOR THE SOCIAL SCIENCES
- ECO 105 PRINCIPLES OF MICROECONOMICS
- GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
Public Policy Studies (Minor)

The Public Policy minor is designed to help you learn the foundations of basic policy theory and research methods, as well as how to develop and analyze public policies and understand how they integrate with your major course of study.

Course Requirements

- PPS 201 PUBLIC POLICY AND URBAN ISSUES
  or PPS 202 PUBLIC POLICY AND ENVIRONMENTAL ISSUES
- PPS 206 QUANTITATIVE PUBLIC POLICY ANALYSIS
- Four additional courses from the list of courses approved for PPS which must be at the 300-level and cannot include the capstone course.

Students must meet with the PPS Department chairperson to complete a curriculum guide for completion of the minor.

Students majoring in Public Policy Studies (BA) are restricted from earning this minor.
Public Relations and Advertising (BA)

The College of Communication offers a variety of courses leading to a Bachelor of Arts degree in Public Relations and Advertising. The program examines theories and practices in the related fields of public relations and advertising, and considers advertising and public relations processes, products and effects from cultural, ethical, organizational, historical, creative and methodological perspectives. Students in Public Relations and Advertising studies learn to think critically and analytically, to develop ideas clearly, and to speak and write effectively. Within the broad context of human communication and the liberal arts, students explore the relationship of public relations and advertising activities to other aspects of human endeavor. Graduates are prepared for entry level positions within the public and private sectors, or for continuing their education in academic or professional graduate programs.

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Identify, explain and apply conceptual and historical foundations of public communication disciplines as they relate to information and persuasion theories, concepts and models.
- Construct and analyze audience research and environmental scanning.
- Apply measurement and evaluation techniques to products, projects and programs.
- Develop and demonstrate strategic plans and planning methods, issues management techniques, and message development practices in a variety of settings and applications.
- Classify and analyze the elements of ethical decision making to hypothetical and real world settings.
- Articulate the ethical, legal and social responsibilities of public communications professionals.
- Demonstrate facility with writing, speaking and production of media materials to inform, persuade and problem solve.

College Core Requirements

All majors in the College of Communication (with the exception of Public Relations and Advertising) consist of a total of fourteen courses: a four-course common core plus an additional combination of ten program requirements and electives. The Public Relations and Advertising major consists of a total of fifteen courses: a four-course common core plus an additional combination of eleven program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:

- CMN 101 INTRODUCTION TO HUMAN COMMUNICATION
- CMN 102 INTRODUCTION TO MASS COMMUNICATION
- CMN 103 INTERCULTURAL COMMUNICATION
- CMN 104 PUBLIC SPEAKING
Students are encouraged to complete all four prior to taking additional coursework in the major.

**Modern Language Requirement**

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination. (Note that CLEP scores may be used only to meet the language requirement. Credit is not awarded in modern languages on the basis of CLEP scores).

Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

**Modern Language Option**

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for two learning domain courses and one open elective. Students may use the Modern Language Option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the SWK or Lab). Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may
need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

**Major Requirements**

**Course Requirements**

In addition to the four core College of Communication courses, students take six required classes, three Public Relations and Advertising electives, and two additional electives from the College of Communication. All Public Relations and Advertising majors must complete a total of 15 classes, or 60 credit hours.

- PRAD 244 PRINCIPLES OF ADVERTISING
  or PRAD 255 PUBLIC RELATIONS
- PRAD 256 WRITING FOR PUBLIC RELATIONS AND ADVERTISING
- PRAD 291 RESEARCH METHODS FOR THE PRAD PROFESSIONAL
- PRAD 292 DESIGN APPLICATIONS FOR PRAD PROFESSIONALS
- PRAD 334 ADVERTISING AND PUBLIC RELATIONS ETHICS
  or PRAD 335 ADVERTISING AND SOCIETY
- Select one from the following:
  - PRAD 336 ADVERTISING CAMPAIGNS
  - PRAD 337 PUBLIC RELATIONS CAMPAIGNS
- Three additional courses (12 credits) from:
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS
  - PRAD 244 PRINCIPLES OF ADVERTISING
  - PRAD 255 PUBLIC RELATIONS
  - PRAD 290 PUBLIC RELATIONS AND ADVERTISING WORKSHOP (VARIABLE TOPICS) (2 cr.)
  - PRAD 320 EVENT PLANNING
  - PRAD 323 ADVERTISING SALES
  - PRAD 332 HUMOR AND ADVERTISING
  - PRAD 334 ADVERTISING AND PUBLIC RELATIONS ETHICS
  - PRAD 335 ADVERTISING AND SOCIETY
  - PRAD 336 ADVERTISING CAMPAIGNS
  - PRAD 337 PUBLIC RELATIONS CAMPAIGNS
  - PRAD 338 HEALTH AND PUBLIC RELATIONS
  - PRAD 340 CONSUMER PROMOTION
  - PRAD 350 ACCOUNT PLANNING
  - PRAD 351 COPYWRITING
  - PRAD 352 DIGITAL ADVERTISING
  - PRAD 356 ADVANCED WRITING FOR PUBLIC RELATIONS
  - PRAD 357 ADVERTISING PORTFOLIO
  - PRAD 361 ACCOUNT PLANNING AND CONSUMER INSIGHTS FOR LATINO MARKETS

  - PRAD 373 PUBLIC RELATIONS & ADVERTISING ENTREPRENEURS
  - PRAD 374 MEDIA RELATIONS
  - PRAD 375 COMMUNICATION LAW
  - PRAD 376 CRISIS COMMUNICATION MANAGEMENT
  - PRAD 377 MARKETING PUBLIC RELATIONS
  - PRAD 378 CREATIVITY IN ADVERTISING
  - PRAD 379 ADVERTISING MEDIA PLANNING
  - PRAD 380 POLITICAL COMMUNICATION
- PRAD 381 ADVERTISING AND CHILDREN
- PRAD 382 NON-PROFIT PUBLIC RELATIONS
- PRAD 383 BRANDED CONTENT
- PRAD 384 INTERNATIONAL PUBLIC RELATIONS
- PRAD 386 BATEMAN PUBLIC RELATIONS STRATEGY
- PRAD 387 BATEMAN PUBLIC RELATIONS CAMPAIGNS
- PRAD 391 SPECIAL TOPICS IN PUBLIC RELATIONS
- PRAD 392 SPECIAL TOPICS IN ADVERTISING
- PRAD 393 SPECIAL TOPICS IN PUBLIC RELATIONS AND ADVERTISING
- PRAD 398 ADVANCED SPECIAL TOPICS IN PUBLIC RELATIONS AND ADVERTISING

- Two electives (8 credits) from any College of Communication offerings

**Internship Credit**

Students in the major may take CMN 394 COMMUNICATION INTERNSHIP and/or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Combined Bachelor's/ Master's Degree**

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The following Communication graduate programs have been approved as combined degree options:

- Digital Communication and Media Arts (MA)
- Health Communication (MA)
- Journalism (MA)
- Media and Cinema Studies (MA)
- Organizational and Multicultural Communication (MA)
- Public Relations and Advertising (MA)
- Relational Communication (MA)

**Deferring Admission**

Students can defer their graduate admission for one year. If students do not matriculate after completing their B.A. degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count toward the graduate degree and students must reapply for admission to the graduate program.

**Digital Communication and Media Arts (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Digital Communication and Media Arts coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the DCMA core courses (CMNS 570 and MCS 575) and one DCMA elective course during their senior year. Students admitted to the program must earn a B or better in each of the three graduate
courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Health Communication (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, and have successfully completed three 300-level courses in their major are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Health Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take the HTHC core courses (HTHC 515, HTHC 516, HTHC 517) during the senior year. Students admitted to the program must earn a B or better in each of the three undergraduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Journalism (MA)**

Students with junior status who have earned a 3.25 GPA in their major courses and 3.0 cumulative GPA are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample or project that demonstrates the applicant's ability in journalism, and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Journalism coursework which will fulfill undergraduate Journalism major electives, communication electives and/or open electives. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirements, they will not be allowed to continue as a graduate student in the program.

**Media and Cinema Studies (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Media and Cinema Studies coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the MCS core courses (MCS 501, MCS 502, MCS 504) and one MCS elective during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

**Organizational and Multicultural Communication (MA)**

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, and have successfully completed three 300-level Communication courses are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, CMNS 501, CMNS 541, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.
Public Relations and Advertising (MA)

Students with junior status who have earned a 3.25 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, have successfully completed three 300-level Communication courses, and are currently holding one or more PRAD internships or jobs are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), one letter of recommendation from a PRAD professor, and one letter of recommendation from a supervisor at a PRAD-related internship or job.

During their senior year students complete 12 graduate credit hours of Public Relations and Advertising coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take three core courses during their senior year (examples: PRAD 553, PRAD 555, PRAD 575, and PRAD 585). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Relational Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Relational Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, RELC 500*, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

* For BA/MA students who are completing their BA in Relational Communication and seeking an MA in Relational Communication, the core course requirement of RELC 500 – Theories of Relational Communication will be waived. Students waived from having to take RELC 500 will replace the course with an additional graduate RELC elective course (still completing the required total of 48-credit hours).

Public Relations and Advertising (Minor)

Students pursuing a Public Relations and Advertising minor develop an understanding of public relations and advertising theories and practices. Additionally, students learn to consider public relations and advertising processes, products and effects from multiple perspectives, while strengthening critical thinking, writing, and speaking skills.

Course Requirements

A minor in Public Relations and Advertising requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

- Three required courses:
  - PRAD 244 PRINCIPLES OF ADVERTISING
  - PRAD 255 PUBLIC RELATIONS
  - PRAD 256 WRITING FOR PUBLIC RELATIONS AND ADVERTISING
  - PRAD 291 RESEARCH METHODS FOR THE PRAD PROFESSIONAL
Choose three of the following (12 credits):

- PRAD 290 PUBLIC RELATIONS AND ADVERTISING WORKSHOP (VARIABLE TOPICS) (2 cr.)
- PRAD 292 DESIGN APPLICATIONS FOR PRAD PROFESSIONALS
- PRAD 320 EVENT PLANNING
- PRAD 334 ADVERTISING AND PUBLIC RELATIONS ETHICS
- PRAD 335 ADVERTISING AND SOCIETY
- PRAD 336 ADVERTISING CAMPAIGNS
- PRAD 337 PUBLIC RELATIONS CAMPAIGNS
- PRAD 338 HEALTH AND PUBLIC RELATIONS
- PRAD 340 CONSUMER PROMOTION
- PRAD 350 ACCOUNT PLANNING
- PRAD 351 COPYWRITING
- PRAD 352 DIGITAL ADVERTISING
- PRAD 356 ADVANCED WRITING FOR PUBLIC RELATIONS
- PRAD 357 ADVERTISING PORTFOLIO
- PRAD 361 ACCOUNT PLANNING AND CONSUMER INSIGHTS FOR LATINO MARKETS
- PRAD 362 LATINO INTEGRATED MARKETING COMMUNICATION
- PRAD 373 PUBLIC RELATIONS & ADVERTISING ENTREPRENEURS
- PRAD 375 COMMUNICATION LAW
- PRAD 376 CRISIS COMMUNICATION MANAGEMENT
- PRAD 377 MARKETING PUBLIC RELATIONS
- PRAD 378 CREATIVITY IN ADVERTISING
- PRAD 379 ADVERTISING MEDIA PLANNING
- PRAD 380 POLITICAL COMMUNICATION
- PRAD 381 ADVERTISING AND CHILDREN
- PRAD 382 NON-PROFIT PUBLIC RELATIONS
- PRAD 386 BATEMAN PUBLIC RELATIONS STRATEGY
- PRAD 387 BATEMAN PUBLIC RELATIONS CAMPAIGNS
- PRAD 391 SPECIAL TOPICS IN PUBLIC RELATIONS
- PRAD 392 SPECIAL TOPICS IN ADVERTISING
- PRAD 393 SPECIAL TOPICS IN PUBLIC RELATIONS AND ADVERTISING
- PRAD 398 ADVANCED SPECIAL TOPICS IN PUBLIC RELATIONS AND ADVERTISING
- CMN 394 COMMUNICATION INTERNSHIP
- CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS

Students majoring in Public Relations and Advertising are restricted from earning this minor.

Radio, TV, and New Media (Minor)

The Radio, TV, and New Media minor is designed for students interested in the historical and cultural impact of mass media on our modern, global society. Students may focus on a specific subject area to complement their individual study plan.

Course Requirements

A minor in Radio, TV, and New Media requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

- MCS 271 MEDIA AND CULTURAL STUDIES
- MCS 342 HISTORY OF TELEVISION & RADIO
- Three History/Criticism courses from the following
  - MCS 231 INTRODUCTION TO DOCUMENTARY STUDIES
  - MCS 331 TOPICS IN DOCUMENTARY STUDIES
  - MCS 341 TOPICS IN RADIO STUDIES
  - MCS 343 MEDIA ETHICS
  - MCS 351 TOPICS IN TELEVISION STUDIES
  - MCS 352 TOPICS IN NEW MEDIA
  - MCS 361 FANDOM & PARTICIPATORY CULTURE
  - MCS 364 MONSTERS IN POPULAR CULTURE
Real Estate (BSB)

The undergraduate division of the Department of Real Estate provides a curriculum which enables all students in the Driehaus College of Business to work and excel in the real estate community at the local and national levels, and to adapt to future changes in the industry. It provides a strong foundation for students with career goals in real estate as the demand for qualified professionals in all areas of the industry continues to escalate with changing economic factors that drive the real estate market. Competence in real estate today, and the future, requires an understanding of a wide variety of professional disciplines and their interactions. As a result, the program reaches across academic boundaries of departments and colleges to provide a truly interdisciplinary degree housed within the college. The DePaul real estate major requires finance and real estate law courses, and provides choices in economics, architecture history, public service management, geography, sociology, history and anthropology.

Students who complete the program will:

- Develop a comprehensive body of knowledge that will strengthen financial and analytical skills, including risk analysis, portfolio construction and management, cash flow analysis, and investment strategy
- Understand the organizational structure of financial institutions and the impact of capital markets on real estate
- Understand the basic laws and regulations governing land use and real estate decisions
- Be able to clearly articulate a site development strategy to all parties and agencies
- Understand the historical development of real estate and its impact on present and future development patterns
- Understand how architectural and urban history provide insights into real estate analysis and valuation

Employment opportunities exist everywhere across the spectrum: ownership, brokerage, appraisal, design, insurance, inspection, leasing, management, and construction are a few. Property sectors include office, industrial, multi-family, retail, and hospitality and entertainment. Expanding the definition of real estate to consider the financial services side of real estate yields an additional list of career opportunities (mortgage lenders, mortgage brokers, underwriters, services, researchers, and others). The Real Estate Center assists students in finding employment in many of these diverse areas and industries in the associated supporting
Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Evaluate direct real estate investment-debt and equity.
- Evaluate real estate securities-debt and equity.

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, mathematics, economics, business law, finance, management, management information systems, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

- ACC 101 INTRODUCTION TO ACCOUNTING I
- ACC 102 INTRODUCTION TO ACCOUNTING II
- BLW 201 LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
- ECO 105 PRINCIPLES OF MICROECONOMICS
- ECO 106 PRINCIPLES OF MACROECONOMICS
- ECO 315 INTRODUCTION TO MONEY AND BANKING
- FIN 310 INTRODUCTION TO FINANCE
- MAT 136 BUSINESS CALCULUS II
- MGT 300 PRINCIPLES OF MANAGEMENT
- MGT 301 PRINCIPLES OF OPERATIONS MANAGEMENT
- MIS 140 MANAGEMENT INFORMATION SYSTEMS
- MKT 301 PRINCIPLES OF MARKETING
- MKT 310 CONSUMER BEHAVIOR
• One Business Capstone course to be chosen from:
  o ICS 394 ENTREPRENEURSHIP STRATEGY
  o ICS 395 MANAGEMENT STRATEGY
• One Communication course to be chosen from:
  o MKT 376 EFFECTIVE BUSINESS COMMUNICATION
  o ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
• Global Business Perspective (4.0 hours) to be chosen from:
  o ECO 316 EUROPEAN ECONOMIC HISTORY
  o ECO 333 TOPICS IN GLOBAL ECONOMIES
  o ECO 334 UNDERSTANDING CHINA'S ECONOMY
  o ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
  o ECO 361 INTERNATIONAL TRADE
  o ECO 362 INTERNATIONAL MONETARY ECONOMICS
  o ECO 363 ECONOMICS OF THE EUROPEAN UNION
  o FIN 340 INTERNATIONAL FINANCE
  o FIN 394 APPLIED INTERNATIONAL PORTFOLIO MANAGEMENT (2.0 hours)
  o ICS 350 INTERNATIONAL BUSINESS SEMINAR
  o MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
  o MGT 357 INTERNATIONAL BUSINESS
  o MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
  o MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
  o MKT 360 INTERNATIONAL MARKETING
  o A course taken as part of a term-long study abroad program
• One Professional Writing course to be chosen from:
  o WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 hours)
  o WRD 204 TECHNICAL WRITING
  o WRD 206 PROFESSIONAL WRITING

*MGT 301-H is required if pursuing the Management Honors Program.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements

• A student is expected to complete the business math sequence (MAT 135, MAT 136, and MAT 137) in the first year of study
• MAT 135 and MAT 137 are completed through Liberal Studies requirements
• MAT 135 may be replaced by MAT 150 or MAT 160 or MAT 170
• MAT 136 may be replaced by MAT 151 or MAT 161 or MAT 171
• MAT 135 and MAT 136 may be replaced by the sequence of MAT 147, MAT 148, and MAT 149
• MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan

Grade Minimums for Real Estate Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, MAT 137, and the course used for Professional Writing.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Junior Year Experiential Learning credit.
*** PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

## Major Requirements

### Declaration Requirements

To declare a major in Real Estate, a student must meet the following requirements:

- Completion of 28.0 hours at DePaul University
- The following courses must be completed with a grade of C- or higher: ACC 101, ACC 102, BLW 201, ECO 105, ECO 106, MAT 135, MAT 136, and MAT 137
- A minimum cumulative DePaul grade point average of 2.000
- A minimum Real Estate grade point average of 2.000
- No grade of IN, R, or lower than C- in any Real Estate (RE) course or course used toward the Real Estate major
- Completion of RE 350 with a minimum grade of C-

### Course Requirements

A student majoring in Real Estate is required to complete the following courses totaling at least 30.0 hours:

- Five required courses:
  - RE 250 CAREER MANAGEMENT FOR REAL ESTATE PROFESSIONALS (2.0 hours)
  - RE 300 REAL ESTATE LAW
  - RE 350 REAL ESTATE ANALYSIS
  - RE 352 REAL ESTATE FINANCE
  - RE 353 REAL ESTATE INVESTMENT
- Three elective courses to be chosen from:
  - ECO 310 URBAN ECONOMICS
  - FIN 330 INVESTMENTS: THEORY & PRACTICE
  - GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
  - GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
  - GEO 243 REMOTE SENSING
  - GEO 344 GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY
  - GEO 331 CHICAGO: SPATIAL ANATOMY OF A METropolis
  - GEO 333 URBAN PLANNING
  - HAA 370 CONTEMPORARY ARCHITECTURAL THEORY AND PRACTICE
  - HAA 380 CHICAGO ARCHITECTURE AND URBANISM (WORLD CITIES)
  - HSP 398 SPECIAL TOPICS IN HOSPITALITY (topic must be approved for use by the Department of Real Estate)
  - PPS 301 PUBLIC POLICY AND THE POLITICAL PROCESS
  - PPS 302 IMPLEMENTATION OF ENVIRONMENTAL AND URBAN POLICY
  - PPS 330 SUSTAINABLE DEVELOPMENT
  - PPS 350 CRITICAL ISSUES IN URBAN DEVELOPMENT
  - PPS 351 THE POLICY AND POLITICS OF URBAN HOUSING
  - PPS 359 TOPICS IN URBAN STUDIES (when real estate related and approved by the Department of Real Estate)
  - PSC 322 URBAN POLICYMAKING
  - RE 320 URBAN PLANNING AND PUBLIC POLICY
Courses with variable topics (such as HSP 398 or PPS 359) must be approved for use in the Real Estate major by the Department of Real Estate.

The department enforces all course prerequisites, without exception.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year, but the Real Estate major does not offer or accept a for-credit internship course.

Open Electives

Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Graduation Requirements

All Real Estate (RE) courses and any courses used toward the Real Estate major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Recommended Courses

Students majoring in real estate are encouraged to complete courses from the list below to further explore topics relevant to real estate. These courses are approved for use in the Liberal Studies Program Learning Domains as indicated. PPS 301 may be used as a Real Estate Elective and for the Self, Society and the Modern World requirement only if Real Estate is being completed as a second major or minor. No other courses from this list are approved for use as Real Estate Electives in the major or minor.

Arts and Literature

- HAA 280 HISTORY OF PREMODERN ARCHITECTURE
- HAA 281 HISTORY OF MODERN ARCHITECTURE

Philosophical Inquiry

- MGT 248 BUSINESS ETHICS (also counts for Business Ethics requirement)
- PHL 235 PHILOSOPHY AND THE ENVIRONMENT
- PHL 236 PHILOSOPHY AND THE CITY
- PHL 241 ETHICS AND PUBLIC POLICY

Religious Dimensions

- MGT 228 BUSINESS, ETHICS, AND SOCIETY (also counts for Business Ethics requirement)
- REL 227 RELIGIOUS ETHICS AND PROFESSIONAL LIFE

Scientific Inquiry

- ANT 120 SCIENCE OF ARCHAEOLOGY
- ENV 102 INTRO TO ENVIRONMENTAL SCIENCE WITH LAB
- MAT 135 BUSINESS CALCULUS I (taken in Liberal Studies Requirements)
- MAT 137 BUSINESS STATISTICS (taken in Liberal Studies Requirements)

Self, Society and the Modern World

- GEO 103 URBANIZATION
The Cinematic City

Understanding the Past

- ECO 340 DEVELOPMENT OF ECONOMIC THOUGHT
- GEO 233 COMPARATIVE URBANISM
- HST 237 HISTORY OF THE CITY OF ROME
- HST 240 HISTORY OF CHICAGO
- HST 254 AMERICAN URBAN HISTORY

Real Estate (Minor)

Available to students in the Driehaus College of Business and non-business programs at DePaul, a minor in Real Estate provides students with a general understanding of the real estate business and in-depth exploration of a specific topic in real estate, such as law, policy, valuation, investment, or finance.

Declaration Requirements

To declare a minor in Real Estate, a student must meet the following requirements:

- A minimum cumulative DePaul grade point average of 2.000
- A minimum Real Estate grade point average of 2.000
- No grade of IN, R, M or lower than C- in any Real Estate (RE) course or course used toward the Real Estate minor
- Completion of RE 350 with a minimum grade of C-

Course Requirements

A student minoring in Real Estate is required to complete Real Estate courses totaling at least 16.0 hours:

- One required course:
  - RE 350 REAL ESTATE ANALYSIS
- Three elective courses to be chosen from:
  - RE 300 REAL ESTATE LAW
  - RE 320 URBAN PLANNING AND PUBLIC POLICY
  - RE 325 PROJECT MANAGEMENT: DESIGN & CONSTRUCTION
  - RE 352 REAL ESTATE FINANCE
  - RE 353 REAL ESTATE INVESTMENT
  - RE 354 REAL ESTATE VALUATION
  - RE 398 SPECIAL TOPICS (multiple topics may be used)

The department enforces all course prerequisites, without exception.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year, but the Real Estate minor does not offer or accept a for-credit internship course.

Graduation Requirements

All Real Estate (RE) courses and any courses used toward the Real Estate minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Relational Communication (BA)

The B.A. in Relational Communication provides students with a research-based understanding of communication in close relationships. The program, through a blend of theory and practice, helps students identify, analyze and meet the challenges of communicating effectively among individuals in both personal and professional relationships. Students will acquire the knowledge and skills necessary to initiate, develop, and maintain relationships. Students will also learn how to accomplish a wide range of interpersonal goals such as persuasion, conflict resolution, and establishing trust, just to name a few.

The curriculum is both deep and broad, enabling students to gain practical expertise in their area of interest while gaining a working knowledge of related areas. Students learn to express themselves well in oral and written communications, to think critically about communication events all around them, to develop skills valuable in the workplace, and to communicate effectively in a diverse world.

<td>40 hours</td>
</tr>
<tr>
<td>Open Electives</td>
<td>52 hours</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>192 hours</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Comprehend and summarize the functions that communication serves in interpersonal relationships.
- Analyze and evaluate how communication processes influence relational development, maintenance, and deterioration.
- Identify the types of communication problems that people encounter in interpersonal relationships and devise strategies to deal with those problems effectively.
- Analyze the role that emotions play in relationships and devise skills for expressing emotions with others.

College Core Requirements

All majors in the College of Communication (with the exception of Public Relations and Advertising) consist of a total of fourteen courses: a four-course common core plus an additional combination of ten program requirements and electives. The Public Relations and Advertising major consists of a total of fifteen courses: a four-course common core plus an additional combination of eleven program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:

- CMN 101 INTRODUCTION TO HUMAN COMMUNICATION
- CMN 102 INTRODUCTION TO MASS COMMUNICATION
- CMN 103 INTERCULTURAL COMMUNICATION
- CMN 104 PUBLIC SPEAKING

Students are encouraged to complete all four prior to taking additional coursework in the major.
Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination. (Note that CLEP scores may be used only to meet the language requirement. Credit is not awarded in modern languages on the basis of CLEP scores).

Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option

The Modern Language Option is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for two learning domain courses and one open elective. Students may use the Modern Language Option to reduce their requirements by one course among two of the following combinations of learning domains: Philosophical Inquiry or Religious Dimensions; Understanding the Past or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the SWK or Lab). Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.

Note

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit.
already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

**Major Requirements**

**Course Requirements**

Relational Communication majors must complete the four core courses required of all College of Communication students. In addition, they must take one required course and choose seven classes from among the Relational Communication course offerings. Relational Communication majors must also take any two electives within the College of Communication. All Relational Communication majors must complete a total of 14 classes, or 56 credit hours.

- CMNS 211 INTERPERSONAL COMMUNICATION
- An additional seven courses (28 credits) from the list of offerings below.
  - CMN 394 COMMUNICATION INTERNSHIP
  - CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS
  - CMNS 291 RESEARCH METHODS
  - CMNS 304 COMMUNICATION AND ENTREPRENEURSHIP
  - CMNS 311 TOPICS IN RELATIONAL COMMUNICATION
  - CMNS 312 EVOLUTION AND COMMUNICATION
  - CMNS 313 NONVERBAL COMMUNICATION
  - CMNS 314 FAMILY COMMUNICATION
  - CMNS 315 HEALTH COMMUNICATION
  - CMNS 318 CLOSE RELATIONSHIPS
  - CMNS 319 THE DARK SIDE OF PERSONAL RELATIONSHIPS
  - CMNS 320 DECEPTIVE COMMUNICATION
  - CMNS 327 RESEARCHING RELATIONSHIPS
  - CMNS 329 PERSUASION
  - CMNS 339 PERFORMANCE OF GENDER & SEXUALITY
  - CMNS 340 COMMUNICATING & DATING
  - CMNS 355 CONFLICT MANAGEMENT
  - CMNS 360 RELATIONAL, GROUP, AND ORGANIZATIONAL THEORY
  - CMNS 361 GENDER AND COMMUNICATION
  - CMNS 392 INDEPENDENT STUDY
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
  - ORGC 212 SMALL GROUP COMMUNICATION
  - ORGC 354 EMPLOYMENT INTERVIEWING
  - ORGC 356 COMMUNICATION CONSULTING
  - ORGC 358 DIVERSITY, LEADERSHIP, & TEAM BUILDING
- Two electives (8 credits) from any College of Communication offerings.

**Internship Credit**

Students in the major may take CMN 394 COMMUNICATION INTERNSHIP and/or CMN 395 COMMUNICATION INTERNSHIP SPECIAL TOPICS (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Combined Bachelor's/ Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The following Communication graduate programs have been approved as combined degree options:

- Digital Communication and Media Arts (MA)
- Health Communication (MA)
- Journalism (MA)
- Media and Cinema Studies (MA)
- Organizational and Multicultural Communication (MA)
- Public Relations and Advertising (MA)
- Relational Communication (MA)

Deferring Admission

Students can defer their graduate admission for one year. If students do not matriculate after completing their B.A. degrees or within the one year deferral period, the graduate courses taken as undergraduate students will no longer count towards the graduate degree and students must reapply for admission to the graduate program.

Digital Communication and Media Arts (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Digital Communication and Media Arts coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the DCMA core courses (CMNS 570 and MCS 575) and one DCMA elective course during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Health Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have a 3.0 cumulative GPA, and have successfully completed three 300-level courses in their major are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Health Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take the HTHC core courses (HTHC 515, HTHC 516, HTHC 517) during the senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Journalism (MA)

Students with junior status who have earned a 3.25 GPA in their major courses and 3.0 cumulative GPA are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is...
During their senior year students complete 12 graduate credit hours of Journalism coursework which will fulfill undergraduate Journalism major electives, communication electives and/or open electives. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirements, they will not be allowed to continue as a graduate student in the program.

Media and Cinema Studies (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Media and Cinema Studies coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take two of the MCS core courses (MCS 501, MCS 502, MCS 504) and one MCS elective during their senior year. Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirements, they will not be allowed to continue as a graduate student in the program.

Organizational and Multicultural Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, and have successfully completed three 300-level Communication courses are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, CMNS 501, CMNS 541, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Public Relations and Advertising (MA)

Students with junior status who have earned a 3.25 GPA in their major courses, have 3.0 cumulative GPA, have successfully completed CMN 101, CMN 102 and CMN 103, have successfully completed three 300-level Communication courses, and are currently holding one or more PRAD internships or jobs are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined Degree Program Application, official undergraduate transcript, answers to essay questions, writing sample (research paper), one letter of recommendation from a PRAD professor, and one letter of recommendation from a supervisor at a PRAD-related internship or job.

During their senior year students complete 12 graduate credit hours of Public Relations and Advertising coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take three core courses during their senior year (examples: PRAD 553, PRAD 555, PRAD 575, and PRAD 585). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

Relational Communication (MA)

Students with junior status who have earned a 3.5 GPA in their major courses, have 3.0 cumulative GPA, and have successfully completed CMN 101, CMN 102 and CMN 103 are eligible to apply to the program. Applicants must submit the following to the Graduate Admission office by May 1 (priority deadline): B.A./M.A. Combined
Degree Program Application, official undergraduate transcript, Statement of Purpose (750 words) explaining why the student is seeking admission to the program, writing sample (research paper that demonstrates the applicant's ability to synthesize and analyze scholarly work), and two letters of recommendation from professors in the College of Communication.

During their senior year students complete 12 graduate credit hours of Relational Communication coursework which will fulfill undergraduate communication electives and/or open electives. Students are strongly encouraged to take at least two core courses and a methods requirement during their senior year (examples: CMNS 500, RELC 500*, CMNS 581 or CMNS 582). Students admitted to the program must earn a B or better in each of the three graduate courses they take as a senior. If a student fails to meet the GPA requirement, they will not be allowed to continue as a graduate student in the program.

* For BA/MA students who are completing their BA in Relational Communication and seeking an MA in Relational Communication, the core course requirement of RELC 500 – Theories of Relational Communication will be waived. Students waived from having to take RELC 500 will replace the course with an additional graduate RELC elective course (still completing the required total of 48-credit hours).

Relational Communication (Minor)

The relational minor helps students acquire the knowledge and skills necessary to manage relationships in both personal and professional contexts.

Course Requirements

A minor in Relational Communication requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

- CMNS 211 INTERPERSONAL COMMUNICATION
- Five additional courses from the following:
  - CMNS 304 COMMUNICATION AND ENTREPRENEURSHIP
  - CMNS 311 TOPICS IN RELATIONAL COMMUNICATION
  - CMNS 312 EVOLUTION AND COMMUNICATION
  - CMNS 313 NONVERBAL COMMUNICATION
  - CMNS 314 FAMILY COMMUNICATION
  - CMNS 318 CLOSE RELATIONSHIPS
  - CMNS 319 THE DARK SIDE OF PERSONAL RELATIONSHIPS
  - CMNS 320 DECEPTIVE COMMUNICATION
  - CMNS 327 RESEARCHING RELATIONSHIPS
  - CMNS 329 PERSUASION
  - CMNS 340 COMMUNICATING & DATING
  - CMNS 341 COMMUNICATION NETWORKS IN A DIGITAL AGE
  - CMNS 342 LIVING ONLINE
  - CMNS 355 CONFLICT MANAGEMENT
  - CMNS 382 QUANTITATIVE RESEARCH METHODS IN COMMUNICATION STUDIES
  - ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION
  - ORGC 212 SMALL GROUP COMMUNICATION
  - ORGC 354 EMPLOYMENT INTERVIEWING
Religious Studies (BA)

The Department of Religious Studies offers DePaul students the opportunity to engage in the academic study of religion. The study of religion includes not only the traditional areas of sacred texts, myths, rituals, mystical experiences and doctrines, but also the ways in which political, social and economic forces shape these phenomena for religious communities. Drawing on a host of academic disciplines, religious studies challenges students to encounter the traditions of the world in all their rich diversity. Given the complexity of the subject matter, members of the department draw upon several other academic disciplines -- anthropology, art history, biblical studies, economics, environmental studies, ethics, gender studies, history, linguistics, literature and literary criticism, political science, philosophy, psychology, sociology, and theology -- as they do their work.

Beyond work with texts, students may also study religion through the media of film and video, music, the visual and dramatic arts, and the internet. The department emphasizes comprehensive learning in writing, synthetic and analytic thinking, and oral communication skills. Students can go beyond their course work with further learning opportunities, such as the senior thesis, independent study, study abroad and internships, and service learning, both locally and internationally.

A religious studies major or minor is positioned to pursue a wide variety of careers. A bridge between the specialist's perspectives on religion and a wider world that is often in need of these perspectives, religious studies majors have worked in the fields of law, social work, regional and international business, governmental and non-governmental service, secondary school teaching, and service in religious communities. A religious studies major is also well-prepared for further studies in graduate programs leading to careers in academia.

The Department encourages students in all major concentrations and minors to engage various questions related to the study of religion, such as (but not limited to):

- What is religion?
- How do religious communities come into being and define themselves?
- How do religious communities form worldviews, doctrines, and practices, and how does the study of religion help us to understand their change over time?
- How do sacred texts come into being, and what do they communicate to us?
- How does religion shape culture, and how does the wider culture define religion?
- What is the role of religion in the contemporary world?
- How do religion or religious sensibilities help us to relate (or hinder us from relating) to each other?
- How can an informed student of religion evaluate the rival claims to truth and moral rightness of different religious and secular ideologies?
- How do religious traditions and texts treat issues of sexuality and gender, race and class?
- How have religious traditions interacted with each other in the past, and how do they continue to do so today?

Learning Outcomes

Students will be able to:

- Identify, describe and discuss some significant elements of religion—such as myth and narrative, symbol, ritual, law and doctrine, ethics, experience, and systems of cosmic, social and individual order—as they are manifested in particular traditions and cultures, past or present.
- Critically compare religious traditions, experiences, and practices across culture, time, ethnicity, race or gender.
- Analyze and reflect on the meaning of religious beliefs and practices, and apply to religious phenomena various theories, methodological perspectives, and experiential approaches to religious studies.
- Examine the moral dimensions of religion and culture through specific examples.
- Read and critically interpret religious texts.
- Explain and discuss the historical context of one or more religions.
- Evaluate the relationship between religion and other elements of culture and society regarding such issues as the connection between religion and power, the role of religious movements as forces of personal and social transformation and social justice, and the role of religion in social integration.
- Identify, apply and research resources from online, library, bibliographic resources and/or field methods in religious studies in a research paper.
• Support and defend in writing an integrated vision of the field of Religious Studies expressed in a focus on
the student's area(s) of interest.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and through knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

• placing into 104 or above on the DePaul language placement exam
• completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
• completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
• completing the final course of a four-year sequence of the same modern language in high school*
• completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
• completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

* Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Students who complete an Inter-College Transfer (ICT) to the College will abide by this MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (MLO) of the Liberal Studies Program (see “Special Programs”).

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Required

Senior Year

Capstone

- REL 390 INTEGRATING SEMINAR * [See Note Below]
Learning Domains

Arts and Literature (AL)
- 3 Courses Required

Philosophical Inquiry (PI)
- 2 Courses Required

Scientific Inquiry (SI)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI)
- 3 Courses Required

Religious Dimensions (RD)
- Not Required

Understanding the Past (UP)
- 2 Courses Required
* Students must earn a C- or better in this course.

Notes

A student majoring in Religious Studies (REL) is required to complete the Capstone offered by the REL Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An REL major in the University Honors Program shall take the University Honors Capstone and the REL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the experiential learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Major Requirements

Course Requirements

The Religious Studies major requires all students to take 13 courses (52 credit hours), of which at least six courses (24 credit hours) must be at the 300-level.

All Religious Studies Majors must take the following five Core Courses:

- REL 103 RELIGIOUS WORLDS IN COMPARATIVE PERSPECTIVE (HON 104 can substitute for REL 103)
- REL 298 METHODS AND APPROACHES IN THE STUDY OF RELIGION
- REL 300 THEORIES OF CULTURE AND RELIGION
- REL 302 THEORIES OF RELIGION AND ETHICS
- REL 390 INTEGRATING SEMINAR

Students need to take eight additional courses (32 credit hours), at least three of which must be at the 300 level (12 credit hours) and the remaining at the 200 level.

Students interested in the specialized study of Catholicism or Islam should consult the Department of Catholic Studies or the Islamic World Studies Program.

Religious Studies (Minor)

The minor in Religious Studies exposes students to a variety of religious issues.

Course Requirements

The Minor in Religious Studies requires all students to take any 6 courses (24 credit hours) in Religious Studies at the 100-, 200-, and/or 300-level:

- REL 103 RELIGIOUS WORLDS IN COMPARATIVE PERSPECTIVE
- REL 107 JUDAISM IN HISTORY: FROM THE BIBLE TO 1492
- REL 108 JUDAISM IN HISTORY: FROM 1492 TO PRESENT
- REL 109 THE JEWISH EXPERIENCE
- REL 110 THE CHRISTIAN EXPERIENCE
- REL 111 THE AMERICAN RELIGIOUS EXPERIENCE
- REL 113 THE LATINO RELIGIOUS EXPERIENCE IN THE UNITED STATES
- REL 115 THE AFRICAN AMERICAN RELIGIOUS EXPERIENCE
- REL 116 THE ISLAMIC EXPERIENCE
- REL 142 HINDU EXPERIENCE
- REL 143 BUDDHIST EXPERIENCE
- REL 161 INDIGENOUS RELIGIONS OF NORTH AMERICA
- REL 162 POPULAR AND INDIGENOUS RELIGIONS OF MEXICO AND CENTRAL AMERICA
- REL 180 INTRODUCTION TO CATHOLICISM
- REL 183 THEMES IN CATHOLIC SOCIAL THOUGHT
- REL 190 INTERPRETING SACRED TEXTS
- REL 200 DEBATES ABOUT GOD
- REL 201 RELIGION AND ETHICS I
- REL 202 ETHICAL WORLDS: MORAL ISSUES ACROSS CULTURES
- REL 205 RELIGION AND ETHICS II
- REL 212 RELIGION AND POPULAR CULTURE
Religious Studies Minor Online

Additionally, students interested in completing a Religious Studies minor online can choose any six of the following courses that are taught online.

- REL 107 JUDAISM IN HISTORY: FROM THE BIBLE TO 1492
- REL 108 JUDAISM IN HISTORY: FROM 1492 TO PRESENT
- REL 109 THE JEWISH EXPERIENCE
- REL 116 THE ISLAMIC EXPERIENCE
- REL 143 BUDDHIST EXPERIENCE
- REL 190 INTERPRETING SACRED TEXTS
- REL 201 RELIGION AND ETHICS I
- REL 226 TECHNOLOGY/ETHICS AND SOCIETY
- REL 228 BUSINESS, ETHICS AND SOCIETY
- REL 229 MEDICINE, ETHICS AND SOCIETY
- REL 233 THE NEW TESTAMENT
- REL 237 GODS IN THE ROMAN EMPIRE
- REL 238 THE HISTORICAL JESUS
- REL 242 HINDU THOUGHT AND CULTURE
- REL 243 BUDDHIST THOUGHT IN CULTURAL CONTEXT
- REL 257 DEATH AND ITS BEYOND: EXPERIENCE, MYTH AND RITUALS
- REL 269 JUDAISM IN ANTIQUITY

Rhetoric (Minor)

The Rhetoric minor helps you acquire the skills to understand and analyze the history, theory, and criticism of political discourse and public speaking.

Course Requirements

A minor in Rhetoric requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

- CMN 103 INTERCULTURAL COMMUNICATION
- CMN 104 PUBLIC SPEAKING
  or CMNS 230 PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY
- Four more courses from:
  - CMNS 307 TOPICS IN POLITICAL AND SOCIAL COMMUNICATION (Rhetoric Topics)
  - CMNS 308 TOPICS IN INTERCULTURAL COMMUNICATION (Rhetoric Topics)
  - CMNS 310 DISCOURSE ANALYSIS
Russian Language (Minor)

DePaul’s Russian Language minor will help students acquire a solid proficiency in speaking, reading and writing Russian, one of the world’s most important global languages.

The minor consists of a total of 5 courses in Russian language at the 200/300-level.

Students minoring in Russian Studies are restricted from earning this minor.

Russian Studies (Minor)

The Russian Studies minor offers an interdisciplinary focus on the history, culture, art and politics of Russia, along with a grounding in the Russian language.

Course Requirements

- Three quarters of college-level Russian language study (at any level).
- Five additional courses from at least two different disciplines, chosen in consultation with an advisor or faculty member, from the current approved Russian Studies Allied Course List.

Russian Studies Allied Course List

Art and Architecture, History of

- HAA 235 RUSSIA: MEDIEVAL MOMENTS, IMPERIAL DAYS & WHITE NIGHTS IN NOVGOROD & ST. PETERSBURG

Geography

- GEO 317 POST SOVIET EASTERN EUROPE AND THE RUSSIAN REALM

History

- HST 208 IMPERIAL RUSSIA
- HST 209 THE RISE AND FALL OF THE SOVIET UNION
- HST 221 EARLY RUSSIA
- HST 251 ORIGINS OF THE COLD WAR, 1917 - 1953
Scene Design (BFA)

The Theatre School’s Bachelor of Fine Art (BFA) degree in Scenic Design is designed to give students the opportunity to explore and expand their artistic and visual expression and provides them the opportunity to practice their craft. The four-year curriculum in many ways simulates a scenic designer’s professional experience and process. Designers learn to visualize and create the physical world of plays by collaborating with directors,
dramaturgs, other designers and technicians and our professional scene shop staff who build the sets they design.

**Learning Outcomes**

**Core Outcomes**

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works and artistic approaches from antiquity to the present, encompassing a broad range of periods, cultures, and styles.
- Synthesize and apply elements of their education and training in classes, rehearsals, and productions.
- Participate in theatrical production in a professional manner, with discipline, respect, and maturity.
- Demonstrate the role of the theatre practitioner as an active member of society and of the cultural and social impact of the arts.

**Program Specific Outcomes**

Students will be able to:

- Apply General knowledge of theatre history, dramatic literature covering a broad range of historical periods, cultures, and styles, and major theatre artists on both a national and international level.
- Utilize the principles and vocabulary of performance, directing, design, and a thorough grounding in the theory of their particular area of specialization.
- Write with competency in a variety of writing styles from casual to formal.
- Fully engage with knowledge through the ability to access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying arguments and assumptions and to formulate conclusions.
- Utilize existing knowledge to generate and synthesize ideas in original, creative, and imaginative ways.
- Articulate clearly the process of transforming the written text into the theatrical event.
- Design, develop, and execute a noteworthy intellectual and/or creative project.
- Design, develop, and execute a noteworthy intellectual and/or creative project.
- Write with competency in a variety of writing styles from casual to formal.
- Fully engage with knowledge through the ability to access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying arguments and assumptions and to formulate conclusions.
- Utilize existing knowledge to generate and synthesize ideas in original, creative, and imaginative ways.
- Articulate clearly the process of transforming the written text into the theatrical event.
- Design, develop, and execute a noteworthy intellectual and/or creative project.
- Develop an understanding of the cultural and sociopolitical context of theatre from the perspective of both historical and contemporary practice.
- Develop strong self-discipline, self-motivation, and an ability to work independently.
- Work collaboratively and effectively within a group process and with creative artists from all theatrical disciplines.
- Understand the interrelationship of what it means to be human and what it means to be a theatre artist.
- Evaluate ethical issues with respect to theatrical analysis, concept, and practice.
- Contribute artistically to communities through socially responsible engagement and leadership.
- Develop an understanding of and a respect for a multiplicity of cultural and artistic perspectives that may be different from their own.
- Understand the availability and/or scarcity of global resources for a sustainable future.
- Set goals for future work that are the result of rigorous self-appraisal and reflection.
- Articulate their skills and knowledge as they represent themselves to external audiences.
- Work both independently and collaboratively.
- Use technology to create, communicate, and synthesize their ideas.

  - DES 243 SCENE DESIGN I
- Survey of the Arts for Theatre Sequence
  - THE 381 SURVEY OF THE ARTS FOR THEATRE
  - THE 382 SURVEY OF THE ARTS FOR THEATRE
  - THE 383 SURVEY OF THE ARTS FOR THEATRE
- Production Practice Sequence I
  - DES 271 DESIGN PRODUCTION PRACTICE I
  - DES 272 DESIGN PRODUCTION PRACTICE I
  - DES 273 DESIGN PRODUCTION PRACTICE I

**Third Year**

- Scene Design Sequence II
  - DES 341 SCENE DESIGN II
  - DES 342 SCENE DESIGN II
  - DES 343 SCENE DESIGN II
- Scene Painting Sequence
  - DES 387 SCENE PAINTING
  - DES 388 SCENE PAINTING
  - DES 389 SCENE PAINTING
- Theatrical Collaboration Sequence
  - DES 641 THEATRICAL COLLABORATION
  - DES 642 THEATRICAL COLLABORATION
- Production Practice II
  - Select two courses from the following list
    - DES 371 DESIGN PRODUCTION PRACTICE II
    - DES 372 DESIGN PRODUCTION PRACTICE II
    - DES 373 DESIGN PRODUCTION PRACTICE II

**Fourth Year**

- Scene Design Sequence III
  - DES 441 SCENE DESIGN III
  - DES 442 SCENE DESIGN III
  - DES 443 SCENE DESIGN III
- Design Electives
  - Select three Costume or Lighting Design courses from the following list
    - DES 244 COSTUME DESIGN I
    - DES 245 COSTUME DESIGN I
    - DES 246 COSTUME DESIGN I
    - DES 247 LIGHTING DESIGN I
    - DES 248 LIGHTING DESIGN I
    - DES 249 LIGHTING DESIGN I
    - Additional Design/Tech courses with approval of advisor and instructor
- Theatre or Non-theatre Electives
  - One course chosen in consultation with advisor
- Production Practice III and/or Internship
  - Select two courses from the following list
    - DES 471 DESIGN PRODUCTION PRACTICE III
    - DES 472 DESIGN PRODUCTION PRACTICE III
    - DES 473 DESIGN PRODUCTION PRACTICE III
    - DES 490 DESIGN INTERNSHIP

**Additional Courses**

- During the 3rd and 4th years of the major, students must complete four courses from the following list in consultation with the major advisor:
Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Production Design Concentration

Production Design Concentration

The Production Design Concentration is open to students in the Scene Design major at The Theatre School. 6 classes or 24 credits are required. The Concentration builds on the traditional curriculum for the Scene Design major, and adds 6 classes from School of Cinematic Arts (SCA), which can either be added onto the full curriculum, or can be substituted for the required design electives, or 1 of the drawing/rendering electives. Students take requirements and electives from the following list of SCA classes, or other classes can be considered and approved by advisor. Students may start the sequence in their second year of the Scene Design major. Students must notify their advisor of their intention to pursue this concentration and must receive advisor approval to do so.

Required Courses:

- DC 121 THE ART OF PRODUCTION DESIGN
- DC 275 CINEMATOGRAPHY I
- DC 321 PRODUCTION DESIGN
- DC 376 VISUAL DESIGN
- DC 379 PRE-PRODUCTION WORKSHOP or DC 331 ADVANCED PRODUCTION DESIGN

Other Approved Electives:

- GD 105 INTRO TO VISUAL DESIGN
- GD 200 GRAPHIC DESIGN I
- ANI 220 STORYBOARDING AND NARRATIVE DEVELOPMENT
- DC 227 FILM PHILOSOPHY
- DC 210 DIGITAL CINEMA PRODUCTION I
- DC 311 MUSIC VIDEO PRODUCTION
Secondary Education (BA/ BS)

The Secondary Education Major for double majors provides students the opportunity to complete a primary major in Secondary Education and a secondary major in the disciplinary area for which students will be licensed (Art, Design & Media, Biology, Chemistry, English, Environmental Science, History, Mathematics, or Physics). As double majors, students are required to complete both majors and to fulfill all state licensure requirements to be licensed to teach.

The double major is designed to provide future Secondary Education teachers with a Secondary Education degree and a disciplinary area degree that reflects disciplinary area expertise. Like the Secondary Education major with disciplinary content courses attached to the major (e.g., Secondary Education Biology, Secondary Education English, et cetera), the Secondary Education Major for double majors draws on the expertise of faculty in the COE’s Secondary Education Program and Educational Policy Studies and Research Department to immerse students into essential issues and themes of education and theories and practices of teaching and learning. Such issues as educational inequality, politics of schooling, identity politics, social justice, identity development inside and beyond formal school settings, historical, cognitive, sociocultural, and sociopolitical nature of human development and society are integrated with issues of pedagogical content knowledge, critical pedagogy, constructivist teaching practices, theories of teaching and learning, curriculum development, and professional practice. Ensuring that students understand all these issues is integral to the Program design and delivery and to the preparation of teachers.

The measure of the academic quality of the Program relies on clearly articulated features of exemplary teacher-education programs. These include:

- a “common, clear vision of good teaching that permeates all coursework and clinical experiences...”;
- a “well-defined standard of professional practice and performance...”;
- a “strong core curriculum taught in the context of practice” and including understanding of human development and learning, social and cultural contexts, curriculum assessment, and subject-matter pedagogy;
- an “extended clinical experience” that supports ideas presented in coursework;
- an “extensive use of case methods, teacher research, performance assessments, and portfolio evaluation...”;
- "explicit strategies" to help students confront their own beliefs and assumptions about learning and students and to learn about the experiences of diverse people; and
- "strong relationships, common knowledge, and shared beliefs among school- and university-based faculty.”

Students who are interested in the Secondary Education Major for double majors should contact their academic advisor. The Secondary Education Major must be selected as the primary major to ensure that licensure requirements attached to the Liberal Studies Program are completed. Disciplinary major requirements are determined by the academic department in which the major is housed.

**Licensure**

Illinois Professional Educator License with an endorsement in the specified disciplinary area:

- Secondary Education Science-Biology (grades 6-12), an Illinois State Board of Education (ISBE) approved program.
- Secondary Education Science-Chemistry (grades 6-12), an Illinois State Board of Education (ISBE) approved program.
- Secondary Education English Language Arts (grades 6-12), an Illinois State Board of Education (ISBE) approved program.
- Secondary Education Science-Environmental Science (grades 6-12), an Illinois State Board of Education (ISBE) approved program.
- Secondary Education Social Science-History (grades 6-12), an Illinois State Board of Education (ISBE) approved program.
- Secondary Education Mathematics (grades 6-12), an Illinois State Board of Education (ISBE) approved program.
- Secondary Education Science-Physics (grades 6-12), an Illinois State Board of Education (ISBE) approved program.
- Secondary Education Social Science-Geography (grades 6-12), an Illinois State Board of Education (ISBE) approved program.
Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul’s Vincentian Mission and the COE’s Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse
consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:
Maintain a DePaul undergraduate 2.5 GPA
Pass the Illinois Test of Academic Proficiency (TAP)
Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher
preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content area courses
- Overall cumulative G.P.A. of 2.50 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including
OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I (not required for students whose second major is Biological Sciences, Chemistry, Environmental Science, Mathematical Sciences or Physics)
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II (not required for students whose second major is Biological Sciences, Chemistry, Environmental Science, Mathematical Sciences or Physics)(Note: See information below)

Sophomore Year

Multiculturalism in the US

- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

Junior Year

Experiential Learning

- Met by successful completion of required field experience hours
Senior Year

Capstone

- SEC 387 CAPSTONE SEMINAR IN SECONDARY EDUCATION *
  (Note: This must be taken with student teaching)

Learning Domains

Arts and Literature (AL)

- 3 courses required for students whose second major is Biological Sciences, Chemistry, Environmental Science, History or Physics
- 2 courses required for students whose second major is Mathematical Sciences
- 1 course required for students whose second major is Art Media and Design (cannot be an ART or HAA course) or English (cannot be an ENG course)

Philosophical Inquiry (PI)

- 2 Courses Required
  - LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
  - 1 Additional Course  
    (Note: PHL 100 recommended)

Scientific Inquiry (SI)

- 3 courses for students whose second major is Art Media and Design, English, History, Mathematical Sciences:
  
  1 Science as a Way of Knowing Course
  1 Lab Course
  1 Additional Course

  [Note: At least one course must be from Biological Sciences and one from Chemistry, Environmental Science, Geography or Physics.]

- 1 course required for students whose second major is Biological Sciences (cannot be a BIO course), Chemistry (must be a BIO course), Environmental Science (must be STEM 230) or Physics (must be a BIO course)

Social, Cultural, and Behavioral Inquiry (SCBI)

- 3 courses required for students whose second major is Art Media and Design, Biological Sciences, Chemistry, English, Environmental Science, Physics.  Note: PSC 120 THE AMERICAN POLITICAL SYSTEM must be one of these classes
- 2 courses required for students whose second major is History, Mathematical Sciences.  Note: PSC 120 THE AMERICAN POLITICAL SYSTEM must be one of these classes

Religious Dimensions (RD)

- 2 Courses Required

Understanding the Past (UP)

- 2 courses required for students whose second major is Art Media and Design, Biological Sciences, Chemistry, English, Environmental Science, Mathematical Sciences, Physics.  Note one must be United States history.
- 1 course required for students whose second major is History.  Must be United States history

* Students must earn a C- or better in this course.

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab requirement.

**Major Requirements**

**Course Requirements**

**Pre-Education Introductory Courses: 12 quarter hours required, grade of C or better required**

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION (4 credit hours)
- SEC 364 METHODS: CURRICULUM AND INSTRUCTION IN SECONDARY SCHOOLS (4 credit hours)
- SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT or SCU 337 HUMAN GROWTH AND DEVELOPMENT (4 credit hours)

**Advanced Standing Education Courses: 20 quarter hours required, grade of C or better required**

- LSI 346 STRATEGIES FOR MAINSTREAMING AND INCLUSION (4 credit hours)
- SEC 325 LITERACY IN THE CONTENT AREAS (4 credit hours)
- SCU 351 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with SEC 381/SEC 382/SEC 383/SEC 385) (4 credit hours)
- SEC 395 ASSESSMENT ISSUES IN SECONDARY EDUCATION (4 credit hours)
- BBE 301 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM (4 credit hours)

**Concentrations**

The proposed major in Secondary Education concentration requirements reflect the disciplinary area content-specific courses that are part of Secondary Education—[Disciplinary Area] majors.

**Concentration Areas: 16 quarter hours required, grade C or better required**

**Biology/ Chemistry/ Environmental Science/ Physics**

- SEC 314 THE NATURE OF SCIENCE (4 credit hours)
- SEC 324 INQUIRY & APPLICATION IN DEVELOPING SECONDARY SCIENCE PEDAGOGY (4 credit hours)
- SEC 374 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1 (4 credit hours)
- SEC 385 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2 (4 credit hours)
English

- SEC 311 THE NATURE OF ENGLISH (4 credit hours)
- SEC 321 INQUIRY & APPLICATION IN DEVELOPING SECONDARY ENGLISH PEDAGOGY (4 credit hours)
- SEC 371 TEACHING ENGLISH IN THE HIGH SCHOOL 1 (4 credit hours)
- SEC 381 TEACHING ENGLISH IN THE HIGH SCHOOL 2 (4 credit hours)

History/Social Sciences

- SEC 312 THE NATURE OF HISTORY AND THE SOCIAL SCIENCES (4 credit hours)
- SEC 322 INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY (4 credit hours)
- SEC 372 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 1 (4 credit hours)
- SEC 382 TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 2 (4 credit hours)

Mathematics

- SEC 313 THE NATURE OF MATHEMATICS (4 credit hours)
- SEC 323 INQUIRY & APPLICATION IN DEVELOPING SECONDARY MATHEMATICS PEDAGOGY (4 credit hours)
- SEC 373 TEACHING MATHEMATICS IN THE HIGH SCHOOL 1 (4 credit hours)
- SEC 383 TEACHING MATHEMATICS IN THE HIGH SCHOOL 2 (4 credit hours)

Visual Arts

- SEC 365 ART AND PEDAGOGY (4 credit hours)
- SEC 366 TEACHER AS ARTIST (4 credit hours)
- EDUCATION ELECTIVE (approval of advisor required) (4 credit hours)
- EDUCATION ELECTIVE (approval of advisor required) (4 credit hours)

Discipline Area Major

Open electives that fill out the credit hour requirements for a degree in the proposed Secondary Education major can be/should be used to complete coursework toward the disciplinary area major. The following table identifies the number of open electives required/necessary for each concentration (disciplinary area) within the Secondary Education major based on current disciplinary area major requirements. These hours equal the credit hours required for each identified disciplinary area major:

- Biology = 100 credit hours
- Chemistry:
  - BA = 68 credit hours
  - BS = 92 credit hours
- English = 56 credit hours
- Environmental Science:
  - BA = 66 credit hours
  - BS = 96 credit hours
- History = 60
- Mathematics:
  - BA/BS = 60-64 credit hours
- Physics = 88-96 credit hours
- Visual Arts = 76 credit hours

These credit hour requirements are subject to revision based on disciplinary area major coursework revisions.

Open Electives

Depending on the disciplinary area major, additional open elective credit may be required to reach the minimum number of hours for an undergraduate degree.

Student Teaching

Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.
All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

- SEC 390 SECONDARY STUDENT TEACHING (10 credit hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Licensure Test**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Major for double major students must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Content Area Test for the disciplinary area for which the student will be licensed – assesses knowledge of disciplinary content. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Secondary Education Biology (BS)**

The Bachelor of Science program in Secondary Education Biology prepares students to teach 6th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

**NOTE:** Secondary Education students now have the option to double major in Secondary Education and Biological Sciences. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Biological Sciences. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Biological Sciences (see Biological Sciences BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Biology major and want to switch to the Secondary Education Major and Biological Sciences double major, you should contact your academic advisor because the double major may require additional...
Students who pursue the Bachelor of Science degree with a major in Secondary Education Biology do not have the option to double major in Biological Sciences.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Science-Biology (grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.
College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill
level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul undergraduate 2.5 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.
The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content area courses
- Overall cumulative G.P.A. of 2.50 or better
- Cumulative GPA. of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not
announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

First Year Program

Chicago Quarter

- LSP 110 DISCOVER CHICAGO
  or LSP 111 EXPLORE CHICAGO

Focal Point

- LSP 112 FOCAL POINT SEMINAR

Writing

- WRD 103 COMPOSITION AND RHETORIC I *
- WRD 104 COMPOSITION AND RHETORIC II *

Quantitative Reasoning & Technological Literacy

- LSP 120 QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I
- LSP 121 QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II
  (Note: See information below)

Sophomore Year

Multiculturalism in the US
• LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES

**Junior Year**

**Experiential Learning**

- Met by successful completion of required field experience hours

**Senior Year**

**Capstone**

- SEC 387 CAPSTONE SEMINAR IN SECONDARY EDUCATION *
  (Note: This must be taken with student teaching. Students must earn a C or better in this course.)

**Learning Domains**

**Arts and Literature (AL)**

- 3 Courses Required

**Philosophical Inquiry (PI)**

- 2 Courses Required
  - LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
  - 1 Additional Course
    (Note: PHL 100 recommended)

**Scientific Inquiry (SI)**

- 1 SWK Course Required
  (Note: Cannot be in biology)

**Social, Cultural, and Behavioral Inquiry (SCBI)**

- 3 Courses Required
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 2 Additional Courses

**Religious Dimensions (RD)**

- 2 Courses Required

**Understanding the Past (UP)**

- 2 Courses Required
  (Note: One must be US History.)

* Students must earn a C- or better in this course.

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Quantitative Reasoning and Technological Literacy**

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit.
Major Requirements

Course Requirements

Content Area Courses

Biology Core: 28 quarter hours required, grade of C or better required

- BIO 191 GENERAL BIOLOGY I FOR SCIENCE MAJORS
- BIO 192 GENERAL BIOLOGY II FOR SCIENCE MAJORS
- BIO 193 GENERAL BIOLOGY III FOR SCIENCE MAJORS
- BIO 215 ECOLOGY
- BIO 250 CELL BIOLOGY
- BIO 260 GENETICS
- BIO 309 PLANT PHYSIOLOGY
  or BIO 310 VERTEBRATE PHYSIOLOGY

Biology Electives: 12 quarter hours required, grade of C or better required

Biology electives cannot include courses designated as scientific inquiry. A minimum of 2 lab courses are required.

- BIO elective course
- BIO elective course with lab
- BIO elective course with lab

Mathematics Core: 8 quarter hours required, grade of C or better required

- Choose one of the following:
  - MAT 130 PRECALCULUS
  - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I (6 credit hours)
  - MAT 150 CALCULUS I
  - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I (5 credit hours)
  - MAT 170 CALCULUS FOR LIFE SCIENCES I (5 credit hours)
- Choose one of the following:
  - MAT 131 TRIGONOMETRY
  - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II (6 credit hours)
  - MAT 151 CALCULUS II
  - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II (5 credit hours)
  - MAT 171 CALCULUS FOR LIFE SCIENCES II (5 credit hours)

General Chemistry Core: 12 quarter hours required, grade of C or better required

- CHE 130 GENERAL CHEMISTRY I (3 credit hours) and CHE 131 GENERAL CHEMISTRY I LABORATORY (1 credit hour)
- CHE 132 GENERAL CHEMISTRY II (3 credit hours) and CHE 133 GENERAL CHEMISTRY LABORATORY II (1 credit hour)
- CHE 134 GENERAL CHEMISTRY III (3 credit hours) and CHE 135 GENERAL CHEMISTRY LABORATORY III (1 credit hour)

Organic Chemistry or Physics Series Core: 12 quarter hours required, grade of C- or better required

DePaul University  Winter/Spring/Summer 2016-2017
- CHE 230 ORGANIC CHEMISTRY I (3 credit hours) and CHE 231 ORGANIC CHEMISTRY LABORATORY I (1 credit hour)
  or PHY 150 GENERAL PHYSICS I
- CHE 232 ORGANIC CHEMISTRY II (3 credit hours) and CHE 233 ORGANIC CHEMISTRY LABORATORY II (1 credit hour)
  or PHY 151 GENERAL PHYSICS II
- CHE 234 ORGANIC CHEMISTRY III (3 credit hours) and CHE 235 ORGANIC CHEMISTRY LABORATORY III (1 credit hour)
  or PHY 152 GENERAL PHYSICS III

**Pre-Education Introductory Courses: 20 quarter hours required, grade of C or better required**

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- SEC 364 METHODS: CURRICULUM AND INSTRUCTION IN SECONDARY SCHOOLS
- SEC 314 THE NATURE OF SCIENCE
- SEC 324 INQUIRY & APPLICATION IN DEVELOPING SECONDARY SCIENCE PEDAGOGY
- SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT
  or SCU 337 HUMAN GROWTH AND DEVELOPMENT

**Advanced Standing Education Courses: 28 quarter hours required, grade of C or better required**

- LSI 346 STRATEGIES FOR MAINSTREAMING AND INCLUSION
- SEC 325 LITERACY IN THE CONTENT AREAS
- SEC 374 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- SEC 385 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- SCU 351 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with SEC 385)
- SEC 395 ASSESSMENT ISSUES IN SECONDARY EDUCATION
- BBE 301 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM

**Student Teaching: 10 quarter hours required, grade of B- or better required**

Registration in student teaching requires completion of all requirements and procedures in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

- SEC 390 SECONDARY STUDENT TEACHING (10 credit hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Biology majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- Science: Biology Content Area Test (test #105) – assesses knowledge of both biological science and physical science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.
Secondary Education Chemistry (BS)

The Bachelor of Science program in Secondary Education Chemistry prepares students to teach 6th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Chemistry. With the double major, students will graduate with a Bachelor of Arts or Bachelor of Science degree with a major in Secondary Education and a major in Chemistry. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Chemistry (see Chemistry BA or Chemistry BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Chemistry major and want to switch to the Secondary Education Major and Chemistry double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Chemistry do not have the option to double major in Chemistry.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education Science-Chemistry (grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical
content knowledge research, and DePaul's Vincentian Mission and the COE's Conceptual Framework.

- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student's social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

**College Core Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner

Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning

Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students

Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development

Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)

Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy

Balances self-confidence and assertiveness with respect for others’ perspectives

Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one’s behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Advanced Standing

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul undergraduate 2.5 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
● achieving a satisfactory rating in a proficiency examination accepted by DePaul
● achieving a score of 3 or higher on the Advance Placement (AP) test for any language
● achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level
  International Baccalaureate (IB) program
● achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood
Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP,
or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE
Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the
“Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate
competency in a modern language, the “Modern Language Option” is available to them for language study at any
level.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests
specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete
supervised field experiences in appropriate settings in conjunction with education courses. The field experiences
must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education
settings. All field experiences must be completed prior to final approval for student teaching. Field experience
hours should be entered by the student into the FEDS system when completing courses with field experience
requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is
authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements,
visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any
time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement,
not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher
preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

● Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content
  area courses
● Overall cumulative G.P.A. of 2.50 or better
● Cumulative GPA. of 2.75 or better in all education courses
● Meet all other program requirements (e.g., modern language and residency requirements)
● Meet designated program standards
● Pass the required Illinois licensure content area test

Clinical Requirements:

● Completion of all required field experiences
● Three satisfactory evaluations in field experiences
● Three satisfactory faculty recommendations
● Attendance at mandatory meeting for student teaching
● Application for student teaching, resume, transcripts, and writing sample (check deadlines)
● Review and approval by Student Teaching Committee of the College of Education
Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

  - 1 Additional Course
    (Note: PHL 100 recommended)

Scientific Inquiry (SI)
• 1 SWK Course Required
  (Note: This must be in biology.)

Social, Cultural, and Behavioral Inquiry (SCBI)

• 3 Courses Required
  o PSC 120 THE AMERICAN POLITICAL SYSTEM
  o 2 Additional Courses

Religious Dimensions (RD)

• 2 Courses Required

Understanding the Past (UP)

• 2 Courses Required
  (Note: One must be US History.)

* Students must earn a C- or better in this course.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Content Area Courses

Chemistry Core:  40 quarter hours required, grade of C or better required

• CHE 130 GENERAL CHEMISTRY I (3 credit hours) and CHE 131 GENERAL CHEMISTRY I LABORATORY (1 credit hour)
• CHE 132 GENERAL CHEMISTRY II (3 credit hours) and CHE 133 GENERAL CHEMISTRY LABORATORY II (1 credit hour)
• CHE 134 GENERAL CHEMISTRY III (3 credit hours) and CHE 135 GENERAL CHEMISTRY LABORATORY III (1 credit hour)
• CHE 230 ORGANIC CHEMISTRY I (3 credit hours) and CHE 231 ORGANIC CHEMISTRY LABORATORY I (1 credit hour)
• CHE 232 ORGANIC CHEMISTRY II (3 credit hours) and CHE 233 ORGANIC CHEMISTRY LABORATORY II (1 credit hour)
• CHE 202 APPLIED PROBABILITY AND STATISTICS (2 credit hours)
• CHE 204 ANALYTICAL CHEMISTRY (3 credit hours) and CHE 205 ANALYTICAL CHEMISTRY LABORATORY (1 credit hour)
• CHE 302 QUANTUM CHEMISTRY (3 credit hours) and CHE 303 EXPERIMENTAL PHYSICAL CHEMISTRY I (1 credit hour)
• CHE 304 THERMOCHEMISTRY (3 credit hours) and CHE 305 EXPERIMENTAL PHYSICAL CHEMISTRY II (1 credit hour)
• CHE 340 BIOCHEMISTRY I (3 credit hours) and CHE 341 EXPERIMENTAL BIOCHEMISTRY I (1 credit hour)
• CHE 394 SEMINAR (2 credit hours)

**Mathematics Core: 12 quarter hours required, grade of C or better required**

- Choose one of the following:
  - MAT 147 CALCULUS WITH INTEGRATED PRECALCULUS I (6 credit hours)
  - MAT 150 CALCULUS I
  - MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I (5qh)
  - MAT 170 CALCULUS FOR LIFE SCIENCES I (5 credit hours)
- Choose one of the following:
  - MAT 148 CALCULUS WITH INTEGRATED PRECALCULUS II (6 credit hours)
  - MAT 151 CALCULUS II
  - MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II (5 credit hours)
  - MAT 171 CALCULUS FOR LIFE SCIENCES II (5 credit hours)
- Choose one of the following:
  - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III (6 credit hours)
  - MAT 152 CALCULUS III
  - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III (5 credit hours)
  - MAT 172 CALCULUS III WITH DIFFERENTIAL EQUATIONS (5 credit hours)

**Physics Core: 12 quarter hours required, grade of C or better required**

- PHY 170 UNIVERSITY PHYSICS I
- PHY 171 UNIVERSITY PHYSICS II
- PHY 172 UNIVERSITY PHYSICS III

**Pre-Education Introductory Courses: 20 quarter hours required, grade of C or better required**

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- SEC 364 METHODS: CURRICULUM AND INSTRUCTION IN SECONDARY SCHOOLS
- SEC 314 THE NATURE OF SCIENCE
- SEC 324 INQUIRY & APPLICATION IN DEVELOPING SECONDARY SCIENCE PEDAGOGY
- SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT
  or SCU 337 HUMAN GROWTH AND DEVELOPMENT

**Advanced Standing Education Courses: 28 quarter hours required, grade of C or better required**

- LSI 346 STRATEGIES FOR MAINSTREAMING AND INCLUSION
- SEC 325 LITERACY IN THE CONTENT AREAS
- SEC 374 TEACHING THE SCIENCES IN THE HIGH SCHOOL 1
- SEC 385 TEACHING THE SCIENCES IN THE HIGH SCHOOL 2
- SCU 351 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION  (Taken in conjunction with SEC 385)
- BBE 301 TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM
- SEC 395 ASSESSMENT ISSUES IN SECONDARY EDUCATION

**Student Teaching : 10 quarter hours required, grade of B- or better required**

Registration in student teaching requires completion of all requirements and procedures above. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

- SEC 390 SECONDARY STUDENT TEACHING (10 credit hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Chemistry majors must complete the following tests:

- Test of Academic Proficiency (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.*
- Science: Chemistry Content Area Test (test #106) - assesses knowledge of both geological and chemical
Secondary Education English (BA)

The Bachelor of Arts program in Secondary Education English prepares students to teach 6th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and English. With the double major, students will graduate with a Bachelor of Arts degree with a major in Secondary Education and a major in English. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and English (see English BA for degree requirements) as their secondary major. If you have already begun the Secondary Education English major and want to switch to the Secondary Education Major and English double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Arts degree with a major in Secondary Education English do not have the option to double major in English.

Licensure

Illinois Professional Educator License with endorsement in Secondary Education English Language Arts (grades 6-12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- articulate and communicate orally and in writing, as well as demonstrate in practice, a personal philosophy of teaching grounded in adolescent development and learning theories, global perspectives, pedagogical content knowledge research, and DePaul’s Vincentian Mission and the COE’s Conceptual Framework.
- define, create, and evaluate a safe, healthy, creative, and rigorous learning environment that facilitates cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction and collaboration, and mutual respect and empathy, and encourages active engagement, academic risk-taking, divergent and creative thinking, self-motivation, and personal and whole-class goal-setting.
- identify, justify, implement, and evaluate differentiated instructional strategies that support rigorous critical, creative, and exploratory thinking and metacognitive awareness, and problem-solving, collaboration, and academic, social, and emotional development of all students.
- articulate, analyze, and theorize an understanding of adolescent development within historical scholarly traditions that recognizes the complex roles that linguistic (including English learning and nonmainstream English dialects), social, economic, cultural, academic, spiritual, and personal experiences both inside and outside of school have on classroom instruction and adolescent development and learning.
- plan, design, implement, and evaluate curricula and instructional practices based on disciplinary content knowledge, pedagogical content knowledge, multiple literacies, diverse student characteristics such as language, learning, and socio-emotional and behavioral differences, diverse types of student performance data, curriculum goals, and the community context.
- articulate and demonstrate in practice a foundational knowledge of reading, writing, speaking, listening, and cognitive development theories and related pedagogies that are grounded in sociocultural theories of literacy and reflect an understanding of multiple literacy theory and practice.
- articulate and demonstrate disciplinary content knowledge expertise and the historical, social, economic, and political roles and implications of that disciplinary content on human development and societies.
- plan, design, implement, and evaluate formative and short- and long-term summative assessments for promoting student learning and self-assessment, identifying student needs, monitoring student progress, measuring student growth, and evaluating curriculum and student outcomes using diverse types of data.
- identify, articulate, plan, and implement a theory of collaborative practice with students, parents/guardians, school partners, and community stakeholders that recognizes student’s social, emotional, spiritual, and academic development and promotes human and environmental empathy, social justice, and democratic practices.
- articulate and demonstrate professional educator dispositions that are grounded in ethical and Vincentian tenets of human relations and that exhibit professionalism, with an emphasis on leadership, collaboration, and advocacy for students and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
• Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others' perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one's behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

**Skill Building Courses**

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Advanced Standing**

Students are conditionally admitted to the College of Education. There are additional requirements to reach Advanced Standing in your program in the College of Education. Requirements must be met to progress in the major and take courses in the Advanced Standing category.

Advanced Standing requirements are:

- Maintain a DePaul undergraduate 2.5 GPA
- Pass the Illinois Test of Academic Proficiency (TAP)
- Submit a petition for advanced standing form

Students should attempt to complete the Advanced Standing requirements soon after beginning the program. There is no time limit to meet these criteria; however, students will only be able to take pre-education courses until requirements have been met. Students can also take liberal studies or content area courses before or after meeting Advanced Standing requirements.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a
measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SNL Joint Program (BAECE) program.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Liberal Studies, Pre-Education, Advanced Standing and concentration/content area courses
- Overall cumulative G.P.A. of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test
Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual child care agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an
evaluation request.
All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

  (Note: One must be US History)

* Students must earn a C- or better in this course.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Quantitative Reasoning and Technological Literacy

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Major Requirements

Course Requirements

Content Area Courses

English Core: 8 quarter hours required, grade of C or better required

- ENG 220 READING POETRY
- ENG 221 READING PROSE

Language/Communications: 4 quarter hours required, grade of C or better required

- ENG 211 GRAMMAR AND STYLE

British Literature Core: 16 quarter hours required, grade of C or better required

- ENG 328 STUDIES IN SHAKESPEARE
- Choose three from the following:
  - ENG 310 ENGLISH LITERATURE TO 1500
  - ENG 320 ENGLISH RENAISSANCE LITERATURE
  - ENG 330 RESTORATION AND 18TH CENTURY LITERATURE
  - ENG 340 NINETEENTH CENTURY BRITISH LITERATURE
  - ENG 350 MODERN BRITISH LITERATURE

American Literature Core: 12 quarter hours required, grade of C or better required

- ENG 361 AMERICAN LITERATURE 1830 TO 1865
- Choose two from the following:
  - ENG 360 AMERICAN LITERATURE TO 1830
  - ENG 362 AMERICAN LITERATURE FROM 1865 TO 1920
  - ENG 364 TOPICS IN GENRE STUDIES
  - ENG 365 MODERN AMERICAN FICTION
  - ENG 366 STUDIES IN POETRY
  - ENG 369 TOPICS IN AMERICAN LITERATURE
  - ENG 371 TOPICS IN AFRICAN AMERICAN LITERATURE
  - ENG 373 MULTIELTICL LITERATURE OF THE U.S.
  - ENG 374 NATIVE LITERATURE

Literature Elective: 12 quarter hours required, grade of C or better required

- ENG 300-level British or American literature course 1
- ENG 300-level British or American literature course 2
- ENG or WRD 300-level course

Pre-Education Introductory Courses: 20 quarter hours required, grade of C or better required

- SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION
- SEC 364 METHODS: CURRICULUM AND INSTRUCTION IN SECONDARY SCHOOLS
- SEC 311 THE NATURE OF ENGLISH
- SEC 321 INQUIRY & APPLICATION IN DEVELOPING SECONDARY ENGLISH PEDAGOGY
- SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT
  or SCU 337 HUMAN GROWTH AND DEVELOPMENT

Advanced Standing Education Courses: 28 quarter hours required, grade of C or better required

- LSI 346 STRATEGIES FOR MAINSTREAMING AND INCLUSION
- SEC 325 LITERACY IN THE CONTENT AREAS
- SCU 351 DOING CRITICAL PRACTITIONER RESEARCH IN EDUCATION (Taken in conjunction with SEC 381)
- SEC 371 TEACHING ENGLISH IN THE HIGH SCHOOL 1
Open Electives: 4 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95.

Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

- SEC 390 SECONDARY STUDENT TEACHING (10 credit hours)
- EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education English majors must complete the following tests:

- Test of Academic Proficiency (TAP) (test #400) - assesses knowledge of reading comprehension, language arts, writing, and math. Test is required to qualify for Advanced Standing. *Check with your advisor about qualifying for a waiver with acceptable ACT or SAT test scores.
- English Language Arts Content Area Test (test #111) – assesses reading, writing and research, speaking and listening, and literature. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education Environmental Science (BS)

The Bachelor of Science program in Secondary Education Environmental Science prepares students to teach 6th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.
Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.
